The Senate meets pursuant to adjournment and is called to order by The Honorable Dan Forest, Lieutenant Governor.

Prayer is offered by The Reverend Peter Milner, Senate Chaplain, as follows:

“Heavenly Father, thank you for bringing us here tonight to this special ground. Thank you for gathering us under your wing. We drew courage from years past, and we are thankful that we can stand upon your solid rock again today. Lord, make us aware of our need for your grace, for none of us measure up to your perfect law. Help us to speak like those who strive to please God rather than men. Be with us, Lord, set us free to serve the people of this state, and give us good courage to know that when we fail and when we fall short, your grace is sufficient in our weakness. In Jesus’ name we pray. Amen.”

STATE OF NORTH CAROLINA
OFFICE OF THE GOVERNOR

PAT McCORRY
GOVERNOR

May 17, 2016

Lieutenant Governor Dan Forest
President of the Senate
301 N. Blount Street
Raleigh, NC 27601

May 17, 2016
Dear Lieutenant Governor Forest, President Pro Tempore Berger and Speaker Moore:

Pursuant to N.C.G.S. § 7A-45.1(a10), I hereby nominate and submit for confirmation James L. Gale for the position of Special Superior Court Judge. Chief Judge Gale is nominated to fill the vacancy created by the expiration of his term on February 27, 2016. Upon Chief Judge Gale’s confirmation, I intend to ask Chief Justice Mark Martin to once again designate him as a Business Court Judge.

Chief Judge Gale, until recently, was Chief Judge of the North Carolina Business Court. I have consulted with Chief Justice Martin about Chief Judge Gale’s leadership on the Court and his record of handling complex business cases. We are in agreement that we cannot afford to lose his expertise, experience, or leadership. As the Business Court’s longest serving member, granting an additional term will provide continuity and stability to the Court. The Chief Justice and I are most grateful for his willingness to continue to serve the State of North Carolina in this important capacity.

In addition to the Governor and the Chief Justice’s support, the North Carolina Chamber of Commerce, the North Carolina Association of Defense Attorneys, and numerous other well-respected judges and attorneys also support Chief Judge Gale’s nomination to the Business Court.

Enclosed, you will find biographical information for Chief Judge Gale. Please feel free to contact my staff for any additional information.

Sincerely,
S/ Pat McCrory
Governor

cc: Denise Weeks, House Principal Clerk
Sarah Lang, Senate Principal Clerk

May 24, 2016
SENATOR LOWE: “I wanted to first say, as many of you know, Senator Earline Parmon was a dear friend of mine, and we have been friends for more than 25 years. When she got ready to run for County Commissioner—as I remember, because it was a few weeks before she got ready to run—I sat down and had dinner with her and Maisie Woodruff and one of our church members, Zelma Hopkins. I remember the meal more than I remember what we talked about because at that meal we had fried chicken, macaroni and cheese, sweet cornbread, and collard greens—Senator Apodaca, you would have loved that meal. At that time we were supposed to be planning her campaign, and Maisie Woodruff and Zelma Hopkins took over that job, and we sat in a corner and talked. It was during that time that we developed a long, long friendship. I would say, as many of you know, I am grateful for her counsel and her friendship that did not just start when I came here but has gone on for many, many years. We’ve worked in the trenches of Winston-Salem, working to make not only Winston-Salem a better place but North Carolina a better place. So I thank you for this opportunity to offer this resolution and to remember a great friend, a great lady, and a great leader in North Carolina. Thank you.”

SENATOR D. DAVIS: “To members of the Senate, to Senator Lowe, I want to thank you for bringing forth this resolution. Senator Parmon, I believe, was an outstanding North Carolinian and an outstanding American. I really had an opportunity to get to know her, interestingly, before she came to the Senate. Some may remember—this was, interestingly, after Vernon Malone had passed—I went over to actually co-chair with Senator Parmon on the Drop-out Prevention Commission. We really spent a lot of time trying to advance efforts in this state around drop-out prevention. I believe, as evidence has shown and demonstrated over time, that we did get some really meaningful results. She was very passionate about education in particular. I believe it was because she understood that education was a ticket out of many situations and a ticket of success for many kids in North Carolina. Outside of that, when she came over to the Senate, we spent a lot of time together. I think—just as we have relationships in this chamber—I think it was because we had a lot in common. We both were very involved in church. She was very, very dedicated to the church. She took pride, absolute pride—and we picked on each other a little bit—she was in the Army, and I’d been in the Air Force. To her family, just wanted to let you know we shared conversations—if you wanted to really get her beaming, you started talking about her family. She really enjoyed her family she loved, and that was very much, too, part of those dinners you were talking about, as I heard. As we reflect on Senator Parmon’s contributions to this state and to this chamber, I would say to us all that she was an outstanding person, and she’ll be known for

May 24, 2016
many things. There is one other thing we’ll put on that list that she was known for and that was her style. She was a very stylish person, and she just had her way. We as a Senate family honor her today—she was an amazing part of this family. Even though she is not physically with us now, there’s no doubt in my mind that when we get into our most passionate moments here in debate and discussion, then by all means that’s the spirit of Earline Parmon coming out of us. I miss her dearly, and I commend this resolution to you.”

SENATOR MCKISSICK: “Senator Parmon was one of those friends and colleagues whom I deeply admired and respected. I came to know her when she was a member of the House—before she came over to the Senate—and I appreciated her great leadership when it came to a number of bills that we shared interest in introducing. One that comes to mind, in particular, is that she was a very strong advocate for was the North Carolina Racial Justice Act. She filed it in the House; I filed it in the Senate. Eventually it was enacted, and it impacted the lives of people who are on death row and people who, at this point in time, their sentences have been changed from a sentence of death to being in prison for life without the possibility of parole. I also respected her leadership when it came to concern about eugenics victims, those eugenics victims that had lost their reproductive rights to have children, many of whom did not know that they were losing their reproductive rights. She introduced legislation on their behalf in the House, I did in the Senate, and we worked together. Working together with Speaker Tillis—when he was here, we indeed ended up with legislation that was enacted by this General Assembly, which has assisted many of those eugenics victims—many of those people who lost their reproductive rights. Those two issues I think of particularly when I think of Senator Parmon—because of her ferocious advocacy, because of her tenacity, because of her relentlessness to not give up when there were formidable challenges ahead of us on each of those matters. This chamber and this state will be better served by the fact that she has been here among us. And wherever she may be today, I can guarantee you that she continues with a shield in her hand and a sword, standing up and fighting vigorously for the principles that she believes in.”

SENATOR BRYANT: “I wanted to just stand up and make some remarks in memory of Representative and Senator Parmon—I got to serve with her in both the House and the Senate. Senator McKissick has already referenced some of her work, but I just thought about how she took on some of the hardest and most difficult issues. When she started working on eugenics, I have to admit my eyes started glazing over when she would talk to me about it. I thought, ‘Earline, you will never do anything for these eugenics victims.’ As much as I sympathized with and understood the harm that was done with them, I had no sense that she would ultimately accomplish what she did in a bi-partisan fashion as Senator McKissick mentioned. I can almost say the same thing when she started out with the Racial Justice Act in that it seemed like such a monumental hurdle to jump over. I believed and understood the racial prejudice that has long been documented in the death penalty. I understood that challenge, and yet I knew how hard it was going to be and how long it was going to take to get to

May 24, 2016
where she and Representative Womble, Senator McKissick, and, indeed, all of us who supported that effort got. I’ve never seen her happier than on the day when that Racial Justice Act was passed and then when relief started being available to prisoners on death row because of that—who had been discriminated against unfairly because of race in the implementation of the death penalty. She will long be a champion for that and for taking up some of the hardest issues. Finally, on drop-out prevention—I really learned so much from her about that. I think we really made a shift, and this was her leadership, in the change in focus on high school graduation because of the drop-out prevention program that was implemented under her leadership. Part of the brilliance of that program was that we shifted the responsibility for increasing high school graduation and reducing drop-outs not to just the schools and the teachers and the State Board or DPI, but we shifted that responsibility to the communities—for them to learn about and understand what the best practices were on their parts to increase the graduation rate. That was her leadership. That was the beginning of the shift in high school graduation in North Carolina and, again, a credit to her brilliance, her vision, and her great leadership. I loved her dearly. She also was a great pinochle player. Because of that, I used to have to carry around my sheet with the rules and the numbers just so that I could pull them out and play with her when she would demand for me to play because she was so good, and I could never remember all of that. She was a wonderful person, and I loved her dearly, and she was a great public servant. Thank you.”

SENATOR ROBINSON: “I certainly want to be able to stand and say about Earline Parmon that Earline Parmon was my friend, and we all loved Earline. I knew her before I came here, before she came into the General Assembly. When she went into the House, she remained a friend of mine and others in the community. I would say, next to her family, she loved her community most. Everybody in Winston-Salem knew that if they needed an advocate, Earline Parmon and then Larry Womble, those two people, were the folks you could count on all the way from education to health. Both of us ran non-profits, so we often talked about the ills in communities that kept people from thriving and surviving and then getting a lift-up to keep on making it. Education was just one of those primary things. Earline loved that dearly and would do whatever she could. She supported those causes because she loved people, and she supported people and their opportunity to be the very best they could be. That’s what I think about. Just one quick, funny story—I remember when I came to the Senate, and Earline and Alma and all those in the House said, ‘Well, O.K., Senator Robinson, you’re over there in the Senate, and they don’t let you say anything over there, so if you want to talk you need to come over to the House.’

So I remember when Earline came to the Senate, and I said to her, ‘Earline, you’ve been sitting over there mighty quietly. This is the Senate, but I haven’t heard you talk as much as you talked in the House,’ and so we had a little joke going back and forth because I finally said to her, ‘well, in the House, it’s just that everybody hadn’t said everything, and in the Senate we know we say it once or twice, and then we’re going to go on and vote on it.’ We laughed about that in terms of what went on in both the House and the Senate. I really enjoyed the

May 24, 2016
camaraderie and trying to really make North Carolina work for everybody. We all loved Earline; I loved Earline. To her community, her family, we want to thank you for sharing her with us and with the community, and I certainly commend the resolution to you. Thanks, Senator Lowe, for bringing it forward.”

SENATOR FOUSHEE: “Members and visitors in the gallery, I am grateful for the privilege to speak in honor of Senator Earline Parmon. Some of you may know that before coming to the General Assembly I served as a County Commissioner, as did Senator Parmon. It was as a County Commissioner that I was first introduced to her. Immediately, I was impressed with the vim and vigor and the vitality with which she approached and did her work. It was not enough for her just to be present, but she had to participate. She had a style and a grace that was distinct, and it was that style that led her peers at the North Carolina Association of County Commissioners to appoint her to the Board of Directors for three terms and as chair of the Criminal Justice Steering Committee for a term. She also served as chair of the county caucus here in the General Assembly in the last biennium. It was a style and a grace that, as they say, was often imitated but never duplicated. For her, it was never about Commissioner Parmon or Representative Parmon or Senator Parmon; it wasn’t even about Earline. For her, it was always, always, always about the people. For that and many other reasons, I am proud to honor her today, and I do, indeed, commend the resolution to you.”

SENATOR APODACA: “Members, I would be remiss if I didn’t make some comments about Earline. We probably spent more time together than anybody else in this room. We both possessed the love of tobacco products back in the good old days and before heart surgery and other things. Earline was always, always great company and great conversation. I’ll be honest with you, we settled about every problem in North Carolina over a pack of Marlboro Lights, and I can’t remember what she smoked, but we did enjoy it. We went through the loss of her husband, whom she loved very much, and we always discussed family. Family was always the top of the list, and we enjoyed sharing stories on both. Then we would delve into issues, and it was just a great experience. When she came to the Senate, I told her that her chances of going to heaven were much better because she was closer to heaven in the Senate. I miss her dearly, especially when I look at her replacement every day. But, seriously, she was an incredible lady and an advocate for those who needed advocacy, and she is missed. Thank you, Mr. President. I recommend the resolution to you.”

SENATOR VAN DUYN: “Unfortunately, my first session was Senator Parmon’s last, and one of my biggest regrets is that I didn’t take advantage of that year to get to know her better. Senator Parmon was quoted as saying, ‘let the work I’ve done speak for me,’ and I think what we’ve heard today is she did an awful lot of very important work. Senator Parmon believed in making waves, and with each small, methodical step she initiated a flood of lasting progress on her community and throughout this state. Senator Parmon understood the interconnectivity of the challenges that we face, and, more importantly, she

May 24, 2016
understood the personal adversity that faced each and every one of her constituents as they battled rising health care costs, an increasingly under-budgeted education system, and an economic system that, all too frequently, left them behind. I commend Senator Lowe for bringing forth this acknowledgement of Senator Parmon’s life and her lasting legacy on North Carolina. As the Senate Democratic Whip I call on each of you to offer your support for this resolution.”

SENATOR NEWTON: “Members, I’m sure some of you are a little surprised that I might be rising to speak to this resolution because I didn’t know Senator Parmon as well as some of you did, but I feel compelled to speak because, Senator Davis, you said something in your remarks that reminded me again of a situation. I call it a situation because I think that’s probably the best description of it. Senator Parmon, I believe, was a great Christian lady. She was a great Christian lady. I tell this story about her because it doesn’t reflect well upon me, but it reflects very well upon her. We had a particularly difficult debate in the chamber one day, I believe we were discussing and debating an abortion bill, and it got particularly heated in here. It wasn’t anything that Senator Parmon and I said to each other, but I was sitting over there and Senator Parmon sat behind us. Senator Daniel, you may remember this because I think you might have been standing there, but as soon as the debate was over and we were done with session, Senator Parmon said something to me about the bill. I know now, and very clearly, that what she said wasn’t that bad; it was probably a little bit not quite the tone that she was looking for. In a light that was very unflattering to me, I responded in a way that I should not have responded. What I said wasn’t that bad, it was the way I said it that was bad, so we had this little tiff. The next day I was in the cafeteria downstairs, and I saw Senator Parmon come in. She turned, and she looked at me, and I looked at her, and we made eye contact, and she made a beeline to me before I could take a step forward. She made it very clear how sorry she was and how, as a Christian, she should not have presented that way. I was so embarrassed. I was so embarrassed because I should have been the one who was there doing that. We had a good moment, and we both recognized that as we get passionate about issues here—which she was—her belief and her faith would not allow her to continue to carry on and have that kind of relationship with me about something that we both felt so passionately about even though we disagreed. I felt compelled to offer you that story today because I just thought the world of her after that. I’m sorry I didn’t get to know her that well. I commend the resolution to you.”

SENATOR DANIEL: “Like some of you who have not served in the House, I also did not get the chance to know Senator Parmon as well as I would have liked. I think she served here for around two years. You’d think that that was a long time for anybody to get to know someone, but the truth is we’re all so busy dealing with our constituent issues and the things that we’re trying to get accomplished in the legislature that sometimes we overlook our personal relationships more than we should. The reason that I wanted to speak today and felt, similar to Senator Newton, that I should is that my two daughters are here paging today. For them and for the other young pages that are here, I wanted to
maybe try to help you learn a lesson about government and about service. I know you didn’t have a copy of the resolution in front of you, but as we were going through it, and Mr. Settle was reading it, I noticed that Senator Parmon had served 12 years on a County Commission, and she had served approximately 12 years in the legislature. She dedicated a quarter of a century of her life to public service, and probably none of us know the amount of sacrifice that that took. We have Memorial Day that’s coming up in a few days. That’s the day that we take to remember the sacrifices of people that we didn’t know who’ve made great contributions to our country and securing our freedom. For the young people in the audience, the Senate is not an eternal body, but it is an enduring body. It’s made up of people who each contribute to it in their own way over the course of time. I know that over the time that I’ve been here, we’ve lost a number of our members who contributed a great deal to this institution. It’s on days like this when we have the opportunity to pause for a moment and to remember the contribution that people with temporary lives contribute to an enduring body, and by doing that they contribute to the goodness of this state and to the service of our people. That’s the lesson I want my daughters to learn and the young people here to learn today. Try to seek the opportunity to serve your fellow community members and your fellow citizens. Seek those opportunities throughout your life, and emulate the example that people like Senator Parmon have done in their lives.”

In our celebration and thanksgiving of those who have sacrificed so that we may know freedom in this land, Father, you are our example first—that you

FLOOR PRIVILEGES

Upon motion of Senator Apodaca, without objection, the rules are suspended to allow staff on the Senate chamber floor while H.B. 1030 is being discussed.

CALENDAR (continued)

H.B. 1030 (Senate Committee Substitute No. 2), A BILL TO BE ENTITLED AN ACT TO MODIFY THE CURRENT OPERATIONS AND CAPITAL IMPROVEMENTS APPROPRIATIONS ACT OF 2015 AND TO MAKE OTHER CHANGES IN THE BUDGET OPERATIONS OF THE STATE, upon second reading.

Senator Barringer is excused from voting on the bill, and she submits the following statement: “As specifically set forth in North Carolina General Statute Section 138A-37 (the rules governing each legislator’s participation in legislative activities), I have a conflict of interest that requires that I recuse myself from debating or voting on the North Carolina Budget (HB 1030) in any fashion. Section 14.13(c) contains a direct appropriation to the Chancellor of the University of North Carolina at Chapel Hill, which I serve as a clinical professor and a full-time employee. I take very seriously my responsibilities and the ethics of the office of senator, so, due to this direct conflict of interest, I have to recuse myself from the entire budget process.”

June 2, 2016
Upon motion of Senator Apodaca, without objection, Senator Rucho’s words on H.B. 1030 are spread upon the journal as follows:

SENATOR RUCHO: “On this Finance package, we spent a lot of time in Finance explaining these, but let me talk briefly about them. The first provision increases standard deduction by $2,000 over a two-year tax period. We discussed that at length as to the advantage of the middle class tax cut, and it puts monies directly back into the pockets of those individuals. Nearly 80% of the married filing jointly will receive that money directly, and it will be a huge plus for them and for the economy. We did both unanimously, I believe, on that bill, so I’ll move on to the second. It includes parts and accessories of specialized equipment used to unload and process bulk cargo. This was a portion of a bill that we passed last time that was omitted, and it allows for the use of Article 5 tax base on those parts. The third provision that we have deals with market based sourcing of multi-state tax apportionment. We talked about that, I believe, this past week, and it talks about being effective, I believe, in January of 2018. What it does, ladies and gentlemen, is it clearly helps clarify what or how much—or determines how much—tax liability a multi-state corporation would have in North Carolina and/or any other state. This is part of the simplification and clarification process, and, more importantly, going along with single sales factor, which we passed in the previous budget, which helps attract and incentivize manufacturing businesses to come to North Carolina. Market-based sourcing is the tool that gives us the ability to incentivize and bring in service businesses, high-tech businesses, and the like into North Carolina. Therefore, we would be well-served in moving forward in this direction. We’ve had agreements with most every business—Duke, local Time-Warner, banks, etc.—recognizing that market-based sourcing as to where that service is actually used is a very simple way, far different than the complicated process we have. The only opposition that we’ve been able to identify has been discussed in previous meetings, and I’ll just remind you that the national billion dollar broadcasting industry is in opposition to what is ‘audience factor’ in market-based sourcing. Ladies and gentlemen, I’ve talked about it before, but I’ll just reiterate an important point. The ‘audience factor’ is the clearest way to determine where that service is being delivered, and that means wherever Senator Apodaca gets Netflix or I get Time Warner or any of that stuff is the clearest way that it should be determined. The ‘audience factor’ is done in 18 states; it is very advantageous. It is utilized in states like New York, Connecticut, California, and Georgia, where it is a tax advantage for these multi-billion national broadcasters. In North Carolina, because of the fact that a private letter ruling was issued on, I think it was December 28, 2012, which is, I think, the last couple days of one of the previous administrations. I was talking with Senator Apodaca about it—that was two days before the end of the year. I find it interesting that that much work was done by many of our qualified state employees in the last two days of December, so that was a real move to get this private letter ruling in place. In a private letter ruling, what it does is it actually determines, or the Department of Revenue tells the taxpayer, how they will apportion this. Well, in this private letter ruling it clearly states that the tax liability in the state of North Carolina
will depend on where the contract is signed. The contracts never seem to get signed in North Carolina, so therefore the tax liability for this industry—multi-billion dollar industry—actually is very small in our state. In this situation, I asked one of our staff members to look at it in 2014. The industry generated nationally about $200 billion in revenue and created $40 billion in profit. Looking at North Carolina, what you have in that situation is roughly a 3% portion of the audience in the entire nation, so that’s about $1.2 billion of profit in the state of North Carolina. With this private letter ruling that was established and has been used elsewhere in the states to try to cut a special deal like this, the total tax liability is $3 million on $1.2 billion. Now, to most normal folks, they’d say that’s a little outrageous, but I guess in reality it’s just a matter of fairness, recognizing that a lot of tax dollars or revenue leaves the state of North Carolina. We can’t fund our school teachers’ salary increases and our education and the other major parts of our court system with a mere $3 million, so this is a matter of fairness, and so I hope that you all will believe that in reality, as a matter of fairness, that corporations should pay a fair share. Every other corporation in the state pays what is the rate; this time it’s four, next year it will be 3, but at $3 million, that is a .025% corporate tax rate. You can’t get much closer to zero. O.K., well we’ll go on to the next one dealing with sales tax. The General Assembly was given the responsibility—Senator Apodaca, I’m trying. It’s my last chance, you know.

(Laughter/Applause)

“You’ll miss me, Apodaca! The last part was dealing with a sales tax issue, and I know most of us have had a number of calls and emails regarding the complexity of this issue and the confusion. What this does is it provides a clear definition of what a retailer is in North Carolina, so that we can know who, indeed, is in business there. It defines repairs, maintenance, and installation. It defines capital non-tax improvements. It sends out a clear message to the Department of Revenue what the General Assembly expects them to do, and it has been outlined. I’ll have to brag on the staff, they did an outstanding job in putting that together to help accomplish that task. The good news is it also gives a grace period because of the confusion, so businesses won’t be punished by this. The last two parts, one of them is dealing with a ceiling or cap on labor for boat repairs and for airplane repairs. The part for the parts will always be taxed at whatever level. The part on service or labor will be capped at $25,000, and that really takes on most of the work done in that industry. The last piece is a repeal of the $17.6 million state contribution that is allocated to all counties as part of the 2% local tax. What that clearly means is we expected to get $67 million, and we were going to use about 17.6 of the General Fund to pay a shortfall, if indeed it occurred. Well the good news is, because, as Senator Brown alluded to, our economy is roaring here in North Carolina, we created $100 million, which is about $29 million more than we anticipated, so the need for the 17.5 no longer exists. That will be put back into the General Fund for availability, and the counties and the municipalities—none of them were injured by this deal. Mr. Chairman, that concludes my report.”

Upon motion of Senator Apodaca, the words spoken on S.J.R. 891 are spread upon the journal as follows:

**SENATOR D. DAVIS:** “Today I rise with great honor to recognize and hold on to the legacy of Senator Lindsay Carter Warren, Jr. Senator Warren was destined, truly, for public service. He was walking, literally, in the footsteps of his great-grandfather as well as his father. Senator Berger, his father actually served in this chamber as the President Pro Tem, and he went on to serve in the U.S. Congress and eventually made his way to lead the GAO. Forty-six years later, Lindsay Jr. would show up to also join this chamber. Even though he traveled in the footsteps of his great-grandfather and father, he truly distinguished himself. He went on to serve our country in the U.S. Coast Guard. Colonel Rabin, he was indeed a part of the greatest generation, and he served our country in World War II. He eventually made his way back home, as was shared, and he went to UNC Law School and went on to practice law for 50 years. To distinguish himself, to serve as a president of the Bar, and not only that, to be inducted in the General Practice Hall of Fame—that speaks volumes. But I can tell you this, you’ve heard of his many positions that he held and accolades, but one that I hold dear—I believe above all, he truly, truly loved his church. As a Presbyterian I can say, Senator Blue, he was a good Presbyterian, and he served First Presbyterian in Goldsboro. It’s the Bible that reminds us, my friends, that ‘the Lord makes firm the steps of the one who delights in Him’ [Psalm 37:23, NIV]. I must be firmly grounded in my belief that Lindsay took many steps that were firmly grounded. As we come before you today—what a person—91 years of life. To his family who’s here, Toddy, thank you so much; to his children and to the grandchildren who are here today, thank you for being with him and supporting him. Do know that as you come to travel in the environment that he knew so well, that this State is grateful for his service and better for having had him serve. I stand today not only to commend this joint resolution to you, but to truly salute an outstanding American, North Carolinian, and just a downright remarkable person.”

June 7, 2016
SENATOR PATE: “Thank you, Senator Davis, for initiating this resolution. I’m so delighted that the family is able to join us today as we pay respect to someone who served here long before any of us. He served from 1963 to 1969. Now, I have heard that the General Assembly moved into this building in the ‘60s, so that would mean that he was part of that moving effort. That was a good while ago—over 50 years ago. His last term of service here in this building was 46 years ago. Stop and think about that. That’s been a long time that people have tromped on this carpet and been in this chamber, but Lindsay Warren was here, and we’re so grateful of that. One of the things that is to his lasting credit—one of the things he accomplished that’s so important to this day—he reorganized—he was the chairman, I believe, of the reorganization committee of the court system in the state of North Carolina. He made some massive changes to the trial courts, and he did a great deal of work in that area. He got rid of mayor’s courts and magistrate’s courts and all these other courts that were around and settled on. I guess he was the one who came up with the idea of district courts. Maybe I’m mistaken on that, but that’s what I’ve heard. At any rate, the court systems and the districts were his handiwork, and so we are to this day appreciative of that. He was the chairman of the North Carolina Courts Commission, and he did a whole wealth of things that were so very important to our state back at that time. I did a little bit of research to find out which chairs Senator Warren occupied while he was a member of the Senate. We came up with two seats. In 1963 he was in seat 47, and for the rest of his remaining three terms, he was in seat 46. Now, if the seats are partisanship meted out like they are now, someone has been doing some work since then, because Senator Warren was a Democrat, and for him to be seated in seat 47 back in those days, there must have been a lot of Democrats in this chamber. Anyhow, Senator Warren was a great fellow. I knew him in my getting around in Goldsboro quite a bit, and he would always speak to me and ask how things were going in the General Assembly. He seemed to be very interested in what was going on up in Raleigh until his last days. I commend this resolution to you, and we’re certainly glad to welcome the family here today, Mr. President.”

The Joint Resolution passes its second reading (48-0) and, without objection, is read a third time and passes its third reading, with all present members standing, and is ordered sent to the House by special message.

June 7, 2016
Upon motion of Senator Pate, seconded by Senator Apodaca, the Senate adjourns at 2:36 p.m., in memory of Lindsay Carter Warren, Jr., former member of the General Assembly, and in memory of Muhammad Ali, subject to the standard stipulations set forth in Senate Rule 24.1, the receipt of committee reports, the ratification of bills, the receipt of messages from the House of Representatives, and the appointment of conferees, to reconvene Wednesday, June 8, at 2:00 p.m.

GOVERNOR’S OBJECTIONS AND VETO MESSAGE

The following bill, having been vetoed, together with the Governor’s objections and veto message, was returned to the Clerk of the North Carolina Senate on June 6, 2016, at 8:00 p.m., for reconsideration by that body:

Senate Bill 71, An Act to (1) Require a Coal Combustion Residuals Impoundment Owner to Provide Permanent Alternative Water Supplies for Residents in Areas Surrounding Coal Combustion Residuals Surface Impoundments; (2) Extend the Period for Public Comment and Review of Proposed Risk Classifications for Coal Combustion Residuals Surface Impoundments; and (3) Modify Appointments to the Coal Ash Management Commission, the Mining Commission, and the Oil and Gas Commission, in Accord with the Holding of McCrory v. Berger.

Senate Bill 71 is not good for the environment or for the rule of law in North Carolina.

This bill weakens environmental protections, delays water connections for well owners, ignores dam safety and hinders environmentally sound efforts to reuse coal ash. This bill also lacks a firm deadline to connect well owners to alternate water supplies. In contrast, my administration proposed a solution that would have provided water connections within 18 months and required Duke Energy to repair dams around its coal ash ponds.

Furthermore, Senate Bill 71 yet again violates the separation of powers by interfering with a Governor’s constitutional duty to faithfully execute the laws. It does this by re-establishing unaccountable bureaucracies within the cabinet agencies that have the power to make or overrule executive decisions. This legislation completely disregards a decisive 6-1 North Carolina Supreme Court ruling that came a mere four months ago. The re-established Coal Ash, Mining, and Oil & Gas Commissions have the same lack of supervision and extremely limited removal authority that the Supreme Court objected to in McCrory v. Berger. This bill further limits appointment authority by requiring the General Assembly to approve executive appointments by confirmation.

In addition, this legislation imposes unrealistic deadlines to make appointments to the Mining and Oil & Gas Commissions. If an appointment is not made, the General Assembly gives gubernatorial appointments to the
Lieutenant Governor, who is also the President of the Senate, despite the fact that these commissions are located in the Governor’s cabinet. The Supreme Court was clear that it is the Governor who must have control over entities within the cabinet agencies.

As Governor, I have a duty to protect the environment and preserve the constitutional role of the executive branch. Therefore, I veto Senate Bill 71.

Upon motion of Senator Apodaca, the words spoken on S.J.R. 892 are spread upon the journal as follows:

SENATOR D. DAVIS: “Members, and to the public who are joining us today, it was just over a year ago that we and the family had the tremendous challenge of laying to rest a friend of ours and a truly outstanding legislator in Senator John Kerr III. John Kerr, especially for those who may not have known him—he was tall, he was big, and he was known by many as ‘Big John.’ Big John was known not just because of his size but also because of his ability to get things done. When I think about that list, you could put on that list getting the Global TransPark up and running. You could put on that list the dental school at East Carolina University. You could add to that list the Cancer Center, the Eating Disorder Center, and that list goes on and on to also include the new Cherry Hospital. Interestingly, this wasn’t what he was actually best known for. He was actually famous in terms of his name and efforts to expand infrastructure across the state. If you needed some water lines, you’d call ‘Big John.’ If you needed some sewer help, you’d call John Kerr. If you needed some help with natural gas, yep, call John Kerr up. If you needed some help with the roads, call John Kerr. Matter of fact, it was just a few weeks ago, the governor came out, and we were in Wayne County, and we were doing the dedication for the Goldsboro Bypass, future Interstate 42. The Mayor, who’s here today, Chuck Allen—I remember his comments. He said John Kerr was dedicated to march right on down the road seeing this happen. But here’s the point that I make, Senator Tillman. You can truly see, and this is a lesson for all of us, the mark of a legislator who really makes a difference, and you can measure that by the number of times we call his or her name even when they’re gone. I remember just a few weeks ago, Senator Tillman, at breakfast, and at other sessions, his name has been mentioned. Truly, Senator Kerr was just an awesome person—a person that people just absolutely loved. Maybe he got some of that from his grandfather, who served in the United States House of Representatives, or maybe even his father, who served as the Speaker of the House. Wherever it came from, we loved him, and he loved us. He was a true champion for eastern North Carolina—Mr. Eastern North Carolina. The residents of Greene County, they really adored John. I remember coming in to Greene County. There’s a piece of farmland off, actually, on the right side, and for years, for years, there was a sign that stood up, and that sign read, ‘John Kerr. We’re proud he’s our senator.’ It was something to that effect. The residents there appreciated his representation and not just his representation but that he represented us well. I went on to succeed John in office, and I recall on an

June 8, 2016
occasion we showed up to church, and we were at a church before this crowd, and I wanted to make sure John then received the honors and recognition for all that he had done for the state. I remember telling the crowd, I said, ‘Hey, let’s give it up for Senator Kerr,’ and the crowd kind of goes crazy. I went on with my speech that day, and I started to say, ‘These are big shoes that I’m filling.’ Before I could get further in my speech, all of a sudden I hear this big voice come, and he stands and does something like this—you see this big foot come up, and he says, ‘Yes, they are big.’ My friends, Senator Kerr just had a way of entertaining us with his wit. For those who’ve known him, he had ‘John Kerr’ stories. I have plenty of them, and he left us with many of them to share. He was much admired around our community and across the state. His legacy will live on in those he helped, without a doubt. I’m extremely honored that his family is with us today—James and John—and I can tell you I met their many grandchildren. I went and shook the hand of John V up there, and I think you have a bright future. I want to also pause for a moment because it’s not just the members that make all this happen, but, Evelyn, we recognize you, too, for all that you did to help John in that office and your loyalty. Also, I recognize Ms. Sylvia, too, as she continued on in our office for a little while. I was really pleased to get to know you and her. Thank you for being here today. Sandra, I want to say to you that John accomplished a whole lot of things in his life, but I must imagine that the one thing that was most special to him—I can only imagine—was your marriage of 55 years. I’m glad that you all were able to come, and Representative Baddour, to be here with us all as we celebrate John. Sandra, I will say this to you, I’m glad in the end he was able to get home, and y’all were able to spend a little more time together in those days before he began to slowly slip away from us. John Kerr was larger than life, y’all, he really was—larger than life, but yet a gentle giant. I commend this resolution to you, and I thank this family for sharing ‘Big John’ with us for so long.”

SENATOR PATE: “Within the past year, we have had a trilogy of sadness in Wayne County because we have lost three former senators in our county, who served our county well in years past. We’re honoring one today—John Kerr. I also had a chance to meet John H. Kerr V just a few moments ago, and I certainly understand what Senator Davis has just said about the future of that young man. He looks like his grandfather, and when his voice changes and he gets a little bit louder, he might just equal John’s verve. John was a big man, and he did a lot of great work in our state and in our district. We certainly appreciate him for all that. I first got to know John when I joined the Goldsboro Jaycees back a long time ago, when I was first assigned to Seymour Johnson Air Force Base, and John had just moved to Goldsboro, I believe, at that time. We got to know each other at that time. One thing that has not been brought out yet—in addition to him being physically big and spiritually big, he was, I’ll say, loud when he spoke. He did not speak in a whisper. In fact, his whisper could be heard clear across the chamber, I do believe. In fact, he didn’t need a microphone when he addressed members of the Senate. In fact, Mr. President, we might want to check the mikes on seats 33 and 31. To this day, they might not operate, I’m not certain. At any rate, John was a fine person. He always had time to stop and talk to you, and he was very interested in anything he could do for his constituents or, for that matter, anyone in the state of North Carolina. I commend this resolution to you.”

June 8, 2016
SENATOR TILLMAN: “John’s family is here, and I’m glad they’re here. I’ve got a story to tell you that’s the truth. John and I were both fairly big, he was bigger than I was, and one thing that I know, Senator Berger and Senator Apodaca, you know, he never hit the right button. When he wanted to speak he would either not hit it or hit the voting button, and I don’t know how many times Senator Basnight had to tell him he hit that, and David Hoyle would look around there and straighten him out. They sat back there together. Well, we were on the elevator one time—John was the Finance chair, and he would ramble a lot—an awful lot. Senator Rand got put out with him quite a few times. These two incidents I’ll never forget—and I loved John Kerr, and we all did. He was rambling on and on about a natural gas bill, Senator Davis, before your time. Senator Rand—and I’m either a freshman or sophomore and didn’t know much of anything—but Senator Rand turned around and said, ‘He’s talking too much.’ I agreed, I was afraid not to. He said, ‘Watch this,’ and Tony made a motion for an unfavorable report. He said, ‘He had a good bill, but he talked us out of it,’ and he killed his bill. The funniest thing is, John and I got on the elevator that very day. We were going down, and some lady stopped on the 4th floor—I believe we always met on the 5th—and she thought I was Senator Kerr—she didn’t know for sure—but she talked to me, ‘Senator Kerr, I want you to work on fixing this bill for me.’ Senator Kerr, bless his heart, he said, ‘I’m Senator Tillman, can I help you?’ That lady may have never known the difference. He turned around and helped the lady. So he was Senator Tillman that day, and I was Senator Kerr. That I’ll never forget. We love you, John Kerr.”

SENATOR RUCHO: “When I first came to the Senate, Senator Kerr and Senator Hoyle were chairs of the Senate Finance Committee, and they set the standard of how the Senate Finance Committee operated. I will say to you, they were tough standards to meet. I remember he would keep the members in the audience—with his lodge stories and the stories he was telling—he would keep us all on our toes. I also can’t count the number of times he would remind the members to be careful about what they said in the committee room because of the fact that he said, ‘You know, those people in China can hear you.’ I will tell you, ladies and gentlemen, the people in China are probably still telling stories about John Kerr. We’ll remember him and miss him dearly. He was a good friend and a good servant for the state of North Carolina. We wish you all well.”

SENATOR BROWN: “You know I served with John my first term here, and being from eastern North Carolina I had to ask John a lot things about what was going on in eastern North Carolina as I was trying to figure this place out, too. I went to dinner with him several times, and had dinner, and it was always a hoot when you’d go to dinner with him because you never knew what kind of story you were going to hear. Being in the car business—one thing John hated worse than anything in the world were dealer tags. He absolutely hated to see a car with a dealer tag. I remember getting into a debate with him a little bit about, ‘John, what’s so bad about these dealer tags.’ He said, ‘Every car in the state’s got a dealer tag on it.’ I mean that’s the way he felt. He actually ran a bill to try

June 8, 2016
to take all my dealer tags, and he succeeded pretty much in getting most of them. I learned a whole lot from John that first year, and, you’re right, Senator Davis, he was a true champion for eastern North Carolina. Senator Apodaca, some of those meals at night were fond memories because the rest of us would just sit there and eat and listen to John tell the stories, so they were always a lot of fun. John was a great guy and someone I learned a whole lot from.”

SENATOR HARTSELL: “I met John Kerr the first day I came to the legislature. He was in the House at the time, and that was 25 years ago. I’ll never forget it. This bear of a man, whom I’d never seen before in my life, came up, slapped me on the back and said, ‘How are my cousins, the Morrisons,’ who happened to live in my district. I didn’t know who he was, didn’t know what he wanted to do, and didn’t know anything about him, but we retained a friendship for the entire time that he was here and even afterwards. I see Cindy Averette back in the back, and I remember going to the services with Cindy and other staff. You understand how important someone is to this assembly when the staff develops a relationship that they had with John. They respected him as a person, they respected him as an intellect, and they respected him as a man. The first—I actually dealt with John in three different committees—actually four. The first was in 2003 when I had the fortune, or misfortune, of becoming the chair of the Judiciary Committee, which I will call ‘the Judiciary Committee from Hades’ because, some of you may know this, but that committee consisted of, among others, Fern Shubert, Ellie Kinnaird, Hugh Webster, Tom Apodaca, and the most disruptive influence of all, John Kerr. He never showed up on time, but if we were in the middle of a bill, we had to go back and just re-argue the bill the whole time. He had extremely perceptive questions, he knew what was going on, but he was never there on time, so we would try to rush through the various bills so that we could get those done before he arrived. It never seemed to work, however. Some of the same things happened in the Finance Committee over time. The debates between he and Senator Hoyle were rather significant. They were rather colorful, but they were also very pleasant. One of the committees that most folks don’t know much about but he had a real interest in, which is really strange, was Administrative Procedure because he had an incredibly developed technical mind. Now, given the fact that I’m associated with technical bills, we had a lot, a lot of discussion and debate about that. He was very interested in the process of how we did these kinds of things, and he did it for a long time, and he did it extremely well. He and I co-chaired an economic development group that, once Pillowtex closed, we had a statewide group that went all over the state. I got to meet John and deal with John. It was delightful and miserable at the same time because we went to all these places, we heard all these problems, and he would listen to every one of them, and he generated a real response to it. We actually came up with some answers, but then we started session, and we never got to finish it up. Not only did he love the staff here, but they loved him. Miss Evelyn, you must be the most self-sacrificing soul I’ve ever run across in my life. Miss Sandra, I’ll never forget the day that Stan Bingham and I went down to your home to talk with John about endorsing a
successor, which was not Don Davis. It was Louis Pate. He didn’t listen to us; he endorsed Don Davis, but he did so because of his principles. He was loyal, and that’s something that you can truly appreciate. When it really gets down to it, what Senator Rucho said a moment ago is probably the statement that he’s known for the most, and that is, ‘Watch out, they’re hearing this in China.’ You know, we’re hearing him, and he’s even farther from China, and we appreciate that. Thank you for him and for you.”

SENATOR BINGHAM: “I came in 2001 and became, rather quickly, a friend to John Kerr, as were all of us who had met him and known him. He was such a splendid gentleman, and he always would talk about, ‘Remember the little people.’ I remember him talking about going in the LOB and speaking to all the ladies and gentlemen who were there that printed the bills and other things. He knew all of them firsthand—name by name. Senator Hartsell, I wasn’t going to tell that story, and I regret you did that, but anyway, Don, we love you. But anyway, we would go with John to eat at night, and all of you know I love to socialize. That’s what it’s all about anyway—the friendships we make here and the ability to go eat—and John couldn’t agree more with that. We’d go to Piccoli’s, and I don’t know who drank the most beer. I guess it was me, but I better not say much about that. We certainly loved pizza. We’d get in a booth—there were six or seven of us—and we’d get in a booth and tell stories. I remember John—I was telling him about going through the Khyber Pass. Of course some of you don’t know where that is. It’s in Pakistan, adjoining Afghanistan. It’s rather rugged territory; there have been a lot of wars and other things. I was walking and hitchhiking through there, and so he must have asked me 25,000 questions about that trek and other things because he was so attuned to specifics. He was such a fun gentleman to talk to, and we became the very closest of friends. I will never forget the opportunity, and thanks to the family for allowing him to be here as long as he did. I don’t know if John had an enemy anywhere, but he will certainly, truly be remembered. There are some stories I’ve learned the hard way that I’m not going to say on this floor. I might consider telling the family, but probably not even that. He was a very fine gentleman and a very close friend of mine. Thank you all for being here. I hope all of you will support the resolution.”

SENATOR MCKISSICK: “Well, it looks like about all of us have spoken who were here with John Kerr back in that time frame. Of course, when I think back about him, I think about the same type of fond memories that so many of my colleagues here have spoken of. One of the things that I really admired and respected about him was not only his attention to detail and specifics and understanding process, but he loved politics. He knew every detail about what had happened in the state, what was happening nationally, and his finger was always on the pulse. More importantly, when it came to eastern North Carolina, he was the type of person that would not just come here to get things done; he was the type of person who could appeal to any audience that he went to. He was a populist; he was folksy; he was down to earth. There was nothing you
could say to John that he would not always have a response to. His advocacy as a member of this chamber was profound. He had many, many projects that he was able to get through that helped many, many people. It didn’t make a difference whether you were a Democrat or Republican, if John could help you, John would help you in your district or in whatever it may be. If you were having a tough time with a bill and getting it through, you could go to John and get his advice, get his counsel, and try to figure out what other people you could pick up to support it. For that type of advice, that type of counsel, that type of leadership, which inspired me and so many others, I am forever, eternally thankful, and for, more importantly, just being here as a strong, solid voice with compassion—somebody who really had compassion, somebody who really knew how to get things done, somebody who understood what it meant to make the political process work. He was a champion, he was a leader, and if we were to look up in a dictionary and define political leadership at its finest, there should be a picture of John Kerr.”

SENATOR APODACA: “I want to speak to the grandchildren today. I want to tell you about your grandfather, and I want you to pay attention. If when you leave this earth you have this many diverse people saying the things about you that we’re saying about your grandfather, you’ve led a heck of a life. You can do that because he was proud of his family as much as anybody I know, or ever known. The one thing I’ll always remember about your grandfather was that school bus tie he wore about every other day. We used to call him—remember that—we used to call him ‘Big Bird’ because he reminded us a lot of Big Bird. But no finer man has ever served in this chamber, and I want you all to know that.”

SENATOR BERGER: “John Kerr was here when I first got here. He was, I don’t know, larger than life in some respects, especially when you think back about him. There were a couple of things that just stood out. One in particular—if he was talking, there was no punctuation. I mean, he would just—no punctuation at all. The other thing, Senator Hartsell, in those committee meetings, generally what would happen is when an amendment or a committee substitute would get passed out, you knew when John got it because the first thing he would say was, ‘Y’all understand what we’re doing here?’ Or he would ask somebody in the audience what they thought about it. Then the third thing is, I think John Kerr knew somebody—he may have known everybody across the state because I think every one of us that knew him can point to a time where he would come up to you and ask you about somebody. Sometimes it was a very obscure person in your community. He spent a lifetime getting to know people, entertaining people, serving people, and being a good citizen, so I certainly commend the resolution to you.”

The Joint Resolution passes its second reading (47-0) and, without objection, is read a third time and passes its third reading and is ordered sent to the House of Representatives by special message.

CALENDAR

Bills and a resolution on today’s calendar are taken up and disposed of as follows:

The Joint Resolution is read in its entirety.

Upon motion of Senator Brock, the words spoken on S.J.R. 893 are spread upon the journal as follows:

SENATOR D. DAVIS: “Mr. President, today we pause to pay tribute to an amazing person and leader for the state of North Carolina. He made enormous contributions not only to our community, but to this very chamber that we’re in, and that’s Henson Barnes. Senator Barnes was raised the son of a preacher, as you heard, and went on to be a paratrooper. He was a lawyer and a farmer. While in the Senate, he became the President Pro Tem. It wasn’t that he was just a President Pro Tem, but he truly redefined and reshaped that position. We saw, during his tenure, during his leadership, where there was an assumption of more power, and the Senate itself became more independent and self-governing. That’s still with us today as we function. Senator Barnes was highly regarded in the chamber; he was viewed as the conscience of the chamber. He was a lawyer—but the lawyer’s lawyer. What I think speaks volumes—obviously he was in a leadership position—and you’ve heard of all the awards and recognitions and accolades he received, but to receive, buried in those awards, recognition from Nancy Reagan. You know there’s only one person that could ever have outdone Nancy Reagan, and that was Ronald Reagan two years later to come back and recognize him. To me, this speaks volumes of this person and his leadership. I want to put some perspective on this, if I may for a moment. Senator Barnes served in this chamber from 1977 to 1992. The perspective is I was just entering school when he started in the Senate, and I was leaving the Air Force Academy when he was leaving. The point that I make here, and I think this is an excellent point, we have to always, and should always, think about how others see us—the example that we provide. I can tell you, growing up in Greene County, people knew Henson Barnes, and I would hear stories. So we have to always be aware of our example. I can tell you definitively that he provided an extraordinary example for us. As we come together nearly 26 years later—it was June 25, 1992, that Senate Resolution 1260 was adopted. Senate Resolution 1260 was a resolution honoring Henson Barnes, his service, and it also was a time that we paused to have Henson Barnes Day here in the Senate.

June 14, 2016
That resolution was signed by 49 senators. There was only one missing, and that was Henson himself, but all members that were present in the chamber signed on to that resolution, including names like Marc Basnight, Bev Perdue, and Jim Forrester, and, yes, Fletcher Hartsell. Here is what says it all, to serve in this chamber and to serve the residents of North Carolina and to be honored in your living and now to be honored as he’s left us, to me that speaks volumes of his work. You know the saying, those two things that are guaranteed, the birth and the death, but it’s that dash—he had a very, very long dash. So indeed it’s an honor to recognize his life and legacy today and to join his family. Rebecca, and to everyone that is here, to Representative Baddour, thank you for taking this journey in life. This is one thing that I will say, and I stand firmly on, Henson Barnes made a big difference when he served in this chamber, and we don’t even realize in ways that he’s still living with us and impacting our work today. Senator Berger, I must believe that his influence will be with us for many, many, many years to come.”

**SENATOR PATE:** “Senator Davis covered a lot of ground, but it might be just a wee bit or two that’s still there and hasn’t been plowed over yet. I used to go once in a while to a little barbecue place in Goldsboro on Thursdays, and one of the people I would run into was, at that time, former Senator Barnes. I do believe he was acting as a highway commissioner at the time. One of his dreams, I do believe, was a bypass around Goldsboro. I think he had the vision back in those years. Just recently, within the past month or so, we opened the Goldsboro bypass. I believe that Henson Barnes’ footprints are all over that, and it was certainly good to know—it was great to know—that he had such a big part to play in that. The part I want to tell you about—after he retired from the Senate and retired as a highway commissioner and retired from his law firm, he moved with his wife down to White Lake in Bladen County. It turns out that the Barnes family had a big operation in blueberries. It looks like the land down there is so sandy and won’t grow anything else, but it does a good job of bringing blueberries up out of the ground. He had a great number of blueberry bushes, and I used to go down and see him every spring and summer for a lesson or two in politics and also a flat of those great blueberries. It was worth the trip down there just for those two reasons. One time, he was showing me how he had modernized the harvest of the blueberries and all that sort of thing. He got me up on some sort of a contraption that went all through the blueberry rows picking blueberries wildly by machine, never being touched by human beings except the ones that flew up in my face as I was riding on that machine. He was certainly an innovator, he was a modern farmer, and I think that there is a large cooperative of blueberry farmers down in that area—certainly contributes to the economic well-being of Bladen County. Henson Barnes then went into failing health, and we know the rest of it now. Back in the day, he was quite the legislator. He was a leader in this General Assembly. He also was a leader in the state and certainly was well respected within his district and was a great friend to me, and I would commend this resolution to members of the Senate.”

June 14, 2016
SENATOR BLUE: “I couldn’t let this moment go by without commenting briefly on our friend Henson Barnes. Over the last week, we’ve all been fortunate in that Senators Davis and Pate brought to our attention three senators, who I consider the ‘League of Extraordinary Gentlemen’—all of them from Wayne County and all of them who made indelible marks on this state and certainly on this General Assembly. I knew all three of them because all three of them were lawyers, but I knew Henson and John Kerr for a long time, and I knew them, certainly, very closely. When I came to the legislature, Henson was already established. What really amazed me about him is that he probably spent more time in the committees that I was on in the House than most of the committee members. He was so thorough and so popular that the overwhelming majority of the people who had new ideas and wanted something done would come to Henson to sponsor the bill. One session he sponsored 40-some bills, and all of them passed. He would come to explain them in the House in a very impressive way, and he would accomplish what people thought, going into many of them, would be impossible. In 1989, when Henson first started serving as President Pro Tem of the Senate, we elected a new Speaker in the House, who was a former Marine. Henson was a former paratrooper. So we young legislators were always placing bets on who was going to win. I tell you, at the end of the day, Senator Barnes won most of those battles, and we had record sessions. I think we went to October one year as they battled it out—but a very extraordinary fellow. I was fortunate enough to overlap him as he was President Pro Tem and I was Speaker in the House in the ’90s. What marked Senator Barnes more than anything else was his laser-like focus on a problem once it showed up. I’ll just share two with you and sit down. In 1991, this state had the biggest budget deficit that it had had since the Great Depression. We had over a 13% hole in the budget—bigger than our deficit in 2008, in fact, percentage-wise. Henson was the one who came up with the idea, and sold us on it, that we really needed to do something that legislatures aren’t famous for doing, because none had done it. We needed to come up with a Performance Audit Committee to see how we could make government more effective and more efficient. I tell you, it was one of the most representative commissions ever appointed in this state—bipartisan—Governor Martin played a role in it—but basically it was legislatively driven with the state’s major bankers and the state’s leaders across all kinds of lines and stuff. They came up with splendid ideas as to how North Carolina could modernize the way that it was doing business. We adopted some of them, but then the economy got better, and, as legislators are prone to do, folks wouldn’t make the tough decisions and adopt them all, but Senator Barnes still plowed ahead on it. The second point that I want to make is that many of you, especially those from eastern North Carolina, are familiar with the Global TransPark. Once Senator Barnes got on top of that—Governor Martin and a fellow over at UNC played with the idea—but once Senator Barnes realized that that could potentially be a game changer in eastern North Carolina, he became the advocate for it. We jumped on airplanes, went down to Dallas-Fort Worth, and he convinced Ross Perot and Ross Perot’s son, who had done the same thing down in Fort Worth, that North Carolina was a likely place for it. He met with the Department of Defense trying to convince the Air Force that with a two-mile

June 14, 2016
runway—longer than the ones at Seymour-Johnson—it could be a standby facility for them. He just poured his soul into trying to make sure that this Global TransPark concept worked. He was successful in getting, I think, a five dollar per license plate fee from eastern North Carolina to try to make that thing work. He was totally committed to it. Let me say two other things that you have to know about him. Representative Phil Baddour is in the back of the chamber, but Phil led the effort to do structured sentencing. Many of you who are on Judiciary Committees hear reports now as to how new crimes that we create fit into the scheme of sentencing. Senator Barnes was instrumental in that. Representative Baddour was from Wayne County as well, and they led the effort that again modernized North Carolina’s criminal justice and sentencing system. I could go on and on. Anybody who sponsors 40 bills a session and gets them all passed would have an endless list of accomplishments, but I felt that those were some that you ought to be aware of. Senator McInnis will remember, in 1992—I believe it was—down in his district there was a plant that processed chickens. The owner decided that it was more important to bar the door of that plant so that employees wouldn’t be pilfering the chickens. As a result of locking those doors, many people died in a fire when they couldn’t escape from that plant. Henson Barnes was the first one to say that we’ve got to appoint a committee to reform North Carolina’s labor laws so that we get inspections for facilities like that. The laws on our books now, that mandate inspections on a much more frequent basis, came about as a result of the ideas and the foresight of Senator Henson Barnes. I commend this resolution to you, and again I point out by simply saying that the most you can say of any individual when he is no longer among us is that he was a good man in every respect. In every way you can measure it, Henson Barnes was a good man. I am proud to have known him, proud to have served with him, and I commend this resolution to you.”

SENATOR BRYANT: “I would be remiss if I didn’t make a few comments in tribute to Senator Barnes—former Senator Barnes—and his impact on me as a new and young lawyer. Senator Blue is correct that he had a great reputation for just how smart he was and how thorough he was. I remember getting prepared to go visit with him as a young lawyer working on issues affecting black landowners and farmers and limited resource farmers in North Carolina and laws at the time, particularly in the property law area that were barriers to them. The warnings I got about being prepared, particularly with the North Carolina General Statutes and knowing exactly what I was talking about when I went to see him—and they told me, you know, he keeps this cart of the statutes right by his door. When you go in and sit down and talk to him, the way you’ll know if he’s even interested in listening to you is if he rolls that cart over and pulls one of those green books out and looks up the statute as he’s getting ready to talk to you. So when I went in and he rolled that cart over and pulled out that green book, I knew that I had at least won the first step of getting his interest. I was awestruck and honored to be able to work with him. He was chair of the Judiciary Committee at that time in the Senate. I think his colleague, Martin Lancaster, may have been chair in the House. It was a joy to work with both of them. His commitment to issues affecting small farmers and minority
landowners in the state is admirable. We would not have made some of the accomplishments we made to save small farms during that period if it had not been for his leadership. So I want to honor him with these remarks and commend that resolution to you. Thank you.”

SENATOR HARTSELL: “I, too, would be remiss if I didn’t say something about the good Senator Barnes simply because he was the Pro Tem here in my first session. There are two people I met that first day. One was John Kerr. I mentioned that last week—he came over to see me. The other was Senator Barnes. I did not know Henson Barnes from anyone at the time. He came to see me. He came to my office, I didn’t go to his. He made an effort—and we were down at that point—my party was down 36-14. He made every effort to make me and my other freshmen friends feel very comfortable in the Senate. Quite honestly, I was a bit scared to death. More than that, he actually reposed confidence in each and every member almost from day one. He was as thorough an individual in dealing with problems and circumstances as anyone I ever ran across. I do not have a story to tell about him that I did about Senator Kerr last week, Senator Davis. But I will tell you this, he actually had the opportunity—he actually talked me into running a finance bill that he didn’t want to run and didn’t want to have his fingerprints on. I was a freshman scared to death to do it, but he gave me all the background, told me exactly what I needed to do, he went to the green books, and he fairly, shall we say—this was an amendment on the bill—he saw to it that it was not adopted because he just wanted it out there. But he knew that that kind of issue needed to be thoroughly vetted. When we talk about performance audits—he was thoroughly into the process of situations, the process of how government works, how it relates to people, and how it relates to people and what they do. He was an inspiration, he was a fair man, he was a fine, fine lawyer, a good friend, and I still remember that resolution in 1992. It was at that time—as far as I’m aware of, that’s the only one we’ve done—with the possible exception of recognizing R.C. Soles on R.C. Soles Day, that’s the only one I remember in my 26 years here. That was a long time ago—can’t forget. I commend the resolution to you.”

SENATOR BINGHAM: “I have a little different take. I knew Joanne Stevens, who is Senator Barnes’ sister, who I think dearly of. I had heard so many things about him through the years that I had encouraged her to bring him by my office just—if I could have an opportunity to speak to him just a moment or two. She did that, and to this day I still appreciate that very much. Joanne—I see that she must have been a chip off the block, as they say, because she would tell some of the roughest jokes, and we’d have the best time laughing about various things. She was certainly a good advisor, politically, for me. To Senator Barnes and his whole family, I certainly am delighted to stand up and speak to this resolution. Thank you, Mr. President.”

Upon the appearance of Senator Alexander in the chamber, the Chair acknowledges his presence and the leave of absence granted previously is withdrawn.

The Joint Resolution passes its second reading (46-0) and, without objection, is read a third time and passes its third reading and is ordered sent to the House of Representatives by special message.

H.B. 958, A BILL TO BE ENTITLED AN ACT TO PROVIDE AN INCREASED PENALTY FOR IMPAIRED BOATING RESULTING IN DEATH OR SERIOUS INJURY AND TO CLARIFY THE PENALTY FOR IMPAIRED BOATING, AS RECOMMENDED BY THE HOUSE SELECT COMMITTEE ON WILDLIFE RESOURCES, upon second reading.

Upon motion of Senator Apodaca, the words of Senator Harstell spoken on H.B. 958 are spread upon the journal as follows:

June 15, 2016
SENATOR HARTSELL: “Sheyenne Marshall was a beautiful, vivacious, extraordinarily intelligent, and wonderful young woman, who, last July the 4th, while boating on Lake Norman, died a horrible death as a result of an impaired boater. This young lady was active in her church and in her community. She received numerous awards. Frankly, her high school, where she would have graduated last Saturday, went ahead and gave her her cords. She was a member of both the National Honor Society and the Beta Club. She planned to be a nurse-anesthetist, but she passed away. She was actually an inspiration, even in the face of death, to many of her colleagues—students in her high school and her community. When the Wildlife officers looked at the penalties associated with the impaired boating, at the time, the penalty for serious injury or death was a Class 2 misdemeanor, which is a maximum $250 fine. What this bill does is simply make the penalty for a boating death or serious injury by impaired boating consistent entirely with that for a driving incident—no more, no less. The language is virtually identical. It seems truly appropriate under the circumstances in that, frankly, the condition is exactly the same. Her parents and family are here, and I commend this particular legislation to you.”

The bill passes its second reading (48-0) and, without objection, is read a third time and passes its third reading and is ordered enrolled and sent to the Governor.

H.B. 970. A BILL TO BE ENTITLED AN ACT AUTHORIZING CRIMINAL RECORD CHECKS OF ANY CURRENT OR PROSPECTIVE EMPLOYEES, VOLUNTEERS, OR CONTRACTORS OF THE OFFICE OF STATE CONTROLLER, AS RECOMMENDED BY THE JOINT LEGISLATIVE OVERSIGHT COMMITTEE ON GENERAL GOVERNMENT, upon second reading.

ONE HUNDRED SEVENTY-FIRST DAY

Senate Chamber
Friday, June 17, 2016

The Senate meets pursuant to adjournment and is called to order by The Honorable Tom Apodaca, Chair of the Rules and Operations of the Senate Committee.

Prayer is offered by Mr. Josh Grant, Research Assistant for Senator Kathy Harrington, as follows:

"Dear Lord, we come before you today and hold that this office exists only for the people of North Carolina. On this day, we look forward to a weekend where we celebrate those who mean much to us as fathers. Your word tells us that you are many things to us, and yet, while those labels can feel distant and cerebral, your word also tells us that you are our Father; you have taught us to pray this way. So help us feel deeply and personally the love that you have for us and the way in which you welcome us into your presence because of your Son. Lord, be with those who have been hurt by family, help us to honor those who have gone before, and cause us to love well those whom we can still embrace. But above all, grant a peace over these days, despite the hurt, uncertainty, and evil that abounds, reminding us that you are well, that you are still on the throne, and that you welcome us by name into the arms of the one who was pierced for our transgressions. We love you, and we wait expectantly for you. Amen."

A SENATORIAL STATEMENT

Senator Wade submits a Senatorial Statement out of order entitled, CONGRATULATING CHARLES JONES ON BEING A RECIPIENT OF THE FRENCH LEGION OF HONOR. The full text can be found in the Appendix. (See pg. 416)

Upon motion of Senator Apodaca, the words spoken by Senator Wade and Senator Rabin are spread upon the Journal as follows:

SENATOR WADE: “This Senatorial Statement is congratulating Charles Jones on being a recipient of the French Legion of Honor. I’m going to tell you a little bit about Charlie Jones. He’s in my district in Jamestown, he’s 91. He was drafted when he was 18 years old and went into the Army in World War II, in the 66th Infantry Division. Now, when he went into the Army he had ended up in the north of France. What his division did was—and I want to tell you in his own words—during that winter, they held off about 60,000 Germans that would have gone down and joined the Battle of the Bulge, which would have changed the tone of the war if they had made it down there. Charlie says there’s nothing to it, but we all know when you get an honor such as the French Legion of Honor that there was a lot to it. I just wanted to tell you all that on June 15th, Charlie Jones and eleven other World War II veterans from North Carolina received France’s Legion of Honor in a ceremony in Charlotte. This is France’s highest honor, and it recognizes outstanding service to the French Republic. At this time, I would like to say how much we appreciate the service that Charlie Jones gave us during World War II. He’s to be congratulated as a recipient of this award. At this time, if I could yield the floor to Senator Rabin; he would like to name the other eleven recipients from North Carolina.”

June 22, 2016
SENATOR RABIN: “I would add a little bit, if I may. The French National Order of the Legion of Honor derives really from as far back as its heraldry from the Roman Legions—Napoleon with the current version, in fact, in 1802. Since that time, and through all the wars that the French have been in that we have been with them in, that award has been given for distinguished and honorable and bravery—that kind of service. There are eleven other recipients in the state. I’d like to read their names because they deserve the honor as well: Mervin E. Hogg of Wilmington, James R. Inman of Elizabethtown, Richard P. Woodson of Raleigh, Lewis E. Herron of Asheville, John W. Newman of Morrisville, Jerome M. Schwartz of Charlotte, James M. Bond of Edenton, Vincent Corsini of Burlington, Anthony J. Bucciari of Apex, Murray Lorber of Raleigh, and Jules N. Watlington of Yanceyville. I would add, to give you an idea of the dimension of the honor, these people joined such luminaries in our history as General Dwight David Eisenhower, Senator Daniel Inoye, General Lyman Lemnitzer, Charles Lindbergh, Douglas McArthur, Audie Murphy, who was the most decorated soldier of World War II, and Herbert E. Carter of the Tuskegee Airmen. It’s a great honor that the gentlemen have received, and I think they deserve our thanks as do all veterans who keep us free. Thank you.”

H.J.R. 1149, A JOINT RESOLUTION PROVIDING FOR CONFIRMATION OF FRED STEEN TO THE BOARD OF REVIEW, upon second reading.

Upon motion of Senator Apodaca, the words spoken on H.J.R. 1149 are spread upon the journal as follows:

June 22, 2016
SENATOR APODACA: “It’s a privilege and an honor today to stand up and nominate Fred Steen to the Board of Review. Fred was Mayor of the Town of Landis from 1995 to 2004. From 2004 to 2012 he had hazardous duty—he served in the North Carolina House of Representatives and lived to tell about it. Then in 2013 he went to even more dangerous ground. He was Legislative Director for Governor Pat McCrory, where he lobbied the General Assembly on behalf of the administration and advised the Governor on legislative affairs. Fred has much experience that qualifies him for this position. I think we all know Fred well, we all wish Fred well, and I encourage you to vote on his nomination before he changes his mind and doesn’t want to do it. I ask for your support.”

SENATOR BROCK: “I’ve known Fred for almost 20 years now. He came to my baptism—but no, I tell you what, he’s always been a true public servant. I first met him when he was the Mayor of Landis. For what he’s gone through—and Senator Apodaca jokingly mentioned he served in the House of Representatives under hazard pay—you have to think about what he had to face in the situation when his former employer, Pillowtex, closed its doors in Kannapolis. Landis is right next door, and 4,300 people lost their jobs that day. For him to be a steady force in our community through that time, not only as mayor, but then coming down here in Raleigh, the citizens of our area owe him a great deal of thanks and respect for the job he’s done. He’ll do a wonderful job over there. I urge you to support the resolution.”

SENATE JOURNAL

CALENDAR (continued)

The Joint Resolution is read in its entirety.

Upon motion of Senator Apodaca, the words spoken on S.J.R. 894 are spread upon the journal as follows:

SENATOR BLUE: “Over the past couple of weeks, we’ve memorialized extraordinary North Carolinians who served in this body in the Senate, and today is no exception. My friend John Jordan led a full life, as the resolution you heard read stated. He lived to the ripe age of 95—just died in March. John was a continuation of Brokaw’s ‘Greatest Generation,’ and all of his existence spoke to that. He was a three-term senator, representing Wake, Chatham, and Lee counties at a very important crossroads time in North Carolina. In the late ‘50s, early ‘60s, he was part of the General Assembly that decided that something radical needed to be done for education in North Carolina, in Terry Sanford’s term as Governor. In one term, this body decided to move North Carolina’s schools out of the dungeons of the region and make them excel. John was part of all of that. More importantly, every aspect of him was North Carolina. Those who knew him realized quickly that he embodied everything about this state. One of his ancestors, Captain Samuel Jordan, came to the Jamestown, Virginia, colony in 1609 and served in the Virginia Assembly. For the last 400 years, his family has been in the Hertford County area. Some of the things you heard in the resolution pointed out the many things that John had gone back to Hertford County to do after he left the libraries and various other things. That was John. He had deep roots in Hertford County and in North Carolina, and he had a sense of obligation to both. His trip from eastern North Carolina was a very interesting one. He was appointed to the Naval Academy just before World War II but could not pass the visual exam. That’s how he ended up going to Chapel Hill. In Chapel Hill—pre-World War II Chapel Hill—he excelled and graduated. Following the war, he came back to the Law School at Chapel Hill and became part of a group of returning veterans—Terry Sanford, Dickson Phillips, folks like Bill Friday, Frank Porter Graham—who decided that they could do more for North Carolina and make this a different kind of and a better state. He went to work at that. I will tell you three areas where John Jordan made a tremendous difference. If you didn’t know him, when I point these out to you you’ll readily recognize that. Of course, he has all the political connections, you would imagine that. He served in the Senate and did some political stuff. He was President of the State’s Young Democrats. He led Terry Sanford’s efforts to do various things—his inaugural activities and stuff. He was a confidant to at least four governors. He ran for Lieutenant Governor himself against Bob Scott, but that defeat didn’t slow him down and certainly didn’t stop him from doing other great things. He was an advisor to Adlai Stevenson, the Democratic nominee for President in 1952 and 1956, who had the misfortune of running against Dwight

Eisenhower. John was involved in so many things. He basically, in a political sense, in a way, he led the effort—he was chosen to lead the effort in 1999 or 2000 to have the country’s newest nuclear submarine named the U.S.S. North Carolina. It’s the fourth ship to bear that name. Now, since 2008, one of the fanciest nuclear submarines in our Navy bears the name the U.S.S. North Carolina primarily because of John Jordan’s efforts. John was able to do something that a lot of people haven’t done. He brought the Secretary of the Navy to the old Senate chambers in 2000, along with Jesse Helms and Jim Hunt, and a tremendous celebration for that achievement, getting that submarine named for our great state. He also did many other things. Two others that I will hit—as I said I would I hit just three—in higher education. A lot of people know John by the significant contributions that he made in higher education. He was on the board of higher education in 1960. That was a board that generally had the oversight for all of the state universities. It was a mish-mash and shambles of different kinds of organizations that they had then. Following that, he was on the board, a trustee of the Consolidated University of North Carolina. All of these are precursors to the Board of Governors. The Consolidated University consisted of UNC-Chapel Hill, North Carolina State, and UNC-Greensboro. Those were the University of North Carolina schools, and everybody else was hustling and struggling on their own. John was on that board. But as importantly, he was on the Commission for Higher Education Facilities, which is a group that had the authority and spent hundreds of millions of dollars doing structures on all the campuses in the university at the time, making wise decisions that served us very well. He was on the first Board of Governors of the UNC system—first elected in 1973, and reelected and reelected and reelected. He served as Chair of that board for two terms during some very trying times, as the university made its efforts to totally desegregate and in controversies with the U.S. Justice Department over policies in the university. He led the university, with his good friend, Bill Friday, through some very tumultuous times and led them through them very successfully. In his professional career, after he left the University Board of Governors, he also, again, remembered back home. He went on the Chowan College Board of Trustees. His grandfather had been one of the founders of Chowan College, and he felt obligated to give service back there. He served as Chair of that Board of Trustees and continued his efforts to make North Carolina better. In his personal career—and this is where you will probably see the significance of John’s presence—he was a lawyer, as you’ve been told—near more than 40 years in that capacity. He was an expert in banking law and the law of financial services. That’s where he earned his living at across this country. He was not only acknowledged as an expert in North Carolina but throughout the region and in many other areas of the country, practicing before the Federal Reserve Board. Now, all of that’s important for one reason. In the 1980s, the effort was being made to consolidate banks. Banks could not go across state lines. All around us, banks were figuring out, or legislatures were figuring out, how to let their banks go across state lines, and they were entering into compacts—Georgia, South Carolina, Virginia, all around us. North Carolina was not doing it, because of experiences from the
Great Depression. John Jordan was chosen by the banking industry, because he knew so much about banking, to lead the effort to convince this General Assembly of what interstate banking could do for North Carolina. As a result of his efforts, we passed the Interstate Banking Law, and within two weeks, North Carolina’s banks—the big ones at the time that couldn’t expand beyond North Carolina: Nations Bank—then NCNB—First Union, Wachovia, First Citizens—had started gathering up banks in the region. So, North Carolina became the first regional banking center, not Atlanta, not the Texas cities, and not the other big cities in the South, but North Carolina. Because of the effort that John had made in interstate banking, the News and Observer ran an editorial about him and said that they didn’t know whether E. F. Hutton had it right or not, but they were sure that when John Jordan spoke, everybody in the General Assembly listened because of the success of that effort. So, John Jordan can claim much credit for making Charlotte, North Carolina, the second major financial center in this country, behind only New York, because of the vision as to what updated, modern banking laws could do. Lastly, my friends—then I’ll shut up—lastly, I wanted to tell you that John Jordan loved this state in so many ways. What he did that touched so many people had to do with his quest for and appreciation of knowledge. You heard in the resolution that he loved books. Well, he did love books. He founded libraries—very supportive of the D. H. Hill Library at N.C. State and libraries all across the state—maintained them. His books will be gifted in time to collections that are invaluable—nationally recognized collections. But most importantly, John Jordan shared his love of books, and his books, with others. He gifted thousands of books to his friends, acquaintances, legislators, and others based on subjects that he thought that they would be interested in. So, as I commend this resolution to you, as a recipient of probably half a dozen of those books that look like this—I had expressed some interest to John at one time about world history. This is a history—modern history—an illustrated history of the modern world—a survey of world events from the French Revolution to the present day. Believe or not, I read it, but more importantly than the book itself is the encouragement and the messages that John would always inscribe into these books. Legislators who were here during that time, or even during the late ‘90s, will share that experience with you. This is what he said to me as he tried to lift me up in Christmas 1993, when he gave me this book. He said, ‘Best wishes to Dan Blue, who continues to articulate and be a spokesman for so much that is good for North Carolina, from his admiring friend, John Jordan.’ He didn’t do that just for me. Of the thousands of books that John gave away to someone or another to quench the thirst for knowledge that so many of us had, he inserted those personal notes that made you feel some way or other that this is the thought that you’d been looking for and this is going to make your day much fuller. My friends, as I said, we’ve had some great memorials and some great people. John Jordan is truly in the progression of the Greatest Generation. He paid his debt to North Carolina, and all of us—all of us—continue to benefit from that. I commend the resolution to you.”

June 23, 2016
SENATOR HARTSELL: “I can’t add much to what Senator Blue just said. I happened to get to know John Jordan early in my career here in the General Assembly. I would simply say this: he was, truly, a lawyer’s lawyer because he was probably one of the finest technicians. He knew technical amendments before I ever thought about them, and he actually submitted them to me when we were dealing with the Uniform Commercial Code and other areas. I remember it very well. But he always knew what he was, who he was, and where he wanted to go and where he wanted the state to go. I can say that all of it was beneficial, not just to this legislature, not to just this state, but, frankly, to this nation and, as a member of the Greatest Generation, this world. Thank you.”

SENATOR SMITH-INGRAM: “I want to thank Senator Blue for sending forth this resolution in honor of John R. Jordan, Jr. Representing Hertford County, it didn’t take me long to learn what a hometown hero that he is. He has commended upon me and everyone who was assembled here the importance of placing service over self. Graduating in the top percentile of his law school class, he could have paved his way anywhere, but instead he opened his own law firm, he rolled up his sleeves, and he served generation after generation. He never forgot the bridge that brought him over. Many of us, who are impacted by his legacy and his great contributions throughout his lifetime, are fully and totally indebted. I want to thank him and his family for sharing his legacy with all of us. His lifelong achievements and legacy of service will live on in the lives of so many. Truly as the apostle said, his works will speak for him, and they will live on to follow.”

Senator Clark offers Amendment No. 2.

Upon motion of Senator Apodaca, the words spoken by Senator Rucho on Amendment No. 2 are spread upon the journal as follows:

**SENATOR RUCHO:** “Senator Clark, thank you very much for recognizing the fact that all of our good tax cuts go to lowering the rate and that setting up the standard deduction, or what we like to refer to as the zero bracket, has been very beneficial to the people of this state, especially in lieu of the fact that we’ve

June 28, 2016
seen some great results on job creation, on income improvement, on the decline in poverty, and on GDP growth. So in essence, I am very comfortable with the direction we’re presently going. At some point, hopefully, this General Assembly, with its wisdom, can look at zero bracket and maybe something in the vicinity of a $20,000 married filing jointly, which would be probably a good thing to do. But, it’s unfortunate because Senator Clark alluded to the fact, inaccurately, that all of this moving away from an income tax to a consumption based tax on a broadened sales tax base—Senator Clark and members of the Senate—you’ll notice anytime we do broadening of the sales tax base, we actually either lower the rate and/or increase the zero bracket. Just as a matter of fact, let me give you some information so you’ll be enlightened. Since 2013, House Bill 998, which is our tax bill, we actually reduced the personal income tax by $1.123 billion. Also the fact that the sales taxes were broadened—we actually increased the revenue about $517.8 million, which is a net change of a tax cut in the personal income tax area of about $605 million, Senator Clark. So your analogy of saying that as we broadened the base people are paying more taxes is in error. Now, what does that really mean? If you look at an example of someone earning $43,916, which is the median household income in 2014, because of what we did in 2013 and because of increasing the standard deduction up to $16,500 and then $17,500, the taxpayers in that area—$43,916—will actually have received a $215 tax cut. Now, if you add in the $49 that would have been, due to the fact that we broadened the sales tax base, it is a $166 tax savings. In 2017, same analogy, $43,916 federal AGI would be median household income. Because of the additional changes that we would have, including a reduction to 5.499, those same taxpayers would enjoy a $339 tax cut in addition to the fact that if you add in the $62 that would have come from the sales tax broadening, those taxpayers would have a $290 savings—net savings, Senator Clark. So, in reality, for you to come out and make a statement as rash as that, the facts don’t speak for it. Ladies and gentlemen, all I’ll say to you—the direction we’ve been moving shows the fact that getting away from an income tax, which is damaging to savings to investment to entrepreneurship, everything we know is necessary to have a growing economy—the results speak for themselves. When the Democrats controlled this General Assembly, they had the highest taxes in the southeast, and, very simply, that is not the truth today. Actually, we are ranked some of the best and are seeing the results of it. This does not even include the billion-plus dollars when we got rid of your temporary sales tax, Senator Clark, which added another billion dollars in the pockets of the working families and small businesses. So, in conclusion, there has been a significant reduction in the amount of personal income tax. That meant it put money back in the peoples’ pockets. I would ask that you reject this amendment, and let’s get on to the bill at hand so that we can go ahead and be sure that everybody is able to know what that tax rate will be. It’s clearly stated at a 5.5% cap, which is the right thing to do, which will actually inform people and keep them enlightened. What it will do is prevent the Democrats from increasing personal income tax again. That is a noble goal and can be achieved. Thank you.”

Prayer is offered by The Honorable Deanna Ballard, Senator from Watauga County, as follows:

“Lord, I love it when you asked Ezekiel, ‘Can these bones live,’ and Ezekiel responds with, ‘O Lord God, only you know.’ It’s no surprise you always seem to be leaning into our lives asking us questions you already know the answer to, questions meant to give us pause and to gauge our understanding of just who you really are. Lord, you are good; you are unfailing in your love. You are perfect in peace. You are mighty, you are sovereign, you are generous, you are forgiving, and you are incredibly gracious. You are the God of immeasurably more. You are the one who shuts the mouths of lions. You are the same God that

June 29, 2016
says ‘come and I will give you rest’ and also says ‘go, there is work to do’. I stand here in this chamber today, with this new family, as we work, as we till the soil, knowing that what is planted in the ground is what is produced. I pray you plant with fierce love, joy, peace, patience, kindness, goodness, gentleness, faithfulness, long-suffering, and self-control. We ask for wisdom, not a human wisdom, not knowledge, but godly wisdom that gives health to our flesh and strength to our bones. Thank you for saving me through the blood of Jesus Christ and the power of the resurrection and the gift of the Holy Spirit. And thank you for the sure foundation of your word. May we not discount it, dismiss it, but embrace it fully. Give us capacity, courage, and boldness in all things. I love you with everything I’ve got. And as we stand here side by side, may we remain rooted and grounded in your love and speak truth always. Please encourage our hearts today. It is the power of your great name that we surrender ourselves to you. Amen.’

Prayer is offered by The Honorable E.S. (Buck) Newton, Senator from Wilson County, as follows:

“Father, let the words of my mouth and the meditations of our hearts be pleasing in your sight, our strength, our rock and our redeemer. Lord, we thank you for this day. We thank you for this august body. We thank you for the opportunity that you have given each of us to lead. We ask you to be with us today as you have always been. Be with us today and give us wisdom, give us courage, give us strength – all the things that you feed us every single day. We ask for that again today. Help us to see your wisdom, and help us to see your will, not our will, your will. What is our role that you wish us to fulfill today? As it was said in Ephesians, ‘for we are God’s workmanship, created in Christ Jesus to do good works, which you Lord, God, prepared in advance for us to do.’* We ask these things in your Son’s name, his redeeming blood and we thank him for it. In Jesus Christ’s name, Amen.”

POINTS OF PERSONAL PRIVILEGE

Upon motion of Senator Hise, the words spoken by Senator Rabon and Senator Rucho are spread upon the Journal as follows:

SENATOR RABON: “Ladies and gentlemen, yesterday we bestowed upon a couple of our members who are departing a symbol of gratitude from the Governor—whose signature was debatable on one of those. But today, I would like to convey to a good friend of mine a symbol of leadership. I will present this gavel to Senator Bob Rucho. In the Senate, ladies and gentlemen, we do not give these things out every day—we try to stay green, and we want our trees to grow—but on occasion we do. This gavel is time-worn. It has been shaken at all you people up there who are lobbyists, if you’d like to stand. It has been used to gavel you down, it has been used when Senator Rucho had to call a vote with impartiality, and it has been used on you lobbyists, whom he suffered with civility. But, very seriously, I would like to give this to Senator Rucho, for him to know that forever, and to remember forever, that he has served millions of North Carolinians. You have served them fairly, and you’ve served them honestly. I can tell you, Senator Rucho, not everyone can say this about themselves, but I will say this about you, you are leaving the state of North Carolina better than you found it. God bless you, and thank you for your service.”

SENATOR RUCHO: “I have been honored on two occasions—I was dumb enough to come back the second time—but on two occasions I’ve been honored to be a member of the Senate family. I can’t tell you how much that means to me. We’ve had some great times together—not always agreed—but worked in the best interests of the state and the people of our state. After the description of this gavel, I’m not sure I want to own this one. But I will say to you that, as most of us try to do, we come to North Carolina in the State Senate and the General Assembly with the best interests in heart to make North Carolina the very best state in the country—and we’ve succeeded, ladies and gentlemen. We have made some great strides, as Senator Rabon alluded to. We are actually leaving North Carolina better than we found it when we came in 2011—fiscally, tax-wise, regulatory, and the like. That does not come easy, as you all know. There is sacrifice, there is hard work, there’s discipline, and sometimes you just have to say ‘no’ in situations. It’s easy to say ‘yes.’ All of that comes with also an important part in my experience here for almost 16 years, a fellow that I have

July 1, 2016
served with for a good many of those years who, without his leadership, and that’s critical, ladies and gentlemen, without the leadership of my friend, Phil Berger—he has been a stalwart. He has been the person giving us a direction of what conservative values put forward in North Carolina. What we’ve seen from that, and that kind of leadership, clearly shows how successful it is and how successful North Carolina is now and will be if this General Assembly, and specifically the Senate, continues to work hard in that direction. I can’t tell you, I mean we’ve not always agreed, but I will say finally he understands that I was right in all the times we disagreed. I can’t tell you, Senator Rabon—thank you very much. Members of the Senate, it’s been really my honor to be part of this family. I leave saddened, but I also leave with a smile on my face because I know I don’t have to be here anymore on the 4th of July. So, thank you all. Senator Berger, thank you for your leadership and your friendship, and each of you, I wish you the very best. God bless you all. Thank you.”

PRESENTATION OF THE ORDER OF THE LONG LEAF PINE

Senator Phil Berger, President Pro Tempore, presents the Order of the Long Leaf Pine to The Honorable Fletcher L. Hartsell, Jr., Senator from Cabarrus County.

Upon motion of Senator B. Jackson, the words spoken by Senator Berger and Senator Hartsell are spread upon the Journal as follows:

SENIOR BERGER: “Unlike Senator Bingham, Senator Hartsell doesn’t have a motorcycle that’s gassed up, but I’m sure he is, of course, after the length of time that he’s been here, about ready to call it a day. We have, earlier, in a series of speeches made on this floor, thanked him for his service, and I would just reiterate those things. When we, the other day, were able to honor some of our retirees with awards, Senator Hartsell was out at that time. We were unable to take the time to do that then. Senator Hartsell, I have an ‘Order of the Long Leaf Pine’ that is being presented to you. It’s signed by the Governor, for the Honorable Fletcher Hartsell, the Order of the Long Leaf Pine. You, probably, as well as anyone in the chamber, know the toast that you are now privileged to lead in any congregation or group of individuals that you happen to be among. Congratulations, Fletcher.”

July 1, 2016
SENATOR HARTSELL: “Mr. President Pro Tem, Phil, thank you so much. ‘Here’s to the land of the long leaf pine.’ I simply want to say one thing. I’ve been trying to figure out what I wanted my last comments to be—I didn’t really want them to be what I had to say the other day. When I first ran for this office in 1990, when my children were—when the oldest was a freshman in high school—he was the doctor of the day here earlier—and when my middle child was a seventh grader—and she had the prayer last year as a minister with the Salvation Army—it helped remind me of the first comments I ever made in any speech running for this office in 1990. I quoted a fellow by the name of Jefferson, who in a few days we will know a lot more about, we know it every Fourth of July. I hope it has memorialized, at least in some ways, the service that I, and we all, seek to share with each other. A very simple statement: ‘Each generation owes to the next those opportunities and possibilities for life at least as great as those passed to it by his own parents.’ I hope that in these last 26 years, the service I have engaged in has promoted those opportunities and possibilities for life for what really amounts to two generations: my children, my grandchildren; your children and grandchildren. Of course I have a picture of them right here on my monitor—taken at Easter. But most of all, as we all go forward in this chamber—because we truly are, as we spoke the other night, a family—let me help and commission each of you and myself, even leaving, to continue to provide those opportunities and possibilities at least as great as those passed on to it by his own parents. My mother turned 96 three weeks ago; I share the name of my father. I hope that I’ve honored them. I know that each of you feel the same way about your family and friends. As we go forward in this state, I am confident that this Senate will continue to lead in that way. Mr. President, I thank you for the honor. I truly do. ‘Here’s to the land of the long leaf pine, the summer land where the sun doth shine, where the weak grow strong and the strong grow great, here’s to our home, the Old North State.’ Thank you.”

EDITOR’S NOTES

A number of bills and resolutions passed second reading and were read a third time on the same day.

Rule 50 states:
No bill on its third reading shall be acted upon out of the regular order in which it stands on the calendar, and no bill shall be acted upon on its third reading the same day on which it passed its second reading, unless so ordered by two-thirds of the membership of the Senate present and voting.

In order to comply with this rule, no bill which has passed its second reading is read a third time unless it is ordered by two-thirds of the membership of the Senate present and voting, there is a rule suspension motion which prevails by at least a three-fifths vote of the membership of the Senate present and voting, or the Chair determines that there is no objection, which constitutes unanimous consent.

When a bill passes its second reading and remains on the calendar for further consideration, the measure is placed on the calendar for the next legislative day in its regular order of business unless indicated otherwise.

-----------------------------

Upon a motion offered, the phrase “without objection” reflects a determination by the Chair that there is no objection from a member present, which constitutes unanimous consent, for the order of the Chair.

-----------------------------

The five digit numbers appearing throughout the Senate Journal indicate the coded draft number of either the proposed committee substitute or proposed conference committee substitute approved by a committee and submitted to the Senate for consideration.

-----------------------------

The Presiding Officer rules whether or not individual bills require a call of the roll. The ruling is made pursuant to Rule 25 and the following citation from Article II, Section 23, of the Constitution of North Carolina, which reads:

Sec. 23 - Revenue bills. No laws shall be enacted to raise money on the credit of the State, or to pledge the faith of the State directly or indirectly for the payment of any debt, or to impose any tax upon the people of the State or to allow the counties, cities, or towns to do so, unless the bill for the
purpose shall have been read three several times in each house of the General Assembly and passed three several readings, which readings shall have been on three different days, and shall have been agreed to by each house respectively, and unless the yeas and nays on the second and third readings of the bill shall have been entered on the journal.

------------------------------

The numerical figures which appear in parentheses throughout the Senate Journal represent the affirmative and negative votes cast and recorded electronically, pursuant to Rule 25. Original vote tabulation sheets are deposited in the Division of Archives and History of the Department of Cultural Resources. Voting data may also be obtained at the Legislative Library and on the N.C. General Assembly’s website, www.ncleg.net.

------------------------------

Through their electronic web device, senators are required to use the “Chamber Dashboard” to examine bill drafts eligible for filing, co-sponsor legislation, and view bills, resolutions and amendments for consideration on the chamber floor. A version of the Chamber Dashboard is available on the internet for public use through the N.C. General Assembly’s website.

------------------------------

Upon motion, the Senate often stood in recess or adjourned subject to the standard stipulations set forth in Senate Rule 24.1. This rule allows for the introduction of bills and resolutions, the referral and re-referral of bills and resolutions, the reading of Senatorial Statements, and the reading of messages from the Governor while the Senate is in recess or post adjournment.

------------------------------

After the Senate adjourned sine die, Senator Apodaca of Senate District 48 resigned from office on July 15, 2016. Charles M. Edwards was appointed on August 19, 2016, to fill Senator Apodaca’s unexpired term. He received the Oath of Office on September 13, 2016.

The following Senatorial Statements were submitted during the 2016 Session. They are listed in chronological order by date of submission:

**RECOGNIZING ALL TEACHERS ON NATIONAL TEACHER DAY**
Submitted by Senator Bryant, Senator Smith-Ingram, and Senator Van Duyn, May 3, 2016 (see pg. 36)

**WHEREAS,** teachers mold future citizens through guidance and education, while serving as listeners, explorers, role models, motivators, and mentors; and

**WHEREAS,** teachers encounter students of widely differing backgrounds and work diligently to help them learn and impact their lives and their families in ways that often extend beyond the classroom; and

**WHEREAS,** people in the United States began celebrating National Teacher Day in 1953, when Eleanor Roosevelt persuaded Congress to set aside a day to recognize educators; and

**WHEREAS,** the origins of the idea for a national day to honor teachers are unclear; some references cite the advocacy of a Wisconsin teacher and other references credit the efforts of a teacher in Arkansas for being the first to advocate establishing a teacher appreciation day; and

**WHEREAS,** Congress declared March 7, 1980, as National Teacher Appreciation Day; and

**WHEREAS,** the National Education Association (NEA), and its affiliates, observed National Teacher Appreciation Day until 1985, when the National Parent Teacher Association designated the first full week of May as Teacher Appreciation Week and then voted the following year to make Tuesday of that week National Teacher Day; and

**WHEREAS,** during the observance of National Teacher Day, it is fitting to reflect upon the lifelong lessons we learned from our teachers and to recognize the members of the General Assembly who are current or former teachers; and

**WHEREAS,** our country’s future depends upon providing quality education to all students, and teachers are needed to provide that education;

**NOW, THEREFORE,** teachers deserve our respect, recognition, and appreciation particularly during the observance of National Teacher Day on May 3, 2016, and throughout the year.

**IN WITNESS WHEREOF,** the undersigned certifies that the foregoing statement was read in the Senate and placed upon the Journal on the third day of May, 2016.
RECOGNIZING ANNUAL FORESTRY DAY AT THE LEGISLATURE
Submitted by Senator McInnis, May 3, 2016 (see pg. 36)

WHEREAS, North Carolina is known as the birthplace of American forestry due to some early forestry pioneers and their practices; and

WHEREAS, in 1892, Gifford Pinchot began the first systematic forestry work in the United States at Biltmore, the estate of George W. Vanderbilt in North Carolina; and

WHEREAS, in 1898, Carl Schenck established the Biltmore Forest School in Transylvania County, the first school of its kind in the United States; and

WHEREAS, the North Carolina Forestry Association (NCFA), established in 1911, is the State's oldest forest conservation organization and is comprised of 4,000 members; and

WHEREAS, the NCFA promotes responsible use and management of the State's forests; and

WHEREAS, North Carolina has 18.6 million acres of forestland covering 60% of the State, of which 85% is privately owned; and

WHEREAS, the forest products industry is the State's largest manufacturing industry, employing over 70,000 North Carolinians with an annual payroll of more than $3 billion; and

WHEREAS, according to the most recent data collected by the North Carolina Cooperative Extension, the forest sector combined with the forest products industry had a total economic contribution to the State's economy of $24.7 billion in output and supported more than 127,800 jobs with a payroll of $6.29 billion; and

WHEREAS, the forest products industry provides jobs in all of the State's 100 counties, providing a significant impact to the State's rural economy; and

WHEREAS, in 2013, North Carolina's exported forest products were valued at $13.7 billion; and

WHEREAS, the practice of forestry, as promoted by Gifford Pinchot, Carl Schenck, and those who followed, protects, preserves, and promotes not only forests but water quality, recreation, wildlife, fertile soils, and aesthetics; and

WHEREAS, the values inherent in sound forest practices are realized not only in economic terms but in the preservation of the priceless natural resources that are both our common heritage and our legacy;

NOW, THEREFORE, it is important to recognize the significance of our forests to the State's economy and to our way of life and pay tribute to the early pioneers of forestry.
