*Died January 24, 1979
**Appointed January 29, 1979
In accordance with law, as set forth in the Constitution of the State of North Carolina and G.S. 120-11.1, at the hour of 12 M., the Senate of the General Assembly of North Carolina assembles this day in the Senate Chamber of the Legislative Building in the City of Raleigh.

The Honorable James C. Green, Lieutenant Governor, calls the Senate to order.

Prayer is offered by the Reverend Donald D. Davis, Pastor of Christ Methodist Church, Charlotte, North Carolina, as follows:

"O Lord, Our Creator and Our Companion, we are filled with both excitement and fear at the beginning of this new day. We are excited by our hopes, and our dreams, and our possibilities, but we are frightened by the possibilities of failure, the visions of being alone in our convictions, and the nightmares of ostracism and rejection. Help us to know that we stand in Thy presence even in this hour, and strengthen us with the undergirding arm of Thy companionship.

"As we seek that which we believe in as good, preserve the integrity of our separate and various interpretations of good. As we run toward goals which our dreams have made appear perfect, clear our vision. As we awaken on the morning of reality, as we fight for our own ideals, and our own images of justice, preserve always our personal respect for those whose ideas we fight, and give us grace always to merit and maintain our own self-respect.

"Fill us with a measure of joy, as well as justice. Fill us with a measure of laughter, as well as legality. Fill us with a measure of supportive partnership, as well as stirring partisanship, so that we may come to the end of each day able to say to ourselves, and to our people, and to one another: 'Well done.'

"In Thy Holy Name, we pray. Amen."

SPECIAL MESSAGE FROM THE HOUSE OF REPRESENTATIVES

The following special message is received from the House of Representatives:

HOUSE OF REPRESENTATIVES
January 10, 1979

Mr. President:

It is ordered that a message be sent to the Senate informing that Honorable Body that the House of Representatives is organized and is now ready to proceed with the public business and has elected the following officers:

Speaker .................................................. Carl J. Stewart, Jr.
Speaker Pro Tempore ................................... H. Horton Rountree
Principal Clerk ............................................. Grace A. Collins
Sergeant-at-Arms .......................................... Larry P. Eagles
Reading Clerk ........................................... Sam J. Burrow, Jr.

Respectfully,
GRACE A. COLLINS
Principal Clerk

Senator Royall requests permission to approach the Well of the Senate. Permission is granted by the President. Senator Royall addresses the Membership as follows:

“Mr. President, Chief Justice, Associate Justices, distinguished guests, my fellow Senators, ladies and gentlemen:

January 10, 1979
"To John Henley, our President Pro Temp for the past two Sessions, I want to express my sincere thanks for his kind remarks. Also to Senators Whichard and Swain. Frankly, I did not know who they were talking about until they said Julia’s husband.

“My congratulations to Senator Lawing, Ms. Fink, Leroy Clark, and Vince Bridgers.

“I am very humble, deeply grateful and highly honored to accept the position of Majority Leader of the Senate. It is my fervent hope that you will call on me night or day for any assistance I may render. I accept this position with you, my esteemed colleagues, the people of North Carolina, my wife, Julia, and my family.

“You are outstanding legislators, selected by the greatest citizens of the United States. As of this moment, the word ‘I’ and the word ‘you’ will form the word ‘we.’ We are extremely fortunate in this great Body to have two outstanding leaders, Lieutenant Governor Green and President Pro Temp Lawing.

“North Carolina has a great tradition of being fiscally responsible and for giving better government to all its citizens. We as a Body will continue that great tradition as long as we all work together as a team. With God’s help, we will achieve greater success and keep North Carolina the Number One State in the Nation.

“Thank you from the bottom of my heart and God bless you all.”

Senator Lawing requests permission to approach the Well of the Senate. Permission is granted by the President. Senator Lawing addresses the Membership as follows:

“Mr. President and my fellow Senators, the Justices of the Courts of North Carolina, Senator Rauch, Senator Barnes, Senator Mathis, Senator Ballenger, Senator Mills, and my friends all:

“You have caused me to have a feeling that is indescribable. There is only one other person present here today that can share with me the feeling that I have as I tell you this — that is Senator Henley who has twice had this high honor, as Senator Royall told you.

“When I first came to this place eight years ago as a wide-eyed country boy from Paw Creek as a first term member of the Mecklenburg Legislative Delegation to the North Carolina House of Representatives — never in my fondest dreams did I ever imagine that one day I would be standing in the Well of the Senate accepting this position. This is indeed a very humbling experience for me and I want to thank each one of you individually and all of you collectively for putting your trust in me for this important undertaking.

“I have been honored many times in the past but never in my life have I had anything to equal this.

“I know that each of you will agree that we are facing a time in our history that is unparalleled in that inflation is running rampant and the needs of our people are continuing to increase almost daily. I think that it is going to behoove each of us to dedicate ourselves, right now, that we are going to be prudent legislators — speak to the issues that affect our people with the thought in mind — to provide good adequate government for the lowest possible price. All eyes of the people of this State will be upon us as we make the all important decisions on what they should and should not have.

“We must strive to make the 1979 Session of the North Carolina General Assembly the most productive, beneficial and far-reaching Session ever in the State’s history.

January 10, 1979
“I pledge to each of you that, even though I may not be the best President Pro-Tem this Senate has ever had, I will be the hardest-working, most dedicated one that has ever served in this position and I know that with your help, and I mean each of you, and the help of our Maker, we can make this Session not only productive but enjoyable as well.

“I will work with each of you as an individual and all of you as a group. I would give each of you a key to my door but that will not be necessary because to you my friends, my door will never be locked. Especially to you new members—if at any time you need the benefit of my experience in both the House and Senate, you need do nothing but ask.

“I, like my predecessor, would like to say, that I wish there were enough goodies to go around—things like double offices, committee appointments, etc., but there is not enough to give everybody what they would like to have. I will be fair and equitable in carrying out these duties and I sincerely hope that each of you will understand and cooperate with us to the extent that we can make all North Carolina proud of the job we will do.

“I want to apologize right now for the many mistakes that I know I will make in the next two years and say that the mistakes I will make will be of the head and not the heart, and I want to beg your indulgence.

“Now I recited a poem here in December when the Democrats nominated me for this office and I want to repeat it now. I want to borrow it from my preacher who made the opening prayer here today and I hope that for a more cohesive and enjoyable Session, I hope you will subscribe as I do to the following:

‘If with pleasure you are viewing anything a man is doing
‘If you like him, if you love him, Tell him now—

‘Don’t withhold your approbations ’til the parson makes orations
‘Or he lies with snow white lilies on his brow—

‘For no matter how you shout it he won’t know a thing about it
‘For he can’t hear a single word that you have said—

‘So if you think that praise is due him
‘Now’s the time to sock it to him
‘Cause he cannot read his tombstone when he is dead.’

“Now, to show you that I am going to practice what I preach, I want to start right here—Seat No. 1—Senator Allsbrook, and go all the way around to Seat No. 50, where Senator Mills is sitting, and telling you now. I like you, I love you. I’ll tell you again at the end of the season when we adjourn sine die but I am not going to promise you how I’ll feel about you when you cross me as I am going to cross you on some of the legislation that comes across our desks. I look forward to serving with you and thank you from the bottom of my heart for your trust that you have placed in me.”

January 10, 1979
CHARGE TO COMMITTEES

The Lieutenant Governor addresses the Senate and delivers a charge to the Committees as follows:

"Welcome all of you.

"Your duties are great and every member of this Senate will work long hours in examining the numerous needs of the citizens of North Carolina.

"You will be required to conduct many public hearings and patiently listen to programs and recommendations from all of the agencies of our State and from hundreds of citizens who seek to be heard.

"When that process has ended you must continue your own research and make wise decisions regarding those programs which will be funded and those programs which cannot be fulfilled.

"At all times you must seek to eliminate waste and duplication and at the same time be sensitive to the needs of the downtrodden and underprivileged.

"As you work with the citizens of North Carolina, the agencies of government and your counterparts in the House of Representatives, I am certain you will always be mindful of the needs of others and during these times of uncertain economic conditions that you will make our State’s resources available for the maximum good.

"I hope you aren’t tired of hearing me say it, but, I simply say to you again, I believe, and I think you believe, that we must learn to live within our means.

"I appreciate your willingness to assume and discharge this important work.

"With the announcement of committee appointments today, I am also announcing an innovation in the appropriations process which is designed to improve communications and provide continuity, as has been agreed to by the Speaker.

"In the 1979 Session, the same members who consider the expansion budget—funds recommended for improvements in the current level of State services—will also give careful attention to the Base Budget—funds for continuation of governmental operations at existing levels of service.

"The purpose of the close scrutiny of the Base Budget is, as in prior Sessions, to eliminate duplication, waste, and programs of marginal value; however, in the past, when the Base Budget Committees met separately from the Appropriations Committees, the groups sometimes worked at cross-purposes, and considerable time was required to reconcile conflicting points of view.

"In the upcoming Session, three separate Base Budget Committees will consider the fields of Education, General Government and Transportation, and Human Resources and Correction; and when the process is concluded, with the formulation of recommendations for spending reductions, the three Base Budget Committees will be reconstituted as Appropriations Committees to consider improvements in the same areas of governmental services, some of which improvements will have been made possible by the Base Budget cuts.

January 10, 1979
This innovation is expected to shorten the length of the Session, to provide better staff coverage, and to keep the members more fully informed on all matters pertaining to the State Budget.

The Senate meets pursuant to adjournment and is called to order by the Honorable James C. Green, Lieutenant Governor.

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"God our Father, in love You spread good gifts around us, more than we need or deserve. You feed us, teach us, heal us, and free us. We confess that we are not as grateful always as we should be, and are jealous when others seem to have more than we. Give us, we pray, a spirit of humble thanksgiving that we may enjoy what we have. Grant also that we shall use wisely all Your gifts to us, especially the gifts of intelligence and leadership. Enable us to be good stewards, Lord, that we may give a good account of ourselves and the talents with which You have blessed us. Amen."

Senator Royall for the Rules and Operation of the Senate Committee announces that the Journal of yesterday has been examined and is found to be correct, and on his motion the reading of the Journal is dispensed with and it stands approved as written.

The President grants leaves of absence to Senators Creech, Duncan, and Lawing for today.

The President grants leaves of absence to Senators Creech and Wynne for today and to Senator Wynne for tomorrow, February 23.

The President grants courtesies of the floor to the Honorable Bobby Lee Combs, former Senator from Catawba County.

Senator Whichard rises to a point of personal privilege and upon his motion, duly seconded, the remarks of the Reverend Orion N. Hutchinson, delivered on January 27, 1979, at the funeral of the late Senator I. C. Crawford are spread upon the Journal as follows:

Remarks of Reverend Orion N. Hutchinson at the funeral of the late Senator I. C. Crawford

"In the 12th Chapter of First Corinthians in the 27th verse we read as follows: 'Now ye are the body of Christ and members in particular; and God has sent some in the church, first apostles, second prophets, third teachers, after that miracles, then gifts of healings, helps, governments, diversities of tongues.' This passage suggests something to us that often we never realize. It tells us of the various ways in which God's spirit works within us, and the various abilities which God's spirit creates within us. It speaks of preaching and teaching and prophesies and healing. Yet, it also speaks of 'helps' and 'governments.' More recent translations of this verse used the word, 'administration.'

"What this is really saying is that administration is a spiritual task, a spiritual calling--that the ability to govern is only done where God dwells within that person to make it possible.

"In May of 1978 after I. C. Crawford had won the primary election, I wrote him a letter of congratulations in which I said among other things, 're-election, it seems to me, places even greater responsibility upon the individual so honored. It expresses an

February 22, 1979
increasing amount of hope and confidence in an individual's ability to think and act...may God grant you wisdom in your ministry of public legislation.'

"Indeed, the task of being involved in the legislative process is even, according to Scripture, a ministry in the very same sense of any ministry. It involves serving a multitude of people and seeking to use the resources at hand and the wisdom with which one is endowed to meet basic human needs. That is ministry, and I. C. Crawford was involved in the ministry of public legislation.

"In 1848 Dorothea Dix stood before the General Assembly of North Carolina to report to them on her survey of the conditions of the mentally ill across the State. Although she was primarily speaking on the subject of the care for the mentally ill, she said something in her address to the legislators which has even broader implications:

'You will not, Legislators of North Carolina--Senators and Representatives of a noble State, you will not forget amidst the heat of debate, the clash of opinion, and the strife for political supremacy; you will not forget the majesty of your station, the dignity of that trust confided to you by the suffrages of your fellow-citizens...As benefactors of the distressed,...how many blessings and prayers from grateful hearts will enrich you! As your last hour shall be slowly numbered, and the review of life becomes more and more searching, amidst the shades of uncompromising memories, how beautiful will be the remembrance of the many of this life's transactions, oftenest controlling transient and outward affairs, frequently conducting to disillusioning results, and sometimes to those of doubtful good, you have aided to accomplish a work whose results of wide-diffused benefits are as sanctifying as they are permanent: blessing through all times--consecrating through all Eternity!"

"This is the ministry of public legislation. To it I. C. Crawford gave himself and for him it was fulfilling. It was the way in which he could make his life count for the sake of others, and he gave the best he could to it. He might never verbalize it in this way, but there was some subconscious sense that to this task he was called by God, and through this ministry he fulfilled his calling.

"Indeed, the apostle Paul re-echoed this sanctifying view of public legislation by even declaring, 'The powers that be are ordained of God.' And admonishing everyone to be 'subject to these powers.' I. C. Crawford would have shared Paul's conviction.

"Senator J. William Fulbright in one of his speeches analyzes out of personal testimony the situation of a legislator:

'There are no areas of public policy in which I am absolutely sure of the correctness of my opinions, but there are some in which I am reasonably confident of my judgment; it is in these areas that I try to make a contribution. There are other areas in which my knowledge is limited, and in these I prefer to let others take the lead. There are still other areas in which I am proscribed from leadership of initiative by the strong preferences of my constituency.

'A politician has no right to ask that he be absolved from public judgment; he may hope, however, that he will be judged principally on the basis of his performance in the areas of his principal effort. He may hope
that he will be judged not as a saint or a paragon, but as a human being entrusted by his constituents with extraordinary responsibilities, but endowed by the Lord with the same problems of judgment and temptation that afflict the rest of the human race.'

"When the United States Senate Chamber was remodeled in 1950, there were placed above the three doorways which enter into that Chamber new panels molded by Lee Lawrie, a sculptor. They were designed to convey three traits which every senator would do well to possess, and of which he could helpfully be reminded as he passed through these doors and moved to the task of legislation. One of the murals (panels) displayed a man wrestling with the serpents of evil, and illustrated courage. A second panel showed a person turning from the plow of his daily work to take up the sword and to follow the eagle toward the task of serving his country. This illustrated the trait of patriotism. The third panel depicts a person in the shadow of a building which resembles a temple holding in his hand a book which could be a Bible, and holding in the other hand the light of a torch. This panel displays wisdom.

"So the passageways to the Senate chamber would be through the doorways of courage, patriotism, and wisdom. To some degree, as an outsider looks in at the life of I. C. Crawford, he seemed to walk down those pathways as he sought to carry out his ministry of public legislation."

SENATE JOURNAL

THIRTY-THIRD DAY

Senate Chamber,
Friday, February 23, 1979.

The Senate meets pursuant to adjournment and is called to order by the Honorable James C. Green, Lieutenant Governor.

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"Heavenly Father, You spoke to us in Scripture when You said, 'Be still, and know that I am God.' So often we find no time for being still, Father, no time for quietness, no time for reflection. There are so many worth-while projects to be done, so many windmills to be tilted, that we sometimes find ourselves going around in circles, thinking we are big wheels. Slow us down, Lord, and help us gain some perspective about our place in Your world and the real needs of Your people; that the work we do in the weeks and months ahead may be truly reflective of Your wishes for us. Amen."

Senator Lawing for the Rules and Operation of the Senate Committee announces that the Journal of yesterday has been examined and is found to be correct, and on his motion the reading of the Journal is dispensed with and it stands approved as written.

SENATE CHAMBER,
Monday, March 12, 1979

The Senate meets pursuant to adjournment and is called to order by the Honorable James C. Green, Lieutenant Governor.

Remind us that we serve a public trust, beyond all personal gain or glory. We confess, Lord, that it is often difficult for us to know what is right or wrong. It is tempting, therefore, either to become rigid and hardened in our categories; or to flow too easily from position to position with the changing tide. We are grateful, then, that we can call upon You for aid. As we begin this week, we ask once more for Your wisdom and strength, that we may do our best for the people who have called us to be their servants. Amen."

“Our Heavenly Father, with humble hearts and with a sense of responsibility—yet proud of the confidence placed in this Senate Assembly by the people of this great State, we ask Thy blessings upon this Assembly that it may be fruitful in its accomplishments. Be with them in their deliberations, inspire them with Thy wisdom, direct them in their thinking, guide them as they face the problems and difficulties of the uncertain future. Without You they can do nothing—with You, they can do all things. Do, Lord, set right that which is wrong, and bring together that which is divided that we might live in a spirit of love and unity and a bond of peace. Lord, we ask Thee for help. Grant that we may hallow this Assembly to Thy service and that we may find peace, wisdom and strength in Thee. Grant to us and the Assembly the grace to think what is right, be their guide and counselor as they work for the good of our great State and its people. All these blessings we ask in Jesus’ name. Amen.”

We pray today for laborers and managers, Republicans and Democrats, Arabs and Jews, Protestants and Catholics, and all who sometimes find themselves in opposition to each other. 1. All questions on which the Constitution of North Carolina requires that the ayes and noes be taken and recorded on the Journal.
2. All questions on which a call for the ayes and noes under Rule 26(b) has been sustained.

(b) Votes on the following questions shall be taken on the electronic voting system, and a copy of the machine print-out of the votes shall be filed in the Legislative Library where it shall be open to public inspection:

1. Second reading of all public bills, all amendments to public bills offered after second reading, third reading if a public bill was amended after second reading, and all conference reports on public bills.
2. Any other question upon direction of the chair or upon motion of any Senator supported by one-fifth of the Senators present.

(c) When the electronic voting system is used, the Chair shall fix and announce the time, not to exceed one minute, which shall be allowed for voting on the question before the Senate. The system shall be set to lock automatically and to record the vote when that time has expired. Once the system has locked and recorded a vote, the vote shall be printed by the system.

(d) The voting station at each Senator’s desk in the Chamber shall be used only by the Senator to which the station is assigned. Under no circumstances shall any other person vote at a Senator’s station. It is a breach of the ethical obligation of a Senator either to request that another vote at the requesting Senator’s station, or to vote at another Senator’s station. The Chair shall enforce this rule without exception.

(e) When the electronic voting system is used, the Chair shall state the question and shall then state substantially the following: “All in favor vote ‘aye’; all opposed vote ‘no’;——-seconds will be allowed for voting on this question; the Clerk will unlock the machine.” After the machine locks and records the vote, the Chair shall announce the vote and declare the result.

(f) One copy of the machine print-out of the vote record shall be filed in the office of the Principal Clerk, and one copy shall be filed in the Legislative Library where it shall be open to public inspection.

(g) When the Chair ascertains that the electronic voting system is inoperative before a vote is taken or while a vote is being taken on the electronic system, he shall announce that fact to the Senate and any partial electronic system voting record shall be voided. In such a case, if the Constitution of North Carolina or the Rules of the Senate require a call of the ayes and noes, the Clerk shall call the roll of the Senate, and the ayes and noes shall be taken manually and shall be recorded on the Journal. All other votes shall be taken by voice vote as prescribed in Senate Rule 26(a). If, after a vote is taken on the electronic system, it is discovered that a malfunction caused an error in the electronic system print-out, the Chair shall direct the Reading Clerk and the Principal Clerk to verify and correct the print-out record and so advise the Senate.

(h) For the purpose of identifying motions on which the vote is taken on the electronic system (the identification codes having no relation to the order of precedence of motions), the motions are coded as follows:

RULE 26. Voice votes; call for ayes and noes. — (a) When the electronic voting system is not used, all votes on which a call of the roll of the Senate is not required shall be taken by voice vote. The question shall be put as follows: "Those in favor say 'aye,'" and, after the affirmative vote is expressed, "Opposed 'no'"; after which the Chair shall announce the result. If a division on any vote is desired, it must be called for immediately before the result of the voting is announced on any question, and upon such call, the Chair shall require the members to stand and be counted for and against the proposition under consideration.

(b) The ayes and the noes may be called for on any question before the vote is taken. If a Senator desires the ayes and noes recorded on the Journal on a question, he shall address the Chair and obtain recognition and say "Upon that question I call for the ayes and noes." Whereupon the Chair shall say, "Is the call sustained?" If one-fifth of the Senators present then stand, the vote shall be taken on the electronic voting system if it is operative, and the ayes and noes shall be recorded on the Journal. If the electronic voting system is inoperative, the roll of the Senate shall be called and the ayes and noes taken manually and recorded on the Journal. If fewer than one-fifth of the Senators present stand to sustain the call, the Chair shall announce "An insufficient number up" and a vote by electronic voting or by voice, whichever is appropriate under the Rules of the Senate, shall be taken.

RULE 27. Pairs. — If a Senator is paired with another Senator on a question, the Senator shall announce the pair as follows: "Mr. President, I desire to announce a pair. If Senator _______ were present, he would vote _______; I would vote _______ (the opposite)."

The Senator shall send forward at that time a written statement of the pair on a form provided by the Principal Clerk and neither member of the pair shall vote on the question. A pair shall be announced before the vote is taken viva voce, or if the electronic voting system is used, before the machine is unlocked. The Clerk shall record the pair on the Journal when the Constitution or Rules of the Senate require a call of the roll and shall record on the electronic system print-out all pairs announced.

RULE 28. Dividing question. — If any question contains several distinct propositions, it shall be divided by the President, at the request of any Senator, provided each subdivision, if left to itself, forms a substantive proposition.

(b) Any Senator may request to be excused from voting, either immediately before or after the vote has been called for and before a viva voce vote result has been announced or before the electronic voting system has been unlocked. The Senator may make a brief statement of the reasons for making such request, and shall send forward to the

March 27, 1979
Principal Clerk, on a form provided by the Clerk, a concise statement of the reason for the request, and the Clerk shall include this statement in the Journal. The question on granting of the request shall be taken without debate.

RULE 30. Explanation of vote. — Any Senator may explain his vote on any bill pending by obtaining permission of the President after the vote is taken: Provided, that not more than three minutes shall be consumed in such explanation.

RULE 30.1. Questions of personal privilege. — Upon recognition by the President for that purpose, any Senator may speak to a question of personal privilege for a time not exceeding three minutes. Personal privilege may not be used to explain a vote or debate a bill. The President shall determine if the question raised is one of privilege and shall, without the point of order being raised, enforce this rule.

V. Committees

RULE 31. Appointment of committees. — (a) The President of the Senate, unless he has by law disqualified himself from that office, shall have the exclusive right and authority to appoint all committees, regular or select, and to appoint committee chairmen and vice-chairmen, but he may delegate said authority in any instance, as he may choose. Upon the recommendation of the Committee on Rules and Operation of the Senate, the Senate may authorize, by majority vote of the Senators present and voting, a change in the number of standing committees.

The original bill shall then be returned to the introducer of the bill and shall not become a part of the records or documents of the Senate.

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"Heavenly Father, we stand before You today as servants who have been called to labor in the field of Your world. Help us we pray, to submit our hearts and minds totally to Your will, for we admit freely that we possess no special wisdom, no superior insight, except that which we receive from Your hand. Help us to empty ourselves of pride, of vanity, and to cease running after the praise of men. Instead, let our only thought, our only hope, be in doing what is pleasing in Your sight; that the contributions we make may not be the transitory stuff of human will but shall stand eternally in Your Kingdom. Amen."

Help us to remember, O God, that Your decrees are true and right, more to be desired than gold or silver, sweeter to us than the honey from a thousand hives. By Your spirit call us to meditate on Your law as we seek to do good for the people of this State; for as our laws reflect Your own, we will fulfill your expectations of us and be worthy of Your creative gifts. Amen."

Give us wisdom to know what You expect of us and the ability to follow Your will even when it is difficult. We are so full of important movements, so distracted by the cares of each day, so harried by the many demands
upon our time, that it is easy to let a day, a season, a year, even our lives slip away from us. EIGHTY-SEVENTH DAY

SENATE CHAMBER,
Friday, May 11, 1979.

The Senate meets pursuant to adjournment and is called to order by the Honorable James C. Green, Lieutenant Governor.

Prayer is offered by Dr. H. Edwin Pickard, Pastor of White Memorial Presbyterian Church as follows:

"We do thank You, O God, that it is Friday. We are grateful for the respite of weekends that give us an opportunity to be renewed in worship in one of Your churches, to spend a little make-up time with members of our families, perhaps to return home and to listen on the home front to those who elected us, and to bring back to this Legislative Building their reactions to what they understand is being discussed and debated in this place.

"We thank You for the accomplishments of the week drawing to a close. We are grateful for the measure of maturity and commitment that have been demonstrated by those commissioned to serve in this North Carolina Senate. Grant to them wisdom, we pray, to make the weighty decisions that have to be made by someone. Deliver them from timidity and fear, from avarice and personal gain, from listening only to the loudest voices and failure to hear all the voices of Your people.

"We thank You for all the support staff for this Senate - for secretaries and clerks, and sergeants-at-arms, and pages.

"Bless the deliberations and decisions of this day, and of this whole Session, we ask in Our Lord's Name. Amen."

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"Heavenly Father, who created not only this earth, but all the spinning galaxies of deepest space, and whose providence extends to the limitless boundaries of creation; help us to resist the temptation to become self-centered or provincial in our thinking. We see so many problems close at hand that it is easy for us to become wrapped up in local concerns, ignoring the needs of those who are far away. Grant us the wisdom to understand the fragile inter-relationships of events, persons, and resources that make up the cosmic ecology; and help us to make decisions that are based not only on our immediate needs, but are supportive of the whole system You have given us. Remind us that we do not own this world, but hold it in stewardship; and that You will demand an accounting of us for the way we have preserved and protected that with which we have been entrusted. Amen."

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"Heavenly Father; the hymn reminds us that ‘time, like an ever-rolling stream bears all its sons away.’ We are very conscious of the relentless rolling of time in this room today. So much remains to be done, and there seems to be not enough days and hours in which to do it. Help us, we pray, to act with wisdom, even in our haste. Do not let us sacrifice integrity for expediency, but enable us to work efficiently to complete the work that is set before us. Above all, grant us the wisdom to defer all our decisions to Your power, that what we do, even if it be done quickly, shall be done well. Amen."

NINETY-EIGHTH DAY

SENATE CHAMBER,

The Senate meets pursuant to adjournment and is called to order by the Honorable James C. Green, Lieutenant Governor.

May 28, 1979
Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

“Almighty God, we give You thanks this day for men and women who gave their lives in the service of this nation; defending not only this land, but its principles of justice, equality and liberty for all. Grant that we, by the power of Your spirit, may commemorate what they did not merely by the words we say, but by every action that we take. Do not let us be content with an easy patriotism that waves the flag while forgetting the ideas behind it, but call us to a higher dedication to the principles upon which this nation was founded. Remind us especially of those who have defended us in recent conflicts, and who still bear the physical and emotional infirmities of their service. Call us to serve them in their time of need; that we may honor the sacrifice they made, and share with them the rich harvest of freedom. Amen.”

Prayer is offered by the Reverend Claude Godwin, Senate Chaplain, as follows:

"Almighty God, grant that in this hour we may sense Your presence among us, and so draw from You the strength, courage, wisdom and power that we need to accomplish that which You have set before us. We thank You especially today for the gift of hope: For hope that keeps us going against all odds; for hope that sees the possibility of victory when defeat is apparent; for hope that searches for peace in the midst of conflict; for hope that whispers Your love for us when we feel alone and lost; for hope that assures us that all things must end, and this too shall pass. We thank You, Lord, for not giving up on us, and for granting us hope so that we do not have to give up on ourselves. Help us now to remember the hopeful promise we felt when we began this work, so we may live up to our calling, and Your expectations of us. Amen."

Section 1. G. S. 14-292 is rewritten to read as follows: “§ 14-292. Gambling. — Except as provided in G. S. 14-292.1, any person or organization that operates any game of chance or any person who plays at or bets on any game of chance at which any money, property or other thing of value is bet, whether the same be in stake or not, shall be guilty of a misdemeanor.”

June 7, 1979
Sec. 2. Chapter 14 of the General Statutes is amended by adding the following new section:

§ 14-292.1 Bingo and raffles. — (a) It is lawful for an exempt organization to conduct raffles and bingo games in accordance with the provisions of this section. Any person who conducts a raffle or bingo game in violation of any provision of this section shall be guilty of a misdemeanor under G. S. 14-292 and shall be punished in accordance with G. S. 14-3. Upon conviction such person shall not conduct a raffle or bingo game for a period of one year. It is lawful to participate in a raffle or bingo game conducted pursuant to this section. It shall not constitute a violation of State law to advertise a raffle or bingo game conducted in accordance with this section.

(b) For purposes of this section, the term:

(1) 'exempt organization' means an organization that has been in continuous existence in the county of operation of the raffle or bingo game for at least one year and that is exempt from taxation under Sections 501(c)(3), 501(c)(4), 501(c)(8), 501(c)(10), 501(c)(19), or 501(d) of the Internal Revenue Code or is exempt under similar provisions of North Carolina General Statutes as a bona fide nonprofit charitable, civic, religious, fraternal, patriotic or veterans' organization or as a nonprofit volunteer fire department, or as a nonprofit volunteer rescue squad or a bona fide homeowners' or property owners' association. (If the organization has local branches or chapters, the term 'exempt organization' means the local branch or chapter operating the raffle or bingo game);

(2) 'bingo game' means a specific game of chance played with individual cards having randomly numbered squares ranging from one to seventy-five, in which prizes are awarded on the basis of designated numbers on such cards conforming to a predetermined pattern of numbers selected at random (but shall not include 'instant bingo', which is a game of chance played by the selection of one or more prepacked cards, with winners determined by the appearance of a preselected designation on the card);

(3) 'raffle' means a lottery in which the prize is won by a random drawing of the name or number of one or more persons purchasing chances.

(c) The exempt organization must prominently display in the specific place or room where the raffle or bingo game is being conducted a determination letter (or a reproduction copy thereof) from the Internal Revenue Service or the North Carolina Department of Revenue that indicates that the organization is an exempt organization.

(d) The exempt organization may expend proceeds derived from a raffle or bingo game only for prizes, utilities and the purchase of supplies and equipment used in conducting the raffle and in playing bingo, taxes related to raffles and bingo, and the payment of compensation and rent as authorized by subsection (e) of this section. All proceeds remaining after the above authorized expenditures shall inure to the exempt organization to be used for religious, charitable, civic, scientific, testing for public safety, literary, or educational purposes, or for purchasing, constructing, maintaining, operating or using equipment or land or a building or improvements thereto owned by and for the exempt organization and used for civic purposes or made available by the exempt organization for use by the general public from time to time, or to foster amateur sports competition or for the prevention of cruelty to children or animals, provided that no proceeds shall be used or expended for social functions for the members of the exempt organization.

(e) No person may be compensated for conducting a raffle or bingo game. An exempt

June 7, 1979
organization shall not contract with any person for the purpose of conducting a raffle or bingo game except that an exempt organization may lease space for such purpose at a fixed sum and not at a percentage of receipts or proceeds. Such leases shall be at a fixed rate not subject to change during the term of the lease. The provisions of this subsection notwithstanding, an exempt organization may compensate a person for conducting raffles or bingo games conducted at a fair or other exhibition conducted pursuant to Article 45 of Chapter 106 of the General Statutes.

(f) The number of sessions of bingo conducted or sponsored by an exempt organization shall be limited to two sessions per week and such sessions must not exceed a period of five hours each per county. No more than two sessions of bingo shall be operated or conducted in any one building, hall or structure during any one calendar week; provided, however, that two exempt organizations may operate up to two sessions of bingo each per week in the same building, hall or structure, if the organizations do not use the same equipment and personnel. Four consecutive nights of bingo may not be held on the same premises during any one calendar week. Raffles shall be limited to one per month per county. This subsection shall not apply to raffles or bingo games conducted at a fair or other exhibition conducted pursuant to Article 45 of Chapter 106 of the General Statutes.

(g) The maximum prize in cash or merchandise that may be offered or paid for any one game of bingo is five hundred dollars ($500.00). The maximum aggregate amount of prizes, in cash and/or merchandise, that may be offered or paid at any one session of bingo is one thousand five hundred dollars ($1,500). Provided, however, that if an exempt organization holds only one session of bingo during a calendar week, the maximum aggregate amount of prizes, in cash and/or merchandise, that may be offered or paid at any one session is two thousand five hundred dollars ($2,500). The maximum cash prize that may be offered or paid for any one raffle is five hundred dollars ($500.00).

(h) The operation of raffles or bingo games shall be the direct responsibility of, and controlled by, a special committee selected by the governing body of the exempt organization in the manner provided by the rules of the exempt organization. Upon their selection, the members of the committee shall register with the sheriff of the county in which the raffle or bingo game is to be conducted. The registration shall disclose the identity and address of the members of the committee and the exempt organization.

(i) All funds received in connection with a raffle or bingo game (except funds given as prizes in connection with a particular raffle or bingo game) shall be placed in a separate bank account. No funds may be disbursed from this account except for the purposes authorized by subsection (d) of this section. A separate account shall be kept of all funds received in connection with raffles or bingo games (including the amount of any prize) and the amount and purpose of any disbursement. An audit of the account shall be conducted annually by the special committee for the period July 1 to June 30. A copy of the audit shall be filed on or before September 15 of each year with the sheriff of the county in which the raffle or bingo game is conducted. All books, papers, records and documents relevant to determining whether an organization has acted or is acting in compliance with this section shall be open to inspection by the sheriff or his designee or the district attorney or his designee at reasonable times and during reasonable hours.

(j) A raffle or bingo game conducted otherwise than in accordance with the provisions of this section is 'gambling' within the meaning of G. S. 19-1 et seq., and proceedings against such raffle or bingo game may be instituted as provided for in Chapter 19 of the General Statutes.

(k) Any exempt organization operating a bingo game or raffle which is open to
persons other than members of the exempt organization, their spouses, and their children shall make such bingo game or raffle open to the general public.

(l) Nothing in this Article except subsection (k) of this section shall apply to bingo games when the only prize given is ten dollars ($10.00) or less or merchandise that is not redeemable for cash and that has a value of ten dollars ($10.00) or less. G. S. 18A-30(9) and G. S. 18A-35(h) shall apply to such games."

Sec. 7. All general or local laws that permit the operation of raffles or bingo games in counties or towns are repealed.

Sec. 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SENATE RESOLUTIONS

FIRST SESSION 1979

April 13, 1979

S. R. 696, A SENATE RESOLUTION EXPRESSING TO THE PRESIDENT AND
THE CONGRESS OF THE UNITED STATES SUPPORT FOR ALLOWING
VOLUNTARY PRAYER IN THE PUBLIC SCHOOLS.

WHEREAS, the North Carolina Senate is firmly committed to the Constitutional
principle that neither the Congress nor the State legislatures should attempt to make
any law respecting the establishment of religion, or prohibiting the free exercise thereof;
and

WHEREAS, the North Carolina Senate also recognizes that this State and this nation
were founded on, and have grown upon a trust in and dependence upon Almighty
God: The Preamble to the Constitution of North Carolina expresses the gratitude of the
people of the State to “Almighty God, the Sovereign Ruler of Nations, for the
preservation of the American Union and the existence of our civil, political and religious
liberties,” and acknowledges our “dependence upon Him for the continuance of those
blessings to ourselves and our posterity”. Article I of the Constitution of North Carolina
declares that “All persons have a natural and inalienable right to worship Almighty God
according to the dictates of their own consciences, and no human authority shall, in any
case whatever, control or interfere with the rights of conscience.” The Declaration of
Independence declares that “the Laws of Nature and Nature’s God” entitle the people of
the American colonies “to assume among the Powers of the earth a separate and equal
station,” and appeals to “the Supreme Judge of the World for the rectitude of our
intentions.” The Articles of Confederation under which the American Union functioned
prior to the adoption of the Constitution of the United States stated that “it has pleased
the Great Governor of the World to incline the hearts of the legislatures we respectively
represent in Congress, to approve of, and authorize us to ratify the said Articles of
Confederation....”. The Ordinance for the Government of the Territory of the United
States, Northwest of the River Ohio, enacted in 1787, states that “Religion, morality,
and knowledge” are “necessary to good government and the happiness of mankind”, and
that identical language appears in Article IX of the Constitution of North Carolina; and

WHEREAS, it has been the custom of both houses of the General Assembly of North
Carolina to open each daily session with prayer, and there has been no assertion that the
practice has resulted in the establishment of any religion or the suppression of the free
exercise of religion;

Now, therefore, be it resolved by the Senate:

Section 1. The Senate of North Carolina expresses to the President and the Congress
of the United States that the Senate is convinced that it is possible to allow the tradition
of [S-nonsectarian] prayer in the public schools to continue, on a purely voluntary basis,
and with adequate safeguards to avoid any coercion or the appearance of coercion, and at
the same time to protect our citizens against any semblance of an established State
religion.
Sec. 2. The Senate of North Carolina does not believe that the Constitution of the United States requires that in all governmental activities the existence of a Divine Being must be ignored.

Sec. 3. The Senate of North Carolina expresses its appreciation to those members of the Congress of the United States who are attempting to allow voluntary prayer to be continued as a structured part of our public school program, and urges the President of the United States to support those efforts, to the end that "this Nation, under God, shall have a new birth of freedom."

Sec. 4. The Principal Clerk of the Senate shall transmit a copy of this resolution to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of the North Carolina delegation in the United States Congress.

Sec. 5. This resolution is effective upon its adoption.

April 13, 1979

S. R. 699. A SENATE RESOLUTION RELATIVE TO THE OBSERVANCE OF SECRETARIES WEEK.

WHEREAS, the secretary is resolved to maintain the highest professional and personal ethics in this increasingly vital role in the modern complexities of business, industry, government, and education; and

WHEREAS, a secretarial career has attained the status of an exacting and highly qualified profession; and

WHEREAS, the secretary believes that diligence should be directed to increased learning, efficiency, and loyalty in making an ever more valuable contribution to the office; and

WHEREAS, the last full week in April is set aside each year to recognize all secretaries;

Now, therefore, be it resolved by the Senate:

Section 1. The Senate hereby proclaims the week of April 22 to April 28, 1979, to be Secretaries Week and April 25, 1979, to be Secretaries Day throughout the State of North Carolina, and commends it to the attention of business and the secretary alike to pay tribute to the secretarial profession by recognizing all secretaries for their services to the community and to the State.

Sec. 2. The Principal Clerk of the Senate is directed to transmit a suitable prepared copy of this resolution to the President of the North Carolina Division, The National Secretaries Association (International), and to the Raleigh Chapter Secretaries Week Committee Chairman, The National Secretaries Association (International).

Sec. 3. This resolution is effective upon its adoption.
S. R. 861, A SENATE RESOLUTION HONORING A REMARKABLE PULPWOOD TRUCK.

WHEREAS, a distinguished member of this body has an old pulpwood truck which has figured prominently in no less than three bills debated in this Chamber; and

WHEREAS, early in this session of the General Assembly, Senate Bill 169, introduced by Senator Vickery, regarding gross defects in mufflers was debated, during which debate a member of this body arose to eloquently state that his old pulpwood truck had no such defect because it had no muffler; and

WHEREAS, later in this session Senator Marvin introduced Senate Bill 294 which would require motor vehicles to be equipped with gas caps, and during the debate on that bill the same distinguished member arose to appeal for the mercy of this body since his old pulpwood truck, lacking such a cap, would be in violation of Senator Marvin's bill; and

WHEREAS, more recently Senator Gray's bill regarding the operation of windshield wipers and lights during a rain storm, Senate Bill 137, prompted comments from our truck-driving comrade noting that his pulpwood-carrying vehicle has no lights and has no need for windshield wipers because it has no windshield; and

WHEREAS, there are virtually no more trucks like the one this distinguished Senator still drives; and

WHEREAS, the distinguished Senator who owns the aforesaid truck has been a hard working member of the North Carolina Senate and has faithfully attended the session and performed outstanding service to the State of North Carolina and has followed all laws of this State which pertain to that pulpwood truck, but the truck is used in such rough terrain that it is difficult for it to meet all required safety standards;

Now, therefore, be it resolved by the Senate:

Section 1. The old pulpwood truck of Senator Joe H. Palmer is hereby declared to be an item of State Historic Property, and is hereby proposed for entry in the National Registry of Historic Property, in sincere hope that entry into said Registry will get such a vehicle, which has questionable adherence to all North Carolina motor vehicle laws, special attention from the people of the State of North Carolina so that they can stay out of the path of this particular pulpwood truck.

Sec. 2. This resolution, in the interest of safety to all drivers in this State, shall become effective upon its adoption.

Prior to the filing of the bill or proposing of the amendment, the Fiscal Research Division, except to the sponsor, shall keep in confidence the identity of the sponsor. The sponsor shall attach the fiscal note to the bill when he files the bill or to the amendment when he moves its adoption.

(e) The sponsor of a bill or amendment to which a fiscal note is attached who objects to the estimates and information provided may reduce to writing his objections. These objections shall be appended to the fiscal note attached to the bill or amendment and to the copies of the fiscal note available to the membership.

(f) Subsection (a) of this rule shall not apply to the current operations appropriations bill or the capital improvements appropriations bill. This rule shall not apply to a bill or amendment requiring an actuarial note under these rules.

Rule 7. Actuarial notes. (a) Every bill, joint resolution, and simple or concurrent resolution introduced in the General Assembly proposing any change in the law relative to any State, municipal, or other retirement system, funded in whole or in part out of
public funds, shall have attached to it at the time of its consideration by any committee of
either house of the General Assembly a brief explanatory statement or note which shall
include a reliable estimate of the financial and actuarial effect of the proposed change in
any such retirement system. This actuarial note shall be attached to the original of each
proposed bill or resolution which is reported favorably by any committee of either house
of the General Assembly, but shall be separate therefrom, shall be clearly designated as
an actuarial note and shall not constitute a part of the law or other provisions or
expression of legislative intent proposed by the bill or resolution.

(b) The author of each bill or resolution shall present a copy of the bill or resolution,
with his request for an actuarial note, to the Fiscal Research Division which shall have
the duty to prepare said actuarial note as promptly as possible. Actuarial notes shall be
prepared in the order of receipt of request for such notes but shall be transmitted to the
author or authors of the measure in quintuplicate no later than two weeks after the
request for the actuarial note is made.

(c) The author of each bill or resolution shall also present a copy of the bill or
resolution to any actuary employed by the retirement system affected by the bill or
resolution in question. Such actuary shall prepare an actuarial note and transmit it to the
author or authors of the measure in quintuplicate no later than two weeks after the
request for the actuarial note is received.

(d) The note shall be factual and shall, if possible, provide a reliable estimate of both
the immediate effect and, if determinable or reasonably foreseeable, the long range
fiscal and actuarial effect of the measure. If, after careful investigation, it is determined
that no dollar estimate is possible, the note shall contain a statement to that effect,
setting forth the reasons why no dollar estimate can be given. No comment or opinion
shall be included in the actuarial note with regard to the merits of the measure for which
the note is prepared. However, technical and mechanical defects may be noted.

(e) At any time any committee of either house reports any legislative instrument, to
which an actuarial note or notes are attached at the time of committee consideration,
with any amendment of such nature as would substantially affect the cost to or the
revenues of any retirement system as stated in the actuarial note or notes attached to
the measure at the time of such consideration, it shall be the responsibility of the
chairman of the committee reporting such instrument to obtain from the Fiscal Research
Division an actuarial note of the fiscal and actuarial effect of the change proposed by the
amendment reported. Such actuarial note shall be attached to the report of the committee
on the measure as a supplement thereto. A floor amendment to a bill or
resolution to which an actuarial note was attached at the time of committee
consideration of the bill or resolution shall not be in order, if the amendment affects the
costs to or the revenues of a retirement system, unless the amendment is accompanied
by an actuarial note, prepared by the Fiscal Research Division, as to the actuarial effect
of the amendment.

Rule 8. Effect of a defeated bill.—(a) Subject to the provisions of subsection (b) of
this rule, after a bill has, in either house:
1. been tabled,
2. failed to pass on any of its readings, or
3. been placed on the unfavorable calendar,
the contents of that bill or the principal provisions of its subject matter shall not be
considered in any other measure [H-originating thereafter in the house in which such
action was taken]. Upon the point of order being raised and sustained by the Chair, that
measure shall be laid upon the table, and shall not be taken therefrom except by a
two-thirds vote of the members present and voting.
Rule 9. **Report by committee of other house's bills and resolutions.**—All bills and resolutions originating in one house shall be reported from the committee of the other house to which referred with such recommendations as the committee may desire to make, except in the case where the sponsor requests in writing to the chairman of the committee that the bill not be considered.

Rule 10. **Committee substitutes adopted by one house to bills originating in the other house.**—(a) Whenever one house has adopted a committee substitute for a bill originating in the other house, and has returned the bill to the other house for concurrence in that committee substitute, the house in which the bill originated may not concur in that committee substitute until the next legislative day following the day on which that house receives that committee substitute.

(b) The presiding officer of the house in which the bill originated may, and upon motion supported by a majority of that house present and voting shall, refer the bill to an appropriate committee for consideration of the committee substitute.

(c) The presiding officer shall, in placing the bill on the calendar, rule whether the committee substitute is a material amendment under Article II, Section 23, of the State's Constitution. If the committee substitute was referred to committee, the committee shall:

i. report the bill with the recommendation either that the house concur or that the house do not concur; and

ii. advise the presiding officer as to whether or not that committee substitute is a material amendment under Article II, Section 23, of the State's Constitution.

(d) If the Committee substitute for a bill is not a material amendment, the question before the house shall be concurrence.

(e) If the committee substitute for a bill is a material amendment, the receiving of that bill on messages shall constitute first reading and the question before the house shall be concurrence on second reading. If the motion is passed, the question then shall be concurrence on third reading on the next legislative day.

(f) No committee substitute adopted by one house to a bill originating in the other house may be amended by the house in which the bill originated.

Rule 11. **Committee minutes to Legislative Library.** The chairman of a committee shall insure that written minutes are compiled for each of the committee's meetings. The minutes shall indicate the members present and the actions taken by the committee at the meeting. Not later than sixty days after the *sine die* adjournment of each session of the General Assembly, the chairman shall deliver the minutes to the Legislative Library. [H-The President of the Senate or Speaker of the House may grant a reasonable extension of time for filing said minutes upon application of the committee chairman.]

Rule 12. **Redistricting Committees.**—In the session next after the federal decennial census, the presiding officer of each house shall appoint a standing committee or committees on redistricting.
Rule 13. **Rules suspension and alteration.** (a) These rules shall not be permanently rescinded or altered except by a joint resolution passed by a two-thirds (2/3) vote of the members present and voting in each house.

(b) These rules may be temporarily suspended by a two-thirds vote of the members present and voting in each house.

Sec. 2. This resolution shall be effective upon ratification [H-except for Joint Rule 1 which shall be effective 60 days after ratification.]

**NOMINATION OF SENATOR W. CRAIG LAWING, PRESIDENT PRO TEMPORE, 1979 SESSION**

NOMINATING REMARKS BY SENATOR MARSHALL RAUCH:

Mr. President, Ladies and Gentlemen of the Senate:

Today, I would like to place into nomination for President Pro Tem of the North Carolina State Senate a man who has been a life-long Democrat of Mecklenburg County. Mecklenburg County, the place being where he was born and still resides. The man is Senator Craig Lawing, who is a natural leader—a man with a warm, quick smile—a man who makes friends instantly—a man of strength, both inner strength and physical strength, and of deep religious strength—a man of determination—a man of integrity—a man who is loyal, loyal to his family, loyal to his friends, loyal to the State Senate of North Carolina and loyal to North Carolina. He is a man of wit. He is a man of wisdom. He is a man who is very serious when it is necessary, yet he has that enviable characteristic of being able to laugh at himself.

Senator Craig Lawing works well in the forefront for a cause if it is popular or unpopular. We have seen him work on both. He, also, works well with you if you have a bill that you feel is worth championing and if Senator Lawing agrees, you will find that he works well behind the scenes doing the work for you.

 Truly, Senator Craig Lawing is a man who would do honor to the North Carolina Senate as it honors him. Senator Lawing does not seek personal honor. He seeks honor for our Senate and honor for our State.

Mr. President, ladies and gentlemen of the Senate, I know of no man who can do a better job as North Carolina’s President Protem. He follows illustrious men who have done this work before him and Senator Lawing is a person I am sure will bring honor to us as we bring honor to him.

FURTHER NOMINATING REMARKS BY SENATOR HENSON P. BARNES:

Mr. President, Ladies and Gentlemen of the Senate:

For those of you on New Year’s Day who had an opportunity to watch the Sugar Bowl game on television, you saw a lesson in leadership that would be worth repeating on this floor. Penn State, the first team in the nation—probably the best team a lot of sports writers said, went down to New Orleans in the Sugar Bowl to play Alabama. Well, Alabama hasn’t been that good this year—they had lost one game and they said they weren’t as fast as they have been in years past and they weren’t as strong and there were some problems in the Alabama team. Somewhere in the last half of the game, Penn State got the football within Alabama’s ten-yard line and on the fourth down there was
one foot to go to score a touchdown. At that time, Alabama was ahead and nobody in that stadium believed that there would be any way to stop Penn State from scoring 'cause they had a powerful tailback. Then Penn State's quarterback handed the ball off and as the tailback leaped across the line, the Alabama team rose as a man at a given time and stopped him—short of the line, one foot short. After the game the newscaster was talking with Coach "Bear" Bryant and he said he had watched every game that had been played by—on television, on reel, that was, on film—Penn State in the previous year. And he said that he had seen that play every time they had gotten that close to the goal line. Course, "Bear" Bryant is a proven leader and through his leadership Alabama went on to win.

In this Senate, we are all equals. Among us we are going to elect someone who would be our leader as President Pro Tem in the coming year. Senator Lawing is a proven leader. All of you who have been in the Senate and have seen him as he has carried his bills—supported his bills through this Legislature, well know that. You will remember that probably the most controversial bill that we had in the 1977-78 Session that Senator Lawing was the architect of that bill and Senator Lawing saw it through 1977 through this body and in 1978 through the House of Representatives. He has proved he can lead, that he can motivate people, and that he has enthusiasm. And, he does it in such a charming way. As a matter of fact, several of us from down east were opposed to that particular bill and I happen to be one of those but we respect good leadership when you see it and he exhibited good leadership at that time.

Down east, we have a saying, as our President well knows—"if you can't beat them, learn from them." We sometime don't join as quickly as a lot of other people do—we are a little conservative on occasions—so we surely learn from him. One thing I did learn that he would be a good President Pro Tem of this Senate. He would be a good leader. Because of that I am happy to tell you that I would like to second the nomination of Senator Craig Lawing.

FURTHER NOMINATING REMARKS BY SENATOR CAROLYN MATHIS:

Mr. President and fellow members of the Senate:

I, for the citizens of Mecklenburg County, would like to offer to share with you—the Senators of the 133rd General Assembly—the leadership of Craig Lawing.

His talents began for the people of Mecklenburg when he was only twenty-two years old. He was the youngest county commissioner ever elected to Mecklenburg. He worked for human services, for the elderly, and for the people truly in need. He also encouraged county commissioners to set aside some land, or to donate some land which triggered the donation of private land to form the campus of the University of North Carolina at Charlotte. He also encouraged the set-aside of some land for an industry research center which is now coming into being.

Craig's constituents say of him—"It's Craig's belief that it is not who is right, but what is right." And I think that those of you who are new or those of you who have worked with Craig only a little bit and those of you who have worked with him a lot will agree once you get to know him that this is the way Craig does and thinks.

A little home-town newspaper, prior to the election, said of Craig, "He is the most able candidate." And I would most wholeheartedly agree. And by the way, the voters agreed also.

So for this man of good humor, good courage, and good sense, I would like to second
the nomination of Craig Lawing, for the people of Mecklenburg who consider Craig our leader and our friend.

Thank you.

FURTHER NOMINATING REMARKS BY SENATOR T. CASS BALLINGER:

Mr. President:

It's a real honor and a pleasure on my part to second the nomination of Senator Lawing. I have served in the House and the Senate with him. I think anybody that has been on various and sundry committees and worked with him knows that he has true leadership.

I think that the Senate and the State of North Carolina will be served well by his election. And, I would like to assure him right here and now that we Republicans will work with him in any way for the good of the State of North Carolina.

FURTHER NOMINATING REMARKS BY SENATOR W. D. MILLS:

Mr. President:

I, too, would like to rise to second the nomination of our President Pro Tem, Senator Craig Lawing. I called and asked did he mind if I seconded his nomination back a few months ago and he did not disagree. I know that a good many members of this body have had the privilege of working and observing Craig's activities in this Legislature.

It was my privilege in 1975 to serve as a co-chairman of the Economy Committee in a period of time in which we had to make some unpopular decisions.

Craig Lawing is a fiscally responsible person. He stands up and he is counted, whether it is good at that moment for him, politically, or not. I know that he will offer the fiscal responsibility that we need in this General Assembly and it is with a great deal of pleasure that I second the nomination of Senator Craig Lawing.

January 10, 1979

NOMINATION OF SENATOR KENNETH C. ROYALL, JR.
MAJORITY LEADER, 1979 SESSION

NOMINATING REMARKS BY SENATOR JOHN T. HENLEY:

Mr. President, Ladies and Gentlemen of the Senate, the guests of the Senators, relatives, and fellow North Carolinians:

It is a great honor and a pleasure for me to place in nomination the name of a great North Carolinian—a dear personal friend of mine and, I am sure, of each member of this Senate—the name of Kenneth C. Royall from Durham, North Carolina, who has served his State in the highest tradition in both the House of Representatives and in this body for four terms. He comes from a great family—his father serving our Nation as Secretary of War and as Secretary of the Army—he has carried this tradition highly throughout his life.

I know of no one, and I think that those who have served with him will agree, that knows the appropriations process better than Kenneth Royall. He has a computer mind almost when it comes to the budgetary process and we all respect him for his ability in this regard. He is concerned certainly about the taxpayer of North Carolina, at the same time he is concerned about providing services for those who need the services of our great State.
Kenneth has proven his ability—he served as majority leader last session—he is now serving on the Legislative Services Commission, the Governmental Operations Commission, Vice-Chairman of the Advisory Budget Commission, Chairman of the Ways & Means Committee. His neighbors and friends in Durham have recognized him—the Chamber of Commerce giving him the Distinguished Service Award last year, and the Mental Health Association of North Carolina recognized him last year as the Outstanding Legislator in 1977-78.

Kenneth has also taken a responsibility in which we are proud here in North Carolina by participating in the Council of State Governments, of which we are a member, the National Legislative Conference, of which we are a member. Senator Royall served as the first chairman of the Fiscal Affairs Committee of the Southern Legislative Conference which is composed of seventeen southern states and Puerto Rico. He is now serving as Vice-Chairman of the Southern Legislative Conference and, by past procedure, next year he will be Chairman of the Southern Legislative Conference. This tells you the high respect that he is held not only by us, his colleagues and his fellow North Carolinians, but also our colleagues—members of the general assemblies—of seventeen other states. And, by the way, this will bring to us—to North Carolina for the first time since the early thirties—the Southern Legislative Conference in 1981. And this is something we will all have to start some work on also.

He resides in Durham, as I stated earlier, with his lovely wife, Julia, who is here today. I do not know if Mary Bryant, his daughter, Jerry and Kenneth, Jr., his sons, are here. He is a wonderful person, a devoted person and I am honored and pleased to place the name of Kenneth C. Royall as Majority Leader of the North Carolina Senate.

FURTHER NOMINATING REMARKS BY SENATOR ROBERT SWAIN:

Fellow Senators, Fellow North Carolinians and Friends:

The last session was the first session that I have been in the Senate, but it did not take very long after a meeting or two of the Ways and Means Committee to learn where the leadership of this body lies. We were quick, and I think every person in this room will agree, to see that in order to be a majority leader a person should know the rules. Senator Kenneth C. Royall knows the rules. Another requisite is that he be loyal to the party that names him as their majority leader, he is a loyal Democrat. He knows his work—I know of no person who, as Senator Henley said, can analyze, understand the needs of our people and, particularly, in fiscal matters. I think that he is ultimately qualified, he is honest, he is loyal and dedicated to the people of our State and Nation. It is with pleasure that I second the nomination of Kenneth C. Royall as Majority Leader.

FURTHER NOMINATING REMARKS BY SENATOR WILLIS WHICHARD:

Mr. President and Members of the Senate:

It is a pleasure for me also to second the nomination of Senator Kenneth C. Royall for the position of majority leader. As Senator Henley has noted, Senator Royall is commencing today his seventh term as a member of the General Assembly. I am commencing my fifth term as a member of the same delegation in which he too serves. During the years that we have served together, he has been like a second father to me and at the same time has always treated me as a peer. It would be a duplication of effort for me to repeat here his list of credentials. He is eminently qualified for this position. I would want to add to what Senator Henley and Senator Swain have said only that the new members serving here will find, as the older ones have, that he is always open to them, he is always available to their inquiries, and they will find him a wise,
knowledgeable and experienced source for information, assistance and advice on any occasion. It is with pleasure and pride, Mr. President, that I second the nomination of Senator Kenneth Royall for the position of Majority Leader.

January 15, 1979

STATE-OF-THE-STATE ADDRESS BY THE HONORABLE JAMES B. HUNT, JR., GOVERNOR OF THE STATE OF NORTH CAROLINA.

Mr. President, Mr. Speaker, Members of the Senate and the House of Representatives, Members of the Supreme Court and the Court of Appeals, Members of the Council of State and the Cabinet, my fellow North Carolinians:

Tonight we begin anew the relationship that our Constitution provides: not rivals for power, but partners for progress; trustees for the people of our State. As you perform your duties to legislate for the good of our people, I pledge you my fullest cooperation and that of our entire Administration.

I am proud of our joint accomplishments in the 1977 and 1978 Sessions, and I am deeply grateful for the outstanding leadership of the Advisory Budget Commission as we prepared this budget for North Carolina which I present to you tonight.

North Carolina has made a new beginning.

North Carolina is moving again.

I see it when I dedicate a penicillin plant in Kenly, when I open a new highway in Macon County, when I visit a Primary Reading Program in Guilford County.

We are the fastest-growing state in the fastest-growing region of the country.

We are enjoying an economic boom unprecedented in our history.

In the last two years, we have doubled our new industrial investment. Last year, we went over the $2 billion mark for the first time in our history. For the two years combined, it totals $3.4 billion dollars, more than any four previous years combined.

That will mean 53,500 new jobs. Many of them are sophisticated, high-technology jobs that will broaden our industrial base. We are diversifying that base, turning away from its traditional low-wage character. In 1978, only 11 per cent of the new jobs announced were in our traditional industries.

We have one of the lowest unemployment rates in the nation, two full points below the national average. Employment is growing faster here than the average in the South, and it is growing faster in the South than any other region.

Let me show you what is happening in our State.

Keep in mind that few of these new industries are in place yet. Some are being built now; some are being designed. They will open their doors this year, or in 1980, or in 1981. Our people will be working there in the 1980's.

That is what we must look at tonight—the 1980's.

That decade is only one year away. The question we must ask is this:

Are we ready for the 1980's?
Are our people ready to work in those skilled jobs?

Are our cities and towns and rural communities ready for these new industries, the new people they will bring, the new services they will require and the growth pressures they will cause?

Are our schools ready to teach our children what they need to know in the 1980's? Are we ready to care for the human needs and hurts that the 1980's will inevitably bring?

Are we ready to provide the services—roads, ports, airports, water, sewer, recreation, parklands—that the 1980's will require?

Are we ready to help our "families" face whatever the economy of the 1980's will bring?

We have been getting ready in the last two years.

I am proud that our Primary Reading Program is under way and that last year, for the first time, our first and second graders scored at or above the national average in reading and math.

I am proud that our testing program in grades one, two, three, six, nine and eleven has begun, and that for the first time ever, we know which students need more help and which skills they lack.

I am proud of our legal and moral commitment to the equal education of our exceptional children, including the gifted and talented. Our community schools program, our new Governor's School and our North Carolina School of Science and Mathematics are successfully established.

I am especially proud that our people are viewing the schools as "their schools" again and volunteering to help them in record numbers.

In addition to our industrial growth in the past two years, agriculture has rebounded from its problems in 1977. Our estimated farm income is up 22 per cent; cash receipts from livestock are up 12 per cent and income from tobacco is up 27 per cent—topping $1 billion for the first time.

With the help of the $300 million bond issue voted by the people, we are building an excellent East-West transportation system.

We have made the most sweeping reform of our public utility regulation of any state in America. While electric rate increases were more than "double" the rate of inflation between 1970 and 1977, we have cut them to no more than the rate of inflation, saving money for every citizen in this State.

Most important, we have done all of this without raising taxes.

We have made a "new beginning," but we have only begun.

North Carolina can take great pride in its progress—not just in the last two years, but in the decades before. This General Assembly can take great pride in that, especially you who are veteran members. You provided for that progress. Chairman Eddie Knox remarked, after the Advisory Budget Commission toured our State, examining what we have done with the people's money, that North Carolina has achieved so much for a historically poor State.

But we still have so much to do.
Too many adults work in jobs that pay too little money and promise too little future.

Too many babies die soon after birth or are stunted or handicapped before they are born.

Too many unwed teenage girls give birth without having seen a doctor, or knowing what to eat, or how to stay healthy, or how to care for their babies.

Too many young children are warped and twisted and lost in the first few years of their lives—starved of nutrition, stimulation, education and affection.

Too many children—and adults—don't learn to read and write and add and subtract and multiply and divide.

Too many young people can't find a good job.

Too many families and working couples see their dreams for a home, and future, "eaten away" by inflation.

Too many senior citizens face retirement, barely able to pay for food, shelter, medicine, and health care. Too many are left alone in institutions—cut off from family, friends, and home.

We cannot let our people down. We cannot stand still.

We must not fall behind in the race for our future.

North Carolina stands on the edge of the 1980's, "bursting" with hope and promise.

As Governor and as a General Assembly, we "share" the responsibility for meeting that tomorrow.

The budget I am presenting to you begins with the recognition that we are called to act at a time when our people are hard-pressed by inflation and taxes, as well as a time of "great needs." It is your responsibility in this legislature to strike a balance that history will record as good for our people.

We must be both frugal and compassionate. We must govern with our heads as well as our hearts.

"Inflation" is an enemy whose hurts we must try to cure and whose advance we must turn back.

To understand its effect, I ask you to think of the head of a household in your home community earning $15,000 per year who last year got an 8 per cent increase in salary, about the rate of inflation. Because his salary increase threw him into higher tax brackets, this typical individual will receive 1.6 per cent less in after-tax income this year than last to support his family and pay his bills.

In making your decision on taxes, I urge you to think very carefully about "that taxpayer" and about the following principles.

First, we must not cripple the "essential services" that our State government provides to its citizens, services necessary for a good quality of life and future economic development.

Second, we should return to the taxpayer, especially in a time of high inflation, the portion of his tax money not needed for "essential services." Just because government collected it is no reason to spend it.
Third, we should be cautious and responsible in providing tax relief. We do not know
now what will happen this year to our economy and our tax revenues. It would be
contrary to our State’s tradition of fiscal prudence to cut taxes so much that the next
legislature would be forced to impose new taxes, or to tie the hands of North Carolina in
our race with forty-nine other states for economic programs and better opportunities for
our people.

Fourth, we should provide tax relief that is fair and consistent with the further
progress of our State.

I recommend to you a plan that I believe meets all these criteria. It could result in a
total package of tax relief to our people of over $105 million in 1979-80.

The most important part of the plan consists of two long-overdue changes. One would
provide permanent tax reductions for families raising children by increasing the
personal exemption of dependents from $600 each to $1,000. The other would provide to
our citizens aged 55 or over an income tax exemption for the money they realize from the
sale of their principal residence, up to $100,000.

These changes can be made without hurting essential services. The reduction in
revenue from them, about $40 million a year, has already been taken into account in the
budget I submit to you.

I suspect it was a belief that families need all the support they can get in the critical
but costly job of raising children that motivated Governor Moore and the General
Assembly of 1967 to raise the dependent exemption from $300 to $600 per person. Now,
12 years later, after costs of housing, clothing and schooling children have increased so
much, I urge you to raise it to $1,000.

Under the present law, a family with two children and an annual income of $6,000 is
required to pay approximately $91 in North Carolina income tax. Under my
recommendation, this taxpayer will save $37, a reduction of 41 per cent in his income tax
bill. The same size family with an income of $10,000 a year now pays $258 in income tax,
whereas under the recommended plan it will pay $215, or a reduction of 17 per cent.

A taxpayer with two children earning $15,000 (the “middle-income taxpayer,” whom
often forgot but who is also hard-pressed) would pay $571 under the existing plan and
$515 under the recommended plan, a reduction of $56 or 10 per cent. Thus, you can see
that the largest percentage benefit would go to the small taxpayer. Many small
taxpayers would become totally exempt from paying any state income tax.

I further propose that, because we cannot safely predict economic conditions for the
coming year, and in light of the predicted downturn in the economy, we provide a tax
rebate on 1979 income taxes to all taxpayers if tax revenues turn out to exceed our
estimates.

A total rebate up to $65 million would be provided if tax revenues in the 1979-80 fiscal
year exceed $2.55 billion. The maximum available to a taxpayer would be $25 and the
minimum amount $10.

Some people do not understand such a rebate. They say government, not the
taxpayers, should spend it. But they don’t understand that government doesn’t have any
right to that money. It belongs to the taxpayers. In times like this, they should get it
back—no matter how much—so long as there is enough to pay for the stamp and
envelope.
As your Governor, I also ask that all of us in North Carolina do our part in the nation’s fight against inflation.

We as a State must hold down the cost of government. I present to you an austere budget. It would increase the number of State jobs, including education, by only 2.2 per cent the first year and 0.94 per cent the second year. Those are the smallest biennial and annual increases since 1966, the earliest year for which we have comparable data. The average annual increase over the 1972-73 through 76-77 period was 4.8 per cent per year. The vast majority of the new positions this year will be teachers and other public school employees.

We are saving money in other ways. Following our reduction in State personnel through executive decisions by 2.3 per cent, or over 800 positions, in 1977, we now have a Productivity Commission and Resource Management System working to make State government deliver more for every dollar. One Department of Transportation employee has already received a $1,000 reward for an idea that will save our taxpayers a half-million dollars a year in road construction.

We can aid the consumer in the fight against inflation by the rigorous action of our regulatory agencies. Regulatory boards should have a majority of members without ties to the industry being regulated. I urge this legislature to change every law on our books necessary to insure this fairness and to give careful attention to the recommendations of the Sunset Commission regarding licensing boards.

Just as federal government employees and private sector employees in North Carolina will have their wage and salary increases limited by the seven per cent inflation guidelines next year, our proposed State budget complies with the guidelines, and includes a salary and fringe benefit reserve for the full seven per cent amount for our teachers and State employees.

I recommend to you that two per cent of the total go for merit steps and other increments, and I urge you to carefully consider whether the remainder should be paid as an across-the-board increase, or on a graduated basis.

North Carolinians recognize that the federal budget deficit contributes significantly to inflation. I support a call for a national constitutional convention to require a balanced federal budget, except in times of emergency. I recognize that there is some risk in such a step. But the fifty states of this nation, living under balanced budgets requiring tough tax and spending decisions, have waited patiently for the federal government to get its fiscal house in order.

We have waited in vain.

It is appropriate now that we support the efforts of the President to get the budget balanced. We should “serve notice” on the Congress and the federal bureaucracy that if they do not balance our national budget voluntarily, we, the people of America, will require it constitutionally.

These things—necessary tax relief, efficient government and our efforts to fight inflation—will naturally occupy much of your time in this 1979 Session. But North Carolina did not get to be the leading State in our region by being preoccupied with such matters.

We achieved our place by the attention that great legislators, governors and our citizens together have paid to the “full development” of our people over the years.
In late 1977, over 100,000 North Carolinians told us in the “North Carolina Tomorrow” survey what they wanted this State to be like. In hearings throughout the State in 1978, they helped shape policies to achieve their goals.

They said they wanted more good-paying jobs in their communities, and tonight I ask you to help us get them.

They said they wanted a better chance in life for their children, and tonight I will urge improved child development, education, and health care.

They said they wanted good, safe, liveable communities in a clean environment, close to their jobs, and tonight I ask a commitment to State policies to encourage that.

They said they wanted better and more efficient government with a place for the individual, and tonight we have focused on that.

HUMAN DEVELOPMENT

The challenge to me in proposing, and to you in considering our course, is to develop an “investment strategy” for North Carolina, a State with limited means, but unlimited people. It should be a strategy that will most quickly lead us to a far higher per capita income, that will preserve our beautiful natural resources—that will, in short, give us the “highest return” on every dollar of the taxpayers that we use.

Part of a wise investment strategy would obviously call for improvements in fighting crime and in our criminal justice system. I wish to discuss that with you personally in a separate message in two weeks.

Essential in an investment strategy for North Carolina, is the concept of “people involvement” as volunteers, the use of private resources, not just tax money and public employees. Under the capable direction of Dr. Charles Petty, our Governor’s Office of Citizen Affairs is working with communities all over our State to maximize these donated services. The present outpouring of help to our high school students after the competency tests is evidence that we are succeeding. Our goal is to have an “active center promoting volunteerism” in every county in the State.

Most basic in our investment strategy for North Carolina must be the “full development” of our people.

We have talked about doing that throughout our history. Governor Charles Brantley Ayeock called upon us to provide the opportunity for every child “to burgeon out all that there is within him.” That was in 1901.

Yet, change has come slowly. In his message to the General Assembly in 1957, Governor Luther Hodges cited North Carolina’s rank of 44th among the—then forty-eight states, in per capita income. Today, our per capita income is fortieth among the fifty states.

I believe we have failed to move more quickly because we have directed help to our people too late in life.

A child born of a mother who had a poor diet and no medical care during pregnancy has a far greater chance of dying at birth or being born handicapped.

A child living in poverty who never sees a doctor from the time of birth until he is immunized just before entering school, has a far greater chance of being physically or mentally retarded.
A child living in a home with no books and no parent with education has a far greater chance of being vacant in thought with little motivation, and a "wasted" mind.

By the time we get these children in our public kindergartens, it is "too late." The critical time for love, nourishment and stimulation has passed. Age four, by which time fifty per cent of the IQ is supposed to be developed, has "gone by." More important, motivation is lacking; the wrong attitudes and values have been "fixed for life."

They grow up handicapped. They can't fully use the schools we have built, the programs we have developed. They drop out of school or fail to learn enough to graduate. They can't keep a job. They go on unemployment or welfare, and they may wind up in the courts or in prison.

They lead unhappy, wasted lives, and the taxpayers pay the bills. Then, they may have children, and the cycle begins all over again.

We must stop this cycle.

The most rewarding investment we can make with public funds today is in our "youngest children." Over time, it will mean billions of dollars more each year in production, wages, profits and public revenues.

I propose that we take a bold new step, by committing ourselves to "raise up a new generation" in North Carolina.

This will be the "final link" in our human investment, followed by our kindergartens, our public schools, our community colleges and our universities.

I shall propose to you a Children and Family Policy Act to focus attention on helping the family raise children successfully. It will provide a new means for coordinating the many agencies and programs already in place that can help reduce infant mortality, expand and improve child care services and improve basic skills achievement. This act will not require any new personnel or appropriations.

I propose new investments in our budget for raising a new generation that will:

—Develop fifteen new perinatal clinics and provide better care for high-risk expectant mothers;

—Expand high-risk infant identification and tracking;

—Expand the Crippled Children's Program, which now covers conditions such as breathing problems, to over 25,000 children;

—Provide for the "first time" day care assistance for 2,900 children in 1979-80 and 6,250 children in 1980-81.

Many of the children that we must raise to be part of a new generation are poor and receive AFDC payments. I ask you to raise these payments, which have been frozen since 1974, by 5 per cent.

The Primary Reading Program, which I urge you to extend to the one-half of our children not now in it, is also a vital part of raising a new generation.

But all of these efforts affect children who will not finish high school until near the beginning of the 21st century. Only then will the impact of the "new generation" be fully felt.
The plants we are talking about tonight must employ our people very soon. What are we doing to prepare the students who will hold those jobs?

Our educators are working hard to do that now, from Dr. Bruton and Dr. Phillips, through every school and classroom. I ask tonight that every citizen in North Carolina give them their strongest support.

The budget I propose to you meets some pressing needs in our schools. It will:

—Fully phase-in the Exceptional Children Program in the schools, bringing the total of State money in it to over $100 million per year;

—Reduce student/teacher contacts in the junior high schools, grades seven, eight, and nine, to 150 per day;

—Expand remedial education to the needy students in grades seven through twelve who fail, or appear to need help for the competency test, by $14.4 million;

—Add vocational education positions to reduce the student/teacher ratio and improve instruction;

—Expand the Community Schools program to include every school district in the State;

—Provide $6.3 million over the biennium for additional instructional supplies and materials;

—Add 71 more school psychologists;

—Raise qualified substitute teachers' pay to $30 per day; and

—Establish a Principals Institute to provide professional leadership and management training for public schools principals.

Provision for greater excellence in the education of our most talented young people will be reflected in the exceptional children's budget funds for the second Governor's School at Laurinburg and the beginning operations of the North Carolina School of Science and Mathematics.

In higher education, it provides $6.3 million to begin a major change in the funding formula for community colleges.

This budget would also continue our State's proud tradition of support for its excellent University of North Carolina system, under the leadership of Dr. Bill Friday. The total UNC budget would increase by $93 million over the biennium.

This State has also made a commitment to a strong system of private colleges. To maintain that commitment, I propose that we increase the amount of legislative grants to North Carolina students in private colleges by $75 per student in the first year and another $75 in the second.

While young people should receive our special attention, we must maintain other vitally important commitments.

I propose spending an additional $12 million over the biennium to provide services that will help senior citizens.
Too often, senior North Carolinians have to enter a rest home or nursing home because they can't do one or two simple things—such as cook their meals or clean up the house or give themselves a shot. We can pay people to go into their homes and do these things for them—called the "chore services" program. We can also pay for health aides who can visit them at home.

I will urge your favorable consideration of a Policy Act for the Aging that makes stronger our continuing commitment to our older citizens.

We should likewise emphasize providing mental health services in the community, not just in hospitals. So I recommend that we spend an additional $2.5 million each year to help area mental health programs. This money will be available for meaningful alcoholism programs.

Finally, to reach our full potential, we must be sure that all our people have an equal right to "all they can be." This year, we should ratify the Equal Rights Amendment to the United States Constitution.

**BALANCED ECONOMIC GROWTH**

In the same way that we prepare our people for the 1980's, we must prepare our communities.

North Carolina will become the tenth most populous State in the nation in the 1980's. But our population is dispersed across the State. Our cities, towns and rural communities are clean, liveable and well-managed. We must keep them that way while digesting the growth of the 1980's. Their very attractiveness is one reason we are bringing in good jobs.

We want balanced, not malignant, growth. To that end, I will propose a Balanced Growth Policy Act that will establish a partnership in which state, city, and county governments can work together to bring in good jobs, provide public services and protect our environment and way of life.

I will also propose that we enact a state-wide law encouraging local land-use planning. The planning must be done at the local level by local people, especially Soil and Water Conservation Supervisors. It must protect our farmland, our forests, our waterways and our neighborhoods. It must protect our future.

We must take steps to strengthen our ability to attract good jobs.

I am asking that we spend an additional $800,000 each year of the biennium for travel and tourism.

Our economy, of course, rides on our transportation system—highways, ports, airports, and public transportation. Soon I will appoint a blue-ribbon study commission to study future needs for our entire State transportation system, including the question of financing highway construction.

In the last two years, we have made tremendous progress in improving our ports. In recent weeks, new companies have announced their plans to ship out of both our Morehead City and Wilmington ports. I recommend that, over the next two years, we spend $7.5 million to improve our ports.

We should also put seed money into two industries that have enormous potential—seafood and forestry.
We should invest $300,000 each year to buy land and build facilities at the Western Farmers Market in Asheville.

Our education system also has an important role to play in economic development. This legislature should continue to develop the School of Veterinary Medicine at North Carolina State University. Our livestock industry badly needs more vets, and we cannot get them from anywhere else. This school will be like a new "growth industry," a tremendous boost for economic development, particularly the toxicology and other environment-related industries, now nationally recognized in our Research Triangle.

Our community colleges must do a far better job of teaching our people the skills they will need to hold the good jobs of the 1980's. This budget provides more money for that purpose.

North Carolina's cultural resources also help make our communities attractive. For that reason, I recommend increased support for the new art museum, local arts programs, our State Symphony, our public libraries and local historical associations.

But how do all these things come together, where it really matters—in the "communities" where you live? In my home of Rock Ridge, in Charlotte, in Clay County, in Pembroke, in Elizabeth City—wherever you live.

How do we make a difference in the lives of the people who live there?

I say to this General Assembly and to every person in North Carolina, just as I did two years ago, "that it is just as much your responsibility as it is mine." Will you help teach a child to read? Will you help steer a young man away from a life of crime? Will you visit an elderly couple once or twice a week?

I think the question before North Carolina is: "Are we doing as much as we can do?"

We are going forward. This is a great State, but we can make it greater.

I am confident that this legislature will pass a program for progress.

But I say to our people, that only you can decide what you want this State to be. Only you can decide what you want to do with the future.

I have laid out for you an agenda that is limited in cost, but unlimited in ambition and hope.

I have talked to you not so much of details, but of directions.

North Carolina is special. North Carolina is working. North Carolina can develop a "generation of people" and a "quality of life" unmatched in our nation. This is an exciting time to be alive and to be in North Carolina.

Now, we must generate vision and energy for our future.

I believe we are ready.

SPECIAL MESSAGE ON CRIME TO THE NORTH CAROLINA GENERAL ASSEMBLY BY THE HONORABLE JAMES B. HUNT, JR., GOVRNOR OF THE STATE OF NORTH CAROLINA.

Two years ago, I came before the General Assembly as the first Governor in our history to deliver a special message on crime.

Tonight, I report to you on the status of our “new beginning” in the fight against crime, and urge that we arm our campaign with better weapons and sounder tactics.

We have made progress in the past two years, but too many of our citizens are still being assaulted, raped, murdered and burglarized. Too many families are torn by violence.

The people of North Carolina expect us to take stronger, more effective steps, and I intend to work with you and do all within my power to protect them.

I believe we have the potential for safer communities in North Carolina than in any state in our nation, and I want us to be satisfied with nothing less. And I believe that if we cannot be successful in reducing crime, that we will have failed in that most essential function of civilized society: providing basic protection for the lives and property of its members.

Two weeks ago, I proposed to you a program to get North Carolina ready for the 1980s. Controlling crime is an important part of that agenda for tomorrow.

With us in the galleries tonight are law enforcement officers from all across our state—sheriffs, chiefs of police, sheriff’s deputies, line policemen. They are the front line in our fight against crime—the men and women who bear the greatest responsibility and the greatest personal risk. I pay tribute to them tonight and urge that we—all North Carolinians—give them our strongest possible support.

But we have learned that controlling crime is too big a job for law enforcement officers alone. The causes and consequences of crime cut too deeply in our society.

We who govern must understand all the parts of an effective crime-reduction effort and put our resources where they will provide us the greatest returns in reduced crime.

And let there be no question about the primary aim of our administration. It is not just maximizing civil liberties—though we must insist on constitutional rights. It is not just building decent jails and prisons—though we must have good facilities and programs. Our aim, simply and firmly, is reducing crime in North Carolina, period!

Tonight I want us to address a comprehensive system to reduce crime. It starts with the earliest experiences of children and how they are shaped and molded. It continues with support and safety of families in their homes. It involves juvenile justice, law enforcement, the courts and corrections. Central to all of it is citizen involvement.

I believe that North Carolina stands today unique in the nation in our building of a comprehensive system to attack crime.

North Carolina is unique, too, in the way we have involved our people. Last year, Judge Phil Carlton, who was then Secretary of Crime Control and Public Safety, held 37 public hearings, at least one in every judicial district of this state, to give people a chance to talk about crime, to tell us what bothers them, to share with us any ideas and suggestions they had. They did tell us—several thousand people attended those
hearing—and what they said will be reflected in my proposals tonight. Our Juvenile Code Revision Committee held 15 public hearings, as well as meeting with interested citizens all across the state, and what it heard will also be reflected in my proposals. Those two public studies, The Crime Control Agenda and the Juvenile Code Revision Committee’s report, are the foundations for this second Special Message on Crime.

First, let me review for you the important steps that the historic 1977 General Assembly took:

—A speedy trials law was enacted. A suspect must be tried now within 120 days after indictment; in 1980 it goes down to 90 days.

—We have stiffer sentences for serious crimes. A seven-year jail term, without any chance for parole, is now mandatory for armed robbery.

—The death penalty was restored as a deterrent to premeditated murder.

—Prisoners were put back to work on the roads.

—Our judges were given a stronger sentencing tool called restitution. They can now order a criminal to pay a victim’s losses as a condition of a suspended sentence, parole and work release.

—Eleven new Superior Court Judges and three new Court of Appeals Judges were added.

—Money was provided for building new prisons and reducing overcrowding. Under Secretary Amos Reed, North Carolina has made great progress in making the prisons effective parts of our criminal justice system.

—State government, for the first time, established a department responsible for our total planning and coordinating efforts to control crime—the Department of Crime Control and Public Safety. And we have the Governor’s Crime Commission—composed of judges, prosecutors, defense attorneys, law officers and citizens—to give it policy guidance.

All of this—combined with the two reports that have been prepared since 1977—have prepared us for renewed action in the 1979 General Assembly.

In the long run, I believe that the most effective action we can take against crime is the program I laid out for you in my State of the State address. The best way to control crime is to raise a new generation of people who are whole, healthy and educated—ready to be contributing members of society.

A child is bent to crime early in life just as the twig is bent. Many of the men and women in prison today were born in broken, unhappy families, where violence and abuse were as much a part of their daily lives as love and affection are for our children. Many of them had their values and attitudes poisoned early in life. Many of them were uneducated and untrained.

If we’re really serious about reducing crime, we must prevent it early. We must reach out to our children, even before they are born—by getting their mothers to a doctor, by teaching them good health habits and good nutrition, by screening babies at birth for potential problems, by providing good child day care opportunities in the early years. If our children are healthy, can read and write, and have been taught moral values, they will be ready to go into the world, as a part of society, not as its enemies.

That is the best way to prevent crime.
Thus, the programs I have recommended to you for raising up a new generation are our first step in the enlarged campaign to reduce crime.

But we know that we have to do more. We know that, despite our best efforts, many adults and juveniles still will end up in trouble with the law.

The one problem brought up more than any other at our crime control hearings last year was "family violence."

This has long been a hidden problem. But we can hide from it no longer.

One out of every four murders in our state in 1976 occurred between members of the same family. Of all North Carolina law officers assaulted that same year, almost one in four was assaulted answering a domestic disturbance call.

Even more serious, violence begets violence. Abused children become child abusers. Studies of prostitutes, homicidal adolescents and convicted murderers find that the majority were themselves victims of family violence.

The time has come when, as a decent and humane people, we must provide more protection for the abused child and the battered spouse. That action can be a hallmark of this General Assembly. It will require much of our law enforcement officers, but I believe we are morally required to do it.

I propose that we create a new crime of trespass that will protect the abused spouse from violence in the home;

I propose that we give law officers the clear authority to protect these victims, and that we provide more protection for law officers who do so;

I propose that we give new authority to magistrates to hold violent spouses longer than present bail bonds permit;

I propose that we put more teeth in enforcement of contempt of court violations in these situations;

I propose that we create victim advocate programs to offer assistance to victims of family violence; and

I propose that we establish a Task Force on Family Violence to study further action and to report to the 1981 General Assembly.

I urge you to adopt the Juvenile Code Revision Committee's proposals to protect abused and neglected children. Child abuse and neglect are among the most heinous crimes in our society. It is time we took strong action against them.

Young people are not only victims of crime. Some of them—too many—become young criminals themselves. Young people under 16 account for 10 per cent of all criminal arrests in North Carolina in 1975; they were involved in almost 24 per cent of all arrests for burglary and felonious breaking and entering.

Our outstanding Juvenile Code Revision Committee has sought to strike a difficult balance between protecting society from juvenile criminals and providing effective programs that will prevent young people from turning to a life of crime.

We should follow the committee's overall blueprint for action. Let me highlight some specific proposals that I particularly support:
Parents should be held more accountable for the actions of their children, including their attendance at school.

We should allow the fingerprinting and photographing of serious juvenile offenders.

We should have a more effective juvenile record-keeping system.

We should encourage stiffer sentences for the most serious juvenile offenders.

Young people who are accused of serious felonies should be tried in criminal court, just like adults.

Schools should take stronger action to curb truancy and should provide more alternative programs for disruptive students.

Special rehabilitation programs should be provided for status offenders, who have committed offenses such as truancy and running away. When the needs of all 100 counties are clear, the state has the responsibility of providing its share of the funds for community alternative programs.

I strongly endorse the committee’s recommendation that our juvenile justice efforts should be consolidated into a single state government agency.

The committee recommended that it be located within the Judicial Department.

Since the report was presented to me, I have been informed of the Supreme Court’s opinion that such a single agency should be within the Executive Department.

I am therefore tonight asking that the Juvenile Code Revision Committee give further study to this matter and report its recommendation back to me and the General Assembly and our people that I will do all that I can by means of executive decisions on organization, budget and personnel to give a single agency for juvenile justice the visibility and strong voice that it needs.

The Crime Control Agenda provides us with the same kind of blueprint for action in dealing with adult crime. Again, I could not begin to cover all the recommendations in this excellent, massive report. I support the great majority of them, but I disagree with a few.

The report urges that we restore respect for our laws, our law enforcement officers and our entire system of criminal justice.

The North Carolina Supreme Court in a recent case said: “The necessity for adequate protection of life and property of the individual has never been so real and demanding as in this era, when disrespect for the law and those who enforce it has become rampant.”

I believe that restoring respect depends in part upon our court system.

The courts of this state belong to the people—not the lawyers or the judges—and they should be held to standards of fairness and productivity just like every other public and private enterprise.

I am proud of many outstanding judges in the courts of North Carolina. They are among the best in our nation, and they build faith in our criminal justice system among all who come to their courts. Some others do not.

At the crime hearings throughout the state, in court-watcher reports and by other means, our citizens have voiced these concerns about some of our courts:
—That continuances are granted as a matter of course contrary to the Speedy Trials Act;

—That defendants are allowed to delay trial by putting off getting a lawyer;

—That courts too often begin late and take long recesses, while defendants, lawyers and witnesses sit and wait;

—That judges don't take into account the convenience of witnesses in setting cases and conducting court;

—That judges don't explain certain things in court proceedings that may be completely proper but that appear suspicious to laymen;

—That too many defendants with records a yard long in shoplifting or worthless check cases continue to get put on probation;

—That trial judges are not using restitution fully, especially in crimes of violence when victims most need help; and

—That sentencing is done without inquiring into previous convictions.

As much as I would urge attention to any problem I discuss tonight, I urge the trial judges of this state to address these concerns, and emulate the best of our trial judges who are deemed by all around them to be fair, efficient and considerate.

Disrespect for our courts results also from the lack of fairness and certainty in our criminal sentencing. In my message two years ago, I called North Carolina's system of sentencing a public lottery. I believe that even more strongly today. Neither lawbreakers nor law-abiders can respect a system that gives one man 20 years for manslaughter and another man six months in similar circumstances.

Our system was based on the theory that sentencing is primarily for the purpose of rehabilitation. Thus the judges should be given the widest possible discretion and, when rehabilitation is complete, the prisoner should be set free.

In North Carolina, and throughout the nation, those theories have not proved out in practice.

It is time that we face up to the fact that the sentencing of criminal defendants is primarily for one purpose: punishment. And we should make it as fair as we possibly can.

You will soon receive proposed legislation from a North Carolina Bar Association committee that has studied this issue at my request and developed a bill that I strongly support.

It is not a "fixed sentencing" bill. It is a bill that will have the Legislature carry out its proper function of making laws by establishing a "presumed" sentence for different categories of crimes. The judge could increase or decrease the sentence only for good reasons such as age, prior record, etc., and all reasons relied upon would have to be set out in writing.

This clean, simple approach will help the public understand why a certain offender received a certain sentence. It will restore public faith and confidence in criminal sentences.

The legislation would also abolish the parole system for felonies as we know it. If our system of sentencing is a lottery, our system of paroling prisoners is a guessing game.
The judge is guessing when an offender will be paroled, so he will know how long a sentence to give. The inmate is guessing how he can manipulate the system to get a parole. The public has little understanding, and less faith.

This confusing system would be replaced with a plan under which each inmate would get one day off his or her sentence for every day of good behavior. This would be clear, fair and understandable to everybody concerned.

The two most effective deterrents to crime are swift and sure punishment. The "fair sentencing bill," added to the "speedy trials bill," will give us both in our arsenal.

I believe one of the best ways to increase public confidence in our courts is to adopt a system of merit selection for judges, to assure that they have the ability and firmness to make the criminal courts effective in reducing crime. I have already instituted a form of this system in my own judicial appointments by executive order, and it has worked well. I urge you to enact a merit selection system into law.

I strongly urge our judges to make better use of another sentencing tool—restitution. Criminals should have to pay for their victims' losses and damages. And if judges do not use this tool voluntarily, you, the Legislature, may need to make it mandatory.

But we should change the priority of payment in law so that the victim—not the court and not the state—gets first priority for receiving restitution money.

I hope you will give serious consideration to a proposal by the Attorney General to compensate innocent victims of violent crime with public funds as money becomes available.

While we have been free of it in the past, we must become alert to the potential involvement of organized crime in our state. To guard against it, we should:

—Establish an Organized Crime Committee in the Governor's Crime Commission;
—Clarify and strengthen our laws against gambling;
—Make jail term mandatory for a second conviction for prostitution;
—Crack down harder on drug pushers; and continue our efforts to curb cigarette smuggling.

I will ask this General Assembly to take stronger and more effective action against drunk drivers on our highways. I believe we should require people who are convicted of a first offense of driving under the influence to take a specially designed course, which has been successful in South Carolina and elsewhere in reducing drunk driving. For the second and subsequent offenses we should make a jail term mandatory.

The Crime Control Agenda offers more than a dozen recommendations on traffic safety that I support, such as giving the driver who fails to appear in court four points on his license.

Some actions discussed in The Crime Control Agenda I oppose. I do not favor re-enactment of the Outlaw Statute. There is too much chance of innocent people being killed, and we can usually amass enough law officers to bring in fugitives.

I strongly favor the continued election of the County Sheriffs in North Carolina and the continuation of their traditional law enforcement duties. I favor a crackdown on those who write worthless checks, but under a plan favored by the District Attorneys, whereby opportunity is given to pay it off before there is a presumption of fraud.
I will also ask this General Assembly to give greater support to our law enforcement officers.

—We should provide additional professional training, including the small police and sheriff’s offices.

—In 1977, we increased the minimum salary for law officers to $7,600 a year. This year, we should increase it to $8,400, if funds are available. This recommendation came too late to be included in my budget recommendations to you.

—We should provide all-risk liability insurance protection to these dedicated men and women under a plan worked up by the Law Enforcement Officers Liability Study Commission. I recommend this, too, for inclusion in the budget.

Our law officers, like many of our citizens, are concerned about the operation of the courts.

I urge the establishment of Trial Court Administrators in 10 judicial districts, to manage the court calendar and to insure efficiency and fairness. This is in the budget.

We are losing too many outstanding young prosecutors to private practice, just when we get them trained to prosecute criminals well.

I urge you to enact a Career Assistant District Attorney plan to pay them better and make public service their career.

Our district attorneys’ offices need to be able to concentrate prosecutors and investigators on repeat offenders and career criminals. Pilot projects in three counties are getting those criminals off the streets faster and for longer periods of time. In the budget, I recommend you continue them.

We need other changes in our laws.

—We should give stiffer sentences for shoplifting.

—We should provide a minimum two-year sentence for a second breaking and entering conviction.

—The crime of burglary should apply to the daytime hours, as well as at night.

—We should make the involuntary commitment of the mentally ill, when they may be dangerous to themselves or to others, less difficult.

—Criminals who deliberately and illegally dump dangerous or toxic chemicals in our state should get harsh fines and should serve time in jail. And they should pay the taxpayers for every penny it costs to clean up.

We must do a better job of planning our crime control efforts and not depend solely on federal funds to do it.

We need a comprehensive criminal justice information system for law officers, corrections and the courts, so we can trace the record of a defendant and sentence him accordingly. We must, at the same time, respect the rights of privacy and freedom of information.

We need a standing body of lawyers, laymen and legislators to constantly monitor the operation of our courts and to propose changes as needed. I propose that we reestablish the North Carolina Courts Commission for this purpose. Its first duties should include studying the possible removal of traffic cases from the courts, ways to reduce backlogs
at the trial and appeal court level, and the requirement of grand jury indictment.

But we need immediate action by this Legislature to reduce the backlog in Superior Court and provide more time to try dangerous criminals. Thus, I propose that the District Courts be given jurisdiction in all non-jury criminal matters including post conviction hearings, and probation and parole revocations; and that indicted felons with written consent be permitted to plead guilty and be sentenced in District Court where the maximum sentence does not exceed 10 years.

I pledge to this General Assembly that this administration will continue to work in a partnership with you to make our prison system an effective part of our overall criminal justice system. We have come a long, long way in the last two years. We can be proud of the job we have done.

In 1977, our prisons had 3,000 more inmates than they were designed to handle. We have reduced that figure to 800 inmates, thanks to the Legislature's appropriation of over $50 million for capital construction. This year's budget would allocate another $25 million toward new and better prisons.

Century-old Central Prison is now being torn down to make room for a new maximum security prison safer for prisoners and guards. We actually have 800 fewer prisoners in our system today than one year ago.

In 1977, we had a serious backlog of internal problems in the prisons: poor staff training, poor management, poor maintenance. We have strengthened our programs, our management and our facilities.

With the help of the Department of Human Resources, our prisons are providing needed health and mental health care.

We have separated young female offenders from older, more serious offenders.

More prisoners are at work today—on the roads and in work-release programs.

The reform of our Paroles Commission has improved the handling of cases. The old commission granted 4,759 paroles in 1976; the present commission granted 7,325 last year—an increase of 65 per cent.

Clearly, we are putting our correctional house in order.

Most gratifying, 78 prison units now have citizen advisory committees. More than 4,000 volunteers are working in prison programs.

The citizen involvement of the community is the most important accomplishment of all, in many ways.

Finally, if we are to prevail, the fight against crime must be waged by every citizen of our state, in every home, in every community.

Each of us can prevent crime by organizing a Community Watch program where we live.

Each of us can improve the courts by forming a "court-watcher" group in our county.

Each of us can help youngsters avoid a life of crime by volunteering to be their partner or special friend—giving some of our time and help to them.

The job of fighting crime is our job. The system we build to do it is our system.
But, fundamentally, the issue of crime is a moral issue. If we care enough about each other as human beings, we will commit ourselves to solve it.

It will not be easy. It will not happen quickly. We may have to go against the tide in our self-centered society.

But the approach we are using in North Carolina will work.

As we enter the 1980's, let us resolve that here in our state we shall re-establish respect for the law and all those who enforce it.

Let us live it every day.

Let us impress it on the hearts of our young.

Let us be judged by it in the time to come!

SENATOR CECIL HILL'S REMARKS UPON REPORT OF THE COMMITTEE ON CONSTITUTIONAL AMENDMENTS. Re: S. B. 235, A BILL TO RATIFY THE EQUAL RIGHTS AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES OF AMERICA RELATING TO EQUAL RIGHTS FOR MEN AND WOMEN.

It behooves me at this time to make some explanation of the report on this bill, and with the permission of this Body I ask their indulgence for a moment or two.

I have, heretofore, made the observation that I, personally, do not feel that a bill ought to be decided in committee if it affects the Constitution of the United States or even the State of North Carolina, but that that bill ought to be brought before the Body and decided after fair debate has been propounded upon these floors. However, there are occasions when the exception proves the rule in law and in life and I think we have experienced over the last four or five days, or a week, an experience which justifies this situation within our committee today. The tension that has come between us—the feeling that has been generated between some of us—ought not to be. I have made the statement both in this chamber and back home and on the streets and across the State of North Carolina that of all of the fraternities to which I belong, perhaps none is as close as is this Body is itself, right here, that any man in this Body would do anything he possibly could to help any other single individual who is here, and I still believe that statement.

There was a feeling being generated in this Body that ought not to have been and I think all of us recognized that fact. Your committee in particular recognized that fact and in the interest of moving forward as we ought to do with the business that is at hand before this Body, your committee this morning voted to send this bill out with an unfavorable report and all that I ask at this time, on behalf of my committee and you as my colleagues, is that we move forward together in our united strength.
