The Comittee of Petitions and Accounts made the following Report on the petition of John Hale which was read and agreed to and Order'd to be sent up to the Council with a Message praying their Concurrence.

The Comittee on Petitions and Accounts do Report on y': Petition of John Hale That it appears by Information of the Public Treasurer—that Execution has been levyed on the said Hale as a Defaulter in not making a Due return as the Law directs Viz$: for three times the amount of his Tax for this present Year wch$: was Eleven pounds

That as the said Hale did not designedly refuse making the Return or paying his Tax but as it otherwise appears to the Comittee his own Indisposition and some other impediments was the true Cause. Wee are therefore of Opinion that the publick
Treasurer be directed to Remitt so much of the same Levyed on the said John Hale as a Defaulter and receive no more than the Amount of his Tax and that the said Hale pay the Charges arrising from the Execution as well as forthwith pay his Tax to the said Treasurer—

Read & agreed to and Order'd that proper directions be accordingly given to the Treasurer

Mr: Rhett from the Comittee of Petitions and Accounts made the following Report Vizt:
The Com'ittee of Petitions & Accounts do report on the following Petitions
First/The Petition of Daniel Townsend Edward Vanvelsen and Conelius Battonn Comander of ye Watch in Charles Town: That it appears to the Com'ittee the said Com'anders of the Watch did by order of his Honour the President do Extraordinary dutys during the Spaniards stay here in the manner following Vizt: Edward Vanvelsen and his Watch Cornelus Batton and his Watch Two Days and one Night Daniel Townsend & his Watch Two Days

The Committee are therefore of opinion the Publick Treasurer be directed to pay the said Comanders & their Several Watches for their Extraordinary Duty according to the time above mentioned.

The Petition of Thos: Henley that by a Certificate under the hands of two Justices and three freeholders of Craven County, it appears that a Negro Man belonging to the said Hendley was kill'd by one Andrew Collins, at the time when the people of Winyaw were under Arms from some apprehensions they had of the Waccamaw Indians designing mischief against them for that the said Collins in the Night seeing a Man armed coming up to his house challenged him who not answering he thereupon shott him dead which proved to be the Negro beforemention'd belonging to Mr: Hendley.

The Committee are of Opinion the case of Mr: Hendley is the same with that of Coll: Stone and others who were all paid by the Publick for Negroes kill'd by accidents of this Nature and do therefore recomend that Provision be made in the Estimate for the ensuing Year to pay the said Hendley the Sum of £100:0.0 which is the Sum allowed by Law in such Occations.

Thirdly The Petition of William Miles praying an Order on ye Publick Treasurer for the Sum of £80:0.0 for a Negro of his Executed for killing another Negroe.

The Committee find there is Sufficient Provision made by Law for the better Governing and Ordering of Slaves for the payment of all such Negroes as should be condemned and Executed According to Law, by an assessment to be made on the In-
habitants of the Precints where such Negroe is executed and the Comm’tte are of Opinion that there can be no Difficulty in making such an Assessment for the Precinct of Charles Town as the Petitioner sets forth but rather a failure in the Justice of the Precinct.

Mr: Speaker & Gentn:

Myself & his Majesties Honble: Council cannot by any means agree to your proposal of directing Coll: Parris the Treasur: not to burn the money in his hands raised by the dutys, there being an Act of Assembly rattified the 15th day of Febry: 1723 which possessively enjoins the burning the money arrising by the duties (those excepted which are appropriated for payment of the Salary of the Clergy and building the brick Church in Charles Town) every six months & that the same shall not be reissued on any pretence whatsoever, the method taken in the said Law for the sinking of the bills was at the time of the Enacting thereof looked upon as a favour & of most ease to the people, for us now to break through that Law by any publick Order will give the Governm't: of Great Britain room to beleive we are trifling with them which may procure an order from home to sink them with less ease, these are our reasons for not complying with your desire & hope they have such weight with you as silently to let drop a resolution We cannot comply with,—

Information being given to this house that the men have been taken out of the Scout Boats to Row the Pettiaugo to Fort King George & the said boats have been employ\’d to Convey the s\textsuperscript{d}: Pettiaugo with provisions to the said Fort & being inform\’d that one of the Captains of the said Boats is in Town.

Order\’d that Mr: Rhett Coll\textsuperscript{o}: Hall & Coll\textsuperscript{o}: Palmer be a Com\’it-tee to examine the said Captain.

Mr: Sec\textsuperscript{r}: Hart brought from the Council the Tax bil past a third time in Council & alter\’d & amended after it was past a third time in this house.

Resolv\’d that Coll\textsuperscript{o}: John Fenwick Mr: Whitaker Mr: Allen Mr: Smith & Mr: Eveleigh do im\’ediately take under their Consideration the Tax bil sent down from the Council amended in Council after a third reading in this house & Report to this house their Opinion of the method of proceeding in such cases.

The Com\’ittee having taken the same under Consideration made the following Report.

The Com\’ittee appointed by this Hon\textsuperscript{ble}: house to search presi-dents concerning the Priviledges of this house Report.
That they have searched divers presidents & find that according to the usage of Parliaments after a bil has had a third reading it cannot receive any alteration. That his Majesties Honble: Council having made several alterations in the Tax bil without acquainting this house that they intended such alteration is contrary to the Custom of Parliaments; Your Comittee are therefore of Opinion that as the matter now stands this house cannot regularly order the said bill to be ingrosed or proceed any further thereon.

The above Report was read & taken under Consideration & the two first clauses were agreed to & the following message was Order'd to be drawn on the last parragraph.—-

Honble: Gent:—

Upon looking Over the Tax bill sent down to this house by Mr: Secry: Hart We are surprized to find the same alter'd & amended by you after it had past a third time in this house

This proceeding We look upon to be unparliamentary & not agreeable to the good understanding there has allways been between the two houses.

We now return you the said bil again & unless you send it back to us exactly as we sent it to you after it had past a third time in this house it will not be Consistant with the honour & Priviledges of this house to proceed any further thereon.

The above message sent up by Mr: Whitaker & Capt: Green who were directed to carry with them the Tax bill.

The bill for founding & establishing two Parochial Chappels of ease the one at Will town to the Parish Church at St: Pauls & the other at Capt: Cox's Plantation to the Parish of St: Bartholomews was read the third time & past with amendments.

The bill for establishing a Ferry from hooping Island on Edisto was read the first & past with amendments.

The two foregoing bills were sent up by Capt: Green & Capt: Nicholls

Mr: Rhett from the Comittee appointed to examine the Capt: of the Scout Boats made the following Report.

The Comittee appointed to examine into the managemt: of the two Scout boats have examin'd the persons following on Oath.

Capt: Jacob Wright Comander of one of the said Boats declared as follows.
That his Scout Boat & the other are Constantly imployn’d in turns to carry Provisions to Fort King George as well as sometimes to come to Charles Town for necessaries for the said Garrison.

That Coll° Woodward (under whose direction the Scout boats are) has Com’anded the sd: Wright as well as the Comander of the other Scout Boat to put two or three of their people into a Perriaugo which the said Coll° Woodward generally sends with them to carry the Provisions to Fort King George.

That the men of the Scout Boats have allways Complained & thought it a hardship to serve on any duty but what belonged to the Scout Boats. John Hutchinson one of the people who formerly belonged to Cap*: Wright’s boat & now in Cap*: Palmeters declares Viz*: That both the Scout boats in their turns allways carry provisions in them to the aforesaid Garrison of Fort King George where: does not only incom’ode them in the boat but makes it very difficult for them to pass several Shallow places in the large Sounds they must cross & that two or three of the boats crew are allways imployed in a Perriaugo of Coll° Woodward to collect provisions & carry it to the aforesaid Garrison.

Hugh Willson one of Cap*: Wright’s boat crew declared as follows, That he hath been one of the people imployed in Coll° Woodward’s Perriaugo & has fetch’t provisions in the Scout Boat 20 or 30 miles up Ashepoo River & carryed it afterwards to Fort King George.

The Com’ittee are of Opinion that the two Com’anders of the Scout Boats shou’d have instructions giving them by the Presid*: in writing in respect to their duty & to direct Coll° Woodward on no pretence whatsoever at any time to fetch any of the provisions design’d for Fort King George on board either of the Scout Boats & that the men belonging shall be employe’d on no duty but what belongs to the said Boats & that boats by turns Ren-devouz at Hilton’s head.

That the Cap*: of the Scout Boat now in Town be order’d to carry the Gun’s &ca: which has been thought proper to be mounted at hilton’s head.

Mr. Sec'y: Hart brought from the Council the following message with the Tax Bill.

Mr.: Speaker & Gent

We sent you down the Tax bill upon our second reading with such amendments: as We thought fit to make if, upon your third reading you were not willing to agree to those amendments: it would have been Parliamentary to have desired a Conference with this house to adjust the same, but to read & pass the bill the third time with amendments: without desiring such a Conference, & raising out ours & denying us the same Privilege is concluding us to your own amendments: which We look upon is taking from us the undoubted Right We have of framing altering and mending bills.

We therefore send you down the bill with such amendments: as We past it with last night & as We are unwilling to incroach on your priviledges so We shall be very carefull of preserving what We know to be our own—disputes of this nature are very disagreeable to us, had you proceeded upon the third reading as you ought to have done there had been no occasion for it.

Mr.: Whitaker from the Com'ittee appointed to draw a message in answer to the message from the Council Reported the Same & after some Amendments made therein the following message was agreed to be sent.

Honble: Gent:

The message you sent by Mr. Sec'y: Hart of the 4th Instant this house has taken under their serious Consideration & As the Subject matter of it is of the utmost Consequence to the Privi-
ledges & even the being of Assemblys here, so we shall be as careful in our answer as the Subject requires. As the Rights & Libertys of Parlions: are inherent to every Englishman in Great Brittain so we hope those who have the Misfortune to live in America are not to be precluded those rights for that reason only. On this foundation, we presume, we are still just in our proceedings in relation to the Tax bill, & that none of them have been unparliamentary, it being a Constant Rule in G: Brittain, that all bills ought to be amended in that house where they arose, as well as that all Amendm^: from your house ought to be sent down to ours for our agree^: thereto before they are put into the Bill. And as this is a Maxim in passing all bills of what kind soever, so we think the Argum^: is still stronger on our side as to the money bill.

Your Hon^s: seem to be of opinion, that it would have been parliamentury for this house to have desird a Conference after the Amendm^: on the Second reading of the Bill in yours in order to adjust the same, & therefore to read the bill a third time in ours, without such desire is consequently unparliamentary so that the point in question is now whether your Hon^s: or this house have been so. On our side we think we have the strongest Pesid^: in G Brittain to support our opinion, founded on Several reports of the Com^:s proceedings in Cases of this kind, and we hope his Maj^s: honble: Council of this Province, will not deny they are so. Therefore we cannot conceive how this house could be unparliamentary in takeing no Notice of your Amendm^: since from better Authority than our own, we knô that those Amendm^: were made in a Manner very different from the usage of Parlions: in Cases of the like Nature, you having alterd the bill in your house upon a Second reading without desiring a Conference; wch: upon a strict Examination you'll find you ought not to have done. As to the right of frameing altering & amending Bills. If it regards the bill under debate, we are of a very different opinion from your Hon^s: because it would deprive us of a Privilidge, without wch: a house of Com^:s would be of very little consequence.

Disputes of this Nature cannot be more agreeable to us Than to your hon^s: however when we find it necessary, we are obliged to maintain them. And as we are perswaded we have proceeded in this Matter as an Assembly careful of their Priviledges ought,
so we are resolv'd always to act in a manner consistant wth: that Carracter

Mr° Speaker & Gen°

I am very sorry to find the two houses have fall'n into dispute, concerning Privilidges, when at the same time I am satisfyd it was not the Intention of either to infringe on the other, as this Accident has already hinder'd sometime in the Dispatch of the publick affairs so I shall now use my Endeavour (as an Indifferent person) to put a stop to it. 3dly. That at the Second reading the bill do pass wth: Amendm'ts and that none be made on the third.

4thly. That all amendments made by either house be put in a Seperate peice of paper & sent to either house for their
Agreement thereto and the house disagreeing desire the Conference

M for Secret: Hart brought from the Council the following Message. M for Speaker & Gen:

I this morning sent you a Message in relation to the disputes between the two houses desiring that Com’ittees might be appointed to find out proper Methods to end them.

The Committee of his Maj’es honoble: Council have accordingly made their report to this board & I was in hopes that the affair now in Dispute was got over, but not hearing anything from your house on that head I again put you in mind of it, & assure you that nothing shall be wanting in me to forward the business now before us nor shall it lye at my Door if the affairs of this his Maj’es Province are neglected.

The following message was drawn & sent to his Maj’es Council by Capt Dry & Capt Green in answer to their message of this morning.

Honoble Gen:

In answer to your message before noon receiv’d by Mr Secret Hart The tax bill might have been pass’t before now, had not you made Amendm’s: to it & pass’t it without desiring any Conference, wch. we hold to be very unparliamentary, and whatever happens to be the Consequence of the delay it has met wth: cannot be attributed to us.

We propose that the bills that are engross’d & ready for passing may be ratify’d as soon as possible that the Session may conclude as soon as his hon: the President thinks proper
Maj. Hepworth & Capt. Dry were directed to carry up your engross’d Bills to be compared in Council & to have the seals affix’d to them.

Mr. Secretary Hart brought the Council the foll. Message together wth: a report of the Council appointed to confer wth: a Com’ittee of this house to prevent disputes between both houses for the future in passing bills &c. he also brought with him the Bill for establishing a Ferry from Hooping Island on Edistoe to Mr. Joseph Boons Island. read in Council the 2d time & pass’t wth: Amendmts:

Mr Speaker & Gen:

In Answer to your Message of yesterday by Mr Rhett and Mr Nichols, we have as seriously considerd our Message of Saturday last & do not find any thing therein Contain’d, that in the least infringes on your Privilidges or the being of the lower house of Assembly. We did therein insist on our own Privilege of frameing altering & amending of money bills for wch: we have his Maj’s: royal instructions. We are still of opinion that our proceedings on the tax bill (brought to us this session) are regular & supported by the Constant Method of passing bills heretofore usd in our Assemblys, Allowing it to be a constant rule in G Brittain that all bills ought to be amended in that house where they arose. We concieve the reason of that to be that such bills are read three times before they are sent to the other house; so that there is a necessity that all amendmts: should be Concurrd to in the other house, before they can be inserted and made
part of the Bill, & so it may be here. when both houses agree on this Method of passing of Bills wch: way of reading bills was agreed upon at the beginning of his Excellency: Governer's: Nicholsons Administration but was afterwards alterd by consent of both houses to the old method made use of here of reading a Bill a first, Second & third time & sending at each time of reading to their respective houses in order for each house to make their Amendments. In order to prevent any farther disputes In the reading & passing of Bills. We herewith send you the report agreed to by the Committee of both houses & this board. the words (& Amendments) made in the Second paragraph Excerpted 8th Decembr 1725.

t If you desire to pass the bills now before you engross't in order to be prorogu'd for a short time & then meet & pass the Tax Act. I am willing to agree with you & desire your Answer to this purpose but am of opinion (the bills being all ready) may be pass't altogether at one time

Ar: Middleton

May it please your honr:.

We hope your honr: is opinion that we judge it absolutely necessary that a Tax bill should be forthwith pass't, therefore if your honr: is pleas'd to pass the engross't bills now & to prorogue us for a short time we shall enter cheerfully on & dispatch all the im'diate & necessary business of the province

Mr. Speaker & Gent:

In Answer to your message this afternoon by Capt: Dry & Capt: Green had you ask't a Conference upon our Amemnts: the Second reading which we think it had been parliamentary in you to have done, all these delays & disputes had been avoided, we have regularly pass't the Tax bill a 3d time & sent down to you & as it now lyes before your house we cannot charge ourselves with: the Consequence of the delay of its not passing into an Act
We are ready to dispatch the bills & all other business that lyes before the two houses in order to Conclude this Session

I am willing to pass the laws you desire & to prorogue you for a short time, in order that the Tax bill may pass for the support of the Curr't year. but think it proper that the method of passing bills be first agreed on least disputes should happen & the Bill meet w'th the same fate it has done this session

Sent up by Collo Hall & Cap't. Nichols.

The Sect'y: Brought from the Presid't the following Message. Mr Speaker & Gen't.

I must once more press you to settle the method of reading & passing bills for the future before I can prorogue you. As most of the bills to be passt this sessions depend on the Tax bill the postponing them to another session cannot in any wise be prejudicial to the welfare of this province, therefore the sooner you come to a resolution the sooner you may be prorogu'd

9th: Dec'b: 1725. Ar Middleton

The following message was sent to his hon'r. the Presid't by Mr. Rhett & Collo Palmer.

May it please your hon'r:

In answer to your message receivd last last night by Mr Har-grave We assure your hon'r. that we never have taken any un-com'on method in passing of bills so we shall at all times hereaf-
ter do every thing consistent wth: the Privilidges of a house of Commons & we hope the method this house has agreed to in the report sent your honour last night will effectually prevent any disputes between the two houses upon passing Bills for the future. And in answer to your honrs. message just now receivd we are of opinion that the postponing the ratification of the bills now engross't will occasion our next Session to be as long as the present wth. cannot but be prejudicial to the publick welfare of this province but also a great hardship on the members of this house whose private affairs must suffer from so long an Attendance.

Mr: Secretary from his Majes Council brought the followg Message.

Mr. Speaker & Gen:

We yesterday desird the members that came up to Compare The engrossst bills to return wth: them to your house & we would give them notice when we were ready. His hon: the President has this day acquainted us that he will pass no bill before he prorogues us. It will therefore be to no purpose to compare the bills already engrossst. If there be any other business before you that requires our Concurrence We are ready to dispatch the same. & We take this opportunity to let you kno how desireous We are to settle the method of reading & passing bills, before the prorogation to prevent misunderstandings between the two houses when we meet again.

Mr Sectr: Hart brought from his hon: the Presidt: the followg message

Mr. Speaker & Gen:

In Answer to your message this day by Mr. Rhett & Colls Palmer it is my opinion that the method of reading & passing
Bills w^ch: you have now insisted upon is uncom'on; & not agreeable to what has been Constantly practis'd in this prov-
ine to this time, w^ch: I take to be the stated method & not to be altered but by the Consent of both houses. I am satisfy'd you may be convinc't of this by perusing your own Journals & by the knowlege of several of your members. If in the be-
inning of this session you had a mind to alter the method you should then have propos'd it, but now to insist upon it is to delay time & obstruct the publick business I therefore again recommend to you to follow the Constant practise here in such Cases.

I cannot think the ratification of the bill now engross't will take up much of your time at the next meeting since every matter therein hath been thoroughly debated, & agreed to by both houses. I am sorry so much time has been spent in disputes & hope at the next meeting to find a perfect harmony between the two houses. & a Quick dispatch given to the affairs before you.

Mr. Secretary: Hart brought from the Council the following Message. Mr. Speaker & Gent.

In answer to your message rec'd this morning by Mr. Whitaker & Mr. Parker, we are very much surpriz'd to find that you have pass't a Vote that his Majesty's council have not power to make any alteration in a money bill.

His Majesty in the 35th Art. of his royal Instructions to his Excellency: Francis Nicholson Esq. declares that the members of the Assembly in the Plantations, have of late years assump'd to themselves privileges no way belonging to them; & there enumerates in that article some of the particulars; & concludes that his Council shall have equal power in frameing altering & mending money bills. The refusing his Council so to do he further declares to be Detremental to his royal prerogative.

For you to insist upon a Privilege altogether new in putting us under a necessity either to act contrary to his Maj'es royal Instructions or to suffer the Countrey to run into confusion for want of a necessary supply to Support the same.

We do insist that to alter a money bill is the right of the Council both by the ancient practise of this Countrey & the 35th: Art: of his Maj'es Instructions, wch. We look upon binding on the Gent's: Assemblys of the Plantations whatever your opinion may be of them.

As we have the good understanding of both houses as well as the welfare of the province at heart. so we shall make such a representation to his most Sacred Majesty that his royal pleasure may be known thereon in order to prevent disputes of this nature for the future.

Council Chamber 16th. Decr. 1725. Ra Izard

The Secretary: brought from the Council the tax bill read in Council the third time & past together with the following message Mr: Speaker: & Gent:

We find upon the return of the tax bill read three times in your house, that you have taken out several amendm'ts: made by us upon our second reading wch: We look upon as an infringm't: of the priviledge of this house

But the necessity of the Governm't: requiring a Supply for the Support thereof. We are constrain'd until his Majesties pleasure shall be known (not withstanding such a breach of our privi-
ledge) to consent to the passing the same, to preserve the peace of this his Majesties Province & to prevent its running into confusion

We therefore send you down the bill passed.

The above bill was brought down from the Council by Mr: Secr: Hart read in Council the third time & past with amendments:

The house took under consideration the messages of the Council of Yesterday & Order'd that the following message should be sent

Honble: Gentn:

Observing in your Honrs: message of yesterday that you intend to make a Representation to his most sacred Majesty of the matters that have arrisen between the two houses concerning the method of passing the bill for raising a Tax for defraying the emergencies of the Governmt: for the Current year. We desire that in order to its being put in a clear light his Majesty may be made acquainted that the said bill was not calculated for stamping or making money or enlarging the Currency of this Province but for raising a Supply by way of Tax for Supporting the Government.

As We are greatly desireous that our Loyalty to his most sacred Majesty may appear as conspicuous as possible We take this opportunity of declaring that it can never enter into our thoughts to invade the least branch of his Majesties Royall Prerogative & We are well assured that a Prince who has the rights & priviledges of his people so much at heart could never intend by any Instructions to his Governr: to abridge them of the same. ———

Far are We from any intention of infringing the Privilegeds of your house & We are convinced you cannot blame us for asserting our own on all necessary Occasions & when We inform you of
this We cannot doubt of a very good understanding between both wch: We shall allways be assiduous to cultivate.

Mr$: Sec'y: Hart acquainted the house that the Presid$: required
the attendance of the house in the Council Chamber to Rattifye
The Speaker & the whole house waited on the President to
Rattifye & the Speaker was order'd by the house to deliver the
following Speech to the President at his tendering the Tax bill
to be Rattifyed.

May it please your Hon$:  

As I tender for your assent this tax bill that has occasion'd
a dispute between both houses concerning priviledge I take the
liberty to acquaint y$: Hon$: that thò the 35th article of the
Governor's Instructions allows the Council of Carolina to
frame, alter & amend money bills yet the same article directs the
Govern$: to permit the Assembly to have no more priviledges
than the house of Com'ns in Great Britain from whence We
naturally imply that We are allowed as much & God forbid
We should desire more nor do We beleive it his Majesties In-
tentions to give us less.
We cannot be of opinion that the King intends his Council in Carolina should have greater powers than the house of Peers in Great Britain & as they do not assume to themselves, that of framing altering or amending Tax bills, We are induced to beleive that the money bills mentiond in the s^d: article of the Govern^ts: instructions means paper money bills such as the General Assembly of this & other Govern^ts: in America have heretofore made & not bills to Tax the people as was the dispute in this case & We have the more reason to be of this opinion when We consider our English Constitution w^ch: is so admirably calculated as well for the support of the Royall prerogative as for the liberty of the people that one may say that every man is in some measure Taxt by his own Consent because every taxable man has a Vote for one or more Representatives in the house of Com'ons, & if the house of Peers that We think have no Vote for members to Represent them in the house of Com'ons in Great Britain are content with a negative only upon tax bills this house will naturally beleive that his Majesties Hon^ble: Council of Carolina that have the liberty for voting for members to Represent them in the Assembly will be content with the same power.

This house is very well pleased that your Hon^rs: intend to receive the King's pleasure upon this matter of priviledge and doubt not but at the same time you will be so just as to communicate to his Majesty what I have now say'd upon this Subject by order of the house. What I have further in charge to say is that as it was allways the inclination of this house to have an intire good understanding with your Hon**: as also with the members of his Majesties Hon^ble: Council so We firmly intend to take all measures to Cultivate the same, that shall be consistant with the honour of a house of Com'ons & the interest of the people We represent.

Thos: Broughton Speak^r.

Mr: Speaker & Gentⁿ:

I am extreamly concern'd, I am oblig'd to call you sooner than the time to which you were prorogued, but the melancholy occasion so nearly concerns his Majesties interest & service & that of this his Province that I am bound in duty to require your advice & assistance.

Gentⁿ: I am sattisfied you are all sencible of the unhappy accident that has lately happened by fire to his Majesties Garrison at Alatamaha by which that Fort is destroyed & the Soldiers in a defenceless condition & exposed to insults of the Spaniards & barbarous Indians you know very well by the papers I have formerly laid before you that the boundaries of this
his Majesties Province are now in dispute between the two Crowns of Great Britain & Spain, & as possession gives a right in this case, so abandoning what We have so many years is tacitly giving that Right away, the ill consequence of which is so plain to you all that I need not put you in mind of it Gent\(^a\): I have already represented this affair fully to Great Britain in order to receive his Majesties Royal pleasure, in the meantime Gent\(^a\): I apply to you for assistance therein & I do (in his Majest\(^s\): name) desire that you will grant a loane of such a sum'e of money as may be necessary to put that Garrison in some order of defence til I can receive further instructions about it.

Gent\(^a\): I shall now take the oppertunity to lay before you the Journal of Capt\(^s\): Fitch transactions amongst the Creek Indians & if you find anything material for your consideration in that affair in this short Session I am willing to join with you in it.

May it please y\(^r\): Hon\(^r\):

We thank you for the Speech you were pleased to make to us & for the concern you express for the necessity of calling us before the time to which We were prorogued, but when the interest of his Majesty & this Province which We Represent requires our attendance We shall at all times cheerfully give it. We are under great concern for the late unhappy accident at Fort King George & wish it were in our power to give your Hon\(^r\): such advice as might tend to the service of his Majesty in this Conjuncture but as his Majesties Hon\(^ble\): Council cannot faile of giving you such advice We doubt not that your good Judgem\(^t\): therewith will determine you to act consistent with the great trust reposed in you It would be very agreeable to this house if you would be pleas'd to lay before us the account you have of this misfortune, the Instructions you have given there-upon, in what manner this affair is Stated to his Majesty & what expence it will require to do what you propose to be done to the same

Mr: Secy: Hart brought from his Hon: the President the following message together with a letter from Liev: Watts from Fort King George to the Presid: & a copy of a letter from his Hon: to his Excell: Francis Nicholson Esq: Governr: concerning the unfortunate accident of burning Fort King George. Mr: Speaker & Gent:
I herewith send you the Original letter I receiv’d from Liev: Watt the Com’anding Officer at the Garrison at Fort King George by wch: you will see how the accident has happened & the Condition the Soldiers are now in/
As General Nicholson is the Cap: of the Company I thought it proper to send him the account of the misfortune that he might represent it to the proper place for releif & accordingly have sent a Copy of the letter to his Excell: on this Subject. I have taken care (since the accident) to supply the Garrison with provisions Cloaths Bedds & Medicines & all that I now apply to you for is a necessary loane to build a place of defence, fitt for men to remain in til I can hear from Great Britain.
As to what I have wrote to the comanding Officer of the Garrison since the accident happen’d it has been only to assure them that I would take all possible care to supply them with necessaries & to get some place of defence & proper houses to shelter themselves til I can receive an answer from Great Britain.
As to the expence it is my opinion that no less a Sum’e than three thousand pounds of this Currency will be sufficient for this purpose, but leave that intirely to your own discretion and can only assure you that whatever you think necessary to grant it in this case, I will endeavour to see disposed with the utmost frugality, if there is anything I can further satisfie you in I am ready to do it.——- ..——- ..

To the above message to the President the following message was sent.
May it please your Hon:
This house has read & taken under Consideration your Honrs: message of this morning & the several letters you was pleas’d to lay before us & We take leave to acquaint, you that We are informed that his Majesty has a considerable Sum’e of money
arising from fines & forfeitures which may be sufficient to put the Garrison in a posture of defence & to make provision for lodging the men until his Majesties pleasure is signified upon this unhappy accident for which We are under the greatest concern imaginable.

Sent up by Mr.: Whitaker and Capt: Raven.
The humble petition of Lawrence Coulliette late Clerk of the Crown & Clerk of the Peace & Clerk of the Supream & General Court of Pleas held in Charles Town to this house setting forth some Complaints concerning the manner of loosing his employment was read & taken under consideration & the house on the said petition came to the following Resolutions & order'd the said petition to be enter'd in the Journal.

Resolv'd that the selling of places relating to Courts of Justice is of the utmost ill Consequence to his Majesties Subjects in this Province & very much to the dishonour of his Majesty.

Resolv'd that the buying of places relating to the Administration of Justice is of very pernicious consequence to his Majesties Subjects

Order'd that Benj*: Whitaker Esq: a member of this house & one of the Com'ittee of Correspondence do transmitt to his Excell'y: Francis Nicholson Esq: Gov: the Original petition of Lawrence Coulliettee by the very first Oppertunity with the resolutions of this house thereupon.

To the Hon: Tho*: Broughton Esq: Speaker & to the rest of the Hon: the Members of the Commons house of Assembly.
The humble petition of Lawrence Coulliettee late Clerk of the Crown & Clerk of the Peace & Clerk of the Supream and General Court of Pleas held in Charles Town——

Sheweth

That your petitioner was appointed in the above said places by his Excell'y: Francis Nicholson Esq: Govern: of this Province & continued to act therein until the eleventh day of Jan: last past at which time the President Mr: Middleton sold the same to Mr: Childermass Croft for the Sum' of two hundred pounds current money paid down.

That how inconsiderable soever your petition: may appear in his private Circumstances yet he conceives & is advised that the selling of places relating to the Administration of Justice is
a very heinous offence & greivous oppression to the Subject as well by the Com'on as the Statute Laws of England, & the persons receiving such moneys liable to serve penalties & the persons paying the same render'd incapable of enjoying their places for which any moneys have been pay'd, & of what importance it is to the liberty & property of the Subject that such places ought not to be sold appears by the late judgem't: of the house of Peers of Great Britain against the Lord Macclesfield who was not only removed from his place of high Chancellour of England but fined thirty thousand pounds Stering & Comittee to the Tower til he pay'd the same.

That your petitioner knows not where to fly to for redress unless to this honble: house who have allways been ready to hear Complaints against & discourage all practices tending to destroy the rights Liberties & Properties of the people you represent

Wherefore your petitioner humbly prays your Hon's: to take into Consideration his case & to grant him such releif therein as shall be agreeable to Law and Equity.

And Your Petitioner as in Duty bound shall ever pray &ca——

Law. Coulliette/.

Mr: Sec'y: Hart brought from the President the following message.

Mr: Speaker & Gent:

I am sorry to find by your message just now receiv'd that you are of opinion that the money arrising by fines and forfeitures may be applied to the uses you mention. There is of that money I beleive about a thousand or eleven hundred pounds when the whole can be collected in, but when that is done it is out of my power to make use of it the Right between his Majesty & the Lords Proprietors not being yet determin'd & I hope you will not advise me or his Majesties Council to do any act that may be prejudicial to us hereafter. Gent:

I do therefore again desire you will take this affair under your consideration & grant such a loane as is absolutely necessary for the Support of the Garrison. & I make no doubt but as the same has been establish'd by his Majesties bounty & goodness so We shall be reimbursed whatsoever shall be thought proper to be advanced by you upon this emergency.

3d Feby: 1725.

Ar. Middleton
May it please y°: Hon°:

We have consider'd your Hon°: last message by Mr: Sec'y: Hart & since you do not think proper to make use of the King's fines & forfeitures in this emergency as the Govern°: & Council have heretofore done on other occasions We cannot think of any other expedient than for the comanding officer of Fort King George to draw Bills on proper persons in Great Britain for as much money as is necessary to answer the expence about the said Fort and We make no doubt but the bills will be punctually paid.

Tho°: Broughton Speaker

The above message sent up by Coll°: Herbert & Mr: William Cattle

Mr: Sec'y: Hart brought from the Presid°: the following message

Mr: Speaker & Gent°:

In answer to your last message by Coll°: Herbert & Mr: Cattle wherein you propose that the comanding officer at Fort King George shall draw bills on proper persons in Great Britain for as much money as will be necessary to answer the expence of building the same.

I am of opinion that he has no power so to do neither do I beleive that he will find persons in this Province who would advance money on the Credit of such bills & as the Generall Assembly (upon his Excell°: Mr: Nicholson's going to Great Britain) did apply to him to use his interest for obtaining another Independent company, We leave you to judge what success he may be like to have in such an application when it is known how little care is taken of this We have allready, by refusing a Loan for the building necessary Barracks to shelter the men from the weather after such a deplorable accident until Orders can arrive from Great Britain.

I thought it my Duty to lay this before you in the manner I have done that it may appear nothing has been wanting on my part.

And to the the above message the following answer sent by Capt°: Bond & Mr: Mairant.
May it please yr. Honr.:

In answer to your Honrs. message We cannot but be of Opinion that the Commanding Officer of Fort King George has power to draw bills for England for the support & maintenance of the Soldiers belonging to that Garrison, but as there may a difficulty arrise in promissing current money for such Bills so We are at a loss to determine that point. As your Honr. was pleas'd to convene us for our advice as well as assistance in this affair, We have given what We thought proper & if the methods We have proposed are not deem'd feasable We think there can be but one left to support his Majesties Forces under this Exigency, the money now lying in the Treasurers hands to be burnt.

Tho8: Broughton Speaker

M8: Secry: Hart brought from his Honr: the President the following message.

M8: Speaker & Gentn:

The method proposed in your last message to support his Majesties forces under this Exigency, I am ready to agree to, by applying such a Sum' (out of the money in the Treasurers hands to be sunk) as you shall judge proper but at the same time must Recomend to you, that both houses may join in a Resolution to supply that deficiency in the ordinary way that has been hitherto taken for sinking of bills.

3d Febry: 1725

Tho8: Broughton Speaker
Mr. Secretary Hart brought from his Hon. the President the following message.

Mr. Speaker & Gentlemen:

In answer to your last message by Mr. Rhett & Mr. Seabrook, I am ready to Concur in your proposal & desire the same may be passed by an Ordinance for the greater dispatch of this affair.

Mr. Speaker & Gentlemen:

We were in hopes that no other business would have been laid before you than what was Recomended in his Hon. the President's Speech but at the request of two of his Majesties Honble. Council who were concern'd in this petition We have thought fitt to send the same for you to take under your Consideration if you think proper tho' We think it will be an endless piece of work for the general Assembly to Contenance any set of people to complain agst. such persons as are entrusted with the putting in execution the Laws of this Province for acting pursuant to the same.

3d Feb'y: 1725.

Sign'd by order of the Council.

And the Speaker return'd him the thanks of the house accordingly.

Mr: Sec'y: Hart brought from his Honr: the President the following message together with the Ordinance of the General Assembly read in Council the first time & past with amendments.

Mr: Speaker and Gent:

I send you down the Ordinance passed the first time by his Majesties Honble: Council and I do assure you that no other reasons but what you have therein given should have induced me to pass it notwithstanding the different Construction & hard reflection that was cast by one of your members on the message I yesterday sent you wherein I told you I was willing to Comply with the method you proposed.

As to any other unreasonable votes & reflections of your house I shall take care to clear my selfe of them in Great Britain to those to whom I am answerable.

I thought I might have received better treatment from the Gent: who have so long known me & after so much of my time and money spent in the Publick service of my Country & with credit as I have allways thought, & I am not Conscious to my selfe that I have done any other-ways now.

May it please y^r: Hon^r:

The message just now receiv'd from your Hon^r: by Mr^: Sec^ry^: Hart with the Ordinance is of such an extraordinary nature as makes it necessary for this house to take..................... very particular notice of it.

If any reflections had been made upon your messages that were unjust & inconsistant with the liberty of speech that is allowed in a Com'ons house of Assembly, the members that made them, would have been brought to order, but you may depend upon it, that We shall allow nobody but our selves to be judges of our debates.

We are of Opinion that the resolutions of our house w^ch: you judge unreasonable are founded on the Strictest justice & that you may be the better able to give your judgem^t: We send you the same herewith with a copy of the petition that was the foundation of them. This house esteems the the selling of places relating to the Administration of Justice to be a very great grievance & oppression on the people they represent & shall never faile to shew their just resentment against the authors of those & all other publick misfortunes.—

We do allow that you have spent as much of your time in the Publick service as the rest of the members of his Majesties Hon^ble: Council & that since your accession to the Presidentship you have spent a little more money but since your Hon^r: puts it upon us, We begg leave to put you in mind that the advantage it has brought you has given you no reason to repent it.

Report

The Com'ittee appointed to examine the several papers relating
to the Creek Indians &ca: do Report
That it is the opinion of your Com'ittee that a person be forth-
with: sent to the upper Creeks with such directions as shall be
thought necessary in order to keep them firm to our interest
& that in the mean time a Vote of Credit do pass both houses,
for a Sum' of money sufficient to raise a certain Number of men
to go ag't: Chereek Lee-chee's town in case the upper Creeks
should give us reason to beleive they will join us in that expedi-
tion. That some notice ought to be taken of the insult
com'itted by the Cheerokees on Miles Mr:.,intosh & his people by
taking away his Skins &ca: that they as well as the Creeks be told
that unless they forbear such insults We must discontinue the
trade.

letter be sent to the Governmt$: of New York informing them
that the Tuscaroros has killed several of our friendly Indians
even within our Settlem'ts: & that under the name of Sennecas,
that they would take some measures to prevent the like for the

lowing message.

Mr$: Speaker and Gent'n:

We agree to the Report of the Com'ittee of both houses relat-
ing to the Indian affairs excepting the first article for, We are
of Opinion that such a design ought to be carryed on with all the Secrecy imaginable which We apprehend cannot be done except some part of the men go up im'diately with the person intended to be sent to transact the affairs of this Province with the Creek Indians & the remainder to be ready at the Savanna Garrison to march upon the first notice from the person so appointed.

to have desired the same indulgence w&h: is now prayed by yr Hon^s:

The second is agreed to, as also the third with some additions which you receive herewith

Tho*: Broughton Speak't:

The house mett according to adjournment.

Mr: Sec'y: Hart brought from his Honr: the Presidr: & from Majest\textsuperscript{a}: Honble: Council the two following Messages.

Mr: Speakr: & Gentn:

I am sorry to find by your message of last night that you are of Opinion there is no occasion to send any person to the Creeks, I assure you it is my thoughts that it is immediately necessary to send up a proper person to put a Stop to the ill designes of our Enemies & to make our friends easy til such time as We can take more proper measures.

As the Indian Affairs was the only motive for calling you at this unseasonable time so I hope you will & I earnestly press you to take it again under your Consideration to do something for the safety of the Country before you break up.

Majr: Durham has wrote me word that he will leave the Garrison but I believe if his pay was advanced (as indeed I think it ought) it being much too little for so good an officer it would induce him to keep his post, I lay before you also to consider of the private men who are also very uneasy & for leaving the Garrison

Ar. Middleton

Mr: Speakr: & Gentn:

In answer to your message last night receiv'd, We are Sorry to find that you do not agree in opinion with us, that it is of the utmost Consequence to this Province at this juncture, to send a proper person to the upper Creeks in order to prevent (in time) the evil insinuations of the French and Spaniards amongst the lower people & to keep the upper people steadfast in the interest of this Government, for should any accident happen which you now seem not to apprehend nor prepare agt: by not agreeing to the first paragraph of the Report of both houses, you will then have more difficulty to find means to make up the breach than now prevent it.

As to the Indians coming down We have not now so much reason to expect as heretofore, but were they here present We are
of opinion it is much better treating with them amongst themselves in their own Towns than in our settlements; for whatever proposals have been agreed to heretofore by those who have come among us, they have excused themselves from performing, by saying their head men, had disapproved them upon their return.

We must again repeat that We are so convinced of the necessity of sending a person amongst them, that were the upper Creeks (that are expected) now in Charles town, We still should look upon it that the safety of this Country required a person to be in their nation to keep them firm in our interest.

As all delays are dangerous so especially that of neglecting to send a person forthwith amongst the Indians to undeceive them at this juncture seems to us to be of the last consequence.

This Gentn:

As We are highly concern'd for the interest & safety of this Province We have thought proper, once more, to lay before you for your further consideration, & if it should so happen that you do Stil continue to differ in opinion with us in apprehending the danger of such delay, by relying on the uncertainty of the upper Creeks coming down, We must rest sattisfied, if any ill consequence happens) that We have done our best endeavours to discharge our duty.

Ra. Izard.

The above messages was read & being taken under consideration The following message was order'd to be sent to his Majesties Honourble: Council.

May it please y'r: Honrs:

The house having read, & taken under consideration the message from his Hon: the President & that from his Majesties Honourble: Council of this morning, & as We esteem the affairs of the Indians to be of the last consequence to this Province, We are of opinion that they ought to be further discuss'd & therefore desire that there may be a Conference & on the Subject matter of the afores'd: messages and We have appointed a Com-mittee of this house to meet one of his Majestie's Honourble: Council which We pray may be appointed for that purpose;

The Com'ittee appointed to Conferr with a Com'ittee of his Majesties Honble: Council upon the Subject matter of a message from his Honour the President & another from the Council do Report

That it is the Opinion of the Com'ittee that two persons be immediately dispatch'd, the one to the upper Creeks & the other to the Cherokees with proper Instructions in order to mediate a peace between those two Nations & for that purpose to induce them to meet the Governr: or Comander in Cheif of this Province at Fort Moore, there to Conclude upon it; That it be an Instruction to the person going to the upper Creeks to endeavour as much as in him lyes to remove the prejudices the lower Creeks have entertain'd of this Government that We have been assisting in the Warr between the Cherokees & them, That the Presid:\: do write to Majr: Durham promissing some greater encouragem:\: for his serve than at present he has, this being not a proper time for the Consideration of that affair, & that Majr: Durham do inform the Soldiers of Fort Moore that in case they stay there six Months longer they shall be discharged or receive twenty shillings a month additional Wages.

Order'd that Mr: Rhett Cap:\ Broughton Cap:\ Bond and Mr:\ Barton the former Com'ittee of Petitions be a Com'ittee to inspect into the memorial & Petition of Lievt: James Watt.

The Com'ittee to whom the memorial & Representation as also a petition of James Watt Gent*: Liev*: of his Majestie's Independent Company at Fort King George was referr'd do Report as follows.

First the memorial & Representation sets forth that the Soldiers of the Garrison belonging to Fort King George after the 3d: Fort was burnt were a long time exposed to great hardships for want of Shelter nor could they be prevailed on to erect any Hutts or do any works towards defending themselves or, securing the Stores &ca: that were saved from the fire until the 3d: Liev*: Watt promised them they should be paid in the same manner as is Customary in the Army on the like occasion. That there is an absolute necessity to run a line of Pallisadoes to make such part of the Fort that remains defenceible wch: Pallisadoes can be erected by the Soldiers in case they are paid by the work.

The Com'ittee having examin'd Mr: Watt on the 3d: memorial & representation are of opinion that the engagem*: he has made with the Soldiers for the work they have done should be strictly complied with & that this be Recomended to his Hon*: the Presid*: to order such payments to be made the Soldiers out of the £2000 pounds lent his Majesty for the use of Fort King George, that the said Mr: Watt informs your Com'ittee that it's his opinion there will be no occasion to erect any Barracks at Fort King George more than what the Soldiers have already built nor any more work to the Fort than a line of Pallisadsadoes as he proposes in his memorial in which your Com'ittee do agree in opinion with the 3d: Watt & that the Cheapest & most expeditious manner to erect the 3d: Pallisadoes, will be by employing the Soldiers

2dly.... The petition of the 3d: Watt setting forth that while he was busied in saving the Stores Provisions &ca: belonging to the Garrison he lost his own Cloaths linnen liquor &ca: in the fire to the Value of £250 this Currency.
Committee are of opinion Mr: Watt very well deserves the consideration of this house for his Conduct & service at the time the fort was burnt, as well as putting & keeping that Garrison in the present good posture it's now in & that if this house thinks proper to consider Mr: Watt, it may be for his extraordinary Services and no otherwise.

May it please y°r°, Hon°.

The precarious State of affairs of this Province with the Indians & the com°on Rumour of Warr between his Brittannick Majesty (our Sacred Sovereign) & the King of Spain makes it highly necessary for this Province to take the wisest & most cautious methods for our defence & presentation, & as unforeseen misfortunes may suddenly happen to us from either of those circumstances, We cannot be too carefull to provide against such exigencys; We think our selves Obliged at all times to comply with our Publlick faith, but when his Majesties service is im°ediately concern'd (as in the case of the late unhappy accident at Fort King George,) We must be held acquitted if in so great an emergency some of the money in the Treasurers hands to be burnt was reissued by consent of the General Assembly and if the destruction of his Majestie's Subjects in this Province and his Dominions are threatned, by as just reasoning more of that money in such a material Crisis may aliso be reissued, and althô We hope that such Circumstances may never happen to us & consequently that We may never have occasion of any of that money, yet least those Calamitys should attend us, We are oblig°d to desire your Hon°: & his Majesties Hon°ble°: Council to consent that the burning those bills may be postponed until the next sitting of the Assembly by which time in all Probablility We may be perfect Judges of the scituation of our affairs.
