(b) If the maximum liability of the fund is insufficient to pay in full the valid claims of all aggrieved persons whose claims relate to the same transaction or to the same licensee, the amount for which the fund is liable shall be distributed among the claimants in a ratio that their respective claims bear to the total of such valid claims or in such manner as the court deems equitable. Upon petition of the board, the court may require all claimants and prospective claimants to be joined in one action to the end that the respective rights of all such claimants to the real estate recovery fund may be equitably adjudicated and settled.

(c) In the event an aggrieved person is entitled to payment from the fund in an amount of one thousand dollars ($1,000) or less, the court may allow such person to recover from the fund reasonable attorney’s fees incurred in effecting such recovery. “§93A-17. Repayment to fund; automatic suspension of license.—Should the board pay from the real estate recovery fund any amount in settlement of a claim or toward satisfaction of a judgment against a licensed real estate broker or salesman, the license of the broker or salesman shall be automatically suspended upon the effective date of an order by the court authorizing payment from the fund. No such broker or salesman shall be granted a reinstatement until he has repaid in full, plus interest at the legal rate as provided for in G.S. 24-1, the amount paid from the real estate recovery fund.

“§93A-18. Subrogation of rights.—When, upon order of the court, the board has paid from the real estate recovery fund any sum to the judgment creditor, the board shall be subrogated to all of the rights of the judgment creditor to the extent of the amount so paid and the judgment creditor shall assign all his right, title, and interest in the judgment to the extent of the amount so paid to the board and any amount and interest so recovered by the board on the judgment shall be deposited in the real estate recovery fund.

“§93A-19. Waiver of rights.—The failure of an aggrieved person to comply with this Article shall constitute a waiver of any rights hereunder.

“§93A-20. Persons ineligible to recover from fund.—No real estate broker or real estate salesman who suffers the loss of any commission from any transaction in which he was acting in the capacity of a real estate broker or real
estate salesman shall be entitled to make application for payment from the real estate recovery fund for such loss.

§ 93A-21. Disciplinary action against licensee.—Nothing contained in this Article shall limit the authority of the board to take disciplinary action against any licensee under this Chapter, nor shall the repayment in full of all obligations to the fund by any licensee nullify or modify the effect of any other disciplinary proceeding brought under this Chapter.

(4) The license or identification card number of the check passer appears on the check or draft.

(5) After dishonor of the check or draft by the bank or depository, the acceptor sends the check passer a letter by certified mail, to the address recorded on the check, identifying the check or draft, setting forth the circumstances of dishonor, and requesting rectification of any bank error or other error in connection with the transaction within 10 days.

(2) The name and mailing address of the check passer are recorded on the check or draft.  
(3) The acceptor has previously identified the check passer, at the time of opening the account, establishing the course of dealing, or initiating the lease or contract, by means of a North Carolina driver’s license, a special identification card issued pursuant to G.S. 20-37.7, or other reliable serially numbered identification card containing a photograph and mailing address of the person in question, and obtained the signature of the person or persons who will be making payments on the account, course of dealing, lease or contract, and such signature is retained in the account file.  
(4) The acceptor compares the name, address, and signature on the check with the name, address, and signature on file in the account, course of dealing, lease, or contract, and notes that the information contained on the check corresponds with the information contained in the file, and the signature on the check appears genuine when compared to the signature in the file.  
(5) After dishonor of the check or draft by the bank or depository, the acceptor sends the check passer a letter by certified mail to the address recorded on the check or draft identifying the check or draft, setting forth the circumstances of dishonor and requesting rectification of any bank error or other error in connection with the transaction within 10 days.  
(6) The acceptor files the affidavits described in subdivision (7) of this subsection with a judicial official, as defined in G.S. 15A-101(5), before issuance of the first process or pleading in the prosecution under G.S. 14-107. The affidavit must be kept in the case file (attached to the criminal pleading in the case).  
(7) The affidavit of the acceptor, sworn to before a person authorized to administer oaths, must:  
   a. State the facts surrounding acceptance of the check or draft. If the conditions set forth in subdivisions (1) through (5) have been met, the specific facts demonstrating observance of those conditions must be stated.

d. Have attached the receipt, or a copy of it, from the United States Postal Service certifying the mailing of the letter described in subdivision (5).

e. Have attached the check or draft or a copy thereof, including any stamp, marking or attachment indicating the reason for dishonor.

(d) If the conditions of subsection (b) or (c) have been met, proof of meeting them is _prima facie_ evidence that the person charged was in fact the identified check passer.

(e) If the bank or depository dishonoring a check or draft has returned it in the regular course of business stamped or marked or with an attachment indicating the reason for dishonor ('insufficient funds', 'no account', 'account closed' or words of like meaning), the check or draft and any attachment may be introduced in evidence and constitute _prima facie_ evidence of the facts of dishonor if the conditions of subdivisions (5) through (7) of subsection (b) or subdivisions (5) through (7) of subsection (c) have been met. The fact that the check or draft was returned dishonored may be received as evidence that the check passer had no credit with the bank or depository for payment of the check or draft.”

Sec. 2. This act shall become effective October 1, 1979.

In the General Assembly read three times and ratified, this the 21st day of May, 1979.

c. participation in programs of inmate employment, if any; the disposition or crediting of any payments received by inmates on account thereof; and the crediting of proceeds from or disposal of any products resulting therefrom;
d. delivery and retaking of inmates;
e. such other matters as may be necessary and appropriate to fix the obligations, responsibilities and rights of the sending and receiving states.

(2) The terms and provisions of this compact shall be a part of any contract entered into by the authority of or pursuant thereto and nothing in any such contract shall be inconsistent therewith.

(d) (1) Whenever the duly constituted authorities in a state party to this compact, and which has entered into a contract pursuant to Article III, Subsection (c)(1), shall decide that confinement in, or transfer of an inmate to, an institution within the territory of another party state is necessary or desirable in order to provide adequate quarters and care or an appropriate program of rehabilitation or treatment, said officials may direct that the confinement be within an institution within the territory of said other party state, the receiving state to act in that regard solely as agent for the sending state.

(2) The appropriate officials of any state party to this compact shall have access, at all reasonable times, to any institution in which it has a contractual right to confine inmates for the purpose of inspecting the facilities thereof and visiting such of its inmates as may be confined in the institution.

(3) Inmates confined in an institution pursuant to the terms of this compact shall at all times be subject to the jurisdiction of the sending state and may at any time be removed therefrom for transfer to a prison or other institution within the sending state, for transfer to another institution in which the sending state may have a contractual or other right to confine inmates, for release on probation or parole, for discharge, or for any other purpose permitted by the laws of the sending state, provided that the sending state shall continue to be obligated to such payments as may be required pursuant to the terms of any contract entered into under the terms of Article III, Subsection (c)(1).

(4) Each receiving state shall provide regular reports to each sending state on the inmates of that sending state in institutions pursuant to this compact including a conduct record of each inmate and certify said record to the official designated by the sending state, in order that each inmate may have official review of his or her record in determining and altering the disposition of said inmate in accordance with the law which may obtain in the sending state and in order that the same may be a source of information for the sending state.
(5) All inmates who may be confined in an institution pursuant to the provisions of this compact shall be treated in a reasonable and humane manner and shall be treated equally with such similar inmates of the receiving state as may be confined in the same institution. The fact of confinement in a receiving state shall not deprive any inmate so confined of any legal rights which said inmate would have had if confined in an appropriate institution of the sending state.

(6) Any hearing or hearings to which an inmate confined pursuant to this compact may be entitled by the laws of the sending state may be had before the appropriate authorities of the sending state, or of the receiving state if authorized by the sending state. The receiving state shall provide adequate facilities for such hearings as may be conducted by the appropriate officials of a sending state. In the event such hearing or hearings are had before officials of the receiving state, the governing law shall be that of the sending state and a record of the hearing or hearings as prescribed by the sending state shall be made. Said record, together with any recommendations of the hearing officials, shall be transmitted forthwith to the official or officials before whom the hearing would have been had if it had taken place in the sending state. In any and all proceedings had pursuant to the provisions of this subdivision, the officials of the receiving state shall act solely as agents of the sending state and no final determination shall be made in any matter except by the appropriate officials of the sending state.

(7) Any inmate confined pursuant to this compact shall be released within the territory of the sending state unless the inmate, and the sending and receiving states, shall agree upon release in some other place. The sending state shall bear the cost of such return to its territory.

(8) Any inmate confined pursuant to the terms of this compact shall have any and all rights to participate in and derive any benefits or incur or be relieved of any obligations or have such obligations modified or his status changed on account of any action or proceeding in which he could have participated if confined in any appropriate institution of the sending state located within such state.

(9) The parents, guardian, trustee, or other person or persons entitled under the laws of the sending state to act for, advise or otherwise function with respect to any inmate shall not be deprived of or restricted in his exercise of any power in respect of any inmate confined pursuant to the terms of this compact.

(e) (1) Any decision of the sending state in respect to any matter over which it retains jurisdiction pursuant to this compact shall be conclusive upon and not reviewable within the receiving state, but if at the time the sending state seeks to remove an inmate from an institution in the receiving state there is pending against the inmate within such state any criminal charge or if the inmate is formally accused of having committed within such state a criminal offense, the inmate shall not be returned without the consent of the receiving state until discharge from prosecution or other form of proceeding, imprisonment or detention for such offense. The duly accredited officers of the sending state shall be permitted to transport inmates pursuant to this compact through any and all states party to this compact without interference.
(2) An inmate who escapes from an institution in which he is confined pursuant to this compact shall be deemed a fugitive from the sending state and from the state in which the institution is situated. In the case of an escape to a jurisdiction other than the sending or receiving state, the responsibility for institution of extradition or rendition proceedings shall be that of the sending state, but nothing contained herein shall be construed to prevent or affect the activities of officers and agencies of any jurisdiction directed toward the apprehension and return of an escapee.

(f) Any state party to this compact may accept federal aid for use in connection with any institution or program, the use of which is or may be affected by this compact or any contract pursuant hereto; and any inmate in a receiving state pursuant to this compact may participate in any such federally-aided program or activity for which the sending and receiving states have made contractual provision, provided that if such program or activity is not part of the customary correctional regimen, the express consent of the appropriate official of the sending state shall be required therefor.

(g) This compact shall enter into force and become effective and binding upon the states so acting when it has been enacted into law by any two states. Thereafter, this compact shall enter into force and become effective and binding as to any other of said states upon similar action by such state.

(h) This compact shall continue in force and remain binding upon a party state until it shall have enacted a statute repealing the same and providing for the sending of formal written notice of withdrawal from the compact to the appropriate official of all other party states. An actual withdrawal shall not take effect until one year after the notice provided in said statute has been sent. Such withdrawal shall not relieve the withdrawing state from its obligations assumed hereunder prior to the effective date of withdrawal. Before effective date of withdrawal, a withdrawing state shall remove to its territory, at its own expense, such inmates as it may have confined pursuant to the provisions of this compact.

(i) Nothing contained in this compact shall be construed to abrogate or impair any agreement or other arrangement which a party state may have with a nonparty state for the confinement, rehabilitation or treatment of inmates nor to repeal any other laws of a party state authorizing the making of cooperative institutional arrangements.

(j) The provisions of this compact shall be liberally construed and shall be severable. If any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters."

S. B. 672     CHAPTER 634

AN ACT TO ESTABLISH A GOVERNOR’S COUNCIL ON PHYSICAL FITNESS AND HEALTH.

Whereas, considerable morbidity and mortality from disease can be attributed to a lack of physical conditioning; and
Whereas, more than half of all deaths in North Carolina are attributable to diseases of the heart and blood vessels, and these diseases have been demonstrated to be significantly linked to inadequate physical activity and fitness; and
Whereas, forty-five percent (45%) of all adult Americans do not engage in physical activity for the purpose of exercise and more than fifty percent (50%) are overweight; and
Whereas, good physical fitness is a great source of preventive medicine and can restore and preserve the energy, endurance and sense of well-being which are too often missing in an increasingly sedentary way of life; and
Whereas, there is no current focus in the State of North Carolina for the promotion of greater availability and accessibility of organized community-based physical fitness resources for citizens of all ages; Now, therefore,

CHAPTER 644
AN ACT TO MAKE TECHNICAL AMENDMENTS TO AND TO CLARIFY EXISTING PROVISIONS OF PART 3B OF CHAPTER 160A, ARTICLE 19, RELATING TO HISTORIC PROPERTIES.

The General Assembly of North Carolina enacts:

Section 1. Chapter 160A, Article 19, Part 3B, as the same appears in the 1976 Replacement Volume 3D of the General Statutes is amended to read as follows:

“Part 3B. Historic Properties Commissions.

§ 160A-399.1(a). Legislative findings.—The historical heritage of our State is one of our most valued and important assets. The conservation and preservation of historic properties will stabilize and increase property values in their areas and strengthen the overall economy of the State. This Part authorizes cities and counties of the State, within their respective zoning jurisdictions and by means of listing, regulation, and acquisition:

(1) to safeguard the heritage of the city or county by preserving any property therein that embodies important elements of its cultural, social, economic, political or architectural history; and

(2) to promote the use and conservation of such property for the education, pleasure and enrichment of the residents of the city or county and the State as a whole.

(b) Exercise of powers under this Part by counties as well as cities. The term ‘municipality’ as used in G.S. 160A-399.1 through 160A-399.13 shall be deemed to include the county or its governing board or legislative board, to the end that counties may exercise the same powers as cities with respect to the establishment of historic districts.

§ 160A-399.2. Appointment or designation of historic properties commission.—Before it may exercise the powers set forth in this Part, a municipality shall establish or designate a historic properties commission. The municipality’s governing board shall determine the number of members of the commission, which shall be at least three, and the length of their terms, which
shall be no greater than four years. A majority of the members of such a commission shall have demonstrated special interest, experience, or education in history or architecture; and all the members shall reside within the territorial jurisdiction of the city or county as established pursuant to G.S. 160A-360. In establishing such a commission and making appointments to it, a city or county may seek the advice of any State or local historical or preservation agency, or organization.

In lieu of establishing a separate historic properties commission, a municipality may designate as its historic properties commission either (i) the city or county historic district commission, established pursuant to G.S. 160A-396, or (ii) a city or county planning agency. In order for a planning agency to be designated, at least two of its members shall have demonstrated special interest, experience, or education in history or architecture.

A county and one or more cities in the county may establish or designate a joint historic properties commission. If a joint commission is established, the county and city or cities involved shall determine the residence requirements for members of the joint historic properties commission.

"§ 160A-399.3. Powers of the properties commission.—Any historic properties commission established pursuant to this Part shall be authorized within the zoning jurisdiction of the unit to:

(1) undertake an inventory of properties of historical, architectural and/or archaeological significance;

(2) recommend to the municipal governing board structures, buildings, sites, areas or objects to be designated by ordinance as 'historic properties';

(3) acquire by any lawful means the fee or any lesser included interest, including options to purchase, to any such historic properties, to hold, manage, preserve, restore and improve the same, and to exchange or dispose of the property by public or private sale, lease or otherwise, subject to covenants or other legally binding restrictions which will secure appropriate rights of public access and promote the preservation of the property;

(4) restore, preserve and operate such historic properties;

(5) recommend to the governing board that designation of any building, structure, site, area or object as a historic property be revoked or removed;

(6) conduct an educational program with respect to historic properties within its jurisdiction;

(7) cooperate with the State, federal and local governments in pursuance of the purposes of this Part. The governing board or the commission when authorized by the governing board may contract with the State, or the United States of America, or any agency of either, or with any other organization provided the terms are not inconsistent with State or federal law;

(8) enter, solely in performance of its official duties and only at reasonable times, upon private lands for examination or survey thereof. However, no member, employee or agent of the commission may enter any private building or structure without the express consent of the owner or occupant thereof.

"§ 160A-399.4. Adoption of an ordinance, criteria for designation.—Upon complying with G.S. 160A-399.5, the governing board may adopt and from time to time amend or repeal an ordinance designating one or more historic properties. No property shall be recommended for designation as a historic property unless it is deemed and found by the properties commission to be of special significance in terms of its history, architecture, and/or cultural
importance, and to possess integrity of design, setting, workmanship, materials, feeling and/or association.

The ordinance shall describe each property designated in the ordinance, the name or names of the owner or owners of the property, those elements of the property that are integral to its historical, architectural, and/or archaeological value, including the approximate area of the property so designated, and any other information the governing board deems necessary. For each building, structure, site, area or object so designated as a historic property, the ordinance shall require that the waiting period set forth in this Part be observed prior to its demolition, alteration, remodeling or removal. For each designated historic property, the ordinance may also provide for a suitable sign on the property indicating that the property has been so designated. If the owner consents, the sign shall be placed upon the property. If the owner objects, the sign shall be placed on a nearby public right-of-way.

"§ 160A-399.5. Required procedures.—As a guide for the identification and evaluation of historic properties, the commission shall undertake, at the earliest possible time and consistent with the resources available to it, an inventory of properties of historical, architectural and cultural significance within its jurisdiction. Such inventories and any additions or revisions thereof shall be submitted as expeditiously as possible to the Division of Archives and History. No ordinance designating a historic building, structure, site, area or object nor any amendment thereto may be adopted, nor may any property be accepted or acquired by a historic properties commission or the governing board of a municipality, until the following procedural steps have been taken:

(1) The historic properties commission shall (i) prepare and adopt rules of procedure, and (ii) prepare and adopt principles and guidelines, not inconsistent with this Part, for altering, restoring, moving or demolishing properties designated as historic.

(2) The historic properties commission shall make or cause to be made an investigation and report on the historic, architectural, educational or cultural significance of each building, structure, site, area or object proposed for designation or acquisition. Such investigation or report shall be forwarded to the Division of Archives and History, North Carolina Department of Cultural Resources.

(3) The Department of Cultural Resources, acting through any employee designated by the secretary or the North Carolina Historical Commission shall either upon request of the department or at the initiative of the historic properties commission be given an opportunity to review and comment upon the substance and effect of the designation of any historic property pursuant to this Part. Any comments shall be provided in writing. If the department does not submit its comments or recommendations in connection with any designation within 30 days following receipt by the department of the investigation and report of the commission, the commission and any city or county governing board shall be relieved of any responsibility to consider such comments.

(4) The historic properties commission and the governing board shall hold a public hearing on the proposed ordinance. Reasonable notice of the time and place thereof shall be given. All meetings of the commission shall be open to the public, in accordance with the North Carolina Open Meetings Law, G.S. 143, Article 33B.
(5) Following the joint public hearing, the governing board may adopt the ordinance as proposed, adopt the ordinance with any amendments it deems necessary, or reject the proposed ordinance.

(6) Upon adoption of the ordinance, the owners and occupants of each designated historic property shall be given written notification of such designation insofar as reasonable diligence permits. One copy of the ordinance and all amendments thereto shall be filed by the historic properties commission in the office of the register of deeds of the county in which the property or properties are located. Each historic property designated shall be indexed according to the name of the owner of the property in the grantee and grantor indexes in the register of deeds office, and the historic properties commission shall pay a reasonable fee for filing and indexing. In the case of any property lying within the zoning jurisdiction of a city, a second copy of the ordinance and all amendments thereto shall be kept on file in the office of the city or town clerk and be made available for public inspection at any reasonable time. A third copy of the ordinance and all amendments thereto shall be given to the city or county building inspector. The fact that a building, structure, site, area or object has been designated a historic property shall be clearly indicated on all tax maps maintained by the county or city for such period as the designation remains in effect.

(7) Upon the adoption of the historic properties ordinance or any amendment thereto, it shall be the duty of the historic properties commission to give notice thereof to the tax supervisor of the county in which the property is located. The designation and any recorded restrictions upon the property limiting its use for preservation purposes shall be considered by the tax supervisor in appraising it for tax purposes.

"§ 160A-399.6. Certificate of appropriateness required.—A property which has been designated as a historic property as herein provided may be materially altered, restored, moved or demolished only following the issuance of a certificate of appropriateness by the historic properties commission in accordance with the procedures and standards set forth in Part 3A of this Article. An application for a certificate of appropriateness authorizing the demolition of a designated building or structure or the destruction of an object may not be denied. However, the effective date of such a certificate may be delayed for a period of up to 180 days from the date of approval. The maximum period of delay authorized by this section shall be reduced by the commission where it finds that the owner would suffer extreme hardship or be deprived of all beneficial use of or return from such property by virtue of the delay. During such period the historic properties commission may negotiate with the owner and with any other parties in an effort to find a means of preserving the building, structure, or object.

"§ 160A-399.7. Certain changes not prohibited.—Nothing in this Part shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in or on a historic property that does not involve a change in design, material, or outer appearance thereof, nor to prevent the construction, reconstruction, alteration, restoration, demolition or removal of any such feature when a building inspector or similar official certifies to the commission that such action is required for the public safety because of an unsafe or dangerous condition. Nothing herein shall be construed to prevent a
property owner from making any use of his property not prohibited by other statutes, ordinances or regulations.

"§ 160A-399.8. Authority to acquire historic properties.—When such action is reasonably necessary or appropriate for the preservation of a designated historic property, the commission may negotiate at any time with the owner for its preservation in accordance with the provisions of Parts 3A and 3B.

"§ 160A-399.9. Appropriations.—A city or county governing board is authorized to make appropriations to a historic properties commission established pursuant to this Part in any amount that it may determine necessary for the expenses of the operation of the commission, and may make available any additional amounts necessary for the acquisition, restoration, preservation, operation and management of historic buildings, structures, sites, areas or objects designated as historic properties, or of land on which historic buildings or structures are located, or to which they may be removed.

"§ 160A-399.10. Ownership of property.—All lands, buildings, structures, sites, areas or objects acquired by funds appropriated by a city or county shall be acquired in the name of the city or county unless otherwise provided by the governing board. So long as owned by the city or county, historic properties may be maintained by or under the supervision and control of the city or county. However, all lands, buildings or structures acquired by a historic properties commission from funds other than those appropriated by a city or county may be acquired in the name of the historic properties commission, the city or county, or both.

"§ 160A-399.11. Part to apply to publicly owned buildings and structures.—All of the provisions of this Part are hereby made applicable to the construction, use, alteration, moving and demolition of buildings by the State of North Carolina, its political subdivisions, agencies and instrumentalities, provided that neither this section nor Part 3B of Chapter 160A shall apply to any project of The University of North Carolina or its constituent institutions for which an application has been submitted prior to the effective date of this act.

"§ 160A-399.12. Conflict with other laws.—Whenever any ordinance adopted pursuant to this Part requires a longer waiting period or imposes other higher standards with respect to a designated historic property than are established under any other statute, charter provision, or regulation, this Part shall govern. Whenever the provisions of any other statute, Charter provision, ordinance or regulation required a longer waiting period or impose other higher standards than are established under this Part, such other statute, charter provision, ordinance or regulation shall govern.

"§ 160A-399.13. Remedies.—In case any building, structure, site, area or object designated as a historic property pursuant to this Part is about to be demolished whether as the result of deliberate neglect or otherwise, materially altered, remodeled, removed or destroyed, except in compliance with the ordinance or the provisions of this Part, the city or county, the historic properties commission, or other party aggrieved by such action may institute any appropriate action or proceedings to prevent such unlawful demolition, destruction, material alteration, remodeling or removal, to restrain, correct or abate such violation, or to prevent any illegal act or conduct with respect to such historic property. Such remedies shall be in addition to any others authorized by this Chapter for violation of a municipal ordinance."

S. B. 652  CHAPTER 646

AN ACT TO MAKE TECHNICAL AMENDMENTS TO AND TO CLARIFY EXISTING PROVISIONS OF PART 3A OF CHAPTER 160A, ARTICLE 19, RELATING TO HISTORIC DISTRICTS.

The General Assembly of North Carolina enacts:

Section 1. Chapter 160A, Article 19, Part 3A, as the same appears in the 1976 Replacement Volume 3D of the General Statutes is amended to read as follows:

"Part 3A. Historic Districts.

§ 160A-395. Exercise of powers under this Part by counties as well as cities; designation of historic districts.—The term ‘municipality’ or ‘municipal’ as used in G.S. 160A-395 through G.S. 160A-399 shall be deemed to include the governing board or legislative board of a county, to the end that counties may exercise the same powers as cities with respect to the establishment of historic districts.

Any such legislative body may, as part of a zoning ordinance enacted or amended pursuant to this Article, designate and from time to time amend one or more historic districts within the area subject to the ordinance. Such
ordinance may treat historic districts either as a separate use-district classification or as districts which overlay other zoning districts. Where historic districts are designated as separate use districts, the zoning ordinance may include as uses by right or as conditional uses those uses found by the historic district commission to have existed during the period sought to be restored or preserved, or to be compatible with the restoration or preservation of the district. No historic district or districts shall be designated until:

(1) An investigation and report describing the significance of the buildings, structures, features, sites or surroundings included in any such proposed district, and a description of the boundaries of such district has been prepared; and

(2) The Department of Cultural Resources, acting through an agent or employee designated by its Secretary, shall have made an analysis of and recommendations concerning such report and description of proposed boundaries. Failure of the Department to submit its written analysis and recommendations to the municipal governing body within 30 calendar days after a written request for such analysis has been mailed to it shall relieve the municipality of any responsibility for awaiting such analysis, and said body may at any time thereafter take any necessary action to adopt or amend its zoning ordinance.

The municipal governing body may also, in its discretion, refer the report and proposed boundaries to any local historic properties commission or other interested body for its recommendations prior to taking action to amend the zoning ordinance. With respect to any changes in the boundaries of such district subsequent to its initial establishment, or the creation of additional districts within the jurisdiction, the investigative studies and reports required by subdivision (1) of this section shall be prepared by the historic district commission, and shall be referred to the local planning agency for its review and comment according to procedures set forth in the zoning ordinance. Changes in the boundaries of an initial district or proposals for additional districts shall also be submitted to the Department of Cultural Resources in accordance with the provisions of subdivision (2) of this section.

On receipt of these reports and recommendations, the municipality may proceed in the same manner as would otherwise be required for the adoption or amendment of any appropriate zoning ordinance provisions.

§ 160A-395.1. Character of historic district defined.—Historic districts established pursuant to this Part shall consist of areas which are deemed to be of special significance in terms of their history, architecture and/or culture, and to possess integrity of design, setting, materials, feeling and association.

§ 160A-396. Historic district commission.—Before it may designate one or more historic districts, a municipality shall establish or designate a historic district commission. The municipal governing board shall determine the number of members of the commission, which shall be at least three, and the length of their terms, which shall be no greater than four years. A majority of the members of such a commission shall have demonstrated special interest, experience, or education in history or architecture; and all the members shall reside within the territorial jurisdiction of the municipality as established pursuant to G.S. 160A-360.

In lieu of establishing a separate historic district commission, a municipality may designate as its historic district commission, (i) a historic properties
commission established pursuant to G.S. 160A-399.2, (ii) a planning agency established pursuant to G.S. 160A-361, or (iii) a community appearance commission established pursuant to Part 7 of this Article. In order for a commission or board other than the historic district commission to be designated, at least two of its members shall have demonstrated special interest, experience, or education in history or architecture. At the discretion of the municipality the ordinance may also provide that the historic district commission may exercise within a historic district any or all of the powers of a planning agency or a community appearance commission.

A county and one or more cities in the county may establish or designate a joint historic district commission. If a joint commission is established or designated, the county and cities involved shall determine the residence requirements of members of the joint historic district commission.

"§ 160A-397. Certificate of appropriateness required.—From and after the designation of a historic district, no exterior portion of any building or other structure (including masonry walls, fences, light fixtures, steps and pavement, or other appurtenant features) nor above-ground utility structure nor any type of outdoor advertising sign shall be erected, altered, restored, moved or demolished within such district until after an application for a certificate of appropriateness as to exterior features has been submitted to and approved by the historic district commission. The municipality shall require such a certificate to be issued by the commission prior to the issuance of a building permit or other permit granted for the purposes of constructing, altering, moving or demolishing structures, which certificate may be issued subject to reasonable conditions necessary to carry out the purposes of this Part. A certificate of appropriateness shall be required whether or not a building or other permit is required.

For purposes of this Part, ‘exterior features’ shall include the architecture style, general design, and general arrangement of the exterior of a building or other structure, including the kind and texture of the building material, the size and scale of the building, and the type and style of all windows, doors, light fixtures, signs, and other appurtenant fixtures. In the case of outdoor advertising signs, ‘exterior features’ shall be construed to mean the style, material, size, and location of all such signs. Such ‘exterior features’ may, in the discretion of the local governing board, include color and important landscape and natural features of the area.

The commission shall have no jurisdiction over interior arrangement and shall take no action under this section except for the purpose of preventing the construction, reconstruction, alteration, restoration, moving or demolition of buildings, structures, appurtenant fixtures, outdoor advertising signs, or other significant features in the district which would be incongruous with the special character of the district.

Prior to any action to enforce a historic district ordinance, the commission shall (i) prepare and adopt rules of procedure, and (ii) prepare and adopt principles and guidelines not inconsistent with this Part for new construction, alterations, additions, moving and demolition. The ordinance may provide, subject to prior adoption by the historic district commission of detailed standards, for the review and approval by an administrative official, of minor works as defined by ordinance; provided, however, that no application for a
shall

certificate of appropriateness may be denied without formal action by the historic district commission.

Prior to issuance or denial of a certificate of appropriateness the commission shall take such steps as may be reasonably required in the ordinance and/or rules of procedure to inform the owners of any property likely to be materially affected by the application, and shall give the applicant and such owners an opportunity to be heard. In cases where the commission deems it necessary, it may hold a public hearing concerning the application. All meetings of the commission shall be open to the public, in accordance with the North Carolina Open Meetings Law, G.S. 143, Article 33B. An appeal may be taken to the Board of Adjustment from the commission's action in granting or denying any certificate, which appeals (i) may be taken by any aggrieved party, (ii) shall be taken within times prescribed by the historic district commission by general rule, and (iii) shall be in the nature of certiorari. Any appeal from the Board of Adjustment's decision in any such case shall be heard by the superior court of the county in which the municipality is located.

All applications for certificates of appropriateness shall be reviewed and acted upon within a reasonable time, as defined by the ordinance or the commission's rules of procedure. As part of its review procedure, the commission may view the premises and seek the advice of the Department of Cultural Resources or such other expert advice as it may deem necessary under the circumstances.

"§ 160A-398. Certain changes not prohibited.—Nothing in this Part shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in a historic district which does not involve a change in design, material or outer appearance thereof, nor to prevent the construction, reconstruction, alteration, restoration, moving or demolition of any such feature which the building inspector or similar official shall certify is required by the public safety because of an unsafe or dangerous condition.

"§ 160A-398.1. Applicability of Part.—No provision of this Part shall be applicable to the construction, use, alteration, moving or demolition of buildings by the State of North Carolina, its agencies and instrumentalities, or institutions of higher education. This Part shall apply to counties and municipalities.

"§ 160A-399. Delay in demolition of buildings within historic district.—An application for a certificate of appropriateness authorizing the demolition of a building or structure within the district may not be denied. However, the effective date of such a certificate may be delayed for a period of up to 180 days from the date of approval. The maximum period of delay authorized by this section shall be reduced by the commission where it finds that the owner would suffer extreme hardship or be permanently deprived of all beneficial use of or return from such property by virtue of the delay. During such period the historic district commission may negotiate with the owner and with any other parties in an effort to find a means of preserving the building. If the historic district commission finds that the building has no particular significance or value toward maintaining the character of the district, it shall waive all or part of such period and authorize earlier demolition or removal."

Section 1. A new Chapter 99B of the General Statutes is enacted,
titled “Products Liability”, to read as follows:

“Chapter 99B.
“Products Liability.

§ 99B-1. Definitions.—When used in this Chapter, unless the context
otherwise requires:

(1) ‘Product liability action’ includes any action brought for or on account of
personal injury, death or property damage caused by or resulting from the

(b) A claimant who is a buyer, as defined in the Uniform Commercial Code, of the product involved, or who is a member or a guest of a member of the family of the buyer, a guest of the buyer, or an employee of the buyer not covered by workmen's compensation insurance may bring a product liability action directly against the manufacturer of the product involved for breach of implied warranty; and the lack of privity of contract shall not be grounds for the dismissal of such action.

"§ 99B-3. Alteration or modification of the product.—(a) No manufacturer or seller of a product shall be held liable in any product liability action where a proximate cause of the personal injury, death or damage to property was either an alteration or modification of the product by a party other than the manufacturer or seller, which alteration or modification occurred after the product left the control of such manufacturer or such seller unless:

(1) the alteration or modification was in accordance with the instructions or specifications of such manufacturer or such seller; or

(2) the alteration or modification was made with the express consent of such manufacturer or such seller.

(b) For the purposes of this section, alteration or modification includes changes in the design, formula, function, or use of the product from that originally designed, tested, or intended by the manufacturer. (2) the user discovered a defect or unreasonably dangerous condition of the product and was aware of the danger, and nevertheless proceeded unreasonably to make use of the product and was injured by or caused injury with that product; or

(3) the claimant failed to exercise reasonable care under the circumstances in his use of the product, and such failure was a proximate cause of the occurrence that caused injury or damage to the claimant.”

Sec. 2. G.S. 1-50 is amended by adding a new subsection to read:

“(6) No action for the recovery of damages for personal injury, death or damage to property based upon or arising out of any alleged defect or any failure in relation to a product shall be brought more than six years after the date of initial purchase for use or consumption.”

Provided that, whenever the decedent would have been barred, had he lived, from bringing an action for bodily harm because of the provisions of G.S. 1-15(c) or G.S. 1-52(16), no action for his death may be brought.”

Sec. 4. G.S. 1A-1, Rule 8(a)(2), as found in the 1977 Cumulative Supplement to Volume 1A, is amended in line 4 by inserting before the word, “wherein” the following:

“and in all actions against product manufacturers, wholesalers or retailers for recovery of damages for personal injury, death or damage to property based upon or arising out of any alleged defect or any failure in relation to a product,”.

Sec. 5. If any provision of this act or the application thereof to any person or circumstances is held invalid by any court of competent jurisdiction, the invalidity shall not affect other provisions or application that can be given effect without the invalid provision or application; and to this end the provisions of this act are severable.

H. B. 183  CHAPTER 655

AN ACT TO REVISE THE OPEN MEETINGS LAW.

The General Assembly of North Carolina enacts:

Section 1. G.S. Chapter 143, Article 33B is repealed, and a new Article 33C is enacted, to read as follows:

“ARTICLE 33C.

“Meetings of Public Bodies.

“§143-318.11. Public policy.—Whereas the public bodies that administer the legislative, policy-making, quasi-judicial, administrative, and advisory functions of North Carolina and its political subdivisions exist solely to conduct the people’s business, it is the public policy of North Carolina that the hearings, deliberations, and actions of these bodies be conducted openly.

“§143-318.12. All official meetings of public bodies open to the public.—(a) Except as provided in G.S. 143-318.13, G.S. 143-318.17, and G.S. 143-318.20, each official meeting of a public body shall be open to the public, and any person is entitled to attend such a meeting.

(b) As used in this Article, ‘public body’ means any authority, board, commission, committee, council, or other body of the State, or of one or more counties, cities, school administrative units, or other political subdivisions or public corporations in the State that is composed of two or more members; and

(1) exercises or is authorized to exercise a legislative, policy-making, quasi-judicial, administrative, or advisory function; and

(2) is established by (i) the State Constitution, (ii) an act or resolution of the General Assembly, (iii) a resolution or order of a State agency, pursuant to a statutory procedure under which the agency establishes a political subdivision or public corporation, (iv) an ordinance, resolution, or other action of the governing board of one or more counties, cities, school administrative units, or other political subdivisions or public corporations, or (v) an executive order of the Governor or comparable formal action of the head of a principal State office or department, as defined in G.S. 143A-11 and G.S. 143B-6, or of a division thereof.

In addition, ‘public body’ means (1) the governing board of a ‘public hospital’ as defined in G.S. 159-39 and (2) each committee of a public body, except a committee of the governing board of a public hospital if the committee is not a policy-making body.

(c) ‘Public body’ does not include and shall not be construed to include (1) meetings among the professional staff of a public body, unless the staff members have been appointed to and are meeting as an authority, board, commission, committee, council, or other body established by one of the methods listed in subsection (b)(2) of this section, or (2) meetings among the medical staff of a public hospital.
(d) 'Official meeting' means a meeting, assembly, or gathering together at any time or place or the simultaneous communication by conference telephone or other electronic means of a majority of the members of a public body for the purpose of conducting hearings, participating in deliberations, or voting upon or otherwise transacting the public business within the jurisdiction, real or apparent, of the public body. However, a social meeting or other informal assembly or gathering together of the members of a public body does not constitute an official meeting unless called or held to evade the spirit and purposes of this Article.

"§ 143-318.13. Executive sessions.—(a) Permitted purposes. A public body may hold an executive session and exclude the public:

(1) To consider the selection of a site or the acquisition by any means or lease as lessee of interests in real property. At the conclusion of all negotiations with regard to the acquisition or lease of real property, if final authorization to acquire or lease is to be given, it shall be given at an open meeting.

(2) To consider and authorize the acquisition by gift or bequest of personal property offered to the public body or the government of which it is a part.

(3) To consider and authorize the acquisition by any means of paintings, sculptures, objects of virtu, artifacts, manuscripts, books and papers, and similar articles and objects that are or will be part of the collections of a museum, library, or archive.

(4) To consider the validity, settlement, or other disposition of a claim against or on behalf of the public body or an officer or employee of the public body or in which the public body finds that it has a substantial interest; or the commencement, prosecution, defense, settlement, or litigation of a potential or pending judicial action or administrative proceeding in which the public body or an officer or employee of the public body is a party or in which the public body finds that it has a substantial interest. During such an executive session, the public body may give instructions to an attorney or other agent concerning the handling or settlement of a claim, judicial action, or administrative proceeding. If a public body has considered a settlement in executive session, the terms of that settlement shall be reported to the public body and entered into its minutes within a reasonable time after the settlement is concluded.

(5) To consult with an attorney, to the extent that confidentiality is required in order for the attorney to exercise his ethical duties as a lawyer.

(6) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the public body.

(7) To consider matters dealing with specific patients (including but not limited to all aspects of admission, treatment, and discharge; all medical records, reports, and summaries; and all charges, accounts, and credit information pertaining to such a patient).

(8) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of a public officer or employee or prospective public officer or employee; or to hear or investigate a complaint, charge or grievance by or against a
public officer or employee. A public body may consider the appointment or removal of a member of another body in executive session but may not consider or fill a vacancy among its own membership except in an open meeting.

Final action making an appointment or discharge or removal by a public body having final authority for the appointment or discharge or removal shall be taken in an open meeting. If a public body considers an appointment to another body, except a committee composed of members of the public body, in executive session, it shall, before making that appointment, present at an open meeting a written list of the persons then being considered for the appointment, and that list shall on the same day be made available for public inspection in the office of the clerk or secretary to the public body. The public body may not make the appointment before the seventh day after the day on which the list was presented.

(9) To consider the employment, performance, or discharge of an independent contractor. Any action employing or authorizing the employment or discharging or directing the discharge of an independent contractor shall be taken at an open meeting.

(10) To hear, consider, and decide (1) disciplinary cases involving students or pupils and (2) questions of reassignment of pupils under G.S. 115-178.

(11) To identify candidates for, assess the candidates' worthiness for, and choose the recipients of honors, awards, honorary degrees, or citations bestowed by the public body.

(12) To consider information, when State or federal law (1) directs that the information be kept confidential or (2) makes the confidentiality of the information a condition of State or federal aid.

(13) To consider and adopt contingency plans for dealing with, and consider and take action relating to, strikes, slowdowns, and other collective employment interruptions.

(14) To consider and take action necessary to deal with a riot or civil disorder or with conditions that indicate that a riot or civil disorder is imminent.

(15) To plan, conduct, or hear reports concerning investigations of alleged criminal misconduct.

(16) To consider and decide matters concerning specific inmates of the correction system or security problems of the correction system.

(17) To hear, consider, and decide matters involving admission, discipline, or termination of members of the medical staff of a public hospital. Final action on an admission or termination shall be reported at an open meeting.

(18) To consider and give instructions relating to the setting or negotiation of airport landing fees or the negotiation of contracts, including leases, concerning the use of airport facilities. Final action approving landing fees or such a contract shall be taken in an open meeting.

(b) General Assembly committees and subcommittees. Except as provided in G.S. 143-318.17, a committee or subcommittee of the General Assembly has the inherent right to hold an executive session when it determines that it is absolutely necessary to have such a session in order to prevent personal
embarrassment or when it is in the best interest of the State. A committee or subcommittee may take final action only in an open meeting.

(c) Calling an executive session. A public body may hold an executive session only upon a motion made and adopted at an open meeting. The motion shall state the general purpose of the executive session and must be approved by the vote of a majority of those present and voting.

(d) Minutes of executive sessions. Notwithstanding the provisions of G.S. 132-6, minutes and other records made of an executive session may be withheld from public inspection so long as public inspection would frustrate the purpose of the executive session.

"§ 143-318.14. Public notice of official meetings.—(a) If a public body has established, by ordinance, resolution, or otherwise, a schedule of regular meetings, it shall cause a current copy of that schedule, showing the time and place of regular meetings, to be kept on file as follows:

1. for public bodies that are part of State government, with the Secretary of State;
2. for the governing board and each other public body that is part of a county government, with the clerk to the board of county commissioners;
3. for the governing board and each other public body that is part of a city government, with the city clerk;
4. for each other public body, with its clerk or secretary, or, if the public body does not have a clerk or secretary, with the clerk to the board of county commissioners in the county in which the public body normally holds its meetings.

If a public body changes its schedule of regular meetings, it shall cause the revised schedule to be filed as provided in subdivisions (1) through (4) of this subsection at least seven calendar days before the day of the first meeting held pursuant to the revised schedule.

(b) If a public body holds an official meeting at any time or place other than a time or place shown on the schedule filed pursuant to subsection (a) of this section, it shall give public notice of the time and place of that meeting as provided in this subsection.

1. If a meeting is an adjourned or recessed session of a regular meeting or of some other meeting, notice of which has been given pursuant to this subsection, and the time and place of the adjourned or recessed session has been set during the regular or other meeting, no further notice is necessary.
2. For any other meeting, except an emergency meeting, the public body shall cause written notice of the meeting stating its purpose (i) to be posted on the principal bulletin board of the public body or, if the public body has no such bulletin board, at the door of its usual meeting room, and (ii) to be mailed or delivered to each newspaper, wire service, radio station, and television station, which has filed a written request for notice with the clerk or secretary of the public body or with some other person designated by the public body. The public body shall also cause notice to be mailed or delivered to any person, in addition to the representatives of the media listed above, who has filed a written request with the clerk, secretary, or other person designated by the public body. This notice shall be posted and mailed or delivered at least
48 hours before the time of the meeting. The public body may require each newspaper, wire service, radio station, and television station submitting a written request for notice to renew the request annually. The public body shall charge a fee to persons other than the media, who request notice, of ten dollars ($10.00) per calendar year, and may require them to renew their requests quarterly.

(3) For an emergency meeting, the public body shall cause notice of the meeting to be given to each local newspaper, local wire service, local radio station, and local television station that has filed a written request, which includes the newspaper's, wire service's, or station's telephone number, for emergency notice with the clerk or secretary of the public body or with some other person designated by the public body. This notice shall be given either by telephone or by the same method used to notify the members of the public body and shall be given immediately after notice has been given to those members. This notice shall be given at the expense of the party notified. An ‘emergency meeting’ is one called because of generally unexpected circumstances that require immediate consideration by the public body. Only business connected with the emergency may be considered at a meeting to which notice is given pursuant to this paragraph.

(c) This section does not apply to the General Assembly. Each house of the General Assembly shall provide by rule for notice of meetings of legislative committees and subcommittees.

§ 143-318.15. Electronic meetings, written ballots, acting by reference.—(a) Electronic meetings. If a public body holds an official meeting by use of conference telephone or other electronic means, it shall provide a location and means whereby members of the public may listen to the meeting and the notice of the meeting required by this Article shall specify that location. A fee of up to twenty-five dollars ($25.00) may be charged each such listener to defray in part the cost of providing the necessary location and equipment.

(b) Written ballots. Except as provided in this subsection or by joint resolution of the General Assembly, a public body may not vote by secret or written ballot. If a public body decides to vote by written ballot, each member of the body so voting shall sign his or her ballot; and the minutes of the public body shall show the vote of each member voting. The ballots shall be available for public inspection in the office of the clerk or secretary to the public body immediately following the meeting at which the vote took place and until the minutes of that meeting are approved, at which time the ballots may be destroyed.

(c) Acting by reference. The members of a public body shall not deliberate, vote, or otherwise take action upon any matter by reference to a letter, number or other designation, or other secret device or method, with the intention of making it impossible for persons attending a meeting of the public body to understand what is being deliberated, voted, or acted upon. However, this subsection does not prohibit a public body from deliberating, voting, or otherwise taking action by reference to an agenda, if copies of the agenda, sufficiently worded to enable the public to understand what is being deliberated, voted, or acted upon, are available for public inspection at the meeting.
“§ 143-318.16. Broadcasting or recording meetings.—(a) Except as herein below provided, any radio or television station is entitled to broadcast all or any part of a meeting required to be open. Any person may photograph, film, tape-record, or otherwise reproduce any part of a meeting required to be open.

(b) A public body may regulate the placement and use of equipment necessary for broadcasting, photographing, filming, or recording a meeting, so as to prevent undue interference with the meeting. However, the public body must allow such equipment to be placed within the meeting room in such a way as to permit its intended use, and the ordinary use of such equipment shall not be declared to constitute undue interference; provided, however, that if the public body, in good faith, should determine that the size of the meeting room is such that all the members of the public body, members of the public present, and the equipment and personnel necessary for broadcasting, photographing, filming, and tape-recording the meeting cannot be accommodated in the meeting room without unduly interfering with the meeting and an adequate alternative meeting room is not readily available, then the public body, acting in good faith and consistent with the purposes of this Article, may require the pooling of such equipment and the personnel operating it; and provided further, if the news media, in order to facilitate news coverage, request an alternate site for the meeting, and the public body grants the request, then the news media making such request shall pay any costs incurred by the public body in securing an alternate meeting site.

“§ 143-318.17. Advisory Budget Commission and appropriation committees of General Assembly; application of Article.—(a) The provisions of this Article shall not apply to meetings of the Advisory Budget Commission held for the purpose of actually preparing the budget required by the provisions of the Executive Budget Act (Article 1, Chapter 143, General Statutes of North Carolina), but nothing in this Article shall be construed to amend, repeal or supersede the provisions of G.S. 143-10 (or any similar statutes hereafter enacted) requiring public hearings to secure information on any and all estimates to be included in the budget and providing for other procedures and practices incident to the preparation and adoption of the budget required by the State Budget Act.

(b) This Article does not amend, repeal or supersede the provisions of G.S. 143-14, relating to the meetings of the appropriations committees and subcommittees of the General Assembly.

“§ 143-318.18. Injunctive relief against violations of Article.—(a) The General Court of Justice has jurisdiction to enter mandatory or prohibitory injunctions to enjoin (1) threatened violations of this Article, (2) the recurrence of past violations of this Article, or (3) continuing violations of this Article. Any person may bring an action in the appropriate division of the General Court of Justice seeking such an injunction; and the plaintiff need not allege or prove special damage different from that suffered by the public at large. It is not a defense to such an action that there is an adequate remedy at law.

(b) Any injunction entered pursuant to this section shall describe the acts enjoined with reference to the violations of this Article that have been proved in the action.

(c) If the plaintiff prevails in an action brought pursuant to this section, the court may allow a reasonable attorney’s fee to be taxed against the defendant as a part of costs, if the court finds as a fact that the violation was wilful. If the
CHAPTER 655  Session Laws—1979

defendant prevails and the court finds that the action was frivolous, the court
may allow a reasonable attorney's fee to be taxed against the plaintiff as a part
of costs.

"§ 143-318.19. Disruptions of official meetings.—A person who willfully
interrupts, disturbs, or disrupts an official meeting and who, upon being
directed to leave the meeting by the presiding officer, willfully refuses to leave
the meeting is guilty of a misdemeanor and upon conviction thereof is
punishable by imprisonment for not more than six months, by fine of not more
than two hundred fifty dollars ($250.00), or both.

"§ 143-318.20. Exceptions.—This Article does not apply to:
(1) Grand and petit juries.
(2) Any public body that is specifically authorized or directed by law to meet
in executive or confidential session, to the extent of the authorization or
direction.
(3) The Judicial Standards Commission.
(4) The Legislative Services Commission.
(5) Law enforcement agencies.
(6) A public body authorized to investigate, examine, or determine the
character and other qualifications of applicants for professional or occupational
licenses or certificates or to take disciplinary actions against persons holding
such licenses or certificates, (i) while preparing, approving, administering, or
grading examinations or (ii) while meeting with respect to an individual
applicant for or holder of such a license or certificate. This exception does not
amend, repeal, or supercede any other statute that requires a public hearing or
other practice and procedure in a proceeding before such a public body.
(7) Any public body subject to the Executive Budget Act (G.S. 143-1 et seq.)
and exercising quasi-judicial functions, during a meeting or session held solely
for the purpose of making a decision in an adjudicatory action or proceeding.
(8) The boards of trustees of endowment funds authorized by G.S. 116-36.
(9) The Council of State.
(10) The Board of Awards.
(11) The General Court of Justice."

Sec. 2. G.S. 159-17, as it appears in the 1978 Replacement Volume 3D of
the General Statutes, is amended by rewriting the third sentence to read as
follows:

"Except for the notice requirements of G.S. 143-318.14, which continue to
apply, no provision of law concerning the call of special meetings applies during
that period so long as (i) each member of the board has actual notice of each
special meeting called for the purpose of considering the budget, and (ii) no
business other than consideration of the budget is taken up."

Sec. 3. All provisions of general laws, city charters, and local acts in
effect as of October 1, 1979, and in conflict with the provisions of G.S. Chapter
143, Article 33C, as enacted by Section 1 of this act, are repealed insofar as they
conflict with the provisions of G.S. Chapter 143, Article 33C. No general law,
city charter, or local act enacted or taking effect after October 1, 1979, may be
construed to modify, amend, or repeal any provision of Article 33C unless it
expressly so provides by specific reference to the appropriate section number of
that Article.

CHAPTER 665

AN ACT TO AMEND G.S. 105-342 CONCERNING APPEALS OF PUBLIC SERVICE COMPANIES.

The General Assembly of North Carolina enacts:

Section 1. G.S. 105-342(c) is rewritten to read as follows:

"(c) Review of appraised valuations to be certified to local taxing units.

(1) In the year in which a general reappraisal of real property is required to be conducted in a county under the provisions of G.S. 105-286(a), and in the third and seventh years following the effective date of a county's last general reappraisal of real property, any public service company whose property is subject to appraisal under this Article may petition the board of county commissioners in writing for a reduction in the assessment of the public service company's property by the county on the ground that there exists an inequitable difference between the level of assessment of locally appraised property and that of the public service
company's property by the Department of Revenue. The request for reduction shall be filed with the board of commissioners not later than April 1 of the year for which it is made. The request shall set forth with particularity the alleged inequitable difference in levels of appraisal and shall include any sales/assessment ratio studies or other appraisal information which the public service company desires to be considered by the board of commissioners. Within 60 days of the receipt of the request for reduction, the board of commissioners shall give written notice of its decision to the public service company. The board may deny the request, approve the reduction as requested, or it may offer a lesser reduction. If the county and the public service company agree to a reduction, they shall so notify the Department of Revenue and, in accordance therewith, the Department shall adjust its allocation of the public service company's property to be certified to the county and the municipalities therein. The percentage of reduction agreed upon in the year of the appeal shall also be applied by the Department of Revenue in certifying the appraised valuations of the public service company's property to the county and municipalities for the years following the appeal and until another request for reduction is filed as herein provided or a general reappraisal of real property as required in G.S. 105-286(a) is conducted; provided, however, if a county performs a horizontal adjustment pursuant to G.S. 105-286(b) the percentage of reduction shall be reduced as is appropriate to eliminate any remaining portion of the inequitable difference previously determined. If the decision of the board of commissioners is not satisfactory to the public service company, it may, within 30 days of the decision, or if no decision is rendered, not later than July 1, file with the Property Tax Commission a written request for a hearing at which it may submit evidence of the alleged inequitable difference. A copy of the request for hearing shall also be mailed to the chairman of the board of commissioners of the county whose appraisals are at issue.

(2) If a timely request for a hearing is made, the Property Tax Commission shall fix a place and date for the hearing and shall give notice thereof to the taxpayer and to the chairman of the board of commissioners of the county whose appraisals are at issue.

(3) In any request for a hearing under this section, the public service company shall set forth with particularity the inequitable difference in appraisal levels alleged and shall include any sales/assessment ratio studies or other appraisal information available to it.

(4) As used in this section, the phrase ‘inequitable difference’ means a difference in the level of appraisals of fifteen percent (15%) or more.

(5) Notwithstanding a request for hearing, as provided in subdivision (1) above, the Department of Revenue shall certify the appraised valuations of the appealing public service company's property to the county and municipalities therein and the taxes levied thereon shall be paid when due. If the Property Tax Commission finds that an inequitable difference exists, it shall order a reduction in the appraised valuations of the public service company's property to be allocated to the county and the municipalities so as to eliminate the inequitable difference. The Commission shall then notify the county and the
municipalities of the adjusted valuations by certified mail and the county and municipalities shall, within 30 days of the receipt of such notice, refund the difference between the amount of taxes paid by the company based on the certified valuations and the amount determined to be due based on the adjusted valuations. In certifying the appraised valuations of the public service company's property to the county and municipalities for the years following an appeal and until another request for hearing is filed as herein provided or a general reappraisal of real property as required in G.S. 105-286(a) is conducted, the Department of Revenue shall adjust the valuations in accordance with the percentage of reduction determined by the Property Tax Commission; provided, however, if a county performs a horizontal adjustment pursuant to G.S. 105-286(b) the percentage of reduction shall be reduced as is appropriate to eliminate any remaining portion of the inequitable difference previously determined.

(6) The hearing provided in this section shall be conducted under the provisions of G.S. 105-342(d)."

Sec. 2. This act shall become effective January 1, 1980, and shall not apply to appeals filed with the Property Tax Commission before January 1, 1980.

In the General Assembly read three times and ratified, this the 28th day of May, 1979.

The General Assembly of North Carolina enacts:

Section 1. A new Part 6 is hereby added to Article 3 of Chapter 159 of the General Statutes to read:

"Part 6.

"Joint Municipal Power Agencies.

"§ 159-41. Special regulations pertaining to joint municipal power agencies—
(a) For the purposes of this Part, ‘joint agency’ means a public body corporate and politic organized in accordance with the provisions of G.S. Chapter 159B, or the combination or recombination of any joint agencies so organized.

(b) Except as provided in this Part, none of the provisions of Article 3 of this Chapter shall apply to joint agencies. Whenever the provisions of this Part and the provisions of Chapter 159B of the General Statutes shall conflict, the provisions of Chapter 159B shall govern.

(c) Each joint agency shall operate under an annual balanced budget resolution adopted by the governing board and entered into the minutes. A budget is balanced when the sum of the appropriations is equal to the sum of estimated net revenues and appropriated fund balances. The budget resolution of a joint agency shall cover a fiscal year beginning January 1 and ending December 31, except that the Local Government Commission, if it determines that a different fiscal year would facilitate the agency’s financial operations, may enter an order permitting an agency to operate under a fiscal year other than from January 1 to December 31."

1. The full amount estimated by the finance officer to be required for debt service during the budget year shall be appropriated.

3. Sufficient funds to meet the amounts to be paid during the fiscal year under continuing contracts previously entered into shall be appropriated.
4. The sum of estimated net revenue and appropriated fund balance in each fund shall be equal to appropriations in that fund. Appropriated fund balances in a fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenue, as those figures stand at the close of the fiscal year preceding the budget year.

(e) The governing board of the joint agency may amend the budget resolution at any time after its adoption and may authorize its designated finance officer to transfer moneys from one appropriation to another, subject to such limitations and procedures as it may prescribe. All such transfers will be reported to the governing board or its executive committee at its next regular meeting and shall be entered in the minutes.

(f) Joint agencies are subject to the following sections of Article 3 of this Chapter, to the same extent as a 'public authority', provided, however, the term 'budget ordinance' as used in such sections shall be interpreted for the purposes of this Part to mean the budget resolution of a joint agency:

1. G.S. 159-9, provided, however, that the governing board of an agency may designate as budget officer someone other than a member of the governing board or an officer or employee of the agency.
2. G.S. 159-12, provided, however, that the provision relating to making the budget available to the news media of a county shall not apply to a joint agency.
4. G.S. 159-16.
5. G.S. 159-18.
7. G.S. 159-21.
8. G.S. 159-22, provided, however, that the provision restricting transfers to funds maintained pursuant to G.S. 159-13(a) shall not apply to a joint agency.

(d) Any action or proceeding in any court to set aside such amendatory resolutions providing for the inclusion of a unit of local government within a special airport district or to obtain any other relief upon the ground that such amendatory resolutions or any proceeding or action taken with respect to the inclusion of the unit of local government within the district is invalid, must be commenced within 30 days after publication of the notice. After the expiration of such period of limitation, no right of action or defense founded upon the invalidity of the amendatory resolutions or the inclusion of the unit of local government in the district shall be asserted, nor shall the validity of the amendatory resolutions or the inclusion of the unit of local government in the district be open to question in any court upon any ground whatever, except in an action or proceeding commenced within such period. Provided that no such action or proceeding to set aside such amendatory resolutions shall impair or otherwise affect the conclusivity of the concurrent resolutions as provided in Section 3 of this act.

(e) Immediately following the inclusion of any additional unit of local government within an existing district, members representing such additional unit of local government shall be appointed to the district board in the manner provided in Section 4 hereof.

(f) The annexation by a participating unit of local government of an area lying outside the district shall not be construed as the inclusion within the district of an additional unit of local government within the meaning of the

the district and shall be subject to all debts and supplemental tax obligations
thereof.

CHAPTER 691

AN ACT TO AMEND THE PROVISIONS FOR PUBLIC ASSISTANCE APPEALS TO ALLOW A DUE PROCESS HEARING PRIOR TO TERMINATION OR MODIFICATION OF BENEFITS.

The General Assembly of North Carolina enacts:

Section 1. G.S. 108-44 is hereby rewritten to read as follows:

"§ 108-44. Appeals.—(a) A public assistance applicant or recipient shall have a right to appeal the decision of the county board of social services or the board of county commissioners granting, denying, terminating, or modifying assistance, or the failure of the county board of social services to act within a reasonable time under the rules and regulations of the Social Services Commission or the Department of Human Resources. Each applicant or recipient shall be notified in writing of his right to appeal upon denial of his application for assistance and at the time of any subsequent action on his case.

(b) In cases involving termination or modification of assistance, no action shall become effective until 10 work days after notice of this action and of the right to appeal is mailed to the recipient.

(c) The notice of action and the right to appeal shall comply with all applicable federal and State law and regulations; provided, such notice shall, at a minimum contain a clear statement of:

(1) the action which was or is to be taken;
(2) the reasons for which this action was or is to be taken;
(3) the regulations supporting this action;
(4) the applicant’s or recipient’s right to both a local and State level hearing on the decision to take this action and the method for obtaining these hearings;
(5) the right to be represented at the hearings by a personal representative, including an attorney obtained at the applicant’s or recipient’s expense;
(6) in cases involving termination or modification of assistance, the recipient’s right upon timely request to continue receiving assistance at the present level pending a local appeal hearing and decision on that hearing.

An applicant or recipient may give notice of appeal by written or oral statement to the county department of social services, which shall record such notice by completing a form developed by the Department of Human Resources. Such notice of appeal must be given within 60 days from the effective date of the action. Failure to give timely notice of appeal constitutes a waiver of the right to a hearing. However, it shall not affect the right to reapply for benefits.
(d) If there is such timely appeal, in the first instance the hearing shall consist of a local appeal hearing before the county director or a designated representative of the county director, provided whoever hears the local appeal shall not have been involved directly in the initial decision giving rise to the appeal. In cases involving termination or modification of assistance, the recipient shall continue to receive assistance at the present level pending the local appeal hearing decision, provided the recipient requests a hearing on or before the effective date of the termination or modification of assistance.

(e) The local appeal hearing shall be held not more than five days after the request for it is received. The recipient may, for good cause shown as defined by rule or regulation of the Social Services Commission or the Department of Human Resources, petition the county department of social services, in writing, for a delay, but in no event shall the local appeal hearing be held more than 15 days after the receipt of the request for hearing. At the local appeal hearing:

1. The appellant and the county department may be represented by personal representatives, including attorneys, obtained at their expense.
2. The appellant or his personal representative and the county department shall present such sworn evidence and law or regulations as bear upon the case. The hearing need not be recorded or transcribed, but the director or his representative shall summarize in writing the substance of the hearing.
3. The appellant or his personal representative and the county department may cross-examine witnesses and present closing arguments summarizing their views of the case and the law.
4. Prior to and during the hearing, the appellant shall have adequate opportunity to examine the contents of his case file and all documents and records which the county department of social services intends to use at the hearing.

(f) The director or his designated representative shall make the decision based upon the evidence presented at the hearing and all applicable regulations, and shall prepare a written statement of his decision citing the regulations and evidence to support it. This written statement of the decision will be served by certified mail on the appellant within five days of the local appeal hearing. If the decision terminating or modifying the appellant’s benefits is affirmed, the assistance shall be terminated or modified, not earlier than the date the decision is mailed, and any assistance received during the time of the appeal is subject to recovery.

(g) If the appellant is dissatisfied with the decision of the local appeal hearing, he may within 15 days of the mailing notification of the decision take a further appeal to the Department of Human Resources. However, assistance may not be received pending this further appeal. Failure to give timely notice of further appeal constitutes a waiver of the right to a hearing before an official of the Department of Human Resources, but shall not affect the right to reapply for benefits.

(h) If there is an appeal from the local appeal hearing decision, the county director shall notify the Department of Human Resources according to its rules and regulations. The Department of Human Resources shall designate a hearing officer who shall promptly hold a de novo administrative hearing in the county after giving reasonable notice of the time and place of such hearing to the appellant and the county department of social services. Such hearing shall be
conducted according to applicable federal law and regulations and Article 3, Chapter 150A of the General Statutes of North Carolina; provided the Department shall adopt rules and regulations to ensure the following:

(1) Prior to and during the hearing, the appellant shall have adequate opportunity to examine the contents of his case file and all documents and records which the county department of social services intends to use at the hearing.

(2) At the appeal hearing, the appellant and personnel of the county department of social services may present such sworn evidence, law and regulations as bear upon the case.

(3) The appellant and county department shall have the right to be represented by the person of his choice, including an attorney obtained at his own expense.

(4) The appellant and county department shall have the right to cross-examine the other party as well as make a closing argument summarizing his view of the case and the law.

(5) The appeal hearing shall be recorded; however, no transcript will be prepared unless a petition for judicial review is filed pursuant to subsection (j) herein, in which case, the transcript will be made a part of the official record. In the absence of the filing of a petition for a judicial review, the recording of the appeal hearing may be erased or otherwise destroyed 180 days after the final decision is mailed.

(6) Notwithstanding G.S. 150A-28 or any other provision of State law, discovery shall be no more extensive or formal than that required by federal law and regulations applicable to such hearings.

(i) After the administrative hearing, the hearing officer shall prepare a proposal for decision, citing pertinent law, regulations, and evidence, which shall be served upon the appellant and the county department of social services or their personal representatives. The appellant and the county department of social services shall have the opportunity to present oral and written arguments in opposition to or in support of the proposal for decision to the designated official of the Department who is to make the final decision. The final decision shall be based on, conform to, and set forth in detail the relevant evidence, pertinent State and federal law and regulations, and matters officially noticed. The decision shall be rendered not more than 90 days from the date of request for the hearing, unless the hearing was delayed at the request of the appellant. If the hearing was delayed at the appellant’s request, the decision may only be delayed for the length of time appellant requested a delay. The final decision shall be served upon the appellant and upon the county department of social services by certified mail, with a copy furnished to either party’s attorney of record. In the absence of a petition for judicial review filed pursuant to subsection (j) herein, the final decision shall be binding upon the appellant, the county department of social services, the county board of social services, and the board of county commissioners.

(j) Any appellant or county board of social services who is dissatisfied with the final decision of the Department of Human Resources may file, within 30 days of the receipt of notice of such decision, a petition for judicial review in Superior Court of the county from which the case arose. The hearing shall be conducted according to the provisions of Article 4, Chapter 150A, of the North Carolina General Statutes. Notwithstanding the foregoing provisions, the court
may take testimony and examine into the facts of the case to determine whether the appellant is entitled to public assistance under federal and State law and under the rules and regulations of the Social Services Commission. Furthermore, the court shall set the matter for hearing within 30 days after the receipt of a petition for review and after reasonable written notice to the Department of Human Resources, the county board of social services, the board of county commissioners, and the appellant.

(k) In the event of conflict between federal law or regulations and State law or regulations, the federal law or regulations shall control.”

Sec. 2. This act shall become effective October 1, 1979, but shall not apply to cases in which notice of appeal was given prior to the effective date.

In the General Assembly read three times and ratified, this the 30th day of May, 1979.

Act’.

2. Policy and purpose. Marital and family therapy in the State of North
Carolina is declared to be a professional practice which affects the public safety
and welfare and requires appropriate certification and control in the public
interest.

It is the purpose of this act to establish a certification agency, a structure, and
procedures which will ensure that the public has a means of protecting itself
from unprofessional, improper, unauthorized and unqualified use of certain
titles by persons who practice marital and family therapy. This act shall be
liberally construed to carry out these policies and purposes.

3. Definitions. As used in this act, unless the context clearly requires a

specialized field of therapy which centers largely upon the family system and
the relationship between husband and wife. ‘Marital and family therapy’

(9) that the applicant has not during the three years next preceding the date of the application had any permit issuable hereunder, or any license issued to him pursuant to the laws of this State or any other state to make or sell intoxicating liquors of any kind, revoked;
(10) if the applicant is a firm, association, or partnership, the application shall state the matters required in subdivisions (6), (7), (8), and (9), with respect to each of the members thereof, and each of those members must meet all the requirements in those subdivisions;
(11) if the applicant is a corporation, organized or authorized to do business in this State, the application shall state the matters required in subdivisions (7), (8) and (9), with respect to each of the officers and directors thereof, and any stockholder owning more than twenty-five percent (25%) of the stock of that corporation, and the person or persons who shall conduct and manage the licensed premises for the corporation. Each of those persons must meet all the requirements in those subdivisions; provided that the requirements as to residence shall not apply to the officers, directors, and stockholders of the corporation; however, the Board may apply that requirement to any officer, director or stockholder, agent, or employee who is also the manager and in charge of the premises for which the permit is applied.

(b) The application must be verified by the affidavit of the applicant before a notary public or other person duly authorized by law to administer oaths. The foregoing provisions and requirements are prerequisites for the issuance of a permit; if any applicant fails to qualify under the same, or if any false statement is knowingly made in any application, the permit shall be refused. If a permit is granted on any application containing a false statement knowingly made, it shall be revoked and the applicant upon conviction shall be guilty of a
misdemeanor. In addition to the information furnished in any application, the Director of the Alcohol Law Enforcement Division of the Department of Crime Control and Public Safety shall make any additional and independent investigation of each applicant and of the place to be occupied, as deemed necessary or advisable.

(c) Every person applying to the State Board of Alcoholic Control for a permit to distill spirituous liquors under the provisions of this section shall pay an application fee at the time of application in the amount of one hundred dollars ($100.00), to be paid by check or money order made payable to the State Board of Alcoholic Control. These fees shall be deposited by the Board with the State Treasurer.

(d) The application of any person who fails to comply with the provisions of this section shall be refused, and if the permit has been granted, it shall be cancelled.

"§ 18A-63. Revocation or suspension of permit.—(a) If any permittee violates any of the provisions of this Chapter, or Chapter 105, or any rule or regulation promulgated under authority of either Chapter, or fails to superintend in person or through a manager the business for which the permit was issued, or allows the premises with respect to which the permit was issued to be used for any unlawful, disorderly, or immoral purpose, or knowingly employs in the sale or distribution or spirituous liquors any person who has been convicted of, or entered a plea of guilty or nolo contendere to a felony involving moral turpitude (federal or State) within the past three years, or adjudged guilty of violating the liquor or drug laws (federal or State) within two years, or leaves the licensed premises in charge of any person who has had a license or permit to make or sell intoxicating liquors of any kind revoked within the past two years, or otherwise fails to carry out in good faith the purposes of this Chapter, his permit may be revoked or suspended by the State Board of Alcoholic Control.

(b) The Board may refuse to issue a new permit or may suspend or revoke any permit issued by it if, in the discretion of the Board, the applicant or permittee is not a suitable person to hold the permit or the place occupied by the applicant or permittee is not a suitable place. In making its determination, the Board may consider the number already holding permits within the neighborhood, the recommendations of the governing body of the city or county in which the premises is located, reputation and criminal record of the applicant, and any other factors directly related to the suitability of the person and the premises.

(c) Whenever any license or permit which has been issued by the Secretary of Revenue or by the State Board of Alcoholic Control has been revoked, the State Board may refuse to issue a permit for the premises to any person for any period not to exceed six months after the revocation of that permit or license.

(d) The State A.B.C. Board may suspend or revoke any permit issued by it if the Board finds that the permittee has violated any provision of this Chapter or Chapter 105, or any rule or regulation of the State A.B.C. Board or the State Department of Revenue.

(e) Hearings before revocations or suspensions shall be conducted in accord with G.S. 18A-44."

Provided, the foregoing shall not apply to loan contracts in which all contractual activities, including solicitation, discussion, negotiation, offer, acceptance, signing of documents, and delivery and receipt of funds, occur entirely outside North Carolina.
(b) If any lender or agent of a lender who makes loan contracts outside this State in the amount or of the value of three thousand dollars ($3,000) or less, comes into this State to solicit or otherwise conduct activities in regard to such loan contracts, then such lender shall be subject to the requirements of this Article.

ENCUMBERED APPROPRIATIONS AND PROJECT RESERVE FUND

Sec. 10. When each project appropriated in Section 4 of this act, other than those projects under the Department of Community Colleges and The University of North Carolina Board of Governors, is placed under construction contract, direct appropriations shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment and a reasonable contingency. Unencumbered direct appropriations remaining in the project budget shall be placed in a project reserve fund credited to the Department of Administration. Use of this project reserve fund shall be at the discretion of the Director of the Budget solely to allow for award of contracts where bids exceed appropriated funds, on condition that such projects supplemented shall have been designed within the physical scope intended by the applicable appropriation or any authorized change therein, and in the opinion of the Director of the Budget all means to award contracts within the appropriation shall have been reasonably attempted. The project reserve fund shall not be used in connection with any projects under The University of North Carolina Board of Governors or the Department of Community Colleges. At the discretion of the Director of the Budget any balances in the project reserve fund shall revert to the original source.

UNIVERSITY OF NORTH CAROLINA BOARD OF GOVERNORS AND OTHER LUMP SUM APPROPRIATIONS

Sec. 11. There is appropriated in Section 4 of this act a lump sum to The University of North Carolina Board of Governors. Expenditure of funds in this appropriation shall be in accordance with the provisions of G.S. 116-11(9)a and G.S. 116-11(9)b, and this act, except where specifically excluded. Other lump sums designated as reserves appropriated in Sections 4 or 5 of this act shall be
used for specific capital improvement projects in accordance with the priority needs of the respective agencies and as approved by the Director of the Budget and the Advisory Budget Commission, and any funds remaining in a project account following encumbrance of all construction and equipment costs and reasonable contingency shall revert to the respective reserve.

—SPECIAL RESERVE FOR THE HISTORICALLY BLACK INSTITUTIONS

Sec. 12. Funds appropriated in Section 4 of this act to the Board of Governors of The University of North Carolina include a special capital improvements reserve of forty million dollars ($40,000,000) for the purchase of educational equipment and capital improvements projects at the historically black institutions of The University of North Carolina, which are Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, and Winston-Salem State University. From this reserve, an educational equipment fund of at least one million dollars ($1,000,000) shall be distributed among the five institutions. The remainder of the special reserve shall be used to establish specific capital improvements projects designed to improve the campus environment at each of the institutions. The Board of Governors shall establish specific capital improvements projects at each of the historically black institutions to accomplish these purposes. The Board of Governors is authorized to make such transfers between these established projects as may be required to accomplish the purposes of this appropriation.

—GOVERNOR AND ADVISORY BUDGET COMMISSION/POSTPONEMENT OF PROJECTS

Sec. 13. Upon the request of a department, institution, or agency for which a capital improvement appropriation is made in this act, the Director of the Budget and the Advisory Budget Commission are authorized and empowered to postpone any capital improvement project as provided in this act upon finding that the project cannot be carried out as originally intended by the General Assembly.

—ADVISORY BUDGET COMMISSION/APPROPRIATION MODIFICATIONS

Sec. 14. The Director of the Budget and the Advisory Budget Commission may, when in their opinion it is in the best interest of the State to do so, and upon the request of the pertinent department, agency, or institution, authorize an increase or decrease in size and scope of a direct or self-liquidating capital appropriation. Changes to a project or projects enumerated in this act may come from gifts, federal or private grants, excess patient receipts collected above those budgeted by the North Carolina Memorial Hospital, special fund receipts, or, from within the funds appropriated for capital improvements in this act to that department, agency, or institution. Further, the Director of the Budget is authorized to increase from the sources of funds referred to in this section the cost of a project or projects enumerated in this act, but solely to allow for award of contracts where bids exceed appropriated funds, and on condition that such projects supplemented shall have been designed within the size and physical scope intended by the applicable appropriation or any authorized changes therein, and in the opinion of the Director of the Budget all means to award contracts within the appropriation shall have been reasonably attempted.
The reserve for repairs and completion of previously authorized capital projects appropriated in 1979-80 to the Department of Administration in Section 4 of this act shall be allocated at the discretion of the Advisory Budget Commission.

——GOVERNOR AND ADVISORY BUDGET COMMISSION/NEW PROJECT

Sec. 15. CHAPTER 751

Autism is (a) a syndrome consisting of withdrawal, very inadequate social relationships, exceptional object relationships, language disturbances, and monotonously repetitive motor behavior; many children with autism will also be seriously impaired in general intellectual functioning; and (b) mental illness observed in young children characterized by severe withdrawal and inappropriate response to external stimulation.

(28) The term ‘cerebral palsy’ refers to a person who has a muscle dysfunction, characterized by impairment of movement, often combined with speech impairment, and caused by abnormality of, or damage to, the brain. Cerebral palsy is a disorder dating from birth or early infancy, nonprogressive, characterized by examples of aberrations of motor function (paralysis, weakness, or incoordination) and often other manifestations of organic brain damage such as sensory disorders, seizures, mental retardation, learning difficulty, and behavioral disorders.

(29) The term ‘epilepsy’ refers to a person who is subject to convulsive attacks and during these attacks usually loses consciousness or is subject to convulsive seizures. Epilepsy is a clinical disorder characterized by single or recurring attacks of loss of consciousness, convulsive movements, or disturbances of feeling or behavior. These transient episodes are associated with excessive neuronal discharges occurring diffusely or focally in the brain. The sites of neuronal discharge determine the clinical manifestations of the seizure.

(30) The term ‘mental illness’ refers to a person who has an illness that so lessens the capacity of the person to use self-control, judgment, and discretion in the conduct of his affairs and social relations as to make it necessary or advisable for him to be under treatment, care supervision, guidance, or control.

(31) The term ‘mental retardation’ refers to a person who has significantly subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period.”

proceeding, tending to prove he is an incompetent adult, as defined in this Article, because of mental illness.

AN ACT TO PROVIDE FOR READABLE INSURANCE POLICIES AND TO PROVIDE FOR CONSUMERS' GUIDES FOR AUTOMOBILE AND HOMEOWNERS' INSURANCE LINES.
The General Assembly of North Carolina enacts:

Section 1. General Statutes Chapter 58 is amended by adding a new Article to read:

"ARTICLE 33.
"Readable Insurance Policies.
"§ 58-360. Title.—This Article is known and may be cited as the 'Readable Insurance Policies Act'.
"§ 58-361. Purpose.—The purpose of this Article is to provide that insurance policies and contracts be readable by a person of average intelligence, experience, and education. All insurers are required by this Article to use policy and contract forms and, where applicable, benefit booklets that are written in simple and commonly used language, that are logically and clearly arranged, and that are printed in a legible format.
"§ 58-362. Scope of application.—(a) Except as provided in subsection (b) of this section, the provisions of this Article apply to the policies and contracts of direct insurance that are described in G.S. 58-367(a).
(b) Nothing in this Article applies to:
(1) any policy that is a security subject to federal jurisdiction;
(2) any group policy covering a group of 1,000 or more lives at date of issue, other than a group credit life insurance policy, nor any group policy delivered or issued for delivery outside of this State; however, this does not exempt any certificate issued pursuant to a group policy delivered or issued for delivery in this State;
(3) any group annuity contract that serves as a funding vehicle for pension, profit-sharing, or deferred compensation plans;
(4) any form used in connection with, as a conversion from, as an addition to, or in exchange pursuant to a contractual provision for, a policy delivered or issued for delivery on a form approved or permitted to be issued prior to the dates such forms must be approved under this Article;
(5) the renewal of a policy delivered or issued for delivery prior to the date such policy must be approved under this Article; nor
(6) insurers who issue benefit booklets on group and nongroup bases for the policies described in G.S. 58-367(a)(2). In such cases, the provisions of this Article apply to the benefit booklets furnished to the persons insured.
(c) No other provision of the General Statutes setting language simplification standards shall apply to any policy forms covered by this Article.
(d) Any non-English language policy delivered or issued for delivery in this State shall be deemed to be in compliance with this Article if the insurer certifies that such policy is translated from an English language policy which does comply with this Article.

§ 58-363. Definitions.—As used in this Article, unless the context clearly indicates otherwise:
(1) ‘Benefit booklet’ means any written explanation of insurance coverages or benefits issued by an insurer and which is supplemental to and not a part of an insurance policy or contract.
(2) ‘Commissioner’ means the Commissioner of Insurance.
(3) ‘Flesch scale analysis readability score’ means a measurement of the case of readability of an insurance policy or contract made pursuant to the procedures described in G.S. 58-367.
(4) ‘Insurance policy or contract’ or ‘policy’ means an agreement as defined by G.S. 58-3.
(5) ‘Insurer’ means every person entering insurance policies or contracts as a principal, as described in G.S. 58-2(2).
(6) ‘Person’ means any individual, corporation, partnership, association, business trust, or voluntary organization.

§ 58-364. Format requirements.—(a) All insurance policies and contracts covered by G.S. 58-367 must be printed in a typeface at least as large as 10 point modern type, one point leaded, be written in a logical and clear order and form, and contain the following items:
(1) on the cover, first, or insert page of the policy a statement that the policy is a legal contract between the policy owner and the insurer and the statement, printed in larger or other contrasting type or color, ‘Read your policy carefully’;
(2) an index of the major provisions of the policy, which may include the following items:
a. the person or persons insured by the policy;
b. the applicable events, occurrences, conditions, losses, or damages covered by the policy;
c. the limitations or conditions on the coverage of the policy;
d. definitional sections of the policy;
e. provisions governing the procedure for filing a claim under the policy;
f. provisions governing cancellation, renewal, or amendment of the policy by either the insurer or the policyholder;
g. any options under the policy; and
h. provisions governing the insurer's duties and powers in the event that suit is filed against the insured.

(b) In determining whether or not a policy is written in a logical and clear order and form the Commissioner must consider the following factors:

(1) the extent to which sections or provisions are set off and clearly identified by titles, headings, or margin notations;
(2) the use of a more readable format, such as narrative or outline forms;
(3) margin size and the amount and use of space to separate sections of the policy; and
(4) contrast and legibility of the colors of the ink and paper and the use of contrasting titles or headings for sections.

"§ 58-365. Flesch scale analysis readability score, procedures.—(a) A Flesch scale analysis readability score will be measured as provided in this section.

(b) For policies containing 10,000 words or less of text, the entire policy must be analyzed. For policies containing more than 10,000 words, the readability of two 200-word samples per page may be analyzed in lieu of the entire policy. The samples must be separated by at least 20 printed lines. For the purposes of this subsection a word will be counted as five printed characters or spaces between characters.

(c) The number of words and sentences in the text must be counted and the total number of words divided by the total number of sentences. The figure obtained must be multiplied by a factor of 1.015. The total number of syllables must be counted and divided by the total number of words. The figure obtained must be multiplied by a factor of 84.6. The sum of the figures computed under this subsection subtracted from 206.835 equals the Flesch scale analysis readability score for the policy.

(d) For the purposes of subsection (c) of this section the following procedures must be used:

(1) a contraction, hyphenated word, or numbers and letters, when separated by spaces, will be counted as one word;
(2) a unit of words ending with a period, semicolon, or colon, but excluding headings and captions, will be counted as a sentence; and
(3) a syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.

(e) The term 'text' as used in this section includes all printed matter except the following:

(1) The name and address of the insurer; the name, number or title of the policy; the table of contents or index; captions and subcaptions; specification pages, schedules or tables; and
(2) Any policy language that is drafted to conform to the requirements of any law, regulation, or agency interpretation of any state or the federal government; any policy language required by any collectively bargained agreement; any medical terminology; and any words that are defined in the policy: Provided, however, that the insurer submits with his filing
under G.S. 58-366 a certified document identifying the language or terminology that is entitled to be excepted by this subdivision.

“§ 58-366. Filing requirements; duties of the Commissioner.—(a) No insurer may make, issue, amend, or renew any insurance policy or contract after the dates specified in G.S. 58-367 for the applicable type of insurance unless the policy is in compliance with the provisions of G.S. 58-364 and G.S. 58-365 and unless the policy is filed with the Commissioner for his approval. The policy will be deemed approved 90 days after filing unless disapproved within the 90-day period. The Commissioner may not unreasonably withhold his approval. Any disapproval must be delivered to the insurer in writing and must state the grounds for disapproval. Any policy filed with the Commissioner must be accompanied by a certified Flesch scale readability analysis and test score and by the insurer’s certification that the policy is, in the insurer’s judgment, readable based on the factors specified in G.S. 58-364 and G.S. 58-365.

(b) The Commissioner must disapprove any policy covered by subsection (a) of this section if he finds that:

(1) it is not accompanied by a certified Flesch scale analysis readability score as follows:
   a. as to policies covered by G.S. 58-367(a)(1); after July 1, 1980, but before July 1, 1981, a score of 40 or more, and after June 30, 1981, a score of 50 or more;
   b. as to policies covered by G.S. 58-367(a)(2); after July 1, 1981, but before July 1, 1982, a score of 40 or more, and after June 30, 1982, a score of 50 or more.

(2) it is not accompanied by the insurer’s certification that the policy is, in the judgment of the insurer, readable under the standards of this Article; or

(3) it does not comply with the format requirements of G.S. 58-364.

“§ 58-367. Application to policies; dates; duties of the Commissioner.—(a) The filing requirements of G.S. 58-366 apply as follows:

(1) as described in Article 12B of this Chapter, to all policies of private passenger nonfleet motor vehicle insurance, to all policies of insurance against loss to residential real property with not more than four housing units located in this State and any contents thereof and valuable interest therein, and other insurance coverages written in connection with the sale of such property insurance, that are made, issued, amended, or renewed after July 1, 1980; and

(b) The Commissioner must make the following reports to the Legislative Research Commission and the General Assembly:

(1) on or before March 31, 1980, a report detailing and evaluating the efforts made by the Commissioner and insurers to implement the
provisions of subdivision (a)(1) of this section, and particularly examining the feasibility and practicality of requiring accident and health and life insurance policies to comply with the provisions of this Article and in the time prescribed;

   a. the operation of and the extent of compliance with the provisions of this Article;
   b. the efforts made by the Commissioner and insurers to implement the provisions of subdivision (a)(2) of this section; and

(3) the Commissioner's recommendations regarding the extension of the application of the provisions of this Article to other lines and types of insurance and his reasons therefor.

"§ 58-368. Construction.—(a) The provisions of this Article will not operate to relieve any insurer from any provision of law regulating the contents or provisions of insurance policies or contracts nor operate to reduce an insured's or beneficiary's rights or protection granted under any statute or provision of law.

(b) The provisions of this Article shall not be construed to mandate, require, or allow alteration of the legal effect of any provision of any insurance policy or contract.

(c) In any action brought by a policyholder or claimant arising out of a policy approved pursuant to this Article, the policyholder or claimant may base such an action on either or both (1) the substantive language prescribed by such other statute or provision of law or (2) the wording of the approved policy."

CHAPTER 759

AN ACT TO ALLOW LOCAL COMMUNITY NONPROFIT SHELTERED WORKSHOPS AND CENTERS TO USE THE SERVICES OF THE DIVISION OF PURCHASE AND CONTRACT OF THE STATE DEPARTMENT OF ADMINISTRATION IN PURCHASING MATERIALS, SUPPLIES AND EQUIPMENT UNDER STATE CONTRACT.

Whereas, local community nonprofit workshops and centers minister to the physically and mentally handicapped, socially deprived, developmentally disabled citizens; and

Whereas, many workshops are assisting public school systems in training under-achievers; and

Whereas, the workshops provide evaluation and adjustment training to all vocational rehabilitation clients; and

Whereas, the workshops provide sheltered employment and training for the mentally retarded and severely handicapped; and

Whereas, a number of the sheltered workshops are sponsored by county boards of education and other Mental Health/Mental Retardation Centers and have the privilege of purchasing through the Division of Purchase and Contract; and

Whereas, a substantial amount of the financial support of local nonprofit sheltered workshops and centers comes from the State, and the State would save money if these workshops and centers were allowed to purchase materials, supplies and equipment under State contracts made by the Division of Purchase and Contract of the State Department of Administration; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Subdivision (6) of G.S. 143-49 is amended by inserting in line 2 of the subdivision, immediately following the word “hospitals,” the phrase:

(2) Jail. A jail is a local confinement facility maintained by a county as provided by G.S. 153A-218 or a district confinement facility maintained by two or more units of local government as provided by G.S. 153A-219.

(3) Jailer. A jailer is the sheriff or other person having the care and custody of a jail as provided by G.S. 162-22 or the administrator of a district confinement facility as provided by G.S. 153A-219.

(4) Prior conviction. A person has received a prior conviction when he has been adjudged guilty of or has entered a plea of guilty or no contest to a criminal charge, and judgment has been entered thereon.

(5) Prison term. A prison term is a period of imprisonment to be served either in the custody of the Department of Correction or a jail.

"§ 15A-1340.3. Purposes of sentencing.—The primary purposes of sentencing a person convicted of a crime are to impose a punishment commensurate with the injury the offense has caused, taking into account factors that may diminish or increase the offender’s culpability; to protect the public by restraining offenders who have demonstrated a propensity to commit further crimes; to assist the offender toward rehabilitation and restoration to the community as a lawful citizen; and to provide a general deterrent to criminal behavior.

"§ 15A-1340.4. Presumptive punishment for felony other than Class A or Class B felony, prior felony convictions, consideration of aggravating and mitigating factors, written findings.—(a) If the sentencing judge imposes a prison term on a person convicted of a felony other than a Class A or Class B felony, he may suspend the sentence and place the convicted felon on probation as provided by Article 82 of this Chapter. If the convicted felon is under 21 years of age at the time of conviction and the sentencing judge elects to impose an active prison term, the judge must either sentence the felon as a committed youthful offender in accordance with Article 3B of Chapter 148 of the General Statutes and subject to the limit on the prison term provided by G.S. 148-49.14, or make a ‘no benefit’ finding as provided by G.S. 148-49.14 and impose a regular prison term. If the judge imposes a prison term, whether or not the term is suspended and whether or not he sentences the convicted felon as a committed youthful offender, the judge must impose the presumptive prison term provided by subsection (f) of this section unless he decides to impose a longer or shorter term after consideration of aggravating and mitigating factors. In imposing a prison term on a person convicted of a felony, the sentencing judge may consider any aggravating and mitigating factors that are reasonably related to the purposes of sentencing as provided by G.S. 15A-1340.3, and must consider each of the following aggravating and mitigating factors.
CHAPTER 760  Session Laws—1979

(1) Aggravating factors.
   (a) In committing the offense, the defendant inflicted bodily injury on another person substantially in excess of the minimum amount necessary to prove the offense.
   (b) In committing the offense, the defendant inflicted property loss or damage substantially in excess of the minimum amount necessary to prove the offense.
   (c) The defendant induced others to participate in the commission of the offense or occupied a position of leadership or dominance of other participants in its commission.

(2) Mitigating factors.
   (a) The defendant has either no record of criminal convictions or a record consisting solely of misdemeanors punishable by not more than 60 days imprisonment.
   (b) In committing the offense, the defendant inflicted only the minimum amount of bodily injury on another person necessary to prove the offense.
   (c) In committing the offense, the defendant inflicted only the minimum amount of property damage or loss necessary to prove the offense.
   (d) The defendant committed the offense under duress, coercion, threat, or compulsion which was insufficient to constitute a defense but significantly reduced his culpability for the offense.
   (e) The defendant was a passive participant or played a minor role in the commission of the offense.
   (f) The defendant was suffering from a mental or physical condition which was insufficient to constitute a defense but significantly reduced his culpability for the offense.
   (g) The defendant, because of his age or limited mental capacity, was substantially lacking in sound judgment in committing the offense.
   (h) The defendant has made partial or full restitution to the victim of his offense.
   (i) A negotiated plea and any circumstance arising from the evidence which the court deems to have mitigating value.

(b) If the judge imposes a prison term for a felony that differs from the presumptive term provided by subsection (f), whether or not the term is suspended and whether or not he sentences the convicted felon as a committed youthful offender, the judge must enter on the record findings of fact regarding all aggravating and mitigating factors on which he bases his sentence.

(c) Whether or not the sentencing judge imposes a prison term on a person convicted of a felony other than a Class A felony, he may impose a fine in accordance with G.S. 15A-1340.6.

(d) In imposing a sentence for a felony, if the sentencing judge finds a longer presumptive prison term is applicable to the defendant under subsection (f) of this section because of his prior felony convictions, the judge must enter on the record a finding as to how many and what class of prior felony convictions the defendant has received and the evidence on which his finding is based. For the purpose of determining the applicable presumptive prison term under subsection (f), prior conviction of a felony is defined as any prior conviction of a felony by a North Carolina State court or a criminal offense under the law of any other state, the District of Columbia, or the United States, that would be
punishable as a felony under North Carolina law if subject to the jurisdiction of North Carolina State courts. Prior conviction of a felony shall not include any felony that is joinable, pursuant to G.S. 15A-926(a), with the felony for which the defendant is currently being sentenced, nor shall it include any prior conviction that did not occur or lead to imprisonment, probation, suspended sentence, or parole from which the offender's final discharge occurred within the 10 years immediately preceding the conviction for which the defendant is currently being sentenced.

(e) Prior convictions may be proven at the sentencing hearing. If the State introduces proof of prior convictions for sentencing purposes and does not give the defendant reasonable notice of the date and nature of such convictions before the sentencing hearing, and the defendant contests the accuracy or validity of the convictions as applied to him, he is entitled to a continuance of the sentencing hearing.

(f) Unless otherwise specified by statute, presumptive prison terms are as follows for felonies classified according to G.S. 14-1.1 and specific penalty provisions of the General Statutes. Prior felony convictions in jurisdictions other than North Carolina shall be considered Class J felonies for the purpose of this subsection.

Sec. 1. For a Class C felony, imprisonment for 20 years if the person convicted has no prior felony convictions, imprisonment for 22 years if he has one prior conviction of a Class D, E, F, G, H, I, or J felony, and imprisonment for 24 years if he has one prior conviction of a Class B or C felony or two or more prior convictions of Class D, E, F, G, H, I, or J felonies.

Sec. 2. For a Class D felony, imprisonment for 16 years if the person convicted has no prior felony convictions, imprisonment for 18 years if he has one prior conviction of a Class E, F, G, H, I, or J felony, and imprisonment for 20 years if he has one prior conviction of a Class B, C, or D felony or two or more prior convictions of Class E, F, G, H, I, or J felonies.

Sec. 3. For a Class E felony, imprisonment for 12 years if the person convicted has no prior felony convictions, imprisonment for 14 years if he has one prior conviction of a Class F, G, H, I, or J felony, and imprisonment for 16 years if he has one prior conviction of a Class B, C, D, or E felony or two or more prior convictions of Class F, G, H, I, or J felonies.

Sec. 4. For a Class F felony, imprisonment for eight years if the person convicted has no prior felony convictions, imprisonment for 10 years if he has one prior conviction of a Class G, H, I, or J felony, and imprisonment for 12 years if he has one prior conviction of a Class B, C, D, E, or F felony or two or more prior convictions of Class G, H, I, or J felonies.

Sec. 5. For a Class G felony, imprisonment for six years if the person convicted has no prior felony convictions, imprisonment for seven years if he has one prior conviction of a Class H, I, or J felony, and imprisonment for eight years if he has one prior conviction of a Class B, C, D, E, F, or G felony or two or more prior convictions of Class H, I, or J felonies.
Sec. 6. For a Class H felony, imprisonment for three years six months if the person convicted has no prior felony convictions, imprisonment for five years if he has one prior conviction of a Class I or J felony, and imprisonment for six years if he has one prior conviction of a Class B, C, D, E, F, G, or H felony or two or more prior convictions of Class H, I, or J felonies.

Sec. 7. For a Class I felony, imprisonment for two years if the person convicted has no prior felony convictions, imprisonment for 30 months if the person has one prior conviction of a Class J felony, and imprisonment for three years if he has one prior conviction of a Class B, C, D, E, F, G, H, or I felony or two or more prior convictions of Class J felonies.

Sec. 8. For a Class J felony, imprisonment for one year if the person convicted has no prior felony convictions, imprisonment for 18 months if the person has one prior conviction of a Class J felony, and imprisonment for two years if he has one prior conviction of a Class B, C, D, E, F, G, H, or I felony or two or more prior convictions of Class J felonies.

(g) For the purposes of subsection (f) of this section, felonies defined by laws now repealed shall be assigned to the class, as defined by G.S. 14-1.1, corresponding to the maximum prison terms authorized by law for those felonies when they occurred.

"§ 15A-1340.5. Sentencing of person convicted of repeated felony using deadly weapon.—Notwithstanding any other provision of law, any person who has been previously convicted in the courts of this State within seven years of a felony in which a deadly weapon was used, provided that the previous felony did not occur within 10 days of the second or subsequent felony, shall serve a term for the second or subsequent felony of not less than seven years in prison, excluding gain time granted under G.S. 148-13. Any person sentenced under this section shall receive a sentence of at least 14 years in the State's prison and shall be entitled to credit for good behavior under G.S. 15A-1340.7. The sentencing judge may not sentence a person sentenced under this section as a committed youthful offender and may not suspend the sentence and place the person sentenced on probation. Sentences imposed pursuant to this section shall run consecutively with and shall commence at the expiration of any sentence being served by the person sentenced hereunder.

"§ 15A-1340.6. Fines.—In sentencing a person convicted of a felony other than a Class A or Class B felony, the sentencing judge may in his discretion impose a fine up to the maximum authorized by G.S. 14-1.1, whether or not he imposes an active or suspended prison term as provided by Article 84 of this Chapter.

"§ 15A-1340.7. Service of term of imprisonment; credit for good behavior; prisoner conduct rules; informing prisoner of release date; re-entry parole and committed youthful offender parole.—(a) An active term of imprisonment imposed for a felony shall be served in the custody of the Department of Correction or a jail, subject to the provisions of G.S. 15A-1352. Credit toward service of the term shall be given for time already served as provided by Article 19A of Chapter 15 of the General Statutes, and good behavior in prison or jail as provided by subsection (b) of this section. Additional credit may be given by the
Department of Correction or jailer under regulations of the Secretary of Correction as provided by G.S. 148-13.

(b) A prisoner committed to the Department of Correction or a jail to serve a sentence for a felony shall receive credit for good behavior at the rate of one day deducted from his prison or jail term for each day he spends in custody without a major infraction of prisoner conduct rules. Prisoner conduct rules shall be issued by the Secretary of Correction with regard to all prisoners serving prison or jail terms for felony convictions. The rules shall clearly state types of forbidden conduct and a copy of the rules shall be given and read to each convicted prisoner upon entry into prison or jail. Infractions of the rules shall be of two types, major and minor infractions. Major infractions shall be punishable by forfeiture of specific amounts of accrued good behavior time, disciplinary segregation, loss of privileges for specific periods, demotion in custody grade, extra work duties, or reprimand. Minor infractions shall be punishable by loss of privileges for specific periods, demotion in custody grade, extra work duties, or reprimand, but not by loss of accrued good behavior time or disciplinary segregation. A prisoner charged with infraction of conduct rules shall receive notice of the charge and be afforded a hearing. The provisions of this section shall not apply to persons convicted of Class A or Class B felonies.

(c) Within 30 days of a convicted felon's entry into prison or jail to serve his sentence, the Department of Correction or jailer shall inform him in writing of the date on which he will be released if he receives the maximum amount of time off for good behavior under subsection (b) of this section, and of the date on which he will be released if he receives no such credit for good behavior.

(d) A prisoner committed to the Department of Correction or a jail to serve a sentence imposed for a felony is eligible for re-entry parole as provided by Article 85A of Chapter 15A of the General Statutes, and, if sentenced as a committed youthful offender, to parole as provided by Articles 3B and 4 of Chapter 148 of the General Statutes.

this issue as a matter of right but may petition the appellate division for review of this issue by writ of certiorari."

The Administrative Procedure Act as contained in Chapter 150A of the General Statutes shall not apply in any case of revocation or termination of any agency to issue certificates of boat number and validation decals. Findings and policy.—The General Assembly finds that the administration of criminal justice is of statewide concern, and that proper administration is important to the health, safety and welfare of the people of the State and is of such nature as to require education and training of a professional nature. It is in the public interest that such education and training be made available to persons who seek to become criminal justice officers, persons who are serving as such officers in a temporary or probationary capacity, and persons already in regular service.

However, those individuals who are elected or appointed

This exemption shall not apply to relevant subordinate personnel of these constituted officials.

The information may be divulged whether or not such information was contained in a personnel file maintained by a State or by a local government agency.

"§ 17A-10. Required standards.—(a) Criminal justice officers shall not be required to meet any requirement of subsections (b) and (c) of this section as a condition of continued employment, nor shall failure of any such criminal justice officer to fulfill such requirements make him ineligible for any promotional examination for which he is otherwise eligible if the criminal justice officer held a permanent appointment prior to March 15, 1973, and is a sworn law enforcement officer with power of arrest; prior to January 1, 1974, and is a State adult correctional officer; prior to July 1, 1975, and is a State probation and parole officer; or prior to July 1, 1974, and is a youth correctional officer. The legislature finds, and it is hereby declared to be the policy of this Chapter, that such criminal justice officers have satisfied such requirements by their experience. It is the intent of the Chapter that all criminal justice officers employed at the entry level after the Commission has adopted the required standards shall meet the requirements of this Chapter. If any criminal justice officer exempted from the required standards by this provision fails to serve as a criminal justice officer for a 12-month period, said officer shall be required to comply with the required standards established by the Commission pursuant to the authority otherwise granted in this section.

(b) The Commission shall provide, by regulation, that no person shall be appointed as a criminal justice officer at entry level, except on a temporary or probationary basis, unless such person has satisfactorily completed an initial preparatory program of training at a school certified by the Commission. Upon separation of a criminal justice officer from a criminal justice agency within the year of temporary or probationary appointment, the probationary certification shall be terminated by the Commission. Upon the reappointment to the same agency or appointment to another criminal justice agency of an officer who has separated from an agency within the year of probation, the officer shall be charged with the amount of time served during his initial appointment and allowed the remainder of the one year probationary period to complete the basic training requirement. Upon the reappointment to the same agency or appointment to another agency of an officer who has separated from an agency within the year of probation and who has remained out of service for more than one year from the date of separation, the officer shall be allowed another one-year period to satisfy the basic training requirement. Any criminal justice officer appointed on a temporary or probationary basis who does not comply with the training provisions of this Chapter within one year shall not be authorized to exercise the powers of a criminal justice officer and shall not be authorized to exercise the power of arrest.

(c) In addition to the requirements of subsection (b) of this section, the Commission, by rules and regulations, shall fix other qualifications for the
employment and retention of criminal justice officers including minimum age, education, physical and mental standards, citizenship, good moral character, experience, and such other matters as relate to the competence and reliability of persons to assume and discharge the responsibilities of criminal justice offices, and the Commission shall prescribe the means for presenting evidence of fulfillment of these requirements.

Where minimum educational standards are not met, yet the individual shows potential and a willingness to achieve the standards by extra study, they may be waived by the Commission for the reasonable amount of time it will take to achieve the standards required.

(d) The Commission may issue a certificate evidencing satisfaction of the requirements of subsections (b) and (c) of this section to any applicant who presents such evidence as may be required by its rule and regulations of satisfactory completion of a program or course of instruction in another jurisdiction equivalent in content and quality to that required by the Commission for approved criminal justice education and training programs in this State.

“§17A-11. Injunctions authorized.—The Commission is hereby authorized to bring a civil action in the county of the residence of the alleged violation against any criminal justice agency which numbers among its employed or appointed criminal justice officers any criminal justice officer who fails to meet the required standards established by the Commission pursuant to G.S. 17A-10 of this Chapter to enjoin such criminal justice agency from allowing such criminal justice officer to perform any and all criminal justice officer functions, including exercising the power of arrest, until such time as such criminal justice officer shall comply with the required standards established by the Commission pursuant to G.S. 17A-10 of this Chapter.

“§17A-12. e. employment offices that charge no fee to the applicant other than union dues or to the employer and which are used solely for the hiring of employees under a valid union contract by the employer subscribing to this contract;

(17) 'Refer' an applicant means to submit resumes to an employer, arrange interviews between an applicant and an employer, or to provide an employer with the name of an applicant.

"§ 95-38. License required.—(a) No person shall open, keep, maintain, own, operate or carry on a private personnel service unless the person has first procured a license therefor as provided in this Article.

(b) An application for license shall be made to the Commissioner. If the private personnel service is owned by an individual, the application shall be made by that individual; if the service is owned by a partnership, the application shall be made by all partners; if the service is owned by a corporation, the application shall be made by all stockholders who own at least twenty percent (20%) of the issued and outstanding voting stock of the corporation, or if the service is owned by an association, society, or corporation in which no one individual owns at least twenty percent (20%) of the issued and outstanding voting stock, the application shall be made by the president, vice-president, secretary and treasurer of the owner, by whatever title designated. The application shall state the name and address of the individual who is responsible for the direction and operation of the placement activities of the private personnel service whether that individual be one of the applicants or another person; whether or not that individual has ever been employed in a private personnel service; the name and address of each of the license applicant's prior employers during the five years immediately preceding the license application; and such other information relating to the good moral character of that individual as the Commissioner may require. No change in such persons shall take place without prior notification to the Commissioner.

(c) Each application for license shall be in writing and in the form prescribed by the Commissioner, and shall state truthfully the name under which the business is to be conducted; the street and number of the building or place where the business is to be conducted.

(d) Upon the receipt of an application for a license the Commissioner:

(1) shall publish a notice of the pending application in a newspaper of general circulation in the area of the proposed location of the employment agency and may publish the notice in a newspaper of general circulation in each area in which the applicant (or if a corporation, the president and majority shareholder) has resided during the five years preceding the time of the application. The notice shall include a statement informing individuals of their right to protest the issuance of a license by filing within 10 days written comments with the Commissioner. The protest shall be in writing and signed by the person
filing the protest or by his authorized agent or attorney, and shall state reasons why the license should not be granted. Upon the filing of a protest, the Commissioner, if he determines the protest to be of such a nature that a hearing should be conducted and that the protest is for a cause on which denial of a license may properly be based, shall appoint a time and place for a hearing on the application and shall give at least seven days' notice of that time and place to the license applicant and to the person filing the protest. The hearing shall be conducted in accordance with the provisions of the rules of the Administrative Procedure Act;

(2) shall investigate the character, criminal record and business integrity of each applicant for agency license and shall investigate the criminal records of all persons listed as agency owners, officers, directors or managers. The applicant and all agency owners, officers, directors and managers shall assist the department in obtaining necessary information by authorizing the release of all relevant information;

(3) upon completion of the investigation, or 30 days after the application was received, whichever is later, but in no case more than 45 days after the application was received, shall determine whether or not a license should be issued. The license shall be denied for any of the following reasons:

a. if the applicant for agency license, or the president or majority shareholder of a corporate applicant, omits or falsifies any material information asked for in the application and required by the Commissioner;

b. if any owner, officer, director or manager of the employment agency:

I. has been convicted in any state of the criminal offense of embezzlement, obtaining money under false pretenses, forgery, conspiracy to defraud or any similar offense involving fraud or moral turpitude;

II. was an owner, officer, director or manager of an employment agency or other business whose license was revoked or that was otherwise caused to cease operation by action of any State or federal agency or court because of violations of law or regulation relating to deceptive or unfair practices in the conduct of business;

III. as an owner or manager of an employment agency or other business or as an employment counselor was found by any State or federal agency or court to have violated any law or regulation relating to deceptive or unfair practices in the conduct of business; or

IV. in any other demonstrable way engaged in deceptive or unfair practices in the conduct of business;

c. if the employment agency will be operated on the same premises as a loan agency (as defined in G.S. 105-88) or collection agency (as defined in G.S. 66-42).

(e) If it appears upon the hearing or from the inspection, examination or investigation made by the Commissioner that the owners, partners, corporation, officers or the agency manager are not persons of good moral character or that the license applicant has not complied with the provisions of this Article, the application shall be denied and a license shall not be granted. The Commissioner shall find facts to substantiate his denial of the issuance of a
Each application shall be granted or refused within 30 days from the date of its filing, or if a hearing is held, within 45 days. Any license heretofore or hereafter issued shall expire 12 months from the date of its issuance, and shall be renewed as hereinafter provided unless sooner revoked by the Commissioner.

(f) No license shall be granted to a person to operate as a private personnel service where the name of the business is similar or identical to that of any existing licensed business (except where a franchiser has licensed two or more persons to use the same name within the State) or directly or indirectly expresses or connotes any limitation, specification or discrimination contrary to current State or federal laws against discrimination in employment.

(g) Every license shall contain the name of the person licensed and shall designate the city in which the license is issued, the name of the manager and date of the license. The license shall be displayed in a conspicuous place in the area where job applicants are received by the agency.

(h) A license granted as provided in this Article shall not be valid for any person other than the person to whom it is issued or for any place other than that designated in the license and shall not be assigned or transferred without the consent of the Commissioner, whose consent must be based on the standards contained in this Article. Applications for consent to assign or transfer shall be made in the same manner as an application for a license, and all the provisions of this Article shall apply to applications for consent. The location of a private personnel service shall not be changed without notice to the Commissioner, and any change of location shall be endorsed upon the license. A person who has obtained a license in accordance with the provisions of this Article may apply for additional licenses to conduct additional private personnel services in accordance with the provisions of this Article. The manner of application, and the conditions and terms applicable to the issuance of the additional licenses shall be the same as for an original license. The same agency manager may be designated in all such licenses.

(i) Temporary license. If ownership of a licensed private personnel service is transferred, the department shall issue a temporary license to any new owner or successor if it appears to the department that issuance of such a license would serve the public interest. A temporary license shall be effective for a period of 90 days and shall not be renewed.

(j) Each licensee shall, before the license is issued or renewed, deposit with the department a bond payable to the State of North Carolina and executed by a surety company duly authorized to transact business in the State of North Carolina in the amount of five thousand dollars ($5,000) and upon condition that the private personnel service will pay to applicants all refunds due under this Article and regulations adopted hereunder if the private personnel service terminates its business.

"§ 95-39. Fees and contracts, filing with Commissioner.—(a) Every license applicant shall file with the Commissioner a schedule of fees or charges made by the private personnel service to applicants for employment for any services rendered, stating clearly the conditions under which the private personnel service refunds or does not refund a fee, together with all rules or regulations that may in any manner affect the fees charged or to be charged for any service. Changes in the schedule may be made, but no change shall become effective until seven calendar days after the filing thereof with the Commissioner. It is
unlawful for a private personnel service to charge, demand, collect or receive a greater compensation from an applicant for employment for any service performed than as specified in the schedule filed with the Commissioner.

(b) Every license applicant shall file with the Commissioner a copy of the contract which the private personnel service will require applicants for employment to execute.

"§ 95-39.1. Contracts.—(a) A contract between a private personnel service and an applicant shall be in writing, labeled as a contract, physically separate from any application and made in duplicate. One copy shall be given to the applicant and the other shall be kept by the private personnel service as required by G.S. 95-39.2(2).

(b) Any contract that obligates an applicant to pay a fee to the private personnel service shall include:

1. the name, address and telephone number of the private personnel service;
2. the name of the applicant;
3. the date the contract was signed;
4. a clear schedule of the fees to be charged to the applicant at various salary levels;
5. a clear explanation of when the applicant becomes obligated to pay a fee;
6. a clear refund policy (or no refund policy) that conforms to the requirements of G.S. 95-39.1(f) and (g);
7. if the applicant is obligated whether or not the applicant accepts employment, a clear explanation of the services provided and a statement that the private personnel service does not guarantee that the applicant will obtain employment as a result of its services;
8. a statement, in a type size no smaller than nine point, directly above the place for the applicant’s signature, that reads as follows: 'I have read and received a copy of this CONTRACT, which I understand makes me legally obligated to pay a fee under conditions outlined below.' In the preceding statement the word ‘CONTRACT' and no others shall be in all capitals; and
9. a statement that the private personnel service is licensed and regulated by the Commissioner and the address at which a copy of laws and regulations governing private personnel services may be obtained.

(c) A copy of each contract form to be used with applicants shall be filed with the Commissioner. Until the private personnel service receives written notification from the Commissioner that the form conforms to the requirements of this Article and regulations adopted hereunder, it shall not be used with applicants.

(d) A private personnel service shall not require an applicant to sign a contract with the private personnel service before the applicant has had an opportunity to read the contract and discuss the contract with an employee of the personnel agency who regularly arranges contacts and assists in negotiations between employers and applicants. A private personnel service shall not coerce an applicant into signing a contract by applying or using duress, undue influence, fraud or misrepresentation sufficient to invalidate the contract under North Carolina law.
(e) Any contract that obligates an applicant to pay a fee to the private personnel service when the applicant accepts employment shall be physically separate from any contract that obligates an applicant to pay a fee whether or not the applicant accepts employment. A private personnel service shall not require an applicant to sign one contract as a prerequisite to signing another contract or to pay a fee as a prerequisite to signing a contract. Express violations of this subsection are the following:

(1) refusal to allow an applicant to contract for counseling, job information or resume writing services, if the applicant does not agree to pay an additional fee upon acceptance of employment; and

(2) refusal to allow an applicant to contract for services which obligate the applicant only upon acceptance of employment, if the applicant does not agree to pay a registration fee or to contract for counseling, resume writing or other services.

(f) If a private personnel service has a refund policy, included on each contract that obligates an applicant upon acceptance of employment will be a statement defining:

a. the length of the period of time covered by the refund policy;
b. the exact manner of computing the refund so that the amount of refund due the applicant will be clear;
c. the conditions under which a refund becomes due to the applicant. The conditions of the refund, if other than unconditional policy is used, shall contain a definition of the reasons for which a refund will not be made. A refund will not be denied except for a reason so stated in the definition of the contract;
d. a personnel service shall abide by the refund policy stated on its contract by promptly paying to applicants any refund due under the terms of the contract.

(g) If a private personnel service has no refund policy, the private personnel service shall include on each contract that obligates an applicant upon acceptance of employment, in a type size no smaller than nine point, a statement that reads as follows:

___________(name of private personnel service) will make NO REFUND under any circumstances of fees paid by the applicant.' In the preceding statement the words NO REFUND and no others shall be in all capitals.

"§ 95-39.2. Records.—Every private personnel service shall maintain for a period of two years, the following records:

(1) job orders or job specifications.
(2) executed applicant contracts.
(3) information on all placements made, including the employer's name and address; name and address of applicant placed; salary of the position; amount of fee charged; and refunds, where applicable.

"§ 95-40. Prohibited acts.—A private personnel service shall not engage in any of the following activities or conduct:

(1) induce or attempt to induce any employee placed by that private personnel service to terminate his employment in order to obtain other employment through the private personnel service; or procure or attempt to procure the discharge of any person from his employment.
(2) publish or cause to be published any false or fraudulent information, representation, promise, notice or advertisement.

(3) advertise in newspapers or otherwise, unless the advertising contains the name of the private personnel service and the word 'personnel service'.

(4) direct an applicant to visit or call upon an employer for the purpose of obtaining employment without having first obtained a job order or authorization from the employer for the interview. A private personnel service may attempt to sell the services of an applicant to an employer from whom no job order has been received and may charge a fee if the efforts result in the applicant's being employed.

(5) send or cause to be sent any person to any employer where the private personnel service knows that the prospective employment is or would be in violation of State or federal laws governing minimum wages or child labor, or has been notified that a labor dispute is in progress, without notifying the applicant of that fact, or knowingly arrange an interview for an employment or occupation prohibited by law.

(6) send or cause to be sent any person to any place which the private personnel service knows is maintained for immoral or illicit purposes.

(7) divide or share, either directly or indirectly, the fees collected by the private personnel service, with contractors, sub-contractors, employers or their agents, foremen or anyone in their employ, or if the contractors, sub-contractors or employers be a corporation, any of the officers, directors or employees of the corporation to whom applicants for employment are sent.

(8) make, cause to be made, or use any name, sign or advertising device bearing a name which is similar to or may reasonably be confused with the name of a federal, State, city, county or other governmental unit or agency.

(9) knowingly make any false or misleading promise or representation or give any false or misleading information to any applicant or employer in regard to any employment, work or position, its nature, location, duration, compensation or the circumstances surrounding any employment, work or position including the availability thereof.

(10) accept a registration fee from an applicant.

(11) impose or attempt to collect any fee from any applicant unless that applicant accepts employment with an employer to which the applicant was directly or indirectly introduced by the private personnel service.

(12) a fee may be charged for resume writing provided the private personnel service does not require the applicant to become obligated for any other services.

"§95-41. Personnel Service Advisory Council.—(a) There is hereby established the North Carolina Private Personnel Service Advisory Council. The council shall be composed of 12 members appointed by the Commissioner. Each member of the council shall be domiciled in this State for at least three years immediately preceding his appointment and be of good moral character. At least five members shall have occupied for at least three years immediately preceding their appointment, and shall occupy at the time of appointment, executive or managerial positions in the private personnel service industry in North Carolina; and at least three shall have occupied, for at least three years immediately preceding their appointment, executive or managerial positions as personnel officers in companies which regularly utilize the services of private
personnel services in obtaining employees. Members of the council shall serve without salary.

(b) Each member of the council shall hold office until the appointment and qualification of his successor. The terms of the initial members of the council shall expire as follows: four members, July 1, 1980; four members, July 1, 1981; four members, July 1, 1982. Subsequent appointments shall be made for terms of three years. Vacancies occurring in the membership of the council for any cause shall be filled by appointment for the balance of the unexpired term. The Commissioner may remove any member of the council for misconduct, incompetency, neglect of duty, or other good cause.

(c) The council shall meet at least once in each calendar quarter of each year. All meetings of the council shall be open and public and all records of the council shall be open to inspection, except as otherwise prescribed by law. Seven members shall constitute a quorum for the transaction of business. The council shall elect from its members, each for term of one year, a chairman and vice-chairman, and may appoint such committees as it deems necessary to carry out its duties. The Commissioner or his designee shall serve ex officio as the secretary of the council, but shall not be a member of the council.

“§ 95-41.1. Duties of Personnel Service Advisory Council.—The Advisory Council shall:

(1) Inquire into the nature of the private personnel service industry, and make such recommendations as may be deemed important and necessary for the welfare of the citizens of the State, the public health and welfare and the progress of the private personnel service industry.

(2) Confer and advise with the Commissioner in regard to how private personnel services may best serve the State, the public and the private personnel service industry.

(3) Assist the Commissioner in the formulation, adoption, amendment or repeal of any rules or regulations authorized by this Article. Both the Commissioner and a majority of a properly constituted quorum of the Advisory Council must review any such rules or regulations, or amendments or repeals thereof, before they become effective.

(4) Collect such necessary information and data as the council deems necessary to the proper administration of this Article.

(5) Consider and make recommendations to the Commissioner with respect to all matters relating to the private personnel service industry in the State, including, but not limited to, applicants for licenses and complaints against private personnel services.

(6) Publish findings and make such recommendations as the council may deem necessary to the Commissioner.

“§ 95-42. Enforcement.—(a) This Article shall be enforced by the Commissioner. The Commissioner or any duly authorized agent, deputies or assistants designated by the Commissioner, may upon receipt of a complaint that a private personnel service has violated a specific section of this Article, inspect those records relevant to the complaint which this Article requires the private personnel service to retain. The Commissioner may also subpoena those records and witnesses and may conduct investigations of any employer or other person where the Commissioner has reasonable grounds for believing that the employer or person has conspired or is conspiring with a private personnel service to violate this Article.
(b) The Commissioner may make reasonable administrative rules within the standards set in this Article. Before such rules are presented to the Advisory Council, the Commissioner shall conduct a public hearing, giving due notice thereof to all interested parties and shall afford the opportunity for written comments. No rule shall become effective until 60 days after the public hearing and Advisory Council approval, and copies thereof shall be furnished to all private personnel services at least 30 days prior to the effective date of the rule.

(c) Complaints against any licensed person shall be made in writing to the Commissioner, or be sent in affidavit form without a personal appearance of the complainant. If the complaint alleges a violation of this Article, the Commissioner shall cause an investigation to be made. If, as a result of the investigation, the Commissioner has reason to believe that a material violation of this Article has been committed by a private personnel service, the Commissioner may hold a hearing. Reasonable notice thereof, not less than 10 days, shall be given in writing to the licensed person involved by serving upon him either personally, by registered or certified mail, or by leaving the same with the manager, a copy of the complaint. A hearing shall be held before the Commissioner with reasonable promptness but in no event later than 30 calendar days from the date of the filing of the complaint. The Commissioner, when investigating any matters pertaining to the granting, issuing, transferring, renewing, revoking, suspending or cancelling of any license may take such testimony as he deems necessary on which to base official action. When taking such testimony he may subpoena witnesses and also direct the production before him of necessary and material books and papers. A daily calendar of all hearings shall be kept by the Commissioner and shall be posted in a conspicuous place in his public office for at least one day before the date of the hearings. The Commissioner shall render his decision within eight calendar days from the date of the completion of the hearing. The Commissioner shall keep a record of all such complaints and hearings.

(d) If at the hearing conducted pursuant to subsection (c) of this section, it has been shown that the private personnel service or any employee of that personnel service is guilty of violating the provisions of this Article, the Commissioner may issue warnings, or levy a fine against the personnel service which shall not exceed two hundred and fifty dollars ($250.00), and, for repeated willful violations, may suspend or revoke the license of the personnel service. Whenever the Commissioner suspends or revokes the license of any private personnel service, or levies a fine against a service, the determination is subject to judicial review in proceedings brought pursuant to the Administrative Procedure Act. Whenever a license is revoked, another license shall not be issued to the same person within three years from the date of the revocation. The Commissioner, Deputy Commissioner, or Director, Private Personnel Service Division may conduct hearings and act upon applications for licenses, and may revoke or suspend such licenses, or levy fines.

(e) Any person who operates as a private personnel service without first obtaining the appropriate license (1) shall be guilty of a misdemeanor and upon conviction shall be subject to a fine not to exceed two thousand dollars ($2,000), or imprisonment for not more than one year, or both, by any court of competent jurisdiction; and (2) be subject to a civil penalty of not less than fifty dollars ($50.00) nor more than one hundred dollars ($100.00) for each day the private personnel service operates without a license, the penalty not to exceed a total of
two thousand dollars ($2,000). Actions to recover civil penalties shall be initiated by the Attorney General and any such penalties collected shall be deposited to the General Fund.

"§ 95-43. Power of Commissioner to seek injunction.—The Commissioner may apply to courts having jurisdiction for injunctions to prevent violations of this Chapter or of rules issued pursuant thereto, and such courts are empowered to grant such injunctions regardless of whether criminal prosecution or other action has been or may be instituted as a result of such violation. A single act of unauthorized or illegal practice shall be sufficient, if shown, to invoke the injunctive relief of this section or criminal or civil penalties under G.S. 95-42(e).

"§ 95-44. Government employment agencies unaffected.—This Article shall not in any manner affect or apply to the State of North Carolina, the government of the United States, or to any city, county or town, or any agency of any of those governments.

"§ 95-44.1. License taxes placed upon agencies not affected.—This Article is not intended to conflict with or affect any license tax placed upon private personnel services by the revenue laws of North Carolina, but instead shall be construed as supplementary thereto in exercising the police powers of the State.

"§ 95-45. Severability.—If any provision of this Article or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications, and to this end the provisions of this Article are severable."

(5) employment offices that charge no fee to the applicant other than union dues and which are used solely for the hiring of employees under a valid union contract by the employers subscribing to this contract.

“§ 95-46.1. License required.—No person shall operate a job listing service in North Carolina without first obtaining a license from the Commissioner. A job listing service shall have a separate license for each location at which it maintains an office.

“§ 95-46.2. Violation of this Article, criminal and civil penalty.—Any person who violates the provisions of this Article by operating a job listing service without a valid license from the Commissioner shall be subject, under current regulations adopted pursuant to this Article, to criminal and civil penalties in the same amount and under substantially the same procedure as that provided under G.S. 95-42(e) for a person operating a private personnel service.

“§ 95-46.3. Licensing procedure.—The procedure, under regulations adopted prior to this Article, for the issuance, denial and renewal of job listing service licenses and other aspects of the licensing of job listing services by the Commissioner shall be substantially the same as that provided under Article 5 of this Chapter for the licensing of private personnel services.

“§ 95-46.4. Enforcement.—Under regulations adopted pursuant to this Article, a job listing service may be issued a warning, citation or notice of violation, or may have its license revoked or suspended, or its licensee reprimanded, censured or placed on probation in substantially the same manner and under substantially the same procedure as that provided for a private personnel service under Article 5 of this Chapter.

“§ 95-46.5. Certain practices prohibited.—Under regulations adopted pursuant to this Article, a job listing service shall abide by provisions substantially the same as those provided under G.S. 95-40(7) (kickbacks), G.S. 95-40(9)(misrepresentation), G.S. 95-38(d)(3)c. “§ 95-46.6. Contracts.—A contract between a job listing service and an applicant shall be in writing, labeled as a contract, physically separate from any application form and made in duplicate, and shall include:

1. a clear explanation of the services provided and the amount of the fee;
2. in a type size no smaller than nine point, a statement that reads ‘I understand that ______(name of job listing service) does not guarantee that I will obtain employment through its services. I understand that ______(name of job listing service) does not refund fees for any reason,’ unless the job listing service agrees in the contract to refund to the applicant any fee the applicant paid to the job listing service if within three months of paying such a fee the applicant has not accepted an employment position listed in a publication of the job listing service;
3. a statement that the job listing service is not a private personnel service or employment agency, that no additional fee will be charged to the applicant upon acceptance of employment and that the job listing service will not set up interviews or otherwise arrange direct contacts between an employer and the applicant; and
4. a statement that the job listing service is licensed and regulated by the Commissioner and the address at which a copy of regulations governing job listing services may be obtained.
A copy of each contract form to be used with applicants shall be filed with the Commissioner. Until the job listing service receives written notification from the Commissioner that the form conforms to the requirements of this Article and regulations adopted hereunder, it shall not be used with applicants. A job listing service shall not accept a fee from any applicant before the applicant has read and received a copy of the contract.

"§ 95-46.7. Advertising and publication.—(a) In conducting any form of advertising, a job listing service shall identify itself by its business name and identify itself as a job listing service by using in the name or elsewhere in the advertising the term ‘job listing service’.

(b) Prior to advertising or publishing information about an available job, a job listing service shall receive a job order and shall record the job order, the date it was received and the name of the employer representative or other business who gave the job order to the job listing service. No description or representation of an employment position shall be stated in any advertising or other publication, unless the information is included on the recorded job order for the position. Information about a single employment position shall not be used in more than one advertisement or listing in a single issue of any publication.

(c) A job listing service shall not publish or cause to be published any information which it knows or reasonably ought to know is false or deceptive or which it has no reasonable basis for believing to be true.

(d) In conducting any form of advertising, a job listing service shall not use the term ‘no fee’ or any other term indicating that applicants will not be financially obligated to the job listing service.

"§ 95-46.8. Fee receipts.—A job listing service shall give every applicant from whom payment is received a receipt stating the name and address of the job listing service, the name of the applicant, the date and the amount of the payment.

"§ 95-46.9. Prohibited job listings.—A job listing service shall not publish information about a position of employment with an employer that the job listing service knows or has reason to know:

(1) has included false information in the job order; or
(2) has a strike or lockout at its business, unless the applicant is so informed in the publication; or
(3) is engaging in unlawful or immoral activity; or
(4) is in financial or other difficulty likely to lead to imminent cessation of operation, unless the applicant is so informed in the publication; or
(5) is an employer in which the job listing service or any owner of the job listing service has a financial interest greater than ten percent (10%), unless the applicant is so informed in the publication.

"§ 95-46.10. Records of the job listing service.—Each job listing service shall maintain and make available for inspection by the Commissioner the following records of the operation of the job listing service for the 18 months immediately preceding:

(1) the job listing service’s copies of all contracts executed with applicants;
(2) copies of all fee receipts;

each position advertised or listed, and records of the dates advertisements were run on publications issued; and

(4) any records required by the Commissioner under regulations adopted pursuant to this Article.

"§95-46.11. Administration of this Article.—This Article shall be enforced under the general supervision of the Commissioner, who shall have the same powers and duties in the enforcement of this Article as in the enforcement of Article 5 of this Chapter.

§95-46.12. Review of job listing services.—After the Commissioner receives written statements from two or more applicants complaining that the applicant failed to obtain employment as a result of the services of a job listing service, the Commissioner may contact other applicants who have paid a fee to the job listing service for the purpose of determining what percentage of such applicants obtain employment as a result of the services of the job listing service. After gathering information from such applicants and following the requirements of due process, the Commissioner shall place the survey results in the public records.

"§95-47. Severability.—If any provision of this Article or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications, and to this end the provisions of this Article are severable."

Sec. 3. G.S. 143-34.11 is amended by deleting line 25 of the section which reads as follows:

"Chapter 95, Article 5, entitled 'Regulation of Employment Agencies'."

Sec. 4. Effective date. This Article shall become effective on July 1, 1979, and shall apply to all employment agencies operating on or after that date. Any agency license issued by the department prior to that date shall remain in full force and effect under the terms of the license until the first anniversary date of the issuance of the license following July 1, 1979, at which time the license shall be renewed under procedures established by the department, unless the department finds that the agency has not substantially complied with the laws and regulations governing employment agencies in North Carolina and that the agency licensee is not of a character likely to abide by this Article and regulations adopted hereunder.

In the General Assembly read three times and ratified, this the 5th day of June, 1979.

§ 130-166.43. Drinking Water Regulations.—(a) The Commission shall promulgate and the Secretary shall enforce Drinking Water Regulations to regulate water systems within the State which supply drinking water to the public insofar as the water furnished may affect the public health.

(b) Such regulations shall:

1. specify contaminants which may, in the Commission's judgment, have an adverse effect on the public health;
2. specify for each contaminant either:
   a. a maximum contaminant level which is acceptable in water for human consumption, if it is feasible to establish the level of such contaminant in water in public water systems; or
   b. one or more treatment techniques which lead to a reduction in the level of such contaminants sufficient to protect the public health, if it is not feasible to establish the level of such contaminants in water in a public water system; and
(3) establish criteria and procedures to assure a supply of drinking water which dependably complies with maximum contaminant levels and treatment techniques as determined in paragraph (2). Such regulations may provide for:

a. the minimum quality of raw water which may be taken into a public water system;
b. a program of laboratory certification;
c. monitoring and analysis;
d. record-keeping and reporting;
e. notice of noncompliance, failure to perform monitoring, variances and exemptions;

k. such additional criteria and procedures as may be required to carry out the purposes of this Article.

(c) The Drinking Water Regulations may be amended from time to time as necessary to be in accordance with required federal regulations.

"§ 130-166.44. Department of Human Resources to control and examine waters.—The Department shall cause to be made examination of all waters and their sources and surroundings which are used as, or proposed to be used as, sources of public water supply, and the Department shall ascertain whether the same are suitable for use as public water supply sources.

"§ 130-166.45. Submission and approval of public water system plans; Department to provide advice.—(a) The Department shall advise all persons and units of local government locating, constructing, altering or operating or intending to locate, construct, alter, or operate a public water system of the most appropriate source of water supply and the best practical method of purifying such water, having regard to the present and prospective needs and interests of other persons and units of local government which may be affected thereby. The Department shall also advise concerning accepted engineering practices in the location, construction, alteration, and operation of public water systems.

(b) All persons and units of local government constructing or altering a public water system shall give prior notice thereof and submit plans, specifications, and other information therefor to the Department. The Commission shall promulgate rules and regulations providing for the amount of prior notice required to be given and the nature and detail of the plans, specifications, and other information required to be submitted. The Commission shall take into consideration the complexity of the construction or alteration which may be involved and the resources of the Department to review the plans, specifications, and other information. The Department shall review the plans, specifications, and other information and notify the person, Utilities Commission, and unit of local government of compliance or lack thereof with applicable law and rules and regulations of the Commission.
(c) No person or unit of local government shall begin construction or alteration of a public water system or award a contract for construction or alteration unless

1. The plans for such construction or alteration have been prepared by an engineer licensed by the State of North Carolina;
2. The Department has determined that such system, as constructed or altered, will be capable of compliance with the Drinking Water Regulations;
3. The Department has determined that the system is capable of interconnection at an appropriate time with an expanding municipal, county, or regional system;
4. The Department has determined that adequate arrangements have been made for the continued operation, service and maintenance of the public water system; and
5. The Department has approved the plan.

§130-166.46. Disinfection by public water systems.—(a) The Department is hereby authorized to require disinfection by

1. All public water systems introduced on or after January 1, 1972, and
2. All public water systems, regardless of the date introduced, whenever
   a. The maximum microbiological contaminant level is exceeded, or
   b. Conditions exist which make continued use of the water potentially hazardous to health.

(b) Public water systems shall employ disinfection methods and procedures approved by the Department.

§130-166.47. Condemnation of lands for public water systems.—All units of local government operating public water systems and all water companies operating under franchise from the State or units of local government, may acquire by condemnation such lands and rights in lands and water as are necessary for the successful operation and protection of their systems. Condemnation proceedings under this section shall be the same as prescribed by law under Chapter 40 of the General Statutes of North Carolina.

§130-166.48. Sanitation of watersheds rules.—(a) The Commission shall promulgate rules and regulations governing the sanitation of watersheds from which public drinking water supplies are obtained. In promulgating such regulations the Commission is authorized to consider the different classes of watersheds, taking into account general topography, nature of watershed development, density of population and need for frequency of sampling of raw water. The regulations shall govern the keeping of livestock, operation of recreational areas, maintenance of residences and places of business, disposal of sewage, establishment of cemeteries or burying grounds, and any other factors which would endanger the public water supply.

(b) Any person operating a public water system and furnishing water from unfiltered surface supplies shall have inspections made of the watershed area at least quarterly, and more often when, in the opinion of the Department, such inspections are necessary.

§130-166.49. Variances and exemptions.—(a) The Secretary may authorize variances from the Drinking Water Regulations.

(1) The Secretary may grant one or more variances to any public water system within the State from any requirement respecting a maximum
contaminant level of an applicable Drinking Water Regulation upon a finding that:

a. because of characteristics of the raw water sources reasonably available to the system, the system cannot meet the requirements respecting the maximum contaminant levels of the Drinking Water Regulations despite application of the best technology, treatment techniques, or other means, which the Secretary finds are generally available (taking costs into consideration); and

b. the granting of a variance will not result in an unreasonable risk to health when considering the population exposed, the projected duration of the requested variance, and the degree to which the maximum contaminant level is being or will be exceeded.

(2) The Secretary may grant one or more variances to any public water system within the State from any requirement of a specified treatment technique of an applicable Drinking Water Regulation upon a finding that the public water system applying for the variance has demonstrated that such treatment technique is not necessary to protect the health of persons because of the nature of the raw water source of such system.

(3) In consideration of whether the public water system is unable to comply with a contaminant level required by the Drinking Water Regulations because of the nature of the raw water sources, the Secretary shall consider such factors as the following:

a. the availability and effectiveness of treatment methods for the contaminant for which the variance is requested;

b. costs of implementing the best treatment(s) improving the quality of the raw water by the best means, or using an alternate source.

(4) In consideration of whether a public water system should be granted a variance from a required treatment technique because such treatment is unnecessary to protect the public health, the Secretary shall consider such factors as the following:

a. quality of the water source including water quality data and pertinent sources of pollution;

b. source protection measures employed by the public water system.

(b) The Secretary may authorize exemptions from the Drinking Water Regulations.

(1) The Secretary may exempt any public water system within the State from any requirement respecting a maximum contaminant level or any treatment technique requirement, or from both, of an applicable Drinking Water Regulation upon a finding that:

a. due to compelling factors (which may include economic factors), the public water system is unable to comply with such contaminant level or treatment technique requirement;

b. the public water system was in operation on the effective date of such contaminant level or treatment technique requirement; and

c. the granting of the exemption will not result in an unreasonable risk to health when considering the population exposed, the projected duration of the requested exemption, and the degree to which the maximum contaminant level is being or will be exceeded.
(2) In consideration of whether the public water system is unable to comply due to compelling factors, the Secretary shall consider such factors as the following:
   a. construction, installation, or modification of treatment equipment or systems;
   b. the time needed to put into operation a new treatment facility to replace an existing system which is not in compliance;
   c. economic feasibility of immediate compliance.

(c) As a condition of issuance of either a variance or an exemption, the Secretary shall require that the public water system adhere to a schedule of compliance, including increments of progress, with each Drinking Water Regulation for which the variance or exemption was issued. As a further condition of the variance or exemption, the Secretary shall require implementation by the public water system of such control measures as the Secretary deems necessary, during the period ending on the date of compliance with such requirement. The schedules of compliance must be prescribed within one year of the date the variance or exemption has been granted. The compliance schedule for an exemption shall require compliance as expeditiously as practical but no later than January 1, 1981, for the initial drinking water regulations, and no later than seven years after the date of revised Drinking Water Regulations setting new maximum contaminant levels or treatment techniques. Compliance dates can be extended two years if the public water supply has entered into an enforceable agreement to become part of a regional water system.

(d) The Secretary shall provide notice and opportunity for public hearing on proposed variances and proposed variance and exemption schedules.

"§ 130-166.50. Imminent hazard; power of the Secretary.—(a) An imminent hazard shall exist when in the judgment of the Secretary there exists a present or potential condition in a public water system which poses a serious, immediate risk to public health.

(b) In order to eliminate an imminent hazard, the Secretary may, without notice or hearing, issue an order requiring the person or persons involved to immediately take action necessary to protect the public health. A copy of the order shall be delivered by certified mail or personal service. Such order shall become effective immediately and shall remain in effect until modified or rescinded by the Secretary or by a court of competent jurisdiction.

"§ 130-166.51. Emergency plan for drinking water.—(a) The Secretary shall promulgate an adequate plan for the provision of drinking water under emergency circumstances. When in the judgment of the Secretary emergency circumstances exist in the State with respect to a need for drinking water, the Secretary may take such actions in accordance with the plan as the Secretary may deem necessary in order to provide drinking water.

(b) Emergency circumstances shall exist whenever the available supply of drinking water is inadequate.

"§ 130-166.52. Notice of noncompliance, failure to perform monitoring, variances and exemptions.—Whenever a public water system

(1) is not in compliance with the Drinking Water Regulations,

(2) fails to perform an applicable testing procedure or monitoring required by the Drinking Water Regulations,
CHAPTER 788  Session Laws—1979

(3) is subject to a variance granted for inability to meet a maximum contaminant level requirement,
(4) is subject to an exemption, or
(5) fails to comply with the requirements prescribed by a variance or exemption,
the supplier shall as soon as possible but not later than 48 hours after discovery notify the Department and give such public notification as may be prescribed by regulation.

§130-166.53. Prohibited acts.—The following acts are prohibited:
(1) failure by a supplier of water to comply with this Article, any order issued hereunder, or the Drinking Water Regulations;
(2) failure by a supplier of water to comply with the requirements of G.S. 130-166.52 or the dissemination by such supplier of any false or misleading information with respect to remedial actions being undertaken to achieve compliance with the Drinking Water Regulations;
(3) refusal by a supplier of water to allow an authorized representative of the Department or any local health department to inspect any public water system as provided for in G.S. 130-204;
(4) the willful defiling by any person of any water supply of a public water system or the willful damaging of any pipe or other part of a public water system;
(5) the discharge by any person of sewage or other waste above the intake of a public water system, unless the sewage or waste shall have been passed through a system of purification approved by the Department and the Department of Natural Resources and Community Development; and
(6) the failure by any person to maintain a system approved by the Department for collecting and disposing of all accumulations of human excrement located on the watershed of any public water system.

§130-166.54. Penalties; remedies; contested cases.—(a) The Department may impose an administrative, civil penalty in accordance with the Drinking Water Regulations, on any person who violates G.S. 130-166.52. Each day of a continued violation shall constitute a separate violation. Such penalty shall not exceed five thousand dollars ($5,000) for each day such violation continues.
(b) Any person wishing to contest a penalty or other order issued under this Article shall be entitled to an administrative hearing and judicial review conducted according to the procedures outlined in G.S. 150A-23 through 150A-52.
(c) The Secretary may bring a civil action in the Superior Court of the county in which the violation is alleged to have occurred to recover the amount of the administrative penalty whenever a supplier of water
(1) who has not requested an administrative hearing fails to pay the penalty within 60 days after being notified of such penalty, or
(2) who has requested an administrative hearing fails to pay the penalty within 60 days after service of a written copy of the decision as provided in G.S. 150A-36.
(d) In addition to any other remedies provided for in this section, the Secretary may institute a civil action in the Superior Court of the county in which the defendant in said civil action resides to prevent a threatened or continuing violation of any provision of this Article or any order or regulation issued pursuant to this Article.
"§ 130-166.55. Powers of the Secretary.—To carry out the provisions and purposes of this Article, the Secretary is authorized and empowered to:

(1) administer and enforce the provisions of this Article and all rules, regulations and orders promulgated hereunder;

(2) enter into agreements, or cooperative arrangements with, or participate in related programs of other states, other state agencies, federal or interstate agencies, units of local government, educational institutions, local health departments or other organizations or individuals;

(3) receive financial and technical assistance from the federal government and other public or private agencies;

(4) delegate those responsibilities and duties and designate agents as deemed appropriate for the purpose of administering the requirements of this Article;

(6) prescribe such policies and procedures as are necessary or appropriate to carry out the Secretary’s function under this Article; and

(7) collect fees to recover the costs of laboratory analysis as follows:

(c) The Commission for Health Services from time to time, upon its own motion or upon the request of a citizen of an affected county, may review its findings under subsection (b) of this section. Subject to such review, the Commission’s findings that local regulations meet the requirements of subsection (b) of this section shall be binding and conclusive.

(d) The relationship between State and local regulations concerning sanitary sewage disposal systems shall continue to be governed by G.S. 130-17 (b) except in those cases where local regulations have been reviewed and approved pursuant to subsection (b) of this section.”

S. B. 614  CHAPTER 798
AN ACT TO PROVIDE FOR CONVERSION OF MUTUALLY-OWNED SAVINGS AND LOAN ASSOCIATIONS TO STOCK-OWNED ASSOCIATIONS.

The General Assembly of North Carolina enacts:

Section 1. The final sentence of G.S. 54A-1 (which reads: "No mutual savings and loan associations shall be allowed to convert to a stock-owned savings and loan association under the provisions of this Chapter.") is repealed.

Sec. 2. A new G.S. 54A-13 is enacted to read as follows:

"§54A-13. Conversion of mutual savings and loan associations to stock-owned.—(a) Any mutual savings and loan association may convert from mutual to the stock form of ownership as provided in this section. Upon conversion such associations shall be stock-owned associations and shall be governed by the law which govern stock-owned associations.

(b) A mutual savings and loan association that wishes to convert to stock form may apply to the Administrator of the Savings and Loan Division for permission to convert and for certification of appropriate amendments to the association's certificate of incorporation. Upon receipt of an application to convert from mutual to stock form the Administrator shall examine into all facts connected with the requested conversion and, if conversion is duly approved, the Administrator shall monitor and supervise the conversion until completed. The expenses and cost of such examination, monitoring and supervision shall be paid by the association applying for permission to convert.

(c) Upon completion of his examination the Administrator shall report his findings to the Savings and Loan Commission. After hearing the findings of the Administrator and conducting such further examinations and investigations as it deems appropriate, the Commission may approve and permit the requested conversion if it appears that:

(1) After conversion the association will be in sound financial condition and will be safely and competently managed.
(2) The conversion will not impair the capital of the association or harm the association's ability to operate safely and properly.
(3) The conversion will be fair and equitable to the members of the association and no person whether member, employee or otherwise, will receive any inequitable gain or advantage by reason of the conversion.
(4) The savings and loan services provided to its community and to the public by the association will not be harmed by the conversion.
(5) The conversion will be conducted as provided by law and pursuant to a plan approved by the Administrator. The substance of the plan must be approved by a vote of two-thirds of the board of directors of the association; and, after lawful notice to the members of the association and full and fair disclosure, the substance of said plan must be approved by a majority of the total votes which members of the association are
eligible and entitled to cast. Such a vote by the members may be in
person or by proxy.

(6) The plan of conversion provides that:

a. All shares of stock issued in connection with the conversion are
offered first to the members of the association.
b. No person may acquire said stock except a natural person in exchange
for fair consideration approved by the Administrator in the form of
legal tender of the United States.
c. All stock shall be offered to members of the association and others in
prescribed amounts and otherwise pursuant to a formula and
procedure first found to be fair and equitable by the Administrator
and duly disclosed to all interested persons.
d. Members to whom stock will be offered and the amounts of stock
which will be offered shall be determined as of a date or dates fixed
by the Administrator.
e. At the time of the conversion, no person singularly or in combination
with his immediate family, may acquire ownership or control of more
than five percent (5%) of all the stock issued in connection with the
conversion.
f. At the time of the conversion, the total amount of stock issued in
connection with the conversion and acquired by officers and directors
shall not exceed twenty-five percent (25%) of the total number of
shares issued in connection with the conversion.
g. The Administrator shall not permit a completed conversion until the
entire offering of stock in connection with the conversion has been
subscribed.

(d) After approval of a requested conversion by the Commission, the
Administrator shall supervise and monitor the conversion process and he shall
ensure that the conversion is conducted pursuant to law and the association's
approved plan of conversion.

(e) Upon conversion of a mutual savings and loan association to the stock
form of ownership, the legal existence of the association shall not terminate but
the converted stock-owned association shall be a continuation of the mutual
association. The conversion shall be deemed a mere change in identity or form
or organization. All rights, liabilities, obligations, interest, and relations of
whatever kind of the mutual association shall continue and remain in the stock-
owned association. All actions and legal proceedings to which the association
was a party prior to conversion shall be unaffected by the conversion and
proceed as if the conversion had not taken place.

(f) The Administrator shall promulgate rules and regulations to govern
conversions; provided, however, that such rules and regulations as may be
promulgated by the Administrator shall be equal to or exceed the requirements
for conversion imposed by the rules and regulations governing conversions of
federal chartered mutual savings and loan associations of the Federal Home
Loan Bank Board as set forth in the Federal Register, Vol 44, No 62-Thursday,
March 29, 1979, entitled 'Part 563b Conversion From Mutual to Stock Form' as
these may be amended from time to time and other applicable rules and
regulations effective as of the date of ratification. No provision of this section is
to be interpreted to require Federal Savings and Loan Insurance Corporation
(FSLIC) insurance of accounts as a prerequisite to conversion. All State
chartered Savings and Loan Associations are to continue to be allowed to choose between FSLIC and a mutual deposit guaranty association authorized by the statutes of this State for insurance of accounts. Said rules and regulations shall implement the provisions of this section and provide procedures by which an association shall seek permission for a conversion and procedures for conducting conversions. Provided, however, the rules and regulations promulgated under this section shall apply equally to all converting associations and no converting association shall enjoy a competitive advantage over another type of converting association by reason of the rules and regulations governing its conversion; provided further, however, no association shall be required by the Administrator or by regulation to change the type of insurance it maintains on its withdrawable accounts by reason of this section.”

Sec. 3. No conversion shall be permitted pursuant to the terms of this act until the rules and regulations referred to herein are promulgated.

Sec. 4. No association shall be permitted to sell stock pursuant to a plan of conversion under the provisions of this act until such time as stock has been sold and issued pursuant to an approved plan of conversion by a federally chartered Savings and Loan Association in this State.

Sec. 5. Severability. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 6. This act shall become effective on January 1, 1980.

In the General Assembly read three times and ratified, this the 6th day of June, 1979.

CHAPTER 801

AN ACT TO PROVIDE TAX RELIEF FOR THE CITIZENS OF NORTH
CAROLINA.

Whereas, the citizens of North Carolina have suffered and are suffering,
due to inflation, a dramatic decrease in the purchasing power of the dollar; and
Whereas, the State income tax personal exemptions have not been raised
since 1921 and the inheritance tax has not been substantially amended since
1913; and
Whereas, the effect of inflation on the State taxes increases the tax burden
of North Carolina citizens each year; and
Whereas, this increased tax burden as a result of inflation offsets the increases in the wages and salaries that are necessary to keep up with the increase in consumer prices; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. This act shall be known as the “Revenue Act of 1979”.

Sec. 2. G.S. 7A-311(a)(1) is rewritten to read as follows:

“(1)(a) Effective July 1, 1979, for every civil action filed on or after that date, for each item of civil process, including summons, subpoenas, notices, motions, orders, units and pleadings served, three dollars ($3.00). When two or more items of civil process are served simultaneously on one party, only one three-dollar ($3.00) fee shall be charged. Effective July 1, 1981, for every civil action filed on or after that date, for each item of civil process, including summons, subpoenas, notices, motions, orders, writs and pleadings served, four dollars ($4.00). When two or more items of civil process are served simultaneously on one party, only one four-dollar ($4.00) fee shall be charged.

(b) When an item of civil process is served on two or more persons or organizations, a separate service charge shall be made for each person or organization. If the process is served, or attempted to be served, by a city policeman, the fee shall be remitted to the city rather than the county. If the process is served, or attempted to be served by the sheriff, the fee shall be remitted to the county. This subsection shall not apply to service of summons to jurors.”

Sec. 3. G.S. 15A-1343 is amended to add a new subsection (e) to read as follows:

“(e) Supervision fee. When any person is placed upon supervised probation, the court may require, as a condition of probation, that such person pay, during his probationary period, a monthly supervision fee of ten dollars ($10.00) to the clerk of superior court designated by the court. The probation officer shall not be required to collect the supervision fee. Any clerk of superior court receiving such a fee shall transmit this money to the State of North Carolina to be deposited in the General Fund. In no event shall a person placed upon supervised probation be required to pay more than one monthly supervision fee.”

In the case of property only a portion of which, during the five-year period ending on the date of the sale or exchange, has been owned and used by the taxpayer as his principal residence for periods aggregating three years or more, this subdivision shall apply with respect to so much of the gain from the sale or exchange of such property as is determined, under regulations prescribed by the Secretary of Revenue, to be
attributable to the portion of the property so owned and used by the taxpayer.

7. In the case of any sale or exchange, for purposes of this subdivision;
   I. the determination of whether an individual is married shall be made as of the date of the sale or exchange, and

In applying G.S. 105-144.1 (relating to involuntary conversions) and G.S. 105-144.2 (relating to sale or exchange of residence), the amount realized from the sale or exchange of property shall be treated as being the amount determined without regard to this subdivision, reduced by the amount of gain not included in gross income pursuant to an election under this subdivision.

9. If the basis of property sold or exchanged is determined (in whole or in part) under subsection (b) of G.S. 105-144.1 (relating to the basis of property acquired through involuntary conversion), then the holding and use by the taxpayer of the converted property shall be treated as holding and use by the taxpayer of the property sold or exchanged."

No adjustment to the basis of property shall be made for expenses deducted under this subdivision. The election under this subdivision for any taxable year shall be made within the time prescribed by law (including extensions thereof) for filing the return for the taxable year. (2) The Secretary of Revenue shall have authority to issue rules and regulations as to how claims shall be filed and the information that shall be submitted with said claims and the records required to support said claims.

(3) If, upon the filing of such application, the Secretary of Revenue shall be satisfied that the same is made in good faith and the motor fuels upon which such tax refund is requested have been or are to be used exclusively for purposes set forth in the application and for purposes other than the propulsion of a motor vehicle upon the public highways, he shall issue to such applicant a warrant upon the State Treasurer for the tax refund.

(4) If the Secretary of Revenue shall be satisfied that the applicant for any refund authorized by this section has collected or sought to collect any refund of tax or taxes on fuels used for the purpose of propelling a concrete mixer on the highways as distinguished from mixing concrete, he shall issue to such applicant notice to show cause why such application should not be disallowed, which notice shall state a time and place of hearing upon said notice. If, upon such hearing, the secretary shall find as a fact that such applicant has collected or sought to collect any refund on fuels which have been used to propel a vehicle on the highways, he shall disallow the application in its entirety and the applicant shall be required to pay all tax or taxes which have been refunded to him on said application.

(5) Any applicant for a refund may seek administrative review or appeal from the decision of the Secretary of Revenue under the provisions of G.S. 105-241.2, G.S. 105-241.3, and G.S. 105-241.4.

(6) The Secretary of Revenue shall authorize and direct, if at any time in his opinion there is reason to doubt the accuracy of the facts set forth in any application for tax refund, refer the matter to any agent of the Department of Revenue, and such person so designated shall make a careful investigation of all the facts and circumstances relating to said application in the use of the motor fuels therein referred to, and shall have a right to have access to the books and records of any retailer or distributor of motor fuel products for the purpose of obtaining the necessary information concerning such matters, and shall make due report thereof to the Secretary of Revenue.

(7) If any court of last resort shall hold that the provisions for refund herein set out shall render the levying and collecting of the tax hereinbefore provided invalid, it is the intention of the General Assembly that such provisions for refund shall be annulled and the tax shall be levied without any provisions for such refund and that this Article shall be so construed.

(b) Any person making a false application or affidavit for the purpose of securing a refund to which he is not entitled under the provisions of this section
shall be guilty of a misdemeanor and upon conviction thereof shall be fined not exceeding five hundred dollars ($500.00) or imprisoned not exceeding two years, in the discretion of the court."

Sec. 93. G.S. 105-449.24 is rewritten to read as follows:

(b) All claimant agencies shall submit, for collection under the procedure established by this Article, all debts which they are owed, except in cases where said agencies are advised by the Attorney General not to submit a claim because the validity of the debt is legitimately in dispute, because an alternative means of collection is pending and believed to be adequate, or because such a collection attempt would result in a loss of federal funds.
(c) All claimant agencies shall whenever possible obtain the full name, social security number, address, and any other identifying information required by rules promulgated by the Department pursuant to the authority of G.S. 105A-16 from any person for whom the agencies provide any service or transact any

“§ 105A-6. Procedure for set-off.—(a) A claimant agency seeking to attempt
collection of a debt through set-off shall notify in writing the Department and
supply information necessary to identify the debtor whose refund is sought to
be set-off. Notification to the Department and the furnishing of identifying
information must occur on or before a date specified by the Department in the
year preceding the calendar year during which the refund would be paid.
Additionally, subject to the notification deadline specified above, the
notification shall be effective only to initiate set-off for claims against refunds
that would be made in the calendar year subsequent to the year in which
notification is made to the Department.

(b) The Department, upon receipt of notification, shall determine whether
the debtor to the claimant agency is entitled to a refund of at least fifty dollars
($50.00) from the Department. Upon determination by the Department that a
debtor specified by a claimant agency qualifies for such a refund, the

pending, specify its sum, and indicate the debtor’s address as listed on the tax
return.

(c) Unless stayed by court order, the Department shall, upon certification as

claimant agency, upon receipt of notification from the Department that a
debtor is entitled to a refund, shall within 10 days send a written notification to
the debtor and a copy of same to the Department of its assertion of rights to the
refund or any part thereof. Such notification shall inform the debtor of the
claimant agency’s intention to direct the Department to apply the refund or any
portion thereof against the debt certified as due and owing. For the Department
to be obligated to continue holding refunds until receipt of certification of the
debt, if any, pursuant to G.S. 105A-10, the copy of the notification to the debtor
by the claimant agency of its intention to set-off must be received by the
Department within 15 days of the date of the Department’s mailing to the
respective claimant agency the notification of the debtor’s entitlement to a
refund.

(b) The contents of the written notification to the debtor (and the
Department’s copy) of the set-off claim shall clearly set forth the basis for the
claim to the refund, the intention to apply the refund against the debt to the
claimant agency, the debtor’s opportunity to give written notice of intent to
contest the validity of the claim before the claimant agency within 30 days of
the date of the mailing of the notice, the mailing address to which the application for a hearing must be sent, and the fact that failure to apply for a hearing in writing within the 30-day period will be deemed a waiver of the opportunity to contest the claim causing final set-off by default.

(c) The written application by the debtor for a hearing shall be effective upon mailing the application postage pre-paid and properly addressed to the claimant agency.

“§ 105A-8. Hearing procedure.—(a) If a claimant agency receives written application of the debtor’s intention to contest at hearing the claim upon which the intended set-off is based, it shall grant a hearing according to procedures established under Chapter 150A, the Administrative Procedure Act, to determine whether the claim is valid. Additionally, it shall be determined at the hearing whether the claimed sum asserted as due and owing is correct, and if not, an adjustment to the claim shall be made.

(b) Pending final determination at hearing of the validity of the debt asserted by the claimant agency, no action shall be taken in furtherance of collection through the set-off procedure allowed under this Article.

(c) No issues may be considered at the hearing which have been previously litigated.

“§ 105A-9. Appeals from hearings.—Appeals from action taken at hearings allowed under this Article shall be in accordance with the provisions of Chapter 150A, the Administrative Procedure Act, except that the place of initial judicial review shall be the superior court for the county in which the debtor resides.

“§ 105A-10. Certification of debt by claimant agency; finalization of set-off.—
(a) Upon final determination through hearing provided by G.S. 105A-8 of the debt due and owing the claimant agency or upon the debtor’s default for failure to comply with G.S. 105A-7 mandating timely request for review of the asserted basis for set-off, the claimant agency shall within 20 days certify the debt to the Department and in default thereof, the Department shall no longer be obligated to hold the refund for set-off.

(b) Upon receipt by the Department of a certified debt from the claimant agency, the Department shall finalize the set-off by transferring the net proceeds collected for credit or payment in accordance with the provisions of G.S. 105A-14 and by refunding any remaining balance to the debtor as if set-off had not occurred.

“§ 105A-11. Notice of final set-off.—Upon the finalization of set-off under the provisions of this Article, the Department shall notify the debtor in writing of the action taken along with an accounting of the action taken on any refund. If there is an outstanding balance after set-off, the notice under this section shall accompany the balance when disbursed.

“§ 105A-12. Priorities in claims to set-off.—Priority in multiple claims to refunds allowed to be set-off under the provisions of this Article shall be in the order in time which a claimant agency has filed a written notice with the Department of its intention to effect collection through set-off under this Article. Notwithstanding the priority set forth above according to time of filing, the Department has priority over all other claimant agencies for collection by set-off whenever it is a competing agency for a refund.

“§ 105A-13. Disposition of proceeds collected; collection assistance fees.—(a) Upon effecting final set-offs, the Department shall periodically write checks to the respective claimant agencies for the net proceeds collected on their behalf.
(b) From the gross proceeds collected by the Department of Revenue through set-off, the Department shall retain fifteen percent (15%), which amount shall be charged to the respective claimant agency as a collection assistance fee. The Department shall devote the funds so retained to the following uses and purposes: (1) for the purpose of effectuating the provisions of the income tax refund Set-off Debt Collection Act, the sum of one hundred fifteen thousand dollars ($115,000) in the fiscal year 1979-80, and the sum of one hundred sixty thousand dollars ($160,000) in the fiscal year 1980-81; and (2) for the purpose of preparing, printing, publishing and mailing to taxpayers revised income withholding tax tables required to be revised as a result of the Revenue Act of 1979, the sum of one hundred one thousand dollars ($101,000) in the fiscal year 1979-80, and the sum of one hundred eight thousand dollars ($108,000) in the fiscal year 1980-81. Any balance remaining unexpended from the total collection assistance fees at the close of each fiscal year shall be deposited into the State Treasury for credit to the General Fund. In order to fund the cost of the set-off program and of printing, publishing and mailing said tax tables, before receipt of any collection assistance fees, the Department of Revenue is authorized to borrow from the Contingency and Emergency Fund up to two hundred sixteen thousand dollars ($216,000) in fiscal year 1979-80, and up to two hundred sixty-eight thousand dollars ($268,000) in fiscal year 1980-81, to be repaid from collection assistance fees as they are received.

For years after fiscal year 1980-81, the Department shall calculate its actual cost of collection as a percentage of the immediately preceding year's collections under the Set-off Debt Collection Act, and that percentage shall be its collection assistance fee for the then-current fiscal year.

“§ 105A-14. Accounting to the claimant agency; credit to debtor's obligation.—(a) Simultaneously with the transmittal of a check for net proceeds collected to a claimant agency, the Department shall provide the agency with an accounting of the set-offs finalized for which payment is being made. The accounting shall, whenever possible, include the full names of the debtors, the debtors' social security numbers, the gross proceeds collected per individual set-off, the net proceeds collected per set-off, and the collection assistance fee charged per set-off.

(b) Upon receipt by a claimant agency of a check representing net proceeds collected on a claimant agency's behalf by the Department and an accounting of the proceeds as specified under this section, the claimant agency shall credit the debtor's obligation with the gross proceeds collected.

“§ 105A-15. Confidentiality exemption; nondisclosure.—(a) Notwithstanding G.S. 105-259 or any other provision of law prohibiting disclosure by the Department of the contents of taxpayer records or information and notwithstanding any confidentiality statute of any claimant agency, all information exchanged among the Department, claimant agency, and the debtor necessary to accomplish and effectuate the intent of this Article is lawful.

(b) The information obtained by a claimant agency from the Department in accordance with the exemption allowed by subsection (a) shall only be used by a claimant agency in the pursuit of its debt collection duties and practices and any person employed by, or formerly employed by, a claimant agency who discloses any such information for any other purpose, except as otherwise allowed by G.S. 105-259, shall be penalized in accordance with the terms of that statute.

CHAPTER 802

AN ACT TO AMEND CHAPTER 163 OF THE GENERAL STATUTES TO PROVIDE RULES FOR MARKING AND COUNTING BALLOTS IN ELECTIONS AND PRIMARIES.

The General Assembly of North Carolina enacts:

Section 1. G.S. 163-151 is rewritten to read as follows:

"§ 163-151. Marking ballots in primary and election.—The voter shall adhere to the following rules and those instructions printed on the ballot in marking his ballots:

(1) In both primaries and elections, a voter may designate his choice of candidates by making a cross mark (X), a check mark, or some other clear indicative mark in the appropriate voting square or circle.

(2) In both primaries and elections, a voter should not mark more names for any office than there are positions to be filled by election.

(3) A voter should not affix a sticker to a ballot, mark a ballot with a rubber stamp, attach anything to a ballot, wrap or fold anything in a ballot or do anything to a ballot except to mark it properly with a pencil or pen.

(4) Straight ticket. In an election, but not a primary, if the voter desires to vote for all candidates of one political party (a straight ticket), he shall either:
   a. mark the party circle printed above the party column; or
   b. mark in the voting square at the left of the name of every candidate printed on the ballot in the party column for whom he desires to vote; or
   c. mark the party circle and also mark some or all names printed in that party column.

(5) Split ticket. In an election but not in a primary, if the voter desires to vote for candidates of more than one political party (a split ticket), he shall:
   a. omit marking in the party circle of any party and mark in the voting square opposite the name of each candidate of any party printed on the ballot for whom the voter wishes to vote.
   b. If the voter should mark the party circle of one party, and also mark the voting square opposite the name of candidates of any other party, the ballot shall be counted as a straight ticket for all candidates of the party whose circle was marked and the individually marked candidates of any other party shall not be counted.

(6) Write-in votes.
   a. In an election but not in a primary, if a voter desires to vote for a person whose name is not printed on the ballot, he shall write in the name of the person in the space immediately beneath the name of a candidate, if any, printed on the ballot for that particular office. The voter shall write the name himself unless he is entitled to assistance under G.S. 163-152, in which case the person giving assistance may write in the name at the request of the voter.
   b. The voter should not write in a name of a person whose name appears as a candidate of a political party. If the voter writes in the name of a candidate printed on the ballot of any party, the write-in shall not be counted.
   c. If the voter has marked the party circle of one political party, he may also write in the name of a person for whom he wishes to vote beneath
the name of a candidate printed in the same column whose party circle he has marked.
d. If the voter has marked the party circle of one party, he should not write in the name of a person under the name of a candidate in any other party. In such case, the write-in shall not be counted, but the ballot shall be counted for all candidates of the party whose circle was marked.
e. No voter shall write the name of any person on a primary ballot."

Sec. 2. G.S. 163-169(b) is rewritten to read:
“(b) General rule. Only official ballots shall be voted and counted. No official ballot shall be rejected because of technical errors in marking it, unless it is impossible to determine the voter’s choice under the rules for counting ballots. Such determination shall be made by the county board of elections if the registrar and judges are unable to determine the voter’s choice, or whether a particular ballot should be counted.”

Sec. 3. G.S. 163-170 is rewritten to read:
“§ 163-170. Rules for counting ballots.—Only official ballots shall be voted and counted. No official ballot shall be rejected because of technical errors in marking it unless it is impossible to determine the voter’s choice. In applying the general rule, all election officials shall be governed by the following rules:

(1) If for any reason it is impossible to determine a voter’s choice for an office, the ballot shall not be counted for that office but shall be counted for all other offices.

(2) If a ballot is marked for more names than there are positions to be filled, it shall not be counted for that office but shall be counted for all other offices.

(3) If a ballot has been defaced or torn by a voter so that it is impossible to determine the voter’s choice for one or more offices, it shall not be counted for such offices but shall be counted for all offices for which the voter’s choice can be determined.

(4) If a voter has properly marked the voting square with pen or pencil, and also has affixed a sticker to a ballot, or marked a ballot with a rubber stamp, attached anything to a ballot, wrapped or folded anything in a ballot, or done anything to a ballot other than mark it properly with pen or pencil, it shall be counted unless such action by the voter makes it impossible to determine the voter’s choice.

(5) Write-in votes. If a name has been written in on an official general election ballot as provided in G.S. 163-151, it shall be counted in accordance with the following rules:

a. The name written in shall not be counted unless written in by the voter or a person authorized to assist the voter pursuant to G.S. 163-152.

b. The name shall be written in immediately below the name of a candidate for a particular office, if any, and shall be counted as a vote for the person whose name has been written in for that office. If the voter has made a mark to the left of the name written in, or checked in the party circle or the square beside the name of a candidate below whose name the write-in appears, or if the voter strikes out, marks through or crosses out the name printed above the write-in, such action by the voter shall not serve to invalidate the ballot or the vote for the person whose name was written in for that particular office.
c. If the person whose name was written in appears as a candidate of a political party for any office, the write-in shall be ignored and the ballot shall be counted as though no write-in appeared for such office.

d. Marking party circle and write-ins.

1. If the voter marks the party circle above the column in which he has entered the write-in, his ballot shall be counted as a vote for the person whose name has been written in, and for all other candidates of the party in whose circle he has marked, except the candidate beneath whose printed name the write-in appears.

2. If the voter has marked the party circle at the top of the column of a political party, and has made a write-in under the name of a candidate printed in a column of a different political party, the write-in shall not be counted, and the ballot shall be counted as a vote for all candidates of the party in whose circle he has marked.

(6) Split ticket.

a. If the voter has marked the party circle of one party and also marked the voting square of individual candidates of another party, the ballot shall be counted as a straight ballot and counted as a vote for every candidate for the party whose circle has been marked.

b. If the voter votes a split ticket by omitting to mark the party circle and marks the voting square opposite the name of candidates for whom he desires to vote in different party columns, the ballot shall be counted as a vote for each candidate marked in a different party column.

(7) Voting a straight ticket. If a voter desires to vote for all candidates of one political party, a straight ticket, he shall either:

a. mark the party circle printed at the top of the party column; or

b. mark the voting squares at the left of the name of every candidate of the same party printed on the ballot; or

c. mark the party circle and also mark some or all names printed in that party column.

In either case, the ballot shall be counted as a straight ticket and counted as a vote for every candidate whose name is printed in the party column.”

Sec. 4. This act is effective upon ratification.

In the General Assembly read three times and ratified, this the 6th day of June, 1979.

“Article 4.

"Realtor Eviction.

§42-37. Defense of retaliatory eviction.—(a) It is the public policy of the State of North Carolina to protect tenants and other persons whose residence in the household is explicitly or implicitly known to the landlord, who seek to exercise their rights to decent, safe, and sanitary housing. Therefore, the following activities of such persons are protected by law:

(1) a good faith complaint or request for repairs to the landlord, his employee, or his agent about conditions or defects in the premises that the landlord is obligated to repair under G.S. 42-42;

(2) a good faith complaint to a government agency about a landlord’s alleged violation of any health or safety law, or any regulation, code, ordinance, or State or federal law that regulates premises used for dwelling purposes;

(3) a government authority’s issuance of a formal complaint to a landlord concerning premises rented by a tenant;

(4) a good faith attempt to exercise, secure or enforce any rights existing under a valid lease or rental agreement or under State or federal law; or

(5) a good faith attempt to organize, join, or become otherwise involved with, any organization promoting or enforcing tenants’ rights.

(b) In an action for summary ejectment pursuant to G.S. 42-26, a tenant may raise the affirmative defense of retaliatory eviction and may present evidence that the landlord’s action is substantially in response to the occurrence within 12 months of the filing of such action of one or more of the protected acts described in subsection (a) of this section.

(c) Notwithstanding subsections (a) and (b) of this section, a landlord may prevail in an action for summary ejectment if:

(1) the tenant breached the covenant to pay rent or any other substantial covenant of the lease for which the tenant may be evicted, and such breach is the reason for the eviction; or

(2) in a case of a tenancy for a definite period of time where the tenant has no option to renew the lease, the tenant holds over after expiration of the term; or

(3) the violation of G.S. 42-42 complained of was caused primarily by the willful or negligent conduct of the tenant, member of the tenant’s household, or their guests or invitees; or

(4) compliance with the applicable building or housing code requires demolition or major alteration or remodeling that cannot be accomplished without completely displacing the tenant’s household; or
(5) the landlord seeks to recover possession on the basis of a good faith notice to quit the premises, which notice was delivered prior to the occurrence of any of the activities protected by subsections (a) and (b) of this section; or

(6) the landlord seeks in good faith to recover possession at the end of the tenant’s term for use as the landlord’s own abode, to demolish or make major alterations or remodeling of the dwelling unit in a manner that requires the complete displacement of the tenant’s household, or to terminate for at least six months the use of the property as a rental dwelling unit.

“§ 42-37.1. Remedies.—(a) If the court finds that an ejectment action is retaliatory, as defined by this Article, it shall deny the request for ejectment; provided, that a dismissal of the request for ejectment shall not prevent the landlord from receiving payments for rent due or any other appropriate judgment.

(b) The rights and remedies created by this Article are supplementary to all existing common law and statutory rights and remedies.

“§ 42-37.2. Waiver.—Any waiver by a tenant or a member of his household of the rights and remedies created by this Article is void as contrary to public policy.”

The General Assembly of North Carolina enacts:

Section 1. General Statutes Chapter 19A is amended by adding a new Article to read:

“ARTICLE 4.

“Animal Cruelty Investigators.

“§ 19A-5. Appointment of animal cruelty investigators; term of office; removal; badge; oath; bond.—(a) The board of county commissioners is authorized to appoint one or more animal cruelty investigators to serve without any compensation or other employee benefits in his county. In making these appointments, the board may consider persons nominated by any society incorporated under North Carolina law for the prevention of cruelty to animals. Prior to making any such appointment, the board of county commissioners is authorized to enter into an agreement whereby any necessary expenses of caring for seized animals not collectable pursuant to G.S. 19A-7 may be paid by the animal cruelty investigator or by any society incorporated under North Carolina law for the prevention of cruelty to animals that is willing to bear such expense.

(b) Animal cruelty investigators shall serve a one-year term subject to removal for cause by the board of county commissioners. Animal cruelty investigators shall, while in the performance of their official duties, wear in
plain view a badge of a design approved by the board identifying them as animal cruelty investigators, and provided at no cost to the county.

(c) Animal cruelty investigators shall take and subscribe the oath of office required of public officials. The oath shall be filed with the clerk of superior court. Animal cruelty investigators shall not be required to post any bond.

(d) Upon approval by the board of county commissioners, the animal cruelty investigator or investigators may be reimbursed for all necessary and actual expenses, to be paid by the county.

"§ 19A-6. Powers; magistrate's order; execution of order; petition; notice to owner.—(a) Whenever any animal is being cruelly treated as defined in G.S. 19A-1(2), an animal cruelty investigator may file with a magistrate a sworn complaint requesting an order allowing the investigator to provide suitable care for and take immediate custody of the animal. The magistrate shall issue the order only when he finds probable cause to believe that the animal is being cruelly treated and that it is necessary for the investigator to immediately take custody of it. Any magistrate’s order issued under this section shall be valid for only 24 hours after its issuance. After he executes the order, the animal cruelty investigator shall return it with a written inventory of the animals seized to the clerk of court in the county where the order was issued.

(b) The animal cruelty investigator may request a law enforcement officer or animal control officer to accompany him to help him seize the animal. An investigator may forcibly enter any premises or vehicle when necessary to execute the order only if he reasonably believes that the premises or vehicle is unoccupied by any person and that the animal is on the premises or in the vehicle. Forcible entry shall be used only when the animal cruelty investigator is accompanied by a law enforcement officer. In any case, he must give notice of his identity and purpose to anyone who may be present before entering said premises. Forcible entry shall only be used during the daylight hours.

(c) When he has taken custody of such an animal, the animal cruelty investigator shall file a complaint pursuant to Article 1 of this Chapter as soon as possible. When he seizes the animal, he shall leave with the owner, if known, or affixed to the premises or vehicle a copy of the magistrate’s order and a written notice of a description of the animal, the place where the animal will be taken, the reason for taking the animal, and the investigator’s intent to file a complaint in district court requesting custody of the animal pursuant to Article 1 of this Chapter.

(d) Notwithstanding the provisions of G.S. 7A-305(c), any person who commences a proceeding under this Article or Article 1 of this Chapter shall not be required to pay any court costs or fees prior to a final judicial determination as provided in G.S. 19A-4, at which time those costs shall be paid pursuant to the provisions of G.S. 6-18.

(e) Any judicial order authorizing forcible entry shall be issued by a district court judge.

"§ 19A-7. Care of seized animals.—The investigator must take any animal he seizes directly to some safe and secure place and provide suitable care for it. The necessary expenses of caring for seized animals, including necessary veterinary care, shall be a charge against the animal’s owner and a lien on the animal to be enforced as provided by G.S. 44A-4.

"§ 19A-8. Interference unlawful.—It shall be a misdemeanor punishable by a fine of up to two hundred dollars ($200.00) or not more than ninety days
imprisonment, or both, to interfere with an animal cruelty investigator in the performance of his official duties.

“§ 19A-9. Educational requirements.—Each animal cruelty investigator at his own expense must attend annually a course of at least six hours instruction offered by the North Carolina Humane Federation or some other agency. The course shall be designed to give the investigator expertise in the investigation of complaints relating to the care and treatment of animals. Failure to attend a course approved by the board of county commissioners shall be cause for removal from office.”

Sec. 2. G.S. 19A-1(2) is rewritten to read:

“(2) The terms ‘cruelty’ and ‘cruel treatment’ shall be held to include every act, omission, or neglect whereby unjustifiable physical pain, suffering, or death is caused or permitted; but such term shall not be construed to include lawful taking of animals under the jurisdiction and regulation of the Wildlife Resources Commission, lawful activities sponsored by agencies conducting biomedical research or training, lawful activities for sport, the production of livestock or poultry, or the lawful destruction of any animal for the purpose of protecting such livestock or poultry.”

Sec. 3. G.S. 19A-3 is rewritten to read:

“§ 19A-3. Preliminary injunction.—Upon the filing of a verified complaint in the district court in the county in which cruelty to an animal has allegedly occurred, the judge may, in his discretion, issue a preliminary injunction in accordance with the procedures set forth in G.S. 1A-1, Rule 65. Every such preliminary injunction, if the complainant so requests, may give the complainant the right to provide suitable care for the animal. If it appears on the face of the complaint that the condition giving rise to the cruel treatment of an animal requires the animal to be removed from its owner or other person who possesses it, then it shall be proper for the court in the preliminary injunction to allow the complainant to take possession of the animal.”

Sec. 4. G.S. 19A-4 is rewritten to read:

“§ 19A-4. Permanent injunction.—In accordance with G.S. 1A-1, Rule 65, a district court judge in the county in which the original action was brought shall determine the merits of the action by trial without a jury, and upon hearing such evidence as may be presented, shall enter orders as he deems appropriate, including a permanent injunction or final determination of the animal’s custody.”

Sec. 5. G.S. 6-18 is amended by adding a new subsection to read:

"ARTICLE 42.

"Jurisdiction.

"§ 7A-508. Jurisdiction.—The court has exclusive, original jurisdiction over any case involving a juvenile who is alleged to be delinquent, abused, neglected, or dependent. This jurisdiction does not extend to cases involving adult defendants alleged to be guilty of abuse or neglect. For purposes of determining jurisdiction, the age of the juvenile either at the time of the alleged offense or when the conditions causing the juvenile to be abused, neglected, or dependent arose, governs. There is no minimum age for juveniles alleged to be abused, dependent or neglected. For juveniles alleged to be delinquent or undisciplined, the minimum age is 6 years of age.

The court also has exclusive original jurisdiction of the following proceedings:

(1) proceedings under the Interstate Compact on Juveniles and the Interstate Parole and Probation Hearing Procedures for Juveniles;

(2) proceedings to determine whether a juvenile who is on conditional release and under the aftercare supervision of a court counselor has violated the terms of his conditional release established by the Division of Youth Services;

(3) proceedings involving judicial consent for emergency surgical or medical treatment for a juvenile when his parent, guardian, legal custodian, or other person standing in loco parentis refuses to consent for treatment to be rendered;

(4) proceedings to determine whether a juvenile should be emancipated;

(5) proceedings to terminate parental rights.

"§ 7A-509. Retention of jurisdiction.—When the court obtains jurisdiction over a juvenile, jurisdiction shall continue until terminated by order of the court or until he reaches his 18th birthday. Any juvenile who is under the jurisdiction of the court and commits a criminal offense after his 16th birthday is subject to prosecution as an adult. Any juvenile who is transferred to and sentenced by the superior court for a felony offense is subject to prosecution as an adult for all other crimes alleged to have been committed by him while he is under the active supervision of the superior court. Nothing herein shall be construed to divest the court of jurisdiction in abuse, neglect, or dependency proceedings.

"ARTICLE 43.

"Screening of Delinquency and Undisciplined Petitions.

"§ 7A-510. Intake.—The Chief Court Counselor, under the direction of the Administrator of Juvenile Services, shall establish intake services in each judicial district of the State for all delinquency and undisciplined cases.

The purpose of intake services shall be to determine from available evidence whether there are reasonable grounds to believe the facts alleged are true, to determine whether the facts alleged constitute a delinquent or undisciplined offense within the jurisdiction of the court, to determine whether the facts alleged are sufficiently serious to warrant court action and to obtain assistance from community resources when court referral is not necessary. The intake counselor shall not engage in field investigations to substantiate complaints or
to produce supplementary evidence but may refer complainants to law enforcement agencies for those purposes.

"§7A-511. Preliminary inquiry.—When a complaint is received, the intake counselor shall make a preliminary determination as to whether the juvenile is within the jurisdiction of the court as a delinquent or undisciplined juvenile. If the intake counselor finds that the facts contained in the complaint do not state a case within the jurisdiction of the court, that legal sufficiency has not been established, or that the matters alleged are frivolous, he shall, without further inquiry, refuse authorization to file the complaint.

When requested by the intake counselor, the prosecutor shall assist in determining the sufficiency of evidence as it affects the quantum of proof and the elements of offenses.

If the intake counselor finds reasonable grounds to believe that the juvenile has committed one of the following offenses, he shall, without further inquiry, authorize the complaint to be filed as a petition: murder; rape; arson; any violation of Article 5, Chapter 90 of the North Carolina General Statutes which would constitute a felony if committed by an adult; first degree burglary; crime against nature; or any felony which involves the willful infliction of serious bodily injury upon another or which was committed by use of a deadly weapon.

"§7A-512. Evaluation.—Upon a finding of legal sufficiency, except in the nondivertible offenses set out in G.S. 7A-511, the intake counselor shall determine whether a complaint should be filed as a petition, the juvenile diverted to a community resource, or the case resolved without further action. He shall consider criteria which shall be provided by the Administrator of Juvenile Services in making his decision. The intake process shall include the following steps:

1. interviews with the complainant and the victim if someone other than the complainant;
2. interviews with the juvenile, his parent, guardian, or custodian;
3. interviews with persons known to have information about the juvenile or family which information is pertinent to the case.

Interviews required by this section shall be conducted in person unless it is necessary to conduct them by telephone.

"§7A-513. Evaluation decision.—The evaluation of a particular complaint shall be completed within 15 days, with an extension for a maximum of 15 additional days at the discretion of the Chief Court Counselor. The intake counselor must decide within this time period whether or not a complaint will be filed as a juvenile petition. If the intake counselor determines that a complaint should be filed as a petition, he shall assist the complainant when necessary with the preparation and filing of the petition, or help with the preparation and filing of the petition, shall endorse on it the date and the words 'Approved for filing', shall sign it beneath such words, and shall transmit it to the Clerk of Superior Court. If the intake counselor determines that a petition should not be filed, he shall immediately notify the complainant in writing with reasons for his decision and shall include notice of the complainant's right to have the decision reviewed by the prosecutor. The intake counselor shall then sign his name on the complaint beneath the words 'Not approved'.

Any complaint not approved for filing as a juvenile petition shall be destroyed by the intake counselor after holding the complaint for a temporary
period to allow follow-up and review as provided in G.S. 7A-514 and G.S. 7A-516.

"§ 7A-514. Referral and follow-up.—The intake counselor may refer any case to an appropriate public or private resource unless the offense is one in which a petition is required as set out in G.S. 7A-511. After making a referral, the intake counselor shall ascertain that the juvenile actually contacted or was seen by the resource to which he was referred. In the event that the juvenile does not contact or visit the community resource, the intake counselor may reconsider his decision to divert and may authorize the filing of a complaint as a petition within 60 days from the date of the referral. If the juvenile contacts or is seen by the resource, the intake counselor shall close the file.

"§ 7A-515. Request for review.—The complainant has five calendar days, from receipt of the intake counselor’s decision not to approve the filing of a complaint, to request review by the prosecutor. The intake counselor shall notify the prosecutor immediately of such request and shall transmit to the prosecutor a copy of the complaint. The prosecutor shall notify the complainant and the intake counselor of the time and place for the review.

"§ 7A-516. Review of determination that a petition should not be filed.—The prosecutor shall review the intake counselor’s determination, that a juvenile petition should not be filed, no later than 20 days after the complainant is notified. Review shall include conferences with the complainant and the intake counselor. At the conclusion of the review, the prosecutor may either affirm the decision of the intake counselor or may direct the filing of a petition.

"ARTICLE 44.

"Screening of Abuse and Neglect Complaints.

"§ 7A-517. Protective services.—The Director of the Department of Social Services in each county of the State shall establish protective services for juveniles alleged to be abused, neglected, or dependent.

Protective services shall include the investigation and screening of complaints, casework or other counseling services to parents or other caretakers as provided by the director to help the parents or other caretakers and the court to prevent abuse or neglect, to improve the quality of child care, to be more adequate parents or caretakers, and to preserve and stabilize family life.

"§ 7A-518. Duty to report child abuse or neglect.—Any person or institution who has cause to suspect that any juvenile is abused or neglected shall report the case of that juvenile to the Director of the Department of Social Services in the county where the juvenile resides or is found. The report may be made orally, by telephone, or in writing. The report shall include information as is known to the person making it including the name and address of the juvenile; the name and address of the juvenile’s parent, guardian, or caretaker; the age of the juvenile; the present whereabouts of the juvenile if not at the home address; the nature and extent of any injury or condition resulting from abuse or neglect and any other information which the person making the report believes might be helpful in establishing the need for protective services or court intervention. If the report is made orally or by telephone, the person making the report shall give his name, address, and telephone number. Refusal of the person making the report to give his name shall not preclude the Department’s investigation of the alleged abuse or neglect.

In the case of any report of abuse, the Director of Social Services, upon receipt of the report, may immediately provide the appropriate local law
enforcement agency with information on the nature of the report. The law enforcement agency may investigate the report, and upon request of the Director of the Department of Social Services, the law enforcement agency shall provide assistance with the investigation.

"§7A-519. Investigation by director, notification of person making the report.—When a report of abuse or neglect is received, the Director of the Department of Social Services shall make a prompt and thorough investigation in order to ascertain the facts of the case, the extent of the abuse or neglect, and the risk of harm to the juvenile, in order to determine whether protective services should be provided or the complaint filed as a petition. The investigation and evaluation shall include a visit to the place where the juvenile resides. All information received by the Department of Social Services shall be held in strictest confidence by the Department.

If the investigation reveals abuse or neglect, the Director shall decide whether immediate removal of the juvenile or any other juveniles in the home is necessary for their protection. If immediate removal does not seem necessary, the Director shall immediately provide or arrange for protective services. If the parent or other caretaker refuses to accept the protective services provided or arranged by the Director, the Director shall sign a complaint seeking to invoke the jurisdiction of the court for the protection of the juvenile or juveniles.

If immediate removal seems necessary for the protection of the juvenile or other juveniles in the home, the Director shall sign a complaint which alleges the applicable facts to invoke the jurisdiction of the court. Where the investigation shows that it is warranted, a protective services worker may assume temporary custody of the juvenile for the juvenile's protection pursuant to Article 46 of this act.

In performing any of these duties, the Director may utilize the staff of the county Department of Social Services or any other public or private community agencies that may be available. The Director may also consult with the available State or local law enforcement officers who shall assist in the investigation and evaluation of the seriousness of any report of abuse or neglect when requested by the Director.

Unless a petition is filed within five working days after receipt of the report of abuse or neglect, the Director shall give written notice to the person making the report that:

(1) There is no finding of abuse or neglect; or
(2) The county Department of Social Services is taking action to protect the welfare of the juvenile and what specific action it is taking.

The notification shall include notice that, if the person making the report is not satisfied with the Director's decision, he may request review of the decision by the prosecutor within five working days of receipt. The person making the report may waive his right to this notification and no notification is required if the person making the report does not identify himself to the Director.

"§7A-520. Evaluation for court.—In all cases in which a petition is filed, the Director of the Department of Social Services shall prepare a report for the court containing a home placement plan and a treatment plan deemed by the Director to be appropriate to the needs of the juvenile. The report shall be available to the judge immediately following the adjudicatory hearing.

"§7A-521. Request for review.—The person making the report shall have five working days, from receipt of the decision of the Director of the Department of
Social Services not to petition the court, to notify the prosecutor that he is requesting a review. The prosecutor shall notify the person making the report and the Director of the time and place for the review and the Director shall immediately transmit to the prosecutor a copy of the investigation report.

"§ 7A-522. Review by the prosecutor.—The prosecutor shall review the Director's determination that a petition should not be filed within 20 days after the person making the report is notified. The review shall include conferences with the person making the report, the protective services worker, the juvenile, and other persons known to have pertinent information about the juvenile or his family. At the conclusion of the conferences, the prosecutor may affirm the decision made by the Director or may authorize the filing of a petition.

"§ 7A-523. Duty of county Department of Social Services to report evidence of abuse.—If the Director finds evidence that a juvenile has been abused as defined by statute, he shall immediately make a written report of his findings to the prosecutor who shall determine whether criminal prosecution is appropriate and who may request the Director to sign the appropriate criminal warrant. The Director of the Department of Social Services shall submit a report of alleged abuse or neglect to the central registry under the policies adopted by the Social Services Commission.

"§ 7A-524. Authority of medical professionals in abuse cases.—Any physician or administrator of a hospital, clinic, or other similar medical facility to which an abused juvenile is brought for medical diagnosis or treatment shall have the right, when authorized by the chief district court judge of the district or his designee, to retain physical custody of the juvenile when the physician who examines the juvenile certifies in writing that the juvenile should remain for medical reasons or that in his opinion it may be unsafe for the juvenile to return to his parent, guardian, or caretaker. In such case, the physician or administrator shall notify the parent, guardian, or caretaker and the Director of the Department of Social Services of the county where the juvenile resides. If the parent, guardian, or caretaker contests this action, the Director shall request a hearing before the Chief District Court Judge or the judge designated by him within the judicial district in which the juvenile resides or where the hospital or institution is located, for determination of whether the juvenile shall be returned to his parent, guardian, or caretaker. Pending the hearing, the hospital, clinic, or other similar medical facility may retain temporary physical custody of the juvenile. The hospital, clinic, or medical facility:

(1) shall request the Director of the Department of Social Services in the county where the juvenile resides to petition the court in the district where the juvenile resides to award physical custody of the juvenile to the Director for placement with a relative or in a foster home under the supervision of the Department of Social Services; or

(2) shall request the Director of the Department of Social Services in the county where the hospital or other medical facility is located, to petition the court in the district where the hospital or other medical facility is located, to award physical custody of the juvenile to the Director for placement with a relative or in a foster home under the supervision of the Department of Social Services.

Upon receipt of a request pursuant to subsections (1) or (2), the Director of the Department of Social Services shall authorize the filing of such petition without delay.
"§ 7A-525. Immunity of persons reporting.—Anyone who makes a report pursuant to this Article, testifies in any judicial proceeding resulting from the report, or otherwise participates in the program authorized by this Article, is immune from any civil or criminal liability that might otherwise be incurred or imposed for such action provided that the person was acting in good faith. In any proceeding involving liability, good faith is presumed.

"§ 7A-526. Waiver of privileges.—Neither the physician-patient privilege nor the husband-wife privilege shall be grounds for excluding evidence of abuse or neglect in any judicial proceeding (civil, criminal, or juvenile) in which a juvenile's abuse or neglect is in issue nor in any judicial proceeding resulting from a report submitted under this Article, both as said privileges relate to the competency of the witness and to the exclusion of confidential communications.

"§ 7A-527. Central registry.—The Department of Human Resources shall maintain a central registry of abuse and neglect cases reported under this Article in order to compile data for appropriate study of the extent of abuse and neglect within the State and to identify repeated abuses of the same juvenile or of other juveniles in the same family. This data shall be furnished by county directors of social services to the Department of Human Resources and shall be confidential, subject to policies adopted by the Social Services Commission which provide for its appropriate use for study and research. Data shall not be used at any hearing or court proceeding unless based upon a final judgement of a court of law.

"ARTICLE 45.

"Venue; Petition; Summons.

"§ 7A-528. Venue.—(1) A proceeding in which a juvenile is alleged to be delinquent or undisciplined shall be commenced and adjudicated in the district in which the offense is alleged to have occurred.

When a proceeding in which a juvenile is alleged to be delinquent or undisciplined is commenced in a district other than that of the juvenile's residence, the judge shall proceed to adjudication in that district. After adjudication, these procedures shall be available to the court:

(a) The judge may transfer the proceeding to the court in the district where the juvenile resides for disposition.

(b) Where the proceeding is not transferred under subsection (a), the judge shall immediately notify the Chief District Judge in the district in which the juvenile resides. If the Chief District Judge requests a transfer within five days after receipt of notification, the judge shall transfer the proceeding.

(c) Where the proceeding is not transferred under (a) or (b), the judge, upon motion of the juvenile, shall transfer the proceeding to the court in the district where the juvenile resides for disposition. The judge shall advise the juvenile of the juvenile's right to transfer under this section.

(2) A proceeding in which a juvenile is alleged to be abused, neglected, or dependent may be commenced in the district in which the juvenile resides or is present. When a proceeding is commenced in a district other than that of the juvenile's residence, the judge, in his discretion or upon motion of the juvenile, may transfer the proceeding to the court in the district where the juvenile resides. A transfer under this subsection may be made at any time.

"§ 7A-529. Pleading and process.—The pleading in a juvenile action is the petition. The process in a juvenile action is the summons.
"§ 7A-530. Petition.—The petition shall contain the name, date of birth, address of the juvenile, the name and last known address of his parent, guardian, or custodian and shall allege the facts which invoke jurisdiction over the juvenile. Except in cases in which delinquency is alleged, the petition may contain information on more than one juvenile, when the juveniles are from the same home and are before the court for the same reason. In cases of alleged delinquency, the petitions shall be separate.

A petition in which delinquency is alleged shall contain a plain and concise statement, without allegations of an evidentiary nature, asserting facts supporting every element of a criminal offense and the juvenile’s commission thereof with sufficient precision clearly to apprise the juvenile of the conduct which is the subject of the accusation.

Sufficient copies of the petition shall be prepared so that copies will be available for each juvenile, for each parent if living separate and apart, for the court counselor or social worker, and for any person determined by the court to be a necessary party.

"§ 7A-531. Receipt of complaints; filing of petition.—(1) All reports concerning a juvenile alleged to be delinquent or undisciplined shall be referred to the intake counselor for screening. Thereafter, if it is determined by the intake counselor that a petition should be drawn and filed, the petition shall be drawn by the intake counselor or the clerk, signed by the complainant and verified before an official authorized to administer oaths. If the circumstances indicate a need for immediate attachment of jurisdiction and if the intake counselor is out of the county or otherwise unavailable to receive a complaint and to draw a petition when it is needed, the clerk shall assist the complainant in communicating his complaint to the intake counselor by telephone and, with the approval of the intake counselor, shall draw a petition and file it when signed and verified. A copy of the complaint and petition shall be transmitted to the intake counselor. Procedures for receiving delinquency and undisciplined complaints and drawing petitions thereon, consistent with this Article and Article 43, shall be established by Administrative Order of the Chief Judge in each judicial district under G.S. 7A-146(3).

(2) All complaints concerning a juvenile alleged to be abused, neglected, or dependent shall be referred to the Director of the Department of Social Services for screening. Thereafter, if it is determined by the Director that a complaint should be filed as a petition, the petition shall be drawn by the Director, verified before an official authorized to administer oaths, and filed by the Clerk, recording the date of filing.

(3) All complaints, and any decision of the intake counselor or of the Director of Social Services not to authorize that a complaint be filed as a petition shall be reviewed by the prosecutor pursuant to G.S. 7A-516 or G.S. 7A-522. If the prosecutor, after making his review, shall authorize a complaint to be filed as a petition, he shall prepare the complaint to be filed with the Clerk as a petition, recording the day of filing.

"§ 7A-532. Immediate need for petition when Clerk’s office is closed.—(1) All complaints which may arise when the office of the Clerk of Superior Court is closed shall be referred to the intake counselor or the Director of Social Services according to the nature of the complaint.
(2) When the office of the Clerk of Superior Court is closed, a magistrate may be authorized by the Chief District Judge to draw, verify, and issue petitions as follows:

(a) when an intake counselor requests a petition alleging a juvenile to be delinquent or undisciplined, or
(b) when the Director of the Department of Social Services requests a petition alleging a juvenile to be abused, neglected, or dependent.

(3) The authority of the magistrate under subsection (2) is limited to emergency situations when a petition is required in order to obtain a secure or nonsecure custody order. Any petition issued under this section shall be delivered to the Clerk’s office for processing as soon as that office is open for business.

“§ 7A-533. Commencement of action.—An action is commenced by the filing of a petition in the Clerk’s office when that office is open, or by the issuance of a juvenile petition by a magistrate when the Clerk’s office is closed, which issuance shall constitute filing.

“§ 7A-534. Issuance of summons.—After a petition has been filed, the Clerk of Superior Court shall issue a summons to the juvenile, to the parent, and to the guardian, custodian, or caretaker requiring them to appear for a hearing at the time and place stated in the summons. A copy of the petition shall be attached to each summons. The summons shall advise the parent that upon service, jurisdiction over him is obtained and that failure of the parent to comply with any order of the court pursuant to G.S. 7A-584 may cause the court to issue a show cause order for contempt.

A summons shall be directed to the person summoned to appear and shall be delivered to any law enforcement officer having authority and territorial jurisdiction to execute the process.

“§ 7A-535. Service of summons.—The summons shall be personally served upon the parent, the guardian, custodian, or caretaker, and the juvenile or counsel or guardian ad litem, not less than five days prior to the date of the scheduled hearing. The time for service may be waived in the discretion of the judge.

If the parent, guardian, or custodian entitled to receive a summons cannot be found by a diligent effort, the judge may authorize service of the summons and petition by mail or by publication. The cost of the service by publication shall be advanced by the petitioner and may be charged as court costs as the judge, in his discretion, may direct.

If the parent, guardian, or custodian is personally served as herein provided and fails without reasonable cause to appear and to bring the juvenile before the court, he may be proceeded against as for contempt of court.

The provisions of G.S. 15A-301 (a), (c), (d), and (e) relating to criminal process apply to juvenile process; provided the period of time for return of an unserved summons is 30 days.

“ARTICLE 46.

“Temporary Custody; Secure and Nonsecure Custody; Custody Hearings.

“§ 7A-536. Taking a juvenile into temporary custody.—Temporary custody means the taking of physical custody and providing personal care and supervision until a court order for secure or nonsecure custody can be obtained.
A juvenile may be taken into temporary custody under the following circumstances:

(1) A juvenile may be taken into temporary custody by a law enforcement officer without a court order if grounds exist for the arrest of an adult in identical circumstances under G.S. 15A-401 (b).

(2) A juvenile may be taken into temporary custody without a court order by a law enforcement officer or a court counselor if there are reasonable grounds to believe that he is an undisciplined juvenile.

(3) A juvenile may be taken into temporary custody without a court order by a law enforcement officer or a Department of Social Services worker if there are reasonable grounds to believe that the juvenile is abused, neglected, or dependent and that he would be injured or could not be taken into custody if it were first necessary to obtain a court order.

(4) A juvenile may be taken into custody without a court order by a law enforcement officer, by a court counselor, or by personnel of the Division of Youth Services as designated by the Department of Human Resources if there are reasonable grounds to believe the juvenile is an absconder from any State training school or approved detention facility.

“§7A-537. Duties of person taking juvenile into temporary custody.—(1) A person who takes a juvenile into custody without a court order under G.S. 7A-536 (1), (2), or (3) shall proceed as follows:

(a) notify the juvenile's parent, guardian, or custodian that the juvenile has been taken into temporary custody and advise the parent, guardian, or custodian of his right to be present with the juvenile until a determination is made as to the need for secure or nonsecure custody. Failure to notify the parent that the juvenile is in custody shall not be grounds for release of the juvenile;

(b) release the juvenile to his parent, guardian, or custodian if the person having the juvenile in temporary custody decides that continued custody is unnecessary.

(c) If the juvenile is not released under subsection (b), the person having temporary custody shall proceed as follows:

1. in the case of a juvenile alleged to be delinquent or undisciplined, he shall request a petition be drawn pursuant to G.S. 7A-531 or if the Clerk's office is closed, the magistrate pursuant to G.S. 7A-532. Once the petition has been drawn and verified, the person shall communicate with the intake counselor who shall consider prehearing diversion. If the decision is made to file a petition, the intake counselor shall contact the judge for a determination of the need for continued custody.

2. in the case of a juvenile alleged to be abused, neglected, or dependent, he shall communicate with the Director of the Department of Social Services who shall consider prehearing diversion. If the decision is made to file a petition, the director shall contact the judge for a determination of the need for continued custody.

(d) A juvenile taken into temporary custody under this Article shall not be held for more than 12 hours unless:

1. a petition or motion for review has been filed by an intake counselor or the Director of the Department of Social Services, and

2. an order for secure or nonsecure custody has been entered by a judge.
(2) A person who takes a juvenile into custody under G.S. 7A-536 (4) shall, after contacting a judge and receiving an order for secure custody, transport the juvenile to the nearest approved facility providing secure custody. He shall then contact the administrator of the training school or detention facility from which the juvenile absconded, who shall be responsible for returning the juvenile to that facility.

“§ 7A-538. Authority to issue custody orders; delegation.—In the case of any juvenile alleged to be within the jurisdiction of the court, when the judge finds it necessary to place the juvenile in custody, he may order that the juvenile be placed in secure or nonsecure custody pursuant to criteria set out in G.S. 7A-539.

The Chief District Judge may delegate the court’s authority to issue secure and nonsecure custody orders for juveniles. This authority may be delegated by administrative order which shall be filed in the office of the Clerk of Superior Court. The administrative order shall specify which officials shall be contacted for approval of continued custody and may include, but shall not be limited to, any available district judge, intake counselors and members of the Chief Court Counselor’s staff.

“§ 7A-539. Criteria for secure or nonsecure custody.—(1) When a request is made for nonsecure custody, the judge shall order nonsecure custody only when he finds that there is a reasonable factual basis to believe the matters alleged in the petition are true, and

(a) the juvenile has been abandoned; or
(b) the juvenile has suffered physical injury or sexual abuse or is exposed to a substantial risk of physical injury or sexual abuse because the parent, guardian, or custodian has inflicted the injury or abuse; created the conditions causing the injury, abuse, or exposure; failed to provide, or is unable to provide, adequate supervision or protection; or
(c) the juvenile is in need of medical treatment to cure, alleviate, or prevent suffering serious physical harm which may result in death, disfigurement, or substantial impairment of bodily functions, and his parent, guardian, or custodian is unwilling or unable to provide or consent to the medical treatment; or
(d) the parent, guardian or custodian consents to the nonsecure custody order.

In no case shall a juvenile alleged to be abused, neglected, or dependent be placed in secure custody.

(2) When a request is made for secure custody, the judge may order secure custody only where he finds there is a reasonable factual basis to believe that the juvenile actually committed the offense as alleged in the petition, and

(a) the juvenile is charged with a nondivertible offense; or
(b) that the juvenile is presently charged with one or more felonies; or
(c) that the juvenile has willfully failed to appear on the pending delinquency charge or has a record of willful failures to appear at court proceedings; or
(d) that by reason of the juvenile’s threat to flee from the court’s jurisdiction or circumstances indicating preparation or design to flee from the court’s jurisdiction there is reasonable cause to believe the juvenile will not appear in court on a pending delinquency charge unless he is detained; or
(e) that exhaustive efforts to identify the juvenile have been futile or by reason of his being a nonresident of the State of North Carolina there is reasonable cause to believe the juvenile will not appear in court on a pending delinquency charge unless he is detained; or
(f) that the juvenile is an absconder from any State training school or detention facility in this or another state; or
(g) that the juvenile has a recent record of adjudications for violent conduct resulting in serious physical injury to others, the petition pending is for delinquency, and the charge involves physical injury; or
(h) that by reason of the juvenile's recent self-inflicted injury or attempted self injury there is reasonable cause to believe the juvenile should be detained for his own protection for a period of less than 24 hours while action is initiated to determine the need for inpatient hospitalization, provided that the juvenile has been refused admittance by one appropriate hospital; or
(i) that the juvenile alleged to be undisciplined by virtue of his being a runaway should be detained for a period of less than 24 hours to facilitate reunion with his parents or to facilitate evaluation of the juvenile's need for medical or psychiatric treatment.

(3) When a juvenile has been adjudicated delinquent, the judge may order secure custody pending the dispositional hearing or pending placement of a delinquent juvenile pursuant to G.S. 7A-583.

(4) In determining whether secure custody should be ordered, the judge should consider the nature and circumstances of the offense; the weight of the evidence against the juvenile; the juvenile's family ties, character, mental condition, and school attendance record; and whether the juvenile is on conditional release. If the criteria for secure custody as set out in subsections (2) and (3) are met, the judge may enter an order directing an officer or other authorized person to assume custody of the juvenile and to take the juvenile to the place as is designated in the order.

"§ 7A-540. Order for secure or nonsecure custody.—The custody order shall be in writing and shall direct a law enforcement officer or other authorized person to assume custody of the juvenile and to make due return on the order. A copy of the order shall be given to the juvenile's parent, guardian, or custodian by the official executing the order. If the order is for secure custody, copies of the petition and custody order shall accompany the juvenile to the detention facility or holdover facility of the jail.

An officer receiving an order for custody which is complete and regular on its face may execute it in accordance with its terms and need not inquire into its regularity or continued validity, nor does he incur criminal or civil liability for its due service.

"§ 7A-541. Place of secure or nonsecure custody.—(1) A juvenile meeting the criteria set out in G.S. 7A-539, subsection (1), may be placed in nonsecure custody with the Department of Social Services or a person designated in the order for temporary residential placement in:
(a) a licensed foster home or a home otherwise authorized by law to provide such care or
(b) a facility operated by the Department of Social Services or
(c) any other home or facility approved by the court and designated in the order.
(2) A juvenile meeting the criteria set out in G.S. 7A-539 (2) may be temporarily detained in an approved county detention home or a regional detention facility which shall be separate from any jail, lockup, prison, or other adult penal institution. It shall be unlawful for a county or any unit of government to operate a juvenile detention home unless the facility meets the standards promulgated by the Department of Human Resources.

(3) Until July 1, 1983, if no juvenile detention home is available, a juvenile meeting the criteria set out in G.S. 7A-539 (2) may be detained in a holdover facility which shall be inspected pursuant to G.S. 108-79 through 81, and G.S. 153A-222, and shall meet the State standards provided for in G.S. 153A-221.

(4) Subsection (3) expires on June 30, 1983.

"§ 7A-542. Hearing to determine need for continued secure or nonsecure custody.—(1) No juvenile shall be held under a custody order for more than five calendar days without a hearing on the merits or a hearing to determine the need for continued custody. In every case in which an order has been entered by an official exercising authority delegated pursuant to G.S. 7A-538, a hearing to determine the need for continued custody shall be conducted on the day of the next regularly scheduled session of District Court in the district where the order was entered if such session precedes the expiration of the five calendar day period.

(2) Any juvenile who is alleged to be delinquent shall be advised of his right to have an attorney represent him as provided in G.S. 7A-544 if he appears without counsel at the hearing.

(3) At a hearing to determine the need for continued custody, the judge shall receive testimony and shall allow the juvenile, and his parent, guardian, or custodian an opportunity to introduce evidence, to be heard in their own behalf, and to examine witnesses. The State shall bear the burden at every stage of the proceedings to provide clear and convincing evidence that restraints on the juvenile's liberty are necessary and that no less intrusive alternative will suffice. The judge shall not be bound by the usual rules of evidence at such hearings.

(4) The judge shall be bound by criteria set forth in G.S. 7A-539 in determining whether continued custody is warranted.

(5) The judge shall impose the least restrictive interference with the liberty of a juvenile who is released from secure custody including:

(a) release on the written promise of the juvenile's parent, guardian, or custodian to produce him in court for subsequent proceedings; or

(b) release into the care of a responsible person or organization; or

(c) release conditioned on restrictions on activities, associations, residence or travel if reasonably related to securing the juvenile's presence in court; or

(d) any other conditions reasonably related to securing the juvenile's presence in court.

(6) If the judge determines that the juvenile meets the criteria in G.S. 7A-539 and should continue in custody, he shall issue an order to that effect. The order shall be in writing with appropriate findings of fact. The findings of fact shall include the evidence relied upon in reaching the decision and the purposes which continued custody is to achieve.
(7) Pending a hearing on the merits, further hearings to determine the need for continued custody shall be held at intervals of no more than seven calendar days.

"§7A-543. Telephonic communication authorized.—All communications, notices, orders, authorizations, and requests authorized or required by G.S. 7A-537, G.S. 7A-539, and G.S. 7A-540 may be made by telephone when other means of communication are impractical. All written orders pursuant to telephonic communication shall bear the name and the title of the person communicating by telephone, the signature and the title of the official entering the order, and the hour and the date of the authorization.

"ARTICLE 47.

"Basic Rights.

"§7A-544. Juvenile’s right to counsel.—(1) A juvenile alleged to be within the jurisdiction of the court has the right to be represented by counsel in all proceedings. In any proceeding in which delinquency is alleged, the judge shall appoint counsel unless counsel is retained for the juvenile. (2) All juveniles shall be conclusively presumed to be indigent, and it shall not be necessary for the court to receive from any juvenile an affidavit of indigency.

"§7A-545. Appointment of guardian.—In any case when no parent appears in a hearing with the juvenile or when the judge finds it would be in the best interest of the juvenile, the judge may appoint a guardian of the person for the juvenile. The guardian shall operate under the supervision of the court with or without bond and shall file only such reports as the court shall require. The guardian shall have the care, custody, and control of the juvenile or may arrange a suitable placement for him and may represent the juvenile in legal actions before any court. The guardian shall also have authority to consent to certain actions on the part of the juvenile in place of the parent including marriage, enlisting in the armed forces, and undergoing major surgery. The authority of the guardian shall continue until the guardianship is terminated by order, until the juvenile is emancipated pursuant to Article 56, or until the juvenile reaches the age of majority.

"§7A-546. Appointment of guardian ad litem.—When in a petition a juvenile is alleged to be abused or neglected, the judge shall appoint a guardian ad litem to represent the juvenile. The duties of the guardian ad litem shall be to make an investigation to determine the facts, the needs of the juvenile, and the available resources within the family and community to meet those needs; to appear on behalf of the juvenile in the court proceeding and to perform necessary and appropriate legal services on his behalf; to present relevant facts to the judge at the adjudicatory hearing and to explore options with the judge at the dispositional hearing; to protect and promote the best interest of the juvenile until formally relieved of the responsibility by the judge; and to appeal, when advisable, from an adjudication or order of disposition to the Court of Appeals.

The judge may order the Department of Social Services or the guardian ad litem to conduct follow-up investigations to insure that the orders of the court are being properly executed and to report to the court when the needs of the juvenile are not being met. The judge may also authorize the guardian ad litem to appear with the juvenile in any criminal action wherein he may be called on to testify in a matter relating to abuse.
The guardian ad litem shall be an attorney-at-law, licensed to practice in the State of North Carolina. In no case may the judge appoint a public defender as guardian ad litem. The judge may grant the guardian ad litem the authority to demand any information or reports whether or not confidential, that may in the guardian ad litem's opinion be relevant to the case. Neither the physician-patient privilege nor the husband-wife privilege may be invoked to prevent the guardian ad litem and the court from obtaining such information. The confidentiality of the information or reports shall be respected by the guardian ad litem and no disclosure of any information or reports shall be made to anyone except by order of the judge.

"§ 7A-546.1. Parent's right to counsel.—In cases where the juvenile petition alleges that a juvenile is abused, neglected or dependent, the parent has the right to counsel and to appointed counsel in cases of indigency unless the parent waives the right.

"§ 7A-547. Payment of court appointed attorney or guardian ad litem.—An attorney or guardian ad litem appointed pursuant to G.S. 7A-544, G.S. 7A-546 or G.S. 7A-546.1 of this Article shall be paid a reasonable fee fixed by the court in the same manner as fees for attorneys appointed in cases of indigency. The judge may require the parent or a custodian other than a Department of Social Services to pay the attorney's fee or reimburse the State unless the parent or custodian is indigent. The test of the parent's or custodian's ability to pay shall be the test applied to appointment of an attorney in cases of indigency. A person who does not comply with the court's order of payment may be punished for contempt as provided in G.S. 5A-21.

"ARTICLE 48.

"Law Enforcement Procedures in Delinquency Proceedings.

"§ 7A-548. Role of the law enforcement officer.—A law enforcement officer, when he takes a juvenile into temporary custody, should select the least restrictive course of action appropriate to the situation and needs of the juvenile from the following:

(1) To divert the juvenile from the court by
   (a) release;
   (b) counsel and release;
   (c) release to parents;
   (d) referral to community resources;

(2) To seek a petition;

(3) To seek a petition and request a custody order.

"§ 7A-549. Interrogation procedures.—(1) Any juvenile in custody must be advised prior to questioning:
   (a) that he has a right to remain silent; and
   (b) that any statement he does make can be and may be used against him; and
   (c) that he has a right to have a parent, guardian or custodian present during questioning; and
   (d) that he has a right to consult with an attorney and that one will be appointed for him if he is not represented and wants representation.

(2) When the juvenile is less than 14 years of age, no in-custody admission or confession resulting from interrogation may be admitted into evidence unless the confession or admission was made in the presence of the juvenile's parent, guardian, custodian, or attorney. If an attorney is not present, the parent,
guardian, or custodian as well as the juvenile must be advised of the juvenile's rights as set out in subsection (1); however, a parent, guardian, or custodian may not waive any right on behalf of the juvenile.

(3) If the juvenile indicates in any manner and at any stage of questioning pursuant to this section that he does not wish to be questioned further, the officer shall cease questioning.

(4) Before admitting any statement resulting from custodial interrogation into evidence, the judge must find that the juvenile knowingly, willingly, and understandingly waived his rights.

"§ 7A-550. Authority to issue nontestimonial order in the case of juveniles alleged to be delinquent.—Nontestimonial identification procedures shall not be conducted on any juvenile without a court order issued pursuant to this Article. A nontestimonial identification order authorized by this Article may be issued by any judge of the District Court or of the Superior Court upon request of a prosecutor. As used in this Article, 'nontestimonial identification' means identification by fingerprints, palm prints, footprints, measurements, blood specimens, urine specimens, saliva samples, hair samples, or other reasonable physical examination, handwriting exemplars, voice samples, photographs, and lineups or similar identification procedures requiring the presence of a juvenile.

"§ 7A-551. Time of application.—A request for a nontestimonial identification order may be made prior to taking a juvenile into custody or after custody and prior to the adjudicatory hearing or prior to trial in Superior Court where a case is transferred pursuant to Article 49 of this act.

"§ 7A-552. Basis for order.—An order may issue only on affidavit or affidavits sworn to before the judge and establishing the following grounds for the order:

(1) that there is probable cause to believe that an offense has been committed which if committed by an adult would be punishable by imprisonment for more than two years; and

(2) that there are reasonable grounds to suspect that the juvenile named or described in the affidavit committed the offense; and

(3) that the results of specific nontestimonial identification procedures will be of material aid in determining whether the juvenile named in the affidavit committed the offense.

"§ 7A-554. Nontestimonial identification order at request of juvenile.—A juvenile in custody for or charged with an offense which if committed by an adult would be punishable by imprisonment for more than two years may request that nontestimonial identification procedures be conducted upon himself. If it appears that the results of specific nontestimonial identification procedures will be of material aid to the juvenile's defense, the judge to whom the request was directed must order the State to conduct the identification procedures.

"§ 7A-555. Destruction of records resulting from nontestimonial procedures.—The results of any nontestimonial identification procedures shall be retained or disposed of as follows:
CHAPTER 815  Session Laws—1979

(1) If a petition is not filed against a juvenile who has been the subject of nontestimonial identification procedures, all records of such evidence shall be destroyed.

(2) If in the District Court or Superior Court pursuant to a transfer a juvenile is found not guilty, all records resulting from a nontestimonial order shall be destroyed. Further, in the case of a juvenile who is under 14 years of age and who is adjudicated to have committed a delinquent act, which would be less than a felony had the juvenile been an adult, all records shall be destroyed.

(3) If a juvenile 14 years of age or older is found to have committed a delinquent act which would be a felony if committed by an adult, all records resulting from a nontestimonial order may be retained in the court file. Special precautions shall be taken to ensure that these records will be maintained in such a manner and under such safeguards as to limit their use to inspection for comparison purposes by law enforcement officers only in the investigation of a crime.

(4) If the juvenile is transferred to Superior Court, all records resulting from nontestimonial identification procedures shall be processed as in the case of an adult.

(5) Any evidence seized pursuant to a nontestimonial order shall be retained by law enforcement officers until further order is entered by the court.

(6) Destruction of nontestimonial identification records pursuant to this section shall be performed by the law enforcement agency having possession of provisions of this Article which prohibit conducting nontestimonial identification procedures without an order issued by a judge shall be guilty of a misdemeanor.”

“ARTICLE 49.

“Transfer to Superior Court.

“§7A-557. Transfer of jurisdiction of juvenile to Superior Court.—The court after notice, hearing, and a finding of probable cause may transfer jurisdiction over a juvenile 14 years of age or older to Superior Court if the juvenile was 14 years of age or older at the time he allegedly committed an offense which would be a felony if committed by an adult. If the alleged felony constitutes a capital offense and the judge finds probable cause, the judge shall transfer the case to the Superior Court for trial as in the case of adults.

“§7A-558. Probable-cause hearing.—(1) The judge shall conduct a hearing to determine probable cause in all felony cases in which a juvenile was 14 years of age or older when the offense was allegedly committed unless counsel for the juvenile waives in writing his right to the hearing and stipulates to a finding of probable cause.

(2) At the probable-cause hearing,

(a) a prosecutor must represent the State;
(b) the juvenile may be represented by counsel in accordance with G.S. 7A-544;
(c) the juvenile may testify as a witness in his own behalf and call and examine other witnesses and produce other evidence in his behalf; and
(d) each witness must testify under oath or affirmation and be subject to cross-examination.
(3) The State must by nonhearsay evidence, or by evidence that satisfies an exception to the hearsay rule, show that there is probable cause to believe that the offense charged has been committed and that there is probable cause to believe that the juvenile committed it, except:

(a) a report or copy of a report made by a physicist, chemist, firearms identification expert, fingerprint technician, or an expert or technician in some other scientific, professional, or medical field, concerning the results of an examination, comparison, or test performed by him in connection with the case in issue, when stated by that person in a report made by him, is admissible in evidence;

(b) if there is no serious contest, reliable hearsay is admissible to prove value, ownership of property, possession of property in another than the juvenile, lack of consent of the owner, possessor, or custodian of property to the breaking or entering of premises, chain of custody, and authenticity of signatures.

(4) The juvenile’s attorney has the right to examine any court or probation records considered by the court in exercising its discretion to transfer the case.

“§7A-559. Where probable cause is established.—(1) If probable cause is found, the prosecutor or the juvenile may move that the case be transferred to the Superior Court for trial as in the case of adults. If the alleged felony does not constitute a capital offense, the judge may proceed to determine whether the needs of the juvenile or the best interest of the State will be served by transfer of the case to Superior Court for trial as in the case of adults.

(2) If probable cause is not found, the judge shall dismiss the proceeding.

(3) Any order of transfer shall specify the reasons for transfer.

(4) A finding of no probable cause shall not preclude the judge from adjudicating the juvenile delinquent for the commission of a lesser included offense.

“§7A-560. Right to bail, detention.—Once the order of transfer has been entered, the juvenile has the right to pretrial release as provided in G.S. 15A-533 and G.S. 15A-534. Pending release under this Article, the judge may order that the juvenile be detained in a juvenile detention home or a separate section of a local jail as provided by G.S. 7A-541.

“§7A-561. Double jeopardy prohibited.—Jeopardy attaches in an adjudicatory hearing when the judge begins to hear evidence.

“ARTICLE 50.

“Discovery.

“§7A-562. Disclosure of evidence by the petitioner.—(1) Statement of the juvenile. Upon motion of a juvenile alleged to be delinquent, the judge shall order the petitioner:

(a) to permit the juvenile to inspect and copy any relevant written or recorded statements within the possession, custody, or control of the petitioner made by the juvenile or any other party charged in the same action; and

(b) to divulge, in written or recorded form, the substance of any oral statement made by the juvenile or any other party charged in the same action.

(2) Names of witnesses. Upon motion of the juvenile, the judge shall order the petitioner to furnish the names of persons to be called as witnesses. A copy of
the record of witnesses under the age of 16 shall be provided by the petitioner to
the juvenile upon his motion if accessible to the petitioner.

(3) Documents and tangible objects. Upon motion of the juvenile, the judge
shall order the petitioner to permit the juvenile to inspect and copy books,
papers, documents, photographs, motion pictures, mechanical or electronic
recordings, tangible objects, or portions thereof:
(a) which are within the possession, custody, or control of the petitioner,
   the prosecutor, or any law enforcement officer conducting an
   investigation of the matter alleged; and
(b) which are material to the preparation of his defense, are intended for
   use by the petitioner as evidence, and were obtained from or belong to
   the juvenile.

(4) Reports of examinations and tests. Upon motion of a juvenile, the judge
shall order the petitioner to permit the juvenile to inspect and copy results of
physical or mental examinations or of tests, measurements or experiments made
in connection with the case, within the possession, custody, or control of the
petitioner. In addition upon motion of a juvenile, the judge shall order the
petitioner to permit the juvenile to inspect, examine, and test, subject to
appropriate safeguards, any physical evidence or a sample of it or tests or
experiments made in connection with the evidence in the case if it is available
to the petitioner, the prosecutor, or any law enforcement officer conducting an
investigation of the matter alleged and if the petitioner intends to offer the
evidence at trial.

(5) Except as provided in subsections (1) through (4), this Article does not
require the production of reports, memoranda, or other internal documents
made by the petitioner, law enforcement officers, or other persons acting on
behalf of the petitioner in connection with the investigation or prosecution of
the case or of statements made by witnesses or the petitioner to anyone acting
on behalf of the petitioner.

(6) Nothing in this section prohibits a petitioner from making voluntary
disclosures in the interest of justice.

Upon motion of the petitioner, the judge shall order the juvenile to furnish to
the petitioner the names of persons to be called as witnesses.

(2) Documents and tangible objects. If the court grants any relief sought by
the juvenile under G.S. 7A-562, subsection (3), upon motion of the petitioner the
display shall order the juvenile to permit the petitioner to inspect and copy books,
papers, documents, photographs, motion pictures, mechanical or electronic
recordings, tangible objects, or portions thereof which are within the possession,
custody, or control of the juvenile and which the juvenile intends to introduce
in evidence.

(3) Reports of examinations and tests. If the court grants any relief sought by
the juvenile under G.S. 7A-562, subsection (4), upon motion of the petitioner,
the judge shall order the juvenile to permit the petitioner to inspect and copy
results of physical or mental examinations or of tests, measurements or
experiments made in connection with the case within the possession and control
of the juvenile which he intends to introduce in evidence or which were
prepared by a witness whom he intends to call if the results relate to the
witness's testimony. In addition, upon motion of a petitioner, the judge shall
order the juvenile to permit the petitioner to inspect, examine, and test, subject
to appropriate safeguards, any physical evidence or a sample of it if the juvenile intends to offer the evidence or tests or experiments made in connection with the evidence in the case.

§7A-564. Regulation of discovery; protective orders.—(1) Upon written motion of a party and a finding of good cause, the judge may at any time order that discovery or inspection be denied, restricted, or deferred.

(2) The judge may permit a party seeking relief under subsection (1) to submit supporting affidavits or statements to the court for in camera inspection. If thereafter, the judge enters an order granting relief under subsection (1), the material submitted in camera must be available to the Court of Appeals in the event of an appeal.

§7A-565. Continuing duty to disclose.—If a party, subject to compliance with an order issued pursuant to this Article, discovers additional evidence prior to or during the hearing or decides to use additional evidence, and if the evidence is or may be subject to discovery or inspection under this Article, he shall promptly notify the other party of the existence of the additional evidence or of the name of each additional witness.

"ARTICLE 51.

"Hearing Procedures.

§7A-566. Amendment of petition.—The judge may permit a petition to be amended when the amendment does not change the nature of the offense alleged or the conditions upon which the petition is based. If a motion to amend is allowed, the juvenile shall be given a reasonable opportunity to prepare a defense to the amended allegations.

§7A-567. Determination of incapacity to proceed; evidence; temporary commitment; temporary orders.—The provisions of G.S. 15A-1001, G.S. 15A-1002, and G.S. 15A-1003 apply to all cases in which a juvenile is alleged to be delinquent. No juvenile committed under this section may be placed in a situation where he will come in contact with adults committed for any purpose.

§7A-568. Adjudicatory hearing.—The adjudicatory hearing shall be held in the district at such time and place as the Chief District Judge shall designate. The judge may exclude the public from the hearing unless the juvenile moves that the hearing be open, which motion shall be granted.

§7A-569. Participation of the prosecutor.—A prosecutor from the District Attorney's office shall represent the State in contested delinquency hearings.

§7A-570. Conduct of hearing.—(1) The adjudicatory hearing shall be a judicial process designed to adjudicate the existence or nonexistence of any of the conditions alleged in a petition. In the adjudicatory hearing, the judge shall protect the following rights of the juvenile and his parent to assure due process of law: the right to written notice of the facts alleged in the petition, the right to counsel, the right to confront and cross-examine witnesses, the privilege against self-incrimination, the right of discovery and all rights afforded adult offenders except the right to bail, the right of self-representation, and the right of trial by jury.

§7A-571. Continuances.—The judge may continue at any time any case to allow additional factual evidence, social information or other information needed in the best interest of the juvenile or in the interest of justice.

§7A-572. Where allegations of a delinquent or undisciplined act are admitted.—(1) A judge may accept an admission from a juvenile only after first addressing him personally and
(a) informing him that he has a right to remain silent and that any
statement he makes may be used against him;
(b) determining that he understands the nature of the charge;
(c) informing him that he has a right to deny the allegations;
(d) informing him that by his admissions he waives his right to be
confronted by the witnesses against him;
(e) determining that the juvenile is satisfied with his representation; and
(f) informing him of the most restrictive disposition on the charge.

(2) By inquiring of the prosecutor, the juvenile’s attorney, and the juvenile
personally, the judge shall determine whether there were any prior discussions
involving admissions, whether the parties have entered into any arrangement
with respect to the admissions and the terms thereof, and whether any
improper pressure was exerted. The judge may accept an admission from a
juvenile only after determining that the admission is a product of informed
choice.

(3) The judge may accept an admission only after determining that there is a
factual basis for the admission. This determination may be based upon any of
the following information: a statement of the facts by the prosecutor; a written
statement of the juvenile; sworn testimony which may include reliable hearsay;
or a statement of facts by the juvenile’s attorney.

“§ 7A-573. Rules of evidence.—(1) Where delinquent or undisciplined
behavior is alleged and the allegation is denied, the court shall proceed in
accordance with the rules of evidence applicable to criminal cases. In addition,
no statement made by a juvenile to the intake counselor during the preliminary
inquiry and evaluation process shall be admissible against the juvenile prior to
the dispositional hearing.

(2) Where the juvenile is alleged to be abused, neglected or dependent, the
rules of evidence in civil cases shall apply.

“§ 7A-574. Quantum of proof in adjudicatory hearing.—The allegations of a
petition alleging the juvenile is delinquent shall be proved beyond a reasonable
doubt. The allegations in a petition alleging abuse, neglect, dependence, or
undisciplined behavior shall be proved by clear and convincing evidence.

“§ 7A-575. Record of proceedings.—All adjudicatory and dispositional
hearings and hearings on transfer to superior court shall be recorded by
stenographic notes or by electronic or mechanical means. Records shall be
reduced to a written transcript only when timely notice of appeal has been
given. The judge may order that other hearings be recorded.

“§ 7A-576. Adjudication.—If the judge finds that the allegations in the
petition have been proved as provided in G.S. 7A-574, he shall so state. If the
judge finds that the allegations have not been proven, he shall dismiss the
petition with prejudice and the juvenile shall be released from secure or
nonsecure custody.

“§ 7A-577. Legal effect of adjudication of delinquency.—An adjudication that
a juvenile is delinquent or commitment of a juvenile to the Division of Youth
Services shall neither be considered conviction of any criminal offense nor cause
the juvenile to forfeit any citizenship rights.

“§ 7A-578. Predisposition investigation and report.—The judge shall proceed
to the dispositional hearing upon receipt of sufficient social, medical,
psychiatric, psychological, and educational information. No predisposition
report shall be submitted to or considered by the judge prior to the completion
of the adjudicatory hearing. The judge shall permit the juvenile to inspect any predisposition report to be considered by him in making his disposition unless the judge determines that disclosure would seriously harm his treatment or rehabilitation or would violate a promise of confidentiality. Opportunity to offer evidence in rebuttal shall be afforded the juvenile and his parent, guardian, or custodian at the dispositional hearing. The judge may order counsel not to disclose parts of the report to the juvenile or the juvenile's parent, guardian, or custodian if the judge finds that disclosure would seriously harm the treatment or rehabilitation of the juvenile or would violate a promise of confidentiality given to a source of information.

“§ 7A-579. Dispositional hearing.—The dispositional hearing may be informal, and the judge may consider written reports or other evidence concerning the needs of the juvenile. The juvenile and his parent, guardian, or custodian shall have an opportunity to present evidence, and they may advise the judge concerning the disposition they believe to be in the best interest of the juvenile.

“ARTICLE 52.

“Dispositions.

“§ 7A-580. Purpose.—The purpose of dispositions in juvenile actions is to design an appropriate plan to meet the needs of the juvenile and to achieve the objectives of the State in exercising jurisdiction. If possible, the initial approach should involve working with the juvenile and his family in their own home so that the appropriate community resources may be involved in care, supervision, and treatment according to the needs of the juvenile. Thus, the judge should arrange for appropriate community-level services to be provided to the juvenile and his family in order to strengthen the home situation.

In choosing among statutorily permissible dispositions for a delinquent juvenile, the judge shall select the least restrictive disposition both in terms of kind and duration, that is appropriate to the seriousness of the offense, the degree of culpability indicated by the circumstances of the particular case and the age and prior record of the juvenile. A juvenile should not be committed to training school or to any other institution if he can be helped through community-level resources.

“§ 7A-581. Dispositional alternatives for the delinquent, undisciplined, abused, neglected, or dependent juvenile.—The following alternatives for disposition shall be available to any judge exercising jurisdiction, and the judge may combine any two of the applicable alternatives when he finds such disposition to be in the best interest of the juvenile:

(1) The judge may dismiss the case, or continue the case in order to allow the juvenile, parent, or others to take appropriate action.

(2) In the case of any juvenile who needs more adequate care or supervision or who needs placement, the judge may:

(a) require that he be supervised in his own home by the department of social services in his county, a court counselor or other personnel as may be available to the court, subject to conditions applicable to the parent or the juvenile as the judge may specify; or

(b) place him in the custody of a parent, relative, private agency offering placement services, or some other suitable person; or

(c) place him in the custody of the department of social services in the county of his residence, or in the case of a juvenile who has legal
residence outside the State, in the physical custody of the department of social services in the county where he is found so that agency may return the juvenile to the responsible authorities in his home state. Any department of social services in whose custody or physical custody a juvenile is placed shall have the authority to arrange for and provide medical care as needed for such juvenile.

(3) In any case, the judge may order that the juvenile be examined by a physician, psychiatrist, psychologist or other qualified expert as may be needed for the judge to determine the needs of the juvenile. If the judge finds the juvenile to be in need of medical, surgical, psychiatric, psychological or other treatment, he shall allow the parent or other responsible persons to arrange for care. If the parent declines or is unable to make necessary arrangements, the judge may order the needed treatment, surgery or care, and the judge may order the parent to pay the cost of such care pursuant to G.S. 7A-584. If the judge finds the parent is unable to pay the cost of care, the judge may charge the cost to the county. If the judge believes, or if there is evidence presented to the effect that the juvenile is mentally ill or is mentally retarded the judge shall refer him to the area mental health director or local mental health director for appropriate action. A juvenile shall not be committed directly to a State hospital or mental retardation center; and orders purporting to commit a juvenile directly to a State hospital or mental retardation center except for an examination to determine capacity to proceed shall be void and of no effect. The area mental health director or local mental health director shall be responsible for arranging an interdisciplinary evaluation of the juvenile and mobilizing resources to meet his needs. If institutionalization is determined to be the best service for the juvenile, admission shall be with the voluntary consent of the parent or guardian. If the parent, guardian, or custodian refuses to consent to a mental hospital or retardation center admission after such institutionalization is recommended by the area mental health director, the signature and consent of the judge may be substituted for that purpose. In all cases in which a regional mental hospital refuses admission to a juvenile referred for admission by a judge and an area mental health director or discharges a juvenile previously admitted on court referral prior to completion of his treatment, the hospital shall submit to the judge a written report setting out the reasons for denial of admission or discharge and setting out the juvenile's diagnosis, indications of mental illness, indications of need for treatment, and a statement as to the location of any facility known to have a treatment program for the juvenile in question.

"§ 7A-582. Dispositional alternatives for delinquent or undisciplined juvenile.—In the case of any juvenile who is delinquent or undisciplined, the judge may:

(1) continue the case for no more than six months in order to allow the family an opportunity to meet the needs of the juvenile through more adequate home supervision, through placement in a private or specialized school or agency, through placement with a relative, or through some other plan approved by the court;

(2) place the juvenile under the protective supervision of a court counselor for no more than one year so that the court counselor may assist the juvenile in securing social, medical, and educational services and may work with the family as a unit to insure the juvenile is provided proper supervision and care;
(3) excuse the juvenile from compliance with the compulsory school attendance law when the judge finds that suitable alternative plans can be arranged by the family through other community resources for one of the following: an education related to the needs or abilities of the juvenile including vocational education or special education; a suitable plan of supervision or placement; or some other plan that the judge finds to be in the best interest of the juvenile.

§ 7A-583. Dispositional alternatives for delinquent juvenile.—In the case of any juvenile who is delinquent, the judge may:

(1) suspend imposition of a more severe, statutorily permissible disposition with the provision that the juvenile meet certain conditions agreed to by him and specified in the dispositional order. The conditions shall not exceed the maximum criminal sanction permissible for the offense;

(2) require restitution, full or partial, payable within a 12-month period to any person who has suffered loss or damage as a result of the offense committed by the juvenile. The judge may determine the amount, terms, and conditions of the restitution. If the juvenile participated with another person or persons, all participants should be jointly and severally responsible for the payment of restitution; however, the judge shall not require the juvenile to make restitution if the juvenile satisfies the court that he does not have, and could not reasonably acquire, the means to make restitution;

(3) impose a fine related to the seriousness of the juvenile's offense. If the juvenile has the ability to pay the fine, it shall not exceed the maximum fine for the offense if committed by an adult;

(4) order the juvenile to perform supervised community service consistent with the juvenile's age, skill, and ability, specifying the nature of the work and the number of hours required. The work shall be related to the seriousness of the juvenile's offense and in no event may the obligation to work exceed 12 months;

(5) order the juvenile to a supervised day program, requiring him to be present at a specified place for all or part of every day or of certain days. The judge also may require the juvenile to comply with any other reasonable conditions specified in the dispositional order that are designed to facilitate supervision;

(6) order the juvenile to a community-based program of academic or vocational education or to a professional residential or nonresidential treatment program. Participation in the programs shall not exceed 12 months;

(7) impose confinement on an intermittent basis in an approved detention facility. Confinement shall be limited to:

(a) night custody for no more than a total of five nights; or

(b) weekend custody for no more than a total of two weekends;

Confinement in either case shall be completed within a period of 60 days from the date of disposition.

(8) place the juvenile on probation under the supervision of a court counselor. The judge shall specify conditions of probation that are related to the needs of the juvenile including any of the following which apply:

(a) that the juvenile shall remain on good behavior and not violate any laws;
(b) that the juvenile attend school regularly;
(c) that the juvenile not associate with specified persons or be in specified places;
(d) that the juvenile report to a court counselor as often as required by a court counselor;
(e) that the juvenile make specified financial restitution or pay a fine in accordance with subsections (2) and (3);
(f) that the juvenile be employed regularly if not attending school.

An order of probation shall remain in force for a period not to exceed one year from the date entered. Prior to expiration of an order of probation, the judge may extend it for an additional period of one year after a hearing if he finds that the extension is necessary to protect the community or to safeguard the welfare of the juvenile:

(9) order that the juvenile shall not be licensed to operate a motor vehicle in the State of North Carolina for as long as the court retains jurisdiction over the juvenile or for any shorter period of time;

(10) commit the juvenile to the Division of Youth Services in accordance with G.S. 7A-586.

“§7A-584. Authority over parents of juvenile adjudicated as delinquent, undisciplined, abused, neglected, or dependent.—(1) If the judge orders medical, surgical, psychiatric, psychological, or other treatment pursuant to G.S. 7A-581 (3), the judge may order the parent or other responsible parties to pay the cost of the treatment or care ordered.

(2) The judge may order the parent to provide transportation for a juvenile to keep an appointment with a court counselor.

(3) Whenever legal custody of a juvenile is vested in someone other than his parent, after due notice to the parent and after a hearing, the judge may order that the parent pay a reasonable sum that will cover in whole or in part the support of the juvenile after the order is entered. If the judge places a juvenile in the custody of a county department of social services and if the judge finds that the parent is unable to pay the cost of the support required by the juvenile, the cost shall be paid by the county department of social services in whose custody the juvenile is placed, provided the juvenile is not receiving care in an institution owned or operated by the State or federal government or any subdivision thereof.

(4) Failure of a parent who is personally served to participate in or comply with subsections (1) through (3) may result in a civil proceeding for contempt.

“§7A-585. Dispositional order.—The dispositional order shall be in writing and shall contain appropriate findings of fact and conclusions of law. The judge shall state with particularity, both orally and in the written order of disposition, the precise terms of the disposition including the kind, duration and the person who is responsible for carrying out the disposition and the person or agency in whom custody is vested.

“§7A-586. Commitment of a delinquent juvenile to the Division of Youth Services.—(1) A delinquent juvenile 10 years of age or more may be committed to the Division of Youth Services for placement in one of the residential facilities operated by the Division if the judge finds that the alternatives to commitment as contained in G.S. 7A-583 have been attempted unsuccessfully or are inappropriate and that the juvenile’s behavior constitutes a threat to persons or property in the community.
(2) Commitment shall be for:
   (a) an indefinite term not to exceed the eighteenth birthday of the juvenile; or
   (b) a definite term not to exceed two years if the judge finds that the juvenile is 14 years of age or older, has been previously adjudicated delinquent for two or more felony offenses, and has been previously committed to a residential facility operated by the Division of Youth Services. The Division may reduce the duration of the definite commitment by an amount not to exceed twenty-five percent (25%) if the juvenile has not committed any major infractions of the regulations of any facility to which he is assigned, and the Division of Youth Services may move for a reduction of more than twenty-five percent (25%) pursuant to G.S. 7A-593.

(3) In no event shall commitment be for a period of time in excess of that period for which an adult could be committed.

(4) The Chief Court Counselor shall have the responsibility for transporting the juvenile to the residential facility designated by the Division of Youth Services. The juvenile shall be accompanied to the residential facility by a person of the same sex.

(5) The Division of Youth Services shall accept all juveniles who have been committed for delinquency if the Director finds that the criteria specified in this section have been met. A commitment order accompanied by information requested by the Director shall be forwarded to the Division. The Director shall place the juvenile in the residential facility that would best provide for his needs and shall notify the committing court. The Secretary of the Department of Human Resources may assign a juvenile committed for delinquency to any institution or other program of the Department or licensed by the Department, which program is appropriate to the needs of the juvenile.

(6) When the judge commits a juvenile to the Division of Youth Services, the Director shall prepare a plan for care or treatment within 15 days after assuming custody of the juvenile.

(7) Commitment of a juvenile to the Division of Youth Services does not terminate the court’s continuing jurisdiction rights over the juvenile and his parent or guardian. Commitment of a juvenile to the Division of Youth Services transfers only physical custody of the juvenile to the Division. Legal custody remains with the parent, guardian, agency or institution in whom it was vested.

§ 7A-587. Transfer authority of Governor.—The Governor may order transfer of any person less than 18 years of age from any jail or penal facility of the State to one of the residential facilities operated by the Division of Youth Services in appropriate circumstances, provided the Governor shall consult with the Department of Human Resources concerning the feasibility of the transfer in terms of available space, staff, and suitability of program.

When an inmate, committed to the Department of Correction, is transferred by the Governor to a residential program operated by the Division of Youth Services, the Division of Youth Services may release the juvenile based on the needs of the juvenile and the best interests of the State. Transfer shall not divest the probation-parole officer of his responsibility to supervise the inmate on release.

§ 7A-588. Prerelease planning.—The Director of the Division of Youth Services shall be responsible for evaluation of the progress of each juvenile at
least once every six months as long as the juvenile remains in the care of the Division. If the director determines that a juvenile is ready for release, he shall initiate a prerelease planning process. The prerelease planning process shall be defined by rules and regulations of the Division of Youth Services, but shall include the following:

(1) written notification to the judge who ordered commitment;
(2) a prerelease planning conference shall be held involving as many as possible of the following: the juvenile, his parent, court counselors who have supervised the juvenile on probation or will supervise him on aftercare, and staff of the facility that found the juvenile ready for release. The prerelease planning conference shall include personal contact and evaluation rather than telephonic notification.

"§ 7A-589. Conditional release and final discharge.—The Division of Youth Services shall release a juvenile either by conditional release or by final discharge. The decision as to which type of release is appropriate shall be made by the director based on the needs of the juvenile and the best interests of the State under rules and regulations governing release which shall be promulgated by the Division of Youth Services, according to the following guidelines:

(1) Conditional release is appropriate for a juvenile needing supervision after leaving the institution. As part of the prerelease planning process, the terms of conditional release shall be set out in writing and a copy given to the juvenile, his parent, the committing court, and the court counselor who will provide aftercare supervision.
(2) Final discharge is appropriate when the juvenile does not require supervision or is 18 years of age.

"§ 7A-590. Revocation of conditional release.—If a juvenile does not conform to the terms of his conditional release, the court counselor providing aftercare supervision may make a motion for review in the court in the district where the juvenile has been residing during aftercare supervision. The judge shall hold a hearing to determine whether there has been a violation. With respect to any hearing pursuant to this section, the juvenile:

(1) shall have reasonable notice in writing of the nature and content of the allegations in the petition, including notice that the purpose of the hearing is to determine whether the juvenile has violated the terms of his conditional release to the extent that his conditional release should be revoked;
(2) shall be permitted to be represented by an attorney at the hearing;
(3) shall have the right to confront and cross-examine any persons who have made allegations against him;
(4) may admit, deny, or explain the violation alleged and may present proof, including affidavits or other evidence, in support of his contentions. A record of the proceeding shall be made and preserved in the juvenile’s record.

If the judge determines that the juvenile has violated the terms of his conditional release, the judge may revoke the conditional release or make any other disposition authorized by this act.

If the judge revokes the conditional release, the Chief Court Counselor shall have the responsibility for returning the juvenile to the facility specified by the Division of Youth Services.

"§ 7A-591. Review of custody order.—In any case where the judge removes custody from a parent or person standing in loco parentis because of dependency, neglect or abuse, the juvenile shall not be returned to the parent or
person standing in loco parentis unless the judge finds sufficient facts to show that the juvenile will receive proper care and supervision.

In any case where custody is removed from a parent, the judge shall conduct a review within six months of the date the order was entered, and shall conduct subsequent reviews at least every year thereafter. The Director of Social Services shall make timely requests to the clerk to calendar the case at a session of court scheduled for the hearing of juvenile matters within six months of the date the order was entered. The director shall make timely requests for calendaring of the yearly reviews thereafter. The clerk shall give 15 days' notice of the review to the parent or the person standing in loco parentis, the juvenile if 12 years of age or more, the guardian, foster-parent, custodian or agency with custody, the guardian ad litem, and any other person the court may specify, indicating the court's impending review.

The court shall consider information from the Department of Social Services; the juvenile court counselor, the custodian, guardian, the parent or the person standing in loco parentis, the foster-parent, the guardian ad litem, and any public or private agency which will aid it in its review.

In each case the court shall consider the following criteria:
(a) services which have been offered to reunite the family;
(b) where the juvenile's return home is unlikely, the efforts which have been made to evaluate or plan for other methods of care;
(c) goals of the foster care placement and the appropriateness of the foster care plan;
(d) a new foster care plan, if continuation of care is sought, that addresses the role the current foster parent will play in the planning for the juvenile;
(e) reports on the placements the juvenile has had and any services offered to the juvenile and the parent;
(f) when and if termination of parental rights should be considered;
(g) any other criteria the court deems necessary.

The judge, after making findings of fact, shall enter an order continuing the placement under review or providing for a different placement as is deemed to be in the best interest of the juvenile. If at any time custody is restored to a parent, the court shall be relieved of the duty to conduct periodic judicial reviews of the placement.

"§ 7A-592. Probation review.—The judge may review the progress of any juvenile on probation at any time during the period of probation or at the end of probation. The conditions or duration of probation may be modified only as provided in this act and only after there is notice and a hearing. If a juvenile violates the conditions of his probation, he and his parent after notice, may be required to appear before the court and the judge may make any disposition of the matter authorized by this act. At the end of or at any time during probation, the judge may terminate probation by written order upon finding that there is no further need for supervision. The finding and order terminating probation may be entered in chambers in the absence of the juvenile and may be based on a report from the court counselor or at the election of the judge, it may be entered with the juvenile present after notice and a hearing.

"ARTICLE 53.
"Modification and Enforcement

995
CHAPTER 815    Session Laws—1979

§ 7A-593. Authority to modify or vacate.—(1) Upon motion in the cause or petition, and after notice, the judge may conduct a review hearing to determine whether the order of the court is in the best interest of the juvenile, and the judge may modify or vacate the order in light of changes in circumstances or the needs of the juvenile.

(2) In a case of delinquency, the judge may reduce the nature or the duration of the disposition on the basis that it exceeds the statutory maximum, was imposed in an illegal manner or is unduly severe with reference to the seriousness of the offense, the culpability of the juvenile, or the dispositions given to juveniles convicted of similar offenses.

(3) In any case where the judge finds the juvenile to be delinquent, undisciplined, abused, neglected, or dependent, the jurisdiction of the court to modify any order or disposition made in the case shall continue during the minority of the juvenile or until terminated by order of the court.

§ 7A-594. Request for modification for lack of suitable services.—If the Director of the Division of Youth Services finds that any juvenile committed to the Division’s care is not suitable for its program the Director may make a motion in the cause so that the judge may make an alternative disposition.

§ 7A-595. Right to appeal.—Upon motion of a proper party as defined in G.S. 7A-596, review of any final order of the court in a juvenile matter under this Article shall be before the Court of Appeals. Notice of appeal shall be given in open court at the time of the hearing or in writing within 10 days after entry of the order. However, if no disposition is made within 60 days after entry of the order, written notice of appeal may be given within 70 days after such entry. A final order shall include:

(1) any order finding absence of jurisdiction;
(2) any order which in effect determines the action and prevents a judgment from which appeal might be taken;
(3) any order of disposition after an adjudication that a juvenile is delinquent, undisciplined, abused, neglected, or dependent; or
(4) any order modifying custodial rights.

§ 7A-596. Proper parties for appeal.—An appeal may be taken by the juvenile; the juvenile’s parent, guardian, or custodian; the State or county agency. The State’s appeal is limited to the following:

(1) any final order in cases other than delinquency or undisciplined cases;
(2) the following orders in delinquency or undisciplined cases:
   (a) an order finding a State statute to be unconstitutional;
   (b) any order which terminates the prosecution of a petition by upholding the defense of double jeopardy, by holding that a cause of action is not stated under a statute, or by granting a motion to suppress.

§ 7A-597. Disposition pending appeal.—Pending disposition of an appeal, the release of the juvenile, with or without conditions, should issue in every case unless the judge orders otherwise. For compelling reasons which must be stated in writing, the judge may enter a temporary order affecting the custody or placement of the juvenile as he finds to be in the best interest of the juvenile or the State.

§ 7A-598. Disposition after appeal.—Upon the affirmation of the order of adjudication or disposition of the court by the Court of Appeals or by the Supreme Court in the event of such an appeal, the judge shall have authority to
modify or alter his original order of adjudication or disposition as he finds to be in the best interest of the juvenile to reflect any adjustment made by the juvenile or change in circumstances during the period of time the appeal was pending. If the modifying order is entered ex parte, the court shall give notice to interested parties to show cause within 10 days thereafter as to why the modifying order should be vacated or altered.

"ARTICLE 54.

"Juvenile Records and Social Reports.

"§ 7A-599. Confidentiality of records.—(1) The Clerk of Superior Court shall maintain a complete record of all juvenile cases filed in his office to be known as the juvenile record, which shall be withheld from public inspection and may be examined only by order of the judge, except that the juvenile, his parent, guardian, custodian, or other authorized representative of the juvenile shall have a right to examine the juvenile’s record. The record shall include the summons, petition, custody order, court order, written motions, the electronic or mechanical recording of the hearing, and other papers filed in the proceeding. The recording of the hearing shall be reduced to a written transcript only when notice of appeal has been timely given. After the time for appeal has expired with no appeal having been filed, the recording of the hearing may be erased or destroyed upon the written order of the judge.

(2) The Chief Court Counselor shall maintain a record of the cases of juveniles under supervision by court counselors which shall include family background information; reports of social, medical, psychiatric, or psychological information concerning a juvenile or his family; a record of the probation reports of a juvenile; interviews with his family; or other information which the judge finds should be protected from public inspection in the best interest of the juvenile.

(3) The Director of the Department of Social Services shall maintain a record of the cases of juveniles under protective custody by his Department or under placement by the court. This file shall include material similar in nature to that described in subsection (2).

(4) The records maintained pursuant to subsections (2) and (3) may be examined only by order of the judge except that the juvenile shall have the right to examine them.

(5) Law enforcement records and files concerning a juvenile shall be kept separate from the records and files of adults except in proceedings when jurisdiction of a juvenile is transferred to Superior Court. Law enforcement records and files concerning juveniles shall be open only to the inspection of the prosecutor, court counselors, the juvenile, his parent, guardian, and custodian.

(6) All records and files maintained by the Division of Youth Services shall be withheld from public inspection and shall be open only to the inspection of the juvenile, professionals in that agency who are directly involved in the juvenile’s case, and court counselors. The judge authorizing commitment of a juvenile shall have the right to inspect and order the release of records maintained by the Division of Youth Services on that juvenile.

(7) Disclosure of information concerning any juvenile under investigation or alleged to be within the jurisdiction of the court that would reveal the identity of that juvenile is prohibited except that publication of pictures of runaways is permitted with the permission of the parents.
(8) Nothing in this section shall preclude the necessary sharing of information among authorized agencies.

"§ 7A-600. Expunction of records of juveniles adjudicated delinquent and undisciplined.—(1) Any person who has attained the age of 16 years may file a petition in the court where he was adjudicated undisciplined for expunction of all records of that adjudication.

(2) Any person who has attained the age of 16 years may file a petition in the court where he was adjudicated delinquent for expunction of all records of that adjudication provided:

(a) The offense for which he was adjudicated would have been a crime if committed by an adult.

(b) The person has not subsequently been adjudicated delinquent or convicted as an adult of any felony or misdemeanor other than a traffic violation under the laws of the United States or the laws of this State or any other state.

(3) The petition shall contain, but not be limited to, the following:

(a) an affidavit by the petitioner that he has been of good behavior since the adjudication and, in the case of a petition based on a delinquency adjudication, that he has not subsequently been adjudicated delinquent or convicted as an adult of any felony or misdemeanor other than a traffic violation under the laws of the United States, or the laws of this State or any other state;

(b) verified affidavits of two persons, who are not related to the petitioner or to each other by blood or marriage, that they know the character and reputation of the petitioner in the community in which he lives and that his character and reputation are good;

(c) a statement that the petition is a motion in the cause in the case wherein the petitioner was adjudicated delinquent or undisciplined.

The petition shall be served upon the district attorney in the district wherein adjudication occurred. The district attorney shall have 10 days thereafter in which to file any objection thereto and shall be duly notified as to the date of the hearing on the petition.

(4) If the judge, after hearing, finds that the petitioner satisfies the conditions set out in subsections (1) or (2), he shall order and direct the Clerk of Superior Court and all law enforcement agencies to expunge their records of the adjudication including all references to arrests, complaints, referrals, petitions, and orders.

(5) The Clerk of Superior Court shall forward a certified copy of the order to the sheriff, chief of police, or other law enforcement agency.

(6) Records of a juvenile adjudicated delinquent or undisciplined being maintained by the Chief Court Counselor, an intake counselor or a court counselor shall be retained or disposed of as provided by the Juvenile Services Division.

(7) Records of a juvenile adjudicated delinquent or undisciplined being maintained by personnel at a residential facility operated by the Division of Youth Services, shall be retained or disposed of as provided by the Department of Human Resources.

"§ 7A-601. Effect of expunction.—(1) Whenever a juvenile's record is expunged, with respect to the matter in which the record was expunged, the juvenile who is the subject of the record and his parent may inform any person
or organization including employers, banks, credit companies, insurance companies, and schools that he was not arrested, he did not appear before the court, and he was not adjudicated delinquent or undisciplined.

(2) Notwithstanding subsection (1), in any criminal or delinquency case if the juvenile is the defendant and chooses to testify or if he is not the defendant and is called as a witness, the juvenile may be ordered to testify with respect to whether he was adjudicated delinquent.

"§ 7A-602. Notice of expunction.—Upon expunction of a juvenile’s record, the Clerk of Superior Court shall send a written notice to the juvenile at his last known address informing him that the record has been expunged and with respect to the matter involved, the juvenile may inform any person that he has no record. The notice shall inform the juvenile further that if the matter involved is a delinquency record, the juvenile may inform any person that he was not arrested or adjudicated delinquent except that upon testifying in a criminal or delinquency proceeding, he may be required by a judge to disclose that he was adjudicated delinquent.

"ARTICLE 55.

“Interstate Compact on Juveniles.

“§ 7A-603. Execution of Compact.—The Governor is hereby authorized and directed to execute a compact on behalf of this State with any other state or states legally joining therein in the form substantially as follows: The contracting states solemnly agree:

“§ 7A-604. Findings and purposes.—That juveniles who are not under proper supervision and control, or who have absconded, escaped or run away, are likely to endanger their own health, morals and welfare, and the health, morals and welfare of others. The cooperation of the states party to this Compact is therefore necessary to provide for the welfare and protection of juveniles and of the public with respect to

(1) cooperative supervision of delinquent juveniles on probation or parole;

(2) the return, from one state to another, of delinquent juveniles who have escaped or absconded;

(3) the return, from one state to another, of nondelinquent juveniles who have run away from home; and

(4) additional measures for the protection of juveniles and of the public, which any two or more of the party states may find desirable to undertake cooperatively.

In carrying out the provisions of this Compact the party states shall be guided by the noncriminal, reformative, and protective policies which guide their laws concerning delinquent, neglected, or dependent juveniles generally. It shall be the policy of the states party to this Compact to cooperate and observe their respective responsibilities for the prompt return and acceptance of juveniles and delinquent juveniles who become subject to the provisions of this Compact. The provisions of this Compact shall be reasonably and liberally construed to accomplish the foregoing purposes.

“§ 7A-605. Existing rights and remedies.—That all remedies and procedures provided by this Compact shall be in addition to and not in substitution for other rights, remedies, and procedures, and shall not be in derogation of parental rights and responsibilities.

“§ 7A-606. Definitions.—That, for the purposes of this Compact, ‘delinquent juvenile’ means any juvenile who has been adjudged delinquent and who, at the
time the provisions of this Compact are invoked, is still subject to the jurisdiction of the court that has made such adjudication or to the jurisdiction or supervision of an agency or institution pursuant to an order of such court; 'probation or parole' means any kind of conditional release of juveniles authorized under the laws of the states party hereto; 'court' means any court having jurisdiction over delinquent, neglected, or dependent children; 'state' means any state, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; and 'residence' or any variant thereof means a place at which a home or regular place of abode is maintained.

"§7A-607. Return of runaways.—(1) That the parent, guardian, person, or agency entitled to legal custody of a juvenile who has not been adjudged delinquent but who has run away without the consent of such parent, guardian, person, or agency may petition the appropriate court in the demanding state for the issuance of a requisition for his return. The petition shall state the name and age of the juvenile, the name of the petitioner and the basis of entitlement to the juvenile's custody, the circumstances of his running away, his location if known at the time application is made, and such other facts as may tend to show that the juvenile who has run away is endangering his own welfare or the welfare of others and is not an emancipated minor. The petition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the document or documents on which the petitioner's entitlement to the juvenile's custody is based, such as birth certificates, letters of guardianship, or custody decrees. Such further affidavits and other documents as may be deemed proper may be submitted with such petition. The judge of the court to which this application is made may hold a hearing thereon to determine whether for the purposes of this Compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor, and whether or not it is in the best interest of the juvenile to compel his return to the State. If the judge determines, either with or without a hearing, that the juvenile should be returned, he shall present to the appropriate court or to the executive authority of the state where the juvenile is alleged to be located a written requisition for the return of such juvenile. Such requisition shall set forth the name and age of the juvenile, the determination of the court that the juvenile has run away without the consent of a parent, guardian, person, or agency entitled to his legal custody, and that it is in the best interest and for the protection of such juvenile that he be returned. In the event that a proceeding for the adjudication of the juvenile as a delinquent, neglected, or dependent juvenile is pending in the court at the time when such juvenile runs away, the court may issue a requisition for the return of such juvenile upon its own motion, regardless of the consent of the parent, guardian, person, or agency entitled to legal custody, reciting therein the nature and circumstances of the pending proceeding. The requisition shall in every case be executed in duplicate and shall be signed by the judge. One copy of the requisition shall be filed with the Compact Administrator of the demanding state, there to remain on file subject to the provisions of law governing records of such court. Upon the receipt of a requisition demanding the return of a juvenile who has run away, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to
take into custody and detain such juvenile. Such detention order must
substantially recite the facts necessary to the validity of its issuance hereunder.
No juvenile detained upon such order shall be delivered over to the officer
whom the court demanding him, shall have appointed to receive him, unless he
shall first be taken forthwith before a judge of a court in the state, who shall
inform him of the demand made for his return, and who may appoint counsel or
guardian ad litem for him. If the judge of such court shall find that the
requisition is in order, he shall deliver such juvenile over to the officer to whom
the court demanding him shall have appointed to receive him. The judge
however, may fix a reasonable time to be allowed for the purpose of testing the
legality of the proceeding.

Upon reasonable information that a person is a juvenile who has run away
from another state party to this Compact without the consent of a parent,
guardian, person, or agency entitled to his legal custody, such juvenile may be
taken into custody without a requisition and brought forthwith before a judge
of the appropriate court who may appoint counsel or guardian ad litem for such
juvenile and who shall determine after a hearing whether sufficient cause exists
to hold the person, subject to the order of the court, for his own protection and
welfare, for such a time not exceeding 90 days as will enable his return to
another state party to this Compact pursuant to a requisition for his return
from a court of that state. If, at the time when a state seeks the return of a
juvenile who has run away, there is pending in the state wherein he is found
any criminal charge, or any proceeding to have him adjudicated a delinquent
juvenile for an act committed in such state, or if he is suspected of having
committed within such state a criminal offense or an act of juvenile
delinquency, he shall not be returned without the consent of such state until
discharged from prosecution or other form of proceeding, imprisonment,
detention or supervision for such offense or juvenile delinquency. The duly
accredited officers of any state party to this Compact, upon the establishment of
their authority and the identity of the juvenile being returned, shall be
permitted to transport such juvenile through any and all states party to this
Compact, without interference. Upon his return to the state from which he ran
away, the juvenile shall be subject to such further proceedings as may be
appropriate under the laws of that state.

(2) That the state to which a juvenile is returned under this Article shall be
responsible for payment of the transportation costs of such return.

(3) That ‘juvenile’ as used in this Article means any person who is a minor
under the law of the state of residence of the parent, guardian, person, or agency
entitled to the legal custody of such minor.

"§ 7A-608. Return of escapees and absconders.—(1) That the appropriate
person or authority from whose probation or parole supervision a delinquent
juvenile has absconded or from whose institutional custody he has escaped shall
present to the appropriate court or to the executive authority of the state where
the delinquent juvenile is alleged to be located a written requisition for the
return of such delinquent juvenile. Such requisition shall state the name and
age of the delinquent juvenile, the particulars of his adjudication as a
delinquent juvenile, the circumstances of the breach of the terms of his
probation or parole or of his escape from an institution or agency vested with
his legal custody or supervision, and the location of such delinquent juvenile, if
known, at the time the requisition is made. The requisition shall be verified by
affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the judgment, formal adjudication, or order of commitment which subjects such delinquent juvenile to probation or parole or to the legal custody of the institution or agency concerned. Such further affidavits and documents as may be deemed proper may be submitted with such requisition. One copy of the requisition shall be filed with the Compact Administrator of the demanding state, there to remain on file subject to the provisions of the law governing records of the appropriate court. Upon the receipt of a requisition demanding the return of a delinquent juvenile who has absconded or escaped, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such delinquent juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No delinquent juvenile detained upon such order shall be delivered over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of an appropriate court in the state, who shall inform him of the demand made for his return and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such delinquent juvenile over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this Compact, such person may be taken into custody in any other state party to this Compact without a requisition. But in such event, he must be taken forthwith before a judge of the appropriate court, who may appoint counsel or guardian ad litem for such person and who shall determine after a hearing, whether sufficient cause exists to hold the person subject to the order of the court for such a time, not exceeding 90 days, as will enable his detention under a detention order issued on a requisition pursuant to this Article. If, at the time when a state seeks the return of a delinquent who has either absconded while on probation or parole or escaped from an institution or agency vested with his legal custody or supervision, there is pending in the state wherein he is detained any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention, or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this Compact, upon the establishment of their authority and the identity of the delinquent juvenile being returned, shall be permitted to transport such delinquent juvenile through any and all states party to this Compact, without interference. Upon his return to the state from which he escaped or absconded, the delinquent juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.
(2) That the state to which a delinquent juvenile is returned under this Article shall be responsible for the payment of transportation costs of such return.

“§ 7A-609. Voluntary return procedure.—That any delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this Compact, and any juvenile who has run away from any state party to this Compact, who is taken into custody without a requisition in another state party to this Compact under the provisions of G.S. 7A-607(1) or G.S. 7A-608(1), may consent to his immediate return to the state from which he absconded, escaped or ran away. Such consent shall be given by the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, by executing or subscribing a writing in the presence of a judge of the appropriate court, which states that the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, consent to his return to the demanding state. Before such consent shall be executed or subscribed, however, the judge, in the presence of counsel or guardian ad litem, if any, shall inform the juvenile or delinquent juvenile of his rights under this Compact. When the consent has been duly executed, it shall be forwarded to and filed with the Compact Administrator of the state in which the court is located and the judge shall direct the officer having the juvenile or delinquent juvenile in custody to deliver him to the duly accredited officer or officers a copy of the consent. The court may, however, upon the request of the state to which the juvenile or delinquent juvenile is being returned, order him to return unaccompanied to such state and shall provide him with a copy of such court order, in such event a copy of the consent shall be forwarded to the Compact Administrator of the state to which said juvenile or delinquent juvenile is ordered to return.

“§ 7A-610. Cooperative supervision of probationers and parolees.—(1) That the duly constituted judicial and administrative authorities of a state party to this Compact (herein called ‘sending state’) may permit any delinquent juvenile within such state, placed on probation or parole, to reside in any other state party to this Compact (herein called ‘receiving state’) while on probation or parole, and the receiving state shall accept such delinquent juvenile, if the parent, guardian, or person entitled to the legal custody of such delinquent juvenile is residing or undertakes to reside within the receiving state. Before granting such permission, opportunity shall be given to the receiving state to make such investigations as it deems necessary. The authorities of the sending state shall send to the authorities of the receiving state copies of pertinent court orders, social case studies and all other available information which may be of value to and assist the receiving state in supervising a probationer or parolee under this Compact. A receiving state, in its discretion, may agree to accept supervision of a probationer or parolee in cases where the parent, guardian, or person entitled to the legal custody of the delinquent juvenile is not a resident of the receiving state, and if so accepted, the sending state may transfer the supervision accordingly.

(2) That each receiving state will assume the duties of visitation and of supervision over any such delinquent juvenile and in the exercise of those duties will be governed by the same standards of visitation and supervision that prevail for its own delinquent juveniles released on probation or parole.
(3) That, after consultation between the appropriate authorities of the sending state and of the receiving state as to the desirability and necessity of returning such a delinquent juvenile, the duly accredited officers of a sending state may enter a receiving state and there apprehend and retake any such delinquent juvenile on probation or parole. For that purpose, no formalities will be required, other than establishing the authority of the officer and the identity of the delinquent juvenile to be retaken and returned. The decision of the sending state to retake a delinquent juvenile on probation or parole shall be conclusive upon and not reviewable within the receiving state, but if, at the time the sending state seeks to retake a delinquent juvenile on probation or parole, there is pending against him within the receiving state any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for any act committed in such state or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment, detention, or supervision for such offense or juvenile delinquency. The duly accredited officers of the sending state shall be permitted to transport delinquent juveniles being so returned through any and all states party to this Compact, without interference.

(4) That the sending state shall be responsible under this Article for paying the costs of transporting any delinquent juvenile to the receiving state or of returning any delinquent juvenile to the sending state.

"§ 7A-611. Responsibility for costs.—(1) That the provisions of G.S. 7A-607(2), G.S. 7A-608(2), and G.S. 7A-609(4) of this Compact shall not be construed to alter or affect any internal relationship among the departments, agencies, and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(2) That nothing in this Compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency, or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to G.S. 7A-607(2), G.S. 7A-608(2), or G.S. 7A-609(4) of this Compact.

"§ 7A-612. Detention practices.—That, to every extent possible, it shall be the policy of states party to this Compact that no juvenile or delinquent juvenile shall be placed or detained in any prison, jail, or lockup nor be detained or transported in association with criminal, vicious or dissolute persons.

"§ 7A-613. Supplementary agreements.—That the duly constituted administrative authorities of a state party to this Compact may enter into supplementary agreements with any other state or states party hereto for the cooperative care, treatment, and rehabilitation of delinquent juveniles whenever they shall find that such agreements will improve the facilities or programs available for such care, treatment, and rehabilitation. Such care, treatment, and rehabilitation may be provided, in an institution located within any state entering into such supplementary agreement. Such supplementary agreements shall:

(1) provide the rates to be paid for the care, treatment, and custody of such delinquent juveniles taking into consideration the character of facilities, services, and subsistence furnished;
(2) provide that the delinquent juvenile shall be given a court hearing prior to his being sent to another state for care, treatment, and custody;

(3) provide that the state receiving such a delinquent juvenile in one of its institutions shall act solely as agent for the state sending such delinquent juvenile;

(4) provide that the sending state shall at all times retain jurisdiction over delinquent juveniles sent to an institution in another state;

(5) provide for reasonable inspection of such institutions by the sending state;

(6) provide that the consent of the parent, guardian, person, or agency entitled to the legal custody of said delinquent juvenile shall be secured prior to his being sent to another state; and

(7) make provisions for such other matters and details as shall be necessary to protect the rights and equities of such delinquent juveniles and of the cooperating states.

§ 7A-614. Acceptance of federal and other aid.—That any state party to this Compact may accept any and all donations, gifts, and grants of money, equipment, and services from the federal or any local government, or any agency thereof and from any person, firm, or corporation, for any of the purposes and functions of this Compact, and may receive and utilize, the same subject to the terms, conditions, and regulations governing such donations, gifts, and grants.

§ 7A-615. Compact administrators.—That the governor of each state party to this Compact shall designate an officer who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more efficiently the terms and provisions of this Compact.

§ 7A-616. Execution of Compact.—That this Compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form or (of) execution to be in accordance with the laws of the executing state.

§ 7A-617. Renunciation.—That this Compact shall continue in force and remain binding upon each executing state until renounced by it. Renunciation of this Compact shall be by the same authority which executed it, by sending six months’ notice in writing of its intention to withdraw from the Compact to the other states party hereto. The duties and obligations of a renouncing state under G.S. 7A-610 hereof shall continue as to parolees and probationers residing therein at the time of withdrawal until retaken or finally discharged. Supplementary agreements entered into under G.S. 7A-613 hereof shall be subject to renunciation as provided by such supplementary agreements, and shall not be subject to the six months’ renunciation notice of the present section.

§ 7A-618. Severability.—That the provisions of this Compact shall be severable and if any phrase, clause, sentence, or provision of this Compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person, or circumstances is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person, or circumstances shall not be affected thereby. If this Compact shall be held contrary to the constitution of any state participating therein, the Compact shall remain in full
force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

"§ 7A-619. Compact administrator.—Pursuant to said Compact, the Governor is hereby authorized and empowered to designate an officer who shall be the Compact Administrator and who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more effectively the terms of the Compact. Said Compact Administrator shall serve subject to the pleasure of the Governor. The Compact Administrator is hereby authorized, empowered, and directed to cooperate with all departments, agencies, and officers of and in the government of this State and its subdivisions in facilitating the proper administration of the Compact or of any supplementary agreement or agreements entered into by this State hereunder.

"§ 7A-620. Supplementary agreements.—The Compact Administrator is hereby authorized and empowered to enter into supplementary agreements with appropriate officials of other states pursuant to the Compact. In the event that such supplementary agreement shall require or contemplate the use of any institution or facility of this State or require or contemplate the provision of any service by this State, said supplementary agreement shall have no force or effect until approved by the head of the department or agency under whose jurisdiction said institution or facility is operated or whose department or agency will be charged with the rendering of such service.

"§ 7A-621. Discharging financial obligations imposed by Compact on agreement.—The Compact Administrator, subject to the approval of the Director of the Budget, may make or arrange for any payments necessary to discharge any financial obligations imposed upon this State by the Compact or by any supplementary agreement entered into thereunder.

"§ 7A-622. Enforcement of Compact.—The courts, departments, agencies, and officers of this State and subdivisions shall enforce this Compact and shall do all things appropriate to the effectuation of its purposes and intent which may be within their respective jurisdictions.

"§ 7A-623. Additional procedure for returning runaways not precluded.—In addition to any procedure provided in G.S. 7A-607 and G.S. 7A-609 of the Compact for the return of any runaway juvenile, the particular states, the juvenile or his parents, the courts, or other legal custodian involved may agree upon and adopt any other plan or procedure legally authorized under the laws of this State and the other respective party states for the return of any such runaway juvenile.

"§ 7A-624. Proceedings for return of runaways under G.S. 7A-607 of Compact; ‘juvenile’ construed.—The judge of any court in North Carolina to which an application is made for the return of a runaway under the provisions of G.S. 7A-607 of the Interstate Compact on Juveniles shall hold a hearing thereon to determine whether for the purposes of the Compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor and whether or not it is in the best interest of the juvenile to compel his return to the state. The judge of any court in North Carolina finding that a requisition for the return of a juvenile under the provisions of G.S. 7A-607 of the Compact is in order shall upon request fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding. The period of time for holding a
juvenile in custody under the provisions of G.S. 7A-607 of the Compact for his own protection and welfare, subject to the order of a court of this State, to enable his return to another state party to the Compact pursuant to a requisition for his return from a court of that state, shall not exceed 30 days. In applying the provisions of G.S. 7A-607 of the Compact to secure the return of a runaway from North Carolina, the courts of this State shall construe the word 'juvenile' as used in this Article to mean any person who has not reached his or her eighteenth birthday.

"§ 7A-625. Interstate parole and probation hearing procedures for juveniles.—Where supervision of a parolee or probationer is being administered pursuant to the Interstate Compact on Juveniles, the appropriate judicial or administrative authorities in this State shall notify the Compact Administrator of the sending state whenever, in their view, consideration should be given to retaking or reincarceration for a parole or a probation violation. Prior to the giving of any such notification, a hearing shall be held in accordance with this Article within a reasonable time, unless such hearing is waived by the parolee or probationer. The appropriate officer or officers of this State shall as soon as practicable, following termination of any such hearing, report to the sending state, furnish a copy of the hearing record, and make recommendations regarding the disposition to be made of the parolee or probationer by the sending state. Pending any proceeding pursuant to this section, the appropriate officers of this State may take custody of and detain the parolee or probationer involved for a period not to exceed 10 days prior to the hearing and, if it appears to the hearing officer or officers that retaking or reincarceration is likely to follow, for such reasonable period after the hearing or waiver as may be necessary to arrange for retaking or the reincarceration.

"§ 7A-626. Hearing officers.—Any hearing pursuant to this Article may be before the Administrator of the Interstate Compact on Juveniles, a deputy of such Administrator, or any other person authorized pursuant to the juvenile laws of this State to hear cases of alleged juvenile parole or probation violations, except that no hearing officer shall be the person making the allegation of violation.

"§ 7A-627. Due process at parole or probation violation hearing.—With respect to any hearing pursuant to this Article, the parolee or probationer:

(1) shall have reasonable notice in writing of the nature and content of the allegations to be made, including notice that the purpose of the hearing is to determine whether there is probable cause to believe that he has committed a violation that may lead to a revocation of parole or probation;

(2) shall be permitted to advise with any persons whose assistance he reasonably desires, prior to the hearing;

(3) shall have the right to confront and examine any persons who have made allegations against him, unless the hearing officer determines that such confrontation would present a substantial present or subsequent danger of harm to such person or persons;

(4) may admit, deny, or explain the violation alleged and may present proof, including affidavits and other evidence, in support of his contentions. A record of the proceedings shall be made and preserved.

"§ 7A-628. Effect of parole or probation violation hearing outside the State.—In any case of alleged parole or probation violation by a person being supervised in another state pursuant to the Interstate Compact on Juveniles, any
appropriate judicial or administrative officer or agency in another state is authorized to hold a hearing on the alleged violation. Upon receipt of the record of a parole or probation violation hearing held in another state pursuant to a statute substantially similar to this Article, such record shall have the same standing and effect as though the proceeding of which it is a record was had before the appropriate officer or officers in this State, and any recommendations contained in or accompanying the record shall be fully considered by the appropriate officer or officers of this State in making disposition of the matter.

"§ 7A-629. Amendment to the Interstate Compact on Juveniles concerning interstate rendition of juveniles alleged to be delinquent.—(1) This amendment shall provide additional remedies, and shall be binding only as among and between those party states which specifically execute the same.

(2) All provisions and procedures of G.S. 7A-608 and G.S. 7A-609 of the Interstate Compact on Juveniles shall be construed to apply to any juvenile charged with being a delinquent by reason of a violation of any criminal law. Any juvenile, charged with being a delinquent by reason of violating any criminal law, shall be returned to the requesting state upon a requisition to the state where the juvenile may be found. A petition in such case shall be filed in a court of competent jurisdiction in the requesting state where the violation of criminal law is alleged to have been committed. The petition may be filed regardless of whether the juvenile has left the state before or after the filing of the petition. The requisition described in G.S. 7A-608 of the Compact shall be forwarded by the judge of the court in which the petition has been filed.

"§ 7A-630. Out-of-State Confinement Amendment.—(1) The Out-of-State Confinement Amendment to the Interstate Compact on Juveniles is hereby enacted into law and entered into by this State with all other states legally joining therein in the form substantially as follows:

(a) Whenever the fully constituted judicial or administrative authorities in a sending state shall determine that confinement of a probationer or reconfinement of a parolee is necessary or desirable, said officials may direct that the confinement or reconfinement be in an appropriate institution for delinquent juveniles within the territory of the receiving state, such receiving state to act in that regard solely as agent for the sending state.

(b) Escapees and absconders who would otherwise be returned pursuant to G.S. 7A-608 of the Compact may be confined or reconfined in the receiving state pursuant to this amendment. In any such case the information and allegations required to be made and furnished in a requisition pursuant to G.S. 7A-608, the sending state shall request confinement or reconfinement in the receiving state. Whenever applicable, detention orders as provided in G.S. 7A-608 may be employed pursuant to this paragraph preliminary to disposition of the escapee or absconder.

(c) The confinement or reconfinement of a parolee, probationer, escapee, or absconder pursuant to this amendment shall require the concurrence of the appropriate judicial or administrative authorities of the receiving state.

(d) As used in this amendment: 1. 'sending state' means sending state as that term is used in G.S. 7A-610 of the Compact or the state from which
a delinquent juvenile has escaped or absconded within the meaning of G.S. 7A-608 of the Compact; 2. 'receiving state' means any state, other than the sending state, in which a parolee, probationer, escapee, or absconder may be found, provided that said state is a party to this amendment.

(e) Every state which adopts this amendment shall designate at least one of its institutions for delinquent juveniles as a 'Compact Institution' and shall confine persons therein as provided in Paragraph (a) hereof unless the sending and receiving state in question shall make specific contractual arrangements to the contrary. All states party to this amendment shall have access to 'Compact Institutions' at all reasonable hours for the purpose of inspecting the facilities thereof and for the purpose of visiting such of said state's delinquents as may be confined in the institution.

(f) Persons confined in 'Compact Institutions' pursuant to the terms of this Compact shall at all times be subject to the jurisdiction of the sending state and may at any time be removed from said 'Compact Institution' for transfer to an appropriate institution within the sending state, for return to probation or parole, for discharge, or for any purpose permitted by the laws of the sending state.

(g) All persons who may be confined in a 'Compact Institution' pursuant to the provisions of this amendment shall be treated in a reasonable and humane manner. The fact of confinement or reconfinement in a receiving state shall not deprive any person so confined or reconfined of any rights which said person would have had if confined or reconfined in an appropriate institution of the sending state; nor shall any agreement to submit to confinement or reconfinement pursuant to the terms of this amendment be construed as a waiver of any rights which the delinquent would have had if he had been confined or reconfined in any appropriate institution of the sending state except that the hearing or hearings, if any, to which a parolee, probationer, escapee, or absconder may be entitled (prior to confinement or reconfinement) by the laws of the sending state may be had before the appropriate judicial or administrative officers of the receiving state. In this event, said judicial and administrative officers shall act as agents of the sending state after consultation with appropriate officers of the sending state.

(h) Any receiving state incurring costs or other expenses under this amendment shall be reimbursed in the amount of such costs or other expenses by the sending state unless the states concerned shall specifically otherwise agree. Any two or more states party to this amendment may enter into supplementary agreements determining a different allocation of costs as among themselves.

(i) This amendment shall take initial effect when entered into by any two or more states party to the Compact and shall be effective as to those states which have specifically enacted this amendment. Rules and regulations necessary to effectuate the terms of this amendment may be promulgated by the appropriate officers of those states which have enacted this amendment.

(2) In addition to any institution in which the authorities of this state may otherwise confine or order the confinement of a delinquent juvenile, such

authorities may, pursuant to the Out-of-State Confinement Amendment to the Interstate Compact on Juveniles, confine or order the confinement of a delinquent juvenile in a Compact Institution within another party state.

"ARTICLE 56.

"Emancipation.

"§ 7A-631. Who may petition.—Any juvenile who is 16 years of age or older and who has resided in the same county in North Carolina or on federal territory within the boundaries of North Carolina for six months next preceding the filing of the petition may petition the court in that county for a judicial decree of emancipation.

"§ 7A-632. Petition.—The petition shall be signed and verified by the petitioner and shall contain the following information:

1) the full name of the petitioner, his birth date, and state and county of birth;
2) a certified copy of the petitioner's birth certificate;
3) the name and last known address of the parent, guardian, or custodian;
4) the petitioner's address and length of residence at that address;
5) the petitioner's reasons for requesting emancipation; and
6) the petitioner's plan for meeting his own needs and living expenses which plan may include a statement of employment and wages earned that is verified by his employer.

"§ 7A-633. Summons.—A copy of the filed petition along with a summons shall be served upon the petitioner's parent, guardian, or custodian who shall be named as respondents. The summons shall include the time and place of the hearing and shall notify the respondents to file written answer within 30 days after service of the summons and petition. In the event that personal service cannot be obtained, service shall be in accordance with G.S. 1A-1, Rule 4(j).

"§ 7A-634. Hearing.—The judge, sitting without a jury, shall permit all parties to present evidence and to cross-examine witnesses. The petitioner shall have the burden of showing by a preponderance of the evidence that emancipation is in his best interest. Upon finding that reasonable cause exists, the judge may order the juvenile to be examined by a psychiatrist, a licensed clinical psychologist, a physician, or any other expert to evaluate the juvenile's mental or physical condition. The judge may continue the hearing and order investigation by a court counselor or by the county Department of Social Services to substantiate allegations of the petitioner or respondents.

No husband-wife or physician-patient privilege shall be grounds for excluding any evidence in the hearing.

"§ 7A-635. Considerations for emancipation.—In determining the best interest of the petitioner and the need for emancipation, the judge shall review the following considerations:

1) the parental need for the earnings of the petitioner;
2) the petitioner's ability to function as an adult;
3) the petitioner's need to contract as an adult or to marry;
4) the employment status of the petitioner and the stability of his living arrangements;
5) the extent of family discord which may threaten reconciliation of the petitioner with his family;
6) the petitioner's rejection of parental supervision or support; and
7) the quality of parental supervision or support.
"§ 7A-636. Final decree of emancipation.—After reviewing the considerations for emancipation, the judge may enter a decree of emancipation if he determines:

(1) that all parties are properly before the court or were duly served and failed to appear and that time for filing an answer has expired; and

(2) that the petitioner has shown a proper and lawful plan for adequately providing for his own needs and living expenses; and

(3) that the petitioner is knowingly seeking emancipation and fully understands the ramifications of his act; and

(4) that emancipation is in the best interest of the petitioner.

The decree shall set out the court's findings.

If the judge determines that the criteria in subsections (1) through (4) are not met, he shall order the proceeding dismissed.

"§ 7A-637. Costs of court.—The judge may tax the costs of the proceeding to any party or may, for good cause, order the costs remitted.

The Clerk of Superior Court may collect costs for furnishing to the petitioner a certificate of emancipation which shall recite the name of the petitioner and the fact of the petitioner's emancipation by court decree and shall have the seal of the Clerk of Superior Court affixed thereon.

"§ 7A-638. Legal effect of final decree.—As of entry of the final decree of emancipation:

(1) The petitioner has the same right to make contracts and conveyances, to sue and be sued, and to transact business as if he were an adult.

(2) The parent or guardian is relieved of all legal duties and obligations owed to the petitioner and is divested of all rights with respect to the petitioner.

(3) The decree is irrevocable.

Notwithstanding any other provision of this section, a decree of emancipation shall not alter the application of G.S. 14-322.2, G.S. 14-326.1, or the petitioner's right to inherit property by intestate succession.

"§ 7A-639. Appeals.—Any petitioner, parent, or guardian who is a party to a proceeding under this Article may appeal from any order of disposition to the Court of Appeals provided that notice of appeal is given in open court at the time of the hearing or in writing within 10 days after the hearing. Pending disposition of an appeal, the judge may enter a temporary order affecting the custody or placement of the petitioner as he finds to be in the best interest of the petitioner or the State.

"§ 7A-640. Application of common law.—A married juvenile is emancipated by this Article. All other common law provisions for emancipation are superseded by this Article.

"ARTICLE 57.

"Judicial Consent For Emergency Surgical Or Medical Treatment.

"§ 7A-641. Judicial authorization of emergency treatment; procedure.—A juvenile in need of emergency treatment under Article 1A of Chapter 90 of the North Carolina General Statutes, whose physician is barred from rendering necessary treatment by reason of parental refusal to consent to treatment, may receive such treatment with court authorization under the following procedure:

(1) The physician shall sign a written statement setting out:

(a) the treatment to be rendered and the emergency need for treatment; and
(b) the refusal of the parent, guardian, or person standing in loco parentis to consent to the treatment; and
(c) the impossibility of contacting a second physician for a concurring opinion on the need for treatment in time to prevent immediate harm to the juvenile.

(2) Upon examining the physician’s written statement prescribed in subsection (1) and finding:
   (a) that the statement is in accordance with this Article, and
   (b) that the proposed treatment is necessary to prevent immediate harm to the juvenile.
A judge may issue a written authorization for the proposed treatment to be rendered.

(3) In acute emergencies in which time may not permit implementation of the written procedure set out in subsections (1) and (2), a judge may, in his discretion, authorize treatment in person or by telephone upon receiving the oral statement of a physician satisfying the requirements of subsection (1) and upon finding that the proposed treatment is necessary to prevent immediate harm to the juvenile.

(4) A judge’s authorization for treatment overriding parental refusal to consent should not be given without attempting to offer the parent an opportunity to state his reasons for refusal; however, failure of the judge to hear the parent’s objections shall not invalidate judicial authorization under this Article.

(5) A judge’s authorization for treatment under subsections (1) and (2) shall be issued in duplicate. One copy shall be given to the treating physician and the other copy shall be attached to the physician’s written statement and filed as a juvenile proceeding in the office of the Clerk of Superior Court.

(6) A judge’s authorization for treatment under subsection (3) shall be reduced to writing as soon as possible, supported by the physician’s written statement as prescribed in subsection (1) and shall be filed as prescribed in subsection (5).
A judge’s authorization for treatment under this Article, shall have the same effect as parental consent for treatment.

Following a judge’s authorization for treatment and after giving notice to the juvenile’s parent, the judge shall conduct a hearing in order to provide for payment for the treatment rendered. The judge may order the parent or other responsible parties to pay the cost of such treatment. If the judge finds the parent is unable to pay the cost of treatment, such cost shall be a charge upon the county when so ordered.

This Article shall operate as a remedy in addition to the provisions in G.S. 7A-581(3).”

licensing law.

(b) An individual in possession of a valid private protective services license or
private detective trainee permit issued prior to July 1, 1973, shall not be subject
to forfeiture of such license by virtue of this Chapter. Such license shall,

(b) (No change.)

(c) Notwithstanding the provisions of this Article, this Subchapter does not give the Marine Fisheries Commission or the Wildlife Resources Commission jurisdiction over matters clearly within the jurisdiction vested in the Department of Agriculture, the North Carolina Pesticide Board, the Commission for Health Services, the Environmental Management Commission, or other divisions of the department regulating air or water pollution.

(e) Those coastal fishing waters in which are found a significant number of freshwater fish, as agreed upon by the Marine Fisheries Commission and the Wildlife Resources Commission, may be denominated joint fishing waters. These waters are deemed coastal fishing waters from the standpoint of laws and regulations administered by the department and are deemed inland fishing waters from the standpoint of laws and regulations administered by the Wildlife Resources Commission. The Marine Fisheries Commission and the Wildlife Resources Commission may make joint regulations governing the responsibilities of each agency and modifying the applicability of licensing and other regulatory provisions as may be necessary for rational and compatible management of the marine and estuarine and wildlife resources in joint fishing waters.

(b) The Wildlife Resources Commission is charged with administering the governing statutes in a manner to serve as equitably as may be the various competing interests of the people regarding wildlife resources, considering the interests of those whose livelihood depends upon full and wise use of renewable resources and the interests of the many whose approach is recreational. Thus, except as provided in subsection (e), all special, local, and private acts and
ordinances enacted prior to the ratification date of the act creating this section regulating the conservation of wildlife resources are repealed. Nothing in this section is intended to invalidate local legislation or local ordinances which exercise valid powers over subjects other than the conservation of wildlife resources, even though an incidental effect may consist of an overlapping or conflict of jurisdiction as to some particular provision not essential to the conservation objectives set out in this Subchapter. In particular, this section does not repeal local acts which restrict hunting primarily for the purpose of protecting travelers on the highway, landowners, or other persons who may be endangered or affected by hunters’ weapons or ammunition or whose property may be damaged.

(c) This Subchapter is intended to express State policy relating to the conservation of wildlife resources. Nothing in this section is intended to repeal or prevent the enactment of any city or county ordinance otherwise validly authorized which has only a minor and incidental impact on the conservation of marine and estuarine and wildlife resources. This section does not repeal G.S. 153A-127, G.S. 153A-131, G.S. 160A-182, G.S. 160A-187, and G.S. 160A-188, nor any local act establishing bird sanctuaries, except that local authorities operating bird sanctuaries may not regulate the taking of game or otherwise abrogate valid laws and regulations pertaining to the conservation of wildlife resources.

(d) Nothing in this Subchapter is intended to repeal or abridge the regulatory authority of the Game Commission of Currituck County or the Dare County Game and Wildlife Commission.

(f) The Wildlife Resources Commission is directed to review periodically all local acts affecting conservation of wildlife resources and notify local authorities and the General Assembly as to those that:

(1) Substantially duplicate provisions of this Subchapter.

(2) Seriously conflict with conservation policies set out in this Subchapter.

(3) Seriously conflict with conservation policies developed for the people of this State as a whole by the Wildlife Resources Commission.

"§ 113-134. Regulations.—(No change.)"

"§ 113-134.1. Jurisdiction over marine fisheries resources in Atlantic Ocean.—The department is directed to exercise all enforcement and regulatory authority over the conservation of marine fisheries resources in the Atlantic Ocean to the seaward extent of the State jurisdiction over the resources as now or hereafter defined. Marine fisheries inspectors may enforce these regulations and all other provisions of law applicable under the authority granted in this section in the same manner and with the same powers elsewhere granted them as enforcement officers.

"§ 113-135. General penalties for violating Subchapter or regulations, increased penalty for prior convictions, interpretive provisions.—(a) Any person who violates any provision of this Subchapter or any regulation adopted by the Marine Fisheries Commission or the Wildlife Resources Commission, as appropriate, pursuant to the authority of this Subchapter, is guilty of a misdemeanor except that punishment for violation of the regulations of the Wildlife Resources Commission is limited as set forth in G.S. 113-135.1. Unless a different level of punishment is elsewhere set out, anyone convicted of a misdemeanor under this section is punishable as follows:

(1) For a first conviction, a fine of not less than ten dollars ($10.00) or more than fifty dollars ($50.00) or imprisonment not to exceed 30 days.

(2) For a second or subsequent conviction within three years, a fine of not less than fifty dollars ($50.00) or more than two hundred dollars ($200.00), imprisonment not to exceed 90 days, or both.

(b) In interpreting this section, provisions elsewhere in this Subchapter making an offense a misdemeanor ‘punishable in the discretion of the court’ must be considered to set a different level of punishment, to be interpreted in the light of G.S. 14-3 or any equivalent or successor statute. Noncriminal
sanctions, however, such as license revocation or suspension, and exercise of
powers auxiliary to criminal prosecution, such as seizure of property involved in
the commission of an offense, do not constitute different levels of punishment
so as to oust criminal liability. Any previous conviction of an offense under this
Subchapter, or under regulations authorized by it, serves to increase the
punishment under subsection (a) even though for a different offense than the
second or subsequent one.

(c) For the purposes of this Subchapter, violations of laws or regulations
administered by the Wildlife Resources Commission under any former general
or local law replaced by the present provisions of this Subchapter are deemed to
be violations of laws or regulations under this Subchapter.

“§ 113-135.1. Limitation upon penalty for offense created by regulations of
Wildlife Resources Commission in certain instances.—(a) To prevent
unsuspecting members of the public from being subject to harsh criminal
penalties for offenses created by regulations of the Wildlife Resources
Commission, the penalty for an offense which is solely a violation of regulations
of the Wildlife Resources Commission is limited to a fine of ten dollars ($10.00)
except that offenses set out in Section (b) are punished as set forth in G.S.
113-135 or other sections.

(b) The limitation upon penalty does not apply to any regulation violation:
(1) punishable under G.S. 113-294 or otherwise involving aggravating
elements which result in a greater punishment than provided by G.S.
113-135;
(2) which involves a defendant subject to the collection-license provisions
of G.S. 113-272.4 or who is a dealer as defined in G.S. 113-273; or
(3) relating to seasons, bag limits, creel limits, taking fish other than with
hook and line, buying or selling wildlife, possessing or transporting live
wildlife, taking wildlife at night or with the aid of a conveyance, or
falconry.

“§ 113-136. Enforcement authority of inspectors and protectors, refusal to
obey or allow inspection by inspectors and protectors.—(a) Inspectors and
protectors are granted the powers of peace officers anywhere in this State, and
beyond its boundaries to the extent provided by law, in enforcing all matters
within their respective subject-matter jurisdiction as set out in this section.

(b) The jurisdiction of inspectors extends to all matters within the
jurisdiction of the department set out in this Subchapter, Part 5 of Article 7 of
Chapter 143B of the General Statutes, and Article 2 of Chapter 77 of the
General Statutes, and to all other matters within the jurisdiction of the
department which it directs inspectors to enforce. In addition, inspectors have
jurisdiction over all offenses involving property of or leased to or managed by
the department in connection with the conservation of marine and estuarine
resources.

(c) The jurisdiction of protectors extends to all matters within the
jurisdiction of the Wildlife Resources Commission, whether set out in this
Chapter, Chapter 75A, Chapter 143, Chapter 143B, or elsewhere. The Wildlife
Resources Commission is specifically granted jurisdiction over all aspects of:
(1) boating and water safety;
(2) hunting and trapping;
(3) fishing, exclusive of fishing under the jurisdiction of the Marine
Fisheries Commission; and
(4) activities in woodlands and on inland waters governed by G.S. 113-60.1 to G.S. 113-60.3.

In addition, protectors have jurisdiction over all offenses involving property of or leased by the Wildlife Resources Commission or occurring on wildlife refuges, game lands, or boating and fishing access areas managed by the Wildlife Resources Commission. The authority of protectors over offenses on public hunting grounds is governed by the jurisdiction granted the Commission in G.S. 113-264(c).

(d) (No change.)

(e) Inspectors and protectors may serve arrest warrants, search warrants, orders for arrest, criminal summonses, subpoenas, and all other process connected with any cases within their subject-matter jurisdiction. In the exercise of their law enforcement powers, inspectors are subject to provisions relating to police officers in general set out in Chapter 15, Chapter 15A, and elsewhere.

(f) (No change.)

(g) (No change.)

(h) (Repealed.)

(i) (Repealed.)

(j) The refusal of any person to stop in obedience to the directions of an inspector or protector acting under the authority of this section is unlawful. A violation of this subsection is punishable by a fine of not less than fifty dollars ($50.00) nor more than two hundred dollars ($200.00), imprisonment not to exceed 30 days, or both.

(k) It is unlawful to refuse to exhibit upon request by any inspector, protector, or other law enforcement officer any item required to be carried by any law or regulation as to which inspectors or protectors have enforcement jurisdiction. The items that must be exhibited include boating safety or other equipment or any license, permit, tax receipt, certificate, or identification. It is unlawful to refuse to allow inspectors, protectors, or other law enforcement officers to inspect weapons, equipment, fish, or wildlife that the officer reasonably believes to be possessed incident to an activity regulated by any law or regulation as to which inspectors and protectors have enforcement jurisdiction.

(l) (No change.)

"§ 113-137. Search on arrest; seizure and confiscation of property; disposition of confiscated property.—(a) (No change.)

(b) (No change.)

(c) (No change.)

(d) The Marine Fisheries Commission and the Wildlife Resources Commission may provide by regulation for summary disposition of live or perishable fish or wildlife seized by an inspector or protector. If the property seized consists of live fish which may again be placed to the benefit of the public on public fishing bottoms or in public waters, the inspector or protector may require the person in possession of the seized live fish to transport it the distance necessary to effect placement on appropriate bottoms or waters. In the event of refusal by the person in question to transport the fish, the inspector or protector must take appropriate steps to effect the transportation. The steps may include seizure of any conveyance or vessel of the person refusing to transport the fish if the conveyance or vessel was one on which the fish were located or was used to take or transport the fish. When a conveyance or vessel is
seized, it is to be safeguarded by the inspector or protector seizing it pending trial and it becomes subject to the orders of the court. Transportation costs borne by the department or by the Wildlife Resources Commission, as the case may be, may be collected by the agency from the proceeds of the sale of any other property of the defendant seized and sold in accordance with the provisions of this section.

Except as provided in subsection (g), when the seizure consists of edible fish or wildlife which is not alive, may not live, or may not otherwise benefit conservation objectives if again placed on open lands, on public fishing bottoms, or in public fishing waters, the inspector or protector must dispose of the property in a charitable or noncommercial manner in accordance with the directions of his administrative superiors.

(e) (No change.)
(f) (No change.)
(g) (No change.)
(h) (No change.)

(i) Upon conviction of any defendant for a violation of the laws or regulations administered by the department or the Wildlife Resources Commission under the authority of this Subchapter, the court in its discretion may order the confiscation of all weapons, equipment, vessels, conveyances, fish, wildlife, and other evidence, fruits, and instrumentalities of the offense in question, whether or not seized or made subject to the orders of the court pending trial. If the confiscated property is lawfully saleable, it must be sold; otherwise it must be disposed of in a manner authorized in this section. Unless otherwise specified in the order of the court, sales are to be held by the department or the Wildlife Resources Commission, as the case may be.

The department and the Wildlife Resources Commission may administratively provide for an orderly public sale procedure of property which it may sell under this section. The procedure may include turning the property to be sold over to some other agency for sale, provided that the provisions of subsection (j) are complied with and there is proper accounting for the net proceeds of the sale. In the case of property that cannot lawfully be sold or is unlikely to sell for a sufficient amount to offset the costs of sale, the department and the Wildlife Resources Commission may provide either for destruction of the property or legitimate utilization of the property by some public agency.

(j) Except as provided in subsection (d), if property is seized under subsection (c) or it appears that a person not a defendant has an interest in any property to be sold, destroyed, or otherwise disposed of, the department and the Wildlife Resources Commission must provide for public notice of the description of the property and the circumstances of its seizure for a sufficient period prior to the time set for sale or other disposition to allow innocent owners or lienholders to assert their claims. The validity of claims are to be determined by the trial court in the event there is or has been a prosecution in connection with the seizure of the property. If there has been no prosecution and none is pending, the validity of claims must be determined by the secretary or by the executive director, as the case may be. When there has been a sale under subsection (g), the provisions of this subsection apply to the net proceeds of the sale.

(k) Except as provided in subsection (j) and in subdivision (3) of the first paragraph of subsection (e), the net proceeds of all sales made pursuant to this section must be deposited in the school fund of the county in which the property was seized.

“ARTICLE 20.

“§ 113-261. Taking fish and wildlife for scientific purposes; permits to take in normally unauthorized manner; cultural and scientific operations.—(a) The department, the Wildlife Resources Commission, and agencies of the United States with jurisdiction over fish and wildlife are hereby granted the right to take marine, estuarine, and wildlife resources within the State, to conduct fish cultural operations and scientific investigations in the several waters of North Carolina, to survey fish and wildlife populations in the State, to conduct investigations to determine the status and requirements for survival of resident species of fish and wildlife, to propagate animals, birds, and fish, and to erect fish hatcheries and fish propagating plants without regard to any licensing or permit requirements of this Subchapter.

(b) The department with respect to fish in coastal fishing waters and the Wildlife Resources Commission with respect to wildlife may provide for the issuance of permits, on such terms as they deem just and in the best interests of conservation, authorizing persons to take such fish or wildlife through the use of drugs, poisons, explosives, electricity, or any other generally prohibited manner. Such permits need not be restricted solely to victims of depredations or to scientific or educational institutions, but should be issued only for good cause. No permit to take wildlife other than fish by means of poison may be issued, however, unless the provisions of Article 22A are met.

(c) The department, the Wildlife Resources Commission, and agencies of the United States with jurisdiction over fish and wildlife may, as necessary in their legitimate operations, take fish and wildlife in a manner generally prohibited by this Subchapter or by regulations made under the authority of this Subchapter.

“§ 113-262. Taking fish or wildlife by poisons, drugs, explosives or electricity prohibited; exceptions; possession of illegally killed fish or wildlife prohibited.—(a) Except as otherwise provided in this Subchapter, or in regulations permitting use of electricity to take certain fish, it is a misdemeanor punishable by a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00), imprisonment not to exceed 90 days, or both to take any fish or wildlife through the use of poisons, drugs, explosives, or electricity. This subsection does not apply to any person lawfully using any poison or pesticide under the Structural Pest Control Act of North Carolina of 1955, as amended, or the North Carolina Pesticide Law of 1971, as amended.

(b) Except under a valid permit it is unlawful to possess any fish or wildlife:
(1) bearing evidence of having been taken in violation of subsection (a); or
(2) with knowledge or reason to believe that the fish or wildlife was taken in violation of subsection (a).

“§ 113-263. Inspecting plans and specifications of dams.—(No change.)
“§ 113-264. Regulatory power over property of agency; public hunting grounds.—(a) The department and the Wildlife Resources Commission are granted the power by regulation to license, regulate, prohibit, or restrict the public as to use and enjoyment of, or harm to, any property of the department or the Wildlife Resources Commission, and may charge the public reasonable fees for access to or use of such property. ‘Property’ as the word is used in this
session is intended to be broadly interpreted and includes lands, buildings, vessels, vehicles, equipment, markers, stakes, buoys, posted signs and other notices, trees and shrubs and artificial constructions in boating and fishing access areas, game lands, wildlife refuges, public waters, public mountain trout waters, and all other real and personal property owned, leased, controlled, or cooperatively managed by either the department or the Wildlife Resources Commission.

(b) Wilful removal of, damage to, or destruction of any property of the department or the Wildlife Resources Commission is a misdemeanor punishable in the discretion of the court.

(c) The Wildlife Resources Commission may cooperate with private landowners in the establishment of public hunting grounds. It may provide for the posting of these areas and of restricted zones within them, require that authorized hunters obtain written permission from the owner to hunt, enforce general laws concerning trespass by hunters and concerning damage or injurious activities by hunters and by others carrying weapons on or discharging weapons across public hunting grounds or restricted zones.

"§ 113-265. Obstructing or polluting flow of water into hatchery; throwing fish offal into waters, robbing or injuring nets, seines, buoys, etc.—(No change.)

"§ 113-266. (Reserved for future codification purposes.)

"§ 113-267. Replacement costs of marine, estuarine, and wildlife resources; regulations authorized; prima facie evidence.—To provide information to the courts and other officials taking action under G.S. 15A-1343(b)(16b), under G.S. 143-215.3(a)(7), or under any other pertinent authority of law, the Marine Fisheries Commission and the Wildlife Resources Commission are authorized to adopt regulations setting forth the factors that should be considered in determining the replacement costs of fish and wildlife and other marine, estuarine, and wildlife resources that have been taken, injured, removed, harmfully altered, damaged, or destroyed. The Marine Fisheries Commission and the Wildlife Resources Commission may make similar regulations respecting costs of investigations required by G.S. 143-215.3(a)(7) or which are made pursuant to a court order. For common offenses resulting in the destruction of marine, estuarine, and wildlife resources the Marine Fisheries Commission and the Wildlife Resources Commission may adopt schedules of costs which reasonably state the likely replacement costs and necessary investigative costs when appropriate. Regulations of the Marine Fisheries Commission and the Wildlife Resources Commission stating scheduled costs or cost factors must be treated as prima facie evidence of the actual costs, but do not prevent a court or jury from examining the reasonableness of the regulations or from assessing the special factors in a case which may make the true costs either higher or lower than the amount stated in the regulations. The term 'replacement costs' must be broadly construed to include indirect costs of replacement through habitat improvement or restoration, establishment of sanctuaries, and other recognized conservation techniques when direct stocking or replacement is not feasible.

"ARTICLE 21.

"Licenses and Permits Issued by the Wildlife Resources

1055
CHAPTER 830    Session Laws—1979

Commission.

§113-270.1. License agents.—(a) The Wildlife Resources Commission may by regulation provide for the annual appointment of persons as license agents to sell licenses which it is authorized to issue by this Subchapter or by any other provisions of law. To facilitate the convenience of the public, the efficiency of administration, the need to keep statistics and records affecting the conservation of wildlife resources, boating, water safety, and other matters within the jurisdiction of the Wildlife Resources Commission, and the need to issue licenses containing special restrictions, the Wildlife Resources Commission may issue licenses in any particular category through:

1. License agents.
2. The Wildlife Resources Commission's headquarters.
3. Employees of the Wildlife Resources Commission.
4. Two or more such sources simultaneously.

When there are substantial reasons for differing treatment, the Wildlife Resources Commission may issue a type of license by one method in one locality and by another method in another locality.

(b) License agents may deduct from the amount collected for each license a fee of:

1. Twenty-five cents (25¢) for selling licenses that cost less than five dollars ($5.00).
2. Fifty cents (50¢) for selling licenses that cost five dollars ($5.00) or more but less than twenty-five dollars ($25.00).
3. One dollar ($1.00) for selling licenses that cost twenty-five dollars ($25.00) or more.

(c) The Wildlife Resources Commission may provide qualifications and standards concerning license agents and delegate to the executive director the task of appointment and supervision. Annual appointments run from May 1 to April 30 each year. The Wildlife Resources Commission may require license agents to post bonds, keep records and make reports concerning licenses and receipts, be subject to such audits and inspections as may be necessary, pay penalties up to ten percent (10%) upon receipts as to which there is serious delay in remittance, and pay a penalty of five percent (5%) on any worthless checks given the Wildlife Resources Commission. The minimum penalty for a worthless check, however, is five dollars ($5.00), and the maximum penalty is two hundred dollars ($200.00).

(d) The Wildlife Resources Commission may make regulations in implementing the authority granted in subsection (c), but it need not set out in its regulations details as to forms of license, records and accounting procedures, and other reasonable requirements that may be administratively promulgated by employees of the Wildlife Resources Commission in implementation of the purposes of this Article in order for such administrative requirements to be deemed validly required. It is a misdemeanor punishable in the discretion of the court for a license agent:

1. to withhold or misappropriate funds from the sale of licenses;
2. to falsify records of licenses sold;
3. wilfully and knowingly to assist or allow a person to obtain a license for which he is ineligible;
(4) wilfully to issue a backdated license;
(5) wilfully on records or licenses to include false information or omit material information as to:
   a. a person's entitlement to a particular license; or
   b. the applicability or term of a particular license; or
(6) to refuse to return all consigned licenses, or to remit the net value of consigned licenses sold or unaccounted for, upon demand from an authorized employee of the Wildlife Resources Commission.

(e) The executive director may temporarily suspend, revoke, or refuse to renew a person's appointment as a license agent if he fails in a timely manner to submit required reports, remit monies due the Wildlife Resources Commission, or otherwise comply with the qualifications and standards set by the Wildlife Resources Commission or with reasonable administrative directives of the executive director. The temporary suspension is effective immediately upon communication of that fact to the license agent or his representative handling the licenses. The communication as to suspension must state the grounds for suspension and that the license agent may request a hearing within five working days if he contests the grounds for suspension. If not in writing, the communication must be followed by written notice of suspension containing the same information. By personal service of an impoundment order upon a license agent or his representative handling the licenses, an employee or agent of the Wildlife Resources Commission may enter the premises and impound all licenses, monies, record books, reports, license forms, and other documents, ledgers, and materials pertinent or apparently pertinent to the license agency being suspended. The executive director must make the impounded property, or copies of it, available to the licensee during the period of temporary suspension.

(f) If a hearing is requested, it is before the executive director or his designee to be held at Raleigh or some other place convenient to the parties specified by the executive director. The temporary suspension remains in effect until the hearing, and after the hearing may be rescinded or continued in effect, as the facts warrant, in the discretion of the executive director. A temporary suspension may not last longer than 30 days, but additional suspensions may be imposed if at the end of the suspension period the license agent is still not in compliance with appropriate standards, qualifications, and administrative directives. A license agent may at any time after a hearing appeal his suspension to the Wildlife Resources Commission.

(g) Notice of revocation or nonrenewal of the appointment may be sent the license agent in lieu of or in addition to temporary suspension. The notice must state the grounds for termination of the appointment and the license agent's right to a hearing if he has not previously been afforded one. If the appointment is to be revoked, the notice must state the effective date and hour of revocation. If the appointment is not to be renewed, the notice must state that the appointment expires at midnight on April 30. If he has not been previously afforded a hearing, a license agent is entitled to a hearing within 14 days before the executive director or his designee to be held at Raleigh or some other place convenient to the parties specified by the executive director. After the hearing, the executive director, applying appropriate standards, must take the action with respect to the appointment as license agent that the facts warrant. If the executive director upholds the decision to terminate the appointment, a license agent may appeal his termination to the Wildlife Resources Commission.
CHAPTER 830    Session Laws—1979

Pending the hearing and any appeal from it, the termination is held in abeyance, but no license sales may be made once the license agent's bond has expired.

(h) Upon termination of the appointment, the former agent must return to the Wildlife Resources Commission all record books, reports, license forms, monies, and other property pertaining to the license agency, and must allow agents of the Wildlife Resources Commission to conduct necessary inspections and audits required in terminating the license agency. Each day's refusal after termination to return, upon demand, the record books, reports, license forms, monies, and other property pertaining to the license agency is a separate offense. Each instance of refusal, after termination, to allow agents of the Wildlife Resources Commission to conduct necessary inspections and audits during regular business hours is a separate offense. A violation of this subsection is a misdemeanor punishable by a fine of not more than five hundred dollars ($500.00), imprisonment not to exceed 90 days, or both. Before termination, violations by license agents are punishable under G.S. 113-135, subsection (d) above, or other provision of this Subchapter, as appropriate.

(i) No person denied appointment or whose appointment was terminated under this section is eligible to apply again for an appointment as a license agent for two years. Upon application, the executive director may not grant the appointment as license agent unless the applicant produces clear evidence, convincing to the executive director, that he meets all standards and qualifications and will comply with all requirements of statutes, regulations, and reasonable administrative directives pertaining to license agents.

(j) The executive director or his designee holding any hearing under this section must keep a written record of evidence considered and findings made. Upon appeal to the Wildlife Resources Commission, the commission chairman or other presiding officer must cause such a written record of evidence and findings to be made and kept. Hearings and appeals under this section are internal matters concerning license agents of the Wildlife Resources Commission and are not governed by the North Carolina Administrative Procedure Act.

This license is valid only for use by an individual resident of the State who is a fifty percent (50%) or more disabled war veteran as determined by the Veterans Administration. (10) (Reserved.)

This license is valid for the life of the individual so long as he remains totally disabled.

d) One dollar ($1.00) of each nonresident State hunting license and nonresident six-day hunting license sold must be set aside by the Wildlife Resources Commission and contributed to a proper agency or agencies in the United States for expenditure in Canada for the propagation, management, and control of migratory waterfowl.

“§ 113-270.3. Special activity licenses, big game kill reports.—(a) In addition to any hunting, trapping, or fishing license that may be required, individuals engaging in specially regulated activities must have the appropriate special activity license prescribed in this section before engaging in the regulated activity. Special activity licenses are annual licenses issued beginning August 1 each year running until the following July 31.

(b) The special activity licenses issued by the Wildlife Resources Commission are as follows:

(1) Resident big game hunting license—$3.50. This license is valid only for use by an individual resident of the State and must be procured before taking any big game within the State.

(2) Nonresident big game hunting license—$15.00. This license is valid for use by an individual within the State and, unless the resident big game hunting license has been validly procured, must be procured before taking any big game within the State.

(3) Primitive weapons hunting license—$5.00. This license is valid for use by an individual within the State and must be procured before taking any wild animals or birds with a primitive weapon during any special season for hunting with primitive weapons established by the Wildlife
CHAPTER 830  Session Laws—1979

Resources Commission. During the regular season, a primitive weapon may be used without any special license unless its use is prohibited. For the purposes of this section a 'primitive weapon' includes a bow and arrow, muzzle-loading firearm, and any other primitive weapon specified in the regulations of the Wildlife Resources Commission.

(4) Game land license—$8.00. This license is valid for use by an individual within the State and must be procured before hunting or trapping on game lands or fishing in managed waters on game lands. Managed waters include public mountain trout waters and other public waters, or private ponds, lying wholly or partly on game lands and designated as managed waters by the Wildlife Resources Commission. Possession of this license does not exempt its holder from payment of any applicable special use fees that may be prescribed by the Wildlife Resources Commission under the authority of G.S. 113-264(a), such as fees for field trials on game lands.

(5) Falconry license.—$10.00. This license is valid for use by an individual within the State and must be procured before:

a. taking, importing, transporting, or possessing a raptor; or
b. taking wildlife by means of falconry.

The Wildlife Resources Commission may issue classes of falconry licenses necessary to participate in the Federal/State permit system, require necessary examinations before issuing licenses or permits to engage in various authorized activities related to possession and maintenance of raptors and the sport of falconry, and regulate licensees as required by governing federal law and regulations. To defray the costs of administering required examinations, the Wildlife Resources Commission may charge reasonable fees upon giving them. To meet minimum federal standards plus other State standards in the interests of conservation of wildlife resources, the Wildlife Resources Commission may impose all necessary controls, including those set out in the sections pertaining to collection licenses and captivity licenses, and may issue permits and require reports, but no collection license or captivity license is needed in addition to the falconry license.

(c) Any individual who kills any species of big game must report the kill to the Wildlife Resources Commission. The commission may by regulation prescribe the method of making the report, prescribe its contents, and require positive identification of the carcass of the kill, by tagging or otherwise.

(d) Any individual who possesses a current and valid resident or nonresident sportsman combination license may at lawful times and places engage in any specially regulated activity without any of the licenses required by subdivisions (1) through (4) of subsection (b).

“§ 113-270.4. Hunting guide license.—(a) No one may serve for hire as a hunting guide without having first procured a current and valid hunting guide license. This license is valid only for use by an individual resident of the State meeting the criteria set by the Wildlife Resources Commission for issuance of the license. Possession of the hunting guide license does not relieve the guide from meeting other applicable license requirements.

(b) The hunting guide license is an annual license issued upon payment of five dollars and twenty-five cents ($5.25) beginning August 1 each year running until the following July 31.
(c) The Wildlife Resources Commission may by regulation provide for the qualifications and duties of hunting guides. In implementing this section, the Wildlife Resources Commission may delegate to the executive director and his subordinates administrative responsibilities concerning the selection and supervision of hunting guides, except that provisions relating to revocation of hunting guide licenses must be substantially set out in the regulations of the Wildlife Resources Commission.

"§ 113-270.5. Trapping licenses.—(a) Except as otherwise specifically provided by law, no one may take fur-bearing animals by trapping, or by any other authorized special method that preserves the pelt from injury, without first having procured a current and valid trapping license. When the trapping license is required, it serves in lieu of a hunting license in the taking of fur-bearing animals. If fur-bearing animals are taken as game, at the times and by the hunting methods that may be authorized, hunting license requirements apply. All trapping licenses are annual licenses issued beginning August 1 each year running until the following July 31.

(b) The trapping licenses issued by the Wildlife Resources Commission are as follows:

(1) Resident State trapping license—$10.00. This license is valid only for use by an individual resident of the State.

"§ 113-271. Hook-and-line licenses in inland fishing waters.—(a) (No change.)

Annual fishing licenses, except for the sportsman combination licenses and the resident combination hunting-fishing license, are issued beginning January 1 each year running until the following December 31.

(c) (Repealed.)

(d) The hook-and-line fishing licenses issued by the Wildlife Resources Commission are as follows:

(1) (Repealed.)

(6) Nonresident three-day fishing license—$5.50. This license is valid only for use on three consecutive days by an individual within the State.

(7) (Repealed.)

(8) Lifetime fishing license for the legally blind—No charge. This license is valid only for use by an individual resident of the State who has been certified by the Department of Human Resources as a person whose vision with glasses is insufficient for use in ordinary occupations for which sight is essential. This license is valid for the life of the individual so long as he remains legally blind.

(9) Disabled veteran lifetime combination hunting-fishing license—$7.50. This license is valid only for use by an individual resident of the State who is a fifty percent (50%) or more disabled war veteran as determined by the Veterans Administration. The license is valid for the life of the individual so long as he remains fifty percent (50%) or more disabled.

(10) (Reserved.)

(11) Age 70 lifetime combination hunting-fishing license—$10.00. This license is valid only for use by an individual resident of the State who has attained the age of 70 years. The license is valid for the life of the individual.

(12) Totally disabled resident combination hunting-fishing license—$7.50. This license is valid only for use by an individual resident of the State who is totally disabled (physically incapable of being gainfully employed). This license is valid for the life of the individual so long as he remains totally disabled.

"§ 113-272. Special trout licenses.—(a) (No change.)

(b) Except as otherwise indicated, special trout licenses are annual licenses issued beginning January 1 each year running until the following December 31.

(c) Public mountain trout waters are those waters so designated by the Wildlife Resources Commission which are managed and regulated to sustain a mountain trout fishery.

(d) The special trout licenses issued by the Wildlife Resources Commission are as follows:

(1) (Repealed.)

(1a) Resident sportsman combination license—$25.00.

This license is valid in public mountain trout waters for use only by an individual resident of the State. It is valid during the period set for annual hunting licenses in G.S. 113-270.2.

(3) Lifetime fishing license for the legally blind—No charge. This license is valid in public mountain trout waters for use only by an individual.
resident of the State. It is issued upon the terms set out in G.S. 113-271(d)(8).

"§ 113-272.1. Sportsman’s combination license.—(Repealed.)

"§ 113-272.2. Special device licenses.—(a) Except as otherwise specifically provided by law, no one may fish in inland fishing waters with any special device without having first procured a current and valid special device license. Special devices are all devices used in fishing other than hook and line.

(b) All special device licenses are annual licenses issued beginning January 1 each year running until the following December 31.

(c) The special device licenses issued by the Wildlife Resources Commission are as follows:

(1) Resident special device license—$10.00. Except as regulations of the Wildlife Resources Commission provide for use of equipment by more than one person, this license is valid only for use by an individual resident of the State. It authorizes the taking of nongame fish from inland fishing waters with special devices authorized by the regulations of the Wildlife Resources Commission for use in specified waters. The Wildlife Resources Commission may restrict the user of the license to specified registered equipment, require tagging of items of equipment, charge up to one dollar ($1.00) per tag issued, and require periodic catch data reports. Unless specifically prohibited, nongame fish lawfully taken under this license may be sold.

(2) Nonresident special device license—$25.00. Except as regulations of the Wildlife Resources Commission provide for use of equipment by more than one person, this license is valid for use by an individual within the State. It is otherwise subject to the terms and conditions set out in subdivision (1) above.

(3) Resident personal use special device license—$3.00. This license is valid only for use by an individual resident of the State. It authorizes the taking of nongame fish from inland fishing waters with special devices authorized by the regulations of the Wildlife Resources Commission for use in specified waters. The Wildlife Resources Commission may restrict the total amount of equipment used, and may require tagging of unattended equipment. Fish taken under this license may not be sold.

(4) Nonresident personal use special device license—$10.00. This license is valid for use by an individual within the State. It is otherwise subject to the terms and conditions set out in subdivision (3) above.

"§ 113-272.3. Special provisions respecting fishing licenses; grabbing; taking bait fish; use of landing nets.—(a) The Wildlife Resources Commission by regulation may define the meaning of ‗hook and line‘ and ‗special device‘ as applied to fishing techniques. Any technique of fishing that may be lawfully authorized which employs neither the use of any special device nor hook and line must be pursued under the appropriate hook-and-line fishing license.

(b) In accordance with established fishing customs and the orderly conservation of wildlife resources, the Wildlife Resources Commission may by regulation provide for use of nets or other special devices which it may authorize as an incident to hook-and-line fishing or for procuring bait fish without requiring a special device license. In this instance, however, the individual fishing must meet applicable hook-and-line license requirements.
"§ 113-272.4. Collection licenses.—(a) In the interest of the orderly and efficient conservation of wildlife resources, the Wildlife Resources Commission may provide for the licensing of qualified individuals to take any of the wildlife resources of the State under a collection license that may serve in lieu of any other license required in this Article. This license authorizes incidental transportation and possession of the wildlife resources necessary to implement the authorized purposes of the taking, but the Wildlife Resources Commission in its discretion may additionally impose permit requirements under subsection (d) below and G.S. 113-274.

(b) The Wildlife Resources Commission may delegate to the executive director the authority to impose time limits during which the license is valid and restrictions as to what may be taken and method of taking and possession, in the interests of conservation objectives. The executive director through his responsible agents must determine whether a particular license applicant meets the standards and qualifications for licensees set by the Wildlife Resources Commission. Methods of taking under a collection license need not be restricted to those applicable to ordinary hunting, trapping, or fishing, but the licensee must observe the restrictions as to taking, transportation, and possession imposed by the executive director upon the granting of the license.

(c) When a more limited duration period is not set by the executive director in implementing the regulations of the Wildlife Resources Commission, collection licenses are valid from January 1 through December 31 in any year. This license is issued upon payment of five dollars ($5.00), but the Wildlife Resources Commission may provide for issuance without charge to licensees who represent educational or scientific institutions or some governmental agency.

(d) As necessary, the executive director may administratively impose on licensees under this section restrictions upon individuals taking, transporting, or possessing under the license which will permit ready identification and control of those involved in the interest of efficient administration of laws pertaining to wildlife resources. Restrictions may include requirements as to record keeping, tagging, marking packages, cages, or containers and exhibition of additional limited-purpose and limited-time permits that may be issued without charge to cover particular activities and other actions that may be administratively required in the reasonable implementation of the objectives of this Subchapter.

(e) If the executive director deems it administratively appropriate and convenient to do so, in the interests of simplifying the administration of licensing requirements, he may grant particular licensees under this section the privilege of utilizing assistants in taking, transporting, or possessing wildlife resources who themselves are not licensed. Any assistants so taking, transporting, or possessing wildlife resources must have readily available for inspection a written authorization from the licensee to engage in the activity in question. The written authorization must contain information administratively required by the executive director, and a copy of the authorization must be placed in the mail addressed to the executive director or his designated agent before any assistant acts under the authorization. In his discretion the executive director may refuse to issue, refuse to renew, or revoke the privilege conferred in this subsection. If this is done, each individual engaged in taking,
transporting, or possessing wildlife resources under this section must meet all applicable licensing and permit requirements.

§ 113-272.5. Captivity license.—(a) In the interests of humane treatment of wild animals and wild birds that are crippled, tame, or otherwise unfit for immediate release into their natural habitat, the Wildlife Resources Commission may license qualified individuals to hold a particular wild animal or wild bird alive in captivity. Before issuing this license, the executive director must satisfy himself that issuance of the license is appropriate under the objectives of this Subchapter, and that the wild animal or wild bird was not acquired unlawfully or merely as a pet. Upon refusing to issue the captivity license, the executive director may either take possession of the wild animal or wild bird for appropriate disposition or issue a captivity permit under G.S. 113-274(c)(1b) for a limited period until the holder makes proper disposition of the wild animal or wild bird.

(b) Unless a shorter time is set for a license upon its issuance under the provisions of subsection (c), captivity licenses are annual licenses issued beginning January 1 each year and running until the following December 31. This license is issued upon payment of five dollars ($5.00) to the Wildlife Resources Commission.

(c) The Wildlife Resources Commission may require standards of caging and care and reports to and supervision by employees of the Wildlife Resources Commission as necessary to insure humane treatment and furtherance of the objectives of this Subchapter. The executive director in implementing the provisions of this section may administratively impose through responsible agents and employees restrictions upon the mode of captivity that he deems necessary, including prescribing methods of treatment and handling designed, if possible, to enable the wild animal or wild bird to become self-sufficient and requiring that the wild animal or wild bird be set free when self-sufficiency is attained. To this end, the executive director may issue the captivity license with an expiration date earlier than December 31 and may also act to terminate any captivity license earlier than the expiration date for good cause.

(d) Any substantial deviation from reasonable requirements imposed by regulation or administratively under the authority of this section renders possession of the wild animal or wild bird unlawful.

(e) No captivity license may be issued for any cougar (Felis concolor), except to:

(1) A bona fide publicly supported zoo.

(2) An educational or scientific research institution.

(3) An individual who lawfully possessed the cougar on June 29, 1977. The license may not be granted, however, for possession of a cougar within a municipality which prohibits such possession by ordinance.

(f) The licensing provisions of this section apply to black bears held in captivity, but, to the extent that it differs from this section, Article 2 of Chapter 19A of the General Statutes governs the keeping of black bears in captivity.

§ 113-273. Dealer licenses.—(a) ‘Dealer’ Defined; All Licenses Annual. As used in this section, the word ‘dealer’ includes all persons or individuals required to be licensed under the terms of this section. Except when indicated otherwise, all dealer licenses are annual licenses. Annual dealer licenses are issued beginning January 1 each year running until the following December 31.

1065
(b) License Required; Regulations Governing Licensee. Except as otherwise provided, no person may engage in any activity for which a dealer license is provided under this section without first having procured a current and valid dealer license for that activity. In implementing the provisions of this section, the Wildlife Resources Commission may by regulation govern every aspect of the licensee’s dealings in wildlife resources. Specifically, these regulations may require dealers to:

(1) implement a system of tagging or otherwise identifying and controlling species regulated under the license and pay a reasonable fee, not to exceed two dollars and twenty-five cents ($2.25), for each tag furnished by the Wildlife Resources Commission;
(2) keep records and statistics in record books furnished by the Wildlife Resources Commission, and pay a reasonable charge to defray the cost of furnishing the books;
(3) be subject to inspection at reasonable hours and audit of wildlife resources and pertinent records and equipment;
(4) make periodic reports;
(5) post performance bonds payable to the Wildlife Resources Commission conditioned upon faithful compliance with provisions of law; and
(6) otherwise comply with reasonable regulations and administrative requirements that may be imposed under the authority of this section.

(c) Commercial Trout Pond License. As used in this subsection, a ‘commercial trout pond’ is a fish tank meeting standards set by the Wildlife Resources Commission or an artificial impoundment of three acres or less lying on private land and not on a natural stream, but which may be supplied through screened and regulated supply lines. A commercial trout pond must be stocked exclusively with hatchery-reared mountain trout obtained from hatcheries approved by the Wildlife Resources Commission. The Wildlife Resources Commission may by regulation prescribe qualifications of operators of commercial trout ponds, standards of operation, and the conditions under which trout from such ponds may be taken, transported, possessed, bought, and sold. Commercial trout pond licenses issued by the Wildlife Resources Commission are as follows:

(1) (No change.)
(2) Commercial trout holding pond license, five dollars ($5.00). Authorizes the responsible licensed pond owner or operator to hold live trout for sale under conditions prescribed by the Wildlife Resources Commission. No person holding a fish propagation license for trout under subsection (e) need also procure this license.

(d) Game Fish Sale License. (Repealed.)

(e) Fish Propagation License. The Wildlife Resources Commission may by regulation authorize and license the operation of fish hatcheries for species of fish which may be found in inland fishing waters. The Wildlife Resources Commission may prescribe standards of operation, qualifications of operators, and the conditions under which fish may be taken, transported, possessed, bought, and sold. Fish propagation licenses issued by the Wildlife Resources Commission are as follows:

(1) Trout propagation license, twenty-five dollars ($25.00). Authorizes artificial propagation and sale of all species of freshwater trout
permitted under the regulations of the Wildlife Resources Commission
in accordance with those regulations.

(2) Restricted propagation license, twenty-five dollars ($25.00). Authorizes
artificial propagation and sale of species of fish other than trout
designated in the license, in accordance with governing regulations
of the Wildlife Resources Commission.

(f) Fur-Dealer License. Except as otherwise provided in this subsection, any
individual in this State who deals in furs must obtain an appropriate fur-dealer
license. For the purposes of this subsection, ‘dealing in furs’ is engaging in the
business of buying or selling fur-bearing animals or other wild animals that may
lawfully be sold, the raw furs, pelts, or skins of those animals, or the furs, pelts,
or skins of wild animals which may not themselves be sold but whose fur, pelt,
or skin may lawfully be sold. A hunter or trapper who has lawfully taken wild
animals whose fur, pelt, or skin is permitted to be sold under this subsection is
not considered a fur dealer if he exclusively sells the animals or the furs, pelts,
and skins, as appropriate, to licensed fur dealers. Fur-dealer licenses issued by
the Wildlife Resources Commission are as follows:

(1) Resident fur-dealer license, fifty dollars ($50.00). Authorizes an
individual resident of the State to deal in furs in accordance with the
regulations of the Wildlife Resources Commission.

(2) Nonresident fur-dealer license, one hundred fifty dollars ($150.00).
Authorizes an individual within the State to deal in furs in accordance
with the regulations of the Wildlife Resources Commission.

(3) Fur-dealer station license, one hundred dollars ($100.00). Authorizes a
person or individual to deal in furs at an established location where fur
dealings occur under the supervision of a responsible individual
manager named in the license. Individual employees of the business
dealing in furs solely at the established location under the supervision
of the manager need not acquire an individual license. Any employee
who also deals in furs outside the established location must obtain the
appropriate individual license. Individuals dealing in furs at an
established location may elect to do so under their individual licenses.

The executive director may administratively provide for reissuance
of a station license without charge for the remainder of the year when
either a business continues at an established location under a new
supervising manager or the business changes to a new location. Before
reissuing the license, however, the executive director must satisfy
himself that there is a continuation of essentially the same business
previously licensed and that any new supervising manager meets the
qualifications imposed by regulations of the Wildlife Resources
Commission. The supervising manager must file the names of all
employees of the business covered by a fur-dealer station license,
whether temporary or permanent, including employees who process or
skin the animals.

The executive director must furnish supervising managers and
individual licensees with forms or record books for recording required
information as to purchase, sale, importation, exportation, and other
dealings, and make a reasonable charge to cover the cost of any record
books furnished. It is unlawful for anyone dealing in furs to fail to

1067
submit reports required by regulations or reasonable administrative directives.

(g) Controlled Shooting Preserve Operator License. The Wildlife Resources Commission is authorized by regulation to set standards for and to license the operation of controlled shooting preserves operated by private persons. A ‘controlled shooting preserve’ is an area on which only domestically raised game birds other than wild turkeys are taken. This license may be purchased for a fee of fifty dollars ($50.00).

(h) Game Bird Propagation License. No person may propagate game birds in captivity or possess game birds for propagation without first procuring a license under this subsection. The Wildlife Resources Commission may by regulation prescribe the activities to be covered by the propagation license, which species of game birds may be propagated, and the manner of keeping and raising the birds, in accordance with the overall objectives of conservation of wildlife resources. Except as limited by this subsection, propagated game birds may be raised and sold for purposes of propagation, stocking, food, or taking in connection with dog training as authorized in G.S. 113-291.1(d). Migratory game bird operations authorized under this subsection must also comply with any applicable provisions of federal law and regulations. The Wildlife Resources Commission may impose requirements as to shipping, marking packages, banding, tagging, or wrapping the propagated birds and other restrictions designed to reduce the chance of illicit game birds being disposed of under the cover of licensed operations. The Wildlife Resources Commission may make a reasonable charge for any bands, tags, or wrappers furnished propagators. The game bird propagation license is issued by the Wildlife Resources Commission upon payment of a fee of five dollars ($5.00). It authorizes a person or individual to propagate and sell game birds designated in the license, in accordance with the regulations of the Wildlife Resources Commission, except:

1) Wild turkey and ruffed grouse may not be sold for food.

2) Production and sale of pen-raised quail for food purposes is under the exclusive control of the Department of Agriculture. The Wildlife Resources Commission, however, may regulate the possession, propagation, and transportation of live pen-raised quail.

It is a misdemeanor punishable by a fine of not less than one hundred dollars ($100.00) in addition to such other punishment the court may impose in its discretion to sell wild turkey or ruffed grouse for food purposes or to sell quail other than lawfully acquired pen-raised quail for food purposes.

(i) (Reserved.)

(j) (Reserved.)

(k) Taxidermy License. Any individual who engages in taxidermy involving wildlife for any compensation, including reimbursement for the cost of materials, must first procure a taxidermy license. This license is an annual license issued by the Wildlife Resources Commission for ten dollars ($10.00). The Wildlife Resources Commission must require a licensee to keep records concerning any wildlife taken or possessed by him; to keep records of the names and addresses of persons bringing him wildlife, the names and addresses of persons taking the wildlife if different, and other information concerning the origin of the wildlife; to inspect any applicable licenses or permits pertaining to the taking and possession of wildlife brought to him; to restrict him to taxidermy upon lawfully acquired wildlife; and to keep other pertinent records.
No taxidermist subject to license requirements may sell any game or game fish in which he deals except that a taxidermist may acquire a valid possessor lien upon game or game fish under the terms of Chapter 44A of the General Statutes and, with a permit from the executive director, may sell the game or game fish under the procedure authorized in Chapter 44A. Wildlife acquired by a taxidermist is deemed 'personal property' for the purposes of Chapter 44A.

"§ 113-274. Permits.—(a) As used in this Article, the word 'permit' refers to a written authorization issued without charge by an employee or agent of the Wildlife Resources Commission to an individual or a person to conduct some activity over which the Wildlife Resources Commission has jurisdiction. When sale of wildlife resources is permitted, regulations or the directives of the executive director may require the retention of invoices or copies of invoices in lieu of a permit.

(b) Except as otherwise specifically provided, no one may engage in any activity for which a permit is required without having first procured a current and valid permit.

(c) The Wildlife Resources Commission may issue the following permits:

(1) (Repealed.)

(1a) Depredation Permit. Authorizes the taking, destruction, transfer, removal, transplanting, or driving away of undesirable, harmful, predatory, excess, or surplus wildlife or wildlife resources. The permit must state the manner of taking and the disposition of wildlife or wildlife resources authorized or required and the time for which the permit is valid, plus other restrictions that may be administratively imposed in accordance with regulations of the Wildlife Resources Commission. No depredation permit or any license is needed for the owner or lessee of property to take wildlife while committing depredations upon the property. The Wildlife Resources Commission may regulate the manner of taking and the disposition of wildlife taken without permit or license, including wildlife killed accidentally by motor vehicle or in any other manner.

(1b) Captivity Permit. Authorizes the possession of live wildlife that may lawfully be permitted to be retained alive, in accordance with governing regulations of the Wildlife Resources Commission. This permit may not substitute for any required collection license or captivity license, but may be temporarily issued for possession of wild animals or wild birds pending action on a captivity license or following its denial or termination. If this permit is issued for fish to be held indefinitely, the Wildlife Resources Commission may provide for periodic renewals of the permit, at least once each three years, to assure a review of the circumstances and conditions under which fish are kept. Wild animals and wild birds kept temporarily in captivity under this permit must be humanely treated and in accordance with any stipulations in the permit, but the standards of caging and care applicable to species kept under the captivity license do not apply unless specified in the permit. Any substantial deviation from reasonable requirements imposed by regulation or administratively under the authority of this section renders the possession of the wildlife unlawful.

(1c) Possession Permit. Authorizes the possession of dead wildlife or other wildlife resources lawfully acquired. The Wildlife Resources Commission...
Commission may by regulation implement the issuance and supervision of this permit, in accordance with governing laws and regulations respecting the possession of wildlife. Any substantial deviation from reasonable requirements imposed by regulation or administratively under the authority of this section renders the possession of the wildlife unlawful.

(2) Transportation Permit. The Wildlife Resources Commission may require the use of transportation permits by persons required to be licensed under this Article, or by persons and individuals exempt from license requirements, while transporting wildlife resources within the State—as necessary to discourage unlawful taking or dealing in wildlife resources and to control and promote the orderly and systematic transportation of wildlife resources within, into, through, and out of the State. Transportation permits may be issued for wildlife transported either dead or alive, in accordance with restrictions that may be reasonably imposed. When convenient, regulations or administrative directives may require the retention and use of an invoice or memorandum of sale, or the license or permit authorizing the taking or acquisition of the wildlife resources, as a transportation permit. When circumstances warrant, however, a separate additional transportation permit may be required. Any substantial deviation from reasonable requirements imposed by regulation or administratively under the authority of this section renders the transportation of the wildlife resources unlawful.

(3) Exportation or Importation Permit. Authorizes the exportation or importation of wildlife resources from or into the State or from county to county. The Wildlife Resources Commission may by regulation implement the issuance and supervision of this permit, in accordance with governing laws and regulations respecting the exportation and importation of wildlife resources. Any substantial deviation from reasonable requirements imposed by regulation or administratively under the authority of this section renders the importation or exportation of the wildlife resources unlawful.

(3a) Trophy Wildlife Sale Permit. Authorizes the owner of lawfully taken and possessed dead wildlife specimens or their parts that are mounted, stuffed, or otherwise permanently preserved to sell identified individual specimens that may lawfully be sold under applicable laws and regulations.

(3b) Trout Sale Permit. Authorizes the sale at wholesale or retail of dead artificially-propagated mountain trout for food purposes if the trout have been lawfully acquired from a hatchery approved by the Wildlife Resources Commission and are appropriately wrapped or otherwise identified as hatchery-reared trout as required by governing regulations. No person who holds a license that authorizes the sale of trout need purchase this permit.

(4) Other Permits. In implementing the provisions of this Subchapter, the Wildlife Resources Commission may issue permits for taking, purchase, or sale of wildlife resources if the activity is lawfully authorized, if there is a need for control of the activity, and no other license or permit is applicable. In addition, if a specific statute so provides, a permit under
this subdivision may be required in addition to a license when there is a need for closer control than provided by the license.

"§ 113-275. General provisions respecting licenses and permits.—(a) The Wildlife Resources Commission is authorized to make agreements with other jurisdictions as to reciprocal honoring of licenses in the best interests of the conservation of wildlife resources.
(b) (No change.)

(a) (Repealed.)
(b) (Repealed.)
(c) Except as otherwise provided in this Subchapter, every landholder, his spouse, and dependents under 18 years of age residing with him may take wildlife upon the land held by the landholder without any license required by G.S. 113-270.2, 113-270.3(b) except for subdivision (5), 113-270.5, 113-271, or 113-272.
(d) Except as otherwise provided in this Subchapter, individuals under 16 years of age are exempt from the hunting, trapping, and fishing license requirements of G.S. 113-270.2, 113-270.3(b) except for subdivision (5), 113-270.5, and 113-272 if:
   (1) he is accompanied by a responsible adult who is in compliance with applicable license requirements; or
   (2) he is carrying a current and valid license appropriate to the activity which has been issued to one of his parents or to his guardian.
Individuals under 16 years of age are exempt from the fishing license requirements of G.S. 113-271.
(e) (No change.)
(f) A special device license is not required when a landing net is used:
   (1) to take nongame fish in inland fishing waters; or
   (2) to assist in taking fish in inland fishing waters when the initial and primary method of taking is by the use of hook and line—so long as applicable hook-and-line fishing license requirements are met.
As used in this subsection, a 'landing net' is a net with a handle not exceeding eight feet in length and with a hoop or frame to which the net is attached not exceeding 60 inches along its outer perimeter.
(g) Bow nets covered by a special device license may be used in waters and during the seasons authorized in the regulations of the Wildlife Resources Commission by an individual other than the licensee with the permission of the licensee. The individual using another's bow net must also secure the net
owner's special device license and keep it on or about his person while fishing in inland fishing waters.

(h) (Repealed.)

(i) A food server may prepare edible wildlife lawfully taken and possessed by a patron for serving to the patron and any guest he may have. The executive director may provide for the keeping of records by the food server necessary for administrative control and supervision with respect to wildlife brought in by patrons.

(j) A migrant farm worker who has in his possession a temporary certification of his status as such by the Rural Employment Service of the North Carolina Employment Security Commission on a form provided by the Wildlife Resources Commission is entitled to the privileges of a resident of the State and of the county indicated on such certification during the term thereof for the purposes of:

(1) Purchasing and using the resident fishing licenses provided by G.S. 113-271(d)(2a), (3), and (4); and

(2) Utilizing the natural-bait exemption in subsection (e) above.

(k) A person may participate in a field trial for beagles without a hunting license if approved in advance by the executive director, conducted without the use or possession of firearms, and on an area of not more than 100 acres of private land which is completely and permanently enclosed with a metal fence through which rabbits may not escape or enter at any time.

(l) The fishing license provisions of this Article do not apply upon the lands held in trust by the United States for the Eastern Band of the Cherokee Indians.

"§ 113-276.1. Regulatory authority of Wildlife Resources Commission as to license requirements and exemptions.—In its discretion and in accordance with the best interests of the conservation of wildlife resources, the Wildlife Resources Commission may implement the provisions of this Article with regulations that:

(1) (Reserved.)

(2) Regulate license requirements and exemptions applying to the taking of wildlife on particular waters forming or lying across a county boundary where there may be confusion as to the location of the boundary, hardship imposed as to the location of the boundary, or difficulty of administering or enforcing the law with respect to the actual boundary location.

(3) Require persons subject to license requirements, and persons exempt from license requirements, to carry, display, or produce identification that may be necessary to substantiate the person's entitlement to a particular license or to a particular exemption from license requirements.

(4) Require individuals aboard vessels or carrying weapons or other gear that may be used to take wildlife resources, and in an area at a time wildlife resources may be taken, to exhibit identification that includes the individual's name and current address. More than one piece of identification, including a vehicle driver license, may be required to be exhibited, if available.

(5) Implement a system of tagging and reporting fur-bearing animals and big game. Upon the implementation of a tagging system for any species
of fur-bearing animal, the Wildlife Resources Commission may charge a reasonable fee to defray its costs, not to exceed two dollars twenty-five cents ($2.25) per tag, for each tag furnished. The price of the big game hunting license includes the cost of big game tags.

"§ 113-276.2. Licensees and permittees subject to administrative control; refusal to issue or reissue, suspension, and revocation of their licenses and permits; court orders of suspension.—(a) This section applies to the administrative control of:

(1) persons, other than individual hunters and fishermen taking wildlife as sportsmen, holding permits under this Article;
(2) individuals holding special device licenses under G.S. 113-272.2(c)(1) and (2);
(3) individuals holding collection licenses under G.S. 113-272.4;
(4) individuals holding captivity licenses under G.S. 113-272.5; and
(5) persons holding dealer licenses under G.S. 113-273.

(b) Before issuing any license or permit to persons subject to administrative control under this section, the executive director must satisfy himself that the person meets the qualifications set by statute, regulation, or his administrative guidelines. If the person fails to meet the qualifications or if the executive director learns of some other cause for believing that issuing the license or permit would be contrary to the best interests of the conservation of wildlife resources, he must refuse to issue the license or permit.

(c) Before reissuing any license or permit to any person subject to administrative control, the executive director must review all available information and apply the same standards that governed initial issuance of the license or permit before he may reissue it.

(d) Upon refusing to issue or reissue a license or permit under this section, the executive director must notify the person in writing of the reasons for his action and inform him that if he contests the executive director’s action within 10 days he is entitled to a hearing in accordance with the provisions of the Administrative Procedure Act. The notice must be personally served by a law enforcement officer or an agent of the Wildlife Resources Commission or sent by mail with return receipt requested. If the person refused the license or permit notifies the executive director within 10 days of receiving notice that he does contest the action, the executive director must formally notify all appropriate parties that a hearing will be conducted in accordance with the provisions of Article 3 of Chapter 150A of the General Statutes and any applicable regulations of the Wildlife Resources Commission. The Wildlife Resources Commission may provide by regulation either for the appointment of a hearing officer or officers or may direct that hearings in some or all classes of cases be conducted by the commission itself. To the extent the procedure governing the hearing is not covered by this section, the Administrative Procedure Act, or regulations of the Wildlife Resources Commission, the executive director must direct that appropriate procedures be followed which are not inconsistent with governing statutes and regulations.

(e) If the executive director discovers that a person subject to administrative control does not meet, or no longer meets, the qualifications for issuance of the license or permit, has committed a substantial criminal violation of this Subchapter or of its regulations, or has seriously or persistently failed to comply with the terms and conditions upon which the license or permit was issued, he
must notify the person in writing of his findings and of his intention to revoke the license or permit unless the person contests the executive director's action within 10 days. Any revocation or suspension of a license or permit ordered by a court under G.S. 113-277 runs concurrently with any revocation under this section. The notice must be personally served by a law enforcement officer or an agent of the Wildlife Resources Commission or sent by mail with return receipt requested. If the person notifies the executive director that he contests the facts relied upon by the executive director or the appropriateness of revocation under the circumstances of the case, the executive director must afford the person a hearing in accordance with the provisions of the Administrative Procedure Act and the special provisions of subsection (d) above. If the person does not notify the executive director that he contests his action within 10 days of receiving notice, the executive director must revoke any license or permit in question as provided in subsection (g) below.

(f) If the decision to revoke the person's license is sustained after all proceedings under the Administrative Procedure Act, including judicial review, if any, the executive director must revoke any license or permit in question as provided in subsection (g) below.

(g) Upon revocation of a license or permit, the executive director or his agent must request return of the license or permit and all associated forms, tags, record books, inventories, invoice blanks, and other property furnished by the Wildlife Resources Commission or required to be kept by the commission solely in connection with the license or permit. If the person needs to retain a copy of the property returned to the Wildlife Resources Commission for tax purposes or other lawful reason, the person may copy items returned if the copies are clearly marked in a manner that they could not be mistaken for the originals. In securing property to be returned or in otherwise closing out the affairs conducted under the license or permit, agents of the Wildlife Resources Commission may enter at reasonable hours the premises of the person in which wildlife resources or items of property pertaining to the license or permit are kept, or reasonably believed to be kept, to inspect, audit, inventory, remove, or take other appropriate action. Any wildlife resources in the possession of the person which he may no longer possess must be disposed of in accordance with the most nearly appropriate provision of G.S. 113-137. If a person fails to return to an agent of the Wildlife Resources Commission all wildlife resources and other property covered by this subsection; refuses to allow entry by the agent to inspect, audit, remove property, or perform other duties; or otherwise obstructs an agent of the Wildlife Resources Commission in performing his duties under this subsection, he is guilty of a misdemeanor punishable by a fine of not less than fifty dollars ($50.00) nor more than five hundred dollars ($500.00), imprisonment not to exceed 90 days, or both. Each day's violation is a separate offense.

(h) No person refused issuance or reissuance of a license or permit under this section, or whose license or permit was revoked, is eligible to apply again for that or any similar license or permit for two years. Upon application, the executive director may not grant the license or permit unless the person produces clear evidence, convincing to the executive director, that he meets all standards and qualifications and will comply with all requirements of statutes, regulations, and reasonable administrative directives pertaining to the license or permit.
(i) The executive director is required to make necessary investigations and cause necessary disclosure of information by all persons subject to administrative control, and all applicants for a license or permit that would place them in this category, to determine that the real party in interest is seeking or has been issued the license or permit. Any attempt to circumvent the provisions of this section is a misdemeanor punishable in the discretion of the court.

(j) So long as a license or permit has not expired, the person contesting any action to revoke retains it and may continue his operations under the license or permit. If the executive director determines that the effective conservation of wildlife resources would be seriously impaired by continued unfettered operations or by continued possession of property by the person subject to administrative control, the executive director may apply to the appropriate court for an order:

(1) placing special reporting and inspection requirements on the person; or
(2) impounding some or all of the records or other property associated with the license or permit; or
(3) limiting the scope of operations under the license or permit; or
(4) if there is clear evidence of a serious threat to the conservation of wildlife resources, suspending the operations of the person under the license or permit; or
(5) placing other appropriate restrictions, prohibitions, or requirements upon the person.

“§ 113-276.3. Mandatory suspension of entitlement to license or permit for fixed period upon conviction of specified offenses.—(a) Upon conviction of a suspension offense under this section, the defendant's entitlement to any license or permit applicable to the type of activity he was engaging in that resulted in the conviction is suspended for the period stated in subsection (d). The period of suspension begins:

(1) upon the surrender to an authorized agent of the Wildlife Resources Commission of all applicable licenses and permits; or
(2) if no licenses or permits are possessed, the defendant fails or refuses to surrender all licenses or permits, or any license or permit is lost or destroyed, upon the executive director's placing in the mail the notification required by subsection (c).

(b) If the defendant does not wish to appeal, the presiding judge may order surrender of all applicable licenses and permits to an agent of the Wildlife Resources Commission. If the presiding judge does not order the surrender, or if there is for any other reason a failure by the defendant to surrender all applicable licenses and permits, an authorized agent of the Wildlife Resources Commission must demand surrender. Each day's failure or refusal to surrender a license or permit upon demand, in the absence of satisfactorily accounting for the failure to do so, is a separate offense. A charge under this subsection does not affect the power of the court to institute contempt proceedings if a failure or refusal to surrender a license or permit also violates a court order. Any agent of the Wildlife Resources Commission accepting surrender of licenses and permits, in the courtroom or at a subsequent time and place, must transmit them to the executive director with a written notation of the date of surrender and a report of other pertinent circumstances required by the executive director.
(c) The executive director must institute a procedure for the systematic reporting to him by protectors or other authorized agents of the Wildlife Resources Commission of all convictions of suspension offenses under this section. Upon obtaining information concerning conviction of a suspension offense and receiving any surrendered licenses and permits, the executive director must determine if all appropriate licenses and permits possessed by the defendant have been surrendered; if not, the executive director must notify the appropriate agent of the Wildlife Resources Commission to demand surrender or renew a demand for surrender under the terms of subsection (b) if it is feasible to do so. Upon satisfying himself that he has received all licenses and permits for which surrender may feasibly be obtained, if any, the executive director must mail the defendant a notice of the suspension of his entitlement to possess or procure any license or permit of the type applicable to the activity engaged in that resulted in conviction of the suspension offense. The notice must specify the commencement and termination dates of the period of suspension that apply under the terms of this section.

(d) Any violation of this Subchapter or of any regulation adopted by the Wildlife Resources Commission under the authority of this Subchapter which is subject to a penalty greater than the one provided in G.S. 113-135(a)(1) is a suspension offense. Conviction of any of the following suspension offenses results in a suspension for a period of two years:

1. A violation of G.S. 113-294(b).
2. A violation of G.S. 113-294(c).
3. A violation of G.S. 113-294(e).
4. A violation of G.S. 113-294(k).

A conviction of any other suspension offense results in a suspension for a period of one year.

§ 113-277. Suspension and revocation of licenses and permits in the discretion of the court; suspension of entitlement; court’s power concurrent; definition of ‘conviction’; penalties.—(a) (No change.)

(a1) Upon conviction of any person who is not a licensee or permittee under this Article of a violation of any law or regulation administered by the Wildlife Resources Commission under the authority of this Subchapter, the court in its discretion may suspend the entitlement of the defendant to possess or procure any specified licenses and permits issued by the Wildlife Resources Commission for a period not to exceed two years.

(a2) The authority of a court to suspend entitlement or order suspension or revocation of a license or permit under this section does not preempt the power of the executive director or the Wildlife Resources Commission to act under G.S. 113-276.2 and G.S. 113-276.3, but the court may in its discretion suspend entitlement or order suspension or revocation of any license or permit under this section to be effective concurrently with any action taken under the authority of those two sections.

(a3) As used in this Article, the term ‘conviction’ has the same meaning assigned to it in G.S. 113-166(a).

(b) (No change.)

"ARTICLE 22.

1076
"Regulation of Wildlife.

§ 113-291. General restrictions.—Except as specifically permitted in this Subchapter or in regulations made under the authority of this Subchapter, no person may take, possess, buy, sell, or transport any wildlife—whether dead or alive, in whole or in part. Nor may any person take, possess, buy, sell, or transport any nests or eggs of wild birds except as so permitted. No person may take, possess, buy, sell, or transport any wildlife resources in violation of the regulations of the Wildlife Resources Commission.

§ 113-291.1. Manner of taking wild animals and wild birds.—(a) Except as otherwise provided, game may only be taken between a half hour before sunrise and a half hour after sunset and only by one or a combination of the following methods:

1. With a rifle.
2. With a shotgun not larger than number 10 gauge.
3. With a bow and arrow of a type prescribed in the regulations of the Wildlife Resources Commission.
4. With the use of dogs.
5. By means of falconry.

Fur-bearing animals may be taken at any time during open trapping season with traps authorized under G.S. 113-291.6. Nongame animals and birds open to hunting may be taken during the hours authorized by regulation during any open season by the methods for taking game. Use of pistols in taking wildlife is governed by subsection (g). The Wildlife Resources Commission may prescribe the manner of taking wild animals and wild birds on game lands and public hunting grounds.

(b) No wild animals or wild birds may be taken:
1. From or with the use of any vehicle; vessel, other than one manually propelled; airplane; or other conveyance except that the use of vehicles and vessels is authorized:
   a. As hunting stands, subject to the following limitations. No wild animal or wild bird may be taken from any vessel under sail, under power, or with the engine running or while still in motion from such propulsion. No wild animal or wild bird may be taken from any vehicle if it is in motion, the engine is running, or the passenger area of the vehicle is occupied. The prohibition of occupying the passenger area of a vehicle does not apply to a disabled individual whose mobility is restricted.
   b. For transportation incidental to the taking.
2. With the use or aid of any artificial light, net, trap, snare, electronic or recorded animal or bird call, or fire, except as may be otherwise provided by statute. No wild birds may be taken with the use or aid of salt, grain, fruit, or other bait, except as may be otherwise provided by statute. The taking of wild animals and wild birds with poisons, drugs, explosives, and electricity is governed by G.S. 113-261, G.S. 113-262, and Article 22A.

(c) It is a misdemeanor punishable in the discretion of the court for any person taking wildlife to have in his possession any:
1. Firearm equipped with a silencer or any device designed to silence, muffle, or minimize the report of the firearm. The firearm is considered equipped with the silencer or device whether it is attached to the
firearm or separate but reasonably accessible for attachment during the taking of the wildlife.

(2) Weapon of mass death and destruction as defined in G.S. 14-288.8.

(d) In accordance with governing regulations of the Wildlife Resources Commission imposing further restrictions that may be necessary, hunters may conduct field trials with dogs in areas and at times authorized with the use of approved weapons and ammunition. The Wildlife Resources Commission may authorize organized retriever field trials, utilizing domestically raised pheasants or waterfowl, to be held under its permit.

(d1) Except in areas closed to protect sensitive wildlife populations, hunters may train dogs during the closed season:

(1) with the use of approved weapons and ammunition; and

(2) if reasonable control is exercised to prevent the dogs from running unsupervised at large and from killing wild animals and wild birds.

(e) Raccoons and opossum may be taken at night with dogs during seasons set by regulations of the Wildlife Resources Commission with the use of artificial lights of a type designed or commonly used to aid in taking raccoon and opossum. No conveyance may be used in taking any raccoon or opossum at night, but incidental transportation of hunters and dogs to and from the site of hunting is permitted. The Wildlife Resources Commission may by regulation prescribe restrictions respecting the taking of frogs, or other creatures not classified as wildlife which may be found in areas frequented by game, with the use of an artificial light, and may regulate the shining of lights at night in areas frequented by deer as provided in subsection (e1).

(e1) After hearing sufficient evidence and finding as a fact that an area frequented by deer is subject to substantial unlawful night deer hunting or that residents in the area have been greatly inconvenienced by persons shining lights on deer, the Wildlife Resources Commission may by regulation prohibit the intentional sweeping of that area with lights, or the intentional shining of lights on deer, from 11:00 p.m. until one-half hour before sunrise. Before adopting this regulation, the Wildlife Resources Commission must propose it at a public hearing in the area to be closed and seek the reactions of the local inhabitants. The regulation must exempt necessary shining of lights by landholders, motorists engaged in normal travel on the highway, and campers and others legitimately in the area, who are not attempting to attract wildlife. This subsection does not limit the right of hunters to take raccoon and opossum with dogs lawfully at night with a light under the terms of subsection (e).

(f) To keep North Carolina provisions respecting migratory birds in substantial conformity with applicable federal law and regulations, the Wildlife Resources Commission may by regulation expand or modify provisions of this Article if necessary to achieve such conformity. In particular, the commission may prohibit the use of rifles, unplugged shotguns, live decoys, and sinkboxes in the taking of migratory game birds; vary shooting hours; adopt specific distances, not less than 300 yards, hunters must maintain from areas that have been baited, and fix the number of days afterwards during which it is still unlawful to take migratory game birds in the area; and adopt similar provisions with regard to the use of live decoys.

(g) If a season is open permitting such method of taking for the species in question, a hunter may take rabbits, squirrels, opossum, raccoons, fur-bearing animals, and nongame animals and birds open to hunting with a pistol of .22
caliber with a barrel not less than six inches in length and loaded with long-rifle ammunition. In addition, a hunter or trapper lawfully taking a wild animal or wild bird by another lawful method may use a knife, pistol, or other swift method of killing the animal or bird taken.

(h) In the interests of enhancing the enjoyment of sportsmen, and if consistent with conservation objectives, the Wildlife Resources Commission may by regulation relax requirements of this section on controlled shooting preserves and in other highly controlled situations.

(i) The intentional destruction or substantial impairment of wildlife nesting or breeding areas or other purposeful acts to render them unfit is unlawful. These prohibitions include cutting down den trees, shooting into nests of wild animals or birds, and despoliation of dens, nests, or rookeries.

(j) It is unlawful to take deer swimming or in water above the knees of the deer.

"§113-291.2. Seasons and bag limits on wild animals and birds, including animals and birds taken in bag, possession and transportation of wildlife after taking.—(a) In accordance with the supply of wildlife and other factors it determines to be of public importance, the Wildlife Resources Commission may fix seasons and bag limits upon the wild animals and wild birds authorized to be taken that it deems necessary or desirable in the interests of the conservation of wildlife resources. The authority to fix seasons includes the closing of seasons completely when necessary and fixing the hours of hunting. The authority to fix bag limits includes the setting of season and possession limits. Different seasons and bag limits may be set in differing areas; early or extended seasons and different or unlimited bag limits may be authorized on controlled shooting preserves, game lands, and public hunting grounds; and special or extended seasons may be fixed for those engaging in falconry, using primitive weapons, or taking wildlife under other special conditions.

(b) Any individual hunter or trapper who in taking a wild animal or bird has wounded or otherwise disabled it must make a reasonable effort to capture and kill the animal or bird. All animals and birds taken that can be retrieved must be retrieved and counted with respect to any applicable bag limits governing the individual taking the animal or bird.

(c) An individual who has lawfully taken game within applicable bag, possession, and season limits may, after the game is dead, possess and personally transport it for his own use by virtue of his hunting license, and without any additional permit, subject to tagging and reporting requirements that may apply to the fox and big game, as follows:

1. In an area in which the season is open for the species, the game may be possessed and transported without restriction.

2. The individual may possess and transport the game lawfully taken on a trip:
   a. to his residence;
   b. to a preservation or processing facility that keeps adequate records as prescribed in G.S. 113-291.3(b)(3) or a licensed taxidermist;
   c. from a place authorized in subparagraph b to his residence.

3. The individual may possess the game indefinitely at his residence, and may there accumulate lawfully-acquired game up to the greater of:
   a. the applicable possession limit for each species; or
   b. one half of the applicable season limit for each species.
The above subdivisions apply to an individual hunter under 16 years of age covered by the license issued to his parent or guardian, if he is using that license, or by the license of an adult accompanying him. An individual who has lawfully taken game as a landholder without a license may possess and transport the dead game, taken within applicable bag, possession, and season limits, to his residence. He may indefinitely retain possession of such game, within aggregate possession limits for the species in question, in his residence.

(d) Except in the situations specifically provided for above, the Wildlife Resources Commission may by regulation impose reporting, permit, and tagging requirements that may be necessary upon persons:

1. Possessing dead wildlife taken in open season after the close of that season.
2. Transporting dead wildlife from an area having an open season to an area with a closed season.
3. Transporting dead wildlife lawfully taken in another state into this State.
4. Possessing dead wildlife after such transportation.

The Wildlife Resources Commission in its discretion may substitute written declarations to be filed with agents of the commission for permit and tagging requirements.

"§ 113-291.3. Possession, sale, and transportation of wildlife.—(a) Live wildlife and the nests and eggs of wild birds may be taken, possessed, transported, bought, sold, imported, exported, or otherwise acquired or disposed of only as specifically authorized in this subchapter or its implementing regulations. The Wildlife Resources Commission may impose necessary reporting, permit, and tagging requirements in regulating activities involving live wildlife and the nests and eggs of wild birds. The Wildlife Resources Commission may charge a reasonable fee to defray the cost of any tagging procedure.

(b) With respect to dead wildlife:

1. Lawfully taken wildlife may be possessed and transported as provided in G.S. 113-291.2. Wildlife possessed under any dealer license may be possessed and transported in accordance with the provisions of law and regulations applicable to the license, and wildlife may be sold to qualified persons if authorized under provisions governing the license. In other situations, except as this subchapter may expressly provide, possession and transportation of wildlife may be regulated by the Wildlife Resources Commission.

2. Unless there is a specific restriction on the transfer of the species in question, an individual may accept the gift of wildlife lawfully taken within North Carolina if taking possession does not cause him to exceed applicable possession limits. If he notes and preserves in writing the name and address of the donor and under what license or exemption from license requirements the wildlife was taken, he may possess that wildlife without a permit in the places possession without a permit would be authorized in G.S. 113-291.2 had he taken the wildlife.

3. A licensed taxidermist or other licensed dealer taking temporary possession of wildlife of another may possess the wildlife that he is authorized to handle under his license in accordance with the regulations of the Wildlife Resources Commission. A person not a dealer
operating a preservation or processing facility, whether commercially or not, may possess the wildlife owned by another without any permit or license if he ascertains that the wildlife was lawfully taken within the State and keeps a written record of:

a. The name and address of the owner of the wildlife and an adequate description of the wildlife left with him. If the description of the wildlife changes as the result of processing, the new description must be recorded.

b. The date, serial number, and type of the license under which the wildlife was taken or the applicable exemption from license requirements which the taker met.

c. The date all wildlife left with him is received and returned to the owner. If the receiving or returning of possession is to an agent or common carrier or otherwise occurs under circumstances in which permit requirements may apply, the type and date of the permit which authorizes the transaction must also be recorded.

(4) The sale of rabbits and squirrels and their edible parts not for resale is permitted. If the Wildlife Resources Commission finds that affected game populations would not be endangered, it may authorize the sale of heads, antlers, horns, hides, skins, plumes, feet, and claws of one or more game animals or birds. In addition, it may authorize the sale of bobcats, opossums, and raccoons, and their parts, following their taking as game animals. No part of any bear or wild turkey may be sold under the above provisions, however, and no part of any fox taken in North Carolina may be sold except as provided in G.S. 113-291.4. In regulating sales, the Wildlife Resources Commission may impose necessary permit requirements.

(5) Lawfully taken fur-bearing animals and their parts, including furs and pelts, may, subject to any tagging and reporting requirements, be possessed, transported, bought, sold, given or received as a gift, or otherwise disposed of without restriction. The Wildlife Resources Commission may regulate the importation of wildlife from without the State by fur dealers, and may regulate the sale of fox fur and other wildlife hides taken within the State if sale of them is authorized. Fox furs lawfully taken without the State may be imported, possessed, transported, bought, sold, and exported in accordance with reasonable regulations of the Wildlife Resources Commission. Processed furs acquired through lawful channels within or without the State by persons other than fur dealers are not subject to regulation.

(6) Nongame animals and birds open to hunting and nongame fish lawfully taken, except as this subchapter and its implementing regulations expressly provide otherwise, may be possessed, transported, bought, sold, given or received as a gift, or otherwise disposed of without restriction.

(7) The possession and disposition of wild animals and wild birds killed accidentally or to prevent or halt depredations to property are governed by G.S. 113-274(1a).

(c) The Wildlife Resources Commission may make reasonable regulations governing the marking of packages, crates, and other containers in which wildlife may be shipped.
(d) Any person hiring a hunter or trapper to take game is deemed to be buying game. Any hunter or trapper who may be hired is deemed to be selling game.

"§ 113-291.4. Regulation of foxes, study of fox and fur-bearer populations.—(a) All of the regulatory powers granted the Wildlife Resources Commission generally with respect to game, wild animals, and wildlife apply to foxes unless there are specific overriding restrictions in this section.

(b) Except for any closed season under subsection (b), foxes may be taken with dogs both night and day on a year-round basis.

(c) Foxes may not be taken with firearms except:

(1) As provided in subsection (f).

(2) As an incidental method of humanely killing them following any lawful method of taking that does not result in death.

(3) When they are lawfully shot under laws and regulations pertaining to the destruction of animals committing depredations to property.

(d) Foxes may not be taken with the aid of any electronic calling device.

(e) The Wildlife Resources Commission is directed to improve its capabilities for studying fox and fur-bearer populations generally and, on the basis of its present knowledge and future studies, to implement management methods and impose controls designed to produce optimum fox and fur-bearer populations in the various areas of the State.

(f) If, on the basis of its studies and other information available, the Wildlife Resources Commission determines the population of foxes in an area is fully adequate to support a harvesting of that population, the Wildlife Resources Commission may, upon passage of local legislation permitting same, open a season for taking foxes by trapping. When the season is open for trapping, foxes may also be taken by the use of methods lawful for taking game animals, including the use of firearms. Any bag, possession, or season limits imposed on foxes taken from the area in question will apply in the aggregate to all foxes killed without regard to the method of taking.

(g) The Wildlife Resources Commission may provide for the sale of foxes lawfully taken in areas of open season as provided in subsection (f), under a system providing strict controls. These controls must include the tagging of foxes as required below and a system of permits to restrict those who may deal in foxes to dealers who meet high standards of integrity, reliability in keeping records and inventory, and promptness in submitting reports. The Wildlife Resources Commission must implement a system of tagging foxes and fox furs with a special fox tag, and the commission may charge two dollars and twenty-five cents ($2.25) for each tag furnished to hunters, trappers, and fur dealers. The fox tag or tags must be procured before taking foxes by any method designed to kill foxes or when the intent is to harvest foxes. The number of tags furnished to any individual may be limited as to area and as to number in accordance with area, bag, possession, or season limits that may be imposed on foxes. No person may continue to hunt or trap foxes under this fox harvesting provision unless he still has at least one valid unused fox tag lawful for use in the area in question. A person hunting foxes with dogs not intending to kill them need not have any fox tag, but any fox accidentally killed by that hunter must be disposed of without sale as provided below, and no foxes not tagged may be sold. The Wildlife Resources Commission may by regulation provide reporting and controlled-disposition requirements, not including sale, of foxes killed accidentally by dog hunters, motor vehicles, and in other situations; it
may also impose strict controls on the disposition of foxes taken by owners of property under the laws and regulations relating to depredations, and authorize sale under controlled conditions of foxes taken under depredation permits.

(h) In any area of the State in which the Wildlife Resources Commission determines that hunting of foxes with dogs has an appreciably harmful effect upon turkey restoration projects, it may declare a closed season for an appropriate length of time upon the taking with dogs of all species of wild animals and birds. Except as otherwise provided in G.S. 113-291.1(d) or (d1), this subsection does not prohibit lawful field trials or the training of dogs.

“§ 113-291.5. Regulation of dogs used in hunting; limitations on authority of Wildlife Resources Commission; control of dogs on game lands; control of dogs chasing deer; other restrictions.—(a) Except as provided in G.S. 113-291.4, in the area described below, the Wildlife Resources Commission may regulate the use of dogs taking wildlife with respect to seasons, times, and places of use. The area covered by this subsection is that part of the State in and west of the following counties or parts of counties: Rockingham; Guilford; that part of Alamance and Orange lying south of Interstate Highway 85; Chatham; that part of Wake lying south of N.C. Highway 98; Lee; Randolph; Montgomery; Stanly; Union; and that part of Anson lying west of N.C. Highway 742.

(b) In the area of the State lying east of that described in subsection (a), the Wildlife Resources Commission may not restrict or prohibit the use of dogs in hunting or the training of dogs, in season or out, except during the breeding and raising seasons for game during the period April 15 through June 15.

(c) On game lands, wildlife refuges, and public hunting grounds the Wildlife Resources Commission may regulate the possession and use of dogs and may impound dogs found running at large without supervision or, if unsupervised, without means of identification.

(d) The Wildlife Resources Commission may not by its regulations anywhere in the State restrict the number of dogs used in hunting or require that any particular breed of dog be used in hunting.

(e) It is unlawful to allow dogs not under the control of the owner or the individual in possession of the dogs to run or chase deer during the closed deer season.

(f) Nothing in this section is intended to require the leashing or confining of pet dogs.

“§ 113-291.6. Regulation of trapping.—(a) No one may take wild animals by trapping upon the land of another without having in his possession written permission issued and dated within the previous year by the owner of the land or his agent. This subsection does not apply to public lands on which trapping is not specifically prohibited, including tidelands, marshlands, and any other untitled land.

(b) No one may take wild animals by trapping with any steel-jaw, leghold, or connibear trap unless it:

1. Has a jaw spread of not more than seven and one-half inches.

2. Is horizontally offset with closed jaw spread of at least three sixteens of an inch for a trap with a jaw spread of more than five and one-half inches. This subdivision does not apply if the trap is set in the water with quick-drown type of set.
(3) Is smooth edged and without teeth or spikes.
(4) Has a weather-resistant permanent tag attached legally giving the trapper’s name and address.

If set on dry land with solid anchor, a trap may not have a trap chain longer than eight inches from trap to anchor unless fitted with a shock-absorbing device approved by the Wildlife Resources Commission, and in no event may a trap chain exceed two feet in length.

(c) No person may set or otherwise use a trap so that animals or birds when caught will be suspended. No hook of any type may be used to take wild animals or wild birds by trapping.

(d) Trap number 330 of the connibear type or size may only be set in the water and in areas in which beaver and otter may be lawfully trapped. For the purposes of this section:

(1) A water-set trap is one totally covered by water with the anchor secured in water deep enough to drown the animal trapped quickly.
(2) In areas of tidal waters, the mean high water is considered covering water.
(3) In reservoir areas, covering water is the low water level prevailing during the preceding 24 hours.

(4) Marshland, as defined in G.S. 113-229(n)(3), is not considered dry land.

(e) With respect to any lawfully placed trap of another set in compliance with the provisions of this section, no one without the express permission of the trapper may:

(1) Remove or disturb any trap; or
(2) Remove any fur-bearing animal from the trap.

This subsection does not apply to wildlife protectors or other law enforcement officers acting in the performance of their duties.

(f) Nothing in this section prohibits the use of steel- or metal-jaw traps by county or State public health officials or their agents to control the spread of disease when the use of these traps has been declared necessary by the Department of Human Resources.

(g) The Wildlife Resources Commission must include the trapping requirements of this section in its annual digest of hunting and trapping regulations provided to each person upon purchase of a license.

“§ 113-291.7. Regulation of bears; limited retention of local acts closing bear seasons.—Local acts closing the season on bears are exempted from the provisions of G.S. 113-133.1(b) until July 1, 1981. After that date any local acts setting a year-round closed season on bears which have not by their terms expired are temporarily retained until the Wildlife Resources Commission supersedes them by adopting regulations either opening a season in the county affected or carrying forward the closed-season provision.

“§ 113-292. Authority of the Wildlife Resources Commission in regulation of inland fishing and the introduction of exotic species.—(a) (No change.)
(b) (No change.)
(c) (No change.)

(d) The Wildlife Resources Commission is authorized to authorize, license, regulate, prohibit, prescribe, or restrict anywhere in the State the acquisition, importation, possession, transportation, disposition, or release into public or private waters or the environment of exotic zoological or botanical species or specimens that may create a danger to or an imbalance in the environment
inimical to the conservation of wildlife resources. This subsection is not intended to give the Wildlife Resources Commission the authority to supplant, enact any conflicting regulations, or otherwise take any action inconsistent with that of any other State agency acting within its jurisdiction.

"§ 113-293. Obstructing rivers or creeks, keeping open fishways in dams.—(a) (Repealed.)
(b) (Repealed.)
(c) (No change.)

"§ 113-294. Specific violations.—(a) Any person who unlawfully sells, possesses for sale, or buys any wildlife is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than fifty dollars ($50.00) nor more than five hundred dollars ($500.00), imprisonment not to exceed 90 days, or both.

(b) Any person who unlawfully sells, possesses for sale, or buys any bear, cougar (Felis concolor), deer, or wild turkey is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than two hundred fifty dollars ($250.00) in addition to such other punishment the court may impose in its discretion.

(d) Any person who unlawfully takes, possesses, or transports any antlerless deer is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than one hundred dollars ($100.00) in addition to such other punishment the court may impose in its discretion.

(e) Any person who unlawfully takes deer between a half hour after sunset and a half hour before sunrise with the aid of an artificial light is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than two hundred fifty dollars ($250.00) in addition to such other punishment the court may impose in its discretion.

(g) Any person who unlawfully takes wild animals or birds from or with the use of a vessel equipped with a motor or with motor attached is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than fifty dollars ($50.00) nor more than five hundred dollars ($500.00), imprisonment not to exceed 90 days, or both.
(h) Any person who wilfully makes any false or misleading statement in order to secure for himself or another any license, permit, privilege, exemption, or other benefit under this Subchapter to which he or the person in question is not entitled is guilty of a misdemeanor punishable in the discretion of the court.

(i) Any person who violates any provision of G.S. 113-291.6, regulating trapping, is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than fifty dollars ($50.00) nor more than two hundred dollars ($200.00), imprisonment not to exceed 90 days, or both.

(j) Any person who takes any fox by unlawful trapping or with the aid of any electronic calling device is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not less than fifty dollars ($50.00) nor more than two hundred dollars ($200.00), imprisonment not to exceed 90 days, or both.

(k) Any person who has been convicted of one of the fox offenses listed below who subsequently commits the same or another one of the fox offenses listed below is guilty of a misdemeanor. G.S. 113-295 to G.S. 113-300. (Reserved for future codification purposes.)

"ARTICLE 22A.

"Use of Poisons and Pesticides.

"§ 113-300.1. Use of poisons and pesticides in general.—No one may take any wild animal or bird with the use of any poison or pesticide except as provided in this Article. The taking of fish by the use of poison is governed by G.S. 113-261 and G.S. 113-262, and the prohibitions of those sections against the taking of the wildlife by poison apply unless specifically permitted under this Article. Otherwise, the Wildlife Resources Commission may, by regulations consistent with the North Carolina Pesticide Law of 1971 and the Structural Pest Control Act of 1955, regulate, prohibit, or restrict the use of poisons or pesticides upon or severely affecting wildlife resources.

"§ 113-300.2. Declaring wild animal or bird a pest; concurrence of Wildlife Resources Commission required before poison or pesticide may be used.—(a) When there is a factual basis for the declaration, any wild animal or bird may be declared a pest by:

(1) the Commissioner of Agriculture under the Structural Pest Control Act of North Carolina of 1955, as amended, in Article 4C of Chapter 106 of the General Statutes, in accordance with any regulations or restrictions imposed by the Structural Pest Control Committee; or

(2) the Pesticide Board under the North Carolina Pesticide Law of 1971, as amended, in Article 52 of Chapter 143 of the General Statutes.

(b) When a wild animal or bird is declared a pest, the Commissioner of Agriculture or the Pesticide Board, as the case may be, must notify the Wildlife Resources Commission in writing of the action taken; the areas in which the declaration is effective; the type, amount, and mode of application of any poison
or pesticide proposed for use against the pest; and other information pertinent to the declaration.

(c) Upon receiving notification under subsection (b), the Wildlife Resources Commission may:

(1) Hold a timely public hearing on the question whether it should concur in the declaration that the wild animal or bird is a pest and should be open to taking with the type or types of poison or pesticide specified or authorized in the notice, in the areas and under the circumstances specified. After holding the public hearing the Wildlife Resources Commission must decide, within 60 days after receiving the notice under subsection (b), whether it concurs or refuses to concur in the declaration that the wild animal or bird is a pest.

(2) Take no action. In this event, 60 days after the Wildlife Resources Commission receives notice of the declaration under subsection (b), the concurrence of the Wildlife Resources Commission will occur automatically.

(d) Upon the concurrence of the Wildlife Resources Commission in the declaration under subsection (b), the wild animal or bird may be taken with the use of any poison or pesticide specified in the notice in accordance with applicable restrictions in statutes and regulations and in accordance with any special restrictions imposed by the Commissioner of Agriculture, the Structural Pest Control Committee, or the Pesticide Board. If the Wildlife Resources Commission refuses to concur, no poison or pesticide may be used to take the wild animal or bird.

(e) After holding a public hearing on the subject, the Wildlife Resources Commission may rescind its concurrence to a declaration under subsection (b) or grant its concurrence previously withheld.

(f) With the approval of the Structural Pest Control Committee or the Pesticide Board, as the case may be, the Wildlife Resources Commission may grant a qualified concurrence to a declaration, imposing further restrictions as to the use of poison or pesticide in taking the wild animal or bird in question.

§ 113-300.3. Penalties for violations of Article, repeated offenses.—(a) Each day in which poisons or pesticides are used unlawfully in taking wild animals or birds constitutes a separate offense.

(b) Any taking of a wild animal or bird in wilful violation of this Article or in wilful violation of any restrictions imposed by the Commissioner of Agriculture, the Structural Pest Control Committee, the Pesticide Board, or the Wildlife Resources Commission is punishable under G.S. 113-262(a). For the purposes of prosecutions under that subsection, the term 'poison' includes pesticides.

(c) Any person taking a wild animal or bird declared a pest with the use of poison or pesticide who neglects to observe applicable restrictions imposed by the Commissioner of Agriculture, the Structural Pest Control Committee, the Pesticide Board, or the Wildlife Resources Commission is guilty of a misdemeanor. Unless a greater penalty is prescribed for the offense in question, any person convicted under this subsection is punishable by a fine of not more than one hundred dollars ($100.00), imprisonment not to exceed 30 days, or both.

“Administrative Provisions; Regulatory Authority

1087
CHAPTER 830  Session Laws—1979

of Wildlife Resources Commission.

“§ 113-301. Filing and publication of regulations.—(Repealed.)

“§ 113-301.1. Wildlife Resources Commission obligated to make efforts to notify members of the public who may be affected by operative provisions of statutes and regulations.—(a) The Wildlife Resources Commission must prepare and distribute to license agents informational materials relating to hunting, fishing, trapping, and boating laws and regulations administered by the Wildlife Resources Commission. The materials furnished an agent should be appropriate to the types of licenses he customarily handles, and in a quantity reasonably anticipated to be sufficient to meet the needs of licensees obtaining licenses from the agent.

(b) In issuing new licenses and permits from the Raleigh office by mail, the Wildlife Resources Commission must generally inform the licensee or permittee of governing provisions of law and regulations applicable to the type of license or permit secured. In issuing renewal licenses and permits by mail, the Wildlife Resources Commission must inform the licensee or permittee of any substantial changes in the law or regulations which may affect the activities of the licensee or permittee.

(c) After adopting regulations which impose new restrictions upon the activities of members of the public who do not normally hold licenses or permits to engage in the activity in question, the Wildlife Resources Commission must take appropriate steps to publicize the new restrictions. These steps may include press releases to the media, informing local authorities, and other forms of communication that give promise of reaching the segment of the public affected.

(d) After adopting new restrictions on hunting, fishing, trapping, or boating at a time other than when usual annual changes in the regulations affecting those activities are adopted, the Wildlife Resources Commission must take appropriate steps to publicize the new restrictions in a manner designed to reach persons who may be affected.

“§ 113-302. Prima facie evidence provisions.—(a) Except as provided below, possession of game or game fish in any hotel, restaurant, cafe, market, or store, or by any produce dealer, constitutes prima facie evidence of possession for the purpose of sale. This subsection does not apply to:

(1) possession of propagated game birds or hatchery-reared trout that is in accordance with licensing requirements and wrapping or tagging provisions that may apply; or

(2) game or game fish brought in by patrons in accordance with G.S. 113-276(i).

(b) The flashing or display of any artificial light between a half hour after sunset and a half hour before sunrise in any area which is frequented or inhabited by wild deer by any person who has accessible to him a firearm, crossbow, or other bow and arrow constitutes prima facie evidence of taking deer with the aid of an artificial light. This subsection does not apply to the headlights of any vehicle driven normally along any highway or other public or private roadway.

“§ 113-302.1. Inspection of licensed or commercial premises; authority to secure inspection warrants.—(a) Protectors are authorized to enter and make a reasonable inspection at an appropriate time of day of any premises in which a person subject to administrative control under G.S. 113-276.2 conducts his
operations to determine whether any wildlife on the premises is possessed in accordance with applicable laws and regulations, required records are being kept, and other legal requirements are being observed. It is an appropriate time of day for inspection if the establishment is open for business or if a proprietor or employee is on the premises.

(b) In cases not controlled by subsection (a), protectors who believe that wildlife may be on the premises of any public refrigeration storage plant, meat shop, store, produce market, hotel, restaurant, or other public food-storage or eating place may request permission to enter the nonpublic areas of the premises to make a reasonable inspection to determine whether any wildlife on the premises is possessed in accordance with applicable laws and regulations. If the person in charge of the premises refuses the inspection request of a protector, he is authorized to procure and execute an administrative search warrant issued under the terms of Article 4A of Chapter 15 of the General Statutes or under any successor legislation.

(c) In cases controlled by subsection (a), an administrative search warrant may be secured in the protector’s discretion or if case law requires it. Nothing in this section is intended to prevent a lawful search of premises, with or without a search warrant under Chapter 15A of the General Statutes, when the circumstances so justify.

“§ 113-303. Arrest, service of process, and witness fees of protectors.—(No change.)

“§ 113-304. Reciprocal agreements by Wildlife Resources Commission.—(No change.)

“§ 113-305. Cooperative agreements by Wildlife Resources Commission.—(No change.)

“§ 113-306. Administrative authority of Wildlife Resources Commission; disposition of license funds; delegation of powers; injunctive relief.—(a) (No change.)

(b) (No change.)

(c) (No change.)

(d) (No change.)

(e) Subject to any policy directives adopted by the members of the Wildlife Resources Commission, the executive director in his discretion may institute an action in the name of the Wildlife Resources Commission in the appropriate court for injunctive relief to prevent irreparable injury to wildlife resources or to prevent or regulate any activity within the jurisdiction of the Wildlife Resources Commission which constitutes a public nuisance or presents a threat to public health or safety.

“§ 113-307. Adoption of federal laws and regulations.—(No change.)

“§ 113-307.1. Legislative assent to specific federal acts.—(a) The consent of the General Assembly of North Carolina is hereby given to the making by the Congress of the United States, or under its authority, of all such rules and regulations as the Federal Government shall determine to be needful in respect to game animals, game and nongame birds, and fish on such lands in the western part of North Carolina as shall have been, or may hereafter be, purchased by the United States under the terms of the act of Congress of March 1, 1911, entitled ‘An act to enable any state to cooperate with any other state or states, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the
purposes of conserving the navigability of navigable rivers’ (36 Stat. 961), and acts of Congress supplementary thereto and amendatory thereof, and in or on the waters thereon.

Nothing in this subsection shall be construed as conveying the ownership of wildlife from the State of North Carolina or permit the trapping, hunting, or transportation of any game animals, game or nongame birds, or fish by any person, including any agency, department, or instrumentality of the United States or agents thereof, on the lands in North Carolina, as shall have been or may hereafter be purchased by the United States under the terms of any act of Congress, except in accordance with the provisions of this Subchapter and its implementing regulations. Provided, that the provisions of G.S. 113-39 apply with respect to licenses.

Any person, including employees or agents of any department or instrumentality of the United States, violating the provisions of this subsection is guilty of a misdemeanor punishable in the discretion of the court.

(b) The State of North Carolina hereby assents to the provisions of the act of Congress entitled ‘An act to provide that the United States shall aid the states in wildlife restoration projects, and for other purposes’, approved September 2, 1937 (Public Law 415, 75th Congress), and the Wildlife Resources Commission is hereby authorized, empowered, and directed to perform such acts as may be necessary to the conduct and establishment of cooperative wildlife restoration projects, as defined in said act of Congress, in compliance with said act and rules and regulations promulgated by the Secretary of Agriculture thereunder; and no funds accruing to the State of North Carolina from license fees paid by hunters shall be diverted for any other purpose than the protection and propagation of game and wildlife in North Carolina and administration of the laws enacted for such purposes, which laws are and shall be administered by the Wildlife Resources Commission.

(c) Assent is hereby given to the provisions of the act of Congress entitled ‘An act to provide that the United States shall aid the states in fish restoration and management projects, and for other purposes’, approved August 9, 1950 (Public Law 681, 81st Congress), and the Wildlife Resources Commission is hereby authorized, empowered, and directed to perform such acts as may be necessary to the conduct and establishment of cooperative fish restoration projects, as defined in said act of Congress, in compliance with said act and rules and regulations promulgated by the Secretary of the Interior thereunder; and no funds accruing to the State of North Carolina from license fees paid by fishermen shall be directed for any other purpose than the administration of the Wildlife Resources Commission and for the protection, propagation, preservation, and investigation of fish and wildlife.

(d) If as a precondition to receiving funds under any cooperative program there must be a separation of license revenues received from certain classes of licensees and utilization of such revenues for limited purposes, the Wildlife Resources Commission is directed to make such arrangements for separate accounting within the Wildlife Resources Fund, or for separate funding, as may be necessary to insure the use of the revenues for the required purposes and eligibility for the cooperative funds. This subsection applies whether the cooperative program is with a public or private agency and whether the Wildlife Resources Commission acts alone on behalf of the State or in conjunction with some other State agency.

Sec. 2. The repeal of Article 6 and Subchapters IIA and III and of parts of Subchapter IV of Chapter 113 of the General Statutes and of all special, local, and private acts and ordinances regulating the conservation of wildlife resources is made subject to such temporary retention of local acts and former provisions of Chapter 113 of the General Statutes as may be specified in Subchapter IV. The repeal of acts which themselves repeal former acts is not intended to revive the former acts.

Sec. 10. G.S. 143-442(h) is rewritten to read as follows:

"(h) A pesticide may be registered by the board for experimental use, including use to control wild animal or bird populations, even though the Wildlife Resources Commission may not have concurred in the declaration of the animal or bird populations as pests under the terms of Article 22A of Chapter 113 of the General Statutes."

"§ 14-159.5. (b) have a duration of service that is a precisely measured period of years or any definite part of a year;
(c) contain a full statement of the buyer's rights under G.S. 66-113;
(d) contain, in immediate proximity to the space reserved for the signature of the buyer, in bold face type of a minimum size of 10 points, a statement of the buyer's rights under G.S. 66-114, in substantially the following form:
'You the buyer, may cancel this contract at any time prior to midnight of the third business day after the date of this contract. To cancel, you must notify the seller in writing not later than midnight of (Date).'

§ 66-114. (b) Cancellation occurs when the buyer gives written notice of cancellation to the seller at the address stated in the contract.
(c) Notice of cancellation, if given by mail, is given when it is deposited in the United States mail properly addressed and postage prepaid.
(d) Notice of cancellation need not take a particular form and is sufficient if it indicates by any form of written expression the intention of the buyer not to be bound by the contract.
(e) For purposes of this Article, business days are all days other than Saturdays, Sundays, holidays, and days on which the seller's facility is not open to the buyer.

§ 66-115. Rights and responsibilities after cancellation.—Within 30 days after a prepaid entertainment contract has been cancelled in accordance with G.S. 66-114, the seller must tender to the buyer any payments made by the buyer and any note or other evidence of indebtedness.

(a) The seller must establish a surety bond issued by a surety company authorized to do business in this State, or establish a trust account with a licensed and insured bank or savings institution located in this State. The amount of the bond or trust account shall equal all consideration received from the buyer. The bond or trust account must remain in force until 60 days after all services of the seller are available to the buyer. The bond or trust account shall be in favor of the State of North Carolina. Any person who is damaged by any violation of this Article, or by the seller's breach of the contract for sale or any obligation arising therefrom may bring an action against the bond or trust account to recover damages suffered; provided, however, that the aggregate liability of the surety or trustee shall be only for actual damages and in no event shall exceed the amount of the bond or trust account.
(b) The buyer’s right to cancel the contract pursuant to G.S. 66-114 shall be extended until midnight of the third business day after the date upon which the services become available and the buyer is so notified. However, the buyer may waive the extension of his right to cancel by initialing a written contract provision to that effect, if in consideration for such waiver he has been allowed to buy the seller’s services at a price at least twenty-five percent (25%) below the lowest price the seller will charge for similar services when the facility is available.

§ 66-118. Remedies.—(a) Any buyer injured by any violation of this Article may bring an action for recovery of damages, including reasonable attorney’s fees.

(b) The remedies herein shall be in addition to any other remedies provided for by law or in equity, but the damages assessed shall not exceed the largest amount of damages available by any single remedy.

(c) The violation of any provisions of this Article shall constitute an unfair practice under G.S. 75-1.1.”

The bond shall be continuous in form and shall remain in full force and effect until all monies collected have been accounted for, and it shall be expressly stated in the bond that it is for the benefit of any person, firm or corporation for whom such collection agency engages in the collection of accounts. Such bond shall be in the amount of five thousand dollars ($5,000) for the initial permit. The amount of such bond for any renewal permit shall be no less than five thousand dollars ($5,000) nor more than fifty thousand dollars ($50,000), and shall be computed as follows: The total collections paid directly to the collection agency less commissions earned by the collection agency on those collections for the calendar year ending immediately prior to the date of application, multiplied by one-sixth.

"§ 66-41.5. Record of business in State.—(a) Each person, firm, or corporation licensed as a collection agency in North Carolina shall keep within this State a full and correct record of all business done in this State as set forth below. All such records pertaining to collection activity, concerning debtor records and client accounting records, but not general operating records, shall be open to inspection by the Commissioner of Insurance or his duly authorized deputy upon demand.    a. the amount credited to principal and to interest, if any;
   b. the amount due creditors or forwarders.

(2) the amount retained as commission or commission paid to forwardees;

(3) payments made directly to creditors as reported to the collection agency by those creditors and commissions due the collection agency on those payments;

(4) a record of each debtor's account shall be maintained consisting of the following:
   a. the name and address of the debtor;
   b. the name of the creditor or forwarder or forwardee if the account has been forwarded;

e. the date and time of each telephone or personal contact with the debtor.

(5) A master alphabetical record by name and address of every creditor or forwarder with whom the permit holder engages in the business of collecting accounts.

(6) A check register or carbon copies of each check issued or numerically numbered check stubs corresponding with all checks issued on the trust account for funds collected on behalf of creditors. Cancelled checks, together with voided or unused checks (adequately explained) drawn on the trust account shall be maintained in numerical order with the monthly bank statements.

(7) A record by client or client number showing the number of accounts received from the client, the date received and the principal amount of the accounts.

(8) A duplicate copy of each remittance statement furnished a creditor or forwarder, or other listing of the information contained on the statement.

"§ 66-41.6. Hearing granted applicant if application denied; appeal.—If, upon application, the Commissioner shall find that a permit should not be issued to the applicant, he shall decline the same, giving notice of his action to the applicant. Following notice the applicant shall have 10 days within which to submit additional information in support of his application and if, upon further hearing upon the application and additional information the Commissioner shall again decline to issue the permit, the applicant shall have the right to appeal to the superior court and his appeal shall stand for hearing in the Superior Court of the County of Wake, and the evidence, data and information submitted to the Commissioner shall constitute the record in the superior court to determine whether or not the Commissioner had evidence sufficient to justify his action. If the Commissioner shall decline an application for renewal, the applicant may continue to do business pending any appeal taken pursuant hereto.

"§ 66-41.7. Application fee; issuance of permit; contents and duration.—Upon the filing of the application and information hereinbefore required, the Commissioner may require the applicant to pay a fee of two hundred fifty dollars ($250.00), and no permit may be issued until this fee is paid. If the application is denied, the Commissioner shall retain fifty dollars ($50.00) of the application fee and return the remainder to the applicant. The fifty dollars ($50.00) so retained upon applications not granted, and the full fee of two hundred fifty dollars ($250.00) upon the applications granted, shall be used in paying the expenses incurred in connection with the consideration of such applications and the issuance of such permits.

Each permit shall state the name of the applicant, his place of business, and the nature and kind of business in which he is engaged. The Commissioner shall assign to the permit a serial number for each year, and each permit shall be for a period of one year, beginning with July 1 and ending with June 30 of the following year.
"§ 66-41.8. Revocation of permit.—If the Commissioner shall have issued any permit to any person, firm or corporation as herein provided, and shall have information that the holder of the permit is conducting business in violation of Part I, II, or III of this Article, or has obtained said permit through materially false and misleading statements in its application, he shall notify the holder of the permit of a date for a hearing, which notice shall name a time and place for the hearing, and at which hearing any and all evidence as to the conduct of the business may be heard by the Commissioner. If, upon the hearing of the evidence, the Commissioner shall be of the opinion that the applicant is conducting business in violation of Part I, II, or III of this Article, the Commissioner shall then require the holder to show cause why said permit should not be cancelled. Upon a determination that the permit should be cancelled, the Commissioner shall cancel said permit; provided, however, pending any appeal permitted hereby, the permit holder may continue to do business. If the permit be cancelled upon hearing, either the holder of the permit or the complaining party shall have the right to appeal as hereinbefore provided in the case where an application is denied, and the record of the hearing before the Commissioner shall be the record in the superior court upon which the judge shall determine whether or not the Commissioner had sufficient evidence upon which to base his action.

"§ 66-41.9. Disposition of permit fees.—All permit fees collected hereunder shall be credited to the account of the Commissioner for the specific purpose of providing the personnel, equipment and supplies necessary to enforce this Article, but the State Budget Officer shall have the right to budget the revenues received in accordance with the requirements of the Commissioner for the purposes herein required, and at the end of the fiscal year, if any sum whatever shall remain to the credit of the Commissioner, derived from the sources herein referred to, the same shall revert to the general treasury of the State to be appropriated as other funds.

"§ 66-41.10. All collection agencies to identify themselves in correspondence.—All collection agencies licensed under this Part to do the business of a collection agency in this State, shall in all correspondence with debtors use stationery or forms which contain the permit number and the true name and address of such collection agency.

The permit to engage in the business of a collection agency shall at all times be prominently displayed in each office of the person, firm, corporation or association to whom or to which the permit is issued.

"Part II.

"Operating Procedures.

"§ 66-42. Office hours.—If an office of a duly licensed collection agency does not maintain normally accepted business hours, the hours the office is open shall be posted so as to be prominently displayed to the public at all times. If at any time it is anticipated that the permit holder's office will be closed to the public for a period exceeding seven days, the Department of Insurance shall be notified thereof in writing.

"§ 66-42.1. Statements to be furnished each collection creditor.—(a) Acknowledgement of accounts. When any account is received for collection, the permit holder shall upon request furnish the collection creditor or forwarder with a written listing or acknowledgement of the accounts received."
(b) Remittance statements. Each permit holder shall remit all monies due to any collection creditor or forwarder within 30 days after the end of the collection month during which the collection was effected. The remittance shall be accompanied by a statement setting forth:

(1) the date of remittance;
(2) the debtor’s name;
(3) the date or month of collection and amount collected from each debtor; and
(4) a breakdown showing money collected from each debtor and the amount due the creditor or forwarder.

“§66-42.2. Remittance trust account.—Each permit holder shall deposit, no later than two banking days from receipt, in a separate trust fund account in a local or approved bank sufficient funds to pay all monies due or owing all collection creditors or forwarders. Said funds shall not be commingled with any other operating funds. The trust account shall be used only for the purpose of remitting to collection creditors or forwarders the proceeds to which they are entitled and remitting to the collection agency the commission that is due the collection agency.

“§66-42.3. Receipt requirement.—Whenever a payment is received in cash from a debtor, forwarder, or other person, an original receipt or an exact copy thereof shall be furnished the individual from whom payment is received. Evidence of all receipts issued shall be kept in the permit holder’s office for three years. All receipts issued must:
(a) be prenumbered by the printer and used and filed in consecutive numerical order;
(b) show the name, street address and permit number of the permit holder;
(c) show the name of the creditor or creditors for whom collected;
(d) show the amount and date paid; and
(e) show the last name of the person accepting payment.

“§66-42.4. Creditor may request return of accounts.—The written request of a creditor or forwarder for the return of any account which is not in the actual process of collection shall be complied with by the permit holder in writing within a reasonable length of time, but in any event not to exceed 60 days. All valuable papers furnished by the creditor or forwarder in connection with the account shall be returned.

“§66-42.5. Return of accounts and all valuable papers upon termination of permit.—Whenever the permit of a collection agency is revoked, cancelled, or terminated for any reason, all accounts and valuable papers placed with the agency for collection shall be returned to the person placing the account for collection within five days of the termination of said permit unless, upon written application, an extension of time is granted by the Department of Insurance. All agreements between the collection agency and creditor or forwarder are automatically cancelled as of the date on which said permit is revoked, cancelled or terminated. If any of the accounts placed for collection are in the hands of others at the time of the permit termination, they shall immediately be notified by the collection agency to thereafter correspond, remit and be solely responsible to the creditor placing the accounts with the agency for collection unless the creditor has authorized a successor or other permit holder to continue to collect the accounts. In the case of dissolution of the collection agency, all accounts shall be returned within a reasonable period of
time, but in any event not to exceed 60 days. Valuable papers shall include, but not be limited to, notes payable, creditor account cards and any other items placed within the collection agency by the creditor.

"§66-42.6. Application of funds where there is a debtor-creditor relationship.—If a creditor has listed accounts with a permit holder for collection and also has had accounts on which he is debtor listed with the permit holder by any other creditors, collections effected in his behalf as a creditor may not be applied on accounts that he owes unless the permit holder has a written authorization on file as to how the monies collected are to be applied.

These transfers may be made only in appropriations from Section 3 of this act between Titles 02.b., State construction; 02.c., State funds to match federal aid construction and State funds to match federal aid highway planning survey and highway planning research; and 02.d., State maintenance; or within the affected federal aid programs; provided that no transfers shall be made from Title 02.d., State...

These funds shall be allocated by the Department of Human Resources in equal quarterly amounts based on each county’s population as a percentage of the total State population, as determined by the Department of Administration’s most recent estimates of county populations. These funds shall be expended by the county commissioners for the administration of local departments of public health or social services.

—DAY CARE SERVICES

Sec. 48. Funds appropriated for day care services in Section 2 of this act shall be expended in such a way as to maximize the number of children to be served and the Secretary of the Department of Human Resources may purchase care from “A” licensed facilities. The Secretary is authorized to reserve from the appropriation such amounts as may be necessary to effectively administer the State day care program, subject to approval of the Advisory Budget Commission.

Sec. 49. Any additional funds above those already in the expansion budget that become available to recipients of special assistance for adults because of increases in Social Security or Supplemental Security Income payments shall be used by the Department of Human Resources to reduce the State and county obligations in the special assistance for adults program.

PART V. SPECIAL PROVISIONS/PUBLIC EDUCATION

—TEXTBOOK APPROPRIATIONS/NOT REVERT

Sec. 50. Funds appropriated in this act to the Department of Public Education for the purchase of elementary basic textbooks shall be permanent appropriations, and unexpended portions of these appropriations shall not revert to the General Fund at the end of the biennium.

—DRIVER TRAINING AND SAFETY EDUCATION FUND/ADVANCES

Sec. 51. Funds appropriated in this act to the Department of Public Education may be advanced to the Special Fund for Driver Training and Safety Education during the 1979-81 biennium in accordance with Executive Budget Act procedure. However, when receipts from the annual vehicle registration tax collected under G.S. 20-88.1 which go into this special fund are sufficient to operate the Driver Training and Safety Education Program in each fiscal year of the 1979-81 biennium, any funds advanced to the special fund from the Department of Public Education shall be repaid from the special fund registration tax receipts prior to June 30 of each fiscal year.

—STATE TEXTBOOK FUND

Sec. 52. Funds appropriated in Section 2 of this act to the Department of Public Education will support the total cost of the administration of the State textbook system. It is intended that this appropriation eliminate the need for school systems to contribute to these costs from the State’s appropriation for the purchase of high school textbooks. It is also intended that as soon as the June 30, 1979, audit of the State Textbook Fund can be completed, any balance
remaining in the fund for purposes of administration of the system, services to local units, or operation of the textbook warehouse will be reverted to the General Fund of the State.

—FORMULA FOR ALLOCATION OF FUNDS FOR CHILDREN WITH SPECIAL NEEDS

Sec. 53. The State Board of Education is directed, prior to the beginning of the 1980-81 school year, to develop and implement with the approval of the Advisory Budget Commission a uniform formula for the allocation of all funds appropriated for children with special needs. The formula shall provide funds to the local educational administrative units based on the number of these children needing special education.

In developing the formula, the State Board of Education shall consider the excessive costs that are incurred when a local board of education finds it necessary to assign a child with special needs as defined in P.L. 94-142 and G.S. 115-366 to a privately operated educational program for the handicapped, either in-state or out-of-state. The State Board shall also consider that funds provided for a child with special needs shall be related to the needs of the child and to the amount of resources which are available for all North Carolina students in the public school system.

The Legislative Commission on Children with Special Needs is directed to study the issue of educational and custodial services for severely handicapped children whose needs cannot be served by the public schools as per P.L. 94-142 and Chapter 927 of the 1977 Session Laws and to report to the Second Session of the 1979 General Assembly. In making this study, the Commission shall involve the Department of Human Resources and the Department of Public Instruction in surveying the needs by areas of exceptionality, the number of children involved, the availability and costs of such services in and out of State, the practicality of providing such services in existing institutions, and any practical alternatives to the public schools and institutionalization. As a part of its study, the Commission is asked to define educational services versus custodial services and make recommendations as to which agencies should accept responsibility for various services.

—ALLOCATION FORMULA FOR PUBLIC SCHOOL PERSONNEL

Sec. 54. Funds appropriated in Section 2 of this act to the Department of Public Education shall be used insofar as possible for personnel allotments to each public school unit within the following criteria:

1. for classroom teachers to be used only for instructing students, one position for every 26 pupils in grades K-3; one position for every 30 pupils in grades 4-8; and one position for every 31 pupils in grades 9-12;

2. one school librarian position for each school with 200 or more average daily membership;

3. one guidance counselor position for each 800 average daily membership unit wide;

4. one professional position for other support personnel (i.e., social workers, school nurses, attendance counselors) for each 4,000 average daily membership unit wide;

5. one principal position for each school with 100 or more average daily membership;

6. one assistant principal position for each school with 625 or more average daily membership.
The average daily membership shall be based upon the best continuous three out of the first four school months for grades K-12.

The State Board of Education shall adopt formulas for the above allocations which are consistent with legislative intent that funds and personnel shall be allocated to all school administrative units on a fair and equitable ADM basis.

—SUBSTITUTE TEACHERS' PAY

Sec. 55. Funds appropriated in Section 2 of this act to the Department of Public Education include two million eight hundred twenty-two thousand two hundred seventy-three dollars ($2,822,273) for fiscal year 1979-80 and two million seven hundred ninety thousand five hundred four dollars ($2,790,504) for fiscal year 1980-81 to increase the daily rate of pay from twenty dollars ($20.00) to thirty dollars ($30.00) for a substitute teacher, except that the daily rate of pay for nonqualified personnel employed as teacher substitutes shall remain at twenty dollars ($20.00). Nonqualified personnel may be employed as teacher substitutes only in hardship situations and must be approved by the school principal. The State Board of Education is directed to establish the necessary rules and regulations to determine qualified and nonqualified personnel and to ensure compliance with the provisions of this section.

—STATEWIDE POLICY FOR PUBLIC SCHOOL EMPLOYEE ABSENCES

Sec. 56. The State Board of Education is directed to adopt a uniform statewide policy pertaining to approved paid absences for State paid public school employees. This policy shall establish a maximum number of days that a State paid public school employee can be absent with pay. This policy shall not affect policies of local boards of education governing leave without pay. Before implementation of this policy, the approval of the Advisory Budget Commission shall be required.

—DEVELOPMENTAL DAY CARE AND COMMUNITY RESIDENTIAL PROGRAMS

Sec. 57. Funds appropriated in Section 2 of this act to the Department of Public Education include four million twenty-seven thousand five hundred dollars ($4,027,500) each year to provide educational services for 180 days for students ages 5-17 appropriately enrolled in one of the developmental day care and/or community residential programs. It is intended that these funds be allocated on a head count basis of children in such programs to the appropriate local education agency to be used exclusively for students whose educational needs can best be met by a developmental day care and/or community residential program as determined by the evaluations and processes required by federal and State laws for children with special needs. The State Board of Education is hereby directed to establish the necessary rules and regulations to insure that the intent of this section is followed.

—STATE BOARD OF EDUCATION/PSYCHOLOGISTS

Sec. 58. Funds appropriated to the State Board of Education for 71 psychologists, include nine hundred thirteen thousand nine hundred eighty-three dollars ($913,983) for fiscal year 1979-80 and nine hundred twenty thousand eighteen dollars ($920,018) for fiscal year 1980-81 may be allocated to local administrative units as ADM dollars to assure that all administrative units share equitably and to assure that services are procured in the most economical manner.

These reports speak to: (1) the overall system of financing public education in North Carolina, (2) standards for allotting school personnel, and (3) salary schedules for all State-paid school personnel. Members of the Legislature and other citizens have invested considerable time in these studies. The 1979 General Assembly has responded to each of these studies. However, each of the studies has long-range implications for the Legislature and the public school system. The Legislative Research Commission is directed to give leadership to the implementation of these studies and to bring to future sessions the guidance and direction required.

—LEGISLATIVE RESEARCH COMMISSION TO STUDY PUBLIC SCHOOL FACILITY NEEDS

Sec. 60. The Legislative Research Commission is directed to conduct a study of the school facility needs of the public schools of North Carolina. The Commission is further directed to report its findings to the General Assembly on or before March 1, 1980. The Commission report shall include a detailed analysis of the total needs in the matter of public school facilities.

—STATE BOARD OF EDUCATION TO DO COST ANALYSIS OF STATE’S FREE PUBLIC SCHOOL INSTRUCTIONAL PROGRAM AND REPORT TO THE GENERAL ASSEMBLY

Sec. 61. The State Board of Education shall define and cost out the elements of the State’s free basic education program and share the information with the General Assembly. Sec. 65. Within the limits of the appropriations made in this act to the Department of Community Colleges, the State Board of Education may, with the approval of the Director of the Budget and the Advisory Budget Commission, revise the formulas for allocating operating funds to the community colleges and technical institutes. Sec. 68. No course of instruction supported in whole or in part by State funds shall be offered by any institution in the Community College System to any captive group without the prior approval of the State Board of Education. Funds appropriated in Section 2 of this act to the Board of Governors of The University of North Carolina for continuation of financial assistance to the medical schools of Duke University and Wake Forest University shall be disbursed on certifications of the respective schools of medicine that show the number of North Carolina residents as first-year, second-year, third-year, and fourth-year students in the school as of November 1, 1979, and November 1, 1980. Disbursement to Wake Forest University shall be made in the amount of eight thousand dollars ($8,000) for each such student, one thousand dollars ($1,000) of which shall be placed by the school in a fund to be used to provide financial aid to needy North Carolina students who are enrolled in the school, provided that the maximum aid given to any student from this fund in a given year shall not exceed the amount of the difference in tuition and academic fees charged by the school and those charged at the School of Medicine at The University of North Carolina at Chapel Hill.

Disbursement to Duke University shall be made in the amount of five thousand dollars ($5,000) for each such student, five hundred dollars ($500.00) of which shall be placed by the school in a fund to be used to provide student financial aid to financially needy North Carolina students who are enrolled in the school, provided that no individual student shall be awarded assistance from this fund in excess of two thousand dollars ($2,000) each year. In addition to this basic disbursement for each year of the 1979-81 biennium, a disbursement of one thousand dollars ($1,000) shall be made for each such student in the first-year, second-year, third-year and fourth-year classes to the extent that enrollment of each of those classes exceeds 30 North Carolina students.

The Board of Governors shall establish the criteria for determining the eligibility for financial aid of needy North Carolina students who are enrolled in the schools and shall review the grants or awards to said eligible students. The Board of Governors shall promulgate regulations for determining which students are residents of North Carolina for the purposes of these programs. The Board shall also make such regulations as it may deem desirable to ensure that these funds are used directly for instruction in the medical programs of the schools and not for religious or other nonpublic purposes. The Board shall encourage the two schools to orient students towards personal health care in North Carolina giving special emphasis to family and community medicine.

—AID TO PRIVATE COLLEGES/PROCEDURE

Sec. 75. Funds appropriated in this act to the Board of Governors of The University of North Carolina for aid to private colleges shall be disbursed in accordance with the provisions of G.S. 116-19, G.S. 116-21, and G.S. 116-22. These funds are to provide up to two hundred dollars ($200.00) per full-time equivalent North Carolina undergraduate student enrolled at a private institution as of October 1 each year.

These funds shall be placed in a separate, identifiable account in each eligible institution's budget/chart of accounts. All funds in this account shall be provided as scholarship funds for needy North Carolina students during the fiscal year. Each student awarded a scholarship from this account shall be notified of the source of the funds and of the amount of the award. Funds not utilized under G.S. 116-19 shall be for the tuition grant program as defined in Section 76 of this act.

1142
Sec. 76. In addition to any funds appropriated pursuant to G.S. 116-19 and in addition to all other financial assistance made available to private educational institutions located within the State, or to students attending such institutions, there is hereby granted to each full-time North Carolina undergraduate student attending an approved institution as defined in G.S. 116-22, the sum of four hundred seventy-five dollars ($475.00) per academic year in 1979-80 and the sum of five hundred fifty dollars ($550.00) per academic year in 1980-81 which shall be distributed to the student as hereinafter provided.

The tuition grants provided for in this section shall be administered by the State Education Assistance Authority pursuant to rules and regulations promulgated by the State Education Assistance Authority not inconsistent with this act. The State Education Assistance Authority shall not approve any grant until there has been received from an appropriate officer of the approved institution a certification that the student applying for the grant is an eligible student. Upon receipt of such certification in proper form, the State Education Assistance Authority shall remit at such times as it shall prescribe the grant to the approved institution on behalf, and to the credit, of such student.

In the event a student on whose behalf a grant has been paid shall not be enrolled and carrying a minimum academic load as of the 10th classroom day following the beginning of the school term for which such grant was paid, the institution shall refund to the State Education Assistance Authority the amount of grant paid on behalf of such student for such term. Each approved institution shall be subject to examination by the State Auditor for the purpose of determining whether such institution has properly certified eligibility and enrollment of students and credited grants paid in the behalf of such students.

In the event there are not sufficient funds to provide each eligible student with a full grant, each eligible student shall receive a reduced but equal share of funds then available for the remainder of the academic year within the fiscal period covered by the current appropriation. Any remaining funds shall revert to the General Fund.

Sec. 77. Expenditures made pursuant to Sections 75 and 76 of this act shall be used for secular educational purposes only. If any provisions of these sections or the application thereof to any person or circumstances be held invalid, such invalidity shall not affect other provisions or applications of the sections which can be given effect without the invalid provision or application, and to this end the provisions of the sections are declared to be severable.

—POSSIBLE LOSS OF FEDERAL FUNDS/UNIVERSITY OF NORTH CAROLINA

Sec. 78. Funds are included in the appropriations in Section 2 of this act to the Board of Governors of The University of North Carolina to replace an expected loss in federal funding in the Area Health Education Centers program ($600,000 in 1979-80 and $1,200,000 in 1980-81) and the Agricultural Extension Service, N. C. State University at Raleigh ($200,000) each year. Appropriations which are supplanted will revert to the General Fund.

—STATE BOARD OF EDUCATION, UNIVERSITY BOARD OF GOVERNORS/ TRAVEL EXPENSE CONTROLS

1143
Sec. 79. The State Board of Education and the Board of Governors of The University of North Carolina shall make a study of, and establish all reasonable regulations necessary to limit, expenditures for travel to meetings or conventions of private organizations and for travel which is not solely for public business.

The State Board of Education and the Board of Governors of The University of North Carolina shall report their findings and the actions which they have taken to conserve travel funds at both the department level and at the institutional level, to the Second Session of the 1979 General Assembly.

PART VIII. SPECIAL PROVISIONS/SALARIES AND BENEFITS

—MOST STATE WORKERS/FIVE PERCENT SALARY INCREASE ADMIN.

Sec. 80. The Director of the Budget is authorized to transfer from the appropriations in Sections 2 and 3 of this act for legislative salary increases of State employees paid from the General Fund and the Highway Fund, respectively, such amounts, including the employer's retirement and social security contributions, as may be required to increase salaries in effect on June 30, 1979, for all permanent employees by an average of five percent (5%) commencing July 1, 1979, rounded to conform to the steps in such salary ranges as may be adopted by the State Personnel Commission. For an employee whose salary in effect on June 30, 1979, is not equal to a specific pay rate within the salary schedule effective on that date, the annual increase will be the amount applicable to the next lower pay rate.

Except for salaries specifically established in this act, State department secretaries and other exempt positions whose salaries are recommended by the Governor or the Governor and the Advisory Budget Commission and set by the General Assembly shall be granted the same approximately five percent (5%) salary increases as provided for other State employees under this section, commencing July 1, 1979.

The Director of the Budget is authorized to allocate, out of special operating funds or from sources other than tax revenues under which personnel are employed, sufficient funds to allow increases in salaries paid from those sources to conform with the increases authorized for other State employees under the provisions of this section, provided necessary funds are made available by sponsoring agencies.

The Director of the Budget is further authorized to promulgate special rules and regulations to apply to salary increases for employees whose salaries are paid from interagency receipts, where payments for the services of such employees originate from State appropriations, to the end that the effective purchasing power of such appropriations is not materially reduced as a result of these salary increases. Any question as to the applicability of the provisions of this paragraph shall be resolved by the Director of the Budget and the Advisory Budget Commission.

Salaries for positions which are paid partially from the General Fund and partially from sources other than the General Fund shall be increased from the General Fund appropriation only to the extent of the proportionate part of the salaries paid from the General Fund.

The granting of the legislative salary increases under this section shall not affect the status of eligibility for automatic or merit salary increments or both for which employees may be eligible.
The salary ranges for all employees under the State Personnel Act shall be increased, so far as the maximums are concerned, by amounts corresponding to those of the legislative salary increase so that, after the salary increases provided for in this act are made, every employee will continue to have the same relative position with respect to salary increases and future increments as he would have had if the salary increases provided by this act had not been made.

The salary increases provided in this act to be effective July 1, 1979, shall not apply to persons separated from State service due to resignation, dismissal, reduction in force, death or retirement, whose last work day is prior to July 1, 1979.

Within regular executive Budget Act procedures as limited by this act, all State agencies and departments are authorized to increase the rate of pay of temporary State employees, subject to availability of funds in the particular agency or department and on an equitable basis, by pro rata amounts approximately equal to the five percent (5%) increase provided for other State employees.

It is the intent of the General Assembly to provide increases, including the cost-of-living adjustments allowed by law for retirees and beneficiaries in the several State-supported retirement systems, comparable to the cost-of-living salary increases provided for active members of the several systems.

Any remaining appropriations not transferred by the Director of the Budget for legislative salary increases may be used to supplement the salary adjustment appropriations as approved by the State Personnel Director and Director of the Budget.

LEGISLATIVE EMPLOYEES/FIVE PERCENT SALARY INCREASE

Sec. 81. The Legislative Services Officer is authorized to increase the salaries of permanent non-elected employees of the General Assembly in effect on June 30, 1979, by five percent (5%) commencing July 1, 1979, rounded to the nearest whole dollar figure divisible by 12 and otherwise adjusted to conform with the relative levels of the Legislative Services Commission salary schedule. The granting of this legislative percentage salary increase shall not affect the status of employees' eligibility for automatic or merit increments.

GENERAL ASSEMBLY PRINCIPAL CLERKS/SALARY INCREASES

Sec. 82. G.S. 120-37(c) is amended by deleting the words and figures "twenty-one thousand two hundred dollars ($21,200)", and inserting therein the words and figures "twenty-two thousand two hundred sixty dollars ($22,260)".

CHAPTER 839

AN ACT TO AMEND AND CONSOLIDATE THE "MAXIMUM HOUR LAW"; "THE MINIMUM WAGE ACT"; THE "UNIFORM WAGE PAYMENT LAW"; AND THE "CHILD LABOR LAW" INTO ONE ARTICLE ENTITLED THE "WAGE AND HOUR ACT".

§ 95-17. Minimum wage.—(a) Every employer shall pay to each employee who in any workweek performs any work, wages of at least two dollars and seventy-five cents ($2.75) per hour effective July 1, 1979, and two dollars and ninety cents ($2.90) per hour effective July 1, 1980, except as authorized below.
(b) In order to prevent curtailment of opportunities for employment, the wage rate for full-time students, learners, apprentices, and messengers, as defined under the Fair Labor Standards Act, shall be two dollars and forty-five cents ($2.45) per hour, except that the Commissioner may vary the amount after publishing notice, holding a public hearing, and following the other requirements of Chapter 150A (Administrative Procedure Act).
(c) The Commissioner, in order to prevent curtailment of opportunities for employment, may, by regulation, establish a wage rate less than the wage rate in
effect under section (a) which may apply to persons whose earning or productive capacity is impaired by age or physical or mental deficiency or injury, as such persons are defined under the Fair Labor Standards Act.

(d) The Commissioner, in order to prevent curtailment of opportunities for employment of the economically disadvantaged and the unemployed, may, by regulation, establish a wage rate not less than eighty-five percent (85%) of the otherwise applicable wage rate in effect under subsection (a) which shall apply to all persons (1) who have been unemployed for at least 15 weeks and who are economically disadvantaged, or (2) who are, or whose families are, receiving aid to families with dependent children provided under Part A of Title IV of the Social Security Act, or who are receiving supplemental security benefits under Title XVI of the Social Security Act.

(f) Tips earned by a tipped employee may be counted as wages only up to fifty percent (50%) of the applicable minimum wage for each hour worked if the tipped employee is notified in advance, is permitted to retain all tips and the employer maintains accurate and complete records of tips received by each employee as such tips are certified by the employee monthly or for each pay period. Tip pooling shall also be permissible among employees who customarily and regularly receive tips; however, no employee’s tips may be reduced by more than fifteen percent (15%) under a tip pooling arrangement.

“§ 95-18. Overtime.—(a) Every employer shall pay each employee who works longer than 45 hours in any workweek at a rate of not less than time and one half of the regular rate of pay of the employee for those hours in excess of 45 per week.

(d) An employer may employ minors 12 and 13 years of age outside school hours in the distribution of newspapers to the consumer but not more than three hours per day. An employment certificate shall not be required for any person under 18 years of age engaged in the distribution of newspapers to the consumer outside of school hours.

(e) No minor under 16 years of age shall be employed for more than five consecutive hours without an interval of at least 30 minutes for rest. No period of less than 30 minutes shall be deemed to interrupt a continuous period of work.

(f) The Commissioner may waive for any minor over 12 years of age any provision of this section and authorize the issuance of an employment certificate when:
(1) he receives a letter from a social worker, court, probation officer, county department of social services, or school official stating those factors which create a hardship situation when the best interests of a minor 12 years of age or older are served by allowing him to work; and
(2) he determines that the health or safety of the minor would not be adversely affected; and
(3) the parent, guardian, or other person standing in loco parentis consents in writing to the proposed employment.

"§ 95-20. Wage payment.—Every employer shall pay every employee all wages and tips accruing to the employee on the regular payday. Pay periods may be daily, weekly, bi-weekly, semi-monthly, or monthly. Wages based upon bonuses, commissions, or other forms of calculation may be paid as infrequently as annually if prescribed in advance.

"§ 95-20.1. Payment to separated employees.—Employees whose employment is discontinued for any reason shall be paid all wages due on or before the next regular payday.

"§ 95-20.2. Withholding of wages.—An employer may withhold or divert any portion of an employee's wages when:
(1) the employer is required or empowered to do so by State or federal law, or
(2) the employer has a written authorization from the employee which is signed on or before the payday for the pay period from which the deduction is to be made.
§ 95-20.3. Certain claims not to be deducted from paycheck covering period when claim arises.—Except as otherwise provided in this Article, cash shortages, inventory shortages, or damage to an employer’s property may not be deducted from an employee’s wages due on the payday immediately following the occurrence of the shortage or damage.

§ 95-20.4. Combined amounts of certain deductions limited to fifteen percent (15%) of gross pay.—Pursuant to G.S. 95-20.2(2) and subject to G.S. 95-20.3, the following items may be deducted from any paycheck, but their combined amount shall not be in excess of fifteen percent (15%) of gross wages:

1. cash shortages,
2. inventory shortages,
3. damage to an employer’s property,
4. deposits made by the employee for the use of the employer’s property.

§ 95-20.5. Portion of final paycheck not subject to fifteen percent (15%) limitation; employer’s remedy.—The fifteen percent (15%) limitation imposed by G.S. 95-20.4 above only applies to that portion of a separated employee’s final paycheck which is equal to the minimum wage required by G.S. 95-17. Any amounts in excess of the minimum wage required by G.S. 95-17 and any other amounts due the employee may be deducted in their entirety.

Nothing in this Article shall preclude an employer from bringing an action in the General Court of Justice to collect any amounts due the employer from the employee.

§ 95-20.6. Vacation pay.—An employer is not required to provide vacations for employees. If the employer provides vacations to employees, the employer shall pay all vacation pay or payment in lieu of time off as required by company policy or past practice.

An accrual policy is not required. If there is an accrual policy, all vacation pay in lieu of time off is due at termination unless the policy or past practice indicates that an employee quitting without notice forfeits accrued time and payment, and the employee fails to notify or is discharged for cause.

For purposes of this section the term ‘discharged for cause’ shall mean a discharge for willful or habitual tardiness or absence from work or being disorderly or intoxicated while at work, or destructive of employer’s property or shall mean that an employee is discharged for violating specific written company policy of which the employee has been previously warned and for which a discharge is the stated remedy for such violation. An accrual policy containing a forfeiture clause based upon any factor other than failure to notify or discharge for cause is null and void.

§ 95-20.7. Notification, posting, and records.—Every employer shall:
(a) notify his employees, orally or in writing at the time of hiring, of the rate of pay, policies on vacation time and pay, sick leave and comparable matters, and the day, and place for payment of wages;
(b) make available to his employees, in writing or through a posted notice maintained in a place accessible to his employees, employment practices and policies with regard to vacation pay, sick leave, and comparable matters;
(c) notify his employees, in writing or through a posted notice maintained in a place accessible to his employees, of any changes in the arrangements specified in (b) above prior to the time of such changes except that wages and benefits may be retroactively increased without the prior notice required by this subsection; and
CHAPTER 839  Session Laws—1979

(d) furnish each employee with an itemized statement of deductions made from his wages under G.S. 95-20.2 for each pay period such deductions are made.

With respect to the provisions of G.S. 95-20 through G.S. 95-20.6 (Wage Payment) as those provisions apply to persons covered by the Fair Labor Standards Act, the Commissioner or his designated representative shall have no authority under this subsection unless the Commissioner or his designated representative has received a complaint from an employee of the covered establishment, and then shall investigate that specific complaint only.

(b) Except as otherwise provided in this Article, every employer subject to any provision of this Article shall make, keep, and preserve such records of the persons employed by the employer and of the wages, hours, and other conditions and practices of employment which are essential to the enforcement of this Article and are prescribed by regulation of the Commissioner, except that the Commissioner shall have no authority to prescribe records for the State of North Carolina, a city, town, county or other municipality or agency or instrumentality of government.

complaint or participates in any investigation or proceeding under this Article. Any employee who believes that he has been discharged or otherwise discriminated against in violation of this section may, within 30 days after such violation occurs, file a complaint with the Commissioner alleging such discrimination. If the Commissioner determines that the provisions of this section have been violated, he shall bring an action against the employer in the Superior Court division of the General Court of Justice in the county wherein the discharge or discrimination occurred. In any such action, the Superior Court shall have jurisdiction, for cause shown, to restrain violations of this section and order all appropriate relief, including rehiring or reinstatement of the employee to his former position with back pay.

“§ 95-27.1. In its discretion, the court may award exemplary damages in an amount not in excess of the amount found to be due as provided above.

(b) Action to recover such liability may be maintained in the General Court of Justice by any one or more employees.

(c) Action to recover such liability may also be maintained in the General Court of Justice by the Commissioner at the request of the employees affected. Any sums thus recovered by the Commissioner on behalf of an employee shall be held in a special deposit account and shall be paid directly to the employee or employees affected.

(d) The court, in any action brought under this section may, in addition to any judgment awarded plaintiff, order costs and fees of the action and reasonable attorneys’ fees to be paid by the defendant.

The court may order costs and fees of the action and reasonable attorneys’ fees to be paid by the plaintiff if the court determines that the action was frivolous.

(e) The Commissioner is authorized to determine and supervise the payment of the amounts due under this section, and the agreement to accept such amounts by the employee shall constitute a waiver of the employee’s right to bring an action under subsection (b) of this section.

(f) Actions under this section must be brought within two years pursuant to G.S. 1-53.
(g) Prior to initiating any action under this section, the Commissioner shall exhaust all administrative remedies, including giving the employer the opportunity to be heard on the matters at issue and giving the employer notice of the pending action.

Violation of youth employment; civil penalty.—(a) Any employer who violates the provisions of G.S. 95-19 (Youth Employment) or any regulation issued thereunder, shall be subject to a civil penalty not to exceed two hundred fifty dollars ($250.00) for each violation. In determining the amount of such penalty, the appropriateness of such penalty to the size of the business of the person charged and the gravity of the violation shall be considered. The determination by the Commissioner shall be final, unless within 15 days after receipt of notice thereof by certified mail the person charged with the violation takes exception to the determination, in which event final determination of the penalty shall be made in an administrative proceeding pursuant to Article 3 of Chapter 150A and in a judicial proceeding pursuant to Article 4 of Chapter 150A.

(b) The amount of such penalty when finally determined may be recovered in a civil action brought by the Commissioner in the General Court of Justice.

(c) Sums collected under this section by the Commissioner shall be paid into the General Fund of the State Treasury.

The General Assembly of North Carolina enacts:

Section 1. A new Article XXX is added to the Charter of the City of Wilmington, said Charter having been enacted by the North Carolina General Assembly in 1977, as follows:

"ARTICLE XXX.

"PROHIBITION OF ACTS OF DISCRIMINATION IN EMPLOYMENT.

"Sec. 30.1. Authority to Adopt Ordinances. The City Council of the City of Wilmington may adopt ordinances to prohibit acts of discrimination in employment based on race, color, national origin, religion, sex, handicap or age. To assist in the enforcement of these ordinances, the City Council may authorize or create an agency or commission of the City of Wilmington (hereafter called 'The Agency') to receive, initiate, investigate, seek to conciliate, hold hearings on and pass upon complaints, and mediate alleged violations of such ordinance, and to issue orders against persons, firms, or corporations it finds, after notice and hearing, to have violated such ordinance. The Agency may, as part of such order, require any such person, firm or corporation to cease and desist from unlawful practices and to engage in such additional remedial action as may be appropriate including but not limited to, the following:

(a) hiring, reinstatement or upgrading of aggrieved individuals, with or without back pay;

(b) admission to or participation in a guidance program, apprenticeship training program, on-the-job training program, or other occupation training or retraining program, and the utilization of objective criteria in the admission of such individuals in such programs;
(c) to approve or disapprove plans to eliminate or reduce imbalance with respect to race, color, national origin, religion, sex and handicap, or age;

(d) to provide technical assistance to persons subject to this act to further compliance with the act;

(e) reporting as to the manner of compliance;

(f) posting notices in conspicuous places in the form prescribed by the Agency.

"Sec. 30.2. Judicial Review of Agency Orders. Judicial review of Agency orders shall be in accordance with Article 4 of Chapter 150A of the North Carolina General Statutes provided, however, that the provisions of G.S. 150A-45 notwithstanding, petitions for judicial review shall be filed in the Superior Court of New Hanover County. The term 'Agency', whenever used in Article 4 of Chapter 150A of the North Carolina General Statutes, shall mean the Agency as authorized or created by the City Council of the City of Wilmington under the authority of this act.

"Sec. 30.3. Enforcement of Agency Orders. (a) If a person, firm or corporation fails to comply with an order of the Agency, any aggrieved person or the Agency may apply to the Superior Court of New Hanover County for an order of the Court enforcing the order of the Agency.

(b) Within 30 days after receipt of the petition for enforcement of the Agency’s order or within such additional time as the Court may allow, the Agency shall transmit to the Court the original or a certified copy of the entire record of the proceedings leading to the order. With the permission of the Court, the record may be shortened by stipulation of all parties. Any party unreasonably refusing to stipulate to limit the record may be taxed by the Court for such additional costs as may be occasioned by the refusal. The Court may require or permit subsequent corrections or additions to the record when deemed desirable.

(c) The hearing on the petition for enforcement of the Agency’s order shall be conducted by the Court without a jury. The court shall hear oral arguments and receive written briefs, but shall take no evidence not offered at the Agency hearing; except that in cases of alleged irregularities in procedure before the Agency not shown in the record, testimony thereon may be taken by the Court; and except that where no record was made of the proceeding or the record is inadequate, the judge in his discretion may hear all or part of the matter de novo.

(d) The court shall issue the order requiring compliance with the Agency’s order unless it finds that enforcement of the Agency’s order would prejudice substantial rights of the party against whom the order is sought to be enforced because the Agency’s findings, inferences, conclusions, or decisions are:

(1) in violation of constitutional provisions; or
(2) in excess of the statutory authority or jurisdiction of the Agency; or
(3) made upon unlawful procedure; or
(4) affected by other error of law; or
(5) unsupported by substantial evidence in view of the entire record as submitted; or
(6) arbitrary or capricious.

(e) If the Court declines to enforce the Agency’s order for one of the reasons specified in paragraph (d) of this subsection, it shall either:

(1) dismiss the petition; or
(2) modify the Agency’s order and enforce it as modified; or
(3) remand the case to the Agency for further proceedings.

(f) Any party to the hearing on the petition for enforcement of the Agency’s order may appeal the Court’s decision to the appellate division under the rules of procedure applicable to other civil cases.

"Sec. 30.4. Additional Authority of Agency. To further assist in enforcement of ordinances authorized by this section, the Agency may subpoena witnesses, administer oaths, and compel the production of evidence. If a person fails or refuses to obey a subpoena issued by the Agency, the Agency may apply to the General Court of Justice for an order requiring that its order be obeyed, and the Court shall have jurisdiction to issue such orders after notice to all proper parties. No testimony of any witness before the Agency pursuant to a subpoena issued in exercise of the power conferred by this subsection may be used against him on the trial of any criminal action other than a prosecution for false swearing committed on the examination. If any person, while under oath administered pursuant to this paragraph willfully swears falsely, he is guilty of a misdemeanor.

"Sec. 30.5. Public Records. Public records concerning the investigation, conciliation or mediation of alleged violations of an ordinance enacted pursuant to this section are not subject to the provisions of G.S. 132-6 and G.S. 132-9."

Sec. 2. This act is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

(b) The Board shall not adopt any rule or regulation which prohibits advertising.

(c) The adoption, amendment or revocation of rules, regulations, and standards of professional conduct, and the publication and distribution of the same shall be subject to the provisions of the Administrative Procedure Act.

All candidates must successfully complete a professional examination in order to be licensed.

(1) The qualification requirements for registration as a duly licensed architect shall be:

a. a degree in architecture from a college or university where the degree program has been approved by the Board, at least three years practical training and experience as defined by rules of the Board, and successful completion of the professional examination;

Any individual holding a current license for the practice of architecture from another state or territory, and holding a certificate of qualification issued by the National Council of Architectural Registration Boards, may upon application and within the discretion of the Board be licensed without written examination. The Board may waive the requirement for National Council registration if the qualifications, examination and licensing requirements of the state in which the applicant is licensed are substantially equivalent to those of this State and the applicant otherwise meets the requirements of this Chapter.
§ 83-8. Qualification for corporate practice.—(a) Any corporation desiring to practice architecture in this State shall file corporate application on forms provided by the Board, accompanied by the required application fee. To be eligible for a corporate certificate, the corporation must meet all requirements of the Professional Corporation Act.

Such corporations shall designate the individual or individuals licensed to practice architecture in this State who shall be in responsible charge of all architectural work offered or performed by such corporation in this State. Such corporations shall notify the Board of changes in such designation.

(c) All corporations holding corporate certificates from the Board shall be subject to the applicable rules and regulations adopted by the Board, and to all the disciplinary powers applicable to individual licensees who are officers or employees of the corporation. Corporations may perform no acts or things forbidden to officers or employees as licensees.

§ 83-9. Partnership practice.—This Chapter neither prevents practice of architecture by a partnership nor requires partnership seals or certificates of practice provided that the members of the partnership are duly licensed to practice architecture, and, provided that the partnership files with the Board and keeps current a list of the partners, their license identifications, and the types of services offered by the partnership.

§ 83-10. Professional seals.—Every licensed architect shall have a seal of a design authorized by the Board, and shall imprint all drawings and sets of specifications prepared for use in this State with an impression of such seal. Licensed architectural corporations shall employ corporate professional seals, of a design approved by the Board, for use in identifying plans, specifications and other professional documents issued by the corporation, but use of such corporate seals shall be in addition to and not in substitution for the requirement that the individual seal of the author of such plans and professional documents be affixed.

§ 83-11. Expirations and renewals.—Certificates must be renewed on or before the first day of July in each year. No less than 30 days prior to the renewal date, a renewal application shall be mailed to each individual and corporate licensee. The completed application together with the required renewal fee shall be returned to the Board on or before the renewal date. When the Board is satisfied as to the continuing competency of an architect, it shall issue a renewal of the certificate. Upon failure to renew within 30 days after the date set for expiration, the license shall be automatically revoked but such license may be renewed at any time within one year following the expiration date upon proof of continuing competency and payment of the renewal fee plus a late renewal fee. After one year from the date of revocation, reinstatement may be made by the Board, or in its discretion, the application may be treated as new subject to reexamination and qualification requirements as in the case of new applications.

§ 83-12. Prohibited practice.—The purpose of the act is to safeguard life, health and property. It shall be unlawful for any individual, firm or corporation to practice or offer to practice architecture in this State as defined in this Chapter, or to use the title ‘Architect’ or any form thereof, except as provided
in G.S. Chapter 89A for Landscape Architects, or to display or use any words, letters, figures, titles, sign, card, advertisement, or other device to indicate that such individual or firm practices or offers to practice architecture as herein defined or is an architect or architectural firm qualified to perform architectural work, unless such person holds a current individual or corporate certificate of admission to practice architecture under the provisions of this Chapter.

“§ 83-13. Exemptions.—(a) Nothing in this Chapter shall be construed to prevent the practice of general contracting under the provisions of Article I of G.S. Chapter 87, or the practice by any person who is qualified under law as a ‘registered professional engineer’ of such architectural work as is incidental to engineering projects or utilities, or the practice of any other profession under the applicable licensure provisions of the General Statutes.

(b) Nothing in this Chapter shall be construed to prevent a duly licensed general contractor, professional engineer or architect, acting individually or in combination thereof, from participating in a ‘Design/Build’ undertaking including the preparation of plans and/or specifications and entering individual or collective agreements with the owner in order to meet the owner’s requirements for pre-determined costs and unified control in the design and construction of a project, and for the method of compensation for the design and construction services rendered; provided, however, that nothing herein shall be construed so as to allow the performance of any such services or any division thereof by one who is not duly licensed to perform such service or services in accordance with applicable licensure provisions of the General Statutes; provided further, that full disclosure is made in writing to the owner as to the duties and responsibilities of each of the participating parties in such agreements; and, provided further, nothing in this Chapter shall prevent the administration by any of the said licensees of construction contracts and related services or combination of services in connection with the construction of buildings.

6. the preparation and use of details and shop drawings, assembly or erection drawings, or graphic descriptions utilized to detail or illustrate
a portion of the work required to construct the project in accordance with the plans and specifications prepared or to be prepared under the requirements or exemptions of this Chapter.

(d) Nothing in this Chapter shall be construed to prevent any individual from making plans or data for buildings for himself.

(e) Plans and specifications prepared by persons or corporations under these exemptions shall bear the signature and address of such person or corporate officer.

“§ 83-14. Disciplinary action and procedure.—Any person may file with the Board a charge of unprofessional conduct, negligence, incompetence, dishonest practice, or other misconduct or of any violation of this Chapter or of a Board rule adopted and published by the Board. Upon receipt of such charge, or upon its own initiative, the Board may give notice of an administrative hearing under the Administrative Procedure Act, or may dismiss the charge as unfounded or trivial, upon a statement of the reasons therefor which shall be mailed to the architect and the person who filed the charge by registered or certified mail.

“§ 83-15. Denial, suspension or revocation of license.—The Board shall have the power to suspend or revoke a license or certificate of registration, and to deny a license or certificate of registration or to reprimand any registrant who is found guilty of:

(1) Dishonest conduct, including but not limited to:

   (d) willfully violating this Chapter or any rule or standard of conduct published by the Board, or pleading guilty or nolo contendere to a felony or any crime involving moral turpitude.

“§ 83-16. Violations of Chapter, penalties.—(a) Any individual or corporation not registered under this Chapter, who shall wrongfully use the title ‘Architect’
or represent himself or herself to the public as an architect, or practice architecture as herein defined, or seek to avoid the provisions of this Chapter by the use of any other designation than 'Architect': (i) shall be guilty of a misdemeanor and shall upon conviction be sentenced to pay a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00), or suffer imprisonment for a period not exceeding three months or both such fine and imprisonment; and (ii) be subject to a civil penalty not to exceed five hundred dollars ($500.00) per day of such violation. H. B. 1104

CHAPTER 873

AN ACT TO PROHIBIT LOITERING FOR THE PURPOSE OF PROSTITUTION OR AIDING AND ABETTING PROSTITUTION.

The General Assembly of North Carolina enacts:

Section 1. The General Assembly finds and declares that loitering for the purpose of prostitution or aiding and abetting prostitution is disruptive of the public peace in that certain persons engaged in such conduct in public places harass and interfere with the use and enjoyment by other persons of such public places, thereby constituting a danger to the public health and safety.

The General Assembly further finds that in recent years the incidence of such conduct in public places has increased significantly in that persons
aggressively engaging in promoting, patronizing or soliciting for the purposes of prostitution have, by their course of conduct in public places, caused citizens who venture into such public places to be the unwilling victims of repeated harassment, interference and assault upon their individual privacy, as a result of which such public places have become unsafe and the ordinary community and commercial life of certain neighborhoods has been disrupted and has deteriorated.

Sec. 2. A new section is added to Chapter 14 of the General Statutes to read:

"§ 14-204.1. Loitering for the purpose of engaging in prostitution offense.—(a) For the purposes of this section, 'public place' means any street, sidewalk, bridge, alley or alleyway, plaza, park, driveway, parking lot or transportation facility, or the doorways and entrance ways to any building which fronts on any of those places, or a motor vehicle in or on any of those places.
(b) If a person remains or wanders about in a public place and
   (1) repeatedly beckons to, stops, or attempts to stop passers-by, or
      repeatedly attempts to engage passers-by in conversation; or

CHAPTER 876
AN ACT TO REWRITE THE HEALTH MAINTENANCE ORGANIZATION ACT OF 1977.

The General Assembly of North Carolina enacts:

Section 1. Chapter 57A of the General Statutes is rewritten to read:
“Chapter 57A.

§ 57A-1. Short title.—This Chapter may be cited as the Health Maintenance Organization Act of 1979.

(b) ‘Enrollee’ means an individual who has been enrolled in a health care plan.
(c) ‘Evidence of coverage’ means any certificate, agreement, or contract issued to an enrollee setting out the coverage to which he is entitled.
(d) ‘Health care plan’ means any arrangement whereby any person undertakes on a prepaid basis to provide, arrange for, pay for, or reimburse any part of the cost of any health care services and at least part of such arrangement consists of arranging for or the provision of health care services, as distinguished from mere indemnification against the cost of such services on a prepaid basis through insurance or otherwise.
(e) ‘Health care services’ means any services included in the furnishing to any individual of medical or dental care, or hospitalization or incident to the furnishing of such care of hospitalization, as well as the furnishing to any person of any and all other services for the purpose of preventing, alleviating, curing, or healing human illness or injury.

§ 57A-3. Establishment of health maintenance organizations.—(a) Notwithstanding any law of this State to the contrary, any person may apply to the Commissioner for and obtain a certificate of authority to establish and operate a health maintenance organization in compliance with this Chapter. No person shall establish or operate a health maintenance organization in this State, nor sell or offer to sell, or solicit offers to purchase or receive advance or periodic consideration in conjunction with a health maintenance organization

1202
without obtaining a certificate of authority under this Chapter. A foreign corporation may qualify under this Chapter, subject to its registration to do business in this State as a foreign corporation under Article 17 of Chapter 58.

(b) (1) It is specifically the intention of this section to permit such persons as were providing health services on a prepaid basis on July 1, 1977, or receiving federal funds under Section 254(c) of Title 42, U.S. Code, as a community health center, continue to operate in the manner which they have heretofore operated.

(2) Notwithstanding anything contained in this Chapter to the contrary, any person can provide health services on a fee for service basis to individuals who are not enrollees of the organization, and to enrollees for services not covered by the contract, provided that the volume of services in this manner shall not be such as to affect the ability of the health maintenance organization to provide on an adequate and timely basis those services to its enrolled members which it has contracted to furnish under the enrollment contract.

(3) This Chapter shall not apply to any employee benefit plan to the extent that the Federal Employee Retirement Income Security Act of 1974 preempts State regulation thereof.

(4) Except as provided in paragraphs (1), (2), and (3) of this subsection, the persons to whom these paragraphs are applicable shall be required to comply with all provisions contained in this Chapter.

c) Each application for a certificate of authority shall be verified by an officer or authorized representative of the applicant, shall be in a form prescribed by the Commissioner, and shall be set forth or be accompanied by the following:

(1) a copy of the basic organizational document, if any, of the applicant such as the articles of incorporation, articles of association, partnership agreement, trust agreement, or other applicable documents, and all amendments thereto;

(4) a copy of any contract made or to be made between any providers or persons listed in paragraph (3) and the applicant;

(5) a statement generally describing the health maintenance organization, its health care plan or plans, facilities, and personnel;

(6) a copy of the form of evidence of coverage to be issued to the enrollees;

(7) a copy of the form of the group contract, if any, which is to be issued to employers, unions, trustees, or other organizations;

(8) financial statements showing the applicant's assets, liabilities, and sources of financial support. If the applicant's financial affairs are audited by independent certified public accountants, a copy of the applicant's most recent regular certified financial statement shall be deemed to satisfy this requirement unless the Commissioner directs
that additional or more recent financial information is required for the proper administration of this Chapter;

(9) a description of the proposed method of marketing the plan, a financial plan which includes a three-year projection of the initial operating results anticipated, and a statement as to the sources of working capital as well as any other sources of funding;

(10) a power of attorney duly executed by such applicant, if not domiciled in this State, appointing the Commissioner and his successors in office, and duly authorized deputies, as the true and lawful attorney of such applicant in and for this State upon whom all lawful process in any legal action or proceeding against the health maintenance organization on a cause of action arising in this State may be served;

(11) a statement reasonably describing the geographic area or areas to be served;

(12) such other information as the Commissioner may require to make the determinations required in G.S. 57A-4.

(d) (1) A health maintenance organization shall, unless otherwise provided for in this Chapter, file a notice describing any modification of the operation set out in the information required by subsection (c). Such notice shall be filed with the Commissioner prior to the modification. If the Commissioner does not disapprove within 30 days of filing, such modification shall be deemed approved.

(2) The Commissioner may promulgate rules and regulations exempting from the filing requirements of subdivision (1) those items he deems unnecessary.

“§ 57A-4. Issuance of certificate.—(a) Before issuing any such certificate, the Commissioner of Insurance may make such an examination or investigation as he deems expedient. The Commissioner of Insurance shall issue a certificate of authority upon the payment of the application fee prescribed in G.S. 57A-23 and upon being satisfied on the following points:

(1) the applicant is established as a bona fide health maintenance organization as defined by this Chapter;

(2) the rates charged and benefits to be provided are fair and reasonable;

(3) the amounts provided as working capital are repayable only out of earned income in excess of amounts paid and payable for operating expenses and expenses of providing services and such reserve as the Department of Insurance deems adequate, as provided hereinafter;

(4) that the amount of money actually available for working capital be sufficient to carry all acquisition costs and operating expenses for a reasonable period of time from the date of the issuance of the certificate and that the health maintenance organization is financially responsible and may reasonably be expected to meet its obligations to enrollees and prospective enrollees.

(b) In making the determinations required under this section, the Commissioner may consider:

(1) the financial soundness of the health care plan's arrangements for health care services and the schedule of premiums used in connection therewith;
(2) the adequacy of working capital;
(3) any agreement with an insurer, a hospital or medical service corporation, a government, or any other organization for insuring the payment of the cost of health care services or the provision for automatic applicability of alternative coverage in the event of discontinuance of the plan;
(4) any agreement with providers for the provision of health care services; and
(5) any firm commitment of federal funds to the health maintenance organization in the form of a grant, even though such funds have not been paid to the health maintenance organization, provided that the health maintenance organization certifies to the Commissioner that such funds have been committed, that such funds are to be paid to the health maintenance organization with a current fiscal year and that such funds may be used directly for operating purposes and for the benefit of enrollees of the health maintenance organization.

c. A certificate of authority shall be denied only after compliance with the requirements of G.S. 57A-19.

"§ 57A-5. Powers of health maintenance organizations.—(a) The powers of a health maintenance organization include, but are not limited to the following:
(1) the purchase, lease, construction, renovation, operation, or maintenance of hospitals, medical facilities, or both, and their ancillary equipment, and such property as may reasonably be required for its principal office or for such other purposes as may be necessary in the transaction of the business of the organization;
(2) the making of loans to a medical group under contract with it in furtherance of its program or the making of loans to a corporation or corporations under its control for the purpose of acquiring or constructing medical facilities and hospitals or in furtherance of a program providing health care services to enrollees;
(3) the furnishing of health care services through providers which are under contract with or employed by the health maintenance organization;
(4) the contracting with any person for the performance on its behalf of certain functions such as marketing, enrollment and administration;
(5) the contracting with an insurance company licensed in this State, or with a hospital or medical service corporation authorized to do business in this State, for the provision of insurance, indemnity, or reimbursement against the cost of health care services provided by the health maintenance organization;
(6) the offering and contracting for the provision or arranging of, in addition to health care services, of:
   a. additional health care services;
   b. indemnity benefits, covering out-of-area or emergency services; and
   c. indemnity benefits, in addition to those relating to out-of-area and emergency services, provided through insurers or hospital or medical service corporations.

(b) (1) A health maintenance organization shall file notice, with adequate supporting information, with the Commissioner prior to the exercise of any power granted in subsections (a)(1) or (2). The Commissioner shall
disapprove such exercise of power if in his opinion it would substantially and adversely affect the financial soundness of the health maintenance organization and endanger its ability to meet its obligations. If the Commissioner does not disapprove within 30 days of the filing, it shall be deemed approved.

(2) The Commissioner may promulgate rules and regulations exempting from the filing requirement of subdivision (1) those activities having a de minimis effect.

“§ 57A-6. Reserves.—Every health maintenance organization after the first full year of doing business after the passage of this section shall accumulate and maintain, in addition to proper reserves for current administrative liabilities and whatever reserves are deemed adequate and proper by the Commissioner of Insurance for unpaid bills, and unearned membership dues, a special contingent surplus or reserve at the following rates annually of its gross annual collections from membership dues, until said reserve shall equal three times its average monthly expenditures:

(1) First $200,000 4%
(2) Next $200,000 2%
(3) All above $400,000 1%

Any such health maintenance organization may accumulate and maintain a contingent reserve in excess of the reserve hereinabove provided for, not to exceed an amount equal to six times the average monthly expenditures.

In the event the Commissioner of Insurance finds that special conditions exist warranting a decrease in the reserves or schedule of reserves, hereinabove provided for, it may be modified by the Commissioner of Insurance accordingly.

“§ 57A-7. Fiduciary responsibilities.—Any director, officer or partner of a health maintenance organization who receives, collects, disburses, or invests funds in connection with the activities of such organization shall be responsible for such funds in a fiduciary relationship to the enrollees.

“§ 57A-8. Evidence of coverage and premiums for health care services.—(a)

(1) Every enrollee residing in this state is entitled to evidence of coverage under a health care plan. If the enrollee obtains coverage under a health care plan through an insurance policy or a contract issued by a hospital or medical service corporation, whether by option or otherwise, the insurer or the hospital or medical service corporation shall issue the evidence of coverage. Otherwise, the health maintenance organization shall issue the evidence of coverage.

(2) No evidence of coverage, or amendment thereto, shall be issued or delivered to any person in this State until a copy of the form of the evidence of coverage, or amendment thereto, has been filed with and approved by the Commissioner.

(3) An evidence of coverage shall contain:
   a. no provisions or statements which are unjust, unfair, inequitable, misleading, deceptive, which encourage misrepresentation, or which are untrue, misleading or deceptive as defined in G.S. 57A-12(a); and
   b. a clear and complete statement, if a contract, or a reasonably complete summary, if a certificate of:
      I. the health care services and insurance or other benefits, if any, to which the enrollee is entitled under the health care plan;
2. any limitations on the services, benefits, or kind of benefits, to be provided, including any deductible or copayment feature;
3. where and in what manner information is available as to how services may be obtained;
4. the total amount of payment for health care services and the indemnity or service benefits, if any, which the enrollee is obligated to pay with respect to individual contracts, or an indication whether the plan is contributory or noncontributory with respect to group certificates;
5. a clear and understandable description of the health maintenance organization’s method of resolving enrollee complaints.

Any subsequent change may be evidenced in a separate document issued to the enrollee.

(4) A copy of the form of the evidence of coverage to be used in this State, and any amendment thereto, shall be subject to the filing and approval requirements of subsection (b) unless it is subject to the jurisdiction of the Commissioner under the laws governing health insurance or hospital or medical service corporations in which event the filing and approval provisions of such laws shall apply. To the extent, however, that such provisions do not apply the requirements in subsection (c) shall be applicable.

(b)(1) No schedule of premiums for enrollee coverage for health care services, or amendment thereto, may be used in conjunction with any health care plan until a copy of such schedule, or amendment thereto, has been filed with and approved by the Commissioner.

(2) Such premiums may be established in accordance with actuarial principles for various categories of enrollees, provided that premiums applicable to an enrollee shall not be individually determined based on the status of his health. However, the premiums shall not be excessive, inadequate, or unfairly discriminatory.

(c) The Commissioner shall, within a reasonable period, approve any form if the requirements of paragraph (1) are met and any schedule of premiums if the requirements of paragraph (2) are met. It shall be unlawful to issue such form or to use such schedule of premiums until approved. If the Commissioner disapproves such filing, he shall notify the filer. In the notice, the Commissioner shall specify the reasons for his disapproval. A hearing will be granted within 30 days after a request in writing by the person filing. If the Commissioner does not approve or disapprove any form or schedule of premiums within 30 days of the filing of such forms or premiums, they shall be deemed approved.

(d) The Commissioner may require the submission of whatever relevant information he deems necessary in determining whether to approve or disapprove a filing made pursuant to this section.

“§57A-9. Annual report.—Every such health maintenance organization shall annually on or before the first day of March of each year, file in the office of the Commissioner of Insurance a sworn statement verified by at least two of the principal officers of the health maintenance organization showing its condition on the thirty-first day of December, then next preceding; which shall be in such form as the Commissioner of Insurance shall prescribe. In case any such health maintenance organization shall fail to file any such annual statement as herein
required, the said Commissioner of Insurance shall be authorized and empowered to suspend the certificate of authority issued to such health maintenance organization until such statement shall be properly filed.

"§ 57A-10. Investments.—With the exception of investments made in accordance with G.S. 57A-5(a)(1) and (2) and G.S. 57A-5(b), the investable funds of a health maintenance organization shall be invested only in securities or other investments permitted by the laws of this State for the investment of assets constituting the legal reserves of life insurance companies or such other securities or investments as the Commissioner may permit.

"§ 57A-11. Dual choice.—(a) The State government, or any agency, board, commission, institution, or political subdivision thereof, and any city or county, or board of education, which offers its employees a health benefits plan may make available to and inform its employees or members of the option to enroll in at least one health maintenance organization holding a valid certificate of authority which provides health care services in the geographic areas in which such employees or members reside.

(b) The first time a prepaid health plan is offered, each covered employee must make an affirmative choice between the two or more plans. Thereafter, those who wish to change from one plan to another will be allowed to do so annually.

(c) This section shall impose no responsibilities or duties upon State government or any agency, board, commission, institution or political subdivision thereof or any other employer, either public or private to offer health maintenance organization coverage when no health maintenance organization exists for the purpose of providing health care services in the geographic areas in which the employees or members reside.

(d) No employer in this State shall in any way be required to pay more for health benefits as a result of the application of this section than would otherwise be required by any prevailing collective bargaining agreement or other legally enforceable contract of obligation for the provision of health benefits between such employer and its employees, or in any plan provided voluntarily by an employer.

(e) In the event of election to become subscribers of the health maintenance organization plan or to return to the alternative plan, this shall be done without any penalty as to waiting period, pre-existing conditions provisions, or any other provisions which would otherwise effect the credit for the period.

"§ 57A-12. Prohibited practices.—(a) No health maintenance organization, or representative thereof, may cause or knowingly permit the use of advertising which is untrue or misleading, solicitation which is untrue or misleading, or any form of evidence of coverage which is deceptive. For purposes of this Chapter:

(1) A statement or item of information shall be deemed to be untrue if it does not conform to fact in any respect which is or may be significant to an enrollee of, or person considering enrollment in, a health care plan.

(2) A statement or item of information shall be deemed to be misleading, whether or not it may be literally untrue, if, in the total context in which such statement is made or such item of information is communicated, such statement or item of information may be reasonably understood by a reasonable person, not possessing special knowledge regarding health care coverage, as indicating any benefit or advantage or the absence of any exclusion, limitation, or disadvantage of
possible significance to an enrollee of, or person considering enrollment in a health care plan, if such benefit or advantage or absence of limitation, exclusion or disadvantage does not in fact exist.

(3) An evidence of coverage shall be deemed to be deceptive if the evidence of coverage taken as a whole, and with consideration given to typography and format, as well as language, shall be such as to cause a reasonable person, not possessing special knowledge regarding health care plans and evidences of coverage therefor, to expect benefits, services, premiums, or other advantages which the evidence of coverage does not provide or which the health care plan issuing such evidence of coverage does not regularly make available for enrollees covered under such evidence of coverage.

(b) The provisions of Article 3A of Chapter 58 of the General Statutes shall be construed to apply to health maintenance organizations, health care plans and evidences of coverage except to the extent that the Commissioner determines that the nature of health maintenance organizations, health care plans and evidences of coverage render such sections clearly inappropriate.

(c) An enrollee may not be cancelled or not renewed because of any deterioration in the health of the enrollee.

(d) No health maintenance organization, unless licensed as an insurer, may use in its name, contracts, or literature any of the words ‘insurance’, ‘casualty’, ‘surety’, ‘mutual’, or any other words descriptive of the insurance, casualty, or surety business or deceptively similar to the name or description of any insurance or surety corporation doing business in this State.

(e) The HMO shall not refuse to enroll employees except when they can demonstrate they are unable to arrange adequate services.

"§ 57A-13. Regulation of agents.—The Commissioner may, after notice and hearing, promulgate such reasonable rules and regulations as are necessary to provide for the licensing of agents.

"§ 57A-14. Powers of insurers and hospital and medical service corporations.—(a) An insurance company licensed in this State, or a hospital or medical service corporation authorized to do business in this State, may either directly or through a subsidiary or affiliate organize and operate a health maintenance organization under the provisions of this Chapter. Notwithstanding any other law which may be inconsistent herewith, any two or more such insurance companies, hospital or medical service corporations, or subsidiaries or affiliates thereof, may jointly organize and operate a health maintenance organization. The business of insurance is deemed to include the arranging of health care by a health maintenance organization owned or operated by an insurer or a subsidiary thereof.

(b) Notwithstanding any provision of the insurance and hospital or medical service corporation laws contained in Chapters 57 and 58 of the General Statutes, an insurer or a hospital or medical service corporation may contract with a health maintenance organization to provide insurance or similar protection against the cost of care provided through health maintenance organizations and to provide coverage in the event of the failure of the health maintenance organization to meet its obligations. The enrollees of a health maintenance organization constitute a permissible group under such laws. Among other things, under such contracts, the insurer or hospital or medical service corporation may make benefit payments to health maintenance
organizations for health care services rendered by providers pursuant to the health care plan.

"§ 57A-15. Examinations.—(a) The Commissioner may make an examination of the affairs of any health maintenance organization and the contracts, agreements or other arrangements pursuant to its health care plan as often as he deems it necessary for the protection of the interests of the people of this State but not less frequently than once every three years.

(b) Every health maintenance organization shall submit its books and records relating to the health care plan to such examinations and in every way facilitate them. For the purpose of examinations, the Commissioner may administer oaths to, and examine the officers and agents of the health maintenance organization concerning their business.

(c) The expenses of examinations under this section shall be assessed against the organization being examined and remitted to the Commissioner for whom the examination is being conducted.

(d) In lieu of such examination, the Commissioner may accept the report of an examination made by the Commissioner of Insurance or Commissioner of Public Health of another state.

"§ 57A-16. Suspension or revocation of certificate of authority.—(a) The Commissioner may suspend or revoke any certificate of authority issued to a health maintenance organization under this Chapter if he finds that any of the following conditions exist:

1. The health maintenance organization is operating significantly in contravention of its basic organizational document, or in a manner contrary to that described in and reasonably inferred from any other information submitted under G.S. 57A-3, unless amendments to such submissions have been filed with and approved by the Commissioner.

2. The health maintenance organization issues evidence of coverage or uses a schedule of premiums for health care services which do not comply with the requirements of G.S. 57A-8.

3. The health maintenance organization no longer maintains the financial reserve specified in G.S. 57A-6 or is no longer financially responsible and may reasonably be expected to be unable to meet its obligations to enrollees or prospective enrollees.

4. The health maintenance organization, or any person on its behalf, has advertised or merchandised its services in an untrue, misrepresentative, misleading, deceptive or unfair manner.

5. The continued operation of the health maintenance organization would be hazardous to its enrollees.

6. The health maintenance organization has otherwise failed to substantially comply with this Chapter.

(b) A certificate of authority shall be suspended or revoked only after compliance with the requirements of G.S. 57A-19.

(c) When the certificate of authority of a health maintenance organization is suspended, the health maintenance organization shall not, during the period of such suspension, enroll any additional enrollees except newborn children or other newly acquired dependents of existing enrollees, and shall not engage in any advertising or solicitation whatsoever.

(d) When the certificate of authority of a health maintenance organization is revoked, such organization shall proceed, immediately following the effective
date of the order of revocation, to wind up its affairs, and shall conduct no further business except as may be essential to the orderly conclusion of the affairs of such organization. It shall engage in no advertising or solicitation whatsoever. The Commissioner may, by written order, permit such further operation of the organization as he may find to be in the best interest of enrollees, to the end that enrollees will be afforded the greatest practical opportunity to obtain continuing health care coverage.

"§ 57A-17. Rehabilitation, liquidation, or conservation of health maintenance organization.—Any rehabilitation, liquidation or conservation of a health maintenance organization shall be deemed to be the rehabilitation, liquidation, or conservation of an insurance company and shall be conducted under the supervision of the Commissioner pursuant to the law governing the rehabilitation, liquidation, or conservation of insurance companies, except that the provisions of Articles 17B and 17C of Chapter 58 of the General Statutes shall not apply to health maintenance organizations. The Commissioner may apply for an order directing him to rehabilitate, liquidate, or conserve a health maintenance organization upon one or more grounds set out in Article 17A of Chapter 58 of the General Statutes or when in his opinion the continued operation of the health maintenance organization would be hazardous either to the enrollees or to the people of this State.

"§ 57A-18. Regulations.—The Commissioner may, after notice and hearing, promulgate reasonable rules and regulations as are necessary or proper to carry out the provisions of this Chapter. Such rules and regulations shall be subject to review in accordance with G.S. 57A-19.

"§ 57A-19. Administrative procedures.—(a) When the Commissioner has cause to believe that grounds for the denial of an application for a certificate of authority exist, or that grounds for the suspension or revocation of a certificate of authority exist, he shall notify the health maintenance organization in writing specifically stating the grounds for denial, suspension, or revocation and fixing a time of at least 30 days thereafter for a hearing on the matter.

(b) After such hearing, or upon the failure of the health maintenance organization to appear at such hearing, the Commissioner shall take action as is deemed advisable on written findings which shall be mailed to the health maintenance organization. The action of the Commissioner shall be subject to review by the Superior Court of Wake County. The court may, in disposing of the issue before it, modify, affirm, or reverse the order of the Commissioner in whole or in part.

(c) The provisions of Chapter 150A of the General Statutes of this State shall apply to proceedings under this section to the extent that they are not in conflict with subsections (a) and (b).

"§ 57A-20. Fees.—Every health maintenance organization subject to this Chapter shall pay to the Commissioner the following fees:

(1) for filing an application for a certificate of authority or amendment thereto, twenty dollars ($20.00);

(2) for filing each annual report, ten dollars ($10.00).

"§ 57A-21. Penalties and enforcement.—(a) The Commissioner may, in lieu of suspension or revocation of a certificate of authority under G.S. 57A-16, levy an administrative penalty in an amount not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00), if reasonable notice in writing is given of the intent to levy the penalty and the health maintenance
organization has a reasonable time within which to remedy the defect in its operations which gave rise to the penalty citation.

(b) Any person who violates this Chapter shall be guilty of a misdemeanor and on conviction may be punished by a fine not to exceed five hundred dollars ($500.00) or by imprisonment for a period not exceeding two years or both, at the discretion of the court.

(c) (1) If the Commissioner shall for any reason have cause to believe that any violation of this Chapter has occurred or is threatened, the Commissioner may give notice to the health maintenance organization and to the representatives or other persons who appear to be involved in such suspected violation to arrange a conference with the alleged violators or their authorized representatives for the purpose of attempting to ascertain the facts relating to such suspected violation, and, in the event it appears that any violation has occurred or is threatened, to arrive at an adequate and effective means of correcting or preventing such violation.

(2) Proceedings under this subsection shall not be governed by any formal procedural requirements, and may be conducted in such manner as the Commissioner may deem appropriate under the circumstances.

"§ 65-66. Receipts from sale of personal property or services; trust account; penalties.—(a) It shall be deemed contrary to public policy if any person or legal entity receives, holds, controls or manages funds or proceeds received from the sale of, or from a contract to sell, personal property or services which may be used in a cemetery in connection with the burial of or the commemoration of the memory of a deceased human being, where payments for the same are made either outright or on an installment basis prior to the demise of the person or persons so purchasing them or for whom they are so purchased, unless such person or legal entity holds, controls or manages said funds, subject to the limitations and regulations prescribed in this section. This section shall apply to all cemetery companies or other legal entities that offer for sale or sell personal property or services which may be used in a cemetery in connection with the burial of, or the commemoration of the memory of, a deceased human being, but shall exclude persons holding a certificate under G.S. 65-36.1 through G.S. 65-36.8.

(b) Any cemetery company or other entity entering into a contract for the sale of personal property or services, to be used in a cemetery in connection with disposing of, or commemorating the memory of a deceased human being wherein the use of the personal property or the furnishing of services is not immediately requested or required, shall comply with the following requirements and conditions:

(1) The cemetery company or other entity shall deposit an amount equal to sixty percent (60%) of all proceeds received on such contracts into a trust account, either in the form of an account governed by a trust agreement and handled by a corporate trustee or in the form of a passbook savings account, certificates of deposit for time certificates, and/or money-market certificates with a licensed and insured bank or savings institution located in the State of North Carolina until the amount deposited equals sixty percent (60%) of the actual sale price of the property or services sold. Such accounts and/or deposits shall be in the name of the cemetery company or other entity in a form which will permit withdrawals only with the participation and consent of the Cemetery Commission as required by subdivision (4) of this subsection.

(2) All funds received on account of a contract for the sale of such personal property or services, whether the funds be received directly from the purchaser or from the sale or assignment of notes entered into by the purchase or otherwise, shall be deposited into the trust account as required by subdivision (1) of this section.

(3) All deposits required herein shall be made into the trust account so established on or before the last day of the month following receipt of the funds by the cemetery company or other entity.

(4) Withdrawals from a trust account may be made by the depositor, but only with the written approval of the Commission or officer or employee of the Commission authorized to act for the Commission. Withdrawals may be made only upon delivery of the merchandise or services for which the funds were deposited, cancellation of a contract, the presence of excess funds in the trust account, or under other
circumstances deemed appropriate by the Commission. The Commission shall promulgate rules and regulations governing withdrawals from trust accounts, including time and frequency of withdrawals, notice to the Commission prior to withdrawals, the number and identity of persons other than the owner who are authorized by the owner to make withdrawals, the officers and employees of the Commission authorized to approve withdrawals, and any other matters necessary to implement the provisions of this subdivision. Withdrawals will not be allowed if the amount remaining in the trust account would fall below sixty per cent (60%) of all proceeds received on account of contracts for the sale of such personal property or services.

(5) If for any reason a cemetery company or other entity who has entered into a contract for the sale of personal property or services cannot or does not provide the personal property or perform the services called for by the contract after request in writing to do so, the purchaser or his heirs or assigns or duly authorized representative shall be entitled to receive the entire amount paid on the contract and any income if any, earned thereon by the trust account.

(6) Every year after September 1, 1975, the cemetery company, the trustee or other entity shall within 75 days after the end of the calendar year, file a financial report of the trust funds with the Commission, setting forth the principal thereof, the investments and payments made, the income earned and disbursed; provided, however, that the Commission may require the cemetery, trustee, or other entity to make such additional financial reports as it may deem advisable.

(c) Whenever a contract for the sale of personal property and/or services allocates payments to apply to one item at a time under a specific schedule, the contract shall be considered divisible. Title to each item of personal property or the right to each item of services shall pass to the purchaser upon full payment for that item regardless of the remaining balance on other items under the same contract.

(d) Any contract for the sale of personal property and/or services shall state separate costs for each item of personal property, for each act of installation required by the contract, and for each other item of services included in the contract.

(e) All contracts for the sale of personal property and/or services must be printed in type size as required by the Truth in Lending Act, 15 U.S.C. G.S. 1601 et seq., and regulations adopted pursuant to that act.

(f) In the event of prepayment, interest charged shall be no more than the interest earned on the unpaid balance computed on a per cent per month basis for each month or part of a month up to the date of final payment. Any excess interest which has been paid by the purchaser must be refunded to him, his assigns, or his representative within 30 days after the final payment. No penalty or additional charge for prepayment may be required.

(g) In lieu of the deposits required under subsection (b) of this section, the cemetery company or other entity may post with the Commission a good and sufficient performance bond by surety company licensed to do business in North Carolina and in an amount sufficient to cover all payments made directly or indirectly by or on account of purchasers who have not received the purchased
property and services. Money received from the sale or assignment of notes entered into by the purchasers, or otherwise, shall be treated as payments made by the purchasers.

(h) The Commission shall have the power and is required from time to time as it may deem necessary to examine the business of any cemetery company or other entity writing contracts for the sale of the property or services as herein contemplated. The written report of such examination shall be filed in the office of the Commission. Any person or entity being examined shall produce the records of the company needed for such examination.

(i) Any provision of any contract for the sale of the personal property or the performance of services herein contemplated under which the purchaser or beneficiary waives any of the provisions of this section shall be void.

(j) Any cemetery company or other entity, as defined in this section, failing to make contributions required by subsection (b) of this section shall be guilty of a misdemeanor punishable as provided in G.S. 14-3, and each violation of this section shall constitute a separate offense.

(k) Nothing in G.S. 65-66 and subsections thereunder shall apply to persons or legal entities holding licenses or certificates under G.S. 65-36.1 and 65-36.8 when performing services or selling items authorized by said sections.

(l) If any report is not received within the time stipulated by the Commission or herein, the Commission may levy and collect a penalty of twenty-five dollars ($25.00) per day for each day of delinquency.

(m) At any time prior to delivery of personal property or performance of services, a purchaser may cancel his contract by giving written notice to the seller. The seller may cancel the contract, upon default by purchaser, by giving written notice to the purchaser. Within 30 days of notice of cancellation, the cemetery company or other entity shall refund to purchaser the principal amount on deposit in the trust account for his benefit on any undelivered merchandise or services. This amount (no other obligations owed the purchaser by the seller) shall constitute the purchaser’s entire entitlements under the contract. The seller may not terminate the contract without complying with this subsection.”

Sec. 8. G.S. 65-70, as the same appears in the 1977 Supplement to Volume 2C of the North Carolina General Statutes, is hereby rewritten to read as follows:

“§ 65-70. Construction of mausoleums and belowground crypts; trust fund for receipts from sale of preconstruction crypts; compliance requirements.—(a) A cemetery company shall be required to start construction of that section of a mausoleum or bank of belowground crypts in which sales, contracts for sale, reservations for sales or agreements for sales are being made, within 48 months after the date of the first such sale. The construction of such mausoleum section or bank of belowground crypts shall be completed within five years after the date of the first sale made; provided, however, extensions for completion, not to exceed one year, may be granted by the Commission for good reasons shown.

(b) A cemetery company which plans to offer for sale space in a section of a mausoleum or bank of underground crypts prior to its construction shall establish a preconstruction trust account. The trust account shall be administered and operated in the same manner as the merchandise trust account provided for in G.S. 65-66 and shall be exclusive of the merchandise trust account or such other trust accounts or funds that may be required by law.
The personal representative of any purchaser of such space who dies before completion of construction shall be entitled to a refund of all monies paid for such space including any income earned thereon.

(c) Before a sale, contract for sale, reservation for sale or agreement for sale in the first mausoleum section or bank of underground crypts in each cemetery may be made the funds (one hundred twenty percent (120%) of construction cost) to be deposited to the preconstruction trust account shall be computed as to said section or bank of crypts and such trust account payments must be made on or before the last day of the calendar month following receipt by the cemetery company or its agent of each payment. The trust account portion of each such payment shall be computed by dividing the cost of the project plus twenty percent (20%) of said cost, as computed by a licensed contractor, engineer or architect by the number of crypts in the section or bank of crypts to ascertain the cost per unit. The unit cost shall be divided by the contract sales price of each unit to obtain a percentage which shall be multiplied by the amount of each payment. The formula shall be computed as follows:

\[
\text{Cost plus twenty percent (20%) divided by number of crypts} = \text{cost per unit}
\]

\[
\text{Cost per unit divided by contract sales price} = \text{percentage}
\]

\[
\text{Percentage} \times \text{payment received} = \text{deposit required to preconstruction trust account.}
\]

(d) The cemetery company shall be entitled to withdraw the funds from said preconstruction trust account only after the Commission has become satisfied that construction has been completed; provided, however, that during construction of the mausoleum or bank of belowground crypts the Commission may, in its discretion, authorize a specific percentage of the funds to be withdrawn when it appears that at least an equivalent percentage of construction has been completed.

(e) If a mausoleum section or bank of underground crypts is not completed within the time limits set out in this section the corporate trustee, if any, shall contract for and cause said project to be completed and paid therefrom from the trust account funds deposited to the project’s account paying any balance, less cost and expenses, to the cemetery company. In the event there is no corporate trustee, the Commission shall appoint a committee to serve as trustees to contract for and cause said project to be completed and paid therefrom from the trust account funds deposited to the project’s account paying any balance, less cost and expenses, to the cemetery company.

(f) In lieu of the payments outlined hereunder to the preconstruction trust account the cemetery company may deliver to the Commission a good and sufficient completion or performance bond in an amount and by surety companies acceptable to the Commission.”

AN ACT TO PERMIT THE LIMITED OPERATION OF RAFFLES AND BINGO GAMES.

The General Assembly of North Carolina enacts:

Section 1. G.S. 14-292 is rewritten to read as follows:

“§ 14-292. Gambling.—Except as provided in G.S. 14-292.1, any person or organization that operates any game of chance or any person who plays at or bets on any game of chance at which any money, property or other thing of value is bet, whether the same be in stake or not, shall be guilty of a misdemeanor.”

Sec. 2. Chapter 14 of the General Statutes is amended by adding the following new section:

“§ 14-292.1. Bingo and raffles.—(a) It is lawful for an exempt organization to conduct raffles and bingo games in accordance with the provisions of this section. Any person who conducts a raffle or bingo game in violation of any provision of this section shall be guilty of a misdemeanor under G.S. 14-292 and shall be punished in accordance with G.S. 14-3. Upon conviction such person shall not conduct a raffle or bingo game for a period of one year. It is lawful to participate in a raffle or bingo game conducted pursuant to this section. It shall not constitute a violation of State law to advertise a raffle or bingo game conducted in accordance with this section.

(b) For purposes of this section, the term:

(1) 'exempt organization' means an organization that has been in continuous existence in the county of operation of the raffle or bingo
game for at least one year and that is exempt from taxation under Sections 501(c)(3), 501(c)(4), 501(c)(8), 501(c)(10), 501(c)(19), or 501(d) of the Internal Revenue Code or is exempt under similar provisions of North Carolina General Statutes as a bona fide nonprofit charitable, civic, religious, fraternal, patriotic or veterans' organization or as a nonprofit volunteer fire department, or as a nonprofit volunteer rescue squad or a bona fide homeowners' or property owners' association. (If the organization has local branches or chapters, the term 'exempt organization' means the local branch or chapter operating the raffle or bingo game);

(2) 'bingo game' means a specific game of chance played with individual cards having randomly numbered squares ranging from one to seventy-five, in which prizes are awarded on the basis of designated numbers on such cards conforming to a predetermined pattern of numbers selected at random (but shall not include 'instant bingo', which is a game of chance played by the selection of one or more prepacked cards, with winners determined by the appearance of a preselected designation on the card);

(3) 'raffle' means a lottery in which the prize is won by a random drawing of the name or number of one or more persons purchasing chances.

c The exempt organization must prominently display in the specific place or room where the raffle or bingo game is being conducted a determination letter (or a reproduction copy thereof) from the Internal Revenue Service or the North Carolina Department of Revenue that indicates that the organization is an exempt organization.

d The exempt organization may expend proceeds derived from a raffle or bingo game only for prizes, utilities and the purchase of supplies and equipment used in conducting the raffle and in playing bingo, taxes related to raffles and bingo, and the payment of compensation and rent as authorized by subsection (e) of this section. All proceeds remaining after the above authorized expenditures shall inure to the exempt organization to be used for religious, charitable, civic, scientific, testing for public safety, literary, or educational purposes, or for purchasing, constructing, maintaining, operating or using equipment or land or a building or improvements thereto owned by and for the exempt organization and used for civic purposes or made available by the exempt organization for use by the general public from time to time, or to foster amateur sports competition or for the prevention of cruelty to children or animals, provided that no proceeds shall be used or expended for social functions for the members of the exempt organization.

(e) No person may be compensated for conducting a raffle or bingo game. An exempt organization shall not contract with any person for the purpose of conducting a raffle or bingo game except that an exempt organization may lease space for such purpose at a fixed sum and not at a percentage of receipts or proceeds. Such leases shall be at a fixed rate not subject to change during the term of the lease. The provisions of this subsection notwithstanding, an exempt organization may compensate a person for conducting raffles or bingo games conducted at a fair or other exhibition conducted pursuant to Article 45 of Chapter 106 of the General Statutes.

(f) The number of sessions of bingo conducted or sponsored by an exempt organization shall be limited to two sessions per week and such sessions must
not exceed a period of five hours each per county. No more than two sessions of bingo shall be operated or conducted in any one building, hall or structure during any one calendar week; provided, however, that two exempt organizations may operate up to two sessions of bingo each per week in the same building, hall or structure, if the organizations do not use the same equipment and personnel. Four consecutive nights of bingo may not be held on the same premises during any one calendar week. Raffles shall be limited to one per month per county. This subsection shall not apply to raffles or bingo games conducted at a fair or other exhibition conducted pursuant to Article 45 of Chapter 106 of the General Statutes.

(g) The maximum prize in cash or merchandise that may be offered or paid for any one game of bingo is five hundred dollars ($500.00). The maximum aggregate amount of prizes, in cash and/or merchandise, that may be offered or paid at any one session of bingo is one thousand five hundred dollars ($1,500). Provided, however, that if an exempt organization holds only one session of bingo during a calendar week, the maximum aggregate amount of prizes, in cash and/or merchandise, that may be offered or paid at any one session is two thousand five hundred dollars ($2,500). The maximum cash prize that may be offered or paid for any one raffle is five hundred dollars ($500.00).

(h) The operation of raffles or bingo games shall be the direct responsibility of, and controlled by, a special committee selected by the governing body of the exempt organization in the manner provided by the rules of the exempt organization. Upon their selection, the members of the committee shall register with the sheriff of the county in which the raffle or bingo game is to be conducted. The registration shall disclose the identity and address of the members of the committee and the exempt organization.

(i) All funds received in connection with a raffle or bingo game (except funds given as prizes in connection with a particular raffle or bingo game) shall be placed in a separate bank account. No funds may be disbursed from this account except for the purposes authorized by subsection (d) of this section. A separate account shall be kept of all funds received in connection with raffles or bingo games (including the amount of any prize) and the amount and purpose of any disbursement. An audit of the account shall be conducted annually by the special committee for the period July 1 to June 30. A copy of the audit shall be filed on or before September 15 of each year with the sheriff of the county in which the raffle or bingo game is conducted. All books, papers, records and documents relevant to determining whether an organization has acted or is acting in compliance with this section shall be open to inspection by the sheriff or his designee or the district attorney or his designee at reasonable times and during reasonable hours.

(j) A raffle or bingo game conducted otherwise than in accordance with the provisions of this section is ‘gambling’ within the meaning of G.S. 19-1 et seq., and proceedings against such raffle or bingo game may be instituted as provided for in Chapter 19 of the General Statutes.

(k) Any exempt organization operating a bingo game or raffle which is open to persons other than members of the exempt organization, their spouses, and their children shall make such bingo game or raffle open to the general public.

(l) Nothing in this Article except subsection (k) of this section shall apply to bingo games when the only prize given is ten dollars ($10.00) or less or
merchandise that is not redeemable for cash and that has a value of ten dollars ($10.00) or less. G.S. 18A-30(9) and G.S. 18A-35(h) shall apply to such games.”

Sec. 3. G.S. 14-289, as it appears in Volume 1B of the General Statutes, 1969 Replacement, is hereby amended by striking out the word “If” in line one and substituting therefor the words “Except in connection with a lawful raffle as provided in G.S. 14-292.1, if”.

Sec. 7. All general or local laws that permit the operation of raffles or bingo games in counties or towns are repealed.

Sec. 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

CHAPTER 898  
AN ACT TO PROVIDE MORE EFFECTIVE SERVICES TO CHILDREN AND FAMILIES THROUGH STATE AND COUNTY NEW GENERATION INTERAGENCY COMMITTEES.

The General Assembly of North Carolina enacts:

Section 1. Article 9 of G.S. Chapter 143B is amended by adding the following new Part:

§ 143B-422. Declaration of findings and policy.—It is the policy of the State of North Carolina to afford each new generation of children greater opportunities and to burden it with fewer disabilities than the preceding generation had. The General Assembly finds that the family is the most effective institution through which to meet the needs of children; that the family alone can not meet all of the essential needs of each new generation of children, particularly in the areas of health care and education; and that the wide range of programs and agencies serving the needs of children requires that steps be taken to coordinate their efforts. The General Assembly declares, therefore, that it is the policy of the State to promote and encourage programs and practices to support and strengthen families in North Carolina; to give priority to health care programs, especially preventive and ambulatory care services, which are particularly appropriate to children; to encourage every child to acquire the basic skills necessary to achieve a meaningful life; to encourage the establishment of a system of child care accessible to families that need and want the service; and to provide a structure through which child-centered programs may be coordinated for maximum effectiveness.

§ 143B-422.1. New Generation Interagency Committee; creation; membership; structure.—(a) The New Generation Interagency Committee is created. The committee consists of the Governor of North Carolina, the Superintendent of Public Instruction, the Secretary of Human Resources, the Secretary of Cultural Resources, the Associate Dean and Director of the Agricultural Extension Service of North Carolina State University, the Director of the Office of Citizen Affairs, the Director of the Governor's Advocacy Council on Children and Youth, the Director of the State Goals and Policy Board, one member of the North Carolina House of Representatives appointed by the Speaker of the House, and one member of the North Carolina Senate appointed by the President of the Senate. Legislative members are appointed for two-year terms, beginning February 1 of each odd-numbered year.

(b) The Governor is chairperson of the committee. The vice-chairperson is designated by the Governor from among the membership of the committee, after consultation with the members of the committee.

(c) The committee meets regularly at such times and in such places as the Governor deems necessary to accomplish its functions. The Governor may call special meetings at any time and place.
(d) The Governor shall organize the work of the committee, and shall prepare rules of procedure governing the operation of the committee.

(e) No member of the committee shall receive compensation for services on the committee, except that members of the General Assembly shall receive travel and subsistence at the rates set out in G.S. 120-3.1, for services on the committee when the General Assembly is not in session.

"§ 143B-422.2. New Generation Interagency Committee; powers and duties.—The New Generation Interagency Committee shall have the following powers and duties:

(1) to improve communication and coordination among State, regional, and local programs, agencies and activities relating to family and children policy;

(2) to communicate with federal agencies dealing with family and children services and policy, and to work toward a coordinated effort with those agencies;

(3) to identify areas of duplication of services to families and children and to identify ways of eliminating the duplication;

(4) to identify gaps in existing services to families and children and to formulate new programs and changes in existing programs to effectuate the policies set out in this Article;

(5) to receive and review statistics, research findings and recommendations from citizens and professionals, and to develop procedures and guidelines that will improve services to families and children;

(6) to modify policy, programs, procedures and regulations that serve as barriers to the effective delivery of services to families and children;

(7) to perform other duties assigned by the Governor for the purpose of effectuating the policies set out in this Article.

"§ 143B-422.3. County New Generation Interagency Committees authorized; purpose.—Boards of county commissioners may create county New Generation Interagency Committees to coordinate the work of the various existing agencies which offer services in their respective counties to children and their families. Any board of county commissioners may designate an existing interagency council as the New Generation Interagency Committee for that county. County New Generation Interagency Committees shall be committed to raising a literate and healthy new generation of children, and shall bring together all existing resources to help the family and the community ensure good development, health care and education for each child in his early formative years.

"§ 143B-422.4. County New Generation Interagency Committees; membership; organization; procedures.—(a) County New Generation Interagency Committees shall include a representative of the public schools; social services; mental health; developmental evaluation centers; health departments; county, municipal or regional libraries; agricultural extension office; and any other child-serving agencies designated by the board of county commissioners.

(b) The board of county commissioners may designate the county manager or any other person as chairperson of the county committee. Members of the county committee shall elect one of their number as vice-chairperson of the committee.

(c) Each county committee shall adopt its own rules of procedure, and shall meet regularly at such times and places as it deems necessary. Special meetings
of the committee may be called by the chairperson. Each county committee
may create working groups needed to assist the committee. The chairperson

and desirable;

administrative regulation as would serve to facilitate the effective delivery of
services to children and their families;
(8) to continuously educate and inform the general public regarding matters
affecting children and their families;
(9) to perform such other powers, duties, and functions as the board of county
commissioners may prescribe.”

Sec. 2. Schedule. The initial appointments of the legislative members of
the New Generation Interagency Committee shall be made for terms to expire
January 31, 1981; thereafter appointments of these members shall be for terms
of two years.

Sec. 3. Funding. The provisions of this act shall be implemented
without the appropriation of additional funds by the General Assembly.

CHAPTER 903

AN ACT TO ESTABLISH AN ALCOHOL AND DRUG EDUCATION TRAFFIC SCHOOL AND TO STRENGTHEN THE LAWS AGAINST PERSONS WHO OPERATE VEHICLES UNDER THE INFLUENCE OF ALCOHOL AND DRUGS.

The General Assembly of North Carolina enacts:

Section 1. Subsection (b) of G.S. 20-179 is rewritten to read as follows:

"(b) (1) Upon a first conviction only of any offense included in G.S. 20-138 or G.S. 20-139, and subject to the provisions of this subsection (b) the trial judge may issue a limited driving privilege when feasible and if the person convicted requests that he do so. The limited privilege, if issued, shall contain a condition that the person convicted enroll in and successfully complete, within 75 days of the date of the issuance of said limited privilege, the program of instruction at an Alcohol and Drug Education Traffic School approved by the Department of Human Resources pursuant to G.S. 20-179.2. The limited privilege shall contain a provision allowing the person convicted to drive to and from classes required for successful completion of such program of instruction. In addition, the judge may include in the limited privilege conditions allowing the person convicted to drive a motor vehicle for proper purposes directly connected with the health, education and welfare of the person convicted and his family. The judge, in establishing the limited driving privilege, may impose restrictions as to the days, hours, types of vehicles, routes and geographic boundaries and specific purposes for which the limited driving privilege is issued. The trial judge may issue a limited driving privilege that does not contain a condition that the defendant successfully complete the program of instruction at an Alcohol and Drug Education Traffic School if:

a. there is no Alcohol or Drug Education Traffic School within a reasonable distance of the defendant’s residence; or
b. the defendant because of his history of alcohol or drug abuse, is not likely to benefit from the program of instruction; or

c. there are specific, extenuating circumstances which make it likely that the defendant will not benefit from the program of instruction.

The trial judge shall enter such specific findings in the record provided that in the case of subsection b. above such findings shall include the exact reasons why the defendant is not likely to benefit from the program of instruction and that in the case of subsection c. above such findings shall include the specific, extenuating circumstances which make it likely that the defendant will not benefit from the program of instruction.

For the purposes of determining whether the conviction is a first conviction, no prior offense occurring more than 7 years before the date of the current offense shall be considered. In addition, convictions for violations of any provision of G.S. 20-138(a), G.S. 20-138(b), G.S. 20-139(a), or G.S. 20-139(b) shall be considered previous convictions. Convictions prior to the effective date of this act shall be considered for purposes of this subsection.

The limited driving privilege and the restrictions imposed thereon shall be specifically recorded in a written judgment of the court, shall be
signed by the trial judge and shall be affixed with the seal of the court. The written judgment shall be as near as practicable in the format established by G.S. 20-179(b)(2). A notice of the conviction and a copy of the judgment must be transmitted to the Division of Motor Vehicles, along with any operator’s or chauffeur’s license in the possession of the person convicted.

The limited driving privilege is valid for such length of time, not to exceed six months, as shall be set forth in the judgment of the trial judge. A limited privilege that does not contain a condition that the defendant successfully complete the program of instruction at an Alcohol or Drug Education Traffic School is valid for such length of time, not to exceed 12 months, as shall be set forth in the judgment of the trial court. Such permit shall constitute a valid license to operate a motor vehicle upon the streets and highways of this or any other state in accordance with the restrictions noted thereon. The holder of a limited driving privilege is subject to all provisions of this Chapter concerning operator’s or chauffeur’s licenses which are not by their nature inapplicable.

A limited driving privilege issued pursuant to this subsection does not authorize a person to drive while the license of such person is also revoked pursuant to G.S. 20-16.2 for failure to take a chemical test of the blood or breath to determine blood alcoholic content.

(2) The judgment issued by the trial judge as herein permitted shall as near as practical be in the form and contents as follows:

(3) If a person is convicted in another state or county or in a federal court of an offense that is equivalent to one of the provisions of G.S. 20-138(a), G.S. 20-138(b), G.S. 20-139(a) or G.S. 20-139(b), and if the person's North Carolina driver's license is revoked as a result of that conviction, the person so convicted may apply to the presiding or resident judge of the superior court or a district court judge of the district in which he resides for a limited driving privilege. Upon such application the judge may issue a limited driving privilege in the same manner as if he were the trial judge.

(4) A district court judge may modify a limited driving privilege if:
   a. the holder of the limited privilege petitions the court for a modification of the privilege; and
   b. the privilege was issued by a district court judge; and
   c. the privilege was issued in the county in which the district judge is conducting court.

A superior court judge may modify a limited driving privilege if:

(5) Any violation of the conditions or restrictions as set forth in the judgment of the trial court allowing such privileges, other than the failure to successfully complete the prescribed program of instruction at an Alcohol and Drug Education Traffic School, shall constitute the offense of driving while license revoked as set forth in G.S. 20-28(a).
When a person is charged with operating a motor vehicle in violation of the restrictions, the limited driving privilege shall be suspended pending the final disposition of the charge.

Failure to successfully complete an approved program of instruction at an Alcohol and Drug Education Traffic School shall constitute grounds to revoke the limited privilege for the remainder of the time for which such limited privilege was issued. Failure to successfully complete an approved program of instruction at an Alcohol and Drug Education Traffic School shall not constitute the offense of driving while license revoked. For purposes of this subsection, the phrase ‘failure to successfully complete the prescribed program of instruction at an Alcohol and Drug Education Traffic School’ includes failure to attend scheduled classes without a valid excuse, failure to complete the course within 75 days of the issuance of the limited privilege, wilful failure to pay the required fee for the course, or any other manner in which the person fails to complete the course successfully. The instructor of the course to which a person is assigned shall report any failure of a person to successfully complete the program of instruction to the court which issued the limited driving privilege. The court shall revoke the limited privilege. The person possessing the limited privilege may obtain a hearing prior to revocation.

(6) Notwithstanding any other provisions of this section, no person who has wilfully refused to submit to a chemical test upon request of the officer as provided by G.S. 20-16.2 may be granted a limited driving privilege or license while the driving privilege of such person is revoked pursuant to the provisions of G.S. 20-16.2(c) for the wilful refusal of such person to submit to such chemical test.

(7) This subsection is supplemental and in addition to existing law and shall not be construed so as to repeal any existing provision contained in the General Statutes of North Carolina.”

Sec. 2. Subsection (a) of G.S. 20-179, as the same appears in the 1978 Replacement Volume 1C of the General Statutes of North Carolina, is amended by deleting the words and figures “G.S. 20-138” each time the same appear therein and inserting in lieu thereof the words and figures: “G.S. 20-138(a), G.S. 20-138(b)”.

The Department shall oversee the development of a statewide system of schools and shall insure that schools are available in all localities of the State as soon as is practicable.

(1) A fee of one hundred dollars ($100.00) shall be paid by all persons enrolling in an Alcohol and Drug Education Traffic School program established pursuant to this section. The department shall have the authority to approve budgets and contracts with public and private governmental and nongovernmental bodies for the operation of such schools.

(3) All fees retained by the Area Mental Health Authorities from the clerks of court shall be placed in a nonreverting fund. Monies in that fund shall be disbursed for the operation, evaluation and administration of Alcohol and Drug Education Traffic School programs. Any excess funds shall be used to fund other Drug and Alcohol programs.

(4) All fees collected by the Area Mental Health Authorities from the clerks of court may not be used in any manner to match other State funds or to be included in any computation for State formula-funded allocations.

(b) Wilful failure to pay the fee is one ground for a finding that a person given a limited privilege has not successfully completed the course. Wilful failure to pay the fee does not include cases in which the court determines the person is unable to pay."

Sec. 4. Subsection (d) of G.S. 20-19, as the same appears in 1978 Replacement Volume 1C of the General Statutes, is hereby amended: (1) by inserting after the word "drugs" on line 18 thereof a period; (2) by striking the remainder of said subsection (d); and (3) by inserting after said period following the word "drugs" on line 18 thereof the following language: "When a new license is issued pursuant to the provisions of this subsection, it may be issued upon such terms and conditions as the division may see fit to impose, including when feasible the condition that said former licensee successfully complete the program of instruction at an Alcohol and Drug Education Traffic School. “(c1) When a license is revoked under subdivision (2) of G.S. 20-17, and the period of revocation is not determined by the provisions of G.S. 20-19(d) and (e), the period of revocation shall be one year unless the trial judge issues a limited driving privilege to the person convicted that contains a condition that the defendant successfully complete the course of instruction at an Alcohol and Drug Education Traffic School. If the trial judge issues a limited privilege and the person convicted complies with the conditions and restrictions included in the limited privilege, the division must restore the person’s license after six months if the person’s license or limited driving privilege is not otherwise revoked or suspended, and if the division has received a certificate from the Alcohol and Drug Education Traffic School certifying that the person convicted has successfully completed the program of instruction at the Alcohol and Drug Education Traffic School. If the person fails to comply with the conditions and restrictions contained in the limited privilege, the period of revocation is 12 months, beginning at the time the limited privilege is revoked.”

(2) the defendant, because of his history of alcohol or drug abuse, is not likely to benefit from the program of instruction; or
(3) there are specific, extenuating circumstances which make it likely that the defendant will not benefit from the program of instruction.

The trial judge shall enter such specific findings in the record provided that in the case of subdivision (2) above such findings shall include the exact reasons why the defendant is not likely to benefit from the program of instruction and that in the case of subdivision (3) above such findings shall include the specific, extenuating circumstances which make it likely that the defendant will not benefit from the program of instruction.”

The court shall make findings of facts as to the availability and appropriateness of available outpatient treatment before ordering outpatient treatment. If the court has sufficient evidence to order commitment, but lacks sufficient evidence to determine if the commitment should be to an inpatient or outpatient facility, or a combination of both, the court may continue the case for disposition for not more than seven days for the production of evidence to help in determining such disposition. Such continuance may be granted on motion of special counsel, Attorney General representing the State's interest, or on the court's own motion. Treatment at a private facility shall be at the expense of the respondent to the extent that such charges are not disposed of by contract between the area mental health authority and the private facility. Upon receipt of written or oral notice from the Attorney General representing the State's interest, the clerk of the county in which the respondent was committed for outpatient treatment shall issue a custody order, authorizing a law enforcement officer to take the respondent into custody and transport him to the appropriate mental health facility. Before the respondent is transported to a private mental health facility, the director of the facility must agree to the admission.

When the respondent is returned to the appropriate mental health facility, the clerk of superior court in that county shall calendar a supplemental hearing to be held within 10 days of the time the respondent was taken into custody.

A copy of the discharge order shall be furnished by the clerk of superior court of the county of original commitment to the facility from which the respondent is being discharged. If the court finds by clear, cogent, and convincing evidence that the respondent is mentally ill or inebriate, and dangerous to himself or others, or is mentally retarded, and because of an accompanying behavior disorder, is dangerous to others, and in need of continued hospitalization, or, in the alternative, in need of outpatient care, or a combination of both, it may order hospitalization (or outpatient care, as the case may be) for an additional period not in excess of 180 days. (e) Fifteen days before the end of the second commitment period, and annually thereafter, the chief of medical services of the facility shall review and evaluate the condition of each respondent, and if he determines that a respondent is in continued need of hospitalization or, in the alternative, in need of outpatient treatment, or a combination of both, he shall so notify the respondent, his counsel, and the clerk of superior court of the county in which the facility is located. Unless the respondent through his counsel files with the clerk a written waiver of his right to a rehearing, the clerk, on order of a district court judge of the district in which the facility is located, shall calendar a rehearing for not later than the end of the current commitment period. The procedures and standards for the rehearing are the same as for the first rehearing. Any recommitment ordered shall be for only such period of time as continued treatment is deemed necessary by the chief of medical services of the treatment facility, but in no event longer than one year.”

Sec. 18. G.S. 122-58.3(d) is hereby rewritten to read as follows:

“(d) Any affiant who is a qualified physician may execute the oath to the affidavit before any official authorized to administer oaths. He is not required to appear before the clerk or magistrate for this purpose. If a physician executes an affidavit for commitment of a respondent already hospitalized or presented for hospitalization at a mental health facility described in G.S. 122-58.4(c), a second qualified physician, not treating the patient, shall be required to perform the examination required by G.S. 122-58.6.”

Sec. 19. G.S. 122-58.9 is hereby rewritten to read as follows:

“§ 122-58.9. Appeal.—Judgment of the district court is final. Appeal may be had to the Court of Appeals, on the record as in civil cases. Appeal does not stay the commitment, unless so ordered by the Court of Appeals. The Attorney General shall represent the State’s interest on appeal. The district court retains limited jurisdiction for the purpose of hearing all reviews, rehearings, or supplemental hearings allowed or required under this Article.”

“§ 122-58.26. Exception to confidentiality rule, procedure.—Any person seeking information contained in the court files or the court records of the proceedings involving minors made pursuant to an action under this Article may file a written motion in the cause setting out why the information is needed. A district court judge may issue an order to disclose the information sought if he finds such order is appropriate under the circumstances and if he finds that it is in the best interest of the minor or of the public to have such information disclosed.”

Sec. 21. G.S. 122-58.14 is hereby amended by adding a new subsection to read as follows:

“(c) In providing the transportation required by this section, the law enforcement officer or other governmental employee may use reasonable force to restrain the respondent if it appears necessary to protect himself, the respondent, or others. No law enforcement officer or other governmental employee may be held criminally or civilly liable for assault, false imprisonment, or other torts or crimes on account of reasonable measures taken under the authority of this Article.”

Sec. 22. G.S. 122-58.14 is hereby amended by adding a new subsection (d) to read as follows:

“(d) Notwithstanding the provisions of subsection (a) of this section, a clerk, a magistrate, or a district court judge where applicable may authorize the family or immediate friends of the respondent, if they so request, to transport the respondent in accordance with the procedures of this Article. Such authorization shall only be granted in cases where the danger to the public, the family or friends of the respondent, or the respondent himself is not substantial. The family or immediate friends of the respondent shall bear the costs of providing such transportation.”

AN ACT CREATING A COMMITTEE TO EXAMINE THE FACILITY NEEDS OF THE NORTH CAROLINA MUSEUM OF HISTORY, THE NORTH CAROLINA STATE ARCHIVES, AND OTHER STATE HISTORY PROGRAMS AND TO DEVELOP A COMPREHENSIVE PLAN FOR MEETING THOSE NEEDS.

*The General Assembly of North Carolina enacts:*

**Section 1.** Since 1922 the North Carolina Museum of History has collected one of the largest and most significant artifact collections (currently more than 250,000 items) in the nation. The Museum of History does not now have adequate space for the conservation, display, and interpretation of these materials. The North Carolina State Archives does not now have space for the proper housing, preservation, and servicing of the historic public records of the State of North Carolina and the public records of the State’s counties and municipalities.

The conservation, preservation, display and interpretation of artifacts which are meaningful to the people of the State of North Carolina is in the public interest and is vital to the continuing education of the citizens of North Carolina and to the rich heritage of such citizens. The citizens of North Carolina should have full access to the use of and enjoyment of the rich historical collections of artifacts and records.

It is most important that the long-range physical needs of the Museum of History, the State Archives and other State history programs should be examined so that the State of North Carolina may continue to collect, preserve and display the meaningful artifacts of this State and display the same in a mode and manner which will provide for the continued expansion of the historical collection and the preservation of the heritage of the citizens of the State of North Carolina.

**Sec. 2.** There is hereby created a “Committee to Study the Facility Needs of the North Carolina Museum of History, the North Carolina State Archives and Other State History Programs” which shall be composed of eight members to be appointed as follows: (a) two members appointed by the Speaker of the House of Representatives from the membership of the House of Representatives; (b) two members appointed by the Lieutenant Governor from

All appointments shall be made to the committee and the committee shall begin work by July 1, 1979. The chairman and vice-chairman of the committee shall be appointed by the Governor from among the membership of the committee.

Sec. 3. This said committee shall have the duty to make a comprehensive study of the long-range facility needs of the North Carolina Museum of History, the North Carolina State Archives, and other State history programs which should be permanently housed in the Archives and History Building and such adjacent structures as may be needed to insure that the essential archival, artifact collection, interpretation, exhibit, and historical publication programs may remain as physically united as possible. The committee shall review the current space utilization of the Archives and History Building, the current financial resources and staffing of the relevant historical programs of the Division of Archives and History, and shall, in conjunction with the professional staffs of the above programs, develop a comprehensive plan for meeting their physical needs in and adjacent to the Archives and History Building. In its work, the committee shall consult with historical museum and archival professionals and with such designers as may be necessary.

Sec. 4. The said committee, at its discretion, may consider the financial requirements necessary for the implementation of the committee's report on the physical needs of the North Carolina Museum of History, the North Carolina State Archives and other State history programs.

Sec. 5. All administrative and staff assistance shall be provided to the committee by the Department of Cultural Resources.

Sec. 6. There is appropriated to the Department of Cultural Resources for the fiscal year 1979-80 the sum of ten thousand dollars ($10,000) for the use and benefit of the committee.

Sec. 7. Members of the committee shall be reimbursed and compensated as follows:

AN ACT TO AMEND G.S. 143-214.3 SO AS TO REVISE THE WATER QUALITY STANDARDS.

The General Assembly of North Carolina enacts:

Section 1. A new section is added to Chapter 143 of the General Statutes to read as follows:

"§ 143-214.3. Revision to water quality standard.—(a) Any person subject to the provisions of G.S. 143-215.1 may petition the Environmental Management Commission for a hearing pursuant to G.S. 143-215.4 for a revision to water quality standards adopted pursuant to G.S. 143-214.1 as such water quality standards may apply to a specific stream segment into which the petitioner discharges or proposes to discharge.

(b) Upon a finding by the Environmental Management Commission that:

(1) natural background conditions in the stream segment preclude the attainment of the applicable water quality standards; or
(2) irretrievable and uncontrolable man-induced conditions preclude the attainment of the applicable water quality standards; or
(3) application of effluent limitations for existing sources established or proposed pursuant to G.S. 143-215.1 more restrictive than those effluent standards and limitations determined or promulgated by the United States Environmental Protection Agency pursuant to Section 301 of the Federal Water Pollution Control Act in order to achieve and maintain applicable water quality standards would result in adverse social and economic impact, disproportionate to the benefits to the public health, safety or welfare as a result of maintaining the standards; and
(4) there exists no reasonable relationship between the cost to the petitioner of achieving the effluent limitations necessary to comply with applicable water quality standards to the benefits, including the incremental benefits to the receiving waters, to be obtained from the application of the said effluent limitations;

Then the Environmental Management Commission shall revise the standard or standards, as such standard may apply to the petitioner, provided that such revised standards shall be no less stringent than that which can be achieved by the application of the highest level of treatment which will result in benefits, including the incremental benefits to the receiving waters, having a reasonable relationship to the cost to the petitioner to apply such treatment, as determined by the evidence; provided, however, in no event shall these standards be less stringent than the level attainable with the application by the petitioner of those effluent standards and limitations determined or promulgated by the United States Environmental Protection Agency pursuant to Section 301 of the Federal Water Pollution Control Act; provided, further, that no revision shall be granted which would endanger human health or safety."

Sec. 2. There is appropriated from the General Fund to the Department of Natural Resources and Community Development forty-five thousand dollars ($45,000) for the 1979-80 fiscal year and forty-five thousand dollars ($45,000) for the 1980-81 fiscal year, in addition to all other appropriations, for the purpose of carrying out the provisions of this act.

Section 1. G.S. 143-215.107(f) is amended by rewriting the second paragraph of that subsection as follows:

“It is the intent of the General Assembly (1) that the air quality rules, regulations, procedures, plans, practices, air quality standards, and emission control standards adopted by the Environmental Management Commission pursuant to this Article or Article 21, or by any other State or local regulatory body under the General Statutes of North Carolina, shall be no more restrictive and no more stringent than required to comply with federal ambient air quality standards or other applicable federal requirements, if any, adopted in final or proposed regulations by the United States Environmental Protection Agency under or pursuant to the Federal Clean Air Act, and amendments thereto; except (2) that no air quality rules, regulations, procedures, plans, practices, air quality standards or emission control standards shall be adopted by the Environmental Management Commission with respect to matters on which the United States Environmental Protection Agency has not proposed or adopted final regulations unless the Environmental Management Commission first considers, among other things, an assessment of the economic impact of the proposed standards. CHAPTER 932

AN ACT CREATING A MUTUAL BURIAL ASSOCIATION STUDY COMMISSION AND OTHER PURPOSES.

Whereas, there are over 900,000 citizens of North Carolina who belong to approximately 365 mutual burial associations located in all parts of the State; and

Whereas, the membership of these associations has been steadily decreasing since 1951 with a consequent loss in their financial stability; and

Whereas, the average age of members of these mutual burial associations has been steadily increasing over the last 10 years; and

Whereas, under existing law these mutual burial associations can only offer in benefits up to two hundred dollars ($200.00) per member, which is no longer a sufficient sum to provide a burial for a deceased member; and

Whereas, there is a dire need for the above conditions to be corrected by appropriate legislation; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby created the Committee for the Study of Mutual Burial Associations, to be composed of 10 members. Eight members shall be appointed by the Governor, one member shall be appointed by the President of the Senate and one member shall be appointed by the Speaker of the House.

Sec. 2. The Governor shall designate a chairman and vice-chairman of the commission from among the membership of the commission.

Sec. 4. Members of the commission who are members of the General Assembly shall receive subsistence and travel allowance at the rate set forth in G.S. 120-3.1. Members of the commission who are not officials or employees of the State of North Carolina and who are not members of the General Assembly shall receive per diem compensation and travel expenses at the rate set forth in G.S. 138-5. Any members of the commission or officials or employees of the State of North Carolina shall receive travel allowances at the rate set forth in G.S. 138-6.

Sec. 5. The commission shall have authority to employ clerical assistants, actuarial assistants and legal assistants and to purchase necessary supplies and materials.

the State in order to get citizen input as to ways in which mutual burial
associations may be strengthened and better carry out their statutory purposes.

Sec. 8. The committee shall make a written report of its study to the
General Assembly, including recommendations for appropriate legislative
action. The report shall be presented no later than the opening date of the 1981
General Assembly.

CHAPTER 935
AN ACT TO ESTABLISH A UNIFORM SALARY SYSTEM FOR ALL
PUBLIC SCHOOL NONCERTIFIED SUPPORT PERSONNEL.

Whereas, the Legislative Research Commission Subcommittee on Public
School Employees Salary has worked for many months in studying the matter
of an equitable salary system for North Carolina public school employees,
including involvement of the State and local boards of education and their
respective staffs in devising means to insure realistic and effective
implementation of the recommendations contained in the subcommittee's
report; and

Whereas, North Carolina public school employees, have, in the past, been
subject to many inequities because they have been paid according to different
salary schedules; and

Whereas, a uniform salary system, which makes all noncertified public
school employees, subject to the same salary schedule, although not necessarily
the same conditions, as State employees subject to the State Personnel Act, will
minimize present inequities, prevent future unfairness, and promote needed
administrative efficiency; and

Whereas, it is the intent of the General Assembly that the State Board of
Education shall classify all public school support positions within the
framework of uniform pay grades included in the salary schedule of the State
Personnel Commission, without any individual receiving any less in salary than
he or she is currently receiving from State funds, and without any
encroachment on the local unit's prerogative to place specific support employees
on the salary schedule within the appropriate classification; and

Whereas, a uniform salary system can provide a minimum salary amount
to be paid to all noncertified support employees covered by the schedule and a
maximum amount which may be paid from State funds; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. G.S. 115-11 is hereby amended by adding a new subsection at
the end thereof to read as follows:

"(20)a. Support personnel refers to all public school employees who are not
required by statute or regulation to be certified in order to be employed. The
State Board of Education is authorized and empowered to adopt all necessary
rules for full implementation of all schedules to the extent that State funds are
made available for support personnel.

(20)b. Salary schedules for the following public school support personnel shall
be adopted by the State Board of Education: school finance officer, office
support personnel, property and cost clerks, aides, maintenance supervisors,
custodial personnel, and transportation personnel. The Board shall classify
these support positions in terms of uniform pay grades included in the salary
schedule of the State Personnel Commission.

(20)c. Salary schedules for other support personnel, including but not limited
to maintenance and school food service personnel, shall be adopted by the State
Board of Education. The Board shall classify these support positions in terms of
uniform pay grades included in the salary schedule of the State Personnel
Commission. These schedules shall apply if the county or city board of
education does not adopt a salary schedule of its own for personnel paid from
other than State appropriations."

Whereas, it is difficult to recruit and retain foster home resources without the support of an adequate board rate; and
Whereas, the foster care board rate does not adequately meet the cost of caring for a child; and
Whereas, additional State funds are needed to increase the foster care board rate from one hundred twenty-five dollars ($125.00) to one hundred thirty-five dollars ($135.00) per month for fiscal year 1979-1980 and to one hundred thirty-five dollars ($135.00) per month for fiscal year 1980-1981; Now, therefore,

Whereas, with the assistance of the State, federal, and local governments, private foundations, businesses, and citizens of the area, Old Wilkes, Incorporated, has undertaken the restoration of the historic building for the use, education, and enjoyment of the citizens of North Carolina as a reception center, museum, and library; and

Whereas, the Old Wilkes Jail restoration is not complete, although Old Wilkes, Incorporated, has operated the jail since 1973 in cooperation with the Appalachian Regional Library as a Branch Library and a historic jail-museum; and

Whereas, funds are needed to complete the restoration of the Old Wilkes Jail and to provide a handicap ramp for better access to the library and the historic jail-museum; and

Whereas, Old Wilkes, Incorporated, has pledged to raise additional funds to match State funds for the completion of the restoration and handicap ramp and agrees to continue to maintain and operate the restored building without the requests for State funds for those purposes; Now, therefore,

AN ACT TO PROVIDE FOR CONTINUED LEVEL OF SERVICES AT TRYON PALACE.

Whereas, Tryon Palace in New Bern served as the seat of government from 1770 until the outbreak of the American Revolution; and

Whereas, several revolutionary governors of North Carolina including Richard Caswell and Abner Nash conducted their duties from the Palace; and

Whereas, the Tryon Palace Complex including the John Wright Stanly and Stevenson houses and adjacent gardens have received national recognition for their excellence, including the Award of Merit of the American Association for State and Local History and the Judges' Award of the American Association of Nurseriesmen; and

Whereas, the Tryon Palace Complex annually draws nearly 50,000 visitors to North Carolina from every state and several foreign countries including England, France, Germany, and Japan; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is appropriated from the General Fund to the Division of Archives and History, Department of Cultural Resources, the sum of ten thousand dollars ($10,000) for the fiscal year beginning July 1, 1979, and the sum of ten thousand dollars ($10,000) for the fiscal year beginning July 1, 1980, to provide for a high level of service at Tryon Palace.

AN ACT TO AUTHORIZE THE DEPARTMENT OF HUMAN RESOURCES TO ASSUME THE COUNTY SHARE OF THE UNBUDGETED MEDICAID COSTS INCURRED FOR RESIDENTS OF STATE OPERATED INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED.

Whereas, the counties’ share of the Medicaid expenditures incurred for residents of State operated intermediate care facilities for the mentally retarded during fiscal year 1978-79 exceeded the sum budgeted by the counties for this purpose; and

Whereas, it was through no fault on the part of the counties that their fiscal year 1978-79 Medicaid budgets for residents of State operated intermediate care facilities for the mentally retarded were exceeded by actual expenditures but rather was the result of State action amending the reimbursement plan and effectuating cost settlements for prior years as well as State law enacted in 1978 whereby the counties’ share of the nonfederal costs of skilled nursing and intermediate care facilities was increased; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. The Department of Human Resources is hereby authorized to assume the county share of the unbudgeted Medicaid costs incurred for residents of State operated intermediate care facilities for the mentally retarded during fiscal year 1978-79. These unbudgeted county costs for intermediate care facilities for the mentally retarded include the additional expenditures that occurred because of the change in the State’s method of reimbursement that retrospectively allowed reimbursement on the basis of allowable costs, and increased fiscal year 1976-77 and fiscal year 1977-78 cost settlements due to a removal of the forty dollar ($40.00) per day maximum rate of reimbursement. The State assumption of the unbudgeted county costs does not apply to cost settlements for fiscal year 1978-79.

Sec. 2. The Department of Human Resources shall use as the source of funds to implement this act the sum of up to one million four hundred thirty-two thousand twenty-nine dollars ($1,432,029) in over realized receipts from State institutions for fiscal year 1978-79, if available, to assume the unbudgeted county costs.

Sec. 3. This act is effective upon ratification.

Sec. 2. Chapter 126 of the General Statutes is hereby amended by adding a new Article 10 to read as follows:

"Article 10.

"Committee for Review of Applications for Incentive Pay for State Employees.

"§ 126-46. Committee established.—There is hereby created the committee for Review of Applications for Incentive Pay for State Employees, hereinafter referred to as 'the Committee'. The committee shall consist of the Secretary of Administration, who shall act as chairman, the State Auditor, the State Budget Officer, and the State Personnel Director. The Governor, Lieutenant Governor and Speaker of the House of Representatives shall each also appoint one person who has experience in administering incentive as used in industry.

"§ 126-47. Application for incentive awards.—With the exception of units within the General Assembly, the Governor's office, the Lieutenant Governor's office, and the Department of the State Auditor, any unit of State government (i) having an identifiable self-contained budget, or (ii) having its financial records maintained according to an accounting system which identifies to the satisfaction of the State Auditor the expenditures and receipts properly attributable to that unit, may make application to the committee for selection as a candidate for the award of incentive pay to its employees. Such application must be submitted prior to the beginning of any fiscal year and must have the approval of the head of the State department within which the unit is located.

Applications shall be in the format specified by the committee and shall contain such information as it may require, including but not limited to those evaluation components developed by the applying unit which will provide quantitative measures of program output and performance.

The committee shall evaluate the applications submitted; and from those proposals which are considered to be reasonable and practical, and which are found to include developed performance indicators which lend themselves to a judgment of success or failure, the committee shall select the units to participate in the incentive pay program for the fiscal year.

"§ 126-48. Qualifications.—(a) To qualify for the award of incentive pay to its employees, a unit selected must demonstrate to the satisfaction of the committee that it has operated during the fiscal year:

(1) at less cost than the immediately preceding fiscal year, and either with an increase in the level of services rendered or with no decrease in the level of services rendered; or

1285
CHAPTER 945  Session Laws—1979

(2) at no greater cost than the immediately preceding fiscal year and with an increase in the level of services rendered.

(b) The committee shall satisfy itself that the claimed cost of operation is real and not merely apparent, and that it is not, in whole or in part, the result of:

(1) chance;
(2) a lowering of the quality of the service rendered;
(3) reduced pass-through or transfer expenditures;
(4) receipts realized in excess of amounts budgeted;
(5) nonrecurrence of expenditures which were single outlay, or one-time expenditures, in the preceding fiscal year;
(6) failure to reward deserving employees through promotions, reclassification, award of merit salary increments, or salary increases authorized by salary range revisions;
(7) postponement of normal purchases and/or repairs to a future fiscal year;
(8) stockpiling inventories in the immediately preceding fiscal year so as to reduce requirements in the eligible fiscal year;
(9) substitution of federal funds, other receipts, or non-State funds for State appropriations;
(10) unreasonable postponement of payments of accounts payable until the fiscal year immediately following the eligible fiscal year;
(11) shifting of expenses to another unit of government;
(12) any other practice, event, or device which the committee decides has caused a distortion which makes it falsely appear that a savings or increase in level of services has occurred.

(c) Conversely, the committee shall consider as legitimate savings those reductions in expenditures made possible by such items as the following:

(1) reductions in overtime;
(2) elimination of consultant fees;
(3) less temporary help;
(4) elimination of budgeted positions;
(5) improved methods of communication;
(6) improved systems and procedures;
(7) better deployment and utilization of manpower;
(8) elimination of unnecessary travel;
(9) elimination of unnecessary printing and mailing;
(10) elimination of unnecessary payments for advertising, memberships, dues, subscriptions, etc.;
(11) elimination of waste, duplication, and operations of doubtful value;
(12) improved space utilization;
(13) any other items considered by the committee as representing true savings.

“§ 126-49. Awards.—At the conclusion of the eligible fiscal year, the committee shall compare the expenditures for that year of each unit selected against the expenditures of that unit for the immediately preceding fiscal year and, after making such adjustments as in its judgment are required to eliminate distortions, shall determine the amount, if any, that the unit has reduced its cost of operations or increased its level of services in the eligible fiscal year. Adjustments to eliminate distortions may include any legislative increases in employee compensation and inflationary increases in the cost of services,
materials and supplies. If the committee shall also determine that in its judgment a unit qualifies for award, it shall award and is hereby authorized to award, with the approval of the Advisory Budget Committee, to the employees of that unit a sum not in excess of twenty-five percent (25%) of the amount determined to be the savings to the State for the level of services rendered. The amount awarded shall be divided and distributed in equal shares to the employees of the unit, except that employees who worked for that unit less than the full 12 months of the fiscal year shall receive only a pro rata share based on the fraction of the year worked for that unit. Funds for this incentive pay shall be drawn from the unit’s principal department’s ending balance for the eligible fiscal year.

“§126-50. Annual report.—The Secretary of Administration shall cause to be prepared and submitted to the General Assembly a comprehensive annual status report on the committee’s activities, decisions, awards, and recommendations with respect to the employee incentive pay program.”

Whereas, a judgment was finally entered for murder in the second degree on November 17, 1976, following his third trial for said offense; and

Whereas, a certified copy of the judgment from the Supreme Court entered on July 5, 1977, reversed the order of the trial court which entered the judgment of conviction of murder in the second degree on the basis of insufficient evidence; and

S. B. 915  CHAPTER 962

AN ACT TO APPROPRIATE FUNDS TO PROMOTE PRODUCTION OF THE OUTDOOR DRAMA “FROM THIS DAY FORWARD”.

Whereas, the Waldenses of Italy were persecuted during the Middle Ages because of their religious convictions which were in conflict with the established church; and

Whereas, the Waldenses fled into the small valleys of the rugged Cottian Alps between Italy and France to escape persecution; and

Whereas, Charles Albert, King of Sardinia, granted religious freedom to the Waldenses on February 17, 1848, thereby suspending persecution and restraint; and

Whereas, the Waldenses outgrew the small valleys which they inhabited and cultivated; and

Whereas, in 1893, a group of Waldenses purchased 15,000 acres of land in the foothills of the Blue Ridge Mountains of North Carolina; and

Whereas, the Waldenses have been a significant part of our North Carolina history and its people; and

Whereas, the outdoor drama “From This Day Forward” which is produced by the Old Colony Players, tells the story of these settlers in Valdese, North Carolina, who sacrificed for principle and who struggled to overcome poverty; and

Whereas, the drama “From This Day Forward” is entering its tenth season, attracting tourists from other states and nations; and

Whereas, the producers of this drama need financial assistance from the State in order to continue production of same; Now, therefore,

The General Assembly of North Carolina enacts:

1296
Section 1. There is hereby appropriated from the General Fund to Old Colony Players, producers of the outdoor drama "From This Day Forward", the sum of five thousand dollars ($5,000) for the fiscal year 1979-80 and five thousand dollars ($5,000) for the fiscal year 1980-81. In addition, the Governor and Council of State, in the event additional State aid is reasonably necessary for the production of said drama, are authorized and empowered to allot a sum not exceeding five thousand dollars ($5,000) a year from the Contingency and Emergency Fund to aid in the production of said drama, such allotment, however, to be made only upon evidence submitted to the Governor and Council of State by the producers of said outdoor drama that during the immediately preceding season of production, because of inclement weather or other circumstances of factors beyond the control of the producers, said outdoor drama was operated at a deficit.

Sec. 2. This act shall become effective July 1, 1979.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

S. B. 717 CHAPTER 964

AN ACT TO REVISE THE PLANT PROTECTION AND CONSERVATION LAWS.

Whereas, the many different species of native plants found within the borders of North Carolina add to the beauty, interest and cultural variety of the State and also add significantly to the quality of life of our citizens and many visitors; and

Whereas, significant changes in conservation practices, population pressures, recreational activities, public attitudes and botanical knowledge over the past three decades are not reflected in laws originally designed to help preserve the rare, beautiful, or botanically unique elements of our native plant heritage; and

Whereas, current native plant protection laws are inflexible in protecting certain plants no longer in need of protection, and inadequate in failing to provide for more realistic protection of those plants that require additional protection for survival; and

Whereas, the laws are not adequate to prevent the further dangerous reduction in numbers, and possible extinction of certain rare, ecologically restricted, unusual, or botanically unique plants; Now, therefore,
The General Assembly of North Carolina enacts:

Section 1. A new Article is added to Chapter 106 of the General Statutes to read:

"Article 20.

"§ 106-202.1. Definitions.—As used in this Article, unless the context requires otherwise:

(a) ‘Board’ means the North Carolina Plant Conservation Board as provided in this Article.

(b) ‘Commissioner’ means the Commissioner of Agriculture.

(c) ‘Conservation’ and ‘conservation’ mean to use, and the use of, all methods and procedures for the purposes of increasing the number of individuals of resident species, of plants up to adequate levels to assure their continuity in their ecosystems. These methods and procedures include all activities associated with scientific resource conservation such as research, census, law enforcement, habitat protection, acquisition and maintenance, propagation, and transplantation into unoccupied parts of historic range. With respect to endangered and threatened species, the terms mean to use, and the use of, methods and procedures to bring any endangered or threatened species to the point at which the measures provided for the species are no longer necessary.

(d) ‘Endangered species’ means any species or higher taxon of plant whose continued existence as a viable component of the State’s flora is determined to be in jeopardy by the Board; also, any species of plant determined to be an ‘endangered species’ pursuant to the Endangered Species Act.

(f) ‘Exotic species’ means a species or higher taxon of plant not native or naturalized in North Carolina but appearing in the Federal Endangered and Threatened Species list or in the appendices to the International Treaty on Endangered and Threatened Species.

(g) ‘Plant’ means any member of the plant kingdom, including seeds, roots and other parts or their propagules.

(h) ‘Protected plant’ means a species or higher taxon of plant adopted by the Board to protect, conserve, and/or enhance the plant species and includes those the Board has designated as endangered, threatened, or of special concern.

“§ 106-202.2. Declaration of policy.—The General Assembly finds that the recreational needs of the people, the interests of science, and the economy of the State require that threatened and endangered species of plants and species of plants of special concern be protected and conserved, that their numbers should
be enhanced and that propagative techniques be developed for them; however, nothing in this Article shall be construed to limit the rights of a property owner, without his consent, in the management of his lands for agriculture, forestry, development or any other lawful purpose.

§ 106-202.5. Criteria and procedures for placing plants on protected plant lists.—(a) All native or resident plants which are on the current federal lists of endangered or threatened plants pursuant to the Endangered Species Act have the same status on the North Carolina Protected Plants lists.

(b) The Board, the Scientific Committee, or any resident of North Carolina may propose to the Department of Agriculture that a plant be added to or removed from a protected plant list.
(c) If the Board, with the advice of the Scientific Committee, finds that there is any substance to the proposal, it shall publish notice of the proposal in a Department of Agriculture news release.

Sec. 2. General Statutes Chapter 14 is amended by adding a new section to read as follows:

"§ 14-284.2. Sec. 4. G.S. 143-215.77(6), as it is written in Section 4 of Chapter 535 of the 1979 Session Laws, is amended by rewriting the first sentence of said paragraph (6), up to the proviso, to read as follows:

"(6) 'Hazardous substance' shall mean any substance, other than oil, designated by regulation of the Commission upon a finding that the discharge of the substance in any minimum prescribed quantity into or upon the waters of

CHAPTER 983
AN ACT TO ADOPT CERTAIN PRINCIPLES RELATING TO PROGRAMS FOR THE AGING.

Whereas, as of 1979, there are over 800,000 persons 60 years old or older in North Carolina, and this segment of our population constitutes over fourteen percent (14%) of our total population and is increasing at a rate three times faster than the State's population as a whole; and

Whereas, the group 75 years old and older is the fastest growing segment of our population; and

Whereas, sixty-three percent (63%) of these older citizens have an annual income of less than three thousand dollars ($3,000) and as the costs of health care, housing and other necessities steadily rise they suffer the most from inflation because of fixed incomes and longer life spans; and

Whereas, services to older adults are fragmented and many older people who need help do not know where to find them; and

Whereas, older adults are one of our State's untapped resources and these individuals who have contributed so much to building our State are relegated to isolation with retirement and are victimized by economic and social forces beyond their control; Now, therefore;

The General Assembly of North Carolina enacts:

Section 1. Article 3, Chapter 143B of the General Statutes, is hereby amended by adding a new Part following Part 14 to be designated Part 14A to read as follows:

"Part 14A.

"Policy Act for the Aging.

"§ 143B-181.3. Statement of principles.—To utilize effectively the resources of our State, to provide a better quality of life for our senior citizens, and to assure older adults the right of choosing where and how they want to live, the following principles are hereby endorsed:

1) Older people should be able to live as normal a life as possible.

2) Older adults should have a choice of life styles which will allow them to remain contributing members of society for as long as possible.

3) Preventive and primary health care are necessary to keep older adults active and contributing members of society.

4) Appropriate training in gerontology and geriatrics should be developed for individuals serving older adults.

5) Transportation to meet daily needs and to make accessible a broad range of services should be provided so that older persons may realize their full potential.

6) Services for older adults should be coordinated so that all their needs can be served efficiently and effectively.

7) Information on all services for older citizens and advocacy for these services should be available in each county.
(8) Increased employment opportunities for older adults should be made available.

(9) Options in housing should be made available.

(10) Planning for programs for older citizens should always be done in consultation with them.

(11) The State should aid older people to help themselves and should encourage families in caring for their older members.

"§ 143B-181.4. Responsibility for policy.—Responsibility for developing policy to carry out the purpose of this act is vested in the Secretary of the Department of Human Resources as provided in G.S. 143B-181.1 who may assign responsibility to the Assistant Secretary for Aging. The Assistant Secretary for Aging shall, at the request of the secretary, be the bridge between the federal and local level and shall review policies that affect the well being of older people with the goal of providing a balance in State programs to meet the social welfare and health needs of the total population. Responsibilities may include: (a) serving as chief advocate for older adults; (b) developing the State plan which will aid in the coordination of all programs for older people; (c) providing information and research to identify gaps in existing services; (d) promoting the development and expansion of services; (e) evaluation of programs; (f) bringing together the public and private sectors to provide services for older people."

Sec. 2. Severability. If any provision of this act or the application thereof is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application and to this end the provisions of this act are declared to be severable.

Sec. 3. No appropriations are required. This program and the provisions of this act shall be implemented to the extent appropriations are provided by the General Assembly but nothing herein contained shall be construed to obligate the General Assembly to appropriate additional funds.

Sec. 4. This act is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

Whereas, injuries have been significantly reduced through the part-time assignment of a teacher or other qualified employee to exercise preventive measures against injury and to provide sports medicine and emergency paramedical services for injuries that do occur; and

Whereas, Resolution 73 of the 1977 Session Laws recommends first aid and life saving instructional services be made available to public school students; and

CHAPTER 995

AN ACT TO APPROPRIATE FUNDS FOR THE EXTERIOR RESTORATION OF THE OLD DAVIDSON COUNTY COURTHOUSE.

Whereas, the old Davidson County Courthouse is one of North Carolina's grandest antebellum courthouses; and

Whereas, the heroic Classical Revival style of this monumental building makes it one of the more important examples of the style in North Carolina and the South as a whole; and

Whereas, in 1858, shortly after it was constructed, the Davidson County Courthouse was labelled "the finest in the State . . ." and it was further stated in the same Greensboro Patriot article that "in point of magnificence there is nothing in the State to compare, except the Capitol at Raleigh"; and

Whereas, since the new courthouse was constructed in 1959, the upper floor of the old courthouse has been leased by the county to the Davidson County Historical Society for use as a historical museum for the education and enjoyment of all citizens; and

Whereas, the interior of the courthouse has been restored and rehabilitated for the historical museum as well as a number of county offices; and

CHAPTER 996

AN ACT TO CREATE THE NORTH CAROLINA ARTHRITIS PROGRAM AND COMMITTEE.

Whereas, the U. S. Public Health Service has indicated that 500,000 persons in North Carolina suffer from arthritis; and

Whereas, the annual cost of arthritis in North Carolina from lost wages and medical bills approaches three hundred twenty-five million dollars ($325,000,000); and

Whereas, although a cure for arthritis is not yet known, many of the effects of this disease can be controlled through public and professional education, early detection, adequate treatment, and lifetime monitoring to those persons found with this disease; and
Whereas, there is a critical shortage of properly trained health professionals and allied health professionals in North Carolina for arthritis prevention, treatment, care and rehabilitation programs; Now, therefore, The General Assembly of North Carolina enacts:

Section 1. Chapter 143B of the General Statutes of North Carolina is hereby amended by adding to Article 3 a new Part 16 to read as follows:

AN ACT TO AUTHORIZE THE LEGISLATIVE RESEARCH COMMISSION TO STUDY ALTERNATIVE WORK.

Whereas, current State employees would benefit from alternative work schedules through better utilization of working hours, reduced tardiness, absenteeism, and fatigue, and improved morale; and

Whereas, North Carolina citizens who cannot work full-time schedules are an untapped, valuable human resource; and

Whereas, many labor economists predict that alternative work schedules will have a desirable impact on unemployment, underemployment, and labor market participation rates of women, the handicapped, and senior citizens; and

Whereas, improved productivity is viewed as a by-product of alternative work schedules; and

Whereas, alternative work schedules allow greater flexibility in shifting personnel to meet fluctuating work loads; and

Whereas, alternative work schedules create a greater ability to recruit more mature and reliable employees whose specialized skills may be unavailable for full-time positions; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. The Legislative Research Commission is authorized to study alternative work schedules for State employees and make appropriate recommendations. The recommendations may include proposals for additional benefits for permanent part-time State employees, and increase in the number of permanent part-time State employees in certain classifications, examination of overlapping State personnel positions, and alternative work schedules such as job sharing, a compressed work week, and flex time. “Permanent part-time employment” means a work schedule of at least two days per week or at least fifty percent (50%) and not more than seventy-five percent (75%) of an agency’s full-time work schedule. “Job sharing” means the division of the work schedule of a full-time position into two work schedules for two individuals. A “compressed work week” means a four-day work week of forty hours. “Flex time” means a staggered work schedule based on the concentration of work or the supervisor’s decision.

Whereas, in the summer of 1973 the site of the USS Monitor was located near Cape Hatteras off the coast of North Carolina in one of the most sophisticated underwater search operations undertaken to that time; and

Whereas, since the earliest attempts to locate the Monitor until the present time North Carolina has played a prominent role in all major research undertaken at the site and all other activities to protect the Monitor for the future enjoyment of North Carolinians and all Americans including the nomination of the site to become the nation’s first Marine Sanctuary in 1974; and

Whereas, North Carolina currently plays a prominent role in the management and development of the site of the Monitor under the terms of an agreement with the federal government; and

Whereas, as a part of this management role North Carolina must develop a preservation laboratory capable of analyzing and preserving artifacts which will be brought from the Monitor site during the summer of 1979; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is appropriated from the General Fund to the Department of Cultural Resources for each of the fiscal years 1979-80 and 1980-81, the sum of thirty thousand four hundred dollars ($30,400) for the purpose of continuing the State’s involvement in research at the site of the USS Monitor.

Whereas, funds are available to supplement the operating expense funds of the center; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is appropriated from the General Fund to the Steven’s Center for the Performing Arts in Winston-Salem seventeen thousand five hundred dollars ($17,500) for the fiscal year 1979-80 and seventeen thousand

Whereas, the Wanchese Harbor Seafood Industrial Park project is nearing the completion of construction; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated to the Department of Commerce the sum of twenty-five thousand dollars ($25,000) for fiscal year 1979-80, from the General Fund as a nonreverting reserve to partially underwrite the initial operational development and promotional costs of the Wanchese Harbor Seafood Industrial Park.

H. B. 1122  CHAPTER 1003
AN ACT TO APPROPRIATE FUNDS FOR PRELIMINARY STEPS TO ESTABLISH A MOUNTAIN EXPERIENCE CENTER.

Whereas, the mountains of North Carolina are a major natural and economic resource of the State and nation, and attract great numbers of visitors each year from both within and without the State; and

Whereas, much of the mountain land is in private ownership, but a considerable amount is owned by various agencies of the United States and of the State of North Carolina, including the National Park Service, the United States Forest Service, the Tennessee Valley Authority, the North Carolina Parks and Parkway Development Commission; and

Whereas, there has long been great need among federal and State land management agencies to have a joint facility in Western North Carolina to greet the visiting public and to provide a unified means of informing visitors of available facilities and attractions and their status of usage; and to coordinate with this service information as to privately owned tourist facilities; and

Whereas, there is a need for a comprehensive educational center to inform visitors as to the history and culture of the mountains, native water and water-based life, soils, forests and plants, wildlife, weather, and similar matters, so as to develop a better appreciation of Western North Carolina's culture, environment, economy, and ecology, and to demonstrate means of enjoying and managing these resources without depleting or destroying them; and

Whereas, in the period from May to October, 1982, the project "Energy Expo '82" is scheduled to be held in Knoxville, Tennessee, and is expected to attract 13 million or more visitors to the mountains, many of whom can be expected to visit the Great Smoky Mountains National Park and other areas in

1338
Western North Carolina along Interstate Highways 40 and 26, along the Blue Ridge Parkway, and along smaller routes as well; and

Whereas, the United States Government has tentative plans for substantial development of a visitor and educational center in the Western North Carolina area, and it is important that State and local governments and private persons and organizations participate to make the center of maximum value to all concerned; and

Whereas, the development of such a center can occur only if proper planning precedes actual construction; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is appropriated from the General Fund to the Department of Administration the sum of one hundred twenty-five thousand dollars ($125,000) for fiscal year 1979-80 as a reserve to be made available as needed to be used to fund studies, planning, and preliminary work as required to establish, in cooperation with the federal government and private persons and organizations, a Mountain Experience Center in Western North Carolina. The Department of Administration shall not release the funds appropriated under this act until a written agreement is signed by the appropriate federal agency or agencies which provides that federal funds in the amount of five hundred thousand dollars ($500,000) are available and have been committed to this project; provided, if federal funds are pledged in a lesser amount, the Department of Administration is authorized to release an amount equal to twenty-five percent (25%) of the federal funds pledged by the written agreement. Funds remaining in the reserve at the end of fiscal year 1979-80 shall not revert but shall be retained by the Department of Administration until federal funds are appropriated and made available for the development of the Mountain Experience Center.

Whereas, the Mount Pleasant Collegiate Institute Building is located at Mount Pleasant, North Carolina, is readily accessible to the populations of Cabarrus, Rowan, Union, Stanly, and Mecklenburg Counties, is eight miles from Reed’s Gold Mine, and is approximately 18 miles from the developing Railroad Site at Spencer, North Carolina; and

The General Assembly of North Carolina enacts:

Whereas, believing that inflation is the most serious problem facing the people of the United States, and the primary cause of inflation is unchecked federal spending; and

Whereas, the State of North Carolina is required by its Constitution to have a balanced budget, and has long operated on a sound fiscal basis which the federal government would be well-served to emulate; and

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

RESOLUTION 8

A JOINT RESOLUTION TO ESTABLISH THE PROCEDURE FOR NOMINATING AND ELECTING MEMBERS OF THE BOARD OF GOVERNORS OF THE UNIVERSITY OF NORTH CAROLINA.

Whereas, the General Assembly is charged with the responsibility for electing members of the Board of Governors of The University of North Carolina; and

Whereas, it is incumbent upon both the Senate and the House of Representatives to have uniform methods and procedures for electing members of the Board of Governors of The University of North Carolina;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

1399
Resolutions—1979

Section 1. There are hereby adopted procedures for nominating and electing members of the Board of Governors of The University of North Carolina as follows:

I. COMMITTEE RESPONSIBILITIES.

1. It is the duty of the University Board of Governors Nominating Committee in the House of Representatives to choose at least two candidates for each opening in each category of seats on the Board of Governors of The University of North Carolina to which the House of Representatives is to elect members. It is the duty of the University Board of Governors Committee in the Senate to choose at least two candidates for each opening in each category of seats on the Board of Governors of The University of North Carolina to which the Senate is to elect members. The committees shall act separately for the purpose of carrying out these duties.

2. The Senate shall vote only upon those persons chosen as candidates for nomination in the eight-year at-large category by the University Board of Governors Committee in the Senate, or proposed as candidates from the floor of the joint session of the Senate and House of Representatives, and the House of Representatives shall vote only upon those persons chosen as candidates for nomination in the eight-year at-large category by the University Board of Governors Nominating Committee in the House of Representatives, or proposed as candidates from the floor of the joint session of the Senate and House of Representatives.

3. The University Board of Governors Committee in the Senate and the University Board of Governors Nominating Committee in the House of Representatives shall receive suggestions of persons to be considered for election to the University Board of Governors until February 23, 1979. In order for a person to have standing to be considered as a candidate for nomination by the committee, that person must be formally proposed as a candidate for nomination by a member of the committee.

4. After February 23, 1979, the committees shall meet separately and receive from members of the committees formal proposals of candidates for nomination. A committee member may propose candidates only for the categories available for election by the house of which he is a member.

5. The committees shall screen the proposed candidates for nomination as to their qualifications and background, and may interview each one to make sure that suitable candidates for election are nominated for each category and that each is willing and able to serve and has no statutory disabilities.

6. There is no limit on the number of persons a Senator or a Representative may propose as candidates. When the proposing process is closed, the committees shall separately list all proposed candidates by category and shall separately vote “aye” or “no” on each proposed candidate to determine whether that person shall be chosen as a candidate for nomination and listed on the ballot. A vote of a majority of those members of the committee present and voting shall constitute one a candidate for nomination. An individual cannot be a candidate for nomination in more than one category.

7. Committee candidates shall be placed before and recommended to a joint session of the House of Representatives and Senate.

II. JOINT SESSION - SELECTION OF NOMINEES.

1. The Senate and House of Representatives shall meet in joint session at 1:00 p.m. on March 28, 1979, for the purpose of nominating persons for election
to the Board of Governors of The University of North Carolina. In the joint session of the Senate and House of Representatives, committee nominations shall be made first and then the floor shall be opened for the nomination by any Senator or Representative of persons for election to the Board of Governors. Nominees shall be grouped into the following categories, as required by G.S. 116-6:

(1) Women nominees for eight-year term
(2) Minority race nominees for eight-year term
(3) Minority party nominees for eight-year term
(4) At-large nominees for eight-year term, Senate
(5) At-large nominees for eight-year term, House of Representatives
(6) At-large nominees for six-year term
(7) Minority race nominees for two-year term.

2. In proposing a nominee, the nominator shall state the category for which the nominee is being proposed. An individual cannot be proposed in more than one category.

3. There is no limit on the number of persons one Senator or Representative may propose as nominees and no limit on the categories for which he may propose in the joint session.

4. Names shall continue to be received until the number of nominees is at least twice the number of places to be filled in each category, that is, there shall be a minimum of two women, two Republicans, two racial minority members, six at-large nominees for an eight-year term (Senate), and four at-large nominees for an eight-year term (House of Representatives); a minimum of two at-large nominees for a six-year term; and a minimum of two racial minority nominees for a two-year term.

5. No vote shall be taken on the nominees in the joint session. When the names of all candidates for nomination have been received, the joint session shall be dissolved.

6. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the University Board of Governors Committee in the Senate shall contact all nominees and ascertain whether they would serve if elected. Any nominee may withdraw his name without the approval of the person who proposed his name. If withdrawals reduce the number of nominees below twice the number of places to be filled in any category, another joint session of the Senate and House shall be held to receive sufficient additional nominations in that category.

III. ELECTIONS IN THE SENATE.

1. A ballot shall be prepared under the supervision of the Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the University Board of Governors Committee in the Senate for the use of the Senate.

2. The ballot shall list only those nominees proposed by the University Board of Governors Committee in the Senate who have consented to run and all those nominees proposed from the floor in the joint session who have consented to run and for whom the Senate is entitled to vote. Their names shall be arranged (a) by length of term, (b) by category, and (c) within each category, alphabetically by surname.
3. The Senate shall hold its election at the beginning of the daily session on March 29, 1979. Before the voting begins, the President of the Senate shall explain the voting rules, which are:

(i) No nominations will be received from the floor.
(ii) In order to be chosen, a nominee must receive the votes of a majority of all members present and voting for his category.
(iii) When a nominee for a category containing a single position is to be chosen and no candidate receives a majority of the votes cast for all the candidates in that category, a runoff shall be conducted between the person receiving the highest and the person receiving the second highest number of votes cast.
(iv) When fewer than three nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, a runoff to fill the open position or positions shall be conducted among the nominees receiving the highest number of votes cast, and the number of nominees eligible to be voted on in the runoff shall be twice the number of positions to be filled.

(For the purpose of illustration, if after the first ballot is taken, no nominee receives a majority, then the top six vote-getters will be in the runoff, because there must be twice the number of persons in the runoff that there are positions to be filled and the Senate has three positions to fill. If one person receives the votes of a majority of all members present and voting for that category, then he is elected and a runoff will be held among the four next highest vote-getters. This is so because there are two positions remaining to be filled and there must be twice the number of nominees in the runoff that there are positions available, therefore four. If two people receive the votes of a majority of the members present and voting, both will be elected and a runoff will be held between the two next highest vote-getters because only one position remains to be filled.)
(v) If there is a tie for the last position between two nominees who are eligible for the next runoff, both nominees will be included in the next runoff balloting, even though there would thereby be more than two nominees per available position on the Board of Governors.

4. The Senators shall proceed to mark their ballots for the following:
One person in the minority party category for an eight-year term,
Three persons in the at-large category for eight-year terms,
No person in the women's category for an eight-year term,
No person in the minority race category for an eight-year term, and
One person in the minority race category for a two-year term.

5. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the University Board of Governors Committee in the Senate shall be responsible for canvassing the vote and declaring the results thereof. The number of votes received by each candidate shall not be released.

6. When the Chairman of the University Board of Governors Committee in the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives have determined that the Senate has chosen one member of the Board of Governors who is a Republican for a term of eight years, three members of the Board of Governors
Resolutions—1979

from the at-large category for a term of eight years, and one member of the Board of Governors from the minority race category for a term of two years, the Chairman of the University Board of Governors Committee in the Senate shall make a motion for the simultaneous election of those five persons by the Senate to the indicated positions and for the indicated terms. The roll of the Senate shall then be called electronically. If a majority of those voting shall vote “aye” the persons whose names appear on the list shall be declared to have been elected.

7. The results of the election in the Senate shall then be sent by Special Messenger to the House of Representatives.

IV. ELECTIONS IN THE HOUSE OF REPRESENTATIVES.

1. A ballot shall be prepared under the supervision of the Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the University Board of Governors Committee in the Senate for the use of the House of Representatives.

2. The ballot shall list only those nominees proposed by the University Board of Governors Nominating Committee in the House of Representatives who have consented to run and all those nominees proposed from the floor in the joint session who have consented to run and for whom the House is entitled to vote. Their names shall be arranged (a) by length of term, (b) by category, and (c) within each category, alphabetically by surname.

3. The House of Representatives shall hold its election immediately after being notified by Special Messenger that the Senate has completed its election. Before the voting begins, the Speaker of the House of Representatives shall explain the voting rules, which are:

(i) No nominations will be received from the floor.
(ii) In order to be chosen, a nominee must receive the votes of a majority of all members present and voting for his category.
(iii) When a nominee for a category containing a single position is to be chosen and no candidate receives a majority of the votes cast for all the candidates in that category, a runoff shall be conducted between the person receiving the highest and the person receiving the second highest number of votes cast.
(iv) When fewer than two nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, a runoff to fill the open position or positions shall be conducted among the nominees receiving the highest number of votes cast, and the number of nominees eligible to be voted on in the runoff shall be twice the number of positions to be filled.

(For the purpose of illustration, if after the first ballot is taken, no nominee receives a majority, then the top four vote-getters will be in the runoff, because there must be twice the number of persons in the runoff that there are positions to be filled and the House has two positions to fill. If one person receives the votes of a majority of all members present and voting in that category, then he is elected and a runoff will be held between the two next highest vote-getters. This is so because there is one position remaining to be filled and there must be twice the number of nominees in the runoff that there are positions available, therefore two.)

1403
(v) If there is a tie for the last position between two nominees who are eligible for the next runoff, both nominees will be included in the next runoff balloting, even though there would thereby be more than two nominees per available position on the Board of Governors.

4. The members of the House of Representatives shall proceed to mark their ballots for the following:
   One person in the women's category for an eight-year term,
   One person in the minority race category for an eight-year term,
   Two persons in the at-large category for eight-year terms,
   No person in the minority party category for an eight-year term,
   One person in the at-large category for a six-year term.

5. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the University Board of Governors Committee in the Senate shall be responsible for canvassing the vote and declaring the results thereof. The number of votes received by each candidate shall not be released.

6. When the Chairman of the University Board of Governors Committee in the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives have determined that the House of Representatives has chosen one member of the Board of Governors who is a woman for a term of eight years, one member of the Board of Governors who is a member of a minority race for a term of eight years, two members of the Board of Governors from the at-large category for a term of eight years, and one member of the Board of Governors from the at-large category for a term of six years, the Chairman of the University Board of Governors Nominating Committee in the House of Representatives shall make a motion for the simultaneous election of those five persons by the House of Representatives to the indicated positions and for the indicated terms. The roll of the House shall then be called electronically. If a majority of those voting shall vote "aye", the persons whose names appear on the list shall be declared to have been elected.

7. The results of the election in the House of Representatives shall then be sent by Special Messenger to the Senate.

V. NOTIFICATION OF ELECTION RESULTS.

1. When the election process is complete, the Chairman of the University Board of Governors Committee in the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives shall notify the Secretary of the Board of Governors of The University of North Carolina of the names of the persons elected by the General Assembly and the category for which and term for which each of them was elected.

S. R. 146  RESOLUTION 9
A JOINT RESOLUTION MEMORIALIZING CONGRESS TO MERGE THE MEDICARE AND MEDICAID PAYMENT SYSTEMS.

Whereas, Congress created the Medicare program as a federal system of providing for the health care of our older citizens; and
Whereas, Congress later created the Medicaid program as a joint federal and state system of providing for the health care of our citizens in need; and
Whereas, having two separate systems leads to duplication, confusion, and administrative inefficiency; and
Whereas, the General Assembly would like a health care program where the maximum amount is spent on services;
Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The Congress is urged to merge the payment system of the Medicare Program (Title XVIII of the Social Security Act) with the payment system of the Medicaid Program (Title XIX of the Social Security Act), so as to better facilitate coordination, cooperation, and better administrative and legislative control.

Sec. 2. The Congress is urged to provide a mechanism for the merger of the payment system in the individual states in advance of the implementation of Section 1 nationwide, when requested by the individual state legislatures. This resolution shall constitute such a request.

Sec. 3. Copies of this resolution shall be sent to each member of the North Carolina Congressional Delegation, to the Clerk of the United States House of Representatives, to the Secretary of the United States Senate, and to the Secretary of the Department of Health, Education, and Welfare.

A JOINT RESOLUTION URGING THE FOOD AND DRUG ADMINISTRATION AND THE NATIONAL CANCER INSTITUTE TO PROCEED WITH SCIENTIFIC TESTING OF LAETRILE ON TERMINALLY ILL HUMANS.

Whereas, an estimated 8,800 North Carolinians will die from various forms of cancer in 1979; and
Whereas, over 55 million Americans now living will eventually have cancer; and
Whereas, a controversy now rages over the safety and efficacy of a preparation commonly known as laetrile, pitting one group of scientists, medical doctors and concerned individuals against another; and

Whereas, it is recommended that laetrile be scientifically tested on terminally ill cancer patients who voluntarily submit to such procedures; and
Whereas, such testing has not yet begun;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the United States Food and Drug Administration and the National Cancer Institute are urged to do everything possible to proceed with scientific testing of laetrile on terminally ill humans, subject to their informed consent.

Sec. 2. That the Secretary of State be instructed to deliver copies of this resolution to the Secretary of Health, Education and Welfare, the Commissioner of the United States Food and Drug Administration, the Surgeon General, and the Director of the National Cancer Institute.

H. R. 248 RESOLUTION 11
A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF JAMES T. CLELAND.

Whereas, James T. Cleland was born in Glasgow, Scotland, July 8, 1903, and died November 14, 1978, at Durham, North Carolina.

He had a distinguished career as a teacher and lecturer at a number of the great universities and seminaries in the United States and abroad, including 14 years at Amherst College and over 30 years at Duke University, where he came in 1945 and where he was named James B. Duke Professor in 1954 — a position which he held until his death.

He served as Dean of the Chapel, Duke University, from 1955 to 1973; and he was the author of a great many published articles and sermons, and four books — The True and Lively Word, 1954; Wherefore Art Thou Come, 1961; Preaching to be Understood, 1965; and He Died as He Lived, 1966; and

Whereas, in his life James T. Cleland displayed in full measure those characteristics which describe the truly great: His love for and enjoyment of the human race made him a cheerful companion to persons of all types and ages and circumstances. His cupboard of stories was never bare, and he lavished his great gifts as a master raconteur upon those about him, to their endless delight. As a soccer coach he taught the joys and values to be derived from athletic discipline for the fun of it, and in this role as in all others he emphasized the pursuit of excellence for its own sake. As a counselor he guided students, especially at Duke University, through their most difficult spiritual and moral crises. As a preacher he was the instrument through which the love of God was manifested as a living, almost visible, substance, bringing comfort, strength, peace and joy to many thousands of students and others. His was a radiant life that illumined and enriched all who knew him;

RESOLUTION 13
A JOINT RESOLUTION ENDORSING IN-HOME SERVICES TO THE AGED AS A VIALBE AND NEEDED ALTERNATIVE TO INSTITUTIONAL CARE AND REQUESTING THE DEPARTMENT OF HUMAN RESOURCES TO WORK WITH COUNTY GOVERNMENTS TO INSURE THAT A COMPREHENSIVE, EFFICIENT SYSTEM OF IN-HOME CARE IS AVAILABLE THROUGHOUT THE STATE.

Whereas, the General Assembly in Resolution 107, 1977 Session (Second Session, 1978) requested the Department of Human Resources to study coordination of homemaker-home health and similar services into a homemaker-home health aide program, and report to the Legislative Research Commission; and
Whereas, the Legislative Research Commission has received the report of the Task Force of the Department of Human Resources in response to the resolution; and
Whereas, the Task Force on Homemaker-Home Health Aide Services has determined that in-home services to the elderly form a cost-effective alternative to long-term institutional care for many elderly citizens; and

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The Director of the Budget is requested to transfer any available appropriate funds, appropriated to the Department of Public Education for the fiscal year 1978-79, to local public school units for the purpose of paying substitute teachers a maximum salary of thirty dollars ($30.00) per day, except that the daily rate of pay for non-qualified personnel employed as teacher substitutes shall remain at twenty dollars ($20.00). RESOLUTION 17
A JOINT RESOLUTION COMMEMORATING THE 203RD ANNIVERSARY OF THE HALIFAX RESOLVES.

Whereas, April 12, 1979, is the 203rd anniversary of the occasion on which the Fourth North Carolina Provincial Congress adopted the famous Halifax Resolves; and
Whereas, the Halifax Resolves authorized the North Carolina delegates to the Continental Congress at Philadelphia to concur with the delegates of other colonies in a declaration of independence from the British Empire; and
Whereas, the members of the Fourth Provincial Congress were already determined on the course of independence and knew other colonies were likewise so determined; and
Whereas, the said members forbore to take unilaterally an action which they conceived ought to be taken by all thirteen colonies in unison; and
Whereas, by such forbearance they set the example for American unity in defense of American liberty; and
Whereas, such examples led ultimately to the winning of American independence and to the establishment of the oldest surviving constitutional republic in the world; and
Whereas, the examples set at Halifax on April 12, 1776, ought ever to be an inspiration and model for all North Carolinians and Americans; and
Whereas, April 12 of every year has been designated as Halifax Day; and

RESOLUTION 18

A JOINT RESOLUTION MEMORIALIZING CONGRESS TO REQUEST THE GERMAN FEDERAL REPUBLIC TO EXTEND THE STATUTE OF LIMITATIONS ON NAZI WAR CRIMINALS.

Whereas, it is reprehensible policy that would assume that the moral obligation for the mass murder of over 11,000,000 innocent victims of the "Holocaust" can be eliminated by the passage of time; and

Whereas, the statute of limitations of the German Federal Republic relating to Nazi war criminals is scheduled to expire on December 31, 1979; and

Whereas, if such statute of limitations does expire, no investigation of murder, including genocide, committed by Nazi war criminals can be initiated after that date; and

Whereas, if such statute of limitations does expire, thousands of Nazi war criminals who were actively involved in the calculated and brutal mass murder of millions of innocent victims will be rewarded for having evaded justice; and

Whereas, crimes of lesser horror than mass murder and genocide are subject to no statute of limitations either in North Carolina or in numerous other jurisdictions; and

Whereas, it is in the interest of all free people that new generations not be allowed to forget the dangers and consequences of the crime of genocide; and

Whereas, an international campaign to convince the German Federal Republic to eliminate or extend the current statute of limitations has been initiated by a broad base of concerned organizations and individuals;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The Congress and the President should urge the German Federal Republic to abolish or extend the statute of limitations relating to Nazi War Criminals.

H. R. 893  RESOLUTION 20
A JOINT RESOLUTION ON ALCOHOL AND DRUG ABUSE AND
DECRIMINALIZATION OF PUBLIC DRUNKENNESS.

Whereas, the 1978 Session of the 1977 General Assembly enacted a law to
decriminalize public drunkenness; and
Whereas, this law shifts the responsibility for short-term care and
detoxification from the county jails or State mental hospitals to the
communities; and
Whereas, short-term care and detoxification should be available in local
communities rather than State psychiatric hospitals; and
Whereas, this law establishes the need for longer term residential
programs for the chronic population; and
Whereas, the approach mandated by the law decriminalizing public
drunkenness will serve to use community resources more effectively; and
Whereas, a study should be made concerning the extent of alcohol and
drug abuse; and
Whereas, an evaluation is needed concerning the effectiveness of the
publicly funded responses to this abuse; and
Whereas, a report relating alcohol and drug expenditures to services is
needed;

Now, therefore, be it resolved by the House of Representatives, the Senate
concurring:

Section 1. That the Mental Health Study Commission of North
Carolina make alcohol and drug abuse and the implementation of
decriminalization of public drunkenness a major priority and be it
recommended that a subcommittee of the Mental Health Study Commission be
appointed to review these issues listed above.

Sec. 2. It is further resolved that this subcommittee on alcohol and drug
abuse examine the policies and the service delivery system of private and public
programs, including but not limited to those administered by the Commission
on Mental Health and Mental Retardation of the Department of Human
Resources and from such studies recommend ways and means to enhance
programs of education, prevention, intervention and rehabilitation.

Sec. 3. It is further recommended that due to the increasing number and
complexity of issues before the Mental Health Study Commission that the
President of the Senate, the Speaker of the House and the Governor each have
one additional appointment to the Mental Health Study Commission including
a member of the Senate, a member of the House of Representatives and one to
represent the public at-large.

Sec. 4. That the final report of the full Commission’s findings and
recommendations be submitted to the General Assembly and the Governor not
later than January 1, 1981.

RESOLUTION 21
A JOINT RESOLUTION DEDICATING PROPERTIES AS PART OF THE STATE NATURE AND HISTORIC PRESERVE.

Whereas, Article XIV, Section 5 of the North Carolina Constitution authorizes the dedication of State and local government properties as part of the State Nature and Historic Preserve, upon acceptance by resolution adopted by a vote of three fifths of the members of each house of the General Assembly; and

Whereas, the North Carolina General Assembly enacted the State Nature and Historic Preserve Dedication Act, Chapter 443, 1973 Session Laws to prescribe the conditions and procedures under which properties may be specially dedicated for the purposes enumerated by Article XIV, Section 5 of the North Carolina Constitution; and

Whereas, the 1973 General Assembly sought to declare units of the State park system and certain historic sites as parts of the State Nature and Historic Preserve by adoption of Resolution 84 of the 1973 Session of the General Assembly; and

Whereas, the effective date of 1973 Session Laws, Resolution 84 was May 10, 1973, while the effective date of Article XIV, Section 5, of the North Carolina Constitution and Chapter 443 of the 1973 Session Laws was July 1, 1973, thereby making Resolution 84 ineffective to confer the intended designation to the properties cited therein; and

Whereas, the General Assembly desires to reaffirm its intention to accept certain properties enumerated in Resolution 84 of the 1973 General Assembly and to add certain properties acquired since the adoption of said Resolution as part of the State Nature and Historic Preserve; and

Whereas, the Council of State pursuant to G.S. 143-260.6 et seq. has petitioned the General Assembly to adopt a resolution pursuant to Article XIV, Section 5 of the North Carolina Constitution accepting the following properties owned by the State of North Carolina for inclusion in the State Nature and Historic Preserve; and

Whereas, these properties have been acquired and are being utilized for the public purposes set forth in Article XIV, Section 5 of the North Carolina Constitution;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

H. R. 995 RESOLUTION 24
A JOINT RESOLUTION REGARDING REIMBURSEMENT OF THE STATES BY THE FEDERAL GOVERNMENT.

Whereas, the federal government of the United States, by actions of both the Legislative branch and the Executive branch, requires the states to implement new programs and provide increased levels of service under existing programs; and

Whereas, in order to implement new programs and provide increased levels of service as required by the federal government, the states must incur significant costs which must be paid for out of State revenues, existing or to be raised by the imposition of additional taxes; and

Whereas, there exists, throughout the United States, a growing resentment of the heavy burden of taxation and an active rejection of existing and proposed levels and methods of revenue raising; and

Whereas, the public outcry against taxation makes it increasingly difficult for the states to raise the revenues necessary to finance the programs and services which the states are required to provide by the federal government; and

Whereas, it is a matter of simple equity that a level of government which establishes programs or services in the public interest should provide the means for financing those programs and services;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly of the State of North Carolina respectfully memorializes the President and the Congress of the United States to undertake such actions as may be necessary to ensure that the federal government reimburses each state for all costs incurred with respect to implementing new programs or providing increased levels of service under existing programs pursuant to any law enacted by the United States Congress after September 30, 1979, or any executive order or regulation issued by the President of the United States after September 30, 1979.

Sec. 2. Copies of this resolution shall be sent to the President and Vice-President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from North Carolina in the Congress of the United States.

Whereas, the Criminal Code Commission had originally planned to finalize its consideration of criminal procedure and a complete review of the substantive criminal law of North Carolina in time for submission to the General Assembly in its 1975 Session but found the time too limited for completion of its task for consideration by the 1975 Session of the General Assembly; and

Whereas, the Criminal Code Commission prepared legislation for the consideration by the 1977 Session of the General Assembly dealing with trial and appellate procedure, which legislation was considered and enacted; and

Whereas, the magnitude of the tasks set before the Commission and the importance of its work dictate that the Commission be extended through the 1981 Session of the General Assembly;

RESOLUTION 36

A JOINT RESOLUTION PERTAINING TO THE DISPOSAL OF NUCLEAR WASTE IN NORTH CAROLINA.

Whereas, after investigation, it appears to the North Carolina General Assembly that there may be potential danger associated with the permanent storage and disposal of nuclear waste within the boundaries of North Carolina; and

Whereas, after investigation, it appears that the responsible agencies of the federal government have not developed a final policy or plan for permanent storage of nuclear waste, but that such federal agencies may be considering disposal sites in the various states, including the State of North Carolina; and
Whereas, after investigation, it appears to the North Carolina General Assembly that it would not be in the best interest of the people of North Carolina for large amounts of nuclear waste to be permanently stored within the State of North Carolina;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the responsible agencies of the United States Government take the necessary steps promptly to develop acceptable plans for the permanent storage or disposal of nuclear waste.

Sec. 2. That the State of North Carolina should be expected to accept for permanent storage or disposal only nuclear waste produced in the generation of electric power for use in North Carolina. Nuclear waste is defined as that radioactive waste material generated within reactor fuel elements in conjunction with the production of electricity and decommissioned and dismantled nuclear generating plants and facilities. All other radioactive materials are excluded.

S. R. 794  RESOLUTION 37

A JOINT RESOLUTION DESIGNATING THE WEEK BEGINNING MAY 28, 1979, AS "VIETNAM VETERANS' AWARENESS WEEK".

Whereas, members of the Armed Forces of the United States who served in Southeast Asia during the Vietnam Conflict performed that service under the most trying conditions because of the lack of domestic support for the conflict and because of the nature of the conflict itself; and

Whereas, the battlefield performance of America's soldiers, sailors, marines and airmen during the Vietnam Conflict was by all measures the equal of that of their counterparts in previous conflicts; and

Whereas, an adverse image has often been unfairly attached to the Vietnam veteran as an individual because of the controversial nature of the Vietnam Conflict; and

Whereas, the State of North Carolina has never fully expressed its gratitude to those who gave a substantial portion of their lives at their government's request and in the name of the people of the United States to serve in the Vietnam Conflict;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The seven-day period beginning May 28, 1979, is designated as "Vietnam Veterans' Awareness Week" in North Carolina.

Sec. 2. The General Assembly requests that the Governor designate an appropriate official to organize appropriate ceremonies and activities to celebrate "Vietnam Veterans' Awareness Week" and to encourage local

A JOINT RESOLUTION CALLING FOR A REVIEW OF THE DECISION TO RESTRICT AMTRAK SERVICE IN NORTH CAROLINA AND TO STUDY THE NEED FOR PASSENGER TRAINS IN THE SOUTHEASTERN PART OF THE UNITED STATES.

Whereas, the United States Secretary of Transportation has decided that on October 1, 1979, three Amtrak trains running through North Carolina, the Crescent, the Silver Meteor and the Champion, will be discontinued for reasons of economy; and

Whereas, the cost of oil has risen dramatically since the decision was made and the cost of oil is still rising; and

THE MENTALLY RETARDED CITIZENS AND TO MAKE
RECOMMENDATIONS TO THE GOVERNOR AND THE GENERAL
ASSEMBLY.

Whereas, there are an estimated 40,000 moderately, severely and profoundly retarded citizens in the State of North Carolina; and
Whereas, approximately 7,000 are currently served in institutional and community programs; and
Whereas, substantially handicapped citizens need specialized services to meet a variety of daily living and training needs; and

RESOLUTION 41
A JOINT RESOLUTION DIRECTING THE SECRETARY OF CRIME CONTROL AND PUBLIC SAFETY AND THE SECRETARY OF TRANSPORTATION TO CREATE A TASK FORCE TO PREPARE A LOGICAL REWRITE OF CHAPTER 20 OF THE NORTH CAROLINA GENERAL STATUTES FOR SUBMISSION TO THE 1981 GENERAL ASSEMBLY.

Whereas, the number of people operating motor vehicles has greatly increased; and

Whereas, the motor vehicle law has been amended in a piecemeal fashion over the years; and
Whereas, the motor vehicle law needs recodification and clarification;
Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

RESOLUTION 42
A JOINT RESOLUTION EXPRESSING SUPPORT FOR THE APPAREL AND TEXTILE INDUSTRIES IN NORTH CAROLINA.

Whereas, the apparel, textile and fiber industries in the United States account for twelve and one-half percent (12.5%) of the total value of manufactured goods in this Nation, and afford 2,370,300 jobs; and
Whereas, in North Carolina, the apparel, textile, and fiber industries account for forty-six percent (46%) of the total value of manufactured goods, and provide 343,000 jobs in this State; and
Whereas, the textile industry is the largest manufacturing employer in North Carolina, and the apparel industry is the second largest manufacturing employer and is the largest customer of the textile industry in North Carolina; and
Whereas, in the last 20 years textile and apparel imports have grown at an alarming rate and have displaced a significant portion of the domestic capacity; and this situation has led to development of a textile/apparel program as a part of multilateral trade negotiations — a program aimed at assisting the beleaguered domestic American textile and apparel industries to grow and maintain their economic health;
Now, therefore, be it resolved by the Senate, the House of Representatives concurring:
Section 1. The General Assembly recognizes the importance of sound textile and apparel industries to the economy and people of the State of North Carolina, and expresses its deep concern for the potential injury to the State and its people if those industries do not survive and grow.

Sec. 2. The General Assembly calls upon representatives of the apparel, textile and fiber industries, trade associations, employee groups, State and federal agencies and officers concerned with international trade negotiations, and all other persons who can contribute to the sound condition of the apparel, textile and fiber industries in North Carolina and in other parts of the United States to work toward the full implementation of all aspects of the textile/apparel program which resulted from the multilateral trade negotiations held in Tokyo.

In the General Assembly read three times and ratified, this the 30th day of May, 1979.

H. R. 1435

RESOLUTION 43

A JOINT RESOLUTION TO DIRECT THE WILDLIFE RESOURCES COMMISSION TO STUDY THE FEASIBILITY OF ESTABLISHING HUNTER EDUCATION PROGRAMS AND OF REQUIRING PERSONS ENGAGED IN THE HUNTING OF BIG GAME ANIMALS TO DISPLAY ON THEIR PERSON A MINIMUM AMOUNT OF COLOR KNOWN AS "HUNTER ORANGE".

Whereas, the record of firearm and hunting accidents conclusively demonstrates that persons wearing fluorescent orange while hunting and having earned a competency certificate are significantly less likely to become involved in a firearm or hunting accident; and

Whereas, the United States Congress is considering expansion of the federal financial assistance program to the states for firearm safety and hunter education programs funded through an excise tax on arms, ammunition, archery equipment, hand guns, and reloading components; and

Whereas, it is the intent of the North Carolina General Assembly that the shooting sports and hunting activities engaged in by over one-half million of the citizens of this State be made as safe as possible through exposure of as many of these participants as possible to an accredited firearm safety and hunter education course and to the safety value of wearing fluorescent orange while hunting;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the General Assembly directs the Wildlife Resources Commission to make a comprehensive study of firearm safety and hunter education training and the wearing of fluorescent orange while hunting, in consultation with as many knowledgeable and informed sources as possible.

Sec. 2. That the Wildlife Resources Commission shall report its findings and recommendations to the House and Senate Wildlife Committees of the 1981 Session of the General Assembly including in that report an analysis of the following areas of concern:

(1) the most effective means of presenting a course on firearm safety and hunter education to insure the widest exposure possible to those participating in

1433
the shooting sports and hunting activities, with special attention to the question of whether or not the course should be mandatory and if so what exemptions and exclusions might be appropriate;

(2) the organization, content, and method of delivery of the training and the record keeping system to be employed in order to provide the most meaningful, beneficial, and cost-effective program of firearm safety and hunter education possible that will be readily available to those who need or want the course, with particular attention being given to the effective date for initial implementation of any mandatory training requirements that may be recommended and the preparation that will be necessary to insure that adequate notice and information can be disseminated to those affected by any such provision to allow adequate time and opportunity for taking any course that may be required;

(3) the level of funding that will be required to implement any expanded or mandatory program of firearm safety and hunter education that may be recommended and appropriate sources of such funds;

(4) the most appropriate, acceptable, and effective means of insuring that hunters are made aware of the protection afforded by the wearing of fluorescent orange while hunting, with special attention to the question of whether or not the wearing of this color while hunting should be mandatory and if so what hunting activities and situations should be included in or excluded from such a requirement and what penalties should be assessed for violations of such a requirement; and

(5) if the mandatory wearing of fluorescent orange is not recommended, a comparative analysis of the alternatives to that course of action with an evaluation of the most effective means of implementing each alternative.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 31st day of May, 1979.

H. R. 769  RESOLUTION 44

A JOINT RESOLUTION PETITIONING THE CONGRESS OF THE UNITED STATES TO TAKE STEPS, CONSISTENT WITH FIRST AMENDMENT RIGHTS, TO DISCOURAGE THE SHOWING OF MOTION PICTURE AND TELEVISION FILMS DEPICTING EXCESSIVE CRIME, VIOLENCE AND IMMORALITY.

Whereas, incidences of crime and violence in America have been increasing at an alarming rate for several decades, and continue to increase, with the result that in many parts of America people are no longer able to walk the streets in reasonable safety and peace; and

Whereas, the increase in crime, violence, and immorality among the young people of America is especially distressing, and threatens the very survival of America as a land where people can strive for self-fulfillment in a climate of peace, order, and mutual respect; and

Whereas, motion pictures and especially television programs exert an increasingly strong effect upon attitudes and actions of our children; and

Whereas, increasingly motion pictures and television programs not only depict crime, violence and immorality in their grossest and most brutal forms, but also sometimes tend to justify and glorify them, with the result that the
sensitivities of young people are blunted, and respect for human personality and
dignity and for human life itself is declining; and
Whereas, the Congress of the United States has been vigilant and effective
in protecting our physical environment against pollution by irresponsible
persons, while at the same time respecting property rights; and
Whereas, a clean environment wherein the mind and spirit may develop is
of greater importance than a clean physical environment; and
Whereas, we believe that it is possible to protect the higher values of
human existence without destroying the great principles of human freedom;
Now, therefore, be it resolved by the House of Representatives, the Senate
concurring:

Section 1. The General Assembly of North Carolina respectfully
petitions the Congress of the United States to devote its best legal and
philosophical resources to the task of producing legislation which will protect
our society, especially our young people, against the destructive effects of
motion pictures and television programs which depict, justify, or glorify
excessive crime, violence, or immorality, but which will at the same time
respect and protect the great human rights which are guaranteed by the First
Amendment to the Constitution of the United States.

Sec. 2. The Secretary of State is directed to deliver a certified copy of
this resolution to the President of the United States, the President of the
United States Senate, the Speaker of the United States House of
Representatives, and to all members of the North Carolina delegation in the
Congress of the United States.

Sec. 3. This resolution is effective upon ratification.
In the General Assembly read three times and ratified, this the 1st day of
June, 1979.

H. R. 298

RESOLUTION 45

A JOINT RESOLUTION DESIGNATING THE SECOND WEEK IN
FEBRUARY AS BLACK HISTORY WEEK.

Whereas, North Carolina’s black cultural experience is an integral part of
the State’s history and heritage; and
Whereas, African ideals, inspiration and talent have survived to this day
and represent a valuable contribution to the physical and cultural development
of the State; and
Whereas, the viability of the State’s antebellum economy rested in large
measure on the labor and craftsmanship of the black population; and
Whereas, many North Carolina blacks fought for the young country’s
independence from Britain; and
Whereas, North Carolina blacks were actively involved in the movement
to destroy the institution of slavery in America; and
Whereas, North Carolina blacks gave their lives for both the Blue and the
Gray in the Civil War; and
Whereas, black leadership was instrumental in guiding the State’s black
population to full citizenship following the Civil War; and
Whereas, black North Carolinians have given their lives in five armed
conflicts since the Civil War in defense of this country; and
Resolutions—1979

Whereas, black North Carolinians have proved their abilities as statesmen through their services as members in the North Carolina House of Representatives continuously from 1867 through 1899 and in the North Carolina Senate from 1868 continuously through 1898, and again from 1969 in the House and from 1975 in the Senate through the present; and

Whereas, the contributions of black North Carolinians have benefited and enriched the lives of all North Carolinians;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the General Assembly hereby designates the second week in February of every year as Black History Week in North Carolina.

Sec. 2. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 1st day of June, 1979.

H. R. 1274 RESOLUTION 46
A JOINT RESOLUTION DIRECTING THE CRIMINAL CODE COMMISSION TO STUDY THE INSANITY DEFENSE.

Whereas, the insanity defense has aroused increasing interest in the past two decades; and

Whereas, many respected legal theorists and practicing attorneys are asking whether the insanity defense should be substantially changed or completely abolished; and

Whereas, under the present law a person could be found not guilty by reason of insanity, but not be detained in a mental institution under current commitment statutes; and

Whereas, public opinion is often stirred when a person found not guilty by reason of insanity is released from custody soon after his trial; and

Whereas, no comprehensive study focusing on the insanity defense in North Carolina has been done in the past two decades;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Criminal Code Commission is directed to study the insanity defense to determine if amendment or abolition of that defense is needed.

Sec. 2. The Criminal Code Commission shall report its findings to the General Assembly, including any recommended legislation, no later than the first day of the 1981 Session of the General Assembly.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 1st day of June, 1979.
H. R. 1353  RESOLUTION 47

A JOINT RESOLUTION TO URGE THE INTERNATIONAL WHALING COMMISSION TO ADOPT THE TEN-YEAR MORATORIUM ON THE NEEDLESS SLAUGHTER OF WHALES.

Whereas, 11 nations continue to ignore the 10-year whaling moratorium unanimously recommended by the United Nations Conference on the Human Environment; and

Whereas, this year more than 24,000 intelligent warm-blooded whales will be killed, needlessly, by explosive harpoons from the whaling vessels of these nations; and

Whereas, by far, the largest whaling operations are carried out by Japan and the Soviet Union whose floating factory ships, complete with helicopters and accompanied by sonar-equipped catcher boats, methodically hunt, chase and slaughter more than seventy-five percent (75%) of the whales killed worldwide; and

Whereas, in addition, smaller but equally deadly and unnecessary whaling operations are tolerated by the governments of Denmark, Norway, Iceland, Peru, Chile, South Korea, Spain, Taiwan and Cyprus; and

Whereas, whale killing has already caused the commercial extinction of the Blue, Humpback, Bowhead, Gray and Right whales and is seriously threatening other species as well; and

Whereas, unless we halt the needless slaughter immediately, we will, within a few years, succeed in killing off these magnificent creatures which took millions of years to evolve;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The President of the United States is hereby requested to have the moratorium issue placed on the agenda of the July, 1979, meeting in London of the International Whaling Commission.

Sec. 2. The Congress of the United States is hereby requested to urge the International Whaling Commission to take immediate steps to halt the needless slaughtering of the world’s great whales by adoption of the 10-year moratorium unanimously recommended by the United Nations Environment Conference.

Sec. 3. That copies of this resolution be sent to the Clerk of the United States House of Representatives, the Secretary of the United States Senate, to each member of the North Carolina Congressional Delegation and to the President of the United States.

Sec. 4. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 5th day of June, 1979.
H. R. 1443  RESOLUTION 48
A JOINT RESOLUTION DECLARING THAT THE POLICY OF THE STATE OF NORTH CAROLINA IS TO SEEK TO LIMIT THE ANNUAL INCREASE IN THE NUMBER OF STATE EMPLOYEES.

Whereas, the constantly increasing cost of State government is a matter of great concern to the people of North Carolina; and

Whereas, it is desirable that the General Assembly adopt and publicize a policy to guide the departments, agencies, and institutions of State government in planning for future growth and development;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. It is declared to be the policy of this State to limit the percentage increase in the total number of State employees in any fiscal year to no more than the percentage rate of population growth in North Carolina for that year, determined by averaging the rate of population growth in each of the preceding 10 fiscal years as reflected in the annual estimates of population in North Carolina made by the United States Bureau of the Census.

Sec. 2. In pursuance of the policy expressed in Section 1 of this resolution, the State Budget Office shall include a statement of this policy in the budget materials distributed to State departments, agencies and institutions for use in preparing each new biennial budget; and the budget submitted by the Director of the Budget to the General Assembly shall include a statement of the percentage increase in the total number of State employees reflected in the proposed budget, and the percentage growth in population of the State for the same fiscal period covered by the budget.

Sec. 3. This resolution shall become effective July 1, 1979.

In the General Assembly read three times and ratified, this the 5th day of June, 1979.

H. R. 1515  RESOLUTION 49
A JOINT RESOLUTION URGING THE CONGRESS OF THE UNITED STATES AND OTHER AGENCIES TO TAKE THE NECESSARY STEPS TO PRESERVE AND RESTORE THE CAPE LOOKOUT LIGHTHOUSE AND ADJACENT AREAS.

Whereas, during the last several years the State of North Carolina and the United States Department of the Interior through the Cape Lookout National Seashore Park have acquired thousands of acres of land on the Outer Banks of North Carolina including the area surrounding Cape Lookout Lighthouse, which is owned by the United States Coast Guard and is still operated as an aid to navigation in the area; and

Whereas, these lands were acquired for the purpose of establishing the Cape Lookout National Park so that the citizens of North Carolina and the United States could enjoy the natural and historical surroundings of the Cape Lookout Lighthouse and Cape Lookout National Seashore Park; and

Whereas, the United States has invested millions of dollars in the acquisition and development of the Cape Lookout National Seashore Park; and

Whereas, the Cape Lookout Lighthouse and its former keeper's quarters are listed on the National Register of Historic Places; and these structures are
subject to erosion and destruction, and the National Park Service estimates that if the current rate of erosion continues, the Lighthouse structures will no longer be standing by May, 1981 unless immediate action is taken to preserve and protect them; and

Whereas, Barden's Inlet, which separates Shackleford Banks from Cape Lookout is of great economic value to the commercial fishing industry, and to the sports fishing industry as well, is shifting eastward toward Cape Lookout and toward the base of the Cape Lookout Lighthouse; and

Whereas, the United States Army Corps of Engineers maintains Barden's Inlet through regular dredging operations; and

Whereas, dredging to relocate Barden's Inlet back to its earlier channel nearer to Shackleford Banks and away from Cape Lookout would reduce the erosion problem at Cape Lookout and would produce spoil which could be used to build up the area protecting the Cape Lookout Lighthouse; and would preserve the economic values of the inlet; and

Whereas, the National Park Service has recommended that no action be taken to restore and preserve the area adjacent to the Lighthouse structures so that the Lighthouse and keeper's quarters might be preserved; and

Whereas, the General Assembly of North Carolina feels that the recommendation of the National Park Service not to take steps to preserve and protect the Cape Lookout Lighthouse is ill-advised, and will, if approved, result in the destruction of a structure which is listed on the National Register of Historic Places, which is a picturesque and irreplaceable feature of the Cape Lookout National Seashore Park area, and which still serves an essential navigational purpose; and that a no-action policy will endanger effective maintenance of Barden's Inlet, with resulting major injury to the economy of the area and the health of the commercial fishing industry, all of which results will be to the permanent detriment of the Park and of the people of North Carolina and the United States;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly of North Carolina agrees with the decision to list the Cape Lookout Lighthouse complex in the National Register of Historic Places and considers the Lighthouse to be a structure of permanent historical value and present navigational value to the people of the United States, and believes that proper steps to protect the Lighthouse can also protect Barden's Inlet and preserve its economic value.

Sec. 2. The General Assembly urges the Congress of the United States, the National Park Service of the Department of the Interior, the United States Coast Guard, and the Army Corps of Engineers, to take the necessary steps to ensure that the Cape Lookout Lighthouse is repaired, preserved and protected for the use and enjoyment of future generations, and that maximum related economic benefits be secured.

Sec. 3. The Secretary of State shall transmit a certified copy of this resolution to the United States Secretary of the Interior, to the Commanding Officers of the Coast Guard and Army Corps of Engineers, to each member of the United States Congress from North Carolina, and to the Governor of North Carolina.

Sec. 4. This resolution is effective upon ratification.
Resolutions—1979

In the General Assembly read three times and ratified, this the 5th day of June, 1979.

S. R. 822    RESOLUTION 50
A JOINT RESOLUTION SUPPORTING FEDERAL BOATING SAFETY AND FACILITY DEVELOPMENT ASSISTANCE TO QUALIFYING STATES FROM THE FEDERAL TAX ON MOTOR FUELS USED IN BOATS.

Whereas, the availability of federal funds, from the United States Coast Guard, was established by the Federal Boat Safety Act of 1971 for states which complied with the federal law by requiring the registration of all motorboats and by meeting other criteria established by federal law; and

Whereas, the State of North Carolina enacted legislation in 1975 to comply with the federal laws to establish eligibility for the federal grant and maintain State control of its boating program; and

Whereas, such federal funds, in the amount of five hundred fifty-seven thousand eighty-eight dollars ($557,088), have been received by North Carolina and used by the Wildlife Resources Commission to develop a boating safety course for our public school system, to provide for enforcement of the boating laws, to provide programs of waterway marking to improve boating safety, and to promote water safety generally; and

Whereas, the discontinuation of these funds, as is planned in the budget of the United States Coast Guard, would diminish the State's capabilities to provide boating safety courses, aids to navigation, and safety patrols;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The North Carolina General Assembly urges the Congress of the United States to enact legislation which would return to the several states for their use in supporting boating related programs the federal tax on fuel used to power motorboats, as was introduced by the Honorable Mario Biaggi in the Second Session of the Ninety-fifth Congress.

Sec. 2. Copies of this resolution shall be transmitted to the Speaker of the House of Representatives, the President of the Senate of the United States, the Honorable Mario Biaggi, and members of the North Carolina delegation to the Congress in order that they may be apprised of the sense of this body.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 6th day of June, 1979.
RESOLUTION 51

A JOINT RESOLUTION TO CREATE A PUBLIC SCHOOL LAWS RECODIFICATION COMMITTEE.

Whereas, the 1975 General Assembly recognized that the North Carolina public school laws were out of date and in need of revision; and
Whereas, the 1975 General Assembly directed revision of the public school laws by the State Board of Education and a special Commission on Revision and Recodification; and
Whereas, this recodification and revision effort produced a lengthy report and complex proposed legislation which the 1977 General Assembly submitted to the Legislative Research Commission for further study; and
Whereas, these efforts have culminated in a 426-page bill (Committee Substitute for SB 45) which would recodify the public school laws by rearranging the format and maintaining the substance of the current law; and
Whereas, the 1979 General Assembly will not have sufficient time to examine the technical aspects of this recodification bill;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. A Public School Laws Recodification Committee is created to study a recodification of the public school laws based on Committee Substitute for SB 45.

Sec. 2. The Committee shall consist of the chairman of the Senate and House of Representatives Education Committees, one lawyer and one non-lawyer from the Senate appointed by the Lieutenant Governor, and one lawyer and one non-lawyer from the House of Representatives appointed by the Speaker of the House.

Sec. 3. The Legislative Services Officer shall provide staff assistance to the Committee.

Sec. 4. Members of the Committee shall receive per diem and necessary travel and subsistence expenses, in accordance with the provisions of G.S. 120-3.1, from funds appropriated for that purpose.

Sec. 5. The Committee shall report to the 1979 General Assembly, Second Session 1980.

Sec. 6. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 7th day of June, 1979.

Whereas, a city gas foreman, Max P. Bowling, and four city firemen, Nathan C. Hall, George L. Magness, Donald E. Melton, and Floyd P. Sharts were killed in the accident; and
Resolutions—1979

Whereas, these five men died while acting to the best of their abilities for the public; and
Whereas, the General Assembly wishes to honor the service and memory of these men and to express to their families and friends its sympathy; and
Whereas, 31 other persons were injured in the accident; and
Whereas, many law enforcement agencies, rescue units, and fire departments from Cleveland County assisted during and after the explosion;
Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the General Assembly expresses high regard for the life and service of Max P. Bowling, Nathan C. Hall, George L. Magness, Donald E. Melton, and Floyd P. Sharts and expresses its condolences to their friends and family.

Sec. 2. That the General Assembly recognizes the fine service of the 31 other persons who were casualties of the accident.

A JOINT RESOLUTION DIRECTING THAT THE ISSUE OF SEARCHES OF NEWSROOMS BE STUDIED.

Whereas, many of this country’s great historical figures have been newspapermen, all the way back to Peter Zenger, Thomas Paine, and Benjamin Franklin; and

Whereas, the founding fathers of this country recognized the importance of a free press by explicitly stating that freedom in the First Amendment of the Constitution; and

Whereas, on May 31, 1978, the United States Supreme Court decided the case of Zurcher v. The Stanford Daily in which it held that police officers may
Search newsrooms for evidence, armed only with a search warrant, even if the newspaper is not itself suspected of any criminal behavior; and
Whereas, throughout the country the Zurcher decision has been criticized as an unwarranted intrusion on freedom of the press; and
Whereas, the United States Congress is presently debating the wisdom of legislation to modify or reverse that decision;
Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Judicial Council is directed to study the issues raised by the Supreme Court’s decision in Zurcher v. The Stanford Daily dealing with searches of third parties not suspected of criminal behavior and to report its findings and recommendations, including recommended legislation, to the General Assembly no later than the tenth day of the 1981 Session of the General Assembly.

Whereas, the residence “House” is operated by a nonprofit organization, the Pediatric-Family Center of North Carolina, Inc.; and

Whereas, it is the first Statewide effort on such a project; and
Whereas, the residence will be operated solely on private gifts and donations and does not require any appropriation of tax funds from the General Assembly; and

b. Recommend to the 1981 General Assembly changes in the General Statutes deemed necessary for the State, its institutions, and its subdivisions to take full advantage of any of the methods and procedures for contracts, liability, planning procedures, claims, facility design, construction, and inspection deemed to be in the interests of safety, economy and utility.

H. R. 68         RESOLUTION 62

Whereas, the aging population in North Carolina presently constitutes over fourteen percent (14%) of the total population and is increasing three times faster than the State population as a whole; and

Whereas, continued inflation, rising taxes, increasing costs of medical care, inadequate institutional care facilities, insufficient pension income, forced early retirement, and lack of public awareness, have compounded the problems of the elderly; and

and desire that their retirement years be a time of fulfillment rather than frustration; and

Whereas, the Legislative Research Commission Study Committee on the Problems of Aging Authorized by Resolution 86 of the 1977 Session, having made two reports, recommends that aging needs be given additional study time;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission, as structured by G.S. 120-30.10 et seq., may continue the study of the entire range of problems and needs of the older adults of this State and to make specific recommendations to the General Assembly on how these problems can be satisfactorily solved and met by legislative action which is deemed necessary and appropriate. In its deliberations, the commission may examine national trends and programs in other states as well as programs and priorities in North Carolina. For purposes of this study, “older adult” is defined as every person who is 60 years of age or older.

Sec. 2. The membership of the Committee on Aging of the Legislative Research Commission shall consist of ten members to be appointed as follows: three senators appointed by the President Pro Tempore, three representatives appointed by the Speaker, two persons of sixty years of age or older appointed by the President Pro Tempore, and two persons of 60 years of age or older appointed by the Speaker. H. R. 617   RESOLUTION 63

A JOINT RESOLUTION TO CREATE A LEGISLATIVE RESEARCH COMMISSION COMMITTEE TO STUDY THE RESCUE SQUADS OF NORTH CAROLINA IN ORDER TO DEVELOP A FAIR AND EQUITABLE PROGRAM OF RETIREMENT INCENTIVES.

Whereas, there are approximately 7,000 citizens of North Carolina who are members of the North Carolina State Association of Rescue Squads; and

Whereas, there are over 240 Rescue Squads serving the citizens of North Carolina; and

Whereas, Rescue Squads provide vital and various life-saving and life-sustaining services to all the citizens of North Carolina; and

Whereas, all members of the Rescue Squad are ready 24 hours a day to extract victims from automobile and truck wrecks, to scale towers to rescue injured workers, to recover drowning victims, to provide emergency medical treatment, to provide seventy percent (70%) of all ambulance service rendered in North Carolina, and in general, to save and sustain the lives of the citizens of North Carolina in any way the emergency demands; and

Whereas, Rescue Squad training demands many hours of specialized education, rescue training requiring 36 hours per year, emergency medical training requiring a minimum of 81 hours, focusing on emergency childbirth, poison and fracture treatment, and treatment for cardiac arrest; and
Whereas, the North Carolina State Association of Rescue Squads has won several national and international awards, and runs the only volunteer mobile intensive care unit program in the United States, which program is made up of three units staffed by technicians with a minimum of 481 hours of training; and

Whereas, North Carolina has a vital interest in providing incentives to keep the highly trained members of the Rescue Squads serving the citizens of the State, as continuity of excellent service will not only cut down on training and equipment costs in those districts providing some funding for these Rescue Squads, but, more importantly, will result in experience service which will save and sustain more lives; and

Whereas, although the North Carolina State Association of Rescue Squads was incorporated in Winston-Salem in 1938, from that time to the present there has been no retirement incentive provided by the State analogous to that provided firemen, which would encourage continued, experienced service; and

Whereas, there is, at present, no available standardized information on financing of the many Rescue Squads, on property and equipment values and on individual member's training and service, that would enable a fair and equitable program of retirement incentives to be set up; and

Whereas, the Legislative Research Commission has recently studied the problem of firemen and law enforcement officers' retirement incentives, which study has resulted in equitable modification of available programs; and

Whereas, the Legislative Research Commission alone has the expertise, the investigatory power, the staff and the funding to study all the Rescue Squads of this State, to examine the issue of retirement incentives, to develop a fair and equitable program of incentives, and to develop uniform standards by which each of the 7,000 members of the Rescue Squads of this State shall be fairly and equitably treated by the program developed;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission may study the Rescue Squads of this State in order to develop a fair and equitable program of retirement incentives and to develop uniform standards by which each of the 7,000 members of the Rescue Squads of this State shall be fairly and equitably treated by the program developed.

Sec. 2. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

H. R. 1143 RESOLUTION 64

A JOINT RESOLUTION TO AUTHORIZE THE LEGISLATIVE RESEARCH COMMISSION TO STUDY THE POTENTIAL PRODUCTION AND USE OF GASOHOL IN NORTH CAROLINA.

Whereas, the United States is faced with a significant decline in the availability of dependable sources of oil; and

Whereas, the cost of available oil is increasing rapidly and promises to continue to increase in the future; and

Whereas, this increase has made alternative fuels more feasible as a matter of comparative economics; and
Resolutions—1979

Whereas, research has demonstrated that forms of alcohol suitable for use as a partial substitute for gasoline can be produced from a number of agricultural products in North Carolina; and

Whereas, production of a gasoline substitute in North Carolina would reduce the State's dependence on external sources for gasoline, and could provide a less expensive fuel to the consumers of the State, and could stimulate the economy of the State;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission is authorized to study the feasibility of producing and distributing partial fuel substitutes for gasoline from agricultural and forest products grown in North Carolina.

Sec. 2. The Commission in its study may:
(1) review the current research on gasohol and how it relates specifically to North Carolina;
(2) assess the existing technology to determine its potential for use in North Carolina;
(3) perform an economic evaluation of raw material availability, marketability, and long-run supplies;
(4) investigate and evaluate the alternatives to encourage the production, marketing, and distribution of gasohol; and
(5) make recommendations to the General Assembly concerning appropriate actions or further needs relative to producing and distributing fuel substitutes for gasoline from agricultural and forest products grown in North Carolina.

Sec. 3. The Commission may report its findings and recommendations to the 1979 General Assembly, Second Session 1980.

Sec. 4. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

A JOINT RESOLUTION AUTHORIZING THE LEGISLATIVE RESEARCH COMMISSION TO STUDY STATE REVENUE SHARING.

Whereas, the economic well-being of local government in North Carolina is important to the continued economic development of the State; and

Whereas, general purpose State aid, such as a State Revenue Sharing Program, allows the people of North Carolina to set government spending priorities at a level of government highly responsive to local needs; and

Whereas, a program of general purpose aid is one method for compensating for imbalances among local fiscal capabilities;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission may study the feasibility of a State revenue sharing program for North Carolina municipalities and counties.

Sec. 2. The Commission may make a thorough and comprehensive study and review of the concept of State revenue sharing, or other forms of State aid for general purpose local governments, and make specific recommendations to the General Assembly on the feasibility of such a program in North Carolina. The Commission may, among other things, specifically investigate current revenue trends of municipalities and counties, and State revenue sources to fund a State revenue sharing program.

Sec. 3. The Commission may call upon the Department of Revenue to cooperate with it in its study, and the Secretary of Revenue shall insure that its employees and staff provide full and timely assistance to the Commission in the execution of its duties. S. R. 667 RESOLUTION 69
A JOINT RESOLUTION TO AUTHORIZE THE LEGISLATIVE RESEARCH COMMISSION TO STUDY THE DRIVERS' EDUCATION AND THE SCHOOL BUS DRIVERS' PROGRAMS.

Whereas, the Drivers' Education Program for students in the public schools and the School Bus Drivers' Program have become of increasing public concern because of recent dramatic and tragic events; and
Whereas, it is a matter of vital concern to the State of North Carolina to provide adequate drivers' education to young people in school and to ensure that the children of this State are carried to and from school safely; and
Whereas, there is not at present sufficient information to enable the General Assembly adequately to evaluate the present Drivers' Education and School Bus Drivers' Programs and to recommend necessary improvements; and
Whereas, the Legislative Research Commission alone has the funding and the management resources adequately to evaluate the present Drivers' Education and School Bus Drivers' Programs and to recommend necessary improvements;

A JOINT RESOLUTION AUTHORIZING THE LEGISLATIVE RESEARCH
COMMISSION TO STUDY THE USE OF ELECTRONIC DEVICES FOR
THE DETECTION OF SPEED OF MOTOR VEHICLES.

Whereas, the use of radar and other types of electronic equipment for
metering the speed of motor vehicles has become commonplace, and law
enforcement officers rely heavily upon such devices in the detection and
prosecution of alleged speeders; and

Whereas, recent court decisions and rulings have raised serious questions
as to the appropriateness of the devices for speed metering purposes and the
value as evidence of the information obtained through use of the devices; and

Whereas, it is important to law enforcement officials, to persons using the
highways, and to the courts that reliable answers be provided to the questions
raised as to the use of these devices;

Now, therefore, be it resolved by the Senate, the House of Representatives
concurring:

Section 1. The Legislative Research Commission is authorized to
conduct a study of the use of radar and other electronic devices for metering the

H. R. 279

RESOLUTION 75

A JOINT RESOLUTION AUTHORIZING THE LEGISLATIVE RESEARCH COMMISSION TO STUDY THE ALCOHOLIC BEVERAGE CONTROL LAWS, AND APPROPRIATING FUNDS FOR THAT PURPOSE.

Whereas, the passage of the local option mixed beverage act in 1978 has focused attention on North Carolina's alcoholic beverage control laws; and

Whereas, many legislators and other citizens have found those laws confusing and sometimes contradictory; and

Whereas, numerous amendments have been made to the alcoholic beverage control statutes since the last major recodification in 1971; and

Whereas, both before and after the 1971 revision there have been many local acts passed which alter State ABC laws for particular cities and counties;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission is authorized to study North Carolina's alcoholic beverage control laws, including but not limited to Chapter 18A of the General Statutes and the liquor taxation provisions of Chapter 105. The commission may recommend to the 1981 General Assembly a general revision of those laws to make them more readable, to remove inconsistencies, and to establish, to the extent possible, a uniform statewide system of regulation which discourages the excessive use of alcohol. In making this study the commission may consider, but not be limited to, the following issues: (a) whether it is time to eliminate brown-bagging altogether in North Carolina; (b) what role cities and counties should have in the issuance of ABC permits; (c) whether the same categories of places should be eligible for all ABC permits rather than having different kinds of premises eligible for beer, wine, brown-bagging and mixed drink permits; (d) whether State law should provide for the establishment of city ABC systems; (e) under what conditions cities should be eligible to vote separately from counties on ABC issues; (f) the organization of the State ABC Board and the method by which its members are appointed; (g) the relationship between State alcohol law enforcement agents and local ABC officers and the jurisdiction of each; (h) whether provision should be made for consolidation of ABC systems which operate only one or two stores and have a small profit margin; (i) the size of fees for ABC permits and local licenses; (j) whether the State ABC Board should have authority to levy fines or impose other administrative punishments other than suspension or revocation of the permit; (k) public consumption of liquor and whether a State law is needed on consumption of beer and wine; (l) the use of liquor revenues for alcoholism programs; (m) taxation of liquor and the division of that revenue between State and local governments; and (n) advertising of liquor.

1458
Resolutions—1979

Sec. 2. In making its study, the commission might bear in mind what the 1936 Commission to Study the Control of Alcohol Beverages in North Carolina identified as the two basic requirements of any control system: "... one was to restrict the use of alcohol within as narrow a limit as possible on account of the well recognized evils of the intemperate use of alcohol as a beverage; and second, to avoid excessive restrictions which, however sincere, would result in defeating the desired ends."

Sec. 3. In making its study, the commission may also study the effects of the provisions of Senate Bill 857 of the 1979 General Assembly; and may study the conversion of all State taxes on intoxicating liquor (as defined in G.S. Chapter 18A) to a proof-liter system and devise a plan to implement that conversion.

Sec. 4. The commission may make an interim report to the General Assembly as soon as possible after the convening of the 1980 session.

Sec. 5. The commission may request the assistance of appropriate public or private agencies or individuals for research, drafting, or other services necessary to complete this study.

Sec. 6. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

H. R. 538

RESOLUTION 76

A JOINT RESOLUTION DIRECTING THE NORTH CAROLINA COURTS COMMISSION TO STUDY THE OFFICE OF THE CLERK OF SUPERIOR COURT.

Whereas, the clerk of superior court is an elected official paid by the State, and provided administrative support by the Administrative Office of the Courts; and

Whereas, the salary of the office of the clerk is based solely upon the population of the county without reference to other criteria; and

Whereas, there is a recent trend towards local legislation increasing the number of assistant and deputy clerks and such legislation is not predictably based on county population, or case load, or centers of population, or any other relevant criteria, or combination of criteria, in an ascertainable formula;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The North Carolina Courts Commission, if established by House Bill 1437 of the 1979 General Assembly, is directed to study the office of the clerk of superior court, including, but not restricted to, the method of appointment, compensation of the clerk, and the method of appointment, compensation, and criteria by which allocations of assistant and deputy clerks are determined for each county, and to recommend improvement therein.

Sec. 2. The Commission shall report its findings and recommendations to the 1981 General Assembly.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.

(b) the legislative review of State administrative rules as is now conducted by the Legislative Research Commission’s Administrative Rules Review Committee with the view to suggesting what additional powers the committee and other legislative bodies, including the Joint Legislative Commission on Governmental Operations, may need to insure that the State administrative agencies promulgate only those rules within their statutory authority;

H. R. 1377 RESOLUTION 78
A JOINT RESOLUTION TO REESTABLISH THE UTILITY REVIEW COMMITTEE.

Whereas, by Joint Resolution 100 of the 1975 Session, the North Carolina General Assembly established a permanent Utility Review Committee to evaluate the actions of the State Utilities Commission and analyze the operations of the several utility companies doing business in North Carolina and to make periodic reports and recommendations to the General Assembly; and

Whereas, said resolution provided that said Utility Review Committee shall continue in existence for five years, beginning July 1, 1975; and

Whereas, the Utility Review Committee has faithfully discharged the duties assigned to it pursuant to the provisions of said Resolution 100 of the 1975 Session; and

Whereas, the complex nature of utility regulation makes it difficult for the members of the General Assembly to exercise responsible judgment unless adequately informed in such complex areas as the regulation of public utilities; and
Whereas, the Utility Review Committee can continue to serve to inform the members of the General Assembly on the regulation of public utilities; Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. Notwithstanding the provisions of the Executive Budget Act, there is hereby reestablished a permanent Utility Review Committee to evaluate the actions of the State Utilities Commission and analyze the operations of the several utility companies doing business in North Carolina and make periodic reports and recommendations to the General Assembly.

Sec. 2. The Utility Review Committee shall continue in existence for an additional five years, beginning July 1, 1980; and any vacancy occurring during that period shall be filled through appointment by the presiding officer of the appropriate house.

Sec. 3. The reestablished Utility Review Committee shall consist of sitting members of that committee as that membership shall appear upon the date of ratification of this resolution, with any vacancies to be filled as provided in Section 2 of this resolution.

Sec. 4. The Utility Review Committee shall have authority to employ a professional staff, giving first consideration to employees of the Legislative Services Commission who may be able to serve on an interim basis without additional pay except as is necessary to cover travel, subsistence and such other expenses as may be incurred.

Sec. 5. The Utility Review Committee shall be independent of all offices, agencies, boards, commissions, divisions and other instrumentalities of State government except the General Assembly. It shall not be subject to the Executive Budget Act or the State Personnel Act.

Sec. 6. The Utility Review Committee shall have no regulatory authority, but may exercise the following powers and duties:

(1) to review the interim and final orders of the State Utilities Commission to the end that members of the General Assembly may better judge whether these actions serve the best interest of the citizens of North Carolina, individual and corporate;

(2) to review the programs, projects, sources and amounts of income, performance and accomplishments of utility companies doing business in North Carolina to determine whether expenditures plowed back into the rate structure were in all cases appropriate and necessary;

(3) to inquire into the role of the State Utilities Commission, the Public Staff, and the several utility companies in the development of alternate sources of energy;

(4) to inquire into the individual and collective effort of the utility companies to encourage the conservation of energy and thus reduce requirements for additional generating facilities;

(5) to submit evaluations to the General Assembly, from time to time, of the performance of the State Utilities Commission, the Public Staff, and the various utilities operating in the State. A proposed draft of such evaluation shall be submitted to the Utilities Commission, the Public Staff, and the affected public utilities prior to submission to the General Assembly and Utilities Commission, the Public Staff, and affected utilities shall be given an
opportunity to be heard before the Utility Review Committee before the 
evaluation is finally completed and submitted to the General Assembly.

Sec. 7. The Utility Review Committee, or its designated agents, shall at 
all times with proper notice, have access to such books, records or other 
documents relating to expenditures, revenues, operations and organizations, 
public and private, as may be necessary to the performance of its mission.

Sec. 8. In the discharge of any duty imposed by law, the Utility Review 
Committee, acting through its chairman or cochairman, may subpoena 
witnesses, administer oaths and take testimony or cause depositions of 
 witnesses to be taken where appropriate.

Sec. 9. The Utility Review Committee shall be a continuing committee 
of the General Assembly and shall be assigned suitable office space and 
equipment.

Sec. 10. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of 
June, 1979.

H. R. 1477 RESOLUTION 79

A JOINT RESOLUTION URGING A CONCERTED NATIONAL EFFORT 
TO REPLACE THE CATALYTIC CONVERTERS ON AUTOMOBILES 
WITH ALTERNATIVE DEVICES IN THE INTEREST OF 
PROTECTING THE NATION'S CONSUMERS AND SERVING AN 
IMPORTANT PUBLIC PURPOSE.

Whereas, the Federal Clean Air Act of 1970 established mandatory 
automobile emission standards and time schedules for their implementation by 
automobile manufacturers; and

Whereas, in response to the stringent emission control requirements of the 
Clean Air Act, automobile manufacturers have installed catalytic converters to 
reduce harmful pollutants on most cars built after 1974; and

Whereas, catalytic converters are muffler-type devices intended to 
chemically alter harmful carbon monoxide, hydrocarbons, and nitrous oxides in 
automobile exhausts into harmless emissions; and

Whereas, while the catalytic converters have enabled automobile 
manufacturers to comply with the mandates of the Clean Air Act, a serious 
question has arisen as to whether these devices are in the best interests of the 
nation's drivers and the general public as well; and

Whereas, for example, the installation of catalytic converters on new 
vehicles reportedly increases the initial selling price of vehicles so equipped by 
an estimated average cost of up to four hundred dollars ($400.00) per vehicle; and

Whereas, in addition, it is an established fact that minimal amounts of 
lead, a common ingredient in regular and premium gasolines, will seriously 
impair, if not totally negate the intended cleaning function of the catalytic 
converter; and

Whereas, as a result, vehicles fitted with catalytic converters must, out of 
practical necessity, use only unleaded gasoline to assure the effective 
functioning of the emission control systems and to contain the emission of 
harmful pollutants within acceptable limits; and
Whereas, unleaded gasoline is more expensive than conventional gasolines because of the extra costs associated with the production of unleaded gasoline; and

Whereas, efforts of the federal government to assure adequate supplies of unleaded gasoline have not been entirely successful due in large part to circumstances of an international nature beyond the control of the federal government with the resultant shortage of unleaded fuel in several regions of the United States; and

Whereas, experience has demonstrated that frequent repairs and engine service work are required for vehicles equipped with catalytic converters to assure maximum fuel efficiency and effective functioning of the emission control system with the resultant obvious additional costs which must be borne by owners of such vehicles; and

Whereas, informed sources point to the additional cost of manufacturing unleaded gasoline coupled with the expected increase in price when and if gasoline is deregulated; and

Whereas, the cost of replacing a defective catalytic converter with a new one is upwards of three hundred dollars ($300.00) per installation; and

Whereas, effective alternative technologies have been developed to reduce the emission of harmful pollutants; and

Whereas, the questionable effectiveness, fuel efficiency, high repair and maintenance cost, and other problems associated with the catalytic converter give rise to the firm conviction that the elimination of the catalytic converter and its replacement with alternate technologies may better serve the intended purposes of the catalytic converter is a matter of compelling national interest;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the President of the United States, the United States Congress, the Department of Energy, the Department of Transportation, the Environmental Protection Agency, and all other State Legislatures are respectfully urged to join in a concerted national effort to do away with the reliance on the use of catalytic converters in view of the concerns expressed in this resolution.

Sec. 2. Upon ratification, copies of this resolution shall be sent to the Clerk of the United States House of Representatives, the Secretary of the United States Senate, and the President of the United States.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 8th day of June, 1979.
H. R. 1531  RESOLUTION 80
A JOINT RESOLUTION TO AUTHORIZE THE GENERAL ASSEMBLY TO STUDY HYDROELECTRIC POWER.

Whereas, both small and large scale hydroelectric power plants produce energy without atmospheric pollution, and use the force of gravity to produce electric power; and
Whereas, many small and large scale hydroelectric plants could produce substantial amounts of energy as part of a Statewide program of generating electricity without reliance on petroleum;
Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission is authorized to study the issue of hydroelectric generation power in North Carolina.
Sec. 2. This resolution shall become effective July 1, 1979.
In the General Assembly read three times and ratified, this the 8th day of June, 1979.

H. R. 1532  RESOLUTION 81
A JOINT RESOLUTION HONORING ROBERT L. PETERSON, ROY HUSKEY, AND OWEN MESSERSMITH.

Whereas, on May 31, 1979, Robert Lee (Pete) Peterson, Roy Huskey, and Owen Messersmith were killed near Rutherfordton after a domestic disturbance; and
Whereas, the 37-year old Robert Peterson was a 10-year veteran of the Highway Patrol; and
Whereas, the 48-year old Roy Huskey was a captain in the Rutherford County Sheriff’s office, where he had served for 11 years, and was the brother of Rutherford County Sheriff, Damon Huskey; and
Whereas, Owen Messersmith, 58 years old, was a sergeant and 4 1/2-year veteran in the Rutherford County Sheriff’s office; and
Whereas, all three men were killed while answering a call;
Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly honors the service and lives of Robert Lee (Pete) Peterson, Roy Huskey, and Owen Messersmith, and expresses its sympathy to their families.
Sec. 2. The General Assembly thanks Sheriff Damon Huskey and his staff, the Highway Patrol, and all other law enforcement officers who were involved in the search for and arrest of the man suspected of killing the officers.
Sec. 3. The Secretary of State is directed to send copies of this resolution to the Rutherford County Sheriff’s office, the Highway Patrol office in Rutherford County, and the families of Robert Peterson, Roy Huskey, and Owen Messersmith.
Sec. 4. This resolution is effective upon ratification.

H. R. 1533  RESOLUTION 82

Whereas, LeRoy Scott spent his life in his native area and contributed
greatly to the quality of its life and the strength of its institutions; and
Whereas, LeRoy Scott contributed to the economic life of his community
as an attorney at law and a member of the Junior Chamber of Commerce; and
Whereas, LeRoy Scott was active in civic and governmental affairs,
 servings as a member of the Elks Club and as a U. S. Conciliation Commissioner
under the Frazier Lempke Farm Bankruptcy Act; and
Whereas, LeRoy Scott was active in the service of his country, serving

Whereas, LeRoy Scott is survived by his widow and children, LeRoy Scott,
Jr., Lenny Scott, Kaye Scott Buckman, Faye Scott, and Sandra Scott Edwards;

Now, therefore, be it resolved by the House of Representatives, the Senate
concurring:

Section 1. The General Assembly honors the memory of LeRoy Scott, a
good citizen, a valued and responsible legislator, and a dear friend, and extends
to Mrs. LeRoy Scott and their children sincere sympathy in the loss of their
husband and father.

Sec. 2. The Secretary of State shall transmit a copy of this resolution to
Mrs. LeRoy Scott.

S. R. 94  RESOLUTION 83
A JOINT RESOLUTION DIRECTING THE LEGISLATIVE RESEARCH
COMMISSION TO CONTINUE TO STUDY THE REVENUE LAWS OF
THE STATE OF NORTH CAROLINA.

Whereas, the Legislative Research Commission was directed by the 1977
General Assembly in ratified Resolution 85 to conduct a study of the revenue
laws of North Carolina; and

Whereas, pursuant to Resolution 85 a Committee on Revenue Laws was
appointed and held 11 meetings before reporting its recommendations to the
Legislative Research Commission and the 1979 General Assembly; and

Whereas, the Committee on Revenue Laws reviewed many areas of the
revenue laws and prepared more than 40 legislative proposals to modernize,
 improve, and delete obsolete sections from the revenue laws; and

Whereas, the scope of the subject matter assigned to the Committee on
Revenue Laws was so broad that not all areas could be addressed within the
time and budget limits placed on the Committee; and
Resolutions—1979

Whereas, in the course of its deliberations the Committee on Revenue Laws discovered several matters which warranted further investigation; and

Whereas, changes in federal tax laws often make review of related State laws advisable; and

Whereas, the Committee on Revenue Laws has proved to be an excellent forum to which both taxpayers and State officials can turn with problems and complaints about the revenue laws;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The Legislative Research Commission shall continue to study the revenue laws and their administration in North Carolina.

Sec. 2. The commission shall continue to review the revenue laws of the State of North Carolina to determine which laws need clarification, technical amendment, repeal, or other change to make the revenue laws as concise, intelligible, administratively responsive, and efficient as is reasonably practicable. Where the recommendations of the Commission, if enacted, would result in an increase or decrease in State tax revenues, the final report of the Commission shall include an estimate of the amount of such increase or decrease.

Sec. 3. The Commission may call upon the Department of Revenue to cooperate with it in its study, and the Secretary of Revenue shall insure that its employees and staff provide full and timely assistance to the Commission in the performance of its duties.

WHEREAS, the Administration is committed to the concept of maximum coordination with local governments in a State-local partnership.

NOW, THEREFORE, I, James B. Hunt, Jr., under and by the authority vested in me as Governor of North Carolina, do hereby proclaim the following as the Regional Policy for the State of North Carolina, and charge all agencies of State Government to adhere to this policy to the maximum extent possible: The concept of a single Lead Regional Organization in each of the 17 regions shall be continued with the following guidelines:

Section 1. The membership composition of governing boards of Lead Regional Organizations should be left to the discretion of the local units of government comprising such Lead Regional Organizations; however, the State urges the Lead Regional Organizations to limit policy board representation to elected officials from member general purpose local governments. The State will encourage Federal agencies to waive requirements which contradict such membership composition.
Section 2. The specific powers and duties of all Lead Regional Organizations, whether Councils of Governments or Economic Development Districts, should be those specified for Councils of Governments in Section 160A-475 of the General Statutes of North Carolina.

Section 3. In dividing the State for administrative and/or service delivery purposes, State agencies shall, to the extent possible, make such subdivisions coterminous with the LRO boundary lines, or with combinations of LROs. Administrative agencies shall work in concert with LROs, but shall not utilize them as sub-state administrative districts.

Section 4. State agencies desiring to eliminate, re-direct, or begin programs within the purview of, or which impact local governments, through LROs, are hereby directed to submit proposed changes and modifications to the Local Government Advocacy Council for review prior to the establishment of the policy. Any new programs involving regional service delivery through LROs must have the approval of all the local governments affected prior to the establishment of such programs.

Section 5. State financial support to regional organizations should be limited to grants to carry out specific tasks imposed by State government which necessitate coordination and planning for local governments. No State funds shall be provided for general administrative support except under an approved indirect cost plan and other contractual agreements.

Section 6. The determination of employment procedures for Lead Regional Organizations shall be left to the discretion of local governments. No State agency shall impose its job descriptions or other employment procedures on LROs.
Section 7. The Secretary of the Department of Administration is hereby charged with revising and implementing existing guidelines dealing with the changing of regional boundary lines, in accordance with the following:

(a) Boundary changes shall not be considered unless a petition for change is received from one or more county boards of commissioners or from the governing bodies of one or more municipalities whose population represents 50% of the county population. No boundary change shall be made until after notice of such proposed change is given, and sufficient opportunity for public comment is provided.

(b) Any request for boundary change shall be acted upon within ninety (90) days of the receipt of a valid petition.

(c) Approved boundary changes shall be effective on July 1st of the following year, and must be announced at least ninety days prior thereto.

(d) No change which has been unfavorably considered shall be reconsidered for a minimum period of three years from the date of prior disapproval.

Section 8. This order shall become effective immediately. Done in Raleigh, North Carolina, this the 23rd day of October, 1978.

GOVERNOR OF NORTH CAROLINA
WHEREAS, last year I created by Executive Order
the Judicial Nominating Committee for Superior Court Judges
to test the concept of merit selection of judges; and,

WHEREAS, the use of the Judicial Nominating Committee
for Superior Court Judges has helped maintain a strong and
viable judiciary by insuring that those persons appointed by
the Governor to fill vacancies on the Superior Court have been
selected on the basis of personal and professional competence
and fitness to administer right and justice wisely; and,

WHEREAS, the use of the Judicial Nominating Committee
for Superior Court Judges has helped insure that only the
most qualified, conscientious and dedicated persons available
have been appointed by me, as Governor, to the Superior Court;
and

WHEREAS, I now desire to extend the Judicial Nominating
Committee for Superior Court Judges to provide for the continued
merit selection of persons to fill vacancies on the Superior
Court;

NOW, THEREFORE, IT IS HEREBY ORDERED:

Section 1. The Judicial Nominating Committee for
Superior Court Judges as created by Executive Order Number
12 (July 28, 1977) and amended by Executive Order Number
24 (May 15, 1978) is hereby extended for a period of one year,
effective on the date of the signing of this Order.

Section 2. The Committee shall consist of 35 members
to be selected as follows:

(a) 13 citizens who are not licensed to
practice law in the State, no less than 3 of whom
and no more than four of whom shall be residents of
the same judicial division of the state, to be appointed by the Governor.

(b) 13 attorneys licensed to practice law in the State, no less than 3 of whom and no more than four of whom shall be residents of the same judicial division of the state, to be appointed by the Chief Justice of the Supreme Court of North Carolina.

(c) Four citizens who are not licensed to practice law in the state, each a resident of a different judicial division of the state, two to be appointed by the President Pro Tempore of the Senate and two by the Speaker of the House of Representatives.

(d) Three attorneys licensed to practice law in the State, one to be appointed by the President Pro Tempore of the Senate, one by the Speaker of the House of Representatives, and one to be appointed jointly by the President Pro Tempore of the Senate and the Speaker of the House of Representatives.

(e) Two members of the Supreme Court of North Carolina, one of whom shall serve as Chairman of the Committee, and another, who shall serve in the absence of the Chairman as Chairman Pro Tempore of the Committee, each to be appointed by that Court.

(f) Exclusive of the Chairman and Chairman Pro Tempore, each member of the Committee shall be a resident of a different judicial district of the state, as the state will be divided into thirty-three judicial districts, pursuant to Chapters 1130 and 1238 of the 1977 Session Laws. The removal of such a member's residence from the district of appointment creates a vacancy to be filled from that district as provided in Subsection (g) of this Section. To insure the required distribution of members among the judicial districts, appointments of such members
other than the Chairman and Chairman Pro Tempore shall be made in the following sequence by the appointing authorities indicated:

(i) The Governor shall first make the appointments provided in Subsection (a).

(ii) The Chief Justice of the Supreme Court shall then make the appointments provided in Subsection (b).

(iii) The President Pro Tempore of the Senate shall then make the appointments provided respectively in Subsections (c) and (d).

(iv) The Speaker of the House of Representatives shall then make the appointments provided respectively in Subsection (c) and (d).

(g) The Chairman and Chairman Pro Tempore shall serve at the pleasure of the Supreme Court. All members other than the Chairman and Chairman Pro Tempore shall serve for a period of one (1) year or until earlier termination of this Committee by subsequent Executive Order. Upon the occurrence of a vacancy prior to expiration of a term, the vacancy shall be filled by the then incumbent in the office of the appointing authority that made the initial appointment. A member appointed to fill a vacancy occurring prior to the expiration of a term serves for the remainder of the unexpired term. Successor members appointed shall be of the same category and from the same district as the initial appointees. No member of the Committee other than the Chairman and Chairman Pro Tempore is eligible for appointment to a judicial office of this state that is created or vacated during the member's service on the Committee and for a period of six months thereafter.
(h) All current members of the Committee are eligible for reappointment for a second one-year term. If the appointing authority chooses not to reappoint a current member, then the member's successor must be a resident of the same judicial district. The appointing authority must submit the names and addresses of his or her appointees to the Executive Secretary within 15 days of the signing of this order.

(i) While engaged on official business, a member of the Committee is entitled to such per diem and reimbursement for travel and subsistence as may be authorized for members of State Boards and Commissions generally.

Section 3. The function of the Judicial Nominating Committee is to identify and nominate for appointment those persons most highly qualified personally and professionally to be Superior Court Judges without regard to any partisan political considerations. To accomplish this purpose the Committee shall be divided into four panels, as herein below provided:

(a) In considering and making nominations for Superior Court Judges, the Chairman and Chairman Pro Tempore and all members of the Committee who are residents of the judicial division of which the judge to be appointed is a resident shall exercise the powers of the Committee in respect to that particular judgeship.

(b) Subject to the provisions of this Order, the Committee may direct meetings and public hearings to be held anywhere within the state; publicize vacancies in judicial offices and solicit candidates therefor; adopt rules of procedure for the exercise of its powers and take any other actions necessary and proper to the accomplishment of its functions.
(c) Panels of the Committee shall meet on call of the Chairman, Chairman Pro Tempore, or a majority of the members of the panel. All calls for meetings shall be upon reasonable notice to all members entitled to participate. Meetings of any of the panels of the Committee shall be presided over by the Chairman, or in his absence, the Chairman Pro Tempore. The Chairman or Chairman Pro Tempore presiding shall vote only when necessary to break tie votes of the members of the panel present. A simple majority of the members constituting the nominating panel constitutes a quorum for exercise of the panel's powers; but no nomination may be made except upon the concurrence of at least a majority of the members of a nominating panel authorized to make a particular nomination.

(d) Each panel shall elect a secretary from among its members.

(e) The Governor shall name an Executive Secretary for the Committee.

Section 4.

(a) Any person who is eligible to hold the office of Superior Court Judge may file with the Judicial Nominating Committee, in accordance with its rules, a questionnaire for prospective nominees for Superior Court Judgeships. The Committee may, in its discretion, consider and nominate a person who has not filed a questionnaire.

(b) For any vacancy in the office of Superior Court Judge, the Committee shall nominate no less than three (3) nor more than five (5) persons.

(c) Full consideration of minority and female applicants is encouraged.
(d) Nominations to fill vacancies may be submitted to the Governor not more than sixty (60) days in advance of mandatory retirement of a judge; and all nominations shall in any event be submitted no later than sixty (60) days after a vacancy occurs. Should the Committee fail to submit to the Governor nominations within sixty (60) days after a vacancy occurs, the Governor may proceed to fill the vacancy. Nominations by the Committee shall be certified to the Governor over the signature of the Chairman or the Chairman Pro Tempore. Nominations shall be submitted to the Governor in alphabetical order and shall not be ranked in any special order.

(e) To assist the Committee, the Administrative Officer of the Courts shall notify the Committee of the imminence of vacancies in Superior Court Judgeships occurring for any reason known to them in advance of their occurrence, and shall notify the Committee of other vacancies as soon as is practicable.

Section 5. Forthwith upon receipt of nominations from the Judicial Nominating Committee, the Governor shall cause the identity of the nominees to be made public by any appropriate means. Within thirty (30) days after receipt of nominations or the occurrence of a vacancy, whichever event last occurs, the Governor shall appoint one of the nominees to fill the vacancy for which nominated.

Section 6. This Executive Order shall apply to all vacancies in the office of Superior Court Judge.

Section 7. This Executive Order shall apply to Special Superior Court Judges in the following manner:
(a) For a single vacancy in the office of Special Superior Court Judge, the Governor shall direct the panel or panels of his choice to nominate no less than three (3) nor more than five (5) persons who reside in the respective panels' division to fill the vacancy.

(b) When two or more vacancies occur in the office of Special Superior Court Judge, the Governor shall direct the panel or panels of his choice to nominate persons to fill the vacancy. If the Governor determines, in his discretion, that two or more Special Superior Court Judges may be chosen from a single judicial division, the Governor may direct that no less than three (3) nor more than five (5) persons multiplied by the number of vacancies who reside in a panel's division be nominated by the panel to fill the vacancies.

(c) All other rules which are applicable to regular Superior Court Judges are hereby incorporated for the filling of vacancies for Special Superior Court Judges.

Section 8. It is understood that this is a voluntary merit selection process for Superior Court Judges, and should the Governor later determine that any panel or panels of the Judicial Nominating Committee has not given due consideration to all qualified applicants for the office of Superior Court Judge, in accordance with the procedures set forth by this Executive Order, or that there is any question as to the legality or constitutionality of this Executive Order, then to that extent, nothing contained herein is intended to in any way impair or delegate the constitutional and statutory powers, duties or perogatives of the Governor in the filling of vacancies in judicial offices by appointment. Also, to that extent, the right to reject any or all of the nominees so selected and recommended is specifically reserved unto the Governor.
Section 9. Each member of the Committee is encouraged to seek out competent and qualified candidates for Superior Court Judge. Such a solicitation will not be deemed an endorsement of a candidate. Furthermore, bar groups, civic associations and citizen groups are encouraged to seek out and recommend competent and qualified candidates for Superior Court Judge.

Section 10. This Order shall become effective immediately.

Done in Raleigh, North Carolina, this the 31st day of December, 1978.

GOVERNOR OF NORTH CAROLINA
WHEREAS, there is a need for the State to establish regulations for State agencies to help minimize the extent of flood damage by preventing development within the floodway which would inhibit water flow and increase flood height and damage, to otherwise regulate use of the floodplain areas, to prevent and/or minimize loss of life, injuries and property damage, and to promote the public health, safety and general welfare; and

WHEREAS, the State of North Carolina, operating under existing statutes for improvements and capital outlay, has compiled the following record of flood damage to state-owned facilities: The State of North Carolina has approximately $100,000,000 in state-owned buildings and contents located in the 100-year floodplain. Of this figure, there is about $25,000,000 of property exposure in the 600-mile length and breadth of the State. Losses to state-owned buildings and contents for the past 20 years does not exceed $400,000; and

WHEREAS, I deem it necessary and proper to establish a Uniform Flood Plain Management Policy for State agencies to provide for the continued sound management of state-owned properties as they relate to potential flood hazards;

NOW, THEREFORE, IT IS HEREBY ORDERED:

Section 1. The Department of Administration shall administer a Uniform Flood Plain Management Policy for State agencies. This order shall apply to those lands coming under
the broad definition of "state-owned" lands including but not limited to public waterways, marshes, estuarine waters, and to privately-owned land and improvements which are leased to the State of North Carolina or any of its agencies. This order in no way affects municipal and county zoning authority pursuant to General Statutes Chapter 160A, Article 19, Part 3 and Chapter 153A, Article 18, Part 3; however, in cases of conflict between Municipal and County Floodway Regulations pursuant to Chapter 143, Article 2, Part 6, and the provisions set forth in this order, the Department of Administration shall investigate the area of conflict and make appropriate determinations to comply with the intent of this executive order.

Section 2. To encourage State agencies to work within the existing statutes of the State of North Carolina to establish a Uniform Flood Management Policy, the following statutes and codes, though not repeated herein, are hereby incorporated by reference:

(1) Chapter 143B, Article 9, Part 3, N. C. Capital Planning Commission
(2) Chapter 143-Article 1, Executive Budget Act
(3) Chapter 143-Article 8, Public Building Contracts

(5) Chapter 143, Section 214.1, Water Quality Standards
(6) Chapter 143, Section 215, Effluent Standards and Limitations
(7) Chapter 143, Article 21, Part 6, Floodway Regulations
(8) Chapter 146-Articles 5, 6, and 7, Acquisition and Disposition of State Lands
(9) Chapter 113-Article 1, Estuarine Waters and State-Owned Lakes
(10) Chapter 113A, Article 4, Sedimentation Pollution Control Act of 1973
(11) Chapter 113A, Article 1, Environmental Policy Act
(12) Chapter 150A-Administrative Procedures Act
(13) Chapter 160A, Article 19, Part 3, Local Zoning Authority
(14) Chapter 58, Section 193, Commissioner of Insurance required to inspect State Property
(16) Chapter 113A, Article 7, Coastal Area Management Act of 1974
(17) PL 92-500, Pollution Control Act of 1972
(18) Chapter 153A, Article 18, Part 3, County Zoning Authority

Section 3. Definitions. It is not the intent of this order to create any new terms or phrases. The terms and phrases
used herein shall be interpreted to conform with existing common usage, statutes, or other applicable regulations, as follows:

1. Flood or Flooding - A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland streams and rivers or coastal waters.

2. Base Flood or 100-Year Flood - That flood having a one percent chance of being equalled or exceeded in any given year.

3. Coastal High Hazard Area - The area subject to high velocity waters, including but not limited to hurricane wave wash. The lateral limits of the coastal high hazard area shall be established from the latest hydrologic maps and engineering data obtainable. When H.U.D. Flood Hazard Boundary Maps, Flood Insurance Rate Maps, or Flood Insurance Study Data are available, they shall be the primary source of such hydrologic data.

4. 100-Year Flood Plain - The lowlands and relatively flat areas adjoining inland streams and coastal waters which are susceptible to flooding during the base flood. The lateral limits of the 100-year flood plain shall be established from the latest hydrologic maps and engineering data obtainable. When H.U.D. Flood Hazard Boundary Maps, Flood Insurance Rate Maps, or Flood Insurance Study Data are available, they shall be the primary source of such hydrologic data.

5. Regulatory Floodway - The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot. The lateral limits of the regulatory floodway shall be established from the latest hydrologic maps and engineering data obtainable. When H.U.D. Flood Hazard Boundary Maps, Flood Insurance Rate Maps, or Flood Insurance Study Data are available, they shall be the primary source of such hydrologic data.

6. Floodway Fringe Area - The area outside the regulatory floodway but inside the 100-year flood plain.

7. Flood Protection Elevation - The elevation to which structures in the 100-year flood plain must be elevated or flood proofed to protect against inundation by the waters of the base flood. This elevation shall be established from the latest hydrologic maps and engineering data obtainable. When H.U.D. Flood Hazard Boundary Maps, Flood Insurance Rate Maps, or Flood Insurance Study Data are available, they shall be the primary source of such hydrologic data.
(8) Structure - A walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a mobile home.

(9) Development - Any land-disturbing change to improved or unimproved real estate, including but not limited to buildings or other structures, dredging, filling, excavation, grading and paving.

(10) Substantial Improvement - Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure.

(11) Habitable Floor - Any floor usable for living purposes, which includes working, sleeping, eating, cooking, or recreation, or a combination thereof. A floor used only for storage purposes is not a "Habitable Floor."

(12) Stream - A watercourse that collects surface runoff from an area of one square mile or greater.

(13) Principle of Equal Coveynance - Principle which states that both sides of a stream will pass approximately one-half the volume of the base flood.

Section 4. Location of Regulatory Floodway and Flood Plain Boundaries. Determination of boundaries for the regulatory floodway, the 100-year flood plain, and the coastal high hazard areas shall be established by using the latest hydrologic maps and engineering data obtainable. Maps available from local, state and federal agencies shall be used to carry out the provisions of this order.

When H.U.D. Flood Hazard Boundary Maps, Flood Insurance Rate Maps, or Flood Insurance Study Data are available, they shall be the primary source of such hydrologic data. If interpretation is needed as to exact location, and where there appears to be a conflict between map boundaries and actual field conditions, the Department of Administration shall make the necessary interpretation upon recommendation by the Office of State Construction provided the following procedures are followed:

(1) Use Corps of Engineer's location and width data at all actual surveyed cross sections.

(2) The location of floodways at points along a stream between surveyed cross sections shall be established on the ground by using the following procedures in the order that they appear below:

(A) The regulatory floodway lateral limits shall be scaled or interpolated, whichever is greater,
using the centerline of the stream as the base. The distances to both floodway lines shall be checked using actual field surveys and the following criteria:

(1) All points between the floodway lines shall lie below the 100-year flood plain elevation.

(2) The floodway as defined by the right and left distances from the stream centerline shall maintain the flow area below the 100-year flood level that was interpolated from the upstream and downstream cross sections.

(3) The alignment does not result in jogs, offsets, or sharp bends.

(4) Flood plain shape and average retardance is generally uniform between the cross sections.

(5) If the above four criteria cannot be met then proceed to paragraph (B) below.

(B) The professional engineer may reduce or enlarge the floodway with respect to the stream centerline as long as the following criteria are met:

(1) All points between the floodway lines shall lie below the 100-year flood plain elevation.

(2) The alignment does not result in jogs, offsets, or sharp bends.

(3) Flood plain shape and average retardance is generally uniform between the cross sections.

(4) The principal of equal conveyance of flood flow is maintained using the 100-year flood level and other data in the F.I.A. Report.

\[
\frac{A_5/3^*}{P_{273}^L} = \frac{A_5/3^*}{P_{273}^R}
\]

(5) The cross sectional area shall always be approximately hydrologically equal to the interpolated area derived from the upstream and downstream cross section.

\[
\frac{A_5/3^*}{P_{273}} = \frac{A_5/3^*}{P_{273}}
\]

(6) If the above criteria cannot be met then proceed to paragraph (C) below.

(C) The professional engineer may shift the floodway with respect to the stream centerline when the principle of equal conveyance cannot be maintained but the 100-year flood flow can be accommodated within the flood plain and the following criteria

---

*Note - A equals the cross sectional area. P equals the wetted perimeter. L is left. R is right.
can be met:

(1) All points between the floodway lines shall lie below the 100-year flood plain elevation.

(2) The alignment does not result in jogs, offsets, or sharp bends.

(3) Flood plain shape and average retardance is generally uniform between the cross sections.

(4) The 100-year flood elevation is held.

(5) The cross sectional area shall always be approximately hydrologically equal to the interpolated area derived from the upstream and downstream cross sections.

\[
\frac{A_5}{3} = \frac{A_5^*}{3} 
\]

(6) The stream channel is within the floodway at all locations.

(7) The floodway is located laterally so that the deleted and added areas on either side of the floodway are hydrologically equal, i.e.,

\[
\frac{P_2}{T_3} \left( L - F_2 \right) = \frac{P_2}{T_3^*} 
\]

(8) If the above criteria cannot be met then proceed to paragraph (D) below.

(D) If any of the preceding procedures cannot be used because their mandatory criteria cannot be met, then the data should be sent to the U. S. Army Corps of Engineers for a determination of the actual floodway.

(3) The engineering calculations and/or interpretation for this Section shall be made and certified by a Registered Professional Engineer and the establishing and documentation of field conditions shall be made and certified by a Registered Land Surveyor.

Section 5. Regulations. The following regulations shall apply to all State agencies:

(A) Floodway and Flood Plain

(1) New structures and other development within the regulatory floodway will be prohibited where the placement of such structure or development would result in any increase in flood levels during the occurrence of the base flood discharge.

(2) New or replacement utility lines within 100-year flood plains must be designed to minimize obstruction to water flow during the base flood.

(3) Planning of the floodway fringe areas as open space, recreational areas, and public parks is encouraged.
In new structures and substantial improvement to existing structures located within the 100-year Flood Plain, no habitable floors will be below the flood protection elevation.

**Coastal High Hazard Areas**

1. In coastal high hazard areas, new structures must be located landward of the reach of mean high tide. The State Port facilities and other water access related structures, which by necessity must be located on the water, are specifically excluded from this provision.

2. All new structures located in coastal high hazard areas shall be elevated on adequately anchored pilings or columns, and securely anchored to such pilings or columns so that the lowest portion of the structural members of the lowest floor is elevated to or above the base flood level, and that a registered professional engineer or architect certify that the structure is securely anchored in order to withstand velocity waters and hurricane wave wash.

3. All new structures and substantial improvements to existing structures located in coastal high hazard areas must have the space below the lowest floor free of obstructions or be constructed with "breakaway walls" intended to collapse under stress without jeopardizing the structural support of the structure so that the impact on the structure by abnormally high tides or wind-driven water is minimal. Such temporarily enclosed space shall not be a habitable space.

4. In coastal high hazard areas, any alteration of sand dunes which would increase potential flood damage shall be prohibited.

**Non-Conforming Structures.** Any structure which was lawful before this order, but not in conformance with the flood plain policy may continue subject to the following limitations:

1. No such use shall be expanded, changed, or altered which shall increase its non-conformity.

2. Any substantial improvement must bring the total structure into conformity now and thereafter.

3. If the structure is destroyed or extensively damaged, it cannot be rebuilt in its original non-conformity.

4. A structure abandoned for 12 months cannot be reoccupied until it is improved and brought into compliance.
Permits. Permits shall be required for all new construction or other development within the flood plain. Applications from the duly constituted authority shall be submitted to the Secretary of the Department of Administration. Applications for permits for improvements within the flood plain shall include the following:

1. Description of the project.
2. Plot plan.
3. Flood hazard boundary map (HUD) if available.
4. In lieu of (3) above, other flood plain maps and data from a certified land surveyor or professional engineer.
5. Overall floodlands development plan.

Upon receipt of the permit applications, the Secretary of the Department of Administration or his designee will review the application with other departments, and will (1) deny the permit application; or (2) issue a temporary permit for further development of the project. If a temporary permit is issued, the applicant may proceed with development of detailed planning and specifications, such plans and specifications to be submitted to the Department of Administration for periodic review.

Upon final approval of detailed plans and specifications, the Department of Administration shall issue a permit for construction. In granting or denying permits, the Department shall be guided by the standards, limitations and requirements set forth in this order.

Certificate of Compliance.
