JOINT SESSION.

At the hour of 12 o'clock the Lieutenant-Governor and President of the Senate, the Speaker of the House being present, called the joint session to order for the purpose of hearing his Excellency, the Governor, deliver his message.
The committee appointed on the part of the Senate and the House of Representatives appeared at the door and announced the presence of the Governor, who came forward and delivered his message as follows:

To the Honorable, the General Assembly of North Carolina:

The last two years has been an era of substantial progress. The energy of the State has been manifest in her industrial and social development. Agriculture has improved. Trade and manufacturing have increased. The European war has depressed values and depressed business, but already conditions are improving and the determination and intelligence of the people are prevailing over unexpected disaster. The sudden fall in the price of cotton, resulting from the closing of the markets by war, and our unprecedented crops, have caused a shock that demoralized business and discouraged enterprise. The present crop falls short of its expected value by millions of dollars. This calamity has fallen heavy. It has brought disaster to many that are industrious and worthy. The President of the United States and the Secretary of the Treasury have demonstrated that the administration at Washington is in sympathy with the producers of the country. They are exercising and are ready to exercise all the powers of the Federal Government for protection against untoward disaster. But no power of government can defy world-wide economic conditions, and any plan to valorize cotton or to compel all the people by legislation to buy this staple at a price above its market value, is in my opinion unsound morally and economically, and must result in failure and disappointment, whether attempted by the Federal Government or by the State Government. We have been blessed with years of advantageous circumstances, and will triumphantly overcome this reverse.

If the present unfortunate situation can demonstrate to our farmers the necessity of diversifying crops, of producing meat and bread at home, the present misfortune will result to our permanent good.

Within the last two years the principal differences between the people and the railroads as to transportation of merchandise have been adjusted. For years our people suffered from adverse discrimination and excessive rates. While we did not secure on interstate rates the reductions to which we were entitled, the best available adjustment was made. By this a saving estimated at $2,000,000 a year on interstate commerce was secured. But of far greater consideration is the placing of our enterprises on a fairly competitive basis with the enterprises of the State of Virginia. Industries heretofore attracted to Virginia will remain with us. Our towns and cities feel the impulse and the people will ultimately be benefited.

Charges for the transportation of freight within the State have been fixed by a commission appointed by the Governor in accordance with a statute of the last General Assembly. The railroads have applied the reduced rates fixed by the commission. Intrastate commerce will be encouraged to the welfare of all sections of the State. The people have accepted the judgment of the commission as wise and just.

A strong and determined public sentiment brought about these adjustments. The sovereignty of the people was asserted. They will deal firmly and justly with the common carriers, and it is fair to say that the railroads have come to recognize the controlling power of the people and have mani-
fested an earnest desire to conduct the transportation business as public servants in harmony with the people's will and the people's rights. The railroads and the people are now at peace. But a firm and just control must always be maintained.

I transmit to the General Assembly for careful consideration the reports of the different departments of government and institutions of the State. You will see from these reports that our State institutions, educational and eleemosynary, are performing with efficiency their respective functions, that the various departments of the State Government have been administered with ability, economy and honesty. As provided by law, these departments and institutions have been thoroughly audited and investigated by competent experts, and in the honesty of their conduct they are above reproach.

There are problems of grave importance that confront this General Assembly, and, as commanded by the Constitution, I submit to you my views and recommendations on some of the questions that you will consider.

THE FARM.

Our Department of Agriculture is doing effective work. The encouragement to better farming, the improvement of rural conditions by the improvement of schools, of roads, of sanitary conditions, by circulating libraries, by farm demonstrations, by scientific teaching, and by every feasible means should be the fixed purpose of this General Assembly. Eighty per cent of our people live upon the farms. Their destiny and the destiny of the State and of all the people of the State in all occupations is largely determined by conditions that prevail in rural communities. Thence cometh our strength, and thence the crop of men.

REVENUE AND TAXATION.

The revenue for the last two years has met all the obligations of the State. There is a small balance in the treasury above all demands. This fact must be gratifying to this General Assembly and to all the people, for it is the first time in many years that this condition has existed. Our revenue system, however, is far from satisfactory. The problem of taxation is always difficult and vital. The government must be economically administered. No extravagance has existed in this State, and none should be tolerated, but we must provide revenue for all appropriations and necessary expenses. With the State as with the individual, the elementary rule of business is to live within your means. North Carolina has ample resources with which to meet all her obligations. Within the last decade the value of all real property has enormously increased, and personal wealth has been multiplied.

We cannot repudiate the obligations of Christian civilization. Now that the land is yielding bountiful harvests, now that the stagnant towns of the last generation have grown into cities of increasing wealth, now that industry is triumphant, now that destiny is unfolding to us in grander revelation, shall we in this day of our strength not fulfill the duties of a progressive State? We must support our institutions of learning to increasing usefulness. We should listen to the appeal of the Confederate soldier, and to those stricken in mind and body. We must provide for the improvement of our rural communities and for aggressive work for the prevention of disease and for the conservation of health. In this new century, when Southern
ideals have been restored to the Union, when Southern statesmen have come again to places of power, when the future beckons to renewed effort and life, Forward is the order.

PROPERTY NOT ASSESSED.

The fault with our fiscal system is that we do not assess our property for taxation. Real estate, and especially unimproved real estate, and real estate held for speculation, have been greatly undervalued, and most of the personal property has not been listed at all. It should be understood that the quadrennial assessment will be for the purpose of lowering the rate of taxation, and with the determination of securing a more equitable and a more complete listing of taxable property. A graduated tax on inheritances should be increased, and it should be collected.

Our citizens do not refuse to return their property for taxation because they desire to take advantage of others, but for the reason that they do not desire that other men and other communities shall take advantage of them and of their communities. The property has not been equally assessed for taxation, and for this reason men are actuated by a purpose to undervalue property, and to refuse to list their solvent credits. They would be willing to submit to a square deal, but desire to protect themselves against iniquity.

The personal property of the average man cannot be concealed. The securities of the wealthy can be concealed. The average citizen pays his tax; the wealthy often escape. The Tax Commission should be clothed with plenary powers to enforce the listing of all property for taxation, and to enforce the uniform and just valuation of all property. Every citizen should bear the burdens of government in proportion to his ability. This policy should be carried out with unalterable determination.

On a subject related to the finances, I recommend that the General Assembly require the State Treasurer to give as his surety for the faithful discharge of the duties of his office a bond executed by one or more surety companies, and that this bond be paid for by the State; that the Treasurer be allowed to put out at interest all available moneys in his hands. This would yield to the State an income of many thousands of dollars a year.

PRIMARY ELECTIONS.

It is clear that the people of the State demand of the General Assembly a law providing primary elections for the nomination of candidates. This demand is in accord with the spirit of the age, and has already found legal expression in all the States of the Union with few exceptions. The Democratic party, the Republican party, and the Progressive party in State conventions have each declared for such a law. The Democratic party in convention assembled declared that: "We endorse the principle of the legalized state-wide primary for all national, State and judicial officers, and we pledge the party to the enactment of such a law as will make this principle applicable to all political parties."

The members of this General Assembly hold their commissions with the pledge to all the people for this reform. This is democracy. It gives to the people the legalized machinery that provides the opportunity for every citizen to participate in the nomination of candidates, and in the selection of the public servants that must administer the government. Political conventions and party allegiance urge the citizen to vote for the nominee of his party.
He should have a voice in their selection, otherwise the great majority really has no voice in the administration of public affairs that are of vital interest to all. The means should be provided for the full and free exercise of this right. The primary should be established by law and protected by law, and the criminal law shall deal firmly with fraud and corruption. Our elections must be pure, and our nominations must be by the full and fair expression of the popular will. Abuses have sometimes been practiced under systems not adapted to present conditions. These abuses must be eradicated and provided against. The safety of the State demands it. The preservation of confidence in popular government demands it. The obligation for this fundamental reform is with this General Assembly and with the party now in power.

INSURANCE.

The law regulating fire insurance should be amended. The rate of insurance which the people of the State must pay and the rules regulating the insurance business are now fixed by the Southeastern Underwriters Association. This monopoly controls the insurance of the South. There is no competition. The protection from fire of our homes and families, of our property and industry is a necessity. We must have insurance, and we must take this insurance under the present law from a monopoly exercising its powers unrestrained by law. We paid last year $3,733,690.17 in premiums to this monopoly. There was paid to the people of the State in compensation for losses by fire $1,679,250.77. We paid to the companies constituting this monopoly more than $2,000,000 in excess of the amount returned for losses. This $2,000,000 was not all profit, for the expense of operating the business is considerable.

The last General Assembly appointed a committee to investigate the working of these companies as affecting the people of North Carolina. This committee found that rates are not uniform, and in many instances too high, and that the rules of insurance are not equitable and just. I send to you the report of this committee. However this may be, this monopoly is a public service concern.

The Insurance Department has been ably managed and wisely managed by the Insurance Commissioner. He needs more power that he may serve the people more effectively, and exercise a control over this monopoly just as our Corporation Commission exercises control over the railroads and the other public corporations of the State. The individual citizen has not the power to deal with it on equal terms and to assert his rights. He must accept the terms proposed or be deprived of necessary protection. The State alone can deal with this monopoly, and the State will be derelict in her duty if she longer allow these corporations to fix insurance rates and to control without supervision the insurance business by their own arbitrary and unlimited power.

The General Assembly should confer upon the Insurance Commissioner the power to fix the maximum rates, and provide by statute for reasonable rules and for uniform rates on each class of property. At present the Southeastern Underwriters Association, the representative of the combined insurance companies of the South, has the power to fix the terms of the contract between these companies and the people of the State. Millions of dollars are involved in this contract, and if this monopoly, representing foreign corporations,
treat the people of North Carolina with justice and equity, it constitutes the one exception in all of our business experience. The people should have a voice in this contract. The Insurance Commissioner should have the power to represent them and to speak for them. Every argument against State supervision and control of insurance has been made against the control of every monopoly. The fallacy of all has been demonstrated by the logic of experience.

HIGHWAYS.

The people have awakened to the necessity of good roads. We realize that they are an indispensable factor for material prosperity and for social advancement. We are building more highways than ever before, and are expending thereon millions of dollars. It has been estimated by experts that from thirty to forty per cent of the money spent on public roads is relatively speaking wasted or misdirected. President Wilson, at the recent meeting of the American Road Congress in Atlanta, said:

“As important as the matter of providing additional funds may be for roads, even more important are the matters of better road administration, and of better maintenance of roads already constructed. * * * It is clear,” continued he, “that we are not getting the results we should have.”

This General Assembly should establish a highway commission composed of experts, or of men who would make a study of this improvement. They should direct the expenditure of all road money, and they should see that maintenance gets as much attention as construction.

FORESTS.

The General Assembly should provide for the protection of our forests against ravages by fire and commercialism. The forests provide the rains that water the crops. They supply and conserve the streams that turn the wheels of industry. The failure to save from ruthless destruction our magnificent wooded areas will work an irreparable damage to ourselves and to our posterity. The lumberman is now denuding the mountains—mowing down their luxuriant covering as the reaper mows a field of wheat. After him sweeps the conflagration, turning the once magnificent slopes and peaks into vast desolation of blackened ruin. We cannot expect the lumberman to sacrifice his individual interest to the public welfare. The State must exercise her power by proper regulation to save the forests, and thereby preserve to the State this priceless heritage.

STATE'S PRISON.

The State's Prison has been managed with economy, honesty and business efficiency. The report of the superintendent transmitted to the General Assembly shows the condition of the prison and the operations in which the prison has been engaged. It shows a balance to the prison's credit above the cost of maintenance. And in this account the convicts of the State have done much work on the Hickory Nut Gap Road and on the road in Madison County for which the prison has no credit.

Some years ago the State gave assistance by convict labor to certain railroad companies to enable them to construct railroads to remote and difficult places not provided with railway transportation. These convicts could have been hired to do work of the same kind at the rate of $1.50 or $1.75 a day
The appropriation of convicts was the equivalent to the appropriation of money out of the State Treasury. As direct compensation for the labor of the prisoners the State has accepted, in accordance with legislative enactment, stock in railroad companies that has no market value. The State has appropriated a value in these convicts to these railroad companies, realizing that the stock taken in payment is probably worthless. The real compensation to the State is to develop rich and inaccessible sections inhabited by a portion of our citizenship desiring and deserving the facilities of communication and transportation with other portions of the State. In this way the State has appropriated, as evidenced by stock:

To the Elkin and Alleghany Railway Company ........ $193,500.00
To the Watauga and Yadkin River Railway Company 18,000.00
To the Statesville Air Line Railway Company ........ 58,800.00
To the Mattamuskeet Railway Company ............... 99,765.00
To the Transcontinental Air Line Railway Company 17,200.00

Making a total of .................................. $387,265.00

And in addition to the above amounts, $21,564.59, for which stock has not yet been received, making in all $408,829.59.

These convicts have been appropriated under statutes vesting the power and discretion in the Governor and the Council of State to decide when such convicts should be appropriated. All of these statutes should be amended so as to clothe the board of directors of the State's Prison with this power and discretion. This power does not legitimately belong to the Governor and the Council of State. It does legitimately belong to the Prison Board. The Governor and the Council of State cannot, in the very nature of the situation, exercise the power with a thorough knowledge of the affairs of the prison and a comprehensive view of its necessities and operations. The Prison Board should have entire charge of the prison and all convicts committed to the prison. The statutes in their present form impose incongruous duties upon the Governor and Council of State. This is no longer desirable or advisable, but is an unwarranted interference with the Prison Board in its management of the prison.

**PUBLIC HEALTH.**

The State Board of Health has efficiently performed a beneficent work. By its agency sanitary conditions are improving. This department should be provided with means to continue with increasing effectiveness this most essential work for the preservation of life and for the health and happiness of all the people.

**TUBERCULOSIS.**

The problem of dealing with tuberculosis is most serious. In North Carolina it has been ascertained that eighteen thousand people are the victims of this disease. Many may have it of whom we do not know. It is an ever-present plague that stalks abroad at noonday, and one-seventh of all the deaths in the State are from this dreaded disease. The sanatorium at Montrose was established in response to the demand that something must be done for the afflicted and to stop the ravages of the plague. In my opinion this institution with its present scope and efficiency is utterly incapable of
dealing effectively with the situation. As an institution for the purpose of educating people to care for themselves and disseminate knowledge of the disease, it cannot be as effective as could a bureau established for the purpose of sending literature to every person in the State known to be afflicted. Such literature could present the situation more intelligently to the people, and with more efficacy than could be done by a few patients who are fortunate enough to secure admission to the small establishment at Montrose. There are now about ninety patients in this institution. It is most humanely and most ably managed. Yet it is altogether inadequate to deal with this stupendous proposition that so vitally affects the people. It has done good in individual instances, but there are thousands in the State who cannot gain admittance, and who will desire admittance when its efficiency is recognized. This institution can never care for those entitled to admission. On the present plan the whole revenue of the State could not meet the demand. It is one of the highest obligations of the State to deal with this disease, to do all possible to prevent it, and to cure those who have it. I hope that this General Assembly can work out a practical method that will be effective.

THE STATE'S INSTITUTIONS.

I am satisfied that it would be economy and good business that all the institutions of the State, with the exception of the State's Prison, should be put under the management of one board of not more than five members. This board should have charge of and direct supervision of the business management of these institutions. I am satisfied that such a system would save to the State thousands of dollars every year. But if the General Assembly should not see proper to adopt this view, I recommend that the General Assembly direct that the Governor require that each State institution shall make to him in such form and detail as he may prescribe a monthly or weekly report as to their business management and condition. This would give the Governor at all times a clear insight into the workings of our institutions, and accomplish much in the way of economy and uniform business efficiency.

CHILD LABOR.

The last General Assembly enacted a statute compelling the attendance of children upon the public schools. This statute should be enforced. The child cannot work at manual labor to advantage, but his mind is eager for knowledge and most attentive. His character is responsive to culture. The factory is no place for the child. The drudgery of toil is not his rightful inheritance, before his bones are hard or his muscles are firm. If we grind the seed corn, there will be a failure in the crop of men. We should have upon our statute books a law forbidding children of tender years to work in mills or factories, and limiting the hours of labor of those who are of sufficient age to work. This law should provide that women shall not work at night in the mills. Motherhood should not be condemned to such service. And this law should be vitalized with safeguards for its enforcement. If, in our most progressive centers of industry and thrift, the family cannot live without the work of children and the drudgery of women, then our civilization has broken down and is a failure.

I commend the mill men of North Carolina for the humane spirit with
which they have cared for the health and education of their employees and the children of their employees.

WESTERN TRAINING SCHOOL.

The General Assembly should earnestly consider the establishing of additional training schools for teachers for the western part of the State. We are paying out large sums to teachers who, by reason of circumstances and lack of convenient schools of proper character and facilities, have not been able to equip themselves efficiently for their work. Salaries paid for inefficient teachers must result in a more serious loss to the State than salaries paid for inefficient work in any other business or profession. We must create facilities which are convenient and within the reach of those who must teach the children of the State. A splendid and well equipped school has been established in the east. For a number of terms the Legislature has considered a school for the western section similar to that established at Greenville. The west desires this school located at some convenient point within reach of many counties not yet provided for. Many superintendents have brought to my attention the absolute need of such a school. I earnestly recommend that a school similar to the school at Greenville be established at some point in the western part of the State, located to serve the people of that locality. It would result in inestimable benefit to the people and stimulate our intellectual as well as material development.

ADMINISTRATIVE OFFICERS SHOULD BE APPOINTED BY THE GOVERNOR.

If, in obedience to the expressed wishes of all political parties, we provide primary elections for the nomination of State and federal officers, it would be difficult if not impossible for the people to exercise an intelligent choice in the nomination of administrative officials. The people can and do center their view upon those who would stand at the head of the government. The whole trend of thought of the age is for the short ballot, for the direct responsibility to the people of those whom they can know and can intelligently select. If this General Assembly should clothe the Governor with the power to appoint all of the administrative officials of the State, except those named in the Constitution, it would accomplish a reform of immense benefit. President Wilson once said, "Put all your eggs in one basket and watch that basket." The Governor to a large extent is held responsible for the affairs of his administration. Give him the power to select the men that shall direct those affairs. Hold him responsible, and he will be responsive to the people's will. The terms of the present incumbents of these positions would of course not be affected. They are all able and faithful public servants. Their appointment by the Governor would unify the administration and increase the efficiency of the government.

You come as the representatives of the people to write the statutes of a State pressing forward to nobler achievements. We look to you for the policies that will direct us in the way of substantial progress and encourage to renewed energy. You will perform your task with fidelity and courage, and may you be guided by the wisdom and be sustained by the strength vouchsafed to all who are steadfast in the resolve to do right.

Locke Craig,
Governor of North Carolina.

January 7, 1915.
Upon motion of Senator McNeely, the joint session adjourns and the Senators retire to their chamber where the Senate reconvened.

Upon motion of Senator Ward, Senator Polk is granted a leave of absence until Tuesday.

Upon motion of Senator Chatham, Senator Giles is granted a leave of absence until Monday.

Upon motion of Senator Gardner, Senator Currin is granted a leave of absence until Tuesday.

REPORTS OF COMMITTEES.

Senator Gardner, for the Committee on Rules, makes the following report:

RULES.

ORDER OF BUSINESS.

1. The President having taken the chair at the hour to which the Senate shall have adjourned, and a quorum being present, the Journal of the preceding day shall be read unless otherwise ordered by the Senate, to the end that any mistake may be corrected.

2. After reading and approval of the Journal the order of business shall be as follows:

   (1) Reports of standing committees.
   (2) Reports of select committees.
   (3) Announcement of petitions, bills and resolutions.
   (4) Unfinished business of preceding day.
   (5) Special orders.
   (6) General orders. First, bills and resolutions on third reading; second, bills and resolutions on second reading; but messages from the Governor and House of Representatives and communications and reports from State officers and reports from the Committees on Engrossed Bills and Enrolled Bills may be received and acted on under any order of business.

POWERS AND DUTIES OF THE PRESIDENT.

3. He shall take the chair promptly at the appointed time and proceed with the business of the Senate according to the rules adopted. At any time during the absence of the President the President pro tempore, who shall be elected, shall preside, and he is hereby vested during such time with all powers of the President except that of giving a casting vote in case of a tie when he shall have voted as a Senator.

4. He shall assign to doorkeepers their respective duties, and shall appoint such pages and laborers as may be authorized by the Senate, each of whom shall receive the same compensation as is now provided by law.
5. The President and Clerk of the Senate shall see that all bills shall be acted upon by the Senate in the order in which they stand upon the Calendar unless otherwise ordered, as hereinafter provided. The Calendar shall include the numbers and titles of bills and joint resolutions which have passed the House of Representatives and have been received by the Senate for concurrence.

6. The Clerk shall certify the passage of bills by the Senate, with the date thereof, together with the fact whether passed by a vote of three-fifths or two-thirds of the Senate, whenever such vote may be required by the Constitution and laws of the State.

ON THE RIGHTS AND DUTIES OF SENATORS.

7. Every Senator presenting a paper shall endorse the same; if a petition, memorial, or report to the General Assembly, with a brief statement of its subject or contents, adding his name; if a resolution, with his name; if a report of a committee, a statement of such report, with the name of the committee and member making the same; if a bill, a statement of its title, which shall contain a brief statement of the subject or contents of the bill, with his name; and all bills, resolutions, petitions and memorials shall be delivered to the Clerk and by him handed to the President to be by him referred, and he shall announce the titles and references of the same, which shall be entered on the Journal.

8. All motions shall be reduced to writing, if desired by the President or any Senator, delivered at the table and read by the President or Clerk before the same shall be debated; but any such motion may be withdrawn by the introducer at any time before decision or amendment.

9. If any question contains several distinct propositions it shall be divided by the President, at the request of any Senator: Provided, each subdivision, if left to itself, shall form a substantive proposition.

10. When the President is putting a question, or a division by counting shall be had, no Senator shall walk out of or across the house, nor when a Senator is speaking pass between him and the President.

11. Every Senator wishing to speak or debate, or to present a petition or other paper, or to make a motion or report, shall rise from his seat and address the President, and shall not proceed further until recognized by him. No Senator shall speak or debate more than twice nor longer than thirty minutes on the same day on the same subject without leave of the Senate, and when two or more Senators rise at once the President shall name the Senator who is first to speak.

12. Every Senator who shall be within the bar of the Senate when the question is stated by the chair shall vote thereon, unless he shall be excused by the Senate or unless he be directly interested in the question, and the bar of the Senate shall include the entire Senate Chamber.

13. When a motion to adjourn or for recess shall be affirmatively determined, no member or officer shall leave his place until adjournment or recess shall be declared by the President.
14. The following committees shall be named by the Lieutenant-Governor:

On Agriculture.
On Appropriations.
On Banks and Currency.
On Claims.
On Commerce.
On Congressional Apportionment.
On Constitutional Amendments.
On Corporation Commission.
On Corporations.
On Counties, Cities and Towns.
On Distribution of Governor's Message.
On Education.
On Election Law.
On Engrossed Bills.
On Federal Relations.
On Finance.
On Fish and Fisheries.
On Feeble Minded.
On Game Law.
On Immigration.
On Insane Asylums.
On Institutions for the Blind.
On Institutions for the Deaf.
On Insurance.
On Internal Improvements.
On Journal.
On Judicial Districts.
On Judiciary No. 1.
On Judiciary No. 2.
On Manufacturing.
On Military Affairs.
On Mining.
On Penal Institutions.
On Pensions and Soldiers Home.
On Propositions and Grievances.
On Public Health.
On Public Roads.
On Railroads.
On Rules.
On Salaries and Fees.
On Senate Expenditures.
On Shellfish.

JOINT COMMITTEES.

15. On Enrolled Bills.
On Justices of the Peace.
On Library.
On Printing.
On Public Buildings and Grounds.
On Trustees of University.
On Revisal.

16. The Committee on Engrossed Bills shall examine all bills, amendments and resolutions before they go out of the possession of the Senate, and make a report when they find them correctly engrossed: Provided, that when a bill is typewritten and has no interlineations therein, and has passed the Senate without amendment, it shall be sent to the House without engrossment, unless otherwise ordered.

17. The Committee on Appropriations shall carefully examine all bills and resolutions appropriating or paying any moneys out of the State Treasury, keep an accurate record of the same, and report to the Senate from time to time.

18. Every report of the committee upon a bill or resolution which shall not be considered at the time of making the same, or laid on the table by a vote of the Senate, shall stand upon the general orders with the bill or resolution; and the report of the committee shall show that a majority of the committee were present and voted.

19. That no committee shall be composed of more than nine members unless the Lieutenant-Governor shall, without objection from the Senate, appoint a greater number on any committee.

ON GENERAL ORDERS AND SPECIAL ORDERS.

20. Any bill or other matter may be made a special order for a particular day or hour by a vote of a majority of the Senators voting, and if it shall not be completed on that day it shall be returned to its place on the Calendar, unless it shall be made a special order for another day; and when a special order is under consideration it shall take precedence of any special order or subsequent order for the day, but such subsequent order may be taken up immediately after the previous special order has been disposed of.

21. Every bill shall receive three readings previous to its being passed, and the President shall give notice at each whether it be the first, second or third. After the first reading, unless a motion shall be made by some Senator, it shall be the duty of the President to refer the subject matter to an appropriate committee. No bill shall be amended until it shall have been twice read.

PROCEEDINGS WHEN THERE IS NOT A QUORUM VOTING.

22. If, on taking the question on a bill, it shall appear that a constitutional quorum is not present, or if the bill require a vote of a certain proportion of all the Senators to pass it, and it appears that such number is not present, the bill shall be again read and the question taken thereon; if the bill fail a second time for the want of the necessary number being present and voting, the bill shall not be finally lost, but shall be returned to the Calendar in its proper order.

PRECEDENCE OF MOTIONS.

23. When a question is before the Senate no motion shall be received except those herein specified, which motions shall have precedence as follows, viz.:

(1) For an adjournment.
(2) To lay on the table.
(3) For the previous question.
(4) To postpone indefinitely.
(5) To postpone to a certain day.
(6) To commit to a standing committee.
(7) To commit to a select committee.
(8) To amend.
(9) To substitute.

24. The previous question shall be as follows: "Shall the main question be now put?" and until it is decided shall preclude all amendments and debate. If this question shall be decided in the affirmative, the "main question" shall be on the passage of the bill, resolution or other matter under consideration; but when amendments are pending the question shall be taken up on such amendments, in their order, without further debate or amendment. However any Senator may move the previous question and may restrict the same to an amendment or other matter then under discussion. If such question be decided in the negative, the main question shall be considered as remaining under debate.

25. When the motion for the previous question is made and pending the second thereto by a majority, debate shall cease, and only a motion to adjourn or lay on the table shall be in order, which motions shall be put as follows: Adjourn; previous question; lay on the table. After a motion for the previous question is made, pending a second thereto, any member may give notice that he desires to offer an amendment to the bill or other matter under consideration; and after the previous question is seconded such member shall be entitled to offer his amendment in pursuance of such notice.

**OTHER QUESTIONS TO BE TAKEN WITHOUT DEBATE.**

26. The motions to adjourn and lay on the table shall be decided without debate, and the motion to adjourn shall always be in order when made by a Senator entitled to the floor.

27. The respective motions to postpone to a certain day, or to commit, shall preclude debate on the main question.

28. All questions relating to priority of business shall be decided without debate.

29. When the reading of a paper is called for, except petitions, and the same is objected to by any Senator, it shall be determined by the Senate without debate.

30. Any Senator requesting to be excused from voting may make, either immediately before or after the vote shall have been called, and before the result shall have been announced, a brief statement of the reasons for making such request, and the question shall then be taken without debate. Any Senator may explain his vote on any bill pending by obtaining permission of the President before the vote is put: Provided, that not more than three minutes shall be consumed in such explanation.

**QUESTIONS THAT REQUIRE A TWO-THIRDS VOTE.**

31. No bill or resolution on its third reading shall be acted on out of the regular order in which it stands on the Calendar, and no bill or resolution shall be acted upon on its third reading the same day on which it passed its second reading unless so ordered by two-thirds of the Senators present.
32. No bill or resolution shall be sent from the Senate on the day of its passage except on the last day of the session, unless otherwise ordered by a vote of two-thirds of the Senators present.

33. No bill or resolution, after being laid upon the table upon motion, shall be taken therefrom except by a vote of two-thirds of the Senators present.

DECORUM IN DEBATE.

34. No remark reflecting personally upon the action of any Senator shall be in order in debate unless preceded by a motion or resolution of censure.

35. When a Senator shall be called to order he shall take his seat until the President shall have determined whether he was in order or not; if decided to be out of order he shall not proceed without the permission of the Senate, and every question of order shall be decided by the President, subject to an appeal to the Senate by any Senator; and if a Senator is called to order for words spoken, the words excepted to shall be immediately taken down in writing, that the President or Senate may be better enabled to judge of the matter.

MISCELLANEOUS RULES.

36. When a blank is to be filled, and different sums or times shall be proposed, the question shall be first taken on the highest sum or the longest time.

37. When a question has been once put and decided, it shall be in order for any Senator who shall have voted in the majority to move a reconsideration thereof; but no motion for the reconsideration of any vote shall be in order after the bill, resolution, message, report, amendment or motion upon which the vote was taken shall have gone out of the possession of the Senate; nor shall any motion for reconsideration be in order unless made on the same day or the next following legislative day on which the vote proposed to be reconsidered shall have taken place, unless the same shall be made by the Committee on Enrolled Bills for verbal or grammatical errors in the bills, when the same may be made at any time. Nor shall any question be reconsidered more than once.

38. All bills and resolutions shall take their place upon the Calendar according to their number, and shall be taken up in regular order, unless otherwise ordered.

39. No smoking shall be allowed within the Senate chamber during the sessions.

40. Senators and visitors shall uncover their heads upon entering the Senate chamber while the Senate is in session, and shall continue uncovered during their continuance in the chamber.

41. No Senator or officer of the Senate shall depart the service of the Senate without leave, or receive pay as a Senator or officer for the time he is absent without leave.

42. No person other than the executive and judicial officers of the State, members and officers of the Senate and House of Representatives, unless on invitation of the President or by a vote of the Senate, shall be permitted within the bar.

43. No rule of the Senate shall be altered, suspended or rescinded except on a two-thirds vote of the Senators present: Provided, that a majority of all the Senators elected may change the rules at any time.
44. In case a less number than a quorum of the Senate shall convene, they are authorized to send the doorkeeper, or any other person, for any or all absent Senators, as a majority of the Senators present shall determine.

45. The ayes and noes may be called for on any question before the vote is taken, and if seconded by one-fifth of the Senators present, the question shall be decided by the ayes and noes, and the same shall be entered upon the Journal.

46. When any committee shall decide that it is advisable to employ a clerk for such committee, the chairman of the committee shall first obtain the consent of the Senate for such employment, and if the Senate shall allow the clerk as requested, he shall be appointed by the Lieutenant-Governor upon the recommendation of the committee.

47. Every bill introduced into the Senate shall be printed or typewritten. Amendments need not be typewritten.

48. The Clerk of the Senate shall provide a box of sufficient size, with an opening through the top, for the reception of bills; such box shall be kept under lock and key and shall be stationed on the Clerk's desk. The President of the Senate shall have in his charge and keeping the key to such box. All bills which are to be introduced into the Senate shall be deposited in such box before the session begins. At the proper time the President shall open the box and take therefrom the bills. Such bills shall be read by their titles, which reading shall constitute the first reading of the bill, and unless otherwise disposed of shall be referred to the proper committee. A bill may be introduced by unanimous consent at any time during a session.

49. The Chief Engrossing Clerk of the Senate shall appoint, with the approval of the President of the Senate, as his assistants not more than three competent stenographers and typewriters. Such stenographers and typewriters shall work under the direction and supervision of the Engrossing Clerk. They shall also make for the member of the General Assembly who introduces a bill, without extra cost, one original and two carbon copies of all bills.

50. The Journal of the Senate shall be typewritten in duplicate original and carbon, the original to be deposited in the office of Secretary of State as the record, and the other (carbon) copy to be delivered to the State Printer.

51. That in case of adjournment without any hour being named, the Senate shall reconvene the next legislative day at 11 o'clock a. m.

52. All bills and resolutions reported unfavorably by the committee to which they were referred, and having no minority report, shall lie upon the table, but may be taken from the table and placed upon the Calendar at the request of any Senator.

53. When a bill is materially modified or the scope of its application extended or decreased, or if the county or counties to which it applies be changed, the title of the bill shall be changed by the Senator introducing the bill or by the committee having it in charge, or by the Engrossing Clerk, so as to indicate the full purport of the bill as amended and the county or counties to which it applies.

MESSAGE FROM THE HOUSE OF REPRESENTATIVES.

A message is received from the House of Representatives transmitting the following resolution, which is read and disposed of as follows:

S. R. 50, H. R. 108, a resolution for holding a joint session of both houses
for canvassing the election returns for State officers and United States Senator.

Placed on the Calendar.

Upon motion of Senator Johnson of Duplin, the resolution passes its second and third readings and is ordered enrolled.

A message is received from the House of Representatives informing the Senate that the House is now ready to receive this body in joint session to witness the canvass of the votes for Corporation Commissioner and United States Senator cast at the last general election.

The President announces that in accordance with law and the resolution referred to above, the Senators will now proceed to the House of Representatives for the purpose of canvassing the vote cast for the various officers at the last general election.

JOINT SESSION.

CANVASS OF VOTES FOR STATE OFFICERS.

The hour of 12 o'clock having arrived, the Senate proceeds to the hall of the House of Representatives, preceded by its officers, where they are received by the members of the House, standing.

The Senators are assigned seats, and the President of the Senate, Hon. E. L. Daughtridge, calls the joint assembly to order.

The Principal Clerks of the Senate and the House of Representatives call the roll of their respective bodies.

The Principal Clerk of the Senate thereupon announces that there are thirty-two Senators present, and the Principal Clerk of the House announces that one hundred and nine members of the House are present.

The President of the Senate announces that it appears that a quorum of both houses are present and that the joint assembly is ready to proceed with the canvass of the returns for the offices of United States Senator and Corporation Commissioner, and appoints on the part of the Senate Senators Johnson of Duplin and Fisher as tellers.

The Speaker of the House appoints as tellers on the part of the House Representatives Coughenour and Faircloth.

The announcement of the vote in the several counties is then proceeded with, and at its conclusion the tellers report as follows:

Mr. President of the Senate and Speaker of the House of Representatives:

Your tellers, appointed on the part of the House of Representatives and the Senate to tabulate the vote for State officers counted at a joint meeting of the General Assembly on January 12, 1915, beg leave to report that we have performed that duty and found that the following votes were cast at the election held on the 3d day of November, 1914, for the following persons, to wit:

FOR UNITED STATES SENATOR.

Greer Parsons .............................................. 86,901
H. C. Jenkins ............................................. 425
Franklin McNeill ........................................... 1
H. J. Oliver ................................................ 1

We report that the following persons have received the highest number of votes cast for their respective offices, viz.:

For United States Senator, Lee S. Overman.
For member of Corporation Commission, Edward L. Travis, and that they should be declared elected.

Respectfully submitted,

R. D. Johnson,
W. H. Fisher,

Tellers on the part of the Senate.
Wm. C. Coughenour, Jr.,
Cyrus M. Faircloth,

Tellers on the part of the House.

Upon motion of Senator McAuley, the above report is adopted.
The Speaker thereupon announces that the votes from all the counties of the State having been compared and counted and as a result of that count declares that Lee S. Overman, having received a majority of the votes cast for United States Senator at the election held on the 3d day of November, 1914, is declared duly elected for a term of six years beginning on the 4th day of March, 1915.

That E. L. Travis, having received the highest number of votes cast for Corporation Commissioner at the same election, is declared duly elected for a term of six years.

On motion of Senator Johnson of Duplin, the joint session adjourns and the Senators return to their chamber.

APPOINTMENT OF CLERKS.

Upon motion of Senator Chatham, the Senate authorizes the employment of a clerk by the Finance Committee.
The President announces the appointment of Alfred Houser for that position.

Upon motion of Senator Johnson of Duplin, the Senate authorizes the employment of a clerk by the Committee on Counties, Cities and Towns.
The President announces the appointment of R. S. Sloan for that position.

Upon motion of Senator Miller, the Senate authorizes the employment of a clerk by the Committee on Appropriations, the Committee on Judiciary No. 1, and the Committee on Judiciary No. 2.

COMMUNICATIONS.

Communications are received and read as follows:

HON. E. L. DAUGHRIDGE, Raleigh, N. C.

MY DEAR GOVERNOR:—The new Federal Court Building will be opened on January 18th at 8 p. m., at which time a portrait of the Hon. Asa Biggs, late Judge of the United States District Court, will be presented by his grandson, the Hon. J. Crawford Biggs. Mr. F. S. Spruill, of Rocky Mount, will make an address of presentation. I desire to extend to you an invitation with the request that you extend to the members of the North Carolina Senate now in session a cordial invitation to be present on that occasion. I venture to think that the presence of the Senators and Representatives of the people of North Carolina, with their executive and judicial associates, will be interpreted by the people as another illustration of the cordial and harmonious relations existing between themselves and the judiciary of the Federal Government. I am, personally and officially, deeply interested in doing all within my power to promote this patriotic and, I think, beneficial result.

With assurances of my high regard, I am,

Very sincerely yours,

H. G. CONNOR.

HON. E. L. DAUGHRIDGE, President of the Senate, Raleigh, N. C.

DEAR SIR:—By direction of the superintendent I herewith transmit a copy of the monthly pay roll of this hospital, showing the names of all persons in the employment of the institution and the amounts paid to them severally.

Yours very respectfully,

J. W. BRYAN,

Steward Eastern Hospital.

The superintendent, farmer, gardener, dairyman, and storekeeper are furnished with house, lights, fuel; the steward, house, lights, fuel, and board furnished for himself. The male attendants who receive $18 are furnished house, lights, fuel, and board for themselves. All other employees receive board.

An invitation from Jas. I. Johnson, Mayor of the City of Raleigh, is received as follows:

By the courtesy of the Speaker there will be a mass meeting in the House of Representatives, tomorrow, Sunday, at 3:30 p. m., in the interest of wayward and misdirected children.

Rev. Crawford Jackson, general secretary of the Juvenile Protective Association of the South, with headquarters in Atlanta, but whose home is Guilford College, N. C., will speak on the subject: “Three Delinquents—the Delinquent Child, the Delinquent Parent, and the Delinquent State.” Governor Craig, while not agreeing to speak because of the lack of time for preparation, has cheerfully agreed to be present and say “amen,” inasmuch as he is heartily in sympathy with the juvenile court and probation system which is proposed for North Carolina. Senator Ward and Representative Roberts will speak.

All members of this body are cordially invited to be present.

Respectfully yours,

Jas. I. Johnson,
Mayor of the City of Raleigh.

A letter is received from Hon. O. V. Hanger, Clerk of the Senate of Virginia, transmitting the following resolution of that honorable body:

Whereas, The Legislatures of the States of North Carolina and Virginia are holding sessions simultaneously for the first time in many years, and

Whereas, There are no two States in the Union more near allied in general characteristics and especially in the spirit of service to the whole country, therefore, be it

Resolved, By the House of Delegates of Virginia, the Senate concurring, that we felicitate the Legislature of North Carolina under the auspicious circumstances under which it has assembled, and extend to it our cordial good wishes for the success of its labors and the assurance of our continued affectionate interest in the permanent prosperity of our neighboring sister commonwealth.

Agreed to by the Senate.

January 14, 1915.

O. V. Hanger,
Clerk of Senate.

Upon motion of Senator Cohoon the President of the Senate is authorized to appoint a committee of two to draft a suitable resolution in answer to that received from the General Assembly of the Commonwealth of Virginia, and he appoints thereon Senators Cohoon and Johnson of Duplin.
A message is received from his Excellency, the Governor, transmitting the biennial report and recommendation of the State Insurance Commissioner, which is referred to the Committee on Insurance.

To the Honorable General Assembly of North Carolina:

The General Assembly of North Carolina of 1913, at its special session adopted the following resolution (Resolution No. 9, Public Laws, Extra Session, 1913):

"Whereas, The troops from North Carolina who participated in the battle of Gettysburg July first, second and third, one thousand eight hundred and sixty-three, composed a large part of the flower of the Confederate Army, and in the fateful charge of the last day her dead were found further to the front than those from any other State, and her losses equaled if not exceeded those from any other Southern State, and no suitable monument has ever been erected to commemorate their valor and daring: therefore, be it

Resolved, by the House of Representatives, the Senate concurring:

Section 1. That the North Carolina Historical Commission be and it is hereby authorized and directed to procure a design for a suitable monument to be erected by and with the consent of the State of Pennsylvania and the Congress of the United States, on the battlefield of Gettysburg, to commemorate the gallantry and daring of the North Carolina troops who participated in the great battle of July first, second, and third, one thousand eight hundred and sixty-three, and that the said Historical Commission shall submit to the session of the General Assembly of one thousand nine hundred and fifteen said design, and estimate of the cost of the execution and erection of said monument.

Ratified this the 13th day of October, A. D. 1913."

Acting under the instructions of the Commission I have the honor to report in compliance with the requirements of the above resolution that insomuch as no funds were appropriated by said resolution to enable the Historical Commission to carry out this purpose, the Commission was not able to invite the sculptors of the country to submit competitive designs. However, Mr. Augustus Lukeman, a well known sculptor of New York City, having become interested in the subject and appreciating its possibilities from an artistic point of view, has made and submitted, without cost to the Historical Commission and without any obligations on its part, a suggestive design which I have the honor, on behalf of the Historical Commission, to lay before you for your consideration. The sculptor estimates that the erection of the monument provided for by this design will cost $25,000.

It is understood, of course, that if your honorable body thinks proper to make an appropriation for the purpose of commemorating the valor, suffering and patriotism of North Carolina troops at Gettysburg, no obligations rest upon the State to accept the design submitted, but that the best American sculptors will be invited to submit designs, and from these the one most suitable for the purpose will be selected and erected.

It is the opinion of the Historical Commission that if a monument is erected on the battlefield of Gettysburg, it should be an equestrian statue to one of the distinguished North Carolina generals who led her troops in that great battle.

Respectfully submitted,

J. Bryan Grimes, Chairman.

In addition to the above, there is a weekly pay roll of about $250 when the school is in operation, and about $25 at other times. This is for day labor employed in the power plant, on the grounds, in the laundry, kitchen and dining room, infirmary, dormitories and administration building, and necessarily varies. The most of the expense is met by money received from the students in fees and for board.

Respectfully submitted,  
ROBT. H. WRIGHT,  
President.

A message is received from his Excellency, the Governor, transmitting the report of the Special Legislative Committee for the Location of the State Institution for the Blind, as follows:

To the General Assembly of North Carolina, Session 1915:

We, the undersigned committee, acting under and by authority of Chapter 77 of the Public Laws of the Special Session for 1913, Section 4, respectfully submit the following report, to wit:

1. We have carefully examined the property belonging to the Blind Institution located at Raleigh, N. C. We find that the square in the City of Raleigh, containing a little over four acres, and upon which the buildings wherein the white children are kept, is inadequate, and unsuitable for the needs of said children. The grounds are too small to permit the children to take a reasonable amount of exercise. The buildings are unsuitable and unsafe for the purposes of the inmates, for that they are old and have been bolted together to keep them from falling, and we consider them entirely unsafe, and especially the old building. The hallways on the third floor are only four feet wide and in some parts the stairways are so narrow that it would be impossible for the children to get out in case of fire. In our opinion these buildings, with one exception, are but fire traps, and it would be criminal on the part of the State to continue to house its blind in these buildings. In case of fire the children could not possibly be gotten out of the old building, due to its construction, and the natural result would be death.

2. That the accommodations for the colored blind and deaf are better than those for the white, and, yet, these accommodations are not what they should be, because they are crowded and have but little room in which to take exercise for their health—being, as the the buildings for white blind and deaf children, in the heart of the City of Raleigh.

3. That the thirty or thirty-five acres of land, owned by the Institution for the Blind and Deaf and located in East Raleigh, is unfenced and exposed to the depredations of all classes of citizens, both black and white; being used
for trucking purposes, but little proceeds are derived therefrom. The land is poor, hilly and badly washed; and is not fit for trucking purposes or cultivation by the Institution.

4. That the eighty-seven-acre tract of land purchased by the State, upon which it is proposed to locate the Institution, has no buildings on it, and is cut off by three railroads, and cannot be approached by any street except on the west side, and this street or road is, and has been, in bad condition—there is no street car line by which this plat of land can be reached—and it is too inaccessible for children to come into the city when an occasion should demand. It would be necessary to fence this ground off by a secure fence in order that the lives of the children should at all times be safe, on account of the great number of trains passing on the railroad tracks bounding this plat of land.

5. We have advertised and written to the leading towns and cities in the State, asking for appropriations and sites for the location of the Institution. That the City of Raleigh has offered no inducements to retain the Institution—save and except to save the State harmless in the erection of a bridge across the Southern and Seaboard railroad track passing on the north side of the eighty-seven-acre plat. That, under the act of the Legislature appointing your committee, we find that Section 4 of said act provides that upon the sale of the thirty-five-acre tract in East Raleigh, authorized by joint resolution No. 16 of the Special Session of 1913, that the parties from whom the eighty-seven-acre tract was purchased shall receive from the proceeds of the sale of said land, when sold, the sum of $4,610, and your committee is advised that this sum is demanded by the Greater Raleigh Land Company.

6. That the City of Salisbury, or the Salisbury Military School, has filed with your committee a proposition, which is hereto attached and made a part of this report, in which they offered the State the following property, to wit:

Forty acres of valuable land lying west of the City of Salisbury, in Rowan County, N. C., and that the building for the Salisbury Military School is located on said land, which building is now in course of construction, and can be easily converted into an ideal building for the Institution for the Blind. It being 261 feet long, 90 feet wide, and three stories high, and one of the most modern buildings in the State of the kind. It contains pool room 15 by 50 feet, with an average depth of 4½ feet; one bowling alley, 20 by 58 feet; one gymnasium hall 42 by 60 feet; one dining room, 50 by 50 feet; one kitchen, 25 by 50 feet; one laundry and furnace room under dining room and kitchen, 25 by 50 feet; on the first floor there are several offices and reception rooms, each 15 by 19 feet. In the building as it is now arranged there are forty-eight student rooms, each 12 by 18 feet, each room having two closets, and can easily accommodate four children to the room; six teachers' rooms, with private bath; nine class rooms, 20 by 28 feet; eight infirmary rooms on third floor with two bath rooms connected; an auditorium 50 by 50 feet, with gallery and stage, 25 by 50 feet, with six dressing rooms connected; on the second floor there are three reading rooms, 15 by 18 feet; three large lavatory rooms on the fourth floor; one large trunk room on fourth floor, 21 by 50 feet, and there is a freight elevator in one end of the building which is so constructed that it can be used for all purposes. That any or all of the large rooms in this building are so constructed that they could be changed into dormitory rooms or made smaller for other purposes, and still have...
plenty of light and ventilation. The estimated cost in the beginning was $55,000. That in addition to the offer above referred to they offer as much land as the State may need up to 200 acres, at the sum of $100 per acre, all of which lies well for cultivation and building purposes except a small amount on either side of Grant's Creek which is valuable for cultivation and grading purposes. That said property is located about one mile west from the center of the City of Salisbury on the macadam road leading in the direction of Mocksville, and in our opinion this is an ideal place for the location for the State School for the Blind and Deaf. The building now on said property could be used as a central building, and if the State so desired, the cottage system could be easily adopted, the land lying well for said purpose. Your committee has searched over this State for a location for said Institution and compared all propositions for sites, and we consider the offer made by the Salisbury Military School at Salisbury, N. C., the very best, and an ideal one, and one that the State of North Carolina cannot afford to reject.

That if the Salisbury site is accepted on the part of the State, in our opinion, the State would be in no way handicapped, and would have a site upon which it could build for years to come for the benefit of the blind and deaf in the State, with room for both white and black, and could separate them by, if necessary, a creek.

7. That we, your committee, recommend that the State of North Carolina do accept the offer made by the Salisbury Military School, at Salisbury, N. C. We further recommend that all of the property in and around the City of Raleigh, belonging to the State School for the Blind and Deaf, including the eighty-seven acres purchased on April 18, 1913, be sold and the money arising therefrom be invested on the site offered by the Salisbury Military School at Salisbury, N. C., and that the State purchase at least 100 acres of land in addition to the forty acres included in the aforesaid offer.

8. Your committee finds that on the 18th day of April, 1913, the Greater Raleigh Land Company, of the City of Raleigh, executed deed to the eighty-seven-acre tract herein referred to, for the sum of $30,000 and that said sum of $30,000 was accepted by said land company, as is evidenced by their deed, as the purchase price for said land in fee simple. Said deed is recorded in the office of register of deeds for Wake County, in Book No. 276, on page 146, and shows for itself. We further find that, during the Extra Session of the Legislature for 1913, that Chapter 77 was passed, and that in Section 4 of said Act, it was provided, together with Joint Resolution No. 16, that the Board of Directors of the Institution for the Blind be authorized to sell the 30 or 35-acre tract in East Raleigh, belonging to said Institution, and that they pay, when said land was sold, to the Greater Raleigh Land Company the sum of $4,610 out of the proceeds of sale of said land, and that your committee is informed that said company is demanding said sum of money after having executed their deed in fee simple and delivered the same, and after having accepted $30,000 as purchase price therefor. That your committee further finds from a report made to us by the executive board of said Institution that said deed was delivered to the State and that $30,000 accepted by said land company as full payment on the part of the State for said land and that the State would not pay any further sum whatever for said property; the said land company having been notified by the executive board of said Institution that they could either accept the $50,000 or that the deal was off, and that

8—Senate Jour.
the State would not accept the said land, and after receiving said proposition the land company accepted the $30,000 and closed the trade.

9. We, your committee, recommend that that part of Section 4, Chapter 77, of the Public Laws of the Special Session for 1913, appropriating $4,610 be repealed by the present Legislature, and that the State do not pay any further sum as provided in said section, together with Joint Resolution No. 16, for that the State, as we find from the evidence, has complied with her contract in every respect.

All of which is respectfully submitted.

J. J. Jones,
T. T. Thorne,
R. E. Austin,
G. C. Pickard,
Committee.

The Salisbury Industrial Club having invited the committee of the Legislature of the Session of 1913 having under consideration the removal of the Blind Institution from the City of Raleigh to some other city or town in the State, to visit Salisbury and look over the property of the Salisbury Military School, Incorporated, which is hereby offered for the Blind Institute of the State of North Carolina, the following proposition is made to said committee as an inducement for them to recommend the change in location of the Blind Institute now at Raleigh to the property of the Salisbury Military School located at Salisbury, North Carolina.

The proposition includes forty acres of land on the west side of the new Mocksville Avenue, just outside the corporate limits of the City of Salisbury. It is situated on a good macadam road about two and one-half blocks from the car line, which will be extended by the North Carolina Public Service Company, and about three and one-half blocks from a side-track of the Southern Railway Company, which can also be extended to the grounds. The forty-acres is practically all level land and slightly sloping to the southwest, bounded on the northwest by Grant's Creek, which will afford ample sewage disposal. The Salisbury water is conveyed to this property and in the buildings by a four-inch main, sufficient for fire protection, the same as the city has in many sections. The electric lights and gas will be run to the property, the electric lights being now within one block of the property.

On the property is a building in course of construction that is 261 feet long, will average 90 feet in width, is three stories with basement, and the center part is four stories high. It contains one swimming pool 15 feet by 50 feet, with an average depth of 4½ (four and one-half) feet; one bowling alley 20 feet by 58 feet; one gymnasium hall 42 feet by 60 feet; three lounging rooms, each 16 feet by 20 feet; one dining room 50 feet by 50 feet; one kitchen 25 feet by 50 feet; laundry and furnace rooms under dining room and kitchen with the same dimensions; on the first floor there is an office and reception room, each 15 feet by 19 feet. In the building there are forty-eight students rooms, each 12 feet by 18 feet, each room having two closets; six teachers rooms with private bath; nine classrooms 20 feet by 28 feet; eight infirmary rooms on third floor with two bathrooms connected, and auditorium 50 feet by 50 feet with gallery and stage 25 feet by 50 feet, with six dressing rooms connected; on the second floor there are three reading rooms 15 feet by 18 feet; three laboratory rooms on fourth floor; one large
trunk room also on fourth floor, 21 feet by 50 feet; and there is a freight elevator in one end of the building.

The estimated cost in the beginning was $55,000, but to carry out the building as now started will cost at least $70,000.

Any of the classrooms, the bowling alley, the gymnasium, or other large rooms can be changed into two rooms by simply running partitions and putting in doors, as they all have plenty of light and ventilation.

The basement ceiling is about twelve feet high. The kitchen, dining room and basement are of brick and concrete construction, fire-proof.

The building is composed of five units, each separate from the others by a solid brick wall thirteen inches thick, the only opening in the division walls being a continuous corridor, and at each of the five division walls in the corridors there are automatic fire-proof doors. In case of fire in any unit the doors can be closed and only that one unit be affected by the fire. The plans call for four-inch mains on each floor in each unit with fire hose attached. The corridors are wide. The construction and material is all of the very best.

The proposition herewith submitted represents a donation of forty acres of land, practically level and susceptible of high cultivation, valued at $250 per acre, a conservative estimate, amounting to $10,000. There has been expended on the building between $24,000 and $25,000 in cash, given by the citizens of Salisbury and community, making a total gift of $34,000. This represents the offer the Salisbury Military School makes to the State for the institution.

There is now an indebtedness against the building of practically $34,000, representing the claims different material men and laborers have for material and labor actually in the building and on the premises ready to go into the building according to the plans. By the payment of the $34,000 the Salisbury Military School gives to the State the building just as it is, together with the material on the premises to go into the further construction and finishing of the building. It will take approximately $15,000 or possibly less to complete the building as planned. In other words, the plant complete, together with the land, will represent an expenditure and value of approximately $83,000 or $84,000. It is well arranged for the purpose of an institution for the blind.

As much more land as the State would want up to two hundred acres can be secured at the rate of $100 per acre in the rear of the forty acres on which the building stands.

Respectfully submitted,

SALISBURY MILITARY SCHOOL, INC.,
of Salisbury, North Carolina.

RESOLUTION OF RESPECT.

Senator Stevens sends forward the following resolution, which is adopted. Resolved by the Senate:
First. That the Senators have heard with sorrowful hearts of the accidental death of William T. Aycock, its engrossing clerk.
Second. That Mr. Aycock was a model of courtesy and efficiency as an officer and of most agreeable touch and gentlemanly bearing, and a man of great promise, and his death a great loss.

Third. That we tender our sympathy to his bereaved mother and sorrowing family.

Fourth. That a committee of six Senators be appointed to attend his remains home, and that when we adjourn today we adjourn out of respect to his memory.

Fifth. That copies of these resolutions be spread upon the Journal and a copy sent to his mother.

Pursuant to the above resolution, the President announces the appointment of Senators Johnson of Duplin, Stevens, McNeely, McLeod, McAuley, and Haymore as a committee to attend the remains of Mr. Aycock home.

S. B. 849, H. B. 776, bill to raise revenue, upon second reading.

Senator McMichael offers the following amendment:

"There shall be levied and collected for each of the years nineteen hundred and nineteen and nineteen hundred and sixteen for state purposes, for pensions and for public schools, an ad valorem tax of such rate on every one hundred dollars of real and personal property in the state required to be listed in 'An act to provide for the assessment of property and collection of taxes,' subject to exemption made by law, as will raise the same total amount of revenue for each of said purposes as was collected in the year 1914, plus six per cent, and no more.

"The State Tax Commission, after the listing and assessment of property is made in each of said years, shall ascertain what rate of levy will produce the said amounts, and certify the same to the board of commissioners and register of deeds of each county, and to the county auditor in those counties having one. No city or other municipal corporation shall have power to impose, levy or collect any greater sum on real and personal property than one per centum of the value thereof, except by special authority from the General Assembly, and the rates of levy in all counties, cities, towns, townships and special tax districts for the years 1915 and 1916, shall be reduced in the same proportion that the rate of the state levy is reduced. Provided, that this shall not prevent any county, city, town, township or special tax district from levying any special tax which it may be lawfully authorized to levy for the purpose of meeting new or increased obligations lawfully incurred for special purposes.

"The purpose and intent of this act is to provide that an increase in the total valuation of all property in the state shall not increase the total amount of taxes to be collected from such property, except to the extent of six per cent."

The amendment fails of adoption, ayes 11, noes 30, as follows:

While we spent considerable time in the work and endeavored to accurately check all accounts and vouchers, we feel it our duty to state that our labors have not been entirely satisfactory to us. The business now handled by the three departments audited is such that, in our opinion, expert accountants should be employed to annually audit each of said departments, as no legislative committee, under existing conditions, can probably be secured to perform the task with the thoroughness and accuracy its importance to the State demands.

It is further our opinion that every institution receiving State aid should be audited by the same experts, and the detailed result given the General Assembly and the public.

We find that the funds turned over by the Federal government to the State for experimental station work is paid to the Experiment Station authorities quarterly, and there are no vouchers in the treasurer's office showing how this money is disbursed or under whose direction and authority the same is expended.

We further find that the vouchers covering expenditures by the Agricultural Department and the authorities of the North Carolina College of Agriculture and Mechanic Arts do not contain itemized statements of the expenditures thereby to be paid.

We recommend that all vouchers from the above departments be accompanied by the itemized statement showing the expenditures in detail.

Our investigations warrant us in making the following additional recommendations:
First, that the State Treasurer use his best efforts to secure interest on daily balances whenever the amount carried in any bank will in the opinion of the treasurer, justify the payment of the interest, and to secure this result, if necessary, a re-adjustment of banking facilities be effected.

Second, that the Insurance Commissioner comply strictly with Section 4689 of the Revival of 1905, requiring said commissioner to pay over "on or before the tenth day of each month, and oftener should the sum to the credit of the State exceed twenty thousand dollars, all taxes, licenses and fees which he may have received during the previous month to the State Treasurer." In a number of instances we find that the bank balances in his office show large amounts which have not been paid over within the time required.

Report of the Joint Visiting Committee to the University at Chapel Hill

To the Committee on Education:

Your joint committee begs leave to file the following report:

We visited the University at Chapel Hill on Monday, February ..., and spent the day inspecting the buildings and campus;—we inspected the physical plant of the University as much in detail as our limited time would permit; we paid a visit to the administrative office and from there went to the library building for the particular purpose of seeing the workings of the extension bureau department, a part of which is located in the rear of the library building.

We appeared before the students in the Chapel, or to be exact, so many of them as were able to obtain entrance into the Chapel, and your committee was received most cordially by the students and members of the faculty there assembled. In passing, we wish to add that it was as fine a looking body of young men as we have ever seen.

The committee ate dinner with some four hundred of the students in Swain Hall, the dining hall, or "Commons," and we had a good and wholesome meal. This is the board furnished at twelve dollars per month by the students themselves under the supervision of a committee of the faculty. All of the waiters and other employees about the dining hall are students, who in this manner help to earn their living while at the University.

The committee, after dinner, visited the new Peabody Building, which was completed about a year ago, and which was built by aid of money donated by the Peabody fund.

This is the building in which the department is housed which is devoted to the teaching of teachers; it also contains the offices of Dr. Branson and other gentlemen connected with the Bureau of Extension, that is, with that department which is now seeking to make the campus of the University commensurate with the boundaries of the State.

We made a hurried trip to the "Old South," the Law Building, the Medical Building, the Chemical Building, and the Alumni Hall in which is contained
the executive offices and lecture rooms. The dormitory visited, which is one of the five oldest buildings, was found to be in a most crowded condition, and very much in disrepair; we found rooms containing three and even four students; we found beds stacked one on top of another so as to form a kind of double-deck set of berths. From an inspection of the exterior of the buildings, more particularly the older ones, it is very easy to see that the buildings are in very bad repair; also they are in bad repair on the inside. This, your committee was informed, and we feel sure that such is the case, is entirely due to a lack of funds with which to make these much-needed repairs.

The power plant, which furnishes heat, light, water and power for the University, is about "on its last legs," and must of necessity be immediately restored. Dr. Graham informed us that the plant broke down completely in January and in consequence that for two days there was no heat in any of the buildings, dormitories or otherwise. This is a most serious need.

It is apparent that, from the casual character of our visit, we could not make a thorough examination of all the buildings, departments, etc., of the University. However, from such examination as we could and did make, your committee is of opinion that the University is doing a great work in a most efficient and economical manner.

From our examination and observation, your committee is of the opinion that the University is greatly in need of funds to assist it in the work of conducting the extension bureau; this work is now being done in a most cramped and hampered manner on account of the lack of clerical aid, typewriters, etc. We are also of the opinion that it is necessary that the University have funds to replace and enlarge the power plant which supplies the University with heat, water, light and power; this it would seem is absolutely essential. We also think that the State should grant this institution funds out of which the buildings and grounds may be kept in a state of at least reasonable repair. We further are of opinion that it is very necessary that the University be given another building containing lecture or recitation rooms; the present rooms are so limited in number and space that even to the minds of laymen it is apparent that the conditions are unhealthy and unsanitary. The rooms are occupied constantly by a large number of students, without any chance of properly ventilating them and keeping them well supplied with fresh air. There are frequent conflicts in classes, the professors oftentimes not knowing where their classes are to be held; classes are held in the Chapel, or wherever else room can be found.

Your committee is also of opinion that another great need of the University is a building for the department of physics. This is a large department with a great number of students in it, and it has practically no space allotted to it, except very limited room in the basement of the alumni building.

The foregoing needs have been presented to the Committee on Appropriations, as we are informed, by President Graham in his statement to that committee. In addition, your committee thinks that the State should at the earliest time possible provide the students of the University with dormitories; at present only one-third of the students sleep in dormitories, the
others living in the Town of Chapel Hill, and the accommodations of the town are now exhausted.

In conclusion, your committee is of opinion that the report filed by President Graham, and which we have gone over, is well supported by the facts as they exist, and further, that his statement of the requirements and necessities of the situation at the University are very conservative indeed, and include only those demands which are most pressing.

Finally, your committee feels from what it saw and observed that in the University the State of North Carolina has an institution which is an honor and credit to it, and which is doing a work of the greatest usefulness at the minimum cost.

Respectfully submitted,

Senator R. D. Johnson,
Representative M. L. Davis,
Representative J. E. Pegram,

REPORT.

Senator Harding, for the Committee on Institutions for the Blind, makes the following report which is spread upon the Journal:

We, the undersigned special committee appointed by you in compliance with joint resolutions No. ......... and No. .........., respectfully submit the following:

First. That we visited the Town of Salisbury and carefully inspected the property offered the State, and as our report we do hereby adopt so much of the report of the special committee acting under Chapter 77 of Public Laws of Special Session 1913, as is contained in Section 6 of said report down to the word "Mocksville" in said section. We further submit special offers delivered to you by a special committee from Salisbury, at a special hearing before your committee at the present session of the Assembly.

Second. We examined the offer of the Town of Rockingham in Richmond County and find the proposition offered by that town to be as follows, to wit: Forty acres of land lying near said town and of an apparent healthful location, and of convenient approach, and further offers of free water to such an institution as the State may put there for a period of five years.

Third. We further carefully examined the proposition offered by the Town of Lincolnton in the County of Lincoln, and herewith file three plots numbered one, two and three, describing each of the three propositions by that city offered your committee.

The proposition designated number one, contains one hundred acres of land adjacent the Seaboard Air Line Railroad, and being located within four hundred yards of Union Station, and well situated to be served by spur
tracks, and all other advantages of the railroads leading to, through and beyond the City of Lincolnton. It is within about the same distance from the city graded school auditorium and within three or four hundred yards of the principal thoroughfare of the city, and within about the same distance of the principal road, modern in its construction, leading through the county. The soil is fertile and in a good state of cultivation with woodland sufficient for all purposes essential to such an institution in contemplation of your committee. It is on an attractive elevation overlooking the city and within a convenient walking distance to all the public places of the city. The water ranks in quality with that of Asheville and is of a slight greenish color and bears an analysis satisfactory to and complimented by the State Board of Health.

The City of Lincolnton is about 188 miles southwest of Raleigh at the intersection of the Seaboard Air Line and Southern Railways. The population of the city is about three thousand, and the people in the surrounding country live on small farms and own the land on which they live. The Town of Lincolnton is the principal market for the country produce within a radius of about twenty miles.

Upon collateral investigation we find that brick may be made within four hundred yards of the site on which the principal buildings would, in all probability be located. We find the cost of brick put in the wall to be about eight dollars per thousand, and the local market for rough lumber is about ten dollars per thousand.

As to the cost of living, we find the present market price of produce to be as follows:

- Chickens, 11c per lb.
- Eggs, 16c per doz.
- Butter, 15c per lb.
- Sweet Potatoes, 50c per bu.
- Turkey, 12½c per lb.
- Country Ham, 15c per lb.
- Flour, 3½c per lb.

Electricity may be had from the Southern Power Company at such rates as is now charged the city.

The City of Lincolnton further agrees to extend from the city to such site concrete sidewalk, water main, electric light and sewer line, and further will furnish free of charge for a period of five years water, electric current for lighting purposes, and fifty thousand dollars worth of fire insurance.

We further find the shape of the land to be suitable for the location of an administration building convenient to the main track of the railroad, and for the arrangement and extension of the institution on the “cottage plan” to be continued with uniform convenience and proportion.

Your special committee finds plots “two” and “three” to be attractive propositions, but in the opinion of the committee the plot designated “No. one” is from all points of consideration most desirable of the three propositions offered by the City of Lincolnton for the establishment of such institution in contemplation of the General Assembly.

Your special committee hereby reports only its findings in facts, and
respectfully submits same to your consideration that you may report your conclusions therefrom to the General Assembly.

Respectfully submitted,

J. S. McNider,
W. L. Morris,
C. M. Muse,
Committee on part of Senate.

CONFERENCE REPORT.

Senator Hobgood, for the Conference Committee, offers the following report:

The committee on conference having under consideration the differences between the Senate and House of Representatives upon Senate Bill No. 281, House Bill No. 1695, entitled An act to provide for primary elections throughout the State, beg leave to report and recommend that the Senate adopt House amendments to Section 4, introduced by Messrs. Thomas, Brummitt and Dunning, and that the Senate adopt amendments to Section 5, introduced by Messrs. Doughton and Deaver, being three in number, and that the Senate also adopt amendment to Section 6, introduced by Mr. Douglass.

We further recommend that both the Senate and House recede from that portion of section 10 after the word "vote," in line eight of said section, and insert in lieu thereof, "It shall be the duty of the board of elections having in charge the duty of printing the ballots for primary elections to be held under the provisions of this act to so print the ballots that the name of the opposing candidates for any office shall, as far as practicable, alternate in position upon the ballot, to the end that the name of each candidate shall occupy with reference to the name of every other candidate for the same office, first position, second position, and every other position, if any, upon an equal number of ballots and distribute the said ballots, when so printed, impartially and without discrimination."

We further recommend that the House recede from the amendment adopted by it to said section 10 and introduced by Mr. Vann.

We further recommend that the amendments offered by Messrs. Seawell and Doughton, being five in number, to section 11, and adopted in House, be adopted, and that the amendment offered by Mr. Carr to section 11 and adopted in the House be adopted.

We further recommend the adoption of the amendment to section 11 by the House, signed by no one and marked 1 (a), and that the Senate concur and ratify all the aforesaid amendments to said section 11.

We further recommend that the amendment offered by Mr. Hutchison to section 12 be agreed to.

We further recommend that the Senate agree to the House amendment to section 21½, offered by Mr. Grier.

We further recommend that the Senate agree to House amendments offered by Messrs. Ebbs, Carawan, Clayton, Leonard, Vernon, Gatling, Long of Halifax, Etheridge, Hampton, Killian of Catawba, Puett, Williams of Cabarrus, Seawell, Deyton, Mayo, Meekins, Hewett, Kent, Phillips, Cherry, Denton, Culey, Valentine, Vann, Davis, Scott, and Stacy, in reference to section 34.

We further recommend that the House recede from the amendments to
section 34, offered by Messrs. Brown and Smith of Orange, and that the amendment offered by Mr. Foster in the House and adopted therein be adopted, as also the amendment offered to said section 34 by Messrs. Scott, Grant and Capehart.

We further recommend that the Senate agree to House amendment to said section 34, offered by Mr. Page.

We further recommend that the amendments adopted by the House to section 34, offered by Messrs. Hutchison and Douglass, be concurred in by the Senate.

We further recommend that the amendment offered to sections 35 and 36, by Mr. Eure, be adopted, as also the amendment offered to section 34 by Mr. Doughton.

We further recommend that the amendment offered by Mr. Grier to section 4, relating to the amount to be paid by candidates for entering the primaries, be adopted, and that the House of Representatives recede from the amendment to said section adopted by the House and offered by Mr. Williams of Cabarrus.

All of which is respectfully submitted.

F. P. Hobgood,
A. D. Ward,
John A. McRae,
Senate Conferees.
R. A. Doughton,
W. P. Stacy,
J. C. M. Vann,
H. P. Grier,
House Conferees.

A message is received from the House of Representatives, stating that they have adopted this report, whereupon the Senate concurs in the adoption of said report, and the bill is ordered enrolled.

Senator Jonas rises to a point of personal privileges, and makes the following statement, which, upon motion of Senator Thompson of Onslow, is ordered spread upon the Journal:

Senator Jonas rises to a point of personal privilege, and makes the following statement: "The House passed it (the Grier Liquor Bill) 103 to 7; it was reported by the Senate Committee without prejudice, but in the Senate was defeated by the solid vote of the seven republicans and some democratic friends of prohibition, who voted for an amendment to submit the bill to a vote of the people. The Senate afterwards passed the amended bill 43 to 5."

The above statement is not only deliberately untrue, made with the malicious intent to injure and cast odium upon me especially, and also upon the other six republicans on this floor, but it is an attempt to make cheap political capital out of a moral question. This man cares nothing about the fact that every senator on this floor lost sleep and time in a conscientious effort to do his duty. He states that the committee reported the bill without prejudice, but does not state that it was a democratic committee, and that ten of the eleven members at the first meeting opposed the bill. He deliberately leaves the impression that the republicans voted against the bill, when he
knows that is not true. Nineteen democrats, as good men as there are here and as good democrats, and seven republicans did vote for the amendment to let the people settle the question, but on the passage of the bill not one of the five adverse votes was cast by a republican. Yet, Mr. Davis says we defeated the bill. He says, in effect, that the five democrats who voted against the whole bill are friends of prohibition, but that the seven republicans who voted for it are not.

The unjustness of this attack is apparent to any reasonable man who knows the facts. It can only do injury among those who do not know the facts and the true character and methods of the author.

Mr. Davis does not inform the public that his presence on this floor had become so obnoxious to Senators that he was removed from the bar of the Senate during the discussion of the bill, by motion made and adopted. He slanders the House and Conference Committee by intimating that he controlled both. If that be true he gave the people of the State the privilege of using legally a million and a half gallons of whiskey, and twenty-four million gallons of beer annually for beverage purposes, rather than allow them to have prohibition if they want it. The liquor dealers surely must be satisfied with his work. Yet, I do not reply to him in kind and say he is not a prohibitionist. I know he is one, at least $390,81 worth. But, I do say his attack is not endorsed by the prohibitionists of the State of whom I am one.

Seven Republicans out of fifty Senators, and those seven all voted for the bill, yet they defeated it, says Mr. Davis. And he calls himself the "voice of God!"

REPORT.

Senator Ward, for the Sub-Committee on Finance, appointed to investigate certain criticisms of the State treasurer, makes the following report, which is adopted and ordered spread upon the Journal:

To the Members of the General Assembly:

The undersigned members of the Sub-committee of the Finance Committee of the Senate and House of Representatives, appointed to look into the criticisms of the treasurer's office by the Board of Internal Improvements, beg to say that they have examined and considered the matter and they find that the treasurer's office has been managed with fidelity and efficiency and that under the statutes, it was the treasurer's duty to keep the funds separate. We concur with the suggestion of the Board of Internal Improvements that the State treasurer should be authorized by law to require interest upon monthly balances, and we further concur in the opinion of said board that the State should provide bond for the State treasurer in a surety company or companies, and that the premium should be paid from the State funds. These have been remedied by statute.

Respectfully submitted,

A. D. Ward,
Mark Majette,
On the part of the Senate.
T. C. Bowie,
J. C. Vann,
On the part of the House of Representatives.
