The State Board may certify additional voting systems only if they meet the requirements of the request for proposal process set forth in this section and only if they generate either a paper ballot or a paper record by which voters may verify their votes before casting them and which provides a backup means of counting the vote that the voter casts. Those voting systems may include optical scan and direct record electronic (DRE) voting systems. In consultation with the Office of Information Technology Services, the State Board shall develop the requests for proposal subject to the provisions of this Chapter and other applicable State laws. Among other requirements, the request for proposal shall require at least all of the following elements:

1. That the vendor post a bond or letter of credit to cover damages resulting from defects in the voting system. Damages shall include, among other items, any costs of conducting a new election attributable to those defects.

2. That the voting system comply with all federal requirements for voting systems.

3. That the voting system must have the capacity to include in precinct returns the votes cast by voters outside of the voter's precinct as required by G.S. 163-132.5G.

4. With respect to electronic voting systems, that the voting system generate a paper record of each individual vote cast, which paper record shall be maintained in a secure fashion and shall serve as a backup record for purposes of any hand-to-eye count, hand-to-eye recount, or other audit. Electronic systems that employ optical scan technology to count paper ballots shall be deemed to satisfy this requirement.

5. With respect to DRE voting systems, that the paper record generated by the system be viewable by the voter before the vote is cast electronically, and that the system permit the voter to correct any discrepancy between the electronic vote and the paper record before the vote is cast.

6. With respect to all voting systems using electronic means, that the vendor provide access to all of any information required to be placed in escrow by a vendor pursuant to G.S. 163-165.9A for review and examination by the State Board of Elections; the Office of Information Technology Services; the State chairs of each political party.
recognized under G.S. 163-96; the purchasing county; and designees as provided in subdivision (9) of subsection (d) of this section.

(7) That the vendor must quote a statewide uniform price for each unit of the equipment.

(8) That the vendor must separately agree with the purchasing county that if it is granted a contract to provide software for an electronic voting system but fails to debug, modify, repair, or update the software as agreed or in the event of the vendor having bankruptcy filed for or against it, the source code described in G.S. 163-165.9A(a) shall be turned over to the purchasing county by the escrow agent chosen under G.S. 163-165.9A(a)(1) for the purposes of continuing use of the software for the period of the contract and for permitting access to the persons described in subdivision (6) of this subsection for the purpose of reviewing the source code.

In its request for proposal, the State Board of Elections shall address the mandatory terms of the contract for the purchase of the voting system and the maintenance and training related to that voting system.

No If a voting system was acquired or upgraded by a county before August 1, 2005, shall be used in an election during or after 2006 unless the county shall not be required to go through the purchasing process described in this subsection if the county can demonstrate to the State Board of Elections compliance with the requirements in subdivisions (1) through (6) and subdivision (8) of this subsection, where those requirements are applicable to the type of voting system involved. If the county cannot demonstrate to the State Board of Elections that the voting system is in compliance with those subdivisions, the county board shall not use the system in an election during or after 2006, and the county shall be subject to the purchasing requirements of this subsection.

The presidential ballot item shall be the subject of the sampling in a presidential election. If there is no statewide ballot item, the State Board shall provide a process for selecting district or local ballot items to adequately sample the electorate. The sample chosen by the State Board shall be of one or more full precincts, full counts of mailed absentee ballots, and full counts of one or more one-stop early voting sites, or a combination. The size of the sample of each category shall be chosen to produce a statistically significant result and shall be chosen after consultation with a statistician. The actual units shall be chosen at random. In the event of a material discrepancy between the electronic or mechanical count and a hand-to-eye count, the hand-to-eye count shall control, except where paper ballots or records have been lost or destroyed or where there is another reasonable basis to conclude that the hand-to-eye count is not the true count. If the discrepancy between the hand-to-eye count and the mechanical or electronic count is significant, a complete hand-to-eye count shall be conducted."

... (c) If the employer or insurer denies the employee's right to compensation, the employer or insurer shall notify the Commission, on or before the fourteenth day after it has written or actual notice of the injury or death, or within such reasonable additional time as the Commission may allow, and advise the employee in writing of its refusal to pay compensation on a form prescribed by the Commission. This notification shall (i) include the name of the employee, the name of the employer, the date of the alleged injury or death, the insurer on the risk, if any, and a detailed statement of the grounds upon which the right to compensation is denied, and (ii) advise the employee of the employee's right to request a hearing pursuant to G.S. 97-83. If the employer or insurer, in good faith, is without sufficient information to admit the employee's right to compensation, the employer or insurer may deny the employee's right to compensation.

(d) In any claim for compensation in which the employer or insurer is uncertain on reasonable grounds whether the claim is compensable or whether it has liability for the claim under this Article, the employer or insurer may deny the claim in good faith or initiate compensation payments without prejudice and without admitting liability. The initial payment shall be accompanied by a form prescribed by and filed with the Commission, stating that the payments are being made without prejudice. Payments made pursuant to this subsection may continue until the employer or insurer contests or accepts liability for the claim or 90 days from the date the employer has written or actual notice of the injury or death, whichever occurs first, unless an extension is granted pursuant to this section. Prior to the expiration of the 90-day period, the employer or insurer may upon reasonable grounds apply to the Commission for an extension of not more than 30 days. If at any time during the 90-day period or extension thereof, the employer or insurer contests the compensability of the claim or its liability therefor, it may suspend payment of compensation and shall promptly notify the Commission and the employee on a form prescribed by the Commission. The employer or insurer must provide on the prescribed form a detailed statement of its grounds for denying compensability of the claim or its liability therefor. If the employer or insurer does not contest the compensability of the claim or its liability therefor within 90 days from the date it first has written or actual notice of the injury or death, or within such additional period as may be granted by the Commission, it waives the right to contest the compensability of and its liability for the claim under this Article. However, the employer or insurer may contest the compensability of or its liability for the claim after the 90-day period or extension thereof when it can show that material evidence was discovered after that period that could not have been reasonably discovered earlier, in which event the employer or insurer may terminate or suspend compensation subject to the provisions of G.S. 97-18.1.

GOVERNOR'S OBJECTIONS AND VETO MESSAGE

Senate Bill 542 "An Act To Allow Reasonable Access To State Facilities And Employees For Certain Employee Associations" would mandate access to state facilities and state employees for employee associations with more than 40,000 members for the purposes of membership recruitment, member consultation, and certain products such as insurance products sold by the associations.

The floor of 40,000 members is substantially higher than other statutory requirements for minimum memberships of employee associations. This and other qualifications in the legislation would therefore have the practical effect of giving exclusive access to state facilities to only one employee association of the many who currently represent the interests of public employees. Such a prohibition is patently unfair and jeopardizes employee rights to free association.

By enumerating the right of certain associations to have access to state facilities and employees to sell products offered on the commercial market, the legislation would also give an unfair competitive advantage to insurers affiliated with these particular employee associations. This provision, at the very least, gives an appearance of endorsement of these products by the state of North Carolina, which is inaccurate and therefore not acceptable.

I have signed an executive order directing all state entities under my control and encouraging all other governmental entities to provide the reasonable access that this legislation attempts to affford employee associations if they meet current statutory requirements for payroll withholding.

Since Executive Order 105 satisfies the core legislative intent of providing access among employees and their employee associations, while ensuring fairness, this legislation is not necessary.

Therefore, I veto the bill.

Michael F. Easley

The bill, having been vetoed, is returned to the Clerk of the North Carolina Senate on this 21st day of August, 2006 at 4:56 p.m. for reconsideration by that body.
PROCLAMATION REGARDING VETOED LEGISLATION

Pursuant to Article II, Sec.22(7) of the North Carolina Constitution, a majority of the members of each house of the North Carolina General Assembly have signed written requests stating that a reconvened session to reconsider vetoed legislation is unnecessary.

By this proclamation and pursuant to the authority vested in the Governor by the North Carolina Constitution and North Carolina General Statutes Sec.120-6.1(a), the members of the North Carolina General Assembly, will not reconvene to reconsider Senate Bill 542, "Access to State Facilities," vetoed on August 19, 2006.

Whereas, David H. Murdock, owner and chairman of Castle & Cooke, Inc., and Dole Food Company, Inc., has established a $100 million venture capital fund to attract new companies to the Research Campus and a $150 million charitable foundation to help purchase equipment for the core laboratory and support other nonprofit activities on the campus; and

A JOINT RESOLUTION TO SUPPORT THE EFFORTS OF SISTER, SPEAK, A PROGRAM OF THE YWCA IN WINSTON-SALEM, NORTH CAROLINA, IN ITS QUEST TO EDUCATE AFRICAN-AMERICAN WOMEN ABOUT BREAST HEALTH AND BREAST CANCER AWARENESS, TO ENCOURAGE OTHERS
ACROSS THE STATE TO FORM SIMILAR ORGANIZATIONS TO HELP SAVE THE LIVES OF WOMEN IN THIS STATE, AND TO HONOR THE LIVES OF REVEREND CONITA ARCHIE-HUNT, BENITA SIMS, AND GRETCHEN HOLLAND, WHO WERE ADVOCATES FOR EARLY BREAST CANCER DETECTION AND QUALITY TREATMENT FOR AFRICAN-AMERICAN WOMEN.

Whereas, approximately 20,000 new cases of breast cancer are diagnosed among African-American women in the United States each year, making breast cancer the most common cancer among African-American women in this country; and

Whereas, although African-American women over the age of 40 have a lower incidence of breast cancer than Caucasian women, they are more likely to die from the disease because they are often less able to afford adequate and quality medical care; and

Whereas, because of the lack of medical care, many African-American women do not receive regular screening mammograms prior to a breast cancer diagnosis, and they do not receive the full range of treatment options after a diagnosis that might prolong or save their lives; and

Whereas, some studies have raised the possibility that African-American women may be more susceptible to aggressive breast cancers that are difficult to treat; and

Whereas, the five-year survival rate for African-American women is significantly less than that for Caucasian women, and approximately 5,700 African-American women die of breast cancer each year; and

Whereas, in an effort to make African-American women more knowledgeable about breast health and awareness, Sister, Speak, a YWCA Breast Health Education Program, was started in the City of Winston-Salem in January 2001, with a grant from the North Carolina Triad Affiliate of the Susan G. Komen Foundation; and

Whereas, Sister, Speak delivers the message of breast health and awareness to African-American women through church meetings, casual gatherings, hair salons, health fairs, individual chats, sororities, pot luck dinners, and special events; and

Whereas, in 2002, 2003, 2004, and 2005, Sister, Speak provided 85 mammograms to uninsured or underinsured African-American women; and

Whereas, since it was founded, Sister, Speak has reached at least 5,400 African-American women with its message of breast health and awareness; and

Whereas, in 2002, 2003, 2004, and 2005, Sister, Speak was recognized for organizing the largest community and largest nonprofit team to participate in the North Carolina Triad Race for the Cure; and

Whereas, in 2005, three dedicated members of Sister, Speak died from breast cancer: Reverend Conita Archie-Hunt on March 26, 2005, Benita Sims on July 1, 2005, and Gretchen Holland on August 3, 2005; and

Whereas, it is fitting to recognize the work of organizations like Sister, Speak and to honor women of all races who have died from breast cancer; Now, therefore,

Be it resolved by the House of Representatives, the Senate concurring:

SECTION 1. The General Assembly recognizes Sister, Speak, a nonprofit organization in Winston-Salem, North Carolina, for its dedication and persistence in reaching out to African-American women in the Triad region of the State to provide them with valuable information about breast health and awareness and free mammograms that may save lives.
SECTION 2. The General Assembly honors the lives of Sister, Speak members Reverend Conita Archie-Hunt, Benita Sims, and Gretchen Holland for their effort to educate African-American women about breast health and awareness and acknowledges the many other women in this State who have lost their battle with breast cancer.

SECTION 3. The General Assembly encourages individuals and organizations in the State to follow Sister, Speak's example and reach out to women of all races to inform them about the risks of breast cancer and the ways to prevent this deadly disease.

SECTION 4. The Secretary of State shall transmit a copy of this resolution to Sister, Speak and to the families of Reverend Conita Archie-Hunt, Benita Sims, and Gretchen Holland.

Whereas, Senator Horton was a man of both classical sensibility and a touch of whimsy who translated the Capital Press Corps' motto into Latin – Usquam Alius Insolens, or "Anywhere else, we'd just be considered rude"; and

Whereas, Senator Horton regaled and delighted listeners with his lyrical soliloquies, rhapsodizing about the sacrament of country ham amid "the pantheon of North Carolina foods"; the "forbidden fruit" of fireworks smuggled into the State by adolescents; how a move to settle an election in the legislature was "as inappropriate as

Whereas, Ham Horton received numerous awards, including the Carraway Award from Preservation North Carolina in 1997 and the Outdoor Recreation Achievement Award from the United States Department of the Interior in 1976; and

WHEREAS, the Governors of Florida, Mississippi, Alabama and Louisiana have proclaimed that a State of Emergency and a State of Disaster exists in these states due to Hurricane Katrina and thereby, have requested that States, through which property carrying vehicles regulated by size and weight laws, allow exemptions of said laws when vehicles traveling through such states are bearing equipment and supplies to provide relief to the disaster stricken areas in the above States; and

WHEREAS, under the provisions of N.C.G.S. §§ 166A-4 and 166A-6(c)(3) the Governor of North Carolina, with the concurrence of the Council of State, may regulate and control the flow of vehicular traffic and the operation of transportation services; and

WHEREAS, with the concurrence of the Council of State, I have found that vehicles bearing equipment and supplies to relieve Florida, Mississippi, Alabama and Louisiana’s grief stricken areas must adhere to the registration requirements of N.C.G.S. § 20-86.1 and N.C.G.S. § 20-382, fuel tax requirements of N.C.G.S. § 105-449.47, and the size and weight requirements of N.C.G.S. § 20-116 and N.C.G.S. § 20-118; I have further found that citizens in those states have suffered losses and, the imminent threat of further widespread damage within the meaning of N.C.G.S. § 166-A-4(3) will occur,

NOW, THEREFORE, pursuant to the authority vested in me as Governor by the Constitution and the laws of the State of North Carolina, and with the concurrence of the Council of State, IT IS ORDERED;

Section 2. Notwithstanding the waivers set forth above, size and weight restrictions and penalties **have not been waived** under the following conditions:

(A) When the vehicle weight exceeds the maximum gross weight criteria established by the manufacturer (GVWR) or 90,000 pounds gross weight, whichever is less.

Budget Changes

Department Management

40 Positions for Administrative Division
Funding is provided to establish two new positions, effective July 1, 2006, to improve operations within the Department’s Administration Division.

Auditor II (R67)
Occupying Agent II (R68)

41 Reserve for Utility and Fuel Costs
Non-recurring funds are provided to address increasing utility and fuel costs.

Department Wide

42 Textbook Purchases
Funds are provided to purchase additional textbooks for juveniles committed to DJJCP detention centers and youth development centers. This will increase the budget to approximately $76,000.

Special Initiatives

43 Eckerd Wilderness Camps Contract
Funds are provided to increase the rate for the existing 326 contracted beds from $110.41/day to $121.77/day. The adjustment will partially address the difference between the contract rate and Eckerd’s current-year actual operating cost for the seven NC camps ($525.32/day). In addition, the funds are provided for additional beds to increase the total number of contracted beds from 326 to 346.

Youth Development Centers

44 Operating Reserve and Positions for New Beds
Funds are provided to establish an operating reserve for the start-up of new youth development centers scheduled to open between September and December 2007. The original proposal included funds for 56 new positions, as well as funds for training and educational assistance for another 362 positions for five centers. Funding for training and educational assistance is reduced from $245,700 to $267,750. The $267,750 is funded $133,875 recurring and $133,875 non-recurring. The changes are designed to account for the fact that a portion of the 421 positions designated to receive these funds have or will have already received training and/or educational assistance. Also, the requested amount in salary and benefits that was intended only for salary adjustment, $94,000, is eliminated. Finally, the 56 positions requested are reduced to 55. Three positions for the new YOC in Guilford County are eliminated for FY 06-07 due to delays in project startup. The 55 positions are effective at various dates during FY 06-07.

45 Clinical Substance Abuse Supervisor Positions
Legislation passed in 2005 mandates new certification and supervision standards for substance abuse treatment professionals. Supervision standards are one hour of clinical supervision for each 10 hours of counseling for the first 300 hours of treatment counseling and then one hour for every 40 hours thereafter. Adding two supervisors will allow DCC to meet these standards and account for the need for supervision at 22 locations statewide. Positions are effective July 1, 2006.

$9,021 2.00 NR

46 Residential Treatment Programs
DCC has been using long term federal grant funds since the mid-1990’s to fund long term residential treatment for inmates. These funds are being phased out and will be eliminated by 2007-08. 246 beds are currently used to provide 6 to 12 month residential treatment for inmates with serious substance abuse histories. There is enough federal funding to continue to operate programs and 69 beds at Rowan and Western Youth Correctional Centers for 2006-07. The recommended funding is to continue programs at NCD [Women’s Prison - 34 beds] and Morrison Correctional Center (146 beds).

The funding is effective October 1, 2006 and is contingent upon approval of an interagency contract by the State Purchase and Contract Division. The Department of Correction shall report to the Joint Appropriations Subcommittee on Justice and Public Safety by March 1, 2007, on the Evergreen Rehabilitation Center program and the contract for treatment beds, including the impact of adding five new beds.

49 Reserve for Sex Offender Monitoring
Funding is provided to implement active and passive Global Positioning Systems (GPS) in the Department of Correction to monitor the most serious convicted sex offenders that are under some form of DCC supervision. Funding is dependent on passage of HB 1003, SB 1204 or substantially similar legislation on GPS monitoring of sex offenders.

50 Restore CJPP
Restores part of the amount of funds cut from the Criminal Justice Partnership Program in previous years.

51 Probation and Parole Officer Equipment
Funding to begin replacement of body armor worn by parole and probation officers.

52 Fund Women at Risk
Provides an additional $75,000 to the Women at Risk program which works with female offenders in Western North Carolina.

Department Management

53 Medical Claims Management
DCC is increasing its efforts to monitor medical claims from outside providers. This action will establish one additional professional staff (Medical Reimbursement Officer II) to supervise the medical claims review process and to help with the integration of the medical claims system with the NOAS state accounting system. Position is effective July 1, 2008.

54 Information Technology Security
The 2004 Statewide Security Assessment recommended that DCC improve computer security and establish an IT Security Office. DCC currently has only one position devoted to IT Security. In 2005, DCC requested two positions and security software funding but only the software was funded. Funding is provided for two positions, including an IT Security Manager, effective July 1, 2006.

55 Reserve for Energy Costs
For 2005-06, DCC energy costs exceeded the budget by over $6.6 million. Primary cost increases were for heating and cooling 76 prisons and proactive costs for prison and probation and parole. This funding is intended to avoid a budget deficit in 2006-07. Funding is non-recurring on the premise that energy costs may stabilize by 2007-08.

56 Central Engineering Technology
Funding for state-owned design equipment to allow for more in-house design work.

57 Central Engineering Equipment
Funding for construction equipment for use in construction of Change and Oil dwell segregation units and for other inmate labor construction projects.
Conference Report on the Continuation, Capital and Expansion Budgets FY 06-07

58 Information Technology Charges
Increase funding for service charges and fees for information technology services provided to DOCC. Anticipated gap between budget and expenditures is $4 million dollars in FY 06/07.

59 Upgrade Computer Security Equipment
Upgrade computer switching equipment at DOCC's main computer network hub at Worley Road offices and the Lenox disaster recovery site.

Prisons

60 Funding for Children's Place
Funds a program director, contract services and operating expenses. Our Children's Place is a non-profit organization established to operate the incarcerated mother's program.

61 Operating Reserve for Tabor Correctional Center
Establish reserve for startup costs for prison in Columbus County scheduled to open February, 2008.

62 Increase Prison Bed Capacity
Prison population projections continue to show population exceeding bed capacity. Funding is recommended to increase bed capacity by a total of 468 beds spread over six prisons. The prisons are three medium custody -- Brown Creek, Hermitage, and Lumberton -- and three minimum custody prisons -- Dan River, Tillery, and Tyrrell. This capacity increase is possible by increasing the number of inmates in dormitories and adding additional security, medical and program staff. Non-recurring fundig is primarily for inmate bunks and lockers and community college start-up costs. The original recommended amount of $540,000 NR for community college startups is reduced to $270,000 based on a January 1, 2007 start date. Positions are effective January 1, 2007.

63 Inmate Medical Care
Medial costs continue to exceed the inmate medical continuation budget. This funding will partially address the budget needs.

64 Gang Prevention Initiative
DOCC received Governor's Crime Commission grant to develop a "Security Threat Group Unit" at Foothills Correctional Institution. The grant funding ends December 31, 2007 so 6 months funding is provided for 06/07. The program targets gang members and is designed to increase supervision of these inmates while providing education and skills that will allow an inmate to renounce gang activity. Positions are effective December 1, 2006.

65 Security Positions for new Enterprise Plant
Enterprise is opening a new janitorial products plant at Warren Correctional Center. The plant is located off-site and will require nine security positions in order to provide adequate security for 100 inmates. The plant opens in Spring 07 so positions are not effective until February 1, 2007.

Funding is provided for 18 medical records clerks and 20 licensed practical nurses. Adding the medical clerks will free up nurses to devote more time to nursing duties while adding LPNs will help reduce the general shortage of nurses in the prison system. Positions are effective July 1, 2006.

68 Delayed Opening of Segregation Units
The completion dates for 40 bed segregation units at Orange and Oilwell Correctional Centers have been delayed from 2006-07 to 2007-08 allowing for the non-recurring reduction. The total reduction is ($264,430); ($360,839) for Orange and ($503,621) for Oilwell.
