COMMITTEE REPORT

Mr. Thomas of Anson, for the Committee on Rules, presents Rules for the 1935 House of Representatives, and asks adoption by the House; and requests that 2,000 copies be printed at once.

It is so ordered.

RULES OF THE HOUSE OF REPRESENTATIVES

TOUCHING THE DUTIES OF SPEAKER

1. It shall be the duty of the Speaker to have the Sessions of the House opened with prayer.

2. He shall take the Chair every day at the hour fixed by the House on the preceding legislative day, shall immediately call the members to order, and, on appearance of a quorum, cause the Journal of the preceding day to be approved.

3. He shall preserve order and decorum, may speak to points of order in preference to other members, rising from his seat for that purpose, and shall decide questions of order, subject to an appeal to the House by any member, on which appeal no member shall speak more than once, unless by leave of the House. A two-thirds vote of the members present shall be necessary to sustain any appeal from the ruling of the Chair.

4. He shall rise to put a question, but may state it sitting.

5. Questions shall be put in this form, namely, "Those in favor (as the question may be) will say 'Aye'," and after the affirmative voice has been expressed, "Those opposed will say, 'No'." Upon a call for a division the Speaker shall count; if required, he shall appoint tellers.

6. The Speaker shall have general direction of the hall. He shall have a right to name any member to perform the duties of the Chair, but sub-
stitution shall not extend beyond one day, except in case of sickness or by leave of the House.

7. All committees shall be appointed by the Speaker, unless otherwise specially ordered by the House.

8. In all elections the Speaker may vote, in all other cases he may exercise his right to vote, or he may reserve this right until there is a tie; but in no case shall he be allowed to vote twice on the same question.

9. All acts, addresses, and resolutions, and all warrants and subpoenas issued by order of the House shall be signed by the Speaker.

10. In case of any disturbance or disorderly conduct in the galleries or lobby, the Speaker or other presiding officer shall have power to order the same to be cleared.

11. No person except members of the Senate, officers and clerks of the General Assembly, Judges of the Supreme and Superior Courts, State officers, former members of the General Assembly, and persons particularly invited by the Speaker shall be admitted within the hall of the House: Provided, that no person except members of the Senate and officers of the General Assembly shall be allowed on the floor of the House or in the lobby in the rear of the Speaker's desk, unless permitted by the Speaker of the House.

12. Reporters wishing to take down debates may be admitted by the Speaker, who shall assign such places to them on the floor or elsewhere, to effect this object, as shall not interfere with the convenience of the House.

13. Smoking shall not be allowed in the Hall, the lobbies, or the galleries while the House is in Session: Provided, that smoking may be permitted in the lobby in the rear of the Speaker's desk.

ORDER OF BUSINESS OF THE DAY

14. After the approval of the Journal of the preceding day, which shall stand approved without objection, the House shall proceed to business in the following order, viz.:

(1) The receiving of petitions, memorials, and papers addressed to the General Assembly or to the House.

(2) Reports of standing committees.

(3) Reports of select committees.

(4) Resolutions.

(5) Bills.

(6) The unfinished business of the preceding day.

(7) Bills, resolutions, petitions, memorials, messages, and other papers on the Calendar, in their exact numerical order, unless displaced by the orders of the day; but messages and motions to elect officers shall always be in order.

No member shall rise from his seat to introduce any petition, resolution, or bill out of order unless he is permitted so to do by a suspension of the rules.
15. When any member is about to speak in debate or deliver any matter to the House, he shall rise from his seat and respectfully address the Speaker.

16. When the Speaker shall call a member to order, the member shall sit down, as also he shall when called to order by another member, unless the Speaker decides the point of order in his favor. By leave of the House a member called to order may clear a matter of fact, or explain, but shall not proceed in debate so long as the decision stands but by permission of the House. Any member may appeal from the decision of the Chair, and if, upon appeal, the decision be in favor of the member called to order, he may proceed; if otherwise, he shall not, except by leave of the House; and if the case, in the judgment of the House, require it, he shall be liable to its censure.

17. No member shall speak until recognized by the Chair, and when two or more members rise at the same time the Speaker shall name the member to speak.

18. No member shall speak more than twice on the main question, nor longer than thirty minutes for the first speech and fifteen minutes for the second speech, unless allowed to do so by the affirmative vote of a majority of the members present; nor shall he speak more than once upon an amendment or motion to commit or postpone, and then not longer than ten minutes. But the House may, by consent of a majority, suspend the operations of this rule during any debate on any particular question before the House, or the Committee on Rules may bring in a special rule that shall be applicable to the debate on any bill.

19. While the Speaker is putting any question, or addressing the House, no person shall speak, stand up, walk out or cross the House, nor when a member is speaking entertain private discourse, stand up, or pass between him and the Chair.

20. No member shall vote on any question when he was not present when the question was put by the Speaker, except by the consent of the House. Upon a division and count of the House on any question, no member without the bar shall be counted.

21. Every member who shall be in the Hall of the House for the above purpose when the question is put shall give his vote upon a call of the ayes and noes, unless the House for special reasons shall excuse him, and no application to be excused from voting or to explain a vote shall be entertained unless made before the call of the roll. The Hall of the House shall include the lobbies and officers connected with the Hall.

22. When a motion is made it shall be stated by the Speaker or, if written, it shall be handed to the Chair and read aloud by the Speaker or Clerk before debate. A motion to table or adjourn shall be seconded before the motion is put by the Speaker to the vote of the House.

23. Every motion shall be reduced to writing, if the Speaker or any two members request it.

24. After a motion is stated by the Speaker or read by the Clerk, it shall be deemed to be in possession of the House, but may be withdrawn before a decision or amendment, except in case of a motion to reconsider,
which motion, when made by a member, shall be deemed and taken to be
in possession of the House, and shall not be withdrawn without leave of the
House.
25. When a question is under debate no motion shall be received but to
adjourn, to lay on the table, to postpone indefinitely, to postpone to a day
certain, to commit or amend, which several motions shall have precedence
in the order in which they stand arranged; and no motion to lay on the
table, to postpone indefinitely, to postpone to a day certain, to commit or
amend, being decided, shall be again allowed at the same stage of the bill
or proposition.
26. A motion to adjourn or lay on the table shall be decided without de-
bate, and a motion to adjourn shall always be in order, except when the
House is voting or some member is speaking; but a motion to adjourn
shall not follow a motion to adjourn until debate or some other business of
the House has intervened.
26a. In case of adjournment without any hour being named, the House
shall reconvene on the next legislative day at 12 o'clock, noon.
27. When a question has been postponed indefinitely, the same shall not
be acted on again during the Session, except upon a two-thirds vote.
28. Any member may call for a division of the question, when the same
shall admit of it, which shall be determined by the Speaker.
29. When a motion has been once made and carried in the affirmative or
negative, it shall be in order for any member of the majority to move for
the reconsideration thereof, on the same or succeeding day, unless it may
have subsequently passed the Senate, and no motion to reconsider shall be
taken from the table except by a two-thirds vote. But unless such vote has
been taken by a call of the yeas and nays, any member may move to
reconsider.
30. When the reading of a paper is called for, which has been read in
the House, and the same is objected to by any member, it shall be determined
by a vote of the House.
31. Petitions, memorials, and other papers addressed to the House shall
be presented by the Speaker; a brief statement of the contents thereof may
be verbally made by the introducer before reference to a committee, but
shall not be debated or decided on the day of their first being read, unless
the House shall direct otherwise.
32. When the ayes and noes are called for on any question, it shall be
on motion before the question is put; and if seconded by one-fifth of the
members present, the question shall be decided by the ayes and noes;
and in taking the ayes and noes, or on a call of the House, the names of the
members will be taken alphabetically.
33. Decency of speech shall be observed and personal reflection carefully
avoided.
34. Any member may arise at any time to speak to a question of personal
privilege, and upon objection to him proceeding, the Speaker shall deter-
mine if the question is one of privilege.
35. Fifteen members, including the Speaker, shall be authorized to
compel the attendance of absent members. A quorum shall consist of a
majority of the qualified members of the House.
36. No member or officer of the House shall absent himself from the service of the House without leave, unless from sickness or inability.

37. Any member may excuse himself from serving on any committee if he is a member of two standing committees.

38. If any member shall be necessarily absent on temporary business of the House when a vote is taken upon any question, upon entering the House he shall be permitted, on request, to vote, provided that the result shall not be thereby affected.

39. No standing rule or order shall be rescinded or altered without one day's notice given on the motion thereof, and to sustain such motion two-thirds of the House shall be required.

40. The members of the House shall uncover their heads upon entering the House while it is in Session, and shall continue so uncovered during their continuance in the hall, except Quakers.

41. A motion to reconsider shall be determined by a majority vote, except a motion to reconsider an indefinite postponement, or a motion to reconsider a motion tabling a motion to reconsider, which shall require a two-thirds vote.

42. After a bill has been tabled or has failed to pass on any of its readings, the contents of such bill or the principal provisions of its subject-matter shall not be embodied in any other measure. Upon the point of order being raised and sustained by the Chair, such measure shall be laid upon the table, and shall not be taken therefrom except by a vote of two-thirds of the elected membership of the House: Provided, no local bill shall be held by the Chair as embodying the provisions or being identical with any State-wide measure which has been laid upon the table, or failed to pass any of its readings.

42a. A motion to table an amendment sent up from the floor shall not be construed as a motion to table the principal bill or any other amendment which has been offered thereto, and if such motion is carried, only the amendment shall lie upon the table.

42b. When a member desires to interrupt a member having the floor he shall first obtain recognition by the Chair and permission of the member occupying the floor, and when so recognized and such permission is obtained, he may propound a question to the member occupying the floor, but he shall not propound a series of questions or interrogatives or otherwise interrupt the member having the floor; and the Speaker, shall, without the point of order being raised, enforce this rule.

PREVIOUS QUESTION

57. The previous question shall be as follows: "Shall the main question be now put?" and, until it is decided, shall preclude all amendments and debate. If this question shall be decided in the affirmative, the "Main question" shall be on the passage of the bill, resolution, or other matter under consideration; but when amendments are pending, the question shall be taken upon such amendments, in inverse order, without further debate or amendment. If such question be decided in the negative, the main question shall be considered as remaining under debate: Provided, that no one shall move the previous question except the member submitting the report on the bill or other matter under consideration, and the member introducing the bill or other matter under consideration, or the member in charge of the measure, who shall be designated by the chairman of the committee reporting the same to the House at the time the bill or other matter under consideration is reported to the House or taken up for consideration.

When a motion for the previous question is made, and pending the second thereto by a majority, debate shall cease; but if any member obtains the floor, he may move to lay the matter under consideration on the table, or move an adjournment, and when both or either of these motions are pending the question shall stand:

1) Previous question.
2) To adjourn.
3) To lay on the table.

And then upon the main question, or amendments, or the motion to post-pone indefinitely, postpone to a day certain, to commit, or amend, in the order of their precedence, until the main question is reached or disposed of; but after the previous question has been called by a majority, no motion, or amendment, or debate shall be in order.

All motions below the motions to lay on the table must be made prior to a motion for the previous question; but, pending and not after the second therefor, by the majority of the House, a motion to adjourn or lay on the table, or both, are in order. This constitutes the precedence of the motions to adjourn and lay on the table over other motions, in Rule 25.

Motions stand as follows in order of precedence in Rule 26:
Previous question.
Adjourn.
Lay on the table.
Postpone definitely.
To commit or amend.

When the previous question is called, all motions below it fall, unless made prior to the call, and all motions above it fall after its second by a majority required. Pending the second, the motions to adjourn and lay
on the table are in order, but not after a second. When in order and every motion is before the House, the question stands as follows:

Previous question.
Adjourn.
Lay on the table.
Postpone indefinitely.
Postpone definitely.
To commit.
Amendment to amendment.
Amendment.
Substitute.
Bill.

The previous question covers all other motions when seconded by a majority of the House, and proceeds by regular graduation to the main question, without debate, amendment, or motion, until such question is reached or disposed of.

In the event there is an unfavorable report with no minority report accompanying it, the bill shall be placed upon the unfavorable calendar. To take a bill from the unfavorable calendar, a two-thirds vote shall be necessary.

MESSAGE FROM THE GOVERNOR

A message is received from the Governor, transmitting the budget, which message is ordered spread upon the Journal, and a copy thereof is referred to the Committee on Finance.

STATE OF NORTH CAROLINA
GOVERNOR'S OFFICE
RALEIGH

January 14, 1935.

HONORABLE R. G. JOHNSON,
Speaker of the House of Representatives,
Raleigh, N. C.

My dear Mr. Speaker:

I take pleasure in transmitting to you herewith my Budget Message to the 1935 General Assembly.

Respectfully yours,

J. C. B. EHRINGHAUS,
Governor.

To the Members of the General Assembly:

In keeping with the statutory provisions on the subject, I am transmitting to you herewith, (a) Report of the Budget Commission, (b) The Budget Revenue Bill, and (c) The Budget Appropriation Bill.

It was not deemed necessary to write anew the machinery law, as any desirable changes could be accomplished by slight amendments thereto.

You will observe that the Revenue Bill herewith submitted follows largely the presently existing law, including the emergency sales tax feature thereof, with the present exemptions eliminated and with certain other changes which were designed primarily to stop leakages and insure full collection.

In the preparation of this measure the Commissioner of Revenue and his department, The Budget Bureau, the Advisory Budget Commission, and the Governor cooperated, and it represents not only their painstaking and diligent study and effort but their combined best judgment as to what, under existing conditions and limitations, can be done to meet the demands for a measurable and necessary increase in appropriations without increasing existing levies or imposing new ones.

The measure herewith sent—recognizing both present aims and conditions—seeks to accomplish this purpose by the simple process of tightening up provisions in the present law and eliminating existing exemptions. Experience has indicated that these exemptions have provided for greater opportunity for escape of taxes justly due under the law than they have afforded in relief to those whom they were designed to benefit. They have constituted as well a rather constant source of irritation both to the merchants and their customer. Estimates also indicate that with these eliminated, with improved methods growing out of our experience in administering the tax, with a continuance of the present rate of increase in business conditions, and with a staff enabling more frequent and widespread checking of returns in all tax fields, the presently suggested measure should show an increase in each field and produce, during each year of the
next biennium, enough in revenue to provide an additional two and one-half million dollars for our schools and, generally, to enable a general salary increase of 15 per cent. It should as well take care of the most pressing institutional and agency needs, as set out in the Budget Appropriation Bill also herewith sent—needs largely attributable to the increased cost of things we are required to buy.

The revenue measure herewith submitted is not presented dogmatically, dictatorially, or with any sense of final infallibility. It recognizes a continued existence of the same emergency which faced us two years ago, even though there has been an improvement in conditions and there is a rather general feeling that at last we are headed steadily toward recovery. It recognizes too that while we should take advantage of every advance or improvement, yet as long as this emergency continues it is incumbent that we proceed with caution and circumspection to avoid the temptation to over-commitment.

From the statements in the Budget Report you will be able to ascertain the amount of revenue which is being presently derived from each source as well as the estimates of revenue for the next biennium under existing and suggested provisions.

The emergency sales tax as presently set up will yield during this fiscal year probably seven and one-half million dollars. With the exemptions eliminated and the inclusion of the other "stop-gap" features suggested by way of amendment to the law, it should yield in the first year of the next biennium $8,750,000. Realizing that you as well as the Executive desire to go forward as fast and as far as existing conditions permit, it may not be improper to suggest that reduced to the simplest terms the problem shapes up about as follows:

For every 10 per cent of salary increase made the State will require approximately two million dollars of revenue. This approximation may be divided roughly as follows:

To cover increase of 10 per cent in teachers salaries ....................... $1,400,000
To cover increase in salaries of Highway and other State employees .......................................................... 600,000

Total ..........................................................$2,000,000

Bearing this in mind and bearing in mind also that any enlargement of our general fund spending program will require an additional equivalent in revenue to offset it, these conclusions would seem to be obvious:

(a) If the emergency sales tax feature of the Revenue Bill is eliminated we must deduct immediately from our estimates of its productive capacity $8,750,000.

(b) If the exemptions presently existing are retained we must deduct from our estimates for each year of the next biennium about $1,000,000.

(c) In the event of either deduction it is incumbent that we provide from other sources the amount of revenue so lost or cut appropriations accordingly.

(d) If an addition to the 15 per cent increase suggested and provided for in the submitted measure is desired, then additional revenue of approximately $2,000,000 for each 10 per cent increase enacted or $1,000,000 for each 5 per
cent increase enacted must be provided from other sources by the General Assembly.

(e) Under present conditions, if such an increase is desired, about the only practicable source is an increase of existing rates which are now perilously close to constitutional and prudential levels.

(f) Since, as above pointed out, the elimination of the sales tax feature of the bill would cut out of General Fund revenues near 30 per cent of the total, I have no hesitation in saying that in my judgment the reenactment of the sales tax is inevitable, and I know of no other dependable field of taxation open to the State in which, under existing constitutional or prudential limitations, such a large sum can be provided.

I do not believe that it is the part of wisdom, nor do I think it in keeping with prevailing sentiment or the necessities of dependable provision that this tax should be at this time abandoned. To do so would paralyze every State activity; most of all our largest General Fund spending agency, the schools. As pointed out in my biennial message, through diversion of the highway surplus we might accomplish the purpose temporarily and for a brief period only, but at the end of this brief period we would find ourselves more distressed and more perplexed than ever. Nor do I think that the burden should be put back on land or taken out of our appropriations for schools, wage earners or other governmental institutions and activities. The resources and information of the Revenue Department and The Budget Bureau as to possible revenue realizations from any suggested measure will be at all times available to you. But frankness compels the suggestion that none has come to our attention which would involve prudent imposition and also promise any very great yield as long as we remain under present constitutional restrictions. The return of reasonable prosperity will put quite a different picture before us. But even in the most improved sections of our State relief necessities, still great, show that we are yet some distance from that happy day.

The choice of methods is yours, of course. If your wisdom suggests a better or more equitable and dependable way to provide for our needs we shall be delighted. If you can find ways to avoid the sales tax or any other tax and provide for these needs we shall not be offended. There is just one point upon which I am insistent and that is, FOR EVERY DOLLAR YOU APPROPRIATE YOU SHOULD LEVY A DOLLAR OF DEPENDABLE TAXES. We can never again afford to run into an unbalanced budget; the experiment has proven too costly, and correspondingly the value of a balanced budget has been demonstrated by our success in obtaining the lowest interest rate in our State's history and the restoration of the State's credit.

Let me repeat—it is imperative that we preserve a balance in our budget, not by way of following a fetish but to protect the entire governmental structure against that collapse which inevitably and invariably follows fiscal instability in state and municipal government and which was upon us prior to the last General Assembly. Not only am I opposed to diversion of highway funds but I wish also to record my most emphatic dissent to each and every suggestion that may be forthcoming either to cut down or fail to make provision for a reasonable advance in our appropriations, as previously
indicated, or to push back on land a part of this burden, or to take it out of the State's credit by failing to meet our obligations, or, last but not least, to take it out of our schools or wage earners.

You will observe also that we have endeavored to meet the demand for some State Unemployment Relief activity through an enlarged highway activity made necessary by deteriorated condition of our highway system. It is earnestly hoped that this special designation and its provision of opportunities for new employments will meet any and all Federal requirements of this score.

With these measures before you, you will be enabled to proceed promptly and patriotically to the task ahead, and I am content to leave the situation in your capable hands.

Respectfully,

J. C. B. Ehringhaus.

"That, after due notice to each of the parties, your Committee heard both parties and granted such additional time for hearing as each requested and received records, evidence, and affidavits from each, each party being represented by Counsels, and after hearing all the evidence of said parties by the full Committee, the Chairman appointed a Subcommittee of three to take all the evidence submitted by both parties and report their findings of fact to the full Committee, and the Subcommittee after full and due investigation thereof submitted to the full Committee the following report:

"We, the undersigned Subcommittee appointed by your Committee to examine the affidavits and evidence submitted to the Committee by the con-
testants in the above entitled matter and report our findings of fact to the full Committee, do hereby report as follows:

"That while your Subcommittee had some doubt as to the efficiency of the notice of contest served upon Dr. Zickler by the contestants, yet your Committee preferred to go into the evidence submitted by both parties and base their report on the facts and finding upon its merits, which your Committee has done and report the following:

"That, after carefully examining all affidavits, records, and evidence submitted by both parties, it is the unanimous opinion of the Subcommittee that the Contestor, John F. STATEMENT BY MEMBER

I object to House Bill 197 introduced by Representative Bailey of Haywood County, designed to supplement the salaries of bus drivers in charge of public school busses upon the following reasons: That it is a dangerous precedent to establish because if the bill should become a law the janitors should be supplemented and, without a question, the teachers should be supplemented, all without a vote of the people as provided in the state wide school bill, and, as I stated from the floor, when this bill passed its first reading, I will offer a bill allowing the Commissioners of Buncombe County and the Buncombe County Board of Education to supplement the salary of every teacher by issuing the necessary levy therefor.

I do not consider this a local bill, but to the contrary I think that it will tend to destroy the state wide eight months school system and, for that reason, I vote NO.

W. A. SULLIVAN.

Committee Substitute H. B. 174, introduced by Messrs. Fenner and Abernathy, entitled "A bill to be entitled An act to prevent rabies in the State of North Carolina," reported unfavorably as to bill, favorably as to Committee Substitute, by Committee on Agriculture, passed its second reading by roll call vote on February 27, at which time, I voted, "No."

When the bill was first introduced, the caption impressed me favorably and I am now in favor of observing and taking every precaution to safeguard and protect the health and life of the citizenship of North Carolina regardless of whether such course may be popular or unpopular with the masses of people; however, investigation has disclosed that a vaccination of dogs for rabies is not an absolute preventive, but the highest estimate is from fifty to sixty-five per cent immunization and that notwithstanding the dog has been vaccinated, it is entirely possible for the dog to develop rabies and his bite to be fatal to persons.

Personal inquiry has in every instance been received from those possessing medical as well as general knowledge that notwithstanding the fact a dog has been vaccinated, that any person bitten by such dog should observe and take the precaution of having administered the Pasteur treatment as a preventive.

I fear that if this bill should become a law, it might result in setting up what might be termed as a "false preventive" against rabies and because of such vaccination those who may be bitten by dogs, or the members of those families who may be bitten by dogs vaccinated, would not take the proper precaution to have the treatment administered and serious impairment of health or loss of life might result therefrom, and further that the owner, having complied with the law (if it should become a law) by having his dog vaccinated, would refuse and bitterly resent having his dog killed to the end that the proper examination might be had to determine whether or not the dog had rabies.

Therefore, I shall vote against the bill, any substitute therefor, not because I fear political effects or because I am opposed to taking every possible precaution for the protection of human life, but because I am afraid that the people in general might rely upon a theory of protection, which in fact and truth is not a preventive in all cases, and thereby suffer even greater human suffering and probably loss of life in more cases than if said compulsory vaccination had not been required.

This February 28, 1935.

STATEMENT OF MEMBER

On the roll call vote to reduce the rate of sales tax from three per cent to two per cent I voted “present” when my name was called, reserving the right to change my vote if I deemed it advisable or proper. After the voting had been concluded it appeared that the vote was practically even and that the motion to reduce the rate from three to two per cent would be lost, whereupon I changed my vote from “present” to “aye,” believing that the citizenship of North Carolina would be better served and protected by casting my vote for a two per cent levy rather than to let it remain “present” and probably the three per cent rate prevail.

My vote is not to be taken as favoring any form of sales tax but it is simply to be taken as an evidence of trying to reduce the evil to a minimum rate.

This the 25th day of March, 1935.

O. L. Williams.

An amendment is offered by Dr. McDonald, increasing the tax on athletic exhibitions to five per cent, and upon the question of its adoption Mr. Cherry calls for the “ayes” and “noes.” The call is sustained and the amendment is adopted by the following roll call vote.

Those voting in the negative are: Mr. Speaker, Messrs. Alspaugh, Barker, Bean, Blount of Beaufort, Bryant, Bryson, Cherry, Cone, Crabtree, Craig, Day, Dobson, Fenner, Funderburk, Harris, Henry, Hobbs, Horton, Howard, Hoyle, Hutchins, Jones, Lee, Lindsey, Morphew, McEachern, O'Berry, Paylor, Peterson, Pickens, Rasberry, Ray, Rouse, Royster, Sherard, Sparger, Stevens, Stone, Tatem, Taylor, Thomas of Anson, Tonissen, Uzzell, Vann, Wade, Ward, White —48.

STATEMENTS BY MEMBERS

In voting "present" to the Revenue Bill, I am registering my earnest and vigorous opposition to a tax bill which contains the most unfair tax I know, namely, the sales tax. My feeling is that the very least we should do to keep faith with the people of the State is to reduce the sales tax. For these reasons I cannot vote "aye" to the bill.

My sincere friendship and regard for the men both for and against the sales tax, and the respect which I have for the clean, hard fight which they have made, prevents my voting "no" to the entire Revenue Bill, for it contains many provisions which I heartily endorse. There is not the slightest rankling in my heart at this time toward any man who has differed with me on the issue. For all these men, I have the utmost of affection and good will.

For these reasons, I vote "present" to the Revenue Bill, reserving the right to oppose the sales tax as earnestly and as vigorously as I can if the House should again have the opportunity of considering that issue.

RALPH W. MCDONALD.

I came to the General Assembly committed to the policy of raising the salaries of all school employees in North Carolina. On three separate occasions I have asked the Chairman of the Finance Committee if sufficient revenues were set up in the Revenue Bill to meet the amounts in the Appropriation Bill and guarantee the increase in teachers' salaries of twenty per cent for the first year and twenty-five per cent for the second year of the biennium, and the Chairman assured the members of the House every time that the revenue provided would balance the Appropriation Bill and provide the said increases. Believing in the integrity of the Chairman of the Finance Committee and believing that these promises to the teachers will be met, I vote "aye."

R. E. SENTEILLE.

I have been consistently voting against the sales tax in any form, but realizing that the teachers in North Carolina and the other State employees must be given a substantial increase in salary and that the budget must be balanced, therefore I vote "aye" for the Revenue Bill.

H. J. HATCHER.

Having on previous occasions by my vote in this House demonstrated my conviction that the sales tax should at least be reduced to two per cent and still retaining that conviction but nevertheless realizing that the State of
North Carolina must raise sufficient revenue to carry on its governmental operations, I accede to the will of the majority and vote "aye."

C. E. HYDE.

Mr. Speaker:

I appreciate the fact that we must have a Revenue Bill but before I would cast a vote to further oppress the widows, the orphans, and the sick and afflicted, I would prefer to see the State of North Carolina go into the red for the next two years. I positively will not vote for a sales tax therefore I am delighted to vote "no."

S. E. DOUGLAS.

I vote "aye" because the State must have a Revenue Act, yet I protest against the tax on the basic foods and a three per cent tax instead of a two per cent sales tax.

R. L. CARR.

Having consistently voted against the three per centum sales tax as included in the Revenue Bill and feeling the two per centum sales tax, without exemptions, is sufficient to balance the budget, but realizing that a Revenue Bill is necessary, and should the bill be returned from the Senate amended in this or in any other respect, I reserve the right to again vote against the sales tax just as I have done in the past. With this explanation, Mr. Speaker and Lady and Gentlemen of the House, I vote "aye."

MALCOLM McQUEEN.

I vote "aye" upon Committee Substitute for H. B. 32 entitled a bill to be entitled An act to raise revenue. But in doing so, I wish it to be understood that I do not favor the sales tax feature eliminating the exemption of necessary food stuffs from the payment of this tax. I think foods absolutely necessary for the sustenance of life should not be burdened with a sales tax.

R. T. PICKENS.

I vote for the Revenue Bill after having voted and spoken against placing a sales tax on necessary foods that are now exempt. It is necessary to have revenue and I could not vote against the whole bill, but in voting for the bill I still maintain that those articles now exempt under the present law should not be taxed.

T. C. GRAY.

On motion of Mr. Meekins, H. B. 832, a bill to be entitled An act to amend the Charter of Granite Falls, is taken from the Calendar and recommitted to the Committee on Counties, Cities and Towns.

MESSAGE FROM THE GOVERNOR

The following message is received from His Excellency, Governor J. C. B. Ehringhaus, which message and bills accompanying same are referred to the Committee on Finance:

To the President of the Senate and Speaker of the House of Representatives of the General Assembly of North Carolina:

Some time ago there was forwarded to me by the Honorable the Secretary of the Interior of the United States several proposed Legislative enactments along with the suggestion that they first be submitted to the Office of the Attorney General of North Carolina for study and suggestion as to such amendments as might be appropriate and proper to make them conform to our North Carolina Constitution and law and then be submitted for the con-
sideration of the General Assembly. These measures have been carefully studied by the Attorney General's Office and slight amendments made in conformance with this suggestion. I beg now to transmit to you herewith the following bills for your careful consideration:

First. A bill to be entitled an Act to authorize cities and towns to issue bonds for municipal improvements for the purpose of financing or aiding in the financing of any work, undertaking or project to which any loan or grant is or may be made by the United States of America through the Federal Emergency Administrator of Public Works or through any other agency or department of the United States of America, and to expedite the procedure for the issuance of such bonds.

Second. A bill to be entitled an Act to authorize counties to issue bonds for improvements for the purpose of financing or aiding in the financing of any work, undertaking or project to which any loan or grant is or may be made by the United States of America through the Federal Emergency Administrator of Public Works, or through any other agency or department of the United States of America, and to expedite the procedure for the issuance of such bonds.

Third. A bill to be entitled an Act providing for the acquisition, purchase, construction, reconstruction, improvement, betterment, extension, operation and maintenance of revenue-producing undertakings by any city, town or incorporated village; authorizing and regulating the issuance of revenue bonds for financing such undertakings; and providing for the payment of such bonds and the rights of holders thereof.

Fourth. A bill to be entitled an Act to validate certain bonds heretofore issued and authorizing the issuance of bonds pursuant to certain proceedings heretofore taken by municipalities for the purpose of financing or aiding in the financing of any work, undertaking or project to finance or aid in the financing of which any loan or grant has heretofore been or may hereafter be made by the United States of America through the Federal Emergency Administrator of Public Works.

The first three measures above submitted are, as you will readily observe, submitted as necessary prerequisites to the participation by counties and municipalities in North Carolina in the proposed Federal Emergency of Public Works spending. The fourth measure above is submitted not only for this purpose but also in compliance with the agreement heretofore entered into by various counties and municipalities in North Carolina in connection with borrowings heretofore made from Public Works or other Federal departments. In my judgment, each of these four measures should be promptly enacted by the General Assembly substantially as presented.

Number Five, Six, and Seven, respectively, "Housing Authorities Law," "Housing Corporation Law," and "Eminent Domain Law for Certain Corporations" have been, after careful study and consideration, amended by the addition of a section attached thereto in order to bring them into conformity with State procedure and practice and further safeguard the citizens of the State against possible abuses. With these amendments incorporated I recommend also the passage of these three measures.

Attached herewith also are bills numbered Eight, Nine, and Ten, entitled respectively: "State Electrification Authority," "Power District Law," and
“Membership Corporations.” I am submitting these three measures to you without comment or recommendation for your study and consideration.

Some time ago, at the request of the State Grange, I designated a Committee for the study of the rural electrification problem in North Carolina, and solicited and obtained, through the Emergency Relief Administration, approval of a project providing for the financing of a survey of the State in this connection. That survey has been made and has met with widespread approval. The Committee has also, as a result of their studies, had prepared two measures looking towards the promotion of a rural electrification activity in the State, and bills embodying their views and recommendations on this subject have been prepared and presented to the General Assembly through their introduction in the Senate. I have reference, of course, to Senate Bills No. 426 and 427. These two measures, already presented in the Senate, have been unanimously endorsed and recommended by the Committee as peculiarly suited to the needs of North Carolina and as entirely responsive to the necessities of legislation as a predicate for the Federal assistance contemplated. They have also my unqualified endorsement and approval, and I hope that they will be promptly enacted and that the rural citizenship of our State may thus be afforded an opportunity for the development of a real rural electrification program.

Eleventh. Lastly, I am presenting herewith a measure, designated as a bill to be entitled an Act authorizing the State of North Carolina and its several departments, agencies and commissions to issue revenue bonds for the purpose of financing such undertakings as the Governor, with the approval of the Council of State, may deem for the best interest of the State, and authorizing the State of North Carolina and its several departments, agencies and commissions to accept and receive loans, gifts, and other assistance from the United States Government and other agencies. This, you will observe, is designed to provide an opportunity for the State Government, in certain instances, to participate in the proposed program of Federal spending authorized on the basis of revenue bonds payable only out of the receipts of the particular project financed and involving no liability beyond these receipts. The desirability of such legislation will immediately suggest itself to you in connection with the anticipation of this program of Federal spending, and I recommend the prompt passage of this measure.

Respectfully,

J. C. B. Ehringhaus, Governor.

STATEMENT BY MEMBER

After the roll was called on the third reading of the Day liquor bill, it appeared that the vote was 52 against and 51 for the passage of the bill. Before the result was announced one member who had voted with me against the bill changed his vote from "No" to "Aye" changing the result as follows: 52 for and 51 against passage of the bill. At that moment, before the result was announced, and for the purpose of being in the position of having voted in the majority which would have enabled me to make a motion under the rules of the House to reconsider the vote by which the bill had passed, I changed my vote from "no" to "aye." Mr. Day, the introducer of the bill, immediately moved to reconsider the vote by which the bill had passed its third reading, and that the motion lie on the table. The Day motion was carried and this left the Journal roll call entry showing that I had voted for the bill, after having exercised all the influence I possessed to prevent its passage, hence this statement of the facts to show my position in face of the roll call vote that has me recorded as voting "aye." From the beginning, I have been, and am now, against the passage of the bill.

“(b) At any time before the expiration of eighteen months after the qualification in any probate Court in this commonwealth of any executor of the will or administrator of the estate of any non-resident decedent, such executor or administrator shall file with such Court proof that all death taxes, together with interest or penalties thereon, which are due to the State of domicile of such decedent, or to any political subdivision thereof, have been paid or secured, or that no such taxes, interest or penalties are due, as the case may be, unless it appears that letters testamentary or of administration have been issued on the estate of such decedent in the State of his domicile in the four following subsections called the domiciliary State.

“(c) The proof required by subsection (b) may be in the form of a certificate issued by the official or body charged with the administration of the death tax laws of the domiciliary State. If such proof has not been filed within the time limited in subsection (b), and if within such time it does not appear that letters testamentary or of administration have been issued in the domiciliary state, the register of probate shall forthwith upon the expiration of such time notify by mail the official or body of the domiciliary state charged with the administration of the death tax laws thereof with respect to such state, and shall state in such notice so far as is known to him (a) the name, date of death and last domicile of such decedent, (b) the name and address of each executor or administrator, (c) a summary of the values of the real estate, tangible personality, and intangible personality, wherever situated, belonging to such decedent at the time of his death, and (d) the fact that such executor or administrator has not filed therefor the proof required in subsection (b). istrator has paid such sums and remitted such securities, if any, as he was
required to pay or remit by such decree, or (4) it appears that letters
testamentary or of administration have been issued by the domiciliary state
and that no notice has been given under said subsection (c).

"(e) Subsection (a) to (d), inclusive, shall apply to the estate of a non-
resident decedent, only in case the laws of the domiciliary state contain a
provision, of any nature or however expressed, whereby this commonwealth
is given reasonable assurance, as finally determined by the Commissioner,
of the collection of its death taxes, interest and penalties from the estates of
decedents dying domiciled in this commonwealth, when such estates are ad-
ministered in whole or in part by a probate Court, or other Court charged
with the administration of estates of decedents, in such other state.

"(f) The provisions of subsections (a) to (e), inclusive, shall be liberally

Conditional exemptions: In addition to the exemptions set out in this section there shall also be an exemption of sales by retail merchants, upon conditions hereinafter set out, of the following articles:

Meal means corn meal and not grits, flakes or other cereal products.

Meat includes fresh or cured meats of animals or fish other than shell fish but does not include any specialized products in cans, jars, boxes or cartons for the retail trade.

Therefore, to carry out the intent of this act, a proportion of the tax or six cents per gallon, to be determined in the manner herein set out, shall be deemed in satisfaction of the tax upon retail sales levied in this act. The Director of the Budget, the Chairman of the Highway Commission and the Commissioner of Revenue shall in the first fifteen days of each quarterly period determine the total amount of gasoline
sold in the State in the preceding three months, and the average retail price, inclusive of gasoline tax, and shall on this basis compute the amount of tax liability at the rate of tax levied in this act on retail sales, and the sum so computed shall be deducted from the tax of six cents per gallon, and credited by the State Treasurer to the sales tax revenue levied in this act.

STATMENTS BY MEMBERS

I am voting for the adoption of the Conference Report on the Committee Substitute for Revenue Bill, House Bill No. 32, because the majority party is responsible for providing revenue with which to support the institutions of the State and they present this Report as the result of their efforts to provide such revenue.

I have opposed many of the provisions of this bill, especially the sales tax provision, and still oppose them. I hereby exercise my constitutional right to have this statement entered in the Journal of the House.

This April 25, 1935.

CHAS. A. JONAS.

Believing this Conference Report will not balance the Appropriations Bill and due to the fact that it contains an unmerciful sales tax, I take pleasure in voting “no.”

(b) At any time before the expiration of eighteen months after the qualification in any probate court in this commonwealth of any executor of the will or administrator of the estate of any non-resident decedent, such executor or administrator shall file with such court proof that all death taxes, together with interest or penalties thereon, which are due to the state of domicile of such decedent, or to any political subdivision thereof, have been paid or secured, or that no such taxes, interest or penalties are due, as the case may be, unless it appears that letters testamentary or of administration have been issued on the estate of such decedent in the state of his domicile in the four following subsections called the domiciliary state.

(c) The proof required by subsection (b) may be in the form of a certificate issued by the official or body charged with the administration of the death tax laws of the domiciliary state. If such proof has not been filed within the time limited in subsection (b), and if within such time it does not appear that letters testamentary or of administration have been issued in the domiciliary state, the register of probate shall forthwith upon the expiration of such time notify by mail the official or body of the domiciliary state charged with the administration of the death tax laws thereof with respect to such state, and shall state in such notice so far as is known to him (a) the name, date of death and last domicile of such decedent, (b) the name and address of each executor or administrator, (c) a summary of the values of the real estate, tangible personality, and intangible personality, wherever situated, belonging to such decedent at the time of his death, and (d) the fact that such executor or administrator has not filed theretofore the proof required in subsection (b). Section 405. The taxes imposed in this article shall not apply to the sale of commercial fertilizer on which an inspection tax is paid, nor to the sale of public school books, on the adopted list, and the selling price of which is fixed by law. The taxes imposed in this article shall not apply to the sale of products of farms, forests, or mines when such sales are made by the persons or members of their immediate families or by employees forming a part of the organization of persons who produce such products in the original state or condition of preparation for sale, but shall apply to the resale of such products. The exemption in this section shall not extend to manufacturers or producers who become merchants in the ordinary meaning of that term, and who maintain, separate from the place of production, stores for the retail sale of merchandise, nor to the sale of their own products through such retail stores, nor shall it extend to the sale of their products through merchants acting as agents for the manufacturer, nor to the sale of products by peddlers.
No tax shall be imposed under this article upon the sale of any merchandise to the Federal Government or any of its agencies, or to the State of North Carolina or any of its subdivisions, including sales of merchandise to agencies of Federal, State or local governments for distribution in public welfare and relief work.
Conditional exemptions: In addition to the exemptions set out in this section there shall also be an exemption of sales by retail merchants, upon conditions hereinafter set out, of the following articles:

Flour, meal, meat, lard, milk, molasses, salt, sugar, and coffee. It is the intention that this exemption shall apply to these primary and essential articles of food as the words used are commonly understood.

Flour means wheat flour and does not include cereal products other than flour.

Meal means corn meal and not grits, flakes or other cereal products.

Meat includes fresh or cured meats of animals or fish other than shell fish but does not include any specialized products in cans, jars, boxes or cartons, for the retail trade.

Lard is intended to include articles commonly understood by the use of this term both from animal fat and vegetable substitute, but does not include oleomargarine, butter, oils or other like products.

Molasses includes the products commonly understood by that name and does not include cane, sugar, maple or other syrups.

Milk includes sweet and buttermilk, but does not include canned milk, evaporated milk or other milk products.

Sugar includes plain and granulated sugar as commonly understood and no other sugar products.

The exemption of the articles of food herein enumerated is upon condition that the retail merchant shall keep accurate and separate records of invoices and sales of the exempted articles in such form and detail as may be prescribed by the Department of Revenue and in any event in such manner that accurate reports may be separately made covering the sale of such conditionally exempted articles, and in such form as may be accurately and conveniently checked by the representatives of the Department of Revenue.

Unless records are kept in such manner as will accurately disclose separate accounting of sales of taxable and non-taxable merchandise the conditional exemptions herein made shall not be allowed, and it shall be the duty of the Commissioner to assess a tax upon the total gross sales, and if records are not kept showing total gross sales, it shall be the duty of the Commissioner or agents to assess a tax upon an estimation of sales upon the best information obtainable.

IT IS RECOMMENDED FURTHER that the House concur in so much of said Senate amendment to Section 405 as reads as follows: which portion of said section shall be adopted in lieu of the present subsection (a) of 405 of the printed bill, to wit:

“(a) It is not the intent of this act to exempt gasoline from the retail sales tax levied in this act, nor is it considered expedient to levy a tax upon the wholesale distribution of gasoline, payable at the source of distribution, and an additional tax upon the retail sale. Therefore, to carry out the intent of this act, a proportion of the tax of six cents per gallon, to be determined in the manner herein set out, shall be deemed in satisfaction of the tax upon retail sales levied in this Act. The Director of the Budget, the Chairman of the Highway Commission and the Commissioner of Revenue shall in
the first fifteen days of each quarterly period determine the total amount of gasoline sold in the State in the preceding three months, and the average retail price, inclusive of gasoline tax, and shall on this basis compute the amount of tax liability at the rate of tax levied in this act on retail sales, and the sum so computed shall be deducted from the tax of six cents per gallon, and credited by the State Treasurer to the sales tax revenue levied in this act."

It is further recommended that Section 405 entitled "Exemptions" as printed in Committee Substitute to House Bill 32 shall be in all respects adopted except that for subsection (a) contained in the printed bill there shall be substituted the Senate amendment relative to gasoline as hereinbefore set out.

The Confeerees on the part of the House of Representatives and the Senate recommend the following addition to the Senate amendment to Section 405, page 18, of the report, by adding at the end of subsection (a) the following:

"The allocation from the Highway Fund to the General Fund herein provided for, insofar as it may exceed the sum of one million dollars per year, shall not be made to any extent that violates the provisions of the Hayden-Cartwright Act of Congress, ratified on the 18th day of June, 1934, and that has the effect of reducing the allotment of Federal funds for construction and improvement of highways in this State. These sums shall be available only after full provision is made for the expense of collecting highway revenues, for the administration of the Highway and Public Works Commission, for the service of the Debt, and for reasonable maintenance of State and County Highways and Federal aid construction, (as set out under titles XII and XIII of Section 3 of the Appropriation Act) and there then remains a sufficient balance or surplus, nor shall the application herein made become available to the general fund unless the Director of the Budget shall find such sum to be reasonably necessary to meet appropriations from the general fund. (not including the contingent increase in salaries beyond twenty per cent provided in the Appropriations Bill for the first year of the Biennium). In construing this provision the Director of the Budget shall not be required to take into account an incidental credit balance of the general fund.

The Conferees on the part of the House of Representatives and the Senate are unable to agree upon further changes in Revenue which will be approved by a majority of Conferees on each House, or that they could hope would meet majority support in both houses of the General Assembly.

STATEMENTS BY MEMBERS

I am positive that the Revenue Bill as now written will mean greater salvation to the rich and further damnation to the poorest of the poor. I appreciate the fact that this great State must continue to function but I am certain that a Revenue Bill can be written that will not stamp into the dust the blind, the widows, the aged and the sick and afflicted, therefore my conscience forces me to vote "no."

S. E. DOUGLASS.

STATEMENT BY MEMBER

Mr. Speaker, the Lady from Yancey, and Members of the General Assembly:

The first of this week there was introduced in the House of Representatives Bill 1414, which was drawn to exempt seven counties from the bone-dry Turlington Act. My county, Columbus, which I greatly love, was included in that bill without my permission and also, in my absence, was put in the bill and rushed through the House under suspension of rules.

I feel that I have been treated grossly unjust and I hope the gentlemen who were responsible for my county being written in this bill should apologize to me in person and through the press and I hope they will see their way clear to do so.

My county went dry in 1933 by a six to one majority and under a condition like that I would not attempt to try to have my county exempted from the bone-dry Turlington Act.
It is my request that this statement be entered in the records of the General Assembly of 1935 and a copy be given to the press.

I thank you.

C. D. Garrell.

APPENDIX

BIENNIAL MESSAGE

OF

GOVERNOR J. C. B. EHRINGHAUS

TO THE

GENERAL ASSEMBLY OF NORTH CAROLINA

January 10, 1935

(See Page 17 of Journal)

Mr. President, Mr. Speaker, and Members of the General Assembly:

To you, who have come here fresh from the people whom we serve, I extend my very sincere welcome to the Capital and assurance that I am looking forward with pleasure to our association as laborers in a common cause. Your wisdom and rich experience will enable you to make from time to time valuable suggestions, which you may be sure I shall gladly welcome and carefully consider; and whatsoever of information and experience is mine will likewise, at all times, be at your service. The recommendations which I may voice either now or later are not offered dogmatically or with any obsession of infallibility, but, on the contrary, are tendered in what I conceive to be the spirit of the constitutional provision which brings me presently before you and in the single hope and desire that we may cooperate in an honest effort to measure and meet the needs of the Commonwealth.

Retreating shadows are difficult to trace and an accurate appraisal of the past is never a simple task. Today finds it quite as hard to understand and interpret the maze and hurly-burly of yesterday as to unravel the mystery of tomorrow. But the elusiveness of both cannot excuse the failure of honest effort both to comprehend and envision. And that is the task which is yours and mine.

I have neither disposition nor desire to paint a dark picture or indulge in rueful retrospection. I am content, and it will sufficiently serve our purpose and the present proprieties, to chronicle a few recollections and results by way of stewardship accounting.

Yesterdays

And a consideration of our “yesterday” does not present an alluring picture. Like it or not, the depression had laid unduly heavy hand upon us, and just two short years ago North Carolina stood upon the very threshold of bankruptcy. Nor was it a mere fiscal bankruptcy which threatened the State. Real estate yielded no profit. The tide of foreclosure of homes, farms, and factories was running strong. Taxes were uncollectible. The financial structure of our governmental subdivisions had been completely undermined and the constantly increasing shrinkage of State revenue brought us perilously close to collapse in essential functioning. With the second highest bonded debt of any state in the Union rapidly approaching the peak period of its maturities, with an overdraft of $15,000,000 in sight for the dying fiscal
year, with a spending program in progress which was adding to this deficit at the rate of seven and one half million dollars annually, with the notes covering this deficit being called for immediate payment, though bearing the highest interest rate known to the law, and with the banking structure of the Nation tottering to that dismal day soon to come when every bank in the country was closed by presidential decree, it was manifest that our credit was exhausted and that further loans were impossible. With a municipal debt load of paralyzing proportions, with more than sixty of our one hundred counties and about one hundred fifty of our two hundred sixty cities and towns in default, with our educational system (dependent then upon local tax support) facing chaos and collapse, with real estate manifestly no longer able to bear the tax burden or be counted a dependable source of revenue, with landowners clamoring for revaluation and relief, and with income and other tax fields near the limit of constitutional or prudential restrictions, am I far wrong in suggesting that the situation which confronted us was the gravest since Reconstruction?

In the face of such dangers, the voice of the defeatist was strong and strident and the council of despair was heard on every side. After sixty days of legislative study and effort, with no final action in sight, some went so far as to suggest temporary adjournment and that legislators trek home to "think it over." But the futility of such action, and the duty as well as the desirability of meeting the problem then and immediately, was soon made manifest. So steadfastness prevailed. How your predecessors met this emergency is now history. It is much easier to criticize the past than to offer remedies even in the present. Hindsight always enjoys an advantage over foresight. But even hindsight has failed to point a better way than that adopted in 1933. Whatever of defects some may sense in that action, none can deny this much of accomplishment:

Action

The Assembly of 1933 recognized that the situation presented three closely allied problems or three phases of the same problem: the fiscal, the educational, and the land-tax question. These were the same sinister sisters which were haunting the peace of practically every other state in the Union. I welcome any fair comparison both of methods and results achieved here and elsewhere. At least we may set down here these indubitable facts by way of chronicling definite accomplishments during this administration:

Results

First. The people then demanded economy. They got it. Our general fund appropriations, exclusive of debt service which could not be cut, were reduced approximately one-third. This process of economizing proceeded to the point that the Executive felt impelled finally to stand up and say, "Hold, enough! even if we have to accept a new and unpopular tax"—a tax which, though accepted by the Executive and the General Assembly only in the darkest moment of the depression, had been put forward and espoused much earlier (not as a temporary expedient, but as a permanent taxing policy) by some of those now most critical of it and of the administration for defending its acceptance.
Second. They asked for revaluation and relief of real estate. They got these too in the greatest measure anywhere chronicled. Land values in North Carolina, as a result of the revaluation provided by the last General Assembly, were reduced by nearly $900,000,000.00 (practically one-third of the previous total), and real estate enjoyed an average relief throughout the Commonwealth of near 33 1/3 per cent, or 35 cents on the $100.00 valuation. Let him who doubts or dissents look at his tax receipts.

Third. The total tax burden throughout North Carolina (State and local) was brought to a new low level of $82,191,835.00 in 1933-34, which should be compared with the peak level of $102,131,265.00 in 1929-30.

Fourth. Since January 5, 1933, the State has made large payments on its outstanding obligations. Including payments to be made next February 15, and funds for which are already in hand and available, we will on that day have paid during the life of this administration a total of $26,737,580.00 in principal and interest, of which $11,866,000.00 represents principal. In other words, we are paying at the rate of over $2,000,000.00 per month.

Fifth. By reason of State relief afforded the counties and municipalities, they have been able to make substantial progress in the liquidation of their own debts, and in the two-year period from January 1, 1933, to January 1, 1935, inclusive, the Local Government Commission reports, they have retired a total of $51,899,495.79. Offsetting this with new bond issues in the same period aggregating $5,310,000.00, we still have a net retirement or reduction of municipal indebtedness amount to $46,589,395.79.

Sixth. The State is once more living within its income, and the balance between income and outgo is being preserved and protected.

Seventh. Our credit as a State has been restored and is today as good as that of any commonwealth. Its remarkable recovery has been frequently the subject of national comment and praise.

Eighth. Our bonds, which on January 1, 1933, were selling at an average of around 89 3/4 cents in the dollar, and in the next three months sank to lower levels, were on January 1, 1935, selling at an average of $1.09 1/2.

Ninth. We have been able to fund the $12,230,000.00 of our short-term indebtedness in part at 3 1/2 per cent, at an average rate of 3.76 per cent—the lowest interest rate ever obtained by the State in more than one hundred fifty years of its history. And this though we have not yet emerged from the depression.

We have effected thereby an interest saving to date of funding of over $200,000.00 and over $2,000,000.00 during the lifetime of the bonds. The above saving is sufficient to pay (on the basis of present appropriations) practically one-fourth of the office and departmental costs of the State. Here is the soundest sort of economy.

Tenth. We have for the first time in many years to come through the biennium without borrowing even in anticipation of taxes. Not one cent has been borrowed since this administration assumed responsibility, and the appropriation of $25,000.00, set up by the last Legislature for each year of the biennium to cover interest on said temporary loans, has been thus wholly saved—enough in itself to cover the entire appropriations for the Governor’s office. Indeed, based on past experiences, this item would equal $125,000.00 per year, instead of $25,000.00.
Eleventh. Through consolidation of the Highway and Prison Departments, recommended by the Governor to the last General Assembly and adopted by them, we have been able largely to put our prison population to work and bring it to the point where it no longer accumulates an annual loss of from $200,000.00 to $300,000.00 against the State, but is now for the first time in many years practically self-supporting. An audit of operations for the last fiscal year (ending July 1, 1934) shows a deficit of only $63,604.38. This in spite of the fact that for six months of the year the Prison Department received credit for prisoners' work at the rate of 70 cents instead of 80 cents a day, the lowest rate which prevailed when the two were separate departments. Had the rate of 80 cents per day been continued for the whole year—that is, had the same allowance been made for prison labor after as before consolidation—the Prison Department would have shown a profit for the highway fund. We expect to close that gap this year, so no longer can it be suggested that the Prison Department was "unloaded" on the Highway fund and a "diversion" of its funds thereby accomplished.

Twelfth. Through a reorganization of the Revenue Department we have realized our ambition to make of it a collecting rather than a receiving agency. What is more, through the installation of the most modern business methods its efficiency has been increased in many ways. In spite of critical suggestions, we have proceeded quietly with the work in hand, guided solely by a desire to increase efficiency and promote economy. Today North Carolina's revenue is being collected at a cost of less than 1 1/2 per cent—a record which I do not believe is equaled by any state in the Union. Today also that revenue is being collected more promptly and more efficiently than at any time in the State's history. By way of illustration, while in 1933 the income tax rush required the addition of thirty-five temporary helpers for some sixty days, through improved methods of handling in 1934 not a single temporary worker was required and the work was up to date each night, with checks deposited in the bank. Again, in the collection of License B taxes, we were able to show in 1934 an increase of a million dollars on the same items. In franchise tax collections, too, preliminary statements brought in prompt responses. The bad check account, so long a matter of concern, has been greatly reduced and gasoline delinquencies of long accumulation have been collected or are in process of active collection and additional or new ones absolutely avoided. Best of all, there is a new spirit among the workers and a State-wide recognition of improved enforcement and collection methods which, because they are impartial even though vigorous, are being generally commended. By such methods, insuring reasonably full realization on all taxes levied, and a constant realization of the truth that all taxes are levied to be collected, we have built up a more wholesome support for the department. Only by following them have we been able to maintain a balanced budget. Failure to press collections vigorously for the last year would have resulted inevitably in another deficit, with its consequent ills.

In bringing about these results we have sought to obtain the cooperation of the entire force, and they are entitled to the thanks of the Governor and the Legislature, as well as the Commissioner, and each and all, I am sure, take pride in what has been done. The informational resources of the department will be at the service of the General Assembly constantly, and I
am sure you will find prompt, cheerful, and accurate responses to your every inquiry.

Thirteenth. The Department of Conservation and Development has been set up anew on a basis of efficiency and insistence upon technical training for technical jobs—a set-up that has met with State-wide commendation. In the report of its Director it will present its needs and its program in detail for your consideration and present to you the minimum of its requirements for adequate functioning.

Fourteenth. In the work of the Parole Commissioner, too, we have made a distinct and definite progress toward a sound and scientific parole policy. His report, which will be available for your study, presents clearly the work and the needs of this service. We have, as he so well points out, endeavored to make the exercise of Executive clemency a part and parcel of the State's law enforcement machinery—to supplement rather than supplant the work of the courts, to encourage and increase the hope of worthy applicants for parole, and to build up a conviction that clemency comes only out of merit, and is not the child of personal or political favor. I venture the opinion that this concept of Executive clemency has never been more prevalent in North Carolina than now, and that there has never been a more widespread respect for and confidence in the high purpose and effort in this enterprise. The work of the Commissioner has been limited by inadequate appropriations. The assistance of the additional supervisors from the Highway and Prison Department contemplated by the last General Assembly has been lacking because, due to its own inadequate maintenance fund, that department could not spare the personnel for this work. This condition should be remedied.

Fifteenth. The Division of Purchase and Contract and the Budget Bureau have functioned during the biennium with a new maximum of efficiency and minimum of friction.

Sixteenth. Under direction of the last General Assembly a new set-up has also been effected in the Utilities Commission. The Commission has been selected with a view to obtaining an unusually competent and experienced group which would be fair alike to utilities and the people. Their labors have already brought rich rewards to the people in reduced rates, aggregating hundreds of thousands annually and near three millions in the last two years. The future will, I am confident, bring additional proof of their high consecration. The needs of this activity will be later presented.

These particular departments and bureaus have been mentioned here because they are, strictly speaking, a part of the Governor's office or have been operated under Executive appointment. The other departments also are entitled to commendation for their coöperation and accomplishments. They will each present report of their activities, needs, and suggestions, which I commend for your consideration. The Banking Department particularly has been required to meet a major crisis, and, under the emergency legislation, conferring extraordinary power upon the department and the Executive, has functioned so efficiently that today North Carolina stands out as the only state in the Union with all banks under State supervision rated as number one banks.
Today

Let me turn now from the past to the present and list for your consideration some of its problems and my recommendations thereon. The gravity and uncertainty of the general situation two years ago created in the minds of the public an insistent demand for stringent economy and restricted spending. The results of this demand have been chronicled in dollars and percentages, but have not been set forth in terms of the sacrificial service of the State's employees in every phase of its activities. Since that date the cost of living has advanced and the losses entailed by salary cuts have become more acute. The hard necessities of that day cut deeply also into maintenance and constructive activities, and though service demands have increased, potential response has been greatly diminished. This, too, applies to all departments, activities, and institutions of the State.

Recognizing that we are still under the shadow of the great depression, and that there is still imperative necessity for cautious spending and the avoidance of rash commitments, I have no difficulty in sensing a changed situation. Today, in answer to the demands of decency as well as deserts, the great necessity is for an increased wage and provision all along the line and for as rapid and near approach to pre-depression levels as our circumstances and a sound fiscal policy permit. This does not mean that I feel that the danger point is passed or favor letting down the bars indiscriminately. There is still need for great caution. But the tide has turned and the day has come when we should start resolutely and with a measurable step on the journey toward normal and adequate functioning and compensation.

The major spendings of the State, of course, are centered in two activities—schools and roads. The debt-service item likewise looms large. But if we continue to insist, as above all we must, upon the maintenance of a balance between income and outgo and the provision of a dollar of taxes for every dollar of appropriation, the day of its lightening and ultimate disappearance is within sight. Fifteen more years will put us comparatively on "easy street," with revenue possibilities ample and chance to meet every requirement of the most advanced social program.

We need and must have a substantial increase in our appropriation for schools. Teachers' as well as other salaries are at much too low a level.

I am not, however, one of those who see only bad in the present educational set-up. Indeed, I am persuaded that those who indulge in such suggestions do the State, the schools, and themselves real disservice. They do not voice disinterested outside opinion; on the contrary, they contradict it. We can never base progress on misleading propaganda. Expediency as well as honesty demands fair appraisal and fair approach to the problem. In spite of deficiencies in the present set-up, these merits cannot be denied:

(a) An eight-months term has been assured to every child without ad valorem taxes.
(b) For the first time an approach has been made to real democracy in educational opportunity and in the provision of equality of opportunity between the city and the country boys and girls.
(c) This is not the maximum possible, but the minimum. The right of supplementation has been preserved to the various units, to be exercised if they desire it. If they fail to so vote, the failure is theirs, not the State's. Let us
place the emphasis where it properly belongs. The people can have just as
much more of educational opportunity as they desire and can and will support.

(d) North Carolina was the only State, save possibly one, that kept her
schools open through all of eight months last year. Even great states like
New York, Pennsylvania, Ohio, Illinois, and Massachusetts saw many schools
close in the face of ambitious little children.

(e) North Carolina was the only State to provide eight months employment
for all her teachers and pay them promptly and in cash.

(f) North Carolina carried on last year, and is still carrying on the greatest
transportation enterprise of any state in the Union. Over 250,000 children,
more than one-seventh of all transported in the nation, were daily carried to
school.

(g) North Carolina, through action of the last General Assembly, increased
its average school term a total of near seven full days—one full school week
and two extra days—the greatest single advance in school term ever made
here or elsewhere. In every other state in the Union I am informed the average
length of term showed some decrease.

(h) There was more advance provided for Negro children in North Carolina
than in any Southern state.

Show me a parallel to this progress made in any state of the Union. If
hard times have dealt heavily with the schools of North Carolina, they have
also dealt in like manner with those in other states. National and other
state authorities have been "thanking God" for North Carolina's resoluteness
and results. We have preserved the foundation; we have strengthened and
made it ready for that advance which now we contemplate.

Nor is the problem of obtaining better schools soluble in terms of increased
salaries only. It is entirely possible to spend twenty-five or even more mil-
lions without achieving very great improvement. If, as we frequently hear,
many of our most efficient teachers have been driven by low salaries into other
fields of activity and their places filled by incompetents, to the detriment of
the instruction offered, then merely increasing salaries is not going to bring
them back or improve the service of such low-priced incompetents as may
have crept in. We must take steps to see that such a calamity is prevented,
or otherwise "the last state" of the schools would be "worse than the first." We
must constantly keep in mind the fact that there are two groups vitally
interested in and affected by our schools—the teachers and the taught. We
must deal fairly with our teachers, but it is even more imperative that we
deal fairly with the children who are taught. The latter are primarily the
object of the State's concern. We should pay adequate salaries not for the
benefit of the teachers—even the most proficient teachers who fully earn their
recompense—but for the benefit of the children and to secure for these children
the best of instruction available.

New York maintains a high teacher salary level, but New York also demands
much in teacher qualifications. And while I have no quarrel with those who
hold to the view that the teacher load must be limited, I am rather definitely
of the opinion that I would rather have my child in a room with a good
teacher and a large number of pupils than in another room with few pupils
and an inferior instructor.
The State is also interested in the character of instruction, the curricula of the school, which should be designed to fit the child for citizenship. The great man whom death relieved but recently of the duties of State Superintendent had visioned this and inaugurated an effort to improve the curricula and adapt it more nearly to the needs of the many. The good man who has succeeded him no doubt will carry on this enterprise. I hope that we shall make provision for and insist upon this work and that we may increase the standards of the teaching profession constantly until we are assured always of the best.

Negro Schools and Colleges

I have myself also caused to be made a study of conditions peculiarly applicable to the Negro schools in North Carolina, and the results of this study will be available for your consideration. We should be careful to see that justice is done our Negro citizenship.

Savings on School Books

In connection with our consideration of the schools and their necessities, I venture also to call your attention to the report of the School Book Commission submitted to the State Board of Education of North Carolina in January, 1933, and particularly to its study of the problem of cheaper books for our school children. It is my earnest desire that at the earliest practical moment we adopt a policy of school book rentals, which will immediately insure a great saving in school book cost to our children and patrons and which can be gradually developed to provide ultimately free textbooks for all children. This recommendation is made not for the purpose of adding to but rather of subtracting from the cost of public education in North Carolina. The provision of books and materials for each child at the beginning of the school term will result in greatly increased efficiency in classroom instruction and remove as well an outstanding cause of irritation against the schools. Under present conditions it is estimated near 25 per cent of the children are so late in obtaining their books that 12 per cent to 15 per cent of classroom efficiency is lost for the year. On the basis of an eight-months term, this means a practical loss of near one and one-third months. The cost to the State in repeaters and otherwise is incalculable, to say nothing of the loss to the child. I realize that it is probably impossible to accomplish this immediately, as the State now lacks the funds to make the necessary initial investments and a borrowing at this time is inadvisable. But I believe that a plan may be worked out which would put us in a position to proceed if opportunity presented itself and to accomplish a gradual, if not an immediate, shifting from the present to the rental plan.

Universities, Colleges, and Institutions

Our higher institutions of learning likewise have suffered as a result of the depression. They were, of course, included in our thoughts above voiced with reference to salary levels and provisions. Likewise, too, plant maintenance and provision of greatly needed additions have been curtailed by the economies growing out of these lean days. The same is true also of our
charitable and correctional institutions, which have been seriously handicapped. The need in each and every instance is manifest and worthy. It is presented in their individual reports. Our response is and should be limited only by the necessity of preserving a balanced budget (without which all activities would collapse) and the ability of our people to bear increased tax levies.

Increase for Highways

Our highways also require large spending. Not only are helper wages too low, but maintenance provision entirely inadequate to cover the necessities of near 60,000 miles of highways. Real loss through deterioration has resulted from enforced economies. We cannot afford to jeopardize further this investment of near 300 million dollars.

And there is equally good necessity for some provision for construction, not only to meet Federal funds requiring matching, but also by way of response to pressing needs, particularly in areas on which Federal aid may not be obtained. In any abandonment of construction it is the outlying country roads, those sparsely settled of our State, which suffer most. Understand me—by “construction” it is not intended to propose an orgy of “system expansion,” but rather road betterment at points where betterment is essential to service and safety.

Diversion

I am just as much opposed to diversion of highway funds now as during the last General Assembly. Not only are these funds, paid solely by motorists, morally and many think legally committed to these purposes, but under Congressional enactments loss of Federal funds also would result from such diversion. Besides, the much discussed highway surplus—resulting entirely from starvation of both maintenance and construction—well, after payment of debt maturities in July, fall far short of many reckless estimates. It is also obvious that if it should be diverted it might satisfy the cause to which it was diverted for a brief period only, but at the end of this period our dilemma would be increased, since our surplus would then be gone and we would be faced with the same desirabilities or necessities which now suggest its appropriation to other purposes. Personally I dissent from the suggestion sometimes made that the prevailing school sentiment has designs upon this surplus. Personally I refuse to believe that the prevailing school sentiment has any more desire to encroach upon the highway fund than the advocates of highways have to rob the schools. Highways and schools are, or should be, coordinated activities, and each, in a very real sense, is dependent on the other for adequate functioning.

Changes in Officials

The Highway Department has suffered a great loss through the illness of the splendid man who so long presided over its destinies. In his first waking moments his thought and his concern were for this work and for provision for carrying it on. Publicly I desire to recognize his outstanding service and contribution to the State which he served. I believe too that we are happy in being able to obtain by way of succession to him the present Chairman, who will give a fine and intelligent service to the cause.
In connection with the discussion of highways and their needs, I venture also to call your attention to what I believe to be the necessity to remove a discrimination that exists in certain territories. In a great State highway system there is no place for the toll road or toll bridge connecting State highways. In other days, when spending was allocated according to population and mileage, the handicap of such provisions prevented a recognition of fundamental equities. Under present conditions, where need without regard to geography is the controlling motive and where the necessities of the isolated are just as considerable as the requirements of those who dwell in congested centers, a different rule prevails. We cannot justify, under present conditions, continuance of toll charges upon the Cape Fear and the Chowan River bridges. The State should take, and this General Assembly should enact, the necessary steps to accomplish this elimination. The bonds covering these two bridges already are represented in the State's total of outstanding obligations. Debt service charges upon the two projects involve only a comparatively small addition to the State's debt service load, and simple justice to the sections concerned requires such a step.

Any consideration of highways brings immediately before us the aggravating and constantly increasing problem of highway safety. The mounting total of accidents appalls us and chills our enthusiasm for the enterprise of increased transportation facilities and enlarged opportunities for neighborhood contacts. If the highways continue to exact, through their improper use, the bloody toll of life and limb which now they claim, then their value may be seriously questioned. Constantly the Executive has called upon the citizenship for observance of the rules of safety in travel. No opportunity is neglected and we have endeavored to give cooperation to every private or public enterprise which sought to alleviate this condition. Instructions and suggestions to law enforcing officers have been repeatedly given. The evil is still with us and grows rather than diminishes. I would enlist your earnest consideration of the situation.

It is manifest that we can solve this question by no ordinary methods. Nor can nor will any law or action prevent evil consequences to drivers (and their passengers) apparently bent on suicide. The experience of some states with really efficient drivers' license laws would suggest, however, the advisability of such enactment. A drivers' license law designed only to levy greater taxes upon the motorist or to bring more money into the treasury does not command my approval and should certainly be avoided. To be effective, there must be a real limitation upon incompetent operation and real and inescapable penalties for those who prove themselves incapable or inattentive to the necessities of safe driving.

Nor do I cherish the delusion that the mere enactment of a drivers' license or other law will solve this problem. There must be a constant, unrelenting, and real enterprise toward real enforcement by all public officials and the inferior courts—the courts of first instance, which are peculiarly charged with this duty. Above all, there must be an increasingly insistent public
sentiment which demands observance of those regulations and the safety which should attend the use of this vital and valuable public facility.

In this connection also let me add to the suggestion of driver regulations, the desirability of increasing the Highway Patrol within the limits of our present abilities. The full policing of 60,000 miles of highways is out of the question, of course. Let us not forget too that full 50 per cent of our accidents occur within city limits. The present force cannot possibly cover the entire State. We can greatly help, however, by adding to it.

_Election Laws_

Existing laws governing elections have been a subject of considerable criticism and under them practices have sometimes prevailed which were reprehensible and calculated to bring censure upon the State. This is particularly true of the so-called absentee ballot law.

_Biennial Message_

I have no patience with indiscriminate and unjustifiable claims of fraud put forward primarily to cover disappointments or for partisan purposes, and I know that such claims frequently occur. I am quite certain, however, that it is almost as important for the people to think their elections are fair as for them to be in fact fairly conducted. The various phases of this subject are fully covered in the report of the State Board of Elections, which I recommend to your careful consideration. I quite concur in the recommendation that the absentee ballot provisions of the law must be either so drastically amended as to avoid even the appearance of evil or repealed altogether.

We should seriously consider also the suggestion of separate party primary registrations as a means of avoiding participation by one political group in the primary election of the other.

Certain amendments to the law relating to meetings of Presidential Electors are necessitated by the change in the presidential inauguration date. A bill has been prepared to cover this and will be submitted for your attention.

_Social Legislation_

Our schools are of course the greatest of our social activities. Their needs have already been discussed. There are other matters of social legislation requiring your attention.

_Child Labor_

Child labor has already been outlawed under the NRA codes. The elimination of this social evil may be assured on exactly equal terms in all the states by the adoption of the proposed Child Labor Amendment to the Federal Constitution. Such legislation is peculiarly of national scope and significance and I therefore recommend to you its adoption as in line with the progressive thought and trend of the times.

_Social Insurance_

Pursuant to a resolution adopted by the last General Assembly, I designated a commission to study the unemployment insurance problem. Before its
naming, however, I sought and obtained approval of a Federal project for its financing so that its work might be facilitated. Under the chairmanship of former Senator Burgin this Commission has made a detailed study of the problem and the remedies now in use elsewhere. This study will be at your disposal and you will find it thoroughgoing and interesting. A model bill has also been prepared for submission to you which, subject to some few changes or exceptions, meets with my approval.

I am convinced that this General Assembly should take definite action to provide in North Carolina such insurance and that its action should be in line with the Federal proposals and Congressional enactments on this subject. We have not as yet full information as to what Congressional action will be, but our State must put itself in line to provide for, as well as escape from, the penalties of such legislation.

Besides, as I have previously indicated, this is an advance in social legislation which our State should not fail to take as a matter of humanity and sensible provision against future industrial calamities. You will find here, too, some studies on old-age pensions, but our information on this subject is hardly sufficient to justify any present recommendation with reference to it. I hope, however, that authorization for a continuance of these studies may be made.

Workmen's Compensation

Employees in the industries of this State who lose the opportunity of making a living for themselves and their families as a result of occupational disease, contracted in their employment, are as much entitled to the benefits of the Compensation Law as those who are stricken down by accidental injuries. The Workmen's Compensation Laws should be amended to extend its beneficial provisions to include the occupational disease hazard. This clause should be definite in its nature and fair in its provisions both to the employers and to the employees in the distribution of its benefits and burdens and should affirmatively set out the risks included. I am persuaded also that teachers, so long as they are employed by the State, should be treated as all other State employees and included in the protection of the Workmen's Compensation Act, and I so recommend.

Many employers in the State, by reason of the attitude of the insurance companies carrying compensation coverage, have found it difficult and sometimes impossible to insure their risks as required by the compensation law. Insurance companies engaged in this business in the State can and should be required by law to cover all insurable risks offered to them. Penalties should be imposed upon employers who consistently refuse to observe reasonable regulations for the safety of employees.

Compensation insurance rates have from time to time steadily advanced in this State, especially as against the smaller employers of the State. With the enactment of legislation above suggested it may become necessary to put into effect some system of State insurance in order to provide the necessary coverage at fair rates. The subject of a State Insurance Fund is one which deserves the careful thought of the General Assembly as a measure to be put into effect in an emergency arising from failure or refusal of insurance companies to cover completely risks offered them in North Carolina at fair and reasonable rates.
Charities and Welfare

Permit me also to bring to your attention and commend for your careful consideration the report of the State Board of Charities and Public Welfare and the specific recommendations therein set out. You may not find it possible to provide for each and all of these recommendations, though their worthiness is apparent, but I bespeak for the general program the utmost possible of your consideration.

Employment Activity

The unemployment situation continues to vex the State and the Nation. If the present Federal Reemployment Service is to be continued beyond June 30, 1935, it must be supplemented by the State. It is folly for us to fail to make certain and have always available accurate information on the subject of unemployment, particularly if we are to adopt, as I trust we will, the policy of unemployment insurance. I commend for your consideration the recommendations of our Labor Department for the establishment and maintenance of a National Employment Service on a Federal-State cooperative basis. I also particularly commend and urge your careful consideration and approval of its suggestion as to provisions of legal machinery in the State for the adjustment of labor and industrial disputes.

Other Legislation

There are other subjects now being studied by Federal agencies and on which legislation may be advisable in order that North Carolina may fully participate in the new National Recovery Program. I shall not hesitate to communicate my views with reference to these subjects or Federal proposals as occasion develops or to submit appropriate suggestions for your consideration.

Veterans' Loan Fund

The Veterans' Loan Fund, authorized and financed by previous legislation, has felt, as other activities, the heavy hand of the depression. Foreclosures made necessary have accumulated, I am told, a large amount of real estate holdings and developed a situation which requires different treatment. The Commissioner in his report to you will make clear this situation, and I suggest your careful study of the whole problem, to the end that proper provision may be made for adequate administration, the safeguarding of the State's interests, and the protection of the fund for all veterans.

Constitutional Amendments

The last General Assembly provided for the submission of a number of Constitutional amendments. These submissions, however, never took place, as a result of the opinion of our Supreme Court. While some of these amendments were fiercely debated, there were others of such manifest merit that no voice was raised against them. Personally I am impressed that legitimate objections to others could be easily removed. I am particularly concerned about the opportunities which some of them would afford to liberalize our tax structure, work out reforms in our judicial system, protect against excessive debt, and provide opportunities for legislation to encourage home
building and ownership. These matters have long been of great interest to me. It is noteworthy that Federal income tax collections in North Carolina greatly exceed those paid the State, that ownership of humble homes is really penalized, and that the way to municipal debt accumulations is made comparatively easy under present Constitutional provisions. The possibility of reforming these and other conditions should not be lightly passed by. I venture to suggest, therefore, a study of this situation by you, to the end that, if possible, the undeniable benefits of some of these recommendations may be obtained for the people.

**Tax Foreclosure Laws**

Legislation by your immediate predecessor has been construed in such a way as to leave in some confusion the presently existing tax foreclosure laws. The situation should be clarified by appropriate legislation, and I shall be glad to submit suggestions as to how it may be accomplished, though your own studies no doubt will suggest the remedies.

**Generally**

During the months since the Assembly was last here our people have been through many vicissitudes. They have also experienced some real triumphs, and definite progress along the road to recovery is everywhere apparent. Greatly improved farm prices are largely responsible for this. In all activities concerning the people the Chief Executive has endeavored to play a proper part and lend the weight of his influence and the power of his office. Whether a movement for improved prices, a crusade for the Parkway in the West, and erosion enterprise in the Piedmont, the development of our ports, and all of them, in the East, our time, talents, and energies have been at all times available. Particularly too have we endeavored at all times to cooperate with each and every of the New Deal activities and in the National Recovery Program. We shall continue that attitude. And for such enterprise as you may also determine I pledge you here and now an earnest cooperation and a sympathetic understanding.

**Finally**

Men may differ in appearance, but the fundamental differential between individuals is in the character which they develop. And in the enterprise of State Government we have striven earnestly to give to this administration something of distinctive character. It may fail in many ways to achieve its objectives: it may make in the future, as no doubt it has in the past, many and grievous mistakes. But I am resolved that, failing all else, it shall at all times be characterized by an unflinching integrity, an earnest sincerity, a determined effort towards efficiency and fair play, and a broad humanitarian sympathy. Again I welcome you to the comradeship of a service to the Commonwealth and wish for each of you a real pleasure in the performance of your arduous but most important duties.
