and last sale, gift, assignment or transfer shall be the date from which the period of
ineligibility shall be determined under subsection (c).

(h) This section shall not apply to applicants for or recipients of Work First

The Secretary of Health and Human Services shall report any approval under this section to the Public Health Study Commission.

(c) All bachelors level candidates appointed under this section shall have a total of 10 years' public health experience, at least five years of which must be in a supervisory capacity at the agency at which the candidate is an applicant for employment as a local health director. SUBPART 5. DIVISION OF CHILD DEVELOPMENT

CHILD CARE FUNDS MATCHING REQUIREMENT

SECTION 10.34. No local matching funds may be required by the Department of Health and Human Services as a condition of any locality's receiving any State child care funds appropriated by this act unless federal law requires a match. This shall not prohibit any locality from spending local funds for child care services.

CHILD CARE SUBSIDY RATES

SECTION 10.35.(a) The maximum gross annual income for initial eligibility, adjusted biennially, for subsidized child care services shall be seventy-five percent (75%) of the State median income, adjusted for family size.

SECTION 10.35.(b) Fees for families who are required to share in the cost of care shall be established based on a percent of gross family income and adjusted for family size. Fees shall be determined as follows:

<table>
<thead>
<tr>
<th>FAMILY SIZE</th>
<th>PERCENT OF GROSS FAMILY INCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-3</td>
<td>10%</td>
</tr>
<tr>
<td>4-5</td>
<td>9%</td>
</tr>
<tr>
<td>6 or more</td>
<td>8%</td>
</tr>
</tbody>
</table>

SECTION 10.35.(c) Payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

1. Religious-sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one-star county market rate or the rate they charge privately paying parents, whichever is lower.

2. Licensed child care centers and homes with two or more stars shall receive the market rate for that rated license level for that age group or the rate they charge privately paying parents, whichever is lower.

3. Nonlicensed homes shall receive fifty percent (50%) of the county market rate or the rate they charge privately paying parents, whichever is lower.

4. Maximum payment rates shall also be calculated periodically by the Division of Child Development for transportation to and from child care provided by the child care provider, individual transporter, or transportation agency, and for fees charged by providers to parents. These payment rates shall be based upon information collected by market rate surveys.

SECTION 10.35.(d) Provision of payment rates for child care providers in counties that do not have at least 50 children in each age group for center-based and home-based care are as follows:

1. Except as applicable in subdivision (2) of this subsection, payment rates shall be set at the statewide or regional market rate for licensed child care centers and homes.

2. If it can be demonstrated that the application of the statewide or regional market rate to a county with fewer than 50 children in each age group is lower than the county market rate and would inhibit the ability of the county to purchase child care for low-income children, then the county market rate may be applied.
SECTION 10.35.(e) A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to unsubsidized privately paying parents for each age group of enrollees within the county. The Division of Child Development shall also calculate a statewide rate and regional market rates for each rated license level for each age category.

SECTION 10.35.(f) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate in the program that provides for the purchase of care in child care facilities for minor children of needy families. No separate licensing requirements shall be used to select facilities to participate. In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

SECTION 10.35.(g) Payment for subsidized child care services provided with Work First Block Grant funds shall comply with all regulations and policies issued by the Division of Child Development for the subsidized child care program.

SECTION 10.35.(h) Noncitizen families who reside in this State legally shall be eligible for child care subsidies if all other conditions of eligibility are met. If all other conditions of eligibility are met, noncitizen families who reside in this State illegally shall be eligible for child care subsidies only if at least one of the following conditions is met:

1. The child for whom a child care subsidy is sought is receiving child protective services or foster care services.
2. The child for whom a child care subsidy is sought is developmentally delayed or at risk of being developmentally delayed.
3. The child for whom a child care subsidy is sought is a citizen of the United States.

CHILD CARE ALLOCATION FORMULA

SECTION 10.36.(a) The Department of Health and Human Services shall allocate child care subsidy voucher funds to pay the costs of necessary child care for minor children of needy families. The mandatory thirty percent (30%) Smart Start subsidy allocation under G.S. 143B-168.15(g) shall constitute the base amount for each county's child care subsidy allocation. The Department of Health and Human Services shall use the following method when allocating federal and State child care funds, not including the aggregate mandatory thirty percent (30%) Smart Start subsidy allocation:

1. Funds shall be allocated based upon the projected cost of serving children in a county under age 11 in families with all parents working who earn less than seventy-five percent (75%) of the State median income.
2. No county's allocation shall be less than ninety percent (90%) of its State Fiscal Year 2001-2002 initial child care subsidy allocation.
SECTION 10.36.(b) The Department of Health and Human Services may reallocate unused child care subsidy voucher funds in order to meet the child care needs of low-income families. Any reallocation of funds shall be based upon the expenditures of all child care subsidy voucher funding, including Smart Start funds, within a county.

CHILD CARE REVOLVING LOAN

SECTION 10.37. Notwithstanding any law to the contrary, funds budgeted for the Child Care Revolving Loan Fund may be transferred to and invested by the financial institution contracted to operate the Fund. The principal and any income to the Fund may be used to make loans, reduce loan interest to borrowers, serve as collateral for borrowers, pay the contractor's cost of operating the Fund, or pay the Department's cost of administering the program.

The North Carolina Partnership for Children, Inc., may carry forward any amount in excess of the required match for a fiscal year in order to meet the match requirement of the succeeding fiscal year. Only in-kind contributions that are quantifiable shall be applied to the in-kind match requirement. Volunteer services may be treated as an in-kind contribution for the purpose of the match requirement of this subsection. Volunteer services that qualify as professional services shall be valued at the fair market value of those services. All other volunteer service hours shall be valued at the statewide average wage rate as calculated from data compiled by the Employment Security Commission in the Employment and Wages in North Carolina Annual Report for the most recent period for which data are available. Expenses, including both those paid by cash and in-kind contributions,
incurred by other participating non-State entities contracting with the North Carolina Partnership for Children, Inc., or the local partnerships, also may be considered resources available to meet the required private match. (7) Be required and described in the contractual agreements approved by the North Carolina Partnership for Children, Inc., or the local partnership.
(8) Be reported to the North Carolina Partnership for Children, Inc., or the local partnership by the contractor in the same manner as reimbursable expenses.

Failure to obtain a twenty percent (20%) match by June 30 of each fiscal year shall result in a dollar-for-dollar reduction in the appropriation for the Program for a subsequent fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report that is submitted to the Joint Legislative Commission on Governmental Operations in a format that allows verification by the Department of Revenue. The same match requirements shall apply to any expansion funds appropriated by the General Assembly.

SECTION 10.38.(d) The Department of Health and Human Services shall continue to implement the performance-based evaluation system.

(3) Expenditures of State funds for advertising and promotional activities are prohibited for fiscal years 2003-2004 and 2004-2005.
SECTION 10.38.(f) For the 2003-2004 and 2004-2005 fiscal years, the North Carolina Partnership for Children, Inc., shall not approve local partnership plans that allocate State funds to child care providers for one-time quality improvement initiatives in the following circumstances:

2. Child care facilities that do not accept child care subsidy funds.

SECTION 10.38.(g) For the 2003-2004 fiscal year, the local partnerships shall spend an amount for child care subsidies that provides at least fifty-two million dollars ($52,000,000) for the TANF maintenance of effort requirement and the Child Care Development Fund and Block Grant match requirement.

SECTION 10.38.(h) A county may use the county's allocation of State and federal child care funds to subsidize child care according to the county's Early Childhood Education and Development Initiatives Plan as approved by the North Carolina Partnership for Children, Inc. The use of federal funds shall be consistent with the appropriate federal regulations. Child care providers shall, at a minimum, comply with the applicable requirements for State licensure pursuant to Article 7 of Chapter 110 of the General Statutes.

The Department shall transmit the federal funds contained in the county block grants to Electing Counties as soon as practicable after they become available to the State and in accordance with federal cash management laws and regulations. The Department shall transmit one-fourth of the State funds contained in county block grants to Electing Counties at the beginning of each quarter."

SPECIAL ASSISTANCE IN-HOME PROGRAM

SECTION 10.51.(a) The Department of Health and Human Services may use funds from the existing State-County Special Assistance for Adults budget to provide Special Assistance payments to eligible individuals in in-home living arrangements. These payments may be made for up to 800 individuals during the 2003-2004 fiscal year and the 2004-2005 fiscal year. The standard monthly payment to individuals enrolled in the Special Assistance in-home program shall be fifty percent (50%) of the monthly payment the individual would receive if the individual resided in an adult care home and qualified for Special Assistance, except if a lesser payment amount is appropriate for the individual as determined by the local case manager. For State fiscal year 2003-2004, qualified individuals shall not receive payments at rates less than they would have been eligible to receive in State fiscal year 2002-2003. The Department shall implement Special Assistance in-home eligibility policies and procedures to assure that in-home program participants are those individuals who need and, but for the in-home program, would seek placement in an adult care home facility. The Department's policies and procedures shall include the use of a functional assessment. The Department shall make this in-home option available to all counties on a voluntary basis. To the maximum extent possible, the Department shall consider geographic balance in the dispersion of payments to individuals across the State.

SECTION 10.51.(b) The Department shall report on or before January 1, 2004, and on or before January 1, 2005, to the cochairs of the House of Representatives Appropriations Committee, the House of Representatives Appropriations Subcommittee on Health and Human Services, the cochairs of the Senate Appropriations Committee, and the cochairs of the Senate Appropriations Committee on Health and Human Services. This report shall include the following information:

1) A description of cost savings that result from allowing individuals eligible for State-County Special Assistance the option of remaining in the home.
(2) A complete fiscal analysis of the in-home option to include all federal, State, and local funds expended.

(3) How much case management is needed and which types of individuals are most in need of case management.

(4) The geographic location of individuals receiving payments under this section.

(5) A description of the services purchased with these payments.

(6) A description of the income levels of individuals who receive payments under this section and the impact on the Medicaid program.

(7) Findings and recommendations as to the feasibility of continuing or expanding the in-home program.

(8) The level and quantity of services (including personal care services) provided to the demonstration project participants compared to the level and quantity of services for residents in adult care homes.

SECTION 10.51.(c) The Department shall incorporate data collection tools designed to compare quality of life among institutionalized versus noninstitutionalized populations (i.e., an individual's perception of his or her own health and well-being, years of healthy life, and activity limitations). To the extent national standards are available, the Department shall utilize those standards.

STATE/COUNTY SPECIAL ASSISTANCE

SECTION 10.52.(a) The eligibility of Special Assistance recipients residing in adult care homes on August 1, 1995, shall not be affected by an income reduction in the Special Assistance eligibility criteria resulting from adoption of the Rate Setting Methodology Report and Related Services, providing these recipients are otherwise eligible. The maximum monthly rate for these residents in adult care home facilities shall be one thousand two hundred thirty-one dollars ($1,231) per month per resident.

SECTION 10.52.(b) The maximum monthly rate for residents in adult care home facilities shall be one thousand ninety-one dollars ($1,091) per month per resident through September 30, 2003.

SECTION 10.52.(c) Effective October 1, 2003, the maximum monthly rate for residents in adult care home facilities shall be one thousand sixty-six dollars ($1,066) per month per resident unless adjusted by the Department in accordance with subsection (f) of this section.

SECTION 10.52.(d) It is the intent of the General Assembly to protect individuals who meet current eligibility standards for State/County Special Assistance from becoming disenfranchised from the program as a result of any changes proposed in this section. Therefore, subject to any necessary approvals by the Center for Medicare & Medicaid Services (CMS):

(1) The eligibility of Special Assistance recipients who reside in adult care homes on September 30, 2003, and remain continuously eligible shall not be affected by an income reduction in the Special Assistance eligibility criteria, providing these recipients are otherwise eligible. The maximum monthly rate for these residents in adult care home facilities shall be one thousand ninety-one dollars ($1,091) per month per resident; and
(2) The standard of need level for coverage eligibility under State/County Special Assistance, for individuals not enrolled or recipients of the program on September 30, 2003, shall be not less than one thousand ninety-one dollars ($1,091) per month per individual, but the monthly reimbursement rate for such individuals shall be the amount established under subsections (c) and (f) of this section. However, the Department of Health and Human Services, in its determination of reimbursement rates, may establish a minimum monthly reimbursement rate of not more than five dollars ($5.00) per month for any resident of an adult care home facility meeting the established standard of need level for coverage.

SECTION 10.52.(e) The sum of three million one hundred eighty-nine thousand six hundred seventy-five dollars ($3,189,675) for the 2003-2004 fiscal year and the sum of four million four hundred thirty-one thousand eight hundred forty-six dollars ($4,431,846) for the 2004-2005 fiscal year appropriated to the Department of Health and Human Services shall be transferred from the Division of Social Services to the Division of Medical Assistance and used as State match to draw down federal matching funds to help pay for Medicaid's personal care services for adult care homes (ACH-PCS) rather than the State/County Special Assistance Program.

SECTION 10.52.(f) Notwithstanding any other provision of this section, the Department of Health and Human Services shall review activities and costs related to the provision of care in adult care homes and shall determine what costs may be considered to properly maximize allowable reimbursement available through Medicaid personal care services for adult care homes (ACH-PCS) under federal law. As determined, and with any necessary approval from the Centers for Medicare and Medicaid Services (CMS), and the approval of the Office of State Budget and Management, the Department may transfer necessary funds from the State/County Special Assistance program within the Division of Social Services to the Division of Medical Assistance and may use those funds as State match to draw down federal matching funds to pay for such activities and costs under Medicaid's personal care services for adult care homes (ACH-PCS), thus maximizing available federal funds. The established rate for State/County Special Assistance set forth in subsection (c) of this section shall be adjusted by the Department to reflect any transfer of funds from the Division of Social Services to the Division of Medical Assistance, and related transfer costs and responsibilities from State/County Special Assistance to the Medicaid personal care services for adult care homes (ACH-PCS). Such rate adjustments to the Special Assistance rate shall be effective with the effective date of increased reimbursement under ACH-PCS. In no event shall the reimbursement for services through the ACH-PCS exceed the average cost of such services as determined by the Department from review of cost reports as required and submitted by adult care homes. The Department shall report any transfers of funds and modifications of rates to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

Notwithstanding any other provision of law to the contrary, Supplemental Security Income (SSI) policy applicable to transfer of assets and estate recovery, as prescribed by federal law, shall apply to applicants for State-county Special Assistance."

SECTION 10.53.(c) The Department of Health and Human Services shall continue to review whether policy for State-county Special Assistance should be changed to permit an assisted living facility to accept from a family member of a resident who qualifies for State-county Special Assistance payment for the difference in the monthly rate for room, board, and services available. In reviewing current policy, the Department shall consider the following conditions on family contributions to the resident's cost of care:

(1) Ensuring that the resident meets all income and resource eligibility requirements for State-county Special Assistance.

(2) Not counting payments made by family members to the facility as income to the resident or as an in-kind contribution when calculating the monthly rate applicable to the resident.

(3) Ensuring that supplemental payments are made on a voluntary basis as specified in the resident agreement.

Not later than March 1, 2004, the Department shall report on its activities under this subsection to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

4. Coordination of local human services.

SECTION 10.56.(c) The Department of Health and Human Services shall proceed to expand this demonstration project if non-State funds are identified for this purpose.

NORTH CAROLINA EDUCATIONAL DEVELOPMENT

SECTION 12.4A.(a) The General Assembly finds that institutions of higher education play an essential role in maintaining and strengthening the economic health of the State. As our economy evolves from its traditional manufacturing and agricultural base to a diverse structure, including many technology, information, and service-based businesses, innovative educational institutions are essential to providing appropriate workforce preparation and training to maintain the State's viability as an attractive location for new and expanding businesses. FILM INDUSTRY DEVELOPMENT ACCOUNT

SECTION 12.6A.(a) G.S. 143B-434.3 is repealed.

SECTION 12.6A.(b) Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding the following new section to read:

"§ 143B-434.4. Film Industry Development Account.

(a) Legislative Findings and Purpose. – The General Assembly finds that:

(1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the growth and expansion of businesses and industries within the State.

(2) The North Carolina film production industry barely existed in the late 1970s.

(3) Since that time, the North Carolina film production industry has grown to employ thousands of North Carolinians and to support seven studio complexes, hundreds of production service and support companies, and a substantial permanent resident crew base of film professionals, all of which contribute to the economy of the State and are a source of tax revenue for the State and local governments.

(4) North Carolina, through its film industry, has hosted over 600 productions over the past 20 years, is regarded as the country's third largest film-making state behind California and New York, and has hosted productions in at least 75 out of North Carolina's 100 counties.

(5) Because of the nature of the national film production industry, the success and economic viability of North Carolina's film production industry depend in many respects on the State's ability to attract productions originating from other states such as California and New York to undertake production activity in North Carolina utilizing the State's existing film industry infrastructure.

(6) The national film production industry is a highly creative industry in which decisions to film productions in North Carolina are typically made outside of the State and are frequently based upon factors such as cost of production.

(7) However, current trends in the industry, including trends in foreign countries such as Canada, to develop new and creative means to attract, and to cut production costs for, the type of productions that, in the past, have sustained North Carolina's film industry, threaten the viability of the State's investments in its film industry and film production infrastructure.

(8) Recent changes in the State's economic condition have created a level of economic distress that requires a reevaluation of certain existing State programs, and the enactment and funding of programs such as the Film Industry Development Account are designed to stimulate new
economic activity and to create new jobs and opportunities for employment within the State.

(9) The enactment, funding, and administration of this program are necessary to stimulate the economy, facilitate economic recovery, create new jobs in North Carolina, and help sustain and preserve the State's investments in the film production industry and will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs and opportunities for employment, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions, in accord with the policies declared in G.S. 143B-428.

(10) The purpose of the Film Industry Development Account is to stimulate economic activity and to create jobs and employment opportunities within the State.

(b) Creation of Account. – There is created in the Department of Commerce, Division of Tourism, Film, and Sports Development, the Film Industry Development Account to provide annual grants as incentives to production companies that engage in production activities in this State. The Division of Tourism, Film, and Sports Development shall administer this program in accordance with the following provisions:

(1) To be eligible for a grant, a production company must engage in production activities in this State with expenditures in this State of at least one million dollars ($1,000,000). A grant may not be used for political or issue advertising.

(2) A grant may not exceed fifteen percent (15%) of the amount the production company spends for goods and services in this State during the calendar year.

(3) A grant may not exceed two hundred thousand dollars ($200,000) per production.

(4) Grants shall be awarded to productions that substantially utilize North Carolina's film industry infrastructure and workforce, that stimulate economic activity within the State, and that create employment opportunities within the State.

(c) Production Company Defined. – As used in this section, the term "production company" has the meaning provided in G.S. 105-164.3.

(d) Limitation on Eligibility. – No production company shall be eligible for a grant under this section if an original motion picture, television, or radio image for theatrical, commercial, advertising, or educational purposes made by that company contains material that is considered obscene, as defined by G.S. 14-190.1(b).

(e) Reports. – The Department of Commerce shall report annually to the General Assembly concerning the applications made to the account, the payments made from the account, and the effect of the payments on job creation in the State. The Department of Commerce shall also report quarterly to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division on the use of the moneys in the account, including information regarding to whom payments were made and in what amounts.
SECTION 12.6A.(c) G.S. 143B-430 is amended by adding a new subsection to read:

"(c) The Secretary of Commerce may adopt rules to administer a program or fulfill a duty assigned to the Department of Commerce or the Secretary of Commerce."

SECTION 12.6A.(d) This section becomes effective on and after August 2, 2000.

SECTION 12.6C.(a) The North Carolina Industrial Commission may retain the additional revenue generated by raising the fee charged to parties for the filing of compromised settlements from two hundred dollars ($200.00) to an amount that does not exceed two hundred fifty dollars ($250.00) for the purpose of replacing existing computer hardware and software used for the operations of the Commission. These funds may also be used to prepare any assessment of hardware and software needs prior to purchase. The Commission may not retain any fees under this section unless they are in excess of the current two-hundred-dollar ($200.00) fee charged by the Commission for filing a compromise settlement.

SECTION 12.6C.(b) Nothing in this section shall be deemed to limit or restrict the Commission's authority to increase fees for purposes other than those indicated in subsection (a) of this section.

SECTION 12.6C.(c) Unexpended and unencumbered fees retained by the Industrial Commission under subsection (a) of this section shall not revert to the General Fund on June 30 of each fiscal year, but shall remain available to the Commission for the purposes stated in subsection (a) of this section.

SECTION 12.6C.(d) All plans and purchases by the Commission utilizing fees retained under subsection (a) of this section are subject to project certification by the Information Resources Management Commission, and the Commission in making purchases under subsection (a) of this section must follow the procurement process outlined in accordance with the provisions of 09 NCAC 06B. 0300. The Commission shall report its plans to replace existing computer hardware and software to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division prior to issuing any requests for proposals.

NORTH CAROLINA STATE BAR FUNDS

SECTION 13.10. Of the funds appropriated in the continuation budget as a grant-in-aid to the North Carolina State Bar for the 2003-2005 biennium, the North Carolina State Bar may in its discretion use up to the sum of five hundred ninety thousand dollars ($590,000) for the 2003-2004 fiscal year and up to the sum of five hundred ninety thousand dollars ($590,000) for the 2004-2005 fiscal year to contract with the Center for Death Penalty Litigation to provide training, consultation, brief banking, and other assistance to attorneys representing indigent capital defendants. The Office of Indigent Defense Services shall report by February 1, 2004, to the Chairs of the Senate and House Appropriations Subcommittees on Justice and Public Safety on the activities funded by the grant-in-aid authorized by this section.

CLARIFY PARTIAL PAYMENT OF APPOINTMENT FEE FOR CRIMINAL DEFENDANTS

SECTION 13.11. G.S. 7A-455.1 reads as rewritten:

"§ 7A-455.1. Appointment fee in criminal cases.

(a) Each person who requests the appointment of counsel in a criminal case shall pay to the clerk of court a nonrefundable appointment fee of fifty dollars ($50.00) at the time of appointment. Partial payments shall be credited against the amount of the fifty-dollar ($50.00) fee due. No fee shall be due if the court finds that the person is not entitled to the appointment of counsel."
(b) The appointment fee in this section is due regardless of the outcome of the proceedings. If paid before the final determination of the action at the trial level, the amount of the fee paid in full at the time of appointment, the fifty dollars ($50.00) paid shall be credited against any amounts the court determines to be owed for the value of legal services rendered to the defendant. If not paid before the final determination of the action at the trial level, the fifty-dollar ($50.00) fee shall be added to any amounts the court determines to be owed for the value of legal services rendered to the defendant and shall be collected in the same manner as attorneys' fees are collected for such representation. If the fee is not paid in full at the time of appointment, any attorneys' fees are found due when the action is finally determined at the trial level, a judgment shall be entered, docketed, and indexed pursuant to G.S. 1-233 in the amount of the unpaid fee fifty dollars ($50.00) and shall constitute a lien as prescribed by the general law of the State applicable to judgments.

(c) The attorney representing the defendant when the action is finally determined at the trial level shall advise the court whether the appointment fee required by this section has been paid.

(d) Inability, failure, or refusal to pay the appointment fee shall not be grounds for denying appointment of counsel, for withdrawal of counsel, or for contempt.

(e) The appointment fee required by this section shall be assessed only once for each affidavit of indigency submitted by a defendant or other determination of indigency by the court, regardless of the number of cases for which an attorney is appointed. An additional appointment fee shall not be assessed for any additional cases thereafter assigned to an attorney if any cases for which a defendant was previously assessed an appointment fee are still pending. Nor shall an additional appointment fee be assessed if the charges for which an attorney was appointed are dismissed and subsequently refiled or if the defendant is appointed an attorney on appeal on a matter for which the defendant was assessed an appointment fee at the trial level.

(f) Of each appointment fee collected under this section, the sum of forty-five dollars ($45.00) shall be credited to the Indigent Persons' Attorney Fee Fund and the sum of five dollars ($5.00) shall be credited to the Court Information Technology Fund under G.S. 7A-343.2. These fees shall not revert.

(g) The Office of Indigent Defense Services shall adopt rules and develop forms to govern implementation of this section.

PILOT PROJECT ON ASSIGNMENT OF CIVIL CASES

SECTION 13.12.(a) The Administrative Office of the Courts may conduct a pilot project in up to four judicial districts to assess a system for the assignment and processing of general civil cases filed in the General Court of Justice. No district may be selected without the concurrence of the senior resident superior court judge and the chief district court judge, and no more than one pilot project site may be established within a judicial division.

The project shall evaluate methods of assigning cases to individual judges or sessions of court in the district court division or the superior court division, considering the nature of the case, the amount in controversy, the complexity of the issues, the likelihood of settlement, the availability and suitability of alternative dispute resolution programs, and any other appropriate factors relevant to just resolution of the cases and efficient use of court resources. In pilot districts designated by the Administrative Office of the Courts under this section, general civil cases may be assigned or
transferred to alternative dispute resolution programs used within the district court or superior court, notwithstanding the provisions of G.S. 7A-37.1, G.S. 7A-38.1, or Articles 20 and 21 of Chapter 7A of the General Statutes.

SECTION 13.12.(b) This section expires June 30, 2005.

(a) In each criminal case filed in the General Court of Justice that is resolved through referral to a community mediation center, a dispute resolution fee shall be assessed in the sum of sixty dollars ($60.00) per mediation for the support of the General Court of Justice. Fees assessed under this section shall be paid to the clerk of superior court in the county where the case was filed and remitted by the clerk to the State Treasurer.

(b) Before providing the district attorney with a dismissal form, the community mediation center shall require proof that the defendant has paid the dispute resolution fee as required by subsection (a) of this section. Section and shall attach the receipt to the dismissal form."

The Department of Correction may also consider converting some of the units recommended for closing from one security custody level to another, where that conversion would be cost-effective. PART XXV. STATE BOARD OF ELECTIONS

HELP AMERICA VOTE ACT MATCHING FUNDS

SECTION 25.1.(a) Of the funds appropriated to the State Board of Elections for the 2003-2004 fiscal year by Section 2.1 of this act:

(1) The sum of $1,791,936 is transferred to a Reserve Fund to meet the Maintenance of Effort requirements of section 254(a)(7) of the Help America Vote Act, Public Law 107-252.

(2) The sum of $1,665,650 currently appropriated to Fund 1100 Administration for the SEIMS RCC is transferred to a Reserve Fund for the State Board of Elections.

(3) The sum of $1,922,215 is transferred in the 2003-2004 fiscal year to the Election Fund established by S.L. 2003-12 to meet the five percent (5%) matching requirement of Title II Help America Vote Act, Public Law 107-252 for the 2003-2005 fiscal biennium. Of that amount, $1,188,760 shall be available for expenditure in the 2003-2004 fiscal year, and the remaining $733,455 shall be available for expenditure only during the 2004-2005 fiscal year. The money shall only be
expended as federal funds are available to match, and if the amount available to the State is less than projected, the unexpended remainder of the $1,922,215 shall revert to the General Fund on the earlier of:

a. June 30, 2006; or
b. A determination by the Office of State Budget and Management that the unexpended remainder will not be needed.

**SECTION 25.1.(b)** The 107th Congress established the Help America Vote Act (HAVA) as Public Law 107-252 establishing a program to assist in the administration of federal elections and provide assistance with the administration of certain federal elections laws and programs; establish minimum election administration standards for states and units of local government with the responsibility for the administration of federal elections. In HAVA, Congress authorized appropriations for elections assistance in the form of a matching grant program (Title II of HAVA, Requirements Payments) for which states are required as one condition of the Election Assistance Requirements Payments to match federal allocations with a five percent (5%) match of State dollars. The federal government has additional requirements, including a required state plan and a stipulation for each participating state to implement the Maintenance of Effort (MOE) requirements of Title II, section 254(a)(7) of HAVA. The MOE requires that the state maintain the expenditures of the state for activities funded by the payment at a level that is not less than the level of such expenditures maintained by the state for the fiscal year ending prior to November 2000. Congress authorized up to $1.4 billion for Requirements Payments, and $810 million for Title II requirements grants was funded for fiscal year 2003. Title II requirements funding has not been passed by Congress for fiscal years 2004-2005 and 2005-2006 but is currently proposed at $500 million for each year.

Based upon the 2003 approved funding, it is estimated that North Carolina will receive $22.6 million of the Title II funding if North Carolina meets all the conditions of the Election Assistance program, including not only the five percent (5%) state match but also maintenance of its expenditure level on HAVA activities at the expense level the State Board of Elections had in State fiscal year 1999-2000. Actual expenditures for the State Elections Information Management System (SEIMS), which is a qualified HAVA activity, in 1999-2000 were three million four hundred fifty-seven thousand five hundred eighty-five dollars and six cents ($3,457,585.06). The authorized expenditures on SEIMS in 2002-2003 by the State Board of Elections is one million six hundred sixty-five thousand six hundred fifty dollars ($1,665,650). The difference in expenditure levels is one million seven hundred ninety-one thousand nine hundred thirty-five dollars and six cents ($1,791,935.06). To meet HAVA's Title II MOE requirement, North Carolina has to appropriate from its General Fund to a Reserve on a recurring basis (or for as long as Congress requires the MOE as a condition of states' being eligible to receive Requirements Payments), the amount of three million four hundred fifty-seven thousand five hundred eighty-five dollars and six cents ($3,457,585.06) annually.

For the State to meet its obligatory five percent (5%) match for HAVA's Title II Requirements Payments, North Carolina has to match twenty-two million six hundred thousand dollars ($22,600,000) estimated federal funds in 2003-2004; thirteen million nine hundred forty-four thousand dollars ($13,944,000) estimated federal funds in

The clerk appoints the assistants, deputies, and other employees in his office to serve at his or her pleasure. Assistant and deputy clerks shall take the oath of office prescribed for clerks of superior court, conforming to the office of the clerk's office to serve at his or her pleasure.

(b) An assistant clerk is authorized to perform all the duties and functions of the office of clerk of superior court, and any act of an assistant clerk is entitled to the same faith and credit as that of the clerk. A deputy clerk is authorized to certify the existence and correctness of any record in the clerk's office, to take the proofs and examinations of the witnesses touching the execution of a will as required by G.S. 31-17, and to perform any other ministerial act which the clerk may be authorized and empowered to do, in his own name and without reciting the name of his principal. The clerk is responsible for the acts of his assistants and deputies. Furthermore, on and after July 1, 1985, that assistant or deputy clerk shall be eligible for an increase of two steps in his salary plan, and shall remain eligible for a two-step increase each year as recommended by each clerk until that assistant or deputy clerk's annual salary corresponds to his number of years of service. (d) Full-time assistant clerks, licensed to practice law in North Carolina, who are employed in the office of superior court clerk on and after July 1, 1984, and full-time assistant clerks possessing a masters degree in business administration, public administration, accounting, or other similar discipline from an accredited college or university who are employed in the office of superior court clerk on and after July 1, 1997, are authorized an annual salary of not less than three-fourths of the maximum annual salary established for assistant clerks; the clerk of superior court, with the approval of the Administrative Office of the Courts, may establish a higher annual salary but that salary shall not be higher than the maximum annual salary established for assistant clerks. (f) The Director of the Administrative Office of the Courts may provide assistance requested pursuant to subsection (e) of this section only upon a showing by the senior resident superior court judge, supported by facts, that the overwhelming public interest warrants the use of additional resources for the speedy disposition of cases involving drug offenses, domestic violence, or other offenses involving a threat to public safety.

(g) The terms of any contract entered into with local governments pursuant to subsection (e) of this section shall be fixed by the Director of the Administrative Office of the Courts in each case. Nothing in this section shall be construed to obligate the General Assembly to make any appropriation to implement the provisions of this section or to obligate the Administrative Office of the Courts to provide the administrative costs of establishing or maintaining the positions or services provided for under this section. Further, nothing in this section shall be construed to obligate the Administrative Office of the Courts to maintain positions or services initially provided for under this section."

SECTION 30.20.(f) The Commission shall employ an actuary with expertise in the areas of disability income insurance and group life insurance to assist the Commission in its work pursuant to the procedure set forth in G.S. 120-32.02. This actuary shall not be a State employee or a person currently under contract with the State to provide services. If necessary, the Commission may hire other employees as provided in G.S. 120-32.02.

SECTION 30.20.(g) The Commission may meet during a regular or extra session of the General Assembly, subject to approval of the President Pro Tempore of the Senate and the Speaker of the House of Representatives.

SECTION 30.20.(h) The Commission shall submit a report of the results of its study, including any legislative recommendations, to the General Assembly not later than January 1, 2005.

SECTION 30.20.(i) Of the funds appropriated to the General Assembly, the Legislative Services Commission shall allocate funds to implement the provisions of subsections (a) through (i) of this section.

SECTION 30.20.(j) G.S. 135-101(6) reads as rewritten:

"(6) "Disability" or "Disabled" shall mean the mental or physical incapacity for the further performance of duty of a participant or beneficiary, physical or cognitive limitations that prevent working as determined by the Department of State Treasurer and the Board of Trustees; provided that such incapacity was not the result of terrorist activity, active participation in a riot, committing or attempting to commit a felony, or intentionally self-inflicted injury.

SECTION 30.20.(k) G.S. 135-105(a) reads as rewritten:

"(a) Any participant who becomes disabled and is no longer able to perform his usual occupation is unable to perform the duties of the participant's job or any other available jobs with the State may, after at least 365 calendar days succeeding his date of initial employment as a teacher or employee and at least one year of contributing membership service, receive a benefit commencing on the first day succeeding the waiting period; provided that the participant's employer and attending physician shall certify that such participant is mentally or physically incapacitated for the further performance of duty, cannot perform the duties of the participant's job or any other jobs available with the State, that such incapacity was incurred at the time of active
employment and has been continuous thereafter; provided further that the requirement for one year of contributing membership service must have been earned within 36 calendar months immediately preceding the date of disability and further, salary continuation used during the period as provided in G.S. 135-104 shall count toward the aforementioned one year requirement.

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article."

SECTION 30.20.(l)  
G.S. 135-106(a) reads as rewritten:

"(a) Upon the application of a beneficiary or participant or of his legal representative or any person deemed by the Board of Trustees to represent the participant or beneficiary, any beneficiary or participant who has had five or more years of membership service may receive long-term disability benefits from the Plan upon approval by the Board of Trustees, commencing on the first day succeeding the conclusion of the short-term disability period provided for in G.S. 135-105, provided the beneficiary or participant makes application for such benefit within 180 days after the short-term disability period ceases, after salary continuation payments cease, or after monthly payments for Workers' Compensation cease, whichever is later; Provided, that the beneficiary or participant withdraws from active service by terminating employment as a teacher or State employee; Provided, that the Medical Board shall certify that such beneficiary or participant is mentally or physically incapacitated for the further performance of duty, unable to perform any occupation for which the beneficiary or participant is reasonably qualified for by training or experience, that such incapacity was incurred at the time of active employment and has been continuous thereafter, that such incapacity is likely to be permanent; Provided further that the Medical Board shall not certify any beneficiary or participant as disabled who is in receipt of any payments on account of the same incapacity which existed when the beneficiary first established membership in the Retirement System. The Board of Trustees may extend this 180-day filing requirement upon receipt of clear and convincing evidence that application was delayed through no fault of the disabled beneficiary or participant and was delayed due to the employers' miscalculation of the end of the 180-day filing period. However, in no instance shall the filing period be extended beyond an additional 180 days.

The Board of Trustees may require each beneficiary who becomes eligible to receive a long-term disability benefit to have an annual medical review or examination for the first five years and thereafter once every three years after the commencement of benefits under this section. However, the Board of Trustees may require more frequent examinations and upon the advice of the Medical Board shall determine which cases require such examination. Should any beneficiary refuse to submit to any examination required by this subsection or by the Medical Board, his long-term disability benefit shall be suspended until he submits to an examination, and should his refusal last for one year, his benefit may be terminated by the Board of Trustees. If the Medical Board finds that a beneficiary is no longer mentally or physically incapacitated for the further performance of duty, the Medical Board shall so certify this finding to the Board of Trustees, and unable to perform any occupation for which the beneficiary or participant is reasonably qualified for by training or experience, the Department of State Treasurer and the Board of Trustees may terminate the beneficiary's long-term disability benefits

747
effective on the last day of the month in which the Medical Board certifies that the beneficiary is no longer disabled.

As to the requirement of five years of membership service, any participant or beneficiary who does not have five years of membership service within the 96 calendar months prior to conclusion of the short-term disability period or cessation of salary continuation payments, whichever is later, shall not be eligible for long-term disability benefits.

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article."

SECTION 30.20.(m) Subsections (j) through (l) of this section apply only to persons who are not vested in the disability plan in question on July 1, 2003.

SECTION 31.2.(b) Where the actual costs are different from the estimated costs under subsection (a) of this section, the Department may adjust the allocations among projects as needed. If any projects funded under subsection (a) of this section are delayed and the budgeted State funds cannot be used during the 2003-2004 fiscal year, or if the projects funded under subsection (a) of this section are accomplished at a lower cost, the Department may use the resulting fund availability to fund any of the following:

(1) Corps of Engineers project feasibility studies.
(2) Corps of Engineers projects whose schedules have advanced and require State-matching funds in fiscal year 2003-2004.
(3) State-local water resources development projects.

Funds not expended or encumbered for these purposes shall revert to the General Fund at the end of the 2004-2005 fiscal year.

SECTION 31.2.(c) The Department shall make quarterly reports on the use of these funds to the Joint Legislative Commission on Governmental Operations, the Fiscal Research Division, and the Office of State Budget and Management. Each report shall include all of the following:

(1) All projects listed in this section.
(2) The estimated cost of each project.
(3) The date that work on each project began or is expected to begin.
(4) The date that work on each project was completed or is expected to be completed.
(5) The actual cost of each project.

The quarterly reports shall also show those projects advanced in schedule, those projects delayed in schedule, and an estimate of the amount of funds expected to revert to the General Fund.

SECTION 31.2.(d) Notwithstanding G.S. 143-23, if additional federal funds that require a State match are received for water resources projects or for beach renourishment projects for the 2003-2004 fiscal year, the Director of the Budget may, after consultation with the Joint Legislative Commission on Governmental Operations, transfer funds from General Fund appropriations to match the federal funds.

PROCEDURES FOR DISBURSEMENT OF CAPITAL FUNDS

SECTION 31.3. The appropriations made by the 2003 General Assembly for capital improvements shall be disbursed for the purposes provided by this act. Expenditure of funds shall not be made by any State department, institution, or agency until an allotment has been approved by the Governor as Director of the Budget. The allotment shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes. Prior to the award of construction contracts for projects to be financed in whole or in part with self-liquidating appropriations, the Director of the Budget shall approve the elements of the method of
financing of those projects including the source of funds, interest rate, and liquidation period. Provided, however, that if the Director of the Budget approves the method of financing a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting.

Where direct capital improvement appropriations include the purpose of furnishing fixed and movable equipment for any project, those funds for equipment shall not be subject to transfer into construction accounts except as authorized by the Director of the Budget. The expenditure of funds for fixed and movable equipment and furnishings shall be reviewed and approved by the Director of the Budget prior to commitment of funds.

Capital improvement projects authorized by the 2003 General Assembly shall be completed, including fixed and movable equipment and furnishings, within the limits of the amounts of the direct or self-liquidating appropriations provided, except as otherwise provided in this act. Capital improvement projects authorized by the 2003 General Assembly for the design phase only shall be designed within the scope of the project as defined by the approved cost estimate filed with the Director of the Budget, including costs associated with site preparation, demolition, and movable and fixed equipment.

ENCUMBERED APPROPRIATIONS AND PROJECT RESERVE FUNDS

SECTION 31.4. When each capital improvement project appropriated by the 2003 General Assembly, other than those projects under the Board of Governors of The University of North Carolina, is placed under a construction contract, direct appropriations shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment, and a reasonable contingency. Unencumbered direct appropriations remaining in the project budget shall be placed in a project reserve fund credited to the Office of State Budget and Management. Funds in the project reserve may be used for emergency repair and renovation projects at State facilities with the approval of the Director of the Budget. The project reserve fund may be used, at the discretion of the Director of the Budget, to allow for award of contracts where bids exceed appropriated funds, if those projects supplemented were designed within the scope intended by the applicable appropriation or any authorized change in it, and if, in the opinion of the Director of the Budget, all means to award contracts within the appropriation were reasonably attempted. At the discretion of the Director of the Budget, any balances in the project reserve fund shall revert to the original source.

EXPENDITURES OF FUNDS FROM THE RESERVE FOR REPAIRS AND RENOVATIONS

SECTION 31.5. Of the funds in the Reserve for Repairs and Renovations for the 2003-2004 fiscal year, forty-six percent (46%) shall be allocated to the Board of Governors of The University of North Carolina for repairs and renovations pursuant to G.S. 143-15.3A, in accordance with guidelines developed in The University of North Carolina Funding Allocation Model for Reserve for Repairs and Renovations, as approved by the Board of Governors of The University of North Carolina, and fifty-four percent (54%) shall be allocated to the Office of State Budget and Management for repairs and renovations pursuant to G.S. 143-15.3A.

Notwithstanding G.S. 143-15.3A, the Board of Governors may allocate funds for the repair and renovation of facilities not supported from the General Fund if the Board determines that sufficient funds are not available from other sources and that
conditions warrant General Fund assistance. Any such finding shall be included in the Board's submission to the Joint Legislative Commission on Governmental Operations on the proposed allocation of funds.

Notwithstanding G.S. 143-15.3A, the Office of State Budget and Management shall allocate funds from the Reserve to complete the construction of State-owned facilities that are partially completed; the remainder of funds shall be allocated for other repairs and renovations projects.

The Board of Governors and the Office of State Budget and Management shall submit to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office, for their review, the proposed allocations of these funds. Subsequent changes in the proposed allocations shall be reported prior to expenditure to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office.

PROJECT COST INCREASE

SECTION 31.7. Upon the request of the administration of a State agency, department, or institution, the Director of the Budget may, when in the Director's opinion it is in the best interest of the State to do so, increase the cost of a capital improvement project. Provided, however, that if the Director of the Budget increases the cost of a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting. The increase may be funded from gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or direct capital improvement appropriations to that department or institution.

NEW PROJECT AUTHORIZATION

SECTION 31.8. Upon the request of the administration of any State agency, department, or institution, the Director of the Budget may authorize the construction of a capital improvement project not specifically authorized by the General Assembly if such project is to be funded by gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or self-liquidating indebtedness. Prior to authorizing the construction of a capital improvement project pursuant to this section, the Director shall consult with the Joint Legislative Commission on Governmental Operations.

ADVANCE PLANNING OF CAPITAL IMPROVEMENT PROJECTS

SECTION 31.9. Funds that become available by gifts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, federal or private grants, receipts becoming a part of special funds by act of the General Assembly, or any other funds available to a State department or institution may be utilized for advance planning through the working drawing phase of capital improvement projects, upon approval of the Director of the Budget. The Director of the Budget may make allocations from the Advance Planning Fund for advance planning through the working drawing phase of capital improvement projects, except that this revolving fund shall not be utilized by the Board of Governors of The University of North Carolina or the State Board of Community Colleges.
APPROPRIATIONS LIMITS/REVERSION OR LAPSE
SECTION 31.10. Except as permitted in previous sections of this act, the appropriations for capital improvements made by the 2003 General Assembly may be expended only for specific projects set out by the 2003 General Assembly and for no other purpose. Construction of all capital improvement projects enumerated by the 2003 General Assembly shall be commenced, or self-liquidating indebtedness with respect to them shall be incurred, within 12 months following the first day of the fiscal year in which the funds are available. If construction contracts on those projects have not been awarded or self-liquidating indebtedness has not been incurred within that period, the direct appropriation for those projects shall revert to the original source, and the self-liquidating appropriation shall lapse; except that direct appropriations may be placed in a reserve fund as authorized in this act. This deadline with respect to both direct and self-liquidating appropriations may be extended with the approval of the Director of the Budget up to an additional 12 months if circumstances and conditions warrant such extension.

INTENT TO FUND PARTIALLY COMPLETED CAPITAL PROJECTS
SECTION 31.11. It is the intent of the General Assembly that future appropriations for capital improvements shall include funding for new projects only after full funding for partially completed projects has been restored.

The renewal application shall contain all necessary and reasonable information that the Department may by rule require. Except as otherwise provided in this subdivision, the Department may amend a license by reducing it from a full license to a provisional license for a period of not more than 90 days whenever the Department finds that:

c. The Department finds that the licensee has failed to comply with the provisions of Articles 1 and 3 of Chapter 131D of the General Statutes and the rules adopted pursuant to these Articles, and the failure to comply endangered the health, safety, or welfare of the patients in the facility.

The Department may also issue a provisional license to a facility, pursuant to rules adopted by the Medical Care Commission, for substantial failure to comply with the provisions of this section or rules adopted pursuant to this section. Any facility wishing to contest the issuance of a provisional license shall be entitled to an administrative hearing as provided in the Administrative Procedure Act, Chapter 150B of the General Statutes. (a) Definitions. – The following definitions apply in this section:

(1) Local government. – A county or municipality that received a
  distribution of local sales taxes in the most recent fiscal year for which
  a local sales tax share has been calculated.

(2) Local sales tax share. – A local government's percentage share of the
  two-cent (2¢) sales taxes distributed during the most recent fiscal year
  for which data are available.

(3) Repealed reimbursement amount. – The total amount a local
  government would have been entitled to receive during the 2002-2003
  fiscal year under G.S. 105-164.44C, 105-275.1, 105-275.2,
  105-277.001, and 105-277.1A, if the Governor had not withheld any
  distributions under those sections.

(4) Two-cent (2¢) sales taxes. – The first one-cent (1¢) sales and use tax
  authorized in Article 39 of this Chapter and in Chapter 1096 of the
  1967 Session Laws, the first one-half cent (1/2¢) local sales and use

  Chapter.

(b) Distributions. – On or before September-August 15, 2003, and each
  September 15 thereafter through August 15, 2004, the Secretary must multiply each local
government's local sales tax share by the estimated amount that all local governments
would be expected to receive during the current fiscal year under G.S. 105-520 if every
county levied the tax under this Article for the year. If the resulting amount is less than one hundred percent (100%) of the local government's repealed reimbursement amount, the Secretary must pay the local government the difference, but not less than one hundred dollars ($100.00).

On or before May 1, 2003, and each May 1 thereafter, May 1, 2004, the Office of State Budget and Management and the Fiscal Research Division of the General Assembly must each submit to the Secretary and to the General Assembly a final projection of the estimated amount that all local governments would be expected to receive during the upcoming fiscal year under G.S. 105-520 if every county levied the tax under this Article for the fiscal year. If, after May 1 and before a distribution is made, a law is enacted that would affect the projection, an updated projection must be submitted as soon as practicable. If the Secretary does not use the lower of the two final projections to make the calculation required by this subsection, the Secretary must report the reasons for this decision to the Joint Legislative Commission on Governmental Operations within 60 days after receiving the projections.

(c) Source of Funds. – The Secretary must draw the funds distributed under this section from sales and use tax collections under Article 5 of this Chapter.

(d) Reports. – The Secretary must report to the Revenue Laws Study Committee by January 31, 2004, and each January 31 thereafter, January 31, 2005, the amount distributed under this section for the current fiscal year.

If the decedent was not a resident of this State at death, the amount of tax due under this section is an amount computed by multiplying the credit by a fraction, the numerator of which is the gross value of real property that is located in North Carolina plus the gross value of any personal property that has a tax situs in North Carolina and the denominator of which is the value of the decedent's gross estate. The Department of Administration must promptly file copies of the notice and certificate required by this subsection with the Governor and the Council of State.

(b) Preliminary Approval. – The Council of State, upon receipt of the notice and certificate required by subsection (a) of this section, shall adopt a resolution granting or denying preliminary approval of the financing. A resolution granting preliminary approval may include any other terms, conditions, and restrictions the Council of State considers appropriate and not inconsistent with the provisions of this Article.

(c) Final Approval. – Before any special indebtedness may be incurred or issued pursuant to this Article, the Council of State must authorize the indebtedness by resolution, either as part of or separate from the resolution required by subsection (b) of this section. The resolution must do all of the following:

1. Authorize the providing of a particular capital facility or, in general terms, the types or classifications of capital facilities to be provided.
2. Set the aggregate principal amount or maximum principal amount of the special indebtedness authorized.
3. Set the maturity or maximum maturity of the special indebtedness authorized.
4. Set the rate, rates, or maximum rate of interest, which may be fixed or vary over a period of time, of the special indebtedness authorized.
5. Include any other conditions or matters not inconsistent with the provisions of this Article in the discretion of the Council of State, which may include the adoption or approvals as may be authorized in G.S. 142-88 and G.S. 142-89.

(d) Financing Terms. – No special indebtedness shall be incurred or issued without the prior written approval of the State Treasurer as provided in this subsection, which is in addition to the certificate given by the State Treasurer pursuant to subsection (a) of this section. In determining whether to approve the proposed financing, the State Treasurer may consider any factors the State Treasurer considers relevant in order to find and determine all of the following:

1. The amounts to become due under the special indebtedness, including the interest component or rate, are adequate and not excessive for the purpose proposed.
2. The increase, if any, in State revenues, including taxes, necessary to pay the sums to become due under the special indebtedness is not excessive.
3. The special indebtedness can be incurred or issued on terms desirable to the State.

(e) Designation of Facilities. – If the Council of State has authorized in general terms the types or classifications of capital facilities to be financed, then the particular capital facilities and the principal amount of special indebtedness to be incurred or issued for each particular capital facility shall be determined by the Department of Administration after considering any factors it considers relevant in order to determine
that the particular capital facility to be provided is desirable for the efficient operation of the State and its agencies and is in the best interests of the State.

(f) Type of Debt and Security. – In the absence of a determination by the Council of State, the State Treasurer, after consultation with the Department of Administration, shall determine the specific security offered and whether the special indebtedness to be issued or incurred shall be financing contract indebtedness, certificates of participation indebtedness, bonded indebtedness, or some combination of these.

(g) Administration. – The State Treasurer, after consultation with the Department of Administration, shall develop appropriate documents for use under this Article. The State Treasurer shall employ and designate the financial consultants, fiduciaries and other agents, underwriters, and bond attorneys to be associated with the incurrence or issuance of special indebtedness pursuant to this Article.

(h) Oversight by Joint Legislative Commission. – After all the requirements for approval and oversight provided in this section have been met, and at least five days before the issuance or incurrence of the special indebtedness, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations. This report must include the details of the proposed special indebtedness, including the capital facilities to be financed by the indebtedness, the amount of the proposed indebtedness, the type of indebtedness to be issued or incurred, and any other information required by the Commission.

"§ 142-85. Security; other requirements."

(a) Security. – In order to secure (i) lease or installment payments to be made to the lessor, seller, or other person advancing moneys or providing financing under a financing contract, (ii) payment of the principal of and interest on bonded indebtedness, or (iii) payment obligations of the State to the provider of bond insurance, a credit facility, a liquidity facility, or a derivative agreement, special indebtedness may create any combination of the following:

1. A lien on or security interest in one or more, all, or any part of the capital facilities to be financed by the special indebtedness.
2. If the special indebtedness is to finance construction of improvements on real property, a lien on or security interest in all or any part of the land on which the improvements are to be located.
3. If the special indebtedness is to finance renovations or improvements to existing facilities or the installation of fixtures in existing facilities, a lien on or security interest in one or more, all, or any part of the facilities.

(b) Value of Security; Multiple Liens. – The estimated value of the property subject to the lien or security interest need not bear any particular relationship to the principal amount of the special indebtedness or other obligation it secures. This Article does not limit the right of the State to grant multiple liens or security interests in a capital facility or other property to the extent not otherwise limited by the terms of any special indebtedness.

(c) Governor's Budget. – Documentation relating to any special indebtedness may include provisions requesting the Governor to submit in the Governor's budget proposal or any amendments or supplements to the budget proposed appropriations necessary to make the payments required by the special indebtedness.
Session Laws - 2003

S.L. 2003-284

(d) Source of Repayment. – The payment of amounts payable by the State under special indebtedness or any related documents during any fiscal period shall be limited to funds appropriated for that purpose by the General Assembly in its discretion.

(e) No Deficiency Judgment or Pledge. – No deficiency judgment may be rendered against the State in any action for breach of any obligation under special indebtedness or any related documents. The taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under special indebtedness or any related documents. In the event that the General Assembly does not appropriate sums sufficient to make payments required under any special indebtedness or any related documents, the net proceeds received from the sale or other disposition of the property subject to the lien or security interest shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation relating to the lien or security interest. These net proceeds are appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under any special indebtedness or any related documents shall be paid to the State Treasurer for deposit to the General Fund.

(f) Nonsubstitution Clause. – A financing contract, issue of bonded indebtedness, or other related document shall not contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any capital facility.

(g) Protection of Lender. – Special indebtedness may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing financing under a financing contract, the owners of bonded indebtedness, or others to whom the State is obligated under special indebtedness or any related documents as may be reasonable and proper and not in violation of law. These provisions may include covenants setting forth the duties of the State in respect of any of the following:

(1) The purposes to which the proceeds of special indebtedness may be applied.
(2) The disposition and application of the revenues of the State, including taxes.
(3) Insuring, maintaining, and other duties with respect to the capital facilities financed.
(4) The disposition of any charges and collection of any revenues and administrative charges.
(5) The terms and conditions of the issuance of additional special indebtedness.
(6) The custody, safeguarding, investment, and application of all moneys.

(h) State Property Law Exception. – Chapter 146 of the General Statutes does not apply to any transfer of the State's interest in property authorized by this Article, whether to a deed of trust trustee or other secured party as security for special indebtedness, or to a purchaser of property in connection with a foreclosure or similar conveyance of property to realize upon the security for special indebtedness following the State's default on its obligations under the special indebtedness.

§ 142-86. Financing contract indebtedness.

(a) Documentation. – Financing contract indebtedness shall not be incurred until all documentation providing for its incurrence has been approved by the State Treasurer after the State Treasurer has consulted with the Department of Administration.
(b) Interest Component. – A financing contract may provide for payments under the contract to represent principal and interest components of the cost of the capital facility to be financed, as determined by the State Treasurer.

(c) Bidding. – Financing contracts may be entered into pursuant to any applicable public or competitive bidding process or any private or negotiated process, to the extent required by applicable law and, if not so required, as may be determined by the Department of Administration after consulting with the State Treasurer.

(d) Party. – All financing contracts shall be executed on behalf of the State by the State Treasurer or, upon delegation by the State Treasurer after the State Treasurer's having approved the financing contract, by the Department of Administration.

(e) Credit Facility. – If the State Treasurer determines that it is in the best interest of the State, the State Treasurer may arrange for the delivery of a credit facility to secure payment under any financing contract. The State Treasurer may also provide that payments by the State representing the interest component of the payments to be made under a financing contract may be calculated based upon a fixed or a variable rate of interest.

(f) Terms and Conditions. – All other conditions set forth elsewhere in this Article with respect to financing contract indebtedness shall also be satisfied prior to incurring any financing contract indebtedness. To the extent applicable as conclusively determined by the State Treasurer, the provisions of G.S. 142-89, 142-90, and 142-91 apply to financing contract indebtedness.

§ 142-87. Additional requirements for certificates of participation indebtedness.

(a) Documentation. – A financing contract shall not be used in connection with the delivery of certificates of participation by a special corporation until all documentation providing for its use has been approved by the State Treasurer after the State Treasurer has consulted with the Department of Administration. All documentation providing for the delivery and sale of certificates of participation must be approved by the State Treasurer.

(b) Procedure. – The special corporation, if used, shall request the approval of the State Treasurer in writing and shall furnish any information and documentation relating to the delivery and sale of the certificates of participation requested by the State Treasurer. In determining whether to approve the financing in the documentation, the State Treasurer shall consider the factors set forth in G.S. 142-84(d), as well as the effect of the proposed financing upon any scheduled or proposed sale of debt obligations by the State or a unit of local government in the State.

(c) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(d) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer, and the provisions of G.S. 142-89(h) apply to the trust agreement or similar instrument to the extent applicable.
(e) Other Conditions. – All other conditions set forth elsewhere in this Article with respect to certificates of participation indebtedness, including the conditions set forth in G.S. 142-86, must be satisfied before any certificates of participation indebtedness is incurred.

§ 142-88. Bonded indebtedness.

The State Treasurer is authorized, by and with the consent of the Council of State as provided in this Article, to issue and sell at one time or from time to time bonds of the State to be designated "State of North Carolina Limited Obligation Bonds, Series____" or notes of the State as provided in this Article, for the purpose of providing funds, with any other available funds, for the uses authorized in this Article.

§ 142-89. Issuance of limited obligation bonds and notes.

(a) Terms and Conditions. – Bonds or notes may bear any dates; may be serial or term bonds or notes, or any combination of these; may mature in any amounts and at any times, not exceeding 40 years from their dates; may be payable at any places, either within or without the United States, in any coin or currency of the United States that at the time of payment is legal tender for payment of public and private debts; may bear interest at any rates, which may vary from time to time; and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at any prices, including a price greater than the face amount of the bonds or notes, and under any terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; Form and Denomination; Registration. – Bonds or notes may be issued in certificated or uncertificated form. If issued in certificated form, bonds or notes shall be signed on behalf of the State by the Governor or bear the Governor's facsimile signature, shall be signed by the State Treasurer or bear the State Treasurer's facsimile signature, and shall bear the great seal of the State or a facsimile of the seal impressed or imprinted on them. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. If any officer whose signature or facsimile signature appears on bonds or notes issued under this Article ceases to be that officer before the delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery of the bonds or notes. Bonds or notes issued under this Article may bear the facsimile signatures of persons who, at the actual time of the execution of the bonds or notes, were the proper officers to sign any bond or note although at the date of the bond or note those persons may not have been officers.

The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as prescribed by the State Treasurer in conformity with this Article.

(c) Manner of Sale; Expenses. – Subject to the approval by the Council of State as to the manner in which bonds or notes will be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase, or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses

incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Application of Proceeds. – The proceeds of any bonds or notes shall be used solely for the purposes for which the bonds or notes were issued and shall be disbursed in the manner and under the restrictions, if any, that the Council of State may provide in the resolution authorizing the issuance of, or in any trust agreement securing, the bonds or notes.

Any additional moneys that may be received by means of a grant or grants from the United States or any agency or department thereof or from any other source to aid in financing the cost of a capital facility may be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this Article.

(e) Notes; Repayment. – By and with the consent of the Council of State, the State Treasurer is authorized to borrow money and to execute and issue notes of the State for the same, but only in any of the following circumstances and under the following conditions:

(1) For anticipating the sale of bonds, the issuance of which the Council of State has approved, if the State Treasurer considers it advisable to postpone the issuance of the bonds.

(2) For the payment of interest on or any installment of principal of any bonds then outstanding, if there are not sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due.

(3) For the renewal of any loan evidenced by notes authorized in this Article.

(4) For the purposes authorized in this Article.

(5) For refunding bonds or notes or financing contract indebtedness as authorized in this Article.

Funds derived from the sale of limited obligation bonds or notes may be used in the payment of any bond anticipation notes issued under this Article. Funds provided by the General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which have been used in paying interest on or principal of the bonds.

(f) Refunding Bonds and Notes. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes for the purpose of refunding special indebtedness and to pay the cost of issuance of the refunding bonds or notes. The refunding bonds and notes may be combined with any other issues of State bonds and notes issued pursuant to this Article. Refunding bonds or notes may be issued at any time prior to the final maturity of the debt or obligation to be refunded. The proceeds from the sale of any refunding bonds or notes shall be applied to the immediate payment and retirement of the obligations being refunded or, if not required for the immediate payment of the obligations being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) to the extent then permitted by law, obligations of any agency or instrumentality of the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of any of the obligations described in (i), (ii), or (iii) above having an aggregate
market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of obligations being refunded but that have not matured and are not presently redeemable or, if presently redeemable, have not been called for redemption.

(g) Security. – Payment of the principal of and the interest on bonds and notes shall be secured as provided in G.S. 142-85.

(h) Trust Agreement. – In the discretion of the State Treasurer, any bonds and notes issued under this Article may be secured by a trust agreement or similar instrument between the State and a corporate trustee or by a resolution of the Council of State providing for the appointment of a corporate trustee. The corporate trustee may be, in either case, any trust company or bank that has the powers of a trust company within or without the State. The trust agreement or similar instrument or resolution, hereinafter referred to as "the trust", may provide for security and pledges and assignments that are permitted under this Article and may provide for the granting of a lien or security interest as authorized by G.S. 142-85. The trust may contain any provisions for protecting and enforcing the rights and remedies of the owners of any bonds or notes issued under the trust that are reasonable and not in violation of law, including covenants setting forth the duties of the State with respect to the purposes for which bond or note proceeds may be applied, the disposition and application of the revenues or assets of the State, the duties of the State with respect to the capital facilities financed, the disposition of any charges and collection of any revenues and administrative charges, the terms and conditions of the issuance of additional bonds and notes, and the custody, safeguarding, investment, and application of all moneys. All bonds and notes issued under this Article pursuant to the same trust shall be equally and ratably secured as provided in the trust, without priority by reasons of number, dates of bonds or notes, execution, or delivery, in accordance with the provisions of this Article and of the trust. The trust may, however, provide that bonds or notes issued pursuant to the trust shall, to the extent and in the manner prescribed in the trust, be subordinated and junior in standing, with respect to the payment of principal and interest and to the security of the payment, to any other bonds or notes issued pursuant to the trust. It is lawful for any bank or trust company that may act as depositary of the proceeds of bonds or notes, revenues, or any other money under this Article to furnish any indemnifying bonds or to pledge any securities that may be required by the State Treasurer. The trust may contain any other provisions the State Treasurer considers appropriate for the security of the owners of any bonds or notes. Expenses incurred in carrying out the provisions of the trust may be treated as a part of the cost of any capital facility or as an administrative charge and may be paid from the proceeds of the bonds or notes or from any other available funds.

§ 142-90. Variable rate demand bonds and notes and financing contract indebtedness.

(a) In fixing the details of special indebtedness, the State Treasurer may make the special indebtedness subject to any of the following conditions:

(1) It is payable from time to time on demand or tender for purchase by the owner thereof if a credit facility supports the special indebtedness, unless the State Treasurer specifically determines that a credit facility is not required upon a determination by the State Treasurer that the absence of a credit facility will not materially and adversely affect the
financial position of the State or the marketing of the bonds or notes or financing contract indebtedness at a reasonable interest cost to the State.

(2) It is additionally supported by a credit facility.

(3) It is subject to redemption or mandatory tender for purchase prior to maturity.

(4) It bears interest at a rate or rates that may be fixed or may vary over any period of time, as may be provided in the proceedings providing for the issuance or incurrence of the special indebtedness, including any variations that may be permitted pursuant to a par formula.

(5) It is the subject of a remarketing agreement under which an attempt is made to remarket special indebtedness to new purchasers before its presentment for payment to the provider of the credit facility or to the State.

(b) If the aggregate principal amount payable by the State under a credit facility is in excess of the aggregate principal amount of special indebtedness secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or notes and financing contract indebtedness during the term of the credit facility shall not be less than the amount of the excess, unless the payment of the excess is otherwise provided for by agreement of the State executed by the State Treasurer.

"§ 142-91. Other agreements.

The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, credit enhancement facilities, interest rate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with the issuance of special indebtedness. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, fiduciaries, and bond attorneys to be associated with any incurrence or issuance of special indebtedness under this Article as the State Treasurer considers appropriate.

"§ 142-92. Tax exemption.

Special indebtedness shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the indebtedness; and franchise taxes. The interest component of any payments made by the State under special indebtedness, including the interest component of any certificates of participation, is not subject to taxation as to income.

"§ 142-93. Investment eligibility.

Special indebtedness are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Special indebtedness are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or
obligations of the State or any political subdivision of the State is now or may later be authorized by law.

"§ 142-94. Procurement of capital facilities.

The provisions of Articles 3, 3B, 3C, 3D, and 8 of Chapter 143 of the General Statutes and any other laws or rules of the State that relate to the acquisition and construction of State property apply to the financing of capital facilities through the use of special indebtedness pursuant to this Article. This section does not apply to the construction and lease-purchase, including leases with an option to purchase at the end of the lease term for a nominal sum, of State office buildings pursuant to proposals submitted before the effective date of this Article in response to requests for proposals, to the extent any of those proposals, as they may be supplemented or amended, are approved by the Department of Administration and any of these leases or lease-purchase agreements are approved by the Council of State in accordance with G.S. 143-341(4)d2."

SECTION 46.3. G.S. 143-341(4) is amended by adding a new sub-subdivision to read:

Any contract entered into or any proceeding instituted contrary to the provisions of this paragraph is voidable in the discretion of the Council of State."

SECTION 46.4. Interpretation of Part. (a) Additional Method. – This part provides an additional and alternative method for the doing of the things authorized by this part and shall be regarded as supplemental and additional to powers conferred by other laws. Except where expressly provided, this part shall not be regarded as in derogation of any powers now existing. The authority granted in this part is in addition to other laws now or hereinafter enacted authorizing the State to issue or incur indebtedness.

SECTION 46.4.(b) Statutory References. – References in this part to specific sections or Chapters of the General Statutes are intended to be references to those sections or Chapters as they may be amended from time to time by the General Assembly.

SECTION 46.4.(c) Liberal Construction. – This part, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect its purposes.
SECTION 46.4.(d) Severability. – If any provision of this part or its application to any person or circumstance is held invalid, that invalidity does not affect other provisions or applications of the part that can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.

   b. A contract between the special nonprofit corporation and the selected contractors for construction of the Projects, but only if the contract has provisions sufficient to carry out the requirements of the last paragraph of subsection (c) of this section. The Secretary of Correction shall determine the sufficiency of the contract and shall approve the contract only if it is sufficient.

(3) Lease-purchase agreement. – A lease-purchase agreement entered into pursuant to this section, under which the State will lease the Projects from the special nonprofit corporation, with option to purchase.

(4) Projects. – Three close security correctional facilities providing up to 3,000 cells and facilities described in subsection (a1) of this section to be constructed by selected contractors, sold to the special nonprofit corporation, and leased to the State pursuant to this section.

(5) Purchase agreement. – A contract under which the special nonprofit corporation will purchase the Projects from the selected contractors.

(6) Selected contractors. – One or more private firms selected to construct the Projects.

(7) Special nonprofit corporation. – A nonprofit corporation created under Chapter 55A of the General Statutes and designated by the State Treasurer for entering into the transactions contemplated by this section.
(c) Request for Proposals. – The Secretary of Correction may issue a request for proposals to private firms for the private firms to construct the Projects in accordance with plans and specifications developed by the Department of Correction and reviewed by the Office of State Construction. The request for proposals shall provide for the option of proposing on one or more of the facilities, and shall require each proposer to provide a separate proposal on a single facility of up to 1,000 cells. It is the intent of the General Assembly that the State may decide to accept proposals for only one, for two, or for all three facilities.

The Secretary of Correction shall make recommendations to the State Property Office of the Department of Administration on the final award decision. The Department of Correction and the State Property Office of the Department of Administration shall consult with the Joint Legislative Commission on Governmental Operations before making the final award decision. The Department of Administration shall make the final award decision, which shall then be subject to the approval of the Council of State. If the contract for construction of the 2003 facilities is entered into with the construction contractor who constructed the 2001 facilities as provided by subdivision (a1)(2) of this section, the general terms and conditions of the construction contract for the 2003 facilities shall be substantially similar to the terms and conditions of the construction contracts for the construction of the 2001 facilities, including, without limitation, terms and conditions regarding the activities, performance, and construction standards required of the contractor, the arrangements for selection and retention of subcontractors by the contractor, and the responsibility of the contractor for the performance by the selected subcontractors. The construction contract for the 2003 facilities may, however, contain any changes from the construction contracts for the 2001 facilities that may be necessary or desirable to reflect the financing arrangements for the 2003 facilities, including provisions for the periodic payment of construction costs based upon construction progress.

The Department of Correction will enter into a construction contract agreement with the selected contractors for the construction of the Projects or, alternatively, the construction contract may be entered into with the selected contractor by the special nonprofit corporation, with the approval of the Department of Correction. The special nonprofit corporation will enter into a purchase agreement with the selected contractors for the sale of the constructed Projects to the special nonprofit corporation. With respect to the 2003 facilities, the purchase agreement may provide for the periodic payment by the special nonprofit corporation to the selected contractor of portions of the purchase price during the construction of the 2003 facilities on the basis of construction progress, rather than a payment of the entire purchase price upon delivery of the 2003 facilities.

The Department of Correction shall furnish plans and specifications for review by the State Construction Office. Construction contract agreements entered into under this section shall provide that the Department of Correction and the Office of State Construction shall inspect and review each facility during construction to ensure and determine jointly that the facility is suitable for use as a correctional facility and for future acquisition by the State. The Department of Correction may contract with a design consortium for construction administration services.

(d) Approval of Lease-Purchase Agreement. – A lease-purchase agreement may not be entered into pursuant to this section unless the following conditions are met before the lease-purchase agreement is entered into: (i) the Council of State, by
resolution, approves the execution and delivery of the lease-purchase agreement, and
(ii) the State Treasurer approves the lease-purchase agreement and all other
documentation related to it, including any leasehold deed of trust or trust agreement in
connection with it. The resolution of the Council of State may include any matters the
Council of State determines. In determining whether to approve the lease-purchase
agreement, the State Treasurer may consider any factors as the State Treasurer considers
relevant in order to find and determine that all of the following conditions are met:

1. The principal amount to be financed under the lease-purchase
agreement is adequate and not excessive for the purpose of paying the
cost of the Projects.
2. The increase, if any, in State revenues necessary to pay the sums to
become due under the lease-purchase agreement is not excessive.
3. The lease-purchase agreement can be entered into on terms desirable
to the State.
4. The sale of certificates of participation will not have an adverse effect
on any scheduled or proposed sale of obligations of the State or any
State agency or of any unit of local government in the State.

(c) Terms and Conditions. – The following provisions apply to a lease-purchase
agreement entered into under this section:

1. In order to secure the performance by the State of its obligations under
the lease-purchase agreement, the lease-purchase agreement may
require the eviction of the State from the occupancy of one or more of
the Projects in the event that the State breaches its obligations and
agreements under the lease-purchase agreement.
2. No deficiency judgment may be rendered against the State or any
agency, department, or commission of the State in any action for
breach of any obligation contained in the lease-purchase agreement or
any other related documentation, and the taxing power of the State or
any agency, department, or commission of the State is not and may not
be pledged to secure any moneys due under the lease-purchase
agreement.
3. The lease-purchase agreement shall not contain a nonsubstitution
clause that restricts the right of the State to replace or provide a
substitute for the Projects.
4. The lease-purchase agreement may include provisions requesting the
Governor to submit in the Governor's budget proposal, or any
amendments or supplements to it, appropriations necessary to make
the payments required under the lease-purchase agreement.
5. The lease-purchase agreement may contain any provisions for
protecting and enforcing the rights and remedies of the special
nonprofit corporation that are reasonable and proper and not in
violation of law, including covenants setting forth the duties of the State
with respect to the Projects, which may include provisions relating to insuring, operating, and maintaining the Projects and the
custody, safeguarding, investment, and application of moneys.
6. The lease-purchase agreement may designate the lease payments to be
paid by the State under it to be "principal components" and "interest
components." Any interest component of the lease payments may be
calculated based upon a fixed or variable interest rate or rates as determined by the State Treasurer.

(7) The lease-purchase agreement may be entered into by the State, and certificates of participation may be delivered by the special nonprofit corporation, at any time, including at times prior to the delivery of the completed Projects to the special nonprofit corporation, and the related delivery of occupancy of the Projects to the State by the special nonprofit corporation. The lease-purchase agreement may require the State to make prepayments of lease payments at a time prior to when the State accepts occupancy of the Projects. The lease-purchase agreement and related financing arrangements may provide for the funding of interest during construction from the proceeds of certificates of participation. The costs incurred in connection with the preparation of the lease-purchase agreement and related documents and the delivery of the certificates of participation may be paid from the proceeds of the certificates of participation.

(8) The State is authorized to agree in the lease-purchase agreement to indemnify the special corporation and its directors and agents for any liabilities that arise to the special corporation or directors or agents on account of their participation in the activities contemplated by this act.

(f) Faith and Credit Not Pledged. – The payment of amounts payable by the State under the lease-purchase agreement and other related documentation during any fiscal biennium or fiscal year is limited to funds appropriated for that purpose by the General Assembly in its discretion. No provision of this section and no lease-purchase agreement creates any pledge of the faith and credit of the State or any agency, department, or commission of the State within the meaning of any constitutional debt limitation.

(g) Certificates of Participation. – The State may cooperate as necessary to effectuate the delivery by the special nonprofit corporation of tax-exempt certificates of participation, including participating in the preparation of offering documents, the filing of required tax forms and agreeing to comply with restrictions on the use of the Projects as required in order for the interest component of the lease payments to be tax-exempt. Disclosures and compliance with other federal law requirements by the special nonprofit corporation shall be under the direction of the State Treasurer. Certificates of participation may be sold at the direction of the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this section. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special nonprofit corporation.

Certificates of participation may be delivered pursuant to a trust agreement with a corporate trustee approved by the State Treasurer. The corporate trustee may be any trust company or bank having the powers of a trust company within or without the State. A trust agreement may (i) provide for security and pledges and assignments with respect to the security as may be permitted under this section and further provide for the enforcement of any lien or security interest created pursuant to this section, and (ii)
contain any provisions for protecting and enforcing the rights and remedies of the owners of any certificates of participation that are reasonable and proper and not in violation of law as determined by the State Treasurer. The State Treasurer shall designate the professionals providing legal or financial services relating to the lease-purchase agreement and the delivery of certificates of participation, including the provider of any credit facility and the underwriter or placement agent for any certificates of participation.

(h) Tax Exemption. – The lease purchase agreement and any certificates of participation relating to it shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, or gift taxes, income taxes on the gain from the transfer of the lease-purchase agreement and certificates of participation, and franchise taxes. The interest component of the lease payments made by the State under the lease-purchase agreement, including the interest payable with respect to any certificates of participation, is not subject to taxation as income.

(i) Licensing Requirements. – The private for-profit or nonprofit firms authorized to respond to requests for proposal proposals authorized by this section, or entitled to be a Selected Contractor pursuant to any response to such proposal this section, need not be a licensed general contractor within the meaning of G.S. 87-1 so that providing a response to such request for proposal the request or entering a Construction Contract Agreement or Purchase Agreement shall not be deemed construction contract agreement or purchase agreement is not general contracting within the meaning of G.S. 87-1; provided that this subsection shall not be deemed to remove the actual construction of any prison facility from the provisions of G.S. 87-1.

(j) Minority Business Participation. – G.S. 143-128.2 applies to the Projects authorized in this section.

SECTION 47.2. The two 1000-cell close security prototypical prisons to be constructed in Greene County and Bertie County shall be constructed in accordance with the North Carolina State Building Code, 1996 Edition through 1999 revisions, if construction starts before January 1, 2004. This section applies only if the construction documents have been reviewed and approved by the Department of Insurance, the State Construction Office, and the Department of Correction.

S.B. 423

AN ACT TO CLARIFY AND ENHANCE CHILD SUPPORT ENFORCEMENT
LAWS.

The General Assembly of North Carolina enacts:

PART 1. LIQUIDATION
PART 2. LICENSING BOARDS
PART 3. PAY RECORDS

808
PART 4. FINANCIAL INSTITUTIONS
PART 5. EFFECTIVE DATES

PART 1. LIQUIDATION

SECTION 1. G.S. 50-13.4(c) reads as rewritten:
"(c) Payments ordered for the support of a minor child shall be in such amount as to meet the reasonable needs of the child for health, education, and maintenance, having due regard to the estates, earnings, conditions, accustomed standard of living of the child and the parties, the child care and homemaker contributions of each party, and other facts of the particular case. Payments ordered for the support of a minor child shall be on a monthly basis, due and payable on the first day of each month. The requirement that orders be established on a monthly basis does not affect the availability of garnishment of disposable earnings based on an obligor's pay period.

The court shall determine the amount of child support payments by applying the presumptive guidelines established pursuant to subsection (c1) of this section. However, upon request of any party, the Court shall hear evidence, and from the evidence, find the facts relating to the reasonable needs of the child for support and the relative ability of each parent to provide support. If, after considering the evidence, the Court finds by the greater weight of the evidence that the application of the guidelines would not meet or would exceed the reasonable needs of the child considering the relative ability of each parent to provide support or would be otherwise unjust or inappropriate the Court may vary from the guidelines. If the court orders an amount other than the amount determined by application of the presumptive guidelines, the court shall make findings of fact as to the criteria that justify varying from the guidelines and the basis for the amount ordered.

Payments ordered for the support of a child shall terminate when the child reaches the age of 18 except:

(1) If the child is otherwise emancipated, payments shall terminate at that time;

(2) If the child is still in primary or secondary school when the child reaches age 18, support payments shall continue until the child graduates, otherwise ceases to attend school on a regular basis, fails to make satisfactory academic progress towards graduation, or reaches age 20, whichever comes first, unless the court in its discretion orders that payments cease at age 18 or prior to high school graduation.

In the case of graduation, or attaining age 20, payments shall terminate without order by the court, subject to the right of the party receiving support to show, upon motion and with notice to the opposing party, that the child has not graduated or attained the age of 20.

If an arrearage for child support or fees due exists at the time that a child support obligation terminates, payments shall continue in the same total amount that was due under the terms of the previous court order or income withholding in effect at the time of the support obligation. The total amount of these payments is to be applied to the arrearage until all arrearages and fees are satisfied or until further order of the court."

SECTION 1.1. G.S. 110-135 reads as rewritten:
"
§ 110-135. Debt to State created.

Acceptance of public assistance by or on behalf of a dependent child creates a debt, in the amount of public assistance paid, due and owing the State by the responsible parent or parents of the child. Provided, however, that in those cases in which child
support was required to be paid incident to a court order during the time of receipt of public assistance, the debt shall be limited to the amount specified in such court order. This liability shall attach only to public assistance granted subsequent to June 30, 1975, and only with respect to the period of time during which public assistance is granted, and only if the responsible parent or parents were financially able to furnish support during this period.

The United States, the State of North Carolina, and any county within the State which has provided public assistance to or on behalf of a dependent child shall be entitled to share in any sum collected under this section, and their proportionate parts of such sum shall be determined in accordance with the matching formulas in use during the period for which assistance was paid.

No action to collect such debt shall be commenced after the expiration of five years subsequent to the receipt of the last grant of public assistance. The county attorney or an attorney retained by the county and/or State shall represent the State in all proceedings brought under this section.

Upon the termination of a child support obligation due to the death of the obligor, the Department shall determine whether the obligor's estate contains sufficient assets to satisfy any child support arrearages. If sufficient assets are available, the Department shall attempt to collect the arrearage.

**PART 2. LICENSING BOARDS**

**SECTION 2.** G.S. 93B-13(a) reads as rewritten:

"(a) Upon receipt of a court order, pursuant to G.S. 50-13.12, 50-13.12 and G.S. 110-142.1, revoking the occupational license of a licensee under its jurisdiction, an occupational licensing board shall note the revocation in its records, report the action within 30 days to the Department of Health and Human Services, and follow the normal postrevocation rules and procedures of the board as if the revocation had been ordered by the board. The revocation shall remain in effect until the board receives certification by the clerk of superior court or the Department of Health and Human Services in an IV-D case that the licensee is no longer delinquent in child support payments, or, as applicable, that the licensee is in compliance with or is no longer subject to the subpoena that was the basis for the revocation."

**PART 3. PAY RECORDS**

**SECTION 3.1.** G.S. 110-139(b) reads as rewritten:

"(b) In order to carry out the responsibilities imposed under this Article, the Department may request from any governmental department, board, commission, bureau or agency information and assistance. All State, county and city agencies, officers and employees shall cooperate with the Department in the location of parents who have abandoned and deserted children with all pertinent information relative to the location, income and property of such parents, notwithstanding any provision of law making such information confidential. Except as otherwise stated in this subsection, all nonjudicial records maintained by the Department pertaining to child-support enforcement shall be confidential, and only duly authorized representatives of social service agencies, public officials with child-support enforcement and related duties, and members of legislative committees shall have access to these records. The payment history of an obligor pursuant to a support order may be examined by or released to the court, the obligor, or the person on whose behalf enforcement actions are being taken or that person's designee. Income and expense information of either parent may be released to the other parent for the purpose of establishing or modifying a support order."
SECTION 3.2.  G.S. 50-13.11(a1) reads as rewritten:

"(a1) The court shall order the parent of a minor child or other responsible party to maintain health insurance for the benefit of the child when health insurance is available at a reasonable cost. If health insurance is not presently available at a reasonable cost, the court shall order the parent of a minor child or other responsible party to maintain health insurance for the benefit of the child when health insurance becomes available at a reasonable cost. As used in this subsection, health insurance is considered reasonable in cost if it is employment related or other group health insurance, regardless of service delivery mechanism. The court may require one or both parties to maintain dental insurance."

PART 4.  FINANCIAL INSTITUTIONS

SECTION 4.  G.S. 110-139.2 is amended by adding a new subsection to read:

"(b1) The Department of Health and Human Services Child Support Enforcement Agency may notify any financial institution doing business in this State that an obligor who maintains an identified account with the financial institution has a delinquent child support obligation that may be eligible for levy on the account in an amount that satisfies some or all of the delinquency. In order to be able to attach a lien on and levy an obligor's account, the obligor's child support obligation shall be in arrears in an amount not less than the amount of support owed for six months or one thousand dollars ($1,000), whichever is less.

Upon certification of the arrears amount in accordance with G.S. 44-86(c), the Child Support Agency shall serve or cause to be served upon the obligor and the financial institution a notice as provided by this subsection. The notice shall be served in any manner provided in Rule 4 of the North Carolina Rules of Civil Procedure and shall include the name of the obligor, the financial institution where the account is located, the account number of the account to be levied to satisfy the lien, the certified arrears amount, information for the obligor on how to remove the lien or contest the lien in order to avoid the levy, and a copy of the applicable law, G.S. 110-139.2. Upon service of the notice, the financial institution shall proceed in the following manner:

1. Immediately attach a lien to the identified account.
2. Notify the Child Support Agency of the balance of the account and date of the lien or that the account does not meet the requirement for levy under this subsection.

In order for an obligor to contest the lien, within 10 days after the obligor is served with the notice, the obligor shall send written notice of the basis of the obligor's contest to the Child Support Agency and shall request a hearing before the district court in the county where the support order was entered. The lien may be contested only on the basis that the arrearage is an amount less than the amount of support owed for six months, or is less than one thousand dollars ($1,000), or the obligor is not the person subject to the court order of support. The district court may assess court costs against the nonprevailing party. If no response is received from the obligor within 10 days of the service of the notice, the Child Support Agency shall notify the financial institution to submit payment, up to the total amount of the child support arrears, if available. This amount is to be applied to the debt of the delinquent obligor.

A financial institution shall not be liable to any person for complying in good faith with this subsection.

This levy procedure is to be available for direct use by all states' child support programs to financial institutions in this State."
PART 5.  EFFECTIVE DATES

In the General Assembly read three times and ratified this the 23rd day of June, 2003.

3. Evidence of coverage is provided to every renter who elects to purchase such coverage.

(g) Any limited license issued under this section shall also authorize any employee of the licensee who is trained, pursuant to subsection (h) of this section, to act individually on behalf, and under the supervision, of the licensee with respect to the kinds of insurance specified in this section.

(h) Each self-service storage company or franchisee licensed pursuant to this section shall conduct a training program which shall be submitted to the Commissioner for approval prior to use and which shall meet the following minimum standards:

3. Each trainee shall be instructed to acknowledge to a prospective renter of a storage unit that the renter may have insurance policies that already provide the coverage being offered by the self-service storage company pursuant to this section.
(i) Limited licensees acting pursuant to and under the authority of this section shall comply with all applicable provisions of this Article, except that notwithstanding any other provision of this Article, or any rule adopted by the Commissioner, a limited licensee pursuant to this section shall not be required to treat premiums collected from renters purchasing such insurance when renting storage units as funds received in a fiduciary capacity, provided that:

(1) The insurer represented by the limited licensee has consented in writing, signed by the insurer's officer, that premiums need not be segregated from funds received by the self-service storage company on account of storage unit rental; and

(2) The charges for insurance coverage are itemized but not billed to the renter separately from the charges for storage units.

(j) No limited licensee under this section shall advertise, represent, or otherwise hold itself or any of its employees out as licensed insurance agents or brokers. No renter or occupant may be required to obtain insurance under this section as a condition of obtaining a rental agreement for a storage unit. Decisions made pursuant to this subsection may be appealed to the Commission for a hearing in accordance with Chapter 150B of the General Statutes.

SECTION 4. G.S. 30-3.4 reads as rewritten:

"§ 30-3.4. Procedure for determining the elective share.

(a) Exercisable Only During Lifetime. – The right of the surviving spouse to file a claim for an elective share must be exercised during the lifetime of the surviving spouse, by the surviving spouse, the surviving spouse's agent under a power of attorney, or the guardian of the surviving spouse's estate. If a surviving spouse dies before the claim for an elective share has been settled, the surviving spouse's personal representative shall succeed to the surviving spouse's rights to an elective share.
(b) Time Limitations. – A claim for an elective share must be made within six months after the issuance of letters testamentary or letters of administration in connection with the will or intestate proceeding with respect to which the surviving spouse claims the elective share by (i) filing a petition with the clerk of superior court of the county in which the primary administration of the decedent's estate lies, and (ii) mailing or delivering a copy of that petition to the personal representative of the decedent's estate. A surviving spouse's incapacity shall not toll the six-month period of limitations.

(c) Time for Hearing. – Unless waived by the personal representative and the surviving spouse, the clerk shall set the matter for hearing no earlier than two months and no later than six months after the filing of the petition. However, the clerk may extend the time of hearing as the clerk sees fit. The surviving spouse shall give notice of the hearing to the personal representative, and to any person described in G.S. 30-3.5 who may be required to contribute toward the satisfaction of the elective share.

(d) Preparation of Tax Form. – In every case in which a petition to determine an elective share has been filed, and within two months of the filing of the petition, the personal representative shall prepare and submit to the clerk a proposed Form 706, federal estate tax return, for the estate, regardless of whether that form is required to be filed with the Internal Revenue Service. The clerk may extend the time for submission of the proposed Form 706 as the clerk sees fit.

(e) Valuation. – The valuation of interests in property for purposes of G.S. 30-3.2 and G.S. 30-3.3 shall be determined as follows:

1. Basic principles. – Each interest shall be valued at its fair market value, reduced by all liens, claims, or encumbrances against the interest. For interests passing at the decedent's death, valuation shall be as of the date of death, and for interests transferred during the decedent's lifetime, valuation shall be as of the date of transfer.

2. Valuation of partial and contingent interests in property. – The valuation of interests in property, outright or in trust, which are limited to commence or terminate upon the death of one or more persons, upon the expiration of a period of time, or upon the occurrence of one or more contingencies, shall be determined by computations based upon the mortuary and annuity tables set forth in G.S. 8-46 and G.S. 8-47, and upon the basis of six percent (6%) of the gross value of the underlying property in which those interests are limited. However, in valuing interests passing to the surviving spouse, the following special rules apply:

a. To the extent that the interest is dependent upon the exercise of discretion by a fiduciary, the interest shall have no value unless the spouse is serving as that fiduciary and the power to distribute the trust property constitutes a general power of appointment held by the spouse, as defined in section 2041 of the Code or the fiduciary is a Nonadverse Trustee required to utilize the income and principal for the exclusive benefit of the surviving spouse during the surviving spouse's lifetime. An interest described in G.S. 30-3.3(a)(7) that shall be valued as if the underlying property or interest passed outright to the surviving spouse unencumbered by any trust.
b. To the extent that the interest is dependent upon the occurrence of any contingency that is not subject to the control of the surviving spouse and that is not subject to valuation by reference to the mortuary and annuity tables set forth in G.S. 8-46 and G.S. 8-47, the contingency will be conclusively presumed to result in the lowest possible value passing to the surviving spouse. However, a life estate or income interest that will terminate only upon the earlier of the surviving spouse's death or remarriage will be valued without regard to the possibility of termination upon remarriage; and

c. To the extent that the valuation of an interest is dependent upon the life expectancy of the surviving spouse, that life expectancy shall be conclusively presumed to be no less than 10 years, regardless of the actual attained age of the surviving spouse at the decedent's death.

(3) Determination of fair market value. – The fair market value of each asset comprising Total Net Assets shall be determined as follows:

a. Probate assets and assets passing to spouse. – The value of each probate asset and Property Passing to Surviving Spouse, other than assets held in trust, shall be established by the good faith agreement of the surviving spouse and the personal representative, unless either (i) the surviving spouse is the personal representative, or (ii) the clerk determines that the personal representative may not be able to represent the estate adversely to the surviving spouse.

b. Trust assets. – The value of each trust asset shall be established by good faith agreement of the surviving spouse and the trustee, unless either (i) the surviving spouse is the trustee, or (ii) the clerk determines that the trustee may not be able to represent the trust adversely to the surviving spouse.

c. Other assets. – The value of any other asset shall be established by the good faith agreement of the surviving spouse and each person described in G.S. 30-3.5 who may be required to contribute toward the satisfaction of the elective share because of that person's interest in the asset, unless the clerk determines that valuation under sub-subdivision d. of this subdivision is more appropriate.

d. Use of disinterested persons. – If the value of any asset is not established by agreement, the clerk shall appoint one or more qualified and disinterested persons to determine a value of each asset. That determination of the value of an asset shall be final for the exclusive purposes of this Article.

(f) Findings and Conclusions. – After notice and hearing, the clerk shall determine whether or not the surviving spouse is entitled to an elective share, and if so, the clerk shall then determine the elective share and shall order the personal representative to transfer that amount to the surviving spouse. The clerk's order shall recite specific findings of fact and conclusions of law in arriving at the decedent's Total Net Assets, Property Passing to Surviving Spouse, and the elective share.
(g) Appeals. – Any party in interest may appeal from the decision of the clerk to the superior court. If an appeal is taken from the decision of the clerk, that appeal shall have the effect of staying the judgment and order of the clerk until the cause is heard and determined by the superior court upon the appeal taken. Upon an appeal taken from the clerk to the superior court, the judge may review the findings of fact by the clerk and may find the facts or take other evidence, but the facts found by the judge shall be final and conclusive upon any appeal to the Appellate Division."

SECTION 5.  G.S. 30-3.6 is amended by adding a new subsection to read:
"(c) A written waiver that would have been effective to waive a spouse's right to dissent in estates of decedents dying on or before December 31, 2000, under Article 1 of Chapter 30 of the General Statutes is effective to waive that spouse's right of elective share under this Article for estates of decedent's dying on or after January 1, 2001."  

SECTION 6.  Sections 5 and 6 of this act are effective when this act becomes law.  The remainder of this act becomes effective January 1, 2004, and applies to estates of decedents dying on or after that date.

(1) A member of the armed forces or the armed forces reserves of the United States on active duty in support of Operation Iraqi Freedom on or after January 1, 2003.

(2) A member of the North Carolina Army National Guard or the North Carolina Air National Guard called to active duty in support of Operation Iraqi Freedom on or after January 1, 2003.

_Section 2._ Proof. – Verification by the military member's command specifying deployment is conclusive evidence of the military member's deployment.

_Section 3._ Waiver of Deadlines, Fees, and Penalties. – Except as prohibited by the Constitution, the Governor may extend deadlines and waive penalties or fees as is necessary to alleviate hardship created for deployed military personnel serving in Operation Iraqi Freedom. This authority includes the authority to do all of the following:

(1) Extend for up to 90 days from the end of deployment the validity of a permanent or temporary drivers license issued under G.S. 20-7 to deployed military personnel.

(2) Waive civil penalties and restoration fees under G.S. 20-309 for any deployed military personnel whose motor vehicle liability insurance lapsed during the period of deployment or within 90 days after the military member returned to North Carolina if the military member certifies to the Division of Motor Vehicles that the motor vehicle was not driven on the highway by anyone during the period in which the motor vehicle was uninsured and that the owner now has liability insurance on the motor vehicle.

(3) Allow up to 90 days from the end of deployment for any deployed military personnel to renew a license as defined in G.S. 93B-1. During the period of deployment or active duty and until the expiration of the 90-day period provided for in this subdivision, expired licenses that are within the scope of this act remain valid, as if they had not expired.

(4) Require that any renewal fee applicable to the renewal of a license under subdivision (3) of this section be prorated over the period covered by the license and reduced in proportion to the period of time that the licensee was deployed outside the State.

_Section 4.(a)_ Property Taxes. – Notwithstanding G.S. 105-360 or G.S. 105-330.4, deployed military personnel are allowed 90 days after the end of their deployment to pay property taxes at par, for any property taxes that became due or delinquent during the term of the deployment. For these individuals, the taxes for the relevant tax year do not become delinquent until after the end of the 90-day period provided in this section, and an individual who pays the property taxes before the end of the 90-day period is not liable for interest on the taxes for the relevant tax year. If the individual does not pay the taxes before the end of the 90-day period, interest accrues on
the taxes according to the schedule provided in G.S. 105-360 or G.S. 105-330.4, as applicable, as though the taxes were unpaid as of the date the taxes would have become delinquent if not for this section.

SECTION 4.(b) Notwithstanding G.S. 105-307, deployed military personnel required to list property for taxation while deployed are allowed 90 days after the end of the deployment to list the property. For these individuals, the listing period for the relevant tax year is extended until the end of the 90-day period provided in this act, and an individual who lists the property before the end of the 90-day period is not subject to civil or criminal penalties for failure to list the property required to be listed during deployment.

Upon request of the student, all constituent institutions may issue a full refund of tuition and required fees to students who are involuntarily called to active duty in the military after a semester or term begins.

All constituent institutions should have a process for determining on a case-by-case basis whether to grant a full refund of tuition and required fees to students who volunteer for military service or who request to withdraw because of circumstances related to a national emergency.
Constituent institutions should determine under what circumstances students who withdraw because of military service or circumstances related to national emergencies should be given the option of receiving incompletes in their courses instead of receiving tuition and fee refunds.

Constituent institutions should determine whether or not to give full or pro rata refunds of housing, parking, and other optional fees to students to whom they give tuition and required fee refunds.

Constituent institutions that offer courses on military bases should defer to their contracts with the military in making determinations concerning withdrawal from courses due to changes in assignments of military personnel.

It is recommended that every campus review its policy on tuition refunds and make modifications necessary to cover the circumstances described in this section.

SECTION 6.(b) Legislative Tuition Grants. – Students who are receiving the North Carolina Legislative Tuition Grant who lose their full-time student status due to a call to active military duty or circumstances related to national emergencies shall not be required to repay the Legislative Tuition Grant for that semester. If the parent, guardian, custodian, or caretaker is personally served as herein provided and fails without reasonable cause to appear and to bring the juvenile before the court, the parent, guardian, custodian, or caretaker may be proceeded against as for contempt of court."

SECTION 2. G.S. 7B-1109(d) reads as rewritten:

"(d) The court may for good cause shown continue the hearing for such time as is required for receiving up to 90 days from the date of the initial petition in order to receive additional evidence, evidence including any reports or assessments which the court has requested, to allow the parties to conduct expeditious discovery, or any other information needed in the best interests of the juvenile. Continuances that extend beyond 90 days after the initial petition shall be granted only in extraordinary circumstances when necessary for the proper administration of justice, and the court shall issue a written order stating the grounds for granting the continuance."

SECTION 3. G.S. 115C-378 reads as rewritten:

"§ 115C-378. Children required to attend.

Every parent, guardian or other person in this State having charge or control of a child between the ages of seven and 16 years shall cause such child to attend school continuously for a period equal to the time which the public school to which the child is assigned shall be in session. Every parent, guardian, or other person in this State having charge or control of a child under age seven who is enrolled in a public school in grades kindergarten through two shall also cause such child to attend school continuously for a period equal to the time which the public school to which the child is assigned shall be in session unless the child has withdrawn from school. No person shall encourage, entice or counsel any such child to be unlawfully absent from school. The parent, guardian, or custodian of a child shall notify the school of the reason for each known absence of the child, in accordance with local school policy.

The principal, superintendent, or teacher who is in charge of such school shall have the right to excuse a child temporarily from attendance on account of sickness or other unavoidable cause which does not constitute unlawful absence as defined by the State Board of Education. The term "school" as used herein is defined to embrace all
public schools and such nonpublic schools as have teachers and curricula that are approved by the State Board of Education.

All nonpublic schools receiving and instructing children of a compulsory school age shall be required to keep such records of attendance and render such reports of the attendance of such children and maintain such minimum curriculum standards as are required of public schools; and attendance upon such schools, if the school refuses or neglects to keep such records or to render such reports, shall not be accepted in lieu of attendance upon the public school of the district to which the child shall be assigned.

Provided, that instruction in a nonpublic school shall not be regarded as meeting the requirements of the law unless the courses of instruction run concurrently with the term of the public school in the district and extend for at least as long a term.

The principal or his designee shall notify the parent, guardian, or custodian of his child's excessive absences after the child has accumulated three unexcused absences in a school year. After not more than six unexcused absences, the principal shall notify the parent, guardian, or custodian by mail that he may be in violation of the Compulsory Attendance Law and may be prosecuted if the absences cannot be justified under the established attendance policies of the State and local boards of education. Once the parents are notified, the school attendance counselor shall work with the child and his family to analyze the causes of the absences and determine steps, including adjustment of the school program or obtaining supplemental services, to eliminate the problem. The attendance counselor may request that a law-enforcement officer accompany him if he believes that a home visit is necessary.

After 10 accumulated unexcused absences in a school year, the principal shall review any report or investigation prepared under G.S. 115C-381 and shall confer with the student and his parent, guardian, or custodian to determine whether the parent, guardian, or custodian has received notification pursuant to this section and made a good faith effort to comply with the law. If the principal determines that the parent, guardian, or custodian has not made a good faith effort to comply with the law, he shall notify the district attorney and the director of social services of the county where the child resides. If he determines that the parent, guardian, or custodian has made a good faith effort to comply with the law, he may file a complaint with the juvenile court counselor pursuant to Chapter 7B of the General Statutes that the child is habitually absent from school without a valid excuse. Evidence that shows that the parents, guardian, or custodian were notified and that the child has accumulated 10 absences which cannot be justified under the established attendance policies of the local board shall establish a prima facie case that the child's parent, guardian, or custodian is responsible for the absences. Upon receiving notification by the principal, the director of social services shall determine whether to undertake an investigation under G.S. 7B-302.

**SECTION 4.** G.S. 131D-10.3A(b) reads as rewritten:

SECTION 6. G.S. 95-137(b) reads as rewritten:

"(b) Procedure for Enforcement. –
(1) If, after an inspection or investigation, the Director issues a citation under any provisions of this Article, the Director shall, within a reasonable time after the termination of such inspection or investigation, notify the employer by certified mail, by a designated delivery service authorized pursuant to 26 U.S.C. § 7502(f)(2) with delivery receipt, or via hand delivery of any penalty, if any, the Director has recommended to the Commissioner to be proposed under the provisions of this Article and that the employer has 15 working days within which to notify the Director that the employer wishes to:
a. Contest the citation or proposed assessment of penalty; or
b. Request an informal conference.
Following an informal conference, unless the employer and Department have entered into a settlement agreement, the Director shall send the employer an amended citation or notice of no change. The employer has 15 working days from the receipt of the amended citation or notice of no change to notify the Director that the employer wishes to contest the citation or proposed assessment of penalty, whether or not amended. If, within 15 working days from the receipt of the notice issued by the Director, the employer fails to notify the Director that the employer requires an informal conference to be held or intends to contest the citation or proposed assessment of penalty,
and no notice is filed by any employee or representative of employees under the provisions of this Article within such time, the citation and the assessment as proposed to the Commissioner shall be deemed final and not subject to review by any court.

(2) If the Director has reason to believe that an employer has failed to correct a violation for which a citation has been issued within the period permitted for its correction (which period shall not begin to run until the entry of a final order by the Board in case of any review proceedings under this Article initiated by the employer in good faith and not solely for a delay or avoidance of penalties), the Director shall notify the employer by certified mail, mail, by a designated delivery service authorized pursuant to 26 U.S.C. § 7502(f)(2) with delivery receipt, or via hand delivery of such failure and of the penalty proposed to be assessed under this Article by reason of such failure and that the employer has 15 working days within which to notify the Director that the employer wishes to contest the Director's notification of the proposed assessment of penalty. (3) No citation may be issued under this section after the expiration of six months following the occurrence of any violation.

(4) If an employer notifies the Director that the employer intends to contest a citation issued under the provisions of this Article or notification issued under the provisions of this Article, or if, within 15 working days of the receipt of a citation under this Article, any employee or representative thereof files a notice with the Director alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the Director shall immediately advise the Board of such notification, and the Board shall afford an opportunity for a hearing. The Board shall thereafter issue an order, based on findings of fact, affirming, modifying, or vacating the Director's citation or the proposed penalty fixed by the Commissioner, or directing other appropriate relief, and such order shall become final 30 days after its issuance. Upon showing by an employer of a good faith effort to comply with the abatement requirements of a citation, and that an abatement has not been completed because of factors beyond the employer's reasonable control, the Director, after an opportunity for a hearing as provided in this Article, shall issue an order affirming or modifying the abatement requirements in such citation. The rules of procedure prescribed by the chairman of the Board shall provide affected employees or representatives of affected employees an opportunity to participate as parties to hearings under this section.

(5) Repealed by Session Laws 1993, c. 300, s. 2.

In determining the amount of the penalty, the Commissioner shall consider:
(1) The appropriateness of the penalty for the size of the business of the employer charged; and
(2) The gravity of the violation.

The determination by the Commissioner shall be final, unless within 15 days after receipt of notice thereof by certified mail, mail or by a designated delivery service authorized pursuant to 26 U.S.C. § 7502(f)(2) with delivery receipt, the person charged with the violation takes exception to the determination, in which event final determination of the penalty shall be made in an administrative proceeding pursuant to Article 3 of Chapter 150B and which final determination shall be subject to judicial review in a judicial proceeding pursuant to Article 4 of Chapter 150B."

SECTION 8. G.S. 95-25.3A is repealed.

SECTION 9. G.S. 95-47.2 reads as rewritten:
"§ 95-47.2. Licensing procedures.
(a) No person shall open, keep, maintain, own, operate or carry on a private personnel service unless the person has first procured a license therefor as provided in this Article.

(b) An application for license shall be made to the Commissioner. If the private personnel service is owned by an individual, the application shall be made by that individual; if the service is owned by a partnership, the application shall be made by all partners; if the service is owned by a corporation, the application shall be made by all stockholders who own at least twenty percent (20%) of the issued and outstanding voting stock of the corporation, or if the service is owned by an association, society, or corporation in which no one individual owns at least twenty percent (20%) of the issued and outstanding voting stock, the application shall be made by the president, vice-president, secretary and treasurer of the owner, by whatever title designated. The application shall state the name and address of the individual who is responsible for the direction and operation of the placement activities of the private personnel service whether that individual be one of the applicants or another person; whether or not that individual has ever been employed in a private personnel service; the name and address of each of the license applicant's prior employers during the five years immediately preceding the license application; and such other information relating to the good moral character of that individual as the Commissioner may require. No change in such persons shall take place without prior notification to the Commissioner.

(c) Each application for license shall be in writing and in the form prescribed by the Commissioner, and shall state truthfully the name under which the business is to be conducted; the street and number of the building or place where the business is to be conducted.
(d) Upon the receipt of an application for a license the Commissioner:

(1) Shall publish a notice of the pending application in a newspaper of general circulation in the area of the proposed location of the employment agency and may publish the notice in a newspaper of general circulation in each area in which the applicant (or if a corporation, the president and majority shareholder) has resided during the five years preceding the time of the application. The applicant shall incur the cost associated with the publication of this legal advertisement. The notice shall include a statement informing individuals of their right to protest the issuance of a license by filing within 10 days written comments with the Commissioner. The protest shall be in writing and signed by the person filing the protest or by his authorized agent or attorney, and shall state reasons why the license should not be granted. Upon the filing of a protest, the Commissioner, if he determines the protest to be of such a nature that a hearing should be conducted and that the protest is for a cause on which denial of a license may properly be based, shall appoint a time and place for a hearing on the application and shall give at least seven days' notice of that time and place to the license applicant and to the person filing the protest. The hearing shall be conducted in accordance with the provisions of the rules of the Administrative Procedure Act.

(2) Shall investigate the character, criminal record and business integrity of each applicant for agency license and shall investigate the criminal records of all persons listed as agency owners, officers, directors or managers. The applicant and all agency owners, officers, directors and managers shall assist the department in obtaining necessary information by authorizing the release of all relevant information. The applicant shall incur the cost associated with this background investigation.

(2a) The Department of Justice may provide a criminal record check to the Commissioner for a person or agency who has applied for a license through the Commissioner. The Commissioner shall provide to the Department of Justice, along with the request, the fingerprints of all applicants, any additional information required by the Department of Justice, and a form signed by the applicants consenting to the check of the criminal record and to the use of the fingerprints and other identifying information required by the State or national repositories. The applicants' fingerprints shall be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of the fingerprints to the Federal Bureau of Investigation for a national criminal history check. The Commissioner shall keep all information pursuant to this subdivision privileged, in accordance with applicable State law and federal guidelines, and the information shall be confidential and shall not be a public record under Chapter 132 of the General Statutes.

The Department of Justice may charge each applicant a fee for conducting the checks of criminal history records authorized by this subdivision.
Upon completion of the investigation, or 30 days after the application was received, whichever is later, but in no case more than 45 days after the application was received, shall determine whether or not a license should be issued. The license shall be denied for any of the following reasons:

a. If the applicant for agency license, or the president or majority shareholder of a corporate applicant, omits or falsifies any material information asked for in the application and required by the Commissioner.

b. If any owner, officer, director or manager of the employment agency:
   1. Has been convicted in any state of the criminal offense of embezzlement, obtaining money under false pretenses, forgery, conspiracy to defraud or any similar offense involving fraud or moral turpitude;
   2. Was an owner, officer, director or manager of an employment agency or other business whose license was revoked or that was otherwise caused to cease operation by action of any State or federal agency or court because of violations of law or regulation relating to deceptive or unfair practices in the conduct of business;
   3. As an owner or manager of an employment agency or other business or as an employment counselor was found by any State or federal agency or court to have violated any law or regulation relating to deceptive or unfair practices in the conduct of business; or
   4. In any other demonstrable way engaged in deceptive or unfair practices in the conduct of business;

c. If the employment agency will be operated on the same premises as a loan agency (as defined in G.S. 105-88) or collection agency (as defined in G.S. 58-70-15).

If it appears upon the hearing or from the inspection, examination or investigation made by the Commissioner that the owners, partners, corporation officers or the agency manager are not persons of good moral character or that the license applicant has not complied with the provisions of this Article, the application shall be denied and a license shall not be granted. The Commissioner shall find facts to substantiate his denial of the issuance of a license. Each application shall be granted or refused within 30 days from the date of its filing, or if a hearing is held, within 45 days. Any license heretofore or hereafter issued shall expire 12 months from the date of its issuance, and shall be renewed as hereinafter provided unless sooner revoked by the Commissioner.

No license shall be granted to a person to operate as a private personnel service where the name of the business is similar or identical to that of any existing licensed business (except where a franchiser has licensed two or more persons to use the same name within the State) or directly or indirectly expresses or connotes any limitation, specification or discrimination contrary to current State or federal laws against discrimination in employment.
(g) Every license shall contain the name of the person licensed and shall designate the city in which the license is issued, the name of the manager and date of the license. The license shall be displayed in a conspicuous place in the area where job applicants are received by the agency.

(h) A license granted as provided in this Article shall not be valid for any person other than the person to whom it is issued or for any place other than that designated in the license and shall not be assigned or transferred without the consent of the Commissioner, whose consent must be based on the standards contained in this Article. Applications for consent to assign or transfer shall be made in the same manner as an application for a license, and all the provisions of this Article shall apply to applications for consent. The location of a private personnel service shall not be changed without notice to the Commissioner, and any change of location shall be endorsed upon the license. A person who has obtained a license in accordance with the provisions of this Article may apply for additional licenses to conduct additional private personnel services in accordance with the provisions of this Article. The manner of application, and the conditions and terms applicable to the issuance of the additional licenses shall be the same as for an original license. The same agency manager may be designated in all such licenses.

(i) Temporary license. – If ownership of a licensed private personnel service is transferred, the department shall issue a temporary license to any new owner or successor if it appears to the department that issuance of such a license would serve the public interest. A temporary license shall be effective for a period of 90 days and shall not be renewed.

(j) Each licensee shall, before the license is issued or renewed, deposit with the department a bond payable to the State of North Carolina and executed by a surety company duly authorized to transact business in the State of North Carolina in the amount of ten thousand dollars ($10,000) and upon condition that the private personnel service will pay to applicants all refunds due under this Article and regulations adopted hereunder if the private personnel service terminates its business."

SECTION 10. G.S. 95-47.7 is repealed.
SECTION 11. G.S. 95-47.8 is repealed.

Before such rules are presented to the Advisory Council, the Commissioner shall conduct a public hearing, giving due notice thereof to all interested parties and shall afford the opportunity for written comments. No rule shall become effective until 60 days after the public hearing and Advisory Council approval, and copies thereof shall be furnished to all private personnel services at least 30 days

(a) Notwithstanding any confidentiality agreement entered into between the injured person and the payor of proceeds as settlement of compensation for injuries, upon the lienholder's written request and the lienholder's written agreement to be bound by any confidentiality agreements regarding the contents of the accounting, any person distributing funds to a lienholder under this Article in an amount less than the amount claimed by that lienholder shall provide to that lienholder a certification with sufficient information to demonstrate that the distribution was pro rata and consistent with this Article. H.B. 1140 Session Law 2003-310

AN ACT TO AUTHORIZE THE QUICK REMOVAL OF VEHICLES, CARGO, OR OTHER PERSONAL PROPERTY FROM CONTROLLED-ACCESS HIGHWAYS AND TO ALLOW DRIVERS TO REMOVE VEHICLES FROM TRAVEL LANES OF A HIGHWAY FOLLOWING MINOR ACCIDENTS, IF THE VEHICLES CAN BE SAFELY MOVED.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-161 reads as rewritten:

"§ 20-161. Stopping on highway prohibited; warning signals; removal of vehicles from public highway.

(a) No person shall park or leave standing any vehicle, whether attended or unattended, upon the paved or main-traveled portion of any highway or highway bridge outside municipal corporate limits unless the vehicle is disabled to such an extent that it is impossible to avoid stopping and temporarily leaving the vehicle upon the paved or main traveled portion of the highway or highway bridge.

(b) No person shall park or leave standing any vehicle upon the shoulder of a public highway outside municipal corporate limits unless the vehicle can be clearly seen by approaching drivers from a distance of 200 feet in both directions and does not obstruct the normal movement of traffic.

(c) The operator of any truck, truck tractor, trailer or semitrailer which is disabled upon any portion of the highway shall display warning devices of a type and in a manner as required under the rules and regulations of the United States Department of Transportation as adopted by the Division of Motor Vehicles. Such warning devices shall be displayed as long as the vehicle is disabled.

(d) The owner of any vehicle parked or left standing in violation of law shall be deemed to have appointed any investigating law-enforcement officer his agent:

(1) For the purpose of removing the vehicle to the shoulder of the highway or to some other suitable place; and

(2) For the purpose of arranging for the transportation and safe storage of any vehicle which is interfering with the regular flow of traffic or which otherwise constitutes a hazard, in which case the officer shall be deemed a legal possessor of the vehicle within the meaning of G.S. 44A-2(d).

(e) When any vehicle is parked or left standing upon the right-of-way of a public highway for a period of 48 hours or more, the owner shall be deemed to have appointed any investigating law-enforcement officer his agent for the purpose of arranging for the transportation and safe storage of such vehicle and such investigating law-enforcement officer shall be deemed a legal possessor of the motor vehicle within the meaning of that term as it appears in G.S. 44A-2(d)."
(f) Any investigating law enforcement officer, with the concurrence of the Department of Transportation, may immediately remove or cause to be removed from a controlled-access highway any wrecked, abandoned, disabled, unattended, burned, or partially dismantled vehicle, cargo, or other personal property interfering with the regular flow of traffic or which otherwise constitutes a hazard. In the event of a motor vehicle crash involving serious personal injury or death, no removal shall occur until the investigating law enforcement officer determines that adequate information has been obtained for preparation of a crash report. No state or local law enforcement officer, Department of Transportation employee, or person or firm contracting or assisting in the removal or disposition of any such vehicle, cargo, or other personal property shall be held criminally or civilly liable for any damage or economic injury related to carrying out or enforcing the provisions of this section.

(g) The owner shall be liable for any costs incurred in the removal, storage, and subsequent disposition of a vehicle, cargo, or other personal property under the authority of this section.

SECTION 2. G.S. 20-166 is amended by adding a new subsection to read:

"(c2) If an accident or collision occurs on a main lane, ramp, shoulder, median, or adjacent area of a highway, each vehicle shall be moved as soon as possible out of the travel lane and onto the shoulder or to a designated accident investigation site to complete the requirements of this section and minimize interference with traffic if all of the following apply:

(1) The accident or collision has not resulted in injury or death to any person or the drivers did not know or have reason to know of any injury or death.

(2) Each vehicle can be normally and safely driven. For purposes of this subsection, a vehicle can be normally and safely driven if it does not require towing and can be operated under its own power and in its usual manner, without additional damage or hazard to the vehicle, other traffic, or the roadway."

SECTION 3. This act becomes effective October 1, 2003.

In the General Assembly read three times and ratified this the 30th day of June, 2003.

Became law upon approval of the Governor at 11:25 a.m. on the 10th day of July, 2003.

H.B. 1023 Session Law 2003-311

AN ACT TO ALLOW INTERPOLICY STACKING OF UNINSURED MOTORIST COVERAGE, TO AMEND THE DEFINITION OF UNDERINSURED HIGHWAY VEHICLE, AND TO CLARIFY THE AMOUNT OF UNDERINSURED LIABILITY COVERAGE AVAILABLE WHEN MULTIPLE PARTIES ARE INJURED IN MOTOR VEHICLE ACCIDENTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-279.21(b)(3) reads as rewritten:

"(3) No policy of bodily injury liability insurance, covering liability arising out of the ownership, maintenance, or use of any motor vehicle, shall be delivered or issued for delivery in this State with respect to any motor vehicle registered or principally garaged in this State unless
coverage is provided therein or supplemental thereto, under provisions filed with and approved by the Commissioner of Insurance, for the protection of persons insured thereunder who are legally entitled to recover damages from owners or operators of uninsured motor vehicles and hit-and-run motor vehicles because of bodily injury, sickness or disease, including death, resulting therefrom, in an amount not to be less than the financial responsibility amounts for bodily injury liability as set forth in G.S. 20-279.5 nor greater than one million dollars ($1,000,000), as selected by the policy owner. The provisions shall include coverage for the protection of persons insured thereunder who are legally entitled to recover damages from owners or operators of uninsured motor vehicles because of injury to or destruction of the property of such insured, with a limit in the aggregate for all insureds in any one accident of up to the limits of property damage liability in the owner's policy of liability insurance, and subject, for each insured, to an exclusion of the first one hundred dollars ($100.00) of such damages. The provision shall further provide that a written statement by the liability insurer, whose name appears on the certification of financial responsibility made by the owner of any vehicle involved in an accident with the insured, that the other motor vehicle was not covered by insurance at the time of the accident with the insured shall operate as a prima facie presumption that the operator of the other motor vehicle was uninsured at the time of the accident with the insured for the purposes of recovery under this provision of the insured's liability insurance policy. The coverage required under this subdivision is not applicable where any insured named in the policy rejects the coverage. An insured named in the policy may select different coverage limits as provided in this subdivision. If the named insured in the policy does not reject uninsured motorist coverage and does not select different coverage limits, the amount of uninsured motorist coverage shall be equal to the highest limit of bodily injury and property damage liability coverage for any one vehicle in the policy. Once the option to reject the uninsured motorist coverage or to select different coverage limits is offered by the insurer, the insurer is not required to offer the option in any renewal, reinstatement, substitute, amended, altered, modified, transfer, or replacement policy unless the named insured makes a written request to exercise a different option. The selection or rejection of uninsured motorist coverage or the failure to select or reject by a named insured is valid and binding on all insureds and vehicles under the policy. Rejection of or selection of different coverage limits for uninsured motorist coverage for policies under the jurisdiction of the North Carolina Rate Bureau shall be made in writing by a named insured on a form promulgated by the Bureau and approved by the Commissioner of Insurance.

Where coverage is provided on more than one vehicle insured on the same policy or where the owner or the named insured has more than one policy with coverage under this subdivision, there shall not be permitted any combination of coverage within a policy or where more
than one policy may apply to determine the total amount of coverage available.

If a person who is legally entitled to recover damages from the owner or operator of an uninsured motor vehicle is an insured under the uninsured motorist coverage of a policy that insures more than one motor vehicle, that person shall not be permitted to combine the uninsured motorist limit applicable to any one motor vehicle with the uninsured motorist limit applicable to any other motor vehicle to determine the total amount of uninsured motorist coverage available to that person. If a person who is legally entitled to recover damages from the owner or operator of an uninsured motor vehicle is an insured under the uninsured motorist coverage of more than one policy, that person may combine the highest applicable uninsured motorist limit available under each policy to determine the total amount of uninsured motorist coverage available to that person. The previous sentence shall apply only to insurance on nonfleet private passenger motor vehicles as described in G.S. 58-40-10(1) and (2).

In addition to the above requirements relating to uninsured motorist insurance, every policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance or use of any motor vehicle, which policy is delivered or issued for delivery in this State, shall be subject to the following provisions which need not be contained therein.

a. A provision that the insurer shall be bound by a final judgment taken by the insured against an uninsured motorist if the insurer has been served with copy of summons, complaint or other process in the action against the uninsured motorist by registered or certified mail, return receipt requested, or in any manner provided by law; provided however, that the determination of whether a motorist is uninsured may be decided only by an action against the insurer alone. The insurer, upon being served as herein provided, shall be a party to the action between the insured and the uninsured motorist though not named in the caption of the pleadings and may defend the suit in the name of the uninsured motorist or in its own name. The insurer, upon being served with copy of summons, complaint or other pleading, shall have the time allowed by statute in which to answer, demur or otherwise plead (whether the pleading is verified or not) to the summons, complaint or other process served upon it. The consent of the insurer shall not be required for the initiation of suit by the insured against the uninsured motorist: Provided, however, no action shall be initiated by the insured until 60 days following the posting of notice to the insurer at the address shown on the policy or after personal delivery of the notice to the insurer or its agent setting forth the belief of the insured that the prospective defendant or defendants are uninsured motorists. No default judgment shall be entered when the insurer has timely filed an answer or other pleading as required by law. The failure to post notice to the
insurer 60 days in advance of the initiation of suit shall not be
grounds for dismissal of the action, but shall automatically
extend the time for the filing of an answer or other pleadings to
60 days after the time of service of the summons, complaint, or
other process on the insurer.

b. Where the insured, under the uninsured motorist coverage,
claims that he has sustained bodily injury as the result of
collision between motor vehicles and asserts that the identity of
the operator or owner of a vehicle (other than a vehicle in which
the insured is a passenger) cannot be ascertained, the insured
may institute an action directly against the insurer: Provided, in
that event, the insured, or someone in his behalf, shall report the
accident within 24 hours or as soon thereafter as may be
practicable, to a police officer, peace officer, other judicial
officer, or to the Commissioner of Motor Vehicles. The insured
shall also within a reasonable time give notice to the insurer of
his injury, the extent thereof, and shall set forth in the notice the
time, date and place of the injury. Thereafter, on forms to be
mailed by the insurer within 15 days following receipt of the
notice of the accident to the insurer, the insured shall furnish to
insurer any further reasonable information concerning the
accident and the injury that the insurer requests. If the forms are
not furnished within 15 days, the insured is deemed to have
complied with the requirements for furnishing information to
the insurer. Suit may not be instituted against the insurer in less
than 60 days from the posting of the first notice of the injury or
accident to the insurer at the address shown on the policy or
after personal delivery of the notice to the insurer or its agent.
The failure to post notice to the insurer 60 days before the
initiation of the suit shall not be grounds for dismissal of the
action, but shall automatically extend the time for filing of an
answer or other pleadings to 60 days after the time of service of
the summons, complaint, or other process on the insurer.

Provided under this section the term "uninsured motor vehicle"
shall include, but not be limited to, an insured motor vehicle where the
liability insurer thereof is unable to make payment with respect to the
legal liability within the limits specified therein because of insolvency.

An insurer's insolvency protection shall be applicable only to
accidents occurring during a policy period in which its insured's
uninsured motorist coverage is in effect where the liability insurer of
the tort-feasor becomes insolvent within three years after such an
accident. Nothing herein shall be construed to prevent any insurer from
affording insolvency protection under terms and conditions more
favorable to the insured than is provided herein.

In the event of payment to any person under the coverage required
by this section and subject to the terms and conditions of coverage, the
insurer making payment shall, to the extent thereof, be entitled to the
proceeds of any settlement for judgment resulting from the exercise of
any limits of recovery of that person against any person or
organization legally responsible for the bodily injury for which the payment is made, including the proceeds recoverable from the assets of the insolvent insurer.

For the purpose of this section, an "uninsured motor vehicle" shall be a motor vehicle as to which there is no bodily injury liability insurance and property damage liability insurance in at least the amounts specified in subsection (c) of G.S. 20-279.5, or there is that insurance but the insurance company writing the insurance denies coverage thereunder, or has become bankrupt, or there is no bond or deposit of money or securities as provided in G.S. 20-279.24 or 20-279.25 in lieu of the bodily injury and property damage liability insurance, or the owner of the motor vehicle has not qualified as a self-insurer under the provisions of G.S. 20-279.33, or a vehicle that is not subject to the provisions of the Motor Vehicle Safety and Financial Responsibility Act; but the term "uninsured motor vehicle" shall not include:

a. A motor vehicle owned by the named insured;
b. A motor vehicle that is owned or operated by a self-insurer within the meaning of any motor vehicle financial responsibility law, motor carrier law or any similar law;
c. A motor vehicle that is owned by the United States of America, Canada, a state, or any agency of any of the foregoing (excluding, however, political subdivisions thereof);
d. A land motor vehicle or trailer, if operated on rails or crawler-treads or while located for use as a residence or premises and not as a vehicle; or
e. A farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

For purposes of this section "persons insured" means the named insured and, while resident of the same household, the spouse of any named insured and relatives of either, while in a motor vehicle or otherwise, and any person who uses with the consent, expressed or implied, of the named insured, the motor vehicle to which the policy applies and a guest in the motor vehicle to which the policy applies or the personal representative of any of the above or any other person or persons in lawful possession of the motor vehicle."

SECTION 2. G.S. 20-279.21(b)(4) reads as rewritten:

"(4) Shall, in addition to the coverages set forth in subdivisions (2) and (3) of this subsection, provide underinsured motorist coverage, to be used only with a policy that is written at limits that exceed those prescribed by subdivision (2) of this section and that afford uninsured motorist coverage as provided by subdivision (3) of this subsection, in an amount not to be less than the financial responsibility amounts for bodily injury liability as set forth in G.S. 20-279.5 nor greater than one million dollars ($1,000,000) as selected by the policy owner. An "uninsured motor vehicle," as described in subdivision (3) of this subsection, includes an "underinsured highway vehicle," which means a highway vehicle with respect to the ownership, maintenance, or use
of which, the sum of the limits of liability under all bodily injury liability bonds and insurance policies applicable at the time of the accident is less than the applicable limits of underinsured motorist coverage for the vehicle involved in the accident and insured under the owner's policy. For purposes of an underinsured motorist claim asserted by a person injured in an accident where more than one person is injured, a highway vehicle will also be an "underinsured highway vehicle" if the total amount actually paid to that person under all bodily injury liability bonds and insurance policies applicable at the time of the accident is less than the applicable limits of underinsured motorist coverage for the vehicle involved in the accident and insured under the owner's policy. Notwithstanding the immediately preceding sentence, a highway vehicle shall not be an 'underinsured motor vehicle' for purposes of an underinsured motorist claim under an owner's policy insuring that vehicle if the owner's policy insuring that vehicle provides underinsured motorist coverage with limits that are less than or equal to that policy's bodily injury liability limits. For the purposes of this subdivision, the term "highway vehicle" means a land motor vehicle or trailer other than (i) a farm-type tractor or other vehicle designed for use principally off public roads and while not upon public roads, (ii) a vehicle operated on rails or crawler-treads, or (iii) a vehicle while located for use as a residence or premises. The provisions of subdivision (3) of this subsection shall apply to the coverage required by this subdivision. Underinsured motorist coverage is deemed to apply when, by reason of payment of judgment or settlement, all liability bonds or insurance policies providing coverage for bodily injury caused by the ownership, maintenance, or use of the underinsured highway vehicle have been exhausted. Exhaustion of that liability coverage for the purpose of any single liability claim presented for underinsured motorist coverage is deemed to occur when either (a) the limits of liability per claim have been paid upon the claim, or (b) by reason of multiple claims, the aggregate per occurrence limit of liability has been paid. Underinsured motorist coverage is deemed to apply to the first dollar of an underinsured motorist coverage claim beyond amounts paid to the claimant under the exhausted liability policy.

In any event, the limit of underinsured motorist coverage applicable to any claim is determined to be the difference between the amount paid to the claimant under the exhausted liability policy or policies and the limit of underinsured motorist coverage applicable to the motor vehicle involved in the accident. Furthermore, if a claimant is an insured under the underinsured motorist coverage on separate or additional policies, the limit of underinsured motorist coverage applicable to the claimant is the difference between the amount paid to the claimant under the exhausted liability policy or policies and the total limits of the claimant's underinsured motorist coverages as determined by combining the highest limit available under each policy; provided that this sentence shall apply only to insurance on nonfleet private passenger motor vehicles as described in G.S. 58-40-15(9) and
(10). The underinsured motorist limits applicable to any one motor vehicle under a policy shall not be combined with or added to the limits applicable to any other motor vehicle under that policy.

An underinsured motorist insurer may at its option, upon a claim pursuant to underinsured motorist coverage, pay moneys without there having first been an exhaustion of the liability insurance policy covering the ownership, use, and maintenance of the underinsured highway vehicle. In the event of payment, the underinsured motorist insurer shall be either: (a) entitled to receive by assignment from the claimant any right or (b) subrogated to the claimant’s right regarding any claim the claimant has or had against the owner, operator, or maintainer of the underinsured highway vehicle, provided that the amount of the insurer's right by subrogation or assignment shall not exceed payments made to the claimant by the insurer. No insurer shall exercise any right of subrogation or any right to approve settlement with the original owner, operator, or maintainer of the underinsured highway vehicle under a policy providing coverage against an underinsured motorist where the insurer has been provided with written notice before a settlement between its insured and the underinsured motorist and the insurer fails to advance a payment to the insured in an amount equal to the tentative settlement within 30 days following receipt of that notice. Further, the insurer shall have the right, at its election, to pursue its claim by assignment or subrogation in the name of the claimant, and the insurer shall not be denominated as a party in its own name except upon its own election. Assignment or subrogation as provided in this subdivision shall not, absent contrary agreement, operate to defeat the claimant's right to pursue recovery against the owner, operator, or maintainer of the underinsured highway vehicle for damages beyond those paid by the underinsured motorist insurer. The claimant and the underinsured motorist insurer may join their claims in a single suit without requiring that the insurer be named as a party. Any claimant who intends to pursue recovery against the owner, operator, or maintainer of the underinsured highway vehicle for moneys beyond those paid by the underinsured motorist insurer shall before doing so give notice to the insurer and give the insurer, at its expense, the opportunity to participate in the prosecution of the claim. Upon the entry of judgment in a suit upon any such claim in which the underinsured motorist insurer and claimant are joined, payment upon the judgment, unless otherwise agreed to, shall be applied pro rata to the claimant's claim beyond payment by the insurer of the owner, operator or maintainer of the underinsured highway vehicle and the claim of the underinsured motorist insurer.

A party injured by the operation of an underinsured highway vehicle who institutes a suit for the recovery of moneys for those injuries and in such an amount that, if recovered, would support a claim under underinsured motorist coverage shall give notice of the initiation of the suit to the underinsured motorist insurer as well as to the insurer providing primary liability coverage upon the underinsured highway vehicle. Upon receipt of notice, the underinsured motorist
insurer shall have the right to appear in defense of the claim without being named as a party therein, and without being named as a party may participate in the suit as fully as if it were a party. The underinsured motorist insurer may elect, but may not be compelled, to appear in the action in its own name and present therein a claim against other parties; provided that application is made to and approved by a presiding superior court judge, in any such suit, any insurer providing primary liability insurance on the underinsured highway vehicle may upon payment of all of its applicable limits of liability be released from further liability or obligation to participate in the defense of such proceeding. However, before approving any such application, the court shall be persuaded that the owner, operator, ormaintainer of the underinsured highway vehicle against whom a claim has been made has been apprised of the nature of the proceeding and given his right to select counsel of his own choice to appear in the action on his separate behalf. If an underinsured motorist insurer, following the approval of the application, pays in settlement or partial or total satisfaction of judgment moneys to the claimant, the insurer shall be subrogated to or entitled to an assignment of the claimant's rights against the owner, operator, or maintainer of the underinsured highway vehicle and, provided that adequate notice of right of independent representation was given to the owner, operator, or maintainer, a finding of liability or the award of damages shall be res judicata between the underinsured motorist insurer and the owner, operator, or maintainer of underinsured highway vehicle.

As consideration for payment of policy limits by a liability insurer on behalf of the owner, operator, or maintainer of an underinsured motor vehicle, a party injured by an underinsured motor vehicle may execute a contractual covenant not to enforce against the owner, operator, or maintainer of the vehicle any judgment that exceeds the policy limits. A covenant not to enforce judgment shall not preclude the injured party from pursuing available underinsured motorist benefits, unless the terms of the covenant expressly provide otherwise, and shall not preclude an insurer providing underinsured motorist coverage from pursuing any right of subrogation.

The coverage required under this subdivision shall not be applicable where any insured named in the policy rejects the coverage. An insured named in the policy may select different coverage limits as provided in this subdivision. If the named insured does not reject underinsured motorist coverage and does not select different coverage limits, the amount of underinsured motorist coverage shall be equal to the highest limit of bodily injury liability coverage for any one vehicle in the policy. Once the option to reject underinsured motorist coverage or to select different coverage limits is offered by the insurer, the insurer is not required to offer the option in any renewal, reinstatement, substitute, amended, altered, modified, transfer, or replacement policy unless a named insured makes a written request to exercise a different option. The selection or rejection of underinsured
motorist coverage by a named insured or the failure to select or reject is valid and binding on all insureds and vehicles under the policy.

Rejection of or selection of different coverage limits for underinsured motorist coverage for policies under the jurisdiction of the North Carolina Rate Bureau shall be made in writing by the named insured on a form promulgated by the Bureau and approved by the Commissioner of Insurance."

AN ACT TO AMEND THE CONFIDENTIALITY PROVISIONS OF CHAPTER 122C OF THE GENERAL STATUTES TO PERMIT IMPLEMENTATION OF MENTAL HEALTH SYSTEM REFORM.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 122C-3(14) reads as rewritten:

"§ 122C-3. Definitions.

As used in this Chapter, unless another meaning is specified or the context clearly requires otherwise, the following terms have the meanings specified:

(14) "Facility" means any person at one location whose primary purpose is to provide services for the care, treatment, habilitation, or rehabilitation of the mentally ill, the developmentally disabled, or substance abusers, and includes:

a. An "area facility", which is a facility that is operated by or under contract with the area authority or county program. For the purposes of this subparagraph, a contract is a contract, memorandum of understanding, or other written agreement whereby the facility agrees to provide services to one or more clients of the area authority or county program. A facility that is providing services under contract with the area authority is an area facility for purposes of the contracted services only. Area facilities may also be licensable facilities in accordance with Article 2 of this Chapter. A State facility is not an area facility;

b. A "licensable facility", which is a facility that provides services for one or more minors or for two or more adults. § 142-83. Procedure for incurrence or issuance of special indebtedness.

(a) Notice and Certificate. – Whenever the State or a State agency intends to use special indebtedness to finance capital facilities, it shall notify the Department of Administration. If the Department of Administration intends for the State to use special indebtedness to finance the capital facilities, it shall provide written notice to the State Treasurer advising the State Treasurer of its intent. The State Treasurer may require a preliminary conference with the Department of Administration to consider the proposed financing.

After the filing of the notice and after any preliminary conference, the State Treasurer shall consult with the Office of State Budget and Management as to the revenues expected by that Office to be available to pay all sums to come due on the special indebtedness during its term. If, after consulting with the Office of State Budget and Management, the State Treasurer determines by written certificate that it may be desirable to use special indebtedness to finance the capital facilities, the Department of Administration shall request the Council of State to give its preliminary approval of the use of special indebtedness to finance the capital facilities. The Department of Administration must promptly file copies of the notice and certificate required by this subsection with the Governor and the Council of State.

(d) Oversight by Treasurer. – No special indebtedness shall be incurred or issued without the prior written approval of the State Treasurer as provided in this subsection, which is in addition to the certificate given by the State Treasurer pursuant to subsection (a) of this section. In determining whether to approve the proposed financing, the State Treasurer may consider any factors the State Treasurer considers relevant in order to find and determine all of the following:

1. The amounts to become due under the special indebtedness, including the interest component or rate, are adequate and not excessive for the purpose proposed.

2. The increase, if any, in State revenues, including taxes, necessary to pay the sums to become due under the special indebtedness is not excessive.

3. The special indebtedness can be incurred or issued on terms desirable to the State.

(e) Designation of Facilities. – If the Council of State authorized in general terms the types or classifications of capital facilities to be financed, then the particular capital facilities and the principal amount of special indebtedness to be incurred or issued for each particular capital facility shall be determined by the Department of Administration after considering any factors it considers relevant in order to determine that the particular capital facility to be provided is desirable for the efficient operation of the State and its agencies and is in the best interests of the State.

(f) Type of Debt and Security. – In the absence of a determination by the Council of State, the State Treasurer, after consultation with the Department of Administration, shall determine the specific security offered and whether the special indebtedness to be issued or incurred shall be financing contract indebtedness, certificates of participation indebtedness, bonded indebtedness, or some combination of these.

(g) Administration. – The State Treasurer, after consultation with the Department of Administration, shall develop appropriate documents for use under this Article. The State Treasurer shall employ and designate the financial consultants, fiduciaries and other agents, underwriters, and bond attorneys to be associated with the incurrence or issuance of special indebtedness pursuant to this Article.

(h) Report to Joint Legislative Commission. – After all the requirements for approval and oversight provided in this section have been met, and at least five days before the issuance or incurrence of the special indebtedness, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations. This report must include the details of the proposed special indebtedness, including the capital facilities to be financed by the indebtedness, the amount of the proposed indebtedness, the type of indebtedness to be issued or incurred, and any other information required by the Commission.

1. A lien on or security interest in one or more, all, or any part of the capital facilities to be financed by the special indebtedness.

2. If the special indebtedness is to finance construction of improvements on real property, a lien on or security interest in all or any part of the land on which the improvements are to be located.

3. If the special indebtedness is to finance renovations or improvements to existing facilities or the installation of fixtures in existing facilities, a lien on or security interest in one or more, all, or any part of the facilities.

(b) Value of Security; Multiple Liens. – The estimated value of the property subject to the lien or security interest need not bear any particular relationship to the principal amount of the special indebtedness or other obligation it secures. This Article does not limit the right of the State to grant multiple liens or security interests in a capital facility or other property to the extent not otherwise limited by the terms of any special indebtedness.

(c) Governor’s Budget. – Documentation relating to any special indebtedness may include provisions requesting the Governor to submit in the Governor’s budget proposal or any amendments or supplements to the budget proposed appropriations necessary to make the payments required by the special indebtedness.

(e) No Deficiency Judgment or Pledge. – No deficiency judgment may be rendered against the State in any action for breach of any obligation under special indebtedness or any related documents. The taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under special indebtedness or any related documents. In the event that the General Assembly does not appropriate sums sufficient to make payments required under any special indebtedness or any related documents, the net proceeds received from the sale or other disposition of the property subject to the lien or security interest shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation relating to the lien or security interest. These net proceeds are appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under any special indebtedness or any related documents shall be paid to the State Treasurer for deposit to the General Fund.

(f) Nonsubstitution Clause. – A financing contract, issue of bonded indebtedness, or other related document shall not contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any capital facility.
(g) Protection of Lender. – Special indebtedness may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing financing under a financing contract, the owners of bonded indebtedness, or others to whom the State is obligated under special indebtedness or any related documents as may be reasonable and proper and not in violation of law. These provisions may include covenants setting forth the duties of the State in respect of any of the following:

1. The purposes to which the proceeds of special indebtedness may be applied.
2. The disposition and application of the revenues of the State, including taxes.
3. Insuring, maintaining, and other duties with respect to the capital facilities financed.
4. The disposition of any charges and collection of any revenues and administrative charges.
5. The terms and conditions of the issuance of additional special indebtedness.
6. The custody, safeguarding, investment, and application of all moneys.

(h) State Property Law Exception. – Chapter 146 of the General Statutes does not apply to any transfer of the State's interest in property authorized by this Article, whether to a deed of trust trustee or other secured party as security for special indebtedness, or to a purchaser of property in connection with a foreclosure or similar conveyance of property to realize upon the security for special indebtedness following the State's default on its obligations under the special indebtedness.

§ 142-85. Financing contract indebtedness.

(a) Treasurer Oversight. – Financing contract indebtedness shall not be incurred until all documentation providing for its incurrence has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration.

(b) Interest Component. – A financing contract may provide for payments under the contract to represent principal and interest components of the cost of the capital facility to be financed, as determined by the State Treasurer.

(c) Bidding. – Financing contracts may be entered into pursuant to any applicable public or competitive bidding process or any private or negotiated process, to the extent required by applicable law, and if not so required, as may be determined by the Department of Administration after consulting with the State Treasurer.

(d) Party. – All financing contracts shall be executed on behalf of the State by the State Treasurer or, upon delegation by the State Treasurer after having approved the financing contract, by the Department of Administration.

(e) Credit Facility. – If the State Treasurer determines that it is in the best interest of the State, the State Treasurer may arrange for the delivery of a credit facility to secure payment under any financing contract. The State Treasurer may also provide that payments by the State representing the interest component of the payments to be made under a financing contract may be calculated based upon a fixed or a variable rate of interest.

(f) Terms and Conditions. – All other conditions set forth elsewhere in this Article with respect to financing contract indebtedness shall also be satisfied prior to incurring any financing contract indebtedness. To the extent applicable as conclusively
determined by the State Treasurer, the provisions of G.S. 142-89, 142-90, and 142-91 apply to financing contract indebtedness.

"§ 142-86. Additional requirements for certificates of participation indebtedness.

(a) Treasurer Oversight. – A financing contract shall not be used in connection with the delivery of certificates of participation by a special corporation until all documentation providing for its use has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration. All documentation providing for the delivery and sale of certificates of participation must be approved by the State Treasurer.

(b) Procedure. – The special corporation, if used, shall request the approval of the State Treasurer in writing and shall furnish any information and documentation relating to the delivery and sale of the certificates of participation requested by the State Treasurer. In determining whether to approve the financing in the documentation, the State Treasurer shall consider the factors set forth in G.S. 142-84(d), as well as the effect of the proposed financing upon any scheduled or proposed sale of debt obligations by the State or a unit of local government in the State.

(c) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(d) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer, and the provisions of G.S. 142-89(h) apply to the trust agreement or similar instrument to the extent applicable.

(e) Other Conditions. – All other conditions set forth elsewhere in this Article with respect to certificates of participation indebtedness, including the conditions set forth in G.S. 142-86, must be satisfied before any certificates of participation indebtedness is incurred.

If any officer whose signature or facsimile signature appears on bonds or notes issued under this Article ceases to be that officer before the delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery of the bonds or notes. Bonds or notes issued under this Article may bear the facsimile signatures of persons, who at the actual time of the execution of the bonds or notes were the proper officers to sign any bond or note although at the date of the bond or note those persons may not have been officers.

The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as prescribed by the State Treasurer in conformity with this Article.

(c) Manner of Sale; Expenses. – Subject to the approval by the Council of State as to the manner in which bonds or notes will be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Application of Proceeds. – The proceeds of any bonds or notes shall be used solely for the purposes for which the bonds or notes were issued and shall be disbursed in the manner and under the restrictions, if any, that the Council of State may provide in the resolution authorizing the issuance of, or in any trust agreement securing, the bonds or notes.

Any additional moneys that may be received by means of a grant or grants from the United States or any agency or department thereof or from any other source to aid in financing the cost of a capital facility may be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this Article.

(e) Notes; Repayment. – By and with the consent of the Council of State, the State Treasurer is authorized to borrow money and to execute and issue notes of the State for the same, but only in any of the following circumstances and under the following conditions:

(1) For anticipating the sale of bonds, the issuance of which the Council of State has approved if the State Treasurer considers it advisable to postpone the issuance of the bonds.

(2) For the payment of interest on or any installment of principal of any bonds then outstanding if there are not sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due.
For the renewal of any loan evidenced by notes authorized in this Article.

(4) For the purposes authorized in this Article.

(5) For refunding bonds or notes or financing contract indebtedness as authorized in this Article.

Funds derived from the sale of limited obligation bonds or notes may be used in the payment of any bond anticipation notes issued under this Article. Funds provided by the General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which have been in paying interest on or principal of the bonds.

(f) Refunding Bonds and Notes. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes for the purpose of refunding special indebtedness and to pay the cost of issuance of the refunding bonds or notes. The refunding bonds and notes may be combined with any other issues of State bonds and notes issued pursuant to this Article. Refunding bonds or notes may be issued at any time prior to the final maturity of the debt or obligation to be refunded. The proceeds from the sale of any refunding bonds or notes shall be applied to the immediate payment and retirement of the obligations being refunded or, if not required for the immediate payment of the obligations being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) to the extent then permitted by law, obligations of any agency or instrumentality of the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of any of the obligations described in (i), (ii), or (iii) above having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of obligations being refunded but that have not matured and are not presently redeemable, or if presently redeemable, have not been called for redemption.

(g) Security. – Payment of the principal of and the interest on bonds and notes shall be secured as provided in G.S. 142-85.

(h) Trust Agreement. – In the discretion of the State Treasurer, any bonds and notes issued under this Article may be secured by a trust agreement or similar instrument between the State and a corporate trustee or by a resolution of the Council of State providing for the appointment of a corporate trustee. The corporate trustee may be, in either case, any trust company or bank that has the powers of a trust company within or without the State. The trust agreement or similar instrument or resolution, hereinafter referred to as "the trust"., may provide for security and pledges and assignments that are permitted under this Article and may provide for the granting of a lien or security interest as authorized by G.S. 142-85. The trust may contain any provisions for protecting and enforcing the rights and remedies of the owners of any bonds or notes issued under the trust that are reasonable and not in violation of law, including covenants setting forth the duties of the State with respect to the purposes for which bond or note proceeds may be applied, the disposition and application of the revenues or assets of the State, the duties of the State with respect to the capital facilities financed, the disposition of any charges and collection of any revenues and administrative charges, the terms and conditions of the issuance of additional bonds and notes, and the
custody, safeguarding, investment, and application of all moneys. All bonds and notes issued under this Article pursuant to the same trust shall be equally and ratably secured as provided in the trust, without priority by reasons of number, dates of bonds or notes, execution, or delivery, in accordance with the provisions of this Article and of the trust. The trust may, however, provide that bonds or notes issued pursuant to the trust shall, to the extent and in the manner prescribed in the trust, be subordinated and junior in standing, with respect to the payment of principal and interest and to the security of the payment, to any other bonds or notes issued pursuant to the trust. It is lawful for any bank or trust company that may act as depositary of the proceeds of bonds or notes, revenues, or any other money under this Article to furnish any indemnifying bonds or to pledge any securities that may be required by the State Treasurer. The trust may set out the rights and remedies of the owners of any bonds or notes and of any trustee, and may restrict the individual rights of action by the owners. In addition to the foregoing, the trust may contain any other provisions the State Treasurer considers appropriate for the security of the owners of any bonds or notes. Expenses incurred in carrying out the provisions of the trust may be treated as a part of the cost of any capital facility or as an administrative charge and may be paid from the proceeds of the bonds or notes or from any other available funds.

§ 142-89. Variable rate demand bonds and notes and financing contract indebtedness.

(a) In fixing the details of special indebtedness, the State Treasurer may make the special indebtedness subject to any of the following conditions:

(1) It is payable from time to time on demand or tender for purchase by the owner thereof, if a credit facility supports the special indebtedness, unless the State Treasurer specifically determines that a credit facility is not required upon a determination by the State Treasurer that the absence of a credit facility will not materially and adversely affect the financial position of the State or the marketing of the bonds or notes or financing contract indebtedness at a reasonable interest cost to the State.

(2) It is additionally supported by a credit facility.

(3) It is subject to redemption or mandatory tender for purchase prior to maturity.

(4) It bears interest at a rate or rates that may be fixed or may vary over any period of time, as may be provided in the proceedings providing for the issuance or incurrence of the special indebtedness, including any variations that may be permitted pursuant to a par formula.

(5) It is the subject of a remarketing agreement under which an attempt is made to remarket special indebtedness to new purchasers before its presentment for payment to the provider of the credit facility or to the State.

(b) If the aggregate principal amount payable by the State under a credit facility is in excess of the aggregate principal amount of special indebtedness secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or notes and financing contract indebtedness during the term of the credit facility shall not be less than the amount of the excess, unless the payment of the excess is otherwise provided for by agreement of the State executed by the State Treasurer.
§ 142-90. Other agreements.

The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, credit enhancement facilities, interest rate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with the issuance of special indebtedness. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, fiduciaries, and bond attorneys to be associated with any incurrence or issuance of special indebtedness under this Article as the State Treasurer considers appropriate.

§ 142-91. Tax exemption.

Special indebtedness shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the indebtedness; and franchise taxes. The interest component of any payments made by the State under special indebtedness, including the interest component of any certificates of participation, is not subject to taxation as to income.

§ 142-92. Investment eligibility.

Special indebtedness are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Special indebtedness are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may later be authorized by law.

§ 142-93. Procurement.

The provisions of Articles 3, 3B, 3C, 3D, and 8 of Chapter 143 of the General Statutes and any other laws or rules of the State that relate to the acquisition and construction of State property apply to the financing through the use of special indebtedness pursuant to this Article. This section does not apply to the construction and lease-purchase, including leases with an option to purchase at the end of the lease term for a nominal sum, of State office buildings pursuant to proposals submitted before the effective date of this Article in response to requests for proposals, to the extent any of those proposals, as they may be supplemented or amended, are approved by the Department of Administration and any of these leases or lease-purchase agreements are approved by the Council of State in accordance with G.S. 143-341(4)d2.

(a) Generally. The City shall possess the power of eminent domain and may acquire, either by purchase, gift, or condemnation, any real estate, right of access, right-of-way, water right, privilege, easement, restrictive covenant, or any other interest in or relating to real estate, water or improvements, either within or without the City limits, for any lawful public use or purpose. In the exercise of the power of eminent domain, the City is hereby vested with all power and authority now or hereafter granted by the laws of North Carolina applicable to the City, and the City shall follow the procedures now or hereafter prescribed by such laws; provided that, notwithstanding the provisions of G.S. 160A-240.1 and G.S. 40A-1, in the exercise of its authority of eminent domain for the acquisition of property or any interest in property to be used for streets and highways; water supply and distribution systems; sewage collection and disposal systems; electric power generation, transmission and distribution systems; and gas storage, transmission, and distribution systems, the City is hereby authorized to use the procedure and authority prescribed in Article 9 of Chapter 136 of the General Statutes of North Carolina, as now or hereafter amended or recodified; provided further, that whenever the words "Department of Transportation" appear in such Article 9 they shall be deemed to include the "City of Rocky Mount," and whenever the words "Secretary of Transportation" appear in such Article 9 they shall be deemed to include the "City Manager of the City of Rocky Mount." The powers granted to the City in this Charter for the purpose of acquiring property by eminent domain shall be in addition to and supplementary to those powers granted in any other local act or in any other general statute, and in any case in which the provisions of Article 9 of Chapter 136 are in conflict with the provisions of any local act or any other provision of any general
statute, then the City Council may in its discretion proceed in accordance with the provision of such local act or other general statute, or, as an alternative method of procedure, in accordance with this Charter provision and Article 9 of Chapter 136.

(b) Limitation. Nothing in this section shall be construed to enlarge the power of the City to condemn property already devoted to public use.

"ARTICLE II. LOCAL IMPROVEMENTS.

"Section 380. Authority to Make Local Improvements. The City Council shall have authority to make the local improvements described in this Charter or otherwise permitted by law, and to assess the cost against benefited property. (2) Water main improvements, which shall include the following:
   a. Laying or construction of water mains and, in cases where the property abutting such mains is divided into lots by map or plat which is either recorded in the office of the register of deeds of the county in which such land lies or is unrecorded but approved by the City of Rocky Mount Planning Board, such improvements may, where the City Council so directs, include a tap for each lot shown on such map or plat except in cases where a tap has been previously constructed to serve such lot from another main;
   b. The relaying where necessary of parts of paved roadways and sidewalks torn up or damaged by the laying or construction of such mains;
   c. In any case where the improvement is made upon petition and the petition so requests, or in any case where the improvement is made without petition and the Council so directs, the laying of water laterals.

(3) Sanitary sewer improvements, which shall include the following:
   a. Laying or construction of a sanitary sewer main and, in cases where the property abutting such mains is divided into lots by map or plat which is either recorded in the office of the register of deeds of the county in which such land lies or is unrecorded but approved by the City of Rocky Mount Planning Board, such improvements may, where the Council so directs, include a tap for each lot shown on such map or plat, except in cases where a tap has been previously constructed to serve such lot from another main;

(5) Sidewalk improvements, which shall include the grading, regrading, construction, reconstruction and repair of paved or other improved sidewalks, the construction or reconstruction of retaining walls made necessary by and incident to such improvements, and in any case where the improvement is made without petition if the Council so directs, it may include the construction or reconstruction of curbs, gutters, drains, and retaining walls and the construction or reconstruction of all such portions of driveways as in the judgment of the Council ought to be laid in the street area.

(6) Grass plot improvements, which shall include the grading and planting of grass plots and medians in a street.

"Section 384. Water and Sewer Mains Between Streets. Whenever the City Council finds it in the public interest, water, sanitary sewer, or storm sewer mains, or all or any of these, may be constructed between streets rather than in a street and the cost of construction of such water or sewer mains and the laterals or storm sewer mains shall be assessed according to the street frontage in the same manner and to the same extent that it would be assessed if the improvements were constructed in a street; provided that the City shall provide the rights-of-way for construction and maintenance of such mains at its own expense without assessing the cost thereof.

"Section 385. Assessment Against Property Abutting One Side of the Street. Any proceeding may include making any one or more local improvements in or on a street or streets and for the assessment of the cost thereof wholly against the property abutting one side of such street or streets or otherwise against such abutting property as the City Council may determine in any of the following cases:

(1) In any case where there is park land or unimproved land abutting one side, or a part of one side, of a street.

(2) In any case where the land abutting one side, or a part of one side, of a street is of such a nature or is devoted to such a purpose that a special assessment against it cannot be made or, if made, would probably exceed the value of the land assessed.

(3) In any case where the owners of all the property to be assessed agree thereto.

"Section 386. The Petition; Certificate of Sufficiency.

(a) Petition. Except as otherwise provided in subsection (b) of this section, the petition for any local improvements shall designate by a general description the improvement proposed and shall request that such proportion of the cost of each of such improvements as may be specified in the petition be specially assessed against the
property abutting on the street or part thereof in which or on which such improvements are proposed to be made. The petition shall be filed with the City Clerk.

(b) Assessments of Portions of Street. In any case where:
   (1) The improvement is to be made on one side of a street only, the petition shall request that the assessment be made only against the property abutting that side of the street whereon the improvement is to be made.
   (2) It is proposed to assess the cost of any local improvement covering the entire width of a street against the land abutting one side of the street only or against any lands less than all of those abutting the improved portion of the street, such petition shall designate the lands to be assessed.

(c) Signatures – Generally. Except as otherwise provided in subsection (d) of this section, the petition shall be signed by at least a majority in number of the owners, which majority must own at least a majority of all lineal feet of frontage of the lands abutting the street or streets or part of a street or streets proposed to be improved, excluding street intersections.

(d) Signatures – Portions of Streets. Any petition for the making of:
   (1) Local improvements on one side of a street only need be signed only by a majority in number of the owners of land abutting the side of the street whereon such improvements are to be made, which majority must at least own a majority of all the lineal feet of frontage of the lands abutting such side of the street, excluding street intersections.
   (2) Any improvements covering the entire width of a street and the assessment of the cost thereof against land abutting one side of the street only or against any lands less than all of those abutting the improved portion of the street shall be signed by all of the owners of the lands thus proposed to be assessed.

(e) Rules of Construction. For the purpose of:
   (1) The petition, all owners of an undivided interest in any land shall be deemed and treated as one person and such land shall be sufficiently signed for when the petition is signed by one of the owners of such undivided interest.
   (2) This section, the word "owner" shall be considered to include the owners of any life estate, of any estate by the entirety, or of the estate of inheritance and shall not include mortgagees, trustees of a naked trust, trustees under deeds of trust to secure the payment of money, lienholders, or persons having inchoate rights in the property.

(f) Sufficiency. Upon the filing of such petition, the City Clerk shall investigate the sufficiency of the petition and, if it is found to be sufficient, shall certify the same to the Council.

"Section 387. When No Petition Shall be Necessary. No petition shall be necessary for the following:
   (1) Any local improvement for which the City bears the entire cost without assessment.
   (2) In the cases set forth in subsections (3) through (8) of this section where in the judgment of the City Council the abutting property to be assessed will be benefited in an amount at least equal to such assessment.
(3) Street paving improvements: When in the judgment of the City Council:
   a. Any street or part of a street is unsafe; or
   b. The improvement of a street or part of a street not more than three blocks in length is necessary to connect streets already paved; or
   c. The improvement of a street or part of a street is necessary to connect a paved street, or portion thereof, within the City with a paved highway beyond the City limits; or
   d. The improvement of a street or part of a street is necessary to provide a paved approach to a railroad or street grade separation or any bridge; or
   e. Any street or part of a street should be widened; or
   f. The improvement of a street or part of a street should be made in the public interest.

(4) Water main improvements: When in the judgment of the City Council any street or part of a street, or any property within the City, is without adequate public water supply, and can be served, and water service should be provided in the public interest.

(5) Sanitary sewer improvements: When in the judgment of the City Council any street or part of a street, or any property within the City, is without an adequate public sanitary sewer system and can be served, and sanitary sewer service should be provided in the public interest.

(6) Storm sewer improvements: When in the judgment of the City Council any street or part of a street, or any property within the City, is without adequate storm sewer facilities, and can be served, and storm sewers should be provided in the public interest.

(7) Sidewalk improvements: When in the judgment of the City Council any street or part of a street is without sidewalks and sidewalks should be provided in the public interest or that any existing sidewalk is unsafe and should be repaired.

(8) Curb and gutter improvements: When in the judgment of the City Council any street or part of a street is without curb and gutter and curb and gutter should be provided in the public interest.

(9) In any other case when, in the judgment of the City Council, the abutting property to be assessed will be improved in an amount at least equal to such assessment.

"Section 388. Notice of Hearing.

(a) Preparation; Contents. Upon the presentation of a sufficient petition for local improvements, or when it is proposed to make improvements authorized to be made without petition, a notice shall be prepared by the City Clerk containing substantially the following:

(1) A statement that a sufficient petition has been filed for the making of the improvements or, if it is proposed to make the improvements without petition, a statement of the reasons proposed for the making thereof.

(2) A brief description of the proposed improvements.

(3) A statement of the proportion of the cost of the improvements to be assessed and the terms of payment.
(4) A statement of the time and place of a public hearing on the proposed improvements.

(5) A statement that all objections to the legality of the making of the proposed improvements shall be made in writing, signed in person or by attorney, and filed with the City Clerk at or before the time of the hearing and that any objections not so made will be waived.

(b) Publication; Service. The notice shall be published one time in a newspaper published in the City which is qualified to carry legal notices, or, if there is no such newspaper, the City Clerk shall cause to be posted in three public places in the City, the date of publication or posting to be not less than 10 days prior to the date fixed for the hearing. In addition, at least 10 days prior to the hearing, the City Clerk shall cause a copy of the notice to be mailed to the owners, as shown on the county tax records, of all property subject to assessment if the project should be undertaken. The certificate of the person designated to mail the notices that such notices were mailed shall be conclusive in the absence of fraud. The word "owners" as used in this section has the same meaning as in Section 386.

"Section 389. Public Hearing. At the time for the public hearing, or at some subsequent time to which such hearing shall be adjourned, the City Council shall consider any objections to the improvements made in compliance with Section 388(a)(5), together with objections to the policy or expediency of the making of the improvements, and the Council shall thereafter determine whether it will order the making of the improvements. Any objections to the making of the improvements not made in writing, signed in person or by attorney, and filed with the City Clerk at or before the time or adjourned time of the hearing shall be considered as waived. If any such objection shall be made and shall not be sustained by the Council, the adoption of the resolution ordering the making of the improvements shall be the final adjudication of the issues presented, unless within 10 days after the adoption of the resolution proper steps shall be taken in a court of competent jurisdiction to secure relief.

"Section 390. Resolution Ordering Improvements; Publication. After the public hearing, if the City Council determines to make the improvements proposed, it shall adopt a resolution that shall contain:

(1) If the improvements are to be made by petition, a finding by the Council as to the sufficiency of the petition, which finding shall be final and conclusive.

(2) If the improvements are to be made without petition, a finding by the Council of such facts as are required in order to authorize improvements without petition.

(3) A general description of the improvements to be made and the designation of the street or streets or parts thereof where the work is to be done.

(4) If the improvement directed to be made is the paving of a roadway or part thereof wherein a railroad company has tracks, a direction that such company pave that part of the street occupied by its tracks, the rails of the tracks, and 18 inches in width outside such tracks, with such material and in such manner as the City Council may prescribe, and that unless such paving is completed on or before a day specified in the resolution, the City Council will cause the same to be done. Where such railroad company shall occupy such street or streets under a franchise or contract which provides otherwise, such franchise or
contract shall not be affected by this section except insofar as it may be consistent with the provisions of such franchise or contract.

(5) If the improvement directed to be made includes the construction of water mains, sanitary sewers, or storm sewers and, in order to provide the mains or sewers in the street or streets to be improved, it is necessary to extend them beyond the limits of the street or streets, the resolution shall contain a provision for the necessary extension of such mains or sewers and a further provision that the cost of such extension shall eventually be assessed against the lots or parcels of land abutting the street or streets in which such extensions are made but that assessments shall not be made until such time as the City Council shall thereafter determine by appropriate resolution.

(6) If the improvement directed to be made is the paving of a roadway or part thereof, or the construction of sidewalks, the resolution may, but need not, contain a direction that the owner of each lot abutting the part of the street to be improved connect such lot with the water mains or sewer pipes, or any one or more thereof, located in the street adjacent to his premises.

(7) A designation of the proportion of the cost of the improvements to be assessed against abutting property and of the number of equal annual installments in which assessments may be made.

(8) The resolution after its passage shall be published at least once in some newspaper published in the City that is qualified to carry legal notices, or, if there is no such newspaper, the resolution shall be posted in three public places in the City for at least five days; except that in any case where the Council directs that the notice should be mailed instead of being published, the resolution ordering the improvements need not be either published or posted.

"Section 391. Determination as to Cost of Improvements. Upon completion of the improvements, the City Council shall ascertain the total cost. In addition to other items of cost, there may be included therein the cost of all necessary legal services, the amount of interest paid during construction, the amount of damages paid or to be paid for injury to property by reason of any change of grade or drainage, including court costs and other expenses incidental to the determination of damages, and the cost of retaining walls, sidewalks, or fences built or altered in lieu of cash payment for property damage, including the cost of moving or altering any building. The determination of the Council as to the total cost of any improvement shall be conclusive.

"Section 392. Preliminary Assessment.

(a) Determination. Having determined the total cost, the Council shall make a preliminary assessment. The preliminary assessment shall be advisory only and shall be subject to modification. Except as otherwise provided in subsection (b) of this section, the preliminary assessment shall be as follows:

(1) Roadway paving: The total cost of any roadway paving improvement, excluding the cost incurred at street intersections, may be specially assessed against the lots and parcels of land abutting the street containing the roadway paved, according to the frontages thereon by an equal rate per foot of frontage, except that, where the petition so requested, the cost shall be assessed against the lands on one side of the street only or against such lands as were designated in the petition.
(2) Water mains, sanitary sewers, and storm sewers: The cost of water mains, sanitary sewers, and storm sewers in such amount as is determined by the Council within its discretion but according to a predetermined policy may be assessed against the abutting property. Such cost may be assessed against the lots and parcels of land according to their respective frontages thereon by an equal rate per foot of such frontage. If the resolution ordered the construction of any pumping station, outfall, septic tank, or disposal plant, no part of the cost of the same shall be specially assessed except when an outfall tap is permitted. Nothing contained in this subsection shall be construed to limit the power of the Council to contract with any property owner or owners for the construction of any pumping station, outfall, septic tank, or disposal plant or for the construction of water mains or storm or sanitary sewers and for the assessment of the cost thereof according to the terms of such contract. The entire cost of each water and sewer lateral may be specially charged against the particular lot or parcel of land for or in connection with which it was constructed, except that the assessment shall be calculated as if the lateral were laid from the center of the street. The cost of installing storm sewers may, however, be assessed as part of the cost of roadway paving.

(3) Sidewalks: The total cost of constructing or reconstructing sidewalks may be assessed against the lots and parcels of land abutting that side of the street upon which the improvements are made according to their respective frontages thereon by an equal rate per foot of such frontage, the lots within a block being deemed to abut upon a sidewalk although the latter extends beyond the lot to the curb line of an intersecting street. The total cost of constructing portions of driveways within the street area may be assessed against the lots for which they are constructed.

(4) Grass plots: The entire cost of grading or otherwise improving or of planting the grass plots in any street or part thereof may be assessed against the lots and parcels of land abutting the street or part thereof where or whereon the improvements are made by an equal rate per front foot of such frontage; provided that this subsection shall be construed to mean that when a grass plot in any street is graded or planted or otherwise improved, the cost thereof may be assessed against all of the property abutting the side of the street within the block where such grass plot is located.

(b) Proportion of Cost. If the petition (or the resolution in those cases where the improvement was ordered made without petition) specified that there should be specially assessed against the abutting property a smaller proportion of the cost of any improvement than that set forth in subsection (a)(2) of this section, there shall be assessed against abutting property only the proportion of the cost as was specified in the petition (or in such resolution). No restriction or denial of access to an abutting street shall affect the levy or collection of any assessment for local improvements.
(c) State Property. The cost of paving, water, sewer, and sidewalk improvements upon, in, or to any portion of a right-of-way or any property owned by the State of North Carolina, or any agency or subdivision thereof, shall be assessed against the right-of-way or property and shall be paid by the State or any agency or subdivision thereof.

"Section 393. Corner Lot Exemptions. The City Council shall have authority to determine the amount and applicability of assessment exemptions for corner lots and to distinguish between different classifications of property uses. The exemptions for paving, sidewalk, storm sewer, water main, and sanitary sewer improvements shall be in accordance with the provisions of G.S. 160A-219. If the corner formed by two intersecting streets is rounded into a curve or is foreshortened for the purpose of providing sight distance or for any other purpose of construction, the frontage for assessment purposes shall be calculated to the midpoint of the curve or foreshortened corner.

"Section 394. Preliminary Assessment Roll. The City Council shall cause to be prepared a preliminary assessment roll on which shall be entered a brief description of each lot or parcel of land assessed, the amount assessed against each lot, the name or names of the owner or owners of each lot (as defined in Section 386) as far as the same can be ascertained; provided, that a map of the improvements on which is shown the frontage and location of each affected lot, together with the amount assessed against each lot and the name or names of the owner or owners thereof, as far as the same can be ascertained, shall be a sufficient assessment roll. If the resolution directed the making of more than one improvement, a single preliminary assessment roll for all the improvements authorized by such resolution shall be sufficient, but the cost of each improvement to each lot affected shall be shown separately. After the preliminary assessment roll has been completed, it shall be filed in the office of the City Clerk, and there shall be published in some newspaper published in the City which is qualified to carry legal notices, or, if there is no such newspaper, the City Clerk shall cause to be posted in three places in the City a notice of the completion of the assessment roll, setting forth a description in general terms of the improvements, the amount of each assessment, and stating the time fixed for the meeting of the Council for the hearing of objections to the special assessment, such meeting to be not earlier than 10 days after the first publication or from the date of posting of such notice. Any number of assessment rolls may be included in one notice. In addition, at least 10 days prior to the hearing, the City Clerk shall cause a copy of the notice to be mailed to the owners, as shown on the county tax records, of all property subject to assessment. The certificate of the person designated to mail the notices that such notices were mailed shall be conclusive in the absence of fraud.

"Section 395. Hearing; Revision; Confirmation; Lien. At the time appointed for that purpose or at some other time to which it may adjourn, the City Council shall hear objections to the preliminary assessment roll of all persons interested who may appear and offer proof in relation thereto. Then or thereafter, the City Council shall either annul or sustain, or modify in whole or in part, the assessment either by confirming the preliminary assessment against any or all lots or parcels described thereon, or by canceling, increasing or reducing the same, according to the special benefits which the City Council decides that each of the lots or parcels has received or will receive on account of the improvements, except that assessments against railroads because of contract or franchise obligations shall be in accordance with such obligations. If any property is omitted from the preliminary roll, the Council may place it on the roll and
levy the proper assessment. The Council may thereupon confirm the assessment roll, and assessments so confirmed shall be in proportion to the special benefits, except in the case of franchise obligations of railroads. Whenever the governing body shall confirm assessments for local improvements, the City Clerk shall enter on the Council minutes and on the assessment roll the date of confirmation, and from the time of confirmation, the assessments shall be a lien on the property assessed of the same nature and to the same extent as County and City taxes and shall be superior to all other liens and encumbrances. After the assessment roll is confirmed, a copy shall be delivered to the City Collector of Revenue.

"Section 396. Appeal to Superior Court. If the owner of, or any person interested in, any lot or parcel of land against which an assessment is made is dissatisfied with the amount of the assessment, such person or owner may, within 10 days after the confirmation of the assessment roll, give written notice to the Council that an appeal will be made to the superior court of the county in which such land is situated, in which case such owner or person shall, within 20 days after the confirmation of the assessment roll, serve on the Mayor a statement of facts upon which the appeal is based. The appeal shall be tried as other actions at law. The remedy provided in this section for any person dissatisfied with the amount of the assessment against any property of which such person is the owner, or in which such person is interested, shall be exclusive.

"Section 397. Power to Correct Error in Assessment. If it shall appear after confirmation of any assessment roll that an error has been made, the City Clerk shall cause to be published one time in some newspaper published in the City, or, if there is no such newspaper, the City Clerk shall cause to be posted at three public places in the City, a notice referring to the assessment roll in which the error was made, naming the owner or owners of the lot or parcel of land affected by the error, if the same can be ascertained, and naming the time and place fixed for a hearing by the Council for the correction of the error, such meeting not to be earlier than 10 days from the publication or from the date of the posting of the notice. In addition, at least 10 days prior to the hearing, the City Clerk shall cause a copy of the notices to be mailed to the owners, as shown on the county tax records of all property affected by the error. At the time fixed in the notice or at some subsequent time to which the Council may adjourn, the Council, after giving the owner or owners of the property affected and other persons interested therein an opportunity to be heard, may proceed to correct the error, and the assessment then made shall have the same force and effect as if it had originally been properly made. No notice and hearing shall be necessary if the correction does not increase an assessment against any property not owned by the City or if all of the property owners affected by the correction waive notice in writing.

"Section 398. Reassessment. The City Council shall have the power, when in its judgment there is any irregularity, omission, error, or lack of jurisdiction in any of the proceedings relating thereto, to set aside the whole of the local assessment made by it, and thereupon to make a reassessment. In such case there shall be included, as a part of the cost of the improvement involved, all interest paid or accrued on notes or certificates of indebtedness or bonds issued by the City to pay the expenses of such improvement. The proceeding shall, as far as practicable, be in all respects as in the case of original assessments, and the reassessment shall have the same force as if it had originally been properly made.

"Section 399. Publication of Notice of Confirmation of Assessment Roll. After the expiration of 20 days from the confirmation of the assessment roll, the City Clerk shall cause to be published one time in some newspaper published in the City which is
qualified to carry legal notices or, if there is no such newspaper, shall cause to be posted at three public places in the City a notice of confirmation of the assessment roll and that assessments may be paid at any time before the expiration of 30 days from the date of publication or posting of the notice, without interest from the date of confirmation of the assessment roll, but that if such assessment is not paid in full within such time, all installments thereof shall bear interest at the rate provided by law from the date of confirmation of the assessment roll.

"Section 400. Payment of Assessments in Cash or by Installments. The property owner or railroad company assessed shall have the option of paying for improvements in cash or in not less than two, nor more than five, equal annual installments as may have been determined in the resolution ordering the improvement. If paid in installments, installments shall bear interest from the date of confirmation of the assessment roll at the rate provided by law. If any assessment is not paid in cash, the first installment, with interest, shall become due and payable 30 days after the publication or posting of the notice of confirmation, and one subsequent installment with interest shall be due and payable on the same day of the month in each successive year until the assessment is paid in full; provided, however, that if the City Council shall so direct, installments shall become due and payable on the same date when property taxes of the City are due and payable. If any installment with interest is not paid when due, it shall be subject to the same penalties as are prescribed by law for unpaid taxes, in addition to the interest herein provided for. The whole assessment may be paid at any time by the payment of the full amount due with accrued interest.

"Section 401. Enforcement of Payment of Assessments. Upon the failure of any property owner to pay any installment when due and payable, all of the installments remaining unpaid shall immediately become due and payable, and the property and rights-of-way may be sold by the City under the same rules and regulations, rights of redemption, and savings as are prescribed by law for the sale of land for unpaid taxes. Unpaid assessments, interest, and penalties owed by railroad companies and the State of North Carolina, its agencies, or subdivisions may be collected by writs of mandamus issued by the superior court of the county in which such land is situated. Collection of assessments with interest and penalties may also be made by the City by proceedings to foreclose the lien of assessments as a lien for mortgages is or may be foreclosed under the laws of the State, and it shall be lawful to join in any bill for foreclosure any one or more lots or parcels of land by whomsoever owned, if assessed for an improvement ordered by the same resolution, after default in the payment of any installments. The payment of such installment, together with interest and penalties due thereon, before the lot or parcel of land, against which the same is a lien, is sold or such lien is foreclosed shall bar the right of the City to sell the land or to foreclose the lien by reason of default.

"Section 402. Assessment of Cost of Water Main, Sanitary Sewer, and Storm Sewer Extensions. If the resolution ordering the making of any improvement or improvements included a provision for any necessary extension of a water main, sanitary sewer, or storm sewer beyond the limit of a street or streets, at such time after the completion of such extension or extensions as, in the judgment of the City Council, circumstances justify the assessment of the cost thereof, the City Council shall cause a preliminary assessment to be made and the procedure thereafter to be followed with respect to such assessment, and the force and effect thereof shall be as already prescribed for other assessments.

"Section 403. Apportionment of Assessments. In any case where one or more special assessments have been made and property has been or is about to be subdivided,
and it is desirable that the assessments be apportioned among the subdivisions of such property, the Council may, upon application by the owner or owners, apportion the assessments among the subdivisions. Thereafter, each subdivision shall be relieved of any part of the original assessment except the part apportioned to the subdivision, and the part of the original assessment apportioned to any subdivision shall be of the same force and effect as the original assessment.

"Section 404. **Change of Ownership.** No change of ownership of any property or interest therein after the passage of a resolution ordering the making of a local improvement shall affect subsequent proceedings, and the improvement may be completed and assessment made as if there had been no change in ownership.

"Section 405. **Lands Subject to Assessment.** No lands in the City, including railroad company lands and rights-of-way and property of the State of North Carolina, its agencies or subdivisions, shall be exempt from special assessments, except lands belonging to the United States which are exempt under provisions of federal statutes, and the officers, boards of directors, trustees, or other governing bodies of all incorporated or unincorporated bodies in whom is vested the right to hold and dispose of real property shall have the right by authority duly given to sign the petition for any local improvements.

"Section 406. **Proceedings In Rem.** All proceedings for special assessments shall be proceedings in rem, and no mistake or omission as to the name of any owner or person interested in any lot or parcel of land affected thereby shall be regarded as a substantial mistake or omission.

"Section 407. **Council May Hold Assessments in Abeyance.**

(a) Procedure. The owner of any abutting lot included on the preliminary assessment roll may file a petition with the City Clerk, not later than five days prior to the date fixed for the hearing, stating that the improvement will not be used by the owner and requesting that the assessment be held in abeyance. The City Council, after confirming such assessment, may, if it determines that the improvement will not be used, provide by resolution that the assessment be held in abeyance without the payment of interest thereon. The resolution shall require that the owner of the lot execute a statement, which shall be recorded in the office of the register of deeds of the county in which the property is located, acknowledging that an assessment has been confirmed against the property but is being held in abeyance until such time as the Council, upon not less than 10 days' prior written notice to the owner and following a public hearing, determines by resolution that the use, character, or ownership of the lot has changed. Upon such determination the assessment shall be paid in accordance with the terms set out in the confirming resolution. One or more of such assessments or any portion of a single assessment may be held in abeyance as provided in this section without holding all of such assessment or assessments in abeyance.

(b) Statutes of Limitations. All statutes of limitations are hereby suspended during the time that any assessment is held in abeyance without the payment of interest as provided in subsection (a) of this section. Such time shall not be a part of the time limit for the commencement of action for the enforcement of the payment of any such assessment, and such action may be brought at any time within 10 years from the date of the adoption of a resolution by the Council determining that the period of abeyance has ended, and the assessment shall be paid in accordance with the original resolution confirming it.

(c) Actions Barred. Nothing in this section shall be construed to revive any right of action that has heretofore been barred by the statute of limitation.
"Section 408. Abutting Property Outside City Limits. If any lots or parcels of land abutting any local improvements are located outside the City limits, the City Council may continue and delay the levy of assessments against such property until the City limits are extended to include such property, or the Council may provide that no water or sewer service connections shall be made to such property, pending the annexation thereof, until all assessments thereon are paid. Upon annexation, if not paid prior thereto, the City Council may levy assessments for such local improvements against such property, and the procedure shall be the same as provided in this Charter. Nothing contained in this section shall be construed to prohibit or restrict the City Council and a property owner from entering into an agreement for payments in lieu of assessments.

"Section 409. Procedures Not Exclusive. The procedures set forth in this article for making improvements shall not be exclusive but shall be in addition to the procedures for the same provided municipal corporations by the General Statutes of North Carolina as now existing or as may from time to time be amended or to any other procedure provided by law.

"ARTICLE III. FRANCHISES.

"Section 450. Public Utility Franchises. The City Council may grant franchises for the operation of public utilities within the City and for the use of the streets, street rights-of-way, and alleys of the City by such utilities for nonstreet and/or nonvehicular purposes for such terms and upon such conditions as the public welfare demands, and in its discretion may hold special elections on the question of granting franchises; provided, however:

(1) The terms of such franchises shall not exceed 60 years, unless renewed at the end of the period granted.

(2) All such franchises shall be revocable by the City Council for violation of their conditions by the franchisees if not corrected within a reasonable time after written notice from the City of such violation.

(3) No franchise so granted may be transferred without the prior approval of the City Council.

(4) Such franchises shall contain such reasonable provisions as the City Council in the exercise of its sound discretion deems proper, unless prohibited by law.

"Section 451. Annexation and Expiration of Franchise. In the event:

(1) There is annexed to the City an area within which a utility service is being furnished; or

(2) A public utility is operating within the City without previously having had a franchise granted to it by the City; or

(3) A public utility is operating within the City under a franchise granted by the City and such franchise expires and is not renewed or a new franchise is not granted to the utility by the City, and the City is at such time furnishing the same utility service to its residents or is allowed by law to and has elected to begin furnishing the same to its residents; the City may, at its election:

a. Acquire the facilities and properties of the public utility located within the corporate limits of the City used or useful in providing particular service from such public utility by negotiation and the payment of just compensation; or
b. Direct the public utility to remove such facilities and properties from the public streets, street rights-of-way, alleys, parks, or other rights-of-way belonging to the City, subject to the provisions of Section 452.

"Section 452. Necessity of Franchise. No public utility shall commence or continue to operate or do business in the City unless such utility shall have first had granted to it a franchise by the City under the provisions of this Charter, unless such public utility shall have in effect a valid and enforceable franchise granted by the City, in which event it shall not be necessary that it have granted to it a franchise under the provisions of this Charter until such previously granted franchise shall have expired; provided, however, if a public utility shall have been granted a franchise by the City and such franchise shall have expired, such public utility shall continue to operate under the terms of the expired franchise until:

1. A new franchise is granted to the same public utility; or
2. A franchise is granted to another public utility to furnish the same service; or
3. The City elects to and is in a position to render the same service and the same is allowed by law.

If the City elects to grant a franchise under subsection (1) or (2) of this section, but the City and the public utility after due negotiation are unable to agree upon the terms thereof, the matter shall be submitted by both parties and heard by the North Carolina Utilities Commission under the provisions of Article 4 of Chapter 62 of the North Carolina General Statutes as if the parties thereto had agreed to such submission in writing.

"Section 453. Applicability. The provisions of this article shall apply to electric, natural gas, water and sewer, telephone, pay television, pay television antennae, intracity buses, ambulances, and all other public utilities for which the City may grant franchises.

"ARTICLE IV. TRAFFIC REGULATION.

"Section 460. Authority of City Council to Adopt Regulations.

(a) Generally. Subject to the provisions of subsection (b) of this section, the City Council may adopt ordinances regulating the speeds of vehicles upon any City streets and may establish truck routes (or other required routes for limited classes or vehicles or traffic) applicable to any City streets. As used in this section, the term "City streets" includes all public highways, roads, and streets within the City limits, including numbered State highways, and highways, roads, and streets maintained, repaired, constructed, reconstructed, or widened in whole or in part with State funds.

(b) Certification. All ordinances concerning vehicle speeds, truck routes, or other required routes that apply to numbered State highways shall not become effective until certified to the North Carolina Department of Transportation by the City Clerk after adoption; provided, however, all such ordinances shall be prima facie deemed to have been so certified by the City Clerk upon submission of an affidavit to that effect.

(c) General Law. The authority granted in this section to the City Council shall be in addition to any authority conferred by general law upon the City Council or the City to regulate vehicles, traffic, or the use of City streets.

"Section 461. Power to Regulate Ambulances and Wreckers. The City Council may establish regulations governing the operation of ambulances, wreckers, and other motor vehicles used in connection with emergencies, disasters, or accidents, and may provide for the operation of an ambulance service or a wrecker service, or may enter
into a contract or contracts for the providing of such service by a private person or persons.

"Section 462. Power to Regulate Obstruction of Alleys. If, in the opinion of the City Council, a fire hazard is created by the obstruction of private alleys, the City Council may adopt regulations prohibiting the obstruction of private alleys, either by reason of the parking of motor vehicles or otherwise, but such regulations shall not be construed so as to restrict or limit the legal right of the owners of interests in a private alley to close the alley or to exercise other property rights therein.

"Section 463. Location of Traffic Control Devices. The City Council may authorize the City Manager to designate the location of official traffic control devices, upon a determination by the City Manager in writing certified to the City Council:

1. That their installation at the location in question is necessary in order to control traffic congestion or is in the interest of public safety; or
2. If such a device is to be moved or removed from a particular location, that the device is no longer required at such location for control of traffic congestion or in the interest of public safety.

An "official traffic control device" as used in this section is a sign, signal, stoplight, marking, or device, including a parking meter, which is intended to regulate vehicular or pedestrian traffic.

"Section 464. Council May Accept Civil Fines in Lieu of Criminal Penalties for Traffic Violations. Authority is hereby granted to the City Council, by ordinance, to accept civil fines in such amounts as may be deemed reasonable by the Council in lieu of satisfaction of the criminal penalties provided for the violation of traffic ordinances. The City shall pay no State taxes to the State of North Carolina for civil fines accepted in lieu or satisfaction of the criminal penalties referred to in this section. All civil penalties so collected shall be paid into the General Fund of the City.

"ARTICLE V. FISCAL AFFAIRS.

"Section 471. Director of Finance. The City Manager shall appoint a Director of Finance who shall have all powers and perform all duties provided by law.

"Section 472. Collector of Revenue. The City Manager shall appoint a Collector of Revenue who shall serve under the direction of the Director of Finance. All funds, including tax funds, owed to the City shall be collected by the Collector of Revenue and delivered to the Director of Finance.

"Section 473. Bonds. The City Manager, Director of Finance, and Collector of Revenue and such other persons handling funds of the City as the City Council deems advisable shall, before entering upon their respective offices, give bonds payable to the City in such amounts, according to such terms and with such sureties as the Council shall direct. The premiums for all such bonds shall be paid by the City.

"ARTICLE VI. ORDINANCE PROCEDURE.

"Section 484. Power to Adopt Ordinances. In addition to the powers and authorities granted municipal corporations by the Constitution and General Statutes of North Carolina relative to the adoption of ordinances having the effect of law, the City Council is hereby authorized and empowered to enact ordinances having the effect of law for the government of the City, to establish, promote, advance, and maintain the general welfare, culture, and economy of the City, its environs and inhabitants and to maintain the public peace, quiet, and good order, such ordinances to be enforceable within the City and for a distance of one mile in all directions of the City limits, and to repeal or modify the same. The City Council may further provide for the enforcement of such ordinances as provided by law.
(a) Generally. The City Council may adopt and provide for the publication and distribution of a codification of the City ordinances, to be known and cited as the "Code of the City of Rocky Mount." Each Code shall consist of two separate parts. The first part shall be known as "General Ordinances", and shall include all ordinances not designated "Technical Ordinances." The second part shall be known as "Technical Ordinances", and shall include all ordinances regarding the construction of buildings, the installation of plumbing, the installation of electric wiring, the installation of oil appliances or gas appliances and equipment, and other technical ordinances designated as such by the City Council.
(b) Official Copy. The official copy of the Code of the City of Rocky Mount, including all ordinances amending or supplementing the Code, shall be kept in the office of the City Clerk.

(a) Generally. Every ordinance concerning the matters enumerated in subsections (b) and (c) of this section may be codified by appropriate entries upon official map books to be retained permanently in the office of the City Clerk. Such entries shall be made by or under the direction of the City Manager. In conjunction with the introduction of every proposed ordinance concerning any of these matters, a map of the affected area shall be presented to the City Council.
(b) Zoning. The ordinances referred to in subsection (a) of this section include all ordinances establishing or amending boundaries of any district under zoning regulations.
(c) Vehicles. The ordinances referred to in subsection (a) of this section also include all ordinances:
(1) Designating the location of official traffic control devices;
(2) Designating areas or zones where restrictions, prohibitions, or other controls are applied with respect to parking, loading, bus stops, and taxicab stands;
(3) Establishing speed limits;
(4) Designating the location of through streets, stop intersections, yield right-of-way intersections, waiting lanes, one-way streets, and truck traffic routes; and
(5) Establishing restrictions, prohibitions, or other controls upon vehicle turns at designated locations.

"Section 487. Ordinances of Limited Application. The City Council shall have the power to enact ordinances which shall be effective only in certain districts or sections of the City, or ordinances which may except from their operations any districts or sections of the City, if in the judgment of the City Council the condition in such sections or districts requires them to be included in or excepted from the provisions of any such ordinance.

"ARTICLE VII. PERSONNEL.

"Section 490. Appointment and Removal of Department Heads and Employees; Compensation; Duty of Council.
(a) Appointments; Removals. The City Manager, except as otherwise provided in this Charter, shall appoint and may suspend and remove all City employees and heads of departments and, with the approval of the City Council, may employ consultants of any kind when needed. The City Manager shall report to the City Council every
appointment and removal of a department head at the next City Council meeting following the appointment or removal.

(b) Compensation. All pay and compensation plans shall be approved by the City Council.

(c) Duty of Council. Neither the City Council nor any of its members shall take any part in the appointment or removal of department heads and employees in the administrative service of the City. The City Council and its members shall deal with the administrative service solely through the City Manager, and neither the City Council nor any member thereof shall give specific orders to any subordinates of the City Manager, be it publicly or privately.

"ARTICLE VIII. ULTIMATE STREET IMPROVEMENTS.

"Section 510. Intent and Purpose. It is the intent and purpose of this article to provide a method whereby the City of Rocky Mount may make provisions for the ultimate widening or extension, or both, of existing streets and highways and for the opening of new streets and highways by the establishment of proposed street lines, and for the gradual acquisition of the lands necessary for such improvements.

"Section 511. Platting of Street Lines. From and after the time of adoption of a major transportation plan by the City Council and the North Carolina Department of Transportation pursuant to provisions of G.S. 136-66.2, the City Council shall have the power to request, make, or cause to be made, from time to time, surveys for the exact location of the lines of proposed extended, widened, or narrowed streets and highways in the whole or any portion of the City and the area within one mile outside of its corporate boundaries. Personnel making such surveys are empowered to enter upon lands, make examinations or surveys, and place and maintain necessary monuments thereon, at reasonable times and with due care for the property. A plat or plats of the area or areas thus surveyed shall be prepared on which are indicated the locations of the lines recommended as the planned or mapped lines of proposed streets, street extensions, street widening, or street narrowing. The preparation of such plat or plats shall not in and of itself constitute or be deemed to constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes.

"Section 512. Establishment of Proposed Street Lines. Following the preparation of such plats, the City Council shall officially adopt a map or maps of planned proposed streets and highways, widening, narrowing, or vacations, within the City and the area within one mile outside of its corporate boundaries. Before taking any such action, the City Council shall hold a public hearing thereon, notice of the time and place of which shall have been given once a week for two successive weeks in a newspaper published in the City or, if there is no newspaper published in the City, by posting such notice at four public places in the City and at four public places within any affected area lying outside of the corporate boundaries. Such notice shall be published or posted for the first time not less than 15 days prior to the date fixed for such hearing. Following adoption of such a map or maps, the City Council shall certify a copy to the Register of Deeds of Nash or Edgecombe County as the case may be, which copy shall be duly filed. The placing of any street or street line upon this official map or maps shall not in and of itself constitute or be deemed to constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes.

"Section 513. Right of City to Acquire Property Before Improvement. From and after the time when any such map or maps shall have been adopted and certified to the Register of Deeds, it shall be unlawful to build upon any land within the lines of proposed streets shown thereon or to repair or otherwise improve any existing buildings
within such lines until the City Council shall have been given an opportunity to purchase or otherwise acquire such property for street purposes as provided by this Article. To that end, any person proposing to build upon such land or to make repairs or improvements to any existing buildings on such land shall, in writing, notify the City Council of the nature and estimated cost of such buildings, repairs, or improvements. The City Council shall then determine whether it will take the necessary steps to acquire such land prior to the construction of such building or the making of such repairs or improvements. If it fails, within 60 days from the receipt of such notice, to acquire, adopt a formal resolution directing an appropriate officer to acquire, or institute condemnation proceedings to acquire such property, the owner or other person giving notice may proceed to erect the building or to make the repair or improvements described in such notice.

"Section 514. Owner Failing to Give Notice Cannot Recover for Value of Improvements. If any person, firm, or corporation builds upon any land included with such proposed street lines, or repairs or otherwise improves that part of any existing building within such lines, without giving the City Council an opportunity to acquire such land free from such improvements, as provided in this Charter, the City Council shall not be required to pay for the value of such building, repairs, or improvements in any proceeding subsequently brought to acquire the land for the purpose shown on the officially adopted map.

"Section 515. Failure of City to Act Does Not Limit Power Subsequently to Condemn. The failure of the City Council to take action under section 513 within 60 days after notice shall not have the effect of limiting the right of the City Council at any subsequent time to condemn the same. But in such case, the owner shall be entitled to full compensation as now provided by law for the building, repair, or improvements made after the giving of notice required by Section 513.

"Section 516. Powers Hereby Conferred Are Supplementary. The powers granted in this Article to the City of Rocky Mount are supplementary to any powers heretofore or hereafter granted by general or special laws for the same or a similar purpose; and in any case where the provisions of this article conflict with or are different from the provisions of any other act, the City Council may in its discretion proceed in accordance with the provisions of either act."

SECTION 8. If any part of this act or the application thereof to any person or circumstance is held to be invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

SECTION 9.  further hearings may be waived only with the consent of the juvenile, through counsel

SECTION 11. G.S. 105-374(m) reads as rewritten:

"(m) Sale. – The sale shall be by public auction to the highest bidder and shall, in accordance with the judgment, be held at the courthouse door on any day of the week except a Sunday or legal holiday, holiday when the courthouse is closed for transactions. (In actions brought by a municipality that is not a county seat, the court may, in its discretion, direct that the sale be held at the city or town hall door.) The commissioner conducting the sale may, in his discretion, require from any successful bidder a deposit equal to not more than twenty percent (20%) of his bid, which deposit, in the event that the bidder refuses to take title and a resale becomes necessary, shall be applied to pay the costs of sale and any loss resulting. (However, this provision shall not deprive the commissioner of his right to sue for specific performance of the contract.) No deposit shall be required of a taxing unit that has made the highest bid at the foreclosure sale."

SECTION 12. G.S. 156-105 reads as rewritten:

"§ 156-105. Assessment lien; collection; sale of land.

The assessments shall constitute a first and paramount lien, second only to State and county taxes, upon the lands assessed for the payment of the bonds and interest thereon as they become due, and shall be collected in the same manner and by the same officers as the State and county taxes are collected. The assessments shall be due and payable on the first Monday in September each year, and if the same shall not be paid in full by the thirty-first day of December following, it shall be the duty of the sheriff or tax collector to sell the lands so delinquent. The sale of lands for failure to pay such assessments shall be made at the courthouse door of the county in which the lands are situated, between the hours of 10 o'clock in the forenoon and four o'clock in the afternoon of any date except Sunday or another legal holiday, holiday when the courthouse is closed for transactions, which may be designated by the board of drainage commissioners. After any such sale date has been designated by the board of drainage commissioners, if for any necessary cause the sale cannot be made on that date, the sale may be continued from day to day for not exceeding four days, or the lands may be readvertised and sold on any day which the board of drainage commissioners may or shall designate during the same hours and without any order being obtained therefor during the same calendar year. Nothing in this section shall be construed to require any order from any court for any sale or resale held hereunder. The existing general tax law in force when sales are made for delinquent assessments shall have application in redeeming lands so sold; and in all other respects, except as herein or otherwise modified or amended, the existing law as to the collection of State and county taxes shall apply to the collection of such drainage assessments. No bid at any sale shall be received unless sufficient in amount to discharge all the drainage assessments and other charges due by the delinquent lands or owner thereof, together with all costs and expenses of sale. If no sufficient bid be received, the board of drainage commissioners of the district shall be deemed the purchaser in its corporate capacity at a sum sufficient to pay all assessments which are due and costs as above stated, and shall be entitled to receive a certificate of purchase and deed in the manner provided by law for purchasers at tax sales. The board of drainage commissioners shall only be required to pay to the sheriff the costs and expenses of sale before receiving a certificate of purchase. The board of drainage commissioners of the district in their corporate capacity shall be in like position and have the same rights and be subject to the same duties as the purchaser of lands at any tax sale under the general law. If the board of drainage commissioners shall have been the purchaser of lands so sold, the amount paid in redemption by the owner, or any
person having an estate therein or lien thereon, shall include the sum bid therefor plus the penalty. The board of drainage commissioners shall pay to the sheriff or tax collector the amount representing their bid at the sale of said lands before they shall be entitled to receive a deed therefor, which the sheriff shall pay to the treasurer of the drainage district in the same manner as other funds received by him. The board of drainage commissioners, after acquiring a deed for said lands, may hold the same as an asset of the district, and shall be liable for the payment of all drainage assessments and State and county taxes accruing after the sale at which the district was a bidder, and in all respects be deemed the owner of said lands and subject to the same privileges and liabilities as any other landowner, including the right to convey the said lands for a consideration and pay the proceeds of said sale to the treasurer of the district, which may be distributed by the drainage commissioners for the benefit of the district in the same manner as other district funds.

If any sheriff or tax collector failed for any reason to collect drainage assessments upon lands in any drainage districts due in 1917, or any subsequent years, and further failed to make valid sales of the lands so delinquent in the payment of such assessments, then and in such event the existing sheriff or tax collector is hereby authorized and directed to proceed to collect such unpaid drainage assessments, with interest thereon from the dates when such assessments respectively became due, and in default of payment being made he is further authorized to make sales of such lands as may be in default at any time hereafter, at the times and in the manner authorized by law as amended herein; and the purchaser at said sales shall acquire title to such lands in the manner provided by law. If the sheriff or tax collector in office at the time such assessments were in default has since died or gone out of office, the powers herein given shall be exercised by the existing sheriff or tax collector.

The 1931 amendment to this section shall have the same force and effect from and after April 13, 1931, as if it had been ratified and enacted prior to the first day of January, 1929, and no sale of drainage lands held under the provisions of section 5361 shall be deemed or declared void by reason of the fact that they may not have been held on the day specified in section 5361 of the Consolidated Statutes prior to this amendment."

SECTION 1. G.S. 20-118.1 reads as rewritten:

"§ 20-118.1. Officers may weigh vehicles and require overloads to be removed.

A law enforcement officer may stop and weigh a vehicle to determine if the vehicle's weight is in compliance with the vehicle's declared gross weight and the weight limits
set in this Part. The officer may require the driver of the vehicle to drive to a scale located within five miles of where the officer stopped the vehicle.

Any person operating a vehicle or a combination of vehicles having a GVWR of 10,001 pounds or more or any vehicle transporting hazardous materials that is required to be placarded under 49 C.F.R. § 171-180 must enter a permanent weigh station or temporary inspection or weigh site as directed by duly erected signs or an electronic transponder for the purpose of being electronically screened for compliance, or weighed, or inspected.

If the vehicle's weight exceeds the amount allowable, the officer may detain the vehicle until the overload has been removed. Any property removed from a vehicle because the vehicle was overloaded is the responsibility of the owner or operator of the vehicle. The State is not liable for damage to or loss of the removed property.

Failure to permit a vehicle to be weighed or to remove an overload is a misdemeanor of the Class set in G.S. 20-176. An officer must weigh a vehicle with a scale that has been approved by the Department of Agriculture and Consumer Services.

A privately owned noncommercial horse trailer constructed to transport four or fewer horses shall not be required to stop at any permanent weigh station in the State while transporting horses, unless the driver of the vehicle hauling the trailer is directed to stop by a law enforcement officer. AN ACT TO EXTEND THE SURCHARGE FOR THE TELECOMMUNICATIONS RELAY SERVICE TO INCLUDE WIRELESS COMMUNICATIONS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 62-157 reads as rewritten:

(a) Finding. – The General Assembly finds and declares that it is in the public interest to provide access to public telecommunications services for hearing impaired or speech impaired persons, including those who also have vision impairment, and that a statewide telecommunications relay service for telephone service should be established.

(a1) Definitions. – For purposes of this section:

(1) 'CMRS' is as defined in G.S. 62A-21.
(2) 'CMRS connection' is as defined in G.S. 62A-21.
(3) 'CMRS provider' is as defined in G.S. 62A-21.

(1) "Exchange access facility" means the access from a particular telephone subscriber's premises to the telephone system of a local exchange telephone company, and includes local exchange company-provided access lines, private branch exchange trunks, and centrex network access registers, all as defined by tariffs of telephone companies as approved by the Commission.

(2) "Local service provider" means a local exchange company, competing local provider, or telephone membership corporation.

(b) Authority to Require Surcharge. – The Commission shall require local service providers to impose a monthly surcharge on all residential and business local exchange access facilities to fund a statewide telecommunications relay service by which hearing impaired or speech impaired persons, including those who also have vision impairment, may communicate with others by telephone. This surcharge, however, may not be imposed on participants in the Subscriber Line Charge Waiver Program or the Link-up Carolina Program established by the Commission. This surcharge, and long distance revenues collected under subsection (f) of this section, are not includable in gross receipts subject to the franchise tax levied under G.S. 105-120 or the sales tax levied under G.S. 105-164.4.

(c) Specification of Surcharge. – The Department of Health and Human Services shall initiate a telecommunications relay service by filing a petition with the Commission requesting the service and detailing initial projected required funding. The Commission shall, after giving notice and an opportunity to be heard to other interested parties, set the initial monthly surcharge based upon the amount of funding necessary to implement and operate the service, including a reasonable margin for a reserve. The surcharge shall be identified on customer bills as a special surcharge for provision of a telecommunications relay service for hearing impaired and speech impaired persons. The Commission may, upon petition of any interested party, and after giving notice and an opportunity to be heard to other interested parties, revise the surcharge from time to time if the funding requirements change. In no event shall the surcharge exceed twenty-five cents (25¢) per month for each exchange access facility.

(d) Funds to Be Deposited in Special Account. – The local service providers shall collect the surcharge from their customers and deposit the moneys collected with the State Treasurer, who shall maintain the funds in an interest-bearing, nonreverting
account. After consulting with the State Treasurer, the Commission shall direct how and when the local service providers shall deposit these moneys. Revenues from this fund shall be available only to the Department of Health and Human Services to administer the statewide telecommunications relay service program, including its establishment, operation, and promotion. The Commission may allow the Department of Health and Human Services to use up to four cents (4¢) per access line per month of the surcharge for the purpose of providing telecommunications devices for hearing impaired or speech impaired persons, including those who also have vision impairment, through a distribution program. The Commission shall prepare such guidelines for the distribution program as it deems appropriate and in the public interest. Both the Commission and the Public Staff may audit all aspects of the telecommunications relay service program, including the distribution programs, as they do with any public utility subject to the provisions of this Chapter. Equipment paid for with surcharge revenues, as allowed by the Commission, may be distributed only by the Department of Health and Human Services.

(e) Administration of Service. – The Department of Health and Human Services shall administer the statewide telecommunications relay service program, including its establishment, operation, and promotion. The Department may contract out the provision of this service for four-year periods to one or more service providers, using the provisions of G.S. 143-129.

(f) Charge to Users. – The users of the telecommunications relay service shall be charged their approved long distance and local rates for telephone services (including the surcharge required by this section), but no additional charges may be imposed for the use of the relay service. The local service providers shall collect revenues from the users of the relay service for long distance services provided through the relay service. These revenues shall be deposited in the special fund established in subsection (d) of this section in a manner determined by the Commission after consulting with the State Treasurer. Local service providers shall be compensated for collection, inquiry, and other administrative services provided by said companies, subject to the approval of the Commission.

(g) Reporting Requirement. – The Commission shall, after consulting with the Department of Health and Human Services, develop a format and filing schedule for a comprehensive financial and operational report on the telecommunications relay service program. The Department of Health and Human Services shall thereafter prepare and file these reports as required by the Commission with the Commission and the Public Staff. The Department shall also be required to report to the Revenue Laws Study Committee.

(h) Power to Regulate. – The Commission shall have the same power to regulate the operation of the telecommunications relay service program as it has to regulate any public utility subject to the provisions of this Chapter.

(i) Wireless Surcharge. – A CMRS provider, as part of its monthly billing process, must collect the same surcharge imposed on each exchange access facility under this section for each CMRS connection. A CMRS provider may deduct a one percent (1%) administrative fee from the total amount of surcharge collected. A CMRS provider shall remit the surcharge collected, less the administrative fee, to the Wireless 911 Board in the same manner and with the same frequency as the local service providers remit the surcharge to the State Treasurer. The Wireless 911 Board shall remit the funds collected from the surcharge to the special account created under subsection (d) of this section."

This subsection is not intended to give the Wildlife Resources Commission the authority to supplant, enact any conflicting rules, or otherwise take any action inconsistent with that of any other State agency acting within its jurisdiction."

SECTION 10. G.S. 113-294 is amended by adding a new subsection to read:

(b) The North Carolina Wildlife Resources Commission shall regulate the possession and transportation of live fallow deer and live red deer and may adopt rules to prevent the release or escape of fallow deer or red deer, or both, upon finding that it is necessary to protect live fallow deer or live red deer, or both, or to prevent damage to the native deer population or its habitat possession and transportation, including importation and exportation, of cervids pursuant to G.S. 113-272.6.

"§ 1-569.4. Effect of agreement to arbitrate; nonwaivable provisions.
(a) Except as otherwise provided in subsections (b) and (c) of this section, a party to an agreement to arbitrate or to an arbitration proceeding may waive, or the parties may vary the effect of, the requirements of this Article to the extent provided by law.
(b) Before a controversy arises that is subject to an agreement to arbitrate, a party to the agreement may not:
   (1) Waive or agree to vary the effect of the requirements of G.S. 1-569.5(a), 1-569.6(a), 1-569.8, 1-569.17(a), 1-569.17(b), 1-569.26, or 1-569.28;

(c) A party to an agreement to arbitrate or to an arbitration proceeding may not waive, or the parties shall not vary the effect of, the requirements of this section or G.S. 1-569.3(a), 1-569.7, 1-569.14, 1-569.18, 1-569.20(d), 1-569.20(e), 1-569.22, 1-569.23, 1-569.24, 1-569.25(a), 1-569.25(b), 1-569.29, 1-569.30, 1-569.31. Any waiver contrary to this section shall not be effective but shall not have the effect of voiding the agreement to arbitrate.

"§ 1-569.5. Application for judicial relief.
(a) Except as otherwise provided in G.S. 1-569.28, an application for judicial relief under this Article shall be made by motion to the court and heard in the manner provided by law or rule of court for making and hearing motions.
(b) Unless a civil action involving the agreement to arbitrate is pending, notice of an initial motion to the court under this Article shall be served in the manner provided by law for the service of a summons in a civil action. Otherwise, notice of the motion shall be given in the manner prescribed by law or rule of court for serving motions in pending cases.
§ 1-569.6. Validity of agreement to arbitrate.
(a) An agreement contained in a record to submit to arbitration any existing or subsequent controversy arising between the parties to the agreement is valid, enforceable, and irrevocable except upon a ground that exists at law or in equity for revoking a contract.
(b) The court shall decide whether an agreement to arbitrate exists or a controversy is subject to an agreement to arbitrate.
(c) An arbitrator shall decide whether a condition precedent to arbitrability has been fulfilled and whether a contract containing a valid agreement to arbitrate is enforceable.
(d) If a party to a judicial proceeding challenges the existence of, or claims that a controversy is not subject to, an agreement to arbitrate, the arbitration proceeding may continue pending final resolution of the issue by the court, unless the court otherwise orders.

§ 1-569.7. Motion to compel or stay arbitration.
(a) On motion of a person showing an agreement to arbitrate and alleging another person’s refusal to arbitrate pursuant to the agreement:
   (1) If the refusing party does not appeal or does not oppose the motion, the court shall order the parties to arbitrate; and
   (2) If the refusing party opposes the motion, the court shall proceed summarily to decide the issue and order the parties to arbitrate unless it finds that there is no enforceable agreement to arbitrate.
(b) On motion of a person alleging that an arbitration proceeding has been initiated or threatened but that there is no agreement to arbitrate, the court shall proceed summarily to decide the issue. If the court finds that there is an enforceable agreement to arbitrate, it shall order the parties to arbitrate.
(c) If the court finds that there is no enforceable agreement to arbitrate, it shall not, pursuant to subsection (a) or (b) of this section, order the parties to arbitrate.
(d) The court shall not refuse to order arbitration because the claim subject to arbitration lacks merit or because grounds for the claim have not been established.
(e) If a proceeding involving a claim referable to arbitration under an alleged agreement to arbitrate is pending in a court, a motion under this section shall be made in that court. Otherwise a motion under this section may be made in any court as provided in G.S. 1-569.27.
(f) If a party makes a motion to the court to order arbitration, the court on just terms shall stay any judicial proceeding that involves a claim alleged to be subject to the arbitration until the court renders a final decision under this section.
(g) If the court orders arbitration, the court on just terms shall stay any judicial proceeding that involves a claim subject to the arbitration. If a claim subject to the arbitration is severable, the court may limit the stay to that claim.

§ 1-569.8. Provisional remedies.
(a) Before an arbitrator is appointed and is authorized and able to act, the court, upon motion of a party to an arbitration proceeding and for good cause shown, may enter an order for provisional remedies to protect the effectiveness of the arbitration proceeding to the same extent and under the same conditions as if the controversy were the subject of a civil action.
(b) After an arbitrator is appointed and is authorized and able to act:
   (1) The arbitrator may issue orders for provisional remedies, including interim awards, as the arbitrator finds necessary to protect the
effectiveness of the arbitration proceeding and to promote the fair and expeditious resolution of the controversy, to the same extent and under the same conditions as if the controversy were the subject of a civil action; and

(2) A party to an arbitration proceeding may move the court for a provisional remedy if the matter is urgent and the arbitrator is not able to act in a timely manner or the arbitrator cannot provide an adequate remedy.

(c) A party does not waive the right to arbitrate by making a motion under subsection (a) or (b) of this section.

§ 1-569.9. Initiation of arbitration.

(a) A person initiates an arbitration proceeding by giving notice in a record to the other parties to the agreement to arbitrate in the agreed manner between the parties or, in the absence of agreement, by certified or registered mail, return receipt requested, and obtained, or by service as authorized for the commencement of a civil action. The notice shall describe the nature of the controversy and the remedy sought.

(b) Unless a person objects for lack or insufficiency of notice under G.S. 1-569.15(c) no later than the beginning of the arbitration hearing, the person, by appearing at the hearing, waives any objection to lack or insufficiency of notice.

§ 1-569.10. Consolidation of separate arbitration proceedings.

(a) Except as otherwise provided in subsection (c) of this section, upon motion of a party to an agreement to arbitrate or to an arbitration proceeding, the court may order consolidation of separate arbitration proceedings as to all or some of the claims if:

(1) There are separate agreements to arbitrate or separate arbitration proceedings between the same persons or one of them is a party to a separate agreement to arbitrate or a separate arbitration with a third person;

(2) The claims subject to the agreements to arbitrate arise in substantial part from the same transaction or series of related transactions;

(3) The existence of a common issue of law or fact creates the possibility of conflicting decisions in the separate arbitration proceedings; and

(4) Prejudice resulting from a failure to consolidate is not outweighed by the risk of undue delay or prejudice to the rights of or hardship to parties opposing consolidation.

(b) The court may order consolidation of separate arbitration proceedings as to some claims and allow other claims to be resolved in separate arbitration proceedings.

(c) The court shall not order consolidation of the claims of a party to an agreement to arbitrate if the agreement prohibits consolidation.

§ 1-569.11. Appointment of arbitrator; service as a neutral arbitrator.

(a) If the parties to an agreement to arbitrate agree on a method for appointing an arbitrator, that method shall be followed, unless the method fails. If the parties have not agreed on a method, the agreed method fails, or an arbitrator appointed fails or is unable to act and a successor has not been appointed, the court, on motion of a party to the arbitration proceeding, shall appoint the arbitrator. An arbitrator so appointed has all the powers of an arbitrator designated in the agreement to arbitrate or appointed pursuant to the agreed method.

(b) An individual who has a known, direct, and material interest in the outcome of the arbitration proceeding or a known, existing, and substantial relationship with a party shall not serve as an arbitrator required by an agreement to be neutral.
§ 1-569.12. Disclosure by arbitrator.

(a) Before accepting appointment, an individual who is requested to serve as an arbitrator, after making a reasonable inquiry, shall disclose to all parties to the agreement to arbitrate and to the arbitration proceeding and to any other arbitrators any known facts that a reasonable person would consider likely to affect the impartiality of the arbitrator in the arbitration proceeding, including:
   (1) A financial or personal interest in the outcome of the arbitration proceeding; and
   (2) An existing or past relationship with any of the parties to the agreement to arbitrate or to the arbitration proceeding, their counsel or representatives, a witness, or other arbitrators.

(b) An arbitrator has a continuing obligation to disclose to all parties to the agreement to arbitrate and to the arbitration proceeding and to any other arbitrators any facts that the arbitrator learns after accepting appointment which a reasonable person would consider likely to affect the impartiality of the arbitrator.

(c) If an arbitrator discloses a fact required by subsection (a) or (b) of this section to be disclosed and a party timely objects to the appointment or continued service of the arbitrator based upon the fact disclosed, the objection may be a ground under G.S. 1-569.23(a)(2) for vacating an award made by the arbitrator.

(d) If the arbitrator did not disclose a fact as required by subsection (a) or (b) of this section, upon timely objection by a party, the court under G.S. 1-569.23(a)(2) may vacate an award.

(e) An arbitrator appointed as a neutral arbitrator who does not disclose a known, direct, and material interest in the outcome of the arbitration proceeding or a known, existing, and substantial relationship with a party is presumed to act with evident partiality under G.S. 1-569.23(a)(2).

(f) If the parties to an arbitration proceeding agree to the procedures of an arbitration organization or any other procedures for challenges to arbitrators before an award is made, substantial compliance with those procedures is a condition precedent to a motion to vacate an award on that ground under G.S. 1-569.23(a)(2).

§ 1-569.13. Action by majority.

If there is more than one arbitrator, the powers of an arbitrator shall be exercised by a majority of the arbitrators, but all of them shall conduct the hearing under G.S. 1-569.15(c).

§ 1-569.14. Immunity of arbitrator; competency to testify; attorneys' fees and costs.

(a) An arbitrator or an arbitration organization acting in that capacity is immune from civil liability to the same extent as a judge of a court of this State acting in a judicial capacity.

(b) The immunity afforded by this section supplements any immunity under other law.

(c) The failure of an arbitrator to make a disclosure required by G.S. 1-569.12 shall not cause any loss of immunity under this section.

(d) In a judicial, administrative, or similar proceeding, an arbitrator or representative of an arbitration organization is not competent to testify and shall not be required to produce records as to any statement, conduct, decision, or ruling occurring during the arbitration proceeding to the same extent as a judge of a court of this State acting in a judicial capacity. This subsection shall not apply:
(1) To the extent necessary to determine the claim of an arbitrator, arbitration organization, or representative of the arbitration organization against a party to the arbitration proceeding; or

(2) To a hearing on a motion to vacate an award under G.S. 1-569.23(a)(1) or (a)(2) if the movant makes a prima facie showing that a ground for vacating the award exists.

(e) If a person commences a civil action against an arbitrator, arbitration organization, or representative of an arbitration organization arising from the services of the arbitrator, organization, or representative, or if a person seeks to compel an arbitrator or a representative of an arbitration organization to testify or produce records in violation of subsection (d) of this section, and the court decides that the arbitrator, arbitration organization, or representative of an arbitration organization is immune from civil liability or that the arbitrator or representative of the organization is not competent to testify, the court shall award to the arbitrator, organization, or representative reasonable attorneys' fees, costs, and other reasonable expenses of litigation.

(f) Immunity under this section shall not apply to acts or omissions that occur with respect to the operation of a motor vehicle.

§ 1-569.15. Arbitration process.

(a) An arbitrator may conduct an arbitration in the manner the arbitrator considers appropriate for a fair and expeditious disposition of the proceeding. The authority conferred upon the arbitrator includes the power to hold conferences with the parties to the arbitration proceeding before the hearing and, among other matters, determine the admissibility, relevance, materiality, and weight of any evidence.

(b) An arbitrator may decide a request for summary disposition of a claim or particular issue:

(1) If all interested parties agree; or

(2) Upon request of one party to the arbitration proceeding if that party gives notice to all other parties to the proceeding and the other parties have a reasonable opportunity to respond.

(c) If an arbitrator orders a hearing, the arbitrator shall set a time and place and give notice of the hearing not less than five days before the hearing begins. Unless a party to the arbitration proceeding objects to the lack or insufficiency of notice not later than the beginning of the hearing, the party's appearance at the hearing waives the objection. Upon request of a party to the arbitration proceeding and for good cause shown, or upon the arbitrator's own initiative, the arbitrator may adjourn the hearing from time to time as necessary but shall not postpone the hearing to a time later than that fixed by the agreement to arbitrate for making the award unless the parties to the arbitration proceeding consent to a later date. The arbitrator may hear and decide the controversy upon the evidence produced although a party who was duly notified did not appear. The court, upon request, may direct the arbitrator to conduct the hearing promptly and render a timely decision.

(d) At a hearing under subsection (c) of this section, a party to the arbitration proceeding may be heard, present evidence material to the controversy, and cross-examine witnesses appearing at the hearing.

(e) If an arbitrator ceases to or is unable to act during the arbitration proceeding, a replacement arbitrator shall be appointed in accordance with G.S. 1-569.11 to continue the proceeding and to resolve the controversy.

(f) The rules of evidence shall not apply in arbitration proceedings, except as to matters of privilege or immunities.
§ 1-569.16. Representation by lawyer.
A party to an arbitration proceeding may be represented by an attorney or attorneys.

§ 1-569.17. Witnesses; subpoenas; depositions; discovery.
(a) An arbitrator may issue a subpoena for the attendance of a witness and for the production of records and other evidence at any hearing and may administer oaths. A subpoena shall be served in the manner for service of subpoenas in a civil action and, upon motion to the court by a party to the arbitration proceeding or the arbitrator, enforced in the manner for enforcement of subpoenas in a civil action.

(b) In order to make the proceedings fair, expeditious, and cost-effective, upon request of a party to or a witness in an arbitration proceeding, an arbitrator may permit a deposition of any witness to be taken for use as evidence at the hearing, including a witness who cannot be subpoenaed for or is unable to attend a hearing. The arbitrator shall determine the conditions under which the deposition is taken.

(c) An arbitrator may permit any discovery the arbitrator decides is appropriate under the circumstances, taking into account the needs of the parties to the arbitration proceeding and other affected persons and the desirability of making the proceeding fair, expeditious, and cost-effective.

(d) If an arbitrator permits discovery under subsection (c) of this section, the arbitrator may order a party to the arbitration proceeding to comply with the arbitrator's discovery-related orders, issue subpoenas for the attendance of a witness and for the production of records and other evidence at a discovery proceeding, and take action against a noncomplying party to the extent a court could if the controversy were the subject of a civil action in this State.

(e) An arbitrator may issue a protective order to prevent the disclosure of privileged information, confidential information, trade secrets, and other information protected from disclosure to the extent a court could if the controversy were the subject of a civil action in this State.

(f) All laws compelling a person under subpoena to testify and all fees for attending a judicial proceeding, a deposition, or a discovery proceeding as a witness apply to an arbitration proceeding as if the controversy were the subject of a civil action in this State.

(g) The court may enforce a subpoena or discovery-related order for the attendance of a witness within this State and for the protection of records and other evidence issued by an arbitrator in connection with an arbitration proceeding in another state upon conditions determined by the court so as to make the arbitration proceeding fair, expeditious, and cost-effective. A subpoena or discovery-related order issued by an arbitrator in another state shall be served in the manner provided by law for service of subpoenas in a civil action in this State and, upon motion to the court by a party to the arbitration proceeding or the arbitrator, enforced in the manner provided by law for enforcement of subpoenas in a civil action in this State.

(h) An arbitrator shall not have the authority to hold a party in contempt of any order the arbitrator makes under this section. A court may hold parties in contempt for failure to obey an arbitrator's order, or an order made by the court, pursuant to this section, among other sanctions imposed by the arbitrator or the court.

§ 1-569.18. Judicial enforcement of preaward ruling by arbitrator.
(a) If an arbitrator makes a preaward ruling in favor of a party to the arbitration proceeding, the party may request the arbitrator to incorporate the ruling into an award under G.S. 1-569.19. A prevailing party may make a motion to the court for an expedited order to confirm the award under G.S. 1-569.22, in which case the court shall
summarily decide the motion. The court shall issue an order to confirm the award unless
the court vacates, modifies, or corrects the award under G.S. 1-569.23 or G.S. 1-569.24.

(b) An arbitrator's ruling under subsection (a) of this section that denies a request
for a preaward ruling is not subject to trial court review. A party whose request under
subsection (a) of this section for a preaward ruling has been denied by an arbitrator may
seek relief under G.S. 1-569.20 and G.S. 1-569.21 from any final award the arbitrator
renders.

(c) There is no right of appeal from trial court orders and judgments on preaward
rulings by an arbitrator after a trial court award under this section, G.S. 1-569.19, and
G.S. 1-569.28.

"§ 1-569.19. Award.

(a) An arbitrator shall make a record of an award. The record shall be signed or
otherwise authenticated as authorized by federal or State law by any arbitrator who
concurs with the award. The arbitrator or the arbitration organization shall give notice of
the award, including a copy of the award, to each party to the arbitration proceeding.

(b) An award shall be made within the time specified by the agreement to
arbitrate or, if not specified therein, within the time ordered by the court. The court may
extend or the parties to the arbitration proceeding may agree in a record to extend the
time. The court or the parties may extend the time within or after the time specified or
ordered. A party waives any objection that an award was not timely made unless that
party gives notice of the objection to the arbitrator before receiving notice of the award.

"§ 1-569.20. Change of award by arbitrator.

(a) On motion to an arbitrator by a party to an arbitration proceeding, the
arbitrator may modify or correct an award:

(1) Upon a ground stated in G.S. 1-569.24(a)(1) or (a)(3);

(2) Because the arbitrator had not made a final and definite award upon a
claim submitted by the parties to the arbitration proceeding; or

(3) To clarify the award.

(b) A motion under subsection (a) of this section shall be made and notice given
to all parties within 20 days after the moving party receives notice of the award.

(c) A party to the arbitration proceeding shall give notice of any objection to the
motion within 10 days after receipt of the notice.

(d) If a motion to the court is pending under G.S. 1-569.22, 1-569.23, or
1-569.24, the court may submit the claim to the arbitrator to consider whether to modify
or correct the award:

(1) Upon a ground stated in G.S. 1-569.24(a)(1) or (a)(3);

(2) Because the arbitrator had not made a final and definite award upon a
claim submitted by the parties to the arbitration proceeding; or

(3) To clarify the award.

(e) An award modified or corrected pursuant to this section is subject to G.S.
1-569.19(a), 1-569.22, 1-569.23, and 1-569.24.

"§ 1-569.21. Remedies; fees and expenses of arbitration proceeding.

(a) An arbitrator may award punitive damages or other exemplary relief if:

(1) The arbitration agreement provides for an award of punitive damages
or exemplary relief;

(2) An award for punitive damages or other exemplary relief is authorized
by law in a civil action involving the same claim; and

(3) The evidence produced at the hearing justifies the award under the
legal standards otherwise applicable to the claim.
(b) An arbitrator may award reasonable expenses of arbitration if an award of expenses is authorized by law in a civil action involving the same claim or by the agreement of the parties to the arbitration proceeding. An arbitrator may award reasonable attorneys' fees if:

1. The arbitration agreement provides for an award of attorneys' fees; and
2. An award of attorneys' fees is authorized by law in a civil action involving the same claim.

(c) As to all remedies other than those authorized by subsections (a) and (b) of this section, an arbitrator may order any remedies the arbitrator considers just and appropriate under the circumstances of the arbitration proceeding. The fact that a remedy could not or would not be granted by the court is not a ground for refusing to confirm an award under G.S. 1-569.22 or for vacating an award under G.S. 1-569.23.

(d) An arbitrator's expenses and fees, together with other expenses, shall be paid as provided in the award.

(e) If an arbitrator awards punitive damages or other exemplary relief under subsection (a) of this section, the arbitrator shall specify in the award the basis in fact justifying and the basis in law authorizing the award and state separately the amount of the punitive damages or other exemplary relief.

§ 1-569.22. Confirmation of award.
After a party to an arbitration receives notice of an award, the party may make a motion to the court for an order confirming the award. Upon motion of a party for an order confirming the award, the court shall issue a confirming order unless the award is modified or corrected pursuant to G.S. 1-569.20 or G.S. 1-569.24 or is vacated pursuant to G.S. 1-569.23.

§ 1-569.23. Vacating award.
(a) Upon motion to the court by a party to an arbitration proceeding, the court shall vacate an award made in the arbitration proceeding if:

1. The award was procured by corruption, fraud, or other undue means;
2. There was:
   a. Evident partiality by an arbitrator appointed as a neutral arbitrator;
   b. Corruption by an arbitrator; or
   c. Misconduct by an arbitrator prejudicing the rights of a party to the arbitration proceeding;
3. An arbitrator refused to postpone the hearing upon a showing of sufficient cause for postponement, refused to consider evidence material to the controversy, or otherwise conducted the hearing contrary to G.S. 1-569.15 so as to prejudice substantially the rights of a party to the arbitration proceeding;
4. An arbitrator exceeded the arbitrator's powers;
5. There was no agreement to arbitrate, unless the person participated in the arbitration proceeding without raising the objection under G.S. 1-569.15(c) no later than the beginning of the arbitration hearing; or
6. The arbitration was conducted without proper notice of the initiation of an arbitration as required in G.S. 1-569.9 so as to prejudice substantially the rights of a party to the arbitration proceeding.

(b) A motion under this section shall be filed within 90 days after the moving party receives notice of the award pursuant to G.S. 1-569.19 or within 90 days after the moving party receives notice of a modified or corrected award pursuant to G.S. 1-569.24.
1-569.20, unless the moving party alleges that the award was procured by corruption, fraud, or other undue means, in which case the motion shall be made within 90 days after the ground is known, or by the exercise of reasonable care would have been known, by the moving party.

(c) If the court vacates an award on a ground other than that set forth in subdivision (a)(5) of this section, it may order a rehearing. If the award is vacated on a ground stated in subdivision (1) or (2) of subsection (a) of this section, the rehearing shall be before a new arbitrator. If the award is vacated on a ground stated in subdivision (3), (4), or (6) of subsection (a) of this section, the rehearing may be held before the arbitrator who made the award or the arbitrator's successor. The arbitrator shall render the decision in the rehearing within the same time as the time provided in G.S. 1-569.19(b) for an award.

(2) Criminal history. – A history of conviction of a state or federal crime, whether a misdemeanor or felony, that bears on an applicant's fitness for licensure to practice locksmithing. The crimes include the criminal offenses set forth in any of the following Articles of Chapter 14 of the General Statutes: Article 5, Counterfeiting and Issuing Monetary Substitutes; Article 5A, Endangering Executive and Legislative Officers; Article 6, Homicide; Article 7A, Rape and Other Sex Offenses; Article 8, Assaults; Article 10, Kidnapping and Abduction; Article 13, Malicious Injury or Damage by Use of Explosive or Incendiary Device or Material; Article 14, Burglary and Other Housebreakings; Article 15, Arson and Other Burnings; Article 16, Larceny; Article 17, Robbery; Article 18, Embezzlement; Article 19, False Pretenses and Cheats; Article 19A, Obtaining Property or Services by False or Fraudulent Use of Credit Device or Other Means; Article 19B, Financial Transaction Card Crime Act; Article 20, Frauds; Article 21, Forgery; Article 26, Offenses Against Public Morality and Decency; Article 26A, Adult Establishments; Article 27, Prostitution; Article 28, Perjury; Article 29, Bribery; Article 31, Misconduct in Public Office; Article 35, Offenses Against the Public Peace; Article 36A, Riots and Civil Disorders; Article 39, Protection of Minors; Article 40, Protection of the Family; Article 59, Public Intoxication; and Article 60, Computer-Related Crime. (b) All applicants for licensure or apprentice designation shall consent to a criminal history record check. Refusal to consent to a criminal history record check may constitute grounds for the Board to deny licensure or apprentice designation to an applicant. applicant is checked. The Board shall be responsible for providing to the North Carolina
Department of Justice the fingerprints of the applicant to be checked, a form signed by

(4) The circumstances surrounding the commission of the crime, if known.

employment records since the date the crime was committed.
(7) The subsequent commission by the person of a crime listed in
subdivision (a)(2) of this section.

If, after reviewing these factors, the Board determines that the applicant's criminal
history disqualifies the applicant for licensure, the Board may deny licensure or
apprentice designation of the applicant. The Board may disclose to the applicant
information contained in the criminal history record check that is relevant to the denial.
The Board shall not provide a copy of the criminal history record check to the applicant.
The applicant shall have the right to appear before the Board to appeal the Board's
decision. However, an appearance before the full Board shall constitute an exhaustion of
administrative remedies in accordance with Chapter 150B of the General Statutes.

(d) Limited Immunity. – The Board, its officers, and employees, acting in good
faith and in compliance with this section, shall be immune from civil liability for
denying licensure or apprentice designation to an applicant based on information

   (1) Farm or residential underground storage tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes.
   (2) Underground storage tank of 1,100 gallons or less capacity used for storing heating oil for consumptive use on the premises where stored.
   (3) Underground storage tank of more than 1,100 gallon capacity used for storing heating oil for consumptive use on the premises where stored by four or fewer households.

(c) Rules adopted pursuant to subdivision (13) of subsection (a) of this section shall require secondary containment for all nontank components of underground storage tank systems, including all piping and fittings, pump heads, and dispensers. The rules shall provide for monthly monitoring of double wall interstices and sump containments. The rules shall apply to any underground storage tank system that is installed on or after the date on which the rules become effective and to the replacement of any nontank component of an underground storage tank system on or after that date."

SECTION 9. G.S. 143-215.94V reads as rewritten:
"§ 143-215.94V. Standards for petroleum underground storage tank cleanup.
   (a) Legislative findings and intent.
   (1) The General Assembly finds that:
      a. The goals of the underground storage tank program are to protect human health and the environment. Maintaining the solvency of the Commercial Fund and the Noncommercial Fund is essential to these goals.
      b. The sites at which discharges or releases from underground storage tanks occur vary greatly in terms of complexity, soil types, hydrogeology, other physical and chemical characteristics, current and potential future uses of groundwater, and the degree of risk that each site may pose to human health and the environment.
      c. Risk-based corrective action is a process that recognizes this diversity and utilizes an approach where assessment and remediation activities are specifically tailored to the conditions and risks of a specific site.
d. Risk-based corrective action gives the State flexibility in requiring different levels of cleanup based on scientific analysis of different site characteristics, and allowing no action or no further action at sites that pose little risk to human health or the environment.

e. A risk-based approach to the cleanup of environmental damage can adequately protect human health and the environment while preventing excessive or unproductive cleanup efforts, thereby assuring that limited resources are directed toward those sites that pose the greatest risk to human health and the environment.

(2) The General Assembly intends:

a. To direct the Commission to adopt rules that will provide for risk-based assessment and cleanup of discharges and releases from petroleum underground storage tanks. These rules are intended to combine groundwater standards that protect current and potential future uses of groundwater with risk-based analysis to determine the appropriate cleanup levels and actions.

b. That these rules apply to all discharges or releases that are reported on or after the date the rules become effective in order to ascertain whether cleanup is necessary, and if so, the appropriate level of cleanup.

c. That these rules may be applied to any discharge or release that has been reported at the time the rules become effective at the discretion of the Commission.

d. That these rules and decisions of the Commission and the Department in implementing these rules facilitate the completion of more cleanups in a shorter period of time.

e. That neither the Commercial Fund nor the Noncommercial Fund be used to clean up sites where the Commission has determined that a discharge or release poses a degree of risk to human health or the environment that is no greater than the acceptable level of risk established by the Commission.

f. Repealed by Session Laws 1998-161, s. 11(c).

g. That the Commercial Fund and the Noncommercial Fund be used to perform the most cost-effective cleanup that addresses imminent threats to human health and the environment.

(b) The Commission shall adopt rules to establish a risk-based approach for the assessment, prioritization, and cleanup of discharges and releases from petroleum underground storage tanks. The rules shall address, at a minimum, the circumstances where site-specific information should be considered, criteria for determining acceptable cleanup levels, and the acceptable level or range of levels of risk to human health and the environment.

(c) The Commission may require an owner or operator or a landowner eligible for payment or reimbursement under subsections (b), (b1), (c), and (c1) of G.S. 143-215.94E to provide information necessary to determine the degree of risk to human health and the environment that is posed by a discharge or release from a petroleum underground storage tank, and to identify the most cost-effective cleanup that addresses imminent threats to human health and the environment.
(d) If the Commission concludes that a discharge or release poses a degree of risk to human health or the environment that is no greater than the acceptable level of risk established by the Commission, the Commission shall notify an owner, operator, or landowner who provides the information required by subsection (c) of this section that no cleanup, further cleanup, or further action will be required unless the Commission later determines that the discharge or release poses an unacceptable level of risk or a potentially unacceptable level of risk to human health or the environment. If the Commission concludes that a discharge or release poses a degree of risk to human health or the environment that requires further cleanup, the Commission shall notify the owner, operator, or landowner who provides the information required by subsection (c) of this section of the cleanup method approved by the Commission as the most cost-effective cleanup method for the site. This section shall not be construed to prohibit an owner, operator, or landowner from selecting a cleanup method other than the cost-effective cleanup method approved by the Commission so long as the Commission determines that the alternative cleanup method will address imminent threats to human health and the environment.

(e) If the Commission concludes under subsection (d) of this section that no cleanup, no further cleanup, or no further action will be required, the Department shall not pay or reimburse any costs otherwise payable or reimbursable under this Article from either the Commercial or Noncommercial Fund, other than reasonable and necessary to conduct the risk assessment required by this section, unless:

1. Cleanup is ordered or damages are awarded in a finally adjudicated judgment in an action against the owner or landowner.
2. Cleanup is required or damages are agreed to in a consent judgment approved by the Department prior to its entry by the court.
3. Cleanup is required or damages are agreed to in a settlement agreement approved by the Department prior to its execution by the parties.
4. The payment or reimbursement is for costs that were incurred prior to or as a result of notification of a determination by the Commission that no cleanup, no further cleanup, or no action is required.
5. The payment or reimbursement is for costs that were incurred as a result of a later determination by the Commission that the discharge or release poses a threat or potential threat to human health or the environment as provided in subsection (d) of this section.

(e1) If the Commission concludes under subsection (d) of this section that further cleanup is required and notifies the owner, operator, or landowner of the cleanup method approved by the Commission as the most cost-effective cleanup method for the site, the Department shall not pay or reimburse any costs otherwise payable or reimbursable under this Article from either the Commercial Fund or Noncommercial Fund, other than those costs that are reasonable and necessary to conduct the risk assessment and to implement the cost-effective cleanup method approved by the Commission. If the owner, operator, or landowner selects a cleanup method other than the one identified by the Commission as the most cost-effective cleanup, the Department shall not pay or reimburse for costs in excess of the cost of implementing the approved cost-effective cleanup.
(f) This section shall not be construed to limit the authority of the Commission to require investigation, initial response, and abatement of a discharge or release pending a determination by the Commission under subsection (d) of this section as to whether cleanup, further cleanup, or further action will be required.

(g) Subsections (c) through (e)(1) of this section apply only to assessments and cleanups in progress or begun on or after 2 January 1998.

(h) If a discharge or release of petroleum from an underground storage tank results in contamination in soil or groundwater that becomes commingled with contamination that is the result of a discharge or release of petroleum from a source of contamination other than an underground storage tank, the cleanup of petroleum may proceed under rules adopted pursuant to this section. The Department shall not pay or reimburse any costs associated with the assessment or remediation of that portion of contamination that results from a release or discharge of petroleum from a source other than an underground storage tank from either the Commercial Fund or the Noncommercial Fund.

SECTION 10. The definitions set out in G.S. 143-212 and G.S. 143-215.94A apply to this section. The rights and obligations of an owner, operator, or a landowner to whom G.S. 143-215.94E(b1) applies who is eligible to have costs paid or reimbursed under G.S. 143-215.94B shall be governed by G.S. 143-215.94E as modified by this section. The Department shall establish the degree of risk to human health and the environment posed by a discharge or release of petroleum from a commercial underground storage tank and shall determine a schedule for further assessment and cleanup based on the degree of risk to human health and the environment posed by the discharge or release. If any of the costs of assessment and cleanup of the discharge or release from a commercial underground storage tank are eligible to be paid from the Commercial Fund, the Department shall also consider the availability of funds in the Commercial Fund and the order in which the discharge or release was reported in determining the schedule. The Department may revise the schedule that applies to the assessment and cleanup of any discharge or release at any time based on its reassessment of any of the foregoing factors. The lack of availability of funds in the Commercial Fund shall not relieve an owner or operator of responsibility to immediately undertake to collect and remove the discharge or release or to conduct any assessment or cleanup ordered by the Department or be a defense against any violations and penalties issued to the owner or operator for failure to conduct required assessment or cleanup. If the owner or operator takes initial steps to collect and remove the discharge or release as required by the Department and completes initial assessment required to determine degree of risk, the owner or operator shall not be subject to any violation or penalty for any failure to proceed with further assessment or cleanup under G.S.143-215.84 or G.S. 143-215.94E before the owner or operator is authorized to proceed with further assessment or cleanup pursuant to the schedule set by the Department. Once the Department has determined a schedule for the assessment and cleanup of a discharge or release from a commercial underground storage tank, an owner, operator, or other person responsible for the assessment and cleanup is not eligible to have the costs of the assessment or cleanup paid or reimbursed from the Commercial Fund until such time as further assessment or cleanup is authorized by the Department pursuant to the schedule. An owner, operator, or other person may undertake further assessment or cleanup before receiving authorization from the
Department. An owner, operator, or other person who undertakes further assessment or cleanup before receiving authorization from the Department shall be reimbursed only after the Department has paid or reimbursed the costs for all assessments and cleanups that the Department has authorized.

**SECTION 11.** In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule.

**SECTION 12.(a)** The Environmental Review Commission may study issues related to the Leaking Petroleum Underground Storage Tank Cleanup Program. The Commission may evaluate any of the following:

1. The adequacy of program funding.
2. Options for management of available funds, including prioritization of cleanups and preapproval of cleanups.
3. Changes in deductible and co-payment requirements.
4. Options to increase program funding.
5. The availability and use of private insurance to pay or reimburse the costs of the assessment and cleanup of releases and discharges of petroleum from petroleum underground storage tanks and of any liability of owners and operators of those tanks to third parties.
6. Issues related to the inclusion of aboveground storage tanks in the program, including registration, fees and other funding issues, cleanup standards, and regulation of these tanks.
7. Issues related to the provision of liability protection to a bona fide purchaser of a petroleum-contaminated property who has knowledge of, but did not cause or contribute to, the contamination of the property.

**SECTION 12.(b)** The Commission may report its findings and recommendations, including any proposed legislation, to the 2004 Regular Session of the 2003 General Assembly, or to the 2005 General Assembly.

**SECTION 13.** This act is effective when it becomes law. Section 10 of this act expires 1 October 2005.

In the General Assembly read three times and ratified this the 15th day of July, 2003.

Became law upon approval of the Governor at 1:49 p.m. on the 27th day of July, 2003.

S.B. 633 Session Law 2003-357

AN ACT TO REVISE THE UNIVERSITY OF NORTH CAROLINA SPECIAL OBLIGATION BOND LAW.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 116D-26 reads as rewritten:

   (a) Authority. – The Board of Governors may issue, subject to the approval of the Director of the Budget, at one time or from time to time, special obligation bonds of the Board of Governors for the purpose of paying all or any part of the cost of acquiring, constructing, or providing a special obligation project. Before issuing special obligation bonds, the Board of Governors shall first adopt a resolution (i) setting forth the
designation by the Board of Governors that the buildings or facilities to be financed by
the bond issue are the special obligation bond project being financed and (ii)
designating the obligated resources that will secure and be the source of payment of the
special obligation bonds to be issued. The Board of Governors shall not issue any
special obligation bonds unless the Board of Governors finds that sufficient obligated
resources are reasonably expected to be available (i) to pay the principal and interest on
the special obligation bonds proposed to be issued, (ii) to create and maintain any
reserves for the payment of the special obligation bonds, to the extent the Board of
Governors is required to maintain reserves for this purpose by the terms of the trust
agreement or resolution authorizing the issuance of the special obligation bonds, and
(iii) to provide for the maintenance and operation of the facilities that are to generate the
obligated resources to the extent the Board of Governors is required to maintain those
facilities by the terms of the trust agreement or resolution authorizing the issuance of the
special obligation bonds. Notwithstanding any other provision of this Article, the
proceeds of special obligation bonds to be secured by obligated resources derived from
the operation of or activities at one institution may not be applied to finance a special
obligation project to be located at another institution.

(b) Approval Required. – The Board of Governors shall not issue any special
obligation bonds for a project at an institution unless the board of trustees of that
institution has approved the issuance of bonds for that project. The Board of Governors
shall not issue special obligation bonds under this Article until the effective date of
legislation enacted by the General Assembly authorizing the undertaking of the special
obligation bond project to be financed and fixing the maximum aggregate principal
amount of special obligation bonds that shall be issued for that purpose. In submitting
proposed special obligation bond projects to the General Assembly for approval, the
Board of Governors shall submit information on the need for each project, project costs,
estimates of increased operating costs upon completion, estimated debt service
requirements, and the sources and amounts of obligated resources to be pledged for the
repayment of the bonds. If the obligated resources to repay the bonds or to operate the
proposed project potentially involve increased costs to students or to the General Fund,
these costs shall be identified in the Board of Governors' submission.

Except as provided in this Article, special obligation bond projects may be
undertaken, special obligation bonds may be issued, and other powers vested in the
Board of Governors under this Article may be exercised by the Board without obtaining
the consent of any department, division, commission, board, bureau, or agency of the
State and without any other proceedings or the happening of any other conditions or
things other than those proceedings, conditions, or things which are specifically
required by this Article.

(c) Term; Form. – The special obligation bonds of each issue shall be dated, shall
mature at any times not exceeding 25-30 years from their dates, shall bear interest at any
rates as may be determined by the Board of Governors, and may be redeemable before
maturity at the option of the Board, at any prices and under any terms and conditions as
may be fixed by the Board prior to the issuance of the special obligation bonds. The
Board of Governors shall determine the form and manner of execution of the special
obligation bonds and shall fix the denominations of the special obligation bonds and the
places of payment of principal and interest, which may be at any bank or trust company
within or without the State. Notwithstanding any of the other provisions of this Article
or any recitals in any special obligation bonds issued under the provisions of this
Article, all special obligation bonds shall be negotiable instruments under the laws of
this State, subject only to the provisions for registration in a resolution authorizing the issuance of the special obligation bonds or a trust agreement securing the bonds. The Board of Governors may sell the special obligation bonds in any manner, at public or private sale, and for any price, as it may determine to be for its best interests.

(d) Proceeds; Additional Bonds. – The proceeds of the special obligation bonds of each issue shall be used solely for the purpose for which the bonds have been authorized and shall be disbursed in the manner and under such restrictions, if any, as the Board of Governors may provide in the resolution authorizing the issuance of the bonds or in the trust agreement securing them. Unless otherwise provided in the authorizing resolution or in the trust agreement securing the special obligation bonds, if the proceeds of the special obligation bonds, by error of estimates or otherwise, are less than the cost of the special obligation bond project, additional bonds may in like manner be issued to provide the amount of the deficit and shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose.

The resolution providing for the issuance of special obligation bonds, and any trust agreement securing them, may also contain limitations upon the issuance of additional special obligation bonds as the Board of Governors considers proper, and the additional special obligation bonds must be issued under the restrictions and limitations prescribed by the resolution or trust agreement.

(e) Temporary Bonds; Notes. – Before preparing definitive bonds, the Board of Governors may, under like restrictions, issue interim receipts or temporary bonds exchangeable for definitive bonds when the bonds have been executed and are available for delivery. The Board may also provide for the replacement of any bonds which become mutilated, destroyed, or lost.

The Board of Governors may enter into or negotiate a note with an acceptable bank or trust company in lieu of issuing special obligation bonds for the financing of special obligation bond projects covered under this Article. The terms and conditions of any note of this nature shall be in accordance with the terms and conditions surrounding issuance of the special obligation bonds.

(f) Bond Anticipation Notes. – The Board of Governors may issue, subject to the approval of the Director of the Budget, at one time or from time to time, bond anticipation notes of the Board of Governors in anticipation of the issuance of special obligation bonds authorized by this Article. The principal of and the interest on these notes shall be payable solely from the proceeds of special obligation bonds or renewal notes or, in the event bond or renewal note proceeds are not available, from the obligated resources designated for their payment. The notes of each issue shall be dated, shall mature at any times not exceeding two (2) years from their dates, shall bear interest at any rates as may be determined by the Board of Governors, and may be redeemable before maturity, at the option of the Board of Governors, at any prices and under any terms and conditions as may be fixed by the Board of Governors prior to the issuance of the notes. If the Board of Governors issues a bond anticipation note for a term in excess of three years, no individual project may be funded from the proceeds of the note for longer than three years. The Board shall determine the form and the manner of execution of the notes and shall fix the denominations of the notes and the places of payment of principal and interest, which may be at any bank or trust company within or without the State. Notwithstanding any of the other provisions of this Article or any recitals in any notes issued under the provisions of this Article, all notes shall be negotiable instruments under the laws of this State, subject only to the provisions for
registration in a resolution authorizing the issuance of the notes or any trust agreement securing the bonds in anticipation of which the notes are being issued. The Board of Governors may sell the notes in any manner, at public or private sale, and for any price, as it may determine to be for its best interests.

The proceeds of the notes of each issue shall be used solely for the purpose for which the special obligation bonds in anticipation of which the notes are being issued have been authorized, and the note proceeds shall be disbursed in any manner and under any restrictions as the Board of Governors may provide in the resolution authorizing the issuance of the notes or bonds or in the trust agreement securing the special obligation bonds.

The resolution providing for the issuance of notes, and any trust agreement securing the special obligation bonds in anticipation of which the notes are being authorized, may also contain limitations upon the issuance of additional notes as the Board of Governors considers proper, and such additional notes shall be issued under the restrictions and limitations prescribed by the resolution or trust agreement. The Board may also provide for the replacement of any notes which shall become mutilated, destroyed, or lost.

Except as provided in this Article, notes may be issued under this Article and other powers vested in the Board of Governors under this Article may be exercised by the Board without obtaining the consent of any department, division, commission, board, bureau, or agency of the State and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, or things which are specifically required by this Article.

Unless the context indicates otherwise, the word 'bonds', wherever used in this Article, include the words 'bond anticipation notes.' "

AN ACT TO FACILITATE JOB SHARING BY PUBLIC SCHOOL EMPLOYEES.

SECTION 1. G.S. 115C-302.2 is repealed.

SECTION 2. Article 22 of Chapter 115C of the General Statutes is amended by adding a new Part to read:

"Part 3A. Job Sharing by School Employees.

§ 115C-326.5. Job sharing by school employees.

(a) The General Assembly finds that there is a shortage of qualified public school employees available in certain geographical areas of the State. The elimination of administrative and fiscal limitations on job-sharing arrangements would make employment in a public school an attractive option for well-qualified persons who do not wish to work full time.

(b) A "school employee in a job-sharing position" is a person who is employed by a local board of education as a public school employee for at least fifty percent (50%) of the applicable workweek, as defined by that local board of education."
(c) The State Board of Education shall adopt rules to facilitate job sharing by public school employees. These rules shall provide that an employee in a job-sharing position shall receive paid legal holidays, annual vacation leave, sick leave, and personal leave on a pro rata basis. Such an employee shall also receive service credit under the Teachers' and State Employees' Retirement System as provided in G.S. 135-4(b) and insurance benefits as provided in Article 3 of Chapter 135 of the General Statutes."

SECTION 3. G.S. 135-4(b) reads as rewritten:
"(b) The Board of Trustees shall fix and determine by appropriate rules and regulations how much service in any year is equivalent to one year of service, but in no case shall more than one year of service be creditable for all services in one year. Service rendered for the regular school year in any district shall be equivalent to one year's service. Service rendered by a classroom teacher-school employee in a job-sharing position shall be credited at the rate of one-half year for each regular school year of employment."

SECTION 4. G.S. 135-40.2(a2) reads as rewritten:
"(a2) A classroom teacher-school employee in a job-sharing position as defined in G.S. 115C-302.2(b) shall be eligible for coverage under the Plan, on a partially contributory basis, subject to the provisions of G.S. 135-40.3. If these employees elect to participate in the Plan, the employing unit shall pay fifty percent (50%) of the Plan's total noncontributory premiums. Individual employees shall pay the balance of the total noncontributory premiums not paid by the employing unit."

SECTION 5. Nothing in this act shall be construed to require local school administrative units to place part-time employees in job-sharing positions or to hire employees in job-sharing positions.

SECTION 6. Sections 1 through 4 of this act become effective January 1, 2004. The remainder of this act is effective when it becomes law.

In the General Assembly read three times and ratified this the 19th day of July, 2003.

Became law upon approval of the Governor at 10:10 a.m. on the 1st day of August, 2003.

SECTION 7. G.S. 135-4(f) reads as rewritten:

"(f) Armed Service Credit. –

(1) Teachers and other State employees who entered the armed services of the United States on or after September 16, 1940, and prior to February 17, 1941, and who returned to the service of the State within a period of two years after they were first eligible to be separated or released from such armed services under other than dishonorable conditions shall be entitled to full credit for all prior service.

(2) Teachers and other State employees who entered the armed services of the United States on or after September 16, 1940, and who returned to the service of the State prior to October 1, 1952, or who devote not less than 10 years of service to the State after they are separated or released from such armed services under other than dishonorable conditions, shall be entitled to full credit for all prior service, and, in addition they shall receive membership service credit for the period of service in such armed services up to the date they were first eligible to be separated or released therefrom, occurring after the date of establishment of the Retirement System.

(3) Teachers and other State employees who enter the armed services of the United States on or after July 1, 1950, or who engage in active military service on or after July 1, 1950, and who return to the service of the State within a period of two years after they are first eligible to be separated or released from such active military service under other than dishonorable conditions shall be entitled to full membership
service credit for the period of such active service in the armed
services.

(4) Under such rules as the Board of Trustees shall adopt, credit will be
provided by the Retirement System with respect to each such teacher
or other State employee in the amounts that he would have been paid
during such service in such armed services on the basis of his earnable
compensation when such service commenced. Such contributions shall
be credited to the individual account of the member in the annuity
savings fund, in such manner as the Board of Trustees shall determine,
but any such contributions so credited and any regular interest thereon
shall be available to the member only in the form of an annuity, or
benefit in lieu thereof, upon his retirement on a service, disability or
special retirement allowance; and in the event of cessation of
membership or death prior thereto, any such contributions so credited
and regular interest thereon shall not be payable to him or on his
account, but shall be transferred from the annuity savings fund to the
pension accumulation fund. If any payments were made by a member
on account of such service as provided by subdivision (5) of
subsection (b) of G.S. 135-8, the Board of Trustees shall refund to or
reimburse such member for such payments.

(5) The provisions of this subsection shall also apply to members of the
national guard with respect to teachers and State employees who are
called into federal service or who are called into State service, to the
extent that such persons fail to receive compensation for performance
of the duties of their employment other than for service in the national
guard.

(6) Repealed by Session Laws 1981, c. 636, s. 1. For proviso as to
inchoate or accrued rights, see Editor's Note below.

(7) Notwithstanding any other provision of this Chapter, any member and
any retired member as herein described may purchase creditable
service in the Armed Forces of the United States, not otherwise
allowed, by paying a total lump sum payment determined as follows:

a. For members who completed 10 years of membership service,
and retired members who completed 10 years of membership
service prior to retirement, whose current membership began on
or prior to July 1, 1981, and who make this purchase within
three years after first becoming eligible, the cost shall be an
amount equal to the monthly compensation the member earned
when he first entered current membership service times the
employee contribution rate at that time times the months of
service to be purchased, with sufficient interest added thereto so
as to equal one-half of the cost of allowing this service, plus an
administrative fee to be set by the Board of Trustees.

b. For members who complete five years of membership service,
and retired members who complete five years of membership
service prior to retirement, and eligible members and retired
members covered by paragraph a. of this subdivision, whose
current membership began on or before July 1, 1981, but who did not or do not make this purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance.

Creditable service allowed under this subdivision shall be only for the initial period of active duty—"active duty", as defined in 38 U.S. Code Section 101(21), in the Armed Forces of the United States up to the date the member was first eligible to be separated and released and for subsequent periods of active duty—"active duty", as defined in 38 U.S. Code Section 101(21), as required by the Armed Forces of the United States up to the date of first eligibility for separation or release, but shall not include periods of active duty in the Armed Forces of the United States creditable in any other retirement system except the national guard or any reserve component of the Armed Forces of the United States, and shall not include periods of "active duty for training", as defined in 38 U.S. Code Section 101(22), or periods of "inactive duty training", as defined in 38 U.S. Code Section 101(23), rendered in any reserve component of the Armed Forces of the United States. Provided, creditable service may be allowed only for active duty in the Armed Forces of the United States of a member that resulted in a general or honorable discharge from duty. The member shall submit satisfactory evidence of the service claimed. For purposes of this subsection, membership service may include any membership or prior service credits transferred to this Retirement System pursuant to G.S. 135-18.1."

SECTION 8. G.S. 135-4(l 1) reads as rewritten:

"(1 1) Notwithstanding any other provision of this Chapter, any member and any retired member as herein described may purchase creditable service previously rendered to any state, territory, or other governmental subdivision of the United States other than this State by paying a total lump-sum payment determined as follows:

(1) For members who completed 10 years of current membership service, and retired members who completed 10 years of current membership service prior to retirement, whose current membership began on or before July 1, 1981, and who make such purchase within three years
after first becoming eligible, the cost shall be an amount equal to the monthly compensation the member earned when he first entered current membership service, times the employee contribution rate at that time, times the months of service to be purchased, times two, with sufficient interest added thereto so as to equal the full cost of allowing such service, plus an administrative fee to be set by the Board of Trustees.

(2) For members who complete five years of current membership service, and retired members who complete five years of current membership service prior to retirement, and eligible members and retired members covered by subdivision (1) of this subsection, whose current membership began on or before July 1, 1981, but who did not or do not make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance. Notwithstanding the requirement of five years of current membership service, a member whose membership began prior to the service the member desires to purchase shall be eligible to purchase creditable service under this subdivision upon returning to service as a teacher or employee upon completion of a total of five years of membership service and upon completion of one year of current membership service.

Current membership service shall mean membership service earned since the service previously rendered to any state, territory, or other governmental subdivision of the United States other than this State. Creditable service under this subsection shall be allowed only at the rate of one year of out-of-state service for each two years of current membership service in this State, with a maximum allowable of 10 years of out-of-state service. Such service is limited to full-time service which would be allowable under the laws governing this System. Credit will be allowed only if no benefit is allowable in another public retirement system as a result of the service.

SECTION 9. G.S. 135-4 is amended by adding a new subsection to read:

"(ff) Retroactive Membership Service. – A member who is reinstated to service as an employee as defined in G.S. 135-1(10) or as a teacher as defined in G.S. 135-1(25) retroactively to the date of prior involuntary termination (with backpay and benefits) may be allowed membership service, after submitting clear and convincing evidence of the reinstatement, as follows:

(1) Within 90 days of the involuntary termination, by the payment of employee and employer contributions that would have been paid; or
(2) After 90 days of the involuntary termination, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the retroactive membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the member shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the retroactive membership service.

In the event a member received a return of accumulated contributions subsequent to an involuntary termination as provided in G.S. 135-5(f), the member may redeposit, within 90 days of reinstatement retroactive to the date of prior involuntary termination, in the annuity savings fund by single payment an amount equal to the total amount he previously withdrew plus regular interest and restore the creditable service forfeited upon receiving his return of accumulated contributions."

SECTION 10. G.S. 135-8 is amended by adding a new subsection to read:

"(b2) Retroactive Adjustment in Compensation or an Underreporting of Compensation. – A member who is awarded backpay in cases of a denied promotional opportunity in which the aggrieved member is granted a promotion retroactively, or in cases in which an employer errs in the reporting of compensation, including the employee and employer contributions, the member and employer may make employee and employer contributions on the retroactive or additional compensation, after submitting clear and convincing evidence of the retroactive promotion or underreporting of compensation, as follows:

(1) Within 90 days of the denial of the promotion or the error in reporting, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days of the denial of the promotion or the error in reporting, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

For members electing to make the employee contributions on the retroactive adjustment in compensation or on the underreported compensation, the member's employer, which granted the retroactive promotion or erred in underreporting compensation and contributions, shall make the required employer contributions. Nothing contained in this subsection shall prevent an employer from paying all or a part of the interest assessed on the employee contributions; and to the extent paid by the employer, the interest paid by the employer shall be credited to the pension accumulation fund; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the interest assessed on the employee contributions due.
In the event the retroactive adjustment in compensation or the underreported compensation is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) the compensation the member would have received during the period shall be included in calculating the member's average final compensation only in the event the appropriate employee and employer contributions are paid on such compensation.

An employer error in underreporting compensation shall not include a retroactive increase in compensation that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) for reasons other than a wrongfully denied promotional opportunity where the member is promoted retroactively.

SECTION 11. G.S. 135-5(e)(4) reads as rewritten:

"(4) As a condition to the receipt of the disability retirement allowance provided for in G.S. 135-5(d), (d1), (d2) and (d3) each member retired on a disability retirement allowance shall, on or before April 15 of each calendar year, provide the Board of Trustees with a statement of his or her income received as compensation for services, including fees, commissions or similar items, and income received from business, for the previous calendar year. Such statement shall be filed on a form as required by the Board of Trustees. The benefit payable to a beneficiary who does not or refuses to provide the information requested within 60 days after such request shall not be paid a benefit until the information so requested is provided, and should such refusal or failure to provide such information continue for 240 days after such request, the right of a beneficiary to a benefit under the Article may be terminated.

The Director of the State Retirement System shall contact any State or federal agency which can provide information to substantiate the statement required to be submitted by this subdivision and may enter into agreements for the exchange of information."

SECTION 12. G.S. 135-4(v) reads as rewritten:

"(v) Omitted Membership Service. – A member who had service as an employee as defined in G.S. 135-1(10) and G.S. 128-21(10) or as a teacher as defined in G.S. 135-1(25) and who was omitted from contributing membership through error may be allowed membership service, after submitting clear and convincing evidence of the error, as follows:

(1) Within 90 days of the omission, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days and prior to three years of the omission, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees; or

(3) After three years of the omission, by the payment of an amount equal to the full cost of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the system's liabilities, and shall take into account the additional retirement allowance arising on account of such additional service
credit commencing at the earliest age at which a member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subdivision that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the omitted membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the members shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the omitted membership service."

SECTION 13. G.S. 128-21(7a) reads as rewritten:
"
(7a) "Compensation" shall mean all salaries and wages prior to any reduction pursuant to sections 125, 401(k), 403(b), 414(h)(2), and 457 of the Internal Revenue Code, not including any terminal payments for unused sick leave, derived from public funds which are earned by a member of the Retirement System for service as an employee in the unit of the Retirement System for which he is performing full-time work. In addition to the foregoing, "compensation" shall include:

a. Performance-based compensation (regardless of whether paid in a lump sum, periodic installments, or on a monthly basis);

b. Conversion of additional benefits to salary (additional benefits such as health, life, or disability plans), so long as the benefits are other than mandated by State law or regulation;

c. Payment of tax consequences for benefits provided by the employer so long as they constitute an adjustment or increase in salary and not a "reimbursement of expenses";

d. Payout of vacation leave so long as such payouts are permitted by applicable law and regulation; and

e. Employee contributions to eligible deferred compensation plans.

"Compensation" shall not include any payment, as determined by the Board of Trustees, for the reimbursement of expenses or payments for housing or any other allowances whether or not classified as salary and wages. Notwithstanding any other provision of this Chapter, "compensation" shall not include:

a. Supplement/allowance provided to employee to purchase additional benefits such as health, life, or disability plans;

b. Travel supplement/allowance (nonaccountable allowance plans);

c. Employer contributions to eligible deferred compensation plans;
d. Employer-provided fringe benefits (additional benefits such as health, life, or disability plans);

e. Reimbursement of uninsured medical expenses;

f. Reimbursement of business expenses;

g. Reimbursement of moving expenses;

h. Reimbursement/payment of personal expenses;

i. Incentive payments for early retirement;

j. Bonuses paid incident to retirement;

k. Contract buyout/severance payments; and

l. Payouts for unused sick leave.

In the event an employer reports as "compensation" payments not specifically included or excluded as "compensation", such payments shall be "compensation" for retirement purposes only if the employer pays the Retirement System the additional actuarial liability created by such payments.

SECTION 14. G.S. 128-21(8) reads as rewritten:

"(8) "Creditable service" shall mean the total of "prior service" plus "membership service" plus service, both noncontributory and purchased, for which credit is allowable as provided in G.S. 128-26. In no event, however, shall "creditable service" be deemed "membership service" for the purpose of determining eligibility for benefits accruing under this Chapter."

SECTION 15. G.S. 128-27(g1) reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event a retiree purchases creditable service as provided in G.S. 128-26, there shall be paid to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service.
paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above, and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

SECTION 16. G.S. 128-27(m) reads as rewritten:

"(m) Survivor's Alternate Benefit. – Upon the death of a member in service, the principal beneficiary designated to receive a return of accumulated contributions shall have the right to elect to receive in lieu thereof the reduced retirement allowance provided by Option two of subsection (g) above computed by assuming that the member had retired on the first day of the month following the date of his death, provided that all three of the following conditions apply:

(1) a. The member had attained such age and/or creditable service to be eligible to commence retirement with an early or service retirement allowance, or

b. The member had obtained 20 years of creditable service in which case the retirement allowance shall be computed in accordance with G.S. 128-27(b20)(1)b. or G.S. 128-27(b20)(2)c., notwithstanding the requirement of obtaining age 50, or

c. The member had not commenced to receive a retirement allowance as provided under this Chapter.

(2) The member had designated as the principal beneficiary to receive a return of his accumulated contributions one and only one person who is living at the time of his death.

(3) The member had not instructed the Board of Trustees in writing that he did not wish the provisions of this subsection apply.

For the purpose of this benefit, a member is considered to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service. The last day of actual service shall be determined as provided in subsection (l) of this section. Upon the death of a member in service, the surviving spouse may make all purchases for creditable service as provided for under this Chapter for which the member had made application in writing prior to the date of death, provided that the date of death occurred prior to or within 60 days after notification of the cost to make the purchase."

SECTION 17. G.S. 128-26(j1) reads as rewritten:

"(j1) Notwithstanding any other provision of this Chapter, any member and any retired member as herein described may purchase creditable service for service in the Armed Forces of the United States, not otherwise allowed, by paying a total lump sum payment determined as follows:

(1) For members who completed 10 years of membership service, and retired members who completed 10 years of membership service prior to retirement, and whose membership began on or prior to
January 1, 1988, and who make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the monthly compensation the member earned when he first entered service times the employee contribution rate at that time times the months of service to be purchased with sufficient interest added thereto so as to equal one-half of the cost of allowing such service, plus an administrative fee to be set by the Board of Trustees.

(2) For members who complete five years of membership service, and retired members who complete five years of membership service prior to retirement, and eligible members and retired members covered by paragraph (1) of this subdivision, whose membership began on or before January 1, 1988, but who did not or do not make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance.

Creditable service allowed under this subdivision shall be only for the initial period of active duty, as defined in 38 U.S. Code Section 101(21), in the Armed Forces of the United States up to the date the member was first eligible to be separated and released and for subsequent periods of active duty, as defined in 38 U.S. Code Section 101(21), as required by the Armed Forces of the United States up to the date of first eligibility for separation or release, but shall not include periods of active duty in the Armed Forces of the United States creditable in any other retirement system except the national guard or any reserve component of the Armed Forces of the United States, and shall not include periods of "active duty for training", as defined in 38 U.S. Code Section 101(22), or periods of "inactive duty training", as defined in 38 U.S. Code Section 101(23), rendered in any reserve component of the Armed Forces of the United States. Provided, creditable service may be allowed only for active duty in the Armed Forces of the United States of a member that resulted in a general or honorable discharge from duty. The member shall submit satisfactory evidence of the service claimed. For purposes of this subsection, membership service may include any membership or prior service credits transferred to this Retirement System pursuant to G.S. 128-24."

SECTION 18. G.S. 128-26(j2) reads as rewritten:

"(j2) Notwithstanding any other provision of this Chapter, any member and any retired member as herein described may purchase creditable service previously rendered
to any state, territory, or other governmental subdivision of the United States other than this State by paying a total lump-sum payment determined as follows:

(1) For members who completed 10 years of prior and current membership service, and retired members who completed 10 years of prior and current membership service prior to retirement, and whose current membership began on or before January 1, 1988, and who make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the monthly compensation the member earned when he first entered current membership service, times the employee contribution rate at that time, times the months of service to be purchased, times two, with sufficient interest added thereto so as to equal the full cost of allowing such service, plus an administrative fee to be set by the Board of Trustees.

(2) For members who complete five years of prior and current membership service, and retired members who complete five years of prior and current membership service prior to retirement, and eligible members and retired members covered by subdivision (1) of this subsection, whose current membership began on or before January 1, 1988, but who did not or do not make such purchase within three years after first becoming eligible, the cost shall be an amount equal to the full liability of the service credits calculated on the basis of the assumptions used for the purposes of the actuarial valuation of the System's liabilities and shall take into account the retirement allowance arising on account of the additional service credits commencing at the earliest age at which the member could retire on an unreduced allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the term "full liability" includes assumed postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service retirement allowance. Notwithstanding the requirement of five years of current membership service, a member whose membership began prior to the service the member desires to purchase shall be eligible to purchase creditable service under this subdivision upon returning to service as an employee upon completion of a total of five years of membership service and upon completion of one year of current membership service.

Current membership service shall mean membership service earned since the service previously rendered to any state, territory, or other governmental subdivision of the United States other than this State. Creditable service under this subsection shall be allowed only at the rate of one year of out-of-state service for each two years of service in this State, with a maximum allowable of 10 years of out-of-state service. Such service is limited to full-time service which would be allowable under the laws governing this System. Credit will be allowed only if no benefit is allowable in another public retirement system as a result of the service."
SECTION 19. G.S. 128-26 is amended by adding a new subsection to read:

"(v) Retroactive Membership Service. – A member who is reinstated to service as an employee as defined in G.S. 128-21(10) retroactively to the date of prior involuntary termination (with backpay and benefits) may be allowed membership service, after submitting clear and convincing evidence of the reinstatement, as follows:

(1) Within 90 days of the involuntary termination, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days of the involuntary termination, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the retroactive membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the member shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the retroactive membership service.

In the event a member received a return of accumulated contributions subsequent to an involuntary termination as provided in G.S. 128-27(f), the member may redeposit, within 90 days of reinstatement retroactive to the date of prior involuntary termination, in the annuity savings fund by single payment, an amount equal to the total amount he previously withdrew plus regular interest and restore the creditable service forfeited upon receiving his return of accumulated contributions."

SECTION 20. G.S. 128-30 is amended by adding a new subsection to read:

"(b2) Retroactive Adjustment in Compensation or an Underreporting of Compensation. – A member who is awarded backpay in cases of a denied promotional opportunity in which the aggrieved member is granted a promotion retroactively, or in cases in which an employer errs in the reporting of compensation, including the employee and employer contributions, the member and employer may make employee and employer contributions on the retroactive or additional compensation after submitting clear and convincing evidence of the retroactive promotion or underreporting of compensation, as follows:

(1) Within 90 days of the denial of the promotion or the error in reporting, by the payment of employee and employer contributions that would have been paid; or

(2) After 90 days of the denial of the promotion or the error in reporting, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

For members electing to make the employee contributions on the retroactive adjustment in compensation or on the underreported compensation, the member's employer, which granted the retroactive promotion or erred in underreporting compensation and contributions, shall make the required employer contributions. Nothing contained in this subsection shall prevent an employer from paying all or a part
of the interest assessed on the employee contributions; and to the extent paid by the employer, the interest paid by the employer shall be credited to the pension accumulation fund; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the interest assessed on the employee contributions due.

In the event the retroactive adjustment in compensation or the underreported compensation is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5), the compensation the member would have received during the period shall be included in calculating the member's average final compensation only in the event the appropriate employee and employer contributions are paid on such compensation.

An employer error in underreporting compensation shall not include a retroactive increase in compensation that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5), for reasons other than a wrongfully denied promotional opportunity where the member is promoted retroactively."

SECTION 21.  G.S. 128-27(e)(4) reads as rewritten:

(1) within 90 days of the omission, by the payment of employee and employer contributions that would have been paid; or

In the event an employer has satisfied its accrued liability contribution, the employer may amortize its portion of the full actuarial cost over a period not to exceed ten years. The expense of making an actuarial valuation to determine the accrued liability contribution or the additional accrued liability contribution, required to amortize the portion of the full actuarial cost paid by the employer, shall be paid by the employer in a lump sum at the time of the actuarial valuation."

The Commission may allow an applicant to elect to take the examination by computer as an alternative to the written or oral examination and may be administered orally, by computer, or by any other method the Commission deems appropriate. The Commission may require the applicant to pay the Commission or a provider contracted by the Commission the actual cost of administering the"
computerized examination and its administration. The cost of the computerized examination and its administration shall be in addition to any other fees the applicant is required to pay under subsection (a) of this section. The examination shall determine the applicant's qualifications with due regard to the paramount interests of the public as to the applicant's competency. A person holding a real estate salesperson license in this State and applying for a real estate broker license shall not be required to take an additional examination under this subsection. A person who fails the license examination shall be entitled to know the result and score. A person who passes the exam shall be notified only that the person passed the examination. Whether a person passed or failed the examination shall be a matter of public record; however, the scores for license examinations shall not be considered public records. Nothing in this subsection shall limit the rights granted to any person under G.S. 93B-8.

The Commission may investigate the moral character of each applicant for licensure and require an applicant to provide the Commission with a criminal record report. All applicants shall obtain criminal record reports from one or more reporting services designated by the Commission to provide criminal record reports. Applicants are required to pay the designated reporting service for the cost of these reports. If the results of any required competency examination and investigation of the applicant's moral character shall be satisfactory to the Commission, then the Commission shall issue to the applicant a license, authorizing the applicant to act as a real estate broker or real estate salesperson in the State of North Carolina, upon the payment of privilege taxes now required by law or that may hereafter be required by law."

Nothing in this section shall supercede (i) the schedule of fees, claim submission, and reimbursement policy terms in an insurer's contract with a provider or
facility that exceed the minimum requirements of this section nor (ii) any contractual requirement for mutual written consent of changes to reimbursement policies, claims submission policies, or fees. Nothing in this section shall prevent an insurer from requiring that providers and facilities keep confidential, and not disclose to third parties, the information that an insurer must provide under this section.

(c) Disclosure of Fee Schedules. – An insurer shall make available to contracted providers the following information:

(1) The insurer's schedule of fees associated with the top 30 services or procedures most commonly billed by that class of provider, and, upon request, the full schedule of fees for services or procedures billed by that class of provider, in accordance with subdivision (3) of this subsection.

The notice period for a change in the schedule of fees, reimbursement policies, or submission of claims policies shall be the contractual notice period, but in no event shall the notices be given less than 30 days prior to the change. An insurer is not required to provide advance notice of changes to the information required under this section if the change has the effect of increasing fees, expanding health benefit plan coverage, or is made for patient safety considerations, in which case, notification of the changes may be made concurrent with the implementation of the changes. Information and notice of changes may be provided in the medium selected by the insurer, including an electronic medium. However, the insurer must inform the affected contracted provider or facility of the notification method to be used by the insurer and, if the insurer uses an electronic medium to provide notice of changes required under this
section, the insurer shall provide clear instructions regarding how the provider or facility may access the information contained in the notice.

(g) Reference Information. – If an insurer references source information that is the basis for a schedule of fees, reimbursement policy, or claim submission policy, and the source information is developed independently of the insurer, the insurer may satisfy the requirements of this section by providing clear instructions regarding how the provider or facility may readily access the source information or by providing for actual access if agreed to in the contract between the insurer and the provider.

Upon the request of a provider, the insurer shall also make available the full schedule of fees for services or procedures billed by that class of provider or for each class of provider in the case of a contract incorporating multiple classes of providers. If a provider requests fees for more than 30 services and procedures, the insurer may require the provider to specify the additional requested services and procedures and may limit the provider's access to the additional schedule of fees to those associated with services and procedures performed by or reasonably expected to be performed by the provider.

(i) Exemptions. – Except for the information required to be provided under subsection (c) of this section, this section does not apply to:

(a) If a person is convicted of a Class A, B1, B2, C, D, or E felony and the court finds that the person used, displayed, or threatened to use or display a firearm at the time of the felony, the court shall increase the minimum term of imprisonment to which the person is sentenced by 60 months. The court shall not suspend the 60-month minimum term of imprisonment imposed as an enhanced sentence under this section and shall not place any person sentenced under this section on probation for the enhanced sentence.

(b) Subsection (a) of this section does not apply in any of the following circumstances:

The pleading is sufficient if it alleges that the defendant committed the felony by using, displaying, or threatening the use or display of a firearm and the defendant actually possessed the firearm about the defendant's person. One pleading is sufficient for all Class A, B1, B2, C, D, or E felonies that are tried at a single trial.

(e) The State shall prove the issues set out in subsection (c) of this section beyond a reasonable doubt during the same trial in which the defendant is tried for the felony unless the defendant pleads guilty or no contest to the issues. If the defendant pleads guilty or no contest to the issues, then a jury shall be impaneled to determine the issues.

(f) Subsection (c) of this section does not apply if the evidence of the use, display, or threatened use or display of the firearm is needed to prove an element of the felony if the person is not sentenced to an active term of imprisonment."

The General Assembly of North Carolina enacts:

**SECTION 1.** G.S. 160A-301 is amended by adding a new subsection to read:

"(e) The registered owner of a vehicle that has been leased or rented to another person or company shall not be liable for a violation of an ordinance adopted pursuant to this section if, after receiving notification of the civil violation within 90 days of the date of occurrence, the owner, within 30 days thereafter, files with the officials or agents of the municipality an affidavit including the name and address of the lessee or renter, and the owner shall not be held responsible for the violation."

**SECTION 2.** G.S. 160A-300.1(c) reads as rewritten:

"(c) Municipalities may adopt ordinances for the civil enforcement of G.S. 20-158 by means of a traffic control photographic system, as described in subsection (a) of this
section. Notwithstanding the provisions of G.S. 20-176, in the event that a municipality adopts an ordinance pursuant to this section, a violation of G.S. 20-158 at a location at which a traffic control photographic system is in operation shall not be an infraction. An ordinance authorized by this subsection shall provide that:

(1) The owner of a vehicle shall be responsible for a violation unless the owner can furnish evidence that the vehicle was, at the time of the violation, in the care, custody, or control of another person. The owner of the vehicle shall not be responsible for the violation if the owner of the vehicle, within 2430 days after notification of the violation, furnishes the officials or agents of the municipality which issued the citation either of the following:

a. An affidavit stating the name and address of the person or company who leased, rented, or otherwise had the care, custody, and control of the vehicle on the date of the violation.

b. An affidavit stating that the vehicle involved was, at the time, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information.

(2) Subdivision (1) of this subsection shall not apply, and the registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than 90 days after the date of the violation.

(3) A violation detected by a traffic control photographic system shall be deemed a noncriminal violation for which a civil penalty of fifty dollars ($50.00) shall be assessed, and for which no points authorized by G.S. 20-16(c) shall be assigned to the owner or driver of the vehicle nor insurance points as authorized by G.S. 58-36-65.

(4) The owner of the vehicle shall be issued a citation which shall clearly state the manner in which the violation may be challenged, and the owner shall comply with the directions on the citation. The citation shall be processed by officials or agents of the municipality and shall be forwarded by personal service or first-class mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within the time period specified on the citation, the owner shall have waived the right to contest responsibility for the violation, and shall be subject to a civil penalty not to exceed one hundred dollars ($100.00). The municipality may establish procedures for the collection of these penalties and may enforce the penalties by civil action in the nature of debt.

(5) The municipality shall institute a nonjudicial administrative hearing to review objections to citations or penalties issued or assessed under this section.

SECTION 3. G.S. 160A-300.2(d), as enacted by Section 3 of S.L. 2001-286, reads as rewritten:

"(d) Municipalities may adopt ordinances for the civil enforcement of G.S. 20-158 by means of a traffic control photographic system, as described in subsection (a) of this section. If a municipality adopts an ordinance pursuant to this section then, notwithstanding G.S. 20-176, a violation of G.S. 20-158 detected only by a traffic
control photographic system shall not be an infraction. If a violation of G.S. 20-158 is
detected by both a law enforcement officer and a traffic control photographic system,
the officer may charge the offender with an infraction. If the officer charges the
offender with an infraction, a civil penalty issued by the municipality for the same
offense is void and unenforceable. An ordinance authorized by this subsection shall
provide that:

(1) The owner of a vehicle shall be responsible for a violation unless the
owner can furnish evidence that the vehicle was, at the time of the
violation, in the care, custody, or control of another person. The owner

the vehicle, within 24-30 days after receiving notification of the
violation, furnishes the office of the mayor of the municipality that
issued the citation any of the following:

a. An affidavit stating the name and address of the person or
   company who leased, rented, or otherwise had the care,
   custody, and control of the vehicle;

b. An affidavit stating that the vehicle involved was, at the time,
stolen. The affidavit must be supported with evidence
   that supports the affidavit, including insurance or police report
   information, or in the care, custody, or control of some person
   who did not have permission of the owner to use the vehicle;
or

c. A statement stating that the person who received
   the citation is not the owner or driver of the vehicle, or
   that the person who received the citation was not driving a vehicle at the
time and location designated in the citation.

owner of the vehicle shall not be responsible for the violation, if notice
of the violation is given to the registered owner of the vehicle more
than 90 days after the date of the violation.

deemed a noncriminal violation for which a civil penalty of fifty
dollars ($50.00) shall be assessed and for which no points authorized
by G.S. 20-16(c) shall be assigned to the owner or driver of the vehicle
nor insurance points as authorized by G.S. 58-36-65.

(4) The owner of the vehicle shall be issued a citation that shall be
attached to photographic evidence of the violation that identifies the
vehicle involved. The citation shall clearly state the manner in which
the violation may be challenged. The owner of the vehicle shall
comply with the directions on the citation. The citation shall be
processed by officials or agents of the municipality and shall be
forwarded by personal service or first-class mail to the address given
on the motor vehicle registration. If the owner fails to pay the civil
penalty or to respond to the citation within the time period specified on
the citation, the owner shall have waived the right to contest
responsibility for the violation and shall be subject to a civil penalty
not to exceed one hundred dollars ($100.00). The municipality may
establish procedures for the collection of these penalties and may
enforce the penalties by civil action in the nature of debt.
(4)(5) The municipality shall establish a nonjudicial administrative hearing process to review objections to citations or penalties issued or assessed under this section. The municipality may establish an appeals panel composed of municipal employees to review objections. If the municipality does not establish an appeals panel composed of municipal employees, the mayor of the municipality shall review and make a final decision on all objections."

"(d) Municipalities may adopt ordinances for the civil enforcement of G.S. 20-158 by means of a traffic control photographic system, as described in subsection (a) of this section. Notwithstanding the provisions of G.S. 20-176, in the event that a municipality adopts an ordinance pursuant to this section, a violation of G.S. 20-158 at a location at which a traffic control photographic system is in operation shall not be an infraction. An ordinance authorized by this subsection shall provide that:

(1) The owner of a vehicle shall be responsible for a violation unless the owner can furnish evidence that the vehicle was, at the time of the violation, in the care, custody, or control of another person. The owner of the vehicle shall not be responsible for the violation if the owner of the vehicle, within 24-30 days after notification of the violation, furnishes the officials or agents of the municipality which issued the citation either of the following:
   a. An affidavit stating the name and address of the person or company who leased, rented, or otherwise had the care, custody, and control of the vehicle.  
   b. An affidavit stating that the vehicle involved was, at the time, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information, or in the care, custody, or control of some person who did not have permission of the owner to use the vehicle.

(2) Subdivision (1) of this subsection shall not apply, and the registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than 90 days after the date of the violation.

(3) A violation detected by a traffic control photographic system shall be deemed a noncriminal violation for which a civil penalty of fifty dollars ($50.00) shall be assessed, and for which no points authorized by G.S. 20-16(c) shall be assigned to the owner or driver of the vehicle nor insurance points as authorized by G.S. 58-36-65.

(4) The owner of the vehicle shall be issued a citation which shall clearly state the manner in which the violation may be challenged, and the owner shall comply with the directions on the citation. The citation shall be processed by officials or agents of the municipality and shall be forwarded by personal service or first-class mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within the time period specified on the citation, the owner shall have waived the right to contest responsibility for the violation, and shall be subject to a civil penalty not to exceed one hundred dollars ($100.00). The municipality
may establish procedures for the collection of these penalties and may enforce the penalties by civil action in the nature of debt.

(4)(5) The municipality shall institute a nonjudicial administrative hearing to review objections to citations or penalties issued or assessed under this section.

SECTION 5. G.S. 160A-300.4(e), as enacted by S.L. 2003-280, reads as rewritten:

"(e) A municipality may adopt ordinances for the civil enforcement of G.S. 20-141 and G.S. 20-141.1 by means of a photographic speed-measuring system. Notwithstanding the provisions of G.S. 20-141, 20-141.1, and 20-176, in the event that a municipality adopts an ordinance pursuant to this section, a violation of G.S. 20-141 or G.S. 20-141.1 detected by a photographic speed-measuring system shall not be an infraction or misdemeanor. An ordinance authorized by this subsection shall provide that:

(1) The owner of a vehicle shall be responsible for a violation unless the owner can furnish evidence that the vehicle was, at the time of the violation, in the care, custody, or control of another person. The owner of the vehicle shall not be responsible for the violation if the owner of the vehicle furnishes, within 24-30 days of notification of the violation, to the officials or agents of the municipality that issued the citation either of the following:

   a. An affidavit stating the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of the vehicle.

   b. An affidavit stating that the vehicle involved was, at the time of the violation, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information, or in the care, custody, or control of some person who did not have permission of the owner to use the vehicle.

(2) Subdivision (1) of this subsection shall not apply, and the registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than 90 days after the date of the violation.

(2)(3) A violation detected by a photographic speed-measuring system shall be deemed a noncriminal violation for which a civil penalty of fifty dollars ($50.00) shall be assessed and for which no points authorized by G.S. 20-16(c) or G.S. 58-36-65 shall be assigned to the owner or driver of the vehicle.

(3)(4) The owner of the vehicle shall be issued a citation, written in both English and Spanish, clearly stating the manner in which the violation may be challenged and containing both a street address within the municipality and a local or toll-free telephone number at which the owner may challenge the citation. The citation shall be processed by officials or agents of the municipality and shall be forwarded by personal service or certified mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within the time period specified on the citation, the owner shall have waived the right to contest responsibility for the
violation and shall be subject to an additional penalty not to exceed fifty dollars ($50.00). The municipality may establish procedures for the collection of these penalties and may recover the penalties by civil action in the nature of debt.

(4) The municipality shall provide a nonjudicial administrative hearing process to review objections to citations or penalties issued or assessed under this section. The administrative hearing process shall include methods for challenging the violation or penalty either in person, at the street address provided on the citation, or through the telephone, at the telephone number provided on the citation. The municipality shall ensure that a Spanish-speaking person is available both at the street address and through the telephone number to assist Spanish-speaking persons. An administrative hearing decision shall be subject to review by the superior court by proceedings in the nature of certiorari. Any petition for review by the superior court shall be filed with the clerk of superior court within 30 days after the administrative hearing decision.

(5) The clear proceeds from the citations issued pursuant to the ordinance authorized by this section shall be paid to the county school fund. The clear proceeds from the citations shall mean the funds remaining after paying for the lease, lease-purchase, or purchase of the photographic speed-measuring system; paying for operation of the system, either by the municipality or by a contractor; paying for a program to provide public awareness of the system; and paying any administrative costs incurred by the municipality related to the use of the system.

S.B. 753

AN ACT TO AMEND THE QUALIFICATIONS FOR PERSONS NOMINATED AS MAGISTRATES AND TO ESTABLISH A PILOT PROGRAM IN TWELFTH JUDICIAL DISTRICT TO ADDRESS CONFLICTING CHILD CUSTODY ORDERS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 7A-171.2(b) reads as rewritten:

"(b) To be eligible for nomination as a magistrate, an individual shall have at least eight years' experience as the clerk of superior court in a county of this State or shall have a four-year degree from an accredited senior institution of higher education or shall have a two-year associate degree and four years of work experience in a related field, including teaching, social services, law enforcement, arbitration or mediation, the court system, or counseling. The Administrative Officer of the Courts may determine whether the work experience is sufficiently related to the duties of the office of magistrate for the purposes of this subsection. In determining whether an individual's
work experience is in a related field, the Administrative Officer of the Courts shall consider the requisite knowledge, skills, and abilities for the office of magistrate.

The eligibility requirements prescribed by this subsection do not apply to individuals holding the office of magistrate on June 30, 1994, and do not apply to individuals who have been nominated by June 30, 1994, but who have not been appointed or taken the oath of office by that date."

SECTION 2.(a) The Administrative Office of the Courts, in consultation with the Department of Health and Human Services, shall establish a pilot program in the Twelfth Judicial District that addresses the issue of conflicting child custody orders. To the extent that this act or the program established pursuant to it conflicts with any State law, the program supersedes that law. However, the Department of Health and Human Services shall ensure that federal funding is not jeopardized.

SECTION 2.(b) Under this program, when a court obtains jurisdiction over a juvenile as the result of a petition alleging that the juvenile is abused, neglected, or dependent:

(1) The court in the juvenile proceeding may stay any other civil action in this State in which the custody of the juvenile is an issue.

(2) If an order entered in the juvenile proceeding and an order entered in another civil custody action conflict, the order in the juvenile proceeding controls as long as the court continues to retain jurisdiction in the juvenile proceeding.

(3) The court in the juvenile proceeding may order that any civil action or claim for custody filed in the pilot judicial district be consolidated with the juvenile proceeding.

(4) If a civil action or claim for custody has been filed in a district other than the pilot judicial district, then the court in the juvenile proceeding may, after consulting with the court in the other district, order that the civil action or claim for custody be transferred to the pilot judicial district or may order a change of venue in the juvenile proceeding and transfer the juvenile proceeding to the other district.

(5) The court may establish a mechanism for determining the legal status of a juvenile after jurisdiction of the juvenile court terminates, including a determination as to who has custody of the juvenile and under what circumstances custody may subsequently be changed.

SECTION 2.(c) The Administrative Office of the Courts shall evaluate the pilot program and report its findings and recommendations to the 2005 General Assembly prior to its convening.

SECTION 3. This act is effective when it becomes law. Section 2 of this act expires June 30, 2005.

In the General Assembly read three times and ratified this the 18th day of July, 2003.

Became law upon approval of the Governor at 11:21 a.m. on the 1st day of August, 2003.
AN ACT TO PREVENT THE NEGATIVE SECONDARY EFFECTS CAUSED BY SEXUALLY EXPLICIT CONDUCT ON PREMISES LICENSED BY THE ALCOHOLIC BEVERAGE CONTROL COMMISSION.

Whereas, the United States District Court for the Middle District of North Carolina has issued a preliminary injunction, in the case of Carandola v. Bason, enjoining the State of North Carolina from enforcing regulations which prohibit certain sexually explicit conduct on premises licensed by the Alcoholic Beverage Control Commission; and

Whereas, the federal District Court concluded that the regulations are likely to be held to be unconstitutional; and

Whereas, upon review of the federal District Court decision in Carandola, the United States Circuit Court of Appeals for the Fourth Circuit has found that the federal District Court did not abuse its discretion, and has allowed the injunction to remain in place; and

Whereas, the Circuit Court of Appeals for the Fourth Circuit has stated that entertainment such as nude or topless dancing at bars and clubs has "a long history of spawning deleterious effects," including "prostitution and the criminal abuse and exploitation of young women"; and

Whereas, the General Assembly has reviewed studies of the secondary effects of sexually oriented businesses that have been conducted in locations across the United States, including: Phoenix, Arizona; Los Angeles, California; Minneapolis, Minnesota; Austin, Texas; New York City, New York; Oklahoma City, Oklahoma; and other cities; and

Whereas, studies show that negative secondary effects of sexually oriented businesses include increases in crime, such as prostitution, drug offenses, assaults, and sex crimes; and

Whereas, it is not the intent of the General Assembly to suppress the conduct of entertainment at premises licensed by the Alcoholic Beverage Control Commission, but it is the desire of the General Assembly to address the harmful secondary effects of such entertainment, including higher crime rates, public sexual conduct, sexual assault, prostitution, and other secondary negative effects; and

Whereas, it is the intent of the General Assembly to prohibit entertainment at premises licensed by the Alcoholic Beverage Control Commission that provides an atmosphere conducive to violence, sexual harassment, public intoxication, prostitution, and the spread of sexually transmitted diseases; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 18B-1005(a) reads as rewritten:

"(a) Certain Conduct. – It shall be unlawful for a permittee or his agent or employee to knowingly allow any of the following kinds of conduct to occur on his licensed premises:

(5) Any entertainment that includes or simulates sexual intercourse or any other sexual act; or

(6) Any other lewd or obscene entertainment or conduct, as defined by the rules of the Commission."

SECTION 2. Chapter 18B of the General Statutes is amended by adding a new section to read:

"§ 18B-1005.1. Sexually explicit conduct on licensed premises.

(a) It shall be unlawful for a permittee or his agent or employee to knowingly allow or engage in any of the following kinds of conduct on his licensed premises:

(1) Any conduct or entertainment by any person whose genitals are exposed or who is wearing transparent clothing that reveals the genitals;

(2) Any conduct or entertainment that includes or simulates sexual intercourse, masturbation, sodomy, bestiality, oral copulation, flagellation, or any act that includes or simulates the penetration, however slight, by any object into the genital or anal opening of a person's body; or

(3) Any conduct or entertainment that includes the fondling of the breasts, buttocks, anus, vulva, or genitals.

(b) Supervision. – It shall be unlawful for a permittee to fail to superintend in person or through a manager the business for which a permit is issued.

(c) Exception. – This section does not apply to persons operating theaters, concert halls, art centers, museums, or similar establishments that are primarily devoted to the arts or theatrical performances, when the performances that are presented are expressing matters of serious literary, artistic, scientific, or political value."

SECTION 3. If any provision of this act or its application is held invalid, the invalidity does not affect other provisions or applications of this act that can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

SECTION 4. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 20th day of July, 2003.

Became law upon approval of the Governor at 11:32 a.m. on the 1st day of August, 2003.

"SECTION 2.2.(j) When the Highway Trust Fund was created in 1989, the revenue from the sales tax on motor vehicles was transferred from the General Fund to the Highway Trust Fund. To offset this loss of revenue from the General Fund, the Highway Trust Fund was required to transfer one hundred seventy million dollars ($170,000,000) to the General Fund each year, an amount equal to the revenue in 1989 from the sales tax on motor vehicles. This transfer did not, however, make the General Fund whole after the transfer of the sales tax revenue because no provision has been made to adjust the amount for the increased volume of transactions and increased vehicle prices. The additional funds transferred from the Highway Trust Fund to the General Fund by this act is an effort to recover a portion of the sales tax revenues that would have gone to the General Fund over the last 14 years.

In addition to the transfer authorized under G.S. 105-187.9(b)(2), and notwithstanding Section 26.14 of S.L. 2002-126 and G.S. 105-187.9(b)(1), the sum to be transferred to the General Fund for fiscal year 2003-2004 is two hundred fifty million
dollars ($250,000,000) and for fiscal year 2004-2005 is two hundred forty million dollars ($240,000,000). Any funds transferred from the Highway Trust Fund to the General Fund in addition to the transfer authorized by G.S. 105-187.9(b) shall be fully repaid to the Highway Trust Fund in five years beginning in the 2004-2005 fiscal year, using the sum of the digits formula, according to the following repayment schedule: FY 2004-2005 – 7%, FY 2005-2006 – 13%, FY 2006-2007 – 20%, FY 2007-2008 – 27%, and FY 2008-2009 – 33%. The repayment each year shall include interest at the net rate of return generated by the State Treasurer's Short Term Investment Fund.

SECTION 7. G.S. 20-119 (f) reads as rewritten:

"(f) The Department of Transportation shall issue rules to establish an escort driver training and certification program for escort vehicles accompanying oversize/overweight loads. Any driver operating a vehicle escorting an oversize/overweight load shall meet any training requirements and obtain certification under the rules issued pursuant to this subsection. These rules may provide for reciprocity with other states having similar escort certification programs. Certification credentials for the driver of an escort vehicle shall be carried in the vehicle and be readily available for inspection by law enforcement personnel. The escort and training certification requirements of this subsection shall not apply to the transportation of agricultural machinery until October 1, 2004."

SECTION 8. G.S. 20-116 (j) reads as rewritten:

"(j) Self-propelled grain combines or other farm equipment self-propelled, pulled or otherwise, not exceeding 18 feet in width may be operated on any highway, except a highway or section of highway that is a part of the National System of Interstate and Defense Highways: Provided that all such combines or equipment which exceed 10 feet in width may be so operated only under the following conditions:

(1) Said equipment may only be so operated during daylight hours; and

(2) Said equipment must display a red flag on front and rear, said flags shall not be smaller than three feet wide and four feet long and be attached to a stick, pole, staff, etc., not less than four feet long and shall be so attached to said equipment as to be visible from both directions at all times while being operated on the public highway for not less than 300 feet; and

(3) Equipment covered by this section, which by necessity must travel more than 10 miles or where by nature of the terrain or obstacles the flags referred to in subdivision (2) are not visible from both directions for 300 feet at any point along the proposed route, must be preceded at a distance of 300 feet and followed at a distance of 300 feet by a flagman in a vehicle having mounted thereon an appropriate warning light or flag. No flagman in a vehicle shall be required pursuant to this subdivision if the equipment is being moved under its own power or on a trailer from any field to another field, or from the normal place of storage of the vehicle to any field, for no more than ten miles and if visible from both directions for 300 feet at any point along the proposed route.

(4) Every such piece of equipment so operated shall operate to the right of the center line when meeting traffic coming from the opposite direction and at all other times when possible and practical.

(5) Violation of this section shall not constitute negligence per se.
(6) When said equipment is causing a delay in traffic, the operator of said equipment shall move the equipment off the paved portion of the highway at the nearest practical location until the vehicles following said equipment have passed."

SECTION 9. Except as otherwise provided, this act becomes effective July 1, 2003.

In the General Assembly read three times and ratified this the 20th day of July, 2003.

Became law upon approval of the Governor at 9:59 a.m. on the 7th day of August, 2003.

The Board may disclose to the applicant information contained in the criminal history record check that is relevant to the denial. The Board shall not provide a copy of the criminal history record check to the applicant. The applicant shall have the right to appear before the Board to appeal the Board's decision. However, an appearance before the full Board shall constitute an exhaustion of administrative remedies in accordance with Chapter 150B of the General Statutes.

e. The initial loan amount is ten thousand dollars ($10,000) or more. On January 1, 2008, and on January 1 every five years thereafter, the minimum initial loan amount sufficient to qualify a loan closed on or after that date as an equity line of credit under this section shall be increased by one thousand dollars ($1,000). For example, a loan closed on or after January 1, 2008, but prior to January 1, 2013, shall not be considered an equity line of credit unless the initial loan amount is eleven thousand dollars ($11,000) or more, and a loan closed on or after January 1, 2013, but prior to January 1, 2018, shall not be considered an equity line of credit unless the initial loan amount is twelve thousand dollars ($12,000) or more.

An equity line of credit shall cease being an equity line of credit subject to the provisions of this section from and after the date the loan amount is reduced below the equity line of credit's initial loan amount unless (i) the loan amount was reduced for one or more of the reasons or pursuant to one or more of the methods specified in section 226.5b(f)(2) or section 226.5b(f)(3)(vi) of Title 12 of the Code of Federal Regulations and the official commentaries and rulings issued.
pursuant thereto, as the same may be amended from time to time, without regard to whether that section of the Code of Federal Regulations would otherwise apply to the loan, or (ii) the loan amount was reduced at the request of the borrower because the borrower was engaged in the refinancing of a loan secured by a superior lien on the same real property and the reduction in the loan amount of the equity line of credit is no greater than the difference between the loan amount secured by the refinancing mortgage and the outstanding principle balance of the loan being refinanced.

(3) "Exempt loan" means a loan in which:
   a. The loan amount is three hundred thousand dollars ($300,000) or more; or
   b. The borrower is a person other than a natural person; or
   c. The loan is obtained by a natural person primarily for a purpose other than a personal, family, or household purpose. Whether a loan is obtained primarily for a purpose other than a personal, family, or household purpose shall be guided by the standards established by the federal Truth In Lending Act (Title 1 of Public Law 90-321; 82 Stat. 146; 15 U.S.C. § 160, et seq.) and all regulations and rulings issued pursuant to that Act, as the same may be amended from time to time.

(4) "Loan" means an advance of money or an extension of credit that is made to or on behalf of a borrower, the principal amount of which the borrower has an obligation to pay the lender. The term includes revolving lines of credit, open-end loans, revolving credit plans, and revolving credit card plans in addition to closed-end loans.

(5) "Loan amount" means the principal amount of a loan or, in the case of a revolving line of credit, open-end loan, revolving credit plan, or revolving credit card plan, the initial maximum credit limit.

(b) Notwithstanding any other provision of this Chapter or any other provision of State law, any borrower in an exempt loan transaction may agree to pay, and any lender, including a bank, may charge and collect from the borrower, interest at any rate and fees and other charges in any amount that the borrower agrees to pay. A claim or defense of usury is prohibited in an exempt loan transaction.

(c) The provisions of G.S. 24-1.2A, 24-11, and 24-11.1 shall not apply to equity lines of credit offered by banks. Except as provided in this subsection and notwithstanding any other provision of this Chapter or any other provision of State law, any bank may charge and collect from any borrower interest at any rate and fees and other charges in any amount that the borrower agrees to pay in connection with an equity line of credit. However, an equity line of credit made by a bank shall be subject to the following, to the extent otherwise applicable:

(1) The provisions of G.S. 24-1.1E (relating to restrictions and limitations on high-cost home loans);
(2) The provisions of G.S. 24-10.2 (relating to consumer protections in certain home loans);
(3) Notwithstanding the limitation against prepayment penalties contained in G.S. 45-81(c), a bank may charge and collect prepayment fees or penalties following the borrower's voluntary exercise of a right or option to repay all or any portion of the outstanding balance of a
variable interest rate equity line of credit at a fixed interest rate over a specified period of time, subject to the following limitations:

a. Prepayment fees or penalties may be charged only with respect to the prepayment of that portion of the outstanding balance the borrower voluntarily agrees to repay at a fixed interest rate over a specified time;

b. No prepayment fees or penalties may be charged for prepayments made more than 30 months after the borrower voluntarily exercises the right or option to repay that portion of the outstanding balance of the equity line of credit at a fixed interest rate over a specified period of time; and

c. The prepayment fees or penalties charged with respect to that portion of the outstanding balance to be repaid at a fixed rate over a specified period of time may not exceed, in the aggregate, more than two percent (2%) of the amount prepaid. Otherwise, no prepayment fees or penalties may be charged or collected by the bank with respect to an equity line of credit.

(d) The provisions of G.S. 24-11 and G.S. 24-11.1 shall not apply to revolving credit card plans offered by banks. Notwithstanding any other provision of this Chapter or any other provision of State law, any bank may charge and collect from any borrower interest at any rate, as well as fees and other charges in any amount that the borrower agrees to pay in connection with a revolving credit card plan. This subsection (d) shall not apply to a revolving credit card plan that is secured by a mortgage or deed of trust on real property."

For purposes of this subdivision, evidence that a retailer engaged in the activity described in subdivision (5) shall be prima facie evidence that the retailer consents to the imposition of the tax imposed by this Article.

(8) The retailer is a holder of a wine shipper permit issued by the ABC Commission pursuant to G.S. 18B-1001.1.”

SECTION 14. This act becomes effective October 1, 2003. In the General Assembly read three times and ratified this the 17th day of July, 2003. Became law upon approval of the Governor at 5:36 p.m. on the 7th day of August, 2003.

S.B. 725 Session Law 2003-403

AN ACT TO AMEND THE NORTH CAROLINA CONSTITUTION TO PERMIT CITIES AND COUNTIES TO INCUR OBLIGATIONS TO FINANCE THE PUBLIC PORTION OF CERTAIN ECONOMIC DEVELOPMENT PROJECTS.

Whereas, the State of North Carolina and local governments in North Carolina are and should be actively engaged in economic development efforts to attract and stimulate private sector job creation and capital investors in their areas; and

Whereas, over 48 other states and local governments in other states are authorized to utilize a wide variety of incentives, including, but not limited to, project development financing to attract private sector economic development; and

Whereas, other states and local governments in other states have been successful in attracting private sector job creation and capital investment to their areas through incentive packages which have included the provision of infrastructure improvements financed through the issuance of project development debt instruments; and

Whereas, economically distressed areas of North Carolina could utilize project development debt instruments to attract new industry to their areas; and

Whereas, project development financing could enable North Carolina to be more nationally or internationally competitive in attracting private sector job creation and capital investments, particularly in attracting major economic development efforts; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Article V of the North Carolina Constitution is amended by adding a new section to read:

Notwithstanding Section 4 of this Article, the General Assembly may enact general laws authorizing any county, city, or town to define territorial areas in the county, city, or town and borrow money to be used to finance public improvements associated with

1157
private development projects within the territorial areas, as provided in this section. The General Assembly shall set forth by statute the method for determining the size of the territorial area and the issuing unit. This method is conclusive. When a territorial area is defined pursuant to this section, the county shall determine the current assessed value of taxable real and personal property in the territorial area. Thereafter, property in the territorial area continues to be subject to taxation to the same extent and in like manner as property not in the territorial area, but the net proceeds of taxes levied on the excess, if any, of the assessed value of taxable real and personal property in the territorial area at the time the taxes are levied over the assessed value of taxable real and personal property in the territorial area at the time the territorial area was defined may be set aside. The instruments of indebtedness authorized by this section shall be secured by these set-aside proceeds. The General Assembly may authorize a county, city, or town issuing these instruments of indebtedness to pledge, as additional security, revenues available to the issuing unit from sources other than the issuing unit's exercise of its taxing power. As long as no revenues are pledged other than the set-aside proceeds authorized by this section and the revenues authorized in the preceding sentence, these instruments of indebtedness may be issued without approval by referendum. The county, city, or town may not pledge as security for these instruments of indebtedness any property tax revenues other than the set-aside proceeds authorized in this section, or in any other manner pledge its full faith and credit as security for these instruments of indebtedness unless a vote of the people is held as required by and in compliance with the requirements of Section 4 of this Article.

Notwithstanding the provisions of Section 2 of this Article, the General Assembly may enact general laws authorizing a county, city, or town that has defined a territorial area pursuant to this section to assess property within the territorial area at a minimum value if agreed to by the owner of the property, which agreed minimum value shall be binding on the current owner and any future owners as long as the defined territorial area is in effect."

SECTION 2. Article 6 of Chapter 159 of the General Statutes is reenacted and is rewritten to read:

"Article 6.

"Project Development Financing Act.

§ 159-101. Short title.

This Article may be cited as the 'North Carolina Project Development Financing Act.'

§ 159-102. Unit of local government defined.

For the purposes of this Article, the term 'unit of local government' means a county or a municipal corporation.

§ 159-103. Authorization of project development financing debt instruments; purposes.

(a) Each unit of local government may issue project development financing debt instruments pursuant to this Article and use the proceeds for one or more of the purposes for which the unit may issue general obligation bonds pursuant to the following subdivisions of G.S. 159-48: (b)(1), (3), (7), (11), (12), (16), (17), (19), (21), (23), (24), or (25), (c)(4a) or (6), or (d)(3), (4), (5), (6), or (7). In addition, the proceeds may be used for any service or facility authorized by G.S. 160A-536 and provided in a municipal service district.
For the purpose of this Article, the term ‘capital costs’ as defined in G.S. 159-48(h) also includes (i) interest on the debt instruments being issued or on notes issued in anticipation of the instruments during construction and for a period not exceeding seven years after the estimated date of completion of construction and (ii) the establishment of debt service reserves and any other reserves reasonably required by the financing documents. The proceeds of the debt instruments may be used either in a development financing district established pursuant to G.S. 160A-515.1 or G.S. 158-7.3 or, if the use directly benefits private development forecast by the development financing plan for the district, outside the development financing district. The proceeds may be used only for projects that enable, facilitate, or benefit private development within the development financing district, the revenue increment of which is pledged as security for the debt instruments. This subsection does not prohibit the use of proceeds to defray the cost of providing water and sewer utilities to a private development in a project development financing district.

(b) Subject to agreement with the holders of its project development financing debt instruments and the limitation on duration of development financing districts set out in this Article, each unit of local government may issue additional project development financing debt instruments and may issue debt instruments to refund any outstanding project development financing debt instruments at any time before the final maturity of the instruments to be refunded. General obligation bonds issued to refund outstanding project development financing debt instruments shall be issued under the Local Government Bond Act, Article 4 of this Chapter. Revenue bonds issued to refund outstanding project development financing debt instruments shall be issued under the State and Local Government Revenue Bond Act, Article 5 of this Chapter.

Project development financing debt instruments may be issued partly for the purpose of refunding outstanding project development financing debt instruments and partly for any other purpose under this Article. Project development financing debt instruments issued to refund outstanding project development financing debt instruments shall be issued under this Article and not under Article 4 of this Chapter.

(c) If the private development project to be benefited by proposed project development financing debt instruments affects tax revenues in more than one unit of local government and more than one affected unit of local government wishes to provide assistance to the private development project by issuing project development financing debt instruments, then those units may enter into an interlocal agreement pursuant to Article 20 of Chapter 160A of the General Statutes for the purpose of issuing the instruments. The agreement may include a provision that a unit may pledge all or any part of the taxes received or to be received on the incremental valuation accruing to the development financing district to the repayment of instruments issued by another unit that is a party to the interlocal agreement.

§ 159-104. Application to Commission for approval of project development financing debt instrument issue; preliminary conference; acceptance of application.

A unit of local government may not issue project development financing debt instruments under this Article unless the issue is approved by the Local Government Commission. The governing body of the issuing unit shall file with the secretary of the Commission an application for Commission approval of the issue. At the time of application, the governing body shall publish a public notice of the application in a newspaper of general circulation in the unit of local government. The application shall include any statements of facts and documents concerning the proposed debt
instruments, development financing district, and development financing plan, and the financial condition of the unit, required by the secretary. The Commission may prescribe the form of the application.

Before accepting the application, the secretary may require the governing body or its representatives to attend a preliminary conference in order to discuss informally the proposed issue, district, and plan and the timing of the steps to be taken in issuing the debt instruments. The development financing plan need not be adopted by the governing body at the time it files the application with the secretary. However, before the Commission may enter its order approving the debt instruments, the governing body must adopt the plan and make the findings described in G.S. 159-105(b)(1) and (5).

After an application in proper form and order has been filed, and after a preliminary conference if one is required, the secretary shall notify the unit in writing that the application has been filed and accepted for submission to the Commission. The secretary's statement is conclusive evidence that the unit has complied with this section.

§ 159-105. Approval of application by Commission.

(a) In determining whether to approve a proposed project development financing debt instrument issue, the Commission may inquire into and consider any matters that it considers relevant to whether the issue should be approved, including:

1. Whether the projects to be financed from the proceeds of the project development financing debt instrument issue are necessary to secure significant new project development for a development financing district.
2. Whether the proposed projects are feasible. In making this determination, the Commission may consider any additional security such as credit enhancement, insurance, or guaranties.
3. The unit of local government's debt management procedures and policies.
4. Whether the unit is in default in any of its debt service obligations.
5. Whether the private development forecast in the development financing plan would likely occur without the public project or projects to be financed by the project development financing debt instruments.
6. Whether taxes on the incremental valuation accruing to the development financing district, together with any other revenues available under G.S. 159-110, will be sufficient to service the proposed project development financing debt instruments.
7. The ability of the Commission to market the proposed project development financing debt instruments at reasonable rates of interest.

(b) The Commission shall approve the application if, upon the information and evidence it receives, it finds all of the following:

1. The proposed project development financing debt instrument issue is necessary to secure significant new economic development for a development financing district.
2. The amount of the proposed project development financing debt is adequate and not excessive for the proposed purpose of the issue.
3. The proposed projects are feasible. In making this determination, the Commission may consider any additional security such as credit enhancement, insurance, or guaranties.
(4) The unit of local government's debt management procedures and policies are good, or that reasonable assurances have been given that its debt will henceforth be managed in strict compliance with law.

(5) The private development forecast in the development financing plan would not be likely to occur without the public projects to be financed by the project development financing debt instruments.

(6) The proposed project development financing debt instruments can be marketed at reasonable interest cost to the issuing unit.

(7) The issuing unit has, pursuant to G.S. 160A-515.1 or G.S. 158-7.3, adopted a development financing plan for the development financing district for which the instruments are to be issued.

"§ 159-106. Order approving or denying the application.

(a) After considering an application, the Commission shall enter its order either approving or denying the application. An order approving an issue is not an approval of the legality of the debt instruments in any respect.

(b) Unless the debt instruments are to be issued for a development financing district for which a project development financing debt instrument issue has already been approved, the day the Commission enters its order approving an application for project development financing debt instruments is also the effective date of the development financing district for which the instruments are to be issued.

(c) If the Commission enters an order denying the application, the proceedings under this Article are at an end.

"§ 159-107. Determination of incremental valuation; use of taxes levied on incremental valuation; duration of the district.

(a) Base Valuation in the Development Financing District. – After the Local Government Commission has entered its order approving a unit of local government's application for project development financing debt instruments, the unit shall immediately notify the tax assessor of the county in which the development financing district is located of the existence of the development financing district. Upon receiving this notice, the tax assessor shall determine the base valuation of the district, which is the assessed value of all taxable property located in the district on the January 1 immediately preceding the effective date of the district. If the unit or an agency of the unit acquired property within the district within one year before the effective date of the district, the tax assessor shall presume, subject to rebuttal, that the property was acquired in contemplation of the district, and the tax assessor shall include the value of the property so acquired in determining the base valuation of the district. The unit may rebut this presumption by showing that the property was acquired primarily for a purpose other than to reduce the incremental tax base. After determining the base valuation of the development financing district, the tax assessor shall certify the valuation to: (i) the issuing unit; (ii) the county in which the district is located if the issuing unit is not the county; and (iii) any special district, as defined in G.S. 159-7, within which the development financing district is located.

(b) Adjustments to the Base Valuation. – During the lifetime of the development financing district, the base valuation shall be adjusted as follows:

(1) If the unit amends its development financing plan, pursuant to G.S. 160A-515.1 or G.S. 158-7.3, to remove property from the development financing district, on the succeeding January 1, that property shall be removed from the district and the base valuation reduced accordingly.
(2) If the unit amends its development financing plan, pursuant to G.S. 160A-515.1 or G.S. 158-7.3, to expand the district, the new property shall be added to the district immediately. The base valuation of the district shall be increased by the assessed value of the taxable property situated in the added territory on the January 1 immediately preceding the effective date of the district.

(3) If, at the time of revaluation pursuant to G.S. 105-286 of property in the county in which the district is located, it appears that, based on the schedule of values, standards, and rules approved by the board of county commissioners pursuant to G.S. 105-317, the property values of the district as they existed on the January 1 immediately preceding the effective date of the district would be increased because of the revaluation, then the base valuation shall be increased accordingly.

Each time the base valuation is adjusted, the tax assessor shall immediately certify the new base valuation to: (i) the issuing unit; (ii) the county if the issuing unit is not the county; and (iii) any special district, as defined in G.S. 159-7, within which the development financing district is located.

(c) Revenue Increment Fund. – When a unit of local government has established a development financing district, and the project development financing debt instruments for that district have been approved by the Commission, the unit shall establish a separate fund to account for the proceeds paid to the unit from taxes levied on the incremental valuation of the district. The unit shall also place in this fund any moneys received pursuant to an agreement entered into under G.S. 159-108.

(d) Levy of Property Taxes Within the District. – Each year the development financing district is in existence, the tax assessor shall determine the current assessed value of taxable property located in the district. The assessor shall also compute the difference between this current value and the base valuation of the district. If the current value exceeds the base value, the difference is the incremental valuation of the district. In each year the district is in existence, the county, and if the district is within a city or a special district as defined by G.S. 159-7, the city or the special district shall levy taxes against property in the district in the same manner as taxes are levied against other property in the county, city, or special district. The proceeds from ad valorem taxes levied on property in the development financing district shall be distributed as follows:

(1) In any year in which there is no incremental valuation of the district, all the proceeds of the taxes shall be retained by the county, city, or special district, as if there were no development financing district in existence.

(2) In any year in which there is an incremental valuation of the district, the amount of tax due from each taxpayer on property in the district shall be distributed as provided in this subdivision. The net proceeds of the following taxes shall be paid to the government levying the tax: (i) taxes separately stated and levied solely to service and repay debt secured by a pledge of the faith and credit of the unit; (ii) nonschool taxes levied pursuant to a vote of the people; (iii) taxes levied for a municipal or county service district; and (iv) taxes levied by a taxing unit in a development financing district established by a different taxing unit and for which there is no increment agreement between the two units. All remaining taxes on property in the district shall be multiplied by a fraction, the numerator of which is the base valuation.
for the district and the denominator of which is the current valuation for the district. The amount shown as the product of this multiplication shall, when paid by the taxpayer, be retained by the county, city, or special district, as if there were no development financing district in existence. The net proceeds of the remaining amount shall, when paid by the taxpayer, be turned over to the finance officer of each issuing unit, who shall place this amount in the special revenue increment fund required by subsection (c) of this section. As used in this section, 'net proceeds' means gross proceeds less refunds, releases, and any collection fee paid by the levying government to the collecting government.

(e) Increment Agreements. – Effect of Annexation on District Established by a County. – If a city annexes land in a development financing district established by a county pursuant to G.S. 158-7.3, the proceeds of all taxes levied by the city on property within the district shall be paid to the city unless the city enters into an agreement with the county pursuant to this subsection. The city and the county may enter into an increment agreement under which the city agrees that city taxes on part or all of the incremental valuation in the district shall be paid into the revenue increment fund for the district. An increment agreement may be entered into when the district is established or at any time after the district is established. The increment agreement may extend for the duration of the district or for a shorter time agreed to by the parties.

(f) Use of Moneys in the Revenue Increment Fund. – If the development financing district includes property conveyed or leased by the unit of local government to a private party in consideration of increased tax revenue expected to be generated by improvements constructed on the property pursuant to G.S. 158-7.1, an amount equal to the tax revenue taken into account in arriving at the consideration, less the increased tax revenue realized since the construction of the improvement, shall be transferred from the Revenue Increment Fund to the county, city, or special district as if there were no development financing district in existence. Any money in excess of this amount in the Fund may be used for any of the following purposes, without priority other than priorities imposed by the order authorizing the project development financing debt instruments:

(1) To finance capital expenditures (including the funding of capital reserves) by the issuing unit in the development financing district pursuant to the development financing plan.

(2) To meet principal and interest requirements on project development financing debt instruments and debt instrument anticipation notes issued for the district.

(3) To repay the appropriate fund of the issuing unit for any moneys actually expended on debt service on project development financing debt instruments pursuant to a pledge made pursuant to G.S. 159-111(b).

(4) To establish and maintain debt service reserves for future principal and interest requirements on project development financing debt instruments and debt instrument anticipation notes issued for the district.

(5) To meet any other requirements imposed by the order authorizing the project development financing debt instruments.
If in any year there is any money remaining in the Revenue Increment Fund after these purposes have been satisfied, it shall be paid to the general fund of the county and, if applicable, of the city and any special district as defined by G.S. 159-7, in proportion to their rates of ad valorem tax on taxable property located in the development financing district.

(g) Duration of District. – A development financing district shall terminate at the earlier of (i) the end of the thirtieth year after the effective date of the district or (ii) the date all project development financing debt instruments issued for the district have been fully retired or sufficient funds have been set aside, pursuant to the order authorizing the debt instruments, to meet all future principal and interest requirements on the instruments.

§ 159-108. Agreements with property owners.

(a) Authorization. – A unit of local government that issues project development financing debt instruments may enter into agreements with the owners of real property in the development financing district for which the instruments were issued under which the owners agree to a minimum value at which their property will be assessed for taxation. Such an agreement may extend for the life of the development financing district or for a shorter period agreed to by the parties. The agreement may vary the agreed-upon minimum assessed value from year to year.

(b) Filing and Recording Agreement. – The unit shall file a copy of any agreement entered into pursuant to this section with the tax assessor for the county in which the development financing district is located. In addition, the unit shall cause the agreement to be recorded in the office of the register of deeds of that county, and the register of deeds shall index the agreement in the grantor's index under the name of the property owner. Once the agreement has been recorded in the office of the register of deeds, as required by this subsection, it is binding, according to its terms and for its duration, on any subsequent owner of the property.

(c) Minimum Assessment of Property. – An agreement entered into pursuant to this section establishes a minimum assessment of the real property subject to the agreement. If the county tax assessor determines that the real property has a true value less than the minimum established by the agreement, the assessor shall nevertheless assess the property at the minimum set out in the agreement. If the assessor, however, determines that the real property has a true value greater than the minimum established by the agreement, the assessor shall assess the property at the true value.

(d) Effect of Reappraisal. – If an agreement entered into pursuant to this section continues in effect after a reappraisal of property conducted pursuant to G.S. 105-286, the minimum assessment established in the agreement shall be adjusted as provided in this subsection. After the issuing unit of local government has adopted its budget ordinance and levied taxes for the fiscal year that begins next after the effective date of the reappraisal, it shall certify to the county tax assessor the total rate of ad valorem taxes levied by the unit and applicable to the property subject to the agreement. It shall also certify to the assessor the total rate of ad valorem taxes levied by the unit and applicable to the property in the immediately preceding fiscal year. The assessor shall determine the total amount of ad valorem taxes levied by the unit on the property in the immediately preceding fiscal year, based on the tax rate certified by the issuing unit. The assessor shall then determine a value of the property that would provide the same total amount of ad valorem taxes based on the tax rate certified for the fiscal year beginning next after the effective date of the reappraisal. The value so determined is the new minimum assessment for the property subject to the agreement.
(e) Agreement Effective Regardless of Improvements. – An agreement entered into pursuant to this section remains in effect according to its terms regardless of whether the improvements anticipated in the development financing plan are completed or whether those improvements continue to exist during the duration of the agreement. However, if any part of the property subject to the agreement is acquired by a public agency, the agreement is automatically modified by removing the acquired property from the agreement and reducing the minimum assessment accordingly.

"§ 159-109. Special covenants.

A project development financing debt instrument order or a trust agreement securing project development financing debt instruments may contain covenants regarding:

(1) The pledge of all or any part of the taxes received or to be received on the incremental valuation in the development financing district during the life of the debt instruments.

(2) Rates, fees, rentals, tolls, or other charges to be established, maintained, and collected, and the use and disposal of revenues, gifts, grants, and funds received or to be received.

(3) The setting aside of debt service reserves and the regulation and disposition of these reserves.

(4) The custody, collection, securing, investment, and payment of any moneys held for the payment of project development financing debt instruments.

(5) Limitations or restrictions on the purposes to which the proceeds of sale of project development financing debt instruments may be applied.

(6) Limitations or restrictions on the issuance of additional project development financing debt instruments or notes for the same development financing district, the terms upon which additional project development financing debt instruments or notes may be issued or secured, or the refunding of outstanding project development financing debt instruments or notes.

(7) The acquisition and disposal of property for project development financing debt instrument projects.

(8) Provision for insurance and for accounting reports, and the inspection and audit of accounting reports.

(9) The continuing operation and maintenance of projects financed with the proceeds of the project development financing debt instruments.

"§ 159-110. Security of project development financing debt instruments.

Project development financing debt instruments are special obligations of the issuing unit. Moneys in the Revenue Increment Fund required by G.S. 159-107(c) are pledged to the payment of the instruments, in accordance with G.S. 159-107(f). Except as provided in G.S. 159-111, the unit may pledge the following additional sources of funds to the payment of the debt instruments, and no other sources: the proceeds from the sale of property in the development financing district; net revenues from any public facilities, other than portions of public utility systems, in the development financing district financed with the proceeds of the project development financing debt instruments; and, subject to G.S. 159-47, net revenues from any other public facilities, other than portions of public utility systems, in the development financing district constructed or improved pursuant to the development financing plan.
Except as provided in G.S. 159-111, the principal and interest on project development financing debt instruments do not constitute a legal or equitable pledge, charge, lien, or encumbrance upon any of the unit's property or upon any of its income, receipts, or revenues, except as may be provided pursuant to this section. Except as provided in G.S. 159-107 and G.S. 159-111, neither the credit nor the taxing power of the unit is pledged for the payment of the principal or interest of project development financing debt instruments, and no holder of project development financing debt instruments has the right to compel the exercise of the taxing power by the unit or the forfeiture of any of its property in connection with any default on the instruments. Unless the unit's taxing power has been pledged pursuant to G.S. 159-111, every project development financing debt instrument shall contain recitals sufficient to show the limited nature of the security for the instrument's payment and that it is not secured by the full faith and credit of the unit.

§ 159-111. Additional security for project development financing debt instruments.

(a) In order to provide additional security for debt instruments issued pursuant to this Article, the issuing unit of local government may pledge its faith and credit for the payment of the principal of and interest on the debt instruments. Before such a pledge may be given, the unit shall follow the procedures and meet the requirements for approval of general obligation bonds under Article 4 of this Chapter. The unit shall also follow the procedures and meet the requirements of this Article. If debt instruments are issued pursuant to this Article and are also secured by a pledge of the issuing unit's faith and credit, the debt instruments are subject to G.S. 159-112 rather than G.S. 159-65.

(b) In order to provide additional security for debt instruments issued pursuant to this Article, and in lieu of pledging its faith and credit for that purpose pursuant to subsection (a) of this section, a unit of local government may agree to apply to the payment of the instruments any available sources of revenues of the unit, as long as the agreement to use the sources to make payment does not constitute a pledge of the unit's taxing power or of the unit's revenues derived from local sales taxes. In addition, to the extent the generation of the revenues is within the power of the unit, the unit may enter into covenants to take action in order to generate the revenues, as long as the covenant does not constitute a pledge of the unit's taxing power.

(c) No agreement or covenant may contain a nonsubstitution clause that restricts the right of the issuing unit of local government to replace or provide a substitute for any project financed pursuant to this subsection.

(d) The obligation of a unit of local government with respect to the sources of payment shall be specifically identified in the proceedings of the governing body authorizing the unit to issue the debt instruments. The sources of payment so specifically identified and then held or thereafter received by the unit or any fiduciary of the unit are immediately subject to the lien of the proceedings without any physical delivery of the sources or further act. The lien is valid and binding as against all parties having claims of any kind against a unit without regard to whether the parties have notice of the lien. The proceedings or any other document or action by which the lien on a source of payment is created need not be filed or recorded in any manner other than as provided in this Article.

§ 159-112. Limitations on details of debt instruments.

In fixing the details of project development financing debt instruments, the governing body of the issuing unit of local government is subject to these restrictions and directions:

1166
(1) The maturity date shall not exceed the shorter of (i) the longest of the various maximum periods of usefulness for the projects to be financed with debt instrument proceeds, as prescribed by the Local Government Commission pursuant to G.S. 159-122, or (ii) the end of the thirtieth year after the effective date of the development financing district.

(2) The first payment of principal shall be payable not more than seven years after the date of the debt instruments.

(3) Any debt instrument may be made payable on demand or tender for purchase as provided in G.S. 159-79, and any debt instrument may be made subject to redemption prior to maturity, with or without premium, on such notice, at such times, and with such redemption provisions as may be stated. Interest on the debt instruments shall cease when the instruments have been validly called for redemption and provision has been made for the payment of the principal of the instruments, any redemption, any premium, and the interest on the instruments accrued to the date of redemption.

(4) The debt instruments may bear interest at such rates payable semiannually or otherwise, may be in such denominations, and may be payable in such kind of money and in such place or places within or without this State as the issuing unit may determine.

§ 159-113. Annual report.
In July of each year, each unit of local government with outstanding project development financing debt instruments shall make a report to any other unit, and to any special district as defined in G.S. 159-7, in which the development financing district for which the instruments were issued is located. This report shall set out the base valuation for the development financing district, the current valuation for the district, the amount of remaining project development financing debt for the district, and the unit's estimate of when the debt will be retired. The unit of local government may meet this requirement by reporting this information in its annual financial statements required by G.S. 159-34.

SECTION 3. G.S. 159-48(b) is amended by adding a new subdivision to read:

"(26) Undertaking public activities in or for the benefit of a development financing district pursuant to a development financing plan."

SECTION 4. G.S. 159-55(a) reads as rewritten:

"(a) After the bond order has been introduced and before the public hearing thereon, the finance officer (or some other officer designated by the governing board for this purpose) shall file with the clerk a statement showing the following:

(1) The gross debt of the unit, excluding therefrom debt incurred or to be incurred in anticipation of the collection of taxes or other revenues or in anticipation of the sale of bonds other than funding and refunding bonds. The gross debt (after exclusions) is the sum of (i) outstanding debt evidenced by bonds, (ii) bonds authorized by orders introduced but not yet adopted, (iii) unissued bonds authorized by adopted orders, and (iv) outstanding debt not evidenced by bonds. However, for purposes of the sworn statement of debt and the debt limitation, revenue bonds and project development financing debt instruments (unless additionally secured by a pledge of the issuing unit's faith and
credit) shall not be considered debt and such bonds shall not be included in gross debt nor deducted from gross debt.

(2) The deductions to be made from gross debt in computing net debt. The following deductions are allowed:

a. Funding and refunding bonds authorized by orders introduced but not yet adopted.

b. Funding and refunding bonds authorized but not yet issued.

c. The amount of money held in sinking funds or otherwise for the payment of any part of the principal of gross debt other than debt incurred for water, gas, electric light or power purposes, or sanitary sewer purposes (to the extent that the bonds are deductible under subsection (b) of this section), or two or more of these purposes.

d. The amount of bonded debt included in gross debt and incurred, or to be incurred, for water, gas, or electric light or power purposes, or any two or more of these purposes.

e. The amount of bonded debt included in the gross debt and incurred, or to be incurred, for sanitary sewer system purposes to the extent that the debt is made deductible by subsection (b) of this section.

f. The amount of uncollected special assessments theretofore levied for local improvements for which any part of the gross debt (that is not otherwise deducted) was or is to be incurred, to the extent that the assessments will be applied, when collected, to the payment of any part of the gross debt.

g. The amount, as estimated by the governing board of the issuing unit or an officer designated by the board for this purpose, of special assessments to be levied for local improvements for which any part of the gross debt (that is not otherwise deducted) was or is to be incurred, to the extent that the special assessments, when collected, will be applied to the payment of any part of the gross debt.

(3) The net debt of the issuing unit, being the difference between the gross debt and deductions.

(5) The percentage that the net debt bears to the assessed value of property subject to taxation by the issuing unit.

SECTION 5. G.S. 159-79(a) reads as rewritten:

"(a) Notwithstanding any provisions of this Chapter to the contrary, including particularly, but without limitation, the provisions of G.S. 159-65, G.S. 159-112, G.S. 159-123 to G.S. 159-127, inclusive, G.S. 159-130, G.S. 159-138, G.S. 159-162, G.S. 159-164 and G.S. 159-172, a unit of local government, in fixing the details of general obligation bonds to be issued pursuant to this Article or Article, general obligation notes to be issued pursuant to Article 9 of this Chapter, or project development financing debt
instruments or notes to be issued pursuant to Article 6 of this Chapter, may provide that such bonds or notes:

(1) May be made payable from time to time on demand or tender for purchase by the owner provided a Credit Facility supports such bonds or notes, unless the Commission specifically determines that a Credit Facility is not required upon a finding and determination by the Commission that the proposed bonds or notes will satisfy the conditions set forth in G.S. 159-52;

(2) May be additionally supported by a Credit Facility;

(3) May be made subject to redemption prior to maturity, with or without premium, on such notice, at such time or times, at such price or prices and with such other redemption provisions as may be stated in the resolution fixing the details of such bonds or notes or with such variations as may be permitted in connection with a Par Formula provided in such resolution;

(4) May bear interest at a rate or rates that may vary as permitted pursuant to a Par Formula and for such period or periods of time, all as may be provided in such resolution; and

(5) May be made the subject of a remarketing agreement whereby an attempt is made to remarket the bonds to new purchases prior to their presentment for payment to the provider of the Credit Facility or to the issuing unit."

SECTION 6. G.S. 159-120 reads as rewritten:

The last installment of a refunding bond issue issued pursuant to G.S. 159-48(a)(4) or (5) shall mature not later than either (i) the shortest period, but not more than 40 years, in which the debt to be refunded can be finally paid without making it unduly burdensome on the taxpayers of the issuing unit, as determined by the Commission, computed from the date of the bonds, or (ii) the end of the unexpired period of usefulness of the capital project financed by the debt to be refunded. The last installment of bonds issued pursuant to G.S. 159-48(a)(1), (2), (3), (6), or (7) shall mature not later than 10 years after the date of the bonds, as determined by the Commission. The last installment of bonds issued pursuant to G.S. 159-48(c)(5) shall mature not later than eight years after the date of the bonds, as determined by the Commission. The last installment of project development financing debt instruments shall mature on the earlier of 30 years after the effective date of the development financing district for which the instruments are issued or the longest of the various maximum periods of usefulness for the projects to be financed with debt instrument proceeds, as prescribed by the Commission pursuant to this section."

(6) Bonds designated as qualified zone academy bonds pursuant to G.S. 115C-489.6, if the Local Government Commission determines that a private sale is in the best interest of the issuing unit.
(7) Project development financing debt instruments."

SECTION 9. G.S. 159-125(a) reads as rewritten:

"(a) Except for revenue bonds, bonds and project development financing debt instruments, no bid for less than ninety-eight percent (98%) of the face value of the bonds plus one hundred percent (100%) of accrued interest may be entertained.
Different rates of interest may be bid for bonds maturing in different years, but different rates of interest may not be bid for bonds maturing in the same year."

SECTION 10. G.S. 159-129 reads as rewritten:

"§ 159-129. Obligations of units certified by Commission.
Each bond or bond anticipation note that is represented by an instrument shall bear on its face or reverse a certificate signed by the secretary of the Commission or an assistant designated by him that the issuance of the bond or note has been approved under the provisions of The Local Government Bond Act of … the North Carolina Project Development Financing Act. Such signature may be a manual or facsimile signature as the Commission may determine. Each bond or bond anticipation note that is not represented by an instrument shall be evidenced by a writing relating to such obligation, which writing shall identify such obligation or the issue of which it is part, bear such certificate, and be on file with the Commission. The certificate shall be conclusive evidence that the requirements of this Subchapter have been observed, and no bond or note without the Commission’s certificate or with respect to which a writing bearing such certificate has not been filed with the Commission shall be valid."

SECTION 11. G.S. 159-132 reads as rewritten:

"§ 159-132. State Treasurer to deliver bonds and remit proceeds.
When the bonds are executed, they shall be delivered to the State Treasurer who shall deliver them to the order of the purchaser and collect the purchase price or proceeds. The Treasurer shall then pay from the proceeds any notes issued in anticipation of the sale of the bonds, deduct from the proceeds the Commission's expense in connection with the issue, and remit the net proceeds to the official depository of the unit after assurance that the deposit will be adequately secured as required by law. The proceeds of funding or refunding bonds may be deposited at the place of payment of the indebtedness to be refunded or funded for use solely in the payment of such indebtedness. The proceeds of revenue bonds shall be remitted to the trustee or other depository specified in the trust agreement or resolution securing them.
Unless otherwise provided in the trust agreement or resolution securing the debt instruments, the proceeds of project development financing debt instruments shall be remitted in the manner provided by this section for the remission of the proceeds of general obligation bonds.

SECTION 12. G.S. 159-160 reads as rewritten:
"§ 159-160. Definitions.
As used in this Part, the words 'unit' or 'issuing unit' means 'unit of local government' as defined in G.S. 159-44, 159-44 or G.S. 159-102, 'municipality' as defined in G.S. 159-81, and the State of North Carolina."

SECTION 13. G.S. 159-163.1 is reenacted and is rewritten to read:
"§ 159-163.1. Security of project development financing debt instrument anticipation notes.
Notes issued in anticipation of the sale of project development financing debt instruments are special obligations of the issuing unit. Except as provided in G.S. 159-107 and G.S. 159-110, neither the credit nor the taxing power of the issuing unit may be pledged for the payment of notes issued in anticipation of the sale of project development financing debt instruments. No holder of a project development financing debt instrument anticipation note has the right to compel the exercise of the taxing power by the issuing unit or the forfeiture of any of its property in connection with any default on the note. Notes issued in anticipation of the sale of project development financing debt instruments may be secured by the same pledges, charges, liens, covenants, and agreements made to secure the project development financing debt instruments. In addition, the proceeds of each project development financing debt instrument issue are pledged for the payment of any notes issued in anticipation of the sale of the instruments, and these notes shall be retired from the proceeds of the sale as the first priority."

SECTION 14. G.S. 159-165(b) reads as rewritten:
"(b) When the bond anticipation notes are executed, they shall be delivered to the State Treasurer who shall deliver them to the order of the purchaser and collect the purchase price or proceeds. The Treasurer shall then deduct from the proceeds the Commission's expense in connection with the issue, and remit the net proceeds to the official depository of the unit after assurance that the deposit will be adequately secured as required by law. The net proceeds of revenue bond anticipation notes or special obligation bond anticipation notes, or project development financing debt instrument anticipation notes shall be remitted to the trustee or other depository specified in the trust agreement or resolution securing them. If the notes have been issued to renew outstanding notes, the Treasurer, in lieu of collecting the purchase price or proceeds, may provide for the exchange of the newly issued notes for the notes to be renewed."

SECTION 15. G.S. 159-176 reads as rewritten:
"§ 159-176. Commission to aid defaulting units in developing refinancing plans.
If a unit of local government or municipality (as defined in G.S. 159-44 or 159-81) (as defined in G.S. 159-44, 159-81, or 159-102) fails to pay any installment of principal or interest on its outstanding debt on or before the due date (whether the debt is evidenced by general obligation bonds, revenue bonds, project development financing debt instruments, bond anticipation notes, tax anticipation notes, or revenue anticipation notes) and remains in default for 90 days, the Commission may take such action as it deems advisable to investigate the unit's or municipality's fiscal affairs, consult with its governing board, and negotiate with its creditors in order to assist the unit or
municipality in working out a plan for refinancing, adjusting, or compromising the debt. When a plan is developed that the Commission finds to be fair and equitable and reasonably within the ability of the unit or municipality to meet, the Commission shall enter an order finding that it is fair, equitable, and within the ability of the unit or municipality to meet. The Commission shall then advise the governing board to take the necessary steps to implement it. If the governing board declines or refuses to do so within 90 days after receiving the Commission's advice, the Commission may enter an order directing the governing board to implement the plan. When this order is entered, the members of the governing board and all officers and employees of the unit or municipality shall be under an affirmative duty to do all things necessary to implement the plan. The Commission may apply to the appropriate division of the General Court of Justice for a court order to the governing board and other officers and employees of the unit or municipality to enforce the Commission's order."

SECTION 16. G.S. 160A-505(a) reads as rewritten:
"(a) In lieu of creating a redevelopment commission as authorized herein, the governing body of any municipality may, if it deems wise, either designate a housing authority created under the provisions of Chapter 157 of the General Statutes to exercise the powers, duties, and responsibilities of a redevelopment commission as prescribed herein, or undertake to exercise such powers, duties, and responsibilities itself. Any such designation shall be by passage of a resolution adopted in accordance with the procedure and pursuant to the findings specified in G.S. 160A-504(a) and (b). In the event a governing body designates itself to perform the powers, duties, and responsibilities of a redevelopment commission, then where any act or proceeding is required to be done, recommended, or approved both by a redevelopment commission and by the municipal governing body, then the performance, recommendation, or approval thereof once by the municipal governing body shall be sufficient to make such performance, recommendation, or approval valid and legal. In the event a municipal governing body designates itself to exercise the powers, duties, and responsibilities of a redevelopment commission, it may assign the administration of redevelopment policies, programs and plans to any existing or new department of the municipality."

SECTION 17. G.S. 160A-512(6) reads as rewritten:
"(6) Within its area of operation, to purchase, obtain options upon, acquire by gift, grant, bequest, devise, eminent domain or otherwise, any real or personal property or any interest therein, together with any improvements thereon, necessary or incidental to a redevelopment project; to hold, improve, clear or prepare for redevelopment any such property, and notwithstanding the provisions of G.S. 160A-50, subject to the provisions of G.S. 160A-514, and with the approval of the local governing body sell, exchange, transfer, assign, subdivide, retain for its own use, mortgage, pledge, hypothecate or otherwise encumber or dispose of any real or personal property or any interest therein, either as an entirety to a single 'redeveloper' or in parts to several redevelopers; provided that the commission finds that the sale or other transfer of any such part will not be prejudicial to the sale of other parts of the redevelopment area, nor in any other way prejudicial to the realization of the redevelopment plan approved by the governing body; to enter into contracts, either before or after the real
property that is the subject of the contract is acquired by the Commission (although disposition of the property is still subject to G.S. 160A-514), with ‘redevelopers’ of property containing covenants, restrictions, and conditions regarding the use of such property for residential, commercial, industrial, recreational purposes or for public purposes in accordance with the redevelopment plan and such other covenants, restrictions and conditions as the commission may deem necessary to prevent a recurrence of blighted areas or to effectuate the purposes of this Article; to make any of the covenants, restrictions or conditions of the foregoing contracts covenants running with the land, and to provide appropriate remedies for any breach of any such covenants or conditions, including the right to terminate such contracts and any interest in the property created pursuant thereto; to borrow money and issue bonds therefor and provide security for bonds; to insure or provide for the insurance of any real or personal property or operations of the commission against any risks or hazards, including the power to pay premiums on any such insurance; and to enter into any contracts necessary to effectuate the purposes of this Article;”.

SECTION 18. G.S. 160A-515.1 is reenacted and is rewritten to read:

"§ 160A-515.1. Project development financing.

(a) Authorization. – A city may finance a redevelopment project and any related public improvements with the proceeds of project development financing debt instruments, issued pursuant to Article 6 of Chapter 159 of the General Statutes, together with any other revenues that are available to the city. Before it receives the approval of the Local Government Commission for issuance of project development financing debt instruments, the city’s governing body must define a development financing district and adopt a development financing plan for the district. The city may act jointly with a county to finance a project, define a development financing district, and adopt a development financing plan for the district.

(b) Development Financing District. – A development financing district shall comprise all or portions of one or more redevelopment areas defined pursuant to this Article. The total land area within development financing districts in a city, including development financing districts created pursuant to G.S. 158-7.3, may not exceed five percent (5%) of the total land area of the city.

(c) Development Financing Plan. – The development financing plan must be compatible with the redevelopment plan or plans for the redevelopment area or areas included within the district. The development financing plan must include all of the following:

(1) A description of the boundaries of the development financing district.

(2) A description of the proposed development of the district, both public and private.

(3) The costs of the proposed public activities.

(4) The sources and amounts of funds to pay for the proposed public activities.

(5) The base valuation of the development financing district.

(6) The projected incremental valuation of the development financing district.

(7) The estimated duration of the development financing district.
(8) A description of how the proposed development of the district, both public and private, will benefit the residents and business owners of the district in terms of jobs, affordable housing, or services.

(9) A description of the appropriate ameliorative activities which will be undertaken if the proposed projects have a negative impact on residents or business owners of the district in terms of jobs, affordable housing, services, or displacement.

(10) A requirement that the initial users of any new manufacturing facilities that will be located in the district and that are included in the plan will comply with the wage requirements in subsection (d) of this section.

(d) Wage Requirements. – A development financing plan shall include a requirement that the initial users of a new manufacturing facility to be located in the district and included in the plan must pay its employees an average weekly manufacturing wage that is either above the average manufacturing wage paid in the county in which the district will be located or not less than ten percent (10%) above the average weekly manufacturing wage paid in the State. The plan may include information on the wages to be paid by the initial users of a new manufacturing facility to its employees and any provisions necessary to implement the wage requirement. The issuing unit’s governing body shall not adopt a plan until the Secretary of Commerce certifies that the Secretary has reviewed the average weekly manufacturing wage required by the plan to be paid to the employees of a new manufacturing facility and has found either (i) that the wages proposed by the initial users of a new manufacturing facility are in compliance with the amount required by this subsection or (ii) that the plan is exempt from the requirement of this subsection. The Secretary of Commerce may exempt a plan from the requirement of this subsection if the Secretary receives a resolution from the issuing unit’s governing body requesting an exemption from the wage requirement and a letter from an appropriate State official, selected by the Secretary, finding that unemployment in the county in which the proposed district is to be located is especially severe. Upon the creation of the district, the unit of local government proposing the creation of the district shall take any lawful actions necessary to require compliance with the applicable wage requirement by the initial users of any new manufacturing facility included in the plan; however, failure to take such actions or obtain such compliance shall not affect the validity of any proceedings for the creation of the district, the existence of the district, or the validity of any debt instruments issued under Article 6 of Chapter 159 of the General Statutes. All findings and determinations made by the Secretary of Commerce under this subsection shall be binding and conclusive. For purposes of this section, the term 'manufacturing facility' means any facility that is used in the manufacturing or production of tangible personal property, including the processing resulting in a change in the condition of the property.

(e) County Review. – Before adopting a plan for a development financing district, the city council shall send notice of the plan, by first-class mail, to the board of county commissioners of the county or counties in which the development financing district is located. The person mailing the notice shall certify that fact, and the date thereof, to the city council, and the certificate is conclusive in the absence of fraud. Unless the board of county commissioners (or either board, if the district is in two counties) by resolution disapproves the proposed plan within 28 days after the date the notice is mailed, the city council may proceed to adopt the plan.

(f) Environmental Review. – Before adopting a plan for development financing districts, the city council shall submit the plan to the Secretary of Environment and
Natural Resources to review to determine if the construction and operation of any new manufacturing facility in the district will have a materially adverse effect on the environment and whether the company that will operate the facility has operated in substantial compliance with federal and State laws, regulations, and rules for the protection of the environment. If the Secretary finds that the new manufacturing facility will not have a materially adverse effect on the environment and that the company that will operate the facility has operated other facilities in compliance with environmental requirements, the Secretary shall approve the plan. In making the determination on environmental impact, the Secretary shall use the same criteria that apply to the determination under G.S. 159C-7 of whether an industrial project will have a materially adverse effect on the environment. The findings of the Secretary are conclusive and binding.

(g) Plan Adoption. – Before adopting a plan for a development financing district, the city council shall hold a public hearing on the plan. The council shall, no less than 30 days before the day of hearing, cause notice of the hearing to be mailed by first-class mail to all property owners and mailing addresses within the proposed development financing district. The council shall also, no more than 30 days and no less than 14 days before the day of the hearing, cause notice of the hearing to be published once in a newspaper of general circulation in the city. The notice shall state the time and place of the hearing, shall specify its purpose, and shall state that a copy of the proposed plan is available for public inspection in the office of the city clerk. At the public hearing, the council shall hear anyone who wishes to speak with respect to the proposed district and proposed plan. Unless a board of county commissioners or the Secretary of Environment and Natural Resources has disapproved the plan pursuant to subsection (e) or (f) of this section, the council may adopt the plan, with or without amendment, at any time after the public hearing. However, the plan and the district do not become effective until the city’s application to issue project development financing debt instruments has been approved by the Local Government Commission, pursuant to Article 6 of Chapter 159 of the General Statutes.

(h) Plan Modification. – Subject to the limitations of this subsection, a city council may, after the effective date of the district, amend a development financing plan adopted for a development financing district. Before making any amendment, the city council shall follow the procedures and meet the requirements of subsections (d) through (g) of this section. The boundaries of the district may be enlarged only during the first five years after the effective date of the district and only if the area to be added has been or is about to be developed and the development is primarily attributable to development that has occurred within the district, as certified by the Local Government Commission. The boundaries of the district may be reduced at any time, but the city may agree with the holders of any project development financing debt instruments to restrict its power to reduce district boundaries.

(i) Plan Implementation. – In implementing a development financing plan, a city may act directly, through a redevelopment commission, through one or more contracts with private agencies, or by any combination of these.

SECTION 19. G.S. 158-7.3 is reenacted and rewritten to read:

"§ 158-7.3. Development financing.  
(a) Definitions. – The following definitions apply in this section:
 (1) Development project. – A capital project that includes capital expenditures by both private persons and one or more units of local government and that increases net employment opportunities for
residents of the development district or within a two-mile radius of the project, whichever is larger, and increases the local government tax base.

If the district in which such a project will occur is outside a city's central business district (as that district is defined by resolution of the city council, which definition is binding and conclusive), then, of the private development forecast for a development project by the development financing plan for the district in which the project will occur, a maximum of twenty percent (20%) of the plan's estimated square footage of floor space may be proposed for use in retail sales, hotels, banking, and financial services offered directly to consumers, and other commercial uses other than office space.

(2) Publish. – Insertion in a newspaper qualified under G.S. 1-597 to publish legal advertisements in the county or counties in which the unit is located.

(3) Unit or unit of local government. – A county, city, town, or incorporated village.

(b) Authorization. – A unit of local government may finance public improvements that are part of a development project with the proceeds of project development financing debt instruments, issued pursuant to Article 6 of Chapter 159 of the General Statutes, together with any other revenues that are available to the unit. Before it receives the approval of the Local Government Commission for issuance of project development financing debt instruments, the unit's governing body must define a development financing district and adopt a development financing plan for the district. The county may act jointly with a city to finance a project, define a development financing district that is within the city, and adopt a development financing plan for the district.

(c) Development Financing District. – A development financing district created pursuant to this section must be comprised of property that is one or more of the following:

(1) Blighted, deteriorated, deteriorating, undeveloped, or inappropriately developed from the standpoint of sound community development and growth.

(2) Appropriate for rehabilitation or conservation activities.

(3) Appropriate for the economic development of the community.

The total land area within development financing districts in a unit, including development financing districts created pursuant to G.S. 160A-515.1, may not exceed five percent (5%) of the total land area of the unit. A county may not include in a district created pursuant to this section any land that, at the time the district is created, is inside a city, town, or incorporated village.

(d) Development Financing Plan. – The development financing plan must include all of the following:

(1) A description of the boundaries of the development financing district.

(2) A description of the proposed development of the district, both public and private.

(3) The costs of the proposed public activities.

(4) The sources and amounts of funds to pay for the proposed public activities.

(5) The base valuation of the development financing district.
(6) The projected incremental valuation of the development financing district.

(7) The estimated duration of the development financing district.

(8) A description of how the proposed development of the district, both public and private, will benefit the residents and business owners of the district in terms of jobs, affordable housing, or services.

(9) A description of the appropriate ameliorative activities which will be undertaken if the proposed projects have a negative impact on residents or business owners of the district in terms of jobs, affordable housing, services, or displacement.

(10) A requirement that the initial users of any new manufacturing facilities that will be located in the district and that are included in the plan will comply with the wage requirements referred to in subsection (c) of this section.

(e) Wage Requirements. – A development financing plan shall include a requirement that the initial users of a new manufacturing facility to be located in the district and included in the plan must pay its employees an average weekly manufacturing wage that is either above the average manufacturing wage paid in the county in which the district will be located or not less than ten percent (10%) above the average weekly manufacturing wage paid in the State. The plan may include information on the wages to be paid by the initial users of a new manufacturing facility to its employees and any provisions necessary to implement the wage requirement. The issuing unit's governing body shall not adopt a plan until the Secretary of Commerce certifies that the Secretary has reviewed the average weekly manufacturing wage required by the plan to be paid to the employees of a new manufacturing facility and has found either (i) that the wages proposed by the initial users of a new manufacturing facility are in compliance with the amount required by this subsection or (ii) that the plan is exempt from the requirement of this subsection. The Secretary of Commerce may exempt a plan from the requirement of this subsection if the Secretary receives a resolution from the issuing unit's governing body requesting an exemption from the wage requirement and a letter from an appropriate State official, selected by the Secretary, finding that unemployment in the county in which the proposed district is to be located is especially severe. Upon the creation of the district, the unit of local government proposing the creation of the district shall take any lawful actions necessary to require compliance with the applicable wage requirement by the initial users of any new manufacturing facility included in the plan; however, failure to take such actions or obtain such compliance shall not affect the validity of any proceedings for the creation of the district, the existence of the district, or the validity of any debt instruments issued under Article 6 of Chapter 159 of the General Statutes. All findings and determinations made by the Secretary of Commerce under this subsection shall be binding and conclusive. For purposes of this section, the term 'manufacturing facility' means any facility that is used in the manufacturing or production of tangible personal property, including the processing resulting in a change in the condition of the property.

(f) County Review. – If the unit creating a development financing district and adopting a development financing plan is a city, town, or incorporated village, before adopting the plan the unit's governing body shall send notice of the plan, by first-class mail, to the board of county commissioners of the county or counties in which the development financing district is located. The person mailing the notice shall certify that fact, and the date thereof, to the governing body, and the certificate is conclusive in
the absence of fraud. Unless the board of county commissioners (or either board, if the district is in two counties) by resolution disapproves the proposed plan within 28 days after the date the notice is mailed, the governing body may proceed to adopt the plan.

(g) Environmental Review. – Before adopting a plan for development financing districts, the issuing unit's governing body shall submit the plan to the Secretary of Environment and Natural Resources to review to determine if the construction and operation of any new manufacturing facility in the district will have a materially adverse effect on the environment and whether the company that will operate the facility has operated in substantial compliance with federal and State laws, regulations, and rules for the protection of the environment. If the Secretary finds that the new manufacturing facility will not have a materially adverse effect on the environment and that the company that will operate the facility has operated other facilities in compliance with environmental requirements, the Secretary shall approve the plan. In making the determination on environmental impact, the Secretary shall use the same criteria that apply to the determination under G.S. 159C-7 of whether an industrial project will have a materially adverse effect on the environment. The findings of the Secretary are conclusive and binding.

(h) Plan Adoption. – Before adopting a plan for a development financing district, the issuing unit's governing body shall hold a public hearing on the plan. The governing body shall, no more than 30 days and no less than 14 days before the day of the hearing, cause notice of the hearing to be published once and shall cause notice of the hearing to be mailed, by first-class mail, to all property owners and mailing addresses of the development financing district and to the governing body of any special district, as defined by G.S. 159-7, within which the development financing district is located. The notice shall state the time and place of the hearing, shall specify its purpose, and shall state that a copy of the proposed plan is available for public inspection in the office of the unit's clerk. At the public hearing, the governing body shall hear anyone who wishes to speak with respect to the proposed district and proposed plan. Unless a board of county commissioners or the Secretary of Environment and Natural Resources has disapproved the plan pursuant to subsection (f) or (g) of this section, the governing body may adopt the plan, with or without amendment, at any time after the public hearing. However, the plan and the district do not become effective until the unit's application to issue project development financing debt instruments has been approved by the Local Government Commission, pursuant to Article 6 of Chapter 159 of the General Statutes.

(i) Plan Modification. – Subject to the limitations of this subsection, a governing body may, after the effective date of the district, amend a development financing plan adopted for a development financing district. Before making any amendment, the governing body shall follow the procedures and meet the requirements of subsections (e) through (h) of this section. The boundaries of the district may be enlarged only during the first five years after the effective date of the district and only if the area to be added has been or is about to be developed and the development is primarily attributable to development that has occurred within the district, as certified by the Local Government Commission. The boundaries of the district may be reduced at any time, but the unit may agree with the holders of any project development financing debt instruments to restrict its power to reduce district boundaries.

(j) Plan Implementation. – In implementing a development financing plan, a unit may act directly, through one or more contracts with other public agencies, through one or more contracts with private agencies, or by any combination thereof."
SECTION 20. G.S. 105-284 is amended by adding a new subsection to read:

"(d) Property that is in a development financing district and that is subject to an agreement entered into pursuant to G.S. 159-108 shall be assessed at its true value or at the minimum value set out in the agreement, whichever is greater."

SECTION 21. G.S. 105-277.11 is reenacted and rewritten to read:

"§ 105-277.11. Taxation of property subject to a development financing district agreement.

§ 50B-3.1.  Surrender and disposal of firearms; violations; exemptions.

(a) Required Surrender of Firearms. – Upon issuance of an emergency or ex parte order pursuant to this Chapter, the court shall order the defendant to surrender to the sheriff all firearms, machine guns, ammunition, permits to purchase firearms, and permits to carry concealed firearms that are in the care, custody, possession, ownership, or control of the defendant if the court finds any of the following factors:

(2) Threats to seriously injure or kill the aggrieved party or minor child by the defendant.
(3) Threats to commit suicide by the defendant. 

(4) Serious injuries inflicted upon the aggrieved party or minor child by the defendant. 

(b) Ex Parte or Emergency Hearing. – The court shall inquire of the plaintiff, at the ex parte or emergency hearing, the presence of, ownership of, or otherwise access to firearms by the defendant, as well as ammunition, permits to purchase firearms, and permits to carry concealed firearms, and include, whenever possible, identifying information regarding the description, number, and location of firearms, ammunition, and permits in the order. 

(c) Ten-Day Hearing. – The court, at the 10-day hearing, shall inquire of the defendant the presence of, ownership of, or otherwise access to firearms by the defendant, as well as ammunition, permits to purchase firearms, and permits to carry concealed firearms, and include, whenever possible, identifying information regarding the description, number, and location of firearms, ammunition, and permits in the order. 

(d) Surrender. – Upon service of the order, the defendant shall immediately surrender to the sheriff possession of all firearms, machine guns, ammunition, permits to purchase firearms, and permits to carry concealed firearms that are in the care, custody, possession, ownership, or control of the defendant. In the event that weapons cannot be surrendered at the time the order is served, the defendant shall surrender the firearms, ammunition, and permits to the sheriff within 24 hours of service at a time and place specified by the sheriff. The sheriff shall store the firearms or contract with a licensed firearms dealer to provide storage. 

(1) If the court orders the defendant to surrender firearms, ammunition, and permits, the court shall inform the plaintiff and the defendant of the terms of the protective order and include these terms on the face of the order, including that the defendant is prohibited from owning, possessing, purchasing, or receiving or attempting to own, possess, purchase, or receive a firearm for so long as the protective order or any successive protective order is in effect. The terms of the order shall include instructions as to how the defendant may request retrieval of any firearms, ammunition, and permits surrendered to the sheriff when the protective order is no longer in effect. The terms shall also include notice of the penalty for violation of G.S. 14-269.8.

The defendant must remit all fees owed prior to the authorized return of any firearms, ammunition, or permits. The sheriff shall not incur any civil or criminal liability for alleged damage or deterioration due to storage or transportation of any firearms or ammunition held pursuant to this section.
(e) Retrieval. – If the court does not enter a protective order when the ex parte or emergency order expires, the defendant may retrieve any weapons surrendered to the sheriff unless the court finds that the defendant is precluded from owning or possessing a firearm pursuant to State or federal law.

Upon receipt of the third party's motion, the court shall schedule a hearing and provide written notice to all parties and the sheriff. The court shall order return of the items to the third party unless the court determines that the third party is disqualified from owning or possessing said items pursuant to State or federal law. If the court denies the return of said items to the third party, the items shall be disposed of by the sheriff as provided in subsection (h) of this section.

(h) Disposal of Firearms. – If the defendant does not file a motion requesting the return of any firearms, ammunition, or permits surrendered within the time period prescribed by this section, if the court determines that the defendant is precluded from regaining possession of any firearms, ammunition, or permits surrendered, or if the defendant or third-party owner fails to remit all fees owed for the storage of the firearms or ammunition within 30 days of the entry of the order granting the return of the firearms, ammunition, or permits, the sheriff who has control of the firearms, ammunition, or permits shall give notice to the defendant, and the sheriff shall apply to the court for an order of disposition of the firearms, ammunition, or permits. The judge, after a hearing, may order the disposition of the firearms, ammunition, or permits in one or more of the ways authorized by subdivision (4), (4a), (5), or (6) of G.S. 14-269.1. (k) Official Use Exemption. – This section shall not prohibit law enforcement officers and members of any branch of the United States armed forces, not otherwise prohibited under federal law, from possessing or using firearms for official use only.

(l) Nothing in this section is intended to limit the discretion of the court in granting additional relief as provided in other sections of this Chapter.

S.B. 872 Session Law 2003-411

AN ACT TO INCREASE PROTECTIONS FOR TELEPHONE SUBSCRIBERS WHO WISH TO STOP UNWANTED TELEPHONE SOLICITATIONS AND FOR CONSUMERS WHO ENTER INTO TELEMARKETING TRANSACTIONS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 75-30 is repealed.

SECTION 2. G.S. 75-30.1 is repealed.
SECTION 3. Chapter 75 of the General Statutes is amended by adding a new Article to read:

"Article 4.
"Telephone Solicitations.

§ 75-100. Findings.
The General Assembly finds all of the following:

(1) The use of the telephone to market goods and services to the home is now pervasive due to the increased use of cost-effective telephone solicitation technologies and techniques.

(2) While some consumers enjoy and benefit from telephone solicitations from legitimate telephone solicitors, many others object to these telephone solicitations as an intrusive invasion of their privacy in the home.

(3) In addition, the proliferation of telephone solicitations, especially during the evening hours, creates a nuisance and a disturbance upon the home and family life of telephone subscribers during a time of day used by many families for traditional family activities.

(4) North Carolina residents should have the freedom to choose whether or not to permit telephone solicitors to contact them.

(5) Individual privacy rights, personal safety, prevention of fraud, and commercial freedom of speech and trade must be balanced in a way that protects the privacy of individuals and permits legitimate telephone solicitation practices.

(6) Legitimate telephone solicitors have no interest in continuing to invade the privacy of those telephone subscribers who affirmatively express their desires to receive no further telephone solicitations.

(7) Many telephone subscribers who have transacted business with firms that employ telephone solicitations have experienced problems with their checking and credit card accounts being debited before they can evaluate the terms and conditions of the transaction, before they can evaluate the merchandise or service to be delivered, or without their agreement to enter into the transaction or authorize such transactions in the first place. Other telephone subscribers have had unauthorized charges placed on their telephone bill and have had their long-distance carrier switched without their authorization as a result of telephone solicitations.

(8) New technologies that make telephone solicitations more cost-effective also allow for the creation of a 'Do Not Call' Registry through which North Carolina consumers can easily register their desires not to receive further telephone solicitations and telephone solicitors can easily access and employ lists of consumers who have registered those desires.

(9) The public interest requires an efficient mechanism for telephone subscribers to notify telephone solicitors that their telephone numbers cannot be called and additional protections for North Carolina residents who enter into consumer transactions initiated through telephone solicitations.

The General Assembly of North Carolina enacts:

SECTION 1. Article 1 of Chapter 75 of the General Statutes is amended by adding new sections to read:

"§ 75-36. Declaration of State public policy.

It is the public policy of this State to protect its citizens from price gouging during states of disaster. The State also realizes the difficulty in regulating prices while not defeating the ability of the market in goods and services from bringing supply back in balance with demand and not defeating the function of price in allocating scarce resources.

"§ 75-36.1. Prohibit excessive pricing during states of disaster.

(a) It shall be a violation of G.S. 75-1.1 for any person to sell or rent or offer to sell or rent at retail during a state of disaster, in the area for which the state of disaster has been declared, any merchandise or services which are consumed or used as a direct result of an emergency or which are consumed or used to preserve, protect, or sustain life, health, safety, or comfort of persons or their property with the knowledge and intent to charge a price that is unreasonably excessive under the circumstances. In determining whether a price is unreasonably excessive, it shall be considered whether:

(1) The price charged by the seller is attributable to additional costs imposed by the seller's supplier or other costs of providing the good or service during the state of disaster; and

(2) The seller offered to sell or rent the merchandise or service at a price that was below the seller's average price in the preceding 60 days before the state of disaster.

If the seller did not sell or rent or offer to sell or rent the merchandise or service in question prior to the time the state of disaster was declared, the price at which the merchandise or service was generally available in the trade area shall be used as a factor in determining if the seller is charging an unreasonably excessive price.

(b) In the event the Attorney General investigates a complaint for a violation of this section and determines that the seller has not violated the provisions of this section and if the seller so requests, the Attorney General shall promptly issue a signed statement indicating that the Attorney General has not found a violation of this section.
For the purposes of this section, the end of a state of disaster is the earlier of 45 days or the termination of a natural or man-made disaster or emergency as declared in accordance with G.S. 166A-6 or G.S. 166A-8.

SECTION 2. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 16th day of July, 2003.

SECTION 3. G.S. 105-163.011 reads as rewritten:

"§ 105-163.011. Tax credits allowed.

(a) No Credit for Brokered Investments. – No credit is allowed under this section for a purchase of equity securities or subordinated debt if a broker's fee or commission or other similar remuneration is paid or given directly or indirectly for soliciting the purchase.

(b) Individuals. – Subject to the limitations contained in G.S. 105-163.012, an individual who purchases the equity securities or subordinated debt of a qualified business venture or a qualified grantee business directly from that business is allowed as a credit against the tax imposed by Part 2 of this Article for the taxable year an amount equal to twenty-five percent (25%) of the amount invested. The aggregate amount of credit allowed an individual for one or more investments in a single taxable year under this Part, whether directly or indirectly as owner of a pass-through entity, may not exceed fifty thousand dollars ($50,000). The credit may not be taken for the year in which the investment is made but shall be taken for the taxable year beginning during the calendar year in which the application for the credit becomes effective as provided in subsection (c) of this section.

(b1) Pass-Through Entities. – This subsection does not apply to a pass-through entity that has committed capital under management in excess of five million dollars ($5,000,000) or to a pass-through entity that is a qualified grantee business, a qualified business venture, or a North Carolina Enterprise Corporation. Subject to the limitations provided in G.S. 105-163.012, a pass-through entity that purchases the
equity securities or subordinated debt of a qualified grantee business or a qualified business venture directly from the business is eligible for a tax credit equal to twenty-five percent (25%) of the amount invested. The aggregate amount of credit allowed a pass-through entity for one or more investments in a single taxable year under this Part, whether directly or indirectly as owner of another pass-through entity, may not exceed seven hundred fifty thousand dollars ($750,000). The pass-through entity is not eligible for the credit for the year in which the investment by the pass-through entity is made but shall be eligible for the credit for the taxable year beginning during the calendar year in which the application for the credit becomes effective as provided in subsection (c) of this section.

Each individual who is an owner of a pass-through entity is allowed as a credit against the tax imposed by Part 2 of this Article for the taxable year an amount equal to the owner's allocated share of the credits for which the pass-through entity is eligible under this subsection. The aggregate amount of credit allowed an individual for one or more investments in a single taxable year under this Part, whether directly or indirectly as owner of a pass-through entity, may not exceed fifty thousand dollars ($50,000).

If an owner's share of the pass-through entity's credit is limited due to the maximum allowable credit under this section for a taxable year, the pass-through entity and its owners may not reallocate the unused credit among the other owners.

(c) Application. – To be eligible for the tax credit provided in this section, the taxpayer must file an application for the credit with the Secretary on or before April 15 of the year following the calendar year in which the investment was made. The Secretary may grant extensions of this deadline, as the Secretary finds appropriate, upon the request of the taxpayer, except that the application may not be filed after September 15 of the year following the calendar year in which the investment was made. An application is effective for the year in which it is timely filed. The application shall be on a form prescribed by the Secretary and shall include any supporting documentation that the Secretary may require. If an investment for which a credit is applied for was paid for other than in money, the taxpayer shall include with the application a certified appraisal of the value of the property used to pay for the investment. The application for a credit for an investment made by a pass-through entity must be filed by the pass-through entity.

(d) Penalties. – The penalties provided in G.S. 105-236 apply in this Part.

SECTION 4. G.S. 105-163.012(d) reads as rewritten:

"(d) The taxpayer's basis in the equity securities or subordinated debt acquired as a result of an investment in a qualified business venture or qualified grantee-business shall be reduced for the purposes of this Article by the amount of allowable credit. 'Allowable credit' means the amount of credit allowed under G.S. 105-163.011 reduced as provided in subsection (c) of this section."

SECTION 5. G.S. 105-163.013 reads as rewritten:

"§ 105-163.013. Registration.

(a) Repealed by Session Laws 1993, c. 443, s. 4.

(b) Qualified Business Ventures. – In order to qualify as a qualified business venture under this Part, a business must be registered with the Securities Division of the Department of the Secretary of State. To register, the business must file with the Secretary of State an application and any supporting documents the Secretary of State may require from time to time to determine that the business meets the requirements for registration as a qualified business venture. A business meets the requirements for
registration as a qualified business venture if all of the following are true as of the date the business files the required application:

(1a) Reserved for future codification purposes.
(1b) Either (i) it was organized after January 1 of the calendar year in which its application is filed or (ii) during its most recent fiscal year before filing the application, it had gross revenues, as determined in accordance with generally accepted accounting principles, of five million dollars ($5,000,000) or less on a consolidated basis.

(3) It is organized to engage primarily in manufacturing, processing, warehousing, wholesaling, research and development, or a service-related industry.
(4) It does not engage as a substantial part of its business in any of the following:

   b. Construction or contracting.
   c. Selling or leasing at retail.

(5) It was not formed for the primary purpose of acquiring all or part of the stock or assets of one or more existing businesses.
(6) It is not a real estate-related business.

The effective date of registration for a qualified business venture whose application is accepted for registration is 60 days before the date its application is filed. No credit is allowed under this Part for an investment made before the effective date of the registration or after the registration is revoked. For the purpose of this Article, if a taxpayer's investment is placed initially in escrow conditioned upon other investors' commitment of additional funds, the date of the investment is the date escrowed funds are transferred to the qualified business venture free of the condition.

To remain qualified as a qualified business venture, the business must renew its registration annually as prescribed by rule by filing a financial statement for the most recent fiscal year showing gross revenues, as determined in accordance with generally accepted accounting principles, of five million dollars ($5,000,000) or less on a consolidated basis and an application for renewal in which the business certifies the facts required in the original application.

Failure of a qualified business venture to renew its registration by the applicable deadline shall result in revocation of its registration effective as of the next day after the renewal deadline, but shall not result in forfeiture of tax credits previously allowed to taxpayers who invested in the business except as provided in G.S. 105-163.014. The Secretary of State shall send the qualified business venture notice of revocation within 60 days after the renewal deadline. A qualified business venture may apply to have its
registration reinstated by the Secretary of State by filing an application for reinstatement, accompanied by the reinstatement application fee and a late filing penalty of one thousand dollars ($1,000), within 30 days after receipt of the revocation notice from the Secretary of State. A business that seeks approval of a new application for registration after its registration has been revoked must also pay a penalty of one thousand dollars ($1,000). A registration that has been reinstated is treated as if it had not been revoked.

If the gross revenues of a qualified business venture exceed five million dollars ($5,000,000) in a fiscal year, the business must notify the Secretary of State in writing of this fact by filing a financial statement showing the revenues of the business for that year.

(b1) Qualified Licensee Businesses. – In order to qualify as a qualified licensee business under this Part, a business must be registered with the Securities Division of the Department of the Secretary of State. To register, the business must file with the Secretary of State an application and any supporting documents the Secretary of State may require from time to time to determine that the business meets the requirements for registration as a qualified licensee business. The requirements for registration as a qualified licensee business are set out in G.S. 105-163.010.

The effective date of registration for a qualified licensee business whose application is accepted for registration is the filing date of its application. No credit is allowed under this Part for an investment made before the effective date of the registration or after the registration is revoked.

To remain qualified as a qualified licensee business, the business must renew its registration annually as prescribed by rule by filing a financial statement for the most recent fiscal year showing gross revenues, as determined in accordance with generally accepted accounting principles, of one million dollars ($1,000,000) or less on a consolidated basis and an application for renewal in which the business certifies the facts required in the original application.

Failure of a qualified licensee venture to renew its registration by the applicable deadline results in revocation of its registration effective as of the next day after the renewal deadline, but does not result in forfeiture of tax credits previously allowed to taxpayers who invested in the business except as provided in G.S. 105-163.014. The Secretary of State shall send the qualified licensee business notice of revocation within 60 days after the renewal deadline. A qualified licensee business may apply to have its registration reinstated by the Secretary of State by filing an application for reinstatement, accompanied by the reinstatement application fee and a late filing penalty of one thousand dollars ($1,000), within 30 days after receipt of the revocation notice from the Secretary of State. A business that seeks approval of a new application for registration after its registration has been revoked must also pay a penalty of one thousand dollars ($1,000). A registration that has been reinstated is treated as if it had not been revoked.

If the gross revenues of a qualified business venture exceed one million dollars ($1,000,000) in a fiscal year, the business must notify the Secretary of State in writing of this fact by filing a financial statement showing the revenues of the business for that year.

(c) Qualified Grantee Businesses. – In order to qualify as a qualified grantee business under this Part, a business must be registered with the Securities Division of the Department of the Secretary of State. To register, the business must file with the Secretary of State an application and any supporting documents the Secretary of State
may require from time to time to determine that the business meets the requirements for registration as a qualified grantee business. The requirements for registration as a qualified grantee business are set out in G.S. 105-163.010.

The effective date of registration for a qualified grantee business whose application is accepted for registration is the filing date of its application. No credit is allowed under this Part for an investment made before the effective date of the registration or after the registration is revoked.

To remain qualified as a qualified grantee business, the business must renew its registration annually as prescribed by rule by filing an application for renewal in which the business certifies the facts listed in this subsection demonstrating that it continues to meet the applicable requirements for qualification.

(d) Application Forms; Rules; Fees. – Applications for registration, renewal of registration, and reinstatement of registration under this section shall be in the form required by the Secretary of State. The Secretary of State may, by rule, require applicants to furnish supporting information in addition to the information required by subsections (b), (b1), and (c) of this section. The Secretary of State may adopt rules in accordance with Chapter 150B of the General Statutes that are needed to carry out the Secretary's responsibilities under this Part. The Secretary of State shall prepare blank forms for the applications and shall distribute them throughout the State and furnish them on request. Each application shall be signed by the owners of the business or, in the case of a corporation, by its president, vice-president, treasurer, or secretary. There shall be annexed to the application the affirmation of the person making the application in the following form: "Under penalties prescribed by law, I certify and affirm that to the best of my knowledge and belief this application is true and complete." A person who submits a false application is guilty of a Class 1 misdemeanor.

The fee for filing an application for registration under this section is one hundred dollars ($100.00). The fee for filing an application for renewal of registration under this section is fifty dollars ($50.00). The fee for filing an application for reinstatement of registration under this section is fifty dollars ($50.00).

An application for renewal of registration under this section shall indicate whether the applicant is a minority business, as defined in G.S. 143-128, and shall include a report of the number of jobs the business created during the preceding year that are attributable to investments that qualify under this section for a tax credit and the average wages paid by each job. An application that does not contain this information is incomplete and the applicant's registration may not be renewed until the information is provided.

(e) Revocation of Registration. – If the Securities Division of the Department of the Secretary of State finds that any of the information contained in an application of a business registered under this section is false, it shall revoke the registration of the business. The Secretary of State shall not revoke the registration of a business solely because it ceases business operations for an indefinite period of time, as long as the business renews its registration each year as required under G.S. 105-163.013.

(f) Transfer of Registration. – A registration as a qualified business venture or qualified grantee business may not be sold or otherwise transferred, except that if a qualified business venture or qualified grantee business enters into a merger, conversion, consolidation, or other similar transaction with another business and the surviving company would otherwise meet the criteria for being a qualified business venture or qualified grantee business, the surviving company retains the registration
without further application to the Secretary of State. In such a case, the qualified business venture or qualified grantee business shall provide the Secretary of State with written notice of the merger, conversion, consolidation, or similar transaction and the name, address, and jurisdiction of incorporation or organization of the surviving company.

(g) Report by Secretary of State. – The Secretary of State shall report to the Revenue Laws Study Committee by October 1 of each year all of the businesses that have registered with the Secretary of State as qualified business ventures, qualified licensee businesses, and qualified grantee businesses. The report shall include the name and address of each business, the location of its headquarters and principal place of business, a detailed description of the types of business in which it engages, whether the business is a minority business as defined in G.S. 143-128, the number of jobs created by the business during the period covered by the report, and the average wages paid by these jobs.

SECTION 6. G.S. 105-163.014 reads as rewritten:

"§ 105-163.014. Forfeiture of credit.

(a) Participation in Business. – A taxpayer who has received a credit under this Part for an investment in a qualified business venture or qualified grantee business forfeits the credit if, within three years after the investment was made, the taxpayer participates in the operation of the qualified business venture or qualified grantee business. For the purpose of this section, a taxpayer participates in the operation of a qualified business venture or a qualified grantee business if the taxpayer, the taxpayer's spouse, parent, sibling, or child, or an employee of any of these individuals or of a business controlled by any of these individuals, provides services of any nature to the qualified business venture or qualified grantee business for compensation, whether as an employee, a contractor, or otherwise. However, a person who provides services to a qualified business venture or a qualified grantee business, whether as an officer, a member of the board of directors, or otherwise does not participate in its operation if the person receives as compensation only reasonable reimbursement of expenses incurred in providing the services, participation in a stock option or stock bonus plan, or both.

(b) False Application. – A taxpayer who has received a credit under this Part for an investment in a qualified business venture or qualified grantee business forfeits the credit if the registration of the qualified business venture or qualified grantee business is revoked because information in the registration application was false at the time the application was filed with the Secretary of State.

(c) Repealed by Session Laws 1996, Second Extra Session, c. 14, s. 7.

(d) Transfer or Redemption of Investment. – A taxpayer who has received a credit under this Part for an investment in a qualified business venture or a qualified grantee business forfeits the credit in the following cases:

(1) Within one year after the investment was made, the taxpayer transfers any of the securities received in the investment that qualified for the tax credit to another person or entity, other than in a transfer resulting from one of the following:
   a. The death of the taxpayer.
   b. A final distribution in liquidation to the owners of a taxpayer that is a corporation or other entity.
   c. A merger, conversion, consolidation, or similar transaction requiring approval by the owners of the qualified business venture or qualified grantee business under applicable State
law, to the extent the taxpayer does not receive cash or tangible property in the merger, conversion, consolidation, or other similar transaction.

(2) Except as provided in subsection (d1) of this section, within five years after the investment was made, the qualified business venture or qualified grantee-business in which the investment was made makes a redemption with respect to the securities received in the investment.

In the event the taxpayer transfers fewer than all the securities in a manner that would result in a forfeiture, the amount of the credit that is forfeited is the product obtained by multiplying the aggregate credit attributable to the investment by a fraction whose numerator equals the number of securities transferred and whose denominator equals the number of securities received on account of the investment to which the credit was attributable. In addition, if the redemption amount is less than the amount invested by the taxpayer in the securities to which the redemption is attributable, the amount of the credit that is forfeited is further reduced by multiplying it by a fraction whose numerator equals the redemption amount and whose denominator equals the aggregate amount invested by the taxpayer in the securities involved in the redemption. The term "redemption amount" means all amounts paid that are treated as a distribution in part or full payment in exchange for securities under section 302(a) of the Code.

(d1) Certain Redemptions Allowed. – Forfeiture of a credit does not occur under this section if a qualified business venture that engages primarily in motion picture film production makes a redemption with respect to securities received in an investment and the following conditions are met:

(1) The redemption occurred because the qualified business venture completed production of a film, sold the film, and was liquidated.

(2) Neither the qualified business venture nor a related person continues to engage in business with respect to the film produced by the qualified business venture.

(e) Effect of Forfeiture. – A taxpayer who forfeits a credit under this section is liable for all past taxes avoided as a result of the credit plus interest at the rate established under G.S. 105-241.1(i), computed from the date the taxes would have been due if the credit had not been allowed. The past taxes and interest are due 30 days after the date the credit is forfeited; a taxpayer who fails to pay the past taxes and interest by the due date is subject to the penalties provided in G.S. 105-236."

SECTION 7. G.S. 105-130.41(d) reads as rewritten:
"(d) Sunset. – This section is repealed effective for taxable years beginning on or after January 1, 2004."

SECTION 8. G.S. 105-151.22(d) reads as rewritten:

S.B. 168 Session Law 2003-418
AN ACT TO PROVIDE FOR THE CREATION OF ECONOMIC DEVELOPMENT AND TRAINING DISTRICTS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 16 of Chapter 153A of the General Statutes is amended by adding a new Part to read:
§ 153A-317.11. Purpose for which districts may be created.
The board of commissioners of any county may define a county economic development and training district, as provided in this Part, to finance, provide, and maintain for the district a skills training center in cooperation with its community college branch in or for the county to perform manufacturing, research and development, and related service and support jobs in the pharmaceutical, biotech, life sciences, chemical, telecommunications, and electronics industries, and allied, ancillary, and subordinate industries, to provide within the district
any of the education, training, and related services, facilities, or functions that a county or a city is authorized by general law to provide, finance, or maintain, and to promote economic development in the county. The skills training center and related services shall be financed, provided, or maintained in the district either in addition to or to a greater extent than training facilities and services are financed, provided, or maintained in the entire county.

(a) Standards. – The board of commissioners may by resolution establish an economic development and training district for an area or areas of the county that, at the time the resolution is adopted, meet the following standards:

(1) All of the real property in the district primarily is being used for, or is subject to, a declaration of covenants, conditions, and restrictions that limits its use primarily to biotech processing, pharmaceutical manufacturing, electronics manufacturing, telecommunications manufacturing, and any allied, ancillary, or subordinate uses including, without limitation, any research and development facility, headquarters or office, temporary lodging facility, restaurant, warehouse, or transportation or distribution facility.

(2) The district includes at least two pharmaceuticals manufacturing or bioprocessing facilities occupying sites in the district containing in the aggregate at least 425 acres owned by publicly held corporations.

(3) The bioprocessing and pharmaceuticals manufacturing facilities in the district employ in the aggregate at least 1,600 persons.

(4) The district includes an industrial park consisting of at least 60 acres within a noncontiguous parcel of at least 625 acres now or formerly owned by an airport authority.

(5) The district's zoning classifications permit the uses listed in this section.

(6) All real property in the district is either zoned for or is being used primarily for pharmaceutical, biotech, life sciences, chemical, telecommunications, or electronics manufacturing or processing or allied, ancillary, or subordinate uses.

(7) The district shall include a skills training center situated on a tract containing not less than eight acres, which facility shall be designed and staffed to provide relevant training to prepare existing or prospective employees of targeted industries for jobs in one or more of the pharmaceutical, biotech, life sciences, chemical, telecommunications, and electronics industries and allied, ancillary, or subordinate industries. The training center shall be completed within a reasonable period after the creation of the district.

(8) At the date of creation, no part of the district lies within the boundaries of any incorporated city or town.

(9) There exists a uniform set of covenants, conditions, restrictions, and reservations that applies to all real property in the district other than property owned by the federal, State, or local government.

(10) There exists in the district an association of owners and tenants to which owners of real property representing at least fifty percent (50%) of the assessed value of real property in the district belong, which
association can make the recommendations provided for in G.S. 153A-317.13.

(11) A petition requesting creation of the district signed by owners of real property in the district who own real and personal property representing at least fifty percent (50%) of the total assessed value of the real and personal property in the district has been presented to the board of commissioners. In determining the assessed value of real and personal property in the district and the owners of real property, there shall be excluded: (i) real property exempted from taxation and real property classified and excluded from taxation and (ii) the owners of such exempted or classified and excluded property. Assessed value shall mean the most recent values determined by the county for the imposition of taxes on real and personal property.

(b) Findings. – The board of commissioners may establish an economic development and training district if, upon the information and evidence it receives, the board determines that:

(1) The proposed district meets the standards set forth in subsection (a) of this section;

(2) Economic development of the county will be served by providing selected skills training in a facility designed specifically to address the needs of targeted industries such as pharmaceuticals, biotech processing, telecommunications, electronics, and allied, ancillary, or subordinate supplies or services to induce existing industries and targeted industries to improve and expand their facilities and new industries to locate facilities in the district, thereby providing employment opportunities for the residents of the county;

(3) It is impossible or impractical to provide training facilities and services on a countywide basis to all existing and future employers in the county to the same extent as such training services are intended to be furnished within the district; and

(4) It is economically feasible to provide the proposed training facilities and services in the district without unreasonable or burdensome tax levies.

(c) Report. – Before the public hearing required by subsection (d) of this section, the board of commissioners shall cause to be prepared a report containing all of the following:

(1) A map of the proposed district showing its proposed boundaries;

(2) A statement showing that the proposed district meets the standards set out in subsection (a) of this section;

(3) A plan for providing the skills training center and training services to the district.

The report shall be available for public inspection in the office of the clerk to the board for at least four weeks before the date of the public hearing.

(d) Hearing and Notice. – The board of commissioners shall hold a public hearing before adopting any resolution defining a district under this section. Notice of the hearing shall state the date, hour, and place of the hearing and its subject and shall include a map of the proposed district and a statement that the report required by subsection (c) of this section is available for public inspection in the office of the clerk to the board. The notice shall be published at least once not less than one week before
the date of the hearing. In addition, it shall be mailed at least four weeks before the date of the hearing by any class of U.S. mail which is fully prepaid to the owners as shown by the county tax records as of the preceding January 1 (and at the address shown thereon) of all property located within the proposed district. The person designated by the board to mail the notice shall certify to the board that the mailing has been completed, and the certificate shall be conclusive in the absence of fraud.

(c) Effective Date. – The resolution creating a district shall take effect at the beginning of the fiscal year commencing after its passage or such other date as shall be determined by the board of commissioners.

(a) Creation. – The board of commissioners, in the resolution establishing an economic development and training district, shall also provide for an advisory committee for the district. The committee shall consist of five members, serving terms as set forth in the resolution. The resolution shall provide for the appointment or designation of a chair. The board of commissioners shall appoint the members of the advisory committee as provided in this section.

(b) Membership. – Three of the five committee members shall represent the association of owners and tenants, as required by G.S. 153A-317.12(a)(10), and two members shall represent the county. Before making the appointments representing the association, the board of commissioners shall request the association to submit a list of persons to be considered for appointment to the committee. The association of owners and tenants shall submit at least two names for each appointment to be made and the board of commissioners shall make the appointments to the committee representing the association from the list of persons submitted to it by the association. Whenever a vacancy occurs on the committee in a position filled by an appointment by the board of commissioners representing the association of owners and tenants, the board, before filling the vacancy, shall request the association to submit the names of at least two persons to be considered for the vacancy, and the board shall fill the vacancy by appointing one of the persons so submitted.

(c) Advisory Duties. – Each year, before adopting the budget for the district and levying the tax for the district, the board shall request recommendations from the advisory committee as to the type and level of services, facilities, or functions to be provided for the district for the ensuing years. The board of commissioners shall, to the extent permitted by law, expend the proceeds of any tax levied for the district in the manner recommended by the advisory committee.

(a) Standards. – A board of commissioners may by resolution annex territory to an economic development and training district upon finding that:

(1) The conditions, covenants, restrictions, and reservations required by G.S. 153A-317.12(a)(1) that apply to all real property in the district, other than property owned by the federal, State, or local government, also apply or will apply to the property, other than property owned by the federal government, to be annexed.

(2) One hundred percent (100%) of the owners of real property in the area to be annexed have petitioned for annexation.

(3) The district, following the annexation, will continue to meet the standards set out in G.S. 153A-317.12(a).

(4) The reasonably anticipated training needs of the existing companies in the area to be annexed and of new companies that may locate within
the expanded area can be met by the skills training facility located in the district.

(5) The area to be annexed is either contiguous to a lot, parcel, or tract of land in the district or at least 500 acres in the aggregate counting all parcels proposed for annexation. A property shall, for purposes of this section, be deemed to be contiguous notwithstanding that it may be separated from other property by a street, road, highway, right-of-way, or easement.

(6) If any of the area proposed to be annexed to the district is wholly or partially within the extraterritorial jurisdiction of a municipality, then it shall be necessary to first obtain the affirmative vote of a majority of the members of the governing body of the municipality before the area can be annexed.

(b) Report. – Before the public hearing required by subsection (c) of this section, the board shall cause to be prepared a report containing all of the following:

(1) A map of the district and the territory proposed to be annexed showing the present and proposed boundaries of the district.

(2) A statement that the area to be annexed meets the standards and requirements of subsection (a) of this section.

The report shall be available for public inspection in the office of the clerk to the board for at least four weeks before the date of the public hearing.

(c) Hearing and Notice. – The board shall hold a public hearing before adopting any resolution extending the boundaries of a district. Notice of the hearing shall state the date, hour, and place of the hearing and its subject and shall include a statement that the report required by subsection (b) of this section is available for inspection in the office of the clerk to the board. The notice shall be published at least once not less than four weeks before the hearing. In addition, the notice shall be mailed at least four weeks before the date of the hearing by any class of U.S. mail which is fully prepaid to the owners as shown by the county tax records as of the preceding January 1 (and at the address shown thereon) of all property located within the area to be annexed. The person designated by the board to mail the notice shall certify to the board that the mailing has been completed, and the certificate shall be conclusive in the absence of fraud.

(d) Effective Date. – The resolution extending the boundaries of the district shall take effect at the beginning of the fiscal year commencing after its passage or such other date as shall be determined by the board.

§ 153A-317.15. Required provision or maintenance of skills training center.

(a) New District. – When a county creates a district, it shall provide, maintain, or let contracts for the skills training center for which the district is being taxed within a reasonable time, not to exceed one year, after the effective date of the creation of the district.

(b) Extended District. – When a territory is annexed to a district, the county shall provide, maintain, or let contracts for any necessary additions to the skills training center to provide the same training provided throughout the district to existing and new industries in the area annexed to the district within a reasonable time, not to exceed one year, after the effective date of the annexation.

A board of county commissioners may by resolution abolish a district upon finding that a petition requesting abolition, signed by at least fifty percent (50%) of the owners
of real property in the district who own at least fifty percent (50%) of the real and personal property in the district based upon the most recent valuation thereof, has been submitted to the board and that there is no longer a need for such district. In determining the total real and personal property in the district and the number of owners of real and personal property, there shall be excluded: (i) property exempted from taxation and property classified and excluded from taxation and (ii) the owners of such exempted or classified and excluded property. The board shall hold a public hearing before adopting a resolution abolishing a district. Notice of the hearing shall state the date, hour, and place of the hearing and its subject and shall be published at least once not less than one week before the date of the hearing. The abolition of any district shall take effect at the end of a fiscal year following passage of the resolution, as determined by the board.

A county may levy property taxes within an economic development and training district, in addition to those levied throughout the county, in order to finance, provide, or maintain for the district a skills training center provided therein in addition to or to a greater extent than worker training facilities provided for the entire county. In addition, a county may allocate to a district any other revenues whose use is not otherwise restricted by law. The proceeds of taxes within a district may be expended only to pay annual debt service on up to one million two hundred thousand dollars ($1,200,000) of the capital costs of a skills training center provided for the district and any other services or facilities provided by a county in response to a recommendation of an advisory committee.

Property subject to taxation in a newly established district or in an area annexed to an existing district is subject to taxation by the county as of the preceding January 1.

Such additional property taxes may not be levied within any district established pursuant to this Article in excess of a rate of eight cents (8¢) on each one hundred dollars ($100.00) value of property subject to taxation."

(e) The Crematory Authority shall select from its members a chairman, a vice chairman and a secretary who shall serve for one year or until their successors are elected and qualified. No two offices may be held by the same person. The Crematory Authority, with the concurrence of the Board, shall have the authority to engage adequate staff as deemed necessary to perform its duties.

(f) The Crematory Authority shall hold at least one meeting in each year. In addition, the Crematory Authority may meet as often as the proper and efficient discharge of its duties shall require. Five members shall constitute a quorum.

§ 90-210.43. Licensing and inspection.

(a) Any person doing business in this State, or any cemetery, funeral establishment, corporation, partnership, joint venture, voluntary organization or any other entity may erect, maintain and conduct a crematory in this State and may provide the necessary appliances and facilities for the cremation of human remains, provided that such person has secured a license as a crematory operator in accordance with the provisions of this Article.

(b) A crematory may be constructed on or adjacent to any cemetery, on or adjacent to any funeral establishment that is zoned commercial or industrial, or at any other location consistent with local zoning regulations.

(c) Application for a license as a crematory operator shall be made on forms furnished and prescribed by the Board. The Board shall examine the premises and structure to be used as a crematory and shall issue a renewable license to the crematory operator if the applicant meets all the requirements and standards of the Board and the requirements of this Article.

(d) Every application for licensure shall identify the individual who is responsible for overseeing the management and operation of the crematory. The crematory operator shall keep the Board informed at all times of the name and address of the manager.

(d1) All licenses shall expire on the last day of December of each year. A license may be renewed without paying a late fee on or before the first day of February immediately following expiration. After that date, a license may be renewed by paying a late fee as provided in G.S. 90-210.48 in addition to the annual renewal fee. Licenses that remain expired six months or more require a new application for renewal. Licenses are not transferable. A new application for a license shall be made to the Board within 30 days following a change of ownership of more than fifty percent (50%) of the business.

(e) No person, cemetery, funeral establishment, corporation, partnership, joint venture, voluntary organization or any other entity shall cremate any human remains, except in a crematory licensed for this express purpose and under the limitations provided in this Article, or unless otherwise permitted by statute.

(f) Whenever the Board finds that an owner, partner, manager, member, or officer of a crematory operator or an applicant to become a crematory operator, or that any agent or employee of a crematory operator or an applicant to become a crematory operator, with the direct or implied permission of such owner, partner, manager, member, or officer, has violated any provision of this Article, or is guilty of any of the following acts, and when the Board also finds that the crematory operator or applicant has thereby become unfit to practice, the Board may suspend, revoke, or refuse to issue or renew the license, in accordance with the procedures of Chapter 150B:

(1) Conviction of a felony or a crime involving fraud or moral turpitude.
(2) Fraud or misrepresentation in obtaining or renewing a license or in the practice of cremation.

(3) False or misleading advertising.

(4) Gross immorality, including being under the influence of alcohol or drugs while performing cremation services.

(5) Using profane, indecent or obscene language in the presence of a dead human body, and within the immediate hearing of the family or relatives of a deceased, whose body has not yet been cremated or otherwise disposed of.

In any case in which the Board is authorized to take any of the actions permitted under this subsection, the Board may, instead, accept an offer in compromise of the charges whereby the accused shall pay to the Board a penalty of not more than one thousand dollars ($1,000).

(g) The Board and the Crematory Authority may hold hearings in accordance with the provisions of this Article and Chapter 150B. Any such hearing shall be conducted jointly by the Board and the Crematory Authority. The Board and the Crematory Authority shall jointly constitute an “agency” under Article 3A of Chapter 150B of the General Statutes with respect to proceedings initiated pursuant to this Article. The Board is empowered to regulate and inspect crematories and crematory operators and to enforce as provided by law the provisions of this Article and the rules adopted hereunder. Any crematory that, upon inspection, is found not to meet any of the requirements of this Article shall pay a reinspection fee to the Board for each additional inspection that is made to ascertain whether the deficiency or other violation has been corrected.

In addition to the powers enumerated in Chapter 150B of the General Statutes, the Board shall have the power to administer oaths and issue subpoenas requiring the attendance of persons and the production of papers and records before the Board in any hearing, investigation or proceeding conducted by it or conducted jointly with the Crematory Authority. Members of the Board’s staff or the sheriff or other appropriate official of any county of this State shall serve all notices, subpoenas and other papers given to them by the President of the Board for service in the same manner as process issued by any court of record. Any person who neglects or refuses to obey a subpoena issued by the Board shall be guilty of a Class 1 misdemeanor.

(a) Any person doing business in this State, or any cemetery, funeral establishment, corporation, partnership, joint venture, voluntary organization, or any other entity may erect, maintain, and operate a crematory in this State and may provide the necessary employees, facilities, structure, and equipment for the cremation of human

(b) A crematory may be constructed on or adjacent to any cemetery, on or adjacent to any funeral establishment that is zoned commercial or industrial, or at any other location consistent with local zoning and environmental regulations.

(c) Application for a license as a crematory licensee shall be made on forms furnished and prescribed by the Board. The Board shall inspect the premises, facilities, structure, and equipment to be used as a crematory, confirm that the crematory manager's and crematory technician's educational certificate is valid, and issue a renewable license to the crematory licensee if the applicant meets all the requirements and standards of the Board and the requirements of this Article.

(d) Every application for licensure shall identify the crematory manager and all crematory technicians employed by the crematory licensee providing that nothing in this Article shall prohibit the designation and identification by the crematory licensee of one individual to serve as a crematory manager and crematory technician. Each crematory licensed in North Carolina shall employ on a full-time basis at least one crematory technician. Every application for licensure and renewal thereof shall include all crematory technicians' educational certificates. The crematory licensee shall keep the Board informed at all times of the names and addresses of the crematory manager and all crematory technicians. In the event a licensee is in the process of replacing its only crematory technician at the time of license renewal, the licensee may continue to operate the crematory for a reasonable time period not to exceed 180 days.

(e) All licenses and permits shall expire on the last day of December of each year. A license or permit may be renewed without paying a late fee on or before the first day of February immediately following expiration. After that date, a license or permit may be renewed by paying a late fee as provided in G.S. 90-210.52 in addition to the annual renewal fee. Licenses and permits that remain expired six months or more require a new application for renewal. Licenses and permits are not transferable. A new application for a license or permit shall be made to the Board within 30 days following a change of ownership of more than fifty percent (50%) of the business.

(f) No person, cemetery, funeral establishment, corporation, partnership, joint venture, voluntary organization, or any other entity shall cremate any human remains, except in a crematory licensed for this express purpose and operated by a crematory licensee subject to the restrictions and limitations of this Article or unless otherwise permitted by statute.

(g) Whenever the Board finds that an owner, partner, crematory manager, member, officer, or any crematory technician of a crematory licensee or any applicant to become a crematory licensee, or that any authorized employee, agent, or representative has violated any provision of this Article, or is guilty of any of the following acts, and when the Board also finds that the crematory operator or applicant has thereby become unfit to practice, the Board may suspend, revoke, or refuse to issue or renew the license, in accordance with Chapter 150B of the General Statutes:

2. Fraud or misrepresentation in obtaining or renewing a license or in the practice of cremation.
3. False or misleading advertising.

(5) Employment directly or indirectly of any agent, assistant, or other person on a part-time or full-time basis or on commission for the purpose of calling upon individuals or institutions by whose influence dead human bodies may be turned over to a particular licensee.

(6) The direct or indirect payment or offer of payment of a commission by the licensee or the licensee's agent, assistant, or employees for the purpose of securing business.

(7) Gross immorality, including being under the influence of alcohol or drugs while performing cremation services.

(8) Aiding or abetting an unlicensed person to perform services under this Article, including the use of a picture or name in connection with advertisements or other written material published or caused to be published by the licensee.

(10) Violating or cooperating with others to violate any of the provisions of this Article or of the rules of the Board.

(11) Violation of any State law or municipal or county ordinance or regulation affecting the handling, custody, care, or transportation of dead human bodies.

(12) Refusing to surrender promptly the custody of a dead human body or cremated remains upon the express order of the person lawfully entitled to the custody thereof, except as provided in G.S. 90-210.51(e).

(13) Indecent exposure or exhibition of a dead human body while in the custody or control of a licensee.

(14) Practicing funeral directing, embalming, or funeral service without a license.

In any case in which the Board is authorized to take any of the actions permitted under this subsection, the Board may instead accept an offer in compromise of the charges whereby the accused shall pay to the Board a penalty of not more than five thousand dollars ($5,000).

(h) Where the Board finds a licensee is guilty of one or more of the acts or omissions listed in subsection (g) of this section but it is determined by the Board that the licensee has not thereby become unfit to practice, the Board may place the licensee on a term of probation in accordance with the procedures set out in Chapter 150B of the General Statutes. In any case in which the Board is entitled to place a licensee on a term of probation, the Board may also impose a penalty of not more than five thousand dollars ($5,000) in conjunction with the probation.

(i) The Board may hold hearings in accordance with the provisions of this Article and Chapter 150B of the General Statutes. The Board shall conduct any such hearing. The Board shall constitute an "agency" under Article 3A of Chapter 150B of the General Statutes with respect to proceedings initiated pursuant to this Article. The Board is empowered to regulate and inspect crematories and crematory licensees and to enforce as provided by law the provisions of this Article and the rules adopted hereunder. Any crematory that, upon inspection, is found not to meet any of the requirements of this Article shall pay a reinspection fee to the Board for each additional inspection that is made to ascertain whether the deficiency or other violation has been corrected.
In addition to the powers enumerated in Chapter 150B of the General Statutes, the Board shall have the power to administer oaths and issue subpoenas requiring the attendance of persons and the production of papers and records before the Board in any hearing, investigation, or proceeding conducted by it. Members of the Board's staff or the sheriff or other appropriate official of any county of this State shall serve all notices, subpoenas, and other papers given to them by the President of the Board for service in the same manner as process issued by any court of record. Any person who neglects or refuses to obey a subpoena issued by the Board shall be guilty of a Class 1 misdemeanor.

"§ 90-210.44. Authorizing agent."

(a) The following person, in the priority list below, shall have the right to serve as an "authorizing agent":

(1) An individual at least 18 years of age may authorize the cremation and disposition of the individual's own dead body in a written will, pursuant to health care power of attorney to the extent provided in Article 3 of Chapter 32 of the General Statutes, pursuant to a preneed funeral contract executed pursuant to Article 13D of Chapter 90 of the General Statutes, pursuant to a cremation authorization form executed pursuant to Article 13C of Chapter 90 of the General Statutes, or in a written statement signed by the individual and witnessed by two persons who are at least 18 years old. When an individual has authorized his or her own cremation and disposition in accordance with this subsection, the individual or institution designated by that individual shall act as the authorizing agent for that individual.

(2) If a decedent has left no written authorization for the cremation and disposition of the decedent's body as permitted under subdivision (1) of this subsection, the following competent persons in the order listed may authorize the type, method, place, cremation, and disposition of the decedent's body:

a. The surviving spouse.

b. A majority of the surviving children who are at least 18 years of age and can be located after reasonable efforts.

c. The surviving parents.

d. A majority of the surviving siblings who are at least 18 years of age and can be located after reasonable efforts.

e. A majority of the persons in the classes of the next degrees of kinship, in descending order, who, under State law, would inherit the decedent's estate if the decedent died intestate who are at least 18 years of age and can be located after reasonable efforts.

f. A person who has exhibited special care and concern for the decedent and is willing and able to make decisions about the cremation and disposition.

g. In the case of indigents or any other individuals whose final disposition is the responsibility of the State or any of its instrumentalities, a public administrator, medical examiner, coroner, State-appointed guardian, or any other public official charged with arranging the final disposition of the decedent may serve as the authorizing agent.
h. In the case of individuals who have donated their bodies to science or whose death occurred in a nursing home or private institution and in which the institution is charged with making arrangements for the final disposition of the decedent, a representative of such institution may serve as the authorizing agent in the absence of any of the above.

i. In the absence of any of the above, any person willing to assume responsibility as authorizing agent, as specified in this act.

This subsection does not grant to any person the right to cancel a preneed funeral contract executed pursuant to Article 13D of Chapter 90 of the General Statutes or to cause or prohibit the substitution of a preneed licensee as authorized under G.S. 90-210.63.

(b) A person who does not exercise his or her right to dispose of the decedent's body under subdivision (a)(2) of this section within five days of notification or 10 days from date of death, whichever is earlier, shall be deemed to have waived his or her right to authorize disposition of the decedent's body or to contest disposition in accordance with this section.

(c) An individual at least 18 years of age may, in a writing signed by the individual, authorize the cremation and disposition of one or more of the individual's body parts that has been or will be removed. If the individual does not authorize the cremation and disposition, a person listed in subdivision (a)(2) of this section may authorize the cremation and disposition as if the individual were deceased.

(d) This section does not apply to the disposition of dead human bodies as anatomical gifts under Part 3 of Article 16 of Chapter 130A of the General Statutes or the right to perform autopsies under Part 2 of Article 16 of Chapter 130A of the General Statutes.

§ 90-210.45. Authorization to cremate.

(a) A crematory licensee shall not cremate human remains until it has received a cremation authorization form signed by an authorizing agent. The cremation authorization form shall be prescribed by the Board and shall contain at a minimum the following information:

1. The identity of the human remains and confirmation that the human remains are in fact the individual so named.
2. The time and date of death of the decedent.
3. The name and address of the funeral establishment and/or the funeral director that obtained the cremation authorization.
4. The name and address of the crematory to be in receipt of the human remains for the purpose of cremation.
5. The name and address of the authorizing agent, the relationship between the authorizing agent and the decedent, and the date and time of signature of the authorizing agent.
6. A representation that the authorizing agent does in fact have the right to authorize the cremation of the decedent and that the authorizing agent is not aware of any living person who has a superior priority right to that of the authorizing agent, as set forth in G.S. 90-210.44. Or, in the event that there is another living person who does have a superior priority right to that of the authorizing agent, a representation that the authorizing agent has made all reasonable efforts to contact
such person, has been unable to do so, and has no reason to believe
that such person would object to the cremation of the decedent.

(7) A representation that the authorizing agent has either disclosed the
location of all living persons with an equal right to that of the
authorizing agent, as set forth in G.S. 90-201.44, or does not know the
location of any other living person with an equal right to that of the
authorizing agent.

(8) Authorization for the crematory to cremate the human remains,
including authorization to process or pulverize the cremated remains.

(9) A representation that the human remains do not contain a pacemaker
or any other material or implant that may be potentially hazardous to
the person performing the cremation.

(10) The name of the person authorized to receive the cremated remains
from the crematory licensee.

(11) The manner in which final disposition of the cremated remains is to
take place, if known. If the cremation authorization form does not
specify final disposition in a grave, crypt, niche, or scattering area,
then the form shall indicate that the cremated remains will be held by
the crematory licensee for 30 days before they are disposed of, unless
they are received from the crematory licensee prior to that time, in
person, by the authorizing agent or his designee.

(12) The signature of the authorizing agent attesting to the accuracy of all
representations contained on the cremation authorization form, except
as set forth in subsection (b) of this section.

(13) If a cremation authorization form is being executed on a preneed basis,
the cremation authorization form shall contain the disclosure required
by G.S. 90-210.46. The authorizing agent may specify in writing
religious practices that conflict with Article 13 of this Chapter. The
crematory licensee and funeral director shall observe those religious
practices except where they interfere with cremation in a licensed
crematory as specified under G.S. 90-210.43 or the required
documentation and record keeping.

(14) A licensed funeral director of the funeral establishment or crematory
licensee that received the cremation authorization form shall also sign
the cremation authorization form. Such individual shall not be
responsible for any of the representations made by the authorizing
agent, unless such individual has actual knowledge to the contrary,
except for the information requested by subdivisions (a)(1), (2), (3),
(4), and (9) of this section, which shall be considered to be
representations of the individual. In addition, the funeral director shall
warrant to the crematory that the human remains delivered to the
crematory licensee are the human remains identified on the cremation
authorization form with any other documentation required by this
State, any county, or any municipality.

(b) An authorizing agent who signs a cremation authorization form shall be
deemed to warrant the truthfulness of any facts set forth on the cremation authorization
form, including that person’s authority to order the cremation, except for the information
required by subdivisions (a)(4) and (9) of this section, unless the authorizing agent has
actual knowledge to the contrary. An authorizing agent signing a cremation
authorization form shall be personally and individually liable for all damages occasioned thereby and resulting therefrom.

(c) A crematory licensee shall have the legal right to cremate human remains upon the receipt of a cremation authorization form signed by an authorizing agent. There shall be no liability for a crematory licensee that cremates human remains pursuant to such authorization, or that releases or disposes of the cremated remains pursuant to such authorization, except for such crematory licensee's gross negligence, provided that the crematory licensee performs such functions in compliance with the provisions of this Article. There shall be no liability for a funeral establishment or licensee thereof that causes a crematory licensee to cremate human remains pursuant to such authorization, except for gross negligence, provided that the funeral establishment and licensee thereof and crematory licensee perform their respective functions in compliance with the provisions of this section.

(d) After the authorizing agent has executed a cremation authorization form and prior to the commencement of the cremation, the authorizing agent may revoke the authorization and instruct the crematory licensee to cancel the cremation and to release or deliver the human remains to another crematory licensee or funeral establishment. Such instructions shall be provided to the crematory licensee in writing. A crematory licensee shall honor any instructions given to it by an authorizing agent under this section, provided that it receives such instructions prior to commencement of the cremation of the human remains.

“§ 90-210.46. Preneed cremation arrangements.

(a) Any person, on a preneed basis, may authorize the person's own cremation and the final disposition of the person's cremated remains by executing, as the authorizing agent, a cremation authorization form on a preneed basis and having the form signed by two witnesses. The person shall retain a copy of this form, and a copy shall be sent to the funeral establishment and/or the crematory licensee. Any person shall have the right to transfer or cancel this authorization at any time prior to the person's death by destroying the executed cremation authorization form and providing written notice to the party or parties that received the cremation authorization form.

(b) Any cremation authorization form executed by an individual as the individual's own authorizing agent on a preneed basis shall contain the following disclosure, which shall be completed by the authorizing agent:

/ / I do not wish to allow any of my survivors the option of canceling my cremation and selecting alternative arrangements, regardless of whether my survivors deem such a change to be appropriate.

/ / I wish to allow only the survivors whom I have designated below the option of canceling my cremation and selecting alternative arrangements or continuing to honor my wishes for cremation and purchasing services and merchandise if they deem such a change to be appropriate.

(c) Except as provided in subsection (b) of this section, at the time of the death of a person who has executed, as the authorizing agent, a cremation authorization form on a preneed basis, any person in possession of the executed form, and any person charged with making arrangements for the disposition of the decedent's human remains who has knowledge of the existence of the executed form, shall use the person's best efforts to ensure that the decedent's human remains are cremated and that the final disposition of the cremated remains is in accordance with the instructions contained on the cremation authorization form.
(d) If a crematory licensee is in possession of a completed cremation authorization form, executed on a preneed basis, and the crematory licensee is in possession of the designated human remains, then the crematory licensee shall be required to cremate the human remains and dispose of the human remains according to the instructions contained on the cremation authorization form. A crematory licensee that complies with the preneed cremation authorization form under these circumstances may do so without any liability. A funeral establishment or licensee thereof that causes a crematory licensee to act in accordance with the preneed cremation authorization form under these circumstances may do so without any liability.

(e) Any preneed contract sold by, or preneed arrangements made with, a funeral establishment that includes a cremation shall specify the final disposition of the cremated remains, pursuant to G.S. 90-210.50. In the event that no different or inconsistent instructions are provided to the crematory licensee by the authorizing agent at the time of death, the crematory licensee shall be authorized to release or dispose of the cremated remains as indicated in the preneed agreement. Upon compliance with the terms of the preneed agreement, the crematory licensee, and any funeral establishment or licensee thereof who caused the crematory licensee to act in compliance with the terms of the preneed agreement, shall be discharged from any legal obligation concerning such cremated remains.

(f) The provisions of this section shall not apply to any cremation authorization form or preneed contract executed prior to the effective date of this act. Any funeral establishment, however, with the written approval of the authorizing agent or person who executed the preneed contract, may designate that such cremation authorization form or preneed contract shall be subject to this act.

§ 90-210.44. Authorization and record keeping.

The Board shall establish requirements for record keeping, authorizations, and cremation reports. It shall be a violation of this Article for any crematory operator to fail to comply with the requirements.

§ 90-210.47. Record keeping.

(a) The crematory licensee shall furnish to the person who delivers such human remains to the crematory licensee a receipt, signed by both the crematory licensee and the person who delivers the human remains, showing the date and time of the delivery; the type of casket or cremation container that was delivered; the name of the person from whom the human remains were received and the name of the funeral establishment or other entity with whom such person is affiliated; the name of the person who received the human remains on behalf of the crematory licensee; and the name of the decedent. The crematory licensee shall retain a copy of this receipt in its permanent records for three years.

(b) Upon its release of cremated remains, the crematory licensee shall furnish to the person who receives such cremated remains from the crematory licensee a receipt, signed by both the crematory licensee and the person who receives the cremated remains, showing the date and time of the release; the name of the person to whom the cremated remains were released and the name of the funeral establishment, cemetery, or other entity with whom such person is affiliated; the name of the person who released the cremated remains on behalf of the crematory licensee; and the name of the decedent. The crematory shall retain a copy of this receipt in its permanent records for three years.

(c) A crematory licensee shall maintain at its place of business a record of all forms required by the Board of each cremation that took place at its facility for three years.
The crematory licensee shall maintain a record for three years of all cremated remains disposed of by the crematory licensee in accordance with G.S. 90-210.46(d).

Upon completion of the cremation, the crematory licensee shall issue a certificate of cremation.

All records that are required to be maintained under this Article shall be subject to inspection by the Board or its agents upon request.

(a) No crematory licensee shall make or enforce any rules requiring that any human remains be placed in a casket before cremation or that human remains be cremated in a casket, nor shall any crematory licensee refuse to accept human remains for cremation for the reason that they are not in a casket.

(b) No crematory licensee shall make or enforce any rules requiring that any cremated remains be placed in an urn or receptacle designed to permanently encase the cremated remains after the cremation process has been performed.

§ 90-210.45. Cremation procedures.

(a) No human body shall be cremated before the crematory operator receives a death certificate signed by the attending physician or an authorization for cremation signed by a medical examiner.

(b) Human remains shall not be cremated within 24 hours after the time of death, unless such death was a result of an infectious, contagious or communicable and dangerous disease as listed by the Commission of Health Services pursuant to G.S. 130A-134, and unless such time requirement is waived in writing by the medical examiner, county health director, or attending physician where the death occurred. In the event such death comes under the jurisdiction of the medical examiner, the human remains shall not be received by the crematory operator until authorization to cremate has been received in writing from the medical examiner of the county in which the death occurred. In the event the crematory operator is authorized to perform funerals as well as cremation, this restriction on the receipt of human remains shall not be applicable.

(c) No unauthorized person shall be permitted in the crematory area while any human remains are in the crematory area awaiting cremation, being cremated, or being removed from the cremation chamber. Relatives of the deceased, the authorizing agent, medical examiners and law enforcement officers in the execution of their duties shall be authorized to have access to the holding facility and crematory facility.

(c1) Human remains shall be cremated only while enclosed in a cremation container.

(d) The simultaneous cremation of the human remains of more than one person within the same cremation chamber is forbidden.

(d1) Every crematory shall have a holding facility, within or adjacent to the crematory, designated for the retention of human remains prior to cremation. The holding facility must comply with any applicable public health laws and rules and must meet all of the standards established pursuant to rules adopted by the Board.

(e) Crematory operators shall comply with standards established by the Board for the reduction and pulverization of human remains by the cremation process.

§ 90-210.49. Cremation procedures.

(a) In deaths certified by the attending physician, the body shall not be cremated before the crematory licensee receives a death certificate signed by the attending physician, which shall contain at a minimum the following information:
(1) Decedent's name;
(2) Date of death;
(3) Date of birth;
(4) Sex;
(5) Place of death;
(6) Facility name (if not institution, give street and number);
(7) County of death;
(8) City of death; and
(9) Time of death (if known).

(b) When required by G.S. 130A-388 and the rules adopted pursuant to that section or by successor statute and the rules pursuant to it, a cremation authorization form signed by a medical examiner shall be received by the crematory prior to cremation.

(c) In deaths coming under full investigation by the Office of the Chief Medical Examiner, a burial-transit permit/cremation authorization form must be received by the crematory before cremation.

(d) No body shall knowingly be cremated with a pacemaker or defibrillator or other potentially hazardous implant or condition in place. The authorizing agent for the cremation of the human remains shall be responsible for taking all necessary steps to ensure that any pacemaker or defibrillator or other potentially hazardous implant or condition is removed or corrected prior to cremation. If an authorizing agent informs the funeral director and the crematory licensee on the cremation authorization form of the presence of a pacemaker or defibrillator or other potentially hazardous implant or condition in the human remains, then the funeral director shall be responsible for ensuring that all necessary steps have been taken to remove the pacemaker or defibrillator or other potentially hazardous implant or to correct the hazardous condition before delivering the human remains to the crematory.

(e) Human remains shall not be cremated within 24 hours after the time of death, unless such death was a result of an infectious, contagious, or communicable and dangerous disease as listed by the Commission of Health Services, pursuant to G.S. 130A-134, and unless such time requirement is waived in writing by the medical examiner, county health director, or attending physician where the death occurred.

(f) No unauthorized person shall be permitted in view of the cremation chamber or in the holding and processing facility while any human remains are being removed from the cremation container, processed, or pulverized. Relatives of the deceased and their invitees, the authorizing agent and the agent's invitees, medical examiners, Inspectors of the North Carolina Board of Funeral Service, and law enforcement officers in the execution of their duties shall be authorized to have access to the crematory area, subject to the rules adopted by the crematory licensee governing the safety of such individuals.

(g) Human remains shall be cremated only while enclosed in a cremation container. Upon completion of the cremation, and insofar as is possible, all of the recoverable residue of the cremation process shall be removed from the cremation chamber. Insofar as is possible, all residue of the cremation process shall then be separated from any foreign residue or anything else other than bone fragments and then be processed by pulverization so as to reduce the cremated remains to unidentifiable particles. Any foreign residue and anything other than the particles of the cremated remains shall be removed from the cremated remains as far as possible and shall be disposed of by the crematory licensee. This section does not apply where law otherwise
provides for commingling of human remains. The fact that there is incidental and unavoidable residue in the cremation chamber used in a prior cremation is not a violation of this subsection.

(h) The simultaneous cremation of the human remains of more than one person within the same cremation chamber is forbidden.

(i) Every crematory shall have a holding and processing facility, within the crematory, designated for the retention of human remains prior to cremation. The holding and processing facility must comply with any applicable public health laws and rules and must meet all of the standards established pursuant to rules adopted by the Board.
