MESSAGE FROM THE GOVERNOR

The following message is received from the Governor of North Carolina, Honorable O. Max Gardner, which accompanies a Joint Resolution of the United States Congress:

Mr. Speaker, and Members of the House of Representatives:

I have the honor of transmitting a copy of a Joint Resolution of Congress proposing an Amendment to the Constitution of the United States, fixing
the commencement of the term of President, Vice President, and Members of Congress, and fixing the time of the assembling of Congress.

For many years the long delays in needed legislation and prompt administration have caused thoughtful Statesmen to urge a change in the fundamental laws so that less time would intervene between the election of and the inauguration of a new President and a new Congress. Several times one branch of Congress has voted to submit such an amendment to the States, only to have a reform stayed in the other branch. The Senate of the United States in recent years has voted several times for submission of an amendment to shorten the interval between the election and the taking of office. Upon the organization of the Seventy-second Congress, the Norris Amendment, coming over from the Senate, received the approval of the House. Now, as soon as three-fourths of the States vote approval of the pending Amendment to the Constitution, a new Chief Executive of the United States will be inaugurated on January 20 after his election in November, and the new Congress chosen in November will begin to function on the Third of January, the Amendment upon which Legislatures are to pass containing this provision;

"The terms of the President and Vice President shall end at Noon on the Twentieth day of January, and the terms of Senators and Representatives at Noon on the Third of January, of the years in which such terms would have ended if this Article had not been ratified; and the terms of their successors shall then begin.

When thirty-six States vote "Aye" the interval of marking time for four months will be no longer impede prompt obedience to the recorded mandates of the people.

The present critical situation emphasizes the arguments heretofore presented for advancing the time of inauguration of the President and the organization of Congress. In a period when from ocean to ocean the people are insistent that the pledges made in the Presidential campaign by the successful Party be immediately redeemed, a stalemate stands between their expectations and the realization of their desires. An outgoing Congress does not feel itself bound to follow the decrees of an election in which many of them were retired. The outgoing President, not in sympathy with important items of the program of the President-elect, feels no compulsion to change the policies or the convictions which have controlled his action during his term of office. It has, therefore, often happened, that between November and March there is an impasse period. In ordinary times this is to be deplored, but in crucial days like these in which we are now living, it is serious. Delay halts action, and failure of quick action tends to destroy hope and faith and united effort. The sooner the change is made the sooner will government function without lost motion.

This Amendment now submitted to the General Assembly of North Carolina has already been ratified by the General Assemblies of the fifteen States which have been in Session since the action of Congress. Nowhere has any real opposition been voiced to what is regarded as an overdue reform. I earnestly trust that this General Assembly will give immediate con-
sideration to the matter and voice what seems to be the unanimous sentiment of North Carolinians by the ratification of the Amendment.

O. Max Gardner

(Copy of Resolution of Congress not furnished for the Journal.)

Prayer by Rev. E. McNeil Poteat, of Raleigh.

Mr. Turner of Iredell, for the Committee on the Journal, reports that the Journal of yesterday has been examined and found correct, and the same stands approved.

The courtesies of the floor are extended to: Messrs. J. Sherwood Upchurch of Wake, and Harold Burke of Alexander, former Members of the House.

Speaker appoints as a Committee on the part of the House: Messrs. Cox, Flanagan, and Martin, to act with a like Committee from the Senate, to extend the invitation to President-elect Roosevelt.

STATEMENT BY MEMBER

According to press reports and the Journal entries in the Clerk's office, I was not recorded as having voted for H. B. No. 6, a bill to be entitled An act to reduce the compensation of all State Officers, elected at the election November 8, 1932, fifteen per cent, which record roll call vote was had on the second reading of the bill last Wednesday, January 4th. I am positive that I did vote for this bill, and my recollection is verified by Members of the House occupying seats near me. When the roll call vote was verified I failed to recognize the omission of my name, among those who voted for the bill. Since I am so positive that I did vote for it, I am making this statement and ask that it be inserted in the Journal in justice to myself. No blame is attached to anyone except myself, in failing to recognize the omission of my name at the time the roll call was verified.

Signed: M. W. Galloway,
Member from Transylvania.

COMMITTEE REPORT

Mr. Cox, for the Committee on Rules, presents Rules for the 1933 House of Representatives, and asks adoption by the House; and requests that 1,500 copies be printed at once.

A two-thirds' vote of the Members present shall be necessary to sustain any appeal from the ruling of the Chair.

4. He shall rise to put a question, but may state it sitting.

5. Questions shall be put in this form, namely, "Those in favor (as the question may be) will say, 'Aye,'" and after the affirmative voice has been expressed, "Those opposed will say, 'No.'" Upon a call for a division, the Speaker shall count; if required, he shall appoint tellers.
6. The Speaker shall have a general direction of the hall. He shall have
a right to name any member to perform the duties of the Chair, but sub-
stitution shall not extend beyond one day, except in case of sickness or

If this question shall be decided in the affirmative, the "main question" shall be on the passage of the bill, resolution or other matter under consideration; but when amendments are pending, the question shall be taken upon such amendments, in inverse order, without further debate or amendment. If such question be decided in the negative, the main question shall be considered as remaining under debate; Provided, that no one shall move the previous question except the member submitting the report on the bill or other matter under consideration, and the member introducing the bill or other matter under consideration, or the member in charge of the measure, who shall be designated by the chairman of the committee reporting the same to the House at the time the bill or other matter under consideration is reported to the House or taken up for consideration.

Previous question.
Adjourn.
Lay on the table.
Postpone indefinitely.
Postpone definitely.
To commit.
Amendment.
Amendment to amendment.
Substitute.
Bill.

The previous question covers all other motions when seconded by a majority of the House, and proceeds by regular graduation to the main question, without debate, amendment, or motion, until such question is reached or disposed of.

All committees, other than the Committee on Appropriations, when favorably reporting any bill which carries an appropriation from the State, shall indicate same in the report, and said bill shall be re-referred to the Committee on Appropriations for a further report before being acted upon by the House. Such minority report shall be signed by at least three members of the committee who were present when the bill was considered in committee, provided, however, that where a minority report is filed, the proponents and opponents of the question presented thereby shall be allowed not to exceed ten minutes on each side to explain the question. Provided, further, that by a majority vote the time may be extended for a discussion of the minority report and on the merits of the bill. In the event there is an unfavorable report with no minority report accompanying it, the bill shall be placed upon the unfavorable calendar. The Principal Clerk shall deliver the carbon copy of the bills designated to be printed, as hereinafter provided for, to the public printer and cause four hundred copies thereof to be printed. On the morning following the delivery of the printed copies, the Chief Clerk shall cause the Chief Page to have one copy thereof put upon the desk of each member and shall retain the other printed copies in his office. A sufficient number of the printed copies for the use of the committee to which the bill is referred shall be by the Chief Page, delivered to the Chairman or Clerk of that Committee. If the bill is passed, the remaining copies shall be by the Chief Page delivered to the Principal Clerk of the Senate for the use of the Senate. The cost of printing shall be paid from the contingent fund of the House of Representatives. Such Sub-committee shall serve for one week unless for good cause the Chairman of the respective rules committees shall determine otherwise. If the member, introducing a public bill, which the committee shall determine should not be printed, so desires, he may appear before the committee at the next meeting thereof with reference thereto.

67. Whenever any resolution or bill is introduced a carbon copy thereof shall be attached thereto, and the Principal Clerk shall cause said carbon copy to be numbered as the original resolution or bill is numbered, and shall cause the same to be available at all times to the member introducing the same. MESSAGE FROM THE GOVERNOR

A message is received from the Governor, transmitting the budget, which message is ordered spread upon the Journal, and a copy thereof is referred to the Committee on Finance.

BUDGET MESSAGE OF GOVERNOR J. C. B. EHリングHAUS TO THE GENERAL ASSEMBLY OF 1933

Mr. President, Mr. Speaker, and Members of the General Assembly:

In compliance with the provisions of our statutes, I transmit to you herewith the budget for the biennium from June 30, 1933, to June 30, 1935, for the fiscal years 1933-34 and 1934-35, as submitted by the outgoing administration. Accompanying it also are revenue and appropriation acts prepared in accord with the budget proposals.
These of course were all prepared upon the basis of a continuance of the present governmental set-up. With them is a vast quantity of valuable and most useful information which no doubt will aid you greatly in the task that is before you. These bills also will provide a beginning point from which you may direct your efforts.

While there is much contained in these reports with which I find myself in accord, I feel constrained to record my dissent to them in certain substantial particulars.

You will observe by reference to the budget, page 9, that "these recommendations as to balancing contemplate covering a probable deficiency, after repealing the fifteen-cent ad valorem property tax levy, of ten million dollars," for the year 1933-34, and substantially the same amount for the year 1934-35. You will observe also that the proposal to effect this contemplates:

<table>
<thead>
<tr>
<th>1933-34</th>
<th>1934-35</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Reducing General Fund Expenses</td>
<td>$3,000,000</td>
</tr>
<tr>
<td>(b) Refunding General Fund Bond Maturities</td>
<td>1,150,000</td>
</tr>
<tr>
<td>(c) Transfer of Highway Revenue</td>
<td>2,000,000</td>
</tr>
<tr>
<td>and</td>
<td></td>
</tr>
<tr>
<td>(d) Replacing the 15-cent Property Tax with new levies</td>
<td>3,850,000</td>
</tr>
<tr>
<td>Totals</td>
<td>$10,000,000</td>
</tr>
</tbody>
</table>

In the very few hours since these were submitted to me, I have had no sufficient opportunity for a careful review of the detail of each of these proposals. A submission of such detail is neither necessary nor proper at this time. It will be sufficient for me to submit the following observations:

The action of the General Assembly, in line with my inaugural suggestion that "the whole field of governmental set-up should be carefully canvassed . . . to the end that duplications of efforts may be avoided and eliminations effected wherever practicable," increases the prospect of even greater economies than those herein proposed, and certainly will result in the elimination of various items for which provision is herein made. The appointment of strong and able committees by both branches of the Assembly has reassured the public mind and met with widespread approval. I feel confident that out of this enterprise will come a real substantial economy and the more accurate appraisal of what may thus be saved is, in my judgment, the first step in your preparation of budget, appropriation, and revenue measures for the next biennium. I am impressed, too, with the idea that the reductions here proposed follow too largely the idea of horizontal decreases without considering, as is vital, the difference between the essential and non-essential services. In this connection, I venture to repeat my suggestion that this General Assembly will do well, if it will—even as to those for which it finally makes provision—"classify governmental activities into essential and non-essential classes," with provision for budgetary discrimination as therein pointed out. I am also of the opinion that all salary reductions should be graduated.
NEW TAXES

These measures propose a substantial increase in tax levies. While I have no objection to readjustments which do not add to present burdens or which effectuate their more equitable distribution or to corrections of manifest errors or to levies upon enterprises which have heretofore escaped taxation, I do not think that substantial levies, involving new burdens, should be considered unless and until every effort has been exhausted for economy consistent with the preservation of essential services and activities.Until we have definitely determined how much we can save and only then will we be justified in considering the imposition upon our people of the burden which such new levies will entail. If this unhappy necessity should finally eventuate, then such levies should be "ear-marked" for the essential services for which required. And, it should be made plain also that such levies are temporary and emergency levies only. Under no consideration should we permit these to be considered or construed as invitations to spending agencies to raise or maintain spending levels. A substantial economy is not only imperative but it is the first step in budget balancing.

THE TRANSFER OF HIGHWAY FUNDS

You will observe that this budget proposes to divert two million dollars of highway funds to the general fund of the State as a means of balancing the budget. I cannot give my approval to this suggestion. An indirect diversion is just as objectionable as one directly made. My reasons for this opposition need not be here set forth at length. In the main they have been indicated in my inaugural message. However, it is proper to observe here that in view of the rapid decrease in highway revenues which has been noted since July 1, last, it would seem that the prospect of any such surplus above debt service and reasonable maintenance cost is too insubstantial to warrant us in accepting this provision as a basis of budget balancing. As a further evidence of the possibility of continued decreases and the uncertainty of supposing that we shall have the same revenue next year as last in this fund, there has recently been prepared a statement covering the sales of new passenger cars and trucks in North Carolina for several years past. Here are the figures:

<table>
<thead>
<tr>
<th>Year</th>
<th>Passenger</th>
<th>Trucks</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>1925</td>
<td>64,537</td>
<td>5,904</td>
<td>70,441</td>
</tr>
<tr>
<td>1926</td>
<td>66,296</td>
<td>6,440</td>
<td>72,736</td>
</tr>
<tr>
<td>1927</td>
<td>59,877</td>
<td>7,340</td>
<td>67,217</td>
</tr>
<tr>
<td>1928</td>
<td>57,607</td>
<td>7,010</td>
<td>64,617</td>
</tr>
<tr>
<td>1929</td>
<td>64,171</td>
<td>9,609</td>
<td>73,780</td>
</tr>
<tr>
<td>1930</td>
<td>33,768</td>
<td>6,483</td>
<td>40,251</td>
</tr>
<tr>
<td>1931</td>
<td>28,088</td>
<td>6,821</td>
<td>34,909</td>
</tr>
<tr>
<td>1932</td>
<td>15,300</td>
<td>3,698</td>
<td>18,998</td>
</tr>
</tbody>
</table>

You will see from this table that the past year has shown a decrease in sales of new automobiles and trucks to the point where it is less than one-third of the peak. This is strong indication of the reasonable probability of an even greater shrinkage. The estimates of probable revenues as set out
on pages 60 and 61 of the budget here transmitted lends further proof and probability to this suggestion.

REFUNDING OF GENERAL FUND MATURITIES

I must call your attention also to the fact as appears from a perusal of this budget, that the balancing here proposed contemplates the refunding of our general fund bond maturities during the next biennium amounting to $1,150,000 for the fiscal year 1933-34 and $1,735,000 for the fiscal year 1934-35. Most respectfully, but emphatically, I suggest that this does not constitute a balanced budget. Certainly, it does not accord with my idea of the necessities of the present situation if we are to preserve our credit and set up a really balanced budget. It is not difficult to differentiate between the funding of a casual deficit—even one as large as we have presently accumulated—and the funding of a maturing obligation. Our casual deficit is due to unprecedented economic conditions, universally present, and resulting in unforeseen and largely unforeseeable shrinkage in revenue. The funding of a casual deficit is a recognized practice in the world of sound finance. The refunding of maturing obligations is there regarded as an evidence of financial instability.

There are other things which might be said here, but these are sufficient and I refrain for the further reason that I am anxious to get these measures before you at the earliest possible moment, to the end that you may promptly proceed with your labors.

Let me repeat, because it seems to me that it cannot be too greatly emphasized, that it is imperatively necessary that this Legislature should match its appropriations with its provisions and provide for an undeniably balanced budget. If the set-up which should be finally adopted is predicated upon what in reasonable probability may be classified as an uncertainty, or is built upon the basis of refunding maturing obligations, our whole financial structure is jeopardized and the credit of the State imperiled. We can never hope to float the bonds necessary to cover our accumulated casual deficit or to make such short term borrowings as may be necessary from time to time; we can never hope to obtain such financing as we need upon reasonable interest terms, unless and until we have provided a budget balanced upon the basis of substantial certainty. With this done, and with a real economy program, we can look hopefully towards the future.

(Signed) J. C. B. Ehringhaus,
Governor.

STATEMENT BY MEMBER

Having noticed in the press and also the Journal entries in the Clerk's office that I failed to vote on the bill to regulate lobbying which was considered by the House by Special Order Monday night, January 16, in justice to myself, I desire to make the following statement and request that same be inserted in the Journal.

Regardless of what the press has said or what the official roll call on this bill discloses, I am positive that I voted for the bill. My recollection has been verified by members occupying seats adjoining my own seat. It is true that the roll call was verified, and if my name was omitted from the list of members recorded as voting "aye" on the bill, I did not detect it. No blame is attached to anyone, but, in justice to myself, I desire the Journal to show my position regarding this matter.

Respectfully,

REPORTS OF COMMITTEES

Pursuant to Senate Resolution No. 1, the special Committee of the Senate and House on Reorganization of State Government, makes the following report, which is adopted:

To the General Assembly of North Carolina:

Your Joint Committee on Reorganization of State Government respectfully submits for your consideration the following report:

The General Assembly having already passed such legislation as could become effective for a reduction in the salaries of the Governor and Constitutional State Officers and your Committee regarding such reductions as consistent with the remaining recommendations of the Committee do not further refer to these officers in the general scheme of economy which your Committee undertakes to present and in this report will undertake to take the several departments of government to which they will refer in the order in which the same are set up in the Budget Appropriation Bill submitted at this session.

Governor's Office

1. Your Committee recommend that the position of Executive Counsel shall be abolished.

2. Your Committee recommend that the office of the Director of the Department of Personnel shall be abolished and that the duties and functions of this department shall be transferred to the Budget Bureau.

3. We respectfully recommend that the Budget Bureau now being under the Governor's supervision and control, shall have its offices in the Capitol adjacent to the Governor's office so that he may at all times have contact therewith, and your Committee recommend for this purpose that this Bureau shall be assigned to the offices in the Capitol Building now occupied by the Treasurer.

4. We recommend that the office of Superintendent of State-owned farms shall be abolished.
Secretary of State

5. Your Committee respectfully recommend that the office of the Secretary of the State Board of Elections shall be transferred to the Secretary of State’s office, and his functions and duties shall be performed by the Secretary of State as an extra duty of his office, without additional compensation, and if legislation is necessary for this purpose then that such legislation shall be immediately enacted by this General Assembly.

6. The Secretary of State now the secretary to the Board on Public Buildings and Grounds shall be charged with the management and care of public buildings and grounds, with full responsibility therefor subject to the directions of the Board and subject to the control of the Director of the Budget, and it is respectfully recommended that in many of the labors incident to the preservation of the grounds and buildings convict labor should be used in a part of this work with great economy to the State, and this Committee recommend that such legislation be adopted as may be necessary to carry into operation this recommendation so that the expenses of this department may be substantially reduced.

State Treasurer

7. It is recommended by your Committee that there shall be transferred to the State Treasurer the duties and functions of the Director of the Local Government Commission and that the duties and administration of this office shall be administered by the State Treasurer without other or additional compensation from the State and in connection with his office as Treasurer.

8. We recommend that the office of the Treasurer be moved to the Revenue Building, where space shall be provided.

8-a. Your Committee recommend that the World War Veterans’ Loan Fund be transferred to the State Treasurer’s office, and that the office of Commissioner of the World War Veterans’ Loan Fund be consolidated with that of the State Treasurer without additional compensation.

Tax Commission

8-b. Your Committee recommend that the Tax Commission shall be abolished, and that the essential duties of this Commission shall be transferred to the Department of Revenue without any appropriation therefor, and the Commissioner of Revenue shall make a biennial report on the tax situation without any additional expense to the State.

Attorney General

9. It is recommended that the Attorney General shall be the legal adviser to the Governor and all departments, bureaus, agencies and commissions of the State and shall at all times represent the State in all matters in which it may be interested; and shall have the Assistant Attorneys General as now provided by law. No department, agency, bureau or commission of the State shall employ any regular, special or any other counsel except by and with the advice and approval of the Governor and the Attorney General.
10. That the Department of the Legislative Reference Librarian shall be transferred to the Department of the Attorney General, and the Legislative Reference Librarian shall in addition to the duties of his office assist the Attorney General and perform such duties as may be assigned to him by the Attorney General all without additional compensation.

Department of Revenue

11. Your Committee respectfully recommend that there shall be a re-adjustment of the Department of Revenue and that the legislation concerning its functions shall be so amended as to prevent loss of revenue resulting from inability to promptly collect revenues due this Department and to the end that the Department may function more efficiently. It is particularly recommended that the law relating to the collection of gasoline taxes and the giving of a bond in connection therewith for the protection of the State from loss of revenue due and owing to it shall be so amended as to fully protect the interests of the State and require and compel the payment of revenues due to it promptly.

12. We recommend that the Gasoline and Oil Inspection Division, now in the Department of Agriculture, shall be transferred to the Motor Vehicle Division of the Department of Revenue. The analytical work is to be continued in the laboratory of the Department of Agriculture as at present.

13. We recommend that the Department of Weights and Measures now in the Department of Agriculture shall be transferred to the Motor Vehicle Division of the Department of Revenue.

14. We recommend that the State Highway Patrol shall be transferred from the Highway Department to the Motor Vehicle Division of the Department of Revenue and that in addition to their other duties, the Highway Patrol shall be required to perform the duties of gasoline and oil inspectors, and the inspection of weights and measures, and to assume the duties of the Theft Bureau and such other duties as may be assigned to them.

Department of Public Instruction

15. The Superintendent of Public Instruction, as the administrative head of the Educational Department of the State, is presumed to have the advice and assistance of the Board of Education, which under the laws of the State consists of the Council of State who are so engaged in other duties pertaining to their respective offices that they have little time to give to the consideration of the essential functions of this department. In this situation, a division called the Board of Equalization consisting of one member from each Congressional District, the Superintendent of Public Instruction, and two members at large, has been set up as a body with certain powers and control over the school administration of the State, and your Committee recommend that the powers and duties of this Board of Equalization in connection with the conduct and administration of the public schools of the State, shall be somewhat enlarged, extended, and made more flexible to the end that greater economy may be effected and emergencies met in the administration of our Public School System.
16. That there shall be enacted legislation preventing "repeaters," that is, students who have finished and completed their course of public school education, from returning to or utilizing the public schools of the State for the purpose of acquiring additional or specialized educational training. Your Committee is informed that this system of "repeaters" which has been permitted in the State adds to the public school cost approximately $150,000 per year which should be used in the education and training of the children entitled to the same.

17. In the Department of Public Education, your Committee respectfully recommended that supervisors should be eliminated or reduced to a minimum and this this could be done at a saving of $30,000.00 per year.

18. Your Committee recommend that the appropriation for the conduct of the public schools shall be put under the control of the Advisory Budget Commission in the same manner as are all appropriations for the maintenance of all other departments and institutions of State government and that the education bill of this session shall be so drawn as to permit all necessary economies to be effected in the administration of the same.

19. The Board of Equalization should be given power to fix and regulate the High Schools of the State and to fix the teaching load in the public schools and to lay down certain rules for the county superintendents. It is frequently more economical to transport high school students a few more miles where a sufficient number can be properly and economically instructed than it is to have and maintain high schools with a small attendance.

State Library and Library Commission

20. Your Committee recommend that the State Librarian shall be made the Director of the Library Commission thereby combining the two positions of State Librarian and Director of the Library Commission, without additional compensation, and thereby eliminating the salary of the Director of the Library Commission.

Board of Charities and Public Welfare

21. Your Committee find that there is much duplication between the Department of the Board of Charities and Public Welfare and the State Board of Health, and your Committee is of the opinion that many of the functions of both of these departments can be now suspended in the extreme necessity of the State, but we are of the opinion that the organizing and directing head of the State Board of Charities and Public Welfare should be preserved in order that it may function with the various county welfare officers, and your Committee recommend that this Department shall be coördinated with the State Board of Health and that only the head and a minimum of clerical help shall be preserved, and that its inspection functions shall be exercised by the present inspectors of the State Board of Health so far as they may be able to perform these duties, and that these two departments will so function under one department as to fully protect the health and welfare of the State and with great economy in the administration of each.
Board of Health

22. The State Board of Health has many valuable functions and we realize that this department is a technical one and the extent of any economies that might be instituted therein difficult of determination, but we commend to the Committee on Appropriations for the adjustment thereof all such functions as are not immediately necessary to be retained for the preservation of the health of the State. In this Department we find listed among other things seventeen school dentists and six public health nurses; it would appear and does appear to the Committee that while these services are desirable in times of ability to pay therefor, they might be suspended or materially reduced without serious loss to the State in period of necessity, and we recommend that these be discontinued, the functions of which this Committee deem unnecessary in this emergency.

Corporation Commission

23. Your Committee recommend that the present set-up of the Corporation Commission shall be abolished and that there shall be created a COMMISSIONER OF PUBLIC UTILITIES who shall administer the functions now performed by the Corporation Commission and such other functions as are assigned to him in the bill which your Committee has prepared and herewith submits for the establishment of this Commission. Your Committee is of the opinion that the great majority of the functions of the Corporation Commission can best be performed by one individual at the head thereof who shall be charged with full responsibility of protecting the interests of the citizens of the State from oppressive rates and compel efficient service. That whenever there should arise to be tried important questions or issues of fact as to the right to establish any rate or to make regulations which are resisted, then the Chief Justice of North Carolina shall assign two judges of the Superior Court to sit with the Public Utilities Commissioner and hear and determine all such questions as might be submitted for its consideration. This assures to the industries of the State and to the people of the State a proper and fair determination of their rights, and its cost of administration will be essentially less because the judges of the Superior Court are now paid by the State and could be spared for the period of such hearing without additional cost or expense to the State, and your Committee is of the opinion that it will result in great saving as well as a more efficient administration of this department of government, and we recommend that this bill shall be adopted.

24. Your Committee recommend that the office and duties of the Securities Commissioner shall also be performed by the Public Utilities Commissioner without extra compensation.

Department of Labor

25. Your Committee recommend that the Department of Labor shall include the Department of Standards and Inspection and that the head of that department shall be dispensed with. We are advised that the present Act places the same in the Department of Labor and we recommend that
the functions of the Director shall be performed by the Commissioner of Labor without extra compensation.

26. It is further recommended that the duties of the service officer of World War Veterans who has heretofore been stationed in Raleigh shall be performed by the Commissioner of Labor without additional compensation.

Department of Conservation and Development

27. Your Committee recommend that the appropriation to the Department of Conservation and Development shall be materially reduced and that the offices and functions now existing therein not immediately necessary for the preservation of the property belonging to the State and the enforcement of the laws shall be discontinued, and to this end the appropriation to this department during the next biennium shall not exceed the sum of Twenty-five Thousand ($25,000.00) Dollars per annum.

Department of Agriculture

28. Your Committee recommend that the Savings and Loan Division of the Department of Agriculture shall be abolished.

29. Your Committee recommend that the officer known as the Publicity Specialist of the Department of Agriculture shall be dispensed with.

30. Your Committee recommend that the operation of the test and experimental farms of the Department of Agriculture shall be immediately discontinued and abandoned, and the experiments now proceeding thereon, if any, and all special and scientific equipment, if any, in use thereon, shall be turned over and delivered to the Experiment Station department of State College at Raleigh, now a part of the consolidated University, and that the actual real estate and farm implements and teams shall be turned over to the control and management of the Department of Highways and Prisons to be used in production of supplies and provisions, and that no further appropriation shall be made therefor. All other livestock on these farms not necessary for the proper operation shall be transferred to the other State institutions carrying on agricultural operations, to be distributed under the direction of the Budget Bureau.

Judicial Department

31. Your Committee recommend that Section 3883 of the Consolidated Statutes shall be amended, reducing the salaries and compensation of the Chief Justice and of each of the Justices of the Supreme Court One Thousand ($1,000.00) Dollars per annum.

32. Your Committee recommend that Section 3884 of the Consolidated Statutes shall be amended, reducing the salaries of each of the judges of the Superior Court and of the Emergency Judges One Thousand ($1,000.00) Dollars per annum.

Solicitors

33. Your Committee recommend that the salaries of the Solicitors of the Superior Court shall be reduced by One Thousand ($1,000.00) Dollars, fixing their salary at Thirty-five Hundred ($3,500.00) Dollars per annum, and
where any Solicitor prosecutes a docket in his district for more than twenty (20) weeks, he shall be allowed additional compensation of One Hundred and Fifty ($150.00) Dollars per week for his services.

34. Your Committee recommends that Section 3890-A of the Consolidated Statutes, allowing the Solicitors additional compensation for expenses, shall be repealed.

Highway Department

35. Your Committee recommend that the Highway Department and the Department of State’s Prison shall be consolidated into a department to be known as the Department of Highways and Prisons.

The Highway Department now has under its jurisdiction and control about forty-seven hundred prisoners which it is working upon the highways of the State. The Committee are of the opinion that it can well handle and control the twenty-eight hundred prisoners now in the State Prison and that in doing so and working the same upon the highways of the State and other public activities, there will result a great economy in this combined department.

That your Committee are informed that by the combining of these departments of government, a large saving to the people of the State can be accomplished. For the purpose of accomplishing this recommendation, your Committee have caused to be prepared a bill combining the departments as above recommended which they recommend shall be passed.

36. Your Committee recommend that all new construction work on the highways shall be discontinued after the completion of the work now under contract excepting such as may be paid for entirely by the Federal Government.

Educational Institutions

37. That your Committee recommend that the consolidation of the Greater University shall be proceeded with without delay and that appropriations for duplicating functions shall be discontinued at an early date to the end that the purpose of the Legislature in the consolidation of these institutions shall be accomplished. We cannot pass this department without calling the attention of the General Assembly to the per capita cost to the State of these institutions which is set out and tabulated on page 109 of the report of the Budget Bureau, and we recommend that this per capita cost to the State should be materially reduced and steps should be taken to bring about this result.

Charitable and Correctional Institutions

38. There should be some method adopted that will reimburse the State for the cost and expense of patients in these institutions who are able to pay therefor and that the head of each institution should be held responsible for the failure to collect charges under the Pay Patients Act of 1925.

Miscellaneous

39. The cost to the State for printing numerous non-essential reports and bulletins of the various departments is far in excess of their value,
and your Committee recommend that there should be a substantial reduction in the printing of these reports and that the control of such printing shall be left to the bureau of the Advisory Budget Commission. This will result in a large saving to the State in costs, and the necessary information can still be secured.

40. Your Committee find that in each department there is an annual travel cost of considerable proportions which is now based upon a mileage estimate and allowance of six cents per traveled mile by an employee of the department. Your Committee recommend that this mileage cost shall be reduced to an amount not exceeding five cents per traveled mile.

41. Your Committee recommend that the operation of the State Fair be suspended and that no appropriation shall be made during this biennium by the State for the conduct of the State Fair, and no deficit or expense of any character for its conduct shall rest upon the State.

The foregoing is your Committee's report made after a careful study and investigation of the several departments affected. There are a number of other economies which may be effected but which your Committee cannot embody in this report. Your Committee entered into this work with open minds and with the sole purpose of effecting all possible economies without impairing any efficiency in the function of the departments of our State Government. In arriving at our conclusion, we have disregarded all personalities.

The report is the unanimous conclusion of the Committee and it is hoped that the Members of the General Assembly will receive the report and adopt its recommendations. Our information and best advice is that if the recommendations hereinbefore set out are adopted and enacted into law that a saving of $2,000,000.00, or more, will result to the taxpayers of North Carolina.

Respectfully submitted,

L. I. Moore, Chairman,
Ernest Graham, Secretary,
R. M. Hanes,
R. G. Cherry,
R. Bruce Etheridge,
T. C. Bowie,
S. C. Brawley,

MESSAGE FROM THE GOVERNOR

The following message is received from His Excellency, Governor John C. B. Ehringhaus: March 8, 1933.

To the President of the Senate and Speaker of the House of Representatives, and Members of the General Assembly:

GENTLEMEN:

I feel it my duty to advise that I shall desire to address a joint session of the General Assembly in the near future, though I am at present unable to suggest a definite date. The present banking crisis has become a national one, with which the Congress of the United States must deal in the immediate future, and it seems inadvisable to present my views on matters of finance and appropriations for schools and other governmental activities until there is some further clarification of this situation, which it is anticipated will take place during the week.

Under the circumstances, I venture to recommend that you postpone, for a brief time, consideration of the revenue and finance bills. Your pending calendars no doubt will furnish ample opportunity for the satisfactory and worthwhile employment of the intervening time.

Respectfully yours,

J. C. B. Ehringhaus,
Governor.

STATEMENT BY MEMBER

Representative Marshall A. Thompson of Robeson, in answering the roll call on the adoption of the Bowie-Cherry substitute to the Appropriation Bill, said:

Mr. Speaker:

I promised my people in the campaign that I would do all in my power to cut expenses before voting to levy new taxes. I also stated that I would stand for fair treatment for the schools. I considered that the $10,000,000.00 which the Bowie bill provided for the six months schools cut the schools out of proportion to other State employees, and I signed the Bowie substitute only after Mr. Bowie agreed to accept the Cherry amendments which, among other amendments, raised the amount for the six months schools to $12,600,000. I vote “aye.”

I wish to say further, Mr. Speaker, that in voting “aye,” I reserve the right to vote for an eight months State supported school. When the MacLean-Bailey bill comes across the hall, I reserve the right to vote to assure every county in the State an eight months school. Thus I would give my constituents back home a big reduction in their ad valorem taxes for special schools in addition to saving the State several millions of dollars as a result of the Bowie-Cherry economy bill.

MARSHALL A. THOMPSON.

To the Senate and House of Representatives:

The undersigned, your Committee on Conference, touching the differences between the two Houses of the General Assembly in respect to H. B. 914, known as the Machinery Act, beg leave to report that we have carefully considered these differences and recommend:
First: That the House concur in the amendment of the Senate in respect to the proposed tax on the stock of foreign corporations, which amendment is as follows:

"Nor shall any individual stockholder of any foreign corporation be required to list or pay taxes on any share of its capital stock in this State, providing the owner of such shares of stock has complied with the provisions of section 311\(\frac{1}{2}\) of the Revenue Act, and the situs of such shares of stock in foreign corporations, owned by residents of this State, for the purposes of this act, is hereby declared to be at the place where said corporation undertakes and carries on its principal business."

"Amend by adding at the end of subsection 5-a under section 304, the following: Provided, further, that the governing boards of cities and towns shall require a sworn statement to the effect that such bills have not and will not be presented to any Board of County Commissioners as a debt against that county, or as a credit on taxes due that county."

Third: That the House concur in Senate Amendment to section 805, subsection 8, in the last paragraph thereof, as follows:

"By inserting two per cent in lieu of the four per cent as now written; by inserting one per cent in lieu of three per cent as now written; by striking out the entire line next to last line thereof, and by inserting one-half of one per cent in lieu of the one per cent as now written."

Fourth: That the Senate recede from its amendment to Article IV, section 400, subsection 1, as follows:

Upon the service of such notice the Clerk to the Board shall transmit to the Clerk of the Superior Court of the county wherein the property assessed is located all notices, orders and other records, together with all the findings of the Board with respect to the assessment, and the Clerk shall enter such appeal upon the civil issue docket of the county when a trial de novo shall be had, the hearing of which shall take priority over all other civil actions. STATEMENT OF MEMBERS

The following statement is made by Messrs. Everett and White, which statement is ordered spread on the Journal:

To the House of Representatives:

As Minority members of the House Conference Committee, relative to the Machinery Act, we respectfully report:

We could not sign the majority report. The only material difference between the House and Senate was that relating to the exemption of foreign stocks from taxation. The House voted sixty-five to thirty-eight taxing foreign stocks, the Senate voted thirty-eight to six striking out that provision of the bill. We understand the Senate will not recede from its position and a contest between the two Houses will be fruitless. We do not desire to delay an adjournment by a useless contest, and therefore do not file a minority report.

We do respectfully ask, however, that the House permit us to file the following statement, as a justification of the House's position, as well as our own. We think the exemption of foreign stocks is unwise for the following, among other reasons:
First: The income tax of 1931 on foreign stocks amounted to $687,000, and that amount capitalized at six per cent would mean that the principal value of the stock was $222,000,000. And ad valorem tax of two dollars per hundred, which is about the average tax in counties, towns and cities on that sum, would yield $4,440,000. That is an important item at this time when a sales tax is suggested which will bear heaviest upon those least able to pay it, when the exemption of foreign stocks is a concession to those who least need it. It is unwise from a business point of view.

Second: The domestic corporations of the State are required to pay an ad valorem tax, not only upon their real and personal property located in the State, but upon their corporate excess, or stock value, which is $269,000,000, and a tax of two dollars per hundred on that amount is $5,380,000. The only thing necessary for a domestic corporation to do to escape paying a tax on its corporate excess is to domesticate in Delaware. This they did not do prior to 1923, for the reason that the stock, as a foreign corporation, would have been taxed. Since 1923, most of the successive corporations have domesticated in states other than North Carolina.

The taxing of foreign stocks may cause some individuals to leave the State, but it will bring back home many successful corporations.

Third: It is unwise as it encourages investments in outside securities and to that extent retards the development of our own resources. It is now practically impossible for the small business man, without special advantages, to borrow money with which to carry on the small enterprises so necessary to a well balanced economic life.

Respectfully submitted,

R. JENNINGS WHITE.
R. O. EVERETT.

MESSAGE FROM THE GOVERNOR

The following message is received from His Excellency, Governor J. C. B. Ehringhaus:

HONORABLE R. L. HARRIS,
Speaker of the House of Representatives,
Raleigh.

DEAR MR. SPEAKER:

By direction of Joint Resolution No. 30, General Assembly of 1927, I have the honor to transmit herewith the report of the George Washington Bicentennial Commission.

Respectfully submitted,

J. C. B. EHRINGHAUS,
Governor.
GEORGE WASHINGTON BICENTENNIAL COMMISSION REPORT

To His Excellency, Governor J. C. B. Ehringhaus, Honorable A. H. Graham, Lieutenant Governor, Honorable R. L. Harris, Speaker, and Members of the General Assembly of North Carolina:

As required by joint resolution of the General Assembly of North Carolina, Session of 1927, the George Washington Bicentennial Commission of North Carolina begs leave to report.

By act of Congress passed at the Session of 1922, a National Commission was created for properly celebrating and studying the life of General George Washington and observing the 200th anniversary of his birth.

At the instance of Governor Angust W. McLean, on the 7th day of March, 1927, Francis D. Winston, Representative in the General Assembly from Bertie County, introduced the following joint resolution which passed both houses of the General Assembly.

RESOLUTION NO. 30

Whereas, the Congress of the United States by joint resolution approved, the twenty-second of December, one thousand nine hundred and twenty-four, authorized the establishment of a national commission to conduct the celebration of the two hundredth anniversary of the birth of George Washington; and,

Whereas, it is the desire of the National Commission that the several states authorize the appointment of commissions to cooperate with said National Commission in formulating plans for and conducting such celebration; and,

Whereas, the significance of this event transcends in importance any other historic event of a similar kind, that has before been commemorated by our Nation; and,

Whereas, several years are needed in which to secure endorsement of the plan by the respective states, and providing commissioners therefor; and to complete fitting and adequate plans for the commemoration of such outstanding historical event; and,

Whereas, heretofore the commemoration of epochal events has always been marred by the incompleteness of preparations for such celebrations necessitating delays and lessening the significance of the ceremonial; and,

Whereas, if any suitable commemoration of the bicentennial of the birth of George Washington, that is commensurate with its importance and significance to the American people, and the world, be held, then the time between the present day and the date of the proposed celebration is by
Resolved by the House of Representatives of the State of North Carolina, the Senate concurring:

Section 1. That a State Commission be and the same is hereby created, to consist of eleven persons, of whom, one ex-officio member shall be the Governor of the State of North Carolina, and of whom ten shall be appointed by the Governor of this State, to act for the State and to be associated with the National, State and Civic Commissions in connection with the celebration, in the year one thousand nine hundred and thirty-two, at such place as the National Commission may name, and by the Nation as a whole, or the bicentennial of the birth of George Washington, General of our armies who achieved our Independence, President of the Convention which gave us Constitutional Government; first President of our Republic; our foremost citizen who died and has since lived "first in peace, first in war and first in the hearts of his countrymen."

Sec. 2. That the commission hereunder created shall continue for a period of one year after the expiration of the celebration of said event; and shall file their report with the Governor of the State who shall transmit the same to the next succeeding General Assembly after such celebration.

Sec. 3. That such commission shall have its first meeting in the City of Raleigh upon the call of the Governor; and upon organization shall represent the State of North Carolina in respect to the formulation and completion of plan or plans of celebration in association with the other commissions and committees named in this act; and shall, as such, participate in carrying out the program so arranged and that the officers of this commission shall consist of a chairman, vice chairman and a secretary to be selected from their number.

Sec. 4. That the Governor of the State be, and he is hereby authorized and requested to transmit suitable copies of the joint resolution to the President; to the Senate and to the House of Representatives in Congress; to the Governors of the respective states and to the Sulgrave Institution to the end that they be apprized that the State of North Carolina heartily endorses the proposed celebration and promises to promote it and participate therein.

Sec. 5. The vacancies occurring in the commission herein created, shall be filled by appointment by the Governor of this State.

Sec. 6. That this resolution shall take effect from February twenty-second, one thousand nine hundred and twenty-seven.

Ratified this the 7th day of March, A.D. 1927.

Under it Governor A. W. McLean appointed the following commission: Frances D. Winston, Windsor, Chairman; J. L. Horne, Jr., Rocky Mount, Secretary; Clyde R. Hoey, Shelby; Col. Wade H. Harris, Charlotte; John D. Bellamy, Wilmington; J. F. Hurley, Salisbury; Mrs. Sidney Cooper, Henderson; Mrs. B. Frank Mebane, Spray; Mrs. David H. Blair, Washington; Mrs. E. D. Broadhurst, Greensboro.

The commission met October 20, 1931, at 11 o'clock in the Governor's office and there were present Francis D. Winston, J. L. Horne, Jr., John D. Bellamy, Mrs. Sidney Cooper and Mrs. B. Frank Mebane.
Organization was perfected by the election of J. L. Horne, Jr., editor of the Evening Telegram of Rocky Mount, as secretary.

The North Carolina Commission at once took steps to organize North Carolina for a complete compliance with the national act and request.

There was appointed in each county a committee consisting of the present members of the House of Representatives, the Superintendent of Public Instruction and the mayor of the county seat, with two other persons to be known as a local Bicentennial Commission. Such persons were ordered to meet at the county seat prior to Monday, October 26, 1931, and to make plans for their county observances.

Governor O. Max Gardner was called upon and issued a proclamation addressed to the people of our State calling on them to give aid and encouragement to a proper celebration and observance of this event in our national life.

The press of the State was called upon by resolution to urge active organization of the work by the county schools and citizens to the end that North Carolina might accord a creditable celebration.

The University of North Carolina and all other institutions of learning, state, religious, public and private, were requested to set apart one day for the observance of the Bicentennial.

The Honorable A. T. Allen, State Superintendent of Public Instruction, was called upon to take such steps as would cause a proper celebration of said event in every public school in North Carolina. The fulfillment of these appointments was put in the hands of sub-committees under active direction of a member or members of the parent committee.

There was held a meeting in the Governor's office in Raleigh on Saturday, February 6, 1930, at 11 o'clock, at which time all details and plans were approved and reports were received from various sub-committees. This meeting was attended by His Excellency, Governor O. Max Gardner, Chairman Ex Officio; the Chairman, former Lieutenant-Governor Francis D. Winston; Mrs. Sidney Cooper, J. L. Horne, Jr., Secretary; John D. Bellamy. Present by Proxy, Mrs. B. Frank Mebane, Mrs. David H. Blair, Clyde R. Hoey. Absent, Col. Wade H. Harris, J. F. Hurley, Mrs. E. D. Broadhurst.

Every department of our State government rendered active and complete assistance. The schools of North Carolina, of both races, under the active direction of Superintendent A. T. Allen, have without exception put on programs and contests. Every university and college either accorded a day's celebration, or gathering of the student body for chapel exercises and talks by faculty members at least one time during the period of the celebration which begun on February 22, 1932, and was officially concluded on Thanksgiving day.

Every fraternal organization in the State has responded splendidly to the request of the Commission and given excellent programs.

There is not a church in the State in which proper note and reference was not made to our duty of studying the life and character of our first President.

The expense of printing prohibits our giving in detail an account of the thousands of meetings held, and the programs.

Your commission has requested Hon. A. T. Allen to receive and preserve these records as a part of the history of his department.
We wish especially to give expression of our hearty thanks to the Press of the State for elaborate assistance in giving publicity to this commission and its work.

We are pleased to report that no expenses have been incurred by your commission.

We herewith respectfully tender our report.

Frances D. Winston, Chairman,
J. L. Horne, Jr., Secretary,

COMMUNICATION FROM THE CHIEF JUSTICE AND ASSOCIATE JUSTICES OF THE SUPREME COURT OF NORTH CAROLINA

The following communication is received from the Chief Justice and Associate Justices of the Supreme Court of North Carolina in compliance with Resolution heretofore passed by the General Assembly:

To the General Assembly of North Carolina,

Gentlemen:

In compliance with your request contained in Joint Resolution No. 31, copies of which have been transmitted to each of us by the President of
the Senate, and the Speaker of the House of Representatives, as directed by the Resolution, we, the Chief Justice and Associate Justices of the Supreme Court of North Carolina, have inspected, and carefully considered the provisions of Senate Bill No. 320, introduced by Senator A. D. MacLean, and of House Bill No. 879, introduced by Representative Murphy.

You request us further to advise you whether in the opinion of said Chief Justice and Associate Justices, the said bills, either or both of them, set up the Constitutional procedure by which a Convention of the people of this State may be called for the purpose of passing on the proposed amendment of the Constitution of the United States, referred to in said Resolution. We herewith comply with this request.

It is the opinion of the Chief Justice and Associate Justices of the Supreme Court of North Carolina, as individuals, that a Convention called, organized and held under the provisions of Senate Bill No. 320, introduced by Senator MacLean, and now pending in the Senate, if said bill shall be enacted by the General Assembly of North Carolina, would be valid under the provisions of section 1, Article XIII, of the Constitution of North Carolina, and that the action of such Convention upon the proposed Amendment to the Constitution of the United States would be valid and effective for all purposes.

There is a difference of opinion, among the Chief Justice and Associate Justices of the Supreme Court of North Carolina, as to the validity of a Convention in this State as provided for, organized and held under the provisions of House Bill No. 879, introduced by Representative Murphy, and now pending in the House of Representatives, if said bill shall be enacted by the General Assembly, the majority being of opinion that such Convention would not be valid for any purpose, the minority being of a contrary opinion.

It is deemed proper to say that it is the opinion of the Chief Justice and Associate Justices of the Supreme Court of North Carolina that the question presented by Joint Resolution No. 31, in its final analysis, is a Federal question, and can be answered only by the Supreme Court of the United States, when properly presented to that Court. Whether or not a proposed Amendment to the Constitution of the United States has been submitted by Congress and ratified in accordance with the provisions of Article V of said Constitution, must necessarily be determined finally by the Supreme Court of the United States.

Notwithstanding this principle, we have deemed it our duty as Chief Justice and Associate Justices of the Supreme Court of this State to comply with the requests of the General Assembly contained in Joint Resolution No. 31.

Respectfully,

W. P. STACY, Chief Justice.
W. J. ADAMS, Associate Justice.
HERIOT CLARKSON, Associate Justice.
GEO. W. CONNOR, Associate Justice.
W. J. BROGBEN, Associate Justice.

Sec. 4. The State Highway Commission is established on a self-supporting basis through the levy of motor vehicle licenses and taxes, but being a part of the State Government, to be fully self-supporting, it should contribute reasonably to the cost of general government; there is preempted to it certain sources of revenue to which general government is
denied, but the funded debt obligations of the State Highway Commission are also obligations of the State itself.

Under this assumption, it is deemed that one million dollars a year would be a reasonable contribution by the Highway Fund to the debt service cost of general government, and there is hereby appropriated out of the surplus, if any, of the Highway Fund for transfer to and use by the General Fund for debt service, or for any existing deficit, the sum of one million dollars for the fiscal year ending June thirtieth, nineteen hundred thirty-four, and the sum of one million dollars for the fiscal year ending June thirtieth, nineteen hundred thirty-five:

Provided, these sums shall not be available unless and until full provision is made for the expense of collecting Highway revenues, for the administration of the Highway Commission, for the service of the Highway Debt, and for maintenance of the State and County Highways (as set out under titles XII and XIII of Section Three of this act), and there then remains a sufficient balance or surplus in the State Highway Fund.

It is recommended that Section Five as passed by the House be stricken out and the following substituted in lieu thereof, to wit:

Sec. 5. The costs of all salaries and wages to be paid out of or under the appropriations made in sections one, two and three of this act, or to be paid out of any expendable receipts, to officers, employees and agents of the State, or of any of its departments, bureaus, institutions and agencies, are hereby reduced to not more than such sums as are provided under the appropriations to the several departments, bureaus, institutions and agencies for each of the fiscal years nineteen hundred and thirty-three to thirty-four and nineteen hundred thirty-four to thirty-five:

(a) It is the intention to reduce the costs of all such salaries and wages under the appropriations, and/or expendable receipts, under titles II Supreme Court Departmental Expense, III Executive and Administrative and VI State Aid and Obligations, of section one; under title XI Agriculture, of section two; and under title XII Highways, of section three, by at least thirty-eight per cent (38%) of the salaries, wages and rates that would have been in effect July first, nineteen hundred thirty, taking into consideration changes in organization, staff requirements and such other factors as might have changed the basis;

(b) It is the intention to reduce the costs of all such salaries and wages under the appropriations, and/or expendable receipts, under titles IV Educational Institutions and V Charitable and Correctional Institutions, of section one, by at least thirty-two per cent (32%) of the salaries, wages and rates that would have been in effect July first, nineteen hundred thirty, taking into consideration changes in organization, staff requirements and such other factors as might have changed the basis;

STATEMENT BY MEMBER

Pursuant to Section 17 of Article 2 of the Constitution, I herewith wish to enter my protest and dissent against the action of the House in the passage of House Bill 120, it being An act to raise revenue at this Session, 1933, for the reason that there are certain features in this bill relative to raising revenue which I am and have been opposed to, both in principle and policy.

I have always opposed the principle of levying any kind of sales tax as a revenue producing item, and I came to this Legislature against the levying of any sales tax whatsoever except as a last resort in balancing the budget of the State of North Carolina. I have always been in favor of State support for public education, as an obligation of the State to give equal opportunity to every class of child in the matter of education. It is my firm belief that education and democracy are dependent one upon the other. After the Finance Committee, having considered all sources of taxes, recommended to the Legislature that the only means by which we could raise sufficient revenue to educate our children, to give suitable maintenance to our unfortunates, to administer the affairs of the State, and above all to safeguard the credit of the State of North Carolina, and that the adoption of a general sales tax was the only alternative by which this Legislature could seek additional revenue other than an ad valorem tax on property, I subrogated my personal opinion and voted for the adoption and passage of the Revenue Bill, which contains the General Sales Tax provision, but for no other reasons than those set out above.

The Revenue bill as finally passed, which was adopted by a majority of the House, carries certain other features which I have unalterably opposed as being unfair and unjust. These features I opposed in the House, sitting as a Committee of the Whole, the same having been adopted by said Committee and incorporated in the Revenue Bill above set forth, and in order that said Revenue Bill must pass its several readings to raise revenue to carry on the different activities of the State, as is mandatory on the Legislature; and although these features to which I am opposed were incorporated therein, I cast my vote in the affirmative to the passage of this bill with the knowledge
that there were incorporated therein many items to which I was personally opposed.

J. S. Massenburg,  
Representative from Polk County.

STATEMENT FROM THE COMMISSIONER OF BANKS

The following statement is received from the Commissioner of Banks in compliance with House Resolution heretofore adopted:

To the Honorable House of Representatives of the State of North Carolina:

Greetings: In reply to your resolution adopted April 21, 1933, I beg leave to make the following statement:
1. Attorneys and auditors are not employed in the liquidation of banks on a retainer or future contract basis; fees are paid to attorneys when their work is completed and the amounts of such fees are substantially below fees paid by others for similar services. Auditors are employed on their regular per diem schedule and they are paid only for the time they are actually engaged in their work. A number of attorneys and accountants have, since March 4th, 1933, rendered almost continuous service to the Banking Department without any charge.

2. To properly present in detail the information requested in your resolution as to the services rendered, as well as the remuneration therefor, would require the examination and the setting forth of the records of the liquidation of all the banks in my hands for such purpose during the years 1931, 1932 and 1933. Such information cannot be properly assembled by April 26, 1933.

3. May I respectfully call your attention to section 223 (f) of Consolidated Statutes of 1919 as amended, chapter 243, Public Laws of 1931, section 7486 (z), Consolidated Statutes of 1919, as amended, and section 6, chapter 429, Public Laws of 1931. From these sections it appears that the expense of the supervision of banks, including the salary of the Commissioner of Banks, is to be paid from the fees collected for the examination of and services rendered to banks, and that these fees can be used for no other purpose.

4. May I also call your attention to section 218 (c), Consolidated Statutes of 1919 as amended, sub-section 16, and section 1215 of Consolidated Statutes of 1919 as amended. These sections authorize the payment of the expenses of the liquidation of closed banks from the assets of such banks when such expenses have been approved by the resident or presiding judge in the pending action.

5. The work of preparing the information requested in your resolution could in no sense be regarded by the court as an expense of the liquidation of any particular closed bank, or of all the closed banks in North Carolina, and, therefore, the court could not approve the expenditure of the assets of such closed bank or banks for the purpose of preparing the information requested. Further, the preparation of this information could have no connection with the supervision of banks operating in North Carolina. Therefore, I have no authority under the sections cited in Paragraph 3 above to expend the fees collected for services rendered to operating banks for the purpose of preparing the information described in your resolution.

5. The report of expenses incurred in the liquidation of each particular bank is filed in the office of the Clerk of Superior Court in the pending action in the county in which the bank had its principal office. This report shows the judge's approval and is available for publication by newspapers and for inspection by the public at all times during the office hours of the clerk.

7. Your resolution itself carries no appropriation for the purpose of gathering and preparing the information described, and the statutes herefore enacted by the General Assembly do not permit me to expend any funds for this purpose. If legislation is enacted making an appropriation for this expense, I shall be glad to have prepared and furnished to you the
information requested, as I feel the Legislature, as well as the public, is entitled to any and all such information.

Respectfully submitted,

April 22, 1933.

Gurney P. Hood, Commissioner of Banks.

ADVISORY OPINIONS OF CHIEF JUSTICE AND ASSOCIATE JUSTICES OF THE SUPREME COURT OF NORTH CAROLINA

In compliance with Joint Resolution 1270, title "Requesting the advisory opinion of Chief Justice and Associate Justices of the Supreme Court upon
H. B. 879, providing for the calling of a Convention of the people of North Carolina for the purpose of considering the proposed amendment to the Constitution of the United States, repealing the Eighteenth Amendment," the following is submitted:

The opinion requested by Joint Resolution No. 44 of the Senate and House of Representatives relates to the constitutionality of substitute for H. B. 879, which provides for the submission of the proposition, convention or no convention, to the qualified voters of the whole State at the next general election to be held on Tuesday after the first Monday in November, 1933, said election to be called exclusively for the purpose of passing upon the question of convention or no convention, and to elect delegates thereto in case a majority of the votes cast be in favor of said convention. The sole purpose of the convention, if and when assembled, is to ratify or reject a proposed amendment to the Constitution of the United States as submitted by the Seventy-second Congress.

It seems to me that this substitute bill meets all the requirements of constitutionality. When the General Assembly has duly adopted an act, every presumption is indulged in favor of its validity. Adkins v. Children's Hospital, 261, U. S., 524.

A convention called pursuant to Section 1, Article 13 of the State Constitution, as this bill proposes, would undoubtedly be authorized to act upon the proposed amendment to the Constitution of the United States as submitted by the Seventy-second Congress, for such is its declared purpose. Koehler v. Hill, 60 Iowa, 542. Indeed, its only purpose. And while the Constitution apparently contains no specific authority for limiting the powers of a convention called under this section, nevertheless the people themselves in voting upon the proposition, convention or no convention, may perforce, in terms of its submission, limit the authority of the convention, for, in this way, upon such condition of limitation alone will the call of the convention be approved by a majority of the qualified voters of the State. Green v. Shumway, 39 N. Y., 418. Of course, it would be subject to any restrictions contained in the Constitution of the United States. S. v. Keith, 63 N. C., 140; Chisholm v. Georgia, 1 U. S., 440.

In considering, ratifying or rejecting, the proposed amendment to the Constitution of the United States as submitted by the Seventy-second Congress, the said convention would, quod hoc, be acting as a Federal agency with its authority as such agency grounded in the Constitution and laws of the United States. Leser v. Garnett, 258, U. S., 130; Rhode Island v. Palmer, 253 U. S., 350; Hawke v. Smith, 253 U. S., 221. This is so, because its action in this respect would affect all the people of the United States and not simply those of a single State. It would then be engaged in ratifying or rejecting a proposed amendment to the Constitution of the United States. Ex parte Dillon, 262 Fed., 563.

But going farther, I am of the opinion, that in calling a convention for this Federal function alone, Section 1, Article 13 of the State Constitution may be put aside as inapplicable and, therefore, not controlling on the General Assembly. This Section has reference to conventions called primarily to consider amendments to the State Constitution or changes in the State's governmental structure. The history of the Section, as I understand it, readily lends itself to this interpretation.
It is true, the language of said section, "No convention of the people of this State shall ever be called by the General Assembly, unless by the concurrence of two-thirds of all the members of each house of the General Assembly, and except the proposition, convention or no convention, be first submitted to the qualified voters of the whole State, at the next general election in a manner to be prescribed by law," literally construed, is broad enough to cover a convention called for the purpose of considering a proposed amendment to the Constitution of the United States. So, too, is the language of Section 2, Article 13 ("No part of the Constitution of this State shall be altered, unless a bill to alter the same shall have been agreed to by three-fifths of each house of the General Assembly; and the amendment or amendments so agreed to shall be submitted at the next general election to the qualified voters of the whole State, in such manner as may be prescribed by law") broad enough to prohibit a convention called under Section 1 from altering or amending the Constitution of the State, even though such convention be called for this specific purpose. Yet no one, I take it, would contend for such an interpretation. Language is but a vehicle of thought and may vary in color and content according to the circumstances of its use. Cole v. Fibre Co., 200 N. C., 484.

The title or heading of Article 13 is "Amendments," which, of course, has reference to the manner in which the State Constitution may be amended. But the proposed convention, if and when assembled, is to have no authority to consider amendments to the State Constitution. Then, why the necessity of calling it as if such were its purpose? The meaning of a constitution is to be found, not in a slavish adherence to the latter, which sometimes killeth, but in the discovery of its spirit, which giveth life.

It is also true that the customary manner of calling constitutional conventions in the United States is by resolution of the legislature followed by a submission of the question to the electorate. Miller v. Johnson, 92 Ky., 589; S. v. DoHil, 6 N. D., 81. But as the Constitution of the United States is silent on the subject, it would seem that the resolution calling a convention in the State solely for the purpose of ratifying or rejecting a proposed amendment to the Constitution of the United States need not be submitted to the electorate for approval. "It is the accepted position in this State that our Constitution in vesting the General Assembly with legislative authority, conferred and intended to confer upon that body all the 'legislative powers of the English Parliament or other government of a free people,' except where restrained by express constitutional provision or necessary implication therefrom"—Hoke, J., in S. v. Burnett, 179 N. C., 735. See, also, Yarbrough v. Park Commission, 196 N. C., 284. However, as the present bill proposes to submit the proposition, convention or no convention, to the qualified voters of the whole State at a general election to be held for the purpose, the question of a direct call by the General Assembly is no longer presented. The suggestion has even been made that, for this Federal function alone, Congress itself might prescribe the manner and method of calling the conventions in the several States as a necessary incident to its right to select the mode of ratification. But in submitting the proposed twenty-first amendment Congress has left the question of the call of the conventions to the States.
We have, then, two widely separated schools of thought on the subject. One which holds that the provisions of the State Constitution are controlling on the General Assembly in calling a convention for any purpose. The other which takes the view that for the Federal function alone the Congress may provide for the call. Fortunately, the problem presently presented may be solved without going with the extremes of either school.

The suggestion that a convention be called comes from the Congress of the United States acting under authority of Article V of the Federal Constitution. This is its right. The purpose of the convention is to consider and to act upon a proposed amendment to the Constitution of the United States. The authority to ratify or to reject the proposal has its sources in the Federal law. "The act of ratification by the State derives its authority from the Federal Constitution to which the State and its people have alike assented," says Mr. Justice Day in Hawke v. Smith, supra. All efforts heretofore made by some of the States, to circumscribe or to limit the exercise of this authority, by provisions inserted in their own constitutions, have been held for naught. Leser v. Garnett, supra.

It is my opinion that the General Assembly of North Carolina in calling a convention for the sole purpose of considering a proposed amendment to the Constitution of the United States, may exercise its own judgment and provide for the submission of the question under the provisions of section 1, article 13 of the State Constitution, or it may call such convention in the exercise of its plenary powers without regard to the provisions of said section. It follows, therefore, from this view of the matter, that it can make no difference, so far as the constitutionality of the present bill is concerned, whether the election be designated a general or a special one.

I have no doubt as to the constitutionality of the bill submitted.

Respectfully,

W. P. Stacy,
Chief Justice.

Responding to the resolution requesting the opinion of the several Justices of the Supreme Court, you are advised that I hold the view that Article XIII, section 1, of the Constitution of North Carolina, is a piece of political machinery, designed and fashioned for the sole purpose of amending or changing the structure of the organic law of this State, and hence is not set in motion in amending the Federal Constitution.

Nevertheless, assuming that Article XIII, section 1, is applicable, does the proposed House bill No. 879 contravene either the letter or spirit thereof? Article XIII, section 1, is built upon three pillars, to wit: (1) proper resolution of both houses of the General Assembly; (2) submission of the question to the qualified voters of the State, and (3) at the next general election.

House bill No. 879 contemplates a proper resolution and a popular vote. Therefore, the only question that could possibly arise would relate to the calling of a general election in November, 1933. The Constitution does not define a general election either in terms or by implication. Hence this field has been left exclusively to legislative judgment and discretion. The term "general election" implies and imports upon its face an election throughout the entire State, called and conducted in accordance with legislative
flat. Time is not of the essence of the power. Consequently, the lawmakers can select any day on the calendar so far as constitutional inhibition or regulation is concerned. The same idea was expressed by the Oregon Court in Norton v. Coos County, 233 Pac., 864, in these words: "The principle is that if an election occurs throughout the State uniformly by direct operation of law, it is a general election."

These considerations lead my mind to the definite conclusion that House bill No. 879, when duly enacted, will be valid and free from maintainable constitutional objection.

Respectfully,

W. J. Brogden,
Associate Justice.

Responding to the request embodied in Joint Resolution No. 44 of the Senate and House of Representatives relative to the constitutionality of substitute for House bill No. 879, I express the opinion that the substitute bill meets the requirements of the Constitution of North Carolina and when duly enacted by the General Assembly will be valid and effective in law.

Respectfully,

W. J. Adams,
Associate Justice.

Complying with the request of the General Assembly contained in its Joint Resolution No. 44, a copy of which has been delivered to me as an Associate Justice of the Supreme Court of North Carolina, I have given careful consideration to the provisions of the substitute for House bill No. 879, entitled "An act to provide for the calling of a convention of the people of North Carolina for the purpose of considering the proposed amendment to the Constitution of the United States repealing the Eighteenth Amendment."

I am of the opinion that a Convention of the people of this State called, constituted and organized in accordance with the provisions of the substitute for House bill No. 879, now pending in the House of Representatives, if the said bill shall be duly enacted by the General Assembly, will be valid for the purpose of considering, ratifying or rejecting the proposed amendment on behalf of the people of this State.

I do not discuss interesting questions of constitutional law suggested by a consideration of the bill, about which there is much conflict of opinion, for the reason that these questions are not now presented.

In my opinion, the substitute for House bill No. 879 is in strict compliance with the provisions of section 1, of Article XIII of the Constitution of North Carolina, and for that reason a convention of the people of this State held under its provisions will be valid for the purpose expressed in the bill.

Respectfully,

Geo. W. Connor,
Associate Justice.
Responding to another resolution (Joint Resolution No. 44) requesting the opinion of the several Justices of the Supreme Court on the constitutionality of House bill No. 879, in my opinion it is practically the same as answered before, except calling a special election "for the sole and exclusive purpose," a general election. The Constitution of North Carolina, Article XIII, section 1, requiring "convention or no convention be first submitted to the qualified voters of the whole State at the next general election in a manner to be prescribed by law," clearly means the manner of conducting the election to be prescribed by the General Assembly, the law-making body, but same must be held at the next general election which is well understood to be the general election in November, 1934.

In the former opinion, which was signed by all the Justices, it was held in this matter: "in its final analysis is a Federal question and can be answered only by the Supreme Court of the United States when properly presented to that Court." I quote the former opinion:

"It is the opinion of the Chief Justice and Associate Justices of the Supreme Court of North Carolina, as individuals, that a Convention called, organized and held under the provisions of Senate bill No. 320, introduced by Senator MacLean, and now pending in the Senate, if said bill shall be enacted by the General Assembly of North Carolina would be valid under the provisions of section 1, Article XIII of the Constitution of North Carolina, and that the action of such Convention upon the proposed amendment to the Constitution of the United States would be valid and effective for all purposes.

There is a difference of opinion, however, among the Chief Justice and the Associate Justices of the Supreme Court of North Carolina, as to the validity of a Convention in this State as provided for, organized and held under the provisions of House bill No. 879, introduced by Representative Murphy, and now pending in the House of Representatives, if said bill shall be enacted by the General Assembly, the majority being of opinion that such Convention would not be valid for any purpose, the minority being of a contrary opinion.

It is deemed proper to say that it is the opinion of the Chief Justice and Associate Justices of the Supreme Court of North Carolina that the question presented by Joint Resolution No. 31, in its final analysis is a Federal question, and can be answered only by the Supreme Court of the United States, when properly presented to that Court. Whether or not a proposed amendment to the Constitution of the United States has been submitted by Congress and ratified in accordance with the provisions of Article V of the said Constitution, must necessarily be determined finally by the Supreme Court of the United States.

Notwithstanding this principle, we have deemed it our duty as Chief Justice and Associate Justices of the Supreme Court of this State to comply with the requests of the General Assembly contained in Joint Resolution No. 31."

Respectfully,

HERIOT CLARKSON,
Associate Justice.

Substitute for H. B. 120, with Conference Report, a bill to be entitled An act to raise revenue.

The question now recurs upon the passage of the Substitute Bill, with the Conference Report heretofore adopted on its third reading.

Mr. Bowie sends forward the following amendment:

Amend House Bill 120, Article 5, Schedule E, section 401, beginning with line 17 by striking out the recommendation contained in the Conference Committee Report for insertion at said point, and reinserting the language contained in the bill as it passed both the House and Senate; namely, "The consumer's tax upon the retail sale of merchandise to persons in this State is intended as a tax upon consumers, to be added to the sales price of merchandise, and not as an additional tax to be absorbed by retail merchants," and amend further by adding after the word "merchants" the mandatory amendment for passing on the tax as adopted by the Senate as follows: "In order to make this purpose effective, the Commissioner of Revenue is empowered and directed to devise, promulgate and enforce regulations under which the retail merchants shall collect from the consumers, by rule uniform as to classes of business, the sales tax levied upon their business by this article: Provided, that the Commissioner of Revenue shall have the power to change the regulations and methods under which the merchants shall collect the tax from the consumers, from time to time, as experience may prove expedient and advisable, except that he may not at any time rescind the requirement that the tax be collected from the consumers by uniform rule as herein specified. The power herein invested in the Commissioner of Revenue shall include the right to provide a stamp tax plan for the consummation of the purpose of this provision. Methods for collecting the tax on sales made by the retail merchants may include plans which require both more and less than three (3%) per cent of the sale price, the purpose being to enable the merchants to collect approximately the amount of three (3%) per cent on their total sales volume. Such regulations as herein authorized shall be promulgated by the Commissioner of Revenue to become effective after reasonable notice to the retail merchants and when so promulgated they shall have the full force and effect of law. Any merchant who violates such rules and regulations shall be guilty of a misdemeanor and upon conviction shall be fined not less than five dollars ($5) nor more than five hundred dollars ($500) or be imprisoned for not less than one day nor more than six months, or be both fined and imprisoned in the discretion of the court; provided, however, that every such violation shall be a separate offense hereunder."

The Chair rules the amendment out of order.

Mr. Doughton calls the previous question. The call is sustained, and the Substitute for H. B. 102, with the Conference Report, passes its third reading by the following vote and is ordered sent to the Senate.

Those voting in the affirmative are: Mr. Speaker, Messrs. Aycock of Wake, Barden, Bender, Boswell, Braddy, Cameron, Cherry, Coffey, Cox, Crews, Dees, Doughten of Alleghany, Eagles, Etheridge, Everett, Garron, Greer, Groves, Hamilton, Howell, Hoyle, Hutchins, James, Massenburg, Mizzell, Morpew, Moss, Moye, Murphy, McHachern, Neal, Oaks, O'Berry, Phillips, Pope,

The following pairs are announced:

Mr. Culpepper with Mr. Martin—were Mr. Martin present he would vote "aye," Mr. Culpepper would vote "no."
Mr. Graham with Mr. Grady—were Mr. Grady present he would vote "aye," Mr. Graham would vote "no."
Mr. Moore with Mr. Lee—were Mr. Lee present he would vote "no," Mr. Moore would vote "aye."

STATEMENTS BY MEMBERS

Pursuant to section 17 of Article II of the Constitution, I, the undersigned Representative, do solemnly dissent from and protest to certain features incorporated in the Revenue Bill for the Session 1933, that is to say: (1) That section relating to exempting certain articles under the sales tax, for the reason that these exemptions will be prejudicial and unjust to the independent merchants of the State, giving the various chain stores every advantage in competition, because practically all sales made by said chain stores will be covered by the exemptions under said tax section; (2) For the reason that the mandatory clause which required the merchants to pass on the sales tax was stricken out; (3) Because it will practically destroy those merchants who make sales for five and ten cents only.

I have always been against the principle of any type of sales taxes, but, because it is necessary to raise revenue with which to maintain the various departments of the State and to keep intact the credit of the State, I finally came to the conclusion to vote for this Revenue Bill as adopted by the Conference Committee.

J. S. Massenburg,
Representative from Polk County.

Mr. Thompson of Robeson, in voting for the Revenue Bill on its third reading, made the following statement, and asked that it be spread in the Journal:

Mr. Speaker, I am at last convinced that the measure now before us, as written, is the Revenue Bill of 1933. I vote for it, not that I am in favor of every item in the bill, but that I am in favor of most of the items, and I do not care to be placed in the position of voting against these numerous items which I heartily favor just because the bill as a whole contains objectionable sections.

As long as there was a chance to change it, I voted against it. I voted against adoption of the Conference Report, hoping the bill might be re-
turned to conference and that further concessions might be had from the Senate, which august Body struck out items I thought should remain, and changed items which should not have been changed. On second reading I also voted against the bill, still hoping there was a faint chance to send the bill back to conference.

If there remained a shadow of a chance that the bill could still be sent back for further concessions on the part of the Senate, I would still vote "no." But I am now convinced that the majority is for the bill as it stands and that it will not be changed. It is the Revenue Bill. I vote for it because it carries in the main items of revenue which I favored and supported and which I wish to vote for in order to balance the budget. The bill contains some items which I do not approve, but the record will show that I voted consistently and persistently against these items and voted consistently and persistently to substitute items which I preferred.

From the beginning of my campaign until this hour, I have been strongly in favor of balancing the Budget, and I cannot now refuse the opportunity of voting for the Revenue Bill.

Marshall A. Thompson.

STATEMENTS BY MEMBERS

Believing that the genus of Democracy demands an educated citizenship, and believing that the hope of the average citizen, the man who works with his hands and sweats in the factory and on the farm, that his children may occupy a better position in life than he occupies, and enjoy a higher standard of living than he enjoys, lies in the maintenance of a high standard of service in the public school system; and knowing that with the degradation of the public school system, the children of the wealthy and well to do will have the advantages of education through private schools and tutors, while the children of the average citizen must accept the circumscribed opportunities of a thinly spread out and, perhaps, degraded public school system; and believing that the people of all communities should and ought to have the unfettered right to vote on school and taxation matters; and further believing that the concentration of power in the hands of the newly created
State School Commission is dangerous and unwise, and utterly destructive of local autonomy, we hereby dissent from Senate Bill No. 156 (Griffin and MacLean School Machinery Act) and protest against the same.

Thos. Turner, Jr.
J. S. Massenburg.
S. E. Douglass.
W. A. Sullivan.

Believing that some provisions of the bill are contrary to the great fundamentals of Democracy, I feel it incumbent upon me as a representative of the people to register my protest; at the same time believing in the great principle of majority rule, and with a sincere desire to cooperate with my fellow members, and with the earnest hope that the bill in its entirety, when enacted into law, may give good results, I vote "aye."

A. B. Cameron.

APPENDIX

INAUGURAL ADDRESS

OF

GOVERNOR J. C. B. EHRINGHAUS

TO THE

GENERAL ASSEMBLY OF NORTH CAROLINA

January 5, 1933

(See Page 20 of Journal)

Reverently and in full consciousness of the moment’s responsibilities I take up the duties of this great office. To me it has always symbolized the ultimate in political achievement, but I find that the realization of a life’s ambition brings only an overwhelming sense of responsibility and inadequacy, for confronting us at this hour are problems of such magnitude as the State has not faced since Reconstruction days; problems which challenge, in each of us who are charged with their solution, the ultimate of our capacities of head and heart and hand, and give us timorous pause lest in spite of conscientious effort we go finally amiss.

North Carolina at the Cross-roads

For whether we are willing to admit it or not, the State which we love has reached the cross-roads of its financial destiny, and upon our present choice of highways depends its economic salvation and stability. In the years when prosperity blessed us and the pursuit of exalted ideals in governmental activities as well as a various and ever increasing demand for governmental services beckoned us constantly to an increased and ever increasing spending we launched upon a program and practice which, however great its social and economic dividends, lays upon us, in these difficult days, a burden and yoke that galls and grinds and terrifies us. There is neither disposition nor desire to quarrel at the past—to fix responsibility and apportion the blame for the burdens of the present. The condemnation, if such there be, must be shared by all, and the speculation as to culprits is foolish and futile. There is, too, much of consolation in the recollection that the investments which consummated this spending may be reckoned yet as economic and social assets. North Carolina can stand before her sister States unashamed of the part she has played in the delirious drama of development marking the past decade. As late as June 1928 our financial condition was not serious or the cause of reasonable apprehension, our revenue was steady and in excess of estimates; our farms and factories productive and profitable. We were meeting with ease and promptness our bond maturities, both in State and local subdivisions, and all seemed rosy as a summer’s dream but the ways of a great national adversity have now overtaken us and the time has come for reckoning, self-appraisal, inventory of our condition, and the setting of our house in financial order. Estimates prepared by State officials covering our situation as of July 1, 1933, on the basis of present expenditures and levies, indicate a predicted total operating
deficit of $12,500,000. The figures here presented are compiled on a cash as distinguished from an accrual basis. Recall the fact that we are committed to the elimination of the State-wide fifteen cent levy for the six-months school term (which involves a relinquishment of approximately $4,000,000, each year of revenue) and the problem of the balanced budget assumes real proportions—particularly in view of our platform pledge of “Every reasonable effort for the avoidance of additional taxes.” Consider, too, that we have come to this position where we are burdened with a presently accumulated deficit of approximately $9,460,000, in large part through efforts to keep up, as far as possible, the present level of spending for certain purposes, our reluctance to make further cuts, our desire to maintain these services on a cash basis, and that this borrowing (short-time) has itself added to our annual burden an additional load in interest charges of many hundred thousands. Recall that, but for the exercise by Governor Gardner of his powers as Director of the Budget, and the cutting of appropriations thereunder, we would today (on the basis of the last Legislative appropriation) have an additional deficit $8,850,000, or a grand total of $17,350,000.

When we recall the courageous action of Governor Gardner and his uncanny divination of financial “breakers ahead,” when the President himself was heralding a new and enlarged era of prosperity; when we recall by this action Legislative appropriations were reduced the first year $1,450,000, then $2,100,000, then $2,600,000, and this year about $2,700,000; when we remember that but for this action the presently accumulated deficit would be greater by many millions and our State no doubt on a scrip basis and in financial chaos; when we recall his achievement in reducing general governmental expenses from $8,658,000 to $6,164,000, a decrease of twenty-nine per cent; when we remember the setting up by the Legislature of agencies which have resulted in damming the tide of municipal debt increase and promoting a substantial reduction thereof (amounting in principal and interest last year to over $20,000,000), the relief offered to property owners aggregating $25,000,000 in the last two years, the reduction of the total tax bill in the State from $102,000,000 in 1929-1930 to $89,000,000 in 1931-1932, and to probably $86,000,000 in 1932-1933, and the maintenance of governmental service in reasonable efficiency through these days of stress and strain, we may well be proud of our State and its leadership—executive and legislative—through the past quadrennium.

Not for purposes of invidious comparison, but solely to get the proper setting for our picture, let us look for a moment at the present situation in the Nation and in our neighbor States. The National Governmental expenses have increased in the last quadrennium to an alarming extent and its general fund deficit is accumulating at a daily rate that staggers the imagination. In our neighboring States financial difficulties are quite the order of the day, and in some of them already a condition of practical insolvency exists—the governments are almost incapable of functioning—payrolls met with scrip or simply passed by, institutions dying for want of cash, and the people hopeless in the face of ever-increasing difficulties.

In relief of local subdivisions of school and highway burdens North Carolina takes first rank. The plenitude of her provisions for these causes cannot be matched by a single Southern commonwealth. Indeed, it will
bear comparison with any State of similar resources, and with most of her richer sisters.

But the sad truth confronts us, that our revenues in practically every source, are shrinking in serious if not alarming proportions. For proof of this I need only refer to this week's official bulletin of our Revenue Department. Our commitments for debt-service in sinking fund for Highway bonds for next year total roughly nine and one-half million dollars. Our estimated revenue for Highways on basis of present levies and undiminished yield is eighteen million dollars. But at least one competent authority suggests that since this source has only recently begun to reflect the depression, we may look for even greater recessions, and puts his estimate as low as fourteen million dollars, which prediction, if it should eventuate, would leave an uncomfortably narrow margin for maintenance and none for construction.

And last of all, ladies and gentlemen of the Assembly, the simple truth is that unquestionably and undeniably we have reached the end of our capacity to borrow. It profits us nothing to quarrel with those who hold the purse-strings and drive hard bargains in interest charges because of our predicament. The temples of the great money-changers are far distant, and even the sovereignty of the State cannot reach them. To them in financial plight it must go a suppliant. The dollars we seek to borrow are theirs; they may lend or refuse as they choose, and we have found through sad experience that, in the case of State as well as individuals, a budget out of balance is an impossible basis of borrowing.

Ladies and gentlemen of the Assembly, the most important and imperative duty that rests upon you greets you at the threshold of your labors—The Budget Must be Balanced Immediately: and when I say balanced, I mean balanced on the basis of substantial certainty—beyond cavil, doubt, or disputation. Unless this is accomplished quickly chaos, confusion, contumely, defaults, scrip payment, and destruction of our institutions are immediately ahead. It is an ugly picture. I paint it with reluctance, but in such an hour the plain, unvarnished truth is best. North Carolina knows "how to take it on the chin and take it standing up."

The Way Out

Remember now that on the basis of present appropriation commitments (not amounts requested, which are greatly in excess of this) and present tax levies, we start this good year, 1933, with a deficit of $9,430,000 accumulated in our general fund with additional obligations to special funds approximating $3,000,000; that in addition to this we have a net funded debt of $147,740,877; that by the end of this fiscal year, that is, June 30, 1933, our deficit would probably reach $12,500,000; that we must on this basis find additional revenue to absorb this deficit and also to absorb the accumulating deficit we face as well as the interest charges on it and the $3,850,000 loss of state revenue by relinquishment of the yield from the fifteen cent property tax levy; must absorb as well any additional shrinkage in revenue below present levels if further shrinkage occurs, as seems most likely, and you begin to get at the problem before you. What is the answer?
When income and outgo are out of balance, States as well as individuals, are compelled to do one of three things: (a) cut expenses, (b) increase revenue, or (c) work out a combination of both. To undertake the imposition at this time of additional tax levy sufficient to carry on our necessary governmental functions and to absorb as well in the next biennium our accumulated deficit would be, in the present burdened condition of our people and their activities, a cruelty as well as a practical impossibility. Some method of short-term or serial financing of this deficit must be found on a basis of interest charges that are not unduly burdensome. I speak within the bounds of accurate information when I say that even this is improbable except on the basis of drastically reduced spending levels and a manifestly balanced budget. Our only hope of accomplishing such financing is predicated upon this.

Appropriations mean nothing unless they may be interpreted in terms of cash certainly available and may be relied upon as a sound basis of commitment, and we are warned by our situation that further borrowing on the present basis is impossible—that lavish commitments involve not merely the certainty of cuts for want of revenue, but the probability of payment in scrip. The way out is plain, but pleasureless; it involves eating, for a season at least, of the (herbs and dry bread) of a hard self-denial. It challenges our ingenuity for working out plans which will enable us to carry on in efficiency and the preservation of ideals, but on a greatly reduced spending basis. Nay, more than that, it challenges our patriotism. I for one have faith in North Carolina and in the men and women who are the flesh and blood and spirit of the Commonwealth. To say that it cannot be done is to confess failure in advance and invite disaster. Nor would I accept responsibility for what, in my judgment, is certain to happen if this Assembly should do the unthinkable thing of failing to balance this budget, and of making commitments beyond reasonable expectations and leaving upon the Executive the burden of financing them or cutting them through budgetary control.

Having in mind this situation and the commitments of both parties in the last election, I submit these recommendations for your consideration and approval.

(1) Revaluation of Property

Honesty and fair dealing as well as platform pledges demand that steps be taken at once to resume our time-tried policy of quadrennial assessments. We must have at once a revaluation of property by the usual methods or their equivalent. I mean by this that provisions should be made upon the basis of the most economical methods and the greatest possible simplification at considerable less expense than heretofore. I am quite sure that such methods can be worked out by you. I can see that this means—in the absence of effectuation of large economies in local government—an increased local tax rate to produce the amount required for maintenance of the subdivisions. This fact in itself should prove a powerful force to bring and hold down local spending to reasonable limits—"a consummation devoutly to be wished." Revaluation also involves the danger of the too near approach to constitutional debt limitations by State and subdivisions.
In spite of all this, I am convinced that such a step is necessary that we may know exactly where we stand, and that property—particularly real property—may have restored to it an honest value as the basis of its tax contribution.

Whether this valuation should stand for the full four years or—in order to restore the old order exactly—for the next biennium only, (during which time we indulge the hope for better days) is the question for your wisdom and considered judgment. I am committed to the idea of an immediate revaluation and recommend it. The rest is left to you.

(2) Relief of present property levy

I urge upon you also the immediate relief of property from the fifteen cent State-wide levy for support of the six-months school term. This is recommended not only as a contribution to the cause of more equitable distribution of the tax load, but also upon the sound theory that the State embarked some time ago upon the policy of segregation: that it has recognized, in the passage of the MacLean Law, a constitutional interpretation which imposes the burden of support of the standard term upon the State, and thus has accepted the suggestion that such is an obligation of the State. It must follow, therefore, that this obligation shall be discharged out of revenue segregated or set aside to the State, rather than out of revenues from land or property, which are segregated to local purposes.

To those who would find in present difficulties or necessities an excuse for ignoring these equities as well as the platform pledges of both parties, I would say that such a course, involving both personal and party perfidy, is impossible. And to the suggestion that the relief of his properties means but little to the individual, though much in aggregate to the State, I would reply that whether much or little, it is an equity due the landowners; it has been promised them, and woe betide the man or group that now denies him.

(3) Substantial Economy

A substantial, even drastic, curtailment in our spending is imperative. Proud as we are of our social progress, we must remember that not even social progress can, for any great time, go ahead faster than material progress. There are many things we would like to do and do quickly, but it is an economic truth that all such undertakings "must have a direct relation to the ability of the State to pay for what it wants." I do not mean by this that we should embark upon a policy of parsimoniousness. Our party pledges, our personal preference, and our ideals and traditions of governmental activity all commit us to the maintenance of our schools, our institutions of higher learning, and our charitable and correctional institutions upon higher levels of efficiency and public service. Though these, together with our Highway System (which up to this point is self-supporting, and which I shall speak about separately) absorb a high percentage of our total revenues, they must be financed in economical efficiency.

As I said on another occasion, "there is a sort of saving which wastes—which crucifies the ideals upon the altar of penuriousness—which in dreadful fear of poverty and privation sees only the costs in dollars of things purchased and senses not values which cannot be reckoned in monetary
terms, though adding greatly to the public wealth and welfare. In protecting ourselves against thriftless spending we should be careful not to indulge an impulse towards miserliness or sacrifice those things which are necessary for the preservation of our ideals and government." But, the burdens which rest upon our people, which bend the backs of farmers and laborers, which have consumed the scant earnings of our professional men, which have devoured the incomes of our rich and powerful, and which have dried up the life-blood of the State's support, are such that the levels of our spending must be reduced as the first step on the road to recovery and preservation of our credit and State solvency. Economy with us is not a mere political preachment; it is the way of life. I may mistakenly interpret the sentiment of our people about many things, but on this point I am quite certain. The cost of government—all governments—must come down, and that substantially. Make no mistake about that. The demand of the people on this point is imperative and will not brook denial or equivocation.

Every individual, every wage-earner, every tiller of the soil, every professional man, every merchant, every clerical helper, every charity, every industry, every church, every institution, has seen its income go down, down, down. Some have shrunk "twenty, some fifty, and some an hundred fold." And with the shrinking process has come the necessity to trim "sails"—to cut down expenses. Individuals, corporations are doing it. Government must do the same.

To the suggestion that recession in expenditures means defeat of ideals I venture to reply, that there is no more certain way to insure their defeat than to pursue a path which leads certainly to scrip payments, financial chaos, and repudiation. The heritage of a restricted but honorable opportunity is far more priceless than one which, though enlarged, comes of profligate provision and is pointed towards dishonorable disaster.

For the efficient and economical maintenance of our essential services (and I include in these our schools, charities, and institutions of higher learning) we must bear the burden which such costs imposes. But before we add fresh levies, which do but add to the burdens of the great, struggling mass of our people upon whom they ultimately and inevitably fall, it is imperative that we follow a vigorous and unrelenting pruning process. The cruelty of any other course would damn the efforts of all who benefitted by it.

(4) Reduction in Operating Cost

The first field for saving is the one nearest at hand, the general governmental set-up, salaries and perquisites. I neither possess nor desire any power or control over the Constitutional officers of the State. Save for budgetary control, they are supreme in their respective departments. And may I not at this point interject the observation that I have every confidence in my associates who have been set over these departments by the same sort of popular mandate as put the responsibility upon me. I look to them, and I feel confident that I shall receive from each and all of them the utmost of cooperation in the work which is ahead. If there are to be interdepartmental wars, they shall not be of my making. In the particular field of economy as in other activities the State expects and no doubt will receive from each of them a full measure of contribution. In the field controlled by
Executive and Legislative appointments, I submit the following recommendations:

(a) That the law of 1929, providing an entertainment fund for the Chief Executive be repealed. I have already suggested this to the Budget Commission. It merely evidences my desire to absorb my own share in the burden bearing.

(b) I suggest that the position of Executive Counsel be abolished and the Governor given authority to appoint a Pardon Commissioner at a salary to be fixed by the Legislature, and with such stenographic assistance as may be necessary.

(c) The Bureau of Personnel has done valiant service in standardizing our salaries. The work of classification, however, has now been practically completed and the service may, therefore, be very well handled through consolidation of services and by a clerk in the Executive Department.

(d) The Local Government Commission can very well be transferred to the Treasurer Department and operated thereunder at a saving of considerable cost, and what is quite as important, be thereby continued under the supervision of the capable officer who has developed its present efficiency and fine spirit of coöperative service.

(e) This General Assembly should give serious thought to the possibility of consolidating our Highway and Prison Departments. Certainly there should be a consolidation of all motor vehicle collections under one department. Present practices work for competition in collection, with loss of revenue to the State.

(f) The whole field of governmental set-up should be carefully canvassed by this General Assembly to the end that duplications of effort may be avoided and eliminations and consolidations effected wherever practicable. I believe that the Legislature would make substantial contribution to the cause of economy if it should classify governmental activities into essential and non-essential classes, allowing the Executive the power, under budgetary control, to discontinue in emergencies those classified as non-essentials, or cut down their appropriations before going into the field of essentials. I am convinced that a considerable saving can be worked out through reorganization along these lines. What is equally important is that under such an arrangement a preference could be given to essential services under budgetary control.

(5) No New Commitments

It goes without saying that the State is already laboring under a burden which only the most heroic efforts can meet. It would be unwise under such circumstances for the State to assume any new commitments involving additional financial burden. I urge that the General Assembly refrain from the taking over of any additional obligations. However, meritorious such projects may seem, their acceptance by the State at this time is beyond its reasonable capacities.

(6) Highways

The State Highway System in North Carolina is a matter of great pride to its citizenship. It has involved a vast expenditure of money, approximating two hundred millions. Today the State also is maintaining all former county highways. Provisions for the discharge of our Highway
obligations and the maintenance of our highways is made by the imposition of gasoline and motor vehicle taxes. There is a moral, if not a legal, obligation resting upon the State to reserve these funds for highway use, certainly to the extent of discharging all maturing obligations and the provision of sinking fund reserves, and also to the extent of adequate maintenance of the system which has been provided by this great expenditure. In my judgment it would not only be unwise, but a breach of faith with those who have purchased our bonds, to turn these revenues now into the general fund. It is not difficult to picture consequences of far-reaching importance if such a course should be followed.

I am quite in sympathy with the suggestion that for the next biennium all new construction should be abandoned. But the idea that here is a limitless source of revenue waiting to be tapped for other purposes is manifestly erroneous. Before we begin to distribute the surplus of highway resources it would be best to assure ourselves as to whether there is to be any surplus. And for reasons already pointed out, it is extremely doubtful whether there will be a considerable surplus over the necessary requirements for debt service and adequate maintenance. A failure to maintain properly the system which has cost so much money might bring about a serious deterioration, or even the destruction of this great asset to our State, and this, of course, would mean loss of the entire revenue or a substantial part of the revenue now derived from it. There is a human element involved in this, also, which is quite frequently overlooked. I am told that the school busses of North Carolina cover daily, with their load of precious freight, a hundred thousand miles. Surely, here is additional reason for adequate maintenance.

(7) Education

The public schools of North Carolina are a matter of first concern. I regard our Constitutional obligations along this line not only as mandatory, but as imposing upon us a primary and essential service. All possible economies should be effected before anything is done that would cripple our schools. Non-essential services should suffer or vanish before necessary economy hurts here. I am convinced, however, from personal observation and study, that even in this field there is a great chance for saving. There are many things in the curricula of our schools which can presently be eliminated without serious impairment of the educational opportunity. There are consolidations still possible that would involve great reduction in expense. And the endless process of splitting up and specializing supervisions does not always work for the weal of an enterprise. Reductions in salaries, if necessary, should be graduated, so as to fall least heavily upon the rank and file and most heavily upon the overhead and supervision.

Please understand me. I am not speaking dogmatically here. Expert opinion should be consulted and considered. I have this much of settled opinion on this subject, however: First, a real effort, in full recognition of our necessities and the precarious condition of our finances, will be productive of fruitful suggestions, and I believe that we can count upon the patriotism of the teaching profession to come forward with these once they recognize the realities of our difficult position; second, the suggestion frequently made that we rank fortieth or forty-first in schools is either
founded upon false standards or there is something radically wrong with our spending. No State which makes direct contribution to the cause of education in excess of the value of its principal crops can be accused, of niggardly policy, or of a lack of sympathy for the cause. With respect to our schools as with respect to our institutions of higher learning, the fullest measure of provision, consistent with our ability to raise revenue without oppression, should be given; but I cannot subscribe to the doctrine that the measure of a man's respect for ideals depends upon his willingness or unwillingness to preserve at all cost any particular salary standard.

(8) Local Government

In giving thought to possible reductions of governmental costs we must not overlook the field of local government. Experience has shown that its cost has risen more rapidly than that of the State, and that even the taking over by the State of particular functions has not always resulted in local savings. I do not charge this entirely to local error; I think all too frequently the State has neglected a great opportunity to serve. It is my thought that we should begin at once a real effort toward a sympathetic and cooperative supervision of local governments. Accordingly, I propose that the Legislature should enact at once statutes designed to accomplish the following:

(a) Full opportunity for voluntary consolidations of counties through popular approval in every county affected.

(b) Similar opportunity for consolidation between counties and cities or towns.

(c) Provision for the consolidation of particular functions so that one officer may perform the same duty for both city and county at a saving to both.

(d) The right of municipal board or boards of county commissioners to consolidate or eliminate statutory offices, and thus effect savings in operations.

(e) A general statute eliminating any mandatory requirement of any particular office in county, city or town.

(f) A general statute providing that all municipal salaries fixed by the General Assembly should be interpreted as establishing a maximum only, so as to facilitate local reductions when desirable or necessary.

(g) A provision for a supervision of expenditures and tax levies by governmental subdivisions, through the local Government Commission, and along the lines of the present supervision of debt creation. The principle of publicity after departmental checking of increased tax levies could be utilized to hold down extravagant tendencies.

(h) A comprehensive plan of sympathetic assistance by the Commission in working out something of relief through extension of debt maturities. There is grave danger of an increase of municipal defaults, and these have unfortunate reflections in our State situation.

(i) A simplification and reduction of the cost of tax foreclosure. Present practices are nothing short of oppressive.

(j) Real consideration of possible plans of foreclosure postponement of back taxes should be given to the end that, if practicable, a reasonable scheme of sale postponement, without loss of liens may be formulated. I have no reference to this year's taxes. We are trying to start a new deal.
There is here no fault of invading the province of local self-government, but only to provide a supervisory restraint upon extravagant tendencies. A similar proposal has been made by Governor Roosevelt of New York. It must be remembered, too, that these subdivisions are the creatures of the Legislature, and that in providing supervision the Legislature is but safeguarding the power which it has itself granted.

*Discontinuance of Unrestrained Fee Expenditures*

As a relic of the past we have still, in certain departments the practice of expenditure of fees without budget control. I favor the discontinuance of this and the requirement that all fees collected be turned into the general fund and all expenditures of each department be upon a budget basis.

*Agricultural Improvement*

It is, perhaps, unnecessary for me to say here anything with reference to the need of agriculture for every possible consideration. There is little in the way of legislation which can be done to improve the situation. But I do wish this General Assembly and the people of North Carolina to know that I am genuinely interested in and firmly determined to do whatever possible to help this situation. The “Live-at-Home Campaign” of the past four years has meant much more than was anticipated and has helped measurably to soften the blow of our present economic crisis. It is my desire to lend every possible encouragement to a continuation of this activity. I am convinced, however, that the natural follow-up to this campaign is a campaign for more livestock, dairying and poultry in North Carolina. The need for developing activities along this line is manifest when we consider that according to the census of 1920 North Carolina, with unexcelled possibilities, was next to the lowest State in the Union in live-stock production.

And though we have made some progress in this respect we are still far down the list of States in rank. It has been pointed out that the Northern agricultural states have a great advantage in per capita income over the Southern agricultural states, and this advantage is largely because of superior development of the live-stock industry. I shall welcome the chance to assist in an effort to bring about a substantial improvement in this situation in the next years, and I urge upon the membership of this Assembly the utilization of every opportunity to assist in this movement.

*Commendation for General Assembly*

May I not commend this General Assembly for having, even in the brief period of its service, manifested a fixed determination to hold down expenses and expenditures. Under the splendid leadership of your presiding officers you will no doubt continue your efforts for real, constructive service to the State. Let me assure you that at no time will you be able to discover in me the slightest desire to usurp any legislative function or to encroach upon your prerogatives, but only an earnest wish to cooperate with you in the solution of our common problem. When all is said and done, the responsibility of matching tax provision with tax expenditure is yours, and I am quite confident that you will make expeditious progress towards the ac-
complishment of this balance. I am quite certain that nothing could happen in North Carolina which would give more heart to its struggling people and more strength to its credit than the expedition by this Body of its consideration of the revenue, machinery, and appropriation bills.

There are other matters about which I may wish later to give you my opinion, or I may reach the conclusion that some matters herein should be discussed more elaborately. I have endeavored in this to set forth general principles, and this message has also been prepared under the handicap of personal illness.

An Appeal for Harmony

One thing more, and I am through. In times like these it is inevitable that there should come to us wild and baseless rumors of cynical and unfriendly alliances. To believe is to discount essential patriotism and to court disaster. To all such I have invariably turned a deaf and disbelieving ear. May I say this much further with reference to such suggestions?

If there are minds bent upon the mischief of unthinking opposition and policies of negation for mere negation's sake I do not know them. If there are hearts which cherish in the face of the State's tremendous need and the challenge of this pregnant hour, the petty animosities of past political conflicts, I shall not permit myself to be embroiled or embarrassed by them. If there are lances raised and shafts aquiver to spend themselves in frustrating our efforts merely for the joy of frustration or the advancement of personal or political prestige, I refuse to see them. The good God is my witness that I come to this moment with no sense of personal triumph or exaltation, that I am actuated only by the desire to serve my State well in its hour of need; to bind up party wounds, if wounds there be; to build in the land we love an enduring harmony, to take the good and great in every suggestion from whatever quarter it emanates, to bend in gentleness the combined and ultimate patriotism of the entire citizenship to the service and salvation of the Commonwealth. Ladies and gentlemen of the Assembly, there is war—economic war—ahead; yea, it is even now upon us. There confronts us at this hour a peril as deadly, a conflict as momentous, as any which, in stirring days passed, has summoned Carolina's sons to arms. In such an hour he who prates of petty quarrels wastes precious time in nothingness; he who puts personal advantage ahead of the State's good serves the cause of the enemy and brands himself traitor to his sovereign mother. I welcome the chance to work with you in high and unselfish endeavor. With hearts aflame and minds alert, let us go forward. We do battle for a holy cause. We shall triumph over our adversities only as and because under God we deserve to triumph. There is inspiration in the knowledge that we do battle for North Carolina.
Mr. President, Mr. Speaker, and Members of the General Assembly:

Last week I suggested to you my desire to come before you, and in this connection asked that you postpone the consideration of your revenue and appropriation bills for a brief season. At the time the country was in the midst of the greatest banking crisis of this generation, and until this situation had clarified itself it seemed inadvisable to take up these matters. Happily, the national crisis seems now well in hand and we are apparently on the road to the restoration of normal banking activities. In this connection it is pleasant to recall that North Carolina was the last of the states to go on a holiday, which is the surest indication of the essential soundness of her banking structure. Through the emergency banking legislation which has been recently proposed and promptly enacted by you, we have been able, as well, to keep exactly abreast of the developing national situation and not only coördinate our efforts with those of the Federal Government, but avoid the confusion which has existed in some other commonwealths. With this behind us, and with the increasing spirit of optimism and confidence which pervades the country, we can turn our attention to our own immediate problems.

My coming before you now has in it no purpose to coerce, but only a sincere desire to help you in solving the difficult problems which still perplex us and which hold you in session beyond the usual time. It has been delayed not by want of willingness to express my views, but in order to give full opportunity for the development of yours, and only the manifestly increasing divergence of these and the importance of an early adjustment have brought me to the point where it seemed advisable that I again address you. For however inconvenient and distressing it may be, the duty to see this thing through and see it through now rests upon every one of us. It is the task to which we were called, the work which we voluntarily assumed, the trust that a popular mandate has imposed upon us. It can neither be delegated nor deserted. It is relentless in its demands for immediate and patriotic consideration.

In my inaugural message I attempted to direct your attention to the necessity for a balanced budget and stern economy. In aid of this I endeavored to point out certain possibilities in readjustments and consolidations. Your attention was also invited to the whole field of governmental activities, to the end that all possible might be done in the way of eliminating unnecessary expenditures and the avoidance of new taxes. Through
your committees and as individuals you have given much thought and effort to this enterprise, and, as a result, certain outstanding legislation along this line now is on our statute books.

The work of your Appropriations Committee, the original Budget Commission Appropriation Bills and the substitutes prepared by some of your prominent and diligent members, along with various programs for balancing the budget, are all now before you. You have as well various suggestions for supplementing the diminishing revenues of the State, with all of which your membership is thoroughly familiar and with regard to which, in most instances, opinions are well developed and members ready to vote. Perhaps it would not be amiss to endeavor for a moment to get our bearings, or rather to restate the problems we face.

Our debt-service requirements for each of the next two years, exclusive of any payment on our accumulated current deficit, will exceed four and a quarter million dollars. If we are to prepare to retire the deficit in ten years, as is usual in such cases, an additional million would be expected.

Our departmental and institutional expenditures have been greatly reduced from the peak of about nine millions, but on the basis of your Appropriations Committee's recommendation (after a reduction of over twenty-five per cent under last year's spending and nearly sixty per cent under peak spending) still require about five millions. Our annual and irreducible burden of highway bond maturities and interest thereon aggregates approximately nine millions, which, when deducted from a reasonably estimated highway revenue of fifteen to sixteen millions, leaves from six to seven millions, at the outside, to maintain our 55,000 miles of State highways and county roads and do the work that heretofore has required nine to ten million dollars. In view of the monthly decline in gasoline revenue since last July and the terrific falling off in the automobile license issues, there is no substantial hope of realizing the seventeen millions used as the basis of certain programs, and certainly none of having any substantial surplus which could be diverted to other usage, even if such were proper or desirable. And when we recall that there is in the highways an investment of some two hundred millions which inadequate maintenance would seriously and immediately jeopardize—that a few months neglect could really cause a loss of many millions—the futility as well as the folly of expecting help for other activities out of the highway fund is manifest. Frankly, any cutting of maintenance below the level of your Appropriations Committee's provision involves a serious threat to this great investment and activity of the State, and I again urge that this Assembly move slowly and cautiously along this line and refrain from taking a step which might work an irretrievable hurt and an inestimable loss.

The obligation to maintain our schools arises out of the Constitution, the fundamental law that governs us all. You will find it set forth not only in the declaration of rights, but in the opinion of our fathers, education was of sufficient importance to demand a special article (Article IX) in the Constitution. Here the duty to provide "by taxation and otherwise for a general and uniform system of public schools wherein tuition shall be free" is mandatorily placed upon the General Assembly, and the further provision that certain schools "shall be maintained at least six months in every year" is here written.
Our six-months term cost the State last year, in direct provision, approximately sixteen and a half millions. This does not include, of course, the aid to extended term given by the State, for which one and a half millions were appropriated and $875,000 actually expended. Prudent estimates indicate that our present revenue bills, exclusive of the 15-cent levy which we are pledged and in honor bound to relieve, would yield approximately sixteen millions. Any estimate beyond this is, in my judgment, too high, as not making sufficient allowance for shrinkage, particularly in income and franchise yields. The highway possibilities, as already noted, should be cautiously placed at fifteen millions. There is no reasonable possibility of recoupment from this fund, even if it were desirable or consonant with our past pledges. Your Finance Committee bills, exclusive of sales tax provisions, after careful checking, I am informed, cannot be prudently counted upon to yield in excess of seventeen millions. How, then, without a sales tax or some equivalent income producer, is the prudently estimated revenue total of thirty-one millions under present, and thirty-two millions under proposed revenue bills, to meet, exclusive of schools and road maintenance, revenue necessities of four and a quarter millions for debt service, five millions for departments and institutions, nine millions for highway debt-service, and one million for application to our accumulated deficit—a total of nineteen and a quarter millions?

Deducting this nineteen and a quarter from the two revenue proposals, leaves a balance available for schools and road maintenance under the present law of eleven and three-quarter millions, and under the committee bills of twelve and three-quarter millions, and nothing whatsoever left as a cushion or safety margin to absorb any shrinkage that the times may reasonably be anticipated to develop. This is highly essential in any plan of sound and assured budget balancing. It would seem that without the sales tax provisions, and upon the basis even of their scant provision, each and every plan of budget balancing so far proposed is headed towards another deficit.

A moment's consideration of these figures makes manifest, also, the impossibility of balancing our budget without additional revenue in substantial sum or doing one or more of the following things, namely: crucifying the credit of the State by failing to provide funds to meet its bond maturities; crucifying the schools by providing only a skeleton six-months term and assuring thereby the collapse of our educational structure; crucifying the highway system of the State; or crucifying the various State institutions and necessary departmental activities of the State.

Let us not deceive ourselves. There isn't anybody who seriously thinks the credit of the State can be maintained by ignoring, as some propose, our maturing obligations, general or highway, or that the Executive could, under such circumstances, float a bond issue covering our present deficit, much less accomplish refunding of those so neglected. We would pay the price and suffer the penalty of such default for generations. There isn't anybody who seriously thinks the 55,000 miles of State highway and county roads can be maintained on much less than the Appropriations Committee's provisions for this work. There isn't anybody who seriously thinks the schools can be maintained in any sort of efficiency, even for six months, on the starvation wage of ten million dollars, or that the abandonment of
extended term levies without State provisions does not mean a complete breaking down of our educational system, and the crucifixion of the child opportunity in North Carolina. There isn't anybody who seriously thinks that the State departments and institutions, which for weeks since your assembling have been subjected to severest examination and scrutiny, can adequately function on less than the committee bill provides.

My friends, we are facing a collapse of our highway, educational, institutional, and governmental activities. We cannot ignore the challenge to preserve them; we cannot forget the constitutional obligation that rests upon us to "carry on."

I believe in economy—drastic, rigid economy. I have preached it. I have practiced it. I shall continue to advocate it. I shall continue to stand against wastefulness and extravagance in any activity. But there is a point, even in economy, beyond which self-respecting government cannot go. For to do so means not merely an abdication of its functions, but social bankruptcy, collapse of morale, and repudiation of our constitutional, social and political obligations. Government must make reasonable provision for the activities contemplated by its Constitution, or it surrenders and invites the scorn and contumely of its citizens and the world at large.

We are not dealing here with the loss of homes and firesides through tax foreclosures. We are doing and will continue to do everything possible to prevent these; and this Legislature has made substantial strides in that direction. Indeed, the plan hereinafter proposed will afford the greatest relief ever given by government to property owners and the broadest protection against foreclosures through abandonment of heavy taxes against them. We are simply facing a terrific emergency and the manifest necessity for the levy of some new taxes if the schools and the State's credit are to be saved from utter wreckage. A six-months term with no chance for extension is a poor educational opportunity at best; inadequately financed, it is a delusion, a snare, an utterly unjustifiable waste and extravagance.

Again, a very few thousands, which in the general scheme of economy amount to little, may bridge the boundary between life and death—may prove the salt that will save the University, the Board of Charities and Public Welfare, and kindred activities.

In such dilemma our thoughts turn naturally to the sales tax field as the one most usually discussed. If you know a better way through which a sufficiency of revenue may be produced, and which will not destroy our homes or cripple our activities, in the language of the street, "Go to it!" Frankly, under our present constitutional limitations, I do not. The prerogative of choosing methods, however, is yours. I can only beg that you follow the one which in your judgment will rest less heavily on the lives, the habits, and the activities of our people. My concern is adequate though economical provision and an unmistakably balanced budget.

You will permit me in passing to observe that I am quite sincere in saying that I loathe either form of sales tax, but I love the honor and credit of my State, and the maintenance of its self-respect more even than I dislike such impositions. There are some things more odious, more undemocratic, more objectionable even, than this form of taxation. They at least have the
virtue of universal application and something of relation to ability to pay, if spending has reasonable relationship to income.

In campaign declarations on this question I have invariably coupled my opposition to such taxes with the statement that they were justifiable only as temporary and emergency measures, to save the credit of the State or keep going its essential activities. That moment has apparently arrived. If it is a choice between a sales tax on the one hand and a decent school on the other, I stand for the school. God helping me, I can do no otherwise.

Besides, we have secured credit extensions to the State under the assurance of budget balancing beyond cavil or dispute. Our good faith is pledged; budget balancing is imperative. The suggestion that in such insistence we are worshiping a fetish is unwarranted; we do but indulge the honorable impulse to make reasonable effort to pay our debts. Surely there is no disgrace in this. It is the other road which leads to shame and dishonor.

Having seen that some form of sales tax, or other new tax providing substantial yield, is inevitable if we are to discharge our obligations to the essential activities of the State (including an adequately financed six-months term) and save its credit, I am impressed that an opportunity is here presented which this General Assembly cannot afford to ignore, and I have come unhesitatingly to that conclusion.

I earnestly beg, therefore, that this Legislature establish a State-wide uniform State-controlled school system; that you abolish immediately all local levies for extended terms and all special tax and charter districts, save only for debt service; that you appropriate for the conduct of this school such sum as will make, on a basis of real economy in administration and conduct, reasonable provision for it; that you set up a board with wide and plenary powers that will administer this fund so as to carry on in North Carolina a school for a full eight-months term, or as near it as the funds available will permit; and that this fund, as all others, be subject to budgetary cuts if revenue realizations should not match expectations.

This board should be vested with ample powers to work out economies in curricula, teacher load, regulation of repeaters, and other similar administrative matters, in order that our people may be provided with the very best schools our presently limited resources will permit and our constitutional obligations may be discharged.

It is my sincere belief, and in this opinion I am supported by many who have carefully studied this question, that, with the savings and economies I have in mind, this can be done on an appropriation which is comparatively little—roughly, ten or eleven per cent—above the fourteen million fifty thousand dollars provision of the original budget bill for school aid and considerably below not only the provision of the last Legislature for State aid to schools, but also below the actual spending last year in aid of the six-months term under that bill, which totaled $16,375,000.

Such a step would immediately relieve property, not only of the 15-cent levy (which is our solemn pledged and inescapable duty), but also of an additional average of 20 cents for a total average of 35 cents, and would thus work a saving not only of millions to the State government, but also of more millions—approximately seven million—to the counties, cities, towns, and districts by the elimination of all special-tax levies for school support. It would be the greatest economy, the most constructive and far-reaching
step in behalf of our people and in relief of their homes and farms, afforded any people in modern times; would place North Carolina in the forefront of states, not only in accomplished economies and ad valorem relief, but in the field of education as well; would afford an infinite relief to the property owners throughout the State from the spectre of tax foreclosures so constantly haunting them, and would give also a breathing spell to our presently burdened business activities. Everyone would share in the benefit. Even the merchant, through relief of his stocks from ad valorem levy, would profit infinitely more than he could possibly lose in any necessity to absorb a part of the new tax levy. At least, too, even if budgetary cuts should later prove necessary, we could preserve the skeleton of an eight-months term and the child opportunity which our Constitution, or traditions, and our political promises contemplate.

To the suggestion that a new tax can be avoided by further slashing of appropriations, I would say that we could save more money by closing down all operations and activities; but what would become of our self-respect, and how could we square such action with the obligation to maintain, which our Constitution imposes? And the curtailment of provision below a certain point means, in almost every case, an inadequate functioning, which is waste. And if it be said that a sales tax, if such should be adopted, will bring a storm of protest, I would observe that so far the protest has come largely not from those who will pay, but from those who in the main will only collect. We can take steps to see that the fullest possible opportunity to pass on the tax is provided, and the relief which this class will receive under ad valorem abandonment will more than compensate for the part which it will be compelled to absorb.

I can see the possibility of a mistaken judgment, but I think I know the hearts of our people. Just now they are burdened and sorely oppressed primarily with property taxes. We are proposing to relieve these. I am one of those who think that if their homes are secured they will proudly pay their pennies rather than permit the destruction of that which is near and dear to their hearts, namely, their children's opportunity. Be assured also that the storm of such protest will be as nothing compared to the storm which the failure to provide will assuredly provoke, if not now, then very soon—a storm whose relentless waves will be beating upon our political fortunes for years to come.

There is another side to this proposal, which to me is particularly appealing. Here is a real chance to establish in our schools that equality of opportunity between the city and the country boy and girl of which we "long have dreamed and oft despaired of."

And lastly, we may as well face the facts. The present system of extended terms through ad valorem tax has completely broken down. It cannot continue through this year, much less the years to follow, and unless the system here proposed is adopted the educational structure of our State will collapse.

I have been told that the cause for which I speak is dead; that the fight is already lost in this General Assembly. I do not believe it. Those who so express themselves mistake the temper of its advocates and the views of the great rank and file of the people throughout the State. We who would preserve our essential institutions and activities are not alarmed. We have not
yet begun to fight. The people will rally to our support, and our cause will triumph.

We are facing a new day. The country, which for so long has staggered under a terrific depression, has now, under the exalted and inspiring leadership of our President, set its face towards the rising sun. The optimism which is becoming increasingly wide-spread has even suggested in some quarters the possibility of an extra session in the future to keep step with the advancing prosperity. In the tasks which confront you in this General Assembly there is challenge to our capacities, our courage, and our patriotism. We must, of course, practice a diligent enterprise towards economy, but let us not surrender to a philosophy of fear or adopt a demeanor of despair and defeatism. These problems are not of our creating. Perhaps we had nothing to do with the making of the debts which now weigh heavily upon us. But ours is the present responsibility to provide, and, please God, we shall measure up to it, and that without neglecting provision for necessary State functions. We cannot all have our way. Legislation necessarily contemplates the submergence and accommodation of conflicting views. I am ready to submerge my own, as this message shows. I am persuaded that in the plan here offered lies real opportunity for early adjustment of opinion differences and a chance to get back to our routine lives.

One thing more and I am through. If a sales tax is levied, it should be levied with the distinct understanding that it is an emergency measure, adopted for the period of the emergency, to save the State's credit and keep going its essential activities. I believe it should be ear-marked for schools, as our highway revenue is ear-marked for road purposes, and with this understanding I have no fears of its ready and cheerful acceptance by our people.

Briefly, my proposals are these:

1. Preserve the credit of the State by balancing the budget, even at the cost of a sales tax; and make sure provision to keep it in balance or prevent an imbalance by making all appropriations subject to budget cuts.

2. Preserve the school opportunity in economy by the provision of a lump sum, with a board to administer it, as hereinbefore pointed out.

3. Preserve the homes of our citizens from the foreclosures which present ad valorem taxes threaten, and reduce the tax load which now weighs heavily upon them, by abolishing special levies for support of extended term.

4. Preserve the highways and our great investment therein from the waste and losses which inadequate maintenance provision would certainly entail.

5. Preserve our institutions and departments from the destruction which too heavy curtailment threatens, to the end that they may continue to serve our citizenship and prepare the youth of our land for better service to the State.

On this rock we shall build our State, and the forces of ignorance, inequality, depression, and despair shall not prevail against it.
MESSAGE FROM THE GOVERNOR

To the Members of the General Assembly:

May I not, in these closing moments of your 1933 Session, express to you collectively, as I have tried to do to many of you individually, my sincere appreciation of the splendid work which you have done in the most difficult days of modern times? It has been particularly pleasing to me to note that through differences of opinion were freely expressed, there has been an almost universal regard for the rules of good sportsmanship and recognition of the essential patriotism which was behind them. This is altogether healthy, and though each of us may find in the final results things that are not exactly to our liking, the sum total of your accomplishment is, in my humble opinion, a splendid contribution to the welfare and progress of the Commonwealth.

In the first moments after adjournment there may be something of misunderstanding, but time will bring to the people an ever-increasing conviction of the essential righteousness of what has been done and approval of the course which you have pursued. For time will show, as nothing else, that you have wrought a substantial economy, a substantial reduction in tax burdens upon property, a preservation of the essentials in our civilization and the fundamentals of our economic and social progress. No government on the Continent can surpass your record of achievement in economy, and yet you have pioneered in making North Carolina the first State in the American Union to guarantee to every child within its borders an eight months school term at State expense.

And last, but by no means least, by provision for a real and unmistakably balanced Budget, you have preserved the credit of the State in the most difficult time within our memory and given proof once more to the world of North Carolina's high regard for its good faith pledged and determination that its honorable obligations shall be honorably met.

It has been a pleasure for me to coöperate so far as possible with you in the labors which have engaged our attention, and individually as well as collectively you will depart with my admiration, respect and very sincere good will. It is for those of us who remain here in office after you have gone to carry on according to the pattern which you have fashioned.

In ancient Rome at the beginning of a gladiatorial contest the gladiators stood before the Emperor and gave the pledge: “Hail, Caesar, we who are about to die salute you!” In the presence of this splendid General Assembly which is now approaching its dying moment, those of us who are left behind would reverse the ancient pledge and say instead: “General Assembly, we who live on in service of the State when you have gone, salute you!” You are entitled to and will receive a faithful effort to carry out the provisions for the conduct of the government which you have made and the plaudits and commendation of the people whom you have so well served.

(Signed) J. C. B. Ehrringhaus,
Governor.

House Resolution to Appoint a Committee to Investigate and Report a Plan for Constructive Coöperation Between State and Federal Agencies in the Distribution of Federal Aid to Unemployed.

Whereas, Federal aid now being extended to unemployed in the State of North Carolina is, in most instances, timely and necessary for the subsistence of many of our people, yet the manner of its giving might in some instances stimulate the recipients to productive effort instead of reducing them to mere subjects of charity;

And whereas, non-employment is constantly eating into our reserved supplies of food, with the ultimate and inevitable rise of prices to a point beyond the reach of the poor;

And whereas, there are vast uncultivated areas in North Carolina where with aid unemployed might produce not only sufficient food for themselves and their families, but also a surplus for the general need: Now, therefore,

Be it resolved by the House of Representatives, That a committee of three be, and they are hereby appointed to make investigations and recommendations to this Assembly, which recommendations if so made shall be in the form of a bill, to provide for an agency, and the basis upon which it shall
proceed, to bring about a coöperation between the State and the Federal Governments so that the contribution made by the Federal Government shall be used to stimulate productive activity on the part of the recipients wherever possible for the production of food on lands made available through agencies of the State.

That the Speaker of the House shall appoint three members of the Committee, and the President of the Senate two.

This Resolution shall be in force from and after its adoption.

Read and adopted this January 27, 1933.

Whereas, Mrs. Mary Burke Kerr of Sampson County, North Carolina, has recently set to music the North Carolina Toast "Here's to the Land of the Long Leaf Pine," etc., and has dedicated this musical composition to the school children of North Carolina; Now, therefore

Resolved by the House of Representatives:

Section 1. That official recognition is hereby given to the toast and to Mrs. Kerr's setting to music the words of this beautiful poem.

Sec. 2. Be it further resolved that Radio Station WPTF in Raleigh is hereby requested to broadcast this musical composition so that the people of North Carolina may become acquainted with the toast as set to music.

Sec. 3. That this resolution shall be in full force and effect from and after its adoption.

Read and adopted on this February 4, 1933.

**Resolved by the House of Representatives that Attention is Called to Honorable Josiah W. Bailey and Honorable Robert R. Reynolds, Senators in the Congress of the United States from North Carolina, Attesting to the Fitness of "Blind" Johnson, Who Aspires to be an Assistant Doorkeeper to the United States Senate:**

The House of Representatives of North Carolina do respectfully call to your attention the fitness and qualifications demonstrated by long and faithful service as Doorkeeper of the House of Representatives of North Carolina, and your good offices are requested to the extent of trying to secure a position for Johnson as an assistant doorkeeper of the United States Senate.

Read and adopted on this March 7, 1933.

**Resolution Requiring the Insurance Commissioner of the State of North Carolina to File With the Principal Clerk of the House of Representatives His Decision Upon the Petition of the Insurance Carriers Writing Compensation Insurance in North Carolina, to Increase the Compensation Insurance Rates.**

The General Assembly of North Carolina do Enact:

Whereas, prior to October 5, 1932, there was a petition filed by the various insurance carriers writing compensation insurance in North Carolina with
the Insurance Commissioner requesting an increase in the rates varying from fifteen to twenty-seven per cent and involving between $400,000 and $600,000 additional insurance tax upon the manufacturers of North Carolina, and

Whereas, on October 5, 1932, a hearing was had before the Insurance Commissioner, continuing through several days, at which hearing evidence was offered in support and against said petition, and

Whereas, up to this time no decision has been rendered by the Insurance Commissioner, and

Whereas, at a hearing before the Senate Insurance Committee on March 21, 1933, the Insurance Commissioner stated that he had his decision ready to be handed down but was awaiting some action by the Legislature, and

Whereas, there is no provision in the statute for an appeal from the decision of the Insurance Commissioner in the event that the rates should be increased after the Legislature adjourns, and

Whereas, it is necessary from the standpoint of the employers of North Carolina to know whether or not the compensation insurance premiums will be increased during the next two years in order that they may procure through the Legislature such remedial legislation as may be necessary in the event of such increase: Now, therefore,

Be it Resolved by the House of Representatives:

Section 1. That the Insurance Commissioner be and he is hereby required to file with the Principal Clerk of the House of Representatives on or before Wednesday night, March 27, his opinion upon the petition by the insurance carriers for increased insurance rates on compensation insurance.

Sec. 2. That the Principal Clerk of the House of Representatives be and is hereby required to immediately deliver to the Insurance Commissioner a copy of this Resolution.

Sec. 3. That this Resolution shall be in full force and effect from and after its adoption.

Be it Resolved by the House of Representatives:

Section 1. That the Commissioner of Banks be and is hereby directed to file in the office of the Chief Clerk of the House a statement showing the names of all attorneys employed by the Banking Department in connection with the liquidation of such banks, together with the names of all the accountants employed in connection therewith, said statement showing the amount paid said attorneys and the accountants for the years 1931, 1932 and 1933; and said statement shall further show the amount of fees contracted to be paid said attorneys and auditors for all banks now in process of liquidation.

Sec. 2. That this statement shall be filed in the office of the Chief Clerk of the House on or before the 26th day of April, 1933.

Sec. 3. That this resolution shall be in full force and effect from and after its adoption.

Read and adopted on this April 21, 1933.

Resolution Requiring the Commissioner of Banks to Furnish the General Assembly the Names of Attorneys and Accountants Employed by the Banking Department During the Past Two Years, Said Statement to Show the Amount of Fees Paid Both to Attorneys and Accountants During this Period.

Whereas, the reply of the Commissioner of Banks in response to the Resolution of the lower House of the General Assembly asking for detailed information as to the conduct of his office in connection with the names of the attorneys and accountants who had been employed by his department during the last two years, and in addition the amount of fees paid to said attorneys and accountants during said period, was totally inadequate and unsatisfactory, and

Whereas, the North Carolina Association of Certified Public Accountants has offered to render to the members of the Legislature, free of charge, their services in detailing the information; now, therefore,

Be it Resolved by the House of Representatives:

Sec. 1. That the Commissioner of Banks of North Carolina be and he is hereby directed to furnish the General Assembly the information called for in this Resolution.

The sincere thanks of the Body and its employees are hereby returned to the Honorable Avery Thompson of the County of Columbus for the delightful feast of luscious strawberries grown on the soil of Columbus County, which were so thoroughly enjoyed and appreciated by those who accepted the invitation.
