(c) The Board may by rule prescribe minimum standards for the approval and annual renewal of approval of schools and other course sponsors and their instructors to conduct appraiser continuing education courses. Such standards may address subject matter, instructional materials, requirements for satisfactory course completion, minimum course length, instructors' qualifications, and other related matters relevant to the provision of such courses in a manner that best serves the public interest.

(d) Nonrefundable fees of one hundred dollars ($100.00) per course may be charged to schools and course sponsors for the approval to conduct appraiser continuing education courses and fifty dollars ($50.00) per course for renewal of approval. However, no fees shall be charged for the approval or renewal of approval to conduct appraiser continuing education courses where such courses are offered by a North Carolina college, university, junior college, or community or technical college accredited by the Southern Association of Colleges and Schools, or by an agency of the federal, State, or local government. A nonrefundable fee of fifty dollars ($50.00) per course may be charged to current or former licensees or certificate holders requesting approval by the Board of a course for continuing education credit when approval of such course has not been previously obtained by the offering school or course sponsor."

Session Law 2013-404

AN ACT TO MODIFY THE LAW REGARDING DISCIPLINE FOR JUDGES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 7A-374.2 reads as rewritten:

"§ 7A-374.2. Definitions.

Unless the context clearly requires otherwise, the definitions in this section shall apply throughout this Article:

1. "Censure" means a finding by the Supreme Court, based upon a written recommendation by the Commission, that a judge has willfully engaged in misconduct prejudicial to the administration of justice that brings the judicial office into disrepute, but which does not warrant the suspension of the judge from the judge's judicial duties or the removal of the judge from judicial office. A censure may require that the judge follow a corrective course of action. Unless otherwise ordered by the Supreme Court, the judge shall personally appear in the Supreme Court to receive a censure.

3. "Incapacity" means any physical, mental, or emotional condition that seriously interferes with the ability of a judge to perform the duties of judicial office.

4. "Investigation" means the gathering of information with respect to alleged misconduct or disability.

5. "Judge" means any justice or judge of the General Court of Justice of North Carolina, including any retired justice or judge who is recalled for service as an emergency judge of any division of the General Court of Justice.

6. "Letter of caution" means a written action of the Commission that cautions a judge not to engage in certain conduct that violates the Code of Judicial Conduct as adopted by the Supreme Court.

7. "Public reprimand" means a written action of the Commission issued upon a finding by the Supreme Court, based upon a written recommendation by the Commission that a judge has violated the Code of Judicial Conduct and has engaged in conduct prejudicial to the administration of justice, but that misconduct is minor and does not warrant a recommendation by the Commission that the judge be disciplined by the Supreme Court. A public reprimand may require that the judge follow a corrective course of action.

8. "Remove" or "removal" means a finding by the Supreme Court, based upon a written recommendation by the Commission, that a judge should be relieved of all duties of the judge's office and disqualified from holding further judicial office.

9. "Suspend" or "suspension" means a finding by the Supreme Court, based upon a written recommendation by the Commission, that a judge should be relieved of the duties of the judge's office for a period of time, and upon conditions, including those regarding treatment and compensation, as may be specified by the Supreme Court."
SECTION 2. G.S. 7A-376 reads as rewritten:

"§ 7A-376. Grounds for discipline by Commission; public reprimand, censure, suspension, or removal by the Supreme Court.

(a) The Commission, upon a determination that any judge has engaged in conduct that violates the North Carolina Code of Judicial Conduct as adopted by the Supreme Court but that is not of such a nature as would warrant a recommendation of public reprimand, censure, suspension, or removal, may issue to the judge a private letter of caution or may issue to the judge a public reprimand caution.

(b) Upon recommendation of the Commission, the Supreme Court may issue a public reprimand, censure, suspend, or remove any judge for willful misconduct in office, willful and persistent failure to perform the judge's duties, habitual intemperance, conviction of a crime involving moral turpitude, or conduct prejudicial to the administration of justice that brings the judicial office into disrepute. A judge who is suspended for any of the foregoing reasons shall receive no compensation during the period of that suspension. A judge who is removed for any of the foregoing reasons shall receive no retirement compensation and is disqualified from holding further judicial office.

(c) Upon recommendation of the Commission, the Supreme Court may suspend, for a period of time the Supreme Court deems necessary, any judge for temporary physical or mental incapacity interfering with the performance of the judge's duties, and may remove any judge for physical or mental incapacity interfering with the performance of the judge's duties which is, or is likely to become, permanent. A judge who is suspended for temporary incapacity shall continue to receive compensation during the period of the suspension. A judge removed for mental or physical incapacity is entitled to retirement compensation if the judge has accumulated the years of creditable service required for incapacity or disability retirement under any provision of State law, but he shall not sit as an emergency justice or judge."

SECTION 3. G.S. 7A-377 reads as rewritten:

(a) Any citizen of the State may file a written complaint with the Commission concerning the qualifications or conduct of any justice or judge of the General Court of Justice, and thereupon the Commission shall make such investigation as it deems necessary. The Commission may also make an investigation on its own motion. The Commission may issue process to compel the attendance of witnesses and the production of evidence, to administer oaths, and to punish for contempt. No justice or judge shall be recommended for public reprimand, censure, suspension, or removal unless he has been given a hearing affording due process of law.

(a1) Unless otherwise waived by the justice or judge involved, all papers filed with and proceedings before the Commission, including any investigation that the Commission may make, are confidential, and no person shall disclose information obtained from Commission proceedings or papers filed with or by the Commission, except as provided herein. Those papers are not subject to disclosure under Chapter 132 of the General Statutes.

(a2) Information submitted to the Commission or its staff, and testimony given in any proceeding before the Commission, shall be absolutely privileged, and no civil action predicated upon that information or testimony may be instituted against any complainant, witness, or his or her counsel.

(a3) If, after an investigation is completed, the Commission concludes that a letter of caution is appropriate, it shall issue to the judge a letter of caution in lieu of any further proceeding in the matter. The issuance of a letter of caution is confidential in accordance with subsection (a1) of this section.

(a4) If, after an investigation is completed, the Commission concludes that a public reprimand is appropriate, the judge shall be served with a copy of the proposed reprimand and shall be allowed 20 days within which to accept the reprimand or to reject it and demand, in writing, that disciplinary proceedings be instituted in accordance with subsection (a5) of this
section. A public reprimand, when issued by the Commission and accepted by the respondent judge, is not confidential.

(a5) If, after an investigation is completed, the Commission concludes that disciplinary proceedings should be instituted, the notice and statement of charges filed by the Commission, along with the answer and all other pleadings, are not confidential. Disciplinary hearings ordered by the Commission are not confidential, and recommendations of the Commission to the Supreme Court, along with the record filed in support of such recommendations are not confidential. Testimony and other evidence presented to the Commission is privileged in any action for defamation. At least five members of the Commission must concur in any recommendation to issue a public reprimand, censure, suspend, or remove any judge. A respondent who is recommended for public reprimand, censure, suspension, or removal is entitled to a copy of the proposed record to be filed with the Supreme Court, and if the respondent has objections to it, to have the record settled by the Commission's chair. The respondent is also entitled to present a brief and to argue the respondent's case, in person and through counsel, to the Supreme Court. A majority of the members of the Supreme Court voting must concur in any order of public reprimand, censure, suspension, or removal. The Supreme Court may approve the recommendation, remand for further proceedings, or reject the recommendation. A justice of the Supreme Court or a member of the Commission who is a judge is disqualified from acting in any case in which he is a respondent.

(a6) Upon issuance of a public reprimand, censure, suspension, or removal by the Supreme Court, the notice and statement of charges filed by the Commission along with the answer and all other pleadings, and recommendations of the Commission to the Supreme Court along with the record filed in support of such recommendations, are no longer confidential.

(b) Repealed by Session Laws 2006-187, s. 11, effective January 1, 2007.

(c) The Commission may issue advisory opinions to judges, in accordance with rules and procedures adopted by the Commission.

(d) The Commission has the same power as a trial court of the General Court of Justice to punish for contempt, or for refusal to obey lawful orders or process issued by the Commission.

SECTION 4. G.S. 7A-378 is repealed.

SECTION 5. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 26th day of July, 2013. Became law upon approval of the Governor at 10:49 a.m. on the 23rd day of August, 2013.

Session Law 2013-405

AN ACT TO MAKE CHANGES TO ADMINISTRATION OF THE STATE RETIREMENT SYSTEMS THAT WILL EXTEND THE TRANSFER BENEFIT OPTION TO PARTICIPANTS IN THE 403(B) SUPPLEMENTAL RETIREMENT PLAN, CLARIFY THE TIMING OF THE SOCIAL SECURITY OFFSET FOR LONG-TERM DISABILITY BENEFITS, ESTABLISH A 415(M) BENEFITS PRESERVATION ARRANGEMENT AS ALLOWED UNDER FEDERAL LAW, AND PROVIDE THAT DOMESTIC RELATIONS ORDERS DIVIDING INTERESTS UNDER THE RETIREMENT SYSTEM MUST BE SUBMITTED ON APPROVED FORMS, AND TO CORRECT AN OVERSIGHT IN THE DISABILITY INCOME PLAN, AND TO AMEND THE PROVISIONS FOR ALLOWANCE OF RETROACTIVE MEMBERSHIP SERVICE IN THE TEACHERS' AND STATE EMPLOYEES' RETIREMENT SYSTEM AND THE LOCAL GOVERNMENTAL EMPLOYEES' RETIREMENT SYSTEM.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 135-5(m2) reads as rewritten:
"(m2) Special Retirement Allowance. – At any time coincident with or following retirement, a member may make a one-time election to transfer any portion of the member's eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System and receive, in addition to the member's basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon the member's transferred balance.

A member who became a member of the Supplemental Retirement Income Plan prior to retirement and who remains a member of the Supplemental Retirement Income Plan may make a one-time election to transfer eligible balances, not including any Roth after-tax contributions and the earnings thereon, from any of the following plans to the Supplemental Retirement Income Plan, subject to the applicable requirements of the Supplemental Retirement Income Plan, and then through the Supplemental Retirement Income Plan to this Retirement System:

1. A plan participating in the North Carolina Public School Teachers' and Professional Educators' Investment Plan.
2. A plan described in section 403(b) of the Internal Revenue Code.
3. A plan described in section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.
4. An individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income.
5. A tax-qualified plan described in section 401(a) or 403(a) of the Internal Revenue Code.

Notwithstanding anything to the contrary, a member may not transfer such amounts as will cause the member's retirement allowance under the System to exceed the amount allowable under G.S. 135-18.7(b). The Board of Trustees may establish a minimum amount that must be transferred if a transfer is elected. The member may elect a special retirement allowance with no postretirement increases or a special retirement allowance with annual postretirement increases equal to the annual increase in the U.S. Consumer Price Index. Postretirement increases on any other allowance will not apply to the special retirement allowance. The Board of Trustees shall provide educational materials to the members who apply for the transfer authorized by this section. Those materials shall describe the special retirement allowance and shall explain (i) the relationship between the transferred balance and the monthly benefit; and (ii) how the member's heirs may be impacted by the election to make this transfer and any costs and fees involved.

For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and such other tables as may be necessary based upon actual experience. A single set of mortality and such other tables will be used for all members, with factors differing only based on the age of the member and the election of postretirement increases. The Board of Trustees shall modify the mortality and such other tables every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 135-6(n). Provided, however, a member who transfers the member's eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System shall be taxed for North Carolina State Income Tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Teachers' and State Employees' Retirement System. The Teachers' and State Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.
The Supplemental Retirement Board of Trustees established under G.S. 135-96 may assess a one-time flat administrative fee not to exceed the actual cost of the administrative expenses relating to these transfers. An eligible plan shall not assess a fee specifically relating to a transfer of accumulated contributions authorized under this subsection. This provision shall not prohibit other fees that may be assessable under the plan. Each plan, contract, account, or annuity shall fully disclose to any member participating in a transfer under this subsection any surrender charges or other fees, and such disclosure shall be made contemporaneous with the initiation of the transfer by the member.

The special retirement allowance shall continue for the life of the member and the beneficiary designated to receive a monthly survivorship benefit under Option 2, 3 or 6 as provided in G.S. 135-5(g), if any. The Board of Trustees, however, shall establish two payment options that guarantee payments as follows:

1. A member may elect to receive the special retirement allowance for life but with payments guaranteed for a number of months to be specified by the Board of Trustees. Under this plan, if the member dies before the expiration of the specified number of months, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary will receive the benefit only for the remainder of the specified number of months. If the member's designated beneficiary dies before receiving payments for the specified number of months, any remaining payments will be paid to the member's estate.

2. A member may elect to receive the special retirement allowance for life but is guaranteed that the sum of the special allowance payments will equal the total of the transferred amount. Under this payment option, if the member dies before receiving the total transferred amount, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary or the member's estate shall be paid any remaining balance of the transferred amount.

The Board of Trustees shall report annually to the Joint Legislative Commission on Governmental Operations on the number of persons who made an election in the previous calendar year, with any recommendations it might make on amendment or repeal based on any identified problems.

The General Assembly reserves the right to repeal or amend this subsection, but such repeal or amendment shall not affect any person who has already made the one-time election provided in this subsection.

SECTION 2. G.S. 135-106(b) reads as rewritten:

"(b) After the commencement of benefits under this section, the benefits payable under the terms of this section during the first 36 months of the long-term disability period shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by any primary Social Security disability benefits to which the beneficiary may be entitled, effective as of the first of the month following the month of initial entitlement, and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. When primary Social Security disability benefits are increased by cost-of-living adjustments, the increased reduction shall be applied in the first month following the month in which the member becomes entitled to the increased Social Security benefit. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, any other federal agency or any payments made under the provisions of..."
G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month. However, a disabled participant may elect to receive any salary continuation as provided in G.S. 135-104 in lieu of long-term disability benefits; provided such election shall not extend the first 36 consecutive calendar months of the long-term disability period. An election to receive any salary continuation for any part of any given day shall be in lieu of any long-term benefit payable for that day, provided further, any lump-sum payout for vacation leave shall be treated as if the beneficiary or participant had exhausted the leave and shall be in lieu of any long-term benefit otherwise payable. Provided that, in any event, a beneficiary’s benefit shall be reduced during the first 36 months of the long-term disability period by an amount, as determined by the Board of Trustees, equal to a primary Social Security retirement benefit to which the beneficiary might be entitled.

After 36 months of long-term disability, no further benefits are payable under the terms of this section unless the member has been approved and is in receipt of primary Social Security disability benefits. In that case the benefits payable shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by the primary Social Security disability benefits to which the beneficiary may be entitled, effective as of the first of the month following the month of initial entitlement, and by monthly payments for Workers’ Compensation to which the participant or beneficiary may be entitled. When primary Social Security disability benefits are increased by cost-of-living adjustments, the increased reduction shall be applied in the first month following the month in which the member becomes entitled to the increased Social Security benefit. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month.

Notwithstanding the foregoing, but subject to an additional integration with the five-year and 10-year retirement vesting provisions as set forth in this paragraph, the long-term disability benefit is payable so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the earliest date at which the beneficiary who became a member prior to August 1, 2011, is eligible for an unreduced service retirement allowance from the Retirement System, at which time the beneficiary would receive a retirement allowance calculated on the basis of the beneficiary’s average final compensation at the time of disability as adjusted to reflect compensation increases subsequent to the time of disability and the creditable service accumulated by the beneficiary, including creditable service while in receipt of benefits under the Plan. In the case of any long-term disability beneficiary who became a member on and after August 1, 2011, and ordinarily would not be eligible for a retirement benefit without 10 years of membership service, for purposes of this conversion from long-term disability to service retirement, and for that purpose only, noncontributory creditable service granted while in receipt of disability benefits under this Article shall be deemed to be membership service, through the completion of 10 years of combined membership and noncontributory service on short-term and long-term disability benefits in total. In the event the beneficiary has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. When such a long-term disability recipient begins receiving this unreduced service retirement allowance from the System, that recipient shall not be subject to the six-month waiting period set forth in G.S. 135-1(20). However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security
Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation."

SECTION 3.(a) Chapter 135 of the General Statutes is amended by adding a new Article to read:

2. For a member who does not earn three years' membership service after restoration to service, the retirement allowance shall be equal to the sum of the retirement allowance to which he would have been entitled had he not been restored to service, without modification of the election of an optional allowance previously made, and the retirement allowance that results from service earned since being restored to service; provided, that if the prior retirement allowance was based on a social security leveling payment option, the prior allowance shall be adjusted actuarially for the difference between the amount that would have been paid for each month had the payment not been suspended and what would have been paid if the retirement allowance had been paid without optional modification. In the alternative, the member may receive a refund of the member's accumulated contributions for the period of service after restoration to service in accordance with G.S. 135-5(f), or the member may allow this new account to remain inactive."

"(ff) Retroactive Membership Service. – A member who is reinstated to service as an employee as defined in G.S. 135-1(10) or as a teacher as defined in G.S. 135-1(25) retroactively to the date of prior involuntary termination (with backpay and benefits) may be allowed membership service, after submitting clear and convincing evidence of the reinstatement, payment of back pay, and restoration of associated benefits, as follows:

(1) When the reinstatement to service is by court order, final decision of an Administrative Law Judge, or decision of the State Personnel Commission, and is:

a. Within 90 days of the involuntary termination, by the payment of employee and employer contributions that would have been paid; or

b. After 90 days of the involuntary termination, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.
(2) When the reinstatement to service is by settlement agreement voluntarily entered into by the affected parties, by the payment of a lump-sum amount equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities, taking into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost," "full liability," and "full actuarial cost" include assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the retroactive membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the member shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the retroactive membership service.

In the event a member received a return of accumulated contributions subsequent to an involuntary termination as provided in G.S. 135-5(f), the member may redeposit, within 90 days of reinstatement retroactive to the date of prior involuntary termination, in the annuity savings fund by single payment an amount equal to the total amount he previously withdrew plus regular interest and restore the creditable service forfeited upon receiving his return of accumulated contributions."

SECTION 6.(b) G.S. 128-26(v) reads as rewritten:

"(v) Retroactive Membership Service. – A member who is reinstated to service as an employee as defined in G.S. 128-21(10) retroactively to the date of prior involuntary termination (with backpay and benefits) with back pay and associated benefits may be allowed membership service, after submitting clear and convincing evidence of the reinstatement, payment of back pay, and restoration of associated benefits, as follows:

(1) When the reinstatement to service is by court order and is:

(2) When the reinstatement to service is by settlement agreement voluntarily entered into by the affected parties, by the payment of a lump-sum amount equal to the full liability of the service credits calculated on the basis of the assumptions used for purposes of the actuarial valuation of the system's liabilities, taking into account the retirement allowance arising on account of the additional service credit commencing at the earliest age at which the member could retire on an unreduced retirement allowance, as determined by the Board of Trustees upon the advice of the consulting actuary, plus an administrative fee to be set by the Board of Trustees. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost," "full liability," and "full actuarial cost"
include assumed annual postretirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance.

Nothing contained in this subsection shall prevent an employer or member from paying all or a part of the cost of the retroactive membership service; and to the extent paid by the employer, the cost paid by the employer shall be credited to the pension accumulation fund; and to the extent paid by the member, the cost paid by the member shall be credited to the member's annuity savings account; provided, however, an employer does not discriminate against any member or group of members in his employ in paying all or any part of the cost of the retroactive membership service.

In the event a member received a return of accumulated contributions subsequent to an involuntary termination as provided in G.S. 128-27(f), the member may redeposit, within 90 days of reinstatement retroactive to the date of prior involuntary termination, in the annuity savings fund by single payment, an amount equal to the total amount he previously withdrew plus regular interest and restore the creditable service forfeited upon receiving his return of accumulated contributions.”

§ 87-120. Notification Center; responsibilities.

(a) The operators in the State shall maintain a Notification Center for the sole purpose of providing the services required by this Article. The Notification Center shall maintain information concerning receipt of notification of proposed excavation and demolition activities as provided in this Article and shall maintain information received from operators concerning the location of the operators' facilities and the operators' positive responses to marking of the facilities. The Notification Center shall also receive, maintain, and provide general administration of reports of alleged violations of this Article and responses. The Notification Center is not responsible in any way for identifying or marking facilities for operators. The Notification Center is not responsible in any way for resolving reports of alleged violations of this Article. All operators in the State shall join the Notification Center as provided in subsection (b) of this section, and they shall use the services of the Notification Center to perform the acts required by the provisions of this Article. There shall be only one Notification Center for the State of North Carolina. The Notification Center is not an agency of the State or any of the State's political subdivisions and is not subject to the provisions of Chapter 132 or Chapter 133 of the General Statutes.

(b) Operators who are members of the Notification Center by whatever name that is in existence on October 1, 2013, must remain members. Operators with more than 50,000 customers or 1,000 miles of facilities who are not members on October 1, 2013, must join no later than October 1, 2014. The board of directors of the Notification Center shall develop a reasonable method of apportioning the costs of operating the Notification Center among the member operators. Prior to adopting a method of determining such cost allocation, the board of directors shall publish the proposed method of
cost allocation to the member operators, and the proposed method of cost allocation shall be approved by the member operators.

(c) The Notification Center shall have the following duties and responsibilities:

(1) Maintain a record of the notices received under subsection (d) of this section for at least four years.

§ 87-121. Facility operator responsibilities.

(a) An operator shall provide to the excavator the following:

(1) The horizontal location and description of all of the operator's facilities in the area where the proposed excavation or demolition is to occur. The location shall be marked by stakes, soluble paint, flags, or any combination thereof, as appropriate, depending upon the conditions in the area of the proposed excavation or demolition. The operator shall, when marking as provided under this subdivision, use the APWA Uniform Color Code. If the diameter or width of the facility is greater than four inches, the dimension of the facility shall be indicated at least every 25 feet in the area of the
proposed excavation or demolition. An operator who operates multiple facilities in the area of the proposed excavation or demolition shall locate each facility.

(2) Any other information that would assist the excavator in identifying and thereby avoiding damage to the marked facilities.

(b) Unless otherwise provided in a written agreement between the operator and the excavator, the operator shall provide to the excavator the information required by subsection (a) of this section within the times provided below:

(1) For a facility, within three full working days after the day notice of the proposed excavation or demolition was provided to the Notification Center.

(2) For a subaqueous facility, within 10 full working days after the day notice of the proposed excavation or demolition was provided to the Notification Center.

(3) If the operator declares an extraordinary circumstance, the times provided in this subsection shall not apply.

(c) The operator shall provide a positive response to the Notification Center before the expiration of the time provided in subsection (b) of this section. The response shall indicate whether and to what extent the operator is able to provide the information required by subsection (a) of this section to respond to the notice from the excavator.

(d) If the operator determines that provisions for marking subaqueous facilities are required, the operator will provide a positive response to the Notification Center not more than three full working days after notice has been provided by the excavator.

(e) If extraordinary circumstances prevent the operator from marking the location of the facilities within the time specified in subsection (b) of this section, the operator shall either notify the excavator directly or notify the excavator through the Notification Center. When providing the notification under this subsection, the operator shall state the date and time when the location will be marked.

(f) An operator shall prepare or cause to be prepared installation records of all facilities installed on or after the date this Article becomes effective in a public street, alley, or right-of-way dedicated to public use, excluding service drops and services lines. The operator shall maintain these records in the operator's possession while the facility is in service.

(g) All facilities installed by or on behalf of operators on or after the date this Article becomes effective shall be electronically locatable using a locating method that is generally accepted by operators in the particular industry or trade in which the operator is engaged.

(h) A locator shall notify the operator if the locator becomes aware of an error or omission in the records or documentation showing the location of the operator's facilities. The operator must update its records to correct any error or omission.

(i) An operator may reject an excavation or demolition notice due to homeland security considerations based upon federal statutes or federal regulations until the operator can confirm the legitimacy of the notice. The operator shall notify the person making the notice of the denial and may request additional information through the positive response system.

(j) Gravity fed sanitary sewers installed prior to the date this Article becomes effective and all storm water facilities shall be exempt from the location requirements provided in subsection (a) of this section. Neither the excavator nor the person financially responsible for the excavation will be liable for any damage to an unmarked gravity fed sanitary sewer line or unmarked storm water facility if the person doing the excavation exercises due care to protect existing facilities when there is evidence of the existence of those facilities near the proposed excavation area.

(k) An operator who does not become a member of the Notification Center as required by G.S. 87-120(b) may not recover for damages to a facility caused by an excavator who has complied with the provisions of this Article and has exercised reasonable care in the performance of the excavation or demolition.
§ 87-122. Excavator responsibilities.

(a) Before commencing any excavation or demolition operation, the person responsible for the excavation or demolition shall provide or cause to be provided notice to the Notification Center of his or her intent to excavate or demolish. Notice for any excavation or demolition that does not involve a subaqueous facility must be given within three to 12 full working days before the proposed commencement date of the excavation or demolition. Notice for any excavation or demolition in the vicinity of a subaqueous facility must be given within 10 to 20 full working days before the proposed commencement date of the excavation or demolition. Notice given pursuant to this subsection shall expire 15 full working days after the date notice was given. No excavation or demolition may continue after this 15-day period unless the person responsible for the excavation or demolition provides a subsequent notice which shall be provided in the same manner as the original notice required by this subsection. When demolition of a building is proposed, the operator shall be given a reasonable time in which to remove or protect the operator's facilities before the demolition commences.

(b) The notice required by subsection (a) of this section shall, at a minimum, contain all of the following:

1. The name, address, and telephone number of the person providing the notice.
2. The anticipated starting date of the proposed excavation or demolition.
3. The anticipated duration of the proposed excavation or demolition.
4. The type of proposed excavation or demolition operation to be conducted.
5. The location of the proposed excavation or demolition, not to exceed one-quarter mile in geographical length, or five adjoining addresses, not to exceed one-quarter mile in geographical length.
6. Whether or not explosives are to be used in the proposed excavation or demolition.

(c) An excavator shall comply with the following:

1. When the excavation area cannot be clearly and adequately identified within the area described in the notice, the excavator shall designate the route, specific area to be excavated, or both by premarking the area before the operator performs a locate. Premarking shall be made with soluble white paint, white flags, or white stakes.
2. Confirm through the Notification Center's positive response system prior to excavation or demolition that all operators have responded and that all facilities that may be affected by the proposed excavation or demolition have been marked.
3. Plan the excavation or demolition to avoid damage to or minimize interference with facilities in or near the construction area.
4. Begin excavation or demolition prior to the specified waiting period only if the excavator has confirmed that all operators have responded with an appropriate positive response.
5. If the operator declares extraordinary circumstances, the excavator shall not excavate or demolish until after the time and date that the operator has provided in the operator's response.
6. If an operator fails to respond to the positive response system, the excavator may proceed if there are no visible indications of a facility at the proposed excavation or demolition area, such as a pole, marker, pedestal, meter, or valve. However, if the excavator is aware of or observes indications of an unmarked facility at the proposed excavation or demolition area, the excavator shall not begin excavation or demolition until an additional call is made to the Notification Center detailing the facility and an arrangement is made for the facility to be marked by the operator within three hours from the time the additional call is received by the Notification Center.
Beginning on the date provided in the excavator's notice to the Notification Center, the excavator shall preserve the staking, marking, or other designation until they are no longer required. When a mark is no longer visible or is destroyed, but the excavation or demolition continues in the vicinity of the facility, the excavator shall request a re-mark from the Notification Center to ensure the protection of the facility.

When demolition of a building is proposed, the excavator shall give the operator a reasonable time in which to remove or protect the operator's facilities before demolition commences.

An excavator shall not perform any excavation or demolition within the tolerance zone unless the excavator complies with all of the following conditions:

a. The excavator shall not use mechanized equipment, except noninvasive equipment specifically designed or intended to protect the integrity of the facility, within the marked tolerance zone of an existing facility until:
   1. The excavator has visually identified the precise location of the facility or has visually confirmed that no facility is present up to the depth of excavation;
   2. The excavator has taken reasonable precautions to avoid any substantial weakening of the facility's structural or lateral support, or both, or penetration or destruction of the facilities or their protective coatings; and
   3. The excavator may use mechanical means, as necessary, for the initial penetration and removal of pavement or other materials requiring use of mechanical means of excavation but only to the depth of the pavement or other materials. For parallel type excavations within the tolerance zone, the existing facility shall be visually identified at intervals not to exceed 50 feet along the line of excavation to avoid damages. The excavator shall exercise due care at all times to protect the facilities when exposing these facilities.

b. The excavator shall maintain clearance between a facility and the cutting edge or point of any mechanized equipment, taking into account the known limit of control of the cutting edge or point, as may be reasonably necessary to avoid damage to the facility.

c. The excavator shall provide support for facilities in and near the excavation or demolition area, including backfill operations, as may be reasonably required by the operator for the protection of the facilities.

(10) The excavator shall not use mechanized equipment within 24 inches of a facility that is a gas, oil, petroleum, or electric transmission line unless the facility operator has consented to the use in writing and the operator's representative is on site during the use of the mechanized equipment. For purposes of this subdivision, the term "gas, oil, petroleum transmission line" has the same meaning as the term "transmission line" in Title 49 C.F.R. § 192.3, and the term "electric transmission line" has the same meaning as the term "transmission line" in G.S. 62-100(7).

"§ 87-123. Training.
(a) Every person who is an excavator, locator, or operator under this Article by virtue of engaging in these activities in the course of a business or trade has a duty to provide education and training to employees and to document such education and training. The training shall include sufficient information, guidance, and supervision such that employees can competently

1702
and safely operate the equipment used in the course of the business or trade and complete assigned tasks in a competent and safe manner while minimizing the potential for damage.

(b) When an excavator, locator, or operator under this Article retains an independent contractor to perform activities regulated by this Article, the duty set forth in subsection (a) of this section shall not apply to the excavator, locator, or operator. Independent contractors shall provide training to their employees in accordance with this section.

(c) Excavation shall be conducted in accordance with OSHA Standard 1926 and under the direction of a competent person, as defined therein.

(d) Locators shall be properly trained. Locator training shall be documented.

§ 87-124. Exemptions.
The notice requirements in G.S. 87-122(a) and G.S. 87-122(b) do not apply to the following:

Maintenance activities do not include the initial installation of traffic signs, traffic control equipment, or guardrails.

7. An excavation or demolition performed by a railroad entirely on land which the railroad owns or operates or, in the event of an emergency, on adjacent land. No provision in this Article shall apply to any railroad which owns, operates, or permits facilities under land which the railroad owns or operates.

8. An excavation of a grave space, as defined in G.S. 65-48(10), the installation of a monument or memorial at a grave space, or an excavation related to the placement of a temporary structure or tent by a cemetery regulated under Chapter 65 of the General Statutes that does not encroach on any operator's right-of-way, easement, or permitted use.

§ 87-125. Notice in case of emergency excavation or demolition.
(a) An excavator performing an emergency excavation or demolition is not required to give notice to the Notification Center as provided in G.S. 87-122. However, the excavator shall, as soon as practicable, give oral notice to the Notification Center which shall include a
description of the circumstances justifying the emergency. The excavator may request
emergency assistance from each affected operator in locating and providing immediate
protection to the facilities in the affected area.

(b) The declaration of an emergency excavation or demolition shall not relieve any
party of liability for causing damage to an operator's facilities even if those facilities are
unmarked.

(c) Any person who falsely claims that an emergency exists requiring an excavation or
demolition shall be guilty of a Class 3 misdemeanor.

§ 87-126. Notification required when damage is done.

(a) The excavator performing an excavation or demolition that results in any damage to
a facility shall immediately upon discovery of the damage notify the Notification Center and
the facility operator, if known, of the location and nature of the damage. The excavator shall
allow the operator reasonable time to accomplish necessary repairs before completing the
excavation or demolition in the immediate area of the facility. The excavator shall delay any
backfilling in the immediate area of the damaged facility until authorized by the operator. The
operator or qualified personnel authorized by the operator shall repair any damage to the
facility.

(b) An excavator who is responsible for an excavation or demolition where any damage
to a facility results in the discharge of electricity or escape of any flammable, toxic, or
corrosive gas or liquid, or that endangers life, health, or property shall immediately notify
emergency responders, including 911 services, the Notification Center, and the facility
operator. The excavator shall take reasonable measures to protect himself or herself, other
persons in immediate danger, members of the general public, property, and the environment
until the operator or emergency responders arrive and complete an assessment of the situation.

§ 87-127. Design notices.

(a) A designer may submit a design notice to the Notification Center. The design notice
shall describe the tract or parcel of land for which the design notice has been submitted with
sufficient particularity, as defined by policies and procedures adopted by the Notification
Center, to allow the operator to ascertain the precise tract or parcel of land involved.

(b) Within 10 working days, not including the day the notice was given, after a design
notice for a proposed project has been submitted to the Notification Center, the operator shall
respond in one of the following manners:

(1) By designating the location of all facilities owned by the operator within the
area of the proposed excavation as provided in G.S. 87-121(a).

(2) By providing to the person submitting the design notice the best available
description of all facilities in the area designated by the design notice, which
may include drawings marked with a scale, dimensions, and reference points
for underground utilities already built in the area or other facility records that
are maintained by the operator.

(3) Allowing the person submitting the design notice or any other authorized
person to inspect the drawings or other records for all facilities within the
proposed area of excavation at a location that is acceptable to the operator.

(c) An operator may reject a design notice based upon homeland security
considerations pending the operator obtaining additional information confirming the legitimacy
of the notice. The operator shall notify the person making the request through a design notice of
the denial and may request additional information through the positive response system.

§ 87-128. Absence of facility location.

If an operator who has been given notice as provided in G.S. 87-120(d) by the Notification
Center fails to respond to that notice as provided in G.S. 87-121 or fails to properly locate the
facility, the person excavating is free to proceed with the excavation. Neither the excavator nor
the person financially responsible for the excavation will be liable to the nonresponding or
improperly responding operator for damages to the operator's facilities if the person doing the
excavating exercises due care to protect existing facilities when there is evidence of the existence of those facilities near the proposed excavation area.

§ 87-129. Underground Damage Prevention Review Board; enforcement; civil penalties.

(a) The Notification Center shall establish an Underground Damage Prevention Review Board to review reports of alleged violations of this Article. The members of the Board shall be appointed by the Governor. The Board shall consist of the following members:

The Board shall meet at least quarterly to review all reports filed pursuant to G.S. 87-120(e). The Board shall act as an arbitrator between the parties to the report. If, after reviewing the report and any accompanying information, the Board determines that a violation of this Article has occurred, the Board shall notify the violating party in writing of its determination and the recommended penalty. The violating party may request a hearing before the Board, after which the Board may reverse or uphold its original finding. If the Board recommends a penalty, the Board shall notify the Utilities Commission of the recommended penalty, and the Utilities Commission shall issue an order imposing the penalty.

(c) A party determined by the Board under subsection (b) of this section to have violated this Article may initiate an arbitration proceeding before the Utilities Commission. If the violating party elects to initiate an arbitration proceeding, the violating party shall pay a filing fee of two hundred fifty dollars ($250.00) to the Utilities Commission, and the Utilities Commission shall open a docket regarding the report. The Utilities Commission shall direct the parties enter into an arbitration process. The parties shall be responsible for selecting and contracting with the arbitrator. In any case where the Department denies a permit for a solid waste management facility, it shall state in writing the reason for denial and
shall also state its estimate of the changes in the applicant's proposed activities or plans that will be required for the applicant to obtain a permit.

Prior record levels are indicated by the Roman numerals placed horizontally on the top of the chart. Classes of offense are indicated by the letters placed vertically on the left side of the chart. Each cell on the chart contains the following components:
(1) A sentence disposition or dispositions: "C" indicates that a community punishment is authorized; "I" indicates that an intermediate punishment is authorized; "A" indicates that an active punishment is authorized; and "Life Imprisonment Without Parole" indicates that the defendant shall be imprisoned for the remainder of the prisoner's natural life.
(2) A presumptive range of minimum durations, if the sentence of imprisonment is neither aggravated or mitigated; any minimum term of imprisonment in that range is permitted unless the court finds pursuant to G.S. 15A-1340.16
that an aggravated or mitigated sentence is appropriate. The presumptive
range is the middle of the three ranges in the cell.

(3) A mitigated range of minimum durations if the court finds pursuant to
G.S. 15A-1340.16 that a mitigated sentence of imprisonment is justified; in
such a case, any minimum term of imprisonment in the mitigated range is
permitted. The mitigated range is the lower of the three ranges in the cell.

(4) An aggravated range of minimum durations if the court finds pursuant to
G.S. 15A-1340.16 that an aggravated sentence of imprisonment is justified;
in such a case, any minimum term of imprisonment in the aggravated range is
permitted. The aggravated range is the higher of the three ranges in the cell.

The petition shall not be filed earlier than 15 years after the date of the conviction or when any active sentence, period of probation, and post-release supervision has been served, whichever occurs later. The petition shall contain, but not be limited to, the following:

(1) An affidavit by the petitioner that the petitioner has been of good moral character since the date of conviction for the nonviolent misdemeanor or nonviolent felony and has not been convicted of any other felony or misdemeanor, other than a traffic violation, under the laws of the United States or the laws of this State or any other state.

(b1) Substantial Economic Impact. – Before an agency publishes in the North Carolina Register the proposed text of a permanent rule change that would have a substantial economic impact and that is not identical to a federal regulation that the agency is required to adopt, the agency shall prepare a fiscal note for the proposed rule change and have the note approved by the Office of State Budget and Management. The agency may request the Office of State Budget and Management to prepare the fiscal note only after, working with the Office, it has exhausted all resources, internal and external, to otherwise prepare the required fiscal note. If an agency requests the Office of State Budget and Management to prepare a fiscal note for a proposed rule change, that Office must prepare the note within 90 days after receiving a written request for the note. If the Office of State Budget and Management fails to prepare a fiscal note within this time period, the agency proposing the rule change shall prepare a fiscal note. A fiscal note prepared in this circumstance does not require approval of the Office of State Budget and Management.

If an agency prepares the required fiscal note, the agency must submit the note to the Office of State Budget and Management for review. The Office of State Budget and Management shall review the fiscal note within 14 days after it is submitted and either approve the note or inform the agency in writing of the reasons why it does not approve the fiscal note. After addressing these reasons, the agency may submit the revised fiscal note to that Office for its review. If an agency is not sure whether a proposed rule change would have a substantial economic impact, the agency shall ask the Office of State Budget and Management to determine whether the proposed rule change has a substantial economic impact. Failure to prepare or obtain approval of the fiscal note as required by this subsection shall be a basis for objection to the rule under G.S. 150B-21.9(a)(4).

As used in this subsection, the term "substantial economic impact" means an aggregate financial impact on all persons affected of at least five hundred thousand dollars ($500,000) or one million dollars ($1,000,000) in a 12-month period. In analyzing substantial economic impact, an agency shall do the following:

1. Determine and identify the appropriate time frame of the analysis.
2. Assess the baseline conditions against which the proposed rule is to be measured.
3. Describe the persons who would be subject to the proposed rule and the type of expenditures these persons would be required to make.
(4) Estimate any additional costs that would be created by implementation of the proposed rule by measuring the incremental difference between the baseline and the future condition expected after implementation of the rule. The analysis should include direct costs as well as opportunity costs. Cost estimates must be monetized to the greatest extent possible. Where costs are not monetized, they must be listed and described.

(5) For costs that occur in the future, the agency shall determine the net present value of the costs by using a discount factor of seven percent (7%).

(b2) Content. – A fiscal note required by subsection (b1) of this section must contain the following:

(1) A description of the persons who would be affected by the proposed rule change.

(2) A description of the types of expenditures that persons affected by the proposed rule change would have to make to comply with the rule and an estimate of these expenditures.

(3) A description of the purpose and benefits of the proposed rule change.

(4) An explanation of how the estimate of expenditures was computed.

(5) A description of at least two alternatives to the proposed rule that were considered by the agency and the reason the alternatives were rejected. The alternatives may have been identified by the agency or by members of the public.

(c) Errors. – An erroneous fiscal note prepared in good faith does not affect the validity of a rule.

SECTION 3.(a) G.S. 150B-21.2(c) reads as rewritten:

"(e) Notice of Text. – A notice of the proposed text of a rule must include all of the following:

(1) The text of the proposed rule, unless the rule is a readoption without substantive changes to the existing rule proposed in accordance with G.S. 150B-21.3A.

(2) A short explanation of the reason for the proposed rule and a link to the agency's Web site containing the information required by G.S. 150B-19.1(c).

(3) A citation to the law that gives the agency the authority to adopt the rule.

(4) The proposed effective date of the rule.

(5) The date, time, and place of any public hearing scheduled on the rule.

(6) Instructions on how a person may demand a public hearing on a proposed rule if the notice does not schedule a public hearing on the proposed rule and subsection (e) of this section requires the agency to hold a public hearing on the proposed rule when requested to do so.

(7) The period of time during which and the person to whom written comments may be submitted on the proposed rule.

(8) If a fiscal note has been prepared for the rule, a statement that a copy of the fiscal note can be obtained from the agency.

(9) The procedure by which a person can object to a proposed rule and the requirements for subjecting a proposed rule to the legislative review process."

SECTION 3.(b) Part 2 of Article 2A of Chapter 150B of the General Statutes is amended by adding a new section to read:

"§ 150B-21.3A. Periodic review and expiration of existing rules.

(a) Definitions. – For purposes of this section, the following definitions apply:

(2) Committee. – Means the Joint Legislative Administrative Procedure Oversight Committee."
Necessary with substantive public interest. – Means any rule for which the agency has received public comments within the past two years. A rule is also "necessary with substantive public interest" if the rule affects the property interest of the regulated public and the agency knows or suspects that any person may object to the rule.

Necessary without substantive public interest. – Means a rule for which the agency has not received a public comment concerning the rule within the past two years. A "necessary without substantive public interest" rule includes a rule that merely identifies information that is readily available to the public, such as an address or a telephone number.

Public comment. – Means written comments objecting to the rule, in whole or in part, received by an agency from any member of the public, including an association or other organization representing the regulated community or other members of the public.

Unnecessary rule. – Means a rule that the agency determines to be obsolete, redundant, or otherwise not needed.

Automatic Expiration. – Except as provided in subsection (d1) of this section, any rule for which the agency that adopted the rule has not conducted a review in accordance with this section shall expire on the date set in the schedule established by the Commission pursuant to subsection (d) of this section.

Review Process. – Each agency subject to this Article shall conduct a review of the agency's existing rules at least once every 10 years in accordance with the following process:

Step 1: The agency shall conduct an analysis of each existing rule and make an initial determination as to whether the rule is (i) necessary with substantive public interest, (ii) necessary without substantive public interest, or (iii) unnecessary. The agency shall then post the results of the initial determination on its Web site and invite the public to comment on the rules and the agency's initial determination. The agency shall also submit the results of the initial determination to the Office of Administrative Hearings for posting on its Web site. The agency shall accept public comment for no less than 60 days following the posting. The agency shall review the public comments and prepare a brief response addressing the merits of each comment. After completing this process, the agency shall submit a report to the Commission. The report shall include the following items:

a. The agency's initial determination.
b. All public comments received in response to the agency's initial determination.
c. The agency's response to the public comments.

Step 2: The Commission shall review the reports received from the agencies pursuant to subdivision (1) of this subsection. If a public comment relates to a rule that the agency determined to be necessary and without substantive public interest or unnecessary, the Commission shall determine whether the public comment has merit and, if so, designate the rule as necessary with substantive public interest. For purposes of this subsection, a public comment has merit if it addresses the specific substance of the rule and relates to any of the standards for review by the Commission set forth in G.S. 150B-21.9(a). The Commission shall prepare a final determination report and submit the report to the Committee for consultation in accordance with subdivision (3) of this subsection. The report shall include the following items:

a. The agency's initial determination.
b. All public comments received in response to the agency's initial determination.
c. The agency's response to the public comments.
d. A summary of the Commission's determinations regarding public comments.
e. A determination that all rules that the agency determined to be necessary and without substantive public interest and for which no public comment was received or for which the Commission determined that the public comment was without merit be allowed to remain in effect without further action.
f. A determination that all rules that the agency determined to be unnecessary and for which no public comment was received or for which the Commission determined that the public comment was without merit shall expire on the first day of the month following the date the report becomes effective in accordance with this section.
g. A determination that all rules that the agency determined to be necessary with substantive public interest or that the Commission designated as necessary with public interest as provided in this subdivision shall be readopted as though the rules were new rules in accordance with this Article.

(3) Step 3: The final determination report shall not become effective until the agency has consulted with the Committee. The determinations contained in the report pursuant to sub-divisions e., f., and g. of subdivision (2) of this subsection shall become effective on the date the report is reviewed by the Committee. If the Committee does not hold a meeting to hear the consultation required by this subdivision within 60 days of receipt of the final determination report, the consultation requirement is deemed satisfied, and the determinations contained in the report become effective on the 61st day following the date the Committee received the report. If the Committee disagrees with a determination regarding a specific rule contained in the report, the Committee may recommend that the General Assembly direct the agency to conduct a review of the specific rule in accordance with this section in the next year following the consultation.

d. Timetable. – The Commission shall establish a schedule for the review of existing rules in accordance with this section on a decennial basis by assigning each Title of the Administrative Code a date by which the review required by this section must be completed. In establishing the schedule, the Commission shall consider the scope and complexity of rules subject to this section and the resources required to conduct the review required by this section. The Commission shall have broad authority to modify the schedule and extend the time for review in appropriate circumstances. Except as provided in subsection (d1) of this section, if the agency fails to conduct the review by the date set by the Commission, the rules contained in that Title which have not been reviewed will expire. The Commission may exempt rules that have been adopted or amended within the previous 10 years from the review required by this section. However, any rule exempted on this basis must be reviewed in accordance with this section no more than 10 years following the last time the rule was amended.

d1) Rules to Conform to or Implement Federal Law. – Rules adopted to conform to or implement federal law shall not expire as provided by this section. The Commission shall report annually to the Committee on any rules that do not expire pursuant to this subsection.

e. Other Reviews. – Notwithstanding any provision of this section, an agency may subject a rule that it determines to be unnecessary to review under this section at any time by notifying the Commission that it wishes to be placed on the schedule for the current year. The Commission may also subject a rule to review under this section at any time by notifying the agency that the rule has been placed on the schedule for the current year."

SECTION 3.(c) G.S. 150B-19.2 is repealed.
SECTION 3.(d) If G.S. 150B-21.3A, as enacted by subsection (b) of this section, becomes law, the Rules Review Commission shall subject rules adopted by the Environmental Management Commission related to surface water quality and wetlands to review in the first year that the Rules Review Commission establishes for the review of existing rules in accordance with G.S. 150B-21.3A.

SECTION 4. The Joint Legislative Administrative Procedure Oversight Committee shall undertake a study of the exemptions from rule making contained in G.S. 150B-1(d) and elsewhere in the General Statutes. For each exemption, the Committee shall evaluate the continued need for the exemption and the potential consequences of repeal of the exemption. The Committee shall report to the 2014 Regular Session of the 2013 General Assembly on its findings and recommendations, including any legislative recommendations for the repeal of exemptions.

If the principal contractor, intermediate contractor or subcontractor shall obtain such certificate at the any time of before subletting such contract to the subcontractor, he shall not thereafter be held liable to any employee of such subcontractor for compensation or other benefits under this Article and within the term specified by the certificate.

Notwithstanding the provisions of this section, any principal contractor, intermediate contractor, or subcontractor who shall sublet any contract for the performance of work shall not be held liable to any employee of such subcontractor if either (i) the subcontractor has a workers' compensation insurance policy in compliance with G.S. 97-93 in effect on the date of injury regardless of whether the principal contractor, intermediate contractor, or subcontractor failed to timely obtain a certificate from the subcontractor; or (ii) the policy expired or was cancelled prior to the date of injury provided the principal contractor, intermediate contractor, or subcontractor obtained a certificate at any time before subletting such contract to the subcontractor and was unaware of the expiration or cancellation.

Any principal contractor, intermediate contractor, or subcontractor paying compensation or other benefits under this Article, under the foregoing provisions of this section, may recover the amount so paid from any person, persons, or corporation who independently of such provision, would have been liable for the payment thereof.
Every claim filed with the Industrial Commission under this section shall be instituted against all parties liable for payment, and said Commission, in its award, shall fix the order in which said parties shall be exhausted, beginning with the immediate employer.

The principal or owner may insure any or all of his contractors and their employees in a blanket policy, and when so insured such contractor's employees will be entitled to compensation benefits regardless of whether the relationship of employer and employee exists between the principal and the contractor."

**SECTION 13.(d)** This section is effective when it becomes law and applies to insurance policies and certificates of insurance in effect on or after that date.

**SECTION 15.** G.S. 95-79 reads as rewritten:

(a) Any agreement or combination between any employer and any labor union or labor organization whereby persons not members of such union or organization shall be denied the right to work for said employer, or whereby such membership is made a condition of employment or continuation of employment by such employer, or whereby any such union or organization acquires an employment monopoly in any enterprise, is hereby declared to be against the public policy and an illegal combination or conspiracy in restraint of trade or commerce in the State of North Carolina.

(b) Any provision that directly or indirectly conditions the purchase of agricultural products or the terms of an agreement for the purchase of agricultural products upon an agricultural producer's status as a union or nonunion employer or entry into or refusal to enter into an agreement with a labor union or labor organization is invalid and unenforceable as against public policy in restraint of trade or commerce in the State of North Carolina. (a) It shall be a rebuttable presumption under this Chapter that any person who operates, and who has an ownership or leasehold interest in, a passenger motor vehicle that is operated as a taxicab is an independent contractor for the purposes of this Chapter and not an employee as defined in G.S. 97-2. The presumption is not rebutted solely (i) because the operator is required to comply with rules and regulations imposed on taxicabs by the local governmental unit that licenses companies, taxicabs, or operators or (ii) because a taxicab accepts a trip request to be at a specified place at a specified time, but the presumption may be rebutted by application of the common law test for determining employment status.

(b) The following definitions apply in this section:
(1) **Lease.** – A contract under which the lessor provides a vehicle to a lessee for consideration.

(2) **Leasehold.** – Includes, but is not limited to, a lease for a shift or a longer period.

   (2) Set standards for scrap tire processing facilities and associated scrap tire sites, scrap tire collection centers, and scrap tire collectors.

e) The Department shall encourage the voluntary establishment of scrap tire collection centers at retail tire-selling businesses, scrap tire processing facilities, and solid waste disposal facilities, to be open to the public for the deposit of used and scrap tires. The Department may establish an incentives program for individuals to encourage them to return their used or scrap tires to a scrap tire collection center.

Existing stormwater retention ponds, stormwater detention ponds, or any other stormwater control measure that promotes standing water in order to comply with this section located at public airports or that are within five statute miles from the farthest edge of an airport"
operations area may be replaced with alternative measures included in the Division of Water Quality Resources' Best Management Practice Manual chapter on airports. In order to be approved by the Department, alternative measures or management designs that are not expressly included in the Division of Water Quality Resources' Best Management Practice Manual shall provide for equal or better stormwater control based on the pre- and post-development hydrograph. Any replacement of existing stormwater retention ponds, stormwater detention ponds, or any other stormwater control measure that promotes standing water shall be considered a minor modification to the State general stormwater permit.

SECTION 57.(i) G.S. 143-214.7A reads as rewritten:

"§ 143-214.7A. Stormwater control best management practices.

(a) The Department of Environment and Natural Resources shall establish standard stormwater control best management practices and standard process water treatment processes or equivalent performance standards for composting operations that are required to be permitted by the Division of Water Quality Resources in the Department and the Division of Waste Management in the Department. These practices, processes, and standards shall be developed for the purpose of protecting water quality by controlling and containing stormwater that is associated with composting operations, by reducing the pollutant levels of process water from composting operations, and by reducing the opportunities for generation of such waters.

(b) Unless otherwise provided in this subsection, the Division of Water Quality Resources shall clarify that stormwater is water that does not contact anything considered a feedstock, intermediate product, or final product of composting operations. Unless otherwise provided in this subsection, the Division of Water Quality Resources shall clarify that wastewater is leachate and water that contacts feedstocks, intermediate products, or final product, of composting operations. The clarifications shall incorporate available scientifically valid information obtained from sampling and analyses of North Carolina composting facilities and from valid representative data from other states. In addition, the Division of Water Quality Resources shall establish threshold quantities of feedstocks, intermediate products, and final products above which water quality permitting will be required. A Type 1 solid waste compost facility shall be subject only to applicable State stormwater requirements and federal stormwater requirements established pursuant to 33 U.S.C. § 1342(p)(3)(B). A Type 1 solid waste compost facility shall not be required to obtain a National Pollutant Discharge Elimination System (NPDES) permit for discharge of process wastewater based solely on the discharge of stormwater that has come into contact with feedstock, intermediate product, or final product at the facility. For purposes of this section, "Type 1 solid waste compost facilities" are facilities that may receive yard and garden waste, silvicultural waste, untreated and unpainted wood waste, or any combination thereof.

(c) The Department shall establish revised water quality permitting procedures for the composting industry. The revised permitting procedures shall identify the various circumstances that determine which water quality permit is required for various composting activities. The Department shall determine whether selected low-risk subsets of the composting industry may be suitable for expedited or reduced water quality permitting procedures. The determination shall include consideration of the economic impact of regulatory decisions.

(d) In developing the practices, processes, and standards and the revised water quality permitting procedures required by this section, the Department shall review practices, processes, and standards and permitting procedures adopted by other states and similar federal programs.

(e) The Department shall form a Compost Operation Stakeholder Advisory Group composed of representatives from the North Carolina Chapter of the United States Composting Council, the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, the North Carolina State Agricultural Extension Service, the North Carolina Chapter of the American Water Works Association-Water Environment Federation, the North Carolina Pumper Group, the North Carolina Chapter of the Solid Waste Association of North America, the North Carolina Septic Tank Association, and any individual or group commenting
to the Department on issues related to water quality at composting operations. The Compost Operation Stakeholder Advisory Group shall be convened periodically to provide input and assistance to the Department.

(f) The practices, processes, and standards and the revised permitting procedures shall address the site size of an operation, the nature of the feedstocks composted, the type of compost production method employed, the quantity and water quality of the stormwater or process water associated with composting facilities, the water quality of the receiving waters, as well as operation and maintenance requirements for the resulting standard stormwater control best management practices and standard process water treatment processes.”

SECTION 57.(j) G.S. 143-214.10 reads as rewritten:

"§ 143-214.10. Ecosystem Enhancement Program: development and implementation of basinwide restoration plans.

Develop Basinwide Restoration Plans. – The Department shall develop basinwide plans for wetlands and riparian area restoration with the goal of protecting and enhancing water quality, flood prevention, fisheries, wildlife habitat, and recreational opportunities within each of the 17 major river basins in the State. The Department shall develop and implement a basinwide restoration plan for each of the 17 river basins in the State in accordance with the basinwide schedule currently established by the Division of Water Quality Resources.”

(a) The Division of Water Quality Resources of the Department shall develop a program to train and certify individuals to determine the presence of surface waters that would require the application of rules adopted by the Commission for the protection of riparian buffers. The Division may train and certify employees of the Division as determined by the Director of the Division of Water Quality Resources; employees of units of local government to whom responsibility for the implementation and enforcement of the riparian buffer protection rules is delegated pursuant to G.S. 143-214.23; and Registered Foresters under Chapter 89B of the General Statutes who are employees of the North Carolina Forest Service of the Department of Agriculture and Consumer Services as determined by the Assistant Commissioner of the North Carolina Forest Service. The Director of the Division of Water Quality Resources may review the determinations made by individuals who are certified pursuant to this section, may override a determination made by an individual certified under this section, and, if the Director of the Division of Water Quality Resources determines that an individual is failing to make correct determinations, revoke the certification of that individual.

(b) The Division of Water Quality Resources shall develop standard forms for use in making and reporting determinations. Each individual who is certified to make determinations under this section shall prepare a written report of each determination and shall submit the report to the agency that employs the individual. Each agency shall maintain reports of determinations made by its employees, shall forward a copy of each report to the Director of the Division of Water Quality Resources, and shall maintain these reports and all other records related to determinations so that they will be readily accessible to the public.

(c) In implementing the Surface Water Identification Training and Certification Program established by this section, the Division of Water Quality Resources of the Department of Environment and Natural Resources shall give priority to training and certifying the most highly qualified and experienced personnel in each agency. The Division of Water Quality Resources shall evaluate the effectiveness of the Surface Water Identification Training and Certification Program and shall submit an annual report of its findings and recommendations, if any, to the Environmental Review Commission on or before October 1 of each year.”

      (2) To the extent practicable, minimizes the erosive velocity of water.
      (3) Has an inside that is greater than or equal to 1.2 times the bankfull width of the spanned waterbody. For purposes of this subdivision, "bankfull width" means the width of the stream where over-bank flow begins during a flood event.
   (b) The Division shall allow the use of culverts authorized under this section throughout the State and may not limit their use to locations where they must be tied into bedrock. Culverts authorized under this section may only be used on private property and may not be transferred to, or operated or maintained by, the Department of Transportation.

SECTION 57.(m) G.S. 143-215.10A reads as rewritten:
§ 143-215.10A. Legislative findings and intent.
The General Assembly finds that animal operations provide significant economic and other benefits to this State. The growth of animal operations in recent years has increased the importance of good animal waste management practices to protect water quality. It is critical that the State balance growth with prudent environmental safeguards. It is the intention of the State to promote a cooperative and coordinated approach to animal waste management among the agencies of the State with a primary emphasis on technical assistance to farmers. To this end, the General Assembly intends to establish a permitting program for animal waste management systems that will protect water quality and promote innovative systems and practices while minimizing the regulatory burden. Technical assistance will be provided by the Division of Soil and Water Conservation of the Department of Agriculture and Consumer Services. Inspection and enforcement will be provided by the Division of Water Quality Resources.

(7) "Vegetative conveyance" means a permanent, designed waterway lined with vegetation that is used to convey stormwater runoff at a non-erosive velocity within or away from a developed area.

"SECTION 2.(b) Requirements for Certain Nonresidential and Residential Development in the Coastal Counties. – All nonresidential development activities that occur within the Coastal Counties that will add more than 10,000 square feet of built upon area or that require a Sedimentation and Erosion Control Plan, pursuant to G.S. 113A-57 or a Coastal Area Management Act (CAMA) Major Development Permit, pursuant to G.S. 113A-118 and all residential development activities within the Coastal Counties that require a Sedimentation and Erosion Control Plan, pursuant to G.S. 113A-57 or a Coastal Area Management Act (CAMA) Major Development Permit, pursuant to G.S. 113A-118 shall manage stormwater runoff as provided in this subsection. A development activity or project requires a Sedimentation and Erosion Control Plan if the activity or project disturbs one acre or more of land, including an activity or project that disturbs less than one acre of land that is part of a larger common plan of development. Whether an activity or project that disturbs less than one acre of land is part of a larger common plan of development shall be determined in a manner consistent with the memorandum referenced as "Guidance Interpreting Phase 2 Stormwater Requirements" from the Director of the Division of Water Quality of the Department of Environment and Natural Resources to Interested Parties dated 24 July 2006.

a. Low-Density Option. – Development shall be permitted pursuant to 15A NCAC 02H .1003(d)(1) if the development meets all of the following requirements:

1. The development has a built upon area of twelve percent (12%) or less. A development project with an overall density at or below the low-density threshold, but containing areas with a density greater than the overall project density, shall be considered low-density as long as the project meets or exceeds the requirements for low-density development and locates the higher density development in upland areas and away from surface waters and drainageways to the maximum extent practicable.
2. Stormwater runoff from the development is transported primarily by vegetated conveyances. As used in this sub-sub-subdivision, "conveyance system" shall not include a stormwater collection system. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.

3. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with and maintained in grass or any other vegetative or plant material. The Division of Water Quality Resources may, on a case-by-case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

b. High-Density Option. – Development shall be permitted pursuant to 15A NCAC 02H .1003(d)(2) if the development meets all of the following requirements:

1. The development has a built upon area of greater than twelve percent (12%).

2. The development has no direct outlet channels or pipes to Class SA waters unless permitted in accordance with 15A NCAC 02H .0126. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.

3. The development utilizes control systems that are any combination of infiltration systems, bioretention systems, constructed stormwater wetlands, sand filters, rain barrels, cisterns, rain gardens or alternative low impact development stormwater management systems designed in accordance with 15A NCAC 02H .1008 to control and treat the runoff from all surfaces generated by one and one-half inches of rainfall, or the difference in the stormwater runoff from all surfaces from the predevelopment and postdevelopment conditions for a one-year, 24-hour storm, whichever is greater. Wet detention ponds may be used as a stormwater control system to meet the requirements of this sub-sub-subdivision, provided that the stormwater control system fully complies with the requirements of this sub-subdivision. If a wet detention pond is used within one-half mile of Class SA waters, installation of a stormwater best management practice in series with the wet detention pond shall be required to treat the discharge
from the wet detention pond. Secondary stormwater best management practices that are used in series with another stormwater best management practice do not require any minimum separation from the seasonal high water table. Alternatives as described in 15A NCAC 02H .1008(h) may also be approved if they meet the requirements of this sub-subdivision.

4. Stormwater runoff from the development that is in excess of the design volume must flow overland through a vegetative filter designed in accordance with 15A NCAC 02H .1008 with a minimum length of 50 feet measured from mean high water of Class SA waters.

5. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. Furthermore, stormwater control best management practices (BMPs), or stormwater control structures, with the exception of wet detention ponds, may be located within this vegetative buffer. The Division of Water Quality Resources may, on a case by case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

c. Stormwater Discharges Prohibited. – All development activities, including both low- and high-density projects, shall prohibit new points of stormwater discharge to Class SA waters or an increase in the volume of stormwater flow through conveyances or increase in capacity of conveyances of existing stormwater conveyance systems that drain to Class SA waters. Any modification or redesign of a stormwater conveyance system within the contributing drainage basin must not increase the net amount or rate of stormwater discharge through existing outfalls to Class SA waters. The following shall not be considered a direct point of stormwater discharge:

1. Infiltration of the stormwater runoff from the design storm as described in sub-sub-subdivision 3. of sub-subdivision b. of subdivision (1) of this subsection.

2. Diffuse flow of stormwater at a non-erosive velocity to a vegetated buffer or other natural area, that is capable of providing effective infiltration of the runoff from the design storm as described in sub-sub-subdivision 3. of sub-subdivision b. of subdivision (1) of this subsection. Notwithstanding the other requirements of this section, the
infiltration mandated in this sub-sub-subdivision does not require a minimum separation from the seasonal high-water table.

3. The discharge from a wet detention pond that is treated by a secondary stormwater best management practice, provided that both the wet detention pond and the secondary stormwater best management practice meet the requirements of this sub-subdivision.

d. Limitation on the Density of Development. – Development shall be limited to a built upon area of twenty-five percent (25%) or less.

(2) Development Near Class SA Waters. – Development activities within one-half mile of and draining to those waters classified by the Commission as Class SA waters or within one-half mile of waters classified by the Commission as Class SA waters and draining to unnamed freshwater tributaries to Class SA waters shall meet the requirements of sub-subdivisions a., b., and c. of subdivision (1) of this subsection. The extent of Class SA waters is limited to those waters that are determined to be at least an intermittent stream based on a site stream determination made in accordance with the procedures that are delineated in the Division of Water Quality’s “Identification Methods for the Origin of Intermittent and Perennial Streams” prepared pursuant to Session Law 2001-404.

(3) Other Coastal Development. – Development activities within the Coastal Counties except those areas described in subdivisions (1) and (2) of this subsection shall meet all of the following requirements:

a. Low-Density Option: Development shall be permitted pursuant to 15A NCAC 02H .1003(d)(1) if the development meets all of the following requirements:

1. The development has a built upon area of twenty-four percent (24%) or less. A development project with an overall density at or below the low-density threshold, but containing areas with a density greater than the overall project density, shall be considered low density as long as the project meets or exceeds the requirements for low-density development and locates the higher density in upland areas and away from surface waters and drainageways to the maximum extent practicable.

2. Stormwater runoff from the development is transported primarily by vegetated conveyances. As used in this sub-sub-subdivision, "conveyance system" shall not include a stormwater collection system. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.

3. The development contains a 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. The Division of Water Quality Resources may, on a case-by-case
basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

b. High-Density Option: Higher density developments shall be permitted pursuant to 15A NCAC 02H .1003(d)(2) if the development meets all of the following requirements:
1. The development has a built upon area of greater than twenty-four percent (24%).
2. The development uses control systems that are any combination of infiltration systems, wet detention ponds, bioretention systems, constructed stormwater wetlands, sand filters, rain barrels, cisterns, rain gardens or alternative stormwater management systems designed in accordance with 15A NCAC 02H .1008.
3. Control systems must be designed to store, control, and treat the stormwater runoff from all surfaces generated by one and one-half inch of rainfall.
4. Stormwater runoff from built upon areas that is directed to flow through any wetlands shall flow into and through these wetlands at a non-erosive velocity.
5. A 50-foot-wide vegetative buffer for new development activities and a 30-foot-wide vegetative buffer for redevelopment activities. The width of a buffer is measured horizontally from the normal pool elevation of impounded structures, from the bank of each side of streams or rivers, and from the mean high waterline of tidal waters, perpendicular to the shoreline. The vegetative buffer may be cleared or graded, but must be planted with, and maintained in, grass or any other vegetative or plant material. Furthermore, stormwater control best management practices (BMPs), or stormwater control structures, with the exception of wet detention ponds, may be located within this vegetative buffer. The Division of Water Quality Resources may, on a case by case basis, grant a minor variance from the vegetative buffer requirements of this section pursuant to the procedures set out in 15A NCAC 02B .0233(9)(b). Vegetative buffers and filters required by this section and any other buffers or filters required by State water quality or coastal management rules or local government requirements may be met concurrently and may contain, in whole or in part, coastal, isolated, or 404 jurisdictional wetlands that are located landward of the normal waterline.

(4) Requirements for Structural Stormwater Controls. – Structural stormwater controls required under this section shall meet all of the following requirements:

a. Remove an eighty-five percent (85%) average annual amount of Total Suspended Solids.
b. For detention ponds, draw down the treatment volume no faster than 48 hours, but no slower than 120 hours.

c. Discharge the storage volume at a rate equal to or less than the predevelopment discharge rate for the one-year, 24-hour storm.

d. Meet the General Engineering Design Criteria set forth in 15A NCAC 02H .1008(c).

e. For structural stormwater controls that are required under this section and that require separation from the seasonal high-water table, a minimum separation of two feet is required. Where a separation of two feet from the seasonal highwater table is not practicable, the Division of Water Quality Resources may grant relief from the separation requirement pursuant to the Alternative Design Criteria set out in 15A NCAC 02H .1008(h). No minimum separation from the seasonal highwater table is required for a secondary stormwater best management practice that is used in a series with another stormwater best management practice.

(5) Certain Wetlands Excluded From Density Calculation. – For the purposes of this section, areas defined as Coastal Wetlands under 15A NCAC 07H .0205, as measured landward from the normal high waterline, shall not be included in the overall project area to calculate impervious surface density. Wetlands that are not regulated as coastal wetlands pursuant to 15A NCAC 07H .0205 and that are located landward of the normal high waterline may be included in the overall project area to calculate impervious surface density.

"SECTION 2.(c) Requirements for Limited Residential Development in Coastal Counties. – For residential development activities within the 20 Coastal Counties that are located within one-half mile and draining to Class SA waters, that have a built upon area greater than twelve percent (12%), that do not require a stormwater management permit under subsection (b) of this section, and that will add more than 10,000 square feet of built upon area, a one-time, nonrenewable stormwater management permit shall be obtained. The permit shall require recorded deed restrictions or protective covenants to ensure that the plans and specifications approved in the permit are maintained. Under this permit, stormwater runoff shall be managed using any one or combination of the following practices:

(1) Install rain cisterns or rain barrels designed to collect all rooftop runoff from the first one and one-half inches of rain. Rain barrels and cisterns shall be installed in such a manner as to facilitate the reuse of the collected rain water on site and shall be installed in such a manner that any overflow from these devices is directed to a vegetated area in a diffuse flow. Construct all uncovered driveways, uncovered parking areas, uncovered walkways, and uncovered patios out of permeable pavement or other pervious materials.

(2) Direct rooftop runoff from the first one and one-half inches of rain to an appropriately sized and designed rain garden. Construct all uncovered driveways, uncovered parking areas, uncovered walkways, and uncovered patios out of permeable pavement or other pervious materials.

(3) Install any other stormwater best management practice that meets the requirements of 15A NCAC 02H .1008 to control and treat the stormwater runoff from all built upon areas of the site from the first one and one-half inches of rain.

"SECTION 2.(d) Exclusions. – The requirements of this section shall not apply to any of the following:

(1) Activities of the North Carolina Department of Transportation that are regulated in accordance with the provisions of the Department's National Pollutant Discharge Elimination System (NPDES) Stormwater Permit.
(2) Development activities that are conducted pursuant to and consistent with one of the following authorizations, or any timely renewal thereof, shall be regulated by those provisions and requirements of 15A NCAC 02H.1005 that were effective at the time of the original issuance of the following authorizations:

   1. For the initial or first phase of development, the type and intensity of use for a specific parcel or parcels, including at a minimum, the boundaries of the project and a subdivision plan that has been approved pursuant to G.S. 153A-330 through G.S. 153A-335 or G.S. 160A-371 through G.S. 160A-376.
   2. For any subsequent phase of development, sufficient detail so that implementation of the requirements of this section to that phase of development would require a material change in that phase of the plan.

h. A vested right to the development pursuant to common law.

(3) Redevelopment activities that result in no net increase in built upon area and provide stormwater control equal to the previous development.

(4) Development activities for which a complete Stormwater Permit Application has been accepted by the Division of Water Quality Resources prior to the effective date of this act, shall be regulated by the provisions and requirements of 15A NCAC 02H.1005 that were effective at the time that this application was accepted as complete by the Division of Water Quality Resources. For purposes of this subsection, a Stormwater Permit Application is deemed accepted as complete by the Division of Water Quality Resources when the application is assigned a permit number in the Division's Basinwide Information Management System.

(5) Development activities for which only a minor modification of a State Stormwater Permit is required shall be regulated by the provisions and requirements of 15A NCAC 02H.1005 that were effective at the time of the original issuance of the State Stormwater Permit. (6) Municipalities designated as a National Pollutant Discharge Elimination System (NPDES) Phase 2 municipality located within the 20 Coastal Counties until such time as the NPDES Phase 2 Stormwater Permit expires and is subject to renewal. Upon renewal of the NPDES Phase 2 Stormwater Permits for municipalities located within the 20 Coastal Counties, the
Department shall review the permits to determine whether the permits should be amended to include the provisions of this section.

"SECTION 57.(bb) S.L. 2009-322 reads as rewritten:

"SECTION 1.(a) The Department of Environment and Natural Resources shall establish standard stormwater control best management practices and standard process water treatment processes or equivalent performance standards for composting operations that are required to be permitted by the Division of Water Quality Resources in the Department and the Division of Waste Management in the Department. These practices, processes, and standards shall be developed for the purpose of protecting water quality by controlling and containing stormwater that is associated with composting operations, by reducing the pollutant levels of process water from composting operations, and by reducing the opportunities for generation of such waters.

"SECTION 1.(b) The Division of Water Quality Resources shall clarify that stormwater is water that does not contact anything considered a feedstock, intermediate product, or final product of composting operations. The Division of Water Quality Resources shall clarify that wastewater is leachate and water that contacts feedstocks, intermediate products, or final product, of composting operations. The clarifications shall incorporate available scientifically valid information obtained from sampling and analyses of North Carolina composting facilities and from valid representative data from other states. In addition, the Division of Water Quality Resources shall establish threshold quantities of feedstocks, intermediate products, and final products above which water quality permitting will be required.

"SECTION 1.(c) The Department shall establish revised water quality permitting procedures for the composting industry. The revised permitting procedures shall identify the various circumstances that determine which water quality permit is required for various composting activities. The Department shall determine whether selected low-risk subsets of the composting industry may be suitable for expedited or reduced water quality permitting procedures. The determination shall include consideration of the economic impact of regulatory decisions.

"SECTION 1.(d) In developing the practices, processes, and standards and the revised water quality permitting procedures required by this section, the Department shall review practices, processes, and standards and permitting procedures adopted by other states and similar federal programs.

"SECTION 1.(e) The Department shall form a Compost Operation Stakeholder Advisory Group composed of representatives from the North Carolina Chapter of the United States Composting Council, the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, the North Carolina State Agricultural Extension Service, the North Carolina Chapter of the American Water Works Association-Water Environment Federation, the North Carolina Pumper Group, the North Carolina Chapter of the Solid Waste Association of North America, the North Carolina Septic Tank Association, and any individual or group commenting to the Department on issues related to water quality at composting operations. The Compost Operation Stakeholder Advisory Group shall be convened periodically to provide input and assistance to the Department.

"SECTION 1.(f) The practices, processes, and standards and the revised permitting procedures shall address the site size of an operation, the nature of the feedstocks composted, the type of compost production method employed, the quantity and water quality of the stormwater or process water associated with composting facilities, the water quality of the receiving waters, as well as operation and maintenance requirements for the resulting standard stormwater control best management practices and standard process water treatment processes.

"SECTION 2. Not later than December 31, 2009, the Department shall report to the Environmental Review Commission on the progress of the implementation of the provisions of this act and any recommendations from the Compost Operation Stakeholder Advisory Group and other commenters. The Department shall periodically make other progress reports as the Commission may subsequently direct.
"SECTION 3.(a) For the period of time between the effective date of this act and phase-in provided by Section 3(d) of this act, permits for composting facilities shall be handled as follows:

1. The Division of Water Quality Resources shall issue interim water quality permit extensions to all composting facilities applying for a water quality permit renewal until the revised final water quality permitting procedures are phased in, as provided in Section 3(d) of this act. The issuance of interim water quality permit extensions shall be contingent upon no significant changes to the existing quantities, feedstocks, and composting methods permitted by the Division of Waste Management. For any facility found to be causing or contributing to a violation of water quality standards, the Division of Water Quality Resources may subsequently determine that the facility is ineligible for continued coverage under an interim water quality permit extension.

2. For facilities renewing permits issued by the Division of Waste Management prior to the phase-in provided in Section 3(d) of this act, but operating without the appropriate water quality permits, the Division of Water Quality Resources will work with those facilities on a case-by-case basis to establish appropriate permit coverage.

3. New water quality permit applications filed after July 1, 2009, shall be handled on a case-by-case basis.

"SECTION 3.(b) Not later than January 1, 2010, the Department shall request comments and recommendations from the Compost Operation Stakeholder Advisory Group as to standard stormwater control best management practices, standard process water treatment processes, and performance standards and the elements of the revised water quality permitting procedures.

"SECTION 3.(c) Not later than January 1, 2011, the Department shall establish standard stormwater control best management practices and standard process water treatment processes or performance standards, including standard methods for the reduction in volume for both of these waters.

"SECTION 3.(d) Not later than January 1, 2011, the Department shall begin the phase-in of the revised water quality permitting procedures for the composting industry. Complete phase in of the revised water quality permitting procedures shall be accomplished not later than October 1, 2012.

"SECTION 3.(e) Water quality permits for the composting industry shall include a reopener clause that may be used to revise permit conditions to reflect the results of the stakeholder process.

"SECTION 4. This act is effective when it becomes law."

The Division of Water Quality Resources shall evaluate the effectiveness of the Surface Water Identification Training and Certification Program and shall submit an annual report of its findings and recommendations, if any, to the Environmental Review Commission on or before October 1 of each year. The Division of Water Quality Resources shall submit the first report required by this section on or before October 1, 2011."

SECTION 57.(dd) Section 4 of S.L. 2005-190, as amended by Section 31 of S.L. 2006-59 and Section 12 of S.L. 2010-180, reads as rewritten:

Other drinking water supply reservoirs. – The Environmental Management Commission shall not make any new or increased nutrient loading allocation to any person who is required to obtain a permit under G.S. 143-215 for an individual wastewater discharge directly or indirectly into any impaired drinking water supply reservoir for which the Division of Water Quality Resources shall submit the first report required by this section on or before October 1, 2011."
of Water Quality Resources of the Department of Environment and Natural Resources has prepared or updated a calibrated nutrient response model since 1 July 2002 until permanent rules adopted by the Commission to implement the nutrient management strategy for that reservoir become effective. The Commission shall report its progress in developing and implementing nutrient management strategies for reservoirs to which this section applies to the Environmental Review Commission by 1 April of each year beginning 1 April 2006."

SECTION 57.(ee) Section 13.4(b) of S.L. 2011-145 reads as rewritten:

"SECTION 13.4(b) During the 2011-2012 fiscal year and the 2012-2013 fiscal year, the Groundwater Investigation Unit of the Division of Water Quality Resources of the Department of Environment and Natural Resources shall bid to contract to perform well drilling services for any division within the Department of Environment and Natural Resources that needs to have wells drilled to monitor groundwater, as part of remediating a contaminated site, or as part of any other division or program responsibility, except for a particular instance when this would be impracticable. The provisions of Article 3 of Chapter 143 of the General Statutes apply to any contract entered into under this section."

SECTION 57.(ff) Section 21 of Session Law 2011-394 reads as rewritten:

"SECTION 21. In order to ensure the ongoing delivery of services by the nonpoint source pollution control programs of the Division of Forest Resources and the Division of Soil and Water Conservation, the Division of Water Quality Resources in the Department of Environment and Natural Resources shall transfer Clean Water Act (CWA) Section 319 Nonpoint Source Management Program Base Grant funds to the Division of Forest Resources and Division of Soil and Water Conservation, where consistent with the federal grant program requirements, in an amount that is no less than the average annual amount of funding received by each of those two Divisions over the two most-recent fiscal bienniums. In the event that the level of Section 319 base grant funds received by the Department of Environment and Natural Resources by the United States Environmental Protection Agency is increased or decreased in any funding cycle, the level of funding received by the Division of Forest Resources and the Division of Soil and Water Conservation shall be adjusted proportionally. Section 319 Nonpoint Source Management Program Competitive Grant funds shall consider water quality benefit and be distributed in a fair and equitable manner based on the grant requirements and the benefit. The Division of Water Quality Resources will establish a Workgroup of Nonpoint Source Agencies, including the Division of Forest Resources and the Division of Soil and Water Conservation, which will consider the competitive grant project proposals. (b) As an alternative to the inspection program set forth in subsection (a) of this section, the Division of Soil and Water Conservation of the Department of Agriculture and Consumer Services shall conduct inspections of all animal operations that are subject to a permit under G.S. 143-215.10C at least once a year to determine whether the system is causing a violation of water quality standards and whether the system is in compliance with its animal waste management plan or any other condition of the permit. The alternative inspection program shall be located in up to four counties selected using the criteria set forth in Section 15.4(a) of S.L. 1997-443, as amended, as it existed prior to its expiration. The Department of Agriculture and Consumer Services shall establish procedures whereby resources within the local Soil and Water Conservation Districts serving the counties are used for quick response to complaints and reported problems previously referred only to the Division of Water Quality Resources."

SECTION 58.(a) The Department of Environment and Natural Resources, in conjunction with the Departments of Transportation and Health and Human Services, and local governments operating delegated permitting programs on behalf of the departments, shall study their internal processes for review of applications and plans submitted for approval. In particular, the departments, and local governments as applicable, shall examine: (i) standard processes for each environmental permit program with respect to evaluation of applications and plans submitted for approval, including the role professional engineers play in each permit program in terms of direct review of applications or plans, or supervisory responsibilities for review of applications and plans by other staff; (ii) mechanisms in place to ensure that staff who are not professional engineers are not engaged in the unauthorized practice of engineering; (iii) the standard scope of review within each permit program, including whether staff are reviewing applications or plans solely on the basis of the application or plan's ability to satisfy the requirements of the statute, rule, standard, or criterion against which the application or plan is being evaluated, or whether staff are requiring revisions that exceed statutory or rulemaking requirements when evaluating such permits or plans; (iv) opportunities to eliminate unnecessary or superfluous revisions that may have resulted in the past from review processes that exceeded requirements under law, and opportunities to otherwise streamline and improve the review process for applications and plans submitted for approval.

SECTION 58.(b) The Department of Environment and Natural Resources, in conjunction with the Departments of Transportation and Health and Human Services, and local governments operating delegated permitting programs on behalf of the departments, shall report their findings and recommendations to the Environmental Review Commission no later than January 1, 2014.

SECTION 58.(c) The Environmental Review Commission shall study the matter, with the assistance of the departments, applicable local governments, the North Carolina State Board of Examiners for Engineers and Surveyors, and the Professional Engineers of North Carolina, and report its findings and recommendations on the matter, including any legislative proposals, to the 2014 General Assembly upon its convening.

PART VI. SOLID WASTE REFORM PROVISIONS

MODIFICATION TO THE DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES' AUTHORITY TO ISSUE PERMITS FOR SOLID WASTE MANAGEMENT FACILITIES

SECTION 59.(a) G.S. 130A-294 reads as rewritten:

"§ 130A-294. Solid waste management program.

(a) The Department is authorized and directed to engage in research, conduct investigations and surveys, make inspections and establish a statewide solid waste management program. In establishing a program, the Department shall have authority to:

... (4)...

c. The Department shall deny an application for a permit for a solid waste management facility if the Department finds that:

... 9. The cumulative impact of the proposed facility, when considered in relation to other similar impacts of facilities located or proposed in the community, would have a disproportionate adverse impact on a minority or low-income community protected by Title VI of the federal Civil Rights
MODIFICATIONS TO CERTAIN REQUIREMENTS GOVERNING SANITARY LANDFILLS INCLUDING: ENVIRONMENTAL IMPACT STUDIES, APPLICABLE BUFFERS, CLEANING AND INSPECTION OF LEACHATE COLLECTION LINES, ALTERNATIVE DAILY COVER, AND REQUIRED STUDIES FOR CERTAIN LANDFILL OWNERS AND OPERATORS

SECTION 59.1 G.S. 130A-295.6 reads as rewritten:

"§ 130A-295.6. Additional requirements for sanitary landfills.

(a) The applicant for a proposed sanitary landfill shall contract with a qualified third party, approved by the Department, to conduct a study of the environmental impacts of any proposed sanitary landfill, in conjunction with its application for a new permit as defined in sub-subdivisions a. through d. of subdivision (1) of subsection (b) of G.S. 130A-295.8. The study shall meet all of the requirements set forth in G.S. 113A-4 and rules adopted pursuant to G.S. 113A-4. If an environmental impact statement is required, the Department shall publish notice of the draft environmental impact statement and shall hold a public hearing in the county where the landfill will be located no sooner than 30 days following the public notice. The Department shall consider the study of environmental impacts and any mitigation measures proposed by the applicant in deciding whether to issue or deny a permit. An applicant for a permit for a sanitary landfill shall pay all costs incurred by the Department to comply with the public notice and public hearing requirements of this subsection, including the costs of any special studies that may be required.

(d) The Department shall not issue a permit to construct any disposal unit of a sanitary landfill if, at the earlier of (i) the acquisition by the applicant or permit holder of the land or of an option to purchase the land on which the waste disposal unit will be located, (ii) the application by the applicant or permit holder for a franchise agreement, or (iii) at the time of the application for a permit, any portion of the proposed waste disposal unit would be located within:

(1) Five miles of the outermost boundary of a National Wildlife Refuge.
(2) One mile of the outermost boundary of a State gameland owned, leased, or managed by the Wildlife Resources Commission pursuant to G.S. 113-306, prior to July 1, 2013, except as provided in subdivision (2a) of this subsection.
(2a) Five hundred feet of the outermost boundary of a State gameland owned, leased, or managed by the Wildlife Resources Commission pursuant to G.S. 113-306, prior to July 1, 2013, when all of the following conditions apply:
   a. The waste disposal unit will only be permitted to accept construction and demolition debris waste.
   b. The disposal unit is located within the primary corporate limits of a municipality located in a county with a population of less than 15,000.
   c. All portions of the gameland within one mile of the disposal unit are separated from the disposal unit by a primary highway designated by the Federal Highway Administration as a U.S. Highway.
(3) Two miles of the outermost boundary of a component of the State Parks System.

(h) The following requirements apply to any sanitary landfill for which a liner is required:
(1) A geomembrane base liner system shall be tested for leaks and damage by methods approved by the Department that ensure that the entire liner is evaluated.

(2) A leachate collection system shall be designed to return the head of the liner to 30 centimeters or less within 72 hours. The design shall be based on the precipitation that would fall on an empty cell of the sanitary landfill as a result of a 25-year-24-hour storm event. The leachate collection system shall maintain a head of less than 30 centimeters at all times during leachate recirculation. The Department may require the operator to monitor the head of the liner to demonstrate that the head is being maintained in accordance with this subdivision and any applicable rules.

(3) All leachate collection lines shall be designed and constructed to permanently allow cleaning and remote camera inspection. Remote camera inspections of the leachate collection lines shall occur upon completion of the construction and at least once every five years. Cleaning of leachate collection lines found necessary for proper functioning and to address buildup of leachate over the liner shall occur. All leachate collection lines shall be cleaned at least once a year, except that the Department may allow leachate collection lines to be cleaned once every two years if: (i) the facility has continuous flow monitoring; and (ii) the permit holder demonstrates to the Department that the leachate collection lines are clear and functional based on at least three consecutive annual cleanings. Remote camera inspections of the leachate collection lines shall occur upon completion of construction, at least once every five years thereafter, and following the cleaning of blockages.

(4) Any pipes used to transmit leachate shall provide dual containment outside of the disposal unit. The bottom liner of a sanitary landfill shall be constructed without pipe penetrations.

(h1) With respect to requirements for daily cover at sanitary landfills, once the Department has approved use of an alternative method of daily cover for use at any sanitary landfill, that alternative method of daily cover shall be approved for use at all sanitary landfills located within the State.

(h2) Studies and research and development pertaining to alternative disposal techniques and waste-to-energy matters shall be conducted by certain sanitary landfills as follows:

(1) The owner or operator of any sanitary landfill permitted to receive more than 240,000 tons of waste per year shall research the development of alternative disposal technologies. In addition, the owner or operator shall allow access to nonproprietary information and provide site resources for individual research and development projects related to alternative disposal techniques for the purpose of studies that may be conducted by local community or State colleges and universities or other third-party developers or consultants. The owner or operator shall report on research and development activities conducted pursuant to this subdivision, and any results of these activities, to the Department annually on or before July 1.

(2) The owner or operator of any sanitary landfill permitted to receive more than 240,000 tons of waste per year shall perform a feasibility study of landfill gas-to-energy, or other waste-to-energy technology, to determine opportunities for production of renewable energy from landfills in order to promote economic development and job creation in the State. AMEND THE RULE GOVERNING COLLECTION AND TRANSPORT OF SOLID WASTE TO REQUIRE THAT CONTAINERS BE "LEAK-RESISTANT" RATHER THAN "LEAK-PROOF," AND AMEND A STATUTE THAT REQUIRES VEHICLES TO BE CONSTRUCTED AND LOADED TO PREVENT LEAKAGE

SECTION 59.2(a) Definitions. – "Collection and Transport Rule" means 15A NCAC 13B .0105 (Collection and Transportation of Solid Waste) for purposes of this section and its implementation.

SECTION 59.2(b) Collection and Transport Rule. – Until the effective date of the revised permanent rule that the Commission for Public Health is required to adopt pursuant to Section 59.2(d) of this act, the Commission and the Department of Environment and Natural Resources shall implement the Collection and Transport Rule, as provided in Section 59.2(c) of this act.

SECTION 59.2(c) Implementation. – Notwithstanding any provision of the Collection and Transport Rule, the Commission shall not require vehicles or containers used for the collection and transportation of solid waste to be leak-proof; however, they may require that these containers be designed and maintained to be leak-resistant in accordance with industry standards.

SECTION 59.2(d) Additional Rule-Making Authority. – The Commission shall adopt a rule to replace the Collection and Transport Rule. Notwithstanding G.S. 150B-19(4), the rule adopted by the Commission pursuant to this section shall be substantively identical to the provisions of Section 59.2(c) of this act. Rules adopted pursuant to this section are not subject to G.S. 150B-21.9 through G.S. 150B-21.14. The rule adopted pursuant to this section shall become effective, as provided in G.S. 150B-21.3(b1), as though 10 or more written objections had been received, as provided by G.S. 150B-21.3(b2).

SECTION 59.2(e) Effective Date. – Section 59.2(c) of this act expires when permanent rules to replace Section 59.2(c) of this act have become effective, as provided by Section 59.2(d) of this act.

SECTION 59.2(f) G.S. 20-116(g)(1) reads as rewritten:

…

(g) (1) No vehicle shall be driven or moved on any highway unless the vehicle is constructed and loaded to prevent any of its load from falling, blowing, dropping, sifting, leaking, or otherwise escaping therefrom, and the vehicle shall not contain any holes, cracks, or openings through which any of its load may escape. However, sand may be dropped for the purpose of securing traction, or water or other substance may be sprinkled, dumped, or spread on a roadway in cleaning or maintaining the roadway. For purposes of this subsection, the terms "load" and "leaking" do not include water accumulated from precipitation."
AMEND THE DEFINITION OF "LEACHATE" TO EXCLUDE LIQUID ADHERING TO TIRES OF VEHICLES LEAVING SANITARY LANDFILLS AND TRANSFER STATIONS

SECTION 59.3 G.S. 130A-290 is amended by adding a new subdivision to read:
"(16a) "Leachate" means a liquid that has passed through or emerged from solid waste and contains soluble, suspended, or miscible materials removed from such waste. The term "leachate" does not include liquid adhering to tires of vehicles leaving a sanitary landfill and transfer stations."

AUTHORIZE: (1) CITIES AND COUNTIES THAT ACCEPT SOLID WASTE FROM OTHER LOCAL GOVERNMENTS TO LEVY A SURCHARGE ON FEES FOR USE OF THEIR DISPOSAL FACILITIES, AND (2) APPROPRIATIONS FROM A UTILITY OR PUBLIC SERVICE ENTERPRISE FUND USED FOR OPERATION OF A LANDFILL TO THE JURISDICTION'S GENERAL FUND IN CERTAIN CIRCUMSTANCES

SECTION 59.4.(a) G.S. 153A-292(b) reads as rewritten:
"(b) The board of county commissioners may impose a fee for the collection of solid waste. The fee may not exceed the costs of collection.

The board of county commissioners may impose a fee for the use of a disposal facility provided by the county. The fee for use may not exceed the cost of operating the facility and may be imposed only on those who use the facility. The fee may exceed those costs if the county enters into a contract with another local government located within the State to accept the other local government's solid waste and the county by ordinance levies a surcharge on the fee. The fee authorized by this paragraph may only be used to cover the costs of operating the facility. The surcharge authorized by this paragraph may be used for any purpose for which the county may appropriate funds. A fee under this paragraph may be imposed only on those who use the facility. The fee for use may vary based on the amount, characteristics, and form of recyclable materials present in solid waste brought to the facility for disposal. A county may not impose a fee for the use of a disposal facility on a city located in the county or a contractor or resident of the city unless the fee is based on a schedule that applies uniformly throughout the county.

The board of county commissioners may impose a fee for the availability of a disposal facility provided by the county. A fee for availability may not exceed the cost of providing the facility and may be imposed on all improved property in the county that benefits from the availability of the facility. A county may not impose an availability fee on property whose solid waste is collected by a county, a city, or a private contractor for a fee if the fee imposed by a county, a city, or a private contractor for the collection of solid waste includes a charge for the availability and use of a disposal facility provided by the county. Property served by a private contractor who disposes of solid waste collected from the property in a disposal facility provided by a private contractor that provides the same services as those provided by the county disposal facility is not subject to a fee imposed by the county for the availability of a disposal facility provided by the county. To the extent that the services provided by the county disposal facility differ from the services provided by the disposal facility provided by a private contractor in the same county, the county may charge an availability fee to cover the costs of the additional services provided by the county disposal facility.

In determining the costs of providing and operating a disposal facility, a county may consider solid waste management costs incidental to a county's handling and disposal of solid waste at its disposal facility, including the costs of the methods of solid waste management specified in G.S. 130A-309.04(a) of the Solid Waste Management Act of 1989. A fee for the availability or use of a disposal facility may be based on the combined costs of the different disposal facilities provided by the county."

SECTION 59.4.(b) G.S. 159-13(b)(14) reads as rewritten:

1814
(b) The following directions and limitations shall bind the governing board in adopting the budget ordinance:

(14) No appropriation may be made from a utility or public service enterprise fund to any other fund than the appropriate debt service fund unless the total of all other appropriations in the fund equal or exceed the amount that will be required during the fiscal year, as shown by the budget ordinance, to meet operating expenses, capital outlay, and debt service on outstanding utility or enterprise bonds or notes. A county may, upon a finding that a fund balance in a utility or public service enterprise fund used for operation of a landfill exceeds the requirements for funding the operation of that fund, including closure and post-closure expenditures, transfer excess funds accruing due to imposition of a surcharge imposed on another local government located within the State for use of the disposal facility, as authorized by G.S. 153A-292(b), to support the other services supported by the county's general fund.

SECTION 59.4(c) G.S. 160A-314.1 reads as rewritten:

§ 160A-314.1. Availability fees for solid waste disposal facilities; collection of any solid waste fees.

(a) A city may impose a fee for the collection of solid waste. The fee may not exceed the costs of collection.

A city may impose a fee for the use of a disposal facility provided by the city. Except as provided in this subsection, the fee for use may not exceed the cost of operating the facility. A fee may exceed those costs if the city enters into a contract with another local government located within the State to accept the other local government's solid waste and the city by ordinance levies a surcharge on the fee. The fee authorized by this paragraph may only be used to cover the costs of operating the facility. The surcharge authorized by this paragraph may be used for any purpose for which the city may appropriate funds. A fee under this paragraph may be imposed only on those who use the facility. The fee for use may vary based on the amount, characteristics, and form of recyclable materials present in solid waste brought to the facility.

(a1) In addition to a fee that a city may impose for collecting solid waste or for using a disposal facility, a city may impose a fee for the availability of a disposal facility provided by the city. A fee for availability may not exceed the cost of providing the facility and may be imposed on all improved property in the city that benefits from the availability of the facility. A city may not impose an availability fee on property whose solid waste is collected by a county, a city, or a private contractor for a fee if the fee imposed by a county, a city, or a private contractor for the collection of solid waste includes a charge for the availability and use of a disposal facility provided by the city. Property served by a private contractor who disposes of solid waste collected from the property in a disposal facility provided by a private contractor that provides the same services as those provided by the city disposal facility is not considered to benefit from a disposal facility provided by the city and is not subject to a fee imposed by the city for the availability of a disposal facility provided by the city. To the extent that the services provided by the city disposal facility differ from the services provided by the disposal facility provided by a private contractor in the same city, the city may charge an availability fee to cover the costs of the additional services provided by the city disposal facility.

In determining the costs of providing and operating a disposal facility, a city may consider solid waste management costs incidental to a city's handling and disposal of solid waste at its disposal facility. A fee for the availability or use of a disposal facility may be based on the combined costs of the different disposal facilities provided by the city.

(b) A city may adopt an ordinance providing that any fee imposed under subsection (a) or under G.S. 160A-314 for collecting or disposing of solid waste may be billed with property taxes, may be payable in the same manner as property taxes, and, in the case of nonpayment,
may be collected in any manner by which delinquent personal or real property taxes can be collected. If an ordinance states that delinquent fees can be collected in the same manner as delinquent real property taxes, the fees are a lien on the real property described on the bill that includes the fee."

**SECTION 59.4(d)** G.S. 160A-314(a2) reads as rewritten:

"§ 160A-314. Authority to fix and enforce rates.

(a2) A fee for the use of a disposal facility provided by the city may vary based on the amount, characteristics, and form of recyclable materials present in solid waste brought to the facility for disposal. This section does not prohibit a city from providing aid to low-income persons to pay all or part of the cost of solid waste management services for those persons. A city may, upon finding that a fund balance in a utility or public service enterprise fund used for operation of a landfill exceeds the requirements for funding the operation of that fund, including closure and post-closure expenditures, transfer excess funds accruing due to imposition of a surcharge imposed on another local government located within the State for use of the disposal facility, as authorized by G.S. 160A-314.1, to be used to support the other services supported by the city's general fund.

**SECTION 59.4(e)** G.S. 130A-294(b1) is amended by adding a new subdivision to read:

Funds collected by a local government pursuant to such a surcharge may be used to support any services supported by the local government's general fund."

**SECTION 59.4(f)** This section becomes effective August 1, 2013, and Section 59.4(e) is applicable to franchise agreements executed on or after that date.

The Commission may also employ such clerical or other assistance as it may deem necessary, and fix the compensation of its staff, except that the salaries of the administrator and the executive secretary shall be fixed by subsection (b1) of this section. The compensation of Commission staff shall be in keeping with the compensation paid to the persons employed to do similar work in other State departments."

**SECTION 60.(b)** G.S. 97-79(b) reads as rewritten:

"(b) The Commission may appoint deputies who shall have the same power as members of the Commission pursuant to G.S. 97-80 and the same power to take evidence, and enter orders, opinions, and awards based thereon as is possessed by the members of the Commission. The deputies shall be subject to the State Personnel System. Deputies appointed pursuant to this subsection shall not be considered hearing officers within the meaning of G.S. 126-5(d)(7)."

The statutory apportionment method that otherwise applies to a corporation under this section is presumed to be the best method of determining the portion of the corporation's income that is attributable to its business in this State. A corporation has the burden of establishing by clear, cogent, and convincing proof that the proposed alternative method is a better method of determining the amount of the corporation's income attributable to the corporation's business in this State.

The Secretary must issue a written decision on a corporation's request for an alternative apportionment method. If the decision grants the request, it must describe the alternative method the corporation is authorized to use and state the tax years to which the alternative method applies. A decision may apply to no more than three tax years, unless the provisions of subsection (t2) of this section apply. A corporation may renew a request to use an alternative apportionment method by following the procedure in this subsection. A decision of the Secretary on a request for an alternative apportionment method is final and is not subject to administrative or judicial review. A corporation authorized to use an alternative method may apportion its income in accordance with the alternative method or the statutory method. (2) With respect to any portion of the underpayment, the date on which the portion is paid. An installment payment of estimated tax shall be considered a payment of any previous underpayment only to the extent the payment exceeds the amount of the installment determined under subdivision (1) of subsection (b) for that installment date."

SECTION 4. G.S. 105-129.84(c) reads as rewritten:
"(c) Carryforward. – Unless a longer carryforward period applies, any unused portion of a credit allowed under G.S. 105-129.87 or G.S. 105-129.88 may be carried forward for the succeeding five years, and any unused portion of a credit allowed under G.S. 105-129.89 may be carried forward for the succeeding 15 years. If the Secretary of Commerce makes a written determination that the taxpayer is expected to purchase or lease, and place in service in connection with an eligible business within a two-year period, at least one hundred fifty million dollars ($150,000,000) worth of business and real property, any unused portion of a credit under this Article with respect to the establishment that satisfies that condition may be carried forward for the succeeding 20 years. If the taxpayer does not make the required level of investment, the taxpayer shall apply the five-year standard carryforward period rather than the 20-year carryforward period."

SECTION 5.(a) G.S. 105-134.6 reads as rewritten:
"§ 105-134.6. Modifications to adjusted gross income.

(b) Other Deductions. – In calculating North Carolina taxable income, a taxpayer may deduct any of the following items to the extent those items are included in the taxpayer's adjusted gross income.

(17b) An amount equal to twenty percent (20%) of the amount added to federal taxable income as accelerated depreciation under subdivision (c)(8b) of this section. For the amount added to taxable income in the 2010 taxable year,
the deduction allowed by this subdivision applies to the first five taxable years beginning on or after January 1, 2011. For the amount added to taxable income in the 2011 taxable year, the deduction allowed by this subdivision applies to the first five taxable years beginning on or after January 1, 2012. For the amount added to taxable adjusted gross income in the 2012 taxable year, the deduction allowed by this subdivision applies to the first five taxable years beginning on or after January 1, 2013.

(d) Other Adjustments. – In calculating North Carolina taxable income, a taxpayer must make the following adjustments to adjusted gross income:

The amount of inheritance or estate tax attributable to an item of income in respect of a decedent is (i) the amount by which the inheritance or estate tax paid under Article 1 or 1A of this Chapter on property transferred to a beneficiary by a decedent exceeds the amount of the tax that would have been payable by the beneficiary if the item of income in respect of a decedent had not been included in the property transferred to the beneficiary by the decedent, (ii) multiplied by a fraction, the numerator of which is the amount required to be included in gross income for the taxable year under the Code, adjusted as provided in G.S. 105-134.5, 105-134.6, and 105-134.6A, and the denominator of which is the total amount of income in respect of a decedent transferred to the beneficiary by the decedent. For an estate or trust, the deduction allowed by this subdivision shall be computed by excluding from the gross income of the estate or trust the portion, if any, of the items of income in respect of a decedent that are properly paid, credited, or to be distributed to the beneficiaries during the taxable year.

The Secretary may provide to a beneficiary of an item of income in respect of a decedent any information contained on an inheritance or estate tax return that the beneficiary needs to compute the deduction allowed by this subdivision.

(3) The taxpayer shall add to taxable adjusted gross income the amount of any recovery during the taxable year not included in taxable adjusted gross income, to the extent the taxpayer's deduction of the recovered amount in a prior taxable year reduced the taxpayer's tax imposed by this Part but, due to differences between the Code and this Part, did not reduce the amount of the taxpayer's tax imposed by the Code. The taxpayer may deduct from taxable adjusted gross income the amount of any recovery during the taxable year included in taxable adjusted gross income under section 111 of the Code, to the extent the taxpayer's deduction of the recovered amount in a prior taxable year reduced the taxpayer's tax imposed by the Code but, due to differences between the Code and this Part, did not reduce the amount of the taxpayer's tax imposed by this Part.

(4) A taxpayer may deduct from taxable adjusted gross income the amount, not to exceed two thousand five hundred dollars ($2,500), contributed to an account in the Parental Savings Trust Fund of the State Education Assistance Authority established pursuant to G.S. 116-209.25. In the case of a married couple filing a joint return, the maximum dollar amount of the deduction is five thousand dollars ($5,000).
The taxpayer shall add to taxable adjusted gross income the amount deducted from taxable income in a prior taxable year under subdivision (4) of this subsection to the extent this amount was withdrawn from the Parental Savings Trust Fund of the State Education Assistance Authority established pursuant to G.S. 116-209.25 and not used to pay for the qualified higher education expenses of the designated beneficiary, unless the withdrawal was made without penalty under section 529 of the Code due to the death or permanent disability of the designated beneficiary.

A taxpayer who is an eligible firefighter or an eligible rescue squad worker may deduct from taxable adjusted gross income the sum of two hundred fifty dollars ($250.00). In the case of a married couple filing a joint return, each spouse may qualify separately for the deduction allowed under this subdivision. In order to claim the deduction allowed under this subdivision, the taxpayer must submit with the tax return any documentation required by the Secretary. An individual may not claim a deduction as both an eligible firefighter and as an eligible rescue squad worker in a single taxable year. The following definitions apply in this subdivision:

a. Eligible firefighter. – An unpaid member of a volunteer fire department who attended at least 36 hours of fire department drills and meetings during the taxable year.

b. Eligible rescue squad worker. – An unpaid member of a volunteer rescue or emergency medical services squad who attended at least 36 hours of rescue squad training and meetings during the taxable year.

SECTION 5.(b) G.S. 105-151(a) reads as rewritten:

"(a) An individual who is a resident of this State is allowed a credit against the taxes imposed by this Part for income taxes imposed by and paid to another state or country on income taxed under this Part, subject to the following conditions:

(2) The fraction of the gross income, as calculated under the Code and adjusted as provided in G.S. 105-134.6 and G.S. 105-134.7, G.S. 105-134.6A, that is subject to income tax in another state or country shall be ascertained, and the North Carolina net income tax before credit under this section shall be multiplied by that fraction. SECTION 5.(c) G.S. 105-151.11(c) reads as rewritten:

"(c) Limitations. – A nonresident or part-year resident who claims the credit allowed by this section shall reduce the amount of the credit by multiplying it by the fraction calculated under G.S. 105-134.5(b) or (c), as appropriate. No credit shall be allowed under this section for amounts deducted from gross income in calculating North Carolina taxable income under the Code. The credit allowed by this section may not exceed the amount of tax imposed by this Part for the taxable year reduced by the sum of all credits allowable, except for payments of tax made by or on behalf of the taxpayer."

SECTION 5.(e) G.S. 105-152 reads as rewritten:
"§ 105-152. Income tax returns.

(c) Information Required With Return. – The income tax return shall show the taxable adjusted gross income and adjustments required by this Part and any other information the Secretary requires. The Secretary may require some or all individuals required to file an income tax return to attach to the return a copy of their federal income tax return for the taxable year. The Secretary may require a taxpayer to provide the Department with copies of any other return the taxpayer has filed with the Internal Revenue Service and to verify any information in the return.

(d) Secretary May Require Additional Information. – When the Secretary has reason to believe that any taxpayer conducts a trade or business in a way that directly or indirectly distorts the taxpayer's taxable adjusted gross income or North Carolina taxable income, the Secretary may require any additional information for the proper computation of the taxpayer's taxable adjusted gross income and North Carolina taxable income. In computing the taxpayer's taxable adjusted gross income and North Carolina taxable income, the Secretary shall consider the fair profit that would normally arise from the conduct of the trade or business.

SECTION 5.(f) G.S. 105-160.1 reads as rewritten:

"§ 105-160.1. Definitions.

The definitions provided in Part 2 of this Article shall apply in this Part except where the context clearly indicates a different meaning. In addition, as used in this Part, "taxable income" is defined in sections 641 through 692 of the Code."

For purposes of the preceding sentence, taxable income and gross income shall be computed subject to the adjustments provided in G.S. 105-134.6 and G.S. 105-134.7. G.S. 105-134.6A. The tax on the amount computed above shall be is at the rates levied in G.S. 105-134.2(a)(3). (d) Limitations. – A nonresident or part-year resident who claims the credit allowed by this section shall reduce the amount of the credit by multiplying it by the fraction calculated under G.S. 105-134.5(b) or (c), as appropriate. SECTION 9. G.S. 105-164.4(a)(3) reads as rewritten:

"(3) A tax at the general rate applies to the gross receipts derived from the rental of an accommodation. The tax does not apply to (i) a private residence or cottage that is rented for fewer than 15 days in a calendar year; (ii) an accommodation rented to the same person for a period of 90 or more continuous days; or (iii) an accommodation arranged or provided to a person by a school, camp, or similar entity where a tuition or fee is charged to the person for enrollment in the school, camp, or similar entity.

Gross receipts derived from the rental of an accommodation include the sales price of the rental of the accommodation. The sales price of the rental of an accommodation is determined as if the rental were a rental of tangible personal property. The sales price of the rental of an accommodation marketed by a facilitator includes charges designated as facilitation fees and any other charges necessary to complete the rental.

A person who provides an accommodation that is offered for rent is considered a retailer under this Article. A facilitator must report to the retailer with whom it has a contract the sales price a consumer pays to the facilitator for an accommodation rental marketed by the facilitator. A retailer must notify a facilitator when an accommodation rental marketed by the facilitator is completed and, within three business days of receiving the notice, the facilitator must send the retailer the portion of the sales price the facilitator owes the retailer and the tax due on the sales price no later than 10 days after the end of each calendar month. A facilitator that does not send the retailer the tax due on the sales price is liable for the amount of tax the facilitator fails to send. A facilitator is not liable for tax sent to a retailer but not remitted by the retailer to the Secretary. Tax payments received by a retailer from a facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a tax payment from a facilitator must remit the amount received to the Secretary. A retailer is not liable for tax due but not received from a facilitator. The requirements..."
imposed by this subdivision on a retailer and a facilitator are considered terms of the contract between the retailer and the facilitator.

A person who, by written contract, agrees to be the rental agent for the provider of an accommodation is considered a retailer under this Article and is liable for the tax imposed by this subdivision. The liability of a rental agent for the tax imposed by this subdivision relieves the provider of the accommodation from liability. A rental agent includes a real estate broker, as defined in G.S. 93A-2.

The following definitions apply in this subdivision:
a. Accommodation. – A hotel room, a motel room, a residence, a cottage, or a similar lodging facility for occupancy by an individual.
b. Facilitator. – A person who is not a rental agent and who contracts with a provider of an accommodation to market the accommodation and to accept payment from the consumer for the accommodation.

SECTION 10. G.S. 105-164.6(c) reads as rewritten:
"(c) Credit. – A credit is allowed against the tax imposed by this section for the following:
(1) The amount of sales or use tax paid on the item to this State, provided the tax is stated and charged separately on the invoice or other document of the retailer given to the purchaser at the time of the sale, except as otherwise provided in G.S. 105-164.7, or provided the retailer remitted the tax subsequent to the sale and the purchaser obtains such documentation. Payment of sales or use tax to this State on an item by a retailer extinguishes the liability of a purchaser for the tax imposed under this section.
(2) The amount of sales or use tax due and paid on the item to another state. If the amount of tax paid to the other state is less than the amount of tax imposed by this section, the difference is payable to this State. The credit allowed by this subdivision does not apply to tax paid to a state that does not grant a similar credit for sales or use taxes paid in North Carolina."

SECTION 11.(a) G.S. 105-164.13 reads as rewritten:
"§ 105-164.13. Retail sales and use tax.

(31a) Food and prepared food sold by a church or religious organization not operated for profit when the proceeds of the sales are actually used for religious activities.

(57) Fuel and electricity sold to a manufacturer for use in connection with the operation of a manufacturing facility. The exemption does not apply to electricity used at a facility at which the primary activity is not manufacturing.

SECTION 11.(b) G.S. 105-164.13A reads as rewritten:

   (1) Is separately stated in the price list, menu, or written proposal and also in the invoice or bill.
   (2) Is turned over to the personnel directly involved in the service of the food, beverages, or meals, prepared food, in accordance with G.S. 95-25.6."

SECTION 12. G.S. 105-164.14(b) reads as rewritten:

Sales and use tax liability indirectly incurred by a nonprofit entity through reimbursement to an authorized person of the entity for the purchase of tangible personal property and services, other than electricity, telecommunications service, and ancillary service, for use in carrying on the work of the nonprofit entity is considered a direct purchase by the entity. Sales and use tax liability indirectly incurred by a nonprofit entity on building materials, supplies, fixtures, and equipment that become a part of or annexed to any building or structure that is owned or leased by the nonprofit entity and is being erected, altered, or repaired for use by the nonprofit entity for carrying on its nonprofit activities is considered a sales or use tax liability incurred on direct purchases by the nonprofit entity. A request for a refund must be in writing and must include any information and documentation required by the Secretary. A request for a refund for the
first six months of a calendar year is due the following October 15; a request for a refund for the second six months of a calendar year is due the following April 15.

For the amount added to adjusted gross income in the 2010 taxable year, the deduction allowed by this subdivision applies to the first five taxable years beginning on or after January 1, 2011. For the amount added to

These adjustments do not result in a difference in basis of the affected assets for State and federal income tax purposes.

The amount of the basis adjustment under this subsection is limited to the total remaining future bonus depreciation deductions forfeited by the transferor and any owner in the transferor at the time of the transfer.

(g) Tax Basis. – For transactions described in subsection (e) or (f) of this section, adjusted gross income must be increased or decreased to account for any difference in the amount of depreciation, amortization, or gains or losses applicable to property that has been depreciated or amortized by use of a different basis or rate for State income tax purposes than used for federal income tax purposes prior to the effective date of this section.

(h) Definitions. – For purposes of this section, a "transferor" is an individual, partnership, S Corporation, limited liability company, or an estate or trust that does not fully distribute income to its beneficiaries, and an "owner in a transferor" is a partner, shareholder, member, or beneficiary subject to tax under Part 2 or 3 of Article 4 of this Chapter, of a transferor.

The taxpayer's excess charitable contributions are the amount by which the taxpayer's charitable contributions for the taxable year that would have been deductible under section 170 of the Code if the taxpayer had not elected the standard deduction exceed two percent (2%) of the taxpayer's adjusted gross income. For tax year 2013, the taxpayer's excess charitable contributions also include the amount by which the taxpayer's charitable contributions for the taxable year would have been deductible under section 170 of the Code had the taxpayer not elected to take the income exclusion under section 408(d)(8) of the Code that exceed two percent (2%) of the taxpayer's adjusted gross income. The Secretary must propose an assessment for any additional tax due from the taxpayer as provided in Article 9 of this Chapter. § 105-164.28. Certificate of exemption.

(a) Seller’s Responsibility. A seller who accepts a certificate of exemption from a purchaser has the burden of proving that the sale was not a retail sale unless all of the following conditions are met:

Relief From Liability. Except as provided in subsection (b) of this section, a seller is not liable for the tax otherwise applicable if the Secretary determines that a purchaser improperly claimed an exemption, or if the seller within 90 days of the sale meets the following requirements:

(1) For a sale made in person, the seller obtains a certificate of exemption or a blanket certificate of exemption from a purchaser with which the seller has a recurring business relationship. If the purchaser provides a paper certificate, the certificate must be signed by the purchaser and state the purchaser's name, address, certificate of registration number, reason for exemption, and type of business. For purposes of this subdivision, a certificate received by fax is a paper certificate. If the purchaser does not provide a paper certificate, the seller must obtain and maintain the same information required had a certificate been provided by the purchaser.

(2) For a sale made in person, the item sold is the type of item typically sold by the type of business stated on the certificate.

(3) For a sale made over the Internet or by other remote means, the seller obtains the purchaser's name, address, certificate of registration number, reason for exemption, and type of business and maintains this information in a retrievable format in its records. If a certificate of exemption is provided electronically for a remote sale, the requirements of subdivision (1) of this subsection apply except the electronic certificate is not required to be signed by the purchaser.

(4) In the case of drop shipment sales, a third-party vendor obtains a certificate of exemption provided by its customer or any other acceptable information evidencing qualification for a resale exemption, regardless of whether the customer is registered to collect and remit sales and use tax in the State.

(b) Substantiation Request. If the Secretary determines that a certificate of exemption or the required data elements obtained by the seller are incomplete, the Secretary may request substantiation from the seller. A seller is not required to verify that a certificate of registration number provided by a purchaser is correct. If a seller does one of the following within 120 days after a request for substantiation by the Secretary, the seller is not liable for the tax otherwise applicable:

(1) Obtains a fully completed certificate of exemption from the purchaser provided in good faith. The certificate is provided in good faith if it claims an exemption that meets all of the following conditions:

   a. It was statutorily available in this State on the date of the transaction.
   b. It could be applicable to the item being purchased.
   c. It is reasonable for the purchaser's type of business.
(2) Obtains other information to establish the transaction was not subject to tax.
(c) Fraud. – The relief from liability under this section does not apply to a seller who does any of the following:

   (1) Fraudulently fails to collect tax.
   (2) Solicits purchasers to participate in the unlawful claim of an exemption.
   (3) Accepts an exemption certificate when the purchaser claims an entity-based exemption when the subject of the transaction sought to be covered by the exemption certificate is received by the purchaser at a location operated by the seller, and the claimed exemption is not available in this State.
   (4) Had knowledge or had reason to know at the time information was provided relating to the exemption claimed that the information was materially false.
   (5) Knowingly participated in activity intended to purposefully evade tax properly due on the transaction.

(d) Purchaser's Liability. – A purchaser who does not resell an item purchased under a certificate of exemption is liable for any tax subsequently determined to be due on the sale.
(e) Renewal of Information. – The Secretary may not require a seller to renew a blanket certificate of exemption or to update exemption certificate information or data elements when there is a recurring business relationship between the buyer and seller. For purposes of this section, a recurring business relationship exists when a period of no more than 12 months elapse between sales transactions.

SECTION 43.(b) G.S. 105-164.28A reads as rewritten:

(a) Authorization. – The Secretary may require a person who purchases an item that is exempt from tax or is subject to a preferential rate of tax depending on the status of the purchaser or the intended use of the item to obtain an exemption certificate from the Department to receive the exemption or preferential rate. An exemption certificate authorizes a retailer to sell an item to the holder of the certificate and either collect tax at a preferential rate or not collect tax on the sale, as appropriate. A person who purchases an item under an exemption certificate is liable for any tax due on the sale if the Department determines that the person is not eligible for the certificate or the item was not used as intended. The liability is relieved when the seller obtains the purchaser's name, address, type of business, reason for exemption, and exemption number in lieu of obtaining an exemption certificate.
(b) Scope. – This section does not apply to a direct pay permit or a certificate of resale exemption. G.S. 105-164.27A addresses a direct pay permit, and G.S. 105-164.28 addresses a certificate of resale exemption.

A certified service provider must file with the Secretary or the Streamlined Sales Tax Governing Board a bond or an irrevocable letter of credit in the amount set by the Secretary. A bond or irrevocable letter of credit must be conditioned upon compliance with the contract, be payable to the State or the Streamlined Sales Tax Governing Board, and be in the form required by the Secretary. The amount a certified service provider charges under the contract is a cost of collecting the tax and is payable from the amount collected."

SECTION 45. G.S. 105-164.44I(a) reads as rewritten:

"(a) Distribution. – The Secretary must distribute to the counties and cities part of the taxes imposed by G.S. 105-164.4(a)(4c) on telecommunications service and G.S. 105-164.4(a)(6) on video programming service. SECTION 47.(a) G.S. 105-241.6(b) reads as rewritten:

"(b) Exceptions. – The exceptions to the general statute of limitations for obtaining a refund of an overpayment are as follows:

(1) Federal Determination. – If a taxpayer files a return reflecting a federal determination and the return is filed within the time required by this Subchapter, the period for requesting a refund is one year after the return reflecting the federal determination is filed or three years after the original return was filed or due to be filed, whichever is later.

(2) Waiver. – A taxpayer's waiver of the statute of limitations for making a proposed assessment extends the period in which the taxpayer can obtain a refund to the end of the period extended by the waiver.

(3) Worthless Debts or Securities. – Section 6511(d)(1) of the Code applies to an overpayment of the tax levied in Part 2 or 3 of Article 4 of this Chapter to the extent the overpayment is attributable to either of the following:
   a. The deductibility by the taxpayer under section 166 of the Code of a debt that becomes worthless, or under section 165(g) of the Code of a loss from a security that becomes worthless.
   b. The effect of the deductibility of a debt or loss described in subpart a. of this subdivision on the application of a carryover to the taxpayer.

(4) Capital Loss and Net Operating Loss Carrybacks. – Section 6511(d)(2) of the Code applies to an overpayment of the tax levied in Part 2 or 3 of Article 4 of this Chapter to the extent the overpayment is attributable to a capital loss carryback under section 1212(c) of the Code or to a net operating loss carryback under section 172 of the Code.

(5) Contingent Event. – If a taxpayer is subject to a contingent event and files notice with the Secretary, the period to request a refund of an overpayment is six months after the contingent event concludes.
   a. For purposes of this subdivision, "contingent event" means litigation or a State tax audit initiated prior to the expiration of the statute of limitations under subsection (a) of this section, the pendency of which prevents the taxpayer from possessing the information necessary to file an accurate and definite request for a refund of an overpayment under this Chapter.
   b. For purposes of this subdivision, "notice to the Secretary" means written notice filed with the Secretary prior to expiration of the statute of limitations under subsection (a) of this section for a return or payment in which a contingent event prevents a taxpayer from filing a definite request for a refund of an overpayment. The notice must identify and describe the contingent event, identify the type of tax, list the return or payment affected by the contingent event, and state in clear terms the basis for and an estimated amount of the overpayment.
   c. A taxpayer who contends that an event or condition other than litigation or a State tax audit has occurred that prevents the taxpayer
from filing an accurate and definite request for a refund of an overpayment within the period under subsection (a) of this section may submit a written request to the Secretary seeking an extension of the statute of limitations allowed under this subdivision. The request must establish by clear, convincing proof that the event or condition is beyond the taxpayer's control and that it prevents the taxpayer's timely filing of an accurate and definite request for refund of an overpayment. The request must be filed within the period under subsection (a) of this section. The Secretary's decision on the request is final and is not subject to administrative or judicial review."

SECTION 47. (b) G.S. 105-241.7(b) reads as rewritten:

"(b) Initiated by Taxpayer. – A taxpayer may request a refund of an overpayment made by the taxpayer by taking one of the following actions listed in this subsection within the statute of limitations for obtaining a refund. A taxpayer may not request a refund of an overpayment based on a contingent event as defined in G.S. 105-241.6(b)(5) until the event is finalized and an accurate and definite request for refund of an overpayment may be determined. The actions are:

(1) Filing an amended return reflecting an overpayment due the taxpayer.

(2) Filing a claim for refund. The claim must identify the taxpayer, the type and amount of tax overpaid, the filing period to which the overpayment applies, and the basis for the claim. The taxpayer's statement of the basis of the claim does not limit the taxpayer from changing the basis."

SECTION 47. (c) This section becomes effective January 1, 2014, and applies to a request for a refund of an overpayment of tax filed on or after that date.

SECTION 48. G.S. 105-262.1(d) reads as rewritten:

"(d) Adoption. – The Secretary may adopt a rule under this section by using the procedure for adoption of a temporary rule set forth in G.S. 150B-21.1(a3). The Secretary must provide electronic notification of the adoption of a rule to persons on the mailing list maintained in accordance with G.S. 150B-21.2(d) and any other interested parties, including those originally given notice of the rule making and those who provided comment on the rule. If the Secretary receives written comment objecting to the rule and requesting review by the Commission, the rule must be reviewed in accordance with subsections (e) through (i) of this section. A person may object to the rule and request review by the Commission at any point prior to the adoption following the agency's adoption of the rule and by 5:00 P.M. on the third business day following electronic notification from the Secretary of the adoption of a rule. If the Secretary receives no written comment objecting to the rule and requesting review by the Commission, the Secretary must deliver the rule to the Codifier of Rules. The Codifier of Rules must enter the rule into the North Carolina Administrative Code upon receipt of the rule."

SECTION 49. (a) G.S. 105-468 reads as rewritten:

"§ 105-468. Scope of use tax.

The use tax authorized by this Article is a tax at the rate of one percent (1%) of the cost price of each item or article of tangible personal property that is not sold in the taxing county but is used, consumed, or stored for use or consumption in the taxing county. The tax applies to the same items that are subject to tax under G.S. 105-467. The collection and administration of this tax shall be in accordance with Article 5 of Chapter 105 of the General Statutes.

Every retailer who is engaged in business in this State and in the taxing county and is required to collect the use tax levied by G.S. 105-164.6 shall collect the one percent (1%) use tax when the property is to be used, consumed, or stored in the taxing county. The use tax contemplated by this section shall be levied against the purchaser, and the purchaser's liability for the use tax shall be extinguished only upon payment of the use tax to the retailer, where the retailer is required to collect the tax, or to the Secretary, where the retailer is not required to collect the tax.

1852
Where a local sales or use tax was due and has been paid with respect to tangible personal property by the purchaser in another taxing county within the State, or where a local sales or use tax was due and has been paid in a taxing jurisdiction outside the State where the purpose of the tax is similar in purpose and intent to the tax which may be imposed pursuant to this Article, the tax paid may be credited against the tax imposed under this section by a taxing county upon the same property. If the amount of sales or use tax so paid is less than the amount of the use tax due the taxing county under this section, the purchaser shall pay to the Secretary an amount equal to the difference between the amount so paid in the other taxing county or jurisdiction and the amount due in the taxing county. The Secretary may require such proof of payment in another taxing county or jurisdiction as is deemed to be necessary. The use tax levied under this Article is not subject to credit for payment of any State sales or use tax not imposed for the benefit and use of counties and municipalities. No credit shall be given under this section for sales or use taxes paid in a taxing jurisdiction outside this State if that taxing jurisdiction does not grant similar credit for sales taxes paid under this Article."

**SECTION 49.(b)** G.S. 105-467(c) reads as rewritten:

"(c) Sourcing. – The local sales tax authorized to be imposed and levied under this Article applies to taxable transactions by retailers whose place of business is located within the taxing county. The sourcing principles in G.S. 105-164.4B apply in determining whether the local sales tax applies to a transaction."

**SECTION 50.** G.S. 105-561(d) reads as rewritten:

"(d) Special Tax District. – If a regional transportation authority created under Article 27 of Chapter 160A of the General Statutes or a regional public transportation authority created under Article 26 of Chapter 160A of the General Statutes has not levied the tax under this section or has levied the tax at a rate of less than eight dollars ($8.00), it may create a special district that consists of the entire area of one or more counties within its territorial jurisdiction and may levy on behalf of the special district the tax authorized in this section. The rate of tax levied within the special district may not, when combined with the rate levied within the entire territorial jurisdiction of the authority; exceed eight dollars ($8.00). The regional transportation authority may not levy or increase a tax within the special district unless the board of commissioners of each county in the special district has adopted a resolution approving the levy or increase.

A special district created pursuant to this subsection is a body corporate and politic and has the power to carry out the purposes of this subsection. The board of trustees of the regional transportation authority created under Article 27 of Chapter 160A of the General Statutes or a regional public transportation authority created under Article 26 of Chapter 160A of the General Statutes shall serve, ex officio, as the governing body of a special district it creates pursuant to this subsection. The proceeds of a tax levied under this subsection may be used only for the benefit of the special district and only for the purposes provided in G.S. 105-564. Except as provided in this subsection, a tax levied under this subsection is governed by the provisions of this Article."

**SECTION 51.** Section 27A.2(f) of S.L. 2009-451 reads as rewritten:

"SECTION 27A.2.(f) Subsections (a) and (e) of this section are effective when they become law. The remainder of this section becomes effective October 1, 2009. Subsection (b) applies to sales made on or after October 1, 2009, and subsections (c) and (d) apply to distributions for months beginning on or after October 1, 2009. Subsections (b) through (d) of this section expire July 1, 2011. The general State rate of tax in effect on or after July 1, 2011, applies to gross receipts received on or after July 1, 2011, pursuant to a lease or rental agreement entered into during the period September 1, 2009, through June 30, 2011, for a definite, stipulated period of time. This section does not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by this section before the effective date of its amendment or repeal; nor does it affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."
SECTION 52. Section 8 of S.L. 2011-122 reads as rewritten:

"SECTION 8. Notwithstanding G.S. 62A-60(c), as enacted by Section 5 of this act, the Department of Revenue may retain the cost of collection not to exceed seven hundred thousand dollars ($700,000) of the 911 service charges for prepaid wireless telecommunications service remitted to it from collections by sellers of the charge for the first 12 calendar months beginning on or after July 1, 2013. The cost of collection that the Department may retain under this section includes costs incurred prior to July 1, 2013."

SECTION 53.(a) The Department of Revenue allocates and distributes to cities and counties the local sales and use taxes under Subchapter VIII of Chapter 105 of the General Statutes and a portion of various State taxes under Chapter 105 of the General Statutes, such as the excise tax on beer and wine, the franchise tax on electric power companies, the sales tax on video programming and telecommunications, and the excise tax on piped natural gas. If the Department is unable to accurately identify and calculate the amount of tax proceeds allocable and distributable to a county or city for any one or more of these taxes for one or more of the distributional periods because of implementation issues with the Tax Information Management System (TIMS), the Department must allocate and distribute to a county and city an amount for that period that is equal to the average of the applicable tax proceeds allocated and distributed to it for the same distributional period in the preceding three fiscal years.

SECTION 53.(b) This section is effective when it becomes law and expires on July 1, 2015.

SECTION 54.(a) G.S. 105-164.14(b)(2a) reads as rewritten:

**SECTION 57.(d)** G.S. 20-81.12 is amended by adding the following new subsection to read:

"(b148) The Division must receive 300 or more applications for a North Carolina Paddle Festival plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of North Carolina Paddle Festival plates to the Friends of the Hammocks and Bear Island, Inc."

**SECTION 57.(e)** The Revisor of Statutes is authorized to alphabetize, number, and renumber the special registration plates listed in G.S. 20-81.12(b2) to ensure that all the special registration plates are listed in alphabetical order and numbered accordingly.

**SECTION 58.(a)** If House Bill 998, 2013 Regular Session, becomes law, then G.S. 105-153.6, as enacted by House Bill 998, reads as rewritten:
"§ 105-153.6. Adjustments when State decouples from federal accelerated depreciation and expensing.

... (d) Asset Basis. – The adjustments made in this section do not result in a difference in basis of the affected assets for State and federal income tax purposes, except as modified in subsection (e) of this section.

(e) Bonus Asset Basis. – In the event of an actual or deemed transfer of an asset occurring on or after January 1, 2013, wherein the tax basis of the asset carries over from the transferor to the transferee for federal income tax purposes, the transferee must add any remaining deductions allowed under subsection (a) of this section to the basis of the transferred asset and depreciate the adjusted basis over any remaining life of the asset. Notwithstanding the provisions of subsection (a) of this section, the transferor and any owner in a transferor are not allowed any remaining future bonus depreciation deductions associated with the transferred asset. This subsection applies only to the extent that each transferor or owner in a transferor that added bonus depreciation to its federal taxable income or adjusted gross income with the transferred asset certifies in writing to the transferee, that the transferor or owner in a transferor will not take any remaining future bonus depreciation deduction associated with the transferred asset.

(f) Prior Transactions. – For any transaction meeting the requirements of subsection (e) of this section prior to January 1, 2013, the transferor and transferee can make an election to make the basis adjustment allowed in that subsection on the transferee's 2013 tax return, to the extent that the transferor and any owner in a transferor has not taken the bonus depreciation deduction on a prior return and provided that the transferor is not allowed any remaining future bonus depreciation deductions associated with the transferred asset and each transferor or owner in a transferor certifies in writing to the transferee that the transferor or owner in a transferor will not take any remaining deductions allowed under subsection (a) of this section for tax years beginning on or after January 1, 2013, for depreciation associated with the transferred asset. The amount of the basis adjustment under this subsection is limited to the total remaining future bonus depreciation deductions forfeited by the transferor and any owner in the transferor at the time of the transfer.

(g) Tax Basis. – For transactions described in subsection (e) or (f) of this section, adjusted gross income must be increased or decreased to account for any difference in the amount of depreciation, amortization, or gains or losses applicable to property that has been depreciated or amortized by use of a different basis or rate for State income tax purposes than used for federal income tax purposes prior to the effective date of this section.

(h) Definitions. – For purposes of this section, a "transferor" is an individual, partnership, S Corporation, limited liability company, or an estate or trust that does not fully distribute income to its beneficiaries, and an "owner in a transferor" is a partner, shareholder, member, or beneficiary subject to tax under Part 2 or 3 of Article 4 of this Chapter of a transferor.

"§ 105-153.3. Definitions. The following definitions apply in this Part:

... (9) Limited liability company. – Either a domestic limited liability company organized under Chapter 57C or a foreign limited liability company authorized by that Chapter to transact business in this State that is classified for federal income tax purposes as a partnership. As applied to a limited liability company that is a partnership
under this Part, the term "partner" means a member of the limited liability company.

appeals the appraised value or taxability of a classified motor vehicle must pay the tax on the vehicle when due, subject to a full or partial refund if the appeal is decided in the owner's favor.

The combined tax and registration notice or tax receipt for a classified motor vehicle must explain the right to appeal the appraised value and taxability of the vehicle. A lessee of a vehicle that is required by the terms of the lease to pay the tax on the vehicle is considered the owner of the vehicle for purposes of filing an appeal under this subsection. Appeals filed under this subsection shall proceed in the manner provided in G.S. 105-312(d).

(b2) Exemption or Exclusion Appeal. – The owner of a classified motor vehicle may appeal the vehicle's eligibility for an exemption or exclusion by filing a request for appeal with the assessor within 30 days of the assessor's initial decision on the exemption or exclusion application filed by the owner pursuant to G.S. 105-330.3(b). Appeals filed under this subsection shall proceed in the manner provided in G.S. 105-312(d).

SECTION 71.(c) Effective July 1, 2013, G.S. 105-330.3, as amended by Section 24(a) of S.L. 2009-445, reads as rewritten:

"§ 105-330.3. Listing requirements for classified motor vehicles; application for exempt status.

(a1) Unregistered Vehicles. – The owner of an unregistered classified motor vehicle must list the vehicle for taxes by filing an abstract with the assessor of the county in which the vehicle is located on or before January 31 following the date the owner acquired the unregistered vehicle or, in the case of a registration that is not renewed, January 31 following the date the registration expires, and on or before January 31 of each succeeding year that the vehicle is unregistered. If a classified motor vehicle required to be listed pursuant to this subsection is registered during the calendar year in which it was listed, the vehicle is taxed for the fiscal year that opens in the calendar year of listing as an unregistered vehicle required to be listed, the following applies:

(1) The vehicle is taxed as a registered vehicle, and the tax assessed pursuant to this subsection for the fiscal year in which the vehicle was required to be listed shall be released and/or refunded.

(2) For any months for which the vehicle was not taxed between the date the registration expired and the start of the current registered vehicle tax year, the vehicle is taxed as an unregistered vehicle as follows:

a. The value of the motor vehicle is determined as of January 1 of the year in which the registration of the motor vehicle expires.

b. In computing the taxes, the assessor must use the tax rates and any additional motor vehicle taxes of the various taxing units in effect on the date the taxes are computed.

c. The tax on the motor vehicle is the product of a fraction and the number of months for which the vehicle was not taxed between the date the registration expires and the start of the current registered vehicle tax year. The numerator of the fraction is the product of the appraised value of the motor vehicle and the tax rate of the various taxing units. The denominator of the fraction is 12.

d. The taxes are due on the first day of the second month following the month the notice was prepared.

e. Interest accrues on unpaid taxes for these unregistered classified motor vehicles at the rate of five percent (5%) for the remainder of the month following the month the taxes are due. Interest accrues at the rate of three-fourths percent (3/4%) for each following month until the taxes are paid, unless the notice is prepared after the date the taxes are due. In that circumstance, the interest accrues beginning the
second month following the date of the notice until the taxes are paid.

(3) A vehicle required to be listed pursuant to this subsection that is not listed by January 31 and is not registered before the end of the fiscal year for which it was required to be listed is subject to discovery pursuant to G.S. 105-312, unless the vehicle has been taxed as a registered vehicle for the current year. G.S. 105-312.

(b) Exemption or Exclusion. – The owner of a classified motor vehicle who claims an exemption or exclusion from tax under this Subchapter has the burden of establishing that the vehicle is entitled to the exemption or exclusion. The owner may establish prima facie entitlement to exemption or exclusion of the classified motor vehicle by filing an application for exempt status with the assessor or assessor within 30 days of the date taxes on the vehicle are due. When an approved application is on file, the assessor must omit from the tax records the classified motor vehicles described in the application. An application is not required for vehicles qualifying for the exemptions or exclusions listed in G.S. 105-282.1(a)(1). The remaining provisions of G.S. 105-282.1 do not apply to classified motor vehicles.

SECTION 71.(d) Effective July 1, 2013, G.S. 105-330.4, as amended by Sections 4 and 5 of S.L. 2005-294 and Section 24(a) of S.L. 2009-445, reads as rewritten: 

§ 105-330.4. Due date, interest, and enforcement remedies.

(a) Due Date. – The registration of a classified motor vehicle may not be issued unless a temporary registration plate is issued for the motor vehicle under G.S. 20-79.1A or the taxes for the motor vehicle's tax year that begins after the issuance of the registration are paid upon registration. A registration of a classified motor vehicle may not be renewed unless the taxes that are due have been paid for the motor vehicle's tax year that begins after the registration expires are paid upon registration. If the registration of a classified motor vehicle is renewed earlier than the date the taxes are due, the taxes must be paid as if they were due. Taxes on a classified motor vehicle are due as follows:

(1) For an unregistered classified motor vehicle, the taxes are due on September 1 following the date by which the vehicle was required to be listed.

(2) For a registered classified motor vehicle that is registered under the staggered system, the taxes are due each year on the date the owner applies for a new registration or the fifteenth day of the month following the month in which the registration renewal sticker expires pursuant to G.S. 20-66(g).

(3) For a registered classified motor vehicle that is registered under the annual system, taxes are due on the date the owner applies for a new registration or 45 days after the registration expires.

(4) For a registered classified motor vehicle that has a temporary registration plate issued under G.S. 20-79.1 or a limited registration plate issued under G.S. 20-79.1A, the taxes are due on the last day of the second month following the date the owner applied for the plate.

(b) Interest. – Interest accrues on unpaid taxes and unpaid registration fees for registered classified motor vehicles at the rate of five percent (5%) for the remainder of the month following the month the taxes are due under subsection (a) of this section. Interest does not accrue for the first month following the due date. Interest accrues at the rate of three-fourths percent (3/4%) beginning the second month following the due date and for each following month until the taxes and fees are paid, unless the notice required by G.S. 105-330.5 is prepared after the date the taxes and fees are due. In that circumstance, the interest accrues beginning the second month following the date of the notice until the taxes and fees are paid. Subject to the provisions of G.S. 105-395.1, interest accrues on delinquent taxes on unregistered classified motor vehicles as provided in G.S. 105-360(a) and the discounts allowed in G.S. 105-360(a) apply to the payment of the taxes.

1870
(c) Remedies. – The enforcement remedies in this Subchapter apply to unpaid taxes on an unregistered classified motor vehicle. The enforcement remedies in this Subchapter do not apply to unpaid taxes on a registered classified motor vehicle for which the tax year begins before October 1, 2013.

(d) Payments. – Tax payments submitted by mail are deemed to be received as of the date shown on the postmark affixed by the United States Postal Service. If no date is shown on the postmark or if the postmark is not affixed by the United States Postal Service, the tax payment is deemed to be received when the payment is received in the office of the tax collector by the collecting authority. In any dispute arising under this subsection, the burden of proof is on the taxpayer to show that the payment was timely made."

SECTION 72. Effective July 1, 2013, G.S. 105-330.1(b), as amended by Section 24(a) of S.L. 2009-445, as rewritten:

"(b) Exceptions. – The following motor vehicles are not classified under subsection (a) of this section:

Session Law 2013–416

AN ACT TO PROTECT RIGHTS AND PRIVILEGES GRANTED UNDER THE UNITED STATES AND NORTH CAROLINA CONSTITUTIONS IN THE APPLICATION OF FOREIGN LAW.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 1 of the General Statutes is amended by adding a new Article to read:

"Article 7A.
"Application of Foreign Law.

§ 1-87.2. Definitions.
The following definitions apply in this Article:

(1) Fundamental constitutional right. – A fundamental right of a natural person guaranteed by the United States Constitution or the North Carolina Constitution.
(2) Foreign law. – A law, rule, resolution, legal code, legal system, or any component of a legal system established and used or applied in a foreign venue or forum.
(3) Foreign venue or forum. – A venue or forum operating under the authority of a government other than any of the following:
   a. The United States.
b. A state, district, commonwealth, territory, or insular possession of the United States.

\( \text{§ 1-87.3. Public policy} \)

In recognition that the United States Constitution and the Constitution of North Carolina constitute the supreme law of this State, the General Assembly hereby declares it to be the public policy of this State to protect its citizens from the application of foreign law that would result in the violation of a fundamental constitutional right of a natural person. The public policies expressed in this section shall apply only to actual or foreseeable violations of a fundamental constitutional right resulting from the application of the foreign law.

\( \text{§ 1-87.4. Nonapplication of foreign law that would violate fundamental constitutional rights.} \)

A court, administrative agency, arbitrator, mediator, or other entity or person acting under the authority of State law shall not apply a foreign law in any legal proceeding involving, or recognize a foreign judgment involving, a claim for absolute divorce, divorce from bed and board, child custody, child support, alimony, or equitable distribution if doing so would violate a fundamental constitutional right of one or more natural persons who are parties to the proceeding.

\( \text{§ 1-87.5. Interpretation of contracts providing for choice of foreign law.} \)

(a) In the interpretation or enforcement by a court, administrative agency, arbitrator, mediator, or other entity or person acting under the authority of State law of any contract or other agreement that provides for the choice of a foreign law to govern its interpretation or the resolution of any claim or dispute, the court or administrative agency shall preserve the fundamental constitutional rights of natural persons who are parties to the contract or other agreement.

(b) If enforcement of any provision in a contract or other agreement for the choice of foreign law would result in a violation of a fundamental constitutional right of one or more of the natural persons who are parties to the contract or other agreement, the agreement or contract shall be modified or amended to the extent necessary to preserve the fundamental constitutional rights of the natural persons.

\( \text{§ 1-87.6. Interpretation of contracts providing for choice of foreign venue or forum.} \)

If the enforcement of any provision in a contract or other agreement providing for a choice of a foreign venue or forum would result in a violation of a fundamental constitutional right of one or more of the natural persons who are parties to the contract or other agreement, that provision shall be modified or amended to the extent necessary to preserve the fundamental constitutional rights of the natural persons.

\( \text{§ 1-87.7. Motions to transfer proceedings to a foreign venue or forum.} \)

If a natural person subject to personal jurisdiction in this State seeks to maintain a litigation proceeding, arbitration proceeding, or other similarly binding proceeding in this State, and if a court of this State finds that granting a motion by another party to the proceeding to transfer the proceeding to a foreign venue or forum would likely lead to the violation of a fundamental constitutional right of the natural person who is the nonmovant in the foreign forum with respect to the matter in dispute, the motion shall be denied.

\( \text{§ 1-87.8. Contracts not capable of modification to preserve fundamental constitutional rights void.} \)

Any provision in a contract or other agreement incapable of being modified or amended pursuant to this Article in order to preserve the fundamental constitutional rights of the natural persons who are parties to the contract or agreement shall be null and void.
"§ 1-87.9. Strict construction of waivers of constitutional rights.
Nothing in this Article shall be interpreted to limit the right of natural persons voluntarily to restrict or limit their own constitutional rights by contract or specific waiver consistent with constitutional principles; however, any ambiguity in the language of any such contract or other waiver shall be strictly construed in favor of preserving the constitutional rights of natural persons in this State.

"§ 1-87.10. Application.
The provisions in this act shall apply only to proceedings or matters under Chapter 50 and Chapter 50A of the General Statutes."

SECTION 2. This act becomes effective September 1, 2013, and applies to agreements and contracts entered into on or after that date.

In the General Assembly read three times and ratified this the 25th day of July, 2013.

Became law on the date it was ratified.

Session Law 2013-417 H.B. 392

AN ACT REQUIRING A COUNTY DEPARTMENT OF SOCIAL SERVICES (DSS) TO VERIFY WHETHER AN APPLICANT FOR OR RECIPIENT OF TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF) BENEFITS OR FOOD AND NUTRITION SERVICES (FNS) BENEFITS IS A FLEEING FELON OR A PROBATION OR PAROLE VIOLATOR, TO DIRECT INTERAGENCY COOPERATION AND INFORMATION SHARING IN ORDER TO VERIFY THE ELIGIBILITY STATUS OF AN APPLICANT OR RECIPIENT, TO DENY TANF OR FNS BENEFITS TO AN APPLICANT OR RECIPIENT WHO IS A FLEEING FELON OR A PROBATION OR PAROLE VIOLATOR, AND TO REQUIRE DRUG SCREENING AND TESTING FOR CERTAIN APPLICANTS AND RECIPIENTS OF WORK FIRST PROGRAM ASSISTANCE.

Whereas, federal law, specifically 42 U.S.C. § 601, et seq., requires that states receiving funds under certain federal grant programs shall not use any part of the grant to provide assistance to any individual who is (i) fleeing to avoid prosecution, custody, or confinement after conviction under the laws of the place from which the individual flees, for a crime or an attempt to commit a crime, which is a felony under the laws of the place from which the individual flees, or (ii) violating a condition of probation or parole imposed under federal or state law; and

Whereas, states receiving these federal grant funds are authorized under federal law to establish safeguards against the use or disclosure of information about applicants or recipients for assistance under the state program funded under federal law; and

Whereas, federal law expressly authorizes the state agency administering the program to furnish a federal, state, or local law enforcement officer, upon the request of the officer, with the current address of any recipient if the officer furnishes the agency with the name of the applicant or recipient under specified circumstances; and

Whereas, conducting a criminal background check on applicants for or recipients of public assistance benefits is necessary in order to ensure compliance with federal laws prohibiting a fleeing felon or probation or parole violator from receiving public assistance benefits; and

Whereas, the apprehension of individuals by law enforcement may be necessary to protect and safeguard the public; and

Whereas, state agencies administering the program may have or receive information that is necessary for a law enforcement agency to conduct the official duties of the agency, and the location or apprehension of the applicant or recipient is within a law enforcement agency's official duties; Now, therefore,
The General Assembly of North Carolina enacts:

PART I. SHARE ARREST WARRANT STATUS OF APPLICANTS FOR PUBLIC ASSISTANCE

SECTION 1. Part 1 of Article 2 of Chapter 108A of the General Statutes is amended by adding the following new section to read:

"§ 108A-26.1. Information sharing of outstanding arrest warrant of applicant for or recipient of program assistance.

(a) A county department of social services shall notify an applicant for program assistance under Part 2 or Part 5 of this Article that release of confidential information from the applicant's records may not be protected if there exists an outstanding warrant for arrest against the applicant. A county department of social services shall notify a recipient under a program of public assistance under Part 2 or Part 5 of this Article at the time of renewal of the recipient's application for such program assistance that release of confidential information from the recipient's records may not be protected if there exists an outstanding warrant for arrest against the recipient.

(b) Notwithstanding G.S. 108A-80, and to the extent otherwise allowed by federal and State law, a county department of social services shall ensure that the criminal history of an applicant, or of a recipient at the time of benefits renewal, is checked in a manner and to the extent necessary to verify whether an applicant for or recipient of program assistance under Part 2 or Part 5 of this Article is (i) fleeing to avoid prosecution, custody, or confinement after conviction under the laws of the place from which the individual flees, for a crime or an attempt to commit a crime, which is a felony under the laws of the place from which the individual flees, or (ii) violating a condition of probation or parole imposed under federal or State law:

(1) A criminal history check utilizing currently accessible databases shall be conducted by the county department of social services, subject to G.S. 114-19.34 and to the extent permitted by allocated county and State resources.

(2) Nothing in this section requires fingerprints to be taken of every applicant for or recipient of a program of public assistance.

(3) Counties are not required to allocate funds to comply with this section but are authorized to make such allocations on a voluntary basis.

(c) Nothing in this section shall be construed to authorize the disclosure of any information otherwise protected by State or federal law or regulation.

(d) This section applies to applicants for or recipients of program assistance under Part 2 or Part 5 of this Article only.

(e) The Social Services Commission shall adopt any rules necessary to implement this section, including rules addressing the sharing of confidential information between county departments of social services and law enforcement agencies.

(f) The Secretary of the Department of Health and Human Services shall promote cooperation among State and local agencies to perform the functions described in this section. The Department of Health and Human Services shall cooperate and collaborate with the Office of the State Controller, the Administrative Office of the Courts, the Department of Justice, the State Bureau of Investigation, and the Department of Public Safety to develop protocols to implement this section.

(h) Annually on May 1, the Department of Health and Human Services shall report to the Joint Legislative Oversight Committee on Health and Human Services of the General Assembly on the number of individuals who are denied assistance under this section. The report shall include a breakdown by county."
SECTION 2. Part 1 of Article 2 of Chapter 108A of the General Statutes is amended by adding the following new section to read: "§ 108A-26.2. Fleeing felon or parole or probation violator; eligibility for program assistance; federal approval; review by department.

(a) Subject to subsection (b) of this section, a department of social services shall not grant public assistance under Part 2 or Part 5 of Article 2 of Chapter 108A of the General Statutes if the department receives information described in G.S. 108A-26.1 that the applicant for or recipient of program assistance is subject to arrest under an outstanding warrant arising from a charge of violating conditions of parole or probation or from a felony charge against that applicant or recipient in any jurisdiction. This section does not affect the eligibility for assistance of other members of the applicant's or recipient's household. An applicant or recipient described in this section is eligible for program assistance if all other eligibility criteria of the law are met when the applicant or recipient is no longer subject to arrest under an outstanding warrant as described in this section.

(b) If federal approval is required in order to prevent the loss of federal reimbursement as a result of the application of this section to an applicant for or recipient of program assistance, the Department of Health and Human Services shall promptly take any action necessary to obtain federal approval."

SECTION 3. Part 2 of Article 4 of Chapter 114 of the General Statutes is amended by adding the following new section to read: "§ 114-19.34. Criminal record checks of applicants and recipients of programs of public assistance.

(a) Upon receipt of a request from a county department of social services pursuant to G.S. 108A-26.1, the Department of Justice shall, to the extent allowed by federal law, provide to the county department of social services the criminal history from the State or National Repositories of Criminal Histories of an applicant for, or recipient of, program assistance under Part 2 or Part 5 of Article 2 of Chapter 108A of the General Statutes.

(b) The county department of social services shall provide to the Department of Justice, along with the request, any information required by the Department of Justice and a form signed by the individual to be checked consenting to the check of the criminal record and to the use of any necessary identifying information required by the State or National Repositories. The county department of social services shall keep all information pursuant to this section confidential and privileged, except as provided in G.S. 108A-26.1.

(c) The Department of Justice may charge a reasonable fee only for conducting the checks of the criminal history records authorized by this section."

PART II. DRUG SCREENING AND TESTING FOR WORK FIRST PROGRAM ASSISTANCE

(a) Each applicant or current recipient of Work First Program benefits, determined by a Qualified Professional in Substance Abuse (QPSA) or by a physician certified by the American Society of Addiction Medicine (ASAM) to be addicted to alcohol or drugs and to be in need of professional substance abuse treatment services shall be required, as part of the person's MRA and as a condition to receiving Work First Program benefits, to participate satisfactorily in an individualized plan of treatment in an appropriate treatment program. As a mandatory program component of participation in an addiction treatment program, each applicant or current recipient shall be required to submit to an approved, reliable, and professionally administered regimen of testing for presence of alcohol or drugs, without advance notice, during and after participation, in accordance with the addiction treatment program's individualized plan of treatment, follow up, and continuing care services for the applicant or current recipient. The Department shall require a drug test to screen each applicant for or recipient of Work First
Program assistance whom the Department reasonably suspects is engaged in the illegal use of controlled substances. The Department shall provide notice of drug testing to each applicant or recipient. The notice shall advise the applicant or recipient that drug screening, and testing if there is reasonable suspicion that an individual is engaged in the illegal use of controlled substances, will be conducted as a condition of receiving Work First Program assistance, and that the results of the drug tests will remain confidential and will not be released to law enforcement. Dependent children under the age of 18 are exempt from the requirements of this section. The Department shall require the following:

1. That for two-parent households, both parents comply with the requirements of this section.
2. That any teen parent who is emancipated pursuant to Article 35 of Chapter 7B of the General Statutes complies with the requirements of this section.
3. That each applicant or recipient be advised before drug testing that he or she may inform the agent administering the test of any prescription or over-the-counter medication he or she is taking.
4. That each applicant or recipient being tested signs a written acknowledgement that he or she has received and understood the notice and advice provided under this subsection.
5. That each applicant or recipient who fails a drug test understands that he or she has the right to take one or more additional tests at his or her own expense.
6. That each applicant or recipient who fails a drug test be provided with information regarding substance abuse, substance abuse counseling, and substance abuse treatment options, including a list of substance abuse treatment programs that may be available to the individual.

(b) An applicant or current recipient who fails to comply with any requirement imposed pursuant to this section shall not be eligible for benefits or shall be subject to the termination of benefits, but shall be considered to be receiving benefits for purposes of determining eligibility for medical assistance. An applicant or recipient who tests positive for controlled substances as a result of a drug test required under this section is ineligible to receive Work First Program assistance for one year from the date of the positive drug test except as provided in subsections (b1) and (b2) of this section. The individual may reapply after one year. However, if the individual has any subsequent positive drug tests, the individual shall be ineligible for benefits for three years from the date of the subsequent positive drug test unless the individual reapplies pursuant to subsection (b1) or (b2) of this section.

(b1) An applicant or recipient deemed ineligible under subsection (b) of this section may reapply for Work First Program assistance after the expiration of 30 days from the date of the positive drug test if the individual can document either the successful completion of or the current satisfactory participation in a substance abuse treatment program offered by a provider under subsection (e) of this section and licensed by the Department. The applicant or recipient who reapplies for Work First Program assistance after successful completion of a substance abuse program shall pass a drug test. The cost of any drug testing and substance abuse program provided under this subsection shall be the responsibility of the individual being tested and receiving treatment. An applicant or recipient who reappears for Work First Program assistance pursuant to this subsection may reapply one time only.

(b2) An applicant or recipient deemed ineligible under subsection (b) of this section may reapply for Work First Program assistance after the expiration of 30 days from the date of the positive drug test if a qualified professional in substance abuse or a physician certified by the American Society of Addiction Medicine determines a substance abuse program is not appropriate for the individual and that individual has passed a subsequent drug test. The cost of any drug testing provided under this subsection shall be the responsibility of the individual being tested. An applicant or recipient who reappears for Work First Program assistance pursuant to this subsection may reapply one time only.
(c) The children of any applicant or current recipient shall remain eligible for benefits, and these benefits shall be paid to a protective payee pursuant to G.S. 108A-38.

(d) An applicant or current recipient shall not be regarded as failing to comply with the requirements of this section if an appropriate drug or alcohol treatment program is unavailable. The Social Services Commission shall adopt rules pertaining to the testing of applicants and recipients under this section. The Social Services Commission shall adopt rules pertaining to the successful completion of, or the satisfactory participation in, a substance abuse treatment program under subsection (b1) of this section, including rules regarding timely reporting of completion of or participation in the substance abuse treatment programs.

(e) Area mental health authorities organized pursuant to Article 4 of Chapter 122C of the General Statutes shall be responsible for administering the provisions of this section.

(f) The requirements of this section may be waived or modified as necessary in the case of individual applicants or recipients to the degree necessary to comply with Medicaid eligibility provisions.

(g) For the purposes of this section, reasonable suspicion that an applicant for, or recipient of, Work First Program assistance is engaged in the illegal use of controlled substances may be established only by utilizing the following methods:

1. A criminal record check conducted under G.S. 114-19.34 that discloses a conviction, arrest, or outstanding warrant relating to illegal controlled substances within the three years prior to the date the criminal record check is conducted.

2. A determination by a qualified professional in substance abuse or a physician certified by the American Society of Addiction Medicine that an individual is addicted to illegal controlled substances.

3. A screening tool relating to the abuse of illegal controlled substances that yields a result indicating that the applicant or recipient may be engaged in the illegal use of controlled substances.

4. Other screening methods, as determined by the Social Services Commission under subsection (d) of this section.

(h) Child only cases shall be exempt from the requirements of this section.

SECTION 5. The Social Services Commission shall adopt rules implementing this act. The Social Services Commission may issue temporary rules, in addition to its permanent rule-making authority, to enforce this act. Rules for the implementation of Section 4 of this act shall be adopted no later than February 1, 2014.

SECTION 6. The Department of Health and Human Services shall report to the General Assembly no later than April 1, 2014, on the implementation of Section 4 of this act.

PART III. EFFECTIVE DATE AND SEVERABILITY

SECTION 7. If any provision of this act or its application is held invalid, the invalidity does not affect other provisions or applications of this act that can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

SECTION 8. Section 4 of this act becomes effective August 1, 2014. The remainder of this act becomes effective October 1, 2013.

S.L. 2013-418

Session Law 2013-418

AN ACT TO REQUIRE THE DEPARTMENT OF PUBLIC SAFETY TO STUDY MEASURES FOR ADDRESSING THE PROBLEM OF ILLEGAL IMMIGRATION IN THIS STATE; AND TO CLARIFY WHICH EMPLOYERS ARE SUBJECT TO THE STATE'S E-VERIFY LAWS.

Whereas, the North Carolina General Assembly recognizes that the issue of immigration is the responsibility of the federal government; and
Whereas, the federal government has failed to address the need for enforcement of existing immigration laws or to act decisively to correct, amend, and reform existing immigration procedures and policies; and
Whereas, federal courts have consistently upheld the authority of the federal government to restrict the efforts of states to uphold and enforce federal immigration laws in order to protect their citizens and their economies; and
Whereas, the federal government has endowed illegally present aliens with certain entitlements to be provided by the various states via unfunded mandates; and
Whereas, those unfunded mandates and the failure to address illegal immigration places an unwarranted strain on our State's law enforcement agencies, educational institutions, and social safety nets and undermines our trust in the rule of law; and
Whereas, the General Assembly of North Carolina recognizes its responsibility to protect and defend the citizens and the economy of the State of North Carolina; and
Whereas, North Carolina recognizes that the greatness of this State is the result of appreciating, incorporating, and welcoming the vast diversity of immigrants who lawfully assimilate into the culture and fabric that is North Carolina; and
Whereas, we do now encourage the North Carolina congressional delegation to exert the strongest effort possible to enact appropriate federal legislation to secure our nation's borders, uphold existing immigration laws, and reform the procedures and policies regarding the immigration process in order to facilitate an even and orderly process for those wishing to immigrate to our country; and
Whereas, we encourage the President to work in a dedicated and cooperative fashion with Congress to restore dignity and transparency to the immigration process; and
Whereas, the wealth, beauty, and strength of North Carolina rests not only with her natural attributes of mountains, beaches, and abundant resources but in the character of her people and their ability to address problems and challenges before them with an objective resolve tempered with a sense of fairness and consideration for all people; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. (a) The Department of Public Safety, in conjunction with the agencies and industries described in subsection (b) of this section, shall study the potential impact on public safety, the State economy, and illegal immigration to this State of adopting any or all of the following measures:

(1) Increasing the penalties for crimes related to the possession, manufacture, or sale of false drivers licenses and other identification documents.
(2) Creating a rebuttable presumption against the pretrial release of undocumented aliens who commit serious crimes.
(3) Requiring a secured appearance bond as a condition of pretrial release for undocumented aliens who have committed serious crimes.
(4) Requiring undocumented alien prisoners to reimburse the State for the cost of their incarceration after conviction of a crime.
(5) Establishing standards of reasonable suspicion to guide law enforcement officers in conducting immigration status checks when conducting a lawful stop, detention, or arrest.
(6) Prohibiting the use of consular documents from being considered a valid means of establishing a person's identity by a justice, judge, clerk, magistrate, law enforcement officer, or other State official.

(7) Implementing a process for undocumented aliens to obtain a temporary driving privilege. This portion of the study shall:
   a. Examine the impact that such a process would have on highway safety, insurance rates, and claims for accidents that occur at the hands of the uninsured.
   b. Estimate the number of individuals who would seek to obtain a temporary driving privilege through such a process.
   c. Determine whether there are adequate insurance products available to insure individuals who obtain the temporary driving privilege.
   d. Examine any other matters that the Division of Motor Vehicles deems relevant.

(8) Adopting measures that have been adopted in other States to combat the problem of illegal immigration.

SECTION 1.(b) In conducting the study required by this section, the Department of Public Safety shall consult with the Department of Insurance, the Division of Motor Vehicles, the Department of Commerce, representatives of the service and agricultural industries, representatives of the immigrant community, and any other agencies, institutions, or individuals that the Department deems appropriate.

SECTION 1.(c) The study shall examine the potential impact of the measures described in subsection (a) of this section:
   (1) On the State economy.
   (2) On the community of lawful immigrants in this State.
   (3) On the provision of social services.
   (4) On tax collection.
   (5) On law enforcement.
   (6) In light of the impact of similar measures enacted in other states on these areas.
   (7) In light of their relation to the uncertainty that all businesses, including the high-tech, agriculture, hospitality, and other service sectors endure under our current federal system. The Department of Commerce shall be the lead coordinating agency for purposes of this subdivision.

SECTION 1.(d) The Department of Public Safety shall report its findings and recommendations to the Chairs of the Joint Legislative Oversight Committee on Justice and Public Safety no later than March 1, 2014. The Department of Public Safety may use funds available to contract for services related to this study.

SECTION 2.(a) G.S. 153A-449 reads as rewritten:
"§ 153A-449. Contracts with private entities; contractors must use E-Verify.
   (a) Authority. – A county may contract with and appropriate money to any person, association, or corporation, in order to carry out any public purpose that the county is authorized by law to engage in.

SECTION 2.(c) G.S. 143-129 is amended by adding a new subsection to read:

"(j) No contract subject to this section may be awarded by any board or governing body of the State, institution of State government, or any political subdivision of the State unless the contractor and the contractor's subcontractors comply with the requirements of Article 2 of Chapter 64 of the General Statutes."

SECTION 2.(d) Article 3 of Chapter 143 of the General Statutes is amended by adding a new section to read:

"§ 143-48.5. Contractors must use E-Verify.

No contract subject to the provisions of this Article may be entered into unless the contractor and the contractor's subcontractors comply with the requirements of Article 2 of Chapter 64 of the General Statutes."

SECTION 2.(e) G.S. 147-33.95 is amended by adding a new subsection to read:

"(g) No contract subject to the provisions of this Part may be entered into unless the contractor and the contractor's subcontractors comply with the requirements of Article 2 of Chapter 64 of the General Statutes."

SECTION 2.(f) G.S. 64-25(3) reads as rewritten:

GOVERNOR’S OBJECTIONS AND VETO MESSAGE

August 15, 2013

House Bill 392: “An act requiring a County, Department of Social Services (DSS) to verify whether an applicant for or recipient of Temporary Assistance for Needy Families (TANF) benefits or Food and Nutrition Services (FNS) benefits is a fleeing felon or a probation or parole violator, to direct interagency cooperation and information sharing in order to verify the eligibility status of an applicant or recipient, to deny TANF or FNS benefits to an applicant or recipient who is a fleeing felon or a probation or parole violator, and to require drug screening and testing for certain applicants and recipients of work first program assistance.”

It is critical that funding for public benefits be protected from abuse by felons and those fleeing prosecution. The criminal background requirements make sense in House Bill 392. Therefore under my existing executive authority, I am directing the Department of Health and Human Services and our state Chief Information Officer to develop a plan and recommendations to ensure that fugitive felons and probation or parole violators do not receive these public benefits and that law enforcement has access to the most up to date information.

This Administration believes that there are better ways to fight addiction and prevent criminal drug abuse. However, this is not the best way forward and I must veto this bill because of my concerns about the implementation of the drug testing provisions, which were not thoroughly analyzed prior to passing this legislation.

Additional veto reasons include:

• The changes that would be required are not funded in this bill or the 2013-15 budget;
• The bill is a step backward for DHHS in its efforts to assist people in combating substance abuse. The Department currently screens all adult applicants for substance abuse issues and, as appropriate, facilitates a treatment plan with which the applicant must comply prior to receiving benefits;
• I am concerned that the means for establishing reasonable suspicion, as outlined in the bill, are not sufficient to mandate a drug test under the Fourth Amendment;
• The punitive mandates of this bill go too far in restricting future access to benefits that could have a negative impact on children and families;
• Similar efforts in other states have proven costly for taxpayers and did little to help fight drug addiction;
• There are potential obstacles to consistent application across 100 counties.

I continue to recommend further study on this issue.

GOVERNOR'S OBJECTIONS AND VETO MESSAGE

House Bill 786: "An act to require the Department of Public Safety to study measures for addressing the problem of illegal immigration in this state, and to clarify which employers are subject to the state's E-Verify laws."

I am vetoing House Bill 786 because I promised to protect and find jobs for North Carolinians. This bill has been thinly disguised as a measure to help our farming community when in fact it applies to a broad spectrum of other businesses in both urban and rural areas. There is a loophole that would allow businesses to exempt a higher percentage of employees from proving they are legal U.S. citizens or residents.

This legislation increases the seasonal employee 90-day exemption to nearly nine months in a calendar year, and will put our legal residents at a disadvantage in the job market. We must do everything we can to help protect jobs for North Carolinians first and foremost.

This legislation needs further study, as I recommended months ago. However, the bill did not provide funding for a study.

North Carolina has the fifth highest unemployment in the country, and now is not the time to put our citizens at a disadvantage to find jobs. I have remained focused on job growth in North Carolina, and I will continue to do so in the future.

Therefore, I veto the bill.

Resolution 2013-2  H.J.R. 64
A JOINT RESOLUTION HONORING THE FIFTIETH ANNIVERSARY OF THE STATE LEGISLATIVE BUILDING.

Whereas, the State Legislative Building was completed in January 1963, making 2013 the 50th anniversary of the building's opening; and

Whereas, by the late 1950s, facilities in the State Capitol, which had been used for sessions of the General Assembly since 1840, were increasingly becoming insufficient to accommodate the members of the General Assembly and their staff; and

Whereas, in 1959, the General Assembly appropriated funds for a new building to accommodate the legislature, and enacted legislation establishing the State Legislative Building Commission (Commission); and

Whereas, the Commission consisted of the following members: Archie K. Davis and Robert F. Morgan (vice-chair), who were appointed by Lieutenant Governor Luther E. Barnhardt, President of the Senate; Byrd I. Satterfield and Thomas J. White (chair), who were appointed by Addison Hewlett, Speaker of the House of Representatives; and A. E. Finley, Edwin Gill, and Oliver R. Rowe, who were appointed by Governor Luther Hodges; and

1889
Whereas, among its many duties, the Commission was charged with acquiring a site suitable for a State Legislative Building; employing architects to prepare the plans for the building; entering into contracts to purchase real property, materials, and furnishings related to the building; and providing general supervision of construction of the new building; and

Whereas, the Commission selected architect Edward Durell Stone of New York and associate architects John S. Holloway and Ralph B. Reeves, Jr., of Raleigh to design the new building; and

Whereas, Edward Durell Stone, an Arkansas native, is widely considered to have been one of the most prominent 20th century American architects, having designed numerous college, museum, and corporate buildings across the United States; and

Whereas, Edward Durell Stone was an internationally recognized advocate for modern design, having designed prominent public buildings in Canada, Mexico, Panama, India, Pakistan, Lebanon, Croatia, and Belgium; and

Whereas, in 1961, the General Assembly provided additional funding to furnish and equip the building, bringing the total appropriation for the new building to $5.5 million; and

Whereas, the State Legislative Building rises from a broad 340-foot wide podium of North Carolina granite with a marble-faced building proper encompassed by a colonnade of square columns reaching from the podium to the main roof of the second floor; and

Whereas, the main entrance to the State Legislative Building has a 28-foot diameter terrazzo mosaic of the great seal of the State of North Carolina; and

Whereas, the State Legislative Building houses the chambers of the Senate and the House of Representatives, members' offices, Principal Clerks' offices, committee rooms, and spaces for other essential functions of the General Assembly; and

Whereas, North Carolina was the first state to construct a building to house the legislature; and

Whereas, the General Assembly convened its first session in the State Legislative Building on February 6, 1963; and

Whereas, the State Legislative Building is today considered to be one of Edward Durell Stone's most important works, along with such notable buildings as the Kennedy Center and the National Geographic Building in Washington, DC, and the Museum of Modern Art and the General Motors Building in New York City; and

Whereas, the State Legislative Building has been an important institution for the General Assembly and the citizens of this State for 50 years; Now, therefore,

Be it resolved by the House of Representatives, the Senate concurring:

In the General Assembly read three times and ratified this the 7th day of February, 2013.

Resolution 2013-7  S.J.R. 133

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF DR. JOY JOSEPH JOHNSON, FRED D. ALEXANDER, RICHARD C. ERWIN, JOHN W. WINTERS, SR., DR. ALFREDA JOHNSON WEBB, JEANNE HOPKINS LUCAS, AND OTHER PIONEER AFRICAN AMERICAN MEMBERS OF THE GENERAL ASSEMBLY, IN OBSERVANCE OF AFRICAN AMERICAN HISTORY MONTH.

Whereas, since 1976, February has been recognized as African American History Month across the United States; and

Whereas, African American History Month evolved from "Negro History Week," which was established in 1926 by Dr. Carter G. Woodson, a Harvard-educated African American author and scholar, who wanted to bring national attention to the contributions African Americans have made to this country; and

Whereas, African American History Month seeks to emphasize that African American History is American History; and

Whereas, African American History Month serves as a time to reflect upon past sacrifices and accomplishments of African Americans and to contemplate future goals, including correcting the disparities that exist between African Americans and other races; and

Whereas, the first African Americans began serving in the North Carolina General Assembly in 1868 and included: Senators Henry Eppes of Halifax County, Abraham H. Galloway of New Hanover County, and John Adams Hyman of Warren County, and Representatives Wilson Carey of Caswell County, William W. Cawthorne of Warren County, Henry C. Cherry of Edgecombe County, A. A. Crawford of Granville County, Richard Faulkner of Warren County, W. T. J. Hayes of Halifax County, Ivey Hudgins of Halifax County, John Sinclair Leary of Cumberland County, Cuffie Mayo of Granville County, Benjamin W. Morris of Craven County, George Washington Price, Jr. of New Hanover County, John Thomas Reynolds of Northampton County, Parker D. Robbins of Bertie County, A. W. Stevens of Craven County, Isham S. Sweat of Cumberland County, Thomas A. Sykes of Pasquotank County, and John Hendrick Williamson of Franklin County; and

Whereas, in 1883, one of the largest groups of African Americans since mid-Reconstruction served in the General Assembly, which included three senators and 16 representatives. These legislators were some of the most educated members serving at that time, some of whom had college educations and advanced degrees. They were elected in part as a result of the continued influence of African Americans in North Carolina's Republican Party, which for a period until the late 1800s had been predominantly African American; and

Whereas, from 1868 to 1900, no fewer than 111 African Americans were elected to the North Carolina General Assembly, but between 1900 through 1968, no African Americans were elected as a result of racial segregation enforced by "Jim Crow" laws and impediments to voting for African Americans such as the use of literacy tests and poll taxes; and

Whereas, with the passage of and enforcement of the Voting Rights Act in 1965, African Americans were again elected to the General Assembly, beginning with the 1968 election of Henry E. Frye of Guilford County to the House of Representatives; and

Whereas, by 1975, six African Americans were serving in the General Assembly, including Senators Fred D. Alexander of Mecklenburg County and John W. Winters, Sr. of Wake County, and Representatives Richard C. Erwin of Forsyth County, Henry E. Frye of Guilford County, Dr. Joy Joseph Johnson of Robeson County, and H. M. "Mickey" Michaux, Jr. of Durham County; and
Whereas, Dr. Alfreda Johnson Webb of Guilford County was the first African American female appointed to the House of Representatives to fill an unexpired term in 1971 but never actively served in the General Assembly; and

Whereas, the first African American women to actively serve in the General Assembly were Annie Brown Kennedy of Forsyth County, who was appointed to the House of Representatives to fill an unexpired term in 1979, and Jeanne Hopkins Lucas of Durham County, who was appointed to the Senate to fill an unexpired term in 1993; and

Whereas, Pearl Burris-Floyd of Gaston County was elected as the first African American female Republican to the General Assembly, serving in the House of Representatives in 2009; and

Whereas, Daniel Blue, Jr. of Wake County was elected by his peers as the first African American Speaker of the House of Representatives in 1991, William L. Wainwright of Craven County was elected by his peers as the first African American Speaker Pro Tempore of the House of Representatives in 2007, Milton "Toby" Fitch, Jr. of Wilson County was chosen by his peers as the first African American Majority Leader, and Larry D. Hall of Durham County was chosen by his peers as the first African American Democratic Minority Leader in 2013; and

Whereas, it appears from historical records that Israel Abbott of Craven County was chosen as assistant doorkeeper of the House of Representatives in 1868, suggesting that African Americans served on the Sergeant-at-Arms staff as early as 1868; and

Whereas, Ms. Clay Knight was the first African American to serve on the General Assembly's professional staff, working as an attorney in the Research Division beginning in 1974; and

Whereas, in 1982, African American legislators formed the North Carolina Legislative Black Caucus (NCLBC) as an unincorporated association of Senators and Representatives of African American heritage and other lawmakers of color to promote legislative policies and actions responsive to the needs of all North Carolinians, particularly African Americans, people of color, and other groups who face systemic disparities and mistreatment; and

Whereas, the NCLBC initially focused on issues such as redistricting; fair appropriations for Historically Black Colleges and Universities (HBCUs), including capital funds; and funding for minority economic development; and

Whereas, 27 years ago, the NCLBC established the North Carolina Black Caucus Foundation (501)(c)(3), which has provided over $1 million in scholarships to talented students attending the 10 HBCUs in North Carolina, enabling them to successfully complete their degrees, and which has sponsored a signature annual statewide conference that empowers our communities across the State to address important public policy issues; and

Whereas, the 2013 NCLBC includes nine Senators and 24 House members representing 31 African Americans and two Native Americans; and

Whereas, it is especially fitting to honor the lives and memories of those African American legislators who were the pioneers in the African American history of the State's General Assembly and on whose shoulders, strengths, and contributions the current members stand; Now, therefore,

Be it resolved by the Senate, the House of Representatives concurring:

SECTION 1. The General Assembly honors all of the African American pioneers serving in the General Assembly since Reconstruction and expresses its appreciation for their efforts to overcome racial segregation and exclusion and other pernicious disparities and for their struggles and work to ensure our country's founding principles of life, liberty, and the pursuit of happiness are attainable for everyone.

SECTION 2. The General Assembly urges citizens of this State to participate in ceremonies and events to commemorate and honor African Americans for their invaluable contributions to our State and nation and to learn more about the significant roles African
Americans have had in the building of our State and country not only during African American History Month but throughout the year.

Resolution 2013-9

A JOINT RESOLUTION SUPPORTING THE GOVERNOR’S PROCLAMATION FOR A WEEK OF PRAYER FOR NORTH CAROLINA.

Whereas, Americans celebrate the National Day of Prayer annually on the first Thursday of May; and
Whereas, the modern law formalizing its observance traces its historical origins to a mandate by George Washington, the first President of the United States; and
Whereas, this is a day when Americans are encouraged to "turn to God in prayer and meditation"; and
Whereas, our State Constitution begins, "We, the people of the State of North Carolina, grateful to Almighty God, the Sovereign Ruler of Nations, for the preservation of the American Union and the existence of our civil, political and religious liberties, and acknowledging our dependence upon Him for the continuance of those blessings to us and our posterity"; and

WHEREAS, many military installations also depend on low altitude aviation training, which could be adversely affected by development; and

WHEREAS, the continued long-term military presence in North Carolina is directly dependent on DOD/DHS’s ability to operate not only its installations but also its training and other readiness functions critical to national defense; and

WHEREAS, it is, therefore, of paramount importance to the future of North Carolina to maintain the best possible relationship with all branches of the U.S. military and to promote practices that maintain North Carolina’s preeminent position as the best location for military bases and training installations; and
WHEREAS, to those ends, it is critical for all North Carolinians, all North Carolina businesses, all sectors of North Carolina's economy, and especially all branches and agencies of North Carolina's state and local governments to be knowledgeable about not only the military's presence and contributions to our state but also of the military's special and unique requirements that are critical to carrying out its national defense mission;

WHEREAS, it is equally critical that activities of state agencies be planned and executed with full awareness of and sensitivity to their actual and potential impacts on the military; and

WHEREAS, the usefulness of such operational awareness is directly dependent on the timely exchange of information between all potentially affected parties at the earliest possible phase of any agency activity; and

WHEREAS, it is important for state agencies and local governments to consider the needs of our military installations, missions, and communities in their economic development activities.

This Executive Order is effective immediately. It supersedes and replaces all other executive orders on this subject. It shall remain in effect until rescinded.

Secretary of State
EXECUTIVE ORDER NO. 125

ESTABLISHING THE GOVERNOR’S TASK FORCE
ON EMPLOYEE MISCLASSIFICATION

WHEREAS, North Carolina’s economy and its workers are adversely affected when businesses hide their activities from government regulatory, taxing, and licensing requirements;

WHEREAS, certain businesses violate insurance, tax, employment, and occupational safety laws by failing to carry mandatory workers compensation insurance, comply with health, safety and licensing requirements, or pay income taxes and payroll taxes that provide funding for unemployment insurance, disability insurance, and other benefits;

WHEREAS, certain businesses also engage in the practice of illegally classifying their employees as independent contractors (a practice referred to as “employee misclassification”) and obtain “ghost policies” (an insurance loophole by which an employer purports to insure an employee in the future who does not currently exist and whose hiring is not contemplated) in order to avoid complying with obligations imposed on employers by North Carolina and federal law;

WHEREAS, employee misclassification: (1) deprives employees of protections afforded to them under the law; (2) confers upon businesses who violate the law an unfair competitive advantage over businesses that comply with the law by unlawfully reducing their operating costs; and (3) prevents the government from collecting significant tax revenues;

WHEREAS, task forces serve as an effective tool for promoting cooperation and the sharing of information between state agencies as well as for identifying effective mechanisms to decrease instances by which persons and entities violate the law;

NOW, THEREFORE, pursuant to the authority vested in me as Governor by the Constitution and laws of the State of North Carolina, IT IS ORDERED:

EXPANDING OPPORTUNITIES FOR AT-RISK FOUR-YEAR-OLDS TO ACHIEVE ACADEMIC SUCCESS THROUGH NORTH CAROLINA’S PRE-KINDERGARTEN PROGRAM

WHEREAS, the North Carolina Pre-Kindergarten Program (hereafter “NC Pre-K”), formerly known as More at Four, is widely acknowledged to be one of the finest and most successful pre-kindergarten programs in America; and

WHEREAS, without the opportunity for appropriate development in the early years, children are in danger of falling behind their peers and remaining at a disadvantage throughout their educational careers; and

WHEREAS, studies have repeatedly shown that at-risk children who participate in NC Pre-K are better prepared to succeed in school and that these benefits are maintained for years thereafter; and

WHEREAS, all other children in the classroom also benefit from the success of at-risk children because teachers have more time to devote to helping all children learn; and

WHEREAS, studies have shown that through early childhood education, states save millions of dollars that would otherwise be spent on early grade retention, special education, remedial programs, drop-out prevention, and a myriad of other costs; and

WHEREAS, the Supreme Court of North Carolina has expressly recognized the constitutional right of all children in North Carolina to have the opportunity to obtain a sound basic education; and

WHEREAS, on August 21, 2012, the North Carolina Court of Appeals issued a decision in the case captioned Hoke County Board of Education, et al v. State of North Carolina, affirming an order from the North Carolina Superior Court mandating “the unrestricted acceptance of all ‘at-risk’ four-year-old prospective enrollees who seek to enroll in existing pre-kindergarten programs in his or her respective county”; and

1921
WHEREAS, there are currently eligible at-risk four-year-olds throughout the State who have applied for NC Pre-K and who have been placed on waiting lists instead of being immediately enrolled; and

WHEREAS, the North Carolina Department of Health and Human Services (hereafter "the Department") has determined that capacity currently exists for the State to (1) enroll by January 1, 2013, into NC Pre-K up to 6,300 additional eligible at-risk four-year-olds; and (2) begin enrollment immediately; and

WHEREAS, North Carolina General Statute § 143C-6-4(b)(2)a. permits an agency, with the approval of the Director of the Budget, to spend more than was authorized in the certified budget for a program if the overexpenditure of the program is required by a court order; and

WHEREAS, the General Fund budget for fiscal year 2012 ended with an unreserved fund balance of approximately $460 million.

NOW, THEREFORE, by the power vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

Section 1. The Department is directed to enroll up to 6,300 eligible at-risk four-year-olds in NC Pre-K beginning immediately as of October 19, 2012, and continuing through January 1, 2013.

Section 2. The Secretary of the Department is directed to (1) identify anticipated unspent funds within the Department’s budget in an amount sufficient to accomplish the enrollment set out in Section 1 above; and (2) transfer said funds to the Division of Child Development and Early Education to support the increased enrollment in NC Pre-K.

Section 3. The Department is directed to pursue all available means to expand the capacity of NC Pre-K throughout the State in order to accomplish, as soon as is practicable, the ultimate goal of enrolling all eligible at-risk four-year-olds who apply for admission to NC Pre-K.

Section 5. The Department shall ensure that the existing high academic standards for NC Pre-K shall remain in effect throughout the State.

Section 6. I call on the General Assembly to appropriate the required funds in the legislative session commencing in January, 2013 to enable the State to fulfill its constitutional duty of enrolling within NC Pre-K all eligible at-risk four-year-olds who apply for admission.

Transporters operating under this exemption shall be allowed travel on the interstate routes 24 hours a day, seven days a week with up to three homes in a convoy. However, these transporters are required to have an escort vehicle per convoy as would be required under normal conditions. Transporters moving mobile homes under this

However, these same transporters shall have in the transport vehicle a copy of the Transport Authorization letter from FEMA and the manufacturer's bill of lading for the mobile home being transported. This exemption will be allowed on all North Carolina interstate highways only.

b. For those transporters that do not qualify for the waiver of a permit outlined in subsection a. of this section, the fees listed in N.C.G.S. § 20-119 for an annual permit and a single trip permit shall be waived for mobile homes being transported under contract with FEMA as part of the disaster relief effort. Movement of mobile homes required to obtain a permit is hereby authorized from sunrise to sunset seven (7) days a week.

TEMPORARILY MODIFYING THE JUDICIAL SELECTION PROCESS
ESTABLISHED IN EXECUTIVE ORDER NO. 86

WHEREAS, the Constitution and the Laws of the State of North Carolina entrust the Governor with the duty of appointing Justices and Judges of the General Court of Justice when vacancies occur; and

WHEREAS, on April 5, 2011, I issued Executive Order No. 86 establishing the Judicial Nominating Commission ("the Commission") to assist me in the appointment of Justices and Judges in North Carolina; and

WHEREAS, the Commission has been very helpful to me in exercising my duty to make judicial appointments, as has been the opportunity to receive public input on the qualities citizens believe are most characteristic of an able judiciary; and

WHEREAS, the members of the Commission have performed a valuable public service through their work on the Commission, and I am grateful to them for their diligent efforts; and

WHEREAS, based on information communicated to me by members of the Commission, it is apparent that time constraints will make it difficult, if not impossible (1) for the Commission to perform in a timely fashion its role of evaluating and nominating candidates to fill judicial vacancies that currently exist or that arise between now and the end of my term as Governor; and (2) for me to then properly perform my duty to fully consider the qualifications of the candidates nominated by the Commission to fill those vacancies; and

WHEREAS, a temporary modification of the judicial selection process established in Executive Order No. 86 will enable me to best perform my constitutional and statutory duty to fully and thoroughly consider the qualifications of candidates before filling judicial vacancies that currently exist or that arise between now and the end of my term as Governor, so that the most qualified candidate for each vacancy can be appointed.

NOW, THEREFORE, pursuant to the authority vested in me as Governor by the Constitution and laws of the State of North Carolina, IT IS ORDERED:
Section 1. With respect to all judicial vacancies that currently exist or that may arise between the present date and the end of my term as Governor, the process contained in Executive Order No. 86 shall be modified as set out herein. For such vacancies, I will exercise my constitutional and statutory authority to fill the vacancies without first receiving nominations from the Commission. However, I plan to consult with individual members of the Commission as I deem appropriate to seek their input regarding the qualifications of specific candidates for appointment.

Section 2. I urge future Governors to continue utilizing the Commission to assist them in filling judicial vacancies for all of the reasons set forth in Executive Order No. 86.

Section 3. This Executive Order is effective immediately and supersedes all other Executive Orders on this subject. It shall remain in effect until the end of my term as Governor.

Conference Report on the Continuation, Capital, and Expansion Budget

6 Exceptional Children Headcount

Adjusts funding budgeted for the Children With Disabilities preschool and school-age allotments to reflect actual student headcount. The continuation budget includes anticipated growth based on the projected headcount of children with disabilities. This adjustment revises budgeted funding for both preschool and school-age children with special needs to reflect the April 1, 2013 headcount and does not reduce funding per student.

B. Elimination of the LEA Adjustment

7 LEA Adjustment Elimination

Eliminates the LEA Adjustment completely. The elimination is accomplished by 1) providing additional General Fund support to lower the recurring amount of the Adjustment, and, 2) reducing specific allotments in approximately the same proportion as school districts have done the last two years in implementing the Adjustment.

8 Classroom Teachers

Adjusts funding to school districts for guaranteed Classroom Teacher positions, modifying this allotment in approximately the same proportion that school districts had done in previous fiscal years to implement the LEA Adjustment. Nearly 70% of all funds foregone by LEAs over the last two years to comply with the Adjustment came from the Classroom Teachers and Career Technical Education Months of Employment allotments. Revised ratios for distributing guaranteed positions from this allotment are as follows:

| FY 2013-14 | 1 teacher per 19 students |

9 Instructional Support Personnel

Adjusts funding to school districts for guaranteed Instructional Support positions, modifying this allotment in approximately the same proportion that school districts had done in previous fiscal years to implement the LEA Adjustment. Nearly 5% of all funds foregone by LEAs over the last two years to comply with the Adjustment came from this allotment. $325.0 million will be available in this allotment in FY 2013-14. $325.1 million will be available in FY 2014-15.
10 Instructional Supplies
Adjusts funding to school districts for Instructional Supplies, modifying this allotment approximately the same proportion that school districts had in previous fiscal years to implement the LEA Flexibility Adjustment. LEAs gave up over $5 million in FY 2012-13 from this allotment to comply with the adjustment. $43.2 million will be available in this allotment in FY 2013-14, $49.3 million will be available in FY 2014-15.

C. Other Public School Funding Adjustments
11 Limited English Proficiency
Reduces the allotment for Limited English Proficiency. Of the $5 million reduction, $3 million is reduced to account for declining enrollment based on revised student headcount figures. $753,000 will be available in this allotment in FY 2013-14; $82.0 million will be available in FY 2014-15.

12 ACT Assessments
Provides a dedicated source of State funding for the administration of the ACT testing suite, which includes the ACT, PLAN, EXPLORE, and WorkKeys diagnostic assessments.

13 School Bus Replacement
Reduces funding for school bus replacement and modifies the school bus replacement standards pursuant to Section 8.11. Currently, school buses are eligible for replacement after 20 years or 200,000 miles of service. This item modifies the mileage and age standards and appropriates sufficient funding to replace all school buses meeting the revised criteria. 509 buses will be replaced in FY 2013-14. 579 buses will be replaced in FY 2014-15. $37.8 million will be available for this purpose in FY 2013-14, $49.6 million will be available in FY 2014-15.

14 Stop Arm Cameras
Provides funding to purchase two school bus stop arm safety cameras for all 115 LEAs in both years of the biennium. The cameras are intended to improve student safety by serving as a visible deterrent to potential stop arm violators and documenting actual violations for use in prosecution.

15 Low Wealth Supplemental Funding
Adjusts the supplemental allotment for school districts in low wealth communities to align funding availability with actual school district eligibility. This adjustment will not reduce funding to eligible districts. In addition, Section 6.3 of this act adjusts the Low Wealth formula to provide the same amount of supplemental funding to school districts in certain low wealth counties as received in the 2012-2013 fiscal year. These local school administrative units have an average daily membership of more than 23,000 students and are in counties that also contain a base of the Armed Forces of the United States. $213.1 million will be available in this allotment in FY 2013-14 and FY 2014-15.
16 Small County Supplemental Funding
Reduces funding for this supplemental allotment for small counties in FY 2013-14 to align funding availability with actual school district eligibility. In FY 2014-15, this allotment is restructured to restrict eligibility to only those counties with ADM of 3,200 or less and to provide per-pupil funding on a sliding scale based on the size of the school district. LEAs made ineligible under this formula will have their allotment phased-out over a five-year period. Section 8.4 provides additional details on this change. $44.8 million will remain in this allotment in FY 2013-14 and $42.4 million will remain in FY 2014-15.

17 Education Value Added Assessment System (EVAAS)
Increases General Fund support for EVAAS to continue expansion initially supported by receipts in FY 2012-13. That expansion enables: 1) direct access to value-added information for teachers who teach classes with an End of Course/End of Grade test, and 2) capability for users to export EVAAS data and merge it with other relevant analyses. Total EVAAS funding will be $2.7 million.

18 EVAAS School Performance Grades
Provides funds for the data collection, analysis and calculation of school performance grades, as described in Section 9.4.

19 Teacher Assistants
Reduces Teacher Assistant funding by 21% in FY 2013-14 and 19% in FY 2014-15 and allocates funding on the basis of student headcount in grades K-3. In FY 2013-14, $460.8 million will remain in this allotment. In FY 2014-15, $447.4 million will remain in this allotment.

20 Education-Based Salary Supplements
Provides out education-based salary supplements in FY 2014-15 for certain education personnel not compensated for such supplements in FY 2013-14, as directed in Section 8.22.

21 Educator Effectiveness and Compensation Task Force
Supports the costs associated with a newly established North Carolina Educator Effectiveness and Compensation Task Force, created in Section 8.31.

22 Advanced Placement/International Baccalaureate
Provides support to encourage Advanced Placement (AP) and International Baccalaureate (IB) participation in all LEAs and defray student fees for AP/IB tests. FY 2013-14 funds support the creation and initial efforts of the North Carolina Advanced Placement Partnership, as prescribed by Section 8.27. FY 2014-15 funds support the Partnership and student test fees.

23 School Safety
Provides $7 million in recurring support for School Resource Officers in elementary and middle schools and $2 million for installing and maintaining panic alarms in public schools. Sections 8.36 and 8.37 describe the rules related to the distribution of this funding.

#### 17 Seat Management Funding Elimination
Eliminates funding for seat management, the outsourcing of management of workstation capabilities for employees, including hardware and software.

#### 18 Adjustment Based on Historical Transfers
Reduces funds based on historical transfers from the Division of Social Services to the Division of Medical Assistance. In FY 2010-11 $9.7 million was transferred from contracts, unused adoption and foster care services funding, and other administrative funds. In FY 2011-12 the division transferred approximately $15.3 million. Of this amount, approximately $4.5 million was from unspent foster care and adoption services funding, $600,000 from lapsed salary, $1 million in contracts, and $4 million from non-recurring revenue from prior year earned revenue, indirect costs and prior year audit adjustments. The remaining funds came from administration, including seat management. Some of the historical transfers are reduced in the seat management and contract and administrative reduction items. Foster Care and Adoption services funding was reduced in the continuation budget.

#### 19 Contract and Administrative Savings
Eliminates funds for the Child Welfare Multiple Response System (MRS) Conference that trained county staff on MRS. The conference is no longer needed as MRS has been implemented statewide. Also, eliminates funds for the forms and supply warehouse that is no longer needed as the warehouse has closed. The remaining reduction is from administration and internet billing costs.

#### 20 Federal Funds for County Child Welfare Services Replacement
Provides funds to partially replace federal funding for child welfare administration due to a change in the application of federal policy. The State supports county DSS agencies at an overall rate of 31% of the non-federal share of their county budgets for public assistance and service programs. This appropriation replaces 33% of the lost federal funding on a nonrecurring basis to support the counties while the North Carolina Families Accessing Services through Technology (NCFAST) information system is being developed and implemented. Once fully implemented, NCFAST is expected to save administrative costs for counties.

### 55 Hospital Provider Assessment

Effective July 1, 2013 the hospital provider assessment plan will be modified so that State’s retention will be 25.9% of the total assessment paid by hospitals instead of a stipulated amount of $4,000,000.

### 56 Hospital Base Rates

Recalibrate the hospital inpatient payment system so that the base rates will be regionally set for all hospitals in that region to eliminate the disparity in rates for the same services between hospitals that exist in the current system. Hospital inpatient services are paid based on a diagnosis related group (DRG) system. There are 746 DRG’s in the Medicaid program that represent classifications of services provided during an inpatient hospitalization. Each of the 746 DRG’s has a weight that represents the relative resources required for services related to that diagnosis, recipient age, sex and the presence of complications or comorbidities. Hospital payment is determined by applying a base rate, unique to each hospital, to the DRG weight. The hospital base rates were developed using each hospital’s costs in 1994. Changes to these base rates have only occurred when the General Assembly has approved an increase or decrease in rates. DHHS will work with hospitals to identify appropriate regional differences and define regional definitions.

### 57 Medicaid Copays

Increases nominal copays for eligible Medicaid services to the maximum allowed by the Centers for Medicare and Medicaid Services (CMS) effective November 1, 2013. Services that are excluded from copays by CMS are medical emergency services, family planning services, “preventive” services for children and pregnancy-related services. All nominal copays will be capped at the maximum allowed by CMS at June 30, 2013.

### 58 Medicaid Contract Reductions

Adjusts contract expenditures in the second year of the biennium to reflect a reduced cost of operation and adjudication of claims related to the new Medicaid Management Information System that will be implemented July 1, 2015.

### Health and Human Services
50 Hospital Outpatient Payments at 70% of Costs
Reduces interim outpatient payments to hospitals to reflect the impact of reducing the settlement to 70% of costs effective January 1, 2014. Hospitals are currently paid for outpatient services at 90% of costs.

50 Cost Savings Through Drug Adjustments
Requires Department to implement payment reforms to achieve savings, with changes to be effective January 1, 2014. Currently, brand drugs are paid at Wholesale Acquisition Cost (WAC) plus 6% and Generic drugs are paid at 150% of the State Medicaid Average Costs (SMAC). WAC mark up will be adjusted 1% and SMAC mark up to 150%. Dispensing fees for brand drugs will be reduced to $2.

61 Shared Savings Plan
Establishes a 3% withhold on selective services effective January 1, 2014. Services subject to the withhold include inpatient hospital, physician (excluding primary care physicians until January 1, 2015), dental, optical services and supplies, podiatry, chiropractors, hearing aids, personal care services, nursing homes, adult care homes and drugs. DHHS will work with providers to develop a shared savings plan that will be implemented by January 1, 2015 that will include incentives to provide effective and efficient care that results in positive outcomes for Medicaid recipients. In FY 2013-14 the State share of the amount withheld will be $14.7 million. This represents a total impact of $41.8 million in provider payments, including both the State and federal shares. In FY 2014-15 the State share of the withhold will be $20.6 million. Providers will be eligible for shared savings that are projected to total $9.3 million and the impact of the shared savings plan on expenditures is projected to be $151.6 million.

62 Rehabilitation Services Limitation
Limits adult rehabilitative services for set up and training to three visits per year, effective January 1, 2014.

63 Physician Office Visits Limitation
Reduces the limit on office visits for adults from 22 visits a year to 10 visits a year effective January 1, 2014. Prior authorization will be required for medically necessary visits in excess of 10 per year. Recipients with chronic conditions will be exempted from this limitation.

64 Medicaid Rate Methodologies Modification for Acquired Providers
Modifies Medicaid rate methodologies to ensure that rates paid to hospital or physician providers that were acquired, merged, leased or managed after December 31, 2011 will not exceed rates that would have been paid if the provider had not been acquired, merged, leased or managed.

#### 55 Rate Freeze for Services Subject to Automatic Increases

Freezes rates for hospital outpatient services and other rates that contain an inflation or increase factor not specifically approved by the General Assembly at the rate in effect June 30, 2013. Interim hospital outpatient services percentage of cost will be adjusted to compensate for expected inflation for which hospitals would be eligible. The cost settlement will be limited to that percentage. Nursing home care services will continue to receive case mix index increases after June 30, 2013. Federally Qualified Health Centers, Rural Health Centers, State Operated services, Hospices, Part B and D Premiums, third party and HMO premiums, drugs, Critical Access Hospitals and MCO capitation payments are excluded.

#### 66 Medicaid Rebase

Provides Medicaid funding for the continuation of the program at the current level, adjusted for changes in enrollment, mix of enrollment, consumption, new service and new policy. Additionally, the release includes the impact of changes in federal match (FMAP), annualization of reductions not fully implemented during FY 2012-13 and the extension of Medicaid to the former foster care children until age 26 beginning January 1, 2014.

#### 67 Provider Cost Settlements

Increases funding for Medicaid cost settlements to provide for the growth in Medicaid recipients and the cost of serving Medicaid recipients for those providers whose payments are cost settled after the provider's fiscal year. Providers that are cost settled include hospitals, skilled nursing facilities, and Intermediate Care for the Mentally Retarded facilities (ICF-MR).

#### 68 Contracts

Provides funding for Medicaid contracts that ensure the appropriate level of medical service is provided, including contracts that provide prior authorization, utilization reviews and assessments of individuals receiving medical care. This increase is due to estimated increases in the Medicaid population being served. Funding is also provided for the asset verification contract which will ensure Medicaid recipients are within the asset limit for eligibility determination purposes.

#### 69 “Woodwork” and Affordable Care Act

Provides funding for expenditures for new Medicaid recipients. Even though North Carolina has decided not to expand Medicaid eligibility under the Affordable Care Act (ACA) effective January 1, 2014, 69,853 new enrollees are expected to join Medicaid in FY 2013-14 and 72,426 are expected to join in FY 2014-15 as a result of provisions contained in the ACA related to penalties for non-coverage and outreach efforts.

**59 Administrative Staff Operations Reduction**
Reduces administrative staff through efficiencies gained by increased partnership with the School of Government for training, greater utilization of existing staff in lieu of contracted consultants, and more efficient distribution of workload. One position is being reduced to half-time (Special Counsel/Legal Assistant, 60091441). The following three positions are being eliminated:

**60 Prisoner Legal Services**
Reduces funding for North Carolina Prisoner Legal Services to reflect the declining number of inmates incarcerated in the state's prison system.

**61 Low-Level Misdemeanor Reclassification**
Redclassifies low-level misdemeanors that rarely result in incarceration as Class 3 misdemeanors or infractions and modifies the sentencing structure for Class 3 misdemeanors so that the first three charges are fineable offenses. With no possibility of incarceration, these offenses do not require legal counsel.

**62 Additional Private Assigned Counsel Funds**
Allocates nonrecurring funds to pay private counsel assigned to represent indigent defendants, reducing a budget shortfall that has accumulated over several years. This budget shortfall creates a hardship for small business legal firms whose payments are delayed when State funding is exhausted before the end of the fiscal year.

Suggestions for Use: Local legislation appears under the name of the particular county or municipality. Legislation that amends or repeals another session law appears under "Laws Amended or Repealed" and under the particular subject. General appropriations appear under "Appropriations". Specific appropriations or earmarks appear under the particular agency, entity, or subject. Committees, Commissions, Councils, and Boards appear as main entries. Numbers are alphabetized as spelled (i.e., 9 is listed alphabetically as "nine"). Session Law numbers (locators) are shown in standard citation format with the word "Section" replaced by the section symbol (§). Thus, "Session Law 145 Section 6A.10 subsection (p)" would appear as "145§6A.10(p)", and "Session Law 145 Section 28.31 through Section 28.31A" would appear as "145§28.31-28.31A". Noncontiguous Session Law sections are separated by a comma. Complete Session Law citations are separated by a semicolon.
