The goals of NC GAP shall be to encourage and assist more students to obtain a baccalaureate degree within a shorter time period; to provide students with a college education at significantly lower costs for both the student and the State; to help decrease the amount of debt resulting from loans that a student may owe upon graduation; to provide a student with an interim degree that may increase a student's job opportunities if the student chooses not to continue postsecondary education; and to provide easier access to academic counseling that will assist a student in selecting coursework that reflects the student's educational and career goals and helps the student succeed academically.

NC GAP shall be designed as an alternative admission program for students who apply for admission to a constituent institution and satisfy the admission criteria but whose academic credentials are not as competitive as other students admitted to the institution. Counseling and assistance shall be provided by the community college to any student in NC GAP to help the student in selecting coursework that reflects the student's educational and career goals and that provides a smooth transition from the community college to the constituent institution.

Once awarded the associate degree from the community college, the student is entitled to admission as a junior at the constituent institution.

Each constituent institution of higher education would be directed to establish NC GAP as part of its undergraduate admission program.

SECTION 11.17.(b) The Board of Governors of The University of North Carolina and the State Board of Community Colleges shall report their findings and recommendations
regarding NC GAP to the Joint Legislative Education Oversight Committee by March 1, 2014. SECTION 12B.3.(b) Fees for families who are required to share in the cost of care shall be established based on a percent of gross family income and adjusted for family size. Fees shall be determined as follows:

<table>
<thead>
<tr>
<th>FAMILY SIZE</th>
<th>PERCENT OF GROSS FAMILY INCOME</th>

</table>

SECTION 12B.3.(c) Payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

(1) Religious-sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one-star county market rate or the rate they charge privately paying parents, whichever is lower, unless prohibited by subsection (f) of this section.

(2) Licensed child care centers and homes with two or more stars shall receive the market rate for that rated license level for that age group or the rate they charge privately paying parents, whichever is lower, unless prohibited by subsection (f) of this section.

(3) Nonlicensed homes shall receive fifty percent (50%) of the county market rate or the rate they charge privately paying parents, whichever is lower.

(4) No payments shall be made for transportation services or registration fees charged by child care facilities.
(5) Payments for subsidized child care services for postsecondary education shall be limited to a maximum of 20 months of enrollment.

(6) The Department of Health and Human Services shall implement necessary rule changes to restructure services, including, but not limited to, targeting benefits to employment.

SECTION 12B.3.(d) Provisions of payment rates for child care providers in counties that do not have at least 50 children in each age group for center-based and home-based care are as follows:

(1) Except as applicable in subdivision (2) of this subsection, payment rates shall be set at the statewide or regional market rate for licensed child care centers and homes.

(2) If it can be demonstrated that the application of the statewide or regional market rate to a county with fewer than 50 children in each age group is lower than the county market rate and would inhibit the ability of the county to purchase child care for low-income children, then the county market rate may be applied.

SECTION 12B.3.(e) A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to parents for each age group of enrollees within the county. The Division of Child Development and Early Education shall also calculate a statewide rate and regional market rate for each rated license level for each age category.

SECTION 12B.3.(f) The Division of Child Development and Early Education shall continue implementing policies that improve the quality of child care for subsidized children, including a policy in which child care subsidies are paid, to the extent possible, for child care in the higher quality centers and homes only. The Division shall define higher quality, and subsidy funds shall not be paid for one- or two-star rated facilities. For those counties with an inadequate number of four- and five-star rated facilities, the Division shall continue a transition period that allows the facilities to continue to receive subsidy funds while the facilities work on the increased star ratings. The Division may allow exemptions in counties where there is an inadequate number of four- and five-star rated facilities for nonstar rated programs, such as religious programs.

SECTION 12B.3.(g) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate in the program that provides for the purchase of care in child care facilities for minor children of needy families. Except as authorized by subsection (f) of this section, no separate licensing requirements shall be used to select facilities to participate. In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

SECTION 12B.3.(h) Payment for subsidized child care services provided with Work First Block Grant funds shall comply with all regulations and policies issued by the Division of Child Development for the subsidized child care program.

SECTION 12B.3.(i) Noncitizen families who reside in this State legally shall be eligible for child care subsidies if all other conditions of eligibility are met. If all other conditions of eligibility are met, noncitizen families who reside in this State illegally shall be eligible for child care subsidies only if at least one of the following conditions is met:

(1) The child for whom a child care subsidy is sought is receiving child protective services or foster care services.
(2) The child for whom a child care subsidy is sought is developmentally delayed or at risk of being developmentally delayed.

(3) The child for whom a child care subsidy is sought is a citizen of the United States.

**SECTION 12B.3.(j)** Department of Health and Human Services, Division of Child Development and Early Education, shall require all county departments of social services to include on any forms used to determine eligibility for child care subsidy whether the family waiting for subsidy is receiving assistance through the NC Pre-K Program or Head Start.

The mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation under G.S. 143B-168.15(g) shall constitute the base amount for each county's child care subsidy allocation. The Department of Health and Human Services shall use the following method when allocating federal and State child care funds, not including the aggregate mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation:

1. Funds shall be allocated to a county based upon the projected cost of serving children under age 11 in families with all parents working who earn less than seventy-five percent (75%) of the State median income.
2. No county's allocation shall be less than ninety percent (90%) of its State fiscal year 2001-2002 initial child care subsidy allocation.
3. For fiscal years 2013-2014 and 2014-2015, the Division of Child Development and Early Education shall base the formula identified in subdivision (1) of this subsection on the same data source used for the 2012-2013 fiscal year.
4. The Department of Health and Human Services shall allocate to counties all State funds appropriated for child care subsidy and shall not withhold funds during the 2013-2014 and 2014-2015 fiscal years.

**SECTION 12B.4.(b)** The Department of Health and Human Services may reallocate unused child care subsidy voucher funds in order to meet the child care needs of low-income families. Any reallocation of funds shall be based upon the expenditures of all child care subsidy voucher funding, including North Carolina Partnership for Children, Inc., funds within a county.

**CHILD CARE FUNDS MATCHING REQUIREMENTS**

**SECTION 12B.5.** No local matching funds may be required by the Department of Health and Human Services as a condition of any locality's receiving its initial allocation of child care funds appropriated by this act unless federal law requires a match. If the Department reallocates additional funds above twenty-five thousand dollars ($25,000) to local purchasing agencies beyond their initial allocation, local purchasing agencies must provide a twenty percent (20%) local match to receive the reallocated funds. Matching requirements shall not apply when funds are allocated because of a disaster as defined in G.S. 166A-19.3(6).

**CHILD CARE REVOLVING LOAN**

**SECTION 12B.6.** Notwithstanding any law to the contrary, funds budgeted for the Child Care Revolving Loan Fund may be transferred to and invested by the financial institution contracted to operate the Fund. The principal and any income to the Fund may be used to make loans, reduce loan interest to borrowers, serve as collateral for borrowers, pay the contractor's cost of operating the Fund, or pay the Department's cost of administering the program.

SECTION 12B.7.(a) The Department of Health and Human Services, Division of Child Development and Early Education, shall fund the allowance that county departments of social services may use for administrative costs at four percent (4%) of the county's total child care subsidy funds allocated in the Child Care Development Fund Block Grant plan or eighty thousand dollars ($80,000), whichever is greater.

The North Carolina Partnership for Children, Inc., shall develop a single statewide contract management system that incorporates features of the required standard fiscal accountability plan described in G.S. 143B-168.12(a)(4). All local partnerships shall be required to participate in the contract management system and shall be directed by the North Carolina Partnership for Children, Inc., to collaborate, to the fullest extent possible, with other local partnerships to increase efficiency and effectiveness.

SECTION 12B.9.(c) Salaries. – The salary schedule developed and implemented by the North Carolina Partnership for Children, Inc., shall set the maximum amount of State funds that may be used for the salary of the Executive Director of the North Carolina Partnership for Children, Inc., and the directors of the local partnerships. 2. The amount of State funds administered.
3. The amount of total funds administered.
4. The professional experience of the individual to be compensated.
5. Any other relevant factors pertaining to salary, as determined by the North Carolina Partnership for Children, Inc.

The salary schedule shall be used only to determine the maximum amount of State funds that may be used for compensation. Nothing in this subsection shall be construed to prohibit a local partnership from using non-State funds to supplement an individual's salary in excess of the amount set by the salary schedule established under this subsection.

SECTION 12B.9.(d) Match Requirements. – It is the intent of the General Assembly to continue to increase the percentage of the match of cash and in-kind contributions required of the North Carolina Partnership for Children, Inc., and the local partnerships. Of the funds the North Carolina Partnership for Children, Inc., and the local partnerships are required to match, contributions of cash shall be equal to at least eleven percent (11%), and in-kind donated resources shall be equal to no more than three percent (3%) for a total match requirement of fourteen percent (14%) for the 2013-2014 fiscal year; and contributions of cash shall be equal to at least eleven percent (11%), and in-kind donated resources shall be equal to no more than four percent (4%) for a total match requirement of fifteen percent (15%) for the 2014-2015 fiscal year. The North Carolina Partnership for Children, Inc., may carry forward any amount in excess of the required match for a fiscal year in order to meet the match requirement of the succeeding fiscal year. Only in-kind contributions that are quantifiable shall be applied to the in-kind match requirement. Volunteer services may be treated as an in-kind contribution for the purpose of the match requirement of this subsection. Volunteer services that qualify as professional services shall be valued at the fair market value of those services. All other volunteer service hours shall be valued at the statewide average wage rate as calculated from data compiled by the Employment Security Commission in the Employment and Wages in North Carolina Annual Report for the most recent period for which data are available. Expenses, including both those paid by cash and in-kind contributions, incurred by other participating non-State entities contracting with the North Carolina Partnership for Children, Inc., or the local partnerships, also may be considered resources available to meet the required private match. Failure to obtain a fourteen percent (14%) match by June 30 of the 2013-2014 fiscal year and a fifteen percent (15%) match by June 30 of the 2014-2015 fiscal year shall result in a dollar-for-dollar reduction in the appropriation for the Program for a subsequent fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report that is submitted to the Joint Legislative Commission on Governmental Operations in a format that allows verification by the Department of Revenue. TIERED STATE-COUNTY SPECIAL ASSISTANCE PILOT

SECTION 12D.2.(a) As used in this section, the term "group home" means any facility that (i) is licensed under Chapter 122C of the General Statutes, (ii) meets the definition of a supervised living facility under 10A NCAC 27G .5601(c)(1) or 10A NCAC 27G .5601(c)(3), and (iii) serves adults whose primary diagnosis is mental illness or a developmental disability but may also have other diagnoses.

SECTION 12D.2.(b) It is the intent of the General Assembly to create a State-County Special Assistance program that allows counties greater flexibility in serving individual needs within their communities and greater control over how county funds are used to support this program in light of the fact that counties are required to pay for fifty percent (50%) of the costs of this program. To that end, the General Assembly directs the Department of Health and Human Services to establish a pilot program in accordance with subsection (c) of this section.

SECTION 12D.2.(c) The Department of Health and Human Services, Division of Aging and Adult Services (Department), shall establish a pilot program to implement a tiered rate structure within the State-County Special Assistance program for individuals residing in group homes, in-home living arrangements, and assisted living residences as defined in G.S. 131D-2.1. The purposes of the pilot program are to (i) determine the best way to implement a block grant for this program statewide and (ii) test the feasibility and effectiveness of implementing a tiered rate structure to address program participants' intensity of need, including medication management. The Department shall select a minimum of four and a maximum of six counties to participate in the pilot program, at least two of which shall be rural counties and at least two of which shall be urban counties. The pilot program shall (i) be implemented during the 2013-2014 fiscal year, (ii) operate for at least a 12-month period, and (iii) comply with any agreements in effect between the State of North Carolina and the United States government.

SECTION 12D.2.(d) The Department shall implement the pilot program in collaboration with the local departments of social services in the counties selected for participation. As part of the pilot program, the selected counties shall receive a State General Fund allocation as a block grant to be equally matched with county general funds. The General Fund allocation provided to each county participating in the pilot program shall be calculated based upon the average annual Special Assistance expenditures for that county during the 2011-2013 fiscal biennium, adjusted for the amount of projected annual growth in the number of Special Assistance recipients in that county during the 2013-2015 fiscal biennium. These
funds may be used to pay for room, board, and personal care services, including medication management, for individuals eligible to receive State-County Special Assistance, subject to the following limitations and requirements:

1. These funds shall not be used to cover any portion of the cost of providing services for which an individual receives Medicaid coverage.
2. The pilot program shall comply with all federal and State requirements governing the existing State-County Special Assistance program, except that Section 12D.3 does not apply to the pilot program.
3. The tiered rate structure shall be based upon intensity of need, and an individual's placement within a tier shall be based upon an independent assessment of the individual's need for room, board, and assistance with activities of daily living, including medication management.

SECTION 12D.2.(e) By February 1, 2014, the Department shall submit a progress report on the implementation and operation of the pilot program, including any obstacles to implementation; and by February 1, 2015, the Department shall submit a final report on the results of the pilot program, along with any recommendations based on these results, to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division. The report due by February 1, 2015, shall include information from all participating counties on at least all of the following:

1. The amount of the tiered rates implemented as part of the pilot program.
2. The cost methodology for determining these tiered rates.
3. The number of individuals participating in the pilot program while residing in a group home.
4. The number of individuals participating in the pilot program while residing in an in-home living arrangement.
5. The number of individuals participating in the pilot program while residing in an assisted living residence as defined by G.S. 131D-2.1, broken down by facility type.
6. A comparison of the number of recipients of State-County Special Assistance prior to and during the pilot program, broken down by county and living arrangement.
7. Any other information the Department deems relevant for determining the best way to implement a block grant statewide for the State-County Special Assistance program.

SECTION 12H.24.(a) Receivables reserved at the end of the 2013-2014 and 2014-2015 fiscal years shall, when received, be accounted for as nontax revenue for each of those fiscal years.

SECTION 12H.24.(b) For the 2013-2014 fiscal year, the Department of Health and Human Services shall deposit from its revenues one hundred ten million dollars ($110,000,000) with the Department of State Treasurer to be accounted for as nontax revenue. For the 2014-2015 fiscal year, the Department of Health and Human Services shall deposit from its revenues one hundred nine million dollars ($109,000,000) with the Department of State Treasurer to be accounted for as nontax revenue. These deposits shall represent the return of General Fund appropriations, nonfederal revenue, fund balances, or other resources from State-owned and State-operated hospitals which are used to provide indigent and non-indigent care services. The return from State-owned and State-operated hospitals to DHHS will be made from nonfederal resources in an amount equal to the amount of the payments from the Division of Medical Assistance for uncompensated care. The treatment of any revenue derived from federal programs shall be in accordance with the requirements specified in the Code of Federal Regulations, Title 2, Part 225.

MEDICAID SPECIAL FUND TRANSFER

SECTION 12H.25. Of the funds transferred to the Department of Health and Human Services for Medicaid programs pursuant to G.S. 143C-9-1, there is appropriated from the Medicaid Special Fund to the Department of Health and Human Services the sum of forty-three million dollars ($43,000,000) for the 2013-2014 fiscal year and the sum of forty-three million dollars ($43,000,000) for the 2014-2015 fiscal year. These funds shall be allocated as prescribed by G.S. 143C-9-1(b) for Medicaid programs. Notwithstanding the prescription in G.S. 143C-9-1(b) that these funds not reduce State general revenue funding, these funds shall replace the reduction in general revenue funding effected in this act.

MEDICAID COST CONTAINMENT ACTIVITIES

SECTION 12H.26.(a) The Department of Health and Human Services may use up to five million dollars ($5,000,000) in the 2013-2014 fiscal year and up to five million dollars ($5,000,000) in the 2014-2015 fiscal year in Medicaid funds budgeted for program services to support the cost of administrative activities when cost-effectiveness and savings are demonstrated. The funds shall be used to support activities that will contain the cost of the Medicaid Program, including contracting for services, hiring additional staff, funding pilot programs, Health Information Exchange and Health Information Technology (HIE/HIT) administrative activities, or providing grants through the Office of Rural Health and Community Care to plan, develop, and implement cost containment programs.

Medicaid cost containment activities may include prospective reimbursement methods, incentive-based reimbursement methods, service limits, prior authorization of services, periodic medical necessity reviews, revised medical necessity criteria, service provision in the least costly settings, plastic magnetic-striped Medicaid identification cards for issuance to Medicaid enrollees, fraud detection software or other fraud detection activities, technology that improves clinical decision making, credit balance recovery and data mining services, and other cost containment activities. Funds may be expended under this section only after the Office of State Budget and Management has approved a proposal for the expenditure submitted by the Department. Proposals for expenditure of funds under this section shall
include the cost of implementing the cost containment activity and documentation of the amount of savings expected to be realized from the cost containment activity.

SECTION 12H.26.(b) The Department shall report annually on the expenditures under this section to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division. The report shall include the methods used to achieve savings and the amount saved by these methods. The report is due to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division not later than December 1 of each year for the activities of the previous State fiscal year.

GENERAL PROVISIONS

SECTION 12J.1.(b) Information to Be Included in Block Grant Plans. – The Department of Health and Human Services shall submit a separate plan for each Block Grant received and administered by the Department, and each plan shall include the following:

1. A delineation of the proposed allocations by program or activity, including State and federal match requirements.

2. A delineation of the proposed State and local administrative expenditures.

3. An identification of all new positions to be established through the Block Grant, including permanent, temporary, and time-limited positions.

4. A comparison of the proposed allocations by program or activity with two prior years' program and activity budgets and two prior years' actual program or activity expenditures.

5. A projection of current year expenditures by program or activity.

6. A projection of federal Block Grant funds available, including unspent federal funds from the current and prior fiscal years.

SECTION 12J.1.(c) Changes in Federal Fund Availability. – If the Congress of the United States increases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall allocate the increase proportionally across the program and activity appropriations identified for that Block Grant in this section. In allocating an increase in federal fund availability, the Office of State Budget and Management shall not approve funding for new programs or activities not appropriated in this section.

If the Congress of the United States decreases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall develop a plan to adjust the block grants based on reduced federal funding.

Notwithstanding the provisions of this subsection, for fiscal years 2013-2014 and 2014-2015, increases in the federal fund availability for the Temporary Assistance to Needy Families (TANF) Block Grant shall be used for the North Carolina Child Care Subsidy program to pay for child care in four- or five-star rated facilities for four-year-old children.

Prior to allocating the change in federal fund availability, the proposed allocation must be approved by the Office of State Budget and Management. If the Department adjusts the allocation of any Block Grant due to changes in federal fund availability, then a report shall be made to the Joint Legislative Oversight Committee on Health and Human Services, the Joint Legislative Commission on Governmental Operations, and the Fiscal Research Division.

SECTION 12J.1.(d) Except as otherwise provided, appropriations from federal Block Grant funds are made for each year of the fiscal biennium ending June 30, 2015, according to the schedule enacted for State fiscal years 2013-2014 and 2014-2015 or until a new schedule is enacted by the General Assembly.

SECTION 12J.1.(e) All changes to the budgeted allocations to the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services that are not specifically addressed in this section shall be approved by the Office of State Budget and Management, and the Office of State
Budget and Management shall consult with the Joint Legislative Commission on Governmental Operations for review prior to implementing the changes. The report shall include an itemized listing of affected programs, including associated changes in budgeted allocations. All changes to the budgeted allocations to the Block Grants shall be reported immediately to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division. This subsection does not apply to Block Grant changes caused by legislative salary increases and benefit adjustments.

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF) FUNDS

The Division shall certify these funds in the appropriate State-level services based on prior year actual expenditures. The Division has the authority to realign the authorized budget for these funds among the State-level services based on current year actual expenditures.

SECTION 12J.1.(g) The sum of two million four hundred eighty-two thousand two hundred sixty dollars ($2,482,260) appropriated in this section in TANF funds to the Department of Health and Human Services, Division of Social Services, for each year of the 2013-2015 fiscal biennium shall be used to support administration of TANF-funded programs.

Is designed for a marine outdoor environment by having a sealed housing with polymeric encapsulated internal windings for superior corrosion resistance capable of withstanding environmental conditions of one hundred percent (100%) humidity, -40 degree to 140 degree Fahrenheit ambient temperature range, freeze resistance, condensation resistance, and splash resistance.
   e. Has a 10 year or greater replacement warranty.

5. The circulation equipment shall be supplied with a motor controller and power management with the following features:
   a. An anti-jam reverse feature that is automated and self-clearing for a locked rotor triggered by high current occurrences caused by a jammed impeller.

   c. Motor health status monitoring and recording that includes scheduled speed, commanded speed, actual speed, motor current, motor voltage, and motor controller errors.
d. Temperature-compensated charging so that battery charging parameters are automatically adjusted for optimum results based on battery temperature.

e. Power conservation and continued operation mode managed by a programmed algorithm for reducing motor load and continuing operation by incremental speed reduction that is automatically enabled when extended low-sunlight conditions occur or battery reserve power is reduced.

f. A NEMA 4 enclosure for protection against condensation and moisture in a marine environment with internal circuit boards that are conformal coated for added protection against moisture.

(6) The battery power storage shall be a single battery (unless multiple batteries are connected in series) to avoid charging problems and shall have the following characteristics:

a. A battery rating capacity, at a 24-hour discharge rate in watt hours, at least 50 times the motor load in watts during normal operation (full speed, peak load).

b. Is a submergible battery to avoid temperature extremes and extend battery life.

c. Complies with DOT HMR49 nonspillable battery requirements.

d. Is UL listed and compliant to UL 1989.

e. Is maintenance-free and does not require rewatering.

f. Has a temperature sensor that monitors battery housing temperature and not ambient temperature to optimize charging cycles and extend battery life.

   g. Is encased in double wall plastic and mounted in a stainless steel cage for safety and battery protection purposes.

(7) The photovoltaic modules on the unit shall have the following characteristics:

a. Have a nominal wattage rating that is five times the normal operating wattage of the motor to ensure continuous operation of the motor and impeller in all seasons.

b. Are monocrystalline and not multicrystalline to ensure adequate power collection during low-sunlight conditions.

c. Are certified to UL 1703 Class C, IEC 61215, and IEC 60364 standards.

d. Have 25-year manufacturer performance warranties.

(8) The digital controller of the machine shall have the following features:

a. Flashing light-emitting diodes in the control box readily accessible by service personnel and providing continuous electrical diagnostics so the state of the power system can easily be determined.

b. Capability to store within controller memory a 30-day rolling log of all primary machine operation parameters.

(9) The machine shall have an adjustable horizontal water intake that is capable of being field adjusted to a set level below the water surface without requiring machine removal or reinstallation. The intake shall bring a one-foot thick horizontal layer of water into the machine and include a singular hose of adequate length to reach the required intake depth setting. The flow through the hose and intake shall not exceed one foot per second.

(10) The circulation equipment shall operate normally with the following maintenance features:

a. No scheduled lubrication requirements for any system component, including motor and motor bearings.

(12) The circulation equipment shall be capable of being held in position by either attachment to mooring blocks at the bottom of the reservoir or tethering to the shore.

Any contract entered into under this subsection shall not be subject to Article 3 or Article 8 of Chapter 143 of the General Statutes. Once installed, the Department shall monitor and evaluate the performance of the circulators in reducing the adverse impacts of harmful algal blooms and excessive chlorophyll and in providing other nutrient mitigation measures in the Haw River arm and the Morgan Creek arm of Jordan Lake and report the results of the monitoring and evaluation as provided in subsection (b) of this section.

(1) Provisions to authorize the Division of Marine Fisheries marine patrol to perform any needed boating safety inspection.

(2) To avoid the duplication of enforcement activities by the Division of Marine Fisheries marine patrol and the Wildlife Resources Commission law enforcement officers, a schedule for high-volume areas that is developed to take into account that the Division of Marine Fisheries marine patrol must confine their enforcement activities to the coastal waters.

(3) To further encourage more efficient management of the State's resources, a protocol that sets forth appropriate circumstances when the Division of Marine Fisheries marine patrol is authorized or required to investigate boating accidents in coastal waters and within the joint jurisdiction of the Division of Marine Fisheries and the Wildlife Resources Commission.

(4) A provision to prohibit, except in the instances of investigations of boating accidents, the Division of Marine Fisheries from receiving any federal boating safety funds.

(5) A provision to provide mutual aid that authorizes the Division of Marine Fisheries marine patrol to enter into inland waters in winter to conduct a normal investigation of suspected illegal netting activity.

SECTION 14.11.(b) No later than April 1, 2014, the Division of Marine Fisheries of the Department of Environment and Natural Resources and the Wildlife Resources Commission shall submit a joint report to the Senate Appropriations Committee on Natural and Economic Resources, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, and the Fiscal Research Division. The report shall include any findings and recommendations, including any legislative proposals. The report shall include findings regarding at least the following issues:

(1) Whether the agreement developed pursuant to subsection (a) of this section has been successful from the perspective of the Division of Marine Fisheries, the Wildlife Resources Commission and the public in clarifying enforcement activities and reducing the duplication of enforcement activities by the
Division of Marine Fisheries marine patrol and the Wildlife Resources Commission law enforcement officers.

(2) As an alternative to the agreement developed under the provisions of subsection (a) of this section, whether it would be preferable to confer law enforcement powers upon the Division of Marine Fisheries marine patrol to authorize the Division of Marine Fisheries marine patrol to engage in enforcement activity related to only fisheries under the jurisdiction of the Division of Marine Fisheries or subject to the management of the Division of Marine Fisheries.

(3) Any other issue the Division of Marine Fisheries or the Wildlife Resources Commission deems pertinent to include in the report.

BERNARD ALLEN MEMORIAL EMERGENCY DRINKING WATER FUND
SECTION 14.14. G.S. 87-98 reads as rewritten:

§ 87-98. Bernard Allen Memorial Emergency Drinking Water Fund.
(a) The Bernard Allen Memorial Emergency Drinking Water Fund is established under the control and direction of the Department. The Fund shall be a nonreverting, interest-bearing fund consisting of monies appropriated by the General Assembly or made available to the Fund from any other source and investment interest credited to the Fund.

(b) The Fund may be used to pay for notification for:

(1) Notification, to the extent practicable, of persons aged 18 and older who reside in any dwelling unit, and the senior official in charge of any business, at which drinking water is supplied from a private drinking water well or improved spring that is located within 1,500 feet of, and at risk from, known groundwater contamination. The senior official in charge of the business shall take reasonable measures to notify all employees of the business of the groundwater contamination, including posting a notice of the contamination in a form and at a location that is readily accessible to the employees of the business. The Fund may also be used by the Department to pay the

(2) The costs of testing of private drinking water wells and improved springs for suspected contamination up to once every three years upon request by a person who uses the well and for the well, or more frequent testing if the concentration of one or more contaminants in a private drinking water well is increasing over time and there is a significant risk that the concentration of a contaminant will exceed the drinking water action levels set forth in subsection (c) of this section within a three-year period.

(3) Additional testing to confirm the results of a previous test.

(4) The temporary or permanent provision of alternative drinking water supplies to persons whose drinking water well or improved spring is contaminated. Under this subsection, an alternative drinking water supply includes the repair, such as use of a filtration system, or replacement of a contaminated well or the connection to a public water supply.

(5) Monitoring of filtration systems used in connection with temporary or permanent alternative drinking water supplies provided pursuant to this section.

(c) The Department shall disburse monies from the Fund based on financial need and on the risk to public health posed by groundwater contamination and shall give priority to the provision of services under this section to instances when an alternative source of funds is not available. The Fund shall not be used to provide alternative water supply to households with incomes greater than three hundred percent (300%) of the current federal poverty level. The Fund may be used to provide alternative drinking water supplies if the Department determines that the concentration of one or more contaminants in the private drinking water well or improved spring exceeds the federal maximum contaminant level, or the federal drinking water
action level as defined in 40 Code of Federal Regulations § 141.1 through § 141.571 (1 July 2007) and 40 Code of Federal Regulations § 143.3 (1 July 2007). For a contaminant for which a federal maximum contaminant level or drinking water action level has not been established, the State groundwater standard established by the Environmental Management Commission for the concentration of that contaminant shall be used to determine whether the Fund may be used to provide alternative drinking water supplies. The Fund may also be used to provide alternative drinking water supplies as provided in this section if the Department determines that the concentration of one or more contaminants in a private drinking water well is increasing over time and that there is a significant risk that the concentration of a contaminant will exceed the federal maximum contaminant level or drinking water action level, or the State groundwater standard. A determination of the concentration of a contaminant shall be based on a sample of water collected from the private drinking water well within the past 12 months.

(c1) In disbursing monies from the Fund, the Department shall give preference to provision of permanent replacement water supplies by connection to public water supplies and repair or replacement of contaminated wells over the provision of temporary water supplies. In providing alternative drinking water supplies, the Department shall give preference to connection to a public water supply system or to construction of a new private drinking water well over the use of a filtration system if the Department determines that the costs of periodic required maintenance of the filtration system would be cost-prohibitive for users of the alternative drinking water supply.

(c2) If the Department provides an alternative drinking water supply by extension of a waterline, the Department may disburse from the Fund no more than $10,000 per household or other service connection. For projects where more than 10 residences are eligible for alternative water supplies under this section, no more than one-third of the total cost of the project may be paid from the Fund. The Department may combine monies from the Fund with monies from other sources in order to pay the total cost of the project.

(c3) The Fund shall be used to provide alternative drinking water supplies only if the Department determines that the person or persons who are responsible for the contamination of the private drinking water well is or are not financially viable or cannot be identified or located and if the Department determines that one of the following applies:

(1) The contamination of the private drinking water well is naturally occurring.

(2) The owner of the property on which the private drinking water well is located did not cause or contribute to the contamination or control the source of the contamination.

(3) The source of the contamination is the application or disposal of a hazardous substance or pesticide that occurred without the consent of the owner of the property on which the private drinking water well is located.

(c4) The Department may use up to one hundred thousand dollars ($100,000) annually of the monies in the Fund to pay the personnel and other direct costs associated with the implementation of this section.

(c5) The Fund shall not be used for remediation of groundwater contamination.

(c6) Nothing in this section expands, contracts, or modifies the obligation of responsible parties under Article 9 or 10 of Chapter 130A of the General Statutes, this Article, or Article 21A of this Chapter to assess contamination, identify receptors, or remediate groundwater or soil contamination.

(c7) In disbursing monies from the Fund for replacement water supplies, the Department shall give priority to circumstances in which a well is contaminated as a result of nonnaturally occurring groundwater contamination in the area over circumstances in which a well has naturally occurring contamination.

(d) The Department shall establish criteria by which the Department is to evaluate applications and disburse monies from this Fund and may adopt any rules necessary to implement this section.
The Department, in consultation with the Commission for Public Health and local health departments, shall report no later than October 1 of each year to the Environmental Review Commission, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division on the implementation of this section. The report shall include the purpose and amount of all expenditures from the Fund during the prior fiscal year, a discussion of the benefits and deficiencies realized as a result of the section, and may also include recommendations for any legislative action.”

b. A co-payment equal to ten percent (10%) of the costs of the cleanup of environmental damage, per occurrence.

(2) Compensation to third parties for bodily injury and property damage in excess of one hundred thousand dollars ($100,000) per occurrence.

(3) Reimbursing the State for damages or other costs incurred as a result of a loan from the Loan Fund. The per occurrence limit does not apply to reimbursements to the State under this subdivision.

(4) Recordation of residual petroleum as required by G.S. 143B-279.11 if the Noncommercial Fund is responsible for the payment of costs under subdivisions (1) through (3) of this subsection and subsection (b) of this section."

SECTION 14.15.(b) The Department of Environment and Natural Resources (Department) shall study the costs and benefits of the noncommercial underground storage tank program and explore options for continued use of the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund (Fund) and ways to improve the solvency of the Fund. The study shall consider all of the following:

(1) The usual, average, historic costs of various phases of assessment and cleanup of noncommercial UST releases in order to determine areas of potential costs savings.

(2) The feasibility of determining levels of soil and groundwater contamination at noncommercial UST releases earlier in the assessment and cleanup process in order to identify lower risks sites and limit reimbursement of costs of initial abatement actions.

(3) The feasibility of assigning risk to noncommercial UST releases earlier in the assessment and cleanup process in order to limit reimbursement of costs of initial abatement actions.

(4) The feasibility of partial cleanup at lower priority noncommercial UST releases.

(5) The feasibility of issuing notices similar to the Notices of No Further Action for partially cleaned up, stabilized, lower priority noncommercial UST sites in order to facilitate property transfers.
(6) Methods to strengthen liability protections for buyers and lenders of residential properties that have known noncommercial UST releases in order to facilitate property transfers.

(7) Methods to employ land-use restrictions on residential properties where petroleum contamination remains at lower risk sites in order to limit cleanup at these sites, while still informing the public of risk, and facilitating property transfers.

(8) Methods to increase the participation of noncommercial UST owners in the costs of assessments and cleanups.

(9) Any other matter the Department deems relevant to improve the solvency of the Fund.

SECTION 14.15.(c) The Department shall report its findings and recommendations, including any legislative proposals, to the Environmental Review Commission, the Senate Appropriations Committee on Natural and Economic Resources, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, and the Fiscal Research Division no later than April 1, 2014.

If the application's rank is again too low to receive an award, the application is not eligible for consideration in a subsequent application period. An applicant whose application does not receive an award after review in two application periods may file a new application.

The notice must set out any conditions the applicant must meet to receive an award of a loan or grant. When the applicant satisfies the conditions set out in the letter of intent, the Division must send the applicant an offer to award a loan or grant. If the ownership of any such vessel is transferred from one governmental entity to another or to a nonprofit rescue squad or if a vessel owned by a nonprofit rescue squad is transferred to another nonprofit rescue squad or governmental entity, the Commission shall issue a new permanent certificate of number, displaying the same identification number, without charge to the successor entity. When any such vessel is sold to a private owner or is otherwise transferred to private ownership, the applicable certificate of number shall be deemed to have expired immediately prior to the transfer. SECTION 15.28A.(b) Funds appropriated pursuant to subsection (a) of this section shall be allocated to each regional economic development commission as follows:

(1) First, the Department shall establish each commission's allocation by determining the sum of allocations to each county that is a member of that commission. Each county's allocation shall be determined by dividing the county's development factor by the sum of the development factors for eligible counties and multiplying the resulting percentage by the amount of the appropriation. As used in this subdivision, the term "development factor" means a county's development factor as calculated under G.S. 143B-437.08; and

(2) Next, the Department shall subtract from funds allocated to North Carolina's Eastern Region the sum of one hundred thirty-four thousand four hundred six-six dollars ($134,466) in the 2013-2014 fiscal year, which sum represents (i) the total interest earnings in the prior fiscal year on the
estimated balance of the seven million five hundred thousand dollars ($7,500,000) appropriated to the Global TransPark Development Zone in Section 6 of Chapter 561 of the 1993 Session Laws and (ii) the total interest earnings in the prior fiscal year on loans made from the seven million five hundred thousand dollars ($7,500,000) appropriated to the Global TransPark Development Zone in Section 6 of Chapter 561 of the 1993 Session Laws; and

(3) Next, the Department shall redistribute the sum of one hundred thirty-four thousand four hundred sixty-six dollars ($134,466) in the 2013-2014 fiscal year to the seven regional economic development commissions named in subsection (a) of this section. Each commission's share of this redistribution shall be determined according to the development factor formula set out in subdivision (1) of this subsection. This redistribution shall be in addition to each commission's allocation determined under subdivision (1) of this subsection.

SECTION 15.28A(c) The General Assembly finds that successful economic development requires the collaboration of the State, regions of the State, counties, and municipalities. Therefore, the regional economic development commissions are encouraged to seek supplemental funding from their county and municipal partners to continue and enhance their efforts to attract and retain business in the State.

SECTION 15.30.(b) Except to provide administrative flexibility, up to ten percent (10%) of each of the allocations in subsection (a) of this section may be reallocated to one or
more of the other allocations in subsection (a) of this section if, in the judgment of Center management, the reallocation will advance the mission of the Center.

SECTION 15.30.(c) The Center shall comply with the following reporting requirements:

By September 1 of each year, and more frequently as requested, report to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division on prior State fiscal year program activities, objectives, and accomplishments and prior State fiscal year itemized expenditures and fund sources.

NORTH CAROLINA BIOTECHNOLOGY CENTER/EXAMINE CENTER OPERATIONS

SECTION 15.32.(a) The Board of Directors (hereinafter "Board") of the North Carolina Biotechnology Center (hereinafter "Center") shall review and examine each aspect of the Center's operations to determine ways in which efficiencies and cost-savings can be achieved. 3. Staffing requirements at the Center's headquarters and at the regional offices to determine whether some staff positions are duplicated and, if so, whether those duplications can be reduced or eliminated.

4. Whether State funds would be better used to provide additional grants and loans rather than to support current staffing levels and whether reducing current staffing levels to increase the amount of funds available for grants and loans would provide a positive return on investment. The Center shall determine the appropriate percentage of State funds that should be disbursed for grants, loans, and staff to maximize the return on State funds appropriated to the Center.

5. The administration of grant and loan programs funded in any way with State funds to ensure that the programs are conducted in a cost-efficient manner.

6. Any and all cash balances on hand to determine ways in which those cash balances can be used quickly to make grants and loans.

7. The size of the Board and the overall governance of the Center to determine whether changes in either or both can be made to make the Center more cost-efficient and effective in providing grants or loans.

8. Whether it would be beneficial to the State if the funds appropriated in this act to the Center for the 2014-2015 fiscal year, and any funds that might be appropriated to the Center in future fiscal years, were instead appropriated to the Department of Commerce for purposes of establishing and implementing a competitive grants process.

SECTION 15.32.(b) By March 1, 2014, the Center shall report the findings of the review required by subsection (a) of this section to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division. The report shall include the steps taken by the Center to implement any changes made to the Center's operations as a result of the review and shall include the Center's anticipated funding requirements from the General Assembly.

Therefore,
the Department of Justice and the Department of Public Safety are prohibited from using these assets for such purposes without the prior approval of the General Assembly.

Session Law 2013-362

AN ACT TO CORRECT GENERAL REAPPRAISALS RESULTING IN PROPERTY VALUES THAT DO NOT COMPLY WITH THE REQUIREMENTS OF NORTH CAROLINA LAW BY SETTING FORTH THE STEPS REQUIRED TO BRING THE GENERAL REAPPRAISAL INTO COMPLIANCE WITH THE APPLICABLE PROPERTY TAX MANDATES.

Whereas, the Great Recession has had deleterious effects on the economy and especially on the housing market; and

Whereas, valuation data for a calendar year is used to determine market value for a general reappraisal as of January 1 of the following year; and

Whereas, there were a total of 3,825,637 foreclosure filings during the 2010 calendar year, and 2.23% of all households were in some stage of foreclosure during 2010; and

Whereas, annual analysis of the housing market in North Carolina in 2011 shows tax assessments in nearly half of the counties in the State were higher, on average, than actual market values; and

Whereas, the General Assembly has previously required accelerated general reappraisals when sales values deviated too much from assessed values, but such countywide analyses can fail to properly account for pockets of improperly valued properties or where properties have values that offset improperly valued properties located elsewhere within the county; and

Whereas, these unique and extraordinary conditions have increased the difficulty of accurately appraising real property for tax purposes and increased the number of actual errors in conducting reappraisals; and

Whereas, independent evidence shows instances of high degrees of inequity in valuations among like properties of a type that is not acceptable by widely accepted mass appraisal standards; and

Whereas, independent evidence shows, among other things, that there exist concrete examples of erroneous valuations, for example, that resulted both from the values accepted as initial values and from other inequities produced during the property tax appeals process; and

Whereas, these examples prove the existence of errors that give rise to significant issues that must be addressed to resolve inequities among like and similar properties; and

Whereas, the General Assembly recognizes that the confluence of these issues arising during the time when general reappraisals of real property were occurring has resulted not only in a higher risk but in a higher incidence of assessed values failing to accurately and fairly reflect true market values; Now, therefore,
The General Assembly of North Carolina enacts:

SECTION 1. Notwithstanding G.S. 105-287, 105-325, 105-380, any provision of law restricting the time for which a change in appraisal or valuation may be made, or any other provision of Subchapter II of Chapter 105 of the General Statutes inconsistent with the provisions of this act, a board of county commissioners shall undertake the measures required by this act if all of the following conditions are met:

1. The county has independent evidence that the majority of commercial neighborhoods in the county reviewed by a qualified appraisal company possess significant issues of inequity.

2. The county has independent evidence that for residential neighborhoods instances of inequity or erroneous data had an impact on the valuation of the neighborhood as a whole.

3. The county's last general reappraisal was performed for the 2008 tax year, 2009 tax year, 2010 tax year, 2011 tax year, or 2012 tax year.

4. The independent evidence resulted from a review performed by a qualified appraisal company selected and retained by the county and registered with the Department of Revenue and had a sample size of no less than 375 properties, the relevant characteristics of which were reviewed on location at the property.

SECTION 2. If all of the conditions of Section 1 of this act are met, a board of county commissioners shall either (i) conduct a reappraisal, using no less than one person certified by the Department of Revenue for mass valuations per 4,250 parcels, pursuant to G.S. 105-286 within 18 months, applicable to all tax years from and including the tax year when the last general reappraisal was performed pursuant to G.S. 105-286 or (ii) have a qualified appraisal company, which may be the same company that provides the evidence in Section 1 of this act, conduct a review of all the values in the county by neighborhoods and make recommendations as to the true value of the properties as of January 1 of the year of the last general reappraisal performed pursuant to G.S. 105-286. After the reappraisal or after each neighborhood review required by this section is complete, the board of county commissioners shall make any change on the abstracts and tax records to ensure that the assessed values of incorrectly appraised properties in the county reflect the true values of those properties effective for the year of the last general reappraisal performed pursuant to G.S. 105-286 and shall apply the adjusted values for those properties for each tax year until the next general reappraisal for real property is performed by the county pursuant to G.S. 105-286 unless those adjusted values are changed in accordance with G.S. 105-287. In making changes to the abstracts and tax records mandated by this act, the board of county commissioners shall make adjustments for previous errors prioritized as follows:

1. Adjustments to parcels with errors that resulted in the parcels having a significantly overstated value.

2. Adjustments to parcels with errors that resulted in the parcels having a significantly understated value.

3. Adjustments to parcels with errors that resulted in the parcels having an overstated value.

4. Adjustments to parcels with errors that resulted in the parcels having an understated value.

In instances of parcels with errors that resulted in an overpayment of taxes, the governing board shall require that notice of refund and the refund amount be sent to the owner of record as of the date the payment was made. The provisions of G.S. 105-380 do not apply to the issuance of any refund under the provisions of this act.

SECTION 3. Interest on taxes paid on parcels with errors that resulted in the parcels having an overstated value shall be calculated at a rate of five percent (5%) per annum. Additional taxes levied on parcels as a result of errors causing the parcels to have an
understated value shall be treated as taxes on discovered property pursuant to G.S. 105-312, except that the discovery penalties set forth in subsection (b) of G.S. 105-312 shall not apply.

SECTION 4. This act is effective when it becomes law. If any provision of this act or its application is held invalid, the invalidity does not affect other provisions or applications of this act that can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

In the General Assembly read three times and ratified this the 18th day of July, 2013. Became law upon approval of the Governor at 4:37 p.m. on the 26th day of July, 2013.

(a) Request for Funds.—The State Board of Education, based upon the reports of local boards of education and such other information as the State Board may require from local
boards, shall determine for each local school administrative unit the number of teachers and other instructional personnel to be included in the State budget request.

(b) Allocation of Positions. – The State Board of Education is authorized to adopt rules to allot instructional personnel and teachers, within funds appropriated.

(c) Maximum Class Size. – The average class size for each grade span kindergarten through third grade in a local school administrative unit shall at no time exceed the funded allotment ratio of teachers to students in kindergarten through third grade. At the end of the second school month and for the remainder of the school year, the size of an individual class in kindergarten through third grade shall not exceed the allotment ratio by more than three students. At no time may the General Assembly appropriate funds for higher unit-wide class averages than those for which State funds were provided during the 1984-85 school year. In grades four through 12, local school administrative units shall have the maximum flexibility to use allotted teacher positions to maximize student achievement.

(d) Maximum Teaching Load. – Students shall be assigned to classes so that from the 15th day of the school year through the end of the school year the number of students for whom teachers in grades 7 through 12 are assigned teaching responsibilities during the course of the day is no more than 150 students, except as provided in subsection (g) of this section.

(e) Alternative Maximum Class Sizes. – The State Board of Education, in its discretion, may set higher maximum class sizes and daily teaching loads for classes in music, physical education, and other similar subjects, so long as the effectiveness of the instructional programs in those areas is not thereby impaired.

(f) Second Month Reports. – At the end of the second month of each school year, each local board of education, through the superintendent, shall file a report for each school within the school unit with the State Board of Education. The report shall be filed in a format prescribed by the State Board of Education and shall include the organization for each school, the duties of each teacher, the size of each class, the teaching load of each teacher, and such other information as the State Board may require. As of February 1 each year, local boards of education, through the superintendent, shall report all exceptions to individual class size and daily teaching load maximums in kindergarten through third grade that occur at that time.

(g) Waivers and Allotment Adjustments. – Local boards of education shall report exceptions to the class size requirements set out for kindergarten through third grade and significant increases in class size at other grade levels to the State Board of Education as provided in G.S. 115C-47(10), and shall request allotment adjustments or, at any grade level, waivers from the standards set out above requirements for kindergarten through third grade, or both. Within 45 days of receipt of reports, the State Board of Education, within funds available, may allot additional positions or grant waivers for the excess class size or daily load in kindergarten through third grade.

(1) If the exception resulted from (i) exceptional circumstances, emergencies, or acts of God, (ii) large changes in student population, (iii) organizational problems caused by remote geographic location, or (iv) classes organized for a solitary curricular area, and

(2) If the local board cannot organizationally correct the exception.

(h) State Board Rules. – The State Board of Education shall adopt rules necessary for the implementation of class size and teaching load provisions of this section.

(i) Penalty for Noncompliance. – If the State Board of Education determines that a local superintendent has willfully failed to comply with the requirements of this section, no State funds shall be allocated to pay the superintendent’s salary for the period of time the superintendent is in noncompliance.

SECTION 3.3(b) If Senate Bill 402, 2013 Regular Session, becomes law, then G.S. 115C-47(10) reads as rewritten:
§ 115C-47. Powers and duties generally.
In addition to the powers and duties designated in G.S. 115C-36, local boards of education shall have the power or duty:

(10) To Assure Appropriate Class Size. – It shall be the responsibility of local boards of education to assure that the class size and teaching load requirements set forth in G.S. 115C-301 for kindergarten through third grade are met. Any teacher who believes that the requirements of G.S. 115C-301 have not been met shall make a report to the principal and superintendent, and the superintendent shall immediately determine whether the requirements have in fact not been met. If the superintendent determines the requirements have not been met, he or she shall make a report to the next local board of education meeting. The local board of education shall take action to meet the requirements of the statute. If the local board cannot organizationally correct the exception and if any of the conditions set out in G.S. 115C-301(g)(1) exist, exception, it shall immediately apply to the State Board of Education for additional personnel or a waiver of the class size requirements, as provided in G.S. 115C-301(g).

Upon notification from the State Board of Education that the reported exception does not qualify for an allotment adjustment or a waiver under provisions of G.S. 115C-301, the local board, within 30 days, shall take action necessary to correct the exception.

SECTION 11.1. Effective when this act becomes law, G.S. 62-140(a) reads as rewritten:

"(a) No public utility shall, as to rates or services, make or grant any unreasonable preference or advantage to any person or subject any person to any unreasonable prejudice or disadvantage. No public utility shall establish or maintain any unreasonable difference as to rates or services either as between localities or as between classes of service. The Commission may determine any questions of fact arising under this section; provided that it shall not be an unreasonable preference or advantage or constitute discrimination against any person, firm or corporation or general rate payer for telephone utilities to contract with motels, hotels and hospitals to pay reasonable commissions in connection with the handling of intrastate toll calls charged to a guest or patient and collected by the motel, hotel or hospital; provided further, that payment of such commissions shall be in accordance with uniform tariffs which shall be subject to the approval of the Commission. Provided further, that it shall not be considered an unreasonable preference or advantage for the Commission to order, if it finds the public interest so requires, a reduction in local telephone rates for low-income residential consumers meeting a means test established by the Commission in order to match any reduction in the interstate subscriber line charge authorized by the Federal Communications Commission. If the State repeals any State funding mechanism for a reduction in the local telephone rates for low-income residential consumers, the Commission shall take appropriate action to eliminate any requirement for the reduced rate funded by the repealed State funding mechanism. For the purposes of this section, a State funding mechanism for a reduction in the local telephone rates includes a tax credit allowed for the public utility to recover the reduction in rates.

Nothing in this section prohibits the Commission from establishing different rates for natural gas service to counties that are substantially unserved, to the extent that those rates reflect the cost of providing service to the unserved counties and upon a finding by the Commission that natural gas service would not otherwise become available to the counties."

SECTION 11.2. Effective July 1, 2014, G.S. 105-164.44K(b), as enacted by Section 4.3(a) of S.L. 2013-316, reads as rewritten:

The quarterly franchise tax share of a city includes adjustments made for the hold-harmless amounts under repealed G.S. 105-116. If the franchise tax share of a city, including the hold-harmless adjustments, is less than zero, then the amount is zero. The determination made by the Department with respect to a city's franchise tax share is final and is not subject to administrative or judicial review.

The franchise tax share of a city that has dissolved, merged with another city, or divided into two or more cities since it received a distribution under repealed G.S. 105-116.1 or repealed provisions of G.S. 159B-27 is adjusted as follows:

1. If a city dissolves and is no longer incorporated, the franchise tax share of the city is added to the amount distributed under subsection (c) of this section.
2. If two or more cities merge or otherwise consolidate, their franchise tax shares are combined.
3. If a city divides into two or more cities, the franchise tax share of the city that divides is allocated among the new cities in proportion to the total
amount of ad valorem taxes levied by each on property having a tax situs in the city.

SECTION 11.3.(a) G.S. 105-129.16D(b) reads as rewritten:

(b) Production Credit. – A taxpayer that constructs and places in service in this State a commercial facility for processing renewable fuel is allowed a credit equal to twenty-five percent (25%) of the cost to the taxpayer of constructing and equipping the facility. The entire credit may not be taken for the taxable year in which the facility is placed in service but must be taken in seven equal annual installments beginning with the taxable year in which the facility is placed in service. If, in one of the years in which the installment of a credit accrues, the facility with respect to which the credit was claimed is disposed of or taken out of service, the credit expires and the taxpayer may not take any remaining installment of the credit. The taxpayer may, however, take the portion of an installment that accrued in a previous year and was carried forward to the extent permitted under G.S. 105-129.17.

Notwithstanding subsection (d) of this section, this section is repealed effective for facilities placed in service on or after January 1, 2017, in the case of a taxpayer that meets both of the following conditions:

SECTION 11.3.(b) This section is effective when it becomes law.

SECTION 11.4. G.S. 105-164.13E(8)b., as enacted by S.L. 2013-316, reads as rewritten:

"§ 105-164.13E. Exemption for farmers.

The following tangible personal property, digital property, and services are exempt from sales and use tax if purchased by a qualifying farmer and for use by the farmer in the planting, cultivating, harvesting, or curing of farm crops or in the production of dairy products, eggs, or animals. (8) Any of the following items concerning the housing, raising, or feeding of animals:

b. Building materials, supplies, fixtures, and equipment that become a part of and are used in the construction, repair, or improvement of an enclosure or a structure specifically designed, constructed, and used for housing, raising, or feeding animals or for housing equipment necessary for one of these commercial activities. The refund exemption also applies to commercially manufactured equipment, and parts and accessories for the equipment, used in the enclosure or a structure.

The General Assembly of North Carolina enacts:

PART I. RULES: AUTOMATIC REVIEW; FISCAL NOTE REQUIREMENTS; NO PERMIT ISSUANCE UNTIL RULES BECOME EFFECTIVE AND THE GENERAL ASSEMBLY TAKES AFFIRMATIVE LEGISLATIVE ACTION TO ALLOW ISSUANCE

SECTION 1.(a) All rules required to be adopted pursuant to Section 2(m) of S.L. 2012-143 shall become effective as provided in G.S. 150B-21.3(b1) as though 10 or more written objections had been received as provided by G.S. 150B-21.3(b2).

SECTION 1.(b) The Mining and Energy Commission, the Environmental Management Commission, and the Commission for Public Health are exempt from the provisions of Chapter 150B of the General Statutes that require the preparation of fiscal notes for any rule proposed for the creation of a modern regulatory program for the management of oil and gas exploration and development activities in the State, including the use of horizontal drilling and hydraulic fracturing for that purpose.

SECTION 1.(c) As provided in Section 3(d) of S.L. 2012-143, the issuance of permits for oil and gas exploration and development activities using horizontal drilling and hydraulic fracturing treatments in the State pursuant to G.S. 113-395, or any other provision of law, shall be prohibited in order to allow the Mining and Energy Commission sufficient time for development of a modern regulatory program for the management of oil and gas exploration and development in the State and the use of horizontal drilling and hydraulic fracturing treatments for that purpose, and for adoption of appropriate environmental standards applicable to these activities. No agency of the State, including the Department of Environment and Natural Resources, the Environmental Management Commission, the Commission for Public Health, or the Mining and Energy Commission, shall issue a permit for oil or gas exploration or development activities using horizontal drilling and hydraulic fracturing treatments until (i) all rules required to be adopted by the Mining and Energy Commission, the Environmental Management Commission, and the Commission for Public Health pursuant to S.L. 2012-143
have become effective and (ii) the General Assembly takes affirmative legislative action, including repeal of Section 3(d) of S.L. 2012-143, to allow the issuance of such permits.

PART II. STUDIES: COORDINATED PERMIT PROCESS, SEVERANCE TAXES, AND LANDMEN REGISTRY

SECTION 2.(a) The Mining and Energy Commission, with the assistance of the Department of Environment and Natural Resources, shall study development of a coordinated permitting program for oil and gas exploration and development activities using horizontal drilling and hydraulic fracturing treatments in order that a single comprehensive environmental permit may be issued to a permit applicant to govern the applicant's exploration and development activities at a site, including, but not limited to, regulation of the following matters: well construction, siting, and closure requirements; hydraulic fracturing treatments, including subsurface injection of fluids for that purpose; water quality, including stormwater control, and management of water resources; management of waste; and regulation of air emissions. The Department of Environment and Natural Resources shall seek any approvals necessary from the United States Environmental Protection Agency for a coordinated permitting program to allow issuance of a single comprehensive environmental permit for oil and gas exploration and development activities using horizontal drilling and hydraulic fracturing treatments. The Mining and Energy Commission shall report its findings and recommendations to the Environmental Review Commission and the Joint Legislative Commission on Energy Policy on or before March 1, 2014.

SECTION 2.(b) The Mining and Energy Commission and the Department of Revenue, with the assistance of the Department of Commerce and the Department of Environment and Natural Resources, shall study an appropriate rate of severance tax that should be imposed in association with oil and gas exploration and development activities using horizontal drilling and hydraulic fracturing treatments in the State. In conducting the study, the Commission and the Department shall examine information compiled by the Department of Commerce in Section 5 of the North Carolina Oil and Gas Study issued in April 2012 pursuant to S.L. 2011-276 on potential economic impacts that could be expected if drilling for oil or natural gas were to take place in the State, which included data on severance taxes established in other states. In addition, the Commission and the Department shall consider information compiled pursuant to the ongoing study of appropriate levels of funding and potential sources for that funding required by Section 2(j) of S.L. 2012-143, as amended by Section 12(a) of S.L. 2012-201, which requires examination of (i) funding required to address expected impacts to infrastructure throughout the State and other impacts that may be experienced by local governments in areas where drilling activities may occur and (ii) funding needed to cover any costs to the State for administering an oil and gas regulatory program, including remediation and reclamation of drilling sites when necessary due to abandonment or insolvency of an oil or gas operator or other responsible party. The Commission and the Department shall also formulate recommendations for appropriate levels of funding that should be maintained to address emergency events associated with oil and gas exploration, including sufficient funding for emergency preparation, emergency response, emergency environmental protection, or mitigation associated with a release of liquid hydrocarbons or associated fluids directly related to onshore energy exploration, development, production, or transmission. Any recommendation for emergency funding for this purpose shall provide that the funds shall be used only upon a determination that sufficient funds for corrective action or emergency response cannot be obtained from other sources without incurring a delay that would significantly increase the threat to life or risk of damage to the environment and provide that the State shall pursue recovery of all costs incurred by the State or local governments for any corrective action or emergency response, including attorneys' fees and other expenses of bringing the cost recovery action from the responsible party or parties. The Mining and Energy Commission shall report its findings and recommendations to the Environmental Review Commission on or before April 1, 2014.
SECTION 2.(c) The Mining and Energy Commission, with the assistance of the Department of Environment and Natural Resources, shall study issues related to establishment and implementation of the registration requirements for landmen under G.S. 113-425. At a minimum, the study shall include a review of the number of individuals currently registered in North Carolina; other states’ requirements with respect to registration of landmen; and regulations governing landmen operating in other industries in North Carolina and other states. The Commission and the Department shall receive input from the oil and gas industry and other stakeholders on the current registry, its effectiveness, and whether modifications or discontinuance is advisable. The Mining and Energy Commission shall report its findings and recommendations to the Environmental Review Commission and the Joint Legislative Commission on Energy Policy on or before April 1, 2015.

PART IV. AMEND ALLOWABLES

SECTION 4. G.S. 113-394 reads as rewritten:

"§ 113-394. Limitations on production; allocating and prorating "allowables."

(a) Whenever the total amount of oil, including condensate, which all the pools in the State can produce, exceeds the amount reasonably required to meet the reasonable market demand for oil, including condensate, produced in this State, then the Commission may limit the total amount of oil, including condensate, which may be produced in the State by fixing an amount which shall be designated "allowable" for the State, which will not exceed the reasonable market demand for oil, including condensate, produced in this State. The Commission shall then allocate or distribute the "allowable" for the State on a reasonable basis and in such manner as to avoid undue discrimination, and so that waste will be prevented. In allocating the "allowable" for the State, and in fixing "allowables" for pools producing oil or hydrocarbons forming condensate, or both oil and such hydrocarbons, the Commission may take into account the producing conditions and other relevant facts with respect to such pools, including the separate needs for oil, gas and condensate, and shall formulate rules setting forth standards or a program for the distribution of the "allowable" for the State, and shall distribute the "allowable" for the State in accordance with such standards or program, and where conditions in one pool or area are substantially similar to those in another pool or area, then the same standards or programs shall be applied to such pools and areas so that as far as practicable a uniform program will be followed; provided, however, the Commission shall allow the production of a sufficient amount of natural gas from any pool to supply adequately the reasonable market demand for such gas for light and fuel purposes if such production can be obtained without waste, and the condensate "allowable" for such pool shall not be less than the total amount of condensate produced or obtained in connection with the production of the gas "allowable" for light and fuel purposes, and provided further that, if the amount allocated to pool as its share of the "allowable" for the State is in..."
excess of the amount which the pool should produce to prevent waste, then the Commission shall fix the "allowable" for the pool so that waste will be prevented.

(b) The Commission shall not be required to determine the reasonable market demand applicable to any single pool except in relation to all pools producing oil of similar kind and quality and in relation to the demand applicable to the State, and in relation to the effect of limiting the production of pools in the State. In allocating "allowables" to pools, the Commission shall not be bound by nominations or desires of purchasers to purchase oil from particular fields or areas, and the Commission shall allocate the "allowable" for the State in such manner as will prevent undue discrimination against any pool or area in favor of another or others which would result from selective buying or nominating by purchasers of oil, as such term "selective buying or nominating" is understood in the oil business.

(c) Whenever the Commission limits the total amount of oil or gas which may be produced in any pool in this State to an amount less than that which the pool could produce if no restrictions were imposed (which limitation may be imposed either incidental to, or without, a limitation of the total amount of oil or gas which may be produced in the State), the Commission shall prorate or distribute the "allowable" production among the producers in the pool on a reasonable basis, and so that each producer will have the opportunity to produce or receive his just and equitable share, as such share is set forth in subsection G.S. 113-392(d), subject to the reasonable necessities for the prevention of waste.

(d) Whenever the total amount of gas which can be produced from any pool in this State exceeds the amount of gas reasonably required to meet the reasonable market demand therefrom, the Commission shall limit the total amount of gas which may be produced from such pool. Then, the Commission shall then allocate or distribute the allowable production among the developed areas in the pool on a reasonable basis, so that each producer will have the opportunity to produce his just and equitable share, as such share is set forth in subsection G.S. 113-392(d), whether the restriction for the pool as a whole is accomplished by order or by the automatic operation of the prohibitory provisions of this law. As far as applicable, the provisions of subsection (a) of this section shall be followed in allocating any "allowable" of gas for the State.

(e) After the effective date of any rule or order of the Commission fixing the "allowable" production of oil or gas, or both, or condensate, no person shall produce from any well, lease, or property more than the "allowable" production which is fixed, nor shall such amount be produced in a different manner than that which may be authorized.

PART V. CLARIFY BONDING REQUIREMENTS

SECTION 5.(a) G.S. 113-378 reads as rewritten:

"§ 113-378. Persons drilling for oil or gas to register and furnish bond.

Any person, firm or corporation before making any drilling exploration in this State for oil or natural gas shall register with the Department of Environment and Natural Resources. To provide for such registration, the drilling operator must furnish the name and address of such person, firm or corporation, and the location of the proposed drilling operations, and file with the Department a bond running to the State of North Carolina in an amount totaling the sum of (i) five thousand dollars ($5,000) plus (ii) one dollar ($1.00) per linear foot proposed to be drilled for the well. Any well opened by the drilling operator shall be plugged upon abandonment in accordance with the rules of the Department."

SECTION 5.(b) G.S. 113-391(a) is amended by adding a new subdivision to read:

"(a) The Mining and Energy Commission, created by G.S. 143B-293.1, in conjunction with rule-making authority specifically reserved to the Environmental Management Commission under subsection (a3) of this section, shall establish a modern regulatory program for the management of oil and gas exploration and development in the State and the use of horizontal drilling and hydraulic fracturing treatments for that purpose. The program shall be designed to protect public health and safety; protect public and private property; protect and conserve the State's air, water, and other natural resources; promote economic development and
expand employment opportunities; and provide for the productive and efficient development of the State’s oil and gas resources. To establish the program, the Commission shall adopt rules for all of the following purposes:

(13a) Criteria to set the amount of a bond required pursuant to G.S. 113-421(a3), including, at a minimum, the number of wells proposed at a site, the pre-drilling condition of the property, the amount of acreage that would be impacted by the proposed oil and gas activities, and other factors designed to enable establishment of bonds on a site-by-site basis.”

SECTION 5.(c) G.S. 113-421(a3) reads as rewritten:

“§ 113-421. Presumptive liability for water contamination; compensation for other damages; responsibility for reclamation.

... (a3) Reclamation of Surface Property Required. – An oil or gas developer or operator shall reclaim all surface areas affected by its operations no later than two years following completion of the operations. If the developer or operator is not the surface owner of the property, prior to commencement of activities on the property, the oil or gas developer or operator shall provide a bond running to the surface owner sufficient to cover reclamation of the surface owner's property. Upon registration with the Department pursuant to G.S. 113-378, a developer shall request that the Mining and Energy Commission set the amount of the bond required by this subsection. As part of its request, the developer shall provide supporting documentation, including information about the proposed oil and gas activities to be conducted, the site on which they are to occur, and any additional information required by the Commission. The Commission shall set the amount of the bond in accordance with the criteria adopted by the Commission pursuant to G.S. 113-391(a)(13a) and notify the developer and surface owner of the amount within 30 days of setting the amount of a bond. A surface owner or developer may appeal the amount of a bond set pursuant to this subsection to the Commission within 60 days after receipt of notice from the Commission of the amount required. After evaluation of the appeal and issuance of written findings, the Commission may order that the amount of the bond be modified. Parties aggrieved by a decision of the Commission pursuant to this subsection may appeal the decision as provided under Article 4 of Chapter 150B of the General Statutes within 30 days of the date of the decision.”

PART VI. REVENUE FROM OFFSHORE ENERGY PRODUCTION

SECTION 6. Chapter 113B of the General Statutes is amended by adding a new Article to read:

"Article 3.

"§ 113B-30. Allocation of revenues from offshore energy production; creation of Offshore Energy Management Fund.

(a) Any revenues and royalties paid to the State as a result of offshore leasing, exploration, development, and production of all energy resources shall be deposited in the Offshore Emergency Fund until the Fund reaches two hundred fifty million dollars ($250,000,000). The Offshore Energy Management Fund is an interest-bearing special revenue fund to be established within the State treasury. This Fund shall be used only for emergency preparation, emergency response, emergency environmental protection, or mitigation associated with a release of liquid hydrocarbons or associated fluids directly related to offshore energy exploration, development, production, or transmission. Once the Fund balance reaches the amount of two hundred fifty million dollars ($250,000,000), the funds shall be used as provided in subsection (b) of this section. If monies are withdrawn from this Fund to carry out the provisions in this section, all revenues and royalties paid to the State as a result of offshore leasing, exploration, development, and production of all energy resources shall be deposited in the Fund until a total of two hundred fifty million dollars ($250,000,000) is reestablished. Once
the Fund balance reaches the amount of two hundred fifty million dollars ($250,000,000), the funds shall be used as provided in subsection (b) of this section.

(b) Any revenues and royalties paid to the State as a result of offshore leasing, exploration, development, and production of all energy resources in excess of the amount needed to establish the Fund created in subsection (a) of this section are annually appropriated and shall be used for the following purposes:

1. Seventy-five percent (75%) of such revenues and royalties shall be credited to the General Fund.
2. Five percent (5%) of such revenues and royalties shall be credited to the North Carolina Highway Trust Fund established under G.S. 136-176.

5. Five percent (5%) of such revenues and royalties shall be transferred to the Department of Environment and Natural Resources for conservation, protection, and mitigation, including, but not limited to, beach and inlet management projects, dredging operations, channel navigation and maintenance, public beach and water access, water quality management, and habitat restoration.
6. Three percent (3%) of such revenues and royalties shall be transferred to the State Ports Authority for expansion and maintenance of State Port infrastructure associated with energy-related commerce.
7. Two percent (2%) of such revenues and royalties shall be transferred to the Department of Commerce for recruitment of energy-related industries to the State.

The Governor shall develop recommendations for the General Assembly to consider for the development of a statutory regional compact, and these recommendations shall reflect the collective agreement of all three governors in the three-state region in order to provide common language for consideration by each state's General Assembly. During the development of these compact recommendations, the Governor or the Governor's designee is authorized to work directly with each of the three states' Congressional delegations, the United States Department of the Interior, the United States Environmental Protection Agency, and other appropriate federal agencies on behalf of the State of North Carolina to develop appropriate strategies to be considered in the development of the three-state compact for increasing domestic energy exploration, development, and production within each state in the three-state region and their adjacent state and federal waters. The compact negotiations and recommendations shall address at least all of the following:
(1) Ensure a timely review and consideration of permits and proposals at both the state and federal level for both state and federal waters adjacent to each state in the three-state region for seismic and other marine geophysical exploration to identify and quantify natural gas and related hydrocarbon resources along the continental margin.

(2) Amend the 2012 to 2017 Five Year Leasing Plan of the United States Department of the Interior to include leasing federal waters adjacent to the State and the three-state region for the exploration, quantification, and development of natural gas and related hydrocarbon energy resources.

(3) Advocate proactively with each state's Congressional delegation and appropriate federal agencies to ensure direct sharing of royalties and revenues related to energy leasing, exploration, development, and production of all offshore energy resources in federal waters adjacent to the State and the three-state region.

(4) Request the United States Department of the Interior to reinstate the federal Offshore Policy Committee with new members and new alternate members to be nominated by the governor of the state represented on the Offshore Policy Committee and appointed by the Secretary of the Interior, six of whom are to be one member and one alternate member each from North Carolina, Virginia, and South Carolina.

The goal of the Energy Policy Council is to identify and utilize all domestic energy resources in order to ensure a secure, stable, and predictable energy supply and to protect the economy of the State, promote job creation, and expand business and industry opportunities while ensuring the protection and preservation of the State's natural resources, cultural heritage, and quality of life. The Energy Policy Council may delegate its duties where appropriate to the Division of Energy, Mineral, and Land Resources of the Department of Environment and Natural Resources. The Council shall provide oversight and approval to the duties delegated to the Division. The Energy Policy Council shall have the following general duties and responsibilities:

(1) To develop and recommend to the Governor and the General Assembly a comprehensive long-range State energy policy that addresses requirements in the short term (10 years), in the midterm (25 years), and in the long term (50 years) to achieve maximum effective management and use of present and future sources of energy, such policy to include but not be limited to energy efficiency, renewable and alternative sources of energy, research and development into alternative energy technologies, and improvements to the State's energy infrastructure and energy economy, including smart grid and domestic energy resources that shall include at least natural gas, coal, hydroelectric power, solar, wind, nuclear energy, and biomass. For utilities regulated under Chapter 62 of the General Statutes, the policy..."
developed under this subdivision shall be consistent with the analysis and plan developed under G.S. 62-110.1(c).

(2) To conduct an ongoing assessment of the opportunities and constraints presented by various uses of all forms of energy to facilitate the expansion of the domestic energy supply and to encourage the efficient use of all such energy forms in a manner consistent with State energy policy.

(3) To continually review and coordinate all State government research, education and management programs relating to energy matters, to continually educate and inform the general public regarding such energy matters, and to actively engage in discussions with the federal government, its agencies, and its leaders to identify opportunities to increase domestic energy supply within North Carolina and its adjacent offshore waters.

(4) To recommend to the Governor and to the General Assembly needed energy legislation and rule making, and to recommend for implementation such modifications of energy policy, plans, and programs as the Council considers necessary and desirable.

SECTION 8.(f) G.S. 113B-7 reads as rewritten:

"§ 113B-7. Energy Efficiency Program; components.

(a) The Energy Policy Council shall prepare a recommended Energy Efficiency Program for transmittal to the Governor, the initial plan to be completed by January 30, 1976.

(b) The Energy Efficiency Program shall be designed to assure the public health and safety of the people of North Carolina and to encourage and promote the conservation of energy through reducing wasteful, inefficient or uneconomical uses of energy resources.

(c) The Energy Efficiency Program shall include but not be limited to the following recommendations:

(1) Recommendations to the Building Code Council for lighting, insulation, climate control systems and other building design and construction standards which increase the efficient use of energy and are economically feasible to implement;

(2) Recommendations to the Building Code Council for per unit energy requirement allotments based upon square footage for various classes of buildings which would reduce energy consumption, yet are both technically and economically feasible and not injurious to public health and safety;

(3) Recommendations for minimum levels of operating efficiency for all appliances whose use requires a significant amount of energy based upon both technical and economic feasibility considerations;

(4) Recommendations for State government purchases of supplies, vehicles and equipment and such operating practices as will make possible more efficient use of energy;

(5) Recommendations on energy conservation policies, programs and procedures for local units of government;

(6) Any other recommendations which the Energy Policy Council considers to be a significant part of a statewide conservation effort and which include provisions for sufficient incentives to further energy conservation;

(7) An economic and environmental impact analysis of the recommended program.

(d) In addition to specific conservation recommendations, the Energy Efficiency Program shall contain proposals for implementation of such recommendations as can be carried out by executive order. Upon completion of a draft recommended program, the Council shall arrange for its distribution to interested parties and shall make the program available to the public and the Council further shall set a date for public hearing on said program.
Upon completion of the Energy Efficiency Program, the Council shall transmit said program, to be known as the State Energy Efficiency Program, to the Governor for approval or disapproval. Upon approval, the Governor shall assign administrative responsibility for such implementation as can be carried out by executive order to appropriate agencies of State government, and submit to the General Assembly such proposals which require legislative action for implementation. The Governor shall have the authority to accept, administer, and enforce federal programs, program measures and permissive delegations of authority delegated to the Governor by the President of the United States, Congress, or the United States Department of Energy, on behalf of the State of North Carolina, which pertain to the conservation of energy resources.

The Governor shall transmit the approved Energy Efficiency Program to the President Pro Tempore of the Senate, to the Speaker of the House of Representatives, to the heads of all State agencies and shall further seek to publicize such plan and make it available to all units of local government and to the public at large.

At least every two-five years and whenever such changes take place as would significantly affect energy supply or demand in North Carolina, the Energy Policy Council shall review and, if necessary, revise the Energy Efficiency Program, transmitting such revised plan to the Governor pursuant to the procedures contained in subsections (e) and (f) of this section.”

SECTION 8.(g) G.S. 113B-9 reads as rewritten:

(a) The Energy Policy Council shall, in accordance with the provisions of this Article, develop contingency and emergency plans to deal with possible shortages of energy to protect public health, safety and welfare, such plans to be compiled into an Emergency Energy Program.
(b) Within four months of July 1, 1975: If required for an update of the program provided under subsection (j) of this section:
(1) Each electric utility and natural gas utility in the State shall prepare and submit to the Energy Policy Council a proposed emergency curtailment plan setting forth proposals for identifying priority loads or users in the event of the declaration of an energy crisis pursuant to G.S. 113B-20, and proposals for supply allocation to such priority loads or users. Utilities regulated under Chapter 62 of the General Statutes may satisfy this requirement by submitting the General Load Reduction and System Restoration Plan that is prepared annually for the Utilities Commission.
(2) Each major oil producer doing business in this State as determined by the Energy Policy Council shall prepare and submit to the Energy Policy Council an analysis of how any national supply curtailment pursuant to federal regulations shall affect the supply for North Carolina and how priority users will be determined and available supplies allocated to such users.
(c) The Energy Policy Council shall encourage the preparation of joint emergency curtailment plans and analyses. If such cooperative plans and analyses are developed between two or more utilities, major producers or by an association of such companies, the joint plans or analyses may be submitted to the Energy Policy Council in lieu of information required pursuant to subsection (b) of this section.
(d) The Energy Policy Council shall collect from all relevant governmental agencies any existing contingency plans for dealing with sudden energy shortages or information related thereto.
(e) The Energy Policy Council shall hold one or more public hearings, investigate and review the plans submitted pursuant to this section, and, within nine months after July 1, 1975, the Energy Policy Council shall approve and recommend to the Governor guidelines for emergency curtailment to be known as the Emergency Energy Program and to be implemented.
upon adoption by the Governor after the declaration of an energy crisis and pursuant to G.S. 113B-20 and 113B-23. Said program shall be based upon the plans presented to the Energy Policy Council, upon independent analysis and study by the Council, and upon information provided at the hearing or hearings, provided, however, that they are consistent with such federal programs and regulations as are already in effect at that time.

(f) The Emergency Energy Program shall provide for the maintenance of essential services, the protection of public health, safety, and welfare, and the maintenance of a sound basic State economy. For utilities regulated under Chapter 62 of the General Statutes, the program shall be consistent with the General Load Reduction and System Restoration Plan that is prepared annually for the Utilities Commission. Provisions also shall be made in said program to differentiate curtailment of energy consumption by users on the basis of ability to accommodate such curtailments, and shall also include, but not be limited to, the following:

(1) A variety of strategies and staged conservation measures of increasing intensity and authority to reduce energy use during an energy crisis, as defined in G.S. 113B-20 and guidelines and criteria for allocation of energy sources to priority users. The program shall contain alternative conservation actions and allocation plans to reasonably meet various foreseeable shortage circumstances and to allow a choice of appropriate responses;

(2) Evidence that the program is consistent with requirements of federal emergency energy conservation and allocation laws and regulations;

(3) Proposals to assist such individuals, institutions, agriculture and businesses which have engaged in energy saving measures;

(g) The Energy Policy Council shall carry out such investigations and studies as are necessary to determine if and when potentially serious shortages of energy are likely to affect North Carolina and the Council shall make recommendations to the Governor concerning administrative and legislative actions required to avert such shortages, such recommendations to be included as a section of the Emergency Energy Program.

(h) In addition to the above information and recommendations, the program shall contain proposals for implementation of such recommendations which include procedures, rules and regulations and agency administrative responsibilities for implementation, and shall further contain procedures for fair and equitable review of complaints and requests for special exemptions from emergency conservation measures or emergency allocations. Upon completion of a draft recommended plan, the Council shall arrange for its distribution to interested parties and shall make such plan available to the public and the Council further shall set a date for public hearing on said plan.

(i) Upon completion of the Emergency Energy Allocation Program, the Council and the Governor shall follow the procedures as outlined in G.S. 113B-7(e) and (f).

(j) The Council shall update the Emergency Energy Allocation Program upon a finding by it that an update is justified. The Council shall follow the procedures for adoption pursuant to G.S. 113B-7(e) and (f).

(k) The Governor shall have the authority to accept, administer and enforce federal programs, program measures and permissive delegations of authority delegated to the Governor by the President of the United States, Congress, or the United States Department of Energy, on behalf of the State of North Carolina, which pertain to actions necessary to deal with an actual or impending energy shortage."

(a), (b) Repealed by Session Laws 2003-378, s. 2, effective August 1, 2003.
(c) If a person is convicted of a Class A, B1, B2, C, D, or E felony and it is found as provided in this section that: (i) the person committed the felony by using, displaying, or threatening the use or display of a firearm or deadly weapon and (ii) the person actually possessed the firearm or deadly weapon about his or her person, then the person shall have the minimum term of imprisonment to which the person is sentenced for that felony increased by 60 months. The maximum term of imprisonment shall be the maximum term that corresponds to the minimum term after it is increased by 60 months, as specified in G.S. 15A-1340.17(c) and (e1), as follows:

1. If the felony is a Class A, B1, B2, C, D, or E felony, the minimum term of imprisonment to which the person is sentenced for that felony shall be increased by 72 months. The pleading is sufficient if it alleges that the defendant committed the felony by using, displaying, or threatening the use or display of a firearm or deadly weapon and the defendant actually possessed the firearm or deadly weapon about the defendant's person. One pleading is sufficient for all Class A, B1, B2, C, D, or E felonies that are tried at a single trial.

(e) The State shall prove the issues set out in subsection (c) of this section beyond a reasonable doubt during the same trial in which the defendant is tried for the felony unless the defendant pleads guilty or no contest to the issues. If the defendant pleads guilty or no contest to the felony but pleads not guilty to the issues set out in subsection (c) of this section, then a jury shall be impaneled to determine the issues.

(f) Subsection (c) of this section does not apply if the evidence of the use, display, or threatened use or display of the firearm or deadly weapon is needed to prove an element of the felony or if the person is not sentenced to an active term of imprisonment."

SECTION 6. G.S. 14-415.23 reads as rewritten:

"§ 14-415.23. Statewide uniformity.

(a) It is the intent of the General Assembly to prescribe a uniform system for the regulation of legally carrying a concealed handgun. To insure uniformity, no political subdivisions, boards, or agencies of the State nor any county, city, municipality, municipal corporation, town, township, village, nor any department or agency thereof, may enact ordinances, rules, or regulations concerning legally carrying a concealed handgun. A unit of local government may adopt an ordinance to permit the posting of a prohibition against carrying a concealed handgun, in accordance with G.S. 14-415.11(c), on local government buildings and their appurtenant premises.

(b) A unit of local government may adopt an ordinance to prohibit, by posting, the carrying of a concealed handgun on municipal and county recreational facilities that are specifically identified by the unit of local government. If a unit of local government adopts such an ordinance with regard to recreational facilities, then the concealed handgun permittee may, nevertheless, secure the handgun in a locked vehicle within the trunk, glove box, or other enclosed compartment or area within or on the motor vehicle.

(c) For purposes of this section, the term "recreational facilities" includes only the following: a playground, an athletic field, a swimming pool, and an athletic facility.

(2) A swimming pool, including any appurtenant facilities used for dressing, storage of personal items, or other uses relating to the swimming pool.

(3) A facility used for athletic events, including, but not limited to, a gymnasium.

(d) For the purposes of this section, the term "recreational facilities" does not include any greenway, designated biking or walking path, an area that is customarily used as a walkway or bike path although not specifically designated for such use, open areas or fields where athletic events may occur unless the area qualifies as an "athletic field" pursuant to subdivision (1) of subsection (c) of this section, and any other area that is not specifically described in subsection (c) of this section."

SECTION 7. G.S. 122C-54(d1) reads as rewritten:
"(d1) After a judicial determination that an individual shall be involuntarily committed for either inpatient or outpatient mental health treatment pursuant to Article 5 of this Chapter, the clerk of superior court in the county where the judicial determination was made shall, as soon as practicable, cause a report of the commitment to be transmitted to the National Instant Criminal Background Check System (NICS). Reporting of an individual involuntarily committed to outpatient mental health treatment under this subsection shall only be reported if the individual is found to be a danger to self or others. The clerk shall also cause to be transmitted to NICS a record where an individual is found not guilty by reason of insanity or found mentally incompetent to proceed to criminal trial. The clerk, upon receipt of documentation that an affected individual has received a relief from disabilities pursuant to G.S. 122C-54.1 or any applicable federal law, shall cause the individual's record in NICS to be updated. Excluding Saturdays, Sundays, and holidays, not later than 48 hours after receiving notice of any of the following judicial determinations or findings, the clerk of superior court in the county where the determination or finding was made shall cause a record of the determination or finding to be transmitted to the National Instant Criminal Background Check System (NICS):

(1) A determination that an individual shall be involuntarily committed to a facility for inpatient mental health treatment upon a finding that the individual is mentally ill and a danger to self or others.

(2) A determination that an individual shall be involuntarily committed to a facility for outpatient mental health treatment upon a finding that the individual is mentally ill and, based on the individual's treatment history, in need of treatment in order to prevent further disability or deterioration that would predictably result in a danger to self or others.

(3) A determination that an individual shall be involuntarily committed to a facility for substance abuse treatment upon a finding that the individual is a substance abuser and a danger to self or others.

(4) A finding that an individual is not guilty by reason of insanity.

(5) A finding that an individual is mentally incompetent to proceed to criminal trial.

(6) A finding that an individual lacks the capacity to manage the individual's own affairs due to marked subnormal intelligence or mental illness, incompetency, condition, or disease.

(7) A determination to grant a petition to an individual for the removal of disabilities pursuant to G.S. 122C-54.1 or any applicable federal law.

The 48-hour period for transmitting a record of a judicial determination or finding to the NICS under this subsection begins upon receipt by the clerk of a copy of the judicial determination or finding.

SECTION 8. The last two sentences of G.S. 122C-54(d1) are recodified as G.S. 122C-54(d2) and read as rewritten:

"(d2) The record of involuntary commitment for inpatient or outpatient mental health treatment or for substance abuse treatment required by subsection (d1) of this section shall be accessible only by an entity having proper access to NICS and shall remain otherwise confidential as provided by this Article. The clerk shall effect the transmissions to NICS required by the subsection according to protocols which shall be established by the Administrative Office of the Courts. The Administrative Office of the Courts shall adopt rules to require clerks of court to transmit information to the NICS as required by subsection (d1) of this section in a uniform manner."

SECTION 9. G.S. 122C-54.1 reads as rewritten:

"§ 122C-54.1. Restoration process to remove mental commitment bar.

(a) Any individual over the age of 18 may petition for the removal of the mental commitment bar to purchase, possess, or transfer a firearm when the individual no longer suffers from the condition that resulted in the individual's involuntary commitment for either
inpatient or outpatient mental health treatment pursuant to Article 5 of this Chapter and no longer poses a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12; disabilities pursuant to 18 U.S.C. § 922(d)(4) and (g)(4), G.S. 14-415.3, and G.S. 14-415.12 arising out of a determination or finding required to be transmitted to the National Instant Criminal Background Check System by subdivisions (1) through (6) of subsection (d1) of G.S. 122C-54.

The individual may file the petition with a district court judge upon the expiration of any current inpatient or outpatient commitment. No individual who has been found not guilty by reason of insanity may petition a court for restoration under this section.

(b) The petition must be filed in the district court of the county where the respondent was the subject of the most recent judicial determination or finding that either inpatient or outpatient treatment was appropriate or in the district court of the county of the petitioner's residence. An individual disqualified from firearms possession due to a comparable out-of-State mental commitment shall make application in the county of residence. The clerk of court upon receipt of the petition shall schedule a hearing using the regularly scheduled commitment court time and provide notice of the hearing to the petitioner and the district attorney, an attorney who represented the State in the underlying case, or that attorney's successor.

Copies of the petition must be served on the director of the relevant inpatient and outpatient treatment facility, in-State or out-of-State facility and the district attorney in the petitioner's current county of residence.

(c) The burden is on the petitioner to establish by a preponderance of the evidence that the petitioner no longer suffers from the condition that resulted in commitment and no longer poses a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12 will not be likely to act in a manner dangerous to public safety and that the granting of the relief would not be contrary to the public interest. The district attorney shall present any and all relevant information to the contrary. For these purposes, the district attorney may access and use any and all mental health records, juvenile records, and criminal history of the petitioner wherever maintained. The applicant must sign a release for the district attorney to receive any mental health records of the applicant. This hearing shall be closed to the public, unless the court finds that the public interest would be better served by conducting the hearing in public. If the court determines the hearing should be open to the public, upon motion by the petitioner, the court may allow for the in camera inspection of any mental health records. The court may allow the use of the record but shall restrict it from public disclosure, unless it finds that the public interest would be better served by making the record public. The district court shall enter an order that the petitioner does or does not continue to suffer from the condition that resulted in commitment and does or does not continue to pose a danger to self or others for purposes of the purchase, possession, or transfer of firearms pursuant to 18 U.S.C. § 922, G.S. 14-404, and G.S. 14-415.12 is or is not likely to act in a manner dangerous to public safety and that the granting of the relief would or would not be contrary to the public interest. The court shall include in its order the specific findings of fact on which it bases its decision. In making its determination, the court shall consider the circumstances regarding the firearm disabilities from which relief is sought, the petitioner's mental health and criminal history records, the petitioner's reputation, developed at a minimum through character witness statements, testimony, or other character evidence, and any changes in the petitioner's condition or circumstances since the original determination or finding relevant to the relief sought. The decision of the district court may be appealed to the superior court for a hearing de novo. After a denial by the superior court, the applicant must wait a minimum of one year before reapplying. Attorneys designated by the Attorney General shall be available to represent the State, or assist in the representation of the State, in a restoration proceeding when requested to do so by a district attorney and approved by the Attorney General. An attorney so designated shall have all the powers of the district attorney under this section.
(d) Upon a judicial determination to grant a petition under this section, the clerk of superior court in the county where the petition was granted shall forward the order to the National Instant Criminal Background Check System (NICS) for updating of the respondent's record."

SECTION 10. G.S. 14-415.3 is amended by adding a new subsection to read:

Within five days of the date a permit is issued, the sheriff shall send a copy of the permit to the State Bureau of Investigation. The State Bureau of Investigation shall make this information available to law enforcement officers and clerks of court on a statewide system.
(c) Except as provided otherwise by this subsection, the list of permit holders and the information collected by the sheriff to process an application for a permit are confidential and are not a public record under G.S. 132-1. The sheriff shall make the list of permit holders and the permit information available upon request to all State and local law enforcement agencies. (1) Verified, before the issuance of a permit, by a criminal history background investigation that it is not a violation of State or federal law for the applicant to purchase, transfer, receive, or possess a handgun. The sheriff shall determine the criminal and background history of any applicant by accessing computerized criminal history records as maintained by the State Bureau of Investigation and the Federal Bureau of Investigation, by conducting a national criminal history records check, by conducting a check through the National Instant Criminal Background Check System (NICS), and by conducting a criminal history check through the Administrative Office of the Courts.

An appeal from the refusal shall lie by way of petition to the chief judge of the district court for the district in which the application was filed. The determination by the court, on appeal, shall be upon the facts, the law, and the reasonableness of the sheriff's refusal, and shall be final.

(b1) The sheriff shall keep a list of all permit denials, with the specific reasons for the denials noted. The list shall not include any information that would identify the applicant whose application was denied. The list, as described in this subsection, shall be a public record, and the sheriff shall make the list available upon request to any member of the public.    c. Includes a finding that the person represents a credible threat to the physical safety of the intimate partner or child; or by its terms explicitly prohibits the use, attempted use, or threatened use of physical force against the intimate partner or child that would reasonably be expected to cause bodily injury.

(c1) Excluding Saturdays, Sundays, and holidays, not later than 48 hours after receiving notice of any of the judicial findings, court orders, or other factual matters, relevant to any of the disqualifying conditions specified in subsection (c) of this section, the clerk of superior court shall cause a record of the determination or finding to be transmitted to the National Instant Criminal Background Check System (NICS). The record shall include a reference to the relevant statutory provision of G.S. 14-404 that precludes the issuance of a permit. (g) An applicant shall not be ineligible to receive a permit under subdivision (c)(4) of this section because of involuntary commitment to mental health services if the individual's rights have been restored under G.S. 122C-54.1.

(h) The sheriff shall revoke any permit upon the occurrence of any event or condition subsequent to the issuance of the permit, or the applicant's subsequent inability to meet a requirement under this Article, which would have resulted in a denial of the application submitted to obtain the permit if the event, condition, or the applicant's current inability to meet a statutory requirement had existed at the time of the application and prior to the issuance of the permit. The following procedures apply to a revocation:
   (1) The sheriff shall provide written notice to the permittee, pursuant to the provisions of G.S. 1A-1, Rule 4(i), that the permit is revoked upon the

(2) Upon receipt of the written notice of revocation, the permittee shall surrender the permit to the sheriff. Any law enforcement officer serving the notice is authorized to take immediate possession of the permit from the permittee. If the notice is served by means other than by a law enforcement officer, the permittee shall surrender the permit to the sheriff no later than 48 hours after service of the notice.

(3) The sheriff shall insure that the list of permits which have been revoked is immediately updated so that any potential transferee calling to check the validity of the permit will be informed of the revocation.

(4) A permittee may appeal the revocation of a permit pursuant to this subsection by petitioning a district court judge of the district in which the permittee resides.

(5) Any person who willfully fails to surrender a permit upon notice of revocation shall be guilty of a Class 2 misdemeanor.

SECTION 17.2.(b) The Administrative Office of the Courts shall report to the Joint Legislative Oversight Committee on Justice and Public Safety by October 1, 2013, on the progress towards implementation of the requirement in G.S. 14-404(c1), as enacted by subsection (a) of this section, and with any recommendation for legislation relating to that requirement.

SECTION 17.2.(c) G.S. 14-404(c1), as enacted by subsection (a) of this section, becomes effective July 1, 2014. The remainder of G.S. 14-404, as enacted by subsection (a) of this section, becomes effective October 1, 2013. The remainder of this section is effective when it becomes law.

SECTION 17.3. In order to ensure the validity of existing and unexpired permits, no later than January 31, 2014, the sheriff shall determine whether any of these permits are subject to revocation pursuant to the standard set forth in G.S. 14-404(h). (a) The sheriff shall keep a book, to be provided by the board of commissioners of each county, in which he shall keep a record of all licenses or permits issued under this article, including the name, date, place of residence, age, former place of residence, etc., of each such person, firm, or corporation to whom or which a license or permit is issued. The record shall include the date that a permit was revoked, the date that the permittee received notice of the revocation, whether the permit was surrendered, and the reason for the revocation.

(b) The records maintained by the sheriff pursuant to this section are confidential and are not a public record under G.S. 132-1; provided, however, that the sheriff shall make the records available upon request to any federal, State, and local law enforcement agencies and shall also make the records available to the court if the records are required to be released pursuant to a court order. Any application to a court for release of the list of permit holders and permit application information shall be by a petition to the chief judge of the district court for the district in which the person seeking the information resides."

(1) "Convicted." – The person has been adjudged guilty of or has entered a plea of guilty or no contest to the firearm-related felony.

(2) "Firearm-related felony." – Any felony committed by a person in which the person used or displayed a firearm while committing the felony.

(3) "Status offender." – A person who is an armed habitual felon as described in G.S. 14-7.36.

1459
§ 14-7.36. Armed habitual felon.

Any person who has been convicted of or pled guilty to one or more prior firearm-related felony offenses in any federal court or state court in the United States, or combination thereof, is guilty of the status offense of armed habitual felon and may be charged with that status offense pursuant to this Article.

This Article does not apply to a second firearm-related felony unless it is committed after the conviction of a firearm-related felony in which evidence of the person’s use, display, or threatened use or display of a firearm was needed to prove an element of the felony or was needed to establish the requirement for an enhanced or aggravated sentence. For purposes of this Article, firearm-related felonies committed before the person is 18 years of age shall not constitute more than one firearm-related felony. Any firearm-related felony to which a pardon has been extended shall not, for the purposes of this Article, constitute a firearm-related felony.

§ 14-7.37. Punishment.

When any person is charged with a firearm-related felony and is also charged with being a status offender, the person must, upon conviction, be sentenced and punished as a status offender as provided by this Article.

§ 14-7.38. Charge of status offense as an armed habitual felon.

(a) The district attorney, in the district attorney’s discretion, may charge a person as a status offender pursuant to this Article. To sustain a conviction of a person as a status offender, the person must be charged separately for the principal firearm-related felony and for the status offense of armed habitual felon. The indictment charging the defendant as a status offender shall be separate from the indictment charging the person with the principal firearm-related felony.

(b) An indictment that charges a person with being a status offender must set forth all of the following information regarding the prior firearm-related felony:

(1) The date the offense was committed.
(2) The name of the state or other sovereign against whom the offense was committed.
(3) The dates that the plea of guilty was entered into or conviction returned in the offense.
(4) The identity of the court in which the plea or conviction took place.

(c) No defendant charged with being a status offender in a bill of indictment shall be required to go to trial on the charge within 20 days of the finding of a true bill by the grand jury; provided, the defendant may waive this 20-day period.

In all cases in which a person is charged under the provisions of this Article with being a status offender, the record of prior conviction of the firearm-related felony shall be admissible in evidence, but only for the purpose of proving that the person has been convicted of a former firearm-related felony. A prior conviction may be proved by stipulation of the parties or by the original or a certified copy of the court record of the prior conviction. The original or certified copy of the court record, bearing the same name as that by which the defendant is charged, shall be prima facie evidence that the defendant named therein is the same as the defendant before the court and shall be prima facie evidence of the facts set out therein.

§ 14-7.40. Verdict and judgment.

(a) When an indictment charges a person with a firearm-related felony as provided by this Article and an indictment also charges that the person is a status offender, the defendant shall be tried for the principal firearm-related felony as provided by law. The indictment that the person is a status offender shall not be revealed to the jury unless the jury shall find that the defendant is guilty of the principal firearm-related felony with which the defendant is charged.

(b) If the jury finds the defendant guilty of the principal firearm-related felony, and it is found as provided in this section that (i) the person committed the felony by using, displaying, or threatening the use or display of a firearm or deadly weapon and (ii) the person actually possessed the firearm or deadly weapon about his or her person, the bill of indictment charging
the defendant as a status offender may be presented to the same jury. Except that the same jury may be used, the proceedings shall be as if the issue of status offender were a principal charge.

(c) If the jury finds that the defendant is a status offender, the trial judge shall enter judgment according to the provisions of this Article. If the jury finds that the defendant is not a status offender, the trial judge shall pronounce judgment on the principal firearm-related felony offense as provided by law.

"§ 14-7.41. Sentence of armed habitual felon.
(a) A person who is convicted of a firearm-related felony and is also convicted of the status offense must, upon conviction or plea of guilty under indictment as provided in this Article, be sentenced as a Class C felon (except where the felon has been sentenced as a Class A, B1, or B2 felon). However, in no case shall the person receive a minimum term of imprisonment of less than 120 months. The court may not suspend the sentence and may not place the person sentenced on probation.

(b) In determining the prior record level, any conviction used to establish a person's status as an armed habitual felon shall not be used. Sentences imposed under this Article shall run consecutively with and shall commence at the expiration of any sentence being served by the person sentenced under this section.

(c) A conviction as a status offender under this Article shall not constitute commission of a felony for the purpose of either Article 2A or Article 2B of Chapter 14 of the General Statutes.

(d) A sentence imposed under this Article may not be enhanced pursuant to G.S. 15A-1340.16A."

AN ACT TO RECODIFY AND AMEND THE EXISTING LAW ENACTED TO ASSIST OWNERS IN RECOVERING LOST PETS, RELIEVE OVERCROWDING AT ANIMAL SHELTERS, FACILITATE ADOPTIONS FROM ANIMAL SHELTERS, AND TO PROVIDE FOR IMPROVED ENFORCEMENT OF THAT LAW BY MAKING IT PART OF THE ANIMAL WELFARE ACT; AND TO ESTABLISH A CAP ON THE REIMBURSEMENT AMOUNT AVAILABLE FROM THE SPAY/NEUTER PROGRAM; AND TO PROVIDE FOR THE PROTECTION OF ANIMALS CONFINED IN MOTOR VEHICLES UNDER CIRCUMSTANCES THAT THREATEN THE ANIMALS' HEALTH.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 19A-23 is amended by redesignating subdivision (5a) as subdivision (5c) and by adding two new subdivisions to read:

"(5a) "Approved foster care provider" means an individual, nonprofit corporation, or association that cares for stray animals that has been favorably assessed by the operator of the animal shelter through the application of written standards."
"Approved rescue organization" means a nonprofit corporation or association that cares for stray animals that has been favorably assessed by the operator of the animal shelter through the application of written standards.

SECTION 2. Chapter 19A of the General Statutes is amended by adding a new section to read:

§ 19A-32.1. Minimum holding period for animals in animal shelters; public viewing of animals in animal shelters; disposition of animals.

(a) Except as otherwise provided in this section, all animals received by an animal shelter or by an agent of an animal shelter shall be held for a minimum holding period of 72 hours, or for any longer minimum period established by a board of county commissioners, prior to being euthanized or otherwise disposed of.

(b) Before an animal may be euthanized or otherwise disposed of, it shall be made available for adoption under procedures that enable members of the public to inspect the animal, except in the following cases:

1. The animal has been found by the operator of the shelter to be unadoptable due to injury or defects of health or temperament.

2. The animal is seriously ill or injured, in which case the animal may be euthanized before the expiration of the minimum holding period if the manager of the animal shelter determines, in writing, that it is appropriate to do so. The writing shall include the reason for the determination.

3. The animal is being held as evidence in a pending criminal case.

(c) Except as otherwise provided in this subsection, a person who comes to an animal shelter attempting to locate a lost pet is entitled to view every animal held at the shelter, subject to rules providing for such viewing during at least four hours a day, three days a week. If the shelter is housing animals that must be kept apart from the general public for health reasons, public safety concerns, or in order to preserve evidence for criminal proceedings, the shelter shall make reasonable arrangements that allow pet owners to determine whether their lost pets are among those animals.

(d) During the minimum holding period, an animal shelter may place an animal it is holding into foster care by transferring possession of the animal to an approved foster care provider, an approved rescue organization, or the person who found the animal. If an animal shelter transfers possession of an animal under this subsection, at least one photograph depicting the head and face of the animal shall be displayed at the shelter in a conspicuous location that is available to the general public during hours of operation, and that photograph shall remain posted until the animal is disposed of as provided in subsection (f) of this section.

(e) If a shelter places an animal in foster care, the shelter may, in writing, appoint the person or organization possessing the animal to be an agent of the shelter. After the expiration of the minimum holding period, the shelter may (i) direct the agent possessing the animal to return it to the shelter, (ii) allow the agent to adopt the animal consistent with the shelter's adoption policies, or (iii) extend the period of time that the agent holds the animal on behalf of the shelter. A shelter may terminate an agency created under this subsection at any time by directing the agent to deliver the animal to the shelter. The local government or organization operating the shelter, as principal in the agency relationship, shall not be liable to reimburse the agent for the costs of care of the animal and shall not be liable to the owner of the animal for harm to the animal caused by the agent, absent a written contract providing otherwise.

(f) An animal that is surrendered to an animal shelter by the animal's owner and not reclaimed by that owner during the minimum holding period may be disposed of in one of the following manners:

1. Returned to the owner.

2. Adopted as a pet by a new owner.

3. Euthanized by a procedure approved by rules adopted by the Department of Agriculture and Consumer Services or, in the absence of such rules, by a
procedure approved by the American Veterinary Medical Association, the Humane Society of the United States, or the American Humane Association.

(g) An animal that is surrendered to an animal shelter by the animal's owner may be disposed of before the expiration of the minimum holding period in a manner authorized under subsection (f) of this section if the owner provides to the shelter (i) some proof of ownership of the animal and (ii) a signed written consent to the disposition of the animal before the expiration of the minimum holding period.

(h) If the owner of a dog surrenders the dog to an animal shelter, the owner shall state in writing whether the dog has bitten any individual within the 10 days preceding the date of surrender.

(i) An animal shelter shall require every person to whom an animal is released to present one of the following valid forms of government-issued photographic identification: (i) a driver's license, (ii) a special identification card issued under G.S. 20-37.7, (iii) a military identification card, or (iv) a passport. Upon presentation of the required photographic identification, the shelter shall document the name of the person, the type of photographic identification presented by the person, and the photographic identification number.

(j) Animal shelters shall maintain a record of all animals impounded at the shelter, shall retain those records for a period of at least three years from the date of impoundment, and shall make those records available for inspection during regular inspections pursuant to this Article or upon the request of a representative of the Animal Welfare Section. These records shall contain, at a minimum:

1. The date of impoundment.
2. The length of impoundment.
3. The disposition of each animal, including the name and address of any person to whom the animal is released, any institution that person represents, and the identifying information required under subsection (i) of this section.
4. Other information required by rules adopted by the Board of Agriculture.

SECTION 3. G.S. 130A-192 reads as rewritten:

"§ 130A-192. Animals not wearing required rabies vaccination tags.

(a) The Animal Control Officer shall canvass the county to determine if there are any animals not wearing the required rabies vaccination tag. If an animal required to wear a tag is found not wearing one, the Animal Control Officer shall check to see if the owner's identification can be found on the animal. If the animal is wearing an owner identification tag with information enabling the owner of the animal to be contacted, or if the Animal Control Officer otherwise knows who the owner is, the Animal Control Officer shall notify the owner in writing to have the animal vaccinated against rabies and to produce the required rabies vaccination certificate to the Animal Control Officer within three days of the notification. If the animal is not wearing an owner identification tag and the Animal Control Officer does not otherwise know who the owner is, the Animal Control Officer may impound the animal. The duration of the impoundment of these animals shall be established by the county board of commissioners, but the duration shall not be less than 72 hours. During the impoundment period, the Animal Control Officer shall make a reasonable effort to locate the owner of the animal. If the Animal Control Officer has access at no cost or at a reasonable cost to a microchip scanning device, the Animal Control Officer may scan the animal and utilize any information that may be available through a microchip to locate the owner of the animal, if possible. If the animal is not reclaimed by its owner during the impoundment period, the animal shall be disposed of in one of the following manners: returned to the owner; adopted as a pet by a new owner; sold to institutions within this State registered by the United States Department of Agriculture pursuant to the Federal Animal Welfare Act, as amended; or put to death by a procedure approved by rules adopted by the Department of Agriculture and Consumer Services or, in the absence of such rules, by a procedure approved by the American Veterinary Medical Association, the Humane Society of the United States or of the American Humane Association.
(a1) Before an animal may be put to death, it shall be made available for adoption, under procedures that enable members of the public to inspect the animal, except in cases in which the animal is found by the operator of the shelter to be unadoptable due to injury or defects of health or temperament. An animal that is seriously ill or injured may be euthanized if the manager of the animal shelter determines, in writing, that it is appropriate to do so. Nothing in this subsection shall supersede (i) any rules adopted by the Board of Agriculture which specify the number of animals allowed for kennel space in animal shelters, or (ii) the duration of impoundment established by the county board of commissioners, or the 72-hour holding period, as provided in subsection (a) of this section, as provided in G.S. 19A-32.1.

(a2) Except as otherwise provided in this subsection, a person who comes to an animal shelter attempting to locate a lost pet is entitled to view every animal held at the shelter, subject to rules providing for such viewing during at least four hours a day, three days a week. If the shelter is housing animals that must be kept apart from the public for health reasons, public safety concerns, or in order to preserve evidence for criminal proceedings, the shelter shall make reasonable arrangements that allow pet owners to determine whether their lost pets are among those animals.

(a3) The Animal Control Officer shall maintain a record of all animals impounded under this section which shall include the date of impoundment, the length of impoundment, the method of disposal of the animal and the name of the person or institution to whom any animal has been released.

(b) In addition to domesticated dogs and cats not wearing the required rabies tags, the provisions of subsection (a) of this section concerning the holding of animals for at least 72 hours and the permissible means of disposition of animals after expiration of that holding period also apply to all of the following:

(1) Dogs and cats that are wearing rabies tags but are taken into custody for violation of statutes or ordinances not related to rabies control, such as ordinances requiring the leashing or restraining of dogs and cats.

(2) Dogs and cats surrendered to an animal shelter by the owners of the animals, unless an owner provides to the shelter the following:
   a. Some proof of ownership of the animal, and
   b. A signed written consent to the disposition of the animal, in a manner authorized by this section, before the expiration of the 72-hour holding period or of a longer period established by ordinance or local rule to which the shelter is subject.

(c) If an animal is not wearing tags, or other mode of identification indicating its owner, and is delivered to an animal shelter by (i) a person who has found and captured the animal, or (ii) by an approved rescue organization that received the animal from a person who found and captured the animal, then the shelter may, in writing, appoint the finder or approved rescue organization to be the agent of the shelter. For purposes of this subsection, the term “approved rescue organization” means a nonprofit corporation or association that cares for stray animals that has been favorably assessed by the operator of the animal shelter through the application of written standards.

(1) If the animal is a dog or cat, the finder or approved rescue organization shall hold the animal for the 72-hour holding period provided for in subsection (a) of this section or such longer holding period that may be applicable to the shelter by ordinance or local rule. If the animal is not a dog or cat, then the holding period shall be by agreement between the animal shelter and the person or organization receiving the animal.

(2) After the expiration of the applicable holding period, the shelter may:
   a. Transfer the animal by adoption to the person or organization that has held it as agent, or
   b. Extend the period of time the finder or rescue organization holds the animal as agent of the shelter.
A shelter may terminate an agency created under this subsection at any time by directing the finder or rescue organization to deliver the animal to the shelter.

The city, county, or organization operating the animal shelter, as principal in the agency relationship, shall not be liable to reimburse the agent for the costs of care of the animal and shall not be liable to the owner of the animal for harm to the animal caused by the agent, absent a written contract providing otherwise.

During the 72-hour or longer holding period established under subsection (a) of this section, an animal shelter may place an animal it is holding in foster care.

If an animal shelter transfers physical possession of a dog or cat under subsection (c) or (d) of this section, so that the animal is no longer on the animal shelter premises, at least one photograph which depicts the head and face of the animal shall (i) be displayed at the shelter in a conspicuous location that is available to the general public during hours of operation, and (ii) remain posted for the 72-hour or longer holding period established under subsection (a) of this section.”

PART I. CHANGES TO LAWS PERTAINING TO CHILD ABUSE, NEGLECT, AND DEPENDENCY

SECTION 1. G.S. 7B-507 reads as rewritten:

"§ 7B-507. Reasonable efforts.
(a) An order placing or continuing the placement of a juvenile in the custody or placement responsibility of a county department of social services, whether an order for continued nonsecure custody, a dispositional order, or a review order:

(1) Shall contain a finding that the juvenile's continuation in or return to the juvenile's own home would be contrary to the juvenile's best interest;

(2) Shall contain specific findings as to whether a county department of social services has made reasonable efforts to either prevent the need for placement or eliminate the need for placement of the juvenile, unless the court has previously determined under subsection (b) of this section that such efforts are not required or shall cease;

(3) Shall contain findings as to whether a county department of social services should continue to make reasonable efforts to prevent or eliminate the need for placement of the juvenile, unless the court has previously determined or determines under subsection (b) of this section that such efforts are not required or shall cease;

(4) Shall specify that the juvenile's placement and care are the responsibility of the county department of social services and that the department is to provide or arrange for the foster care or other placement of the juvenile. After considering the department's recommendations, the court may order a specific placement the court finds to be in the juvenile's best interest; and

(5) May provide for services or other efforts aimed at returning the juvenile to a safe home or at achieving another permanent plan for the juvenile.

A finding that reasonable efforts have not been made by a county department of social services shall not preclude the entry of an order authorizing the juvenile's placement when the court finds that placement is necessary for the protection of the juvenile. Where efforts to prevent the need for the juvenile's placement were precluded by an immediate threat of harm to the juvenile, the court may find that the placement of the juvenile in the absence of such efforts was reasonable.

(b) In any order placing a juvenile in the custody or placement responsibility of a county department of social services, whether an order for continued nonsecure custody, a dispositional order, or a review order, the court may direct that reasonable efforts to eliminate the need for placement of the juvenile shall not be required or shall cease if the court makes written findings of fact that:

(1) Such efforts clearly would be futile or would be inconsistent with the juvenile's health, safety, and need for a safe, permanent home within a reasonable period of time;

(2) A court of competent jurisdiction has determined that the parent has subjected the child to aggravated circumstances as defined in G.S. 7B-101;

(3) A court of competent jurisdiction has terminated involuntarily the parental rights of the parent to another child of the parent; or
(4) A court of competent jurisdiction has determined that: the parent has committed murder or voluntary manslaughter of another child of the parent; has aided, abetted, attempted, conspired, or solicited to commit murder or voluntary manslaughter of the child or another child of the parent; or has committed a felony assault resulting in serious bodily injury to the child or another child of the parent; has committed sexual abuse against the child or another child of the parent; or has been required to register as a sex offender on any government-administered registry.

(c) When the court determines that reunification efforts are not required or shall cease, the court shall order a plan for permanence as soon as possible, after providing each party with a reasonable opportunity to prepare and present evidence. If the court’s determination to cease reunification efforts is made in a hearing that was duly and timely noticed as a permanency planning hearing, then the court may immediately proceed to consider all of the criteria contained in G.S. 7B-907(b), make findings of fact, and set forth the best plan of care to achieve a safe, permanent home within a reasonable period of time. If the court’s decision to cease reunification efforts arises in any other hearing, the court shall schedule a subsequent hearing within 30 days to address the permanent plan in accordance with G.S. 7B-907. At any hearing at which the court orders that reunification efforts shall cease, the affected parent, guardian, or custodian may give notice to preserve the right to appeal that order in accordance with G.S. 7B-1001. The party giving notice shall be permitted to make a detailed offer of proof as to any evidence that party sought to offer in opposition to cessation of reunification that the court refused to admit.

(d) In determining reasonable efforts to be made with respect to a juvenile and in making such reasonable efforts, the juvenile's health and safety shall be the paramount concern. Reasonable efforts to preserve or reunify families may be made concurrently with efforts to plan for the juvenile's adoption, to place the juvenile with a legal guardian, or to place the juvenile in another permanent arrangement.

PART II. CHANGES TO LAWS PERTAINING TO MEDICAID

SECTION 2. G.S. 108A-70.5(b)(2) reads as rewritten:
"(2) Estate. – All the real and personal property considered assets of the estate available for the discharge of debt pursuant to G.S. 28A-15-1. The Department has all rights available to estate creditors, including the right to qualify as personal representative or collector of an estate. (1) The responsible party and the entity conducting the audit have entered into a contract that explicitly states the percentage charge or assessment to the responsible party.

(2) A commission or other payment to an agent or employee of the entity conducting the audit is not based, directly or indirectly, on amounts recouped."

That person shall not write, type, or print any other matter upon the ballots transmitted to the absentee voter. (3) The chair, member, officer, or employee of the board of elections shall then place the unsealed container-return envelope holding the ballots together with printed instructions for voting and returning the ballots, in an envelope addressed to the voter at the post office address stated in the request, seal the envelope, and mail it at the expense of the county board of elections: Provided, that in case of a request received after 5:00 p.m. on the Tuesday before the election under the provisions of subsection (a1) of this section, in lieu of transmitting the ballots to the voter in person or by mail, the chair, member, officer, or employee of the board of elections may deliver the sealed envelope containing the instruction sheet and the container-return envelope holding the ballots to a near relative or verifiable legal guardian of the voter.

The chair of each political party in the county shall have the right to designate 10 additional at-large observers who are residents of that county who may attend any voting place in that county. The list submitted by the chair of the political party may be amended between the one-stop period under G.S. 163-227.2 and general election day to substitute one or all at-large observers for election day. Not more than two observers from the same political party shall be permitted in the voting enclosure at any time, except that in addition one of the at-large observers from each party may also be in the voting enclosure. This right shall not extend to the chair of a political party during a primary unless that party is participating in the primary. In any election in which an unaffiliated candidate is named on the ballot, the candidate or the candidate's campaign manager shall have the right to appoint two observers for each voting place consistent with the provisions specified herein. Persons appointed as observers must be registered voters of the county for which appointed and must have good moral character. No person who is a candidate on the ballot in a primary or election may serve as an observer or runner in that primary or election. Observers shall take no oath of office.

(b) Individuals authorized to appoint observers must submit in writing to the chief judge of each precinct a signed list of the observers appointed for that precinct, except that the list of at-large observers authorized in subsection (a) of this section shall be submitted to the county director of elections. Individuals authorized to appoint observers must, prior to 10:00 A.M. on the fifth day prior to any primary or general election, submit in writing to the chair of the county board of elections two signed copies of a list of observers appointed by them, designating the precinct or at-large status for which each observer is appointed. Before the opening of the voting place on the day of a primary or general election, the chair shall deliver
one copy of the list to the chief judge for each affected precinct, except that the list of at-large observers shall be provided by the county director of elections to the chief judge. The chair shall retain the other copy. The chair, or the chief judge and judges for each affected precinct, may for good cause reject any appointee and require that another be appointed. The names of any persons appointed in place of those persons rejected shall be furnished in writing to the chief judge of each affected precinct no later than the time for opening the voting place on the day of any primary or general election, either by the chair of the county board of elections or the person making the substitute appointment.

If party chairs appoint observers at one-stop sites under G.S. 163-227.2, those party chairs shall provide a list of the observers appointed before 10:00 A.M. on the fifth day before the observer is to observe. At-large observers may serve at any one-stop site.

(c) An observer shall do no electioneering at the voting place, and shall in no manner impede the voting process or interfere or communicate with or observe any voter in casting a ballot, but, subject to these restrictions, the chief judge and judges of elections shall permit the observer to make such observation and take such notes as the observer may desire.

(d) Whether or not the observer attends to the polls for the requisite time provided by this section, each observer shall be entitled to obtain at times specified by the State Board of Elections, but not less than three times during election day with the spacing not less than one hour apart, a list of the persons who have voted in the precinct so far in that election day. Counties that use an "authorization to vote document" instead of poll books may comply with the requirement in the previous sentence by permitting each observer to inspect election records so that the observer may create a list of persons who have voted in the precinct so far that election day; each observer shall be entitled to make the inspection at times specified by the State Board of Elections, but not less than three times during election day with the spacing not less than one hour apart.

Instead of having an observer receive the voting list, the county party chair may send a runner to do so, even if an observer has not been appointed for that precinct. The runner may be the precinct party chair or any person named by the county party chair. Each county party chair using runners in an election shall provide to the county board of elections before 10:00 A.M. on the fifth day before election day a list of the runners to be used. That party chair must notify the chair of the county board of elections or the board chair's designee of the names of all runners to be used in each precinct before the runner goes to the precinct. The runner may receive a voter list from the precinct on the same schedule as an observer. Whether obtained by observer or runner, each party is entitled to only one voter list at each of the scheduled times. No runner may enter the voting enclosure except when necessary to announce that runner's presence and to receive the list. The runner must leave immediately after being provided with the list.

SECTION 11.2. The Joint Legislative Elections Oversight Committee shall study a bill of rights for election observers to guarantee their right to help assist proper voting while ensuring proper protection for voters and recommend to the General Assembly any legislation it deems advisable. It may make an interim report prior to the date that the General Assembly reconvenes the 2013 Regular Session in 2014 and shall make a final report before the convening of the 2015 Regular Session of the General Assembly.

The person taking the application shall ask if the applicant is a citizen of the United States. If the applicant states that the applicant is not a citizen of the United States, or declines to answer the question, the person taking the application shall inform the applicant that it is a felony for a person who is not a citizen of the United States to apply to register to vote. Any person who willfully and knowingly and with fraudulent intent gives false information on the application is guilty of a Class I felony. The application shall state in clear language the penalty for violation of this section. The necessary forms shall be prescribed by the State Board of Elections. The form must ask for the previous voter registration address of the voter, if any. If a previous address is listed, and it is not in the county of residence of the applicant, the appropriate county board of elections shall treat the application as an authorization to cancel the previous registration and also process it as such under the procedures of G.S. 163-82.9. If a previous address is listed and that address is in the county where the voter applies to register, the application shall be processed as if it had been submitted under G.S. 163-82.9.

Applications to register to vote accepted at a drivers license office under this section until the deadline established in G.S. 163-82.6(c)(2) shall be treated as timely made for an election, and no person who completes an application at that drivers license office shall be denied the vote in that election for failure to apply earlier than that deadline.

All applications shall be forwarded by the Department of Transportation to the appropriate board of elections not later than five business days after the date of acceptance, according to rules which shall be promulgated by the State Board of Elections. (2) Display any such political preference or party allegiance;

(3) Make any statement to an applicant or take any action the purpose or effect of which is to discourage the applicant from registering or preregistering to vote; or

(i) Ineligible Applications Prohibited. – No person shall make application to register or preregister to vote under this section if that person is ineligible on account of age, citizenship, lack of residence for the period of time provided by law, or because of conviction of a felony.

Any data sharing agreement shall require the other state or states to comply with G.S. 163-82.10 and G.S. 163-82.10B. Each county board of elections shall conduct systematic efforts to remove names from its list of registered voters in accordance with this section and with the program adopted by the State Board. The county boards of elections shall complete their list maintenance mailing program by April 15 of every odd-numbered year, unless the State Board of Elections approves a different date for the county."

The chief judge, judge, or assistant appointed under G.S. 163-41 or 163-42 may enter challenges under this section against voters in the precinct for which appointed regardless of the place of residence of the chief judge, judge, or assistant.

If a person is challenged under this subsection, and the challenge is sustained under G.S. 163-85(c)(3), the voter may still transfer his registration under G.S. 163-82.15(e) if

with which he affiliates may, in lieu of payment of any filing fee required for the office he
seeks, file a written petition requesting him to be a candidate for a specified office with the
appropriate board of elections, State, county or municipal.
(b) If the candidate is seeking the office of United States Senator, Governor, Lieutenant
Governor, or any State executive officer, the petition must be signed by 10,000 registered
voters who are members of the political party in whose primary the candidate desires to run,
except that in the case of a political party as defined by G.S. 163-96(a)(2) which will be making
nominations by primary election, the petition must be signed by ten percent (10%) five percent
(5%) of the registered voters of the State who are affiliated with the same political party in
whose primary the candidate desires to run, or in the alternative, the petition shall be signed by
no less than 10,000 8,000 registered voters regardless of the voter's political party affiliation,
whichever requirement is greater. The petition must be filed with the State Board of Elections
not later than 12:00 noon on Monday preceding the filing deadline before the primary in which
he seeks to run. The names on the petition shall be verified by the board of elections of the
county where the signer is registered, and the petition must be presented to the county board of
elections at least 15 days before the petition is due to be filed with the State Board of Elections.
When a proper petition has been filed, the candidate's name shall be printed on the primary
ballot.
(c) County, Municipal and District Primaries. – If the candidate is seeking one of the
offices set forth in G.S. 163-106(c) but which is not listed in subsection (b) of this section, or a

whose primary the candidate desires to run, or in the alternative, the petition shall be signed by
no less than 200 registered voters regardless of said voter's political party affiliation, whichever
requirement is greater. The board of elections shall verify the names on the petition, and if the petition is found to be sufficient, the candidate's name shall be printed on the appropriate ballot. Petitions for candidates for member of the U.S. House of Representatives, District Attorney, and members of the State House of Representatives from multi-county districts or members of the State Senate from multi-county districts must be presented to the county board of elections for verification at least 15 days before the petition is due to be filed with the State Board of Elections, and such petition must be filed with the State Board of Elections no later than 12:00 noon on Monday preceding the filing deadline. The State Board of Elections may adopt rules to implement this section and to provide standard petition forms.

(d) Nonpartisan Primaries and Elections. – Any qualified voter who seeks to be a candidate in any nonpartisan primary or election may, in lieu of payment of the filing fee required, file a written petition signed by ten percent (10%) five percent (5%) of the registered voters in the election area in which the office will be voted for with the appropriate board of elections. Any qualified voter may sign the petition. The petition shall state the candidate's name, address and the office which he is seeking. The petition must be filed with the appropriate board of elections no later than 60 days prior to the filing deadline for the primary or election, and if found to be sufficient, the candidate's name shall be printed on the ballot.

If the office is superior court or district court judge, the petition shall be signed by ten percent (10%) five percent (5%) of the registered voters of the election area in which the office will be voted for. The board of elections shall verify the names on the petition, and if the petition and notice of candidacy are found to be sufficient, the candidate's name shall be printed on the appropriate ballot. Petitions must be presented to the county board of elections for verification at least 15 days before the petition is due to be filed with the State Board of Elections. The State Board of Elections may adopt rules to implement this section and to provide standard petition forms."

PART 23. TIMELY WITHDRAWAL OF PARTY NOMINEE

SECTION 23.1. G.S. 163-113 reads as rewritten:

"§ 163-113. Nominee's right to withdraw as candidate.
A person who has been declared the nominee of a political party for a specified office under the provisions of G.S. 163-182.15 or G.S. 163-110, shall not be permitted to resign as a candidate unless, at least 30 days before the general election, prior to the first day on which military and overseas absentee ballots are transmitted to voters under Article 21A of this Chapter, he that person submits to the board of elections which certified his the nomination a written request that he person be permitted to withdraw."

PART 24. BETTER MANAGE PRECINCT SIZES

SECTION 24.1. The Joint Legislative Elections Oversight Committee shall study optimal numbers of voters in election precincts so as to reduce overcrowding and long lines and recommend to the General Assembly any legislation it deems advisable. The study shall also examine the size of the polling place itself, its accessibility, and parking availability. It may make an interim report prior to the date that the General Assembly reconvenes the 2013 Regular Session in 2014, and shall make a final report before the convening of the 2015 Regular Session of the General Assembly.

PART 25. EARLY VOTING SITES WITHIN A COUNTY

SECTION 25.1. G.S. 163-227.2(b) and (g) read as rewritten:
§ 163-227.2. Alternate procedures for requesting application for absentee ballot; "one-stop" voting procedure in board office.

... (b) Not earlier than the third second Thursday before an election, in which absentee ballots are authorized, in which a voter seeks to vote and not later than 1:00 P.M. on the last Saturday before that election, the voter shall appear in person only at the office of the county board of elections, provided in subsection (g) of this section. A county board of elections shall conduct one-stop voting on the last Saturday before the election until 1:00 P.M. and may conduct it until 5:00 P.M. on that Saturday. That voter shall enter the voting enclosure at the board office through the appropriate entrance and shall at once state his or her name and place of residence to an authorized member or employee of the board. In a primary election, the voter shall also state the political party with which the voter affiliates and in whose primary the voter desires to vote, or if the voter is an unaffiliated voter permitted to vote in the primary of a particular party under G.S. 163-119, the voter shall state the name of the authorizing political party in whose primary he wishes to vote. The board member or employee to whom the voter gives this information shall announce the name and residence of the voter in a distinct tone of voice. After examining the registration records, an employee of the board shall state whether the person seeking to vote is duly registered. If the voter is found to be registered that voter may request that the authorized member or employee of the board furnish the voter with an application form as specified in G.S. 163-227. The voter shall complete the application in the presence of the authorized member or employee of the board, and shall deliver the application to that person.

... (g) Notwithstanding any other provision of this section, a county board of elections by unanimous vote of all its members may provide for one or more sites in that county for absentee ballots to be applied for and cast under this section. Every individual staffing any of those sites shall be a member or full-time employee of the county board of elections or an employee of the county board of elections whom the board has given training equivalent to that given a full-time employee. Those sites must be approved by the State Board of Elections as part of a Plan for Implementation approved by both the county board of elections and by the State Board of Elections which shall also provide adequate security of the ballots and provisions to avoid allowing persons to vote who have already voted. The Plan for Implementation shall include a provision for the presence of political party observers at each one-stop site equivalent to the provisions in G.S. 163-45 for party observers at voting places on election day. A county board of elections may propose in its Plan not to offer one-stop voting at the county board of elections office; the State Board may approve that proposal in a Plan only if the Plan includes at least one site reasonably proximate to the county board of elections office and the State Board finds that the sites in the Plan as a whole provide adequate coverage of the county's electorate. If a county board of elections has considered a proposed Plan or Plans for Implementation and has been unable to reach unanimity in favor of a Plan, a member or members of that county board of elections may petition the State Board of Elections to adopt a plan for it. If petitioned, the State Board may also receive and consider alternative petitions from another member or members of that county board. The State Board of Elections may adopt a Plan for that county. The State Board, in that plan, shall take into consideration factors including geographic, demographic, and partisan interests of that county. Any plan adopted by either the county board of elections or the State Board of Elections under this subsection shall provide for the same days of operation and same number of hours of operation on each day for all sites in that county for that election. The requirement of the previous sentence does not apply to the county board of elections office itself nor, if one-stop voting is not conducted at the county board of elections office, to the reasonably proximate alternate site approved under this subsection."

SECTION 25.2. G.S. 163-227.2 is amended by adding a new subsection to read:
"(g2) Notwithstanding the requirements of subsection (g) and (g1) of this section, for any county board of elections that provided for one or more sites as provided in subsection (g) of this section during the 2010 or 2012 general election, that county shall provide, at a minimum, the following:

"(1) The county board of elections shall calculate the cumulative total number of scheduled voting hours at all sites during the 2012 primary and general elections, respectively, that the county provided for absentee ballots to be applied for and voted under this section. For elections which include a presidential candidate on the ballot, the county shall ensure that at least the same number of hours offered in 2012 is offered for absentee ballots to be applied for and voted under this section through a combination of hours and numbers of one-stop sites during the primary or general election, correspondingly.

(2) The county board of elections shall calculate the cumulative total number of scheduled voting hours at all sites during the 2010 primary and general elections, respectively, that the county provided for absentee ballots to be applied for and voted under this section. For elections which do not include a presidential candidate on the ballot, the county shall ensure that at least the same number of hours offered in 2010 is offered for absentee ballots to be applied for and voted under this section through a combination of hours and numbers of one-stop sites during the primary or general election, correspondingly.

The State Board of Elections, to ensure compliance with this subsection, may approve a one-stop site in a building that the county board of elections is not entitled under G.S. 163-129 to demand and use as an election-day voting place, but may deny approval if a member of that board presents evidence that other equally suitable sites were available and the use of the sites chosen would unfairly advantage or disadvantage geographic, demographic, or partisan interests of that county.

SECTION 25.3. G.S. 163-227.2 is amended by adding a new subsection to read:

"(g3) A county board of elections by unanimous vote of the board, with all members present and voting, may submit a request to the State Board to reduce the number of hours established in subsection (g2) of this section for a primary or a general election. The reduction shall take effect for that primary or general election only if approved by unanimous vote of the State Board with all members present and voting."

PART 26. STANDARDIZE SATELLITE POLLING PLACE APPROVAL

SECTION 26.1.(a) G.S. 163-130 reads as rewritten:

"§ 163-130. Satellite voting places.

A county board of elections by unanimous vote may, upon approval of a request submitted in writing to the State Board of Elections, establish a plan whereby elderly or disabled voters in a precinct may vote at designated sites within the precinct other than the regular voting place for that precinct. Any approval under this section is only effective for one year and shall be annually reviewed for extension. The State Board of Elections shall approve a county board's proposed plan if:

(1) All the satellite voting places to be used are listed in the county's written request;
(2) The plan will in the State Board's judgment overcome a barrier to voting by the elderly or disabled;
(3) Adequate security against fraud is provided for; and
(4) The plan does not unfairly favor or disfavor voters with regard to race or party affiliation."
SECTION 26.1.(b). This section becomes effective January 1, 2014. All plans approved under G.S. 163-130 prior to that date shall be reviewed and adopted in accordance with G.S. 163-130, as amended by this section.

PART 27. DELETE REFERENCE TO PRECINCT BOUNDARIES AFTER THE 2000 CENSUS

SECTION 27.1. G.S. 163-132.1 is repealed.

PART 28. REDUCE NEED FOR SECOND PRIMARY

SECTION 28.1. The Joint Legislative Elections Oversight Committee shall study the second primary and recommend to the General Assembly any legislation it deems advisable. The study may include the following:

(1) Whether to go to a plurality method of determining the result of the primary.
(2) Whether to reduce the current forty percent (40%) threshold.
(3) Whether to keep the forty percent (40%) threshold but also allow a smaller percentage if the margin between first and second place finisher is substantial.
(4) Whether to have a different system for different offices such as United States Senator, Governor, and Lieutenant Governor and other offices.

It may make an interim report prior to the date that the General Assembly reconvenes the 2013 Regular Session in 2014, and shall make a final report before the convening of the 2015 Regular Session of the General Assembly.

PART 29. CLARIFY STATE BOARD DUTY ON CHARACTERISTICS OF BALLOT

SECTION 29.1. G.S. 163-165.4 reads as rewritten:

"§ 163-165.4. Standards for official ballots.
The State Board of Elections shall seek to ensure that official ballots throughout the State have all the following characteristics:

(1) Are readily understandable by voters.
(2) Present all candidates and questions in a fair and nondiscriminatory manner.
(3) Allow every voter to cast a vote in every ballot item without difficulty.
(4) Facilitate an accurate vote count.
(5) Are uniform in content and format, subject to varied presentations required or made desirable by different voting systems."

PART 30. SIMPLIFY BALLOT RECORDS

SECTION 30.1. G.S. 163-165(1) reads as rewritten:

"(1) "Ballot" means an instrument on which a voter indicates a choice so that it may be recorded as a vote for or against a certain candidate or referendum proposal. The term "ballot" may include a paper ballot to be counted by hand, a paper ballot to be counted on an electronic scanner, the face of a lever voting machine, the image on a direct record electronic unit, or any paper ballot used on any other voting system."

SECTION 30.2. G.S. 163-165 is amended by adding a new subdivision to read:

"(5a) "Paper ballot" means an individual paper document that bears marks made by the voter by hand or through electronic means."

SECTION 30.3. G.S. 163-165.7(a) and (d) read as rewritten:

"§ 163-165.7. Voting systems: powers and duties of State Board of Elections.
(a) Only voting systems that have been certified by the State Board of Elections in accordance with the procedures and subject to the standards set forth in this section and that have not been subsequently decertified shall be permitted for use in elections in this State. Those certified voting systems shall be valid in any election held in the State or in any county, municipality, or other electoral district in the State. Subject to all other applicable rules adopted
by the State Board of Elections and, with respect to federal elections, subject to all applicable federal regulations governing voting systems, paper ballots marked by the voter and counted by hand shall be deemed a certified voting system. The State Board of Elections shall certify optical scan voting systems, optical scan with ballot markers voting systems, and direct record electronic voting systems if any of those systems meet all applicable requirements of federal and State law. The State Board may certify additional voting systems only if they meet the requirements of the request for proposal process set forth in this section and only if they generate either a paper ballot or a paper record by which voters may verify their votes before casting them and which provides a backup means of counting the vote that the voter casts. Those voting systems may include optical scan and direct record electronic (DRE) voting systems that produce a paper ballot. In consultation with the Office of Information Technology Services, the State Board shall develop the requests for proposal subject to the provisions of this Chapter and other applicable State laws. Among other requirements, the request for proposal shall require at least all of the following elements:

1. That the vendor post a bond or letter of credit to cover damages resulting from defects in the voting system. Damages shall include, among other items, any costs of conducting a new election attributable to those defects.
2. That the voting system comply with all federal requirements for voting systems.
3. That the voting system must have the capacity to include in voting tabulation district returns the votes cast by voters outside of the voter's voting tabulation district as required by G.S. 163-132.5G.
4. With respect to electronic voting systems, that the voting system generate a paper record ballot of each individual vote cast, which paper record ballot shall be maintained in a secure fashion and shall serve as a backup record for purposes of any hand-to-eye count, hand-to-eye recount, or other audit. Electronic systems that employ optical scan technology to count paper ballots shall be deemed to satisfy this requirement.
5. With respect to DRE voting systems, that the paper record ballot generated by the system be viewable by the voter before the vote is cast electronically, and that the system permit the voter to correct any discrepancy between the electronic vote and the paper record ballot before the vote is cast.

Subject to the provisions of this Chapter, the State Board of Elections shall prescribe rules for the adoption, handling, operation, and honest use of certified voting systems, including all of the following:

1. Procedures for county boards of elections to utilize when recommending the purchase of a certified voting system for use in that county.
2. Form of official ballot labels to be used on voting systems.
3. Operation and manner of voting on voting systems.
4. Instruction of precinct officials in the use of voting systems.
5. Instruction of voters in the use of voting systems.
6. Assistance to voters using voting systems.
7. Duties of custodians of voting systems.
8. Examination and testing of voting systems in a public forum in the county before and after use in an election.
9. Notwithstanding G.S. 132-1.2, procedures for the review and examination of any information placed in escrow by a vendor pursuant to G.S. 163-165.9A by only the following persons:
   a. State Board of Elections.
   c. The State chairs of each political party recognized under G.S. 163-96.
d. The purchasing county. Each person listed in sub-divisions a. through d. of this subdivision may designate up to three persons as that person's agents to review and examine the information. No person shall designate under this subdivision a business competitor of the vendor whose proprietary information is being reviewed and examined. For purposes of this review and examination, any designee under this subdivision and the State party chairs shall be treated as public officials under G.S. 132-2.

(10) With respect to electronic voting systems, procedures to maintain the integrity of both the electronic vote count and the paper record ballot. Those procedures shall at a minimum include procedures to protect against the alteration of the paper record ballot after a machine vote has been recorded and procedures to prevent removal by the voter from the voting enclosure of any paper record or copy of an individually voted paper ballot or of any other device or item whose removal from the voting enclosure could permit compromise of the integrity of either the machine count or the paper record ballot.

"..."

SECTION 30.4. G.S. 163-166.7(c) reads as rewritten:
"(c) The State Board of Elections shall promulgate rules for the process of voting. Those rules shall emphasize the appearance as well as the reality of dignity, good order, impartiality, and the convenience and privacy of the voter. Those rules, at a minimum, shall include procedures to ensure that all the following occur:

(1) The voting system remains secure throughout the period voting is being conducted.

(2) Only properly voted official ballots or paper records of individual voted ballots are introduced into the voting system.

(3) Except as provided by G.S. 163-166.9, no official ballots leave the voting enclosure during the time voting is being conducted there. The rules shall also provide that during that time no one shall remove from the voting enclosure any paper record or copy of an individually voted ballot or of any other device or item whose removal from the voting enclosure could permit compromise of the integrity of either the machine count or the paper record.

(4) All improperly voted official ballots or paper records of individual voted ballots are returned to the precinct officials and marked as spoiled.

(5) Voters leave the voting place promptly after voting.

(6) Voters not clearly eligible to vote in the precinct but who seek to vote there are given proper assistance in voting a provisional official ballot or guidance to another voting place where they are eligible to vote.

(7) Information gleaned through the voting process that would be helpful to the accurate maintenance of the voter registration records is recorded and delivered to the county board of elections.

(8) The registration records are kept secure. The State Board of Elections shall permit the use of electronic registration records in the voting place in lieu of or in addition to a paper pollbook or other registration record.

(9) Party observers are given access as provided by G.S. 163-45 to current information about which voters have voted.

(10) The voter, before voting, shall sign that voter's name on the pollbook, other voting record, or voter authorization document. If the voter is unable to sign, a precinct official shall enter the person's name on the same document before the voter votes."

SECTION 30.5. G.S. 163-182.1(b)(1) reads as rewritten:
"(1) Provide for a sample hand-to-eye count of the paper ballots or paper records of a statewide ballot item in every county. The presidential ballot item shall be the subject of the sampling in a presidential election. If there is no statewide ballot item, the State Board shall provide a process for selecting district or local ballot items to adequately sample the electorate. The State Board shall approve in an open meeting the procedure for randomly selecting the sample precincts for each election. The random selection of precincts for any county shall be done publicly after the initial count of election returns for that county is publicly released or 24 hours after the polls close on election day, whichever is earlier. The sample chosen by the State Board shall be of one or more full precincts, full counts of mailed absentee ballots, full counts of one or more one-stop early voting sites, or a combination. The size of the sample of each category shall be chosen to produce a statistically significant result and shall be chosen after consultation with a statistician. The actual units shall be chosen at random. In the event of a material discrepancy between the electronic or mechanical count and a hand-to-eye count, the hand-to-eye count shall control, except where paper ballots or records have been lost or destroyed or where there is another reasonable basis to conclude that the hand-to-eye count is not the true count. If the discrepancy between the hand-to-eye count and the mechanical or electronic count is significant, a complete hand-to-eye count shall be conducted."

SECTION 30.6. G.S. 163-182.2(b)(1a) reads as rewritten:
"(1a) For optical scan and direct record electronic voting systems, and for any other voting systems in which ballots are counted other than on paper by hand and eye, those rules shall provide for a sample hand-to-eye count of the paper ballots or paper records of a sampling of a statewide ballot item in every county. The presidential ballot item shall be the subject of the sampling in a presidential election. If there is no statewide ballot item, the State Board shall provide a process for selecting district or local ballot items to adequately sample the electorate. The State Board shall approve in an open meeting the procedure for randomly selecting the sample precincts for each election. The random selection of precincts for any county shall be done publicly after the initial count of election returns for that county is publicly released or 24 hours after the polls close on election day, whichever is earlier. The sample chosen by the State Board shall be of one or more full precincts, full counts of mailed absentee ballots, and full counts of one or more one-stop early voting sites. The size of the sample of each category shall be chosen to produce a statistically significant result and shall be chosen after consultation with a statistician. The actual units shall be chosen at random. In the event of a material discrepancy between the electronic or mechanical count and a hand-to-eye count, the hand-to-eye count shall control, except where paper ballots or records have been lost or destroyed or where there is another reasonable basis to conclude that the hand-to-eye count is not the true count. If the discrepancy between the hand-to-eye count and the mechanical or electronic count is significant, a complete hand-to-eye count shall be conducted. The sample count need not be done on election night."

SECTION 30.7. G.S. 163-227.2(e1) reads as rewritten:
"(e1) If a county uses a voting system with retrievable ballots, that county's board of elections may by resolution elect to conduct one-stop absentee voting according to the provisions of this subsection. In a county in which the board has opted to do so, a one-stop voter shall cast the ballot and then shall deposit the ballot in the ballot box or voting system in
the same manner as if such box or system was in use in a precinct on election day. At the end of each business day, or at any time when there will be no employee or officer of the board of elections on the premises, the ballot box or system shall be secured in accordance with a plan approved by the State Board of Elections, which shall include that no additional ballots have been placed in the box or system. Any county board desiring to conduct one-stop voting according to this subsection shall submit a plan for doing so to the State Board of Elections. The State Board shall adopt standards for conducting one-stop voting under this subsection and shall approve any county plan that adheres to its standards. The county board shall adhere to its State Board-approved plan. The plan shall provide that each one-stop ballot shall have a ballot number on it in accordance with G.S. 163-230.1(a2), or shall have an equivalent identifier to allow for retrievability. The standards shall address retrievability in one-stop voting on direct record electronic equipment where no paper ballot is used.

SECTION 30.8. Any direct record electronic (DRE) voting systems currently certified by the State Board of Elections which do not use paper ballots shall be decertified and shall not be used in any election held on or after January 1, 2018. Decertification of a DRE voting system that does not use paper ballots may not be appealed to the Superior Court of Wake County pursuant to G.S. 163-165.7(b).

SECTION 30.9. This Part becomes effective January 1, 2018.

PART 31. ORDER OF PARTIES ON THE BALLOT

SECTION 31.1. G.S. 163-165.6(d) reads as rewritten:

"(d) Order of Party Candidates on General Election Official Ballot. – Candidates in any ballot item on a general election official ballot shall appear in the following order:

(1) Nominees of political parties that reflect at least five percent (5%) of statewide voter registration, according to the most recent statistical report published by the State Board of Elections, in alphabetical order by party beginning with the party whose nominee for Governor received the most votes in the most recent gubernatorial election, and in alphabetical order within the party.

(2) Nominees of other political parties, in alphabetical order by party and in alphabetical order within the party.

(3) Unaffiliated candidates, in alphabetical order."

PART 32. VOTE THE PERSON NOT THE PARTY

SECTION 32.1. G.S. 163-165.6(e) reads as rewritten:

"(e) No Straight-Party Voting. – Each official ballot shall not contain any place that allows a voter with one mark to vote for the candidates of a party for more than one office, be arranged so that the voter may cast one vote for a party’s nominees for all offices except President and Vice President. A vote for President and Vice President shall be cast separately from a straight party vote. The official ballot shall be prepared so that a voter may cast a straight party vote, but then make an exception to that straight party vote by voting for a candidate not nominated by that party or by voting for fewer than all the candidates nominated by that party. Instructions for general election ballots shall clearly advise voters of the rules in this subsection and of the statutes providing for the counting of ballots."

SECTION 32.2. G.S. 163-182.1(a)(7) is repealed.

PART 33. REGULATE EXTENSION OF CLOSE OF POLLS

SECTION 33.1. G.S. 163-166.01 reads as rewritten:

"§ 163-166.01. Hours for voting.

In every election, the voting place shall be open at 6:30 A.M. and shall be closed at 7:30 P.M. In extraordinary circumstances, the county board of elections may direct that the polls remain open until 8:30 P.M. If the polls are delayed in opening for more than 15 minutes, or are interrupted for more than 15 minutes after opening, the State Board of Elections may extend the
closing time by an equal number of minutes. As authorized by law, the State Board of Elections shall be available either in person or by teleconference on the day of election to approve any such extension. If any voter is in line to vote at the time the polls are closed, that voter shall be permitted to vote. No voter shall be permitted to vote who arrives at the voting place after the closing of the polls.

Any voter who votes after the statutory poll closing time of 7:30 P.M. by virtue of a federal or State court order or any other lawful order, including an order of a county board of elections, shall be allowed to vote, under the provisions of that order, only by using a provisional official ballot. Any special provisional official ballots cast under this section shall be separated, counted, and held apart from other provisional ballots cast by other voters not under the effect of the order extending the closing time of the voting place. If the court order has not been reversed or stayed by the time of the county canvass, the total for that category of provisional ballots shall be added to the official canvass."

PART 34. ASSISTANCE TO VOTER

SECTION 34.1. The Joint Legislative Elections Oversight Committee shall study ways to improve protections for persons requiring assistance in voting places and recommend to the General Assembly any legislation it deems advisable. It may make an interim report prior to the date that the General Assembly reconvenes the 2013 Regular Session in 2014 and shall make a final report before the convening of the 2015 Regular Session of the General Assembly.

PART 35. DATE OF PRESIDENTIAL PRIMARY

An election district may include a portion of a county, an entire county, a portion of the State, or the entire State. “(4) Provisional official ballots shall be counted by the county board of elections before the canvass. If the county board finds that an individual voting a provisional official ballot is not eligible to vote in one or more ballot items on the official ballot, the board shall not count the official ballot in those ballot items, but shall count the official ballot in any ballot items for which the individual is eligible to vote. Eligibility shall be determined by whether the voter is registered in the county as provided in G.S. 163-82.1 and whether the voter is qualified by residency to vote in the election district as provided in G.S. 163-55 and G.S. 163-57. 2. 20,000 or more households, cumulative per election, in a statewide election or 2,500 households, cumulative per election, in any other election if in the form of mass mailing or telephone bank.

PART 51. ELIMINATE INSTANT-RUNOFF FOR LATE JUDICIAL VACANCIES

SECTION 51.1. G.S. 163-329(b1) reads as rewritten:

"(b1) Method for Vacancy Election. – If a vacancy for the office of justice of the Supreme Court, judge of the Court of Appeals, or judge of the superior court occurs more than 60 days before the general election and after the opening of the filing period for the primary, then the State Board of Elections shall designate a special filing period of one week for candidates for the office. If more than two candidates file and qualify for the office in accordance with G.S. 163-323, then the Board shall conduct the election for the office as follows:

(1) When the vacancy described in this section occurs more than 63 days before the date of the second primary for members of the General Assembly, a special primary shall be held on the same day as the second primary. The two candidates with the most votes in the special primary shall have their names placed on the ballot for the general election held on the same day as the general election for members of the General Assembly.

(2) When the vacancy described in this section occurs less than 64 days before the date of the second primary, a general election for all the candidates shall be held on the same day as the general election for members of the General Assembly and the results shall be determined on a plurality basis as provided by G.S. 163-292; the "instant runoff voting" method shall be used to determine the winner. Under "instant runoff voting," voters rank up to three of the candidates by order of preference, first, second, or third. If the candidate with the greatest number of first-choice votes receives more than fifty percent (50%) of the first-choice votes, that candidate wins. If no candidate receives that minimum number, the two candidates with the greatest number of first-choice votes advance to a second round of counting. In this round, each ballot counts as a vote for whichever of the two final candidates is ranked highest by the voter. The candidate with the most votes in the second round wins the election. If more than one seat is to be filled in the same race, the voter votes the same way as if one seat were to be filled. The counting is the same as when one seat is to be filled, with one or two rounds as needed, except that counting is done separately for each seat to be filled. The first count results in the first winner. Then the second count proceeds without the name of the first winner. This process results in the second winner. For each additional seat to be filled, an additional count is done without the names of the candidates who have already won. In multi-seat contests, the State Board of Elections may give the voter more than three choices.

(3) If two or more candidates receiving the highest number of votes each receive the same number of votes, the board of elections shall resolve the tie in accordance with G.S. 163-182.8."
PART 52. IDENTIFYING PROVISIONAL BALLOTS AS SUCH  
SECTION 52.1. Article 14A of Chapter 163 of the General Statutes is amended by adding a new section to read:  
"§ 163-166.11A. Notation on provisional ballot.  
Whenever a voter is permitted to vote a provisional ballot, the election official issuing the ballot shall annotate in writing or other means on the ballot that it is a provisional ballot."  

PART 53. ELECTION CYCLE AND REPORTING CHANGES  
SECTION 53.1.(a) G.S. 163-278.13(d) reads as rewritten:

Then the employee shall follow the grievance procedure approved by the State Personnel Commission. The proposed agency final decision shall not be issued nor become final until reviewed and approved by the Office of State Personnel. The agency grievance procedure and Office of State Personnel review shall be completed within 90 days from the date the grievance is filed.

"§ 126-34.02. Grievance appeal process; grounds.

(a) Once a final agency decision has been issued in accordance with G.S. 126-34.01, an applicant for State employment, a State employee, or former State employee may file a contested case in the Office of Administrative Hearings under Article 3 of Chapter 150B of the General Statutes. The contested case must be filed within 30 days of receipt of the final agency decision. Except for cases of extraordinary cause shown, the Office of Administrative Hearings shall hear and issue a final decision in accordance with G.S. 150B-34 within 180 days from the commencement of the case. In deciding cases under this section, the Office of Administrative Hearings may grant the following relief:

(2) Order the employment, promotion, transfer, or salary adjustment of any individual to whom it has been wrongfully denied.

(3) Direct other suitable action to correct the abuse which may include the requirement of payment for any loss of salary which has resulted from the improper action of the appointing authority.

An aggrieved party in a contested case under this section shall be entitled to judicial review of a final decision by appeal to the Court of Appeals as provided in G.S. 7A-29(a). The procedure for the appeal shall be as provided by the rules of appellate procedure. The appeal shall be taken within 30 days of receipt of the written notice of final decision. A notice of
appeal shall be filed with the Office of Administrative Hearings and served on all parties to the contested case hearing.

(b) The following issues may be heard as contested cases after completion of the agency grievance procedure and the Office of State Personnel review:

1. Discrimination or harassment. – An applicant for State employment, a State employee, or former State employee may allege discrimination or harassment based on race, religion, color, national origin, sex, age, disability, genetic information, or political affiliation if the employee believes that he or she has been discriminated against in his or her application for employment or in the terms and conditions of the employee’s employment, or in the termination of his or her employment.

2. Retaliation. – An applicant for State employment, a State employee, or former State employee may allege retaliation for protesting discrimination based on race, religion, color, national origin, sex, age, disability, political affiliation, or genetic information if the employee believes that he or she has been retaliated against in his or her application for employment or in the terms and conditions of the employee’s employment, or in the termination of the employee’s employment.

3. Just cause for dismissal, demotion, or suspension. – A career State employee may allege that he or she was dismissed, demoted, or suspended for disciplinary reasons without just cause. A dismissal, demotion, or suspension which is not imposed for disciplinary reasons shall not be considered a disciplinary action within the meaning of this section. However, in contested cases conducted pursuant to this section, an employee may appeal an involuntary nondisciplinary separation due to an employee’s unavailability in the same fashion as if it were a disciplinary action, but the agency shall only have the burden to prove that the employee was unavailable. In cases of such disciplinary action the employee shall, before the action is taken, be furnished with a statement in writing setting forth the specific acts or omissions that are the reasons for the disciplinary action and the employee’s appeal rights. The employee shall be permitted 15 days from the date the statement is delivered to appeal under the agency grievance procedure. However, an employee may be suspended without warning pending the giving of written reasons in order to avoid undue disruption of work, to protect the safety of persons or property, or for other serious reasons.

4. Veteran’s preference. – An applicant for State employment or a State employee may allege that he or she was denied veteran’s preference in violation of the law.

5. Failure to post or give priority consideration. – An applicant for State employment or a State employee may allege that he or she was denied hiring or promotion because a position was not posted in accordance with this Chapter or because he or she was denied hiring or promotion as a result of a failure to give priority consideration for promotion or reemployment as required by G.S. 126-7.1.

6. Whistleblower. – A whistleblower grievance as provided for in this Chapter.

(c) Any issue for which an appeal to the Office of Administrative Hearings has not been specifically authorized by this section shall not be grounds for a contested case hearing.

(d) In contested cases conducted pursuant to this section, the burden of showing that a career State employee was discharged, demoted, or suspended for just cause rests with the employer. In all other contested cases, the burden of proof rests on the employee.

(e) The Office of Administrative Hearings may award attorneys’ fees to an employee where reinstatement or back pay is ordered or where an employee prevails in a whistleblower
grievance. The remedies provided in this subsection in a whistleblower appeal shall be the same as those provided in G.S. 126-87.

(f) The Office of Administrative Hearings shall report to the Office of State Personnel and the Joint Legislative Administrative Procedure Oversight Committee on the number of cases filed under this section and on the number of days between filing and closing of each case. The report shall be filed on a semiannual basis.

§ 126-34. Grievance appeal for career State employees.

The department or agency shall have 60 days within which to take appropriate remedial action. AN ACT TO AMEND MARINE FISHERIES LAWS; AMEND THE LAWS GOVERNING THE CONSTRUCTION OF TERMINAL GROINS; AND CLARIFY THAT CITIES MAY ENFORCE ORDINANCES WITHIN THE STATE'S PUBLIC TRUST AREAS.

The General Assembly of North Carolina enacts:
PART I. AMEND MARINE FISHERIES LAW
SECTION 1. G.S. 113-172 reads as rewritten:
"§ 113-172. License agents.
(a) The Secretary shall designate license agents for the Department. At least one license agent shall be designated for each county that contains or borders on coastal fishing waters. The Secretary may designate additional license agents in any county if the Secretary determines that additional agents are needed to provide efficient service to the public. The Division and license agents designated by the Secretary under this section shall issue licenses authorized under this Article in accordance with this Article and the rules of the Commission. The Secretary may require license agents to enter into a contract that provides for their duties and compensation, post a bond, and submit to reasonable inspections and audits. If a license agent violates any provision of this Article, the rules of the Commission, or the terms of the contract, the Secretary may initiate proceedings for the forfeiture of the license agent's bond and may summarily suspend, revoke, or refuse to renew a designation as a license agent and may impound or require the return of all licenses, moneys, record books, reports, license forms and other documents, ledgers, and materials pertinent or apparently pertinent to the license agency. The Secretary shall report evidence or misuse of State property, including license fees, by a license agent to the State Bureau of Investigation as provided by G.S. 114-15.1.

(b) License agents shall be compensated by adding a surcharge of one dollar ($1.00) to each license sold and retaining the surcharge. If more than one license is listed on a consolidated license form, the license agent shall be compensated as if a single license were sold. It is unlawful for a license agent to add more than the surcharge authorized by this section to the fee for each license sold."

SECTION 2.(a) G.S. 113-168.5 reads as rewritten:
"§ 113-168.5. License endorsements for Standard Commercial Fishing License.
(a),  (b) Repealed by Session Laws 1998-225, s. 4.14.
Menhaden Endorsements. – Except as provided in G.S. 113-169, it is unlawful to use a vessel to take menhaden by purse seine in coastal fishing waters, to land menhaden taken by purse seine, or to sell menhaden taken by purse seine without obtaining a menhaden endorsement of a SCFL. The fee for a menhaden endorsement shall be two dollars ($2.00) per ton, based on gross tonnage as determined by the custom house measurement for the mother ship. The menhaden endorsement shall be required for the mother ship but no separate endorsement shall be required for a purse boat carrying a purse seine. The application for a menhaden endorsement must state the name of the person in command of the vessel. Upon a change in command of a menhaden vessel, the owner must notify the Division in writing within 30 days.

Shellfish Endorsement for North Carolina Residents. – The Division shall issue a shellfish endorsement of a SCFL to a North Carolina resident at no charge. The holder of a SCFL with a shellfish endorsement is authorized to take and sell shellfish.

SECTION 2. (b) G.S. 113-169 is repealed.

SECTION 2. (c) G.S. 113-168.2(a1) reads as rewritten:

"(a1) Use of Vessels. – The holder of a SCFL is authorized to use only one vessel in a commercial fishing operation at any given time. The Commission may adopt a rule to exempt from this requirement a person in command of a vessel that is auxiliary to a vessel engaged in a pound net operation, long-haul operation, or beach seine operation, or menhaden operation."

PART II. AMEND TERMINAL GROIN CONSTRUCTION LAW

SECTION 3. (a) G.S. 113A-115.1 reads as rewritten:

"§ 113A-115.1. Limitations on erosion control structures.

(a) As used in this section:

(1) "Erosion control structure" means a breakwater, bulkhead, groin, jetty, revetment, seawall, or any similar structure.

(1a) "Estuarine shoreline" means all shorelines that are not ocean shorelines that border estuarine waters as defined in G.S. 113A-113(b)(2).

(2) "Ocean shoreline" means the Atlantic Ocean, the oceanfront beaches, and frontal dunes. The term "ocean shoreline" includes an ocean inlet and lands adjacent to an ocean inlet but does not include that portion of any inlet and lands adjacent to the inlet that exhibits characteristics of estuarine shorelines.

(3) "Terminal groin" means a structure that is constructed on the side of an inlet at the terminus of an island generally perpendicular to the shoreline to limit or control sediment passage into the inlet channel.

(3) "Terminal groin" means one or more structures constructed at the terminus of an island or on the side of an inlet, with a main stem generally perpendicular to the beach shoreline, that is primarily intended to protect the terminus of the island from shoreline erosion and inlet migration. A "terminal groin" shall be pre-filled with beach quality sand and allow sand moving in the littoral zone to flow past the structure. A "terminal groin" may include other design features, such as a number of smaller supporting structures, that are consistent with sound engineering practices and as recommended by a professional engineer licensed to practice pursuant to Chapter 89C of the General Statutes. A "terminal groin" is not a jetty.

(b) No person shall construct a permanent erosion control structure in an ocean shoreline. The Commission shall not permit the construction of a temporary erosion control structure that consists of anything other than sandbags in an ocean shoreline. This section subsection shall not apply to any of the following:

(1) Any permanent erosion control structure that is approved pursuant to an exception set out in a rule adopted by the Commission prior to July 1, 2003.
(2) Any permanent erosion control structure that was originally constructed prior to July 1, 1974, and that has since been in continuous use to protect an inlet that is maintained for navigation.

(3) Any terminal groin permitted pursuant to this section.

(b1) This section shall not be construed to limit the authority of the Commission to adopt rules to designate or protect areas of environmental concern, to govern the use of sandbags, or to govern the use of erosion control structures in estuarine shorelines.

(c) The Commission may renew a permit for an erosion control structure issued pursuant to a variance granted by the Commission prior to July 1, 1995. The Commission may authorize the replacement of a permanent erosion control structure that was permitted by the Commission pursuant to a variance granted by the Commission prior to July 1, 1995, if the Commission finds that: (i) the structure will not be enlarged beyond the dimensions set out in the original permit; (ii) there is no practical alternative to replacing the structure that will provide the same or similar benefits; and (iii) the replacement structure will comply with all applicable laws and with all rules, other than the rule or rules with respect to which the Commission granted the variance, that are in effect at the time the structure is replaced.

(d) Any rule that prohibits permanent erosion control structures shall not apply to terminal groins permitted pursuant to this section.

(e) In addition to the requirements of Part 4 of Article 7 of Chapter 113A of the General Statutes, an applicant for a permit for the construction of a terminal groin shall submit all of the following to the Commission:

(1) Information to demonstrate that structures or infrastructure are imminently threatened by erosion, and nonstructural approaches to erosion control, including relocation of threatened structures, are impractical.

(2) An environmental impact statement that satisfies the requirements of G.S. 113A-4. An environmental impact statement prepared pursuant to the National Environmental Policy Act (NEPA), 42 U.S.C. § 4321, et seq., for the construction of the terminal groin shall satisfy the requirements of this subdivision.

(3) A list of property owners and local governments that may be affected by the construction of the proposed terminal groin and its accompanying beach fill project and proof that the property owners and local governments have been notified of the application for construction of the terminal groin and its accompanying beach fill project.

(4) A plan for the construction and maintenance of the terminal groin and its accompanying beach fill project prepared by a professional engineer licensed to practice pursuant to Chapter 89C of the General Statutes.

(5) A plan for the management of the inlet and the estuarine and ocean shorelines immediately adjacent to and under the influence of the inlet. The inlet management plan monitoring and mitigation requirements must be reasonable and not impose requirements whose costs outweigh the benefits. The inlet management plan is not required to address sea level rise. The inlet management plan shall do all of the following relative to the terminal groin and its accompanying beach fill project:

a. Describe the post-construction activities that the applicant will undertake to monitor the impacts on coastal resources.

b. Define the baseline for assessing any adverse impacts and the thresholds for when the adverse impacts must be mitigated.

c. Provide for mitigation measures to be implemented if adverse impacts reach the thresholds defined in the plan.

d. Provide for modification or removal of the terminal groin if the adverse impacts cannot be mitigated.
(6) Proof of financial assurance verified by the Commission or the Secretary of Environment and Natural Resources in the form of a bond, insurance policy, escrow account, guaranty, local government taxing or assessment authority, a property owner association’s approved assessment, or other financial instrument or combination of financial instruments that is adequate to cover the cost of implementing all of the following components of the inlet management plan:
   a. Long-term maintenance and monitoring of the terminal groin.
   b. Implementation of mitigation measures as provided in the inlet management plan.
   c. Modification or removal of the terminal groin as provided in the inlet management plan.
   d. Restoration of public, private, or public trust property if the groin has an adverse impact on the environment or property.

(f) The Commission shall issue a permit for the construction of a terminal groin if the Commission finds no grounds for denying the permit under G.S. 113A-120 and the Commission finds all of the following:
   (1) The applicant has complied with all of the requirements of subsection (e) of this section.
   (2) The applicant has demonstrated that structures or infrastructure are imminently threatened by erosion and that nonstructural approaches to erosion control, including relocation of threatened structures, are impractical.
   (3) The terminal groin will be accompanied by a concurrent beach fill project to prefill the groin.
   (4) Construction and maintenance of the terminal groin will not result in significant adverse impacts to private property or to the public recreational beach. In making this finding, the Commission shall take into account the potential benefits of the project, including protection of the terminus of the island from shoreline erosion and inlet migration, beaches, protective dunes, wildlife habitats, roads, homes, and infrastructure, and mitigation measures, including the accompanying beach fill project, that will be incorporated into the project design and construction and the inlet management plan.
   (5) The inlet management plan is adequate for purposes of monitoring the impacts of the proposed terminal groin and mitigating any adverse impacts identified as a result of the monitoring.
   (6) Except to the extent expressly modified by this section, the project complies with State guidelines for coastal development adopted by the Commission pursuant to G.S. 113A-107.

(g) The Commission may issue no more than four permits for the construction of a terminal groin pursuant to this section.

(h) No permit may be issued where funds are generated from any of the following financing mechanisms and would be used for any activity related to the terminal groin or its accompanying beach fill project:
   (1) Special obligation bonds issued pursuant to Chapter 159I of the General Statutes.
   (2) Nonvoted general obligation bonds issued pursuant to G.S. 159-48(b)(4).
   (3) Financing contracts entered into under G.S. 160A-20 or G.S. 159-148.

(i) No later than September 1 of each year, the Coastal Resources Commission shall report to the Environmental Review Commission on the implementation of this section. The report shall provide a detailed description of each proposed and permitted terminal groin and its accompanying beach fill project, including the information required to be submitted pursuant to
subsection (e) of this section. For each permitted terminal groin and its accompanying beach fill project, the report shall also provide all of the following:

1. The findings of the Commission required pursuant to subsection (f) of this section.
2. The status of construction and maintenance of the terminal groin and its accompanying beach fill project, including the status of the implementation of the plan for construction and maintenance and the inlet management plan.
3. A description and assessment of the benefits of the terminal groin and its accompanying beach fill project, if any.
4. A description and assessment of the adverse impacts of the terminal groin and its accompanying beach fill project, if any, including a description and assessment of any mitigation measures implemented to address adverse impacts."

SECTION 3.(b) Section 3 of S.L. 2011-387 is repealed.

PART III. CITIES ENFORCE ORDINANCES WITHIN PUBLIC TRUST AREAS

SECTION 4.(a) Article 8 of Chapter 160A of the General Statutes is amended by adding a new section to read as follows:

"§ 160A-203. Cities enforce ordinances within public trust areas.

(a) Notwithstanding the provisions of G.S. 113-131 or any other provision of law, a city may, by ordinance, define, prohibit, regulate, or abate acts, omissions, or conditions upon the State's ocean beaches and prevent or abate any unreasonable restriction of the public's rights to use the State's ocean beaches. In addition, a city may, in the interest of promoting the health, safety, and welfare of the public, regulate, restrict, or prohibit the placement, maintenance, location, or use of equipment, personal property, or debris upon the State's ocean beaches. A city may enforce any ordinance adopted pursuant to this section or any other provision of law upon the State's ocean beaches located within or adjacent to the city's jurisdictional boundaries to the same extent that a city may enforce ordinances within the city's jurisdictional boundaries. A city may enforce an ordinance adopted pursuant to this section by any remedy provided for in G.S. 160A-175. For purposes of this section, the term "ocean beaches" has the same meaning as in G.S. 77-20(e).

(b) Nothing in this section shall be construed to (i) limit the authority of the State or any State agency to regulate the State's ocean beaches as authorized by G.S. 113-131, or common law as interpreted and applied by the courts of this State; (ii) limit any other authority granted to cities by the State to regulate the State's ocean beaches; (iii) deny the existence of the authority recognized in this section prior to the date this section becomes effective; (iv) impair the right of the people of this State to the customary free use and enjoyment of the State's ocean beaches, which rights remain reserved to the people of this State as provided in G.S. 77-20(d); (v) change or modify the riparian, littoral, or other ownership rights of owners of property bounded by the Atlantic Ocean; or (vi) apply to the removal of permanent residential or commercial structures and appurtenances thereto from the State's ocean beaches."

SECTION 4.(b) G.S. 113-131 reads as rewritten:

"§ 113-131. Resources belong to public; stewardship of conservation agencies; grant and delegation of powers; injunctive relief.

(a) The marine and estuarine and wildlife resources of the State belong to the people of the State as a whole. The Department and the Wildlife Resources Commission are charged with stewardship of these resources.

(b) The following powers are hereby granted to the Department and the Wildlife Resources Commission and may be delegated to the Fisheries Director and the Executive Director:

(1) Comment on and object to permit applications submitted to State agencies which may affect the public trust resources in the land and water areas
subject to their respective management duties so as to conserve and protect
the public trust rights in such land and water areas;

(2) Investigate alleged encroachments upon, usurpations of, or other actions in
violation of the public trust rights of the people of the State; and

(3) Initiate contested case proceedings under Chapter 150B for review of permit
decisions by State agencies which will adversely affect the public trust rights
of the people of the State or initiate civil actions to remove or restrain any
unlawful or unauthorized encroachment upon, usurpation of, or any other
violation of the public trust rights of the people of the State or legal rights of
access to such public trust areas.

(c) Whenever there exists reasonable cause to believe that any person or other legal
entity has unlawfully encroached upon, usurped, or otherwise violated the public trust rights
of the people of the State or legal rights of access to such public trust areas, a civil action may be
instituted by the responsible agency for injunctive relief to restrain the violation and for a
mandatory preliminary injunction to restore the resources to an undisturbed condition. The
action shall be brought in the superior court of the county in which the violation occurred. The
institution of an action for injunctive relief under this section shall not relieve any party to such
proceeding from any civil or criminal penalty otherwise prescribed for the violation.

(d) The Attorney General shall act as the attorney for the agencies and shall initiate
actions in the name of and at the request of the Department or the Wildlife Resources
Commission.

(e) In this section, the term “public trust resources” means land and water areas, both
public and private, subject to public trust rights as that term is defined in G.S. 1-45.1.

(f) Notwithstanding the provisions of this section, a city may adopt and enforce
ordinances as provided in G.S. 160A-203.

AS INFRACTIONS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 15A-1115 reads as rewritten:

"§ 15A-1115. Review of disposition by superior court. Review of infractions originally
disposed of in superior court.

(a) Appeal of District Court Decision. A person who denies responsibility and is
found responsible for an infraction in the district court, within 10 days of the hearing, may
appeal the decision to the criminal division of the superior court for a hearing de novo. Upon
appeal, the defendant is entitled to a jury trial unless he consents to have the hearing conducted
by the judge. The State must prove beyond a reasonable doubt that the person charged is responsible for the infraction unless the person admits responsibility. Unless otherwise provided by law, the procedures applicable to misdemeanors disposed of in the superior court apply to those infraction hearings. In the superior court, a prosecutor must represent the State. Appeal from the judgment in the superior court is as provided for other criminal actions in superior court, and the Attorney General must represent the State in an appeal of such actions.

(b) Review of Infractions Originally Disposed of in Superior Court. – If the superior court disposes of an infraction pursuant to its jurisdiction in G.S. 7A-271(d), appeal from that judgment is as provided for criminal actions in the superior court."

SECTION 2. G.S. 15A-1347 reads as rewritten:

"§ 15A-1347. Appeal from revocation of probation or imposition of special probation upon violation; consequences of waiver of hearing.

(a) Except as provided in subsection (b) of this section, when a district court judge, as a result of a finding of a violation of probation, activates a sentence or imposes special probation, the defendant may appeal to the superior court for a de novo revocation hearing. At the hearing the probationer has all rights and the court has all authority they have in a revocation hearing held before the superior court in the first instance. Appeals from lower courts to the superior courts from judgments revoking probation may be heard in term or out of term, in the county or out of the county by the resident superior court judge of the district or the superior court judge assigned to hold the courts of the district, or a judge of the superior court commissioned to hold court in the district, or a special superior court judge residing in the district. When the defendant appeals to the superior court because a district court has found he violated probation and has activated his sentence or imposed special probation, and the superior court, after a de novo revocation hearing, orders that the defendant continue on probation with regard to future revocation proceedings and other purposes of this Article. When a superior court judge, as a result of a finding of a violation of probation, activates a sentence or imposes special probation, either in the first instance or upon a de novo hearing after appeal from a district court, the defendant may appeal under G.S. 7A-27.

(b) If a defendant waives a revocation hearing, the finding of a violation of probation, activation of sentence, or imposition of special probation may not be appealed to the superior court."

SECTION 3. G.S. 15A-1335 reads as rewritten:

"§ 15A-1335. Resentencing after appellate review.

When a conviction or sentence imposed in superior court has been set aside on direct review or collateral attack, the court may not impose a new sentence for the same offense, or for a different offense based on the same conduct, which is more severe than the prior sentence less the portion of the prior sentence previously served. This section shall not apply when a defendant, on direct review or collateral attack, succeeds in having a plea of guilty vacated."

SECTION 3.1. G.S. 15A-1420 reads as rewritten:

"§ 15A-1420. Motion for appropriate relief; procedure.

(b2) Noncapital Cases. — Assignment of Motion for Review; Initial Review of Motion; Time Frame for Hearings and Ruling on Motion.

(1) In noncapital cases, the senior resident superior court judge or chief district court judge, as appropriate, shall, within 30 days of the filing of the motion, assign the motion for initial review to the appropriate judge as provided in G.S. 15A-1413.

(2) The assigned judge, no later than 30 working days after the assignment, shall review the motion and issue a written initial review order that concludes the initial review of the motion in one of the following manners: (i) by dismissing the motion for lack of merit on its face, (ii) by directing the State, if necessary, to file an answer within 30 days from the date on which the
initial review order was issued, or (iii) by dispensing with the requirement that the State file an answer and instead order a hearing. Unless the motion is dismissed, the initial review order shall also indicate whether the defendant shall be allowed to proceed without the payment of costs; indicate whether counsel shall be appointed; and calendar a hearing on the motion within the appropriate time period as set out in subdivisions (3) and (4) of this subsection.

(3) Unless provided otherwise by this subsection, if the court determines that an evidentiary hearing is required, then the hearing must be held within 90 days from the date on which the initial review order was issued, if no evidentiary hearing is required, then the hearing must be held within 60 days from the date on which the initial review order was issued. If, in the initial review order, the court orders the State to file an answer and the court determines that an evidentiary hearing is required, then the evidentiary hearing must be held within 150 days from the date on which the initial review order was issued, if the court determines that the hearing is not an evidentiary hearing, then the hearing must be held within 120 days from the date on which the initial review order was issued.

(4) If the court determines pursuant to subdivision (2) of this subsection that counsel shall be appointed, the time periods provided in subdivision (3) of this subsection shall be calculated from the date of the appointment of counsel rather than the date of the initial review order and shall be extended for an additional 60 days.

(5) The court shall provide notice of the date of the hearing to both the State and the defendant, or the defendant's counsel if defendant is represented by counsel, no less than five working days prior to the date of any hearing. The court, except for good cause shown as provided in subdivision (6) of this subsection, must rule on a motion within 60 days from the date that the hearing concludes.

(6) Notwithstanding any other provision of this subsection, the court may, upon request of a party to the motion, grant an extension of time to comply with any deadline under this subsection, not to exceed 30 days. No subsequent request by the party to extend this deadline shall be granted unless the court enters a written order containing detailed findings of fact of extraordinary circumstances. Notwithstanding any other provision of this subsection, the senior resident superior court judge or chief district court judge, as appropriate, may, upon request of a judge assigned to review a motion for appropriate relief, grant an extension of time to comply with any deadline under this subsection, not to exceed 30 days. No subsequent request by the assigned judge to extend this deadline shall be granted unless the senior resident superior court judge or the chief district court judge, as appropriate, enters a written order containing detailed findings of fact of extraordinary circumstances. The failure of the court to comply with the deadlines under this subsection is grounds for any party to petition the senior resident superior court judge or the chief district court judge, as appropriate, to reassign the motion of appropriate relief to a different judge empowered to act upon a motion for appropriate relief. The failure of the court to comply with the deadlines under this subsection also entitles any party to the motion for appropriate relief to seek a writ of mandamus to obtain compliance with the deadline.

(7) Notwithstanding any other provision of this subsection, failure to meet a deadline under this subsection is not a ground for the summary granting of a
motion for appropriate relief or other summary relief, including without limitation, ordering the release of the prisoner.

(b3) Capital Cases—Review and Calendaring of Motion.—In capital cases, the judge shall review the motion and enter an order directing the State to file its answer within 60 days of the date of the order. If a hearing is necessary, the judge shall calendar the case for hearing without unnecessary delay.

AN ACT TO CAP REIMBURSEMENT BY COUNTIES, TO MAKE ADDITIONAL PROVISIONS RELATING TO PAYMENT FOR MEDICAL SERVICES PROVIDED TO INMATES IN COUNTY JAILS, TO ALLOW COUNTIES TO UTILIZE MEDICAID FOR ELIGIBLE PRISONERS, TO PROVIDE THAT VACANCIES IN THE OFFICE OF DISTRICT COURT JUDGE SHALL BE FILLED BY APPOINTMENT OF THE GOVERNOR, AND TO CREATE A PRIVATE RIGHT OF ACTION AGAINST NOTARIES WHO VIOLATE THE NOTARY PUBLIC ACT.

The General Assembly of North Carolina enacts:

SECTION 1. Article 10 of Chapter 153A of the General Statutes is amended by adding a new section to read:

"§ 153A-225.2. Payment of medical care of prisoners.
(a) Counties shall reimburse those providers and facilities providing requested or emergency medical care outside of the local confinement facility the lesser amount of either a rate of seventy percent (70%) of the provider's then-current prevailing charge or two times the then-current Medicaid rate for any given service. Each county shall have the right to audit any provider from whom the county has received a bill for services under this section but only to the extent necessary to determine the actual prevailing charge to ensure compliance with this section.
(b) Nothing in this section shall preclude a county from contracting with a provider for services at rates that provide greater documentable cost avoidance for the county than do the rates contained in subsection (a) of this subsection or at rates that are less favorable to the county but that will ensure the continued access to care.
(c) The county shall make reasonable efforts to equitably distribute prisoners among all hospitals or other appropriate health care facilities located within the same county and shall do so based upon the licensed acute care bed capacity at each of the hospitals located within the same county. Counties with more than one hospital or other appropriate health care facility shall provide semiannual reports conspicuously posted on the county's Web site that detail compliance with this section, including information on the distribution of prisoner health care services among different hospitals and health care facilities.
(d) For the purposes of this section, "requested or emergency medical care" shall include all medically necessary and appropriate care provided to an individual from the time that individual presents to the provider or facility in the custody of county law enforcement officers until the time that the individual is safely transferred back to the care of county law enforcement officers or medically discharged to another community setting, as appropriate."

SECTION 2. G.S. 153A-225(a) reads as rewritten:

"(a) Each unit that operates a local confinement facility shall develop a plan for providing medical care for prisoners in the facility. The plan:
(1) Shall be designed to protect the health and welfare of the prisoners and to avoid the spread of contagious disease;
(2) Shall provide for medical supervision of prisoners and emergency medical care for prisoners to the extent necessary for their health and welfare;
(3) Shall provide for the detection, examination and treatment of prisoners who are infected with tuberculosis or venereal diseases; and
(4) May utilize Medicaid coverage for inpatient hospitalization or for any other Medicaid services allowable for eligible prisoners, provided that the plan includes a reimbursement process which pays to the State the State portion of the costs, including the costs of the services provided and any administrative costs directly related to the services to be reimbursed, to the State's Medicaid program."
The unit shall develop the plan in consultation with appropriate local officials and organizations, including the sheriff, the county physician, the local or district health director, and the local medical society. The plan must be approved by the local or district health director after consultation with the area mental health, developmental disabilities, and substance abuse authority, if it is adequate to protect the health and welfare of the prisoners. Upon a determination that the plan is adequate to protect the health and welfare of the prisoners, the plan must be adopted by the governing body.

As a part of its plan, each unit may establish fees of not more than twenty dollars ($20.00) per incident for the provision of nonemergency medical care to prisoners. In establishing fees pursuant to this section, each unit shall establish a procedure for waiving fees for indigent prisoners.”

SECTION 3. In preparation for the effective date of Section 2 of this act, the Department of Health and Human Services, Division of Medical Assistance, shall work with the North Carolina Association of County Commissioners to prepare for G.S. 153A-225(a)(4), as enacted by Section 2 of this act. The Department of Health and Human Services, Division of Medical Assistance, shall use a uniform method, developed by the North Carolina Association of County Commissioners, which will allow all counties to interface with the Division of Medical Assistance to implement this act. The Department of Public Safety shall provide technical assistance as needed.

SECTION 4. G.S. 7A-142 reads as rewritten:

"§ 7A-142. Vacancies in office.
A vacancy in the office of district judge shall be filled for the unexpired term by appointment of the Governor. The bar of the judicial district, as defined in G.S. 84-19, shall nominate five persons who are residents of the judicial district who are duly authorized to practice law in the district for consideration by the Governor. The nominees shall be selected by vote of only those bar members who reside in the district. In the event fewer than five persons are nominated, upon providing the nominations to the Governor, the bar shall certify that there were insufficient nominations in the district to comply with this section. Prior to filling the vacancy, the Governor shall give due consideration to the nominations provided by the bar of the judicial district from nominations submitted by the bar of the judicial district as defined in G.S. 84-19, except that in judicial District 9, when vacancies occur in District Court District 9 or 9B, only those members who reside in the district court district shall participate in the selection of the nominees. When vacancies occur in District Court District 18, all members who reside in the district court district shall participate in the selection of the nominees. If the district court district is comprised of counties in more than one judicial district, the nominees shall be submitted jointly by the bars of those judicial districts, but only those members who reside in the district court district shall participate in the selection of the nominees. If the district court judge was elected as the nominee of a political party, then the district bar shall submit to the Governor the names of three persons who are residents of the district court district who are duly authorized to practice law in the district and who are members of the same political party as the vacating judge; provided that if there are not three persons who are available, the bar shall submit the names of two persons who meet the qualifications of this sentence. If the district court judge was not elected as the nominee of a political party, then the district bar shall submit to the Governor the names of three persons who are residents of the district court district and who are duly authorized to practice law in the district, provided that if there are not three persons who are available, the bar shall submit the names of two persons who meet the qualifications of this sentence. Within 60 days after the district bar submits nominations for a vacancy, the Governor shall appoint to fill the vacancy. If the Governor fails to appoint a district bar nominee within 60 days, then the district bar nominee who received the highest number of votes from the district bar shall fill the vacancy. If the district bar fails to submit nominations within 30 days from the date the vacancy occurs, the Governor may appoint to fill the vacancy without waiting for nominations.”

SECTION 5. G.S. 10B-60(g) reads as rewritten:

e. Each county in the State located in whole or in part of the receiving river basin.

(3) By giving notice by first-class mail or electronic mail to each of the following:

a. The board of commissioners of each county in this State or the governing body of any county or city that is politically independent of a county in any state that is located entirely or partially within the source river basin of the proposed transfer and that also falls within, in whole or in part, the area denoted by one of the eight-digit cataloging units listed in sub-subdivision b. of subdivision (2) of this subsection.

b. The board of commissioners of each county in this State or the governing body of any county or city that is politically independent of a county in any state that is located entirely or partially within the receiving river basin of the proposed transfer and that also falls within, in whole or in part, the area denoted by one of the eight-digit cataloging units listed in sub-subdivision b. of subdivision (2) of this subsection.
c. The governing body of any public water supply system that withdraws water upstream or downstream from the withdrawal point of the proposed transfer.

d. If any portion of the source or receiving river basins is located in another state, all state water management or use agencies, environmental protection agencies, and the office of the governor in that state upstream or downstream from the withdrawal point of the proposed transfer.

h. To any other person who submits to the applicant a written request to receive all notices relating to the petition.

(d) Environmental Documents. – The definitions set out in G.S. 113A-9 apply to this section. The Department shall conduct a study of the environmental impacts of any proposed transfer of water for which a certificate is required under this section. The study shall meet all of the requirements set forth in G.S. 113A-4 and rules adopted pursuant to G.S. 113A-4. An environmental assessment shall be prepared for any petition for a certificate under this section. The determination of whether an environmental impact statement shall also be required shall be made in accordance with the provisions of Article 1 of Chapter 113A of the General Statutes; except that an environmental impact statement shall be prepared for every proposed transfer of water from one major river basin to another for which a certificate is required under this section. The applicant who petitions the Commission for a certificate under this section shall pay the cost of special studies necessary to comply with Article 1 of Chapter 113A of the General Statutes. An environmental impact statement prepared pursuant to this subsection shall include all of the following:

(1) A comprehensive analysis of the impacts that would occur in the source river basin and the receiving river basin if the petition for a certificate is granted.

(2) An evaluation of alternatives to the proposed interbasin transfer, including water supply sources that do not require an interbasin transfer and use of water conservation measures.

(3) A description of measures to mitigate any adverse impacts that may arise from the proposed interbasin transfer.

(e) Public Hearing on the Draft Environmental Document. – The Commission shall hold a public hearing on the draft environmental document for a proposed interbasin transfer after giving at least 30 days' written notice of the hearing in the Environmental Bulletin and as provided in subdivisions (2) and (3) of subsection (c) of this section. The notice shall indicate where a copy of the environmental document can be reviewed and the procedure to be followed by anyone wishing to submit written comments and questions on the environmental document. The Commission shall prepare a record of all comments and written responses to questions posed in writing. The record shall include complete copies of scientific or technical comments related to the potential impact of the interbasin transfer. The Commission shall accept written comment on the draft environmental document for a minimum of 30 days following the last public hearing. The applicant who petitions the Commission for a certificate under this section shall pay the costs associated with the notice and public hearing on the draft environmental document.
(f) Determination of Adequacy of Environmental Document. – The Commission shall not act on any petition for an interbasin transfer until the Commission has determined that the environmental document is complete and adequate. A decision on the adequacy of the environmental document is subject to review in a contested case on the decision of the Commission to issue or deny a certificate under this section.

(g) Petition. – An applicant for a certificate shall petition the Commission for the certificate. The petition shall be in writing and shall include all of the following:

1. A general description of the facilities to be used to transfer the water, including the location and capacity of water intakes, pumps, pipelines, and other facilities, including current and projected areas to be served by the transfer, current and projected capacities of intakes, and other relevant facilities.

2. A description of all the proposed consumptive and nonconsumptive uses of the water to be transferred.

3. A description of the water quality of the source river and receiving river, including information on aquatic habitat for rare, threatened, and endangered species; in-stream flow data for segments of the source and receiving rivers that may be affected by the transfer; and any waters that are impaired pursuant to section 303(d) of the federal Clean Water Act (33 U.S.C. § 1313(d)).

4. A description of the water conservation measures used by the applicant at the time of the petition and any additional water conservation measures that the applicant will implement if the certificate is granted.

5. A description of all sources of water within the receiving river basin, including surface water impoundments, groundwater wells, reinjection storage, and purchase of water from another source within the river basin, that is a practicable alternative to the proposed transfer that would meet the applicant's water supply needs. The description of water sources shall include sources available at the time of the petition for a certificate and any planned or potential water sources.

6. A description of water transfers and withdrawals registered under G.S. 143-215.22H or included in a local water supply plan prepared pursuant to G.S. 143-355(l) from the source river basin, including transfers and withdrawals at the time of the petition for a certificate and any planned or reasonably foreseeable transfers or withdrawals by a public water system with service area located within the source river basin.

7. A demonstration that the proposed transfer, if added to all other transfers and withdrawals required to be registered under G.S. 143-215.22H or included in any local water supply plan prepared by a public water system with service area located within the source basin pursuant to G.S. 143-355(l) from the source river basin at the time of the petition for a certificate, would not reduce the amount of water available for use in the source river basin to a degree that would impair existing uses, pursuant to the antidegradation policy set out in 40 Code of Federal Regulation § 131.12 (Antidegradation Policy) (1 July 2006 Edition) and the statewide antidegradation policy adopted pursuant thereto, or existing and planned consumptive and nonconsumptive uses of the water in the source river basin. If the proposed transfer would impact a reservoir within the source river basin, the demonstration must include a finding that the transfer would not result in a water level in the reservoir that is inadequate to support existing uses of the reservoir, including recreational uses.

8. The applicant's future water supply needs and the present and reasonably foreseeable future water supply needs for public water systems with service
area located within the source river basin. The analysis of future water supply needs shall include agricultural, recreational, and industrial uses, and electric power generation. Local water supply plans prepared pursuant to G.S. 143-355(l) for water systems with service area located within the source river basin shall be used to evaluate the projected future water needs in the source river basin that will be met by public water systems.

(9) The applicant's water supply plan prepared pursuant to G.S. 143-355(l). If the applicant's water supply plan is more than two years old at the time of the petition, then the applicant shall include with the petition an updated water supply plan.

(10) Any other information deemed necessary by the Commission for review of the proposed water transfer.

(h) Settlement Discussions. – Upon the request of the applicant, any interested party, or the Department, or upon its own motion, the Commission may appoint a mediation officer. The mediation officer may be a member of the Commission, an employee of the Department, or a neutral third party but shall not be a hearing officer under subsections (e) or (j) of this section. The mediation officer shall make a reasonable effort to initiate settlement discussions between the applicant and all other interested parties. Evidence of statements made and conduct that occurs in a settlement discussion conducted under this subsection, whether attributable to a party, a mediation officer, or other person shall not be subject to discovery and shall be inadmissible in any subsequent proceeding on the petition for a certificate. The Commission may adopt rules to govern the conduct of the mediation process.

(i) Draft Determination. – Within 90 days after the Commission determines that the environmental document prepared in accordance with subsection (d) of this section is adequate or the applicant submits its petition for a certificate, whichever occurs later, the Commission shall issue a draft determination on whether to grant the certificate. The draft determination shall be based on the criteria set out in this section and shall include the conditions and limitations, findings of fact, and conclusions of law that would be required in a final determination. Notice of the draft determination shall be given as provided in subsection (c) of this section.

(j) Public Hearing on the Draft Determination. – Within 60 days of the issuance of the draft determination as provided in subsection (i) of this section, the Commission shall hold public hearings on the draft determination. At least one hearing shall be held in the affected area of the source river basin, and at least one hearing shall be held in the affected area of the receiving river basin. In determining whether more than one public hearing should be held within either the source or receiving river basins, the Commission shall consider the differing or conflicting interests that may exist within the river basins, including the interests of both upstream and downstream parties potentially affected by the proposed transfer. The public hearings shall be conducted by one or more hearing officers appointed by the Chair of the Commission. The hearing officers may be members of the Commission or employees of the Department. The Commission shall give at least 30 days' written notice of the public hearing as provided in subsection (c) of this section. The Commission shall accept written comment on the draft determination for a minimum of 30 days following the last public hearing. The Commission shall prepare a record of all comments and written responses to questions posed in writing. The record shall include complete copies of scientific or technical comments related to the potential impact of the interbasin transfer. The applicant who petitions the Commission for a certificate under this section shall pay the costs associated with the notice and public hearing on the draft determination.

(k) Final Determination: Factors to be Considered. – In determining whether a certificate may be issued for the transfer, the Commission shall specifically consider each of the following items and state in writing its findings of fact and conclusions of law with regard to each item:
(1) The necessity and reasonableness of the amount of surface water proposed to be transferred and its proposed uses.

(2) The present and reasonably foreseeable future detrimental effects on the source river basin, including present and future effects on public, industrial, economic, recreational, and agricultural water supply needs, wastewater assimilation, water quality, fish and wildlife habitat, electric power generation, navigation, and recreation. Local water supply plans for public water systems with service area located within the source river basin prepared pursuant to G.S. 143-355(l) shall be used to evaluate the projected future water needs in the source river basin that will be met by public water systems. Information on projected future water needs for public water systems with service area located within the source river basin that is more recent than the local water supply plans may be used if the Commission finds the information to be reliable. The determination shall include a specific finding as to measures that are necessary or advisable to mitigate or avoid detrimental impacts on the source river basin.

(3) The cumulative effect on the source major river basin of any water transfer or consumptive water use that, at the time the Commission considers the petition for a certificate is occurring, is authorized under this section, or is projected in any local water supply plan for public water systems with service area located within the source river basin that has been submitted to the Department in accordance with G.S. 143-355(l).

(4) The present and reasonably foreseeable future beneficial and detrimental effects on the receiving river basin, including present and future effects on public, industrial, economic, recreational, and agricultural water supply needs, wastewater assimilation, water quality, fish and wildlife habitat, electric power generation, navigation, and recreation. Local water supply plans prepared pursuant to G.S. 143-355(l) that affect the receiving river basin shall be used to evaluate the projected future water needs in the receiving river basin that will be met by public water systems. Information on projected future water needs that is more recent than the local water supply plans may be used if the Commission finds the information to be reliable. The determination shall include a specific finding as to measures that are necessary or advisable to mitigate or avoid detrimental impacts on the receiving river basin.

(5) The availability of reasonable alternatives to the proposed transfer, including the potential capacity of alternative sources of water, the potential of each alternative to reduce the amount of or avoid the proposed transfer, probable costs, and environmental impacts. In considering alternatives, the Commission is not limited to consideration of alternatives that have been proposed, studied, or considered by the applicant. The determination shall include a specific finding as to why the applicant's need for water cannot be satisfied by alternatives within the receiving basin, including unused capacity under a transfer for which a certificate is in effect or that is otherwise authorized by law at the time the applicant submits the petition. The determination shall consider the extent to which access to potential sources of surface water or groundwater within the receiving river basin is no longer available due to depletion, contamination, or the declaration of a capacity use area under Part 2 of Article 21 of Chapter 143 of the General Statutes. The determination shall consider the feasibility of the applicant's purchase of water from other water suppliers within the receiving basin and of the transfer of water from another sub-basin within the receiving major river basin. Except in circumstances of technical or economic infeasibility or
adverse environmental impact, the Commission’s determination as to reasonable alternatives shall give preference to alternatives that would involve a transfer from one sub-basin to another within the major receiving river basin over alternatives that would involve a transfer from one major river basin to another major river basin.

(6) If applicable to the proposed project, the applicant's present and proposed use of impoundment storage capacity to store water during high-flow periods for use during low-flow periods and the applicant's right of withdrawal under G.S. 143-215.44 through G.S. 143-215.50.

(7) If the water to be withdrawn or transferred is stored in a multipurpose reservoir constructed by the United States Army Corps of Engineers, the purposes and water storage allocations established for the reservoir at the time the reservoir was authorized by the Congress of the United States.

(8) Whether the service area of the applicant is located in both the source river basin and the receiving river basin.

(9) Any other facts and circumstances that are reasonably necessary to carry out the purposes of this Part.

(l) Final Determination: Information to be Considered. – In determining whether a certificate may be issued for the transfer, the Commission shall consider all of the following sources of information:

(1) The petition.

(2) The environmental document prepared pursuant to subsection (d) of this section.

(3) All oral and written comment and all accompanying materials or evidence submitted pursuant to subsections (e) and (j) of this section.

(4) Information developed by or available to the Department on the water quality of the source river basin and the receiving river basin, including waters that are identified as impaired pursuant to section 303(d) of the federal Clean Water Act (33 U.S.C. §1313(d)), that are subject to a total maximum daily load (TMDL) limit under subsections (d) and (e) of section 303 of the federal Clean Water Act, or that would have their assimilative capacity impaired if the certificate is issued.

(5) Any other information that the Commission determines to be relevant and useful.

(m) Final Determination: Burden and Standard of Proof; Specific Findings. – The Commission shall grant a certificate for a water transfer if the Commission finds that the applicant has established by a preponderance of the evidence all of the following:

(1) The benefits of the proposed transfer outweigh the detriments of the proposed transfer. In making this determination, the Commission shall be guided by the approved environmental document and the policy set out in subsection (t) of this section.

(2) The detriments have been or will be mitigated to the maximum degree practicable.

(3) The amount of the transfer does not exceed the amount of the projected shortfall under the applicant's water supply plan after first taking into account all other sources of water that are available to the applicant.

(4) There are no reasonable alternatives to the proposed transfer.

(n) Final Determination: Certificate Conditions and Limitations. – The Commission may grant the certificate in whole or in part, or deny the certificate. The Commission may impose any conditions or limitations on a certificate that the Commission finds necessary to achieve the purposes of this Part including a limit on the period for which the certificate is valid. The conditions and limitations shall include any mitigation measures proposed by the
applicant to minimize any detrimental effects within the source and receiving river basins. In addition, the certificate shall require all of the following conditions and limitations:

1. A water conservation plan that specifies the water conservation measures that will be implemented by the applicant in the receiving river basin to ensure the efficient use of the transferred water. Except in circumstances of technical or economic infeasibility or adverse environmental impact, the water conservation plan shall provide for the mandatory implementation of water conservation measures by the applicant that equal or exceed the most stringent water conservation plan implemented by a community water system, as defined in G.S. 143-355(1), public water system that withdraws water from the source river basin.

2. A drought management plan that specifies how the transfer shall be managed to protect the source river basin during drought conditions or other emergencies that occur within the source river basin. Except in circumstances of technical or economic infeasibility or adverse environmental impact, this drought management plan shall include mandatory reductions in the permitted amount of the transfer based on the severity and duration of a drought occurring within the source river basin and shall provide for the mandatory implementation of a drought management plan by the applicant that equals or exceeds the most stringent water conservation plan implemented by a community water system, as defined in G.S. 143-355(1), public water system that withdraws water from the source river basin.

3. The maximum amount of water that may be transferred on a daily basis, transferred, calculated as a daily average of a calendar month, and methods or devices required to be installed and operated that measure the amount of water that is transferred.

4. A provision that the Commission may amend a certificate to reduce the maximum amount of water authorized to be transferred whenever it appears that an alternative source of water is available to the certificate holder from within the receiving river basin, including, but not limited to, the purchase of water from another water supplier within the receiving basin or to the transfer of water from another sub-basin within the receiving major river basin.

5. A provision that the Commission shall amend the certificate to reduce the maximum amount of water authorized to be transferred if the Commission finds that the applicant's current projected water needs are significantly less than the applicant's projected water needs at the time the certificate was granted.

6. A requirement that the certificate holder report the quantity of water transferred during each calendar quarter. The report required by this subdivision shall be submitted to the Commission no later than 30 days after the end of the quarter.

7. Except as provided in this subdivision, a provision that the applicant will not resell the water that would be transferred pursuant to the certificate to another public water supply system. This limitation shall not apply in the case of a proposed resale or transfer among public water supply systems within the receiving river basin as part of an interlocal agreement or other regional water supply arrangement, provided that each participant in the interlocal agreement or regional water supply arrangement is a co-applicant for the certificate and will be subject to all the terms, conditions, and limitations made applicable to any lead or primary applicant.
(o) Administrative and Judicial Review. – Administrative and judicial review of a final decision on a petition for a certificate under this section shall be governed by Chapter 150B of the General Statutes.

(p) Certain Preexisting Transfers. – In cases where an applicant requests approval to increase a transfer that existed on 1 July 1993, the Commission may approve or disapprove only the amount of the increase. If the Commission approves the increase, the certificate shall be issued for the amount of the preexisting transfer plus any increase approved by the Commission. A certificate for a transfer approved by the Commission under G.S. 162A-7 shall remain in effect as approved by the Commission and shall have the same effect as a certificate issued under this Part. A certificate for the increase of a preexisting transfer shall contain all of the conditions and limitations required by subsection (m) of this section.

(q) Emergency Transfers. – In the case of water supply problems caused by drought, a pollution incident, temporary failure of a water plant, or any other temporary condition in which the public health, safety, or welfare requires a transfer of water, the Secretary of Environment and Natural Resources may grant approval for a temporary transfer. Prior to approving a temporary transfer, the Secretary shall consult with those parties listed in subdivision (3) of subsection (c) of this section that are likely to be affected by the proposed transfer. However, the Secretary shall not be required to satisfy the public notice requirements of this section or make written findings of fact and conclusions of law in approving a temporary transfer under this subsection. If the Secretary approves a temporary transfer under this subsection, the Secretary shall specify conditions to protect other water users. A temporary transfer shall not exceed six months in duration, but the approval may be renewed for a period of six months by the Secretary based on demonstrated need as set forth in this subsection.

(r) Relationship to Federal Law. – The substantive restrictions, conditions, and limitations upon surface water transfers authorized in this section may be imposed pursuant to any federal law that permits the State to certify, restrict, or condition any new or continuing transfers or related activities licensed, relicensed, or otherwise authorized by the federal government. This section shall govern the transfer of water from one river basin to another unless preempted by federal law.

(s) Planning Requirements. – When any transfer for which a certificate was issued under this section equals or exceeds eighty percent (80%) of the maximum amount authorized in the certificate, the applicant shall submit to the Department a detailed plan that specifies how the applicant intends to address future foreseeable water needs. If the applicant is required to have a local water supply plan, then this plan shall be an amendment to the local water supply plan required by G.S.143-355(l). When the transfer equals or exceeds ninety percent (90%) of the maximum amount authorized in the certificate, the applicant shall begin implementation of the plan submitted to the Department.

(t) Statement of Policy. – It is the public policy of the State to maintain, protect, and enhance water quality within North Carolina. It is the public policy of this State that the reasonably foreseeable future water needs of a public water system with its service area located primarily in the receiving river basin are subordinate to the reasonably foreseeable future water needs of a public water system with its service area located primarily in the source river basin. Further, it is the public policy of the State that the cumulative impact of transfers from a source river basin shall not result in a violation of the antidegradation policy set out in 40 Code of Federal Regulations § 131.12 (1 July 2006 Edition) and the statewide antidegradation policy adopted pursuant thereto.

(u) Renewal of Certificate. – A petition to extend or renew a certificate shall be treated as a new petition.

(v) Modification of Certificate. – A certificate may be modified as provided in this subsection.

(1) The Commission or the Department may make any of the following modifications to a certificate after providing electronic notice to persons who have identified themselves in writing as interested parties:
a. Correction of typographical errors.
b. Clarification of existing conditions or language.
c. Updates, requested by the certificate holder, to a conservation plan, drought management plan, or compliance and monitoring plan.
d. Modifications requested by the certificate holder to reflect altered requirements due to the amendment of this section.

(2) A person who holds a certificate for an interbasin transfer of water may request that the Commission modify the certificate. The request shall be considered and a determination made according to the following procedures:

a. The certificate must have been issued pursuant to G.S. 162A-7, 143-215.22I, or 143-215.22L and the certificate holder must be in substantial compliance with the certificate.

b. The certificate holder shall file a notice of intent to file a request for modification that includes a nontechnical description of the certificate holder's request and identification of the proposed water source.

c. The certificate holder shall prepare an environmental document pursuant to subsection (d) of this section, except that an environmental impact statement shall not be required for the modification of a certificate unless it would otherwise be required by Article 1 of Chapter 113A of the General Statutes.

d. Upon determining that the documentation submitted by the certificate holder is adequate to satisfy the requirements of this subsection, the Department shall publish a notice of the request for modification in the North Carolina Register and shall hold a public hearing at a location convenient to both the source and receiving river basins. The Department shall provide written notice of the request for the modification and the public hearing in the Environmental Bulletin, a newspaper of general circulation in the source river basin, a newspaper of general circulation in the receiving river basin, and as provided in subdivision (3) of subsection (c) of this section. The certificate holder who petitions the Commission for a modification under this subdivision shall pay the costs associated with the notice and public hearing.

e. The Department shall accept comments on the requested modification for a minimum of 30 days following the public hearing.

f. The Commission or the Department may require the certificate holder to provide any additional information or documentation it deems reasonably necessary in order to make a final determination.

g. The Commission shall make a final determination whether to grant the requested modification based on the factors set out in subsection (k) of this section, information provided by the certificate holder, and any other information the Commission deems relevant. The Commission shall state in writing its findings of fact and conclusions of law with regard to each factor.

h. The Commission shall grant the requested modification if it finds that the certificate holder has established by a preponderance of the evidence that the requested modification satisfies the requirements of subsection (m) of this section. The Commission may grant the requested modification in whole or in part, or deny the request, and may impose such limitations and conditions on the modified certificate as it deems necessary and relevant to the modification.
i. The Commission shall not grant a request for modification if the modification would result in the transfer of water to an additional major river basin.

j. The Commission shall not grant a request for modification if the modification would be inconsistent with the December 3, 2010 Settlement Agreement entered into between the State of North Carolina, the State of South Carolina, Duke Energy Carolinas, and the Catawba River Water Supply Project.

(w) Requirements for Coastal Counties. – A petition for a certificate to transfer surface water to supplement ground water supplies in the 15 counties designated as the Central Capacity Use Area under 15A NCAC 2E.0501, or to transfer surface water withdrawn from the mainstem of a river to provide service to one of the coastal area counties designated pursuant to G.S. 113A-103, shall be considered and a determination made according to the following procedures:

1. The applicant shall file a notice of intent that includes a nontechnical description of the applicant's request and identification of the proposed water source.

2. The applicant shall prepare an environmental document pursuant to subsection (d) of this section, except that an environmental impact statement shall not be required unless it would otherwise be required by Article 1 of Chapter 113A of the General Statutes.

3. Upon determining that the documentation submitted by the applicant is adequate to satisfy the requirements of this subsection, the Department shall publish a notice of the petition in the North Carolina Register and shall hold a public hearing at a location convenient to both the source and receiving river basins. The Department shall provide written notice of the petition and the public hearing in the Environmental Bulletin, a newspaper of general circulation in the source river basin, a newspaper of general circulation in the receiving river basin, and as provided in subdivision (3) of subsection (c) of this section. The applicant who petitions the Commission for a certificate under this subdivision shall pay the costs associated with the notice and public hearing.

4. The Department shall accept comments on the petition for a minimum of 30 days following the public hearing.

5. The Commission or the Department may require the applicant to provide any additional information or documentation it deems reasonably necessary in order to make a final determination.

6. The Commission shall make a final determination whether to grant the certificate based on the factors set out in subsection (k) of this section, information provided by the applicant, and any other information the Commission deems relevant. The Commission shall state in writing its findings of fact and conclusions of law with regard to each factor.

7. The Commission shall grant the certificate if it finds that the applicant has established by a preponderance of the evidence that the petition satisfies the requirements of subsection (m) of this section. The Commission may grant the certificate in whole or in part, or deny the request, and may impose such limitations and conditions on the certificate as it deems necessary and relevant.

(a) Any person residing in this State may seek relief under this Chapter by filing a civil action or by filing a motion in any existing action filed under Chapter 50 of the General Statutes alleging acts of domestic violence against himself or herself or a minor child who resides with or is in the custody of such person. Any aggrieved party entitled to relief under this Chapter may file a civil action and proceed pro se, without the assistance of legal counsel. The district court division of the General Court of Justice shall have original jurisdiction over actions instituted under this Chapter. Any action for a domestic violence protective order requires that a summons be issued and served. The summons issued pursuant to this Chapter shall require the defendant to answer within 10 days of the date of service. Attachments to the summons shall include the complaint, notice of hearing, any temporary or ex parte order that has been issued, and other papers through the appropriate law enforcement agency where the defendant is to be served. Session Law 2013-391
S.L. 2013-391
AN ACT TO MAKE TECHNICAL, ADMINISTRATIVE, AND CLARIFYING CHANGES TO THE UNEMPLOYMENT INSURANCE LAWS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 96-6(a), as rewritten by S.L. 2013-2, reads as rewritten:
"(a) Establishment and Use. – The Unemployment Insurance Fund is established as an enterprise fund. The Division must administer the fund solely for the payment of unemployment compensation as that term is defined by section 3306(h) of the Code, exclusive of expenses of administration, and for refunds of sums erroneously paid into the fund, exclusively for the purposes of this Chapter. No money in the fund may be used, directly or indirectly, to pay interest on an advance received from the Unemployment Trust Fund. This fund consists of the following sources of revenue:

(8) Amounts transferred from the Unemployment Insurance Reserve Fund."

SECTION 2. G.S. 96-9.2, as enacted by S.L. 2013-2 and as rewritten by S.L. 2013-224, reads as rewritten:
"§ 96-9.2. Required contributions to the Unemployment Insurance Fund.
(a) Required Contribution. – An employer is required to make a contribution in each calendar year to the Unemployment Insurance Fund in an amount equal to the applicable percentage of the taxable wages the employer pays its employees during the year for services performed in this State. An employer may not deduct the contributions due in whole or in part from the remuneration of the individuals employed. Taxable wages are determined in accordance with G.S. 96-9.3. The applicable percentage for an employer is considered the employer's contribution rate and determined in accordance with this section. The contribution rate is determined by the employer's base rate and the balance in the Unemployment Insurance Fund as of the computation date. Taxable wages are determined in accordance with G.S. 96-9.3. An employer's base rate is the employer's experience rating. An employer's experience rating is computed as a reserve ratio in accordance with G.S. 96-9.4. An employer's reserve ratio percentage (ERRP) is the employer's reserve ratio multiplied by sixty-eight hundredths. A positive ERRP produces a lower contribution rate, and a negative ERRP produces a higher contribution rate.

(b) Contribution Rate for Standard-Beginning Employer Rate. – The contribution rate for a standard beginning employer applies to an employer until the employer's account has been chargeable with benefits for at least 12 calendar months ending July 31 immediately preceding the computation date if one percent (1%) date. An employer's account has been
chargeable with benefits for at least 12 calendar months if the employer has reported wages paid in four completed calendar quarters and its liability extends over all or part of two consecutive calendar years.

(c) **Contribution Rate for Experience-Rated Employer.** – The contribution rate for an experience-rated employer who does not qualify as a beginning employer under subsection (b) of this section is determined in accordance with the table set out below and then rounded to the nearest one-hundredth percent (0.01%), subject to the minimum and maximum contribution rates. The minimum contribution rate is six-hundredths of one percent (0.06%). The maximum contribution rate is five and seventy-six hundredths percent (5.76%). "Total insured wages" are the total wages reported by all insured employers for the 12-month period ending on July 31 preceding the computation date. An employer's experience rating is computed as a reserve ratio in accordance with G.S. 96-9.4. An employer's reserve ratio percentage (ERRP) is the employer's reserve ratio multiplied by sixty-eight hundredths. A positive ERRP produces a lower contribution rate, and a negative ERRP produces a higher contribution rate.

(d) **Notification of Contribution Rate.** – The Division must notify an employer of the employer's contribution rate for a calendar year by January 1 of that year. The contribution rate becomes final unless the employer files an application for review and redetermination prior to May 1 following the effective date of the contribution rate. The Division may redetermine the contribution rate on its own motion within the same time period.

(e) **Voluntary Contribution.** – An employer that is subject to this section may make a voluntary contribution to the Unemployment Insurance Fund in addition to its required contribution. A voluntary contribution is credited to the employer's account. A voluntary contribution made by an employer within 30 days after the date on an annual notice of its contribution rate is considered to have been made as of the previous July 31.”

SECTION 3. G.S. 96-14.1, as enacted by S.L. 2013-2 and as amended by S.L. 2013-224, reads as rewritten:

"(a) Purpose. – The purpose of this Article is to provide temporary unemployment benefits as required by federal law to an individual who is unemployed through no fault on the part of the individual and who is able, available, and actively seeking work. Benefits are payable on the basis of service, to which section 3309(a)(1) of the Code applies, performed for a governmental entity, a nonprofit organization, and an Indian tribe in the same amount, on the same terms, and subject to the same conditions as compensation payable on the basis of other service.

(c) Qualification Determination. – An individual's qualification for benefits is determined based on the reason for separation from employment from the individual's bona fide employer. The individual's bona fide employer is the most recent employer for whom the individual began employment for an indefinite duration or a duration of more than 30 consecutive calendar days, regardless of whether work was performed on all of those days. An individual who is disqualified has no right to benefits. An individual who is disqualified may have the disqualification removed if the individual files a valid claim based on employment with a bona fide employer that employed the individual subsequent to the employment that resulted in disqualification. An individual who had a prior disqualification removed may be determined to be disqualified based on the reason for separation from employment from the
individual's most recent bona fide employer, and the individual must be otherwise eligible for benefits.

(e) Federal Restrictions. – Benefits are not payable for services performed by the following individuals, to the maximum extent allowed prohibited by section 3304 of the Code:

(1) Instructional, research, or principal administrative employees of educational institutions.

(2) Employees who provide services in any other capacity for an educational institution.

(3) Individuals who performed services described in either subdivision (1) or (2) of this subsection in an educational institution while in the employ of an educational service agency. The term "educational service agency" has the same meaning as defined in section 3304 of the Code.

(4) Professional athletes.

(5) Aliens.

SECTION 4. G.S. 96-14.2(c), as enacted by S.L. 2013-2, reads as rewritten:

"(c) Retirement Reduction. – The amount of benefits payable to an individual must be reduced as provided in section 3304(a)(15) of the Code. This subsection does not apply to social security retirement benefits."

SECTION 5. G.S. 96-14.9(h), as enacted by S.L. 2013-2, reads as rewritten:

"(h) Job Training. – An individual who is otherwise eligible may not be denied benefits for any week because of the application to any such week of requirements relating to availability for work, active search for work, or refusal to accept work if the individual is attending a training program approved by the Division. The individual satisfies the work search requirements for any given week if the Division determines for that week that one or more of the following applies:

AN ACT TO DELAY ADDITIONAL IMPLEMENTATION OF THE JORDAN LAKE RULES AND JORDAN LAKE SESSION LAWS AND PROVIDE FOR ALTERNATIVE IMPLEMENTATION OF THE PROTECTION OF EXISTING BUFFERS RULE.

Whereas, the United States Congress authorized the United States Army Corps of Engineers (USACE) to create what is now the B. Everett Jordan Lake in 1963; and

Whereas, the USACE submitted a Final Environmental Impact Statement (EIS) in November 1971 that stated, "Of primary concern is the eutrophic tendency of the lake. Eutrophication is a term used to describe the natural change in productivity of a lake during aging. It is usually a long-term phenomenon, which may be measured in geologic time .... Studies have shown that, assuming that all other elements necessary are available, the amounts of nitrogen and phosphorus presently found in the influent are adequate to produce algae blooms in the lake."; and

Whereas, the USACE stated in the EIS, "Several studies have indicated that the major water quality problem will be associated with anticipated nuisance algal growths resulting from excess nutrients from upstream sources."; and

Whereas, the United States Environmental Protection Agency (EPA) commented in the EIS, "Nutrient concentration in both the Haw River and New Hope River are high, and nuisance algal growth detrimental to water supply and recreation are a virtual certainty .... Impoundment should not take place until there is a strong technical basis for the prediction that nuisance algal growths will not occur."; and

Whereas, the USACE, in responding to the EPA's comments in the EIS, stated, "... it is doubtful whether a strong technical basis exists for the prediction that nuisance algal growths will not occur on most existing reservoirs ..."; and

Whereas, the United States Department of the Interior Bureau of Sport Fisheries and Wildlife commented in the EIS that, "High nutrient concentrations will intensify and extend water quality problems into the upper surface layers. Therefore, impoundment will create a pollution problem to the detriment of the ecosystem."; and

Whereas, the EIS contained a summary of complaints from pending litigation that included, "Even in the absence of nutrients from wastes, the shallowness ... would ensure abnormally heavy algae growths that could not be controlled .... Probably the most serious deficiency of defendants' environmental statement is its de-emphasis on the certainty that the water ... will be of exceptionally bad quality."; and

Whereas, despite the many inherent challenges of managing the water quality of Jordan Lake, the General Assembly remains committed to addressing issues that affect the water quality of the Lake; and

Whereas, it is the intent of the General Assembly to continue implementation of current measures to address water quality issues in Jordan Lake; and

Whereas, it is the intent of the General Assembly to temporarily delay additional implementation of measures to address water quality issues in Jordan Lake in order to allow for further evaluation of those measures and further exploration of other measures and technologies to improve the water quality of the Lake; Now, therefore,

The General Assembly of North Carolina enacts:

AN ACT TO AMEND THE STATUTES GOVERNING GUARANTEED ENERGY SAVINGS CONTRACTS FOR GOVERNMENTAL UNITS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-64.17 reads as rewritten:

"§ 143-64.17. Definitions."

As used in this Part:

(5) "Qualified provider" means a person or business experienced in the design, implementation, and installation of energy conservation measures who has been prequalified by the State Energy Office according to the prequalification criteria established by that Office.

(5a) "Qualified reviewer" means an architect or engineer who is (i) licensed in this State and (ii) experienced in the design, implementation, and installation of energy efficiency measures.

SECTION 2. G.S. 143-64.17A reads as rewritten:

"§ 143-64.17A. Solicitation of guaranteed energy savings contracts."

(a) RFP Issuance. – Before entering into a guaranteed energy savings contract, a governmental unit shall issue a request for proposals. Notice of the request shall be published at least 15 days in advance of the time specified for opening of the proposals in at least one newspaper of general circulation in the geographic area for which the local governmental unit is responsible or, in the case of a State governmental unit, in which the facility or facilities are located. No guaranteed energy savings contract shall be awarded by any governmental unit unless at least two proposals have been received from qualified providers. Provided that if after the publication of the notice of the request for proposals, fewer than two proposals have been received from qualified providers, or fewer than two qualified providers attend the mandatory prebid meeting, the governmental unit shall again publish notice of the request and if as a result of the second notice, one or more proposals by qualified providers are received, the governmental unit may then open the proposals and select a qualified provider even if only one proposal is received.

(b) Preliminary Proposal Evaluation. – The governmental unit shall evaluate a sealed proposal from any qualified provider. Proposals shall contain estimates of all costs of
installation, modification, or remodeling, including costs of design, engineering, installation, maintenance, repairs, debt service, and estimates of energy savings. A qualified reviewer shall be required to evaluate the proposals and will provide the governmental unit with a letter report containing both qualitative and quantitative evaluation of the proposals. The report may include a recommendation for selection, but the governmental unit is not obligated to follow it.

(c) Receipt of Proposals for Unit of Local Government. – In the case of a local governmental unit, proposals received pursuant to this section shall be opened by a member or an employee of the governing body of the local governmental unit at a public opening at which the contents of the proposals shall be announced and recorded in the minutes of the governing body. Proposals shall be evaluated for the local governmental unit by a licensed architect or engineer, a qualified reviewer on the basis of:

(1) The information required in subsection (b) of this section; and

(2) The criteria stated in the request for proposals.

The local governmental unit may require a qualified provider to include in calculating the cost of a proposal for a guaranteed energy savings contract any reasonable fee payable by the local governmental unit for the evaluation of the proposal by a licensed architect or professional engineer, a qualified reviewer not employed as a member of the staff of the local governmental unit or the qualified provider.

(c1) Receipt of Proposals for Unit of State Government. – In the case of a State governmental unit, proposals received pursuant to this section shall be opened by a member or an employee of the State governmental unit at a public opening and the contents of the proposals shall be announced at this opening. The proposal shall be evaluated on the basis of the information and report required in subsection (b) of this section and the criteria stated in the request for proposals.

The State governmental unit shall require a qualified provider to include in calculating the cost of a proposal for a guaranteed energy savings contract any reasonable fee payable by the State governmental unit for evaluation of the proposal by a licensed architect or professional engineer, a qualified reviewer not employed as a member of the staff of the State governmental unit or the qualified provider. The Department of Administration may charge the State governmental unit a reasonable fee for the evaluation of the proposal if the Department's services are used for the evaluation and the cost paid by the State governmental unit to the Department of Administration shall be calculated in the cost of the proposal under this subsection.

(d) Criteria for Selection of Provider. – The governmental unit shall select the qualified provider that it determines to best meet the needs of the governmental unit by evaluating all of the following and following the procedures set forth in subsection (d1) of this section:

(1) Prices offered.

(2) Proposed costs of construction, financing, maintenance, and training.

(3) Quality of the products and energy conservation measures proposed.

(4) Amount of energy savings.

(6) Substantial conformity with the specifications and other conditions set forth in the request for proposals.

(7) Time specified in the proposals for the performance of the contract.

(8) Any other factors the governmental unit deems necessary, which factors shall be made a matter of record.

(d1) Process for Selection of Provider. – The governmental unit shall select a short list of finalists on the basis of its rankings of the written proposals under the criteria set forth in subsection (d) of this section as well as references from past clients. The governmental unit
shall have the highest ranked qualified provider prepare a cost-savings analysis for the proposed contract showing at a minimum a comparison of the total estimated project savings to the total estimated project costs for the proposed term. If the governmental unit and the qualified provider cannot negotiate acceptable terms, pricing, and savings estimates, the governmental unit may terminate the process and begin negotiations with the second highest ranked qualified provider. The statement shall disclose any shortfalls or surplus between guaranteed energy and operational savings specified in the guaranteed energy savings contract and actual, not stipulated, energy and operational savings incurred during a given guarantee year. Any guaranteed energy and operational savings shall be determined by using one of the measurement and verification methodologies listed in the United States Department of Energy’s Measurement and Verification Guidelines for Energy Savings Performance Contracting, the International Performance Measurement and Verification Protocol (IPMVP) maintained by the Efficiency Valuation Organization, or Guideline 14-2002 of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers. The guarantee year shall consist of a 12-month term commencing from the time that the energy conservation measures become fully operational. A qualified provider shall pay the State governmental unit or its assignee any shortfall in the guaranteed energy and operational savings after the total year savings have been determined. (b) Exclusive Administrative Remedy. – Notwithstanding any provision of State law or rules to the contrary, this section is the exclusive method for an enrollee to contest a notice of resolution issued by an LME/MCO. G.S. 108A-70.9A, 108A-70.9B, and 108A-70.9C do not apply to enrollees contesting a managed care action.

(c) Request for Contested Case Hearing. – A request for an administrative hearing to appeal a notice of resolution issued by an LME/MCO is a contested case subject to the provisions of Article 3 of Chapter 150B of the General Statutes. An enrollee, or a network provider authorized in writing to act on behalf of an enrollee, has the right to file a request for appeal to contest a notice of resolution as long as the enrollee or network provider has exhausted the appeal procedures described in G.S. 108D-6 or G.S. 108D-7.

(d) Filing Procedure. – An enrollee, or a network provider authorized in writing to act on behalf of an enrollee, may file a request for an appeal by sending an appeal request form that meets the requirements of subsection (e) of this section to OAH and the affected LME/MCO by no later than 30 days after the mailing date of the notice of resolution. A request for appeal is deemed filed when a completed and signed appeal request form has been both submitted into the care and custody of the chief hearings clerk of OAH and accepted by the chief hearings clerk. Upon receipt of a timely filed appeal request form, information contained in the notice of resolution is no longer confidential, and the LME/MCO shall immediately forward a copy of the notice of resolution to OAH electronically. OAH may dispose of these records after one year.

(e) Parties. – The LME/MCO shall be the respondent for purposes of this appeal. The LME/MCO or enrollee may move for the permissive joinder of the Department under Rule 20 of the North Carolina Rules of Civil Procedure. 2. The enrollee's name, address, telephone number, and Medicaid identification number.

3. A preprinted statement that indicates that the enrollee would like to appeal a specific managed care action identified in the notice of resolution.

4. A statement informing the enrollee of the right to be represented at the contested case hearing by a lawyer, a relative, a friend, or other spokesperson.

5. A space for the enrollee's signature and date.

(g) Continuation of Benefits. – An LME/MCO shall continue the enrollee's benefits during the pendency of an appeal to the same extent required under 42 C.F.R. § 438.420. Notwithstanding any other provision of State law, the administrative law judge does not have the power to order and shall not order an LME/MCO to continue benefits in excess of what is required by 42 C.F.R. § 438.420.

(h) Simple Procedures. – Notwithstanding any other provision of Article 3 of Chapter 150B of the General Statutes, the chief administrative law judge of OAH may limit and simplify the administrative hearing procedures that apply to contested case hearings conducted under this section in order to complete these cases as expeditiously as possible. Any simplified hearing procedures approved by the chief administrative law judge under this subsection must comply with all of the following requirements:

1. OAH shall schedule and hear cases by no later than 55 days after receipt of a request for a contested case hearing.
OAH shall conduct all contested case hearings telephonically or by video technology with all parties, unless the enrollee requests that the hearing be conducted in person before the administrative law judge. An in-person hearing shall be conducted in the county that contains the headquarters of the LME/MCO unless the enrollee's impairments limit travel. For enrollees with impairments that limit travel, an in-person hearing shall be conducted in the enrollee's county of residence. OAH shall provide written notice to the enrollee of the use of telephonic hearings, hearings by video conference, and in-person hearings before the administrative law judge, as well as written instructions on how to request a hearing in the enrollee's county of residence.

The administrative law judge assigned to hear the case shall consider and rule on all prehearing motions prior to the scheduled date for a hearing on the merits.

The administrative law judge may allow brief extensions of the time limits imposed in this section only for good cause shown and to ensure that the record is complete. The administrative law judge shall only grant a continuance of a hearing in accordance with rules adopted by OAH for good cause shown and shall not grant a continuance on the day of a hearing, except for good cause shown. If an enrollee fails to make an appearance at a hearing that has been properly noticed by OAH by United States mail, OAH shall immediately dismiss the case, unless the enrollee moves to show good cause by no later than three business days after the date of dismissal. As used in this section, "good cause shown" includes delays resulting from untimely receipt of documentation needed to render a decision and other unavoidable and unforeseen circumstances.

OAH shall include information on at least all of the following in its notice of hearing to an enrollee:

a. The enrollee's right to examine at a reasonable time before and during the hearing the contents of the enrollee's case file and any documents to be used by the LME/MCO in the hearing before the administrative law judge.

b. The enrollee's right to an interpreter during the hearing process.

c. The circumstances in which a medical assessment may be obtained at the LME/MCO's expense and made part of the record, including all of the following:

1. A hearing involving medical issues, such as a diagnosis, an examining physician's report, or a decision by a medical review team.

2. A hearing in which the administrative law judge considers it necessary to have a medical assessment other than the medical assessment performed by an individual involved in any previous level of review or decision making.

(i) Mediation. – Upon receipt of an appeal request form as provided by G.S. 108D-8(f) or other clear request for a hearing by an enrollee, OAH shall immediately notify the Mediation Network of North Carolina, which shall contact the enrollee within five days to offer mediation in an attempt to resolve the dispute. If mediation is accepted, the mediation must be completed within 25 days of submission of the request for appeal. Upon completion of the mediation, the mediator shall inform OAH and the LME/MCO within 24 hours of the resolution by facsimile or electronic messaging. If the parties have resolved matters in the mediation, OAH shall dismiss the case. OAH shall not conduct a hearing of any contested case involving a dispute of a managed care action until it has received notice from the mediator assigned that either (i) the mediation was unsuccessful, (ii) the petitioner has rejected the offer of mediation, or (iii) the
petitioner has failed to appear at a scheduled mediation. Nothing in this subsection shall restrict
the right to a contested case hearing.

(j) Burden of Proof. – The enrollee has the burden of proof on all issues submitted to
OAH for a contested case hearing under this section and has the burden of going forward. The
administrative law judge shall not make any ruling on the preponderance of evidence until the
close of all evidence in the case.

(k) New Evidence. – The enrollee shall be permitted to submit evidence regardless of
whether it was obtained before or after the LME/MCO’s managed care action and regardless of
whether the LME/MCO had an opportunity to consider the evidence in resolving the
LME/MCO level appeal. Upon the receipt of new evidence and at the request of the
LME/MCO, the administrative law judge shall continue the hearing for a minimum of 15 days
and a maximum of 30 days in order to allow the LME/MCO to review the evidence. Upon
reviewing the evidence, if the LME/MCO decides to reverse the managed care action taken
against the enrollee, it shall immediately inform the administrative law judge of its decision.

(l) Issue for Hearing. – For each managed care action, the administrative law judge
shall determine whether the LME/MCO substantially prejudiced the rights of the enrollee and
whether the LME/MCO, based upon evidence at the hearing:

(1) Exceeded its authority or jurisdiction.
(2) Acted erroneously.
(3) Failed to use proper procedure.
(4) Acted arbitrarily or capriciously.
(5) Failed to act as required by law or rule.

(m) To the extent that anything in this Part, Chapter 150B of the General Statutes, or any
rules or policies adopted under these Chapters is inconsistent with the Social Security Act or 42
C.F.R. Part 438, Subpart F, federal law prevails and applies to the extent of the conflict. All
rules, rights, and procedures for contested case hearings concerning managed care actions shall
be construed so as to be consistent with federal law and shall provide the enrollee with no
lesser and no greater rights than those provided under federal law.

The administrative law judge assigned to conduct a contested case hearing under
G.S. 108D-8 shall hear and decide the case without unnecessary delay. The judge shall prepare
a written decision that includes findings of fact and conclusions of law and send it to the parties
in accordance with G.S. 150B-37. The written decision shall notify the parties of the final
decision and of the right of the enrollee and the LME/MCO to seek judicial review of the
decision under Article 4 of Chapter 150B of the General Statutes."

SECTION 2. G.S. 122C-151.3 reads as rewritten:

"§ 122C-151.3. Dispute with area authorities or county programs.

(a) An area authority or county program shall establish written procedures for resolving
disputes over decisions of an area authority or county program that may be appealed to the
State MH/DD/SA Appeals Panel under G.S. 122C-151.4. The procedures shall be informal and
shall provide an opportunity for those who dispute the decision to present their position.

(b) This section does not apply to LME/MCOs, enrollees, applicants, providers of
emergency services, or network providers subject to Chapter 108D of the General Statutes.

SECTION 3. G.S. 122C-151.4(g) reads as rewritten:

directly to the Department of Health and Human Services under the Department’s community
support provider appeal process, LME/MCOs, enrollees, applicants, providers of emergency
services, or network providers subject to Chapter 108D of the General Statutes."

SECTION 4. G.S. 150B-23 is amended by adding a new subsection to read:

"(a) A Medicaid enrollee, or network provider authorized in writing to act on behalf of
the enrollee, who appeals a notice of resolution issued by an LME/MCO under Chapter 108D
of the General Statutes may commence a contested case under this Article in the same manner
as any other petitioner. The case shall be conducted in the same manner as other contested
cases under this Article. Solely and only for the purposes of contested cases commenced as Medicaid managed care enrollee appeals under Chapter 108D of the General Statutes, an LME/MCO is considered an agency as defined in G.S. 150B-2(1a). The LME/MCO shall not be considered an agency for any other purpose."

SECTION 5. By September 30, 2013, the Department of Health and Human Services shall take any action necessary to implement this act, including submitting to the Centers for Medicare and Medicaid Services a Medicaid State Plan Amendment with a retroactive effective date of July 1, 2013. On or before September 30, 2013, the Department of Health and Human Services shall report to the Joint Legislative Oversight Committee on Health and Human Services on the status of the implementation of this act.

Session Law 2013-398  S.B. 558

AN ACT TO AMEND THE LAW GOVERNING THE STATE TREASURER'S INVESTMENT AUTHORITY WITH REGARD TO SPECIAL FUNDS HELD BY THE TREASURER.
The General Assembly of North Carolina enacts:

SECTION 1. G.S. 147-69.2(b) reads as rewritten:

"(b) It shall be the duty of the State Treasurer to invest the cash of the funds enumerated in subsection (a) of this section in excess of the amount required to meet the current needs and demands on such funds. The State Treasurer may invest the funds as provided in this subsection. If an investment was authorized by this subsection at the time the investment was made or contractually committed to be made, then that investment shall continue to be authorized by this subsection, and none of the percentage or other limitation on investments set forth in this subsection shall be construed to require the State Treasurer to subsequently dispose of the investment or fail to honor any contractual commitments as a result of changes in market values, ratings, or other investment qualifications. For purposes of computing market values on which percentage limitations on investments in this subsection are based, all investments shall be valued as of the last date of the most recent fiscal quarter.

(1) Investments authorized by G.S. 147-69.1(c)(1)-(7).
(2) General obligations of other states of the United States.
(3) General obligations of cities, counties and special districts in North Carolina.
(4) Obligations of any company, other organization or legal entity incorporated or otherwise created or located within or outside the United States, including obligations that are convertible into equity securities, if the obligations bear one of the four highest ratings of at least one nationally recognized rating service when acquired.

(6) Asset-backed securities (whether considered debt or equity) provided they bear ratings by nationally recognized rating services as provided in G.S. 147-69.2(b)(4).

(6a) In addition to the limitations and requirements with respect to the investments of the Retirement Systems set forth in this subsection, the State Treasurer shall select investments of the assets of the Retirement Systems such that investments made pursuant to subdivisions (b)(1) through (6) of this section shall at all times equal or exceed twenty percent (20%) of the market value of all invested assets of the Retirement Systems.

(6b) Investments pursuant to subdivisions (b)(1) through (6) of this section may be made directly by the State Treasurer or through contractual arrangements in which the investment manager has full and complete discretion and authority to invest assets specified in such arrangements in investments authorized by subdivisions (b)(1) through (6) of this section, provided for each indirect investment, the investment manager has assets under management of at least one hundred million dollars ($100,000,000).

(6c) With respect to Retirement Systems' assets referred to in subdivision (b)(8), they may be invested in obligations and other obligations, debt securities, and asset-backed securities, whether considered debt or equity, including debt obligations and securities convertible into other securities, that do not meet the requirements of any of subdivisions (b)(1) through (6) of this section nor subdivision (b)(7) of this section, provided such investments are made through investment companies registered under the Investment Company Act of 1940, individual, common, or collective trust funds of banks and trust companies, group trusts and limited partnerships, limited liability companies or other limited liability investment vehicles that invest primarily in investments authorized by this subdivision and through contractual arrangements in which the investment manager has full and complete discretion and authority to invest assets specified in such arrangements in investments authorized by this subdivision, provided the investment manager for each investment pursuant to this subdivision has assets under
management of at least one hundred million dollars ($100,000,000) and provided that the investments authorized under this subdivision shall not exceed five percent (5%), seven and one-half percent (7.5%) of the market value of all invested assets of the Retirement Systems.

(7) With respect to Retirement Systems' assets referred to in subdivision (8) of this subsection, (i) insurance contracts that provide for participation in individual or pooled separate accounts of insurance companies, (ii) group trusts, (iii) individual, common, or collective trust funds of banks and trust companies, (iv) real estate investment trusts, (v) investment companies registered under the Investment Company Act of 1940 and (vi) limited partnerships, limited liability companies, or other limited liability investment vehicles; vehicles, and (vii) contractual arrangements in which the investment manager has discretion and authority to invest assets specified in such arrangements in investments authorized by this subsection; provided the investment manager has assets under management of at least one hundred million dollars ($100,000,000); provided such investment assets are managed primarily for the purpose of investing in or owning real estate or related debt financing, located within or outside the United States; and provided that the investments authorized by this subdivision shall not exceed ten percent (10%) of the market value of all invested assets of the Retirement Systems.

(8) With respect to assets of the Teachers' and State Employees' Retirement System, the Consolidated Judicial Retirement System, the Firemen's and Rescue Workers' Pension Fund, the Local Governmental Employees' Retirement System, the Legislative Retirement System, the North Carolina National Guard Pension Fund, and the Retiree Health Benefit Fund (hereinafter referred to collectively as the Retirement Systems), and assets invested pursuant to subdivision (b2) of this section, they may be invested in equity securities traded on a public securities exchange or market organized and regulated pursuant to the laws of the jurisdiction of such exchange or market and issued by any company incorporated or otherwise created or located within or outside the United States; provided the investments meet the conditions of this subdivision. The investments authorized for the Retirement Systems under this subdivision cannot exceed sixty-five percent (65%) of the market value of all invested assets of the Retirement Systems.

The assets authorized under this subdivision may be invested directly by the State Treasurer in any equity securities authorized by this subdivision for the primary purpose of approximating the movements of a nationally recognized and published market benchmark index. No more than one and one-half percent (1.5%) of the market value of the Retirement Systems' assets that may be invested directly under this subdivision can be invested in the stock of a single corporation, and the total number of shares in that single corporation cannot exceed eight percent (8%) of the issued and outstanding stock of that corporation.

So long as each investment manager has assets under management of at least one hundred million dollars ($100,000,000), the assets authorized under this subdivision may also be invested through any of the following:

a. Investment companies registered under the Investment Company Act of 1940; individual, common, or collective trust funds of banks and trust companies; and group trusts that invest primarily in investments authorized by this subdivision.

b. Limited partnerships, limited liability companies, or other limited liability investment vehicles that are not publicly traded and invest
primarily in investments authorized by this subdivision. Investments under this sub-subdivision shall not exceed six and eight percent (6.5%) of the market value of all invested assets of the Retirement Systems.

c. Contractual arrangements in which investment managers have full and complete discretion and authority to invest assets specified in such contractual arrangements in investments authorized by this subdivision.

(9) With respect to Retirement Systems’ assets, as defined in subdivision (b)(8) of this subsection, they may be invested in interests in limited partnerships, limited liability companies, or other limited liability investment vehicles that are not publicly traded if the primary purpose of the limited partnership, limited liability company, or other limited liability investment vehicle is (i) to invest in private equity, or corporate buyout transactions, within or outside the United States or (ii) to engage in other strategies not expressly authorized by any other subdivision of this subsection. The amount invested under this subdivision shall not exceed seven and one-half percent (7.5%) of the market value of all invested assets of the Retirement Systems.

(9a) With respect to Retirement Systems’ assets, as defined in subdivision (b)(8) of this subsection, they may be invested in inflation-linked bonds, timberlands, commodities, and other assets that are acquired by the Treasurer for the primary purpose of providing protection against risks associated with inflation, provided such investments are made through investment companies registered under the Investment Company Act of 1940, individual, common or collective trust funds of banks and trust companies, group trusts and limited partnerships, limited liability companies or other limited liability investment vehicles that invest primarily in investments authorized by this subdivision and through contractual arrangements in which the investment manager has full and complete discretion and authority to invest assets specified in such arrangements in investments authorized by this subdivision, provided the investment manager for each investment pursuant to this subdivision has assets under management of at least one hundred million dollars ($100,000,000) and provided that the investments authorized under this subdivision shall not exceed five percent (5%) of the market value of all invested assets of the Retirement Systems. Notwithstanding anything in this subsection to the contrary, the investments authorized by this subdivision shall not be included in any subdivision other than this subdivision for purposes of the percentage investment limitations therein or otherwise.

(10) Recodified as part of subdivision (b)(9) by Session Laws 2000-160, s. 2.

(10a) With respect to Retirement Systems’ assets, as defined in subdivision (8) of this subsection, the market value of any of subdivision (6c) or (7), sub-subdivision b. of subdivision (8), or subdivision (9) or (9a) of this subsection shall not exceed ten percent (10%) of the market value of all invested assets of the Retirement Systems; and the aggregate market value of all assets invested pursuant to subdivisions (6c) and (7), sub-subdivision b. of subdivision (8), and subdivisions (9) and (9a) of this subsection shall not exceed thirty-five percent (35%) of the market value of all invested assets of the Retirement Systems. The quarterly report provided by the Treasurer pursuant to G.S. 147-68(d1) shall include a specific listing of all direct and indirect placement fees, asset fees, performance fees, and any other money
management fees incurred by the State in the management of subdivisions (6c) and (7), sub-subdivision b. of subdivision (8), and subdivisions (9) and (9a) of this subsection. In the event that the market value of any of subdivision (6c) or (7), sub-subdivision b. of subdivision (8), or subdivision (9) or (9a) of this subsection increases during a fiscal year by an amount greater than three percent (3%) of the market value of all invested assets of the Retirement Systems as of the prior fiscal year end, then the quarterly report provided by the Treasurer pursuant to G.S. 147-68(d1) shall describe how that increase complies with the duties described in G.S. 147-69.7 and the consequent expected impact on the risk profile of the Retirement Systems' assets.

(11) With respect to assets of the Escheat Fund, obligations of the North Carolina Global TransPark Authority authorized by G.S. 63A-4(a)(22), not to exceed twenty-five million dollars ($25,000,000), that have a final maturity not later than October 1, 2014. The obligations shall bear interest at the rate set by the State Treasurer. No commitment to purchase obligations may be made pursuant to this subdivision after September 1, 1993, and no obligations may be purchased after September 1, 1994. In the event of a loss to the Escheat Fund by reason of an investment made pursuant to this subdivision, it is the intention of the General Assembly to hold the Escheat Fund harmless from the loss by appropriating to the Escheat Fund funds equivalent to the loss.

If any part of the property owned by the North Carolina Global TransPark Authority now or in the future is divested, proceeds of the divestment shall be used to fulfill any unmet obligations on an investment made pursuant to this subdivision.

(12) With respect to assets of the Escheat Fund, in addition to those investments authorized by subdivisions (1) through (6) of this subsection, up to twenty percent (20%) of such assets may be invested in the investments authorized under subdivisions (7) through (9) of this subsection, notwithstanding the percentage limitations imposed on the Retirement Systems' investments under those subdivisions."

SECTION 2. G.S. 147-69.7 reads as rewritten:

(a) The Treasurer shall discharge his or her duties with respect to the Teachers' and State Employees' Retirement System, the Consolidated Judicial Retirement System, the Firemen's and Rescue Squad Workers' Pension Fund, the Local Governmental Employees' Retirement System, the Legislative Retirement System, and the North Carolina National Guard Pension Fund (hereinafter referred to collectively as the Retirement Systems) enumerated in G.S. 147-69.2(b)(8) as follows:

(2) For the exclusive purpose of providing benefits to participants and beneficiaries and paying reasonable expenses of administering the Retirement Systems.
(3) With the care, skill, and caution under the circumstances then prevailing which a prudent person acting in a like capacity and familiar with those matters would use in the conduct of an activity of like character and purpose.
(4) Impartially, taking into account any differing interests of participants and beneficiaries.
(5) Incurring only costs that are appropriate and reasonable.
(6) In accordance with a good-faith interpretation of the law governing the Retirement Systems.

   a. General economic conditions.
   b. The possible effect of inflation or deflation.
   c. The role that each investment or course of action plays within the overall portfolio of the Retirement Systems.
   d. The expected total return from income and the appreciation of capital.
   e. Needs for liquidity, regularity of income, and preservation or appreciation of capital.
   f. The adequacy of funding for the Retirement Systems based on reasonable actuarial factors.

(2) Shall diversify the investments of the Retirement Systems unless the Treasurer reasonably determines that, because of special circumstances, it is clearly prudent not to do so.

(3) Shall make a reasonable effort to verify facts relevant to the investment and management of assets of the Retirement Systems.

(4) May invest in any kind of property or type of investment consistent with the provisions of Article 6 of Chapter 146 of the General Statutes.

(5) May consider benefits created by an investment in addition to investment return only if the Treasurer determines that the investment providing these collateral benefits would be prudent even without collateral benefits.

(c) Compliance by the Treasurer with this section must be determined in light of the facts and circumstances existing at the time of the Treasurer's decision or action and not by hindsight.

(d) The Treasurer's investment and management decisions must be evaluated not in isolation but in the context of the portfolio of the Retirement Systems as a whole and as part of an overall investment strategy having risk and return objectives reasonably suited to the Retirement Systems.

If the loan is an open-end credit plan, the loan documents permit the lender to charge or collect prepayment fees or penalties (i) more than 30 months after the loan closing if the borrower has no right or option under the loan documents to repay all or any portion of the outstanding balance of the open-end credit plan at a fixed interest rate over a specified period of time or, (ii) if the borrower has a right or option under the loan documents to repay all or any portion of the outstanding balance of the open-end credit plan at a fixed interest rate over a specified period of time, more than 30 months after the date the borrower voluntarily exercises that right or option, or (iii) which exceed, in the aggregate, more than two percent (2%) of the amount prepaid."

2. The conventional mortgage rate by (i) one and three-quarters percentage points (1.75%) or more, if the loan is secured by a first lien mortgage or deed of trust, or (ii) three and three-quarters percentage points (3.75%) or more, if the loan is secured by a subordinate lien mortgage or deed of trust. For purposes of this calculation, the "conventional mortgage rate" means the most recent daily contract interest rate on commitments for fixed-rate first mortgages published by the Board of Governors of the Federal Reserve System in its Statistical Release H. 15, or any publication that may supersede it, during the week preceding the week in which the interest rate for the loan is set.

3. The yield on U.S. Treasury securities having comparable periods of maturity by (i) three percentage points (3%) or more, if the loan is secured by a first lien mortgage or deed of trust, or (ii) five percentage points (5%) or more, if the loan is secured by a subordinate lien mortgage or deed of trust. Without regard to whether the loan is subject to or reportable under the provisions of the Home Mortgage Disclosure Act 12 U.S.C. § 2801, et seq. (HMDA), the difference between the annual percentage rate and the yield on Treasury securities having comparable periods of maturity shall be determined using the same procedures and calculation methods applicable to loans that are subject to the reporting requirements of HMDA, as those procedures and calculation methods are amended from time to time, provided that the yield on Treasury securities shall be determined as of the fifteenth day of the month prior to the application for the loan.

(a1) A rate spread home loan is a loan that has an annual percentage rate that exceeds the limits set out in 15 U.S.C. § 1639c(c)(1)(B)(ii) and any regulations promulgated thereunder.

(b) No prepayment fees or penalties shall be charged or collected on a rate spread home loan.

(b1) The making of a rate spread home loan that violates 15 U.S.C. § 1639c(a) and any regulations promulgated thereunder is hereby declared usurious in violation of the provisions of this Chapter.

(c) No lender shall make a rate spread home loan to a borrower based on the value of the borrower's collateral without due regard to the borrower's repayment ability, as of consummation, including the borrower's current and reasonably expected income, employment, assets other than the collateral, current obligations, and mortgage-related obligations. Without regard to whether the loan is a "higher-priced mortgage loan" as defined in section 226.35 of Title 12 of the Code of Federal Regulations, the methodology and standards for the determination of a borrower's repayment ability set forth in section 226.34(a)(4) of Title 12 of
the Code of Federal Regulations and the related Federal Reserve Board’s Official Staff Commentary on Regulation Z, as the regulation and commentary may be amended from time to time, shall be applied to determine a lender’s compliance with this requirement.

(c) Any prepayment penalty in violation of 15 U.S.C. § 1639c(c) and any regulations promulgated thereunder shall be unenforceable.

(d) The making of a rate spread home loan which violates subsection (b) or (c) of this section is hereby declared usurious in violation of the provisions of this Chapter. In addition, any prepayment penalty in violation of this section shall be unenforceable. However, a borrower shall not be entitled to recover twice for the same wrong. The Attorney General, the Commissioner of Banks, or any party to a rate spread home loan may enforce the provisions of this section. This section establishes specific consumer protections in rate spread home loans in addition to other consumer protections that may be otherwise available by law. A mortgage broker who brokers a rate spread home loan that violates the provisions of this section shall be jointly and severally liable with the lender.

(d1) Notwithstanding the foregoing, a borrower shall not be entitled to recover twice for the same wrong. The Attorney General, the Commissioner of Banks, or any party to a rate spread home loan may enforce the provisions of this section. This section establishes specific consumer protections in rate spread home loans in addition to other consumer protections that may be otherwise available by law. A mortgage broker who brokers a rate spread home loan that violates the provisions of this section shall be jointly and severally liable with the lender.

Session Law 2013–400
H.B. 727

AN ACT TO ALLOW THE DIVISION OF MOTOR VEHICLES TO ISSUE A SALVAGE CERTIFICATE OF TITLE TO AN INSURANCE COMPANY OR USED CAR DEALER IN CERTAIN SITUATIONS WHERE THE INSURANCE COMPANY OR USED CAR DEALER IS UNABLE TO OBTAIN THE ORIGINAL CERTIFICATE OF TITLE FROM THE OWNER OF THE MOTOR VEHICLE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-109.1 reads as rewritten:

..."

(b) Transfer to Insurer. –

(1) If a salvage vehicle owner does not want to keep the vehicle, the owner must assign the vehicle’s certificate of title to the insurer when the insurer pays the claim. The insurer must send the assigned title to the Division within 10 days after receiving it from the vehicle owner. The Division must then send the insurer a form to use to transfer title to the vehicle from the insurer to a person who buys the vehicle from the insurer. If the insurer sells the vehicle, the insurer must complete the form and give it to the buyer. If the buyer rebuilds the vehicle, the buyer may apply for a new certificate of title to the vehicle.

(2) If a salvage vehicle owner fails to assign and deliver the vehicle’s certificate of title to the insurer within 30 days of the payment of the claim in accordance with subdivision (b)(1) of this section, the insurer, without surrendering the certificate of title, may, at any time thereafter, request that the Division send the insurer a form to use to transfer title to the vehicle..."
from the insurer to a person who buys the vehicle from the insurer. The request shall be made on a form prescribed by the Division and shall be accompanied by proof of payment of the claim and proof of notice sent to the owner and any lienholder requesting the vehicle's certificate of title. If the records of the Division indicate there is an outstanding lien against the vehicle immediately before the payment of the claim and if the payment was made to a lienholder or to a lienholder and the owner jointly, the proof of payment shall include evidence that funds were paid to the first lienholder shown on the records of the Division. The notice must be sent by the insurer at least 30 days prior to requesting the Division send the insurer a form to use to transfer title and must be sent by certified mail or by another commercially available delivery service providing proof of delivery to the address on record with the Division. Upon the Division's receipt of such request, the vehicle's certificate of title is deemed to be assigned to the insurer. Notwithstanding any outstanding liens against the vehicle, the Division must send the insurer a form to use to transfer title to the vehicle from the insurer to a person who buys the vehicle from the insurer. The Division's issuance of the form extinguishes all existing liens on the motor vehicle. If the insurer sells the vehicle, the insurer must complete the form and give it to the buyer. In such a sale by the insurer, the motor vehicle shall be transferred free and clear of any liens. If the buyer rebuilds the vehicle, the buyer may apply for a new certificate of title to the vehicle.

(c) Owner Keeps Vehicle. – If a salvage vehicle owner wants to keep the vehicle, the insurer must give the owner an owner-retained salvage form. The owner must complete the form and give it to the insurer when the insurer pays the claim. The owner's signature on the owner-retained salvage form must be notarized. The insurer must send the completed form to the Division within 10 days after receiving it from the vehicle owner. The Division must then note in its vehicle registration records that the vehicle listed on the form is a salvage vehicle.

(d) Theft Claim on Salvage Vehicle. – An insurer that pays a theft loss claim on a vehicle and, upon recovery of the vehicle, determines that the vehicle has been damaged to the extent that it is a salvage vehicle must send the vehicle's certificate of title to the Division within 10 days after making the determination. The Division and the insurer must then follow the procedures set in subdivision (1) of subsection (b) of this section.

(e) Out-of-State Vehicle. – A person who acquires a salvage vehicle that is registered in a state that does not require surrender of the vehicle's certificate of title must send the title to the Division within 10 days after the vehicle enters this State. The Division and the person must then follow the procedures set in subdivision (1) of subsection (b) of this section.

(e1) Owner or Lienholder Abandons Vehicle. – If an insurer requests a used motor vehicle dealer, the primary business of which is the sale of salvage vehicles on behalf of insurers, to take possession of a salvage vehicle that is the subject of an insurance claim and subsequently the insurer does not take ownership of the vehicle, the insurer may direct the used motor vehicle dealer to release the vehicle to the owner or lienholder. The insurer shall provide the used motor vehicle dealer a release statement authorizing the used motor vehicle dealer to release the vehicle to the vehicle's owner or lienholder.

Upon receiving a release statement from an insurer, the used motor vehicle dealer shall send notice to the owner and any lienholder of the vehicle informing the owner or lienholder that the vehicle is available for pick up. The notice shall include an invoice for any outstanding charges owed to the used motor vehicle dealer. The notice shall inform the owner and any lienholder that the owner or lienholder has 30 days from the date of the notice, and upon payment of applicable charges owed to the used motor vehicle dealer, to pick up the vehicle from the used motor vehicle dealer. Notice under this subsection must be sent by certified mail or by another commercially available delivery service providing proof of delivery to the address on record with the Division.
If the owner or any lienholder of the vehicle does not pick up the vehicle within 30 days after notice was sent to the owner and any lienholder in accordance with this subsection, the vehicle shall be considered abandoned, the vehicle's certificate of title is deemed to be assigned to the used motor vehicle dealer, and the used motor vehicle dealer, without surrendering the certificate of title, may request that the Division send the used motor vehicle dealer a form to use to transfer title to the vehicle from the used motor vehicle dealer to a person who buys the vehicle from the used motor vehicle dealer. The request shall be accompanied by a copy of the notice required by this subsection and proof of delivery of the notice required by this subsection sent to the owner and any lienholder. Notwithstanding any outstanding liens against the vehicle, the Division must send the used motor vehicle dealer a form to use to transfer title to the vehicle from the used motor vehicle dealer to a person who buys the vehicle from the used motor vehicle dealer. The Division's issuance of the form extinguishes all existing liens on the motor vehicle. If the used motor vehicle dealer sells the vehicle, the used motor vehicle dealer must complete the form and give it to the buyer. In such a sale by the used motor vehicle dealer, the motor vehicle shall be transferred free and clear of any liens. If the buyer rebuilds the vehicle, the buyer may apply for a new certificate of title.

(f) Sanctions. – Violation of this section is a Class 1 misdemeanor. In addition to this criminal sanction, a person who violates this section is subject to a civil penalty of up to one hundred dollars ($100.00), to be imposed in the discretion of the Commissioner.

(g) Fee. – G.S. 20-85 sets the fee for issuing a salvage certificate of title.

(h) Claims. – The Division shall not be subject to a claim under Article 31 of Chapter 143 of the General Statutes related to the cancellation of a title pursuant to this section if the claim is based on reliance by the Division on any proof of payment or proof of notice submitted to the Division by a third party pursuant to subdivision (b)(2) or subsection (e1) of this section.

SECTION 2. G.S. 20-72(b) reads as rewritten:

"(b) In order to assign or transfer title or interest in any motor vehicle registered under the provisions of this Article, the owner shall execute in the presence of a person authorized to administer oaths an assignment and warranty of title on the reverse of the certificate of title in form approved by the Division, including in such assignment the name and address of the transferee; and no title to any motor vehicle shall pass or vest until such assignment is executed and the motor vehicle delivered to the transferee. The provisions of this section shall not apply to (i) any transfer to an insurer pursuant to G.S. 20-109.1(b)(2) or (ii) any transfer to a used motor vehicle dealer pursuant to G.S. 20-109.1(e1).

When a manufacturer's statement of origin or an existing certificate of title on a motor vehicle is unavailable, a motor vehicle dealer licensed under Article 12 of this Chapter may also transfer title to another by certifying in writing in a sworn statement to the Division that all prior perfected liens on the vehicle have been paid and that the motor vehicle dealer, despite having used reasonable diligence, is unable to obtain the vehicle's statement of origin or certificate of title. The Division is authorized to develop a form for this purpose. The filing of a false sworn certification with the Division pursuant to this paragraph shall constitute a Class H felony.

Any person transferring title or interest in a motor vehicle shall deliver the certificate of title duly assigned in accordance with the foregoing provision to the transferee at the time of delivering the vehicle, except that where a security interest is obtained in the motor vehicle from the transferee in payment of the purchase price or otherwise, the transferor shall deliver the certificate of title to the lienholder and the lienholder shall forward the certificate of title together with the transferee's application for new title and necessary fees to the Division within 20 days. Any person who delivers or accepts a certificate of title assigned in blank shall be guilty of a Class 2 misdemeanor.
The title to a salvage vehicle shall be forwarded to the Division as provided in G.S. 20-109.1, except with respect to the title of any salvage vehicle transferred pursuant to G.S. 20-109.1(b)(2) or G.S. 20-109.1(e1)."

SECTION 3. G.S. 20-75 reads as rewritten:

"§ 20-75. When transferee is dealer or insurance company.
When the transferee of a vehicle registered under this Article is:
   (1) A dealer who is licensed under Article 12 of this Chapter and who holds the vehicle for resale; or
   (2) An insurance company taking the vehicle for sale or disposal for salvage purposes where the title is taken or requested as a part of a bona fide claim settlement transaction and only for the purpose of resale, the transferee shall not be required to register the vehicle nor forward the certificate of title to the Division as provided in G.S. 20-73.
To assign or transfer title or interest in the vehicle, the dealer or insurance company shall execute, in the presence of a person authorized to administer oaths, a reassignment and warranty of title on the reverse of the certificate of title in the form approved by the Division, which shall include the name and address of the transferee. The title to the vehicle shall not pass or vest until the reassignment is executed and the motor vehicle delivered to the transferee. The dealer transferring title or interest in a motor vehicle shall deliver the certificate of title duly assigned in accordance with the foregoing provision to the transferee at the time of delivering the vehicle, except:
   (1) Where a security interest in the motor vehicle is obtained from the transferee in payment of the purchase price or otherwise, the dealer shall deliver the certificate of title to the lienholder and the lienholder shall forward the certificate of title together with the transferee's application for new certificate of title and necessary fees to the Division within 20 days; or
   (2) Where the transferee has the option of cancelling the transfer of the vehicle within 10 days of delivery of the vehicle, the dealer shall deliver the certificate of title to the transferee at the end of that period. Delivery need not be made if the contract for sale has been rescinded in writing by all parties to the contract.
Any person who delivers or accepts a certificate of title assigned in blank shall be guilty of a Class 2 misdemeanor.

The title to a salvage vehicle shall be forwarded to the Division as provided in G.S. 20-109.1, except with respect to the title of any salvage vehicle transferred pursuant to G.S. 20-109.1(b)(2) or G.S. 20-109.1(e1)."

SECTION 4. G.S. 20-78(a) reads as rewritten:

"(a) The Division, upon receipt of a properly endorsed certificate of title, application for transfer thereof and payment of all proper fees, shall issue a new certificate of title as upon an original registration. The Division, upon receipt of an application for transfer of registration plates, together with payment of all proper fees, shall issue a new registration card transferring and assigning the registration plates and numbers thereon as upon an original assignment of registration plates. The Division, upon receipt of an application for transfer thereof and payment of all proper fees, but without receipt of a properly endorsed certificate of title, shall issue a salvage certificate of title pursuant to G.S. 20-109.1(b)(2) or G.S. 20-109.1(e1)."

SECTION 5. G.S. 20-85(a)(10) reads as rewritten:

"(a) The following fees are imposed concerning a certificate of title, a registration card, or a registration plate for a motor vehicle. These fees are payable to the Division and are in addition to the tax imposed by Article 5A of Chapter 105 of the General Statutes.

(10) Each application for a salvage certificate of title made by an insurer or by a used motor vehicle dealer..."
AN ACT AUTHORIZING PUBLIC CONTRACTS TO UTILIZE THE DESIGN-BUILD METHOD OR PUBLIC-PRIVATE PARTNERSHIP CONSTRUCTION CONTRACTS.

Whereas, the legislature recognizes that there is a public need for the design, construction, improvement, renovation, and expansion of high-performing public buildings within the State of North Carolina; and

Whereas, the public need may not be, in limited situations, wholly satisfied by existing procurement methods in which public buildings are designed, constructed, improved, renovated, or expanded; and

Whereas, many local governmental entities request special legislative authorization to enter into public-private partnerships and use design-build contracting every legislative session; and

Whereas, in some instances, more efficient delivery of quality design and construction can be realized when a governmental entity is authorized to utilize an integrated approach for the design and construction of a project under one contract with a single point of responsibility; and

Whereas, the design-build integrated approach to project delivery, based upon qualifications and experience, in some instances, can yield improved collaboration among design professionals, builders, and owners throughout the entire process and deliver a quality and cost-efficient building; and

Whereas, certain governmental entities within the State lack the financial resources required to undertake capital building construction projects that are necessary to satisfy critical public needs; and

Whereas, partnerships with private developers may offer an effective financial mechanism for governmental entities to secure public buildings to satisfy critical public needs that cannot otherwise be met; and

Whereas, the legislature recognizes that the general public must have confidence in governmental entities' processes for construction contracting; and

Whereas, the legislature realizes that open competition delivers the best value for taxpayers and public owners; and

Whereas, the legislature seeks to create transparent, fair, and equitable contracting procedures for the use of public funds in government construction contracting; and

Whereas, the legislation proposed in this act is not intended to affect the existing statutes, regulations, or practices relevant to projects administered by the North Carolina Department of Transportation nor licensing requirements of designers or contractors; Now, therefore,
The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-64.31 reads as rewritten:

"§ 143-64.31. Declaration of public policy.
(a) It is the public policy of this State and all public subdivisions and Local Governmental Units thereof, except in cases of special emergency involving the health and safety of the people or their property, to announce all requirements for architectural, engineering, surveying and surveying, construction management at risk services, design-build services, and public-private partnership construction services to select firms qualified to provide such services on the basis of demonstrated competence and qualification for the type of professional services required without regard to fee other than unit price information at this stage, and thereafter to negotiate a contract for those services at a fair and reasonable fee with the best qualified firm. If a contract cannot be negotiated with the best qualified firm, negotiations with that firm shall be terminated and initiated with the next best qualified firm. Selection of a firm under this Article shall include the use of good faith efforts by the public entity to notify minority firms of the opportunity to submit qualifications for consideration by the public entity.

(a1) A resident firm providing architectural, engineering, surveying, or construction management at risk services, design-build services, or public-private partnership construction services shall be granted a preference over a nonresident firm, in the same manner, on the same basis, and to the extent that a preference is granted in awarding contracts for these services by the other state to its resident firms over firms resident in the State of North Carolina. For purposes of this section, a resident firm is a firm that has paid unemployment taxes or income taxes in North Carolina and whose principal place of business is located in this State.

(b) Public entities that contract with a construction manager at risk, design-builder, or private developer under a public-private partnership under this section shall report to the Secretary of Administration the following information on all projects where a construction manager at risk, design-builder, or private developer is utilized:

(1) A detailed explanation of the reason why the particular construction manager at risk, design-builder, or private developer was selected.
(2) The terms of the contract with the construction manager at risk, design-builder, or private developer.
(3) A list of all other firms considered but not selected as the construction manager at risk, design-builder, or private developer, and the amount of their proposed fees for services.
(4) A report on the form of bidding utilized by the construction manager at risk, design-builder, or private developer on the project.
(5) A detailed explanation of why the particular delivery method was used in lieu of the delivery methods identified in G.S. 143-128(a1) subdivisions (1) through (3) and the anticipated benefits to the public entity from using the particular delivery method.

(c) The Secretary of Administration shall adopt rules to implement the provisions of this subsection including the format and frequency of reporting.

(d) A public body letting a contract pursuant to any of the delivery methods identified in subdivisions (a1)(4), (a1)(6), (a1)(7), or (a1)(8) of G.S. 143-128 shall submit the report required by G.S. 143-64.31(b) no later than 12 months from the date the public body takes beneficial occupancy of the project. In the event that the public body fails to do so, the public body shall be prohibited from utilizing subdivisions (a1)(4), (a1)(6), (a1)(7), or (a1)(8) of G.S. 143-128 until such time as the public body completes the reporting requirement under this this section. Contracts entered into in violation of this prohibition shall not be deemed ultra vires and shall remain valid and fully enforceable. Any person, corporation or entity, however, which has submitted a bid or response to a request for proposals on any construction project
previously advertised by the public body shall be entitled to obtain an injunction against the
public body compelling the public body to comply with the reporting requirements of this
section and from commencing or continuing a project let in violation of this subdivision until
such time as the public body has complied with the reporting requirements of this section. The
plaintiff in such cases shall not be entitled to recover monetary damages caused by the public
body’s failure to comply with this reporting requirements section, and neither the plaintiff nor
the defendant shall be allowed to recover attorneys fees except as otherwise allowed by
G.S. 1A-11 or G.S. 6-21.5. An action seeking the injunctive relief allowed by this subdivision
must be filed within four years from the date that the owner took beneficial occupancy of the
project for which the report remains due.

(e) For purposes of this Article, the definition in G.S. 143-128.1B and G.S. 143-128.1C
shall apply:"

SECTION 2. G.S. 143-64.32 reads as rewritten:

"§ 143-64.32. Written exemption of particular contracts.

Units of local government or the North Carolina Department of Transportation may in
writing exempt particular projects from the provisions of this Article in the case of:

(a) Proposed projects where an estimated professional fee is in an
amount less than thirty thousand dollars ($30,000), or fifty thousand dollars
($50,000).

(b) Other particular projects exempted in the sole discretion of the Department
of Transportation or the unit of local government, stating the reasons
therefor and the circumstances attendant thereto."

SECTION 3. G.S. 143-128(a1) reads as rewritten:

(2) Governmental entity. – As defined in G.S. 143-128.1B.

(b) A governmental entity shall establish in writing the criteria used for determining the
circumstances under which the design-build method is appropriate for a project, and such
criteria shall, at a minimum, address all of the following:

(1) The extent to which the governmental entity can adequately and thoroughly
define the project requirements prior to the issuance of the request for
qualifications for a design-builder.
(2) The time constraints for the delivery of the project.
(3) The ability to ensure that a quality project can be delivered.
(4) The capability of the governmental entity to manage and oversee the project,

(6) The criteria utilized by the governmental entity, including a comparison of the costs and benefits of using the design-build delivery method for a given project in lieu of the delivery methods identified in subdivisions (1), (2), and (4) of G.S. 143-128(a1).

   b. An outline of the strategy the design-builder plans to use for open contractor and subcontractor selection based upon the provisions of Article 8 of Chapter 143 of the General Statutes.

(d) Following evaluation of the qualifications of the design-builders, the three most highly qualified design-builders shall be ranked. If after the solicitation for design-builders not as many as three responses have been received from qualified design-builders, the governmental entity shall again solicit for design-builders. If as a result of such second solicitation not as many as three responses were received, the governmental entity may then begin negotiations with the highest-ranked design-builder under G.S. 143-64.31 even though fewer than three responses were received. If the governmental entity deems it appropriate, the governmental entity may invite some or all responders to interview with the governmental entity.

(e) The design-builder shall be selected in accordance with Article 3D of this Chapter. 1666
The governmental entity approves the private developer to perform the work.

The following bonding provisions apply to any development contract entered into under this section:

(1) A payment bond shall be required for any development contract as follows:

A payment bond in the amount of one hundred percent (100%) of the total anticipated amount of the construction contracts to be entered into between the private developer and the contractors to design or construct the improvements required by the development contract. The payment bond shall be conditioned upon the prompt payment for all labor or materials for which the private developer or one or more of its contractors or those contractors' subcontractors are liable. The payment bond shall be solely for the protection of the persons furnishing materials or performing labor or services for which the private developer or its contractors or subcontractors are liable. The total anticipated amount of the construction contracts shall be stated in the development contract and certified by the private developer as being a good-faith projection of its total costs for designing and constructing the improvements required by the development contract. The payment bond shall be executed by one or more surety companies legally authorized to do business in the State of North Carolina and shall become effective upon the awarding of the development contract. The development contract may provide for the requirement of a performance bond.

(2) Subject to the provisions of this subsection, any claimant who has performed labor or furnished materials in the prosecution of the work required by any contract for which a payment bond has been given pursuant to the provisions of this subsection, and who has not been paid in full therefor before the expiration of 90 days after the day on which the claimant performed the last labor or furnished the last materials for which that claimant claims payment, may bring an action on the payment bond in that claimant's own name to recover any amount due to that claimant for the labor or materials and may prosecute the action to final judgment and have execution on the judgment.

a. Any claimant who has a direct contractual relationship with any contractor or any subcontractor but has no contractual relationship, express or implied, with the private developer may bring an action on the payment bond only if that claimant has given written notice of claim on the payment bond to the private developer within 120 days from the date on which the claimant performed the last of the labor or furnished the last of the materials for which that claimant claims payment, in which that claimant states with substantial accuracy the amount claimed and the name of the person for whom the work was performed or to whom the material was furnished.

b. The notice required by sub-subdivision a. of this subdivision shall be served by certified mail or by signature confirmation as provided by the United States Postal Service, postage prepaid, in an envelope addressed to the private developer at any place where that private developer's office is regularly maintained for the transaction of business or in any manner provided by law for the service of summons. The claimants' service of a claim of lien on real property or a claim of lien on funds as funds as allowed by Article 2 of Chapter 44A of the General Statutes on the private developer shall be deemed, nonexclusively, as adequate notice under this section.

(3) Every action on a payment bond as provided in this subsection shall be brought in a court of appropriate jurisdiction in a county where the
development contract or any part thereof is to be or has been performed. Except as provided in G.S. 44A-16(c), no action on a payment bond shall be commenced after one year from the day on which the last of the labor was performed or material was furnished by the claimant.

(4) No surety shall be liable under a payment bond for a total amount greater than the face amount of the payment bond. A judgment against any surety may be reduced or set aside upon motion by the surety and a showing that the total amount of claims paid and judgments previously rendered under the payment bond, together with the amount of the judgment to be reduced or set aside, exceeds the face amount of the bond.

(5) No act of or agreement between the governmental entity, a private developer, or a surety shall reduce the period of time for giving notice under sub-subdivision (2)a. of this subsection or commencing action under subdivision (3) of this subsection or otherwise reduce or limit the liability of the private developer or surety as prescribed in this subsection. Every bond given by a private developer pursuant to this subsection shall be conclusively presumed to have been given in accordance with the provisions of this subsection, whether or not the bond is drawn as to conform to this subsection. The provisions of this subsection shall be conclusively presumed to have been written into every bond given pursuant to this subsection.

(6) Any person entitled to bring an action or any defendant in an action on a payment bond shall have a right to require the governmental entity or the private developer to certify and furnish a copy of the payment bond, the development contract, and any construction contracts covered by the bond. It shall be the duty of the private developer or the governmental entity to give any such person a certified copy of the payment bond and the construction contract upon not less than 10 days' notice and request. The governmental entity or private developer may require a reasonable payment for the actual cost of furnishing the certified copy. A copy of any payment bond, development contract, and any construction contracts covered by the bond certified by the governmental entity or private developer shall constitute prima facie evidence of the contents, execution, and delivery of the bond, development contract, and construction contracts.

(7) A payment bond form containing the following provisions shall comply with this subsection:
   a. The date the bond is executed.
   b. The name of the principal.
   c. The name of the surety.
   d. The governmental entity.
   e. The development contract number.
   f. All of the following:
      1. "KNOW ALL MEN BY THESE PRESENTS, That we, the PRINCIPAL and SURETY above named, are held and firmly bound unto the above named [governmental entity], hereinafter called [governmental entity], in the penal sum of the amount stated above, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents."
      2. "THE CONDITION OF THIS OBLIGATION IS SUCH, that whereas the Principal entered into a certain development contract with [governmental entity], numbered as shown above and hereto attached."

1668
3. "NOW THEREFORE, if the Principal shall promptly make payment to all persons supplying labor and material in the prosecution of the construction or design work provided for in the development contract, and any and all duly authorized modifications of the contract that may hereafter be made, notice of which modifications to the surety being hereby waived, then this obligation to be void; otherwise to remain in full force and virtue."

4. "IN WITNESS WHEREOF, the above bounden parties have executed this instrument under their several seals on the date indicated above, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body." Appropriate places for execution by the surety and principal shall be provided.

(8) In any suit brought or defended under the provisions of this subsection, the presiding judge may allow reasonable attorneys' fees to the attorney representing the prevailing party. Attorneys' fees under this subdivision are to be taxed as part of the court costs and shall be payable by the losing party upon a finding that there was an unreasonable refusal by the losing party to fully resolve the matter which constituted the basis of the suit or the basis of the defense. For purposes of this subdivision, the term "prevailing party" means a party plaintiff or third-party plaintiff who obtains a judgment of at least fifty percent (50%) of the monetary amount sought in a claim or a party defendant or third-party defendant against whom a claim is asserted which results in a judgment of less than fifty percent (50%) of the amount sought in the claim defended. Notwithstanding the provisions of this subdivision, if an offer of judgment is served in accordance with G.S. 1A-1, Rule 68, a "prevailing party" is an offeror who obtains judgment in an amount more favorable than the last offer or is an offeree against whom judgment is rendered in an amount less favorable than the last offer.

(9) The obligations and lien rights set forth in Article 2 of Chapter 44A of the General Statutes shall apply to a project awarded under this section to the extent of any property interests held by the private developer in the project. For purposes of applying the provisions of Article 2 of Chapter 44A of the General Statutes, the private developer shall be deemed the owner to the extent of that private developer's ownership interest. This subdivision shall not be construed as making the provisions of Article 2 of Chapter 44A of the General Statutes apply to governmental entities or public buildings to the extent of any property interest held by the governmental entity in the building.

(h) The governmental entity shall determine its programming requirements for facilities to be constructed under this section and shall determine the form in which private developers may submit their qualifications. The governmental entity shall advertise a notice for interested private developers to submit qualifications in a newspaper having general circulation within the county in which the governmental entity is located. Prior to the submission of qualifications, the governmental entity shall make available, in whatever form it deems appropriate, the programming requirements for facilities included in the public-private project. Any private developer submitting qualifications shall include the following:

(1) Evidence of financial stability. However, "trade secrets" as that term is defined in G.S. 66-152(3) shall be exempt from disclosure under Chapter 132 of the General Statutes.

(2) Experience with similar projects.
(3) Explanation of project team selection by either listing of licensed contractors, licensed subcontractors, and licensed design professionals whom the private developer proposes to use for the project's design and construction or a statement outlining a strategy for open contractor and subcontractor selection based upon the provisions of this Article.

(4) Statement of availability to undertake the public-private project and projected time line for project completion.

(5) Any other information required by the governmental entity.

(i) Based upon the qualifications package submitted by the private developers and any other information required by the governmental entity, the governmental entity may select one or more private developers with whom to negotiate the terms and conditions of a contract to perform the public-private project. The governmental entity shall advertise the terms of the proposed contract to be entered into by the governmental entity in a newspaper having general circulation within the county in which the governmental entity is located at least 30 days prior to entering into the development contract. If the governmental entity is a public body under Article 33C of this Chapter, the development contract shall be considered in an open meeting of that public body following a public hearing on the proposed development contract. Notice of the public hearing shall be published in the same notice as the advertisement of the terms under this subsection.

(j) The governmental entity shall make available a summary of the development contract terms which shall include a statement of how to obtain a copy of the complete development contract.

(k) Leases entered into under this section are subject to approval as follows:

(1) If a capital lease or operating lease is entered into by a unit of local government as defined in G.S. 159-7, that capital lease or operating lease is subject to approval by the local government commission under Article 8 of Chapter 159 of the General Statutes if it meets the standards set out in G.S. 159-148(a)(1), 159-148(a)(2), and 159-148(a)(3), 159-148(a)(4) or 159-153. For purposes of determining whether the standards set out in G.S. 159-148(a)(3) have been met, only the five hundred thousand dollar ($500,000) threshold applies.

(2) If a capital lease is entered into by a State entity that constitutes a State-supported financing arrangement and requires payments thereunder that are payable, whether directly or indirectly, and whether or not subject to the appropriation of funds for such payment, by payments from the General Fund of the State or other funds and accounts of the State that are funded from the general revenues and other taxes and fees of the State or State entities, not including taxes and fees that are required to be deposited to the Highway Fund or Highway Trust Fund, that capital lease shall be subject to the approval procedures required for special indebtedness by G.S. 142-83 and G.S. 142-84. This requirement shall not apply to any arrangement where bonds or other obligations are issued or incurred by a State entity to carry out a financing program authorized by the General Assembly under which such bonds or other obligations are payable from monies derived from specified, limited, nontax sources, so long as the payments under that arrangement by a State entity are limited to the sources authorized by the General Assembly.

(l) A capital lease or operating lease entered into under this section may not contain any provision with respect to the assignment of specific students or students from a specific area to any specific school.

(m) This section shall not apply to any contract or other agreement between or among The University of North Carolina or one of its constituent institutions, a private, nonprofit corporation established under Part 2B of Article 1 of Chapter 116 of the General Statutes, or
any private foundation, private association, or private club created for the primary purpose of financial support to The University of North Carolina or one of its constituent institutions."

SECTION 5. G.S. 143-128.1 reads as rewritten:

(4) "First-tier subcontractor" means a subcontractor who contracts directly with the construction manager at risk.

(b) The construction manager at risk shall be selected in accordance with Article 3D of this Chapter. Design services for a project shall be performed by a licensed architect or engineer. (c) The construction manager at risk shall contract directly with the public entity for all construction; shall publicly advertise as prescribed in G.S. 143-129; and shall prequalify and accept bids from first-tier subcontractors for all construction work under this section. The prequalification criteria shall be determined by the public entity and the construction manager at risk to address quality, performance, the time specified in the bids for performance of the contract, the cost of construction oversight, time for completion, capacity to perform, and other factors deemed appropriate by the public entity. The public entity shall require the construction manager at risk to submit its plan for compliance with G.S. 143-128.2 for approval by the public entity prior to soliciting bids for the project's first-tier subcontractors. A construction manager at risk and first-tier subcontractors shall make a good faith effort to recruit and select minority businesses for participation in contracts pursuant to G.S. 143-128.2, to comply with G.S. 143-128.2, G.S. 143-128.4, and to recruit and select small business entities. A construction manager at risk may perform a portion of the work only if (i) bidding produces no responsible, responsive bidder for that portion of the work, the lowest responsible, responsive bidder will not execute a contract for the bid portion of the work, or the subcontractor defaults and a prequalified replacement cannot be obtained in a timely manner, and (ii) the public entity approves of the construction manager at risk's performance of the work. All bids shall be opened publicly, and once they are opened, shall be public records under Chapter 132 of the General Statutes. The construction manager at risk shall act as the fiduciary of the public entity in handling and opening bids. The construction manager at risk shall award the contract to the lowest responsible, responsive bidder, taking into consideration quality, performance, the time specified in the bids for performance of the contract, time for completion, compliance with G.S. 143-128.2, and other factors deemed appropriate by the public entity and advertised as part of the bid solicitation. The public entity may require the selection of a different first-tier subcontractor for any portion of the work, consistent with this section, provided that the construction manager at risk is compensated for any additional cost incurred.

When contracts are awarded pursuant to this section, the public entity shall provide for a dispute resolution procedure as provided in G.S. 143-128(f1). (d) The construction manager
at risk shall provide a performance and payment bond to the public entity in accordance with the provisions of Article 3 of Chapter 44A of the General Statutes."

The claim of lien may be discharged by the private developer and surety jointly filing with the clerk of superior court of the county where the project is located a copy of the payment bond together with an affidavit executed by the surety stating that, as of the date of the filing of the payment bond with the clerk of superior court, the amount of the penal sum of the payment bond minus any amounts paid in good faith to other claimants on the project and minus the amount of all other claims of lien on real property filed against the property improved by the project exceeds the amount claimed by the lien claim being discharged by at least one hundred twenty-five percent (125%). Notwithstanding any other contractual provision or law, where a claimant's lien claim has been discharged under this subsection, the claimant shall have no less than one year from the date of being served with the payment bond and affidavit to file suit on the payment bond."

SECTION 7. G.S. 115C-521 is amended by adding a new subsection to read:

The local board of education may contract with the architect of record to make changes and upgrades as necessary for regulatory approval.

(g) For prototype schools under this section, local boards of education shall be exempt from the designer selection procedure in Article 3D of Chapter 143 of the General Statutes and may enter into an agreement with the original design professional of the prototype to supply design services for future construction of the prototype school."

SECTION 8.(a) There shall be established a Purchase and Contract Study Committee to study the issue of prequalification on public nontransportation construction work for both local and State government projects. The Committee may study any of the following:

1. An analysis of existing prequalification requirements and consider whether or not current State construction voluntary standards should be required for all public projects.
2. An analysis of whether and/or how prequalification standards may have effectively disqualified licensed North Carolina general contractors who are able to satisfy all applicable bonding requirements under Chapter 44A of the North Carolina General Statutes.
3. Development of one or more objective and nondiscriminatory systems for prequalification to permit all appropriately licensed North Carolina general contractors to have the opportunity to bid in open competition for public construction projects in the State.
4. Any other matter relevant to the implementation of House Bill 857, 2013 Regular Session.

Such standards may address subject matter, program structuring, instructional materials, requirements for satisfactory course completion, instructors' qualifications, and other related matters relevant to the provision of such courses in a manner that best serves the public interest. The standards may require that schools and course sponsors obtain approval for the content of prelicensing and precertification qualifying courses from the Appraiser Qualifications Board of the Appraisal Foundation as part of the application process with the Appraisal Board and pay any fees directly to the Appraiser Qualifications Board as required by the Appraiser Qualifications Board for the approval.
