made for similar things to individuals of similar age, sex, income and medical condition in the locality concerned, and the result of such determination shall constitute the maximum allowable as covered medical expenses unless the Claims Processor finds that considerations of fairness and equity in a particular set of circumstances require that greater or lesser charges be considered as covered medical expenses in that set of circumstances.

(11) Charges for or in connection with any dental work or dental treatment except to the extent that such work or treatment is specifically provided for under the Plan. Excluded is payment for surgical benefits for tooth replacement, such as crowns, bridges or dentures; orthodontic care; filling of teeth; extraction of teeth (whether or not impacted); root canal therapy; removal of root tips from teeth; treatment for tooth decay, inflammation of gingiva, or surgical procedures on diseased gingiva or other periodontal surgery; repositioning soft tissue, reshaping bone, and removal of bony projections from the ridges preparatory to fitting of dentures; removal of cysts incidental to removal of root tips from teeth and extraction of teeth; or other dental procedures involving teeth and their bones or tissue supporting structure.

(12) Charges incurred for any medical observations or diagnostic study when no disease or injury is revealed, unless proof satisfactory to the Claims Processor is furnished that (i) the claim is in order in all other respects, (ii) the covered individual had a definite symptomatic condition of disease or injury other than hypochondria, and (iii) the medical observation and diagnostic studies concerned were not undertaken as a matter of routine physical examination or health checkup as provided in G.S. 135-40.6(8).

(13) Charges for eyeglasses or other corrective lenses (except for cataract lenses certified as medically necessary for aphakia persons) and hearing aids or examinations for the prescription or fitting thereof.

(14) Charges for cosmetic surgery or treatment except that charges for cosmetic surgery or treatment required for correction of damage caused by accidental injury sustained by the covered individual while coverage under this plan is in force on his or her account or to correct congenital deformities or anomalies shall not be excluded if they otherwise qualify as covered medical expenses. Reconstructive breast surgery following mastectomy, as those terms are defined in G.S. 58-51-62, is not "cosmetic surgery or treatment" for purposes of this section.

(15) Admissions for diagnostic tests or procedures which could be, and generally are, performed on an outpatient basis and inpatient services or supplies which are not consistent with the diagnosis, for which admitted.

(16) Costs denied by the Claims Processor as part of its overall program of claim review and cost containment.

(16a) Charges in excess of negotiated rates allowed for preferred providers of institutional and professional medical care and services in accordance with the provisions of G.S. 135-40.4, when such
preferred providers are reasonably available to provide institutional and professional medical care.

(17) If a covered service becomes excluded from coverage under the Plan, the Executive Administrator and Claims Processor may, in the event of exceptional situations creating undue hardships or adverse medical conditions, allow persons enrolled in the Plan to remain covered by the Plan's previous coverage for up to three months after the effective date of the change in coverage, provided the persons so enrolled had been undergoing a continuous plan of specific treatment initiated within three months prior to the effective date of the change in coverage.

(18) Charges for services unless a claim is filed within 18 months from the date of service.

(19) Any service, treatment, facility, equipment, drug, supply, or procedure that is experimental or investigational as defined in G.S. 135-40.1(7a) by the Plan. Clinical trial phases III and IV are covered by the Plan as is clinical trial phase II when approved by the Plan. Regardless of the type of trial phases covered by the Plan, all covered trials must involve the treatment of life-threatening medical conditions, must be clearly superior to available noninvestigational treatment alternatives, and must have clinical and preclinical data that shows the trials will be at least as effective as noninvestigational alternatives. Trials must also involve determinations by treating physicians, relevant scientific data, and opinions of experts in relevant fields of medicine. Covered trials must be approved by the National Institutes of Health, a National Institutes of Health cooperative group or center, the U.S. Food and Drug Administration, the U.S. Department of Defense, or the U.S. Department of Veterans Affairs. The Plan may also cover clinical trials sponsored by other entities. Trials must also be approved by applicable qualified institutional review boards. All covered trials must be conducted in and by facilities and personnel that maintain a high level of expertise because of their training, experience, and volume of patients. To be covered by the Plan, patients participating in clinical trials must meet substantially all protocol requirements of the trials and exercise informed consent in the trials. Only medically necessary costs of health care services involved in treatments provided to patients for the purpose of the trials are covered by the Plan to the extent that such costs are not customarily funded by national agencies, commercial manufacturers, distributors, or other such providers. Clinical trial costs not covered by the Plan include, but are not limited to, the costs of services that are not health care services and costs associated with managing research in the trials. The Plan shall not exclude benefits for covered clinical trials if the proposed treatment is the only appropriate protocol for the condition being treated.

(20) Complications arising from noncovered services known at the time the noncovered services were provided.

(21) Charges related to a noncovered service, even if the charges would have been covered if rendered in connection with a covered service.
Charges for services covered by the long-term care benefit provisions of Part 4A of this Article.

Charges disallowed by the Plan's pharmacy benefits manager."

   2. Supervised work experience in the diagnosis and treatment of chemical dependency (with supervision by an appropriately credentialed provider), and

(3) Physicians licensed under Chapter 90 of the General Statutes and certified professionals with training and experience in the care and treatment for chemical dependency and working under the direct supervision of such physicians.

Provided, however, that nothing in this subsection shall prohibit the Plan from requiring the most cost-effective treatment setting to be utilized by the person undergoing necessary care and treatment for chemical dependency.

(d)(e) Benefits provided under this section shall be subject to a case management program for medical necessity and medical appropriateness consisting of (i) precertification of outpatient visits beyond 26 visits each Plan year, (ii) all electroconvulsive treatment, (iii) inpatient utilization review through predmission and length-of-stay certification for nonemergency admissions to the following levels of care: inpatient units, partial hospitalization programs, residential treatment centers, chemical dependency detoxification and treatment programs, and intensive outpatient programs, (iv) length-of-stay certification of emergency inpatient admissions, and (v) a network of qualified, available providers of inpatient and outpatient psychiatric and chemical dependency treatment. (e)(f) For the purpose of this section, "emergency" is the sudden and unexpected onset of a condition manifesting itself by acute symptoms of sufficient severity that, in the absence of an immediate psychiatric or chemical dependency inpatient admission, could imminently result in injury or danger to self or others.

For purposes of this section, the word "Plan" includes all optional and alternative plans, and programs available under the optional or alternative plans, or plans in effect under the State Health Plan and its successor Plans.

SECTION 3.(o) G.S. 135-40.10 is recodified as G.S. 135-39.22 under Part 3A of Article 3A of Chapter 135 of the General Statutes, as enacted by this act, and, as recodified, reads as rewritten:

(a) Benefits payable for covered expenses under this Plan in G.S. 135-40.5G, S. 135-39.18 through G.S. 135-40.9G, S. 135-39.22 will be reduced by any benefits payable for the same covered expenses under Medicare, so that Medicare will be the primary carrier except where compliance with federal law specifies otherwise.

(b) For those participants eligible for Medicare, the State's plan will be administered on a "carve out" basis. The provisions of the plan are applied to the charges not paid by Medicare (Parts A & B). In other words, those charges not paid by Medicare would be subject to the deductible and coinsurance of the Plan just as if the charges not paid by Medicare were the total bill.

(c) For those individuals eligible for Part A (at no cost to them), benefits under this program will be reduced by the amounts to which the covered individuals would be entitled to under Parts A and B of Medicare, even if they choose not to enroll for Part B.
(d) Notwithstanding the foregoing provisions of this section or any other provisions of the Plan, the Executive Administrator and Board of Trustees may enter into negotiations with the Health Care Financing Administration, Centers for Medicare and Medicaid Services, U.S. Department of Health and Human Services, in order to secure a more favorable coordination of the Plan's benefits with those provided by Medicare, including but not limited to, measures by which the Plan would provide Medicare benefits for all of its Medicare-eligible members in return for adequate payments from the federal government in providing such benefits. Should such negotiations result in an agreement favorable to the Plan and its Medicare-eligible members, the Executive Administrator and Board of Trustees may, after consultation with the Committee on Employee Hospital and Medical Benefits, implement such an agreement which shall supersede all other provisions of the Plan to the contrary related to its payment of claims for Medicare-eligible members.

(e) Notwithstanding subsections (a), (b), and (c) of this section, the Plan may offer an optional Medicare Advantage plan to a Medicare eligible Plan member. A Medicare Advantage plan offered by the Plan shall be an insured product offered through a private insurance carrier authorized by the Centers for Medicare and Medicaid Services to offer Medicare Advantage plans. A Medicare Advantage plan offered by the Plan shall not be a self-funded benefit plan underwritten by the State of North Carolina. Prescription drug benefits shall not be included in the benefits offered under a Medicare Advantage insurance product but shall continue to be provided by the Plan as authorized under G.S. 135-39.18.

An eligible Plan member may choose to enroll in a Medicare Advantage plan in lieu of any other benefit coverage plan offered under the Plan to Medicare eligible Plan members. A Medicare eligible Plan member must be enrolled in Medicare Part B to participate in an optional Medicare Advantage plan. A non-Medicare eligible dependent of a Medicare Advantage eligible Plan member may enroll on a fully contributory basis in benefit plans offered under the Plan to non-Medicare eligible Plan members. If an enrolled Plan member decides not to re-enroll in an optional Medicare Advantage plan during the Plan's annual enrollment period, the Plan member may at that time re-enroll in other benefit coverage offered by the Plan in accordance with the provisions of subsections (a), (b), and (c) of this section."

SECTION 3.(p) Part 3A of Article 3A of Chapter 135 of the General Statutes, as enacted by this act, is amended by adding the following new section to read: "§ 135-39.23. Cost-savings initiatives and incentive programs authorized. (a) Cost-Saving Initiatives. – Coverage of Over-the-Counter Medications. – The Executive Administrator and Board of Trustees may authorize coverage for over-the-counter medications as recommended by the Plan's pharmacy and therapeutics committee. In approving for coverage one or more over-the-counter medications, the Executive Administrator and Board of Trustees shall ensure that each recommended over-the-counter medication has been analyzed to ensure medical effectiveness and Plan member safety. The analysis shall also address the financial impact on the Plan. The Executive Administrator and Board of Trustees may impose a co-payment to be paid by each covered individual for each packaged over-the-counter medication. The Executive Administrator and Board of Trustees may adopt policies establishing limits on the amount of coverage available for over-the-counter medications for each covered individual over a 12-month period. Prior to implementing policy and co-payment changes authorized under this section, the Executive Administrator and Board of
Trustees shall submit the proposed policies and co-payments to the Committee on Employee Hospital and Medical Benefits for its review.

(b) Incentive Programs. – For the purposes of helping Plan members to achieve and maintain a healthy lifestyle without impairing patient care, and to increase cost effectiveness in Plan coverage, the Executive Administrator and Board of Trustees may adopt programs offering incentives to Plan members to encourage changes in member behavior or lifestyle designed to improve member health and promote cost-efficiency in the Plan. Participation in one or more incentive programs is voluntary on the part of the Plan member. Before adopting an incentive program, the Executive Administrator and Board of Trustees shall conduct an impact analysis on the proposed incentive program to determine (i) whether the program is likely to result in significant member satisfaction, (ii) that it will not adversely affect quality of care, and (iii) whether it is likely to result in significant cost savings to the Plan. The impact analysis may be conducted by a committee of the Plan, in conjunction with the Plan's consulting actuary, provided that the Plan's medical director participates in the analysis. An approved incentive plan may provide for a waiver of deductibles, co-payments, and coinsurance required under this Article in order to determine the effectiveness of the incentive program in promoting the health of members and increasing cost-effectiveness to the Plan. The Executive Administrator and Board of Trustees shall, before implementing incentive programs authorized under this section, submit the proposed programs to the Committee on Employee Hospital and Medical Benefits for review."

SECTION 3.(q) G.S. 135-40.11 is recodified as G.S. 135-39.24 under Part 3A of Article 3A of Chapter 135 of the General Statutes, as enacted by this act, and as recodified, reads as rewritten:

(a) Coverage under this Plan of an employee and his or her surviving spouse or eligible dependent children or of a retired employee and his or her surviving spouse or eligible dependent children shall cease on the earliest of the following dates:

(1) The last day of the month in which an employee or retired employee dies. Provided such surviving spouse or eligible dependent children were covered under the Plan at the time of death of the former employee or retired employee, or were covered on September 30, 1986, any such surviving spouse or eligible dependent children may then elect to continue coverage under the Plan by submitting written application to the Claims Processor and by paying the cost for such coverage when due at the applicable fees. Such coverage shall cease on the last day of the month in which such surviving spouse or eligible dependent children die, except as provided by this Article.

(2) The last day of the month in which an employee's employment with the State is terminated as provided in subsection (c) of this section.

(3) The last day of the month in which a divorce becomes final.

(4) The last day of the month in which an employee or retired employee requests cancellation of coverage.

(5) The last day of the month in which a covered individual enters active military service.

(6) The last day of the month in which a covered individual is found to have knowingly and willfully made or caused to be made a false statement or false representation of a material fact in a claim for reimbursement of medical services under the Plan. The Executive
Administrator and Board of Trustees may make an exception to the provisions of this subdivision when persons subject to this subdivision have had a cessation of coverage for a period of five years and have made a full and complete restitution to the Plan for all fraudulent claim amounts. Nothing in this subdivision shall be construed to obligate the Executive Administrator and Board of Trustees to make an exception as allowed for under this subdivision.

(7) The last day of the month in which an employee who is Medicare-eligible selects Medicare to be the primary payer of medical benefits. Coverage for a Medicare-eligible spouse of an employee shall also cease the last day of the month in which Medicare is selected to be the primary payer of medical benefits for the Medicare-eligible spouse. Such members are eligible to apply for conversion coverage.

(b) Coverage under this Plan as a dependent child ceases when the child ceases to be a dependent child as defined by G.S. 135-40.1(3) G.S. 135-39.13 except, coverage may continue under this Plan for a period of not more than 36 months after loss of dependent status on a fully contributory basis provided the dependent child was covered under the Plan at the time of loss of dependent status.

(b1) Coverage under the Plan as a surviving dependent child whether covered as a dependent of a surviving spouse, or as an individual member (no living parent), ceases when the child ceases to be a dependent child as defined by G.S. 135-40.1(3) G.S. 135-39.13, except coverage may continue under the Plan on a fully contributory basis for a period of not more than 36 months after loss of dependent status.

(c) Termination of employment shall mean termination for any reason, including layoff and leave of absence, except as provided in subdivisions (a)(1) and (2) of this section, but shall not, for purposes of this Plan, include retirement upon which the employee is granted an immediate service or disability pension under and pursuant to a State-supported Retirement System.

(1) In the event of termination for any reason other than death, coverage under the Plan for an employee and his or her eligible spouse or dependent children, provided the eligible spouse or dependent children were covered under the Plan at termination of employment may be continued for a period of not more than 18 months following termination of employment on a fully contributory basis. Employees who were covered under the Plan at termination of employment may be continued for a period of not more than 18 months or 29 months if determined to be disabled under the Social Security Act, Title II, OASDI or Title XVI, SSI.

(2) In the event of approved leave of absence without pay, other than for active duty in the armed forces of the United States, coverage under this Plan for an employee and his or her dependents may be continued during the period of such leave of absence by the employee's paying one hundred percent (100%) of the cost.

(3) If employment is terminated in the second half of a calendar month and the covered individual has made the required contribution for any coverage in the following month, that coverage will be continued to the end of the calendar month following the month in which employment was terminated.
Employees paid for less than 12 months in a year, who are terminated at the end of the work year and who have made contributions for the non-work months, will continue to be covered to the end of the period for which they have made contributions, with the understanding that if they are not employed by another State-covered employer under this Plan at the beginning of the next work year, the employee will refund to the ex-employer the amount of the employer's cost paid for them during the non-paycheck months.

Any employee receiving benefits pursuant to Article 6 of this Chapter when the employee has less than five years of retirement membership service, or an employee on leave of absence without pay due to illness or injury for up to 12 months, is entitled to continued coverage under the Plan for the employee and any eligible dependents by the employee's paying one hundred percent (100%) of the cost.

No benefits will be paid by this Plan for any expenses incurred or treatment received after cessation of coverage as provided in subsections (a) or (b) of this section, except that in the event of hospital confinement at that time, hospitalization benefits as described in G.S. 135-40.6 will continue to the extent provided therein.

A legally divorced spouse and any eligible dependent children of a covered employee or retired employee may continue coverage under this Plan for a period of not more than 36 months following the first of the month after a divorce becomes final on a fully contributory basis, provided the former spouse and any eligible dependent children were covered under the Plan at the time a divorce became final.

A legally separated spouse of a covered employee or retired employee may continue coverage under this Plan for a period not to exceed 36 months from the separation date on a fully contributory basis, provided the separated spouse was covered under the Plan at the time of separation and provided the covered employee's or retired employee's actions result in the loss of coverage for the separated spouse. Eligible dependent children may also continue coverage if covered under the Plan at time of separation, provided the employee's or retired employee's actions result in the loss of coverage for the dependent children.

Whenever this section gives a right to continuation coverage, such coverage must be elected no later than a date set by the Executive Administrator and Board of Trustees within the time allowed by applicable federal law.

Continuation coverage under this Plan shall not be continued past the occurrence of any one of the following events:

1. The termination of the Plan.
2. Failure of a Plan member to pay monthly in advance any required premiums.
3. A person becomes a covered employee or a dependent of a covered employee under any group health plan and that group health plan has no restrictions or limitations on benefits.
4. A person becomes eligible for Medicare benefits on or after the effective date of the continuation coverage.
5. The person was determined to be no longer disabled, provided the 18-month coverage was extended to 29 months due to having been determined to be disabled under the Social Security Act, Title II, OASDI or Title XVI, SSI.
(6) The person reaches the maximum applicable continuation period of 18, 29, or 36 months.

(i)(h) Notice requirements concerning continuation coverage shall be developed by the Executive Administrator and Board of Trustees.

(i)(l) The spouse and any eligible dependent children of a covered employee may continue coverage under the Plan on a fully contributory basis for a period not to exceed 36 months from the date the employee becomes eligible for Medicare benefits which results in a loss of coverage under the Plan, provided that the spouse and eligible dependent children were covered under the Plan at the time the employee became eligible for Medicare benefits which results in a loss of coverage under the Plan."

SECTION 3.(v) Effective July 1, 2008, the State Health Plan for Teachers and State Employees shall not limit the number of visits for covered services for physical therapy, occupational therapy, and speech therapy. This subsection expires July 1, 2009. Sections 28.22A(j) and (k) of S.L. 2007-323 are repealed.

SECTION 4.(a) Parts 4 and 5 of Article 3 of Chapter 135 of the General Statutes are recodified as Parts 4A and 5A, respectively, under Article 3A of Chapter 135 of the General Statutes, as enacted by this act.

SECTION 4.(b) G.S. 135-41, as amended by Section 28.22A(o) of S.L. 2007-323, is recodified under Part 4A of Article 3A of Chapter 135 of the General Statutes, as enacted by this act.

SECTION 4.(c) G.S. 135-41(b), as recodified by this act, and as amended by Section 28.22A(o) of S.L. 2007-323, reads as rewritten:

"(b) The long-term care benefits provided by this Part shall be made available through the State Health Plan for Teachers and State Employees pursuant to Article 2A and 3A of this Chapter (hereinafter called the "Plan") and administered by the Plan's Executive Administrator and Board of Trustees. In administering the benefits provided by this Part, the Executive Administrator and Board of Trustees shall have the same type of powers and duties that are provided under Part 3A of this Article for hospital and medical benefits. The benefits provided by this Part may be offered by the Plan on a self-insured basis, in which case a third-party claims processor shall be chosen through competitive bids in accordance with State law, bids, or through a contract of insurance, in which case a carrier licensed to do business in North Carolina shall be selected on a competitive bid basis in accordance with State law."

SECTION 4.(d) G.S. 135-41.1 is recodified under Part 4A of Article 3A of Chapter 135 of the General Statutes, as enacted by this act.

SECTION 4.(e) The lead paragraph of G.S. 135-41.1, as recodified by this act under Part 4A of this Article, reads as rewritten:

"§ 135-41.1. Long-term care benefits.

Long-term care benefits provided by this Part are subject to elimination periods, coinsurance provisions, and other limitations separate and apart from those provided for
in Part 3, Part 3A of this Article. No limitation on out-of-pocket expenses are provided for the benefits covered by this section. Long-term care benefits are as follows:

SECTION 5.(a) Effective July 1, 2008, G.S. 150B-1(d)(7), as amended by Section 28.22A(o) of S.L. 2007-323, reads as rewritten:

SECTION 5.(b) G.S. 150B-44 reads as rewritten:

"§ 150B-44. Right to judicial intervention when decision unreasonably delayed.
Unreasonable delay on the part of any agency or administrative law judge in taking any required action shall be justification for any person whose rights, duties, or privileges are adversely affected by such delay to seek a court order compelling action by the agency or administrative law judge. An agency that is subject to Article 3 of this Chapter and is not a board or commission has 60 days from the day it receives the official record in a contested case from the Office of Administrative Hearings to make a final decision in the case. This time limit may be extended by the parties or, for good cause shown, by the agency for an additional period of up to 60 days. An agency that is subject to Article 3 of this Chapter and is a board or commission has 60 days from the day it receives the official record in a contested case from the Office of Administrative Hearings or 60 days after its next regularly scheduled meeting, whichever is longer, to make a final decision in the case. This time limit may be extended by the parties or, for good cause shown, by the agency for an additional period of up to 60 days. If an agency subject to Article 3 of this Chapter has not made a final decision within these time limits, the agency is considered to have adopted the administrative law judge's decision as the agency's final decision. Failure of an agency subject to Article 3A of this Chapter to make a final decision within 120 days of the close of the contested case hearing is justification for a person whose rights, duties, or privileges are adversely affected by the delay to seek a court order compelling action by the agency or, if the case was heard by an administrative law judge, by the administrative law judge. The Board of Trustees of the North Carolina State Health Plan for Teachers and State Employees is a "board" for purposes of this section."

AN ACT TO PROVIDE PROPERTY TAX RELIEF FOR QUALIFYING WILDLIFE CONSERVATION LAND, TO CLARIFY THE PRESENT-USE VALUATION OF PROPERTY SUBJECT TO A CONSERVATION EASEMENT, AND TO PROVIDE A PROPERTY TAX EXEMPTION FOR LEASEHOLD INTEREST IN CERTAIN EXEMPTED PROPERTY.

The General Assembly of North Carolina enacts:

SECTION 1. Article 12 of Subchapter II of Chapter 105 of the General Statutes is amended by adding the following new section to read:

"§ 105-277.15. Taxation of wildlife conservation land.

(a) Definitions. – The following definitions apply in this section:

(1) Business entity. – Defined in G.S. 105-277.2.

(2) Family business entity. – A business entity whose members are, directly or indirectly, individuals and are relatives. An individual is indirectly a member of a business entity if the individual is a member of a business entity or a beneficiary of a trust that is part of the ownership structure of the business entity.

(3) Family trust. – A trust that was created by an individual and whose beneficiaries are, directly or indirectly, individuals who are the creator of the trust or a relative of the creator. An individual is indirectly a beneficiary of a trust if the individual is a beneficiary of another trust or a member of a business entity that has a beneficial interest in the trust.

(4) Member. – Defined in G.S. 105-277.2.

(5) Relative. – Defined in G.S. 105-277.2.

(b) Classification. – Wildlife conservation land is designated a special class of property under Article V, Section 2(2) of the North Carolina Constitution and must be appraised, assessed, and taxed in accordance with this section. Wildlife conservation land classified under this section must be appraised and assessed as if it were classified under G.S. 105-277.3 as agricultural land.

(c) Requirements. – Land qualifies as wildlife conservation land if it meets the following size, ownership, and use requirements:

(1) Size. – The land must consist of at least 20 contiguous acres.

(2) Ownership. – The land must be owned by an individual, a family business entity, or a family trust and must have been owned by the same owner for the previous five years, except as follows:

a. If the land is owned by a family business entity, the land meets the ownership requirement if the land was owned by one or more members of the family business entity for the required time.

b. If the land is owned by a family trust, the land meets the ownership requirement if the land was owned by one or more beneficiaries of the family trust for the required time.

c. If an owner acquires land that was classified as wildlife conservation land under this section when it was acquired and the owner continues to use the land as wildlife conservation land, then the land meets the ownership requirement if the new
owner files an application and signs the wildlife habitat conservation agreement in effect for the property within 60 days after acquiring the property.

(3) Use. – The land must meet all of the following requirements:

a. The land must be managed under a written wildlife habitat conservation agreement with the North Carolina Wildlife Resources Commission that is in effect as of January 1 of the year for which the benefit of this section is claimed and that requires the owner to do one or more of the following:

1. Protect an animal species that lives on the land and, as of January 1 of the year for which the benefit of this section is claimed, is on a North Carolina protected animal list published by the Commission under G.S. 113-333.
2. Conserve any of the following priority animal wildlife habitats: longleaf pine forest, early successional habitat, small wetland community, stream and riparian zone, rock outcrop, or bat cave.

b. It must have been classified under G.S. 105-277.3 when the wildlife habitat conservation agreement was signed or the owner must demonstrate to both the Wildlife Resources Commission and the assessor that the owner used the land for a purpose specified in the signed wildlife habitat conservation agreement for three years preceding the January 1 of the year for which the benefit of this section is claimed.

(d) Restrictions. – The following restrictions apply to the classification allowed under this section:

(1) No more than 100 acres of an owner's land in a county may be classified under this section.

(2) Land owned by a business entity is not eligible for classification under this section if the business entity is a corporation whose shares are publicly traded or one of its members is a corporation whose shares are publicly traded.

(e) Deferred Taxes. – The difference between the taxes that are due on wildlife conservation land classified under this section and that would be due if the land were taxed on the basis of its true value is a lien on the property. The difference in taxes must be carried forward in the records of each taxing unit as deferred taxes. The deferred taxes for the preceding three fiscal years are due and payable in accordance with G.S. 105-277.1D when the land loses its eligibility for deferral as a result of a disqualifying event. A disqualifying event occurs when the property no longer qualifies as wildlife conservation land.

(f) Exceptions to Payment. – No deferred taxes are due in the following circumstances and the deferred taxes remain a lien on the land:

(1) When the owner of wildlife conservation land that was previously classified under G.S. 105-277.3 before the wildlife habitat conservation agreement was signed does not transfer the land and the land again becomes eligible for classification under G.S. 105-277.3. In this circumstance, the deferred taxes are payable in accordance with G.S. 105-277.3.
(2) When land that is classified under this section is transferred to an owner who signed the wildlife habitat conservation agreement in effect for the land at the time of the transfer and the land remains classified under this section. In this circumstance, the deferred taxes are payable in accordance with this section.

(g) Exceptions to Payment and Lien. – Notwithstanding subsection (e) of this section, if land loses its eligibility for deferral solely due to one of the following reasons, no deferred taxes are due and the lien for the deferred taxes is extinguished:

(1) The property is conveyed by gift to a nonprofit organization and qualifies for exclusion from the tax base under G.S. 105-275(12) or G.S. 105-275(29).

(2) The property is conveyed by gift to the State, a political subdivision of the State, or the United States.

(h) Administration. – An owner who applies for the classification allowed under this section must attach a copy of the owner's written wildlife habitat agreement required under subsection (c) of this section. An owner who fails to notify the county assessor when land classified under this section loses its eligibility for classification is subject to a penalty in the amount set in G.S. 105-277.5.

SECTION 2. G.S. 105-277.1D(a), as enacted by Section 2.2 of S.L. 2008-35 and amended by Section 28.11(h) of House Bill 2436 of the 2008 Session, reads as rewritten:

"(a) Scope. – This section applies to the following deferred tax programs:

(1) G.S. 105-275(29a), historic district property held as future site of historic structure.

(2) G.S. 105-277.1B, the property tax homestead circuit breaker.

(3) G.S. 105-277.4(c), present-use value property.

(4) G.S. 105-277.14, working waterfront property.

(7) G.S. 105-278.6(e), nonprofit property held as future site of low- or moderate-income housing."

SECTION 3. G.S. 105-282.1(a)(2) reads as rewritten:

"(2) (Effective for taxes imposed for taxable years beginning on or after July 1, 2009) Single application required. – An owner of one or more of the following properties eligible for a property tax benefit must file an application for the benefit to receive it. Once the application has been approved, the owner does not need to file an application in subsequent years unless new or additional property is acquired or improvements are added or removed, necessitating a change in the valuation of the property, or there is a change in the use of the property or the qualifications or eligibility of the taxpayer necessitating a review of the benefit.

a. Property exempted from taxation under G.S. 105-278.3, 105-278.4, 105-278.5, 105-278.6, 105-278.7, or 105-278.8.

b. Special classes of property excluded from taxation under G.S. 105-275(3), (7), (8), (12), (17), (18), (19), (20), (21), (35), (36), (38), (39), or (41) or under G.S. 131A-21.
c. Special classes of property classified for taxation at a reduced valuation under G.S. 105-277(h), 105-277.1, 105-277.10, 105-277.13, 105-278, 105-278.1, or 105-277.15.

e. Special classes of property eligible for tax relief under G.S. 105-277.1B."

SECTION 4. G.S. 105-277.3(d1) reads as rewritten:

"(d1) Exception for Easements on Qualified Conservation Lands Previously Appraised at Use Value. – Property that is appraised at its present-use value under G.S. 105-277.4(b) shall continue to qualify for appraisal, assessment, and taxation as provided in G.S. 105-277.2 through G.S. 105-277.7 as long as (i) the property is subject to an enforceable conservation easement that would qualify for the conservation tax credit provided in G.S. 105-130.34 and G.S. 105-151.12, without regard to actual production or income requirements of this section section; and (ii) the taxpayer received no more than seventy-five percent (75%) of the fair market value of the donated property interest in compensation. Notwithstanding G.S. 105-277.3(b) and (b1), subsequent transfer of the property does not extinguish its present-use value eligibility as long as the property remains subject to an enforceable conservation easement that qualifies for the conservation tax credit provided in G.S. 105-130.34 and G.S. 105-151.12. The exception provided in this subsection applies only to that part of the property that is subject to the easement."

SECTION 5. G.S. 105-277.3 is amended by adding a new subsection to read:

"(d2) Wildlife Exception. – When an owner of land classified under this section does not transfer the land and the land becomes eligible for classification under G.S. 105-277.15, no deferred taxes are due. The deferred taxes remain a lien on the land and are payable in accordance with G.S. 105-277.15."

SECTION 6. The Revenue Laws Study Committee is directed to study the three-year impact of classifying land as wildlife conservation land for property tax purposes. The study must include a review of the amount of property classified as wildlife conservation land, the fiscal impact on local governments, and any other impact.

The Revenue Laws Study Committee must include its findings in the 2015 report.

SECTION 7.(a) G.S. 105-275(31) reads as rewritten:

"§ 105-275. Property classified and excluded from the tax base.

The following classes of property are hereby designated special classes under authority of Article V, Sec. 2(2), of the North Carolina Constitution and shall not be listed, appraised, assessed, or taxed:

... (31) Intangible personal property other than a leasehold interest that is in exempted real property and is not excluded under subdivision (31e) of this section. This subdivision does not affect the taxation of software not otherwise excluded by subdivision (40) of this section."
SECTION 7.(b)  G.S. 105-275 is amended by adding a new subdivision to read:

"(31e) A leasehold interest in real property that is exempt under G.S. 105-278.1 and is used to provide affordable housing for employees of the unit of government that owns the property."

SECTION 7.(c)  G.S. 105-282.1(a)(2) reads as rewritten:

"(2) Single application required. – An owner of one or more of the following properties eligible to be exempted or excluded from taxation must file an application for exemption or exclusion to receive it. Once the application has been approved, the owner does not need to file an application in subsequent years unless new or additional property is acquired or improvements are added or removed, necessitating a change in the valuation of the property, or there is a change in the use of the property or the qualifications or eligibility of the taxpayer necessitating a review of the exemption or exclusion:

AN ACT TO PROVIDE AN EXPRESS PERMITTING REVIEW PROGRAM FOR CONNECTIONS TO THE STATE HIGHWAY SYSTEM, AS RECOMMENDED BY THE JOINT LEGISLATIVE TRANSPORTATION OVERSIGHT COMMITTEE; AND TO EXEMPT CERTAIN GREENHOUSES LOCATED INSIDE THE BUILDING-RULES JURISDICTION OF ANY MUNICIPALITY FROM THE BUILDING CODE.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 136 of the General Statutes is amended by adding a new section to read:

"§ 136-93.1. Express permit review program.

(a) Program Created. – The Department shall develop a fee-supported express permit review program in each highway division. The program is voluntary for permit applicants and applies to permits, approvals, or certifications that allow for a connection to the State highway system through the use of a driveway, street, signal, drainage, or any other encroachment.

(b) Implementation. – An individual highway division may opt out of the express permit review program created under this section if the highway division routinely reviews and issues special commercial permits within an average of 45 days. Any express permit review program created under this section shall be supported by the fees established pursuant to subsection (e) of this section.

(c) Procedure. – In reviewing a permit application under the express permit review program, the Department shall undergo the following steps:

(1) The Department shall, within three business days of receipt, determine whether an express permit review application is complete. If the Department determines the express permit review application is not complete, the Department shall return the express permit review application and all fees to the permit applicant to allow for a complete express permit review application to be resubmitted to the Department.

(2) If the Department determines the express permit review application is complete, the Department shall, within 45 days, issue or deny the permit based upon its review of the application. Failure of the
Department to issue or deny the permit within 45 days is a denial of the express permit review application.

(d) Staffing. – In order to implement the express permit review program, the Department may utilize either of the following or a combination thereof:

(1) Existing Department staff and resources.

(2) Contracted engineering firms supporting each highway division to provide express permit reviews, comments, and recommendations for issuing express permits. If the Department utilizes contracted engineering firms to provide work under this section, any fees received by the Department pursuant to subsection (e) of this section shall be credited towards the cost of the Department utilizing these contracted engineering firms. Any additional costs associated with engaging the contracted engineering firm shall be agreed to by the permit applicant prior to incurring the costs and shall be paid by the permit applicant.

(e) Fees. – The Department may determine the fees for an express application review under the express review program conducted by highway division staff. Unless a contracted engineering firm is utilized, the maximum permit application fee to be charged under this section for an express review of a project application requiring all of the permits listed under subsection (a) of this section shall not exceed four thousand dollars ($4,000). Notwithstanding Chapter 150B of the General Statutes, the Department shall establish the procedure by which the amount of the fees under this subsection are established and applied for an express review program permitted by this section. The fee schedule established by the Department shall be applicable to all divisions participating in an express permit review program.

(f) Use of Fees. – All fees collected under this section shall be used to fund the cost of administering and implementing express permit review programs created under this section. These costs include the salaries of the program's staff and costs of contracted engineering firms.

(g) Reports. – No later than March 1 of each year, the Department shall report to the Fiscal Research Division and the Joint Legislative Transportation Oversight Committee on the express permitting review program. The report shall include the cost of administering the program in each division, the number of express permits issued, the turnaround time for permits, the amount of fees collected per division, and the method that divisions use to implement the program.

SECTION 2. G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering of temperature, and electrical systems; and such other reasonable rules pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large."
In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.

Provided further, that nothing in this Article shall be construed to make any building rules applicable to: (i) farm buildings that are located outside the building-rules jurisdiction of any municipality, or (ii) farm buildings that are located inside the building-rules jurisdiction of any municipality if the farm buildings are greenhouses. A "greenhouse" is a structure that has a glass or plastic roof, has one or more glass or plastic walls, has an area over ninety-five percent (95%) of which is used to grow or cultivate plants, is built in accordance with the National Greenhouse Manufacturers Association Structural Design manual, and is not used for retail sales. Additional provisions addressing distinct life safety hazards shall be approved by the local building-rules jurisdiction.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars ($5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars ($20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices:

1. Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,
2. Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and
3. Any rules relating to sanitation adopted by the Commission for Health Services which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the
Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space requirements.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)e., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily."

C. Transfers during Senior year – Should a military student transferring at the beginning or during his or her Senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this Article.

ARTICLE VIII.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the Governor or as otherwise determined by each member state.

INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the "Interstate Commission on Educational Opportunity for Military Children." The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the Governor or State Council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel and other interstate compacts affecting the education of children of military members.

The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the
provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Dept. of Defense shall serve as an ex-officio, nonvoting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

ARTICLE X.

The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination. 4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be
awarded all costs of such litigation including reasonable attorney's fees.

The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

ARTICLE XVI

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

B. Dissolution of Compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one (1) member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XVII

SECTION 3. It is the goal of the General Assembly to ensure that low-wealth schools are enabled to administer and comply with the requirements of the Interstate Compact on Educational Opportunity for Military Children. It is the intent of the General Assembly to appropriate funds in the sum of twenty-five thousand dollars ($25,000) annually to the Department of Public Instruction to offset costs for low-wealth schools for administration of the Interstate Compact on Educational Opportunity for Military Children, beginning with the 2009-2010 school year or the enactment of the compact, whichever occurs later.

SECTION 4. This act is effective when it becomes law. In the General Assembly read three times and ratified this the 10th day of July, 2008. Became law upon approval of the Governor at 12:05 p.m. on the 7th day of August, 2008.
AN ACT TO ALLOW THE STATE TO ACQUIRE LOCKS AND DAMS ONE, TWO, AND THREE ON THE CAPE FEAR RIVER FROM THE UNITED STATES.

Whereas, locks and dams #1, #2, and #3 on the Cape Fear River were constructed by the United States in the period from 1915 to 1935; and

Whereas, it is understood that the Congress some time ago authorized a mission for the Army Corps of Engineers related to the locks and dams in Bladen County that hinged on maintaining commerce through the locks on the Cape Fear River; and there has been no commercial traffic on the Cape Fear River in about twelve years, and there may be no federal role in the maintenance of the locks and dams #2 and #3; and

Whereas, the Army Corps of Engineers is engaged in planning and implementing extensive work in the Wilmington Harbor area. The work has and will involve dredging, blasting, facility relocation, and related activities. In order to be allowed to do the work, the Army Corps of Engineers is working through a commitment to the U.S. Fish and Wildlife Service that involves mitigation activities to compensate for the projected negative environmental impacts on wildlife habitat and other environmental features in the harbor area as a result of the Corps' work to improve the harbor for commerce; and

Whereas, as part of the mitigation negotiated, the U.S. Army Corps of Engineers has committed to construction of a fish passage option (not yet completely defined) for Lock and Dam #1 (just upriver from the Wilmington Harbor area in Bladen County) and the "study" of fish passage options and other issues related to Lock and Dam #2 and the Huske Lock and Dam #3 (both also in Bladen County); and

Whereas, leaving Lock and Dam #1 in place with a rock arch rapids structure would also protect the water supply intakes for the City of Wilmington and the Lower Cape Fear Water and Sewer Authority; and

Whereas, there is concern upriver in Bladen, Cumberland, and Harnett Counties (and to a lesser degree, Sampson, Lee, Chatham, and Moore Counties) that the Army Corps of Engineers is only committed to "study" the second and the third lock and dam complexes. An implication of the Army Corps of Engineers' "study" commitment is that there is currently no funding for any specific recommended activity for locks and dams #2 and #3 that might become identified by the negotiated study. A more basic concern is that there could possibly be no definitive plan or action recommended to leave the locks and dams #2 and #3 in place in the mentioned study; and

Whereas, the nature of the concerns in Bladen, Cumberland, Harnett, and other counties touches on at least three points: (i) a rock arch rapids "fish ladder" on only Lock and Dam #1 does not allow migrating fish to get past locks and dams #2 or #3; (ii) absence of locks and dams #2 and #3 jeopardizes existing and/or potential water supply intakes above those two locks and dams; and (iii) absence of locks and dams #2 and #3 would lower the river surface by upwards of 20 feet and potentially compromise water quality in the middle and lower subbasins of the Cape Fear River; and

Whereas, preliminary legislative steps are being initiated to create an opportunity for a smooth transition of ownership of the locks, dams, and adjoining property from the Army Corps of Engineers to the State of North Carolina, subject to the resolution of these and some other questions regarding the condition of the lock and
dam complexes. Such a step would allow for the maximum utilization of the transportation benefit represented by the locks and the recreational benefit created by a river managed by the dams; and

Whereas, there is a proposed water supply intake behind Lock and Dam #2 that would serve Smithfield Packing. There are existing water supply intakes behind Lock and Dam #3 serving DuPont Works and the City of Fayetteville, and it is critical that these and other future water supply intakes be protected for the significant human populations in the region; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. The State of North Carolina may accept from the United States locks and dams #1, #2, and #3 on the Cape Fear River, along with all adjacent lands currently owned by the United States, after the three locks and dams have been properly refurbished and the rock arch rapids fish ladders have been successfully constructed.

SECTION 2. The Secretary of Transportation, in consultation with the Board of Commissioners of Bladen County, shall negotiate the transfer from the United States. When the Secretary of Transportation reaches an acceptable agreement with the United States, he shall recommend its approval to the Council of State. The agreement is then subject to approval by the Council of State. Upon approval, as part of a successful transfer arrangement with the United States, the Council of State shall allocate the property to the Department of Transportation, the Department of Environment and Natural Resources, or such other State department as it deems appropriate.

SECTION 3. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 16th day of July, 2008.

Became law upon approval of the Governor at 5:07 p.m. on the 7th day of August, 2008.

1. The register of deeds has authorized the submitter to electronically register the electronic document.
2. The document is submitted by a United States federal or state governmental unit or instrumentality or a trusted submitter. For purposes of this subsection, "a trusted submitter" means a person or entity that has entered into a memorandum of understanding regarding electronic recording with the register of deeds in the county in which the electronic document is to be submitted.
3. The execution of the instrument by one or more signers appears to have been proved or acknowledged before an officer with the apparent authority to take proofs or acknowledgements, and the proof or acknowledgment includes the officer's signature, commission expiration date, and official seal, if required, based on the appearance of these elements on the digitized image of the document as it will appear on the public record.

subsection. The register of deeds may rely on this representation for purposes of determining compliance with the signature requirements of this section. The types of signatures are:

(1) A signature in ink by hand.
(2) An electronic signature as defined in G.S. 10B-101(7).

(b) Order by Judge. – If a register of deeds denies registration pursuant to subsection (a), the person offering the instrument for registration may present the instrument to any judge of the district court in the district, including the county in which the instrument is to be registered, for an order for registration. If required, the judge shall so adjudge, and shall order the instrument to be registered, together with the certificates, and the register of deeds shall register them accordingly.

The requirements are:

(1) If the instrument requires proof or acknowledgement and if acknowledged, that the signature of one or more signers has been proved or acknowledged before an officer authorized to take proofs and acknowledgements, and if said acknowledgements.
(2) That the proof or acknowledgement includes the officer's signature and commission expiration date and official seal, if required, the judge shall so adjudge, and shall order the instrument to be registered, together with the certificates, and the register of deeds shall register them accordingly.

Any such instrument presented for registration shall be examined by the clerk of the superior court of the county of registration and if it appears that the execution and acknowledgment are in due form, the clerk shall so certify and the instrument shall then be recorded in the office of the register of deeds.

(f) Presumption of Notarial Seal. – The acceptance of a record for registration by the register of deeds shall give rise to a presumption that, at the time the record was presented for registration, a clear and legible image of the notary's official seal was affixed or embossed on the record near the notary's official signature. This presumption shall apply regardless of whether the image is legible or photographically reproduced in the records maintained by the register of deeds. A register of deeds may not refuse to accept a record for registration because a notarial seal does not satisfy the requirements of G.S. 10B-37."

A copy of the previously recorded instrument to which the affidavit applies may be attached to the affidavit and need not be a certified copy. Notice of the corrective information as provided by the affiant is deemed to have been given as of the time the corrective affidavit is registered. Nothing in this section invalidates or otherwise alters the legal effect of any instrument of correction authorized by statute in effect on the date the instrument was registered, corrected by rerecording the original instrument with the correction clearly set out on the face of the instrument and with a statement of explanation attached. The parties who signed the original instrument or the attorney who drafted the original instrument shall initial the correction and sign the statement of explanation. If the statement of explanation is not signed by the parties who signed the original instrument, it shall state that the person signing the statement is the attorney who drafted the original instrument. SECTION 1. G.S. 143-215.94C reads as rewritten:

"§ 143-215.94C. Commercial leaking petroleum underground storage tank
cleanup fees.

(a) For purposes of this subsection, each compartment of a commercial
underground storage tank that is designed to independently contain a petroleum product
is a separate petroleum commercial underground storage tank. The owner or operator of
a commercial petroleum underground storage tank shall pay to the Secretary for deposit
into the Commercial Fund an annual operating fee of four-hundred twenty dollars ($420.00) according to the following schedule:

(1) For each petroleum commercial underground storage tank of 3,500 gallons or less capacity—two hundred dollars ($200.00).
(2) For each petroleum commercial underground storage tank of more than 3,500 gallon capacity—three hundred dollars ($300.00).

(b) The annual operating fee shall be determined on a calendar year basis. For petroleum commercial underground storage tanks in use on 1 January and remaining in use on or after 1 December of that year, the annual operating fee due for that year shall be as specified in subsection (a) of this section. For a petroleum commercial underground storage tank that is first placed in service in any year, the annual operating fee due for that year shall be determined by multiplying one-twelfth (1/12) of the amount specified in subsection (a) of this section by the number of months remaining in the calendar year. For a petroleum commercial underground storage tank that is permanently removed from service in any year, the annual operating fee due for that year shall be determined by multiplying one-twelfth (1/12) of the amount specified in subsection (a) of this section by the number of months in the calendar year preceding the permanent removal from use. In calculating the pro rata annual operating fee for a tank that is first placed in use or permanently removed during a calendar year under the preceding two sentences, a partial month shall count as a month, except that where a tank is permanently removed and replaced by another tank, the total of the annual operating fee for the tank that is removed and the replacement tank shall not exceed the annual operating fee for the replacement tank. The annual operating fee shall be due and payable on the first day of the month in accordance with a staggered schedule established by the Department. The Department shall implement a staggered schedule to the extent that the total amount of fees to be collected by the Department is approximately the same each quarter. A person who owns or operates more than one petroleum commercial underground storage tank may request that the fee for all tanks be due at the same time. The fee for all commercial underground storage tanks located at the same facility shall be due at the same time. A person who owns or operates 12 or more commercial petroleum storage tanks may request that the total of all fees be paid in four equal payments to be due on the first day of each calendar quarter, provided that the fee for all commercial underground storage tanks located at the same facility shall be due at the same time.

(c) Beginning no later than sixty days before the first due date of the annual operating fee imposed by this section, any person who deposits a petroleum product in a commercial underground storage tank that would be subject to the annual operating fee shall, at least once in each calendar year during which such deposit of a petroleum product is made, notify the owner or operator of the duty to pay the annual operating fee. The requirement to notify pursuant to this subsection does not constitute a duty owed by the person depositing a petroleum product in a commercial underground storage tank to the owner or operator and the person depositing a petroleum product in an underground storage tank shall not incur any liability to the owner or operator for failure to give notice of the duty to pay the operating fee.

(d) Repealed by Session Laws 1991, c. 538, s. 3.1.
(e) An owner or operator of a commercial underground storage tank who fails to pay an annual operating fee due under this section within 30 days of the date that the fee is due shall pay, in addition to the fee, a late penalty of five dollars ($5.00) per day per
commercial underground storage tank, up to a maximum equal to the annual operating fee due. The Department may waive a late penalty in whole or in part if:

(1) The late penalty was incurred because of the late payment or nonpayment of an annual operating fee by a previous owner or operator.

(2) The late penalty was incurred because of a billing error for which the Department is responsible.

(3) Where the late penalty was incurred because the annual operating fee was not paid by the owner or operator due to inadvertence or accident.

(4) Where payment of the late penalty will prevent the owner or operator from complying with any substantive law, rule, or regulation applicable to underground storage tanks and intended to prevent or mitigate discharges or releases or to facilitate the early detection of discharges or releases.”

SECTION 2.(a) G.S. 143-215.94E is amended by adding two new subsections to read:

"(j) An owner, operator, or landowner shall request that the Department determine whether any of the costs of assessment and cleanup of a discharge or release from a petroleum underground storage tank are eligible to be paid or reimbursed from either the Commercial Fund or the Noncommercial Fund within one year after completion of any task that is eligible to be paid or reimbursed under G.S. 143-215.94B(b), 143-215.94B(b1), or 143-215.94D(b1).

(k) An owner, operator, or landowner shall request payment or reimbursement from the Commercial Fund or the Noncommercial Fund for the cost of a task within one year after the completion of the task. The Department shall deny any request for payment or reimbursement of the cost of any task that would otherwise be eligible to be paid or reimbursed if the request is not received within 12 months after the later of the date on which the:

(1) Department determines that the cost is eligible to be paid or reimbursed;

(2) Task is completed."

SECTION 2.(b) Notwithstanding G.S. 143-215.94E(k), as enacted by subsection (a) of this section, an owner, operator, or landowner shall request payment or reimbursement of the cost of any task completed prior to 1 January 2009 that is eligible to be paid or reimbursed from the Commercial Fund or the Noncommercial Fund no later than 1 January 2010. The Department shall deny any request for payment or reimbursement of the cost of any task to which this subsection applies that is made after 1 January 2010.

SECTION 3. G.S. 143-215.94G is amended by adding four new subsections to read:

SECTION 6. G.S. 143-215.94U reads as rewritten:

"§ 143-215.94U. Registration of petroleum commercial underground storage tanks; operation of petroleum underground storage tanks; operating permit required.

(a) The owner or operator of each petroleum commercial underground storage tank shall annually obtain an operating permit from the Department for the facility at which the tank is located. The Department shall issue an operating permit only if the owner or operator has done all of the following:

(1) Has notified the Department of the existence of all tanks as required by 40 Code of Federal Regulations § 280.22 (1 July 1994 Edition) or 42 U.S.C. § 6991a, if applicable, at the facility.

836
(2) Has paid all fees required under G.S. 143-215.94C for all commercial petroleum underground storage tanks located at the facility.

(3) Complies with applicable release detection, spill and overfill protection, and corrosion protection requirements set out in rules adopted pursuant to this Chapter, notifies the Department of the method or combination of methods of leak detection, spill and overfill protection, and corrosion protection in use, and certifies to the Department that all applicable release detection, spill and overfill protection, and corrosion protection requirements are being met for all petroleum underground storage tanks located at the facility.

(4) If applicable, complies with the Stage I vapor control requirements set out in 15A North Carolina Administrative Code 2D.0928, effective 1 March 1991, notifies the Department of the method or combination of methods of vapor control in use, and certifies to the Department that all Stage I vapor control requirements are being met for all petroleum underground storage tanks located at the facility.

(5) Has substantially complied with the air quality, groundwater quality, and underground storage tank standards applicable to any activity in which the applicant has previously engaged and has been in substantial compliance with federal and State laws, regulations, and rules for the protection of the environment. In determining substantial compliance, the compliance history of the owner or operator and any parent, subsidiary, or other affiliate of the owner, operator, or parent may be considered.

(6) Demonstrated financial responsibility as required by G.S. 143-215.94H.

(b) The operating permit shall be issued at the time the commercial underground storage annual tank operating fee required under G.S. 143-215.94C(a) is paid and shall be valid from the first day of the month in which the fee is due through the last day of the last month for which the fee is paid in accordance with the schedule established by the Department under G.S. 143-215.94C(b).

(c) No person shall place a petroleum product, and no owner or operator shall cause a petroleum product to be placed, into an underground storage tank at a facility for which the owner or operator does not hold a currently valid operating permit.

(d) The Department shall issue an operating permit certificate for each facility that meets the requirements of subsection (a) of this section. The operating permit certificate shall identify the number of tanks at the facility and shall conspicuously display the date on which the permit expires. Except for the owner or operator, no person shall be liable under subsection (c) of this section if an unexpired operating permit certificate is displayed at the facility, unless the person knows or has reason to know that the owner or operator does not hold a currently valid operating permit for the facility.

(e) The Department may revoke an operating permit only if the owner or operator fails to continuously meet the requirements set out in subdivisions (1) through (4) of subsection (a) of this section. If the Department revokes an operating permit, the owner or operator of the facility for which the operating permit was issued shall immediately surrender the operating permit certificate to the Department, unless the revocation is stayed pursuant to G.S. 150B-33. An owner or operator may challenge a
decision by the Department to deny or revoke an operating permit by filing a contested case under Article 3 of Chapter 150B of the General Statutes. The Secretary shall make the final agency decision regarding the revocation of a permit under this section."

SECTION 7.(a) The definitions set out in G.S. 143-215.94A apply to this section. As used in this section, "Department" means the Department of Environment and Natural Resources and, with respect to any power or duty assigned to the Environmental Management Commission under Article 21A of Chapter 143 of the General Statutes, includes the Environmental Management Commission. As used in this section, "site-specific cleanup standards" means standards developed using the methodology described in the Standard Guide for Risk-Based Corrective Action Applied at Petroleum Release Sites adopted by the American Society for Testing and Materials (ASTM) as E1739-95(2002).

SECTION 7.(b) The Department shall establish a pilot program to evaluate the use of site-specific cleanup standards for the cleanup of discharges or releases of petroleum from underground storage tanks as an alternative to the use of the risk-based assessment and corrective action standards set out in 15A NCAC 2L.0400. The purpose of the pilot program is to determine the extent to which the use of site-specific standards would provide effective protection of public health, safety, and the environment in a cost-effective manner and at a lower overall cost as compared with the use of the risk-based standards set out in 15A NCAC 2L.0400. The pilot program shall apply only to discharges or releases that are classified as intermediate risk under 15A NCAC 2L.0400(d). The pilot program shall evaluate the use of site-specific standards in the cleanup of contamination that results from a discharge or release of petroleum from: (i) an underground storage tank; and (ii) an underground storage tank that is commingled with petroleum contamination from a source of contamination other than an underground storage tank, as provided in G.S. 143-215.94V(h).

SECTION 7.(c) Participation in the pilot program shall be at the election of the owner, operator, or landowner. To participate in the pilot program, an owner, operator, or landowner shall perform a site-specific risk assessment and submit the assessment to the Department. If the Department determines that the use of site-specific cleanup standards will provide effective protection of public health, safety, and the environment, the Department shall set site-specific soil and groundwater cleanup standards for the discharge or release. These site-specific standards shall apply in lieu of the risk-based assessment and corrective action standards set out in 15A NCAC 2L.0400.

SECTION 7.(d) If soil and groundwater contamination from a discharge or release is no greater than the site-specific soil and groundwater cleanup standards set by the Department, the Department shall notify an owner, operator, or landowner that no cleanup, further cleanup, or further action will be required. If soil and groundwater contamination from a discharge or release is greater than the site-specific soil and groundwater cleanup standards set by the Department, the owner, operator, or landowner shall submit a corrective action plan to achieve the standards. The Department may require the owner, operator, or landowner to evaluate the impact of the site-specific cleanup standards on public health, safety, and the environment through use of an appropriate model. The Department shall not set site-specific soil and groundwater cleanup standards for the discharge or release that allow for contamination in excess of unrestricted use standards, as defined in G.S. 143B-279.9, on any real property that is not subject to land-use restrictions under G.S. 143B-279.9 and recordation under G.S. 143B-279.11.
SECTION 7.(e)  Except as provided in this section, the provisions of Part 2A and Part 2B of Article 21A of Chapter 143 of the General Statutes apply to this section.

SECTION 7.(f)  The Department shall annually report to the Environmental Review Commission on the number of site-specific risk assessments submitted to the Department under the pilot program, the disposition of those submissions, and, for any submissions for which site-specific soil and groundwater cleanup standards are not set, the basis for the decision not to set site-specific cleanup standards. The report shall include a comparison of assessment and corrective action of discharges or releases under the pilot program to assessment and corrective action of intermediate risk discharges or releases pursuant to the risk-based assessment and corrective action standards set out in 15A NCAC 2L.0400. The comparison shall include all of the following:

1.  The costs associated with investigation, assessment, initial response, abatement, analysis of risk, and development and implementation of a corrective action plan.

2.  The immediate and long-term impacts on public health, safety, and the environment.

3.  The need for and use of land-use restrictions as part of the corrective action plan.

4.  The extent to which corrective action addresses vapor intrusion.

SECTION 7.(g)  The Department shall submit the first report required by subsection (f) of this section on or before 1 September 2009. The Department shall include in the report due on or before 1 September 2013 any recommendations, including legislative proposals, based on the findings of the pilot program.

SECTION 8.(a)  The definitions set out in subsection (a) of Section 7 of this act apply to this section. It is the policy of the State that a discharge or release be reclassified as low risk if, based on site-specific cleanup standards, investigation, assessment, initial response, abatement, risk-based corrective action, or other corrective action, the Department determines that the discharge or release poses no significant risk to human health or the environment. An owner, operator, or landowner may request that a discharge or release be reclassified to a lower risk classification. If the Department denies a request to reclassify a discharge or release to a lower risk classification, the owner, operator, or landowner may file a petition for a contested case hearing as provided in Article 3 of Chapter 150B of the General Statutes.

SECTION 8.(b)  The Department shall report on or before 1 September of each year to the Environmental Review Commission on the number of sites for which reclassification was requested based on site-specific information and the disposition of each request. The Department shall submit the first report required by this section on or before 1 September 2009.

SECTION 9.  The Department of Environment and Natural Resources shall establish a process to provide informal notice of any proposed policy change or rule interpretation that is not a rule, as defined in G.S. 150B-2, to interested parties. Except in a situation that requires immediate action, the Department shall receive and consider oral and written comment from interested parties before the Department implements the proposed policy change or rule interpretation. Except in a situation that requires immediate action, the Department shall provide written notice of a policy change or rule interpretation to interested parties at least 30 days prior to its implementation.

SECTION 10.  The Department of Insurance, in consultation with the Petroleum Underground Storage Tank Funds Council and the Department of
Environment and Natural Resources, shall provide guidance and technical assistance for
the formation of an insurance pool pursuant to G.S. 143-215.94I to any responsible
entity that requests assistance.

SECTION 11. Section 8 of S.L. 2001-442 reads as rewritten:
"SECTION 8. Sections 1 through 5 of this act become effective 1 October 2001.
Sections 6, 7, and 8 of this act are effective when this act becomes law. Sections 1, 2, 3,
4, 5, and 7 of this act expire 1 October 2006."

SECTION 12. Notwithstanding any provision of Part 2A of Article 21A of
Chapter 143 of the General Statutes, the Department of Environment and Natural
Resources shall annually use up to three million dollars ($3,000,000) of the increase in
receipts credited to the Commercial Fund as a result of the increase in the annual
operating fee set out in G.S. 143-215.94C(a), as amended by Section 1 of this act, solely
for the removal of free petroleum from groundwater as a first priority and shall use the
balance of these receipts to address the other concerns raised in the letter from the
United States Environmental Protection Agency Region 4 Administrator to the
Secretary of Environment and Natural Resources dated 19 September 2006.

SECTION 13. Sections 4, 5, 9, 10, and 13 of this act are effective when this
act becomes law. Sections 1, 3, 6, and 12 of this act become effective 1 January 2009.
Section 2 of this act becomes effective 1 January 2009 and applies to determinations of
eligibility and requests for payments made on or after that date. Sections 7 and 8 of this
act are effective when it becomes law and expire 1 September 2014. Section 11 of this
act is effective retroactively to 1 October 2006.

(c) The Commission is authorized and empowered to adopt such rules and regulations, not inconsistent with the laws of this State, in accordance with which prisoners eligible for parole consideration may have their cases reviewed and investigated and by which such proceedings may be initiated and considered. All rules and regulations heretofore adopted by the Board of Paroles shall remain in full force and effect unless and until repealed or superseded by action of the Post-Release Supervision and Parole Commission. All rules and regulations adopted by the Commission shall be enforced by the Department of Correction.

(d) The Commission is authorized and empowered to impose as a condition of parole or post-release supervision that restitution or reparation be made by the prisoner in accordance with the provisions of G.S. 148-57.1. The Commission is further authorized and empowered to make restitution or reparation a condition of work release in accordance with the provisions of G.S. 148-33.2.

(e) The Commission may accept and review requests from persons placed on probation, parole, or post-release supervision to terminate a mandatory condition of satellite-based monitoring as provided by G.S. 14-208.43. The Commission may grant or deny those requests in compliance with G.S. 14-208.43."

**SECTION 3.** Chapter 148 of the General Statutes is amended by adding a new section to read:

"§ 148-64.1. Early conditional release of inmates subject to a removal order; revocation of release.

(a) Eligibility for Early Release. – Notwithstanding any other provision of law, the Post-Release Supervision and Parole Commission may conditionally release an inmate into the custody and control of United States Immigration and Customs Enforcement if all of the following requirements are satisfied:
(1) The Department of Correction has received a final order of removal for the inmate from United States Immigration and Customs Enforcement.

(2) The inmate was convicted of a nonviolent criminal offense and is incarcerated for that offense. If the inmate was convicted of and is incarcerated for more than one offense, then all of the offenses of which the inmate was convicted and is incarcerated must be nonviolent criminal offenses. As used in this subdivision, the term 'nonviolent criminal offense' means a conviction for an impaired driving offense or a felony violation of any of the following:
   a. G.S. 14-54.
   b. G.S. 14-56.
   c. G.S. 14-71.1.
   d. G.S. 14-100, where the thing of value is less than one hundred thousand dollars ($100,000).
   e. G.S. 90-95(d)(4).

(3) The inmate has served at least half of the minimum sentence imposed by the court or, in the case of an inmate convicted of an impaired driving offense under G.S. 20-138.1, the inmate has met all of the parole eligibility requirements under G.S. 15A-1371, notwithstanding G.S. 20-179(p)(3).

(4) The inmate was not convicted of an impaired driving offense resulting in death or serious bodily injury, as that term is defined in G.S. 14-32.4.

(5) The inmate agrees not to reenter the United States unlawfully.

(b) Release Is Discretionary. – The decision to release an inmate once the requirements of subsection (a) of this section are satisfied is in the sole, unappealable discretion of the Post-Release Supervision and Parole Commission.

(b1) Return of Inmates. – In the event that the United States Immigration and Customs Enforcement is unable to or does not deport the inmate, the inmate shall be returned to the custody of the Department of Correction to serve the remainder of the original sentence.

(c) Unlawful Reentry Constitutes Violation. – An inmate released pursuant to this section who returns unlawfully and willfully to the United States violates the conditions of the inmate's early release.

(d) Arrest Authority. – An inmate who violates the conditions of the inmate's early release is subject to arrest by a law enforcement officer.

(e) Effect of Violation. – Upon notification from any federal or state law enforcement agency that the inmate is in custody, and after notice and opportunity to be heard, the Post-Release Supervision and Parole Commission shall revoke the inmate's release and reimprison the inmate for a period equal to the inmate's maximum sentence minus time already served by the inmate upon a finding that an inmate has violated the conditions of the inmate's early release.

(f) Violators Ineligible for Future Release. – Upon revocation of release under this subsection, the inmate shall not be eligible for any future release under this section or for any other release from confinement, other than post-release supervision, until the remainder of the sentence of imprisonment is served.

SECTION 4. This act is effective when it becomes law.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 166A-14 reads as rewritten:

(a) All functions hereunder and all other activities relating to emergency management are hereby declared to be governmental functions. Neither the State nor any political subdivision thereof, nor, except in cases of willful misconduct, gross negligence or bad faith, any emergency management worker, firm, partnership, association, or corporation complying with or reasonably attempting to comply with this Article or any order, rule or regulation promulgated pursuant to the provisions of this Article or pursuant to any ordinance relating to any emergency management measures enacted by any political subdivision of the State, shall be liable for the death of or injury to persons, or for damage to property as a result of any such activity.

(a1) The immunity provided to firms, partnerships, associations, or corporations, under subsection (a) of this section, is subject to all of the following conditions:

(1) The immunity applies only when the firm, partnership, association, or corporation is acting without compensation or with compensation limited to no more than actual expenses, and one of the following applies:

a. Emergency management services are provided at any place in this State during a state of disaster or state of emergency declared by the Governor pursuant to this Article or G.S. 14-288.15, and the services are provided under the direction and control of the Secretary of the Department of Crime Control and Public Safety pursuant to G.S. 166A-5, 166A-6, and 143B-476, or the Governor.

b. Emergency management services are provided during a local state of emergency declared pursuant to Article 36A of Chapter 14 of the General Statutes, and the services are provided under the direction and control of the governing body of any municipality under G.S. 14-288.12 and G.S. 166A-8, the governing body of any county under G.S. 14-288.13 and G.S. 166A-8, or the chair of any board of county commissioners under G.S. 14-288.14 and G.S. 166A-8.

859

(2) The immunity shall not apply to any firm, partnership, association, or corporation, or to any employee or agent thereof, whose act or omission caused in whole or in part the actual or imminent disaster or emergency or whose act or omission necessitated emergency management measures.

(3) To the extent that any firm, partnership, association, or corporation has liability insurance, that firm, partnership, association, or corporation shall be deemed to have waived the immunity to the extent of the indemnification by insurance for its negligence. An insurer shall not under a contract of insurance exclude from liability coverage the acts or omissions of a firm, partnership, association, or corporation for which the firm, partnership, association, or corporation would only be liable to the extent indemnified by insurance as provided by this subdivision.

(b) The rights of any person to receive benefits to which the person would otherwise be entitled under this Article or under the Workers' Compensation Law or under any pension law, and the right of any such person to receive any benefits or compensation under any act of Congress shall not be affected by performance of emergency management functions.

(c) Any requirement for a license to practice any professional, mechanical or other skill shall not apply to any authorized emergency management worker who shall, in the course of performing the worker's duties as such, practice such professional, mechanical or other skill during a state of disaster.

The temporary driving certificate shall be valid for driving purposes only and shall not be valid for
identification purposes. The Division shall produce the applicant's drivers license at a central location and send it to the applicant by first-class mail at the residence address provided by the applicant, unless the applicant is ineligible for mail delivery by the United States Postal Service at the applicant's residence. If the United States Postal Service documents that it does not deliver to the residential address provided by the applicant, and the Division has verified the applicant's residential address by other means, the Division may mail the drivers license to the post office box provided by the applicant. S.B. 1946

AN ACT TO CODIFY THE STANDARDS GOVERNING ENERGY EFFICIENCY AND WATER USE FOR MAJOR FACILITY CONSTRUCTION AND RENOVATION PROJECTS INVOLVING STATE, UNIVERSITY, AND COMMUNITY COLLEGE BUILDINGS IN ORDER TO REDUCE THE CONSUMPTION OF ENERGY AND WATER, AS RECOMMENDED BY THE ENVIRONMENTAL REVIEW COMMISSION, AND TO ALLOW THE STATE, THE UNIVERSITY OF NORTH CAROLINA SYSTEM, AND THE NORTH CAROLINA COMMUNITY COLLEGE SYSTEM TO INSTALL PHOTO LUMINESCENT EXIT SIGNS WHEN PERMITTED BY THE STATE BUILDING CODE.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 143 of the General Statutes is amended by adding a new Article to read:

§ 143-135.35. Findings; legislative intent.
The General Assembly finds that public buildings can be built and renovated using sustainable, energy-efficient methods that save money, reduce negative environmental impacts, improve employee and student performance, and make employees and students more productive. The main objectives of sustainable, energy-efficient design are to avoid resource depletion of energy, water, and raw materials; prevent environmental degradation caused by facilities and infrastructure throughout their life cycle; and create buildings that are livable, comfortable, safe, and productive. It is the intent of the General Assembly that State-owned buildings and buildings of The University of North Carolina and the North Carolina Community College System be improved by establishing specific performance standards for sustainable, energy-efficient public buildings. These performance standards should be based upon recognized, consensus standards that are supported by science and have a demonstrated performance record. The General Assembly also intends, in order to ensure that the economic and environmental objectives of this Article are achieved, that State agencies, The University of North Carolina, and the North Carolina Community College System determine whether the performance standards are met for major facility construction and renovation projects, measure utility and maintenance costs, and verify whether these standards result in savings. Also, it is the intent of the General Assembly to establish a priority to use North Carolina-based resources, building materials, products, industries, manufacturers, and businesses to provide economic development to North Carolina and to meet the objectives of this Article.

§ 143-135.36. Definitions.
As used in this section, the following definitions apply unless the context requires otherwise:

(1) "ASHRAE" means the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.

(2) "Commission" means to document and to verify throughout the construction process whether the performance of a building, a component of a building, a system of a building, or a component of a
building system meets specified objectives, criteria, and agency project requirements.

(3) "Department" means the Department of Administration.

(4) "Institutions of higher education" means the constituent institutions of The University of North Carolina, the regional institutions as defined in G.S. 115D-2, and the community colleges as defined in G.S. 115D-2.

(5) "Major facility construction project" means a project to construct a building larger than 20,000 gross square feet of occupied or conditioned space, as defined in the North Carolina State Building Code adopted under Article 9 of Chapter 143 of the General Statutes. "Major facility construction project" does not include a project to construct a transmitter building or a pumping station.

(6) "Major facility renovation project" means a project to renovate a building when the cost of the project is greater than fifty percent (50%) of the insurance value of the building prior to the renovation and the renovated portion of the building is larger than 20,000 gross square feet of occupied or conditioned space, as defined in the North Carolina State Building Code. "Major facility renovation project" does not include a project to renovate a building having historic, architectural, or cultural significance under Part 4 of Article 2 of Chapter 143B of the General Statutes.

(7) "Public agency" means every State office, officer, board, department, and commission and institutions of higher education.

§ 143-135.37. Energy and water use standards for public major facility construction and renovation projects; verification and reporting of energy and water use.

(a) Program Established. – The Sustainable Energy-Efficient Buildings Program is established within the Department to be administered by the Department. This program applies to any major facility construction or renovation project of a public agency that is funded in whole or in part from an appropriation in the State capital budget or through a financing contract as defined in G.S. 142-82.

(b) Energy-Efficiency Standard. – For every major facility construction project of a public agency, the building shall be designed and constructed so that the calculated energy consumption is at least thirty percent (30%) less than the energy consumption for the same building as calculated using the energy-efficiency standard in ASHRAE 90.1-2004. For every major facility renovation project of a public agency, the renovated building shall be designed and constructed so that the calculated energy consumption is at least twenty percent (20%) less than the energy consumption for the same renovated building as calculated using the energy-efficiency standard in ASHRAE 90.1-2004. For the purposes of this subsection, any exception or special standard for a specific type of building found in ASHRAE 90.1-2004 is included in the ASHRAE 90.1-2004 standard.

(c) Water Use Standard. – For every major facility construction or renovation project of a public agency, the water system shall be designed and constructed so that the calculated indoor potable water use is at least twenty percent (20%) less than the indoor potable water use for the same building as calculated using the fixture performance requirements related to plumbing under the 2006 North Carolina State
Building Code. For every major facility construction project of a public agency, the water system shall be designed and constructed so that the calculated sum of the outdoor potable water use and the harvested stormwater use is at least fifty percent (50%) less than the sum of the outdoor potable water use and the harvested stormwater use for the same building as calculated using the performance requirements related to plumbing under the 2006 North Carolina State Building Code. For every major facility renovation project of a public agency, the Department shall determine on a project-by-project basis what reduced level of outdoor potable use or harvested stormwater use, if any, is a feasible requirement for the project, but the Department shall not require a greater reduction than is required under this subsection for a major facility construction project. To reduce the potable outdoor water use as required under this subsection, landscape materials that are water use efficient and irrigation strategies that include reuse and recycling of the water may be used.

(d) Performance Verification. – In order to be able to verify performance of a building component or an energy or water system component, the construction contract shall include provisions that require each building component and each energy and water system component to be commissioned, and these provisions shall be included at the earliest phase of the construction process as possible and in no case later than the schematic design phase of the project. Such commissioning shall continue through the initial operation of the building. The project design and construction teams and the public agency shall jointly determine what level of commissioning is appropriate for the size and complexity of the building or its energy and water system components.

(e) Separate Utility Meters. – In order to be able to monitor the initial cost and the continuing costs of the energy and water systems, a separate meter for each electricity, natural gas, fuel oil, and water utility shall be installed at each building undergoing a major facility construction or renovation project. Each meter shall be installed in accordance with the United States Department of Energy guidelines issued under section 103 of the Energy Policy Act of 2005 (Pub. L. 109-58, 119 Stat. 594 (2005)). Starting with the first month of facility operation, the public agency shall compare data obtained from each of these meters by month and by year with the applicable energy-efficiency standard under subsection (b) of this section and the applicable water use standard for the project under subsection (c) of this section and report annually no later than August 1 of each year to the Office of State Construction within the Department. If the average energy use or the average water use over the initial 12-month period of facility operation exceeds the applicable energy-efficiency standard under subsection (b) of this section or exceeds the applicable water use standard under subsection (c) of this section by fifteen percent (15%) or more, the public agency shall investigate the actual energy or water use, determine the cause of the discrepancy, and recommend corrections or modifications to meet the applicable standard.

§ 143-135.38. Use of other standard when standard not practicable.

When the Department, public agency, and the design team determine that the energy-efficiency standard or the water use standard required under G.S. 143-135.37 is not practicable for a major facility construction or renovation project, then it must be determined by the State Building Commission if the standard is not practicable for the major facility construction or renovation project. If the State Building Commission determines the standard is not practicable for that project, the State Building Commission shall determine which standard is practicable for the design and construction for that major facility construction or renovation project. If a standard
required under G.S. 143-135.37 is not followed for that project, the State Building Commission shall report this information and the reasons to the Department within 90 days of its determination.

(a) Policies and Technical Guidelines. – The Department, in consultation with public agencies, shall develop and issue policies and technical guidelines to implement this Article for public agencies. The purpose of these policies and guidelines is to establish procedures and methods for complying with the energy-efficiency standard or the water use standard for major facility construction and renovation projects under G.S. 143-135.37.

(b) Preproposal Conference. – As provided in the request for proposals for construction services, the public agency may hold a preproposal conference for prospective bidders to discuss compliance with, and achievement of, the energy-efficiency standard or the water use standard required under G.S. 143-135.37 for prospective respondents.

(c) Advisory Committee. – The Department shall create a sustainable, energy-efficient buildings advisory committee comprised of representatives from the design and construction industry involved in public works contracting, personnel from the public agencies responsible for overseeing public works projects, and others at the Department's discretion to provide advice on implementing this Article. Among other duties, the advisory committee shall make recommendations regarding the education and training requirements under subsection (d) of this section, make recommendations regarding specific education and training criteria that are appropriate for the various roles with respect to, and levels of involvement in, a major facility construction or renovation project subject to this Article or the roles regarding the operation and maintenance of the facility, and make recommendations regarding developing a process whereby the Department receives ongoing evaluations and feedback to assist the Department in implementing this Article so as to effectuate the purpose of this Article. Further, the advisory committee may make recommendations to the Department regarding whether it is advisable to strengthen standards for energy efficiency or water use under this Article, whether it is advisable and feasible to add additional criteria to achieve greater sustainability in the construction and renovation of public buildings, or whether it is advisable and feasible to expand the scope of this Article to apply to additional types of publicly financed buildings or to smaller facility projects.

(d) Education and Training Requirements. – The Department shall review the advisory committee's recommendations under subsection (c) of this section regarding education and training. For each of the following, the Department shall develop education and training requirements that are consistent with the purpose of this Article and that are appropriate for the various roles with respect to, and level of involvement in, a major facility construction or renovation project or the roles regarding the operation and maintenance of the facility:

(1) The chief financial officers of public agencies.
(2) For each public agency that is responsible for the payment of the agency's utilities, the facility managers of these public agencies.
(3) The capital project coordinators of public agencies.
(4) Architects.
(5) Mechanical design engineers.
(e) **Performance Review.** – Annually the Department shall conduct a performance review of the Sustainable Energy-Efficient Buildings Program. The performance review shall include at least all of the following:

1. Identification of the costs of implementing energy-efficiency and water use standards in the design and construction of major facility construction and renovation projects subject to this Article.
2. Identification of operating savings attributable to the implementation of energy-efficiency and water use standards, including, but not limited to, savings in utility and maintenance costs.
3. Identification of any impacts on employee productivity from using energy-efficiency and water use standards.
4. Evaluation of the effectiveness of the energy-efficiency and water use standards established by this Article.
5. Whether stricter standards or additional criteria for sustainable buildings should be used other than the standards under G.S. 143-135.37.
6. Whether the Sustainable Energy-Efficient Buildings Program should be expanded to include additional public agencies, to include additional types of projects, or to include smaller major facility construction or renovation projects.
7. Any recommendations for any other changes regarding sustainable, energy-efficient building standards that may be supported by the Department's findings.

(f) **Report on Performance Review.** – Each year, the Department shall include in its consolidated report under subsection (g) of this section a report of its findings under the performance review under subsection (e) of this section.

(g) **Consolidated Report Required.** – The Department shall consolidate the report required under subsection (f) of this section, the report under G.S. 143-135.37(e), the report, if any, from the State Building Commission under G.S. 143-135.38, and the report under G.S. 143-135.40 into one report. No later than October 1 of each year, this consolidated report shall be transmitted to the Chairs of the General Government Appropriations Subcommittees of both the Senate and the House of Representatives, the Environmental Review Commission, and the Joint Legislative Commission on Governmental Operations. The Department shall include any recommendations for administrative or legislative proposals that would better fulfill the legislative intent of this Article.

(h) **Authority to Adopt Rules or Architectural or Engineering Standards.** – The Department may adopt rules to implement this Article. The Department may adopt architectural or engineering standards as needed to implement this Article.

(a) The Department shall monitor the development of construction standards and sustainable building standards to determine whether there is any standard that the Department determines would better fulfill the intent of the Sustainable Energy-Efficient Buildings Program to achieve sustainable, energy-efficient public buildings than the standards under G.S. 143-135.37, and, if so, whether this Article should be amended to provide for the use of any different standards or the use of any additional standards to address additional aspects of sustainable, energy-efficient buildings. Additional standards monitored shall address consideration of site development, material and resource selection, and indoor environmental quality to enhance the health
or productivity of building occupants. Also, the Department shall monitor the
development of improved energy-efficiency standards developed by the American
Society of Heating, Refrigerating and Air-Conditioning Engineers, the ASHRAE
standards, shall monitor whether the State Building Code Council adopts any other
energy-efficiency standards for inclusion in the State Building Code that result in
greater energy efficiency and increased energy savings in major facility construction
and renovation projects under this Article, and shall monitor other standards for
sustainable, energy-efficient buildings that are based upon recognized, consensus
standards based on science and demonstrated performance.

(b) Each year, the Department shall report the results of its monitoring under this
section, including any recommendations for administrative or legislative proposals."

SECTION 2. G.S. 115D-20 is amended by adding a new subdivision to
read:

"(14) To comply with the design and construction requirements regarding
energy efficiency and water use in the Sustainable Energy-Efficient
Buildings Program under Article 8C of Chapter 143 of the General
Statutes."

SECTION 3. Article 6 of Chapter 146 of the General Statutes is amended by
adding a new section to read:

"§ 146-23.2. Purchase of buildings constructed or renovated to a certain
energy-efficiency standard.

(a) A State agency shall not acquire by purchase any building unless the building
was designed and constructed to at least the same standards for energy efficiency and

In determining whether to authorize a change in cost or funding, the Director of the Budget shall consult with the Joint Legislative Commission on Governmental Operations.

**SECTION 1.5.** Pursuant to G.S. 116D-26, the Board of Governors may issue, subject to the approval of the Director of the Budget, at one time or from time to time, special obligation bonds of the Board of Governors for the purpose of paying all or any part of the cost of acquiring, constructing, or providing for the projects authorized by Section 1.2 of this act. The maximum principal amount of bonds to be issued shall not exceed the specified project costs in Section 1.2 of this act plus twenty-five million dollars ($25,000,000) for related additional costs, such as issuance expenses, funding of reserve funds, and capitalized interest.

PART II. REVISE UNIVERSITY GENERAL OBLIGATION INDEBTEDNESS

SECTION 2. Pursuant to Section 2(b) of S.L. 2000-3, the General Assembly finds that it is in the best interest of the State to respond to current educational and research program requirements at the University of North Carolina at Chapel Hill by reducing the scope of "Berryhill Laboratory Building – Comprehensive Renovation." The unused funds from "Berryhill Laboratory Building – Comprehensive Renovation" should be transferred to a new capital project "Division of Laboratory Animal Medicine Upfits." Section 2(a) of S.L. 2000-3 is therefore amended in the portion under the University of North Carolina at Chapel Hill by:

1. Reducing the portion to "Berryhill Laboratory Building – Comprehensive Renovation" by eight million six hundred thousand dollars ($8,600,000) so that it reads two million one hundred thousand dollars ($2,100,000); and

4. The authority may acquire by purchase or gift any property for the purpose of establishing, extending, enlarging, or improving an airport. The authority does not possess the power of eminent domain over
property held on July 1, 2008 by a tax-exempt Internal Revenue Code section 501(c)(3) organization organized for educational purposes. In all other cases, the authority possesses the power of eminent domain and may acquire property by eminent domain for the purpose of establishing, extending, enlarging, or improving an airport. In cases where the authority may exercise the power of eminent domain, the authority is declared to be a local public condemnor under the provisions of Chapter 40A of the General Statutes and in exercising the powers of eminent domain shall follow the procedures of Article 3 of Chapter 40A of the General Statutes. The members of the authority shall determine what liabilities and what officers, agents, and employees shall be covered by any insurance purchased pursuant to this provision.

Purchase of insurance pursuant to this provision waives the authority's governmental immunity to the extent of insurance coverage for any act or omission occurring in the exercise of a governmental function. By entering into an insurance contract with the authority, an insurer waives any defense based upon the governmental immunity of the authority.

If the authority has waived its governmental immunity pursuant to the foregoing provisions of this section, any person, or if he dies, his personal representative, sustaining damages as a result of an act or omission of the authority or any of its officers, agents, or employees occurring in the exercise of a governmental function, may sue the authority for recovery of damages. Otherwise, however, the authority has all defenses available to private litigants in any action brought pursuant to these provisions without restriction, limitation, or other effect whether the defense arises from common law or by virtue of a statute.

§ 116-275. Cessation of operation.

(k) to section 142 of the Internal Revenue Code of 1986, as amended, which (i) establish a new type of private activity bond that can be issued to finance "qualified public educational facilities," (ii) establish an annual aggregate limitation on the face amount of qualified public educational facility bonds that may be issued on a state-by-state basis, (iii) provide that each state may allocate the annual aggregate limitation for any calendar year in such manner as each state determines appropriate, and (iv) provide for an elective carryforward by each state of the unused annual aggregate limitation; and that subsections (a)(13) and (k) will require continued inquiry and study in the ways in which North Carolina can best and most fairly manage and utilize the resource provided therein.

SECTION 6.2. G.S. 143-433.8 reads as rewritten:

"§ 143-433.8. Duties. The Committee may perform the following duties:

Session Law 2008-208

H.B. 819

AN ACT TO AMEND THE REQUIREMENTS GOVERNING MANAGEMENT OF DISCARDED COMPUTER EQUIPMENT, TO PROVIDE FOR MANAGEMENT OF DISCARDED TELEVISIONS, TO DELAY THE EFFECTIVE DATE UNTIL 1 JANUARY 2010, AND TO MAKE OTHER CONFORMING AND TECHNICAL CHANGES, AS RECOMMENDED BY THE ENVIRONMENTAL REVIEW COMMISSION.

The General Assembly of North Carolina enacts:

SECTION 1. Article 9 of Chapter 130A of the General Statutes reads as rewritten:

"Part 2E. Discarded Computer Equipment and Television Management.

§ 130A-309.90. Findings. The General Assembly finds that:

(1) The computer equipment and television waste stream is growing rapidly in volume and complexity and can introduce toxic materials into solid waste landfills.

(2) It is in the best interests of the citizens of this State to have convenient, simple, and free or low-cost access to recycling services for discarded computer equipment and televisions.

(3) Collection programs operated by manufacturers, and local government and nonprofit agencies are an efficient way to divert discarded computer equipment and televisions from disposal and to provide recycling services to all citizens of this State.

(4) The development of local and nonprofit collection programs is hindered by the high costs of recycling and transporting discarded computer equipment and televisions.

(5) No other comprehensive system currently exists, either provided by electronics manufacturers, retailers, or others, to adequately serve all citizens of the State and to divert large quantities of discarded computer equipment and televisions from disposal.

(6) Manufacturer responsibility is an effective way to ensure that manufacturers of computer equipment take part in a solution to the electronic waste problem.

(7) The recycling of certain discarded computer equipment and televisions recovers valuable materials for reuse and will create jobs and expand the tax base of the State.

(8) While some computers and computer monitors can be refurbished and reused and other consumer electronics products contain valuable materials, some older and bulkier consumer electronic products,
including some televisions, may not contain any valuable products but should nevertheless be recycled to prevent the release of toxic substances to the environment.

(9) For the products covered by this Part, differences in product life expectancy, market economics, residual value, and product portability necessitate different approaches to recycling.

(10) In order to ensure that end-of-life computer equipment and televisions are responsibly recycled, to promote conservation, and to protect public health and the environment, a comprehensive and convenient system for recycling and reuse of certain electronic equipment should be established on the basis of shared responsibility among manufacturers, retailers, consumers, and the State.

"§ 130A-309.91. Definitions.

As used in this Part, the following definitions apply:

(1) Business entity. – Defined in G.S. 55-1-40(2a).

In the event the television manufacturer is one that manufactures, sells, or resells under a brand it licenses, the licensor or brand owner of the brand shall not be considered to be a television manufacturer under (i) or (iii) of this subdivision.

"§ 130A-309.92. Responsibility for recycling discarded computer equipment, equipment and televisions.

In addition to the specific requirements of this Part, discarded computer equipment and televisions and manufacturers share responsibility for the recycling of discarded computer equipment and televisions and the education of citizens of the State as to recycling opportunities for discarded computer equipment and televisions.

SECTION 1.(a) G.S. 115C-302.1(d) reads as rewritten:

(d) Personal Leave. – Teachers earn personal leave at the rate of 20 days for each full month of employment not to exceed two days per year. Personal leave may be accumulated without any applicable maximum until June 30 of each year. A teacher may carry forward to July 1 a maximum of five days of personal leave; the remainder of the teacher's personal leave shall be converted to sick leave on June 30. At the time of retirement, a teacher may also convert accumulated personal leave to sick leave for creditable service towards retirement.

Personal leave may be used only upon the authorization of the teacher's immediate supervisor. A teacher shall not take personal leave on the first day the teacher is required to report for the school year, on a required teacher workday, on days scheduled for State testing, or on the day before or the day after a holiday or scheduled vacation day, unless the request is approved by the principal. On all other days, if the request is made at least five days in advance, the request shall be automatically granted subject to the availability of a substitute teacher, and the teacher cannot be required to provide a reason for the request. Teachers may transfer personal leave days between local school administrative units. The local school administrative unit shall credit a teacher who has separated from service and is reemployed within 60 months from the date of separation with all personal leave accumulated at the time of separation. Local school
administrative units shall not advance personal leave. Teachers using personal leave receive full salary less the required substitute deduction, except for teachers using personal leave on non-protected teacher workdays. Teachers using personal leave on non-protected teacher workdays shall receive full salary."

AN ACT TO REQUIRE REPORTING OF INVOLUNTARY MENTAL COMMITMENT TO THE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM; AND TO PROVIDE FOR A RESTORATION PROCESS TO REMOVE THE COMMITMENT BAR TO THE PURCHASE, POSSESSION, AND TRANSFER OF FIREARMS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 122C-54 is amended by adding the following new subsection to read:

"(d1) After a judicial determination that an individual shall be involuntarily committed for either inpatient or outpatient mental health treatment pursuant to Article 5 of this Chapter, the clerk of superior court in the county where the judicial determination was made shall, as soon as practicable, cause a report of the commitment to be transmitted to the National Instant Criminal Background Check System (NICS). Reporting of an individual involuntarily committed to outpatient mental health treatment under this subsection shall only be reported if the individual is found to be a danger to self or others. The clerk shall also cause to be transmitted to NICS a record where an individual is found not guilty by reason of insanity or found mentally incompetent to proceed to criminal trial. The clerk, upon receipt of documentation that an affected individual has received a relief from disabilities pursuant to G.S. 122C-54.1 or any applicable federal law, shall cause the individual's record in NICS to be updated. The record of involuntary commitment shall be accessible only by an entity having proper access to NICS and shall remain otherwise confidential as provided by this Article. The clerk shall effect the transmissions to NICS required by the subsection according to protocols which shall be established by the Administrative Office of the Courts."

SECTION 2. Article 3 of Chapter 122C of the General Statutes is amended by adding the following new section to read:

"§ 122C-54.1. Restoration process to remove mental commitment bar.

(a) Any individual over the age of 18 may petition for the removal of the mental commitment bar to purchase, possess, or transfer a firearm when the individual no longer suffers from the condition that resulted in the individual's involuntary commitment for either inpatient or outpatient mental health treatment pursuant to Article 5 of this Chapter and no longer poses a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12. The individual may file the petition with a district court judge upon the expiration of any current inpatient or outpatient commitment. No individual who has been found not guilty by reason of insanity may petition a court for restoration under this section.

(b) The petition must be filed in the district court of the county where the respondent was the subject of the most recent judicial determination that either inpatient or outpatient treatment was appropriate or in the district court of the county of the petitioner's residence. An individual disqualified from firearms possession due to a comparable out-of-State mental commitment shall make application in the county of residence. The clerk of court upon receipt of the petition shall schedule a hearing using the regularly scheduled commitment court time and provide notice of the hearing to the petitioner and the district attorney. Copies of the petition must be served on the director
of the inpatient and outpatient treatment facility, in-State or out-of-State, and the district attorney in the petitioner's current county of residence.

(c) The burden is on the petitioner to establish by a preponderance of the evidence that the petitioner no longer suffers from the condition that resulted in commitment and no longer poses a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12. The district attorney shall present any and all relevant information to the contrary. For these purposes, the district attorney may access and use any and all mental health records, juvenile records, and criminal history of the petitioner wherever maintained. The applicant must sign a release for the district attorney to receive any mental health records of the applicant. This hearing shall be closed to the public, unless the court finds that the public interest would be better served by conducting the hearing in public. If the court determines the hearing should be open to the public, upon motion by the petitioner, the court may allow for the in camera inspection of any mental health records. The court may allow the use of the record but shall restrict it from public disclosure, unless it finds that the public interest would be better served by making the record public. The district court shall enter an order that the petitioner does or does not continue to suffer from the condition that resulted in commitment and does or does not continue to pose a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12. The court shall include in its order the specific findings of fact on which it bases its decision. The decision of the district court may be appealed to the superior court for a hearing de novo. After a denial by the superior court, the applicant must wait a minimum of one year before reapplying. Attorneys designated by the Attorney General shall be available to represent the State, or assist in the representation of the State, in a restoration proceeding when requested to do so by a district attorney and approved by the Attorney General. An attorney so designated shall have all the powers of the district attorney under this section.

(d) Upon a judicial determination to grant a petition under this section, the clerk of superior court in the county where the petition was granted shall forward the order to the National Instant Criminal Background Check System (NICS) for updating of the respondent's record."

SECTION 3(a) G.S. 14-404 is amended by adding the following new subsection to read:

"(g) An applicant shall not be ineligible to receive a permit under subsection (4) of subsection (c) of this section because of involuntary commitment to mental health services if the individual's rights have been restored under G.S. 122C-54.1."

SECTION 3(b) G.S. 14-415.12 is amended by adding the following new subsection to read:

"(c) An applicant shall not be ineligible to receive a concealed carry permit under subdivision (6) of subsection (b) of this section because of involuntary commitment to mental health services if the individual's rights have been restored under G.S. 122C-54.1."

SECTION 4. The Administrative Office of the Courts may use up to twenty-five thousand dollars ($25,000) of funds within its budget for the 2008-2009 fiscal year to carry out the provisions of this act.

SECTION 5. Sections 1 through 3 of this act become effective December 1, 2008. Section 4 of this act becomes effective July 1, 2008. The remainder of this act is effective when it becomes law.
In the General Assembly read three times and ratified this the 18th day of July, 2008.
Became law upon approval of the Governor at 9:52 a.m. on the 9th day of August, 2008.

Session Law 2008-211 S.B. 1967

AN ACT TO PROVIDE FOR IMPROVEMENTS IN THE MANAGEMENT OF STORMWATER IN THE COASTAL COUNTIES IN ORDER TO PROTECT WATER QUALITY.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Disapprove Rule. – Pursuant to G.S. 150B-21.3(b1), 15A NCAC 02H .1005 (Stormwater Requirements: Coastal Counties), as adopted by the Environmental Management Commission on 10 January 2008 and approved by the Rules Review Commission on 20 March 2008, is disapproved.

SECTION 1.(b) Supersede Rule. – 15A NCAC 02H .1005 (Stormwater Requirements: Coastal Counties), effective 1 September 1995, is superseded by this act. References in the North Carolina Administrative Code to 15A NCAC 02H .1005 shall be deemed to refer to the equivalent provisions of this act.

SECTION 2.(a) Definitions. – The following definitions apply to this act and its implementation:

1. The definitions set out in 15A NCAC 02H .1002 (Definitions).
2. The definitions set out in G.S. 143-212 and G.S. 143-213.
3. "Built upon area" has the same meaning as in Session Law 2006-246 and means that portion of a project that is covered by impervious or partially impervious surface including, but not limited to, buildings; pavement and gravel areas such as roads, parking lots, and paths; and recreation facilities such as tennis courts. "Built upon area" does not include a wooden slatted deck, the water area of a swimming pool, or pervious or partially pervious paving material to the extent that the paving material absorbs water or allows water to infiltrate through the paving material.
4. "Permeable pavement" means paving material that absorbs water or allows water to infiltrate through the paving material. Permeable pavement materials include porous concrete, permeable interlocking concrete pavers, concrete grid pavers, porous asphalt, and any other material with similar characteristics. Compacted gravel shall not be considered permeable pavement.
5. "Residential development activities" has the same meaning as in 15A NCAC 02B .0202(54).
6. "Vegetative buffer" has the same meaning as in 15A NCAC 02H .1002(22) and means an area of natural or established vegetation directly adjacent to surface waters through which stormwater runoff flows in a diffuse manner to protect surface waters from degradation due to development activities.
7. "Vegetative conveyance" means a permanent, designed waterway lined with vegetation that is used to convey stormwater runoff at a non-erosive velocity within or away from a developed area.
SECTION 2.(b) Requirements for Certain Nonresidential and Residential Development in the Coastal Counties. – All nonresidential development activities that occur within the Coastal Counties that will add more than 10,000 square feet of built upon area or that require a Sedimentation and Erosion Control Plan, pursuant to G.S. 113A-57 or a Coastal Area Management Act (CAMA) Major Development Permit, pursuant to G.S. 113A-118 and all residential development activities within the Coastal Counties that require a Sedimentation and Erosion Control Plan, pursuant to G.S. 113A-57 or a Coastal Area Management Act (CAMA) Major Development Permit, pursuant to G.S. 113A-118 shall manage stormwater runoff as provided in this subsection. A development activity or project requires a Sedimentation and Erosion Control Plan if the activity or project disturbs one acre or more of land, including an activity or project that disturbs less than one acre of land that is part of a larger common plan of development. Whether an activity or project that disturbs less than one acre of land is part of a larger common plan of development shall be determined in a manner consistent with the memorandum referenced as "Guidance Interpreting Phase 2 Stormwater Requirements" from the Director of the Division of Water Quality of the Department of Environment and Natural Resources to Interested Parties dated 24 July 2006.

(1) Development Near Outstanding Resource Waters (ORW). – Development activities within the Coastal Counties and located within 575 feet of the mean high waterline of areas designated by the Commission as Outstanding Resource Waters (ORW) shall meet the requirements of 15A NCAC 02H.1007 (Stormwater Requirements: Outstanding Resource Waters) and shall be permitted as follows:
   a. Low-Density Option. – Development shall be permitted pursuant to 15A NCAC 02H.1003(d)(1) if the development meets all of the following requirements:
      1. The development has a built upon area of twelve percent (12%) or less. A development project with an overall density at or below the low-density threshold, but containing areas with a density greater than the overall project density, shall be considered low-density as long as the project meets or exceeds the requirements for low-density development and locates the higher density development in upland areas and away from surface waters and drainageways to the maximum extent practicable.
      2. Stormwater runoff from the development is transported primarily by vegetated conveyances. As used in this sub-sub-subdivision, "conveyance system" shall not include a stormwater collection system. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.
      3. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of
each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with and maintained in grass or any other vegetative or plant material. The Division of Water Quality may, on a case-by-case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

b. High-Density Option. – Development shall be permitted pursuant to 15A NCAC 02H .1003(d)(2) if the development meets all of the following requirements:

1. The development has a built upon area of greater than twelve percent (12%).
2. The development has no direct outlet channels or pipes to Class SA waters unless permitted in accordance with 15A NCAC 02H .0126. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.
3. The development utilizes control systems that are any combination of infiltration systems, bioretention systems, constructed stormwater wetlands, sand filters, rain barrels, cisterns, rain gardens or alternative low impact development stormwater management systems designed in accordance with 15A NCAC 02H .1008 to control and treat the runoff from all surfaces generated by one and one-half inches of rainfall, or the difference in the stormwater runoff from all surfaces from the predevelopment and postdevelopment conditions for a one-year, 24-hour storm, whichever is greater. Wet detention ponds may be used as a stormwater control system to meet the requirements of this sub-sub-subdivision, provided that the stormwater control system fully complies with the requirements of this sub-sub-subdivision. If a wet detention pond is used within one-half mile of Class SA waters, installation of a stormwater best management practice in series with the wet detention pond shall be required to treat the discharge from the wet detention pond. Secondary stormwater best management practices that are used in series with another stormwater best management practice do not require any minimum separation from the...
seasonal high water table. Alternatives as described in 15A NCAC 02H .1008(h) may also be approved if they meet the requirements of this sub-subdivision.

4. Stormwater runoff from the development that is in excess of the design volume must flow overland through a vegetative filter designed in accordance with 15A NCAC 02H .1008 with a minimum length of 50 feet measured from mean high water of Class SA waters.

5. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. Furthermore, stormwater control best management practices (BMPs), or stormwater control structures, with the exception of wet detention ponds, may be located within this vegetative buffer. The Division of Water Quality may, on a case by case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b).

Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

c. Stormwater Discharges Prohibited. – All development activities, including both low- and high-density projects, shall prohibit new points of stormwater discharge to Class SA waters or an increase in the volume of stormwater flow through conveyances or increase in capacity of conveyances of existing stormwater conveyance systems that drain to Class SA waters. Any modification or redesign of a stormwater conveyance system within the contributing drainage basin must not increase the net amount or rate of stormwater discharge through existing outfalls to Class SA waters. The following shall not be considered a direct point of stormwater discharge:

1. Infiltration of the stormwater runoff from the design storm as described in sub-sub-subdivision 3. of sub-subdivision b. of subdivision (1) of this subsection.

2. Diffuse flow of stormwater at a non-erosive velocity to a vegetated buffer or other natural area, that is capable of providing effective infiltration of the runoff from the
3. The discharge from a wet detention pond that is treated by a secondary stormwater best management practice, provided that both the wet detention pond and the secondary stormwater best management practice meet the requirements of this sub-subdivision.

d. Limitation on the Density of Development. – Development shall be limited to a built upon area of twenty-five percent (25%) or less.

(2) Development Near Class SA Waters. – Development activities within one-half mile of and draining to those waters classified by the Commission as Class SA waters or within one-half mile of waters classified by the Commission as Class SA waters and draining to unnamed freshwater tributaries to Class SA waters shall meet the requirements of sub-divisions a., b., and c. of subdivision (1) of this subsection. The extent of Class SA waters is limited to those waters that are determined to be at least an intermittent stream based on a site stream determination made in accordance with the procedures that are delineated in the Division of Water Quality's "Identification Methods for the Origin of Intermittent and Perennial Streams" prepared pursuant to Session Law 2001-404.

(3) Other Coastal Development. – Development activities within the Coastal Counties except those areas described in subdivisions (1) and (2) of this subsection shall meet all of the following requirements:

a. Low-Density Option: Development shall be permitted pursuant to 15A NCAC 02H.1003(d)(1) if the development meets all of the following requirements:

1. The development has a built upon area of twenty-four percent (24%) or less. A development project with an overall density at or below the low-density threshold, but containing areas with a density greater than the overall project density, shall be considered low density as long as the project meets or exceeds the requirements for low-density development and locates the higher density in upland areas and away from surface waters and drainageways to the maximum extent practicable.

2. Stormwater runoff from the development is transported primarily by vegetated conveyances. As used in this sub-sub-subdivision, "conveyance system" shall not include a stormwater collection system. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.
3. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. The Division of Water Quality may, on a case-by-case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

b. High-Density Option: Higher density developments shall be permitted pursuant to 15A NCAC 02H .1003(d)(2) if the development meets all of the following requirements:

1. The development has a built upon area of greater than twenty-four percent (24%).
2. The development uses control systems that are any combination of infiltration systems, wet detention ponds, bioretention systems, constructed stormwater wetlands, sand filters, rain barrels, cisterns, rain gardens or alternative stormwater management systems designed in accordance with 15A NCAC 02H .1008.
3. Control systems must be designed to store, control, and treat the stormwater runoff from all surfaces generated by one and one-half inch of rainfall.
4. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.
5. A 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. Furthermore, stormwater control best management practices (BMPs), or stormwater control structures, with the exception of wet
detention ponds, may be located within this vegetative buffer. The Division of Water Quality may, on a case by case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

(4) Requirements for Structural Stormwater Controls. – Structural stormwater controls required under this section shall meet all of the following requirements:
   a. Remove an eighty-five percent (85%) average annual amount of Total Suspended Solids.
   b. For detention ponds, draw down the treatment volume no faster than 48 hours, but no slower than 120 hours.
   c. Discharge the storage volume at a rate equal to or less than the predevelopment discharge rate for the one-year, 24-hour storm.
   d. Meet the General Engineering Design Criteria set forth in 15A NCAC 02H .1008(c).
   e. For structural stormwater controls that are required under this section and that require separation from the seasonal high-water table, a minimum separation of two feet is required. Where a separation of two feet from the seasonal highwater table is not practicable, the Division of Water Quality may grant relief from the separation requirement pursuant to the Alternative Design Criteria set out in 15A NCAC 02H .1008(h). No minimum separation from the seasonal highwater table is required for a secondary stormwater best management practice that is used in a series with another stormwater best management practice.

(5) Certain Wetlands Excluded From Density Calculation. – For the purposes of this section, areas defined as Coastal Wetlands under 15A NCAC 07H .0205, as measured landward from the normal high waterline, shall not be included in the overall project area to calculate impervious surface density. Wetlands that are not regulated as coastal wetlands pursuant to 15A NCAC 07H .0205 and that are located landward of the normal high waterline may be included in the overall project area to calculate impervious surface density.

A potential benefit includes an economic or financial detriment to a business competitor of (i) the legislator, (ii) a member of the legislator's extended family, (iii) a business with which the legislator is associated, or (iv) a nonprofit corporation or organization with which the legislator is associated. If the judge so determines, then the judge shall indicate on the form reflecting the judgment that the offense involved criminal street gang activity. The clerk of court shall ensure that the official record of the defendant's conviction includes a notation of the court's determination.

(b) If the court, in its discretion, defers proceedings pursuant to this section, it shall place the defendant on supervised probation for not less than one year, in addition to any other conditions. Prior to taking any action to discharge and dismiss under this section, the court shall make a finding that the defendant has no previous criminal convictions. Upon fulfillment of the terms and conditions of the probation provided for in this section, the court shall discharge the defendant and dismiss the proceedings against the defendant.

(c) Discharge and dismissal under this section shall be without court adjudication of guilt and shall not be deemed a conviction for purposes of this section or for purposes of disqualifications or disabilities imposed by law upon conviction of a crime. Discharge and dismissal under this section may occur only once with respect to any person. Disposition of a case to determine discharge and dismissal under this section at the district court division of the General Court of Justice shall be final for the purpose of appeal. If the court determines, after hearing, that such person was dismissed and the proceedings against the person discharged and that the person had not yet attained 18 years of age at the time of the offense, it shall enter such order. The effect of such order shall be to restore such person in the contemplation of the law to the status the person occupied before such arrest or indictment or information.

(e) The clerk of superior court in each county in North Carolina shall, as soon as practicable after each term of court in his county, file with the Administrative Office of the Courts the names of those persons granted a discharge under the provisions of this section, and the Administrative Office of the Courts shall maintain a confidential file containing the names of persons granted conditional discharges. The information contained in such file shall be disclosed only to judges of the General Court of Justice of North Carolina for the purpose of ascertaining whether any person charged with an offense has been previously granted a discharge.

§ 14-50.30. Expunction of records.

(a) Whenever any person who has not yet attained the age of 18 years and has not previously been convicted of any felony or misdemeanor other than a traffic violation under the laws of the United States or the laws of this State or any other state, pleads guilty to or is guilty of (i) a Class H felony under this Article or (ii) an enhanced offense under G.S. 14-50.22, the person may file a petition in the court where the person was convicted for expunction of the offense from the person's criminal record. Except as provided in G.S. 14-50.29 upon discharge and dismissal, the petition cannot be filed earlier than (i) two years after the date of the conviction or (ii) the completion of any period of probation, whichever occurs later. The petition shall contain, but not be limited to, the following:

(1) An affidavit by the petitioner that the petitioner has been of good behavior (i) during the period of probation since the decision to defer further proceedings on the offense in question pursuant to G.S. 14-50.29 or (ii) during the two-year period since the date of conviction of the offense in question, whichever applies, and has not been convicted of any felony, or misdemeanor other than a traffic violation, under the laws of the United States or the laws of this State or any other state.

(4) Affidavits of the clerk of superior court, chief of police, where appropriate, and sheriff of the county in which the petitioner was convicted and, if different, the county of which the petitioner is a resident, showing that the petitioner has not been convicted of a felony or misdemeanor other than a traffic violation under the laws of this State (i) during the period of probation since the decision to defer further proceedings on the offense in question pursuant to G.S. 14-50.29 or (ii) at any time prior to the conviction for the offense
in question or during the two-year period following that conviction, whichever applies.

(5) An affidavit by the petitioner that no restitution orders or civil judgments representing amounts ordered for restitution entered against the petitioner are outstanding.

The petition shall be served upon the district attorney of the court wherein the case was tried resulting in conviction. The district attorney shall have 10 days thereafter in which to file any objection thereto and shall be duly notified as to the date of the hearing of the petition.

The judge to whom the petition is presented is authorized to call upon a probation officer for any additional investigation or verification of the petitioner's conduct during the probationary period or during the two-year period after conviction.

(b) If the court, after hearing, finds that the petitioner has remained of good behavior and been free of conviction of any felony or misdemeanor, other than a traffic violation, for two years from the date of conviction of the offense in question, the petitioner has no outstanding restitution orders or civil judgments representing amounts ordered for restitution entered against him, and the petitioner had not attained the age of 18 years at the time of the conviction in question, it shall order that such person be restored, in the contemplation of the law, to the status occupied by the petitioner before such arrest or indictment or information. No person as to whom such order has been entered shall be held thereafter under any provision of any laws to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, or indictment, information, or trial, or response to any inquiry made of the person for any purpose. The court shall also order that the said conviction be expunged from the records of the court, and direct all law enforcement agencies bearing record of the same to expunge their records of the conviction as the result of a criminal charge. The clerk shall forward a certified copy of the order to the sheriff, chief of police, or other arresting agency. The sheriff, chief, or head of such other arresting agency shall then transmit the copy of the order with a form supplied by the State Bureau of Investigation to the State Bureau of Investigation, and the State Bureau of Investigation shall forward the order to the Federal Bureau of Investigation.

(2) The drug trafficking offense was committed while the person was on pretrial release for another offense; and

The maximum term of imprisonment shall be the maximum term that corresponds to the minimum term after it is increased by 60 months, as specified in G.S. 15A-1340.17(e) and (e1).

(d) An indictment or information for the Class A, B1, B2, C, D, or E felony shall allege in that indictment or information the facts set out in subsection (c) of this section. The pleading is sufficient if it alleges that the defendant committed the felony by using, displaying, or threatening the use or display of a firearm or deadly weapon and the defendant actually possessed the firearm or deadly weapon about the defendant's person. One pleading is sufficient for all Class A, B1, B2, C, D, or E felonies that are tried at a single trial.

(e) The State shall prove the issues set out in subsection (c) of this section beyond a reasonable doubt during the same trial in which the defendant is tried for the felony unless the defendant pleads guilty or no contest to the issues. If the defendant pleads guilty or no contest to the felony but pleads not guilty to the issues set out in subsection (c) of this section, then a jury shall be impaneled to determine the issues.

(f) Subsection (c) of this section does not apply if the evidence of the use, display, or threatened use or display of the firearm or deadly weapon is needed to prove an element of the felony or if the person is not sentenced to an active term of imprisonment."

CONFORMING CHANGES, AS RECOMMENDED BY THE NORTH CAROLINA CHILD FATALITY TASK FORCE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering of temperature, and electrical systems; and such other reasonable rules pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large.

In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions requiring the installation of either battery-operated or electrical carbon monoxide detectors in every dwelling unit having a fossil-fuel burning heater or appliance, fireplace, or an attached garage. Carbon monoxide detectors shall be those listed by a nationally recognized testing laboratory that is OSHA-approved to test and certify to American National Standards Institute/Underwriters Laboratories Standards ANSI/UL2034 or ANSI/UL2075 and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance. A carbon monoxide detector may be combined with smoke detectors if the combined detector does both of the following: (i) complies with ANSI/UL2034 or ANSI/UL2075 for carbon monoxide alarms and ANSI/UL217 for smoke detectors; and (ii) emits an alarm in a manner that clearly differentiates between detecting the presence of carbon monoxide and the presence of smoke.

The Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.
Provided further, that nothing in this Article shall be construed to make any building rules applicable to farm buildings located outside the building-rules jurisdiction of any municipality.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars ($5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars ($20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices [the following:]

1. Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,
2. Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and
3. Any rules relating to sanitation adopted by the Commission for Public Health which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of industrial machinery. However, if during the building code inspection process, an electrical inspector has any concerns about the electrical safety of a piece of industrial machinery, the electrical inspector may refer that concern to the Occupational Safety and Health Division in the North Carolina Department of Labor but shall not withhold the certificate of occupancy nor mandate third-party testing of the industrial machinery based solely on this concern. For the purposes of this paragraph, "industrial machinery" means equipment and machinery used in a system of operations for the explicit purpose of producing a product. The term does not include equipment that is permanently
attached to or a component part of a building and related to general building services such as ventilation, heating and cooling, plumbing, fire suppression or prevention, and general electrical transmission.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space requirements and may contain rules concerning energy efficiency that require all hot water plumbing pipes that are larger than one-fourth of an inch to be insulated.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)c., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily."

SECTION 2. G.S. 42-42(a) is amended by adding the following new subdivision to read:

"(a) The landlord shall:

... Provide a minimum of one operable carbon monoxide detector per rental unit per level, either battery-operated or electrical, that is listed by a nationally recognized testing laboratory that is OSHA-approved to test and certify to American National Standards Institute/Underwriters Laboratories Standards ANSI/UL2034 or ANSI/UL2075, and install the carbon monoxide detectors in accordance with either the standards of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the landlord shall retain or provide as proof of compliance. A landlord that installs one carbon monoxide detector per rental unit per level shall be deemed to be in compliance with standards under this subdivision covering the location and number of detectors. The landlord shall replace or repair the carbon monoxide detectors within 15 days of receipt of notification if the landlord is notified of needed replacement or repairs in writing by the tenant. The landlord shall ensure that a carbon monoxide detector is operable and in good repair at the beginning of each tenancy. Unless the landlord and the tenant have a written agreement to the contrary, the landlord shall place new batteries in a battery-operated carbon monoxide detector at the beginning of a tenancy, and the tenant shall replace the batteries as needed during the tenancy. Failure of the tenant to replace the batteries as needed shall not be considered as negligence on the part of the tenant or the landlord. A carbon monoxide detector may be combined with smoke detectors if the combined detector does both of the following: (i) complies with ANSI/UL2034 or ANSI/UL2075 for carbon monoxide alarms and ANSI/UL217 for smoke detectors; and (ii) emits an alarm in a manner that clearly differentiates between detecting the presence of carbon monoxide and the presence of smoke. This subdivision applies only to dwelling units
having a fossil-fuel burning heater or appliance, fireplace, or an attached garage.

SECTION 3. G.S. 42-43(a)(4) and (a)(7) read as rewritten:

"§ 42-43. Tenant to maintain dwelling unit.
(a) The tenant shall:

... (4) Not deliberately or negligently destroy, deface, damage, or remove any part of the premises, nor render inoperable the smoke detector or carbon monoxide detector provided by the landlord, or knowingly permit any person to do so.

... (7) Notify the landlord, in writing, of the need for replacement of or repairs to a smoke detector or carbon monoxide detector. The landlord shall ensure that a smoke detector and carbon monoxide detector are operable and in good repair at the beginning of each tenancy. Unless the landlord and the tenant have a written agreement to the contrary, the landlord shall place new batteries in a battery-operated smoke detector and battery-operated carbon monoxide detector at the beginning of a tenancy and the tenant shall replace the batteries as needed during the tenancy. Failure of the tenant to replace the batteries as needed shall not be considered as negligence on the part of the tenant or the landlord."

SECTION 4. G.S. 42-44 reads as rewritten:

"§ 42-44. General remedies, penalties, and limitations.
(a) Any right or obligation declared by this Chapter is enforceable by civil action, in addition to other remedies of law and in equity.

(a1) If a landlord fails to provide, install, replace, or repair a smoke detector under the provisions of G.S. 42-42(a)(5) or a carbon monoxide detector under the provisions of G.S. 42-42(a)(7) within 30 days of having received written notice from the tenant or any agent of State or local government of the landlord's failure to do so, the landlord shall be responsible for an infraction and shall be subject to a fine of not more than two hundred fifty dollars ($250.00) for each violation. The landlord may temporarily disconnect a smoke detector or carbon monoxide detector in a dwelling unit or common area for construction or rehabilitation activities when such activities are likely to activate the smoke detector or carbon monoxide detector or make it inactive.

(a2) If a smoke detector or carbon monoxide detector is disabled or damaged, other than through actions of the landlord, the landlord's agents, or acts of God, the tenant shall reimburse the landlord the reasonable and actual cost for repairing or replacing the smoke detector or carbon monoxide detector within 30 days of having received written notice from the landlord or any agent of State or local government of the need for the tenant to make such reimbursement. If the tenant fails to make reimbursement within 30 days, the tenant shall be responsible for an infraction and subject to a fine of not more than one hundred dollars ($100.00) for each violation. The tenant may temporarily disconnect a smoke detector or carbon monoxide detector in a dwelling unit to replace the batteries or when it has been inadvertently activated.

(b) Repealed by Session Laws 1979, c. 820, s. 8.

(c) The tenant may not unilaterally withhold rent prior to a judicial determination of a right to do so.
(d) A violation of this Article shall not constitute negligence per se."

SECTION 5. The amendment to G.S. 143-138(b) contained in Section 1 of this act shall not be construed to imply that the Building Code Council does not possess the authority contained in that amendment prior to the effective date of Section 1 of this act.

SECTION 6. Any operable carbon monoxide detector installed before January 1, 2010, shall be deemed to be in compliance with the provisions of G.S. 42-42(a)(7) as set forth in Section 2 of this act.

SECTION 7. The Building Code Council shall study the needs and benefits of carbon monoxide detectors as set forth in provisions in Section 1 of this act and report the results of its study to the General Assembly on or before July 1, 2009.

SECTION 8. Sections 2, 3, and 4 of this act become effective January 1, 2010, and apply to residential rental agreements in effect on and after that date. The remainder of this act is effective when it becomes law.

"§ 90-629.1. Criminal history record checks of applicants for licensure.

(a) All applicants for licensure shall consent to a criminal history record check. The Board shall ensure that the State and national criminal history of an applicant is checked. The Board shall be responsible for providing to the North Carolina Department of Justice the fingerprints of the applicant to be checked, a form signed by the applicant consenting to the criminal record check and the use of fingerprints and other identifying information required by the State or National Repositories, and any additional information required by the Department of Justice. The Board may disclose to the applicant information contained in the criminal history record check that is relevant to the denial. The Board shall not provide a copy of the criminal history record check to the applicant. The applicant shall have the right to appear before the Board to appeal the Board's decision. (d) The Board, its officers, and employees, acting in good faith and in compliance with this section, shall be immune from civil liability for denying licensure
to an applicant based on information provided in the applicant's criminal history record check."

Session Law 2008-225 S.B. 1697

AN ACT TO PROVIDE FOR THE ENFORCEMENT OF TOLLS ON TURNPIKE PROJECTS OF THE NORTH CAROLINA TURNPIKE AUTHORITY, TO MODIFY LAWS APPLICABLE TO THE NORTH CAROLINA TURNPIKE AUTHORITY, AND TO CLARIFY THE AUTHORIZATION MADE IN A PRIOR LAW TO TOLL AN EXISTING SEGMENT OF N.C. 540.

The General Assembly of North Carolina enacts:

SECTION 1. Article 6H of Chapter 136 of the General Statutes is amended by designating the current sections in that Article as Part 1 with a heading that reads as follows:

"Part 1. Turnpike Authority and Toll Projects."

SECTION 2. Article 6H of Chapter 136 of the General Statutes, as amended by Section 1 of this act, is amended by adding a new Part to read:

"Part 2. Collection of Tolls on Turnpike Projects."

The definitions in G.S. 136-89.181 and the following definitions apply in this Article:

(1) Reserved.
(2) Open road toll. – A toll payable under an open road tolling system.
(3) Open road tolling system. – A system of collecting a toll for the use of a highway that does not provide a way to pay the toll in cash while traveling on the highway.

"§ 136-89.211. Tolls for use of Turnpike project."

In exercising its authority under G.S. 136-89.183 to set tolls for the use of a Turnpike project, the Authority may not do any of the following:

(1) Set open road tolls that vary for the same class of motor vehicle depending on the method by which the Authority identifies a motor vehicle that drives on the Turnpike project. This does not preclude the Authority from allowing a discount of up to thirty-five percent (35%) of the amount of a toll for a motor vehicle equipped with an electronic toll collection transponder.
(2) Exempt a motor vehicle that is not a law enforcement vehicle, an emergency fire or rescue vehicle, or an emergency medical services vehicle from the requirement of paying a toll for the use of a Turnpike project.

"§ 136-89.212. Payment of toll required for use of Turnpike project."

A motor vehicle that is driven on a Turnpike project is subject to a toll imposed by the Authority for the use of the project. If the toll is an open road toll, the person who is the registered owner of the motor vehicle is liable for payment of the toll unless the registered owner establishes that the motor vehicle was in the care, custody, and control of another person when it was driven on the Turnpike project.

A person establishes that a motor vehicle was in the care, custody, and control of another person when it was driven on a Turnpike project by submitting to the Authority a sworn affidavit stating one of the following:
(1) The name and address of the person who had the care, custody, and control of the motor vehicle when it was driven. If the motor vehicle was leased or rented under a long-term lease or rental, as defined in G.S. 105-187.1, the affidavit must be supported by a copy of the lease or rental agreement or other written evidence of the agreement.

(2) The motor vehicle was stolen. The affidavit must be supported by an insurance or police report concerning the theft or other written evidence of the theft.

(3) The person transferred the motor vehicle to another person by sale or otherwise before it was driven on the Turnpike project. The affidavit must be supported by insurance information, a copy of the certificate of title, or other evidence of the transfer.

"§ 136-89.213. Administration of tolls and requirements for open road tolls.

(a) Administration. – The Authority is responsible for collecting tolls on Turnpike projects. In exercising its authority under G.S. 136-89.183 to perform or procure services required by the Authority, the Authority may contract with one or more providers to perform part or all of the collection functions and may enter into agreements to exchange information that identifies motor vehicles and their owners with one or more of the following entities: the Division of Motor Vehicles of the Department of Transportation, another state, another toll operator, or a toll collection-related organization. Identifying information obtained by the Authority through an agreement is not a public record and is subject to the disclosure limitations in 18 U.S.C. § 2721, the federal Driver's Privacy Protection Act.

(b) Open Road Tolls. – If a Turnpike project uses an open road tolling system, the Authority must operate a facility that is in the immediate vicinity of the Turnpike project and that accepts cash payment of the toll and must place signs on the Turnpike project that give drivers the following information:

(1) Notice that the driver is approaching a highway for which a toll is required. Signs providing this information must be placed before the toll is incurred.

(2) The methods by which the toll may be paid.

(3) Directions to the nearby facility that accepts cash payment of the toll.

(a) Bill. – If a motor vehicle travels on a Turnpike project that uses an open road tolling system and a toll for traveling on the project is not paid within 15 days after the travel occurs, the Authority must send a bill by first-class mail to the registered owner of the motor vehicle for the amount of the unpaid toll. The Authority must send the bill within 90 days after the travel occurs. If a bill is not sent within the required time, the Authority waives collection of the toll. The Authority must establish a billing period for unpaid open road tolls that is no shorter than 15 days. A bill for a billing period must include all unpaid tolls incurred by the same person during the billing period.

(b) Information on Bill. – A bill sent under this section must include all of the following information:

(1) The name and address of the registered owner of the motor vehicle that traveled on the Turnpike project.

(2) The date the travel occurred, the approximate time the travel occurred, and each segment of the Turnpike project on which the travel occurred.
(3) An image of the registration plate of the motor vehicle, if the Authority captured an electronic image of the motor vehicle when it traveled on the Turnpike project.

(4) The amount of the toll due and an explanation of how payment may be made.

(5) The date by which the toll must be paid to avoid the imposition of a processing fee under G.S. 136-89.215 and the amount of the processing fee.

(6) A statement that a vehicle owner who has unpaid tolls is subject to a civil penalty and may not renew the vehicle's registration until the tolls and civil penalties are paid.

(7) A clear and concise explanation of how to contest liability for the toll.

"§ 136-89.215. Required action upon receiving bill for open road toll and processing fee for unpaid toll.

(a) Action Required. – A person who receives a bill for an unpaid open road toll must take one of the following actions within 30 days after receiving the bill:

(1) Pay the bill.

(2) Send a written request to the Authority for a review of the toll.

(b) Fee. – If a person does not take one of the actions required under subsection (a) of this section within the required time, the Authority may add a processing fee to the amount the person owes. The processing fee may not exceed six dollars ($6.00). A person may not be charged more than forty-eight dollars ($48.00) in processing fees in a calendar year.

The Authority must set the processing fee at an amount that does not exceed the costs of identifying the owner of a motor vehicle that is subject to an unpaid toll and billing the owner for the unpaid toll. The fee is a receipt of the Authority and must be applied to these costs.

"§ 136-89.216. Civil penalty for failure to pay open road toll.

(a) Penalty. – A person who receives one or more bills for unpaid open road tolls during the first or second six-month period in a year and who has not paid the amount due on those bills within 30 days after the end of the six-month period is subject to a civil penalty of twenty-five dollars ($25.00). The period from January 1 through June 30 of a year is the first six-month period in a year, and the period from July 1 through December 31 is the second six-month period in a year. Only one penalty may be assessed for a six-month period.

(b) Payment. – The Authority must send a notice by first-class mail to a person who is assessed a civil penalty under this section. A person who is assessed a civil penalty must pay the unpaid toll for which the civil penalty was imposed, the amount of any processing fee due, and the civil penalty within 30 days after receiving the notice.

(c) Penalty Proceeds. – A civil penalty imposed under this section is payable to the Authority or, if collected when a vehicle registration is renewed, to the Division of Motor Vehicles of the Department of Transportation. The clear proceeds of a civil penalty imposed under this section must be credited to the Civil Penalty and Forfeiture Fund established in G.S. 115C-457.1. The guidelines used by the Office of State Budget and Management to determine an agency's actual costs of collecting a civil penalty and the clear proceeds of the civil penalty apply to the determination of the clear proceeds of a civil penalty imposed under this section.
§ 136-89.217. Vehicle registration renewal blocked for unpaid open road toll.
   (a) Registration Block. – Failure of a person to pay an open road toll billed to the person under G.S. 136-89.214, any processing fee added under G.S. 136-89.215, and any civil penalty imposed under G.S. 136-89.216 is grounds under G.S. 20-54 to withhold the registration renewal of a motor vehicle registered in that person's name. The Authority must notify the Commissioner of Motor Vehicles of a person who owes a toll, a processing fee, or a civil penalty. When notified, the Commissioner of Motor Vehicles must withhold the registration renewal of any motor vehicle registered in that person's name.
   (b) Collection by DMV. – A person whose motor vehicle registration renewal is blocked under this section may pay to the Division of Motor Vehicles of the Department of Transportation the amount owed for unpaid tolls, processing fees, and civil penalties due under this Part when renewing the vehicle registration. The Division must remit to the Authority the amount of tolls, fees, and civil penalties collected. The Division's costs of collecting tolls, fees, and civil penalties are considered a necessary expense of the operation of the Authority, and the Authority must reimburse the Division for these costs.

§ 136-89.218. Procedures for contesting liability for unpaid open road toll.
   (a) Informal Review. – A person who receives a bill for an unpaid open road toll and who disputes liability for the toll may contest the toll by sending to the Authority a request for review of the toll. The person may include a sworn affidavit described in G.S. 136-89.212 that establishes that someone else had the care, custody, and control of the motor vehicle subject to the toll when the toll was incurred. The person must send the request for review to the Authority within 30 days after receiving the bill for the toll. A person who does not send a request for review to the Authority within this time limit waives the right to a review. If a person sends a timely request for review to the Authority, the Authority may not collect the disputed toll and any processing fee added to the bill for the toll until the conclusion of the review process in this section.

AN ACT TO CREATE AN EMERGENCY PROGRAM TO REDUCE HOME FORECLOSURES AND TO AUTHORIZE THE COMMISSIONER OF BANKS TO USE FUNDS FOR HOME FORECLOSURE PREVENTION.

Whereas, the General Assembly finds that there is a substantial increase in mortgage foreclosures due to the national subprime mortgage and housing crisis; and

Whereas, it will benefit both borrowers and lenders in the State of North Carolina if every effort is made to bring the parties together to seek solutions and avoid foreclosures; and

Whereas, in seeking resolutions to avoid foreclosure, it is important to recognize the rights and obligations under the existing mortgages and servicing contracts and the needs of borrowers and communities to preserve home ownership;

Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 45 of the General Statutes is amended by adding a new Article to read:

"Article 11.

The following definitions apply throughout this Article:

(2) Mortgage lender. – A person engaged in the business of making mortgage loans for compensation or gain.

(4) Subprime loan. – A loan, originated on or after January 1, 2005, but before December 31, 2007, that would meet the definition of a rate spread home loan under G.S. 24-1.1F(a)(7), if that section had been in effect when the loan was originated. A mortgage servicer may rely on a chart reflecting the appropriate interest rate triggers for rate spread home loans for each day of the period covered by this Article provided by the Commissioner of Banks for the purposes of determining if a loan is a subprime loan covered by this Article. The Commissioner
shall provide the chart at least 60 days prior to the effective date of this act.

§ 45-102. Pre-foreclosure notice for subprime loans.
At least 45 days prior to the filing of a notice of hearing in a foreclosure proceeding on a primary residence, mortgage servicers of subprime loans shall send written notice by mail to the last known address of the borrower to inform the borrower of the availability of resources to avoid foreclosure, including:

1. An itemization of all past due amounts causing the loan to be in default.
2. An itemization of any other charges that must be paid in order to bring the loan current.
3. A statement that the borrower may have options available other than foreclosure and that the borrower may discuss available options with the mortgage lender, the mortgage servicer, or a counselor approved by the U.S. Department of Housing and Urban Development.

5. The name, address, telephone number, and other contact information for one or more HUD-approved counseling agencies operating to assist borrowers in North Carolina to avoid foreclosure.
6. The address, telephone number, and other contact information for the consumer complaint section of the Office of Commissioner of Banks.

§ 45-103. Pre-foreclosure information to be filed with the Administrative Office of the Courts for certain subprime loans.
(a) Within three business days of mailing the notice required by G.S. 45-102, the mortgage servicer shall file certain information with the Administrative Office of the Courts. The filing shall be in an electronic format, as designated by the Administrative Office of the Courts, and shall contain the name and address of the borrower and the date the notice was mailed to the borrower.

(b) As permitted by applicable State and federal law, optional information may be requested from the mortgage servicer to facilitate further review by the State Home Foreclosure Prevention Project described in G.S. 45-104. The nature of the optional information requested shall be determined in connection with the design of the database established by subsection (c) of this section. This optional information shall be used by the State Home Foreclosure Prevention Project to prioritize efforts to reach borrowers most likely to avoid foreclosure and to prevent delay for defaults where foreclosure is unavoidable.

(c) No later than October 1, 2008, the Administrative Office of the Courts shall establish an internal database to track information provided in this section. The Commissioner of Banks shall design and develop this database, in consultation with the Administrative Office of the Courts, in a manner to promote the efforts of the State Home Foreclosure Prevention Project. Only the Administrative Office of the Courts, the Office of Commissioner of Banks, and the clerk of court as provided by G.S. 45-107 shall have access to the database.

§ 45-104. State Home Foreclosure Prevention Project.
The Commissioner of Banks is authorized to establish the State Home Foreclosure Prevention Project. The purpose of the Project is to seek solutions to avoid foreclosures
for certain subprime loans. In developing the Project, the Commissioner may include input from HUD-approved housing counselors, community organizations, state agencies, mortgage lenders, mortgage servicers, and other partners.

"§ 45-105. Extension of foreclosure process.

The Commissioner of Banks shall review information provided in the database created by G.S. 45-103 to determine which subprime loans are appropriate for efforts to avoid foreclosure. If the Commissioner reasonably believes, based on a full review of the loan information, the mortgage servicer's loss mitigation efforts, the borrower's capacity and interest in staying in the home, and other appropriate factors, that further efforts by the State Home Foreclosure Prevention Project offer a reasonable prospect to avoid foreclosure on primary residences, the Commissioner shall have the authority to extend one time under this Article the allowable filing date for any foreclosure proceeding on a primary residence by up to 30 days beyond the earliest filing date established by the pre-foreclosure notice. If the Commissioner makes the determination that a loan is subject to this section, the Commissioner shall notify the borrower, mortgage servicer, and the Administrative Office of the Courts.

"§ 45-106. Use and privacy of records.

The data provided to the Administrative Office of the Courts pursuant to G.S. 45-103 shall be exclusively for the use and purposes of the State Home Foreclosure Prevention Project developed by the Commissioner of Banks in accordance with G.S. 45-104. The information provided to the database is not a public record, except that a mortgage lender and a mortgage servicer shall have access to the information submitted only with regard to its own loans. Provision of information to the Administrative Office of the Courts for use by the State Home Foreclosure Prevention Project shall not be considered a violation of G.S. 53B-8. A mortgage servicer shall be held harmless for any alleged breach of privacy rights of the borrower with respect to the information the mortgage servicer provides in accordance with this Article.

"§ 45-107. Foreclosure filing.

(a) For the duration of the program authorized by this Article, foreclosure notices filed on subprime loans on or after November 15, 2008, shall contain a certification by the filing party that the pre-foreclosure notice required by G.S. 45-102 and the pre-foreclosure information required by G.S. 45-103 were provided in accordance with this Article and that the periods of time established by the Article have elapsed.

(b) The clerk of superior court or other judicial officer may have access to the pre-foreclosure database to confirm information provided in subsection (a) of this section. A materially inaccurate statement in the certification shall be cause for dismissal without prejudice of any foreclosure proceeding on a primary residence initiated by the mortgage servicer and for payment by the filing party of costs incurred by the borrower in defending the foreclosure proceeding."

SECTION 2. G.S. 45-21.16 is amended by adding a new subsection to read:

"(c2) In any foreclosure filed on or after November 15, 2008, where the underlying mortgage debt is a subprime loan as defined in G.S. 45-101(4), the notice required by subsection (b) of this section shall contain a certification by the filing party that the pre-foreclosure notice and information required by G.S. 45-102 and G.S. 45-103 were provided in all material respects and that the periods of time established by Article 11 of this Chapter have elapsed."

SECTION 3. G.S. 45-21.16(d) reads as rewritten:

However, prior to that hearing, the mortgagee or trustee shall file the notice of hearing in any portion of the property to be sold is located. Upon such hearing, the clerk shall consider the evidence of the parties and may consider, in addition to other forms of evidence required or permitted by law, affidavits and certified copies of documents. If the clerk finds the existence of (i) valid debt of which the party seeking to foreclose is the holder, (ii) default, (iii) right to foreclose under the instrument, and (iv) notice to those entitled to such under subsection (b), and (v) that the underlying mortgage debt is not a subprime loan as defined in G.S. 45-101(4), or if the loan is a subprime loan under G.S. 45-101(4), that the pre-foreclosure notice under G.S. 45-102 was provided in all material respects, and that the periods of time established by Article 11 of this Chapter have elapsed, then the clerk shall authorize the mortgagee or trustee to proceed under the instrument, and the mortgagee or trustee can give notice of and conduct a sale pursuant to the provisions of this Article. A certified copy of any authorization or order by the clerk shall be filed in any other county where any portion of the property to be sold is located before the mortgagee or trustee may proceed to advertise and sell any property located in that county. In the event that sales are to be held in more than one county, the provisions of G.S. 45-21.7 apply.

SECTION 4.(a) If House Bill 2436, 2008 Regular Session, becomes law, Section 6.9A(1) of that act reads as rewritten:

If a servicer uses the scheduled method of accounting, any regularly scheduled payment made prior to the scheduled due date shall be credited no later than the due date. Provided, however, that if any payment is received and not credited, or treated as credited, the borrower shall be notified within 10 business days by mail at the borrower's last known address of the disposition of the payment, the reason the payment was not credited, or treated as credited to the account, and any actions necessary by the borrower to make the loan current.

a. The borrower has entered into a written loss mitigation, loan modification, or forbearance agreement with the servicer that itemizes all amounts due and specifies how payments will be applied and credited;

b. The borrower has elected to participate in an alternative payment plan, such as a biweekly payment plan, that specifies as part of a written agreement how payments will be applied and credited; or

c. The borrower is making payments pursuant to a bankruptcy plan.

(3) Failure to charge the fee or provide the information within the allowable time and in the manner required under subdivision (1) of subsection (a) of this section constitutes a waiver of such fee.

(4) All fees charged by a servicer must be otherwise permitted under applicable law and the contracts between the parties. Nothing herein is intended to permit the application of payments or method of charging interest which is less protective of the borrower than the contracts between the parties and other applicable law.

SECTION 2. G.S. 24-1.1E(a)(6) reads as rewritten:

c. If the loan is a closed-end loan, the loan documents permit the lender to charge or collect prepayment fees or penalties more than 30 months after the loan closing or which exceed, in the aggregate, more than two percent (2%) of the amount prepaid. If the loan is an open-end credit plan, the loan documents permit the lender to charge or collect prepayment fees or penalties (i) more than 30 months after the loan closing if the borrower has no right or option under the loan documents to repay all or any portion of the outstanding balance of the open-end credit plan at a fixed interest rate over a specified period of time or, (ii) if the borrower has a right or option under the loan documents to repay all or any portion of the outstanding balance of the open-end credit plan at a fixed interest rate over a specified period of time, more than 30 months after the date the borrower voluntarily exercises that right or option, or (iii) which exceed, in the aggregate, more than two percent (2%) of the amount prepaid."

SECTION 3. G.S. 53-243.05 reads as rewritten:

"§ 53-243.05. Qualifications for licensure; issuance.

In accordance with rules adopted by the Commission, the application shall contain any information the Commissioner deems necessary regarding the following:

(6) The applicant's consent to a federal and State criminal history record check and a set of the applicant's fingerprints in a form acceptable to the Commissioner. In the case of an applicant that is a corporation, partnership, limited liability company, association, or trust, each individual who has control of the applicant or who is the managing principal or a branch manager shall consent to a federal and State criminal history record check and submit a set of that individual's fingerprints pursuant to this subdivision. Refusal to consent to a criminal history record check constitutes grounds for the Commissioner to deny licensure to the applicant as well as to any entity (i) by whom or by which the applicant is employed, (ii) over which the applicant has control, or (iii) as to which the applicant is the current or proposed managing principal or a current or proposed branch manager.

(b) In addition to the requirements imposed by the Commissioner under subsection (a) of this section, each individual applicant for licensure as a loan officer shall:

Experience as an exclusive mortgage broker or as a limited loan officer shall not constitute mortgage-lending experience under this subdivision.

(1a) If an individual applicant to be licensed as a mortgage broker meets all other requirements for licensure under this section but does not meet the requirements of subdivision (1) of this subsection, the individual applicant may be licensed as an exclusive mortgage broker upon compliance with all of the following:

a. Successfully complete both a residential mortgage-lending course approved by the Commissioner of not less than 40 hours of classroom instruction, and a written examination approved by the Commissioner.

b. c. Shall be compensated for the broker's mortgage brokering activities on a basis that is not dependent upon the loan amount, interest rate, fees, or other terms of the loans brokered.

d. Shall not handle borrower or other third-party funds in connection with the brokering or closing of mortgage loans.

(2) If the applicant is a general or limited partnership, at least one of its general partners shall have the experience as described under subdivision (1) of this subsection.

(f) A mortgage banker or mortgage servicer shall post a surety bond in the amount of one hundred fifty thousand dollars ($150,000), and a mortgage broker shall
post a surety bond in the amount of fifty thousand dollars ($50,000). The surety bond shall be in a form satisfactory to the Commissioner and shall run to the State for the benefit of any claimants against the licensee to secure the faithful performance of the obligations of the licensee under this Article. The aggregate liability of the surety shall not exceed the principal sum of the bond. A party having a claim against the licensee may bring suit directly on the surety bond, or the Commissioner may bring suit on behalf of any claimants, either in one action or in successive actions. Consumer claims shall be given priority in recovering from the bond. Any appropriate deposit of cash or securities shall be accepted in lieu of any bond that is required. An audited financial statement from a qualified lender or qualified servicer showing a net worth of two hundred fifty thousand dollars ($250,000) or more shall be accepted in lieu of any bond required.

(g) Any general partner, manager of a limited liability company, or officer of a corporation who individually meets the requirements under subsection (b) of this section shall, upon payment of the applicable fee, meet the qualifications for licensure as a loan officer subject to the provisions of subsection (i) of this section.

A filing fee not to exceed one hundred twenty-five dollars ($125.00) shall be assessed by the Commissioner for each branch office issued a license.

(i) If the Commissioner determines that an applicant meets the qualifications for licensure and finds that the financial responsibility, character, and general fitness of the applicant are such as to command the confidence of the community and to warrant belief that the business will be operated honestly and fairly, the Commissioner shall issue a license to the applicant. In addition, for an applicant qualifying as an exclusive mortgage broker, the Commissioner shall determine if the mortgage broker/mortgage banker relationship is in the public interest.

SECTION 4. G.S. 53-243.06 reads as rewritten:

"§ 53-243.06. License renewal; termination.

(a) All licenses issued by the Commissioner under the provisions of this Article shall expire annually on the 30th day of June [31st day of December following issuance or on any other date that the Commissioner may determine. The license shall become invalid after that date unless renewed. A license may be renewed 45 days prior to the expiration date on or after November 1 by compliance with subsection (b1) of this section and by paying to the Commissioner, in addition to the actual cost of obtaining credit reports and State and national criminal history record checks and of processing fees of the nationwide system as the Commissioner may require, a renewal fee as follows:

(3) Licensed loan officers shall pay an annual fee not to exceed sixty-seven dollars and fifty cents ($67.50).

(b) If a mortgage banker, mortgage servicer, or mortgage broker license is not renewed prior to the applicable expiration date, then an additional two hundred fifty dollars ($250.00) in addition to the renewal fee under subsection (a) of this section shall be assessed as a late fee to any renewal. If a loan officer or limited loan officer license is not renewed prior to the applicable expiration date, then an additional fifty one hundred dollars ($50.00/$100.00) in addition to the renewal fee under subsection (a) of this section shall be assessed as a late fee to any renewal. In the event a licensee fails to obtain a reinstatement of the license within 90 days after the date the license expires, prior to March 1, the Commissioner may require the licensee to comply with the requirements for the initial issuance of a license under the provisions of this Article.

(b1) When required by the Commissioner, each individual described in G.S. 53-245.05(a)(6) shall furnish to the Commissioner his or her consent to a criminal history record check and a set of his or her fingerprints in a form acceptable to the Commissioner. Refusal to consent to a criminal history record check may constitute grounds for the Commissioner to deny renewal of the license of the person as well as the license of any other person by which he or she is employed, over which he or she has control, or as to which he or she is the current or proposed managing principal qualifying individual or a current or proposed branch manager.

c) Licenses issued under this Article are not assignable. Control of a licensee shall not be acquired through a stock purchase or other device without the prior written consent of the Commissioner. The Commissioner shall not give written consent if the Commissioner finds that any of the grounds for denial, revocation, or suspension of a license pursuant to G.S. 53-243.12 are applicable to the acquiring person."

SECTION 9. G.S. 53-243.12 reads as rewritten:

(a) The Commissioner may, by order, deny, suspend, revoke, or refuse to issue or renew a license of a licensee or applicant under this Article or may restrict or limit the activities relating to mortgage loans of any licensee or any person who owns an interest in or participates in the business of a licensee, if the Commissioner finds both of the following:

j. Has falsely certified attendance or completion of hours at an approved mortgage lending continuing education course.

(b) The Commissioner may, by order, summarily postpone or suspend the license of a licensee pending final determination of any proceeding under this section. Upon entering the order, the Commissioner shall promptly notify the applicant or licensee that the order has been entered and the reasons for the order. The Commissioner shall calendar a hearing within 15 days after the Commissioner receives a written request for a hearing. If a licensee does not request a hearing and the Commissioner does not request a hearing, the order will remain in effect until it is modified or vacated by the
Commissioner. If a hearing is requested or ordered by the Commissioner, after notice of
and opportunity for hearing, the Commissioner may modify or vacate the order or
extend it until final determination.

(c) The Commissioner may, by order, impose a civil penalty upon a licensee or
any partner, officer, director, or other person occupying a similar status or performing
similar functions on behalf of a licensee for any violation of this Article. The civil
penalty shall not exceed ten thousand dollars ($10,000) for each violation of this Article

($10,000) for each violation of this Article by a person other than a licensee or exempt
person.

(d) In addition to other powers under this Article, upon finding that any action of
a person is in violation of this Article, the Commissioner may order the person to cease
from the prohibited action. If the person subject to the order fails to appeal the order of
the Commissioner in accordance with G.S. 53-243.03, or if the person appeals and the
appeal is denied or dismissed, and the person continues to engage in the prohibited
action in violation of the Commissioner's order, the person shall be subject to a civil
penalty of up to twenty-five thousand dollars ($25,000) for each violation of the
Commissioner's order. The penalty provision of this section shall be in addition to and

to comply with an order of the Commissioner.

(e) Unless otherwise provided, all actions and hearings under this Article shall be
governed by Chapter 150B of the General Statutes.

(f) When a licensee is accused of any act, omission, or misconduct that would
subject the licensee to disciplinary action, the licensee, with the consent and approval of
the Commissioner, may surrender the license and all the rights and privileges pertaining
to it for a period of time established by the Commissioner. A person who surrenders a
license shall not be eligible for or submit any application for licensure under this
Article.

(g) If the Commissioner has reasonable grounds to believe that a licensee or other
person has violated the provisions of this Article or that facts exist that would be the
basis for an order against a licensee or other person, the Commissioner may at any time,
either personally or by a person duly designated by the Commissioner, investigate or
examine the loans and business of the licensee and examine the books, accounts,
records, and files of any licensee or other person relating to the complaint or matter
under investigation. The Commissioner may require any licensee or other person to
submit a consent to a criminal history record check and a set of that person's fingerprints
in a form acceptable to the Commissioner in connection with any examination or
investigation. Refusal to submit the requested criminal history record check or a set of
fingerprints shall be grounds for disciplinary action. The reasonable cost of this
investigation or examination shall be charged against the licensee.

(h) The Commissioner may issue subpoenas to require the attendance of and to
examine under oath all persons whose testimony the Commissioner deems relative to
the person's business.

(i) The Commissioner may from time to time, at the expense of the
Commissioner's office, conduct routine examinations of the books and records

(j) In addition to the rights described under this section, the Commissioner may require a licensee to pay to a borrower or other individual any amounts received by the licensee or its employees in violation of Chapter 24 of the General Statutes, or, if a servicer, in excess of those allowed by law to servicers.

(k) If the Commissioner finds that the managing principal, qualifying individual, branch manager, or loan officer of a licensee had knowledge of or reasonably should have had knowledge of, or participated in, any activity that results in the entry of an order under this section suspending or withdrawing the license of a licensee, the Commissioner may prohibit the branch manager, managing principal, qualifying individual, or loan officer from serving as a branch manager, managing principal, qualifying individual, or loan officer for any period of time the Commissioner deems necessary.

(l) In addition to the authority to require criminal history background checks as set forth in G.S. 53-243.05 and G.S. 53-243.06, the Commissioner shall have the authority to require a criminal history background check at any other time as a condition of continued licensure. Upon the request of the Commissioner, a licensee shall furnish to the Commissioner the licensee's consent to a criminal history record check and a set of the licensee's fingerprints in a form acceptable to the Commissioner. Refusal to consent to a criminal history record check under this subsection may constitute grounds for the Commissioner to suspend or revoke the license of the licensee.

(m) Subject to the provisions of G.S. 53-243.03, the Commissioner may, by order, prohibit licensees under this Article from engaging in acts and practices in connection with mortgage loans that the Commissioner finds to be unfair, deceptive, designed to evade the laws of this State, or that are not in the best interest of the borrowing public.

(n) In the event the Commissioner shall have evidence that a material violation of law has occurred in the origination or servicing of a loan then being foreclosed or then delinquent and in threat of foreclosure, and that the putative violation would be sufficient in law or equity to base a claim or affirmative defense which would affect the validity or enforceability of the underlying contract or the right to foreclose, then the Commissioner may notify the Clerk of Superior Court, and the Clerk shall suspend foreclosure proceedings on the mortgage for 60 days from the date of the notice. In the event that the Commissioner notifies the Clerk, the Commissioner shall also notify the servicer, if known, and provide an opportunity to cure the violation or provide information to the Commissioner to rebut the evidence of the suspected violation. If the violation is cured or the information satisfies the Commissioner that no material violation has occurred, the Commissioner shall notify the Clerk so that the foreclosure proceeding may be resumed.

(o) The Commissioner shall be deemed to have complied with the requirements of law concerning service of process upon mailing by certified mail any notice required or permitted to a licensee under this Article, postage prepaid and addressed to the last known address of the licensee on file with the Commissioner pursuant to G.S. 53-243.13(d).

(p) The Commissioner is authorized to take action, including suspension of the license, if the licensee fails to respond within 20 days, or within a lesser time if specifically requested for good cause, to inquiries from the Commissioner or the Commissioner's designee regarding any complaints filed against the licensee which allege or appear to involve violation of this Article or any law or rule affecting the mortgage lending business.
The Commissioner is authorized to take action, including suspension of the license, if the licensee fails to respond within 20 days, or within a lesser time if specifically requested for good cause, to and cooperate fully with notices from the Commissioner or the Commissioner's designee relating to the scheduling and conducting of an examination or investigation under this Article.

However, the exempt person shall be subject to a civil penalty set by the Commissioner that shall not exceed the sum of two hundred fifty dollars ($250.00) for each year the form is not filed. No person required to file under this section may transact business in this State as a mortgage banker or mortgage broker or mortgage servicer unless the person has filed the prescribed form with the Commissioner in accordance with this section.

The Commissioner of Banks, the Attorney General, or any party to a home loan may enforce the provisions of this section. The Clerk of Superior Court shall also suspend foreclosure proceedings for 60 days if notified by the Commissioner of Banks as provided in G.S. 53-243.12(n). GOVERNOR’S OBJECTIONS AND VETO MESSAGE

House Bill 2167, “An act to increase the width of boats that may be transported on highway routes during the day and night without a permit and to provide for an annual permit as opposed to a single trip permit for oversize boats.”

House Bill 2167, allows extremely large boats as wide as 9-1/2 feet to be towed on any state road at anytime, including night time, any day of the week, without a permit as required by all other states from Texas to Virginia. This bill would also allow a blood alcohol level of .08, double that allowed by commercial vehicles of smaller size.

I sincerely believe that this bill puts families at a risk on the highways and would result in death or serious injury. North Carolina has 60,000 miles of narrow two lane roads that cannot accommodate the 9-1/2 foot width and maintains roughly 1,000 bridges 18-foot wide or less, which would require a 9-1/2 foot boat to cross the center line in violation of N.C.G.S. 20-146, and into oncoming traffic. Further, if two 9-1/2 foot boats were to meet on an 18-foot strip of road or bridge it would be physically impossible to escape a collision.

I am deeply concerned about 9-1/2 foot boats meeting a school bus. The buses travel primarily on rural roads and often in the dark during early morning and early evening hours.

I encourage the General Assembly to let boat haulers use the current law of permitting for the rest of this season and then have the legislature take up this issue in January when there is time to thoughtfully avoid the consequences of this bill.

Therefore, I veto the bill.

Michael F. Easley
Governor

The bill, having been vetoed, is returned to the Clerk of the North Carolina House of Representatives on this the 17th day of August 2008 at 8:45 p.m. for reconsideration by that body.

A JOINT RESOLUTION RECOGNIZING THE BICENTENNIAL OF HAYWOOD COUNTY AND HONORING JOHN HAYWOOD, FOR WHOM THE COUNTY IS NAMED.

Whereas, during the 1808 legislative session of the General Assembly, Representative Thomas Love of Buncombe County introduced a bill establishing a new county in the western portion of North Carolina; and
Whereas, the legislation passed on December 23, 1808, resulting in the formation of Haywood County; and
Whereas, Haywood County was named for John Haywood, who served as State Treasurer of North Carolina from 1787 to 1827; and
Whereas, Haywood County's rugged terrain features 19 mountain peaks over 6,000 feet above sea level; and
Whereas, Waynesville, the County's seat of government and the commercial and cultural capital of the Great Smoky Mountains, was named after Revolutionary War Hero "Mad" Anthony Wayne; and
Whereas, in Professor W. C. Allen's book, "The Annals of Haywood County," the last shot of the Civil War was fired on May 9, 1865, near Waynesville in Haywood County. The local Confederate forces, composed of Cherokee Indians and local citizens under the command of Colonel William H. Thomas ("Thomas's Legion") and Colonel John R. Love, had demanded the surrender of the federal forces of Colonel Bartlett of New York. They had apparently not heard of the surrender by General Robert E. Lee at Appomattox Courthouse, Virginia, on April 9, 1865. These Confederate forces then surrendered in Waynesville on May 10, 1865, and were the last forces of the Confederacy to surrender; and

Whereas, the citizens of Haywood County have made significant contributions to the social, cultural, political, and economic prosperity of the State of North Carolina; and
Whereas, Haywood County has been home to many great North Carolinians including: Governor Daniel K. Moore (1965-1969); Raymond Fairchild, a well-known banjo player and creator of the "Fairchild Style" banjo playing technique, who has entertained audiences around the world; Marc Pruett, a talented banjo player and Grammy Award winner, who is currently a member of the Balsam Range Bluegrass...
Resolution 2008

Whereas, Colonel William Holland Thomas was one of the earliest and possibly the greatest lawyer and political figure in the history of Haywood County and was the first lobbyist. His character is central to the Charles Frazier book "Thirteen Moons." He was primarily responsible for the purchase of the Qualla Boundary, which was established as a reservation for the remaining members of the Cherokee Indians, known as the Eastern Band of the Cherokee Indians; and

Whereas, several Haywood County residents have served in Congress, including Felix Walker, James M. Gudger Jr., William T. Crawford, James M. Moody, and Heath Shuler; and

Whereas, Judge Felix Eugene Alley (1873-1957) is considered to be the most well-known judge from Haywood County. He held court all over North Carolina and was also the author of "Random Thoughts and Musings of a Mountaineer" and "What Think Ye of Christ?"; and

Whereas, the late Johnny M. Killian of Maggie Valley was a lawyer who advised Congress for more than 44 years on constitutional matters while serving as senior specialist in American public law at the Congressional Research Service, a branch of the Library of Congress; and

Whereas, Haywood County is home to "Folkmoot," the International Festival of Music and Dance; and

Whereas, Haywood County has within its boundaries four incorporated towns: Canton, Clyde, Maggie Valley – the clogging capital of the world – and Waynesville, which serves as the county seat; and

Whereas, Haywood County's natural beauty and proximity to the Great Smoky Mountains make it an ideal tourist destination; and

Whereas, Haywood County is known as a mecca for visitors year-round to attractions like Ghost Town in the Sky, The Cataloochee Ranch, the Great Smoky Mountains National Park, and the Cataloochie Ski Area; and

Whereas, Haywood County served as the setting for Asheville-born author, Charles Frazier's best-selling Civil War novel, "Cold Mountain," which was made into a movie in 2003; and

Whereas, Haywood County has continued to grow and prosper through the continued dedication, insight, and planning of the County's concerned leaders and citizens; and

Whereas, Haywood County has a population of more than 56,000 and is the third-largest county in Western North Carolina; and

Whereas, plans have been made to celebrate the County's bicentennial throughout the year during several community events; and

Whereas, Haywood County's bicentennial celebration is worthy of celebration and should be enjoyed and supported by all North Carolina citizens; Now, therefore,

Resolution 2008-15

S.J.R. 2161

Whereas, during World War II, volunteer aviators of the Civil Air Patrol's (CAP) Coastal Patrol distinguished themselves valiantly, flying more than 24 million miles during 86,000 over-water missions — a total of 244,600 flight hours — to help win the battle against U-boats that were preying on coastal shipping; and

Whereas, CAP volunteers spotted 173 submarines, attacked 57, hit 10, and sank two; called in aid for 91 ships in distress; saved 363 survivors of submarine attacks; discovered 17 floating mines; and flew 5,684 special convoy missions; and

Whereas, inspired by the highest sense of patriotism and pride in their mission, 59 members of these courageous aircrews died, 26 were lost at sea, and seven others were seriously injured; and

Whereas, today CAP continues this tradition of service before self as one of the most unique volunteer organizations in America, consisting of everyday heroes — from pilots, teachers, and youth mentors to technology experts, communicators, chaplains, and more; and

Whereas, whether performing search and rescue missions or helping communities recover from floods, wildfires, tornadoes, or hurricanes, CAP members are there to aid their nation; and

Whereas, coming full circle from its beginnings in World War II, CAP is again performing homeland security missions, assisting the Air Force in ensuring the skies above our nation are safe by flying target-intercept training missions for United States military pilots; and
Whereas, former CAP member, Chaplain Lieutenant Colonel Royce A. Beacham, could trace his family history back to the first flight of the Wright brothers at Kitty Hawk; and
Whereas, Chaplain Beacham could trace his personal history to the defending of the United States' coast during WWII, and could say that he was present for both the 50th and 100th Anniversary of the First Flight at Kitty Hawk; and
Whereas, Chaplain Beacham and his father, John L. Beacham, assisted others in setting up the first CAP Squadron in Manteo in 1941, and had served with CAP Squadrons in Greenville, South Carolina, Durham, North Carolina, and the Raleigh-Wake Composite Squadron of North Carolina, where he remained an active Chaplain for a number of years; and
Whereas, Chaplain Beacham never flaunted his special relationship with history and never thought of himself as being special because of it. He had a higher calling into the present and the future, based upon his relationship and calling from God; and
Whereas, Chaplain Beacham translated his calling into such willing and caring service to and for others. The service he rendered had a special measure of gentleness and tenderness, of care and concern for others; and
Whereas, Chaplain Beacham, during his many years of service to CAP, was honored by being named 1984 CAP National Chaplain of the Year, 1997 North Carolina Wing Chaplain of the Year, and 2004 Middle East Region Chaplain of the Year; and
Whereas, Chaplain Beacham obtained a Ground Team Rating and Mission Observer Wings in Emergency Services. He also received ribbons for Rescue Find, Air Search and Rescue, Disaster Relief, Senior Recruiting, and many Commander's Commendations; and
Whereas, Chaplain Beacham was laid to rest on Friday, March 14, 2008, in Raleigh, North Carolina, surrounded by his many CAP comrades; and

Whereas, on June 4, 1958, Josephine Boyd (Bradley) of Greensboro Senior High and Ernest Green of Little Rock (AR) Central High School became the first two African-American students to graduate from previously all-white high schools in the South; and

Whereas, monumental progress has been realized in the continuing quest for equal educational opportunities for North Carolina's school children; and

Total Budget Approved 2007 Session

| FY 08-09 | $7,706,315,285 |

**B. Technical Adjustments**

1. **Average Daily Membership (ADM)**
   - Revises projected increase in ADM for 2008-09 to reflect 2,382 fewer students than originally projected. Dollar amount of adjustment includes adjustments in all position, dollar, and categorical allotments.
   - Total funded ADM for FY 2008-09 is 1,476,566, an increase of 14,826 over FY 2007-08.
   - Due to a projected increase in ninth grade ADM, receipts from the Highway Fund budgeted for Driver’s Education will increase by $616,491. ($1,463,191) R

2. **Budgeted Average Salary**
   - Revises budgeted funding for certified personnel salaries based on actual salary data from December 2007. Adjustment does not reduce any salary paid to certified personnel. ($43,015,859) R

3. **Transportation Adjustment for ADM**
   - Adjusts this allotment formula to align it with allotted ADM. ($4,000,000) R

4. **Transportation Fuel**
   - Diesel fuel was funded at $1.83 per gallon in the 2008-09 certified budget. Additional funding will defray the increasing cost of diesel fuel. The Department of Public Instruction shall use funds available from the State Public School Fund to cover fuel costs above the budgeted amount, if any. $35,000,000 NR

5. **Class-Size Reduction**
   - The General Assembly directs the Director of the Budget to transfer sufficient funding from the Education Lottery Reserve Fund to maintain K-3 student/teacher ratios at 18:1. The amount of this transfer is estimated to be $19,750,000. ($36,538,000) R

6. **Over-realized Civil Penalties**
   - This item adjusts for the continued over-collection of civil penalty receipts. Collected civil penalty revenues are required to be deposited in the State Public School Fund (SPSF) for allotment to local education agencies on a per ADM basis. Civil penalties receipts are budgeted in the amount of $77,500,000 in the SPSF for 2008-09. These receipts were over-realized by $36.5 million in 2007-08. ($3,000,000) R

7. **Average Daily Membership (ADM Reserve)**
   - Reduces reserve to reflect actual 2007-08 use. $2 million would remain available to deal with unforeseen ADM growth. ($3,000,000) R

Public Education
Conference Report on the Continuation, Capital and Expansion Budgets

8 Replacement School Busses
Reduces the number of buses replaced in 2008-09 by approximately 140, continuing the 2007-08 nonrecurring reduction. The remaining $67.2 million budgeted in 2008-09 for this purpose will support the replacement of approximately 665 school buses. ($450,000,000) NR

9 Children With Disabilities Head-Count Adjustment
This is a technical adjustment to the Children With Disabilities allotment. The continuation budget includes anticipated growth based on the projected head-count of children with disabilities. This adjustment revises budgeted funding for both preschool and school-age children with special needs to reflect actual April 1, 2008 headcount. Adjustment does not reduce funding per student. ($7,135,129) R

10 Children With Disabilities
Increases funds allotted to LEAs to support special education and related services for students with identified disabilities. Increases funding factor by $36.03 per student in funded headcount (172,079), bringing the factor to $3,386.84 per student. $6,200,000 R

11 State-Funded Tests
Eliminates funds to support writing tests for grades 4, 7, and 10, as recommended by the Blue Ribbon Commission on Testing. DPI shall provide rubrics to LEAs for local writing assessments. ($3,343,412) R

12 Group Homes and Community Residential Centers
Decreases the unexpended balance for these two expenditure categories. The 2007-08 unexpended balance for these activities was approximately $3 million. ($2,000,000) R

13 Learn and Earn Online
Reduces 2008-09 recurring funding from $10.1 million to $6.5 million and eliminates the $5 million non-recurring reserve. Projected program expenditures in 2007-08 were approximately $3 million, less than half of the amount provided for 2008-09. ($3,600,000) R

14 At-Risk Funding
Eliminates the FY 2007-08 allocation of $500,000 from this allotment to the State Board of Education for discretionary projects. The State Board may not spend any funds from this allotment on discretionary projects. ($500,000) R

15 Inflationary Increases for Instructional Supplies
This adjustment reduces the inflationary increases for instructional supplies to FY 2008-09. ($396,052) R

16 Inflationary Increases for Textbooks

8 Vancelee Capital Improvements

The study will encompass the main lab facility in Raleigh and four regional labs.

10 Motor Fuels/Metrology Laboratory Study
Provides capital planning funds for a combined motor fuels/metrology laboratory to replace the two existing labs. The current motor fuels lab is overcrowded and not suited for evolving motor fuels regulation. The current metrology lab is hampered by increasing traffic and construction around the Blue Ridge Complex. Such activity creates ground vibrations that impact the measuring equipment in the metrology lab.

The total project cost for a joint replacement laboratory is not available and would be determined in the planning process. The undetermined cost to relocate the metrology lab or develop foundation solutions to mitigate ground vibrations makes estimating the total project cost difficult at this time.
