PREFATORY NOTES TO SECOND VOLUME.

The second volume begins with the year 1713 and closes with the end of the Proprietary Government in 1728.

But is 1728 the true date? The facts seem to be that on or about the 11th July, 1728, the Crown concluded negotiations with the Proprietors by an agreement for the surrender of their charters; that the colonists were notified thereof on or before the 12th December, 1728; that from and after that date official papers from the colony were sent, not to the Proprietors as hitherto had been the custom, but to the representatives of the Crown; that the Proprietors thought their authority was at an end; that the Judge of the Court of Admiralty, the Secretary, the Council and the Governor of the Province, also, thought the transfer had actually taken place; that upon further reflection an act of Parliament was considered by the Crown authorities necessary to the legal surrender of the government; that the Lords Proprietors expressed great surprise thereof and asked that the surrender be accepted at once, or that they be restored to their rights under the charters; that some time before the 1st June, 1729, an act of Parliament was passed “establishing an agreement with seven of the Lords Proprietors for the surrender of their title,” &c.; that in pursuance of this act a further formal deed of surrender was made by the aforesaid seven Proprietors to the Crown on the 25th July, 1729; that the first Royal Governor did not enter upon the discharge of his duties until February, 1731; that in the interim Governor Everard and the other appointees of the Proprietors continued in office; that the Legislature met and passed laws, using the customary enacting clause, and that it was not until after the arrival of the Royal Governor that there was any requirement that statutes should run in the name of the Governor, Council and Assembly instead of the Palatine and Proprietors.
Upon this statement of facts it is submitted that the government of the Lords Proprietors came to an end practically in North Carolina in 1728, and not in 1729, as is commonly stated.

In 1712, Colonel Barnwell having been rendered unfit for further service by his wounds, returned to South Carolina, and Colonel James Moore with a second force of Indians came to the help of the colonists in North Carolina. On the 26th March, 1713, Colonel Moore captured the Indian fort on Contentnea creek and thereby virtually ended the war with the Tuscaroras. A treaty was made in which twenty of the ringleaders in the massacre of 1711 were agreed to be surrendered to the colonists for punishment, and King Tom Blunt, as he was called, was recognized as King of all the Tuscaroras who remained. The others are said to have gone to New York, where they became the sixth of the tribes called the "Six Nations." Blunt seems ever afterward to have been a faithful ally. But the Indian troubles did not end with the Tuscarora war, for as late as 1718 the colonists were still putting troops into the field to "catch or kill Enemy Indians." As might be expected, the condition of the colony for several years was a deplorable one, the people being "exceeding poor and distressed" because of the war, whereby they were not only decreased greatly in numbers but suffered very much by destruction of cattle, houses and plantations. The war was a cruel one. Every Indian who was captured was either killed or made a slave. The right to make slaves of captive Indians seems not to have been questioned, and the opportunity to exercise this right was the great inducement offered to the South Carolina Indians to come to North Carolina under Colonel Moore and fight against the Tuscaroras. In 1713 Colonel Pollock, then acting as Governor, bought from the Council eight Indian captives at £10 per head for shipment to the West Indies.

War was then, as now, an expensive undertaking, and this war saddled upon the colony a debt that could be met only by the emission of paper obligations. The first was in 1712 for £4,000, and the next for £8,000. These were the first paper certificates of public indebtedness ever issued in North Carolina. Up to this time taxation had been levied only upon the
poll, but to meet the present emergency it was also levied upon real estate. In the course of a few years the colonists found it necessary to resort to still other issues of paper money. In 1714 £24,000 were issued for future needs and to redeem the currency already out. In 1717 the amount then out was supposed to be about £16,000. In 1722 £12,000 were issued, that being supposed to be sufficient to redeem the whole issue then out, less the defaced and lost bills. In the year 1729 also, bills of currency to the amount of £40,000 were issued, rated at 500 per cent. exchange, £10,000 to be applied to the redemption of former bills and the remaining £30,000 to be lent out at 6 per cent. interest on land security, the same to be paid in fifteen years in equal payments. The value of the bills being uncertain, the Assembly reserved to itself the right to declare at their first meeting annually at what exchange the bills should pass.

In this great crisis in the affairs of the colony, brought about by the war, the Lords Proprietors, instead of extending a helping hand to save their property from destruction by the Indians, were avaricious enough to demand their rents in silver, a requirement that the people of the colony in the best of times were unable to meet. Indeed, owing to the great scarcity of coin in the country, the colonists had years before been compelled to make the ordinary articles of traffic a legal tender at certain fixed rates established by law, and suits were brought for so many pounds of tobacco for example, instead of for so much money in pounds, shillings and pence.

In 1713, the Proprietors having forbid further hostilities toward Cary and his adherents, and Governor Hyde having died, Colonel Pollock became Governor as President of the Council, and peace and better order obtained in the government. Pollock admits in one of his letters that the Quakers, under his administration, were good citizens, a fact doubtless due in great degree to the cessation of hostilities against them.

In 1715, North Carolina had an opportunity to repay South Carolina in kind for her prompt and generous assistance after the massacre in 1711, for in 1715 the Yemassee Indians made war on the whites in South Carolina,
and put the government there to great straits. North Carolina thereupon
at once sent to South Carolina, under the command of Colonel Maurice
Moore, what forces she could. The aid thus extended was gratefully
acknowledged by the South Carolina Assembly, who having invited
Colonel Moore to the floor of the House, thanked him in person through
their Speaker for the services he and his men had rendered.

Bath was made a Port of Entry this year. Prior to this time the coast,
it seems, was divided into two districts for the collection of customs, one
being the District of Currituck and the other that of Roanoke. In the
course of time the increase of population to the southward and the de-
crease in water at Currituck and Roanoke Inlets made other Ports of
Entry necessary.

In this year, also, was made the first revision of the acts of Assembly
that has come down to us. This revision left sixty-nine statutes in force,
to-wit: "The six confirmed acts," as they were called, six other acts
specially excepted from repeal, and fifty-seven other acts, then formally
enacted, some new and some old.

In 1716, Governor Eden and Governor Spotswood of Virginia seeing
the difficulties in the way of determining the boundary line between the
two colonies, agreed upon the compromise line which was finally run in
1728, and is to-day the dividing line between the two States.

In 1718, a change was made in the manner of selecting the members
of the Council. Hitherto each Lord Proprietor had appointed a deputy
and these deputies composed the Council. From this time, however, the
appointment of deputies ceased and the members of the Council were
named as such by the joint action of the Proprietors.

In 1719, South Carolina threw off the Proprietary Government and
claimed and received the protection of the Crown. She was led to take
this step not from any advanced views in regard to government, but
because, in the straits to which she had been reduced by the Indian war,
the Crown only was able to extend the help necessary to her existence.
Appeal after appeal having been made to the confessedly helpless Lords
Proprietors, and in vain, the colony sought and found refuge in the strong
arms of the King.
This action of South Carolina aroused great indignation in the bosoms of the Governor and Council of North Carolina, so they said, and very naturally, as they were appointees of the Lords Proprietors, and in conscience and truth men might well be excused for not being in haste to get under Royal rule. It is true too, doubtless, that the weaker the government was the better suited it was to the tastes of the people of North Carolina. It mattered not to them whether it was called Royal or Proprietary, for until they took the government into their own hands they knew it only by the burdens it imposed. Whatever protection they enjoyed came from themselves.

About this time, or a little before, were sown the seeds of a dispute as to the boundary line between North and South Carolina, a dispute that did not end until 1815. Its origin was something after this wise: The Lords Proprietors determined to erect a third government in their province of Carolina with the Savannah river as boundary between it and South Carolina. The proposition to form a new government, with the Savannah river as the northern boundary (substantially what the present State of Georgia is) threatened South Carolina with fatal contraction of territory.

At first the northern part of the province was described as that portion of it lying "north and east of Cape Fear," and the southern part as that part lying "south and west of Cape Fear." As early, however, as 1665, the county of Craven was described as lying south and west of Cape Roumania, Craven constituting the southern part, Clarendon undoubtedly belonging to the northern part of the province, and for years the Santee river was recognized as the real boundary. The county of Clarendon becoming very soon once more a wilderness, uninhabited save by Indians and beasts, the question of boundary was one of no practical importance. When, however, threatened with the Savannah river as her southern boundary, South Carolina very naturally became keenly alive to the importance of her northern line, and sought at once to fall back northward from the line of Cape Roumania and the Santee river to what she claimed to be the earlier line of Cape Fear and the Cape Fear river.
Certainly with the Savannah river for one boundary and the Santee for the other, South Carolina would indeed have been in a narrow strait, and it was natural for her to make a vigorous fight for a larger share of the province in which she and her northern sister had lived so long as tenants of the same owner. On the other hand, to have made Cape Fear river the boundary would have been equally hard on North Carolina. In point of fact it never was a boundary, and in this connection it must be borne in mind that while the Cape was known as Cape Fear from the beginning, the river was first known as Charles river, then as Clarendon river, after which it came to be called the Cape Fear river.

It was not until after the purchase of the province by the Crown that anything like the present line was indicated, and then it was done after consultation with the proposed Governors of the two colonies, and doubtless as an equitable compromise between the Santee and Cape Fear lines.

The change in tone of South Carolina toward North Carolina after her transfer to the Crown, was very marked. When she too was a proprietary government she was kindly enough, but immediately she got under royal rule her airs of superiority generally were worthy of the Virginia officials in their most arrogant days. The South Carolina agents in London went so far, in 1720, as to ask that North Carolina be blotted out, one part to be given to Virginia and the other to South Carolina, for the reason that it was the receptacle for all the rogues on the main land in America. In 1722 they were formally instructed by their Legislature to urge that North Carolina be made a dependency upon South Carolina. See documents of those dates.

But there was some excuse for South Carolina, remembering to what straits she was about to be reduced by the formation of a third government by the Lords Proprietors.

In 1722, Governor Eden died, leaving a reputation tarnished, as many think, by the not groundless suspicion of having been the protector and partner of pirates. The Secretary of the colony, Tobias Knight, who was also a member of the Council, was formally accused of being an associate in crime with the notorious pirate commonly known as “Teach,
the Pirate," or "Bluebeard." The Governor and Council quite as formally investigated the charges and gravely pronounced him entirely innocent. It was to this scandal that Colonel Moseley referred when he told Governor Eden he could find men to arrest him, but could find none to arrest pirates.

In 1722, Beaufort was made a Port of Entry.

In January, 1724, George Burrington was sworn in as Governor of the colony, and in July, 1725, was removed from office. The reasons for his removal are not given officially, but it was officially suggested by the Lower House of Assembly that it was because he was suspected of a design to transfer North Carolina to the Crown, as South Carolina had been transferred in 1719. His prompt re-appointment by the Crown after the purchase of the colony from the Lords Proprietors would seem to indicate that there might be some truth in the suggestion. But if a tithe of what was sworn to as to his violence, both in speech and action, be true, the wonder is that he got away from the colony alive, and not that a conspiracy was formed to kill him, as he alleged.

Sir Richard Everard succeeded Burrington and continued to act as Governor until Burrington's second appearance on the scene, when he came as a Royal Governor. He fully sustained the character attributed to Burrington for bad language and violent, lawless action. This declaration may seem harsh, but it is submitted that the documents printed in these volumes demand that it be made. It will be borne in mind, too, it is hoped, that Eden, Burrington and Everard, and in fact the government officials generally were, then, not North Carolinians but needy adventurers, who came over here to make their fortunes at the expense of the colony—a cormorant brood in that day, at least, not equalled in America.

Insured to danger, and accustomed to meet it unaided, and seeing no strength in the government over them, save that which lay in their own strong arms and brave hearts, the people of North Carolina, as might have been expected, felt but little respect for the Lords Proprietors or their representatives. When the government was in accord with the
people, it was well; when it was not, so much the worse for the government, for the people were stronger than the government.

In 1675, when the colony was only twelve years old, the people turned out their Governor, Colonel Jenkins. How many Governors they turned out before that time we do not know. There were then not more than 1,500 males, of all ages and colors, in the colony.

In 1676, the Lords Proprietors declared that the North Carolinians did not understand their own interests, and would not regard the interests of the Proprietors.

In 1677, 1678 and 1679, Miller and Eastchurch were turned out and the Culpeper Rebellion prevailed.

In 1680, the Lords Proprietors reported to the Crown that since 1676 there had been no lawful Government in North Carolina.

The next unfortunate was Seth Sothel, or Southwell, whom, in 1689, the Assembly formally banished from the colony for one year, and from the government for all time. He was surprised, so the story goes, upon his own plantation and "clap't into a Logg House" and there kept prisoner until "he renounced the Government and took and subscribed a strange oath." Now Sothel was not only a Governor, but a maker of Governors, for he was a Lord Proprietor, and as such a chartered absolute master of the soil, if not of the people as well, of Carolina. But for all that, the North Carolinians would not have him, and his brother Lords Proprietors would not attempt even to force him upon them unwillingly.

In 1690, Governor Nicholson reported that the North Carolinians were a very mutinous people.

In 1708, 1709, 1710 and 1711, Glover and Hyde were turned out, and the Cary Rebellion, so-called, prevailed, until suppressed by a military force from Virginia.

In 1710, Governor Spotswood, of Virginia, said the Governor of North Carolina was on so precarious a footing, and his authority so little, that he was forced to submit to others.

In 1711, he said the North Carolinians were so used to turning out their Governors that they thought they had a right to do so.
In 1712, Governor Pollock, of North Carolina, said the people were still stubborn and disobedient, and that pardon and amnesty had not produced the desired effect.

In 1715, the North Carolina Assembly, under the lead of Moseley,

"Resolved, That the impressing of the inhabitants, or their property, under pretence of its being for the public service, without authority from the Assembly, was unwarrantable, a great infringement of the liberty of the subject, and very much weakened the government by causing many to leave it."

This was the defiance flung by the people, through their Assembly, publicly, formally and officially, into the teeth of Governor Eden and his Council. Nor were the colonists any more complaisant to Burrington and Everard than they had been to Eden and Hyde. North Carolina was never a bed of roses for Colonial Governors. After ten years' personal knowledge of the people, Governor Burrington wrote officially to the Board of Trade, saying:

"The Inhabitants of North Carolina are not Industrious but subtle and crafty to admiration, allways behaved insolently to their Governours, some they have Imprisoned, drove others out of the Country, at other times sett up two or three supported by Men under Arms. All the Governours that were ever in this Province lived in fear of the People (except myself) and Dreaded their Assemblys

"The People are neither to be cajoled or outwitted, whenever a Governour attempts to effect any thing by these means he will loose his Labour and show his Ignorance ** They insist that no Publick money can or ought to be paid but by a claim given to and allowed by the House of Burgessess."

In a word, as Urmstone, the Missionary, said, the people respected no authority that did not emanate from themselves, and a Lord Proprietor, even if there in person, was "no more regarded than a ballad-singer."

From the documents printed thus far it will be seen that for many years the colony was of very slow growth, and that the reasons therefor were,
1. *Neglect of the Lords Proprietors*, who devoted themselves to building up the colony at Ashley river and left the one at Albemarle severely alone, to be cared for as best it might. From the very outset Ashley river was their objective point, and to its settlement they bent all their energies, as is evident from their instructions to Yeaman when sent to Clarendon.

2. *Want of Ports for Heavy Shipping.*—Without ports there were of course neither towns nor commerce save the coast trade, which was easily monopolized by the enterprising traders of the older colonies in New England that had been settled long enough to accumulate capital. But it was not upon the commerce of the colony only that the want of ports acted injuriously. For the want of suitable ports negro slaves were not imported directly into North Carolina, and the planters there were forced to buy from Virginia and South Carolina. The slaves so bought, as experience proved, were both high in price and poor in quality, and in this very important particular North Carolina was at great disadvantage, compared with Virginia and South Carolina.

3. *Want of Mills.*—This was a serious drawback, as it compelled the use of New England flour although wheat grew in Albemarle in great abundance and made the trade with New England very profitable to the New Englanders. The scarcity of mills and the inconvenience arising therefrom are apparent from the existence of a statute passed as late as 1715 making mill-sites public property as it were, upon which any man who would, might put up a grist mill, whether water mill or windmill, if the owner failed to do so. No man in Albemarle might keep a mill-site unused. More suggestive reason than this, why, with all their abundance of Indian corn and English wheat, the people of the Albemarle depended upon the New England skippers for flour and meal, even though, as was complained, some of the flour was no better than ballast, could scarcely be devised. Wheat and corn of home production were indeed in the greatest profusion, but meal and flour of home production for want of mills were both scarce in quantity and poor in quality. And hence, doubtless, the origin of the homely phrase descriptive of the diet of the country, "hog and hominy," hominy in that day not being
made in mills but in mortars, and hogs being abundant as a consequence of abundant corn and inadequate transportation. According to DeGraffenried, in 1710, “there was in the whole province only one wretched water mill.” The wealthiest people used hand mills and the poorer people pounded their grain in mortars made of oak.

4. Persistent Hostility of the Crown, its Agents and the British Merchants to Proprietary Governments.—North Carolina was not, like Virginia, a Royal Province, but private property that the British Crown had heedlessly parted with and was constantly seeking to regain possession of by purchase, quo warranto, or otherwise. The proceeding would doubtless have been a summary one had it not been that some of the Proprietors were peers of the realm whose rights could not be trampled upon with impunity. This hostility is apparent at a glance, upon inspection of the records, chronologically arranged. Step by step the Crown proceeded, but always in the same direction. In spite of the charters, it was required that the Governors of Carolina should receive Royal approbation before installation, and that they should give bond and security for the discharge of navigation and trade laws; Attorney-Generals for the colony were appointed by the Crown; Admiralty Courts were also created by the Crown to override the local courts; the Crown also assumed the right to repeal colonial laws. In a word, one encroachment after another was made upon the rights of the Proprietors until they gave up the contest and surrendered their charters.

Looking to this end, too, there was a stream of misrepresentation, slander and abuse of the Proprietors constantly flowing from the representatives and agents of the Crown.

5. Enemy Indians.—One would think from our historians that the Red men in Albemarle were the gentlest, if not the loveliest of their sex, and that they lived in the utmost peace and harmony with the pale faces prior to the great massacre of 1711. Yet the records show, as we have seen, that as early as September, 1666, there was an Indian “invasion,” so called, in North Carolina, of such magnitude as to prevent a messenger from leaving the colony, and from the common use of the
term "enemy Indians" it would seem that hostilities with the Indians were not unfrequent.

The effect of all this in retarding the growth of the country was very great, both in driving old settlers away and in preventing new ones from coming in; so much so that for years after the massacre there was scarcely any perceptible increase in the population. A settlement in which the government was impotent and the Indians hostile, cruel and barbarous, was not an inviting place to stay in or to move to. But for the timely aid the people received from South Carolina the settlement on the Albemarle might have been blotted out as effectually as that at Roanoke, one hundred and twenty-five years before. Certainly for years, even with help from abroad, the colony withered and shrunk under the blighting influence of that horrible massacre and the war that followed.

6. Conduct of Virginia.—The prolonged controversy between Virginia and North Carolina about their boundary line doubtless did much to retard settlement in the disputed territory, but the Virginia Acts of Assembly, beginning in 1679 and continuing until after 1729, forbidding North Carolina tobacco to be carried into Virginia, did a great deal more to retard the growth of the Albemarle settlement. North Carolina having no port of her own and tobacco being her money crop, the Virginia embargo virtually excluded her from the markets of the world.

The productions of the country would seem, indeed, both in quantity and quality, to justify, in great degree, the extravagant praises heaped upon it by the earlier writers, and under different circumstances, doubtless would have made it prosperous. In 1707, Robt. Holden, who had been Collector of Customs in Albemarle as far back as 1679, writing to the Lords Proprietors about North Carolina, says: "It has barred Inlets into It; which spoyle the trade of it and none but small vessels from New England and Bermudas trades there. The soyle is more lusty than South Carolina. It produceth Tobacco; Indian Corne; English Wheat in abundance. Beef, Pork, hides, Tarr and so consequently pitch, and Furs as Beaver: Otter: Fox and Wild Cat skins, deare skins; Tanned Lether, Tallow," &c.
PREFATORY NOTES.

With corn and wheat and beef-cattle and hogs and poultry and game and fish and fruits in abundance, the colonists ought to have had the best of good living. That Albemarle was a granary of Virginia and her butcher-pen we know. But what availed it if the North Carolina soil was more lousy than that of South Carolina? What availed it if the North Carolina tobacco was better than that of Virginia, as Governor Everard declared it to be? and what availed it if North Carolina "hog and hominy" were abundant to excess? North Carolina had no port and Virginia embargoed her tobacco, her great money crop.

In 1728, Governor Everard reported to the Lords Proprietors that two great causes destructive of the trade of North Carolina were the Virginia embargo and the lack of a free port on the Nansemond River. In the same year, too, the North Carolina Commissioners that ran the line between North Carolina and Virginia, expressed in their journal their regret that the line had not run a few miles more northerly and the consequent "loss of Nansemond River, as it would have given a port for shipping tobacco, which the Virginians, by their hard tobacco act, have restrained, that would leave North Carolina a large and more flourishing country." There was then no Federal Constitution to prevent embargoes and other like unneighborly acts. There were then no railroads to give one colony access to the ports of another.

Mr. Fitzwilliam, the Surveyor General of the Customs in the Southern Provinces in America, who was also a member of the Virginia Council, protested against the passage of the Virginia Act of 1726, among other reasons, "because the restraining the people of North Carolina from selling or shipping off their tobacco to Virginia, when they have neither shipping of their own, nor ports to receive them, must of consequence force them upon manufactures of clothing for themselves, since they are thus prevented of all supplies by the produce of their labor, and thus by a partial restraint of trade from one part of his Majesty's dominions to another his Majesty's customs are lessened, the consumption of British manufactures diminished, and instead thereof a country which begins to grow numerous laid under the necessity of falling into manufactures of their own, for it is impossible to imagine that a number of people should
continue long under the want of necessary clothing without exerting their
industry, especially when the country they inhabit is capable of furnishing
them with materials."

These were the causes, and enough they assuredly were, that discouraged
adventurers from settling there. North Carolina could reach the world
only through hostile channels that gave an unfriendly coloring to every-
thing connected with the Colony. The result was that adventurers went
elsewhere. The policy of making the place odious was rigorously enforced,
and the days of rose-colored immigration circulars were at an end.

It must not be too readily assumed that the evil days ended with the
Proprietary period, and that peace, plenty and prosperity began with
Royal rule. As a matter of fact, the colony began its transition toward a
better material condition during or perhaps even before the time Burring-
ton was first Governor and before the Proprietors surrendered their char-
ters. His administration as Proprietary Governor was a brief one, being
only about a year and a half in duration, yet he says that in that time not
less than a thousand families came into the colony and that a far greater
number would have come had they not heard of the great scarcity of pro-
visions brought about by a great mortality that prevailed among the stock
and a mighty storm that destroyed the corn in the preceding autumn; that
great improvements were made in husbandry; that he was just about to
inaugurate measures to establish a direct trade with Jamaica to supply
the colony with rum, molasses, salt, &c.; that the Cape Fear settlement
was in great measure, if not entirely, due to his wise foresight and fostering
care; that the militia which, on his arrival, was in strange disorder, was
regulated to the satisfaction of all people, and that justice was so duly
administered that no complaint was made to him or to the Council and
no suit brought against officer, civil or military. How much truth there
is in this statement it may not now be possible to determine, though there
is doubtless enough to show that the colony had before this time begun to
rally from its long years of prostration and was entering upon a career
of prosperity and development. Certainly the demand for land was so
great that in April, 1724, the Governor and Council upon petition of the
Assembly, re-opened the Land Office in violation of the instructions of
the Lords Proprietors. Mr. Fitzwilliam, too, the Surveyor-General of
the Customs, as we have seen, in his protest against the Virginia Tobacco
Act of 1726, said the colony had already begun to "grow numerous."

The truth is, doubtless, that the colony having at last outgrown the
obstacles to its progress could no longer be kept back. The growth
of the population shows this. In 1717, Colonel Pollock estimated
that there were 2,000 tithables in the colony from whom taxes could
be collected, as a basis for a scheme for meeting the public indebted-
ness. Two thousand tithables mean about 9,000 population, black and
white. In 1735, the white population alone was, according to Henry
McCulloh, near 40,000; in 1732, according to Burrington, the whites
were "full 30,000 and the negroes about 6,000." From the testi-
mony of Pollock, Burrington and McCulloh, therefore, it would seem
that the estimate of population in North Carolina in 1729 usually
accepted by historians is much too low. Counting both black and
white, the population would seem to have been three times greater.
According to the historians, the population was between 10,000 and
12,000. According to contemporaneous statements, it must have been nearer
to 30,000 or 35,000. The variance is certainly very great, and the
weight of authority seems to be against the historians. Beginning with
such an underestimate it was, perhaps, only natural that the historians
should continue in error as to the population until the taking of a census
rendered error no longer possible. But however natural the error was,
it might easily have been corrected at a much earlier day than 1790, for
there were data of record, some here, and others in the Public Record
Office in London, from which a reliable approximation, at least, might
have been made as to the population. The figures will be given here-
after.

The happy time was long in coming. Indeed, it may well be doubted
whether the history of any other American colony shows a struggle for
existence as prolonged as that through which North Carolina passed in
the days of her Proprietors, or as hard. But those days of adversity
were not without their good results, constituting, as they doubtless did,
the formative period in the character of the people. Shut in on every
side and left to struggle with her enemies as best she might, unaided and
alone she worked out her own salvation. Now she looks back to that
period of her existence as men look back to the hunger and the thirst, the
heat and the cold, the weary marches and countermarches, the hard-fought
battles of campaigns in which they have borne their flag to honor and
to victory. North Carolina can well afford, too, in this her day of great
progress and development, to laugh at the ill temper and ill words of
writers and neighbors in her early colonial days, for to-day, as a State,
she stands the confessed peer of the proudest.

The purpose of the Crown and of the British merchants to make the
colonies mere "hewers of wood and drawers of water" for themselves
was unmistakable. The colonies, indeed, were not well planted, even,
before an irrepresible conflict began between them and the mother
country and her merchants—irrepresible certainly in North Carolina.

The British theory about colonies was that they were permitted for the
benefit of the Crown and the mother country. The interests of the colo-
nists in the premises seemed not to be a matter for consideration at all.
To this end, all legislation was shaped, that is to say, to increase the
revenues of the King and to promote the business interests of England.
To this end, particular agricultural products were encouraged, while
others were not; to this end, certain manufactures in the colonies were dis-
couraged; to this end, the trade of the colonies was by law controlled in
the interest of England; and to this end, in short, whenever a conflict
occurred, the interest of the colony was to be subordinated to that of
England. This policy was carried so far, that it was even sought by
Royal proclamation to control the prices at which foreign coin should
be rated for circulation in the colonies, lest the rates should be fixed to
the detriment of the King and the merchants.

Such a policy, difficult of execution anywhere, unless colonists were
content to be "hewers of wood and drawers of water," merely, to the
people "at home," was especially difficult of practical execution in the
proprietary governments that existed under chartered rights from the
Crown, conferred by letters patent under the broad seal. Conflicts of interest were of course inevitable, and the local governments being in the hands of the representatives of the Lords Proprietors, their interests were naturally enough first cared for. It followed therefrom that the Proprietary governments, in their practical operations, found favor neither with the Crown nor the business men of England, and the Proprietors being the weaker party in the struggle, it soon became a question of time only when a pretext would be found or invented for enforcing by the surrender of the charters that had been so improvidently granted, the restoration of the provinces to the Crown. Of course such a policy could last only so long as backed by superior force, and in its execution are to be found the seeds that fruited in the American Revolution of 1776.

Memorandum.

In printing these volumes "copy" has been strictly followed, the Editor not feeling authorized to take any liberties with the text, a fact that will account for many readings that would otherwise seem to be the result of careless proof-reading. For example, in the Legislative Journals of 1725, John Baptism Cushe appears as the name of one of the legislators. The person intended was without doubt John Baptista Ashe, but for the reason given above the name was printed as written.

Since mine by Charleton, I have rec'd four of yrs: on by the indians that came w' Tom Blunts brother, another by the Guard of the indian Prisoners—The 3d by Charleton, and the laft came w' goods in the canooe: one tuesday the 13th instant. And concerning our not sending in to you the indians Coheree and Hancock, I believe it never entered into Governo' Hyds thoughts, nor mine, nor any of the Counsels that ye would have defired it. And their crimes likewise being chiefly against this Government wee did not imagine it could give any offence to have them suffer here: And non here ever questioned but if they had been brought in to you, you would have sent them in here to have Rec'd their deferred punishment—upon receipt of y' honors last letter, sent away a runner to Tome Blunt, to defire him to be in at M'r Cottens on the 20th instand; And likewise have appointed the bearer Major Christopher Gale, our Agent, to concert what meaffures your honor thinks moft advantageous, for carrying on the war w' what y' Assembly hath rais'd for us. Coll: Moore would lykewise willingly have come in, but the destrucrive his indians make here of our Cattle & Corn is intollerable, having already eat up a great deall of the corne that was rayfed by the Assembly to maintain the ware, and also destroyed all the Cattle wherever they have come, so that some of the people here have been feemingly more ready to ryfe up against them, then march out against the enemy. So that he is forced to march out w' them, intending, to depart from hence on saturday next, and to attack the Fort, he was at in coming in.

I am doubtfull wee fhall be put to a strait for provifione for the army; all the publack corne that is left, I fear will scarceely be sufficient for the Forces twое months, And such a farcity in the Countrey that no more, I believe can be rais'd, severall people not being able to pay this last tax. So that I believe it will be necessa'ry, if you thinke to send y' forces speedily to our affistance, that provifions be purchased for them out of the 1000$. But if you doe not send them until our Provifions is carry'd round, then wee shall be more capable to judge what we may want—As for the 180$ to be laid out in duffels (For fear of the mischance of the
supply that is expected from Sth Carolina) I believe it may be convenient to reserve so much of it as may purchase three or four bariels powder & ball answers—he—If your honor thinke fitting to send out y' forces speedily, I leave it to your mature consideration, whether it may not be best, whill Coll’ Moore is attacking the further forts, that your forces should march to Tome Blunts, and either Force him to joine his forces w th yours against the others or attack him as ane enemy. Butt if you thinke it more fitting when some Coll’ Moore's indians (having got some slaves by taking a fort, or some other blow) have left him, then to send out yr Forces to joine him to proffecute the warr w th vigoure and reduce them to a neceffity of making Peace—For I am Really persuaded that until the Tuscaroroses have had a smart blow given them ther can be no Expectatione of a firme peace w th them. All w th I leave to y' honors more serious consideratione, not doubting of y' utmost endeavor for the good and Peace of this poore diffreted Country—I was much troubled to understand that the Addreß from our Assembly was not carryed in and delivered to you as I had writ, and as I certainly expected—But I hope when y' honor hath perused the inclosed (w th is a true account of the proceedings in that affaire so far as I know, you will inpute it only to my weakness and inadvertency in trustenig too much to others: and can affure you to the best of my knowledge ther shall no halffood to your honor nor no other slipes from his pen who sincerely is

21 January 1713.

To Coll: Pollock (From Gov: Spotswood)

Sir,

Since an interview which I took so much pains to obtain & to make easy to you, hath not been judged of such importance as either to merit your presence, or the thoughts of your Government to instruct your Agents in any one overture for promoting your Service against the Enemy: And since I perceive, both, by your letters and their discourse, that I am not to expect any provisions for the Forces desired from hence,
notwithstanding the express assurance thereof in your late address, I must now plainly tell you, that after having been twice thus baffled by your Assembly, I am discouraged from undertaking any thing further for your relief. And until I understand that you have sufficient Magazines of provisions at Meherin, Morattuck, & Jenitaatar Rivers, I shall not Resolve upon sending any forces: for I have not been used to make war after the Indian manner without any measures concerted or promises Regarding—I have made some proposals to your Agents for furnishing those provisions & Securing the Magazines, and for preserving a Communication over Morratuck River, which they will impart to you, as what I judge necessary for prosecuting the War with Effect: and if you have any other proposals to offer, that may be feasible, I shall heartily concur with you in the Execution of them. But I would not have you build your proposals entirely on the thousand pounds, for in my opinion that sum will be scarcely sufficient for the pay, alone, of such a number of men as in prudence may venture among the Tuscarura Towns, much less to furnish provisions withal. I am sorry you did not let me know sooner, your mind in relation to ye Duffells! for you will observe by the account sent with Major Gale, that I have delivered him here, such a quantity of Cloathing as exceeds the sum given by our Assembly above £16, besides the Charges of their transportation hitherto, occasioned by the necessity of employing different persons to purchase them at remote places, and the hastening them hither for your service before the charge could be computed—You needed not have given yourself so much trouble to apologize for the delay of your Assembly's Address: for it is the mis-management of weighty affairs, and not the miscarriage of such Trivial matters that can effect me—

[From Pollock's Letter Book.]

Chowan, Jan'y 1713.

Hon'ble Sir

By yours of the 21st instant by Maj Gale I perceive your dissatisfaction at my not coming in. I really thought that Majors Gale and Mr Peterson might have easily offered such reasons for my stay as might have been satisfactory; as the supplying the army with provision of every kind to carry out with them; the fearing every hour of hearing of dif-
ferences and quarrels between our people and the Indians. For the Indians having destroyed all the stocks where they were ordered to be, begun to spread themselves further without orders, which put several people into such a ferment that they were more ready to Full upon the South Carolina Indians, than march out against the enemy.

And as for our agents they had such instructions as was thought necessary, and so far as could reasonably be given, which I can easily make appear to your Honor, if—

As for your proposals which I had account of from Major Gale of your supplying your forces with provisions, on condition the Deputies, in behalf of the Lords Proprietors Mortgage all the lands on the north side of Moratock, which to the best of my knowledge, is not in our power to do, having no such power given us, neither by the Constitution, temporary laws, nor no instructions for the Lords Proprietors, that ever I see or heard of. And as for our laying up stores of provision at Meherrin, Weekacainie, and pawstantare (?) Rivers, before you can march out your forces. I believe there can be little said to that until we see how our provisions holds out howsoever, shall lay your proposals before the Council as soon as I can get them together, or have their Judgments therein, and shall send in their answer. As for your not desiring me to build projects entirely on the £1000; I am not conscious to myself of projecting anything thereon unreasonably or impracticable. For you may see in a part of a paragraph of mine to you, Dec 28th having mentioned the £1000 I add, I thought it was a good reserve for the last cast, and it was not policy to venture all at one hazard, and in another part of a paragraph of the same letter—and as soon as the army is out, and we have a little prospect how affairs are like to succeed, then to send a Deputy or two to give your Honor a true state of our condition, and to agree on such measures as you shall think most advantageous for the peace of this government; and in my last to your Honor of Jan'y 15th after having laid down the scarcity of provision in this Country, I add, I believe it will be necessary, if your Honor send out forces to our assistance that provision be purchased out of the £1000, but if you do not send them in until provision is carried round then we shall be more capable of judging what we may want; by all which you may perceive I was not pressing for the present marching out of your forces; which was for these reasons following: First, I thought Col Moore had a sufficient number of men, and that it was not prudence to venture all at one hazard, but better to reserve; Secondly, I doubted our ability in finding provision for all; Thirdly, I had some fear that your forces joining Col
Moore, quarrels and differences might arise between them, to the endan-
gering the overthrow of the design. These were all the projections that
I laid concerning the £1000, or marching out of your forces, that I knew
of; and if I have erred in my judgment, I shall willingly yield to com-
ply to what is more reasonable and practicable. In the first address to
your Honor I was not concerned, and in this last, it is true I signed it, and
wish I were capable of performing it. And they have not only baffled
your Honor and me, but also themselves, so that a considerable num-
ber of the inhabitants here are totally ruin of the government. Since trivial
 miscarriages do not effect your Honor, I would intreat the favor to in-
form me if I have been guilty of any mismanagement in weight matters,
thereby I might any way incur your displeasure, that if possible it may
be rectified; for knowing your favor is of great consequence to preserve
the peace and quietness of this government, have therefore endeavored
all I could to procure and preserve it, I have not to my knowledge, spoke,
write or done anything that may deserve contrary, and shall willingly
grasp at any opportunity to rectify that I am

COL SPOTSWOOD TO LDS OF TRADE 11 FEB 1712–3.

My Lords

* * * * * * * *

The honour your Lordships have done me in approving my Conduct in relation to the Civil Dissentions in North Carolina is the Greatest encouragement I at present have for the continuance of my endeavours to assist that unhappy Country I wish I could have received from your Lordship's Board directions for my better guidance in a matter of far greater consequence, I mean that of their Indian war which would have been so much the more necessary in regard to the difficulties I have to struggle with here: for such is the natural Disposition of the people towards aiding their neighbours, that I can very assuredly informe your Lordship's that I am the only person of the Government that ever proposed giving any assistance to North Carolina in its distresses, and must alone furnish the arguments to obtain the Councils concurrence or to procure any supplies from the Burgesses: besides that whatever I undertake in behalf of that distracted Country I am forced to push on with a great deal of trouble and expense to myself. On the other hand there reigns such stupidity and Dissention in the Government of North Carolina that it can neither concert any measures nor perform any engagements for its own Security.
For upon a representation from the President Council & Assembly of that Province of their miserable Circumstances which I immediatly laid before our Assembly with all the Exhortations I could use to move their pity in their distressed Fellow Subjects (as your Lordship may find in the 29th page of the Assembly's Journal) All I have been able to obtain from our House of Burgesses is only the sum of a thousand pounds, and nine hundred yards of Coarse Cloathing for the poor people that have been plundered by the Heathen, and (as it was represented) would be obliged to ly out in the woods for the protection of the remaining part of the Province against their incursions in the Winter Season, Our Burgesses looking on that Province as the Author of its own Misery, by the continued Disorders in the Government and the Licentiousness of the People, and tho in the Address they say they have given the supply with cheerful hearts, yet the struggle with which it passed in their House is an evidence of their disinclination however it must be acknowledged that this Inconsiderable Sum tho' unequal to the charge necessary for Subduing that barbarous Enemy, is nevertheless the greatest Donative ever given by an Assembly here to be expended out of the Country. I am now Endeavouring to lay out this small supply to the best Advantage as soon as the season of the year will favour an expedition against the Indians and should have hoped by the assistance of the forces sent from South Carolina (which consist of eight hundred and fifty Indians and thirty three white men) to have reduced the enemy had the Government of North Carolina done their part. But notwithstanding the assurance given by their assembly in their Address (whereof I send your Lordship a copy) that they would supply with provisions and the charge of Transportation what Forces should be sent from hence to their Assistance: Upon a conference which I had with some Agents from that Governments about three week ago they plainly told me that they furnish neither: nor could they make any proposals to me either for helping themselves or enabling me to do it. And tho at their request I have supplied 'em with the Cloathing which was intended for three hundred men to go out against the Indians they cannot now find one hundred in the whole province to go on that expedition. Some deserting the Country others absconding and the rest sheltering themselves under the Masque of Quakerism. Such gross mismanagements as these have in a great measure been the Occasion of their unhappy Circumstances & must entail on them further miseries if any accident should happen to the Gentleman who commands the South Carolina Indians. For as they are made up of a great many different nations and kept together by the sole
Authority of that single person there is no question to be made but that if he should fall or receive any considerable disadvantage in his attempt upon the Tuscaroras all these Indians would immediately disperse and leave their friends in a much worse condition than they found 'em having already committed very great disorder in the Country through which they passed from which no authority of their officers could restrain them.

A SPOTSWOOD

[FROM SPOTSWOOD LETTERS. VOL. 2. P. 2.]

GOV. SPOTSWOOD TO THE LORDS PROPRIETORS.

February 11, 1712 [1713].

To the Lords Proprietors of Carolina:

MY LORDS:

Since I have undertaken to concern myself in ye Affairs of yo'rs Lord'sps' province of No. Carolina, in my Neighbourhood, I think myself oblig'd to give y'rs Lord'sps an account thereof from time to time, more especially in ye present Conjuncture, while the people labour under the pressure of an Indian War; and, passing by sundry transactions I have heretofore had w'th that Govern'mt, (because a relation thereof might be as disagreeable to yo'rs Lord'sps as they have been to me), I shall only mention what is at present in Agitation for ye relief of y't unhappy people.

About the begining of last Novem'r I receiv'd a representation from ye President, Council and Burgesses of No. Carolina, setting forth their deplorable Circumstances, and praying some Assistance from hence. I immediately layed it before our Assembly, then sitting, and that I may avoid troubling yo'rs Lord'sps with a long Narrative of the Success thereof, I send herewith a Copy of the proceedings thereupon, which yo'rs Lord'sps may peruse at y'r Leisure. I shall only briefly tell y'r Lord'sps that with much ado I prevail'd with our Assembly to support y'rs Lord'sps' province with Cloathing for 300 Men, and to raise £1,000 for their further relief in such man'r as I should judge proper. Y'r Lord'sps will easily imagine that a Sum so disproportionate to the exigency of Affairs (tho' it must be confessed to be the greatest that ever an Assembly of Virginia gave to be employ'd out of the Country), require a more than ordinary frugality in the managem't thereof to render it effectual for the
intended Service. For this purpose I thought it necessary to desire a
Conference with y'r Lord'ps' Deputys, at some place which they should
think most convenient, to concert proper measures for employing this
small supply, being in hopes, with the addition of provisions which the
Assembly of No. Carolina had engag'd to furnish, I might be enabled to
furnish such a body of men to their relief as might in a great measure
have dispers'd the Enemy and given some relaxation to their troubles;
but whether the arrival of the succours from So. Carolina in the mean-
time under Colo. James Moore, (consisting, as he informs me, of 850
Indians and 33 white men), made them believe they should have no fur-
ther occasion of my Assistance, or by what other unaccountable humour
they were guided, I cannot determine, but it was above Two Months be-
fore I could prevail with them to give me a Meeting, and then, Notwith-
standing I took the Trouble of a Long Journey to a place where Mr.
President Pollock might easily have come by water, I only found there
Major Gale and one Mr. Petterson, but both so far from having any
power or Instructions to propose anything for the Service of the Coun-
try, that all I found they had to tell me was y't I could expect no pro-
visions from them; that their men had all either deserted the Governm't,
abscended in it, or shelter'd themselves under ye Masque of Quakerism,
to excuse their bearing arms; and that now they had got the Cloathing,
which I have deliver'd to them, they had no men to use them. So that
being disappointed both of the provisions I had been promis'd, and of
the Assistance of men to Act in Conjuncion with what I intended to
raise, and every man at the conference agreeing y't if the Charge of the
Provisions was to be taken out of ye £1,000 the remain'dr would not
suffice to pay such a number of men as in prudence I ought to venture
into the Tuscouororo Country; and lastly, all concluding that without
some speedy measures taken for the relief of that Province, ye greatest
part thereof would be abandon'd to the Indians; I then offer'd to supply
the Charge of provisions out of her Maj't's revenue of q't rents of this
Colony, provided y'r Lord'ps' Deputys would engage to her Maj'tie all
the Lands to ye Northward of Roanoake River and Chowan Sound, for
ye repaym't thereof within three y'r's. This could have been no risque
to y'r Lord'ps If y'r Deputys had any faith on the public Engagem'ts
of their Assembly; or, if that should not have prov'd a sufficient Security
to discharge ye Debt, y'r Lord'ps had then three Years either to Con-
tinue the paym't of it some other way, or to Obtain her Maj't's fav'r to
remit it entirely. On the other hand I only run ye hazard of incurring
her Maj't's Displeasure, by breaking upon a positive Instruction, which
restrains me from disposing of any part of that Revenue without a particular Warrant. I told Major Gale and Mr. Peterson at parting, and wrote by them to the president, that I could not proceed to raise men till provisions were ready for their Subsistence; and I press'd a speedy Resolution; but I have now waited 3 weeks without receiving any answer, and hereby all measures for their Assistance from hence are at a Stop. I cannot but apprehend the ill consequence of this unseasonable delay, for if Colo. Moore should meet with any Considerable disadvantage in his Attempt upon the Tuscaroro Towns, it is not to be imagin'd that a body of Men, peace'd up of so many nations of Savages as his is, should be kept together after being once baffled. Nay, if Colo. Moore alone should happen to miscarry, they would immediately disperse, and such a disorderly multitude, let loose among the Inhabitants, would prove as destructive as the Enemy; Since experience has already show'd how little of discipline or Rule there is among them, and that even Colo. Moore's presence and authority Could not restrain them from such ravages among the stocks of y'r People, where they were quarter'd, as (if President Pollock informs me right), hath more exasperated the Inhabitants ag't these Auxiliars than against the Tuscaruros, their Enemys.

MR RAINSFORD TO THE SECRETARY

CHOWAN NO CAROLINA

17 Febry 1743

Hon'ble Sir

Since my last to you on the 25th of July with deep concern I am forced to tell you that this Country has been miserably reduced by Indian cruelty the Inhabitants are brought to so low an ebb by this unhappy war that rather than expose themselves to their enemies they have most of them quitted their plantations and entirely thrown themselves on the Virginians for relief. The Governor of South Carolina has sent Eleven hundred Indians in order to relieve this Government and Col. Pollock our President with his council have levied Five pounds on every tithable 6 bushels of corn a quarter part of all their wheat for the maintenance and support of these Ashley River Indians. The stocks of our English Inhabitants are all destroyed by their coming to this Country and their
poverty is so great that Virginia has given £1000 Sterling to relieve them with 900 yards of Duffle to cloath them so that should they conquer their Enemies without the Charitable support of the proprietors they can never afterwards be able to subsist. This is a true account of the miserable state the Country now labours under as may appear by Governor Spotwood’s hint in the inclosed to me. I have already been taken by the Savages in my Journey to one Adams to preach and after a little Conference let go, but guarded by two of them out of the parts. There’s scarce a Man even on the North Shore of Chowan River (which borders on Virginia) to be found, and that for the women they wont leave their plantations to go to a house where I make an appointment, to preach. So that very little good at the present juncture can be expected from us. Indeed I have been visited with a terrible seasoning to the great hazard of my life being given over for 3 months together by those that beheld me but it has pleased God to restore me to my former health. The danger of Living here at present is such, that it has obliged me to petition the Governor of Virginia for a living in his parts for six months only, which upon mature deliberation, Hoping that the disorders of the country in that time may be composed, he has condescended to gratify me but with great caution to the Venerable Society whose Missionaries he would no way be supposed to remove I am entertained in Surry parish for the time mentioned conditionally That I return to my duty upon the first happy opportunity of a peace which I have promised to do and by my future diligence I hope I shall answer the pious intentions of the Societys sending me over. I am not so remote but a days Journey will fetch Carolina, and I shall be sent for on any occasion (by Mr. Garrat) where my duty calls for my appearance, my agreement with the people of Surry is from the 25th of March to the succeeding Michaelmas and no longer; and if the Society think fit to stop my salary for that ½ year I must acquiesce and submit to their pleasure; a principle of conscience obliged me to lay before you my proceedings or otherwise I must receive the Societys money as Mr. Urnstone does who has bought a plantation on the confines of Virginia and lives to his satisfaction on the plentiful Income of what the Society allows him, were it in his power to do the Society the services they might expect, yet he has so exposed himself to popular hatred by his wretched way of begging and other indiscretions, I am unwilling to mention, That no single person in the Government will attend his appointment on the score of this selfish principle. I have enclosed the late Governor Hide’s letter to me before ever I had seen him with a design the Society should no way be imposed upon where I have
an interest I desire no Missionary may be sent over here since I have no way quitted their service only by being forced to it as I may properly say in a time of persecution New Castle in pensilvania is vacant by the removal of M't Sinclare and should be extreme thankful should the Society be pleased to order me there I wish Sir you would propose it at a General Meeting for I am very uneasy to be hindered from my duty by these unhappy differences. I have drawn upon M't Hodges our Treasurer for my half years salary ending 25th March next and do almost hope I may receive the succeeding half year. I mean till Michas upon condition I'm ready to attend my duty here on the least notice when occasion requires me—On the account of my late indisposition I have been able only to Catechise children and baptize six Negroes with the advantage of what Good I might do thro' God's blessing by preaching and conference I might truly have starved and been lost were it not for M't Edmond Kearney a Merchant of Hampton, I mentioned in my last who took great care to supply me with money and necessaries in my late sickness, which mightily reduced my stock by gratifying the Christians and obliged me to take from him this half year's salary beforehand I design to deal with him entirely while I am in your service and not do as some Missionaries continue to buy Goods in London and so neglect the true ends of their Mission, by attending their Markets here to the great scandal of their profession, I earnestly request that you would please to speak to M't Hodges, that my bills may be honored on the very day of payment since M't Kearney's civilities to me have been almost inexpressible I have nothing more to add but that I am with all truly Christian gratitude for favors already done me

CHOWAN Feb 20th 1714

Hon' Sir

Yours by Col Moore, and your likewise by your sloop, received: by both which your prudent application and indefatigable pains, for our preservation is most evident: and I am in great hopes that your forces, under the conduct of so wise and discreet a commander as Col Moore seems to be, will have the desired effect of reducing our enemies to a necessity of making peace on reasonable terms, or of forcing them out
of the country. We were at a loss on Col. Moore first coming, for our men that we had sent out in August and September in expectation of the coming in of some of the forces and staying until November had cut up almost all the wheat and other provisions sent round and our Assembly would not consent to send round to Neuse a Sloop almost laden with wheat and potatoes which I had stopped with intention to send here round, neither would they be persuaded your forces would come at all. So that when your forces arrived, thought it best to have them come and stay to refresh themselves in Albemarle County until provisions could be carried round. And likewise having come to some preliminary articles of agreement with some of the chief men of the Tuscaroras who had promised to kill and bring in the heads or scalps of all our Enemie Indians that were concerned in the war against us, against the first of January then next ensuing, or . . . . ways . . . . hostages for every fort, so was willing to see whither these Indians would perform their agreement; but provision being got round to Neuse, and these Indians not coming as they had promised, Col. Moore Marched out with the forces from hence the 17th of last month, and marched out from Reading's Fort in Pamlico River the 4th of this month, having been stopped there by extraordinary deep snow and bad weather several days. They carried out from hence as much provision as they would, and there is sent round to Neuse about 2200 bushels of corn, and 3 or 400 more ready to be sent round; and likewise for fear of want we have laid an embargo on all vessels here until 2000 bushels corn more is raised and 100 barrels of pork, so that I am in great hopes your forces will want provisions.

Governor Spotswood with great struggling and difficulty obtained at last from his assembly 180 pounds to be laid out in duffels and other coarse woollen for the clothing of our people that went out in the army, and likewise 1000 pounds more to be managed by him for our assistance in carrying on the war. The coarse woollen we we have had, and he seems very willing to March out his forces to our assistance; but, provision being scarce, we may fall short of supplying either force, and so may lose the benefit of both; and also doubting if the forces join their may chance some differences fall out to the hindrance and detriment of the action, above all your having been at great charge and much trouble in assisting us, and having sent in now sufficient forces, by God's assistance, to finish the war; now for others to come in seemingly to the end of the war to participate the action with you, seems to me a little unreasonable, and would seem ungrateful in us to our deliverers. Upon which reasons have delayed matters with him until we see how provisions hold
out, and how prosperous Col Moore with your forces may be against our enemies, with my utmost gratitude accept of Your Honor’s wholesome advice in relation to M’r Moseley, and should act very unwise to ........ for him ........ here, knowing him so well as I do, for I know he was the chief contriver and carry-er on of Col. Cary’s rebellion against President Glover, and likewise of the difference between Governor Hyde and Col. Cary, and also, as I can gather from the best intelligence I can have, the chief instrument that occasioned the difference between our Governor and Col Barnwell, as likewise of his not taking the fort of Cotechney it being very visible to any thinking man that he endeavored all he could to blacken Governor Hyde’s administration, thereby to endeavor a change of Government; and being as may be reasonably imagined, in hopes that such an address as he had procured from our assembly to send to the Lords Proprietors in favour of Col. Barnwell might be an inducement to them to grant him the administration; and then they two, with the interest of the Quakers who are the chief moulders of the assemblies here, might have carried matters on here at their pleasure.

as for Col Barnwell’s proceeding and behaviour here I will endeavor to inform myself what I can therein, and, if any thing material, will send it by the next return of your sloop. Only his transactions here with M’r Moseley, albeit so open in their effects yet have been managed so closely, that unless that letter that he received from M’r Moseley some two or three days before his making that sham peace with the Indians, could be procured, it will be difficult to make any discovery of it. As for news our latest from Virginia is their daily expectation of Brigadier Nicholson from England with the title of Visitor General of all his Majesty’s plantations on the continent of America. From Virgina, they give out, that he is to go next to South Carolina.

I am very doubtfull the forces will be short of amunition; for Col. Moore at his arrival gave account [of] but about 300 lbs powder that he had left, which with 300 lbs he had of me, and 100 lbs from Virgina, and 200 that Col MacKey had left of mine at Bath County, is in all 900 lbs powder with shot answerable, which with the 600 lbs you sent in now, I doubt, will not sufficient, if they continue any time here, (the Indians wasting powder at an extraordinary rate). And I should be very unwilling to press on the governor of Virgina to have it out of the thousand pounds given by the assembly there, he having already given me account that he intends it only for the pay of what forces he sends to our assistance, of which I wish we may have no occasion; all which I leave to your Honor’s prudent consideration.
as for the payment of the sloop I have taken all the care I can, and am promised twenty barrels pork to be sent now in the sloop, and most of the remainder I hope will be ready in other country pay, pork and corn being very scarce this year here.

Hon' Sir If you knew the great trouble, vexation, and uneasiness I endure, I am sure you would pity me: all lying on my shoulders, But shall not fail to do my utmost endeavor for the safety of the country, and the good of the poor people, and leave the success to divine providence, being in great hopes that your forces will bring us in a short time peace and quietness, and you the honor of conquering our enemies; which is earnestly desired by

Hon' Sir

Your's from Reading's Fort received, and am very glad your men were all so well and hearty after such a bad spell of weather, and am still doubtful, the weather and ways have been so bad since, and so much difficulty of getting provision from Fort Barnwell, that you could do little of action yet.

I have account of 2200 or 2300 bushels of corn sent round, some small matter more to be sent round, of the public, but doubting it will not be sufficient have laid and embargo on all vessels 2000 bushels of corn moor is raised and 100 barrels pork, which I hope will go near to last until some of their Forts are taken. Tom Blount coming here this day with a letter brought by four of his Indians from Allany, a copy whereof have sent you; so hope there is no great danger of the seneca Indians, coming to help the Enemy. The Indians at weekacane, I understand, are join' of Tom Blount, and he pretends that he will not help nor join any of the other Indians, who he says are still in their forts. I have great reason to believe he is real, and hope we shall find him so. Our latest news from Verginia gives us account of the daily expectation they have of Brigadier. Nicholson, under the title of Visitor General of all Her Majesty's Plantations on the continent of America. From thence,
it is reported, he is to go South Carolina. The South Carolina packet-boat hath stayed here longer than I expected or intended, by reason of the badness of the weather and contrary winds, from Little River, she bring you ten barrels of beef and two barrels of salt for the Army. I hope it will not be long before you have more meat round, and have ordered Commissary Green to supply what he can, wherever to be had. Likewise have ordered what provisions is in Captain Royals' Sloop to be and sent to you; I can assure you I shall do what lies in my power for the supply of your forces. Pray let us hear from you by all opportunities, for your good success is Earnestly desired by

This letter was sent to the Fork of Neuse by Mr Aquilla Pauli, Master of the South Carolina, who sailed from here Feb. 27th 1714.

[VIRGINIA—JOURNAL OF THE COUNCIL]

At a Council held at the Capitol
the 5th day of March 1713.

The Governor having this day laid before the Council the several Letters that have passed between him and Colonel Pollock President of North Carolina in relation to the assisting that Province as far as the money given by the late General Assembly here would permit and also communicating to this Board the subject matter of a conference held at South Key which was intended and desired by the Governor in order to concert proper measures for expending that small supply in the best manner for carrying on the service against the Indian Enemy but that upon Colonels Pollocks failing to meet and giving no authority to the agents sent by him to enter into any engagements or make any overtures on the part of that Government and their expressly refusing to furnish provisions for any Forces to be sent from hence to their assistance notwithstanding the engagements of their Assembly to supply such provisions together with the charge of Transportation of the Forces. The Governor was pleased to acquaint this Board that he did not think it advisable to proceed any
further in levying Forces to be sent to the assistance of Carolina since the Fund given by the Assembly of Virginia is insufficient to furnish the pay and provisions of such a number of men as can in prudence be ventured to attack the Tuscarora Towns and thereupon desiring the advice of this Board what further Methods can be taken either for assisting Carolina or for defending our own Frontiers since the Indians have lately committed three several murders on the Frontier Inhabitants of this Colony. Upon consideration of all which the Council are unanimously of Opinion that since the Government of North Carolina have contrary to their Engagements refused to furnish provisions for any Forces that should be sent from hence to their assistance especially when by their conjunction with the Forces sent into [from] South Carolina it might have been hoped a speedy end would have been put to the War. It is in vain to depend any longer on the Engagements of the Government nor is it practicable with so small a Fund to pay and subsist such a body of men as is necessary to attack with effect such a numerous Enemy as the Tuscaroras are. And therefore all this Government can do under the present circumstances is to defend the Frontiers of this Colony against the incursions of the said Tuscaroras and to prevent their obtaining any subsistance by their hunting on our Frontiers while the South Carolina Indians are attacking them on the other side.

[From Pollock's Letter Book.]

May it please your Excellency.

North Carolina March 6th 1714.

This accompanies a letter from me and the Council; for having seen a letter from you to governor Hyde date May 12th 1712, wherein you intimate that if their be occasion of the interposition of the five Nations as towards making peace with the Tuscarora Indians, that there will be occasion of money sent from this government to make presents to the Indians and to bear the charges of the person or persons the Indians will want to accompany them to Carolina; to which I doubt not governor Hyde hath fully answered, laying down the poverty and inability of the country to raise any considerable sum, our own divisions and this Indian war having much impoverished the country; and also to fly to the Indians and hire them to be mediators of a peace, unless extreme ne-
cessity forces, would be derogatory to Her Majesty's honor, and might encourage the five nations to set Indians against Her Majesty's subjects, for their own advantage. Howsoever, if extremity reduces us to such a necessity, which I pray God may not be, we must fly to your Excellency.

also I understand, by a letter from Mr Secretary Clarke to our late Governor Hyde, dated the 21st of August last, that Col Schuyler should report from the five nations, that some of their Indians, who were a hunting toward Carolina, were taken and some hanged, which is certainly a false report, our people having never taken, killed, or hanged any of the five nations that ever I heard of. And to convince them of contrary, Col. James Moore, in his coming here from South Carolina, met with a party of Tuscaroras Indians killed 8 of them, and took one prisoner who was one of the five nations; which as soon as I understand, I purchased the said Indian, named Anthae, and having no other way to send him to his own country but by this vessel, would entreat the favor of your Excellency to get him conveyed safe to his own Country, that they may see and know the falsity of these reports.

As to the making clear to the five nations that the Tuscaroras were the first causes of the war, I doubt not but Governor Hyde hath given you a full account of their taking Baron Graffenried a swiss nobleman, who came here to settle a colony of switchees and Palatines; and one Mr Lawson, our General Surveyor Lawson, they killed after a barbarous manner, and in five or six days after massacred and took about 130 or 140 of our people, and all without any cause that we know of, or any complaint made unto the government and after they had made a sort of sham peace with Col Barnwell, they in a very few days broke it, and have continued hostilities ever since, until the latter end of November last; at which time some of the great men from six of their Forts came in, with whom we came to some preliminary articles of agreement, amongst which one was, that they would cut off all the Core and Coteching Indians and all others that had any hand in the massacre of the English, betwixt then and the first of January then next ensuing; and if they could not accomplish it by that time, they obliged themselves to bring in six hostages from each of the aforesaid Forts. Presently after this agreement we heard of Col Moore and the South Carolina forces arrival at the Neuse River, and had him in amongst us and kept him and his forces, being upward of nine hundred men, from the beginning of December until the Twentith of January to see if the Tuscaroras would keep their agreement, which they did not. So Col Moore, with the South Carolina forces and some of our went out against them, and lie now against one of
their strongest Forts, wherein, (by what Intelligence we can have) there is not less than three or four hundred men. If your Excellency had the opportunity of sending the cowhorn mortar that Governor Craven writ for they would now have been of great use.

While I was writing this, one Tom Blount, the chief man of one of the Tuscaroroe Forts which is next to us, who hath pretended all along that he was not concerned with the other Tuscaroroes against the English, and with whom we have had no hostility all this time, came in to me with letters from your Commissioners for Indian affairs from Albany (a copy whereof have herewith sent your Excellency) which, he says, four of his Indians brought him from thence. Notwithstanding which letter I have lately had information that several of the Five Nations are now among the Tuscaroroes; which wants yet confirmation I hope your Excellency will take what care you can to hinder the five Nations from joining or assisting our Enemies with arms or ammunition.

The honor of your Excellency’s answer by the first opportunity here, or by the way of the Governor of Virginin, will highly oblige

Your Excellency’s &c

GOV. SPOTSWOOD TO GOV. POLLOCK ABOUT INDIAN AFFAIRS.

To Coll Pollock, 8 March 1713

Sr,

You do me too much honor, in laying so great Stress upon my favour, especially since I perceive you do’nt intend I should show it by any present undertaking in yr: behalf. I rejoice very much to hear your affairs are not in that extreme necessity and apprehended them to be at ye time of yr: Assemblys’ address & am glad you have now such number of South Carolina Forces, as may be sufficient to do ye work effectually without ye assistance of Virginia. The Earnestness with whch I pressed the conference at South Key & ye concern I showed upon ye disappointment I mett with there, was purely out of Consideration of the
distressed condition of your People, and my earnest desire to contribute to their Relief—I sincerely wish yr's Judgment may prove just & that ye S Carolina forces may have no occasion to be joined with any from hence, for I'm afraid the Thousand pounds supply will prove but a poor Reserve, in case of any miscarriage. But whatever happen, I shal heartily Joine any endeavours to assist yr: province as far in me lyes, & for that end shal be ready on my part, to preserve with you a friendly correspondence, and on all occasions to testify that I am &c &c

Just now I have rec'd advice that the Tuscaroroes have surprised & rob'd our Traders going to the Western Indians—I'm very little concerned for their loss, because they engaged to go so strong & to march so far wide of the Tusks, as not to be in danger of any attack. But I'm extremely troubled lest the enemy have by this means, got a greater qty: of ammunition than I could have wished—since I understand you are in such want of powder. I shal endeavour to send to Jno: Cottens by ye 18th instant four barrels of powder, wth may be carry'd down to you by ye Canoes, in wth M. Hyde informs me she designs to come up at that time, and hope you will have some careful person there to receive this supply—

Capt: Jones informing me of his intended Journey your way, I take this opportunity to let you know, that after divers applications from some of the Tuscaro Indians, who say they left yr: Government on the first breaking out of the war & have since remained dispersed on our Frontiers, I judged it necessary to bring under some Regulation such a number of disorderly people; who declared themselves, resolved not to return or submit to yr: Govern'mt and ag't whose attempts the people of this Country could no other wise be secure—The disposition I have made of removing them so far from you & placing our Tributarys between them and yr: Frontiers, with a constant Guard of white men at their Towns, both of the one & the other, I doubt not will satisfy all indifferent persons of the care taken to render yr Govern'mt secure ag't all their Designs for the future, & the stipulation of delivering up such as were notori-

March 31st 1713

Hon* Sir

This day by yours of the 26th instant had the joyful news of your great victory over our Enemy Indians, which, as it will I hope be a great means to bring safety and peace to this country, so it will redound much to your honor to have been the chief instrument of so great and good a work. But as the best of metals is mixed with some alloy, so the joyfullest news many times with qualifying circumstances; as my not hearing from Capt* Maule nor none of his company makes me doubt that he and most of his company are killed or wounded.

Your offer of Continuance of your service for the good of this poor Country is noble and generous, and I heartily wish we could have the
happiness to have you stay amongst us until the war is finished. And as for my judgment of what measures are most requisite in this present juncture of affairs, I think to the uttermost of our power this blow ought to be vigorously followed up until our enemies are forced to submit themselves. To do which there is wanting more white men, more Indians, and more provision. As for white men, you know how difficult it will be to raise any number out of this country, but know not some may be had out of Virginia, of which it may be now time to concert measures with the government there. As for more Indians, it seems some accident hath hindered those 200 that Governor Craven writ of were coming. And if you send for any more now, it will I believe be July or August before we can expect them here. So we must consider what we must do for provision for them. We have a steep with 800 bushels corne, 32 barrels meat, and some tobacco, now coming round, as I am informed, which I believe might be sufficient to maintain the forces now with you until August next: and I believe with some pains their might be 4 or 500 bushels corne now raised. Now wither you think this 4 or 500 bushels corne, with what new corn and peaches may be had at the Indian towns, and what wheat may be had of the people here, (which I doubt would be but little) would last until our new corn is gathered and carried round, which I believe might be enough, the 500 bushels corn before mentioned will keep them and the forces you have with you one month, and it will be hard if what corn and peaches may be had at the Indian towns, and what wheat may be had amongst the people here will not last them two months more until new corn can be got round to them. So that albeit I distrust not not engage, yet if you send for such a number of Indians, you may assure yourself there shall be no want of my endeavors to supply them. For I am really in the mind our Enemies will hardly put any more trust in their forts, but rather trust to the swamps and pocosunns, where the Indians are better than the whites.

I have given a rough and unpolished account of the state of our Country, and of their ability in carrying on the war, to the best of my knowledge with my own opinion that this blow is vigorously to be followed. Now I leave it to your prudent consideration, what number of Indians you think will be convenient to send for, and how you think our provision will hold out. Also, if we have any white men from Virginia, I doubt we must expect little more supply of ammunition for the money raised there will be for paying of their forces, so ammunition must be had from South Carolina. I have much more to write, but the hastening away the post hinders me, and makes me write so confusedly, which hope you will excuse.
I have ordered the Council to meet here the 15th of April, where and which time I would humbly entreat the honor of your company to concert together the proper measures for the peace and safety of this Country. I have likewise taken care to provide a messenger to carry your letter to the Governor of Virginia, and I doubt not you will have an answer in by that time.

Also some Matamaskite Indians disturbing the people at Matchepungo, and as informed, there being some Corees about Mackayes, now if you think part of your Indians may be spared from Neuse, I believe they may be of service there; which I leave to your consideration. Only if you send any to Pamptico, you must order the sloop with the corn to carry so much of it round to Pemptico as you shall see convenient for their subsistance. And I believe if Tom Blount should come in, and submit to such articles as we shall propose, if it be in two or three weeks, we shall have time to send to Governor Craven to stop the Indians coming in that may be sent. All which may be considered at your coming. I shall add no more but that I sincerely am—

Postscript

Sir Pray if Capt Maule be alive, give my humble respects to him and all your officers.

[From Pollock's Letter Book.]

CHOWAN April 2d 1713.

Hon'ble Sir

Yours of the 15th of last month with the four barrels powder received; for your Honors speedy care about which and the assurance you give us of more supply if we have occasion, I acknowledge myself extremely obliged.

I was of the same apprehension with your Honor as to the fatal consequences that in probability would have followed if Col. Moore's design on the Fort had miscarried for want of provision, ammunition or any other matter. But (praised be God) that fear is now over. For Col. Moore, by his letter of March 26th which came to hand but night before last, gives me account that they have taken and killed 800 Indians at least in the Fort, and of ours 200 hundred white men killed and 24 wounded. 36 of our Indians killed and 58 wounded. He believes it was as hard a battle as was ever fought against Indians. I have not yet the particular account of the action, so can give no further account of it.
It has fallen out, as I conjectured, that Col. Moore's Indians, upon taking the Fort and getting some slaves, would march, the most part of them, home with their booty, so they have now all gone home, only 180 that stay with him about Neuse River, where he is now expecting our resolutions, and most generously offers the continuance of his service for the defence of the country. So I have appointed a meeting of the council the 15th of this Instant and expect Col Moore will be with us by that time.

Now in my judgment this blow ought to be vigorously followed, until the Indians submit themselves. To do which there is wanted men, provisions, and ammunition; sufficiency of neither of which is to be raised or had in this government. So that we have no other way but either to lie still and wait until we see if the Indians will come in of themselves, and make peace with us; or apply ourselves to our neighboring Governments for succor, that is to your Honor and the government of South Carolina. Now if we apply ourselves to the government of South Carolina for more Indians, we could not expect them here before August at soonest: which tis true would be a good time to destroy our enemy's corn; but then if we should not be able to supply them. For most people here having scarcely corn to last them until wheat time, must live upon it, and so can spare little, and many not having any at all.

Now if we apply ourselves to your Honor, there could not be less than two or three hundred white men and one hundred Indians wanting to join Col. Moore's forces, to make them of sufficient strength to pursue the victory with effect, and to take their forts, if they have any more, (but I am of opinion they will not trust any more to their forts); and if the money raised should be sufficient to pay them, which I believe it would not, unless for a very short time; then where shall the provisions and ammunition be had?

And if we should lie still and expect them coming in to see us for peace, and not follow now upon them after this victory, they may take courage to injure us as much as ever, or get help of the Five Nations, or of some other Indians, to the lengthening out the war to the ruin of this Country so that I see Scyllas and Charybdes on Every side.

All the public provision now in the government being but 800 bushels corn 32 barrels meat, which was to be carried round to Neuse last week, and may be there might be 3 or 400 bushels corn with great search and endeavor more got, which would not be near sufficient to maintain such a number of forces as would be necessary to reduce the Enemy Indian to submit themselves.
Hon' sir I have laid the true state of this government before you to the best of my knowledge and capacity; and knowing myself to be of weak judgement and without experience in matters of so great moment, would therefore humbly beg the favor (by the bearer) of your Honor's best advice in this juncture.

The Matamuskeet Indians have killed and carried away about twenty persons at Roanoke Island and at Croatan, and two Tuscaroras have killed a man upon this shore, about twelve miles distant from where I live.

To Coll: Pollock—

St

Last night, I rec'd by Charleton you* of the 2nd instant w* gives occasion to rejoice with you upon y* good news of y* success of yr Forces— I very readily agree with you that the pursuing this blow is the surest way to put an end to the war, but the difficulties in the execution thereof, w* you have justly stated are too great, to be surmounted by the Resolutions of two or three persons, how zealous soever they may be—Where other means are uncertain, it is prudent to make ye best use of such as are in ones' own power—You have already experienced how ruinous the continuance of this war hath proved to y* Country & there is little hopes of bettering yr: Condition, by the prosecution of it under the unhappy circumstances you now labour: Wherefore, I think if an honorable peace can be obtained while the terror of the late severe Connection is fresh in y* minds of y* Enemies, it would prove ye best Expe-dient to free you from yr: troubles, and in all probability to quiet the Tuscororoes for a long time, at least while the memory of the losses they have sustained remains among them. To this purpose it may be proper to talk high to Blunt, as if you expected not only a Reinforce* from St* Carolina, but that Virginia also was moving to yr: assistance. This will be the more duly credited by him, because upon advice that a Body of the Northern Indians have lately crossed our Frontiers, and are gone towards Morattuck, in all probability to ye assistance of ye Tuscororoes,

*The date should be April, 1713. See date of preceding letter, to which it is an answer.—Ed.
I have ordered all our Rangers with compose a Body of near 150 men, to march that way, and it is very like, some of the Tuscorooses that have fled from your Forces may fall into their hands—It may likewise be proper to let Blunt know that you are so well satisfied with his Conduct, and especially in delivering up to you, the two persons who committed the late murder, that you are willing to conclude a peace with him and all other Indians of the Tuscaroro and Masamasketee nation, that will put themselves under his Governm's, and that you will make him King of all those Indians under the protection of North Carolina. This proposal will stir up his ambition; and no doubt oblige him to be faithful to the English for the future; and it seems reasonable to believe that the Tuscarooses will very readily embrace such an opportunity of making their peace. And by this means, you may also engage Blunt to deliver to you the greater part of the murderers that are yet alive. You will in all appearance, be more secure by this means of any attempts of those Indians, or at least if they should again begin their old practices, you will be better able to provide for them in time of Peace, after the Country hath had some Respite from their present Calamitys. As I have no other intention than to contribute to the Relief of your province, I shall very readily concur with you in these or any other measures that may be judged proper. And you may assure Blunt, that upon his concluding such a peace, he shall be owned by this Gov't as the Chief of the Tuscarora Nations. This I offer only as my present thoughts, but next week I shall have a meeting of the council and then if any thing further can be thought of for your assistance I shall communicate it to you by Express.

The Governor having this day communicated to the Council a letter from the President of North Carolina giving an account that the Forces under the command of Colonel Moore had lately taken the Fort of Nanhadakha, and therein killed and made prisoners of upwards of 800 of the Tuscaroro Nation and that upon the said President of Carolina representing the inability of that Government to prosecute their late success, by reason of the departure of the greatest part of the South Carolina Indians. The discouragement given their Inhabitants by the loss of many of their men in the attack of the Fort and the utter impossibility of supplying with provisions any Forces that might be sent from hence, he had advised the said President to make peace with the Tuscaroro Indians while their late defeat was fresh in their memories and for that purpose to make use of Tom Blunt Chief of those Towns who have hitherto adhered to the English making him an offer in consideration of his Fidelity of the sole rule of the Tuscaroro Nation under the protection of the Government of North Carolina and to receive as friends all of that nation that shall submit to him as their Ruler as the most probable way to secure his obedience and establish a lasting peace with those Indians and to extricate that Province out of the Calamities of a war which they are not able any longer to carry on. And thereupon asking the advice of the Council whether it be probable that any further supplies can be obtained from the Assembly of this Colony for enabling the Province of Carolina to prosecute the War or whether in the present situation of affairs it be advisable for them to conclude a peace. The Council are unanimously of Opinion that it is not probable the Assembly of this Colony will be prevailed on to give any fresh supplies towards the assistance of Carolina considering the present poverty of this Country and that the affairs of that Province appear to be much bettered by the destruction of so great a number of their Enemies and as it is not to be doubted but that the Indians discouraged with their late losses will readily embrace any Terms of peace that shall be offered them. It is most advisable for the Government of North Carolina immediately to treat with the Indians upon the Terms proposed by the Governor which appear to be such as will render that peace lasting and honourable and bring greater security to that and her Majesties neighbouring Colonies than can be expected by carrying on a tedious War the event of which is uncertain.
May it please your Excellency

Since my last of March the 6th Col. Moore with the forces under him, have taken and killed 800 at least in the Tuscarora Fort and it seems, hath had as hard an engagement as ever was amongst Indians, since the settling of the English. We have killed and wounded in this expedition 165, whites and Indians.

At a Monthly Meeting Held in Pasquotank at Symmeses Creek the 17th 4th Month 1713. This Meeting Considering the Gross and Vile Aspersions That Thomas Robinson hath Spread abroad against Mathew Pritchard tending to Defame the Truth and make Friends odious appoint James Davis & Zachariah Nixon to speak to him to be at the next Monthly Meeting.

Also the Meeting's judgment is that all Friends that do suffer on Truth Ac't Either for not bearing arms or Refusing to pay Parish levies towards the support of the Churches so called do keep a true Ac't of the sum they suffer & the day distress is made and Render the same to either John Symons or Joseph Gloster Also the queries were read and answered to, and Friends Desire is that all Friends be careful to keep work day meeting. Also Friends appoint John Morris & Henry White to represent the state of this meeting to the Quarterly Meeting.

Hon'ble Sir

Your's of April the 7th received, an am altogether of your opinion, that seeing we are not able to carry on the war, it is best to make an honorable peace, if we can, whilst the smart of this blow is fresh in their minds: in order to which Tom Blount coming in here to the Coun-
cit, we have come unto some agreements with him. The chief whereof it
that for his faithfulness and good service done to us, we will make and
acknowledge him King and Commander in Chief all the Indians on the
south side of Pamptico River under protection of this government; and
that we will make a firm and lasting peace with him and all the Indians
that acknowledge him as saehem; he being to deliver to us twenty of the
Chief contrivers of the taking the Baron [and] Mr. Lawson, and of
Carrying on the massacre, whom we name to him; and to deliver up all
the captives, horses, arms, goods, and cattle taken from the inhabitants,
and to pursue, kill, and take, as Enemies, the cahnecks, matamuskeets,
and all other Indians, Enemies to the English; and to deliver up to us
any of his Indians that we can make appear hath had any hand in the
massacre. These are the substance of the chief articles. For security
of his performance of which he is the 10th or 11th of next month to be
in at the assembly two hostages from each town that is left.

Tom Blount informs me that most of the other Indians that were not
in Wahsuke Fort, that was taken were got into an other Fort called
Cohunke, who upon hearing of the taking of Nahasuke Fort all scat-
tered, and left their fort, most of them going up Moratock River.
And likewise he informs me that Conaquane, the Saehem that went
with three of Tom Blount's Indians to the Commissioners at Albany,
and procured the letter to this Government, (a Copy whereof I sent to your
Honor) had come to his town with about ninety or a hundred of his
Indians, and persuaded him all he could against the English; telling
him that they only amused him with fair words to keep him from doing
them mischief, but when they had destroyed the rest of his nations, he
might be sure to be destroyed likewise: but if he would take his advice
he would settle him out of danger of the English. But Tom Blount
says he would not hear him, but desired him to leave them to themselves,
and mind his own concerns. Now if Tom Blount come in and make a
peace and do as he promises, we shall have only Matamuskeets, Cahne-
keys, and Corees to deal with, who albeit they may give us a great deal
of trouble yet am in hopes, if Col. Moore continues with us with his
Indians, they may be brought under in a short time. But if he do not
come in and we are forced to go vigorously on with the war, we shall be
in great want, I doubt of provision and ammunition; for albeit we shall
not have occasion of many white men, the Enemies being to be pursued
only in the woods and swamps, where Indians are the best we shall have
occasion of more Indians who must have provision and ammunition. I
shall do my uttermost Endeavor for procuring all for them I can, and
hope if it will fall out so that we shall want your Honor will assist us.
As for a particular account of the siege and attack of the Fort, I leave it to the bearer Capt Maule, who was personally present, only that all our people behaved themselves extraordinary well, and far otherwise than Col. Barnwell represented them last year, and more indeed than could be expected from inexperienced men.

As for Col Moore his indefatigableness in enduring the greatest fatigues, his conduct and courage at the siege and attacks were extraordinary, all which good qualities are set of with so much modesty that makes them more resplendent, and renders him an extraordinary man.

If any news of importance, be very acceptable, and add to the many obligations receiv'd by Hon'd Sir

Your most obedient humble Servant

THOMAS POLLOCK

Sent by Capt Maule and John Lovieke

[FROM POLLOCK'S LETTER BOOK.]

APRIL 30th 1713.

Hon'd Sir

Your of April 27th by your messenger receiv'd. And as for Tom Blount, he was in with us at our last Council, and we are come to such article of agreement with him as your Honor proposed in your's of April 7th and he is to meet us the 10th or 11th of the next month at the assembly fully to conclude the peace, of which by mine to you of the 25th instant (by Capt Maule and John Lovieke) have given your Honor a particular account. Since mine of the 25th there hath nothing of moment happened here, until the very moment before your messenger arrived, I had informations that the Matamuskeets (having I believe some of the Cores and Catechmee Indians joined with them) being in number about 50 had fallen on the inhabitants of Alligator River, and, as they conjectured had killed and taken 16 or 20 of the Inhabitants the rest having escaped. Col Moore had sent orders to have one have one hundred of his Indians to come and Clear the woods about Matamuskeet; but but believe they are not yet come; and I have sent out orders to the adjoining military officers, to raise what men they can, and march after these Indians with all expedition; but fear it may be to no purpose, they having advantage of such dismal swamps to fly into. And unless our aux-
iliary Indians can drive them out of these swamps I can think of no better way, than of setting a garrison some where near their chiefest range, who may hinder their making of corn, and make some discovery where they keep their wives and children, which may be a means to make them remove.

As for the present state affairs here, I have not failed to give your Honor a particular account of all material passages since my administration; but shall briefly run over some few things.

Our own divisions (chiefly occasioned by the Quakers and some other evil disposed persons) hath been the cause of all our troubles. For the Indians, being informed by some of the traders, that the people that lived here were only a few vagabond persons, that had run away out of other governments, and had settled hear of their own head, without any authority, so that, if they cut them off, there would be none to help them, this, with the seeing our own differences rise to such a height that we (consisting of only counties) were in arms each against the other, encouraged them to fall upon the county of Bath not expecting they would have any assistance from this county, or any other English plantations. This is the chief cause that moved the Indians to rise up against us, so far as I can understand.

And as the Quakers with their adherents have been a great occasion to the rise of the war, so they with two or three persons more (not in such post of profit and trust in the government as they desired) have been the chief cause that the war hath not been carried on with that vigour it ought, by their disobedience to the government encouraging other to disobey, and in several precincts, they, being the most numerous in the election fields, choose such numbers of assembly as opposed chiefly what was necessary for carrying on the war. So that the generality of the people, seeing that the Quakers for their disobedience and opposition to the government rise actually in arms and had attacked the government and council had escaped without any manner of punishment, were emboldend to do the like; and seemed to want only one to head them to carry on another insurrection.

As for ability in carrying on the war: it is so little that we must, if possibly we can upon honorable terms, conclude a peace, the country being more in debt than I doubt they will be able to pay this ten or twelve years, our public bills not passable, and little or no provisions to be raised in the Government to maintain any forces out against the enemy.

At the breaking up of the assembly, shall give your Honor an account of what conclusions we come to with Tom Blount, and all other material
passages here, and intend then to send the Lords Proprietors a clear view of the state of their country so far as I can; and I shall not be unmindful to give them a full representation of your great and hearty endeavours for the good of those poor people and safety of their country. And, I hope, when you write home concerning this government, you will do me the justice to represent that I have not been neglectful in doing what possibly could for the safety of this place.

I am

[FROM FOLLOCK'S LETTER BOOK.]

Hon' Sir

I doubt not you have have had a full and true account of the glorious victory obtained by your forces under the command of Col. Moore over our Indian Enemies in killing and taking 800 of them at least in their strong Fort, which as it hath dispirited and struck a terror in all of them, so I hope it will in a short time bring peace and safety to the people here, which will be altogether owing to South Carolina under your Honor's government. Col Moore hath bravely and gallantly discharged the
trust put in him, enduring the greatest fatigue with cheerfulness, thereby encouraging his men, carrying on the siege of the Fort with great prudence and discretion, and storming it with great resolution, courage and conduct, and his moderation and modesty setting a great lustre on all his other virtues.

We have concluded a peace with King Blount and all the other Tuscaroras that will come in under him, he being to deliver up all that we can prove had any hand in the massacre; a copy of which articles have sent herewith, enclosed. We were induced to this by reason we were not able to raise more provision to maintain the army; and also it was thought better to have some of them on the frontiers than to have our out plantations lie open to the insults of any of them that should escape, or of any other struggling Indians. Wherefore would entreat your Honor to put a stop unto your Indians coming in here until we see if keep the articles of peace or not. If Blount keep the peace, we shall have only the Mattamuskeets and Core Indians to mind, who of late have done us great mischief, having killed and taken of our people since my last to you, about 45 at Croatan Roanoke Island, and alligator River, these being about 50 or 60 men of them got together between Matchepungo River and Roanoke Island which is about 100 miles in length and of considerable breadth, all in a manner lakes, quagnaires, and cane swamps, and is, I believe, one of the greatest deserts in the world, where it is almost impossible for white men to follow them. They have got likewise boats and canoes, being expert watermen, wherein they can transport themselves where they please. Col. Moore is gone to get what Indians are left to go after them, only a few that stay at Core Sound to guard the people there from some few of the Cores that lurk therabout; and I have ordered some of our people to go by water to take their boats and canoes, to intercept their passage. If they have good success in this expedition, I hope it will end the war. Provision being very scarce here, the assembly thought it fit to have Col. MacKey's sloop hired in the country's service, to carry off what slaves the Indians have here, and to continue in the country's service between South Carolina and here until the wars are ended. As for what is owing Mr Lahorn for his sloop's hire, I have put into the assembly, but the provision being all spent to maintain the army, there is no possibility of a raising his pay until next winter, at which time, if he employ an attorney; I question not the assembly will raise it for him. Col. MacKey hath behaved himself extraordinary well here; he with his twenty Yamassee Indians defending all Bath County from the insults of our enemies, keeping a
watchful eye over Neuse and Pamlico from Col. Barnwell's departure until Col Moore arrival. As for Col. Barnwell, I can find nothing more material to be made appear here against him than what your Honor hath account of already: as for what private transactions have been carried on betwixt him and Mr Moseley, they have been kept so in the dark that it is next to an impossibility to prove them.

In answer to your's by Mr Roach and one from himself I wrote to him, that if any person had wronged him, the law was open and he should have justice done him impartially; and for what goods of his had been impressed for the country's service, as he did, is in the assembly I doubted not it would be allowed him; and as to his settling here in this government; he being one excepted in the proclamation, if he came in and gave bond with security to answer at the provincial court what should be objected against him on Her Majesty's behalf, when required, that I was willing he should not be called to answer until the Lords Proprietors' pleasure therein were known; notwithstanding which he comes with his sloop into Neuse River, and there trades for slaves and other goods without entering or clearing with the collector, but gets a simple man by threatening and drink to enter and clear his Vessel, and so is gone without paying the duties imposed on West India goods by our law, as I am informed; so that he acts with the greatest folly imaginable, expecting Your Honor will protect him in whatever he does here.

Col Cary is newly arrived from England, and I do not understand that he hath brought anything from the Lords Proprietors, only says that Brigadier Nicholson is to be here very shortly to regulate and settle all affairs, and I heartily wish he were, not doubting but being a prudent and generous man he would take such measures as would prove effectual to bring the people under due obedience and to see that the laws were better put in Execution, which is practicable now to be done without raising a difference and rebellion again amongst ourselves, which might prove fatal in this juncture, while the Indian war continues.

If your Honor would order Col Moore's stay here with what Indians are left, being in all about 120 as I am informed, would be of great service to this country, and I hope would be sufficient in short time to end the war here, if Blount keep his articles of peace, which I am in great hopes he will, if your Indians do not come in and force him to fly back with the rest of the Tuscaroras, for he now being to be the back-guard of our frontiers, if he go off with the rest, we shall lie open to the insults of all of them, and of all other struggling Indians, and by that means know no end of the war.
COLONIAL RECORDS.

Your Honor's extraordinary favors to this poor people are inexpressible, and ought to be imprinted in all our minds in indelible characters. As for my own part, I shall be ambitious to find any ways or opportunity to acknowledge at least my gratitude, and to testify that I am in all sincerity

Hon'o Sir
Your Most obedient Humble Servant

Hon'o Sir
Col Moore having but about 120 or 130 Indians left so far as I understand; and if he should think them too few, or that some of them leave him and march home, so that he writes that he writ that he hath occasion of more Indians, I would entreat your Honor to send them in. For I am very desirous that you have the whole Honor of ending the war without the help or assistance of any of other neighboring government.

GOVERNOR SPOTSWOOD TO GOVERNOR POLLOCK ON INDIAN POLICY.

May 1713

To Coll'o Pollock,
S'r
I have rec'd yo'r of the 25th and 30th of last month, whereby I perceive you are fallen into the same measures, I proposed for establishing a peace with ye Indians, only with this variation, that you insist upon higher Terms, than I can think prudent at the Juncture: for as to the delivering up to you 20 of the Chief contrivers of the seizure of the Baron & Mr. Lawson, and of carrying on the Massacre, and those to be named by you, it will be fitt to consider how shocking this will be to all the consid'rm men of that nation, who will without doubt, believe that they themselves will be the persons pointed at, and rather choose to hazard their lives, by the chance of war, than submitt to a certain death, by yielding themselves your prisoners: the insisting likewise on the delivery of such of Blunts Indians, as have had any hand in the Massacre, will make them averfe to this Treaty, and render Blunt, incapable of Executing what engagements he shall make to you—In my opinion,
after so many have been made Captives and destroy'd, and that with such exquisite tortures (as I have been told), an Act of indemnity might very well be pressed for the rest—Not that I am pleading for any favour as due to those Indians. On the contrary, I think all that had any hand in y* Massacre deserve death: But in the present Circumstances of yr: Country (of which the Indians are not altogether ignorant) it seems very improbable they should submit to worse conditions upon a peace, than you are able to force them to, by carrying on the war: and notwithstanding Blunt may be induced to sign such a Treaty as you propose, yet you will be as far as ever from establishing a peace by that means—for the experience I have had of those very Indians, hath shown me that they are easily persuaded to promise any thing, but that there is no dependence upon their performance, except where they can find in it either their interest or their Safety. So that if a peace can be obtained with the delivery of two or three of the Ringleaders in y* Massacre, and those named by you before the Treaty, the rest will then imagine y* selves out of danger, will neither interrupt ye Treaty, nor be like to break y* peace after its conclusion—

As to the practices of the Northern Indians, I have formerly, and now again by the man of war, that carries M* Hyde given Colf* Hunter a particular acc* thereof, and desired him to use his endeavours for prevention thereof for the future—The inclosed pr. ml: will informe you of the latest & most material piece of news we have here—

LIEUT. GOV. SPOTSWOOD TO LORDS OF TRADE 2 JUNE 1713.

VIRGINIA June the 2d 1713.

My Lords,

Since my last dispatch to your Lordships of the 11th of February I have had little to add to the trouble that gave you relating to the Affairs of this Colony, and I doubt not your Lordships will receive with as much satisfaction as it is to me to write the happier prospect of affairs in the neighboring Province of North Carolina; the forces sent thither this winter from South Carolina under the command of Colf* Moore have obtained a considerable advantage over the Tuscarooses by the taking
the only important Fort they had, and it and other Rencounters killed
and made prisoners upwards of a thousand of that Nation. This blow
having extremely frighted them, it was necessary to improve it by
engaging them in a Peace, since the Government of Carolina is utterly
unable to reduce them by prosecuting the war, and by the information I
have received from the President of that Country of their disposition to
fall into those measures I advised for establishing a Peace, I have reason
to hope it is now very near, if not altogether concluded, the project whereof
your Lordships will find in the Council Journal of the 16th of April
herewith sent.

The making a Peace with those Indians was the more necessary in
regard of some late discoveries that they have been all along assisted in
this war by the Senecas and others of the five Nations under the Govern-
ment of New York: for while the Carolina Forces were besieging the
Tuscaruro Fort, a considerable body of those northern Indians came into
the Tuscaruro Country, and would have persuaded the neutral Towns to
join with them in raising that siege; and the same body of Indians meet-
ing with our Traders as they were going with a cargo of goods of the
value of £1000 and upwards to traffic with the western Indians, fell
upon them and plundered them of all they had, and at the same did
not disown their being Mohacks and other Northern Indians, which the
Traders likewise very well knew to be true, and was further confirmed
by some of our Tributary Indians who going out upon the news of this
Robbery mett with and killed several of them. This brought the rest
down on our Frontiers, and obliged me to command out all our Rangers
in search of them, but they were retir’d ’ere our men could come up with
them, and so escaped with their booty.

CHOAN June 8th 1713

Hon’d Sir

We have concluded now a peace with Tom Blount; a copy of the
articles have herewith enclosed. What trust may be put in this peace I
know not, only am in hopes the smart of this severe blow that they
have had, with the fear they have of South Carolina Indians, may in-
duce them to keep it for some time, at least until we are more able to
withstand it. To observe what measures Tom Blount takes, and to be guard to from the South Carolina Indians if they should again attack him have sent out a brother of Col. Tom Moore’s and one Mr. Charles Glover, who went from hence with him the 2d of this instant, with Tom Blount’s wife and two of his children and his sister’s son; whom our Indians had taken, and I sent and had redeemed from them.

An Assembly having adjusted what public claims were put in, and enacted the making more public bills to the value of eight thousand pounds to pay them and make all our public bills passable for all debts for rated commodities of the country, were adjourned until August next.

Col. Moore, immediately after the breaking up of the assembly, went to pamplico, in order to get his Indians together who have been ranging all over the Tuscarora Country, to make a decent on the Matamuskeets, who have done us great mischief. And some of our people are gone after them by water. If it please God to give them good success in this Expedition, and Tom Blount keep his articles of peace, I hope it will go near to end the war. But I believe it will be necessary to keep what South Carolina Indians are here until next fall [at] least, for fear of some eruption, and until matters are better settled: only we are much straitened for want of provisions, there not being sufficient left to supply Col. Moore’s forces this expedition. I have sent to see what can be raised, but I believe it will be very little. If we should want I hope your Honor will assist us with some. I believe fifteen or twenty thousand weight of biscuit may go near to supply two hundred men until our corn come, as for wheat, there is such a scarcity of corn here, that the people will be forced to spend most of it themselves.

CHOWAN June 25 1713

Honble Sir

Yours of the 3d instant is now before me, and must needs sincerely acknowledge that our lives, liberties, and estates are in a manner wholly owing to your goodness and generosity, and I wish before you had sent out the last forces you had received mine by Col Mackey, who I believe, is gone in his sloop for Charles Town. For since Capt Moore went from hence, the Tuscarora Indians in that other Fort that was not taken, with most of the other Tuscaroras, as we are informed, are fled northerly, only Tom Blount, who hath but very few left with him, with whom we have concluded a peace, the articles of which have sent you in my last by Col Mackey, so that we have now only the Matamuskeet, Core, and Catehny Indians to deal with, against whom your forces here before and those newly come by water in probability are sufficient; so that your forces that are coming in can expect no advantage to themselves by slaves, and besides all our corn here in a manner is quite spent, so that most people will be forced to spend what wheat they make, and it will be so much as possible can be done here to supply the forces here already. For which reasons immediately on receipt of yours, sent to Col. Moore to send and stop them if possible from coming. For their coming in now might be, I fear, much to our damage, and no advantage to them, for since if they come in they will be force to come and live amongst the inhabitants,
until corn is eatible, which will be three months in which time they will
destroy a great many of their stocks, which [it] is to be feared would
cause an insurrection against the government.

I am very sensible of the great charge and expences your Country
have cheerfully undergone for our safety and heartily wish we were capa-
bale to make you satisfaction. But I can assure you, the poverty of the
people here is very great, more than you can well imagine, which I hope
your Honor, the Council and assembly will consider of.

As for the sloops hire, and for the arms and ammunition sent in to Gov-
ernor Hyde, shall do my uttermost endeavor with the assembly to have
it raised next winter in such comodities as may be suitable for your
parts.

The army here now are out against the Mattamuskeet Indians, in
which expedition if they succeed it will go near to finish the war. Our
latest news from Europe is the Great Turk’s causing the King of Sweden
to be secured and carried a prisoner from Bender to Adrianople, for what
reason is not known, and that peace was proclaimed at London the 9th of
April, which at least wants a confirmation.

Col Thomas Cary is newly arrived here from England, and likewise
have received a copy of a letter from the Lords Proprietors directed to
me and the Council, wherein they give an account that they have author-
ised the Honorable Brigadier Nickolson to enquire into the cause of the
late disorders of the people in this country, and require that no prosecu-
tion may be on that account until he came.

Hon’ Sir

Col Mackey’s sloop being now employed in this country’s service by
desire of the assembly, Mr. Langhorne’s sloop may be cleared at here
return. I hope by my next to your Honor to give you account of your
forces under Col. Moore destroying the Mattamuskeets, and finishing this
tedious war, which is earnestly desired by—

Worthy Sir

Tho’ this be my third to you I have not been honored with a line
from you since my arrival in these parts—I cannot help concluding you
have writ to me in Mr. Urmstones packet which he received by Capt* Harvey of the Royal notwithstanding his silence in the matter I need not use repetition in describing the miseries of the Government was lately exposed to I need only say that we seem not to enjoy peace, tho' some mischiefs are done by scattered Indians in the remote parts of the colony, all due care is taken by Col Pollock our president to suppress them, and wherever they are taken they are destroyed. So that I presume in a little time the country may be cleared of these savages. King Blount (as they term him) has obliged himself to clear the West Shore of Chowan River which he seems to be indefatigable in the Country is miserably poor and there is nothing to be expected from the inhabitants, since the Ashley River Indians destroyed their stocks for my part I never received the value of a Bushel of Corn since I was concerned here, but what I gott by weddings—I did not continue in Virginia near two months and even that time my want of health obliged me to it. I am now at Squire Duckenfields on the west shore of the Sound, pressed on by Capt* Maul our present Surveyor to stay there some time by reason of the great want there is of me—I have had several invitations to Virginia with great allowances would I accept them as appears by Col* Duke's letter to me who is one of the councillors of that colony, but I chose rather to slight them for the service I am engaged in I have obeyed the Society's Orders to a punctilio in giving you an account of my proceedings half yearly and shall endeavour to do, so during my continuance I am melancholy enough that I can have no answer to my Bills drawn on M* Hodges which I can't but think is very hard, considering I am left destitute in this remote part of the world, you ever appeared my good friend in London and dare I presume should entreat you to solicit him to dispatch this drawn on him now as well as the former—I can't imagine how he thinks I can subsist, the country allows nothing and of consequence the Society must be my support and I hope for the future more punctual payments will be made I design (God willing) to continue here till I receive an answer to this, and could then wish for a place of settled residence. The difficulties I have gone through are almost inexpressible and one distemper or another like the Thunder & Lightning continually disturbing me. Thank God, I am extremely beloved by the Inhabitants which is notorious enough and were they in any condition I should have their assistance I shall never get M* Adams' Books from Old Sanders and therefore hope you'll consider me by remitting me a parcel in the next Ships that come to Virginia please to direct them to meet me at Hampton and care will be taken there to
send them me up. The choice I leave to your better Judgment though
I could wish for some of Physick, with Dr. Cave's 2 Vol: of the lives
of the fathers, and all Colliers Essays and Norris's works, Dr. Leaks sin-
gle Vol: would be of use I take all imaginable care to discharge the great
trust that's reposed in me according to conscience I am ashamed to tell
you of my fare: for the whole year is one continued Lent fish being the
constant attendant on the Table I have writ to my good Lord of Lon-
don as I am in duty bound and also to M't Hodges I beg of you Sir to
send those Books and remind M't Hodges if you please to pay Shop
Bills, for when I want money I send to Virginia to M't Edmond Kerney
Merchant there and he supplies me I shall take no other way of pay-
ment during my stay here it being the readiest and best.

JOURNAL OF VIRGINIA COUNCIL.

The 12th day of August 1713.

On reading at this Board a Copy of the articles of peace concluded between the Government of North Carolina and King Blunt and others of the Tuscarora Nation. It appearing that in the said Treaty no notice is taken of any of her Majesty's other plantations, although the Government of North Carolina could not be ignorant that on their account this Country hath been particularly in open hostility with the Tuscaroros & that in all the advances made by the said Tuscarora Nation for making Peace with this Colony particular stipulations have been insisted on by this Government in favour of the people of Carolina; and since before the conclusion of the said Treaty with Carolina the Governor did by several Letters desire that Virginia might be included or that Blunt should be sent in hitherto to treat a part and give assurance of his future peaceable behaviour to the Inhabitants of this Colony. The Council cannot but consider this proceeding of the Government of North Carolina as an act highly prejudicial to her Majesty's service very disrespectful to this Country and ill deserving that assistance which has been given from hence in the Exigency of their Affairs. And therefore the Council are further of Opinion that the orders for seizing such of the Tuscaroros as shall come within this Colony be continued and the prisoners now in custody secured until the said Blunt shall come in to conclude a Peace with this Colony. And the Governor is desired to insist with the President of Carolina that he be sent in accordingly.

Chowan Sept 1st 1713

Hon’d Sir

Yours of August the 6th by the yamasee packet-boat receiv’d and as for sending letters by Capt Maurice Moore to request a fresh supply of forces with all expedition it is certainly a mistake for I sent no letters at all by him, neither knew I of his going until after his departure. My letters then sent to you were by Mr. Paule, the master of the sloop or packet boat, dated February 20th being a month before the fort was taken, at which time there was no occasion of sending for more forces: neither in any letter that I have sent will you find that I have trifled, been wanting in any promises, or unsteady or uncertain in my councils; all that
are acquainted with me know that I do not use to be so unto any person, and much less to one of your worth and character, and whom in a great measure I owe my own and the country's safety. And as for what evil methods or customs may be in North Carolina, I shall not now determine, but can assure you that I hate such base ways as much as any person under your government. I write not this to raise any contest or differences with your Honor, which I shall always shun, but to justify myself if he that was agent, or any other person wrote to you for more forces, it was without my knowledge.

Your ordering Col Moore to leave a sufficient number of Indians behind, with a proper officer, to guard our settlement is noble and generous, and adds a chain more to the many obligations we have to your Honor.

Hon' Sir Col. Moore ever since his arrival here hath behaved himself nobly and gallantly, and I believe his greatest enemies, (if he have any) can not find the least matter to blench his management And I doubt not he will justify that I have not been wanting in my true Endeavors to supply and assist your forces.

Hon' Sir As you have been our guardian angel to free and deliver us from our cruel and deceitful enemies, so I hope, if they should break out again, (there being but little trust to be put in Indians) you will continue your goodness and generosity towards us, and preserve what you have saved. As for your expenses about your arms and ammunition and the sloops here, shall not fail to use my utmost endeavor to have it satisfied this fall for if there be no occasion of raising of provision to maintain any forces, it may easily be done by the assembly, which is to meet November next.

Having great confidence in King Blount, that having suffered so much he will now be glad to be quiet, and may be a good guard to our frontier where would entreat your Honor to put a stop to your Indians falling upon him until we see how he behaves himself. Have ordered that the Yamassie Galley, on her delivering what is now sent into her at Charleston by Col Moore, to be clear and out of our country pay, unless your Honor have occasion to send her here again.

That no civil jars or discord, nor foreign Enemies molest your administration; but that desired success may attend all your glorious undertakings, shall be the wishes of Hon' Sir

[FROM POLLOCK'S LETTER BOOK.]

Copy to Mr. Hart. Chowan Sep' 1st

Hon' Sir

Yours of the 1st of August received, and can never sufficiently acknowledge the great obligations this poor country has to you; your industrious care and application, next to Governor Craven’s having been the chief cause of bringing us in such a sure way of conquering our enemies, and of having peace and quietness.

I am much troubled that Governor Craven seems to charge me with trifling, breach of promise, and uncertainty and unsteadiness in councils without any cause or occasion that I know of, and I believe none that knows can accuse me of any such matters. The chief reason that I can gather by his letters is that by letters by Capt Moore he was requested to hasten in more forces to our assistance, and when he had sent them we ordered them back: which is a mistake for I wrote no letters by Capt Moore, neither knew I of his going until after his departure. What letters I then sent were by Mr. Paule, Master of the packet-boat, dated Feb. the 20th, not requesting any more forces for being a month before the taking of the Fort, we had then no occasion of more forces, and it was a surprise to me to hear of more forces coming. Howsoever, as soon as I heard of it I sent to Virginia, I sent all over our country to see to raise for them what I could, but I found it could not be done. And then, there being no enemy to go against but a few Mattamuskeets, against whom we had sufficient forces before, concluded it was better to send them back, than to have them lie here and destroy and eat up the people’s stocks without any expectation of advantage to themselves in getting slaves: and which I believe would have raised most of the people here against me, at least have given the opposite party (which seems now to be more strong since Col. Cary came in) a handle to stir them up against me.

Hon' Sir If it had been with me as it hath been not many years since, I would have supplied them myself. But since the beginning of our troubles I have not been less out than £2500, besides £612 sterling in bills of Baron Graffenried came in protested so that I am not able to do as I would. I doubt not Col. Moore can testify that there hath been no want of my true Endeavors of supplying your army.

Hon' Sir King Blount having suffered much this war gives us hopes that he will now be glad to be quiet, and may be a good guard to defend
our frontier, and cut off what stragglers may be left of the Cores or Co-
technees, and be a great help to us in destroying the Matamuskeets, that
are left; wherefore would earnestly entreat your interest with the Gov-
ernor to put a stop on any more of your Indians coming in against him,
until we see how he behaves himself. But if he should break out against
us (there being but little trust to be put in Indians) I hope you will con-
tinue your goodness towards this poor people, and procure us what help
would be necessary.

Our assembly being to meet in November next, shall not fail in using
my true endeavor to procure of them the raising of the Governor's Money
for the arms and ammunition he sent and for the hire of the paequet boat
in such commodities as may answer. I am incapable of expressing our
obligations to Col Moore, who ever since his first arrival hath behaved
himself as a valiant, wise, and prudent commander ought to do.

As the delivering of innocent captives, of widows and fatherless, of
aged and impotent from their cruel and barbarous enemies, and the reveng-
ing innocent Christian blood shed by them must needs be meritorious
actions (if any are) so albeit these poor people are not able in the least to
retaliate Governor Craven, you, and the rest of your Government, who
have been instrumental in our deliverance; yet I doubt not, Heaven will
pour down its chiefest blessings upon you for such virtuous noble deeds,
which shall be earnestly wished for by him who most sincerely is,

Hon'ble Sir,

Yr. M. O. H. S.'

SIR—Albeit the ceasing of the war and discharging of the paequet
boat may take of much of the occasion and oppurtunity of writing to
you, yet shall be very ambitious of the honor of the correspondence of so
worthy a person as you are, and shall not fail of presenting my humble
respects to you by all oppurtunities.

The Governor was pleased to make the following speech

Mr Speaker

Gentlemen of the Council
and House of Burgesses.

*  *  *  *

The Cloathing you intended for the relief of North Carolina has all been bought up and delivered but the greatest part of the thousand pounds still remains unexpended which has been occasioned by that Government declining to join in such measures as I might reasonably think this sum was appropriated for, You shall have laid before you a particular account of what has been expended whereby may be observed that part has been for stores of war sent to North Carolina and the rest for expeditions undertaken against the same Indians who were fighting against that Government.

[FROM POLLOCK’s LETTER BOOK.]

November 16th 1713

Yours of Oct. 16th came to hand last night, and as for the Meherrin Indians, you have had wrong information concerning them: for they have answered to our Courts, they have submitted themselves to this
government, they have paid tribute here; so that they have not always been accounted in your government; but, on the contrary, have always here been taken to be in this; and it was only the convenience of trade that drew them to submit to yours, and the weakness of this government that suffered it. And moreover, they, living in the controverted bounds, are as much in our government as in yours, until the line determine under which they are.

And as the tributary Indians under this government are as much under Her Majesty as the tributary Indians of any other of Her Majestys plantations, so if I had endeavored to recover or resume and insure the right to these Indians for the Lords proprietors, I can not see wherein it would have been any encroachment on Her Majestys rights, which I shall always study to preserve to the utmost of [my] power. As for your Honor's acquainting us that we may not expect any assistance of men from the Meherrins, and that you have ordered them not to acknowledge our government, all that I can say to it at present is that if Her Majestys's subjects under your government had laboured under the hundredth part of the difficulties and trouble that the poor people of this government have, I should not only not have hindered those Indians that you had any pretence of right to, but have allowed and encouraged all other tributary Indians here, and all other Her Majesty's subjects to assist what they could. I think it very hard you should blame me for not appointing Commissioners to lay out the bounds, when I never had any orders thereon, either from Her Majesty or the Lords Proprietors.

I hope your Honor will take no exceptions at my lawful endeavors to maintain my masters, the Lords Proprietors rights, so far as lawfully I can, it being my duty.

We have had nothing of moment worth communicating to you these several months last past, only that some scattered parties of our enemies do still distress us out of their swamps and lurking-places, killing many of our people.

But King Blount's men very often come up with some of them, having killed, taken and brought in the scalps of near thirty of them. And are in great hopes that, according to his promise, as soon as the people come from the northward that he expects that he will soon clear us of these struggling parties, which without his help we never shall be able to do ourselves. We have a report here that you are on some treaty with the Tuscaroras, and that there are intentions of drawing them in under your protection, and settling them in your limits; which seems to me so unjust, and the consequences so apparently destructive to Her Majestys subjects
here, that I can never think, those that mind their own interest more than your Honor? or safety and prosperity of Her Majesty's subjects, can persuade your Honor to consent to it. King Blount had been with you long before this, but his sickness and lameness hath hindered him, as for what orders Her Majesty hath given concerning the controverted lands, I know not, but can assure you, since I was confirmed in the administration, have given no allowance to the taking and settling lands there.

Honorable Sir I have on my part earnestly endeavoured for a fair and friendly correspondence, which would be most acceptable.

MR. RAINSFORD TO GENERAL NICHOLSON.

Chowan, North Carolina Dec. 1 1713.

I had the honor of a Letter (which you were pleased to convey) from the Society delivered me by the hands of our most worthy President, Col. Pollock. I understand my duty in part is to inform your Excellency what Libraries there are of the Society's in general, and of my own in particular in this Government. As to my own particular share of books, I received none except a parcel of small tracts with some prayer books which I dispose of where I see most occasion, and where the necessity of the people require, and where I find they are ready to put them to the use intended by the Society. I had an order of the Society's for the books of my Predecessor, the Revd. Mr. Adams who died in Curatack, amounting to the value of Ten pounds, and now in the hands of Mr. Richard Sanderson, but never received one, tho' I often applied for them. The place where I at present officiate is on the west shore of Chowan River, where there are a considerable number of Inhabitants well disposed to the Interests of our Church as truly zealous in the defence of the country from the common enemy. Thanks be to God we have no disturbance among ourselves, but all people hearts unite and every Member of the Government is as happy as the times will admit of under the wise and prudent administration of our good President. I heartily thank your Excellency that you were pleased to condescend to take notice of me in your Letter to the President, and shall readily shew my gratitude by a cheerful and submissive obedience to your commands. There
is a great want of school masters in this Government for the instruction of children, which I hope you will be pleased to lay before the Society as you in your wisdom shall think fit. Please to pardon this presumption, and look upon it only as a branch of my duty which engaged me to let you know I received your commands, and how much I am (but with all due regard to the disturbance between us)
Your Excellency’s &c
GILES RAINSFORD—Missionary.

MR. URMSTONE TO GENERAL NICHOLSON

Honored Sir

The good news of your Honors safe arrival at Boston was very welcome to most here and has increased rather than abated our longing desire of your presence here ever since we heard of the Lords prop* their good intentions towards us in empowering so honorable a person to regulate the disorders and unaccountable confusions which the unhappy country hath been so long involved in the happy effects of the prudent care of other colonies when under your command makes your coming among us look the auspicious. If ever we shall be a people worthy the care and protection of our mother country we must date it from the day of your arrival which God grant may be safe and speedy but give me leave to tell you your honor will have a pretty hard task on it. I believe I need not tell you what a strange mixture of wretched mortals we have here many impatient of all discipline whether spiritual or temporal not a whit better than those St. Paul fought with at Ephes. & poor Col* Hyde during his short reign was vilely puzzled with them but the honest gentleman our now honorable president hath met with many more difficulties not only a refractory disobedient and gainsaying people but a potent and cruel Enemy to struggle with when he took upon him so heavy a burden the Indian War was just begun but by his unwearied diligence and wise conduct hath been carried on with great success—A country preserved which every body that was but least acquainted with our circumstances gave over for lost and the Enemy forced to a peace upon Honorable terms our intestine broils and contentions (to which all the misfortunes which have since attended us are owing) are in a great measure appeased, factions and parties no longer heard of and all having sufficiently smarted for their past divisions agree in their good esteem and approbation of his administration his public spirit and earnest endeavours for the welfare of
this Government tho' at the expense of a great part of his estate hath
gained him a great influence over all sorts and if not blessed with a
plentiful fortune he could never have waded thro' so many difficulties.

A perfect insight into the Interests of the country and a good estate are
needful for a Governor and are very engaging with our folk and without
that I plainly saw in Col' Hyde the character will be despised and the
honor due unto it not supported—

Sir in obedience to the commands of the Hon'ble Society & your honor
I make you a humble tender of my best respects and take the liberty of
assuring you I shall always have a due regard for the power wherewith
you are invested by the Hon'ble Society with reference to us Missionaries
as well as to the merits and repute your indefatigable pains and generous
concurrency in the promoting our most holy Religion as by law estab-
lished hath deservedly gained you from all good men but to give you as
directed a succinct account at present of all matters relating to my Mission
would be too tedious—At a General Assembly next after Col' Hydes taking
the Government on him a very favorable act was made in order to establish
our Church but thru' the opposition of sectarists who are unwearied in
seducing and perverting unsettled minds and stirring up an aversion in
all that will harken them against our hierarchy and by reason of the
poverty misery and calamities circumstances the country is reduced to—
all Essays and attempts have proved abortive little or nothing done pur-
suant to the said act neither know I when it can be expected there should
be for my part I despair of ever seeing it the fatigues and hardships I've
been continually exposed to have quite wearied me, my constitution which
has been heretofore healthy and strong and sufficiently tried by long and
repeated Journeys and frequent change of climates is now broken—The
air of America has been more disagreeable than that of a great part of
the known world besides my health and strength are very much im-
paired—

I have supplied to the utmost of my power the whole county of Albe-
marle which is of a great extent above three years and an half have left
no corner of it invisible I never was so hard put to it in all my life to
keep soul and body together and subsist my poor distressed family I
have been ill used by one whom I intrusted to receive my Salary and
lay it out in Goods which would have turned to a good account here but
for want thereof have been forced to draw Bills for England to the value
of £250 St. of which I could have easily made a thousand pounds this coun-
try pay besides £45 St. I am to pay for my plantation when a dispute
about the title is ended, which I believe will come before your honor.
My fellow laborer Mr. Rainsford, was with us two or three days in August 1712 and returned to Virginia on pretence of fetching in his goods, but loitered there till the Indian War broke out, which deterred him from coming again till about a month ago. He is now set down in my parish and saith that when the Inhabitants have once heard him they'll forsake me, and I must be turned out. I fear he is of a very contentious temper, I have seen him but once, and that was by chance. His carriage towards me was very haughty, as if I was some contemptible inferior—a rupture, which is almost unavoidable, would be of ill consequence, create mirth and diversion, among our adversaries who are always ready with or without cause to revile and reproach us, and it would be very repugnant to the business and disposition of a missionary. I understand he expects his salary from the commencement of his Mission, albeit he has done nothing for it. Mr. Gordon, my predecessor, was not at all out of the way in demanding an hundred pounds per annum to come back again hither. I wish I had gone where at first designed although I have had here the augmentation he desired but believe that would not have engaged a timorous man to have stayed here so long as I have done. If your honor would vouchsafe to prompt the Society to take into consideration my mean circumstances the loss which I sustained in the mismanagement of their bounty the pains I have taken for want of assistance and the little prospect of any encouragement from the country it shall ever be acknowledged as an extraordinary act of your accustomed goodness and charity (for in truth I am very poor) by

Honored Sir &c

MESSAGE OF GOV. SPOTSWOOD TO THE H. OF BURGESSES IN REGARD TO THE RELIEF AFFORDED THE PEOPLE OF N. CAROLINA.

December 7th 1713.

M* Speaker & Gen* of y*
House of Burgesses—,

I herewith send you a particular Acc* of what has been expended out of the sum, you appropriated last session for y*
Relief of N* Carolina, & as ye proper vouchers that accompany it may
sufficiently testify y' there has been no Fraud, so I'm persuaded each Article will show that there has been neither Extravagance nor Negligence in ye Disbursements & I can further assure you, y' every material expence has been always first resolved on in Council—I have not only supplied that distracted Province w' more cloathing than their Pres'd asked, & furnished whatever Ammunition & Stores of war he wrote for, but have also prefixed that Govern'mt by repeated letters to give me a meeting at such time & place as their Pres'd should think convenient, in order to concert the most effectual measures for our assisting them: & even at last, to urge them to it, I undertook in ye depth of winter a journey to South Key. but it was thought fitting to send to meet me then only two Persons, who had no other Powers, than to receive y' cloathing, and to hear what I had to propose, & those Deputies plainly declared, that if I marcht any men to their assistance, I was not to expect from their Country, any Provisions for them, & that tho' their Assembly by their address (w'd moved you Gent' of y' House of Burgesses, to grant the supply last Session) had solemnly promised to provide the same, yet would not their Government agree to give the least security for reimbursing me, if I did find out means to furnish the Provisions—Thus have I been necessitated to confine my undertakings against ye Tuscarora Indians, to this side of Roanoke River, where I might have it in my power to subsist the men, that were commanded out—: & as I have in this service, chiefly made use of the Rangers, who are paid by another fund, & of our Tributary Indians, who are always willing to march out for small Rewards, I have not expended half the sum I was entrusted with—But seeing that after all my zealous Endeavours & the Trouble & Expense, I have myself for these 3 years last past been at in behalf of our neighbours in N' Carolina, they have continually frustrated my Designs & put the worst construction upon them, how honestly or affectionately soever I laid them for that Countries' Service, I must now desire to surrender my Trust, not doubting but the seven hundred & odd pounds w're remain, can be readily applied for the Security & benefit of such of her Mat't Sub'd as will not prove ungrateful—

MR. URMSTONE TO GENERAL NICHOLSON.

NORTH CAROLINA, Jan. 4th 1714.

Honored Sir:

I have some time ago congratulated your safe arrival at Boston, but in hopes still of better things dare not to be so plain with you, being under some obligation of shewing mine to some who perhaps might have disliked, tho· would neither contradict nor yet remedy what I could, and now as heretofore for near these four years have had too much reason to complain of. This is now the time of payment, whilst people have it: Vestries have been summoned, but to avoid payment would not meet, and thus they have served me ever since I came among them, so that I fear I must retire into the next Government for relief, which will be an
eternal reproach to this Government, and the total ruin of me and my poor family. If these find your Honor at Boston and you shall think fit to intercede with our Governor and Council to provide for me till you come, I shall be very glad to see you here, but without your letter cannot hope to be so happy. I have made use of my witts to live hitherto, but now am at my witt's end. Starve nor dig I cannot, and beg I am ashamed. I humbly entreat your honor to peruse the inclosed and forward them according to directions. These with my humble respects are from

Honorable Sir,

To Hono’s Society de propaganda &c  

We whose names are here underwritten Vestrymen and Church Wardens of the precinct of Chowan in the County of Albemarle in the Province of North Carolina do for our Selves and on Behalf of the Rest of the Inhabitants of this said precinct in a most Grateful Manner, Return our hearty Thanks to the Hono’s Society &c. for their great Care of our Souls’ Health in Sending over Missionaries to preach the Word of God and Administer the Holy Sacraments among us. We and the whole English America ought to bless and praise the Almighty for having put it into the Hearts of so many Honorable and Great persons to think of their poor Country Folks whose Lot it hath been to come into these Heathen Countries, Where we are in Danger of becoming like the Indians themselves, without a God in the World.
We of this precinct: with the Rest of the Govern' in particular have been for some time happy in the pious endeavours of divers of the Clergy Miss' and others who have Set up the Worship of God according to the Church of England by Law established amongst us. but by the poverty of the Country, Unsettledness and Opposition of Sectaries. We never yet were able to make due provision, for those of that holy Order, which hath We fear been the Occasion of their short Stay with Us. None of them ever abode so long here as the Reverend M' Urmston hath done. Yet have not been So happy in him neither as We would have desired, by reason that for the most part, there hath been no other Minister in these parts Since his arrival; and seeing the Confusions and Distractions of this Unhappy Colony, were so great, the opposers of the holy Church so numerous and their Endeavours to subvert the same indefatigable, he hath made the other precincts Sharers with Us in his Ministry. His great pains and unwearied Dilligence to keep together those of our Church, hath had good success. and will undoubtedly be very acceptable to the Society. It were to be wished he had met with due Encouragement proportionable to the great Fetagues and hardships, which he hath Undergone, but fear he hath failed thereof. We of this precinct allowed him according to our first act of Assembly in Favour of the Church of England, [which was not obtained without hard Struggling] 30£ p' annum, for the first year, and half hoping the other precincts where he officiated would have done the like. We cannot say we have fulfilled our promise. As for the two years last past he hath been prevailed with, and indeed Necessitated, not being able to travel any longer about the country to confine himself to this precinct, where his Residence hath constantly been. We have a large parish, many poor inhabitants, and those Seated at a great Distance from each other. passages very uncertain by Reason of a broad River, which runs through the Heart of the Parish, near 100 miles in length. and in many places broad. and but one sorry Church on the North Shore of the Sound never finished, no Ornaments belonging to a Church. nor wherewith to buy any except the Bounty of the Hono're Col Nicholson Viz' 10 pounds, part of the 30£ given by him when Gov' of Virginia to three Parishes of this County which is not yet expended for want of an addition according to the Intention of the Donor, parsonage House and Glebe we have none, nor a School: The first Library of great Value Sent us by the Direction of the Reverend Dr Bray. thro' an unhappy inscription on the Back of the Books or Title page. Viz' Belonging to the parish of S' Thomas of Pamlico. in the then rising but now miserable County of
Bath falsely supposed to be the Seat of the Governour was lodged there, and by that means rendered useless to the Clergy, for whose service it was chiefly intended, and in what Condition We Know not. We fear the worst by Reason of the late war. The Library, sent in by Mr. Gordon was all left with Mr. Wallace late Minister of Keketon in Virginia Save Witby’s Annotations on the New Testament, 2 Vol. fol and Pearson on the Creed, which we have, the said Mr. Wallace upon due Application refused to deliver the Books, without an Order from the Society or Mr. Gordon. There were missing Collection of Cannons. Peveridge on the Catechism Bennet ag' the Quakers. Lucas of Happiness 2 Vol. 8vo. Eachard’s Ecclesiastical History fol, and now the said Mr. Wallace is dead we fear the like ill Fate may attend the rest. those Charity Books to the value of 5 lbs the generous Gift likewise of the Society have been since Mr. Gordon’s Departure, disposed of as was intended. What relates to the other parishes, within this Government, we presume will be laid before the Society by their respective Vestries, their necessity We believe to be great, but being under the like unhappy Circumstance beg leave only to supplicate for ourselves, and to pray the Honorable Society to continue or rather add to the Salary of Mr. Urnston to the End he may be enabled to stay with us, and that they will out of their great Charity concur with our Honest but weak Endeavors to establish a Church, Ministry, and a School, with the allowance of 10 or 15 lbs per Annum to a person whom We shall make Choice of to teach our Children in this parish and we shall be bound ever to pray that God All mighty may increase their Store and Strengthen their Hands in the carrying on the great Work they have so piously undertaken, and may meet with happy Success in that their Glorious Design.

So prays

Your most obliged poor Counrtynmen
of the Vestry aforesaid.

To the Honorable Coll. Nicholson
Honoured Sir

The Reverend Mr. Urnston having acquainted Us with your Honorable Intentions towards this poor Country particularly Us of this parish and the Continuance of your Generosity to usward.

We humbly pray your Acceptance of our unfeigned thanks for all your Favors. Hoping We have complied with the Orders of the Holy Society in the enclosed. We humbly beg your Honorable would pleased to
concur with our Request to the Society and promote the Interest of a poor Country which you seem to wish so well. Your presence here is very much desired, all honest men and Friends of the Church are big with Expectation of the great Influence your good Endeavours may have over us all, to confirm and make all the Members of our Church adhere more Zealously to the Interest thereof.

Silence the Gainsayers and reduce the Authors of our late Confusions to a due Obedience to all lawfull authority in Church and State.

These with all unfeigned and humble

Respects are from

MR. RAINSFORD TO THE SECRETARY
CHOWAN N. CAROLINA March 30th 1714

Worthy Sir

Since my arrival here I have writ several letters to the Society according to their directions half yearly & particularly relating to my Mission
and proceedings in this Government. I can't suppose my letters to have miscarried by reason of my Bills being protested by the Treasurer as soon as exposed to view I can't but think this is severe usage considering the inexpressible hardships and inconveniences it exposes me to I need not tell you that neither Mr. Urnstone nor myself has ever received anything by way of support by the contribution of the Inhabitants but my own particular losses have been considerable in this Government whether I respect the horses I have lost here the great expenses I have been at for a guide to inform me in the road (which has been no less than £20 yearly) my everlasting fatigue in going by water and hiring hands and now the great misfortune of having my Bills protested. This last particular had almost ruined me by destroying my credit which has been upheld ever since my arrival by that worthy Gentleman Mr. Edmund Kearney out of profound respect to the Society and now this every thing not only exposes me to want but even to the dangers of a Gaol—The fatigue of being an itinerant I am not able longer to undergo and have accordingly quitted the 25th of this instant the Society's employ I designed instantly home but can't possibly leave America till Mr. Kearney is every satisfied for the same he has lent me—

It's well however known to the Society that I left an excellent cure in England—That I came here not out of necessity but choice not for interest but conscience when I entered into their employ and I had rather serve the Society 7 year gratis than to let this Gentleman suffer for his undeserved civilities I am now with him in order for Virginia where I shall supply some vacant Parish till I receive an answer to this and accordingly have sent those two Bills a second time which have been once protested hoping that Hon'ble body will consider my condition in so remote and helpless an abode and pay them now punctually to Mr. John Porterfield that I may be easy under these heavy and almost insupportable circumstances I have put the two forty pounds bills into one Eighty pounds that it may be less troublesome to the Treasurer—There is this last half year due to me still with the preceeding half year that I have not heard of tho' drawn for this I shall omit drawing for till I see Col Nicholson who is expected in two months time I formerly mentioned my readiness to serve the Society in any other part of America except this of North Carolina provided I may be a settled Incumbent and have no greater difficulties to grapple with than the rest of my brothers employed in this service I now sincerely offer myself to any place the Society shall please to appoint me I have faithfully and conscientiously discharged my duty during my continuance in these parts and at the first return to
answer to this shall go to Britain unless the Society disposes of me as I propose—

The Colony is now at peace the whole body of the Indians being entirely destroyed—I never yet received a Book of Mr. Adams's Mr. Sanderson who had them at his death having disposed of them to those who neither will use them nor return them Madn. Hyde sold me all the Societies Books committed to her care for Eggs Butter &c. when they were to be disposed of gratis according to the interest of the Society—

I can safely say that my lodging for the best part of my time in this Government was in an old Tobacco house & exposed to even in my bed the injuries & violence of bad weather with infinite other inconveniences only to settle myself where I thought I had an opportunity of doing most good.

Mr. Urmstone told me he immediately designed home soon after the arrival of Co[n] Nicholson and truly I don't see how the country any way deserves a Missionary among them for behave yourself with the greatest caution and reserve and shew the fairest example of a Christian life yet notwithstanding they'll traduce slander and bely you and if you seriously tell them of their faults they'll not only absent themselves from Divine service but as much as in them lies hinder others from the performance of what God and religion require at their hands I once more entreat your Venerable body the Society that my Bill may be paid in order to my future quiet and I shall ever acknowledge it to be highly charitable and condescending in them for so distinguishing an act of their bounty and goodness shown to their Missionary as well as most grateful most obliged thankfull

humble servant
GILES RAINSFORD Miss:

I formerly writ to be discharged from this cue and if the Society took it into consideration as I suppose they did and discharged me at their Board there remains my bounty of a years salary (as appears by their collection of paper) which I presume is intended to carry me home

MR. URMSTONE TO GENERAL NICHOLSON

North Carolina April 12 1714.

Honored Sir

As soon as possible after I was favoured with one from the Society inclosed in your honor's I sent to the several Vestries within this
wretched Government in number seven and exhorted them to lay hold of
this opportunity of obtaining Missionaries and School masters which are
much wanted—I know not how quick they may be in complying with
your commands if know them I am not apt to believe they’ll not be over
forward, such slow bellies to all that concerns souls health: most here
had rather be without them. I am sure they are not worthy of any
and were their usage of me known I am persuaded none would be so
mad as ever to come among them they’ll neither pay Minister nor School-
master nay they had need to be hired to go to church or send their chil-
dren to school I and all my predecessors have been laden with calummys
reproach and scandalous falsehoods instead of wealth nay having had the
hard fortune of staying against my will longer with them than any of my
function ever did—I find them more prone to take from us by fraud and
extortion what we bring with us and seem unwilling we should live
though at our cost by them—

I cannot but wonder the Society should want to be informed about the
state of this sorry country since I have sent them so many and such dis-
mal accounts of it I fear I have been abused for my custom hath
been to send my letters open to a certain Member of the Society who
either hath not delivered them or else they were not believed I have often
prayed for a removal or rather leave to go home and had I been able I
should long ’ere this have left the place ’tis very grievous to live in so great
want of food and raiment and indeed all necessities, to hear the com-
plaints of a poor Gentlewoman I brought from her friends who had she
not been my ’wife would never have endured so much baseness and above
all things the continual danger we have been in a long time of being sacri-
ficed by the Indians, frightful reports of daily murders committed in the
neighborhood—I bless God we have escaped with our lives but have suf-
f ered more than any other family in the Government for all that lost either
houses goods or provisions were relieved and taken care of whereas we are
neglected I have frequently begged both in public and private for
relief if not allowance as their Minister at least their charity as a chris-
tian and Inhabitant but it availed nothing; many would say why did I
not labour & make corn they saw no reason why I should not work as
well as they.

I cannot see how it will ever be possible to settle a Ministry here the
people live so scattered and remote the Parishes so large that they can-
not be supplied without much labour and charge—I have been open
exposed to great danger and a great expense and at last bought a couple
of Negroes and a canoe in order to serve my cure and forced to hire a white
hand to teach them as well as make them work, weary of that charge I
resolved to buy me an English Servant was cheated with one by Thomas
Jones who out of pure kindness spared me one whom his brother had
tried for 8 months and not being able to manage him let me have him
for £14 Sterling he could not have found such another villain in all
America he first robbed me and at 3 weeks end ran away—I sent after
him but cannot hear of him—This is the 4th white servant I’ve lost since I
left England I was most abominably cheated with a Negro who died
within ten days after I bought him—I’ve been very unfortunate in cows
and horses my Salary spent in Bills the worst way of improving it; My
attorney abuses me has suffered two Bills to come back protested and I
fear will serve other two which I since drew upon him in like manner,
so that I shall be very miserable, nothing coming in from the Country
nor credit—

We had great plenty of corn wheat and Porke and hoped I should
have had a little of each if I had not employed my hands in the service
of an ungrateful people I might have had grains of all sorts. I prest the
vestry to meet me and provide for me in time but could not prevail til the
arrival of your honor’s letter and then ’twas with great difficulty after
six voyages and ten days spent myself and hands attending upon the
Gentry: some were for allowing me nothing, others said it was too late,
the people having disposed of all the provisions they could spare—They
agreed upon an answer to your Honour and the Society ’tis ordered to be
written over fair I guess by Christmas next twill be ready to send, I
would have inserted their treatment of me it might perhaps have been
encouragement for other to come from England, I do not suppose they’ll
let me see much less sign it—They do not allow me to sit in Vestry, at
my first coming I prevailed with the Assembly to make an act for establish-
ishing the Church but was not consulted about it The former act offended
the Society in reserving a Power to the Vestry to turn out and hire Min-
isters at pleasure.

I think this is of worse consequence for now they are at their liberty to
allow any thing or nothing and accordingly the purpose to serve me—
CoⅢ Hyde engaged this Parish to pay me £45 for the time past to Christ-
mas 1711 tis not much above half collected and of that I have received
£11 odd shillings they promised me £60 per annum ever after but now
will pay me nothing—a year hence we may have another Vestry and
then the Sheriff must account for his mismanagement—If I have no
goods from England this spring I know not what will become of me—
Mr Rainsford acted very unfair; he would have forced me out of this
Parish, no other place would please him he offered to serve it gratis and told the people the Society did not expect the country should allow any thing, that doctrine was very edifying but in a short time he became as contemptible as he endeavoured to render me he is now in Virginia but will not be entertained. Reckston and Nansimond rejected him I am told the Governor has threatened the latter to compel them to receive him.

I acquainted your honor in a former if I mistake not that the Library my Predecessor M' Gordon should have brought in was left with M' Wallace of Virginia he is dead and I fear the Books will be lost—I have desired an order more than once from the Society or M' Gordon to demand them but have no answer from that or a thousand other things very material relating to my Mission; surely paper and ink must be dear in England The Vestry of Coratuck where M' Adams late Missionary died detain his Books on pretence they were at some charge in fetching them out of Virginia and will appropriate them to that Parish where no Minister will scarce ever reside. The famous Library sent in by Dr. Brays directions is in a great measure destroyed I am told the books are all unbound and have served for some time for waste paper.

I humbly beg of your honor to order £20 Sterling to be laid out as follows and sent by the bearer and I'll send you my Bill upon the Treasurer viz. Sugar the best sort—Molasses and Rum of each a barrel, the best pale or slack dried Malt a hogshead with hops proportionable the three former are as precious here as gold of Arabia with them I can buy Provisions—I shall want 3 or 4 Sickles a gallon of the best sallet oil Nutmegs 2 ozs. M' URMSNTO TO THE SECRETARY.

NORTH CAROLINA June 12 1714

SIR

You say in yours of Dec' 18 1713 which came to hand two days ago that mine to Mr Hodges dated Oct' 22nd 1712 was at last communicated to the Board. I wonder what has become of divers older as well as fresher date of far greater moment. I gave bond for the books which M' Gordon should have brought me but left with Rev'd M' Wallace late Minister of Richetan on James River Virginia where greatest part of them still are. I did indeed after the decease of Mr Adams demand his books but was denied them and so will every one that is not musket proof—the Vestry pretend that they are appropriate to that Parish so that I believe neither Society nor their Missionaries will ever be the better for them, they'll do by them as the gentry of Bath have done with that famous Library the Rev'd Dr. Bray sent in here as of £100 value—make waste paper of their Books rather than the clergy have them such is their esteem of our functions in all other respects were it in their power they would deprive us of food and raiment too—I and my poor family are brought to that pass: I brought £50 worth of Books with me, they are mostly destroyed in the way & through want of safe custody apparel & necessaries we had sufficient but now being forced to sell our bedding cloths off our backs & all the movables we could spare for a little provisions—we are destitute of goods & naked & instead of Books I've gotten a parcel of Tools fit for all trades set up for my Library which I am forced to make as much use of as I should do of Books had I leisure contempt enough without any fault of mine I call God and all good men to witness: but such is the fate of the greatest part of the Ministry,
thanks to the mismanagement of the reformation and the worldly mindedness of too many who have the good fortune to know the great Men and some by merit but more by indirect not to say unlawful ways have attained to great preferments yet the contempt brought upon us the inferior rank reaches unto them their pluralities of fat benefits does not screen them from partaking with us but they can better bear it—Nil habet insese divirus Paupertas—

You say complaint has been made that some indiscreet & negligent actions have exposed me to the hatred and contempt of the people. it is no wonder for, 'twas so from my first setting my foot into this wretched hole 'tis well I have any discretion left since I am almost bereft of the little sense & reason I was once Master of, my sacred character is sufficient to draw hatred & contempt upon me from a pack of profligate & loose people & zealous sectarists whose whole endeavour it is to load me with reproaches—This colony chiefly consists of such our Vestries not excepted, however I procured after 7 months entreaty many long & tedious Journeys & voyages sometimes 3 or 4 days abroad with 3 servants divers appointments & as many disappointments I got I say 7 of our Vestrymen together at last who persuaded with much difficulty to draw up an account of the state of this Parish which had not been obtained did not they fear Col' Nicholson would come in and be displeased with them at the request of the s' Coll I communicated both this & that from the Society to all the Parishes within this Government but hear not of any thing done save in my Parish the great reason of our Vestrymen their unwillingness was fear of being obliged to do some thing for me it being then pay time & great plenty of all sorts of provisions yet pore was put by, neither the £45 ordered in Dec' 1714 & then due nor any thing from the time since that could be obtained nor ever liked to be they were forward enough to magnify their poverty & beg further assistance of the Society but in very deed worthy of none—These Vestrymen you'll say, can be no better than enemies to me, nay two of them were professed anabaptists & 3 vehement Scotchmen Presbyterians one descended from Quakers & I believe never Baptized & still I suspect no friend of the Church yet these very men in their said account will take all such accusations alleged against me, tho' unjust in all other respects yet have done me that justice even before I know I was accused I cannot but lay it very much to heart that the Society to harken to the complaint of some idle person & so regardless of the repeated requests I've made for their assistance and directions in many difficult cases & the frequent dismal relations of my misery which increases daily upon me; I am now in
manifest danger of starving for want of bread & except am relieved as soon as the wheat is reaped I know not what to do: the sloops from N. England sweep all our Provisions away.—We have twice as many vessels this year as ever were wont to come, there are above 7 now waiting like as many vultures waiting for our wheat & more daily expected, they sell their goods at exorbitant rates & thus we are rendered poor no marvel I suffer then for come what will out, let who will go unpaid, Rum long sweet'n alias Molasses glyst' Sugar must be had—I've nothing to buy any thing with but Bills: £20 in English goods would do me more good than any years salary in this way of managing but how to come at that now I know not since we are not allowed attorney—I had one as I supposed a Friend but the worst of Enemies, sent me but one remittance since I left England but never was worthy to know what nor of what value till the other day when in a huff by reason of my complaint of ill usage he has sent an account of all his management—I could not so much as hear from him; he charges me with the postage of a multitude of Letters—I never wrote to him but sent one inclosed to some of the Society but fear they were not all delivered he paid what Bills he listed & has sent others back protested which puts me to an unnecessary charge and endless shame and disgrace; for want of goods I've been forced to draw upon the Treasurer supposing my friend to be dead; he said he could not supply me by reason of my salary was not duly paid, once stopped because I had left my cure and again for drawing upon the Treasurer what must I do in such case: I've drawn more than my Salary will pay by Michaelmas next—my plantation must be paid for or I must turn out and whither to go I know not I have not a morsel of either Pork or Beef against Winter nothing to buy with nor can I draw hard fate. will nothing draw compassion? I was not sold a slave to Egypt nor yet deserved to be banished to the Gyaril. must I make brick without straw & my task be increased: I hope for Milder Task Masters—and after all my unparalled hardships & fatigues for 4 years together be still told that I am idle & negligent of my cure I challenge all the clergy in the Church to equalize what I have done & suffered for so long time together if I continue here I hope for better encouragement as if I fail therein & am forced to come home—care will be taken of

M' MILES GALE TO THE SECRETARY

Hon'ble Sir,

Your letters received from his Excellency the present Govr Eden and my Eldest Son Cr. Gale. I sent for Son Tho: to come over and resolved either to go into the West Indies (as kindly invited both by the Governor and his Eldest Brother) or write his Excuse, he has chosen to do the latter. The work is of that nature, as I was no hindrance to his going & could wish to go myself (tho' now aged 67) rather then Heathenisme, or any other Schism from the Church of England should prevail, 3 of my Sons upon their own choice have gone to Carolina, where two of y' are well married and one dead. I have made all the Enquiry in my power after some to go as Missionaries, they like the terms but dread y' voyage and the heat of that climate. I heartily wish & hope Religion may be taken care for in that Heathenish Country, by those in whose power it is—desiring my Service may be acceptable to y' Hon'ble Soc'y praying for all your healths and happiness I conclude Worthy Sir

M' MOSELEY TO GEN' NICHOLSON

CHOWAN, N. CAROLINA 15th July 1714.

The laudable designs you have constantly pursued of advancing the Interest of the Church in America among other matters of your great intentions for promoting that Service led you to bestowe of your own generosity the Sum of Thirty pounds to be distributed in three of the precincts of North Carolina which you lodged in the hands of Mr. Walker my predecessor at my intermarriage with his Widow I found the money had not been applied by reason of his Death soon after your gift tho' he had taken care to have it mentioned in the Vestry book of this precinct that the part belonging to it. viz. Ten pounds should be laid out for a piece of plate for the communion Service, mentioning the Donors gift and I persuaded myself the like care was taken by him in the other two precincts Poquimans and Pasquotank tho' I cannot learn there is anything appears on their Books.
I have paid Pasquotank precinct who have misapplied the money contrary to your Excelleney's intentions by parting with it to satisfy, such Engagements as the produce of our Country would have been sufficient for, viz' some debts and howe to raise so much plate at present they knowe not what measure to take.

The same steps were begun by the Pequimans, and I fear the Chowan money, but I lodged it in Mr. Pere Dummer's hands of Boston towards procuring Church plate where at present I find it lies to wait Y' Excelleney's further orders altho' they have constrained me to give orders for the removale of the money without any apparent intentions of applying it to the uses you so generously proposed. For those reasons I have presumed to trouble your Excellency with these few lines to request you to give your orders to Mr. Dummer to send it to the precincts of Chowan and Pequimans in such plate as you shall please for the service of the church as you designed it he has my letters accompanying this to observe your orders for that purpose which if you do not or order I can hardly think the Church will be the better for so pious and charitable a gift. Begging your Excellency's pardon for the trouble I give you in perusing this Scrawl and leave to present Your Excellency my hearty Sincere thanks for the favours you are pleased to show me when in Company Quarry I waited on Your Excellency in your Government of Virginia I crave leave to subscribe myself &c

COL SPOTSWOOD TO LORDS OF TRADE

July the 20th 1714

My Lords

Your Lordships will recieve together with the Duplicate of the Laws and Journals of the last Assembly the proceedings of the Council and proclamations since my last letter upon which I shall only give your Lord's the trouble of one Remark that finding the Government of Carolina continue to make surveys within and even beyond the contrverted bounds and that on their encouragement great numbers of loose and disorderly people daily flocked thither who would be restrained by no orders from trading with the Indians I proposed to that Government
the running both the lines in dispute, and removing all persons that had settled between those Boundary as being seated there without any lawfull authority: and because it would be most convenient that each Government should be at the expense of running that Line next to its own Inhabitants, I undertook the running that Boundary next to Virginia which the Proprietors claimed, at the charge of this Government provided they would be at the charge of running the other claimed by Her Majesty: but tho (in pursuance of the resolution of the Council in that matter the 30th of March last) I have already performed my part the President of Carolina alledging for his excuse the expectation of a new Governor did not think fit to take any measure for performing them I have since seen Mr. Eden who is appointed Governor of that Province and find that he has no manner of Instruction from the Proprietors concerning the Boundaries: and as to the Proposal of marking out the Southern Boundary he has delayed giving me an Answer until upon consulting with his council he shall inform himself of the nature of that dispute If he should likewise refuse, I have determined to run that line also as soon as the woods are practicable and then to remove all the People seated within those contraverted bound which will be the most effectual way to bring that dispute to a speedy determination, it being now the Interest of that Government to delay it since by disposing of the land and receiving the Quitrents they reap the same advantage, as if it were actually adjudged to be their property and so unfair hath Mr. Moseley and the other Surveyors of that Province been that tho they pretend no further than a West line from the mouth of Nottoway River, yet upon making out that Line I find several people seated even to the Northward of it who had their Lands by Carolina Patents

A SPOTSWOOD.
REPORT OF THE ATTORNEY GENERAL TO LORDS OF TRADE.

22 July 1714.

To the Right Hon[ble] the Lords Com[mittee] of Trade & Plantations
May it please your Lordships

In obedience to your Lord[ship's] Commands signified to me by Mr. Popple I have considered of the several papers transmitted to me & herewith returned And your Lordships having demanded my opinion to your returning an Answer to the Order of the Lords of the Committee of the Council dated the 5th day of June last whereby your Lordships were desired to examine & inform yourselves how and by what Grants or Authorities the Plantations in America do claim the liberty & power of making Temporary Laws to continue in force for so short a time whereby her Maj. prerogative of approving or disapproving such Laws is evaded and to propose to that Committee what methods you shall judge most proper to be taken in order to the setting aside those practices so prejudicial to her Maj. interest and the trade of her subjects And I do most humbly certifie your Lordships That as to such Laws which are made in Her Maj. Plantations not granted in property to any Subject, the mischief complained of may be prevented by her Maties Instructions to her Governors thereof And there is already among the Instructions a copy whereof was sent me a full Instruction for that purpose And therefore all that I conceive necessary to be further done as to them is to require a due observance of that Instruction by her Maties Governors.

As to Laws to be made in the Proprietary Plantations I am of opinion that mischief cannot be remedied there but by Act of Parliament of Great Britain, for that the Proprietors thereof have a right vested in them of the power of making Laws granted by their charters and are not nor can now be put under any other restraint or regulation than such as are contained in their respective charters but by Act of Parliament.

All which is humbly submitted to Yo' Lord[ship's] great wisdom

May it please your Excellency

I received yours by Capt. Dimming with her Majesty's speech to this parliament for which return you my humble thanks. Gov'r Eden arrived here last May all being in peace and quietness only one or two small parties of Enemy Indians that continue to do mischief on our Frontiers Col' Carey is gone for the West India's but intends to return again this fall.

The Church Wardens and Vestry of the precinct of Chowan desired me to send the two enclosed to Your Excellency and indeed we have very great want not only of Schoolmasters but also of Ministers, for Albeit Dr. Urnstone hath continued among us ever since his arrival he hath had little encouragement yet Dr. Rainsford hath been very little time in this Country only about two or three months, about the time I receiv'd your first letters but hath continued all in Virginia so that he deserves nothing of the Society, that wished for success may attend all your noble and glorious undertakings shall be earnestly desired.

NORTH CAROLINA, Aug. 7th 1714

Sir

During the last half year the State of Religion is much the same changes for the better are not easily brought about the people are daily more unkind—I've baptized 59 whereof two were adults—We have not had the Lords supper administered in public during that time I have some hopes of better things in many respects thro' the endeavours of an honest Gentleman our nowe Governor he seems resolved to promote the Church discipline being a strict observer thereof himself. He must expect to meet with many difficulties some insuperable—I wish a letter were sent to him, it would be of .... use—he purposes to redress many of my grievances which will render life more comfortable I am sorry we are not like to see Co1 Nicholson here—if a Bill for £14 payable to Tho' Jones of Virginia be unpaid I pray it may never be paid thro' the perfidious dealing of my agent at London I worse than I thought for, in want of many things but must not draw if my Salary had been duly paid and invested in goods I had been one of the richest in this famous Colony whereas I am nowe the poorest—£30 in goods would have done me more good than thrice that has, being forced to give 4 or 5 hundred @ cent for all what I give Bills for I have not received the Catch2 sent by Mr. Rainsford—He never disposed of gift Books valued £5—He made more by his voyage & years Salary than I've done these 5 years and never did anything for it—a handful of Indians who would not come into the treaty with the rest have spilt more innocent blood than all the rest & we cannot cause our men to go against them nor willingly pay those that will, they rove from place to place ent of 2 or 3 Families today & within 2 or 3 days do the like a hundred miles off from the former they are like deer—there is no finding them. We have men out after them to sue for peace—I am Sir &c

REPORT TO THE 1st OF THE COMMITTEE OF APPEALS FROM THE PLANTATIONS, IN RELATION TO TEMPORARY LAWS PASSED THERE. SEP. 2nd 1714

To the Right Hon'ble the Lords of the Committee for Hearing Appeals from the Plantations.

May it please your Lordships

In obedience to your Lordships Order of Reference, of the 5th of June last, directed Us to examine & inform Ourselves, by the best means We can, how and by what Grants or Authoritieys the Plantations in America do claim the Liberty and Power of making temporary Laws for so short a time that the Prerogative of the Crown for approving or disapproving such Laws is evaded; and to propose to your Lordships what Methods We may think proper for setting aside those Practises; We have considered the same, and also had the Opinion of his Majestys Attorney Genl therein, Whereupon We humbly take leave to represent to your Lordships,
As to the Laws to be made in the Proprietary Governments, We are humbly of Opinion that Mischief cannot be remedied there, but by an Act of Parliament of Great Britain For that the Proprietors thereof have a Right vested in them, of the power of making Laws granted by their Charters and are not, nor can now be put under any other Restraint or Regulation than such as are contained in their respective Charters, But by an Act of Parliament.

As to Pennsylvania, We are informed, Directions were given for perfecting the Agreement with M' Pen, and for preparing an Act of Parliament, to supply his incapacity, and to alter the Method complain'd of as to temporary Laws; and the time limited for transmitting and approving Laws made there; But during the last session of Parliament, a Bill for that purpose could not be settled in regard of some Differences between the Mortgagees and the Family of M' Penn.

We humbly take leave to represent that there is not any obligation by Charter to return the Laws made in the Proprietary Governments of Carolina, Connecticut and Rhode Island for the Approbation of the Crown, and therefore We think it necessary that an Act of Parliament be pass'd to oblige them to transmit their Laws and to have them submitted to his Majesty's approbation.

All which is most humbly submitted

NORTH CAROLINA Sep 22nd 1714

Sir

Since my last my hopes are blasted: We were then going to have an Assembly from whom thro' the Governors assistance I expected some redress of the many grievances I've formerly laid before the Society the loss of Bath county if not the whole Government is threatened, to prevent which our honest Governor was wholly bent but after near a fortnights time spent to no purpose he was forced to send them home—We
daily hear of families cut off & destroyed 'tis difficult to raise men to secure the frontiers but more difficult to find provisions to subsist them, the Northern Indians Seneca's I think they call them, are designed speedily to join our Enemies which if true will complete the ruin of this wretched Country—Our confederate Indians seeing we are not able to vanquish such a handful daily desert us to join them & by the unwillingness of the rest to go out with us against them according to capitulations we may too justly fear they'll break peace with us & having experienced the cowardice of our Quakers & there adherents who like other sectarists never care to fight except it be against the Church & Crown the Indians will not daily nor trifle with us as they did at first.

We expect to hear that famous city of Bath consisting of 9 houses or rather cottages once stiled the Metropolis & seat of Government will be totally deserted & yet I cannot find means to secure that admirable collection of Books sent in by the Rev'd D'r Bray for the use of the Ministry of this Province but it will in all probability serve for a Bonfire to the Indians—these Indians who do us all this mischief were at first but a handful about 30 in number the remains of 3 small nations who were cut off & taken by the forces from South Carolina who meeting with little or no opposition increased daily so that now we are forced to sue to them for peace but fear we shall not obtain it—These are from

NORTH CAROLINA October 20th 1714

May it please your Lordships

— had no particular comands nor instructions from the [Lords Proprietors Board save that by General Nicholson, now no answer [fro]m the Board nor your Lordship of my letters gives me occasion to doubt that my letters miscarried and came not to hand. Wherefore thought it my duty, to justify myself not to be guilty of so great a neglect. Governor Hyde deceased Sept 8th 1712, and I entered on the administration Sept 12th; since which time have sent two to your Lordship in each of which enclosed a letter to his Excellency the Palatine and rest of the Lords Proprietors, under a flying seal for your Lordship to
peruse. My first letter to you dated Sept 20th 1712 (a copy whereof is enclosed) I delivered myself to Baron Graffenreid, who was then going to Virginia; and he told me that the Governor of Virginia took care —— his letters to London with his own packets, and that there was no —— they would come safe to your Lordships hands. —— second letters, dated April 2d 1713 immediately after the taking great Indian Fort I sent into Virginia, and know they came to Baron Graffenreid who was then in Virginia I would have sent your Lordship copies of all, but the state of affairs being much altered, and they being long, thought it not worth while to trouble your [Lordship] with them. What reason Baron Graffenreid to conceal [or] keep up my letters, I know not. I took him for a man of honour and integrity, but have found the contrary to my great loss.

The land I mentioned in my other enclosed to your Lordship, I reserved [and kept clear from being taken up by any other person so long as I had the power, expecting to have heard from your Lordship. But now the power being taken out of my hands, and a new General surveyor appointed, I know not how it may be. I have not been wanting, neither in person nor estate, to the uttermost of my power for the safety of Her Majesty's subjects here, and defence of this your Lordships country; which, it hath pleased God hath not been unsuccessful, the fire of difference and division amongst the people being in a manner extinguished, most of our Indian enemies killed, taken, submitted or fled, so that there is but about forty or fifty enemies left that we can here of. The Quakers, though very refractory and ungovernable in Mr Glovers and Governor Hydes administration, yet since I have concerned, must needs acknowledge they have been as ready (especially in supplying provision for the forces) as any others in the Government. If your Lordship think convenient to procure the Surveyor General's place for my son, I shall take it as an extraordinary favor; and if any ways I can be serviceable to your Lordship here, you shall need but to command who most sincerely is

M'Rainsford to the Secretary

Pastotank 19th Jan' 171 [5]

Worthy Sir

I rec'd both your letters but that of the 18th Decemb' came to hand but November last I am extremely concerned at the mortifying consideration of my obliging the Society in the business of M'R. Ward & Quigley should I go about to lay before you the many advantages they made of my necessity the compass of a letter would not be sufficient to unravel the several items of their extortion but I am in some measure satisfied with the care consideration of what penance I inflicted on myself for so unwise and so unwarrantable a practice the fault I hope is not unpar- donable with the Society since this acknowledgement of my guilt may wipe away the stains of a reproachful Crime the pure effects of my necessity durum dum necessitas, I found a true saying in the very instance before me, however I'm thankful to you for the kind reproof which was done as the apostle enjoins in the spirit of meekness and forbearance as to the present state of the Government the Indian differences are all com- posed and Peace and Quietness seems to flourish in our land. You are pleased to give me an account of Fifty one pounds and ten shillings due to me at Xmas 1713 I have drawn for the Eighty pounds Sterling some time since which was formerly protested in 2 forty pound Bills and should this meet with the same fate I cannot tell what will become of me But the consideration of the last Standing Ord* made by the Society relating to Missionaries Bills forbids me to suspect any such proceedings I have now drawn on the Treasurer for £12 5s S* which Sir I hope you will add this one trouble more to the rest you have undergone for me of seeing it paid. Protesting of Missionaries Bills when the Salaries due to 'em brings great scandal on the drawer and makes us little in the eyes of these prying animals.

I have been five months together in Chowan Indian Town & made myself almost a Master of their Language & therefore upon my hearing of the Gov' of Virginia's project of settling of 4 Nations of Indians at the head of Meherring river, I offer'd myself as Missionary to 'em with the proposal of having one hundred pounds sterling yearly paid me for my trouble 'Tis thirty miles beyond Inhabitants, & the great good I may do, thro' Gods Fatherly assistance among those unenlightened creatures may redound to Gods great Glory and my Comfort. I have enclosed the
Gov't of Virginia's answer to my letter and hope to meet some Encouragement from the Society in relation to this affair......Charles Eden our new Gov't tells me he'll acquaint the Society in this opportunity of a passage home, of my behaviour and deportment since his arrival among us & how indefatigable I have been in that grand Concern the Care of Souls, so that I need say no more on this head but leave it to his report. I shall only add that I have brought over to the Church one Patrick Lawler on Bennetts Creek from a Rank violent Papist, to a Sound Orthodox Believer I have Baptized upwards of 40 Negroes in this and the Neighbouring Governm't in the compass of this past year Besides (wth is almost an impossibility here) Christened 8 children of one Peirce a Quaker's by the consent of the mother tho' seemingly of that persuasion—In Nansemond County bordering on Carolina, I have sav'd upwards of 200 Souls from embracing Quakerism by my Preaching & conference among 'em & have made y't ignorance of their great Apostle Joseph Glover a dispute appear to whole Multitudes & yet their prejudice to our establishment is such y't I fear there is no possibility to win upon 'em—I found myself obig'd in conscience to continue for some time with these People, by reason of their lukewarmness & indifferency to our own constitution; but by my constant catechising & teaching they are become tolerable proficient in the knowledge of y't Gospel—This very action occasioned Mr Urston's Report of me y't I do not altogether continue in y't Government I was appointed to, whereas my commission from Mr. Chamberlayne was to be a general Itinerant in this Colony, but if I see a Sheep going astray in y't wide wilderness I must not step out of my own Pasture to save it—Alas poor man! I never sold y't Societys Books for butter cocoa & eggs but made conscience of dispersing them according to y't true intent of y't Donors—I wish I had some small Tracts remitted me with Bibles & Prayer Books wth are very much wanting here—I sadly want Bennetts conflagration of Quakerism wth with the rest of his works—Jones's translation of Lunbarck to lend about, I cou'd wish for some good Discourses on y't Passion wth all the Sermons preached at Boyles Lectures particularly Dr. Bentley's Spark on y't festivals. these if stopt out of my Salary. I have not one of y't Societies collections of Papers, otherwise I shou'd take my measures according to y't instructions you were pleased to give me—I beseech you to pardon what is past & hope to meet suitable encouragement from y't Society (y't necessary reward of my future diligence) in all religious performances undertaken by St' Yours &c.

GILES RAINSFORD

Mission?
Mr. Secretary Stanhope to the Council of Trade.

Whitehall 23. Feb'y 1714

My Lords & Gentlemen.

I am commanded to transmit to you the enclosed Scheme relating to his Majesty's Plantations in America, and to signify to you his Majesty's Pleasure, that you take the same into your consideration, & how far what is laid down in it may contribute to the Improvement of the said Plantations, & report your Opinion thereof. I am.

My Loyal & gentlemen
your most humble and
most obedient servant

JAMES STANHOPE.

Of the American Plantations.

The British Plantations in America were but thin of people till the persecution of Dissenters in the Reign of King Charles the first, by which, and the Civil Wars, great numbers were forced to settle there.

When the Plantations had but few Inhabitants, Justice in Criminal Cases was administered by Marshal Law, and Cases Civil in a summary way.

On the increase of people and propriety amongst them, it was found necessary to establish a better method for their Government and the administration of Justice. To this end power was given by Letters Patents to divide each Colony into districts with Liberty to the Inhabitants to elect Members to represent them in a General Assembly (in the nature of a house of Commons) to consent to the passing of Laws, and the raising of money for the publick uses. And a Council of the Inhabitants was likewise appointed to assist the Governor (the number of which was usually twelve) and all Laws were to pass by the concurrence of the Majoritys of the said Council and Assembly, with the consent of the Governor. They had power likewise to erect such and so many Courts of Justice amongst them as they thought fit.

Pursuant to such powers many and different Courts were established in the several Colonys. Which being erected by Persons not knowing
the methods of administering Justice, and filled with Judges made of
the Merchants Planters and others in Trade and Commerce, and not
learned in the Law, Justice could not be so well administered by such
persons as if they had been more knowing, and less interested. And
such persons only are hitherto made Judges in the Plantations.

Courts thus erected and filled with such persons, tho' at first it might
be necessary, has in process of time produced many gross errors partial-
ities and delays in the administration of justice.

Many persons have withdrawn themselves, their Estates and great
stocks out of the Plantation Trade to prevent the wrongs which they or
their posterity might suffer for want of justice. Which Stocks if con-
tinued would have much encreased, if not doubled the Plantation Trade.

During the Reign of King Charles the second Little was done to
amend the administration of Justice in the Plantations or for the
Improvement and encrease of them, except some Acts of Parliament
then passed to retain the benefit of them from foreign Nations.

In the Reign of King William of Glorious Memory, a Council for
Trade and Plantations was erected with very good Power and Instruc-
tions which if they had bin well executed might have produced much
good.

ADVANTAGE BY THE PLANTATION TRADE

It appears by the Inspector Generals abstract that the Importations
from the Plantations have bin one year with another about a Million
Sterling £ Ann: And the Exportations from England to the Plantations
about Seven or Eight hundred thousand pounds.

The said abstract shews that in the year beginning at Christmas 1700.
(abut which time the Council of Trade was erected, the imports from
the Plantations were 1,226,701, and the exports to them 682,414, mak-
ing together 1,909,115. St Josiah Child in his printed book of Trade
affirms that the Plantations employ two thirds of our shipping, and did
thereby, and by taking of our manufactures give sustenance to near two
hundred thousand persons in England.

THE PLANTATIONS SEVERALLY CONSIDERED.

In order to the better Government and Improvement of the Planta-
tions, it is necessary to consider which of them are of greatest advantage,
and which of the least, or rather which are disadvantageous to Brittain.

By the Inspector Generals account to importations from the several
plantations in the said year 1700 stood thus.

By which it appears that our Sugar and Tobacco Collonys are of greatest advantage, and deserve most regard.

All our Sugar Collonys are Islands, and produce few things that England does, for which reason, and because they want manufactures, they are incapable of subsisting by themselves; and being under a necessity of being supplied from abroad, it is much the interest of Brittain to have it done from thence.

Virginia and Maryland are the Tobacco Collonys, their Trade being under some discouragements of late, they plant less Tobacco, and more provisions, and are improving in some manufactures. They may be capable in time of subsisting without any supplys from Brittain.

Our other Collonys on the continent of America are Carolina, Pensilvania, the Jerseys, New York and New England. These vast tracts of Land, and several of them, especially New England are much more populous than the other more advantageous Collonys. They produce most of the same things that England does, and are capable of subsisting without any dependence on it.

They supply our Sugar Collonys with provisions and some manufactures, which England formerly had the advantage of furnishing them. In return for which goods they carry back Sugar and other produce of the sugar collonys, which is consumed in the said Plantations on the Continent; and thereby the benefit that such sugar and other goods would bring us by their importation and exportation again in Forreign Trade is likewise lost.
OF THE PLANTATION COURTS.

It has been observed in what manner the Courts of Justice were erected, and what sort of persons were made Judges in them.

The Laws and establishments of the Courts being different in the several Collonys, a particular and distinct account of each of them would be too long to insert here. Here follows the state of one of them in one of the collonys, by which and some observations thereon, the condition of the rest may be conjectured.

In one of these Islands (not so large as some County in England) there are usually about one hundred and fifty Justices of the Peace. Nine Courts of Justice for Civil affairs, besides the Petty sessions of the Justices, and the Court of Grand session held two several times in the year for Criminall matters, or Pleas of the Crown.

In the civil Courts there are forty four Judges, or Justices, not one of which learned in the Law.

The Court of Grand Session is held by the Governor, Council, and the Judges and all the Justices of the Peace, if they think fit to sit there, but there are seldom above 60 or 70 of them at one time on the Bench.

Thus most of the Chief persons being Judges or other Magistrates, there are few of note left to do Justice upon, and if they should do it against each other it might be retaliated upon them, and few persons can be prosecuted who are not dependant upon, or of Kindred to some of these persons.

Such Courts produce (as might well be expected) many gross errors and great partialitys, especially in the most considerable Cases. Persons wrongfully possessed of Estates belonging to others, persons indebted and Merchants and factories trusted with the Estates, and consignments of others, and not willing to account fairly and pay their creditors, have by the favour of Governors bin put in these judicial places, by which they engage the common interest in their defence and protection. And this together with difficulty in recovering debts, is the chief reason that the British Merchants are worse used by their factors in America then in any other part of the world, which they proverbially attribute to the effect of the climate, being ignorant of the true Cause.

It is the interest of those who inhabit the Plantations to break (if they can) the Laws by which they are restrained from Trading with any Nation but Britain, and they do frequently break them, to our great prejudice, and are safe in so doing, being both party and Judges.
In the said Grand Court for tryal for crimes; Murders, Fellony, and other great crimes frequently escape punishment, when at the same time words of the least disrespect to the Governor, or other principal persons in the Island are severely punished. One person for some disrespectfull words of the Governor was fined two thousand pounds, and laid in Prison till he paid it. And another for disrespectfull words to one of the Counciell was striped naked and whipped at a Cart's tail through the chief Town, although he was then in a sad condition, one of his arms, and Legs being bound up in Splinters, which he had broken a few days before. This person had born the late Queens Commission as a Lieutenant in the Militia of that Island, and had a sufficient Estate to have paid any reasonable Fine, and although he did offer and earnestly pray the Court to inflict imprisonment, and any Fine whatsoever on him, rather than such an ignominious punishment, yet he could not prevail.

Sometimes the said Justices quarrel with each other on the Bench in a most scandalous manner, and at one Court they shoved and justled the Chief Justice, and laid their hands on their Swords on the Bench, and were going to draw on each other, if a company of the guards had not immediately rushed into Court with Muskets charged and presented, with whose assistance one part of the Justices sent the others to prison.

This transaction and the whipping of the aforesaid person, were complained of in England, and fully proved, and have lain before the Board of Trade about six years to no Purpose.

It is usual with people in the plantations to engage in Suits at Law tho they are advised against it, they know the ignorance of their Courts and say they will try their luck for they have friends on the Bench. This is so great an encouragement to litigiousness that there have bin above nine hundred Causes in one year, depending in the aforesaid small Island. To the great prejudice of trade, and neglect of their Plantations.

OF PLANTATION GOVERNORS.

Governments have bin sometimes given as a reward for Services done to the Crown, and with design that such persons should thereby make their fortunes. But they are generally obtained by the favour of great Men to some of their dependants or relations, and they have bin sometimes given to persons who were oblidged to divide the profit of them with those by whose means they were procured. The Qualifications of such persons for Government being seldom considered.

The Governor is by his Commission made Captain General, Chancellor, Chief Justice, and Admiral, which are great and different powers,
and can never be justly executed by one person, unless he have some
reasonable knowledge of the matters in which he is to exercise such
powers. This is seldom to be found in one man, and never was so in any
of the said Governors. So that if a Governor should be a good man, and
intend to do well, yet his want of knowledge in those things that most
nearly concern the peace and happiness of the people, will make him
subject to many and great errors, and the being misled by others; and
render him utterly incapable of Judging whether the inferior parts of the
Government under him be rightly administered, or of applying fit reme-
edys if it be not.

Thus the people may be very much oppressed and injured, and many
Complaints be made of them in Brittain, and yet such a Governor may
not be so blamable, as those who procured his being sent to execute
powers, of which they knew he was not capable.

A bad Governor invested with all these extraordinary powers, does
thereupon grow haughty and insolent, he knows those who had power to
put him in, had also power to protect him in a great measure from all
complaints that may be made against him. He knows the great trouble
and hazard they must run, and the great charge, vexation, loss of time
and damage to their Estates, who are forced to take long and dangerous
voyages to prosecute him. He knows that most of the Planters will
rather beare any Injury than thus seek for an uncertaine redress, and that
not one Planter in a hundred is able to beare the expence. He likewise
is sensible that after they have proved all they can against him, the worst
that can happen is, that after they have spent two or three years after this
manner, he may be recalled, when the usual time of such Governments
is almost expired. And may enjoy at quiet in Britain the fruits of his
oppression and rapine.

Such a Governor sells his judgments and decrees to the highest bidder,
and all places both Civill and Millitary without any regard to the fitness
of the persons to execute them which multiplies oppressions. He pro-
tects the inferior Officers and others who pay him yearly pensions, in the
neglect and breach of their duty; so that all complaints and prosecutions
against them are in vain. He encourages and protects those who declare
of his party against all others, in their insults, oppressions and violence.
The greatest crimes committed by any of his party escape unpunished,
and the smallest transgressions in the other are magnified into the greatest
crimes. By arts and violence he forces the people to chose such members
for the General Assembly as he knows will consent to the raising of most
money by taxes on the people, which is done on pretence of building, or
repairing forts, storing Magazines, and other publick uses of the place; but really with design to get most of it for himself in a covert manner.

These things are not aggravat[ed], but much less said of them then might have bin with truth. This is apparent by the following fact, which was done about eight years since.

The person above mentioned who paid the two thousand pounds fine for words spoke by him against a Governor, did afterwards complain to the late Queen, of the said proceedings, and excessive punishment; whereupon he obtained an order to have the said mony returned him by the Governor, who had received it.

The Governor enraged that he was ordered to part with the mony, resolved on a more severe revenge, and with the assistance of a person he used to imploy on such occasions, suborned one to swear high Treason against the aforesaid person, and thereupon sent him to prison, used him severely, and threatened to hang him in a few days, giving out, and making the prisoner believe, that he had two positive witnesses against him.

The Treason he was charged with, was a Confederacy with the French Governor of Martinico to deliver up several British Islands into the Hands of the French King. The prisoner (who was a weak sickly old man near seventy years of age) to save his life and obtain his Liberty, was at last forced to give the said two thousand pounds privately to the Governor. Whereupon he was delivered out of prison without any trial, or being bound to appear at any Court to answer it.

The acquitting of him in this manner, was alone a violent cause to presume he was not guilty of any Treason and that he had bought his Liberty of the Governor.

Full proof of all this matter was afterwards exhibited to the late Queen and Council, and laid before the Board of Trade. And the General Assembly of the Island made a full representation thereof in the most zealous manner, humbly praying her Majesty's protection of their Lives, Liberties, and Estates.

All which produced no other effect then the paying back of fifteen hundred pounds of the money by the Governors agent, who had received it, and this was done by Composition the person grieved loosing the rest. And no person was punished, or any effectual remedy advised or proposed by the Board of Trade against such wrongs for the future.

All nations but the Britains have Civil Governors, or Chief Justices, in their Colonys, as well as Military. They rightly Judge that no person can administer Justice, but those who understand it. And till it be so with us, no Plantation can be governed.
OF APPEALS AND COMPLAINTS FROM THE PLANTATIONS

As appeals to the Prince from inferior Jurisdictions, are the rights of the subjects in all nations, they would contribute very much towards keeping Governors, and Plantation Courts in awe, if they were allowed from thence, as was formerly practised.

But in the year 1689, the Governors by their Instructions were directed not to suffer any appeal to be made to the King, unless the Estate, or matter contended for, did amount to the value of five hundred pounds.

This Instruction covered the Governors and Courts from an Inspection into their conduct in all cases of a less value, thereby giving them the ultimate Jurisdiction in all other cases. And whereas most of the Suits amongst them concern Traffick and not one in fifty of so great a value their power was thereby made absolute in all the rest.

This has subjected the people to many grievous wrongs, but it has made Governments and Judicial places worth more money when they are sold.

In many cases whereby the said Instruction Governors ought to allow appeals, they frequently refuse them, pretending that the Land, Estate, or Negro Slaves sued for are not of the value of £500 tho’ they are worth much more. Some have bin forced to come from the Plantations, and on Petition to King get leave to appeal, and then return to the Plantations, and come back again with their appeal, and with the papers and writings necessary for the prosecution of it. And thus they are forced to two or three long Voyages, with great hazard, expense, and loss of time, before they can obtain Justice.

Where appeals have bin made against sentences and Judgments of the Courts, and all the proceedings and Records transmitted under the seal of the Plantation, it is not to be doubted but Justice has bin don, the whole matter appearing by such papers, and the ultimate Judgment given by the King in Council.

But on Complaints of grievances, and of many great oppressions, which have not been done in a Judicial way, and where the proceedings were not of record, and consequently could not be proved so fully before the King, as in the aforesaid case of Appeals, the persons injured meet with unsupportable difficulties and have seldom bin relieved on their complaints.
The Complaints are commonly against Governors, who being the Chancellours have the keeping of the great Seal of the Colony, and will not suffer it to be put to any papers that may be used against them, until a speciall order for that purpose can be obtained from the King.

This forces who have cause to complain to address themselves first by Petition the King praying to have his Majesty's order to the Governor commanding Him to let them have Copys of such Records and Papers as they want, attested under the Board Seal. Which being obtained and carried to America, they may be able after a year or two thus spent, to return again to Britain prepared to prove their grievances.

But as it very seldom happens that such oppressions can be fully proved without the Depositions of Witnesses, and as there is no Law by which witnesses can be compelled to depose in such extrajudicial cases, or any power in the plantations, except the Governors themselves to take their Depositions and return them authentically to Britain, if they were willing to be examined, for this reason it often happens that the greatest wrongs done there cannot be proved in Britain.

And where the persons oppressed can prevail with Witnesses to come over from the Plantations, they must bear the expence of it, and likewise pay them for their trouble, hazard, and loss of time, which with their own charges in the prosecution may amount to above a thousand pounds. This is what few of the Planters can bear, and several have been ruined by it.

This sort of complaints are begun by Petition to King in Council, upon reading there, it is referred to the Board of Trade, to examine into the matters complained of, and report their opinion to his Majesty. As these Complaints are always grounded upon breaches of the Laws, Constitutions and rules of Government in force in the Plantations, of which no person can judge truly or make any reasonable report to the King, without having a perfect knowledge of the Plantations, and of their Laws and Constitutions; as likewise of the Laws of Britain, so that there being seldom or never hitherto any such person in the said commission, the subject of such Complaints has seldom bin truly understood by the Board, and consequently could not be rightly reported by them to the King, whereby his American subjects have failed of that Justice and relief they otherwise might have had.

That Board having found it difficult to make such reports as they ought in such cases have kept the matters referred to them a long time under their consideration and have had several hearings of the party's concerned, who have frequently been forced to attend above twelve Months, before they were able to get a report made to the King.
The said Commissioners having power by their Commission to examine Witnesses on Oath, but always refusing to exercise that power (as it is necessary they should) they are thereby the less able to make their reports with exactness and truth. The not exercising such power, has occasioned much Confusion, variety of opinions and different proceedings at that Board at several times. The Board have sometimes directed the parties concerned to carry their Witnesses to a Master in Chancery, and get the Depositories taken in writing, which they have after received as Evidence. At other times they have refused to receive such Depositories as evidence, and at the same time have admitted the examination of persons viva voce, who were not upon Oath. And at other times have allowed nothing to be good Evidence, but what came over from the Plantations under their Broad Seals.

This uncertainty, and variety in their proceedings has often produced more trouble, and greater oppressions than what were at first complained of; and generally their reports to the King amount to little more then giving their opinion, that the Complaints & proofs should be sent back to the Governor for his answer.

The Governors generally delay their Answers as long as they can, and after their Answers are returned to Britain, there is usually so much time spent in a further consideration of them, that their Governments expire, and they are recalled before there be a finall determination. And so the matter commonly ends, the persons wronged knowing they can have no further relief on the said complaints.

Thus after two or three, and sometimes four or five Years excessive charge and trouble, and severall long Voyages from the other part of the World, the unhappy American Subjects are forced to bear their oppressions.

OF THE COUNCIL FOR TRADE AND PLANTATIONS.

The Board was erected about fifteen years since, as has bin before observed. By their commission they are directed to enquire into the severall obstructions of Trade, and the means of removing the same. And particularly to inform themselves of the condition of the respective Plantations, as well with regard to the Government and administration of Justice in those places, as the Commerce thereof. And to consider how the Colonys there may be easel, and secured, and rendered more beneficial to England. To look into Governors Instructions and see what is fit to be added, omitted or changed in them. To take an account yearly by way of Journal,of the administrations of such Governments.
To hear complaints of Oppressions, and Male Administrations from the Plantations. To examine into and weigh such acts as shall be passed in the Plantation Assemblies and to consider whether they are fit for his Majesty to consent to, and establish for Laws. And upon these and several other heads, to make representations to his Majesty of such regulations as are fit to be made in the Plantations. As by a copy of the said commission will more fully appear.

If this power had bin always vested in Persons of Knowledge and Integrity, to whom the plantation affairs were well known and unanimous in the design of promoting the public service only, it might have produced much good. But there having bin many persons att several times put into that commission for different reasons than their ability, to discharge such a trust (as is well known) it has not hitherto produced such effects as might be expected from it. And it was impossible that Board should make a right Judgment of wrong oppressions, and Male Administrations, and of Acts sent from the Plantations to be passed into Laws, or be able to represent what regulations were fit to be made in the Governments, and administration of Justice unless some at that Board had a perfect and personal knowledge of the Nature of the Plantations, and of the people, as likewise of their different Laws and Constitutions.

Many instances might be here given of many incredible things done, and omitted by that Board, but since the design of this is not to reflect on past miscarriages, but to prevent the like for the future, and since there is now reason to expect from his Majesty's wisdom and the Justice and Prudence of his Ministers that the said Council will be in a short time better filled, two instances need only be now mentioned.

They are by the said Commission directed to examine and look into the usual Instructions given to Governors, and to see if any thing may be added, omitted or changed therein to advantage. As likewise to consider what trades are taken up and exercised in the Plantations which are or may be prejudicial to England. They have accordingly had the consideration and setting of all such Instructions, in which nevertheless a Clause has bin constantly incerted commanding Governors to endeavour, and encourage the setting of Workhouses to set the poor at Work, and many Manufactures are made in the Colonies on the Continent of America, which encrease daily, so that in time they may supply our Sugar Colonys as well as themselves with things that make a great part of our British Trade, to our great prejudice, and contrary to the Policy of all other Nations.
They likewise continue the aforesaid Instructions against appeals, and have bin so far from advising a change thereof, that about thirteen years since, when on the Petition of many Merchants and Planters about it, a Committee of the Privy Council made a report that it should be altered; the then Board of Trade made an Interest to have it referred back to them, and on their report it has been continued.

THE WAY TO PRESERVE AND IMPROVE THE PLANTATION TRADE.

This may be best done by a good Council for Trade and Plantations, filled with persons of Integrity, and resolution, and fit for the Business they are employed in.

In order to this besides one or two Lords, which are usually in that Commission there might be one or two persons of note who well understand the constitution and affairs of Brittain and if they have bin Ambassadors, or Envoys abroad they may be the better qualified. Two Merchants of reputation, who have bin concerned in general Trade, and have given it over, are likewise necessary. And as the Plantations are to be the greatest part of their Province, it is necessary there should be some at that Board who have lived in the Plantations, and have a perfect and personal knowledge of them, and especially of their Laws, Customs and Constitutions of their severall Courts, as likewise of the Law of Brittain, it being impossible to understand the Laws perfectly of the Plantations without the other, most of the English Laws being in force in the Plantations.

If any who have bin Plantation Governors or others who have served the Crown in Superior Stations in America, have done their duty and have behaved themselves with an unblamed Integrity, such persons might not only be of great service at that Board but their Employment in that Commission would be a great encouragement to all others in the service of the Crown in America, to behave themselves well, when they have such a prospect of being employed after their return to Brittain. This alone would produce many good effects.

But as such Commissioners if they do their Duty, may be forced to disoblige many Governors, and other great Men, by whom such Governors may be favoured and supported in Brittain, it will be absolutely necessary to encourage them that they be personally known to the King, and not removable from that Board, without some fault and his Majesties immediate knowledge.
Such a Council would be able to make proper observations on the State of the Plantations, and everything concerning them, and full representations thereof to his Majesty from time to time. On which fit remedies may be applied.

As no part of the British Dominions has been hitherto so little understood, and so much neglected, so there is more room there then in any other part of the Kings Dominion for the gaining much Honour to the administration of his Government and much good to his Subjects.

As a great part of his Majesties personal Revenue arises on the Plantation Trade, as well as of the publick revenue, so both these are fallen by the decay of the Plantation Trade, and will encrease when that is improved.

There is likewise a casual revenue arising to his Majesty in all the Plantations, which if well managed might amount to a good sume; but by neglect, connivance, and fraud, it is now become so little that it is scarce thought of.

His Majesty’s Honour and Interests is more peculiarly concerned in the good Government of the Plantations, then in any other of his British Dominions, for his power is greater over them, then over any other of his Subjects.

All appeals from thence are determined by his Majesty in Council, and not by the House of Lords, as they are from the rest of his Dominions.

His Majesty has power to repeal any of the Plantation Laws, without the concurrence of the Plantation Assemblies by whom they were made, or of any other whatsoever. Which cannot be done in the rest of his Dominions.

He has power to erect any new Courts of Justice, or to change those already established. And in most things the will of the Sovereign has hitherto bin the Law of the Plantations.

October the 18th 1714.

North Carolina Febry 10th 1715

Hon’ble Sir

Yours from Berne dated April 30th 1714 came to hand and [am glad to] understand you have got safe to your own country, and I should [be] well satisfied, (if for your advantage and to pay it? your creditors) [you]
could procure a new surety. But I could never have expected Baron Graffenreid, whom I always took to be a man of honour and honesty, would have proposed to me to give away the matter of 900 pounds sterling money of England for nothing. You know how readily and fully [I served] you; you can not but remember your reiterated promises that I should be fully and honestly satisfied. And now to propose to put me off with [nothing?] is what I never expected from you. Your debt to me was 612 pounds, besides some other small debts I [paid] by your desire, after making up accounts: Your debt to Cap. . . . and his brother was fifty six pounds which makes 668 pounds, the bills being pro[tested] the change and reexchange at 15 per cent is 91 pounds 4 sh[illings] makes with the charge in England for the protest near 770 pounds. To [which] will be two if not three years interest due before I can have it of you . . . . . at London, which with the other small debts I have paid here for [you] and trouble of taking care of what insignificant matters you [left] here, having been forced to pay M' Graves for the surveying your land, and the heavy charge of a Land tax, will make your debt near 1000 pounds sterling money of England, of all which have received [but] 312 pounds in our public bills for your sloops et cæter., which are of no use, seeing I can purchase nothing for them, but lie dead on my hand. And as for your goods, if you left any of any value, your friend Mr Mitchell, the Major, and others of your people had conveyed an . . . . I having got nothing, save a little iron and some rusty nails for . . . . and other small things of little value.

You know, that you purchased only 15000 acres of land of the Lords Proprietors, which is but 150 pounds sterling money, whereof at mill Creek? there is only 8500 acres surveyed; the other 5000 acres not being yet taken up, which I intend to take up at White Oak River, as you designed. As for your two or three other small tracts, you not having paid the purchase to the Lords Proprietors, they were by a law made here, with all other lands in Bath county that had not paid the purchase, lost: so I was obliged to purchase them of the Receiver General. And all the land, and what else is come to me of yours, is not really of the value of 200 pounds. And if you will pay me at London, so that I may be sure to have the money seven hundred pounds sterling money, within this twelve month, you shall have what land you purchased of the Lords Proprietors, you shall have the public bills I had on your account, and what other small matter of goods I had of yours or the value as they are appraised.

Esq' Lds prof's Dupetys
The Hon. Co. Tho. Pollock being this day appointed Deputy to his Grace the Duke of Beaufort, took and subscribed the several Oaths by Law appointed to be taken for his qualification—

Upon Petition of Richard Swinson setting forth that one Robert Sennadell being lawfully Seized and possessed of a Certain parcel of Land in y^t forke of Kendrinks Creek by entry and survey sold y^t same to one Wm. Browne who Impowered one Isaac Wilson to dispose of y^t same of whom he y^t said Swinson bought the same for a valuable Consideration of Eighteen pounds six shillings as he can make appear by rec^t for y^t same uncl'y^t hand of the said Wilson But so it was that y^t Platt of the afo^d Land being in y^t Keeping & Custody of Jno Lillington was burned at pamphlicough in y^t Massacre 1711 Since which one Wm. Fryly intending y^t utter ruin of y^t said Petition (who hath alreadly lost most of his stock Corne & Moveable goods by Incursions of y^t Enemy Indiyan) hath entered and Survey'd the same Land and gives out that y^t right of y^t afo^d Land is in him and that he will take out patent for y^t same in his owne name and further setting forth that his great poverty and age render him incapable of subsisting if he should lose his land Such sinister practices of y^t said Fryly humbly prays that ye survey of y^t said Fryly may be set aside Seeing it is of latter date than the Said Survey lost in y^t Massacre and that he may have y^t liberty of surveying & patentting the same &c. And the said Fryly appearing and y^t matter being Debated on both side and duly Considered of by this Board.

It is ordered that y^t afo^d Survey of Fryly be sett aside and that y^t Survey^t Gen^t doe returne y^t same in y^t said Swinson name.

Upon Petition of divers of the Inhabitants on y^t Sound side in Chouvan precinct therein setting forth that y^t Road from Doct. Urmston's to Yawpim being Cleared out y^t Sound side was very prejudicial to their plantations and pray's the same may be Cleared backwards in y^t woods,

Ordered that the road backwards in the woods be from henceforward deemed and taken for y^t horse road and not on y^t sound side from y^t s^t M^t Urmstons downe to Yawpim.

Upon Petition of the Hatteras Indiyan's praying Some Small relief from y^t Country for their services being reduced to great poverty.

Ordered that they have 16 bushels Corne for their present supply out of the Publick Store.

Ordered that King Blount have one hundred bushells of Indyan Corne out of the Publick Store for y^t support of him and his Indiyan's in regard of their services being reduced by the Same.

LETTER TO CHARLES EDEN ESQ' GOVERNOR OF NORTH
CAROLINA.

To Charles Eden Esq'

Sir,

It having been represented to Us that an Act of Assembly was pass'd
in Our Province of North Carolina in Nov\(^n\) 1713, that all Persons who
have taken up any Lands there, and have not paid the purchase Money
within three Months after the Date of the said Act, otherwise any other
Person might lawfully purchase the said Land paying the purchase Money
to our Receiver General.

This Law indeed seems plausible and intended for Our Service (tho'
at the same time We think the Assembly need not have made any Law
relating to the purchasing of Our Lands) but we are given to understand
that a very ill Use has been made of this Law, and under Colour thereof
several poor Persons who have lost their Husbands or Fathers, or have
otherwise been reduced by the late War, and are consequently objects of
Compassion have for want of the payment of their purchase Money at
three Months end, been dispossessed and other Persons (several whereof
are Our officers) did pay the purchase Money for the said Land with an
Intention to sell the same at great Advantage. If this be the truth of
the Case, there has been the greatest Oppression and fraud imaginable.
practis'd under Colour of Law, for by this means the Poor people who by the Calamities of the War have been render'd incapable to pay the purchase Money within the time limitted have lost their Lands, and the Rich Men by payment of the first purchase Money have got possession of the same to their own Advantage but to the ruin of several poor Widows and Orphans.

If this appears to be the Case, We will highly resent it and censuren such of our Officers who have been concern'd in these ill Practices, and We require you strictly to examine this matter and make your Report of the truth thereof by the first Opportunity.

We in the meantime are of Opinion that the Persons who are turned out of their Lands by the unjust Advantage that has been taken of this Law shou'd have their Lands restor'd to them again upon paying back the purchase Money with the Interest thereof within a year after your Receipt of this to those persons who advance'd the same under Colour of that Law, and that such persons who by the War have been utterly disabled from paying the purchase Money shall be assisted by Our publick Money they giving Security for paying Principal and Interest to Our Receiver General within three years.

And if any Difficulties shall happen to arise upon Lands having been transferr'd from one to another so that some parcels of those Lands may now be in Possession of Persons who have purchase'd bona fide at consider-able Rates beyond what was the Original Price of those Persons who procured this Law for obtaining this very Advantage, We commend this and all other intricacies that may arise to the Assembly, and We hope they will provide for the same, it being our Intention that the poor Original Purchasers shou'd not be defrauded.

LETTER TO M' EDEN GOVERNOR OF NORTH CAROLINA.

To Cha: Eden Esq" M' Eden.

We received your Letter, Dated Sept' y* 15th 1714, Your opinion in relation to the Money Bills not being accepted in Payment for the purchasing of Lands, was just, and we return you our thanks for your Care.

You say, that in your Instructions, four of our Deputies are to be join'd with you in determining publick matters, But you desire that two only with your Self may be a sufficient number for that purpose. We think that too material a point to be altered, but we are willing to give you all reasonable assistance in our Power, and have therefore sent you Blank Deputations for you to put in such Persons Names into them, as you shall think willing to give their Attendance, and will be most ready to assist you in the Administration of your Government.

We readily comply with your request in making M' Christopher Gale, Our Chief Justice, and have given Our Secretary Orders to draw a Commission and prepare Instructions accordingly.

We wish you Success in the Treaty of Peace with the Indian Captains, and we doubt not but your care and prudence will bring that War to a happy conclusion.

Tho' we are convinced that a re-survey of the Land in your Province might tend to the Advantage both of us and every Planter, yet we think it proper, to have that matter a little longer deferr'd, least the peace and quiet of the Country should by that means at present be interrupted.

We hope that you will take care that our Receiv' General M' Richardson, do send his Accounts to us as soon as the next General Courts are over; and that such Effects of Ours as are in his hands, and are proper to be sent to Europe, be constantly remitted to us by all convenient Opportunities.

We think it proper to give all due Encouragement to such persons as are willing to come and settle among you, and we do therefore hereby require you to give a Power or Liberty to any New England Men or others to catch Whale, Sturgeon or any other Royal Fish upon your Coast, during the Term of three years, they paying only two Deer Skins
yearly to the Lords as an acknowledgment to them for the same. So we bid you heartily farewell and are

MR. URMSTONE TO THE SECRETARY.

North Carolina April 13. 1715.

Sir,

I've little to add or vary from w't I have formerly written, my circumstances are little or nothing better'd. The Vestry's very averse to meet & with much difficulty have been prevailed to order me some money but then no care is taken for collecting it—The Chih: Warden of Pascatank Precinct was ordered to collect £30 for y' first year after my coming into this wretched country & hath had it in his hands these two years & I cannot receive it without an arrest w't would cause clamour enough; The Vestry for Chowan where I reside, last December order'd me £110 for y' 3 years last past, but the time is lapsed for y' collection this year & w't was to serve me for a little provision I know not; I've nothing to buy w't & not able to raise any—If I had not with the utmost slavery made a little corn, we shou'd have all perished; I've not a morsel of any thing save corn; Beef or Mutton is not eatable at this time of y' year, nor can we expect any till August. I have been obliged to pay for my plantation at last or must have turned out after Improvements w't amount to near £50—I have drawn a Bill for £60 Stg. upon the Treasurer, w't I hope he will pay in time, if money be not just due; The person it is payable to will stay to take it as it becomes due; I must draw for £40 more in a short time, so y' Goods I must expect none from England this year & tis very hard buying necessaries here at such exorbitant prices. I have often prayed for some relief, if it can be had towards paying for my expenses I am at, but am not so happy. We are at Peace, thanks be to God, with the Indians & among ourselves. I hope we shall have a communion these Holy time but fear my Congregation
will be small by reason it never was yet administered in our Chappel; I intend to go all over your next Country towards your end of this month for your first time & if I find it practicable may Visit them oftener till your p of your Government can be better supplied.

GOV. CRAVEN TO SEC. LORD TOWNSHEND.

23 May 1715.

Rt Honble

The Neighbouring Indians with whom we have had a long and continued Amity, having for almost these two months last engaged themselves in a most bloody war against this part of his Majesty's Dominions, I held myself obliged to give your Lordship a plain and true account of the present State of this Colony being well assured that it will be as soon as possible laid before his Majesty by your Lordship.

I have no necessity to acquaint your Lordship, that South Carolina is of all the Dominions belonging to the Crown of Great Britain in North America, the utmost frontier having the Spaniard at St Augustine or Florida and the French at Movill on the great River Mechassipi on the South and on the South West: St Augustine is not above seventy Leagues from our Settlements, from which place we have reason to believe Our Yamasee Indians who first began this war upon us have received their principal encouragement to Attack us. These Yamase's being look'd upon by other Nations to be the most warlike, have prevailed with almost all the rest to become their Confederates and Allies so that we compute that we have at least 3000 Indians engaged against us, all of them till now entirely in our Interest and with whom we had a constant Trade and commerce.

About the middle of Last Aprill one of the said Yamasee Indians gave some Hint to a Trader or two that lived amongst them of the horred design they had been sometime contriving to cutt off all the English and become sole Masters of their fine and flourishing Plantations, this astonished the poor people, and caused them to beg only so much
time as they could come to me to Charlestown and return again, and they assured the Indians that any thing would be done to give them Satisfaction, with which they seem’d Contented.

The two Traders made all the Dispatch, riding night and day, to acquaint me with what had happened; upon which the Council was called, and we dispatched the Messengers to let the Indians know that some of our Chief men should meet them forthwith at a place appointed, to hear and redress their Complaints and Grievances if they had any. The Indians waited for the return of the Messengers, but they had not been with them above twelve hours, but without more ado they were knock’d on the head by the Indians, with several more white people who were barbarously Tortured and Murthered by them.

The adjacent Settlements were some of them immediately destroyed by the Indians but most of the people escaped by wonderfull Providences; this horrible and amazing account of several Massacres being brought to me from several hands, I soon mounted a Party of Men, and with them together with a small number of Indians who live among us, I marched to attack the Yannasees before they were joyned by other Indians; It pleased God to give us Success against a much more numerous Party of Indians. They received an unexpected Defeat from our handful of men with the loss of eleven men killed outright and twenty wounded on our side. The Enemy having suffered very much in this Engagement, insomuch that having lost several of their chief Warriors and abundance of them being wounded, they flew from their Towns and Settlements and left their Provisions and good Plunder for our men they have not as yet been so hardy as to shew themselves but keep in inaccessible Swamps and unapproachable fastnesses.

The Country is now very active in Fortifying Several Places, which may hinder the Indians from coming lower into our Settlements, and is so Industriously Employed for their defence that all manner of other Business is laid aside, so that there will be hardly any Rice or other provision Planted which will therefore be much wanted next year.

I humbly beg your Lordships pardon whilst I presume to acquaint you further that I take all suitable measures for the Preservation of the Colony besides white men (which I am sorry to say it are but few, being not above fifteen hundred in the whole Province and they too at great distances from one another and dispersed in several Forts) I have caused about two hundred stout negro men to be enlisted and those with a party of white men and Indians are marching towards the enemy: but the greatest discouragement I meet with is the want of arms and ammunition
for which I am now sending to New England but I am afraid they can’t sufficiently supply us, besides I am endeavouring to bring off some of the Confederate Indians and make them our Friends again by presents and by all the most probable ways can be thought of. It is great pity my Lord so fine and flourishing a Country should be lost for want of men and arms a Country so beneficial to the Crown by its trade and once so safe to other Colonies by reason of the vast number of Indians it was in alliance with I have no occasion therefore to press your Lordship to consider that if once we are driven from hence the French from Movill or from Canada or from old France will certainly get footing here if not prevented and then with their own Indians and with those that are now our Enemies they will be able to march against all or any Colony on the main and threaten the whole British Settlements.

People here are under such a dreadful Consternation and Surprize having the most barbarous enemy on earth to deal with that they are many of them for going off but I shall take all Imaginable care to prevent this Evill and have made them somewhat easy by giving them assurance that his most sacred Majesty will send them a speedy and sufficient Supply of everything.

I am persuaded your Lordship will be pleased to use your best offices for this Assistance and preservation of this hopefull Province, which without timely supplies from the Crown, will be in the utmost danger of being overrun by the Heathen Enemy; Your Lordship will most certainly lay the Calamities now befallen a distressed people to heart and forward every thing which may tend to their security which will infallibly receive Everlasting acknowledgments from them and from no one sooner than from

May it please your Lordship
Your Lordships
Most obedient
humble servant
CHARLES CRAVEN.

The Hon The Govern' having Laid before this Board a Letter from the L proprietors wherein they say that Complaints have been Laid
before their Board of Divers Wrongs Injuries & Oppressions which have been perpetrated and done Especially by ye Ldpp' Officers here under Collour and pretext of a Certain Act of Assembly intitled an Act &c and that Divers Widdowes and Ophans have been Ruined thereby and Tho' Lee who made ye Said Complaints hath been this Day before this Board and examined thereon, that the Hon'ble y' Govrn' Might be the Better enabled to report ye Truth of ye Said Complaints to their Ldpp' pursuant to ye Said Letter and being Interogated upon Oath whither he knew of any persons really Injured under Collour of that Law or any particular Widder & Orphan ruin'd or that had Suffered thereby or any Wrongs or Injuries done by any of their Ldpp' officers either under Collour of that Act or in the Execution of their Officers Answered that he knew none.

M' URMSTONE TO THE SECRETARY

NORTH CAROLINA June 12<sup>th</sup> 1715.

Sir

I was favoured with yours of Decr 17<sup>th</sup> @ Cap' Godfrey whom I have not yet seen, I believe he'll not be able to come so far up in the Country; he was but 7 weeks on the passage, I fear he is come in a wrong time, for, we are in great confusion the cause I have already given you in two letters p' via Boston & Virginia, this comes by South Carolina and if the others failed, comes to advise that by an express, sent from thence for our aid, we are informed that the neighboring Indians fell on Good Friday last upon the Inhabitants, In the South parts of that Government
and cut most of them off. After the most barbarous and inhuman Murder of some of the principal (viz') Agents & Traders; who they pretend had wrong'd 'em. I wonder they should send to us, who refused to defend ourselves and had it not been for them, must have been a sacrifice to the Enemy and stand still indebted to them for their kind assistance in large Sums but equally unwilling to pay or return kindness. If all those nations be joynd I fear 'twill go hard with us and them too, those are numerous and a warlike people the English have taught them to best their Masters. There have been here a Body of Strange Indians on our borders some say 40 or 50 but now we hear upwards of 200. They have pitched their Camp in that part of the Tuscararoes Country vacated by the late Warr, seized on a Fort & Trenches which cost as much blood and not demolish (like Wise Soldiers that we are) they may annoy us but not to be subdued, we have a small body to go out 200 p Tributary Indians 150 are bound for South Carolina and the rest to speak with these Indians, and I fear shall catch a Tartar they have committed some hostilities against our tributary Indians, and if we attack them let the success be what it will, Tis more than probable we shall bring 'em upon ourselves and when joynd by their followers will finish the ruin of this wretched place, but I must not complain either here or in England, I've had reason too much God Knows for't and you made the same answer in effect that I have often received from this Gentry: if you compare former letters you'll easily guess at my Circumstances. My complaints have been communicated to the proprietors who are highly incensed against me, and have represented me as a Spy to the country I live in, and now I am treated little better unthankful Lords, but far more ungrateful vassals our Quaking Lords Danson & Ray were mightily offended with a letter of mine to them, which they say I had better let alone except I had written more like a Missionary: they may and ought to be ashamed of their famous Country, they would have all men do as Lawson did write whole Volumes in praise of such a worthless place: he has had his reward: all I can say to it is; there is not the like to it under the sun. Siberia in Muscovy are outed one by this; but if I know the Circumstances or the people I am of opinion this Hoptarchy cannot stand long. For Gods sake use your endeavors with the Society to advance one 20 and send me credit for the same at Barbadoes or Boston. Your best way of sending to me is by way of New England order yours to be left with or under care to Jno Jekyll Esq Collector of the Customs at Boston—these are from Sir

Your most humble servant

M' URMSTONE TO THE SECRETARY.

NORTH CAROLINA June 21st 1715.

Sir

Yours of December 17th I rec'd 10 days ago by which I understand I must not expect any addition to my Salary 'tis true I am allowed more than most Missionaries but then it ought to be considered that my Lot is such a Wretched Hole as is not to be parell'd, my circumstances very mean, a numerous family, obliged to buy house land servants and stock at the worst hand besides abundance of necessaries which every one must have that will live here, everything that is useful to a Farmer with Tools for divers trades and he that cannot use them himself must have others, whose demands are very exorbitant especially of me: The fate of most Clergymen. • We pay 5 or 6 hundred £'s C. for all goods imported 20£ & A. sent in English goods yearly would have been of more service than my whole income, at the rate I have been forced to part with it, the Country will never be brought to make any provision for a Minister; they have all in general imbibed a Quaker like abhorrence of Hirlings, as averse to be at any charge in the saving of their souls as their Country; praying and fighting they equally dislike which are at this time like to prove pernicious tenets for we are now in more danger of being destroyed or driven out by the Heathen. I suppose you will have the unwelcome news 'ere this arrives of the loss of a great part if not all South Carolina, if all the neighboring Indians be joyned, the Inhabitants cannot withstand them, all endeavours have been used to send them some help, but fear our men will be attacked by the way, for the Indians are coming down upon us, have cut off some of our friendly Indians at Cape Fare, a small party have been seen within our Government so that we have too much reason to fear the worst. God knows what account my next may bring. I beg of you recommend us all to the prayers of the Society and believe me

LORDS PROP™ OF CAROLINA TO LDS. OF TRADE

8 July 1715.

My Lords.

We receiv'd Letters two days ago from Carolina, which give us an account of the deplorable Condition his Majes™ Subjects in that province at present are in, by an Invasion the Indians have lately made upon them, who have exercised the greatest barbarities in torturing to Death most of the British Traders That were amongst them; And the case seems to be the worse, because it does not proceed from any provocation given to them as we are inform'd but it is the Opinion of that Country, that all the Indian Nations amounting to ten thousand in number have combined to ruin, if they are not in time prevented, all the British Settle™ on the Continent of America, to which Carolina is a Frontier. We the proprietors have met upon this Melancholy occasion and to our great Grief find that We are unable of Ourselves to afford suitable assistance in this Conjuncture, and unless his Majesty will graciously please to interpose by sending Men, Armes, and ammunition we can foresee nothing but the utter Destruction of his faithfull Subjects in those parts. The Hon™ Charles Craven Esq™, Our Governor of South Carolina has behaved himself as a man of his quality ought with the utmost Bravery
and to his Conduct it is owing, that the Country is not already taken by the enemy. We would most willingly give at our Board sufficient Security to repay to the Government such sums of money as shall be expended upon this necessary occasion, if some of our members particularly his Grace the Duke of Beaufort, and the Right Hon. the Lord Craven cou’d by reason of their Minority be bound Whatever assistance is by his Majesty’s Goodness afforded, we hope may be speedily sent, We retain one ship on purpose to carry armes, and others shall we procure to go at a Days warning. We have consulted General Nicholson who has commanded forces against these Indians and he gives in the following estimate as necessary for the Defence of the Province, viz’ three hundred barrels of powder fifteen hundred Musquets with Bayonets two thousand Cutlasses, forty Cohorn mortars with hand Grannadces Co. Nicholson is likewise of opinion, that it will be highly necessary, that all his Majesty’s Subjects in the several Colonies upon the Continent be by proclamation prohibited to sell any Armes, ammunition &c to the Indians and that the French and Spanish Ministers may be desired to give the same Directions to their respective Colonies in those parts. All which is recommended to Your Lordships Wisdom, and we intreat Your Lordship to make a Report to the Secretaries of State Or Council as soon as You can conveniently.

COLONEL HEATHCOTE TO LORD TOWNSEND

MANOR OF SCARSDALE July y* 12th 1715.

My Lord

I am sorry that what I foretold in my private letter to your Lordship in March past proves a truth, as that the French had for some time & were then with great diligence laying their designs with the help of the Indians, on the first breach, to cut off & become masters of these parts of his Majesty's empire, & gave your Lordship my reasons for being of that opinion. It will be altogether needless to trouble your Lordship with any duplicate of that letter, because I sent the same by two several conveyances & doubt not of its having come to hand. The particular accounts of the Callisntys of Carolina your Lordship will undoubtedly have had from the Governor there, with much greater exactness then I can pretend to do it, but 'tis very certain that all those poor people are drove from their settlements into Carlestown and other fortified place and there starving & in great distress, nor have I yet heard that the Governments of this Continent have done anything for their relief & assistants. Besides the flames we have broke out in those parts, the fire is beginning nearer us; the French having as I am credibly informed, enter'd our Onondagoes country, with intent to build a fort there, & cut off our trade & communications with the Five Nations of Indians. Had they not very good assurances of deauching our Indians they would not have made so bold an attempt. What steps are taken to prevent the mischievous consequences of it your Lordship will undoubtedly receive by this vessell, we having been for sometime out of town, is unknown to me; but that I might not be wanting thou' at this distance to do what good I could, I sent Coll Hunter our Governor my thoughts by letter, of w* the enclosed is copie. I have as yet received no answer from him, so don't know what conclusion he has drawn upon it, and the Man of War talking of sayling this week, durst not adventure to stop this longer. If anything should be resolved on upon it, here and afterwards at home, what ever directions are given to the severall Governments, it must be done in so full a manner that they may not dare to dispute His Majesty's orders; of w* we have formerly had examples enough. For when in King William's time the war lay wholly on this Province & Coll. Fletcher then our Governor obtain'd an order from His Majesty for Virginia, Maryland, Connecticut & other Govern* to send men & money for our assistance, they all of 'em found ways to evade it; & the French who were no strangers to our
Constitution, were always so crafty, as not to suffer their Indians to make war on more than one Province or Colony at a time; & the others were so besotted, as always to sit still. For when the French for many years pressed our Frontiers, our neighboring Government of Connecticut, whose towns lay as much exposed & seemingly as much danger as ours, being unmolested, they refused giving any assistance, & could patiently bear to see our settlement destroyed & people murthered, & when towards latter part of the war our Indians & those of Canada had agreed not to molest either of the frontiers, then the French made war on Connecticut, & we as kindly refused to assist them & sat quiet while their towns were cutt of & lay'd in ashes, & abundance of their people kill'd & tortured: & after this unaccountable managem' on our side, the crafty French, who are but a handful in comparison of the English, on this Continent have generally out done us. My Lord, did I apprehend our danger to be very great, & his Majesty's subjects here on the brink of ruine, by w'h means these vast countreys, w'h in time would become by much the most valluable jewels belonging to the British crown abroad, will be lost and destroy'd, & yet the desigues of France are very near being ripe for our ruin, I would not have presumed to have been thus troublesome to your Lordship, for w'h I do very heartily ask pardon begging leave to assure your Lordship that I am with all imaginable regard. My Lord

Your Lordships most obedient
humble servant

LDS. PROP's OF CAROLINA TO LDS OF TRADE.

15 July 1715

My Lords

We received your Lordships letter last Night And in Answer to the several Questions therein propos'd to us by your Lord's We say

1st That we have given Orders to the government of South Carolina, immediately upon the Receipt of our Letters to impoy such goods and Effects as Our Receiver has in his hands (which we conceive may amount to near two thousand pounds) towards procuring arms and ammunition for the Defence of that Government.
2d That the Assembly did send in May last to the Value of two thousand five hundred pounds to New York, New England &c for the purchasing of arms and ammunition to enable them the better to defend themselves against their Indians Enemies, that whatever effects, we have from thence lately receiv'd, shall be as soon as may be dispos'd of and the produce thereof apply'd to the publick Use of the province. There is a vessel lying in the River and now ready to sail with our orders, of about one hundred ton Burthen and that others will be sailing in a very short time after.

3d If his Majesty shall be Graciously pleased to send his Royal Orders for any men from his Majesty's Garrisons in North America, We do not doubt, but the Government of Carolina will send ships and Provisions for their Transportation.

4th That it is humbly submitted to his Majestys great Wisdom, What sum of Money his Majesty will be pleased to grant for our assistance. And great care shall be taken when the province can be resettled, that the same shall be repaid from the Effects and produce of the country as soon as may be.

5th If the Lords who are not Minors should surrender for themselves that would give the King no better Title than he has already, for the Title of the Miners would still subsist. And that in case the money advanced as aforesaid by his Majesty shall not in a reasonable time be repaid. We humbly conceive his Majesty will have an Equitable Right to take the Government into his immediate protection. That the Proprietors have continually supported and defended the Government when attack'd by the French or any other Enemy. That neither his Majesty nor any of his predecessors have ever been at any Charge for the supporting or defending the province of Carolina from the first grant thereof to the proprietors, which is about fifty years; And the proprietors hope when this War is over, his Majesty will never have any further trouble, for any Charges or any expenses whatsoever. A letter from M’ Sec. Stanhope of the 7th inst. transmitting to the
Board two letters one from M’ Craven Gov’ of Carolina dated 23rd May
last the other from Col. Spotswood Gov’ of Virginia dated 27th of same
month relating to Hostilities committed by the Indians in Carolina was
read together M’ Craven’s and Col. Spotswood’s said letters; thereupon
a letter was immediately writ to the Lords Proprietors of Carolina
inclosing copies of the last mentioned letters and signifying this Board’s
desire of an opportunity to discourse with them thereupon any morning
the next week that their Lordships shall appoint.

July 13th 1715.

The Lord Carteret one of the Lords Proprietors of Carolina coming
to the Board with M’ Kettleby, M’ Johnson & M’ Shelton the letter
from M’ Sec’y Stanhope of the 7th inst. mentioned in the Minutes of the
8th referring to the Board two letters one from M’ Craven the other from
Col. Spotswood relating to an Insurrection and Hostilities committed by
the Indians in Carolina was again read, thereupon the Lord Carteret
acquainted the Board that the Lords Proprietors had petitioned his Maj.
for some assistance towards the preservation of the said Province which
they are unable to support of themselves, the minority of two of the
Proprietors making it impossible to raise money by mortgaging their
Charter that their Charter will be a virtual security for what His Majes-
sty shall please to advance them in arms ammunition & other necessaries
for the defence of the Province tho’ it will not be so to any private per-
sons That besides what is mentioned in the Lords Proprietors letter of
the 8th inst. they were informed that six small field pieces or rather some
Harquetusses were necessary to be sent as soon as possible and his Lord-
ship desired the Board would please to represent to his Maj. the ex-
tremities to which the Colony is reduced and what his Maj. may fitly do
for their present relief.

M’ Johnson observed that tho’ Carolina is at present under Proprietor
it is a frontier to the Colonies under his Maj. immediate government and
therefore he hoped his Maj. would please to send the supply of Arms &c. as desired.

The Board then desired my Lord Carteret would please to let them have in writing any further particulars he should necessary to move his Maj. for on this occasion

July 14th 1715

Mr Sec. Stanhope came to the Board who had some conference with him in relation to the present state of Carolina and the relief to be given to that Province upon the invasion and hostilities committed by the Indians after which the Lord Viscount Townshend coming likewise to the Board he acquainted them that the Lords of His Maj. Cabinet Council desired their attendance at his Lordship's Office, Whereupon the Board went accordingly & being returned a letter was immediately writ to the Lords Proprietors of Carolina with several Queries for their Answers in writing tomorrow morning and desiring their Lordships will please to come to the Board at the same time.

Ordered that Mr Banister, Mr Byrd and Mr Shirrif be desired to attend the Board tomorrow morning

July 15th 1715

The Lord Carteret and Mr Ashley two of the Lords Proprietors of Carolina coming to the Board as desired, a letter from their Lordships in answer to the Queries sent them yesterday relating to the present condition of that Province and relief to be sent them was read and their Lordships entering into conference thereupon the Lord Carteret was pleased to say in relation to the 2nd Query, that the effects they had lately received from Carolina were rice and might be disposed of for about four hundred pounds sterling which they were willing should be applied towards paying (for the arms now proposed to be sent. That 1500 or even 1000 musquets cannot be immediately furnished here but by his Maj. office of Ordnance & if the Government think fit to give them credit on this occasion their said effects will be so far a security towards the payment of them. That they are not sure of being supply'd with arms and ammunition from New England & New York &c. to which places the Assembly of Carolina have sent the value of 2500 pounds as mentioned in their Lordships Answer to the said 2d Query and therefore they desire credit from his Maj. who will always have an equitable demand on the said Proprietor and have that influence over their charter which no private person can nor for that reason will any such persons lend money upon the said charter His Lordship being then asked if Carolina was not already indebted to Virginia for assistance upon a former occasion He said it was but he knew not exactly how much However he did not doubt but that
they should make Virginia amends and likewise be able after the present exigence to repay His Maj. and the public what should be now advanced. His Lordship hereupon took notice that Col. Spotswood acted prudently as Gov. Virginia in sending assistance formerly to Carolina it being better to fight an enemy at a distance than within his own Governm'. As to provisions the Lords Proprietors were of opinion there would not be occasion to send any to Carolina from hence.

In relation to the 3rd Query it was observed to the said Proprietors that Transport ships to be sent from Carolina to fetch what men his Maj. might think fit to order for Carolina from any of the Northern Colonies would have too long a voyage and come too late for the intended service. Whereupon the Lord Carteret said that the Proprietors did not desire any men but if the King would send some, Merchant ships might be found here to transport them but that the Proprietors were not able at present to hire such ships themselves & therefore they pray'd credit from the governm't to enable them to do it—It was then desired of them to signify what number of men would be necessary—The Lord Carteret said about 500 would be sufficient. But the said Proprietors declaring that they expected the Officers who should command the men to be sent from hence should be subject to the directions of their Govt' of Carolina, the Board took notice of the difficulty that would arise at his Maj. Officers submitting to the orders of any person not in immediate commission from him As to the subsistence of any men to be sent to Carolina the Lords Proprietors declared they did not doubt but the Province would maintain them for the time they should have occasion to be there.

In further Answer to the 4th Query the Lords Proprietors desired 300 barrels of powder 1500 musquets with Bayonets 40 Cohorn Mortars with hand Granadoes and said that the demand for the present service would not amount to £5000.

And upon the 5th Query relating to their Lordships surrendering the government of the said Province, they said they were willing to do it for an equitable consideration and not otherwise. That they thought any particular Proprietor surrendering his right would be to advance the interest of the rest That their Lordships Ancestors had been at very great expense in settling and improving this Colony which in customs on the product thereof had been of considerable benefit to this Kingdom there being annually produced in Carolina as the Lord Carteret informed the Board 3000 tons of rice one third of which is spent in the country and the customs on the other two thirds imported here amount to £10,000 £ annum or a greater profit to this Nation if the said rice be re-exported
by the returns, fifty thousand deer skins the duties whereof are one thousand pounds besides great quantities of pitch tar and other Naval Stores. That their Quit rents amounting to about £2000 per annum that country money, are applied to the payment of the Gov'n salary which is £300 per annum and for maintaining the other public Officers in that Governor's. That a duty is raised in Carolina of a penny per skin exported which is applied to the maintenance of the Clergy there. That in 1707 when Carolina was attacked by the French it cost the Province twenty thousand pounds and that neither His Maj. nor any of his predecessors had been at any charge from the first grant to defend the said Province against the French or other enemies.

[BRB O B T. PROPERTIES VOL. 9 Q. 49.]

TO THE RIGHT HON* Y* LORDS COMMISSIONERS FOR TRADE

(18th July 1715.)

We the underwritten the agent for Carolina and Merchants trading thither, beg leave humbly to represent to your Lordships the deplorable condition of that Colony and that unless it is speedily reliev'd it must inevitably perish and all his Majestys Subjects there fall a Prey to their barbarous Enemies.

Most of us have great Debts and Effects there, some of us large plantations and the Loss of these would be considerable; But when we reflect upon the Ruine of so flourishing a province that has for many years taken off so much of our English Manufactures, and brought such a large Revenue to the Crown by the Dutys upon Rice, Skins, pitch Tar and other Naval Stores & Commodities imported from thence, and yet from the first Settlement of it, not put the Crown to one penny Expence, When we reflect upon the loss of so many English mens Lives, Persons who have always behaved themselves dutifully to the Crown and never by any act forfeited their Right as Subjects to a protection and yet are now in imminent Danger of being massacred by Savages and perhaps of being rosted in slow Fires scalp'd stuck with Lightwood and other inexpressible Tortures. When we reflect upon this general Revolt this concerted Defection of the six distant Indian Nations, who never yet had policy enough to form themselves into Alliances, and cou'd not in all Probability have proceeded so far at this time had they not been incor
aged, directed and supply'd by the Spaniards at Fort Augustin, and the French at Moville, and their other Neighbouring Settlements That Carolina being the Frontier of all the other English Settlements upon the Continent, If that should miscarry all the other Collonys won'd soon be involv'd in the same Ruin, and the whole English Empire, Religion and name be extirpated in America.

These dreadful Considerations, My Lords, supercede our present concern for particular Losses and make us apply to your Lordships for immediate relief and Assistance against this publick Calamity.

According to our best and latest Advices, Our men, who at first were successfull against the Indians being at last over fatigued and harrass'd with their marches and counter marches in the woods have been defeated in two several Engagements, and the Indians have posted themselves at Edistow River to the Southward, and at Goose Creek to the Northward, in the very midst of our Settlements so that Charles Town, the only defencible place in the Province is in a manner block'd up and the Enemy in the mean time exercises a licentious Cruelty in ravaging burning, murdering and torturing all before them.

The Town being fortify'd may perhaps hold out some months but in what a miserable Condition must the poor People be, drove from their Plantations, imprison'd between mud Walls stifled with excessive heats, appress'd with Famine, sickness, the Desolation of their Country Death of their friends. Apprehension of their own fate, despairing of Relief, and destitute of any hopes to escape. They have indeed sent to New England to buy some arms and ammunition there of which they are in very great Want, and the Lords proprietors have sent Order to their Receiver to apply all their Effects in his hands to the use of the Publick and have likewise given Direction that several hundred pounds worth of Goods, which have been lately remitted to them here, shou'd be sold and the produce thereof immediately sent back towards their Assistance. These indeed are great Instances of Generosity and Goodness in their Lordships, but the Enemy is above twelve thousand strong, plentifully furnished with arms, ammunition and provisions and assisted by the French and Spaniards as we have reason to apprehend and the English not above two thousand able to bear arms their negroes not above sixteen thousand, some of which might be armed in our Defence if we had any arms to supply them withall, But in that too there must be great Caution used, lest our Slaves when arm'd might become our Masters.

See this Exigency therefore We have nothing left to do but to throw ourselves at his Majesty's feet on the behalf of that distressed province
humbly praying by your Lordships. Mediation, that some men arms
and ammunition may immediately be sent to their Rescue. Immediately,
or else it will be too late.

What Quantity of arms and ammunition will be sufficient has already
been laid before your Lordships in an Estimate made by Gen’ Nicholson,
We think some Harquebusses and Deakes shou’d be added, besides what
the General has mentioned because according to our last accounts, there
will be a necessity of erecting Forts near the out settlements for our
future Security.

There is a Ship now lying in the River call’d the Industry of one
hundred tons Burthen, John Woddin Comander; ready to sail to Caro-
lina, and only stays at our Request for the immediate transportation of
such Arms and ammunition as his Majesty will graciously please to furnish
us withall.

This with some new assurances of a speedy Reinforcement of men,
may, we hope, encourage them to hold out a little longer but if this ship
shou’d go thither in Ballast and bring them nothing more solid than
words or promises of Assistance, We are apprehensive, Despair wou’d
suggest to them that their Miseries the known here, were not duly
regarded, and that there was no Prospect of any timely Relief, and that
their only Way was at once to desert the Province and each shift for him-
selv. What the consequences of this wou’d be to all America, we leave
to your Lordships Consideration.

As for the number of men we think eight hundred will be at least
sufficient and that they need not stay there longer than eighteen months.
In that time our out ports may be made defensible and our savage ene-
mies pretty well reduced the Country reestablished and the Planters
enabled to reap the fruits of their Labours and if there should be any
furthor Occasion for them we hope the Country by that time may be in a
condition to subsist them. It will be impossible for the Country so
impoverished at present to do anything towards paying or subsisting the
soldiers but if they are supply’d hence with a sufficient Quantity of meal
there can be no want of other provisions All Parts of the Country
abounding with Plenty of the best sorts of Flesh, Fish, and Fowl.

What Number of Ships will be sufficient to transport these soldiers
thither we must submit to your Lordships judgment. We humbly appreh-
end that it will be proper for his Majesty to order a Proclamation to be
published in all the English Colonys prohibiting any Person under Pen-
alty of Death to furnish the Indians that now are, or hereafter shall be
at war with us with any manner of warlike Stores, Guns or Gunpowder
My Lords nothing but the utmost Expedition can save us and besides the immediate Exigency of our Circumstances, this is now a proper Season for Voyages to those Parts. We return your Lord's many thanks for the great Concern your Lordships have expressed for the sufferings of his Majesty's Subjects, and your hearty Inclinations to have them speedily relieved; We desire your Lordships to represent these things effectually to his Majesty and to do what lies in your Lord's Power to have those Succours immediately sent which will be an act of Humanity as well as justice, and put all persons who have any Interest in or wish well to America, under the highest Obligations of Gratitude to your Lordships, and in a most particular manner.

I am directed to acquaint you that the Society have lately received a Letter from Governor Eden dated from North Carolina complaining of the great want of a good Missionary to officiate there, there being but one Missionary Viz’ M’ Urnstone in all that Government.

The Society have considered thereof and being of opinion by the account they have received from your parts that several of the Parishes in
South Carolina where Missionaries have been sent are totally deserted and not likely to be soon settled again they have thought fit to order that you with the advice and approbation of the majority of the Missionaries do appoint one of your number (a single man and one who has been obliged to leave his Parish) forthwith to repair to and officiate as the Society's Missionary in North Carolina of which you will inform the Society by the first opportunity; so wishing you all a happy deliverance from the troubles you lye under

MEMORIAL FROM M' KETTLEBY AND SEVERAL MERCHANTS TRADING TO CAROLINA RELATING TO SOME INDIANS TRADING GUNS PREPARING TO BE SENT FOR VIRGINIA, WHEREWTH THEY APPREHEND Y* INDIAN ENEMY MAY BE SUPPLYED.

The Right Honourable the Lords Commissioners of Trade and Plantations.

We the Agents of Carolina and Merchants trading thither, begg leave to acquaint your Lordships that We have an Account of several considerable Quantities of Indian trading guns, which are bespoke and ordered to be got ready for Virginia.

Though we cannot in Justice and Gratitude but acknowledge the honorable Behaviour of the Governor of Virginia and his readiness to assist our Province Yet we have too much Reason to fear that their private Indian Traders will have more regard to their own gain, than the security of their distressed Neighbors, or the Publick good: and will endeavour to make their advantages by selling arms and ammunition to our Indian Enemies, who according to our last accounts, begin to want a supply thereof.

Whether the Governour by his own Authority, without any directions from his Majesty or your Lordships will or can Effectually prohibitt the Indian Traders from furnishing our Indian Enemies with Gunns or Gunpowder We cannot tell; And therefore humbly repeat our Instances to your Lordships, that such proper Methods may be forthwith taken, as
your Lordships shall think most conducive to prevent the Virginians and other Inhabitants on the Continent, from supplying the Indians that now are at war with Carolina or may hereafter join against us with any Guns Gunpowder or other warlike Stores under the Severest penalties.

We are the more urgent upon this Head, because the safety of the whole Province seems in a great measure at present to depend upon it: We have not as yet been able to obtain any relief any arms or any men from England: Our last advices give us grounds to apprehend, that some men, which were ordered from North Carolina to our assistance, are cut off by the Enemy and that an Inundation of Indians will fall down upon the Settlements, now about the beginning of Harvest: if so, nothing can save us, but their want of Ammunition.

Your Lordships zeal and Readiness for the relief of Carolina encourages us to apply to your Lordships upon this occasion not doubting but your Lordships will continue your good endeavours for preserving the Province and thereby lay new obligations

Your Lordships
Most obedient humble servants

LIEUT. GOV. SPOTSWOOD TO LORDS OF TRADE.
24. OCTOBER 1715.

My Lords,

* * * * * * * * * *

There are now two Gentlemen come as Agents from South Carolina to treat with this Government for a further assistance of Men; but the
treatment those already sent have found there has entirely disabled me 
(tho' I were never so willing) to afford them further succours; for tho' 
the chief encouragement for raising the men here, was the promise of 
that Government to send hither an equal number of slaves to work on 
their Plantations during their absence, yet not one hath been sent, nor 
any great prospect of their being sent at all, so as to do the service 
expected of them: Another condition was that, the Virginians should 
be commanded by their own Officers, and should act in one body, but 
even that also is broke, the Governor of Carolina not allowing of my 
Commissions, and disposing the men into Garrisons remote from one 
another. And in short almost every one of the Articles are violated, 
and such complaints from the men, of ill usage, in respect of the pay 
and cloathing promised them, that I am persuaded I could not find one 
man in this Colony that would engage in that service. And as this body 
of 150. men sent to South Carolina, is the first assistance of that kind 
which I can understand has been given by any of His Majesty's Plantations 
here to the other, So I am afraid the great discouragements this 
hath met with will make it the last. And it is the more ungrateful in 
the Government of Carolina to treat our men in this manner, considering 
the signal service they have done them; for while the Governor had 
drained all his Garrisons for an Expedition against some Indians to the 
North West, about 700 Indians fell upon the Southern parts of the 
Province, and destroy'd all before them, within a few miles of Charlestown, 
but the Forces sent from hence arriving just at that time, immediately 
march'd, met with and defeated that Body of Indians; and 'tis to 
them that the preservation of the rest of the Country is owing: but the 
Treatment of the Virginia Forces may be easily accounted for from the 
alteration of the Carolina Affairs, which are not now under the unhappy 
situation they were in, when these men were raised; for since the last 
defeat, the Indians appear no more on their Frontiers, and the Northern 
Nations ceasing their Hostilities and suing to this Government for Peace 
'tis probable the others will soon follow their example.

JOURNAL VA COUNCIL

1 November 1715

For the better and more speedy determination of the dispute concerning the boundaries between this colony and North Carolina, it is the opinion of this Board that it be proposed to the Governor of North Carolina to agree that from the mouth of Carratuck River or Inlet and setting the compass on the North shore thereof, a due west line be run and fairly marked, and if it happen to cut Chowan river between the mouth of Nottoway river and Wiccon Creek, then the same direct course shall be continued towards the mountains, and be ever deemed the dividing line between Virginia and Carolina, but if the said West line cutts Chowan River to the Southward of Wiccon, then from that point of Intersection, the bounds shall be continued up the middle of Chowan River to the entrance of the said Creek, and from thence a due west line shall divide the two Governments; as on the other hand, if the said West line cutts Black water River to the Northward of Nottoway, the bounds shall be continued down the middle of Blackwater, to the middle of the entrance of Nottoway River, and from thence the line to be run due West for the dividing bounds between the two Governments. That if the said due West line shall pass thro' Islands or small strips of Land which might more conveniently be included in the one Province or the other by natural water bounds, the Commissioners of both sides shall have power to settle natural bounds and that all such variations from the West line be particularly noted in the Maps of the said Bounds to be put upon the Records of both Governments.

Mr URMSTONE TO THE SECRETARY.

NORTH CAROLINA Feb 14th 1716

Sir

I have lived this place five years in hopes of some provision being made for me here, but now I plainly see they never intended it with great difficulty & charge I prevailed with seven of our Worshipfull vestrymen to meet March 2nd 1716 in order to answer Col. Nicholson's letter and comply with the demands of the Honble Society, but if you have that account they gave of the Circumstances of their parish, you'll find no mention of what they allowed me, nor could I engage them to resolve on anything notwithstanding I prest them very earnestly. On the 3rd of January following the like number with much solicitation were pursuaded to meet again, but 'twas to divide the parish & make two of it, so that they might not be at the trouble of crossing the Sound (and yet they would have obliged me to do it 3 times in a month) they then endeavoured to put me off as-before, but at last agreed to allow 110 for the 3 years past. Had I officiated in another parish alternately as the Vestry act empowered me, they ought to have paid me 30£ @ Annum in each, but the difficulty of attending upon two parishes being great they offered me the hire of 2 parishes provided I would goe the River, as heretofore, which was not possible for me to do before, I had a canoe and servants & when furnished therewith whilst abroad my family starved at home, so that I was constrained to keep my hands at home and make Corn or we must have fasted. I was very much blamed, and seeing I had not answered their Expectation it was thought great generosity to give me £110 from that time to this I could never prevail with them to meet: I went and wrote to the church warden who was to collect the money diverse times but to no purpose, he never designed it, Another year is expired and now some of the bards tell me, truly they did not hire me the last year, nor will ever employ me more but are Mustering & contriving to pay me as they have done all before me, with lyes and all manner of scandalous stories, lading me with reproach and
contempt, so that now I am in a fair way to be starved. I have no grain of any kind whatsoever, nor any sort of provisions save 5 young porkers which weigh about Quarter each and have nothing to buy with; no longer credit at Boston by reason of nonpayment of my Bills in England. I want to have rum sugars and Mulasses from thence and with that I could buy provisions; we are all naked and the Winters very severe; I have lately lost a Negro he was merely starved for want of clothes and a warm lodging and I shall be obliged to sell the other Negro to keep us till I hear from you which I pray may be with all speed. Here I cannot stay therefore beg I may return home and be allowed my Salary according to the Standing orders of the Society 11.18 Page 56. otherwise I shall not be able to procure us a passage, for my Plantation and all I have will be seized for debt except my Bills be paid in England, but so many have been sent back protested, that 'tis generally believed the Society will pay no more, at least many here wish they may not, I have been at great charges and trouble in endeavouring to get my house fit to live in with the addition of a couple of little rooms one a shop for me and the other a kitchen to dress our victuals when God sends it, it hath cost me near 100 too besides dyet, lodging and the attendance of all my family for a great part of a year. This order for £110 gained me Credit with the Workmen but being disappointed by the Churchwarden, have been forced to raise all the money I could, have borrowed £50 and some work is still owing for, I owe a servant maid that my Wife brought from England upon Wages, for 4 Years service, the poor Girl is almost naked, many may wonder how I came in such circumstances, but 'tis easily made appear; have no support from the wretched folks I was constrained to anticipate or draw faster than money became due, I had but 50 pt against Sterling money and gave 5 or 600 pr ct for everything that I bought except victuals which truly is cheap enough & generally very plentiful; we made most years 50 or 60 Sloops and other Vessels with all sorts of good provisions and God knows reap small benefits by it. Goods are sold at such exorbitant prices, If I could have had the money that has been due to me from the Society invested in Goods, I might have lived handsomely and had a thousand pound in pitch which would have fetched as much in England clear of all charges. I am told Mr. Rainsford is designed for England in order to be admitted Pensioner again for this miserable place; I wonder at it, for he had the short yet a full taste of the temper and nature of these Ephesian Beasts, & their treatment of Ministers, he had a plentiful reward for the service he did, was laden with Scorn Contempt & Calumny, abun-
dance of Scandalous, I hope false; Stories are told of him; tis said, provided I could have removed he would have staid in the Parish and not have taken a farthing of them (which was a very endearing article) for he had a sufficient support from England; if true, I believe he'll be of another opinion now, for he has married a Sorry girl in Virginia, besides his way of living requires a good income; We have had all our Laws revived and amended where needful, it was (and still they are confused and simple enough) and tis said they are to be sent to the proprietors for their approbation and then be printed it would be well if you could procure a Copy of the Vestry Act, I suppose the Society will not allow of it; for tis in the power of every new Churchwarden to continue or not their Minister: Likewise it ought to be specified that the Ministers Salary be paid in the Staple Commodities of the Country, viz', Corn, Wheat, Beef and Pork & pitch at his dwelling house for tis not with his labour to collect it, but beware such another may never pass and in after ages perhaps these Amendments may be made with the consent of an Assembly, I beg of you to desire the Treasurer to send me an account of all the money paid to my use since my late Attorney refused to act for me he sent me a Balance to Sep 29th 1713 he had then in hand £14: 16: 6 I draw'd a Bill for £10 upon him since that and he sent it back protested I long to know what has become of my money from that time: According to my drafts I shall owe but seven pounds the 25th of the next month if all my bills were paid, but Mr Jekyl at Boston writes me that my last Bill of £20 payable to him is not paid, and there is another to Thomas Haundry Merchant for 37£ come back protested, Mr. Tryon said he no effects, and yet since both these, one to Thomas Lee who went from hence for 20£ was punctually paid. If my attorney has received any thing since my ae he has wronged me: he pretended he would never be concerned for me; & accordingly in one to Mr Hodges I revoked the power given him and desired no more money might be paid to him.

I sent my Journal to Michaelmas last by way of Virginia, date X 16. I should be glad to know it came safe for 'twas kept here 3 Weeks and I have no great reason to believe it was opened, if not destroyed you know my seal without doubt. We have had no News a long Time from North Carolina, God knows what condition they are in, we have great reason to wish for their success. I am

VIRGINIA, Feb'y 18th, 1715 [1716.]

To the L'ds Comm'rs of Trade:

MY LORDS:

After so many years spent in fruitless Endeav'rs to ascertain ye Boundaries between this Colony and No. Carolina, and the frequent trouble w'ch that dispute has occasion'd to y'r Lo'ps' board, I hope ye pro'sal w'ch I here enclose will be the more acceptable, as it is the only Overture which has been made from ye beginning, wherein both Govern'mts could be brought to acquiesce; And indeed is the only Expedient I can think of to put a speedy end to this Controversy, for while both sides insisted on the boundary which each claimed and brought positive Evidences to support their pretensions, while the Observations of the Lattitudes were disputed, and the Instruments by w'ch they were taken Questioned, and that, notwithstanding the repeated orders of her late Maj'tie for ye proprietors to appoint new Commiss'rs, four years have pass'd without any Step made on that part towards complying with those Orders. It was not easy to foresee an end to this Contest, thi' the Inconveniency of both Govern'mts by the continuance of this dispute is very obvious, and likely still to increase—many people settling themselves in those contrverted Lands who own obedience to ye Laws of neither Province. If the Observations of ye Comm'rs and Survey'rs of this Govern'mt are just, his Majesty can be no great loser by runing the boundary as propos'd in ye enclos'd Paper, viz., a due West Course from Corrotuck's Inlett; but if these observations should prove erroneous, whatever shall be lost thereby will be made up by saving a great expence in runing this Course rather than the transverse line from Curratuck to Wicconi, through one of the most unhitable and impracticable wilderness that is known in these parts, where the best Artists we have must have been at a loss to Steer to the point designed, and consequently must make divers Experiments which would increase the Charge. But without arguing any more upon the Advantages of this Proposal, I shall only add that I have acted herein what I think most for his Maj't's Service, according to ye present Light I have of that affair, and shall submit to y'r Lo'ps to lay it before his Maj'tie with such Recommendation as you judge it deserves; And if his Maj'tie shall approve thereof, and that the Lords Proprietors will readily come into it, I shall then hope for the Satisfaction of seeing a speedy determination to a very intricate and perplex'd business.
To prevent any Cavils w'ch may arise in laying out the Boundarys, I humbly propose that y'r Lo'ps would be pleas'd to obtain such Instruments to be Sent in hither as shall be approv'd on by his Maj'tie and the Lords Proprietors, and that directions may be also sent in what manner the charge shall be defrayed, since there will be occasion to employ several people for marking out the Line, and in some places to make use of boats, of which it is reasonable the Proprietors should bear their proportion.

I shall observe y'r Lo'ps' directions as to ye other particulars mention'd in y'r Letter, of w'ch y'r Lo'ps shall have an Acc't as occasion offers, being desirous of nothing more than to give y'r Lo'ps proofs of the Respect w'th w'ch I am, &c.

PROPOSALS FOR DETERMINING THE CONTROVERSY RELATING TO THE BOUNDS BETWEEN THE GOVERNMENTS OF VIRGINIA AND NORTH CAROLINA: MOST HUMBLY OFFERED FOR HIS MAJESTY'S ROYAL APPROBATION, AND FOR THE CONSENT OF THE RIGHT HON'd THE LORDS PROPRIETORS OF CAROLINA.

Forasmuch as the dispute between the said two Governments about their true Limits continue still, notwithstanding the several meetings of the Commissioners, and all the proceedings of many years past in order to adjust that Affair and seeing no speedy determination likely to ensue, unless some medium be found out, in which both parties may encline to acquiesce: Wherefore both the underwritten Governors having mett and considered the prejudice done both to the King's and the Lords Proprietors Interests by the continuance of this Contest, and truly endeavouring at a Decision which they judge comes nearest to the Intention of the Royal Charter, granted to the Lords Proprietors, Do with the Advice and Consent of their respective Councils Propose as followeth.

That from the mouth of Corrotuck River or Inlett, and setting the compass on the North Shore thereof a due West Line be run and fairly marked; and if it happens to cut Chowan River between the months of Tottoway River and Wiccons Creek, then shall the same direct course be continued towards the mountains, and be ever deemed the Sole Dividing Line between Virginia and Carolina. That if the said West Line cuts Chowan River to the Southward of Wiccon Creek, then from that point of Intersection the bounds shall be allowed to continue up the Middle
of the said Chowan River to the middle of the entrance into the said Wiccon Creek, and from thence a Due West Line shall divide the said two Governments. That if the said West Line cuts Blackwater River to the Northward of Nottoway River; then from that point of Intersection, the Bounds shall be allowed to continue down the middle of the said Blackwater River to the middle of the Entrance into the Nottoway River, and from thence a Due West Line shall divide the said two Governments. That if a Due West Line shall be found to pass through Islands or cut out small slips of Land, which might much more conveniently be included in the one province or other, by natural water bounds; in such case the persons appointed for running the Line shall have power to scale natural bounds, Provided the Commissioners of both sides agree thereto, and that all such Variations from the West Line be particularly noted in the Maps or Plats which they shall return to put upon the Records of both Governments.

All which is humbly submitted by

'North Carolina Feb'y 28th 1714

Sir,

Since the delivery of mine pr. this same opportunity and the Copy thereof P via Boston, I understand that a Copy of our law is sent P Godfrey so that if the Society think fit to procure a sight of the Vestry Act there must be no delay. I presume they'll not approve of it what I think most material to be added is that it be not in the power of the Vestry to remove their Minister at pleasure. that the Ministers Salary be paid in specie of the Country produce at his own house; that a Table of Fees belonging to the Surpliss, as Weddings, Burials, Funeral Sermons &c be agreed on by the Vestry and made publick: but nobody be buried but by the Minister nor married; that the Minister be exempt from all taxes, Imprests or Levies upon him or any belonging to him; all liberties & privileges, as is practised in England be continued and observed, as far forth as is consistent with the Country, that the choice of one Church Warden yearly be allowed him, that the Vestry do meet at least once every Quarter, in Easter week especially and chuse Churchwardens and whatever else the Honorable Society may think fit and can be obtained of the Lords Proprietors.
The Proprietors must be prest to use their Interest with the Colony to have all such amendments made the next assembly after the return of the Laws, for the proprietors have not Authority enough to ratify them without the Consent of an Assembly. This sending of the Acts to be perpetuated by the Proprietors is the only Step made since the settlement of the Colony to make it a regular place, soon after the grant of this Colony to the proprietors they made several laws and constitutions which are in Print but these have been little regarded for many years, if not quite set aside and the Lords power of little Force, they were wont to have all Acts of Assembly confirmed by the Lords or else they were not in force above two years; but of late they never trouble the proprietors at all but passed and annul'd Laws at pleasure and at the first meeting of every Biennial the old laws were confirm'd and to be continued for the two years following and by that means, evaded the Lords, approving or disallowing their Laws, according to the power they reserved to themselves on the Fundamental Constitutions I suppose the Lords will scarce approve of all the Acts.

This comes to a friend passenger in Capt. Godfrey; I pray acquaint if mine by him and the Copy at Boston come to hand under the Seal of Sir Your humble Serv.

LETTER FROM THE ASSEMBLY OF SOUTH CAROLINA TO THEIR AGENTS IN GREAT BRITAIN, DATED THE 15TH MARCH 1748 GIVING AN ACCOUNT OF THE ILL STATE OF THAT PROVINCE.

Gentlemen,

We have lately seen a letter from Mr Beresford dated December y* 27th 1715 directed to the Commission appointed by y* late Assembly to correspond with you wherin he mentions y* receipt of one from the said Commission dated August the 25th 1715 with the address of our late house of Commons to his Majesty, to take the immediate Government of this Province into his own hands. We are glad to hear that you have delivered the same & rejoice at the hopes you give us that something will be done at Court in our favour, at the same time we wonder that his letter should come only from Mr Beresford, expecting that you both should act joyntly in all things which concern the good of this Province.
Wee the Members of Assembly now sitting have thought fit by this opportunity to send another address to his Majesty on the same head & desire that you will deliver y* same and that you will with your utmost application endeavour to get our request fulfilled for according to all human probability unless his Majestie doth take this Province under his immediate protection and sends us men to defend us and money to defray our Charges this once flourishing Collony will be reduced to nothing and become a pray to our Barbarous Enemies.

According to a moderate computation of y* Charges that this Government has been at for the Support of the Warr it amounts to near one hundred and forty thousand pounds what farther Charges we shall be at God alone knows, we need not use any arguments to make you sensible that this will be a greater burden than this poor Province can possibly bear.

We are now to inform you that the Forces wee had from Virginia and North Carolina are upon their departure home, being unwilling to stay any longer and our Government is y* more willing to gratifie them in that particular by reason the charge we are at in maintaining them is greater than we can bear.

We hope Gent when you have duey weighed all these particulars that you will be fully convinced that our affairs do still look with a very dismal aspect and that no endeavours in you will be wanting to get as immediate assistance which onely under God can save this Province from utter ruin.

The vessel by whom you will receive the address to his Majestie & this letter is just now going over the Barr which obligeth us to come to a conclusion and to be very short in the relation of the affairs of this Province with the Government of Virginia. Wee shall only mention that we are now finding out some means to give that Governm* all the satisfaction they can in reason desire the particulars of which you shall have by our next. Wee should not have mentioned anything on this head at this time had not the Govern* of Virginia sent us word that he would endeavour to make us look as odious as he could both at home in England and in all the Kings Govim* in America upon the account of our non performance of every particular branch of the Treaty of assistance agreed upon between that Gover* and our agent sent thither for that purpose. At the same time we must confess that if our late Assembly had fully complied with that agreement it would not have cost this
Province near so much money as the measures we shall now be obliged to take
signed by order of *y* house
THO: BROUGHTON. Speaker.
We order you to lay the State of this Province as you now receive it from us, before his Majesty as we have promised in our address you should.

COLL. EDEN TO THE SECRETARY

Chowan North Carolina May 10th 1716

Sir

I recei the honour of yours dated Nov' 18th last but the 5th day

As soon as the Vestry's can be called of this precinct, the place of Mr' Urmston's residence, I shall in obedience to the Commands of the Most Honorable Society recommend that Gentleman's case to them and make
not much doubt the members will relieve him in the affair he complains of to your Board and as for the Precinct of Pasquotank he has already receiv'd part of that money and the residue will be paid in by Tuesday in Whitsun week which is the time appointed by that Vestry for it; I have particularly recommended that matter to the Secretary of this Province who I am well assured will take all necessary care of him.

If Mr Urmstone is not so happy in this place as he might have been, I doubt he has but himself to thank for it; He has been but a moderate conducer of his affairs, which I believe has run him into so many ill conveniences that he easily might have avoided, But having spoken so largely of that Gentleman already, I care not for mentioning him now, nor should I have done it had it not been in regard to the Country whereof I have the Honour to be Governor.

I take the liberty to enclose with this an Abstract of an Act of Assembly made here the last Winter which I beg Sir you will lay before the Society. It may serve to give those Gentlemen a specimen of the inclinations of those poor people Tenn* to my Masters the Lords proprietors were not so black as they have been painted, but on the Contrary are as willing as any of his Majesty's Subjects on the Continent to contribute to the utmost to the subsisting of Ministers that are Gentlemen of good lives and affable behaviour & conversation. Though hitherto it has been their misfortune to be in a manner void of such necessary instructors, I dare not presume to ask any favor of the Gentlemen of the Society. They being the only Judges how, for they can extend their nursing care to a poor uninstructed people. But if we cannot be so happy as to procure ministers for each four parishes would they but please to send us schoolmasters qualified, as mentioned in their most excellent rules. I verily believe the Inhabitants would willingly pay them the greatest part of their Salaries established by the Act for reading the Service and Catechising the Children reserving the overplus to any of your Missionaries who should visit them twice or thrice in the year.

In most of the parishes they have already established two or three readers who are the most capable persons we can get here. To some of which they allow pr. Ann thirty pounds. To others twenty pounds and to none less than Ten pounds.

The Gentleman you mentioned to be ordered from the Southward to Bath County is not yett arrived whenever he does I wish he may be such an one as they have need of otherwise he may prove of ill consequence by giving room to Sectaries breaking in upon the people, who as yet have few or none amongst them. How soon they may be fur-
nished I know not. They beginning now, to reap the benefit of Peace with the Heathen, which since my former I have had the good luck in a great measure to procure for them & make but little doubt of Establish-
ing that great blessing.

I intend in the Fall to settle at Pempsough with my Family & entreat your Favour with the Society, that an honest Gentleman may be appointed thither, where I am confident the poor People would do any-
thing to encourage him to discharge so great a Trust, and whilst I am speaking for what I should esteem my own particular happiness to have the conversation of such an one, So you may be assured I would let noth-
ing be wanting in my part make every thing Expedious.

I beg my most humble duty to the most Honourable Society, whose commands I shall always Esteem my happiness to Obey whenever you communicate them to him who is with great respect

Sir Your Most humble Servt

CHARLES EDEN.

MEMORIAL FROM Mr. BERESFORD, REPRESENTING THE PRESENT STATE OF SOUTH CAROLINA.
(23rd June 1716.)

To the Rt Honble the Lords Commissioners of Trade and Plantation.
May it please your Honours

The present State of South Carolina is as follows.

That Province having for a year past been engaged in Warr with the Indians Numbers of its Inhabitants have been destroyed by Fire and sword and many more have deserted the Place.

The small number of whites (fit to bear arms) that are left continue to desert the Province and had not the Government of Virginia and North Carolina sent to their assistance about two hundred men (for part of whom they were obliged to consent to Terms almost impossible to be complied with) many more if not the greatest part of the present Inhabi-
tants would in all probability have deserted. The whole Province being thus distressed and despairing of further assistance from other American Colonies as also from the Honorable the Lords Proprietors of that Prov-
ince, were under a necessity of making application to the King and Par-
liament to enable 'em to subdue or reduce their Enemies to Reason.
Accordingly their Case by Petition from their agent and severall Merchants of London trading thither was on the 9th of Augst last laid before the Parliament and after an Examination before the Committee. The Honorable House of Commons were pleased to address his Majesty to send to the assistance of Carolina such supplies as in his great wisdom should be thought needfull, the charge of which to be made good in the next aides.

Whereupon his Majesty was graciously pleased to send a sufficient Quantity of arms & ammunition but the unnatural Rebellion obstructed sending men.

By advices since the said Stores of War were sent which came with Petition from the Upper and Lower Houses of Assembly of that Province to his Majesty for relief and protection it has been represented that a supply of men and money is the chief of what they stand in need of without which they are in the greatest danger of loosing that Province, the remaining small number of its Inhabitants being almost wearied out through continual fatigue and the charge insupportable.

A second Petition from the Agents Merchants and others to the King praying that some of the Rebels who petitioned for to be transported might be sent to Carolina toserve in the time of their Extremity until better provision could be made for them was under the consideration of his Majesty and the Lords of the Council. By other Letters and advices received the beginning of March last from the most interested and credible Inhabitants it appeared that notwithstanding they had made peace with one Nation of their Indian Enemies they were still obliged to employ all the force of Whitemen they could raise together with many of their black slaves against those Nations of Indians who were the forwardest to begin the War and have since committt the greatest Barbarities.

All which Representations and Applications being made to this Government and also by proper persons here made known to the Honourable the Lord Proprietors and no sufficient assistance sent them. About the beginning this instant June arrived here from that Province another address to the King and a letter from the Assembly there very plainly setting forth their present State which having been shown to the Honourable the Lord Cartwright and others the Lords Proprietors of that Province they have signified their dislike thereto and as we have too much reason to fear will not only refuse to consent to what may be necessary on their parts but also endeavour to invalidate the said Representation which obliges us the more earnestly to make all the application we are able that the condition of those distressed subjects may in the most effectual manner be laid before and come under the consideration of his Majesty and
the Government with the greatest Expedition. The objections answered
and the Province assisted by this Nation with men and money which if
timely effected may prevent the destructive confusion if not utter ruin
of that Frontier to the French Spaniards and Indians of all the English
Plantations on the Main of America whose situation and Extent makes
it capable of improvement in the best of commodities and Trade, on which
subject we beg your Honours Patience will suffer us a little to enlarge
and also to deliver some copies of the yearly imports and exports of the
Province before their present troubles and thereby to expose the designs
of the French and make known the advantages which will accrue to this
Nation by preventing them and encouraging the cultivating of that fruit-
ful Land. By many former circumstances as well as by the late Letter
from the Assembly of Carolina there is too much reason to be assur'd
that the French (who live and trade with the Indians from Quebec and
along the Lakes of Canida and Southward too and down the great river
of Mississippi to Fort Morilla situate on a River near the Mouth of
the said great River with the Bay of Mexico) have stirred up and
encouraged several Nations of Indians to this War.

And as the French have of late years (very far with the bounds of the
Charter of Carolina) settled themselves on the back of the improved part
of that Province by which they are as near those Indian Settlements who
were in alliance with Carolina as the English there are, and thereby hav-
ing possessed themselves from the Northernmost part of the Sea to the
Southermost on the back of all the most valuable Brittish Plantations
and Colonies on the Main of America and having with them very numer-
ous Nations of Indians. Tis too obvious what they (especially South
Carolina) must expect whenever a Rupture with France may happen if
not before It's also as obvious how formidable the French will grow
there during Peace, considering how industrious they are in frequently
supplying their Settlements with People &c. An Instance of which we
were let to know by late advices from France that shipping with Men
and Women were going from Brest to their New Colony Luciana on
Mississippi which by the small number of Inhabitants in Carolina the
French had the opportunity to begin and by the present troubles with
the Indians are encourag'd to encresse.

Carolina being the only Southern Frontier of all Brittish America both
to the French and Spaniards who have sheltered those very Indians who
commenced this present War with the English it is humbly presumed that
a settlement of his Majestys Subjects on one of the Bahama Islands (now
inhabited only by a few scattered English Settlements notorious for being
without Governmen' &c) with a small garrison there it being on the
Easternmost side of the Gulf of Florida, and the like Settlement and Garrison on Port Royall Island adjoyning the main land of Carolina on the opposite side of the Gulf, and as occasions might be vessels appointed to attend that short Cruise would be the greatest security imaginable not only to Carolina but to other American Colonies possest by the English.

Those Islands being a very pleasant and profitable Climate when protected and encouraged will very soon flourish and fill with Inhabitants and in some measure deter the French from increasing their Settlements on Mississipi for as much as it will be difficult for any ships to come through the Gulf (as all Spanish Galloys and French from Mississipi and Morilla are obliged to) but they will be discovered. Port Royall Island hath an extraordinary Harbour for shipping by all Pilots allowed to be the best upon the coast of Carolina having about four fathom Water on the most difficult Entrance and abounds with Provisions and Naval Stores and amongst the Bahama Islands it is beyond doubt there want not the like advantages for such an undertaking.

That in time of Peace it is much more adviseable to make such Settlements on the said Islands than in time of War is humbly presumed wants no Demonstration.

Carolina being thus circumstanced and capable of affording greater quantity of valuable produce than any other part of British America, as the best of Rice in abundance, all manner of Timber for building, shipping in great plenty, Pitch, Tar, Turpentine, Rossin, Indigo and Silk which has been manufactured in London and proves to be of extraordinary Substance and Lustre omitting to mention the great quantity of provisions and other necessaries it affords the Plantation. 'Tis humbly hoped the King and Parliament will be of opinion that it merits a particular notice and Protection.

That Colony being capable of producing sufficient quantities of many of the aforesaid commodities not only to supply great Britain but several other parts of Europe the first costs of which being paid for in british manufactorys and the whole freight rebounding to his Majestys Subjects are circumstances worthy the notice of the Legislature.

If the Inhabitants of Carolina and the Bahama Islands were more numerous and protected it is not doubted but that several other productions would thrive well in that climate as sentchanel, sugar, Fruit Coffee Olives Spanish vines Drugs and Cotton Wool & has been tried & comes to perfection not to enlarge on the mines of silver if not gold which are expected to be found in the Appalatia Mountains, situate between the Frenches new settlement on Mississeppi and the improved Part of Carolina.
There are also great quantiyts of Cedar & Cypress far exceeding any Norway Deals being free from Knots of curious white colour, great lengths proper for floring of the most magnificent Buildings. The Cedar for some uses far exceed any other sort of wood and at the request of some Noblemen and Gentlemen of this Nation hath been brought into this Kingdome but the Importers being obliged to pay duty for it as Sweetwood amounts to a Prohibition the further Importation thereof has been quite discouraged our navigation lessend and and given to Foreigners of whom we purchase in part with Money and loose the advantage of Freight

Mr. Boone & Mr. Beresford attending with Mr. Godin and another Gentleman lately come from Carolina Mr. Boone acquainted the Board that he was ordered by the Assembly of Carolina to return their Lordships thanks for their endeavours to put that Province under the immediate protection of the Crown, And being asked how the Indian war stood there at present, they said it was not yet over nor had they heard that any advice was arrived at Carolina of assistance by means of Brigadier Hunter from the Indians at New York That in their opinion that war could not be put an end to by Indians only without the assistance of white men—But it being observed to them that the Province of Carolina had not comply'd with their engagements to Virginia for the assistance they have had from that Colony, Mr. Boone said that their first Contract became impracticable but that the Province of Carolina had allowed fifty shillings a head per month in lieu of each Negro woman they were to furnish and that he did not doubt but the difference between those Colonies would be soon accommodated.

Resolv'd that Blank Deputations be sent to North Carolina

Mr. Eden's Report about the laps'd land in answer to their Lord's letter to him of 26th March last with several Queries to Mr. Lee and his Answers were read.
And their Lordship were of opinion that Mr. Eden's said Report & Remarks &c are a full and just vindication of their Lordship Officers in that part of the Province from the unjust and malicious complaints of Mr. Lee in relation to the Lapse'd Land.

It was their Lordship's opinion that the Tenants ought to be held to their covenants in their Grand Deeds in relation to the payment of their Quit Rents but that all the purchase money now due for land should be made in Sterling Money or sixteen penny weight the Crown or in the produce of the Country equivalent thereunto And their Lordships resolv'd to put a stop to the selling of lands of North Carolina but at their own Board.

Order'd that a letter upon this subject be prepared by the Secretary to the Council and Assembly of North Carolina.

[Letter to the Council and Assembly of North Carolina, 1716. August 1st]

To the Council and Assembly of North Carolina Gentlemen,

Our Governor Mr. Eden having sent the Laws of our Province of North Carolina, as they were revised and settled by you at the last meeting of your Biennial Assembly which began on the 13th Nov' 1715 that we might peruse and give Our Approbation of the same; We do hereby assure you that we will carefully look them over, and ratify and confirm such of them as may any way contribute to the good Government Trade or Welfare of our said Province, and shall take care to transmit them to you with what convenient speed we can.

But in the mean time we cannot but take notice how unreasonably you concern yourselves in matters relating only to Us, which is our property vizt. You would in a Clause of your last Act of Assembly oblige Our Receiver to take your Bills for the purchasing of Our Lands, and for the payments of the small quit Rents we have reserved by the Deeds of Sale. We think you have nothing to do with our Lands and therefore you must expect to receive that Clause at least, in that Act of Assembly repeal'd.

We are of opinion that our Tenants ought to be held to their Covenants in their Grand Deeds in relation to the payment of their Quit Rents and that all the purchase money now due for Lands should be made in sterling money or at sixteen penny weight the Crown, or in the produce of the Country equivalent therunto.
We are further to inform you Gentlemen that we have resolv'd that no more Land shall be sold in Our Province of North Carolina, but that such sales of Land only as are made here at our Board shall be good.

We desire you to remember that all Laws pass'd by the Assembly, after they are repeal'd by Us are void, and that no Law whatever either already pass'd or that hereafter shall be pass'd can be in Force for any Longer time than two years, unless such Law is within that time confirmed under the Hands and Seals of Lord Palatin and four more of the Lords Proprietors.

Mr. Eden has sent to us a Petition he received from the Freeholders and Inhabitants of Bath Town in the County of Bath may be made a Sea Port Town, and a Corporation; We are very willing to indulge the Inhabitants of our Province in any reasonable Request, and we have therefore order'd Our Secretary to draw an Instrument to signify to the Custom house here Our Pleasure that the Town of Bath shall be made a Sea Port Town, and to send a Duplicate of the said Instrument to you that you may lay the same before the Surveyor General of the Customs when he shall arrive in Our Province of North Carolina.

We doubt not Gentlemen of your Endeavours for the Good of our Province; So We bid you heartily farewell, and are,

Your very loving Friends

And whereas several of the Inhabitants of the Province of North Carolina have represented to us the several and great conveniences and advantages that may accrue to his Majesty's subjects in General by constituting and erecting a Port at Bath Town in the County of Bath, being, as the alledge the most proper place within the said Province for ships to take in Masts, Pitch, Tar Turpentine and other Naval Stores for the use of his Majesty's Fleet, and which may be purchased by such Merchandizes and Commodities, as are of the Growth, Production and Manufactury of his Majesty's Kingdom of Great Britain. LETTER TO THE GOVERNOR OF NORTH CAROLINA.

To Charles Eden Esq*

Sir,

Your Report, in answer to our Letter wrote to you 26th March 1715 concerning the ill use some of our Officers made of the Law pass'd in the Assembly, relating to laps'd Lands, and also several Queries you put to Mr. Lee and his answers thereunto, and a Petition of the Inhabitants of Craven Precinct, with your Remarks upon the Cases of the several Petitioners were this Day read at Our Board, and after a due consideration of those papers, we were all of Opinion, that they were a full and just Vindications of our Officers from the unreasonable and malicious Complaints made against them by Mr. Lee. But that which gives us great satisfaction in your Report, is where you take notice that the Intention of our Letter to you was the Relief of Orphans and Widows and others who were render'd Objects of Compassion by the Calamities of the War, but you say hitherto very few have appear'd under those Circumstances, but if at any time such shall make their Case known, with very great pleasure you will do every thing in your Power for their Relief that we can require of you. This is all that We desire of you; For what We have constantly at heart is, that justice may be carefully and duly administered in Our Province, and that the Peace and Satisfaction of all the Inhabitants under Our Care be most effectually established.

The Body of your Laws have been laid before Us, We shall take care to peruse them, and repeal or confirm them after due Consideration, as we shall think most proper and convenient for the Service of the Country. What We have done in relation to the Bills passing in payments to Us for our Lands and for our small Quit Rents, We refer you to our Letter to the Councill and Assembly, but we have resolv'd that no Land shall be sold in the Province under your Care, but that such sales only
of Land as are made at our Board shall be good and of this We expect you should give Mr Maule Our Surveyor General notice.

We have consented that Bath Town according to the Petition sent by you shall be made a Sea Port Town, and we have given our Secretary Orders accordingly. But how or after what manner it shall be made a Corporation we have taken time to consider of. We wish you all happiness and success in your Government and are,

Your very loving Friends,

The Honble Govern'r having Communicated to this Board a Letter from the Govern'r of Virginia thereby acquainting him of his Intention to Settle the Enoe, Sauer & Keeawaves Indians at Enoe Town and to desire ye Concurance of this Government thereto which being Considered by this board it is their Opinion that this Governr cannot by any means Concur in that affaire by reason that a Letter lately received from
y* Governo* of South Carolina and also laid before this board wee are assured that Sawraw Indians are now in Actual Warr against y* Inhabitants of that Governm* and we have also reason to believe that the Enoe and Keowaws are also engaged in y* Same Warr

This Board is also further of opinion that notwithstanding the present necessitiys of the Government of South Carolina should Oblidge them to come into a peace with y* Indians yet in regard they have always been a Treacherous and Roguish people It would be of the worst Consequence to settle them in any part of this Government. And more Especially at Enoe Town it being on the very Frontiers of our Settlement where they would be Capable of Supplying our Enemies and do Offices of y* most Dangerous Consequence to this and our Neighbouring Governm* of South Carolina

The Hon* the Governo* having also communicated a Letter to this Board from y* Governo* of South Carolina wherein he desires that some of our Indians and white men may be sent out to annoy the sawraws and other of y* Northward Indians and Enemies to that Government

It is y* Opinion and request of this board that the Governm* Doe appoint Tenn or Twelve voluntiers with such a number of Indians as he shall think fitt to goe out upon that Expidition and that he give them such Instructions as to him shall seem meet in that affaire

The Hon* the Governo* having laid before this Board some papers said to be a Copy of the Journal of the Lower house assembly Dated in Novem* 1715 wherein amongst other things are Conteyned the following Resolves (viz) Resolved that the Impressing the Inhabitants of this Governm* or their Effects under pretence of its being for y* Publick Service without Authority of Assembly is unwarrantable A Great Infringm* of the Liberty of y* Subjects and very much weaken y* Governm* by causing many to Leave it

Resolved that the Late Ili Treatment of y* Core Indians Contrary to the articles made with them and the Teno* of an Act of Assembly relating to Indyan Affairs very Injurious to the Justice and Regulation of this Governm* and is likely to involve this Government if not a Warr w* y* Indians.

Resolv'd that such persons who refuse to Take the publick Bills of Credit in payment of Fees or Quit Rents or that demand or Receive any allowance for Takeing Fees or Quit rents in bills do very much lessen y* Credit of them and are Guilty of a very Great Breach of the act of Assembly concerning the currency of the bills
Resolved that Co\n Edward Moseley Speaker M* Joseph Jessup, Co\n Thos Boyd, M* W* Swan, M* John Porter, Cap* Fred* Jones and M* Daniel Macfarlan or any faur of them have full power and Authority to represent the Deplorable Circumstances of this Governm\n to y* Lds proprio\n and that their Ldsps be Intreated to accept of y* Publi\n Bills of Credit for y* purchase of Lands in this Governm\n as well as in South Carolina.

It is the Opinion of this Board that the said Resolves and Every of them were Clandestinely obtened and entered in the said Journal on purpose to Torment and Create Differences unreasonable Jealousies and Contempt of y* authorit\nys of this Governm\n for that no such resolves were ever Published at the same Assembly nor Communicated to y* upper house at the time of y* Setting of y* said Assembly as in such Cases are used and ought to have been and particularly As to the first resolve it is the Opinion of this Board that the same Tends very much to y* Infringement of y* Authorit\nys and powers of y* Government for that it is undoubtedly prerogative to impress and provide such necessar\nies as they shall see fitting on any present Invasion Insurrection or other pressing Emmergencies or unforeseen necessarites.

As to y* Second Resolve it is y* Opinion of this Board that the same could be devised for no other Intent or design than to Create Jealousies and Ill affections in y* People to wards y* present Administration of y* Governm\n for the Core Indian had always since y* Treaties of peace with them the Greatest Indulgencies till by an Open violacon of y* said Treaties they attempted to murther one of her maj\nys subject and stood out as Enemies in the utmost Deffyance of this Governm\n and that what proceedings was afterwards had and Done Against them was done by and with y* Concurrence and assent of y* Governor and Council upon upon mature Consideration thereof first had.

As to the third Resolve it is the Opinion of this Board that the same was Devised on purpose to Infringe the prerogative of the proprio\n and to Create Jelousie in them of y* faithfull services of y* Officers here.

And to y* Fourth resolve it is likewise the Opinion of this Board that the same was Devised on purpose to give some Ill and Disaffected persons the Liberty Clandestinly to vent their own malice to y* Lds proprio\n against y* present administration under the nocon and onbrage of the Representatives of whole County.

The enclosed is a copy of a letter formerly sent to the Society by the Governor of North Carolina laying before 'em the then as well as present miserable State of the Inhabitants, for want of Missionaries to enlighten 'em with the bright Shining of Christianity in the dark corner of y" earth: His Honours meeting with no return of his first letter occasion'd the trouble of this, and he begged of me (being formerly a Missionary there) not only to deliver it to their Secretary with my own hands, but in his and the Country's name to implore further assistance from the Venerable Body in so momentous a concern.

Since my arrival here I have been to wait upon my Lord Bishop of London with a letter from the Governor of Virginia relating to my own particular behaviour and managements in the plantations abroad; His Lordship upon reading of it was pleased to express a great deal of satisfaction for the good services done by me in those parts; and ordered me to wait on the Society to know their pleasure whether they were inclined to send any further assistance to North Carolina the place it formerly belonged to. That poor Colony will soon be overrun with Quakerism and infidelity if not timely prevented by your sending over able and sober Missionaries as well as Schoolmasters to reside among them. These two years past every third Sunday I constantly preached in Albemarle County in North Carolina and have engaged others from going to Quakerism as can be attested by the Inhabitants: While I was in the Society's employ I served 'em faithfully and to the uttermost of my power and I shall again whenever there is occasion for the service of, Sir

Your most Obe' & Humble Serv'

M' GUY TO THE SECRETARY.—(Extract.)

I desire you to return my hearty thanks to the Honble Society for their seasonable relief and acquaint them that I shall always be ready and Careful to observe their directions. An instance whereof I have now given the Clergy at the said meeting when the Honorable Society's letter was produced before them by the Rev'd the Commissary—wherein orders
was given to him (with the advice and consent of the majority of the Missionaries to send one to North Carolina: Tho I was of opinion with the rest of my Brethren that none of us came directly within the forementioned order as is expressed in our public letter of thanks the 25th of January yet in obedience to the Society’s order and to express my readiness to promote their pious designs offered myself to undertake that Mission but my loving Brethren considering that I was marry’d and my wife near the time of her delivery would not approve of my going & therefore chose the Rev’d Mr Taylor (being willing) to undertake that Mission

JOURNAL OF VIRGINIA COUNCIL.

November 3rd 1716.

On reading at this Board sundry letters from Co' Eden Governor of North Carolina signifying that he hath declared war against the Saraw Indians & desiring the assistance of this Government for cutting off that nation it appearing to this Board by the aforesaid letters that the occasion of the war which the government of North Carolina have thought fit to enter into with the Saraws is grounded upon a rencontre between some of the inhabitants of that Province and a party of Indians supposed to be Saraws wherein the English were the Aggressors and attacked the Indians first without any provocation given on their part. This Board are of opinion that it is not advisable for this Government to assist in a war so unjustly begun & especially considering that the Saraws are under a treaty with us (by the consent & approbation of the governm't of South Carolina) & have the public faith for their safe passage into this government for concluding a peace And therefore the Council do approve of the Answer which the Governor hath already given to Co' Eden on this occasion as agreeable to the sense of this Board.

Mr. URMSTONE TO THE SECRETARY.—(EXTRACT)

North Carolina
Nov' 13th 1716

Sir

I have already acquaint'd you with the Report of your Letters by Capt' Godfrey (who to the Great astonishment of every body is come a second time with a small ship from London) that to the Vestry of Pas-
quotank was delivered but is misunderstood by them: they imagine you want to knowe what they are willing to allow a Missionary and intend to make as large offers they did to me at my arrival & doubtless will be as well performed. That Parish is now divided into two: the poorer half proposed to furnish me with a good House, Land, Stock of all kinds, and allow me £100 per annum, if I would abide altogether on their shore and yet the whole precinct was hard put to it to raise £30 in five years; it was collected in the produce of the Country in the space of three years and after 20 Journies 50 miles an end and several vestrys I first got £20 in paper money, and a year after with much ado, the remainder in like pay.

This I have formerly suggested but suppose I am not believed, and no wonder, for it is not credible that a minister should be so treated by a people who would be thought Christians; and think you the Vestry will ever own it! convince me of an untruth they cannot I defy them.

There was a vestry appointed for Chowan where I have resided six years and a half; several Essays have been made towards a meeting but there were a majority, at least we had Eight (whereof two refused to qualify themselves as the Act which I sent to the Society) directs and nowe they pretend without a new Act they are no vestry: all to evade paying me hoping by that means to drive me out of the Country as they have several others before me and so save their money. I offered to name others in the place of those that refused to act, but was answered that I was never levied by the parish and therefore not incumbent, the Govt dare not take upon him to do it, for a great part of the Colony are ready to unite against him for attempting to remove some of our great officers. They say they will have him out by one means or another.

I am like to have a fine time out amidst such confusion: I took great pains this year to make divers sorts of grain Barley, Wheat, & Indian Corn, it pleased God to destroy all or most, quite throughout the Government, we must be supplied from abroad or starve and to complete our ruin, we have no meat in most parts. I did once hope to have had pork & Bacon of my own, but shall not have a morsel save what I feed with Indian Corn which is very scarce with me. I have not enough to keep me with Bread six months—no Beef, Butter or Cheese no fat to butter one nor make soap, no Tallow to make me few candles, so that we shall have a tedious winter long and Dark nights, hungry bellies, and dirty linen; I have nothing to buy with, let one wants be what they will: swamp water goes down worse in winter than in Summer. My Credit is lost, I have had so many Bills protested that no body will trust me, blessed circumstances but custom makes them something easier, this is
not the first complaint I have made, but expect I shall not be believed or not regarded wheretofore, 'tis strange living when a man is continually cracking his Brains how to get a Belly full of meat. I was not in Lancashire my native County at the time of the Rebellion, nor if there, would I have joined the Rebells, and why. I must remain in Exile I know not, but if it be my doom, I pray I may have £40 per annum in two Bills of Exchange payable at Barbadoes, that in West India Goods would Keep my House handsomely. EXTRACTS OF SEVERAL LETTERS FROM CAROLINA RELATING TO THE INDIAN WARR AND THE PREJUDICE THAT PROVINCE HAS RECEIVED FROM THE VIRGINIA INDIAN TRADERS REFER'D TO IN M' BOON & BERESFORDS RECEIV'D Y' 5 OF DECEMBER 1716

SOME PARAGRAPHS OF LETTERS FROM SOUTH CAROLINA.

May y' 15th 1715.

The Sarraws give out amongst the Winoos and Norward Indians that they are ordered by the Virginia Traders to destroy this Country and do their utmost Endeavours to draw those Indians with the Wacsmans to their party, they offer them plunder and threaten they will destroy all that will not side with them.

June y' 19th 1715

We have an account of some Indians that are lately taken that the Virginia Traders encouraged our Indians to do what they have done & promised to supply them at a much easier rate than our Indian Traders did and that they would give them much better treatment. We have the names of some of them who encouraged them to commit this barbarous act. I shall not say any more of this matter till we have a further account.

April y' 5th 1716

Sr

I perceiv'd in the accounts of our affairs in England that the Lords Comm' of Trade are informed by M' Byrd of Virginia several things which he knows but little of. But in one particular he is right, which is our Traders trusting so largely their Goods to the Indians, but as to every thing else it is false notions of the management of Indians who are naturally proud and only want good stores of our goods to set them on mischief. And if they were to have a good supply of goods at Virginia rates they would soon be our Masters, no people keeps their Indians in so much subjection as the Spaniards and only by keeping them poor, M' Bird makes mention of their Tributaries in how great order they keep them, which altogether are but very few and compounded of at least eighteen or twenty different nations and the largest of them not above
eighty men and some but ten men. I heartily wish Virginia had all our Indians so we were but secured from them. That they may try whether their cheap selling them goods and kind usage would avail anything to such a number. There's another false assertion from a new England Merchant that we used to set our Friendly Indians together to war on each other for the advantage of slaves, which you know to be False and that it was always our care to keep them at Peace which we dearly pay for now.

I desire you will also take notice of the False Representation of the Virginians in England when S't Nathaniel Johnson was our Governor, wherein is asserted that the Cattabas are in their Government which to your knowledge is not & I have taken the Latitude of the most northern Towns of those Indian Settlements which I found to be to the northward of Charles Town but 89 miles.

April ye 23rd 1715.

Two or three days since came an old Indian Man from the Waccamawe Indian ye lives not far from the Winoos Settlements he desired peace for those people, he declares that the Sarraws have ammunition from Virginia and that it is those who have done us the Mischief this Warr on the other side of Santee River.

August ye 6th 1715.

Wee knowing that it was impossible the Waccamauas should be Supplied with ammunition from the Spaniards asked them how they came by it Since this war; they answered that what little they had they got from the Sarraws who constantly used to carry Slaves, Skins and other goods taken from us (of which they had a large share) to Virginia in lieu of which they returned home with Ammunition and what else they wanted, this being a great abuse, we hope you will represent it as such for this means they have been and still are enabled to hold against us.

CAROLINA Aug't 30th 1715

Sr

Our Negosation with Virginia you have a Relation of in our publick Lett' Nevertheless it may not be useless that I give you my thoughts on the designs and management of those Gentlemen.

They advise us that our Northern Enemies have courted them for a Trade with them; and that they have layd them under a promise of a cessation of arms against us; and have order'd them to return with a certain Number of ye great men; ye which are to consist of all our Northern Enemies; with whom ye Coll' Spotswood writes us ye hie
thinks if he brings all of them to a Neutral it will be very much to our advantage.

And I believe he designs no more, because Cap' Evans whom he sent hither as commander in chief of all his Forces: Declares that all his Instructions are that he shall not Fight against our Northern Enemies, wherefore I believe that Evans will return for Virginia.

Now S' knowing how they treated the people of N° Carolina when they were at war with y° Tuscaroras, together with the fund of money layd out (and by whom) for y° carrying on of y° Indians Trayd.

I must judge they are willing to have us in a continual war with our Southern Indians that they may have the whole Trade with the Northern; Because it's certain as long as our war continues with any one party we cannot trade with the other.

But a far greater mischief attends any of our Enemies being brought to, or allowed to be Nuters, because under that covert they will both supply and assist our Enemies: then the Sweat and Blood of our people will center in the coffers of the Indian trading company of Virginia (the wch I think they hope for). You will find in our address to y° King, we pray him to command that a war be proclaimed in Virginia with all our Enemies And I hope you will with all earnestness press it, the which being granted, we have reason to judge would soon end the war: But if the contrary and any of our Enemies stand nuter, the charge will ruin us and we must leave this our hopefull place.

April 21. 1716.

I find by an address of thanks from many merch° and others of London to Coll' Spotswood Governor of Virginia he is esteemed to be our only supporter and deliveror out of the Hands of our Enemies now it must be confess that upon the arrival of M° Middleton who was sent to desire his assistance our messenger was receav'd & treated at first sight with great civility and large promises of assistance but when the terms came to be stipulated he was forced to promise that for every man they suffered to come we should return an able Negro woman instead which should continue there and make good all the time each man should be absent and that the transportation of both black and white to and from the places should be at our cost and every man so sent should have 30 ℔ month and that we should pay what debts they ow'd in Virginia as far as that 30 ℔ month would reach the number of men sent was

But their officers and about 10 more excepted they were the most ignorant creeping naked people that ever was seen for such a number to
gather and I verily believe many of them did not know how to load a
gun some of them did confess they never did fire one, the armes that
were sent with them were like themselves and so broke and out of order
that above three quarters of them were sent to the smiths to be mended
and Mr Middleton told us that the Governor had several hundred of
chiose armes which he desired part of for those men, the Govt answered
they were the King's and he could not spare them. He also supplied
us with some powder and shot but set such price on it in Buckskins y
we could buy powder at 4 pound $ 661/2 cheaper in our own town when
that arrived.

When Mr Middleton arrived and let us know his negotiation we were
amazed at the sending of the Negroes and could not think it by any
means practicable but in lieu thereof offered the men 50$ $ month with
which they were content so that they had 4 pound $ month: the which
we thought generous.

Now the Governor of Virginia taxes us with breach of contract and has
upbraidingly writt to us on this foot, the whole story is too long to
recite: and I suppose you are thoroly tyred with the pottaige you have
had &c. Whereupon know my resolution is to propose that the whole
stipulation and other passages that have happened be truly copied and
put in print in London that the world may see how Coll Spotswood has
dealt with us and then they may judge whether his regard were not
paid to our Buckskins and whether his ignorant mortals have defended
us for we have sent back all that were willing to go and were glad to be
ceded of the charge altho we should be glad of a number of good men
that our Planters might return to their Homes.

M' URMSTONE TO THE SECRETARY.

NORTH CAROLINA Dec' 15<sup>th</sup> 1716

Sir.

In my last of Nov' 13<sup>th</sup> last past I gave you an account of the extra-
ordinary pains I have taken the last autumn; that I had visited all the
corners of the Colony however obscure or inaccessible, Baptized great
numbers, but not all that wanted it, through the stupid neglect of Parents
&c and want of assistance in passages over all the petty creeks and
swamps, wh<sup>th</sup> are almost between every House: the humours of the peo-
ple in general being such, that when their turn is served, they care not
who goes unserved. If I must continue here I shall attempt another
progress in the Spring, God willing provided the Society shall not think
fit to send more Labourers in this uncultivated vineyard and and then
possibly I may stop the mouths of many complaints of neglect in my
late endeavours.

By waiting to see what the Vestry would do & expecting an account
of money is due to me from the Society and all my debts paid, I am
reduced to great straits; in so much that I am now forced to draw afresh
or starve; supply I expect none from the Country. The Governor can
do me no service, for all are ready to kick against him and the sure way
not to speed is to desire his assistance, Governors and Ministers here are
generally accounted useless, Burdensome and ever enemies to the Coun-
try. I pray you therefore desire the Treasurer to the Society to pay to
Joseph Jekyll Esq' His Majesty's Collector of Customs at Boston in
New England, or his order 20 pounds sterling (bills of equal date being
produced) and if his correspondant the Bearer hereof will undertake it
pay likewise 40 pounds of like money to be invested in goods to buy me
3 or 4 Negroes in Guinea; but if he refuse I beg some body may be
employed to engage some Guinea Capt or Merchant to be delivered to
the aforesaid Jo. .... Jekyll or to me 3 Negroes men of middle stature
about 20 years old and a Girl of about 16 years. here is no living with-
out servants there are none to be hired of any colour and none of the
black kind to be sold good for anything under 50 or 60£ white servants
are seldom worth keeping and never stay out the time indented for. I
likewise desire a Bill of Exchange for £20 sterling payable to me or
order at Barbadoes. I believe I have more due for according to my
account: on the 25th Instant there will be an hundred pounds coming to
me. I shall be glad to hear my requests are complied with and till then
must struggle with a hard Winter, scarcity of Provisions, and rub through
many more difficulties with all the patience I am endured with and ever
be, Sir,

May it please your Hon

I did not believe I should have reason so suddenly to complain to your Hon* y* I now find your words true when you told me at your house when I refused to act as a Justice of Peace y* I might lett it alone and be piss'd upon and be D—n'd for you would then make Worley a Justice &

If I am not piss'd upon by him I think I am as badly used what thru his Ignorance and Spight to me I am like to be a great sufferer in many particulars for he takes opportunity of giving ill advice to my Servants which I can prove if there be occasion. I did believe y* Justices were sworn not to give advice and to give it to the Prejudice of their Master where no manner of ill usage has been offer'd to them makes the case the more bad.

Upon complaint made to him for debts above the value of twenty shil- lings he does not stick to Intermeddle without Law on his side but grants orders for the same & severely repremands the Constable and cohands him not to give copies of y* Wa* & Orders he executes, he exacts more fees than the Law allows which is contrary to the oath and when goods are taken in Execution and the money tendered he orders y* Officer not to deliver them but orders them to be appraised the same day that they
are taken Contrary to the Laws & makes y° Complainers take paper money
when the Law saies y° property of the Goods taken in execution is vested
in the Officer for the use of the complainers

The matters are not my own Cases, but generally y° same has been
dealt to other of the Neighbours which are ready to be proved when
Occasion shall require.

I very lately went myself to him and civilly required a Copy of Orders
against me particularly an Acco y°ifryly had sworn against me which
money has been received by the Justices Orders & which of right belonged
to me when satisfyd, but instead of his doing his duty he broke y° Peace
by kicking me as I went out of his house.

I know y° the Law gives me a remedy ag° Justices & officers y° Exceed
their Authority, but being willing to live peaceably without contention I
make y° matter known to your Hon° who has the powers of making
these Ignorant and Illnatured Officers, hoping you will remove such from
their stations, rather than I should be forced to make a publick Demand
of Justice for satisfaction of so many wrongs received which I am very
unwilling should be made Publick believing y° method to be more Charitable.

If your Hon° has the least Doubt of the truth of these matters laid
against the Justice I shall at any time lay before you sufficient proofs to
convince your Hon° and all mankind of the truth of them.

I now give your Hon° another convincing proof of my desires to live
peaceably for altho I might Justly expect to be kept free from any trouble
of procuring my money concerning the Horse since your Hon° took the
Horse to yourself & paid me yet I return your money rather than con-
tend against you & to receive further marks of your displeasure. I am

COL EDEN TO THE SECRETARY

NORTH CAROLINA Jan' 17th 1716[7]

Sir

I am honored with two of yours, one bears date the fourteenth of May the other the 25th 1716. To the former I can soon make an answer there being but one Missionary (and never another Clergyman) in my Government which is Mr Urston whose duty and affection to his Majesty King George I believe the most Honorable Society will not doubt of for as to that part I think the Gent. is unquestionable and I shall again lay hold of this opportunity to lay before your board the great want there is of a Clergyman amongst us, notwithstanding this Gent does all he is able in the discharge of his function and spared for no pains. Yet there are still hundreds of children and others unbaptized and are like to remain unless some further charity be extended to them.

As to that of the 25th I shall say little now having transmitted formerly to your predecessor Mr Taylor an abstract of our Vestry Act which
I hope came to hand, if it has not or it is not satisfactory, upon your acquainting me, shall send a copy of the whole act; but I must observe tho' that act seems very suspicious it is at present of very little benefit to your Missionary for the money raised thereby as well as all other public moneys are paid in public Bills of Credit which are at a vast discount whilst in hath [truth?] our vestry have not been so ready in assisting this Gent. as they ought to have been which fault I hope will in a little time be remedied not only as to M' Urmston's part but towards any other person whose lot it shall fall to come amongst us.

I did myself the Honor to implore of the Society a Missionary for the County of Bath a place of much larger extent than this of Albermarle and altogether hitherto neglected which I must again entreat you to mention to the Board if there is not one already appointed for that service—Mr. Taylor indeed mentioned a Gent. that was to come from South Carolina amongst us, but I never heard anything of him, nor do I believe we ever shall, I have been so full before in relation to the poor people of that County that I shall forbear any further addition at this time more than intreating my most humble duty to the most Honorable Society whose commands I shall always obey with great readiness which concludes as I really am, Sir

Your most humble Serv't

M' URMSTONE TO THE SECRETARY

NORTH CAROLINA Jany 29th 1714

Sir

I am persuaded you will never have any answer to two Letters to the Vestries and Church Wardens of Chowan & Pasquotank: the former is in my hands still not knowing to whom I must give it, for thro' default (I may say wilful neglect) in not meeting in due time those appointed to be of the Vestry and have no power to meet or act till nominated afresh by an additional act to that of the late assembly and if that is ever brought into debate: it will be annulled, I sent the act inclosed in one of June 19th last past which if it has come to hand will satisfy the Honorable Society in many particulars; did it take place (but fear it never will) it is the most favorable I could obtain from the Assembly. I did
not think there could have been such a construction put upon these words, which impair the Church wardens to procure a Minister which now are taken to be equivalent to that odious phrase of hiring or dismissing at pleasure yearly a minister, I altered the good old term, but dared not to go any further pursuant to our fundamental constitutions. All our acts were sent last Feb' to be confirmed by the Lords Proprietors. or as the term is perpetuated without which no act is in force longer than two years, but of late the people assume that power to themselves by causing all such Laws, as they think fit to be confirmed at the first meeting of every Biennial, & enact laws contrary & destructive of former Laws which have been perpetuated. I am of opinion diver of the aforesaid Laws will not be allowed by the Prop'rs and the Vestry Act will be in danger of being laid aside. The fundamental constitutions were intended to be unalterable, but now as little regarded as Magna Charta in England, this Lawless people will allow of no power or authority in either Church or state save what is derived from them. A proprietor were he here would be looked on no better than a ballad singer, what can a Governor do or what success or order in the great design of establishing our church can be expected by a poor despised and contemptible Missionary.

The Governor would concur with me in appointing a new Vestry, but our Vestrymen (that should be) say I am not incumbent, because forsooth not hired by them and his Honor's appointment will not signify any thing, he has offered to induct me in order to entitle me to the Salary allowed by this late act but all in vain for it will never be paid. I hope his Letter to the Society which comes by the same opportunity will answer their demands as to my Loyalty and conformity to the present Governor under King George, whom God long preserve my Endeavours in the discharge of my duty and the treatment I have met with and like to expect whilst in this wretched corner of the World, so that I shall not need to add in my reference to the two L's of April 23rd and May 14th 1716 which with one of June 11th I received altogether pr via South Carolina Dec' 29th I have not heard of any such person as Mr. Francis Phillips, mentioned in this last, in these parts, if he comes this way I shall obey the order sent me.

This is the 10th I have sent to the Honorable Society within 13 months under the several dates ut infra all the Letters p' Boston were sent under a cover to Joa Jekyll Esq. Collector there, my very good friend and old acquaintance. I have often intimated that the quickest and safest way of sending to me was under cover to him. If these Lines

Digitized by Google
become to hand and would be complied with I might hope to live some-
thing easier than I have hitherto done, but having no answer to any of
them it afflicts me sore, my misery increasing the longer I stay, could I
dispose of my dear Plantation without much loss I would not stay a day
in the Country, for I am in apparent danger of starving, we are threat-
ened with famines there's not half grain in the Government subsist the
Inhabitants, little or no pork; for my part, if not supplied from Boston,
I shall not have a morsel of any kind of food within these six weeks;
I thought I should have had corn and wheat sufficient for my use, but
thro' bad seasons and the worm I did not reap the 10th part of what I
might reasonably have expected. I had a fine stock of Hogs, but am
in danger of loosing them all, we had no meat and for want of corn they
die daily.

My Kind Parishioners are in hopes I must fly and then their debt for
nigh six years service is paid, whilst one is gaping after my Plantation,
another, my servants and stock at their own price, it is inconceivable
may past expression what I and my poor family have endured for almost
seven years and it is like to be worse with us than ever. If money will
hold out I may be supplied with a little cheese of all sorts, butter and
milk unground, I have not a Gown to my back nor hat to my head nor
indeed any other decent apparel I am in great want of a good & large rugg
& quilt, a pair of large Blankets, with a good Ticking for a bed bolster and
pillows. I beg some honest man may be employed to buy them for me,
and there with an easy saddle and curb, Bridle and some paper and wax.
I once made bold to hint that one common agent for all Missionaries
would be of great service to us, I had rather pay commission than be
cheated by pretended friends or relations. If the Society would be
pleased to advance me half a years salary it would be deemed a gift and
put me in a way of living that I should not need to draw so fast. In
my last I desired two Bills of £20 sterling each payable at Barbadoes;
with West India Goods to that value. I could buy provisions to serve
me handomely 12 months. My good Lord and late Rv Rev& Dioecesan
promised me, if the Society did not make any addition to my salary that
he would make me partake of some private Beneficitions, but never heard
from his Lordship. I recommend myself and my poor family to the
generous Bounty of the Honorable society begging their prayers for us
and rest, Sir, your most humble serv'

THE CHURCH WARDENS AND VESTRY OF BATH
COUNTY IN NORTH CAROLINA TO THE SECRETARY.—(EXTRACT.)

NORTH CAROLINA BATH COUNTY.
March 10th 1716-7

May it please the Honorable Society

We have been told that several of your Missionaries that have arrived
in North Carolina, were ordered by your Honorable Society for this and
the adjacent Parishes; but as yet we have not been so happy to have one
Missionary resident in all the country and of all those that have come to
North Carolina, it has been very rare that they have so much as visited
these parts so that many of the children of these parts are yet unbaptized
even to ten or twelve years of age notwithstanding of which the people
of this country are kept from Dissenting from the Church of England
by the care which has been taken to appoint readers pursuant to the act
of Assembly for Establishing the Church and appointing select Vestry, an abstract whereof is here inclosed, by that act, it may easily be perceived how well inclined to the Church of England the whole Government is in general by the care taken that the Salary of the Minister shall be less than £50 per annum, although at present there are a few of the Parishes where the five shillings per pole will not fully amount to the £50 per annum, but this may be helped by the annexing to such Parishes as are adjacent till such times as they come to be better settled and able of themselves to make suitable Provision.

At present this is our unhappy circumstances as well as of the other Parishes in Bath County which have been extremely reduced by the late Indian War in which many scores of unbaptized Infants (who remained so for want of opportunity only) were barbarously murdered but seeing that war is now terminated and our country very likely to flourish again in all other respects except the only Necessary Viz' That of Religion We therefore humbly beg your Honorable Society will consider our present deplorable state and alot some good Divine of Exemplary Life and conversation tho' of less learning for a Missionary to these parts and we do assure your Honors That we always make such further suitable allowance for the maintenance of such a one as not only the Laws of Government but even our own private circumstance will admit of.

This comes by Christopher Gale Esquire-Chief Justice of North Carolina who has been very serviceable to these parts in promoting religious worship by whom your Honorable Society may be more fully and truly informed of the present state and condition of these parts than is possible for us to do in the compass of this Letter.

COPY OF A LETTER SENT TO SIR ROBERT POLLOCK
BY CAPT HENDERSON'S KINSMAN

North Carolina April 3d 1717

Hon'ble Sir

It being very natural for all people who are absent to have a great
desire to hear of their relations, and I being here settled in a remote cor-
er of the earth, far distant from my native country, and having had no
letter or certain news concerning my relations these many years past,
and not knowing whom I can write to that can inform me; therefore,
out of the certain knowledge I have of your generous and virtuous
nature, and the acquaintance, neighborhood and small relation I had with
you before I left Scotland, presumed to trouble you with these few lines,
humbly entreat the favor of you to favor me with what account you
know of my relations.

I have been informed that my brother Mr. James Pollock of Balgray,
deceased many years since leaving two sons his eldest son Thomas, (who
succeeded to the estate) I heard was married to a daughter of Dunlop of
Housell, and has had several children by her: and hear that he coming
over to America, is either lost at sea, or taken by the sally sallie? men,
which I hope is but a false report. As for his brother James I have
heard nothing of him. My sister Hellen Helen was married to David
Robe, minister of Erskine: and here that upon the revolution, on
King William's coming in, remove himself and family to Ireland.
And my sister Margaret was married to one Mr. George Pollock, then
minister of Ballantree, afterwards removed to Kilmarnock, and since I
understand is dead. Now what your Honor can inform me concerning
my aforesaid relations will be a very great kindness, for although I have
commonly an account of all the public news, it gives me no satisfac-
tion as to my relation. I have another favor also to beg of your
Honor, which is when I came from Scotland I had several debts due to
me, all which bonds I left with my brother Balgray, taking his receipt
for the same, a copy of most of which is here inclosed. Now what I
would entreat is if you could conveniently know of the men that owed
me the money, (being most your neighbours) whether they paid it or
any part of it to any person For I understand that one Mr. Robert Ham-
ilton late of Glasgow now of London merchant hath received most of it,
without giving me any account of it.
Now when I came from Scotland this Robert Hamilton being my intimate acquaintance, by his importunity persuaded me to take about thirty three pound sterling money of his in venture with my own, which money in my first seven or eight years, (by my often trading from one place to another, unacquaintedness in trade of America, and a considerable loss I had by the Spaniards taking New Providence, and low markets was brought to a very little, of all which, from time to time acquainted Robert Hamilton, and in the year 1689 I wrote to him that, altho' the stock was brought very low, yet that I was unwilling he should be a loser by me, and therefore enclosed in his a letter to my brother, Balgray, to pay him his principal sum and interest; of which I never had any account of my Brother. And since then, Mr Hamilton having an attorney here, I gave him a particular account of his stock, which was about forty pounds our country pay here, offering him his money, which he could not then take his vessel being loaded. And shortly after I had a letter from Mr Hamilton desiring rather to have his principal stock and interest in Scotland than take the produce of it here, this being about the year 1698, and pressing upon me that if I would be diligent and careful of making the most of what I had in Scotland, and the overplus he would faithfully and honestly send me in here, or pay to whom I should order him. Upon which I (having a great opinion of Mr Hamilton's honest,) sent him in a power of attorney of all my concerns excepting the debt due from my brother. In some short time after I had account from him, that he had employed one Mr James Dunlop a writer in Glasgow, to act for him as concerning the recovery of my debts and other concerns, but, my brother being dead, my sister in law would not deliver up the bonds and other papers that I had left in my brother's hands; and by several letters after complaining that he had been at considerable charges, and although his uncle Mr Colin Campbell of Blithwood had been a great assistance, yet had scarcely recovered so much as to satisfy himself. And yet I understand the stone house I had in the Trongate of Glasgow, a few duty duty I had out of the land where the eastern sugary stands, and of some land of Walter Nilson, and of one William Sterling, late writer in Glasgow, is disposed of; and, I believe, three or four acres of land I had at the bromelaw at Glasgow; all which, before the year 1701 (at which time I heard he had disposed of most of it) with the debts due and interest due until then could not amount to less value than six or seven hundred pounds sterling; and his thirty three pounds, with interest from the year 1682 to the year 1701 could not amount to upward of seventy or eighty pounds at the most; which seems to be a considerable
difference. However I should not have realised it if my Relations had got it. I could add a great deal more concerning Mr. Hamilton his writing and promises to me, but I doubt have been too troublesome already.

I was heartily glad to understand that you were not concerned in their late troubles in Scotland, and that you were safe in your command at Inverlochrie, and it would be a great satisfaction to me to understand the welfare and prosperity of you and your family.

I have had intentions these many years past of my returning once more to my native country, but several matters unexpectedly falling out have hindred me; especially some differences here amongst the people of the country, and a long, civil and expensive Indian war, and now being old, and not able to endure the fatigues of such a long passage, and being (praised be God) indifferent well settled here and having three hopeful sons, Cullen, George, and Thomas, doubt I shall not have the happiness of seeing any more my beloved native country. I your Honor can spare so much time from your public business as to enquire a little after the afore mentioned matters, and honor me with some particular account of it, it will be a great satisfaction to me, and infinitely oblige me; and albeit I cannot propose any ways or retaliating such kindness, yet it shall it shall be imprinted in indelible characters in his mind who most sincerely is

Hon. Sir
your most obedient Humble Servant.

Hon. Sir If you favor me with an answer, please to direct your letter for me in North Carolina to the care of Mr. William Wellsteed, Merchant in Boston in New England: and letters for the place often miscarrying if you send duplicates, by other opportunities some may come to hand. My most humble respects to yourself and family; which also please to accept from my sons,

Hon. Sir Yours

THOMAS POLLOCK

MR. URSMSTONE TO THE SECRETARY.

NORTH CAROLINA May 1st 1717

Sir
I have nothing to add to nor alter in my last Letters per Captain Luckose Commander of a Brigantie bound for London dated Jany 29th & copy per via Boston Febry 2nd last past save that I am still struggling for life in this wretched place. If a sloop expected from New York with
flour & Biscuit do not arrive within these 10 days I shall not have a morsel of Bread to eat. I have had no Beef in my house these six months nor anything else save fat pork and that almost gone. I got by chance a barrel which has been in salt 18 months; it is profitable victuals a little goes a great way: I have no other eatables; peas and Beans I am like to have some but neither Bacon nor Butter to eat with them—Jovial living. The country is in a miserable condition; we lost almost all our Hogs and abundance of cattle are lately dead in all parts of the Government, of the murrian and mire. I have been a great sufferer that way; out of my poor stock, I have lost to the value of £30 very near.

If I must linger out my days here I must have a couple of Negroes and a woman all born among the English, the woman used to house work. If the Hon'ble Society could spare them out of Coll. Codrington Estate I would allow more than would buy six others newly come from Guinea, new negroes are of no use to me. My Parochial account is very short; from Michaelmas to Lady day I baptized 17 Infants was not able to go abroad by land for want of Horse, nor by water having nobody to row me, nor wherewith to hire and if I had men will not be hired. I went this winter 7 times to the Church in the neighbourhood (i.e. that is 4 miles distance) and met not a congregation; so indifferent are our Gentry in their Religion they had rather never come to church than be obliged to pay me any thing, they cannot endure the thoughts of it: they wonder I do not leave the country and their debt would be paid; that is the way they have treated all of my Function before me and would have the world believe they are no changelings. This comes \& via Boston under cover to Mr Jek your collector there.

I am, sir, your most Humble Servt.

JOHN URMSTON.

REPRESENTATION FROM SEVERAL MERCHANTS TRADING TO VIRGINIA AGAINST AN ACT PASSED THERE RELATING TO FOREIGN DEBTS. Recd 17 APRIL READ 6 MAY 1717.

A Representation of sundry Merchants trading to Virginia for repealing the Act of Assembly concerning Foreign debts

My Lords,

About the year 1663 there was an Act of Assembly passed in Virginia intitul'd an Act concerning Foreign debts the purport of which is to bar
all creditors living in Great Britain from recovering debts justly due to them from any person that goes over to that Colony unless such Debtor had carried over thither effects to the value of such debts.

Now we humbly conceive that this Act is notoriously unjust in itself unequal to his Maj. subjects of Great Britain and very infamous to that Colony and therefore since to this day it stands unrepealed by any subsequent Act and has been pleaded not long since in the Courts there in bar of very just actions, we humbly beg that your Lordship will be pleased to lay it before his Majesty in order to its being repealed

[B. P. R. O. BOARD OF TRADE JOURNALS. P. 250.]

WHITEHALL. Friday May 10th 1717

M' Boon and M' Beresford agents for Carolina attending as they had been desired were acquainted with His Maj's having been pleased to refer to this Board the Representation inclosed in M' Secretary Addison's letter of the 30th of the last month relating to the present miserable state of South Carolina and to a supply of men desired by that Province for reducing the Indians with whom they are at war. And being asked whether the said Representation was presented to His Majesty by them and what they had to offer relating to that matter. They said they had lately received and presented to the Lord Carteret a letter from the Gov't & Council of the said Province to the Lords Prop't dated 26th January last upon the same subject of which they produced a duplicate which was read and a copy taken thereof. That upon their application to the Lord Carteret Palatine of the said Province and presenting him the printed case his Lordship had promised them to lay state of the condition of the
said Province before His Majesty and to desire the necessary supplies which they believed his Lordship had done by the forementioned Representation—These gentlemen being then ask'd what number of men from thence they thought necessary for subduing the Indians and how long they proposed such men should continue in Carolina they declared their opinion that not less than 600 men would be effectual 200 whereof might be disbanded in 12 months, 200 in 18 months and 200 in two years after their arrival in Carolina—M' Boon & M' Beresford added that the Lord Carteret had declared to them he was willing to surrender his share in the Proprietorship if the not doing it were such an obstacle as to hinder the relief of the Province.

[Bot R. O. Board of Trade Journals. p. 270.]

Whitehall Friday May 31st 1717.

The Lord Carteret one of the Lords Proprietors of Carolina coming to the Board their Lordships had some discourse with him relating to the present state of that Province and to the Representation from the inhabitants of South Carolina referred to the Board by M' Sec. Addison's letter of 30th of last month mentioned in the minutes of the 6th inst. His Lordship among other things said that the Assembly of South Carolina being dissolv'd, they had now no Agents, But that the persons who styled themselves such, had desired him to present their paper to the King, which his Lordship had done when the same was drawn so as to be supported by the letters those Gentlemen produc'd from thence that his Lordship had since private letters from Carolina which bring advice of a Peace being made with the Indians which his Lordship observed seems probable since the Yamassee's the first authors of the war were cut off That there had never been a regular war with the said Indians in Carolina but many settlements which were made too scattered & remote from each other had been destroyed at several times tho' the whole Colony was never in so apparent danger of being lost as was suggested That if the said Province be supply'd with the men they desired the Assembly had never agreed how to dispose of or provide for them That the Lords Proprietors would be glad to have more men sent thither in any manner but that it could not be expected His Majesty should send and maintain them there That the Province may be run in debt as alleged but that the Lds Prop' have applied all their profits towards its support and bought
& sent 250 muskets which they have heard are actually arrived in Carolina. My Lord added that he did not doubt but when Col. Johnson the present Govt. arrives he will find all things quiet in the said Province and therefore his Lordship desired the Board would suspend their Report to His Majesty upon the forementioned reference until fresh advices should arrive from thence.

NORTH CAROLINA
June 22nd 1717.

Sir,

You will say my other Letter of the same date needed no additions but cannot avoid acquainting you that by the same opportunity comes one of our great Dons upon an Embassy from the whole country fraught with complaints against the Governor (I suppose I shall not escape) he is a Clergyman’s son in Yorkshire bears the great name of Gale, I know not how near a kin to the late Dean of York. he has a little smack of school learning, was sometime Clerk to a country attorney at Lancaster, the occasion of his coming into this hiding place is unknown to me tho’ I suppose not uncommon with other our worthy Patriots a great show of Learning gained him great Esteem among the Beast in the woods he has past long for an Oracle, gone through all the Offices in the Government save that he is said now to push for, i.e., that of the Governor.

Upon the breaking out of the Indian War he went to South Carolina for assistance there he prevailed with Mrs. Blacke one of the Proprietors to make him her duty (deputy); in his return he was taken prisoner by the French and carried to Martinio, at length he came back to us, was for his good offices and sufferings, presented with a purse of money, made Colonel of Bath County then the heat of the war but by reason of his unfitness laid that down and being deemed learned in the Law was made Chief Justice of the whole Province Being arrived to this High Pitch of supposed grandeur he grew very impertinent, he hath often opposed me in matters relating to church discipline and all the authority he had could assign was the practice of a poor country Parson his father, I believe him equally knowing in everything else he pretends to, In our debates when he had no other answer he would appeal to his dignity and Imaginary power which he thought gave authority enough to all he asserted, say he did not stick once to rebuke me for contradicting him telling we were not equals and that I ought to pay a greater deference to what he said, how false soever; as to the first I was entirely of his mind and as to the latter I cannot see why I should be borne down by such a Blockhead when I had good authority for what I said, he intends to dethrone the Governor, this is publicly known and if he succeeds him not then he will come
Missioner, but this is only whispered, for if not forced he would not be thought to take up with so mean a station.

His complaints against the Governor, I must confess are not altogether groundless, his honor has acted towards all men very arbitrarily not to say unjustly, his treatment of me has been very base and scandalous, yet he never break my head without giving me a plaster not always healing, for after having trampled upon and prostituted me to the people in order to curry favor with them it is no such easy matter to effect a thorough cure; what signifies such favors as subjects a man to daily affronts and abuses, we have been often at variance: I have resented his ill usage more than once, have not visited him for several months together, but the greatest difference we ever had was owing ...... this Incendiary, my Lord Chief Just—fs ...... and now he with a pack of Knaves and seditious rascals is combined to set us all in flames and rather than not gain his point he will do his utmost to subvert that little settlement we have with the greatest difficulty attained to in Church and Government. This is not the first voyage he has taken upon the like Errand and if the Proprietors will harken to such a Bout few then they must never hope to see this a settled country.

I cannot say but the Governor is a strange unaccountable man, having all that either the Land or Sea service furnisheth t'wards the making a complete ruffian besides some great accomplishments acquired in his voyages along the coasts of America, a stranger to him would straight imagine upon a slight acquaintance that he had been a boatswain's mate who are commonly the greatest reprobates in a man of war, fit only to command the forecastle Gang, and seeing the Genius and temper of this People are so like to the said Gentry, there cannot be a fitter man to govern here, the Lords will suffer by the change and we shall be like the Frogs in the Fable. He is well known to Coll* Handyside late Gov' of Jamaica and I believe Counsell Kittleby has some knowledge of him.

As to my particular I care not what this sower of Sedition can say against me, it has been his constant Business to oppose me in every thing I went about in furtherance of the great errand I was sent upon; This is he that chiefly hindered me from having the Library sent in by the Rev* Dr. Bray in my custody as was intended by the Donor, this is he that first started a notion that the Society did not expect the Country should make any provision for me, they having allowed me a sufficient maintenace, this is the copper smith for he hath done me much harm; and if he applies himself to the Society it will easily appear what a fit person he is to make a Priest of and how much he hath benefitted by that excel-
lent collection of Books which have been injuriously detained from me. I excuse not the Gov'r in many things but cannot think him so black as he will be represented nor would I have him changed except we be assured of a better who will scarce be found to act a part in our comedy— I am, Sir, your most humble servant

JO* URMSTON Missionary

P. S. I have gained mightily upon the Gov'r since the Death of his wife, who a strange meddling troublesome proud woman, and put him often upon doing that which he had no mind to; I believe for the future we shall always have a good understanding. I wish he may find favour with the Honourable Society so as to prevent his being twined. I have heard say counsel Kittleby was not his friend; if a member of the Society he may be persuaded to act for him, Tis in his power to do the Gov'r good service and to stop the mouth of this Babler.

MR. URMSTONE TO THE SECRETARY—(EXTRACT).

NORTH CAROLINA June 22—1717

Sir

Since my last per via (New England dated May 1*). I have received one from you of July 16*, 1716 by South Carolina; at my first coming hither I sent divers of my Letters open to a certain member of the Society to be by him first perused and then delivered in at the next Board; the little good effect they had (albeit the contents I thought would have drawn pity from a heart of Stone) made me suspect my friend and therefore have not been guilty of that which I now find is deemed a fault, for many years, but perceive as little regard to me as before; notwithstanding I ever had fresh matter of complaint, and as long as I stay here I need not fear wanting that with hard strugling we have had a vestry at last in my parish viz' on the north shores of the Sound in Chowan there were but seven vestry men and they chose in a new member in room of one who positively refused to qualify himself as the late act directs by declaring under his hand that he would not oppugn (a soft word for tender consciences instead of conform to) the Church of England, for, he said he must go sometimes to the Quakers meeting and if he saw cause he might one time or another oppugn &c.
The absent members will not agree to what was then enacted and many of those present seem to dislike of what they then did pretending they were overawed by the Governor, by whose order the Vestry was called, who is since gone to live in the County of Bath so that all the good his honor intended me will come to nought. It was proposed by the Gov'r and minuted down that I should be inducted, the majority were consenting, but now unwilling to part with the power so valued by them of choosing or hiring yearly ministers. It was then ordered that every Titheable in the Parish should pay me five shillings towards the raising Fifty pounds for the last year ending January 1st last past, the number of the Titheables is not sufficient to raise such a sum and they have not power to Levy above five shillings per Titheable for our Parish contains not a third part of the Inhabitants which are in the precinct and afore time were one parish, as for the arrange for four years with 18£: formerly due which by agreement ought to be £258 but was by an after Vestry reduced to £150 and ordered by the then churchwardens to be collected, that cannot be raised unless the other parish or part of the Precinct which before separation was equally obliged per a new act be compelled to pay their share. In plain English 'tis to put me off from insisting upon what is my just due; neither do I think I ever shall receive what is now ordered; for notice has been given by the present churchwardens according to the Vestry Act to pay their Levy on or before the first of this month, upon pain of forfeiting double tax, and as yet I have received but six pounds in paper; this paying of money such as it is, puts them quite out of humor: they cannot endure to be at charges upon what they value so little Religion.

I have given you an account in former letters of the great scarcity of Provisions throughout the Country; I thank God we have with hard struggling and many an empty Belly got over it. It was not so grievous to my family as many others, because accustomed to want our north Colonies have taken advantage of our necessity and have made us pay dear for the worst of Bread and meal: what cost them but seven shillings we have paid 40s for in pitch and tar besides divers ways of cheating us. Our Governor bought a couple of Barrels of meal and one of them proved half Ballast. We have hitherto had a very seasonable year, there is great prospect of plenty of Grain and fruit but if the winter afford us meat—we have no Hogs so many died of Poverty last winter and the Black Cattle are almost all destroyed by murrain, so that we shall not suddenly recruit. In these difficult times I have been forced to draw upon the Treasurer as often as I met with any body that knew what to do with
a Bill of Exchange I have purchased Pitch to buy food with, gave more than it would sell for in London, some proved nought some not full casks and more not yet paid, and thus I have been puzzled to keep soul and body together. Since the 21st of December last I have drawn for £85 and am still in want, this is not twice £80 will maintain me at the rate I am forced to manage £20 yearly paid before hand in Goods vendible here, would have done me more service than my salary. I never bought so much goods for £80, my necessity still obliging me to anticipate, and often draw before money become due.

These accounts are tedious I doubt & scarce believed, seeing the Society requires it under the Parishioners own hand, which I think not to be expected. It was agreed that we should hold a Vestry every first Sunday in the month, but we have none since the first, nor I believe ever shall; the first Sunday in the month we had one church warden and three Vestrymen. I delivered the Societies Letter dated June 11th 1716 directed to the Church wardens and Vestrymen of Chowan; they read it and gave it to me again, saying they knew not what answer to return; so little regard is had to so great authority and less gratitude to so generous benefactors, it is all one to them whether they have a minister & church to go or not.

My quondam fellow Labourer the Rev'd Mr. Rainsford meeting with some of my Parishioners in Virginia told one I was to be turned out, to another recalled, they would be glad of either for then the debt due to me would be paid. I have more than once desired the Letter and if not provided with two negro young men and a negro girl all born among the English and used to work & a Bill or Letter of Credit to Barbados for the £40 yearly as I have formerly requested it will be utterly impossible for me to stay here much longer.

[From Pollock's Letter Book.]

July 8th 1717

Hon'ble Sir

This day King Blount's son came in here, sent in by his father to me that I might acquaint you that two of his men lately discovered beyond Catehine Creek about twenty strange Indians, and judges they are coming either upon him or the English; and would desire your Honor to take some care of the people at pamplico and Neuse. And likewise King
Blount desires to acquaint you that he is daily expectation of the Saras and other Indians falling upon him, they having lately taken one of his men.

Albeit there is no great certainty in the Indian News, yet I thought it proper to acquaint you now therewith, that you may take such order for the security of the people at Pamlico and Neuse as you shall think necessary, by giving the people notice to be in readiness, and to have a care of themselves, until further news may be heard, or by what other methods you think most convenient: and also that you send in here what orders you think necessary in case the Indians fall upon Blount, unless you think it time enough when you come into the General Court or the next Council.

Blount's son likewise inquired of me if I had not heard that the Sarah Indians had killed nine or ten of the Virginia traders, and taken their goods, which he says was reported by one of them that escaped. I am in great hope if there be a general Court, to have the happiness to see your Honor, and should be glad if Mr. Henman could, be in two or three days at least before the court. I have no more to add but that I am most sincerely Your Honor's

PASQUITANK PRECINCT
August 10th 1717

May it Please the Honble Society

We received the favor of yours of June the 11th past signed by your Secretary Mr Humphreys and in answer thereto take leave to inform you that by an act of the last Assembly made Jan' 1715 the Precinct of Pasquotank was divided into two parishes, each Parish has power to raise £50 per annum by the Poll, which with the allowance made by you Honr to Missionarys would be a very handsome maintenance, could
we be so happy as thro' your charitable disposition and appointment to enjoy one. Since the death of poor Mr. Adams we have been altogether deprived of that happiness the present Missionary living in Chowan precinct about 30 miles distant from hence and seldom coming down above once a year, so that he has very little allowance from hence save what presents he has made him upon particular occasions which are sometimes very considerable, as to the manner of pay in this Country, we must beg leave to inform your Honors, that there is no running cash, but that to supply that defect all our commodities are rated and answer the same end.

And now since your Honorable Society has given us this occasion of addressing ourselves to you we beg leave to further represent to you that some years ago his Excellency Francis Nicholson gave to this precinct (as well as Chowan precincts) the sum of 10£ sterling to be employed towards the building of a church, but that money being not made use of till the year 1708 after much solicitation and management by Mr. Glover and Mr. Knights, the same was lent to Mr. Glover by order of the Vestry, a copy whereof is here enclosed, since which Glover is dead and his widow married to said Knight who by one artifice or other will in all probability deprive the Parish of that money as may appear by his protest to the Vestry here also enclosed unless some ways relieved by your Honorable Society either by representing the case to our Lords Proprietors whose officer he is or otherwise as you in your wisdom shall think fit to direct or advise. Most Honour'd

The Lds prop of Carolina having thought fit to Hon' me with y* Governm't of the North part of their Ldps. Province I take leave as I think it is my duty to remonstrate to you the deplorable state of Reli-
tion in this poor Province, it is now almost four months since I enter'd upon the Governr where I found no clergyman upon the place but Mr. Urnstone one of your Missionaries who is really an honest pains taking Gentleman & worthy your care but poor man with the utmost endeavours is not able to serve one half y° Co's of Albemarle w° adjoins to Virginia when as the County of Bath is of a much larger extent and wholly destitute of any assistance, I cannot find but y° people are well enough inclined to embrace all opportunity of attending y° service of God & to contribute to y° utmost of their ability tw°ds the support of such Missionarsys as you shall in your compassion to their circumstances think fit to send amongst them, but our tedious Indian War has reduced y° country so low that without your nursing care the very footsteps of Religion will in a short time be worn out & those who retain any remembrance of it will be wholly lead away by the Quakers, whereas a few of the Clergy of a complaisant temper & regular lives wou'd not be only the darlings of y° people, but wou'd be a means in time to recover those all ready seduced by Quakerism—This is what I thought myself under an indispensable obligation to lay before you for your serious considerations & at y° same time I take leave to recommend to you the person from whose hands you'll receive this Viz' Mr. Tho' Gale (a near Relation to y° late Dean of York) late of Trinity College in Cambridge who I doubt not will come otherwise recommended as a very proper person for your service if he shall meet with your approbation—

There has been destroyed by the Indians since y° beginning of y° warr above four score unbaptized Infants & there are a great number in y° county of Bath even to seaven years old now under that circumstance for no other cause but want of opportunity & as yet there are no Quakers in that county.

The growth of them in it I hope the charitable care of y° most Honorable Society will effectually prevent I wish I could be any ways instrumental in serving any thing sent by you in these parts whenever an opportunity offers with great readiness I shall be glad to show [how] much I am most Honorable Gentlemen

Your Obed° & most humble Servant

CHARLES EDEN
MR. URMSTONE TO THE SECRETARY.

North Carolina Oct 23rd 1717.

Sir,

In my last I acquainted you with a further Hardship than I have hitherto met with. I borrowed £30 to pay for the repairing my Houses. I was to pay it out of the Parish Levy which ought to have been raised six years ago. My Creditor is now Church warden and is obliged to collect my Salary which will at Christmas next amount to a hundred pounds besides £140 arrears due from the precinct before it was divided into two parishes, it ought to have been £240 but twas no wonder for their making such a defalction was in order to cut off the whole, for unless it be to pay my debts I shall never see a farthing of it. The Church warden is a great Lawyer and keeps the whole community in awe of him: he has taken upon him to recover two other debts and has arrested me in three several actions and threatens to seize my House and goods; all the Debt is but £90 and yet he will not take the Parish pay; it will be very severe, not to say unjust, they say I am not their Minister because forsooth not hired they are resolved to keep up that good old Custom, so that I am not entitled to the Salary allowed by Law I am blamed for not keeping constantly to my Parish, it is hard neither to pay me nor allow me to go to those that would. The Governor pressed me to make the other Country a visit, hoping they would have regard to my two former Journeys as well as last but find they are all of Carolina Principles: I went to a hole where I never was before: I baptized 63 children and one adult a young woman they say there are unbaptized not out of Principle, as a supine neglect of parents and their own shamefacedness, and I forbear not to be wrought upon, there was a great congregation most out of curiosity having never seen the face of a minister, 15 more I baptized the last six months I have not to add to my nota Parochialia. My people are as remiss as ever, a parish Levy puts 'em quite out of conceit with the Church: I preach often to 9 or 10 and sometimes ride five miles in vain not to find a soul there. Mr. Taylor arrived here about a month ago but is not fixed not being able to find a House to put his head in, There's no living here for a Clergyman except he will keep house: I believe he will return to South Carolina, he is as unfit a man as they could have chosen, neither was it fair to send him. I under-
stand the Society ordered one of their Missionaries whose parish was abandoned by reason of the War with the Heathen: he is not able to ride five miles were it to gain the world, he is aged and very infirm I have acquainted him with my usage he insists on being chosen or inducted for Life, which no Parish here will comply with. If my late letters are come to hand I hope for a favourable answer, if not you may expect to see me next spring, here I can not live without servants. These with my humble duty to the Honorable Society and earnest request for their Prayers are from, sir, Your most humble serv'

Salmon Creek Nov. 13th 1717

Hon' Sir

M' Charleton did not call here at his return from Blount. Wherefore, I believe he intends himself unto the assembly to give you a particular account of his management with Blount. I understand by Col Maule that the Indians that were at Blounts upper town, called Uneray, are gone from thence he knows not where.

I am heartily sorry to understand of the great difference hath happened between your Honor and Mr. Chevin, and can not but blame him much for his great indiscretion. But being an old friend and acquaintance of mine, I humbly beg your Honor to moderate your resentment against him, knowing there is no man free of failings, and that revenge may be carried on too far, and it is at best but the frailty of human nature, where as to pardon offences, especially those that are great, is more than human, and is even divine, and participates of the goodness of God, who pardon-eth our greatest sins; and the example of our gracious Sovereign may be a motive, who hath ever pardoned his greatest enemies. And besides, it must need lay such an obligation upon M' Chevin, as to make him always hereafter have a great care not to fall under your Honor's displeasure.

I wish your Honor happy success with the assembly in what concerns the public, which, I believe, may at present lie chiefly on these three things vis the currency of our bills, the suppressing the enemy Indians that lie out, and the providing a magazine of ammunition always ready in case there should be occasion. For it is the prudence of almost all well governed states to provide for war in time of peace.
As for the currency of the public bills: our country debt, I believe exceeds not 16000 pounds and there being not less than 2000 titherable persons in the Government, which at 30 shillings per poll amounts in three years to 9000 pounds; and, I believe there is not less than a million of acres held in the Government, which at 40 shillings per 1000 in three years amounts to 6000 pounds: and for raising the other 1000 pounds 40 a duty might be laid on all strong liquors imported from any where but the West Indies which in three years might easily raise the other 1000 pounds, to balance and clear all the country debts. And it is very evident that the importing so much strong liquor into the country greatly impoverisheth the people. And then if your Honor and Mr Richardson would consent to take all public payments in the bills I do not see but it would make them very current in a short time.

And as for suppressing the enemy Indians; in my opinion, Indians are the most likely to do it, and with less charge than otherwise; and those Indians that goes out ought to have great encouragement of the assembly, otherwise I doubt it may be a long time before they are suppressed.

Then, as for a public magazine: there should nothing be taken of the vessels but powder, shot, and flints, until there is so much had as may be thought necessary, and then other pay may be taken in such specie as guns may be purchased. For guns are very much wanted, especially here in the frontiers, where may be most occasion of them.

And care ought to be taken that the treasurers be diligent, careful, and expeditious in taking in the public taxes, at the time of payment, and that the bills be sunk as soon as they come into the treasury.

Your Honor's excuse for my enlarging so much on such things is humbly craved by him who sincerely is—

February 16th 1718

Hon' Sir

Yours of the 4th instant came to hand the 10th and Capt Jones had been over here the day before with two proclamations for liberty of exporting grain. He had received them from Mr. Ash. We were both of
opinion it might be time enough to consider the same at the meeting of the Council next month. I question not but that Col. Gaile will represent matters against your Honor and those of the Council in the blackest characters he can, and that he will want no assistance his party can afford him; as clearly appears by what was done last assembly in his favor, (if I be rightly informed.) But the best of it is they have nothing (that I know of) that is material to allege either against your Honor or any of the council; and the Lords Proprietors have been of late years so imposed upon and troubled with idle complaints, that I am much persuaded they will take little notice of what he or any of his party can allege. As for Col. Brice Major Handcock, and Captain Stones offer of bringing these skulking enemy Indians in alive or dead; it seems very strange and unaccountable to me, that their own lives, their wives families and estates being in danger all this time, and could not do it, and that now out of the hopes of a small matter of profit, pretend to do it. This gives me some thought of what might be the occasion of their coolness and slighting of Blounts Indians that went in to help them. And then the beginning of our Indian war, and so the chief cause of the continuance of it until now, so as I apprehend, hath proceeded from Neuse; and all that I doubt instead of ending our war, they may be the occasion of beginning another greater and worse. However, I should be better satisfied if I understood the scheme by them laid to do it, and who is to be their partizans and your Honor may be assured that in case these enemy Indians were taken or killed, so that peace were fully restored to the country, I should not be wanting of contributing my full part to those that would do so much good to the country.

There being no news of moment here, have no more to add, but that I sincerely am &c

May 3\textsuperscript{d} 1718

Hond Sir

I had the favor of your kind letter of April the 9\textsuperscript{th} with the writing enclosed, and to make what discovery I could if their was any evil design of the Tuscaroras or Senecas against us, I sent out Mr Charlton to Blount's town, on another pretense, to make what discovery he could, who returned last week, and says he could not find nor perceive that
these Indian had any evil design against the government: and that Blount was very kind, and earnest to send out twelve or thirteen of his men against the Enemy Indians at Neuse. And when Charlton told him that he had not heard any thing yet that the corn was carried to Neuse, or landed there, but Blount told him it was no matter, he would send out his men to Pampilco, and that they might stay hunting about Pampilco, until your Honor had account that the corn was landed at Neuse. Only Blount desired one favor of your Honor: that if his people should have the good fortune to catch or kill these enemy Indians, yet there could not be a slave a head to each of them, but that several of his men who might be there, and as forward and as ready as the other to catch or kill them, yet might not catch any of them, might yet be allowed some gratuity for their trouble, as a blanket or some such matter. This is what account I have had from Charlton.

And as for the Senecas' rudeness at Wekocamaun: it is either natural to them to be so, or else they have a mind to drive away the people from their settlements their it lying in their way to Blounts town; and I can not understand that Blount is so desirous of so many of the Senecas coming among them and spending up their provision, only can not help it, and is obliged to keep in with them. I doubt not but that your Honor remember that about two years since I had a writ of escheat directed to John Palin Esq' escheator General, to enquire by a jury of twelve good and lawful men whether the plantation at Sandy Point were escheatable or not, which I deferred to use on the following reasons: First, because I was willing (if it could have been done) to have had it first determined concerning the validity of the will secondly, there being other two tracts of land escheatable as well as the plantation at Sandy Point, I was willing to have it all done at once; Lastly and chiefly, was because the Escheator was command to inquire whether the said land was escheatable or not, which in my humble opinion, and so far as I can find, is not right as it ought to be. For all that the escheator is to find (so far as I can understand it) [is] whether the person that died seized had any heirs in the Government or not; for whether a will or no will, is no part of the escheator's duty to inquire into: and this would give only a handle or pretence to some to amuse the Jury, and may be the judge too, by pretending albeit there was no heirs in the government, yet there being a will the land was not escheatable, and so over rule the Jury to bring in their verdict that the land is not escheatable. To prevent which I have enclosed a form of a write of escheat which I believe may be more proper. For the finding of the Jury, that such persons
hath no heirs in the Government, can be no detriment or hindrance to any person that is donee, or devisee of any land by will, nor unto any heir, if he come in and make claim in the time the Law allows.

Also I have included in the form of the writ, to inquire wither Col Wilkison hath any heirs in this Government, which being for the same land, I believe may be included in the same writ, and can be no prejudice to any person, but may obviate some pretensions that may afterwards arise. All which I leave to your Honor's more mature consideration to do therein as you shall see most convenient; only entreat the favor of your answer by the first opportunity. For I would willingly have this matter brought to an end; and I doubt not by the first letter to some of them from Col Gale there will be some other amusements of new Law books, judges, or Attorney General's opinions et cet.

My son Thomas receives with his utmost and real acknowledgement your Honor's favor to him, but pretends himself as yet uncapable of acting in these posts; wherefore he humbly begs your excuse at present. But I am in great hopes he will endeavor to improve himself, and make himself capable of being serviceable to your Honor and the country in some short time.

Having no news here of any moment; only there is a report that some of the pirates have come in and submitted themselves to the government in Virginia, and brought in considerable quantities of money with them. Your news-books, which I received by Capt Lovick, after perusal shall return them. Your Honor's excuse for this long scrawl is humbly begged by him who most sincerely is

M' URMSTONE TO THE SECRETARY.—(EXTRACT.)

NORTH CAROLINA 18th 8ber 1718

Sir—America and the Climate Kills many I am Informed there have 9 or 10 Clergymen died in Virginia since I came into America, and not many less in South Carolina, some are of opinion that my life is owing under God to poor living sparing and ordinary diet with much exercise and sometimes hard labor—but age makes me abate of the latter so that I feel my fare will be worse if that can be, I set out to-morrow to a place near a hundred miles off, must cross a broad Water near 12 miles in a
canoe, where Mr Keith stopt when in the province, where I hope to get a little beef and pork if I fail we shall inevitably Starve, and to go a begging will avail little. I've tried that nay more than once, my family have had little else for sometime, but a little boiled corn such as others feed their Hogs with, and now and then mush, alias hasty Pudding made of Indian Meal, or rather water Porridge such as is eaten in the north of England, and would be good food had we a little salt butter to it. The longer I stay here the poorer I growe—Apparel, and Household stuff wear out, and how to recruit I knowe not, my Salary as managed will not keep us, nothing is to be expected from the Parish I cannot prevail with the Vestry Men to meet, the Governor has endeavor'd to cause them but in vain he has Difficulties enough to grapple with, this Country abound with Men of all sorts and fashions, opposers of all that wish well (to) it, the spirit of contradiction reigns here, they are not to be governed, but by methods of their own contriving, like no religion but one of their own making and will be served in their own way—I have more than once, desired that I might receive half my Salary yearly at Barbadoes, either by Bills of Exchange, or General Letter of Credit. I want many things, from them, my Bill will not pass there for want of an indorser, which is wanted in other Governnat's, also to my great disappointment Goods are to be bought nowe in Virginia at the first cost in England, a Couple of Good Slaves, that speak English, and that have been used to plantation Work, and a Wench for the House I want sore; my son is grown up and hath great offers made him in England 'tis not justice to make a negro of him, as he has been for several years, work a hoe and axe, and may live like a gentleman in England, which he must never expect to do here, there being but few of that degree among us. I am denied one of the greatest Comforts of Life in conversation, with either the living or the dead, the Library at Pamptichoe, sent in for the use of Clergymen by Dr. Bray in all appearance will be to all destroyed, that place being abandoned and so will all the country be in a short time, for fear of 7 or 8 Indians, the remnant of some of the Towns are destroyed in the late War, who with the assistance of some from the North, and South, do great mischief and threaten the whole Colony, so helpless are we and a prey to ev'ry body, that will attack us the Books Mr. Gordon should have brought in, and did of right belong unto me, were left with Mr. Wallace late Minister of Reekotan in Virginia, and those Mr. Adams left at his death and demanded by me are detained by the Worthy Gent* of the Vestry who say they are appropriated to that Parish, and no man shall have them except he'll reside, which I would
not do for £500 per annum. Now I beg as I have often done, once more that the Hon Society may procure an order from the Proprietors to the Govr and Consent for the delivery of the said Library and those Books in Carruthe, which the said Mr. Adams bought or else send in others. These several requests, I have made more than once, and if they came to hand; I cannot see why I have no answer, except the Society will oblige me to leave the country, the people would be well pleased, for by that means they would avoid paying me £240 which is due to me and were it not for the hopes of receiving that money one day I should be equally willing to leave them for I am quite weary of my life; I was in hopes of selling my plantation for half worth and whenever I part with it 'twill be at that day yet I must do it unless the Society will comply with what is desired and let me have a favorable and kind answer with all speed. [FROM POLLOCK'S LETTER BOOK.]

Dec 8th 1718

Hon'ble Sir

I have herewith enclosed my real sentiments as to the queries proposed by Mr. Knight, but must needs acknowledge my weakness in such high
matters, and want of time, being unwilling to detain the messenger too long: and to answer to what you desire in the postscript of Mr Knights letter, I declare that I never heard any thing of any applications to Virginia concerning Capt Thach, nor nothing of any intended expedition out of Virginia, until I heard that Capt Brand was come in, and that he and Col Moore and Capt Veall were gone to Pamplico.

There seems to be a great deal of malice and design in their management of this affair: wherefore I hope your Honor will be very cautious, and not to give them any opportunity to take advantage, which you no some people are ready and willing to do. And the Statute 11 and 12 King william being that all Governor in the said plantations under proprietors shall assist the commissioners, as is before expressed in the answer, and believing that Governor Spottswood would not act as he does by that old commission to Governor Nicholson; wherefore it is good, in my opinion, to be easy in the matter, and ready to do as the law directs, that they may be disappointed if they expect any advantages by your refusal. And as for the trial of the men, if they will have it in Virginia, it [will] ease your Honor of a great deal of trouble, and take off the odium of it from this government.

I hope your Honor will pardon my freedom, and take it in good part, and if I have erred any way in my opinion, please to attribute it to my weakness and want of a right apprehension of the matter, and not to be the want of sincerity of him who is * * *

As for the sugars or other goods delivered, or landed to be delivered, to the Governor, to be secured for those that can make appear a right to them: it seems to me that they can not be seized or carried out of the government, until by Judgment and condemnation the property be determined to be in the King, the Lords Proprietors or recovered by due course of law by the owner. and it seems to me the goods being in this government, or in some superior government, which is only in England, unless the government of Virginia have a commission from our present King thereonent according to the statute the 11 and 12 King William, which statute was only for seven years, and in the fifth of Queen Anne continued for seven years more and lastly in the first of our present King revived and continued for five years more and to the end of the next session of Parliament.

Then as for Governor Spottswood sending in forces here to apprehend Capt Thach and his men, it seems very dark and strange to me for by the foresaid Statute 11 and 12 of King William the power of trying pirates is only given commissioners to be appointed by the King under
the great seal of England or the seal of admiralty. So that unless the Governor of Virginia be appointed by Commissioners as aforesaid from our present King thereunto, I know not by what authority he could send in warlike forces into this Government without the consent of the Government. And I should think if he had a commission from our present King to act in this manner, it would have been easy to have expressed it more fully in his power given to Captain Bird, and it would have been reasonable (as I take it) to have sent in a copy of it to the Governor here, that he might have had some guide and directions how to proceed in this matter. For as for King Williams commission to Governor Nicholson, (as I take it) it was determined at farthest in six months after his death, and so I believe can be no sufficient authority for any other Governor of Virginia to act by: and also by the same commission the Governor of Carolina seemed to be of equal power with the Governor of Virginia in the trial of pirates.

And whereas by the King's proclamation all admirals, Captains, Governors, &c. are commanded only to seize on and take such of the pirates who shall refuse or neglect to surrender themselves according to the proclamation:

Now abeit that Teach and his men have come in and surrendered themselves, according to the proclamation, yet if they have been guilty of piracy after the 5th of January last, whether this may not be accounted a refusing or neglecting to surrender themselves according to the Law intent and meaning of the proclamation.

And as for carrying out such person to be tried in Virginia, unless as is said the Governor of Virginia has a particular commission from the present King, I cannot see how he can legally do it, for, if the act by virtue of the commission to Governor Nicholson, by the same commission the Governor here hath the same power, and the persons being inhabitants of this of this government ought to be tried here, for where two person have equal rights, he that hath the possession ought to have the preference.

I have given my opinion and true sentiments in the matter proposed, according to the best of my knowledge impartially, but must acknowledge my weakness and unacquaintedness in affairs of such high concern, and also want of time, having but little time to peruse the papers and return— * * *

It is the Opinion of this Board that the s't Moseley and Moore are guilty of high Crime, and misdemeanours being not only tending to the manifest Injury of the people and Subverting the quiet of the government but a high contempt and dishonor of the Supreme authority thereof in entring into the Offices Aforesd and detaining near twenty four hours the records papers and Journals aforesd and that the Governor has Justly and warrantably committed them for such their crimes and being further informed that after the commitment of the said Moore and Moseley they used several dangerous and seditious speeches and expressions endeavouring thereby to raise Sedition and disturbance in the Government

Ordered that the same be granted.

Whereas it hath been by long experience found by the frequent and Necessitious meeting and Calling the Council together that the same is very expensive as well as burthensome to them by not only neglecting their own private business but also by their Travelling so far distant from their owne habitations as most of them must and the trouble they are forced and compelled to Create to some one or other of them in entertaining the rest of them and their servants many times several days together wherefore the Honble the Governor by and with the advice and Consent of this Board have well Considered the same and in order to Redress the afsd inconvenienceys and that each of the Council may with more cheerfulness and readiness Attend the meetings afsd they have thought it very reasonable that the expences of the meeting of the Council should be for the future borne & defrayed out of the Lds prop'Revenues and thereupon have ordered their Lds Receiver General to pay and defray the same according to an article in his Instructions for doing all such matters as the Governor and Council shall think reasonable.

[From the Spotswood Letters. Vol. II. p. 272.]

February ye 14th, 1718 [1719.]

To my Lord Carteright:

MY LORD:

The Neighborhood of your Lordship's Province of Carolina has afforded me divers opportunities during my Administration here of Testifying my Regard to the Interest of the Hon'ble Proprietors and the Relief of the People, as well during the Civil Commotions in the one as the Indian War, wherein both has been successfully engaged. As I
cannot be unconcerned when any Dangers Threaten the King's Subjects in that Neighbourhood, I hope the part I have lately acted in Rescuing the Trade of North Carolina from the Insults of Pyrates upon the Earnest Solicitations of the Inhabitants there, will not be unacceptable to Your Lord's:p, and it is more necessary I should give Your Lord's:p a true Relation of that matter, because I perceive some of your Officers in that Governm't inclinable to misrepresent it as an Invasion of the Rights of the Proprietors. Your Lord's:p will, therefore, be pleased to know That about the beginning of last June, one Capt. Thatch, a Notorious Pyrate, refused to accept of his Majesty's pardon offered him by the Governor of South Carolina about eight days before he Lost his Ship at Topsall Inlet, with one of the four Sloops he had in his Company, upon w'h he and his Crew pretend to Surrender to the Governor of No. Carolina, most of his people dispersed, some going towards Pensilvania and New York, and others betaking themselves to their former Villanies, under the Command of Major Bonnet Thatch, w'by about 20 more, remained in No. Carolina, and kept one of the Sloops, pretending to Employ themselves in Trade, but both their discourses and Actions plainly show'd the wickedness of their Designs. The Indecent Affidavit of one of the Inhabitants of that province, and M'r of a Vessell there, will best display Thatch's insolent behaviour, and how little sensible that Abandoned Crew were of the Clemency they had received. Upon the repeated Applications of Trading People of that Province, and the Advice that Tach had taken and brought in hither a Ship Laden w't Sugar and Cocoa without either men or Papers, I thought it necessary to put a Stop to ye further Progress of the Robberys, and for that purpose, having prevailed with our Assembly to give considerable Rewards for the Apprehending and destroying of these and other Pirates I hired two Sloops, furnished them w't Pilots from Carolinia, concerted w't the Capt's of his Majesty's Ships of this Station the proper Measures for extirpating that Gang of Pyrates. These Sloops, fitted with Men and Officers from the King's Ships, Came up with Tach at Oeeche inlett on ye 22nd Nov'r last, and after an obstinate Resistance, wherein Tach, w't nine of his men, were killed, and nine more made prisoners, and took his Sloop, w'ch was mounted w'th 8 Guns, and in all other respects fitted rather for piracy than Trade. The prisoners have been brought hither and Tryed, and it plainly appears that the Ship they brought into Carolinia was, after the date of his Majesty's pardon, taken from the Subjects of France upon the high Seas, near the Island of Bermuda, and the Men put on Board another ship of the same Nation taken at the same time, and was
not a Wreck, as Tach persuaded the Governm't of your Lord's p's Province to believe.

Now, my Lord, it seems to be taken very much amiss that this Project of Suppressing the Pyrates should have been concealed and put in Execution without the participation of your Lordship's Gov'r, and, in the next place, that the Goods w'ch Tach had Piratically taken should be brought into this Colony to be condemned. To the first of these I beg leave to Answer That your Gov'r living very remote from hence, in a Place thinly Populated, and where these Pyrates had their chief resort, I considered that should ye Design Miscarry, your Gov'r must have been more exposed to their Revenge for being lett into that Secret; That he was there without force to defend himself, and consequently could contribute nothing to the Success of the Design, and, besides, the business required such Secrecy, that I did not so much as communicate to His Maj'ty's Council here, nor to any other Person but those who were necessarily to be employed in the Execution, least among the many favourers of Pyrates we have in these Parts some of them might send Intelligence to Tach. To the second, as I gave no directions for the seizure of any Goods upon your Lo'p's Soil, so I have taken care that the whole Effects brought from thence be duly Inventory'd and secured, and that no Decree shall pass here until your Lord'sp's Deputies be heard, for which purpose Notice is sent to Carolina of the time of holding the Court of Admiralty, and I am Confident from the understanding and honesty of the Judge of that Court that your Lord'sp and the other Hon'ble Proprietors will receive as much Justice as if the Tryal had been in your own Province. As I am also well assured that if you have a Right to any of these Goods you will be considerable Gainers by their Importation and Sale here, where there are many more purchasers for such Commodities than in Carolina, and I may say without Reflection much better Payment, but it is not improbable the True Owners may yet put in their Claim, w'ch w'll put an end to that dispute and to all pretensions, except for the Salvage, and I believe your Lord'sp is too Generous to ask from the men who ventured their Lives to Rescue it from the Pirates, considering the Expense of Blood it cost, there being no less than 12 Killed and 22 Wounded of the King's Men that went on this Service.

This, my Lord, is a true Acco't of the late Action in y'r Lord'sp's Province, w'ch, however, it may be represented through the mistaken Notions or Passions of some men, I hope your Lord'sp will find nothing in my Conduct therein derogatory to the Honour of y'r Government, or
your Lo'p's Interest. If the necessity of preventing the Growth of so
dangerous a Nest of Pyrates in the very road of the Trade of Virginia
and Maryland, as well as of your Lords'p's Province, and the secrecy to
w'ch I was obliged for the Effectual Carrying on this Service has forced
Me to pass over some forms w'th Your Government, I hope Success may
atone for that Omission, and I doubt not your Lords'p w'll prefer the
benefit of so many of the King's Subjects, (w'ch must otherwise have been
exposed to the Rapine of these Pyrates,) to the present Resentments of a
few discontented Men, as I shall always preferr to all the Applause or
Obloquy such Men can give, ye Satisfacion of being, as I truly am, w'th
the greatest respect.

VIRGINIA—JOURNAL OF THE COUNCIL

The 11th day of March 1718(-9.)

The Governour acquainted the Council, that five Negroes of the Crew
of Edward Tack and taken on board of his Sloop remain in Prison for
Piracy. That he had delay'd their Tryall till the severity of the Winter
Season was over that he might have a full Council in order to a more
solemn Examination of the severall Piracies of which these and the rest
of that Crew have been Guilty. That he judged this the more necessary
because he finds Reports are Industriously spread abroad that Thatch and
his Crew were not only within the benefit of his Maj'y late pardon; but
that the Sloops were fitted out for taking them after the said pardon was
actually arrived here, tho' it is easie to be proved that the same did not
arrive till upwards of a Month after these pirates were taken and what
is yet more unaccountable practices are set on foot in the Government of
North Carolina to justifie that Crew as Innocent of any Piracies since
their first Surrenders. That he hop'd a greater number of the Council
would have met now, but seeing no more are to be expected at present
he desired the opinion of this Board whether there be anything in the
Circumstances of these Negroes to exempt them from undergoing the
same Tryal as other pirates,

Whereupon the Council are of opinion that the said Negroes being
taken on Board a Pyrate Vessell and by what yet appears equally con-
cerned with the rest of the Crew in the same Acts of Piracy ought to be
Try'd in the same Manner; and if any diversity appears in their circum-
stances the same may be considered on their tryal.
NORTH CAROLINA—ss

At a council held at the house of William Dinkinfield Esq' April the 3rd 1719

Present the Hon'ble the Charles Eden Governor Capt. General and Admiral

The Surveyor General having made a return to this Board reporting that the Land in Controvery between Mr. John Blount and Mr. Maurice Moore resurvey'd by him by order of the Governor and Council contains three thousand feet above an acre and that there was an error in his first return of that matter which he has now rectified and finds by the courses in his s'd first returne which is within the fence of the afores'd Clare ground there is some feet above an acre

And Mr. James Wineright being summoned upon this occasion laid before the Board a plat of the afores'd Land in Controvery between the s'd Blount and Moore according to the Courses and distances Observed by the surveyor General pursuant to the first order of Council which contains three hundred & ninety feet above an acre

Whereupon this Board having Considered the same are of opinion that the s'd Land belonging to Mr. John Blount was not Lapsable and that the Sattent granted Mr. Maurice Moore was Clandestinely and srecptiously obtained

It's therefore ordered by this Board that the s'd Sattent granted to the afores'd Maurice Moore be declared Null and Void to all intent and purposes as if the same had never been granted

The Petition of Solomon Davis Alice Billet Sarah Ward and Tamer Creech being the Children of Samuel Davis Dec'd was read and Alice Billet being called and she informing the Board that Capt Benjamin West has disposessed her of part of the Estate left her by her s'd Father without any manner of pretence that she knows of

Ordered that the s'd Benjamin West attend this Board at its next sitting which will be at Matichacomaek Creek the Thursday following the opening of the next General Court

A Certificate from Mr. John Palin Escheator General was read setting forth that there was a Tract of Land returned by him which did Escheat to the Lds prop'm lying in Nuse and Mr. Receiv't General Assuring this Board that Mr. Edmund Gale hath p'd him the Composition money therefore
Ordered that a patent for the s^4 Land doe Issue to the s^4 Edmund Gale
Adjourned til Saturday morning

Saturday morning Ten a Clock this Board met again

The Governor having laid before this Board a Letter from Mr. Edward Moseley directed to him dated Janry 29th 1718 which being read the Board are of opinion that the same is a seditious and scandalous Libel containing several false and Villianous reflections on the Governor and Councils proceedings.

It's therefore Ordered that the s^4 Letter be put into the Attorney General's hands to prosecute the s^4 Moseley thereupon.

This Board having been informed that a wrong Construction is put upon a Clause in the act for raising the sum of Twenty four thousand pounds etc. which proves a great Hindrance to the receivers in their Collections of the annual Taxes (Viz.) Be it enacted if any person shall neglect or refuse by the space of three years to pay the sum of Two shillings and Six pence for every hundred of Acres as by this act is directed or if any Land held in this Government shall be concealed by the space of three years and no accompt given to the Clerks as by this act is directed and if it shall happen that there cannot be anything found on the s^4 Land where upon to Levy the forfeitures the Justices of the precinct Court where such Land lies shall have full power and authority to sell so much of the s^4 Lands as shall satisfy and pay the same.

It's the opinion that this Clause is binding till all the publick Bills are Sunke and destroyed and that at the expiration of the three years mentioned in the Clause (altho distress should have been once made) the Lands are still answerable for ensuing Taxes only that in less than three years neglecting or refusing to pay their Taxes distress cannot be made the s^4 act in another clause having made provisions of Ten shillings fine for every hundred acres of Land concealed.

The proceeding of the Court of Admirolty held at Williamsburg in Virginia March the 12th 1718 being Transmitted from that Government and now laid before this Board by the Governor to whom they were directed wherein there is several Depositions taken against Tobias Knight Esq. Sec'y of this Province with an opinion of the s^4 Court that the s^4 Tobias Knight is an accessory of Pirates and that the aforesaid Depositions given in that Court so far as they relate to the s^4 Tobias Knight be sent into the Governor of North Carolina to the end he may cause the s^4 Tobias Knight to be apprehended and proceeded against pursuant to the directions of the Act of Parliament for the more effectual suppressing piracy.
Which being duly considered of by this Board they are of opinion that M'r Knight should before any proceedings be had be served with Coppys of all matters relating to him in the Charge from the Government of Virginia and that he attend this Board the next Sitting and bring with him all papers, Orders Depositions or any thing else he may have by him relating to Theache and the Transactions of Capt Ellis Brand Len Maynard and all others concerned in that business

Ordered that coppys of all the afores proceeding of the Governor of Verg be sent to M'r Knight and that time notice be given him of the Councils next sitting

The Petition of Thomas Harding Provost Marshal of Bath County was read.

Ordered that the s' Harding attend the next Council without fail

MR. TAYLOR TO THE SECRETARY.—(Extract.)

Perquimons Precinct
April 23rd 1719.

Honble Sir

During my officiating on the South West Shore of Chowan, I preached every Lords day throughout this year, and I would have administered the Lords Supper several times this year, If I could but have had the small number of Communicants, which our Church requires, But I could not truly get this small Number, and therefore I must confess I did not administer it at once, nor do I know when I shall here—The people are so little inclined to receive it which is one thing makes me very weary of living in this place. When I give notice of my intentions to administer the Holy Communion on Easter Day, a Few Lords Days before, a considerable Person after the Public Worship of God was ended, said to me now Mr. Taylor is going to damn his Parishioners, I suppose he said this, because he thought, that they that would receive were very unfit for it, and would Eat and Drink unworthily and so eat and Drink Damnation to themselves, and I must confess it, the People here generally, and almost all of them are very ignorant, and very irreligious; and very worldly wicked, and do very little desire to be better informed, or reformed which is another thing, that makes me weary of living here; yet I hope I may say, I did some good too, this year that officiated in the South West Shore of Chowan, that I promoted knowledge of the best things, and Religion in some there; and persuaded them to be less worldly and Wicked than they were before.

In this year I caused a pretty many of the children to learn our catechism, and catechis'd them, in public, in this year I Baptized one Adult
White Young Woman, and Thirty White Children, and one Adult Negro Young Woman, and one Mustee Young Woman and three Mustee Young Children, in all 36. I hope I took a method with the Negro Young Man, and with the Mustee Young Woman, whom I baptized, which will please the Society, which was this, I made them get our Church Catechism perfectly without Book, and then I took some pains with them to make them understand it, and especially the Baptismal Covenant, and to persuade them, faithfully and constantly to perform the great things they were to promise at their Baptism, and ever after to perform to God: and then I caused them to say the catechize, one Lords Day, and the other another Lord’s Day before a large congregation, without Book which they did both distinctly, and so perfectly, that all that heard them admired their saying it so well, and with great satisfaction to myself, I baptized these two persons. These two persons were Esquire Duckenfield’s Slaves, (The Gentleman with whom I lived most of this year) & whose house was our church all this year. This gentleman had several other Slaves, who were as sensible and civil, and as much inclined to Christianity and things that are good: as ever I knew any slaves, any slaves in any place, where ever I have been, and indeed, so are the slaves generally in this Province, and many of the slaves of this country I am persuaded would be converted, Baptized and saved, if their Masters were not so wicked as they are, and did not oppose their Conversion, Baptism, and Salvation, so much as they do, I had for some time great hopes of being the Minister that should convert and Baptize the rest of the Esq’ Duckenfield Slaves, which I was very desirous and ambitious to be, and I would have begrudged no pains, but would most freely and with the greatest pleasure have done all I could to promote and accomplish this so great, and so good a work. And in order thereunto I was preparing 4 more of them for Baptism, and had taught one of those 4 their Catechism very perfectly, and the other 3 a good part of it, and now as I was about this good work, the enemies to the conversion and baptism of slaves, industriously and very busily buzzed into the Peoples Ears, that all slaves that were baptized were to be set free, and this silly Buckbeard so greatly scared Esq’ Duckenfield, that he told me plainly I should Baptize no more of his slaves ’till the Society had got a Law made in England that no Baptized Slave, should be set free because he is Baptized and send it here, and many more are of the same mind, and so this good work was knocked in the head which is a great trouble to me, because so many slaves are so very desirous to become Christians without
any expectation of being set free when they are Baptized—I fear this good work will not be revived and prosper here till such a Law is enacted by the Parliament of Great Britain and this people are acquainted with it, for I perceive nothing else will satisfy them; This and some other rubs I met with, and the great need of a Church of England Minister, which the interest of the Church of England stood in here, where there are many Quakers, who make it their business to gain as many of our Friends over to them as they can; wherein they have been too successful and leavened some of our people with their Principles and practices too much and especially with anti-Baptism, and many of their children and of themselves too are unbaptized, and used commonly to go to the Quakers Meeting because there was no Public Place of Worship for them to go to. These things were the chief Reasons of my leaving the South West Shore of Chowan and coming here where I hope I shall increase the Interest of the Church of England and cause the Interest of the Quakers to decrease and then I persuade myself that the most excellent Society will not be offended at my removing here—

[FROM THE SPOTSWOOD LETTERS. VOL. II. P. 316.]

To Secretary Craggs:

Sir:

By his Maj' ty's Ship, the Dral-Castle, w'ch arrived here ye — Ins't, I had the hon'r of Yo r's of ye 24th of Dec'r, w'th the King's Declaration of War against Spain, and the Commission and proclamation mentioned in Yo r Letter, and in answering thereto, can only beg leave to assure you y't his Maj' ty's Commands shall be punctually Obeyed.

The intimation you are pleased to give me that ye rumors of exacting great Sums on the Surrender of Pyrates is not meant to me, is extraneously obliging, as it serves to make me easy, who have had too much cause given me of late to be otherwise through the Misrepresentations of my Enemys, tho' in this particular I might defy Malice it Self to fault my Conduct, having never received the value of one penny from any of the Pyrates that have either Surrendered or been pardoned here; And tho' there have been 14 or 15 who Surrendered, and had Certificates under the Seal of the Colony, for w'ch the Clerk was allowed to demand five Shillings a piece, yet I am well assured that no more than five paid any thing
at all; And of Seven that have rec'd their pardons, only one has paid the Attorney-Gen'l the common fee he receives for making out the like pardons even for a Condemned Negro, and he, too, was a person of a very notorious Character for his Piracies, and had his Money restored to him after he had been Condemned, because there was no proof of its being piratically taken, but if these common fees to ye Officers are intended by his Maj'ly to be likewise Remitted upon the least Intimation, I shall direct those Officers to dem'd no more.

Having in my last taken Notice of some Goods in the possession of Thach and his Crew of Pyrates in North Carolina, w'ch were brought hither by Capt. Brand, of his Maj'ly's Ship, the Lyme, and the other Officers of the Sloops sent for Suppressing that Gang of Villains, I think it necessary now to informe you that these Goods, being proved to be piratically taken by this Thach in a French Ship bound home from Martinico, have, by a Decree of the Court of Vice Admiralty of this Colony, been condemned as such, and being perishable, have been sold at publick Auctio'n the produce whereof in ye same Species for w'ch it was sold, amounts to 447 ounces ...... penny weight of Spanish Gold, w'ch is of Virginia Currency, £2,238; and is ready to be paid, after the necessary Charges of Transportation from Carolina, and of the Storage and Sale, are deducted, to the Owners, if they claim the same, or to whomsoever his Maj'ly shall appoint. But, it's fit also to Represent to you that notwithstanding the Government of No. Carolina admitted Thach and his Crew to make Oath that this French Ship and Cargo, which he brought in thither, was found by him as a Wreck at Sea, without Men or Papers, tho' the same Government suffered these Effects to continue for some months in the possession of these Pyrates, and tho', after Thach was killed and his whole Crew subdued, the Effects, w'ch had been Landed by Thach, were, by Order of the Governor of No. Carolina, voluntarily delivered up to Capt. Brand, Yet a pretension has been set up by that Government to have the whole of these Effects delivered up to them, as of right belonging to the Lords Proprietors, being once upon their Soil. At first they only claimed them as Wreck, but when it plainly appeared that they were not Wreck, but piratically taken, then the Gov'r claimed a Right of having those Goods Try'd and Condemned within that Province, and after the Court of Vice Admiralty was proceeding legally on the Condemnation thereof, a Plea was put into the Jurisdiction of that Court, and it was insisted that these Goods ought to be returned back to No. Carolina to be Try'd and adjudged there. And when that Plea was over ruled, Captain Brand is then threatened to be prosecuted in England for a Tres-
pass on the Lords Proprietors’ Lands. And, w’ch is yet more surprizing, there are some in y’t Government y’t endeavour to justify Thach and his Crew as very honest men, and to condemn the Officers and Men belonging to the King’s Ships as Murderers for attacking and subduing them. When it is notorious that after they surrendered in y’t Province, and rec’d the benefit of his Maj’ty’s Mercy, they went out again on the same piratical design, not without the privity of some in principal Stations in that Gov’t; took this very Ship after the date of his Maj’ty’s second pardon, and committed other Acts of piracy, even within that province, and at last fought against the King’s colours, and would not surrender when they were told they should be treated as Friends. Seeing, therefore, Capt. Brand is like to be troubled in England for the greater part of these Effects w’ch were Landed in Carolina, I have caused the whole produce to be remitted into England, that in case he should be condemn’d to pay ye same to the Lords proprietors, it may be ready for that purpose. But I am confident, when his Maj’ty is truly informed how little ground there is for such a prosecution against a Gent. who has done nothing but his Duty, being sent hither for the very intent of destroying pirates, His Maj’ty will be pleased to grant him his protection. And tho’ I am Credibly inform’d that Affidavits are taken in No. Carolina to contradict what has been plainly proved here upon the Tryal of the pirates, and to prove that Capt. Brand took away these piratical Effects by force, I hope the Lords proprietors themselves will give little Credit to such Clandestine Testimonials when they shall know how dark apart some of their Officers have acted, particularly one who enjoyed the post of Secretary-Chief Justice, one of their Lord’p’s Deputy’s and Collector of the Customs held a private Correspondence w’th Thach, concealed a Robbery he committed in that province, and received and concealed a considerable part of the Cargo of this very firench Ship w’ch he knew Thach had no Right to give or he to receive, admitting ye same had been Wrecked Goods as was pretended. But it would be too tedious to relate how many favourers of Pirats there are in these parts, and even in this Colony had they power equal to their Inclination. People are easily led to favour these Posts of Mankind when they have hopes of Sharing in their ill-gotten Wealth. I have had the Experience how little some are able to bear being abridged of their profit, from what vile means soever it comes, having raised up a very industrious and implacable Enemy by reprimanding a prime Lawyer here for prosecuting an unjust Action in behalf of a notorious pirat who was condemn’d and owed his Life only to the seasonable Arrival of his Maj’ty’s second
gracious pardon. I will not hear trouble you w'th anything relating to the Accusation of the Burg's against my Self since I have also sent Copy's of the Addresses of 21 Countys out of the 25 in this Colony, as also of the Clergy and Grand Jury disavowing all that proceeding of their pretended Representatives. As that of the Grand Jury is to his Maj'ly, I have transmitted it to my Lord Orkney, not doubting his Lo'p will use your Advice and assist in the presenting it, And I hope these publick Testimonys of my Administration will serve to Balla. the rash Accusation of a small part of the Burg's's, and preserve me a place in y'r good opinion and protection, w'ch I shall ever acknowledge with the Gratitude y't becomes me, being with the greatest respect,

Sir, y'rs, &c.

To the Lords of Trade:

My Lords:

* * * * * * * * *

Having by my former Letter advised Your Lord'ps that Sundry Effects, piratically taken by one Thatch and his Crew, were seized and brought hither from No. Carolina, I am now to Inform Yo'r Lord'ps that the same has been condemned by the Courts of Vice Admiralty, And, consisting of Sugar, Cocoa and other perishable Commodities, have been sold at publick Auction, And because there is like to be some Controversy about the Property of those Goods, I have caused an Acoo't to be taken of ye produce in the same Species as the Goods were sold for, which amount to four hundred and forty seven Ounces — penny weight of Spanish, French and Portugal Gold, and at £5 3s. 6d Ounce is, in the Currency of this Country, £2,238 — out of w'hch is to be deducted the Charges of recovering ye s'd Effects out of the hands of the Pyrats, the Transportation from Carolina, the Storage and Expence of the Sale. As to the Right of these Effects, it appearing that the same were taken Piratically by Thatch in a French Ship w'ch he met to the Eastward of Bermuda on the 22nd of August last, and bro't in w' th him to No. Carolina where he burnt ye Ship, If the Owners make out their property, the produce must be paid to them according to his Maj'ly's Treatys allowing a usual Salvage to those who rescued them from ye Pyrats. If no Claimer appears and that the same comes to the King, no doubt his Majesty w'll
think fit to Rew'd the Officers of his Ships and others Concerned in so considerable a Service as the destroying that Crew of Pirates. But there is an unexpected pretension set up for these Pyratical Effects by the Gov't of No. Carolina as being taken within the Seas of the Soil of the Lords Proprietors, by Capt. Brand, of his Maj'ly's Ship, the Lyme, and the Officers of the Sloop sent against Thach. What title that Gov't has to Support the Claim, they have not thought fit to discover, but when the Goods were under the Tryal of the Court of Vice Admiralty here, a Plea to the Jurisdiction of y't Court was put in by that Government's Attorney here, and after that was overruled, and the Goods appointed to be sold, and the Money Lodged in my hands pursuant to the King's Instructions, Capt. Brand is then Threatened to be sued in England for a Trespass on the Lords Proprietors' Lands and made accountable for all he had taken there out of the possession of the Pirates. This has obliged me to Cause the produce of these Effects to be remitted to England; that if Capt. Brand should be troubled there, and the money recovered by the Proprietors of Carolina, he may have it there to pay rather than suffer in his private Estate till he could have the money remitted from hence; And this I could not, in Justice, deny to a Gent. who had show'd a particular Zeal and Diligence in Exterminating that Nest of Pirates, but, at the same time, if no such recovery shall be had by the Proprietors of Carolina, the money will be secured according to his Maj'ly's Instructions, and will always be ready to be Answered to whomsoever it belongs.

It is surprizing that the Government of No. Carolina should now Claim the property in these Piratical Effects, when it fully appeared that they submitted Thach and his Crew to make Oath that the Ship and Goods were found by him as a Wreck at Sea; that they suffered the said Goods to remain in the possession of that piratical Crew for divers months, until Thach was destroyed, And then the Goods were delivered to Capt. Brand, (out of the Store-houses where Thacht had Lodged them,) by the Gov'r of No. Carolina's Orders, but this Conduct of theirs will be easily unriddled when it appears that some in Chief Stations there have had too much Correspondence with those Pirates, particularly one who held the office of Secretary Chief Justice, one of the Council, and Collector of the Customs, appears to have been privy to one Piracy of Thacht's committed in that very Province, and can hardly be supposed ignorant of the Piratical taking of the French Ship, when he received and Concealed a considerable part of her Cargo; and if he did believe her to be a Wreck, as Thacht pretended, he must know that Thacht had no Right to give, nor he to receive other Men's Goods, w'ch ought to
have been secured as the Law directs. Since the Sale of these Goods, Mr. Grymes, the Dep'y Auditor, has Claimed a Right to Audit the Acco'ts and to have 5 p C't. for his Trouble. I told him he might, when he pleases, have the inspection of the Accompts, yt nothing might be Charged therein but what was fit and usual, but that the property was not yet determined, it would be but ill Management if the Owners had the money, to allow him a Salary for examining the Acco'ts of their proper Estates, and if the Proprietors of Carolina should recover it, I doubted whether they would allow him that profit, but if it came to the King, his Maj'ty might give him what he thought fit for his trouble; but being uncertain of receiving any profit, he has troubled himself no farther. Having now laid before Yo'r Lo'ps all that I judge of Consequence in the publick Transactions of the Gov'nm't, I have only to add that the Colony continues in Peace on its Frontiers and flourishing in its Trade, and except among a few Malcontents, impatient to see the Effect of Disturbances they have been fomenting, I believe none of his Majesty's Dominions enjoy a more perfect Tranquility.

My Lords, &c.

LIEUT: GOV: SPOTSWOOD TO LORDS OF TRADE.

 VIRGINIA May 28th 1719.

My Lords.

Having by my former Letters advised your Lordships that sundry Effects Piratically taken by one Thack and his were seized and brought hither from North Carolina I am now to inform your Lordships that the same have been condemned by the Court of Admiralty and consisting of sugar Cocoa and other perishable Commodityes have been sold at Publick Auction: and because there are like to be some controversy about the Property of those Goods, I have caused an account to be taken of the produce in the Same Species as the Goods were sold for, which amounts to Four hundred forty nine ounces 11 penny weight of Spanish French & Portugal Gold and at £5 0 C't. Ounce in the currency of this Country £2247 19 4 out of which is to be deducted the Charges of recovering the said Effects out of the hands of the Pyrates, the transportation
from Carolina the storage and expense of the Sale. As to the right to this Effects it appearing that the same were taken piratically by Thack in a French ship which he met with to the Eastward of Bermuda on the 22nd of August last, and brought in with him to North Carolina, where he burnt the ship, if the Owners make out their Property, the produce must be paid to them according to his Majesties Treaty allowing the usual salvage to those who rescued them from the Pirates. If no Claims appears and that the same comes to the King, no doubt his Majesty will think fit to reward the Officers of his ships and others concerned in so considerable a service as the destroying that Crew of Pirates But there is an unexpected pretention set up for these Piratical Effects by the Government of North Carolina as being taken within the Seas off the soil of the Lords Proprietors by Captain Brand of his Majesties ship the Lynne and the Officers of the sloop sent against Thack; what Title that Government hath to support this claim they have not thought fit to discover, but when the Goods were under the Tryall of the Court of Vice Admiralty here a plea to the Jurisdiction of that Court was put in by that Governments Attorney here and after that was overruled and the Goods appointed to be sold and the money lodged in my hands pursuant to the Kings Instructions. Captain Brand is then threatened to be sued in England for a Trespass on the Lords Proprietors lands and made accountable for all he had taken there out of the possession of the Pyrates. This has obliged me to cause the produce of these Effects to be remitted to England, that if Captain Brand should be troubled there and the money recovered by the Proprietors of Carolina he may have it there to pay rather than suffer in his private Estate till he could have the money remitted from hence: and this I could not in justice deny to a gentleman who has showed a particular zeal & diligence in extirpating that nest of Pyrates but at the same time if no such recovery shall be had by the Proprietors of Carolina the money will be secured according to his Majesties Instructions and will always be ready to be answered to whomsoever it belongs.

It is surprizing that the Government of North Carolina should now claim the Property in these Piratical Effects when it hath fully appeared that they admitted Thacke and his Crew to make Oath that the ship and Goods were found by him at a Wreck at Sea, that they suffered the said Goods to remain in the possession of the Piratical Crew for divers months untill Thacke was destroyed and then the Goods were delivered to Captain Brand (out of the storehouse where Thack had lodged them) by the Governor of North Carolina's orders but this conduct of theirs will be
easily unriddled when it appears that some in Chief Stations have had to much Correspondence with those Pyrates, particularly one who held the offices of Secretary Chief Justice one of the Counsell and Collector of the Customes appears to have been privy to one Piracy of Thache's committed in that very Province & can hardly be supposed ignorant of the Piratical taking of the French ship when he received and concealed a considerable part of her Cargo and if he did believe her to be a Wreck as Thache pretended he must know that Thack had no right to give nor he to receive other mens Goods which ought to have been secured as the law directs.

Since the sale of these Goods Mr Grymes the Deputy Auditor has claimed a Right to audit the Accounts and to have 5 7/8 cent for his trouble I told him he might when he pleased have the Inspection of the Acconps to see that no thing was charged therein but what was fit and usual, but as the Property was not yet determined it would be but ill management if the Owners had the money to allow him a Salary for examining the acconps of their proper Estate and if the Proprietors of Carolina should recover it I doubted whether they would allow him that Profit but if it came to the King his Majesty might give him what he thought fit for his trouble but being uncertain of receiving any profit he has troubled himself no further.

Having now laid before your Lordships all that I judge of consequence in the publick Transactions of the Government I have only to add that the Colony continues in Peace on its Frontiers, and flourishing in its Trade and except among a few Malecontents impatient to see the Effect of Disturbances they have been fomenting I believe none of his Majestyes Dominions enjoys a more perfect Tranquility

I am with all duty and respect

My Lords

Your Lordships

most obedient

Humble servant

In pursuance of an order of Council dated April the 4 1719 Tobias Knight Esq' Sec'y of this province and a member of the Council attended this Board to make answer to the several Depossitions and other Evidences mentioned in the aforesaid order which s'd Depossitions and Evidences were read in the following words Copy of several Depossitions and other Evidences given before the Court of Admiralty Constituted by Commission under the Great Seal for hearing and determining Piracy for the Colony of Virginia the 12th day of March 1718 for the tryal of James Blake, Alias Jemmy and other pirates late of the Crew of Edward Thache late master of the sloop Adventure Comand by Edward Thache being sworn and Examined Deposited that he was on Board the s'd Sloop Adventure at the takeing of Two french Ships in the month of August last past and that all the prisoners at the Barr were on Board the Said Sloop and bore arms under Thache at the time of the s'd Piracy That Thache plundered one of the ships of some Cocoa and the other brought in with him to North Carolina having first put her Crew on Board the ship first mentioned that soon after Thache's arrival at Oacock Inlet he went in a periangor with foure of the prisoners by name Rich' Stiles James Blake James White and Thomas Gates to M'r Tobias Knight Sec'y of North Carolina carrying with him a present of Chocolate Loaf Sugar and Sweet meats being part of what was taken on Board the french ships above mentioned and that upon Thaches return from M'r Knight the Deponant Sawe divers goods brought in the periangor which Thache s'd he bought in the Country but the Deponant afterwards hearing that one William Bell had been robbed and understanding as well by common report as by discourse with s'd Bell what kind of Goods he had been robbed of the Deponant knew them to be the same which Thache had brought on board his sloop but durst not discover to the s'd Bell who had robbed him.
The four prisoners being asked whether they knew of the robbery of Bells Perianger acknowledge that the same time in September they went from Oacock in a periange with Edward Thache to the house of Tobias Knight Sec'y of North Carolina and carried in the said perianger three or four cuggs of Sweet meets Some Loaf Sugar a bag of Chocolate and Some boxes the Contents of which they did not know that they got to the 4th Knight house about Twelve or one Clock in the Night and carried up the cuggs and boxes afs which were all left there except one cugg of Sweet meets which was carried back in the perianger that the 4th Knight was then at home and the 4th Thache staid with him til about an hour before the break of day and then departed that about three miles from the 4th Knights house at a place called Chester's landing they saw a perianger lying near the shore upon which Thache ordered them to row up towards her saying he would go a shore to Chester's house but when he came up with the said perianger (in which were a white man a boy and an Indian) Thache asked them for a dram and immediately jumped into the perianger and after some dispute plundered her carrying away with him some money one cask of pipes a cask of rum or Brandy some linen and other things and then the 4th Thache Comanded the 4th prisoners to row away for Oacock Inlet instead of going a shore at Chester's as he at first gave out he intended.

William Bell of the precinct of Corrotuck being sworne and Examined deposeth that being on Board his perianger at the Landing of John Chester in Pamlico river in North Carolina in the night of the 14th of September last a large perianger passed by standing up the river that a little before break of day the same perianger returned and rowed on Board the deponent That a whiteman that he since understands was Edward Thache entered the deponents perianger and asked him if he had anything to drink to which the deponent answered it was so dark he could not well see to drawe any whereupon the 4th Thache called for sword which was handed him from his owne perianger and Commanded the deponent to put his hands behind him in order to be tied Swearing Damnation seize him he would kill the deponent if he did not tell him truly where the money was. That the deponent asked him who he was and whence he came to which the 4th Thache replied he came from Hell and he would carry him presently That the deponent laid hold of the 4th Thache and struggled with him upon which he called to his men to come on Board to his assistance and they came and laid hold on the deponent his son and an Indian he had with him then the 4th Thache demanded his pistols and the deponent telling him they were locked up in his chest he
was going to break it open but the deponent intreated him not to doe soe for he would open it but tho he permitted the deponent to unlock the Chest he would not suffer him to put his hands therein but took the pistols out himself that the 5th Thache having got the deponents perianger out into the midle of the river rifled her took away £66 10s in Cash one piece of Crape Containing 58 yards a box of pipes half a barrel of Brandy and Several other goods the particulars are mentioned in an account the deponent now delivered into court that particularly the deponent was robbed of a silver cup of remarkeable fashion being made to screw in the midle the upper part resembling a Chalice the Lower a Tumbler which cup the deponent is informed has been found on Board Thaches Sloop that when the 5th Thache and his Crew had taken what they thought fit from the deponent they tossed his sail and oares overboard and so rowed downe the river That the 5th Thache in Beating the deponent broke his sword about a Quarter of a yard from the point which broken piece of the sword the deponent found in the perianger and now produces in Court and the deponent Verily beleave Thache had intellegence of his hauing money otherwise he would have passed by in returneing from as he did in goinge to Mr. Knight without concerning himself with the perianger and the deponent further saith that within Two hours after he had been thus robbed he went to complaine to the Governor of North Carolina who sent him to Mr. Knight then Chief Justice upon which the 5th Knight gave him the Warrant or hue & Cry which he now produces in Court and that notwithstanding the deponent did particularly describe the perianger and the men by whose he was thus robbed and did repeat as near as he could the Language the whiteman useed to the deponent and declared that the other foure were Negroes or White men disguised as such and that the 5th perianger had passed by the same night toward his house or Bath Towne yet the 5th Knight did not discover to the deponent that any such perianger had been at his house or that he knew Thaches being in the Country.

Then was produced a Letter from the aforesnamed Tobias Knight directed to Cap't Edward Thache on Board his sloop adventure which Letter was proved to have been found among Thaches papers After his death and by comparrision of the hand with other papers appears to be the writing of the 5th Tobias Knight which 5th Letter was read and is as followers.

T. KNIGHT

After Captain Ellis Brand Commander of his Majesty ship the Lune declared that having received Information of Twenty Barrels of sugar and Two baggs of Cotten lodged by Edward Thache at the house of Tobias Knight he asked the s¹ Knight for those goods they being part of the Cargoe piratically taken in the French Ship and that the s¹ Knight with many asserverations positively denied that any such goods were about his plantation but yet the next day when he the s¹ Cap Brand urged the matter home to him and told him of the proofs he could bring as well by the persons concerned in Landing the s¹ goods as by a Memory in Thaches pocket Book he the s¹ Knight owned the whole matter and the piratical Goods aff¹ were found in his Barn covered over with fodder

At a Court of Admiralty Continued and held at the Capital the 13th day of March 1718 Whereas it has appeared to this Court Mr Tobias Knight Sec'y of North Carolina hath given Just Cause to suspect his being privy to the Piracies committed by Edward Thache and his Crew and hath receiv'd and Concealed the Effects by them piratically taken whereby he is become an accessory

Its therefore the opinion of this Court that a copy of the Evidence given to this Court so far as they relate to the s¹ Tobias Knight's Behaviour be Transmitted to the Governor of North Carolina to the end he may cause the said Tobias Knight to be apprehended and proceeded against pursuant to the directions of the Act of Parliament for the more effectual suppression of Piracy

And then the s¹ Tobias Knight did remonstrate to this Board in answer thereto as followeth
NORTH CAROLINA
To the Honble Charles Eden Esq' Gov'r and the rest of the member of the
Honble the Council now sitting

The Humble remonstrance of Tobias Knight Esq' Secretary of this
province and a member of this Board in answer to the several Deposi-
tions and other pretended Evidences taken against him at a Court of
admiralty holden at the Capital of Virginia the 12th day of March 1718
First the st Tobias Knight doth aver and doubt not to make it Evi-
dently appeare that he is not in any wise howsoever guilty of the least of
those Crimes which are so Slyly malitiously and falsely suggested and
insinuated against him by the st pretended Evidencce the which to make
more apparent to your Honours the st Tobias Knight doth pray your
Honours first to Consider as to the Evidence themselves they being such
as Contradict themselves or as ought not to be taken in any Court of
Record or else where against the st Tobias Knight or any other white
man for first Hesikia hands master of Cap' Thaches Sloop Adventure
seems to sweare posistively in his Deposition that the st Thache went
from Oconoch Inlet at his returne into this Country from his last voyage
with a present to the st Tobias Knights house when by the same deposi-
tion he acknowledgth that to be out of the reach of his knowledge he
being all the time at the st Inlet which lies at above thirty leagues dis-
tance from his house and further the st Tobias Knight doth pray your
Honours to observe that the afores Hesikias hands was (as he has been
well informed) for some time before the givinge of the st Evidence kept
in prison under the Terrors of Death a most severe prosecution and that
there doth apparently appeare thro' out the whole Evidence more of Art
mallice and designe against the st Tobias Knight then truth secondly as
to the four next Evidence pretended to be given against the st Tobias
Knight under the name and pretext of foure of Cap' Thaches men is
utterly false and such as the st Tobias Knight humbly conceives ought
not to be taken against him for that they are (tho cunningly couched under
the names of Christians) no other the four Negro Slaves which by the
Laws and customs of all America Aught not to be Examined as Evi-
dence neither is their Evidence of any Validity against any White per-
son whatsoever and further that the st Negroes at the time of their give-
ing the pretended Evidence afores (as the st Tobias Knight is informed)
was upon Tryal for their own lives for the supposed piracy by them
Committed on Board the st Thache and that what they did then say was
in hopes of Obtaining mercy tho' they were then Condemned and since
Executed so that had they been never so Lawfull Evidences the st Tobias
Knights debarred from his right and benifit of an Examination of them.
Thirdly as to the Deposition of Wm Bell I shall only observe to your Honours that there is nothing in it can Effect the s" Tobias Knight save that it is therein cunningly Suggested that Edward Thache was at the s" Tobias Knight house that night in which he was robbed which the s" Tobias Knight has good reason to believe was rather an Artful and malicious design of those that drew the s" Depositions for that had it been true it was Impossible to have been within the reach of his knowledge and besides the s" Bell upon his Examination the day after he was robbed had in Suspicion one Smith Undey fileing Dick and others and hath since the date of that Deposition Viz on or about y" 25 of April last past declared that he doth verily believe that the s" Thache never was at that time at the s" Tobias Knights house for the truth of which the s" Tobias Knight doth humbly refer to the Examination and Depositions of Mr Edmund Chamberlain.

Fourthly as to the pretended Evidence of Capt Elias Brand the s" Tobias Knight doth humbly conceive the same ought not to Effect him for had it been true it had and ought to have been upon Oath which is not tho' the s" Tobias Knight doth in the most Solemn manner declare that the s" pretended Evidence is every word false and that the said Brand never did at any time speak one word or mention to the said Knight in any manner whatsoever touching or concerning the sugar mentioned in the said Evidence before the s" Knight first mentioned them to him neither was the s" sugar ever denied by the s" Tobias Knight to be in his Custody for the truth of which he humbly refers to the Honble the Governor but further Saith that when the s" Tobias Knight was apprised that the s" Brand had been informed that the s" Sugars had been cunningly put on shore for the s" Knights use and that there might be found in his Custody Several other things of value belonging to the s" Thache and that the s" Brand did intend to send his people to search his the s" Knight house he did then speak himself to the s" Brand and did acquaint him truly how and for what reason the s" sugars was there Lodged Viz' at the request of the s" Thache only till a more Convenient store could be procured by the Govr for the whole with assurance that the s" Tobias Knight never did pretend any Claim or right to any part thereof and did also at the same time desire the s" Brand if he had any other informations against him he would be so civil as either to come himself or send his Lieut to his house and every lock in his house should be opened to which he only replied that tho' he had some sightfull things insinuating by Evil minded persons whose names he need not mention.

Maurice Moore Jerimiah Veal and others of that family.
yet he had more Honour than to do any such thing for that ever Since his coming into this Government he had found nothing in the s^t Tobias Knights but a great deal of readiness to assist him in the service of the Crowne very much becoming a Gent and one in his post which Character he should give of him in Virginia in opposition to all the false and malicious stories there suggested against him or words to the same Effect fifthly as to the Letter that was said to be found of the s^t Tobias Knights writing on Board the s^t Thache Sloop the s^t Knight doth believe to be true for that he did write such a Letter by the Governor's orders he having advised him by Letters that he had some earnest business with the s^t Thache but he doth utterly deny that there was any evil intent in the writing the s^t Letter but that he did verily believe at the Same time that the said Thache was as free a Subject of our Lord the King as any person in this Government and the s^t Tobias Knight doth further say in his owne Justification that when the s^t Thache and his Crew first came into this Government and Surrendered themselves pursuant to his Majestys Proclamation of indemnity the said Tobias Knight then was and for a long time had been confined to his bed by sickness and that during his whole stay in this Government he never was able to goe off from his owne plantation nor did either the s^t Thache or any of his crew frequent the s^t Knights house unless when they had business at his Office as Secretary or Collector of the Kings Customs neither did the s^t Tobias Knight or any of his family contract any acquaintance with the s^t Thache or any of his crew nor did deal buy or Sell any with or of any of them during their whole stay Save only Two Negroe men which the s^t Knight purchased from Two men who had left the s^t Thache and had receiv'd their pardons and since are gone Lawfully out of this Government and Stil Continue in their good Allegiance and the s^t Tobias Knight doth aver for Truth that from the time the s^t Thache tooke his departure from this Government bound to St Thomas's he did never See the s^t Thache or any of his people until on or about the 24th of September last past when he came and reported to the Governor that he had brought a wreck into this Government and particularly that the s^t Thache was not to the s^t Knight knowledge nor to the knowledge of any of his family at or near his house on or about the 14th day of September last past as is most falsely suggested in the s^t Evidence given against him in Virginia for the Truth whereof he refers himself to the Examination and Deposition of Mr Edmund Chamberlaine afores^t all which is most humbly Submitted by

Your Honours Most Dutiful and
Most obedient Servant

T KNIGHT.
Then Mr Edmund Chamberlaine was Examined and his Deposition was read & sworn to before this Board in the following words

NORTH CAROLINA ss

The Deposition of Edmund Chamberlaine Gent taken upon his Examination before the Honble the Governor and Council at a Council Board holden in Chowan the 27th day of May 1719 who being sworn on the Holy Evangelist saith

That he this Deponent hath been for some considerable time past viz' ever since the Later end of August last past to this time a liver at the house of Tobias Knight Esq' in Bath County and that particularly on or about the 14th of September last past and for several days before and since he never was absent from the strange Tobias Knight house either by night or by day nor was there any passages or Occurrences as this Deponent verily believes kept secret or unknown to him and further saith that this Deponent did never see Capt Edward Thache nor any of his Crew neither was any of them to his knowledge at the strange Tobias Knights House either by night or by day until on or about the 24th day of the strange last September when as this Deponent is informed he came up to the Governor and reported to him that he had brought a wreck into this Government and this Deponent doth verily believe that if the said Thache or his Crew had come to the strange Tobias Knights at any time either by night or by day before that time and especialy on or about the 14th of September the strange Deponent must and would have seen them, because at the time there was an Alarme of the Heathen falling upon us and this Deponent was at that time and upon that acompt very watchfull and apprehensive of every thing that stirred about the strange house and the strange Tobias Knight was also at that time in so ill a state of health that this Deponent verily believes he could not possibly have gone out of his house to have had such communication with any person as in the strange pretended Evidence is Suggested without manifest danger and hazard of his life neither doth this deponent believe it was possible for the strange Tobias Knight to have had such Communication with any person either within or without his strange house without his knowledge for that his lodging room was so near to this deponent that he must have knowne thereof and this deponent further saith that he was at the strange Tobias Knights House on the 14th of September when William Bell came and complained that he was robbed and desired a Hue & Cry from the strange Tobias Knight and did hear the strange Tobias Knight Examine the strange Bell whether he would describe the persons to him that robbed him to which the strange Bell replied he could not but said he did violently suspect one Thomas Unley and one Rich'
Snelling commonly called Fitery Dick to be Two of them and the others to be negroes or white men disguised like Negroes Some time afterwards he came again to the s\textsuperscript{d} Tobias Knights and had in suspission one William Smith and others and the deponent further saith that he never did see or know of any presents of any kind to the s\textsuperscript{d} Tobias Knight nor any of his family from the s\textsuperscript{d} Thache nor any of his Crew since his being at the s\textsuperscript{d} Tobias Knights house save only one Gun of about forty shilling value and this Deponent further saith that sometime on or about the 25\textsuperscript{th} of April last he the deponent had discourse with Wm Bell of Corratuck Merchant concerning his being robbed of some money and Goods in Pamlico on or about the 14\textsuperscript{th} day of September last past by Cap' Edward Thache and amongst other things he this Deponent did aske the s\textsuperscript{d} Bell whether he thought the s\textsuperscript{d} Thache was at the s\textsuperscript{d} Tobias Knights house that night he was robbed or whether he thought he knew any thing of it. To which the s\textsuperscript{d} Bell replieed that the s\textsuperscript{d} Tobias Knight was a very Civil Gent and his wife a very Civil Gentlewoman and did not think or believe that the s\textsuperscript{d} Thache was there or that he knew any thing of the matter or words to that Effect.

EDMUND CHAMBERLAYNE

And this Board haveing taken the whole into their Serious Consideration and it appearing to them that the four Evidence called by the names of JamesBlake Rich\textsuperscript{d} Stiles James White and Thomas Gates were actually no other then four negro Slaves and since Executed as in the remonstiances is set forth and that the other Evidence so far as it relate to the s\textsuperscript{d} Tobias Knight are false and malitious and that he hath behaved himself in that and all other affairs wherein he hath been intrusted as becomes a good and faithful Officer and thereupon it is the opinion of this Board that he is not guilty and ought to be acquited of the s\textsuperscript{d} Crimes and every of them laid to his charge as afores\textsuperscript{d}.

Upon motion of Co\textsuperscript{d} ffred Jones shewing that there is a violent presumption that the will of Cap' Thomas Lee dec'd is destroyed or Concealed and haveing in his life time often declare that his Dependence, was only upon the s\textsuperscript{d} Co\textsuperscript{d} Jones in case he should dye to take care of his Children and Affairs and that he had apointed him an Executor to his will praying that this Board would grant Citations directed to M' Mary Lee Widow M' William John Edwards or any others he may think necessary to have Examined touching the the will of the s\textsuperscript{d} Lee in order that the Children may not be defrauded of their Just rights and this Board havering Considered of the same doe order Citations to go out according to the prayer of the s\textsuperscript{d} ffred Jones and that the persons concerned attend the sitting of the next Board.

A MEMORIAL RELATING UNTO THE PROVINCE OF CAROLANA AND THE ADJACENT PARTS BELONGING TO THE ENGLISH HUMBLY PRESENTED TO THE LORDS COMMISS' FOR TRADE & PLANTATIONS

[August 1719.]

I believe there will be great difficulties in a Treaty between us and the French about settling the boundaries of our English Colonies upon the Continent of North America and those of the French particularly the Province of Carolana of which they seem very fond having already made some settlements and are preparing to make more & greater. But I apprehend I have found an Expedient beyond all just exceptions which I hope may prove satisfactory unto both parties. The River Mis-chacebe by them stiled Missisipy runs through the middle of this Province and the land on the west side rather larger then that on the east and it hath been very long generally believed that the western side abounds most
with gold and silver bordering upon those belonging to Mexico in which are the richest mines belonging to the Spaniards in North America. My Proposal is that we should abandon above half the Province totally and finally to the French which is on the west side of the great river and retain unto ourself all that on the east side all the rivers whereof proceed from our Colonies of Carolina, Virginia Maryland Pensylvania and New York And that all the Land on the east side of the river to the river of the Illinoicks by them called the river of the Illinois unto the head thereof & five or six leagues farther unto the Lake of the Illinois and thence South to the North Border of Carolana may be adjudged to belong unto the English it being purchas'd of the Indians and much more in the beginning of King James the second his reign by Governor Dungun after Earl of Lymerick which is recorded in the Plantation Office and that the navigation of the river of the Illinois should be free to the English into & from the great river & from thence down the river unto the sea And because it may be supposed that the French will not willingly abandon their settlements on the west side of the river that they may be allowed to keep them they not being prejudicial unto the English plantations being 200 miles remote from any great river coming out of our plantations—Conditionally the French plant no more upon the east side of the great river within the bounds above mentioned All which will be manifest unto your Lordships from a strict view of the Map I had the honour to leave with Your Lordships

Upon the returne of such Indictm The Question was asked by the 3 Moseley's Council how many of the Jury agreed in the Indictment the foreman answered all

Co Edward Moseley informed this Court that he was very credibly informed that sundry reputable Persons in divers parts of the Country to the number of thirty were summoned by the Marshall of the severall Precincts to serve as Grand Jurymen for the body of this Government that the greatest part of them attended but by some practices as the 3 Moseley suggested there was but sixteen returned. He therefore moved that this Court would admit him to produce Persons to make proofs of the sumons of Sundry Grand Jurymen that were summoned and not returned Altho' they were present in Court. Or that the officers might be called and examined on oath concerning the Sumons & Returns.

The Court were of opinion that Mr Moseley might call any evidence to prove any ill practice in the Marshall or any of the Officers but he not doing that & there not appearing anything in this matter contrary to the constant method and practice of this Court for sumonning and Impuelling Grand Jury- and Jurys, and the officers of this Court being upon their oaths in their places. It is the Opinion of the Court that they ought not upon this motion & suggestion to be sworn now & Examined whether they have been guilty of any evil practice in this matter Whereupon the Court ordered the Indictm to be read which was accordingly read, and
then the s Edw. Moseley moved that he might have time till the next Court to answer the s Indictment and the s Moseley making oath that he had evidences which he believed Materiall who were out of the Governm Ordered that the Tryall be referred the next Court and also that the s Moseley enter into bond with security to appear the third day of the next Gen Court &

And it is further Orderd that the s Moseley Plead tomorrow.

Coll Edw Moseley & Maj Thomas Luten acknowledge themselves to be indebted to our Sovereign Lord the King in the sum of one thousand Pounds each curr money to be levied on their lands and tenements goods and Chattells with condition that if the s Edward Moseley do personally appear before our Chief Justice and Justices for holding the Generall Court of this Province at the Court House at Queen Ann's Creek in Chowan Precinet the last Tuesday in 8ber next on the third day of the Court then and there to answer such matters & things as is laid to his charge by Indictment & not Depart y Court untill he shall be discharged therefrom & that in the meantime he be of his good behavioir then this Recognizance to be void else to remain in full force & vertue.

MR. URMSTONE TO THE SECRETARY

NORTH CAROLINA Decr 31st 1719

Sir

Since my last of July per Via New York there occurs very little
worth rehearsing, we need to say “bis repetita placent” but I find I may
repeat Bill Millies the old story over again before I learn whether it
pleases or not I can only tell you I am more miserable than ever &
harder put to it to subsist myself and poor family than I used to be. I
did intend since my letters are in vain, to have come over for England next
spring, & to have made known my circumstances viva voce and if I had
sped no better than my letters have done, I purposed to have sent for my
family, and to have taught A B C in a garret and have tried to have got
one of the many 5e curacies or readers places in at about London &
doubted not but to have had more comfort and enjoyed myself better
than ever I did here. It hath pleased God to take to himself my dear wife
she died of very grief and discontent not to say want for truly of late
we have lived very sorryly. It was irksome and uneasy enough to turn
farmer or planter, but am grown so great a proficient, that if I had
slaves and barns with necessaries that must be had, I could improve my
plantation raise stock and subsist myself & family very comfortably, but
to cett as I must now do, will be more tedious to me, and create more
trouble than all the rest. I have only a sorry wretch that I came by on
the Ships account & hath but a year and a half to serve, she knows noth-
ing of household affairs and a notorious whore & thief, and yet preferable to any that can be hired -here notwithstanding all her faults. She was bred a Trader in Spitalfields but followed the Musick Houses most & other vile courses which brought her to Bridewell and from thence transported hither. Except I can get a sober good woman into the house I cannot hold it any longer. I intend to send my two youngest children as a present to the Society hoping they will put them into some charity school or hospital. Whereby they may be educated and provided for, when they come to age for I am not able to maintain them. My eldest is near twenty capable of helping me, but is bent upon going for England, so that you may guess what a rare housekeeper I am like to make with this sorry wench and a senseless dumb negro fellow. There is no boarding here, there is never a family that I know of that I would live in if they would hire me. My brother Taylor has had trials of that, & has changed his habitations a dozen times since he came hither and wishes himself in South Carolina again. I can put no other construction upon the Society's not taking notice of me but that they will force me to leave their service & now you see I must do it, and yet considering I am aged wanting but 3 of 60 years, I am not fond of leaving a pretty settlement and a warm country, to come and seek my bread in a cold starving country, and therefore once more beg the Society to put me in the way how to get negroes. 3 or 4 at least recommend me to some body at Barbades, or the other islands Virginia or New York who will take my bills & be just to me, or else will pay what is due to me at any of the places afores I will continue where I am, I know nobody I can trust all that I have ever dealt with me have cheated me since my tedious and dangerous fit of sickness. I am grown very crazy and not able to travel, so that I have not baptized many this last half year, Seven only in my neighborhood, 5 one in another Parish. The first long journey I took since my sickness through weakness and bad roads, I was so fatigued that I desired to have my horse sent back & I hired a canoe and two negroes to carry me back I was soundly wet and got a great cold the passage cost me £20 so that besides loss of health I was out of pocket, and scarce thanks for my pains. I have had many such Chapps, Its a common notion that I am obliged to serve the whole country but I must disappoint them for the time to come. With much ado I prevailed with my vestry to meet the first time in three years, they pretended to have collected for the two first years after the late Act took place they paid me in bills £79 for £100 alluding they could raise no more and for the two last years ending this day they have promised me £80 more and
what they collect more is to pay a reader in the remote parts where I cannot attend as they say I ought to do every other Sunday which I neither can nor would be obliged to do for £50 per annum more. I must pay the Collector 2 or 3 per cent so that my income is of little value. They have entered a memorandum in their Vestry book that these £143 due to me, on the former account but when or how it will ever be raised I know not for no man is liable to pay more than 5s per poll every year and that you may see, will not raise the yearly allowance what must become of the arrears? In fine I find they are for keeping up the old custom to do what they list with Ministers. They matter not how poor we are, or how miserable we live, we shall be the first they cheat or overreach in their dealings. Ready enough to complain upon any supposed neglect and yet at the same time are not for coming to Church above once in a month or two and then they neither know nor care what they come about, very negligent and ignorant of their duty. I have administered the sacrament of the Lords Supper but twice these 8 years in public and as often to sick persons I pray you to let me know the sentiments of the Society in relation to this that I may begin to dispose of myself and family if so be they will not comply with my requests I wish I could sell my house and land at anything near the value I should not then be long in resolving what to do. I am Sir Yours &c

M' URMSTONE TO THE SECRETARY

NORTH CAROLINA Feb 15, 1744

Sir

I received from you a letter dated Xmas 17th 1716 per Via Boston on the 7th ins: wherein you say the Hou's Society at a general meeting Nov' 16th of the same year, resolved that I should have their leave to return to England: I wish yours had come to hand in due time, I hope there's some mistake in the date, & that I may be entitled to their bounty as in their standing orders, relating to Missionaries page 56 and 16 I joyfully accept their leave for its worse with me than ever, having lost my poor wife who died last year Oct' 18th without, any previous sickness, not many
hours before her death, she declared before several of her neighbours that her heart was broken, through our ill usage and comfortless way of living; She protest me sore for divers years either to quit this wretched country or give her leave to go home with her children: I wish I had done either it might have pleased God to have continued her to me many years longer. I propose to take my passage in the next ship that I can hear of going from Virginia for England & therefore countermand my request to the Society in mine of the Uit Dec' last year per via New York. I shall be a great sufferer by leaving this place & yet I would rather undergo that than suffer and get nothing. Whereas I hope to end my days with some comfort in my native country, if the Society will not be pleased to do something better for me. For I would rather be Vicar to the Bear Garden than Bishop of North Carolina. These are from Sir, Your Most humble St

JOHN URMSTONE.

Frederick Jones Esq' Lords proprietors Dep't

Richard Sanderson

The Honble the Governor having had information that the Inhabitants of South Carolina had revolted from the Lords proprietors that they had turned out all their Officers appointed a New govern'r and taken the administration into their own hands and hearing that Co's Christopher Gale was Just arrived from thence he ordered Mr Lovick the Secretary to Attend him and desire him to wait on the Council to give them an account of the proceedings of that Government who accordingly came and this Board required that he would give them accounts in writing of what he knew of the Revolution in South Carolina and the causes of it.

This Board having business of moment with the Surveyor General

It's ordered that he attend the Board to morrow Morning by Eleaven of the Clock at Co's Pollock house without fail

Then this Board adjourned til tomorrow at Eleaven of the Clock in the forenoon

Feb 23d This Board being met again ut supra
Co[II] Gale's Letter was produced writ to the Honble the Governor giving a particular acconunt of the Turne affairs in South Carolina upon which this Board came to a Resolution that an address should be prepared by the Secretary against the next sitting of the Council to assure the Lords proprietors that this Board utterly detests the proceedings of that province and that nothing shall be wanting in their power to propagate their Interest here and that they are intirely easy and satisfied under their Lordships Government and will allways use their utmost endeavours to maintain it.

Infamaiton haveing been made to this Board by Captain John Grey and others that the Council of Virginia have given orders to their Surveyors to lay out thirty thousand acres of Land on Moratock river begnning at Bridgers Creek and running up the river which Land being long since granted to the Inhabitants of this Government and this Board haveing duly weighed and Considered of the same and being well satisfied it is not within the Controverted bounds but within the undoubted limits of this Government and Consented to by that of Virginia

Its Ordered that the Surveyor General or his Sufficient Deputy attend those persons from Virginia to observe their motions and in a peaceable manner desire them to desist from their undertakings and in case they should not upon the surveyors remonstrating to them that they have no right or authority to take up or survey Lands in the bounds aforementioned he is then Commanded to apply himself to Cap't Grey who is to assist him with his Company to prevent their making any survey so contrary to the agreement made between this Government and that of Virginia until the bounds be adjusted and its further ordered that the Secretary send orders to Cap't John Grey to have his Company in readiness

[From Pollock's Letter Book.]

Hon'd Sir

I was something surprised at the receipt of yours, not so much on account of their making a forcible entry, as upon their making of it at this Juncture: but it is like some of their other proceedings. And I think strange that Co[II] Moseley is concerned in such an action, which he knows is so contrary to law, and I think to very little purpose. For one Justice of the Peace upon complaint made to him, ought to go to the place
where the forcible entry hath been made, and if he see cause may take sufficient power of the country with him, and remove the force if he find any forcible detainer, and commit the offenders. And if upon his going to the place he finds no forcible detainer, yet upon complaint as aforesaid he may inquire by a jury of the forcible entry, which being found upon indictment he may resise the land, and award restitution to the party ousted of possession. I believe the best way is to proceed legally in the matter, for if your Honor in turning them out, should make any wrong step, they will be ready to make all the advantage they can of it; and may be it is with expectation of some such matter they proceed so at this time. So that I believe it may be best if Cap't Lovick act in the matter, he being tenant and ousted of possession. I have writ to him and desired him (to go having witnesses with him) and see to get possession, and if they forcibly keep him out, or turn him out when entered, or threaten to maim or do any bodily hurt to him, it will make also a forcible detainer: likewise whereof I hope Cap't Jones will take an inquest and if the jury find either a forcible entry or detainer, will award restitution to the party ousted of possession.

As to Col. Cary's debt I have inquired in his concerns what I can. One M'r Richardson, who is the Lords Proprietors' auditor or Receiver General of their concerns, hath administered, and pretends that he owned a great deal more to the Lords Proprietors than his estate will amount to; and he is so slow than he neither brings Cary's estate to an appraisement or takes an inventory of it neither I doubt can he well make appear what he owed the Lords Proprietors. But I believe it was more a great deal than what his estate will pay.

If you had sued for it for it here when he had an attorney, the Proprietors yet making no claim, I believe it might easily have been recovered, in our country bills: but am in great doubt now it is lost, for what is to be found of Cary's estate here is but very small, and his debt to the Lords Proprietors very great. Howsoever, if you send in your matters clear, as I writ to you before, I will endeavour what I can for you; as much as if it was mine own concern, but am in very little hopes of getting any thing.

Or I believe it might be better if you make Col Moseley your Attorney. For he having been Col Cary's attorney before is the best acquainted with Cary's concerns of any in the government.

Sir yours

MR. URMSTONE TO THE SECRETARY.—(Extract)

North Carolina April 25th 1720

Mr. Taylor my fellow laborer after having tried many places in the country and endured much went last autumn to the other country where he was much wanted but meeting with no better usage at Bathtown the place he first set down in was for shifting as he had done here from place to place, & in his way to Choe Sound, the Southernmost set-
COLONIAL RECORDS.

tlength in the Government went on Shore on Harbour Island which is not inhabited, about 30 miles from any inhabitants, in the mouth of Neuse River. Where after having been ten days and nights in an open boat he perished thro' cold last February; there were some people on the island hunting for hogs, that had been placed there, who with those that went with him buried him, and then rifled his chests, and divided the spoils, and are not to be brought to any account. Some of them have been purged by oaths but that is of little force with a North Carolina Man (such executors a man must expect that dies here) Nay! when alive and leaves the country, and leaves anything behind him, will fare little better, for upon my resolving to come home I treated with several about my plantation and was like to have been bullied, It is hoped I shall leave it unsold, and then I may expect a blessed account of it, as well as the money that is due to me. This precinct owes me £243. 80L whereof was due last new years day, but as yet not paid me nor do I know when will, the rest has been due these 5 years but its pretended it cannot be raised without a new power additional to the act of Vestry which must be done by the Assembly; which was to have met the first week in May next, but I understand it will be prorogued for reasons of state, I suppose to see the effect of the revolution in South Carolina, who have revolted from the Lord Proprietors & will own no power but that of the King: rather than come away before I have tried the utmost, I am willing to stay though I hazard my health, another Summer, but some what will, I am resolved to Quit next Spring if God spare me life and health I shall continue to labour in this fruitless vineyard till then and I hope that my staying longer than I either care or am obliged will not be deemed a fault. The sober thinking part of the people which God knows are but few are very much dissatisfied, with my thoughts of leaving them quite destitute after having brought the country into a little order. It will be a great grief to them say some, not to go to hearing and to enjoy the other rites of the Church as to have their children baptized &c. &c., and truly its a melancholy, dejecting thought but till better provision be made and more regard to our function, there is no remedy, they are for trying to bring the generality of the Inhabitants, to make some new overtures, which you may be assured, I shall promote for the sake of our successors, but I do not expect they will be such as will detain me & cause me to alter my intentions, I should be glad to have a line or two from you could it come in less time than the last did, there are frequent opportunities to Boston in New England and the like from hence hither, Except in the depth of winter—
The Colt There Mr. Jekyll is my correspondant, and will take care of all letters to as well as from Sir your most humble Servant

May ye 20th 1720

To the Board of Trade:

My Lords:

* * * * * * *

As to what yo'r Lord'ps are pleased to require in y'r Letter of the 7th of Aug'st, relating to the Boundarys of the Colony, and what Encroachments have been made thereon by the Subjects of any foreign Prince, I humbly take leave to inform Your Lord'ps that I find here a Charter granted by King James ye 1st, dated ye 23d of May, in the 7th year of
his Reign, whereby there is given to the Company of Adventurers for ye Colony of Virginia, all that Tract of Land from Cape Comfort, two hundred Miles Northward along the Sea Coast, and extending from Sea to Sea, West and North West, w'ch will comprehend all that Tract from the Bounds of the Carolina Charter to some part of Pensilvania, and consequently include most of the Lakes and great part of the head Branches of Mississippi. In w'ch Space Westward of Us, I don't know that the French have yet any Settlements, nor that any other European Nation ever had, neither is it probable that the French, from their new Plantation, will be able in some Y'rs to reach the Southern Boundarys mentioned in the Charter of Virginia. As to any Encroachments from the Canada side, since the Grant of Pensilvania extends 5 Degrees Westw'd from Delaware River, if the French have now any Settlem't on the Lake Ontario, it is probable these will fall within ye Limits of ye Pensilvania Charter, w'ch being of a later date than the French Discoverys in Canada, may admit of some dispute; but I am humbly of Opinion that the Charter Granted to the first Inhabitants of Virginia, being long before the French had any footing in America, may be justly insisted on to exclude them from any pretension to the Territory comprehended in that Grant. The greatest danger of Encroachments is on the side of South Carolina; The French Settlements on Mississippi being expressly within the Charter of that Province, and their apparent design being to extend themselves towards the Inhabited part of that Country, seeing the last Advices I have from thence say that the French have formed a Settlement at ye Habbamulas, w'eh w'll greatly strengthen the people of Carolina in their Indian Trade, and may in time prove more dangerous to them in case of a Rupture with the Crown of France. This has so alarmed that Province that it is pretended to be the principal ground of that Revolution there, w'th w'eh, I presume, Yo'r Lord'ps are by this time fully acquainted; and tho' I can't think Subjects are to be indulged in the practice of throwing off a Lawfull Authority and setting up a new frame of Government for themselves, and for that Reason have declined answering the Letter Colo James Moor sent me notifying me of the People's Election of him for their Governor. Yet if, (as they allege,) their Propriectors are unable or unwilling to protect them, it w'll deserve the attention of his Maj'ly's Ministers to preserve so considerable a Province from falling into the hands of a foreign Power.
Madam,

The day your Ladyship went to Beachworth I was at Kensington to wait upon you; intending at the same time to inform you that we have had a Proposal made to us with respect to Carolina, of so much advantage to the Proprietors that my single share may amount to Thirty Thousand Pound. The Terms of Agreement your Ladysp: will find inclosed. They are drawn into Form, and already signed by Lady Granville for her son My Lord Carteret; by M't Bertie Guardian to the Duke of Beaufort; by M't Danton and my self. I expect opposition from some of the Ministry. And since it has been rumour'd abroad that the Proprietors were upon some project of this sort I have had a message from Secretary Craggs to know upon what Terms we would part with our Interest in the Province. Before this was thus rumoured abroad, They took no notice of us, imagining to distress us, and make us part with it, for little or Nothing, to them. Then woud all the advantage be their own, either by disposing of the Province by Subscription, or by giving it up to the South Sea for ten times as much as they would allow the Proprietors whose Familys raised this Province to England. There's no doubt of our succeeding in case the Court favours us, or but let us alone. I have no reason to question your Ladysps interesting yourself in this matter if it were only a concern of mine; but I think it must needs be of more weight with those you apply to in case your Ladysp. can speak of it as a concern of your son and his family; and to enable your Ladysp. to treat it as such, I doe assure you I will give any Security that it shall be so If we can obtain what may be worth securing. I begg your Ladysp therefore that since we have a prospect of obtaining something soe considerable you would please to intercede with Lord Stanhope and others for their favour upon this occasion to my Nevew and his Family. And I propose to your Ladysp, whether it would not be proper to acquaint Judge Eyre with the thing and desire his assistance in it. Your Ladsp. may observe the advantage likely to be made by the Gentle: concerned in the Bahama Islands; and who have only a Lease from us are the Prop:: The Carolinas are a foundation for a much greater thing, and are of ten times the value: And no man has a just title to anything if the Proprietors have not a Title to Carolina. We make no secret of our being in Treaty for Carolina, but we mention no particulars.
Give me leave now Madame to make your Ladysp a request for our Brother Proprietor Danton. He has a mind to be concerned a thousand pound in the next subscription into the South Sea, He desires your Ladysp's recommendation and gave me the enclosed List of Names. [FROM POLLOCK'S LETTER BOOK.]

Chowan July 15th 1720

Sir,

Yours of June 22nd is now before me: and I believe it will be very convenient to have the cows branded as you advise lest there should be some controversy about them: as for the sale of Lots in town; I had a draught of the town of Mr. Lawson’s drawing, with most of the river lots laid out, with the account which of them were taken up and since you went from here have been at some pains in looking for it, but cannot yet find it. Wherefore have enclosed a power of attorney to sell and dispose of lots, each of half an acre of land, at 20 shillings per lot; to run the same length back from the river as those already laid out, that there may be no encroachment on the streets, and straight with the river lines of the other lots; and none to be taken up between the lots already taken up and the dwelling house where the Doctor dwells, but on the other side of the lots taken up: and provided that if any person, having a lot, decease without any heirs, or disposing of it in his life time by will, sale, gift or any other ways that then it shall fall come and revert to me, my heirs, or assign: and also provided, that if they do not build or erect or cause to be builded or erected on each lot of half an acre aforesaid one habitable dwelling house not less than fifteen foot square, within eighteen months of the date of the conveyance; that they shall forfeit their lot, and that it may be free for me, my heirs and assigns to let any other person have it.
Also I am willing that each person that hath a lot may have sufficient estovers for building and fire wood upon any part of the land, until I lay out one hundred acres for a common, which I intend to do as soon as there are twenty lots settled.

Also I am very willing to allow one acre of ground to be laid out for a church or Chapel, and court house in such convenient place as you and the people shall think most convenient, not encroaching upon no street.

Also I shall be willing that any person, that settles a lot within eighteen months from the date hereof, shall have liberty to clear plant and tend three acres of woodland ground for five years next ensuing with this condition, that they shall not clear within a quarter of a mile of the dwelling where the Doctor now lives; and each person that clears to clear in one place adjoining one upon another, and that each shall leave it at the end of five years under good sufficient fence. As for Doctor Thomas; to the best of my memory Col Brice informed me he was to take care of what orchard was there, and other things, and to leave it under good fence, and the house under good repair, and if he had taken any care to keep it in repair it could not have been in the condition you writ. Howsoever please to give me an account by your next, of the length breadth, and height, of the house, whether one story only or two stories high, and what you think will repair it and make it a good house; and I shall expect something of the Doctor towards the reparation, but he shall find I shall not be out of reason with him; otherwise, he must expect to be subpoenaed to chancery to answer it, and seeing he is intended to remove, I believe it would do well, if you could let it to some honest man. Mr Metcalfe hath writ to me thereonent; he is willing to take it but being altogether a stranger to me, I leave it to you. I would let them that take it have a third part of the increase of cattle, to be shared at the end of the lease, being five years, and one half of the increase of hogs to be shared when fitting to kill once in two years. And if you do let it, I would willingly put 10 sows and pigs and a boar, which if there come so much into your hands of mine, please to purchase; if not please to charge a not on me, and I will satisfy it. And if you meet with any honest man to let let the town to you may take the six pound that Mr Graves owes in stock for them, either in Cows and Calves, or sows and pigs, as also 57 shillings which your father owes me for nineteen quarts of rum your father had of mine from Henry Tytles in the war times.

As for the table and cupboards, you may make use of them. I believe I shall not differ in the price.
Also; having, before this, given orders to Adam Moore to sell all the brock truck? horses only leaving one of the best; what is made of them, (if you get a tenant for the town) may be laid out in stock of hogs and cattle for the town as aforesaid, as four pound three or four shillings, which he is to have of Mr. Jacob Miller; only reserving to himself for his own trouble. Also if you have any correspondence at Core Sound, I would entreat the favor of you to receive three pound of widow Stone which is due to me for the rent of Crany Island, Capt. Stone haven taken it of me last fall at that rent, having allowed me for what time he had it before 100 weight of cocoa. And if she do not keep it any longer, I understand that one Simpson that lives at coor Sound is willing to take it. If you understand that he is honest and industrious, please to let it to him on the same lay for hogs and cattle as at the town of New Berne: and that if he can purchase ten cows and calves there at the common price, and charge a not upon me, I will pay it either in bills or pitch; and if he can contrive any shelter, as soon as I hear that he is settled I will send round nails, and satisfy any carpenter for building him a dwelling house.

You did very well not to dislodge the palatines, and I should not desire the plank to be taken from them until they remove.

I understand that Col. Brice had some of the plank. Please enquire about [it]

I have only to request one favor more of you, which is if possible you can have a conveniency, not to neglect to send round to me the biggest pair of the mill-stones of mine that lay at the town; or; if not them the smallest pair, which will very much oblige

Yours—

Sir

As for the lots: if the divisions are not known, each person must pay for the laying out of his own lot: and the best way is to distinguish the lots beginning at those next to the dwelling-house, No 1; 2; 3; and so forth, or No a: b: c: et cet.

WHITEHALL, Thursday 15th Sept. 1720.

Mr. Boon Agent for Carolina and Col. Barnwell attending acquainted the Board that upon some advertisements now published by Sir Roht. Montgomery they were apprehensive that some disputes might arise
between the Officers or forces expected to be sent by His Majesty to that Province and such persons as Sir Robert may send to the Golden Islands one of which islands lies in the mouth of the river Alatamah which has been proposed to be secured whereupon their Lordships signified to those gentlemen that the government of Carolina being provisionally assur'd to the Crown no power of government derived from the Lords Proprietors could at present interfere with his majesty's authority but that in this affair their proper application would be to the Lords Justices.

REPRESENTATION WITH A DRAUGHT OF INSTRUCTIONS FOR A GOVERNOR OF CAROLINA, APPOINTED BY THE KING AND RELATING TO THE STATE OF DEFENCE OF THAT PROVINCE AND OF NOVA SCOTIA.

August 30th 1720.

To their Excellencies the Lords Justices,

May it please your Excellencies,

Having in obedience to your Excellencies' order in Council laid before your Excellencies the 16th Instant the Draught of a Commission for such Person as his Majesty shall think fit to appoint his Governor of Carolina, we now take leave to lay before you the Draught of Instructions for the said Governor together with the usual Instructions relating to the Acts of Trade and Navigation.

And as your Excellencies were pleased to direct us to offer you our opinion concerning the proper measures necessary to be taken at this Juncture for the Defence and security of the said Province, we have carefully examined into the present condition thereof, and altho' we are at this time preparing a Representation to be laid before your Excellencies concerning the state of all the British Colonies on the continent of America to which we shall hereafter subjoin our thoughts concerning the Islands likewise, yet as this is a work which must naturally require much consideration, we thought we should not misspend your Excellencies' time, if we so far anticipated our General Report as to lay hold of this occasion to give you our opinion concerning certain matters relating to Carolina and Nova Scotia the two Frontiers of the British Empire in America to the North and to the South, which being both of them at this time in the utmost disorder do naturally demand your Excellencies' more immediate care and protection, reserving to ourselves nevertheless an opportunity of giving your Excellencies our thoughts more at large concerning those two Provinces in the General Representation which we shall with all convenient speed have the honour to lay before you.

In our letter to your Excellencies of the 16th Instant which accompanied the Draught of a Commission for his Majesty's Governor of Carolina, We observed to your Excellencies that Carolina was at present divided into two different Provinces, and that it might in our Opinion be for his
Maj'ry service to appoint a Lieutenant Governor of North Carolina subject to such orders as he should from time to time receive from the Governor of South Carolina as his superior officer, and this we take the liberty now to repeat as a matter wherein no time should be lost; and your Excellencies will be pleased to observe, that in the Draught of the Instructions herewith sent your Excell: there is a Reference to the Commission and Instructions for the said Lient: Governor of North Carolina.

But considering the great disorder, this province at present labours under, that the People are unsettled, that they have lately shaken off the Proprietors Government, as incapable of affording them protection, that the Inhabitants are exposed to incursions of the Barbarous Indians, to the encroachments of their European neighbours and that the whole Province was lately in danger of being massacred by their own slaves, who are two numerous in proportion to the white men there; We do conceive it to be absolutely necessary for the preservation of this Colony that his Majesty should forthwith send four battalions of Foot thither at least, together with a considerable number of great guns, and proportionable quantity of warlike stores for the several Forts proposed by us to be built there, wherein we humbly conceive no time should be lost.

What we have further to propose to your Excell: upon this occasion is that two great seals should forthwith be prepared to be used in the two Provinces of South and North Carolina and Commissions for trying of Pirates in both the said Provinces.

All, which is most humbly submitted

MEMORIAL FROM M' BOONE AND BARNWELL, IN RELATION TO NORTH CAROLINA

November 23rd 1720.

May it please your Lordships,

Having received a letter from your Lordship's secretary directing us to attend your Lordships in order to give some Account of the bounds of North Carolina and the produce of the same, now to avoid any mis-
take that may happen in answering such questions as may be put to us, we thought it convenient to reduce to writing what we know of that province and if upon perusing the same your Lords* find anything that wants explanation then we shall give the best answers we can to your Lords* satisfaction.

North Carolina was always part of Virginia until the year 1667 when K. Charles's 2d granted it in favour of the Proprietors of Carolina and added it by his charter to that Province. For it was in that part that Sth Walter Raleigh's servants made their first settlement at a place called Roanoke.

The North Boundary that separates it from the west of Virginia is by the said Charter settled thus viz* A line beginning at the north end of Currituck Inlett and so west to Wyanoke Creek in or about the latitude of 36 degrees and thirty minutes north latitude and soe in a due west line from thence to the south sea. The south and west bounds of North Carolina separating it from South Carolina is the western or main branch of a large river falling into the Ocean att Cape Fear, and is Known by the name of Cape Fear River, all the lands lying to the south and west of the said river belonging to South Carolina.

We are to observe to your Lordships that the bounds between North Carolina and Virginia were never well ascertained, for though there were Comm* appointed in the late reign about the year 1710 yet they neither could agree about the latitude, or about which was the real Creek called Wyanoke, for those Indians called Wyanoke, removing from place to place occasioned several Creeks to be named after them—and the words of the charter that names the latitude in or about rather puzzled the Commissioners then directed them, for North Carolina Comm* interpreted the words in their favour and so did the Virginians, and it was the opinion of most people that an arbitrary division of the dispute must be made by his Maj* Coll. Barnwell being about that time in North Carolina was made acquainted with the whole matter, being desired to be one of the Comm* but declined the same.

The south boundaries have also admitted of disputes for the Proprietors having in several Com* named only Cape Fear as the boundary without mentioning the river, has given opportunities to wicked persons trading with the Indians in those parts, to declare they were under this or that Government as best suited with their views, but of late the Government of South Carolina have granted Lands as far ye River of Cape Fear. The Government of North Carolina very nearly represented that
in Virginia, for they are divided into two Countys and 7 Precincts each
having petty Courts and Jurisdictions with Appeals to the general Court
above certain values held by the Governor and Councill (and not as in
South Carolina were the lives and fortunes of his Majesty's subjects in
that whole province were subject to the arbitrary judgement of a single
Person without any appeal but to himself.)

Tho' there is a great quantity of good Land there and the Country
very healthy, yet its situation renders it for ever uncapable of being a
place of any consequence, for there lies a vast sound of 60 mile over
between it and ye sea which break into the same thro' a chain of sand banks
with bars so shifting and shallow that sloops of 5 feet water runs great
risks, and if it sometimes happens that they have 8 or 10 feet water the
next storm may alter it so, and perhaps in the very Chanell rise an island
of sand as is really dreadful and surprising. This renders the place uncapa-
cible of a Trade to great Britain and what is carried on is by small
sloops from New England who brings them cloathing and Iron wear and
exports Pork and Corn of late they made abs 6000 barrells of pitch and
tarre which the New England sloops carry first to New England and
then to Great Britain.

The number of inhabitants we can't positively tell but their Tithables or
those paying taxes are about 1600, they are most whites, having not 500
blacks in the Government, and those in a few peoples hands, this place is
the receptacle of all the vagabouns & runaways of the main land of Amer-
ica for which reason and for their entertaining Pirates they are justly con-
tinned by their neighbours, for which reason and that they may be under
good Government & be made useful to the rest of his Majesty's Collo-
nys it would be proper to joyn the same again to Virginia. All which is
most humbly submitted to your Lordship's better judgment by your Lord-
ship's

Most obedient servant

JOSEPH BOONE.

M* URMSTONE TO THE SECRETARY

NORTH CAROLINA Feb* 5th 1724

Sir

Since my last of Xber 22* nothing of any moment occurs save that I
am still detained here against my will in this wretched country in hopes
of getting my money but greatly suspect I shall be disappointed I was to
have had £120 the first of last month and got but £54 and the £122 due
six years ago is not yet raised notwithstanding an act of Assembly which
I obtained with great struggling last August for the payment of it on or
before 25* Nov* last nor do I believe I shall ever have it. I will wait
till May and if there be no more likelihood than I see at present I think
to come home—I did hope to have something to come home to but am
forced to draw Bills for everything I want I was not very happy in my
late wife's days upon divers accounts but I am now quite weary of my
life and worse put to it than ever to subsist what I've received from the
parish is all gone towards paying for a Negro within ten days after I bought him and a white man who run a way with in the like time If I had not received the money I verily believe I never should have received a penny from the parish. I endured 4 or 5 arrests to make me give Bills of Exchange but being resitive my creditors were obliged to take parish pay with the advance of £150 $ C in lieu of St$ money.

I desired in my last as I now do that if any one came to the Society or Treasurer that called himself my Son that no notice should be taken of him I have been forced to turn him adrift for his undutifulness in combining with my Servants to ruin me he got a servant wench with child who had 2 years to serve rendered her not only useless but even a burden to me yet am forced to keep her not knowing where to get a better being in great want of provisions I sent a Bill of Exchange for £20 to Coll. Heathcoat at New York but after divers since the date thereof which was July 15th 1719 I cannot hear from him I pray you or the Treasurer to acquaint him whether it was ever tendered or paid I hear he is poor which makes me fear my money is lost we are informed our late good for nothing proprietors have sold their interests in these parts to 3 Quakers if so the Church is like to flourish others say we are under the Crown—I can not hear from England I am buried alive in this hell of a hole—the last from you was dated Nov. 16th 1716—S' pray favour me with a line or 2 which you may direct to Mr. Jevkill collector at Boston in the next he'll forward it to S' your most humble Servant

REPRESENTATION OF THE BOARD OF TRADE TO THE KING UPON THE STATE OF HIS MAJ: PLANTATIONS IN AMERICA

8 September 1721.

Carolina was granted by King Charles the Second to several Lords Proprietors by two different Charters the 1st dated 24th March in the 15th year of his Reign which contains all that Tract of Ground, extending Westward from the North end of Lack Island as far as the South seas southward as far as the River St Mathias and thence Westward again in a direct Line as far as the South Seas aforesaid together with all the Ports, Harbours, Bays Rivers, Isles and Islets thereunto belonging.

The second Charter which is more extensive, bears date the 30th June in the 17th year of the said King Charles and reaches as far as the North end of Carahvuke River or Gullet, and thence upon a strait Westerly line to Wyanoak Creek, which is supposed to ly in or about 36 deg* and 30 Minutes of Northern Latitude.

Carolina is divided into two Province called North and South Carolina which have separate Governors Councils and Assemblies.

The Governors of these Provinces have been usually named by the Proprietors subject to your Majesties Approbation.
North Carolina was formed partly of Virginia till granted to the Lords Proprietors by their second Charter and it was at a certain place in this Province called Roanoke that Sir Walter Raleigh's servants made their first settlement.

The Boundary that separates this Province from Virginia being conceived in very disputable Terms hath never yet been finally settled the Commissaries have been formerly deputed by the two Colonies for that purpose who could never agree either upon the Latitude or upon the true Position of Wyamok Creek for the Indians from whom this place derives its appellation having often wander'd as their usual Custom is, over that part of the Continent and fixed for certain times at different places there they have left their name to many Creeks.

The South Limits of this Colony have likewise admitted of some disputes the Commissioners of the Lords Proprietors having frequently named Cape Fear instead of the River of that name for their Boundary.

The Government of North Carolina is something different from that of the Southern Province resembling more nearly that of Virginia of which as hath been observed it was formerly a part being divided into two Counties and seven precincts with petty Courts for each from whence in all matters exceeding a certain value Appeals lye to the supreme Court held by the Governor and Council which Liberty of Appeal as we are informed your Majesty's subjects at South Carolina do not at present enjoy.

There are great Tracts of good land in this Province and it is a very healthy Country, but the situation renders it for ever uncapable of being a place of considerable Trade by reason of a great sound near sixty miles over, that lies between this Coast and the Sea, barr'd by a vast chain of sand banks so very shallow and shifting that sloops drawing only five foot water run great riske of crossing them.

The little Commerce therefore driven to this Colony is carried on by very small sloops chiefly from New England, who bring them Clothing and Iron Ware in Exchange for their Pork and Corn but of late they have made small Quantities of Pitch and Tar which are first exported to New England and thence to Great Britain.

We are not throughly informed of the number of Inhabitants, but according to the best accounts we could get the number of persons in their Tythables or Poll Tax were not long since above 1600 of which about one third were Blacks.

The Government of this Province having for many years been a very disorderly one this becomes a place of Refuge for all the Vagabonds.
whom either Debt or Breach of the Laws have driven from the other Colonies on the Continent and Pirates have too frequently found entertainment amongst them.

There is no great prospect that these Mischief should be redressed unless your Majesty shall be pleased to resume this as well as the southern Province into your immediate Government in which case North Carolina might in our Opinion be restored again to Virginia and put under the care of your Majesty's Governor of that Colony.

South Carolina extends from Cape Fear to the River of St Mathias. The inhabitants of this Province conceiving themselves to be ill used or greatly neglected by the Lords Proprietors have lately deposed their Governor and Council and chosen a new Governor and Council of their own which great disorder induced your Majesty to re-assume the Government thereof.

This Colony is the Southern Frontier to your Majesty's Plantations on the Continent and will no doubt under the happy influence of your Majesties immediate Protection become a flourishing Colony.

The Trade of this Province with respect to their own shipping is not hitherto very considerable, the Inhabitants not having above 20 sail of their own amounting to about 1500 Ton, and as they chiefly apply themselves to the Plantation Work, they have not many seafaring-men. But their Trade is carried on by the Merchants of Great Britain who reap a considerable advantage thereby.

The Commodities the people of Carolina take from Great Britain are all manner of cloathing Woollen, Linen Iron Ware Brass and Pewter and all sorts of Household Goods, having no Manufactories of their own and their southerly situation will make them always dependent on Great Britain, for a supply of those commodities whose consumption may be computed at about £23,000 @ Annun, besides the cost of a considerable number of Negroes with which the British Merchants have for some time yearly furnished them taking their Returns in Rice and Naval Stores.

There is a small Trade carried on between Carolina and the Maderas for Wine and the Commissioners of the Customs have a surveyor General, a Collector, a Comptroller, a searcher, a witter and a Naval Officer to put the Laws of Trade and Navigation in Execution here. But daily experience shows that illegal Trade is not to be prevented in a Proprietary Government.

The natural Produce of this Country is Rice, Pitch, Tar, Turpentine, Buck skins, Hides Corn Beef Pork Soap Mistle Wax-Candles various sorts of Lumber as Masts Cedar Boards, staves shingles, and Hoop-poles.
But the soil is thought capable of producing Wine, Oyle, Silk, Indigo, Pot-Ashes, Iron, Hemp and Flax.

The number of White Inhabitants in this Province have some time since been computed at 9000 and the Blacks at 12000. But the frequent massacres committed of late years by the neighbouring Indians at the Instigation of the French and Spaniards has diminished the white men whilst the manufacture of Pitch and Tar has given occasion to increase the number of Black Slaves who have lately attempted and were very near succeeding in a New Revolution which would probably have been attended by the utter Extirpation of all your Majesty's subjects in this Province. And therefore it may be necessary for your Majesty's service that the Governor should be instructed to propose some Law to the Assembly there for encouraging the entertainment of more white servants for the future.

The militia of this Province does not consist of above 2000 men and therefore considering the circumstances and situation these people are in exposed in case of a Rupture on the one side to the Spaniards on the other to the French, and surrounded by savages who are for the most part in a Interest opposite to that of Great Britain, unless your Majesty shall be graciously pleased to send a military Force to this Country sufficient to protect your subjects this valuable Province it in all probability will be lost.

For this reason we took the Liberty of representing to the late Lords Justices the necessity of sending four Regiments thither to prevent the further encroachments of the French in those parts. We likewise propose that as well to ascertain the Bounds of this Province which have not hitherto been fixed any other way but by the Charters to the Lords Proprietors as to extend and protect the Trade of your Majesties subjects there, several small Forts should be erected in proper places and that particular care should be taken to secure the Navigation of the several Rivers emptying themselves in those parts to the Northward of Fort St Augustine into the Westward Ocean, but more especially that of the River Alamathahama which the French have some time ago new christened by the name of the River May.

We were humbly of Opinion that no time should be lost in a matter of this consequence because the great difficulties the French have found in the Navigation of the River Mississippi made it necessary for them to secure a better part, and they did sometime ago take Pensicola from the Spaniards which being since as we are informed restored it is very probable the French may think of opening another communication from
their great settlement at Mobile down the River Alamatahama to the Western Ocean which would be a more fatal blow than any that has hitherto been given to your Majestys Interests in America.

The Fortifications of this Country at Present are but very few and their situation not the most advantageous. Charles Town for instance is regularly fortified and hath about 100 Guns mounted on the Walls the largest not exceeding twelve pound Ball.

There is likewise a small Fort of about 10 Guns at Port Royal and a Pallizado Fort at the late Savannah Town of 5 or 6 small Guns which lyes about 140 Miles West from Charles Town towards the Head of Santee River 120 Miles from Charles Town is also another small Fort in all which places there are about 100 men in Garrison.

But Port Royal seems to have been a good deal neglected considering it is at present the Frontier Town lyes ready for the supply of the Indian Trade and the Protection of the out Garrison and has an excellent Harbour for which reason we should think that place ought to be better secured.

It would likewise be for your Majesties Service that other Forts should be built in this Province in proper places for the reasons which shall be mentioned in that part of this Representation relating to the means proposed for preventing the Encroachments of our European Neighbours.

The Indian Nations lying between Carolina and the French settlements on the Mississippi are about 9200 fighting men of which number 3400 whom we formerly Traded with are entirely debauched to the French Interest by their new settlement and Fort at the Albasas. About 2000 more that lye by your majesty's subjects and those of the French King, Trade at present indifferently with both, but it is to be feared that these likewise will be debauched by the French unless proper means be used to keep them in your Majestys Interest.

The remaining 3800 Indians are the Cherokees, a Warlike Nation Inhabiting the Apalatchie Mountains these being still at enmity with the French might with less difficulty be secured, and it certainly is of the highest consequence that they should be engaged in your Majestys Interest, for should they once take another party not only Carolina but Virginia likewise would be exposed to their Excursions.

Besides the Indians above mentioned there are about 1000 Savages dispersed in several parts between Carolina and Virginia from whom we have not much to apprehend Provided your Majestys Governors of those Provinces live in that perfect Harmony and good understanding which they ought to maintain with each other and do justice to these poor people, who seldom give the first Offence.
It were to be wished we had not so much reason to complain of our European Neighbours in these parts but besides the Encroachments made by the French your Majesty's subjects meet with ill treatment from the Spaniards more particularly at Fort St Augustine where they have a Garrison of 3, or 400 white men and about 200 Indians who give shelter to all our run-away slaves and without regard to Peace or Treaties commit frequent Acts of Hostility upon your Majesty's Subjects.

We are not as yet informed whether the Spaniards have resettled Pensacola or what Force they have there but they have a Fort at the mouth of the Catahooche River with about 400 or 500 men in Garrison and we shall give your Majesty an account of the French Force in the Neighborhood, in that part of our Report which relates particularly to their settlement on the Continent.

This Province having hitherto but few Inhabitants the Quit Rents of the Lords Proprietors amount only to about 500 £ per annum. But there is a Duty of 3d £ Skin for the Benefit of the Clergy and the Contingencies of the Government which vary every year, are raised by the Assembly.

There are no officers in Carolina that have patents from the Crown and none appointed at present by your Majesty's Authority but those of the Governors and Customs House Officers.

All other Officers both Civil and Military hold their employments immediately under the Lords Proprietors their Governors or the Assembly.

Rice being the principal and staple commodity of this Province and the Merchants trading to Carolina having often complained that the advantage they formerly reaped by supplying Portugal with Rice hath been almost entirely lost since the Act of the 3d and 4th years of Queen Ann whereby Rice is made one of the Enumerated Commodities and the Importation thereof restrained to Great Britain, we think it necessary before we conclude what we have to offer concerning this Province to lay before your Majesty a particular state of this Trade.

Before the production of Rice in Carolina the Kingdom of Portugal was supplied with very great Quantities every year from Italy.

And the great consumption thereof in Portugal with the Liberty of transporting it directly thither from the Plantations as freely as any other Grain first induced the people of Carolina to plant and propagate it.

Their Labour and industry being by Degrees rewarded by an abundant increase of this useful and valuable Product they had a very fair prospect of wholly supplying the Portugal Markets therewith.
But being deprived by the foresaid Act of the Liberty of transporting their Rice directly to Portugal and the additional Freight (from this to that Kingdom) with all other charges thereon amounting to about one third part of its value no Rice could be carried from England to Portugal but when the Price has happen'd to be very high there

But the true state of this affair will best appear by the following account of the Quantities of Rice imported and re-exported comminibus Annis on a Medium of five years from Christmas 1712 to Christmas 1717 viz:\n
<table>
<thead>
<tr>

It is evident from this account that the Exportation of Rice from Great Britain to the Northward is very considerable and that the exportation of this Commodity to the Southward is very small which can arise from no other cause but the great expense that attends the same in double Freight, the Rice of Carolina being esteemed the best in the World but by that means it happens that the Italians being near at hand have almost entirely beaten your Majesty's subjects out of this Trade which proves very detrimental to the Navigation of Great Britain for if the Italians had not a vent for their Rice in Portugal they would hardly be able to carry on a Trade to that Kingdom and Spain in their own shipping having no other Gross Goods but Rice and Paper sufficient to furnish lading for great ships, and they dare not adventure in any others for fear of the Algerines.
We would therefore humbly submit to your Majesty whether it might not be for the advantages of the Plantations and of Great Britain likewise to allow that Rice might be carried from Carolina directly to Portugal or any other part of Europe to the Southward of Cape Finisterre upon giving security that every vessel so freighted shall touch in Great Britain before she returns to the West Indies.

GOVERNOR EDEN TO THE SECRETARY

NORTH CAROLINA April 12th 1721.

Sir

The unhappy state this Colony is left in for want of a Missionary Mr. Taylor being dead and Mr. Urnstone having after the most unaccountable manner imaginable left his mission some twenty days since without acquainting myself or any of the council or Vestry of the parish where he resided save one Mr. Moseley a person not the happiest in his character for behaviour towards Government or good order who he has left to take care of his affairs which no wise required his deserting them but rather might have encouraged his continuance but not having made the least application to me for credentials I shall forbear giving character of the gentleman that is now coming before your august Assembly where I pray my humble duty may be received and your interest and charitable care of nine parishes consisting of upwards of 2500 white souls entirely left destitute of any assistance in religious affairs but what their readers give them who are not so able as I could wish amongst a people perfectly well affected to the Church and very desirous of giving encouragement to ministers of a courteous and affable behaviour to reside amongst them could they have the good fortune to be supplied with such and unless some due care be taken this person leaving his flock, so entirely deserted may give occasion for Quakerism to spread amongst us—those being the only sort of Dissenters worth minding in the Government I am confident if this finds credence with the most Honorable members of your Society whatsoever Gentlemen shall be sent to us will have no occasion to repent themselves and hope nothing that Dr. Urnstone may have to offer in justification of his own mismanagement will make impressions with His Grace of Canterbury and the rest of that venerable body to the prejudice of these neglected people who howsoever formerly ill represented deserve well now—To take up more of your time would be needless so not doubting of your favor on this lamentable occasion I beg leave to subscribe as with great respect and esteem I am your most humble and obedient Servant

Sir,

I have given you the trouble of these few lines that the Honorable Society might be somewhat acquainted of the character of Mr. Urmstone that is lately gone for England and intends he says to return again to North Carolina if the Society thinks fit to send him but indeed he is a very unfit Missionary for that or any other place—his life is so wicked and scandalous notorious drunkard and swearing and lewdness is also what he is occupied of for these and others of his vices he was so much disliked of the people he was among that scarce any of them come to hear him and it is what one shall hear from almost every ones mouth that knows him that it is pity that he should ever come into these parts any more except he reforms his life and bad example doing more hurt than ever his preaching did good there are many Quakers in Carolina and to be without a minister gives them great advantage what I have writ I do assure the honorable Society it is not out of any prejudice to Mr Urmstone or self interest but purely that their Christian Charity and pious intent might be better answered with respect to that place and those poor ignorant people better provided for by a person sent capable of doing good amongst them which is the hearty wish of

LONDON July 21, 1721

Sir

I am now blessed be God safe arrived after a tedious and expensive voyage I hope not without leave in order to go back again on such terms as are absolutely necessary and expedient or rather to end my days in my native country and with all submission to my superiors I think it most reasonable after having served the church 27 years been missionary well nigh twelve thereof among an ungrateful people—struggled with great
inconveniences of living in such an obscure corner of the world inhabited by the dregs and gleanings of all other English Colonies and a very unhealthy Country which have driven many Clergymen out of it not being able to stay so many months as I have years and brought others to their Graves seeing then it hath pleased Almighty God to prepare me a body to endure more than any of my function ever did or I am persuaded ever will I see no reason I should be doomed to exile I hope I shall find favor for although aged I have still sufficient strength of body the Lord be praised some share of sense and ability to serve my God and his Holy Church the remains of a liberal Education long travels and scraps of the French and Italian Tongues and am of opinion employment may be found for such an one this I pray you lay before the Honorable Society this meeting at the door attends—yours &c

To the Council and Assembly of North Carolina.

Gentlemen

We have received the News of the Death of Mr Eden Our late Govr of North Carolina, whose Loss we heartily lament, But That no Care might be wanting on our part for promoting the Good and Welfare of Our Province We have as soon as we conveniently could sent over to you Mr George Burrington to be our Governor of Our said Province during Our Pleasure, He is a Gentleman, whose Inclinations to our Service and his hearty Desires for the Improvment of the Province we are fully convinced of: We do therefore desire you to pay him all due Obedience as the Acts of your Assemblies and Our Charter under the Great Seal of England do require you.

We have also appointed some New Commission'd Officers (as you will see by their several and respective Commissions and Instructions) who we earnestly recommend to your Care and Friendship that by your mutual Assistance of each other, Justice may be more duly administer'd and the Trade of our Province may be augmented and increased.

We think it highly necessary for the good of the Province that you would in your Assemblies consider of the best and most proper Method for improving the Manufactures and Trade of the Country and in Order
to that you would settle a Commerce with the Indians for their Deer Skins for we doubt not but by a fair and just dealing with them you may be assisted with such Quantity of their Skins that you may be able to supply such Vessels as shall arrive among you with their Loading, the Want of which and the tedious Delay the Merchants are put to, as we are informed upon that Account, is a great Hinderance and Obstruction to the Trade of the Province.

We earnestly recommend to you the care of the Fishery, the carrying on of which must be not only a great Improvement of Trade but will also cause a great Number of Inhabitants to come into the Province and settle among you. We have upon this Account granted a Lease of the Whale Fishery to Our Gov' and two others who have applied to us for the same reserving only the tenths of the Products to Our Use. We hope therefore you will jointly with us give all due Encouragement to these two Branches of Trade and we doubt not but with your Assistance we shall in a little time be enabled to put North Carolina in as flourishing a Condition as any of his Majesty's Colonies in America.

Gentlemen

We received an address from you transmitted some time since to us by Our late Gov' M't Eden wherein you signify'd to Us your great Dislike to the Rebellious and Tumultuous Proceedings of several of the Inhabitants of South Carolina, and your constant and steady Adherence to Our Government and the present constitutions We take this Opportunity of returning you Our thanks for your Dutifull and Loyall Address. We think it proper to inform you that we have taken into our Consideration several of the Laws sent over to Us by M't Eden, and some others lately transmitted to us by M't Lovick Our Secretary, We do assure you we will in a very short time send you Our Opinion in relation to those Laws, and we shall likewise consider your Request for the opening the Land Office, and shall send your Our Opinion thereupon by the first Opportunity.

We shall be always ready to do you what Friendly Offices may be in Our Power, So we bid you heartily farewell, and are

Your very loving Friends

VIRGINIA—JOURNAL OF THE COUNCIL

24 October 1723.

Whereas the Maherine and Nansemond Indians have this day complained that notwithstanding the repeated orders of this Government for securing to them the possession of their Lands, whereon they have for many years past been seated, between Nottoway and Maherine Rivers, divers persons, under pretence of Grants from the Government of North Carolina surveyed the lands of the said Indians, and begun to make settlements within their cleared grounds. It is the opinion of the Council that the Governor be requested to repeat his instances to the Governor or President of North Carolina for the time being, to recall all such Grants as have been made by that Government within the Bounds in dispute, between the two Colonies, and more particularly that the Government of North Carolina, take care that no persons pretending an authority from thence to disturb the Indians in the possession of the Lands they enjoy by virtue of Treaties of the peace which have been approved and confirmed by the Crown; and because the President of N. Carolina has hitherto thought fitt to take no notice of a Letter sent him last April upon a former complaint of the Nansemond and Maherine Indians, It is ordered that a copy of the order of this Board dated the 30th of October 1721 be now sent to the Governor or President of Carolina for the time
being with Intimation that in case that Government do not immediately put a stop to the Incroachments complained of by the said Indians, and also recall all Grants, and to annul all surveys made within the controverted Bounds since the mutual agreement entered into by both Governments in the year 1714 Orders will be forthwith given pursuant to the resolution of the Board the 30th October 1721 for removing by force all persons seated within the said controverted Bounds under pretence of any Grant or Authority from the said Government of North Carolina.

To the Hon'ble Christopher Gale Esq' Chief Justice & to the rest of the members of the Hon'ble Gen'l Court

The Petition of Edward Moseley Gen't Jeremiah Vaile and other the Inhabitants of Yaupin Neck in Chowan p'cinct.

Humblly sheweth that in the year one thousand seven hundred and seventeen by the Order of the p'cinct Court of Chowan a Main Road was laid out from Doct' Urnston's plantation down the neck that leadeth to the mouth of Yaupin River and that the Inhabitants within that District have with great Labour & Expense cleared and kept the said Road as the Law requires, which is of very great use for the Inhabitants dwelling along the Sound side and at the mouth of Yaupin River for without such Road leading from or near the mouth of Yaupin River to the main Road at Doct' Urnston's the said Inhabitants can have no lawfull road to come to the Court held for the p'cinct or to the Church or General Court held at Edenton. Yet so it is May it please yo' Hon's that some very few persons Viz' John Blount Esq' James Beasley William Benbury and Henry Haughton having preferring a petition to the p'cinct Court held in July last for altering and changing the said Main Road & making a new one (which can only be for the private use of those petitioners and the great damage of the persons thro' whose lands such New Road is to pass as well as to the great damage of the persons having benefit & interest in the old Road) Have sanguinely and Ex parte obtained an Order of the said p'cinct Court for altering the Old Road and laying out a new one without the privity knowledge or consent of the owners of the Lands thro' which such Road is to be made and without the knowledge or consent of far the major part of the Inhabitants that are belonging to the old Road Copy of which petition and Order four petitioners produce here in Court all which proceedings of the aforesaid John Blount Esq' and the Order of the p'cinct Court aforesaid being contrary to law. Yo' petition therefore humbly pray that this Court will be pleased to grant an Order that the Order of the p'cinct Court may not be put in Execution untill yo' petitioners are heard in this Hon's Court where they hope to make appear that yo' proceedings of the said John Blount Esq' &c. and the order of the p'cinct Court grounded thereon are contrary to Law.
And the said John Blount Esq. &c may have a time a time appointed by this Honble Court to attend and answer the p'mises: And further that the said Order of the said p'cinct Court passed so irregularly & contrary to law may be reversed sett aside and declared null and void.

GOVERNOUR JOHNSON.

LONDON, Feb 3d 1724

Since I had the Honour of waiting upon your Lordship, have had some thoughts, on what manner your Lordship might best influence the affairs of Carolina, to induce the people to doe justice to your Interests there. And I submit it to your Lordships judgment if you dont think it may be advisable to obtain the Government yourself, and to act by a Deputy, My Lord Orkney is Governour of Virginia in the same manner.

And that things may remain as they are, as to the Lords Proprietors pretentions, the same word (Provisional) may be inserted in your Lordships commission or in Mr. Nicholsons.

And if I was thought worthy of the honour to act under your Lordship should esteem it moor, and be better capable of serving you then being independant and I should be entirely satisfied with the profits
which arise from the independant company and perquisites, without the salary they say Mr Nicholson has in England.

When I was upon the spot I should be able to judge what reason I could bring the people to by letting them see the advantage of your Lordships protection and friendship or the inconveniency would attend their tranquility Act being disannulled by the King which they might provoke you to procure And it might be a further inducement to them to hear reason to have it inserted in the Lieutenants Governours Instructions from the King, that particular regard should be had, that the people did justice to the Lords Proprietors Properties and thus should I be able as I found I could deal with them to apprise your Lordships how far it would answer your being sole Pro*

My Lord I am sure Mr Nicholson hopes by his coming to England to get himself established Governour to act by a Deputy so by having one he recommends could influence the affairs of Carolina his one way, to my knowledge he tells the fasion he shall be able when in England to do them moor service than in Carolina and desires to go to England for that reason and once in a passion I heard him say, let the Lords Proprietors take cair the King did not take the soil as well as Government for their ruining the Country by shutting up the Land office for theirby they had forfeited their Charter.

My Lord these my crueld thoughts I submit to your Lordships judgement I take leave to enclose a Copie of the Assemblys address to me and my answer upon it just before they mutinied against me, your Lordship being out of England to my great misfortune, perhaps never red it, I do assure your Lordship I have no ways forfeited there esteem but in vigorously aposing their unjustifiable proceedings against the Lords Proprietors and not having concerned myself directly or indirectly since Mr Nicholson’s arrival in publick affaires. I left the Province I am sure with the good wishes of a great majority of the Inhabitants that I should succeed him and I will be bold to say that if in your Lordships absence I had not been barbarously treated by the Lords Proprietors and every thing done contrary to my advice and my Counsel removed who I had settled a good understanding with to make way for Trotts and Rhets frinds to worm me out of the Government before your Lordships return; I could esily have prevented what hapned and have defied the peoples efforts.

I likewise presume to inclose a draft of a Petition to his Majesty but shall make no use of it either in that form or any other but as your Lordship shall approve and alow of, in whose goodness I intirely rely, I
have been very ill of a cold ever since I saw your Lordship but hope to be abroad tomorrow and shall wait upon your Lordship when please.

most Dutifull and
Devoted Humble Servant

NORTH CAROLINA—ss.
To the Honorable George Burrington Esq Governor and Commander in Chief of North Carolina and to the Honorable Council.

The Address of the Lower house of Assembly of North Carolina.

It Apearing to this House that most of the Lands of Albemarle County being already taken up the Growth and Increase of this Government is much obstructed for want of such Instructions concerning the sales of Land in this Government as might be complied with by which means many who have removed hither from foreign parts have been obliged to return and others are daily removing to the great weakening of the Government by the loss of so many Inhabitants as well as to the diminution of the Lords proprietors Revenue, wherefore that such an expedient may be found to retain such of the Inhabitants as are designed to remove and to encourage others to settle in this Government untill the Lords proprietors shall be pleased to give Instructions for the sales of Lands as the Inhabitants of this Government can comply with concerning which we intend to address their Lording and pray your Honours Concurrence.
We humbly propose to your Hon* that you would be pleased to give such orders and Instructions that persons may enter survey take up and occupy the vacant Lands on the annual payments of such rents as your Hon* shall think proper until such time as their Lord* shall declare after what manner the purchase money shall be paid in this Government after which Declaration so made by the proprietors the Possess* of such Lands may have a Limited time to accept of their Lordships Terms of Purchase.

And this we are humbly of Opinion will be a great means to Retain many of the Inhabitants otherwise designed to remove encourage others to Settle among us and cause a very great addition to their In* Revenues.

By order of the Lower house

THOMAS SWANN, Speaker

The Governor and Council taking unto Consideration the address of the lower house of Assembly which was presented yesterday and was this day read and several of the Members of the Council representing that sundry person are already seated on the vacant Lands for which purchase money has not been paid nor any rents, and the Governor and Council being unanimously of Opinion that the permitting people to occupy the vacant Lands on the payment of a certain rent until the Lords proprietors pleasure be further known will not only very much strengthen and encrease the Settlement of this Government but also cause a very great addition to the Lords proprietors annual Revenue.

It is ordered That Permission be given for any person or persons to take out warrant signed by the Governor and Council directed to the surveyor General or his Deputy to lay out Lands in Bath County after the same manner they are usually laid out in Albemarle County To hold and occupy the same on the annual payment of three shilling & three hundred Acres until the Lords proprietors pleasure be further known provided always that unless the Taker up of Lands according to this order do within two years after the survey of the Land enter upon the clearing and Seatting thereof in such manner as is provided for the Settling Land in Albemarle County then all and every such Survey shall be Void and ineffectual and such Lands free for any person or persons to enter upon and Seat according to the rules hereby declared.

And it is further ordered that when the Lords Proprietors shall be please to give direction for the granting Lands in Bath County then all and every such Possessors of Lands so Surveyed who shall have actually paid their rents aforementioned or secured the same to be paid shall have

It is also Ordered That the Governor and secretary shall have take and receive the like fee for all such Lands so taken up as is appointed for warrant and patents in Albemarle County and that the Surveyor General do make out a Catalogue of all such Lands so taken up and deliver the same to the Lords Prop^{*} Receiver General that the same may be entered on the rent Roll for which entry It shall be Lawfull for the Receiver General to have and take of each person whose Lands shall be so entered the sum of five shillings.

Ordered That Arthur Goffe Esq' Rece' Gen' do pay the sum of fifteen pound to Mr Thomas Parris it being what was expended on a dinner on the sessions day last past and charge the same on his account.

[FROM NORTH CAROLINA LETTER BOOK OF S. P. G.]

M' DUKENFIELD TO THE BISHOP OF LONDON

SCION COLLEGE July 14 1724

May it please your Lordship

Since I am engaged to address the Honble Society on behalf of the Province of North Carolina the being destitute of those blessed & most inestimable privileges & means of Grace that is so conducible to their present comforts & their future Salvation which all the Isles and Provinces around here are so happily furnished with, would be a culpable error in me should I neglect the most Honorable methods of endeavoring to obtain those agreeable helps that is so much wanted & it is most earnestly desired by them Therefore under my apprehension I know of no one that I can more suitably apply to, with the appearance of a necessary success than your Lordship & the more so as she is within the verge of your Lordships Diocese. & I hope will be as immediately under your Lordships protection. Amongst all the Isles & Provinces within your
Diocese. There is not any at this day can be more aptly stiled the little sister that has no Breasts. But as she is now spoken for. I would submissively hope that your Lordship will suffer this to animate your concern, so eminently for her, as may be productive of some ample & valuable provision. How encouraging it must be when so Hon’d a patron appears at the head of so glorious a design as the propagating of the Gospel in that distant part of the world & how happy the prospect of its success when the inhabitants thereof do manifest their longing desires for such a blessing, the last Missionary that was sent was the Rev’d Mr Newnam & he lived but half a year amongst them, but in regard to the Hon’d Society’s great favour, they gave the Widow not only the whole years salary being £60 but the assembly gave her £40 out of the public treasury. The Parishes in that Province are exceeding large & yet contain too few people for the Present to afford their Minister a handsome maintenance. Independent from the Hon’d Society’s bounty, however I most humbly conceive that if the most noble Society, would be pleased to allow them 3 Mies. & a salary of £50 per annum each, would be better than allowing so large a sum with one as they have the wont to do. & that £50 together with their allowance established by law being £50 per ann. their money with other considerable advantages they generally have would make a comfortable living & such as with good & frugal management, something might annually be laid up by them & I presume to believe that such 3 being allotted in this manner. viz. one for Bath County another for that part of Albemarle County, being to the westward of little River. & a 3rd for that part lying to the eastward of little River. the Division would be near equal & tho’ they resided chiefly in one part of the Division, yet by frequent visiting the rest, they might give abundance of satisfaction & receive large gratuities for such visits & I know they are a people that would do all the good offices that lay in their power & are always ready to assist & encourage a laborious pious & faithful Minister. I need say no more & since the nature of the subject has constrained me to run this length it would be absurd should I attempt to make any apology Especially when I consider that so good and so necessary a work will not be deemed troublesome by your Lordship but to conclude may your Lordship be the happy Instrument of establishing the Glorious Gospel in that remote & dormitory part of the Universe and that it may be truly glorified amongst them shall be the prayer of

Your Lordships most humble & most
obedient Servant

NORTH CAROLINA—ss.

To the Honoble George Burrington Esq' Govr and ordinary of the said Province.

The Answer of John Lovick Executor of the last Will and Testament of Charles Eden Esq' late Govr of the said Province desed to the Petition of Roderick Lloyd and Anne his wife by Robert Lloyd Agent & Attorney for the said Roderick Anne and Margaret Pugh Daughter of the said Anne and Neice of the said Charles Eden Whereas the said Petitioners sometime since together with the said Margaret exhibited a Memorial to the Lords Prp in against the said John Lovick alleging that he had Illegally Possesd himself of the said Governor Eden Estate whereo they pretended Title in the 4th Memorial Insinuating that the said John Lovick had fraudulently obtained the same and that they Suspected the said John Lovick had concealed or stopt their powers and directions to their Agent here concerning the same to which last suggestion the said John Lovick having Examined their said Agent or Kinsman in Council before your Hon' humbly concives he hath Sufficiently vindicated himself from any aspersions on that head and hope your Hon' will be as fully satisfied with the Clearness of his Intentions and the justice of his proceedings in the whole affair when
you have heard his Answer which in Obedience to the Lords Proprietors directions he with great readiness now humbly offers—May it please your Hon' at so remote a distance as Great Britain these false Insinuations of the Petit' might more easily be made but it is with very great surprise the said John Lovick finds by their Agent and Attorney here residing they should presume to suggest to your Hon' and assert facts that may so Notoriously and publicly be disproved and which the said Petitioners or their Agent and Attorney here could not be ignorant of, it being set forth in the said Petition that the said John Lovick hath possed himself of the said Governor Eden Estate by pretext of a pretended Will as they Express it procured after some unlawful and Indirect manner and that the said Will was not signed and Executed by the said Gov' or by lawful manner nor is Lawfully proved and that the said John Lovick hath not exhibited any Inventory of the said Estate into the proper Office which Estate was set forth in the said Memorial before mentioned to be worth Three thousand pounds Sterling and here in the said petition to be worth Eight Thousand pounds sterling whereas by the publick records in the proper Offices it plainly and manifestly Appears And the s' Pet' might Inform themselves by Copies or otherways what disposition the said Gov' Eden made of his Estate by his last Will & Testament Signed by his own hand and published by him in y' presence of a compleat number of Witnesses who signed the same as Evidences, which Will hath been duly proved in the General Court of this Province according to Law and recorded as other Wills are in the proper Office & L' Test' have been duly granted to the said John Lovick according to the Custom of the said place and he sworn as Executor thereto and an Inventory on Oath of the said Estate hath duly returned and caused an appraizm' of the said Estate in Sterling money to be made by appraizors ordered by a Warr' of appraizment and sworn thereto and the said appraizm' long since returned unto the usual office and as he conceives hath done what the law requires all which may be seen in the said Offices but for more certainty to your Hon' he now beggs leave to lay the same before your Hon' and the Council in Justification of himself & to make most manifest and apparent the Lawfulness of his proceedings herein altho the said John Lovick conceiving himself to be General Legatory and being advised that the residue of the said Estate did belong to him after debts and Legacies paid which he imagined there would be Sufficient to do if no losses had happened he did not think himself obliged to be so very exact and particular in every step relating thereto however since there hath great losses happened on the said Estate by
casualty and since such cavils and pretensions are made as by the Petitioners he thinks himself happy to have proceeded so regularly and methodically as he has done and doubts not in the whole affair it will appear he hath proceeded according to Law as well as Equitably and with good Conscience desiring no other but faithfully to Execute the will of the deceased and perform his Duty as Executor and humbly conceives he hath now given your Hon' an Instance of his readiness herein and of the sincerity of his Intentions by admitting the Petitioners procuration or power of Attorney tho he might justly have Questioned the proof of it And the said John Lovick saith as Executor he is ready to answer all Lawful Demands either of the said Petitioners or any others on the said Estate so far as it will Extend and that he shall at all times be ready when any proper petition or suite shall be commenced against him according to the Laws of this colony to give such Caution or Security as shall be Judged sufficient or necessary thereon And Whereas in the said Petition it is set forth that the said Govr Edens Estate is worth Eight Thousand pounds Sterling the said Appraizment will certify to your Hon' that besides the Lands the whole Estate amounted but to the value of five hundred and sixty three pounds Eighteen shilling and sixpence sterling and one hundred and seventy five pounds Boston money where Ex' for sterling is near Two hundred & cent with a parcel of bills and a few Debts of this Colony not reduced to sterling and the said John Lovick is ready and can make it appear that the said Govr Eden some little time before his Death upon thoughts of going for England offered for One thousand pounds Sterling in Great Britian all his Estate in Carolina both real and personal except his plate which by the appraizment appears to be one hundred & ninety six oonces and his Negroe Boy Taphy which by his said Will he gave and Hath been by the said John Lovick the Executor since delivered to the said Govr very good Freind John Holloway Esq' in Virgini and the said John Lovick further saith that altho he hath proved the said Will as aforesaid in the General Court as is usual and by the Laws of the said Colony he might do and the probate being there recorded he conceives leaves no Room or Coulor for any imputation which the said Petitioners might have suggested had the same been in the Secretaries Office (he being Secretary yet for that the said petitioners are unsatisfied with the probate of the said Will and Question the Validity thereof, the said John Lovick is Willing and now prays that the same may be proved in Council before your Hon' and that he may be permitted to bring the Testimony of several Creditable persons to declare by Interrogatories on oath what they know of Govr Eden
s' Will and his ability then to make such dispositions of his Estate and
the declarations he at any time made with the true Intent and meaning
thereof in the presence of the said Petitioners or their Agents or attor-
neys that they may have opportunity then and there to make what Inter-

fully Examined and heard the very right Justice and Equity thereof and
the Lawfulness of his proceedings may publickly and Evidently appear
before your Hon' and the Council to whom the s' John Lovick humbly
submits himself and this his answer

CHA. CARKESSE TO MR. POPPLE 28th JAN'Y 1724.

Sir,

Mr. Christopher Gale who is collector of the Customs at Beaufort in North Carolina, and Chief Justice of the Province being come to England, has exhibited to the Comm a Memorial setting forth that he has been personally insulted in the execution of his Office by Geo. Burrington Esq. Deputy Gov't of that Province and that he afterwards attempted in the nig't to break open the said Gale's house with intent to murder him, that he was thereupon obliged to quit the Province esteeming his life in danger in case he continued there, the truth whereof appears by his Affidavit and Copy of his Memorial inclosed which the Comm desire you will lay before the Lords Com for Trade and Plantations, and the said Collector representing he cannot return to his duty with safety to his life unless some proper measures are taken to protect him, the Comm desire their Lords' will be pleased to enquire into this matter.
and be a means that the grievance complained of may be redressed and least their Lords* should want fuller satisfaction in this matter, the said Gale is ordered to attend them, which is what I have in command to signify to you.

ENCLOSED IN C. CARKESE'S LETTER OF THE 28th JAN: 1724

LONDON—ss.

Christopher Gale Chief Justice of the Province of North Carolina in America and one of the Coll* of his Majesty's Customs within the said Province, who being sworn upon the Holy Evangelists declares as followeth, viz.

That George Burrington Esq* the present Gov* hath sundry times threatened grievously insulted and abused the Depon Chr. Gale and particularly the said Governor at his first arrival in the said Province which was near two months before he saw the Depon* (as he is credibly informed) gave out several menacing speeches against him saying, he would slit his nose, crop his ears and lay him in irons, and that agreeable to these abusive threats he told the Depon he was his enemy and would ever continue soe. That at the last general Court held by the Depon*, which began the last Tuesday in July past, the said Governor grossely reviled and insulted the said Depon* in open Court and then in the execution of his office, and soe disturb the Deponent and the Assistant Judges, by abusive interruptions that for fear of worse consequences the business they were upon was put off till next Court and the Court abjaunred. That the said Governor hath at times ever since (as the Depon* has been informed continued to revile and by scandalous reflections to render the Depon* mean and contemptible to the people, so that in both his Capacitys of Chief Justice and Coll* of his Majesty's Customs his Authority is thereby weakened and discouraged and he rendered incapable of executing his said offices. And further that
early on Sunday evening the 23d of August last The said Governor attempted to break into the Depon* house in Edenton in a violent manner and with intent as he verily believes to murder him, to the very great terror of his family, but finding he could not break open the Door, he broke the window all to pieces, cursing and threatening him in a grievous manner, swearing a great many oaths, that he would lay him by the heels, nay would have him by the throat speedily, and burn his house or blow it up with gunpowder often repeating that this was but the beginning of sorrow to him so that the said Depon* being thus insulted and threatened by the said Gov* armed with the Authority of Governm* could not stay in the said Province to execute his said Offices for that he was in bodily fear of his life or some personal injury from the said Gov* and this oath he takes not out of malice or revenge, but truly and really for the reasons aforesaid. And this Depon* further sais that he knows of no reason he has ever given the said Gov* for such his insupportable behaviour, unless it be his supporting the Officers of his Maj* Customs for the Port of Roanoke and advising them when applied to as Chief Justice for the Interest & support of Trade at y* time when the naval Officer of the s* Port was imprisoned and the Coll’ (Adam Cockburn Esq*) publicly insulted and threatened for only doing what the Deponent believed the Duty of their office required.

GEO. MERTTINS. Mayor.

Jurat xxvii* die January 1724 coramme

[BLA. R. O. PROPRIETIES. B. T. VOL. XI. R. 51.]

To the Hono*M the Comm*n of His Majesty's Customs.

The Humble Memorial of Christopher Gale late Collector of the Customs of the Port of Beaufort in North Carolina but now by your Hon* Appoimtn* Collector of His Maj*n Customs at Port Carrituck.

Sheweth,

That your Memorialist hath for above two years past executed the Office of Collector within the said Port of Beaufort and had prepared the last quarterly Accounts according to your Hon*n Instructions in order to be proved before George Barrington Esq* the present Governor but before he had the opportunity to offer them the said Governor insulted your said Memorialist in a Publick Court then in the execution of his Office of Chief Justice which Office he hath executed within the said
Province for near twenty years with the general Approbation of all Persons and in a few days after attempted to break into his house one Sunday Morning about break of day with intent as he verily believes to murder him so that your Memorialist was obliged to leave the Government and his Office for the safety of his Life as by the annexed deposition of Persons of undoubted Character and many others ready to be produced (if required) will appear.

Your Memorialist begs leave further to represent that he knows of no reason he has ever given to the said Governor for such usage unless it be for supporting the Naval Officer and Collector of his Majesty's Customs in the Port of Roanoke and advising them (when applied to as Chief Justice) for the interest of his Maj' Revenue and Support of Trade when they were the One of them imprisoned and the other publicly threatened and insulted for only doing the Duty of their Office.

One instance in particular your Memorialist thinks it indispensably his duty to inform your Honours of, is a seizure made in the Port of Roanoke by the said Governor himself in Person of a small vessel belonging to Boston in New England Capt. Smear Master on the fifteenth day of July last for illegal Entry and after keeping her for about two days discharging her again of his own authority without any Tryal your Memorialist therefore humbly prays your Honours will be pleased to make such a representation of the case either to the Lords Proprietors of Carolina or any other the Ministers of State as your Honors shall think proper without which he cannot return to the execution of his Office, but with apparent hazard of his Life from the said Gov't and without which it will be impossible for any other the Officers of his Majesty's Customs to doe their duty.

The House met according to Adjournm't together with Mr Rob't Morgen. Representative for Pasquotank Province. The Comittee for Drawing an Address &c. to the Lords prop're according to the Order of this House yesterday lay'd the Same before the House being read is approved.

To his Excellency Jn' L Carle Witt Palatine & the rest of the true & Absolute L'd Prop're of Carolina.

The address of Several Members return'd for this Present Biennial Assembly of North Carolina.

May it please your Lordships:

The great happiness which this Province lately enjoy'd under the Administration of the Hon'ble George Burrington Esq'r the late Governor being much disturbed by the Sudden & Unexpected Change which hath been made thro' the many false & malicious Calumnies that have been raised against that gentleman by Persons of the most Vile Characters as well as Desperate fortunes is the occasion of our Addressing your Lordships at this time.

And altho' Comon Justice requires Us to give Mr Burrington his due Character, yet we think our Selves under the greatest obligation so to do at this time inasmuch as by some of those Articles wherewith we understand Mr Burrington is charged, a very great Reflection is Cast on the Principal Inhabitants of this Province as tho' they were of Turbulent & factious Spirit & incclineable to Cause such a Revolution here as lately happened in S'E Carolina.

Wee therefore take this occasion to acquaint your Ldpps that as we are Chosen to represent the Inhabitants of this Province we do assure you that the s'd Charge is entirely false & groundless & we believe was suggested to your Lordps purely with a Design to give you an evil opinion of those who we are well Satisfy'd had your Lordps Interest & that of your Province most at heart, & as we are very well acquainted with Mr Burrington & the Inhabitants of this Government in General we do Declare that we never could Discern either in Mr Burrington or any other Person of Credit & Reputation the least Step, Motion or Inclination towards a Revolution.

Wee think our Selves very happy under your Administration & notwithstanding the unnessness that the Inhabitants of this Province are under occasioned thro' the late Sudden & unexpected Change & the Present Irregular & Arbitrary proceedings of some of your Lordps officers Yet we assure your Lordps that we will not be wanting as well by
our Persons as by the Influence we have on the People we represent to preserve Peace & Quietness until the State & Condition of this your Province can be lay'd before you by Mr Arthur Goffe, Mr Edme Porter & Mr Nath. Duckenfield whom we have Instructed as our Agents to do it being persuaded that your Lords will have due regard to the several Complaints which on this occasion will be made unto you.

Indeed were it not for the Justice we Expect from your Lordship & the Influence which we believe we have on the Inhabitants of this Province, they might be prone enough to endeavor to obtain as Quick remedy of the Evils attending such a Vile Administration as the Province is threatened with from a Governor so entirely Influenced by so few Persons of the most Irreligious & Imorale Characters. But as we Detest all Irregular & Tumultuous ways of proceeding (our only hopes remaining in your Lordship Justice) we Expected we should have had an opportunity at this present Biennial Assembly of Causing a due enquiry to be made into those late Practices which have been the Occasion of so much uneasiness & Dissatisfaction as well as into the Vile & base Practices of Several of your officers in their offices. But having been disappointed of these our Expectations by the Irregular as well as unwarrantable Prorogation of this Assembly occasion'd (as we think) thro' the Advice of those who fear'd to have their Actions lay'd open to your Lordship by us We are constrained to be at the Charge of Employing Agents to make known to your Lordship the true state of this your Province hoping that thro' your accustomed goodness you will give such relief as the Exigency of Affairs may require.

Not being so fully apprised of the several articles said to be laid to Mr Burrington's charge on which your Displeasure has been so apparently made manifest towards him we can only in general terms assure your Lordship that none of us can remember that this Province ever seemed more Happy than under his Administration, his Carryage & behaviour being very Affable & courteous, his Justice very Exemplary & his care and Industry to promote your Interest & the welfare of this Province being very Eminent & Conspicuous.

Wee humbly Subscribe ourselves

Your Lordship,

Most humble most obedient
& most dutiful Servants

Adjourned till the first Tuesday in April next.
MR. BAILEY'S REMONSTANCE AGAINST MR. RICHARD EVERARD.

The 9th of Nov Sir Richard Everard came up to the House where I lived in Bertie Precinct, where I had 2 days conference with Sir Richard in my own chamber & Sir Richard discourse being studded very much with unusual reflections on our late Govt M' Burtington I shew'd a dislike, whereupon Sir Richard took upon him with abundance of heat & warmth to reflect upon myself by telling me, that I not only stood precarious as a Minister here, but that it was in his Power to prevent my preaching here to the people, I humbly answered him that I had done nothing unbecoming my Ministerial Function, but had more diligently attended in the precinct than any former Minister ever had done, by collecting more numbers of People and Baptizing more people & Children; neither had I been wanting to acquaint his Honor in time, of the reasons of my coming to No. Carolina, that the vestry of Bertie Precinct had sent me an invitatory letter, with promises of great encouragements, which letter I shew'd to him & told him before I sat down with them. I exhibited to our former Govt M' Burtington, to Coll' Moseley & Divers others of the Govt when there was no minister in the Govt, who together with the public approv'd of my residence with them, under which Govt I lived very peaceably & added, there was many People daily at Church, upon which Sir Richard became more moderate, but still levelling his discourse against M' Burtington. I express'd an uneasiness, by telling him I knew of no harm of M' Burtington, & that I could not speak with other men's tongues & I told Sir Richard, that if I could not obtain his countenance, without speaking evil of any man, that I knew no evil of. I must despair of obtaining it. Sir Richard then was very calm & invited me & my wife to his house at Edenton accordingly the Monday following I set out for Edenton, & arrived there, Thursday Morning, the Saturday following I met with the Rev M' Blacknell, I asked leave of his Pulpit; he answered, I was welcome to his Pulpit; soon after, I met with Sir Richard's Son, told him I intended to Preach to-morrow; he told me his father invited me to a dish of Chocolate in the morning. I answered. I would wait upon Sir Richard & accordingly did, when I met with a free access, good entertainment, exceptions only, some scandalous and gross reflections on M' Burtington. I told Sir. Richard I was not susceptible of
such egregious reflections on a Gentleman of so vast a character among both Rich & Poor, as M' Burrington always did & does to this support. immediately entered a Bevy of Ladies, to Breakfast with Sir Richard, we broke off our discourse took my leave & departed, expecting Sir Rich & the Ladies to come to church at the time appointed; & after I had taken a walk about an hour and a half, meeting with M' Paris he asked me, whether it was not time for Church or no; I answered in the affirmative asking him who Kept the Key who answered M' Badham & that he would go for it & immediately did & as soon returned telling me, the Gov't had sent for it, at which I was very much surprised. the Congregation being ready for their devotion, there was a great murmuring, from, which I understood, that the Door would be broke open. I desired them not to do it. for I would go to Sir Richard for the Key myself rather than any violence should be used & accordingly I approached Sir Rich after this manner (who was then in company only with Dr Allen, a man of a vile Character & lately condemned at Williamsburgh for cursing, King George & Mr Drysdale who is Gov't of Virginia) Sir Rich the congregation waits to go to church & I beg that your Honor will please to let me have the Key. He taking the Key, then up in a great rage, thus express'd himself. Sirrah I will make you know who is Gov'. I answered I knew that his Honor was Gov't & I hoped that his Honor knew likewise who was Priest. he reply'd, I should not preach to-day. I told him that I would & that unless his Honor would please to send the Key. I was assured by what I heard that the Door would be opened. he said he would put me in Prison if I did Preach. I answered however I would try that, not doubting that God would defend me. I then departed and come to Church, where the Door was open. I went in read Divine Service & gave the people a Sermon. The next morning a warrant was sent by the Constable from Justice Gale which is as follows:

When I came before the Justice, he examining me demanded Security or would order me to Prison. I demanded Security of him for his libel, which denomination I gave the warrant. Information being given by a person, notoriously disaffected to King George & lately arraigned for publicly cursing the King & Government & by many evidences was convicted condemned & fined also recorded within the Capitol at Williamsburgh for the same yet notwithstanding this, to prison I must have went had not Mr Burringtons compassion & love to the Clergy prevented by offering himself Bail which was accepted

THOS BAILEY
AFFIDAVIT RELATIVE TO MR. BAILEY

N* CAROLINA

On this 3rd day of Decr 1725. Before me Edw* Moseley. Personally came & appeared Geo. Burrington Esq* who on his oath on the Holy Evangelists taken saith, that on Monday the 22nd of Novr last the Rev* Mr. Thos. Bailey came to this Deponents lodgings in Edenton & told this Deponent that Christ* Gale Esq* chief justice of this Province had granted a warrant against him & that he was in custody of a Constable & desired him to go with him before the chief justice. which he, this Deponent readily did. that there were present with the 8th chief justice (then in the house of Mr. Wm Batham of Edenton) Sir Rich* Everard Bar* Gov* of N. Carolina. Jr* Lovick Sec* & others; That they Questioned the aforesaid Mr. Bailey concerning his Preaching the Day before: to which questions Mr. Bailey gave modest answers, notwithstanding the 8th Sir Rich* Everard Gov* Christ* Gale chief justice & John Lovick Sec* did very much insult the 8th Mr. Bailey, treating him with base & scurrilous language such as this Deponent saith he never heard given to a Clergyman by any Magistrate before. the 8th Mr. Bailey was also threatened to be sent to prison, if he would not give security to appear at the general court: & this deponent verily believes they would have so served him if bail had not been given.

GEO. BURRINGTON.

Sworn, before me the Day & Year first above written.

E. MOSELEY

Also Arthur Goffe Esq*, Mr. Ja* Winwright & Mr* Jerome Armor came before me & made Oath that they were present at the examination of the Rev* Mr* Bailey in the above deposition mentioned & they also give the like testimony of the treatment Mr* Bailey met with as Mr. Burrington has above declared.

MEMO CONCERNING THE ENDOWMENT OF THE CHURCH IN NORTH CAROLINA.

It appears by Dr. Trott's collection of the Laws of America relating to the Church &c.—Page 84

That the Province of N. Carolina is divided into 9 Precincts or Parishes (In some letters to the Society lately come from thence tis said there are 11 Parishes) and that the Churchwardens and Vestrymen of each Parish are empowered to procure an able & Godly Minister qualified according to the Ecclesiastical Laws of Engl to raise for him, such a yearly stipend as they shall think convenient, so as such sum or Stipend, be not less than £50 & that in the raising thereof & all other Parish Charges, the whole do not exceed 5s per Pole on all the taxable inhabitants in the Parish. They are also empowered to purchase Lands for a Glebe & to Build a Church, & one or more Chapels in every Parish or Precinct & the same as often as need shall repair.

(NB) It doth not appear by any acct yet come to the Society, that there are any Glebes purchased or any Churches or Chapels built. The £5 per pole is in the Currency of that Province & at present not worth above 18s Sterl. altho' at the passing of the Law, it was of the value of 3s 4d, or at least so intended; and if this deficiency was made good or the 5s advanced to Sterl that would be but a very moderate tax, & yet afford such a comfortable subsistence for a single person as might be sufficient encouragement to worthy persons to accept of a mission thither.

In the year 1720 Mr. Edw. Moseley sent a bill of Exchange for 10£ Sterl. to the Secy of the Honble Society drawn by their Missionary The Rev'd Mr. Urnstone & it was his desire that that sum should be laid out in the following Books and that they should be marked with the impression of the Society's Seal & wrote upon; "To be lent to the Northeast Parish of Chowan & they should be deliver'd out to the 12 Vestrymen for the use of themselves & Neighbours—viz—

12 Common Prayer Books of about 2 6 each
12 Whole duty of Dan near the same Price
12 Dr. Nicholl's Paraphrase on the Common Prayer
12 Dr. Horneke's Great Law of Consideration

Bishop Beveridges' Sermons of the usefulness of Common Prayer and such like helps.

But my friend receiving no account of what was done in this affair he wrote again to the Secy in April 1723 with a second bill of the Draught, with request to the Secy that the money should be laid out in the books afore mentioned, or such as should be judged most useful. & he also sent a catalogue of such books as he had purchased desiring the
Hon Society would be pleased to accept of them towards a Provincial Library for the Gov of North Carolina to be kept at Edenton, which is the Metropolis of that Province. But has never to this day had any intelligence from the Secretary of the Society altho' they have had the Rev M* Newnam their Miss* come amongst them since his first letter & their Gov* since his last.

SIR R. EVERARD TO THE BISHOP OF LONDON.

Edenton No. Carolina Jan. 25. 1725(6)

My Lord

We have one Thos. Bailey who calls himself a Missionary, he formerly was in Philadelphia, and turned out there for a scandalous drunken Man. came into Virginia & turned there likewise out for his Vile actions, then came into my Province where if he could get credit or money would be continually drunk & breaking windows or be fighting, this Bailey lately came into Edenton, where I reside & for 2 days kept himself much disordered in liquor, on the next day being on a Saturday, he spoke to my son, to desire him to procure my leave for him to preach which I positively denied him, at which he was very uneasy & by the instigation of Burington the late Gov't he came to me on Sunday about 12 o clock & demanded the Key of the Court house, which I also refused, on which he told me, if the Court house door was not opened for him, it shall be broke open & immediately went to the Door & broke it open. in this Court house are kept all records, & the journals of the assemblies, on which the chief justice, bound him over to our general court. Mr. Burington is his bail. he is I am informed in a distant part of this country. call'd Pasquotank a preaching up rebellion. & begg your Lordship, If I prosecute him according to our laws here for his enormous crimes & his acting out of his sphere. Your Lordship will pardon me. I'm well assured Mr. Bailes life & character is parallell if not superlative to Mr. Nathaniel Gentry on whom your Lordship executed the greatest justice. I'm greatly obliged to your Lordship for obliging me with my request & admitting the Rev'd Mr. Blacknell to come with me to Carolina, he is a Gent' that's a very good Preacher. a Gent' perfectly sober, belov'd by all but Mr. Burington's Party. He has made about 160 Christians since
he has been here & I don't in the least doubt, but he'll double that num-
ber before he has been here a twelve month. I beg your Lordship will
oblige us with three other Missionaries. one for Bartie, another for Bath
& a 3rd for Pasquatanak, we are a most heathenish part of America & have
no sect amongst us but Quakers who daily increase. I thought it proper
to acquaint your Lordship of this, that the Society may favor us, with
sober & pious men, if not having such a man as Mr. Bailey, he will be
despised & ridiculed, I must beg your Lordships pardon in writing in so
great a hurry not knowing of this opportunity till within this 2 days &
my secretary so sick he cant put pen to paper I am forced to write all my
dispatches myself therefore beg you'll excuse all interlineation & errors

NORTH CAROLINA—ss.

Before Sir Rich' Everard Bart. Gov't Capt. General & Admiral of S't
Province.

The Rev'd Mr. John Blacknell being sworn on the Holy Evangelists.

Saiith That on the 20th Day of Novt last, being designed on a journey
to the Indian Town to preach, he accidentally met with Mr. Thos. Bailey
(a clergymen) at Edenton who addressing himself to this Deponent
amongst other things they had some discourse of this Deponents Jour-
ney, whereupon he, the s't Bailey told the Deponent, that he had been
with the Gov't & was then going to him again & believed that Sir Richard
would ask him to Preach & begged of this Deponent if he had the Gov't
approbation to give him the use of his Pulpit, but this Deponent having
heard a very vile and infamous character of the s't Bailey & knowing Sir
Richard was apprized of the character he had, only told him, that if he
had the Gov't leave, he this Deponent had nothing to say against it.

To the Hon'ble Sir Rich'd Everard Barr &c

The Address of the Lower House of Assemblies of North Carolina. We are Extremely Pleased to find by your Hon'ble Speech your good Intentions to promote the welfare & happiness of this Province & do Assure you of the Sincerity of our minds in Endeavouring the promotion of anything which may conduce thereto.

It must be acknowledged that there are Severale Publick Affairs which have been too long (for what reason we know not) procrastinated which do require immediate Consideration & Dispatch; tho' we can no way accuse our Selves of any delay on this score having been (as we likewise are at this present) at our last Biennial Meeting which we conceive to have been very Legal, ready to fall into any measures which might advance the Interest & Tranquility of this Province. Indeed there seems a very great Necessity of Concerting such Measures at present as may effect the same & remove the General Disquietude & Dissatisfaction the Province at present Labours under. The most effectual means to promote which will be as we conceive laying aside all Specious formalities of Speech; But in direct Terms to inform you of our Grievances that you may (as we hope you will) Concur with us in redressing them—we conceive the Inhabitants of this Province in General as well as our late Governor Mr. Burrington to have been very much Injured by the false & malicious misrepresentation of Severale wicked persons to the L's Prop's & we hope your Hon'ble being convinced of the Injustice we have had done us in having our Characters so basely traduced will favour us so far as to remove those Assertions by Reporting the Naked Truth to the Prop's

The Exclamations of the Injured & Oppress'd.

Complaining of Oppression, Perversion of Justice, & of the Laws of this Government &c do so fill our Ears that we are obliged to give you a Detail or Catalogue of some of the most material of them—As First Severale worthy Persons, and some Members of this House conceive themselves to be highly Injured by a Practice of some Officers in the Administration of Justice in procuring illegal Grand Jurys Contrary to the Rules proscribed by a Law of this Government on which were often men of Vile & base Characters, with a Design to Aspere & Villify them, & tho' upon Complaint of the same, made to the Chief Justice & Members of the Court setting forth the practice they pray'd that it might be Inquired into & be timely Detected. Yet they were deny'd the same & the matter
was Defer'd to so long a time as would entirely frustrate any inquiry into the Delinquents having thereby timely Notice to remove, or otherwise to prevent it, this we look upon to be a perversion of Justice, a breach of the laws of this Province, & an Infringement of the Liberty of the People.

Several Persons by reason of such illegal Grand Jurys have been Causelessly Vexed & Presentments being found against them are like to be putt to great Charge & Damage not for doing any unlawful Act, but for only Petitioning (the known right & constant practice of the People of this Governr's) the Assembly for the redress of Grievances, & the Grand Jury in a Particular manner lead to this by a late Charge of the Chief Justice straining as we conceive (if not perverting the Law) on this occasion Endeavouring thereby to Deter & frighten the Inhabitants of this Province from seeking Relief under their Pressures.

Complaint is likewise made unto us of the Attorney General M. W. Little his Contrivance to promote on all occasions presentments & Indictments against Persons thereby to put them to great charge with which several Persons being Greatly Terrify'd have been moved to bribe him to drop the Prosecution, which bribes he hath taken or Caused to be taken for him & the Prosecution thereupon have been dropped & Determined. This we look upon as a most Vile Practice not to be suffered in any Governr's being highly injurious & a means of Terrifying and debasing the minds of well Disposed People to a Compliance to such measures as may terminate in the Ruin of this Province. Moreover several worthy Persons, Some of which Members of the House have been most illegally in an Arbitrary manner, without Cause comitted to Prison & there Detained, & tho' they have demanded Copies of their Comituent, yett they have been refused them. This we take to be a great Infringement of our Liberty as we are Freemen Britains, to be Contrary to the Great Charter & to that Invaluable Act of Parliament commonly called the Habeas Corpus Act.

We shall Conclude Assuring your Hon'ble That we shall as much as in us lies Comply with your Desire not only in Endeavouring to avoid any Differences or breaches, which may happen between what you are pleased to call the Constituent parts of the Constitutions of this Government but also (if any should happen) in a Diligent application to heal them, but give us leave to Pursue your own Simile as there are more Minute parts of the Human body which if neglected might Cause the Destruction of the whole, so in the Government there are officers & others resembling them who ought not (having made themselves Conspicuous by their
Enormitys) to be overlooked but to be brought (if there appear truth in what is Alleged against them) to Condign Punishment least the body Politic Perish.

We shall therefore pray your Hon' Concurrence with us in taking such Measures as may Detect such Practices & settle the Peace & Tranquility of this Province.

By Order of the House

JOHN BAPTISTE CUSHE Speak'

Adjourned till tomorrow 8 a Clock.

Tuesday the 12th April.

The House mett according to Adjournment.

Mr Jam' Winright Chairman of the Comittee of Grievances made the following Report to the House

Upon a Report made to this House by the Comittee etc. That upon a Petition of several Inhabitants of Pasquetank setting forth as a Grievance that Coll: Wm Reed had Contrary to Law pretended to Assume to himself a power to appoint Comissioners Assess & lay a tax of five shillings per Poll for the year 1724 on the Inhabitants of the Precinct & had accordingly Collected the same under a pretence of building a Court house in some place unknown notwithstanding the Justices of Pasquetank Precinct had before that (agreeable to & in pursuance of a Power Invested in them by a Law of this Province Entitled An Act for Setting Precinct Court Houses) proceeded to agree (& take bond for performance of the Contract) with Several Persons for building a Court House in the 6th Precinct on a certain piece of Land—bought of a certain person in the 6th Precinct for the use if & had Lodged the 6th bond with the 6th Reed to be kept for the Use & Behalf of the Precinct as if Yett so it is that the 6th Reed Detaineth & Refuseth to deliver the bond as if to the proper Persons appointed to put the same in force, & likewise hath by a pretended Power Deputed Comissioners who have from the Sheriff or officer taken away the levy lay'd by the 6th Justices according to Law for the use if & likewise the Levy illegally Collected for the Year pretending to lay out and Dispose of the same as to them shall seem meet, to the Utter hindrance of Carrying on the work the Court House as if & to the great Grievance & Damage of the Inhabitants of the 6th Precinct. Whereupon Coll: Wm Reed being Desired to be present to make his objections against the above Assertions, he appear'd & in general Forms deny'd the truth of all, but upon a Special Examination Confess'd the whole, the report being made to this House It is Resolv'd (Nam'ne Contradicente) that the above Practices of Wm Reed Esq' & the Com' as if are
Arbitrary, Illegal & Contrary to the Laws of this Government that the bond in the keeping of the s° Reed (according to his own Confession in this House) ought to be Deliverd to the persons duly appointed to putt the same in force, & that the s° Worke of the Court House ought to be done by the Persons bound to do the same pursuant to the Condition of the s° bond. And it is further Resolv'd that Application be made to the Upper House to, Concurr with us in proper Measures to redress the afs° Grievances & to Compel the s° Reed to deliver up the bond afs° & to oblige the Pretended Com° to account for the moneys they have by pret- text of any authority whatsoever receiv'd on the s° Account & to pay what was Collect'd in the year 1723 to the Comass° appointed by the Court afs° Pursuant to the Act of Assembly afs° to be apply'd to the use afs° & that the pretended Com° or their Collectors make restitution of what was Collect'd for the year 1724, or since, to the respective Persons from whom it was illegallly taken.

Read the Petition of Jno: Byrd Praying leave to bring in a Bill to Alter Entail'd Lands, & to confirm other Lands on the Heirs in Lieu thereof ordered that the Petitioner have leave to bring in a Bill accordingly.

Order'd that Jam° Furbush Sen° of Pasquetank, John Harris & Jam° Thickpen of Pequimans by reason of Age & Infirmity be Discharged from Paying any Levy.

This House taking into Consideration the Frequent Contempts that have been Offered to Assemblys in this Province, which they take to be Owing to the very light or rather no Charge falling on Such Contemptuous Persons on their being Committed by this House there being no Fees appointed by this House for their Officers on such Committments. It, is therefore Order'd that (to maintaine the authority of & respect due to this House) & to prevent Insults being offer'd thereunto) for the future the Officers take these following Fees—Viz.

And that the Resolutions & Proceedings of the s Members at their s meeting be Confirmed by this House.

Mr. Burrington moves for Examination into an Imposition of Mr. Robt Route on a certain Master of a Vessel pretending to take Forty shillings for Searching his Vessel.

Mr. Jessop Complained to this House that Sr. Richard Everard Contrary to Law Demanded & took of him thirty shillings for a Marriage Licence.

Mr. Castellaw is behalf of the Inhabitants of the West Shore in Bertie Precinct moves to this House as a Grievance to be inquired into & redressed, That Jn Morley being appointed Treasurer by Govern't Eden lately Deceased for the Collection of the Publick Levys & the afs Inhabitants Complaining of the hardships of going to the s Morley's House (in Purpose to Ensname them) told them that they need not give themselves that trouble for that he would meet them at one Walston's or Williams's on purpose to receive the Levys; by this means he prevented their Payment of the Levys in due time, & then by Virtue of the Act of Assembly then in force made double Distress, to the very great Damage of the s Inhabitants.

Whereas a Fee of Twenty five shillings for each Pattent was by an Order of Assembly of this Province Confirm'd to the Governor of this
Province to Continue till the Biennial Assembly which should be on the first Monday in November in the year 1725. And this House being inform'd that the 6th Fee is still taken. Resolv'd that the taking of the same is illegal & that for the future none presume to take the 6th Fee, the 6th former being now declared Void.

Upon the Petition of Eliza Paynor Praying that her Son Joseph Paynor may be Levy Free by reason of blindness which was Granted.

Mr Wm Badham being called before the House to answer to such Questions as should be demanded of him by the House upon a mittimus Commanding the Provost Marshal to take into his Custody one John Richard & others & the 6th Badham refusing to take an Oath the House Declares the same to be a Contempt of the authority of this House.

This House taking into Consideration the Petition of John Richard Setting forth that he was Illegally Committed on the 3d of April Inst without any mittimus to the 4th of April & then he read a Copy of a Committment bearing date the 3d of April which he Conceive'd to be Antedated. To the Honble George Burrington Esqe
late Govt of this Province

The Address of the Lower House of Assembly met at Edenton this 12th day of April 1726.

Being at last (tho' with some Difficulty) Qualify'd to proceed in Business for the good of our Country, we think it our Duty when we Consider & Call to mind the many Services & Advantages we receiv'd under your mild Administration to return you our hearty & unfeigned thanks for the Same.
We also begg leave to assure you nothing surprises or concerns us more than your sudden removal by the L. Prop whose interest notwithstanding the malicious information of your enemies everybody knows you had most at heart. We are informed they reported you intended a revolution in this government as was some years ago in South Carolina, which we presume tho' notoriously false was the only motive that induced their Lordsps in sending a gentleman over in so much haste to supercede you, all which underhand practice we hope ere this is duly represented to the Prop by our agent in England, & the true & just acco' of the faithful discharge of your duty to their Lordships, & zeal for the promoting the welfare of this their province, particularly that part of it called Cape Fear, which is like to become a strong barrier & security from any attempts hereafter on our Southern Settlements.

In consideration of all which & the great trouble & fatigue as well as charge you have been at for the service of this province in general we take leave once more (in the name of the whole province which we represent) with all sense of gratitude & esteem to return you our sincere thanks, who are

The address of the Lower House of Assembly now met at Edenton this 12th day of April 1726.

We being now a qualify'd body do think it necessary to confirm what we offered'd to your Ld Consideration in November last by M' Goffe one of our agents; since which (as we then apprehended) we have sensibly felt the effects of an arbitrary as well as a very corrupt administration several persons of good distinction having been illegally committed to our common goal without any reason & there confined & again discharged at pleasure without ever being able to obtain a copy of their comittance tho' often demanded, all which as well as many other abuses & vile practices will be lay'd before your Lordships by our agents M' Arth' Goffe, M' Edm' Porter & Nathl Duckenfield Esq' with directions
on our behalf to Supplycate your Lord into a Removal or Suspension of some Averions Evil minded Person now in the Administration who have been for many years the Comon Disturbers of our Peace & Tranquility, particularly Mr. Jno: Lovick Secret, Chr. Gale, Chief Justice & W. Little Attorney General.

And if it were your Ldps pleasure we should ever hold it one of the greatest favours to restore us our late Govr George Burrelling Esq", who we beg leave to Assure you (notwithstanding the Malicious Information of his Enemies) has always Appeared Zealous in your Lord's Interest & welfare of this your Province, which Singular marque of your Affection for us will ever be acknowledged in a manner becoming your

PETITION FROM BATH TOWN AND HYDE PARISH IN FAVOR OF MR. BAILEY.

Bath Town, North Carolina May 25 1726.

May it please your Lordships

To receive with clemency the humble Petition of the Churchwardens, Vestry & Gentlemen of St Thomas' Parish Bath Town, North Carolina, in the behalf of Mr Bailey our Pious & Exemplary Minister, who was recommended to us by our late Govr Co^ Geo Burrinton and has been in these parts almost 3 years long expecting the usual Salary from the Royal Society, which we presume afore this time would have been afflict'd had not his recommendations been intercepted. The sense we have of Mr Bailey's administration in the Gospel & the great pains & care he hath taken, since he hath been amongst us, obligeth us on this occasion to acknowledge the benefit this Province has enjoyed from the same & since his desires of continuing with us if assisted with the usual Salary from the Hon'ble Society for the Propagation of the Gospel in N Carolina as well as in other parts of America, a place wanting the blessed benefit of the Gospel more than any other part of your Lordship's most extensive...
Diocese & his Majesty's Dominion abroad, we beg leave therefore, together with our neighbouring Vestry & Parish humbly to Petition your Lordships to recommend the Rev'd Mr. Tho' Bailey, our able and worthy divine to the Hon'ble Society for the £80 per annum, which our former Ministers have been possessed with, assuring your Lordship that we shall not be wanting to provide for him as honorable a support as possibly we can, but for as much as the late Indian wars have rendered us unable to raise a sufficient Subsidy for a decent maintenance of the Ministry, we unanimously & humbly petition your Lordship's assistance in the settling so pious and able a man as Mr. Bailey amongst us, under whose Ministry we esteem ourselves very happy & your Petitioners as in Duty bound shall ever pray.

Josiah Jones
Matt Roan

Churchwardens & Several others

The Commissioners of the Vestry of Hide Parish who were authorized by order of the Vestry to meet & join with the Gentlemen of St. Tho' Parish have met the same day and do most humbly supplicate the same from your Lordships and shall ever pray

My Lord,

I had the honour to promise your Lordship some time ago, that I would lay my thoughts before you at your leisure, in what manner the several Plantations on the Continent of America might be reduced under one general Government, without injustice to the present Proprietors, or further expense to the Crowne.

Your Lordship has accordingly enclosed a short Essay upon that subject, and if it has the fortune to meet with your approbation, I have some further hints to suggest upon the same subject, which may perhaps not prove unprofitable to his Majesty's service.

I am with all possible truth and respect

My Lord

Your Lordship's most obedient and
most humble servant

A SHORT DISCOURSE ON THE PRESENT STATE OF THE COLONIES IN AMERICA WITH RESPECT TO THE INTEREST OF GREAT BRITAIN.

INTRODUCTION.

Happy are the People whose Lot it is to be Govern'd by a Prince who does not wholly Depend upon the Representations of others; But makes it a chief part of his Delight, to inspect into the Condition of his Subjects according to their several Ranks and Degrees; Who from the Rectitude of his own mind distinguishes the true merit of his servants: Leaving the Liberties and Properties of his People to be equally guarded and justly defended by a practical Execution of the Laws.

The unbounded Extent of Knowledge to be daily acquired by the judicious Enquiries and Application of such a Prince; will soon abolish the use of Flattery, and the pernicious Effects of all design'd Misrepresentations; The paths of virtue and Honor with a strict adherence to Truth, will be the only avenues of access to the Sovereign's Esteem; and the Royal Favours in such a Reign will ever be agreeably dispens'd in proportion to the usefull Conduct, and true merit of the Party.

So great an Example from the Throne will doubtless inspire every honest Breast with a better share of Public Spirit; Mens thoughts will not then be so intent on what they can get for themselves, as on what they can do for their Country: And for such parts of the Prince's Prerogative & Executive Power, as necessarily must be Intended with Ministers; They will ever be thought an Advantage & Security to a Nation. While the Conduct of the Ministry principally shines in the support of Liberty, which cannot fail to gain the Hearts and Affections of a Free People.

When either by Conquest or Increase of People, Forreign Provinces are posses'd & Colonies planted abroad, it is convenient & often necessary to substitute little dependent Provincial Governments, whose people by being infranchized, and made partakers of the Liberties and Priviledges belonging to the Original Mother State, are justly bound by its Laws, and become subservient to its Interests as the true End of their Incorporation.

Every Act of a Dependent Provincial Governor therefore, ought to Terminate in the Advantage of the Mother State, unto whom it owes it's being and by whom it is protected, in all its valuable priviledges: Hence it follows that all advantageous Projects or Commercial Gains in any Colony which are truly prejudicial to, and inconsistent with the Interest
of the Mother State; must be understood to be illegal, and the Practice
of them unwarrantable, because they contradict the End for which the
Colony had a Being, and are incompatible with the Terms on which the
People claim, both Privilege and protection.

Were these things rightly understood amongst the Inhabitants of the
British Colonies in America, there would be less occasion for such Instruc-
tions, and strict prohibitions, as are daily sent from England to regulate
their Conduct in many Points; The very nature of the thing would be
sufficient to direct their choice in cultivating such parts of Industry &
Commerce only, as would bring some advantage to the Interest and
Trade of Great Britain: They would soon find by experience that this
was the solid and true Foundation whereon to build a real Interest in
their Mother Country and the certain means to acquire Riches without
Envy.

On the other hand where the Government of a Provincial Colony is
well regulated, and all its Business and Commerce truly adapted, to the
proper End and Designs of the first Settlement; such a Province like a
choice Branch springing from the main Root, ought to be carefully nour-
ished and its just Interests well guarded; No little partial Project or
Party Gain should be suffer'd to affect it, but rather it ought to be con-
sider'd & weighed in the General Balance of the whole State, as an use-
full and profitable member; For such is the end of all Colonies, and if
this use cannot be made of them it would be much better for the State
to be without them.

It has ever been the Maxim of all polite Nations to regulate their
Government to the best advantage of their Trading Interest; wherefore
it may be helpfull to take a short View of the principall Benefits arising
to Great Britain by the Trade of the Colonies

1st. The Colonies take off and Consume above one 6th part of the
Woolen Manufactures exported from Britain; which is the chief Staple
of England & main support of all the Landed Interest.

2nd. They take off and Consume more than double that Value in
Linnen and Colicoces which is either the product of Britain and Ireland
or partly the profitable Returns made for that product carryed to For-
reign Countries.

3rd. The Luxury of the Colonies which increase daily consumes great
Quantities of English Manufactur'd Silks, Haberdashery, Household
Furniture and Trinkets of all sorts, also a very considerable Value in
E: India Goods.
4th. A great Revenue is rais'd to the Crown of Britain by Returns made in the Produce of the Plantations, especially Tobacco, which at the same time helps England to bring near'r to a Ballance their unprofitable Trade with France.

5th. These Colonies promote the Int: and Trade of Britain by a vast Increase of shipping & Seamen; which enables them to carry great Quantities of Fish to Spain, Portugal, Leghorne & a Furrz Logwood & Rice to Holland where they help Great Britain considerably in the Ballance of Trade with those Countries.

6th. If reasonably encouraged the Colonies are now in a Condition to furnish Britain with as much of the following Commodities as it can demand Viz: Masting for the Navy & all sorts of Timber, Hemp Flax, Pitch, Oyle, Rosin, Copper-Oar, with Pig & Barr-Iron by means whereof the Ballance of Trade to Russia and the Baltick, may be very much reduced in Favour of Great Britain.

7th. The Profits arising to all those Colonies by Trade is returned in Bullion, or other useful Effects to Great Britain where the superfluous Cash and other Riches acquired in America must center; which is not one of the least Securities that Britain has to keep the Colonies always in due Subjection.

8th. The Colonies upon the main are the Granary of America and a necessary support to the Sugar Plantations in the West Indies which could not subsist without them.

By this short View of the Trade in general we may plainly understand that these Colonies can be very beneficially employed, both for Great Britain and themselves without interfering with any of the staple Manufactures in England and considering the Bulk and End of their whole Traffick 'twere pitty that any material Branch of it should be depressed on account of private and particular Interests, which in comparison with these cannot justly be esteemed a National Concern, for if the trade of the Colonies be regulated to the advantage of Britain, there is nothing more certain than that the Discouragement of any substantial Branch for the sake of any Company or private Interest would be a loss to the Nation. But in order to set this point yet in a clearer Light we will proceed to consider some of the most obvious Regulations on the American Trade for rend'ring the Colonies truly serviceable to Great Britain.

1st. That all the Product in the Colonies for which the Manufacture and Trade of Britain has a constant demand be enumerated among the Goods which by Law must be first transported to Britain before they can be carried to any other Market.
24°. That every valuable Merchandize to be found in the English Colonies, and but rarely anywhere else & for which there is a constant demand in Europe shall also be enumerated in order to assist Great Britain in the Ballance of Trade with other Countries

34°. That all kinds of Woolen Manufactures for which the Colonies have a demand shall continue to be brought from Britain only, & Linnen from Great Britain and Ireland.

44°. All other kind of European Commodities to be carry’d to the Colonies (salt excepted) entry thereof first to be made in Britain before they can be transported to any of the English Colonies.

54°. The Colonies to be absolutely restrained in their several Governments, from laying any manner of Duties on Shipping or Trade from Europe or upon European goods transported from one Colony to another.

64°. That the Acts of Parliament relating to the Trade & Government of the Colonies be revised and collected into one distinct Body of Laws, for the use of the Plantations, and such as Trade with them.

Supposing these things to be done, it will evidently follow that the more Extensive the Trade of the Colonies is, the greater will be the advantages accruing to Great Britain therefrom and consequently that the Enlargement of the Colonies, and the encrease of their People would still be an addition to the national strength, all smaller Improvements therefore pretended unto, and sett up by lesser Societies, for private Gain in Great Brittain or elsewhere, althô they might have a just pretence to bring some sort of Publick Benefit along with them, yet if they shall appear to be hurtfull to the much greater and National concern of these Trading usefull Colonies, they ought in justice to the Publick to be neglected in Favour of them: It being an unalterable Maxim, that a lesser publick good must give place to a greater, and that it is of more moment to maintain a greater than a lesser number of subjects well employed to the advantage of any State.

From what has been said of the nature of Colonies and the Restrictions that ought to be laid on their Trade, it is plain that none of the English Plantations in America can with any Reason or good sense pretend to claim an absolute legislative power within themselves; so that lett their several Constitutions be founded on Antient Charters, Royal Patents Custom by prescription, or what other legal authority you please, yet still they cannot be possessed of any rightfull capacity to contradict or evade the true Intent and force of any Act of Parliament wherewith the wisdom of Great Brittain may think fitt to affect them from time to time, and in discoursing on their legislative powers (improperly so called
in a dependent Government) we are to consider them only as so many Corporations at a distance, invested with an ability to make temporary By Laws for themselves agreeable to their respective Situations and Climates, but no ways interfering with the legal Prerogative of the Crown, or the true Legislative Power of the Mother State.

If the Governors and generall assemblies of the several colonies would be pleased to consider themselves in this light, one would think it was impossible they could be so weak to fancy that they represented the King Lords and Commons of Great Britain, within their little districts, and indeed the useless or rather hurtful & inconsistent Constitution of a Negative Council in all the Kings Provincial Governments has it is believed contributed to lead them into this mistake, For so long as the King has reserved to himself his Privy Councell the Consideration of, and a Negative upon all their Laws, the method of appointing a few of the richest and proudest men in a small Colony as an upper house with a negative on the Proceedings of the King's Lieutenant Governor, and the peoples Representatives seems not only to cramp the natural Liberty of the Subject there, but also the Kings just Power and prerogative, for it often happens that very reasonable and good Bills sometimes proposed for the benefit of the Crown by the wisdom of a good Governor and at other times offered by the peoples representatives in behalf of their Constituents have been lost and the enacting of such made impracticable by the obstancy of a majority in the Councell, only because such things did not square with their private particular Interest and Gain or with the views which they form to themselves by assuming an imaginary dignity and rank above all the rest of the Kings Subjects and as to the Security which it is pretended that either the Crown or a Proprietary may have by such a Negative Councell, it is in fact quite otherwise, for that caution would be much better secured if this Councell was only a Councill of State to advise with the Governour & be constant Witnesses of all Publick Transactions, and it cannot be thought that an Officer who is not only under Oaths and Bonds, but answerable by Law for his misdeeds and removable at pleasure, would in the face of Witnesses so appointed contradict a rational advice thereby subjecting himself to Grievous Penalties and Losses, neither is it to be supposed that these men, if they had only the Priviledge of advising, would oppose such good Bills or other reasonable Propositions as they well knew they had no legal power to reject but while they find themselves possess'd of a peremptory Negative without being in any sort accountable for their opinions it is easy to imagine how such a power may be used on many occasions to serve their
private Interest and Views in Trade, as well as to indulge the too natural propensity which mankind have especially abroad, to rule over and oppress their poor Neighbours; besides an Artfull corrupt Governor will find means by Preferments &c: so to influence a negative Counciull, that knowing themselves to be under no Bonds or any other valuable penalty to answer the party aggrieved by their Opinions, they may without risque proceed in such a manner as to screen the Governor in many things which otherwise he would be personally & singly bound to account for in a legal and just way.

If then a Counciull of State only to advise with the Governor shall appear in all Emergencies & Cases, that can be proposed to be equally usefull, and not attended with the Inconsistancies obstructions and disadvantages of a Negative Counciull the one seems to be much preferable to the other and more agreable to the Liberty & just Equality which is established by the Common Law amongst Englishmen and consequently less productive of those Grievances and Complaints which have been so frequent hitherto from the Plantations.

At first View it will appear natural enough for an Englishman who has tasted the sweetness of that freedom which is enjoyed under the happy Constitution of King Lords and Commons in Great Britain, to imagine that a third part should be formed in the little Governments of the Plantations in imitation of the House of Lords. But if we rightly consider it, that part of the Constitution is already most properly and fully supply'd by the Lords of his Majesty's Privy Council. Besides let us suppose that instead of a House of Lords in Britain the like number of select Commoners were invested with a power to sit apart, and to put a Negative upon the proceedings of the House of Commons consisting of three times the number of Persons of equal rank and representing all the Commons of Great Britain in Parliament, the Inconsistency and unreasonableness of the thing does presently obtrude itself upon our minds and yet such is the very case of that Negative which is now practisced by the Councils in America.

Next to the Legislative power we shall proceed to consider the Civil Jurisdiction in the Plantations which by their own Acts is branch'd out into so many different Forms, almost in each Colony that it is scarce practicable to reduce them under such heads in any one discourse as to make it intelligible to those who are altogether unacquainted with American Affairs.

It is generally acknowledged in the Plantations, that the subject is intitled by Birthright unto the benefit of the common Law of England;
But then as the Common Law has been alter'd from time to time and restricted by Statutes it is still a question in many of the American Courts of Judicature, whether any of the English Statutes which do not particularly mention the Plantations, can be of force there until they be brought over by some Act of Assembly in that Colony where they are pleaded, and this creates such confusion that according to the Act or Influence of the Lawyers and Attornies before Judges who by their Education are but indifferently qualified for that service, they sometimes allow the force of particular Statutes, and at other times reject the whole especially if the Bench is inclinable to be partial, which too frequently happens in those new and unsettled Countries, and as Mens Liberties and Properties in any Country chiefly depend upon an Impartial and equal Administration of Justice this is one of the most material Grievances which the Subjects in America have just cause to complain of; But while for the want of Schools and other proper Instruction in the principles of moral virtue, their people are not so well qualified, even to serve upon Juries and much less to Act upon a Bench of Judicature, it seems impracticable to provide a Remedy until a sufficient Revenue be found out amongst them, to support the charge of sending Judges from England to take their Circuits by turns in the several Colonies on the main, which if it be thought worthy of consideration will appear neither to be improper nor impracticable, and until that can be done all other attempts to rectifie their Courts of Law will be fruitless and may be suspended.

Courts of Chancery which are known to be necessary in many cases to correct the Severity of the Common Law, seem to subsist there on a most precarious foot, for it does not appear that there is a proper and legal Authority to hold such a Court in any of the Colonies, nevertheless by Custom everywhere some kind of Chancery is to be found in one Form or other, so that when a Rich man designs to contest anything in Dispute with his poor neighbour, if he can continue to bring him into Chancery he is sure the matter will rarely or never be brought to issue which on many Occasions proves an intolerable Oppression, wherefore it is hoped that so high a Jurisdiction, issuing immediately from the Crown will in due time be put on a more regular and certain Establishment abroad.

A Militia in an Arbitrary & Tyrannical Government, may possibly be of some service to the Governing Power, but we learn from Experience that in a free Country it is of little use. The people in the Plantations are so few in proportion to the lands they possess, that servants being scarce, and slaves so excessively dear, the men are generally under a
necessity there to work hard themselves in order to provide the Common necessaries of Life for their Families, so that they cannot spare a day's time without great loss to their Interest wherefore a Militia there would become more burthensome to the poor people than it can be in any part of Europe. But besides it may be questioned how far it would consist with good Policy to accustom all the able Men in the Colonies to be well exercised in Arms. It seems at present to be more adviseable to keep up a small regular standing Force in each Province which might be readily augmented for a time if occasion did require and thus in case of war or Rebellion the whole of the regular Troops might be without loss of time united or distributed at pleasure, and if as has been said before a suitable Revenew abroad can be raised for the Defence and Support of the Plantations, it would be no difficult matter both to form and execute a proper scheme of this nature.

Land is so plenty, and to be had so very cheap in America that there is no such thing as Tenants to be found in that Country, for every man is a Landlord in Fee of what he possesses and only pays a small Quitt or Ground Rent to the Lord of the Soil, and this makes it impracticable to find an Assembly of such Freeholders in any of the Colonies, who will consent to lay any Tax upon lands, nor indeed is it to be expected they should. Voluntarily agree to raise any Revenue amongst themselves except what is absolutely necessary for erecting and supporting Court Houses, Bridges Highways and other needfull Expenses of their Civil Government which is commonly levied upon Stock an Excise on Foreign Liquors retail’d or a small Poll Tax and the Publick there is generally in debt Because they are extremely jealous of attempts upon their Liberties & apprehensive that if at any time their Publick Treasury was rich, it might prove too great a temptation for an artfull Governor in conjunction with their own Representatives to divide the Spoile and betray them. It must be allow’d that a share of personal Interest or self love, influences in some degree every Man’s affections, and gives a natural Impulse to all our Actions; and tho’ this is most perceptable in Trade or Commercial Affairs, yet there is not any other Transaction in Life that passes without it, and as it is with Men in this case, so we find it has ever been with all States or Bodies Politick so long as they are independent one upon another; The Wisdom of the Crown of Britain therefore by keeping its Colonies in that situation is very much to be applauded, for while they continue so it is morally impossible, that any dangerous Union can be formed amongst them, because their Interests in Trade & all manner of Business being entirely seperated by their Independency; Every advan-
tage that is lost or neglected by one Colony is immediately pick'd up by another; and the Emulation that continually subsists between them in all manner of Intercourse and Traffick is ever productive of Envies Jealousies and Cares how to gain upon each others Conduct in Government or Trade every one thereby endeavouring to magnifie their pretention to the Favour of the Crown, by becoming more usefull than their Neighbours, to the Interest of Great Britain.

But to Render the Colonies still more considerable to Britain and the managem't of their Affairs much more easy to the King & his Ministers at Home, it would be convenient to appoint particular Officers in England only for the Dispatch of Business belonging to the Plantations, for often persons that come from America on purpose either to complain or to support their own just Rights are at a loss how or where to apply; this uncertainty does not only fatigue the Ministers, but frequently terminates in the destruction of the Party, by his being referr'd from Office to Office untill both his money and patience be quite wore out; such things in time may cool peoples affections and give them too mean an opinion of the justice of their Mother Country which ought carefully to be prevented for where there is Liberty the Inhabitants will certainly expect right, and still have an eye towards obtaining it one way or another.

It may be considered therefore how far it would be serviceable to put all the Crown's civil officers in the Plantations of what kind soever under the direction of the Board of Trade, from whom they might receive their several Deputations or appointments and unto whom they ought to be accountable both for their Receipts and Management and if a particular Secretary was appointed for the Plantation affairs only, or if the first Lord Commissioner of that Board was permitted to have daily access to the King in order to receive his Majesty's Commands in all business relating to the Plantations, the subjects application would be reduced into so narrow a compass and the Board of Trade would always be so perfectly acquainted with the Kings pleasure that great dispatch might be given even to those distant matters without taking up too much of the Ministry's time and interfering with other perhaps more important business; The people of the Colonies would be pleased to find themselves thus equally reguarded without giving one any undue preference to another, and all the Rents, Customs Revenues and other Profits in any manner arising from the Plantations would then center in one place where another proper member of the same board might be appointed Treasurer of that particular Revenue, to answer all such orders as should
be issued from time to time for the Plantation service, and as the Revenues from America would in all probability be increasing daily, it may be reasonably expected that the Expence of paying the Board of Trade and other officers wholly employed in Plantation affairs which is now born by the Civil List would then more properly arise and be discharged out of the American Fund and the overplus remaining would in time become a most useful stock for purchasing of proprietary Lands, erecting Forts, and extending the present Settlements as far as the great Lakes or might be applied to such other uses as his Majesty should think proper for that service.

All that has been said with Respect to the improvement of the Plantations will it is supposed signify very little unless a sufficient Revenue can be raised to support the needful Expence, in order to which it is humbly submitted whether the duties of Stamps upon Parchment and Paper in England may not with good reason be extended by act of Parliament to all the American Plantations.

When we do but cast an eye upon the vast Tracts of Land and immense riches which the Spanish Nation have in little more than one Century very oddly acquired in America in so much that the simple Privilege of Trading with them on very high terms too, is become a Prize worth contending for amongst the greatest Powers in Europe surely we must on due Reflection acknowledge that the preservation and Enlargement of the English Settlements in those parts is of the last consequence to the Trade Interest and Strength of Great Britain. And moreover considering how that the last resort of Justice in the Plantations is solely lodg’d in the King’s sacred person with the advisement of his Majesty’s Privy Council Exclusive of Westminster Hall or any other Judicature. The brightening of that Jewel in the Crown may not perhaps be thought unworthy of the present happy reign to which the improvement & future security of so large a part of the British Dominions, the advancement of Trade & universally supporting the glorious cause of Liberty seems to be reserved by the peculiar hand of Providence.

Ever since the year 1679 the importation of Tobacco from North Carolina has been prohibited by Law, and when the whole body of the Laws of this Colony were revised and reenacted the same prohibition was continued by a new act which was granted and approved by your Lordships Board, but that Act being doubtfully penned and seeming only to retain an importation by water (as in truth there could be no other at that time when the frontiers of both Governor's were so little seated and no roads to render land carriage practicable) and the mischiefs increasing greatly within these few years by the number of People that have seated as well within your Bounds in controversy between the two Governors as on the Northern Frontiers of Carolina it has been judged necessary to put a stop to that practice, by the Act passed this Session, ent'an Act for the more effectual preventing the bringing Tobacco from North Carolina and the Bounds in Controversy: the reason of which is set forth in the preamble, that the people of Carolina and of those boundaries being under no regulation in the manner of making and packing their Tobacco do by the importation of trash greatly injure the reputation of the Virgin manufacture, and it is hoped this prohibition will facilitate the determination of the controverted boundaries, and bring the People seated there more easily to submit to the Government of this Colony, since by a proviso in this Act they are to be no longer restrain'd than till the Limits of the two Governments be determined.

Whereas upon Appeals which have been made to us in our Privy Council, in Cases of Error from the Courts in several of our Colonies & Plantations in America, in Civil Causes great Inconveniences have frequently arisen by the immediate issuing of Executions notwithstanding such Appeal unto Us, where the Appeldee has become insolvent or hath withdrawn himself & his Effects from such Colony or Plantation, before our Pleasure could be known on such Appeal & our Orders for reversing the Orders and Decrees appealed from and for making Restitution of the Estates or Effects which have been so levy'd in Execution have been rendered ineffectual, and the Appellant left without any redress; Now for preventing the like Mischief for the future, it is our Will and Pleasure that Execution be suspended until the final Determination of such Appeal unless good & Sufficient Security be given by the Appeldee to make ample Restitution of all that the Appellant shall have lost by means of such Judgement or decree, in case upon the Determination of such Appeal, such Decree or Judgement should be reversed & Restitution awarded to the Appellant.

This day was read at the Board the Petition of the Meherrin Indians shewing that they have lived and Peaceably Enjoyed the said Towne where they now live for such a space of time as they humbly conceive
Entitles them to an Equitable Right in the same that they have not only lived there for many years but long before there were any English Settlements near that place or any notion of Disputes known to them concerning the dividing bounds between this Country and Virginia and have there made large improvements after their manner for the better support and maintenance of themselves and Families by their Lawfull and Peaceable Industry Notwithstanding which Co. Wm Manly and Mr William Gray have lately intruded upon them and have Surveyed their s't Towne and cleared Grounds on pretence that it lye in this Government and that the s't Indians have allways held it as Tributaries to Virginia which is not so praying this Board to take them into their Protection as their faithful and Loyal Tributaries and to secure to them a Right & Property in the said Towne with such a convenient Quantity of Land adjoyning to it to be laid off by meet and Bounds as to them shall seem meet

Then also was Read the Petitions of Sundry Inhabitants Living near the said Indians Shewing That Sundry Familys of the Indians called the Meherrin Indians have lately Encroacht and settled on their Land which they begg leave to Represent with the true accot of those Indians who are not original Inhabitants of any Lands within this Governm't but were formerly called Susquannahs and Lived between Mary Land and Pensilvania and committing several Barbarous Massacres and Outrages there Killing, as tis reported all the English there settled excepting Two Families, they then drew off and fled up to the head of Potomack and there built them a fort being pursued by the Mary Land and Virginia Forces under the Command of One Major Trueman who besieged the fort Eight months but at last in the night broke out thro the main Guard and drew off round the heads of several Rivers and passing them high up came into this country and settled at old Saponie Town upon Maherrin River near where Arthurs Cavenah now lives but being disturbed by the supponic Indians they drew down to Tarrora Creek on the same River where Mr Arthur Allen's Quarters is; afterwards they were drove thence by the Jennetto Indians down to Bennets Creek and settled on a Neck of Land afterwards Called Maherrin Neck because these Indians came down Maherrin River and after that they began to take the name of Maherrin Indians; but being known the English on that side would not suffer them to live there, then they removed over Chowan River and Settled at Mount Pleasant where Capt Downing now live but being very Troublesome there one Lewis Williams drove them higher up and got an order from the Governm't that they should never come on the So. side of Wick-
kacones Creek and they settled at Catherines Creek a place since called Little Towne but they being still Mischievous by order of the Government Coll Pollock brought in the Chief of them before the Gov't & Council and they were then ordered by the Governm't never to appear on the south side of Maherrin They then pitched at the mouth of Maherrin River or the North side called old Maherrin Town where they afterwards remained tho they were never receivd or became Tributaries of this Governm't nor ever assisted the English in their wars against the Indians but were on the contrary very much suspected to have assisted the Tuskarooros at the massacre The Baron De Graffen Reed offering his Oath that one Nick Major in Particular being one of the present Maherrin Indians Satt with the Tuskarooros at his Tryall and was among them when Mr Lawson the Survey' Gen'l was killed by them So that these Maherrins were not originally of this Country but Enemies to the English every where behaving themselves Turbulently and never lookt on as true men or friends to the English nor ever paid due acknowledgement to this Government Some years agoe Col' Maule the Survey' Gen'l obtained an Order to Survey the Lands at old Maherrin Towne which was accordingly done and Pattented afterwards since that they have paid Tribute to this Governm't and have been allowed by the Governm't to remain on those Lands but since that a great sickness coming among them swept off the most of them and those that remained moved off those Lands at Maherrin Towne and Sundry of them have lately seated and Encroached on your Petitioners Lands some miles higher up the River, destroyed their Timber & Stocks and hindering them from Improving their Lands they being unwilling themselves forcibly to remove the sd Indians least some disorders might arise thereon; praying an order to the Provost Marshall That if the sd Indians do not remove off in some convenient time they may be compelled thereto &c

Whereupon by the consent of both parties It is ordered in Council That the Survey' Gen'l or his Deputy do lay out unto the said Indians a certain parcell of Land lying between Maherrin River and Blackwater River Running three miles up Blackwater River and then a Straight Line to such a part of Maherrin River as shall be Two miles from the mouth thereof and if the same line shall leave out the settlement of Capt Roger a Maherrin Indian that then the Survey' Gen'l do lay out a Tract of 150 acres the most convenient to his Dwelling Which Land when Surveyed the survey' is to make return thereof into the Sectys Office that Grants may pass for the same to the said Indians It is further Ordered by this Board that the sd Indians shall Quietly hold the sd Lands
without any molestation or disturbance of any Persons claiming the same so as the same Persons Right or pretentions to the n Lands be Reserved into them whereby they or those claiming under them shall have the preference of taking up the same when the said Indians shall desart or remove therefrom

Proposals for Determining the Controversy relating to the bounds between the Governments of Virginia and North Carolina most humbly Offered for His Majesties Royall Approbation and for the Consent of the R: Honoured the Lords Proprietors of Carolina

Forasmuch as the disputes between the 2d Two Governments about their true Limits continue still notwithstanding the several meetings of the Commissioners And all the proceedings of many years past in order to adjust that affair and seeing no Speedy Determination like to Ensue unless some medium be found out in which both parties may Incline to acquiesce Wherefore both the underwritten Governours having met and considered the prejudice done both to the Kings and the Lords Proprietors Interests by the Continuance of this Contest and truly endeavouring at a Dissolution which they Judge comes nearest to the Intentions of the Royall Charter Granted to the Lords Proprietors Do with the advice and Consent of their Respective Councils propose as followeth

That from the mouth of Currituck river or Inlet and setting the Compass on the North shore thereof a due West Line be run and fairly marked and if it happen to cut Chowan River between the mouths of Nottoway River and Wiccon Creek then shall the same Course be continued towards the mountains and be ever deemed the dividing Line between Virginia & Carolina

That if the said west Line Cuts Chowan River to the southward of Wiccon Creek then from that point of Intersections the bounds shall be allowed to continue up the middle of said Chowan River to the middle of the Entrance of into the s: Wiccon Creek and from thence a due west Line shall divide the said Two Governments.

That if the said west Line Cuts Black water River Then from that point of Intersection the bounds shall be allowed to continue down the Middle of the said Black water River to the middle of the Entrance unto the said Nottoway River and from thence a Due West Line shall divide the said Two Governments.

That if a due west line shall be found to pass thro Islands or to cut out small slips of Land which might much more Conveniently be included in the one Province or the other by Natural Bounds in such case the persons appointed for running the Line shall have power to settle natural bounds provided the Commissors of both sides agree thereto and that all such variations from the West Line be punctually noted in the Maps on plats which they shall return to be put upon the Records of both Governments.

All which is humbly submitted by

[HEMING'S VA. STATUTES AT LARGE, VOL. 4. P. 175.]

AN ACT FOR THE MORE EFFECTUAL PREVENTING THE BRINGING TOBACCO FROM NORTH CAROLINA, AND THE BOUNDS IN CONTROVERSY.

I. Whereas, the act of the general Assembly now in force, doth not effectually prevent the bringing in tobacco from North Carolina: And Whereas, since the making of said act, great numbers of people have, contrary to the repeated orders of this government, seated themselves on the lands between Wiccon Creek and the line run from the mouth of Nottoway River, to describe the boundaries in controversy between this colony and the said province; and are there encouraged and protected, under pretence of being under the government of North Carolina, contrary to the agreement with that government that the said tract should remain unseated until the bounds should be determined: Which persons so seated, as aforesaid, as well as those inhabiting within the province of North Carolina, being under no regulation in the manner of making and packing their tobacco, do notwithstanding make and transport into this colony, for trade and sale, great quantities of tobacco, deceitfully packed, and unfit for exportation, and yet pass the same as tobacco of the growth and manufacture of Virginia, to the great deceit of honest traders, and the deprecating the staple commodity of this country: For remedy whereof,
II. Be it enacted, by the Lieutenant Governor, Council and Burgesses, of this present General Assembly, and it is hereby enacted by the authority of the same, That whoever shall bring into this colony, any hogshead, barrel, or other parcel of tobacco from North Carolina, or from any place within that tract, commonly know by the name of the controverted bounds, by land or water; or whoever shall sell, buy, or receive, any such tobacco, knowing the same to be brought from thence, shall, for every such hogshead, barrel, or other parcel, so brought in, sold, bought, or received, forfeit and pay the sum of ten pounds current money of Virginia: To be recovered with costs of suit in any court of record within this colony and dominion, by bill, plaint, or information: The one half of which penalty shall be to our sovereign lord the King, his heirs and successors, for and towards the support of this government, and the contingent charges thereof; and the other half to the informer.

III. And be it further enacted by the authority aforesaid, That when, contrary to this act, or any other act of assembly, any tobacco shall be brought or imported into this colony, it shall be lawful for the sheriff, or the constable of such county where such tobacco shall be, to seize the same: And after such seizure, upon information thereof made to the court of the county, by the officer making the seizure, the said court is hereby empowered and required to order such tobacco to be sold publicly; and the one half of the money accruing on such sale, after all charges deducted, shall be to our sovereign lord the King, for the uses aforesaid, and the other half to the officer making seizure.

[LETTER FROM M' FITZWILLIAM SURVEYOR GEN' OF THE CUSTOMS, DATED DECEM' 28th 1727 RELATING TO AN ACT PASSED AT PENNSYLVANIA FOR ESTABLISHING COURTS OF JUDICATURE, AND ANOTHER PASSED IN VIRGINIA TO PREVENT BRINGING TOBACCO FROM CAROLINA INTO THAT COLONY.

My Lords,

In the Assembly held in Virginia in May 1726 A Bill was prepared by the House of Burgesses and sent up to the Council Entituled. An
Act for the more effectual preventing the bringing Tobacco from North Carolina, and the bounds in Controversy, whereby all tobacco imported by land or water from that Province, is declared to be forfeited, and a penalty also laid upon the Importers. Upon the reading of this Bill I excepted against it, and at its passing, thought it my Duty as a Member of the Council to enter my Dissent, and to offer my reasons, which your Lordsps will find in the Journal of that Assembly the 24th of May; to which I have this further to add; that the restraining the people of North Carolina from selling or shipping off their Tobacco in Virginia, when they have neither shipping of their own, nor Ports to receive them must of consequence force them upon Manufactures of Cloathing for themselves since they are thus prevented of all Supplies by the produce of their Labour: and thus by a Partial Restraint of Trade from one part of his Majesty's Dominions to another, his Majesty's Customs are lessened, the consumption of British manufactures diminished, and instead thereof a Country which begins to grow Numerous laid under the necessity of falling into manufactures of their own: for it is impossible to imagine that a number of people should continue long under the want of necessary Cloathing, without exerting their Industry, especially when the Country they inhabit is capable of furnishing them with materials. This I humbly offer to your Lordships consideration as my Sentiments of the two Acts above mentioned; hoping I shall not offend yo' Lordsps by taking upon me to trouble you with what particularly concerns that part of the Trade and Navigation of Great Britain, which is put under my inspection within the Southern Provinces of this Continent: And tho' my Office obliges me more particularly to correspond with the Commissioners of his Majestys Customs, yet I know none more proper than your Lordsps Board, to whom I can apply for checking the irregular proceedings of these Plantation Assemblies when they take upon them to Enact Laws in Contradiction to these, which the Wisdom of Parliament has thought necessary they should be governed by.

If your Lordships think fit to allow me the liberty of laying before you from time to time, whatever of the like kind comes to my knowledge in the course of my Survey I shall be proud to Receive your Lordships Commands but if not, you will have the Goodness to pardon this trouble, which I have not presumed to offer but with a just regard to the Duty of my Office, and that particular Respect with which I am

My Lords

Your Lordships
Most obedient, and most humble Servant

R FITZWILLIAM.

To the Right Hon. the Lords of the Committee of his Majesties most Hon. Privy Council

The Memorial of the Proprietors of Carolina whose Names are hereunto Subscribed

Humbly Sheweth

That your Memorialists lately presented a petition to his Majestic humbly proposing to Surrender their respective Intire Property in the province of Carolina upon the Condition therein mentioned and considering that there are great arrears of Quit Rents &c. due from the Inhabitants of that province the Collecting of which in case his Majestic should be pleased to accept of the proposal might not only be difficult for your Memorialists but also occasion great uneasiness to the people.

Your Memorialists have hereunto annexed an Estimate of the said Arrears together with an Account of the Claims of their Officers and others which regularly ought to be answered out of the 5th Arrears.

In laying this Estimate and account before Your Lordships Your Memorialists humbly beg leave to observe that for want of a proper Register they cannot offer it as an exact account of their arrears judging upon a strict enquiry Much more will be found due to them, yet it is drawn according to the best calculation they have been able to make under the long destructed state of affairs in Carolina whereby it appears there is upon a modest computation £9500 due as arrears of quit rents &c. and only £7827. 7. 1 claimed by their Officers and others

Therefore in order to Render everything as easy as possible Your Memorialists humbly propose that in case your Lordships shall think proper to advise his Majestic to accept the Surrender of their respective property in the province of Carolina, your Lordships will also recommend it to his Majestic that he will be graciously pleased to cause the additional sum of £500 to be paid to your Memorialists in consideration of which sum they are willing to Surrender and make over to his Majestic the right and title to all arrears and demands whatsoever which they ever had or can have upon the Inhabitants of South and North Carolina and to discharge all their debts

And your Memorialists do further most Humbly beg leave to represent to your Lordship that they humbly hope your Lordship will recom-
mend it to his Majestie that he will be graciously pleased to fix such a time as in his great wisdom and Goodness he shall think most proper for the Execution of the Surrender and payment of the money in order to prevent the great damage which a long suspense in this affair may occasion to the Inhabitants and the Province of Carolina in General as well as to your Memorialists in particular who would be ready and willing to close with some of the proposals which have been made to them for the better setting the province, which they would not presume to engage in till his Majesties Royal pleasure is known.

All which is humbly submitted

There have been no account settled between the Proprietors and their Receivers for above ten years before the year 1719 from whence they now date the Estimate of their Arrears and it is adjudged if those those Accounts were regularly adjusted, there would be at least £6000 more due to the Proprietors.

It will also be necessary to observe that about the sum of £10000 sterling per annum is raised in South Carolina by duties upon land Negroes and other Commodities appropriated for defraying the Expenes of the Government which does not regularly amount to half that sum so that if it were duly collected and applyd it would not only supply what is necessary for the support of the Government but also afford an overplus for the general Improvement of the province.

A JOURNAL OF THE PROCEEDINGS OF THE COMISS* FOR RUNNING THE LINE BETWIXT CAROLINA AND VIRGINIA

The Boundaries betwixt the Two Governments having been long contested it being uncertain what was meant by Curatuck River or Gullet in the Kings charter and more disputed which was Wyanoke Creek The line being to begin at the North End of Curatuck river or Gullet but there was no River known by that name Curatuck being a large Bay Extending Northerly and Southerly of the Inlet and the North End of it above a Dozen miles to the Northward of the Inlet where the Line ought to have begun if by the river or Gullet was meant the Bay but that not having been duly insisted on, The Inlet in time began to be
Reputed the Bounds and the Northwest River and Channell up to it was acquiesced in as natural bounds which left all Notts Island in Virginia to the southward of the Inlet, But the Governor of Virginia afterwards granted Patents to the southward of the said River where they thought it to the northward of a west line from the Inlett Viz' towards the head of the River up to the Dismall or the great Percosan on the westerly of which Pacosan the bounds remained unfixed and great Debates were about Wyanoke Creek to which the line was to Run the Groverm' of Virginia pretending it was a Creek since called Wiccons and Carolina Claiming to be a place called Nottoway Commissioners were appointed by both Governments to settle the matter and Depositions taken on both sides concerning the Wyanoke Indians who at Different times lived at both places but no satisfaction being that way obtained and the observations made to find the Latitude differing as widely The Verg' Comiss' making the Latitude of Wiccons to be in 36° 40' and Nottaway to be 37° or 37 10' this Egregious Error (as since it is Demonstrated to be) broke off the conference not without some warmth and undue Reflections made on it by Virginia And sometime after the Two Governors Viz Coll Spotswood L' Gov' of Virginia and Coll Eden Governor of Carolina had an Interview upon it meeting at Nansemond and agreed on certain Proposals about the Boundaries which was Interchangeably signed and submitted to his Majesty for His Royall approbation and the True and Absolute Lords Proprietors for their assent which being duly considered of by the Lords Proprietors was approved and orders sent over by them in the year 1723 to the Governor of Carolina to proceed and run the line pursuant to the said Proposals of which Notice being given to the Governm' of Virginia They returned for answer That they had not receiv'd the Kings Instructions about it and so the matter rested till the year 1727 when the Honorable Sir Richard Everard Bar' Gov' of Carolina receiv'd a Letter from the Gov' of Virginia acquainting him that he had receiv'd orders from the King to have the line run betwixt the Two Governments and had appointed Coll Byrd and Colonell Harrison Comiss' on the part of Virginia to Joyn with Comiss' to be appointed by Carolina desiring a time might be prefixed agreeable to both sides and Induced a Copy of the Proposals agreed to betwixt the two Governors & His Majesties approbation and orders ther'on in Council as followeth viz'

PROPOSALS FOR DETERMINING THE CONTROVERSY RELATING TO THE
BOUNDS BETWEEN THE GOVERNMENTS OF VERGINIA AND NORTH
CAROLINA MOST HUMBLY OFFERED FOR HIS MAJESTY ROYALL
APPROBATION AND FOR THE CONSENT OF THE RT HONORLE LORDS
PROPRIETORS OF CAROLINA

Forasmuch as the dispute between the s^th Two Governments about
their true limits continue still notwithstanding the several meeting of the
ComissI^ and all the proceedigs of many years past in order to adjust that
affair and seeing no speedy determinations like to Ensue unless some
medium be found out in which both parties may incline to acquiesse
Wherefore both the underwritten Governors having met and considered
the Prejudice done both to the King and the Lords Proprietors Interest
by the continuance of this Contest and truly endeavouring at a Decission
which they Judge comes nearest the Intentions of the Royall Charter
granted to the Lords Proprietors Do with the advice and consent of their
respective Councils propose as followeth.

That from the mouth of Curratuck River or Inlett and setting the
Compass on the North shore thereof a due west Line be run and fairly
marked & if it happen to cut Chowan River between the mouthis of
Nottoway and Wiccon Creek then shall the same direct course be con-
tinued towards the Mountains and be ever deemed the dividing line
between Veriginia and Carolina.

That if the s^th west line cutts Chowan River to the southward of Wiccon
Creek then from that point of Intersection the Bounds shall be allowed
to continue up the middle of s^th Chowan River to the middle of the
Entrance of unto the s^th Wiccon Creek and from thence a due west Line
shall divide the Two Governments.

That if the said west Line cutts Blackwater River to the Northward
of Nottoway River then from that point of Intersections the bounds
shall be allowed to continue downe the middle of the s^th Blackwater River
to the middle of the Entrance into the s^th Nottoway River and from thence
a due west Line shall divide the said Two Governments.

That if a due west Line shall be found to pass thro Islands or to cutt
out small slips of Land which might much more conveniently be included
in the one Province or other by natural water bounds In such case the
Persons appointed for running the Line shall have power to settle na-
tural bounds Provided the Comiss^ of both sides agree thereto and that
all Variations from the west Line be punctually noted in the maps and
Platts which they shall return to be put upon the record of both Governments all which is humbly submitted by

The Governor of Carolina on the receipt hereof was pleased to Nominate Christopher Gale Esq' Chief Justice John Lovick Esq' Secretary Edward Moseley Esq' Surveyr Genr and William Little Esq' Recr General to be Comissr on the part and in behalf of this Government of North Carolina and on the sixth day of December returned an answer to the Governor of Virginias Letter acquainting him who he had appointed Comissr on the part of Carolina And that it was desired there might be a previous Conference between the Comissrs at such time and place as the Virginia Comissr would appoint to meet to fix the method of proceeding to agree in their Instruments and to remove any obstacles or disputes that might Retard the matter or create any Difficulties To which Governor Returned the following answer

WILLIAMSBURG Decem' 15 1727

I should have sooner dispatched your messenger and acknowledged the favour of yours of the sixth Instant had not the Court of Oyer and Terminer which met on monday last prevented till yesterday the meeting of the Council to whom I found it necessary to communicate the proposals you was pleased to mention In answer to which I am now to tell you that we dont think a previous Conference needfull since the proposals for determining the Boundaries approved by his Majesty and agreed to by the Lords Prop* as so plain as to admit of no grounds for dispute nor the Comissrs* any room for altering the rules therein prescribed but it is agreed that whatsoever shall be necessary for Enabling the comissrs* to proceed on their business may be concerted by Letters to which purpose Your Comissrs* will Recieve by this conveyance from Ours what they Judge fit to be agreed upon for the better carrying on the Service. The Death of Coll Harrison has occasioned a new nomination to supply his place so that I have appointed Richard Fitzwilliams and William Dandridge Esq* Joyntly with Coll Boyd to be Comissrs* on the part of this Government and its agreed that they shall be ready at the mouth of Currituck Inlet on the fifth day of March next which I hope will suit the convenience of your Comissrs* being as early as the season of the year will admitt I have only to add my wishes for a happy Issue to this controversy to the mutual satisfaction of both Governments and am with great truth Sir Richards most faithfull & most humble Servr

Gent

We are sorry we cant have the pleasure of meeting you in Jan° next as it is desired by your Governors Letter The season of the year in which that is proposed to be done and the distance of our habitations from your Frontiers will make our Excuse Reasonable besides his Majesties orders mark out our business so plainly that we are persuaded there can be no difficulty about the construction of it, after this what imaginable dispute can arise among Gent who meet together with minds averse to chicanes and with Inclinations to do equal Justice both to his Majestys and the Lords Proprietors in which dispositions we no doubt comiss° on each side will find one another We are fully Impowered to agree at our first Meeting on what preliminaries shall be thought necessary which we hope you will likewise be, that an affair of so Great consequence may meet with no Delay or disappointm° We think it very proper to acquaint you in what manner we intend to come provided, that so you being appointed in the same station, may if you please do the same Hon° to your Country We shall bring with us about Twenty men furnished with Thirty days provision we shall have with us a Tent and Marqués for the convenience of ourselves and our Servants. We bring as much wine and rum as will enable us and our men to drink every night to the good Success of the following day And because we understand there are many Gentiles on the frontier who never had opportunity of being Baptized we shall have a Chaplain w° us to make them Christians, for this purpose we intend to rest in our Camp every Sunday that their may be Leisure for so good a work and whoever in that Neighbourhood is desirous of Novelty may come and hear a sermon Of this you may please to Give publick notice that the Charitable intentions of this Governm° may meet with the happyer Success Thus much Gent we thought it necessary to acquaint you with and to make use of this first opportunity to signify with how much satisfaction we receed the News of your being appointed Comiss° for that Government with whom we promise ourselves that we shall converse with a great deal of Pleasure and execute our comissions to the full content of those by whom we have the Hon° to be Employed. Upon receipt of these Letters the thoughts of any conference was dropt which was desired principally to have concerted some way that People might not Loose their Lands by falling in a Different Government from that they had gotten Patents in it being taken for granted in Verg° that the Line would take in a great deal of Carolina unto Verginia and credibly reported that several Entries were made there of Peoples Lands in Carolina when they should fall into Verginia to obviate which if it should happen so and to have their Sentiments and resolutions upon it before hand in case the contrary should happen The Gov° of Carolina at the request of the Comissioners wrote to the Gov° of Verginia the following Letter in January

Sir,

Your favour of the 15 of December I receed not till since Christmas you think the proposalls agreed to already so plain and full as to need no previous Conference only what may be managed by Letter And tho I think the proposalls plain yet it was impossible to provide in every point I thou't it better previously to concert the manner of proceeding As I am extremely desirous the work should be Executed so I would gladly have all obstacles removed but as I am informed the Comiss° on your side will come Sufficently impowred to agree at their first meeting on such Preliminaries as will be necessary so I shall take care to give Instructions as full By this occasion the Gent appointed for this Government will write to your Comiss° so I shall need say the less but there is one thing I cannot in Justice omit mentioning to you I am told several People have been Endeavouring to Enter Lands already seated by Verginia Patents if they should fall with in this Government and on the other hand the like attempts made there but as it is a thing against all Justice that People should be turned out of their houses and Lands for falling unexpectedly on one side of the Line or other without any preference to them I doubt not a Gent so disinterested and of so much candour & Justice will agree with me before hand to settle that point and not leave it to the poor People afterwards to seek redress against such Exhorbitant attempts. I therefore beg the favour of your answer fully and plainly to it by this Messenger, for my part I have heard what pretences may be made about it but I think a matter so manifestly against right and comm° Justice cannot be Palliated by any pretences and therefore am so urgent now in time to prevent what may Else occasion so great Disputes afterwards and doubt not you will concur with me in my Sentiments so that this may be a final End to all disputes about our boundaries both to the
Publick and private Persons which I shall think myself happy in Compleating and Doubt not that you have the same Just Desire & therefore think we Cant disagree in it and hope we shall always have a perfect harmony and good understanding I shall with the greatest pleasure Embrace all opportunity to Cultivate and maintain it I am &c

At the same time the Comiss* of Carolina wrote to the Comiss* of Vir-gin* the following Letter viz

Gent,

We have the hono' of your favour from Williamsburg the 16. Dec' in which you signify the proposalls agreed to are so plain that you are persuaded there can be no Difficulties arise about the construction of them we think so too if no disputes should arise in construing them yet the manner of our Proceeding in the Executing them we thought had better been previously concerted and the end of the meeting we proposed was to remove every thing that might lay in the way to retard the work which we seem all Equally Desirous to have amicably Concluded. We assure you Gent we shall meet you with a heartyDisposition of doing equal Justice to either Government and as you acquaint us you shall come fully Impowered to agree at Our first meeting to settle all necessary preliminaries we shall endeavour to have Our Instructions as Large Your Governor in his Last L* to Ours was pleased to mention our conferring with you by Letter any matter previously to be adjusted We therefore take Leave to desire you will by this Messenger let us know after what manner you propose to run the Line wither you think to go thro' the Dismall which is near 30 miles thro' and thought not passable or by taking the Lattitude at the first station to run a due West Line to the Swamp and to find the same Latt* on the West side of the Swamp and to continue a Due west Line to Chowan River or to make the second observation on Chowan River and run a due East Line to the great Swamp. We shall also be glad to know what Instruments you intend to use to observe the Lattitude and find the Variation of the Compass with in order to fix a due west Line for we are told the Last time the Comiss* met their Instruments varied several minutes which we hope will not happen again nor any other Difficulty that may occasion any Disappointment or delay after we have been at the trouble of meeting in so remote a place and with such attendance and equipage as you Inform us you intend on your parts, tho' we are at a Loss Gent whether to thank you for the particulars you give us of your Tent Stores and the manner you design to meet us, Had you

93
been Silent about it we had not wanted an Excuse for not meeting you in the same manner but now you force us to Expose the nakedness of our Country and to tell you we cant possibly meet you in the manner our great respect to you would make us glad to do whom we are not Emulous of outdoing unless in Care & Diligence in the affair we come to meet you about So all we can answer to that article is that we will Endeavour to provide as well as the Circumstances of things will admit us and what we may want in necessaries we hope will be made up in the Spiritual Comfort we expect from your Chaplai of whom we shall give notice as you desire to all Lovers of Novelty and doubt not of a great many Boundary Christians. To conclude Gent we promise you to make Ourselves as agreeable to you as possibly we can and we beg Leave to assure you that it is a singular Pleasure to us that you are named on that part to see this business of so great concern & Consequence to both Governments Determined which makes it to be undertaken on our part more cheerfully being assured Gent your Characters are above any artifice or design

In this Letter the Commise™ of Carolina tooke care to mention the allowance for the Variations of the Compass as a thing taken for granted and not Disputable tho it was much feared it would be and was one Reason for desiring the previous conferance to agree about, without which the Line would have run to the Southward of a due west Line and so to the Loss of Carolina and was a point of Two much consequence to leave wholly till the Comiss™ met on the Spot and this Letter had its desired Effect for it brought on the matter to be debated by the Govern™ of Verginia and finding Carolina to take it as not disputable they thought it too unreasonable to deny and ordered the Comission to be made accordingly as will be seen in their Commission Sometime after the Gov™ of Verginia wrote to Sir Richard Everard the following Letter viz:

WILLIAMSBURG Janry 22d 1726

Sir

I recev last night by the hands of your Messenger the favour of one of yours without date containing a proposall which seems to Import an Implicit Confirmation of all the Possessions in the controverted bounds without allowing time for Examining the Title by which they are held
This is a thing never before moved in all the negotiations between the Two Governments concerning the Boundaries Wherefore you will not think it strange if I take time to consider of a Project so new and unexpected for what ever compassion may be due to the poor People who have ignorantly taken up Lands in those parts you will no Doubt allow there is a Justice due to the King which I cannot without his Majesties Leave give up And I believe it will be found necessary to distinguish between the People that have unwarily been Led into a mistake and others who in contempt of Authority have taken possession of Lands to which they never had any pretence of Right but all these pretensions of the present Possessors will be best determined in the natural order in which they ought to come under Consideration that is first by settling the Boundaries that it may be known to which Province the Lands belong and then it will be proper to consider the Equity of the People in Possession who I hope have no Reason to Doubt the Justice of either Governm' whatever those pretences are which you say may be sett up against coron Right and Natural Equity for I am well satisfied no such pretences will have any Countenance here Indeed when I consider the Solemn Engagements of both Govermn's that no Lands should be granted within the Controverted bounds until the final determination thereof and observe how strict the orders of this Governm' have been in that point I cannot without Laying a heavy Imputation on North Carolina (which I am unwilling to do) Suppose there are in those bounds any number of People in the Circumstance you represent. However it seems to me a preposterous undertaking for you and I to busy ourselves in the dissension of a matter which perhaps may never come in Question at least appear very uncertain until the Comis's have made there report and for my owne part I freely declare I am not for taking a trouble upon me untill I see it necessary for a publick good and I'm apt to think you will upon further Consideration incline to the same opinion To conclude Sir, Lett us give all the Dispatch we can to what our Superiors had recommended to us, the settling the boundaries which is of Publick concern and I hope we shall not then disagree about private Interests Such a regularity in our proceedings without suffering private concerns to mix with or obstruct the publick utility will be the surest means to preserve a perfect Harmony between the Two Governments to which I shall be always ready to contribute my best Endeavours and more particularly to give you proof of the respect with which I am

Your Most Obed' &c

WILLIAM GOOCH.
This Letter from the Governor of Virginia shewed how ill the proposal was relished there and tho the Charge in it might be easily obviated and the Letter retorted since the pretended agreement which is called the Solemn Engagement of both Governments was so long ago that both sides had gone from it. The officers here declaring Virginia had first broken through it and tho the Letter would put off the matter by not mixing private concerns with publick as its Term as tho that was not a publick thing too, yet it was plain that the Justice due to the King as its called, was the point fixed on that is, if it fall into Virginia it was the King's Land and still at his Disposall and it was plainly seen to be in vain to insist further on it and the time for the Comisco* meeting drawing nigh there was no room for any further conference till they meet who revis'd too at this time a Letter from the Commissioners of Virginia of a Different Strain in very obdlying terms as to the business proposing in it if the Dismal could not be passed thro to make a traverse round but submitted it and that they designed to take the Variation of the Compass from the North Starr and giving assuring of a good harmony and perfect agreement & concluded with a great deal of good humour and Complaisance but what was most satisfactory was to find they seemed to have given up the point of the Variation willing to allow it so all things was prepared for the progress. And the following commission and Instructions was given by the Govt. of Carolina to the Commissioners Vizt.

NORTH CAROLINA—68.

Sir Richard Everard Bar* Governor Captain General Admiral and Comander in Chief of 8* Province
To Christopher Gale Esq' Chief Justice John Lovick Esq' Secretary Edward Moseley Esq'
Sur General and William Little Esq' Attorney General

Greeting

Whereas many differences have formerly been between the Inhabitants of this Province and those of his Majesties Colony of Virginia concerning the Boundaries and Limits between the said Two Governments which having been duly considered by Charles Eden Esq' late Governor of this Province and Alexander Spotswood Esq' late Govt of Virginia they agreed to certain proposals for determining the said controversy and humbly offered the same for his Majesties Royall approbation and the consent of the true and absolute Lords Proprietors of Carolina and his Majesty having been pleased to signify his Royall approbation of those proposals (Consented to by the true and Absolute Lords Proprietors of Carolina) and given directions for adjusting and settling the said Boundaries as near as may be to the said proposals.
I therefore reposing special Trust and Confidence in you the said Christopher Gale John Lovick Edward Moseley, and William Little Do by and with the advice and consent of the Council of this Province authorize and appoint you the said Christopher Gale John Lovick Edward Moseley & William Little to be Comiss’ on the part of the True and absolute Lords Proprietors of Carolina And that you in Conjunction such Comiss’ as shall be nominated for Virginia use your utmost Endeavours and take all necessary care in adjusting and settling the said Boundaries by drawing such a Distinct Line or Lines of Division between the said Two Provinces as near as reasonably you can to the said Proposals made by the Two former Governors and the Instructions here-with given you

Given at the Council Chamber in Edenton under my hand and the Seal of the Colony this 21st day of February Anno Dom 1727. And in the first year of the reign of King George the Second

Signed RICHARD EVERARD

NORTH CAROLINA—ss.

"Sir Richard Everard Bar’ Governor Cap’ General Admiral and Com-
” ander in Chief of the s’ Province

Instructions to Christopher Gale Esq’ Chief Justice John Lovick Esq’
Secretary Edward Moseley Esq’ Survey’ Gen’ and William Little Esq’ Attorney General Commissioners for settling the Bounds and Running the Line between this Government and the Colony of Virginia.

Gentlemen

1st You herewith receive a Comission for Settling the Boundaries and running the Line line betwixt this Government and Virginia in conjuction w’th the Comiss’ appointed in behalf of that Government & for your Direction therein I have Ordered to be delivered you a Copy of the proposals agreed on between the Two Governm’ which having passed the Royall approbation and had the consent of the True and absolute Lords Proprietors of Carolina you are strictly to Regard & pursue

2nd For your assistance in Executing y’ Comission you are to take with you such Surveyers and other assistance as you shall think necessary.
3rd You are to take particular care that the Instruments to be used on the part of this Government as well as those on the part of Virginia are correct and fit for the service and particularly you are to be very careful that the Compass to be used for running the due west Line have no Variation but if on Tryall thereof the same shall be found to have Variation you are then to have the same Rectified and allowance to be made for the Variation so that a due west Line may be Run & Marked

4th If on Tryall there shall appear to be any Variation in the Compass and the Comiss' on the part of Virginia Refuse to make due allowance for the same so that it shall appear to you the division line to be run thereby will not be a due West Line in such case you are to show to the Comiss' on the part of Virginia your Dissent to such Proceedings and having protested against the same in Form (which you are hereby required to Do and to Deliver a Copy thereof unto them) you are thereupon to forbear acting any further in Concert with the said Comiss' and to make a very Early Report to me of such your Dissent and Protestation and if any other Differences should arise that you cannot accommodate you are also to shew your Dissent by Protest ing and giving a Copy thereof to the Comiss' on the other parte and to enter the same on your Journals and acquaint me as soon as may be therewith.

5th It is certain that in the way a due west Line from the first station there is a very large Swamp Judged to be Thirty miles wide and not to be passed without the utmost Difficulty and very great expence It is left to you to concert with the Virginia Comiss' the most proper measures to run the due west Line through that swamp if it shall be Judged practicable or otherwise having found the Latitude of the first station you are afterwards to find the same Lat on the west side of the swamp and from thence to continue a due west Line or after such other manner as shall be agreed on by you and the Virginia Comiss'.

6th The council having agreed that a handsome allowance should be made the Comiss' for their Trouble and Defraying the necessary charges and that I should give orders to the Receiver General for such sums of money as shall be necessary to defray the Charges & for your owne Trouble the same allowance that is made by the Gov' of Virginia to their Comiss' which the Receiver General is hereby directed to pay accordingly.

7th You are to keep an exact Diary or Journal of all your proceedings in the Execution of your Comission which you are to lay before me and the Council with all convenient speed that the same may be Transmitted to the True & absolute Lords Prop' of Carolina
Whereas upon your running the Line it may happen that Lands taken up in Virginia may fall into this Government and Lands taken up here may fall within that Government and the Governor of Virginia not having consented previously to settle that Point so as private properties may not be Effected by Running the Line your are not only to make a plann or Draught of the Boundaries settled but you are particularly to take an acco of all Lands Surveyed and taken up by any under the Government of Virginia that shall fall within this Government and not to suffer any new Entries to be made on such Lands till the matter shall be laid before me in Council or in case you shall find the Commissioners for Virginia Impowered to settle that matter then you are likewise Authorized so to do and are hereby Impowered to Directed to adjust settle & agree with the Comiss of Virginia in the best method you can that no private property be affected by settling the Boundaries but that their Rights remain good let them fall on the one side of the line or the other.

This affair of so great consequence to both Governments I have thought fit (with the advice of the Council) to Entrust you with in the most full and ample manner and as you are all of you Gentlemen that the Lords Proprietors have thought proper to be Entrusted with their imediate Comission for Executing several offices of the greatest concern to them and their province I doubt not but you will have a just regard to their Interest and that the Division Line may be truly made out conformable to proposals herewith delivered on the part of both Governments I shall therefore Refering myself to them have no further necessity to Enlarge to you on this occasion but to leave this affair wholly to you in the most ample manner it can be as it is by your Comission and these Instructions Declared to be done and the said proposals agreed on altho the same should Require more full authority then is herein expressed.

Given under my hand and the seal of the Colony at Edenton the 28th day of February 1727

RICHARD EVERARD

On the last of February the Comiss set off and met the Virginia Comiss at Currituck the fifth day of March at the Inlet but some being prevented by the Weather nothing was done that day but at night the Variation was taken by the North Starr Vizt when the North Starr and 4th in the great Bear come on the meridian together or on a perpendicular
which was done by a Line hanging Perpendicular at the end of a Pole and a moveable Light at some distance on the ground to range at at the same time in the line and afterwards that light remaining fixed and the perpendicular line set by the compass and the Variance of that from the Needle is the Variation which was found about 3° and the Sun's amplitude the next morning made it much the same and so again when the north Star was observed the second night so that was agreed on to be the Variation of the Compass the Latitude too was observed and found to be about 36° and 31°.

There was also a Debate at this conference about the first Station to Sett off at, the place being a Little altered since the proposals were made So Depositions were taken of the neighbouring People. Thursday March 7—A Cedar post was fixed in the sand on the North side of the Inlett for the first Station and a due west Line Set out Viz^th by the Compass No 87 w and that day the Line was run as far as Notts Island about 20 Rodds to the Northward of Wickers House and so cross the Island to the marsh leaving about Three hundred and fifty acres Upland
of the Island in Virginia and Two Families, the rest of the Island taken into Carolina which is about five miles long and also Jones's Island Joyning to it which contains about Two Thousand Acres and about half a Score of Families thereby taken into Carolina that before were in Virginia. Fryday March 8th This day the Line was run from Notts Island thro the marsh and a part of Back Bay to the main Leaving a Little of the marsh to the Northward but the greatest part taken into North Carolina. The main here is a point of Land made by Back Bay and North River being about a mile & half over and the way cut by the Line near Two miles from the End of the Point leaving about five or Six families to the Southward that had been reputed Virginian. Saturday March 9th The Line was continued across the Point of Princess Anne County Striking North River to Northward of Richard Eislands house; crossed the river and a great Body of marsh to the Upland near Three miles to the Northward of the mouth of Northwest River which had been the reputed bounds. A few famlys to the Southward of North West River were left in Verginia who had Verginia Patents before and belonged there Thursday March 14th The Line Entered the Dismall & was to the Twenty Eight before it was finisht Thro’ being found to be about fifteen miles in a direct course thro and came out to Northward of Coreapeek Swamp greatly to the Disappointment of the Verginian and great Satisfaction of Carolina. Twenty ninth of march the line was run near the Main Road that Leads from Perquimons to the white marsh in Verginia cutting the said Road about Seven or Eight miles to the Northward of Capt Speight and a marked post was put up by the Road. Thirtieth of March This day the Line was Run five hundred and fifteen Chains near to Richard Parkers whose house was left about one hundred Rod to the Southward. March 31 Sunday—April the first The Line was this day Run Nine hundred and thirteen Chain to Somerton Creek cutting Somerton Road about a mile and a half to the southward of the Chapple and Mahering ferry road near William Speights whose plantation was split by the Line, post marked being put up on the main Roads where the Line Crost them. April the second This day the line was Run seventy Two Chain & a half to Blackwater River cutting the said River above the mouth of Nottoway & thence run downe according to the Proposals to the mouth of Nottoway going South on a Straght Line 44 Chain and the Line was continued this day to this upland from Nottoway River to an Indian Old Field. It now appeared how the Government of Verginia had been Mistaken and how exceedingly their former Commissioners and Survey had Erred in their Reports & observation from the great swamp or Dismall to Blackwater being Twenty one miles and a half. There was taken by the Line into Carolina a very great Quantity of Lands and Number of Families that before had been under Verginia of which the time would not admit to take an Exact account but computed to be above One hundred Thousand acres and above Three hundred Tythables. April y’ Third The Variation was observed in the Night and found to be here 21° so the Line was Run by the Compass N 87 30° West and continued 1022 Chains this day to the side of Maherrin River being above a Quarter of a mile to the Northward of the Line run formerly by Coll Allen by order of the Government of Verginia which was done without allowing for the Variation of the Compass by which means some Lands & Two or Three families were this day taken into Carolina from Verginia. April the fourth This Day a Conference of the Comiss” was held.
and it was proposed by the Comissrs* of Verginia that the Hott Weather coming on & the season of the year for Snakes and other Vermins the continuing the service further now might be Dangerous desiring the Opinion of the Comissrs* if it would not be better to deferr the finishing the Line untill the fall. To which it was answered by the Comissrs* of Carolina they would be Governed in it by the Gent Comissrs* of Verginia being willing to proceed if they would but if they thought fit to Deferr it to the fall it was submitted so after some Debate it was agreed on to Deferr the matter till the fall for finishing the Line and the Comissrs* agreed to meet again on the 10th of September following only this day to run the Line to some better place to leave off at and accordingly the Line was continued crossing the river Maherring Three times to a Red Oak on the West side thereof about a mile above Mr Kinclens at whose house the Comissioners broke up April the fifth This day was spent in making plans of the Line and compleating & Comparing the proceeding that had been April the Sixth This Day Plans & Draughts of the whole being finished were Interchangeably Signed and Delivered by the respective Comissrs* of each Government to the other and about Ten of the Clock took Leave of each other in a very friendly manner there having been a good harmony preserved during the whole Expedition. Herewith is also the Original Plan of the Line certified by all the Comissrs* all which being preformed with no Little hardship and the greatest care and Diligence is humbly offered to be laid before the Lords Proprietors hoping it will be approved of by them and give a general satisfaction to the Country by ending the Dispute that has so long subsisted between the Two Governments and by making such Large acquisitions to their Lordships Country when nothing less than coming to Wiccos Creek was depended on in Verginia w* would have taken from what is now made this Country a Tract of Land fifteen miles wide at Wiccos and so quite back and a Great many hundred familys which is now Determined and Secured in this Government which is much Enlarged and Encreased thereby And had it gone a few miles more Northerly that by taking Nansemond River would have given us a port for shipping Tobacco which the Virginians by their hard Tobacco-Act have restrained would have made this a Large and most flourishing Country.
A JOURNAL OF THE PROCEEDINGS OF THE COMMISSIONERS FOR SETTLING THE Bounds BETWIXT VIRGINIA AND CAROLINA 1728

March 5th The Commissioners on the part of Virginia after a fatiguing Journey of 8 days arrived punctually at the North Shoar of Carotuck Inlet about noon. In less than two hours they were joined by Col. Gale & Col. Moseley two of the Commissioners for Carolina. However they could not go upon any business for want of the Carolina Commission, which was in the hands of the other Commissioners, who came not hither till late the next day.

March 6th The Surveyors in the mean time employed themselves in taking the bearings of the Coast, & the Islands adjacent According to the most exact observation they found the Latitude to be 36 degrees 31 minutes. About 3 in the afternoon Mr Lovick & Mr Little the other Commissioners for Carolina arrived. Immediately the Commission of each side being read, it was agreed that each party should deliver a Copy thereof to the other. 'Twas also moved by the Virginia Commissioners, that those for Carolina should produce their Instructions; but they excused themselves by saying, what Instructions they had related to those matters only, which the Commissioners on the part of Virginia were expressly forbid to treat upon Then a debate arose concerning the place where they ought to begin, the Commissioners for Carolina were strenous for beginning at the point of high land, because they said the former Commissioners had agreed to begin there: But those on the part of Virginia insisting that the Spit of Land stretching from thence to the Inlet, was properly the North Shoar, it was at last consented to by those of Carolina, with only a small allowance of about two hundred yards, which was proved to be gained since the Proposals had been signed by the Governors Spotswood & Eden. At night the Surveyors discovered the variation to be 3 degrees West by a Meridian taken from the North Star.

7. This morning the Commissioners ordered that a Post should be drove deep in the Sand at the place of beginning From thence they ran the Line due West allowing 3 degrees for the Variation, which it seems the former Commissioners had not done. The Line cross Dansiers Island, & thence into Notts Island over a narrow part of the Sound, which they past in two Periangas hired at the landing of North West River. In the
evening they encamp’d on the East side of North Island on the Plantation of William Harding which was cut by the Line.

8. They proceeded with the Line thro’ the Highland of Notts Island, which exceeded not half a mile. Then they entered a large Marsh which was very wet & mirey extending as far as a Water called back-bay. This they crossed by the help of a canoe sent round for that purpose, and then crossed over another Marsh to the High Land of Princess Ann County. It is to be observed that Notts Island improperly so called, being only a Peninsula the water not surrounding it but at very high tides, when the Marsh is overflowed. We encamp’d on John Heath’s Plantation a little to the Southward of the Line at the mouth of North River.

9th The Line was continued thro’ Eyland’s Plantation to the East bank of North River. This the Surveyors past in a Perianga & cross over Gibbs Marsh near a mile in breadth to the high land. Soon after they were interrupted by a Pocosan made quite impassable by beaver Damms & Otter holes. On this account they were obliged to make a Traverse in order to make good their Line without going thro’ this impracticable Place. The days work ended about a mile & 3 quarters to the Northward of Christopher Merchants House, not far from North West River. To this Field the Commissioners encamp’d correcting by a great fire the bad air occasioned by a Swamp which encompassed it.

10th This being Sunday we rested in our Camp, but Mr. Fontain being left at North West Landing with the hopes of baptizing a great many Children we had no Sermon.

11th The Line was carried on about 3 miles thro’ high land and afterwards almost 2 miles thro’ Swamp & Pocosan full of beaver damms and otter holes, into which some of the men plunged up to their Middle. This unpleasant days work ended at the mouth of Northen’s Creek, which discharges itself into North West River. But we encamp’d a little higher up the River near a deserted house belonging to Cap’n Willis Wilson. This was for the benefit of shelter from the rain which not only threatened us but fell plentifully in the Night.

12th The Surveyors took the Course of North west River, then Cross from the mouth of Northerns Creek, and carried on the Line 3 miles thro’ Marsh & high Land, cutting several Plantations. At night we encampt on Rob’y Ballance’s Plantation, a little way to the southward of North west River bridge. Having first discharged the two Perrianga’s we had provided to transport us over the many waters we had occasion to pass in this difficult part of our business.
13th The Line was continued 3 miles farther thro the woods which were full of briers & Gall-bushes, as far as the East side of the Dismal or great desert. 'Tis hardly credible how little the bordering Inhabitants were acquainted with this Swamp, tho' most of them had lived all their Lives within sight of it. They were positive it was not above six or eight miles to the other side, yet none of them so much as pretended they had ever past it. This was therefore the best information we could gain of a Desert so unknown, but in order to be better acquainted with it, we made the necessary disposition to enter it the next morning. We allotted for this service Mr Mayo, Mr Erwin and Mr Swan with 12 men, so many being thought necessary for clearing the way for the Chain, for marking and carrying the Luggage. The men were so desirous to be of this number, that it was thought proper to determine their chance by lot. This night we took up our quarters at Mr Wilkins House, about a mile from the place where the Surveyors left off. By nine this morning the Provisions, Bedding etc were made up in packs for the men to carry into the Dismall. They victualled for eight days, which we judged sufficient to carry them thro' this inhospitable place. Nor indeed could more be carried without making the Luggage too troublesome for the men. As it was, their Loads were 40 to 70 pounds weight a man, which was full enough to bear thro grounds hardly passable without any burden at all. However the men carried them cheerfully, and for their better encouragement some of the Commissioners went with them half a mile into the Dismal. The ground was wet & boggy full of tall reeds, everywhere interlaced with Briers, which hampered the feet very much. Two men went before to clear an opening for the Surveyors and enable them to take their sight. At the end of half a mile, they came to a small Island of high land about one hundred yards over. Here the Commissioners recommending vigour & constancy to the men returned, & the Surveyors proceeded with them their Line one mile further in all one mile & a half. The ground continued much the same only some part of it was overgrown with Gall bushes and the trees which grew here & there amongst them were generally Cypress. While the Surveyors were thus engaged in the Dismal, the Commissioners in order to meet them on the west side, having sent away the Baggage followed it to Capt James Wilsons. Here we had left the horse and some of the men to look after them, when we embarked on the Periagass for Corrotuck.

15th The Surveyors proceeded to run the Line in the Dismal but the ground being wet and thicker set with Reeds Briers & Gall bushes than they found it yesterday, it was impossible after a long days work to go
further than one mile, 15 chains and a half. Another great hindrance proceeded from Trees blown down, which lay horning on one another, with sharp snags pointing every way, and requiring great caution to get over them. These trees were generally Cypresses which are easily blown down in this wet place, as indeed all other Trees are, because there is no firm earth for the roots to shoot into. In the mean time the Commissioners in their way round marched to Timothy Ives's with the horses and baggage in whose field they pitched their Tent.

16th The Surveyors ran their Line one mile & a half & 8 chains the greater part of the ground was Juniper Swamp with very thick underwoods and fallen Trees piled upon another. The water here was found a little purgative by some of the People from too strong a tincture it had received from the Juniper Roots. In the evening they came upon another small piece of High Land, which was the more convenient because about 8 a clock it began to rain, which would have rendered the Low part of the Swamp a very uncomfortable lodging. The Commissioners went this night to M' Andrew Mead's where they met with very generous entertainment.

17th This being Sunday the Commissioners halted at M' Mead's, where M' Fontain gave them a Sermon. It rained very hard in the morning which gave them great concern for their Friends in the Dismal. However it had no other ill effect upon the Surveyors, but by hindering them from carrying on the Line, for which they had a Dispensation notwithstanding it was Sunday, because it was really a work of necessity; but the rain had made everything so wet, that it saved them their labour, tho' not their Provisions.

18th The Surveyors fell to work with fresh vigour and finding the grounds a little better push't on the Line 2 miles and 19 chains. In the afternoon their industry received some check from a Juniper Swamp very difficult to pass. In the mean time the Commissioners marched round to M' Speights's in hopes to meet with some intelligence. But instead of that M' Speights was positive the Dismal could not be less than 30 miles over in that part of it where the Surveyors were to pass. This would have been dreadful news had that Person had any Rule to judge by better than Conjecture. For neither he nor any other had ever made Trial of the Distance. At night we ordered guns to be fired on the Edge of the Dismal, and a drum to be beaten to give notice to the Surveyors (in case they were within hearing) that they were not far from Land And likewise that by answering our Signal we might have notice of their approach. But no such good report was heard from thence.
19th The Commissioners ordered men both to the Northward and the Southward to fire more guns on the side of the Dismal, who could hear none in return. Many people came to Mr. Speight's to satisfy their Curiosity, and brought many children to be baptized but none of them could tell any good tidings of the Surveyors. Nor was it possible they should, because they were still in the midst of the Desert. They ran this day a mile & sixty one Chains thro' a terrible Juniper Swamp, where the ground was very soft, and the passage interrupted by a multitude of fallen Trees. Towards the evening they fancy'd they heard 4 guns to the Northward of their Course, by which they flattered themselves they were not far from Land.

20th The Surveyors proceeded a mile & 64 chains thro' the same Juniper Swamp, only the trees were thicker and smaller, by which it is probable, that this part of the Desert may have been formerly burnt, by the spreading of the Fire which is often made on the skirts of it by the bordering Inhabitants. While the Surveyors were thus employed, the Commissioners who remained at Mr. Speights were in great pain for them, and the rather because they know their Provisions must be near spent. Men were continually dispatched upwards & downwards to fire guns and make enquiry, but could gain no intelligence.

21st The Surveyors began to be alarmed with Famine, and not without reason for their Provisions grew very scanty Nor could they discern any marks of being near Land. They had seen neither Bird nor Beast since their Entrance into this barren wilderness, to supply their wants, nor so much as an insect or a reptile. This must proceed from the moisture of the ground, and the everlasting shade which hinders the friendly beams of the Sun from warming it. These considerations determined them to abandon the Line for the present, and make the best of their way out, according to this resolution they marched early in the morning, and steered due West as near as they could by the sun. At night they computed the Journey to be five or six miles, which was a great way considering the badness of the ground. It was all Juniper Swamp, so difficult & perplexed, that if the People had not travelled for their Lives they could hardly have reach'd so far. However they had the comfort in the evening of hearing the dogs bark and the Cattle lowe, which made them forget the fatigues of the foregoing day. In the mean time the Commissioners receiving no news of their approach were exceedingly uneasy.

22nd The Surveyors pursued their Journey early in the morning, being encouraged by the good Omen of seeing Crows fly over their heads, & in an hour found themselves among Pines, soon after they waded thro'
a deep swamp extending a full mile in breadth & taking the men almost up to the knees. After this about 10 in the morning they had the pleasure of recovering firm Land, and immediately repaired to Peter Brinkly’s House to satisfy the importunity of their stomachs. In the afternoon Mr. Swan brought the Commissioners the joyful News of their arrival in perfect health, this was the more fortunate because several of the men had been troubled with Fluxes & small fevers during their stay in the Dismal. They all came to Mr. Speights in the evening.

23rd It was necessary for the Surveyors and the men who had shared in their fatigue to rest themselves, and prepare to enter the Dismal again on Monday, in Order to bring the Line quite thro' it.

24th This being Sunday a large Congregation flocked to Mr. Speights from the adjacent parts to hear a sermon and get their Children baptized. In the afternoon the People who were to reenter the Dismal were furnished with Provisions, and sent under the direction of Mr. Mayo and Mr. Swan to Peter Brinklys that they might be ready next morning to enter upon their business without loss of time.

25th These Surveyors with the Chain and burthen carriers returned into the Dismal with great alacrity, and by the help of the path they had made in coming out, arrived at the place where the Line had been discontinued. Here they lay as they had every night before in that Mirey Place, upon Juniper bark, over which they spread their blankets. The water was so near the surface that if a fire was kindled, so soon as the Crust was burnt thro', which Commonly happened in half an hour, it sunk into a hole and was extinguished. In the meantime the Commissioners continued at Mr. Speights till their return not without a great deal of impatience.

26th The Commissioners agreed that Mr. Fontain should make a Journey to Eden Town to give the Inhabitants a Sermon and christen their children. This seemed the more expedient because there is not a minister in the whole Province of North Carolina.

27th This morning we apprehended rain, but it blew over again to the great Comfort of the Surveyors and People who were still labouring in the Dismal.

28th The Surveyors this evening finish’d the Line thro’ the Desert having in three days proceeded five miles. This made the whole distance over it to be 15 miles in that part which is supposed to be its breadth, while the length which extends from North to South is conjectured to be double that distance. After the Surveyors had carry’d the Line 26 Chains up into the High Land, they dispatch’d a Messenger to the Com-
missioners at Mr. Speight's to receive their orders, which were to proceed with the Line the next morning. They came out of the Disunal not far to the North of Peter Brinkly's.

29th The Surveyors having by order of the Commissioners set up a post in the great Road where the Line cut it, expressing the bounds betwixt the two Colonys, proceeded one mile and fifteen Chains, wading over a Mill Swamp which took them above the knees.

30th The Surveyors continued the Line 6 miles & 35 chains. They found the Woods pretty clear, and interrupted by very little Swamp or wet ground. Several Posts were set up in the Roads thro' which the Line past to show the Bounds. At night they took up their Quarters at Richard Parkers House standing about a third of a mile to the South of the Line.

31st It rained a little this morning but this day being Sunday it gave no interruption to the business. All the Inconvenience of it was that it lessened Mr. Fontain's Congregation.

April 1st The Surveyors now being got upon high Land they proceeded with their Line Eleven miles & three quarters and 13 chains. They left Somerton Chappel near two miles in Virginia, and ran to the East side of Somerton Creek. They Cut thro' William Speights Plantation, taking the Tobacco House into Carolina and leaving the Dwelling House in Virginia. This has been the Case of Several other People in the Course of this Survey.

2nd The Surveyors past Somerton Creek and Continued the Line three quarters of a mile 12 chains & 30 links to the banks of the Blackwater River. This they cut about half a mile to the Northward of the mouth of Nottoway River, which agreed to half a minute with the observation made formerly by Mr. Lawson. He had made the Latitude of the mouth of Nottoway River to be 36° 30' and our Line made it 36° 30' 1' W' was but a small difference. However according to His Majestys order, the Surveyors came down Blackwater River and ran a due West Line from the middle of the mouth of Nottoway. This River they crossed just above the mouth where it turns off to the Northward, and carr'd on the Line about half a mile thro' a deep Pocoson, to an Indian old Field. Here we encount notwithstanding it was Low ground, and enclosed on two sides with a Swamp. At this place we found the variation of the needle lessened to 2-30.

3rd The Surveyors ran the Line 12 miles and three quarters. Great part of the way was thro' clear woods, but as they approachd Meherrin River, they cut thro' several Mirey Branches. They reached Meherrin
about Sun Set, and the grounds were so uneven near the River, that it was difficult to find a Place level enough to encamp upon. The distance from the mouth of Nottoway River to the banks of Meherrin where the Line Crost was found to be 13 miles and a quarter.

4th We forded the River and found the Bank on the West side very steep. The Surveyors carry'd on the Line 2 miles and 39 chains, in which distance the River was so winding that they crost it no less than 3 times.

5th The Commissioners considering the great fatigue already undergone, and the danger of Rattle snakes in this advanced season, determined to proceed no further with the Line till the Full. The Surveyors form'd a Mapp of the Line they had run from Coratuck Inlet to this Place, and found the distance from East to West to be 73 miles and 13 chains. Of this Mapp they made two Copy's which agreeing exactly were subscribed by the Commissioners of both Colonys, and one of them was delivered to those of Virginia and the other to those of Carolina, who are to meet again the tenth of September.

NORTH CAROLINA—ss.
To the Hono’ve S' Richard Everard Baron' Governo' Captain Gen' Admirall & Commodore in Chief

April 29th 1728

The petition of Samuel Northey most humbly sheweth That a few days agoe Yo' Petition' being taken into custody by John Falciner on an Admiralty Citation he applyed to the Hono’ve Christopher Gale Esq’ Chief Justice And in the Gen' Court Office entred his complaint of
Prohibition Setting forth that he was cited by a process granted by Edmond Porter Esq. Judge of the Admiralty and taken into Custody by John Falconer pretended Marshall of the said Court to appear on the twenty fifth day of this month of April in the said Court to answer the Libell of James Trotter of Edenton Inholder for the sum of fifteen Shillings and sixpence for Victualls and drink sold the said Northeay in Edenton which matter not being within the jurisdiction of the admiralty the said Northeay prayed his Majestys Writ of Prohibition to Prohibit the said Judge and the officers and Ministers of the said Court and the said James Trotter from proceeding any further in any manner in the said Suit which was granted and a Writt of Prohibition thereon made out forbidding the said Judge on any Acco[1] or manner whatsoever further to proceed or hold plea thereon or Suffer any further proceedings to be had or Attempted in his said Court thereon which Prohibition being delivered to the said Edmond Porter instead of Complying with his Majestys Said Writ having required yo' Petition[1] to plead and he refusing the said Judge did order the said Falconer his pretended Marshall to take into Custody yo' Said petitioner which he accordingly did and held in close Confinement till the next day when the said Edmond Porter Judge notwithstanding the said Prohibition did convene yo' petition[1] again to answer the said suit and altho the authority of the said Court was still denied in the said suit and the Prohibition urged yet the said Edmond Porter presumed to proceed and Adjudged yo' petitioner to pay to the said Trotter the sum of fifteen shillings and sixpence and the costs which were taxed so high as to amount to about fifteen times the Principal debt and for not paying it granted process whereby the said John Falconer pretended Marshall took the body of yo' petitioner into custody and the said Judge and pretended Marshall having got John Mathews deputy Marshall in y* precinct of Chowan in y* County of Albemarle with them who had the key of the County Goal in Edenton commanded him to deliver it up which he (hesitating in) the said Judge order[2] the said John Falconar to take him the said Mathews into Custody which he accordingly did and so by threats and Compulsion took away the key of the said County Goal and thereby took the same out of the provost Marshalls hands wholly who by Law has the keeping of the said Goal and all Prison[2] therein both Criminals and others and all this without Applying to the said provost Marshall who was thereby divested of his Goal and without any authority from the Govern[2] or any Magistrate or Justice having gotten the key in this Manner the said John Falconer did carry yo' petition[2] and him comitt to the said County Goal and there hath
close confined him all which proceedings yo' petition conceives to be utterly against all Law and Justice a great Oppression of the Subject and in Violation of the rights and Liberties of the People in high Contempt of the Kings Writt of Prohibition and derogatory to the authority of Government and now your petitioner having moved for a habeas corpus to the Chief Justice but he conceiving since his Majestys Writ of prohibition was denied and rejected it would be to Little purpose to order Yr petitioners his discharge not doubting he would be held notwithstanding by the Violence of the said Judges proceedings unless some Act of Government should free yr petition from such forceable detainer Wherefore yo' petition implores redress from yo' Honor & beseech Leave further to observe upon it that he is advised that tho' there be often disputes Concerning the Jurisdiction of the Admiral Court the same is always determed by the Common Law Judges and when a Writt of Prohibition is granted (which is a Writt Ex debita Justititia) the Admiral's Court Stayes all proceedings thereon and if the proponent is not satisfied then the matter is Argued before the Judges where the writ of Prohibition was granted and if the matter Appear to them not to be in the Admirals Jurisdiction the Prohibition Abides but if it be judged to Lye in the said Admirals Court then a Writt of Consultation is granted and the Court of Admiralty proceeds but without that for the said Court to proceed is against all the rules of Law and utterly unwarrantable and unprecedented & tho' it is say'd that the said Judge of the Admiralty Conceiving himself more imediately the Kings Court then the Temporal Courts within this Charter Government are and that he is not to be under their Control but yr petition is advised that the said suggestion is of no weight for as that Judge holds under the Admiral who derives Authority Originally from the King to the Common Law Courts are held here under the Lords proprietors who Originally derive that power from the King too and the General Court here by the Cheif Justices Commision and Authority have the same power in all matters and things here as the Kings Bench hath in England and therefore power to grant prohibition when the Admirals Court here Exceed their bounds and Trespass on the Common Law which is every Englishmans birthright and the people here being his Majestys liege Subjects have right to all the Laws and priviledges of English Subjects And it was allowed in the complaints Against Judge Trott of South Carolina to be the principal one that he being Cheif Justice under the Lords Proprietors took a Commission to be Judge of the Admiralty so that no Prohibitions Could be granted and the Subjects thereby were debarred of that great priviledge; seeing
then that this suite is not within the Jurisdiction of the Court of Admiralty for these reasons—Vizt

1st Because there is a Law of this country that such small and mean causes shall not be tried in any Court whatsoever but before a single Magistrate to prevent Vexatious suits and high fees which in this Court appear to be so very exorbitant being more than fourteen times the debt in this case.

2nd For that yt Petition is a Liver and free holder in the country and had he absconded we have a Law directs how Process shall be served in such case out of the Comon Law Courts

3rd He being Master of a Vessell (which all this while he being thus detained) is wholly taken out of his Charge and that & the Cargo in the utmost danger of being lost diminished or dammified he hath given bond of five hundred pounds not to depart without License that so all Creditors may have remedy.

4 He was so far from concealing himself on board his vessell (as was pretended) that he was dayly and sometimes hourly on shot his vessell being hauled into the Creeks Mouth and within a few rods of the shore and tendered the money to the said Trotter before he was taken by the Marshall of the Admiralty who served the Citation on him on shore.

5 For that the cause of action being for a Tavern score for Victualls and drink of an innholder in Edenton and this too sett forth even in the body of the Libell itself it cannot possibly be thought to lye within the Admirals jurisdiction and appearing so in the body of the Libell it is held that the said Judge of the Admiralty comes under a prunumire for holding plea thereof at all as Mr Molloy hath determined and further by the same rule if this case lay in Admiralty Court because the debt was gott afterwards on the Water by the same rule any suite might be drawn into that Court if the party att any time should be water born which tho' absurd yet is insisted on Wherefore on the whole the matter being so apparently wrong and injurious the Kings writ of prohibition disregarded and your petitioner not only most grievously oppressed thereby but he and other his Majestyes leige subjects will by such fallacious suggestions and arbitrary proceedings if not remedied be divested of their rights and priviledges the Kings Laws be violated that most valuable benefit of Juryes be lost and all depend on the determination of one man contrary to all Law and Justice Your petitioner therefore humbly prays that he may be freed from this forcible detainer and that such measures may be taken as in yo' Hono' wisdom shall be proper to redress such grievances and remove such oppression that not only the law may have its course
Justice be maintained and the authority of the Gov't the Kings writ supported and the Liberties of his Subjects preserved but that yo' petitioner may be secured and protected from any further violences which he still apprehends on the same Matter if not deterred and prevented by your hono' to whom as the head of the Government yo' petitioner seeks for safety and protection.

And further yo' petition' complains that one John Leakey was made by the 3d Judge register of the said Court of Admiralty whom the Petitioner hath great reason to fear hath made false entries in the said case & tho' great solicitations have been made for coppyses which the said Leakey promised from time to time should be immediately granted yet he still hath delayed and is gone out of town without giving coppyses which thereby can' be had by your petition' who humbly submits the matter and himself to your hono' as in duty bound that pray

SAM' NORTHY

SIR RICHARD EVERARD TO THE LORDS OF TRADE & PLANTA

EDENTON May 3rd 1728.

Right Hon'm

Twas hon' with Your Ldps and in obedience to your Comands I Proclaimed his Maj'y and the utmost demonstrations of Joy was shewn by all people in general and the night concluded w' a Compleat illumination and Boon Fires and drinking his Maj'y health and all the Royall Families long life &c.

The bounty on Pitch and Tarr being off we have no Trade to depend on but our Beef and Pork w' is bought up by our Neighbours the Virginians here and drove alive in Virginia so that our Navigation is entirely lost, the Virginians bring in neither Mollasses sugar nor Rum w' are the Chief Support of this Province w' is a very great prejudice to our Planters the Droovers Stealing the flocks of Hoggs and
Cattle in their Driving I may safely say thirty thousand Hoggs were drove out last year.

Another thing Your Lordships will permit me to represent to Your Hon’ble Board concerning our Judge of the Admiralty whose proceedings are so violent and arbitrary as to occasion many Compl’s against him one of w’h From a Master of a Vessell is so extraordinary that I ordered the Chief Justice to Issue an Habeas Corpus if the matter appeared proper to discharge him from the Commitment of that Judge his proceedings being so irregular and carried on w’h so high a hand that I thought proper to interfere in it The Prisoner being a Master of a Vessell loaded and bound out and by his wrong deteneir his Vessell and Cargoe left to Suffer and Trade thereby manifestly obstructed and All for a Tavern Score of 15 6d Bill mony viz 3 14 ½ Ster: the Cost amounts to £12 notwithstanding a prohibition to the Contrary the man was hurried violently to Goal in Execution I should not have troubled your Lordships with this affair but not knowing what representation that Judge may make to the Lords of the Admiralty of the matter having taken several depositions to that purpose and some not very true, but since their Lordships I’m confident will have a tender regard for the preservation of the Com: Laws and the rights and libertys of the Subject and the Englishmans Privileges of Juries to Countenance that Judges extravagant proceedings I have ordered our Chief Justice to cause a true State of the Case to be layed before the Lords of the Admiralty I thought it proper to lay this much of it to your Lordships before whom all matters of trade and Plantation properly come who are allways carefull to correct all matters whatsoever I shall only on this head beg leave to inclose a copy of the complaint that was made to me about it I shall only add that on the Strictest enquiry I found the matter to be very true in it and therefore some Remedy necessary and do not doubt but that my conduct will be approved in it.

Now my Lords I’m obliged to become Your Lordships Petitioner for your Advice and Assistance in the Affaire of Virginia whose Assembly has made a Law with severe penalties and Fines For every Hoghead of Tobacco that’s carried into Virginia out of this Country and several Hoggsheds have been seized by the Sherriff of Nansemond w’h is as I conceived very prejudicial to his Maj’y Revenues and an Insufferable Damage to the Poor N’th Carolinians and at the same time our Tobacco exceeds the Virginia I offer this to your Lordships in hopes Your Honours will use your Interest to gett the Act repealed and to have Your Assistance in Getting one of the Landings in Nansemond River to be
Free for the Carolinians to ship their Tobacco as these my Lords are the Greviances I thought my Duty to lay before you I hope I have committed no Fault if I have I must ask pardon and reley on Your Lordships goodness for my zeal for the advance of Trade and the Prosperity of my Governm' I'm My Lords w' Sincere Respects

Your Lordships

MEM: FROM M¹ GODIN RELATING TO Y¹ FIRST SETTLEMENT OF CAROLINA

Reed: } May 21. 1728.

Read }

All that tract of Land on which Carolina & S¹ Augustine lays was first call'd Florida from the abundance of Flowers the Country naturally produc't, it was settled first by the French in the Reign of Charles 9th king of France and in honour to him call'd Carolina, they also named all the Rivers and satt down principally at Port Royall, this being a favorite Collony of Admiral De Colligny who in the beginning of the reformation had views to establish it as a refuge for the persecuted protestants but being betr'ad by ville gagnon & then unfortified the Spaniards came from Cuba & the Havana & muther'd them all, of which the Admiral had resolved to take a signal revenge, and was preparing to this purpose a large Imbarcation att Dieppe but was prevented by the massery of S¹ Barthelemy, wherein he himself was so barbarously butcher'd. The Spaniards seeing the Consequence of that Coast between which and the Island of Cuba all the treasures of the Indies must pass, resolved to secure some part of it to themselves, for the safety of the passage of their Gallions & flottas built for S¹ Augustine, & kept there a Garrison ever since and nothing more.

Now the English coming a 100 Years after the French had been routed out of the Country as it were to revenge the blood of so many
protestants, may very well say that St. Augustin is built within the Limits of Carolina for there were never any boundarys or Frontiers settled with them to acertain what was theirs, or ours, but it appears that the Inhabitants always took the alatamaha River to be a natural boundary between us, since Governour Nicholson built fort King George beyond it which put the Spaniards upon complaining of it as of an Infraction there being no Inhabitants near it for a great distance that fort being three hundred miles from Fort Royall as I was told.

Florida was first discover'd by about 1490 for King Henry the 7th.

The french in 1560 odd went & settled upon it by direction of Admiral De Coligny, call'd it Carolina in honour to Charles the 9th King of France, named the Rivers, & places particularly Port Royall and Charles fort.

They were betrayed to the Spaniards by one Knight of Maltha called ville gagnon who the admiral had sent there on his pretending to be well affected to the Protestants they came from Cuba & murther'd & routed them not as french men as they pretended but because they were Lutherans afterwards the Spaniards knowing the Importance of that Coast along which the Gallions & Flotas must pass thought fitt to secure some part of it for themselves & so built fort St. Augustin there &c:

The English came 100 Years after the french, in the Reign of King Charles y* 2d and settled y* Country as it is now. By the Treaty of Utrecht every potentate was to keep what he had in possession, either by conquest, conivance or acquisition

[LIEUT. GOV: GOOCHE TO LORDS OF TRADE 8. JUNE 1728.

My Lords,

* * * * *

Having according to what I advised your Lordships in my last given Commission to Mr. Byrd, Mr. Fitzwilliams and Mr. Danridge three of the Council to meet the Commissioners of North Carolina in order to settle the Boundaries. They met at Currotuck Inlet on the 5th of March, and with much labour and difficulty proceeded about 70 miles on the line as your Lordships will find by their Journal, which is now sent markt No. 1. But to the great surprise of all who had read the report of former Commrs, it is now found that instead of gaining a large Tract of Land from North Carolina, the line comes rather nearer to Virginia than that which Carolina has always allow'd to be our bounds: (I have herewith
sent the Plan.) This mistake has proceeded from a false observation of the latitude, & from not adverting to the variation of the compass which is now found to be 3° from the true west Point; yet as it is necessary to put an end to a controversy, which, it seems, has been for many years attended with much inconveniency to both Governments, and no small detriment to private persons, whose debtors found a safe retreat within the Bounds in dispute, where the laws of neither Province could reach them So it will be a considerable augmentation of His Majesty’s Revenue that the Boundaries in the inland part of the Country and towards the mountains be fixt, the uncertainty whereof has hitherto discourag’d the people from taking up His Majesty’s Lands, and making settlements on that Frontier; To this purpose the Comm’r are again to meet in September to perfect that work; and though the expense thereof is like to prove considerable, I hope it will be more than recompenced in a few years by the increase of His Majesty’s Quit Rents, and other advantages as well to the Trade as the security of this Country.

THE ATTORNEY GEN’L TO THE DUKE OF NEWCASTLE.

LINCOLN’S INN 3rd Aug 1728.

My Lord

I had the honour of your Lordship’s Comands by your letter of y’r 30th past to hasten the dispatch of the Conveyance of the Province of Carolina to his Majesty; in answer to which I begg your Lordships would permit me to represent in what state that affair now stands before M’r Sollicitor & me.

On y’r 13th of July M’r Paxton laid before us Copies of the several Petitions of the Proprietors to the Lords of the Comittee of Councell & of their Reports thereupon, with directions from the Lords of the Treas
to prepare the necessary Instruments. Upon that we immediately acquainted the Agent of the Proprietors that their respective Titles ought forthwith to be laid before us, in order to form a Judgment whether a good Title could be made to his Majesty in what manner the Conveyance ought to be fram'd, & what parties were necessary to join therein. We likewise directed Mr. Paxton to quicken them in bringing these matters before us. But from that day to this not one Deed or paper relating to the Title has been produced till this Evening, when Abstracts were left at my Chambers, of the Titles of Mr. James Bertie, Mr. Hen: Bertie & Mr. Hutcheson, but without any of the original Deeds, & as to the other Proprietors we have hitherto received no Information concerning their Titles. By this your Lordship will perceive that, if this matter has received any delay, it hath arisen merely from the Proprietors & their Agents, for it is impossible for us as his Majesty's Council to advise the acceptance of a Conveyance, or so much as prepare the form of it, without being truly inform'd of the State of the Title, which in some of the Proprietorships may require particular Consideration, there having been several subsequent conveyances since the first Grant, & some thereof litigated.

I thought it my Duty to acquaint your Lordship with these Circumstances, & to assure you that as soon as the necessary Materials are laid before us, this Affair shall receive all the Dispatch which the nature of it will admit. I am always with the greatest truth & respect.

My Lord

Yr Lordship's most obedient &
most faithfull humble Servt

[LIEUTENANT GOV' GOOCH TO LORDS OF TRADE.
AUGUST 26th 1728.

My Lords

Having received advice that application hath been made to your Lordships for repealing a Law made here in the year 1726 for the more effectual preventing the bringing Tobacco from North Carolina and the Bounds in controversy: I take the first opportunity to Lay before your Lordships the reason of passing that Law & then to obviate some objections which I hear have been offered to your Lordships against it.

As the people of Virginia have from its first settlement applied themselves solely to the making of Tobacco so they have from time to time tied themselves up to such certain rules in the planting, tending, curing and packing of it as they judged most expedient to advance and support its Reputation in the European markets, and to prevent all fraudulent practices whereby their staple Commodity might be depreciated this naturally led them to consider and guard against the indirect practices of their Neighbours; since all their Regulations must have been rendered vain; if the next Province was left at Liberty to pour in upon them all such trash Tobacco they could make and to export it hence as the Manufacture of Virginia. This so much concerned the Virginia Interest that to prevent it an Act was made in the year 1679 whereby the importation of Tobacco from Carolina & other Parts without the Capes was prohibited under the Penalty of Forfeiture thereof. This Act continued in force until the year 1705 when all the Lands of the Colony were revised and brought into one Body and then an Act almost in the same words was prepared against the importing Tobacco from North Carolina under
the like Penalty with the former; which last Act as I am informed, was seen and approved of your Lordships before it passed the Assembly here. But as neither of the Acts were found effectual to prevent the mischief Tobacco being still clandestinely brought in to Virginia from Carolina and shippd off there could be no forfeiture without a previous seizure. It was judged necessary by this last Act in 1726 to lay a further Penalty on the seller and purchaser of Such Tobacco which is all the Alteration this last Law has made in all the former Prohibitions. And if the Reasons upon which these Prohibitions are founded be just and prudent I doubt not the enforcing the same by an additional Penalty, will, by your Lordships be judged so too.

I hear only of three objections my Lords against the continuing of this Act. First That the discouraging the People of Carolina from making of Tobacco will lessen his Majestys Revenue.

The second. That it will force the people of Carolina upon Manufactures prejudicial to the Trade of Great Britain.

The third. That it is unjust and unneighbourly towards the people of that Province.

As to first I believe it is demonstrable that his Majestys Revenue is no ways increased by the importation of more Tobacco than can be consumed in Great Britain since for all of that which is exported the whole Duty is drawn back, and as the Tobacco made in Carolina is of that sort which must be exported being not fit for the home consumption, it is plain the customes will no ways be increased thereby, nor suffer any diminution if there was not one Pound made in that Province.

To the second, it must be annexed that the Inhabitants of North Carolina have been under the same restraint for these fifty years past and no such Manufactures have as yet been set up amongst them and to be presumed that while they have other Commodities such as Pitch Tar, Pork, Rice, Hides and Tallow with which they have hitherto supplied themselves by way of Barter with the People of Virginia and the other Plantations there will be no danger of their undertaking Manufactures of their own where they are provided with very few materials and can be supplied by their neighbours at a cheaper Rate. But my Lords give me leave to Say that they who made this objection did not consider how much greater inconveniences may happen to the Manufactures of Great Britain should the Inhabitants of Virginia by an overstocking of the Tobacco Markets and in consequence thereof the lowering of its price, find themselves under a necessity of leaving off planting and endeavouring to cloath themselves with their own Manufactures, for which they
have abundant more materials both for Woolen and Linnen than the people of North Carolina can possibly have for many years.

As to the last objection of the injustice of our neighbours of Carolina who having no Ports of their own are denied the benefit of their neighbours Ports to ship off the produce of their Labour. Your Lordships I hope will allow me to say, according to the general Rule that every one ought so to use his own as thereby to do no injury to his Neighbour, which will hold good as well in common Policy as Morality So that the Inhabitants of Carolina have no reason to complain if they are restrained from making use of the Ports and Harbours of Virginia, when it is prejudicial to its own Trade and does manifest injury to its own Inhabitants if the people of Carolina will make Tobacco, and can ship it from their own Ports it will then be known where it was made and Virginia will receive no discredit by it, but if they will put off their Trash as the Product of Virginia it is a cheat upon the Buyer, and the general Trade of this Colony must suffer by it.

My Lords thus I have endeavoured to state this case in the clearest light I can and submit it to your Lordships judgement for as I had no hand in making the Law now in question, I am little concerned in its fate whether it stands or falls; only I should be sorry to find the people of Virginia disoblged by the Repeal of this Act, which has for a long time been judged of great importance to the Colony, when at the same time it only indulges a few in the next Province to employ themselves in that which will bring no Reputation to the Tobacco Trade and indeed if what the Merchants in England urge be true, that there is more Tobacco already sent from hence than can be vended in the European Markets: Your Lordships are the best judges whether the opening a new source be at this time seasonable

I am with great duty and respect
My Lords
Your Lordships
most faithfull and most
obedient humble servant

WILLIAM GOOCH.

Aug* 26* 1728.

Having in March and April last pursuant to his Majesty's Order in Council and the Orders given by the Lords Proprietors caused a due West Line to run from Currituck Inlet to Black Water and so down to the Mouth of Nottoway and thence to red Oak on the West side of Maherron River about a Mile above Mr. Kincheon's and at the Instance of the Commissioners of Virginia the Continuation of the said Line being mutually agreed to be deferred till the Fall when the Weather would be more suitable. Friday the 4th. The Line was run Seven Miles and 160 poles to Hyco-ote Creek having crossed Blew wing Creek and Camped in the low Ground of Hyco-ote.

Saturday the 5th. The Line was run four Miles & 312 poles to a Ches-nutt Oak having on this Day crossed a Southern Branch of Roanoke four Times it was about the Bigness of Maherrin River above the fording place, but at this time of the Year but little water in it, but discovered where the Freshes had been very high in it and by the Sand and Flatts and Banks and other Marks it was concluded on to be a Branch of the River which we took to be what is usually called the Southern Branch of Roanoke als Morattock, but as we were informed afterwards by old Cap' Hicks and other Traders it is a Branch of the great Southern Branch on which last, far higher up is said to be the old Lawra Indian Town and at a Distance beyond that, the River winding Southerly runs under the Foot of the Mountains and lockes in with the Head of the Yapatto Yatkin or pedee River in South Carolina but the Mountains were judged to be at a great Distance from us in the Course our Line went: The Course of them being about South West or more Westerly. This Day on a very high Hill we caused a Man to climb up the Top of an high Tree but could make no Discovery: upon our Crossing the aforesaid Branch of the River this Day the third time there was a very high red Banck on the West side judged above 50 foot High a very remarkable place and being of Opinion We had proceeded far enough we moved for a Conference with the Virginia Commissioners upon it but they desiring we would continue the Line till Night, it was agreed to, and we camped on the low Grounds of the River; in the Evening the Commissioners being all together, the matter was moved again and we the Commissioners for Carolina gave our Opinion that we had proceeded as far as the Service required, and that to go farther would be but a needless Charge and Trouble and therefore were willing to go no farther. It was answered by the Virginia Commissioners that they should not regard what we did, if we would not go with the Line any farther they would go on without us, but this was said only by two of them and Co' Fitzwilliams not having declared himself we desired his opinion: to which he answered, there was a Majority of the Virginia Commissioners had declared themselves Then it was urged by the Carolina Commissioners that as all the Commissioners were appointed jointly to carry on the Work, we thought that the Matter should be concerted jointly, for we had understood by the
Silence of one of the Commissioners that he was of Opinion with us, but this Method was refused. Then we proposed that Mr Irwin whom we had formerly chosen, or any person we should mutually agree on might keep the Minutes of our Conference, but it was answered by them that any one might take what Minutes they pleased, they should take their own. Then the Debate was resumed again about proceeding farther and it was urged by us, that it was no where determined either by our Commission or by the King's Order how far we should go, and therefore that point was left to us, for his Majesty's Order only directed that the Line should be run towards the Mountains (which Surely could not be construed quite to the Mountains) and that the Bounds should be settled betwixt the two Governments which we had already done, not only thro' the Settlements but about fifty Miles without the Inhabitants And if at any Time hereafter Settlements should be made there, as was very unlikely in so barren a place, at least for a very long time, the Division might be continued by a Surveyor, on each Side, as Occasion required. We told them we had gone as far as we, on our part, proposed to ourselves, when we sett out or farther, and that we should proceed no further: Upon which they declared they would proceed without us, We told them their Commission might impair them to proceed without us, if we had refused to join at first with them: But we had joined with them and jointly with them run the Line, As far as was needful; But however we were not to govern our Selves by their Commission from the Gov't of Virginia; but his Majesty's Order in Council we submitted to, and having Settled the Bounds so far without the Inhabitants we thought we had fulfilled his Majesty's Order as well as the Lords proprietors. And further that his Majesty's Order in Council directed Virginia to join with Carolina in running the Line. We conceived they could not continue it further without Us, and if their Commission impowered them to do it, it exceeded his Majesty's Order, which we in all points acquiesced in. But they still insisted upon it, that they were determined to proceed without us; We told them it would be done ex parte And we asked them if they thought it would be a Boundary, they answered no, we told them it was then to little purpose for them to proceed, but as they pleased as to that, we should protest agst it, that their proceedings might be no ways Conclusive or binding to us. We then asked them if they would compleat the Line as far as We had gone, and exchange plans, which they consented to, provided it was ready by Monday morning, not to hinder them; We told them if it was work necessary a necessary time should be allowed it. But afterwards they were more moderate, it was also
propounded by the Carolina Commissioners that the proposals agreed on
by the two Governments, which was the plan and Ground Work of our
proceedings, required the fixing Natural Bounds where it could be conve-
niently done And that in several places where we had run the Line
Natural Bounds could be more Commodiously appointed, which on our
part we were willing to settle and agree to, which they answered they
would not undertake to determine that Matter, we told them the pro-
posals had referred it to the Commissioners, nor could any else so well
judge of the Conveniences and advantage of the Settlements, nor know
the Difference and the Lands so well for Quantity and Quality to make
proper Exchanges and Equivalents; but they utterly refused to inter-
meddle with it, which made us suspect they had some design by repre-
senting the Matter Home in their own Favour to get such Natural
Bounds fixed as might be to the prejudice of our Country. And this
we thought proper to minute down. Afterwards we of Carolina on Con-
ference among ourselves, lest any Handle or Advantage might be made
to our prejudice by their proceedings, thought it best to make our pro-
test: And our Instructions also requiring Us upon any Difference, that
we could not accommodate with them to enter our Dissent and give them
a Copy, which accordingly we determined to do before we parted.

Sunday. Oct' the 6th The parson performed Service, Afternoon Plans
were drawn by the Surveyors and every thing preparing to finish, and
having got over all Disputes all parties were in better temper, and passed
the Evening in our old Company very cheerfully and amicably.

Monday. the 7th This Day our plans being finished having mutually
Signed them they were exchanged; this We conceived to be a tacit Con-
fession in them, that We had done with the Bounds, and that they could
not carry on the Bounds alone: however as they persisted in their Design
to proceed we prepared our Protest, wherein we avoided every thing that
might look like Reflection, tho' we had many reasons to induce us to
believe their proceeding further was not altogether for the publick, for
tho' we were determined to yield no point to the prejudice of our
Country, Yet were desirous to proceed with all Decency and Temper, and
accordingly very briefly entered our Dissent to their proceeding with the
Bounds with our General Reasons that induced Us to desist which hav-
ing read to them, We delivered them a Copy of, and they accepted with-
out any reply to it, which was in these words.

We the Underwritten Commissioners for the Government of N Carolina
in Conjunction with the Commissioners on the part of Virginia
having run the Line for the Division of the two Colonies from Currituck
Inlet to the Southern Branch of Roanoke River being in the whole about One hundred and Seventy Miles and near fifty Miles without the Inhabitants being of Opinion that the Line was run as far as would be requisite for a very long time and judged the carrying it farther would be a needless Charge and trouble, and the Grand Debate which had so long subsisted between the two Governments about Wyanoke River or Creek being settled at our former Meeting in the Spring when we were ready on our part to have gone with the Line to the Utmost Inhabitants which if it had been done the Line at any time after might have been continued at an Easy Ex pense by a Surveyor on each Side, and if at any time hereafter there should be Occasion to carry the Line on further than we have now run it (which we think will not be in an age or two) it may be done in the same easy Manner without the Expence that now attends it. And on a Conference of all the Commissioners we having communicated our Sentiments, thereon declared our opinion that we had gone as far as the Service required and thought proper to proceed no further. To which it was answered by the Commissioners of Virginia that they should not regard what we did; But we conceived that by Virtue of his Majesty's Order in Council they were to act in Conjunction with the Commissioners appointed for Carolina. And having accordingly run the Line jointly so far and exchanged plans thereof objected that they could not carry on the Bounds Singly, but that their proceeding without Us would be irregular and invalid, and that it would be no Boundary, and thought it proper to enter our Dissent thereto Wherefore for the Reasons afores in the name of his Excellency the Prince and the rest of the true and absolute Lords proprietors of Carolina. We do hereby Dissent and disallow of any further proceeding with the Bounds without our Con currence therewith, and pursuant to our Instructions do give this our Dissent in Writing Dated at a Southern Branch of Roanoke this Seventh Day of October 1728.

About two of the Clock we parted very complacently wishing them a Good Journey to the Mountains and they us Home, and Co.ib Fitzwilliams One of the Commissioners returned back with us. This Night we camped at Blow-wing Keeping a Watch, our Numbers being reduced and we in the Road-way of the Northern Indians.

Tuesday Wednesday and Thursday we Travailed and got to Francis Young's on Morattuck River where we parted and took Several Courses Home being favoured with Good Weather most of the time we were out, having had the Good Luck too to miss several very bad places to have passed, Especially at Fountains' Creek and Moratook River which made
us perform the Business in much Shorter Time than we at first expected. And thus with God's Blessing we have settled the Bounds that have been so long controverted betwixt the Two Governments having observed his Majesty's and the Lords proprietors Orders; and we hope given satisfaction, having used our greatest Care and best Endeavours in it, with this Happiness that in the whole proceeding there was not on our part the least Animosity or Heat among us; and if at any time there was any Difference in Opinion it was argued and agreed before we ever came into Debate with the Virginia Commissioners: which Harmony and Accord we cannot help mentioning, not only as it was a Singular Pleasure to Us, but of great Service to the Work we were upon.

[B. P. R. O. B. T. VIRGINIA. VOL. 19. R. 125.]

September 19th The Commissioners on the part of Virginia having made the necessary preparations for continuing the dividing line between this Colony & North Carolina arrived after a Journey of 3 days near the place where the said Line was discontinued in April last. They found three of the Carolina Commissioners on the Spot, with whom they concerted the proper measures to carry on the business with effect.

Sep't 20 This being the day agreed on for our meeting, it was spent in fixing our baggage & assembling the men who were to attend us. We examined their Arms, & made proof of the powder which had been provided for the Expedition. Our bread was hindered from coming up by the rain w't fell two days ago; but to prevent being delayed by such a disappointment the men had been ordered to furnish themselves with provisions for ten days. M' Moseley the fourth Commissioner for North Carolina join'd us in the afternoon, but their Surveyor came not to us till several days after.

21. We dispatch away the Surveyors about 9 in the morning who with all their diligence could not carry the Line further than three miles & 176 poles, because the low grounds were covered with thickets. In this distance they cross'd Maherin River the fourth time. In the mean-
while the Commissioners march'd with the baggage (which could not pass thro' those difficult ways) about 10 miles, to a plantation belonging to John Hill with design to wait there for the Surveyors, and the men that attended them.

22. This being Sunday we rested the men & the horses. Many of the Neighbouring Inhabitants came to hear Divine Service, which was a rarity in those parts, & brought Eleven children to be chrstened. In the afternoon the bread arrived in our Camp under a guard of 3 men, which had been retarded by the rain, but such precautions were taken, that it received no damage thereby.

23. We continued in our Camp, but sent the Surveyors & ten men to the place where they left off on Saturday. The Grounds thro' which the Line passed were so intolerably full of bushes, that they could carry it only four miles and 5 poles. This days work ent Maherin the 5th & last time, & our people were glad to quit of a River whose Meanders had given them so much fatigue & perplexity. It rained a little in the evening, but very hard in the night with a violent storm of thunder & lightening. Our men kill'd four wild Turkeys.

24. So soon as the men could dry their blankets, we sent out the Surveyors who by the advantage of better ground, advanced the line 7 miles & 52 yards. However the baggage not being very dry, we all thought it proper to remain with the rest of the people in the same Camp believing we might easily overtake the Surveyors by the next day in the evening. We sent out some of our most expert gunners, who shot four more Wild Turkeys. This part of the country being very proper for Stock, the people live in great plenty with very little labour. Amongst many other good things they make tolerable Cheese, and have very fat Mutton. Our Chaplain Christened another Child.

25. The Surveyors met with pretty clear woods, & pushd on the Line 7 miles & 40 poles. The Commissioners moved with the baggage & the rest of the men, with which they marched about 12 miles & encamped on Beaver-pond Creek. The Surveyors finished their days work near the same place. On our way hither one of the men killed a small Rattle snake with only two Rattles. These vipers remain in vigour generally until towards the end of this Month, & sometimes later, if the weather continue anything warm. And therefore least any of our men might have the misfortune to be bit by them, we had provided no less than three sorts of Rattle Snake root, made up in proper doses.

26. We hurried away the Surveyors without loss of time, & they ran the Line 10 miles and 160 poles. By the way the Chain carriers killed
two large Rattle snakes, which providentially had hurt none of the three persons that had slept over them. However one of these serpents had struck with great fury at a horse, but by mistake touched only his hoof, and did him no damage. Before we set off this morning two children were baptized. About four in the afternoon we encamped upon Caban-branch which discharges its waters into Fountain's Creek, so called from the name of an Indian Trader who had been drown'd in it. Upon our way we saw several meadows and Branches full of Reeds, in which Cattle will keep themselves fat great part of the winter. But the hogs do great damage to both by rooting them up.

27. Our Surveyors got to work about ten o'clock, & meeting with clear woods carried the Line 9 Miles & 104 poles We followed with the baggage about 11, leaving three of the Carolina Commissioners and their attendants to wait the coming up of the Cart on which they had loaded the greatest part of their provisions. We followed the Line with all Diligence, crossing just Pen-hill Creek, and not long after Lizard Creek, which last emptys itself into Roanoke River. Here we halted till our Chaplain baptized five Children, & then proceeded as far as Pigeon roost Creek, where we took up our Quarters, having only Mr Moseley of the Commissioners of Carolina along with us.

28. We sent out the Surveyors early but they could forward the Line no farther than 6 miles & 121 poles, by reason of the very uneven grounds near Roanoke River, over which the Line past in this days work. The River is 49 poles wide in this place, & has a swift stream of very clear water. The great falls of it lye near 20 miles lower, tho' there are many smaller falls above. It forks about 18 miles higher than where the Line intersected it. The two branches differ not much in breadth, one runs away about N. W. and heads not far from the source of Appomattuck River, and the other stretches away pretty near west, & hides its head in the mountains. We did not follow the Surveyors till after ten, being detained in our Camp to Christian 6 Children. We hatted at a Plantation belonging to Maj' Munford under the care of Miles Riley, whence we met with many Refreshments. From thence we continued our journey to the Canoe landing upon Roanoake where we and our baggage were ferried over, but we ordered the horses to the Ford near a mile higher, which leads to the Indian trading path. We landed at another Plantation belonging to Maj' Munford on the south shore of this River, where we pitched our Tent. One of our men put a large Rattlesnake to death, having a squirrel in its belly, the head of which was already digested. Another less viper of this sort was killed by one of the Chain carriers.
All these instances prove plainly, that the deferring the time of our meeting on this business till the 20th Instant was both prudent and necessary.

29. We had Divine service & a sermon, at which several of the neighbours assisted. We Concluded all with baptizing of five Children. About four in the afternoon the Commissary who had stayed behind came up with us. In the evening five of the Saponie Indians arrived in our Camp & offered their service to attend us on the line. We had sent to Christanna for two of their ablest huntsmen to go along with us in order to supply us with meat, that our men might not be drawn off from their business, & struggle too much. This was the more necessary because we had put the Government to no other Charge for provisions but only Bread, trusting to Providence for meat with which the woods abounded. Of these five Indians we hired only two, who accepted of the moderate Terms we proposed to them. It rained hard about noon & dispersed our Congregation, most of which had no shelter but the Heavens.

30. The rain which fell in the night had made everything so wet, that we could not send out the Surveyors till noon. For this reason they were able to proceed no further than 4 miles 220 poles. About two miles from our Camp we passed over Haw Tree Creek & in our way traversed poisoned fields, and very barren ground. We also crossed the path in which the Indian Traders go to traffic with the Cattabaws and other Indian Nations, which lye to the S' West, we killed a bear so lean that none of the men would eat it.

October 1st The Surveyors went out early, & by the benefit of clear woods and level ground Carried the Line 12 miles & 12 poles. We forded over great Creek not far from our last Camp & between 7 & 8 miles further cross'd Nut Bush Creek, so called from the many Hazels that grow upon it. We encamp't on a branch that runs into Nut Bush Creek. The Surveyors taking advantage of a clear night try'd the variation & found it something more than 2° 30'; so that it did not diminish by approaching the mountains, or advancing towards the West, or by increasing our distance from the sea, but continued much the same that we had found it at Corotuck. One of the Indians shot a large Fawn but not very fat.

2. The Surveyors hasted away by 9 o'clock & ran the Line 9 miles 254 poles. Little more than three miles from our last Camp we forded a Creek called Massamong, an Indian name signifying painted-water from red okef found on the banks of it, which in a flood tinges the water. Three miles further we made a hard shift to pass over Yapatco or Beaver Creek, the water being dam'd up by these industrious animals.
so high as to make the fording of it difficult. Then we proceeded 3 miles 174 poles beyond that & encamped on the West side of Ohimp-mony Creek, signifying in the Indian Language fishing Creek. On our way we shot a Wild Cat as he was making good cheer upon a Fox Squirrel, They likewise killed three Deer, which made great plenty, & consequently great Content in our Quarters.

3. The Surveyors got to work by nine o'clock & push'd the Line 8 miles 160 poles. We crossed several runs of Excellent Water, & traversed a large Level of rich High Land near two miles in breadth. As we rode along we saw many plain buffalo Tracks, and abundance of their dung very fresh, yet could not as yet see one of those animals. The noise we made they heard at a distance, & withdrew from our sight. These creatures seldom range alone but herd together like tame Cattle. They are seldom found more northerly than 36° because they delight much in Canes & Reeds, that grow plentifully to the Southward. We encamped on Tewohonomy signifying Tuskeruda Creek and slept plentifully on two Deer which Providence brought in our way.

4. We got to work a little after nine, & extended the Line 7 miles & 160 poles, notwithstanding the ground was very uneven. In the distance of about five miles we forded blew wing Creek, and almost 3 miles beyond, that we crossed Sugar Tree Creek, so named from the many trees of that kind which grew near it. We took up our Quarters on the next side of this Creek which makes very wide low grounds, sometimes on one side, and sometimes on the other, while on the opposite shore the high land advances close to the Creek. One of the men saw three Buffaloes, but his gun being loaded only with shot, could do no execution on their thick sides. But this disappointment was made up by four Deer & four Turkeys killed by some other of the Company.

5. This day we met with such uneven grounds, and such thick woods, that with all the Industry we could use, we could advance the Line no more than 4 miles and 312 poles. In this small distance it intersected a large Creek four times, which our Indians mistook at first for the South branch of Roanoake River, but were convinced afterwards that it was Hico-otto-mony Creek taking its name from the roosting of Turkeys-buzzards on the trees that grow near it. About four in the afternoon the Commissioners for Carolina acquainted us for the first time, that they would attend the Line no farther. We were surprized at this unexpected Resolution, not dreaming we should have their Company no more than fifteen days. However though they could content themselves with leaving the business unfinished, we could not, but determined to proceed with-
out them, and push the Line on as far as the Mountains. Nevertheless we agreed to sign Platts of the Line as far as we had carried it together provided they could be prepared by Munday noon, when it intended to proceed without loss of time, the season being now far advanced.

6. We remained in our Camp this day being Sunday, and had prayers but no sermon, by reason our Chaplain was indisposed. The Carolina Commissioners in the mean time were employed in forming a Protest against our proceeding any further on the Line without them. When the Divine Service was over the Surveyors finished their Plate, which were signed by the Commissioners on both sides. In the afternoon Mr. Fitzwilliam acquainted us that being of opinion we could not by his Majesty’s order carry on the Line, but in Conjunction with the Commissioners of North Carolina, he intended to return to Williamsburg the next day.

This morning the Carolina Commissioners delivered us the Protest they had drawn up the day before, in the words following.

We the underwritten Commissioners on the part of Virginia, having run the Line for the Division of the two Colonies, from Corotuck Inlet to the Southern branch of Roanoke River, being in the whole about 170 miles, and near 50 miles without the Inhabitants being of opinion we had run the line as far as would be requisite for a long time, judged the carrying it farther would be a needless charge & trouble, and the grand Debate which had so long subsisted between the two Governments about Weyanoke River or Creek being settled at our former meeting in the Spring, when we were ready on our parts to have gone with the Line to the utmost Inhabitants, which if it had been done, the Line at any time after might have been Continued at an easy expense by a Surveyor on each side, and if at any time hereafter there should be occasion to carry the Line on farther than we have now run it, which we think will not be in an age or two, it may be done in the same easy manner without the great expense that now attends it: And on a Conference of all the Commissioners, we haveing communicated our sentiments thereon declared our opinion, that we had gone as far as the service required, & thought proper to proceed no farther; to which it was answered by the Commissioners for Virginia, that they should not regard what we did, but if we desisted, they would proceed without us. But we conceiving by his Majesty’s Order in Council, they were directed to act in conjunction with the Commissioners appointed for Carolina, And having accordingly run the Line jointly so far, and exchanged Plans thought they could not carry on the Bounds singly, but that their proceedings without us would
be irregular and invalid, and that it would be no Boundary & thought it proper to enter our dissent thereto. Wherefore for the reasons aforesaid in the name of his Excellency the Lord Palatine, & the rest of the true & absolute Lords Proprietors of Carolina, we do hereby dissent and disallow of any further proceeding with the Bounds without our concurrence & pursuant to our Instructions do give this our dissent in writing.

WILL: LITTLE  J. LOVICK

Oct 7th 1728

Tho the following Answer to this protest was not immediately returned, yet it can't be placed better than next to it, that the arguments on each side may be fairly compared & understood.

AN ANSWER TO THE FOREGOING PROTEST.

Whereas on the 7th of October a paper was delivered to us by the Commissioners of North Carolina in the stile of a Protest against our carrying any further without them the dividing Line between the two Governments, we the underwritten Commiss' on the part of Virginia having maturely considered the reason offered in the said Protest, why those Gentlemen retired so soon from that service, beg leave to return the following answer.

They were pleased in the first place to allledge by way of reason, that having run the Line near 50 miles beyond the Inhabitants. It was sufficient for a long time, & in their opinion for an age or two. To this we answer that by breaking off so soon, they did but imperfectly obey his Majestys Orders Assented to by the Lords Proprietors. The plain meaning of that Order was, to ascertain the Bounds between the two Governments as far towards the mountains as we could, that neither the Kings Grants may hereafter encroach on the Lords Proprietors, nor theirs on the Right of His Majesty. And tho' the distance towards the Great Mountains be not precisely determined by the said Order, yet surely the West Line should be carried as near them as may be, that both the Lands of the King & the Lords may be taken up the faster, and that His Majesty's subjects may as soon as possible extend themselves to that natural barrier. This they will certainly do in a few years, when they know distinctly in which Government they may enter for the Land, as they have already done in the more Northern parts of Virginia. So that 'tis strange the Carolina Commiss' should affirm that the distance of 50 miles above the Inhabitants should be sufficient to carry the Line for
an age or two especially considering that two or three days before the date of their Protest Mr. Mayo had entred with them for near 2000 acres, within five miles of the place where they left off. Besides if we reflect on the richness of the soil in those parts and the convenience for stock, we may foretell without the Spirit of Divination that there will be many Settlements higher than those Gentlemen went in less than ten years, & perhaps in half that time. The Commissioners of North Carolina protested against proceeding on the Line for another reason, because it would be a needless Charge & trouble, alleging that the rest may be done by one Surveyor on a side in an easy manner, when it shall be thought necessary. To this we answer that frugality of the publick money is a rare vertue: but when the public service must suffer by it, it degenerates into a vice, & this will ever be the case, when Gentlemen execute the orders of their Superiors by halves. But had the Carolina Commissioners been sincerely frugal for their Government, why did they Carry out provisions sufficient to support them & their men for ten weeks, when they intended not to tarry half that time? This they must own to be true, since they had 1000 lbs of provisions along with them.

Now after so great an experience in their prepararions, it had been no mighty addition to their charge, had they endured the fatigue of 6 or 7 weeks longer. It would have been at most no more than what they must be at whenever they finish their work, even tho' they should think proper to trust a matter of that importance to the management of one Surveyor who must have a necessary force to attend him both for his assistance & defence. These are all the reasons the Gentlemen think fit to mention in their Protest, tho' indeed they had still a stronger argument for retiring so abruptly which because they forgot it will be neighbourly to help them out. The provisions they brought with them for want of horses to carry them, were partly left behind, & what they could bring was husbanded so ill that after eighteen days (which was the whole time we had the honor of their company) they had no more by their own confession left than two pounds of bread for each man to carry them home. However tho' this was an invincible reason to these Gentlemen for leaving the business unfinished, yet it could be none to us, who had at that time Biscuit for seven weeks longer. Therefore lest their want of management, might put a stop to his Majestys service we thought it our Duty to proceed without them & have extended the dividing Line so far West, as to leave the Great Mountains on each hand to the eastward of us. And this we have done with the same fidelity & exactness, as if those Gentlemen had continued with us. Our Surveyors (whose integrity I am persuaded they will never
call in question) continued to act under the same oath, which they had done from the beginning. But notwithstanding all this, if the Government of North Carolina should not hold itself bound by that part of the Line, which we made without the assistance of its Commissioners, yet we shall have this benefit at least, that His Majesty will know how far his lands reach towards the South, and how far they may be granted without Injustice to the Lords Proprietors. To this we may also add, that having the authority of our Commission to act without the Commissioners of North Carolina in case of their disagreement or refusal we thought ourselves obliged upon their retreat to finish the dividing Line without them, lest His Majesty’s service might suffer by any neglect on their Part.

W. BIRD

WILL. DANDRIDGE

December 14th 1729.

After having adjusted our business with the Carolina Commissioners, we took our leave directing our course towards the West, while the pursued theirs towards the East. Mr. Fitzwilliam taking one of our men to attend him home, we hired one of the Carolina men to supply his place. It was two in the afternoon before we set out which together with the Thickets we encountered hindered us from carrying the Line further than 2 miles & 290 poles. In this distance we crossed Hiwo-otto-monkey Creek the 5th time, & took up our Quarters near Buffalo Creek, so called from the many signs of that shy animal. The bushes were so thick that we were obliged to cover our bread bags with the skins of the Deer we had killed. Our men shot a fat Buck & several Turkeys.

8 We hurried the Surveyors out at 9 o'clock, yet the woods continued so thick, that we could advance no more than 4 miles & 20 poles. Our clothes suffered very much by the bushes, & it was as much as our hands could do to preserve our eyes in our heads. Our poor horses could with difficulty force their way betwixt the Saplings with the burdens on their backs. These misfortunes hindered some of the baggage from reaching the Camp this night. We quartered near a Spring of very fine water, which the poor men wanted that guarded the baggage, but they comforted themselves with some of the rum they had under their care. The Indian killed a very fat Doe just time enough to hinder us from going supperless to bed. We had now no more than one Indian left, the other being gone back with the Commissioners of Carolina, by reason he thought himself not well enough to undergo the fatigue of so long & difficult a journey.

9. The Surveyors went to work about nine this morning but because the Bushes were so intolerably thick at first setting out, we ordered four
men to clear the way before them, but after a mile of those rough Woods, we had the pleasure to meet with clear and even grounds, by the help of which we carried the Line 6 miles exactly. The baggage came up with us about noon, & the men that guarded it had been half starved in the midst of plenty, not having dared to eat, for fear of inflaming their thirst. But we supplied all their wants. The Land was generally very good which we past over this day, one proof of which was that plenty of Angelica grew upon it. Our Indian shot a Mountain Partridge resembling the common Partridge in the plumage but as large as a hen. We saw several Deer but were so unlucky as to kill none. In several places we found very good slate.

10. We began this day very fortunately by shooting a fat Doe & two Turkeys. One of the men was unluckily heard this morning to wish himself at home, for which he was publickly reprimanded, & asked before all the rest whether it was the danger or fatigue of the Journey that disheartened him. This seasonable reproof put an end to all Complaints, & no body after that was known so much as to wish or show any marks of uneasiness. We Cross Coquade Creek 180 poles from our Camp, & 280 poles from where we intersected the south branch of Roanoke River the first time. Where we forded it 'twas 29 poles broad, having a small Island of Canes near the Western shore of it, which the Line cut. The Western bank of this fine River was bordered with tall Canes a furlong deep, so that it Cost much time to cut a way through them wide enough for the baggage. The stream ran about 3 miles an hour, & the water was as clear as Crystal. The bottom was gravelled & spangled very thick with small flakes of mother of Pearl, that almost dazzled our eyes. The sand on either shore sparkled with the same shining substance. The difficulties of passing the River, & cutting our way thro' that forest of Canes, hindered us from extending the Line farther than 3 miles & 260 poles. The days work ended a few poles to the westward of Cane Creek, about two miles & a half beyond the River. Our horses were fond of these Canes tho' they purged them a little at first, the Men killed a Deer & several Turkeys, but the Indian begged earnestly that our Cook might not boil Venison & Turkey together; for fear of spoiling his luck & making a Famine in our Camp, tho' we did not humour his superstition desiring to convince him there was nothing in it.

11. The Surveyors got to work by nine, & proceeded with the Line 6 miles & 240 poles. In the distance of 4 miles & 60 poles we crossed the River a second time, & found it something narrower than before, being no more than 24 poles over. The Western shore of it was thick set with
large Canes, tho' not for so great a breadth as where we passed it first. It Continued a most beautiful River, murmuring among the Rocks which were thinly scattered, here & there to make up the variety of the prospect. From thence to the end of our days work, which was something more than two miles, we found the Land broken, & the thickets very troublesome. This day we made the first discovery of the Mountains, tho' at a great distance to the N. West of our Course. We killed a Buck, & the Indian a Turkey, but he would not bring it to the Camp, lest we should boil it with our Venison, as we had done the evening before. In many places we found very promising Limestone.

12. The Surveyors got to work a little after nine, but were so intangled with bushes & grape Vines, that they could extend the line but 5 miles & 28 poles. The Vines grow very rank & grow up almost every Saplin, which shows how natural both the soil & the climate are for making of wine. We judged by the great number of Chestnut Trees that we approached the Mountains, & in truth several of the men discovered them plainly. We killed a young bear of two years old; the flesh of it was of a high relish inclining a little to the taste of Pork, most of the people preferred it to Venison, tho' it was inconvenient Diet in one respect, because they ate more bread with it.

13. This being Sunday we rested from our fatigue, & had a sermon. In the afternoon we had leisure to weigh to each man his weekly allowance of Bread, which hitherto had been 5 pounds, but from thence forth we thought it necessary to shorten their allowance to 4 pounds which with plenty of meat was sufficient. The men killed abundance of Turkeys, & saw the mountains distinctly from the neighbouring hills. The weather was lowering & threatened rain which made us take the necessary precaution for securing our bread in time.

14. It began to rain about 3 in the morning, nor did it hold up till near noon, which made us give over all thoughts of decamping. The men went out a hunting after dinner, & killed 3 Deer & 4 Turkeys with which they fortified themselves against the damp weather. At 6 in the evening it rained again, & held not up till nine when the clouds brake away, & gave us a sight of the stars. It was observed when the men had plenty of meat, and nothing to do, they kept cutting all day long to preserve them from idleness.

15. The weather promising to be fair, we dried our baggage with all diligence, but could not set the Surveyors to work till 12 o'clock. At the distance of 240 poles from our Camp, the Line cross'd the River a third time, & one mile & 7 poles beyond that, it cut it the 4th time. In
both places it was something narrower than formerly, but deeper, with Canes growing on the Banks tho' always most on the West side. The difficulty of crossing the River each time retarded our business so much, that we could push the Line but one mile & 300 poles. Our baggage did not cross the River at all, but went round the Bent of it. We forded a large Creek both sides of which afforded plenty of Canes, which from the dark colour of the water, we called Sable Creek. In the evening we encamped on a pleasant ground that commanded the prospect of both Reaches of the River.

16. The Surveyors hurried away & proceeded with the Line 4 miles & 311 poles. At the end of their days work they came upon the River the 5th time, over which we could not find a safe ford. On our way we crossed a small Creek not far from where we lay on which grew abundance of Canes. About 3 miles distance we forded a larger Creek, which we called Low land Creek from a great breadth of low ground made by that & the River. We were obliged to go two miles higher than were our Line buttled upon the River, in quest of a Ford, & in that distance passed by several Indian old Fields where the Sauro's had formerly planted Corn; their town not lying far off, which is now deserted. Our people killed no less than 4 Bears, one Deer & 3 Turkeys, so that this was a land of plenty both for man & beast.

17. Our Surveyors moved early, being obliged to go back near two miles before they could get over the River. Nor was it without difficulty & some danger that we crossed this Ford, being full of Rocks & holes, with a current trembling over them so swift that it made us giddy.

However thank God we all got over safe, with no other damage but wetting a little of the bread. This puzzle of getting over the River, & the rough woods we had to encounter, hindered us from extending the Line further than 2 miles & 250 poles, to the banks of Cascade Creek, so named from the many waterfalls we observed in it. In the Course that we conducted the baggage, we traversed rich high Land & clear of underwood. In this day's journey as in many others before, we saw very beautiful marble of various colours, & near the banks of this Creek we observed a stone of a fine grain that flakes naturally into thin pieces proper for pavement. About a mile to the N. West of our Camp, was a high mount that Commanded a full prospect of the mountains, & an extensive view of all the flat Country. Our men killed a Cub & a Fawn. We took up our Quarters the sooner, because we were threatened with rain.
18. The weather clearing up with a brisk N. W. easter, our Surveyors were dispatch'd a little after nine, & ran the Line 6 miles & 30 poles to a branch of the Dan, which we called the Irwin. The neck of Land made by the forking of the River, is supposed to be the place of the old Sauro Town. On our way we passed over a large Level of rich land covered with thickets for 4 miles together, but in all that Distance we could meet with no water. We forded the Irwin with difficulty, by reason of the slippery Rocks on which the horses could hardly keep their feet. Our Indian Killed a Doe extremely fat.

19. About 9 the Surveyors took their departure, & proceeded with the Line 5 miles and 135 poles, nor was it a small days work, considering the way was much more uneven and fuller of bushes than ever. Four miles & 12 poles from the Irwin we crossed Matrimony Creek, so called from being a little noisy. In our march we saw a small Mountain 5 miles to the N. West, which we named the Wart. It was late before we encampt because we endeavoured to find a plentiful place for the horses, which now began to be very thin & weak, but night coming on we were forced to take up with uneven ground, so over run with Saplings, that we could not see ten yards round us, nor was there any picking for the horses, except a little wild Rosemary, of which they are very fond: but it grows so thin, they can never fill their bellies with it. We killed nothing but a Turkey.

20. It was now Sunday which we spent as we ought, but the Indian who knows no distinction of days, went out & killed a monstrous large Bear, which came very seasonably, because the men having nothing else to do, had eat up all their meat. The woods had been so full of smoak for several days, that we had quite lost sight of the mountains, tho' we approached them every day. There was plenty of wild grapes near our Camp, that were very sweet, & might doubtless be improved & made much larger by cultivation.

21. We got to work a little after nine, yet the hills were, so sharp, & the bushes so troublesome, that the Line could advance no more than 4 miles & 270 poles. One of our men going out in quest of his horse, lost himself, being no expert woodsman, but we sent two others to look for him, who by good fortune found him in dispair of ever seeing us again, & brought him to the Camp. However his horse could not be heard of, tho' we sent several men to beat all the neighbouring woods, but to no purpose. The smoak still continued to hide the mountains from our sight. The Indian killed a very fat Bear.
22. This morning early we sent back two men to make a second search for the horse that was missing, but they returned without success. The Surveyors carried the Line only 1 mile & 230 poles. We crossed a small Creek called Miry Creek, several of the men having been mired in the branches of it. Our Line intersected another River, that runs out of the Dan, which we called the Mayo. We forded it just below a ledge of Rocks, & took up our Quarters on the Western bank of it. This River empties itself into the Dan about a quarter of a mile below the place where we encamped. The men killed a Deer & 6 Bears.

23. The Surveyors moved before 10 this morning, & could proceed with the Line no more than 4 miles & 69 poles. At the distance of 62 poles from our camp, we forded the Dan the 6th & last time. It was not without difficulty that we got over, tho' thank God it was without Damage. It was very Mountainous great part of the way, & the last mile we encountered a locust thicket, interlaced all the way with briars & grape vines. In our Course we crossed a large Creek no less than 5 times, whose banks were so steep we were obliged to cut them down with a Hoe, which we carried with us for that purpose. We called this Crooked Creek, because of the perpetual windings of it. The sides of it abounded with Cane, which were very seasonable for our poor horses, that were jaded with clambering up so many precipices.

24. The Surveyors got out sooner than ordinary this morning the men having no breakfast to provide, which used to detain them. It seems that they had been so unthrifty as to eat up all their meat for supper the night before for which they were obliged to fast this morning. However one of them singed all the hair off of a Bear skin, and boiled the pelt into broth, with which he & his particular friends broke their fast. The Line was carried 6 miles & 300 poles & in that distance crossed Crooked Creek 8 times more. We traversed a thicket about two miles in breadth full of Locusts & Hicory Saplings which are tokens of a rich soil; but there was hard by a great tree to be seen. After this our way was very mountainous & the woods very open, except the last half mile, which was full of bushes & grape vines. We were obliged to quarter in a place of great scarcity for the horses, but the men fared better by the good fortune of the Indian, who shot two Bears one of which we found asleep.

25. The Surveyors went out early yet were not able to push the Line further than 4 miles & 205 poles. The woods were so very thick for near 4 miles that they tore the very deer skins that guarded the Bread bags. The air cleared up this morning, & we were agreeably surprised
with a plain prospect of the mountains both to the North & South of the Line. Those in the North rose 3 distinct ledges one above another, but those to the South formed no more than one single ledge, & that not entire, but in some places broken & interrupted. One of these mountains was prodigiously high, & the west end of it terminated in a horrible precipice. Their distance on either hand did not seem to exceed 6 miles. The course of those to the Northward ran W. S. W & those to the Southward about W. N. W. We could discern other mountains in the course of our Line, at a greater distance where the 2 ridges seemed to join & formed a natural Amphitheatre. Our hunters were so unlucky as to see no Game so we had no other supper, than the scanty remains of yesterdays plenty.

26. The Surveyors measured no more than 300 poles this day to a small Rivulet running to the Southward. This we judged was either a branch of Roanoke or else of deep River, which the Traders say is the North branch of Cape Fear. We determined to proceed no further West with the dividing Line, because the hills began to be so high & steep that they were not practicable for horses, especially not for ours, which had been jaded with so long & difficult a Journey. Besides our Bread was grown too scanty, & the season of the year too far advanced. We had also reason to expect snow & rain, which would raise the Rivers, & so hinder our return, perhaps for the whole winter. The last Line Tree was a Red Oak, with the trees blazed all round it. Near the place where we encamped we found a pair of Elkshorns, & discovered the track of one of them very plainly. They Commonly range to the Northward as Buffalo's do to the Southward, & these love a plain Country whilst the others delight amongst the Hills, & seldom come down so Low as the Inhabitants. The whole distance from Corrotuck Inlet to the Rivulet where we made an end is 241 miles & 230 poles, & from the place where the Commissioners of N. Carolina left us, to the end of the Line is 72 miles & 302 poles most of it hilly & exceedingly full of Underwoods.

27. This being Sunday we were not wanting in our thanks to Heaven for our constant sustenance & protection during the whole Journey to this place; nor did our Chaplain fail to put us in mind of our Duty by a sermon proper for the Occasion. Upon inquiring into our Quantity of bread, we found we had no more left than would last us a fortnight at short allowance. For this reason after the distribution was made, we recommended it to the men to manage it to the best advantage, not knowing how long we might be obliged to subsist thereon. We ordered them all to look well to their horses, & drive them up over night near the
Camp that they might be easily found next morning. There fell some small rain before noon, but it held up after Dinner, which gave us an opportunity to climb up the neighbouring Hills to take a view of the Mountains. We observ'd plainly from thence, that we were shot in betwixt the two Ridges, both which stretched away several miles to the Eastward of us. In the evening we deliberated which way would be the best for us to return. We had intended to cross over at the foot of the mountains to the head of James River, that we might be able to describe that Natural Boundary so far: but the weakness of our horses, our scantiness of bread, & the near approach of Winter put an end to that project & determined us to make the best of our way back upon the Line. We knew the worst of that & had a beaten path all the way, while we were ignorant what difficulties the other course might be attended with.

28. The horses were brought up very early but the great likelihood of rain prevented our being too hasty in decamping, & we judged right for at ten o'clock it began to rain in good earnest. However this happened luckily for the horses, which got so much the more rest by it. Our Camp being in a moist situation several of the men began to be out of order, but the remedies we applied proved very successful. The most unlucky accident of all was Mr. Dandridge had a formal fit of the gout in this place. This set our inventions at work how to carry him along in such unfortunate circumstances. It was impossible for him to ride on horseback without exposing his foot to be bruised & tormented by the Bushes. However he resolved to try had not the rain happened, seasonably to prevent him.

29. We ordered everything to be in readiness for our departure, but were stopped again by a smart rain. However what we thought a disappointment proved a real service to us, by giving Mr. Dandridge time to recover so far as to be able to draw on his boot the day following. It also helped to recruit the poor horses. In the afternoon it held up & our men went to drive the woods & killed 2 Bears, but the man that was bewildered before, by struggling too far from his Company lost himself a second time. We fired several guns to direct him by their report to the Camp, but all to no purpose.

30. In the morning the lost man steer'd a direct Course to our Camp by the sound of the Bells upon our horses. About 9 everything being in readiness, we began our march towards the rising sun. Tho' we had now finished the Line we had still a great fatigue to undergo in returning about 300 miles to our respective homes; & this fatigue was the greater, because we were obliged to march on foot most of the way to favour our horses, which were now grown so weak, that they staggered under their
Riders. Some of them were so jaded that they were not able to carry so much as their saddles & we were obliged to leave no less than 7 of them not far from the mountains, that would not stir a step further. The first clear night we took the variation again, & found it much the same as at Corotuck Inlet. We likewise endeavoured to try the Latitude, but the wind hindered our observation from being perfect. No remarkable disaster befall any of us in our return, the worst that happened was that some fell into Creeks, & others into Rivers thro' the weakness of their horses. Providence was so good as to supply us day by day, in this lonely desert with sufficient provision. We saw no track or sign of any Indians in the whole journey. We met with several cross paths, but we judged them to be made by Buffalo's. We had the fortune to kill one of these bulky animals in coming back near Sugar Tree Creek. He was a young Bull of two years old, but equal to a full grown Stear in bigness. His legs were much shorter & his body much deeper than of the tame Cattle. His horns too were very short but very strong, with shagged hair on his head & shoulders. That on his head was coarse & frizzled, but that on his shoulders was soft like wool & long enough to spin. The flesh differs in nothing from common Beef, but only that the fat is yellower. The species must be the same with the tame Cattle, because the mixt breed will generate. It is remarkable that we were never catcht in the rain, either out or home, except once & then we found encamping on wet ground to be very uncomfortable. At other times it rained either at night or on Sundays or else after the tent was pitcht & secured by a Trench. None of our company had any illness or disaster of any consequence during the whole expedition, but Heaven be praised we all returned in perfect health to our several habitations about the 22nd of November. We had been out in the whole upon the service of the Line (including going and returning) 16 weeks, & travelled above 600 miles.

Below towards the Sea our Course lay through Marshes Swamps, & Mirey Branches, and above over steep Hills Rocky grounds, or Thickets hardly penetrable. Yet notwithstanding all these Difficulties we may venture to say for ourselves, that we have performed the business faithfully & effectually in which we had the honour to be employed.

They found a true Meridian Line by means of the Pole Star and the first in the Tail of the great Bear, from which the Needle varied 3° towards the West, so that the due West line to be run was by the Needle N. 87° West.

6th They observed the sun's Meridional Altitude on the North shore of Currituck Inlet and found it to be 52° 25' 58'' The sun's Declination for that time 1° 3' 21'' south so that the Latitude of Currituck Inlet is 36° 31' 13''

Here they were interrupted by a Beaver Dam, so that they could not proceed directly with the Line but were obliged to work a Traverse in order to find where it intersected the west side of the said Beaver Dam,

ACT XXIV.

The Governor and Counsell with the Burgesses of the Grand Assembly havinge taken into serious consideration the estate of the collony and finding that many people have (through their engagemens in England) forsaken their native country and repaired hither with resolution to abide here, hoping in time to gain some competency of subsistence by their labors, Yet neverth'les their creditors hearing of their abroad here in the collony, have prosecuted them with their actions to the ruine of the said debtors, And having duly weighed the causes and reasons inducing such debtors to leave their country and friends, And if such suits and pleas be thus early admitted before the country shall have come to better maturity, It might hazard the desertion of a great part of the country, Therefore that the general good be preferred before the particular ends of any person, The Governor Counsell and Burgesses do hereby enact and confirm, that all process and suits of this nature be suspended until his majestie shall signifie his royal pleasure herein, Provided that if it shall appear to the Governor and Counsell that the debts so impleaded have relation to the collony either for adventure of any goods or for the accomodation of any planter in or for his return into the Colony, Then it shall and may be lawful for any creditor upon just proof of his debt to have such relief as in justice shall be found due. Any thing in this act to the contrary notwithstanding.

AN ACT CONCERNING FORREIGNE DEBTS.

Whereas it was omitted to be incerted in the printed laws of this country that monies due in England for any consideration not imported into this colony should not be pleadable here It is therefore enacted and
declared that the said act was never repealed, but that it hath always bin and still does continue in force, and that according to the tenor thereof noe debt whatever is pleadable against any inhabitant of this country but for goods imported in this country.

AN ACT DECLARING MARYLAND AND NORTH CAROLINA DEBTS PLEADABLE.

Bee it enacted by the governour, councell and burgesses of this generall assembly, and the authoritie thereof, and it is hereby enacted, That all debts contracted, or to be contracted in Maryland or North Carolina are, and shall be recoverable in Virginia in equall manner and by the same lawfull ways and meanes, as though the same were or had been contracted in Virginia, any law, statute or usage heretofore to the contrary notwithstanding.

AN ACT TO SUSPEND PROSECUTIONS FOR FOREIGN DEBTS PASSED SEPTR 25th 1683.

[The text of this Act has not come down to us, but its purport can be gathered very easily from the following letter of the Lords Proprietors in regard thereto.—EDITOR.]

[B. P. R. O. Colonial Entry Bk. Vol. 21.]

LORDS PROP’T OF CAROLINA TO THE GOV’ & DEPUTIES.

Whitehall. this 9th of June 1684

We have seen an Act passed in that part of our Province of Carolina that is under your Government intituled an Act to suspend prosecution for Foreign Debts dated the 25th of September 1683 which Act totally prohibiting the prosecuting of any body for any debt Debate controversy
APPENDIX.

Action or Cause of Action duties or Demands whatsoever, arising without the Limits of Carolina, is in effect to stopp the currant of Common Justice, and against the Kings hono' & dignity, & more than you have power to do it being directly repugnant to the Laws of England wherefore we do think fitt to let you know, that we do no way consent to the said Act nor are you to suffer it to be put in Execution, for we have power only to make Laws not repugnant to the Laws of England, And by an Act of Carolina to stopp or prohibit any man seeing for his debt though not contracted in Carolina, is repugnant to the Laws of England.

Wee are extremely concerned to find that we have been so unfortunate as to place the trust of the Government into the hands of men who have no greater regard to the reputation of it, & who being themselves Magistrates and to Administer Justice to others have had noe share by a Law to publish to the world that if any man can get into his possession another mans estate or goods let him come to Carolina and he shall by the Law be protected in the unjust detention of them, but though those we did intrust with the Government have thus forgotten their duties, we ought not to forget ours, and that we may to the world testify our dislike & abhorrence of such an attempt, we do require you Sir Richard Kyre our present Governor and of whose aversion to such Actions we have good assurance to inquire if any of the Justices or Sheriffs of the County Courts have had any hand in the promoting of this Act And if you find they have that you dismiss them from their places & put men of better principals in their room for we can expect no good Administration of Justice from such men And whereas we did formerly by our Instructions give power to the Governor & our Deputies to pass Laws that should be in force for two years & no longer unless in the mean tyme they were ratified & confirmed by us, wee doe now think fitt & hereby do repeale the said power, And our will & pleasure is, and you are hereby impower'd to pass Laws that shall be in force for two years and no longer unless ratified by us, and shall cease and become void before the expiration of the said two years as soon as under the hand & seal of the Pallatine & three more of us the Lords Proprietors, we signify our dissent to or our disapprobation of any of the Laws passed and this to continue until otherwise ordered by us or the fundamental Constitutions come to be put fully in practice.

To the Governor & Deputy &c
AN ACT FOR THE ENCOURAGEMENT OF THE BETTER SETTLEMENT OF SOUTH CAROLINA.

Whereas several honest and well meaning persons by misfortunes in the wars between the Crowne of England and France and other similar accidents have been brought in debt more than in due time they were able to pay to avoid the urgency and severity of their creditors and to gain time to enable themselves to pay their debts have been forced to remove themselves and families out of Europe into his Majesties plantations in the West Indies and out of one plantation in the said West Indies into another: To encourage such persons to transport themselves and families into this Collony, the most fertile in the West Indies and to enable them and such others already here by their industry and diligence employed on a fruitful soil to pay their debts,

1. Be it enacted by his Excellency William, Earl of Craven Palatine and the rest of the true and absolute Lords and Proprietors of this Province by and with the advice and consent of the rest of the members of the General Assembly now met at Charlestowne for the southwest part of this Province And it is hereby enacted by the authority of the same, That no person now inhabiting in South Carolina shall be arraigned sued or impeached in any court or imprisoned for any debt whether the same be by bill bond or any other specialty, reckoning or account whatsoever, contracted before his arrival into South Carolina till after five years after the ratification of this act and that no persons whatsoever who shall hereafter transport themselves into South Carolina there to plant and inhabit shall be arrested sued or impeached in any court or be imprisoned for any debt whether the same be by bill bond or any other specialty accomplish or reckoning whatsoever contracted before his arrival there till and after five years after his arrival here.

2. Provided always and it is hereby further enacted that no factor agent merchant or other person whatsoever who hath or shall contract any debts for goods wares or merchandizes or for money or credit to buy goods wares or merchandizes to be brought into South Carolina shall have any benefit or privilege by this act anything therein to the contrary notwithstanding.
APPENDIX.

[BR. P. K. O. COLONIAL ENTRY BE. VOL. 21.—LAST ENTRY.]

To the Right Honourable Seth Sothell one of the Lords and absolute Proprietors of the Province of Carolina Chancellor Governor and Commander in Cheefe of all their Majestie's Forces in the said Province.

Right Hon'ble

Please to admit of an address which though it contains little else besides the relation of those mistakes which usually attend affairs transacted at a thousand leagues distance and the uneasiness alwayes subsequent thereto yet at this time is the happy result of your Hon'ble arrival into this part of this Province for the reavereence and fidelity which we scarcely owe to all the Lords and absolute Proprietors of this Province and the certaine knowledge we had that thater Lordships in general were neaver rightly informed of their affairs here hath now for many yeares encourag'd us to patience under wth we have not permitted ourselves even to sight soe loud as to be heard by their Lordships yet overjoyed with your presence we are of a suddaine full of hopes y' all which is amiss will be amended and those miserable disquietudes and uncertainites wth we have labored under will be noe more heard of except in the method the Lords Proprietors shall be pleased to use in the ablation of them, The age of the Story we are to tell and the variety of matter will not admit of a very short discourse but we shall industriously avoyd prolixity and Pharraphrase & shall onely give trew and plaine narrative of affaires which we hope like things demonstrative to the senses will at first sight sufficiently express y' knowledge of y' maleady we would have cured, and we in most humble manner by the favor of y' Honor to peruse this paper yorselpe and send it to his Excellency the Palatine and every other of y' Lords Proprietors singly with such advantage to this Country and such candor and favor as your Hon'ble hath soe often since your arrivall here given us reason to expect from your Goodness. Bee pleased therefore to be informed that in the year 1669 the Right Honorable the Lords and absolute Proprietors of this Province did encourge by seaverall gracious concessions seaverall people to come in their vessells provided by them to inhabitt this part of their Province and with the said people did send one Commission under their hands and the greate Seal of the Province dated y' twenty sixth day of July 1669 directed to Co'n Wm. Saile Gouvernor & others his Councellers and assistance with Instructions alsoe
and in particular that the crimes they were charged with were in the
bastest sense imputable to those that informed against them.

That a Commission was sent to examine some witnesses about some
Gentlemen dealing with and this Commission was directed to those yt were
generally most guilty and the Commission being lost the Commissioners
signed and sealed another new Commission for themselves to examine the
matter and then did proceed to examine witnesses after such a partial
manner as never was heard of in particular askinge the witnesses whether
they did not mean soe and soe contrary to the words of the witnesses
and another said to an ignorant man a Witnesse come friend tell me in
short the heads and we will have it put into forme &c. and at last the
Gentlemen were cleared and considering yt dealing some of those Comi-
sioners had then had (as well as since) with those Piratts it was easily
conjectured that these Gentlemen were intended to be exposed upon the
accompt of particular dissatisfaction concerning other matters taken
against them by particular persons but since we have said the Lords
Prop* did send the said Commission and Letter we do herewith all sin-
cerity declare that we utterly abhor and detest the thoughts of imputinge
the least fault unto their Lordships in Generall in this or in an other case
beinge well assured yt their Lordships have not leisure to mind the min-
ute transactions and aaires yt arise from hence and yt in particular we
are well informed that their Lordships doe not know the names or per-
sons of people here (generally speakinge) till they heare of them from
those of their owne honourable number with keepe correspondence with
some here and we hope to be the rather believed in this when we have
further informed your Hono* and their Lordships.

That most of the Gentlemen of this Countrey are soe unhappy as not to
know the Lords Prop* or to have correspondence with any except one or
two of them and they are discouraged from writeinge to those too because
they have not agreed in opinion with them concerning Fundamentall
Constitutions Indentures for lands and in matters of orderinge then
Indian trade but when they have writ freely their minds they have been
checkt and some dealt hardly with therefore and the Letters sent to the
Lords Prop* from the Councell sealed & signed by the Comoners have
not been believed and others not delivered but misrepresented by con-
struction made according to the Letter of those four or five persons here
who must and we had almost said dare not write but as shall plese those
who direct them for though most of them be Lords Deputys yet they
are put in by the Governor here and there persons & dangerous insuffi-
cencies wholly unknowne to the Lords who they represent And this it is
APPENDIX.

y\textsuperscript{t} these men which most of them here are knowne to be extremely perverse or ignorant men are the onely Informers of matters here which however would not be of soe bad a consequence if other persons could have the opportunity to speake for themselves or when they have found other Judges then those who have informed against them and are thereby become Partyes.

That the Lords Prop\textsuperscript{t} forbiddinge Pattens to be passed as at first for Lands and enjoyninge all persons y\textsuperscript{t} will have lands to take them by Indentures in which the words or the value thereof are left out and a reservation expressed of reentry whereas in the Pattens and in all the Fundamentall Constitutions it was expressed a penny an acre or the vallew thereof without any mention of reentry hath been the occation y\textsuperscript{t} many hundreds of People have deserted this Colony and that many thousands have forbore cominge hither. The Lords Prop\textsuperscript{t} have been pleased in their first consesions Agrarian Laws and Fundamentall Constitutions to publish to the world y\textsuperscript{t} men here should have Lands by Pattens for a penny an acre or the vallew thereof and people upon that Encouragement came hither not doubtinge but y\textsuperscript{t} thousands would soon follow them but they are to their great misfortune deceived and unless the Lords Prop\textsuperscript{t} will be pleased to convey their Land by some easier way are like to be left alone here and in particular many People did not at first take up all their Lands due to them because of the poverty and other Incumbrances that did attend the new settlement and those think themselves extremely hardly dealt with all that they cannot have Pattens as those had that came here at the same time with them, We doe not presume to prescribe methods to the Lords Prop\textsuperscript{t} of disposing their own Lands but wee humbly propose it as rationall y\textsuperscript{t} men that cannot gett money in this Country where there is noe mint may pay their rents in the most valluable and marchantable produce of their Lands it was soe in England till tenents by the increase of a foraigne trade found it best for themselves and Land Lords to pay in money it is now soe in most of the East Countreys and particularly in most part of Scotland where the great mens estates in their publick acts of Parliament are vallewed by the number of chaldrons of corne they receive for rent we shall not adde upon this matter but y\textsuperscript{t} we in the behalfe of the whole Countrie most humbly and heartily begg and beseech the Lords Prop\textsuperscript{t} out of their favourable beneficence to be pleased to grant y\textsuperscript{t} whatever y\textsuperscript{t} consequence be y\textsuperscript{t} y\textsuperscript{t} Lands shall therein be granted for a penny an acre or the vallew thereof without any expressed reservation of reentry and the people will allways in Parliament or otherwise be ready to adjust the price of commoditys soe as that

107
y' Lords Prop* shall be gainers and then we doubt not but in a very few yeares to see such multitudes of Tennants here as y' their Lordships shall quickly be reimbursed their great charge and this we are the more confident of because we are encourag'd with several new rich Comodityes as silk, cotton, rice and indigo which are naturally produced here.

That we cannot but with abhorrence and detestation thinke of the base and vile usage yo' Hono' received after your arrivall here from y' Lords Deputies and the late Governor and as a marke of our Duty be pleased to admett of our sence of the matter as followeth

Wee thinke them to have beene extreme rude and unmannerly in not wayteinge upon your Hono' at any time after your comeinge a shore while all the Gentlemen and considerable persons in the Countrey did as soone as they heard of yo' arrivall immediately attend yo' Hono' and paid their respects to yo' person and made their due acknowledgments of those illustrious qualites y' attend it. Wee thinke alsoe y' their actions and words towards yo' Hono' in the first meetinge you had with them which was at a Pallatines Court was very rude and unjust in endeavoreinge first to enter a false record concerninge you and then in threatninge to doe y' which afterwards thy endeavore dbut failed to doe because your Hono' not at their request subscribe the Cppy of Fundamental Constitutions the Orriginall whereof you had before signed and sealed in England and yet at the same time suffer a record to be made that you did approve of certaine Instructions as a rule of Government in this Colony which were in some articles contrary and in some preffered even before these Fundamental Constitutions yo' Hono' best knowes how they dealt with you that day while we were absent but we earnestly begg that your Hono' will youreselfe write to the Lords Prop* an exact account of that days transaction in the Pallatines Court (for we y' are well experience in the untoward shifts they have now a long while used to Governe by here) are afraid y' they will not write to y* Lds. Prop* w* thay correspond with what Is and was really done and said but what shall be most necessary to justifie their after seditious & wicked practices against your person and this we rather believe because they have reported strange various Tales concerninge yo' Hono' which sometimes contradicts themselves and are allways very undecent and unlikely but wee cannot with patience endure the thoughts of nor find fitt words to express their undutifull and rebellious actions few days after when they caused the drums to beate at Charles Towne and Souldiers to take armes without your Knowledge and order (though you were then in Towne alsoe) and did cause to be fixed up in a publike place in the said Towne as alsoe to be filed
in the Secretarys Office a most pernicious and seditious libel against you chargeinge you with Treason and other Crimes to be commited by you and declareinge that the people need not obey yo' Hono' as Governor till they under their hands & scales did please to admitt of it which had certainly put the whole Country into blood and distraction had not the justice of your cause been soe plaine and obvious to every man and their malice been soe extravagant and ill guided by the meanness and weakness that attended them but we doubt not but in due corse of Law your Hono' will lett them know that the Lawes will be exerted against those that dare soe publickely offer such abominable insolencies against the person and rights of one of the Lords and absolute Prop' of this Province and wee give our most hearty acknowledgments for y' your Hono' hath been pleased to lay aside soe many of the deputyes as by Law and the Lords Proprietors Instructions you might the whole Country being apparently thereby preserved from confusion and dissolation and we alsoe render our particular thankes that you have already issued out your writs to call a Parliament as by a Petition voluntarily signed by power of five hundred of the best people in this County you ware humbly requested to doe and wee doubt not but in the next parliment Lawes will be made to preserve the whole Collony in peace and prosperity and from all enemies abroad and Martiall Law without legall ocation at home, as to the signeinge agen of the Fundamentall Constitutions we will not trouble your Hono' with any discorse or arguments this Paper beinge intended generally as a bare narrative of former Transactions here without the adition of our one particular opinions in a matter of y' Moment as to the Instructions wee owne that the Lords Prop' have the power of sending and such as they please but cannot believe that their Ldships did ever intend y' Prima facia and without the assent and approbation of the people they are to be received and put in practice as Statute Lawes except in such Matters as wholly belong to their Lordhips order and direction accordinge to the Royal Charter and we humbly observe that the late Instructions to which the Deputies would have had your Honour made a record of your approbation of them as absolute rule of Government are in some articles contrary to the Lords Proprietors Fundamentall Constitutions in matters practicable at this time and in two articles are positively prefered before all Fundamentall Constitutions wee have noe more to trouble your Hono' with at the present and the rest of the Lords Prop' but humbly to informe that we are resolved in the next Parliament to promote the sending home to England of two persons sufficiently comissionated to treate with the Lords Prop'
about all the affairs of this part of their Province and that we hope such agreement will thereby be made as that we shall hereafter flourish and prosper in meantime we shall endeavor as much as in us lies to assist your Honorable according to our dutys to keep peace and tranquility here and to cause justice to be distributed according to Law.

AN ACT FOR THE MORE EFFECTUAL PRESERVATION OF THE GOVERNMENT OF THIS PROVINCE, BY REQUIRING ALL PERSONS THAT SHALL HEREAFTER BE CHOSEN MEMBERS OF THE COMMONS HOUSE OF ASSEMBLY, AND SITT IN THE SAME, TO TAKE THE OATHS AND SUBSCRIBE THE DECLARATION APPOINTED BY THIS ACT, AND TO CONFORME TO THE RELIGIOUS WORSHIP IN THIS PROVINCE ACCORDING TO THE CHURCH OF ENGLAND, AND TO RECEIVE THE SACRAMENT OF THE LORD'S SUPPER ACCORDING TO THE RITES AND USAGE OF THE SAID CHURCH.

As nothing is more contrary to the profession of the Christian Religion, and particularly to the doctrine of the Church of England, than persecution for conscience only; nevertheless, whereas it hath been found by experience that the admitting of persons of different persuasions and interest in matters of religion to sitt and vote in the Commons House of Assembly, hath often caused great contentions and animosities in this Province, and hath very much obstructed the publick business; and whereas by the laws and usage of England, all members of Parliament are obliged to conforme to the Church of England, by receiving the Sacrament of the Lord's Supper according to the rites of the said church;

Be it therefore enacted by His Excellency John Lord Granville, Palatine, and the rest of the true and absolute Lords and Proprietors of this Province, by and with the advice and consent of the rest of the Members of the Generall Assembly now met at Charlestown for the South-west part of this Province, and by the authority of the same, that every person that after the ratification of this Act shall be chosen a Member of the Commons House of Assembly, that hath not within the space of twelve months before such his election received the Sacrament of the Lord's Supper according to the rites and usage of the Church of England as established by law, such person after his election, and before he be permitted to sitt and vote in the said House, shall receive the Sacrament of the Lord's Supper, according to the rites and usage of the Church of England, in some publick church, upon some Lord's day, commonly called Sunday, immediately after divine Service.
and sermon; and every of the said persons, in open Assembly, in a full
house, duly sitting, with their Speaker in his chair, shall deliver a certifi-
cate of such his receiving of the said sacrament as aforesaid, under the
hand of the respective Minister, or shall make proof of the truth thereof
by two credible witnesses at least, upon oath.

II. But whereas, some persons scruple the receiving the Sacra-
ment of the Lord's Supper, by reason they fear they are not rightly
fitted and prepared to partake of that ordinance, who do never-
theless out of real choice conforme to the Church of England as
established by law, and do sincerely profess the same, and do not
abstain from the Sacrament of the Lord's Supper out of any dis-
like to the manner and forme of the administration thereof as used
by the Church of England and prescribed in the Communion office
in the book of Common prayer of the said Church: Be it therefore
enacted by the authority aforesaid, That every person that after the rati-
fication of this Act shall be chosen a Member of the Commons House of
Assembly in this Province, in case he hath not received the Sacrament of
the Lord's Supper, according to the rites and usage of the Church of
England, as is before prescribed by this Act, then every such person
before he vote in the said Commons House of Assembly, or sit there
during any debate in the said house, after their Speaker is chosen, shall
upon his oath taken on the holy Evangelists, declare that he is of the
profession of the Church of England, as established by law, and that he
doeth conforme to the same, and usually frequent the said Church for the
publick worship of God, and that he doth not abstain from the Sacra-
ment of the Lord's Supper out of any dislike to the manner and forme
of the administration thereof, as used by the said Church of England,
and as it is prescribed in the Communion office in the book of Common
Prayer of the said Church, and that he is not, nor for one year past hath
not been in communion with any Church or Congregation that doth not
conforme to the said Church of England, nor received the Sacrament of
the Lord's Supper in such Congregation, and that as a member of this
the Commons House of Assembly, he will endeavor the good and wel-
fare of the said Church of England, as established by law; which said
oath or declaration of conformity to the Church of England, shall be in
the form herein set down and prescribed, that is to say:

I, A. B. do solemnly and sincerely, in the presence of God, profess,
testify and declare, that I am of the profession of the Church of En-
land, as established by law, and that I do conforme to the same, and
usually frequent the said church for the publick worship of God; and
APPENDIX.

that I do not abstain from the Sacrament of the Lord's Supper out of any dislike to the manner and forme of the administration thereof, as used by the said Church of England, and as it is prescribed in the Com- munion office in the book of Common prayer of the said church; and that I am not, nor for one year past have not been, in communion with any church or congregation that doth not conforme to the said Church of England, nor received the Sacrament of the Lord's Supper in such con- gregation; and that, as a Member of this House of Assembly, I will endeavor the good and welfare of the said Church of England, as established by law. So help me God.

Which said oath or declaration of conformity shall be solemnly and publickly made and subscribed by every member of the Commons House of Assembly (that doth not produce a certificate or other proof of his having received the Sacrament of the Lord's Supper as before prescribed by this Act) between the hours of nine in the morning and four in the afternoon, at the table in the said House, and whilst a full house is sitting with their Speaker in his chair; and every such person that shall upon oath make and subscribe such declaration of Conformity to the Church of England, is hereby declared to be sufficiently qualified to be a member of the Commons House of Assembly, as if he had received the Sacra- ment of the Lord's Supper according to the usage of the Church of England, as is above prescribed by this Act.

III. And be it further enacted by the authority aforesaid, That all per- sons that after the ratification of this Act shall be chosen members of the Generall Assembly, before they vote in the Commons House of Assembly, or sitt there during any debate in the said House of Commons after their Speaker is chosen, shall, on the Holy Evangelists take the oaths appointed to be taken, instead of the oaths of allegiance and supremacy, by one Act of Parliament, made in the first year of the reign of the late King William and Queen Mary, entituled an Act for the abrogating of the Oaths of Supremacy and allegiance and appointing other Oaths; and shall make and subscribe the declaration appointed to be made and sub- signed in the Act made in the thirtieth year of the reign of the late King Charles the Second, entituled an Act for the more effectual Preserving the King's person and Government, by disabling Papists from sitting in either houses of Parliament; and shall also take the oath appointed to be taken by one Act of Parliament made in the first year of the reign of her present Majesty entituled an Act to Declare the alterations in the Oath appointed to be taken by the Act intituled an Act for the further security of her Majesty's person, and the succession of the Crown in the Protest-
ant line, and for extinguishing the hopes of the Pretended Prince of Wales, and all other Pretenders, and their open and secret accusers, and for declaring the Association to be determined. Which oaths and declaration in every succeeding Assembly shall be solemnly and publicly made and subscribed, betwixt the hours of nine in the morning and four in the afternoon by every member of the said Assembly, at the table in the said house, and whilst a full house is sitting with their Speaker in his chair.

IV. And be it further enacted by the authority aforesaid, That if any person that shall hereafter be elected a member of the Commons House of Assembly, shall presume to sit and vote in the said Commons House after their Speaker is chosen, before he hath received the Sacrament of the Lord's Supper according to the rites and usage of the said Church of England, or upon oath made and subscribed such declaration of conformity to the Church of England as is prescribed by this Act, and hath also taken the oaths and made and subscribed the declaration as required by this Act, every person so offending shall forfeit, for the first time he shall so sit, the sum of fifty pounds current money of this Province; and for every day after that he shall so sit, the sum of ten pounds; the one half to the Palatine and the rest of the true and absolute Lords and Proprietors of this Province, to be paid to the Publick Receiver of this Province, to and for the support of the government of this Province and the contingent charges thereof, to be disposed of by ordinance of the Generall Assembly; and the other half to him or them that shall sue for the same within six months after the offence committed, by action of debt, suit, bill, plaint or information, in any Court of record in this Province, wherein no essoin, protection, priviledge, injunction, or wager of law or stay of prosecution, by non vult ulterias prosequi, or otherwise, shall be admitted or allowed.

V. And be it further enacted by the authority aforesaid, That in case any person shall be returned a member of the Commons House of Assembly, who shall refuse to qualify himself as required by this Act, and so cannot be permitted to sit and vote in the said house, that then and in such case it shall be lawful for those members of Assembly that are qualified to sit and vote in the said House of Assembly, to order the Sheriff of the County to lay the poll or list of the severall Candidates, and the numbers of them that voted for each of the candidates, and admit that person or persons that hath the greatest number of votes next to them members that were returned to sit and vote as a member or members of the said Commons House of Assembly; Provided, they do

delivered to such rector or minister, or left at his usual place of abode, or house appointed or to be appointed for such rector or minister for his habitation, or by fixing the same on the church doors, signify that such rector or minister shall cease to be rector or minister of that parish, and that he be removed from the same; then and in such case, such person shall cease to be rector or minister of the said parish, and shall cease to have any use, possession, or benefit or advantage of the church, or of any lands, messuages or tenements, or any negroes, or any revenues, fees, profits, perquisites, privileges, benefits or advantages whatsoever, belonging to the rector or minister of that parish, as fully and amply to all intents and purposes as if he had never been chosen rector or minister thereof; and upon such removal of any rector or minister of any parish, the parishioners may proceed to a new choice, according as it is directed by this Act, in case of the death of a minister.

PARTY-TYRANNY: OR AN OCCASIONAL BILL IN MINIATURE.*

As it has been always the Care of the Commons of England, to Defend the English Subjects from all manner of Invasions of their Liberty; the Authors of this, thought it a Duty, and it seems to be the Duty of every part aggrieved, to apply to their Common Remedy in all their Oppressions; where they have reason to expect Relief in all Cases that merit their Cognition, and who are indeed proper Judges, whether the Cases of which they Complain, merit their Cognition, or no.

The Doors of the House of Commons are ever Open to receive the just Complaints of the People, and no Man however Mean or Despicable he be, but has a full Liberty to bring his Grievances to their Feet, and has Reason to expect suitable Redress.

If it be the proper Business of the House of Commons, to Redress the Subject's Grievances, it must be the proper Duty of the Subjects, to lay that Grievance they Expect Redress in, before them; The House of Commons are but Men; they are a Select Number chosen from the General Body, to represent the whole, and due Deference ought to be paid both to their Dignity and Capacity; but still they are but Men, and cannot be supposed to know the Grievances of the Subject they should relieve, till they are laid before them, and till they are fairly and properly represented.

And this is both the Reason, and we hope the sufficient Justification of this Book; It contains a short, but true Abridgement of High-Church-Tyranny, it is an Occasional Bill in Miniature; 'tis a Compendium of Various Kinds of Oppressions practised on the English Subjects, by Fellow-Subjects in the Face of the Government, which being Establish't on the Neck of Tyranny, has Openly Declar'd against all sorts of Invasion of English Liberty.

If any Man shall say this Matter is not Cognizable in Parliament, and that the People of Carolina are not represented here, having a Parliament of their own, by whom they are to be Determin'd, that they are therein Entirely under the Government of themselves, and that these

Oppressions are the Act and Deed of their own Representative, and therefore their own Act and Deed. I shall take Leave to Answer.

'Tis true, by the Constitution of Carolina, they are under the Government of themselves, and perhaps if their Constitution were rightly Administered, it may be allow'd the best Settlement in America. But as the Wisdom of their Constitution is known, and unquestion'd, without doubt those able Heads that settl'd their Government, did not forget, that even those Representative Assemblies, especially in the Infancy of the Government, might be corrupt, or might by Bribery or other ill Practices, be Model'd and Influence'd in Matters of Parties, to Oppress and Injure the People they act'd for. That especially in their infancy and the Paucity of Electors, they might be Ostracized upon the People by Clandestine Methods, the Management and Artifices of Governors, and Men of Design, might have great Opportunities from the Power and Purse of the People to byass and aye the Elections; and having fill'd their Assembly with Men of their own Principles, all manner of Mischief might ensue to the Destruction of the Colony, Overthrow of the Settlement and Ruin of the Inhabitants.

And if any Man ask me, why then they did not make Laws, to direct the People in such Cases what to do, I cannot, but Answer for them, as I verily believe they would have Answer'd for themselves had they been alive.

That when any Body of Men Representative, or other Acting by, or for a Constitution, from whom they receive their Power shall Act, or do, or make Laws and Statutes, to do any thing destructive of the Constitution they Set from, that Power is Ipso facto dissolv'd, and revolves of Course into the Original Power, from whence it was deriv'd.

From hence it must follow, that upon known Depredations of Common Liberty, Breach of the Capitulations of Government, between the Governors and the People of Carolina; the People without doubt, by Right of Nature as well as by the Constitution, revolves under the immediate Direction and Government of the English Empire, whose Subjects they were before and from whom their Government was deriv'd.

It remains here, to lay down what these Capitulations I speak of are, by which the people of Carolina ought to be Govern'd, and in the Breach whereof they are Oppress't; and then to descend to the black Relation, how these Postulata are broken and unregarded, how these people are Injur'd and Tyranniz'd over, what Redress ought to be given them by their Governors the Proprietors How that Redress has been legally sought for, and humbly petitioned for but in vain.
APPENDIX.

I shall then Examine, not only, how far the People have a Right to dispence the Engins of this Sub-Tyranny; but how far the Constitution itself is dissolved, and the People have a Right to Establish their being there so far as their Freehold extends; Upon such Foundations of Justice and Liberty, as that it may no more be in the Power of Usurping Thieves and Oppressors, to injure and disturb them.

In Order to the first, the Reader may please to take the following Abridgement of the Constitution of the Collony, as the Ground Plot by which, tho' it be short, he will plainly Discover, upon what Exact Basis of Right and Property this Government was Erected, and how, plainly, by the Encroachments of the present Gentlemen, the People are Injur'd, the Constitution in itself Destroy'd and Inverted, and the People left,

Free . . . . To Choose for their Own share,
What Case of Government they please to wear,
If to this Lord, or that, they do Commit
The Reins of Rule . . . .
All men are bound in Conscience to submit;
But then that Lord must give his free Assent,
To Postulata's of the Government,
Which if he breaks, he Cuts off the entail,
And Right retreats to it's Original.

An Abridgement of the Settlement of Carolina.

To Understand the true Foundation and Establishment of the present Plantation of Carolina, it is necessary to Observe.

That this Colony, tho' discovered, and in part possesst, even before that part of America, call'd Virginia to which it is contiguous; yet lay for several Ages of Time unimprov'd and neglected, till about the year,

When a particular account of its Fertility, the wonderful agreeableness of the Climate, the Pleasantsness and Health of its Scituation, Advantages of Produce, Fitness for Trade, and all Manner of Improvement, being brought to some Gentlemen of Quality and Estates in England, they resolv'd to encourage the planting this Country, and in particular, resolv'd to settle it upon some better Foundations of Government, than the rest of the English Colonies seem'd to stand upon; as the Only Thing, which added to the rest of its Advantages, wou'd best encourage the speedy Planting it, and draw Inhabitants in Great Numbers from other Plantations to this New Settlement; These Gentlemen being truly sensible of that known and undisputed Maxim of Govern-
ment, That the Number of Inhabitants, is both the Wealth and Strength of a Nation.

In order to this, they first obtain a Grant of the Province from King Charles the Second, to them and their Heirs, as Absolute Lords and Proprietors of the Country.

But the Reader is desir'd not to forget, that this Grant, or Charter of King Charles the Second, had two Restrictions or Saving Articles in it, which, indeed, were not Proviso's of Capitulation, but Proviso's of Necessity. I'll explain myself presently, the Salvo's were these,

1. Saving always the Faith, Allegiance, and Sovereign, Dominion due to us, our Heirs, and Successors for the same. And
2. Saving also the Right, Title and Interest, of all, and every our Subjects of the English Nation, which are now planted within the Limits and Bounds aforesaid. See the Printed Charter, p. 3.

These I call Proviso's of Necessity, because nothing can dispute more Power, than it possesses.

I. The King could not part with the Allegiance and Dominion due to the English Crown, without Consent of Parliament. For, 1. That had been, to have alienated Part of the English Government from the Crown.

2. It had been, to consign some of his Subjects over to the Government of another Prince without their Consent.

II. The King could not grant the Right, Title and Interest of those of his Subjects already planted there, for that was none of his own; and he could no more transfer their property, than their Allegiance.

I bespeak the Reader, bearing with this Digression, as what he will see just Reason for, and a good use made of by and by: But for the present he may Observe,

1. That the Government of Carolina is dependant upon England, and subject to the Laws, Government and Direction of the English Crown; and consequently their Grievances are cognizable in the Parliament of England.

2. There were Inhabitants in Carolina before the Grant made to the present Proprietors, which Inhabitants had a Right both to the Government as well as Possession; which King Charles the Second, neither did, nor cou'd grant by Charter, or otherwise to any Body.

3. As their Allegiance to the English Crown cou'd not be transfer'd by Gift or Charter, so neither could the Protection of the English Government be deny'd them; and therefore, the Parliament of England has an undoubted Right to redress their Grievances, and to relieve them against all the Oppressions of their pretended Governours of what kind soever. And this is my Reason for the Argument.
APPENDIX.

This Charter is a Creation of the Proprietors, both Temporal and Spiritual Lords of the Country, and gives them full Spiritual Dominion, as to Building and Forming Churches, with the Patronage, and Advowson of them, the Dedication, Consecration, but limited to the Rites of the Church of England; a Continued Badge of their Dependence on this Kingdom, both in Spiritual Matters, as well as Temporal. The Tenure of this Regality is also held of the Mannor of Greenwich in the County of Kent, in Free and Common Socage, paying to the Crown, as of the said Mannor twenty Marks Yearly as a Quit-Rent, and a Fourth part of all Gold and Silver Ox, which shall be found.

Nor was the Proviso for the Right of the People already planted, or to be planted, at all forgot in this Charter by the King; for in the first Empowering Clause of the Charter, it is expressly said,

"To ordain, make, enact, and under their Seals to publish any Laws whatsoever .... But how,

By and with the Advice, and Assent, and Approbation of the Freemen of the said Province, or the greater Part of them.

Vide the printed Charter, p. 4.

This is insert to remind those Gentlemen, that Assembling the Freemen of Carolina to make Laws &c. was not a Voluntary Act of their own Clemency, but what they were oblig'd to, by the very Charter from whence they derive their Authority.

Nor was it a Restriction of the meer Grace of the King, but according to the Native Right of the Freemen, Inhabitants of Carolina settled there before, provided for in the Clause before-mentioned, whose Right, even the King himself, had no Power to Dissolve or Transfer:

In making the Laws these Assemblies are empower'd to Enact and Execute, It is further Remarkable, and of which, I hope, good Use will be made, His Late Majesty Charles the Second, lays another Double Restriction.

1, "Provided such Laws be consonant to Reason.

2, "As near as may be conveniently, agreeable to the Laws of England.

His Majesty knew, that Law is the Result of Reason, and that the Sovereignty of Reason over all the Actions of Men, cannot be invaded, but that Laws offer'd by whatever Society of Men against Reason, are void of course, and therefore expressly prepar'd them to expect it.

In the next place, His Majesty plainly signifies, that all their Laws ought to be corresponding with the English Constitution, Convenience of the People, Anglico, The Publick Good only excepted; by which is
inferr'd, that Reason and the Publick Good are the principal Ends of all Law, and are to supersede all the Power granted to the Proprietors of Carolina as indeed they ought to do all Humane Power committed to Man in the World.

Upon these and sundry other Conditions was the first Charter or Grant made to the Lords Proprietors of Carolina, dated the 24th of March, 15 Car. II. A second Grant or Charter verbatim by the first, only Enlarging the Bounds, was granted to the same Lords Proprietors, dated the 30th of June 17 Car. II. and the Proprietors by these Two Charters are, Edward, Earl of Clarendon; George, Duke of Albemarl; William, Earl of Craven; John, Lord Berkeley; Anthony, Lord Ashley, afterwards Earl of Shaftbury; Sir George Carteret, Sir John Colleton and Sir William Berkeley.

Pursuant to these Charters, The Proprietors went on with the Settlement of this Colony, and knowing that on the good Government of the Province, and the large Priviledges granted to the Inhabitants, depended very much the Encouragement to Strangers of all Nations, and Estates thither, and consequently the Prosperity of the Colony.

They formed the Government of the said Province into a Publick Instrument, which they call the Fundamental Constitution of Carolina, consisting of 120 Articles, which in the last Article are declar'd, shall be and remain, the Sacred and Unalterable Form and Rule of Government of Carolina for ever.

These Articles are afterwards abridg'd into One and Forty, containing the full Substance, Intent and Meaning of the aforesaid One hundred and Twenty, and being first sign'd and sealed to by the Lords Proprietors, as the Pacta Conventa of Government; are presented to, and accepted by the Freemen, Freeholders and Inhabitants, and agreed to be past, in a Full and Free Parliament or Assembly, as the Sacred and Unalterable Conditions, on which they Consent to be Governed and Directed, and to which they submit.

An Abridgement of the Constitutions, Consisting of 41 Articles.

The Preamble sets forth, That K. Cha. the IId, having Granted to the Proprietors the Province of Carolina, with all the Royalties Privileges &c. For the better Settlement of the Government of the said Province, the said Lords Proprietors agree to the following Form of Government to be perpetually Establish't, and which they oblige themselves to in the most binding Ways that can be Devis'd.
APPENDIX.

The First five Articles contain the Regulation of Authority and Division of the Government into, 1, The Proprietors Court to Consist of the Palatine, and seven Proprietors, and in the Absence of the Governor, and such Deputies as they Assign: This Court to have all the Supremacy Granted to the Proprietors in the Charter, as Calling and Dissolving Parliaments, Pardoning Offences, &c.

The 6th to the 19th Article regulates the Parliament, to consist of the Proprietors or their Deputies by themselves; The Landgraves and CASTICKS in the Upper-House, and Freeholders in the Lower-House; this is their King, Lords, and Commons, and the Manner Exactly Regulated to the Simily, with Limitations and Qualifications for Electing, and being Elected, and the Privileges and Office of each House settled.

To the 22d Article Exclusive is settled the Division of the Province into Counties, the Limitation of Every ones Quantity in Possession, the Tryal of Causes and Crimes per Pares, the Choosing and Deputing the Governor, the Admitting Freemen, Establishing Religion, Churches, &c.

To the 38th Article they determine what Society of Men, and on what Terms shall be Esteemed a Church, and the Regulating Religious Matters, wherein the only Religious Qualifications, by which any Man is admitted a Member of any Church, and of the Government are these two.

1. That he believes there is a God,
2. That God is Publicly to be Worshiped.

A Third Article Obliging all People to bear Witness in Cases Required to Truth, either by Oath or some Equivalent, is added.

The 39th Article is positive,

"No Person whatsoever shall Disturb, Molest, or Persecute, another for his Opinion in Religion, or Way of Worship.

The two last Articles settle the Freemens Power over their Slaves, and the Form of Signing the Constitutions by all Persons admitted into Office of Trust.

And the Conclusion of these Articles are thus,

Those Fundamental Constitutions in Number Forty One, and every Part thereof shall be and remain the inviolable Form and Rule of Government of Carolina for ever. Witness our Hands and Seals 11 April, 1698.

BATH Palatine,
A. ASHLEY,
CRAVEN,
BATH for Ld CARTARET,

WILLIAM THORNBURGH,
for Sir JOHN COLLETON.
THO. AMY,
WILLIAM THORNBURGH.
These Constitutions I know have obtain'd upon the World, to be the Contrivance of the Old Earl of S... bury; but I think, I have very good Authority, to assure the World Mr. Locke had the Right of Parentage to the former; whether I ought to contend for either the Policy or Humane Understanding in Right of either of these Great Men in the Contrivance or no; I shall not debate. I am certain of this, they handed the Infant Government into the World without Leading-strings, and turn'd it loose before it cou'd stand alone; by which means, like young Romulus, it has got a Wolf to its Nurse, and is like to be bred up a Monster.

'Tis true, these Constitutions were not actually past in any Assembly, and so may be objected against, as not so binding as in other Cases they would be.

But they were signed by the Proprietors, and in the Infancy of this Settlement by the Inhabitants, as they came there to Settle; and were only referr'd to a Parliament or Assembly when the Colony was considerable enough to require it.

In these Parliaments, these People have always opposed passing the Constitutions, fearing without doubt, to come under the Fetters of the Law, and a just Government; and knowing the Measures they design'd to take, were destructive of the very Being and Nature of the Government; and therefore being unwilling to have the Obstruction of any Settled Constitution, they always rendered the Proposal contemptible, and banter'd the Colony with the frequent Attempts to pass them, laying them by, as useless Trifles not worth Notice, tho' they were indeed the Fundamentals of their Government.

It remains now to examine, how the Gentlemen now concern'd have acted in Correspondence to

1. The Powers granted to the Proprietors,
2. The Pacta Conventa with the People, and in this Enquiry, it will come to be examin'd.

1. Whether the Powers assembled there, have been summon'd according to the Constitution.
2. Whether the Freeholders, and none but such have elected the Persons, who have imposed these Laws, and have had a Free Choice.
3. Whether these Laws have the due Qualification requir'd by the Charter, viz:
   1. To be consonant to Reason,
   2. To the Utility of the Subject,
   3. To the Preservation of Right and Property: The Words expressly set down in the Charter.
4. Whether if not, they are not void in their own Nature.

5. Whether the Lords Proprietors not redressing these Abuses when humbly address to by the Inhabitants, have not broken the sacred, unalterable Conditions of the Government.

6. Whether this Fracture of the Constitution, does not empower the Inhabitants of Carolina who purchas'd Estates, and settl'd there on these Conditions, and of whose Right his Late Majesty made such Provision in his Charter, have not a full Power to settle such other Government and Constitutions, as shall correspond with the Freedom and just Rights of the Province, tho' without the Consent of the said Lords.

7. Whether all this Matter is Cognizable in the Parliament of England, and the Proprietors of Carolina subject to such Determination as shall be made there.

It lies before us now, to Examine, How these Gentlemen have acted, in Correspondence to the Powers granted by the Charters to the Proprietors, and the Constitutions or Pacta Conventa made with the People.

Before this is enter'd into, I must determine, who I mean by those Gentlemen; for this Paper as 'tis a Complaint of Fact may be also expected to be a Charge against particular Persons also.

To this it is answer'd, The Proprietors in one Sense may be the Persons charg'd here, as being answerable for all the irregular Practices of those that act under them; since every Man is really the Actor of what is done by his Authority, and every Man is tacitely the Author of what is in his Power to hinder, and which he ought to hinder.

But as here is no Need to fly to a speculative Charge, when the Agents and Instruments of these Mischiefs are known and plain, and to be found upon the Spot; so let the Charge lye in its constructive part where it will, 'tis plain, where it more immediately lies by the following Instances to which I refer, and the Persons will be but too easily known there.

But yet this Account cannot pretend to clear the Proprietors, from being both Agents and Principals, at least some of them, in that they have constantly had the particulars of these Things, laid before them in the humble Petitions of the Inhabitants; which they to their great Charge and Trouble, have sent over to England by Members of their own Body, purposely Deputed as Ambassadors to the Proprietors; viz, John Ash, Esq; who died here in the Negotiation of those Affairs, and is now succeeded by Mr. Jos. Boon, as will appear in the Prosecution of this Paper.
APPENDIX.

The submissive Letters, the humble Applications, the Petitions and Remonstrances of the People of all persuasions, and of the Conforming Minister of the place, demonstrate, that the Oppression is universal, the Grievance Extraordinary, and that the Proprietors have been duly inform'd of it all.

I think, it will most naturally occur, that if these Gentlemen, who, God knows, are ill qualified for Government, do not redress the Grievances of the people, some Body else must; and for that purpose, the present Application is made to the Commons of England assembled in Parliament; where publck Grievances never fail of Redress, and where all sorts of Tyranny has been the Sacrifice to Justice.

The Government of this Province has had the usual Misfortune of those People, who are left to the Conduct of Mercenaries; the Gentlemen-Proprietors, or Lords (call them what you will) are very honest Gentlemen; but are here plac'd above their Sphere; they are Gentlemen of Birth and Fortunes, and well enough instructed in Things within their Quality, but they never learnt to be Kings; they have not taken in the Hint of Pater Patrin, they don't know, that a King must be the Father of his People; and that there is a sort of Patriarchal Affection, as well as Obligation, between a King on the Throne and the People He Governs, which obliges them to treat them with Gentleness, listen to their Complaints, and redress their Grievance; they need have gone no farther, than to their own Sovereign, to have seen a Pattern of this Pious Care, and have reflected, how Sollicitous Her Majesty appears for the General Good; how pleas'd and thankful, when Prosperity Crowns their Affairs; how affectionately Concerned, when any Calamity attends Her People, either publck as in the Great Storm, or private in the Case of Trade; as in the Disaster of Mr. Pitkin's ill treating them: How concern'd did Her Majesty appear for the Widows and distress'd Families of the Seamen that perish'd in the Storm! how bountifully relieve them! and the like. Whence does this proceed? God Almighty, for the Good of Nations, furnishes Princes, born to Crowns and Kingdoms, with the suited Affections for these Circumstances of Government, and thereby fullfils the promise of making them Nursing Fathers, and Nursing Mothers.

These Propriety-Monarchs are born without these Affections, like a Landlord to his Tenant, they have their Eyes upon the Rent; their Concern, if any, is not of Affection, but of Interest; they are Step-fathers and Strangers in the Government, and they have shown it; for their Ears have been stop'd, and shut to the Complaints of their Oppress'd People;
they govern them by Sub-Tyrants, and connive at their Tyrannies, because they are not furnished with the Affection of Love to the People they govern.

That this is no Scandal, and I hope, no needless Digression, I shall refer to the Judgment of the Impartial Part of Mankind, after Reading the true State of the Colony, as now suppress'd and under the Government of a Party, and of the Tyranny practis'd there, and this will be best represented by themselves.

I shall then describe the true Posture of it, as it would reasonably be allow'd to be, under a State of Liberty and Encouragement; in the Result of which, the Imprudence and ill Policy, as well as Injustice of the Proprietors, will appear in suffering a flourishing Colony, thus to languish under their Hands.

The first thing I shall refer to for a Prospect of the Grievance before us, is the Representation of the Inhabitants, directed to the Proprietors, sign'd by above 100 of the principal Merchants, Freeholders and Planters, with several Members of the Assembly; and sent over by John Ash, Esq; who, with great Difficulty and Hazzard, got away to Virginia, where his Powers and Instructions were Convey'd after him; the Government there using all possible Endeavours to prevent him. The Address is as follows:

To the Right Honourable John Granvill, Esq: Palatine, and to the rest of the true and absolute Lords and Proprietors of the Province of Carolina.

The Representation and Address of several of the Members of this present Assembly return'd for Colleton County, and other Inhabitants of this Province, whose Names are hereunto Subscribed.

MAY IT PLEASE YOUR LORDSHIPS,

Altho' the miserable Estate of this Colony will be sufficiently known to your Lordships, from the Relation of John Ash, Esq: who is fully intrusted by us to remonstrate our grievances to your Lordships; yet we think our selves exceedingly bound and obliged to lay before you, what we think does concern your Lordships Honours, and the Peoples Rights and Priviledges; For if the Question were about matters of small moment, we should be ashamed to be importunate and unwilling to give the least trouble to your Lordships; but considering that the very Foundation of our lawful Rights, hath of late been struck at by Persons, who have more regard to their private Interest than the Publick good, we humbly conceive, that it cannot stand with the Duty we owe
to our selves as English-men, or to our Posterity, to sit down contented with less than that which every Liege and Freeborn Subject of the Crown of England may, and of Right ought to have. And therefore least our silence should be prejudicial to so important a Cause, we humbly crave your Lordships leave, faithfully and impartially to represent to you the great and notorious Violations and Infringements of our Laws and Liberties, under which we suffer.

We shall go no further back, but date the unhappy Causes and Grounds of our Complaints from, and immediately after the Death of the late Governor Blake; for the Choice and Election of a Governor to succeed him being intrusted with your Lordships Deputies here, that Person amongst your said Deputies who made the strongest party in the Council, did carry the Government, by perverting the Design, and breaking through the Rules and Instructions agreed to by your Lordships for such Election. And this manifestly appear'd in the unjust Election of the late Governor Moore, in prejudice of Landgrave Morton's Title, who (after he was Elected by a Majority of the Council then present) was Objected against by the said Moore, and excluded, only because he had accepted of a Commission from the King; And as the said Moore acquir'd and obtain'd the Government of this Province by Fraud, Flattery and trifling Exceptions, as aforesaid, so has he endeavour'd, ever since to manage all things by base and indirect Methods, and crafty Projects, which made his Government miserably unfortunate to us all.

The great and personal Debts and Necessities which the said late Governor Moore had to struggle with, may well be thought to have put him upon, and prompted him to Designs, to enrich himself at the hazard of publick Peace and Welfare; And because these his designs could not possibly be effected by himself alone, he knew very well, that to engage the Council to his Interest, and to have an Assembly chosen to his liking, would be the way effectually to compleat and accomplish his Ends and Purposes; Thereupon 'tis manifest, there being Vacancies in the Council, for Persons fit and worthy to represent your Lordships Pleasure not being then signifi'd and known therein, those very Vacancies were supply'd by such Persons whom he beforehand knew, and was well satisfi'd and assur'd, would be for his Use and Purpose; and it's as well known, that the Debates and Consultations of the Council have all along been carry'd on, and manag'd to the ends aforesaid.

And pursuant to his said Design, he did by indirect Practices endeavour, that such an Assembly might be chosen, as would be agreeable in their Temper and Disposition with his designs and Resolutions; This was to

be brought about, though the very Foundation of our English Rights and Liberties were undermined, and utterly subverted in the Attempt.

I. We therefore, in the first place, humbly represent to your Lordships, and we do Assert and Maintain, That it is one of the fundamental Rights and unquestionable Privileges belonging to Englishmen, That all Elections of their Representatives to serve in Parliament, ought to be free and indifferent, without any Prayer of Commandment to the contrary, and that no Alien born out of the Allegiance to the Crown of England, unless he be otherwise especially qualify'd, ought to Elect for, or be Elected to serve as a Member of Assembly; all which, notwithstanding, at the Election of Members of Assembly to serve for Berkley County made in the Month of November, 1701. There were several great Abuses made and committed, against the ancient Usages and Customs of this Province, and contrary to Law, particularly an Act Intituled, An Act for Regulating Elections, &c. and to the great dissatisfaction, and manifest Prejudice of the several Inhabitants of this Province, Candidates and others. For so it was, may it please your Lordships, that at the said Election, much Threatnings, many Intreaties, and other unjustifiable Actions were made use of, and illegal and unqualify'd votes given in to the Sheriff; and by him Receiv'd and Return'd, particularly the votes of very many unqualify'd Aliens were taken and enter'd, the votes of several Members of the Council were filed and Receiv'd, a great number of Servants, and Poor and indigent Persons, voted promiscuously with their Masters and Creditors, as also several free Negroes were Receiv'd, and taken for as good Electors as the best Freeholders in the Province. So that we leave it with your Lordships to Judge, whether admitting Aliens, Strangers, Servants, Negroes, &c. as good and qualify'd voters, can be thought any ways agreeable to King Charle's Patent to your Lordship's, or the English Constitution or Government.

II. We Represent to your Lordships, that when at the Meeting of the Assembly, divers Candidates, by Petition by them Exhibited, pray'd to be heard against the Return of the Sheriff for Berkley County of the Election aforesaid, and insisted upon their Right, and that the Sheriff's Return was false and illegal; and the said Assembly the better and more impartially, to inquire into the ill Practices at the said Election, did first of all resolve to begin upon Privileges and Elections, that the late Governour Moore, to prevent such Inquiry, did several times Prorogue the said Assembly,

III. That when the said Assembly were at last suffer'd to sit, the Inquiry and Examination into the Sheriff's Return of the last Election

was obstructed, and industriously prevented, by setting on Foot an ill
laid design of raising Forces to attaque St. Augustine.

IV. That notwithstanding your Lordships repeated Commands to
your Deputies, to procure a good regulation of the Indian Trade, on
which our friendly Correspondence with all our neighbouring Indians,
and the Peace and Safety of this Colony chiefly depends, yet the said
late Governor Moore has been by his Artifices, the Chief (if not the
Only) Occasion of obstructing the same, designing nothing less than
ingrossing the same for himself and Accomplices; having already almost
utterly ruin'd the Trade for Skins and Furs (whereby we held our Chief
Correspondence with England) and turn'd it into a Trade of Indians or
Slave-making, whereby the Indians to the South and West of us are
already involv'd in Blood and Confusion, a Trade so odious and abom-
inable, that every other Colony in America (altho' they have equal temp-
tation) abhor to follow.

V. That the said late Governor Moore did grant Commissions to
Anthony Dodsworth, Robert Mackoose, and others, to set upon, assault,
kill, destroy, and take Captive as many Indians as they possible could,
the Profit and Produce of which Indian Slaves were turn'd to his pri-
\vate use; whereas such undertakings, unjust and barbarous in them-
\selves, will in all Probability draw upon us an Indian War, with all the
dreadful Consequences of it.

VI. We represent to your Lordships, that the late unfortunate, ill
devour'd and worse Manag'd expedition against St. Augustine was
principal set on Foot by the said late Governor and his Adherents; and
that if any Person in the said late Assembly undertook to speak against
it, and to shew how unfit and unable we were at that time for such an
Attempt, he was presently look'd upon, by them, as an Enemy and
\Traytor to his Country, and revil'd and affronted in the said Assembly,
altho' the true Design of the Expedition, was no other then catching and
making Slaves of Indians for private advantage, and Impoverishing the
Country; And this will plainly appear, when your Lordships know that
your Country is brought more in Debt at this time, and upon this oc-
casion, than ever since its first Settlement, if we put all the Debts we have
ow'd together; and that the Expedition was to enrich themselves will
appear particularly, because whatsoever Booty, as rich Silks, great Quan-
tity of Church-Plate, with a great many other costly Church Ornaments
and utensils taken by our Soulliers as St. Augustine, are now detain'd
in the Possession of the said late Governor and his Officers, contrary to
an Act of Assembly made, for an equal Division of the same among the
Soulliers.
APPENDIX.

VII. That the said Governor would have had the said Expedition against St. Augustine, begun and undertaken before the War with Spain, was Proclaim'd here; and this was vehemently urg'd by his Interest in the said Assembly, but with much ado, being put to the Vote, was carried in the Negative. And when at last the Expedition was Order'd, the Management of the said late Governor was such, in all its Steps, particularly in relation to his shameful retreat, and burning the Country's Vessels, that we are asham'd to mention the same till we have a Free Assembly, before which the matter may be fairly try'd, which is the only thing the said late Governor and his Adherents are most afraid of.

VIII. That in the said late Assembly, the Constitutions sent by Major Daniel were offer'd for their passing, Urg'd with great strength of Reason for to have them pass'd by Mr. Ash, but they were opposed by Mr. Trott, Mr. Howes, and others, the said Governor's Creatures, and several reflecting words used by the said Trott and Howes concerning them, exposing the Constitutions as Ridiculous and void in themselves, (thereby endeavouring, notwithstanding your Lordships care of us) to keep the People in an unsettl'd Condition, that from time to time, they might the more easily be imposed on by them.

IX. That after the People Return'd from St. Augustine, the time for the said Assembly to meet, according to the last Prorogation was just at hand; when they met, they went upon the Inquiry of the Charges the Country had been at in the said Expedition, and were upon Debate for the finding out Ways and Means for the Payment of the Countries Debt, for securing the Colony, for the settling of Elections for the future, and for granting as much Freedom to the French, and other Aliens, as could be granted by the Assembly, or the French reasonably expect. A Bill for the better Regulating Elections, pass'd the lower House twice, and was sent up to the said Governor and Council, where it was rejected without so much as a Conference; upon which several of the Members, jealous of their Priviledges, and being so order'd by those that sent them, left the House, first entering their Protestation, a Copy of which Mr. Ash has to show your Lordships, and to which we refer You.

X. But what we have yet to represent to your Lordships, makes very deep Impressions on us, and is not to be thought on by us, but with the greatest Regret and Concern. But altho' the Members of the late Assembly, who Protested, and did leave the House as aforesaid (hoping that the next day they might find things in better order, and some temperating Means found out, which might have given some tolerable Assurance of
having their Liberties secur'd) went every one of them to the House on the Morrow, and frankly offer'd to sit longer, if the rest of the Assembly would join with them to Assert their Rights; but instead of any compliance, they were Abus'd, Revil'd, and treated with the most reflecting Language imaginable, very unbecoming an Assembly. And we further Represent to your Lordships, that after such Abuse given them in the House, several of the said Members, viz: the said John Ash, Esq; Landgrave Thomas Smith, and others, were Assaulted and set upon in the open Street, without any Provocation or Affront by them given or offer'd. The said Thomas Smith was set upon by Lieutenant Colonel George Darnby, who with his Sword drawn, and the Point held at the said Smith's Belly, swore he would kill him, and if he had not been prevented, would have done the said Smith some considerable Mischief, to the endangering of his Life. The said John Ash walking along the Street, was assaulted by a rude, drunken, ungovernable Rabble, headed, encouraged and abetted by the said Dearsley, Thomas Dalton, Nicholas Nary, and other Persons, Inhabitants, who set upon the said Ash, used him Villanously and Barbarously, and that Evening; when he the said Ash was retir'd into a Friend's Chamber for Security, the same armed Multitude came to the House where the said Ash was, and demanded him down, assuring him at the same time that they would do him no hurt, but only wanted to discourse with him, upon which Assurance he came down to them; who notwithstanding being encourag'd and assisted by Captain Rbett, and others, drew him by Force and Violence on board his the said Rbett's Ship, reviling and threatening of him as they drag'd him along; and having gotten him on board the said Rbett's Ship, they sometimes told him they would carry him to Jamaica; and at other times threatening to Hang him, or leave him on some remote Island.

XI. That the said late Governor had the same day (immediately before the Riot began) treated a great many of the Persons concern'd therein, and used such Expressions to them as give them, next their drink, the greatest Encouragements for what they acted, by telling them, that the protesting Members would bring the People on their Heads for neglecting to pay the Country's Debts, which if it should happen, he knew not who could blame them; in the meantime he thank'd them for their close adherence to him in all his Concerns. And after the Riot began (of part of which he was an Eye-witness) having first drank with some of them, he withdrew himself out of the way, thereby giving them greater Encouragement to proceed in their Tumultuous Practises, ans by his Example and Absence, discouraging the inferior Officers from executing their Duty.
APPENDIX.

XII. That whilst the said Riot continu'd, which was four or five Days, Landgrave Edmond Bellinger, who was a Justice of the Peace, there being no other to be seen that understood his Office, went out to Suppress and Record the aforesaid Riot, but the Rioters no sooner saw him, than they call'd him all the approbrious Names they could think of, and the said Rhett came up to him, and struck him over the Head with his Cane, and continu'd beating and striking of him for a considerable time, as by the said Record herewith sent your Lordships will more fully appear.

XIII. That the said Rioters beat and abused Mr. Joseph Boone, and put him in danger and fear of his Life, without any Provocation by him given or offer'd; and that for four or five days successively, and at other times after, the said Rioters unusually Arm'd and Weapon'd, to the great Terror of the People, and frightned and terrify'd Persons, that they were forc'd to leave the Town, their Affairs and Interests exposed to the Mercy of a licentious Rabble.

XIV. That some of the said Rioters, whilst the Riot was at the Church, went one Night to the House of John Smith, a Butcher in Charles Town; and there being a Woman big with Child in the said House, they with Force open'd the door, threw her down, and otherwise misused her, that she brought forth a dead Child, with the Back and Skull broken.

XV. That the said John Ash, Thomas Smith, James Byres, Joseph Boon, and others, complain'd to the said late Governor and his Council, setting forth the Abuses and Barbarous Usages they had met withal from the aforesaid Rioters, and the Danger they were yet in, for that the said Rioters were still in Arms &c. but they met with no other Satisfaction from them, then that the said late Governor shifted off the Matter; by saying, it was a Business fit for a Justice of Peace; and being ask'd by James Byres, whether or not he look'd on himself, as Governor, oblig'd to keep the Peace of the Province? He reply'd, that was a Question he was not oblig'd to Answer.

XVI. That before the next Sessions of the Peace, holden for the said Province, Sir Nathaniel Johnson was proclaim'd, and took upon him the Government; and then Mr. Trott had a Commission to be Judge, and the said late Governor was made Attorney General; so that it was in vain to expect any Relief or Remedy here: However, the said Edmond Bellinger, did what in him lay, to have the said Riot inquir'd into, gave in the Record thereof to the Bench, and some of the Grand Jury urg'd to have it presented, but to no purpose; for some of the Abettors of the
Rioters being of the Jury, and making Friends there, stopt the whole Proceeding.

XVII. We further represent to your Lordships, that contrary to the Rights and Privileges which we ought to Enjoy, the last Election of Members to serve for Berkly County, was manag'd with greater Injustice to the Fremen of this Province than the former; For at this last Election, Jews, Strangers, Sailors, Servants, Negroes, and almost every Frenchman in Craven and Berkly County, came down to Elect, and their votes were taken, and the Persons by them voted for, were Return'd by the Sheriff, to the manifest wrong and Prejudice of other Candidates.

Things standing with us, as is before faithfully represented to your Lordships, we thought it our Duty, since we can have no Remedy or Relief in Carolina, to apply our selves to your Lordships, whose Paternal care and Concern for us, we Question not, will be signally evidenc'd and extended unto us upon such occasions, and in such extremities; For when once our Lawful Rights and Priviledges are deny'd us, when Foreigners and Strangers shall make our Laws, when we can have no Protection from those who ought, and are Intrusted by your Lordships, to see the Laws executed, when, in a word, force is made the Arbiter of all differences, and all things reduc'd to a State of Confusion, it is surely a time, if ever there be one, for a People to Complain, and miserable are those Subjects, who must be Hector'd and Domineer'd over by their fellow Subjects, even by those who have hardly any other way to support their decay'd Fortunes, but at the Expence of the Publick. It may be worth your Lordships while, to Reflect what might have been the occasion, that so few Persons of Intrest, Honor, and Education come amongst us, and that good People go, and are going from us, when the Colony is in a Thriving Condition; certainly it is because the English Liberties, that all Her Majesty's Subjects in all other Places in Her Dominions Justly claim, are notoriously tramp'd on, to the great discouragement of Settlers. As to the French, they have hitherto liv'd peaceably, and with due encouragement amongst us; but when we see and consider, that they are often made Tools of, and imposed upon, and perswaded by ill designing Persons here, to carry on sinster designs to the General disadvantage of the Country, and how easily they are drawn into Errors, by reason they have not a right understanding of our Language, and are ignorant of our Laws, we can't imagine that we do them any hurt, by making good and wholesome Laws for us and them, since we Oblige them by no other Laws whatsoever, or upon any Account, than what we our selves are Obliged by, and live under. What then have we to entreat for and
pray of your Lordships? Nothing less, than that your Lordships would be pleased to establish the peace of this Colony on such a sure Foundation, that it may be beyond the Wit and Malice, and out of the Power of ill designing Men to disturb it for the time to come. And lastly, we on behalf of our selves and Her Majesty's liege Subjects, Inhabitants of this Province, do more especially pray and desire your Lordships, that you would be pleased to give directions for calling a free General Assembly, which will undoubtedly assist your Lordships to Redress and Remove the Grievances aforesaid, settle the Peace and Prosperity of this Colony, and procure that cheerful obedience which ought to be Render'd to your Lordships, under Her present Majesty, carrying with it the offer of our Fortunes and best endeavours for Her Majesty's and your Lordships Honours, as a real Testimony of our thankfulness.

SIGN'D BY 150 OF THE INHABITANTS.

Caroline, 26 June, 1705.

The Gentleman, who brought this, a Member of their Parliament and Considerable Freeholder, faithfull'y deliver'd it to His Excellence the Prince Palatine, for such, I suppose, he would be called, from whom how little Encouragement he receiv'd, to hope for a Redress of the Grievances of the Country, he would have told the World if he had liv'd to finish a Tract, which 'tis a great loss to the World he did not: Entituled The present State of Affairs in Carolina; Two Sheets whereof were printed before he died; but his Death has prevented what is but too imperfectly supplied by these Sheets, for which the Author asks the Readers Charity; it being impossible he should be equally touch'd with a Sense of the Miseries of the Colony, with One who had so great a share as Mr. Ash; both of the Property and the Suffering.

The loss this Gentleman's Death was to the Collony, was as to this Negotiation, as well as possibl'e, supplied by their sending a second Agent to the Proprietors, viz: Mr. Joseph Boon, by whom the following Petition was with like ill Success brought to the Proprietors; the failing in which frequent Application, causes this publick Appeal to the World for the Justice of their Application to the Parliament of England; where it is not doubted, they will meet with a suitable Assistance.

I think, I need add nothing to this melancholy Description of the barbarous Treatment of this Innocent People, tho' I could furnish the World with innumerable Particulars. Nor cou'd I make a greater Satyr upon the Conduct and Character of the Gentlemen Proprietors than to say, that all those Humble Representations met with no Redress from
them; but on the contrary All Application to them has hitherto been fruitless, and has met with Repulses, too unbecoming the Reasonableness of their Cause, so say no worse of it,

The Petition of the Inhabitants brought over by Mr. Boon is as follows; and is Sign'd by above 180 Persons of the principal Freeholder of the Countrey.

To His Excellency, John Lord Granville Palatine, and to the rest of the true and absolute Lords and Proprietors of the Province of Carolina.

MAY IT PLEASE YOUR LORDSHIPS,

By an Address sent Your Lordships by John Ash, Esq: bearing Date the 28th of June, 1703, Several of the Inhabitants of this part of Your Province, set forth to Your Lordships the Undue Election of the Present Assembly; and besides, the Heavy Taxes they have laid on us, and the severe Impositions on Trade (the Consequences of the vain Attempt on St. Augustine). We are more particularly to make our Complaints to Your Lordships, of the Great and Unparallel'd Breach they have made in the Charter, granted Your Lordships by K. Charles the II. and of our Priviledges therein contained. The Assembly having been prorogued to the 10th of May; it was however called together by Proclamation, to Sit the 6th of April; And having continued together seven or eight Days, with little or no Business before them (to the great Surprize of the generality of the people), on a suddain, without any previous Notice, on the 4th of May a Bill was brought into the House (the Copy whereof We have herewith sent Your Lordships) to Exclude by a Sacramental Test, all Difenters from Sitting in the Commons House of Assembly. This Bill was hurried on so, that on the 6th it Past the House; there being, after all their Endeavours, but Twelve for it, and Eleven against it; whereof several were Members of the Church of England. In the Upper House, tho' it Past with less Opposition, yet the Landgrave Joseph Morton was deny'd the Liberty of Entering his Reasons for his Dissent.

We are unable (Ly Lords) to describe, the Consternation of the Generality of the People at these Violent Proceedings: All moderate Persons are extremly dissatisfy'd, and the Dissenters themselves under the last degree of Confusion and Difsentent; desiring, with Grief of Heart, that Your Lordships, in Your Great Wisdom and Goodness, will take Their present Condition into Your Serious Considerations, and Order a
APPENDIX.

Repeal of the aforesaid Act, so Prejudicial to Their Libertys; for which They humbly offer to Your Lordships these following Reasons.

1. K. Charles the IIId, having by His Charter to Your Lordships, given His Subjects, the Freemen and Freeholders of this Province by Themselves, or their Delegates, the Privileedge of Advising and Consent- ing with your Lordships, to all such Laws as shall be Made here; and the Dissenters being a very Large Part of the Freemen, and Freeholders and encouraged to Transport Themselves, Families, and Estates, hither by the said Priviledges, are notwithstanding, Excluded from the Privi- ledge of being Delegates, or Representatives of the People in Their Assemblys by the said Act, to the Manifest Violation of the Charter.

2. The Dissenters, in all the rest of Her Majesty's Governments in America, being by no Laws Excluded from being Chosen into Assemblys in the respective Colony's. And the Dissenters here, having a Right thereunto in this Government, not only as Freemen, but by the Concessions in the Charter, have the greater Reason to complain of their present Sufferings.

3. We cannot too feelingly Assure Your Lordships, that the said Act, tends not only to the great Prejudice, and utter Discouragement of Her Majesty's good Subjects, the Dissenters here, in rending from them, that fundamental Privilege, which They and Their Ancestors have peaceably Enjoy'd ever since the First Settlement of this Colony; but will also be a very great Discouragement to Them in Their several Trades, and Employments, and a fatal Discouragement of the further, and better Settlement of this Part of Your Lordships Province.

For a further account of these Things, we refer Your Lordships to Mr. Joseph Boone, by whose Hands We send this to Your Lordships, desiring You to give Credit to what he shall further Offer to Your Lordships, on Our Behalf. Wishing Your Lordships good Health and Prosperity, We are

Your Lordships
Most Humble, and most
Obedient Servants.

The Lady Blake Widow of the late Governor, at the same time took the freedom to represent to the Proprietors, the matter of Fact of this Proceeding in a most pathetick and extraordinary manner, by Letter as follows:
MAY IT PLEASE YOUR LORDSHIPS.

The Share my Son has the Honour to have with your Lordships in the Propriety of this Province, together with the publick Concern I have for the Propriety thereof; oblige me at this time to give you this Trouble, and to lay before your Lordships a short Representation of the many Grievances the People are oppressed with.

The precipitate and fatal Understanding against St. Augustine, and the Consequences thereof carried on by a Party, have involved the Country in a Debt of about Ten thousand Pounds, to the Ruin of our Trade, the Loss of our Credit abroad, and infinite Dissatisfactions at home.

Towards Satisfaction of which Debt, an Act was contriv'd for forcing the Currency of Bills of Credit to the value of Six thousand Pounds, these Bills were declared Current in all Payments, and the Refuser of them fineable in double the value of the Sum refus'd, whereby the boldest Stroke has been given to the Property of the Settlers in this Province, that ever was known in any Country, not govern'd by arbitrary Power; And the bad Consequences of this forc'd Currency in Relation to trade with Strangers are so great, that they can scarcely be express'd, without being more prolix than the Bounds of a Letter can allow. Your Lordships very well know, that if the Kingdom of England did not conceive such a Method destructive of the Peoples Property, and of the utmost Danger to Commerce, they cou'd not need any Projection of Ways and Means, for raising of what Money the Government's Affairs do require, But there has nothing of this been weigh'd by your Lordships Deputies here, or by the pack'd Members of our Commons House of Assembly; Besides all this, the People are not satisfy'd how many Bills are truly sent abroad; and the great Concern Mr. James Smith alias Serurcie, (who cheuted the Sco'ts Company of a Considerable Sum of Money, and with his Keeper made his Escape from London hither) had in this Contrivance, both give a Jealousie of indirect Practices therein so prevalent among the People as must end in Confusion and Disorder.

Neither have they stops here, but to out present Amazement, and the Increase of our Fears of their evil Designs for the future, they have proceeded to pass an Act for the Exclusion of all Dissenters from their Right to sit in the Commons House of Assembly, and obliging them to take the Sacrament according to the Rites of the Church of England. In the same Act inserting a Clause, to qualify the most profligate of themselves for Admission into Assemblies by a Declaratory Oath, altho' they never take the Sacrament: This Act (after much under-hand Deal-
By the Artifices of these Men, the honest and well meaning People have been all along set against your Lordships, Constitutions, they therefore seeing that by passing of them, their indirect and arbitrary Proceedings would be in a great Measure prevented; But now the Eyes of the People are somewhat more open'd, and they begin to be sensible of the Delusions and Oppressions they have been involv'd in, Your Deputies deeing offering, the Constitutions to the People, altho' your Lordships (as I am well informed) have often of late Commanded it of them.

I know, there has already been made to your Lordships by Mr. John Ash, a Representation of the People's Sufferings here, and that there will be at this time, and upon this Occasion, a farther Account of these Affairs sent your Lordships by many of the good People in the Behalf of themselves and others, most sensibly affected with the Loss of these Privileges, which by King Charles His Charter to your Lordships, has been the Right and Usage of their Ancestors and themselves, ever since the first Settlement of the province; And my earnest Request to your Lordships is, That in your great Wisdom, you would be pleas'd to give them such a Hearing and speedy Redress, as may conduce most to the Glory of God, your Lordships Honour, and the Welfare and Prosperity of your Colony, and you will highly oblige

Your Lordships
Most Humble Servant:

It may be observ'd, That during the Negotiation of Mr. Ash, and the interval before the sending Mr. Boon, the Party carried on their Excesses, and added to the Grievances Complain'd of before; by setting on foot that most barbarous and unheard of Law against the Dissenters mention'd in the above Letter and Address; the Copy whereof is as follows:

An Act for the more effectual Preservation of the Government of this Province, by requiring all Persons that shall hereafter be chosen Members of the Common House of Assembly, and sit in the same, to take the Oaths and subscribe the Declaration appointed by this Act; and to conform to the Religious Worship in this Province, according to the Church of England; and to receive the Sacrament of the Lord's Supper, according to the Rites and Usage of the said Church.
As nothing is more contrary to the Profession of the Christian Religion, and particularly to the Doctrine of the Church of England, than Persecution for Conscience only,

NEVERTHELESS,

Whereas it hath been found by experience, that the admitting of Persons of different Perswasions, and Interest in Matters of Religion, to sit and vote in the Commons House of Assembly, hath often caused great Contentions and Animosities in this Province, and hath very much obstructed the publick Business; and whereas by the Laws and Usage of England, all Members of Parliament are obliged to conform to the Church of England, by receiving the Sacrament of the Lord's Supper, according to the Rites of the said Church.

Be it therefore enacted, by His Excellency John, Lord Granville, Palatine, and the rest of the true and absolute Lords and Proprietors of this Province, by and with the Advice and Consent of the rest of the Members of the General Assembly, now met at Charles-Town, for the South-West Part of this Province, and by the Authority of the same, That every Person that after the Ratification of this Act, shall be chosen a Member of the Commons House of Assembly that hath not, within the Space of Twelve Months before such his Election, receiv'd the Sacrament of the Lords Supper, according to the Rites and Usage of the Church of England, as establish'd by Law, such Person after his Election, and before he be permitted to sit and vote in the said House, shall receive the Sacrament of the Lord's Supper, according to the Rites and Usage of the Church of England, in some publick Church, upon some Lord's Day, commonly called Sunday, immediately after divine Service and Sermon; and every of the said Persons, in open Assembly, in a full House duly sitting, with their Speaker in his Chair, shall deliver a Certificate of such his receiving of the said Sacrament as aforesaid, under the Hand of the respective Minister, or shall make proof of the Truth thereof by Two credible Witnesses at least upon Oath.

But whereas some Persons scruple the Receiving the Sacrament of the Lord's Supper, by reason they fear they are not rightly fitted and prepared to partake of that Ordinance, who do nevertheless, out of real Choice, conform to the Church of England, as establish'd by Law, and do sincerely profess the Same, and do not abstain from the Sacrament of the Lord's Supper, out of any Dislike to the Manner and form of the Administration thereof, as used by the Church of England, and prescribed in the Communion-Office, in the Book of the Common-Prayer of the said Church.
APPENDIX.

Be it therefore enacted by the Authority aforesaid, That every Person that after the Ratification of this Act, shall be chosen a Member of the Commons House of Assembly in this Province, in case he hath not received the Sacrament of the Lords Supper, according to the Rites and Usage of the Church of England, as is before prescribed by this Act, then every such Person before he vote in the said Commons House of Assembly, or sit there during any Debate in the said House, after their Speaker is Chosen, shall upon his Oath taken on the Holy Evangelists, declare as follows.

I. A. B. "Do solemnly and sincerely, in the Presence of God, profess, testify and declare, That I am of the Profession of the Church of England, as Establish'd by Law; and that I do conform to the Same, and usually frequent the said Church for the publick Worship of God; and that I do not abstain from the Sacrament of the Lord's Supper, out of any Dislike to the Manner and Form of the Administration thereof, as used by the said Church of England, and as it is prescribed in the Communion-Office, in the Book of Common-Prayer of the said Church; and that I am not, nor for One Year past, have not been in Communion with any Church or Congregation, that doth not conform to the said Church of England, nor received the Sacrament of the Lord's Supper in such Congregation; and that as a Member of this House of Assembly, I will endeavour the Good and Welfare of the said Church of England, as established by Law; So help me God.

Which said Oath or Declaration of Conformity shall be solemnly and publickly made, and subscribed by every Member of the said Commons House of Assembly (that doth not produce a Certificate, or other Proof of his having received the Sacrament of the Lord's Supper, as before prescribed by this Act,) between the Hours of Nine in the Morning and Four in the Afternoon, at the Table in the said House, and whilst a full House is sitting with their Speaker in his Chair: And every such Person that shall upon Oath make, and subscribe such Declaration of Conformity to the Church of England, is hereby declared to be sufficiently qualified to be a Member, of the Commons House of Assembly, as if he had receiv'd the Sacrament of the Lord's Supper according to the Usage of the Church of England, as is above prescribed by this Act.

And be it further enacted by the Authority aforesaid, That all Persons that after the Ratification of this Act shall be chosen Members of the General Assembly before they vote in the Commons House of Assembly, or sit there during any Debate in the said House of Commons, after their Speaker is chosen, shall on the Holy Evangelists take the
Oaths appointed to be taken, instead of the Oaths of Allegiance and Supremacy by one Act of Parliament, made in the First Year of the Reign of the late K. William and Q. Mary, entituled "An Act for the Abrogating of the Oaths of Supremacy and Allegiance, and appointing other Oaths, and shall make and subscribe the Declaration appointed to be made and subscribed in the Act made in the Thirtieth Year of the Reign of the late King Charles the Second, entituled, An Act for the more effectual Preserving the King's Person and Government, by disabling Papists from sitting in either Houses of Parliament. And shall also take the Oath appointed to be taken by one Act of Parliament made in the First Year of the Reign of Her present Majesty, entituled, An Act to declare the Alterations in the Oath appointed to be taken by the Act, entituled, An Act for the further Security of Her Majesty's Person, and the Succession of the Crown in the Protestant Line; and for extinguishing the Hopes of the pretended Prince of Wales, and all other Pretenders, and their open and secret Abettors, and for declaring the Association to be determined:

Which Oaths and Declaration in every succeeding Assembly shall be solemnly and publicly made and subscribed betwixt the Hours of Nine in the Morning, and Four in the Afternoon, by every Member of the said Assembly, at the Table of the said House, and whilst a full House is sitting, with their Speaker in his Chair.

And be it further enacted by the Authority aforesaid, That if any Person, that shall hereafter be elected a Member of the Commons House of Assembly, shall presume to sit and vote in the said Commons House after their Speaker is chosen, before he hath received the Sacrament of the Lord's Supper, according to the Rites and Usage of the said Church of England or upon Oath and subscribed such Declaration of Conformity to the Church of England as is prescribed by this Act, and hath also taken the Oaths, and made and subscribed the Declaration, as required by this Act; every Person so offending shall forfeit for the first time he shall so sit, the Sum of Fifty Pounds current Money of this Province; and for every Day after that he shall so sit, the Sum of Ten Pounds, the one half to the Palatine, and the rest of the true and absolute Lords and Proprietors of this Province, to and for the Support of the Government of this Province, and the contingent Charges thereof, to be disposed of by Ordinance of the General Assembly; and the other half to him or them that shall sue for the same within Six Months after the Offence committed, by Action of Debt, Suit, Bill, Plaint, or Information in any Court of Record in this Province, wherein no Essoign, Protection, Privi-

And be it further enacted by the Authority aforesaid, That in case any Person shall be return'd a Member of the Commons House of Assembly, who shall refuse to qualifying himself as required by this Act, and so cannot be permitted to sit and vote in the said House, that then and in such Case it shall be lawful for those Members of Assembly, that are qualified to sit and vote in the said House of Assembly, or to order the Sheriff of the County to lay the Poll or List of the several Candidates, and the Numbers of them that voted for each of the Candidates, and admit that Person or Persons, that hath the greatest Number of Votes next to them, Members that were return'd to sit and vote as a Member or Members of the said Commons House of Assembly, provided they do qualify themselves as is above directed by this Act; And in case there is not a sufficient Number of the other Candidates, that are qualified, as aforesaid, to fill up the Vacancies, that then a new Writ shall be issued out, for such Number as is so wanting.

This is the famous Exclusive Act: A Law in itself so ridiculous, so partial, so calculated for the Ruine of the Colony, that nothing but mad Men, that depended upon being Superior in Power to all humane Authority, the People should apply to, would have ever brought upon the Stage of the World: A Law that give such a Test of its Makers, that it fills Strangers with Amazement, at the Impudence of it, makes their own Friends abandon them; and that they that would advocate for the Thing in general, yet blush at the horrid particulars.

A Law, that contrary to all Laws universally made; which, however ill design'd, have pretence of publick Good, has thrown off the very Mask of Modesty; and openly declares, no Villany can unqualify for a part in the Government, but a Conscientious Scruple may.

A Law that has the Impudence to declare War against the Christian Religion and the Church of England, in the frontice Piece, and begins with a Non abstante to both of them.
That having first own'd what it Enacts, to be Unchristian and Hetrodox, has the face, to begin with a Nevertheless in Capital-Letters, damning the Laws of God, and of the Church, as well as of the Country, to a positive Submission, to a Rabble of Sham-Representatives.

A Law that, turning the first Paragraph into the Genuine English, which the Words will, without any straining, or partial Construction, bear; begins in this Sense.

Whereas the Laws of God, the Laws of Nature and Reason, the Christian Religion, the Doctrine of the Church of England, and the Constitution of this Country, are directly against, and do clearly condemn the Law now making, yet in defiance to them all, in order to carry on our own private Resolutions, for the Enriching our selves, and the Destruction of this Colony, we have resolved to Enact; and be it Enacted, &c.

Blush, Gentlemen-Proprietors, and be ashamed for your Petty Sub-Tyrants; that, like the Lord's Servants in the Gospel, beat and abuse their Fellow-Servants, and Eat and Drink with the Drunkens, and with a Detestation suitable to your own Honour, and the Nature of the Crimes, publish your Dislike of these Things, and immediately apply your selves to reforming the Abuses of your Subjects, who, tho' in one Sense they are your Subjects, in another Sense, as Englishmen, are your Fellow-Subjects to the Crown and General Government of the English Empire, and that are under the Government of a Princess; Who, as She hates Tyranny in all its Parts, carefully avoids it in Her Own Administration, Vigorously struggles with it in Europe, and Fights to loose the World from General Bondage, will never suffer Her Own Subjects to Tyrannize over one another, nor any part of Her people to oppress the rest. In Her Majesty's Equal Administration, you may assure your selves, these injur'd People will have Redress; and the barefaced Villany, with which they have been thus treated, will ripen Matters so, for the Royal Justice, that it cannot escape a Necessary Correction.

Prevent it, Gentlemen, by a timely Redress, and let Her Majesty see, that Her pious Examples of Peace will animate you, to extend it to all the parts of Her Subjects under your Direction; for certainly, when Her Majesty exhorts us all to Peace and Union, and promises Her Royal Favour to those that promote it, it cannot be understood, that all Her Majesty's Dominions should Enjoy it, but Carolina.

Hitherto you have seen the General Complaint of the Inhabitants of Carolina, and how they have been Tyranniz'd over, and barbarously Treated in the Country.
APPENDIX.

I conclude this Treatise, by giving Account of the Reception they met with here in, their peaceable Application to their Palatine, and Board of Proprietors for Redress.

Mr. Ash, as is related, being arriv'd here with the Remonstrance and humble Petition of the Inhabitants, apply'd himself in the Name of the People, by whom he was sent to their Excellencies the Proprietors; and delivering his Petition &c. found it was impossible to obtain any Redress, either for the publick, or his own private Abuses, which were intolerable; and therefore revolv'd to publish the Account, but dy'd before it was finished; and his Papers being sent over to his Relations there, were treacherously deliver'd to the Governor's Agents, whose Guilt Dictated to them; That they were exposed in them; and several private Letters of the Inhabitants to Mr. Ash, being among them; they are now prosecuting and insulting the said Inhabitants for those Letters, to terrify others from transmitting a true Account of the Oppressions practised upon them.

As in the Interval of Mr. Ash's Negotiation, the Exclusive Bill was passed, as I have noted, and Mr. Boon sent over with it as before; he apply'd himself to my Lord G——ll Palatine (as he calls himself) for all Men know that by the Right of the Constitution, even that Mock Title is none of his Due. Having laid the Case before his Excellence (as he loves to be call'd) Mr. Boon desir'd a Board of the Proprietors might be call'd, which his Lordship promised, but never perform'd till after about 7 Weeks Attendance and Solicitudation.

At this Board, one Mr. Arsdale, now a Proprietor, and formerly the very well respected and upright Governor of Carolina, vigorously opposed the passing this Exclusive Bill; and gave such Reasons against it, as his Lordship, who all the World knows, does not always make use of his Profound Skill of Reasoning, not being able to Answer, had Recourse to the true Methods of all Tyrants positive Will, and answer'd in this Arbitrary and Imperious Manner:

"Sir, You are of one Opinion, and I am of another, and our Lives may not be long enough to End the Controversy. I am for this Bill, and this is the Party that I will Head and Countenance.

This is so much the Picture of the Answer of King James, to the Humble and Peaceable Address of the Bishops, when he sent them to the Tower; that a Body would wonder the Tale of one, should not warn his high Mightiness against the Practise of the other.

But let us go on, and see how the sweet and delicious Taste of Tyranny had swallow'd up all the Justice of this Mountebank Prince."
Mr. Boon, the present Agent for the Oppress'd People, humbly mov'd his Excellence to be Heard by Council against this Barbarous Act. Hark now, Gentlemen, to the haughty Answer of an insulting, podant Prince, to a Request so reasonable.

"What Business has Council here? it is a Prudential Act in me, and "I'll do as I see fit; I see no Harm at all in the Bill, and am resolv'd "to pass it.

Accordingly, Sic Volo, sic Jubeo, he Signed it that Day, the Board consisting but of three Persons, and he having Power by a Proxy for Two in himself; and tho' we must in Justice acknowledge, that some of the Gentlemen Proprietors were against it, yet by that Means they were over-rul'd and the Bill pas't.

By this Arbitrary Proceeding, the Liberties of Carolina are trampled under foot, and the People's Properties subjected to all manner of Insults and Oppression.

Mr. Boon had a Petition against this Bill to present him, signed by the principal Merchants of London, Trading to Carolina; but he saw himself foreclosed by absolute Power, and that he had to do with a Monarch, on whom the Cries and Prayers of his oppress'd Subjects made no Impression.

For this Cause, he now addresses himself to the Honourable the House of Commons, and hopes, that from the Premises, it will be allow'd of, in behalf of the oppress'd People of Carolina, that they have not taken this Course but as the last Resort; all manner of humble, dutiful, and peaceable Application to their Governors, having been first in vain attempted, to obtain a just Redress.

What have the peaceable Subjects of this Province done, that they alone must be oppress'd, when all the rest of Her Majesty's People enjoy the Blessing of a Government, the best constituted, and under the best, most moderate, and most equal Administration in the world?

This Law in its Nature appear'd so black, that even in this very Assembly afterwards, viz Some Members mov'd to have it Repealed, and the Act pass'd to Repeal it in the Lower House, which they call but in the Upper House, where the Engines of this Confusion Sat, and had a more particular Influence, and which they Call the Court of there it was rejected Nemine Contradicente.

It would swell this Book too much to give a particular Account of the flourishing Circumstances of this Colony before these things, and of the fatal Effects already felt on their Trade, especially on the Number of Inhabitants, which is allow'd by all, to be the Wealth, Strength, and
APPENDIX.

Prosperity of a Country; These Proceedings not only discouraging People from going to Settle, where all things are in such Confusions, and Hurries, and where Men are not safe in their Houses and Families, nor in the Streets; but many Families (well Settl'd and flourishing) daily Remove, and others are preparing to quit the Place, choosing to abandon a Settlement where their industry is subjected to such Violences; and they are not sure to enjoy (peaceably) the Fruit of their Labour.

There is yet another Scandal these Proceedings lye under, which carries in it some Reflection on the Great Persons concern'd; and that is, That these Proceedings, being Contemporary with Times of Occasional Bills, Tackings, dangerous Experiments, and the like in England, receiv'd their Life and Motion from the same Original, and prosecuted the same Design, being under the Power and Government of some of the same Persons. This Observation has several Aspects.

1. England may here see the Consequence of Tackings, Occasional Bills, &c. in Miniature, and what the Designs of the Party are in general, viz: the absolute Suppression of Property, as well as Religion; or in short, both Civil and Ecclesiastical Tyranny.

2. Carolina may have reason to think their Oppressions were at least encourag'd from the same Expectation they had of Success in the like Design here; and not expecting a Disappointment here, no wonder, if they acted as People that thought they should never give any Account, either to God or Man.

3. Her Majesty has here an Exceeding Testimony, to the Necessity of Party-Peace, which her Royal Wisdom Dictated before, was the only Happiness of Her People; and which the same Party of Men, were carefully destroying here, as these did there.

4. Here may be seen, the Great Assurance this Party acted with, that depending they should succeed here, durst attempt the persecuting their Fellow-Subjects there.

5. 'Tis plain, what is the Design of Occasional Bills in general; which, where they durst appear to show themselves, Demonstrate 'tis not to prevent Hypocrisy, but to plunder and destroy their Neighbours; and that any Man may come in to the Administration, let his Manners be never so Corrupt, and that provided he be not tainted with the Sin of defending his Liberty, nor with the Scandal of being a Man of Conscience, he is own'd fit to be a Member of this Society.

I believe, I may freely challenge all Mankind, ever since there were Governments in the World, to show a like Test of Qualification, where Men Conscious to themselves, that if they lock't the Door against
APPENDIX.

Rogues, against profligate, unqualify'd Rakes, they should shut themselves out, open'd the Door to all that were scandalously unfit for any thing, and bolted it upon none but those that could not swear themselves regardless of Conscience.

But while we are hinting here at the People that Push on these Extravagancies, we ought to clear the Church of England, as a Church, as far as possible, from the Guilt of Action so Horrid.

For tho' here is a seeming Appearance for the Church of England, and some shew of Regard to her, yet as the Doctrine of the Church abhors such Practises, so the worthy and reverend Minister of the Church of England there, has shared with the deepest, in the Suffering Part, from the Violences and Furry of those People, because he would not joyn with them in the same Excesses, against the Laws of the Place, the Liberty, and Religion of the Inhabitants, and the known Capitulations of the Government.

Nor can they Charge this Gentleman with Phanticism, or Partiality, who 'tis known, was so far from that, that it was some time here before he could satisfy his Conscience to take the Oaths, and lost several Advantages because of it.

Yet this Gentleman abhoring such Unchristian Violances, and not being to be prevail'd upon to joyn with them, has been insulted by them in the most barbarous and villainous manner, even in the Streets, his Gown torn off from his Back, whipt with a Horse-whip, and in a most unseemingly manner beaten and abused, as by his many and frequent Complaints made to the Proprietors (tho' never regarded) will appear.

Nor does their Rage end here; but the Party now are resolv'd to have him turn'd out, tho' he is marry'd, settled, and has a Family of Children upon the Place, depending upon his being fix'd there for his Life, knowing that his blameless Conversation would be incapable of forfeiting that Settlement.

It would require a History as large as the Rest of this Book, to set down the Barbarities this Gentleman has met with, and which he has fully represented to some Reverend Divines here; and perhaps Dr. S.... hope may better know, why no Redress is obtain'd for him, while an Ignorant, Illiterate, and Untaught Person, to say no worse for him, is encouraged and supported by this Party, to Inflit and Depress the other.

Nor are their Proceedings altogether unlike what in former Times was practised here, since they are now Erecting a little High Commission Court to Govern the Clergy, and to whom they shall be always subject;
APPENDIX.

by which 'twill be always true, That when ever a Clergy-man has Courage, either to reprove their Vices, or oppose any of their Arbitrary Proceedings, they shall be lyable to the Censure of those very Men they ought to reprove.

This Gentleman was so far from obtaining any Redress in the Case we hint here, that to requite him, we are inform'd they resolve to have him out.

Nor is he the first, but two several Clergy-men before him have been so treated, turn'd out, and reduce'd, that both of them went distracted, and dyed in Misery and Distress.

'Twould fully this Paper, and turn the sad Account to a History of Immoralities, to bring upon the Stage the Characters of the People: Men are best known by their Actions; and we leave this unparallel'd Act of Parliament as a Standard for them to be match'd by, if ever Providence should suffer a Society of such Men, to get Legislative Power into their Hands, in any part of the World.

If this be the Effect of Occasional Bills, and English Persecution; no wonder it was declar'd contrary to the Christian Religion; but sure these are the first Men that ever made a Law, tho' it has been elsewhere push't at, with a Nevertheless upon its Title, to its being contrary to the Christian Religion.

It can therefore no longer be doubted, but when these Things come to be consider'd in an English Parliament, such Redress will there be obtain'd, as may secure English Liberty, wherever it pleases God to establish English Government.

That no part of the Subjects of this Nation be oppress'd by others; and that while Great Men obtain the Liberty of their Estates, and the Property and Security of their Inheritances; they may not Erect Petty-Tyrannies under them, and skreen Men of profligate Principles from the Resentment of the Government.

That Men may not be wheedled in by the Pretense of a free Possession of Estate and Liberty, and on Conditions of a just Government; first, to wander into remote wildernesses with their estates and Families, then industriously Plant, Cure, Manage and Improve their Estates, and at last, have their Labours discourag'd by Tyrannick and Barbarous Insults; their Estates sunk and lessen'd, by being subjected to Arbitrary Taxations, for the Executing improbable and preposterous Projects, and their Persons unqualify'd without a Crime, to appear in the Assemblys of their Country, where all these Injuries might, in a legal manner, be redress'd and repair'd.
