Mr Speaker and Gentl\textsuperscript{m}.

I Herewith send You the Petition of Joseph Lazon Master of the French Sloop now in this Harbour togeather with his journal and other papers and recommend to you That a committee of both Houses may consider of and Dispatch this affair as soon as possible, as for my own part it is my opinion That he be sent away as he came and that the French Govern\textsuperscript{r} of Movie may have notice thereof That They may not have to say That this Governm\textsuperscript{t}: entice their People away or give Encouragem\textsuperscript{t}. for their desertion it is my Opinion That the French who came hither by Land or Sea have other designes than what they discover or pretend to and look upon them as Spies to discover our Barrs harbours and passages more especially this Man This being the Second time of his coming hither———-

I most Cordially and earnestly recommend To you That the said Committee may consider of the affaires of the Indians and their Trade as soon as Possible and how the Country may be
eased of the Charge of maintaining them, For a particular acco\*t: of this affair I must refer You to the honble Coll°.. Chicken Commissionr.. to Coll°. hastings

Cpt Hatton and the Traders now in town and their Letters, Journals & papers concerning the same by which I find That our Trade with them is very precarious (for which I am very sorry) That with the Creeks being partly caus'd by the French and Spaniards and some of our own Traders and by Sloops going to Trade at Movile from New York and as to that with the Cherokees and Catawbees to be chiefly caused by the Indian Traders particularly Marr and I now send you the warr*^: by which he was apprehended but how he came to be discharg'd I cannot tell. I hope effectual care will be taken to apprehend him again as alsoe those persons who stand in Defyance of the Lawes of this Province and in Contempt of the Warr*^s: Serv'd upon them for a particular acco\*t of this affair I must referr to Cpt Hatton's return conserving Several of the said Warr*^s: here-with Sent and if these persons goe unpunished you may—expect not only to loose the Trade but also to have an Indian Warr Or at least that Trade to be carry'd to another Country Therefore I can't but again most Cordialy and earnestly recom'end this affair to you and That God Almighty will direct you therein are the hopes of

Mr., Speaker and Gentlm..

I am verry glad That Cp^t Woodward is Come hither soe well from Port Royal and I referr you to him for a just and full Accot^t: of the affaires in those parts I design to give him the
Commission to be Coll°: there and I have sent a Coll°: Commission to Cpt Palmer———
Mr. Woodward acquaints me that Spotswood & Bee are gone up the Fork above Fort King George which affair as likewise abt Marr and others I Cordially and earnestly recommend to you That a Speedy examination be made and orders thereupon for in my opinion these Sort of proceedings may endanger the peace and quiet of this his Maty’s province and consequently the Loss of your Indian Trade and if there be noe Law at present to punish such Offenders, I shall be ready to pass one for their punishment to be an example to others

Mr. Secretary brought the following Message togethether with the Petition of Peter Manigault———
Mr. Speaker & GentIlm..:

I propose to you———(for the Safety Of his Maty’s Province) That noe French or Spaniards whether Deserters or others may be suffered to come into this Country by Land but That the

If any French or Spaniards come by Water as Deserters soe far as the Barr & the Pilots goe on board That they acquaint them not to come into this Country upon any acco't Whatsoever but if they have a Flagg of Truce they may be carry'd into five Fathom hole and one Or two of them with their papers and Letters sent up in the pilot boat but at their perills not to stir with their boat from that Place——

Benj'm. Whittaker appointed to take under their consideration the Affaires of the Indians Reported That those affaires as they now stand are of the Last consequence to the Province at this juncture they having by many concurring circumstances to much Reason to believe That Dicks Letter is true and therefore were willing to goe step by Step & have the opinion of the house on every circumstance before they proceed any further and therefore read and layd before the house the following Scheme they propos'd to pursue with the Indians if approv'd of——

Which being read and consider'd paragraph by paragraph the house Agreed to the whole——

The Talk agreed to be given to the Indians——

After We have heard what They have to say to us, if their Talk is Agreeable to us by way of Introduction We are to tell y'm. That We are pleased to hear That they have been against the Yawmaseses & Congratulate with them on their Success and lett them know that thereby we are convinc'd they are our good friends and That as they have now Shown themselves to be such
That We shall on all Occasions Support them against their Enemy's when they have occasion of our Assistance and acquaint them with the Contents of Dick's Letter.

Then the following Questions may be propos'd
How Doe the Cowetaws and lower Townes take your falling on the Yawmasees Do you think they intend to take the Yawmasees part against You
Are you under any apprehensions That the French or Spaniards or their Indians will trouble you for attaching the yawmasees Doe you want any assistance to protect you against them

The Committee think it will not be advisable to propose the foregoing Questions to the Indians unless the assurances thereby given be strictly comply'd with if the Indians demand them And therefore it is necessary to be precariously resolv'd That a Number of Men be rais'd to assist the Tallapousees ag^t: the Yawmasees and other the Enemy's of this Governm't: if they shall desire it

If the Indians fall in with Our propos'd Measures and acknowledge That the Contents of Dick's Letter to be true then 'twill be propper to remark to them that as we Send them assistance we expect they will use their Utmost Endeavours to prevent the French Settling amongst the Cowtaws and as we are enform'd Tickorrobea is threatened by the French and Spaniard for his late exploit it may be us'd as an argument to influence him That the nearer the French are to him they'd be the better able to hurt him & his friends and That the sole intention of the French Settling Fort's ag^t: them is to keep them as Slaves and prevent Our Traders carrying Goods amongst them——
Mr., Secretary Hart brought down the foregoing Report read and concurrd to in Council
Resolved That the house will to Morrow morning enter upon the debate of the Agency——
The Petition of the Inhabitants of St: John's a\pish Setting forth That they have built a Chappel of ease at their own charge and praying that the said Chappel may be established by Act of Assembly was read
Order'd That the petitioners have leave to bring in a Bill according to the prayer of their Petition
The Petition of Some of the Inhabitants of St John's a\pish for cutting a Creek from Newmans Path to the Govern's Tree was
read & leave given to bring in a Bill according to the prayer of the sd petition——

The Petition of Peter Manigault Attorney to Isaac Cordes setting forth the said Cordes had Lately Sent into this Province Six Negroes in order to Settle upon his Plantation and Praying the Duty's of the said Negro's may be remitted the Prayer of the said petition was granted the petic'on giving Security to the Public Receiver as usual——

Benjamin Whittaker Esq't. Lay'd before the house an additional Bill to the Act for the better ordering and Governing Negroes and other Slaves which being read the same was remitted & then the following Question was putt

The Question was putt if the full Value of all Slaves Executed by Public Authority Should be payd for by the publick according to their appraisement——

Carryed in the Affirmative

The House adjourn'd 'till tomorrow morning . 9 . of the clock

Saturday the 6th Day of June 1724

The House mett according to Adjournment——

Mr Secretary Hart brought from his Exe'cy the Govern't. the following Message——

Mr'. Speaker and Gentlemen

I can't but most cordially and earnestly Recommend to you That a Committee of both Houses be appointed as soon as possible to View the New Church and Appoint where shall be the Publick Pews of Several Kinds and I will goe with them and give mine Opinion therein, I also recommend to you That Something may be done ab't: the old Church for the Ruinous condition it is in at present look very odd and I think somewhat dangerous for any Court to be held there I think That Something ought to be done ab't: that Church Yard by ditching or Otherwise and I also recommend to you That a new Church Yard and place for a Ministers house may be ascertained as Likewise what Shall be done about the three Publick Lotts and That the affair of the Streets may be ascertaighest & nam'd and if possible all the Lotts layd out and number'd and that Some place be appointed for the burial of Negroes because I Observe that now they are promiscuously buryed some In Lotts and some in the Streets, I think that some more propper place be———appointed for the
Gallowes & Gibbett and That the bounds of the old burying place be ascertaine’d & referr you to the honble Coll’s: Bull for his Draught concerning these affaires——

I Find That Sending the Pettiaugers from the Garrisons for Provisions &c. is very inconvenient & hazardous to the Garrison both wth respect to the Men and Pettiaugers therefore I propose That Some other method may be form’d to Supply the Garrisons with provisions by Undertakers Soe that Neither the Men nor Boates come from the Garrisons Therefore I recommend That a Committee of both houses be appointed to consider this affair and then I will give my opinion it being too long to insert here should have leave to come hither but with Consent of the Assembly

The way of getting Men for the Garrisons I take to be not onely inconvenient but very unsafe therefore the sooner these things are Consider’d the better and I shall assist the Committee therein and now that the honble Coll’s: Chicken is Commission’d of the Indian affaires and Supervis’d of the—Garrisons that all Letters and Edson’s concern’d be Sent to him for by their soe doing these affaires will the sooner be dispatch’d & with less trouble as for the three Indians they brought down to me I propose to keep two of them to Send as presents to their Royal highness’s the Prince and Princess of Whales and have enquir’d of those concern’d in Indian Trade who say they may sell for about fifty pounds a piece wherefore to Ease the Country the Charge of the Indians I Shall give them One hundred pounds & I propose That the other Indian may be Sold towards defraying the charge & as for the Skin’s a present to me I would have them sold to the best advantage towards defraying the Charge of the Indians

hon’ble Gentl’s.

Yor. ready and willing complayance with these proposalls will be very acceptable to

I Suppose by the Acco\textsuperscript{t}: Mr., Young sent You it may be seen how verry Chargeable it is to have a Printer come hither and if any should I can't Suffer him to Exercise his Trade without giving verry good Security not to print any thing without License from the Government and I can't give him any for printing the Body of ye Lawes till his Maty'es Royal will & pleasure be known therein That in my Opinion the money appropriated for a Printer may be better dispos'd of for the good of this his Maty'es Province

I am most Cordially concern'd for the Great loss That his Maty'es Province in General and more particularly That part to the Southward hath Sustain'd by the Death of the hon'ble Coll\textsuperscript{e}: Barnwel I have my Self been an Eye and Ear Witness of the Great Service he did for this Country in Great Britain and therefore in hopes That he might have done more if he had gone yo\textsuperscript{r}. I Proroug'd the Assembly from time to time in hopes That We might have had a full acc:. from our Agent of all our affaires committed to his charge particularly concerning the taking off the Enumeration of Rice and prolonging the bounty of Tarr and Pitch the latter of which I am afraid is not Obtain'd and
then can't be 'till the next Sessions Sessions of Parliament those very few affairs which have been done in this Assembly and some others to be done togeather with Several other reasons obliges me most cordialy Earnestly and Sincerely Recommend that an Act may be past continuing this Assembly 'till the first of October next come Twelve Months by which time I hope in God all affairs may be settled to your Satisfaction and Credit

If I did not make this Proposal I think I Should very much fail in my Duty to his most Sacred Majesty and the very great desire I have for the Welfare and happiness of this his Maty'es Province You have a Precedent of your Own and a very good one lately in Great Britain for you to follow if You don't think to comply with this proposal (as God forbid) I am of Opinion That those two inseperables his Maty'es Interest and Service & that of this his Maty'es province will Oblige me not to call another Assembly 'till please God I have Com'ands from Great Britain to doe soe or that there be an absolute necessity for it here which I hope will not happen——

Honble Gentl'm

This affair I think being of the Last Consequence for the keeping the peace & quiet of this his Maty'es province and the prosperity of the same I most heartily recommend to you That a Committee of both houses may be appointed as soon as Possible to take this affair into the most Serious consideration. I put it now in your power (I think) of continuing to Act as most Loyal & Dutifull Subjects to his most Sacred Majesty & so consequently of doing your Country good Service if any ill Accident (whch God forbid) should happen for your not complying herewith: I cannot justly be accus'd thereof But You will in a great measure hinder one from doing you all your. good that lies in my power. That God Almighty will be pleased to direct You in all your affairs in General but more particularly in this are the most hearty Sincere Prayers & wishes & hopes of

The Committee are of the Opinion That at Fort Moore there ought to be on the Establishment a Cp°: Lieut°: and twenty five Men the Committee were induc'd to be of this opinion for that We are under great Apprehensions That the Lower Creeks are entirely in ye interest of the French & Spaniards and That We may soon expect a Rupture with them and therefore That Garrison ought at all times to be provided with Corn not only for their own Subsistances but also to Subsist a Number of Men that may be commanded that way On any accident

That We for the same reasons think it necessary That Fort Prince George Consist of a Cp°: Lieut°: and fifteen Men and that the said Garrisons be provided with at least four Months
Provisions and all other necessary's agreeable to their Establishment and they never be without that Quantity

That instructions be forthwith given to the Commiss'y and y° Respective Command's to raise Men for the Purposes afores'd

That the Commiss'y have directions to Contract with some Porton at Port Royal for provisions which we conceive will Cause a Considerable charge in maintaining Men in Town & other incidents w'ch accrue on necessary delays——

That as it has been experienced That buying Serv'ts; to Supply the Garrisons has been of Advantage with the publick we think the Same measures ought to be pursu'd & that the Commiss'y have instructions for that Purpose That the Number of Servants never exceeded a third part of the Men in the Garrison——

The House Reading and considering the above Report & the Talk agreed to be given to the Indians agreed to the same

Mr: Speaker and Gentlm:.

Several Complaints have been made to me formerly and more especialy of late by Captaines and Commandr^s: of Ships and Vessels That their Men run away from them & are harbour'd & entertain'd in this place & parts adjacent—which must be a great discouragem^t: for Ships and Vessels coming—hither to look for Ffreight & consequently of great prejudice to the Inhabitants of this his Maty'es province and I think all encouragem^t: ought to be given for Ships & Vessels to come hither I take it that those Seamen who runs away from their Ships to be Rogues That upon any opportunity would turn Pirates which they may verry easily doe with pettiaugers or other Boates by lying at the Barr and Seize any Ship or Vessel going out or coming in I take it ye^t: the Pirates lately infesting our Coast was first begun by Such sort of Fellowes, Therefore I propose to you That a Law be made for Severely punishing such runn awayes and any ^son & ^sons who shall harbour or Entertain any of them except they have a Tickett Signed by their Master and countersign'd by one of his Maty'es Justices of the Peace for without that they may Counterfitt their Master's hands

The House Taking under Consideration the affair of the Agency motion was made that the Question should be putt—Whether an Agent shall be sent from hence to Great Britain in the Room of Coll°: John Barnwel deceas'd formerly Appointed to that Employment.

And some Debates arising upon the s°d quest°: The Previous Quest° was putt whether the s°d Question Should be putt———Carry'd in the Negative

Then the Question was putt whether there Should be an Agent to transact the affaires of this Province in Great Britain Carry'd in the Negative

The Question was then putt whether Francis Young Esq°: shall be payd £100: 0 : 0 Sterling for his Service since the time his———Agency expired to the time of his receiving Notice of his x x x x Discontinuance

Carry'd in the Affirmative

The following Message was sent to his Exe'cy the Govern'r May it please yo°: Exe'cy..

This house has come to a Resolution to give Francis Younge Esq°.. the Sume of One hund°. Pounds Sterl: for his Service Since ye° time his Agency expired to the time of his receiving notice of his discontinuance and we are of Opinion That the Committee of Correspondence who were desired last Sessions to continue to write to him after the Act w°ch appointed them was expired may be desired to acquaint him therewith by the first Oppertunity Because we apprehend the Committee of Correspondence ceases

The foregoing Message was sent up by Benj°. Whittaker Esq°: & Daniel Hugier Esq°.
The Petition of Gerard Monger Praying to be payd for a Negro kill’d which being read was referr’d to the Committee of Acco’ts:
The Petition of Joseph Caballa praying to be payd for some Publick Service under Coll°: Hasting was read & referr’d to the said Committee

May it Please yo’r.. Exe’cy

The affairs of the Indians having taken up great part of our time since our present Writing has prevented our answering yo’r Exe’cys Several Messages which you have been pleas’d to lay before us but having the s’d message now under considera- tion We take Leave to answer them as—follows

We are of Opinion That Coll°. Parris be order’d to Supply Mr Lloyd with such Ordnance Stores as are said to be wanting & that the Powder Room in Grandvills Bastion be forthwith re- pair’d as also the Carriages for the Gunns, there being £300. Appropriated for the Carriages by the Assembly along time Since——

We are of Opinion That the Committee appointed to view Johnsons Fort doe procure an Estimate to be made of what the repaires of the platt fforme will amount to that the House may consider whether they will proceed thereon but We are appre- hensive it cannot well be done ’till the ffall there being noe money apply’d to that use as we remember in the last Years Estimate

As to the Fortifications of Charles Town soe far as relates to Private Persons We are of Opinion That a Law be pass’d to Oblige ye proprietors of the Lotts and Flatts proportionably to build up the level That a reasonable time be prefix’d & in case of neglect the publick to build them up and levy & charge on the Propriet’s of such Lotts & Flatts in such proportions as the Law shall provide

That a Commodious Flatt be built at the charge of the Publick to receive all the Ballast that the Command’r of the Fortification have an additional allowance for the care of the said Flatt and keeping it in repair & to see the ballast thrown out at high Water Mark and that the Ballast be thrown out by the Sailors of ye’es respecive Vessels That a Law be pass’d affixing such penaltyes and with eurch propper Additions as may be thought reasonable
As to that part of yo^r: Exe'cys Messages which relates to ye^r: Changing the New Bills for the old We apprehend That the Comm's when they have finished the new Bills will give timely Notice to the Proprietors of the Old Bills to bring them in according to ye^r: Directions of the Law and we are not apprehensive that there's a Necessity for rechanging the Three Thousand Five hundred: £ at present

As to the French Disserters coming hither by Land We are satisfy'd this Government never us'd any Arts to entice those Desserters But if they shall come here voluntarily of themselves, We are entirely of Opinion That it will weaken the French Settlements and Strengthen this Colony and that it is against the Law of Nations to send back such who come to take Sanctuary in another Country

We desire your Exe'c'y would be pleased to write again to the Government of St Augustine that he suffer none of the Spaniards to come to this Settlement by Land on Publick Ambassy's or other Occasions & that in case they doe they will be restrained of their Liberty

The Case of Johnson's Fort is referr'd to a Committee & We are not apprehensive of any additional Instructions to be given to the Command'r: of Johnson's Fort but what were agreed Upon the Last Assembly & We desire you will be pleas'd to Sign them they being herew^th: return'd to you——

As to my Instructions which relate to Fort King George We think that matter does not lye before the Assembly because the s'd Fort is at his Maty'es Charge & immediately under the Care of yo', Exe'c'y

The affair of Marr is already referr'd to a Committee of Indian Affaires & Bee and Spotswood going up the Fork is referr'd to y^m: likewise

We are of Opinion That all such Great Gunns belonging to the Publick as are at the White point be remov'd to Govern's Bluff & those at the Cutt below Coll's: Palmers to Port Royal——

We think that Publick Notice be given at the head of the Company's for all persons who have any publick armes in their Custody to bring in the same to the Captaines of the respective Company's fortwith on pain of being prosecuted with the Severity of the Law for their Neglect that the Cpt's: of each Company doe return such as are out of Repair & unfit for Service to the
Armoury in Charles Town & That they Report to the General Assembly what number of Armes remain in their hand fitt for Use and what Ammunition they have in their keeping——

That the Lookout (Vizt) Two Whitemen & two Indians at the Mouth of Port Royal & four Whitemen at Cockran's point be continu'd for Six Months that the Chief of the four White Men be allow'd £8..0.. Month the rest of the White Men £6 £ Month and the Indians £3 .. ———

We are of Opinion That instead of an Allarm to be made there be an additional Clause to the Militia Law that Once in the year if required all persons whatsoever Shall Appear account'd as the Law directs at the General Muster for that making of Allarmes unless there be an apparent & imminent danger may be attended with ill Consequences

As to that part of yo" Exe'cy's Message which desires an Order of both houses to be made for the Committee of Correspondence to write to Mr. Younge ab't: the Plantation—— Bounds—— We apprehend it to be an affair which falls under the immediate province of yo": Exe'cy & the Officers of the Customes & does not Lye before this House——

As to the affair of the Pews recommended in yo" Execy's Message of the . 6th. inst: to be referred to a Committee of both houses We take leave to Acquaint yo" Exe'cy That there is a Law wch: leaves those Matters to the Church Commiss'rs & the Vestry, That there is already a Pew for yo" Exe'cy & his Maty'es hon'ble Council and a Committee Committee of the Lower house have pitch'd on a Pew for the Assembly and the House have concurred thereto and therefore conceive it improperr for a Com- mittee of this House of Assembly to intermeddle any further therein

We conceive of the old Church to be in soe Ruinous a Condition That the expence will be too great to undertake the repair thereof——

That the Church Warders of St Phillip's be acquainted that they Shall have the assistance of the General Assembly in Levy- ing the Charge upon the Inhabitants of the Town of Fencing the old Church—yd

That a new—Church—Yard be layd out but are of Opinion That ye' parsonage-house & Glebe be still kept for the use it was first—Appropriated by the Donors
We apprehend that the Country is not in a condition to make any publick Buildings or improvements on the three publick Lotts & that they remain as they are at present

As to ascertaining the affair of the Streets We are of Opinion that the new Survey made of the Town will be of much worse consequence than if it had never been attempted it making a great alteration in private persons titles who have quietly held their respective Interests most of them twenty Yeares and upwards and under the Sanction of the Law of this Province called the Statute of Limitation & therefore That the new Survey be Postpon'd but ye: the House which stands in the middle of the Bay at the Northend of the Town may be Remov'd

We conceive That the Church—Warders ought to take care Of a convenient place for the burial of Negroes

That the Gallowes and Gibbett be remov'd up further in ye Road but not soe near to any House as to give any Offence

The Supplying the Garrisons with provisions & the method of getting Men for them is propos'd by the Committee of Indian affairs to which the House agreed

We agree with yo: Exe'cy that the money appropriated for a Printer be apply'd to other uses since the charge is soe great to procure one and that it be apply'd to the repaire of the Plattformes (if there be not a more urgent Occasion for it)

As to the affair of an Agent We are of opinion an Agent is noe way needfull at this juncture.

We are of Opinion That Doct: Maitland be payd by the Publick for the cure of the two Indians the Person who did the in- jury being incapable to make Satisfaction——

We have come to a Resolution That the Indian now in Prison be sent to his own Nation & That he be inform'd That if he be found in the Settlements again He will be dealt with as an Enemy & That he be deliver'd to the Creeks now in Town

We humbly Submitt the affair of Alexand'r: Robertson & his wife to yo: Exe'cy's clemency to doe therein as yo: Exe'cy thinks fitt——

An order has been already sent to yo: Exe'cy for £50.0.0 for the Rever'd: Mr: Morritt

& the affair of the School is entirely under the Direction of the Commiss's who have full power to proceed therein according to the directions of the Law——
The affair of Mr. Loughton's entertaining the Spaniards as also that of Coll°: Theophil's Hasting lyes before the Committee of petitions & Accounts.

An order is sent up to yo Exe'cy for the Six hund'd pounds formerly Voted for the repaires of Christs Church for by a mistake it was Left out of the last Yeares Estimate & may now be payd out of the moneys unappropriated in the Treasur°: hands.

We cannot be of Opinion that Coll°: Parris be directed to demand the Freight of Skins brought down in the Publick Pettiauger by Glover because the Pettiauger was sent down by Leave & order of the hon'ble Coll°: Chicken on the following conditions That they should bring up provisions for both Garrisons and That He should provide four hands & bear their Expences in Town & see them Safe up again And We think it was of Service to the Garrison & noe detriment to the Public for y°: the Garrison had not propper Men to send nor could they be Spared. They are soe weekly mann'd.

The Church Warders ought to take care to regulate and Rectify the abuses mentioned in yo Exe'cy's Message which relate to the Old house in the broad Street——

George Smith Esq°: From the Committee of Indian affairs made the following Report——

The Committee of both houses appointed to conferr on Indian affairs Does Report as followes

We are of Opinion That the Cherokees ought to have Lbwt. 350. of powdr°: & .700. Lbwt. of Bulletts with a Drum & Colour's To be for the use of the upper and the Remaind°: to be divided equally between the middle and lower Cherokees & the £w°: 3. of paint be given amongst them——

We are also of Opinion that the Governour be desir'd to send a talk to the upper Cherokees who have deserted & fled to the middle Settlement to induce them to return to their former Settlements

We alsoe think it necessary to purchase an Indian Woman & Child & therefore are of Opinion That Coll°: Parris be order'd to buy the sd Slaves and the same to lett the Cherokee: Indians have upon paying the purchase be payd for them——

We are of Opinion that Sawney Long be sent to come down to this Government where he may depend on being received and all former offences forgiven an Account of which may be sent
for under the Governour's hand by the first Trader that goes That way.

We are alsoe of Opinion That a Gun be given to each of the four Cherokees that are come down, more than the afore men-
tion'd particulars

The Bill for Establishing a Chappel of Ease at Chilberry was read a third time & past with amendments——

The Bill for cutting & clearing a Creek from Wadboo Land-
ing to the Bridge built at Mr: Newmans path was read a third time & past with Amendments.——

The two foregoing Bills were sent up by Maj: Jnº: Drake——

The House adjourn'd 'till to morrow morning. 8. of the Clock.

Saturday the 13th day of June 1724.

The House mett according to Adjournment——

Mr., Secretary Hart acquainted the House that the Indians were in the Council Chamber

The Speaker with the whole House waited on his Exe'cy the Governour in the Council Chamber in order to hear what was deliver'd to ye Indians

The Speaker with the House return'd from the Council Chamber.

The House taking under Consideration the State of the Fort at Beaufort——

Resolved That Collº.. John Woodward be empower'd & desired to finish the said Fort at Beaufort as conveniently and with as little expence to the Publick as possible and That he lay his Accounts concerning that affair before the General Assembly at their next meeting

Proposals made by Arthº Hall of securing the North East Bas-
tion of Johnson's Fort

I Propose to make a Mudd Wall Eighty feet Long Twenty feet wide Six foot of which to be solid Mudd & the Remº. of Timber & Oyster Shells the said Wall to be Six foot high the Front whereof to be secured by piles drove in the Ground for which Consideration doe expect the Sum'e of Two hund'éd & fifty pounds & the privilege of getting the Timber that's wanting for the s'd Worck off the Publick's Land.

Resolved That his Exe'cy the Govern°. shall receive out of the Publick Treasury of this province the sume of One Thousand pounds & that an order be drawn on the Treasurer for the same——

On Motion of John Lloyd Esq°. That Mess°. pickring Yeomans and Ellis who have examin'd & Stated the Acco°s: of the late Tax Commiss°s. Should be consider'd for their trouble

Mr. Speaker & Gentl°.

We Have consider'd Your Message brought in by m°. Attorney General & Mr: Hugier whereby We perceive That you intend Mr: Younge noe longer to be our Agent in Great Britain &
by what you intimate concerning the Committee of Correspondence it seems that you have noe intentions to appoint any other person in his place———

When We Consider that the affaires of the Agency was the Last Session referred to a Committee of both houses who made their Report that it was absolutely necessary That an Agent should be appointed to Sollicit the Establishing Of a Bank & other the Weighty affaires of this Province & This Report concurred to by both houses We are greatly Surpriz'd That soe just a Resolution should be attempted to be Overthrown without our being Consulted therein———

Gentlemen

As We have the same Share in the Legislative Power soe our interest are equally at Stake with yo's. We have therefore endeavour'd to preserve a good Harmony between both Houses & treated the House of Commons with all ye regard due to persons with whom We have cultivated soe good a correspondence, and have hitherto concerted measures for the common good & We still hope that in consulting on an affair which We esteem of the utmost Consequence in preserving his Maty'es Government, Our form's: good Understanding will not be interrupted

The Duty that We owe to his Most Sacred Majesty the Interest and preservation of his happy Government: in this Province & the Common Security makes us desire and we cannot but expect You will appoint a Committee of yo house to joyn one of ours to conferr on this Weighty and important affair more especially when you consider that the Executive part of the Governm: is entirely Vested in his Exe'cy & this board by his most Sacred Maty'es Comiss'n: & Instructions

Mr'. Speak'^: & Gentlm'^.

I Herewith send You yo' Agents (The hon'ble Francis Young Esq'^.) Letter to me which I received last night but I expect You will read it over two or three times & then return it to me and that Care be taken that noe Coppy of it or of any clause thereof be taken by any

Nemine Contradicent——

John Lloyd Benj: Whittaker & Robt: Fenwick Esq: were appoint’d a Committee to draw an Ans: to his Exe:’cys Message— Benj: Whittaker Esq: from the above Committee Reported the following Message.—

May it Please yo: Exe:’cy

This house having taken under Consideration Yo: Exe:’cys Message of this day concerning the Continuance of this present Assembly Unanimously have resolved that there is noe Necessity of doing it at this present Juncture But this h: humbly hopes Yo: Exe:’cy will be pleas’d to call a New Assembly as soon as possible because the Circumstances of this Country are always soe precarious with the Indians that We cannot be in safety without One longer than the time for calling them togeather——

This affair We take to be of soe much consequence to the Welfare of this Province That We should be wanting in our Duty to those who sent us if We did not in the Humblest Manner represent it to Yo: Exe:’cy and therefore We perswade our Selves that yo: Exe:’cy from the Concern you have constantly Shown for his Maty:’es Interest and that of this Province—— will before our Dissolution give us reason to hope you will call Another Assembly in as small a Space of time as is necessary for that purpose

And as We conceive the situation of the affaires of this Province will very soon require the Sitting of an Assembly We are therefore of Opinion That the Province will not Suffer if an
Agent is not Appointed ’till a New Assembly meets which We doubt not will Study the good of their Country & be verry agreeable to yo’... Exe’cy

The above Message was sent to his Exe’cy by Cp^ Pet^ Simmonds and Cp^ Joseph Seabrook——

And those Gentlm: being return’d Reported to the House That they went to his Exe’cy with the said Message and having made some progress in reading the Same the Govern’re: answer to them was, Goe I’ll call an Assembly when I please & would not receive the said Message nor hear it read out———

The above Report upon a Question in this House was order’d to be enter’d in the Journal

Mr Secretary Hart brought from his Exe’cy the Governour the Two following Messages

Mr Speaker and Gentlemen

In answer to yo’: Address I Take it as an high Presumption and Unparliamentary to give Your Answer without a Committee of both houses as proposed and little less than Arbitrary

And in Answer to the Second Clause or Paragraph ’Tis my Opinion the later another Assembly be call’d the better & what further convinces me in it is your proposing it the Sooner the better for you can’t but be sensible that I have an Acco’t: of what Sort of Men are intended to be Chosen &  çift:tyes rais’d to choose y’m which if ever Accomplish’d the Country may date their Ruin from the time, for my part I hope I Shall never be flatter’d or terrify’d from doing my Duty to his Most Sacred Majesty

I Should have been verry glad if You had continu’d yo’: firm Loyalty to his Most Sacred Majesty in complying with what I have now propos’d to you and not made soe hasty an Answer—

I Think None of You can justly Tax me with ingratitude or for not being Sincere in all my promises and proposals or that you can Tax me with having made my Fortune of what You Please to allow me which was but the same you did to the hon’ble James Moore Esqr: when Govern’... and I think I may justly Challenge any person to accuse me of Malladministration Tho’ Some çift:sons in this place not unknown to yo’ selves have & Doe endeavour to be Elected but I thank God their Endeavours prove abortive And That their Letters Memorials & address I have already proved partly false partly Scandalous & partly
Malicious & I hope to be Able to doe the Like by those I have
not Yet answered

I think I may without Vanity Say That I have Spent my time
& my Own Estate whilst I have been here endeavouring to pro-
mote those two inseperables his Maty’es Interest and Service and
that of this his Maty’es Province & I hope in God that wth. the
advice and Consent of his Maty’es Hon’ble Council We shall
Continue—— to promote the same & those hon’ble Gentlmen’s
firm Loyalty & Zeal I have always found

I thank You for yo’t: Last Complim’t: but to return you the
same is a verry Great Trouble to

Mr Speaker and Gentlemen

On considering your address about Dissenters, I think they
are not soe great a body of the people as you conceive but that you
are misinform’d & That the Chief Body Body of this Province
are of the Established Church.

If it were soe how came there to be soe many Churches & Min-
isters but perhaps there are some persons that have a mind to
pull down the Church and send their Ministers a begging I should
be glad to know under what Denominations they pretend to
be Dissenters what Ministers they have and their Members in
each of their Congregations as to their being Serviceable to this
Province and contributing to the Support of Governm’t: it is
what they are obliged to by Law & their own Interests & I Sup-
pose that verry few of them did noe more or soe much as the
Members of the Church of England what they have done dur-
ing my Administration has been only for the same reason as
before & I have never found them to be more dutyful or loyal
than the Members of the Church of England If they have I would
have them prove it I’m Sure they cant justly tax me with
oppressing them by debarring them of their Libertyes and
Privileges or of Seizing their propertyes on Acco’t: of their
Religion, and as what Small Charity I have given in this Town
They have been partakers therein in the Employments both
Civil and Military I have commission’d some of them and they
have had the Liberty’s of Swearing after the form of their pro-
fession and as for the Members of your house I sent you his
Maty'es Instructions which is now three yeares agoe and I think there was some instructions given by yo'. House to the Agent concerning that affair but as yet I have had noe commands concerning it.

I have for some time heard That a Bill was preparing this Acc't: As for the Bill you sent up I told you in the Council Chamber That if I had had a mind to have trick't You in it I Should have pass'd it and then yo'.— Law concerning Assembly's had been in Danger, You having given me the just Occasion I can't but Lett You know that one Mr. Samuel Eveleigh presumptuously took upon him (to give it noe worse an Epithete) to keep an address to me from the Dissenters which the Rever'd. Mr.. Archibald Stobo acquainted Me with what Eveleigh did in this affair I take it to be Slighting his Maty'es Govern'mt: Therefore if You have a mind to Shew yo'. Loyalty & Zeal for his Maty'es Govern'mt: That you have this affair Strictly enquired into & y' the said Eveleigh & others concerned therein be proceeded against according to Law——

Mr. Secretary Hart brought from his Exe'cy the Bill for the better regulating the practice of the Law w' th the following Indorsement:

This Act not to be passd without a Clause that it shall not any way Effect his Maty'es Suites or the suit of any of his Maty'es Govern's for the time being as Govern'.——

The Committee appointed to draw an answer to his Exe'cys=

Two Messages received last Night Reported That they had drawn which They desired might be read which being read was agreed to and and order'd to be Engrossed

May it please your Exe'cy

In answer to yo're Exe'cy's Message Last Night relating to the continuance of the Assembly tho' We have alway's Cultivated & kept good Understanding with his Maty'es hon'ble Council Yet We cannot be of Opinion That they had anything to doe with us in an Affair that could properly concern none but this House who are the Representatives of the people & where Libertyes
& priviledges were Verry much concern'd in continuing the present Assembly——

We are sorry yo: Exe'cy has soo ill an Opinion of the Inhabitants Of this Province as to think they will not choose Representatives for the next Assembly That will have at heart as much His Mat'y'es honour & Interest of this Province as the present One——

It is great Satisfaction to us that Your Exe'cy find noe other fault with our Loyalty but that we did not at yo: pressing instances Revive the Assembly for a longer time than limited by Law which We could neither justifie to yo: Selves or to our Electors unless a Sufficient reason had occurr'd for that purpose But We Well know That our King that builds his happyness upon the Libertyes and priviledges of his Subjects will not think the worse of us for Supporting them

We are concern'd yo: Exe'cy gives soo great a prefferance to the Council for Loyalty but We are in our opinions as Loyal as they and shall in our several Stations as oppertunity offers give Convincing Proofs thereof——

In answer to your Message of last Night Relating to the Dissenters This House never sayd they were the chief Body of this Province or that they exceeded the Church of England but We have experienced That such of them as are Members of this present Assembly have shew'd themselves good Good Subjects to the King good Friends to yo: Exe'cy & soo willing on all Occasions to contribute to the Maintenance of the Clergy of ye Church of England & to the building of Churches that considering how much it is for the Welfare of this province to have a good Understanding between his Mat'y'es Protest: Subjects We should have been Wanting to our Selves if we had not Apply'd to yo: Exe'cy to p'mitt them to Swear according to the form of their professions and as You have thought fitt to refuse Our Request we could Wish Your Exe'cy had done it in a more Obliging Manner

T Hepworth Speak'.——

May it please Yr Excell'y.

The house takeing under Considerac'on the Verbal Message brought by Mr. Secretary Hart concerning the General Assembly sitting longer than this day. We are still of the same Opinion as we were in our Message to your Excell'y: of this Morning, &
We desire that the Two laws past three times may be ratify'd, and the order past this day that no disputes may hereafter arise concerning the Legallity of our sitting any Longer.

The Two foregoing Messages sent up Coll°: Arthur Hall & Capt Joseph Seabrook.

Mr Secretary Hart brought from his Excell°: the Governour the following Message

Mr Speaker & Gen°:

By your Message just now reciev'd, wherein you give it as your opinion that the present general Assembly determines this night. We have consider'd the Clause of the Act relating to the Dissolution & are of a Contrary Opinion for by the Letter of the Law, Tomorrow being Wednesday, is included, so that the general Assembly subsists till Wednesday Twelve aClock at Night.

The house adjournd till 2 of the Clock in the afternoon

The house mett according to adjournment°:

Mr Secretary Hart brought from his Excell°: the Govern°: the following Message.

Mr Speaker & Gen°:

In Answer to that part of your message of no date about Exchanging the old bills, I suppose some of your house and their Particular friends, have reasons to delay it. Tis impossible to give a true state of this Province, till all the old bills be destroy'd. The delay of wch: if it be a prejudice to this Country let it lie at your door. As to the £3500 after you are up Youl have no power to dispose of it. To that part relating to the french deserters I am not of your Opinion, that it will weaken the French & Strengthen your selves, but rather the reverse, and as for the law of Nations, & Entertaining deserters wch: are generally rouges & Spys; in this Case I have had more Experience than to be Concluded by your message, But if any Accident happens which God forbid, Let it lye at your doors and I think it gives an handle for the French to make reprizals./

You are of Opinion that makeing alarms may be attended with ill Consequence; I think otherwise, and it being in my Power I shall do it when I think proper; to see the readiness of the militia and to punish those that are not provided according to law. As to sending to you about Plantation Bonds. Tho'
it does fall under my Province and the Officers of the Customs, 
yet I sent to you to shew you that I take as much thought & 
pains, that the Innocent go free as the Guilty be punish'd. As 
to the affair of the Pews: I take it that the Commissrs: have no 
power to appoint any for the School Master, Usher, Scholars, 
Masters of Ships, & Vessels or any other for Publick use, which 
was the reason that I wrote to you that a Committee of both 
houses Should do it. I am Sorry that Coll° Chicken, should give 
such an order as to send down the publicks Periago on such 
conditions as you say. But the four hands were likewise the 
Publick's, and shall take care that no such thing be done for the 
future: and I say t'was an high Presumption to send any of the 
Publicks men under Com'and of any private Person As to 
the old house in the broad street being a Nuisance by Entertain-
ing Lewd & disorderly Persons I shall give directions to the 
Church Wardens that the same be pulld down. There are several 
other things you have not yet Answer'd, which is thought a 
duty incumbent on you by

In Answer to your Message of no date brought up this Morning I dont see any reason to alter what was done last night But I have found by several of your Messages that they have been very variable & one hath been inconsistent w\( \text{h} \) another & too hastily resolvd upon & if your Reasons be true w\( \text{h} \) you alledge about calling Assemblys that it can't be done under forty days, then I had good reason to propose the continuance of the Assembly, & if any Accident should happen which God forbid, Let the blood or mischiefs that occur thereby be at your doors, and whether your Proceedings or mine are most right, his Maj- esty will be the best judge for God willing the whole Proceed-
ings shall be sent to the right hon\( \text{ble} \): Lords Com'iss\( \text{s} \): for trade & Plantations

Before the above Message was sent up the house had an Account the Council was adjornd

Mr. Secretary Hart brought from his Majts: Council the following Message./

Mr Speaker & Gent.

In your Answer to his Excellcy: Message of last night relateing to the Continuance of the Assembly you tell him, that tis your opinion that the Council has nothing to do in that affair wch: only Concerns your house as the representatives of the People. We are not at present Sensible wherein we have Concern'd ourselves.

We Rather believe you meant his Excellcy: the Govornr tho you did not care to mention him, wch if it was your meaning We desire you would explain yourselves. if otherwise We are desirous to be inform'd Wherein his Majts Council have been so overbusy in this Affair as your Message seems to impart

Tho should we at any time think fitting to give our Opinion for the Continuance of an Assembly when we thought the Necessity & Affairs of the Countrey requires it, We should not take it to be intermeddling wth Affairs that did not Concern us.

As to his Excellcy: Opinion of the Loyalty of his Majts. Council We find it not Strange that you differ wth him in that as you do in many other things
