CONSTITUTION

OF THE

State of North Carolina

PREAMBLE

We, the people of the State of North Carolina, grateful to Almighty God, the Sovereign Ruler of Nations, for the preservation of the American Union and the existence of our civil, political and religious liberties, and acknowledging our dependence upon Him for the continuance of those blessings to us and our posterity, do, for the more certain security thereof and for the better government of this State, ordain and establish this Constitution.

ARTICLE I

DECLARATION OF RIGHTS

That the great, general, and essential principles of liberty and free government may be recognized and established, and that the relations of this State to the Union and government of the United States and those of the people of this State to the rest of the American people may be defined and affirmed, we do declare that:

SECTION 1. The equality and rights of persons. We hold it to be self-evident that all persons are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, the enjoyment of the fruits of their own labor, and the pursuit of happiness.

SEC. 2. Sovereignty of the people. All political power is vested in and derived from the people; all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.

SEC. 3. Internal government of the State. The people of this State have the inherent, sole, and exclusive right of regulating the internal government and police thereof, and of altering or abolishing their Constitution and form of government whenever it may be necessary to their safety and happiness; but every such right shall be exercised in pursuance of law and consistently with the Constitution of the United States.

SEC. 4. Secession prohibited. This State shall ever remain a member of the American Union; the people thereof are part of the American nation; there is no right on the part of this State to secede; and all attempts, from whatever source or upon whatever pretext, to dissolve this Union or to sever this Nation, shall be resisted with the whole power of the State.

SEC. 5. Allegiance to the United States. Every citizen of this State owes paramount allegiance to the Constitution and government of the United States, and no law or ordinance of the State in contravention or subversion thereof can have any binding force.

SEC. 6. Separation of powers. The legislative, executive, and supreme judicial powers of the State government shall be forever separate and distinct from each other.
Sec. 7. Suspending laws. All power of suspending laws or the execution of laws by any authority, without the consent of the representatives of the people, is injurious to their rights and shall not be exercised.

Sec. 8. Representation and taxation. The people of this State shall not be taxed or made subject to the payment of any impost or duty without the consent of themselves or their representatives in the General Assembly, freely given.

Sec. 9. Frequent elections. For redress of grievances and for amending and strengthening the laws, elections shall be often held.

Sec. 10. Free elections. All elections shall be free.

Sec. 11. Property qualifications. As political rights and privileges are not dependent upon or modified by property, no property qualification shall affect the right to vote or hold office.

Sec. 12. Right of assembly and petition. The people have a right to assemble together to consult for their common good, to instruct their representatives, and to apply to the General Assembly for redress of grievances; but secret political societies are dangerous to the liberties of a free people and shall not be tolerated.

Sec. 13. Religious liberty. All persons have a natural and inalienable right to worship Almighty God according to the dictates of their own consciences, and no human authority shall, in any case whatever, control or interfere with the rights of conscience.

Sec. 14. Freedom of speech and press. Freedom of speech and of the press are two of the great bulwarks of liberty and therefore shall never be restrained, but every person shall be held responsible for their abuse.

Sec. 16. Ex post facto laws. SEC. 20. General warrants. SEC. 21. Inquiry into restraints on liberty. Every person restrained of his liberty is entitled to a remedy to inquire into the lawfulness thereof, and to remove the restraint if unlawful, and that remedy shall not be denied or delayed. The privilege of the writ of habeas corpus shall not be suspended.

SEC. 22. Modes of prosecution. Except in misdemeanor cases initiated in the District Court Division, no person shall be put to answer any criminal charge but by indictment, presentment, or impeachment. No conviction of treason or attainder shall work corruption of blood or forfeiture.

SEC. 30. Militia and the right to bear arms. A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed; and, as standing armies in time of peace are dangerous to liberty, they shall not be maintained, and the military shall be kept under strict subordination to, and governed by, the civil power. Nothing herein shall justify the practice of carrying concealed weapons, or prevent the General Assembly from enacting penal statutes against that practice.

The further order of succession to the office of Governor shall be prescribed by law. A successor shall serve for the remainder of the term of the Governor whom he succeeds and until a new Governor is elected and qualified.

(2) Succession as Acting Governor. During the absence of the Governor from the State, or during the physical or mental incapacity of the Governor to perform the duties of his office, the Lieutenant Governor shall be Acting Governor. The further order of succession as Acting Governor shall be prescribed by law.

Thereafter, the mental capacity of the Governor to perform the duties of his office shall be determined only by joint resolution adopted by a vote of a majority of all the members of each house of the General Assembly. In all cases, the General Assembly shall give the Governor such notice as it may deem proper and shall allow him an opportunity to be heard before a joint session of the General Assembly before it takes final action. This section shall not be construed to impair the power of the State to issue its bonds and notes within the limitations imposed in Article V of this Constitution, nor to impair the obligation of bonds and notes of the State now outstanding or issued hereafter.

If those changes affect existing law, they shall be set forth in executive orders, which shall be submitted to the General Assembly not later than the sixtieth calendar day of its session, and shall become effective and shall have the force of law upon adjournment sine die of the session, unless specifically disapproved by resolution of either house of the General Assembly or specifically modified by joint resolution of both houses of the General Assembly.

**Sec. 6. Duties of the Lieutenant Governor.** The Lieutenant Governor shall be President of the Senate, but shall have no vote unless the Senate is equally divided. The principle of rotating Superior Court Judges among the various districts of a division is a salutary one and shall be observed. For this purpose the General Assembly may divide the State into a number of judicial divisions. Subject to the general supervision of the Chief Justice of the Supreme Court, assignment of District Judges within each local court district shall be made by the Chief District Judge.

Sec. 12. Jurisdiction of the General Court of Justice.

1. Supreme Court. The Supreme Court shall have jurisdiction to review upon appeal any decision of the courts below, upon any matter of law or legal inference. **Sec. 14. Waiver of jury trial.** In all issues of fact joined in any court, the parties in any civil case may waive the right to have the issues determined by a jury, in which case the finding of the judge upon the facts shall have the force and effect of a verdict by a jury.

**Sec. 15. Administration.** The General Assembly shall provide for an administrative office of the courts to carry out the provisions of this Article.

**Sec. 16. Terms of office and election of Justices of the Supreme Court, Judges of the Court of Appeals, and Judges of the Superior Court.** Justices of the Supreme Court, Judges of the Court of Appeals, and regular Judges of the Superior Court shall be elected by the qualified voters and shall hold office for terms of eight years and until their successors are elected and qualified. Any Justice or Judge against whom the General Assembly may be about to proceed shall receive notice thereof, accompanied by a copy of the causes alleged for his removal, at least 20 days before the day on which either house of the General Assembly shall act thereon. Removal from office by the General Assembly for any other cause shall be by impeachment.

Sec. 4. Limitations upon the increase of local government debt.
(1) Regulation of borrowing and debt. The General Assembly shall enact general laws relating to the borrowing of money secured by a pledge of the faith and credit and the contracting of other debts by counties, cities and towns, special districts, and other units, authorities, and agencies of local government.

(6) Outstanding debt. Except as provided in subsection (4), nothing in this Section shall be construed to invalidate or impair the obligation of any bond, note, or other evidence of indebtedness outstanding or authorized for issue as of July 1, 1973.

Sec. 5. Acts levying taxes to state objects. Every act of the General Assembly levying a tax shall state the special object to which it is to be applied, and it shall be applied to no other purpose.
SEC. 6. Inviolability of sinking funds and retirement funds.

(1) Sinking funds. The General Assembly shall not use or authorize to be used any part of the amount of any sinking fund for any purpose other than the retirement of the bonds for which the sinking fund has been created, except that these funds may be invested as authorized by law.

(2) Retirement funds. Neither the General Assembly nor any public officer, employee, or agency shall use or authorize to be used any part of the funds of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System for any purpose other than retirement system benefits and purposes, administrative expenses, and refunds; except that retirement system funds may be invested as authorized by law, subject to the investment limitation that the funds of the Teachers' and State Employees' Retirement System and the Local Governmental Employees' Retirement System shall not be applied, diverted, loaned to, or used by the State, any State agency, State officer, public officer, or public employee.

Such funds shall be payable from the revenues, gross or net, of any such projects and any other health care facilities of any such governmental entity or nonprofit private corporation pledged therefor; shall not be secured by a pledge of the full faith and credit, or deemed to create an indebtedness requiring voter approval of any governmental entity; and may be secured by an agreement which may provide for the conveyance of title of, with or without consideration, any such project or facilities to the governmental entity or nonprofit private corporation. The power of eminent domain shall not be used pursuant hereto for nonprofit private corporations.

SEC. 9. Capital projects for industry. Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to authorize counties to create authorities to issue revenue bonds to finance, but not to refinance, the cost of capital projects consisting of industrial, manufacturing and pollution control facilities for industry and pollution control facilities for public utilities, and to refund such bonds.

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. All such capital projects and all transactions
therefor shall be subject to taxation to the extent such projects and transactions would be subject to taxation if no public body were involved therewith; provided, however, that the General Assembly may provide that the interest on such revenue bonds shall be exempt from income taxes within the State.

The power of eminent domain shall not be exercised to provide any property for any such capital project.

SEC. 10. **Joint ownership of generation and transmission facilities.** In addition to other powers conferred upon them by law, municipalities owning or operating facilities for the generation, transmission or distribution of electric power and energy and joint agencies formed by such municipalities for the purpose of owning or operating facilities for the generation and transmission of electric power and energy (each, respectively, "a unit of municipal government") may jointly or severally own, operate and maintain works, plants and facilities, within or without the State, for the generation and transmission of electric power and energy, or both, with any person, firm, association or corporation, public or private, engaged in the generation, transmission or distribution of electric power and energy for resale (each, respectively, "a co-owner") within this State or any state contiguous to this State, and may enter into and carry out agreements with respect to such jointly owned facilities. For the purpose of financing its share of the cost of any such jointly owned electric generation or transmission facilities, a unit of municipal government may issue its revenue bonds in the manner prescribed by the General Assembly, payable as to both principal and interest solely from and secured by a lien and charge on all or any part of the revenue derived, or to be derived, by such unit of municipal government from the ownership and operation of its electric facilities; provided, however, that no unit of municipal government shall be liable, either jointly or severally, for any acts, omissions or obligations of any co-owner, nor shall any money or property of any unit of municipal government be credited or otherwise applied to the account of any co-owner or to be charged with any debt, lien or mortgage as a result of any debt or obligation of any co-owner.

(2) **Residence period for presidential elections.** The General Assembly may reduce the time of residence for persons voting in presidential elections. A person made eligible by reason of a reduction in time of residence shall possess the other qualifications set out in
this Article, shall only be entitled to vote for President and Vice President of the United States or for electors for President and Vice President, and shall not thereby become eligible to hold office in this State.

(3) Disqualification of felon. Third, any person who has been adjudged guilty of treason or any other felony against this State or the United States, or any person who has been adjudged guilty of a felony in another state that also would be a felony if it had been committed in this State, or any person who has been adjudged guilty of corruption or malpractice in any office, or any person who has been removed by impeachment from any office, and who has not been restored to the rights of citizenship in the manner prescribed by law.

(1) Prohibitions. It is salutary that the responsibilities of self-government be widely shared among the citizens of the State and that the potential abuse of authority inherent in the holding of multiple offices by an individual be avoided. Therefore, no person who holds
any office or place of trust or profit under the United States or any department thereof, or under any other state or government, shall be eligible to hold any office in this State that is filled by election by the people. No person shall hold concurrently any two offices in this State that are filled by election of the people. CHAPTER 1

AN ACT TO CHANGE THE TIME OF ELECTION, NUMBER AND TERMS OF OFFICE OF THE MEMBERS OF THE BURKE COUNTY PUBLIC SCHOOLS BOARD OF EDUCATION.

Whereas, in the "Plan of Merger and Consolidation of Burke County Board of Education, Morganton Graded School District (Morganton City Schools) and Glen Alpine Graded School District (Glen Alpine City Schools) to Create and Establish One Administrative Unit for All Three of the Burke County School Units in Burke County", dated the 28th day of April, 1969, adopted and having the authority of law pursuant to G.S. 115-74.1, provision was made for the election, number, terms of office, and powers and duties of the members of the Burke County Public Schools Board of Education; and

Whereas, it is in the best interest of the general public of Burke County and public education in Burke County that the Plan of Merger and Consolidation be changed and amended in the form and manner hereinafter set forth; and

Whereas, pursuant to G.S. 115-74.1 the Plan of Merger and Consolidation shall not be changed or amended except by an act of the General Assembly; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. The "Plan of Merger and Consolidation of Burke County Board of Education, Morganton Graded School District (Morganton City Schools) and Glen Alpine Graded School District (Glen Alpine City Schools) and to Create and Establish One Administrative Unit for All Three of the Burke County School Units in Burke County" is rewritten in its entirety to read:

"BURKE COUNTY PUBLIC SCHOOLS BOARD OF EDUCATION.

"Section 1. How constituted. (a) The Burke County Public Schools Board of Education (hereinafter, the 'Board') shall consist of seven members elected by the voters of Burke County at large for terms of four years.

(b) There shall be three Burke County Public Schools Board of Education Election Districts (hereinafter, 'election districts'), designated, respectively, as
CHAPTER 1  Session Laws—1981

the Eastern Election District, the Central Election District, and the Western Election District. The geographical boundaries of the three election districts shall be identical to the ‘high school attendance zones’ established pursuant to the Plan of Merger and Consolidation of Burke County Board of Education, Morganton Graded School District (Morganton City Schools) and Glen Alpine Graded School District (Glen Alpine City Schools) and to Create and Establish One Administrative Unit for All Three of the Burke County School Units in Burke County, (hereinafter, the ‘Old Plan’), as said boundaries exist on the effective date hereof. Thereafter, and from time to time, the geographical boundaries of election districts may be altered and adjusted by the Board so as to include in each roughly equal populations.

   (c) Membership of the Board at all times shall consist of two residents from each election district and one member (referred to as the ‘at large member’) who resides in Burke County, without regard to his residency within a particular election district.

   Sec. 2. How elected. (a) The Board shall be elected on a nonpartisan basis biennially the first Tuesday after the first Monday in November in odd-numbered years. The names of the candidates shall be printed on ballots without reference to any party affiliation, and any qualified voter residing in Burke County shall be entitled to vote such ballots. Except as herein provided, the election shall be held, conducted, and supervised by the Burke County Board of Elections under the laws and regulations providing for the election of county officers.

   (b) The terms of office of the members shall be staggered so as nearly equal one-half as possible shall expire every two years, and the term of one of the two members from each election district shall expire every two years.

   (c) A candidate must have been a resident of the election district for at least 30 days prior to the date of election in order to be eligible to run for a vacated seat in that election district.

   (d) Ballots shall list candidates for membership on the Board and shall designate the specific election district, or at large member’s seat (as the case may be) for which the candidates have filed.

   (e) The candidate receiving the highest number of votes among candidates having filed for election from each respective election district (or in the case of election of two members from an election district, the two candidates receiving the highest number of votes) shall be elected. The candidate receiving the highest number of votes among candidates having filed for election as at large member shall be elected.

   (f) All candidates for membership on the Board shall file with the Burke County Board of Elections a notice of such candidacy at any time after 12:00 noon on the Friday preceding the eighth Saturday and before 12:00 noon on the Friday preceding the fifth Saturday before the date on which the election is to be held. Each candidate shall pay a filing fee of ten dollars ($10.00). Each candidate shall certify in writing that he is a bona fide resident of Burke County and a qualified registered voter therein. Each candidate for election to an election district seat shall, in addition, certify in writing that he is, and has been for 30 days prior to the election, a bona fide resident of the election district he filed to represent. Filings of such notices shall be with the Burke County Board of Elections.
(g) All persons registered and qualified to vote in Burke County in accordance with Chapter 163 of the General Statutes shall be qualified to vote in the election for membership to the Board.

(b) Each member of the Board, elected from and to represent an election district, shall remain a resident of such election district for the term of his office. In the event that a member becomes no longer a resident of such election district, or in the event that the boundaries of the election districts are changed so that he is no longer a resident within such election district, then his term of office on the Board shall expire and his seat shall be vacated.

(i) In the event of a vacancy on the Board by reason of death, resignation, failure to meet the election district residency requirement, or for any other reason other than expiration of the regular term (hereinafter referred to as a ‘vacated seat’), the remaining members of the Board shall elect a qualified person to serve in the vacated seat (such person being herein referred to as the ‘replacement member’). If such vacated seat is that of a member elected to represent an election district, the replacement member shall be a person qualified to be elected to represent the election district of the vacated seat. The term of office of the replacement member shall in all cases expire on the date of the next election of members of the Board. If the term of office of the holder of the vacated seat would have otherwise expired as of the date of the next election, there shall be elected for said seat at the next election a member whose term shall be the regular four years. If, however, the term of office of the holder of the vacated seat would have otherwise expired as of the date of the second succeeding election (i.e., said term having more than two years remaining as of the time the seat is vacated), there shall be elected for said seat at the next election a member whose term shall be two years. If in such latter case there is the necessity of electing at one election two members to represent one election district, the candidate from said election district receiving the highest number of votes shall serve a term of four years, and the candidate from said election district receiving the second highest number of votes shall serve a term of two years.

(j) Notwithstanding the foregoing provisions of this section, it is provided as follows:

(1) Pursuant to the Old Plan, the terms of office of four of the 12 members of the Burke County Public Schools Board of Education (hereinafter, the ‘Old Board’) shall expire at 12:00 noon on the first Monday of April, 1981. There shall be no election of board members in March, 1981 (as would otherwise have been pursuant to the Old Plan). From and after said time and date and continuing through 12:00 noon on the first Monday in December, 1981, the Old Board shall consist of the eight members remaining thereupon. The provisions of the Old Plan as to selection and duties of a chairman and vice-chairman, voting rights of chairman, filling of vacant seats, and such other provisions of the Old Plan as may reasonably be appropriate for the conduct of said Old Board business shall continue in effect until 12:00 noon on the first Monday in December, 1981; provided, however, that five members of the full membership of said eight-member Old Board shall constitute a quorum, and such quorum shall be necessary to transact any official business of the Old Board.
(2) The terms of office of those persons elected to the Old Board pursuant to the Old Plan whose terms were due to expire under the Old Plan on March 31, 1983, are shortened and shall end at 12:00 noon on the first Monday in December, 1981.

(3) The terms of office of those persons elected to the Old Board pursuant to the Old Plan whose terms were due to expire under the Old Plan on March 31, 1985, are shortened and shall end at 12:00 noon on the first Monday in December, 1983.

(4) For purposes of this subsection, persons elected pursuant to the Old Plan to represent, respectively, the eastern, central, and western 'high school attendance zones' shall be deemed to occupy the respective seats from the Eastern, Central, and Western Election Districts.

(5) There shall be elected in the November, 1981, election, to be conducted pursuant to the provisions hereof, one person from, and to represent, the Eastern, Central, and Western Election Districts.

(6) At the meeting of the Board on the first Monday in December, 1981, lots shall be drawn so as to determine as between the two members elected pursuant to the Old Plan to represent the eastern 'high school attendance zones' which of them shall thereafter be deemed to have been elected to represent the Eastern Election District, and which of them shall thereafter be deemed to have been elected to the at-large seat. Said determination shall be recorded in the minutes of the meeting and, said members shall serve in accordance therewith.

Sec. 3. Members to qualify. Those persons who shall be elected members of the Board must qualify by taking the oath of office on or before the first Monday in December next succeeding their election. A failure to qualify within that time shall constitute a vacancy which shall be filled as set out in Section 2, subsection (i). Those persons appointed to fill a vacancy must qualify within 30 days after notification. A failure to qualify within that time shall constitute a vacancy.

Sec. 4. Organization of Board. At the first meeting of the Board in December of each year, the members of the Board shall organize by electing one of their members as chairman and one of their members as vice-chairman, each to serve in said office for a period of one year or until his successor is elected and qualified. The chairman, or in his absence or sickness, the vice-chairman, shall preside at the meetings of the Board. In the event of absence or sickness of both the chairman and vice-chairman, the Board may appoint one of its members as temporary chairman. The Superintendent of the Burke County Public Schools shall be ex officio secretary to the Board but shall have no vote. In the event of a vacancy in the superintendency, the Board may elect one of its members to serve temporarily as secretary to the Board.

Sec. 5. Quorum. Four members of the full membership of the Board shall constitute a quorum, and such quorum shall be necessary to transact any official business of the Board.

Sec. 6. Compensation of Board members. Upon approval of the Board, individual members of the Board shall be compensated for travel or subsistence when such expenditure occurs in connection with the conduct of official Board business. (This section shall not constitute a limitation upon the provisions of G.S. 115-29.)
Sec. 7. Legal status as body corporate; title to property; obligations. For the purposes of title to property, both real and personal, obligations and rights pursuant to contractual and other agreements, and all other matters involving its legal status or character as a body politic and corporate, the Board shall be deemed to be, and is the same body politic and corporate as the Burke County Public Schools Board of Education referred to in the Old Plan.

Sec. 8. Powers and duties. In addition to the powers and duties of the Board herein set forth, the Board shall have, possess, and be charged with all of the powers and duties of boards of education provided for in Chapter 115 of the General Statutes of North Carolina which are not inconsistent or in conflict herewith. Each of the provisions of said Chapter 115 shall apply to the conduct of the Board of its official business and its operation of the Burke County Public Schools except as to such matters for which specific provision is made herein.

H. B. 45  CHAPTER 46
AN ACT TO ADOPT FOR NORTH CAROLINA INCOME TAX PURPOSES THE INSTALLMENT SALES REVISION ACT OF 1980, SO AS TO SIMPLIFY CAPITAL GAINS TAX TREATMENT.

The General Assembly of North Carolina enacts:

Section 1. G.S. 105-142(f) is rewritten to read:

“(f) Installment Method.

(1) General Rule. Except as otherwise provided in this subsection, income from an installment sale shall be taken into account for purposes of this division under the installment method.

(2) Installment Sale Defined. For purposes of this subsection:

a. In General. The term ‘installment sale’ means a disposition of property where at least one payment is to be received after the close of the taxable year in which the disposition occurs.

b. Exceptions. The term ‘installment sale’ does not include:

1. Dealer Disposition of Personal Property. A disposition of personal property on the installment plan by a person who regularly sells or otherwise disposes of personal property on the installment plan.
2. Inventories of Personal Property. A disposition of personal property of a kind which is required to be included in the inventory of the taxpayer if on hand at the close of the taxable year.

(3) Installment Method Defined. For purposes of this subsection, the term ‘installment method’ means a method under which the income recognized for any taxable year from a disposition is that proportion of the payments received in that year which the gross profit (realized or to be realized when payment is completed) bears to the total contract price.

(4) Election Out.
   a. In General. Subdivision (1) shall not apply to any disposition if the taxpayer elects to have subdivision (1) not apply to such disposition.
   b. Time and Manner for Making Election. Except as otherwise provided by the Secretary of Revenue, an election under paragraph ‘a’ with respect to a disposition may be made only on or before the due date prescribed by law (including extension) for filing the taxpayer’s return of the tax imposed by this division for the taxable year in which the disposition occurs. Such an election shall be made in the manner prescribed by the Secretary.
   c. Election Revocable Only with Consent. An election under paragraph ‘a’ with respect to any disposition may be revoked only with the consent of the Secretary.

(5) Definitions and Special Rules. For purposes of this subsection:
   a. Marketable Securities. The term ‘marketable securities’ means any security for which, as of the date of the disposition, there was a market on an established securities market or otherwise.
   b. Payment. Except as provided in paragraph ‘c’ the term ‘payment’ does not include the receipt of evidences of indebtedness of the person acquiring the property (whether or not payment of such indebtedness is guaranteed by another person).
   c. Purchaser Evidences of Indebtedness Payable on Demand or Readily Tradable. Receipt of a bond or other evidence of indebtedness which
      1. is payable on demand, or
      2. is issued by a corporation or a government or political subdivision thereof and is readily tradable, shall be treated as receipt of payment.
   d. Readily Tradable Defined. For purposes of paragraph ‘c’, the term ‘readily tradable’ means a bond or other evidence of indebtedness which is issued
      1. with interest coupons attached or in registered form (other than one in registered form which the taxpayer establishes will not be readily tradable in an established securities market), or
      2. in any other form designed to render such bond or other evidence of indebtedness readily tradable in an established securities market.
   e. Like-Kind Exchanges. In the case of any exchange described in G.S. 105-145(a):
      1. the total contract price shall be reduced to take into account the amount of any property permitted to be received in such exchange without recognition of gain,
      2. the gross profit from such exchange shall be reduced to take into account any amount not recognized by reason of G.S. 105-145(a), and
3. the term 'payment' shall not include any property permitted to be received in such exchange without recognition of gain.

(6) Use of Installment Method by Shareholders in Section 337 of the Internal Revenue Code Liquidations:

a. Receipt of Obligations Not Treated as Receipt of Payment:

1. In General. If, in connection with a liquidation to which Section 337 of the Internal Revenue Code applies, in a transaction to which Section 331 of the Internal Revenue Code applies the shareholder receives (in exchange for the shareholder's stock) an installment obligation acquired in respect of a sale or exchange by the corporation during the 12-month period set forth in Section 337(a) of the Internal Revenue Code, then, for purposes of this subsection, the receipt of payments under such obligation (but not the receipt of such obligation) by the shareholder shall be treated as the receipt of payment for the stock.

2. Obligations Attributable to Sale of Inventory Must Result From Bulk Sale. Subparagraph 1, shall not apply to an installment obligation described in Section 337(b)(1)(B) of the Internal Revenue Code unless such obligation is also described in Section 337(b)(2)(B) of the Internal Revenue Code.

3. Sales by Liquidating Subsidiary. For purposes of subparagraph 1, in any case to which Section 337(c)(3) of the Internal Revenue Code applies, an obligation acquired in respect of a sale or exchange by the selling corporation shall be treated as so acquired by the corporation distributing the obligation to the shareholder.

b. Distributions Received in More Than One Taxable Year of Shareholder. If:

1. paragraph 'a' applies with respect to any installment obligation received by a shareholder from a corporation and

2. by reason of the liquidation such shareholder receives property in more than one taxable year,

then, on completion of the liquidation, basis previously allocated to property so received shall be reallocated for all such taxable years so that the shareholder's basis in the stock of the corporation is properly allocated among all property received by such shareholder in such liquidation.

(7) Rules:

a. In General. The Secretary shall prescribe such rules as may be necessary or appropriate to carry out the provisions of this section.

b. Selling Price Not Readily Ascertainable. The rules prescribed under paragraph a, shall include rules providing for ratable basis recovery in transactions where the gross profit or the total contract price (or both) cannot be readily ascertained.

(8) Installment Method for Dealers in Personal Property.

a. General Rule.

1. In General. Under rules prescribed by the Secretary, a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price.
2. Total Contract Price. For purposes of paragraph 1., the total contract price of all sales of personal property on the installment plan includes such sales and is added on the books of account of the seller to the established cash selling price of such property. This paragraph shall not apply with respect to sales of personal property under a revolving credit type plan.

b. Carrying Charges Not Included in Total Contract Price. If the carrying charges or interest with respect to sales of personal property, the income from which is returned under subdivision a.l., is not included in the total contract price, payments received with respect to such sales shall be treated as applying first against such carrying charges or interest.

(9) Gain or Loss on Disposition of Installment Obligation.

a. General Rule. If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and
1. the amount realized, in the case of satisfaction at other than face value or a sale or exchange, or
2. the fair market value of the obligation at the time of distribution, transmission, or disposition, in the case of the distribution, transmission, or disposition otherwise than by sale or exchange. Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received.

b. Basis of Obligation. The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

c. Special Rule for Transmission at Death. Except as provided in G.S. 105-142.1 (relating to recipients of income in respect of decedents), this subsection shall not apply to the transmission of installment obligations at death.

(10) Obligation Becomes Unenforceable. For purposes of this subsection, if any installment obligation is canceled or otherwise becomes unenforceable the obligation shall be treated as if it were disposed of in a transaction other than a sale or exchange."

Sec. 2. G.S. 105-144(b) is amended by adding the following new language at the end:

"Provided also, that if an individual receives an installment obligation in liquidation under the provisions of Section 337 of the Internal Revenue Code, the gain realized shall be reported in accordance with G.S. 105-142(f)."

Sec. 3. G.S. 105-142.1 is amended by adding a new subsection to read:

"(f) Other Rules Relating to Installment Obligations.

(1) In General. In the case of an installment obligation reportable by the decedent on the installment method under G.S. 105-142, for purposes of subsection (b) of this section;

a. the second sentence of subsection (b) of this section shall be applied by inserting '(other than the obligor)' after 'or a transfer to a person',

27
b. any cancellation of such an obligation shall be treated as a transfer, and

c. any cancellation of such an obligation occurring at the death of the decedent shall be treated as a transfer by the estate of the decedent (or, if held by a person other than the decedent before the death of the decedent, by such person).

(2) Cancellation Includes Becoming Unenforceable. For purposes of paragraph (1) of this subsection, an installment obligation which becomes unenforceable shall be treated as if it were cancelled."

Sec. 4. This act shall become effective for dispositions made after October 19, 1980, for taxable years ending after October 19, 1980, except:

(1) G.S. 105-142(f)(6) shall apply in the case of distributions of installment obligations after March 31, 1980;

(2) G.S. 105-142(f)(8) shall apply to taxable years ending after October 19, 1980;

(3) G.S. 105-142(f)(10) shall apply to installment obligations becoming unenforceable after October 19, 1980;

(4) Section 3 of this act shall apply in the case of decedents dying after October 19, 1980;

(5) In the case of any disposition made on or before October 19, 1980, in any taxable year ending after that date, the provisions of G.S. 105-142(f)(2) as they existed before October 19, 1980, shall be applied with respect to such disposition without regard to the first proviso of that subdivision and without regard to any requirement that more than one payment be received.

North Carolina excludes from property taxes the first seven thousand five hundred dollars ($7,500) in assessed value of certain property owned by North Carolina residents aged 65 or older or totally and permanently disabled whose disposable income does not exceed nine thousand dollars ($9,000). (b) Authorization. If the city council finds that it is likely to have a significant effect on the revitalization of the central business district, the city may acquire, construct, own, and operate or participate in the acquisition, construction, ownership, and operation of an uptown development project or of specific facilities within such a project. The city may enter into binding contracts with one or more private developers with respect to acquiring, constructing, owning, or operating such a project. (d) Property disposition. In connection with an uptown development project, the city may lease or convey interests in property owned by it, including air

In each election, the candidate for Mayor who receives the largest number of votes cast for Mayor shall be declared elected for a term of four years and at the regular municipal election held in 1979 the three candidates who receive the highest number of votes shall be elected for four-year terms and the two candidates who receive the next highest votes shall be elected for two-year terms. Beginning at the regular municipal election to be held in 1981 and every four years thereafter, two members of the Board of Aldermen shall be elected to serve four-year terms. Beginning at the regular municipal election to be held in 1983, and every four years thereafter, three members of the Board of Aldermen shall be elected to serve four-year terms.

"Sec. 4.2. Regulation of elections. All Town elections shall be conducted in accordance with the general laws of North Carolina relating to municipal elections.

"Sec. 4.3 - 4.8 (Reserved).

"Chapter 2. Recall of Elected Officials.

"Sec. 4.9. Removal of officeholders. The holder of any elective office serving in the municipal government of the Town may be removed at any time by the electors qualified to vote for a successor of such incumbent.

"Sec. 4.10. Procedure. (a) A petition signed by electors entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five percentum (25%) of the registered and qualified voters of the Town, demanding an election of a successor of the person sought to be removed, shall be filed with the Town Clerk. The petition shall contain a general statement of the ground for which the removal is sought. The signatures to the petition need not all be appended to one paper, but each signer shall add to his or her
signature his or her place of residence, giving the street and number. One of the signers of each such paper shall make oath before an officer competent to administer oaths that the statements therein made are true, as he believes, and that each signature to the paper appended is the genuine signature of the person whose name it purports to be.

(b) Within 10 days from the date of filing of such petition, the Town Clerk shall examine and from the voters' register ascertain whether or not the petition is signed by the requisite number of qualified electors, and he shall attach to the petition his certificate, showing the results of such examination. If by the clerk's certificate it is shown to be insufficient, it may be amended within 10 days from the date of the certificate. The clerk shall, within 10 days after such amendment, make a like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same, without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be deemed to be sufficient, the clerk shall submit the same to the Town Board without delay.

(c) If the petition shall be found to be sufficient, the Town Board shall order and fix a date for holding a primary election, in accordance with State law governing special elections. If, in the primary election, any candidate receives a majority of all votes cast, he shall be declared to be elected to fill out the remainder of the term of the officer who is sought to be recalled. If there be more than two candidates in such primary and no one receives a majority of all the votes cast therein, then the Board shall call another election, to be held in accordance with State law governing special elections, at which election the two candidates receiving the highest vote in the primary shall be voted upon. Insofar as possible, the laws, rules and procedures governing the conduct of regular municipal elections shall apply to any election called pursuant to this section.

"Sec. 4.11. Successor in office. The successor of any officer so removed shall hold office during the unexpired term of his or her predecessor. Any person sought to be removed may be a candidate to succeed himself, and unless he or she requests otherwise in writing, the clerk shall place his or her name on the official ballot without nomination. At such election, if some person other than the incumbent is elected the incumbent shall thereupon be deemed removed from the office upon qualification of his or her successor. If the incumbent received a majority of the votes in the primary election, he or she shall continue in office.

"Sec. 4.12. Failure to qualify. In case the person elected should fail to qualify within 10 days after receiving notification of election, the office shall be deemed vacant. In that event, the unexpired term shall be filled by appointment by the Town Board, but the person removed shall not be eligible for appointment. The person so appointed by the Board shall be subject to recall as other members of the Board.

"Sec. 4.13. Right of recall continued. Such method of removal shall be cumulative and additional to any other method provided by law. In the event any officer is recalled and any person is elected as his successor, the right of recall of such successor so elected shall be as in the case of an officer originally elected.

the institution to comply with the provisions of this Article or rules and
regulations issued pursuant hereto.

(b) Approval of budget by State Board of Community Colleges. Not later than
10 days after notification by the local tax-levying authority of the amount

115D-45(b). The State Board of Community Colleges shall approve the budget
for each institution in such amount as the State Board decides is available and
necessary for the operation of the institution.

The State Board of Community Colleges shall have authority to call for all
books, records, audit reports and other information bearing on the financial
operation of the institution except records dealing with specific persons for
which the persons' rights of privacy are protected by either federal or State law.

Nothing in this Article shall be construed to place a duty on the State Board
of Community Colleges to fund a deficit incurred by an institution through
failure of the institution to comply with the provisions of this Article or rules and regulations issued pursuant hereto.

"§ 115D-47. Final adoption of budget.—Upon notification of approval by the State Board of Community Colleges, the board of trustees shall adopt a budget resolution as defined in the budget manual as adopted by the State Board of Community Colleges, which shall comply with the resolution of the State Board and the appropriations of the tax-levying authorities and all other funding agencies.

"§ 115D-48. Interim budget.—In case the adoption of the budget resolution is delayed until after July 1, the board of trustees shall authorize the president, through interim provisions, to pay salaries and the other ordinary expenses of the institution for the interval between the beginning of the fiscal year and the adoption of the budget resolution. Interim provisions so made shall be charged to the proper allocations in the budget resolution.

"§ 115D-49. Amendments to the budget; budget transfers.—(a) The State Board of Community Colleges shall adopt rules and regulations governing the amendment of the budget for an institution. The board of trustees may amend the budget at any time after its adoption pursuant to the rules and regulations of the State Board.

(b) If the local tax-levying authority allocates part or all of an appropriation pursuant to G.S. 115D-46, the board of trustees must obtain approval of the local tax-levying authority for an amendment to the budget which increases or decreases the amount of that appropriation allocated to a purpose, function, or project by twenty-five percent (25%) or more from the amount contained in the budget ordinance adopted by the local tax-levying authority or such lesser percentage as specified by the local tax-levying authority in the original budget ordinance, so long as such percentage is not less than ten percent (10%).

(c) The board of trustees may, by appropriate resolution, authorize the president to transfer monies from one appropriation to another within the same fund, subject to any limitations established by regulations adopted pursuant to this section, and subject to any limitations and procedures prescribed by the board of trustees or State or federal laws or regulations. Any such transfer shall be reported to the board of trustees at its next regular meeting and entered into its minutes.

"§ 115D-50. Federal contracts and grants.—The board of trustees of any institution may apply for and accept grants from the federal government or any agency thereof, in order to carry out the institution's mission. In exercising this authority, the board of trustees may enter into and carry out contracts with the federal government or any agency thereof, may agree to and comply with any lawful and reasonable condition attached to such a grant, and may make expenditures from any funds so granted. The State Board of Community Colleges shall adopt rules and regulations governing the application for and the acceptance of grants under this section.

"§ 115D-51. Allocation of revenue to the institution by the local tax-levying authority.—(a) The local tax-levying authority of each institution shall provide, as needed, funds to meet the monthly expenditures, including salaries and other necessary operating expenses, as set forth in a statement prepared by the board of trustees and in accordance with the approved budget. Upon the basis of the approved budget, the county finance officer shall make available to the
institutions the monies requested by the board of trustees no later than the 15th
day of the month for which funds are requested.

(b) Funds received by the trustees of an institution from insurance payments
for loss or damage to buildings shall be used for the repair or replacement of
such buildings, or, if the buildings are not repaired or replaced, to reduce
proportionally the institutional indebtedness borne by the counties of the
administrative area of the institution receiving the insurance payments. If such
payments, which are not used to repair or replace institutional buildings, exceed
the total institutional indebtedness borne by all counties of the administrative
area, such excess funds shall remain to the credit of the institution and shall be
applied to the next succeeding plant fund budget until the excess funds shall be
expended. Funds received by the trustees of an institution for loss or damage to
the contents of buildings shall be divided between the board of trustees and the
State Board of Community Colleges in proportion to the value of the lost
contents owned by the board of trustees and the State, respectively. Until these
funds shall have been expended, they shall either be used for repair or
replacement of lost contents or be credited to the institution for succeeding
plant and current expense budgets as appropriate.

"§115D-52. Provision for disbursement of State money.—The deposit of
money in the State Treasury to the credit of the institution shall be made in
monthly installments, and additionally as necessary, at such time and in such
manner as may be convenient for the operation of the community college
system. Before an installment is credited, the institution shall certify to the
Department of Community Colleges, the expenditures to be made by the
institution from the State Current Fund during the month.

The Department of Community Colleges shall determine whether the
monies requisitioned are due the institution, and upon determining the amount
due, shall cause the requisite amount to be credited to the institution. Upon
receiving notice from the Department of Community Colleges that the amount
has been placed to the credit of the institution, the institution may issue State
warrants up to the amount so certified. Money in the State Current Fund and
other monies made available by the State Board of Community Colleges shall
be released only on warrants drawn on the State Treasurer, signed by two
officials of the institution designated for this purpose by the board of trustees.

"§115D-53. Provisions for disbursement of local money.—All local public
funds received by or credited to an institution shall be disbursed on checks
signed by the two officials of the institution who shall have been designated by
the board of trustees. The officials so designated shall countersign a check only
if the funds required by such check are within the amount of funds remaining to
the credit of the institution and are within the unencumbered balance of the
appropriation for the item of expenditure according to the approved budgets of
the institution. Each check shall be accompanied by an invoice, statement,
voucher, or other basic document which indicates, to the satisfaction of the
signing officials, that the issuance of such check is proper.

"§115D-54. Accounting system.—(a) Each institution shall establish and
maintain an accounting system consistent with procedures as prescribed by the
Department of Community Colleges and the State Auditor, which shows its
assets, liabilities, equities, revenues, and expenditures.

(b) Each institution shall be governed in its purchasing of all supplies,
equipment, and materials by contracts made by or with the approval of the
Purchase and Contract Division of the Department of Administration. No contract shall be made by any board of trustees for purchases unless provision has been made in the budget of the institution to provide payment thereof. In order to protect the State purchase contracts, it is the duty of the board of trustees and administrative officers of each institution to pay for such purchases promptly in accordance with the contract of purchase. Equipment shall be titled to the State Board of Community Colleges if derived from State or federal funds.

(c) The State Auditor shall be responsible for conducting annually an audit of the receipts, expenditures, and fiscal transactions of each institution in addition to any other power and duty currently or hereafter conferred on him by statute. He shall in the administration of this Article consult with and advise the State Board of Community Colleges on matters relating to the administration of the budgets and fiscal affairs of the community college system.

"§ 115D-55. Investment of idle cash.—(a) The institution may deposit at interest or invest all or part of the cash balance of any fund in an official depository of the institution. The institution shall manage investments subject to whatever restrictions and directions the board of trustees may impose. The institution shall have the power to purchase, sell, and exchange securities on behalf of the board of trustees. The investment program shall be so managed that investments and deposits can be converted into cash when needed.

(b) Monies may be deposited at interest in any bank or trust company in this State in the form of certificates of deposit or such other forms of time deposits as may be approved for county governments. Investment deposits shall be secured as provided in G.S. 159-31(b).

(c) Monies may be invested in the form of investments pursuant to G.S. 159-30(c) to county governments and no others. Money in endowment funds may be invested pursuant to G.S. 147-69.2. Provided, however, the institution may elect to deposit at interest any local funds with the State Treasurer for investment as special trust funds pursuant to the provisions of G.S. 147-69.3, and the interest thereon shall accrue to the institution as local funds.

(d) Investment securities may be bought, sold, and traded by private negotiation, and the institutions may pay all incidental costs thereof and all reasonable costs of administering the investment and deposit program from local funds. The institution shall be responsible for their safekeeping and for keeping accurate investment accounts and records.

(e) Interest earned on deposits and investments shall be credited to the fund whose cash is deposited or invested. Cash of several funds may be combined for deposit or investment if not otherwise prohibited by law; and when such joint deposits or investments are made, interest earned shall be prorated and credited to the various funds on the basis of the amounts thereof invested, figured according to an average periodic balance or some other sound accounting principle. Interest earned on the deposit or investment of bond funds shall be deemed a part of the bond proceeds.

122
(f) Registered securities acquired for investment may be released from registration and transferred by signature of the official designated by the board of trustees.

"§ 115D-56. Selection of depository; deposits to be secured.—(a) Each board of trustees shall designate as the official depositories of the institution one or more banks or trust companies in this State. It shall be unlawful for any money belonging to an institution, other than monies required to be deposited with the State Treasurer, to be deposited in any place, bank, or trust company other than an official depository except as permitted in G.S. 115D-55(b). However, public monies may be deposited in official depositories in Negotiable Order of Withdrawal (NOW) accounts where permitted by applicable federal or State regulations.

(b) Money deposited in an official depository or deposited at interest pursuant to G.S. 115D-55(b) shall be secured in the manner prescribed in G.S. 159-31(b). When deposits are secured in accordance with this subsection, no public officer or employee may be held liable for any losses sustained by an institution because of the default or insolvency of the depository.

"§ 115D-57. Facsimile signatures.—The board of trustees may provide by appropriate resolution for the use of facsimile signature machines, signature stamps, or similar devices in signing checks and drafts. The board shall charge some bonded officer or employee with the custody of the necessary machines, stamps, plates, or other devices, and that person and the sureties on his official bond are liable for any illegal, improper, or unauthorized use of them. Rules and regulations governing the use and control of the facsimile signature shall be adopted by the State Board of Community Colleges.

"§ 115D-58. Daily deposits.—All monies regardless of source or purpose collected or received by an officer, employee, or agent of an institution shall be deposited intact in accordance with this section. Each officer, employee and agent of an institution whose duty it is to collect or receive any monies shall deposit his collections and receipts daily. If the board of trustees gives its approval, deposits may be required only when the monies on hand amount to as much as two hundred fifty dollars ($250.00), but in any event, a deposit shall be made on the last business day of the month. All deposits shall be made in an official depository. Tuition and all revenues declared by law to be State monies or otherwise required to be deposited with the State Treasurer shall be deposited pursuant to the rules of the State Treasurer pursuant to G.S. 147-77.

"§ 115D-58.1. Surety bonds.—The State Board of Community Colleges shall determine what State employees and employees of institutions shall give bonds for the protection of State funds and property and the State Board is authorized to place the bonds and pay the premiums thereon from State funds.

The board of trustees of each institution shall require all institutional employees authorized to draw or approve checks or vouchers drawn on local funds, and all persons authorized or permitted to receive institutional funds from whatever source, and all persons responsible for or authorized to handle institutional property, to be bonded by a surety company authorized to do business with the State in such amount as the board of trustees deems sufficient for the protection of such property and funds. The tax-levying authority of each institution shall provide the funds necessary for the payment of the premiums of such bonds.
"§ 115D-58.2. Fire and casualty insurance on institutional buildings and contents.—(a) The board of trustees of each institution, in order to safeguard the investment in institutional buildings and their contents, shall:

(1) Insure and keep insured each building owned by the institution to the extent of the current insurable value, as determined by the insured and insurer, against loss by fire, lightning, and the other perils embraced in extended coverage.

(2) Insure and keep insured equipment and other contents of all institutional buildings that are the property of the institution or the State or which are used in the operation of the institution.

(b) The tax-levying authority of each institution shall provide the funds necessary for the purchase of the insurance required in G.S. 115D-58.2(a).

(c) Boards of trustees may purchase insurance from companies duly licensed and authorized to sell insurance in this State or may obtain insurance in accordance with the provisions of Article 16, Chapter 115, of the General Statutes, 'State Insurance of Public School Property'.

"§ 115D-58.3. Liability insurance; tort actions against boards of trustees.—(a) Boards of trustees may purchase liability insurance only from companies duly licensed and authorized to sell insurance in this State. Each contract of insurance must, by its terms, adequately insure the board of trustees against any and all liability for any damages by reason of death or injury to person or property proximately caused by the negligence or torts of the agents and employees of such board of trustees or institution when acting within the scope of their authority or the course of their employment. Any company which enters into such a contract of insurance with a board of trustees by such act waives any defense based upon the governmental immunity of such board.

(b) Any person sustaining damages, or in case of death, his personal representative, may sue a board of trustees insured under this section for the recovery of such damages in any court of competent jurisdiction in this State, but only in a county of the administrative area of the institution against which the suit is brought; and it shall be no defense to any such action that the negligence or tort complained of was in pursuance of a governmental, municipal, or discretionary function of such board of trustees, to the extent that such board is insured as provided by this section.

(c) Nothing in this section shall be construed to deprive any board of trustees of any defense whatsoever to any action for damages, or to restrict, limit, or otherwise affect any such defense; and nothing in this section shall be construed to relieve any person sustaining damages or any personal representative of any decedent from any duty to give notice of such claim to the board of trustees or commence any civil action for the recovery of damages within the applicable period of time prescribed or limited by law.

(d) No part of the pleadings which relate to or allege facts as to a defendant's insurance against liability shall be read or mentioned in the presence of the trial jury in any action brought pursuant to this section. Liability shall not attach unless the plaintiff shall waive the right to have all issues of law and fact relating to insurance in such action determined by a jury, and such issues shall be heard and determined by the judge without resort to a jury, and the jury shall be absent during any motions, arguments, testimony, or announcements of findings of fact or conclusions of law with respect thereto, unless the defendant shall request jury trial thereon.
(e) The board of trustees of all institutions in this Chapter is authorized to pay as a necessary expense the lawful premiums of liability insurance provided in this section."

Provided, the State Board may, on an equal matching-fund basis from appropriations made by the State for the purpose, grant funds to individual institutions for the purchase of land, construction and remodeling of institutional buildings determined by the State Board to be necessary for the instructional programs or administration of such institutions. For the purpose of determining amount of matching State funds, local funds shall include expenditures made prior to the enactment of this Chapter or prior to an institution becoming a community college or technical institute pursuant to the provisions of this Chapter, when such expenditures were made for the purchase of land, construction, and remodeling of institutional buildings subsequently determined by the State Board to be necessary as herein specified, and provided such local expenditures have not previously been used as the basis for obtaining matching State funds under the provisions of this Chapter or any other laws of the State.

(2) Current operating expenses:

Amount of matching funds to be provided by the State under this section shall be determined as follows: The population of the administrative area in which the regional institution is located shall be called the 'local factor', the combined populations of all other counties served by the institution shall be called the 'State factor'. When the budget for the items listed in G.S. 115D-32(a)(2)a. has been approved under the procedures set out in G.S. 115D-45, the administrative area in which the regional institution is located shall provide a percentage to be determined by dividing the local factor by the sum of the local factor and the State factor. The State shall provide a percentage of the necessary funds to meet this budget, the percentage to be determined by dividing the State factor by the sum of the local factor and the State.
factor. If the local administrative area provides less than its proportionate share, the amount of State funds provided shall be reduced by the same proportion as were the administrative area funds. Wherever the word 'population' is used in this subdivision, it shall mean the population of the particular area in accordance with the latest United States census.

(b) The State Board is authorized to accept, receive, use, or reallocate to the institutions any federal funds or aids that have been or may be appropriated by the government of the United States for the encouragement and improvement of any phase of the programs of the institutions."

Sec. 2. Chapter 532, Session Laws of 1975 is amended by adding a new section to read:

"Sec. 1.1(a) Beginning with the 1982 primary election and biennially thereafter, each candidate elected in the primary election as herein provided for shall be elected for a term of four years. The election shall be held on the date of the primary election as determined by G.S. 163-1(b). The election shall be conducted under the nonpartisan election and runoff election method, and determined by a majority of the votes cast.

(b) A majority within the meaning of this section shall be determined as follows:

When more than one person is seeking election to a single office, the majority shall be ascertained by dividing the total vote cast for all candidates by two. Any excess of the sum so ascertained shall be a majority, and the candidate who obtains a majority shall be declared elected.

(c) If no candidate for a single office receives a majority of the votes cast, a runoff election shall be held as herein provided:

If no candidate for a single office receives a majority of the votes cast, a runoff election shall be held unless the candidate receiving the second highest number of votes withdraws under subsection (d) of this section. If such a request is made, then the candidate receiving the highest number of votes shall be declared elected. In the runoff election only the names of the two candidates who received the highest and next highest number of votes shall be printed on the ballot.

(d) The canvass of the first election shall be held on the Thursday after the election. If any candidate is entitled to withdraw under subsection (c) of this section he must do so by filing a written withdrawal with the board of elections no later than 12:00 noon on the Monday after the result of the first election has been officially declared.

(e) Tie votes; how determined:

(1) If there is a tie for the highest number of votes in a first election, the board of elections shall conduct a recount and declare the results. If the recount shows a tie vote, a runoff election between the two shall be held unless one of the candidates, within three days after the result of the recount has been officially declared, files a written notice of withdrawal with the board of elections. Should that be done, the remaining candidate shall be declared elected.

(2) If one candidate receives the highest number of votes cast in a first election, but short of a majority, and there is a tie between two or more of the other candidates receiving the second highest number of votes,
the board of elections shall declare the candidate having the highest number of votes to be elected, unless all but one of the tied candidates give written notice of withdrawal to the board of elections within three days after the result of the first election has been officially declared. If all but one of the tied candidates withdraw within the prescribed three-day period, a runoff election shall be held between the candidate who received the highest vote and the remaining candidate who received the second highest vote, unless the remaining candidate who received the second highest vote withdraws.

(f) Runoff elections shall be held on the date fixed in G.S. 163-111(e). The runoff election shall be held under the laws, rules, and regulations provided for the first election.

(g) A second runoff election shall not be held. The candidates receiving the highest number of votes in a runoff election shall be elected. If in a runoff election there is a tie for the highest number of votes between two candidates, the board of elections shall determine the winner by lot."

Sec. 3. The first two sentences of Section 4 of Chapter 532, Session Laws of 1975 are rewritten to read:

"The members representing the various districts on the Buncombe County Board of Education shall be residents of these said districts and shall file with the County Board of Elections of Buncombe County a notice of candidacy during the period prescribed by G.S. 163-106(c) which shall give the candidate's name, address, place of residence and a statement that he desires to be a candidate for membership on the said Buncombe County Board of Education for the district in which he resides. The election of said members of said board of education shall be by nonpartisan election. The Board of Elections of Buncombe County shall prepare a separate ballot for the election of said members which shall, among other things, contain the name of the candidate, the school district that he desires to represent and shall not contain any reference to party affiliation in any manner or form."

Sec. 5. Section 7 of Chapter 532, Session Laws of 1975 is amended by deleting the words "and general".

Sec. 6. This act is effective upon ratification except that Section 4 shall become effective July 1, 1986.

In the General Assembly read three times and ratified, this the 3rd day of April, 1981.
The General Assembly of North Carolina enacts:

Section 1. G.S. 15A-1340.4(a) is amended by deleting the third and fourth sentences and the lists of aggravating and mitigating factors, and inserting in lieu thereof the following:

"If the judge imposes a prison term, whether or not the term is suspended, and whether or not he sentences the convicted felon as a committed youthful offender, he must impose the presumptive term provided in this section unless, after consideration of aggravating or mitigating factors, or both, he decides to impose a longer or shorter term, or unless he imposes a prison term pursuant to any plea arrangement as to sentence under Article 58 of this Chapter. In imposing a prison term, the judge, under the procedures provided in G.S. 15A-1334(b), may consider any aggravating and mitigating factors that he finds are proved by the preponderance of the evidence, and that are reasonably related to the purposes of sentencing, whether or not such aggravating or mitigating factors are set forth herein, but unless he imposes the term pursuant to a plea arrangement as to sentence under Article 58 of this Chapter, he must consider each of the following aggravating and mitigating factors:

1. Aggravating factors:
   a. The defendant induced others to participate in the commission of the offense or occupied a position of leadership or dominance of other participants.
   b. The offense was committed for the purpose of avoiding or preventing a lawful arrest or effecting an escape from custody.
   c. The offense was committed for hire or pecuniary gain.
   d. The offense was committed to disrupt or hinder the lawful exercise of any governmental function or the enforcement of laws.
   e. The offense was committed against a present or former: law enforcement officer, employee of the Department of Correction, jailer, fireman, emergency medical technician, ambulance attendant, justice or judge, clerk or assistant or deputy clerk of court, magistrate, prosecutor, juror, or witness against the defendant, while engaged in the performance of his official duties or because of the exercise of his official duties.
   f. The offense was especially heinous, atrocious, or cruel.
   g. The defendant knowingly created a great risk of death to more than one person by means of a weapon or device which would normally be hazardous to the lives of more than one person.
   h. The defendant held public office at the time of the offense and the offense related to the conduct of the office.
   i. The defendant was armed with or used a deadly weapon at the time of the crime.
   j. The victim was very young, or very old, or mentally or physically infirm.
   k. The defendant committed the offense while on pretrial release on another felony charge.
   l. The defendant involved a person under the age of 16 in the commission of the crime."
m. The offense involved an attempted or actual taking of property of great monetary value or damage causing great monetary loss, or the offense involved an unusually large quantity of contraband.

n. The defendant took advantage of a position of trust or confidence to commit the offense.

o. The defendant has a prior conviction or convictions for criminal offenses punishable by more than 60 days' confinement. Such convictions include those occurring in North Carolina courts and courts of other states, the District of Columbia, and the United States, provided that any crime for which the defendant was convicted in a jurisdiction other than North Carolina would have been a crime if committed in this State. Such prior convictions do not include any crime that is joinable, under G.S. Chapter 15A, with the crime or crimes for which the defendant is currently being sentenced.

Evidence necessary to prove an element of the offense may not be used to prove any factor in aggravation, and the same item of evidence may not be used to prove more than one factor in aggravation.

The judge may not consider as an aggravating factor the fact that the defendant exercised his right to a jury trial.

(2) Mitigating factors:

a. The defendant has no record of criminal convictions or a record consisting solely of misdemeanors punishable by not more than 60 days' imprisonment.

b. The defendant committed the offense under duress, coercion, threat, or compulsion which was insufficient to constitute a defense but significantly reduced his culpability.

c. The defendant was a passive participant or played a minor role in the commission of the offense.

d. The defendant was suffering from a mental or physical condition that was insufficient to constitute a defense but significantly reduced his culpability for the offense.

e. The defendant's immaturity or his limited mental capacity at the time of commission of the offense significantly reduced his culpability for the offense.

f. The defendant has made substantial or full restitution to the victim.

g. The victim was more than 16 years of age and was a voluntary participant in the defendant's conduct or consented to it.

h. The defendant aided in the apprehension of another felon or testified truthfully on behalf of the prosecution in another prosecution of a felony.

i. The defendant acted under strong provocation, or the relationship between the defendant and the victim was otherwise extenuating.

j. The defendant could not reasonably foresee that his conduct would cause or threaten serious bodily harm or fear, or the defendant exercised caution to avoid such consequences.

k. The defendant reasonably believed that his conduct was legal.

l. Prior to arrest or at an early stage of the criminal process, the defendant voluntarily acknowledged wrongdoing in connection with the offense to a law enforcement officer.
m. The defendant has been a person of good character or has had a good reputation in the community in which he lives.

n. The defendant is a minor and has reliable supervision available."

Sec. 2. G.S. 15A-1340.4(b) is rewritten to read as follows:

"If the judge imposes a prison term for a felony that differs from the presumptive term provided in subsection (f), whether or not the term is suspended, and whether or not he sentences the convicted felon as a committed youthful offender, the judge must specifically list in the record each matter in aggravation or mitigation that he finds proved by a preponderance of the evidence. If he imposes a prison term that exceeds the presumptive term, he must find that the factors in aggravation outweigh the factors in mitigation, and if he imposes a prison term that is less than the presumptive term, he must find that the factors in mitigation outweigh the factors in aggravation. However, a judge need not make any findings regarding aggravating and mitigating factors if he imposes a prison term pursuant to any plea arrangement as to sentence under Article 58 of this Chapter, regardless of the length of the term, or if he imposes the presumptive term."

Sec. 3. G.S. 15A-1340.4(c), G.S. 15A-1340.4(d) and G.S. 15A-1340.4(g) are repealed.

Sec. 4. G.S. 15A-1340.4(e) is rewritten to read as follows:

"(e) A prior conviction may be proved by stipulation of the parties or by the original or a certified copy of the court record of the prior conviction. The original or certified copy of the court record, bearing the same name as that by which the defendant is charged, shall be prima facie evidence that the defendant named therein is the same as the defendant before the court, and shall be prima facie evidence of the facts set out therein. No prior conviction which occurred while the defendant was indigent may be considered in sentencing unless the defendant was represented by counsel or waived counsel with respect to that prior conviction. A defendant may make a motion to suppress evidence of a prior conviction pursuant to Article 53 of this Chapter. If the motion is made for the first time during the sentencing stage of the criminal action, either the State or the defendant is entitled to a continuance of the sentencing hearing."

Sec. 5. G.S. 15A-1340.4(f) is rewritten to read as follows:

"Unless otherwise specified by statute, presumptive prison terms for felonies classified under G.S. Chapter 14 and any other specific penalty statutes are as follows:

Sec. 8. G.S. 15A-1444(e) is amended by deleting the opening words “Except as provided in G.S. 15A-979” and inserting in lieu thereof “Except as provided in subsection (a1) of this section and G.S. 15A-979”.

Sec. 9. G.S. 15A-1444(a1), as enacted by Chapter 760, Session Laws of 1979, is rewritten to read as follows:

“A defendant who has been found guilty, or entered a plea of guilty or no contest to a felony, is entitled to appeal as a matter of right the issue of whether his sentence is supported by evidence introduced at the trial and sentencing hearing only if the prison term of the sentence exceeds the presumptive term set by G.S. 15A-1340.4, and if the judge was required to make findings as to aggravating or mitigating factors pursuant to this Article. Otherwise, he is not entitled to appeal this issue as a matter of right but may petition the appellate division for review of this issue by writ of certiorari.”

Sec. 13. G.S. 14-7.6 is rewritten to read as follows:

“§ 14-7.6. Sentencing of habitual felons.—When an habitual felon as defined in this Article shall commit any felony under the laws of the State of North Carolina, he must, upon conviction or plea of guilty under indictment as herein provided (except where the death penalty or a sentence of life imprisonment is imposed) be sentenced as a Class C felon. Notwithstanding any other provision of law, a person sentenced under this Article shall serve a term of not less than seven years in prison, excluding gain time granted under G.S. 148-13. AN ACT RELATING TO ZONING IN THE CITY OF ROCKY MOUNT.

The General Assembly of North Carolina enacts:

Section 1. The governing body of the City of Rocky Mount, in addition to the authority conferred upon it by the general or local law, is hereby empowered by ordinance to regulate in any portion or portions of the City of Rocky Mount within its existing zoning jurisdictions the use of buildings and structures for trade, industry, residence, recreation, public activities or other purposes, and the uses of land for trade, industry, residence, recreation, agriculture, water supply conservation, soil conservation, forestry or other purposes.

For any or all these purposes, the city may divide its territorial jurisdiction into districts of any number, shape, and area that may be deemed best suited to carry out the purposes of this act; and within those districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair or use of buildings, structures, or land. All regulations shall be uniform for each class or kind of building throughout each district; provided, however, that the city and county may provide for the creation of special use districts in addition to general use districts.

It is the purpose and intent of this act to permit the city to create general use districts in which a variety of uses are permitted, and to also create special use districts in which a single use is permitted upon the issuance by the governing body of a special use permit prescribing the conditions under which such use will be permitted.

A person petitioning for rezoning of a tract of land, where special use districts are authorized by ordinance, may elect to request general use district zoning for said tract, or he may elect to request special use district zoning for said tract.

If the petitioner elects to petition for general use district zoning, the governing body may not consider the intended use in determining whether to approve or disapprove the petition, but shall consider the full range of uses permitted within the requested general use district. If the petition is approved, the rezoned property may be used for any of the uses permitted in the applicable general use district.

If the petitioner elects to petition for special use district zoning, the petition must specify the actual use intended for the property specified in the petition, and the intended use must be one permitted in the corresponding general use district. If the petition is for special use district zoning, the governing body is to approve or disapprove the petition on the basis of the specific use requested. If the petition is approved, the governing body shall issue a special use permit authorizing the requested use with such reasonable conditions as the governing body determines to be desirable in promoting public health, safety and general welfare.

The conditions contained in a special use permit issued by the governing body may include: location of the proposed use on the property; the number of dwelling units; the location and extent of support facilities such as parking lots,
CHAPTER 202  Session Laws—1981

driveways, and access streets; location and extent of buffer areas and other special purpose areas; the timing of development; and such other matters as the governing body may find appropriate or the petitioner may propose, but not to include architectural review or controls.

It is the further intent of this section to permit the creation of districts for specific uses and the imposition of reasonable conditions in order to secure the public health, safety and welfare, and insure that substantial justice be done.

year unless there is valid reason to believe that he is able to return to normal duty.

(c) Intention. It is the intention of subsections (a) and (b) of this section to authorize the disbursement as supplemental retirement benefits only the income derived in any calendar year from the investments of funds belonging to the Local Firemen's Relief Fund. AN ACT TO MODIFY THE RALEIGH CIVIL SERVICE ACT.

The General Assembly of North Carolina enacts:

Section 1. Short title; purpose. This act may be cited as the Raleigh Civil Service Act. The general purpose of this act is to establish for the City of Raleigh a system of personnel administration based on merit principles.

Sec. 2. Personnel system. (a) Classified service and exceptions. The classified service of the City of Raleigh shall comprise all positions in the city service except the following which are exempt from this act:

(1) Elected officials.

(2) Employees or officials appointed by the city council or appointed by the city manager and approved by the city council and their immediate secretaries.

(3) Department heads, division heads and their immediate secretaries.

(4) Part-time or nonpermanent officers or employees.

(5) Employees serving the probationary period before becoming permanent employees.

(6) Any employee applying for promotion to one of the positions listed in subdivisions (2) through (4) of this section insofar as the promotion is concerned.

(b) Administration. The personnel system of the city shall be administered by an employee appointed and subject to the direction and supervision of the city manager.

(c) Personnel rules. The employee administering the personnel system shall prepare personnel rules. These rules shall include a listing of all positions by job classification which are exempted from the classified service by virtue of subsection (a). An employee's official position shall be that official job classification assigned to him as a result of his hiring or most recent promotion.
or demotion. Informal working titles shall not be used to determine the exempt status of any employee. The city manager shall refer such proposed rules to the Civil Service Commission, which shall report to the manager its recommendation thereon. The rules, including the recommendation of the Civil Service Commission and the recommendation of the city manager, shall be presented to the city council. The council, upon consideration of the recommendations, shall adopt the official personnel rules.

Sec. 3. Organization of Commission. (a) Creation. There is hereby created a Civil Service Commission for the city which shall be composed of seven members, all of whom shall be qualified voters of the city, and shall take the oath prescribed by law. Five members of the Commission shall be appointed by the city council from the following classifications: one member shall be an attorney licensed to practice law in North Carolina; two members shall be individuals actively engaged in the management of a private business or industry; and two members shall be from the public at large. The other two members of the Commission shall be elected by the employees at large of the city who are subject to this act. The election of members by employees shall be under written procedures established by the city council. No member of the Commission shall be a city employee or officer nor shall any member be related to any city employee or officer. The chairman of the Commission shall be designated by the city council and serve as chairman at the pleasure of the council.

(b) Term of office; vacancy and classification. Members of the Commission shall serve terms of four years unless reappointed or reelected; provided, however, three initial members (one appointed by the city council from the management classification, one appointed by the city council from the public classification, and one elected by the employees of the city) shall serve for a term of two years.

The city council shall have the right to remove from office any member of the Commission, but only for malfeasance or failure to perform the duties required for the office. The Commission shall not have power to remove its own members. If a vacancy in the membership occurs through resignation or otherwise, a new member (from the same classification as the vacancy occurs) shall be appointed or elected to fill the unexpired term. Membership on the Commission may be held in addition to the number of offices permitted in G.S. 128-1.1.

Sec. 4. Merit principle and policy. All appointments, retentions and promotions of city officers and employees covered by this act shall be made solely on the basis of fitness and merit.

Sec. 5. Appeal board. The Civil Service Commission shall act as an appeal board to hear all appeals of employees regarding violation of city policy, relating to suspensions, layoff, removal, promotions, forfeiture of pay or loss of time, but the Commission shall have no jurisdiction to hear an appeal until all administrative remedies have been exhausted pursuant to the city’s established grievance procedure. The Commission shall have no jurisdiction to hear matters involving lateral transfers unless it finds that such transfer was in effect a demotion. The Commission shall have the authority to affirm, modify, or reverse, as it deems necessary, those actions over which it has jurisdiction; provided, however, the Commission may not institute any action that will affect the right of other employees without first making all such employees a
party to the proceeding. The Commission shall hear no appeals based on a failure to be promoted until the City Manager has completed the formal procedure for filling the vacancy and has named a person to fill the vacant position. Any modification or reversal of an administrative officers’ decision or any other decision by the Commission shall require four affirmative votes. The Commission shall not have the authority to award actual damages, except salary adjustment and back pay. It shall not have the authority to award punitive damages. Reasonable attorney fees may be awarded upon the rendering of a decision or settlement in favor of the petitioning employee.

Sec. 6. Appeal procedure. (a) Right of Appeal. Any employee subject to the provisions of this act who has pursued a complaint that is subject to the Commission’s authority through the established city grievance procedure, and who is dissatisfied with the decision of the administrative process may appeal that decision to the Civil Service Commission. Such appeal must be made within 30 days of the receipt of notice of the administrative decision.

(b) Request for Hearing. A request for hearing before the Commission must contain the following information:
1. The name, address, and telephone number of the person on whose behalf the request is being made.
2. The position held or applied for by the employee.
3. The number of years the employee has been continuously employed by the city.
4. The name of the department against whom the complaint is being brought.
5. The nature of the complaint (e.g. racial discrimination in promotion, dismissal without justifiable cause, etc.)
6. A concise statement of the facts necessary to an understanding of the situation upon which the complaint is based.
7. A statement of the relief desired.

The employee shall send a copy of this letter to the City Personnel Director.

(c) Duties and Responsibilities of the City Administration. Within 15 days after an employee has requested a hearing, the city department involved must submit a letter to the Commission which includes the following:
1. The name of the employee against whom the action was taken.
2. The position last held by the employee.
3. The number of years of continuous city employment prior to the action taken.
4. The nature of the action taken (e.g. dismissal).
5. A special reference to the statute or policy under which the action was taken.
6. A concise statement of the fact situation which led to the action.

Sec. 7. Practice Before the Commission. (a) Rules of Evidence. Evidence will be admitted in accordance with the provisions of the State Administrative Procedure Act unless both parties agree to the use of the strict rules of evidence as used in the General Court of Justice. The testimony of all witnesses shall be taken under oath or a solemn affirmation.

(b) Notice of Hearing. No less than 21 days before the hearing, both parties will receive a written notice of hearing, giving the date, time and location of the hearing and a statement of the issue to be resolved at the hearing.
(c) Subpoena. The Commission is authorized to issue subpoenas upon a written request by either party. When such written request is made, the Commission shall issue subpoena forthwith requiring the attendance and testimony of witnesses and the production of evidence including books, records, correspondence, and documents in their possession or under their control. On written request, the Commission shall revoke a subpoena if, upon a hearing the Commission finds that the evidence, the production of which is required, does not relate to a matter in the issue, or if the subpoena does not describe with sufficient particularity the evidence the production of which is required, or if for any other reason sufficient in law the subpoena is invalid. The Commission shall not have the power to issue subpoenas on its own motion.

(d) Conduct of Hearing. The hearing itself shall be conducted very similarly to a trial. Both parties shall be allowed to make opening statements, which serve as outlines for what each party hopes to establish at the hearing. After the opening statements (which are optional), the employee shall present his evidence. After the employee has presented his evidence, the city shall present its evidence. If, after the city has presented its evidence, the employee wishes to present further evidence to the Commission to rebut evidence offered by the city, he may do so. All witnesses shall be sworn, and their testimony shall be recorded. Both oral testimony and documentary evidence may be presented to the Commission. Each party shall have an opportunity to cross-examine the witnesses of the opposing party. The Commission may neither call witnesses nor gather evidence to be presented for either party. It shall not act as an attorney for either party. The members of the Commission may ask questions of the witnesses to clarify factual situations and to obtain background facts necessary to a determination of the issues. Only those issues raised in the request for hearing may be heard and determined by the Commission. All questions of procedure and evidence shall be addressed to and decided by the Chairman whose ruling shall be binding unless a member of the Commission objects to such ruling. Upon objection, a majority of the Commission shall decide the question.

(e) Burden of Proof. The employee has the burden, by the greater weight of the evidence, to prove that the action taken against him was unjustified. If the employee alleges discrimination in the action taken, then the employee must present sufficient evidence to establish by the greater weight of the evidence that the city did discriminate against him. The burden of proof has no effect on the order of presentation of evidence, which is always employee, city, employee.

(f) Closing Statements. After all witnesses and evidence have been presented, each party may, if it chooses, make a closing statement. This is a summary of the evidence a party has presented at the hearing and what conclusions the party feels that evidence shows. The party with the burden of proof shall have the last closing statement.

(g) Decision. Once the hearing is concluded, the Commission shall consider all the evidence and issue a written proposal for decision. Each party shall be sent a copy of this proposal by certified mail. If either party disagrees with the proposal, it may, within five days request to appear before the Commission at its next meeting and present its position to the Commission. These appearances shall be limited to a 15 minute oral argument, although a party may also submit written arguments in favor of its position. The Commission shall hear no evidence at this hearing. The Commission shall consider all material before it
and shall issue a final decision within a reasonable time, generally within five working days after the Commission meeting. If a party objects to the Commission's decision, that party may appeal the Commission's decision to the Wake County Superior Court under the provisions of Article 4 of Chapter 150A of the General Statutes. This appeal must be taken within 15 days after the party receives notice of the Commission's decision.

Sec. 8. Effect of Disciplinary Action. The procedure for administrative appeal in the event of suspension, layoff, or removal from employment shall be established by personnel rules under the provisions of Section 2(c) of this act. However, in the event of reinstatement the affected employee shall be considered as uninterrupted in service.

Sec. 9. Discrimination Prohibited. No person in the service to the city or seeking admission thereto shall in any way be discriminated against because of race, creed, or color, or because of political or labor affiliations, or because of sex or marital status.

Sec. 10. Participation in Elections. No appointed officer or employee of the city shall in any manner contribute to, participate or take part in any election, primary or any political contests, other than exercising his right to vote; provided, the foregoing prohibition shall apply only to those elections, primaries or political contests for offices of the city. Any person violating the provisions of this section shall be guilty of a misdemeanor punishable by imprisonment for up to 90 days or a fine of up to two hundred dollars ($200.00), or both, in the discretion of the court and shall, upon conviction, be discharged from the service of the city.

Sec. 11. Meetings. All meetings of the Civil Service Commission shall be called and conducted according to the procedures governing public meetings found in Article 33C of Chapter 143, and in Chapter 160A of the North Carolina General Statutes.

Sec. 12. Severability Clause. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be invalid such decision shall not affect the validity of the remaining portions thereof. The General Assembly hereby declares that it would have passed this act and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid.

Sec. 13. Sections 1 and 2 of Chapter 1154, Session Laws of 1971 are repealed, and any matters pending before the Commission established under that act are transferred to the Commission established by this act for action and disposition.

Sec. 14. This act is effective upon ratification.

The General Assembly of North Carolina enacts:

Section 1. Chapter 113 of the General Statutes is amended by adding a new G.S. 113-140 to read:

“§ 113-140. Warning tickets.—(a) In enforcing the laws and regulations within their subject matter jurisdiction, wildlife protectors may, in accordance with the criteria of this section, issue warning tickets to offenders instead of initiating criminal prosecutions.

(b) To secure uniformity of enforcement, the Executive Director may administratively promulgate standards consistent with subsection (c) providing that warning tickets may or may not be issued with respect to particular offenses, classes of offenses, or ways of committing offenses.

(c) A protector may issue a warning ticket only if all of the following conditions are met:

(1) The protector is convinced that the offense was not intentional.

(2) The offense is not of a kind or committed in a manner as to which warning tickets have been prohibited by the Executive Director.

(3) The conduct of the offender was not calculated to result in any significant destruction of wildlife or fisheries resources.

(4) The conduct of the offender did not constitute a hazard to the public.

A warning ticket may not be issued if the offender has previously been charged with or issued a warning ticket for a similar offense.

(d) If any law enforcement officer with jurisdiction over the offense or if any employee of the Wildlife Resources Commission learns that under the criteria of this section a warning ticket was inappropriately issued to an offender, he must take action to secure initiation of prosecution for the appropriate charge or charges unless barred by the statute of limitations or unless prosecution is not otherwise feasible because of unavailability of evidence or necessary witnesses.

(e) Before any warning tickets are issued, the Executive Director must institute a procedure to ensure an accurate accounting for and recording of all warning tickets issued. This procedure may include use of prenumbered tickets and immediate notation of issuance of the warning ticket on each appropriate license or permit issued by the Wildlife Resources Commission held by the offender. The Executive Director may also provide for issuance of new, replacement, or renewal licenses and permits bearing the notation. The licenses covered by this subsection include certificates of number for motorboats.

(f) This section does not entitle any person who has committed an offense with the right to be issued a warning ticket. That issuance of a warning ticket may be appropriate under the criteria of this section does not restrict in any manner the powers of a wildlife protector or any other law enforcement officer under G.S. 113-136, 113-137, and other provisions of law in dealing with hunters, fishermen, operators of vessels, and other offenders and suspected offenders.

(g) Issuance of a warning ticket does not constitute evidence of the commission of an offense, but may be used to prevent issuance of a subsequent warning ticket to the same person for a similar offense.”

"Sec. 23.6. Zoning. The City Council of the City of Wilmington, in addition to

CHAPTER 258  
Session Laws—1981

Wilmington's zoning jurisdiction the uses of buildings and structures for trade, industry, residence, recreation, public activities or other purposes, and the uses of land for trade, industry, residence, recreation, agriculture, water supply conservation, soil conservation, forestry or other purposes.

For any or all these purposes, the City may divide its territorial jurisdiction into districts of any number, shape, and area that may be deemed best suited to carry out the purposes of this act; and within those districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair or use of buildings, structure or land. All regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts; provided, however, that the City may provide for the creation of special use districts in addition to general use districts.

It is the purpose and intent of this act to permit the City to create general use districts in which a variety of uses are permitted, and to also create special use districts in which uses are permitted only upon the issuance by the City Council of a special use permit prescribing the conditions under which such use will be permitted.

A person petitioning for rezoning of a tract of land, where special use districts are authorized by ordinance, may elect to request general use district zoning for said tract, or he may elect to request special use district zoning for said tract.

If the petitioner elects to petition for general use district zoning, the City Council may not consider the intended use in determining whether to approve or disapprove the petition, but shall consider the full range of uses permitted within the requested general use district. If the petition is approved, the rezoned property may be used for any of the uses permitted in the applicable general use district.

If the petitioner elects to petition for special use district zoning, the petition must specify the actual use intended for the property specified in the petition, and the intended use must be one permitted in the corresponding general use district. If the petition is for special use district zoning, the City Council is to approve or disapprove the petition on the basis of the specific use requested. If the petition is approved, the City Council shall issue a special use permit authorizing the requested use with such reasonable conditions as the City Council determines to be desirable in promoting public health, safety and general welfare. Every decision of the City Council shall be subject to review by the Superior Court by proceedings in the nature of certiorari.

The conditions contained in a special use permit issued by the City Council may include: location of the proposed use on the property; the number of dwelling units; the location and extent of support facilities such as parking lots, driveways, and access streets; location and extent of buffer areas and other special purpose areas; the timing of development; and such other matters as the City Council may find appropriate or the petitioner may propose.

It is the further intent of this section to permit the creation of districts for specific uses and the imposition of reasonable conditions in order to secure the public health, safety and welfare, and insure that substantial justice be done."

County Administration.

"§ 108A-1. Creation.—Every county shall have a board of social services which shall establish county policies for the programs established by this Chapter in conformity with the rules and regulations of the Social Services Commission and under the supervision of the Department of Human Resources. Provided, however, county policies for the program of medical assistance shall be established in conformity with the rules and regulations of the Department of Human Resources.

"§ 108A-2. Size.—The county board of social services in each county shall consist of three members, except that the board of commissioners of any county may increase such number to five members. The decision to increase the size to five members or to reduce a five-member board to three shall be reported immediately in writing by the chairman of the board of commissioners to the Department of Human Resources.

"§ 108A-3. Method of appointment; residential qualifications; fee or compensation for services.—(a) Three-member Board: The board of commissioners shall appoint one member who may be a county commissioner or a citizen selected by the board; the Social Services Commission shall appoint one member; and the two members so appointed shall select the third member. In the event the two members so appointed are unable to agree upon selection of the third member, the senior regular resident superior court judge of the county shall make the selection.

(b) Five-member Board: The procedure set forth in subsection (a) shall be followed, except that both the board of commissioners and the Social Services Commission shall appoint two members each, and the four so appointed shall select the fifth member. If the four are unable to agree upon the fifth member, the senior regular superior court judge of the county shall make the selection.

(c) Provided further that each member so appointed under subsection (a) and subsection (b) of this section by the Social Services Commission and by the county board of commissioners or the senior regular resident superior court judge of the county, shall be bona fide residents of the county from which they are appointed to serve, and will receive as their fee or compensation for their services rendered from the Department of Human Resources directly or indirectly only the fees and compensation as provided by G.S. 108A-8.

"§ 108A-4. Term of appointment.—Each member of a county board of social services shall serve for a term of three years. No member may serve more than two consecutive terms.

"§ 108A-5. Order of appointment.—(a) Three-member Board: The term of the member appointed by the Social Services Commission shall expire on June 30, 1981, and every three years thereafter; the term of the member appointed by the board of commissioners shall expire on June 30, 1983, and every three years thereafter; and the term of the third member shall expire on June 30, 1982, and every three years thereafter.

The change to a five-member board shall become effective at the time when the additional members shall have been appointed by both the county board of commissioners and the Social Services Commission. Thereafter all appointments shall be for three-year terms.

“§ 108A-6. Vacancies.—Appointments to fill vacancies shall be made in the manner set out in G.S. 108A-3. All such appointments shall be for the remainder of the former member's term of office and shall not constitute a term for the purposes of G.S. 108A-4.

The county board of social services shall annually report to the county commissioners receipts received under this section. Fees collected under this section shall not be used to replace any other funds, either State or local, for the program for which the fees were collected.

"§ 108A-11. Inspection of records by members.—Every member of the county board of social services may inspect and examine any record on file in the office of the director relating in any manner to applications for and provision of public assistance and social services authorized by this Chapter. If the board of commissioners deems that assistance was improperly allowed or denied under federal regulations and policies of the Social Services Commission or the Department, it may order that proper action be taken, with notice thereof given to the recipient and a copy to the county board of social services and the Secretary. Any modification made by the board of county commissioners shall be subject to review by the Secretary.

(d) All rules and regulations of the Social Services Commission or the Department which govern eligibility for public assistance from State appropriations or the amount of public assistance shall be subject to the approval of the Director of the Budget and the Advisory Budget Commission.

"§ 108A-44. Reconsideration of public assistance.—All public assistance shall be considered as frequently as required by the rules of the Social Services Commission or the Department in the case of medical assistance. Whenever the condition of any recipient has changed to the extent that his assistance must be modified or terminated, the county director may make the appropriate termination or change in payment and submit it to the county board of social services for approval at its next meeting, but the board may waive the requirement that the director submit his actions to the board for its approval.

"§ 108A-45. Removal to another county.—Any recipient who moves from one county to another county of this State shall continue to receive public assistance if eligible. The county director in the county from which he has moved shall transfer all necessary records relating to the recipient to the county director of the county to which the recipient has moved. "§ 108A-46. Assistance not assignable; checks payable to decedents.—The assistance granted by this Article shall not be transferable or assignable at law or in equity; and none of the money paid or payable as assistance shall be subject to execution, levy, attachment, garnishment, or other legal processes, or to the operation of any bankruptcy or insolvency law.

"§ 108A-47. Personal representative for mismanaged public assistance.—(a) Whenever a county director of social services shall determine that a recipient of assistance is unwilling or unable to manage such assistance to the extent that deprivation or hazard to himself or others results, the director shall file a petition before a district court or the clerk of superior court in the county alleging such facts and requesting the appointment of a personal representative to be responsible for receiving such assistance and to use it for the benefit of the recipient.

(b) Upon receipt of such petition, the court shall promptly hold a hearing, provided the recipient shall receive five days' notice in writing of the time and place of such hearing. If the court, sitting without a jury, shall find at the hearing that the facts alleged in the petition are true, it may appoint some responsible person as personal representative. The personal representative shall serve without compensation and be responsible to the court for the faithful performance of his duties. He shall serve until the director of social services or the recipient shows to the court that the personal representative is no longer required or is unsuitable. All costs of court relating to proceedings under this section shall be waived.

§ 108A-120. Appeals.—(a) A public assistance applicant or recipient shall have a right to appeal the decision of the county board of social services, county department of social services, or the board of county commissioners granting, denying, terminating, or modifying assistance, or the failure of the county board of social services or county department of social services to act within a reasonable time under the rules and regulations of the Social Services Commission or the Department. Each applicant or recipient shall be notified in writing of his right to appeal upon denial of his application for assistance and at the time of any subsequent action on his case.

(b) In cases involving termination or modification of assistance, no action shall become effective until 10 work days after notice of this action and of the right to appeal is mailed to the recipient.

(c) The notice of action and the right to appeal shall comply with all applicable federal and State law and regulations; provided, such notice shall, at a minimum contain a clear statement of:

(1) The action which was or is to be taken;
(2) The reasons for which this action was or is to be taken;
(3) The regulations supporting this action;
(4) The applicant’s or recipient’s right to both a local and State level hearing, or to a State level hearing in the case of the food stamp program, on the decision to take this action and the method for obtaining these hearings;
(5) The right to be represented at the hearings by a personal representative, including an attorney obtained at the applicant’s or recipient’s expense;
(6) In cases involving termination or modification of assistance, the recipient’s right upon timely request to continue receiving assistance at the present level pending an appeal hearing and decision on that hearing.

An applicant or recipient may give notice of appeal by written or oral statement to the county department of social services, which shall record such notice by completing a form developed by the Department.

Such notice of appeal must be given within 60 days from the date of the action, or 90 days from the date of notification in the case of the food stamp program. Failure to give timely notice of appeal constitutes a waiver of the right to a hearing. However, it shall not affect the right to reapply for benefits.

(d) If there is such timely appeal, in the first instance the hearing shall consist of a local appeal hearing before the county director or a designated representative of the county director, provided whoever hears the local appeal shall not have been involved directly in the initial decision giving rise to the appeal. In cases involving termination or modification of assistance, the recipient shall continue to receive assistance at the present level pending the local appeal hearing decision, provided the recipient requests a hearing on or before the effective date of the termination or modification of assistance.

(e) The local appeal hearing shall be held not more than five days after the request for it is received. The recipient may, for good cause shown as defined by rule or regulation of the Social Services Commission or the Department, petition the county department of social services, in writing, for a delay, but in
no event shall the local appeal hearing be held more than 15 days after the receipt of the request for hearing. At the local appeal hearing:

(1) The appellant and the county department may be represented by personal representatives, including attorneys, obtained at their expense.

(2) The appellant or his personal representative and the county department shall present such sworn evidence and law or regulations as bear upon the case. The hearing need not be recorded or transcribed, but the director or his representative shall summarize in writing the substance of the hearing.

(3) The appellant or his personal representative and the county department may cross-examine witnesses and present closing arguments summarizing their views of the case and the law.

(4) Prior to and during the hearing, the appellant shall have adequate opportunity to examine the contents of his case file and all documents and records which the county department of social services intends to use at the hearing.

(f) The director or his designated representative shall make the decision based upon the evidence presented at the hearing and all applicable regulations, and shall prepare a written statement of his decision citing the regulations and evidence to support it. This written statement of the decision will be served by certified mail on the appellant within five days of the local appeal hearing. If the decision terminating or modifying the appellant’s benefits is affirmed, the assistance shall be terminated or modified, not earlier than the date the decision is mailed, and any assistance received during the time of the appeal is subject to recovery.

(g) If the appellant is dissatisfied with the decision of the local appeal hearing, he may within 15 days of the mailing notification of the decision take a further appeal to the Department. However, assistance may not be received pending this further appeal. Failure to give timely notice of further appeal constitutes a waiver of the right to a hearing before an official of the Department, but shall not affect the right to reapply for benefits.

(h) Subsections (d)-(g) of this section shall not apply to the food stamp program. The first appeal for a food stamp recipient or his representative shall be to the Department. Pending hearing, the recipient’s assistance shall be continued at the present level upon timely request.

(i) If there is an appeal from the local appeal hearing decision, or from a food stamp recipient or his representative where there is no local hearing, the county director shall notify the Department according to its rules and regulations. The Department shall designate a hearing officer who shall promptly hold a de novo administrative hearing in the county after giving reasonable notice of the time and place of such hearing to the appellant and the county department of social services. Such hearing shall be conducted according to applicable federal law and regulations and Article 3, Chapter 150A, of the General Statutes of North Carolina; provided the Department shall adopt rules and regulations to ensure the following:

(1) Prior to and during the hearing, the appellant shall have adequate opportunity to examine the contents of his case file and all documents and records which the county department of social services intends to use at the hearing.
(2) At the appeal hearing, the appellant and personnel of the county department of social services may present such sworn evidence, law and regulations as bear upon the case.

(3) The appellant and county department shall have the right to be represented by the person of his choice, including an attorney obtained at his own expense.

(4) The appellant and county department shall have the right to cross-examine the other party as well as make a closing argument summarizing his view of the case and the law.

(5) The appeal hearing shall be recorded; however, no transcript will be prepared unless a petition for judicial review is filed pursuant to subsection (k) herein, in which case, the transcript will be made a part of the official record. In the absence of the filing of a petition for a judicial review, the recording of the appeal hearing may be erased or otherwise destroyed 180 days after the final decision is mailed.

(6) Notwithstanding G.S. 150A-28 or any other provision of State law, discovery shall be no more extensive or formal than that required by federal law and regulations applicable to such hearings.

(j) After the administrative hearing, the hearing officer shall prepare a proposal for decision, citing pertinent law, regulations, and evidence, which shall be served upon the appellant and the county department of social services or their personal representatives. The appellant and the county department of social services shall have the opportunity to present oral and written arguments in opposition to or in support of the proposal for decision to the designated official of the Department who is to make the final decision. The final decision shall be based on, conform to, and set forth in detail the relevant evidence, pertinent State and federal law and regulations, and matters officially noticed. The decision shall be rendered not more than 90 days, or 45 days in the case of the food stamp program, from the date of request for the hearing, unless the hearing was delayed at the request of the appellant. If the hearing was delayed at the appellant's request, the decision may only be delayed for the length of time the appellant requested a delay. The final decision shall be served upon the appellant and upon the county department of social services by certified mail, with a copy furnished to either party's attorney of record. § 108A-140. Financial transactions between the State and counties.—The Secretary shall have the power to promulgate rules and regulations establishing procedures for the counties to follow in financing programs of public assistance and social services under Article 2 and Article 3.

§ 108A-141. Allocation of nonfederal shares.—(a) The nonfederal share of the annual cost of each public assistance and social services program and related administrative costs may be divided between the State and counties as determined by the General Assembly and in a manner consistent with federal laws and regulations.

(b) The nonfederal share of the annual cost of public assistance and social services programs and related administrative costs provided to Indians living on federal reservations held in trust by the United States on their behalf shall be borne entirely by the State.
§ 108A-142. Determination of State and county financial participation.—Before February 15 of each year, the Secretary shall notify the director of social services of each county of the amount of State and federal monies estimated to be available, as best can be determined, to that county for programs of public assistance, social services and related administrative costs, as well as the percentage of county participation expected to be required for the budget for the succeeding fiscal year. In odd-numbered years, in making such notification, the Secretary shall notify the counties of any changes in funding levels, formulas, or programs relating to public assistance proposed by the Governor to the General Assembly in the proposed budget and budget report submitted under the Executive Budget Act. Counties shall be notified of additional changes in the proposed budget of the Governor and the Advisory Budget Commission that are made by the General Assembly or the United States Congress subsequent to the February 15 estimates.

§ 108A-143. State Public Assistance Contingency Loan Program.—(a) The Department is authorized and empowered to establish a program known as the ‘State Public Assistance Contingency Loan Program’. The purpose of this program shall be to make loans available to counties whose actual expenditures, excluding related administrative costs, exceed the estimates for public assistance programs only provided by the Department under G.S. 108A-142.

(b) Loans shall be made to the counties at any time during the fiscal year by the Department, when satisfied of the county’s need for such loan under this Part.

(d) Any amount borrowed by a county from the ‘State Public Assistance Contingency Fund’ during one fiscal year shall be repaid to said fund within the next two fiscal years.

§ 108A-144. Counties to levy taxes.—(a) Whenever the Secretary or his representative assigns a portion of the nonfederal share of public assistance expenses to the counties under the rules and regulations of the Social Services Commission or the Department, the board of commissioners of each county shall levy and collect the taxes required to meet the county’s share of such expenses.

(b) The board of county commissioners may combine any or all of the separate special taxes for each program of public assistance and for the related administrative costs of such programs in place of levying separate special taxes for each item. This consolidated tax shall be sufficient, when combined with other funds available for use for public assistance expenses from any other source of county income and revenue (including borrowing in anticipation of collection of taxes), to meet the financial requirements of public assistance programs, and the related administrative costs of each program. The appropriations and expenditures for each of the several programs and for related administrative costs shall be separately stated and accounted for.

§ 108A-145. Appropriations not to revert.—County appropriations for public assistance expenses or related administrative costs shall not lapse or revert, and the unexpended balances may be considered in making further public assistance or administrative appropriations. At any time during the fiscal year, any county
may transfer county funds from one public assistance program to another and
between programs of public assistance and administration if such action appears
to be both necessary and feasible, provided the county secures the approval of
the Secretary or his representative.

“§ 108A-146. State Public Assistance Equalization Program.—The Secretary
is authorized and directed to reserve from State appropriations for the
programs of public assistance an amount found to be necessary to equalize the
burden of taxation in the counties of the State, and to equalize the benefits
received by the recipients of public assistance. This amount shall be expended
and disbursed solely for the use and benefit of persons eligible for assistance.
The amount reserved shall be distributed among the counties according to their
needs under a formula approved by the Social Services Commission so as to
produce a fair and just distribution.

The petition must allege specific facts sufficient to show that the disabled adult is in need of protective services and consents to the receipt of protective services and that the caretaker refuses to allow the provision of such services. If the judge finds by clear, cogent, and convincing evidence that the disabled adult is in need of protective services and consents to the receipt of protective services and that the caretaker refuses to allow the provision of such services, he may issue an order enjoining the caretaker from interfering with the provision of protective services to the disabled adult.

(b) The court shall set the case for hearing within 14 days after the filing of the petition. The disabled adult must receive at least five days' notice of the hearing. He has the right to be present and represented by counsel at the hearing. 2. An emergency exists; and

3. No other person authorized by law or order to give consent for the person is available and willing to arrange for emergency services.

(c) The petition for emergency services shall set forth the name, address, and authority of the petitioner; the name, age and residence of the disabled adult; the nature of the emergency; the nature of the disability if determinable; the proposed emergency services; the petitioner’s reasonable belief as to the existence of the conditions set forth in subsection (a) above; and facts showing petitioner’s attempts to obtain the disabled adult’s consent to the services.

(d) Notice of the filing of such petition, and other relevant information, including the factual basis of the belief that emergency services are needed and
a description of the exact services to be rendered, shall be given to the person, to his spouse, or if none, to his adult children or next of kin, to his guardian, if any. Such notice shall be given at least 24 hours prior to the hearing of the petition for emergency intervention; provided, however, that the court may issue immediate emergency order ex parte upon finding as fact (i) that the conditions specified in G.S. 108A-157(a) exist; (ii) that there is likelihood that the disabled adult may suffer irreparable injury or death if such order be delayed; and (iii) that reasonable attempts have been made to locate interested parties and secure from them such services or their consent to petitioner's provision of such service; and such order shall contain a show-cause notice to each person upon whom served directing such person to appear immediately or at any time within 20 days thereafter and show cause, if any exist, for the dissolution or modification of the said order, otherwise same to remain in effect; and copies of the said order together with such other appropriate notices as the court may direct shall be issued and served upon all of the interested parties designated in the first sentence of this subsection.

   (ii) The disabled adult's financial assets be frozen and not withdrawn, spent or transferred without prior order of the court.
(2) Such an order shall not issue unless the court first finds that there is reasonable cause to believe that:
   (i) A disabled adult lacks the capacity to consent and that he is in need of protective services;
   (ii) The disabled adult is being financially exploited by his caretaker; and
   (iii) No other person is able or willing to arrange for protective services.
(3) Provided, before any such inspection is done, the caretaker and every financial institution involved shall be given notice and a reasonable opportunity to appear and show good cause why this inspection should not be done. And, provided further, that any order freezing assets shall expire ten days after such inspection is completed, unless the court for good cause shown, extends it.

(g) No petitioner shall be held liable in any action brought by the disabled adult if the petitioner acted in good faith.

"§ 108A-158. Motion in the cause.—Notwithstanding any finding by the court of lack of capacity of the disabled adult to consent, the disabled adult or the individual or organization designated to be responsible for the disabled adult shall have the right to bring a motion in the cause for review of any order issued pursuant to this Article.

"§ 108A-159. Payment for essential services.—At the time the director, in accordance with the provisions of G.S. 108A-154 makes an evaluation of the case reported, then it shall be determined, according to regulations set by the Social Services Commission, whether the individual is financially capable of paying for the essential services. If he is, he shall make reimbursement for the
costs of providing the needed essential services. If it is determined that he is not financially capable of paying for such essential services, they shall be provided at no cost to the recipient of the services.

Upon the recordation of the certificate of incorporation by the Secretary of State, the association shall be a body politic and corporate under the name stated in such
certificate, and shall be authorized to begin the savings and loan business when duly licensed by the administrator.

(d) The said certificate of incorporation, or a copy thereof, duly certified by the Secretary of State, or by the register of deeds of the county where the association is located, or by the administrator, under their respective seals, shall be evidence in all courts and places, and shall, in all judicial proceedings, be deemed prima facie evidence of the complete organization and incorporation of the association purporting thereby to have been established.

"§ 54B-15. Final decision.—The Commission shall present the administrator with a final decision which shall be in accordance with the applicable provisions of Chapter 150A of the General Statutes.

"§ 54B-16. Appeal.—The final decision of the Commission may be appealed in accordance with Chapter 150A of the General Statutes.

"§ 54B-17. Insurance of accounts required.—All State associations must obtain and maintain insurance on all members' and customers' withdrawable accounts. Contracts for such insurance may be made with any mutual deposit guaranty association organized under Article 12 of this Chapter, or its predecessor, or from the Federal Savings and Loan Insurance Corporation. Prior to the licensing of an association, a certificate of incorporation duly recorded under the provisions of G.S. 54B-14(c), shall be deemed to be sufficient certification to the insuring corporation that the association is a legal corporate entity. Such insurance must be obtained within the time limit prescribed in G.S. 54B-18.

"§ 54B-18. Time allowed to commence business.—A newly chartered association shall commence business within six months after the date upon which its corporate existence shall have begun. An association which shall not commence business within such time, shall forfeit its corporate existence, unless the administrator, before the expiration of such six-month period, shall have approved an extension of the time within which the association may commence business, upon a written request stating the reasons for which such request is made. Upon such forfeiture, the certificate of incorporation shall expire, and any and all action taken in connection with the incorporation and chartering of the association, with the exception of fees paid to the Division, shall become null and void. The administrator shall determine if an association has failed to commence business within six months, without extension as provided in this section, and shall notify the Secretary of State and the register of deeds in the county in which the association is located that the certificate of incorporation has expired.

"§ 54B-19. Licensing.—A newly chartered association shall be entitled to a license to operate upon payment to the Division of the appropriate license fee as prescribed by the administrator, when it shows to the satisfaction of the administrator evidence of capable, efficient and equitable management, and when it passes a final inspection by the administrator or his representatives preceding the opening of its doors for business.

"§ 54B-20. Amendments to certificate of incorporation.—(a) Any addition, alteration or amendment to the certificate of incorporation of any State association shall be made at any annual or special meeting of such association, held in accordance with the provisions of G.S. 54B-106 and G.S. 54B-107 by a majority of the total votes which members of a mutual association are eligible and entitled to cast, or by a majority of the total votes which stockholders of a
stock association are eligible and entitled to cast, present in person or represented by proxy at any such meeting. Any such addition, alteration or amendment shall be signed, submitted to the administrator for his approval or rejection, and if approved, then certified and recorded as provided for in G.S. 54B-9 and G.S. 54B-10 for certificates of incorporation.

“§54B-21. List of stockholders to be maintained.—Every stock association organized and operated under the provisions of this Chapter or its predecessor shall at all times cause to be kept an up-to-date list of the names of all its stockholders. Annually, in January or whenever called upon by the administrator, file in the office of the administrator a correct list of all its stockholders, the resident address of each, the number of shares of stock held by each, and the dates of issue.

“§54B-22. Branch offices.—(a) Any State association may apply to the administrator for permission to establish a branch office. The application shall be in such form as may be prescribed by the administrator. Branch applications shall be approved or denied by the administrator within 120 days of filing.

(b) The administrator shall approve a branch application when all of the following criteria are met:

(1) the applicant has gross assets of at least ten million dollars ($10,000,000);

(2) the applicant has evidenced financial responsibility in that its principal office and any existing branch offices are soundly managed, and it has no record of any uncorrected serious supervisory difficulties;

(3) the applicant has a net worth equal to at least five percent (5%) of the net withdrawal value of its withdrawable accounts;

(4) the applicant has an acceptable internal control system. Such a system would include certain basic internal control requirements essential to the protection of assets and the promotion of operational efficiency regardless of the size of the applicant. Some of the factors which require extensive internal control requirements such as the use of a controller or internal auditor and more distinctive placement responsibilities include the applicant's size, number of personnel and history of and anticipated plans for expansion.

(c) Upon receipt of a branch application, the administrator shall examine or cause to be examined all the relevant facts connected with the establishment of the proposed branch office. If it appears to the satisfaction of the administrator that the applicant has complied with all the requirements set forth in this section and the regulations for the establishment of a branch office and that the association is otherwise lawfully entitled to establish such branch office, then the administrator shall approve the branch application.

(d) If the administrator determines that a branch application is not in procedural compliance with this section and the regulations for the establishment of a branch office or if any part of the application contains incorrect or insufficient information so that the administrator cannot make a decision on the application, he shall notify the applicant of his reasons, and give suggestions as to amendments to the application in order that it may conform.

(e) If the administrator determines that a branch application is in procedural compliance with this section and the regulations for the establishment of a branch office, but for some substantive reason the administrator believes that
the application should be denied, then the administrator shall deny the branch application.

(f) A branch application fee shall be paid by the applicant according to the fee schedule fixed in the regulations.

(g) Not less than 10 days following the filing of the branch application with the administrator, the applicant shall cause to be published a notice in a newspaper of general circulation in the area to be served by the proposed branch office. Such notice shall contain:

1. A statement that the application has been filed with the administrator;
2. The proposed address of the branch office, including city or town and street;
3. A statement that a public hearing on the application will be held before the administrator; and
4. A statement that any interested or affected party may file a written statement either favoring or protesting the establishment of the proposed branch office. Such statement must be filed with the administrator within 30 days of the date of the publication.

(h) The administrator, at the public hearing, shall receive information and hear testimony from the applicant and from any interested or affected party. The administrator shall hear only testimony and receive only information which is relevant to the consideration of the branch application and operation of the proposed branch office.

(i) The administrator shall issue his final decision on the branch application within 30 days following the public hearing. Such final decision shall be in accordance with the applicable provisions of Chapter 150A of the General Statutes.

(j) Any party to a branch application may appeal the final decision of the administrator to the Commission at any time after final decision, but not later than 30 days after a written copy of the final decision is served upon the party and his attorney of record by personal service or by certified mail. Failure to file such appeal within the time stated shall operate as a waiver of the right of such party to review by the Commission and by a court of competent jurisdiction in accordance with Chapter 150A of the General Statutes, relating to judicial review.

"§ 54B-23. Application to change location of a branch or principal office.—(a) The board of directors of a State association may change the location of a branch office or the principal office of the association by submitting to the administrator an application for such change on forms prescribed by the administrator.

(b) Upon receipt of an application accompanied by the proper application fee, the administrator shall conduct, or cause to be conducted, an examination and investigation of the facts and circumstances connected with the consideration of the application. After such examination and investigation, the administrator shall make a recommendation to the Commission on the application at a properly publicized hearing at which other concerned parties may present their views.

(c) If an application filed under this section is approved by the Commission and the association fails to change the location of such branch office or principal office within six months after the date of the order approving such application,
such approval shall be revoked. Such a six-month period may be extended upon a showing to the satisfaction of the administrator of good cause.

"§ 54B-24. Approval revoked; branch office.—The Commission may, for good cause and after a hearing, order the closing of a branch office. Such order shall be made in writing to the association and shall fix a reasonable time after which the association shall close the branch office.

"§ 54B-25. Branch office closed.—The board of a State association may discontinue the operation of a branch office upon 60 days prior written notice to the administrator. The association shall notify the administrator in writing of the date upon which the branch office shall be closed.

§ 54B-26 to 54B-29. Reserved for future codification purposes.

"ARTICLE 3.

"Fundamental Changes.

"§ 54B-30. Conversion from State to federal association.—Any State savings and loan association, stock or mutual, organized and operated under the provisions of this Chapter, may convert into a federal savings and loan association in accordance with the provisions of the laws and regulations of the United States and with the same force and effect as though originally incorporated under such laws, and the procedure to effect such conversion shall be as follows:

1) The association shall submit a plan of conversion to the administrator, and he may approve the same, with or without amendment, or refuse to approve the plan. If he approves the plan, then the plan shall be submitted to the members or stockholders as provided in the next subdivision. If he refuses to approve the plan, he shall state his objections in writing and give the converting association an opportunity to amend the plan to obviate such objections or to appeal his decision to the Commission.

2) A meeting of the members or stockholders shall be held upon not less than 30 days' written notice to each member or stockholder, served personally or mailed to the last known address of such member or stockholder, postage prepaid. The notice shall contain a statement of the time, place and purpose for which such meeting is called. It shall be regarded as sufficient notice of the purpose of the meeting if the notice contains the following statement: ‘The purpose of this meeting is to consider the conversion of this State chartered association into a federally chartered association, pursuant to the laws of the United States.’ An appropriate officer of the association shall make proof by affidavit at such meeting of due service of the notice or call for said meeting.

3) At the meeting of the members or stockholders of such association, such members or stockholders may, by affirmative vote of a majority of shares or votes eligible to be cast by members or stockholders, in person or by proxy, resolve to convert said association to a federal savings and loan association. A copy of the minutes of the meeting of the members or stockholders certified by an appropriate officer of the association shall be filed in the office of the administrator within 10 days after such meeting. The said certified copy when so filed shall be prima facie evidence of the holding and the action of the meeting.

4) Within a reasonable time after the receipt of a certified copy of the minutes, the administrator shall either approve or disapprove the proceedings of the meeting for compliance with the procedure set forth in this section. If the administrator approves the proceedings he shall endorse the certified copy of
the minutes, and shall issue a certificate of his approval of the conversion and proceedings and send the same to the association. Such certificate shall be recorded in the office of the Secretary of State and in the office of the register of deeds of the county in which the association has its principal office, and the original shall be held by the association. If the administrator disapproves the proceedings he shall note his disapproval on the certified copy of the minutes and notify the Commission and the association of his disapproval. The association may appeal a disapproval to the Commission.

(5) Within 60 days after approval of the proceedings by the administrator, the association shall file an application, in the manner prescribed or authorized by the laws and regulations of the United States, to consummate the conversion to a federal association. A copy of the charter or authorization issued to such association by the Federal Home Loan Bank Board, or a certificate showing the organization or conversion of such association into a federal savings and loan association, and upon such filing with the administrator the association shall cease to be a State association and shall be a federal association.

(6) Whenever any such association shall convert into a federal savings and loan association it shall cease to be an association under the laws of this State, except that its corporate existence shall be deemed to be extended for the purpose of prosecuting or defending suits by or against it and of enabling it to close its business affairs as a State association, and to dispose of and convey its property. At the time when such conversion becomes effective, all the property of the State association including all its rights, title and interest in and to all property of whatever kind, whether real, personal or mixed, and things in action, and every right, privilege, interest and asset of any conceivable value or benefit then existing, belonging or pertaining to it, or which would inure to it, shall immediately by act of law and without any conveyance or transfer, and without any further act or deed, be vested in and become the property of the federal association, which shall have, hold and enjoy the same in its own right as fully and to the same extent as the same was possessed, held and enjoyed by the State association; and the federal association as of the effective time of such conversion shall succeed to all the rights, obligations and relations of the State association.

"§ 54B-31. Conversion from federal to State association.—Any federal savings and loan association, stock or mutual, organized and existing under the laws and regulations of the United States and duly authorized to operate and actually operating in North Carolina may convert into a State savings and loan association operating under the provisions of this Chapter, with the same force and effect as though originally incorporated under the provisions of this Chapter, by complying with the rules and regulations of the federal regulatory authority, and also by following the procedure as set forth in this section:

(1) The federal association shall submit a plan of conversion to the administrator. When such plan, either with or without amendment, has been approved by the administrator, it shall be submitted to the members or stockholders of the association as provided in the next subdivision.

(2) A meeting of the members or stockholders shall be held upon not less than 30 days' written notice to each member or stockholder, served personally or mailed to the last known address of such member or stockholder, postage prepaid. The notice shall contain a statement of the time, place and purpose for which such meeting is called. It shall be regarded as sufficient notice of the
purpose of the meeting if the call contains the following statement: 'The purpose of this meeting is to consider the conversion of this federally chartered association to a State chartered savings and loan association, pursuant to the provisions of the laws of the State of North Carolina'. An appropriate officer of the association shall make proof by affidavit at such meeting of the due service of the notice or call for said meeting.

(3) At the meeting of the members or stockholders of the association, the members or stockholders may, by affirmative vote of a majority of those votes eligible to be cast by members or stockholders, in person or by proxy, resolve to convert the association to a State association. A copy of the minutes of the meeting of the members or stockholders, certified by an appropriate officer of the association, shall be filed with the administrator within 10 days after the meeting, accompanied by a conversion fee. The certified copy when so filed shall be prima facie evidence of the holding of and the action taken at the meeting.

(4) Within 30 days after the approval of the proceedings by the administrator and the approval of the conversion by the federal authority, and by the insuring corporation, the association shall file with the administrator, the Secretary of State, and the register of deeds of the county where such association intends to operate a copy of the certificate of incorporation of such association, signed by at least seven directors. The certificate of incorporation shall conform to the provisions of the laws of this State. The Secretary of State and the register of deeds of the county where the association has its principal office shall not issue or record the certificate of incorporation until authorized to do so by the administrator. Upon receipt of a copy of the certificate of incorporation the administrator shall cause to be made a careful examination and investigation of the facts connected with the conversion of the association, including an examination of its affairs generally and a determination of its assets and liabilities. The reasonable cost and expenses of the examination and investigation shall be paid by the association. If it appears that the association, if converted, will lawfully be entitled to conduct business as a State association pursuant to the provisions of this Chapter, the administrator shall so certify to the Secretary of State and the register of deeds in the county in which the association is located, who shall thereupon issue and record such certificate of incorporation. Upon issuance and recordation of the certificate of incorporation the association shall file with the appropriate federal regulatory authority a certified copy of same. Upon such filing, the association shall cease to be a federal association and shall be converted to a State association.

(5) Upon conversion, all the property of the federal association, including all its rights, title and interest in and to all property of whatsoever kind whether real, personal or mixed, and things in action, and every right, privilege, interest and asset of any conceivable value or benefit then existing, belonging or pertaining to it, or which would inure to it, shall immediately by act of law and without any conveyance or transfer, and without any further act or deed, be vested in and become the property of the State association, which shall have, hold, and enjoy the same in its own right as fully and to the same extent as if the same was possessed, held or enjoyed by said federal association; and such State association shall be deemed to be a continuation of the entity and the identity of said federal association, operating under and pursuant to the provisions of this Chapter, and all rights, obligations and relations of said
federal association to or in respect to any person, estate, or creditor, depositor, trustee or beneficiary of any trust, and to or in respect to any executorship or trusteeship or other trust or fiduciary function, shall remain unimpaired, and the State association, shall by operation of this section succeed to all such rights, obligations, relations and trusts, and the duties and liabilities connected therewith, and shall execute and perform each and every such right, obligation, trust and relation in the same manner as if such State association had itself assumed the trust or relation, including the obligations and liabilities connected therewith.

"§ 54B-32. Simultaneous charter and ownership conversion.—(a) In the event of a State charter to federal charter conversion, when the form of ownership will also simultaneously be changed from stock to mutual, or from mutual to stock, the conversion shall proceed initially as if it involves only a charter conversion, under G.S. 54B-30. After the association becomes a federal association, then the federal regulatory authority shall govern the continuing conversion of the form of ownership of such newly converted association.

(b) In the event of a federal charter to State charter conversion, when the form of ownership will also simultaneously be changed from stock to mutual or from mutual to stock, the conversion shall proceed initially as if it involves only a charter conversion, under G.S. 54B-31. After the association becomes a State association, the provisions of G.S. 54B-33 or G.S. 54B-34 shall govern the continuing conversion of the form of ownership of such newly converted association.

"§ 54B-33. Conversion of mutual to stock association.—(a) Any mutual association may convert from mutual to the stock form of ownership as provided in this section.

(b) A mutual association may apply to the administrator for permission to convert to a stock association and for certification of appropriate amendments to the association's certificate of incorporation. Upon receipt of an application to convert from mutual to stock form the administrator shall examine all facts connected with the requested conversion. The expenses and cost of such examination, monitoring and supervision shall be paid by the association applying for permission to convert.

(c) Upon completion of his examination the administrator shall report his findings to the Commission. After reviewing the findings of the administrator and conducting any further appropriate examinations and investigations the Commission may approve and permit the requested conversion if it appears that:

(1) after conversion the association will be in sound financial condition and will be soundly managed;
(2) the conversion will not impair the capital of the association nor adversely affect the association's operations;
(3) the conversion will be fair and equitable to the members of the association and no person whether member, employee or otherwise, will receive any inequitable gain or advantage by reason of the conversion;
(4) the savings and loan services provided to the public by the association will not be adversely affected by the conversion;
(5) the conversion will be conducted as provided by law and pursuant to a plan approved by the administrator. The substance of the plan must be approved by a vote of two-thirds of the board of directors of the
CHAPTER 282  Session Laws—1981

association; and, after lawful notice to the members of the association and full and fair disclosure, the substance of the plan must be approved by a majority of the total votes which members of the association are eligible and entitled to cast. Such a vote by the members may be in person or by special proxy restricted to matters in connection with the conversion;

(6) the plan of conversion provides:
   a. all shares of stock issued in connection with the conversion are offered first to the members of the association;
   b. all stock shall be offered to members of the association and others in prescribed amounts and otherwise pursuant to a formula and procedure which is fair and equitable and will be fairly disclosed to all interested persons;
   c. members to whom stock will be offered and the amounts of stock which will be offered shall be determined as of a date or dates approved by the administrator;
   d. a statement as to whether stockholders shall have preemptive rights to acquire additional or treasury shares of the association and any provision limiting or denying said rights;
   e. at the time of the conversion, the number of shares which any person may acquire together with any associate or group of persons acting in concert shall not exceed five percent (5%) of the total number of shares offered. For purposes of this paragraph, the members of the converting institution’s board of directors shall not be deemed to be associates or a group acting in concert solely as a result of their board membership.
   f. at the time of the conversion, the total amount of stock acquired by officers and directors shall not exceed twenty-five percent (25%) of the total number of shares issued in connection with the conversion;
   g. the conversion shall not be complete until all stock offered in connection with the conversion has been subscribed.

(d) After approval of a requested conversion by the Commission, the administrator shall supervise and monitor the conversion process and he shall ensure that the conversion is conducted pursuant to law and the association’s approved plan of conversion.

(e) Upon conversion of a mutual association to the stock form of ownership, the legal existence of the association shall not terminate but the converted stock association shall be a continuation of the mutual association. The conversion shall be deemed a mere change in identity or form of organization. All rights, liabilities, obligations, interest and relations of whatever kind of the mutual association shall continue and remain in the stock-owned association. All actions and legal proceedings to which the association was a party prior to conversion shall be unaffected by the conversion and proceed as if the conversion had not taken place.

(f) The administrator shall promulgate rules and regulations to govern conversions; provided, however, that such rules and regulations as may be promulgated by the administrator shall be equal to or exceed the requirements for conversion imposed by the rules and regulations governing conversions of federal chartered mutual savings and loan associations of the Federal Home Loan Bank Board as set forth in the Federal Register, Vol. 44, No. 62,
Thursday, March 29, 1979, entitled 'Part 563b Conversion From Mutual to Stock Form' as these may be amended from time to time and other applicable rules and regulations effective as of the date of ratification. No provision of this section is to be interpreted to require Federal Savings and Loan Insurance Corporation (FSLIC) insurance of accounts as a prerequisite to conversion. All State associations are to continue to be allowed to choose between FSLIC and a mutual deposit guaranty association. Said rules and regulations shall implement the provisions of this section and provide procedures by which an association shall seek permission for a conversion and procedures for conducting conversions. Provided, however, the rules and regulations promulgated under this section shall apply equally to all converting associations and no converting association shall enjoy a competitive advantage over another type of converting association by reason of the rules and regulations governing its conversion; provided further, however, no association shall be required by the administrator or by regulation to change the type of insurance it maintains on its withdrawable accounts by reason of this section.

"§54B-34. Conversion of stock associations to mutual associations.—Any stock savings and loan association organized and operating under the provisions of this Chapter may, subject to the approval of the Commission, convert to a mutual savings and loan association under the provisions of this section. The administrator may promulgate rules and regulations governing the conversion of stock associations to mutual associations. Such rules and regulations shall include, but shall not be limited to requirements that:

1. the conversion neither impair the capital of the converting association nor adversely affect its operations;
2. the conversion shall be fair and equitable to all stockholders of the converting associations;
3. the public shall not be adversely affected by the conversion;
4. conversion of an association shall be accomplished only pursuant to a plan approved by the administrator. Said plan must have been approved by an affirmative vote of two-thirds of the members of the board of directors of the converting association, and only after a full and fair disclosure to the stockholders, by an affirmative vote a majority of the total votes which stockholders of the association are eligible and entitled to cast;
5. the plan of conversion provides that:
   a. withdrawable accounts be issued in connection with the conversion to the stockholders of the converting association;
   b. a uniform date be fixed for the determination of the stockholders to whom, and the amount to each stockholder of which, withdrawable accounts shall be made available;
   c. withdrawable accounts so made available to stockholders be based upon a fair and equitable formula approved by the administrator and fully and fairly disclosed to the stockholders of the converting association.

"§54B-35. Merger of like savings and loan associations.—Any two or more State mutual associations or any two or more State stock associations organized or operating, may merge or consolidate into a single association which may be either one of said merging associations, and the procedure to effect such merger shall be as follows:

1. The directors, or a majority of them, of such associations as desire to merge, may, at separate meetings, enter into a written agreement of merger
CHAPTER 282  Session Laws—1981

signed by them and under the corporate seals of the respective associations, specifying each association to be merged and the association which is to receive into itself the merging association or associations, and prescribing the terms and conditions of the merger and the mode of carrying it into effect. Such merger agreement may provide the manner and basis of converting or exchanging the withdrawable accounts in the mutual association or associations so merged for withdrawable accounts of the same or a different class of the receiving association, or of converting or exchanging the stock in the stock association or associations so merged for stock of the same or a different class of the receiving association. The merger agreement may provide for such other provisions with respect to the merger as appear necessary or desirable, or as the administrator may require by regulation to enable him to discharge his duties with respect to such merger.

(2) Such merger agreement together with copies of the minutes of the meetings of the respective boards of directors verified by the secretaries of the respective associations shall be submitted to the administrator, who shall cause a careful investigation and examination to be made of the affairs of the associations proposing to merge, including a determination of their respective assets and liabilities. The reasonable cost and expenses of such examination shall be defrayed by each association so investigated and examined. If, as a result of such investigation, he shall conclude that the members or stockholders of each of the associations proposing to merge will be benefitted thereby, he shall, in writing, approve same. If he deems that the proposed merger will not be in the interest of all members or stockholders of the associations so merging, he shall, in writing, disapprove the same. If he approves the merger agreement, then same shall be submitted, within 30 days after notice to such associations of such approval, to the members or stockholders of each of such association, as provided in the next subdivision. Such disapproval may be appealed by the association to the Commission.

(3) A special meeting of the members or stockholders of each of said associations shall be held separately upon written notice to each member or stockholder of not less than 30 days, specifying the time, place, and purpose for which such meeting is called and such notice shall be served personally or sent by mail, postage prepaid, to each member or stockholder at the last known address of such member or stockholder appearing upon the books of the association. Due notice may also be given of the time, place and object of such meeting by publication at least once a week for four successive weeks in one or more newspapers published in the county or counties wherein each such association has its principal or a branch office (and if there is no newspaper published in the county then in a newspaper published in an adjoining county). The secretary or other officer of the association shall make proof by affidavit at such meeting of the due service of the notice or call for said meeting.

(4) At separate meetings of the members or stockholders representing a majority of the outstanding withdrawable accounts or shares of stock entitled to vote, by affirmative vote of at least two-thirds of the members or shares present, in person or by special proxy restricted to matters in connection with the merger, may declare by resolution the determination to merge into a single association upon terms of the merger as shall have been agreed upon by the directors of the respective associations and as approved by the administrator. An association may solicit special proxies, restricted to matters in connection
with mergers, which may be valid for up to twelve months and which may be
voted on for any proposed merger in which the association will be the surviving
association. Upon the adoption of the resolution, a copy of the minutes of the
proceedings of the meetings of the members or stockholders of the respective
associations, certified by the president or vice-president and secretary or
assistant secretary of the merging associations, shall be filed in the office of the
administrator, within 10 days after such meetings. Within 15 days after the
receipt of a certified copy of the minutes of said meetings the administrator
shall either approve or disapprove the proceedings for compliance with this
section. If the proceedings are approved by him he shall so endorse the certified
copy of the minutes in his office, and shall issue a certificate of his approval of
the merger and send same to each of the associations. The certificate shall be
filed and recorded in the office of the Secretary of State and in the office of the
register of deeds of the county or counties in this State in which the respective
associations so merged shall have their original certificates of incorporation
recorded; provided, that the only fees that shall be collected in connection with
the merger of said associations shall be filing and recording fees. When such
certificate is so filed, the merger agreement shall take effect according to its
terms and shall be binding upon all the members or stockholders of the
associations so merging, and the same shall thence be taken and deemed to be
the act of merger of such constituent savings and loan associations under the
laws of this State, and such record or certified copy thereof shall be evidence of
the agreement and act of merger of said savings and loan associations and the
observance and performance of all acts and conditions necessary to have been
observed and performed precedent to such merger. If the administrator shall
disapprove the proceedings he shall mark the certified copies of the meetings in
his office as disapproved and notify the associations to that effect. Such
disapproval may be appealed by the association to the Commission.

(5) Upon the merger of any association, as above provided, into another:

a. Its corporate existence shall be merged into that of the receiving
association; and all and singular its rights, powers, privileges and
franchises, and all of its property, including all right, title, interest in
and to all property of whatsoever kind, whether real, personal or mixed,
and things in action, and every right, privilege, interest or asset of any
conceivable value or benefit then existing, belonging or pertaining to it,
or which would inure to it under an unmerged existence, shall
immediately by act of law and without any conveyance or transfer, and
without any further act or deed, be vested in and become the property
of such receiving association which shall have, hold and enjoy the same
in its own right as fully and to the same extent as if the same were
possessed, held or enjoyed by the association or associations so merged;
and such receiving association shall absorb fully and completely the
association or associations so merged.

b. Its rights, liabilities, obligations and relations to any person shall remain
unchanged and the association into which it has been merged shall, by
the merger, succeed to all the relations, obligations and liabilities as
though it had itself assumed or incurred the same. No obligation or
liability of a member, customer or stockholder in an association which is
a party to the merger shall be affected by the merger, but obligations
and liabilities shall continue as they existed before the merger, unless otherwise provided in the merger agreement.

c. A pending action or other judicial proceeding to which any association that shall be so merged is a party, shall not be deemed to have abated or to have discontinued by reason of the merger, but may be prosecuted to final judgment, order or decree in the same manner as if the merger had not been made; or the receiving association may be substituted as a party to such action or proceeding, and any judgment, order or decree may be rendered for or against it that might have been rendered for or against such other association if the merger had not occurred.

"§ 54B-36. Merger of associations where ownership is converted.—(a) Any two or more State mutual associations organized or operating may merge to form a single State stock association. The procedure to effect such a merger and conversion of ownership shall be as follows:

1) The merging associations shall merge (to form a mutual association), as provided under G.S. 54B-35.

2) The surviving association shall then convert to a stock association, as provided under G.S. 54B-33.

(b) Any two or more State stock associations organized or operating may merge to form a single mutual association. The procedure to effect such a merger and conversion of ownership shall be as follows:

1) The merging associations shall merge (to form a stock association), as provided under G.S. 54B-35.

2) The surviving association shall then convert to a mutual association, as provided under G.S. 54B-34.

"§ 54B-68. Supervisory control.—(a) Whenever the administrator determines that an association is conducting its business in an unsafe or unsound manner or in any fashion which threatens the financial integrity or sound operation of the association, the administrator may serve a notice of charges on the association, requiring it to show cause why it should not be placed under supervisory control. Such notice of charges shall specify the grounds for supervisory control, and set the time and place for a hearing. A hearing before the Commission pursuant to such notice shall be held within 15 days after issuance of the notice of charges, and shall comply with the provisions of Article 3 of Chapter 150A of the General Statutes.

(b) If, after the hearing provided above, Commission determines that supervisory control of the association is necessary to protect the association’s members, customers, stockholders or creditors, or the general public, the administrator shall issue an order taking supervisory control of the association. An appeal may be filed in the Wake County Superior Court.

(c) If the order taking supervisory control becomes final, the administrator may appoint an agent to supervise and monitor the operations of the association during the period of supervisory control. During the period of supervisory control, the association shall act in accordance with such instructions and directions as may be given by the administrator directly or through his
supervisory agent and shall not act or fail to act except when to do so would violate an outstanding cease and desist order.

(d) Within 180 days of the date the order taking supervisory control becomes final, the administrator shall issue an order approving a plan for the termination of supervisory control. The plan may provide for:

(1) the issuance by the association of capital stock;

Such an order shall be effective upon issuance and may include the entire board of directors or all of the officers of the association.

(b) If it is determined that any director, officer or employee of any association has knowingly participated in or consented to any violation of this Chapter, or any other law, rule, regulation or order, or engaged in any unsafe or unsound business practice in the operation of any association, or any repeated violation of or failure to comply with any association's bylaws, and that as a result, a situation exists requiring immediate corrective action, the administrator may issue an order temporarily removing such person or persons pending a hearing. (c) Any removal pursuant to Subsections (a) or (b) of this section shall be effective in all respects as if such removal had been made by the board of directors, the members or the stockholders of the association in question.

305
(d) Without the prior written approval of the administrator, no director, officer or employee permanently removed pursuant to this section shall be eligible to be elected, reelected or appointed to any position as a director, officer or employee of that association, nor shall such a director, officer or employee be eligible to be elected to or retain a position as a director, officer or employee of any other State association.

"§54B-70. Involuntary liquidation.—(a) The administrator with prior approval of the Commission may take custody of the books, records and assets of every kind and character of any association organized and operated under the provisions of this Chapter for any of the purposes hereinafter enumerated, if it reasonably appears from examinations or from reports made to the administrator that:

1. the directors, officers, or liquidators have neglected, failed or refused to take such action which the administrator may deem necessary for the protection of the association, or have impeded or obstructed an examination; or

2. the withdrawable capital of the association is impaired to the extent that the realizable value of its assets is insufficient to pay in full its creditors and holders of withdrawable accounts; or its liquidity fund or General Reserve Account is impaired; or

3. the business of the association is being conducted in a fraudulent, illegal or unsafe manner, or that the association is in an unsafe or unsound condition to transact business; (any association which, except as authorized in writing by the administrator, fails to make full payment of any withdrawal when due is in an unsafe or unsound condition to transact business, notwithstanding such provisions of the certificate of incorporation or such statutes or regulations with respect to payment of withdrawals in event an association does not pay all withdrawals in full); or

4. the officers, directors, or employees have assumed duties or performed acts in excess of those authorized by statute or regulation or charter, or without supplying the required bond; or,

5. the association has experienced a substantial dissipation of assets or earnings due to any violation or violations of statute or regulation, or due to any unsafe or unsound practice or practices; or

6. the association is insolvent, or is in imminent danger of insolvency or has suspended its ordinary business transactions due to insufficient funds; or

7. the association is unable to continue operations.

(b) Unless the administrator finds that such an emergency exists which may result in loss to members, withdrawable account holders, stockholders, or creditors, and which requires that he take custody immediately, he shall first give written notice to the directors and officers specifying the conditions criticized and allowing a reasonable time in which corrections may be made before a receiver shall be appointed as outlined in subsection (d) below.

(c) The purposes for which the administrator may take custody of an association include examination or further examination; conservation of its assets; restoration of impaired capital; the making of any reasonable or equitable adjustment deemed necessary by the administrator under any plan of reorganization.
(d) If the administrator after taking custody of an association, finds that one or more of the reasons for having taken custody continue to exist through the period of his custody, with little or no likelihood of amelioration of the situation, then he shall appoint as receiver or co-receiver any qualified person, firm or corporation for the purpose of liquidation of the association, which receiver shall furnish bond in form, amount and with surety as the administrator may require. The administrator may appoint the association's withdrawable account insurance corporation or its nominee as the receiver, and such insuring corporation shall be permitted to serve without posting bond.

(e) In the event the administrator appoints a receiver for an association, he shall mail a certified copy of the appointment order by certified mail to the address of the association as it shall appear on the records of the Division, and to any previous receiver or other legal custodian of the association, and to any court or other authority to which such previous receiver or other legal custodian is subject. Notice of such appointment shall be published in a newspaper of general circulation in the county where such association has its principal office.

(f) Whenever a receiver for an association is appointed pursuant to subsection (d) above the association may within 30 days thereafter bring an action in the Superior Court of Wake County, for an order requiring the administrator to remove such receiver.

(g) The duly appointed and qualified receiver shall take possession promptly of the association for which he or it has been so appointed, in accordance with the terms of such appointment, by service of a certified copy of the administrator's appointment order upon the association at its principal office through the officer or employee who is present and appears to be in charge. Immediately upon taking possession of the association, the receiver shall take possession and title to books, records and assets of every description of such association. The receiver, by operation of law and without any conveyance or other instrument, act or deed, shall succeed to all the rights, titles, powers and privileges of the association, its members or stockholders, holders of withdrawable accounts, its officers and directors or any of them; and to the titles to the books, records and assets of every description of any previous receiver or other legal custodian of such association. Such members, stockholders, holders of withdrawable accounts, officers or directors, or any of them, shall not thereafter, except as hereinafter expressly provided, have or exercise any such rights, powers or privileges or act in connection with any assets or property of any nature of the association in receivership: Provided however, that any officer, director, member, stockholder, withdrawable account holder, or borrower of such association shall have the right to communicate with the administrator with respect to such receivership. The administrator, with the approval of the Commission, may at any time, direct the receiver to return the association to its previous or a newly constituted management. The administrator may provide for a meeting or meetings of the members or stockholders for any purpose, including, without any limitation on the generality of the foregoing, the election of directors or an increase in the number of directors, or both, or the election of an entire new board of directors; and may provide for a meeting or meetings of the directors for any purpose including, without any limitation on the generality of the foregoing, the filling of vacancies on the board, the removal of officers and the election of new
officers, or for any of such purposes. Any such meeting of members or stockholders, or of directors, shall be supervised or conducted by a representative of the administrator.

(h) A duly appointed and qualified receiver shall have power and authority to:

(1) demand, sue for, collect, receive and take into his possession all the goods and chattels, rights and credits, moneys and effects, lands and tenements, books, papers, choses in action, bills, notes, and property of every description of the association;
(2) foreclose mortgages, deeds of trust, and other liens executed to the association to the extent the association would have had such right;
(3) institute suits for the recovery of any estate, property, damages, or demands existing in favor of the association, and he shall, upon his own application, be substituted as party plaintiff in the place of the association in any suit or proceeding pending at the time of his appointment;
(4) sell, convey, and assign all the property rights and interest owned by the association;
(5) appoint agents to serve at his pleasure;
(6) examine and investigate papers and persons, and pass on claims as provided in the regulations as prescribed by the administrator;
(7) make and carry out agreements with the insuring corporation or with any other financial institution for the payment or assumption of the association liabilities, in whole or in part, and to sell, convey, transfer, pledge, or assign assets as security or otherwise and to make guarantees in connection therewith; and
(8) perform all other acts which might be done by the employees, officers and directors.

Such powers shall be continued in effect until liquidation and dissolution or until return of the association to its prior or newly constituted management.

(i) A receiver may at any time during the receivership and prior to final liquidation be removed and a replacement appointed by the administrator.

(j) The administrator may determine that such liquidation proceedings should be discontinued. He shall then remove the receiver and restore all the rights, powers, and privileges of its members and stockholders, customers, employees, officers and directors, or restore such rights, powers, and privileges to its members, stockholders and customers, and grant such rights, powers and privileges to a newly constituted management, all as of the time of such restoration of the association to its management unless another time for such restoration shall be specified by the administrator. The return of an association to its management or to a newly constituted management from the possession of a receiver shall, by operation of law and without any conveyance or other instrument, act or deed, vest in such association the title to all property held by the receiver in his capacity as receiver for such association.

(k) A receiver may also be appointed under the authority of G.S. 1-502. No judge or court, however, shall appoint a receiver for any State association unless five days' advance notice of the motion, petition or application for appointment of a receiver shall have been given to such association and to the administrator.

(l) Following the appointment of a receiver, the administrator shall request the Attorney General to institute an action in the name of the administrator in
the superior court against the association for the orderly liquidation and dissolution of the association, and for an injunction to restrain the officers, directors and employees from continuing the operation of the association.

(m) Claims against a State association in receivership shall have the following order of priority for payment:

1. costs, expenses and debts of the association incurred on or after the date of the appointment of the receiver, including compensation for the receiver;
2. claims of general creditors;
3. claims of holders of special purpose or thrift accounts;
4. claims of holders of withdrawable accounts;
5. claims of stockholders of a stock association;
6. all remaining assets to members and stockholders in an amount proportionate to their holdings as of the date of the appointment of the receiver.

(n) All claims of each class described within subsection (m) above shall be paid in full so long as sufficient assets remain. Members of the class for which the receiver cannot make payment in full because assets will be depleted during payment to such class shall be paid an amount proportionate to their total claims.

(o) The administrator shall have the authority to direct the payment of claims for which no provision is herein made, and may direct the payment of claims within a class. The administrator shall have the authority to promulgate rules and regulations governing the payment of claims by an association in receivership.

(p) When all assets of the association have been fully liquidated, and all claims and expenses have been paid or settled, and the receiver shall recommend a final distribution, the dissolution of the association in receivership shall be accomplished in the following manner:

1. The receiver shall file with the administrator a detailed report, in a form to be prescribed by the administrator, of his acts and proposed final distribution, and dissolution.
2. Upon the administrator's approval of the final report of the receiver, the receiver shall provide such notice and thereafter shall make such final distribution, in such manner as the administrator may direct.
3. When a final distribution has been made except as to any unclaimed funds, the receiver shall deposit such unclaimed funds with the administrator and shall deliver to the administrator all books and records of the dissolved association.
4. Upon completion of the foregoing procedure, and upon the joint petition of the administrator and receiver to the superior court, the court may find that the association should be dissolved, and following such publication of notice of dissolution as the court may direct, the court may enter a decree of final resolution and the association shall thereby be dissolved.
5. Upon final dissolution of the association in receivership or at such time as the receiver shall be otherwise relieved of his duties, the administrator shall cause an audit to be conducted, during which the receiver shall be available to assist in such. The accounts of the receiver shall then be ruled upon by the administrator and Commission and if
approved, the receiver shall thereupon be given a final and complete discharge and release.

"§ 54B-71. Judicial review.—Any person or State Association against whom a cease and desist order is issued or a fine is imposed may have such order or fine reviewed by a court of competent jurisdiction. Except as otherwise provided, an appeal may be made only within 30 days of the issuance of the order or the imposition of the fine, whichever is later.

"§ 54B-72. Indemnity—No person who is fined or penalized for a violation of any criminal provision of this Article shall be reimbursed or indemnified in any fashion by the association for such fine or penalty.

"§ 54B-73. Cumulative penalties.—All penalties, fines, and remedies provided by this Article shall be cumulative.

"§ 54B-74. Annual license fees.—All State associations shall pay an annual license fee of twenty-five dollars ($25.00) and may be licensed upon filing with the administrator an application in such form as the administrator may prescribe. Such license fee shall be used to defray the expenses incurred by the Division in supervising State associations.

"§ 54B-75. Statement filed by association; fees.—Every State association shall file in the office of the administrator, on or before the first day of February in each year, in such form as the administrator shall prescribe, a statement of the business standing and financial condition of such association on the preceding 31st day of December, signed and sworn to by the managing officer and secretary thereof before the administrator, or before a notary public. The administrator shall collect a fee of five dollars ($5.00) from each association filing such statement, and the fees shall be paid into the State treasury to be credited to the General Fund.

"§ 54B-76. Statement examined, approved, and published.—It shall be the duty of the administrator to receive and thoroughly examine each annual statement required by G.S. 54B-75, and if made in compliance with the requirements thereof, each State association shall publish an abstract of the same in one of the newspapers of the State, to be selected by the managing officer making the statement, and at the expense of the association.

"§ 54B-77. Certain powers granted to State associations.—(a) In addition to the powers granted under this Chapter, any savings and loan association incorporated or operated under the provisions of this Chapter is herein authorized to:

(1) establish off the premises of any principal office or branch a customer communications terminal, point-of-sale terminal, automated teller machine, automated or other direct or remote information-processing device or machine, whether manned or unmanned, through or by means of which funds or information relating to any financial service or transaction rendered to the public is stored and transmitted, instantaneously or otherwise to or from an association terminal or terminals controlled or used by or with other parties; and the establishment and use of such a device or machine shall not be deemed to constitute a branch office and the capital requirements and standards for approval of a branch office as set forth in the statutes and regulations, shall not be applicable to the establishment of any such off-premises terminal, device or machine; and associations may through mutual consent share on-premises unmanned automated teller machines
and cash dispensers. The administrator may prescribe rules and regulations with regard to the application for permission for use, maintenance and supervision of said terminals, devices and machines;

(2) subject to such regulations as the administrator may prescribe, a State-chartered association is authorized to issue credit cards, extend credit in connection therewith, and otherwise engage in or participate in credit card operations;

(4)(a) in accordance with rules and regulations issued by the administrator, mutual capital certificates may be issued by State-chartered associations and sold directly to subscribers or through underwriters, and such certificates shall constitute part of the general reserve and net worth of the issuing association. The administrator, in the rules and regulations relating to the issuance and sale of mutual capital certificates, shall provide that such certificates:

(i) shall be subordinate to all savings accounts, savings certificates, and debt obligations;

(ii) shall constitute a claim in liquidation on the general reserves, surplus and undivided profits of the association remaining after the payment of all savings accounts, savings certificates, and debt obligations;

Any person in his own right, or in a trust or other fiduciary capacity, or any partnership, association, corporation, political subdivision or public or governmental unit or entity may become a member of a mutual association. Members shall be possessed of such voting rights and such other rights as are provided by an association's certificate of incorporation and bylaws as approved by the administrator. Duties and liabilities of officers and directors to their associations.—Officers and directors of a State association shall act in a fiduciary capacity towards the association and its members or stockholders. They shall discharge duties of their respective positions in good faith, and with that diligence and care which ordinarily prudent men would exercise under similar circumstances in like positions.

§ 54B-104. Conflicts of interest.—Each director, officer and employee of a State association has a fundamental duty to avoid placing himself in a position which creates, or which leads to or could lead to a conflict of interest or appearance of a conflict of interest having adverse effects on the interests of members, customers or stockholders of the association, the soundness of the association, and the provision of economical home financing for this State.

§ 54B-105. Voting rights.—Voting rights in the affairs of a State association may be exercised by members and stockholders by voting either in person or by proxy. The administrator shall promulgate rules and regulations governing forms of proxies, holders of proxies and proxy solicitation.

In addition to the foregoing notice, each association shall disseminate additional notice of any annual meeting by notice made available to all members entering the premises of any office or branch of the association in the regular course of business by posting therein, in full view of the public and such members, one or more conspicuous signs or placards announcing the pending meeting, the time, date and place of the meeting and the availability of additional information. Printed matter shall be freely available to said members containing any information as may be prescribed in rules and regulations issued by the administrator. Such additional notice shall be given at any time within the period of 60 days prior to and 14 days prior to the meeting and shall continue through the time of the meeting.
(c) The board of directors of a stock association shall cause a written or printed notice signed by the association's secretary, and stating the time and place of the annual meeting to be delivered not less than 10 days nor more than 50 days before the date of the meeting, either personally or by mail to each stockholder of record entitled to vote at the meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States Postal Service addressed to the stockholder at his address as it appears on the record of stockholders of the corporation, with postage thereon prepaid.

"§ 54B-107. Special meetings; notice required.—(a) Special meetings of members or stockholders of an association may be called by the president or the board of directors or by such other officers or persons as may be provided for in the charter or bylaws of the association.

"§ 54B-108. "§ 54B-109. Indemnification.—(a) An association shall maintain a blanket indemnity bond of at least a minimum amount as prescribed by the administrator.

(b) An association which employs collection agents, who for any reason are not covered by the bond as hereinabove required, shall provide for the bonding of each such agent in an amount equal to at least twice the average monthly collections of such agent. Such agents shall be required to make settlement with the association at least once monthly. No such coverage by bond will be required of any agent which is a bank insured by the Federal Deposit Insurance Corporation or an association insured by the Federal Savings and Loan Insurance Corporation or a mutual deposit guaranty association. The amount and form of such bonds and the sufficiency of the surety thereon shall be approved by the board of directors and the administrator before such is valid. All such bonds shall provide that a cancellation thereof or by the surety or by the insured shall not become effective unless and until 30 days' notice in writing shall have been given to the administrator.

(c) The administrator may require every member of the board of directors, officer or employee of an association who shall knowingly make, approve, participate in, or assent to, or who knowingly shall permit any of the officers or agents of the association to make investments not authorized by this Chapter, to deposit with the association an indemnity bond, insurance or collateral of a kind and amount sufficient to indemnify the association against damage which the association or its members or stockholders sustain in consequence of such unauthorized investment.

(d) The amount considered sufficient to indemnify the association shall, in the case of an unauthorized loan, be the difference between the book value of the loan and the amount that could legally have been made under the provisions of this Chapter. The amount considered sufficient to indemnify the association shall, in the case of an unauthorized other investment, be the difference between the book value and the market value of the investment at the time when the administrator makes his determination that such
investment is unauthorized. Whenever an unauthorized investment has been sold or disposed of without recourse, the administrator shall release such part of the indemnity as remains after deducting any loss, which amount shall be retained by the association. Whenever the balance of an unauthorized loan has been reduced to an amount which would permit such loan to be made in compliance with the provisions of this Chapter, the indemnity shall be released. The administrator, in making such determination may require an independent appraisal of the security.

(e) The administrator shall cause to be examined annually all such bonds and pass on their sufficiency and either the board of directors or the administrator may require new or additional bonds at any time.

(f) The administrator is empowered to promulgate rules and regulations with respect to litigation expenses and other indemnity matters.

§ 54B-110 to 54B-120. Reserved for future codification purposes.

“ARTICLE 6.

“Withdrawable Accounts.

“§ 54B-121. Creation of withdrawable accounts.—(a) Every State association shall be authorized to raise capital through the solicitation of investments from any person, natural or corporate, except as restricted or limited by law, or by such regulations as the administrator may prescribe.

(b) Such funds obtained through the solicitation of investments shall be held by an association in accounts designated generally as withdrawable accounts.

(c) An association may establish as many classes of withdrawable accounts as may be provided for in its certificate of incorporation or bylaws, subject to such regulations and limitations as the administrator may prescribe.

(1) At least one class of withdrawable accounts shall be established by which the holder, upon notice to the association, shall be able to withdraw the entire balance of such account without any penalty. The required period of notice, not to exceed 30 days, shall be determined by the board of directors of each association.

(2) For any additional classes of withdrawable accounts that may be established, the board may require a fixed minimum amount of money and a fixed minimum term, at the end of which, the account holder, without any notice on his part, shall be entitled to payment of the final balance of the funds in such account. Such minimum amount and minimum term and the rate of dividends on withdrawable accounts shall be agreed upon prior to the transfer to the association of any funds by the account holder and shall be evidenced by an executed contract. Associations shall mail to each natural person account holder notification of the date of maturity of accounts at least 10 days prior to maturity.

a. An association may impose a penalty upon the holder of such account to be assessed at the time of any withdrawal from the account prior to the date of termination of the minimum term for which the account holder contracted.

b. An association may require that the holder of such an account provide the association with not less than 30 days' notice of an intended withdrawal prior to the date of the termination of the account contract.
c. When the date of termination of such an account is passed, and the account is mature and payable, all payments thereon by the holder and all dividends on withdrawable account credits thereto by the association shall cease. However, if the holder shall notify the association, prior to the termination date of the account, that he wishes to extend the life of the account, the association shall renew the account and continue to accept payments and/or make dividends on withdrawable account credits or cancel the account as provided under the original contract.

d. Unless the association receives notification within the proper time period and renews the account, then upon the date of termination, it shall either pay to the holder of the account the final value thereof, or mail a notice to the holder at his last address as it appears on the records of the association to the effect that he is entitled to receive payment for the account.

e. If the association does not make payment to the holder of the account upon the date of termination and instead mails a notice to him as provided in paragraph (d) above, then until such time as the holder is paid, the account shall earn dividends on withdrawable accounts at a rate not less than the rate which the association is paying on its account or accounts established under Subdivision (1) above, unless provided otherwise by the account contract.

f. Whenever an association has funds in an amount insufficient to make immediate payment upon the date of termination of an account, or upon an application for withdrawal, the maturity shall be paid in accordance with the provisions of G.S. 54B-124. Whenever such a situation arises, dividends on withdrawable accounts shall be credited to the account at a rate not less than the rate provided for in the account contract.

§ 54B-122. Additional requirements.—Withdrawable accounts shall be:

(1) withdrawable upon demand, subject to the requisite advance notice to the association by the holder, as listed in G.S. 54B-121(c)(2)b. and by such regulations as the administrator may prescribe;

(2) entitled to dividends as provided herein or in such regulations as the administrator may prescribe;

(3) evidenced by an executed contract setting forth any special terms and provisions applicable to the account and the conditions upon which withdrawal may be made. The form of such contract shall be subject to the prior approval of the administrator and shall be held by the association as part of its records pertaining to the account. The association shall issue to the holder of the account either an account book or certificate as evidence of ownership of the account.

§ 54B-123. Dividends on withdrawable accounts.—(a) An association shall compute and pay dividends on withdrawable accounts in accordance with such terms and conditions as are herein prescribed, and subject to additional limitation and restrictions as shall be set forth in its bylaws, or certificate of incorporation and resolutions of its board of directors.

(b) Notwithstanding any other provisions of the General Statutes, savings and loan associations shall not be limited in the amount of dividends they may pay on withdrawable accounts. The administrator shall have the authority to
insure that no association pays dividends on withdrawable accounts inconsistent with the association's continued solvency, and safe and proper operation.

"§54B-124. Withdrawals from withdrawable accounts.—(a) A withdrawable account holder may at any time make written application for withdrawal of all or any part of the withdrawal value thereof except to the extent the same may be pledged as security for a loan, as recorded by the association. The association shall number, date, and file every unpaid withdrawal application in the order of actual receipt.

(b) An association shall pay the total amount of the withdrawal value of a withdrawable account upon application from the holder of the account, except as otherwise provided in this section. Payment shall be made in full, without exception, to holders of withdrawable accounts whose withdrawable account totals one hundred dollars ($100.00) or less.

(c) If an association has funds in the treasury and from current receipts in an amount insufficient to pay all long term withdrawable accounts which are mature and due and all applications for withdrawal, then within seven days after such accounts mature or payment is due, the board of directors of such association shall provide by resolution:

(1) a statement of the amount of money available in each calendar month to pay maturities and withdrawals, in accordance with safe and required operating procedures; provided, that after making provision for expenses, debts, obligations and cash dividends on withdrawable accounts, not less than one hundred percent (100%) of the remainder of cash treasury funds and current receipts shall be made available for the payment of outstanding applications for withdrawal and maturities;

(2) a list of matured withdrawable accounts in order of their maturity, and if in the same series, in order of issuance within such series; and a list of applications for withdrawal in order of actual receipt;

(3) for a maximum sum, set by the administrator which shall be paid to any one holder of a withdrawable account, for which a maturity or an application for withdrawal has not been paid, in any one month; and if the maturity or withdrawal due shall exceed the sum so fixed, then the holder shall be paid such sum in his turn according to the due date of the maturity or the filing date of the application; and his application shall be deemed refiled for payment in order in the next month; and such limited payment shall be made on a fixed date in each month for so long as any application or maturity remains unpaid.

(d) A withdrawable account pledged by the holder as sole security or partial security for a loan shall be subject to the withdrawal provisions of this section, but an application for withdrawal from such account shall be paid only if the resulting balance in such account would equal or exceed the outstanding loan balance, or portion thereof, secured by the withdrawable account. However, withdrawal of any additional amount from the account may be permitted, provided that such payment of such withdrawal application shall be applied first to the outstanding balance of the loan.

(e) The contents of a withdrawable account may be accepted by an association in payment or partial payment for any real property or other assets owned by the association and being sold.
(f) The holder of a withdrawable account which is mature and payable or for which application for withdrawal has been made does not become a creditor of the association merely by reason of such payment due to him.

(g) Any such resolution adopted by an association's board of directors pursuant to this section shall be submitted to the administrator for his approval or rejection. If he finds such to be fair to all affected parties, he shall approve it. If he determines otherwise, such resolution shall be rejected and the association shall not implement any of its provisions. The administrator shall issue his findings within 10 days after receipt of the resolution.

(h) The membership in a mutual association of a withdrawable account holder who has filed an application for withdrawal or whose account is mature and due shall remain unimpaired for so long as any withdrawal value remains to his credit upon the books of the association.

(i) An association may not obligate itself to pay maturities and withdrawals under any provisions other than the ones set forth in this section without prior approval of the administrator.

"§ 54B-125. Emergency limitations.—The administrator, with the approval of the Governor, may impose a limitation upon the amounts withdrawable or payable from withdrawable accounts of State associations during any specifically defined period when such limitation is in the public interest and welfare.

"§ 54B-126. Forced retirement of withdrawable accounts.—(a) At any time that funds may be on hand and available for such a purpose, and the bylaws of an association and withdrawable account contracts so provide, an association shall have the authority and right to redeem all or any portion of its withdrawable accounts which have not been pledged as security for loans by forcing the retirement thereof. The number of and total amount of such withdrawable accounts to be retired by an association shall be determined by the board of directors.

(b) An association shall give notice by certified mail to the last address of each holder of an affected withdrawable account of at least 30 days. The redemption price of withdrawable accounts so retired shall be the full withdrawal value of the account, as determined on the last dividend date, plus all dividends on withdrawable accounts credited or paid as of the effective retirement date. Dividends shall continue to accrue and be paid or credited by the association to the withdrawable accounts to be retired up to and including the effective retirement date.

(c) If the required notice has been properly given, and if on the effective retirement date the funds necessary for payment have been set aside so as to be available, and shall continue to be available therefor, dividends on those withdrawable accounts called for forced retirement shall cease to accrue after the effective retirement date. All rights with respect to such accounts shall, after the effective retirement date, terminate, except only the right of the holder of the retired withdrawable account to receive the full redemption price.

(d) No association may redeem withdrawable accounts by forced retirement whenever it has on file applications for withdrawal, or maturities which have not yet been acted upon and paid. No association may redeem withdrawable accounts by forced retirement until the maturity of any fixed minimum term which may be required for the class of withdrawable accounts to be retired.
“§ 54B-127. “§ 54B-128. Option on nonnegotiable orders of withdrawal.—Notwithstanding any other provisions of law, the administrator may by regulation authorize State associations to establish nonnegotiable orders or authorizations of withdrawal.

“§ 54B-129. Joint accounts.—(a) Any two or more persons may open or hold a withdrawable account or accounts. The withdrawable account and any balance thereof shall be held by them as joint tenants, with or without right of survivorship, as the contract shall provide. The withdrawable account may be held pursuant to G.S. 41-2.1 and have the incidents set forth in that section, provided, however, if the account is held pursuant to G.S. 41-2.1 the signature card shall set forth that fact. Unless otherwise agreed, payment by the association to any persons holding an account authorized by this section shall be a total discharge of the association’s obligation as to the amount so paid. A pledge of such account by any holder or holders shall, unless otherwise specifically agreed upon, be a valid pledge and transfer of such account, or of the amount so pledged, and shall not operate to sever or terminate the joint ownership of all or any part of the account.

(b) Nothing herein contained shall be construed to repeal or modify any of the provisions of G.S. 105-24, relating to the administration of the estate tax laws of this State, or provisions of laws relating to estate taxes; nor shall the provisions herein contained regulate or limit the rights and liabilities of the parties having an interest in such withdrawable account as among themselves, but shall instead regulate, govern and protect the association in its relationship with such joint owners of withdrawable accounts as herein provided.

(c) No addition to such account, nor any withdrawal, payment or revocation shall affect the nature of the account as a joint account.

“§ 54B-130. Trust accounts.—(a) If any one or more persons holding or opening a withdrawable account shall execute a written agreement with the association, providing for the account to be held in the name of such person or persons as trustee or trustees for one or more persons designated as beneficiaries, the account and any balance thereof shall be held as a trust account, and unless otherwise agreed upon between the trustees and the association:

1) any such trustee during his lifetime may change any designated beneficiaries by a written direction to the association; and

2) any such trustee may withdraw or receive payment in cash or check payable to his personal order, and such payment or withdrawal shall constitute a revocation of the agreement as to the amount withdrawn; and

3) upon the death of the surviving trustee, the person or persons designated as beneficiaries who are living at the death of the surviving trustee shall be the holder or holders of the account, as joint owners with right of survivorship if more than one, and payment by the association to the holder or any of them shall be a total discharge of the association’s obligation as to the amount paid.
(b) If a person opening or holding a withdrawable account shall execute a written agreement with an association providing that upon the death of the person named as holder, that the account shall be paid to or held by another designated person or persons, then the account and any balance thereof, shall be held as a payment on death account and unless otherwise agreed between the person executing such agreement and the association:

1. Upon the death of the holder of such a withdrawable account, the person designated by him and who has survived him shall be the owner of the account, and payment made by the association to any such person shall be a total discharge of the association's obligation as to the amount paid;

2. The person to whom such account is issued may change during his lifetime the designation of any of the persons who are to be holders of the account at his death by a written direction to the association; and

3. The person to whom such account is issued may withdraw or receive payment, and payment so made by the association shall be a total discharge of the association's liability as to the amount paid.

(c) Whenever no beneficiary of a trust account or no person designated to hold at death in a payment on death account survives the last trustee to die or the person to whom the payment on death account is issued, then the account and any balance thereof which exists shall be held by the trustee or holder of the payment on death account, in his own right and for his own use and benefit unless otherwise agreed upon prior to such death of the last beneficiary or person designated to hold at death.

(d) No addition to such accounts, nor any withdrawal, payment, revocation or change of beneficiary or payee shall affect the nature of such accounts as trust accounts or payment on death accounts.

§54B-131. Right of set-off on withdrawable accounts.—Every association shall have a right of set-off, without further agreement or pledge, upon all withdrawable accounts owned by any member or customer to whom or upon whose behalf the association has made an unsecured advance of money by loan; and upon the default in the repayment or satisfaction thereof the association may, with 30 days notice to the member or customer, cancel on its books all or any part of the withdrawable accounts owned by such member or customer, and apply the value of such accounts in payment on account of such obligation. Any association may accept the pledge of withdrawable accounts in such association owned by a member or customer, other than the borrower as additional security for any loan secured by a withdrawable account or by a withdrawable account and real property, or as additional security for any real property loan.

§54B-132. Minors as withdrawable account holders.—An association may issue a withdrawable account to a minor as the sole and absolute owner and receive payments, pay withdrawals, accept pledges and act in any other manner with respect to such account on the order of the minor with like effect as if he were of full age and legal capacity. Any payment to a minor shall be a discharge of the association to the extent thereof. The account shall be held for the exclusive right and benefit of the minor free from the control of all persons, except creditors.

§54B-133. Withdrawable accounts as deposit of securities.—Notwithstanding any restrictions or limitations contained in any law of this State, the withdrawable accounts of any State association or of any federal
association having its principal office in this State, may be accepted by any agency, department or official of this State in any case wherein such agency, department or official acting in its or his official capacity requires that securities be deposited with such agency, department or official.

"§54B-134. New account books.—A new account book or certificate or other evidence of ownership of a withdrawable account may be issued in the name of the holder of record at any time when requested by such holder or his legal representative upon proof satisfactory to the association that the original account book or certificate has been lost or destroyed. Such new account book or certificate shall expressly state that it is issued in lieu of the one lost or destroyed and that the association shall in no way be liable thereafter on account of the original book or certificate. The association may in its bylaws require indemnification against any loss that might result from the issuance of the new account book or certified certificate.

"§54B-135. Transfer of withdrawable accounts.—The owner of a withdrawable account may transfer his rights therein absolutely or conditionally to any other person eligible to hold the same but such transfer may be made on the books of the association only upon presentation of evidence of transfer satisfactory to the association, and accompanied by the proper application for transfer by the transferor and transferee, who shall accept such account subject to the terms and conditions of the savings contract, the bylaws of the association, the provisions of its certificate of incorporation, and all rules and regulations of the administrator. Notwithstanding the effectiveness of such a transfer between the parties thereto, the association may treat the holder of record of a withdrawable account as the owner thereof for all purposes, including payment and voting (in the case of a mutual association) until such transfer and assignment has been recorded by the association.

"§54B-136. Authority of power of attorney.—An association may continue to recognize the authority of an individual holding a power of attorney in writing to manage or to make withdrawals either in whole or in part from the withdrawable account of a customer or member until it receives written or actual notice of death or of adjudication of incompetency of such member or revocation of the authority of such individual holding such power of attorney. Payment by the association to an individual holding a power of attorney prior to receipt of such notice shall be a total discharge of the association’s obligation as to the amount so paid.

Unless so certified, no foreign association shall conduct a savings and loan business in this State.

"§ 54B-222. Application by a foreign association.—Application by a foreign association to conduct a savings and loan business in this State shall be made to the administrator. Upon making such application, the association shall file with the administrator two certified copies of its charter or certificate of incorporation, and bylaws, and thereafter certified copies of all amendments thereto; the names and addresses of its officers and directors; and a report of its condition, in such form as may be prescribed by the administrator, which shall be verified by oath of such officers and other persons as the administrator shall designate. The administrator may call for additional reports.

"§ 54B-223. Certificate of authority to enter State.—If the administrator finds that the association has good assets of sufficient value to cover all its liabilities and that its methods of doing business are safe and not contrary to the laws governing associations in this State, it may be permitted to conduct the business of a savings and loan association in this State upon a certificate of authority to enter, which shall be issued by the administrator only when such association shall have complied with the further requirements of this Article. The administrator shall have the authority to conduct, or cause to be conducted, an examination and investigation, upon the premises of the association as a prerequisite to the issuance of a certificate of authority to enter. Such certificate of authority to enter must be renewed annually for so long as such foreign association desires to operate within this State. Renewal may occur upon payment by the association of the appropriate renewal fee and a determination by the administrator of the association's continued fitness to operate within this State.

"§ 54B-224. Deposit of securities.—The administrator, prior to issuing a certificate of authority to enter, shall require every such foreign association to
deposit with the administrator such securities as he may approve, amounting to at least thirty thousand dollars ($30,000). These securities shall be held by him in trust for the exclusive benefit and security of the creditors and withdrawable account holders of the foreign association who are resident in this State and he shall have authority to require it to deposit additional securities at any time. No change or transfer of such securities shall be made without his consent. Such deposit of securities shall be maintained intact at all times in the full sum required, but the association making such deposit, so long as it shall continue solvent and in compliance with all the provisions of this Chapter applicable to it, may receive the dividends or interest on the securities deposited, and may from time to time, with the approval of the administrator withdraw any such securities upon depositing with the administrator other like securities the market value of which shall be equal to such as may be withdrawn.

"§54B-225. Appointment of administrator as attorney.—The certificate of authority to enter shall be for the current calendar year only. It shall not be issued until the association shall by a duly executed instrument filed with the administrator, constitute as its true and lawful attorney the administrator and his successors in office, upon whom all original process in any action or legal proceedings against it may be served, and therein shall agree that any original process against it which may be served upon the administrator shall be of the same force and validity as if served on the association itself, and that the authority thereof shall continue in force irrevocable so long as any liability of the association remains outstanding in this State. Such service of process shall be made by leaving a copy of same in the office of the administrator along with a fee of two dollars ($2.00) to be taxed in the plaintiff’s costs. When any original process is thus served, the administrator, by letter directed to the secretary of the association, shall within two days after such service forward to the secretary a copy of the process served upon him, and such service shall be deemed sufficient service upon the association. The administrator shall keep a record of all such process showing the day and hour of such service.

"§54B-226. Certificate required for agent.—No person may solicit business for, nor act as agent for any foreign association doing business in North Carolina without having first procured from the administrator a certificate stating that the association for which he offers to act is duly certified by this State to do business in the year in which such person solicits business or offers to act as agent. The administrator shall be paid a fee of one dollar ($1.00) for issuing the certificate, to be paid by the association for which the same was issued. Any person violating the provisions of this section shall be guilty of a misdemeanor.

"§54B-227. Fees and expenses.—Every such association shall pay for filing two certified copies of its certificate of incorporation, twenty dollars ($20.00); for filing original annual reports, twenty dollars ($20.00); for original or any renewal certificate of authority to enter, two hundred fifty dollars ($250.00); for certificate of each agency, five dollars ($5.00); and shall pay a fee set annually by the administrator for the examination of the association. The administrator may maintain an action in the name of this State against such association for the recovery of any such fees in any court of competent jurisdiction.

"§54B-228. Subject to North Carolina law.—Any contract made by any foreign association with any citizen of this State shall be deemed and considered a North Carolina contract, and shall be so construed by all the courts of this State according to the laws thereof.

Examination and certification by administrator.—(a) Upon receipt from the Secretary of State of a copy of the articles of incorporation of a proposed guaranty association, the administrator shall at once examine all the facts connected with the formation of the proposed corporation. If the articles of incorporation are correct in form and substance and the examination shows that such corporation, if formed, would be entitled to commence the business of a guaranty association, the administrator shall so certify to the Secretary of State.

(b) The administrator may refuse to make such certification if upon examination he has reason to believe the proposed corporation is to be formed for any business other than assuring the liquidity of member institutions and guaranteeing deposits therein, if he has reason to believe that the character and general fitness of the incorporators are not such as to command the confidence of the general public or if the best interests of the public will not be promoted by its establishment.

“§ 54B-239. Recordation of articles of incorporation.—Upon receipt of the certification provided for in G.S. 54B-238, the Secretary of State shall record the articles of incorporation of such guaranty association and furnish a certified copy thereof to the incorporators and to the administrator. (b) In the event the proposed amendments are correct in form and substance and the examination shows that if adopted they would not change the character or principal business of the guaranty association, the administrator shall so certify to the Secretary of State.

(c) The administrator may refuse to make certification if upon examination he has reason to believe that the proposed amendments would change the character of the business of the guaranty association or that the best interests of the public will not be promoted by their adoption.

"§54B-242. Recordation of amendments.—Upon receipt of the certification provided for in G.S. 54B-241, the Secretary of State shall record the amendments to the articles of incorporation and furnish a certified copy thereof to the mutual deposit guaranty association and to the administrator.

At this time, the Supplemental Retirement Fund will become active again.

(c) as soon as practical after September 1 of each year, but in no event later than December 1, divide an amount equal to the total income and interest earned in the preceding year on investments of funds belonging to the Local Firemen's Relief Fund into equal shares and disburse the same as Supplemental Retirement Fund benefits in accordance with Section 3 of this act.

Sec. 3. Supplemental Retirement Fund benefits. (a) The following classes of firemen are eligible for Supplemental Retirement Fund benefits:

authorize payment of the premiums on the bond from the Supplemental Retirement Fund.

Sec. 7. Application Forms. (a) An application form must be properly filled out and approved by the Board of Trustees before any Supplemental Retirement funds may be paid.

Section 1. The Charter of the City of Winston-Salem, being Chapter 232, Private Laws of 1927, as amended by Section 5 of Chapter 1023, Session Laws of 1973 (Second Session 1974), is further amended by adding a new Article XV to read:

"ARTICLE XV.

"Uptown Development Projects.

"Sec. 83. Uptown development projects. (a) Definition. In this Article, 'uptown development projects' means a capital project in the city's central business district, as defined by the Board of Aldermen, comprising one or more buildings or other improvements and including both public and private facilities. By way of illustration but not limitation, such a project might include a single building comprising a publicly owned parking structure and publicly owned convention center and a privately owned hotel or office building.

(b) Authorization. If the Board of Aldermen finds that it is likely to have a significant effect on the revitalization of the central business district, the city may acquire, construct, own, and operate or participate in the acquisition, construction, ownership, and operation of an uptown development project or of specific facilities within such a project, including the making of loans and grants, from federal or State grant funds. The city may enter into binding contracts with one or more private developers with respect to acquiring, constructing, owning, or operating such a project. Such a contract shall among other provisions, specify the following:

(1) The property interests of both the city and the developer or developers in the project.
(2) The responsibilities of the city and the developer or developers for construction of the project.
(3) The responsibilities of the city and the developer or developers with respect to financing the project.

Such a contract may be entered into before the acquisition of any real property necessary to the project.

(c) Property acquisition. An uptown development project may be constructed on property acquired by the developer or developers or on property acquired by the city, by purchase or gift.

(d) Property disposition. In connection with an uptown development project, the city may lease or convey interests in property owned by it, including air rights over public facilities, by private negotiation or sale, and Article 12 of Chapter 160A of the General Statutes does not apply to such dispositions.
CHAPTER 289  Session Laws—1981

Article 12 of Chapter 160A shall, however, apply to the sale of city property within a project once the project is completed.

(e) Construction of the project. The contract between the city and the developer or developers may provide that the developer or developers shall be responsible for construction of the entire uptown development project. If so, the contract shall include such provisions as the Board of Aldermen deems sufficient to assure that the public facility or facilities included in the project meet the needs of the city and are constructed at a reasonable price. The proposed overhead crosswalk between the proposed Radisson Hotel and the City-owned parking facility in downtown Winston-Salem may be constructed without complying with the provisions of Article 8 of Chapter 143 of the General Statutes.

(f) Operation. The city may contract for the operation of any public facility or facilities included in an uptown development project by a person, partnership, firm, or corporation, public or private. Such a contract shall include provisions sufficient to assure that any such facility or facilities are operated for the benefit of the citizens of the city.

(g) Grant funds. To assist in the financing of its share of an uptown development project, the city may apply for, accept and expend grant funds from the federal or State governments.”

No work of improvement may be constructed or established without the approval of work plans by the Soil and Water Conservation Commission pursuant to this section.

(b) The Soil and Water Conservation Commission shall approve a watershed work plan if, in its judgment, it:

(1) provides for proper and safe construction of proposed works of improvement;
(2) shows that the construction and operation of the proposed works of improvement (in conjunction with other such works and related structures of the district and the watershed) will not appreciably diminish the flow of useful water that would otherwise be available to existing downstream water users during critical periods;

(d) In conjunction with any work plans submitted to the Soil and Water Conservation Commission under subsection (c) of this section, a county shall submit in such form as the Soil and Water Conservation Commission may prescribe a plan of its proposed method of operations for works of improvement covered by the work plans and for related structures. With the approval of the Soil and Water Conservation Commission, the county may amend its initial plan of operations from time to time. (e) If the Soil and Water Conservation Commission has reason to believe that a county is not operating any work of improvement or properly related structure in accordance with its plan of operations as amended, the Soil and Water Conservation Commission on its own motion or upon complaint may order a hearing to be held thereon upon not less than 30 days’ written notification to the county and complainant, if any, by personal service or registered mail. Notice of such hearing shall be published at least once a week for two successive weeks. In connection with any such hearing the Soil and Water Conservation Commission shall be empowered to administer oaths; to take testimony; and, in the same manner as the superior court, to order the taking of depositions, issue subpoenas, and to compel the attendance of witnesses and production of documents. If the Soil and Water Conservation Commission determines from evidence of record that the county is not operating any work of improvement or related structure in accordance with its plan of operations, as amended, the Soil and Water Conservation Commission may issue an order directing the county to comply therewith or to take other appropriate corrective action. Upon failure by a county to comply with any such order, the Soil and Water Conservation Commission may institute an action for injunctive relief in the superior court of any county wherein such noncompliance occurs.”

Additional ancient mineral claims extinguished in certain counties; oil, gas and mineral interests to be recorded in such counties.—(a) Where it appears on the public records that the fee simple title to any oil, gas or mineral interest in an area of land has been severed or separated from the surface fee simple ownership of such land and such interest is not in actual course of being mined, drilled, worked or operated, or in the adverse possession of another, any person having legal capacity to own land in this State, who has an unbroken chain of title of record to such surface estate of such area of land for at least 30 years and provided such surface estate is not in the adverse possession of
another, shall be deemed to have a marketable title to such surface estate as provided in the succeeding subsections of this section, subject to such interests and defects as are inherent in the provisions and limitations contained in the muniments of which such chain of record title is formed.

"Sec. 5.4. Assessment Procedure and Effect.—In ordering street or sidewalk improvements or sidewalk repairs and assessing the cost thereof, the Council shall follow the procedures provided by the General Statutes for street and sidewalk improvements, except those provisions relating to the petition of property owners, the sufficiency thereof, and limitation of percentage of cost to be assessed. "Sec. 6.1. proposed work is in compliance with federal, State and local rules and regulations pertaining to Community Development Block Grants.

"Sec. 6.2. Petition.—The authority granted by this Article shall be exercised only upon petition by the owner or owners of such benefitting property. Such petition shall be upon a form approved by the Town Council and shall contain:

(4) Such other information as may be required by the Town Council.

"Sec. 6.3. Approval.—The Town Council may approve or deny such petition submitted. If any such petition shall be approved by the Town Council, the town clerk shall mark upon the face of such petition such words as shall indicate such approval by the Town Council and the date and time of the approval.

"Sec. 6.4. Foreclosure.—From and after approval of any petition submitted pursuant to this Article, a lien in favor of the Town shall exist upon the property described in such petition for the amount stated in such petition as the anticipated cost of furnishing such improvements and services. Such liens shall be inferior to all prior and subsequent federal, State, county and municipal tax liens of record, but superior to all others. This lien may be collected by foreclosure in the same manner as provided by law for the foreclosure of liens for special assessments. Any foreclosure proceeding instituted pursuant to this section shall be deemed a proceeding in rem and no mistake or omission as to the name of any owner or person interested in any lot or parcel of land affected thereby shall be regarded as a substantial mistake or omission. No change of ownership shall affect any lien created pursuant to this Article.

"Sec. 6.6. Payment.—The owner or owners submitting such a petition to the Town Council shall also have the option of removing the lien from their property by either a lump sum payment or completion of an installment payment plan of the cost of the improvements and services.

"Sec. 6.7. Amendment.—If the Town Council shall determine that the actual cost of furnishing the improvements and services provided for in any approved petition shall have exceeded the amount originally stated in such petition as the anticipated cost of providing such improvements or services, the Town Council may, by resolution, amend the approved petition to set forth the correct costs. The Town Council's determination of such actual costs shall be deemed conclusive. Upon amendment as provided by this subsection, the petition shall be deemed effective as if originally submitted with the amended costs set forth therein. A copy of any resolution enacted pursuant to this subsection shall be mailed or personally delivered to the owner or owners of such property at their last known address.

"Sec. 6.8. Records.—Any petition approved by the Town Council and any amendment thereof shall be filed in the office of the town clerk. The town clerk
shall maintain a record of such approved petitions and amendments thereof and such records shall be available to public view during regular business hours.

"Sec. 6.9. Correction.—If the actual cost of providing the services requested in any approved petition shall be less than the costs set forth in such petition as anticipated costs, the Town Council may, by resolution, amend the approved petition to set forth the correct costs under the same procedures as outlined in Section 6.7 above, provided, however, any anticipated costs set forth in the approved petition which shall have been determined under any schedule of charges approved by the Town Council shall, for the purpose of this section, be deemed the actual costs of providing such service.

"ARTICLE VII.

"§90-161. Nurses registered under previous law.—On June 30, 1981, any nurse who holds a license to practice nursing as a registered nurse or licensed practical nurse, issued by a competent authority pursuant to laws providing for the licensure of nurses in North Carolina, shall be deemed to be licensed under
the provisions of this Article, but such person shall otherwise comply with the provisions of this Article including those provisions governing licensure renewal.

"§90-161.1. Qualifications of applicants for examination.—In order to be eligible for licensure by examination, the applicant shall make a written application to the board on forms furnished by the board and shall submit to the board an application fee and written evidence, verified by oath, sufficient to satisfy the board that the applicant has graduated from a course of study approved by the board and is mentally and physically competent to practice nursing.

"§90-161.2. Licensure by examination.—At least twice each year the board shall give an examination at the time and place it determines, to applicants for licensure to practice as a registered nurse or licensed practical nurse. The board shall give advance notice to applicants and to persons conducting approved nursing programs of the time and place of each examination. The board shall adopt regulations, not inconsistent with this Article, governing qualifications of applicants, the conduct of applicants during the examination, and the conduct of the examination. The applicants shall be required to pass a written examination approved and administered by the board. When the board determines that an applicant has passed the required examination, submitted the required fee, and has demonstrated to the board's satisfaction that he or she is mentally and physically competent to practice nursing, the board shall issue a license to the applicant.

"§90-161.3. Reexamination.—Any applicant who fails to pass the first licensure examination may take subsequent examinations in accordance with the rules and regulations of the board, provided that any person who has graduated from a nursing program after July 1, 1981, must pass the examination within three years of graduation. After this three-year period, the applicant must reenter and successfully complete a board-approved nursing program before being allowed to take subsequent examinations.

"§90-161.4. Qualifications for license as a registered nurse or a licensed practical nurse without examination.—The board may, without examination, issue a license to an applicant who is duly licensed as a registered nurse or licensed practical nurse under the laws of another state, territory of the United States, the District of Columbia, or foreign country when that jurisdiction's requirements for licensure as a registered nurse or a licensed practical nurse, as the case may be, are substantially equivalent to or exceed those of the State of North Carolina at the time the applicant was initially licensed, and when, in the board's opinion, the applicant is competent to practice nursing in this State. The board may require such applicant to prove competence and qualifications to practice as a registered nurse or licensed practical nurse in North Carolina.

"§90-161.5. Temporary license.—The board shall issue a nonrenewable temporary license to persons applying for licensure under G.S. 90-161.2 for a period not to exceed the lesser of six months or the date of applicant's receipt of the results of the licensure examination. The board shall revoke the temporary license of any person who has failed the examination for licensure as provided by this act. The board shall issue a nonrenewable temporary license to persons applying for licensure under G.S. 90-161.4 for a period not to exceed the lesser of six months or until the board determines whether the applicant is qualified to practice nursing in North Carolina. Temporary licensees may perform patient-
care services within limits defined by the board. In defining these limits, the board shall consider the ability of the temporary licensee to safely and properly carry out patient-care services. Temporary licensees shall be held to the standard of care of a fully licensed nurse.

"§ 90-161.6. Licensure renewal.—Every license issued under this Article shall be renewed every two years. On or before the date the current license expires, every person who desires to continue to practice nursing shall apply for licensure renewal to the board on forms furnished by the board and shall also file the required fee. The board shall provide space on the renewal form for the licensee to specify the amount of continuing education received during the renewal period. Failure to renew the license within 30 days after the expiration date shall result in automatic forfeiture of the right to practice nursing in North Carolina.

"§ 90-161.7. Reinstatement.—A licensee who has allowed license to lapse by failure to renew as herein provided may apply for reinstatement on a form provided by the board. The board shall require the applicant to return the completed application with the required fee and to furnish a statement of the reason for failure to apply for renewal prior to the deadline. If the license has lapsed for at least five years, the board shall require the applicant to complete satisfactorily a refresher course approved by the board. The board may require any applicant for reinstatement to satisfy the board that the license should be reinstated. If, in the opinion of the board, the applicant has so satisfied the board, it shall issue a renewal of license to practice nursing, or it shall issue a license to practice nursing for a limited time.

"§ 90-162. Inactive list.—(a) When a licensee submits a request for inactive status, the board shall issue to the licensee a statement of inactive status and shall place the licensee's name on the inactive list. While on the inactive list, the person shall not be subjected to renewal requirements and shall not practice nursing in North Carolina.

(b) When such person desires to be removed from the inactive list and returned to the active list, an application shall be submitted to the board on a form furnished by the board and the fee shall be paid for license renewal. The board shall require evidence of competency to resume the practice of nursing before returning the applicant to active status.

"§ 90-163. Revocation, suspension, or denial of licensure.—In accordance with the provisions of Chapter 150A of the General Statutes, the board may require remedial education, issue a letter of reprimand, restrict, revoke, or suspend any license to practice nursing in North Carolina or deny any application for licensure if the board determines that the nurse or applicant:

1. has given false information or has withheld material information from the board in procuring or attempting to procure a license to practice nursing;
2. has been convicted of or pleaded guilty or nolo contendere to any crime which indicates that the nurse is unfit or incompetent to practice nursing or that the nurse has deceived or defrauded the public;
3. has a mental or physical disability or uses any drug to a degree that interferes with his or her fitness to practice nursing;
4. engages in conduct that endangers the public health;
5. is unfit or incompetent to practice nursing by reason of deliberate or negligent acts or omissions regardless of whether actual injury to the patient is established;
CHAPTER 360  Session Laws—1981

(6) engages in conduct that deceives, defrauds, or harms the public in the course of professional activities or services; or

(7) has willfully violated any provision of this Article or of regulations enacted by the board.

The board may take any of the actions specified in subdivisions (1) through (7) of this section when a registered nurse approved to perform medical acts has violated rules governing the performance of medical acts by a registered nurse; provided this shall not interfere with the authority of the Board of Medical Examiners to enforce rules and regulations governing the performance of medical acts by a registered nurse.

The board may reinstate a revoked license or remove licensure restrictions when it finds that the reasons for revocation or restriction no longer exist and that the nurse or applicant can reasonably be expected to safely and properly practice nursing.

"§ 90-164. Standards for nursing programs.—A nursing program may be operated under the authority of a general hospital, an educational institution or agency, or any other authority satisfactory to the board. The board shall establish, revise, or repeal standards for nursing programs. These standards shall specify program requirements, curricula, faculty, students, facilities, resources, administration, and describe the approval process. The standards approved by the board and in effect on June 30, 1980, shall be the prescribed standards. Before making any substantive change in the standards the board shall hold a hearing in accordance with G.S. Chapter 150A. Any institution desiring to establish a nursing program shall apply to the board and submit satisfactory evidence that it will meet the standards prescribed by the board. Those standards shall be designed to ensure that graduates of those programs have the educational training to safely and properly practice nursing. The board shall encourage the continued operation of all present programs that meet the standards approved by the board and the board shall promote the establishment of additional programs.

"§ 90-164.1. Approval.—The board shall designate persons to survey proposed nursing programs, including the clinical facilities. The persons designated by the board shall submit a written report of the survey to the board. If in the opinion of the board the standards for approved nursing education are met, the program shall be given approval.

"§ 90-164.2. Periodic surveys.—The board shall designate persons to survey all nursing programs in the State at least every five years or more often as deemed necessary. Written reports of such surveys shall be submitted to the board. If the board determines that any approved nursing program does not meet or maintain the standards required by the board, notice thereof in writing specifying the deficiencies shall be given immediately to the institution responsible for the program. The board shall withdraw approval from a program which fails to correct deficiencies within a reasonable time. The board shall publish annually a list of nursing programs in this State showing their approval status.

"§ 90-164.3. Baccalaureate in nursing candidate credits.—Every graduate of a diploma or associate degree school of nursing in this State who has passed the registered nurse examination shall, upon admission to any State-supported institution of higher learning offering baccalaureate education in nursing, be granted credit for previous experience in the diploma or associate degree school
of nursing on an individual basis by the utilization of the most effective method of evaluation to the end that the applicant shall receive optimum credit and that upon graduation the applicant will have earned the baccalaureate degree in nursing.

"§ 90-165. Continuing education programs.—(a) Upon request, the board shall grant approval to continuing education programs upon a finding that the program offers an educational experience designed to enhance the practice of nursing.

(b) If the program offers to teach nurses to perform advance skills, the board may grant approval for the program and the performance of the advanced skills by those successfully completing the program when it finds that the nature of the procedures taught in the program and the program facilities and faculty are such that a nurse successfully completing the program can reasonably be expected to carry out those procedures safely and properly.

"§ 90-166. License required.—No person shall practice or offer to practice as or use any card, title or abbreviation to indicate that such person is a registered nurse or licensed practical nurse unless that person is currently licensed as provided by this Article. This Article shall not, however, be construed to prohibit or limit the following:

(1) the performance by any person of any act for which that person holds a license issued pursuant to North Carolina law;

(2) the clinical practice by students enrolled in approved nursing programs under the supervision of qualified faculty;

(3) the performance of nursing performed by persons who hold a temporary license issued pursuant to G.S. 90-161.5;

(4) the delegation to any person, including a member of the patient’s family, by a physician licensed to practice medicine in North Carolina, a licensed dentist or registered nurse of those patient-care services which are routine, repetitive, limited in scope that do not require the professional judgment of a registered nurse or licensed practical nurse;

(5) assistance by any person in the case of emergency.

Any person permitted to practice nursing without a license as provided in subdivision (2) or (3) of this section shall be held to the same standard of care as any licensed nurse.

"§ 90-167. Prohibited acts.—It shall be a violation of this Article for any person to:

(1) sell, fraudulently obtain, or fraudulently furnish any nursing diploma or aid or abet therein;

(2) practice nursing under cover of any fraudulently obtained license;

(3) practice nursing without a license;

(4) conduct a nursing program that is not approved by the board; or

(5) employ unlicensed persons to practice nursing in violation of this Article.

"§ 90-168. Violation of Article.—The violation of any provision of this Article, except G.S. 90-169, shall be a misdemeanor punishable in the discretion of the court.

"§ 90-168.1. Injunctive authority.—The board may apply to the superior court for an injunction to prevent violations of this Article or of any rules enacted pursuant thereto. The court is empowered to grant such injunctions regardless of whether criminal prosecution or other action has been or may be instituted as a result of such violation.
CHAPTER 360  Session Laws—1981

“§ 90-169. Reports: immunity from suit.—Any person who has reasonable cause to suspect misconduct or incapacity of a licensee or who has reasonable cause to suspect that any person is in violation of this Article, including those actions specified in G.S. 90-163 (1) through (7), should report the relevant facts to the board. Upon receipt of such charge or upon its own initiative, the board may give notice of an administrative hearing or may, after diligent investigation, dismiss unfounded charges. Any person making a report pursuant to this section shall be immune from any criminal prosecution or civil liability resulting therefrom unless such person knew the report was false or acted in reckless disregard of whether the report was false.”

Sec. 2. On January 1, 1982, the terms of office of the physician and hospital administrator board members shall expire and the Governor shall appoint two public members to the board as follows: one for a two-year term and one for a three-year term. The terms of office of the registered nurse members and licensed practical nurse members shall expire at the times they would have if this Article had not been enacted. The North Carolina Board of Nursing shall conduct an election in 1981 to elect: (1) for a one-year term, a community health nurse, a nurse educator, and two licensed practical nurses; (2) for a two-year term, one licensed practical nurse, one registered nurse approved to perform medical acts, one nurse educator, and one hospital-employed nursing service director; and (3) for a three-year term, one physician-employed nurse, one nurse employed by a skilled or intermediate care facility, one registered nurse employed by a hospital primarily engaged in providing patient care services, and one licensed practical nurse. Thereafter, members shall serve a three-year term and shall be selected as provided in G.S. 90-160.

Sec. 3. Severability. If any provision of this Article or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the act and of the application of such provision to other persons and circumstances shall not be affected thereby.

AN ACT TO AMEND THE CHARTER OF THE CITY OF WILMINGTON TO PERMIT PAYMENTS IN LIEU OF DEDICATION OF LAND OR ACTUAL CONSTRUCTION OF REQUIRED IMPROVEMENTS IN THE APPROVAL OF SUBDIVISIONS.

The General Assembly of North Carolina enacts:

Section 1. Chapter 495, Session Laws of 1977, being the Charter of the City of Wilmington, is amended by adding the following new section to Article XXIII:

"Sec. 23.7. Payments in lieu of dedication or reservation of property for recreation purposes or in lieu of actual construction or installation of required community service facilities. (a) In adopting any subdivision control ordinance pursuant to provisions of this Charter or G.S. 160A-372, the City Council is authorized to provide for the dedication or reservation of recreation areas serving residents of the immediate neighborhood within the subdivision, or to provide for the payment in lieu thereof of such sum of money as the Council may determine to be the equivalent in value of any such recreation area.

(b) In addition to any of the foregoing powers, the City Council may in adopting any subdivision control ordinance allow a subdivider to pay funds to the City in lieu of the actual installation or construction of required community service facilities. Such facilities may include (without limitation) streets, public utility lines, drainage systems, and other property (real or personal) or improvements proposed or intended to eventually be dedicated to one or more public purposes where it is in the best public interest to delay or otherwise defer their actual installation or completion until a later date and it will not cause undue hardship upon either the residents of the proposed development or the surrounding neighborhood to postpone their actual construction or installation until some future date which may or may not be specified or to even subsequently abandon such improvements altogether whenever appropriate and for good cause. Under no circumstances, however, shall a developer be allowed to avoid installing required improvements or community facilities which are found by the approving bodies to be essential at the time the subdivision is approved.

(c) The City Council may use any monies received in lieu of dedicated recreation areas for acquiring recreation areas beyond the boundaries of the immediate subdivision but within the neighborhood wherein the subdivision lies. City Council may also use funds received in lieu of required improvements for the original intended purpose or for any other lawful public purpose whether or not such funds are used exclusively, in part or in whole, to serve, improve, enhance or otherwise benefit the approved subdivision, it being the express intent of this section to allow such monies to be used to serve the neighborhood or immediate area in which the subdivision lies and not necessarily restrict the use of such funds to use totally within the subdivision itself so long as the use serves some legitimate public purpose in the surrounding community."

Sec. 2. This act is effective upon ratification.

(b) Implied Powers. The Commission shall have all other powers which may be reasonably implied from the granting of the express powers stated in subsection (a), or which may be incidental to, or convenient for, performing the duties given to the Commission.

"§ 18B-204. State warehouse.—(a) Contracting for Private Warehouse. The Commission shall provide for the receipt, storage, and distribution of spirituous liquor by one of the following methods:

1. By negotiated contract with a privately owned warehouse, or
2. By negotiated contract with privately owned warehouses in several regions of the State. The Commission shall choose locations for the warehouses to promote efficient distribution of spirituous liquor to all local boards, to maintain control of that liquor, and to insure the Commission’s supervision of warehousing procedures.

(b) Audits and Inspections. Contracts entered into pursuant to this section shall provide the following:

1. That an annual audited financial statement be prepared and submitted to the Commission by the person contracting with the Commission;
2. That all warehouse records be available for inspection at all times by the Commission and the Department of Revenue; and
3. That all warehouse accounts relating to the receipt, storage, or distribution of spirituous liquor be subject to audit by the State Auditor.

(c) Emergency or Temporary Operation. If the independent operator of a warehouse changes, or if some other occurrence results in substantially impeded
distribution of spurious liquor from a warehouse, the Commission may operate that warehouse on an interim emergency or temporary basis.

(d) Rules. The Commission may adopt rules regarding warehouse operations, and violations of those rules by a party with whom the Commission contracts shall be grounds for termination by the Commission of a contract entered into under this section.

"§ 18B-205. Accounts and reports required.—(a) Accounts and Reports. The Commission may require local boards to submit quarterly mixed beverage reports, quarterly and annual audits, monthly sales records, and any other reports or audits relating to the operations of the local ABC systems.

"§ 18B-206. Standards for alcoholic beverages.—(a) Authority to Set Standards. The Commission may set standards and adopt rules for malt beverages, unfortified wine, fortified wine, and spurious liquor to protect the public against beverages containing harmful or impure substances, beverages containing an improper balance of substances as determined by the Commission, spurious or imitation beverages, and beverages unfit for human consumption. In setting standards and in issuing rules relating to them, the Commission may follow federal guidelines for standards of identity, labeling and advertising contained in Title 27 of the Code of Federal Regulations, or may adopt more restrictive standards.

(b) Effective Date of Standards. A person possessing alcoholic beverages which do not meet a new standard set by the Commission shall have 60 days after the effective date of the standard to sell or otherwise dispose of those alcoholic beverages.

(c) Testing. The Commission may test malt beverages, unfortified wine, fortified wine, and spurious liquor possessed or offered for sale in this State to determine whether they meet the standards set by the Commission. If the Commission chooses to test an alcoholic beverage, that test may be performed by the Commission, the Commission may arrange for the State Chemist to perform the testing, or the Commission may have the testing performed in some other manner. The manufacturer of tested alcoholic beverages shall pay the costs of the test. In lieu of testing an alcoholic beverage, the Commission may rely on testing by a federal agency or an agency of another state or may accept test results from a federal agency, an agency of another state, or the manufacturer of the alcoholic beverage or his authorized agent. A manufacturer who submits test results shall also submit a fee of ten dollars ($10.00) for each test result to cover administrative costs.

"§ 18B-207. Rules.—The Commission shall have authority to adopt, amend, and repeal rules to carry out the provisions of this Chapter. Those rules shall become effective when adopted and filed pursuant to the provisions of Chapter 150A of the General Statutes.

"Transportation.

"§ 18B-400. Amounts that may be transported.—A person may transport at one time the same amount of alcoholic beverages that he is allowed to buy under G.S. 18B-303(a). Greater amounts of fortified wine, unfortified wine and spirituous liquor may be transported with a purchase-transportation permit under G.S. 18B-403.

"§ 18B-401. Manner of transportation.—(a) Open Bottle. It shall be unlawful to transport fortified wine or spirituous liquor in the passenger area of a motor vehicle if the cap or seal on the container has been opened or broken. (b) Taxis. It shall be unlawful for a person operating a for-hire passenger vehicle as defined in G.S. 20-4.01(27)b, to transport fortified wine or spirituous liquor unless the vehicle is transporting a paying passenger who owns the alcoholic beverage being transported. Not more than four liters of fortified wine or spirituous liquor, or combination of the two, may be transported by each passenger. A violation of this subsection shall not be grounds for revocation of the driver’s license for illegal transportation of intoxicating liquors under G.S. 20-16(a)(8).

(c) Definition. For purposes of this section, ‘passenger area of a motor vehicle’ means the area designed to seat the driver and passengers and any area within the reach of a seated driver or passenger, including the glove compartment. In the case of a station wagon, hatchback or similar vehicle, the area behind the last upright back seat shall not be considered part of the passenger area.

"§ 18B-402. Alcoholic beverages purchased out-of-State.—A person may bring into North Carolina alcoholic beverages purchased legally outside the jurisdiction of this State in the same amounts that may be legally transported within the State under G.S. 18B-400.

"§ 18B-403. Purchase-transportation permit.—(a) Amounts. With a purchase-transportation permit, a person may purchase and transport an amount of alcoholic beverages greater than the amount specified in G.S. 18B-303(a). The purchaser shall display his copy of the permit to any law enforcement officer upon request.

(f) Time. A purchase-transportation permit is valid only until 9:30 p.m. on the date of purchase, which date shall be stated on the permit.

(b) Issuance. A mixed beverages purchase-transportation permit shall be issued only by the local board for the county or city in which a licensed establishment is located. If mixed beverages sales have been approved by a city election but the establishment to which the permit has been issued is located at an airport outside the city, the purchase-transportation permit may be issued by the local board of any city located in the same county as the airport, provided that the city has approved the sale of mixed beverages.

(c) Designated Store. A local board may designate a store within its system to make sales to mixed beverages permittees.

"§ 18B-405. Transportation by permittee.—The holder of a permit for the retail sale of malt beverages, unfortified wine, or fortified wine may transport from a wholesaler's place of business to his licensed premises any amount of the alcoholic beverage he is authorized to sell, without a purchase-transportation permit or a commercial transportation permit under G.S. 18B-1112.
“§ 18B-406. Unlawful transportation.—It shall be unlawful to transport a greater amount of alcoholic beverage than permitted by this Article, unless the transportation is authorized under Article 11.

“ARTICLE 5.

“Law Enforcement.

“§ 18B-500. Alcohol law enforcement agents.—(a) Appointment. The Secretary of Crime Control and Public Safety shall appoint alcohol law enforcement agents and other enforcement personnel. The Secretary of Crime Control and Public Safety may also appoint regular employees of the Commission as alcohol law enforcement agents.

(b) Subject Matter Jurisdiction. After taking the oath prescribed for a peace officer, an alcohol law enforcement agent shall have authority to arrest and take other investigatory and enforcement actions for any criminal offense. The primary responsibility of an agent shall be enforcement of the ABC laws and Article 5 of Chapter 90 (The Controlled Substances Act); however, an agent may perform any law enforcement duty assigned by the Secretary of Crime Control and Public Safety or the Governor.

(c) Territorial Jurisdiction. An alcohol law enforcement agent is a State officer with jurisdiction throughout the State.

(d) Service of Commission Orders. Alcohol law enforcement agents may serve and execute notices, orders, or demands issued by the Commission for the surrender of permits or relating to any administrative proceeding. While serving and executing such notices, orders, or demands, alcohol law enforcement agents shall have all the power and authority possessed by law enforcement officers when executing an arrest warrant.

(e) Discharge. Alcohol law enforcement agents are subject to the discharge provisions of G.S. 18B-202.

“§ 18B-501. Local ABC officers.—(a) Appointment. Except as provided in subsection (f), each local board shall hire one or more ABC enforcement officers. The local board may designate one officer as the chief ABC officer for that board.

(b) Subject Matter Jurisdiction. After taking the oath prescribed for a peace officer, a local ABC officer may arrest and take other investigatory and enforcement actions for any criminal offense; however, the primary responsibility of a local ABC officer is enforcement of the ABC laws and Article 5 of Chapter 90 (The Controlled Substances Act).

(c) Territorial Jurisdiction. A local ABC officer has jurisdiction anywhere in the county in which he is employed except that a city ABC officer’s territorial jurisdiction is subject to any limitation included in any local act governing that city ABC system. A local ABC officer may pursue outside his normal territorial jurisdiction anyone who commits an offense within that jurisdiction, as provided in G.S. 15A-402(d).

(d) Assisting Other Local Agencies. The local ABC officers employed by a local board shall constitute a ‘law enforcement agency’ for purposes of G.S. 160A-288, and a local board shall have the same authority as a city or county governing body to approve cooperation between law enforcement agencies under that section.

(e) Assisting State and Federal Enforcement. A local ABC officer may assist State and federal law enforcement agencies in the investigation of criminal offenses in North Carolina, under the following conditions:
(1) The local board employing the officer has adopted a resolution approving such assistance and stating the conditions under which it may be provided;

(2) The State or federal agency has made a written request for assistance from that local board, either for a particular investigation or for any investigation that might require assistance within a certain period of time;

(3) The local ABC officer is supervised by someone in the requesting agency; and

(4) As soon as practical after the assistance begins, an acknowledgement of the action is placed in the records of the local board.

A local ABC officer shall have territorial jurisdiction throughout North Carolina while assisting a State or federal agency under this section. While providing that assistance the officer shall continue to be considered an employee of the local board for purposes of salary, worker’s compensation, and other benefits, unless a different arrangement is negotiated between the local board and the requesting agency.

(f) Contracts with Other Agencies. Instead of hiring local ABC officers, a local board may contract to pay its enforcement funds to a sheriff’s department, city police department, or other local law enforcement agency for enforcement of the ABC laws within the agency’s territorial jurisdiction. Enforcement agreements may be made with more than one agency at the same time. When such a contract for enforcement exists, the officers of the contracting law enforcement agency shall have the same authority to inspect under G.S. 18B-502 that an ABC officer employed by that local board would have.

(g) Discharge. Local ABC officers are subject to the discharge provisions of G.S. 18B-202.

"§ 18B-502. Inspection of licensed premises.—(a) Authority. To procure evidence of violations of the ABC law, alcohol law enforcement agents, employees of the Commission, local ABC officers, and officers of local law enforcement agencies that have contracted to provide ABC enforcement under G.S. 18B-501(f) shall have authority to investigate the operation of each licensed premises for which an ABC permit has been issued, to make inspections that include viewing the entire premises, and to examine the books and records of the permittee. The inspection authorized by this section may be made at any time it reasonably appears that someone is on the premises.

(b) Interference with Inspection. Refusal by a permittee or by any employee of a permittee to permit officers to enter the premises to make an inspection authorized by subsection (a) shall be cause for revocation, suspension or other action against the permit of the permittee as provided in G.S. 18B-104. It shall be a misdemeanor punishable by a fine of up to five hundred dollars ($500.00), imprisonment for up to six months, or both, for any person to resist or obstruct an officer attempting to make a lawful inspection under this section.

"§ 18B-503. Disposition of seized alcoholic beverages.—(a) Storage. A law enforcement officer who seizes alcoholic beverages as evidence of an ABC law violation shall provide for the storage of those alcoholic beverages until the commencement of the trial or administrative hearing relating to the violation, unless some other disposition is authorized under this section.
(b) Disposition Before Trial. After giving notice to each defendant, to any other known owner, and to the Commission, a judge may make the following dispositions of alcoholic beverages seized as evidence of an ABC law violation:

1. He shall order the destruction of any malt beverages except that amount needed for evidence at trial.
2. He may order the sale of any alcoholic beverages other than malt beverages or nontaxpaid alcoholic beverages, and other than any alcoholic beverages needed for evidence at trial, if the trial is likely to be delayed for more than 90 days, or if the quantity or nature of the alcoholic beverages is such that storage is impractical or unduly expensive.
3. He may order destruction of the alcoholic beverages if storage or sale is not practical.
4. He may order continued storage of the alcoholic beverages.

(c) Disposition After Trial. After the criminal charge is resolved, a judge may order the following dispositions of seized alcoholic beverages:

1. If the owner or possessor of the alcoholic beverages is found guilty of a criminal charge relating to those alcoholic beverages, the judge may order the sale or destruction of any alcoholic beverages that were held until trial.
2. If the owner or possessor of the alcoholic beverages is found not guilty, or if charges are dismissed or otherwise resolved in his favor, the judge shall order the alcoholic beverages returned to that owner or possessor, except as provided in subdivision (3).
3. If the owner or possessor of the alcoholic beverages is found not guilty, or if charges are otherwise resolved in his favor, but possession of the alcoholic beverages by him would be unlawful, the judge shall order the alcoholic beverages either sold or destroyed.
4. If ownership of the alcoholic beverages remains uncertain after trial or after the charges have been dismissed, the judge may order the alcoholic beverages held, or the alcoholic beverages sold and the proceeds held, for a specified time, until ownership of the alcoholic beverages can be determined.

(d) Holding for Administrative Hearings. If alcoholic beverages used as evidence in a criminal proceeding are also needed as evidence at an administrative hearing, a judge shall not order any of the dispositions set out in subsection (c), but shall order the alcoholic beverages held for the administrative hearing and for a determination of final disposition by the Commission or one of its hearing officers. A hearing officer for the Commission may, before or after an administrative hearing, order any of the dispositions authorized under subsections (b) and (c). If no related criminal proceeding has commenced, the Commission or its hearing officers shall not order sale or destruction of alcoholic beverages until notice has been given to the district attorney for the district where the alcoholic beverages were seized or any violation of ABC laws related to the seizure of the alcoholic beverages is likely to be prosecuted.

(e) Sale Procedure. The sale of unfortified wine or fortified wine shall be by public auction unless those wines would likely become spoiled or lose value in the time required to arrange a public auction. If spoilage or loss of value is likely, the judge or hearing officer ordering the sale may authorize sale at the
prevailing wholesale price, as determined by the Commission, to one or more persons holding the appropriate retail wine permits in the county in which the wine was seized, or in a neighboring county if there are no such persons in the county in which the wine was seized. Spirituous liquor may be sold only to the local ABC board serving the city or county in which the liquor was seized, or, if there is no local board for that city or county, to the nearest local board. The sale price shall be at least ten percent (10%) less than the price the local board would pay for the same liquor bought through the State warehouse.

(f) Sale Proceeds. An agency selling alcoholic beverages seized under the provisions of this Chapter shall keep the proceeds in a separate account until some other disposition is ordered by a judge or a Commission hearing officer. If, in a criminal proceeding, the owner or possessor of the alcoholic beverages is found guilty of a violation relating to seizure of the alcoholic beverages, or if he is found not guilty, or if the charge is dismissed or otherwise resolved in his favor, but the possession of the alcoholic beverages by him would be unlawful, or if the ownership of the alcoholic beverages cannot be determined, the proceeds from the sale of those alcoholic beverages shall be paid to the school fund of the county in which the alcoholic beverages were seized. If the owner or possessor of alcoholic beverages seized for violation of the ABC laws is found not guilty of criminal charges relating to the seizure of those beverages, or if the charge is dismissed or otherwise resolved in his favor, and if possession of the alcoholic beverages by him was lawful when the beverages were seized, the proceeds from the sale of those alcoholic beverages shall be paid to him. The agency making the sale may deduct and retain from the amount to be placed in the county school fund the costs of storing the seized alcoholic beverages and of conducting the sale, but may not deduct those costs from the amount to be turned over to an owner or possessor of the alcoholic beverages.

(g) Court Action by Owner. Any person who has any of the following claims resulting from the seizure of alcoholic beverages may bring an action in the superior court of the county in which the alcoholic beverages were seized:

(1) Alcoholic beverages owned by him are wrongfully held;
(2) Alcoholic beverages owned by him are needed as evidence in another proceeding;
(3) He is entitled to proceeds from a sale of seized alcoholic beverages;
(4) He is entitled to restitution for alcoholic beverages wrongfully destroyed.

§ 18B-504. Forfeiture.—(a) Property Subject to Forfeiture. The following kinds of property shall be subject to forfeiture:

(1) Motor vehicles, boats, airplanes, and all other conveyances used to transport nontaxpaid alcoholic beverages in violation of the ABC laws;
(2) Containers for alcoholic beverages which are manufactured, possessed, sold, or transported in violation of the ABC laws; and
(3) Equipment or ingredients used in the manufacture of alcoholic beverages in violation of the ABC laws.

(b) Exemption for Forfeiture. Property which may be possessed lawfully shall not be subject to forfeiture when it was used unlawfully by someone other than the owner of the property and the owner did not consent to the unlawful use.

(c) Seizure of Property. If property subject to forfeiture has not already been seized as part of an arrest or search, a law enforcement officer may apply to a judge for an order authorizing seizure of that property. An order for seizure may
be issued only after criminal process has been issued for an ABC law violation in connection with that property. The order shall describe the property to be seized and shall state the facts establishing probable cause to believe that the property is subject to forfeiture.

(d) Custody until Trial. A law enforcement officer seizing property subject to forfeiture shall provide for its safe storage until trial. If the officer having custody of the property is satisfied that it will be returned at the time of trial, he may return the property to the owner upon receiving a bond for the value of the property, signed by sufficient sureties. If the property is not returned at the time of trial, the full amount of the bond shall be forfeited to the court. Property which it is unlawful to possess may not be returned to the owner.

(e) Disposition after Trial. The presiding judge in a criminal proceeding for violation of ABC laws may take the following actions after resolution of a charge against the owner or possessor of property subject to forfeiture under this section:

(1) If the owner or possessor of the property is found guilty of an ABC offense, the judge may order the property forfeited.

(2) If the owner or possessor of the property is found not guilty, or if the charge is dismissed or otherwise resolved in his favor, the judge shall order the property returned to the owner or possessor.

(3) If ownership of the property remains uncertain after trial, the judge may order the property held for a specified time to determine ownership. If the judge finds that ownership cannot be determined with reasonable effort, he shall order the property forfeited.

(4) Regardless of the disposition of the charge, if the property is something that may not be possessed lawfully, the judge shall order it forfeited.

(5) If the property is also needed as evidence at an administrative hearing, the judge shall provide that his order does not go into effect until the Commission or one of its hearing officers determines that the property is no longer needed for the administrative proceeding.

(f) Disposition of Forfeited Property. A judge ordering forfeiture of property may order any one of the following dispositions:

(1) Sale at public auction;

(2) Sale at auction after notice to certain named individuals or groups, if only a limited number of people would have use for that property;

(3) Delivery to a named State or local law enforcement agency, if the property is not suited for sale, with preference to be given in the following order, to: the agency that seized the property, the ALE Division, the Commission, the local board of the jurisdiction in which the property was seized, and the Department of Justice; or

(4) Destruction, if possession of the property would be unlawful and it could not be used or is not wanted for law enforcement, or if sale or other disposition is not practical.

(g) Proceeds of Sale. If forfeited property is sold, the proceeds of that sale shall be paid to the school fund of the county in which the property was seized, except as provided in subsection (h). Before placing the proceeds in the school fund the agency making the sale may deduct and retain the costs of storing the property and conducting the sale.

(h) Innocent Parties. At any time before forfeiture is ordered, an owner of seized property or a holder of a security interest in seized property, other than
the defendant, may apply to protect his interest in the property. The application may be made to any judge who has jurisdiction to try the offense with which the property is associated. If the judge finds that the property owner or holder of a security interest did not consent to the unlawful use of the property, and that the property may be possessed lawfully by the owner or holder, the judge may order:

1. That the property be returned to the owner, if it is not needed as evidence at trial;
2. That the property be returned to the owner following trial or other resolution of the case; or
3. That, if the property is sold following trial, a specified sum be paid from the proceeds of that sale to the holder of the security interest.

(i) Defendant Unavailable. When property is seized for forfeiture, but the owner is unknown, the district attorney may seek forfeiture under this section by an action in rem against the property. If the owner is known and has been charged with an offense, but is unavailable for trial, the district attorney may seek forfeiture either by an action in rem against the property or by motion in the criminal action.

(j) When No Charge is Made. Any owner of property seized for forfeiture may apply to a judge to have the property returned to him if no criminal charge has been made in connection with that property within a reasonable time after seizure. The judge may not order the return of the property if possession by the owner would be unlawful.

"§ 18B-505. Restitution.—When a person is convicted of a violation of the ABC laws, the court may order him to make restitution to any law enforcement agency for reasonable expenditures made in purchasing alcoholic beverages from him or his agent as part of an investigation leading to his conviction.

“§ 18B-601. Election procedure.—(a) Generally. Except as otherwise provided in this section, an alcoholic beverage election shall be conducted in the same manner and under the same rules as a referendum under Chapter 163.

(b) How County Election Called. A county alcoholic beverage election shall be conducted by the county board of elections. When a county is eligible to hold an election under G.S. 18B-600, the county board of elections shall hold the election upon receiving either:

(2) A petition requesting an election signed by at least twenty-five percent (25%) of the voters registered in the county at the time the petition was initiated.

(c) How City Election Called. A city alcoholic beverage election shall be conducted by the county board of elections or, in the case of a city authorized under Chapter 163 to conduct its own elections, by the city board of elections. When a city is eligible to hold an election under G.S. 18B-600, the board of elections shall hold the election upon receiving either:

(1) A written request for an election from the city governing body; or

(2) A petition requesting an election signed by at least twenty-five percent (25%) of the voters registered in the city at the time the petition was initiated.

(d) Form of Request. A request or petition for a malt beverage election shall state which of the four propositions in G.S. 18B-602(a) are to be voted upon. A request or petition for an unfortified wine election shall state which of the three propositions in G.S. 18B-602(d) are to be voted upon. More than one kind of alcoholic beverage election may be included in a single request or petition.

(e) Petitions. A petition for an election shall be on a form provided by the appropriate local board of elections and shall contain the signature, name, address and precinct of each voter who signs. A petition shall be considered initiated at the time the form is delivered by the board of elections to the person who requests it. Within 72 hours after the petition is initiated, the board of elections shall certify the number of registered voters in the city or county at the time it was initiated. The petition shall be returned to the board of elections within 90 days of the time it is initiated. Failure to return the petition within that time shall render it void. The board of elections shall determine the sufficiency of the petition within 30 days after it is returned.

(f) Election Date. The board of elections shall set the date for the alcoholic beverage election, which may not be sooner than 60 days nor later than 120
days from the date the request was received from the governing body or the petition was verified by the board.

The persons authorized to appoint watchers shall, three days before the election, submit in writing to the registrar of each precinct a signed list of the watchers appointed for that precinct. The persons appointed as watchers shall be registered voters of the precinct for which appointed. The registrar and judges for the precinct may for good cause reject any appointee and require that another be appointed. Watchers shall do no electioneering at the voting place nor in any manner impede the voting process, interfere or communicate with or observe any voter in casting his ballot. Watchers shall be permitted in the voting place to make such observation and to take such notes as they may desire.

§ 18B-602. Form of ballots.—(a) Malt Beverage Elections. Any one or more of the propositions listed below may be placed on the ballot for a malt beverage election. Each voter may vote on each proposition on the ballot. The propositions to be used shall be chosen by the governing body or petitioner requesting the election. The propositions shall read as follows:

(b) Determining Results of Malt Beverage Election. The kind of malt beverage sales described in each proposition that receives a majority of votes 'FOR' shall be allowed. If propositions (2) and (4) are both on the ballot and (2) receives a majority of votes 'FOR', then sales shall be permitted according to that proposition regardless of the vote on (4). If one of the propositions receiving a majority of votes 'FOR' is proposition (1), then the kind of sales described in that proposition shall be allowed regardless of the vote on any other proposition at that election.

(c) Subsequent Malt Beverage Elections. A subsequent election in which a majority votes 'AGAINST' malt beverage proposition (1) shall not affect the
legality of sales that have previously been approved under proposition (2), (3), or (4). A subsequent election in which a majority votes 'AGAINST' malt beverage proposition (2) shall not affect the legality of sales that have previously been approved under proposition (4).

(d) Unfortified Wine Elections. Any one or more of the propositions listed below may be placed on the ballot for an unfortified wine election. Each voter may vote on each proposition on the ballot. The propositions to be used shall be chosen by the governing body or petitioner requesting the election. The propositions shall read as follows:

(1) To permit the 'on-premises' and 'off-premises' sale of unfortified wine.
   □ FOR

(e) Determining Results of Unfortified Wine Election. The kind of unfortified wine sales described in each proposition that receives a majority of votes ‘FOR’ shall be allowed. If one of the propositions receiving a majority of votes ‘FOR’ is proposition (1), then the kind of sales described in that proposition shall be allowed, regardless of the vote on any other proposition at that election.

"§ 18B-603. Effect of alcoholic beverage elections on issuance of permits.—(a) Malt Beverage Elections. If a malt beverage election is held under G.S. 18B-602(a) and the sale of malt beverages is approved, the Commission may issue permits to qualified persons and establishments in the jurisdiction that held the election as follows:

(1) If on-premises sales are approved, the Commission may issue on-premises malt beverage permits.

(2) If off-premises sales are approved, the Commission may issue off-premises malt beverage permits.

(3) If both on-premises and off-premises sales are approved, the Commission may issue both on-premises and off-premises malt beverage permits.
(4) If the kinds of sales described in G.S. 18B-602(a)(4) are approved, the Commission may issue on-premises malt beverage permits to restaurants and hotels only and off-premises malt beverage permits to other permittees.

(b) Unfortified Wine Elections. If an unfortified wine election is held under G.S. 18B-602(d) and the sale of unfortified wine is approved, the Commission may issue permits to qualified persons and establishments in the jurisdiction that held the election as follows:

(1) If on-premises sales are approved, the Commission may issue on-premises unfortified wine permits.
(2) If off-premises sales are approved, the Commission may issue off-premises unfortified wine permits.
(3) If both on-premises and off-premises sales are approved, the Commission may issue both on-premises and off-premises unfortified wine permits.

(c) ABC Store Elections. If an ABC store election is held under G.S. 18B-602(g) and the establishment of ABC stores is approved, each of the following shall be authorized in the jurisdiction that held the election:

(1) The jurisdiction that held the election may establish and operate ABC stores in the manner described in Articles 7 and 8.
(2) The Commission may issue on-premises and off-premises fortified wine and unfortified wine permits to qualified persons and establishments in that jurisdiction, regardless of any unfortified wine election or any local act.
(3) The Commission may issue brown-bagging permits for restaurants and hotels in the county in which the election was held, whether the election was held by the county or by a city or other jurisdiction within the county. Brown-bagging permits shall not be issued, however, for restaurants or hotels in any jurisdiction in which the sale of mixed beverages has been approved.

(d) Mixed Beverage Elections. If a mixed beverage election is held under G.S. 18B-602(h) and the sale of mixed beverages is approved, the Commission may issue permits to qualified persons and establishments in the jurisdiction that held the election as follows:

(1) The Commission may issue mixed beverage permits.
(2) The Commission may issue on-premises malt beverage, unfortified wine, and fortified wine permits for establishments with mixed beverage permits, regardless of any other election or any local act concerning sales of those kinds of alcoholic beverages.
(3) The Commission may issue brown-bagging permits for private clubs, but may no longer issue and may not renew brown-bagging permits for restaurants and hotels. A restaurant or hotel shall not be issued a mixed beverage permit under subdivision (1) until it surrenders its brown-bagging permit.
(4) The Commission may continue to issue culinary permits for establishments that do not have mixed beverage permits. An establishment may not be issued a mixed beverage permit under subdivision (1) until it surrenders its culinary permit.

In any county in which the sale of mixed beverages has been approved in elections in at least three cities that, combined, contain more than two-thirds
the total county population as of the most recent federal census, the county board of commissioners may by resolution approve the sale of mixed beverages throughout the county, and the Commission may issue permits as if mixed beverages had been approved in a county election.

(e) Mixed Beverages at Airports. When the sale of mixed beverages has been approved in a city election, the Commission may also issue permits under subsection (d) for qualified establishments outside the city but within the same county, if:

(1) The establishment is on the property of an airport;
(2) The airport is operated by the city or by an airport authority in which the city participates; and
(3) The airport services planes which board at least 150,000 passengers annually.

(f) Permits Not Dependent on Elections. The Commission may issue the following kinds of permits without approval at an election:

(1) Special occasion permits;
(2) Limited special occasion permits;
(3) Brown-bagging permits for private clubs;
(4) Culinary permits, except as restricted by subdivision (d)(4);
(5) Special one-time permits issued under G.S. 18B-1002;
(6) All permits listed in G.S. 18B-1100(a).

(g) Miscellaneous. The definitions in G.S. 18B-1000 shall apply to this section.

§ 18B-604. Timing and effect of subsequent elections.—(a) Time Limits. No county alcoholic beverage election may be held within three years of the certification of the results of a previous election on the same kind of alcoholic beverages in that county. No city alcoholic beverage election may be held within three years of the certification of the results of a previous election on the same kind of alcoholic beverage in that city. Otherwise, alcoholic beverage elections may be held at any time, subject to the applicable provisions of this Chapter and Chapter 163.

(b) Effect of Favorable County Vote on City. If a majority of voters vote in favor of certain alcoholic beverage sales in a county election, sale of that kind of alcoholic beverage shall be lawful throughout the county, regardless of the vote in any city at that or any previous election, and regardless of any local act making sales unlawful in that city, unless the local act was ratified before the effective date of Article II, Section 24(1)(j) of the Constitution of North Carolina. A county malt beverage or unfortified election in favor of a particular ballot proposition which is more restrictive than the form of sale already allowed in a city within that county shall not affect the legality of those previously authorized sales in the city.

(c) Effect of Negative County Vote on City. If a majority of voters vote against certain alcoholic beverage sales in a county election, sale of that kind of alcoholic beverage shall be unlawful throughout the county, except that sale of that alcoholic beverage shall remain lawful in any city in which sale is lawful because of a city election or a local act.

(d) Effect of City Election on County. A city alcoholic beverage election shall not affect the lawfulness of sale in any part of the county outside that city.
(e) ABC Store Required for Mixed Beverages. The sale of mixed beverages may not continue in a city or county at any time after the ABC stores which are requisite to mixed beverage sales have closed.

(f) When Sales Stop. When the sale of any alcoholic beverage that was previously lawful becomes unlawful because of an election, the sale of that alcoholic beverage shall cease 90 days after certification of the results of the election.

"§ 18B-605. Local act elections.—If a jurisdiction has voted in favor of ABC stores or in favor of the sale of some kind of alcoholic beverage, pursuant to a local act enacted before the effective date of this Chapter, and the jurisdiction would not be eligible to hold another election under the conditions set by G.S. 18B-600, then that jurisdiction may hold subsequent elections under the terms of the applicable local act. Except for the authority to hold the election, however, the procedures of this Chapter shall apply to any subsequent election.

"ARTICLE 7.

"Local ABC Boards.

"§ 18B-700. Appointment and organization of local ABC boards.—(a) Membership. A local ABC board shall consist of three members appointed for three-year terms, unless a different membership or term is provided by a local act enacted before the effective date of this Chapter. One member of the initial board of a newly created ABC system shall be appointed for a three-year term, one member for a two-year term, and one member for a one-year term. As the terms of initial board members expire, their successors shall each be appointed for three-year terms. The appointing authority shall designate one member of the local board as chairman.

(b) City Boards. City ABC board members shall be appointed by the city governing body, unless a different method of appointment is provided in a local act enacted before the effective date of this Chapter.

The bond shall be payable to the State of North Carolina and to the city or county for which the local board
is established and shall be approved by the Commission and by the authority appointing the local board member. The appointing authority may exempt from this bond requirement any board member who does not handle board funds, and it may also increase the amount of the bond for any member who does handle board funds.

(b) Borrowing Money. A local board may borrow money only for the purchase of land, buildings, equipment and stock needed for the operation of its ABC system. A local board may pledge a security interest in any real or personal property it owns other than alcoholic beverages. A city or county whose governing body appoints a local board shall not in any way be held responsible for the debts of that board.

(c) Audits. A local board shall submit to the Commission an annual independent audit of its operations, performed in accordance with generally accepted accounting standards and in compliance with a chart of accounts prescribed by the Commission. The audit report shall contain a summary of the requirements of this Chapter, or of any local act applicable to that local board, concerning the distribution of profits of that board and a description of how those distributions have been made, including the names of recipients of the profits and the activities for which the funds were distributed. A local board shall also submit to any other audits and submit any reports demanded by the Commission.

The Commission may also adopt any other rules concerning the financial operations of local boards which are needed to assure the proper accountability of public funds.

"§ 18B-703. Merger of local ABC operations.—(a) Conditions for Merger. Any city governing body or board of county commissioners may merge its ABC system with the system of one or more other cities or counties if:

(1) Stores operated by the systems of those jurisdictions serve the same general area or are in close proximity to each other; and

(2) The merger is approved by the Commission.

(b) Appointment of Board. Upon merger of ABC systems, the local boards for those systems shall be replaced by one board appointed jointly by the appointing authorities for the previous boards.

(c) Distribution of Profits. Before merger, the cities or counties involved shall agree upon a formula for distribution of the profits of the new merged ABC system, based as closely as practicable on the distribution previously authorized for the separate systems. This formula for distribution shall be subject to approval by the Commission.

(d) Enforcement. Local officers hired by the local ABC board for the merged ABC system shall have the same territorial jurisdiction that officers for each of the merged boards would have.

(e) Dissolution. With the approval of the Commission, the cities or counties that have merged their ABC systems may dissolve the merged operation at any time and resume their prior separate operations.

(c) Closing of Stores. Subject to the provisions of subsection (a), a local board may close, or the Commission may order a local board to close, any store when the local board or the Commission determines that:

The bond shall be payable to the State of North Carolina and to the city or county for which the local board is established and shall be approved by the Commission.

(c) Bonding of Other Employees. A local board may require any of its other employees who handle board funds to obtain bonds in the manner prescribed in subsection (b).

(c) Injunctions. Based on the appropriate findings pursuant to subdivision (b)(2), the superior court has the jurisdiction and power to enjoin the termination of any franchise agreement with a wholesaler upon the application of the aggrieved wholesaler. The terms of the injunction shall require the aggrieved wholesaler to supply the customers in its territory with their reasonable retail requirements and to otherwise service the territory. On two days' written notice to the aggrieved wholesaler, any party enjoined pursuant to this subsection may appear and move for modification of the injunction. If the court finds that the aggrieved wholesaler has failed or refused to supply the customers in its territory with their reasonable retail requirements or otherwise service its territory, it may permit the brewery to make any other arrangements to supply the customers or service the territory, including arrangements with other wholesalers while the injunction is in effect. The Commission may revoke or suspend the permit of any wholesaler or brewery which the court finds violated the terms of an injunction ordered under this subsection."

These amounts shall supplement and not supplant the amount usually budgeted for such purposes by the City of Brevard. In the expenditure of said funds, the City Board of Alcoholic Beverage Control may employ one or more persons as law enforcement officer or officers to be appointed by and directly responsible to the said Board. The person or persons so appointed shall, after taking the oath prescribed by law for peace officers, have the same powers and authorities within Transylvania County as other peace officers. And any such person or persons so appointed, or any other peace officer while in hot pursuit of anyone found to be violating the prohibition laws of this State, shall have the right to go into any other county of the State and arrest such defendant therein so long as such hot pursuit of such person shall continue, and the common law of hot pursuit shall be applicable to said offenses and such officer of officers. Any law enforcement officer appointed by the said Board of Alcoholic Beverage Control and any other peace officer are hereby authorized, upon request of the sheriff or other lawful officer in any other county to go into such other county and assist in suppressing a violation of the prohibition laws therein, and while so acting shall have such powers as a peace officer as are granted to him in Transylvania County and be entitled to all the protection provided for said officer while acting in his own county.

Out of the net profits derived from the operation of said Alcoholic Beverage Control Store, the City of Brevard Board of Alcoholic Beverage Control shall, on a quarterly basis, pay over to the following named governing bodies amounts equal to the percentages of the net profits as follows:

(1) Twenty-five percent (25%) to the Board of Commissioners of Transylvania County, to be deposited to the county general fund and used for any lawful purpose for which other general fund appropriations may be used;

(g) In lieu of, or in addition to any other provisions of law, the Brevard Alcoholic Beverage Control Board is authorized to enter into a contract or
agreement with a local law enforcement agency to provide for enforcement of the alcoholic beverage control laws within the territorial jurisdiction of that local law enforcement agency, provided, in any agreement with local law enforcement agencies the percentage of profits to be used for law enforcement as provided in subsection (f) above shall be distributed as follows:

Where the county board is responsible for appointing members of the board of education of a city administrative unit located within the county, the voters residing within that city school administrative unit shall be eligible to vote for members of the county board of education.

The terms of office of the members of boards of education of all school administrative units in this State, who serve on June 25, 1975, shall continue until members are elected and qualified as provided in this section unless modified by local legislation.

(b) No person residing in a local school administrative unit shall be eligible for election to the board of education of that local school administrative unit unless such person resides within the boundary lines of that local school administrative unit.

"§ 115C-36. Designation of Board.—All powers and duties conferred and imposed by law respecting public schools, which are not expressly conferred and imposed upon some other official, are conferred and imposed upon local boards of education. Said boards of education shall have general control and supervision of all matters pertaining to the public schools in their respective administrative units and they shall enforce the school law in their respective units.

"§ 115C-37. Election of board members.—(a) Method of Election.—The county boards of education shall be elected on a nonpartisan basis at the time of the primary election in 1970 and biennially thereafter. The names of the candidates shall be printed on the ballots without reference to any party affiliation and any qualified voter residing in the county shall be entitled to vote such ballots. Except as otherwise provided herein, the election shall be conducted according to the provisions of Chapter 163 of the General Statutes then governing primary elections.

The terms of office of the members shall be staggered so as nearly equal to one half as possible shall expire every two years.

(b) County Board of Elections to Provide for Elections.—The county board of elections under the direction of the State Board of Elections, shall make all necessary provisions for elections of county boards of education as are herein provided for. In the event that any such vacancy is not filled in this manner within 30 days, the State Board of Education may fill such vacancy.

(d) Members to Qualify.—Those persons who shall be elected members of the county boards of education must qualify by taking the oath of office on or before the first Monday in December next succeeding their election. A failure to qualify within that time shall constitute a vacancy which shall be filled as set out in subsection (f) of this section. Those persons appointed to fill a vacancy must qualify within 30 days after notification. A failure to qualify within that time shall constitute a vacancy.

This subsection shall not have the effect of repealing any local or special acts relating to boards of education of any particular counties whose membership to said boards is chosen by a vote of the people.

(e) Vacancies in Nominations for Membership on County Boards.—If any candidate nominated on a partisan basis shall die, resign, or for any reason become ineligible or disqualified between the date of his nomination and the time for the election, such vacancy caused thereby may be filled by the actions of the county executive committee of the political party of such candidate.

(f) Vacancies in Office.—All vacancies in the membership of the boards of education whose members are elected pursuant to the provisions of subsection (a) of this section by death, resignation, or other causes shall be filled by appointment by the remaining members of the board, of a person to serve until the next election of members of such board, at which time the remaining unexpired term of the office in which the vacancy occurs shall be filled by election.

(g) Eligibility for Board Membership; Holding Other Offices.—Any person possessing the qualifications for election to public office set forth in Article VI, Section 6 of the Constitution of North Carolina shall be eligible to serve as a member of a local board of education: Provided, however, that any person elected or appointed to a local board of education, and also employed by that board of education or appointed to a district committee by that board of education, shall resign his employment before taking office as a member of that board of education.

Membership on a board of education is hereby declared to be an office that, with the exceptions provided above, may be held concurrently with any appointive office, pursuant to Article VI, Section 9 of the Constitution, but any person holding an elective office shall not be eligible to serve as a member of a local board of education.

“§ 115C-38. Compensation of board members.—The tax-levying authority for a local school administrative unit may, under the procedures of G.S. 153A-92, fix the compensation and expense allowances paid members of the board of education of that local school administrative unit.
CHAPTER 423  Session Laws—1981

Funds for the per diem, subsistence, and mileage for all meetings of county and city boards of education shall be provided from the current expense fund budget of the particular county or city.

The compensation and expense allowances of members of boards of education shall continue at the same levels as paid on July 1, 1975, until changed by or pursuant to local act or pursuant to this section.

“§ 115C-39. Removal of board members.—In case the Superintendent of Public Instruction shall have sufficient evidence that any member of a local board of education is not capable of discharging, or is not discharging, the duties of his office as required by law, or is guilty of immoral or disreputable conduct, he shall notify the chairman of such board of education, unless such chairman is the offending member, in which case all other members of such board shall be notified. Upon receipt of such notice there shall be a meeting of said board of education for the purpose of investigating the charges, and if the charges are found to be true, such board shall declare the office vacant: Provided, that the offending member shall be given proper notice of the hearing and that record of the findings of the other members shall be recorded in the minutes of such board of education.

“§ 115C-40. Board a body corporate.—The board of education of each county in the State shall be a body corporate by the name and style of ‘The ________ County Board of Education’, and the board of education of each city administrative school unit in the State shall be a body corporate by the name and style of ‘The ________ City Board of Education’. The several boards of education, both county and city, shall hold all school property and be capable of purchasing and holding real and personal property, of building and repairing schoolhouses, of selling and transferring the same for school purposes, and of prosecuting and defending suits for or against the corporation.

Where there is public school property now in the possession of school committees who were bodies corporate prior to January 1, 1900, or who became bodies corporate by special act of the General Assembly but who have since ceased to be bodies corporate; and where land was conveyed by deed bearing date prior to January 1, 1900, to local trustees for school purposes, and such deed makes no provision for successor trustees to those named in said deed, and all of such trustees are dead; and where such land is not now being used for educational purposes by the board of the local school administrative unit wherein such land is located, the clerk of the superior court of the county wherein such property or such land is located shall convey said property or land to the board of education of the local school administrative unit in which the land is located.

Local boards of education, subject to any paramount powers vested by law in the State Board of Education or any other authorized agency shall have general control and supervision of all matters pertaining to the public schools in their respective local school administrative units; they shall execute the school laws in their units; and shall have authority to make agreements with other boards of education to transfer pupils from one local school administrative unit to another unit when the administration of the schools can be thereby more efficiently and more economically accomplished.

“§ 115C-41. Organization of board.—(a) At the first meeting of the new county board in April, the members of all boards shall organize by electing one of their members as chairman for a period of one year, or until his successor is elected
and qualified. The chairman of the county board of education shall preside at
the meetings of the board, and in the event of his absence or sickness, the board
may appoint one of its members temporary chairman. The superintendent of
schools, whether a county or city superintendent, shall be ex officio secretary to
his respective board. He shall keep the minutes of the meetings of the board but
shall have no vote; Provided, that in the event of a vacancy in the
superintendency, the board may elect one of its members to serve temporarily
as secretary to the board.

(b) All local boards of education shall meet on the first Monday in January,
April, July, and October of each year, or as soon thereafter as practicable. A
board may elect to hold regular monthly meetings, and to meet in special
session upon the call of the chairman or of the secretary as often as the school
business of the local school administrative unit may require.

“§115C-42. Liability insurance and immunity.—Any local board of
education, by securing liability insurance as hereinafter provided, is hereby
authorized and empowered to waive its governmental immunity from liability
for damage by reason of death or injury to person or property caused by the
negligence or tort of any agent or employee of such board of education when
acting within the scope of his authority or within the course of his employment.
Such immunity shall be deemed to have been waived by the act of obtaining
such insurance, but such immunity is waived only to the extent that said board
of education is indemnified by insurance for such negligence or tort.

Any contract of insurance purchased pursuant to this section must be issued
by a company or corporation duly licensed and authorized to execute insurance
contracts in this State and must by its terms adequately insure the local board
of education against any and all liability for any damages by reason of death or
injury to person or property proximately caused by the negligent acts or torts of
the agents and employees of said board of education or the agents and
employees of a particular school in a local administrative unit when acting
within the scope of their authority or within the course of their employment.
Any company or corporation which enters into a contract of insurance as above
described with a local board of education, by such act waives any defense based
upon the governmental immunity of such local board of education.

Every local board of education in this State is authorized and empowered to
pay as a necessary expense the lawful premiums for such insurance.

Any person sustaining damages, or in case of death, his personal
representative may sue a local board of education insured under this section for
the recovery of such damages in any court of competent jurisdiction in this
State, but only in the county of such board of education; and it shall be no
defense to any such action that the negligence or tort complained of was in
pursuance of governmental, municipal or discretionary function of such local
board of education if, and to the extent, such local board of education has
insurance coverage as provided by this section.

Except as hereinbefore expressly provided, nothing in this section shall be
construed to deprive any local board of education of any defense whatsoever to
any such action for damages or to restrict, limit, or otherwise affect any such
defense which said board of education may have at common law or by virtue of
any statute; and nothing in this section shall be construed to relieve any person
sustaining damages or any personal representative of any decedent from any
duty to give notice of such claim to said local board of education or to commence
CHAPTER 423  Session Laws—1981

any civil action for the recovery of damages within the applicable period of time prescribed or limited by statute.

A local board of education may incur liability pursuant to this section only with respect to a claim arising after such board of education has procured liability insurance pursuant to this section and during the time when such insurance is in force.

No part of the pleadings which relate to or allege facts as to a defendant’s insurance against liability shall be read or mentioned in the presence of the trial jury in any action brought pursuant to this section. Such liability shall not attach unless the plaintiff shall waive the right to have all issues of law or fact relating to insurance in such an action determined by a jury and such issues shall be heard and determined by the judge without resort to a jury and the jury shall be absent during any motions, arguments, testimony or announcement of findings of fact or conclusions of law with respect thereto unless the defendant shall request a jury trial thereon: Provided, that this section shall not apply to claims for damages caused by the negligent acts or torts of public school bus, or school transportation service vehicle drivers, while driving school buses and school transportation service vehicles when the operation of such school buses and service vehicles is paid from the State Public School Fund.

"§ 115C-43. Defense of board of education members and employees.—(a) Upon request made by or in behalf of any member or employee or former member or employee, any local board of education may provide for the defense of any civil or criminal action or proceeding brought against him either in his official or in his individual capacity, or both, on account of any act done or omission made, or any act allegedly done or omission allegedly made, in the scope and course of his duty as a member of or employee of the local board of education. The defense may be provided by the local board of education by its own counsel, or by employing other counsel, or by purchasing insurance which requires that the insurer provide the defense. Nothing in this section shall be deemed to require any local board of education to provide for the defense of any action or proceeding of any nature.

(b) Any local board of education may budget funds for the purpose of paying all or part of a claim made or any civil judgment entered against any of its members or employees or former members and employees, when such claim is made or such judgment is rendered as damages on account of any act done or omission made, or any act allegedly done or omission allegedly made, in the scope and course of his duty as a member of the local board of education or as an employee. Nothing in this section shall authorize any local board of education to budget funds for the purpose of paying any claim made or civil judgment entered against any of its members or employees or former members and employees if the local board of education finds that such member or employee acted or failed to act because of actual fraud, corruption or actual malice on his part. Any local board of education may budget for and purchase insurance coverage for payment of claims or judgments pursuant to this section. Nothing in this section shall be deemed to require any local board of education to pay any claim or judgment referred to herein, and the purchase of insurance coverage for payment of any such claim or judgment shall not be deemed an assumption of any liability not covered by such insurance contract, and shall not be deemed an assumption of liability for payment of any claim or judgment in excess of the limits of coverage in such insurance contract.
(c) Subsection (b) of this section shall not authorize any local board of education to pay all or part of a claim made or civil judgment entered or to provide a defense to a criminal charge unless (i) notice of the claim or litigation is given to the local board of education prior to the time that the claim is settled or civil judgment is entered and (ii) the local board of education shall have adopted, and made available for public inspection, uniform standards under which claims made, civil judgments entered, or criminal charges against members or employees or former members and employees shall be defended or paid.

"§ 115C-44. Suits and actions.—(a) A local board of education shall institute all actions, suits, or proceedings against officers, persons, or corporations, or their sureties, for the recovery, preservation, and application of all money or property which may be due to or should be applied to the support and maintenance of the schools, except in case of a breach of his bond by the treasurer of the county school fund, in which case action shall be brought by the board of county commissioners.

(b) In all actions brought in any court against a local board of education, the order or action of the board shall be presumed to be correct and the burden of proof shall be on the complaining party to show the contrary.

"§ 115C-45. Judicial functions of board.—(a) Power to Subpoena and to Punish for Contempt.—Local boards of education shall have power to issue subpoenas for the attendance of witnesses. Subpoenas may be issued in any and all matters which may lawfully come within the powers of a board and which, in the discretion of the board, require investigation; and it shall be the duty of the sheriff or any process serving officer to serve such subpoena upon payment of their lawful fees.

Local boards of education shall have power to punish for contempt for any disorderly conduct or disturbance tending to disrupt them in the transaction of official business.

(b) Witness Failing to Appear; Misdemeanor.—Any witness who shall willfully and without legal excuse fail to appear before a local board of education to testify in any matter under investigation by the board shall be guilty of a misdemeanor, and shall be fined not more than fifty dollars ($50.00) or imprisoned not more than 30 days.

(c) Appeals to Board of Education and to Superior Court.—An appeal shall lie from the decision of all school personnel to the appropriate local board of education. In all such appeals it shall be the duty of the board of education to see that a proper notice is given to all parties concerned and that a record of the hearing is properly entered in the records of the board conducting the hearing.

The board of education may designate hearing panels composed of not less than two members of the board to hear and act upon such appeals in the name and on behalf of the board of education.

An appeal shall lie from the decision of a local board of education to the superior court of the State in any action of a local board of education affecting one’s character or right to teach.

"§ 115C-46. Powers of local boards to regulate parking of motor vehicles.—(a) Any local board of education may adopt reasonable rules and regulations with respect to the parking of motor vehicles and other modes of conveyance on public school grounds and may enforce such rules and regulations. Any person who violates a rule or regulation concerning parking on public school grounds is
CHAPTER 423  Session Laws—1981

guilty of a misdemeanor and, upon conviction, may be punished by a fine of not more than ten dollars ($10.00). Provided, however, that any rule or regulation adopted hereunder may provide that certain acts prohibited thereby shall not be enforced by criminal sanctions, and in such cases a person committing any such act shall not be guilty of a misdemeanor. Rules and regulations adopted hereunder shall be made available for inspection by any person upon request.

(b) Any local board of education may adopt written guidelines governing the individual assignment of parking spaces on school grounds. Such guidelines shall give first priority treatment to the physically handicapped.

c) Any local board of education, by rules and regulations adopted hereunder, may provide for the registration of motor vehicles and other modes of conveyance maintained, operated or parked on school grounds. Any local board of education, by rules and regulations adopted hereunder, may provide for the issuance of stickers, decals, permits or other indicia representing the registration status of vehicles or the eligibility of vehicles to park on school grounds and may prohibit the forgery, counterfeiting, unauthorized transfer or unauthorized use of them.

d) Any motor vehicle parked in a parking lot on school grounds, when such lot is clearly designated as such by a sign no smaller than 24 inches by 24 inches prominently displayed at each entrance thereto, in violation of the rules and regulations adopted by the local board of education, or any motor vehicle otherwise parked on school grounds in violation of the rules and regulations adopted by the county or city local board of education, may be removed from school grounds to a place of storage and the registered owner of such vehicle shall become liable for removal and storage charges. No person shall be held to answer in any civil or criminal action to any owner, lienholder, or other person legally entitled to the possession of any motor vehicle removed pursuant to this section except where such motor vehicle is willfully, maliciously or negligently damaged in the removal from school grounds to place of storage.

The committee shall meet as often as the school business of the district may require.

"§ 115C-57. How to employ principals, teachers, janitors and maids.—The district committee, upon the recommendation of the county superintendent of schools, shall elect the principals for the schools of the district, subject to the approval of the county board of education. The principal of each school shall nominate and the district committee shall elect the teachers for all the schools of the district, subject to the approval of the county superintendent of schools and the county board of education. Likewise, upon the recommendation of the principal of each school of the district, the district committee shall appoint janitors and maids for the schools of the district, subject to the approval of the county superintendent of schools and the county board of education. No election of a principal or teacher, or appointment of a janitor or maid, shall be deemed valid until such election or appointment has been approved by the county superintendent and the county board of education. No teacher under 18
years of age may be employed, and the election of all teachers and principals and the appointment of all janitors and maids shall be done at regular or called meetings of the committee.

In the event the district committee and the county superintendent are unable to agree upon the nomination and election of a principal or the principal and the district committee are unable to agree upon the nomination and election of teachers or appointment of janitors or maids, the county board of education shall select the principal and teachers and appoint janitors and maids, which selection and appointment shall be final.

The distribution of the teachers and janitors among the several schools of the district shall be subject to the approval of the county board of education.

"§ 115C-58. Committee's responsibility as to school property.—It shall be the duty of the school committee to protect all school property in its district. To this end, it is given custody of all schoolhouses, schoolhouse sites, grounds, textbooks, apparatus, and other school property in the district, with full power to control same as it may deem best for the interests of the public schools and the cause of education, but not in conflict with the rules and regulations of the county board of education. It shall be the duty of the committee to report any misuse or damage of school property immediately to the county board of education: Provided, that if the committee is unable or shall fail to take due care of all school property of the district, the county board of education may designate some responsible citizen of the district to have special charge of the property during vacation.

"§ 115C-59. Removal of committeemen for cause.—In case the county superintendent or any member of the county board of education shall have sufficient evidence at any time that any member of any school committee is not capable of discharging, or is not discharging, the duties of his office, or is guilty of immoral or disreputable conduct, he shall bring the matter to the attention of the county board of education, which shall thoroughly investigate the charges. If the board of education finds that the evidence supports the charges made to such an extent that the actions and conduct of said committeeman are not for the best interests of the schools, then the board shall proceed to remove such committeeman and appoint his successor: Provided, that such committeeman shall be given proper notice of the hearing and that a record of the findings of the board shall be recorded in the minutes of the meeting.

§ 115C-66. Administrative units classified.—Each county of the State shall be classified as a county school administrative unit, the schools of which, except in city administrative units, shall be under the general supervision and control of a county board of education with a county superintendent as the administrative officer.

A city school administrative unit shall be classified as an area within a county or adjacent parts of two or more contiguous counties which has been or may be approved by the State Board of Education as such a unit for purposes of school administration. The general administration and supervision of a city administrative unit shall be under the control of a board of education with a city superintendent as the administrative officer.

All local school administrative units, whether city or county, shall be dealt with by the State school authorities in all matters of school administration in the same way.

§ 115C-67. Merger of units in same county.—City school administrative units may be consolidated and merged with contiguous city school administrative units and with county school administrative units upon approval by the State Board of Education of a plan for consolidation and merger submitted by the boards of education involved and bearing the approval of the board of county commissioners.

County and city boards of education desiring to consolidate and merge their school administrative units may do so by entering into a written plan which shall set forth the conditions of merger. The provisions of the plan shall be consistent with the General Statutes and shall contain, but not be limited to, the following:

1. The name by which the merged school administrative unit shall be identified and known.

2. The effective date of the merger.

3. The establishment and maintenance of a board of education which shall administer all the public schools of the newly created unit, including:
   a. The termination of any terms of office proposed in the reorganization of the board.
b. The method of constituting and continuing the board of education, the length of the members' terms of office, the dates of induction into office, the organization of the board, the procedure for filling vacancies, and the compensation to be paid members of the board for expenses incurred in performance of their duties.

(4) The authority, powers, and duties of the board of education with respect to the employment of personnel, the preparation of budgets, and any other related matters which may be particularly applicable to the merged unit not inconsistent with the General Statutes.

(5) The transfer of all facilities, properties, structures, funds, contracts, deeds, titles, and other obligations, assets and liabilities to the board of education of the merged unit.

(6) Whether or not there shall be continued in force any supplemental school tax which may be in effect in either or all local school administrative units involved.

(7) A public hearing, which shall have been announced at least 10 days prior to the hearing, on the proposed plan of merger.

(8) A statement as to whether the question of merger, in accordance with the projected plan, is to be contingent upon approval of the voters in the affected area.

(9) Any other condition or prerequisite to merger, together with any other appropriate subject or function that may be necessary for the orderly consolidation and merger of the local school administrative units involved.

The plan referred to above shall be mutually agreed upon by the city and county boards of education involved and shall be accompanied by a certification that the plan was approved by the board of education on a given day and that the action has been duly recorded in the minutes of said board, together with a certification to the effect that the public hearing required above was announced and held. The plan, together with the required certifications, shall then be submitted to the board of county commissioners for its concurrence and approval. After such approval has been received, the plan shall be submitted to the State Board of Education for the approval of said State Board and the plan shall not become effective until such approval is granted. Upon approval by the State Board of Education, the plan of consolidation and merger shall become final and shall be deemed to have been made by authority of law and shall not be changed or amended except by an act of the General Assembly. The written plan of agreement shall be placed in the custody of the board of education operating and administering the public schools in the merged unit and a copy filed with the Secretary of State.

The plan may be, but it is not required that it be, submitted for the approval of the voters of the geographic area affected in a referendum or election called for such purpose, and such elections or referendums if held shall be held under the provisions governing elections or referendums as set forth in G.S. 115C-507, with authority of the board of county commissioners to have such election or referendum conducted by the board of elections of the county.

Upon approval of the plan of consolidation or merger by the State Board of Education, or upon approval of the plan of consolidation or merger by the voters in a referendum or election called for such purpose, and as soon as a provisional or interim board of education of the merged unit, or a permanent board of education of the merged unit, enters in and upon the duties of the
administration of the public schools of the consolidated or merged unit, then the former boards of education and all public officers of the former boards of education of the separate units thus merged shall stand abolished, and said separate boards of education or administrative units thus merged shall stand dissolved and shall cease to exist for any and all purposes. All consolidations and mergers of county and city boards of education and of county and city school administrative units heretofore agreed to and finally approved, and all consolidation or merger proceedings entered into prior to June 9, 1969, are hereby declared to be effective, legal and according to law notwithstanding any defect in the merger or consolidation proceedings and notwithstanding any dissolution of the separate boards of education and public officers of the former, separate school units.

"§ 115C-68. Merger of units in adjoining counties.—(a) Boards of education of contiguous counties or boards of education in a group of counties in which each county is contiguous with at least one other county in the group, and any city school administrative unit located in counties to be merged, may merge school administrative units upon approval by the State Board of Education of a written plan for merger submitted by the boards of education involved and bearing the approval of the tax-levying body for the school units. The plan shall be consistent with the General Statutes, shall contain provisions covering those items listed in G.S. 115C-67 (providing for the merger of units in the same county, and shall contain any other provision deemed necessary or appropriate by the State Board of Education or the local boards of education for the merger of school units in two or more counties.

(b) The plan of merger, including any arrangements for financing or taxing for the schools in the new local school administrative unit, may be, but is not required to be, submitted for the approval of the voters of the geographic area affected in a referendum or election called for the purpose of approving these matters. Such elections or referendums, if held, shall be held under the provisions governing elections or referendums as set forth in G.S. 115C-507. Each board of county commissioners shall have authority to have such elections or referendums conducted by the board of elections of its county under the provisions set forth in G.S. 115C-507.

(c) If twenty percent (20%) of the qualified voters of a county to be merged, petition the board of county commissioners of their county for an election as to whether their county shall be included in the proposed merger, the board of county commissioners shall call an election on this question for its county under the provisions of G.S. 115C-507. The petition must be submitted to the board of county commissioners within 10 days following the public hearing required by G.S. 115C-67 on the proposed plan of merger. The board of county commissioners shall have authority to have such an election conducted by the board of election of its county under the provisions set forth in G.S. 115C-507.

(d) Boards of education considering a merger of two or more counties may spend money necessary for studying and preparing for such a merger.

"§ 115C-69. Types of districts defined.—The term ‘district’ here used is defined to mean any convenient territorial division or subdivision of a county, created for the purpose of maintaining within its boundaries one or more public schools. It may include one or more incorporated towns or cities, or parts thereof, or one or more townships, or parts thereof, all of which territory is
included in a common boundary. There shall be three different kinds of districts:

1. The 'nontax district' is a territorial division of a local school administrative unit under the control of the local board of education, having no special local tax fund voted by the people for supplementing State and county funds.

2. The 'local tax district' is a territorial division of a local school administrative unit under the control of the county local board of education, having in addition to State and county funds, a special local tax fund voted by the people for supplementing State and county funds.

3. The 'administrative district' is a territorial division of a county school administrative unit under the control of a county board of education which is established for administrative purposes and which consists of any combination of one or more local tax districts, nontax areas or bond districts of the county school administrative unit.

"§ 115C-70. Creation and modification of school districts by State Board.—(a) The State Board of Education, upon the recommendation of the county board of education, shall create in any county school administrative unit a convenient number of school districts. Such district organization may be modified in the same manner in which it was created when it is deemed necessary: Provided, that when changes in district lines are made between and among school districts that have voted upon themselves the same rate of supplemental tax, such changes in district lines shall not have the effect of abolishing any of such districts or of abolishing any supplemental taxes that may have been voted in any of such districts: Provided, further, that nothing in this paragraph shall affect the right of any city school administrative unit or special tax district which now exists for the purpose of retiring debt service, to have the indebtedness of such district taken over by the county as provided by law, and nothing herein shall be construed to restrict the county board of education or the board of county commissioners in causing such indebtedness to be assumed by the county as provided by law.

The General Assembly shall not enact any local, private, or special act or resolution establishing or changing the lines of school districts.

(b) All pupils residing in a school district or attendance area, who have not been removed from school for cause, shall be entitled to all the privileges and advantages of the public schools of such district or attendance area in such school buildings to which they are assigned by local boards of education as provided in G.S. 115C-366.

"§ 115C-71. Districts formed from portions of contiguous counties.—School districts may be formed out of contiguous counties by agreement of the county boards of education of the respective counties subject to the approval of the State Board of Education. Rules for the organization, support and operation of districts so formed are subject to the agreement of the boards of education concerned, and as a guide to the working out of such agreements the formulas contained in G.S. 115C-510 should be followed as far as applicable.

"§ 115C-72. Consolidation of districts and discontinuance of schools.—County boards of education shall have the power and authority to consolidate schools located in the same district, and with the approval of the State Board of Education, to consolidate school districts or other school areas over which the board has full control, whenever and wherever in its judgment the
consolidation will better serve the educational interests of the county or any part of it: Provided, existing schools having suitable buildings shall not be abolished until the county board of education has made ample provisions for transferring all children of said school to some other school.

In determining whether two or more public schools shall be consolidated, or in determining whether or not a school shall be closed and the pupils transferred therefrom, the State Board of Education and the boards of education of the several counties shall observe and be bound by the following rules:

(1) In any question involving the discontinuance or consolidation of any high school with an average daily attendance of 60 or more pupils, the board of education of the county in which such school is located and the State Board of Education shall cause a thorough study of such school to be made, having in mind primarily the welfare of the students to be affected by a proposed consolidation and including in such study, among other factors, geographic conditions, anticipated increase or decrease in school enrollment, the inconvenience or hardship that might result to the pupils to be affected by such consolidation, the cost of providing additional school facilities in the event of such consolidation, and the importance of such school to the people of the community in which the same is located and their interest in and support of same. Before the entry of any order of consolidation, the county board of education shall provide for a public hearing in regard to such proposed consolidation, at which hearing the county and State boards of education and the public shall be afforded an opportunity to express their views. Upon the basis of the study so made and after such hearing, said boards may, in the exercise of their discretion and by concurrent action, approve the consolidation proposed.

(2) Provision shall not be made by the State Board of Education for the operation of a high school with an average daily attendance of less than 60 pupils unless the State Board of Education and the Superintendent of Public Instruction, after a careful survey by them, find that geographic or other conditions make it impractical to provide for such pupils otherwise. Upon such finding, the State Board of Education may make provision for the operation of such school.

(3) Notwithstanding the limitations imposed by the provisions of subdivision (2) of this section, the State Board of Education shall make provision for the continued operation of any high school now operating in any county school administrative unit and having an average daily attendance of at least 45 but fewer than 60 pupils, and shall allot to such school the number of teachers to which it may be entitled pursuant to law and rules of the State Board of Education if the continued operation of such school be requested by the board of education of such county by the inclusion of such school in the organization statement for the following year filed pursuant to the provisions of law: Provided, however, that at the time of making such request, the county board of education presents to the State Board of Education a certified statement that it has on hand and allocated for such purpose sufficient funds to pay the salaries, in accordance with the State standard salary schedule, of such additional teachers for said school as may be required in order to comply with minimum teacher requirements for a standard high school as now or hereafter defined and sufficient funds to pay the county's contribution for such teachers.
to the Teachers' and State Employees' Retirement System of North Carolina, as provided by G.S. 135-8(d) and that said county board of education will employ such teacher or teachers.

For the purpose of providing the funds required by the proviso of this subdivision, the boards of commissioners of the several counties are authorized to appropriate nontax funds, and the several county boards of education are authorized to accept and use privately donated funds.

(4) The provisions of this section shall not deprive any local board of education of the authority to assign or enroll any and all pupils in schools in accordance with the provisions of G.S. 115C-366(b) and 115C-367 to 115C-370.

“§ 115C-73. Enlarging tax districts and city units by permanently attaching contiguous property.—The county boards of education with the approval of the State Board of Education may transfer from nontax territory and attach permanently to local tax districts or to city school administrative units, real property contiguous to said local tax districts or city school administrative units, upon the written petition of the owners thereof and the taxpayers of the families living on such real property, and there shall be levied upon the property of each individual in the area so attached, including landowners and tenants, the same tax as is levied upon other property in said district or unit: Provided, that such transfer shall be subject to the approval of the board of education of such city unit or the committee of such tax district, as the case may be; Provided, the petition must be signed by a majority of the persons who are the owners thereof and a majority of the taxpayers of the families living on such real property on the date the petition is filed with the county board of education: Provided, further, that a person or corporation owning only an easement in real property shall not be considered an owner of said property within contemplation of this section: Provided, further that no right of action or defense founded upon the invalidity of such transfer shall be asserted, nor shall the validity of such transfer be open to question in any court upon any ground whatever, except in an action or proceeding commenced within 60 days after the approval of such transfer is given by the State Board of Education.

Any qualified voter residing in the area attached shall be permitted to vote in any election for members of the board of education having jurisdiction over the attached area.

“§ 115C-74. School system defined.—The school system of each local school administrative unit shall consist of 12 years of study or grades, and shall be graded on the basis of a school year of not less than nine months. The system may be organized in one or two ways as follows: The first eight grades shall be styled the elementary school and the remaining four grades, the high school; or if more practicable, a junior high school may be formed by combining the first year of high school with both the seventh and eighth grades or with the eighth grade alone, and a senior high school which shall comprise the last three years of high school work. For purposes of Title V of the National Defense Education Act of 1958 (Public Law 85-864) the term 'secondary school' shall be applicable to grades seven through 12.

“§ 115C-75. Recommended school classification.—The different types of public schools are classified and defined as follows:

(1) An 'elementary school' is a school which embraces a part or all of the eight elementary grades and which may have a kindergarten or other early childhood program.
(2) A 'high school' is a school which embraces a high school department above the elementary grades and which offers at least the minimum high school course of study prescribed by the State Board of Education.
(3) A 'union school' is a school which embraces both elementary and high school grades.
(4) A 'junior high school' is a school which embraces not more than the first year of high school with not more than the upper two elementary grades.
(5) A 'senior high school' is a school which embraces the tenth, eleventh and twelfth grades.

"§ 115C-81. Required curriculum.—(a) Standard Course of Study for Each Grade.—Upon the recommendation of the Superintendent, the State Board of Education shall adopt a standard course of study for each grade in the elementary school and in the high school. In the course of study adopted by the Board, the Board may establish a program of continuous learning based upon the individual child's need, interest, and stages of development, so that the program has a nongraded structure of organization. These courses of study shall set forth what subjects shall be taught in each grade, and outline the basal and supplementary books on each subject to be used in each grade.

The Superintendent shall prepare a course of study for each grade of the school system which shall outline the appropriate subjects to be taught, together with directions as to the best methods of teaching them as guidance for the teachers. There shall be included in the course of study for each grade, outlines and suggestions for teaching the subject of Americanism; and in one or more grades, as directed by the Superintendent of Public Instruction, outlines for the teaching of the dangers of harmful or illegal drugs, including alcohol; and, in one or more grades at the high school level, outlines for the teaching of the free enterprise system.

(c) Instruction in Music Education; Supervisors and Area Supervisors.—There shall be organized and administered under the general supervision of the
Superintendent of Public Instruction a program of music education in the public schools of the State, and in the various communities in which said public schools are located. The Department of Public Instruction is hereby authorized to employ a supervisor of music education and six area music supervisors in its program of promotion of music education. It shall be the duty of the supervisors to train leaders among the teachers, to hold conferences throughout the State with groups of teachers and demonstrate proper methods of teaching music, and to organize and direct leadership in music programs in the schools and in the communities of the State.

(d) Instruction in Physical Education and Health Education.—There shall be organized and administered under the general supervision of the Superintendent of Public Instruction a comprehensive program of physical education and of health education including scientific instruction in the dangers of harmful or illegal drugs including alcohol. It shall be the duty of teachers and principals in connection with this program to screen and observe all pupils in order to detect signs and symptoms of deviation from normal, and to record and report the results of their findings in accordance with the established policies and procedures and upon blanks furnished for this purpose. The Superintendent of Public Instruction, with the Department of Human Resources cooperating, shall make rules and regulations regarding screening and observation by teachers and for medical and psychiatric examination of pupils attending the public schools. Correction of chronic remediable defects for underprivileged children may be paid out of school health funds appropriated by the General Assembly to the State Board of Education for allocation to local school administrative units in accordance with policies agreed upon by the Superintendent of Public Instruction and the Department of Human Resources, and as otherwise provided by law. The Department of Human Resources shall provide free dental treatment for as many underprivileged school children as possible each year.

(e) School Health Education Program to be Developed and Administered.

(1) A comprehensive school health education program shall be developed and taught to pupils of the public schools of this State from kindergarten through ninth grade. This program shall be developed over a 10-year period beginning July 1, 1978.

(3) The development and administration of this program shall be the responsibility of each local school administrative unit in the State, a local school health education coordinator for each county, the Department of Public Instruction, and a State School Health Education Advisory Committee.

(4) Each existing local school administrative unit is eligible to develop and submit a plan for a comprehensive school health education program which shall meet all standards established by the State Board of Education, and to apply for funds to execute such plans.

(6) A State School Health Advisory Committee is hereby established.

a. The committee shall provide citizen input into the operations of the program, report annually to the State Board of Education on progress in accomplishing the provisions and intent of this legislation, provide advice to the department with regard to its duties under this subsection, and encourage development of higher education programs which would benefit health education in the public schools.

b. The committee shall meet as necessary but at least twice annually. It shall select annually a chairperson from among its own membership, each member having an equal vote and the chairperson shall appoint such subcommittees as may be necessary. Members of the committee shall serve without compensation; however, they shall be reimbursed by the Department of Public Instruction for travel and other expenses incurred in the performance of their duties as members of the committee, to the extent that funds are appropriated for this purpose.

All kindergarten programs so established shall be subject to the supervision of the Department of Public Instruction and shall be operated in accordance with the standards adopted by the State Board of Education, upon recommendation of the Superintendent of Public Instruction.

"Part 2. Calendar.

§ 115C-84. Length of school day, month, and term; Veterans Day.—(a) School Day.—The length of the school day shall be determined by the several local boards of education for all public schools in their respective local school administrative units, and the minimum time for which teachers shall be employed in the schoolroom or on the grounds supervising the activities of children shall not be less than six hours: Provided, the several local boards of education may adopt rules and regulations allowing handicapped pupils, kindergarten pupils, and pupils attending the first, second, and third grades to attend school for a period less than six hours. The superintendent of the several local boards of education, in the event of an emergency, act of God, or any other conditions requiring the termination of classes before six hours have elapsed, may suspend the operation of any school for that particular day without loss of credit to the pupil or loss of pay to the teacher.

(b) School Month.—A school month shall consist of 20 teaching days. School shall not be taught on Saturdays unless the needs of agriculture, or other conditions in the unit or district make it desirable that school be taught on such days. Whenever it is desirable to complete the school term of 180 days in a shorter term than nine calendar months, the board of education of any local school administrative unit may, in its discretion, require that school shall be taught on legal holidays, except Sundays, and in accordance with the custom and practice of such community.

(c) School Term.—There shall be operated in every school in the State a uniform school term of 180 days for instructing pupils: Provided, that the State Board of Education, or the board of education of any local school administrative unit with the approval of the State Board of Education, may suspend the operation of any school in such units, not to exceed a period of 60 days of said term of 180 days, when in the sound judgment of the State Board of Education, or the board of education of any local school administrative unit with the approval of the State Board of Education, conditions justify such suspension: Provided, further, that when the operation of any school is suspended the period of suspension shall be deducted from the total of 180 days included for each school year operation, all teachers shall be entitled to normal pay for the days of school of the suspended term, not to exceed a period of 15 school days during the school term.

Full authority is hereby given to the State Board of Education during any period of emergency to order general, and if necessary, extended recesses or adjournment of the public schools in any section of the State where the planting or harvesting of crops or any emergency conditions make such action necessary.
(d) Standard Class Duration.—Classes in basic academic courses in grades seven through nine of departmentalized public schools shall be limited to one hour’s duration unless the specific approval of the State Board of Education is obtained in advance for a longer duration.

(e) Fixing Time of Opening and Closing Schools.—The time of opening and closing the public schools shall be fixed and determined by local boards of education in their respective administrative units. Different opening and closing dates may be fixed for schools in the same administrative unit but all schools using the same buses for transportation of pupils must open and close at the same time.

(f) Veterans Day.—Veterans Day shall be a holiday for all children enrolled in the public schools, but shall be a work day for all school employees, unless designated as a holiday by the local board of education.

"Part 3. Textbooks.

§ 115C-85. Textbook needs are determined by course of study.—When the State Board of Education has adopted, upon the recommendation of the Superintendent of Public Instruction, a standard course of study at each instructional level in the elementary school and the secondary school, setting forth what subjects shall be taught at each level, it shall proceed to select and adopt textbooks. Textbooks adopted in accordance with the provisions of this Part shall be used by the public schools of the State.

§ 115C-86. State Board of Education to select and adopt textbooks.—The Board shall select and adopt for a period determined to be most advantageous to the State public school system for the exclusive use in the public schools of North Carolina the basic textbooks or series of books needed for instructional purposes at each instructional level on all subject matter required by law to be taught in elementary and secondary schools of North Carolina.

§ 115C-87. Appointment of Textbook Commission.—Shortly after assuming office, the Governor shall appoint a Textbook Commission of 14 members who shall hold office for four years, or until their successors are appointed and qualified. The members of the Commission shall be appointed by the Governor upon recommendation of the Superintendent. Six of these members shall be teachers or principals in the elementary grades; five shall be teachers or principals in the high school grades; one shall be a superintendent of a local school administrative unit; one shall be the parent of an elementary student, grades K-6, at the time of appointment; and one shall be the parent of a high school student, grades 7-12, at the time of appointment. The Governor shall fill all vacancies by appointment for the unexpired term. The Commission shall elect a chairman, subject to the approval of the Superintendent. The members shall be entitled to compensation for each day spent on the work of the Commission as approved by the Board and to reimbursement for travel and subsistence expense incurred in the performance of their duties at the rates specified in G.S. 138-5(a). Such compensation shall be paid from funds available to the State Board of Education.

§ 115C-88. Commission to evaluate books offered for adoption.—The members of the Commission who are teachers, principals or the parent of students in the elementary grades shall evaluate all textbooks offered for adoption in the elementary grades. The members who are teachers, principals or the parent of students in the high schools shall evaluate all books offered for adoption in the high school grades.
CHAPTER 423  Session Laws—1981

Each member shall examine carefully and file a written evaluation of each book offered for adoption in the category for which he is responsible.

The evaluation report shall give special consideration to the suitability of the book to the instructional level for which it is offered, the content or subject matter, and other criteria prescribed by the Board.

Each evaluation report shall be signed by the member making the report and filed with the Board not later than a day fixed by the Board when the call for adoption is made.

"§ 115C-89. Selection of textbooks by Board.—At the next meeting of the Board after the reports have been filed, the Textbook Commission and the Board shall jointly examine the reports. From the books evaluated the Board shall select those that it thinks will meet the teaching requirements of the State public schools in the instructional levels for which they are offered. The Board shall then request sealed bids from the publishers on the selected books.

The Board shall make all necessary rules and regulations concerning requests for bids, notification to publishers of calls for adoption, execution and delivery of contracts, requirement of performance bonds, cancellation clauses, and such other material matters as may affect the validity of the contracts.

"§ 115C-90. Adoption of textbooks and contracts with publishers.—The publishers' sealed bids shall be opened in the Board's presence at the next regular meeting after the Board has requested the submission of bids. The Board may then adopt the books required by the courses of study and enter into contracts with the publisher of adopted books. It may refuse to adopt any of the books offered at the prices bid and call for new bids. When bids are accepted and a contract entered into, the contract may require, in the Board's discretion, that the total sales of each book in the State of North Carolina be reported annually to the Board.

"§ 115C-91. Continuance and discontinuance of contracts with publishers.—When an existing or future contract expires, the Board may, with the publisher's approval, continue the contract for any particular book or books for a period not less than one or more than five years. If a publisher desires to terminate a contract that has been extended beyond the original contract period, he shall give notice to the Board 90 days prior to May 1. The Board may then proceed to a new adoption.

"§ 115C-92. Procedure for change of textbook.—The Superintendent may at any time communicate to the Board that a particular book is unsatisfactory for the schools, whereupon the Board may call for a new selection and adoption. If the Board votes to change a textbook, it shall give the publisher 90 days' notice prior to May 1, after which it may adopt a new book or books on the subject for which a book is sought.

"§ 115C-93. Advice from and suits by Attorney General.—The form and legality of contracts between the Board and publishers of textbooks shall be subject to the approval of the Attorney General.

When requested by the Board, the Attorney General shall bring suit against any publisher who fails to keep his contract as to prices, distribution, adequate supply of books in the edition adopted, or in any other way violates the terms of his contract. The suit shall be brought for an amount sufficient to enforce the contract or to compensate the State for any loss sustained by the publisher's failure to keep his contract.
“§ 115C-94. Publishers to register.—Any publisher who submits books for adoption shall register in the office of the Superintendent of Public Instruction the names of all agents or other employees authorized to represent that company in the State, and this registration list shall be open to the public for inspection.

“§ 115C-95. Sale of books at lower price reduces price to State.—Every contract made by the Board with the publisher of any school textbook on the State-adopted list shall be deemed to have written therein a condition providing that if that publisher, during the life of his contract with this State, contracts with any other governmental unit or places that textbook on sale anywhere in the United States for a price less than that stipulated in his contract with the State of North Carolina, the publisher shall immediately furnish that textbook to this State at a price not greater than that for which the book is furnished, sold, or placed on sale anywhere else in the nation.

“§ 115C-96. Powers and duties of the State Board of Education in regard to textbooks.—The children of the public elementary and secondary schools of the State shall be provided with free basic textbooks within the appropriation of the General Assembly for that purpose. The State Board of Education is directed to request sufficient appropriations from the General Assembly to implement this directive.

The State Board of Education shall administer a fund and establish rules and regulations necessary to:

(1) Acquire by contract such basic textbooks as are or may be on the adopted list of the State of North Carolina which the Board finds necessary to meet the needs of the State public school system and to carry out the provisions of this Part.

(2) Provide a system of distribution of these textbooks and distribute the books that are provided without using any depository or warehouse facilities other than those operated by the State Board of Education.

(3) Provide for the free use, with proper care and return, of elementary and secondary basic textbooks. The title of said books shall be vested in the State.

“§ 115C-97. State Board of Education authorized to discontinue handling supplementary and library books.—The State Board of Education may discontinue the adoption of supplementary textbooks and, at the expiration of existing contracts, may discontinue the purchase, warehousing, and distribution of supplementary textbooks. The Board may also discontinue the purchase and resale of library books. Funds appropriated to the State Board of Education for supplementary textbooks shall be transferred to the State Public School Fund for allotment to each local school administrative unit, based on its average daily membership, for the purchase of supplementary textbooks, library books, periodicals, and other instructional materials.

“§ 115C-98. Local boards of education to provide for local operation of the textbook program and the selection and procurement of other instructional materials.—(a) Local boards of education shall adopt rules and regulations not inconsistent with the policies of the State Board of Education concerning the local operation of the textbook program.

(b) Local boards of education shall adopt written policies concerning the procedures to be followed in their local school administrative units for the selection and procurement of supplementary textbooks, library books, periodicals, and other instructional materials needed for instructional purposes
in the public schools of their units. Supplementary books and other instructional materials shall neither displace nor be used to the exclusion of basic textbooks.

(c) Funds allocated by the State Board of Education or appropriated in the current expense or capital outlay budgets of the local school administrative units, may be used for the above-stated purposes.

"§ 115C-99. Legal custodians of books furnished by State.—Local boards of education are the custodians of all books furnished by the State. They shall provide adequate and safe storage facilities for the proper care of these books and emphasize to all students the necessity for proper care of textbooks.

"§ 115C-100. Rental fees for textbooks prohibited; damage fees authorized.—No local board of education may charge any pupil a rental fee for the use of textbooks. Damage fees may be charged for abuse or loss of textbooks under rules and regulations promulgated by the State Board of Education. All money collected on State-owned books as damage fees or from the sale of books under the provisions of this Part shall be paid quarterly as collected to the State Board of Education.

"§ 115C-101. Duties and authority of superintendents of local school administrative units.—The superintendent of each local school administrative unit, as an official agent of the State Board of Education, shall administer the provisions of this Part and the rules and regulations of the Board insofar as they apply to his unit. The superintendent of each local school administrative unit shall have authority to require the cooperation of principals and teachers so that the children may receive the best possible service, and so that all the books and moneys may be accounted for properly. If any principal or teacher fails to comply with the provisions of this section, his superintendent shall withhold his salary vouchers until the duties imposed by this section have been performed.

If any superintendent fails to comply with the provisions of this section, the State Superintendent, as secretary to the State Board of Education, shall notify the State Board of Education and the State Treasurer. The State Board and the State Superintendent shall withhold the superintendent’s salary vouchers, and the State Treasurer shall make no payment until the State Superintendent notifies him that the provisions of this section have been complied with.

"§ 115C-102. Right to purchase.—Any parent, guardian, or person in loco parentis may purchase any instructional material needed for any child in the public schools of the State from the board of education of the local school administrative unit in which the child is enrolled or, in the case of basic textbooks, from the State Board of Education.

"§ 115C-103. Fees.—Fees, charges and costs may be collected from students and school personnel in accordance with the provisions of G.S. 115C-47(f).

"Part 5. Interstate Compact on Education.

"§ 115C-104. Enactment of Compact.—The Compact for Education is hereby entered into and enacted into law, with all jurisdictions legally joining therein, in the form substantially as follows:

"COMPACT FOR EDUCATION.

Article l. Policy and Purpose.
It is the purpose of this Compact to:

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional, educational and lay leadership on a nationwide basis at the state and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advances in educational opportunities, methods and facilities.

(5) It is the policy of this Compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

(6) The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because of the products and services contributing to the health, welfare and economic advancement of each state which are supplied in significant part by persons educated in other states.

Article II. State Defined.

As used in this Compact, 'state' means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III. The Commission.

(1) The education commission of the states, hereinafter called 'the commission', is hereby established. The commission shall consist of seven members representing each party state. One of such members shall be the Governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the Governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the Governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly
the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(2) The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(10).

(3) The commission shall have a seal.

(4) The commission shall elect annually, from among its members, a chairman, who shall be a governor, a vice-chairman and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

(5) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(6) The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

(7) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph (6) of this article shall be reported in the annual report of the
commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

(8) The commission may establish and maintain such facilities as may be necessary for the transaction of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(9) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(10) The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

Article IV. Powers.

In addition to authority conferred on the commission by other provisions of the Compact, the commission shall have authority to:

(1) Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

(2) Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

(3) Develop proposals for adequate financing of education as a whole and at each of its many levels.

(4) Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this Compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

(5) Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

(6) Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this Compact.

Article V. Cooperation with Federal Government.

(1) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed 10 representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representatives shall have a vote on the commission.
CHAPTER 423  Session Laws—1981

(2) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI. Committees.

(1) To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of 32 members which, subject to the provisions of this Compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One fourth of the voting membership of the steering committee shall consist of governors, one fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows: 16 for one year and 16 for two years. The chairman, vice-chairman, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

(2) The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

(3) The commission may establish such additional committees as its bylaws may provide.

Article VII. Finance.

(1) The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

(2) The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

(3) The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with
funds available to it pursuant to Article III(7) of this Compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to Article III(7) thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

(5) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(6) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VIII. Eligible Parties' Entry into and Withdrawal.

(1) This Compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term 'governor', as used in this Compact, shall mean the closest equivalent official of such jurisdiction.

(2) Any state or other eligible jurisdiction may enter into this Compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least 10 eligible party jurisdictions shall be required.

(3) Adoption of the Compact may be either by enactment thereof or by adherence thereto by the governor; provided that in the absence of enactment, adherence by the governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this Compact through gubernatorial action, the governor shall appoint those persons who, in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an equitable share of the financial support of the commission from any source available to him.

(4) Except for a withdrawal effective on December 31, 1967, in accordance with paragraph (3) of this article, any party state may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX. Construction and Severability.
This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held contrary to the constitution of any state participating therein, the Compact shall remain in full force and effect as to the state affected as to all severable matters.

“§ 115C-105. North Carolina Education Council; bylaws.—(a) There is hereby established the North Carolina Education Council composed of the members of the education commission of the states representing this State, and not exceeding five other persons appointed by the Governor for terms of three years. Such other persons shall be selected so as to be broadly representative of professional and lay interests within this State having the responsibilities for, knowledge with respect to, and interest in educational matters. The Governor shall serve as chairman of the North Carolina Education Council or any person that the Governor may designate shall serve as chairman. The chairman of the State Board of Education, the Superintendent of Public Instruction, the chairman of the Board of Governors of The University of North Carolina, and the President of The University of North Carolina shall be ex officio members of the North Carolina Education Council. The Council shall meet on the call of its chairman or at the request of a majority of its members, but in any event the Council shall meet not less than three times in each year. The Council may consider any and all matters relating to the recommendations of the education commission of the states and the activities of the members in representing this State thereon.

(b) Pursuant to Article III(9) of the Compact, the commission shall file a copy of its bylaws and any amendment thereto with the Secretary of State of North Carolina.

“ARTICLE 9.
“Special Education.

“§ 115C 106. Policy.—(a) The General Assembly of North Carolina hereby declares that the policy of the State is to ensure every child a fair and full opportunity to reach his full potential and that no child as defined in this section and in G.S. 115C-122 shall be excluded from service or education for any reason whatsoever. This policy shall be the practice of the State for children from birth though age 21 and the State requires compliance by all local education agencies and local school administrative units, all local human resources agencies including, but not limited to, local health departments, local social service departments, community mental health centers and all State departments, agencies, institutions except institutions of higher education, and private providers which are recipients of general funds as these funds are defined in G.S. 143-1.

(b) The policy of the State is to provide a free appropriate publicly supported education to every child with special needs. The purpose of this Article is to (i) provide for a system of special educational opportunities for all children requiring special education, hereinafter called children with special needs; (ii)
provide a system for identifying and evaluating the educational needs of all children with special needs; (iii) require evaluation of the needs of such children and the adequacy of special education programs before placing children in the programs; (iv) require periodic evaluation of the benefits of the programs to the children and of the nature of the children’s needs after placement; (v) prevent denials of equal educational opportunity on the basis of physical, emotional, or mental handicap; (vi) assure that the rights of children with special needs and their parents or guardians are protected; (vii) ensure that there be no inadequacies, inequities, and discrimination with respect to children with special needs; and (viii) bring State law, regulations, and practice into conformity with relevant federal law.

"§ 115C-107. Children can learn.—The General Assembly finds that all children with special needs are capable of benefitting from appropriate programs of special education and training and that they have the ability to be educated and trained and to learn and develop. Accordingly, the State has a duty to provide them with a free appropriate public education.

"§ 115C-108. Definition of special education and related services.—The term 'special education' means specially designed instruction, at no cost to the parents or guardians, to meet the unique needs of a special needs child, including classroom instruction, instruction in physical education, home instruction, and instruction in hospitals and institutions. The term also includes speech pathology, audiology, occupational and physical therapy. The term 'related services' means transportation and such developmental, corrective and other supportive services as are required to assist a special needs child to benefit from special education and includes speech pathology and audiology, psychological services, physical and occupational therapy, recreation, early identification and assessment of disabilities in children, counseling services, and medical services for diagnostic or evaluation purposes only. The term also includes school social work services, parent counseling and training, providing parents with information about child development and assisting parents in understanding the special needs of their child. Other similar services, materials and equipment may be provided as approved by regulations adopted by the State Board of Education.

"§ 115C-109. Definition of children with special needs.—The term 'children with special needs' includes, without limitation, all children between the ages of five and 18 who because of permanent or temporary mental, physical or emotional handicaps need special education, are unable to have all their needs met in a regular class without special education or related services, or are unable to be adequately educated in the public schools. It includes those who are mentally retarded, epileptic, learning disabled, cerebral palsied, seriously emotionally disturbed, orthopedically impaired, autistic, multiply handicapped, pregnant, hearing-impaired, speech-impaired, blind or visually impaired, genetically impaired, and gifted and talented.

"§ 115C-110. Services mandatory; single agency responsibility; State and local plans; census and registration.—(a) The Board shall cause to be provided by all local school administrative units and by all other State and local governmental agencies providing special education services or having children with special needs in their care, custody, management, jurisdiction, control, or programs, special education and related services appropriate to all children with special needs. In this regard, all local school administrative units and all other State
and local governmental agencies providing special education and related services shall explore available local resources and determine whether the services are currently being offered by an existing public or private agency.

When a specified special education or related service is being offered by a local public or private resource, any unit or agency described above shall negotiate for the purchase of that service or shall present full consideration of alternatives and its recommendations to the Board. In this regard, a new or additional program for special education or related services shall be developed with the approval of the Board only when that service is not being provided by existing public or private resources or the service cannot be purchased from existing providers. Further, the Board shall support and encourage joint and collaborative special education planning and programming at local levels to include local administrative units and the programs and agencies of the Departments of Human Resources and Correction.

The jurisdiction of the Board with respect to the design and content of special education programs or related services for children with special needs extends to and over the Department of Human Resources and the Department of Correction.

All provisions of this Article that are specifically applicable to local school administrative units also are applicable to the Department of Human Resources and the Department of Correction and their divisions and agencies; all duties, responsibilities, rights and privileges specifically imposed on or granted to local school administrative units by this Article also are imposed on or granted to the Department of Human Resources and the Department of Correction and their divisions and agencies. However, with respect to children with special needs who are residents or patients of any State-operated or State-supported residential treatment facility, including without limitation, a school for the deaf, school for the blind, mental hospital or center, mental retardation center, or in a facility operated by the Department of Correction or any of its divisions and agencies, the Board shall have the power to contract with the Department of Human Resources and the Department of Correction for the provision of special education and related services and the power to review, revise and approve said departments' plans for special education and related services to those residents.

The Departments of Human Resources and Correction shall submit to the Board their plans for the education of children with special needs in their care, custody, or control. The Board shall have general supervision and shall set standards, by rule or regulation, for the programs of special education to be administered by it, by local educational agencies, and by the Departments of Human Resources and Correction. The Board may grant specific exemptions for programs administered by the Department of Human Resources or the Department of Correction when compliance by them with the Board's standards would, in the Board's judgment, impose undue hardship on such department and when other procedural due process requirements, substantially equivalent to those of G.S.115C-116, are assured in programs of special education and related services furnished to children with special needs served by such department. Further, the Board shall recognize that inpatient and residential special education programs within the Departments of Human Resources and Correction may require more program resources than those
necessary for optimal operation of such programs in local school administrative units.

Every State and local department, division, unit or agency covered by this section is hereinafter referred to as a ‘local educational agency’ unless the text of this Article otherwise provides.

(b) The Board shall make and keep current a plan for the implementation of the policy set forth in G.S. 115C-106(b). The plan shall include:

(1) A census of the children with special needs in the State, as required by subsection (j) of this section;
(2) A procedure for diagnosis and evaluation of each such child;
(3) An inventory of the personnel and facilities available to provide special education for such children;
(4) An analysis of the present distribution of responsibility for special education between State and local educational agencies, together with recommendations for any necessary or desirable changes in the distribution of responsibilities;
(5) Standards for the education of children with special needs;
(6) Programs and procedures for the development and implementation of a comprehensive system of personnel development; and
(7) Any additional matters, including recommendations for amendment of laws, changes in administrative regulations, rules and practices and patterns of special organization, and changes in levels and patterns of education financial support.

(c) The Board shall annually submit amendments to or revisions of the plan required by subsection (b) to the Governor and General Assembly and make it available for public comment pursuant to subdivision (1) and for public distribution no less than 30 days before January 15 of each year. All such submissions shall set forth in detail the progress made in the implementation of the plan.

(d) The Board shall adopt rules or regulations covering:

(1) The qualifications of and standards for certification of teachers, aides, speech clinicians, school psychologists, and others involved in the education and training of children with special needs;
(2) Minimum standards for the individualized education program for each child with special needs who receives special education or related services; and
(3) Such other rules or regulations as may be necessary or appropriate for carrying out the purposes of this Article. Representatives from the Departments of Human Resources and Correction shall be involved in the development of the standards outlined under this subsection.

(e) On or before October 15, each local educational agency shall report annually to the Board the extent to which it is then providing special education for children with special needs. The annual report also shall detail the means by which the local educational agency proposes to secure full compliance with the policy of this Article, including the following:

(1) A statement of the extent to which the required education and services will be provided directly by the agency;
(2) A statement of the extent to which standards in force pursuant to G.S. 115C-110(b)(5) and (d)(2) are being met by the agency; and
CHAPTER 423    Session Laws—1981

(3) The means by which the agency will contract to provide, at levels meeting standards in force pursuant to G.S. 115C-110(b)(5) and (d)(2), all special education and related services not provided directly by it or by the State.

(f) After submitting the report required by subsection (e), the local educational agency also shall submit such supplemental and additional reports as the Board may require to keep the local educational agency’s plan current.

(g) By rule or regulation, the Board shall prescribe due dates not later than October 15 of each year, and all other necessary or appropriate matters relating to such annual and supplemental and additional reports.

(h) The annual report shall be a two-year plan for providing appropriate special education and related services to children with special needs. The agency shall submit the plan to the Board for its review, approval, modification, or disapproval. Unless thereafter modified with approval of the Board, the plan shall be adhered to by the local educational agency. The procedure for approving, disapproving, establishing, and enforcing the plan shall be the same as that set forth for the annual plan. The long-range plan shall include such provisions as may be appropriate for the following, without limitation:

1. Establishment of classes, other programs of instruction, curricula, facilities, equipment, and special services for children with special needs; and

2. Utilization and professional development of teachers and other personnel working with children with special needs.

(i) Each local educational agency shall provide free appropriate special education and related services in accordance with the provisions of this Article for all children with special needs who are residents of, or whose parents or guardians are residents of, the agency’s district, beginning with children aged five. No matriculation or tuition fees or other fees or charges shall be required or asked of children with special needs or their parents or guardians except such fees or charges as are required uniformly of all public school pupils. The provision of free appropriate special education within the facilities of the Department of Human Resources shall not prevent that department from charging for other services or treatment.

(j) The Board shall require an annual census of children with special needs, subdivided for ‘identified’ and ‘suspected’ children with special needs, to be taken in each school year. The census shall be conducted annually and shall be completed not later than October 15, and shall be submitted to the Governor and General Assembly and be made available to the public no later than January 15 annually.

In taking the census, the Board shall require the cooperation, participation, and assistance of all local educational agencies and all other State and local governmental departments and agencies providing or required to provide special education services to children with special needs, and those departments and agencies shall cooperate and participate with and assist the Board in conducting the census.

The census shall include the number of children identified and suspected with special needs, their age, the nature of their disability, their county or city of residence, their local school administrative unit residence, whether they are being provided special educational or related services and if so by what department or agency, whether they are not being provided special education or
related services, the identity of each department or agency having children with special needs in its care, custody, management, jurisdiction, control, or programs, the number of children with special needs being served by each department or agency, and such other information or data as the Board shall require. The census shall be of children with special needs between the ages of three and 21, inclusive.

(k) The department shall monitor the effectiveness of individualized education programs in meeting the educational needs of children with special needs.

(l) The Board shall provide for procedures assuring that in carrying out the requirements of this Article procedures are established for consultation with individuals involved in or concerned with the education of children with special needs, including parents or guardians of such children, and there are public hearings, adequate notice of such hearings, and an opportunity for comment available to the general public prior to the adoption of the policies, procedures, and rules or regulations required by this Article.

(m) Children with special needs shall be educated in the least restrictive appropriate setting, as defined by the State Board of Education.

"Part 2. Nondiscrimination in Education.

"§ 115C-111. Free appropriate education for all children with special needs.—No child with special needs between the ages specified by G.S. 115C-109 shall be denied a free appropriate public education or be prevented from attending the public schools of the local educational agency in which he or his parents or legal guardian resides or from which he receives services or from attending any other public program of free appropriate public education because he is a child with special needs. If it appears that a child should receive a program of free appropriate public education in a program operated by or under the supervision of the Department of Human Resources, the local educational agency shall confer with the appropriate Department of Human Resources staff for their participation and determination of the appropriateness of placement in said program and development of the child's individualized education program. The individualized education program may then be challenged under the due process provisions of G.S. 115C-116. Every child with special needs shall be entitled to attend such nonresidential schools or programs and receive from them free appropriate public education.

"§ 115C-112. Disciplinary suspensions.—If:

(1) A local educational agency suspends or expels a child with special needs from a public school program for a period of more than 10 days or for consecutive periods that total more than 10 days either because he is or poses a risk of injury to himself or others or because he is or is threatening to disrupt substantially the education of others;

(2) The risk of injury or disruption of education of others for which the child was suspended or expelled was caused by the lack of proper medication, appropriate educational services or ambulatory services for the child; and

(3) The period of suspension or expulsion is one in which the child would be receiving special education or training in the unit but for the suspension or expulsion.

The agency, notwithstanding the suspension or expulsion, shall continue to provide the child with essential special education or related services during the
CHAPTER 423  Session Laws—1981

period of suspension or expulsion and the parents may appeal, under G.S. 115C-116, any suspension of more than 10 consecutive days. The expulsion or suspension of a child with special needs shall not be subject to the provisions of G.S. 115C-116, and there shall be no requirement for continued special education or related services if the risk of injury or disruption of education of others for which the child was suspended or expelled was not caused by the lack of proper medication, appropriate educational services or ambulatory services for the child. These limitations on suspension and expulsion shall not interfere with the authority of the Department of Human Resources to release or discharge patients and residents from its programs when the primary purpose of admission has been achieved or when it is no longer feasible or advisable to continue the patient or resident in residence.

“§ 115C-113. Diagnosis and evaluation; individualized education program.—
(a) Before taking any action described in subsection (b), below, each local educational agency shall cause a multi-disciplinary diagnosis and evaluation to be made of the child. The local educational agency shall use the diagnosis and evaluation to determine if the child has special needs, diagnose and evaluate those needs, propose special education programs to meet those needs, and provide or arrange to provide such programs. A multi-disciplinary diagnosis and evaluation is one which includes, without limitation, medical (if necessary), psychological (if necessary) and educational assessments and recommendations; such an evaluation may include any other assessments as the Board may, by rule or regulation, require.

All testing and evaluation materials and procedures utilized for the purposes of evaluation and placement of children with special needs will be selected and administered so as not to be racially or culturally discriminatory. Such materials or procedures shall be provided and administered in the child’s native language or mode of communication, unless it clearly is not feasible to do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

(b) An initial multi-disciplinary diagnosis and evaluation based on rules developed by the Board shall be made before any such child is placed in a special education program, removed from such a program and placed in a regular school program, transferred from one type of special education program to another, removed from a school program for placement in a nonschool program, or otherwise tracked, classified, or treated as a child with special needs.

(c) Referral of any child shall be in writing, signed by the person requesting diagnosis and evaluation, setting forth the reasons for the request; it shall be sent or delivered to the child’s teacher, the principal of the school to which the child is, has been or will be assigned, and the superintendent or other chief executive officer of the affected local educational agency.

Within 30 days of such referral, the local educational agency shall send a written notice to the parents or guardian describing the evaluation procedure to be followed and requesting consent for the evaluation. If the parents or guardian consent, the diagnosis and evaluation may be undertaken; if they do not, the local educational agency may obtain a due process hearing on the failure of the parent to consent under G.S. 115C-116.

The local educational agency shall provide or cause to be provided a diagnosis and evaluation appropriate to the needs of the child within 30 calendar days
after sending the notice unless the parents or guardian have objected to such evaluation. At the end of such diagnosis and evaluation, the local educational agency shall offer a proposal for an educational program appropriate to the child's needs. If this proposal calls for a special educational program, it shall set forth the specific benefits expected from such a program, a method for monitoring the benefits, and a statement regarding conditions which will be considered indicative of the child's readiness for participation in regular classes.

Within 12 months after placement in a special education program, and at least annually thereafter, those people responsible for developing the child's individualized education program shall evaluate the child's progress and, on the basis of previously stated expected benefits, decide whether to continue or discontinue the placement or program. If the reevaluation indicates that the placement or program does not benefit the child, the appropriate reassignment or alteration in the prescribed program shall be recommended to the parents or guardian and their consent requested.

The local educational agency shall keep a complete written record of all diagnostic and evaluation procedures attempted, their results, the conclusions reached, and the proposals made.

(d) The local educational agency shall furnish the results, findings, and proposals based on the diagnosis and evaluation to the parents or guardian in writing in the parents' or guardian's native language or by their dominant mode of communication, within 15 calendar days after the diagnosis and evaluation are completed. Within 20 days after the diagnosis and evaluation are completed, it shall cause a conference to be scheduled between one of its staff competent to interpret the report of the diagnosis and evaluation and the child's parents or guardian. The conference shall be held no later than 30 calendar days after the date it is scheduled. At the conference, the report shall be explained to the parents or guardian. The parents or guardian may waive the interpretive conference.

(e) Each local educational agency shall make and keep current a list of all children evaluated and diagnosed pursuant to this section who are found to have special needs and of all children who are receiving home, hospital, institutional or other special education services, including those being educated within the regular classroom setting or in other special education programs.

(f) Each local educational agency shall prepare an individualized educational program for each child found to be a child with special needs. The individualized educational program shall be developed in conformity with Public Law 94-142 and the implementing regulations issued by the United States Department of Education and shall be implemented in conformity with timelines set by that Department. The term 'individualized educational program' means a written statement for each such child developed in any meeting by a representative of the local educational agency who shall be qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of such children, the teacher, the parents or guardian of such child, and, whenever appropriate, such child, which statement shall be based on rules developed by the Board. Each local educational agency shall establish, or revise, whichever is appropriate, the individualized educational program of each child with special needs at the beginning of each school year and will then review and, if appropriate revise, its provisions periodically, but not less than annually. In the facilities and programs of the Department of
Human Resources, the individualized educational program shall be planned in
collaboration with those other individuals responsible for the design of the
total treatment or habilitation plan or both; the resulting educational,
treatment, and habilitation plans shall be coordinated, integrated, and
internally consistent.

"§ 115C-114. Records privacy and expunction.—(a) No local educational
agency may release to any persons other than the eligible student, his parents or
guardian or any surrogate parent any records, data or information on any child
with special needs except (i) as permitted by the prior written consent of the
student, his parents or guardian or surrogate parent, (ii) as required or
permitted by federal law, (iii) school officials within the local education agency
who have legitimate educational interest, (iv) school officials of other local
educational agencies in which the student intends to enroll, or (v) certain
authorized representatives of the State and federal government who are
determining eligibility of the child for aid, as provided under Public Law 93-380
or other federal law.

(b) The eligible student, his parents or guardian or surrogate parent shall
have the right to read, inspect and copy all and any records, data and
information maintained by a local educational agency with respect to the
student, and, upon their request, shall be entitled to have those records, data
and information fully explained, interpreted and analyzed for them by the staff
of the agency. The parent or guardian or surrogate parent may demand that his
request must be honored within not more than 45 days after it is made.

(c) The student, his parents or guardian or surrogate parent shall have the
right to add to the records, data and information written explanations or
clarifications thereof, and to cause the expunction of incorrect, outdated,
misleading or irrelevant entries. If a local educational agency refuses to expunge
incorrect, outdated, misleading or irrelevant entries after having been asked to
do so by the parent, such person may obtain a due process hearing, under G.S.
115C-116, on the agency’s refusal, and must request the hearing within 30 days
after the agency’s refusal.

"§ 115C-115. Placements in private schools, out-of-State schools and schools
in other local educational agencies.—The Board shall adopt rules and
regulations to assure that:

(1) There be no cost to the parents or guardian for the placement of a child in
a private school, out-of-State school or a school in other local educational
agencies if the child were so placed by the Board or by the appropriate local
educational agency as the means of carrying out the requirement of this Article
or any other applicable law requiring the provision of special education and
related services to children within the State.

(2) No child shall be placed by the Board or by the local educational agency in
a private or out-of-State school unless the Board has determined that the school
meets standards that apply to State and local educational agencies and that the
child so placed will have all the rights he would have if served by a State or
local educational agency.

(3) If the placement of the child in a private school, out-of-State school or a
school in another local educational agency determined by the Superintendent
of Public Instruction to be the most cost-effective way to provide an appropriate
education to that child and the child is not currently being educated by the
Department of Human Resources or the Department of Correction, the State

560
will bear a portion of the cost of the placement of the child. The local school administrative unit shall pay an amount equal to what it receives per pupil from the State Public School Fund and from other State and federal funds for children with special needs for that child. The State shall pay the full cost of any remainder up to a maximum of fifty percent (50%) of the total cost. The State and local educational agencies shall be excused from payment of the costs of special education and related services in a private school if a child is placed in that school by his parents or guardian against the advice of the State or a local educational agency.

"Part 3. Appeals.

§115C-116. Exceptional children special program dissatisfaction with assignment; right to appeal.—(a) Right of Appeal.—A child, his parent, his guardian, or his surrogate parent, in the case of a child whose parent or guardian is unknown or unavailable or in the case of a child who is a ward of the State, may obtain review as herein provided of an action or omission by State or local authorities on the ground that the child has been or is about to be:

(1) Denied entry or continuance in a program appropriate to his condition and needs;
(2) Placed in a program which is inappropriate, unsuitable, or inadequate to his condition and needs; or
(3) Assigned to a special program when he is not a child with special need.

(b) The parent or guardian of a child placed or denied placement in a program shall be notified promptly, via parent or guardian conference, or by registered or certified mail, return receipt requested, of his placement, denial or impending placement or denial. Such notice shall contain a statement informing the parent or guardian that he is entitled to review of the determination and of the procedure for obtaining such review. The notice shall contain information that a hearing may be had before the local school board for educational matters or the Advocacy Council for Human Resource matters, upon written request, no less than 15 days nor more than 30 days from the date on which the notice was received. The parent or guardian of a child may, upon written request, not more than 30 days from the date of a decision, appeal said decision to the Superintendent of Public Instruction or the Secretary of Human Resources. Any appeal of these decisions to the General Court of Justice must occur within 30 days after notice of such decision.

(c) A surrogate parent may not be an employee of the State or any local government educational or human resources agency responsible for or involved in the education or care of the child. In the case of an appeal from action or omission by the State or local government education agency the surrogate parent shall be appointed from a group of people selected by the Superintendent of Public Instruction, and in the case of an appeal from an action or omission by the State or a local government human resources agency, from a group of people selected by the Secretary of the Department of Human Resources. Both the Superintendent and the Secretary shall upon ratification of this subsection establish procedures, pursuant to their powers under subsection (g) of this section, to ensure that every child in need of a surrogate parent is provided with one. The surrogate parent shall represent the child in the appeal and subsequent proceedings arising therefrom.

(d) All hearings shall be closed unless otherwise requested by the parent or guardian of a child.
(e) Ordinarily no change in the program assignment or status of a child with special needs shall be made within the period afforded the parent or guardian to request a hearing, except that such change may be made with the written consent of the parent or guardian. However, if the health or safety of the child or any other individual would be endangered by delaying the change in assignment, the change may be made sooner without prejudice to any rights that the child and his parent or guardian may have pursuant to this section or otherwise pursuant to law.

(f) The parent or guardian shall have access to any reports, records, clinical evaluations or other materials upon which the determination to be reviewed was wholly or partially based or which could reasonably have a bearing on the correctness of the determination. At any hearing held pursuant to this section, the child and his parent or guardian shall be entitled to examine and cross-examine witnesses, to introduce evidence, to appear in person, and to be represented by counsel.

(g) The Superintendent and the Secretary shall make, amend or revise rules and regulations for the conduct of hearings authorized by this section and otherwise for the implementation of its purpose. Among other things, such rules and regulations shall allow the appointment of a hearing officer or board to hear such cases as may be appealed. Copies of such rules shall be filed in the office of the Attorney General as required by Chapter 150A.

(h) The determination of the appeal shall be subject to judicial review in the manner provided for in Article 4, Chapter 150A of the General Statutes.

(i) The remedies provided by this section are in addition to any other remedies which a child, his parent or guardian may otherwise have pursuant to law.

“Part 4. Regional Educational Training Center.

“§ 115C-117. Creation.—There is hereby established within the Department of Public Instruction a system of Regional Educational Training Centers. Said centers shall be equitably distributed across the State as shall be determined by the Superintendent, but such centers shall be located in reasonable proximity to one of the developmental evaluation centers operated by the Department of Human Resources.

“§ 115C-118. Functions.—The centers shall have the following functions:

1) To provide in-service training to all special education teachers and other professionals as defined by the Superintendent.

2) To develop in kindergarten and primary grade teachers the necessary skills to detect potential special educational needs and the capability to plan special educational programs.

3) To provide in-service training and consultative services to a parent or guardian of a child with special needs and to appropriate public school administrative and management personnel.

4) To work in concert with the various local human resources agencies to the end that multiple and duplicative services provided at various times and by various agencies of the State may be obviated.

5) To conduct an in-depth evaluation of the impact of in-service training on the delivery of services to children with special needs within the public schools on an annual basis in compliance with such rules and regulations as the Superintendent may promulgate.
"§ 115C-119. Organization of centers.—Employees of the centers shall be employees of the Department of Public Instruction appointed by the Superintendent subject to the approval of the State Board. Employees of those centers now in place and operational shall be employees of the Department, and those centers now in place and operational shall fulfill the functions set forth for new centers.

"§ 115C-120. Rules and regulations.—The Superintendent shall develop and promulgate appropriate rules and regulations for the operation of the centers subject to the approval of the State Board. Such rules and regulations shall prescribe the precise operational responsibility of the centers and shall include a description of the operational relationship that shall exist with the various local human resources agencies.

"Part 5. Council on Educational Services

for Exceptional Children.

"§ 115C-121. Establishment; organization; powers and duties.—(a) There is hereby established an Advisory Council to the State Board of Education to be called the Council on Educational Services for Exceptional Children.

(b) The Council shall consist of 17 members to be appointed as follows: two members appointed by the Governor; two members of the Senate appointed by the Lieutenant Governor; two members of the House of Representatives appointed by the Speaker of the House; and 11 members appointed by the State Board of Education. Of those members of the Council appointed by the State Board one member shall be selected from each congressional district within the State, and the members so selected shall be composed of at least one person representing each of the following: handicapped individuals, parents or guardians of children with special needs, teachers of children with special needs, and State and local education officials and administrators of programs for children with special needs. The Council shall designate a chairperson from among its members. The designation of the chairperson is subject to the approval of the State Board of Education. The board shall promulgate rules or regulations to carry out this subsection.

Ex officio members of the Council shall be the following:

(1) The Secretary of the Department of Human Resources or the Secretary's designee;

(2) The Secretary of the Department of Correction or the Secretary's designee;

(3) A representative from The University of North Carolina Planning Consortium for Children with Special Needs; and

(4) The Superintendent of Public Instruction or the Superintendent's designee.

The term of appointment for all members except those appointed by the State Board of Education shall be for two years. The term for members appointed by the State Board of Education shall be for four years. No person shall serve more than two consecutive four-year terms.

Each Council member shall serve without pay, but shall receive travel allowances and per diem in the same amount provided for members of the North Carolina General Assembly.

(c) The Council shall meet in offices provided by the Department of Public Instruction on a date to be agreed upon by the members of the Council from meeting to meeting: Provided, however, that the Council shall meet no less
CHAPTER 423 Session Laws—1981

than once every three months. The Department of Public Instruction shall provide the necessary secretarial and clerical staff and supplies to accomplish the objectives of the Council.

(d) The duties of the Council shall be to:

(1) Advise the Board with respect to unmet needs within the State in the education of children with special needs, as defined in this Chapter.
(2) Comment publicly on rules and regulations proposed for issuance by the Board regarding special education and related services and the procedures for issuing State and federal funds for special education and related services.
(3) Assist the Board in developing and reporting such data and evaluations as may assist the Commissioner of Education in the performance of his duties under Part B, Education of the Handicapped Act, as amended by Public Law 94-142.
(4) Comment publicly on State special education plans developed pursuant to Public Law 94-142 and State law.

"§ 115C-122. Early childhood development program; evaluation and placement of children.—The General Assembly of North Carolina declares that the public policy of North Carolina is defined as follows to carry out the policies stated in G.S. 115C-106:

(1) The State shall provide for a comprehensive early childhood development program by emphasizing preventative and remedial measures designed to provide the services which will enable children to develop to the maximum level their physical, mental, social, and emotional potentials and to strengthen the role of the family as the first and most fundamental influence on child development. The General Assembly finds that the complexity of early childhood development precludes the enactment of legislation which is of a sufficiently comprehensive nature to encompass all possible implications. The Departments of Public Instruction and Human Resources shall, therefore, jointly develop an early childhood development program plan with flexibility sufficient to meet the State's policy as set forth in this subdivision. Said plan shall provide for the operation of a statewide early childhood development program no later than June 30, 1983.

(2) The State requires a system of educational opportunities for all children with special needs and requires the identification and evaluation of the needs of children and the adequacy of various education programs before placement of children, and shall provide for periodic evaluation of the benefits of programs to the individual child and the nature of the child's needs thereafter.

(3) The State shall prevent denial of equal educational and service opportunity on the basis of national origin, sex, economic status, race, religion, and physical, mental, social or emotional handicap in the provision of services to any child. Each local school administrative unit shall develop program plans to meet the educational requirements of children with special needs and each local human resources agency shall develop program plans to meet the human service requirements of children with special needs in accordance with program standards and in a planning format as shall be prescribed by the State Board of Education and the Department of Human Resources respectively.

The General Assembly intends that the educational program and human service program requirements of Session Laws 1973, Chapter 1293, shall be
realized no later than June 30, 1982. The General Assembly further intends that currently imposed barriers to educational and human service opportunities for children with special needs by reason of a single standardized test, income, federal regulations, conflicting statutes, or any other barriers are hereby abrogated; except that with respect to barriers caused by reason of income, it shall be permissible for the State or any local education agency or local human resources agency to charge fees for special services rendered, or special materials furnished to a child with special needs, his parents, guardian or persons standing in loco parentis unless the imposition of such fees would prevent or substantially deter the child, his parents, guardian, or persons standing in loco parentis from availing themselves of or receiving such services or materials.

(4) It is recognized that children have a variety of characteristics and needs, all of which must be considered if the potential of each child is to be realized; that in order to accomplish this the State must develop a full range of service and education programs, and that a program must actually benefit a child or be designed to benefit a particular child in order to provide such child with appropriate educational and service opportunities. The General Assembly requires that all programs employ least restrictive alternatives as shall be defined by the Departments of Public Instruction and Human Resources.

"Part 7. State Schools for Hearing-Impaired Children.

"§ 115C-123. Incorporation; operation.—There are hereby established, and there shall be maintained, schools for the deaf of this State which shall be a corporation under the corporate names of the Central North Carolina School for the Deaf at Greensboro, the Eastern North Carolina School for the Deaf at Wilson and the Western North Carolina School for the Deaf at Morganton. The Department of Human Resources shall be the governing body of the schools.

The Board of Directors of the North Carolina Schools for the Deaf shall advise the Department and shall adopt rules and regulations concerning the schools as provided in G.S. 115C-124 and G.S. 143B-173.

"§ 115C-124. Pupils admitted; education.—The Department of Human Resources shall according to such reasonable regulations as the Board of Directors may prescribe, on application, receive into the schools for the purposes of education all deaf children resident of the State who are between the ages of five and 18 years: Provided, that the Department of Human Resources may admit students who are not within the age limits set forth above when in its judgment, such admission will be in the best interests of the applicant and the facilities of the school permit such admission. Only those who are bona fide citizens or residents of North Carolina shall be eligible to and entitled to receive free tuition and maintenance. The Department may fix charges and the Board of Directors may prescribe rules whereby nonresident deaf children may be admitted, but in no event shall the admission of nonresidents in any way prevent the attendance of any eligible deaf child, resident of North Carolina. The Department shall provide for the instruction of all pupils in the branches of study now prescribed by law for the public schools of the State and in such other branches as may be of special benefit to the deaf.

The Department shall encourage the State to provide the classrooms with modern auditory training equipment, audiovisual media equipment, and any other special equipment to provide the best educational conditions for the deaf. The Department shall provide a teacher training program in the State. The Department shall provide for a comprehensive vocational and technical
training program for boys and girls as may be useful to them in making themselves self-supporting.

"§115C-125. Free textbooks and State purchase and rental system.—The Schools for the Deaf shall have the right and privilege of participating in the distribution of free textbooks and in the purchase and rental system operated by the State of North Carolina in the same manner as any other public school in the State.

"§115C-126. Agreements with local governing authorities.—The Department is authorized to make such agreements with the governing authority of any municipality, or of any county, as may be mutually agreed upon, to promote convenience and economy for joint water supply, lighted areas, use of sewage facilities, or any other utilities or facilities that may be necessary and as may be agreed upon.

"§115C-127. Incorporation name and management.—The institution for the education of the blind, located in the City of Raleigh, shall be a corporation under the name and style of the Governor Morehead School, and shall be under the management of the Department of Human Resources and the director of the school.

"§115C-128. "Supporting Services

"§ 115C-239. Authority of local boards of education.—Each local board of education is hereby authorized, but is not required, to acquire, own and operate school buses for the transportation of pupils enrolled in the public schools of such local school administrative unit and of persons employed in the operation of such schools within the limitations set forth in G.S. 115C-239 to 115C-246, 115C-248 to 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261. Boards of education which own and operate school buses for the transportation of pupils shall have authority to establish separate systems of transportation for pupils attending elementary schools and for pupils attending junior or senior high schools. Each such board may operate such buses to and from such of the schools within the local school administrative unit, and in such number, as the board shall from time to time find practicable and appropriate for the safe, orderly and efficient transportation of such pupils and employees to such schools.

"§ 115C-240. Authority and duties of State Board of Education.—(a) The State Board of Education shall have no authority over or control of the transportation of pupils and employees upon any school bus owned and operated by any local board of education, except as provided in G.S. 115C-239 to 115C-246, 115C-248 to 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261.

(b) The State Board of Education shall be under no duty to supply transportation to any pupil or employee enrolled or employed in any school. Neither the State nor the State Board of Education shall in any manner be liable for the failure or refusal of any local board of education to furnish transportation, by school bus or otherwise, to any pupil or employee of any
school, or for any neglect or action of any county or city board of education, or any employee of any such board, in the operation or maintenance of any school bus.

c) The State Board of Education shall from time to time adopt such rules and regulations with reference to the construction, equipment, color, and maintenance of school buses, the number of pupils who may be permitted to ride at the same time upon any bus, and the age and qualifications of drivers of school buses as it shall deem to be desirable for the purpose of promoting safety in the operation of school buses. No school bus shall be operated for the transportation of pupils unless such bus is constructed and maintained as prescribed in such regulations and is equipped with adequate heating facilities, a standard signaling device for giving due notice that the bus is about to make a turn, an alternating flashing stoplight on the front of the bus, an alternating flashing stoplight on the rear of the bus, and such other warning devices, fire protective equipment and first aid supplies as may be prescribed for installation upon such buses by the regulation of the State Board of Education.

d) The State Board of Education shall, when requested so to do by any local board of education, but not otherwise, advise such local board with reference to the establishment and amendment of school bus routes, the acquisition and maintenance of school buses, or any other question which may arise in connection with the organization and operation of the school bus transportation system of such local board.

e) The State Board of Education shall allocate to the respective local boards of education all funds appropriated from time to time by the General Assembly for the purpose of providing transportation to the pupils enrolled in the public schools within this State. All such funds shall be allocated by the State Board of Education in accordance with the number of pupils to be transported, the length of bus routes, road conditions and all other circumstances affecting the cost of the transportation of pupils by school bus to the end that the funds so appropriated may be allocated on a fair and equitable basis, according to the needs of the respective local school administrative units and so as to provide the most efficient use of such funds. Such allocation shall be made by the State Board of Education at the beginning of each fiscal year, except that the State Board may reserve for future allocation from time to time within such fiscal year as the need therefor shall be found to exist, a reasonable amount not to exceed ten percent (10%) of the total funds available for transportation in such fiscal year from such appropriation.

f) Upon such allocation by the State Board of Education, all funds so appropriated by the General Assembly shall be paid over to the respective local boards of education in accordance with such allocation in equal monthly installments throughout the regular school year: Provided, however, that upon the request of a local board of education, the State Board of Education may, in its discretion, pay over to the local board all or any part of any or all monthly installments prior to the time when the same would otherwise be payable. The respective local boards shall use such funds for the purposes of replacing, maintaining, insuring, and operating public school buses and service vehicles in accordance with the provisions of G.S. 115C-239 to 115C-246, 115C-248 to 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261, and for no other purpose, but in the making of expenditures for such purposes shall be subject to no control by the State Board of Education.
"§ 115C-241. Assignment of school buses to schools.—The superintendent of the schools of each local school administrative unit which shall elect to operate a school bus transportation system, shall, prior to the commencement of each regular school year and subject to the approval of the local board of education, allocate and assign to the respective public schools within the jurisdiction of such local school administrative unit the school buses which the local board shall own and direct to be operated during such school year. From time to time during such school year, subject to the directions of the local board of education, the superintendent may revise such allocation and assignment of school buses in accordance with the changing transportation needs and conditions at the respective schools of such local school administrative unit, and may, pursuant to such revision, assign an additional bus or buses to a school or withdraw a bus or buses from a school in such local school administrative unit.

"§ 115C-242. Use and operation of school buses.—Public school buses may be used for the following purposes only, and it shall be the duty of the superintendent of the school of each local school administrative unit to supervise the use of all school buses operated by such local school administrative unit so as to assure and require compliance with this section:

(1) A school bus may be used for the transportation of pupils enrolled in and employees in the operation of the school to which such bus is assigned by the superintendent of the local school administrative unit. Except as otherwise herein provided, such transportation shall be limited to transportation to and from such school for the regularly organized school day, and from and to the points designated by the principal of the school to which such bus is assigned, for the receiving and discharging of passengers. No pupil or employee shall be so transported upon any bus other than the bus to which such pupil or employee has been assigned pursuant to the provisions of G.S. 115C-239 to 115C-246, 115C-248 to 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261: Provided, that children enrolled in a Headstart program which is housed in a building owned and operated by a local school administrative unit where school is being conducted may be transported on public school buses, so long as the contractual arrangements made cause no extra expense to the State: Provided further, that children with special needs may be transported to and from the nearest appropriate private school having a special education program approved by the State Board of Education if the children to be transported are or have been placed in that program by a local school administrative unit as a result of the State or the unit's duty to provide such children with a free appropriate public education.

(2) In the case of illness or injury requiring immediate medical attention of any pupil or employee while such pupil or employee is present at the school in which such pupil is enrolled or such employee is employed, the principal of such school may, in his discretion, permit such pupil or employee to be transported by a school bus to a doctor or hospital for medical treatment, and may, in his discretion, permit such other person as he may select to accompany such pupil.

(3) The board of education of any local school administrative unit may operate the school buses of such unit one day prior to the opening of the regular school term for the transportation of pupils and employees to and from the school to which such pupils are assigned or in which they are enrolled and such employees are employed, for the purposes of the registration of students, the organization of classes, the distribution of textbooks, and such other purposes as
will, in the opinion of the superintendent of the schools of such unit, promote the efficient organization and operation of such public schools.

(4) A local board of education which elects to operate a school bus transportation system, shall not be required to provide transportation for any school employee, nor shall such board be required to provide transportation for any pupil living within one and one half miles of the school in which such pupil is enrolled.

(5) Local boards of education, under such rules and regulations as they shall adopt, may permit the use and operation of school buses for the transportation of pupils and instructional personnel as the board deems necessary to serve the instructional programs of the schools. Included in the use permitted by this section is the transportation of children with special needs, such as mentally retarded children and children with physical defects, and children enrolled in programs that require transportation from the school grounds during the school day, such as special vocational or occupational programs. On any such trip, a city or county-owned school bus shall not be taken out of the State.

If State funds are inadequate to pay for the transportation approved by the local board of education, local funds may be used for these purposes. Local boards of education shall determine that funds are available to such boards for the transportation of children to and from the school to which they are assigned for the entire school year before authorizing the use and operation of school buses for other services deemed necessary to serve the instructional program of the schools.

Children with special needs may be transported to and from the nearest appropriate private school having a special education program approved by the State Board of Education if the children to be transported have been placed in that program by a local school administrative unit as a result of the State or the unit’s duty to provide such children with a free appropriate public education.

(6) School buses owned by a local board of education may be used for Civil Preparedness purposes in any state of disaster or local state of emergency declared under Chapter 166A of the General Statutes. Under rules and regulations adopted by a local board of education, its school buses may be used with its permission for the purpose of testing civil preparedness plans; however, neither the State Board of Education nor the local board of education shall be liable for the operating cost, any compensation claims or any tort claims resulting from the test.

(7) Uses authorized by G.S. 115C-243.

"§ 115C-243. Use of school buses by senior citizen groups.—(a) Any local board of education may enter into agreements with the governing body of any county, city, or town, or with any State agency, or any agency established or identified pursuant to Public Law 89-73, Older Americans Act of 1965, to provide for the use of school buses to provide transportation for the elderly.

(b) Each agreement entered into under this section must provide the following:

(1) That the board of education shall be reimbursed in full for the proportionate share of any and all costs, both fixed and variable, of such buses attributable to the uses of the bus pursuant to the agreement.

(2) That the board of education shall be held harmless from any and all liability by virtue of uses of the buses pursuant to the agreement.
(3) That adequate liability insurance is maintained under G.S. 115C-42 to insure the board of education, and that adequate insurance is maintained to protect the property of the board of education. The minimum limit of liability insurance shall not be less than the maximum amount of damages which may be awarded under the Tort Claims Act, G.S. 143-291. The costs of said insurance shall be paid by the agency contracting for the use of the bus, either directly or through the fee established by the agreement.

(c) Before any board of education shall enter into any agreement under this section, it must by resolution establish a policy for use of school buses by the elderly. The policy must give first priority to school uses under G.S. 115C-242 and G.S. 115C-42. The resolution must provide for a schedule of charges under this section. Such resolution, if adopted, shall be amended or readopted at least once per year to provide for adjustments to the schedule of charges or to provide for maintaining the same schedule of charges. If the price bid for the service by a private bus carrier is less than the schedule of charges adopted by the board of education, then the board of education may not enter into the agreement.

(d) No board of education shall be under any duty to sign any agreement under this section.

(e) No bus operated under the provisions of this section shall travel outside of the area consisting of the county or counties where the local board of education is located and the county or counties contiguous to that county or counties, but not outside of the State of North Carolina.

(f) Before any agreement under this section may be signed, the State Board of Education shall adopt a uniform schedule of charges for the use of buses under this section. Such schedule must be approved by the Advisory Budget Commission before becoming effective. Such schedule shall include a charge by the hour and by the mile which shall cover all costs both fixed and variable, including depreciation, gasoline, fuel, labor, maintenance, and insurance. The schedule may be amended by the State Board of Education with the concurrence of the Advisory Budget Commission. The schedule of charges adopted by the local board of education under subsection (c) may vary from the State schedule only to cover changes in wages.

§ 115C-244. Assignment of pupils to school buses.——(a) The principal of a school, to which any school bus has been assigned by the superintendent of the schools of the local school administrative unit embracing such school, shall assign to such bus or buses the pupils and employees who may be transported to and from such school upon such bus or buses. No pupil or employee shall be permitted to ride upon any school bus to which such pupil or employee has not been so assigned by the principal, except by the express direction of the principal.

(b) In the event that the superintendent of any local school administrative unit shall assign a school bus to be used in the transportation of pupils to two or more schools, the superintendent shall designate the number of pupils to be transported to and from each such school by such bus, and the principals of the respective schools shall assign pupils to such buses in accordance with such designation.

(c) Any pupil enrolled in any school, or the parent or guardian of any such pupil, or the person standing in loco parentis to such pupil, may apply to the principal of such school for transportation of such pupil to and from such school
CHAPTER 423    Session Laws—1981

by school bus for the regularly organized school day. The principal thereupon shall assign such pupil to a school bus serving the bus route upon which such pupil lives, if any, and if such pupil is entitled to ride upon such bus in accordance with the provisions of G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261 and the regulations of the State Board of Education herein provided for. Such assignment shall be made by the principal so as to provide for the orderly, safe and efficient transportation of pupils to such school and so as to promote the orderly and efficient administration of the school and the health, safety and general welfare of the pupils to be so transported. Assignments of pupils and employees to school buses may be changed by the principal of the school as he may from time to time find proper for the safe and efficient transportation of such pupils and employees.

(d) The parent or guardian of any pupil enrolled in any school, or the person standing in loco parentis to any such pupil, who shall apply to the principal of such school for the transportation of such pupil to and from such school by school bus, may, if such application is denied, or if such pupil is assigned to a school bus not satisfactory to such parent, guardian, or person standing in loco parentis to such pupil, pursuant to rules and regulations established by the local board of education, apply to such board for such transportation upon a school bus designated in such application, and shall be entitled to a prompt and fair hearing by such board in accordance with the rules and regulations established by it. The majority of such board shall be a quorum for the purpose of holding such hearing and passing upon such application, and the decision of the majority of the members present at such hearing shall be the decision of the board. If, at such hearing, the board shall find that pupil is entitled to be transported to and from such school upon the school bus designated in such application, or if the board shall find that the transportation of such pupil upon such bus to and from such school will be for the best interests of such pupil, will not interfere with the proper administration of such school, or with the safe and efficient transportation by school bus of other pupils enrolled in such school and will not endanger the health or safety of the children there enrolled, the board shall direct that such child be assigned to and transported to such school upon such bus.

(e) A final decision of the local board of education pursuant to G.S. 115C-244(d) shall be subject to judicial review in the manner provided by Article 4, Chapter 150A of the General Statutes: Provided, notwithstanding the provisions of G.S. 150A-45, a person seeking judicial review under this section shall not appeal the final decision of the local board of education to any State board, but shall file a petition for review in the superior court of the county where the final decision of the local board of education was made. If the court determines that the final decision of the local board of education should be set aside, then the court, notwithstanding the provisions of G.S. 150A-51, may enter an order so providing and adjudging that such child is entitled to the school bus assignment as claimed by the appellant, or such other school bus assignment as the court may find such child is entitled to, and in such case such child shall be assigned to such school bus by the local board of education concerned.

(f) No employee shall be assigned to or permitted to ride upon a school bus when to do so will result in the overcrowding of such bus or will prevent the
assignment to such bus of a pupil entitled to ride thereon, or will otherwise, in the opinion of the principal, be detrimental to the comfort or safety of the pupils assigned to such bus, or to the safe, efficient and proper operation of such bus.

“§ 115C-245. School bus drivers monitors; safety assistants.—(a) Each local board, which elects to operate a school bus transportation system, shall employ the necessary drivers for such school buses. The drivers shall have all qualifications prescribed by the regulations of the State Board of Education herein provided for and must have at least six months driving experience as a licensed operator of a motor vehicle before employment as a regular or substitute driver, but the selection and employment of each driver shall be made by the local board of education, and the driver shall be the employee of such local school administrative unit. Each local board of education shall assign the bus drivers employed by it to the respective schools within the jurisdiction of such board, and the principal of each such school shall assign the drivers to the school buses to be driven by them. No school bus shall at any time be driven or operated by any person other than the bus driver assigned by such principal to such bus except by the express direction of such principal or in accordance with rules and regulations of the appropriate local board of education.

(b) The driver of a school bus subject to the direction of the principal shall have complete authority over and responsibility for the operation of the bus and the maintaining of good order and conduct upon such bus, and shall report promptly to the principal any misconduct upon such bus or disregard or violation of the driver’s instructions by any person riding upon such bus. The principal may take such action with reference to any such misconduct upon a school bus, or any violation of the instructions of the driver, as he might take if such misconduct or violation had occurred upon the grounds of the school.

(c) The driver of any school bus shall permit no person to ride upon such bus except pupils or school employees assigned thereto or persons permitted by the express direction of the principal to ride thereon.

(d) The principal of a school, to which a school bus has been assigned, may, in his discretion, appoint a monitor for any bus so assigned to such school. It shall be the duty of such monitor, subject to the direction of the driver of the bus, to preserve order upon the bus and do such other things as may be appropriate for the safety of the pupils and employees assigned to such bus while boarding such bus, alighting therefrom or being transported thereon, and to require such pupils and employees to conform to the rules and regulations established by the local board of education for the safety of pupils and employees upon school buses. Such monitors shall be unpaid volunteers who shall serve at the pleasure of the principal.

(e) A local board of education may, in its discretion within funds available, employ transportation safety assistants upon recommendation of the principal through the superintendent. The safety assistants thus employed shall assist the bus drivers with the safety, movement, management, and care of children boarding the bus, leaving the bus, or being transported in it. The safety assistant should be either an adult or a certified student driver who is available as a substitute bus driver.

“§ 115C-246. School bus routes.—(a) The principal of the school to which a school bus has been assigned shall, prior to the commencement of each regular school year, prepare and submit to the superintendent of the local school
administrative unit a plan for a definite route, including stops for receiving and discharging pupils, for each school bus assigned to such school so as to assure the most efficient use of such bus and the safety and convenience of the pupils assigned thereto. The superintendent shall examine such plan and may, in his discretion, obtain the advice of the State Board of Education with reference thereto. The superintendent shall make such changes in the proposed bus routes as he shall deem proper for the said purposes and, thereupon, shall approve the route. When so approved the buses shall be operated upon the route so established and not otherwise, except as provided in G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261. From time to time the principal may suggest changes in any such bus route as he shall deem proper for the said purposes, and the same shall be effective when approved by the superintendent of the local school administrative unit.

(b) Unless road or other conditions shall make it inadvisable to do so, public school buses shall be so routed on state-maintained highways that the school bus, to which such pupil is assigned, shall pass within one mile of the residence of each pupil, who lives one and one half miles or more from the school to which such pupil is assigned.

(c) All bus routes when established pursuant to this section shall be filed in the office of the board of education of the local school administrative unit, and all changes made therein shall be filed in the office of such board within 10 days after such change shall become effective.

(d) If any school bus route established or changed as hereinabove provided is unsatisfactory to the district school committee, the committee may request the board of education of the local school administrative unit to make such change in such route as the committee desires. In the event, the board of education shall hear the request of the district school committee and shall make such change, if any, in such route as to the board shall seem advisable so as to assure the most efficient use of such bus and the safety and convenience of the pupils assigned thereto.

(e) No provision of G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261 shall be construed to place upon the State, or upon any county or city, any duty to supply any funds for the transportation of pupils, or any duty to supply funds for the transportation of pupils who live within the corporate limits of the city or town in which is located the public school in which such pupil is enrolled or to which such pupil is assigned, even though transportation to or from such school is furnished to pupils who live outside the limits of such city or town.

“§ 115C-247. Purchase of activity buses by local boards.—The several local boards of education in the State are hereby authorized and empowered to take title to school buses purchased with local or community funds for the purpose of transporting pupils to and from athletic events and for other local school activity purposes, and commonly referred to as activity buses. The provisions of G.S. 115C-42 shall be fully applicable to the ownership and operation of such activity school buses. Activity buses may also be used as provided in G.S. 115C-243.

“§ 115C-248. Inspection of school buses and activity buses; report of defects by drivers; discontinuing use until defects remedied.—(a) The superintendent of each local school administrative unit, shall cause each school bus owned or
operated by such local school administrative unit to be inspected at least once each 30 days during the school year for mechanical defects, or other defects which may affect the safe operation of such bus. A report of such inspection, together with the recommendations of the person making the inspection, shall be filed promptly in the office of the superintendent of such local school administrative unit, and a copy thereof shall be forwarded to the principal of the school to which such bus is assigned.

(b) It shall be the duty of the driver of each school bus to report promptly to the principal of the school, to which such bus is assigned, any mechanical defect or other defect which may affect the safe operation of the bus when such defect comes to the attention of the driver, and the principal shall thereupon report such defect to the superintendent of the local school administrative unit. It shall be the duty of the superintendent of the local school administrative unit to cause any and all such defects to be corrected promptly.

(c) If any school bus is found by the principal of the school, to which it is assigned, or by the superintendent of the local school administrative unit, to be so defective that the bus may not be operated with reasonable safety, it shall be the duty of such principal or superintendent to cause the use of such bus to be discontinued until such defect is remedied, in which event the principal of the school, to which such bus is assigned, may permit the use of a different bus assigned to such school in the transportation of the pupils and employees assigned to the bus found to be defective.

(d) The superintendent of each local school administrative unit, shall cause each activity bus which is used for the transportation of students by such local school administrative unit or any public school system therein to be inspected for mechanical defects, or other defects which may affect the safe operation of such activity bus, at the same time and in the same way and manner as the regular public school buses for the normal transportation of public school pupils are inspected. A report of such inspection, together with the recommendations of the person making the inspection, shall be filed with the principal of the school which uses and operates such activity bus and a copy shall be forwarded to the superintendent of the local school administrative unit involved. It shall be the duty of the driver of each activity bus to make the same reports to the principal of the school using and operating such activity bus as is required by this section. If any public school activity bus is found to be so defective that the activity bus may not be operated with reasonable safety, it shall be the duty of such principal to cause the use of such activity bus to be discontinued until such defect is remedied to the satisfaction of the person making the inspection and a report to this effect has been filed in the manner herein prescribed. Nothing in this subsection shall authorize the use of State funds for the purchase, operation or repair of any activity bus.

"§ 115C-249. Purchase and maintenance of school buses, materials and supplies.—(a) To the extent that the funds shall be made available to it for such purpose, a local board of education is authorized to purchase from time to time such additional school buses and service vehicles or replacements for school buses and service vehicles, as may be deemed by such board to be necessary for the safe and efficient transportation of pupils enrolled in the schools within such local school administrative unit. Any school bus so purchased shall be constructed and equipped as prescribed by the provisions of G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and
CHAPTER 423  Session Laws—1981

115C-256 to 115C-261 and by the regulations of the State Board of Education issued pursuant thereto.

(b) The tax-levying authorities of any county are hereby authorized to make provision from time to time in the capital outlay budget of the county for the purchase of such school buses or service vehicles.

(c) Any funds appropriated from time to time by the General Assembly for the purchase of school buses or service vehicles shall be allocated by the State Board of Education to the respective local boards of education in accordance with the requirements of such boards as determined by the State Board of Education, and thereupon shall be paid over to the respective local boards of education in accordance with such allocation.

(d) The title to any additional or replacement school bus or service vehicle purchased pursuant to the provisions of this section, shall be taken in the name of the board of education of such local school administrative unit, and such bus shall in all respects be maintained and operated pursuant to the provisions of G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261 in the same manner as any other public school bus.

(e) It shall be the duty of the county board of education to provide adequate buildings and equipment for the storage and maintenance of all school buses and service vehicles owned or operated by the board of education of any local school administrative unit in such county. It shall be the duty of the tax-levying authorities of such county to provide in its capital outlay budget for the construction or acquisition of such buildings and equipment as may be required for this purpose.

(f) In the event of the damage or destruction of any school bus or service vehicle by fire, collision, or otherwise, the board of education of the local school administrative unit which shall own or operate such bus or service vehicle may apply to the State Board of Education for funds with which to replace it. If the State Board of Education finds that such bus or service vehicle has been destroyed or damaged to the extent that it cannot be made suitable for further use, and if the State Board of Education finds that the replacement of such bus or service vehicle is necessary in order to enable such local school administrative unit to operate properly its school bus transportation system, the State Board of Education shall allot to the board of education of such local school administrative unit from the funds now held by the State Board of Education for the replacement of school buses or service vehicles, or from funds hereafter appropriated by the General Assembly for that purpose, a sum sufficient to purchase a new school bus or service vehicle to be used as a replacement for such damaged or destroyed bus or service vehicle and upon such allocation such sum shall be paid over to or for the account of the board of education of such local school administrative unit for such purpose.

(g) All school buses or service vehicles purchased by or for the account of any local board of education, except school buses or service vehicles purchased by such board from another local board of education of this State, shall be purchased through the Department of Administration.

(h) Appropriations made in the biennial Budget Appropriation Act for the purchase of public school buses shall be permanent appropriations, and unexpended portions of those appropriations shall not revert to the General Fund at the end of the biennium for which appropriated. Any unexpended
portion of those appropriations shall at the end of each fiscal year be transferred to a reserve account and shall be held, together with any other funds appropriated for the purpose, for the purchase of public school buses.

"§ 115C-250. Authority to expend funds for transportation of children with special needs.—(a) The State Board of Education is authorized to expend public funds to defray the reasonable cost of motor vehicle transportation for autistic and communications-handicapped children and deaf and blind children to the nearest proper public educational institution located within the State.

(b) The State Board of Education is authorized to expend public funds or to otherwise provide motor vehicle transportation for children with special needs as those children are defined by G.S. 115C-109. Such transportation may be provided for nonresidential students to and from the nearest public educational institution or sheltered workshop located within the State when said students are full-time equivalent students in the public schools. Such transportation also may be provided for nonresidential students to and from the nearest appropriate private school having a special education program approved by the State Board of Education if the children to be transported are, or have been placed in that program by the State or by a local school administrative unit as a result of the State or the unit's duty to provide such children with a free appropriate public education.

(c) The General Assembly intends that the Department of Human Resources shall provide for the transportation of autistic and communications-handicapped and deaf and blind children and shall have the operational and fiscal responsibilities for such transportation.

(d) Funds appropriated for the transportation of children with special needs may be used to pay transportation safety assistants employed in accordance with the provisions of G.S. 115C-245(e) for buses to which children with special needs are assigned.

"§ 115C-251. Transportation supervisors.—The State Board of Education shall from time to time adopt such rules and regulations with regard to the qualifications of persons employed by local boards of education as chief mechanic or supervisor of transportation as it shall deem necessary or desirable for the purpose of assuring the proper maintenance and safety of school buses. A local board of education shall not employ any person as chief mechanic or supervisor of transportation if that person does not meet the qualifications established by the State Board.

"§ 115C-252. Aid in lieu of transportation.—(a) When, by reason of road conditions or otherwise, any local board of education, which shall elect to operate a school bus transportation system, shall find it impracticable to furnish to a pupil transportation by school bus to the school in which such pupil is enrolled, or to which such pupil is assigned, the board may assign such pupil to such other school within such local school administrative unit as the board shall deem advisable, unless the parent or guardian of such pupil or the person standing in loco parentis to such pupil, shall notify the principal of the school, in which such pupil is enrolled or to which such pupil is assigned, of the desire of such pupil to continue to attend such school without the benefit of transportation by school bus.

(b) In the event that any local board of education, which shall operate a system of school bus transportation, shall find it impracticable to furnish to a pupil such transportation to the school in which such pupil is enrolled or to
which such pupil is assigned, and if, as a result thereof, such pupil shall be required to obtain board and lodging at a place other than the residence of such pupil in order to attend a school, such board may, in its discretion, provide for the payment to the parent or guardian of such pupil of a sum not to exceed fifty dollars ($50.00) per month for each school month that such pupil shall so obtain board and lodging at a place other than the residence of the pupil for the purpose of attending a school.

"§ 115C-253. Contracts for transportation.—Any local board of education may, in lieu of the operation by it of public school buses, enter into a contract with any person, firm or corporation for the transportation by such person, firm or corporation of pupils enrolled in the public schools of such local school administrative unit for the same purposes for which such local school administrative unit is authorized by G.S. 115C-239 to 115C-246, 115C-248, 115C-249, 115C-250(d), 115C-251 to 115C-254 and 115C-256 to 115C-261 to operate public school buses. Any vehicle used by such person, firm or corporation for the transportation of such pupils shall be constructed and equipped as provided in rules and regulations promulgated by the State Board of Education, and the driver of such vehicle shall possess all of the qualifications prescribed by rules and regulations promulgated by the State Board of Education: Provided, that where a contract for transportation of pupils is entered into between a local board of education and any person, firm or corporation which contemplates the use of an automobile or vehicle other than a bus for the transportation of 16 pupils or less, the automobile or vehicle shall not be required to be constructed and equipped as provided for in G.S. 115C-240(d), but shall be constructed and equipped pursuant to rules and regulations promulgated by the State Board of Education. In the event that any local board of education shall enter into such a contract, the board may use for such purposes any funds which it might use for the operation of school buses owned by the board, and the tax-levying authorities of the county or of the city may provide in the county or city budget such additional funds as may be necessary to carry out such contracts.

"§ 115C-254. Use of school buses by State guard or national guard.—When requested to do so by the Governor, the board of education of any local school administrative unit is authorized and directed to furnish a sufficient number of school buses to the North Carolina State guard or the national guard for the purpose of transporting members of the State guard or members of the national guard to and from authorized places of encampment, or to and from places to which members of the State guard or members of the national guard are ordered to proceed for the purpose of suppressing riots or insurrections, repelling invasions or dealing with any other emergency. Public school buses so furnished by any local school administrative unit to the North Carolina State guard or the national guard shall be operated by members or employees of the State or national guard, and all expense of such operation, including any repair or replacement of any bus occasioned by such operation, shall be paid by the State from the appropriations available for the use of the State guard or the national guard.

"§ 115C-255. Liability insurance and waiver of immunity as to certain acts of bus drivers.—The securing of liability insurance and the waiver of immunity as to certain torts of school bus drivers, school transportation service vehicle drivers and school activity bus drivers, is subject to the provisions of G.S.
§ 115C-256. School bus drivers under Workers' Compensation Act.—Awards to school bus drivers under the Workers' Compensation Act shall be made pursuant to the provisions of G.S. 115C-337(b).

§ 115C-257. State Board of Education authorized to pay claims.—The State Board of Education is hereby authorized and directed to set up in its budget for the operation of the public schools of the State a sum of money which it deems sufficient to pay the claims hereinafter authorized and provided for. The Board is hereby authorized and directed to pay out of said sum provided for this purpose to the parent, guardian, executor or administrator of any pupil who may be injured or whose death results from injuries received while such pupil is boarding, riding on, or alighting from a school bus owned and operated by any local school administrative unit, and transporting pupils to or from the public schools of the State, or sustained as a result of the operation of a school bus on the grounds of the school in which such pupil is enrolled, medical, hospital, surgical, and funeral expenses incurred on account of such injuries or death of such pupil in an amount not to exceed six hundred dollars ($600.00). This section shall not apply to injuries sustained as a result of the operation of any activity bus as distinguished from a regular school bus.

§ 115C-258. Approval of claims by State Board of Education final.—The State Board of Education is hereby authorized and empowered, under such rules and regulations as it may promulgate, to approve any claim authorized herein, and when such claim is so approved, such action shall be final: Provided, that the total benefits for hospitalization, medical treatment, and funeral expenses shall in no case exceed six hundred dollars ($600.00) for any pupil so injured.

§ 115C-259. Claims paid without regard to negligence of driver; amounts paid out declared lien upon civil recoveries for child.—The claims authorized herein shall be paid by the said State Board of Education, regardless of whether the injury received by said pupil shall have been due to the negligence of the driver of the said school bus: Provided, that whenever there is recovery on account of said accident by the father, mother, guardian, or administrator of such pupil against any person, firm or corporation, the amount expended by the State Board of Education hereunder shall constitute a paramount lien on any judgment recovered by said parent, guardian, or administrator, and shall be discharged before any money is paid to said parent, guardian, or administrator, on account of said judgment.

§ 115C-260. Disease and injuries incurred while not riding on bus not compensable.—Nothing in G.S. 115C-257 to G.S. 115C-261 shall be construed to mean the State shall be liable for sickness, or disease, or for personal injuries sustained otherwise than by reason of the operation of such bus.

§ 115C-261. Claims must be filed within one year.—The right to compensation as authorized herein shall be forever barred unless a claim be filed with the State Board of Education within one year after the accident, and if death results from the accident, unless a claim be filed with the said Board within one year thereafter.

§ 115C-262. Liability insurance and tort liability.—Liability insurance and tort liability of local boards of education for actions arising out of activities conducted pursuant to this Part, are subject to the provisions of G.S. 115C-42.
“Part 2. Food Service.

“§ 115C-263. Required provision of services.—As a part of the function of the public school system, local boards of education shall provide to the extent practicable school food services in the schools under their jurisdiction. All school food services made available under this authority shall be provided in accordance with standards and regulations recommended by the Superintendent of Public Instruction and approved by the State Board of Education.

“§ 115C-264. Operation.—In the operation of their public school food programs, the public schools shall participate in the National School Lunch Program established by the federal government. The program shall be under the jurisdiction of the Division of School Food Services of the Department of Public Instruction and in accordance with federal guidelines as established by the Child Nutrition Division of the United States Department of Agriculture.

All school food services shall be operated on a nonprofit basis, and any earnings therefrom over and above the cost of operation as defined herein shall be used to reduce the cost of food, to serve better food, or to provide free or reduced-price lunches to indigent children and for no other purpose. The term ‘cost of operation’ shall be defined as actual cost incurred in the purchase and preparation of food, the salaries of all personnel directly engaged in providing food services, and the cost of nonfood supplies as outlined under standards adopted by the State Board of Education. ‘Personnel’ shall be defined as food service supervisors or directors, bookkeepers directly engaged in food service record keeping and those persons directly involved in preparing and serving food: Provided, that food service personnel shall be paid from the funds of food services only for services rendered in behalf of lunchroom services. Any cost incurred in the provisions and maintenance of school food services over and beyond the cost of operation shall be included in the budget request filed annually by local boards of education with boards of county commissioners. It shall not be mandatory that the provisions of G.S. 115C-522(a) and G.S. 143-129 be complied with in the purchase of supplies and food for such school food services.

“§ 115C-265. Rules and regulations for distribution of library/media personnel funds; employment of personnel.—(a) The State Board of Education is authorized to promulgate rules and regulations for the distribution of library/media personnel funds, on the basis of average daily membership (ADM), to each local school administrative unit of the State.

(b) Each local school administrative unit in the State shall employ library/media personnel in accordance with State library/media guidelines approved by the State Board of Education insofar as funds are approved for that purpose by the North Carolina General Assembly.

“SUBCHAPTER V.

“Personnel.

“ARTICLE 18.

“Superintendents.

“§ 115C-271. Selection by local board of education, term of office.—At a meeting to be held biennially or quadrennially during the month of April, the various county boards of education shall meet and elect a county
superintendent of schools subject to the approval of the Superintendent of Public Instruction and the State Board of Education. Such superintendent shall take office on the following July 1 and shall serve for a term of two or four years, or until his successor is elected and qualified. The superintendent shall be elected for a term of either two or four years, which term shall be in the discretion of the county board of education. The county board of education may, with the written consent of the current superintendent, extend or renew the term of the superintendent’s contract at any time during the final year of his term. Provided, however, in any year when new members are to be elected or appointed, the board may not act until after the new members have been sworn in. The term and conditions of employment shall be stated in a written contract which shall be entered into between the board of education and the superintendent. A copy of the contract shall be filed with the Superintendent of Public Instruction before any person is eligible for this office. A certification to the county board of education by the Superintendent of Public Instruction showing that the person proposed for the office of county superintendent of schools holds a superintendent certificate and has had three years experience in school work in the past 10 years, together with a doctor’s certificate showing the person to be free from any contagious or communicable disease, shall make any person eligible for this office.

If any board of education shall elect a person to serve as superintendent of schools in any local school administrative unit who is not qualified, or cannot qualify, according to this section, such election is null and void and it shall be the duty of such board of education to elect a person who can qualify.

In all city administrative units, the superintendent of schools shall be elected by the city board of education of such unit, to serve for a period of either two or four years, which term of office shall be within the discretion of the board; and the qualifications, provisions and approval shall be the same as for county superintendents. The city board of education may, with the written consent of the current superintendent, extend or renew the term of the superintendent’s contract at any time during the final year of his term: Provided, however, in any year when new members are to be elected or appointed, the board may not act until after the new members have been sworn in. The election shall be held biennially or quadrennially, as the case may be, during the month of April.

“§115C-272. Residence oath of office, and salary of superintendent.—(a) Every superintendent shall reside in the county in which he is employed. The superintendent shall not teach, nor be regularly employed in any other capacity that may limit or interfere with his duties as superintendent. Each superintendent, before entering upon the duties of his office, shall take an oath for the faithful performance thereof. The salary of the superintendent shall be in accordance with a State standard salary schedule, fixed and determined by the State Board of Education as provided by law; and such salary schedule for superintendents shall be determined on the same basis for both county and city superintendents and shall take into consideration the amount of work inherent to the office of both county and city superintendents; and such schedule shall be published in the same way and manner as the schedules for teacher and principal salaries are now published.

(b) Superintendents shall be paid promptly when their salaries are due provided the legal requirements for their employment and service have been met. All superintendents employed by any local school administrative unit or
school district who are paid from local funds shall be paid promptly as provided by law and as State allotted superintendents are paid.

Superintendents paid from State funds shall be paid as follows:

1. The salaries of superintendents shall be paid monthly on the basis of each calendar month of service. Included within their term of employment shall be 1.25 days of annual vacation leave for each month of the 12 months’ service. Included within the 12 months’ employment each local board of education shall designate the same or an equivalent number of legal holidays as those designated by the State Personnel Commission for State employees.

2. Notwithstanding any provisions of this section to the contrary no person shall be entitled to pay for any vacation day not earned by that person. Vacation days shall not be used for extending the term of employment of individuals and shall not be cumulative from one fiscal year to another fiscal year: Provided, that superintendents may accumulate annual vacation leave days as follows: annual leave may be accumulated without any applicable maximum until December 31 of each year. On December 31 of each year, any superintendent with more than 30 days of accumulated leave shall have the excess accumulation cancelled so that only 30 days are carried forward to January 1 of the next year. All vacation leave taken by the superintendent will be upon the authorization of his immediate supervisor and under policies established by the local board of education. It is the intent of the General Assembly that leave accumulated as provided herein shall not be used to extend the term of employment of any individual and that any leave not used prior to termination of employment for any reason shall be automatically cancelled.

3. Each local board of education shall sustain any loss by reason of an overpayment to any superintendent paid from State funds.

4. All of the foregoing provisions of this section shall be subject to the requirement that at least fifty dollars ($50.00), or other minimum amount required by federal social security laws, of the compensation of each school employee covered by the Teachers' and State Employees' Retirement System or otherwise eligible for social security coverage shall be paid in each of the four quarters of the calendar year.

(c) The State Board of Education, in fixing the State standard salary schedule of superintendents as authorized by law, shall provide that superintendents who entered the armed or auxiliary forces of the United States after September 16, 1940, and who left their positions for such service, shall be allowed experience increments for the period of such service as though the same had not been interrupted thereby, in the event such persons return to the position of teachers, principals or superintendents in the public schools of the State after having been honorably discharged from the armed or auxiliary forces of the United States.

“§ 115C-273, Salary schedule for superintendents.—Every local board of education may adopt, as to assistant or associate superintendents not paid out of State funds, a salary schedule similar to the State salary schedule, but it likewise shall recognize a difference in salaries based on different duties, training, experience, professional fitness, and continued service in the same
school system; but if any local board of education shall fail to adopt such a
schedule, the State salary schedule shall be in force.

"§ 115C-274. Removal for cause.—(a) Local boards of education are
authorized to remove a superintendent who is guilty of immoral or disreputable
conduct or who shall fail or refuse to perform the duties required of him by law.
In case the Superintendent of Public Instruction shall have sufficient evidence
at any time that any superintendent of schools is not capable of discharging, or
is not discharging, the duties of his office as required by law or is guilty of
immoral or disreputable conduct, he shall report this matter to the board of
education employing said superintendent of schools. It shall then be the duty of
said board of education to hear the evidence in such case and, if after careful
investigation it shall find the charges true, it shall declare the office vacant at
once and proceed to elect a successor: Provided, that such superintendent shall
have the right to try his title to office in the courts of the State.

(b) If the superintendent shall fail in the duties enumerated in G.S.
115C-276(g) through (i) or such other duties as may be assigned him, he shall be
subject, after notice, to an investigation by the Superintendent of Public
Instruction or by his board of education for failure to perform his duties. For
persistent failure to perform these duties, his certificate may be revoked by the
Superintendent of Public Instruction, or he may be dismissed by his board of
education.

"§ 115C-275. Vacancies in office of superintendent.—In case of vacancy by

(c) Every local board of education may adopt, as to teachers not paid out of State funds, a salary schedule similar to the State salary schedule, but it likewise shall recognize a difference in salaries based on different duties, training, experience, professional fitness, and continued service in the same school system; but if any local board of education shall fail to adopt such a schedule, the State salary schedule shall be in force. No teacher shall receive a
