Mr. Secy: Hart brought from his Hon: the President a letter to him directed from his Excell: William Burnett Esq: Govern'r: of New York relating to the Tuscarora and Seneca Indians wch: letter was read.
Order'd that Mr. Eveleigh be added to the Com'ittee on the Indian affairs.
John Lloy'd Esq: from the Com'ittee to whom the petition of the Lds: Prop's: was referr'd made the following Report which Report being read and taken under consideration Paragraph by Paragraph it was agreed to with amendments——
The Com'ittee of both houses appointed to consider of the Lds: Prop's: memorial to the King & of the letters lately Rec'd from England relating to the affairs of this Province
Report That the Lds: Prop's: by their memorial to the King, Pray First that his Majesty should direct the Govern'r: of S's: Carolina to Assist them in their demands of their just dues & Rights by their Charter especially in recovering their Quit rents & in case of any difference between the Lds: Proprietors Officers & Planters in collecting the Quit Rents the same should be immediately heard & determin'd according to the Custom & Laws of the Province & that Justice should be equally & impartially administered & if a Register were establish'd wherein the Grants already made & those hereafter to be made should be enter'd & the quantity of Lands & the reserved Rent expressed it would put an end to all disputes.
Secondly that the Govern'r: be directed to continue such Officers as their Lords's: by their Charter have power to appoint in their Respective employments during their good behaviour & to continue & protect them while they justly perform their Duties.
Thirdly that the Gov'r: be directed to turn out from their Lords's: Lands such of the Inhabitants as since the Revolution have possess'd themselves thereof without any Right or Claim & that have cut down great Quantities of Wood & Timber thereof to the great damage of the Proprietors. Your Com'ittee are at a loss to know why their Lords's: apply for what is contain'd in the first paragraph of their memorial because it is so natural for his Majesty not to interfere in the interest or Rights of his Subjects as to have upon all occasions used his Royall authority
to have Justice impartially administer’d & there is a Strong article for that purpose in the Instructions of the Provisional Govern’r: of this Province & that Lords: being Prop’s: of this Province in the opinion of your Com’ittee gives them no preference in point of Justice or the King’s Protection to the meanest of their tenants, but should his Majesty grant such an additional Instruction are their desire, your Com’ittee are of Opinion that the Provisional Govern’r: would thereby be Oblig’d to Surrender the Governm’t: as soon as he rec’d it, for what their Lords: apply for is assistance in their demands of their just dues & Rights by their Charter & as they claim a Right of appointing a Gov’n: by it the Com’ittee apprehend the King in his great Wisdome will not grant any extraordinary assistance or influence whereof an use may be made very much to the Oppression of his Loyall Subjects in this Province, as to the Register propos’d to be establish’d in this paragraph the Com’ittee apprehend that the Office establish’d by the General Assembly for Registring of Deeds Conveyances answers the end of it.

The Com’ittee are of opinion that it is inconsistant with the Kings Prerogative to permitt their Lords: to have the appointment: of any Officers under his Govern’t: excepting such as are necessary for them in disposing of their Lands & in collecting of their rents but as We apprehend they include the Cheif Justice & the other Justiciary officers of this Province under this second paragraph your Com’ittee never rec’d nor heard of such another Govern’t: as this would be under a Govrn’r: appointed by the King & all the other officers by the Prop’s: to grant what their Lords: pray by this Paragraph would be as Derogatory of the Kings’ Hon’: as it must be oppressive to his people, so that your Com’ittee cannot im’agine it will be granted.

The third & last paragraph of the memorial prays the Provisional Govern’r: may be instructed to turn out of their Lords: Lands such of the Inhabitants as since the deposing of their Govern’r: possessed themselves thereof without any Right, your Com’ittee know not of any body that has done so since that time but since their Lords: run out their Barronies Without settling them it may be some few poor people that were not able to buy Land of their Lords: before they shut up their Land Office & perhaps a few also for that reason since have settled upon some part of those Barronies in the out settlem’ts: & they will no
doubt quit the same upon Demand without any such extraordinary aid from the King for that purpose as is unnecessarily desir'd by their Lords: Your Com'ittee are concern'd to find so invidious a Reflexion made against the Inhabitants of this Province by men of so much Quallity & Hon'"; & whose interest is inseperable with ours but it is a satisfaction to us to know it to be unjust as it is for us to beleive it was made upon misinformation by their Lordships.

Order'd that the following message be sent up with the above Report to his Hon: the President.

May it please y"; Hon:"

The Report of the Com'ittee appointed to consider of the Lds: Proprieters memorial having been read & taken under consideration this house has agreed to the same with amendments & here-with We send it to your Hon: board for your concurrence

May it please y"; Hon:"

By direction of this house publication has been twice made in Charles Town by our Clerk giving notice to all persons there were anyways concern'd in any petition lying before the house which were formerly read & referr'd to a further consideration that they were at liberty now to attend the Com'ittee to whom the same were referr'd & likewise to direct that all persons who had any demands on the Publick should forthwith lay their accounts before the house that they may be adjusted, which Publications have been taken down from the place they were

That considering the present Scituation of Affairs in this Province We think it absolutely necessary for the reasons contain’d in the s^1: Essay that there be forthwith five new Forts erected & Garrison’d each with two Officers & thirteen com’on White men and ten Indians. That five of the White men and five of the Indians belonging to each Fort be allways scouting from one Fort to another.

That the said Forts be fixed at the following places Viz’: One on some part of black River, another John Hearns on Santee, the third at red bank on Edisto River, the fourth at that part of Salcatty where Gov’t: Craven’s fight was & the fifth at Coosawhatchee near the forarding place on Port Royall River. That Pallachucola Garrison be broke up & the men removed to the latter. And that for the fixing & Subsisting of those Garrisons the following impositions be lay’d Viz’:

And your Com’ittee having made a Calculation of the first Years Additional charge of the said Garrisons do conceive it may stand much after this manner.

Nailes & other materials for building the s^1: Garrisons &ca: for that the men may do the work) may cost.................. £500
Five Captains at 20^2^ ^f^ month each for a Year............... 1200

The Comittee Report Further that if two or three Indians were added to each Scout Boat & to be under some pay they might be of much more service to this Province than they at present are,

Your Comittee further Reports that it is their opinion that it will greatly reduce the charge for manning the 1st: Forts if five Servts: be purchased for each & in order to procure the same we propose that Capt: Stewart or some other person be treated with to transport such a number which: We believe may be agreed for at £40 or £50 per head indented for four Years.

The Com'ittee on Indian affairs having read & Considered the Essay intitul'd an Essay towards settling the Indian affairs Do Report

That considering the present Scituation of affairs in this Prov-
ince We think it absolutely necessary that there be forthwith five new Forts Erected and Garrison'd each with two Officers & twenty men & the neighbouring Indians be encouraged to settle about the said Forts.

That ten of the men belonging to each Fort be allways scouting from one Fort to another,
That the s[d]: Forts be fixed at the following places Viz:\: One on the S^:\: side at the most Convenient place on black River without y^:\: Inhabitants another at John Hearn's on Santee, The third on the S^:\: West side at red bank on Edisto River, The fourth on the N^:\: side at that part of the Saltcatchers where Govern'r: Craven's fight was, And the fifth at Coosawhatchey near the forarding place on Port Royall River——

And for the fixing & Subsisting of those Garrisons the following impositions be layd Viz:\:—

An Additional duty of \(\frac{1}{2}\) Gall hundred on Cocoa\{ £100

£8900

And your Com'ittee having made a Calculation of the first Years additional charge of the s[d]: Garrisons do conceive it may stand much after this manner.

Nails \& other materials for building the s[d]: Garrisons \&ca:\:

The Com'ittee Report further that if two or three Indians were added to each Scout boat \& to be under some pay they might be
of much more service to this Province than they are at present and the Indians shall not be obliged to Row in the s^{d}: Boats Your Com’ittee further Reports that it is their opinion that it will greatly reduce the charge for manning the said Forts if eight Servt^s: be purchased for each & in order to procure the same, We propose that Cap^t: Stewart or some other person be treated with to transport such a number w^ch: We beleive may be agreed for at £40 or £50 \pounds\ head Indented for four Years.

The Report of the Com’ittee appointed to Audit the Powder Receiver’s: acc^ts: & to View the State of the Magazine do Report That they have examin’d the Powder Receiver’s acc^ts: with the several Vouchers & find them truly & justly Stated to the 22^{d} day of this Instant November & that there Remains eight thousand thirty & five pounds & one quarter of a pound of good Gun’ Powder in the Magazine

The Com’ittee observe that the last Year’s Com’ittee Reported the floor of the Magazine to be much Sunk & the powder thereby in great danger of being dam’aged & that Coll^p: Brewton ought to have im’ediate orders to repair the same, Now upon examining Coll^p: Brewton on this head We find no Provision has been made for the mending the said floor & that when any orders shall be given for that purpose another necessary safe place ought to be provided while the said Floor is repairing or mending

The Com’ittee for bringing in a bill for settling the courses of the Dock Street having heard several persons on the subject matter of the said bill now depending do Report.

That Mr: Robert Hume possess’d of a Lott N°, (65) on the South side of the Dock Street proposes that a clause be added to the bill that the said Dock Street from the Northwest corner of the s^d: Lott run’ in a parallel line with the broad Street to Ashley River.

Mr: Andrew Allen possess’d of a Square fronting on the s^d: Dock Street is content with said bill provided he has the same quantity of Land that he has now fenced in.

Thomas Capers having a Lott on s^d: Street (being part of Archdale Square) is sattisfied the said bill pass provided he has the full quantity & bounds of his Land.

The Com’ittee upon considering the pretentions of the several parties are unanimously of Opinion that a clause be added to the bill now before this Hon’ble: house to Continue the Dock street from the N: West corner of a lott N°: (65) on the S°: side of the said dock Street as it is now lay’d out & in possession of Mr: Robert Hume parallel with the broad Street to Ashley River & that the N°: side of the said Dock Street on the West side of the Cross Street (which run’s by the old Church Yard) to the northward by the Presbyterian meeting house shall begin from the South East corner of Scheningh’s square now in possession of Matheurin Boigard & run’in another parallel line with the broad Street to Ashley River & that these bounds be and for ever continue & determine the course & breadth of that part of the Dock Street to the Westward of the Cross Street before mention’d, this will not only give every person his full quantity of Land but prevent any disputes that may arise hereafter——

On the sixteenth of last month We sent y'r: Hon: a message setting forth the concern that We were under at y'r: Rejecting a bill which We esteem'd of vast consequence to this Province without hearing the just & good reasons that might have been given in a conference for passing the same. We then told you that the sd: bill was out of the case & that We desired a Conference of a Com'ittee of our house with one to be appointed of his Majestie's Honble: Council to consider of the best method of establishing a sufficient Currency to carry on the trade of this Province and to enable the Inhabitants to Support the vast expence they must of necessity be at in defence of the Country, but not finding that such a Com'ittee of his Majesties Council has been appointed, & We esteeming this a matter of the greatest Consequence to this Province We desire that the consideration thereof may be no longer postponed & that such a Com'ittee of his Majesties Council may be appointed to meet our Com'ittee on that affair forthwith for this house have resolved that they will not proceed on any business untill they receive an answer to this message

I herewith send you an acct: I have receiv'd of sundry's wanting at the Garrison at Fort Moore for your perusall, & desire to know whether I shall give directions for providing the same 5th Jan'y: 1726.

Ar., Middleton

Mr: Secry: Hart brought from his Majesties Honble: Council the following message.
In answer to your message yesterday received by Cap\(^t\): Bond & Cap:\(^t\): Nicholls, We have appointed a Com'ittlee of our house to meet a Com'ittlee of yours, We shall be allways ready to conferr with you & agree upon such methods as may be thought proper for enabling the Inhabitants of this Province to support the expence they must be at in the defence of the Country, but as to the making any alteration in the paper Currency.

It is the opinion of this board that they cannot enter upon any method to establish a further Currency before a draught of a bill for that purpose be sent to great Britain & leave obtain'd of his Majesty thereon (otherways) contrary to his Majesties positive orders & instructions to his Gov'r; And We are of opinion that no one can judge of what is a sufficient Currency for this Province unless they could be fully apprized of the Emergencies of this Country in their trade & Com'erce & We are sattisfied that the present Currency is sufficient in pro-portion to the trade now carryed on.

5\(^{th}\) Jan\(^{ry}\) 1726.

And the above message being read & taken under consideration the Question was put whether a Com'ittlee should be appointed to meet a Com'ittlee of his Majesties Hon:\(^ble\): Council on the sub-ject matter of the above message. Carryed in the Negative And then the following Gent:\(^a\): were appointed a Com'ittlee to draw a message in answer to the above Viz:\(^t\): Mr: Lloyd Mr:\(s\): Allen & Mr:\(s\): Whitaker

John Lloyd Esq:\(^t\): from above Com'ittlee reported the following message

Hon:\(^ble\): Gent:\(^a\):

In answer to your message just now rec'd We must acquaint you that We cannot conceive how you can conferr with this house to any purpose to ease the Inhabitants in their Tax without making any alteration in the currency if you are determind (as you say you are) not to make any—What We have further to say is that We take it to be very unparliamentary to appoint a Com'ittlee to Conferr with this house upon a message sent you & before hand to declare yourselves determin'd to do nothing upon the subject matter of it.

Mr: Secry Hart brought from the Honble: the Council the followgs: message

Mr: Speaker & Gent:n:

In our message to you this morning, We appointed a Com'ittee to conferr with you according to your desire in a former message, in order to agree with you on such methods as might be thought proper for enabling the Inhabitants of this Country to support the expences they must be at in the defence of this his Majesties Province by considering the best method how to apply to his Majesty for a Sufficient Currency (wch: by your message you imply is wanting) & though We told you We were of Opinion there was a Sufficiency, We nevertheless were desirous to hear the reasons why you differ'd from us We rather think it unparliamentary in you to insist on a conference upon a Subject matter contrary to his Majesties positive orders.

We are determin'd (for the reasons given in our message) & hope allways shall be, to pay due regard & Obedience to all
his majesties Royall Com’ands, so long as We have the Hon’:

This board upon reading the last message you sent us (de-

affairs of the utmost moment now depending before the Gen-

Benja: Whitaker Esq’r: from the Com’ittee appointed to draw 
a message to the Council in answer to one of theirs of yesterday 
Reported the following message.  
Hon’ble: Gentlemen/  
It is with the greatest Surprize that We have read your mes-
sage of Yesterday in the afternoon, You tell us that in a former 
message you appointed a Com’ittee to conferr with us according 
to our desire when it is manifest by that message you evade 
the matter proposed by us & industriously decline the request 
made by this house, it is true, that in answer to our message 
wherein We desire to conferr on means for establishing a Suf-
ficient Currency you say you have appointed a Com’ittee to 
meet one of this house, but then you prescribe to us that We 
shall only treat on such methods as might be thought proper for 
inabling the Inhabitants of this Province to support the ex-
pences they must be at in the defence of the Country & give
us your opinion that the present Currency is sufficient in proportion to the trade now carryed on, & to understand that you are determin'd to make no alteration.

Gentlemen

We are constrain'd to tell you that this is not treating us in so ingenuous a manner as We might expect nor is it agreeable to that good correspondence Which we have allways desired might be preserved between the two houses. If you are thus resolv'd concerning the Currency to what purpose shall We conferr when this determination of yours has Stoped up every Avenue whereby our reasons might come before you and We are precluded from the benefit of all manner of debate.—

But it is with much greater concern Gentn: We hear you say that you think it unparliamentary in us to insist on a conference upon a subject matter contrary to his Majesties Positive orders, As this house is compos'd of his Majesties good and Loyall Subjects they have allways paid the greatest deffERENCE & strictest regard to his Royall Com'ands & they think it the more unreasonable in you to endeavour to lay them under such a Charge because they never attempted any thing that might Contradict the will of their Severaign or make them Obnoxious to so dangerous an imputation.

We are very well acquainted with the circumstances of the people We Represent & the Callamitys they labour'd under, And as We allways have so We shall continue to use our utmost Efforts to releive them, but if our just Views & good intentions are prevented, We know We have done our duty & have nothing to account for.

Thomas Broughton Speaker

The above message sent up by Mr: Whitaker & Mr: Tho°. Smith

The following message was sent to the Council.

Honble: Gentn:

That We may descend to particulars of what We think necessary to be debated in the general Conference, since you think we were before too generall, the following matters We esteem of such consequence that they deserve the most serious consideration & debate of the generall Assembly——

The miserable State of the Fortifications since by late advice from Great Britain a Warr is suddenly expected.

The affairs of the Indians wch: We esteem of the utmost con-sequences in this conjuncture.
The State of the Currency of this Province when under such circumstances.

We hope yr"r: Hon"s: will be of opinion with us that these affairs ought to have the most generall consultation & are therefore proper for the debate of a conference of both houses

Tho"s: Broughton Speaker

Mr"s: Sec"r: Hart brought from the Hon"ble: Council the following message.

Mr"s: Speaker & Gent": In answer to yr"s: message this morning rec'd by Mr"s: Attorney Generall & Mr"s: Smith, We are obliged to acquaint you We have much more reason to be surprized at the unusual expressions contain'd therein, charging us wth: evading the matter proposed by you & industriously declining the request made by your house.

Gent": We know not what you mean by taxing us with such unfair manner of proceeding, when We are so farr from evading that We plainly told you We were ready to conferr with you in order to agree upon such methods as might be thought proper for inabling the Inhabitants of this Country to support the expence they must be at in the defence of it, 'Tis true We did refuse conferring upon making any alteration in the Currency till his Majestie's pleasure was known (which We in duty thought our selves oblig'd to) If that be evading & breaking through that good correspondence wch: ought to be desired between the two houses, We must leave all impartial men to Judge We cannot apprehend how our refusal to make an alteration in the Currency (till his Majestie's pleasure be known) can preclude or debarr you of any debate in conference with us to consider of a proper application for obtaining leave to make a further Currency, (if that was the intent of your conference) In one of your messages of yesterday you told us that it would be to no purpose to conferr if We were determin'd not to make an alteration in the Currency, notwithstanding the reasons We gave you for it, if that be an imputation to charge you with contradicting our Sovereigns Will; We must leave it to be determin'd elsewhere;

You say further you think if the more unreasonable for that you have never attempted any thing of that nature, This Obliges us to put you in mind of a Vote passed in your house the sixtenth day of December 1725 & sent up to us.
As to the circumstances of the people of this Province We hope you will allow us to be no strangers to them, We shall not be backward in shewing our good intentions to promote the Publick good thereof & whatsoever may be the consequence of this disagreament between both houses, We are conscious to our selves of having faithfully discharg'd our duty both to his Most sacred Majesty & this Province

Cap't: William Dry from the Com'ittee on Indian affairs made the following Report.

The Com'ittee appointed to Conferr with a Com'ittee of his Majesties Hon'ble: Council on the affairs of the Cheerokee & Creek Indians now in Charles Town Do Report.

That before any treaty of Peace be set on foot the slt: Indians be severally discoursed to know their inclinations towards a separate peace
That if they are so inclined it be strongly insisted on that the Abecas do remove to the Pallachucola old Towns & that it be fully explain'd to them how much it will be for their interest—That suitable Cloaths be provided as soon as may be for the Creek Indians here in town Viz: The same for Obihatchee that was designed for Chigilly & for the others proportionable to their Ranks & that the President be desired to give orders for the same

Reasons why it will be for the advantage of the Abecas to remove to the Pallachucola old towns.

First . . . The land is better.
Secondly . . . They will have their goods Cheaper
Thirdly . . . They will be farther from their Enemies & so safer.
Fourthly . . . The hunt is better.
Fifthly . . . The Cheerokees may by chance in their hunts (& without design) kill some of them by supposing that they are other part of the Creek nation wth: will be a means of breaking the Peace.
Sixthly . . . That it is now a good time of the Year to remove in order to prepare for a Crop the ensuing Year & that till their Crop is ripe the Publick will furnish them with corn for the Subsistance of them all if they'll remove im'diately.
Seventhly . . . That they have allways proved themselves Friends & never insulted us as the lower Creeks have done & that if it ever happens that We should be oblig'd to break with the lower Creeks the path to the abecas would be stoped by which their Trade would be lost.

Eighthly . . . That if Oboyhatchee were to remove with his Family he is so beloved & has such a Sway all his nation would follow him & therefore it lyes wholly on him to declare whether he'll remove or not.

Ninthly . . . We beleive the lower people will be agt: their removing because where they are now settled they will be a barrier between them & the Chickesaws as they hitherto have been between them and the Cheerokees & so will allways bear the brunt of any such War

Talk for the Cheerokees.
That they have now been upwards of a month in the Settlements: waiting for the coming of the headmen of the several parts of the Creek Nation.

That none are come agreeable to their promise but the headmen of the Abeecas nor is there any Room now to expect that they will come.

That the Abeecas are the people that have allways behaved themselves the best to the English of any of the Creek Indians. That they are the only people that have all along been most inclinable to a peace with the Cherokees,

And that therefore our Governr: are willing to make a separate Peace for them in case both parties agree to it.

The above Report was read & Agreed to.

And then the Question was put whether Coll°: Chicken should be directed to sound the Cheerokees & Cap*: Fitch the Creeks on the Subject matter of the said Report.

Carryed in the Affirmative

Upon which the following message was order'd to be sent to his Hon'r: the President

Order'd that the aforesaid Report of the Com'ittee of Grievances as it was altered in the house be enter'd in the Journal. The Com'ittee appointed to inspect into the several Greivances of this Province do further Report.
That they have severall and very great Greivances laid before them by Divers persons wch: arise principally from three causes.

First from the irregular proceedings of the Charles Town Court and invading the Jurisdiction of the other Courts.

Secondly from the Combination of the Practitioners of the Law with intent to oversett & render as a nusance the 3d: Precinct & County Courts

And thirdly from the unwarrantable Steps & undue measures taken by the Provost Marshall.

And to Obviate those evils for the time to come as well as to put it in the power of every abused person to do himselfe Justice your Com'ittee, proposes.

That in order to encourage some person skill'd in the Law who has, Capacity & Resolution enough to do Justice & keep due orders, the value of five hundred pounds Proclamation money (the exchange to be settled Yearly by the Generall Assembly) be raised Yearly & pay'd out of the Publick Treasury quarterly to such person as shall be appointed for that Office who shall be obliged to go the Circuits & preside over each Court.

That such Itenerant Judge be cut off from all manner of ffees whatsoever & that the severall ffes prescribed as due to any Judge or Judges by any former Law or Laws be collected by the Clerk of each Court for the use of the Publick.

That the severall County and Precinct Courts be the same in number as they are at present.

That some Gent: of the Law have likewise a Yearly allowance of fifty pounds Proclamation money $ Annum for his advice & Assistance on all Occasions in matters that concern the Publick

That none be permitted to be Sworn Attorneys but such as have Quallifications requisite for that imployment

That if any Lawyer not Preengaged refuses to take a ffee agt: any person, he be silenced from ever pleading hereafter if the Party whose ffee he refuses complains on Oath thereof to the Cheif Judge & to make it appear that he is really preengaged when there may be reason to suspect otherwise he be obliged to confirm the same by Oath.

That the other County & Precinct Courts have equal authority with that of Charles Town for determining all civil matters.
That the arresting three or four persons for one & the same debt is an innovation of the utmost ill Consequence wch: would be discouraged if the Charges arising from such Process were but as thô one person had been sued,
That no execution be hereafter issued for any more than shall be proved in Court to be justly due whether on Bond, Bill, Note or otherwise.
That the Com'uting of Bonds in the manner now practiced is very destructive & Injurious allready & will be much more so as our Currency decreases.—
Wherefore your Com'ittee are of Opinion that it will be a piece of Strict Justice to both parties & a service to the Province in Generall if each Debtor be obliged to pay no more than his Original Debt with ten ° C: interest from the time it be-came due in it's first intrinsick Vallue
That the Sum'oning of people who are not Freeholders is a great cause why so many of those desert & that for the future the Marshall be obliged to take all such by Arrest.
Your Com'ittee conceive these to be the Cheif Reasons why so many people leave this Province daily as they do wch: We hope may in a great measure be prevented for the future by timely Remedys.
And We further Report that a new method lately introdutced of prosecuting people by way of Information will if not Stoped in time be as great a Greivance as any & therefore ought to be discouraged all We can except where such information be first transmitted to the Grand Jury——
And for the easy recovery of small Sum's your Com'ittee pro-
poses that all debts not exceeding twenty pounds be heard & determin'd by one Justice of the Peace & his Judgem't: to be decisive.—
The Com'ittee further proposes that there be a bill brought in to encourage the return of deserters by Freeing them from any Process on account of their old Debts for a term of Years wch: We beleive would encourage several to come back & become good Settlers whereby the Province in Generall would reap an advant-
tage & their Creditors stand a chance of getting their Debts which they now look upon as lost, And that in the said Law there be a Clause to prevent any servants crossing Santee or Win-
yaw Rivers without lycence from the Government by making any
one that shall be aiding or assisting in the Ferrying over such persons liable to the Dam'ages accruing thereby——
That it is necessary that the two bills for Regulating the Practice of the Law & Directing the Marshall's proceedings be revised & brought in again with proper additions——
Your Com'ittee do further Report that they having considered the hardships Complain'd of by the Will town Justices imposed on them by the Judges of Charles Town Court & occasioned by a Complaint from Mr: Mackfarland are of opinion that the proceedings against them were Arbitrary & illegal.
Your Com'ittee also Report that if some method be not taken to prevent Shipping throwing their ballast into the River the Channel of Cooper River will in some time be stoped up——
That it appears to this Com'ittee some of the Records filed in the Office of the Clerk of the Crown have been made away with which being an affair of such Consequence to the whole Province We think should not be tamely put up——
That it be an instruction to the Lawyer proposed by your Com'ittee to give his advice & Assistance to the Publick, to direct every person applying to him whose Complaints are now lying before the Com'ittee & justly founded, in what man'er they are to proceed to get themselves righted & in order thereto that the said severall Complaints be deliver'd to the s'd Gent: of the Law the several Complaints: paying him for the same.
That if any Process be issued ag't: any person to appear at any other Court than that of the County or Precinct in which he Resides, such person upon his bringing two Evidences to prove in Court that he is a Resident of a different County or Precinct to that where the Action is laid shall be dismiss'd & the charges of such Suit to fall on the Plaintiff.—
That the Law wch: obliged people to go arm'd to Church &ca: wants strengthning——
That a bill be brought in to Regulate Surveyors in the Execution of their Office——
That no Plantation or out Cowpen with Slaves be kept without a White man & that the owners of Slaves be obliged to keep a White man for every ten Male Slaves they are possessed off from the Age of Sixteen to Sixty——
Your Com'ittee do further inform that since the withdrawing their Report they have rec'd & read the Representation of the
Charles Town Judges wherein as they conceive is contained some things which We beleive the Judges themselves scarce understand & therefore no reflection on the Com’ittee if they are at a loss to guess at their meaning & allso several Positions of a dangerous Tendency to this Province, as first the whole Government is arraigned for passing Laws as ’tis suggested contrary to the Kings Instructions & Repugnant to the Laws of England.

Secondly the Judges Suggest they have a power of dispensing with all such Laws at pleasure & that they are Sole Judges & Interpreters of our Laws wh: your Com’ittee are of opinion is assuming a power Superior to that of this house & equal with that of the whole Legislative body united.

And your Com’ittee to Justifie themselves agt: what they are so falsly charged with by the Charles Town Judges do say that it was on severall Complaints wh: are sworn to but particularly that of the Will Town Justices with what else about that affair appears on Record and on severall clauses of the two County & Precinct Court Acts & the Act for authorizing the generall Court &ca: that We grounded that part of our Report.

Wherefore your Com’ittee in Justice to themselves as well as in Hon'r: to this house that appointed them a Com’ittee to receive the grievances of this Province are obliged to take notice that they act as a Com’ittee without ffe or regard, that they have no other Views as members of the house but that of serving the Publick in generall & themselves only as part of the Com'unity & that to be Stigmatized with being partial & unpresidentall & accused with acting Derogatory to the Hon'r: & Dignity of Parliamts: are such hard Epithets as they cannot digest & if Com’ittees are to be censured in such a manner for only giving their opinion, We Conceive it will entirely destroy the design of Com’ittees, the consequence of which We refer to the Consideration of the house & therefore pray Justice in such Sort as to this Honble: house shall seem right & reasonable——

The Curtain line between Cravens Bastion & the severall works to Granvill’s Bastion intirely Ruined.

The other part of the Fortifications from Ioors Bastion round the back part of the town to Craven’s Bastion are allmost Levelled & in no manner defencible.

The Com’ittee are of opinion that the necessary Repairs ought im‘ediately to be made & that new Carriages be forthwith provided & that such Gun’s as are Suspected to be bad be proved & the Chests of Shells in Granvill’s Bastion be examined & put in
order. That all necessary Stores be provided for the use of the severall Bastions; & the better to secure this town & to prevent an Enemy landing the Com'ittee are of opinion that a Battery be Erected on the point near the Windmill to mount ten of the best Gun's & that Lines be marked out from that Battery round as farr as Craven's Bastion to the north part of the Town.

The Charge of the Repair of the Fortifications &c: is incerted in the Estimate annexed to this Report.

The Com'ittee have allso viewed Johnson's Fort & do Report that there is an absolute necessity to put the Battery & the other works about that Fort into repair out of hand for according to it's present Condition it's very defenceless, the particular acc's: of s'd: Fort is hereto annexed & the Sum' necessary to repair it is incerted in the Estimate before mention'd. The Com'ittee are further of Opinion that two Perriaugers should be provided for the use of the Publick to receive what Ballast shall be brought in & to carry it to the severall parts of the fortifications of Charles Town & Johnson's Fort where it shall be thought proper to be used & that a bill be brought in to oblige all masters of Ships to deliver their Ballast for the Publick use & to lay a severe penalty on any that shall throw their ballast into the River; That as there are many Stores and necessarys for the severall Forts & Garrisons in this Province wanting the Com'ittee have proposed a Supply to be provided as is in the Estimate; The Com'ittee considering that in case a Warr happens the Enemy will be encouraged to invade our Southward Settlements wch: as they lye more exposed, & as the Harbour of Port Royall is capable to receive many and large Ships of Warr they may therefore be induced to make their attacks first there, the Com'ittee do therefore propose for the better security of that place & for a retreat to the severall Inhabitants in those parts that a good substantial Fort be erected at Beaufort or at the most convenient place about that harbour & to be built with lime shells & sand mixed together as it is proposed the new Battery at White Point should be & to be as regular & defencible as may be. That as the Com'ittee think there is the most absolute necessity forthwith to proceed on the repairs & Execution of the other works here proposed, the charge of wch: according to the estimate made by them will be at least £13825,0

It's therefore humbly proposed that out of the moneys lying in the Treasurer's hands to be burnt £15000 be applyed pursuant
to the aforesaid Estimate, that we may be on our guard & ready upon first alarm to receive our Enemies.

The Com'ittee on Johnson's Fort &c: account of the Condition of said Fort.

A Gun' of Six pound called the signal Gun the carriage broke. 1 of 3\textsuperscript{lb} in Carriage much honey Comb'd, Flagg staff Flagg and Pendant.

1 Gun' of 2\textsuperscript{lb}: dismounted & an old carriage

In the S. W. Bastion
1 Gun' of 2\textsuperscript{lb}: in a carriage in good order

Within the Fort between 15 & 16 rounds of Round & Barr Shott
a Copper ladle for 12\textsuperscript{lb}: Gun
12 Spunges & Ram'ers . . . .

60\textsuperscript{lb}: of powder, but damp

In the Battery
15 Gu'n's of 12\textsuperscript{lb}: & 9\textsuperscript{lb} 1 dismounted 3 carriages bad.

The Condition of the Fort.
Front of the Battery much Sunk & the work ready to fall to pieces, The Embraassseurs quite gone & the Platt form so rotten & decayed that severall of the Gu'n's are sunk below and cannot be used, so that there is an im'ediate necessity for this whole work to be throughout repaired.
The foundation of the N. E. corner of the Ravelin before the draw bridge undermined and the work down, The Pallasadoes in the Ditch & the other parts of the Fort mostly decayed.
The bridge going into the Ravelin wants much repair & the frame of the Gate and Draw bridge in s\textsuperscript{d}: Ravelin must be intirely new, the Parapett of that work is quite level it having
been left unfinished when the last Repairs were made; The bridge leading from the Ravelin into the Fort is in pretty good order requiring only two or three new Planks but rope is wanting for Pullies to the inner draw bridge.

The Parapett of the S. W: Bastion & some part on the Tenaille is still unfinished & severall of the Parapetts round the Fort must be repaired it having been much shaken by firing of the Gu'ns while the work was new.

Plattforms for all the Gun's within the Fort are wanting——
The Guard house in good Repair & the Cap\textsuperscript{t}: house raised and may soon be finished.

Cartridge paper & match & 6 sizable ladles are wanting & a Gin to mount several of the Gu'ns.

If the Magazine of Johnson's Fort was filled in about three feet with brick & air funnells made 'twould prevent the damp which destroys the powder kept there.

The Cap\textsuperscript{t}: account of expence of powder not ready but promises to lay it before the Com'itte in two or three days——

May it please yrr', Hon'rs:
As the Southward parts of this Province are very much exposed We are of opinion that it would be verry proper to apply to Cap't: Massey to desire him to order such a number of the King's Soldiers under his Comand to Port Royall as he can conveniently Spare from the Garrison of Alatamaha who in case of a Warr may be a great defence to those parts & a protection to the Trade & Navigation that might there be carried on if proper measures were taken for the protection thereof.

Mr: St: Julien from the Com'ittee appointed to examine the Com'issrs: of the high roads of Charles Town made the following Report

The Com'ittee to enquire of the reasons why the Com'issrs: of the high Roads of St: Phillips Parish have not made the roads to the extent of the said Parish Report as follows———

That the Com'issrs: of the said Parish apprehend that they are not obliged to make the Roads further than the Quarter house the bounds of the Parish being unknown to them———

Honble: Gent*:

Your being as well convinced as We of the necessity of putting this Province in a posture of defence for the many reasons already given you in a grand conference of both houses & by severalall messages from us, We never doubted of, but as it is
mater of great Surprize to us that you should refuse to con- 
sent to the reissuing the money in the Treasury for that pur- 
pose when no less than the Lives Fortunes of the Inhabitants 
of this Province at Stake in case of a Warr, You have been 
told several times that with as good reason this money 
may be issued as the £2000 for rebuilding Fort King George, 
& your Honrs: have not thought fitt to offer any Arguments 
against it. You are perfectly sencible as well as We that from 
the Scarcity of the present Currency the Tax for the running 
Year (which will be very great) will with the utmost difficulty 
be Collected, & therefore your Honrs: must know that your pro-
posalls for raising a Sum' in the Tax for repairing the fortifi-
cations is impracticable & that We can never consent to throw 
insupportable burthens upon the people of this Province, upon 
the whole We have used our utmost endeavours to serve the 
Province in this regard & if We should fall a Sacrifice to our 
Enemies meerly for the want of issuing a little money wch: 
would effectually fortifie us for the present, Our faults it will 
never be deem'd & We leave it to your selves & all mankind to 
Judge upon whom the blame must rest.

Mr:\ Secry:\ Hart brought from his Hon:\ the Presid:\ the follow:\ message
Mr:\ Speaker & Gent:\

Your message just now to me in relation to the appointing a Gent:\ to go the Circuit & preside over the Courts as they now stand is of such a nature that I am allmost at a loss to Answer it, I doubt not but such a person as you desire may be found & to the sattisfaction of the whole Province, but if you intend by naming of him in the bill that he is not to be displaced by his Majesties Gov:\ or Comander in cheif for the
time being is what I cannot consent to it being his Majesties Royall Prerogative by his Gov'rs: in all his Plantations to place and displace all Judges and Justices in in their respective Governments Excepting such as have Com'issions from his Majesty or the Admiralty board, Now Gent$: for you to desire me to give up this known part of the Prerogative is what I cannot answer or if I did it wou'd be of no use for the Govern'rs: of this his Majesties Province would never be bound by it but with his Majesties particular directions & consent to it. I hope when you well consider this you will not insist upon what is directly contrary to the Royall prerogative & not in my power to grant.

I cannot help Gent$: Recomending to you to provide a handsome Sallary for the King's Attorney Generall this I think is highly reasonable for as he is im'ediately concern'd in all Publick prosecutions so he ought to be rewarded for the same.

This house agree with you that the power of appointing Judges & Justices is a Prerogative appertaining to the Imperial Crown of Great Britain by the Com'on Law of wch: the Act of Parlia-
ment mention'd in your message is declaratory, but We are of opinion that the s\textsuperscript{d}: Act Provides that this power shall not be comunicated or devolved on any person or persons of what Estate degree or Condition soever they be, \& therefore cannot be construed to extend to his Majesties Plantations in America which at the time of making this Act were not part of the Dominions of the Kings of England. His Majesties Govern'r: pursuant to the power Granted him by his Letters Patents thó fitt to pass a Law that all civil Officers who receive a Sallary from the Publick shall be nominated by the Generall Assembly, \& certainly your Hon'r: cannot doubt whether a Judge is within that discription—

Mr: Sec'y: Hart brought from his Hon'r: the Presid\textsuperscript{t}: the following message.

Mr: Speaker \& Gent:\n
I am sorry to find by your message to me of last night that you still insist on the Act of Assembly in this Province by wch: you have a joint power of appointing such Officers as receive a Sallary from the Publick wch: can be construed to no others than such as are mentioned in the Law \& this I assure you is agreeable to the known construction of Law; You acknowledge that the Com'on Law, (of wch: the Statute of Henry the eighth is declaratory) gives his Majesty the Sole Right of appointing Judges \& Justices \& since that is acknowledged (wch: I think ought never to have come in dispute, I would willingly know how long since or by what means his Majesty has lost that known inherent right over his Subjects in these parts of the world; Is it by distance of place or for want of Dominin in these parts at the passing the said Statute; the first can \textsuperscript{1} be it; because no distance can alter in point of Right,

\textsuperscript{1} The word not was evidently omitted.
neither can it be the latter because all Statutes are made to look forward & to declare what is a Right & what not, in a thousand instances before any thing therein provided for can happen, so that notwithstanding his Majesty had no dominion in America at the time of passing that Statute, Yet it hath & will comprehend all such Dominion as his Majesty has since gained & all such as he shall hereafter come to the possession of. This right is originally in the King’s person & the Statute has only declared it not made it so.

You seem Gentn: to make an exception to the aforesd: Statute for want of Dominion in these parts at the time of its’ passing but you will allow that the Com’on Law is in force in this Province & in all his Majesties Dominions in America & by it your pretence must fall to the ground by your own way of reasoning

Now Gentn: I must give you this for my last answer wch: is that it is the Prerogative of the Crown & cannot be parted with but by his Majesties consent & Order, so I neither can nor will consent to what you desire.

2d: Febry: 1726. Ar. Middleton

That they have examin’d them on the Subject matter of the s’d: Petition & find that the allegations there set forth are true
The Com’ittee by the information of severall able workmen & according to the calculation made are of opinion that the work- mans°: of the Carpenters & Joyners to the s’d: Armoury will amount to upwards of £1000 & that the materials allready sup- plyed for the said building & which still is necessary to Com- plete the same amount to £900 & upwards.
That as the Contract between the Com’iss'°: & these Workmen is fixed to the Sum’ of £1200 for the timber boards & workmanship
The Com’ittee are of opinion that the Com’iss'°: be directed to allow to the s’d: Crawford & Leay the Sum’ of £800 more to com- plete their part of work and materialls & that it be left discretion- ary to the Com’iss'°: to pay the same in such manner as they shall think proper.

Mr: William Rhett from the Com'ittee on the proceedings and accounts of the Com'iss's: for stamping the new bills made the following Report & deliver'd the same in at the table.
The Com’ittee appointed to examine into the proceedings & accounts of the Com’issrs: for printing & stamping the new bills Report as follows.

That by the Law for printing the new bills the Com’ittee observe that the Com’issrs: therein appointed Viz: Thos: Hepworth & William Dry Esqrs: & Mr: Henry Houser are directed.

To print the Sum’ of £120,000 in paper bills of several Species the highest to be £20 & the lowest 5 Shillrs:

And the better to prevent their being counterfeited the bills so printed & Stampt to be indented & a book of the counterparts to be kept & each part to be numbered & the s’d: book to be deliver’d to the Publick Treasurer for the perusal of all persons.

No more bills to be printed than as is before directed

The Com’issrs: & Joseph Massey seperately to give a bond of £5000 each to his Majesty & to take an Oath ten days after passing the act for the faithfull discharge of their duty—

The Com’issrs: to be allowed £500 each & Jos: Massey £1500—

The Com’ittee throughout their enquiry have mett with no small difficulty to bring the truth of this proceeding before this Honble: house since they have not been able to Obtain any clear information from any one of the Com’issrs: relating to any part of their managemt: Mr: Dry one of the Com’issrs: absolutely refused either to attend or render any account to your Com’ittee giving for answer that he had not concern’d himselfe in that business for these three Years but how farr this is to be relyed on is submitted to the consideration of this Honble: house when the papers No. 1. 2. 3. 4. 5. annexed to this Report shall be read

Thomas Hepworth Esq: another of the Com’issors: has often been with the Com’ittee & promissed from time to time to give them a State of the whole affair but has never done it, So that this Report is grounded & collected cheifly from the books & papers deliver’d your Com’ittee by Mr: Houser’s Executor pursuant to an order of this house all wch: accompany this Report And your Com’ittee was not a little surprized to find among them two books wch: were exactly kept by the Com’issrs: one called the daily acc: of what bills were stampt under the care of Thos: Hepworth. William Dry & Henry Houser Comissrs: 1723. The other called the Com’issrs: book of exchanging New bills for old 1723.

From the first book your Com’ittee have made a State of the whole number & Specie of bills printed by the Com’issrs: Viz:
That the Com'issrs: began to print of their first plate consisting of £20 £15 £12 & £8 bills on munday March 25, 1723 and finished the same on Thursday the 4th April being in all 1000 Impressions.

And on Tuesday April 9th began on the plate consisting of £6 £4 £2 & £1 bills & finished the same on friday the 12th about 4 a Clock in the afternoon in all 2000 impressions amounting to.

And on Wednesday the 24th of April at 8 in the morning began on the plate consisting of 10s. 7s. 6d., 5s & 6s 3d bills & finished the same the 16th day of July following in all 29001 impressions: amounting to £1855.3.9

So that the whole Sum' printed by the Com'issrs: is...£122688„18„9

From the other book your Com'ittee find that there has been exchanged in new bills for old the Sum' of £66,482„10„10 wch: have been burnt by a Com'ittee of both houses & that the Sum' of £9942 more have been also exchanged for old bills wch: are now in the Com'issrs: Chest whereby it appears that the whole Sum' issued in new for old bills amounts to £76,424„10„10. That there also remains in the Com'issrs: Chest the sum of £1855.3.9 in new bills of which there is only £166..17..6 signed by three Com'issrs: & fitt to issue, the others amounting to £1688.6.3 are some of them signed one by two or one Com'issrs: differently & others not signed at all or after being sign'd dash'd with a pen or defaced in printing of which bills the Com'ittee have herewith deliever'd a Specimen of each——

Among the papers rec'd from Mr: Houser's Executor there are severall different States made by Mr: Houser & the Com'issrs: of the disposition of these bills but the Com'ittee have taken notice of none but such as agree with the Com'issrs: books & with the account wch: said Houser intended to lay before the Com'ittee Your Com'ittee therefore find as & the acc: (hereto annexed N°. 6) & which they have stated from the strictest examination & enquiry that the Com'issrs: are in debt to the Publick upon the bal lance in the Sum' of £4409„4„2——

The Com'ittee take leave further to observe to this Honble: house that the Com'issrs: to give themselves as little trouble as they could have at several times put considerable Sums of new bills into Coll°: Parris's hands to exchange for old bills & whether by mistake or otherwise the £7: Com'issrs: & Coll°: Parris have varied in their accounts of the repayment of them in so much
that by the Com’issrs: acc: Coll°: Parris stands chargeable to them in the Sum’ of £1833.7.6. but according to Parris’s account (annexed hereto N°: 7) he acknowledges to be in their debt only £311.15.0 & wch: acc: the Com’ittee are of opinion is supported with sufficient Receipts and Vouchers wch: the said Parris has shewn them

Your Com’ittee have no way taken notice of this dispute between the Comissrs: & Coll°: Parris in the account stated by the Com’ittee since they find the Com’issrs: were no way authorized to employ any person in the exchange of the bills & therefore your Com’ittee are of opinion the sd: Com’issrs: ought forthwith to make good to the Publick the ballance due from them as is before mention’d.

Upon the whole the Com’ittee humbly Submitt to this honble: house the following Considerations.

That the Law from whence these Com’issrs: derive their authority enjoins that they shall print £120,000 & expressly prohibits the printing any more but the Com’issrs: (contrary to this Plain Prohibition) have printed £2688.18.9 more than they ought.

The Com’issrs: Suggest that they have burnt severall of the impressions wch. they printed but have kept no account either of the Quantity or Species nor have they produced a Voucher of any kind wch: can warrant such proceedings & that they are incapeable so to do appears by two differing accounts stated by Mr: Houser wherein he makes the bills pretended to be burnt only serve to make up a ballance for the deficiency.

If the Com’issrs: are justiciable in this matter it was in their power to issue out an indefinite number of bills & t’would be impossible to discover how much they exceeded the Quantity establish’d by Law

The Act further ordains that the bills shall be indented & Counterparts shall be kept in a book to be lodged with the Treasu°: this is to prevent Counterfeits that every person may have Access to this book to compare the Indent of a suspected bill with the Counterpart but the Com’issrs: have dispenced with this part of the Law & saved themselves so much trouble for no such book has ever been provided & any person may Counterfeit & be in very little danger of being detected

It is presumed that the Generall Assembly when they appointed three Com’issrs: thought it too great a trust to be reposed in
one man and constituted that number that they might be a Check

to each other how well the intentions of the Legislature have been

answer'd this house will perceive when they are informed that

the Com'issrs: had severally Access to the Chest in which the

money was kept without the knowledge of the other & had

seperately the Public money in their power, an instance of wch:

is produced to this house where Mr: Dry took out of the Chest

£100 & converted it to his own use without the previous knowledge

of the other Com'issioners wch: as he had received no old bills

in the room of them they were no more a part of the Currency

than so many Counterfeit bills would have been & of how dang-
erous & pernicious extent, this practice may have been & how

great a cause of the deficiency that appears is humbly submitted
to the Consideration of this honourable house.

Robert Hume of Charles Town Gent: made an Oath that several times during the last Summer Mr: Henry Houser since deceased one of the Com'issrs: for Stamping bills &c: came to this Deponent as he was walking upon the bay & amongst other discourse that then passed the said Mr: Houser told this Deponent: that he was very uneasy the Assembly had not settled the 3d: Com'issrs: accounts relating to the bills & desired this Deponent to move it in the Com'ons house of Assembly & as a reason of his being uneasy he told this deponent that during his absence in New England Cap: William Dry had taken out of the Publick Chest One hundred pounds of the bills without first acquainting Majr: Hepworth the other Com'issr: therewith & what was worst of all the 3d: Mr: Houser told this deponent that the 3d: Cap: Dry conceal'd the same severall months before he told it, & for that reason he say'd he was afraid of misapplication of the Publick moneys in his absence wch: he desir'd might be enquired into as soon as possible to avoid being liable to the same censure & this deponent further saith that the latter end of October & the beginning of November last the said Mr: Houser often repeated his instances & desire to this Deponent that the said accounts might be settled, & this deponent further saith that about the middle of November the said Mr: Houser desired this deponent to go with him to Mr: Poinsetts which he did where he desired this deponents advice about the man'er of Receiving the money the said Cap: Dry took out of the Chest for that what he the said Dry had taken out of the Chest was no part of the Currency, to wch: the said Deponent answer'd he knew of no way but Mr: Dry's procuring either new bills of the Old or bills of the New Currency not Sullied & clean that it might not appear they were ever out of the Chest & then the said Mr: Houser say'd he beleive'd twould be impossible to procure bills of the old Currency & very difficult of the new such as this deponent discribed & the 3d: Mr: Houser further told this deponent that he expected Mr: Dry would bring him the money in a few days & if he did not produce such bills as before discribed he should whenever a Com'itee of the Assembly was appointed to examine their accounts acquaint them with the whole truth of the matter & this deponent further said that in a few days after the said Mr: Houser came to this Deponent's house
with a small bundle in his hand & told this Deponent that Captain Dry had been with him & told him that he heard his taking the money out of the Chest had got Air & that some people intended to make use of it as an handle against him in the Assembly & at the same time gave him the hundred p's: & the s: Houser shewd this Deponent the bundle in his hand saying here it is, I have just now rec'd it & the s: Mr: Houser then desired this deponent not to make use of his name to wch: this deponent replied there was a Com''ittee appointed to settle their accounts & it would certainly come out when they mett with large bills of the new Currency that had been worn, among the others in the Chest for every body knew all the large bills had been issued long agoe, & none could be there regularly at this time a day, And this deponent further saith that he had inform'd the Assembly before Mr: Houser's decease of this matter & had actually drawn the same up in writing but stopt upon expectation of Mr: Houser's declaring the matter himselfe to the Com''ittee & this depont: did not care to lay it before the house after his decease for want of other proof & least he should have been thought prejudiced in making use of the hearsay of a dec'd person but this deponent having had it from the other Com''ission'r: Maj'r: Hepworth's own mouth that the s: Cap't: Dry owned to him the taking of one hundred pounds out of the Chest, And being also inform'd that the said Houser say'd the same things a little before his decease to the Honble: Benjamin De La Conseillere Esq': one of the Members of his Majesties Council & that Coll: Parris rec'd of the s: Mr: Houser One hundred pounds in large bills of the old Currency much about the time the said Mr: Houser had been at this depont: house And the s: Deponent further saith that the s: small bundle wch: the said Houser told this deponent was the hundred pounds he receiv'd of Mr: Dry was not above an inch thick & so must of course consist of large bills & further this deponent saith not.

The further proceedings of the Committee on the New Bills &ca: Mr: Dry says he has not acted for these three years. The last time that he concern'd himself in exchanging was the day before the general Muster at Coll's: Chickens's.
No bills stamp't since Mr: Houser went to New England Mr: Houser (he says) exchanged several Sum's of money for persons who did not care to be known.
Mr: Dry says he borrowed a hundred pounds of the Publick which he repaid to Houser & Hepworth lately, the time when he borrowed it he can't remember & that he inform'd both Houser & Hepworth of it at the time he borrowed it.
NB The Committee took the above examination on the 7th of this instant after they had gone thrô the other parts of their charge.
The Com'ittee having sent for Maj'r: Hepworth & examin'd him he says.
That the money taken out of the Chest by Mr: Dry was without his knowledge privity or consent & that he was not inform'd of it till it was done to the best of his remembrance whilst Mr: Houser was in New England. That when he returned he (Mr: Hepworth) acquainted Mr: Houser with it & he seem'd much surprized & therefore he concluded he must be unacquainted with the taking of it.
He further says that the Com'iss''s: had severally access to the Chest without the knowledge of each other.——

supported by several affidavits & other Vouchers, they are also herewith sent to your Hon'r: & the Conduct & behaviour of the said Marshall is submitted to your Hon'r:

Council

Honble: Gent'n:

This house has read & taken under consideration the Report of the Com'ittee on the Treasurers: acc't: & have agreed to the same. We Observe by the s't: Report that proper Vouchers are wanted from the Com'anders of the several Garrisons for supplys sent up by the Com'issary & as many frauds may be commit'ted for want of such receipts, We desire that your Hon'r: will be pleas'd to give directions to the s'd: Comanders to give receipts to the Commissary for every thing they shall receive for the use of the Garrisons.

Tho's: Broughton Speaker

Mr: Rhett from the Com'ittee appointed on the memorial of Mr: Bordier further Reported thereon.

That having sent for the Swiss people the following Questions were proposed to them

Q. . . . First. Upon what encouragem't: did you come over to this Country

A. . . . That hearing it was a fine Country they came over with intent to settle in a body together

Q. . . . How did you propose to make such a Settlement

A. . . . That they are ready to Comply with any thing that shall be reasonably proposed to them by this Governm't: towards making a Settlement.

Q. . . . Whether is there any among you that came on board Cap't: Omer without a Certificate from the Contractor's Agent in Holland directed to the s'd: Omer

A. . . . That there was four of them which had no such Certificate & think themselves under no Obligation to the Company
Q.... You that are come upon the Companys encouragemt: are you ready and willing to go to settle at such place of security as shall be appointed for you & to continue till a greater number shall join you from Switzerland

A.... That all except one say that they are ready to go upon the footing and agreement made with the Company.—

Q.... You say you knew the Company failed before you left Holland therefore what View had you to prosecute your Voiage

A.... That We heard the Province had promis'd by a Law to allow £10:0 sterling £ head as an Encouragemt: to settle & to Subsist themselves for nine months——

From the severall Answers your Com'ittee find it impracticable to settle these people in a body——

That it appears by a Letter from Mr: Purry (the principal projector of sending over these Swiss) to Mr: Bordier the memorialist wherein he acquaints him of the misfortune that had occasion'd him not going on with the design & that Mr: Bordier might dismiss those which were in Holland.—

Mr: Benja: Goddin Attorney to Mr: Stephen Goddin & Jacob Satur informed the Com'ittee that those Gentn: had pay'd the passages of these people that are arrived here, & if the Publick would repay that Charge he would set the people at liberty otherwise he must be Obliged to Secure it from the people themselves

Mr: Bordier acquainted the Com'ittee that he had no other concern with the people than to recomend them to the favour of the Generall Assembly——

The Com'ittee upon the whole are of opinion that althô these people are not within the resolution made for their Subsistance Yet they very much deserve the consideration of this Honble: house And that Mr: Bordier in particular deserves their notice since he will soon return to Great Brittain in order to proceed to Switzerland & your Com'ittee finding that he is related to several of the best families in Geneva his Report of the Colony & the encouragemt: the people shall receive here will either induce a great number to come over or otherwise as it shall be represented by the s'd: Mr: Bordier Febry: the 11th. 1726.

The house reading & taking under consideration the above Report
The Question was put whether the passages of the Swiss lately arrived should be pay'd out of the Publick of this Province except of such as have enter'd into Contract

Cap: Dry one of the Com'issrs: for reprinting the bills informed the house that he was ready to lay before the house his answer to the Report of a Com'ittee of this house who were appointed to inspect into the proceedings & acc's: of the s'd: Com'issrs: if the house would be pleas'd to receive the same & having leave so to do he read his s'd: answer in his place & then deliver'd it in at the table wch: was as follows.
The answer of Will*: Dry one of the Com’issrs: appointed by Act for Reprinting the paper bills of Credit to the several charges laid to him in particular as well as the Com’issrs: in generall in the report of a Com’ittee of this house appointed to examine the s*: Com’issrs: acc’s &ca

This Respondent adimits that he together with Thos: Hepworth Esq: & Mr: Henry Houser dec’d were appointed by an Act of the General Assembly Entituled An Act for the reprinting the present Current paper bills of Credit &ca: Rattified the 23d February 1722 to print the Sum’ of One hundred & twenty thousand pounds in paper bills of several Species the highest to be £20 & the lowest five Shillings.——

That by the s*: Act all the old bills were to be called in by the first of December ensuing none after that to be a tender in Law & all to be burnt before the fifteenth of Jan:* following wch: no doubt the Generall Assembly thought a time full long enough to allow for that service & therefore did not require the Com’issrs: to Act any longer nor should this Respondent in particular have engaged in such an endless task had he been apprizd that so much longer attendance would have been required of him. That after the order of Repeal arrived the Com’issrs: continued unactive in that affair for some months althô they attended as usual & were ready to exchange any bills that should be brought to them, but the old bills at that juncture being looked upon as the only valuable bills none were brought to be exchanged.

That by a Subsequent Act entituled an Act for calling in & sinking the paper bills Rattified the fifteenth of Feb:* One thousand seven hundred and twenty three the s*: Com’issrs: were again required to continue acting without any further allowance for eight months longer after the passing of that Act & then none of the old bills remaining should be current throughout this Province. That by the s*: first above recited Act the Com’issrs: were obliged to attend no otherwise than weekly in their turns & consequently had recourse seperately to the Chest wherein the money lay.

That before they enter’d on the Execution of their Office they each of them were bound in seperate bonds of £3000 & took as Strict an Oath for the due performance of what was required of them as could at that time be framed.
That true it is the 1st: first recited Act does mention the keeping the Counterparts of the bills in a book to be deliver'd to the Treasurer for the persual of any person wch: words are (as this Respondent understands) taken Verbatim from former Acts of Assembly passed here for making of paper money, & if the Com'iss: followed the same method that was allways before practiced in the like case of lodging the Counterparts with the Treasu'r: they hope they are not blameable since it was impracticable for them or any others in their behalf (except the Com'ittee) to get such a bond as the Act directs nor can they think which way it is possible to fix so many Counterparts of bills in any thing like a book there being some bushells of them. The Com'iss: were to print no more bills than by law directed but no one will Suppose they were to take the sence of that part of the Act according to the litteral words there expressed, when near a quarter part of what they printed were so wrinkled, Sullied, defaced, & torn that they were not fitt to utter & the Com'iss: concluded if they signed Numbered & indented no more than they were authorized by Act to print they were within the sence of that clause of the Law. The next paragraph of the Committee's report wch: comes in course to be answer'd relates to this Respondent in particular, he takes leave with Submission to deny that ever he refused attending their Com'ittee when required unless he was at the same time employed in some other Com'ittees of the house & that all he told the Com'ittee in relation to that affair was that as it was a concern of so long standing he could give them little or no insight into it for that he had not acted since the 14th of Octo'r: 1724 the day before the last general muster at Coll: Chickens's or words to that Effect.

And this Respondent beggs leave to inform the house that his reason for his neglecting to Act afterwards was because he had complied with both the Laws (to the great detriment of his other affairs) & with no small expence & had attended the service the full time limited by the last thô he looked upon himselfe only Obliged by the first.

As to what the Com'ittee Report in relation to the second plate consisting of £6, £4, £2 & £1 bills this Respondent says that the entry made thereof made in the Com'iss: book was done by him since this sitting of the Assembly & the reason for his so doing
was as follows. Mr: Houser one of the Com’issrs: came to this Respondent & in a surprizing manner asked him how he came to Omitt making a regular entry of those bills as he had done of the others, to which this Respondent replied that he must be certainly under a mistake but he averring that he was not & this Respondent again demanding if he was sure he was right & he as often answering that he was very sure of it & that there was no other mistake in their accts: & with all telling this Respondent that as well the preambles as the greatest part of the other entries being in his hand writing it was proper this should be allso, & this Respondent not having pleasure enough then to examine nicely into the affair & computing with Mr: Houser by head the time as near as they could guess that those bills were Stamped & Signed made that entry accordingly, But that this Respondent having since being reminded by Majr: Hepworth that the two plates of smallest bills were both used at one time & the bills Stamped & entered together & examining the Com’issrs: books on that occasion do find by the daily num-
ber of bills Stamp’d in the months of June & July it must have been as is before mention’d in wch: opinion he is since confirmed by the particular account he kept (in a book for that purpose) of bills signed by him where the time of beginning to sign those bills agrees exactly with what is above related; so that it plainly appears from this explanation of that entry with the circumstances attending it that the Com’issrs: have given gredit for . . . . . 2000 impressions in their wrong amounting to £2875— That this Respondent is the onely one of the Com’issrs: that kept any particular account of what bills he signed & that the book herewith tendered the house is the very Original book he kept for that purpose; in which he has made no manner of alterations or additions since the entrys therein made wch: was at the time of signing the bills unless in such places where red lines are drawn underneath the figures &ca: where the amount of the several Sum’s are carried out.

And this Respondent takes leave to inform the house of the method he took at first to keep a true & just account & after what manner their accounts came to be so imperfect——
The Plates of largest bills were all Stamped signed numbered Indented & Issued the Com’issrs: all Sitting———
After that they took their weekly turns as the Act directed to see the bills Stamped at Mr: Masseys & during such their stay there, were allways employed either in exchangeing or signing & numbering.

That this Respondent being allways (till at the very last that Mr: Houser advanced before him) considerably a head of the others in Signing & Numbering, he used constantly to deface such bills as he lookt upon unfit to utter & as they were usually signed in half Sheets just as they came from the press, it was his Custom when the bills were cutt a sunder & Sticht in bundles, in order to keep a true account of what he signed, to sort out those bills that were defaced, & sign & Number so many other good bills of the same denomination in their Stead, because thô an Impression might not have above one or two good bills Yet he took account of it as a whole Impression & this method was practiced for two or three sittings or oftener til at length the other Com’issrs: in his absence having as he Supposes (& in part remembers) large & thronging Demands from several that wanted their old bills to be exchanged; in their hurry did not observe that regular method, that before they had put in practice but cancell’d several of the defaced bills without taking any acc+: how many, or of what Species, or value, by wch: means this Respond: could never afterwards keep any exact acc+; thô before that, he had been so nice as when a defaced bill happened by chance to be sticht in a bundle amongst others that were good to take another of the same Denomination, & joining of it to the Counter-part of the Indent of such defaced bill, has new indented both parts making the numbers likewise to agree, & this he frequently did at first, before his account came to be so perplexed.—

That each of the Com’issrs: took upon him to deface such & so many of the bills as he thought unfitt to utter by wch: means some that this Respondent approved as fair enough & accordingly signed, not appearing to Mr: Hepworth he defaced them & others that both Mr: Hepworth & he had Signed for bills fitt to pass. Mr: Houser looked upon otherwise & were Crossed and Obliterated by him whereby it is plain that this Respond: nor either of the other Com’issrs: could ever afterwards keep any just account of any other than what were issued The Com’ittee Report likewise that several of the New bills remaining in the Chest are Signed only by two or one Com’issrs: & others by neither. In
answer to wh: this Respondent says that he thought and allways beleiv’d there were none remaining unsigned by him; but if he has Com’itted such a mistake, he is not at all surprized at it when he considers the greatness of the work, & the difficulty of his task, & humbly hopes as that is no Capital Crime it will not detain the house any time in debate. 

The Com’itte in the account they have stated No.: (6) give no Credit to the Com’issrs: for any money lying in Coll: Parris’s hands but as this Respondent is not concern’d in that affair he leaves that point to be cleared up by his Brother Com’issrs: Majr: Hepworth who with Mr: Houser deceast were the Sole Actors in that part, for that he does not remember that he ever receiv’d the value of Six Pence of the s’d: Coll: Parris or any in his behalf on that score besides the difference in their accounts arrises from what has been transacted since this Respondent declined, & therefore cannot be chargeable with any Errors that may proceed thence.——

Nor do the Com’itte make any manner of allowance in their stated account for wrinkled defaced or torn bills, but Suggest every Impression to be good; whereas by the very Specimen of bills they have brought to the house it appears that great part of the bills Stamped were very bad & unfit to utter and were therefore never issued as is before Observed. In particular the plate of £6 £4 £2, & £1 whether not so well Cut or by what other means this Respondent: don’t Remember, but so much he knows, that they were Obliged to print several scores of half, as well as, whole impressions of that plate, more than the Law directed, to make good such as were Sullied, Imperfect & Obliterated, but Solemnly declares he does not know that there was either directly or indirectly, one issued more than the two thousand Impressions or eight thousand bills directed by Law to be uttered.

The next thing to be answered is that the Com’issrs: to give themselves as little trouble as they could, put several Sum’s of new bills into Parris’s hands to exchange for old &ca: altho they were not impower’d so to do; This with Submission in the most rigid sence, could be no crime let who will exchange them, when the Publick is no ways injured thereby, especially when the Law has no negative words in that Respect, & it was first done at Coll: Parris’s request who complain’d at the trouble he was frequently put to by several,
who rather than come to the Com'iss's: to exchange their old
bills would pay him their Dutys & Taxes in such, leaving it to
him to get them exchanged wch: he rather chose to do than refuse
their money, and therefore desired a Sum' might be lodged in
his hands for that purpose & allways gave the Com'iss's: a
receipt to return them the Value in old bills of what they de-
 deliver'd him in New; wch: wth: submission will hardly bear such
a Gloomy Representation as it appeared wth: I now come to
answer that very henious charge of making use of a hundred
pounds of the Publick money wch: as I never denied it to
the Com'ittee, & had told it my selfe frequently in Company for
two years past, or more, in particular to Mr: Ralph Izard &
Mr: Roger Moore, so, I shall now also own the same, & that
I repaid it in large bills that were worn, & therefore the Com'ittee
need not have taken the pains they did to procure Affidavits
&ca: for supporting that part of their Report. It is very true,
I had once an im'ediate Occasion of some money & had recourse
to the Publick Chest where I took out one hundred pounds as
an even Sum' in small bills, & to the best of my Remembrance,
left a Note under my hand signifying the same, but at what
particular time it was, or whether either of the Com'iss's: were
then presently apprized of it I can't exactly say; It is very
plain there was no fraud designed or I should have hardly dis-
cover'd it; And since the money is repaid I don't think the
Publick is any ways injured: I often brought down old bills
to exchange for other people & the reason of my keeping that
money so long was partly in expectation of getting the Value
in old bills for it, at almost any day seeing the time for ex-
changing was so often renewed & Prolonged; And indeed it was
partly through Careless indifferency; I knew I could at any
time raise a hundred pounds & I thought (& do still beleive)
I may be able to procure bills of the same Species, that are not
Sullied if need be, or let the worst come to the worst, it was
but burning that Value of small Bills in the presence of the
other Com'iss's: before the accounts were Settled, & then the
State of the Currency would stand as it ought; whether my
note is in being or whether cancelled by Mr: Houser after the
money was paid, or what is become of it I can't Say but I really
do think there was such a Note in the Chest, And I would feign
know the man that was thought worthy of being intrused with
so much Publick money, that would not upon an urgent oc-
occasion make use of such a small Sum' as an hundred Pounds when he knew he could raise it again at any time; or how many men of less clear Estate than mine have owed the Publick several hundreds for a longer time, & why then should one hundred pounds be less secure in my hands than several Hundreds where there is not so good Security. To Sum' up the whole this Respond: is obliged to take the same method used by the Com’ittee to explain the supposed Crimes of the Com’issrs: that is, of repeating some heads already lay'd down.——

And to begin, the Com’issrs: were each bound in Seperate bonds, they were allso very strictly sworn to the faithfull discharge of their Trust, wch: the Generall Assembly (when they appointed them) thought sufficient, being as great tyes as they could fix them by, they were no otherwise Obliged to attend but weekly in their turns; and as the trust reposed in them depended more on their integrity than on any other tye whatsoever; there was a sufficient Lattitude for them either jointly or seperately to defraud the Publick if they were so disposed, disregarding their Oaths, & might as the Com’ittee observes, have issued out an indifinite number of bills without ever being discover'd, but it is plain there was no such hard thought of them then, or they would not have been appointed, nor does this Respond: conceive from what he has already Shown that the design of the Legislature at that time by appointing three Com’issrs: was so much for one to be a Check over another (thô that might be one reason) as that they thought one hand might be easier to counterfeit than three & that it was a task no one man could have gone through wth: unless he had trible the time allowed him; thô the Com’ittee without perusing the Act presume that to be the only reason.

William Dry

Memorandum, Mr: Wm: Dry made Oath that the foregoing memorial contain'd in four sides of paper was composed by himselfe in answer to the Report of the Com’ittee of the Honble: House appointed to examine into the Acc'ts: &ca: of the Com’issrs: for reprinting and exchanging the paper Currency, that the same is an exact relation of that affair to the best of his memory & knowledge & that he does not know nor is he conscious to himselfe of any unjust designes in either of the Com’issrs: of converting any Publick money to their own use or of himself in particular of defrauding the Publick by the use of the hundred
pounds therein mention'd or in any other manner of ways or means whatsoever.

The Com'ittee of Accrs: having not yet
Reported all the accths: and Petitions before them that blank must be left to be filled up when they have finisht & Reported the amount of the whole; The money that will be due to the Rangers at Pon Pon is likewise left blank for want of some certificate to shew when they enter'd into the Service & how much longer they are to remain so. Cap:\: Wm: Dry from the Com'ittee appointed to enquire into the several Complaints ag:\: Cap:\: Fitch made the following Report

The Com'ittee appointed to enquire into the several Complaints made ag:\: Cap:\: Fitch whilst he was among the Creek Indians in his second Agency Report as follows.

Darby Mc:\:Cloughlins Deposition setting forth.

First That Cap:\: Fitch Stopt him from going to trade amongst the abeecas.

Secondly. That he imprest one of his Horses & men to fetch him a Linguister by w:\: means his other horses got into the Indian field's & dam'aging them he was compelled by s:\: Cap:\: Fitch to make the Indians full Sattisfaction.

Thirdly. that Cap:\: Fitch writ a letter to Glover (w:\: Glover read to him) wherein he acquainted him that there was forty burtheners come in with Skins w:\: he had receiv'd & desir'd Glover would send him up two pounds of Paint.

Fourthly. That Cap:\: Fitch forbid him & several others from trading with the Chactaws a number of whom were expected at that time amongst the Creeks with Skins for that purpose;
Alexander Wood's deposition proving that Joseph Chambers told him the latter end of November last that he had sold all his horses & goods to Cap^t: Fitch & that Jordan Roach told him the s^d: Wood that he was an evidence to the writings between them on that bargain. Secondly. That John Francis told the s^d: Wood that Cap^t: Fitch had agreed with Glover for most of his horses.—

Thirdly. That Mr: Roach told him that after Cap^t: Fitch had bought Chambers's Goods he offer'd to buy all M^c:intoshe's.

Fourthly. That Cap^t: Fitch took away Tho^: Reynor's Lycence w^ch: was to trade among the Lower Creeks & gave it to Henry Carr who traded therewith at the upper Creeks.

The Deposition of Dan^1: Dicks setting forth.

First that John Francis told him that Fitch & Glover were in Partnership. Secondly. That he forbid any Traders going w^th: their goods to the Abeecas to Trade.

Thirdly. That the traders were all forbid by the s^d: Fitch dealing with the Choctaws or for Choctaw Skins.

Tho^: Dean's Letter to Mr: Eveleigh complaining that the Traders were confin'd each to a Town to trade in.

Secondly. That they were prevented trading in two of the best Towns.

Thirdly. That he permitted Lower Creek traders to trade amongst the upper Creeks & the upper Creek traders amongst the lower Creeks Some of w^ch: charges are owned by Cap^t: Fitch but the most Essential he Absolutely denies & offers to make Oath that he bought no other Indian traders Horses or goods but Chambers's w^ch: was just before he came away & after he had finisht all the Publick affairs com'itted to his trust & that before the purchase of those Horses & Goods he was no manner of ways interested in the Indian Trade

The Com'ittee also Report that Cap^t: Fitch declares that he had no Copy of the Indian trading Act with him in the Indian Country & having perused his instructions do find no reference to the said Act but a very extensive Decretionary Power in the last Clause thereof, & can't find that he has been Guilty of a breach of any part of his instructions by w^ch: alone he was bound & therefore if any think themselves injured by him they may remedy themselves at law. The Com'ittee therefore Submitt it to this Hon^ble: House whether the s^d: Complaints lye Properly

On motion that the Council be desired to send down Mr: Boone's order & the following message was Order'd to be sent

Honble: Gent'n:

It is long since that an order was sent up from this house to Yours, for the paym't: of fifteen hundred pounds due to Mr: Boone; and as we think the Publick Faith of this Province is concern'd in the discharge of that just debt, we desire that you will concurr to the said order & send it down to us that it may be deliver'd to Mr: Boone.

Tho: Broughton Speaker

The above message sent up by Mr: Tho: Smith & Mr: John Ashby

Maj'r: Hepworth acquainted the house that he was ready to lay before them his answer to the Report of the Com'ittee appointed to state the accounts of the Com'iss'rs: appointed to Stamp & exchange the Old bills, & being directed so to do he read his answer in his place & deliver'd the same in at the table wch: was as follows.

To the Honble: Thomas Broughton Esq': Speaker & to the rest of the Honble: the Members of the Com'ons House of Assembly

Honble: Gent":

I have perused the Report of the Com'ittee of your House appointed to examine into the proceedings & accounts of the Com'iss'rs: for Printing & Stamping the New bills, wherein are
Contained several Charges on the s\textsuperscript{d}: Com'iss\textsuperscript{rs}: for Neglect and breach of duty in their said Office, & to such parts thereof as relates to me, I begg leave to lay before you this my Answer

In the first place I take notice that such part thereof as affects me may be reduced to the following heads.

First. It is charged that I promis't the Com'ittee to lay before them a whole State of the several Affairs they were appointed to examine into but Neglected it.

Ans\textsuperscript{r}: True I did so promise but after understanding that the Com'ittee had before them the several books of the Com'iss\textsuperscript{rs}: kept by them for that purpose & also several other papers found in Mr: Housers keeping at his decease w\textsuperscript{ch}: I knew was full and sufficient for them to found their Report on; I thought it needless & had the same been done by me, the Com'ittee must or would have examin'd it by the s\textsuperscript{d}: books or papers. Secondly the s\textsuperscript{d}: Com'iss\textsuperscript{rs}: are charged with printing £2688,18,9 more than the Law directs.

Ans\textsuperscript{r}: It appearing by the answer of Cap\textsuperscript{t}: W\textsuperscript{m}: Dry that thro a mistake of Mr: Houser deceased a double entry was made by Mr: Dry in the Com'iss\textsuperscript{rs}: book of Impressions of the £6,.4,.2. & £1. bills; I need not add only that the same will more clearly appear as well by a Strict perusal of the said Com'iss\textsuperscript{rs}: book as by examining Mr: Benja: Massey & his brother who attended the Press, and Mr: Speaker & Gent\textsuperscript{n}: I think this double entry in the s\textsuperscript{d}: book being made by Mr: Dry without my knowledge (as he himselfe owns) it ought not to charge me.

Thirdly. It is charged that several Different States of these acc\textsuperscript{ts}: were found among Mr: Houser's papers.

Answ\textsuperscript{r}: I never knew of any account of Mr: Housers stating about this affair but what we deliver'd to the Govern\textsuperscript{r}: or the house till this mistake was made, & therefore it no ways concerns me, I allways depending upon our books w\textsuperscript{ch}: I did not think would be at any time alter'd without my knowledge.

Fourthly. It is say'd that no Counter parts to these bills or books indented were provided to be deliver'd to the Treasurer according to the direction of the said Act.

Ans\textsuperscript{r}: We took the same method w\textsuperscript{ch}: all other Com'iss\textsuperscript{rs}: who have been appointed for Printing & Signing of bills took, the Counterparts are indented & Numbered & Sticht in bundles & what have not been yet deliver'd to the Treasur\textsuperscript{r}: are now ready
to be deliver'd & we have no directions to deliver the same whether during or at the finishing our employment.

Fifthly. It is Charged on the Com'issrs: that we were a Check on each other, yet we had separate recourse to the Chest in each others absence:

A nw'r: This charge affects each Com'iss'r: & the same is fully clear'd up by Mr: Dry in his answer to the said Report. I shall not spend your Honrs: time on that head.

Sixthly. The last charge of the s'd: Com'ittee consists in the said Com'issrs: burning or tearing such of the impressions as were useless without any Voucher.

Answ'r: the Com'issrs: thought it to no purpose to preserve them, the same not being deem'd such impressions the Law intended to be made Current, & had any one took away part of those useless papers, the same could have never been imposed on any one as a good bill, so that we look't on them as no more than wast paper.

May it please y'r: Honrs:

I do deny that I ever directly or indirectly made use of any of those bills but in exchanging the New for old ones, as the same are entered in our book, & moneys paid to Coll: Parris according to the directions of the several Acts of Assembly under wch: we Act, except in lending Coll: Parris the new bills mention'd in the said Report, wch: he told us would be a great ease to him in receiving the Publick debts, & this was done by the equal consent of all the Com'issrs: & excepting £223.10:0 wch: I deliver'd to Coll: Parris, after exchanging wch: I acquainted Mr: Houser with who was well sattisfied; & here I must begg leave to observe that this happened when the Com'issrs: had sat long after the time Agreed & Limitted by the first Act so that they might well expect to take some indulgence in an office of that trouble & expence without any Recompence especially since the Publick receiv'd no injury thereby.

Sworn before me this 2d. March 1726/7.

Mr Speaker & Gentn:

I did not think to send you any more Petitions from this board, but this that I now send you, being of an extraordinary nature, & the Gentn: out of his money for the building the Fort after it was burnt to the ground, under that necessity I wrote to Mr: Watt to use his best endeavours to get the Soldiers to work in order to put themselves in a posture of defence & told him that I did not doubt but that when I heard from England they would be payd for their labour, but without my knowledge or desire Mr: Watt did pay them out of his own money as you will see by this account; As I hope the said Garrison will be no further charge to the Province, I desire you to be so kind as to pay Mr: Watt what is due to him, & I shall take it as an obligation on myselfe

May it please y'r: Hon'r:

In answer to our last message relating to the providing the Sallary appointed by Law for the Master of the Free School, you have sent us up a message by Mr: St: Julien & Mr: Ashby wherein you acquaint us that your house is determin'd to make no further provision in this Years Tax for a Free School Master than what will be sufficient to pay the present to the 29th. instant. It is still the Opinion of this board that provision be made for the whole Year the present School master being willing to Officiate til another shall be sent hither by the Honble Society, If he hath not discharg'd his Duty upon due proof thereof there may be reason to provide no further Sallary, but we think if anything of that nature be lay'd to his charge he ought of Right to have an opportunitiy of Publickly justifying himselfe before he be deprived of his Sallary unless it be your design absolutely to break up the Free School, If that be your intention, 'tis better to do it by repealing the Law for we can never expect any other Master when it shall be represented to the Honble Society that this Province has discharg'd their Missionary without so much as giving him a hearing, We likewise observe that you have provided no further then to the 29th. instant for the Usher of the School wch: Confirms us in our opinion that you design to continue that School no longer.

Tho’s: Broughton Speak’t:
Mr: Secy: Hart brought from his Majesties Honble: Council the following message.

Mr: Speaker & Gent:

In answer to your message last night wherein you say that a Sum’ons only is so highly reasonable; We can by no means agree with you in that Opinion, we think that the Credit: should have the easiest way, not only to come at, but to secure his debt, we still propose it to you again, that if a Writt & Sum’ons be thought too great a burthen to the people, we are willing to ease them by taking away the Sum’ons & leave it to the Writt only.

Gent:, We take the design of this bill before us, is to appoint, a person to preside over the Courts, that may see Justice duly administer’d, & that for want of such a person you are sensible the Courts of Justice have been hitherto of little use or benefit to the Province; The Clause for a Sum’ons (which you say you can’t by any means consent the bill should pass without) has no relation to the appointing a fitt person to preside in the Courts, & is no essential part of it, we therefore acquaint you that we cannot pass the bill to take away the Writt wch: if you Still insist on, & any confusion should follow, for want of having the Courts of Justice duly held in the Province, we are sattisfied no blame can lye on us; We therefore desire an answer to this message before we proceed to the further reading the said bill. 11th. March 1726.

We are now come near to a Conclusion of this Session of the Generall Assembly, all the affairs before us being dispatched except what you have been pleas’d hitherto to Conceal; We assure you ’tis matter of great Surprize to us that severall resolutions of this house particularly that concerning Judge Trott & some Reports of Com’ittees, that especially concerning the bills in the Com’issrs: Chest we have yet receiv’d no answer, nor ever to what we have so often & justly prest you to, a Consent to Mr: Boone’s order or the returning of it to this house, severall bills which had their rise in this house you likewise detain by some new, & we may venter to say, extraordinary Practice, we are therefore oblig’d to tell you that we expect to have

Tho^: Broughton Speak'r:

We have just now receiv'd your message by Mr^: Rhett & Mr^: Buttler wherein you tell us you have dispatched all affairs before you except what you say we have conceald; As we have the honour to sit here as his Majesties Council, this is treating us with so much Indignity that we must desire an explanation of that word before we think our selves obliged to give an answer to any other part of your message.

We desire to know what reasons you have given us for not sending us up the Dock Street bill, the County Court bill & the bill for ascertaining the bounds of the severall Parrishes; Bills (tho' arising in your house) after once brought up, read & past by us, we look upon, our house has as much a Right to know what is become of them as if originally they had taken their Rise here; we do not look upon our selves to be obliged to give our reasons for Rejecting bills or orders, it being our undoubted Right to pass, or reject them as we think proper. We have sent you down all the bills we have now left before us Rejected & allso M*: Boone's Order rejected, altho' we think of Right they ought to remain in the house, where they are rejected.

Tho*: Broughton Speaker

Sent up by M*: Whitaker & Cap*t: Nicholls who were order'd to acquaint the President that the house is ready to Rattifie the severall ingrosed bills.
Mr: Sec'y: Hart brought down from his Majesties Honble: Council the following message.

Mr: Speaker & Gentn:

We have taken under consideration your resolutions relating to Mr: Trotts compiling a Collection of the Laws of this Province, we are ready to agree thereto when a Sum' shall be by the General Assembly raised to have them printed & not before without which it will prove useless. This Province has already pay'd for two Collections w'ch: having been never committed to the Press have been but of little service. As to the bills in the Com'issrs: Chest, remaining after the old bills were exchanged, the Lds: of the Regency in Great Britain by their repeal have signified their disapprobation of the stamping & issuing these bills, so that we think it would be a presumption in this board to consent to your proposal of making use of any of the money appropriated by Law to be burnt, to be issued in their room, there being no Law in force in this Province for adding to the present Currency, the st: bills remaining in the Com'issrs: Chest, & we not thoroughly satisfied that the whole Sum' of £120,000 is not already issued out.

These are our proper answers (whether you judge them to be so or not) that we shall give you, before we ratifye the Laws now lying before the General Assembly.
