1917
Whereas, Columbia/Legacy, 80 years after his first recording session in July 1925, is releasing a three CD set produced by Henry "Hank" Sapoznik, which will be available for the first time during the 10th Annual Charlie Poole Music Festival in the City of Eden on May 20-21, 2005; and

Secretary of State
EXECUTIVE ORDER NO. 80
ACCELERATING TEACHER AND OTHER PERSONNEL RECRUITMENT
AND THE IMPLEMENTATION OF NEEDED ACADEMIC SUPPORT PROGRAMS
FOR AT-RISK CHILDREN IN LIGHT OF JUDICIAL MANDATES,
BUDGET DEVELOPMENTS, AND IMPENDING SCHOOL OPENINGS

WHEREAS, the 2004 General Assembly enacted S.L. 124, “The Current Operations and
Capital Improvements Appropriations Act of 2004” (hereinafter the Act), which was signed into
law on July 20, 2004; and

WHEREAS, the 2005 General Assembly enacted H.B. 1631, which keeps state
government operating through August 5, 2005, and which provides additional funding for
enrollment increases and which was signed into law on July 19, 2005; and

WHEREAS, in the budget adjustments submitted to the General Assembly for the 2005-
06 fiscal year, I recommended funding to meet the increased operation costs of our public
schools while providing for the needs of disadvantaged students; and

WHEREAS, public schools across the state must plan now for their opening in a few
weeks, and the state court monitoring of North Carolina’s effort to ensure a sound, basic
education for every student continues; and

WHEREAS, in the school funding lawsuit, known as Leandro, the Court stated that at a
minimum every school must be provided the resources necessary to support an effective
instructional program within that school so that the educational needs of all children, including
at-risk children, can be met; and

WHEREAS, on May 24, 2005, the Court isolated the particular problems of meeting the
needs of at-risk students in North Carolina’s high schools and outlined the need for the state to
bring together the “combined expertise, educators, resources, and money to fix the ‘high school
problem’ so that the children attending those schools will be provided with the opportunity to
obtain a sound, basic education;” and
WHEREAS, on July 11, 2005, the Court scheduled a hearing for August 9, 2005, for the state to show how in the upcoming school year it will address the problems associated with the "poor academic performance" of North Carolina high schools and an update on statewide Leandro compliance; and

WHEREAS, Senate Bill 622, "The Current Operations and Capital Improvements Appropriations Act of 2005," under consideration by the House and Senate has not been passed; and

WHEREAS, the Act allocated funds to support the More at Four Pre-Kindergarten program for at-risk children, the Learn and Earn program, and supplemental funding for LEAs in low-wealth counties; and these programs are necessary for improving educational opportunity and outcomes for children across North Carolina; and these programs are fundamental to addressing the needs of at-risk students, eliminating the achievement gap, reducing the state's persistently high dropout rate, increasing college enrollments, and meeting other education challenges; and

WHEREAS, the current proposed budget includes expanded funding for the Disadvantaged Student Supplemental Fund, Learn and Earn program, Specialty Schools Pilot program, supplemental funding for LEAs in low-wealth counties, teacher training, and child and family support teams; and

WHEREAS, while the General Assembly continues working to ratify a final budget I can approve, the school year for the majority of North Carolina's children is about to begin and preplanning, hiring, and facilities preparation must take place; and

WHEREAS, it is the intent that additional funds be used for low-wealth supplemental funding to recruit and retain high quality teachers; and

WHEREAS, by better connecting public schools with health, mental health, and social services the capacity for multi-disciplinary assessments, referral, and coordination of care for at-risk students and their families will be enhanced through the use of School-Based Child and Family Support Teams utilizing school-based nurses and social worker teams, Local Management Entities' Care Coordinators, and Child and Family Teams Facilitators.

NOW THEREFORE, in light of the factual circumstances set forth above, including the decision in Leandro, and under the legal authority vested in me as Governor by Article I, Section 15 of the Constitution of North Carolina (which states that "The people have a right to the privilege of education, and it is the duty of the State to guard and maintain that right."), Article III of the Constitution of North Carolina, and N.C.G.S. §143-23, I hereby AUTHORIZE AND INSTRUCT:

Section 1. The Director of the More at Four Pre-Kindergarten Program to recruit the teachers necessary to expand the program; and,

Section 2. The Superintendent of Public Instruction, working with and through local school system superintendents, to recruit and hire the staff necessary to
operate Learn and Earn high schools and economic development-themed high schools; and

Section 3. The Superintendent of Public Instruction, working with and through local school system superintendents, and the Secretary of the Department of Health and Human Services, working through local agencies, to recruit and hire the nurses and social workers necessary to operate child and family support teams in our public schools; and

Section 4. The Superintendent of Public Instruction, working with and through local school system superintendents, to put into place the additional teachers and academic support programs needed to support the achievement of at-risk students in districts eligible for Low Wealth Supplemental Funding and Disadvantaged Student Supplemental Funding; and

Section 5. The Presidents of the University of North Carolina and North Carolina Community College System to implement the 2+2 Teacher Education Initiative; and

Section 6. The President of the University of North Carolina to implement the program to improve the effectiveness of new principals; and

Section 7. The State Board of Education and Superintendent of Public Instruction to place accountability on existing funding for at-risk students from the At-Risk Student Services and Improving Student Accountability allotments to ensure these funds are invested in proven strategies for improving student achievement in the most cost effective manner.

This Executive Order is effective July 20, 2005.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State of North Carolina at the Capitol in the City of Raleigh this the 20th day of July, 2005.

Special Initiatives

37 NC Communities In Schools
Reduce pass-through funding in the DJJ/P continuation budget for the NC Communities in Schools (NCIS) administrative office. The goal of NCIS is to improve student school performance and it functions primarily to support the mission of the Department of Public Instruction. NCIS will continue to receive continuation funding of $189,000 R from DJJ/P, $200,000 R from the Governor's Office, and $697,500 R from LEF. In addition, the Education Appropriations Subcommittee's budget provides $560,000 (NR) in expansion funding, as requested in the Governor's Recommended Budget. In total, NCIS will receive $1,476,500 in state funds in FY 06-07.

39 Project P.R.I.D.E.
Bimetal continuation budget funding for this program. Program should seek state funding available through the county JCJs or Federal grants from the Governor's Crime Commission.

39 Eckerd Wilderness Camps
Funds are transferred from the Department of Public Instruction to DJJ/P to offset the educational costs of Eckerd services provided to juveniles admitted from all referral sources.

40 Project Challenge
Funding for Project Challenge is increased to restore a NR reduction in FY 2002 which was erroneously retained in the continuation budget for 2003-04 and 2005-06.

Youth Development Centers

41 Reduce Funding for YDC Beds
The funding for Youth Development Centers is over $44 million dollars. This funding level is based on operating over 600 beds. Average daily population in 2004 was 485. DJJ/P currently has 539 beds open. This action reduces funding by approximately 4%. In implementing this reduction, DJJ/P shall not close any YDC's and shall implement the reduction throughout the YDC system, including positions and YDC non-salary line items.

InCREASE inmatE Co-pay for sick Call from $3 to $5 and for sick call outside normal hours from $5 to $7.

The amount inmates pay towards the administration of the work release program is $16 a day in per diem and $2.50 a day for transportation. This increased to $18 and transportation to $3.

81 Inmate Medical -- Physician Charges
This reduction assumes that CCC will reduce the cost of inpatient and outpatient hospital services for CCC inmates by negotiating reimbursement rates, continuing efforts to regularize medical services, increasing efforts to audit bills, and taking other cost containment actions. Also assumes savings will result from eight new positions established to help control medical costs. A portion of these reductions may be achieved using CCC available funds under conditions detailed in this Act.
