Message of
O. MAX GARDNER
Governor of North Carolina.

We are met today to consider North Carolina and to take thought of her future.

This solemn duty, which is also the highest privilege of citizens of a self-governing commonwealth, comes to us at a time when most of our old problems appear aggravated by the condition of economic maladjustment in which we find ourselves, and when an unprecedented number of new problems are clamoring for solution. It is not any exaggeration to say that North Carolina stands today at a crossroads in her history: to a degree perhaps few of us realize, the whole future of this State will be profoundly affected by your work here in the eventful days that lie just ahead.

We are face to face with the supreme test of our collective common sense, of our intellectual and moral courage, and of our faith in the essential soundness of this commonwealth.

To get a perspective of our problem we should look back over the road we have traveled in recent years of prosperity. In the twelve-year period from 1918 to 1930 the total cost of government in North Carolina increased from twenty-three and one-half million dollars a year to the present total of one hundred million dollars. As late as 1913 the cost of public education was only $5,500,000. Today the cost of public education amounts to twenty-eight million dollars a year. In 1913 the state bonded debt was eight million dollars, and as late as 1920 only eleven millions. It is now more than one hundred and seventy millions. In 1918 the total debt of local governments was sixty million dollars; today it is three hundred and seventy-five millions. The sum total of this period of expansion presents us today with a bonded debt for the state and its subdivisions of five hundred and thirty-seven million dollars.

While our movement to lift the state from its position of prostration and backwardness in the nation commenced in 1911, it was the period from 1921 that witnessed its major fulfillment. In this period we spent one hundred and sixty millions of public funds for the state highway system, eighty millions for school buildings, and thirty-two millions for the enlargement of the State's institutions. The counties, cities, towns, and districts followed the example of the state in providing permanent improvements and in increasing operating expense.

I, for one, do not wish to be understood as repudiating the wisdom or policy of the program of progress to which, through ten years of stirring achievement and growth—we have within sound economic limitations—become committed.

It is true, as I think we are all ready to admit, that such a fiscal and developmental program could not have been carried out without some mistakes. But they were honest mistakes of judgment. In all of the State's expenditures of millions during this period, there has never been an instance of dishonesty or graft in the handling of the people's money. It costs money to reclaim "lost provinces," whether it be in the realm of the geography of an imperial commonwealth or in the conservation of human life and opportunity. I ask you this question: Where would North Carolina be today
if she were contending with the evils of ignorance, the mire of mud, the poverty of spirit, and the tragedy of a deadened public conscience?

Our problem at this hour is not to spend sixty days in lamentation over the mistakes of the past or in over-boasting of the progress of the past. Our challenge is to lift, to conserve, and to keep on solid ground. Our problem at this hour is to see North Carolina steadily and to see it whole; to think of individual and local conditions in terms of their ultimate state-wide significance, to provide for the needs of the present, and to keep steadily in mind the fact that the consequences of what we do today will become manifest tomorrow—that, in sober truth, it is North Carolina's future with which we are dealing.

A state is governed by the same general economic laws that apply to an individual. And we ourselves must not forget that just as the average North Carolina home has gone on a basis of rigid economy and self-denial, so too must the state through its chosen representatives interpret the will and reflect the composite economies that now control its fiscal affairs, as the family budget is fixed and reduced around the legislative fireside of the homes of North Carolina.

AGRICULTURE

In my inaugural address I stated my ambition to improve the condition of agriculture and country living in North Carolina. The financial distress of agriculture is being manifested in the dissatisfaction of the farmer with his tax burden; but the real effect is more far-reaching than this. To relieve the farmers of their tax burden altogether would fail to relieve them of their distress. I say frankly that one of the most serious elements in the intricate maze of interlocking difficulties that this state is now grappling with and that we lump together under the head of "economic depression" is the fact that its farmers are receiving for their 1930 crops of cotton and tobacco $80,000,000 less than they received for their 1927 crops. I now ask this further question:

If we had these eighty millions, how completely would vanish many of the perplexing problems we are grappling with today?

Hard, nay, critical as the situation is, it would be much more aggravated but for the economic compensation in the acceptance by the farmers of this state of the Live-at-Home idea. Supported by the press, and the agricultural, business, and educational agencies in the state, the administration in January last year undertook to develop a state-wide program of encouraging every farmer and farm tenant to grow sufficient food and feed stuffs to be self-supporting and also designed to relieve the annual importation into this state of more than one hundred and fifty million dollars worth of food and feed stuffs. The slogan of this campaign was: "North Carolina must live at home."

The results for the first year have been most gratifying. We reduced our cotton acreage 234,000 acres and increased our corn acreage 271 acres. We increased our yield of corn above the 1929 crop 1,040,000 bushels. We increased all of our home consumption crops. We increased our corn crop 12 per cent; hays 7 per cent; oats 11 per cent; soy beans 35 per cent; cow peas 19 per cent; sweet potatoes 25 per cent; Irish potatoes 21 per cent; commercial truck 22 per cent; and sorghum cane 24 per cent. There is more
corn bread, more cow peas, more molasses and more sopping going on in North Carolina this winter than at any time in the State's history.

The United States Government reports these figures. It states that the total value of the food and feed crops in 1930 over 1929 amounted to a saving of $16,544,000. The significance of this vast sum is appreciated when we realize that without it this amount in cash would have gone out of the state for food and feed stuffs and that this would have constituted a heavy drain upon the cash received from cheap cotton and cheap tobacco. We are already organization in 1931 to repeat and intensify the campaign and to raise this year at least forty million dollars of food and feed stuffs over and above that raised in 1930. At the same time we are continuing our drive to persuade the North Carolina farmers to select purebred, certified seed for planting and to breed purebred dairy cattle and livestock. The hope is to grow the right crops, to plant the best seeds, and to rid North Carolina of the scrub.

FISCAL PROBLEMS

Since January 1, 1929, the state has paid a total of $9,482,640 on its bonded debt. During this two years we paid off more on our bonded debt than that debt totaled in 1913. That is to say, in 1913 the total bonded debt of the state was eight million, and we have paid nearly ten million in twelve months.

After serious consideration and after consultation with the members of the Advisory Budget Commission, I firmly believe that no additional bonds should be authorized for permanent improvements at this session. After having enjoyed ten solid years of having the public spendings sweetened by fifty million dollars annually from bond issues, North Carolina now finds itself facing a ten year period with its borrowing power dried up and with the requirement of raising forty million dollars annually for interest and principal repayments. Instead of having $1.50 to spend for every dollar levied in taxes, we now find that our tax dollar yields only sixty cents for carrying on the ordinary and regular business of government, and that forty cents must go for interest and repayment.

SALARY CUT

I am now about to make a recommendation that, so far as I know, is without precedent in the history of North Carolina, and I make it with no personal satisfaction. I recommend that this General Assembly cut by ten per cent the salaries, wages, fees, or compensation of officers and employees who receive pay from public funds—this cut to apply to everything, body, and salary from the Governor down and to apply to every employee of the state or its political subdivisions.

Let me make clear the scope of this recommendation. It would invoke the power of the General Assembly to give it application to every officer or employee who receives compensation from state, county or municipal government or from any institutions maintained by them. If it should fail to reach every class, it would bear the tinge of inequality and injustice and would not have its full effect on our total fiscal problem. If made universal, it will carry the virtue of equal treatment and will save four million dollars a
year on our total tax bill. The only exceptions I recommend are those whose salaries have already been reduced by this amount since December 1929, and those whose salaries are less than fifty dollars per month.

I am prompted to make this recommendation in no spirit or purpose of moving backward, but in stern realization of existing conditions. Every competitive industry has seen its earnings drop from month to month. Practically the whole laboring group has experienced diminished earnings by reason of forced unemployment and decreased opportunities to work. Thousands of workers in North Carolina are on a basis of three days a week; and tens of thousands who have the will to work are walking the streets in idleness. The country and city merchant, the tradesman, and the professional man are all rendering the same service but are receiving materially lower incomes. But above all these is the North Carolina farmer and land owner who has been compelled to stand by and see fifty per cent of his income washed away by declining prices. It is indeed a serious thing to reduce public salaries; but we can only hope that those who are affected will continue to serve the public with the spirit of faithfulness which has guided them in the past. Public officers and employees constitute one class that enjoy full-time employment and a certainty of regular pay, and a basic cut of ten per cent in salary or wage is the only reduction they will have to sustain. There is this other compensation: eighty-five cents today will buy as much as one dollar would buy in 1928.

I recommend that this cut become effective on July 1, 1931, the beginning of our next fiscal year, and continue for a two-year period only. I especially recommend that the laws enacted to carry out this ten per cent cut make it mandatory that the savings thus made be reflected in a positive reduction in tax levies on property to the full amount of the savings realized. This reduction will be worthless unless it finds its way into the pocket books of the tax payers.

PUBLIC ROADS

Our total investment in public roads is greater than our total investment in educational facilities, and our annual tax bill to sustain public road maintenance and indebtedness rivals our total annual tax bill for education.

Our public roads should be maintained by those who use them, including people from other states who travel over them. The gasoline tax levied and collected in this state furnishes as much real value for the money as any tax levied, and furnishes it direct to the man who pays it. With property groaning under the load of all other expenses of local government, it should not be made to bear any part of the expense of maintaining roads.

This General Assembly will have before it the most complete information ever assembled in any state in the union concerning the whole range of its public road problem. You will have placed before you maps showing every mile of public road in every county in North Carolina, classified into grades and types of road. You will find county road mileage one-third less than was estimated two years ago. You will have analyzed data, carefully collected from each county seat, showing the costs of county road maintenance, the relationship between road expenditures and county chain-gangs, and the efficiency and effectiveness of the several county road organizations.

Two years ago I presented to the General Assembly the suggestion of expansion of state highway maintenance to cover all public roads in the state.
After further consideration of this subject, with the more complete information now available, with an adequate fund for the purpose in easy reach without a tax on property, I am more convinced of its wisdom.

I do not partake of the apprehension that our state highway organization, after it has completed its big construction program, cannot be made adequate to the task of expending six million dollars of additional funds in county road maintenance. When its organization was immature and when its knowledge of road construction and maintenance had to be learned, it took over in one day all the main arteries of public roads in the state—carrying perhaps eighty per cent of travel mileage. Adequately maintaining this mileage, and constantly increasing it, it assumed with conspicuous success the added responsibility of spending twenty-five million dollars a year in laying out and constructing our main state system, now carrying perhaps eighty-five per cent of travel mileage.

With this major problem of construction behind us and with its seasoned organization trained in knowledge and technique extending through every county in North Carolina, I believe the State Highway Department could take over this large problem more easily than it originally met the problem of taking over the state system. Don't tell me it can't be done. It can be done and must be done.

This public road survey clearly points out the necessarily wasteful methods of public road maintenance by the more than one hundred and fifty separate organizations now operating within county line limitations. I can, of course, see difficulties and perhaps hardships involved in the carrying out of this plan, but they seem to me far outweighed by the advantages and economies. And we must meet and master difficulties and hardships if this General Assembly is to perform any major operation for the relief of property taxation.

I, therefore, recommend that the state take over the complete maintenance of the county road systems. I recommend that the gasoline tax be increased to six cents per gallon and that all laws authorizing refunds of gasoline tax be repealed. I recommend, further, that two cents of the gasoline tax levy, together with the present appropriation of $500,000 from the highway fund be set aside for state maintenance of county roads. This will provide a $6,000,000 fund which should be adequate.

STATE HIGHWAYS

I share the pride and admiration of all our people in the accomplishments and the superb service of the State Highway Commission in building up our great system of hard-surfaced highways. Such an extensive system could probably not have developed under any plan other than the one adopted in 1921. But, we must remember that the problems of 1931 are not the problems of 1921. In 1921 our major problem was to build; in 1931 our major problem is to maintain. In 1921 we had no system of roads. Today, our main job is to tie the traffic arteries into one co-ordinated system. The time has come to discontinue building state highways in piecemeal fashion.

The state now has, in effect, nine separate highway organizations, hedged about and fettered by legislative and administrative restrictions upon the allocation and expenditure of highway funds. The state should not longer be subordinated to the individual districts.
I therefore recommend that the system of legislative highway districts with its complicated provisions for the apportionment and expenditure of highway funds be abolished. I recommend that the State Highway Commission be composed of a chairman and four commissioners from the state at large and that the Commission be authorized to establish such administrative districts as shall be necessary. I further recommend that the laws be enacted providing that future highway construction and reconstruction may be based upon a complete and composite state system developed on the basis of highway transport and traffic surveys; and that highway funds should be under the same general budgetary supervision as all other public funds.

**PRISONS AND PRISONERS**

The conclusion is inescapable that an organic economic relationship exists between highways and roads and prisoners in North Carolina, and that this relationship ought to be unified and integrated. In the present biennium, the State Prison has incurred a deficit of upward of $370,000 due in large measure to the fact that it has been necessary to maintain many able-bodied prisoners for long periods of idleness.

Last March I appointed a commission to investigate and report upon the general prison problem in this state. After conducting an exhaustive study of our present system of penal administration and prison facilities, the commission filed its report which has been made available to you. I am in accord with its general recommendations, and cannot impress upon you too firmly the desirability of placing our prison administration on a sound economic basis. We need, first, a proper parole agency to supervise paroled prisoners; second, a modern plant to take the place of the unsafe, costly, unsanitary and wholly inadequate Central Prison; and, third, a practical plan of utilizing state and county prisoners in developing and maintaining our road program.

Governor Bickett, Governor Morrison, and Governor McLean have each successively and in no uncertain terms condemned our State Central Prison Plant. Governor Bickett declared that "the prison at Raleigh represents an inexcusable waste." In my opinion, the State has lost many thousands of dollars through its failure to put in effect the recommendations for the re-location of the Central Prison.

We should erect a modern but inexpensive building at Cary Farm to serve as the central unit in our prison system. We should provide industrial facilities for training prisoners and for making profitable use of their industry for state purposes. Through a sound co-ordination of our institutional programs, both the Caledonia and the Cary farms should be made to produce a large quantity of the basic food-stuffs used at the state institutions.

In the study of the state prison system, the Commission made recommendations covering the disposition of county prisoners. County convict and chain-gang camps present another problem which engages our particular attention at this time if the maintenance of county roads is taken over by the state. I suggest for your consideration the advisability of the erection of district prison camps to care for the present county prisoners and chain-gangs.
The 1927 General Assembly authorized $400,000 for the purchase of additional prison farm lands. This money has not been expended, and wisely so. With the facts before us which heretofore were lacking we can now pursue a constructive policy; and I recommend that the previously authorized funds be made available to meet this serious situation.

TAXATION

Taxation is the means by which a people supply the funds for carrying on the services provided at public expense. It is the essence of democracy that such system be fair, just and reasonable—reaching every citizen, every privilege, and all property having taxpaying liability with even-handed justice.

Our ideal should be to consider fairly what amount we ought to raise, to decide whether our economic ability is sufficient to raise so much, to determine how much we shall raise; and out tax scheme should then be so constructed as within reasonable limits to require all citizens and all property to support the government according to their capacity and their benefit.

In its comprehensive report the Tax Commission tried to consider this subject in its wide ramifications. We should ourselves not undertake to legislate on any one phase of this question which reaches into every aspect of our economic and industrial well-being without first analyzing its effect on our whole scheme of taxation and on the welfare of the state in its entirety.

Of one conclusion I am absolutely certain. Taxes on property must be reduced. This is one clear mandate from the people. I but interpret their will. And we must go further; When we provide to cut taxes here, in Raleigh, we must also make provision that the cut be positively felt in the pocketbook of the taxpayer back home. This is our inescapable duty. The 1929 General Assembly reduced property taxes. It appropriated a total of $10,000,000 from state funds to the county governments. Six and a quarter millions of this was absolutely new money. Although 72 counties showed some reduction in their property levies in 1929, the average county did not reflect anything like the full amount received from the state; and many cities levied such substantial increases that the purpose of the General Assembly to effect a reduction was largely nullified. If this General Assembly will put this recommendation into effect and if we can work out the basic program proposed herein, I have no doubt that we shall give property genuine relief, and this we must do.

I urge this General Assembly to face this question fairly and fearlessly, divested of personal or sectional or class selfishness, and in the light of a reasonable interpretation of the facts to reconstruct our taxation scheme.

There is no subject in all government that has as many angles and stimulates as many theories, or that is as susceptible to controversy as is taxation. I have, therefore, avoided any effort at specific recommendation as to schedules; but that does not mean that I do not consider it the most important subject you will be called upon to deal with with wisdom and intelligence.

REVALUATION OF PROPERTY

The most important single phase of property taxation is that of valuing property for tax purposes. This measures the proportion of the total tax
burden of a given taxing jurisdiction to be borne by each property owner. Under ordinary conditions real property should be revalued in a thorough and careful way every four years. However, I have with reluctance reached the conclusion that under existing conditions the quadrennial revaluation that is just beginning should be postponed for two years; and I recommend that the General Assembly enact a statute to provide that the revaluation of real property as of January 1, 1931, be made as of January 1, 1933.

The comprehensive sweep of depression has practically stopped the transfer of real property by open sales, and has left us without any satisfactory standards as a basis for fixing values. The constitution requires that property be assessed according to "its true value in money." Under present conditions true value in money cannot be determined with respect to almost every class of real property in the state. Adversity and depression have so touched every class of real property that we have no standard of measure for arriving at new values at the present time. A thorough revaluation would cost the counties of the state nearly a million dollars—a sum they can ill afford to spend at this time, unless the expenditure would be clearly reflected in an improved equalization of the tax burden among property owners.

In the face of present conditions many counties are asking to be relieved of the requirement of undertaking a thorough revaluation at this time. If some are relieved of this requirement, of course, all should be. If it is carried through, it should be state-wide. In my judgment, it would be a wise course to let revaluation alone two years. But I realize full well that your own collective opinion is the soundest judgment we can use. You come fresh from the people. You know and reflect the public opinion of every section of the state, and it is the opinion of the public and its welfare that must be served.

I present this question as one that should be determined promptly by the Assembly. The expense of revaluation has already begun; and if in your wisdom my recommendation should be carried out, this expense should be stopped at once.

USE OF TAX FREE GASOLINE BY COUNTIES

The decision of our Supreme Court in the Mecklenburg County case, to the effect that a county is not a "distributor" of gasoline within the meaning of the law and, therefore, cannot be required to pay the state tax on gasoline purchased in interstate commerce, has created a situation that demands legislative action in the interest of a uniform tax policy for all counties in the state.

Under present conditions counties that provide facilities for storing and distributing gasoline purchased in tank car lots, get the benefit of tax free gasoline. All other counties pay a price for gasoline that includes the tax. Either tax free gasoline should be made available to all counties, in as convenient method as possible, or a consistent method should be found to require all counties to pay the tax. I recommend that the latter course be pursued.

The following considerations impel me to make this recommendation. Under this plan each county would receive back from the state in its road fund substantially the proper share of the tax it pays. Practically no ex-
pense is involved in collecting the tax in a uniform way for all uses. Departure from a uniform rule makes enforcement of the law more difficult. Use of tax free gasoline for all public purposes runs into many difficulties and border-line decisions where there is a mixed public and private use. Our neighbor states, Virginia and South Carolina, treat their gasoline tax as a straight tax without refunds, as do many other states. Perhaps the strongest consideration in favor of a uniform enforcement of the tax for all public and private uses is the necessity for preserving this source of revenue without impairment, if it is to remain adequate for the obligations now resting on it and for the larger program of public road maintenance proposed. We cannot continue to undermine this revenue asset and maintain its adequacy for the important and increasing public service resting on it.

STATE REORGANIZATION AND CONSOLIDATION

There is no question as to the soundness of the principles upon which our State government is founded, but experience demonstrates that in many instances our machinery is antiquated and our methods of administration cumbersome, unwieldy, expensive and inefficient. As this state has developed and as new burdens have been cast upon the State government, numerous bureaus, commissions, and boards have been established to discharge these added duties. You have recently observed the multitude of independent state agencies and the incidental cost of printing, as you attempted to wade through the fifty-odd separate reports submitted to your body.

I have myself experienced a growing consciousness of the diffusion of authority and responsibility in the administration of our public affairs, and have arrived at the conclusion that the increasing size and burden of public expenditures demand the readjustment of our governmental machinery to the end that modern and practical methods may be used in the conduct of our state government.

I have placed in your hands a copy of the report made to me by the Brookings Institution, one of the foremost governmental research organizations in this country. It offers a present solution for our most pressing problems. It also sets up objectives, which will give helpful direction and definite purpose to our future efforts in carrying out governmental reform.

Among the subjects included in the scope of this report are the agencies dealing with the following: Financial control and administration, personnel, purchasing, education, highways, public health, public welfare, labor, conservation and development, agriculture, business regulation, taxation, justice, and local government. The central purchasing plan, the consolidation of our three higher institutions of learning, and the application of the short ballot with respect to State offices created by statute, I have already publicly advocated as constituting three essential changes. These proposals I now recommend.

I ask these questions: Do we need concentration of responsibility and authority where we now have diffusion? Do we need economy where we now have waste and duplication? Do we need to tighten up our regulation of banks and other legitimate objects of regulation? Do we need to abolish needless agencies giving no fundamental services? Do we need to supplant archaic methods with modern, sound practical methods? Do we need to strengthen the arm of any department of our government? If so,
I suggest that the appropriate legislative committee thoroughly digest and consider the recommendations made in this report so that such changes as are beneficial to the public welfare can be adopted. It is my deliberate judgment that the time is ripe for many of the recommended changes in our State government.

It is needless for me to remind you that while North Carolina has forged ahead in many fields it has not set the pace in the efficiency with which our government is operated. As a matter of fact, there is hardly a major proposal in the whole report which has not been supported at one time or another by preceding Governors, members of the General Assembly and the press throughout North Carolina. If we desire economy, there is but one path for us to take.

About twenty-five leading states of the forty-eight now have a consolidated or cabinet form of government such as herein recommended. This would indicate that there is nothing radical or new in adopting an improved system of government. At least a dozen General Assemblies now in session will this month give attention to this question. Governor Byrd of Virginia prepared for his address to the General Assembly in 1928 a detailed list of "direct cash savings" amounting to $800,000 for the first biennium of the code operation. In the Maryland reorganization, the central purchasing feature alone has saved the state $200,000 annually on $2,000,000 purchases—not to mention the savings resulting from other consolidations, chief among which was the consolidation of the institutions of higher education into the University of Maryland. In the Pennsylvania reorganization, a deficit of $29,000,000 was wiped out within the first three years of the code operation, and deficiency appropriations averaging nearly $7,000,000 for the biennium were practically dispensed with. The reorganization of state government in New York by Governor Smith and a like reorganization in Illinois by Governor Lowden—who were alike pioneers in the field of state government reorganization—received nation-wide recognition by reason of the improved efficiency and economy they created. Maine and New Jersey at this moment are improving and reconstructing their state governments. Along the entire Atlantic Seaboard beginning with Virginia we find evidences of great steps forward. Idaho made a saving of close to $400,000 a year during the first four years after its had systematized its administrative activities. The state tax rate of Nebraska was lowered 33 1/3 per cent after two years of operation under an administrative code.

In the light of the experience of these progressive states, there is now offered to the General Assembly the opportunity to render to the taxpayers of North Carolina a service unexcelled and unequalled in the history of the state. And I pledge you my utmost personal co-operation and every facility of my office in the performance of this service.

LOCAL GOVERNMENT

The various units of local government in North Carolina—the one hundred counties, the hundreds of cities and towns, and the more than one thousand taxing districts—collect more taxes, spend more money, employ more public servants, have a more intimate contact with, and exert a more direct influence upon the lives of our citizens than does the state government. Inefficiency and maladministration of finances in many of our coun-
ties and municipalities are sources of waste which must be borne by the taxpayers. Inadequate protection of public money and improper accounting and settlement by officers handling public money, particularly tax-collecting officers, are a common condition that demand your immediate attention for adjustment.

The State's endeavor through the County Government Advisory Commission to assist counties in their problems has met with hearty favor in all counties, but the volume of this assistance should be enlarged. The state through this Commission should furnish supervision over the financial affairs of all local governments through uniform accounting systems, uniform budgets, restricted and uniform debt-incurring powers, and uniform purchasing procedure.

The Brookings Institution report relating to county government recalls the fact that the present burdensome taxes on property are levied by the towns and counties and expended by them entirely for their own benefit. The Tax Commission called attention to the fact that 75 cents out of every tax dollar is expended by and through local governments. The Brookings report notes the over-organized condition of our counties and points the way to better administration at reduced cost, through a greater concentration of authority in one responsible agency—the board of county commissioners—whose acts are proposed to be supervised and inspected by the County Government Advisory Commission and the State Sinking Fund Commission.

The financial plight of some counties today is evidence enough that additional restrictions are necessary upon their borrowing power. The indebtedness of local governments has increased three hundred and fifteen million dollars during the past ten years. I recommend that all requests for the validation of bonds or the refunding of bonds—such as regularly come before each session of the General Assembly—be required, first, to secure the approval of the State Sinking Fund Commission and, second, be authorized only as provided for in a general statute enacted with all the particularity and care required for laws authorizing bonds and taxes. This is no time to further increase the debt of the state or the local governments except such as is clearly in the public interest. The large volume of tax anticipation notes issued this year warrants a consideration of whether the beginning of the fiscal year and tax collection dates are too far apart and whether it would be well to advance the whole assessment and taxation calendar.

The proposal of the Brookings report for the passage of acts enabling counties jointly to use and maintain a common jail, county home, health department, and convict camp is a step in the direction of reduced cost and increased efficiency and welfare.

Likewise, I commend to your serious consideration the mandatory consolidation of some counties. Many of our 100 counties would never have been created, of course, if at the time we had had the transportation facilities of today. The beneficial experience gained by such enforced legislation will, I believe, pave the way for further consolidations at future sessions of the General Assembly.

EDUCATION

The public school is basic in a civilization such as ours. It is inherent in any scheme of democracy. It represents the State's best effort to give all
children an equal start in life. It stabilizes government; it sustains the economic power of a people, it alleviates social ills and provides for individual self-sufficiency. Upon it we base our hope for the success of the next generation, and through it we can best discharge our obligations to those who come after us.

The General Assembly of 1929 created an Educational Commission and instructed it to study the administration of public education in North Carolina with a view both of finding possible economies and enriching the educational outcomes. The Commission submits its report in the form of two proposed bills. Bill No. 1, which represents the mature judgment of the Commission, attacks the problem in a fundamental way. It proposes that North Carolina write into the law equal educational opportunity for all the children of the state. It would consolidate the varied lengths of school terms, bridge expensive and arbitrary district lines, and decrease the spending agencies from nearly fourteen hundred to one hundred twenty-nine. Bill No. 2, is intended to serve as a temporary measure to be used only in case the fundamental reorganization is found by the General Assembly to be impossible at this session.

The Commission finds that the present administrative machinery of the School system is cumbersome and expensive on account of impassable district lines and the wide dispersion of financial control. It declares that this reorganized school system, will, on the whole, be less expensive than the operation of our present system.

Our school system as it exists today is not the result of unified planning. It represents diverse community thinking; it is spotted and irregular; it is local in nature and often inefficient in operation. It is most expensive at its weakest places. Some day its spots and irregularities will be rubbed out and that day will mark a glorious achievement for North Carolina.

One hope which I have steadfastly held since before becoming Governor was to be instrumental in bringing about an eight months school term. If the pressure of circumstances makes it necessary for me to forego this aspiration, it will be a severe disappointment. If, therefore, the General Assembly in its wisdom, can devise some way to provide an eight months school term for all the children in the state at a less expense than our present effort now represents, it will, in my opinion, render the highest public service.

Our institutions of higher learning—the University and State colleges, and the teacher training schools—are the crowning glory of our state educational system. We have a merited pride in visioning the steady, uncompromising strides to a finer material and spiritual culture that have carried our people forward within the lifetime of this century. Back of this finer culture, contributing to it, a dynamic part of it—are the splendid human labors of the men and women who continuously renew the youth of the state in its colleges and university. These institutions deserve and should receive the best thought of our united abilities, and I shall present a fuller discussion of them at a later date.

**Workmen's Compensation**

For twenty years the North Carolina General Assemblies discussed the adoption of workmen's compensation law. It remained for the General As-
sembly of 1929 to enact a constructive statute on this subject. There now remain only four states in the union without this law. The Industrial Commission which has administered this law with conspicuous success and with a fine sense of justice as between employer and employee has handled forty thousand cases of injuries in industry.

We have had more than a year and a half of experience under its operation, and should review its provisions with the view of correcting any inequalities that may have been found by experience to exist.

LABOR AND INDUSTRY

Occurrences within the past two years have brought every thinking North Carolinian face to face with the necessity for an appraisal of the relationship between capital and labor. We struggle through the storm in 1929; we must set our future course with wisdom and courage so as to avoid a repetition of those primary troubles.

The humanitarian trend in this country towards social legislation which protects the health and welfare of men, women, and children in industry is definite and fundamental. At the same time the general well-being of workers is, of course, essentially interwoven with the prosperity and business conditions prevailing in the industry in which they are employed.

Our largest employer of labor is the textile industry. This business for the past two years has existed on the fringe of financial prostration. The North Carolina farmer is in a desperate condition, but he by no means suffers a monopoly of misfortune. The textile owner and the textile worker may debate on even terms with the farmer the question of whether industry or agriculture has suffered the greater disability and financial loss within the past two years. Whatever legislation we can enact for the improvement of the workers of this industry will affect the welfare of one of the primary groups of the state. Any legislation we enact must, of course, be considered in relationship to our neighboring and competing states and with due regard to the present status of both employer and employee, but that fact should not and must not deter us in our duty as our experience and wisdom direct.

I recommend that the sixty-hour week be reduced to fifty-five hours, with adequate penalties for its violation. I recommend that night work for women under eighteen years of age in industry be prohibited; and that the educational requirement for children between the ages of fourteen years and sixteen years in industry be raised from the completion of the fourth grade to completion of the sixth grade.

In the formulation of fair and just regulatory policies, representatives of all interested groups should be heard. I commend to your study the section of the Brookings report dealing with this subject, one of the major recommendations of which is the creation of a reorganized Department of Labor, which would be charged with the duty of handling the state's labor activities and of exerting every effort in the direction of preserving amicable relations among the groups in our industrial population.

CONSTITUTIONAL CONVENTION

Throughout my public life I have observed the limitations placed upon the General Assembly because of the restrictions of our antiquated constitu-
tion. When the present constitution was written, North Carolina was an impoverished, broken agricultural state. The constitution as set up was fairly well suited to the needs of the people and the time. The far-reaching changes which have taken place in our social, economic, industrial, and governmental life since 1900 were not foreseen in 1868 and 1875 and could not have been provided for in the instrument adopted in that period.

Efforts in recent years to partially reconstruct the constitution by amendment have not been successful. The reason most frequently advanced in explanation of this is that instead of being revamped by amendments, the constitution should be completely re-written so as to adapt it in its entirety to present day needs.

In my judgment, the time has come when we should call a Constitutional Convention to re-write the organic law of the state, and I recommend that this General Assembly submit to the voters of the state at the next general election the question of calling a Constitutional Convention to be held sometime during the year 1933.

IN CONCLUSION

Heightened as my concern is with respect to both present conditions and the outlook, I am heartened with confidence because of the high opinion I hold of the ability and the character of the membership of this General Assembly. I welcome you to your duties at the State's Capitol. I congratulate the State on the calibre of the servants it has chosen; and I step aside here especially to express my own and the public's appreciation of that spirit of service that brings to this General Assembly the first woman ever elected by the people to the Senate of North Carolina, Mrs. E. L. McKee of Sylva. I also felicitate the citizenship of Rockingham County who have sent as their charming representative Mrs. B. Frank Mebane, the fourth woman ever to sit in the House of Representatives. I venture the opinion that Mrs. McKee and Mrs. Mebane will write large across the pages of achievement of this body.

I have laid before you candidly, ladies and gentlemen of the General Assembly, the conditions and needs of the state as I conceive them and as I believe you know them. If I have a public record, I hope it is a record of sustained progress. But I speak you the sober truth when I declare my conviction that the greatest foes of North Carolina's well-being today will be found among those of us who fail to sense conditions as they are and who fail to meet our responsibilities with courage.

In the beginning of this Legislature, which is the beginning of a new and, I hope, a better year, I covet for us all the resolution to conquer our fears. I am ambitious for us to recover first, not our prosperity, not our riches, but our sense and luxury, but that serenity of inner self which shall inspire our living faith in our institutions and continuing confidence in our fellow man.

It was the late Bishop Brent who said it was better both for the body and the soul to go hungry sometimes than to be full always; better to be weary from hard work than to keep on a dead level of comfort, or to know weakness only from the spinning dance and the daily pleasure; cleaner to be dusty and bathed in the blood and sweat of battle than to be so sheltered as not to know the meaning of hand-to-hand conflict with real problems or fierce temptations.
May I say this word in conclusion? This message into the preparation of which I have thrown every ounce of my energy and ability is my unselfish concept of my duty to the whole people of North Carolina. There is not a line in it, or a reservation unexpressed, that is prompted by anything but the purest patriotism of which my nature is capable. I have not considered politics, friendship, personnel, or personality, but have endeavored to the completeness of my capacity to subordinate everything and everybody to the welfare of my state and to the three million North Carolinians by whose grace and confidence I hold the high office of Governor.

MESSAGE FROM THE GOVERNOR

A message is received from the Governor transmitting the Budget, which message is ordered spread upon the Journal and a copy thereof is referred to the Committee on Finance.
BUDGET MESSAGE OF THE GOVERNOR TO THE GENERAL ASSEMBLY OF 1931.

MR. PRESIDENT, MR. SPEAKER, AND MEMBERS OF THE ASSEMBLY:

Complying with the provisions of the Executive Budget Act it is my privilege to present to the General Assembly the budget for the biennium beginning July 1st, 1931.

The budget report of the Governor, Ex-Officio Director of the Budget, and of the Advisory Budget Commission, submitted herewith, outlines the recommended financial policy and the proposals as to revenues and expenditures of the State for the biennium 1931-33.

The present biennium has demonstrated anew the value of the Executive Budget. Financial conditions, adverse to a degree rarely if ever before experienced, have taxed to the limit the statutory machinery of the State for maintaining a balanced budget. The General Assembly of 1929 left the budget of the General Fund for the biennium 1929-31 with a revenue deficiency of nearly $2,000,000; that is to say, the total appropriations out of the General Fund by the 1929 General Assembly were nearly $2,000,000 more than the estimated revenues to be collected under the Revenue Act of 1929. The revenues actually collected and now estimated to be collected are more than $2,000,000 less than was estimated to be collected at the time the Revenue Act of 1929 was passed. Thus it will be seen that the revenues collected and to be collected under the Revenue Act of 1929 will be more than $4,000,000 less than the amount of the appropriations made by the General Assembly in 1929.

In order to meet this condition expenditures were reduced during the fiscal year 1929-30 $1,424,510 below the appropriation for that year, and it is planned to reduce the expenditures for the present fiscal year $2,120,000 below the appropriations for this year. Notwithstanding these great reductions, and greater reductions could not be made without impairment to the services of the State, the biennium will close with an estimated deficit of $1,224,151. This deficit is taken over and absorbed in the proposed budget for the biennium 1931-33.

The Highway funds and the Agriculture fund revenues have suffered and are suffering the same serious recessions as the General Fund.

The problems met in preparing the present proposals relate to both revenues and expenditures. It was found necessary to increase the revenues of the new biennium by more than $5,200,000 to meet largely the shrinkage in collections under the revenue structure and the credit balance carried over from 1927-29 and reappropriated for 1929-31. The proposals for raising the additional revenues needed are discussed at length in the budget report transmitted herewith, and also in the report of the Tax Commission, to both of which reports I direct your careful attention and thoughtful consideration. As relates to expenditures, the situation is met by drastically reducing the proposed appropriations of 1931-33 below the appropriations made for 1929-31. It will be noted, therefore, that the problems are met in some degree with a consideration of both revenues and expenditures.

The proposed appropriation from all funds contemplate reducing by at least ten per cent all salaries and wages. If this reduction should not be provided for, the proposed appropriations will not be sufficient to meet the needs of the several departments, institutions and agencies of the State.
I have already recommended the ten per cent decrease in salaries and wages in my biennial message to this body. As stated in that message, I arrived at the conclusion to make this recommendation only after careful and serious thought. Realizing, however, that expenditures of the State must be reduced and that a part of this reduction must come from the sum paid by the State for salaries and wages, I feel that it would be a better policy for the State to make a cut of ten per cent in all salaries and wages paid rather than to leave the salary and wage scale at its present level and reduce the number of State employees sufficiently to make a ten per cent saving in the amount paid for personal service. This latter policy would not only cripple the efficiency of the departments, institutions and agencies, but would also add to the already large number of unemployed in the State.

With a decreasing value of the dollar and a declining commodity basis it will be less expensive to operate any enterprise in the future than it has been in the immediate past, and if the proposals set forth in the Budget report are put into effect the departments, institutions and agencies of the State ought to be able to carry on their operations without serious impairment to the welfare of the State.

The situation, however, is serious, and I frankly feel grave concern over it. The question of enforcing upon the next biennium the necessity of absorbing the deficit of the present biennium and at the same time making it bear its total operating expenses—necessitating drastic reductions in appropriations for the present biennium—is a question which should be thoroughly studied in the light of the present situation as a whole and of possible alternatives of meeting it, and I feel it my duty to call the attention of the General Assembly to the importance of facing this question and the budget as submitted in its entirety.

The proposal to increase the gasoline tax one cent a gallon and to take over the maintenance of county roads by the State Highway Commission, recommended in by biennial message, is not given effect in the proposals herewith submitted. Bills carrying these recommendations into effect will be prepared and submitted for your consideration in due course.

There will also be prepared and placed before you for your consideration and for introduction by the chairmen of the Senate Finance Committee and the House Finance Committee a Revenue Bill containing the proposal for raising revenue for the General Fund as outlined in the budget report. Also a general maintenance appropriation bill containing the proposed maintenance appropriation will be prepared and placed before you for your consideration and for introduction by the Chairman of the Senate Appropriations Committee and the House Appropriations Committee.

On account of the present economic conditions I do not think this General Assembly should authorize any additional bond issues for permanent improvement. The needs of the institutions in some cases are pressing, but they are not so pressing that, under present conditions, they may not wait until 1933, at which time it is hoped we will have reached a better day. There are certain unexpended and unallotted balances of permanent improvement appropriations made by former sessions of the General Assembly, and these may be reappropriated and reallocated, and a bill providing for the reappropriation and reallocation of these unexpended and unallotted balances will be prepared and presented to you for your consideration.
During the present biennium emergency loans or advances have been made to some of the institutions under Chapter 49, Public Laws of 1927. These emergency loans or advances are referred to in detail in the budget report. They amount to the total sum of $316,295. The law provides that the obligations incurred by the State in making these emergency loans or advances shall be funded and included in any permanent improvement bond issue authorized by the next session of the General Assembly. Feeling, however, that no permanent improvement bond should be authorized by this session of the General Assembly, I recommend that provision be made for carrying these advances on short term notes until 1933, to be then funded, together with such advances as may be made under the same act for the ensuing biennium, by the General Assembly at that time. A bill to carry out this proposal will be prepared and presented to you for your consideration.

The budget as presented to the General Assembly is replete with information and data concerning the fiscal operations of the State government and of its departments, institutions and agencies, and this budget in its entirety is recommended to you for your careful consideration. If the information contained therein is not sufficiently clarified and amplified, application to the Budget Bureau will meet with a hearty response, and all available information will be placed at your disposal. Information collected by the Budget Bureau is available in all its details to each and every member of this General Assembly, and I trust that you will make full use of it.

O. Max Gardner,
Governor.

MESSAGE FROM THE GOVERNOR

A message is received from His Excellency, Governor Gardner, which reads as follows:

SPECIAL MESSAGE OF GOVERNOR O. MAX GARDNER
TO THE GENERAL ASSEMBLY

Friday, January 30, 1931.

To the General Assembly:

The letter from the Honorable A. J. Maxwell, Commissioner of Revenue, included herein, contains information of such prime importance to the mem-
bership of the General Assembly that I wish to call it to your especial attention at this time.

The Commissioner shows that the Department of Revenue has collected during the past year and a half a total of $725,668 back taxes on incomes, and that it has assessed and now pending for collection $311,246 additional. It is evident that the total collections of back income taxes in this biennium as the outcome of special audits of the businesses of individuals and corporations will exceed $1,000,000.

In this period of economic depression when the normal income tax payments and other tax payments have naturally fallen off in very considerable amounts, and when appropriations have necessarily had to be cut accordingly, the situation has been partially saved by these additional collections of back taxes. Their influence on the period which we are now entering will be of substantial effect when the slump in normal collections is bound to be even larger than it was in the present year—the Budget Bureau estimates normal income tax collections for next year at $1,070,000 less than for the past year.

I personally take great pride in Mr. Maxwell's masterly accomplishment and herewith submit his letter for your information and consideration:

Dear Governor Gardner:

Replying to your request for a statement of the additional income taxes assessed and collected by the Department of Revenue, I beg to advise that since July 1, 1930, we have collected additional back tax assessments on incomes in the amount of $465,536.76, and that there remains on our books at this time additional assessments of back income taxes made but not finally adjusted and collected in the amount of $321,333.13.

This sum of $465,536.76 of additional income taxes collected since July 1, 1930, represents our collection of back taxes on returns filed for the years 1927, 1928, and 1929. This total was divided as follows: $57,661.86 represented collections from additional assessments on personal returns, $96,627.94 on domestic corporation returns, and $311,246.98 on foreign corporations doing business in this State. We are diligently checking all returns for the past three years and have left no stone unturned to secure every available dollar which had been escaping its tax liability. With the $260,131 collected in the last fiscal year ending last June 30, the $465,536 collected so far in this fiscal year, the $311,246 additional assessments now pending for collection, and our audits not yet complete, it is apparent that our collections of additional assessments of income for previous years will in this biennium exceed a million dollars.

These additional assessments and collections of back income taxes have enabled the Department to maintain the total of income taxes collected within this fiscal year in excess of collections for the same period during the past fiscal year.

These collections are the result of the work of the additional auditors which were employed in the Income Tax Division for the purpose of bringing the audit of income tax returns up to date. Our audit and analysis of income tax returns of foreign corporations has also developed a better understanding of this problem, and has resulted in proposed changes in the income and franchise tax sections of the revenue law, with respect to rules of allocation of the proportion of capital and income of such foreign corporations taxable in this State, on classifications adapted to the nature of
the business, that will yield additional revenue from these sources in future
years in excess of a million dollars per year, and that will more nearly
equalize the tax burden as between domestic and foreign corporations.
These additional collections and changes in the revenue law have been taken
into account in the budget estimate.

May I take this occasion to thank you for your authorization of the addi-
tional auditors for the Income Tax Division and for your personal assist-
ance in effecting the arrangement made with the Federal Government by
which this State is enabled to check the income tax returns of corporations
made to the State with the returns made to the Federal Government and by
which the names and addresses of individuals in this State making returns
to the Federal Government are made available to this Department.

With best regards, I am

Very truly yours,
(Signed) A. J. Maxwell,
Commissioner.

Respectfully submitted.

O. Max Gardner,
Governor and Director of the Budget.

MESSAGE FROM THE GOVERNOR

A special message is received from His Excellency, Governor O. Max Gardner, which reads as follows:

SPECIAL MESSAGE OF GOVERNOR O. MAX GARDNER TO THE GENERAL ASSEMBLY OF NORTH CAROLINA

Tuesday Morning, February 10, 1931.

To The General Assembly:

I submit this morning for your consideration the report of the survey of the organization and administration of county government in North Carolina prepared by the Institute for Government Research of the Brookings Institution. This survey of county government is a companion survey to the report on the organization and administration of the state government of North Carolina which was submitted to the members of the General Assembly early in January.

I regard this study of county government organization and administration as able, unbiased, and constructive, and commend the entire report, which is not lengthy, to your most careful consideration.

The recommendations with respect to the immediate improvement of the financial and administrative control of county government have for some time been available to the County Government Advisory Commission; and those recommendations which this Commission and the proper committees of the General Assembly have deemed practical have been embodied in the administration local government bills already introduced and now pending.

It should be remembered that this survey undertook to do two things: first, to recommend such changes in the financial control and administration of county government as ought to be considered and adopted by the General Assembly at the present session; and, second, to present a long term program for change and readjustment in the whole set-up of county government as would tend to simplify and improve its administration in time to come.

I recommend that you study this report from the point of view of taking advantage of every practical recommendation which, in your opinion, would tend now to simplify and make more economical and efficient the administration of county government, and also that you give due consideration to the long-term proposals which measured by the needs of your section and the state as a whole would best serve the interests of North Carolina.

Respectfully submitted,
(Signed O. Max Gardner,
Governor.

February 10, 1931.

On motion of Mr. Sutton, all itemized expense accounts submitted by the various departments of State Government, as directed by H. R. 36, are ordered filed with the Principal Clerk for inspection by the members of the House at their pleasure, in lieu of copying said expense accounts in the Journal.

ADDRESS OF GOVERNOR O. MAX GARDNER ON THE MACLEAN SCHOOL BILL AND THE HOUSE COMMITTEE REVENUE BILL DELIVERED BEFORE A JOINT SESSION OF THE HOUSE OF REPRESENTATIVES AND THE SENATE

12 o'clock Noon, Tuesday, March 24, 1931.

Mr. President, Mr. Speaker, Members of the General Assembly of North Carolina:

We are met here today for the purpose of making our decision upon one of the most momentous issues that have gripped, and divided, and united the people of this State in your lifetime and mine. What that decision will be I do not myself know. No more do you. Before you finally make that decision, you have done me the honor of permitting me to express to you my opinion and my convictions upon the question it is your duty to resolve.

May I say that I do not ask you to accept without critical question the conclusions that I have reached or the advice that I am about to give you. For myself I wish the right to hold and express my opinion on any question that concerns the welfare of my people, and just as sincerely and just as vigorously do I wish the same right for each and everyone of you. This is not a question of personalitities; it is not a question of friendships. The one unpardonable delinquency of you or of me would be for any one of us to take his position on this question on any other ground than that of voting the right as he sees the right, after he has honestly weighed every issue in arriving at what he believes to be the right.

The gravity of the main issue, and the importance of your decision, I fully understand. Such recommendations as I shall make are made in full realization of the importance of these issues, and in full acceptance of the responsibilities that rest on me as the chief executive of the State. I am the Governor of all the people. I am not the governor of industry; I am not the governor of agriculture; I am not the governor of the merchants; I am not the governor of the Democratic Party—I am the Governor of North Carolina. And it is my earnest prayer that I may have my eyes lifted to the future, that I may see North Carolina steadily and see her whole.

It is generally understood that I did not encourage the passage of the MacLean bill, assuming on the part of the State the full responsibility for all the costs of operation of the six months constitutional term of our public schools. I hope it is equally a well understood, for it is true, that I did not discourage the passage of the MacLean Bill.

I did not encourage its passage because, after serving two years as Governor and Director of the Budget, and after such survey as I had been able to make with the assistance of the Tax Commission, I did not know of any means, within the province of reason, by which this tremendous additional obligation could be financed without imposing other forms of taxation more grievous and burdensome than the tax relief that would be granted by it. We already had the obligation, in this time of severe depression, of providing three million dollars per year of additional state revenue to
balance the reduced and economical budget of expenditures for the next two years. I did not know of any reasonable means by which a further additional sum of twelve million dollars per year of state revenue could be provided.

I did not discourage the passage of the MacLean bill because I entertained as much anxiety as any member of this General Assembly to lighten the burden of property taxation in the state. And if this General Assembly could, within the realm of reasonable taxation, find the revenue to sustain the MacLean bill, I was ready to give my full support to it.

For these reasons I have remained silent on this subject and given my energies to other matters of legislation which I deemed of great importance to the State, while those sponsoring the MacLean bill prosecuted their inquiries to find new sources of taxation to sustain it.

It is never a pleasing responsibility for the Governor to become a champion on either side of a question on which there is deep-seated division of opinion in the General Assembly and in the thinking of the people of the state. But I cannot shrink from the responsibility which the high office that I hold imposes. I am thoroughly convinced of the unwisdom of the adoption of the policy of levying any form of sales tax.

My opposition to sales taxation as a means of state revenue is based on the deep conviction that it is not a sound or just principle of taxation, and that the commerce clause of the constitution of the United States renders it impractical as an important source of state revenue.

As to the principle involved in sales taxation: No matter how often it has been said, it should never be discarded from our thinking on this subject, because it is fundamentally and everlasting true, that sales taxes take no measure of ability to pay taxes. They are based on human needs, and not on ability to pay. It is my profound conviction that we would do a serious injustice to the great body of citizenship in our state, immediately and for the future, if we should establish this basis of taxation, fundamentally unsound in principle, and should incorporate it into the revenue system of the state. I do not see how we could justify a tax reduction on the factory by imposing a tax on the purchases of its labor. That is the distinctive characteristic of sales taxation. It assuredly offers no average relief for the average property owner. It relieves those whose ownership of property is well above the average and gathers from those who are below the average or who own no property at all. I am unalterably opposed to that principle of taxation, and to any legislative program that finds it necessary to sustain it.

As to its practicability: If the sales tax were not fundamentally objectionable and unsound in principle, it would still be impractical for use in any large way in a program of state taxation, because no state can police its borders against interstate commerce. This point has no doubt been well argued in your discussions of this question, but we should not permit our extremities to dull our understanding of it, and its important relation to taxes on sales. There is at all times a delicate balance as between purchase within and without the state as to many articles and commodities. Any tax that we add to sales within the state helps to turn the scale against business in North Carolina and in favor of business outside of North Carolina. I cannot favor any system of taxation that imposes this additional
burden on the retail merchants of North Carolina, and that penalties within
and encourages business without the state.

The same reasons that condemn a general sales tax have their application
to the selection of articles of common use among the whole body of citizen-
ship of the state, and the designation of such articles as luxuries, and the
imposition of extreme rates of tax upon the retail sales of such articles.
This is but a little more ingenious method of imposing taxes to relieve
wealth, and without regard to ability of those who are taxed to pay the tax.
It seems to me a narrow comprehension of the subject to designate such
articles as luxuries. The use of such articles recognizes no rank of nobility
or fortune. Their use is as common among the poorest as among the
wealthiest classes. And a twenty per cent tax upon their use is in fact
as essentially a tax upon those who can ill afford to pay it as a small
percentage tax upon general sales. It is contrary to my conception of a fair
tax in that it is a perversion of the doctrine of ability to pay. In the last
analysis, it is not paid by the producer of the article taxed but is passed on
to the consumer and is in fact a tax on property. It is the very opposite
of the income tax, the fairest and justest tax any government imposes. It
violates every tenet of the Democratic Party in that it taxes the weak to
relieve the strong. Luxuries defined in any proper sense range upon a
higher level than this and can only be reached by taxing property or income
that furnishes the basis for their indulgence.

May I be pardoned if I illustrate this principle by reference to a some-
what good-humored criticism of my position which I read in yesterday's
paper. A distinguished member of the Senate, discussing the present legis-
lative situation in foot ball parlance, calls on the Governor to take the ball
and score a touchdown for the team of "the little man." The trouble with
my friend is that he wants me to make the same mistake with deliberation
that a famous foot ball star, in a game in California made a few years
ago, when in the excitement of the game he lost his sense of direction and
after a magnificent field run carried the ball over the wrong goal line and
scored a touchdown for the opposing team. No form of sales tax can be
levied upon articles consumed by the little man that will not increase his
difficulties in playing the game of life. The right of the little man to live
is not related by blood or marriage to any form of a sales tax.

The right of the little man to live is not a figment of my imagination. It
it a fundamental issue in North Carolina. If my party has stood for any-
thing through its long history, it has stood for the democratic doctrine of
shielding the weak and repressing the strong, and yet we have a new and
strange brand of democracy proposed. Instead of taxing the strong to aid
the weak, we plan to tax the weak to relieve the strong. I do not hesitate to
say that this theory of taxation violates every principle of Thomas Jefferson
and outrages every teaching of Andrew Jackson.

The application of the convictions I have stated to the results of the
labors of your Finance Committees, and the conclusions reached by them,
lead no irresistibly to the recommendation that some other and more certain
method of relief should now be sought than that embodied in the revenue
bill now before the House. The conclusion has been reached by the sub-
committee representing both the House and Senate that the MacLean bill
cannot be effectuated without a sales tax. I earnestly hope that no sales
tax in any form will be imposed on the people of North Carolina. I am
quite certain in my own opinion that the people we are all trying earnestly to help will not be helped by any revenue raised through sales taxation; and I therefore recommend that so much of the purpose of the MacLean bill as cannot be carried out without a sales tax be eliminated from its scope and purpose.

This position of opposition to the sales tax I take as a definite fiscal and economic policy, and as a matter of principle. In taking it, I have no desire to invade the responsibility of the legislative branch of government by attempting to set up your revenue in detail, except that I do wish that no policy and no line of action be adopted which is inherently unfair on the one hand to the consuming public, or on the other to any legitimate and helpful business or industry that is making its contribution to the welfare of our State.

I have arrived at these conclusions after mature deliberation and after conference with the Tax Commission, the Advisory Budget Commission, the State Educational Commission, the State Superintendent, and the State Board of Equalization. I have not reached this decision lightly or quickly. It reflects my conscientious conviction for the welfare and future prosperity of the people of my state, for whose welfare my highest ambition is to continue to make some contribution—be it large or small—as the years go on and as I have the power to work for North Carolina.

I recommend that you enact so much of additional taxation as you find to be reasonable outside of the sales tax field, and that, after taking care of the necessities of the state government such additional sums be used for direct reduction of the public school tax levy.

In making this recommendation I am not unmindful of the sum total of contributions that will be made by this General Assembly to the cause of relieving property taxation in North Carolina nor of its constructive legislation to provide more efficient and economical government in its state and local units.

When I came in as Governor two years ago, the state government was appropriating the sum of $3,250,000 for the support of the six months school. I recommended an increase in this fund and urged recognition of the necessity for making some provision for state aid to the extended term where the tax burden was heaviest. The General Assembly acted on this recommendation and increased the equalization fund from $3,250,000 to $6,500,000 with $1,250,000 set aside for the extended term. I felt then and I feel now that this sum sent by the state to the relief of the eight months term was the most helpful tax reduction measure passed during my administration.

In order to bring unity and agreement of purpose in the place of our present contending confusion, I recommend that you go to the utmost limit without injustice in the further pursuit of this policy.

Not forgetting for a moment that statement in my biennial message that taxes on property must be reduced, let us review the reduction that will have been accomplished by this General Assembly if this policy is accepted and this program carried out.

The road bill, which has been enacted into law, will on a conservative estimate mean an average reduction throughout the state of at least 15 cents.

The Local Government Commission will provide for a reduction of at least 10 cents on the $100 of assessed value through readjustments and re-
funding which will be permitted in the bonded indebtedness of local governments maturing within the next two years.

This Commission will save an additional 10 cents in taxes by reason of the control that it can now exercise over the budgets of the counties and the cities throughout the state. As you know, city government has heretofore been wide open without any state supervision or restraint and last year increased 11½ per cent in cost. This, the local government bill corrects.

These several reductions, together with the adoption of this school policy, will total in the aggregate, I estimate, an average of 50 cents on the $100 of assessed value in more than 90 counties and an average of 42 cents statewide. If this estimate is correct, North Carolina will next year receive a reduction of $12,500,000 in property taxes or an average reduction of 20 per cent.

When we provide through all of these constructive acts a tax reduction equal to the reduction anticipated in the MacLean bill, I am confident your action will meet the expectations of, and the approval of, your constituents—especially when they understand it is as far as we can go at this time without adoption of new forms of burdensome taxation.

It should be remembered that the MacLean bill itself does not purport to take off property, even for the constitutional term of public schools. Based on last year's expenditures, it would be necessary to levy for the total support of the six months term an average rate of nearly 21 cents in every county, after receiving the full benefit of the revenue provided to carry out the MacLean bill. To meet the total cost of current expenses alone, it would be necessary to levy an additional rate in many counties. This phase of this problem is not generally understood by the public. It should be clearly understood by each of you.

The tax reduction and the economics that will be provided by this General Assembly will be distinctly helpful in promoting a return of real estate values to a normal level. But there will be no marked upward movement until we make another crop. Values then will be influenced largely by the prevailing prices for tobacco, cotton, and grain. But, gentlemen, it should be remembered that land values have been more profoundly influenced by other factors than by taxation. If something does not happen by which Carolina agriculture is able to recover a large part of the 80 million dollars lost in declining prices of 1930 over 1928 and 1929, our efforts here are futile even though it were possible to lift every dollar of taxes from land and property in this state.

From the day I took office and for years before, I have devoted the greater part of my thinking and planning to the program of working out a leadership and direction to the relief of the economic insecurity and distress of the North Carolina farmer.

Taxes are high in this state and taxes must be reduced; but the man who tells you that the tax policy of North Carolina is the proximate cause, the responsible reason, for the condition of the real estate market, that taxes are responsible for the sunken values of farm lands, that taxes are responsible for the prostration of eighty per cent of our people, that taxes are responsible for our army of unemployed, that taxes are responsible for stagnated industry—that man is either uninformed or is trying to spread political propaganda for inflammatory purposes. In every civilized country today the epidemic of real estate depression prevails. The condition is no
worse in North Carolina than it is in Virginia, South Carolina, California, or New York. It is my mature judgment that we must face this situation without prejudice, passion, or politics, and in recognition of all factors involved, and go to the utmost limit to reduce the property tax. But let us remember that there is another day, and that the future of North Carolina lies with gravest responsibility largely in our hands as we struggle through this period to make more productive the sweat or honest toil and more effective the result of scientific management.

It was a difficult task in 1929, when we thought North Carolina was perpetually endowed with prosperity to raise general fund revenue in the amount of 15 million dollars. What we are trying to do now in hard times and business adversity is to raise the 15 millions we raised in 1929, which was found to be inadequate, and which necessitated my cutting appropriations more than three million dollars to meet the first shock of the on-coming depression. We are now not only planning to raise this fifteen millions, but we are struggling to raise an additional twelve to fourteen millions. I say frankly that in my judgment, this is an operation too drastic, too precipitate, too burdensome to be accomplished at one time. I say it with gravest concern, but with full knowledge of the fact that with possibly two exceptions North Carolina's agriculture, industry, labor, occupations and professions are suffering from the most acute prostration of any period in modern times. We are more than blind if we ignore this economic truth in the proceedings of this Assembly.

I have a definite philosophy about the needs of North Carolina, and every recommendation I made to you and every bill presented by me for your consideration was motivated by only one definite purpose; namely, economy, efficiency, and tax reduction on property. I have not pressed a single measure before you that did not have a terminal in this objective.

Every major recommendation in my biennial message was in harmony with the realization of this obligation and drove in the direction of this goal. My recommendations with respect to education, highways and roads, fiscal problems, state reorganization and consolidation, and local government were integral parts of a maturely thought out pattern of action to reduce taxes on land and property. I have never for a moment departed in my policies or in my thinking from my message in which I emphasized that taxes on property must be reduced.

They will be reduced and when this General Assembly returns to the people who sent them here with the program of this administration written into law, you will carry with you the greatest tax reduction on land and property of any General Assembly in the history of North Carolina. And you will do this without imposing a new burden of nine or ten million dollars in the form of a sales tax on the backs and stomachs of two and one-half million of our people who through adversity, poverty, and misfortune have never been able to own a home or possess a tract of land.

I am ready to stand on this record and as the leader of my party in this critical hour, I accept the responsibility and will go forward against all opposition in the next campaign confident of the approval of this great majority of the citizens of this State. In my judgment neither of the proposed sales tax bills would receive one-third of the votes of the citizens of this State if submitted to a referendum:

If this plan is adopted and carried through, I bespeak here and now the
whole-hearted co-operation and assistance of each of you in persuading your people to practice economy and to accept smaller expenditures when your county and city budgets are being made up next summer. Ladies and gentlemen, we may as well face this issue. Here, in Raleigh, today, tax reduction is popular, is demanded, is right. At home, in June, when the budgets are being prepared, tax spending is equally as popular. There must be found a sound middle ground to stand on throughout the year if North Carolina is to save herself. We must make up our minds that no matter how much resentment is aroused, taxes cannot be reduced unless the cost of government is reduced. This is absolutely fundamental and we might as well make up our minds to adopt it.

I ask you this question: Do we not all recognize that we rarely get all that we aim for in life? Some one has truly said that life is a compromise between what one wants and what one gets. This is particularly true in legislation. Edmund Burke, the great British Statesman, said that in last analysis the essence of all legislation is compromise. If we accept this as a progressive North Carolina compromise, and go home with a tax reduction of as much as fifty cents in many cases, we can trust to a fair-minded public for vindication of the wisdom of our action, because our action will be deserving of vindication.

Another aspect of the property tax question is deserving of our thoughtful understanding. The present property tax bill of more than 60 million dollars per year was not attained in sudden flight. It did not come in a single year. And, friends, it cannot be completely repudiated and written off of the books in a single year. Beginning with 1923, each year through 1928 saw an average increase in the total amount of property taxes levied in the sum of 4½ million dollars per year. One year it was eight millions, another year two millions. But for the six-year period, it averaged four and one-half millions. Think of it! In the biggest year of our rapid expansion the increase in property taxes was eight million dollars. Enact the recommendations I have made and you effectuate the unprecedented reduction of twelve and one-half million dollars in one year.

One of the constructive accomplishments of the 1929 General Assembly was to check this upward trend in property taxes. It not only checked the trend; it actually bent the line downward. Last year saw a reduction of nearly a million dollars in the property tax burden in this state as compared with the year before. If we adopt in its entirety the policy that I have outlined, if we are as conscientious in June as we are in March in our determination to ease this burden, we will still further and in larger measure than ever reduce this burden, whose weight on our industries and our citizens has in truth become well nigh intolerable Property tax reduction, yes, property tax reduction in the biggest amount in the history of this state! And property tax reduction achieved through a sane, conservative, constructive program of action without saddling on the masses of our people another tax that in its injustice, and its effect is more intolerable and more throttling of the welfare of the common people than is the burden which we are determined now to take in large part off of their shoulders.

Our tax grievance is in part an utterance of the woes and the heartaches growing out of the present misfortune of our people who find in this an expression of the multitude of the miseries of these times. Our people cannot liquidate their debt to the land banks by legislation. They cannot
satisfy their mortgages by legislative resolution. But when people do get caught in the barbed wire entanglements of economic depression, their one outlet of resentment and discontent is uttered vocally against government and especially against the taxing power of government.

If for this we can substitute the psychology of patience, together with real economy and real saving; if we can as governments and as individuals become willing to live on less, to live hard if you will; if we can raise more of the consumption goods that we now purchase; if we can do more work, economize, cut here and there, a little less here and a little less there, we will emerge from this period a chastened but a conquering people.

North Carolina is in essence a progressive state. The masses as well as the leaders, possess a high average intelligence; and I submit that we do not have the right to expect their approval if at one blow, and without previous warning, we place nine million dollars of tax burden on the least able of its citizens to pay taxes.

You may differ with me, and I know some of you will; you may doubt the wisdom of my recommendation, and some of you will; you may question my leadership, and many of you may; but you cannot in truth say that according to my conception of my duty and according to my conception of the welfare of the three million people that we are planning to serve, I have faltered in conscientiously facing this issue.

One word more. I find myself at the close of this message with the same feelings, the same anxieties and worries multiplied many times, the same hopes I owned as I stood at the end of my message to you when this General Assembly convened. Will you pardon me for using the same words in this attempt to carry over to you today a picture of the inner man who stood before you then and who stands here now. I feel more deeply this sentiment now than I felt then. This message into the preparation to which I have thrown the utmost of my energy and ability is the unselfish concept of my duty to the whole people of North Carolina. There is not a line in it or a reservation unexpressed but that is prompted by the best impulse and the clearest thought of the man I am. I have not considered myself, I have not considered friendships, I have not considered politics in any narrow sense, but have endeavored to the completeness of my capacity to subordinate every person and every interest to the welfare of my state as a whole and to the three million North Carolinians, high and low, by whose grace and confidence I have the honor to bring you this message.

After the address, on motion of Senator Johnson of Duplin, the Joint Assembly adjourns.

The Senate repairs to its Chamber, and the House resumes consideration of business.

We, the undersigned members of the House of Representatives, voted for the Revenue Bill with reservations. It is necessary that the Legislature enact a Revenue Bill for the next diennium, whether we approve its method of taxation or not.

We voted for the bill providing for State support of the Constitutional school term by taxation other than ad valorem. We knew then, as we know now, that other sources of revenue, that have heretofore escaped a just and equitable share of the tax burden, could be found to raise the necessary funds. We have advocated the passage of such measures to see them killed in Committee rooms or on the floor of the House. We do not regard a General Sales Tax, with its attending annoyances to the public and its indirect tax burden on the people of every class without regard to their ability to pay, as the proper method to raise public funds for the State, or essential to the support of the six months school term; but having failed in our efforts to secure the funds otherwise, and realizing that we must accept the Sales Tax or revert to a tax on land, we have voted for the Revenue Bill with the above explanation.

CONFERENCE REPORT

We the undersigned Conferees on Senate amendment to House Bill number 918, do recommend that the House concur in Senate amendment.

F. G. Gower,
Hayden Clement,
Conferees on the part of the Senate.

C. W. Allen,
J. M. Holmes,
R. T. Fulghum,
Conferees on the part of the House.

The report is adopted and a message is sent to the Senate so notifying them.

CONFERENCE REPORT

To the Honorable Speaker of the House of Representatives:

The Conferees on the part of the House, to whom were referred the Senate amendments to Committee Substitute of House Bill 102, being "A bill to be entitled An act to raise revenue", report as follows:

1. That the Senate amendments having no relation to revenue for support of six months school present no serious difficulty and were practically agreed upon in conference.

2. The House Conferees agreed not to concur in the Senate amendments dealing with revenue for support of six months school, and submitted as an equalizing fund, and requested the Senate Conferees to recede from these amendments, particularly Article 5 which was stricken out of the House Bill by the Senate.

3. After protracted discussion and negotiations with the Senate Conferees the House Conferees adopted the following resolutions and submitted to the Senate Conferees.

Resolved that the policy and attitude of the Conferees of the House of Representatives upon the differences arising between the Senate and House of Representatives on H. B. 102 be and they are hereby outlined as follows:

1. The House Conferees will in no event concur in any amendment or procedure releasing the State from taking over and supporting the six
months public schools throughout the State as contemplated by the provisions of what is known as the McLean Act.

2. It being conceded that some form of sales tax is necessary to support the six months school term, in order to avoid an ad valorem levy, the House Conferees will concur in no amendment or procedure which does not levy for this purpose some sort of sales tax; and, the House having provided in the bill passed by it what is known as a General Sales Tax, it is the sense of the House Conferees that it is now the function of the Senate to indicate next its preference as to the form of tax on this subject, since in no other way is agreement possible.

3. The House Conferees will not agree to what is referred to as an equalizing fund in lieu of the foregoing; but will agree that a sub-committee for the House act with a sub-committee of the Senate in drafting a school bill effecting all reasonable economies.

In response to the above resolutions the Senate Conferees submitted the following:

"The Senate Conferees will agree to report to the Senate that in order to carry out the provisions of the so-called MacLean Bill, that it adopt the proposed Hinsdale Bill carrying a so-called luxury or commodity tax, removing from the items subject to taxation such as are not feasible for practical tax collection as applied to costs of collection and supervision, this adoption to be based upon the following conditions precedent:

1. That the adoption of the so-called luxury or commodity tax by this legislature be declared to be at this Session solely levied as an emergency tax and shall not be considered as a permanent form of taxation by the State.

2. That a referendum at the next general election in the year 1932 upon the question of a selected commodity sales tax for the partial support of the six months school term together with a referendum at the same time upon the question of an ad valorem tax for the partial support of the six months school term, as a State source of revenue.

3. That in drafting the school bill all possible economies be contained therein and that the Legislature assume the duty itself of carrying out the economies rather than through other state agencies, but not to the extent of depriving state agencies of further reasonable economies which may be accomplished by budgeting system, nor of depriving county authorities from applying other reasonable economies, such bill to be drawn by a sub-committee of the House and Senate.

4. That regardless of the result of the election the revenue bill and its provisions be carried through the coming biennium, unless practical conditions shall necessitate different action."

The House Conferees declined this proposal on the part of the Senate Conferees, particularly the second paragraph thereof relating to a referendum, but replied to the Senate Conferees that the principle of the luxury tax for support of the six months school without a referendum would be accepted, and proposed further that the Conferees go to their respective Houses for instructions whether to agree.

The Senate Conferees then by an evenly divided vote declined this last proposal of the House Conferees, and thereupon the Conference adjourned.

All of the foregoing resolutions on the part of the House Conferees were
adopted by a majority vote, but the House Conferees are unanimous in asking that they be discharged, or that they receive specific instructions.

Respectfully submitted,

U. L. SPENCE,
Chairman.
A. D. MACLEAN,
R. G. CHERRY,
GURNEY P. HOOD,
R. L. HARRIS,
C. W. ALLEN,
H. G. CONNOR, JR.,
Conferees.

48. That the Senate recede from its amendment inserting a new section designated Section 164 which is as follows:

"Section 164. That in addition to the tax imposed by Section 162 or by any other section of this Act, or by any other Statute, there is hereby imposed a license tax at the rates and upon the terms as hereinafter in this section set out upon wholesale and retail merchants for the privilege of opening, establishing, operating, and/or maintaining any store, stores, mercantile establishment, place or places of business for the purpose of selling goods, wares or merchandise at wholesale or retail in this State.

(a) DEFINITIONS.

As used in this section—

1. The word "merchant" shall mean and include any individual, firm or corporation, domestic or foreign, selling goods, wares or merchandise at wholesale or retail, except those actually engaged in gardening and farming and selling garden and farm products raised by them in this State.

2. The words "wholesale merchant" shall mean and include every
merchant who engages in the business of buying any articles of commerce and selling the same to other merchants for resale.

3. The words "retail merchant" shall mean and include every merchant who engages in the business of buying any articles of commerce and selling the same at retail.

4. The words "gross sales" shall mean and include all the sales of all the goods, wares, and merchandise made by any wholesale or retail merchant at any one store, mercantile establishment or place of business conducted and controlled by such merchant; Provided, however, that the word "gross sales" as used in this Act shall not mean or include sales of guano or fertilizer made either at wholesale or retail.

(b) It is not the purpose of this section to impose a tax upon the business of producing, manufacturing, mixing, blending, or processing any articles of commerce, or upon the sale of such articles of commerce by anyone who engages in the business of producing, manufacturing, mixing, blending, or processing, but shall apply to anyone engaged in either of these businesses if, and to the extent that, articles of commerce are bought and sold in connection with such business in substantially the same form in which they are bought.

(c) Gross sales shall be reckoned at the price at which such sales were made, whether for cash or on time, and if on time, the price charged on the books for such sales, without allowance for cash discount, and shall be reported as sales with reference to the time of delivery to the purchaser. Accounts found to be worthless and actually charged off for income tax purposes may at corresponding periods be deducted from gross sales, insofar as they represent taxable sales made after June 1, 1931, and to be added to gross sales if afterwards collected.

(d) When in the sale of a new article a second-hand or used article is taken in part payment, the sale of the new article shall be reported at the full gross sales price. The resale of second-hand or used articles, taken in part payment in the sale of new articles or the resale of articles repossessed by the vendor, may be excluded from gross sales taxable under this Act if separate record is kept of all such transactions in such manner as may be prescribed or approved by the Commissioner of Revenue.

(e) TAX IMPOSED.

The privilege or license tax imposed by this section shall be at the following rates for each six months or half-yearly period:

- Not more than $5,000. ........................................... $ 5.00

More than $500,000, an additional tax of $250 for each $250,000, or major fraction thereof, of such gross retail sales.

(f) Every merchant as defined in this section shall, within the first ten days of the month of December 1931, and within the first ten days of the months of June and December thereafter, make report to the Commissioner of Revenue of such merchant's gross sales for the preceding six calendar months. Such reports shall be made upon forms prescribed and furnished by the Commissioner of Revenue. If the business is owned by an individual, such report shall be signed by the owner or manager; or owned by a partnership, by one of the partners or managers; if owned by a corporation, by a responsible officer of the corporation; and such report shall be sworn to. Beginning with June 1, 1931, it shall be the duty of every merchant to keep a record of sales conforming to the form of report by this section required to be made, and that will provide for a sufficient and accurate record of sales for every merchant, and such record shall not be destroyed for a period of three years or until checked and approved by a representative of the Department of Revenue. The Commissioner of Revenue may cancel the license of any merchant for failure to comply with the provisions of this section and may invoke any other penalties imposed in this Act for violation of its provisions. It shall also be the duty of every merchant to keep a complete file of all invoices for a period of three years or until checked by a representative of the Department of Revenue.

(g) The taxes imposed by this section shall be first payable on or before December 10, 1931, and on or before the 10th day of June and December of each year thereafter. Upon the payment of such privilege or license taxes at each half-yearly period as provided for in this section, the Commissioner of Revenue shall issue to the taxpayer a license in form to be prescribed by him, covering and authorizing the conduct of such business by such merchant for the next succeeding six months.

(h) The license taxes imposed by this section shall be and are of the same nature as those imposed by this article of the Revenue Act. It shall be unlawful for any merchant, subject to the provisions of this section, to engage in the business of selling goods, wares, and merchandise in this State without procuring the license and paying the taxes at the time or times and in the amount or amounts as imposed in this section. The validity of the license issued by the Commissioner of Revenue under this section shall at all times be contingent upon compliance with all the provisions of this section as to accurate reports of gross sales and payment at each half-yearly period of the tax levied in this section on the merchant subject thereto.

(i) Every merchant who fails to make the report required by this section, within the time specified, or who fails to make remittance of the amount of the tax due and payable, or who shall make a false report, shall be liable for a penalty equal to the necessary expense of travel and per diem of a representative of the State Department of Revenue who shall be assigned to investigate such violation and to secure a correct report of sales and settlement of tax, and, in addition, every person, firm or corporation
violating the provisions of this section shall be guilty of a misdemeanor, and
upon conviction, shall be fined or imprisoned in the discretion of the court.

(j) It shall be the duty of the Commissioner of Revenue to administer
this section and to have made a check of the books and records of every
taxpayer under this act in such manner and at such periods as in his judg-
ment may be necessary to secure a full and complete observance of the
provisions of this section, and to this end the properly accredited represent-
atives of the Commissioners of Revenue shall have the right to examine any
of the books and records of every such taxpayer. If within a period of
three years after the payment of the tax under this section, it is found
that any taxpayer has paid in excess of the correct amount levied in this
section, a refund of such overpayment shall be made by the Commissioner
of Revenue; and, if it is found that an underpayment of the tax levied in
this section has been made, the additional tax shall be collected, with in-
terest at the rate of six per cent. The collection of underpayment of taxes
shall be limited to a period of three years from the time such taxes due, but
this limitation shall not apply to the assessment of additional taxes upon
fraudulent returns. If such an additional assessment is contested, the
taxpayer shall have thirty days in which to be heard and file exceptions to
such additional assessment, whereupon the Commissioner of Revenue
shall pass on any objections or exceptions made and determine the amount
of tax, interest, and penalties, if any, and such amount shall be due within
ten days after notice thereof.

(k) No county, city or town shall levy any privilege or license tax under
the provisions of this section, but this prohibition shall not limit or affect
the right of any county, city, or town to levy privilege or license tax as
permitted under any other section of the Revenue Act or other Statute.

Upon receipt of such application the Commissioner of Revenue shall issue to such applicant a license permitting the sale of articles
designated in this Section. Such license shall at all times be conspicuously displayed in his or its place of business. Nothing herein contained shall be construed as requiring a license for the privilege of buying, selling, or distributing leaf tobacco. Any person, firm, or corporation engaged in the business of buying, selling or distributing in this State any of the articles above named without having secured the required license from the Commissioner of Revenue shall be guilty of a misdemeanor and, upon conviction, shall be fined or imprisoned, or both, in the discretion of the court.

3) Upon cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than three (3) pounds per thousand, retailing for over three ($0.03) cents each, ten ($10.00) dollars per thousand.

(b) When the retail or selling price is referred to in this act as the basis for computing the amount of stamps required on any article, it is intended to mean the retail or selling price of the article before adding the amount of the tax.

(8) Upon all candy retailing at fifty ($0.50) cents per pound and above, one ($0.01) cent for each ten cents or fraction of the retail price.

Section 405: The license taxes imposed by this act, except in the case of automobiles, shall be paid by affixing stamps in the manner and at the times herein set forth. In the case of cigars, stogies, cheroots, and chewing tobacco the stamps shall be affixed to the box, or container, in which or from which normally sold at retail: Provided, that wholesalers and jobbers shall affix the required stamps within seventy-two (72) hours after such tobacco products are received by them: Provided further, that any retailer shall have twenty-four (24) hours within which to affix the stamps after such tobacco products are received by him or them: Provided, however, in the event any such tobacco products are manufactured within the State of North Carolina they shall be stamped by the manufacturer when and as sold: Provided, however, the Commissioner of Revenue may, in his discre-
tion, where it is practical and reasonable for the enforcement of the collection of taxes provided hereunder, promulgate such rules and regulations as to permit cigars, stogies, and cheroots to remain unstamped in the hands of wholesalers and jobbers until the original case or crate is broken, unpacked, or sold.

Section 406: In the case of cigarettes, snuff, smoking tobacco, chewing tobacco wrapped in packages of two (2) pounds or less, shotgun or other shells, cartridges, playing cards, and candy retailing for fifty (50) cents per pound or above, and malt extract, the stamps shall be affixed to each individual package by wholesalers and jobbers within seventy-two (72) hours after such products are received by them, and by any retailer within twenty-four (24) hours of receipt by him or them of any such products: Provided, that such goods must be stamped before being sold: Provided further, in the event any manufactured tobacco products, shells, cartridges, playing cards, or candy, chewing gum and package nuts, or malt extract, are manufactured within the State of North Carolina, they shall be stamped by the manufacturer when and as sold or consigned to any dealer in this State: Provided, however, that all retail dealers in manufactured tobacco products, shells, cartridges, playing cards, or candy, chewing gum and package nuts, or malt extract, purchasing or receiving such commodities from without the State, whether the same shall have been ordered through a wholesaler or jobber in this State and/or by drop shipment and/or otherwise, shall within five days after receipt of the same mail a duplicate invoice of all such purchases or receipts to the Commissioner of Revenue. Failure to furnish duplicate invoices as required shall be deemed a misdemeanor, and, upon conviction, be punishable by fine or imprisonment, or both, in the discretion of the court: Provided, that in the case of chewing gum, package nuts and package candy retailing for fifty (50) cents or less per package, the said articles shall not be required to be stamped until the same come into the possession of the retailer.

Section 407: It is the intent and purpose of this act to require all manufacturers within this State, wholesale dealers, jobbers, distributors, and retailer dealers, to affix the stamps provided for in this act to taxable commodities; but when the stamps have been affixed as required herein, no further or other stamps shall be required under the provisions of this act, regardless of how often such articles may be sold or resold within this State.

"That the commodity license tax provided for by Article V of this act is adopted as an emergency revenue measure for the fiscal period beginning July first, One Thousand Nine Hundred and Thirty-one and ending June thirtieth, One Thousand Nine Hundred and Thirty-three, and in order that the will of the sovereign people of North Carolina may be determined with respect to such tax and in order that the sovereign people of North Carolina may be enabled to give to the General Assembly of One Thousand Nine Hundred and Thirty-three a mandate with respect to such tax, it shall be the mandatory duty of the State Board of Electors to submit to the people in the general election of One Thousand Nine Hundred and Thirty-two the question as to whether or not the taxes provided for by Article Five of said act and report shall be continued as part of the revenue of the State. And

Pursuant to Section 17 of Article II of the Constitution, we the undersigned Representatives, do solemnly dissent from and protest against the act of the House in sustaining the foregoing ruling of the Chair holding said proposed amendment out of order for that: First, said act denies the people of North Carolina the right to express an opinion upon a matter vitally affecting them; second, such act deprives the members of the House of the right to represent their people; and, third, such act prevents the House from intelligently considering the most momentous question pending before the General Assembly of 1931.

We, the undersigned members of the House of Representatives, voted with reservations for the Revenue Bill that originally passed the House containing a General Sales Tax. We registered our protest at that time against a Sales Tax as an unjust, improper and unnecessary method of raising revenue for the State. The Senate failed to pass the Revenue Bill as submitted by the House, and we are now confronted by a bill containing a so-called Luxury Sales Tax. The bill places a tax on many items that are necessities and not luxuries, and therefore taxes the people without regard to their ability to pay. The bill further fails of its purpose in that it will not raise the estimated amount of revenue and the income for the State in all probability will lack five million dollars of meeting the expenses of government for the next two years.

However, it is necessary for the Legislature to enact a revenue bill for the next biennium, whether its method of taxation be improper and inadequate or not. We have made very effort to secure the passage of measures designed to raise the money for State support of the six month school term without resort to a sales tax. Having failed in our efforts, we are forced to vote for the Revenue Bill in order to finance the government and to partially support the public schools without a tax on land.

(Signed)

ALGERNON L. BUTLER,
JOHN C. McBEE,
April 31, 1931.
For the Journal on H. B. 102—Conference Report:

I am opposed to the so-called Luxury Tax and the document stamp tax as embodied in this Revenue Bill and I had hoped that sufficient revenue could have been raised from some other source such as from the large depression-proof corporations who are not yet paying their fair share of taxes. However, as a consistent supporter of the McLean School Law, and knowing that my constituents are demanding relief, and realizing that adoption of this Revenue Bill is apparently the only way now left to get such relief, I feel that it is now my duty to vote "aye" on this bill.

W. C. EWING,

Mr. Spence submits the following report for the House Conferees on H. B. 102:

REPORT OF THE CONFEREES ON THE SUBSTITUTE FOR HOUSE BILL 102 “A BILL TO BE ENTITLED AN ACT TO RAISE REVENUE”.

To the Speaker of the House of Representatives:

The Conferees on the part of the House have received from the Senate Conferees acting under their instructions a proposal which is hereto attached.

The House Conferees being of the opinion that under their instructions they are without authority to accept the same even if inclined to do so, now request that they be specifically authorized and instructed by the House whether to accept or reject this proposal on the part of the Senate Conferees.

Respectfully submitted,

U. L. Spence,
Chairman.

H. G. Connor, Jr.
R. G. Cherry,
A. D. MacLean,
Gurney P. Hood,
Claude W. Allen,
R. L. Harris,

Upon a re-reference of House Bill 102, “A bill to be entitled An act to raise revenue”, to conferees on the part of the House and Senate, a joint meeting of conferees was held on Friday, May 8.

At this joint meeting it was agreed that the conferees on the part of the Senate would submit to the conferees on the part of the House, for their consideration, a proposal that would go as far as the limitation of their instructions would permit in meeting the expressed views of the House of Representatives, and in pursuance of that agreement the conferees on the part of the Senate submit the following:

First. It is agreed to accept the principal of the MacLean Law, assuming on the part of the State full financial responsibility for the costs of operation of the six months public school term in accordance with the State standards in all counties of the State, and to go as far as it seems reasonably possible at this time in the direction of providing for the support of the six months term from revenue other than a tax on property; and in addition thereto it is agreed to provide a fund of one and one-half million dollars for State aid to the extended term.

Second. It is proposed to apply a substantial measure of reduction of the total cost of operation of the schools so as to bring this cost closer to the amount of revenue we find it possible at this time to provide from sources other than property taxes, and also in closer relation to the ability of the people of the State to pay, under present economic conditions, in taxes levied in any form. We reached the conclusion that this total cost of operating expenses for the six months term under State standards should not exceed sixteen and one-half million dollars for the six months term. We believe this sum to be sufficient without impairing the efficiency of the schools.
Third. We are submitting a revenue measure to provide for the maintenance of the entire six months term for all schools in the State in accordance with State standards when supplemented by a maximum levy of twenty cents on a valuation not in excess of three billion dollars as hereinafter outlined in paragraph four. In this plan there is included an additional one and one-half million dollars for State and for the extended term.

Fourth. The plan set out in paragraph three contemplates the raising of six million dollars from property tax. We propose that the Joint Committee on Education be instructed to incorporate in its School Bill the machinery for raising a sum not in excess of six million dollars by a property tax of not more than twenty cents on a property valuation not in excess of three billion dollars and to allot and apportion to the several counties their proportionate part of said school funds less the amount raised in the several counties from fines, forfeitures, penalties and poll taxes which sums are to be and remain in said counties for the support of the schools, as required by the Constitution.

Fifth. We further propose that an amount sufficient to meet all current expenses of the six months term, according to State standards, over the six millions dollars raised by property tax, be appropriated from the General Fund of the State, thereby making it impossible for a larger sum than six million dollars to be collected from property tax for the six months term according to State standards.

Sixth. We further propose that out of the savings to be effected by legislation already enacted at this Session, a sufficient sum be set aside as an Emergency Fund to be administered by the State Board of Equalization for the purpose of allowing additional teachers and other emergency expenses, which in the opinion of the State Board of Equalization, are necessary and justified.

Seventh. As a revenue bill to sustain this program, we propose adoption of the Conference Report previously agreed upon by conferees on the part of the House and Senate on House Bill 102, with the following exceptions:

That the re-draft in Conference Report on Section 134, license tax on bottlers be stricken out and that the House concur in Senate amendment to Section 134.

That the House concur in Senate amendment striking out Article V.

That the House concur in Senate amendment incorporating a merchants' license tax as Section 164.

That Conferees Report in Section 165 be amended by changing the words "fifty miles" to "seventy-five miles".

That the House concur in Senate amendment to Section 202.

Eighth. We propose a re-submission of the Conference Report with the changes indicated; and suggest that the Joint Conferees on the Appropriations Bill be requested to materially reduce the proposed appropriations and perfect every economy possible, in order to prevent or reduce any deficit in the State General Fund for this biennium.

Mr. Ervin offers the following motion, and asks that it be adopted:

That the House accept the proposal of the Senate Conferees transmitted by the House Conferees.

Ervin.

Upon its adoption, Mr. Hamilton calls for the "ayes" and "noes".
The call is sustained, and the motion of Mr. Ervin fails by the following vote:

Those voting in the negative are: Messrs. Bender, Binford, Braddy, Brinson, Brown, Bruton, Cloud, Coffield, Cox of Jackson, Cranor, Crouse, Crudup, Davis of Edgecombe, Davis of Hyde, Davis of Warren, Day, Ethridge, Ewing, Flanagan, Fulghum, Gatling, Gay, Gwaltney, Hamilton, Helms, Henry, Hipps, Holmes, James, Johnson of Ashe, Johnson of Chatham, Johnson of Currituck, Jolly, Jones, Killian, Lumpkin, Lyon, MacLean, Mebane, Moye, McBee, McDevitt, McCaicharn, McGougan, Norman, Parker, Reed, Rogers, Ruffin, Smith, Sutton, Tatem, Thomas, Thompson, Willis, White of Chowan, White of Robeson, Whitley, Woodall, and Young of Harnett—60.

The following pairs are announced:

Mr. Graham with Mr. Seawell. Were Mr. Seawell present, he would vote "aye", Mr. Graham would vote "no".

Mr. Turner of Guilford with Mr. Howell. Were Mr. Howell present, he would vote "no", Mr. Turner would vote "aye".

Mr. Butler with Mr. Sigmon. Were Mr. Sigmon present, he would vote "aye", Mr. Butler would vote "no".

Mr. Johnston of Ashe offers the following motion in writing, which is adopted, and a copy is ordered sent to the Senate with information of the action of the House thereon:

1. That the House withdraw all instructions and send its Conferees to their deliberations without instructions, provided that this withdrawal of instructions shall become effective when and if the Senate shall withdraw all instructions to its Conferees, and appoint a Conference Committee upon which both sides of its prevailing schools of thought shall have representation.

2. That the Principal Clerk of the House be instructed to transmit a copy of this motion and the action of the House thereon to the Senate in the form of a message.

CONFERENCE REPORT

Mr. Spence submits the following report for the Conference Committee on H. B. 102, A bill to be entitled An act to raise revenue.

The conferees on the part of the House and Senate on House Bill No. 102, a bill to be entitled "An act to raise revenue", submit the report hereto attached, as will be noted in this report:

We recommend acceptance of the MacLean Law, assuming on the part of the State responsibility for the cost of operation of the six months public school term in accordance with the State's standards of cost, and recommend changes in the Revenue Act, which, together with a property tax levy of fifteen cents based on actual tax valuations for 1930, is intended to provide for the cost of operation of the State Government for the next biennium, including the cost of operation of the six months schools and an additional appropriation of $1,500,000 for equalizing cost of extended terms.

Our recommendations provide that the total cost of the six months schools within State standards shall not exceed $16,500,000. This recommendation will not prevent any counties that wish to do so from supplementing the State standards of cost at their own expense, as is done by many counties at the present time.

We also recommend that the joint conferees on the Appropriations Bill be requested to give consideration to the matter of a further reduction in
appropriations, with a view of perfecting every economy possible in order to prevent or reduce any deficit in the State General Fund for the next biennium.

Respectfully submitted,

HAYDEN CLEMENT,
J. H. FOLGER,
R. GRADY RANKIN,
L. L. GRAVELY,

(f) Every merchant as defined in this section shall, within the first ten days of the months of December 1931, and within the first ten days of the months of June and December thereafter, make report to the Com-
missioner of Revenue of such merchant's gross sales for the preceding six calendar months. Such reports shall be made upon forms prescribed and furnished by the Commissioner of Revenue. If the business is owned by an individual, such report shall be signed by the owner or manager; if owned by a partnership, by one of the partners or manager; if owned by a corporation, by a responsible officer of the corporation; and such report shall be sworn to. Beginning with June 1, 1931, it shall be the duty of every merchant to keep a record of sales conforming to the form of report by this Section required to be made, and that will provide for a sufficient and accurate record of sales for every merchant, and such record shall not be destroyed for a period of three years or until checked and approved by a representative of the Department of Revenue. The Commissioner of Revenue may cancel the license of any merchant for failure to comply with the provisions of this Section and may invoke any other penalties imposed in this act for violation of its provisions. It shall also be the duty of every merchant to keep a complete file of all invoices for a period of three years or until checked by a representative of the Department of Revenue.

(g) The taxes imposed by this Section shall be first payable on or before December 10, 1931, and on or before the 10th day of June and December of each year thereafter. (h) The license taxes imposed by this section shall be and are of the same nature as those imposed by this article of the Revenue Act. It shall be unlawful for any merchant, subject to the provisions of this section, to engage in the business of selling goods, wares and merchandise in this State without procuring the license and paying the taxes at the time or times and in the amount or amounts as imposed in this section. The validity of the license issued by the Commissioner of Revenue under this section shall at all times be contingent upon compliance with all the provisions of this section as to accurate reports of gross sales and payment at each half-yearly period of the tax levied in this section on the merchants subject thereto.

(i) Every merchant who fails to make the report required by this section within the time specified, or who fails to make remittance of the amount of the tax due and payable, or who shall make a false report, shall be liable for a penalty equal to the necessary expense of travel and per diem of a representative of the State Department of Revenue who shall be assigned to investigate such violation and to secure a correct report of sales and settlement of tax, and, in addition, every person, firm, or corporation violating the provisions of this section shall be guilty of a misdemeanor, and upon conviction, shall be fined or imprisoned in the discretion of the court.

(j) It shall be the duty of the Commissioner of Revenue to administer this Section and to have made a check of the books and records of every taxpayer under this act in such manner and at such periods as in his judgment may be necessary to secure a full and complete observance of the provisions of this Section, and to this and the properly accredited Representatives of the Commissioner of Revenue shall have the right to
examine any of the books and records of every such taxpayer, if within
a period of three years after the payment of the tax under this Section
it is found that any taxpayer has paid a tax in excess of the correct amount
levied in this Section, a refund of such overpayment shall be made by the
Commissioner of Revenue; and, if it is found that an underpayment of the
tax levied in this Section has been made, the additional tax shall be col-
lected, with interest at the rate of six per cent. The collection of under-
payment of taxes shall be limited to a period of three years from the
time such tax is due, but this limitation shall not apply to the assessment
of additional taxes upon fraudulent returns. If such an additional assess-
ment is contested, the taxpayer shall have thirty days in which to be heard
and file exceptions to such additional assessment, whereupon the Com-
missioner of Revenue shall pass on any objections or exceptions made and
determine the amount of tax, interest, and penalties, if any and such amount
shall be due within ten days after notice thereof.

(k) No county, city or town shall levy any privilege or license tax
under the provisions of this Section, but this prohibition shall not limit
or effect the right of any county, city or town to levy privilege or license
tax as permitted under any other Section of the Revenue Act or other
statute.

“The taxes levied in this act are for the expenses of the State Govern-
ment, the appropriations to its educational, charitable, and penal insti-
tutions, pensions for Confederate soldiers and widows, the interest on the
debt of the State, for public schools, and other specific appropriations made
by law, and shall be collected and paid into the general fund of the State
Treasurer.

It is the intent and purpose of this act to provide the revenue for the
purposes stated in this Section, and, together with the tax on property
hereinafter provided, to pay the expenses of operation of all the public
schools of the State for the Constitutional term of six months, and
within the standards of cost to be provided in the public school law. To
this end the Joint Committee on Public Education is instructed to report
a bill for enactment by this General Assembly that will provide standards
for the operation of all the public schools of the State for the six months
term at a total cost not in excess of sixteen and a half million dollars per
year for the ensuing biennium. The Boards of Commissioners of the
several counties of the State shall levy, in each of the years of the next
biennium, a tax upon all the taxable properties in each of such counties
that will be equal to a levy of fifteen cents (15) on each one hundred
dollars ($100) of value on the total value of real and personal property
listed and assessed in each such county in the year 1930, as shown in the official reports of such counties to the State. If in any county any lands have been taken over by the Federal Government since the tax listing period in 1930, the tax value of such lands shall be deducted from the total value of real and personal property for such county.

The taxes so levied shall be collected in the same manner as other county taxes and accounted for in the same manner as other taxes under the Daily Deposit Act. The County treasurer or other officer receiving such taxes in each county shall remit to the Treasurer of the State on the first and fifteenth day of each month all taxes collected up to the time of such remittance under the levy herein provided for, and such remittance to the State Treasurer shall also include the proportion of all poll taxes collected required by the Constitution of the State to be used for educational purposes.

The tax levy herein provided for shall be subject to the same discounts and penalties as provided by law for other county taxes and there shall be allowed the same percentage for collecting such taxes for other county taxes. The obligation to the State under the levy herein provided for shall run against all taxes that become delinquent; and with respect to any property that may be sold for taxes, any public officer receiving such delinquent taxes when and if such property may be redeemed or such tax obligations in any manner satisfied, shall remit such proportionate part of such tax levy to the State Treasurer within fifteen days after receipt of same. At the end of each fiscal year the county accountant shall furnish the State Treasurer a statement of the total amount of taxes levied in accordance with the provisions of this Section that are uncollected at the end of the fiscal year.

The Joint Committee on appropriations is instructed to include in its general appropriation bill an appropriation of $16,500,000 for each year of the next biennium for the cost of operation of schools of the State for the six months constitutional term, such appropriation to be reduced in actual expenditures by the amount of fines, forfeitures and penalties, as shown by the school budgets for the several counties as approved by the State Department of Education. The Joint Committee on Appropriations is also instructed to include in the general Appropriation Bill an appropriation of $1,500,000 for each year of the next biennium to be apportioned to the several counties as State aid for the cost of operation of the extended term of its several schools beyond the six months constitutional term”.

STATEMENT

With reference to House Bill 536 I introduced this bill in the House because in my opinion it represented the wishes of an overwhelming majority of the voters of Ashe County. I also had in writing the consent and approval of the Commissioners affected thereby. Now on the last day of the Session the Senate Substitute for said bill comes to the House. In order to get the benefit of the provisions of said Substitute for the future in my County and not as any evidence of changing my own position, I agree to adoption of said Substitute.
