As a prerequisite to the annual renewal of a license, the licensee must complete, during the year immediately preceding renewal, at least five hours of continuing education courses, of which the Board may require licensees to take up to two hours specified by the Board. All continuing education courses must be approved by the Board prior to enrollment. A licensee who completes more than five hours in a year may carry over a maximum of five hours as a credit to the following year's requirement. A licensee who is issued an initial license on or after July 1 does not have to satisfy the continuing education requirement for that year.

The Board shall not renew a license unless fulfillment of the continuing education requirement has been certified to it on a form provided by the Board, but the Board may waive this requirement for renewal in cases of certified illness or undue hardship or where the licensee lives outside of North Carolina and does not practice in North Carolina, and the Board shall waive the requirement for all licensees who were licensed on or before December 31, 2003, and have been licensed in North Carolina for a continuous period of 25 years or more, for all licensees who are licensed on or after January 1, 2004, who have been licensed for a continuous period of 25 years or more and have attained the age of 60 years, and for all licensees who are, at the time of renewal, members of the General Assembly.

The Board shall cause to be established and offered to the licensees, each calendar year, at least five-eight hours of continuing education courses in subjects encompassing the license categories of embalming, funeral directing and funeral service courses. The Board may charge licensees attending these courses a reasonable registration fee in order to meet the expenses thereof and may also meet those expenses from other funds received under the provisions of this Article.

Any person who having been previously licensed by the Board as a funeral director or embalmer prior to July 1, 1975, shall not be required to satisfy the requirements herein for licensure as a funeral service licensee, but shall be entitled to have such license renewed upon making proper application therefor and upon payment of the renewal fee provided by the provisions of this Article. Persons previously licensed by the Board as a funeral director may engage in funeral directing, and persons previously licensed by the Board as an embalmer may engage in embalming. Any person having been previously licensed by the Board as both a funeral director and an embalmer may upon application therefor receive a license as a funeral service licensee.

The Department of Justice may provide a criminal record check to the Board for a person who has applied for a new or renewal license, or certification through the Board. The Board shall provide to the Department of Justice, along with the request, the
fingerprints of the applicant, any additional information required by the Department of Justice, and a form signed by the applicant consenting to the check of the criminal record and to the use of the fingerprints and other identifying information required by the State or national repositories. The applicant's fingerprints shall be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of the fingerprints to the Federal Bureau of Investigation for a national criminal history check. The Board shall keep all information pursuant to this subdivision privileged, in accordance with applicable State law and federal guidelines, and the information shall be confidential and shall not be a public record under Chapter 132 of the General Statutes.

The Department of Justice may charge each applicant a fee for conducting the checks of criminal history records authorized by this subdivision.

The only activity that a holder of an inactive license may engage in is to vote pursuant to G.S. 90-210.18(c)(2). The holder of an inactive license may apply for an active license in the same category, and the Board shall issue an active license if the applicant has completed in North Carolina a total number of hours of accredited continuing education equal to five times the number of years the applicant held the inactive license. No application fee is required for the reinstatement of an active license pursuant to this subsection. The holder of an inactive license who returns to active status shall surrender the inactive license to the Board.

(a2) In order to engage in the practice of funeral directing or funeral service, such a licensee must own, be employed by, or otherwise be an agent of a licensed funeral establishment; except that such a licensee may practice funeral directing or funeral service if:

(1) Employed by a college of mortuary science; or

(2) The Board shall periodically review the mortuary science licensing requirements of other jurisdictions and shall determine which licensing requirements are substantially similar to the requirements of North Carolina.

(3) The Board may issue special permits, to be known as courtesy cards, permitting nonresident funeral directors, embalmers and funeral service licensees to remove bodies from and to arrange and direct funerals and embalm bodies in this State, but these privileges shall not include the right to establish a place of business in or engage generally in the business of funeral directing and embalming in this State. Except for special permits issued by the Board for teaching continuing education programs and for work in connection with disasters, no special permits may be issued to nonresident funeral directors, embalmers, and funeral service licensees from states that do not issue similar courtesy cards to persons licensed in North Carolina pursuant to this Article.

Unless otherwise exempt from this subsection, no corporation or other business entity shall engage in the transportation or removal of a dead human body unless it has in its employ at least one individual who holds a permit issued under this section. No individual permit holder shall engage in the transportation or removal of a dead human body for more than one person, firm, or corporation without first providing the Board with written notification of the name and physical address of each such employer.

AN ACT ADOPTING THE CAROLINA LILY AS THE OFFICIAL WILDFLOWER OF NORTH CAROLINA.

Whereas, North Carolina is blessed with an abundance of wildflowers from the mountains to the coast; and
Whereas, the Carolina Lily is a scarce and beautiful flower that is found throughout North Carolina in upland pine-oak woods and pocosins; and
Whereas, the Carolina Lily (Lilium michauxii) is one of many plants named for the distinguished French botanist Andre Michaux who traveled widely in the southeastern United States; and
Whereas, Andre Michaux (1747-1802), a genuine hero of science and exploration, referred to the North Carolina mountains as "the great botanical laboratory and paradise of North America"; and
Whereas, the Carolina Lily, sometimes referred to as Michaux's Lily, bears up to six reddish-yellow, spotted flowers with petals that bend backwards; and
Whereas, each nodding flower grows to about three inches in diameter; and
Whereas, this magnificent flower bears the name of our great State; and
Whereas, the State of North Carolina does not have an official wildflower;
Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 3. This act is effective when it becomes law.

H.B. 1028 Session Law 2003-427

AN ACT TO AUTHORIZE THE COASTAL RESOURCES COMMISSION TO ADOPT TEMPORARY AND PERMANENT RULES TO ESTABLISH A GENERAL PERMIT FOR THE CONSTRUCTION OF RIPRAP SILLS FOR WETLAND ENHANCEMENT AND SHORELINE PROTECTION IN ESTUARINE AND PUBLIC TRUST WATERS, TO PROHIBIT THE CONSTRUCTION OF PERMANENT EROSION CONTROL STRUCTURES IN OCEAN SHORELINES, AND TO PROVIDE THAT TEMPORARY EROSION
CONTROL STRUCTURES IN OCEAN SHORELINES SHALL BE LIMITED TO SANDBAGS.

The General Assembly of North Carolina enacts:

SECTION 1. Pursuant to G.S. 113A-118.1, the Coastal Resources Commission may adopt temporary and permanent rules to establish a general permit to allow the construction of offshore parallel sills made of stone or other suitable riprap materials for shoreline protection in conjunction with existing, created, or restored wetlands. The permit shall be applicable only where a shoreline is experiencing erosion in public trust areas and estuarine waters. The permit shall not apply to oceanfront shorelines or to waters and shorelines adjacent to the ocean hazard areas of environmental concern except that the permit may apply to those shorelines that exhibit characteristics of estuarine shorelines. Characteristics of estuarine shorelines include the presence of wetland vegetation, lower wave energy, and lower erosion rates than are generally characteristic of ocean erodible areas. Notwithstanding G.S. 150B-21.1(a), the authorization to adopt temporary rules pursuant to this section shall continue in effect until 1 July 2004. Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule set out in G.S. 150B-21.1.

SECTION 2. The fee for a general permit established by temporary rules pursuant to Section 1 of this act shall be one hundred dollars ($100.00). In adopting permanent rules pursuant to Section 1 of this act, the Coastal Resources Commission shall set a fee for the general permit as provided in G.S. 113A-119.1.

SECTION 3. Part 3 of Article 7 of Chapter 113A of the General Statutes is amended by adding a new section to read:

§ 113A-115.1. Limitations on erosion control structures.

(a) As used in this section:

(1) ‘Erosion control structure’ means a breakwater, bulkhead, groin, jetty, revetment, seawall, or any similar structure.

(2) ‘Ocean shoreline’ means the Atlantic Ocean, the oceanfront beaches, and frontal dunes. The term ‘ocean shoreline’ includes an ocean inlet and lands adjacent to an ocean inlet but does not include that portion of any inlet and lands adjacent to the inlet that exhibits characteristics of estuarine shorelines.

(b) No person shall construct a permanent erosion control structure in an ocean shoreline. The Commission shall not permit the construction of a temporary erosion control structure that consists of anything other than sandbags in an ocean shoreline. This section shall not apply to (i) any permanent erosion control structure that is approved pursuant to an exception set out in a rule adopted by the Commission prior to 1 July 2003 or (ii) any permanent erosion control structure that was originally constructed prior to 1 July 1974 and that has since been in continuous use to protect an inlet that is maintained for navigation. This section shall not be construed to limit the authority of the Commission to adopt rules to designate or protect areas of environmental concern, to govern the use of sandbags, or to govern the use of erosion coastal structures in estuarine shorelines.

(c) The Commission may renew a permit for an erosion control structure issued pursuant to a variance granted by the Commission prior to 1 July 1995. The Commission may authorize the replacement of a permanent erosion control structure that was permitted by the Commission pursuant to a variance granted by the Commission prior to 1 July 1995 if the Commission finds that: (i) the structure will not
be enlarged beyond the dimensions set out in the original permit; (ii) there is no practical alternative to replacing the structure that will provide the same or similar benefits; and (iii) the replacement structure will comply with all applicable laws and with all rules, other than the rule or rules with respect to which the Commission granted the variance, that are in effect at the time the structure is replaced."

SECTION 4. Sections 1 and 2 of this act become effective 1 July 2003. Sections 3 and 4 of this act become effective when this act becomes law.

In the General Assembly read three times and ratified this the 19th day of July, 2003.

Became law upon approval of the Governor at 11:09 a.m. on the 19th day of August, 2003.

S.B. 945 Session Law 2003-428

AN ACT TO CLARIFY THE EXTENT TO WHICH A PROSPECTIVE APPLICANT FOR AN AIR QUALITY PERMIT FOR A NEW FACILITY MAY ENGAGE IN CONSTRUCTION PRIOR TO OBTAINING THE AIR QUALITY PERMIT AND TO SPECIFY THE CIRCUMSTANCES UNDER WHICH A PERSON WHO HOLDS AN AIR QUALITY PERMIT MAY ALTER OR EXPAND THE FACILITY UPON GIVING NOTICE TO THE ENVIRONMENTAL MANAGEMENT COMMISSION AND THE PUBLIC OF THE PERMITTEE'S INTENT TO APPLY FOR MODIFICATION OF THE PERMIT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-215.108(a) reads as rewritten:

"(a) Except as provided in subsections (a1) and (a2) of this section, no person shall do any of the following things or carry out any of the following activities which that contravene or will be likely to contravene standards established pursuant to G.S. 143-215.107 or set out in G.S. 143-215.107D unless that person has obtained from the Commission a permit therefor from the Commission and has complied with any conditions of the permit:

(1) Establish or operate any air contaminant source, except as provided in G.S. 143-215.108A.
(2) Build, erect, use or operate any equipment which may result in the emission of an air contaminant or which is likely to cause air pollution, except as provided in G.S. 143-215.108A.
(3) Alter or change the construction or method of operation of any equipment or process from which air contaminants are or may be emitted.
(4) Enter into an irrevocable contract for the construction and installation of any air-cleaning device, or allow or cause such device to be constructed, installed, or operated."

SECTION 2. G.S. 143-215.108(f) reads as rewritten:

"(f) An applicant for a permit under this section for a new facility or for the expansion of a facility permitted under this section shall request each local government having jurisdiction over any part of the land on which the facility and its appurtenances are to be located to issue a determination as to whether the local government has in effect a zoning or subdivision ordinance applicable to the facility and whether the
proposed facility or expansion would be consistent with the ordinance. The request to the local government shall be accompanied by a copy of the draft permit application and shall be delivered to the clerk of the local government personally or by certified mail. The determination shall be verified or supported by affidavit signed by the official designated by the local government to make the determination and, if the local government states that the facility is inconsistent with a zoning or subdivision ordinance, shall include a copy of the ordinance and the specific reasons for the determination of inconsistency. A copy of any such determination shall be provided to the applicant when it is submitted to the Commission. The Commission shall not act upon an application for a permit under this section until it has received a determination from each local government requested to make a determination by the applicant. If a local government determines that the new facility or the expansion of an existing facility is inconsistent with a zoning or subdivision ordinance, and unless the local government makes a subsequent determination of consistency with all ordinances cited in the determination or the proposed facility is determined by a court of competent jurisdiction to be consistent with the cited ordinances, the Commission shall attach as a condition of the permit a requirement that the applicant, prior to construction or operation of the facility under the permit, comply with all lawfully adopted local ordinances, including those cited in the determination, that apply to the facility at the time of construction or operation of the facility. If a local government fails to submit a determination to the Commission as provided by this subsection within 15 days after receipt of the request, the Commission may proceed to consider the permit application without regard to local zoning and subdivision ordinances. This subsection shall not be construed to affect the validity of any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance or to affect the responsibility of any person to comply with any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance. This subsection shall not be construed to limit any opportunity a local government may have to comment on a permit application under any other law or rule. This subsection shall not apply to any facility with respect to which local ordinances are subject to review under either G.S. 104E-6.2 or G.S. 130A-293.

SECTION 3. Article 21B of Chapter 143 of the General Statutes is amended by adding a new section to read:

"§ 143-215.108A. Control of sources of air pollution; construction of new facilities; alteration or expansion of existing facilities.

(a) New Facilities. – A person may not, without obtaining a permit under G.S. 143-215.108, construct or operate an air contaminant source, equipment, or associated air cleaning device at a site or facility where, at the time of the construction, there is no other air contaminant source, equipment, or associated air cleaning device for which a permit is required under G.S. 143-215.108. A person may, however, undertake the following activities prior to obtaining a permit if the person complies with the requirements of this section:

(1) Clearing and grading.
(2) Construction of access roads, driveways, and parking lots.
(3) Construction and installation of underground pipe work, including water, sewer, electric, and telecommunications utilities.
(4) Construction of ancillary structures, including fences and office buildings, that are not a necessary component of an air contaminant source, equipment, or associated air cleaning device for which a permit is required under G.S. 143-215.108.

1301
Permitted Facilities. – A person who holds a permit under G.S. 143-215.108 may apply to the Commission for a modification of the permit to allow the person to alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device in a manner that alters the emission of air contaminants. The permittee may not operate the altered, expanded, or additional air contaminant source, equipment, or associated air cleaning device in a manner that alters the emission of any air contaminant without obtaining a permit modification under G.S. 143-215.108. A permittee may, however, alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device at a facility permitted under G.S. 143-215.108 if the permittee complies with the requirements of this section. At least 15 days prior to commencing alteration or expansion under this subsection, the permittee shall give notice by publication and shall submit to the Commission a notice of the permittee's intent to alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device. Notice by publication shall be in a newspaper having general circulation in the county or counties where the facility is to be located; shall be at the permittee's own expense; shall include a statement that written comment may be submitted to the Commission, that the Commission will consider any comment that it receives, and the Commission's address for submission of written comment; and shall include all the information required by subdivisions (1) through (6) of this subsection. The permittee shall submit a proof of publication of the notice to the Commission within 15 days of the date of publication. The notice of intent to the Commission shall include all of the following:

1. The name and location of the facility and the name and address of the permittee.
2. The permit number of each permit issued under G.S. 143-215.108 for the facility.
3. The nature of the air contaminant sources and equipment associated with the proposed modification of the permit.
4. An estimate of total regulated air contaminant emissions associated with the proposed modification of the permit.
5. The air cleaning devices that are to be employed to address each of the air contaminant sources associated with the modification of the permit.
6. The schedule for alteration or expansion of the facility associated with the proposed modification of the permit.
7. An acknowledgment by the permittee that the air contaminant sources, equipment, and associated air cleaning devices may not be operated in a manner that alters the emission of any air contaminant until the permittee has obtained a modified permit under G.S. 143-215.108.
8. An acknowledgment by the permittee that any alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device prior to the modification of a permit under G.S. 143-215.108 is undertaken at the permittee's own risk and with the knowledge that the permittee may be denied a modification of the permit under G.S. 143-215.108 without regard to the permittee's financial investment or alteration or expansion of the facility.
9. A certification under oath that all of the information contained in the notice of intent is complete and accurate to the best of the permittee's
knowledge and ability, executed by the permittee or, if the permittee is a corporation, by the appropriate officers of the corporation.

(c) Review and Determination by the Commission.—

(1) Upon receipt of a complete notice of intent required under subsection (b) of this section, the Commission shall determine whether:

a. The permittee is and has been in substantial compliance with other permits issued the permittee.

b. The facility will be altered or expanded so that it will be used for either the same or a similar use as the use already permitted.

c. The alteration or expansion will not result in a disproportionate increase in the size of the facility already permitted.

d. The alteration or expansion will result in the same or substantially similar emissions as that of the facility already permitted.

e. The alteration or expansion will not have a significant effect on air quality.

f. The Commission is likely to issue the permit modification.

(2) Within 15 days after the Commission receives a complete notice of intent required under subsection (b) of this section, the Commission shall notify the permittee of its determination as to whether each of the conditions set out in subdivision (1) of this subsection has or has not been met. If the Commission finds that all of the conditions have been met, the notice shall state that the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device may begin. If the Commission finds that one or more of the conditions has not been met, the notice shall state that the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device may not begin.

(d) Order to Cease Construction, Alteration, or Expansion. – If at any time during the construction, alteration, or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device, the Commission determines that the permittee will not qualify for a permit or permit modification under G.S. 143-215.108, the Commission may order that the construction, alteration, or expansion cease until the Commission makes a decision on the application for a permit or permit modification. If the Commission orders that construction, alteration, or expansion cease, then construction, alteration, or expansion may resume only if the Commission either makes a subsequent determination that the circumstances that resulted in the order to cease construction, alteration, or expansion have been adequately addressed or if the Commission issues a permit or permit modification under G.S. 143-215.108 that authorizes construction, alteration, or expansion to resume.

(e) Evaluation of Permit Applications; Administrative and Judicial Review of Permit Decisions. – The Commission shall evaluate an application for a permit or permit modification under G.S. 143-215.108 and make its decision on the same basis as if the construction, alteration, or expansion allowed under this section had not occurred. The Commission shall consider any written comment that it receives in response to a notice by publication given pursuant to subsection (b) of this section. No evidence regarding any contract entered into, financial investment made, construction, alteration, or expansion undertaken, or economic loss incurred by any person or permittee who
proceeds under this section without first obtaining a permit under G.S. 143-215.108 is admissible in any contested case or judicial proceeding involving any permit required under G.S. 143-215.108. No evidence as to any determination or order by the Commission pursuant to subsection (c) or (d) of this section shall be admissible in any contested case or judicial proceeding related to any permit required under G.S. 143-215.108.

(f) State, Commission, and Employees Not Liable. – Every person, permittee, and owner of a facility who proceeds under this section shall hold the State, the Commission, and the officials, agents, and employees of the State and the Commission harmless and not liable for any loss resulting from any contract entered into, financial investment made, construction, alteration, or expansion undertaken, or economic loss incurred by any person, permittee, or owner of any facility pursuant to this section.

(g) Local Zoning Ordinances Not Affected. – This section shall not be construed to affect the validity of any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance or to affect the responsibility of any person to comply with any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance.

(h) Compliance With Other State Laws Not Affected. – This section does not relieve any person of the obligation to comply with any other requirement of State law, including any requirement to obtain any other permit or approval prior to undertaking any activity associated with preparation of the site or the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device at a facility for which a permit is required under G.S. 143-215.108.

(i) Federal Air Quality Programs Not Affected. – This section does not relieve any person from any preconstruction or construction prohibition imposed by any federal requirement, federal delegation, federally approved requirement in any State Implementation Plan, or federally approved requirement under the Title V permitting program, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112. This section does not apply to any construction, alteration, or expansion that is subject to requirements for prevention of significant deterioration or federal nonattainment new source review, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112. This section does not apply if it is inconsistent with any federal requirement, federal delegation, federally approved requirement in any State Implementation Plan, or federally approved requirement under the Title V permitting program, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112.

(j) Fee. – A permittee who submits a notice of intent under subsection (b) of this section shall pay a fee of two hundred dollars ($200.00) for each notice of intent submitted to cover a portion of the administrative costs of implementing this section.”

SECTION 4. This act is effective when it becomes law and applies to the construction of any new facility and the alteration or expansion associated with the modification of a permit for an existing facility that commences on or after the date on which this act becomes law. This act does not apply to any application for a permit or permit modification under G.S. 143-215.108 that is submitted to the Environmental Management Commission prior to the date on which this act becomes law.

Boundaries are as shown on the Redistricting Census 2000 TIGER Files, with modifications made by the Legislative Services Office on its computer database as of May 1, 2001, October 20, 2003, to reflect precincts divided or renamed as outlined in subsection (c) of this section. However, in Robeson County PHILADEPLUS is, in fact, PHILADELPHUS, and in Vance County SANDY SCREEK is, in fact, SANDY CREEK. If the boundary line between Iredell and Mecklenburg Counties in the Redistricting Census 2000 TIGER Files conflicts with that provided by Section 1 of Session Law 1998-15 as rewritten by Session Law 2001-429, Section 1 of Session Law 1998-15 as rewritten by Session Law 2001-429 prevails to the extent of the conflict. However, the boundary corner between Forsyth, Stokes, and Rockingham Counties is as established by Chapter 23, Public Laws of 1848-49.

(c) The Legislative Services Office modified on its computer database some of the precincts shown on the Redistricting Census 2000 TIGER Files to reflect precincts divided or renamed by county boards of elections after the TIGER Files were

1389
completed with greater accuracy the precincts as they existed as of October 20, 2003, including changes made to precincts after the TIGER Files were completed. As a result, precincts are shown differently on the Legislative Services Office computer database from the TIGER Files in the following counties: several counties. Those changes include actions by county boards of elections to divide, merge, and otherwise realign precincts. Where a realignment of precinct boundaries by a county board of elections is impossible to reflect in the database using Census geography, the Legislative Services Office modified the database by either merging two precincts or by approximating the boundary using Census geography. The following is a list, for informational purposes only, of precincts shown in the TIGER Files, the geography of which has been modified in the Legislative Services Office computer database:

SECTION 4. G.S. 120-1(b) and (c) read as rewritten:

"(b) The names and boundaries of precincts (voting tabulation districts), tracts, block groups, and blocks specified in this section are as they were legally defined and recognized in the 2000 United States Census. Boundaries are as shown on the Redistricting Census 2000 TIGER Files, with modifications made by the Legislative Services Office on its computer database as of May 1, 2001, October 20, 2003, to reflect precincts divided or renamed as outlined in subsection (c) of this section. However, in Robeson County PHILADEPLUS is, in fact, PHILADELPHUS, and in Vance County SANDY SCREEK is, in fact, SANDY CREEK. If the boundary line between Iredell and Mecklenburg Counties in the Redistricting Census 2000 TIGER Files conflicts with that provided by Section 1 of Session Law 1998-15 as amended, Section 1 of Session Law 1998-15 as amended prevails to the extent of conflict. However, the boundary corner between Forsyth, Stokes, and Rockingham Counties is as established by Chapter 23, Public Laws of 1848-49.

(c) The Legislative Services Office modified on its computer database some of the precincts shown on the Redistricting Census 2000 TIGER Files to reflect precincts divided or renamed by county boards of elections after the TIGER Files were completed, with greater accuracy the precincts as they existed as of October 20, 2003, including changes made to precincts after the TIGER Files were completed. As a result, precincts are shown differently on the Legislative Services Office computer database from the TIGER Files in the following counties: several counties. Those changes include actions by county boards of elections to divide, merge, and otherwise realign precincts. Where a realignment of precinct boundaries by a county board of elections is impossible to reflect in the database using Census geography, the Legislative Services Office modified the database by either merging two precincts or by approximating the boundary using Census geography. The following is a list, for informational purposes only, of precincts shown in the TIGER Files, the geography of which has been modified in the Legislative Services Office computer database:

SECTION 5.(a) If by 10:00 A.M. on February 9, 2004, an act to redistrict the State House of Representatives or the State Senate has not been approved under section 5 of the Voting Rights Act of 1965 or is otherwise prohibited by law from being implemented, the State Board of Elections shall postpone the primary election for all offices until a date the State Board determines to be fair to all parties, potential candidates, and voters. The State Board shall make its decision as soon as practical, taking into account the likelihood of receiving a final approval of any pending redistricting plan.

SECTION 5.(b) If the filing period or primary election or both for all offices are postponed under this section, the State Board of Elections may issue temporary orders pursuant to that postponement that may change, modify, delete, amend, or add to any statute contained in Chapter 163 of the General Statutes, any rules contained in Title 8 of the North Carolina Administrative Code, or any other election regulation or guideline that may affect the 2004 primaries and general election for those offices. Those orders shall include a primary schedule and if necessary an altered schedule leading to the general election on November 2, 2004. The orders shall include reset dates for absentee balloting that shall as nearly as practical provide the same amount of time for voters and election officials set forth in Article 20 of Chapter 163 of the General Statutes. The State Board shall, as soon as practical, distribute its orders, including a Revised Primary Timetable, to county boards of elections. Adoption of orders under this subsection is not subject to Chapter 150B of the General Statutes.

SECTION 5.(c) The State Board of Elections shall be governed by the following limitations:

(1) Any postponement of the candidate filing period or the primary shall apply to all offices whose primary elections are regularly scheduled on primary day, so that there is one candidate filing period for all those offices and one primary election for all those offices. The postponement shall also apply to any elections to local office held on that date (such as elections for boards of education under G.S. 115C-37) and the filing period for those offices.

PART 1. MAJOR INDUSTRIAL SITE INFRASTRUCTURE

SECTION 1.1. Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding a new section to read:

§ 143B-437.02. Site infrastructure development.

(a) Findings. – The General Assembly finds that:

(1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.

(2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's
industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.

(3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires the enactment of a new program as provided in this section that is designed to stimulate new economic activity and to create new jobs within the State.

(4) The enactment of this section is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina and this section will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.

(5) The purpose of this section is to stimulate economic activity and to create new jobs within the State.

(b) Fund. – The Site Infrastructure Development Fund is created as a restricted reserve in the Department of Commerce. The Department may use the funds in the fund only in accordance with this section for site development. Funds in the fund do not revert but remain available to the Department for these purposes.

(c) Definitions. – The definitions in G.S. 143B-437.51 apply in this section. In addition, the following definitions apply in this section:

(1) Department. – The Department of Commerce.

(2) Site development. – Any of the following:

a. A restricted grant or a forgivable loan made to a business to enable the business to acquire land, improve land, or both.

b. A grant to one or more State agencies or nonprofit corporations to enable the grantees to acquire land, improve land, or both and to lease the property to a business.

c. A grant to one or more local government units to enable the units to acquire land, improve land, or both and to lease the property to a business.

(d) Eligibility. – To be eligible for consideration for site development for a project, a business must meet both of the following conditions:

(1) The business will invest at least one hundred million dollars ($100,000,000) of private funds in the project.

(2) The project will employ at least 100 new employees.

(e) Health Insurance. – A business is eligible for consideration for site development under this section only if the business provides health insurance for all of the full-time employees of the project with respect to which the application is made. For the purposes of this subsection, a business provides health insurance if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

Each year that a contract for site development under this section is in effect, the business must provide the Department of Commerce a certification that the business continues to provide health insurance for all full-time employees of the project governed by the contract. If the business ceases to provide health insurance to all full-time
employees of the project, Department shall provide for reimbursement of an appropriate portion of the site development funds provided to the business.

(f) Safety and Health Programs. – In order for a business to be eligible for consideration for site development under this section, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the past three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made. For the purposes of this subsection, 'serious violation' has the same meaning as in G.S. 95-127.

(g) Environmental Impact. – A business is eligible for consideration for site development under this part only if the business certifies that, at the time of the application, the business has no pending administrative, civil, or criminal enforcement action based on alleged significant violations of any program implemented by an agency of the Department of Environment and Natural Resources, and has had no final determination of responsibility for any significant administrative, civil, or criminal violation of any program implemented by an agency of the Department of Environment and Natural Resources within the last five years. A significant violation is a violation or alleged violation that does not satisfy any of the conditions of G.S. 143-215.6B(d). The Secretary of Environment and Natural Resources must notify the Department of Commerce annually of every person that currently has any of these pending actions and every person that has had any of these final determinations within the last five years.

(h) Selection. – The Department of Commerce shall administer the selection of projects to receive site development. The selection process shall include the following components:

1. Criteria. – The Department of Commerce must develop criteria to be used to identify and evaluate eligible projects for possible site development.

2. Initial evaluation. – The Department must evaluate major competitive projects to determine if site development is merited and to determine whether the project is eligible and appropriate for consideration for site development.

3. Application. – The Department must require a business to submit an application in order for a project to be considered for site development. The Department must prescribe the form of the application, the application process, and the information to be provided, including all information necessary to evaluate the project in accordance with the applicable criteria.

4. Committee. – The Department must submit to the Economic Investment Committee the applications for projects the Department considers eligible and appropriate for consideration for site development. In evaluating each application, the Committee must consider all of the factors set out in Section 2.1(b) of S.L. 2002-172.

5. Findings. – In order to recommend a project for site development, the Committee must make all of the following findings:
   a. The conditions for eligibility have been met.
   b. Site development for the project is necessary to carry out the public purposes provided in subsection (a) of this section.
   c. The project is consistent with the economic development goals of the State and of the area where it will be located.
d. The affected local governments have participated in recruitment and offered incentives in a manner appropriate to the project.

e. The price and nature of any real property to be acquired is appropriate to the project and not unreasonable or excessive.

f. Site development under this section is necessary for the completion of the project in this State.

(6) Recommendations. – If the Committee recommends a project for site development, it must recommend the amount of State funds to be committed, the preferred form and details of the State participation, and the performance criteria and safeguards to be required in order to protect the State’s investment.

(i) Agreement. – Unless the Secretary of Commerce determines that the project is no longer eligible or appropriate for site development, the Department shall enter into an agreement to provide site development within available funds for a project recommended by the Committee. Each site development agreement is binding and constitutes a continuing contractual obligation of the State and the business. The site development agreement must include all of the performance criteria, remedies, and other safeguards recommended by the Committee or required by the Department to secure the State’s investment. Each site development agreement must contain a provision prohibiting a business from receiving a payment or other benefit under the agreement at any time when the business has received a notice of an overdue tax debt and the overdue tax debt has not been satisfied or otherwise resolved. Nothing in this section constitutes or authorizes a guarantee or assumption by the State of any debt of any business or authorizes the taxing power or the full faith and credit of the State to be pledged.

The Department shall cooperate with the Department of Administration and the Attorney General’s Office in preparing the documentation for the site development agreement. The Attorney General shall review the terms of all proposed agreements to be entered into under this section. To be effective against the State, an agreement entered into under this section must be signed personally by the Attorney General.

(j) Safeguards. – To ensure that public funds are used only to carry out the public purposes provided in this section, the Department shall require that each business that receives State-funded site development must agree to meet performance criteria to protect the State’s investment and assure that the projected benefits of the project are secured. The performance criteria to be required shall include creation and maintenance of an appropriate level of employment and investment over the term of the agreement and any other criteria the Department considers appropriate. The agreement must require the business to repay or reimburse an appropriate portion of the State funds expended for the site development, based on the extent of any failure by the business to meet the performance criteria. The agreement must provide a method for securing these payments from the business, such as structuring the site development as a conditional grant, a forgivable loan, or a revocable lease.

(k) Monitoring and Reports. – The Department is responsible for monitoring compliance with the performance criteria under each site development agreement and for administering the repayment in case of default. The Department shall pay for the cost of this monitoring from funds appropriated to it for that purpose or for other economic development purposes.
Within two months after the end of each calendar quarter, the Department shall report to the Joint Legislative Commission on Governmental Operations regarding the Site Infrastructure Development Program. This report shall include a listing of each agreement negotiated and entered into during the preceding quarter, including the name of the business, the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the site development incentive expected to be paid under the agreement during the current fiscal year. The report shall also include detailed information about any defaults and repayment during the preceding quarter. The Department shall publish this report on its web site and shall make printed copies available upon request."

SECTION 1.2.(a) There is appropriated from the General Fund to the Site Infrastructure Development Fund in the Department of Commerce the sum of twenty-four million dollars ($24,000,000) for the 2003-2004 fiscal year to be used only in accordance with G.S. 143B-437.02, as enacted by this part.

(2) Considering whether the assignment of tiers and the applicable thresholds are equitable for smaller counties, for example those under 50,000 in population.

(3) Compiling any available data on whether expanding North Carolina businesses receive fewer benefits than out-of-State businesses that locate to North Carolina.

(c) Impact Study. – The Department of Commerce shall study the effectiveness of the tax incentives provided in this Article. This study shall include:

(1) Study of the distribution of tax incentives across new and expanding industries.

(2) Examination of data on economic recruitment for the period from 1994 through the most recent year for which data are available by county, by industry type, by size of investment, and by number of jobs, and other relevant information to determine the pattern of business locations and..."
expansions before and after the enactment of the William S. Lee Act incentives.

(3) Measuring the direct costs and benefits of the tax incentives.

(4) Compiling available information on the current use of incentives by other states and whether that use is increasing or declining.

SECTION 3.3. G.S. 105-129.4(b1) reads as rewritten:

"(b1) Large Investment. – A taxpayer who is otherwise eligible for a tax credit under this Article becomes eligible for the large investment enhancements provided for credits under this Article if the Secretary of Commerce makes a written determination that the taxpayer is expected to purchase or lease, and place in service in connection with the eligible business within a two-year period, at least one hundred fifty million dollars ($150,000,000) worth of one or more of the following: real property, machinery and equipment, or central office or aircraft facility property. In the case of an interstate air courier that has or is constructing a hub in this State and in the case of an eligible major industry, this investment may be placed in service in connection with the eligible business within a seven-year period. If the taxpayer fails to make the required level of investment within the applicable period, the taxpayer forfeits the large investment enhancements as provided in subsection (d) of this section."

SECTION 3.4. G.S. 105-129.4(d) reads as rewritten:

"(d) Forfeiture. – A taxpayer forfeits a credit allowed under this Article if the taxpayer was not eligible for the credit for the calendar year in which the taxpayer engaged in the activity for which the credit was claimed. In addition, a taxpayer forfeits a large investment enhancement of a tax credit if the taxpayer fails to timely make the required level of investment under subsection (b1) of this section. If an eligible major industry fails to timely make the required level of investment under G.S. 105-129.2(8a), the taxpayer forfeits all credits allowed under this Article that it would not otherwise have been eligible for if it were not an eligible major industry. A taxpayer forfeits the credit for substantial investment in other property allowed under G.S. 105-129.12A if the taxpayer fails to timely create the number of required new jobs or to timely make the required level of investment under subsection (b5) of this section. A taxpayer forfeits the technology commercialization credit allowed under G.S. 105-129.9A if the taxpayer fails to make the level of investment required by subsection (e) of that section within the required period or if the taxpayer fails to meet the terms of its licensing agreement with a research university. If a taxpayer claimed a twenty percent (20%) technology commercialization credit under G.S. 105-129.9A(d) and fails to make the level of investment required under that subsection within the required period, but does make the level of investment required under subsection (e) of that section within the required period, the taxpayer forfeits one-fourth of the twenty percent (20%) credit.

A taxpayer that forfeits a credit under this Article is liable for all past taxes avoided as a result of the credit plus interest at the rate established under G.S. 105-241.1(i), computed from the date the taxes would have been due if the credit had not been allowed. The past taxes and interest are due 30 days after the date the credit is forfeited; a taxpayer that fails to pay the past taxes and interest by the due date is subject to the penalties provided in G.S. 105-236. If a taxpayer forfeits the credit for creating jobs, the technology commercialization credit, or the credit for investing in machinery and equipment, the taxpayer also forfeits any credit for worker training claimed for the jobs
for which the credit for creating jobs was claimed or the jobs at the location with respect to which the technology commercialization credit or the credit for investing in machinery and equipment was claimed.”

SECTION 3.5.  G.S. 105-129.5(c) reads as rewritten:

"(c) Carryforward. – Any unused portion of a credit with respect to a large investment, with respect to the technology commercialization credit allowed in G.S. 105-129.9A, or with respect to substantial investment in other property under G.S. 105-129.12A may be carried forward for the succeeding 20 years. Any unused portion of a credit with respect to research and development activities under G.S. 105-129.10 may be carried forward for the succeeding 15 years. Any unused portion of a credit may be carried forward for the succeeding 10 years if, before the taxpayer claims the credit, the Secretary of Commerce makes a written determination that the taxpayer is expected to purchase or lease, and place in service in connection with the eligible business within a two-year period, at least fifty million dollars ($50,000,000) worth of one or more of the following: real property, machinery and equipment, or central office or aircraft facility property. In the case of an interstate air courier that has or is constructing a hub in this State, and in the case of an eligible major industry, this investment may be placed in service in connection with the eligible business within a seven-year period. If the taxpayer fails to make the required level of investment within the applicable period, the taxpayer forfeits this enhanced carryforward period. Any unused portion of any other credit may be carried forward for the succeeding five years."

SECTION 3.6.  G.S. 105-129.8(d) reads as rewritten:

"(d) Planned Expansion. – A taxpayer that signs a letter of commitment with the Department of Commerce to create at least twenty new full-time jobs in a specific area within two years of the date the letter is signed qualifies for the credit in the amount allowed by this section based on the area's enterprise tier and development zone designation for that year even though the employees are not hired that year. In the case of an interstate air courier that has or is constructing a hub in this State and in the case of an eligible major industry, the applicable time period is seven years. The credit shall be available in the taxable year after at least twenty employees have been hired if the hirings are within the applicable commitment period. The conditions outlined in subsection (a) apply to a credit taken under this subsection except that if the area is redesignated to a higher-numbered enterprise tier or loses its development zone designation after the year the letter of commitment was signed, the credit is allowed based on the area's enterprise tier and development zone designation for the year the letter was signed. If the taxpayer does not hire the employees within the applicable period, the taxpayer does not qualify for the credit. However, if the taxpayer qualifies for a credit under subsection (a) in the year any new employees are hired, the taxpayer may take the credit under that subsection."

SECTION 3.7.  G.S. 105-129.9(e) reads as rewritten:

"(e) Planned Expansion. – A taxpayer that signs a letter of commitment with the Department of Commerce to place specific eligible machinery and equipment in service in an area within two years after the date the letter is signed may, in the year the eligible machinery and equipment are placed in service in that area, calculate the credit for which the taxpayer qualifies based on the area's enterprise tier and development zone designation for the year the letter was signed. In the case of an interstate air courier that has or is constructing a hub in this State and in the case of an eligible major industry, the applicable time period is seven years. All other conditions apply to the credit, but if the area has been redesignated to a higher-numbered enterprise tier or has
lost its development zone designation after the year the letter of commitment was signed, the credit is allowed based on the area's enterprise tier and development zone designation for the year the letter was signed. If the taxpayer does not place part or all of the specified eligible machinery and equipment in service within the applicable period, the taxpayer does not qualify for the benefit of this subsection with respect to the machinery and equipment not placed in service within the applicable period. However, if the taxpayer qualifies for a credit in the year the eligible machinery and equipment are placed in service, the taxpayer may take the credit for that year as if no letter of commitment had been signed pursuant to this subsection."

SECTION 3.8. It is the intent of the General Assembly that the provisions of this part not be expanded. If a court of competent jurisdiction holds any provision of this part invalid, the section containing that provision is repealed. The repeal of a section of this part under this section does not affect other provisions of this part that may be given affect without the invalid provision.

SECTION 3.9. This part becomes effective for taxable years beginning on or after January 1, 2004.

PART 4. MAJOR INDUSTRIAL FACILITY SALES TAX REFUNDS

SECTION 4.1. G.S. 105-164.14 is amended by adding a new subsection to read:

"(j) Certain Industrial Facilities. – The owner of an eligible facility is allowed an annual refund of sales and use taxes as provided in this subsection.

(1) Refund. – The owner of an eligible facility is allowed an annual refund of sales and use taxes paid by it under this Article on building materials, building supplies, fixtures, and equipment that become a part of the real property of the eligible facility. Liability incurred indirectly by the owner for sales and use taxes on these items is considered tax paid by the owner. A request for a refund must be in writing and must include any information and documentation required by the Secretary. A request for a refund is due within six months after the end of the State's fiscal year. Refunds applied for after the due date are barred.

(2) Eligibility. – A facility is eligible under this subsection if it meets both of the following conditions:

a. It is primarily engaged in one of the industries listed in this subsection.

b. The Secretary of Commerce has certified that the owner of the facility will invest at least one hundred million dollars ($100,000,000) of private funds to acquire, construct, and equip the facility in this State.

(3) Industries. – This subsection applies to the following industries:

a. Bioprocessing. Bioprocessing means biomanufacturing or processing that includes the culture of cells to make commercial products, the purification of biomolecules from cells, or the use of these molecules in manufacturing.

b. Pharmaceutical and medicine manufacturing and distribution of pharmaceuticals and medicines. Pharmaceutical and medicine manufacturing means any of the following:
1. Manufacturing biological and medicinal products. For the purpose of this sub-subdivision, a biological product is a preparation that is synthesized from living organisms or their products and used medically as a diagnostic, preventive, or therapeutic agent. For the purpose of this sub-subdivision, bacteria, viruses, and their parts are considered living organisms.

2. Processing botanical drugs and herbs by grading, grinding, and milling.

3. Isolating active medicinal principals from botanical drugs and herbs.

4. Manufacturing pharmaceutical products intended for internal and external consumption in forms such as ampoules, tablets, capsules, vials, ointments, powders, solutions, and suspensions.

(4) Forfeiture. – If the owner of an eligible facility does not make the required minimum investment within five years after the first refund under this subsection with respect to the facility, the facility loses its eligibility and the owner forfeits all refunds already received under this subsection. Upon forfeiture, the owner is liable for tax under this Article equal to the amount of all past taxes refunded under this subsection, plus interest at the rate established in G.S. 105-241.1(i), computed from the date each refund was issued. The tax and interest are due 30 days after the date of the forfeiture. A person that fails to pay the tax and interest is subject to the penalties provided in G.S. 105-236."

SECTION 4.2. It is the intent of the General Assembly that the provisions of this part not be expanded. If a court of competent jurisdiction holds any provision of this part invalid, the section containing that provision is repealed. The repeal of a section of this part under this section does not affect other provisions of this part that may be given affect without the invalid provision.

SECTION 4.3. This part becomes effective January 1, 2004, and applies to sales made on or after that date.

PART 5. CIGARETTE EXPORTATION TAX CREDIT

SECTION 5.1. Section 10 of S.L. 1999-333 reads as rewritten:

Sections 5 through 8 of this act become effective December 1, 1999, and apply to offenses committed on or after that date. The remainder of this act is effective when it becomes law. Section 4 of this act is repealed effective for cigarettes exported on or after January 1, 2005-2018."

SECTION 5.2. G.S. 105-130.45 reads as rewritten:

"§ 105-130.45. Credit for manufacturing cigarettes for exportation."

(a) Definitions. – The following definitions apply in this section:

(1) Base year exportation volume. – The number of cigarettes manufactured and exported by a corporation during the calendar year 1998-2003.

(2) Exportation. – The shipment of cigarettes manufactured in the United States to a foreign country sufficient to relieve the cigarettes in the shipment of the federal excise tax on cigarettes.
(3) Successor in business. – A corporation that through amalgamation, merger, acquisition, consolidation, or other legal succession becomes invested with the rights and assumes the burdens of the predecessor corporation and continues the cigarette exportation business.

(b) Credit. – A corporation engaged in the business of manufacturing cigarettes for exportation to a foreign country and that waterborne exports cigarettes and other tobacco products through the North Carolina State Ports during the taxable year is allowed a credit against the taxes levied by this Part. The amount of credit allowed under this section is determined by comparing the exportation volume of the corporation in the year for which the credit is claimed with the corporation's base year exportation volume, rounded to the nearest whole percentage. In the case of a successor in business, the amount of credit allowed under this section is determined by comparing the exportation volume of the corporation in the year for which the credit is claimed with all of the corporation's predecessor corporations' combined base year exportation volume, rounded to the nearest whole percentage. The amount of credit allowed may not exceed six million dollars ($6,000,000) and is computed as follows:

<table>
<thead>
<tr>
<th>Current Year's Exportation Volume Compared to its Base Year's Exportation Volume</th>
<th>Amount of Credit per Thousand Cigarettes Exported</th>

<tr>
<td>120% or more</td>

(c) Cap. – The credit allowed under this section may not exceed the lesser of six million dollars ($6,000,000) or fifty percent (50%) of the amount of tax imposed by this Part for the taxable year reduced by the sum of all other credits allowable, except tax payments made by or on behalf of the taxpayer. This limitation applies to the cumulative amount of the credit allowed in any tax year, including carryforwards claimed by the taxpayer under this section for previous tax years. Any unused portion of a credit allowed in this section may be carried forward for the next succeeding five to ten years.

(d) Documentation of Credit. – A corporation that claims the credit under this section must include the following with its tax return:

1. A statement of the base year exportation volume.
2. A statement of the exportation volume on which the credit is based.
3. A list of the corporation's export volumes shown on its monthly reports to the Alcohol and Tobacco Tax and Trade Bureau of the United States Treasury for the months in the tax year for which the credit is claimed.

(e) No Double Credit. – A taxpayer may not claim this credit and the credit allowed under G.S. 105-130.46 for the same activity.

SECTION 5.3. G.S. 105-130.45(a)(2) reads as rewritten:

“(2) Exportation. – The shipment of cigarettes manufactured in the United States to a foreign country, any of the following sufficient to relieve the cigarettes in the shipment of the federal excise tax on cigarettes:

b. A possession of the United States.
c. A commonwealth of the United States that is not a state."

SECTION 5.4. Section 5.2 of this part is effective for cigarettes exported on or after January 1, 2005. Section 5.3 of this part is effective for taxable years beginning on or after January 1, 2004. The remainder of this part is effective when it becomes law. If any clause or other portion of this act is held invalid, that decision shall not affect the validity of the remaining portions of this act, which are severable.

PART 6. ENHANCED CIGARETTE EXPORTATION TAX CREDIT

SECTION 6.1. Part 1 of Article 4 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-130.46. Credit for manufacturing cigarettes for exportation while increasing employment and utilizing State Ports.
(a) Purpose. – The credit authorized by this section is intended to enhance the economy of this State by encouraging qualifying cigarette manufacturers to increase employment in this State with the purpose of expanding this State's economy, the use of the North Carolina State Ports, and the use of other State goods and services, including tobacco.
(b) Definitions. – The following definitions apply in this section:
(1) Employment level. – The total number of full-time jobs and part-time jobs converted into full-time equivalents.
(2) Exportation. – The shipment of cigarettes manufactured in the United States to a foreign country sufficient to relieve the cigarettes in the shipment of the federal excise tax on cigarettes.
(3) Full-time job. – A position that requires at least 1,600 hours of work per year and is intended to be held by one employee during the entire year.
(4) Successor in business. – A corporation that through amalgamation, merger, acquisition, consolidation, or other legal succession becomes invested with the rights and assumes the burdens of the predecessor corporation and continues the cigarette exportation business.
(c) Employment Level. – In order to be eligible for a full credit allowed under this section, the corporation must maintain an employment level in this State that exceeds the corporation's employment level in this State at the end of the 2004 calendar year by at least 800 full-time jobs. In the case of a successor in business, the corporation must maintain an employment level in this State that exceeds all its predecessor corporations' combined employment levels in this State at the end of the 2004 calendar year by at least 800 full-time jobs. A job is located in this State if more than fifty percent (50%) of the employee's duties are performed in this State.
(d) Credit. – A corporation that satisfies the employment level requirement under subsection (b) of this section, is engaged in the business of manufacturing cigarettes for exportation, and exports cigarettes and other tobacco products through the North Carolina State Ports during the taxable year is allowed a credit as provided in this section. The amount of credit allowed under this section is equal to forty cents (40¢) per one thousand cigarettes exported. The amount of credit earned during the taxable year may not exceed ten million dollars ($10,000,000).
(e) Reduction of Credit. – A corporation that has previously satisfied the qualification requirements of this section but that fails to satisfy the employment level requirement in a succeeding year may still claim a partial credit for the year in which
the employment level requirement is not satisfied. The partial credit allowed is equal to
the credit that would otherwise be allowed under subsection (c) of this section
multiplied by a fraction. The numerator of the fraction is the number of full-time jobs
by which the corporation’s employment level in this State exceeds the corporation's
employment level in this State at the end of the 2004 calendar year. The denominator of
the fraction is 800. In the case of a successor in business, the numerator of the fraction
is the number of full-time jobs by which the corporation's employment level in this State
at the end of the 2004 calendar year.

(f) Allocation. – The credit allowed by this section may be taken against the
income taxes levied under this Part or the franchise taxes levied under Article 3 of this
Chapter. When the taxpayer claims a credit under this section, the taxpayer must elect
the percentage of the credit to be applied against the taxes levied under this Part with
any remaining percentage to be applied against the taxes levied under Article 3 of this
Chapter. This election is binding for the year in which it is made and for any
carryforwards. A taxpayer may elect a different allocation for each year in which the
taxpayer qualifies for a credit.

(g) Ceiling. – The total amount of credit that may be taken in a taxable year
under this section may not exceed the lesser of the amount of credit which may be
earned for that year under subsection (c) of this section or fifty percent (50%) of the
amount of tax against which the credit is taken for the taxable year reduced by the sum
of all other credits allowable, except tax payments made by or on behalf of the taxpayer.
This limitation applies to the cumulative amount of the credit allowed in any tax year,
including carryforwards claimed by the taxpayer under this section or G.S. 105-130.45
for previous tax years.

(h) Carryforward. – Any unused portion of a credit allowed in this section may
be carried forward for the next succeeding 10 years. All carryforwards of a credit must
be taken against the tax against which the credit was originally claimed. A successor in
business may take the carryforwards of a predecessor corporation as if they were
carryforwards of a credit allowed to the successor in business.

(i) Documentation of Credit. – A corporation that claims the credit under this
section must include the following with its tax return:

(1) A statement of the exportation volume on which the credit is based.
(2) A list of the corporation's export volumes shown on its monthly
reports to the Alcohol and Tobacco Tax and Trade Bureau of the
United States Treasury for the months in the tax year for which the
credit is claimed.
(3) Any other information required by the Department of Revenue.

(j) No Double Credit. – A taxpayer may not claim this credit and the credit
allowed under G.S. 105-130.45 for the same activity.

(k) Reports. – Any corporation that takes a credit under this section must submit
an annual report by May 1 of each year to the Senate Finance Committee, the House of
Representatives Finance Committee, the Senate Appropriations Committee, the House
of Representatives Appropriations Committee, and the Fiscal Research Division of the
General Assembly. The report must state the amount of credit earned by the corporation
during the previous year, the amount of credit including carryforwards claimed by the
corporation during the previous year, and the percentage of domestic leaf content in
cigarettes produced by the corporation during the previous year. The first reports
required under this section are due by May 1, 2006.”
SECTION 6.2. This part is effective for taxable years beginning on or after January 1, 2006, and expires for exports occurring on or after January 1, 2018.

Veto Message for Senate Bill 931

STATE OF NORTH CAROLINA
OFFICE OF THE GOVERNOR
20001 MAIL SERVICE CENTER • RALEIGH, NC 27699-0001

MICHAEL F. EASLEY
GOVERNOR

Governor's Objection and Veto Message

Section four of Senate Bill 911 as ratified states that "no new requirement added by the State Board of Education to the teacher certification process may be required for licensure now or in the future without explicit legislative authorization."

The North Carolina Constitution and our state Supreme Court decision in Leandro support the State Board's role to determine the standards and requirements for public school teachers in North Carolina reflecting our priorities for improving student achievement. Both charge the executive branch of government with a duty to provide every child with an opportunity for a sound basic education. This duty cannot be fulfilled without the executive branch having the capacity to adjust rules, regulations, and policies in a timely manner that reflect changing societal and educational needs. While the Constitution reserves certain powers to the General Assembly, it specifically grants the general authority for the State Board of Education to "administer the free public school system."

Section four of this bill impairs the executive branch's ability to execute its constitutional duty. This section is also in direct conflict with and erodes the Excellent Schools Act of 1997 requiring the State Board to set rigorous standards for teachers and student achievement.

Removing the authority of the State Board of Education to ensure teacher standards is not only bad public policy, but it is also constitutionally questionable.

For the reasons stated above, I veto the bill

Veto Message for House Bill 917

STATE OF NORTH CAROLINA
OFFICE OF THE GOVERNOR

MICHAEL F. EASLEY
GOVERNOR

August 19, 2003

GOVERNOR’S OBJECTIONS AND VETO MESSAGE

House Bill 917 would raise the fees that consumer finance companies may charge mortgage borrowers by two percentage points (from one percent to three percent). It would allow new delinquency fees and new modification fees of $150 each per year. All of these fee increases are in addition to the statutorily allowed interest of up to 15 percent.

Consumer finance companies primarily make high rate, personal unsecured consumer loans to borrowers who may not qualify for bank loans. However, if consumer finance companies move these borrowers into first mortgage loans, they can charge up to 15 percent interest and an origination fee, while taking the borrower’s home as security. To allow additional charges under these circumstances is unnecessary and harmful.

North Carolina is known for having one of the toughest predatory lending laws in the country. During a national recession, many families are struggling to make ends meet. However, the five large national and international conglomerates that make the vast majority of consumer finance loans are thriving. This legislation has no economic benefit to North Carolina or our working families. It would simply increase the cost of loans for North Carolina citizens at a time that they can afford it least.

Therefore, I veto the bill.

A JOINT RESOLUTION HONORING THE 250TH ANNIVERSARY OF ROWAN COUNTY AND THE MEMORY OF MATTHEW ROWAN.

Whereas, Rowan County was established 250 years ago on April 12, 1753, through an act of the General Assembly of North Carolina; and

Whereas, this county has played a significant role in the development of all of North Carolina and her people:

(1) First serving as home to important Yadkin riverbank dwellings of Native Americans, including the Guatari, Catawba, and Saponia, host to explorers of the North American Continent, including Juan Pardo, John Lawson, and John Lederer.

H.J.R. 1161 Resolution 2003-11

A JOINT RESOLUTION HONORING NASCAR, ITS PIONEER RACING FAMILIES AND DRIVERS, AND NORTH CAROLINA MOTOR RACING.

Whereas, North Carolina takes great pride in its position as the stock car racing capital of the United States and the world; and

Whereas, North Carolina is the home of NASCAR, which staged its first sanctioned "purely stock car" race at the Charlotte Speedway on June 19, 1949; and

Whereas, since that time, NASCAR and motorsports events have become and remain hugely popular with the people of North Carolina, with more than one million people attending motorsports events in North Carolina each year, thereby substantially enhancing the tourism industry in and economy of North Carolina; and

Whereas, North Carolina currently hosts five NASCAR Winston Cup events, with two being held at the North Carolina Speedway in Rockingham and three at the Lowe's Motor Speedway, near Charlotte, and is thus the stock car racing capital of the world; and

Whereas, these Winston Cup races materially affect North Carolina's economy, and the loss of any Winston Cup event would have a tremendous negative impact on jobs and tax revenues in the Rockingham and Charlotte areas and the tourism industry in North Carolina in general; and

Whereas, North Carolina has established the William States Lee College of Engineering at the University of North Carolina at Charlotte which offers an undergraduate program concentrating on motorsports engineering; and

Whereas, after World War II, stock car racing evolved as a sport in the foothills, the pinewoods, and the piedmont of North Carolina, quickly becoming one of the deepest traditions in North Carolina popular culture; and

Whereas, more NASCAR teams are located in North Carolina than in any other state; several world-class tracks stretch across North Carolina and provide racing enthusiasts with a chance each year to watch the legends of stock car racing; and North Carolina has produced more Winston Cup champions than any other state; and

Whereas, no one who ever saw them will forget the legendary pioneer stockcar drivers who were native or adopted Tar Heels, such as Curtis Turner, Fireball Roberts, Lee Petty, Speedy Thompson, Herb Thomas, Banjo Matthews, Junior Johnson,
Ralph Earnhardt, Wendell Scott, Tim and Fonty Flock, Buck Baker, and others too numerous to mention; and
Whereas, the Pettys, the Earnhardts, and the Jarretts of North Carolina are among the most famous racing families in the world and still call North Carolina home; and
Whereas, it is in the best interests of North Carolina and of NASCAR to continue the extremely close relationships that have developed and to continue to cooperate and work together to provide and retain the current Winston Cup races held at Rockingham and Charlotte; and
Whereas, in 1996, a study prepared by the North Carolina Department of Commerce found that the motorsports industry contributed $392 million to the State's economy and employed more than 4,000 people, and in 2003, that economic impact figure has climbed to over $1.5 billion and more than 10,000 jobs; Now, therefore,

Be it resolved by the House of Representatives, the Senate concurring:
SECTION 1. The North Carolina General Assembly celebrates, commends, and commemorates NASCAR for the many valuable contributions it has made to the sporting scene and popular culture in North Carolina and its important support of and contributions to North Carolina's economy.
SECTION 2. The North Carolina General Assembly celebrates and honors the memory of the Pettys, the Earnhardts, and the Jarretts, North Carolina's famous racing families, as well as the memory of the courageous pioneer stock car drivers, who made NASCAR and North Carolina motorsports the legends that they are today.
SECTION 3. The Secretary of State shall transmit a certified copy of this resolution to the governing body and officers of NASCAR, to the owner of the North Carolina Speedway, and to the owner of the Lowe's Motor Speedway.
SECTION 4. This resolution is effective upon ratification.

S.J.R. 1024

Resolution 2003-14

A JOINT RESOLUTION COMMEMORATING THE NORTH CAROLINA COMMUNITY COLLEGE SYSTEM ON THE OCCASION OF ITS FORTIETH ANNIVERSARY AND HONORING THOSE WHO HELPED CREATE THE COMMUNITY COLLEGE SYSTEM.

Whereas, the foresight, commitment, and endeavors of many who embraced the philosophy of total education, including Governor Luther Hodges, Governor Terry Sanford, Dallas Herring, Issac Epps (I.E.) Ready, and State Representatives Ned Delamar, Gordon Greenwood, Russell Swindell, and Edward Wilson led to the legislation creating a system of community colleges; and

Whereas, in the years following World War II, North Carolina began a rapid shift from an agricultural to an industrial economy; and

Whereas, with that change came an awareness that a different kind of education was needed in the State; and
Whereas, in 1957, the General Assembly adopted the first Community College Act and provided funding for community colleges and also provided funding to initiate a statewide system of Industrial Education Centers. These centers were to train adults and selected high school students in skills needed by industry; and

Whereas, on May 17, 1963, the General Assembly enacted the law that provided for the establishment of a Department of Community Colleges under the State Board of Education and for the administration of institutions in the Community College System. There were then 20 industrial education centers, six community colleges (three of which became four-year schools in 1963), and five extension units; and

Whereas, by 1966, there were 43 institutions with 28,250 full-time equivalent (FTE) enrollments. In 1969, there were 54 institutions with 59,329 FTE. The system grew very rapidly, exceeding 10% annually nearly every year until the late 1970s. In 1974-1975, growth reached the 33% mark; and

Whereas, the system continues to grow in enrollments nearly every year; and

Whereas, the original legislation placed the community college system under the purview of the State Board of Education and created a State Department of Community Colleges. In 1979, the General Assembly changed the State control of the system. A provision was made for a separate State Board of Community Colleges. The Board was appointed and organized in 1980. The new Board assumed full responsibility for the system on January 1, 1981; and

Whereas, in 1988, the North Carolina Community College System celebrated its 25th anniversary, recognizing that in its first quarter century of service, the system had emerged as the nation's third largest community college network, educating millions of students during its 32-year history and employing thousands of faculty and staff; and

Whereas, the North Carolina Community College System has from its earliest days proudly pursued the philosophy of the "open door" by providing convenient and affordable access to any student seeking to benefit from the resources offered at a community college; and

Whereas, during the 40 years since that historic day in 1963, each institution of the North Carolina Community College System has been committed to providing workforce training and retraining, sustained support for economic development, and comprehensive services to communities and individuals; and

Whereas, the North Carolina Community College System has had from its inception as its primary mission the training of North Carolina's workforce; and

Whereas, in order to carry out that mission, the North Carolina Community College System supports the State's business and industry sector by providing a myriad of services, including focused industrial training, new and expanding industry training, small business centers, joblink career centers, and human resources development; and

Whereas, more than 800,000 adults now enroll each year in the North Carolina Community College System; and

Whereas, the North Carolina Community College System serves a broad range of persons with differing needs, skills, and interests by providing a wide range of educational opportunities, including basic skills (adult high school, general educational development (GED), adult basic education, and English as a second language); continuing education; college tech prep, curriculum (certificates, diplomas, and associate degrees), and college transfer; and

Whereas, the North Carolina Community College System is vital to our State's economic recovery, growth, and future success; Now, therefore,
Be it resolved by the Senate, the House of Representatives concurring:

SECTION 1. The General Assembly honors the memory of Governor Terry Sanford and the other individuals named in this resolution for their role in helping to create the North Carolina Community College System.

S.J.R. 608 Resolution 2003-23

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF TIMOTHY REESE MCLAURIN.

Whereas, today we honor Timothy Reese McLaurin, whose seven books of fiction, memoir, and poetry traced the soul of North Carolina in rare and wondrous language. He framed its fields and towns, ponds and woods and rivers, and he captured
its people, the plain but never ordinary, rough-hewn, down-home, heroic folk who nurtured and fought and fled and loved each other and the land.

All this he did, according to his own prodigious imagination and craft, as a son of North Carolina who traveled widely in the world and deeply at home, but whose every hour was fed, even in his remotest sojourns, by the soil that made him who he was. Clearly he loved everything about North Carolina – the flat fields and woods east of Fayetteville and the forested hills west of Chapel Hill, and all the places in between.

We honor a man who grew up in small town North Carolina, worked in tobacco fields and played on his high school basketball team, traveled with his snakes in a carnival, served in both the Peace Corps and the Marine Corps, and graduated from the University of North Carolina with a degree in journalism and a fiery passion for words and story making.

We honor a man who joined the creative writing faculty of North Carolina State University in 1989 and who from that time became a powerful presence in the lives of hundreds of students.

The things that Tim McLaurin most honored by his living were his family, his craft, his legion of friends, the land that he held a sacred trust, and the young people who, turning to him for instruction, received rigorous honesty, great good humor, and inspiration as well. We in turn honor a man who fought tirelessly for what he believed in and in his last years, with grace and eloquence, fought against the disease of cancer.

To mark this battle he wore, on his chest, a tattoo of a Phoenix, a symbol that today recalls to us the stern beauty of his life and his written legacy. We can do no better than to let our last words of honor come from his pen, as he tells us:

"We are sons and daughters of the land, our heritage tied to fields and woods, the call of hunt, the spiritual transition of the seed that cracks the hard earth and grows into weed, food, flower, or tree. I have carried in my wallet for seven years a plastic sandwich bag filled with plain dirt scooped from the pasture behind the homeplace. It has traveled with me through Africa, Europe, and much of America, a talisman that whispers to me the song of mourning doves, wind in the longleaf pines, the low rumble of thunder from a summer storm that has recently passed and soaked the dry fields. I hope to waltz slowly to that tune the day I lift above this bright land;". Now, therefore,

Be it resolved by the Senate, the House of Representatives concurring:

EXECUTIVE ORDER NO. 53
EMERGENCY RELIEF FOR DAMAGE
CAUSED BY HURRICANE ISABEL

WHEREAS, I have proclaimed that a state of emergency and threatened disaster exists in North Carolina due to Hurricane Isabel thereby justifying an exemption from 49 C.F.R. 390-397 (Federal Motor Carrier Safety Regulations); and

WHEREAS, under the provisions of N.C.G.S. 166A-4 and 166A-6(c)(3), the Governor, with the concurrence of the Council of State, may regulate and control the flow of vehicular traffic and the operation of transportation services; and

WHEREAS, with the concurrence of the Council of State, I have found that if vehicles bearing food, equipment, and supplies to relieve our hurricane-stricken counties must adhere to the registration requirements of N.C.G.S. 20-86.1 and 20-382, fuel tax requirements of N.C.G.S. 105-449.47, and the size and weight requirements of N.C.G.S. 20-116 and N.C.G.S. 20-118 citizens in those counties will likely suffer losses and, therefore, invoke an imminent threat of widespread damage within the meaning of N.C.G.S. 166A-4.

NOW THEREFORE, pursuant to the authority vested in me as Governor by the Constitution and the laws of the State of North Carolina, and with the concurrence of the Council of State IT IS ORDERED:

Section 2. Notwithstanding the waivers set forth above, size and weight restrictions and penalties have not been waived under the following conditions:

(A) When the vehicle weight exceeds the maximum gross weight criteria established by the manufacturer (GVWR) or 90,000 pounds gross weight, whichever is less.

(B) When the tandem axle weight exceeds 42,000 pounds and the single axle weight exceeds 22,000 pounds.

(C) When a vehicle/vehicle combination exceeds 12 feet in width and a total overall vehicle combination length of 75 feet from bumper to bumper.

Section 3. Vehicles referenced under section 1 shall be exempt from the following registration requirements:

(A) The $50.00 fee listed in N.C.G.S. 105-449.49 for a temporary trip permit is waived for the vehicles described above. No quarterly fuel tax is required because the exception in N.C.G.S. 105-449.45(a)(1) applies.

(B) The registration requirement under N.C.G.S. 20-382 concerning intrastate and interstate for-hire authority is waived; however, vehicles shall maintain the required limits of insurance.

(C) Non-Participants in North Carolina’s International Registration Plan will be permitted into North Carolina in accordance with the spirit of the exemptions identified by this Executive Order.

Section 4. The size and weight exemption for vehicles will be allowed on all routes designated by the North Carolina Department of Transportation, except those routes designated

38 Reduction in Continuation Budget Increase
Reduce the amount requested by the UNC system for continuation increases. Some of the categories for reduction of inflationary or other types of continuation increases include utilities, building reserves, equipment and vehicle replacements.

39 One-Time Flexibility Reduction for Campuses
It is recommended by the Governor that the 2003-04 continuation budget be reduced by approximately .77% for each of the sixteen campuses and UNC General Administration. These are to be management flexibility reductions.

40 Flexibility Reduction for Campuses
The Governor recommends a 3% management flexibility reduction for the sixteen campuses and UNC General Administration.

41 Flexibility Reduction for Special Campuses
The Governor recommends a reduction of 1.5% for the NC School of Science and Math, the Area Health Education Centers (AHEC), and UNC Hospitals. These are management flexibility reductions.

42 Escheat Fund Offset
The Governor recommends reducing a portion of the General Funds used to pay for the UNC need-based scholarship program by using funds from the Escheat Fund. This is not a true cut, but rather a swap of funding sources to pay for scholarships for need-based aid.

43 Regular Term Enrollment Growth
The Governor recommends full funding of the UNC Board of Governors’ enrollment growth request. It estimates an increase of 6,123 full-time equivalent (FTE) students or 4.5% to 152,991 FTE in 2003-04. Of this amount, $500,000 shall be used to fund the enrollment increases at the NC School of Science and Math.

3 Veterans’ Children Scholarship Program
Transfers funding for 73% of the scholarships from appropriation-support to receipt-support. That portion will be supported by receipts from the Escheats Fund. The Veterans’ Children Scholarship Program provides scholarships for children of veterans who are attending colleges or universities in the State. Historically, approximately 10% of the scholarships has been awarded to students who attended private colleges or universities in the State and 17% has been awarded to students who are statutorily entitled to them. The remaining 73% has been awarded competitively based on need. Constitutionally, the Escheats Fund can only be used to aid worthy and needy students who are residents of this State and are enrolled in public institutions in the State. Therefore, the portion of the funding that is being transferred to receipt-support is the 73% that is awarded to students who attend public institutions in the State and who receive a competitive award based on a need determination.

### Legislative Changes

1100 Administration and Operations

#### 50 Position Eliminations
The Governor recommended eliminating two positions (one filled and one vacant). The salary and benefits included in the Governor's recommended budget were erroneous and when recalculated, actually decreased the position dollar amount. Revised position money calculations are inserted in lieu of the Governor's recommendation. To maintain the Governor's budget reduction level, OAH funds were reduced from other operating expenses. Position eliminations are effective 7/1/03.

- Position (vacant) 8210-1100-0000-027: ($31,600)
- Position (filled) 8210-1100-0000-017: ($52,107)

#### 51 Increase Federal Receipts
The Governor recommended increasing federal receipts by $10,000 and the General Assembly increased federal receipts another $4,000. The cumulative increase in federal receipts approaches the contract total between the Office of Administrative Hearings (OAH) and the Equal Employment Opportunity Commission (EEOC). This change assumes that OAH will close nearly the maximum number of cases.

#### 52 Reduce Operating Expenses
OAH substituted the following reductions in operating expenses in lieu of the Governor's budget reduction recommended items. These are the accepted substitutions:

- 531631 Workers Compensation (eliminate increase in continuation budget): ($20,000)
- 532110 Legal Services: ($1,000)
- 532942 Other Employee Education Ex: ($2,629)
- 5327xx Travel Expense: ($5,000)
- 534630 Library Resources: ($2,000)
- 534511 Office Furniture: ($2,700)

**53 Establish IRMC Appropriated Budget**

NGS 147-33.78 sets forth the Information Resource Management Commission's (IRMC) purpose, composition, and responsibilities. NGS 147-33.79 establishes the IRMC Independent Staff and sets the budget mechanism. Fund 7209 IRMC Independent Staff is used to support the Commission in its research and oversight responsibilities; provide for staff support of the Commission's committees (such as the Technical Architecture and Project Certification Committee (TAPCC), the Information Protection and Privacy Committee (IPPC), and the e-Government Committee); and to provide staff support for the Commission's monthly meetings.

7209 Info. Resource Mgmt. Commission (IRMC) $610,367

For the 2004-05 fiscal year, the General Assembly will review and make recommendations regarding the state appropriation to the Office of Information Technology Services. Decisions as to how to budget these funds either through an Internal Service Fund or through the General Fund will be based upon the results of the study as provided by Section 21.1 of this Act.
54 Establish ITS Appropriated Budget

ITS is currently an internal service budget entity. There are currently seven ITS agency funds representing major areas (operations, security, technology and business strategies, customer relations, statewide technology purchasing, financial services, and personnel services).

Fund 7100 ITS-Administration is used for the CIO functions, agency management, and administrative support services and used to develop and document statewide information technology (IT) procurement standards and processes.

Fund 7110 Customer Public Relations Management is used to provide Help Desk technical assistance to ITS customers, liaison services to key ITS customers, and information to customers and the public.

Fund 7200 Enterprise Technology Strategies is used for research of new and emerging communications and information technologies; to develop the Statewide Technical Architecture policies, standards, and best practices and recommend such to the IBC, and monitor project implementation.

Fund 7217 Computing Services is used to provide 24/7 operations in the ITS Computer Center and provides hardware, software, and support in client locations; manages mainframe and microcomputer services; provides customer support including systems selection and implementation; and offers distributed computer services across several platforms.

Fund 7224 State Telecommunications is used to conduct research on emerging telecommunications technologies; design, implement, and manage the infrastructure to support the telephones, video, data, statewide backbone communications, and other technologies; and provide computer connectivity.

Fund 7228 Enterprise Solutions is used to provide statewide common enterprise services such as email and common payment services, web services and to support mainframe applications.

Fund 7230 Security and Business Recovery is used to research trends and facilitate rapid response to cyber-attacks; identify and address network vulnerabilities; and develop IT security standards and provide IT security services to agencies.

Requirements per fund:

7100 ITS - Administration $9,181,892
7110 Customer/Public Relat. Mgmt (CPRM) $2,006,867
7200 Enterprise Tech. Strat. (former IIBM) $1,185,882
7217 Computing Services (CS) $40,747,256
7224 Telecommunications Services (TS) $90,799,077
7228 Enterprise Solutions $4,917,501
7230 Security and Business Recovery $5,426,051

For the 2004-05 fiscal year, the General Assembly will review and make recommendations regarding the state appropriation to the Office of Information Technology Services. Decisions as to how to budget these funds either through an Internal Service Fund or through the General Fund will be based upon the results of the study as provided by Section 21.1 of this Act.

#### 58 Adjust Call Center and Operating Budget Funds

To provide operating funds for the Call Center in the 2003-05 Biennium the Governor recommends using the fees collected from Project Collect. The cash balance in the reserve is sufficient to cover the projected operating cost. Funds are to be transferred from the reserve to the General Fund Budget Code as expenditures are incurred. Present projections indicate the center will come on-line on October 1, 2003. Per S.L. 2002-126, Section 22.6(c), the department is to report quarterly to Gov Ops on the status of the Call Center’s implementation. The reduction for the Call Center in this Fund is $1,439,716 in FY 03-04 and $1,971,413 in FY 04-05. Additionally, the following expenditure accounts will be reduced each fiscal year per the Governor’s recommended budget adjustments:

Secretary of State
State Board of Elections

1100 Administration

89 Transfer SEIMS Approp. from Fund 1100 to Reserve
Reduce the State Board of Elections' Fund 1100 Administration by $1,665,650. This is the amount currently authorized for expenditure for the Statewide Election Information Management System (SEIMS) or computerized voter registration project and is a portion of what is required for the Maintenance of Effort (MOE) condition stipulated in the Help America Vote Act of 2002 (HAVA) federal legislation. This exact amount will be transferred to a Reserve Fund (19xx) in the State Board of Elections budget and be joined with an additional General Fund appropriation to ensure that the State provides its full 1999-00 expense level of $3,457,586.

90 State Match Funds for HAVA requirements
Provides funds to meet the matching requirement of Title II Help America Vote Act, Public Law 107-252. Under HAVA, there is a required 95% federal / 5% state funding mechanism for funding HAVA requirements. North Carolina expects to receive $52,600,000 in appropriated HAVA Title II federal funds in 2003-04 and an estimated $13,944,000 in 2004-05. North Carolina's match requirement is $1,188,760 for FY 2003-04 and an estimated $733,405 for FY 2004-05. These non-recurring amounts are to be allocated to the State's Election Fund established by S.L. 2003-12.

Also, North Carolina expects to receive an estimated $13,944,000 in federal HAVA funds in 2005-06. An additional $733,405 of state funds would be needed to match those funds when they are allocated.
