PREAMBLE

We, the people of the State of North Carolina, grateful to Almighty God, the Sovereign Ruler of Nations, for the preservation of the American Union and the existence of our civil, political and religious liberties, and acknowledging our dependence upon Him for the continuance of those blessings to us and our posterity, do, for the more certain security thereof and for the better government of this State, ordain and establish this Constitution.

ARTICLE I
DECLARATION OF RIGHTS

That the great, general, and essential principles of liberty and free government may be recognized and established, and that the relations of this State to the Union and government of the United States and those of the people of this State to the rest of the American people may be defined and affirmed, we do declare that:

Section 1. The equality and rights of persons.
We hold it to be self-evident that all persons are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, the enjoyment of the fruits of their own labor, and the pursuit of happiness.

Sec. 2. Sovereignty of the people.
All political power is vested in and derived from the people; all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.

Sec. 3. Internal government of the State.
The people of this State have the inherent, sole, and exclusive right of regulating the internal government and police thereof, and of altering or abolishing their Constitution and form of government whenever it may be necessary to their safety and happiness; but every such right shall be exercised in pursuance of law and consistently with the Constitution of the United States.

Sec. 4. Secession prohibited.
This State shall ever remain a member of the American Union; the people thereof are part of the American nation; there is no right on the part of this State to secede; and all attempts, from whatever source or upon whatever pretext, to dissolve this Union or to sever this Nation, shall be resisted with the whole power of the State.

Sec. 5. Allegiance to the United States.
Every citizen of this State owes paramount allegiance to the Constitution and government of the United States, and no law or ordinance of the State in contravention or subversion thereof can have any binding force.

Sec. 6. Separation of powers.
The legislative, executive, and supreme judicial powers of the State government shall be forever separate and distinct from each other.

Sec. 7. Suspending laws.
All power of suspending laws or the execution of laws by any authority, without the consent of the representatives of the people, is injurious to their rights and shall not be exercised.
Sec. 8. Representation and taxation.
   The people of this State shall not be taxed or made subject to the payment of any impost or
duty without the consent of themselves or their representatives in the General Assembly, freely
given.

Sec. 9. Frequent elections.
   For redress of grievances and for amending and strengthening the laws, elections shall be
often held.

Sec. 10. Free elections.
   All elections shall be free.

Sec. 11. Property qualifications.
   As political rights and privileges are not dependent upon or modified by property, no
property qualification shall affect the right to vote or hold office.

Sec. 12. Right of assembly and petition.
   The people have a right to assemble together to consult for their common good, to instruct
their representatives, and to apply to the General Assembly for redress of grievances; but secret
political societies are dangerous to the liberties of a free people and shall not be tolerated.

Sec. 13. Religious liberty.
   All persons have a natural and inalienable right to worship Almighty God according to the
dictates of their own consciences, and no human authority shall, in any case whatever, control
or interfere with the rights of conscience.

   Freedom of speech and of the press are two of the great bulwarks of liberty and therefore
shall never be restrained, but every person shall be held responsible for their abuse.

Sec. 15. Education.
   The people have a right to the privilege of education, and it is the duty of the State to guard
and maintain that right.

Sec. 16. Ex post facto laws.
   Retrospective laws, punishing acts committed before the existence of such laws and by
them only declared criminal, are oppressive, unjust, and incompatible with liberty, and
therefore no ex post facto law shall be enacted. No law taxing retrospectively sales, purchases,
or other acts previously done shall be enacted.

Sec. 17. Slavery and involuntary servitude.
   Slavery is forever prohibited. Involuntary servitude, except as a punishment for crime
whereof the parties have been adjudged guilty, is forever prohibited.

Sec. 18. Court shall be open.
   All courts shall be open; every person for an injury done him in his lands, goods, person, or
reputation shall have remedy by due course of law; and right and justice shall be administered
without favor, denial, or delay.

Sec. 19. Law of the land; equal protection of the laws.
   No person shall be taken, imprisoned, or disseized of his freehold, liberties, or privileges, or
outlawed, or exiled, or in any manner deprived of his life, liberty, or property, but by the law of
the land. No person shall be denied the equal protection of the laws; nor shall any person be subjected to discrimination by the State because of race, color, religion, or national origin.

Sec. 20. General warrants.
General warrants, whereby any officer or other person may be commanded to search suspected places without evidence of the act committed, or to seize any person or persons not named, whose offense is not particularly described and supported by evidence, are dangerous to liberty and shall not be granted.

Sec. 21. Inquiry into restraints on liberty.
Every person restrained of his liberty is entitled to a remedy to inquire into the lawfulness thereof, and to remove the restraint if unlawful, and that remedy shall not be denied or delayed. The privilege of the writ of habeas corpus shall not be suspended.

Sec. 22. Modes of prosecution.
Except in misdemeanor cases initiated in the District Court Division, no person shall be put to answer any criminal charge but by indictment, presentment, or impeachment. But any person, when represented by counsel, may, under such regulations as the General Assembly shall prescribe, waive indictment in noncapital cases.

Sec. 23. Rights of accused.
In all criminal prosecutions, every person charged with crime has the right to be informed of the accusation and to confront the accusers and witnesses with other testimony, and to have counsel for defense, and not be compelled to give self-incriminating evidence, or to pay costs, jail fees, or necessary witness fees of the defense, unless found guilty.

Sec. 24. Right of jury trial in criminal cases.
No person shall be convicted of any crime but by the unanimous verdict of a jury in open court. The General Assembly may, however, provide for other means of trial for misdemeanors, with the right of appeal for trial de novo.

Sec. 25. Right of jury trial in civil cases.
In all controversies at law respecting property, the ancient mode of trial by jury is one of the best securities of the rights of the people, and shall remain sacred and inviolable.

No person shall be excluded from jury service on account of sex, race, color, religion, or national origin.

Sec. 27. Bail, fines, and punishments.
Excessive bail shall not be required, nor excessive fines imposed, nor cruel or unusual punishments inflicted.

Sec. 28. Imprisonment for debt.
There shall be no imprisonment for debt in this State, except in cases of fraud.

Sec. 29. Treason against the State.
Treason against the State shall consist only of levying war against it or adhering to its enemies by giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court. No conviction of treason or attainder shall work corruption of blood or forfeiture.
Sec. 30. Militia and the right to bear arms.
A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed; and, as standing armies in time of peace are dangerous to liberty, they shall not be maintained, and the military shall be kept under strict subordination to, and governed by, the civil power. Nothing herein shall justify the practice of carrying concealed weapons, or prevent the General Assembly from enacting penal statutes against that practice.

Sec. 31. Quartering of soldiers.
No soldier shall in time of peace be quartered in any house without the consent of the owner, nor in time of war but in a manner prescribed by law.

Sec. 32. Exclusive emoluments.
No person or set of persons is entitled to exclusive or separate emoluments or privileges from the community but in consideration of public services.

Sec. 33. Hereditary emoluments and honors.
No hereditary emoluments, privileges, or honors shall be granted or conferred in this State.

Sec. 34. Perpetuities and monopolies.
Perpetuities and monopolies are contrary to the genius of a free state and shall not be allowed.

Sec. 35. Recurrence to fundamental principles.
A frequent recurrence to fundamental principles is absolutely necessary to preserve the blessings of liberty.

Sec. 36. Other rights of the people.
The enumeration of rights in this Article shall not be construed to impair or deny others retained by the people.

Sec. 37. Rights of victims of crime.
(1) Basic rights. Victims of crime, as prescribed by law, shall be entitled to the following basic rights:
(a) The right as prescribed by law to be informed of and to be present at court proceedings of the accused.
(b) The right to be heard at sentencing of the accused in a manner prescribed by law, and at other times as prescribed by law or deemed appropriate by the court.
(c) The right as prescribed by law to receive restitution.
(d) The right as prescribed by law to give information about the crime, how the criminal justice system works, the rights of victims, and the availability of services for victims.
(e) The right as prescribed by law to receive information about the conviction or final disposition and sentence of the accused.
(f) The right as prescribed by law to receive notification of escape, release, proposed parole or pardon of the accused, or notice of a reprieve or commutation of the accused's sentence.
(g) The right as prescribed by law to present their views and concerns to the Governor or agency considering any action that could result in the release of the accused, prior to such action becoming effective.
(h) The right as prescribed by law to confer with the prosecution.
(2) No money damages; other enforcement. Nothing in this section shall be construed as creating a claim for money damages against the State, a county, a municipality, or any of the agencies, instrumentalities, or employees thereof. The General Assembly may provide for other remedies to ensure adequate enforcement of this section.

(3) No ground for relief in criminal case. The failure or inability of any person to provide a right or service provided under this section may not be used by a defendant in a criminal case, an inmate, or any other accused as a ground for relief in any trial, appeal, postconviction litigation, habeas corpus, civil action, or any similar criminal or civil proceeding.

ARTICLE II
LEGISLATIVE

Section 1. Legislative power.

The legislative power of the State shall be vested in the General Assembly, which shall consist of a Senate and a House of Representatives.

Sec. 2. Number of Senators.

Sec. 22. Action on bills.
(1) Bills subject to veto by Governor; override of veto. Except as provided by subsections (2) through (6) of this section, all bills shall be read three times in each house and shall be signed by the presiding officer of each house before being presented to the Governor. If the Governor approves, the Governor shall sign it and it shall become a law; but if not, the Governor shall return it with objections, together with a veto message stating the reasons for such objections, to that house in which it shall have originated, which shall enter the objections and veto message at large on its journal, and proceed to reconsider it. If after such reconsideration three-fifths of the members of that house present and voting shall agree to pass the bill, it shall be sent, together with the objections and veto message, to the other house, by which it shall likewise be reconsidered; and if approved by three-fifths of the members of that house present and voting, it shall become a law notwithstanding the objections of the Governor. In all such cases the votes of both houses shall be determined by yeas and nays, and the names of the members voting shall be entered on the journal of each house respectively.
(2) Amendments to Constitution of North Carolina. Every bill proposing a new or revised Constitution or an amendment or amendments to this Constitution or calling a convention of the people of this State, and containing no other matter, shall be submitted to the qualified voters of this State after it shall have been read three times in each house and signed by the presiding officers of both houses.

(3) Amendments to Constitution of the United States. Every bill approving an amendment to the Constitution of the United States, or applying for a convention to propose amendments to the Constitution of the United States, and containing no other matter, shall be read three times in each house before it becomes law, and shall be signed by the presiding officers of both houses.

(4) Joint resolutions. Every joint resolution shall be read three times in each house before it becomes effective and shall be signed by the presiding officers of both houses.

(5) Other exceptions. Every bill:

(a) In which the General Assembly makes an appointment or appointments to public office and which contains no other matter;

(b) Revising the senate districts and the apportionment of Senators among those districts and containing no other matter;

(c) Revising the representative districts and the apportionment of Representatives among those districts and containing no other matter; or

(d) Revising the districts for the election of members of the House of Representatives of the Congress of the United States and the apportionment of Representatives among those districts and containing no other matter,

shall be read three times in each house before it becomes law and shall be signed by the presiding officers of both houses.

(6) Local bills. Every bill that applies in fewer than 15 counties shall be read three times in each house before it becomes law and shall be signed by the presiding officers of both houses. The exemption from veto by the Governor provided in this subsection does not apply if the bill, at the time it is signed by the presiding officers:

(a) Would extend the application of a law signed by the presiding officers during that two year term of the General Assembly so that the law would apply in more than half the counties in the State, or

(b) Would enact a law identical in effect to another law or laws signed by the presiding officers during that two year term of the General Assembly that the result of those laws taken together would be a law applying in more than half the counties in the State.

(a) For more than 30 days jointly as provided under Section 20 of Article II of this Constitution; or

(b) Sine die

in which case it shall become a law unless, within 30 days after such adjournment, it is returned by the Governor with objections and veto message to that house in which it shall have originated. When the General Assembly has adjourned sine die or for more than 30 days jointly as provided under Section 20 of Article II of this Constitution, the Governor shall reconvene that session as provided by Section 5(11) of Article III of this Constitution for reconsideration of the bill, and if the Governor does not reconvene the session, the bill shall become law on the fortieth day after such adjournment. Notwithstanding the previous sentence, if the Governor prior to reconvening the session receives written requests dated no earlier than 30 days after
such adjournment, signed by a majority of the members of each house that a reconvened session to reconsider vetoed legislation is unnecessary, the Governor shall not reconvene the session for that purpose and any legislation vetoed in accordance with this section after adjournment shall not become law.

(8) Return of bills after adjournment. For purposes of return of bills not approved by the Governor, each house shall designate an officer to receive returned bills during its adjournment.

Sec. 23. Revenue bills.

No law shall be enacted to raise money on the credit of the State, or to pledge the faith of the State directly or indirectly for the payment of any debt, or to impose any tax upon the people of the State, or to allow the counties, cities, or towns to do so, unless the bill for the purpose shall have been read three several times in each house of the General Assembly and passed three several readings, which readings shall have been on three different days, and shall have been agreed to by each house respectively, and unless the yeas and nays on the second and third readings of the bill shall have been entered on the journal.

Sec. 24. Limitations on local, private, and special legislation.

(1) Prohibited subjects. The General Assembly shall not enact any local, private, or special act or resolution:

(j) Regulating labor, trade, mining, or manufacturing;
(k) Extending the time for the levy or collection of taxes or otherwise relieving any collector of taxes from the due performance of his official duties or his sureties from liability;
(l) Giving effect to informal wills and deeds;
(m) Granting a divorce or securing alimony in any individual case;
(n) Altering the name of any person, or legitimating any person not born in lawful wedlock, or restoring to the rights of citizenship any person convicted of a felony.

(2) Repeals. Nor shall the General Assembly enact any such local, private, or special act by the partial repeal of a general law; but the General Assembly may at any time repeal local, private, or special laws enacted by it.

(3) Prohibited acts void. Any local, private, or special act or resolution enacted in violation of the provisions of this Section shall be void.

(4) General laws. The General Assembly may enact general laws regulating the matters set out in this Section.

Sec. 2. Governor and Lieutenant Governor: election, term, and qualifications.
(1) Election and term. The Governor and Lieutenant Governor shall be elected by the qualified voters of the State in 1972 and every four years thereafter, at the same time and places as members of the General Assembly are elected. Their term of office shall be four years and shall commence on the first day of January next after their election and continue until their successors are elected and qualified.
(2) Qualifications. No person shall be eligible for election to the office of Governor or Lieutenant Governor unless, at the time of his election, he shall have attained the age of 30 years and shall have been a citizen of the United States for five years and a resident of this State for two years immediately preceding his election. Sec. 3. Succession to office of Governor.
(1) Succession as Governor. The Lieutenant Governor-elect shall become Governor upon the failure of the Governor-elect to qualify. The Lieutenant Governor shall become Governor upon the death, resignation, or removal from office of the Governor. The further order of succession to the office of Governor shall be prescribed by law. A successor shall serve for the remainder of the term of the Governor whom he succeeds and until a new Governor is elected and qualified.
(2) Succession as Acting Governor. During the absence of the Governor from the State, or during the physical or mental incapacity of the Governor to perform the duties of his office, the Lieutenant Governor shall be Acting Governor. The further order of succession as Acting Governor shall be prescribed by law.
(3) Physical incapacity. The Governor may, by a written statement filed with the Attorney General, declare that he is physically incapable of performing the duties of his office, and may thereafter in the same manner declare that he is physically capable of performing the duties of his office.
(4) Mental incapacity. The mental incapacity of the Governor to perform the duties of his office shall be determined only by joint resolution adopted by a vote of two-thirds of all the members of each house of the General Assembly. Thereafter, the mental capacity of the Governor to perform the duties of his office shall be determined only by joint resolution adopted by a vote of a majority of all the members of each house of the General Assembly. In all cases, the General Assembly shall give the Governor such notice as it may deem proper and shall allow him an opportunity to be heard before a joint session of the General Assembly before it takes final action. When the General Assembly is not in session, the Council of State, a majority of its members concurring, may convene it in extra session for the purpose of proceeding under this paragraph.
(5) Impeachment. Removal of the Governor from office for any other cause shall be by impeachment.

Sec. 4. Oath of office for Governor.

The total expenditures of the State for the fiscal period covered by the budget shall not exceed the total of receipts during that fiscal period and the surplus remaining in the State Treasury at the beginning of the period. To insure that the State does not incur a deficit for any fiscal period, the Governor shall continually survey the collection of the revenue and shall effect the necessary economies in State expenditures, after first making adequate provision for the prompt payment of the principal of and interest on bonds and notes of the State according to their terms, whenever he determines that receipts during the fiscal period, when added to any surplus remaining in the State Treasury at the beginning of the period, will not be sufficient to meet budgeted expenditures. This section shall not be construed to impair the power of the State to issue its bonds and notes within the limitations imposed in Article V of this Constitution, nor to impair the obligation of bonds and notes of the State now outstanding or issued hereafter.

(4) Execution of laws. The Governor shall take care that the laws be faithfully executed.
(5) Commander in Chief. The Governor shall be Commander in Chief of the military forces of the State except when they shall be called into the service of the United States.

The terms reprieves, commutations, and pardons shall not include paroles.
(7) Extra sessions. The Governor may, on extraordinary occasions, by and with the advice of the Council of State, convene the General Assembly in extra session by his proclamation, stating therein the purpose or purposes for which they are thus convened.
(8) Appointments. The Governor shall nominate and by and with the advice and consent of a majority of the Senators appoint all officers whose appointments are not otherwise provided for.
(9) Information. The Governor may at any time require information in writing from the head of any administrative department or agency upon any subject relating to the duties of his office.
(10) Administrative reorganization. The General Assembly shall prescribe the functions, powers, and duties of the administrative departments and agencies of the State and may alter them from time to time, but the Governor may make such changes in the allocation of offices and agencies and in the allocation of those functions, powers, and duties as he considers necessary for efficient administration. If those changes affect existing law, they shall be set forth in executive orders, which shall be submitted to the General Assembly not later than the sixtieth calendar day of its session, and shall become effective and shall have the force of law upon adjournment sine die of the session, unless specifically disapproved by resolution of either house of the General Assembly or specifically modified by joint resolution of both houses of the General Assembly.
(11) Reconvened sessions. The Governor shall, when required by Section 22 of Article II of this Constitution, reconvene a session of the General Assembly. At such reconvened session, the General Assembly may only consider such bills as were returned by the Governor to that reconvened session for reconsideration. Such reconvened session shall begin on a date set by the Governor, but no later than 40 days after the General Assembly adjourned.
(a) For more than 30 days jointly as provided under Section 20 of Article II of this Constitution; or

(2) Duties. Their respective duties shall be prescribed by law.

(3) Vacancies. If the office of any of these officers is vacated by death, resignation, or otherwise, it shall be the duty of the Governor to appoint another to serve until his successor is elected and qualified. Every such vacancy shall be filled by election at the first election for members of the General Assembly that occurs more than 60 days after the vacancy has taken place, and the person chosen shall hold the office for the remainder of the unexpired term fixed in this Section. When a vacancy occurs in the office of any of the officers named in this Section and the term expires on the first day of January succeeding the next election for members of the General Assembly, the Governor shall appoint to fill the vacancy for the unexpired term of the office.

(4) Interim officers. Upon the occurrence of a vacancy in the office of any one of these officers for any of the causes stated in the preceding paragraph, the Governor may appoint an interim officer to perform the duties of that office until a person is appointed or elected pursuant to this Section to fill the vacancy and is qualified.

   Governor.

   Not later than July 1, 1975, all administrative departments, agencies, and offices of the
   State and their respective functions, powers, and duties shall be allocated by law among and
   within not more than 25 principal administrative departments so as to group them as far as
   practicable according to major purposes. Regulatory, quasi-judicial, and temporary agencies
   may, but need not, be allocated within a principal department.

ARTICLE IV
JUDICIAL

Section 1. Judicial power.
   The judicial power of the State shall, except as provided in Section 3 of this Article, be
   vested in a Court for the Trial of Impeachments and in a General Court of Justice. The General
   Assembly shall have no power to deprive the judicial department of any power or jurisdiction
   that rightfully pertains to it as a co-ordinate department of the government, nor shall it establish
   or authorize any courts other than as permitted by this Article.

Sec. 2. General Court of Justice.
   The General Court of Justice shall constitute a unified judicial system for purposes of
   jurisdiction, operation, and administration, and shall consist of an Appellate Division, a
   Superior Court Division, and a District Court Division.

Sec. 3. Judicial powers of administrative agencies.
   The General Assembly may vest in administrative agencies established pursuant to law
   such judicial powers as may be reasonably necessary as an incident to the accomplishment of
   the purposes for which the agencies were created. Appeals from administrative agencies shall
   be to the General Court of Justice.

Sec. 4. Court for the Trial of Impeachments.
   The House of Representatives solely shall have the power of impeaching. The Court for the
   Trial of Impeachments shall be the Senate. When the Governor or Lieutenant Governor is
   impeached, the Chief Justice shall preside over the Court. A majority of the members shall be
   necessary to a quorum, and no person shall be convicted without the concurrence of two-thirds
   of the Senators present. Judgment upon conviction shall not extend beyond removal from and
   disqualification to hold office in this State, but the party shall be liable to indictment and
   punishment according to law.

Sec. 5. Appellate division.
   The Appellate Division of the General Court of Justice shall consist of the Supreme Court
   and the Court of Appeals.
Sec. 6. Supreme Court.
   (1) Membership. The Supreme Court shall consist of a Chief Justice and six Associate Justices, but the General Assembly may increase the number of Associate Justices to not more than eight. In the event the Chief Justice is unable, on account of absence or temporary incapacity, to perform any of the duties placed upon him, the senior Associate Justice available may discharge those duties.
   (2) Sessions of the Supreme Court. The sessions of the Supreme Court shall be held in the City of Raleigh unless otherwise provided by the General Assembly.

Sec. 7. Court of Appeals.
The structure, organization, and composition of the Court of Appeals shall be determined by the General Assembly. Sessions of the Court shall be held at such times and places as the General Assembly may prescribe.

Sec. 8. Retirement of Justices and Judges.
The General Assembly shall provide by general law for the retirement of Justices and Judges of the General Court of Justice, and may provide for the temporary recall of any retired Justice or Judge to serve on the court or courts of the division from which he was retired. The General Assembly shall also prescribe maximum age limits for service as a Justice or Judge.

Sec. 9. Superior Courts.
   (1) Superior Court districts. The General Assembly shall, from time to time, divide the State into a convenient number of Superior Court judicial districts and shall provide for the election of one or more Superior Court Judges for each district. Each regular Superior Court Judge shall reside in the district for which he is elected. The General Assembly may provide by general law for the selection or appointment of special or emergency Superior Court Judges not selected for a particular judicial district.
   (2) Open at all times; sessions for trial of cases. The Superior Courts shall be open at all times for the transaction of all business except the trial of issues of fact requiring a jury. Regular trial sessions of the Superior Court shall be held at times fixed pursuant to a calendar of courts promulgated by the Supreme Court. At least two sessions for the trial of jury cases shall be held annually in each county.
   (3) Clerks. A Clerk of the Superior Court for each county shall be elected for a term of four years by the qualified voters thereof, at the same time and places as members of the General Assembly are elected. If the office of Clerk of the Superior Court becomes vacant otherwise than by the expiration of the term, or if the people fail to elect, the senior regular resident Judge of the Superior Court serving the county shall appoint to fill the vacancy until an election can be regularly held.

Sec. 10. District Courts.

District Judges shall be elected for each district for a term of four years, in a manner prescribed by law. When more than one District Judge is authorized and elected for a district, the Chief Justice of the Supreme Court shall designate one of the judges as Chief District Judge. Every District Judge shall reside in the district for which he is elected. For each county, the senior regular resident Judge of the Superior Court serving the county shall appoint from nominations submitted by the Clerk of the Superior Court of the county, one or more Magistrates who shall be officers of the District Court. The initial term of appointment for a magistrate shall be for two years and subsequent terms shall be for four years. The number of District Judges and Magistrates shall, from time to time, be determined by the General Assembly. Vacancies in the office of District Judge shall be
filled for the unexpired term in a manner prescribed by law. Vacancies in the office of Magistrate shall be filled for the unexpired term in the manner provided for original appointment to the office, unless otherwise provided by the General Assembly.

Sec. 11. Assignment of Judges.

The Chief Justice of the Supreme Court, acting in accordance with rules of the Supreme Court, shall make assignments of Judges of the Superior Court and may transfer District Judges from one district to another for temporary or specialized duty. The principle of rotating Superior Court Judges among the various districts of a division is a salutary one and shall be observed. For this purpose the General Assembly may divide the State into a number of judicial divisions. Subject to the general supervision of the Chief Justice of the Supreme Court, assignment of District Judges within each local court district shall be made by the Chief District Judge.

Sec. 12. Jurisdiction of the General Court of Justice.

The jurisdiction of the Supreme Court over “issues of fact” and “questions of fact” shall be the same exercised by it prior to the adoption of this Article, and the Court may issue any remedial writs necessary to give it general supervision and control over the proceedings of the other courts. The Supreme Court also has jurisdiction to review, when authorized by law, direct appeals from a final order or decision of the North Carolina Utilities Commission.

(2) Court of Appeals. The Court of Appeals shall have such appellate jurisdiction as the General Assembly may prescribe.

(4) District Courts; Magistrates. The General Assembly shall, by general law uniformly applicable in every local court district of the State, prescribe the jurisdiction and powers of the District Courts and Magistrates.

(5) Waiver. The General Assembly may by general law provide that the jurisdictional limits may be waived in civil cases.

(6) Appeals. The General Assembly shall by general law provide a proper system of appeals. Appeals from Magistrates shall be heard de novo, with the right of trial by jury as defined in this Constitution and the laws of this State.

Sec. 13. Forms of action; rules of procedure.

(1) Forms of action. There shall be in this State but one form of action for the enforcement or protection of private rights or the redress of private wrongs, which shall be denominated a civil action, and in which there shall be a right to have issues of fact tried before a jury. Every action prosecuted by the people of the State as a party against a person charged with a public offense, for the punishment thereof, shall be termed a criminal action.

(2) Rules of procedure. The Supreme Court shall have exclusive authority to make rules of procedure and practice for the Appellate Division. The General Assembly may make rules of procedure and practice for the Superior Court and District Court Divisions, and the General Assembly may delegate this authority to the Supreme Court. No rule of procedure or practice shall abridge substantive rights or abrogate or limit the right of trial by jury. If the General Assembly should delegate to the Supreme Court the rule-making power, the General Assembly may, nevertheless, alter, amend, or repeal any rule of procedure or practice adopted by the Supreme Court for the Superior Court or District Court Divisions.

xxv
Sec. 14. Waiver of jury trial.
In all issues of fact joined in any court, the parties in any civil case may waive the right to have the issues determined by a jury, in which case the finding of the judge upon the facts shall have the force and effect of a verdict by a jury.

Sec. 15. Administration.
The General Assembly shall provide for an administrative office of the courts to carry out the provisions of this Article.

Sec. 16. Terms of office and election of Justices of the Supreme Court, Judges of the Court of Appeals, and Judges of the Superior Court.

which the sinking fund has been created, except that these funds may be invested as authorized by law.

Such bonds shall be payable from the revenues, gross or net, of any such projects and any other health care facilities of any such governmental entity or nonprofit private corporation pledged therefor; shall not be secured by a pledge of the full faith and credit, or deemed to create an indebtedness requiring voter approval of any governmental entity; and may be secured by an agreement which may provide for the conveyance of title of, with or without consideration, any such project or facilities to the governmental entity or nonprofit private corporation. The power of eminent domain shall not be used pursuant hereto for nonprofit private corporations.

Sec. 9. Capital projects for industry.

Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to authorize counties to create authorities to issue revenue bonds to finance, but not to refinance, the cost of capital projects consisting of industrial, manufacturing and pollution control facilities for industry and pollution control facilities for public utilities, and to refund such bonds.

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. For the purpose of financing its share of the cost of any such jointly owned electric generation or transmission facilities, a unit of municipal government may issue its revenue bonds in the manner prescribed by the General Assembly, payable as to both principal and interest solely from and secured by a lien and charge on all or any part of the revenue derived, or to be derived, by such unit of municipal government from the ownership and operation of its electric facilities; provided, however, that no unit of municipal government shall be liable, either jointly or severally, for any acts, omissions or obligations of any co-owner, nor shall any money or property of any unit of municipal government be credited or otherwise applied to the account of any co-owner or be charged with any debt, lien or mortgage as a result of any debt or obligation of any co-owner.

Sec. 11. Capital projects for agriculture.

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. Sec. 12. Higher education facilities.

Notwithstanding any other provisions of this Constitution, the General Assembly may enact general laws to authorize the State or any State entity to issue revenue bonds to finance and refinance the cost of acquiring, constructing, and financing higher education facilities to be operated to serve and benefit the public for any nonprofit private corporation, regardless of any church or religious relationship provided no cost incurred earlier than five years prior to the effective date of this section shall be refinanced. Such bonds shall be payable from any revenues or assets of any such nonprofit private corporation pledged therefor, shall not be secured by a pledge of the full faith and credit of the State or such State entity or deemed to create an indebtedness requiring voter approval of the State or such entity, and, where the title to such facilities is vested in the State or any State entity, may be secured by an agreement which may provide for the conveyance of title to, with or without consideration, such facilities to the nonprofit private corporation. The power of eminent domain shall not be used pursuant hereto.

Sec. 13. Seaport and airport facilities.

(1) Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to grant to the State, counties, municipalities, and other State and local
governmental entities all powers useful in connection with the development of new and existing seaports and airports, and to authorize such public bodies:

(a) to acquire, construct, own, own jointly with public and private parties, lease as lessee, mortgage, sell, lease as lessor, or otherwise dispose of lands and facilities and improvements, including undivided interest therein;

(c) to secure any such financing or refinancing by all or any portion of their revenues, income or assets or other available monies associated with any of their seaport or airport facilities and with the facilities and improvements to be financed or refinanced, and by foreclosable liens on all or any part of their properties associated with any of their seaport or airport facilities and with the facilities and improvements to be financed or refinanced, but in no event to create a debt secured by a pledge of the faith and credit of the State or any other public body in the State.

Sec. 14. Project development financing.

Notwithstanding Section 4 of this Article, the General Assembly may enact general laws authorizing any county, city, or town to define territorial areas in the county, city, or town and borrow money to be used to finance public improvements associated with private development projects within the territorial areas, as provided in this section. The General Assembly shall set forth by statute the method for determining the size of the territorial area and the issuing unit. This method is conclusive. When a territorial area is defined pursuant to this section, the county shall determine the current assessed value of taxable real and personal property in the territorial area. Thereafter, property in the territorial area continues to be subject to taxation to the same extent and in like manner as property not in the territorial area, but the net proceeds of taxes levied on the excess, if any, of the assessed value of taxable real and personal property in the territorial area at the time the taxes are levied over the assessed value of taxable real and personal property in the territorial area at the time the territorial area was defined may be set aside. The instruments of indebtedness authorized by this section shall be secured by these set-aside proceeds. The General Assembly may authorize a county, city, or town issuing these instruments of indebtedness to pledge, as additional security, revenues available to the issuing unit from sources other than the issuing unit's exercise of its taxing power. As long as no revenues are pledged other than the set-aside proceeds authorized by this section and the revenues authorized in the preceding sentence, these instruments of indebtedness may be issued without approval by referendum. The county, city, or town may not pledge as security for these instruments of indebtedness any property tax revenues other than the set-aside proceeds authorized in this section, or in any other manner pledge its full faith and credit as security for these instruments of indebtedness unless a vote of the people is held as required by and in compliance with the requirements of Section 4 of this Article.

Notwithstanding the provisions of Section 2 of this Article, the General Assembly may enact general laws authorizing a county, city, or town that has defined a territorial area pursuant to this section to assess property within the territorial area at a minimum value if agreed to by the owner of the property, which agreed minimum value shall be binding on the current owner and any future owners as long as the defined territorial area is in effect.

Therefore, no person who holds any office or place of trust or profit under the United States or any department thereof, or under any other state or government, shall be eligible to hold any office in this State that is filled by election by the people. No person shall hold concurrently any two offices in this State that are filled by election of the people. No person shall hold concurrently any two or more appointive offices or places of trust or profit, or any combination of elective and appointive offices or places of trust or profit, except as the General Assembly shall provide by general law.

SESSION LAWS
OF THE
STATE OF NORTH CAROLINA

REGULAR SESSION 2014

Session Law 2014-1  S.B. 294

AN ACT TO ALLOW ENTITIES REGULATED UNDER PHASE II OF THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PROGRAM TO UTILIZE THE DEPARTMENT OF TRANSPORTATION'S BEST MANAGEMENT PRACTICES TOOLBOX FOR LINEAR TRANSPORTATION PROJECTS.

The General Assembly of North Carolina enacts:

SECTION 1. Section 9 of S.L. 2006-246, as amended by S.L. 2008-198, reads as rewritten:

"SECTION 9. Post-Construction Practices. –
(a) For post-construction requirements, a program will be deemed compliant for the areas where it is implementing any of the following programs:
(b) In order to fulfill the post-construction minimum measure program requirement, a permittee, delegated program, or regulated entity may use the Department's model ordinance, design its own post-construction practices based on the Department's guidance on scientific and engineering standards for best management practices (BMPs), incorporate the post-construction model practices described in this act, or develop its own comprehensive watershed plan that is determined by the Department to meet the post-construction stormwater management measure required by 40 Code of Federal Regulations § 122.34(b)(5) (1 July 2003 Edition).
(b1) In order to fulfill the post-construction minimum measure requirement for linear transportation projects, including private transportation projects constructed to North Carolina Department of Transportation standards that will be conveyed to the State upon completion, a permittee, delegated program, or regulated entity may use the Stormwater Best Management Practices Toolbox developed by the North Carolina Department of Transportation.
(c) Permittees, delegated programs, and regulated entities must require stormwater controls for a project that disturbs one acre or more of land, including a project that disturbs
less than one acre of land that is part of a larger common plan of development or sale. The stormwater controls shall be appropriate to the project's level of density as follows:

(1) Post-construction model practices for low-density projects. – A project that is located within one-half mile of and draining to Shellfish Resource Waters is a low-density project if it contains no more than twelve percent (12%) built-upon area. A project that is not located within one-half mile of Shellfish Resource Waters is a low-density project if it contains no more than twenty-four percent (24%) built-upon area or no more than two dwelling units per acre. Low-density projects must use vegetated conveyances to the maximum extent practicable to transport stormwater runoff from the project. On-site stormwater treatment devices such as infiltration areas, bioretention areas, and level spreaders may also be used as added controls for stormwater runoff. A project with an overall density at or below the low-density thresholds, but containing areas with a density greater than the overall project density, may be considered low density as long as the project meets or exceeds the post-construction model practices for low-density projects and locates the higher density in upland areas and away from surface waters and drainageways to the maximum extent practicable.

(2) Post-construction model practices for high-density projects. – A project that is located within one-half mile of and draining to Shellfish Resource Waters is a high-density project if it contains more than twelve percent (12%) built-upon area. A project that is not located within one-half mile of Shellfish Resource Waters is a high-density project if it contains more than twenty-four percent (24%) built-upon area or more than two dwelling units per acre. High-density projects must use structural stormwater management systems that will control and treat runoff from the first one inch of rain unless the project is in a county that is subject to the Coastal Area Management Act of 1974, in which case the project must use structural stormwater management systems that will control and treat runoff from the first one and one-half inches of rain. In addition, projects that are located within one-half mile and draining to Shellfish Resource Waters must control and treat the difference in the stormwater runoff from the predevelopment and post-development conditions for the one-year, 24-hour storm. The structural stormwater management system must also meet the following design standards:
   a. Draw down the treatment volume no faster than 48 hours, but no slower than 120 hours.
   b. Discharge the storage volume at a rate equal to or less than the predevelopment discharge rate for the one-year, 24-hour storm.
   c. Remove an eighty-five percent (85%) average annual amount of Total Suspended Solids.
   d. Meet the General Engineering Design Criteria set out in 15A NCAC 02H .1008(c).
   e. Wet detention ponds designed in accordance with the requirements of subsection (h) of this section may be used for projects draining to Class SA waters.

(d) Permittees, delegated programs, and regulated entities must require built-upon areas to be located at least 30 feet landward of all perennial and intermittent surface waters. For purposes of this section, a surface water shall be present if the feature is shown on either the most recent version of the soil survey map prepared by the Natural Resources Conservation Service of the United States Department of Agriculture or the most recent version of the 1:24,000 scale (7.5 minute) quadrangle topographic maps prepared by the United States Geologic Survey (USGS). Relief from this requirement may be allowed when surface waters
are not present in accordance with the provisions of 15A NCAC 02B .0233(3)(a). In addition, an exception to this requirement may be pursued in accordance with subsection (a) of Section 11 of this act.

(e) Permittees, delegated programs, and regulated entities must implement or require a fecal coliform reduction program that controls, to the maximum extent practicable, the sources of fecal coliform. At a minimum, the program shall include the development and implementation of an oversight program to ensure proper operation and maintenance of on-site wastewater treatment systems for domestic wastewater. For municipalities, this program may be coordinated with local county health departments.

(f) Permittees, delegated programs, and regulated entities must impose or require recorded restrictions and protective covenants to be recorded on the property in the Office of the Register of Deeds in the county where the property is located prior to the issuance of a certificate of occupancy in order to ensure that development activities will maintain the project consistent with approved plans.

(g) Permittees, delegated programs, and regulated entities must implement or require an operation and maintenance plan that ensures the adequate long-term operation of the structural BMPs required by the program. The operation and maintenance plan must require the owner of each structural BMP to submit a maintenance inspection report on each structural BMP annually to the local program.

(h) For areas draining to Class SA waters, permittees, delegated programs, and regulated entities must:

1. Use BMPs that result in the highest degree of fecal coliform die-off and control to the maximum extent practicable sources of fecal coliform while still incorporating the stormwater controls required by the project's density level.

2. Implement a program to control the sources of fecal coliform to the maximum extent practicable, including a pet waste management component, which may be achieved by revising an existing litter ordinance, and an on-site domestic wastewater treatment systems component to ensure proper operation and maintenance of such systems, which may be coordinated with local county health departments.

3. Prohibit new points of stormwater discharge to Class SA waters and prohibit both increases in the volume of stormwater flow through conveyances and increases in capacity of conveyances in existing stormwater conveyance systems that drain to Class SA waters. Any modification or redesign of a stormwater conveyance system within the contributing drainage basin must not increase the net amount or rate of stormwater discharge through existing outfalls to Class SA waters. Diffuse flow of stormwater at a nonerosive velocity to a vegetated buffer or other natural area capable of providing effective infiltration of the runoff from the one-year, 24-hour storm shall not be considered a direct point of stormwater discharge. Consideration shall be given to soil type, slope, vegetation, and existing hydrology when evaluating infiltration effectiveness.

(i) For areas draining to Trout Waters, permittees, delegated programs, and regulated entities must:

1. Use BMPs that avoid a sustained increase in the receiving water temperature, while still incorporating the stormwater controls required for the project's density level.

2. Allow on-site stormwater treatment devices such as infiltration areas, bioretention areas, and level spreaders as added controls.

(j) For areas draining to Nutrient Sensitive Waters, permittees, delegated programs, and regulated entities must:
(1) Use BMPs that reduce nutrient loading, while still incorporating the stormwater controls required for the project's density level. In areas where the Department has approved a Nutrient Sensitive Water Urban Stormwater Management Program, the provisions of that program fulfill the nutrient loading reduction requirement. Nutrient Sensitive Water Urban Stormwater Management Program requirements are found in 15A NCAC 02B .0200.

(2) Implement a nutrient application management program for both inorganic fertilizer and organic nutrients to reduce nutrients entering waters of the State.

(k) For BMPs that require a separation from the seasonal high-water table, the separation shall be provided by at least 12 inches of naturally occurring soil above the seasonal high-water table.

(l) Nothing in this section shall limit, expand, or alter the requirement that a discharge fully comply with all applicable State or federal water quality standards.

SECTION 2. This act becomes effective January 1, 2012.

In the General Assembly read three times and ratified this the 28th day of May, 2014.

Became law upon approval of the Governor at 4:05 p.m. on the 29th day of May, 2014.

§ 105-130.8A. Net loss provisions.  
(a) State Net Loss. – A taxpayer's State net loss for a taxable year is the amount by which allowable deductions for the year, other than prior year losses, exceed gross income under the Code for the year adjusted as provided in G.S. 105-130.5. In the case of a corporation that has income from business activity within and without this State, the loss must be allocated and apportioned to this State in the year of the loss in accordance with G.S. 105-130.4.

(b) Deduction. – A taxpayer may carry forward a State net loss the taxpayer incurred in a prior taxable year and deduct it in the current taxable year, subject to the limitations in this subsection:

For this subsection to apply, the following conditions must be met:

1. The transferor has not taken the bonus depreciation deduction on a prior return and provided that the return.

(2) Tuition, registration fees, or charges to attend instructional seminars, conferences, or workshops for educational purposes.

(3) A political contribution.

(4) A charge for lifetime seat rights, lease, or rental of a suite or box for an entertainment activity, provided the charge is separately stated on an invoice or similar billing document given to the purchaser at the time of sale.

(5) An amount paid solely for transportation.

(1) The portion of a membership charge that is deductible as a charitable contribution under section 170 of the Code.

(2) A donation that is deductible as a charitable contribution under section 170 of the Code.

(3) Charges for an amenity. If charges for amenities are separately stated on a billing document given to the purchaser at the time of the sale, then the tax does not apply to the separately stated charges for amenities. If charges for
amenities are not separately stated on the billing document given to the purchaser at the time of the sale, then the transaction is a bundled transaction and taxed in accordance with G.S. 105-164.4D except that G.S. 105-164.4D(a)(3) does not apply.

(4) An event that is sponsored by an elementary or secondary school. For purposes of this exemption, the term "school" is an entity regulated under Chapter 115C of the General Statutes.

(5) An event sponsored solely by a nonprofit entity that is exempt from tax under Article 4 of this Chapter if all of the following conditions are met:
   a. The entire proceeds of the activity are used exclusively for the entity's nonprofit purposes.
   b. The entity does not declare dividends, receive profits, or pay salary or other compensation to any members or individuals.
   c. The entity does not compensate any person for participating in the event, performing in the event, placing in the event, or producing the event. For purposes of this subdivision, the term "compensate" means any remuneration included in a person's gross income as defined in section 61 of the Code.

(g) Sourcing. – Admission to an entertainment activity is sourced to the location where admission to the entertainment activity may be gained by a person. When the location where admission may be gained is not known at the time of the receipt of the gross receipts for an admission charge, the sourcing principles in G.S. 105-164.4B(a) apply:

SECTION 5.1.(d) G.S. 105-164.13(60) reads as rewritten:

"§ 105-164.13. Retail sales and use tax. The sale at retail and the use, storage, or consumption in this State of the following tangible personal property, digital property, and services are specifically exempted from the tax imposed by this Article:

(34) Sales of items by a nonprofit civic, charitable, educational, scientific or literary organization when the net proceeds of the sales will be given or
contributed to the State of North Carolina or to one or more of its agencies or instrumentalities, or to one or more nonprofit charitable organizations, one of whose purposes is to serve as a conduit through which such net proceeds will flow to the State or to one or more of its agencies or instrumentalities. This exemption does not apply to gross receipts derived from an admission charge to an entertainment activity.

(35) Sales by a nonprofit civic, charitable, educational, scientific, literary, or fraternal organization when all of the following conditions listed in this subdivision are met. This exemption does not apply to gross receipts derived from an admission charge to an entertainment activity.

a. The sales are conducted only upon an annual basis for the purpose of raising funds for the organization's activities.

b. The proceeds of the sale are actually used for the organization's activities.

c. The products sold are delivered to the purchaser within 60 days after the first solicitation of any sale made during the organization's annual sales period.

SECTION 5.1.(f) Section 5(f) of S.L. 2013-316 reads as rewritten:

"SECTION 5.(f) This section becomes effective January 1, 2014, and applies to admissions purchased or gross receipts derived from an admission charge sold at retail on or after that date. For admissions to a live event, the tax applies to the initial sale or resale of tickets occurring on or after that date; gross receipts received on or after January 1, 2014, for admission to a live event, for which the initial sale of tickets occurred before that date, other than gross receipts received by a ticket reseller, are taxable under G.S. 105-37.1. Gross receipts derived from an admission charge sold at retail to a live event occurring on or after January 1, 2015, are taxable under G.S. 105-164.4G, regardless of when the initial sale of a ticket to the event occurred."

SECTION 5.1.(g) Subsection (d) of this section and G.S. 105-164.4G(f)(4) and G.S. 105-164.4G(f)(5), as enacted by subsection (c) of this section, become effective January 1, 2015, and apply to gross receipts derived from an admission charge sold at retail on or after that date. The remainder of this Part is effective when it becomes law and applies to gross receipts derived from an admission charge sold at retail on or after that date.

PART VI. SERVICE CONTRACTS

SECTION 6.1.(a) G.S. 105-164.3(38b) reads as rewritten:

"§ 105-164.3. Definitions.
The following definitions apply in this Article:

(38b) Service contract. – A contract where the obligor under the contract agrees to maintain or repair tangible personal property or a motor vehicle. Examples of a service contract include a warranty agreement, agreement other than a manufacturer's warranty or dealer's warranty provided at no charge to the purchaser, an extended warranty agreement, a maintenance agreement, a repair contract, or a similar agreement or contract by which the seller agrees to maintain or repair tangible personal property."

SECTION 6.1.(b) G.S. 105-164.4(a)(11) reads as rewritten:

"(a) A privilege tax is imposed on a retailer at the following percentage rates of the retailer's net taxable sales or gross receipts, as appropriate. The general rate of tax is four and three-quarters percent (4.75%).

(11) The general rate of tax applies to the sales price of or the gross receipts derived from a service contract. A service contract is taxed in accordance with G.S. 105-164.4I."
SECTION 6.1.(c) Article 5 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-164.4I. Service contracts.
(a) Tax. – The sales price of or the gross receipts derived from a service contract or the renewal of a service contract sold at retail is subject to the general rate of tax set in G.S. 105-164.4 and is sourced in accordance with the sourcing principles in G.S. 105-164.4B. The retailer of a service contract is required to collect the tax due at the time of the retail sale of the contract and is liable for payment of the tax. The tax is due and payable in accordance with G.S. 105-164.16.

The retailer of a service contract is the applicable person listed below:
(1) When a service contract is sold at retail to a purchaser by the obligor under the contract, the obligor is the retailer.
(2) When a service contract is sold at retail to a purchaser by a facilitator on behalf of the obligor under the contract, the facilitator is the retailer unless the provisions of subdivision (3) of this subsection apply.
(3) When a service contract is sold at retail to a purchaser by a facilitator on behalf of the obligor under the contract and there is an agreement between the facilitator and the obligor that states the obligor will be liable for the payment of the tax, the obligor is the retailer. The facilitator must send the retailer the tax due on the sales price of or gross receipts derived from the service contract no later than 10 days after the end of each calendar month. A facilitator that does not send the retailer the tax due on the sales price or gross receipts is liable for the amount of tax the facilitator fails to send. A facilitator is not liable for tax sent to a retailer but not remitted by the retailer to the Secretary. Tax payments received by a retailer from a facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a tax payment from a facilitator must remit the amount received to the Secretary. A retailer is not liable for tax due but not received from a facilitator.

(b) Exemptions. – The tax imposed by this section does not apply to the sales price of or the gross receipts derived from a service contract applicable to any of the following items:
(1) An item exempt from tax under this Article, other than a motor vehicle exempt from tax under G.S. 105-164.13(32).
(2) A transmission, distribution, or other network asset contained on utility-owned land, right-of-way, or easement.
(3) An item purchased by a professional motorsports racing team for which the team may receive a sales tax refund under G.S. 105-164.14A(5).
(4) An item subject to tax under Article 5F of Chapter 105 of the General Statutes.

(c) Exceptions. – The tax does not apply to the sales price of or the gross receipts derived from a service contract for tangible personal property sold at retail that is or will become a part of real property unless the service contract is sold by the obligor or by a third party or facilitator on behalf of the obligor at the same time as the item of tangible personal property covered in the service contract. The tax imposed by this section does not apply to a security or similar monitoring contract for real property or to a renewal of a service contract where the tangible personal property becomes a part of or affixed to real property prior to the effective date of the renewal.

(d) Basis of Reporting. – A retailer who sells or derives gross receipts from a service contract must report those sales on an accrual basis of accounting, notwithstanding that the retailer reports tax on the cash basis for other sales at retail. The tax on the sales price of or the gross receipts derived from a service contract is due at the time of the retail sale,
notwithstanding any portion that may be financed. If the sales price of or the gross receipts derived from the service contract is financed in whole or in part, the financed amount of the sales price of or the gross receipts derived from the service contract included in each payment is exempt from sales tax if the amount is separately stated in the contract and on the billing statement or other documentation provided to the purchaser at the time of the sale.

(c) Definition. – For purposes of this section, the term "facilitator" means a person who contracts with the obligor of the service contract to market the service contract and accepts payment from the purchaser for the service contract."

SECTION 6.1.(d) Part 2 of Article 5 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-164.11A. Refund of tax paid on rescinded sale or cancellation of service.

(a) Refund. – A retailer is allowed a refund of sales tax remitted on a rescinded sale or cancelled service. A sale is rescinded when the purchaser returns an item to the retailer and receives a refund, in whole or in part, of the sales price paid, including a refund of the pro rata amount of the sales tax based on the taxable amount of the sales price refunded. A service is cancelled when the service is terminated and the purchaser receives a refund, in whole or in part, of the sales price paid, including a refund of the pro rata amount of the sales tax paid based on the taxable amount of the sales price refunded. A retailer entitled to a refund under this section may reduce taxable receipts by the taxable amount of the refund for the period in which the refund occurs or may request a refund of an overpayment as provided in G.S. 105-241.7, provided the tax has been refunded to the purchaser. The records of the retailer must clearly reflect and support the claim for refund for an overpayment of tax or adjustment to taxable receipts for the period in which the refund occurs.

(b) Service Contract. – When a service contract is cancelled and a purchaser receives a refund, in whole or in part, of the sales price paid for the service contract, the purchaser may receive a refund of the pro rata amount of the sales tax paid based on the taxable amount of the sales price refunded as provided in this subsection:

(1) Refund from retailer. – If the purchaser receives a refund on any portion of the sales price for a service contract purchased from the retailer required to remit the tax on the retail sale of the service contract, then the provisions of subsection (a) of this section apply.

(2) Refund application. – If the purchaser receives a refund on any portion of the sales price for a service contract from a person other than the retailer required to remit the tax on the retail sale of the service contract, then the amount refunded to the purchaser by the person does not have to include the sales tax on the taxable amount of the refund. If the amount refunded to the purchaser by the person does not include the sales tax paid, then the purchaser may apply to the Department for a refund of the pro rata amount of the tax paid based on the taxable amount of the service contract refunded to the purchaser. The application for a refund by a purchaser must be made on a form prescribed by the Secretary, supported by documentation on the taxable amount of the service contract refunded to the person who refunded that amount, and filed within 30 days after the purchaser receives a refund. An application for a refund filed by the purchaser after the due date is barred. Taxes for which a refund is allowed directly to the purchaser for sales tax paid on a service contract are not an overpayment of tax and do not accrue interest as provided in G.S. 105-241.21."

SECTION 6.1.(e) G.S. 105-164.13(61) reads as rewritten:

"(61) A service contract for tangible personal property that is provided for any of the following may be exempt as provided in G.S. 105-164.41.

(32) An item exempt from tax under this Article, other than an item exempt from tax under G.S. 105-164.13(32),
b. A transmission, distribution, or other network asset contained on utility-owned land, right of way, or easement.

e. An item purchased by a professional motorsports racing team for which the team may receive a sales tax refund under G.S. 105-164.14A(5)."

SECTION 6.1.(f) G.S. 105-164.13(62) reads as rewritten:
"§ 105-164.13. Retail sales and use tax.
The sale at retail and the use, storage, or consumption in this State of the following tangible personal property, digital property, and services are specifically exempted from the tax imposed by this Article:

... (62) An item used to maintain or repair tangible personal property or a motor vehicle pursuant to a service contract if the purchaser of the contract is not charged for the item. This exemption does not apply to an item used to maintain or repair tangible personal property pursuant to a service contract exempt from tax under G.S. 105-164.4I(b). For purposes of this exemption, the term "item" does not include a tool, equipment, supply, or similar tangible personal property used to complete the maintenance or repair and that is not deemed to be a component or repair part of the tangible personal property or motor vehicle for which a service contract is sold to a purchaser."

SECTION 6.1.(g) G.S. 105-187.3 reads as rewritten:
"§ 105-187.3. Rate of tax.
(a) Amount-Tax Base. – The rate of the use tax imposed by this Article is applied to the sum of the three percent (3%) of the sum of the following:
(1) The retail value of a motor vehicle for which a certificate of title is issued and any fee regulated by G.S. 20-101.1. The tax does not apply to the sales price of a service contract. The sales price of a service contract is subject to the sales tax imposed under Article 5 of this Chapter.

(a1) Tax Rate. – The tax rate is three percent (3%). The tax is payable as provided in G.S. 105-187.4. The maximum tax is one thousand dollars ($1,000) for each certificate of title issued for a Class A or Class B motor vehicle that is a commercial motor vehicle, as defined in G.S. 20-4.01. The maximum tax is one thousand five hundred dollars ($1,500) for each certificate of title issued for a recreational vehicle that is not subject to the one thousand dollar ($1,000) maximum tax. The tax is payable as provided in G.S. 105-187.4.

..."

SECTION 6.1.(h) G.S. 105-187.5(a) reads as rewritten:
"(a) Election. – A retailer may elect not to pay the tax imposed by this Article at the rate set in G.S. 105-187.3 when applying for a certificate of title for a motor vehicle purchased by the retailer for lease or rental. A retailer who makes this election shall pay a tax on the gross receipts of the lease or rental of the vehicle. The portion of a lease or rental billing or payment that represents any amount applicable to the sales price of or sales tax on a service contract sold at retail that is subject to the tax imposed by Article 5 of this Chapter and sourced to this State should not be included in the gross receipts subject to the tax imposed by this Article. The amount of the lease or rental billing or payment applicable to the sales price of or sales tax on a service contract sold at retail subject to the tax imposed by Article 5 of this Chapter and sourced to the State should be separately stated on documentation given to the purchaser at the time the lease or rental agreement goes into effect, or on the monthly billing statement or other documentation given to the purchaser. Like the tax imposed by G.S. 105-187.3, this alternate tax is a tax on the privilege of using the highways of this State. The tax is imposed on a retailer, but is to be added to the lease or rental price of a motor vehicle and thereby be paid by the person who leases or rents the vehicle."
SECTION 6.1.(i) G.S. 105-467(b) reads as rewritten:
"(b) Exemptions and Refunds. – The State exemptions and exclusions contained in G.S. 105-164.13 apply to the local sales and use tax authorized to be levied and imposed under this Article. The State refund provisions contained in G.S. 105-164.14 through G.S. 105-164.14B apply to the local sales and use tax authorized to be levied and imposed under this Article. A refund of an excessive or erroneous State sales tax collection allowed under G.S. 105-164.11 and a refund of State sales tax paid on a rescinded sale or cancelled service contract under G.S. 105-164.11A apply to the local sales and use tax authorized to be levied and imposed under this Article. The aggregate annual local refund amount allowed an entity under G.S. 105-164.14(b) for a fiscal year may not exceed thirteen million three hundred thousand dollars ($13,300,000).
"

SECTION 6.1.(j) This Part becomes effective October 1, 2014, and applies to gross receipts derived from a service contract sold at retail on or after that date.

PART VII. RETAILER-CONTRACTORS

SECTION 7.1.(a) G.S. 105-164.3 reads as rewritten:
"§ 105-164.3. Definitions. The following definitions apply in this Article:

(5) Consumer. – A person who stores, uses, or otherwise consumes in this State tangible personal property, digital property, or a service purchased or received from a retailer or supplier either within or without this State.

(33a) Real property contractor. – A person that contracts to perform construction, reconstruction, installation, repair, or any other service with respect to real property and to furnish tangible personal property to be installed or applied to real property in connection with the contract and the labor to install or apply the tangible personal property that becomes part of real property. The term includes a general contractor, a subcontractor, or a builder for purposes of G.S. 105-164.4H.

(35) Retailer. – A person engaged in the business of any of the following:
 a. Making sales at retail, offering to make sales at retail, or soliciting sales at retail of tangible personal property, digital property, or services for storage, use, or consumption in this State. When the Secretary finds it necessary for the efficient administration of this Article to regard any sales representatives, solicitors, representatives, consignees, peddlers, or truckers as agents of the dealers, distributors, consignors, supervisors, employers, or persons under whom they operate or from whom they obtain the items sold by them regardless of whether they are making sales on their own behalf or on behalf of these dealers, distributors, consignors, supervisors, employers, or persons, the Secretary may so regard them and may regard the dealers, distributors, consignors, supervisors, employers, or persons as "retailers" for the purpose of this Article.
 b. Delivering, erecting, installing, or applying tangible personal property for use in this State, regardless of whether the property is permanently affixed to real property or other tangible personal property that does not become part of real property pursuant to the tax imposed under G.S. 105-164.4(a)(13).
 c. Making a remote sale, if one of the conditions listed in G.S. 105-164.8(b) is met.
(35a) Retailer-contractor. – A person that acts as a retailer when it sells tangible personal property at retail and as a real property contractor when it performs real property contracts.

SECTION 7.1.(b) G.S. 105-164.4(a) is amended by adding a new subdivision to read:

"(13) The general rate of tax applies to the sales price of tangible personal property sold to a real property contractor for use by the real property contractor in erecting structures, building on, or otherwise improving, altering, or repairing real property. These sales are taxed in accordance with G.S. 105-164.4H."

SECTION 7.1.(c) Article 5 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-164.4H. Real property contractors.
(a) Applicability. – A real property contractor is the consumer of the tangible personal property that the real property contractor installs or applies for others and that becomes part of real property. A retailer engaged in business in the State shall collect tax on the sales price of the tangible personal property sold at retail to a real property contractor unless a statutory exemption in G.S. 105-164.13 or G.S. 105-164.13E applies. Where a real property contractor purchases tangible personal property for storage, use, or consumption in this State and the tax due is not paid at the time of purchase, the provisions of G.S. 105-164.6 apply except as provided in subsection (b) of this section.

(b) Retailer-Contractor. – This section applies to a retailer-contractor when the retailer-contractor acts as a real property contractor. A retailer-contractor that purchases tangible personal property to be installed or affixed to real property may purchase items exempt from tax under a certificate of exemption pursuant to G.S. 105-164.28 provided the retailer-contractor also purchases inventory items from the seller for resale. When the tangible personal property is withdrawn from inventory and installed or affixed to real property, use tax must be accrued and paid on the retailer-contractor's purchase price of the tangible personal property. Tangible personal property that the retailer-contractor withdraws from inventory for use that does not become part of real property is also subject to the tax imposed by this Article. If a retailer-contractor subcontracts any part of the real property contract, tax is payable by the subcontractor on the subcontractor's purchase of the tangible personal property that is installed or affixed to real property in fulfilling the contract. The retailer-contractor, the subcontractor, and the owner of the real property are jointly and severally liable for the tax. The liability of a retailer-contractor, a subcontractor, or an owner who did not purchase the property is satisfied by receipt of an affidavit from the purchaser certifying that the tax has been paid.

(c) Erroneous Collection if Separately Stated. – An invoice or other documentation issued to a consumer at the time of the sale by a real property contractor shall not separately state any amount for tax. Any amount for tax separately stated on an invoice or other documentation given to a consumer by a real property contractor is an erroneous collection and must be remitted to the Secretary, and the provisions of G.S. 105-164.11(a)(2) do not apply."

SECTION 7.2.(a) This act shall not be construed to affect the interpretation of any statute that is the subject of a State tax audit pending as of the effective date of this act or litigation that is a direct result of such audit.

SECTION 7.2.(b) A seller who collected and remitted sales or use tax in accordance with an interpretation of the law by the Secretary in the form of a rule, bulletin, or directive published before the effective date of this act is not liable to a purchaser for any overcollected sales or use tax that was collected in accordance with the rule, bulletin, or directive.

SECTION 7.3. This Part becomes effective January 1, 2015, and applies to sales on or after that date and contracts entered into on or after that date.
PART VIII. OTHER SALES TAX CHANGES

SECTION 8.1.(a) G.S. 105-164.4(a) reads as rewritten:

"(a) A privilege tax is imposed on a retailer at the following percentage rates of the retailer's net taxable sales or gross receipts, as appropriate, listed in this subsection. The general rate of tax is four and three-quarters percent (4.75%). The percentage rates are as follows:

(3) A tax at the The general rate applies to the gross receipts derived from the rental of an accommodation. These rentals are taxed in accordance with G.S. 105-164.4F. The tax does not apply to (i) a private residence or cottage that is rented for fewer than 15 days in a calendar year; (ii) an accommodation rented to the same person for a period of 90 or more continuous days; or (iii) an accommodation arranged or provided to a person by a school, camp, or similar entity where a tuition or fee is charged to the person for enrollment in the school, camp, or similar entity.

Gross receipts derived from the rental of an accommodation include the sales price of the rental of the accommodation. The sales price of the rental of an accommodation is determined as if the rental were a rental of tangible personal property. The sales price of the rental of an accommodation marketed by a facilitator includes charges designated as facilitation fees and any other charges necessary to complete the rental.

A person who provides an accommodation that is offered for rent is considered a retailer under this Article. A facilitator must report to the retailer with whom it has a contract the sales price a consumer pays to the facilitator for an accommodation rental marketed by the facilitator. A facilitator must notify a retailer when an accommodation rental marketed by the facilitator is completed and the facilitator must send the retailer the portion of the sales price the facilitator owes the retailer and the tax due on the sales price no later than 10 days after the end of each calendar month. A facilitator that does not send the retailer the tax due on the sales price is liable for the amount of tax the facilitator fails to send. A facilitator is not liable for tax sent to a retailer but not remitted by the retailer to the Secretary. Tax payments received by a retailer from a facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a tax payment from a facilitator must remit the amount received to the Secretary. A retailer is not liable for tax due but not received from a facilitator. The requirements imposed by this subdivision on a retailer and a facilitator are considered terms of the contract between the retailer and the facilitator.

A person who, by written contract, agrees to be the rental agent for the provider of an accommodation is considered a retailer under this Article and is liable for the tax imposed by this subdivision. The liability of a rental agent for the tax imposed by this subdivision relieves the provider of the accommodation from liability. A rental agent includes a real estate broker, as defined in G.S. 93A-2.

The following definitions apply in this subdivision:

a. Accommodation. – A hotel room, a motel room, a residence, a cottage, or a similar lodging facility for occupancy by an individual.

b. Facilitator. – A person who is not a rental agent and who contracts with a provider of an accommodation to market the accommodation and to accept payment from the consumer for the accommodation.

SECTION 8.1.(b) Article 5 of Chapter 105 of the General Statutes is amended by adding a new section to read:
"§ 105-164.4F. Accommodation rentals.

(a) Definition. – The following definitions apply in this section:

(1) Accommodation. – A hotel room, a motel room, a residence, a cottage, or a similar lodging facility for occupancy by an individual.

(2) Facilitator. – A person who is not a rental agent and who contracts with a provider of an accommodation to market the accommodation and to accept payment from the consumer for the accommodation.

(3) Rental agent. – The term includes a real estate broker, as defined in G.S. 93A-2.

(b) Tax. – The gross receipts derived from the rental of an accommodation are taxed at the general rate set in G.S. 105-164.4. Gross receipts derived from the rental of an accommodation include the sales price of the rental of the accommodation. The sales price of the rental of an accommodation is determined as if the rental were a rental of tangible personal property. The sales price of the rental of an accommodation marketed by a facilitator includes charges designated as facilitation fees and any other charges necessary to complete the rental.

(c) Facilitator Transactions. – A facilitator must report to the retailer with whom it has a contract the sales price a consumer pays to the facilitator for an accommodation rental marketed by the facilitator. A retailer must notify a facilitator when an accommodation rental marketed by the facilitator is completed, and the facilitator must send the retailer the portion of the sales price the facilitator owes the retailer and the tax due on the sales price no later than 10 days after the end of each calendar month. A facilitator that does not send the retailer the tax due on the sales price is liable for the amount of tax the facilitator fails to send. A facilitator is not liable for tax sent to a retailer but not remitted by the retailer to the Secretary. Tax payments received by a retailer from a facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a tax payment from a facilitator must remit the amount received to the Secretary. A retailer is not liable for tax due but not received from a facilitator.

The requirements imposed by this section on a retailer and a facilitator are considered terms of the contract between the retailer and the facilitator.

(d) Rental Agent. – A person who, by written contract, agrees to be the rental agent for the provider of an accommodation is considered a retailer under this Article and is liable for the tax imposed by this section. The liability of a rental agent for the tax imposed by this section relieves the provider of the accommodation from liability.

(e) Exemptions. – The tax imposed by this section does not apply to the following:

(1) A private residence, cottage, or similar accommodation that is rented for fewer than 15 days in a calendar year other than a private residence, cottage, or similar accommodation listed with a real estate broker or agent.

(2) An accommodation supplied to the same person for a period of 90 or more continuous days.

(3) An accommodation arranged or provided to a person by a school, camp, or similar entity where a tuition or fee is charged to the person for enrollment in the school, camp, or similar entity.

SECTION 8.1.(c) A retailer is not liable for an overcollection or undercollection of sales tax or occupancy tax if the retailer has made a good-faith effort to comply with the law and collect the proper amount of tax and has, due to the change under this section, overcollected or undercollected the amount of sales tax or occupancy tax that is due. This subsection applies only to the period beginning June 14, 2012, and ending July 1, 2014.

SECTION 8.1.(d) This section becomes effective June 1, 2014, and applies to gross receipts derived from the rental of an accommodation that a person occupies or has the right to occupy on or after that date.

SECTION 8.2.(a) G.S. 105-164.14(b) and G.S. 105-164.14(c) read as rewritten:

"(b) Nonprofit Entities and Hospital Drugs. – A nonprofit entity is allowed a semiannual refund of sales and use taxes paid by it under this Article on direct purchases of tangible personal property and services, other than electricity, telecommunications service, and ancillary
service, services for use in carrying on the work of the nonprofit entity. Sales and use tax liability indirectly incurred by a nonprofit entity through reimbursement to an authorized person of the entity for the purchase of tangible personal property and services, other than electricity, telecommunications service, ancillary service, services for use in carrying on the work of the nonprofit entity is considered a direct purchase by the entity. Sales and use tax liability indirectly incurred by a nonprofit entity on building materials, supplies, fixtures, and equipment that become a part of or annexed to any building or structure that is owned or leased by the nonprofit entity and is being erected, altered, or repaired for use by the nonprofit entity for carrying on its nonprofit activities is considered a direct purchase by the nonprofit entity. "§ 113-421. Presumptive liability for water contamination; compensation for other damages; responsibility for reclamation.

(a) Presumptive Liability for Water Contamination. – It shall be presumed that an oil or gas developer or operator is responsible for contamination of all water supplies that are within 5,000 feet a one-half mile radius of a wellhead that is part of the oil or gas developer's or operator's activities unless the presumption is rebutted by a defense established as set forth in subsection (a1) of this subsection. If a contaminated water supply is located within 5,000 feet a one-half mile radius of a wellhead, in addition to any other remedy available at law or in equity, including payment of compensation for damage to a water supply, the developer or operator shall provide a replacement water supply to the surface owner and other persons using the water supply at the time the oil or gas developer's activities were commenced on the property, which water supply shall be adequate in quality and quantity for those persons' use.

(a1) [Rebuttal of Presumption. –] In order to rebut a presumption arising pursuant to subsection (a) of this section, an oil or gas developer or operator shall have the burden of proving by a preponderance of the evidence any of the following:

1. The contamination existed prior to the commencement of the drilling activities of the oil or gas developer or operator, as evidenced by a pre-drilling test of the water supply in question conducted in conformance with G.S. 113-423(f).
2. The surface owner or owner of the water supply in question refused the oil or gas developer or operator access to conduct a pre-drilling test of the water supply conducted in conformance with G.S. 113-423(f).
3. The water supply in question is not within 5,000 feet a one-half mile radius of a wellhead that is part of the oil or gas developer's or operator's activities.
(4) The contamination occurred as the result of a cause other than activities of the developer or operator.

(a3) Reclamation of Surface Property Required. – An oil or gas developer or operator shall reclaim:

(1) Reclaim all surface areas affected by its operations no later than two years following completion of the operations. If the developer or operator is not the surface owner of the property, prior to commencement of activities on the property, the oil or gas developer or operator shall provide a bond running to the surface owner sufficient to cover reclamation of the surface owner's property. Upon registration with the Department pursuant to G.S. 113-378, a developer shall request that the Mining and Energy Commission set the amount of the bond required by this subsection. As part of its request, the developer shall provide supporting documentation, including information about the proposed oil and gas activities to be conducted, the site on which they are to occur, and any additional information required by the Commission. The Commission shall set the amount of the bond in accordance with the criteria adopted by the Commission pursuant to G.S. 113-391(a)(13a) and notify the developer and surface owner of the amount within 30 days of setting the amount of a bond. A surface owner or developer may appeal the amount of a bond set pursuant to this subsection to the Commission within 60 days after receipt of notice from the Commission of the amount required. After evaluation of the appeal and issuance of written findings, the Commission may order that the amount of the bond be modified. Parties aggrieved by a decision of the Commission pursuant to this subsection may appeal the decision as provided under Article 4 of Chapter 150B of the General Statutes within 30 days of the date of the decision.

The Commission may increase the amount of the bond required by this subdivision if the Commission determines that the drilling operation would be sited in an environmentally sensitive area.

(e) Joint and Several Liability. – In order to provide maximum protection for the public interest, any actions brought for recovery of cleanup costs, damages, or for civil penalties brought pursuant to this section or any other section of this Article or rules adopted thereunder may be brought against any one or more of the persons having control over the activities that contributed to the contamination, damage to property, or other violations. All such persons shall be jointly and severally liable, but ultimate liability as between the parties may be determined by common-law principles."

SECTION 13.(b) G.S. 113-423(f) reads as rewritten:

"(f) Pre-Drilling Testing of Water Supplies. – Any lease of oil or gas rights or any other conveyance of any kind separating rights to oil or gas from the freehold estate of surface property shall include a clause that requires the oil or gas developer or operator to pay for the reasonable costs involved in testing conduct a test of all water supplies within 5,000 feet a one-half mile radius from a proposed wellhead that is part of the oil or gas developer's or operator's activities at least 30 days prior to initial drilling activities and at least two follow-up tests within a 24-month period—six months, 12 months, 18 months, and 24 months after production has commenced and a test within 30 days after completion of production activities at the site. The Department shall identify the location of all water supplies, including wells, on a property on which drilling operations are proposed to occur. A surface
owner may elect to have the Department shall use an independent third party selected from a laboratory certified by the Department's Wastewater/Groundwater Laboratory Certification program to sample wells located on their property, and in lieu of sampling conducted by the oil or gas developer or operator, in which case the developer or operator shall pay reimburse the Department for the reasonable costs involved in testing of the wells in question. Developers and operators may share analytical results obtained with other developers and operators as necessary or advisable. All analytical results from testing conducted pursuant to this section (i) shall be provided to the Department within 30 days of testing and (ii) shall constitute a public record under Chapter 132 of the General Statutes, and the Department shall post any results to the Department's Web site within 30 days of receipt of the results. Nothing in this subsection shall be construed to preclude or impair the right of any surface owner to refuse pre-drilling testing of wells located on their property.

SECTION 14. Article 27 of Chapter 113 of the General Statutes is amended by adding a new section to read:

§ 113-415.1. Local ordinances prohibiting oil and gas exploration, development, and production activities invalid; petition to preempt local ordinance.

(a) It is the intent of the General Assembly to maintain a uniform system for the management of oil and gas exploration, development, and production activities, and the use of horizontal drilling and hydraulic fracturing for that purpose, and to place limitations upon the exercise by all units of local government in North Carolina of the power to regulate the management of oil and gas exploration, development, and production activities by means of special, local, or private acts or resolutions, ordinances, property restrictions, zoning regulations, or otherwise. Notwithstanding any authority granted to counties, municipalities, or other local authorities to adopt local ordinances, including, but not limited to, those imposing taxes, fees, or charges or regulating health, environment, or land use, any local ordinance that prohibits or has the effect of prohibiting oil and gas exploration, development, and production activities that the Mining and Energy Commission has preempted pursuant this section, shall be invalid to the extent necessary to effectuate the purposes of this Article. To this end, all provisions of special, local, or private acts or resolutions are repealed that do the following:

(1) Prohibit the siting of wells for oil and gas exploration, development, and production within any county, city, or other political subdivision.
(2) Prohibit the use of horizontal drilling or hydraulic fracturing for the purpose of oil or gas exploration or development within any county, city, or other political subdivision.
(3) Place any restriction or condition not placed by this Article upon oil and gas exploration, development, and production activities and use of horizontal drilling or hydraulic fracturing for that purpose within any county, city, or other political subdivision.
(4) In any manner are in conflict or inconsistent with the provisions of this Article.

(b) No special, local, or private act or resolution enacted or taking effect hereafter may be construed to modify, amend, or repeal any portion of this Article, unless it expressly provides for such by specific references to the appropriate section of this Article. Further to this end, all provisions of local ordinances, including those regulating land use, adopted by counties, municipalities, or other local authorities that prohibit or have the effect of prohibiting oil and gas exploration, development, and production activities and use of horizontal drilling or hydraulic fracturing for that purpose within the jurisdiction of a local government are invalidated to the extent preempted by the Commission pursuant to this section.

(c) When oil and gas exploration, development, and production activities would be prevented from construction or operation by a county, municipal, or other local ordinance, the operator of the proposed activities may petition the Mining and Energy Commission to review the matter. After receipt of a petition, the Commission shall hold a hearing in accordance with the procedures in subsection (d) of this section and shall determine whether or to what extent to
(d) When a petition described in subsection (c) of this section has been filed with the Mining and Energy Commission, the Commission shall hold a public hearing to consider the petition. The public hearing shall be held in the affected locality within 60 days after receipt of the petition by the Commission. The Commission shall give notice of the public hearing by both of the following means:

(1) Publication in a newspaper or newspapers having general circulation in the county or counties where the activities are to be conducted, once a week for three consecutive weeks, the first notice appearing at least 30 days prior to the scheduled date of the hearing.

(2) First-class mail to persons who have requested notice. The Commission shall maintain a mailing list of persons who request notice in advance of the hearing pursuant to this section. Notice by mail shall be complete upon deposit of a copy of the notice in a postage-paid wrapper addressed to the person to be notified at the address that appears on the mailing list maintained by the Commission, in a post office or official depository under the exclusive care and custody of the United States Postal Service.

(e) Any interested person may appear before the Mining and Energy Commission at the hearing to offer testimony. In addition to testimony before the Commission, any interested person may submit written evidence to the Commission for the Commission's consideration. At least 20 days shall be allowed for receipt of written comment following the hearing.

(f) A local zoning or land-use ordinance is presumed to be valid and enforceable to the extent the zoning or land-use ordinance imposes requirements, restrictions, or conditions that are generally applicable to development, including, but not limited to, setback, buffer, and stormwater requirements, unless the Mining and Energy Commission makes a finding of fact to the contrary. The Commission shall determine whether or to what extent to preempt local ordinances so as to allow for the establishment and operation of the facility no later than 60 days after conclusion of the hearing. The Commission shall preempt a local ordinance only if the Commission makes all of the following findings:

(1) That there is a local ordinance that would prohibit or have the effect of prohibiting oil and gas exploration, development, and production activities, or use of horizontal drilling or hydraulic fracturing for that purpose.

(2) That all legally required State and federal permits or approvals have been issued by the appropriate State and federal agencies or that all State and federal permit requirements have been satisfied and that the permits or approvals have been denied or withheld only because of the local ordinance.

(3) That local citizens and elected officials have had adequate opportunity to participate in the permitting process.

(4) That the oil and gas exploration, development, and production activities, and use of horizontal drilling or hydraulic fracturing for that purpose, will not pose an unreasonable health or environmental risk to the surrounding locality and that the operator has taken or consented to take reasonable measures to avoid or manage foreseeable risks and to comply to the maximum feasible extent with applicable local ordinances.

(g) If the Mining and Energy Commission does not make all of the findings under subsection (f) of this section, the Commission shall not preempt the challenged local ordinance. The Commission's decision shall be in writing and shall identify the evidence submitted to the Commission plus any additional evidence used in arriving at the decision.

(h) The decision of the Mining and Energy Commission shall be final unless a party to the action files a written appeal under Article 4 of Chapter 150B of the General Statutes, as modified by this section, within 30 days of the date of the decision. The record on appeal shall consist of all materials and information submitted to or considered by the Commission, the
Commission's written decision, a complete transcript of the hearing, all written material presented to the Commission regarding the location of the oil and gas exploration, development, and production activities, the specific findings required by subsection (f) of this section, and any minority positions on the specific findings required by subsection (f) of this section. The scope of judicial review shall be as set forth in G.S. 150B-51, except as this subsection provides regarding the record on appeal.

(i) If the court reverses or modifies the decision of the Mining and Energy Commission, the judge shall set out in writing, which writing shall become part of the record, the reasons for the reversal or modification.

(j) In computing any period of time prescribed or allowed by this procedure, the provisions of Rule 6(a) of the Rules of Civil Procedure, G.S. 1A-1, shall apply.”

SECTION 15.(a) Article 27 of Chapter 113 of the General Statutes is amended by adding four new sections to read:

"§ 113-395.1. Miscellaneous permit requirements.
The Department shall require that all natural gas compressor stations associated with an oil and gas drilling operation be located inside a baffled building.

"§ 113-395.2. Subsurface injection of waste prohibited.
(a) Disposal of wastes produced in connection with oil and gas exploration, development, and production, and use of horizontal drilling and hydraulic fracturing treatments for that purpose by injection to subsurface or groundwaters of the State by means of wells is prohibited in accordance with G.S. 143-214.2.
(b) Notwithstanding G.S. 143-214.2, a violation of subsection (a) of this section shall constitute a Class 1 misdemeanor.

"§ 113-395.3. Environmental compliance review requirements for applicants and permit holders.
(a) For purposes of this section, "applicant" means an applicant for a permit and a permit holder and includes the owner or operator of the facility, and if the owner or operator is a business entity, applicant also includes (i) the parent, subsidiary, or other affiliate of the applicant; (ii) a partner, officer, director, member, or manager of the business entity, parent, subsidiary, or other affiliate of the applicant; and (iii) any person with a direct or indirect interest in the applicant, other than a minority shareholder of a publicly traded corporation who has no involvement in management or control of the corporation or any of its parents, subsidiaries, or affiliates.
(b) The Department shall conduct an environmental compliance review of each applicant for a new permit under this Article. The environmental compliance review shall evaluate the environmental compliance history of the applicant for a period of five years prior to the date of the application and may cover a longer period at the discretion of the Department. The environmental compliance review of an applicant may include consideration of the environmental compliance history of the parents, subsidiaries, or other affiliates of an applicant or parent that is a business entity, including any business entity or joint venturer with a direct or indirect interest in the applicant, and other facilities owned or operated by any of them. The Department shall determine the scope of the review of the environmental compliance history of the applicant, parents, subsidiaries, or other affiliates of the applicant or parent, including any business entity or joint venturer with a direct or indirect interest in the applicant, and of other facilities owned or operated by any of them. An applicant for a permit shall provide environmental compliance history information for each facility, business entity, joint venture, or other undertaking in which any of the persons listed in this subsection is or has been an owner, operator, officer, director, manager, member, or partner, or in which any of the persons listed in this subsection has had a direct or indirect interest as requested by the Department.
(c) The Department shall determine the extent to which the applicant, or a parent, subsidiary, or other affiliate of the applicant or parent, or a joint venturer with a direct or indirect interest in the applicant, has substantially complied with the requirements applicable to any activity in which any of these entities previously engaged and has substantially complied
with federal, North Carolina, and other states' laws, regulations, and rules for the protection of the environment. The Department may deny an application for a permit if the applicant has a history of significant or repeated violations of statutes, rules, orders, or permit terms or conditions for the protection of the environment or for the conservation of natural resources as evidenced by civil penalty assessments, administrative or judicial compliance orders, or criminal penalties.

(d) A permit holder shall notify the Department of any significant change in its environmental compliance history or any significant change in the (i) identity of any person or structure of the business entity that holds the permit for the facility; (ii) identity of any person or structure of the business entity that owns or operates the facility; or (iii) assets of the permit holder, owner, or operator of the facility. The permit holder shall notify the Department within 30 days of a significant change. A change shall be considered significant if it would result in a change in the identity of the permit holder, owner, or operator for purposes of environmental compliance review. Based on its review of the changes, the Department may modify or revoke a permit, or require issuance of a new permit.

"§ 113-395.4. Seismic or geophysical data collection.

(a) Notwithstanding any other provision of law, no liability for trespass shall arise from activities conducted for the purpose of seismic or geophysical data collection. Provided, however, (i) persons conducting seismic and geophysical data collection may only conduct such activity by undershooting from an off-site location and without physical entry to private land, unless the landowner's consent for such activity is obtained in writing and (ii) persons conducting seismic or geophysical data collection shall be civilly liable for any physical or property damage determined to be a direct result of their seismic or geophysical data collection activities, whether or not the seismic or geophysical data collection was conducted by undershooting the land at an off-site location or by physical entry to land as permitted by the landowner.

(b) Conduct of seismic or geophysical data collection activities through physical entry to land without a landowner's written consent shall constitute a Class 1 misdemeanor."

SECTION 15.(b) This section is effective when it becomes law, except that G.S. 113-395.4(b) and G.S. 113-395.2(b), as enacted by Section 15(a) of this act, shall become effective December 1, 2014, and shall apply to offenses committed on or after that date.

SECTION 16. G.S. 87-98.4(b) is amended by adding a new subdivision to read:

"§ 87-98.4. Well contractor certification required; exemptions.

(a) Certification Required. – No person shall perform, manage, or supervise any well contractor activity without being certified under this Article. A person who is not a certified well contractor or who is not employed by a certified well contractor shall not offer to perform any well contractor activity unless the person utilizes a certified well contractor to perform the well contractor activity and, prior to the performance of the well contractor activity, the person discloses to the landowner in writing the name of the certified well contractor who will perform the well contractor activity, the certification number of the well contractor, and the name of the company that employs the certified well contractor.

(b) Exempt persons and activities. – This Article does not apply to any of the following persons or activities:

(14) Construction, repair, or abandonment of a well used for the exploration or development of oil or gas.

...."

PART VI. ESTABLISH SEVERANCE TAX

SECTION 17.(a) Chapter 105 of the General Statutes is amended by adding a new Article to read:
"Article 5I
"Severance Tax.

§ 105-187.71. Definitions.
The following definitions apply in this Article:

1. Casinghead gas. – Gas or vapor indigenous to an oil stratum and produced from the stratum with oil.
3. Condensate. – Liquid hydrocarbon that is or can be recovered from gas by a separator or other means.
4. Energy mineral. – All forms of natural gas, oil, and related condensates.
5. First purchaser. – A person who purchases an energy mineral from a producer.
6. Gas. – All natural gas, including casinghead gas, and all other hydrocarbons not defined as condensates.
7. Gross price. – The total price paid by the first purchaser of the energy mineral at the wellhead.
8. Marginal gas well. – A well incapable of producing more than 100 MCF per day, as determined by the Commission using the current wellhead deliverability rate methodology utilized by the Commission, during the calendar month for which the severance tax report is filed.
9. MCF. – One thousand cubic feet of natural gas.
10. Oil. – Crude petroleum oil, and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods and which are not the result of condensation of gas after it leaves the reservoir.
11. Owner. – An owner of a landowner's royalty interest, of an overriding royalty, of profits and working interests, or any combination thereof in energy minerals. The term does not include an owner of federal, State, or local governmental royalty interest.
12. Person. – Defined in G.S. 105-228.90.
13. Producer. – A person who takes an energy mineral from the soil or water in this State.
14. Return. – Any report or statement required to be filed under this Article to determine the tax due.
15. Royalty interest. – An interest in mineral rights in a producing leasehold in the State. A royalty interest does not include the interest of a person having only the management and operation of a well.
16. Secretary. – The Secretary of Revenue.
17. Severance. – The extraction or other removal of an energy mineral from the soil or water of this State.
18. Severed. – The point at which the energy mineral has been separated from the soil or water of this State.
19. Standard barrel of oil. – A barrel of oil containing 42 gallons.
20. Taxpayer. – Any person required to pay the severance tax levied by this Article.

§ 105-187.72. Tax on severance of energy minerals.
(a) Purpose. – An excise tax is levied on the privilege of engaging in the severance of energy minerals from the soil or water of this State. The purpose of the tax is to provide revenue to administer and enforce the provisions of this Article, to administer the State's natural gas and oil reclamation regulatory program, to meet the environmental and resource management needs of this State, and to reclaim land affected by exploration for, drilling for, and production of natural gas and oil. The severance tax is imposed upon all energy minerals severed when sold.
(b) Calculation of Tax. – The amount of the severance tax is calculated as follows:

1. Condensates. – The applicable percentage rate of the gross price paid.
2. Gas. – The applicable percentage rate of the market value as determined in G.S. 105-187.73.
3. Oil. – The applicable percentage rate of the gross price paid.

(c) Oil and Condensates Rate. – The percentage rate for condensates and oil is two percent (2%).

(d) Marginal Gas Rate. – The producer of a proposed or existing gas well may apply to the Mining and Energy Commission for a determination that the well qualifies as a marginal gas well. The producer may elect to have the gas taxed at the marginal gas rate or the gas rate. For severance of gas from a marginal gas well the percentage rate is four-tenths of one percent (0.4%).

(e) Gas Rate. – The percentage rate for gas is nine-tenths of one percent (0.9%).

§ 105-187.73. Delivered to Market Value.

(a) Delivered to Market Value of Natural Gas. – The delivered to market value of natural gas is the total actual gross price as adjusted in this section. The delivered to market value of gas is determined by subtracting the producer's actual costs to deliver the gas to the market from the producer's total gross cash receipts from the sale of the natural gas. A producer receiving a cost reimbursement from the gas purchaser shall include the reimbursement in the gross cash receipts and is entitled to deduct the actual costs of delivering the gas to market incurred.

(b) Records. – In order to be eligible to subtract the actual costs to deliver the gas to the market from the producer's gross receipts for purposes of calculating the delivered-to-market value of natural gas, the producer shall provide any information required by the Secretary. Every producer subtracting the costs to deliver the gas to the market as permitted under this subsection shall maintain and make available for inspection by the Secretary any records the Secretary considers necessary to determine and verify the amount of the costs to deliver the gas to the market the producer is eligible to subtract. The burden of proving eligibility for subtracting the costs to deliver the gas to the market and the amount of the costs to deliver the gas to the market to be subtracted shall rest upon the producer, and no subtraction of costs to deliver the gas to the market shall be allowed to a producer that fails to maintain adequate records or to make them available for inspection.

(c) Costs to Deliver the Gas to the Market and Facilities Used to Deliver the Gas to the Market. – A “facility used to deliver the gas to market” includes flow lines or gathering systems from the separator to the purchaser's transmission line, compressor stations, dehydration units, line heaters after the separator, and treating facilities. “Costs to deliver the gas to the market” are the actual and reasonable costs incurred by the producer to get the gas from the mouth of the well to the first purchaser, except costs incurred in normal lease separation of the oil or condensate from the gas, and costs associated with insurance premiums on a facility used to deliver the gas to market. Costs to deliver the gas to the market include only the following:

1. Costs for compressing the gas sold.
2. Costs for dehydrating the gas sold.
3. Costs for sweetening and treating the gas sold.
4. Costs for delivering the gas to the purchaser.
5. Reasonable charges for depreciation of the facility used to deliver the gas to market being used, provided that, if the facility is rented, the actual rental fee is added.
6. Costs of direct or allocated labor associated with the facility used to deliver the gas to market.
7. Costs of materials, supplies, maintenance, repairs, and fuel associated with the facility used to deliver the gas to market.
8. Property taxes paid on the facility used to deliver the gas to market.
(9) Charges for fees paid by the producer to any provider of dehydration, treating, compression, and delivery services.

"§ 105-187.74. On-site use exemption from the tax.
On-site use is exempt from the tax imposed under this Article. On-site use is the severance of energy minerals from land or water in this State owned legally or beneficially by the producer, which energy minerals are used on the land from which they are taken by the producer as part of the improvement of or use in the producer's homestead and which have a yearly cumulative delivered to market value of not greater than one thousand two hundred dollars ($1,200). When severed energy minerals so used exceed a cumulative delivered to market value of one thousand two hundred dollars ($1,200) during any year, the further severance of energy minerals shall be subject to the tax imposed by this Article.

"§ 105-187.75. Returns and payment of tax.
(a) General. – Severance taxes are payable when a return is due. A return is due quarterly or monthly as specified in this section. A return must be filed by the producer of the energy mineral with the Secretary on a form prescribed by the Secretary and in the manner required by the Secretary. A return must be signed by the taxpayer or the taxpayer's agent.

(b) Payment. – A producer of energy minerals shall pay the tax for all owners of the energy minerals. The producer shall withhold from any payment due owners the proportionate tax due for remittance to the Secretary.

(c) Quarterly. – A taxpayer who is consistently liable for less than one thousand dollars ($1,000) a month in severance taxes must file a return and pay the taxes due on a quarterly basis. A quarterly return covers a calendar quarter and is due by the 25th day of the second month following the end of the quarter.

(d) Monthly. – A taxpayer who is consistently liable for at least one thousand dollars ($1,000) a month in severance taxes must file a return and pay the taxes due on a monthly basis. A monthly return is due by the 25th day of the second month following the calendar month covered by the return.

(e) Category. – The Secretary must monitor the amount of severance taxes paid by a taxpayer or estimate the amount of taxes to be paid by a new taxpayer and must direct each taxpayer to pay tax and file returns as required by this section. In determining the amount of taxes due from a taxpayer, the Secretary must consider the total amount due from all places of business owned or operated by the same person as the amount due from that person. A taxpayer must file a return and pay tax in accordance with the Secretary's direction.

(f) Information on Return. – The amount of tax due and any other information required by the Secretary must be included on the return. Returns that do not contain the required information will not be accepted. When an unacceptable return is submitted, the Secretary will require a corrected return to be filed. The return must contain the following information concerning energy minerals produced during the month being reported:

(1) The gross amount of energy minerals produced that are subject to the tax imposed by this Article;

(2) The leases from which the energy minerals were produced;

(3) The names and addresses of the first purchasers of the energy minerals.

(g) Additional Information. – To claim an exemption for on-site use, the producer or taxpayer of a proposed or existing gas well shall apply to the Secretary for determination of eligibility. The Secretary may require an applicant to provide any information required to administer this provision. The Secretary shall make the determination within 15 calendar days of the receipt of all information required by the Secretary from the producer or taxpayer, and the producer or taxpayer shall attach the determination of eligibility to its severance tax form next due, as applicable. The taxpayer shall provide any information required by the Secretary. Every taxpayer claiming the exemption shall maintain and make available for inspection by the Secretary of Revenue any records the Secretary considers necessary to determine and verify the claim to which the taxpayer is entitled. The burden of proving eligibility shall rest upon the taxpayer, and no exemption shall be allowed to a taxpayer who fails to maintain adequate
records or to make them available for inspection. The portion of the severance tax that is required to be deducted from the royalty owner or other interest shall be calculated in the same manner as the portion of the severance tax borne by the producer.

(h) Commission Determination. – To claim the marginal gas rate, the producer or taxpayer of a proposed or existing gas well shall provide to the Secretary proof that the Mining and Energy Commission has determined the well qualifies as a marginal gas well.

"§ 105-187.76. Bond or letter of credit required.

A producer must file with the Secretary a bond or an irrevocable letter of credit if the producer fails to file a return required under this Article. A bond or an irrevocable letter of credit must be conditioned upon compliance with the requirements of this Article, be payable to the State, and be in the form required by the Secretary. The amount of the bond or irrevocable letter of credit is two times the applicant's average expected monthly tax liability under this Article, as determined by the Secretary. When notified to do so by the Secretary, a person who is required to file a bond or an irrevocable letter of credit must file the bond or irrevocable letter of credit in the amount required by the Secretary within 30 days after receiving the notice from the Secretary.

"§ 105-187.77. Liability of producer for tax.

The tax imposed by this Article is the primary liability of the producer, except as provided in this section. A first purchaser may not take delivery of energy minerals from a producer unless the producer furnishes the purchaser with a taxpayer identification number assigned by the Secretary. A first purchaser failing to secure the producer's taxpayer number, either from the producer or the Secretary, will be liable for any tax, penalty, and interest due on the energy minerals purchased from the producer.

"§ 105-187.78. Royalty owner's records.

The owner of a royalty interest shall keep and provide to the Secretary, upon request, both of the following:

1. A record of all money received as royalty from each producing leasehold in the State.
2. A copy of all settlement sheets furnished by a purchaser or operator or other statement showing the amount of energy minerals for which a royalty was received and the amount of severance tax deducted.

"§ 105-187.79. Permits suspended for failure to report.

If an entity fails to file any report or return or to pay any tax or fee required by this Article for 90 days after it is due, the Secretary shall inform the Secretary of Environment and Natural Resources of this failure. The Secretary of Environment and Natural Resources shall suspend permits for oil and gas exploration using horizontal drilling and hydraulic fracturing under G.S. 113-395 of any entity that fails to file a return under this Article. The Secretary of Environment and Natural Resources shall immediately notify by mail an entity of a suspension under this section.

"§ 105-187.80. No local taxation.

A city or county may not impose a franchise, privilege, license, income, or excise tax on the severing, production, treating, processing, ownership, sale, storage, purchase, marketing, or transportation on any energy minerals produced in the State, or upon the business of severing, producing, treating, processing, owning, selling, buying, storing, marketing, or transporting such energy minerals, or upon the ownership, operation, or maintenance of plants, facilities, machinery, pipelines, and gathering lines related to the severing, production, treating, processing, ownership, storage, sale, purchase, marketing, or transportation of energy minerals. This section does not preclude the taxation of the property in accordance with Article 11 of this Chapter.

SECTION 17.(b) G.S. 105-259(b) is amended by adding a new subdivision to read:

"(46) To furnish to the Department of Environment and Natural Resources the name, address, tax year end, and account and identification numbers of an
entity liable for severance tax to enable the Secretary of Environment and Natural Resources to notify the entity that the Department of Environment and Natural Resources shall suspend permits of the entity for oil and gas exploration using horizontal drilling and hydraulic fracturing under G.S. 113-395.”

Section 18 is effective for taxes imposed for taxable years beginning on or after July 1, 2015. The remainder of this Part is effective when it becomes law.

PART VII. STUDIES

SECTION 20. The Local Government Division of the Department of Revenue shall study how other states value energy minerals for the purpose of property taxation. The Division shall establish guidelines for counties to ensure the consistent and fair taxation of energy minerals throughout the State. The Local Government Division shall report its findings to the Joint Legislative Commission on Energy Policy by January 1, 2015.

SECTION 21. The Joint Legislative Commission on Energy Policy shall study how the development of the oil and gas industry in the State would affect the property tax revenues of local governments. The study shall examine how the presence of energy minerals will affect property enrolled in the present use value program. The study shall also study ways to limit the growth of property tax revenues that result from increased property valuations due to the development of the oil and gas industry in the State. The Commission shall report to the 2015 General Assembly on its findings and recommendations, including any legislative recommendations.

SECTION 22.(a) The Department of Commerce, in consultation with the Department of Environment and Natural Resources, the North Carolina Ports Authority, and the Department of Administration, shall study the desirability and feasibility of siting, constructing, and operating a liquefied natural gas (LNG) export terminal in North Carolina. At a minimum, as a part of the study, the agencies shall:

1. Identify the State, federal, and local regulatory programs under which LNG export terminals are permitted and approved.
2. Identify any State statutory or regulatory barriers to siting, constructing, or operating a LNG export terminal in the State.
3. Evaluate infrastructure needs and impacts as follows:
   a. Identify the infrastructure that is necessary to support a LNG export terminal.
   b. Identify any idle publicly owned infrastructure that may be utilized to support LNG export terminal operations.
   c. Identify publicly owned unutilized or underutilized lands that may be used to support LNG export terminal operations.
   d. Identify potential impacts on infrastructure, including roads, pipelines, and water and wastewater services, and other provision of services by local governments including schools, law enforcement, and development.
(4) Conduct a cost-benefit analysis for the construction and operation of an LNG export terminal. The analysis shall evaluate scenarios in which the State is the primary producer of the exported natural gas and scenarios in which the State is not the primary producer of the exported natural gas.

(5) Examine potential economic impacts, including:
   a. Possible sources of revenue that could accrue to the benefit of the State if LNG is exported from a terminal in North Carolina.
   b. The number of jobs that may be expected as a result from the construction and operation of an LNG export terminal.

(6) Identify and evaluate potential environmental impacts of construction and operation of an LNG export terminal. In examining this issue, the agencies shall gather information on regulatory programs in other states where LNG export terminals are in operation.

(7) Identify potential social impacts, including impacts of construction and operation of an LNG export terminal on nearby communities and quality of life within those communities, recreational activities, and commercial and residential development.

(8) Examine any other pertinent issues that the agencies deem relevant to the construction and operation of an LNG export facility in the State.

SECTION 22.(b) The Department of Commerce shall report its findings and recommendations to the Joint Legislative Commission on Energy Policy and the Environmental Review Commission on or before January 1, 2015.

SECTION 23.(a) The Department of Transportation shall study (i) additional statutory authority that may be necessary or advisable for the Department to adequately address energy-related traffic, including authority that pertains to permitting and assessment of fees; (ii) the feasibility and advisability of including any requirements that the Department may recommend to manage energy-related traffic, and resulting impacts, in a coordinated permit in conjunction with requirements of the Department of Environment and Natural Resources, or whether such requirements should be implemented through a separate permitting process; and (iii) performance bonding and other surety mechanisms, including road use agreements, to reclaim and repair any State posted roads that are damaged due to heavy vehicle, equipment, and machinery traffic used in support of and conjunction with horizontal drilling and hydraulic fracturing operations on State posted roads. For purposes of this study, the term "posted roads" means a system that records any secondary road on the State Highway System that is unable to carry heavy vehicles or equipment. In the conduct of its study, the Department shall do the following:

   (1) Consider mechanisms for requiring performance bonds running to the Department.
   (2) Develop criteria for setting the amount of the bond, including the weight and size of the proposed vehicles, equipment and machinery projected to utilize posted roads, the planned route and projected number of trips, and the duration of the activity necessitating travel of heavy vehicles, equipment, and machinery along posted roads.
   (3) Identify documentation necessary to support bonding of posted roads.
   (4) Identify any statutory or regulatory changes necessary to maintain and protect the State's transportation infrastructure network.

SECTION 23.(b) The Department of Transportation shall report its findings and recommendations, including any legislative proposals, to the Joint Legislative Energy Policy Commission and the Joint Legislative Transportation Oversight Committee on or before January 1, 2015.

SECTION 24.(a) The State Board of Community Colleges shall study the feasibility and desirability of developing a program to prepare students with a general education foundation and technical competencies for employment opportunities in the oil and
natural gas drilling, gathering, and field operations industry. In particular, the State Board shall consider developing such a program at one or more of the community colleges located where the potential for shale gas resources is highest. In the conduct of its study, the State Board shall evaluate similar education programs in community college systems in other states.

SECTION 24.(b) The State Board shall report its findings and recommendations, including any legislative proposals, to the Joint Legislative Energy Policy Commission and the Joint Legislative Education Oversight Committee on or before January 1, 2015.

SECTION 25.(a) The General Assembly finds the following:

1. Section 2(l) of S.L. 2012-143 directed the Mining and Energy Commission, in conjunction with the Department of Environment and Natural Resources and the Consumer Protection Division of the North Carolina Department of Justice, to study the State's current law on the issue of integration or compulsory pooling and other states' laws on the matter; and

2. Whereas, the Department was directed to report its findings and recommendations, including legislative proposals, to the Joint Legislative Commission on Energy Policy and the Environmental Review Commission on or before January 1, 2013; and

3. The Mining and Energy Commission and the Department issued separate reports pursuant to the study; and

4. The Mining and Energy Commission's report included specific recommendations for legislative changes related to compulsory pooling; and

5. The Department's report did not include specific recommendations for legislative changes related to compulsory pooling; and

6. In lieu of specific recommendations for legislative changes, the Department recommended that "prior to establishing new laws related to compulsory pooling, the General Assembly should consider the rules adopted by the Mining and Energy Commission related to oil and gas exploration, including, but not limited to, rules concerning drilling units, spacing requirements, and setbacks, all of which will affect the regulation of compulsory pooling in the State." And the Department further recommended that "decisions on the status and implementation of a compulsory pooling law precede decisions related to cost sharing, notifications, and compensation for damages" and "further study on the issue of amending current dormant mineral statutes regarding extinguishment and other consumer protection issues related to split estates."

SECTION 25.(b) Based upon the findings of Section 25(a) of this act, the General Assembly directs the Department to do the following:

The Office shall study all of the following:

1. The long-term environmental and economic impact of base load power generation of electric public utilities.
2. The comparison of base load power generation alongside all other forms of energy used for power generation, including renewable and alternative sources of energy, and the environmental and economic impact of all forms of power generation.
3. The implementation of S.L. 2007-397, including environmental and economic impacts of the law, and recommendations on any changes to the law as necessary.
4. The impact to the electrical grid and to the economy of allowing third-party sales of electricity on the State's military installations.

The State Energy Office shall report its findings to the Joint Legislative Commission on Energy Policy on or before December 1, 2014.

SECTION 28.(a) The Division of Purchase and Contract in the Department of Administration shall, in coordination with the Department of Public Instruction, provide that any fuel option may be considered for the award of a school bus contract. In the development of requests for proposals for school buses, the Departments shall include any fuel option practicable, including diesel, propane, liquefied natural gas, compressed natural gas, and electricity.

SECTION 28.(b) The consideration of any fuel sources in Section 28(a) of this act shall apply to any changes or modifications to term contracts executed on or after the effective date of this section.

SECTION 28.(c) The Department of Administration and the Department of Public Instruction shall jointly study the infrastructure that would be necessary to support school bus fleets fueled by natural gas and report any findings and recommendations to the Joint Legislative Energy Policy Commission on or before January 1, 2015.

(3) One point for each percent of students who score at or above proficient on annual assessments for science in grades five and eight.

(4) One point for each percent of students who score at or above proficient on the Algebra I or Integrated Math I end-of-course test.

(5) One point for each percent of students who score at or above proficient on the English II end-of-course test.

(6) One point for each percent of students who score at or above proficient on the Biology end-of-course test.

(7) One point for each percent of students who complete Algebra II or Integrated Math III with a passing grade.

(8) One point for each percent of students who achieve the minimum score required for admission into a constituent institution of The University of North Carolina on a nationally normed test of college readiness.

(9) One point for each percent of students enrolled in Career and Technical Education courses who meet the standard when scoring at Silver, Gold, or Platinum levels on a nationally normed test of workplace readiness.

(10) One point for each percent of students who graduate within four years of entering high school.

Each school achievement indicator shall be of equal value when used to determine the overall school achievement score. In calculating the overall school achievement score earned by schools, the State Board of Education shall (i) use a composite approach to weigh the achievement elements based on the number of students measured by any given achievement element and (ii) proportionally adjust the scale to account for the absence of a school achievement element for award of scores to a school that does not have a measure of one of the school achievement elements annually assessed for the grades taught at that school. The overall school achievement score shall be translated to a 100-point scale and used for school reporting purposes as provided in G.S. 115C-12(9)c1., 115C-238.29F, and 115C-238.66."
SECTION 14. G.S. 115C-83.15(d) reads as rewritten:
"(d) Calculation of the School Performance Scores and Grades. - For schools exceeding or not meeting expected school growth, the State Board of Education shall use EVAAS to calculate the school performance score by adding the school achievement score, as provided in subsection (b) of this section, and the school growth score, as provided in subsection (c) of this section, earned by a school. The school achievement score shall account for eighty percent (80%), and the school growth score shall account for twenty percent (20%) of the total sum. For schools meeting expected growth, and with a school achievement score of eighty percent (80%) or higher, the school performance score shall solely reflect the achievement score. For schools meeting expected growth, and with a school achievement score below eighty percent (80%), the school achievement score shall account for eighty percent (80%), and the school growth score shall account for twenty percent (20%) of the total sum. If a school has met expected growth and inclusion of the school’s growth score reduces the school’s performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade. For all schools, the total school performance score shall be converted to a 100-point scale and used to determine a school performance grade based on the following scale:

(1) A school performance score of at least 90 is equivalent to an overall school performance grade of A.
(2) A school performance score of at least 80 is equivalent to an overall school performance grade of B.
(3) A school performance score of at least 70 is equivalent to an overall school performance grade of C.
(4) A school performance score of at least 60 is equivalent to an overall school performance grade of D.
(5) A school performance score of less than 60 points is equivalent to an overall school performance grade of F."

SECTION 15. Notwithstanding G.S. 115C-83.15(d), for the 2013-2014 school year only, for all schools the total school performance score shall be converted to a 100-point scale and used to determine a school performance grade based on the following scale:

(1) A school performance score of at least 85 is equivalent to an overall school performance grade of A.
(2) A school performance score of at least 70 is equivalent to an overall school performance grade of B.
(3) A school performance score of at least 55 is equivalent to an overall school performance grade of C.
(4) A school performance score of at least 40 is equivalent to an overall school performance grade of D.
(5) A school performance score of less than 40 points is equivalent to an overall school performance grade of F.

SECTION 16. For the 2014-2015 school year only, local boards of education may apply for waivers from the requirements in G.S. 115C-174.12(4) which limit the administration of final exams for year-long courses to the final 10 instructional days of the school year and for semester courses to the final 5 instructional days of the semester. Local boards of education shall apply for these waivers to the State Board of Education by September 1, 2014. The State Board of Education shall grant the waivers for up to five additional days in order to allow the administration of final exams for year-long courses within the final 15 instructional days of the school year and for semester courses within the final 10 instructional days of the semester. By October 1, 2014, the State Board of Education shall notify the local boards of education whether the requested waivers have been granted.
SECTION 17. This act is effective when it becomes law. Section 16 of this act applies only for the 2014-2015 school year.

In the General Assembly read three times and ratified this the 9th day of June, 2014.

AN ACT TO BROADEN THE PERMITTED USE OF STORMWATER FEES.

The General Assembly of North Carolina enacts:

SECTION 1. Article 15 of Chapter 153A is amended by adding a new statutory section to read:

"§ 153A-274.1. Flood control activities under stormwater management programs.

(a) Findings. – The General Assembly finds that it is in the best interest of the residents of North Carolina to promote and fund the implementation of stormwater management programs to control and manage water quantity and flow in order to reduce the chances of loss of life and damage to property due to flooding. The General Assembly also finds that a county has an integral role in furthering this public purpose by promoting and funding implementation of stormwater management programs within the county's territorial jurisdiction to reduce reliance on emergency response services, to reduce negative financial impacts on the community and the public from flooding, including the cost of public infrastructure repairs, to decrease the number of flood-prone homes and businesses, to increase infiltration of stormwater into the ground, and to reduce pollutants from entering the streams.

(b) Scope. – For purposes of operating a public enterprise under this Article, a county is authorized to do any of the following activities within its stormwater management program:

1. Purchase property for the purpose of demolishing flood-prone buildings.

2. Implement flood damage reduction techniques that result in improvements to private property in accordance with subsection (c) of this section, to include:
   a. Elevating structures or their associated components.
   b. Demolishing flood-prone structures.
   c. Retrofitting flood-prone structures.

(c) Policy Document. – The county may engage in the activities listed in subdivision (2) of subsection (b) of this section only under the circumstances contained in a policy document approved by the board of county commissioners. The policy document shall, at a minimum, establish, and may elaborate on, the following:

1. Private property owner's written consent must be obtained prior to implementation of flood reduction improvements on the owner's property.

2. The county has determined that improving the stormwater system is not practically feasible or cost-effective, and the activities in subdivision (2) of subsection (b) provide savings to the stormwater fund.

3. The improvements to private property are the minimum necessary to accomplish the stormwater benefit.

4. Funding provided by the county, above a certain amount, to the property owner or expended upon improvements to the property shall be reimbursed to the county if the property is sold within five years of the completion of the flood reduction improvement project. The amount of reimbursement due to the county may be calculated as the difference between the established premitigation fair market value and the sale price of the property, not to exceed the total funding provided by the county.
(5) The minimum financial contribution the private property owner must make to the project.

(d) Advisory Committee. – An existing stormwater advisory committee established by the board of commissioners and having specific charges, duties, and representation as set forth by the board of county commissioners must review and approve projects that implement flood damage reduction techniques under subdivision (2) of subsection (b) of this section. The committee shall submit an annual report to the board of county commissioners for its review.

(e) Application. – This section applies only to counties with a population of 910,000 or greater according to the most recent annual population estimates certified by the State Budget Officer.

SECTION 2. This act is effective when it becomes law.
In the General Assembly read three times and ratified this the 12th day of June, 2014.

Became law upon approval of the Governor at 2:49 p.m. on the 19th day of June, 2014.

(i) Prohibition. – A State officer or employee, other than the Secretary of Commerce, shall not solicit funds for a North Carolina nonprofit corporation with which the Department contracts pursuant to this section. (k) Benefits. – An officer, employee, or member of a governing board of a North Carolina nonprofit corporation with which the Department contracts pursuant to this section is not a State employee, is not covered by Chapter 126 of the General Statutes, and is not entitled to State-funded employee benefits, including membership in the Teachers' and State Employees' Retirement System and the State Health Plan for Teachers and State Employees.

(k) Raised Funds. – For funds raised from sources other than State funds by the nonprofit corporation, at least twenty-five percent (25%) of the funds shall be used for the benefit of or for salaried positions located in or working solely on development in development tier one or two areas, as defined in G.S. 143B-437.08.

SECTION 1.1.(c) G.S. 132-6(d) reads as rewritten:

"(d) Notwithstanding the provisions of subsections (a) and (b) of this section, public records relating to the proposed expansion or location of specific business or industrial projects may be withheld so long as their inspection, examination or copying would frustrate the purpose for which such public records were created; provided, however, that nothing herein shall be construed to permit the withholding of public records relating to general economic development policies or activities. Once the State, a local government, or the specific business has announced a commitment by the business to expand or locate a specific project in this State or a final decision not to do so and the business has communicated that commitment or decision to the State or local government agency involved with the project, and that the business will receive a discretionary incentive for the project pursuant to Chapter 143B of the General Statutes, the provisions of this subsection allowing public records to be withheld by the agency no longer apply. If the specific business has requested discretionary incentives for the project pursuant to Chapter 143B of the General Statutes, but decides not to expand or locate the project in this State or does not receive such discretionary incentives, then the only records that are subject to disclosure pursuant to this Chapter are the records submitted to the Department of Commerce by the nonprofit corporation with which the Department contracts pursuant to G.S. 143B-431A. If a business decides to expand or locate a specific project in this State, but the nonprofit corporation with which the Department contracts pursuant to G.S. 143B-431A does not submit any documentation to the Department regarding a request for any discretionary incentives by the State pursuant to Chapter 143B of the General Statutes, and the business does not receive any such discretionary incentives, then any records regarding such project are not subject to disclosure pursuant to this Chapter. Once the provisions of this subsection no longer apply, the agency shall disclose as soon as practicable, and within 25 business days, public records requested for the announced project that are not otherwise made confidential by law. An announcement that a business or industrial project has committed to expand or locate in the State shall not require disclosure of local government records relating to the project if the business has not selected a specific location within the State for the project. Once a specific location for the project has been determined, local government records must be disclosed, upon request, in accordance with the provisions of this section. For purposes of this section, "local government records" include records maintained by the State that relate to a local government's efforts to attract the project."

SECTION 1.2.(a) G.S. 143B-434 is repealed.

SECTION 1.2.(b) G.S. 143B-434.01 reads as rewritten:

"§ 143B-434.01. Comprehensive Strategic Economic Development Plan.

(a) Definitions. – The following definitions apply in this section:

(1) Board. – The Economic Development Board.

(2) Department. – The Department of Commerce.

(3) Existing Plan. – The Plan prepared and submitted to the Governor and General Assembly on or before April 1, 1994.

(4) Local government. – A county, municipality, town, city, city of villages, township, or school district in the State.

(5) Nonprofit corporation. – A corporation, other than a for-profit corporation, that is not organized for the private gain of its members.

(6) Secretary. – The Secretary of Commerce or the governing board of a North Carolina nonprofit corporation with which the Department contracts pursuant to G.S. 143B-431A for the performance of the Secretary's responsibilities under this section.

(b) Board to Prepare Plan. – The Board Secretary shall prepare, review and update the existing Plan by April 1, 1994. The Board shall review and update this Plan by April 1 of each year. The original Plan shall cover a period of four years and each annual update shall extend the time frame by one year so that a four-year plan is always in effect. The Board Secretary shall provide copies of the Plan and each annual update..."
to the Governor and the Joint Legislative Commission on Governmental Operations. The Plan shall encompass all of the components set out in this section.

(c) Purpose. – The purpose of this section is to require the Board Secretary to apply strategic planning principles to its economic development efforts. This requirement is expected to result in:

1. The selection of a set of priority development objectives that recognizes the increasingly competitive economic environment and addresses the changing needs of the State in a more comprehensive manner.
2. The effective utilization of available and limited resources.
3. A commitment to achieve priority objectives and to sustain the process.

(d) (1) Public and Private Input. – At each stage as it develops and updates the Plan, the Board Secretary shall solicit input from all parties involved in economic development in North Carolina, including:
   a. Each of the programs and organizations that, for State budget purposes, identifies economic development as one of its global goals.
   b. Local economic development departments and regional economic development organizations.
   c. The Board of Governors of The University of North Carolina.

(2) The Board Secretary shall also hold hearings in each of the Regions to solicit public input on economic development before the initial Plan is completed. The purposes of the public hearings are to:
   a. Assess the strengths and weaknesses of recent regional economic performance.
   b. Examine the status and competitive position of the regional resource base.
   c. Identify and seek input on issues that are key to improving the economic well-being of the Region.

(3) Each component of the Plan shall be based on this broad input and, to the extent possible, upon a consensus among all affected parties. The Board Secretary shall coordinate its planning process with any State capital development planning efforts affecting State infrastructure such as roads and water and sewer facilities.

(e) Environmental Scan. – The first step in developing the Plan shall be to develop an environmental scan based on the input from economic development parties and the public and on information about the economic environment in North Carolina. To prepare the scan, the Board Secretary shall gather the following information required in this subsection and ensure that the information is updated periodically. The updated information may be provided in whatever format and through whatever means is most efficient. The information required to prepare the scan includes all of the following:

( f) Repealed by Session Laws 2012-142, s. 13.4(a), effective July 1, 2012.

(g) Vision and Mission Statements. – The Board Secretary shall develop a vision statement for economic development that would describe the preferred future for North Carolina and what North Carolina would be like if all economic development efforts were successful. The Board Secretary shall then develop a mission statement that outlines the basic purpose of each of North Carolina’s economic development programs. Because special purpose nonprofit organizations are uniquely situated to conduct the entrepreneurial and high-risk activity of investing in and supporting new business creation in the State, they should be assigned a dominant role in this key component of economic development activity.

(h) Goals and Objectives. – The Board Secretary, using data from the public input and the environmental scan, shall formulate a list of goals and objectives. Goals shall be
long-range, four years or more, and shall address both needs of economically distressed Regions and counties as well as opportunities for Regions and counties not distressed. The goals shall be developed with realism but should also be selected so as to encourage every Region and county within the State to develop to its maximum potential. Objectives shall be one year or less in scope and shall, if achieved, lead to the realization of the goals formulated by the Board Secretary as provided in this section.

Both goals and objectives should be stated largely in economic terms, that is, they should be related to specific population, employment, demographic targets, or economic sector targets. Both efficiency and equity considerations are to be addressed and balanced with special emphasis placed on the needs of disadvantaged or economically distressed populations and communities. The goals and objectives should not state how the economic targets are to be reached, but rather what the economic conditions will be if they are obtained. So that the progress of North Carolina's economic development efforts can be monitored, the Board Secretary shall set objectives for each goal that allow measurement of progress toward the goal. Objectives should be quantifiable and time-specific in order to serve as performance indicators.

... Implementation Plan. – Based upon all of the foregoing steps, the Board Secretary shall establish an implementation plan assigning to the appropriate parties specific responsibilities for meeting measurable objectives. The implementation plan shall contain all necessary elements so that it may be used as a means to monitor performance, guide appropriations, and evaluate the outcomes of the parties involved in economic development in the State.

(k) Annual Evaluation. – The Board Secretary shall annually evaluate the State's economic performance based upon the statistics listed in this subsection and upon the Board Secretary's stated goals and objectives in its Plan. The statistics upon which the evaluation is made should be available to policymakers. The information may be provided in whatever format and through whatever means is most efficient.

... (l) Accountability. – The Board Secretary shall make all data, plans, and reports available to the General Assembly, the Joint Legislative Commission on Governmental Operations, the Joint Legislative Economic Development and Global Engagement Oversight Committee, the Senate Appropriations Committee on Natural and Economic Resources, and the House of Representatives Appropriations Subcommittee on Natural and Economic Resources at appropriate times and upon request. The Board Secretary shall prepare and make available on an annual basis public reports on each of the major sections of the Plan and the Annual Report indicating the degree of success in attaining each development objective.”

SECTION 1.2.(c) G.S. 143B-437.03 is repealed.

SECTION 1.3. The Department of Commerce shall study and develop a plan for contracting with a North Carolina nonprofit corporation pursuant to G.S. 143B-431A, as enacted by this act, for the performance of economic development activities and duties of the Department. The study shall include each of the following:

(1) The Department shall develop a plan for private fund-raising efforts for the nonprofit corporation for the performance of economic development functions. The study shall include the creation of a budget for the nonprofit corporation that provides for the performance of core functions of the corporation, including economic development functions, in the absence of private funds. The study shall compare the budget of the Department and the budget developed for the nonprofit corporation according to Department division and budget category, including personal services; purchased services; supplies; property, plant, and equipment; other expenses and adjustments; aid and public assistance; and other budget categories used by the Department. The study shall include a measurement and estimation of expected private fund-raising potential, and the Department shall examine
the efforts of other states that have permitted public-private partnerships for economic development activities and report on the source or sources of funds for those partnerships, separately accounting for funds provided by the State and private funds.

(2) The Department shall report on each performance metric listed in this subdivision. The report shall analyze the Department's performance for each metric for (i) the last full year prior to contracting for performance of the metric and (ii) the annual average for the five-year period preceding contracting for performance of the metric. The performance metrics to be reported upon are as follows:

a. For business recruitment:

d. Any other information or performance metrics allowing comparison between departmental and corporate performance for any other economic development division in the Department for which the Department contracts for performance with a North Carolina nonprofit corporation pursuant to this act.

e. Any other information or performance metrics deemed useful or necessary by the Department in the listed areas or other areas.

The Department shall make a report to the Office of State Budget Management, to the Joint Legislative Commission on Governmental Operations, to the Joint Legislative Economic Development and Global Engagement Oversight Committee, and to the Fiscal Research Division no later than December 1, 2014.

The Department shall require the nonprofit corporation to include in each report mandated by G.S. 143B-431A(e)(2) an analysis of the corporation's performance and a comparison to departmental performance using the same performance metrics studied and reported by the Department, as required by subdivision (2) of this section.

AN ACT TO PHASE IN THE SALES TAX RATE ON ELECTRICITY SOLD BY CAPE HATTERAS ELECTRICAL MEMBERSHIP CORPORATION AND THE SALES TAX RATE ON PIPED NATURAL GAS SOLD BY GAS CITIES, TO MODIFY THE PROPERTY TAX DEFERRAL PROGRAM FOR SITE INFRASTRUCTURE LAND, AND TO DELAY THE CHANGE IN THE HIGHWAY USE TAX BASE TO INCLUDE DEALER ADMINISTRATIVE FEES.

The General Assembly of North Carolina enacts:

SECTION 1.(a) G.S. 105-164.4(a) is amended by adding two new subdivisions to read:

"(a) A privilege tax is imposed on a retailer at the following percentage rates of the retailer's net taxable sales or gross receipts, as appropriate. The general rate of tax is four and three-quarters percent (4.75%).

(14) Notwithstanding subdivision (9) of this subsection, the rate of three and one-half percent (3.5%) applies to the gross receipts derived from sales of piped natural gas (i) received by a gas city for consumption by that city and (ii) delivered by a gas city to a sales customer or transportation customer of the gas city. For purposes of this subdivision, the following definitions apply:

a. Gas city. – A city in this State that operated a piped natural gas distribution system as of July 1, 1998. These cities are Bessemer City, Greenville, Kings Mountain, Lexington, Monroe, Rocky Mount, Shelby, and Wilson.

b. Sales customer. – An end user who does not have direct access to an interstate gas pipeline and whose piped natural gas is delivered by the seller of the gas.

c. Transportation customer. – An end user who does not have direct access to an interstate gas pipeline and whose piped natural gas is delivered by a person who is not the seller of the gas.

(14a) Notwithstanding subdivision (9) of this subsection, the rate of three and one-half percent (3.5%) applies to the gross receipts derived from sales of electricity by Cape Hatteras Electric Membership Corporation."

SECTION 1.(b) G.S. 105-164.44L(b) reads as rewritten:

"(b) Excise Tax Share. – The quarterly excise tax share of a city that is not a gas city is the amount of piped natural gas excise tax distributed to the city under repealed G.S. 105-187.44 for the same related quarter that was the last quarter in which taxes were
imposed on piped natural gas under repealed Article 5E of this Chapter. The Secretary must determine the excise tax share of a gas city and divide that amount by four to calculate the quarterly distribution amount for a gas city. The excise tax share of a gas city is the amount the gas city would have received under repealed G.S. 105-187.44 for the last year in which taxes were imposed under repealed Article 5E of this Chapter if piped natural gas consumed by the city or delivered by the city to a customer had not been exempt from tax under repealed G.S. 105-187.41(c)(1) and (c)(2). A gas city must report the information required by the Secretary to make the distribution under this section in the form, manner, and time required by the Secretary. For purposes of this subsection, the term “gas city” has the same meaning as defined in repealed G.S. 105-187.40. The determination made by the Department with respect to a city's excise tax share is final and is not subject to administrative or judicial review.

The excise tax share of a city that has dissolved, merged with another city, or divided into two or more cities since it received a distribution under repealed G.S. 105-187.44 is adjusted as follows:

1. If a city dissolves and is no longer incorporated, the excise tax share of the city is added to the amount distributed under subsection (c) of this section.
2. If two or more cities merge or otherwise consolidate, their excise tax shares are combined.
3. If a city divides into two or more cities, the excise tax share of the city that divides is allocated among the new cities in proportion to the total amount of ad valorem taxes levied by each on property having a tax situs in the city.

SECTION 1.(c) G.S. 105-164.44L(a) reads as rewritten:
"(a) Distribution. – The Secretary must distribute to cities twenty percent (20%) of the net proceeds of the tax collected under G.S. 105-164.4 on piped natural gas, less the cost to the Department of administering the distribution. Each city's share of the amount to be distributed is its excise tax share calculated under subsection (b) of this section plus its ad valorem share calculated under subsection (c) of this section. A gas city will also receive an amount calculated under subsection (b1) of this section as part of its excise tax share. If the net proceeds of the tax allocated under this section are not sufficient to distribute the excise tax share of each city under subsection (b) of this section, the gas city share under subsection (b1) of this section, the proceeds shall be distributed to each city on a pro rata basis. The Secretary must make the distribution within 75 days after the end of each quarter."

SECTION 1.(d) G.S. 105-164.44L is amended by adding a new subsection to read:
"(b1) Gas Cities. – In addition to the excise tax share calculated under subsection (b) of this section, a gas city shall receive as part of its excise tax share a distribution calculated under this subsection. The Secretary must determine the amount the gas city would have received under repealed G.S. 105-187.44 for the last year in which taxes were imposed under repealed Article 5E of this Chapter if piped natural gas consumed by the city or delivered by the city to a customer had not been exempt from tax under repealed G.S. 105-187.41(c)(1) and G.S. 105-187.41(c)(2), excluding any amount received under subsection (b) of this section, and divide that amount by four to calculate the quarterly distribution amount for a gas city under this subsection. A gas city must report the information required by the Secretary to make the distribution under this section in the form, manner, and time required by the Secretary. The determination made by the Department with respect to a gas city's share under this subsection is final and is not subject to administrative or judicial review. For purposes of this section, the term "gas city" is a city in this State that operated a piped natural gas distribution system as of July 1, 1998. ..."

SECTION 2. G.S. 47F-1-103 reads as rewritten:

"§ 47F-1-103. Definitions.

In the declaration and bylaws, unless specifically provided otherwise or the context otherwise requires, and in this Chapter:

(1) "Affiliate of declarant" means any person who succeeds to any special declarant rights and who controls, is controlled by, or is under common control with a declarant. A person "controls" a declarant if the person is any of the following:

a. A general partner, officer, director, or employer of the declarant.

b. Directly or indirectly or acting in concert with one or more other persons, or through one or more subsidiaries, owns, controls, holds with power to vote, or holds proxies representing more than twenty percent (20%) of the voting interest in the declarant.

c. Controls in any manner the election of a majority of the directors of the declarant.

d. Has contributed more than twenty percent (20%) of the capital of the declarant.

A person "is controlled by" a declarant if the declarant (i) is a general partner, officer, director, or employer of the person; (ii) directly or indirectly...
or acting in concert with one or more other persons, or through one or more
subsidiaries, owns, controls, holds with power to vote, or holds proxies
representing more than twenty percent (20%) of the voting interest in the
person; (iii) controls in any manner the election of a majority of the directors
of the person; or (iv) has contributed more than twenty percent (20%) of the
capital of the person. Control does not exist if the powers described in this
subdivision are held solely as security for an obligation and are not
exercised.

(11) "Development rights" means any right or combination of rights reserved by a
declarant in the declaration (i) to add real estate to a planned community; (ii)
to create lots, common elements, or limited common elements within a
planned community; (iii) to subdivide or combine lots or convert lots into
common elements; or (iv) to withdraw real estate from a planned
community.

SECTION 3. G.S. 47F-3-104 reads as rewritten:

"§ 47F-3-104. Transfer of special declarant rights.

(a) Except for transfer of declarant rights pursuant to foreclosure, no No special
declarant right (G.S. 47F-1-103(28)) defined under this Chapter may be transferred except by
an instrument evidencing the transfer recorded in every county in which any portion of the
planned community is located. TheExcept for the transfer of declarant rights pursuant to
subsection (c) of this section, the instrument is not effective unless executed by the transferee.

(b) Upon transfer of any special declarant right, the liability of a transferor declarant is
as follows:

(1) A transferor is not relieved of any obligation or liability arising before the
transfer and remains liable for warranty obligations imposed upon the
transferor by this Chapter. Lack of privity does not deprive any lot owner of
standing to maintain an action to enforce any obligation of the transferor.

(2) If a successor to any special declarant right is an affiliate of a declarant
(G.S. 47F-1-103(1)), the transferor is jointly and severally liable with the
successor for any obligations or liabilities of the successor relating to the
planned community.

(3) If a transferor retains any special declarant rights but transfers other special
declarant rights to a successor who is not an affiliate of the declarant, the
transferor is liable for any obligations or liabilities imposed on a declarant by
this Chapter or by the declaration relating to the retained special declarant
rights and arising after the transfer.

(4) A transferor has no liability for any act or omission or any breach of a
contractual or warranty obligation arising from the exercise of a special
declarant right by a successor declarant who is not an affiliate of the
transferor.

(c) Unless otherwise provided in a mortgage instrument, deed of trust, or other
agreement creating a security interest, in case of foreclosure of a security interest, sale by a
trustee under an agreement creating a security interest, tax sale, judicial sale, or sale under
Bankruptcy Code or receivership proceedings of any lots owned by a declarant, or real estate in
a planned community subject to development rights, or real estate subject to development rights
for a planned community, a person acquiring title to all the property being foreclosed or sold,
but only upon the person's request in an instrument recorded in every county in which any
portion of the planned community is located, succeeds to all special declarant rights
(G.S. 47F-1-103(28)) related to that property held by that declarant and requested by the person
acquiring title. The judgment or instrument conveying title shall provide for transfer of only the
special declarant rights requested. The mortgage, deed of trust, tax lien, or other conveyance to
be foreclosed under this subsection shall not be required to contain specific reference to an assignment of special declarant rights but shall be deemed to include the special declarant rights as part of the right, title, and interest encumbered by the mortgage, deed of trust, tax lien, or other conveyance.

(d) Upon foreclosure of a security interest, sale by a trustee under an agreement creating a security interest, tax sale, judicial sale, or sale under Bankruptcy Code or receivership proceedings of all interests in a planned community owned by a declarant, the declarant ceases to have any special declarant rights and the period of declarant control (G.S. 47F-3-103(d)) terminates unless either of the following applies:

1. The judgment or instrument conveying title provides for transfer of all special declarant rights held by that declarant to a successor declarant.
2. The declarant transferred special declarant rights related to the appointment of executive board members to another person pursuant to this section prior to the foreclosure or sale.

(e) The liabilities and obligations of a person who succeeds to special declarant rights are as follows:

1. A successor to any special declarant right who is an affiliate of a declarant is subject to all obligations and liabilities imposed on the transferor by this Chapter or by the declaration.
2. Unless otherwise specified in the declaration as to the holder of a mortgage instrument, deed of trust, or other agreement creating a security interest, in case of foreclosure of a security interest, sale by a trustee under an agreement creating a security interest, tax sale, judicial sale, or sale under Bankruptcy Code or receivership proceedings, a successor to any special declarant right who is not an affiliate of a declarant, other than a successor described in subdivision (3) or (4) of this subsection, is subject to the obligations and liabilities expressly imposed by this Chapter or the declaration:
   a. On a declarant which relate to the successor's exercise or nonexercise of special declarant rights; or
   b. On his or her transferor, other than:
      1. Misrepresentations by the transferor or any previous declarant;
      2. Warranty obligations on improvements made by the transferor or any previous declarant or made before the planned community was created;
      3. Obligations and liabilities arising out of contractual agreements between the transferor or any previous declarant and third parties other than the declaration;
      4. Breach of any fiduciary obligation by the transferor or any previous declarant or his or her appointees to the executive board; or
      5. Any liability or obligation imposed on the transferor or any previous declarant as a result of the transferor's acts or omissions after the transfer.

3. A successor to only a right reserved in the declaration to maintain sales offices, management offices, signs advertising the planned community, and models, if the successor is not an affiliate of the declarant, may not exercise any other special declarant right and is not subject to any liability or obligation as a declarant.

4. A successor to all special declarant rights held by a transferor who is not an affiliate of the declarant who succeeded to those rights pursuant to a deed or other instrument of conveyance in lieu of foreclosure or a judgment or
instrument conveying title under subsection (c) of this section may declare in
a recorded instrument the intention to hold those rights solely for transfer to
another person. Thereafter, until transferring all special declarant rights to
any person acquiring title to any lot or real estate subject to development
rights owned by the successor, or until recording an instrument permitting
exercise of all those rights, that successor may not exercise any of those
rights other than any right held by his or her transferor to control the
executive board in accordance with G.S. 47F-3-103(d) for the duration of
any period of declarant control, and any attempted exercise of those rights is
void. So long as a successor declarant does not have the right to exercise
special declarant rights under this subsection, the successor declarant is not
subject to any liability or obligation as a declarant other than liability for his
or her acts and omissions under G.S. 47F-3-103(d).

(f) Nothing in this section subjects any successor to a special declarant right to any
claims against or other obligations of a transferor declarant other than claims and obligations
expressly arising under this Chapter or the declaration.

(g) For purposes of this section, "assignment of declarant rights" shall include any
assignment by the declarant of special declarant rights to a person, including, without
limitation, an assignment pursuant to this section."

SECTION 4. This act is effective when it becomes law. Nothing in this act shall be
construed as being applicable to or affecting any pending litigation, except that the last
sentence of G.S. 47F-3-104(c) shall be applicable to any mortgage, deed of trust, tax lien, or
other conveyance providing for foreclosure recorded on or after January 1, 1999.

CHANGING REGULATORY CLIMATE FOR THE TELECOMMUNICATIONS
INDUSTRY, AS RECOMMENDED BY THE LRC COMMITTEE ON THE
ASSESSMENT OF REGULATED AND NON-REGULATED INDUSTRY UTILITY
FEES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 62-302 reads as rewritten:

(a) Fee Imposed. – It is the policy of the State of North Carolina to provide fair
regulation of public utilities in the interest of the public, as provided in G.S. 62-2. The cost of
regulating public utilities is a burden incident to the privilege of operating as a public utility.
Therefore, for the purpose of defraying the cost of regulating public utilities, every public
utility subject to the jurisdiction of the Commission shall pay a quarterly regulatory fee, in
addition to all other fees and taxes, as provided in this section. The fees collected shall be used
only to pay the expenses of the Commission and the Public Staff in regulating public utilities in
the interest of the public.

It is also the policy of the State to provide limited oversight of certain electric membership
corporations as provided in G.S. 62-53. Therefore, for the purpose of defraying the cost of
providing the oversight authorized by G.S. 62-53 and G.S. 117-18.1, each fiscal year each
electric membership corporation whose principal purpose is to furnish or cause to be furnished
bulk electric supplies at wholesale as provided in G.S. 117-16 shall pay an annual fee as
provided in this section.

(b) Public Utility Rate. –

(2) For noncompetitive jurisdictional revenues as defined in
sub-subdivision (4)a. of this subsection, the public utility regulatory fee for
each fiscal year shall be is the greater of (i) a percentage rate, established by

jurisdictional revenues as defined in sub-subdivision (4)b. of this subsection,
and subsection (m) competitive jurisdictional revenues as defined in
sub-subdivision (4)c. of this subsection, the public utility regulatory fee for
each fiscal year is a percentage rate established by the General Assembly of
each public utility's competitive jurisdictional revenues for each quarter.

When the Commission prepares its budget request for the upcoming
fiscal year, the Commission shall propose a percentage rate of the public
utility regulatory fee. For fiscal years beginning in an odd-numbered year,
that proposed rate shall be included in the budget message the Governor
submits to the General Assembly pursuant to G.S. 143C-3-5. For fiscal years
beginning in an even-numbered year, that proposed rate shall be included in
a special budget message the Governor shall submit to the General
Assembly. The General Assembly shall set the percentage rate of the public
utility regulatory fee by law.

The percentage rate may not exceed the amount necessary to generate
funds sufficient to defray the estimated cost of the operations of the Commission and the Public Staff for the upcoming fiscal year, including a
reasonable margin for a reserve fund. The amount of the reserve may not
exceed the estimated cost of operating the Commission and the Public Staff
for the upcoming fiscal year. In calculating the amount of the reserve, the
General Assembly shall consider all relevant factors that may affect the cost of operating the Commission or the Public Staff or a possible unanticipated increase or decrease in North Carolina jurisdictional revenues.

(3) If the Commission, the Public Staff, or both experience a revenue shortfall, the Commission shall implement a temporary public utility regulatory fee surcharge to avert the deficiency that would otherwise occur. In no event may the total percentage rate of the public utility regulatory fee plus any surcharge established by the Commission exceed twenty-five hundredths percent (0.25%).

(4) As used in this section, the term "North Carolina jurisdictional revenues" means:

a. "Noncompetitive jurisdictional revenues" means all revenues derived or realized from intrastate tariffs, rates, and charges approved or allowed by the Commission or collected pursuant to Commission order or rule, but not including tap-on fees or any other form of contributions in aid of construction.

b. c. "Subsection (m) competitive jurisdictional revenues" means all revenues derived from retail services provided by local exchange companies and competing local providers that have elected to operate under G.S. 62-133.5(m).

(e) Recovery of fee increase. – If a utility's regulatory fee obligation is increased, the Commission shall either adjust the utility's rates to allow for the recovery of the increased fee obligation, or approve the utility's request for an accounting order allowing deferral of the increase in the fee obligation.”

SECTION 2.(a) The percentage rate to be used in calculating the public utility regulatory fee under G.S. 62-302(b)(2) for each public utility's North Carolina subsection (h) competitive jurisdictional revenues as defined by G.S. 62-302(b)(4)b. earned during each quarter that begins on or after July 1, 2015, is six hundredths of one percent (0.06%).

SECTION 4. For the 2015-2016 and 2016-2017 fiscal years, the percentage rate to be used in calculating the public utility regulatory fee under G.S. 62-302(b)(2) for each public utility's North Carolina noncompetitive jurisdictional revenues as defined by G.S. 62-302(b)(4)a. shall be adjusted to reflect the decrease in the total regulatory fee collected as a result of Sections 2 and 3 of this act and shall be set to ensure the total regulatory fee
collected for each fiscal year is at least an amount sufficient to defray the cost of the operations of the Commission and the Public Staff for the upcoming fiscal year, including a reasonable margin for a reserve fund.

SECTION 1. G.S. 54-109.58(d) reads as rewritten:
"(d) A pledge of such account by any holder or holders shall, unless otherwise specifically agreed upon, be a valid pledge and transfer of such account, or of the amount so pledged, and shall not operate to sever or terminate the joint ownership of all or any part of the account. A pledge of a joint account by any one or more of the joint tenants, unless otherwise specifically agreed between the credit union and all joint tenants in writing, shall be a valid pledge and transfer of the account or of the amount so pledged, shall be binding upon all joint tenants, shall not operate to sever or terminate the joint ownership of all or any part of the account, and shall survive the death of any joint tenant."

SECTION 2. G.S. 54B-129(a) reads as rewritten:
"(a) Any two or more persons may open or hold a withdrawable account or accounts. The withdrawable account and any balance thereof shall be held by them as joint tenants, with or without right of survivorship, as the contract shall provide; the account may also be held pursuant to G.S. 41-2.1 and have incidents thereof set forth in that section, provided, however, if the account is held pursuant to G.S. 41-2.1 the contract shall set forth that fact as well. Unless the persons establishing the account have agreed with the association that withdrawals require more than one signature, payment by the association to, or on the order of, any persons holding an account authorized by this section shall be a total discharge of the association's obligation as to the amount so paid. Funds in a joint account established with right of survivorship shall belong to the surviving joint tenant or tenants upon the death of a joint tenant, and the funds shall be subject only to the personal representative's right of collection as set forth in G.S. 28A-15-10(a)(3), or as provided in G.S. 41-2.1 if the account is established pursuant to the provisions of that section. Payment by the association of funds in the joint account to a surviving joint tenant or tenants shall terminate the personal representative's authority under G.S. 28A-15-10(a)(3) to collect against the association for the funds so paid, but the personal representative's authority to collect such funds from the surviving joint tenant or tenants is not terminated. A pledge of such account by any holder or holders shall, unless otherwise

(c) Use. – Revenue in the Workers' Compensation Fund shall be used to provide workers' compensation benefits to (i) members of eligible units and (ii) the employees and volunteers of eligible entities. Chapter 97 of the General Statutes governs the payment of benefits from the Fund. Benefits are payable for compensable injuries or deaths that occur on or after July 1, 1996.

(d) Administration. – The State Fire and Rescue Commission, established under G.S. 58-78-1, shall administer the Workers' Compensation Fund and shall perform this duty by contracting with a third-party administrator. The contracting procedure is not subject to Article 3C of Chapter 143 of the General Statutes. The reasonable and necessary expenses incurred by the Commission in administering the Fund shall be paid out of the Fund by the State Treasurer. The Commission may adopt rules to implement this section.

(e) Revenue Source. – Revenue is credited to the Workers' Compensation Fund from a portion of the proceeds of the tax levied under G.S. 105-228.5(d)(3). In addition, every eligible unit and eligible entity that elects to participate shall pay into the Fund an amount set annually by the State Fire and Rescue Commission to ensure that the Fund will be able to meet its payment obligations under this section. The amount shall be set as a per capita fixed dollar amount for each member of the roster of the eligible unit or for each employee or volunteer of an eligible entity, and the amount may vary based on whether an individual is a volunteer, a part-time employee, or a full-time employee. The payment shall be made to the State Fire and Rescue Commission on or before July 1 of each year. The Commission shall remit the payments it receives to the State Treasurer, who shall credit the payments to the Fund.

(f) The amount of the tax imposed by G.S. 105-228.5(d)(3) credited to the Workers' Compensation Fund shall be the maximum allowed under that statute.

SECTION 2.(b) Effective April 1, 2016, G.S. 58-87-10(f), as amended by Section 20.2(e) of S.L. 2013-360, reads as rewritten:

"(f) Funding Study. – The Department of Insurance shall annually conduct a periodic an actuarial study to that shall do all of the following:

(1) calculate Calculate the amount required to meet the needs of the Fund, projecting at least five years into the future. The study shall be based on a revenue amount that is the greater of the amount paid by members of the Fund as determined under subsection (e) of this section for the fiscal year to which the study applies or the amount paid by members of the Fund as determined under subsection (e) of this section for fiscal year 2012-2013.

(2) Report on the nature of the claims paid by the Fund and any claims-related trends that impact the financial status of the Fund.
(3) Calculate how much revenue from the State and from member premiums would be required to meet the needs of the Fund for each of the following scenarios:
a. The Fund receives twenty percent (20%) of the net proceeds from the tax collected under G.S. 105-228.5(d)(3).
b. Member premiums do not change from the prior year.
c. Member premiums fully fund the Fund without any State support.

(4) Be published no later than February 1 of each year. Upon publishing the study, the Department shall notify the following of its publication:
a. The Office of State Budget and Management.
b. The House Appropriations Committee.
c. The Senate Appropriations/Base Budget Committee.
d. The Fiscal Research Division.

Additionally, beginning in 2016 and every five years thereafter, the study shall include (i) a comparison of Fund premium levels to the premium levels of employees of municipal fire and rescue departments and (ii) a calculation of the amount of revenue generated by experience-rating premium surcharges and, if necessary, recommend changes to experience-rating premium surcharges given claim trends. The Department may contract with a third party to conduct the study required under this section, and the cost of the study may be paid from the Fund. However, if the Department contracts with the same actuary that the Volunteer Safety Workers' Compensation Board contracts with to perform the study under this section, then the Department shall not pay the actuary for data collection and analysis that the actuary has already performed as part of its loss reserve analysis for the Board.

(g) Allocation of Taxes. – The study conducted under subsection (f) of this section shall be reviewed by the Office of State Budget and Management. On or before March 1 of each year, the Office of State Budget and Management, in consultation with the Department of Insurance, must notify the Secretary of Revenue of the amount required to meet the needs of the Fund, as determined by the study, for the upcoming fiscal year. The Secretary of Revenue shall remit that amount, subject to the twenty percent (20%) limitation in G.S. 105-228.5(d)(3), to the Fund.

SECTION 2.(c) G.S. 97-2(5) reads as rewritten:
"(5) Average Weekly Wages. – "Average weekly wages" shall mean the earnings of the injured employee in the employment in which the employee was working at the time of the injury during the period of 52 weeks immediately preceding the date of the injury, including the subsistence allowance paid to veteran trainees by the United States government, provided the amount of said allowance shall be reported monthly by said trainee to the trainee's employer, divided by 52; but if the injured employee lost more than seven consecutive calendar days at one or more times during such period, although not in the same week, then the earnings for the remainder of such 52 weeks shall be divided by the number of weeks remaining after the time so lost has been deducted. Where the employment prior to the injury extended over a period of fewer than 52 weeks, the method of dividing the earnings during that period by the number of weeks and parts thereof during which the employee earned wages shall be followed; provided, results fair and just to both parties will be thereby obtained. Where, by reason of a shortness of time during which the employee has been in the employment of his employer or the casual nature or terms of his employment, it is impractical to compute the average weekly wages as above defined, regard shall be had to the average weekly amount which during the 52 weeks previous to the injury was being earned by a person of the same grade and character employed in the same class of employment in the same locality or community."
But where for exceptional reasons the foregoing would be unfair, either to the employer or employee, such other method of computing average weekly wages may be resorted to as will most nearly approximate the amount which the injured employee would be earning were it not for the injury.

Wherever allowances of any character made to an employee in lieu of wages are specified part of the wage contract, they shall be deemed a part of his earnings.

Where a minor employee, under the age of 18 years, sustains a permanent disability or dies leaving dependents surviving, the compensation payable for permanent disability or death shall be calculated, first, upon the average weekly wage paid to adult employees employed by the same employer at the time of the accident in a similar or like class of work which the injured minor employee would probably have been promoted to if not injured, or, second, upon a wage sufficient to yield the maximum weekly compensation benefit. Compensation for temporary total disability or for the death of a minor without dependents shall be computed upon the average weekly wage at the time of the accident, unless the total disability extends more than 52 weeks, and then the compensation may be increased in proportion to the employee’s expected earnings.

In case of disabling injury or death to a volunteer fireman, firefighter, volunteer member of an organized rescue squad; an authorized pickup firefighter, as defined in subdivision (2) of this section, when that individual is engaged in emergency fire suppression activities for the North Carolina Forest Service; a duly appointed and sworn member of an auxiliary police department organized pursuant to G.S. 160A-282; or senior members of the State Civil Air Patrol functioning under Subpart C of Part 5 of Article 13 of Chapter 143B of the General Statutes, under compensable circumstances, compensation payable shall be calculated upon the average weekly wage the volunteer fireman, firefighter, volunteer member of an organized rescue squad, authorized pickup firefighter of the North Carolina Forest Service; when that individual is engaged in emergency fire suppression activities for the North Carolina Forest Service, member of an auxiliary police department, or senior member of the State Civil Air Patrol was earning in the employment wherein he principally earned his livelihood as of the date of injury. Provided, however, that the minimum compensation payable to a volunteer fireman, firefighter, volunteer member of an organized rescue squad, an authorized pickup firefighter of the North Carolina Forest Service of the Department of Agriculture and Consumer Services, when that individual is engaged in emergency fire suppression activities for the North Carolina Forest Service, a sworn member of an auxiliary police department organized pursuant to G.S. 160A-282, or senior members of the State Civil Air Patrol shall be sixty-six and two-thirds percent (66 2/3%) of the maximum weekly benefit established in G.S. 97-29."

SECTION 2.(d) When renewing its existing contract with its third-party administrator, which contract expires on June 30, 2014, or contracting with a different third-party administrator, the State Fire and Rescue Commission shall, through its contract, require its workers' compensation third-party administrator to do all of the following:

1. Establish a performance management system to set loss prevention goals and track and measure the effectiveness of loss prevention interventions.

2. Evaluate how additional data analytics software or cost models could help manage claim costs.
(3) Determine the expenditures per department allocated to loss prevention services geared toward experience-rating reductions and compare the expenditures allocated per department to the experience-rating premium surcharges paid by each department.

(4) Assess the different ways in which the Rating Modification Model could be adjusted to generate more revenue and incentivize departments to be more engaged in loss prevention services; and, if warranted, implement changes to the Experience Rating Modification Model based on the approval of the Volunteer Safety Workers’ Compensation Fund Board.

(5) Track all legal claims and associated expenses open as of July 1, 2014, and filed thereafter, including information on the reasons each claim was filed and the conditions of the settlement or court ruling, and then share the information and analysis from the database with the Volunteer Safety Workers’ Compensation Fund Board at every quarterly board meeting.

(6) Track suspected and confirmed fraudulent claims open as of July 1, 2014, and filed thereafter and then share the information and analysis from the database with the Volunteer Safety Workers’ Compensation Fund Board at every quarterly board meeting.

(7) Track information for all claims awarded indemnity compensation affected by the minimum weekly compensation provision, as provided in G.S. 97-2(5), that are open on July 1, 2014, and filed on or after July 1, 2014. The database should include the following:
   a. The date of the volunteer's injury.

   e. The amount of indemnity compensation awarded per week based on weekly wages from the regular, paid occupation.
   f. Whether the claim is affected by the minimum weekly compensation provision.
   g. The volunteer's post-injury return date to volunteer duties.

(8) Report to the Volunteer Safety Workers' Compensation Fund Board at every quarterly meeting on all claims awarded indemnity compensation affected by the minimum compensation provision. The report shall include the following:
   a. The total indemnity compensation awarded for each claim, as well as the compensation per week and the number of weeks of compensation.
   b. For each claim, the difference between the indemnity compensation awarded per week to the volunteer and the volunteer's weekly wages from his or her regular, paid occupation.
   c. For each claim, the difference between the total indemnity compensation awarded to the volunteer for number of weeks unable to return to volunteer duties and the volunteer's total wages from regular, paid occupation for the same time period.
   d. The total number of claims affected by the minimum weekly compensation provision (within a specified time period).
   e. The total workers' indemnity compensation amount awarded for all claims affected by the minimum weekly compensation provision (within a specified time period).
f. The difference between the total indemnity compensation awarded to volunteers and the total of all volunteers' wages from their regular, paid occupations for the same time period (within a specific time period).

(9) Track information for all claims awarded indemnity compensation in which a volunteer can return to his or her paid occupation but not his or her volunteer duty that are open on July 1, 2014, and filed on or after July 1, 2014. The database should include the following:
   a. Whether the volunteer has the ability to perform his or her paid occupation but not his or her volunteer duty.
   b. The volunteer's weekly wages from his or her regular, paid occupation.
   c. The amount of indemnity compensation awarded per week based on weekly wages from regular, paid occupation.
   d. The volunteer's post injury return date to volunteer duties.

(10) Report to the Volunteer Safety Workers' Compensation Fund Board at every quarterly meeting on the claims awarded indemnity compensation in which the volunteer can return to his or her paid occupation but not to his or her volunteer duty. The report shall include:
   a. The total number of claims where the volunteer is being awarded indemnity compensation when they can return to their regular, paid occupations (within a specified time period).
   b. The total indemnity compensation awarded for each claim, as well as the compensation per week and the number of weeks of compensation.
   c. The total indemnity compensation awarded for all claims (within a specified time period).

(11) Include a form in the claims-closing material for volunteers who will not be able to return to their regular, paid occupations even though they can return to their volunteer duties, and track these claims and associated wages lost and prepare a report to share with the Volunteer Safety Workers' Compensation Fund Board at every quarterly meeting.

(12) Develop a model return-to-work program for use by fire and rescue departments that participate in the Fund and work with a limited number of departments to implement and test the program for a two-year time period.

(13) Develop metrics by which to determine if the return-to-work program reduces workers' compensation costs.

By January 1, 2015, the State Fire and Rescue Commission shall report to the Fiscal Research Division, the House Appropriations Subcommittee on General Government, and the Senate Appropriations Committee on General Government and Information Technology on the status of the Commission's data collection and analysis efforts and shall include in the report a copy of the State Fire and Rescue Commission's contract with the third-party administrator.

The State Fire and Rescue Commission shall include the provisions of this subsection in all future contracts with its workers' compensation third-party administrators.

This subsection is effective when this act becomes law.

AN ACT TO AMEND THE DUTIES OF THE 911 BOARD RELATING TO PUBLIC SAFETY ANSWERING POINTS, AS RECOMMENDED BY THE JOINT LEGISLATIVE OVERSIGHT COMMITTEE ON INFORMATION TECHNOLOGY, AND TO CLARIFY THE COLLECTION AUTHORITY OF THE DEPARTMENT OF REVENUE FOR THE 911 FEE ON PREPAID WIRELESS.

The General Assembly of North Carolina enacts:

SECTION 1.1. G.S. 62A-40 is amended by adding a new subdivision to read:  
"(4a) Back-up PSAP. – The capability to operate as part of the 911 System and all other features of its associated primary PSAP. The term includes a back-up PSAP that receives 911 calls only when they are transferred from the primary PSAP or on an alternate routing basis when calls cannot be completed to the primary PSAP."

SECTION 1.2. G.S. 62A-42(a) reads as rewritten:
"(a) Duties. – The 911 Board has the following powers and duties:  
(1) To develop the 911 State Plan. In developing and updating the plan, the 911 Board must monitor trends in voice communications service technology and
in enhanced 911 service technology, investigate and incorporate GIS mapping and other resources into the plan, ensure individual PSAP plans incorporate a back-up PSAP, and formulate strategies for the efficient and effective delivery of enhanced 911 service.

(4) To establish policies and procedures to fund advisory services and training for PSAPs, to set operating standards for PSAPs, and back-up PSAPs and to provide funds in accordance with these policies, procedures, and standards.

SECTION 1.3. G.S. 62A-46 reads as rewritten:

"§ 62A-46. Fund distribution to PSAPs.

(a) Monthly Distribution. – The 911 Board must make monthly distributions to primary PSAPs from the amount allocated to the 911 Fund for PSAPs. A PSAP is not eligible for a distribution under this section unless it complies with the requirements of this Article, provides enhanced 911 service, and received distributions from the 911 Board in the 2008-2009 fiscal year. The Board may reduce, suspend, or terminate distributions under this subsection if a PSAP does not comply with the requirements of this Article. The Board must comply with all of the following:

(1) Administration. – The Board must notify PSAPs of the estimated distributions no later than December 31 of each year. The Board must determine actual distributions no later than June 1 of each year. The Board must determine a method for establishing distributions that is equitable and sustainable and that ensures distributions for eligible operating costs and anticipated increases for all funded PSAPs. The Board must establish a formula to determine each PSAP's base amount. The formula must be determined and published to PSAPs in the first quarter of the fiscal year preceding the fiscal year in which the formula is used. The Board may not change the funding formula for the base amount more than once every year.

(2) Reports. – The Board must report to the Joint Legislative Commission on Governmental Operations and the Revenue Laws Study Committee within 45 days of a change in the funding formula. The report must contain a description of the differences in the old and new formulas and the projected distributions to each PSAP from the new formula.

(3) Formula. – The funding formula established by the Board must consider all of the following:

a. The population of the area served by a PSAP.

b. PSAP reports and budgets, disbursement histories, and historical costs.

c. PSAP operations, 911 technologies used by the PSAP, compliance with operating standards of the 911 Board, level of service a PSAP delivers dispatching fire, emergency medical services, law enforcement, and Emergency Medical Dispatch.

d. The tier designation of the county in which the PSAP is located as designated in G.S. 143B-437.08.

e. Any interlocal government funding agreement between a primary PSAP and a secondary PSAP, if the secondary PSAP was in existence as of June 1, 2010, receives funding under the agreement, and is within the service area of the primary PSAP.

f. Any other information the Board considers relevant.

(4) Additional distributions. – In the first quarter of the Board's fiscal year, the Board must determine whether payments to PSAPs during the preceding fiscal year exceeded or were less than the eligible costs incurred by each PSAP during the fiscal year. If a PSAP receives less than its eligible costs in
any fiscal year, the Board may increase a PSAP's distribution in the following fiscal year above the base amount as determined by the formula to meet the estimated eligible costs of the PSAP as determined by the Board. The Board may not distribute less than the base amount to each PSAP except as provided in subsection (b1) of this section. The Board must provide a procedure for a PSAP to request a reconsideration of its distribution or eligible expenses.

(c) Use of Funds. – A PSAP that receives a distribution from the 911 Fund may not use the amount received to pay for the lease or purchase of real estate, cosmetic remodeling of emergency dispatch centers, hiring or compensating telecommunicators, or the purchase of mobile communications vehicles, ambulances, fire engines, or other emergency vehicles. Distributions received by a PSAP may be used only to pay for the following:

(1) The lease, purchase, or maintenance of:
   a. Emergency telephone equipment, including necessary computer hardware, software, and database provisioning.
   b. Addressing.
   c. Telecommunicator furniture.
   d. Dispatch equipment located exclusively within a building where a PSAP or back-up PSAP is located, excluding the costs of base station transmitters, towers, microwave links, and antennae used to dispatch emergency call information from the PSAP or back-up PSAP.

   (1a) The nonrecurring costs of establishing a 911 system.

   (2) Expenditures for in-State training of 911 personnel regarding the maintenance and operation of the 911 system. Allowable training expenses include the cost of transportation, lodging, instructors, certifications, improvement programs, quality assurance training, training associated with call taking, and emergency medical, fire, or law enforcement procedures, and training specific to managing a PSAP or supervising PSAP staff. Training outside the State is not an eligible expenditure unless the training is unavailable in the State or the PSAP documents that the training costs are less if received out-of-state. Training specific to the receipt of 911 calls is allowed only for intake and related call taking quality assurance and improvement. Instructor certification costs and course required prerequisites, including physicals, psychological exams, and drug testing, are not allowable expenditures.

   (3) Charges associated with the service supplier's 911 service and other service supplier recurring charges. The PSAP providing 911 service is responsible to the voice communications service provider for all 911 installation, service, equipment, operation, and maintenance charges owed to the voice communications service provider. A PSAP may contract with a voice communications service provider on terms agreed to by the PSAP and the provider.

(e) Compliance. – A PSAP, or the governing entity of a PSAP, must comply with all of the following in order to receive a distribution under this section:

(1) A county or municipality that has one or more PSAPs must submit in writing to the 911 Board information that identifies the PSAPs in the manner required by the FCC Order.

(2) A participating PSAP must annually submit to the 911 Board a copy of its governing agency's proposed or approved budget detailing the revenues and expenditures associated with the operation of the PSAP. The PSAP budget must identify revenues and expenditures for eligible expense
reimbursements as provided in this Article and rules adopted by the 911 Board.

(3) A PSAP must be included in its governing entity's annual audit required under the Local Government Budget and Fiscal Control Act. The Local Government Commission must provide a copy of each audit of a local government entity with a participating PSAP to the 911 Board.

(4) A PSAP must comply with all requests by the 911 Board for financial information related to the operation of the PSAP.

(4a) A PSAP must have a plan and means for 911 call-taking in the event 911 calls cannot be received and processed in the primary PSAP. The plan must identify the alternative capability of taking the redirected 911 calls. This subdivision does not require a PSAP to construct an alternative facility to serve as a back-up PSAP.

(5) A primary PSAP must comply with the rules, policies, procedures, and operating standards for primary PSAPs adopted by the 911 Board.

SECTION 1.4. Sections 1.1 through 1.4 of this act are effective when this act becomes law and apply to distributions made on or after July 1, 2016.

SECTION 2.1. G.S. 62A-54(c) reads as rewritten:

"(c) Administration. – Administration, auditing, requests for review, making returns, collection of tax debts, promulgation of rules and regulations by the Secretary of Revenue, additional taxes and liens, assessments, refunds, and penalty provisions of Article 9 of Chapter 105 of the General Statutes apply to the collection of the 911 service charge for prepaid wireless telecommunications service. An audit of the collection of the 911 service charge for prepaid wireless telecommunications service shall only be conducted in connection with an audit of the taxes imposed by Article 5 of Chapter 105 of the General Statutes. Underpayments shall be subject to the same interest rate as imposed for taxes under G.S. 105-241.21. Overpayments shall be subject to the same interest rate as imposed for taxes under G.S. 105-241.21(c)(2). Excessive and erroneous collections of the service charge will be subject to G.S. 105-164.11. The Department of Revenue shall establish procedures for a seller of prepaid wireless telecommunications service to document that a sale is not a retail transaction, and the procedures established shall substantially coincide with the procedures for documenting a sale for resale transaction under G.S. 105-164.28. The Secretary of Revenue may retain the costs of collection from the remittances received under subsection (b) of this section, not to exceed five hundred thousand dollars ($500,000) a year of the total 911 service charges for prepaid wireless telecommunications service remitted to the Department. Within 45 days of the end of each month in which 911 service charges for prepaid wireless telecommunications service are remitted to the Department, the Secretary of Revenue shall transfer the total 911 service charges remitted to the Department less the costs of collection to the 911 Fund established under G.S. 62A-44."

SECTION 2.2. Section 8 of S.L. 2011-122, as amended by Section 52 of S.L. 2013-414, is repealed.

SECTION 2.3. Notwithstanding G.S. 62A-54(c), the Department may retain six hundred and forty thousand dollars ($640,000) of the 911 fee service charges for prepaid wireless telecommunications service remitted to the Department in the 2014-2015 fiscal year.

the public interest, and it will be more economical and the interest of the property owners will
best be served by constructing either water or sanitary sewer mains, or both, between streets
rather than in a street, the petition may provide therefor, or in the event the water and sanitary
sewer mains may be constructed in a street without petition, they may be constructed between
streets without petition. The cost of the construction of such water or sewer mains and laterals
shall be assessed according to the street frontage in the same manner and to the same extent
that it would be assessed if the improvements were constructed in a street, provided that the
City shall provide the rights-of-way for construction and maintenance of such mains at its own
expense without assessing the cost thereof.

cannot be made, or, if made would probably exceed the value of the land
assessed.
   (3) Where the owners of all the property to be assessed agree thereto.

"Section 6.69. The Petition; Certificate of Sufficiency.
(a) Except as otherwise provided in subsection (b) of this section, the petition for any
local improvements shall designate by a general description the improvements proposed and
shall request that such proportion of the cost of each of such improvements as may be specified
in the petition be specially assessed against the property abutting on the street or streets or part
thereof in which or on which such improvements are proposed to be made. The petition shall be
filed with the City Clerk.
(b) (1) In any case where the improvement is to be made on one side of a street
only, the petition shall request that the assessment be made only against the
property abutting that side of the street whereon the improvement is to be
made.
   (2) In any case where it is proposed to assess the cost of any local improvement
covering the entire width of a street against the land abutting one side of the
street only or against any lands less than all of those abutting the improved
portion of the street, such petition shall designate the lands to be assessed.
(c) Except as otherwise provided in subsection (d) of this section, the petition shall be

need be signed only by a majority in number of the owners of land abutting

lands abutting such side of the street, excluding street intersections.
(2) Any petition for the making of any improvements covering the entire width of a street and the assessment of the cost thereof against the land abutting one side of the street only or against any lands less than all of those abutting the improved portion of the street, shall be signed by all of the owners of the lands thus proposed to be assessed.

(e) (1) For the purpose of the petition, all the owners of undivided interests in any land shall be deemed and treated as one person and such land shall be sufficiently signed for when the petition is signed by the owner or owners of a majority in amount of such undivided interest.

(2) For the purpose of this section, the word "owner" shall be considered to include the owners of any life estate, of an estate by entirety, or of the estate of inheritance, and shall not include mortgages, trustees of a naked trust, trustees under deeds of trust to secure the payment of money, lienholders, or persons having inchoate rights of courtesy or dower.

(f) Upon the filing of such petition, the City Clerk shall investigate the sufficiency of the petition, and if it is found to be sufficient, the City Clerk shall certify the same to the Council.

"Section 6.70. When Petition Unnecessary.

(a) No petition shall be necessary for the making of any local improvements for which the City bears the entire cost without assessment.

(g) Sidewalk Improvements. — When, in the judgment of the Council, any street or part of a street is without sidewalks and sidewalks should be provided in the public interest, or that any existing sidewalk is unsafe and should be repaired.

(a) Upon the presentation of a sufficient petition for local improvements, or when it is proposed to make without petition any improvements authorized to be made without petition, a notice shall be prepared by the City Attorney that shall contain substantially the following:

The certificate of the person designated to mail the notices that such notices were mailed shall be conclusive in the absence of fraud. The mailing of notices shall be completed not less than five days prior to the date fixed for the hearing. The word "owners," as used herein, has the same meaning as in Section 6.69.

"Section 6.72. Public Hearing. At the time for the public hearing, or at some subsequent time to which such hearing shall be adjourned, the Council shall consider objections to the legality of the improvements made in compliance with subdivision (5) of subsection (a) of the preceding section, together with objections to the policy or expediency of the making of the improvements, and the Council shall thereafter determine whether it will order the making of the improvements. Any objections to the legality of the making of the improvements not made in writing, signed in person or by attorney, and filed with the City Clerk at or before the time or adjourned time of the hearing shall be considered as waived; and if any such objection shall be made and shall not be sustained by the Council, the adoption of the resolution ordering the making of the improvements shall be the final adjudication of the issues presented, unless within 10 days after the adoption of the resolution proper steps shall be taken in a court of competent jurisdiction to secure relief.

"Section 6.73. Resolution Ordering Improvements; Publication. After the public hearing, if the Council determines to make the improvements proposed, it shall adopt a resolution that shall contain the following:

Where such railroad company shall occupy such street or streets under a franchise or contract that otherwise provides, such franchise or contract shall not be affected by this section, except insofar as may be consistent with the provisions of such franchise or contract.
(5) If the improvement directed to be made includes the construction of water mains or sewers, and in order to provide the mains or sewers in the street or streets to be improved it is necessary to extend them beyond the limits of the street or streets, the resolution shall contain a provision for the necessary
extension of such mains or sewers and a further provision that the cost of such extension shall eventually be assessed against the lots or parcels of land abutting the street or streets in which such extensions are made but that assessments shall not be made until such time as the Council shall thereafter determine by appropriate resolution.

(6) If the improvement directed to be made is the paving of a roadway or part thereof, or the construction of sidewalks, the resolution may, but need not, contain a direction that the owner of each lot abutting the part of the street to be improved, connect his lot by means of laterals with water mains, gas or sewer pipes, or any one or more thereof, located in the street adjacent to his premises in accordance with the requirements governing the laying of laterals, and that unless the owners cause laterals to be laid on or before a date specified in the resolution, the date to be not less than 30 days after the date of the resolution, the Council will cause the same to be laid.

"Section 6.74. Details of Construction; Contracts for Construction. The Council shall have power to determine the character and type of construction and of material to be used and to determine any other details of plan or construction necessary to be determined in making any local improvements and to determine whether any work to be done by the City shall be done by contract or by the City. The Council shall have power also, unless otherwise limited, to determine the number of water, sewer, and gas laterals that shall be laid to any lot on any street to be improved. If the work or any part thereof is to be done by contract, the Council may let all of the work in one contract, or it may divide it into several contracts, and may let contracts separately.

"Section 6.75. Determination as to Cost of Improvements. Upon completion of the improvements, the Council shall ascertain the total cost. In addition to other items of cost, there may be included therein the cost of all necessary legal services, the amount of interest paid during construction, the amount of damages paid or to be paid for injury to property by reason of any change of grade or drainage, including court costs and other expenses incidental to the determination of damages, and the cost of retaining walls, sidewalks, or fences built or altered in lieu of cash payment for property damage, including the cost of moving or altering any building. The determination of the Council as to the total cost of any improvement shall be conclusive.

"Section 6.76. Preliminary Assessment. (a) Having determined the total cost, the Council shall make a preliminary assessment. The preliminary assessment shall be advisory only and shall be subject to modification. Except as otherwise provided in subsection (b) of this section, the preliminary assessment shall be as follows:

(1) Roadway paving. The total cost of any roadway paving improvement, excluding the cost incurred at street intersections, shall be specially assessed against the lots and parcels of land abutting the street containing the roadway paved, according to the frontages thereon, by an equal rate per foot of frontage, except that, where the petition so requested, the cost shall be assessed against the lands on one side of the street only or against such lands as were designated in the petition.

(2) Water mains and sewers. The cost of not exceeding an eight-inch water or sanitary sewer main and of not exceeding a 30-inch storm sewer main shall be assessed against the abutting property. Such cost shall be assessed against the lots and parcels of land according to their respective frontages thereon by an equal rate per foot of such frontage or upon such other basis as the Council may determine. If a water or sanitary sewer main in excess of eight
inches in size or a storm sewer in excess of 30 inches in size is laid, the excess cost shall be borne by the city. If the resolution ordered the construction of any pumping station, outfall, septic tank, or disposal plant, no part of the cost of the same shall be specially assessed. Nothing contained herein shall be construed to limit the power of the Council to contract with any property owner or owners for the construction of any pumping station, outfall, septic tank, or disposal plant or for the construction of water mains or storm or sanitary sewers and for the assessment of the cost thereof according to the terms of such contract. The entire cost of each water and sewer lateral shall be specially charged against the particular lot or parcel of land for or in connection with which it was constructed, except that the assessments shall be calculated as if the lateral were laid from the center of the street. The cost of installing storm sewers may, however, be assessed as part of the cost of roadway paving.

(3) Sidewalks. The total cost of constructing or reconstructing sidewalks shall be assessed against the lots and parcels of land abutting that side of the street upon which the improvement is made according to their respective frontages thereon by an equal rate per foot of such frontage, the lots within a block being deemed to abut upon a sidewalk although the latter extends beyond the lot to the curbline of an intersecting street. The total cost of constructing portions of driveways within the street area shall be assessed against the lots for which they are constructed.

(4) Grassplots. The entire cost of grading or otherwise improving or of planting the grassplots in any street or part thereof shall be assessed against the lots and parcels of land abutting the street or part thereof where or whereon the improvements are made by an equal rate per foot front of such frontage, provided that this subsection shall be construed to mean that when a grassplot in any street is graded or planted or otherwise improved, the cost thereof shall be assessed against all of the property abutting the street within the block where such grassplot is located.

(b) If the petition (or the resolution in those cases where the improvement was ordered made without petition) specified that there should be specially assessed against the abutting property a smaller proportion of the cost of any improvement other than that set forth in subdivision (2) of subsection (a) of this section, there shall be assessed against abutting property only the proportion of the cost as was specified in the petition or in said resolution. No restriction or denial of access to an abutting street shall affect the levy or collection of any assessment for local improvements.

(c) The cost of paving, water, sewer, and sidewalk improvements upon, in, or to any portion of a right-of-way or any property owned by the State of North Carolina, any agency or subdivision thereof, shall be assessed against the right-of-way or property and shall be paid by the State, its agency, or subdivision.

"Section 6.77. Corner Lot Exemptions. The Council shall have authority to determine the amount and applicability of assessment exemptions for corner lots and to distinguish between different classifications of property uses. The exemptions for water mains and sanitary sewers shall not exceed 150 feet for residential uses and 100 feet for business uses. If the corner formed by two intersecting streets is rounded into a curve or is foreshortened for the purpose of providing sight distance or for any other purpose of construction, the frontage for assessment purposes shall be calculated to the midpoint of the curve or foreshortened corner.

"Section 6.78. Preliminary Assessment Roll. The Council shall cause to be prepared a preliminary assessment roll, on which shall be entered a brief description of each lot or parcel of land assessed, the amount assessed against each lot, the name or names of the owner or owners of each lot, as far as the same can be ascertained, provided that a map of the improvements on which is shown the frontage and location of each affected lot, together with
the amount assessed against each lot and the name or names of the owner or owners thereof, as far as the same can be ascertained, shall be a sufficient assessment roll. If the resolution directed the making of more than one improvement, a single preliminary assessment roll for all the improvements authorized by such resolution shall be sufficient, but the cost of each improvement to each lot affected shall be shown separately. After the preliminary assessment roll has been completed, it shall be filed in the office of the City Clerk, and there shall be published in some newspaper published in the City that is qualified to carry legal notices, or if there be no such newspaper, the City Clerk shall cause to be posted in three public places in the City, a notice of the completion of the assessment roll, setting forth a description in general terms of the improvements, the amount of each assessment, and stating the time fixed for the meeting of the Council for the hearing of objections to the special assessments, such meeting to be not earlier than five days after the publication or from the date of posting of said notice. Any number of assessment rolls may be included in one notice.

"Section 6.79. Hearing; Revision; Confirmation; Lien. At the time appointed for that purpose or at some other time to which it may adjourn, the Council shall hear objections to the preliminary assessment roll of all persons interested who may appear and offer proof in relation thereto. Then or thereafter, the Council shall either annul or sustain or modify in whole or in part the assessment, either by confirming the preliminary assessment against any or all lots or parcels described thereon, or by cancelling, increasing, or reducing the same, according to the special benefits that the Council decides each of the lots or parcels has received or will receive on account of the improvements, except that assessments against railroads because of contract or franchise obligations shall be in accordance with such obligations. If any property is omitted from the preliminary roll, the Council may place it on the roll and levy the proper assessment. The Council may thereupon confirm the assessment roll, and the assessments so confirmed shall be in proportion to the special benefits, except in the case of franchise obligations of railroads. Whenever the governing body shall confirm assessments for local improvements, the City Clerk shall enter on the Council minutes and on the assessment roll the date, hour, and minute of confirmation, and from the time of confirmation, the assessments shall be a lien on the property assessed of the same nature and to the same extent as county and City taxes and shall be superior to all other liens and encumbrances. After the assessment roll is confirmed, a copy of the same shall be delivered to the City Tax Collector.

"Section 6.80. Appeal to Superior Court. If the owner of, or any person interested in, any lot or parcel of land against which an assessment is made is dissatisfied with the amount of the assessment, the owner or person interested may, within 10 days after the confirmation of the assessment roll, give written notice to the Council that the owner or person interested takes an appeal to the Superior Court of Alamance County, in which case the owner or person interested shall, within 20 days after the confirmation of the assessment roll, serve on the Mayor or City Clerk a statement of facts upon which the owner or person interested bases the appeal. The appeal shall be tried as other actions at law. The remedy herein provided for any person dissatisfied with the amount of the assessment against any property of which that person is the owner or in which that person is interested shall be exclusive.

"Section 6.81. Power to Correct Error in Assessment. If it shall appear after confirmation of any assessment roll that an error has been made, the City Clerk shall cause to be published one time in some newspaper published in the City, or if there be no such newspaper, the City Clerk shall cause to be posted at three public places in the City a notice referring to the assessment roll in which the error was made, naming the owner or owners of the lot or parcel of land affected by the error, if the same can be ascertained, and naming the time and place fixed for a hearing by the Council for the correction of the error, such meeting not to be earlier than 10 days from the publication or from the date of the posting of the notice. At the time fixed in the notice or at some subsequent time to which the Council may adjourn, the Council, after giving the owner or owners of the property affected and other persons interested therein an opportunity to be heard, may proceed to correct the error, and the assessment then made shall have the same force and effect as if it had originally been properly made. No notice and hearing
shall be necessary if the correction does not increase an assessment against any property not owned by the City or if all of the property owners affected by the correction waive notice in writing.

"Section 6.82. Reassessment. The Council shall have the power, when in its judgment there is any irregularity, omission, error, or lack of jurisdiction in any of the proceedings relating thereto, to set aside the whole of the local assessment made by it, and thereupon to make a reassessment. In such case there shall be included, as a part of the cost of the improvements involved, all interest paid or accrued on notes or certificates of indebtedness, or bonds issued by the City to pay the expenses of such improvement. The proceeding shall, as far as practicable, be in all respects as in the case of original assessments, and the reassessment shall have the same force as if it had originally been properly made.

"Section 6.83. Publication of Notice of Confirmation of Assessment Roll. Within 10 days from the confirmation of the assessment roll, the City Clerk shall give notice to all owners of lands to be assessed that the assessment roll has been confirmed, and that assessments may be paid at any time before the expiration of 30 days from the date of such notice, without interest from the date of the confirmation of the assessment roll, but that if such assessment is not paid in full within said time, all installments thereof shall bear interest at the rate of eight percent (8%) per annum from the date of confirmation of the assessment roll. Such notice by the City Clerk shall be given by regular mail. The certificate of the Clerk that such notices have been mailed shall be conclusive in the absence of fraud. (Ord. No. 80-22(a), § 1, 5-6-80)

"Section 6.84. Payment of Assessments in Cash or by Installments. The property owner hereinbefore mentioned in this act shall have the option and privilege of paying for the improvements hereinbefore provided for in cash as provided in the preceding section or in not less than five or more than 10 equal annual installments as may have been determined in the original resolution ordering the improvement or improvements. If paid in installments, such installments shall bear interest at the rate of eight percent (8%) per annum from the date of confirmation of the assessment roll. If any assessment is not paid in cash, the first installment thereof with interest thereon shall become due and payable 30 days after the notice required by the preceding section and one subsequent installment and interest thereon shall be due and payable on the same day of the same month in each successive year until said assessment is paid in full, provided, however, that if the governing body shall so direct such installments shall become due and payable on the same date when property taxes of the City are due and payable. If any installment with interest thereon is not paid when due, it shall be subject to the same penalties as are now prescribed by law for unpaid taxes, in addition to the interest herein provided for. The whole assessment may be paid at any time by the payment of the full amount due with accrued interest. (Ord. No. 80-22(a), § 1, 5-6-80)

"Section 6.85. Enforcement of Payment of Assessments. Upon the failure of any property owner to pay any installment when due and payable, all of the installments remaining unpaid shall immediately become due and payable, and property and rights-of-way may be sold by the City under the same rules, regulations, rights of redemption, and savings as are now prescribed by law for the sale of land for unpaid taxes. Unpaid assessments, interest, and penalties owed by railroad companies and the State of North Carolina, its agencies or subdivisions, may be collected by writs of mandamus issued by the Superior Court of Alamance County. Collection of assessments with interest and penalties may also be made by the City by proceedings to foreclose the lien of assessments as a lien for mortgages is or may be foreclosed under the laws of the State, and it shall be lawful to join in any bill for foreclosure any one or more lots or parcels of land, by whomsoever owned, if assessed for an improvement ordered by the same resolution, after default in the payment of any installment. The payment of all installments due, together with interest and penalties due thereon and costs, before the lot or parcel of land, against which the same is a lien, is sold or said lien is foreclosed shall bar the right of the City to sell land or to foreclose the lien by reason of default.

"Section 6.86. Assessment of Cost of Water Main and Sewer Extensions. If the resolution ordering the making of any improvement or improvements included a provision for any
necessary extension of a water main or sewer or sewers beyond the limit of a street or streets, at
such time after the completion of said extension or extensions as, in the judgment of the
Council, circumstances justify the assessment of the cost thereof, the Council shall cause a
preliminary assessment to be made and the procedure thereafter to be followed with respect to
such assessment and the force and effect thereof shall be as already prescribed for other
assessments.

"Section 6.87. Apportionment of Assessments. In any case where one or more special
assessments have been made, and property has been, or is about to be, subdivided, and it is
desirable that the assessments be apportioned among the subdivisions of such property, the
Council may, upon application by the owner or owners, apportion the assessments among the
subdivisions. Thereafter, each subdivision shall be relieved of any part of the original
assessment except the part apportioned to the subdivision, and the part of the original
assessment apportioned to any subdivision shall be of the same force and effect as the original
assessment.

"Section 6.88. Change of Ownership. No change of ownership of any property or interest
therein after the passage of a resolution ordering the making of a local improvement shall affect
subsequent proceedings, and the improvement may be completed and assessment made therefor
as if there had been no change in ownership.

"Section 6.89. Lands Subject to Assessment. No lands in the City, including railroad
company lands and rights-of-way and property of the State of North Carolina, its agencies, or
subdivisions shall be exempt from special assessments except lands belonging to the United
States that are exempt under the provisions of Federal Statutes, and the Council and the
officers, trustees, or boards of all incorporated or unincorporated bodies in whom is vested the
right to hold and dispose of real property shall have the right by authority duly given to sign the
petition for any local improvements.

"Section 6.90. Proceedings In Rem. All proceedings for special assessments shall be
proceedings in rem, and no mistake or omission as to the name of any owner or person
interested in any lot or parcel of land affected thereby shall be regarded as a substantial mistake
or omission.

"Section 6.91. Grassplot, Sidewalk, and Driveway Maintenance. It shall be the
responsibility of the abutting property owner to maintain any grassplot or driveway between the
property line and the curb of a paved street and to maintain in good, passable condition any
sidewalk immediately fronting his lot.

"Section 6.92. Council may Hold in Abeyance Certain Water and Sewer Assessments.
(a) The City Council may provide by resolution that assessments levied against abutting
lots or parcels of land for water main improvements or sanitary sewer improvements, when in
its opinion such improvements may not presently be used by the owner or owners of the
abutting lots or parcels of land, may be held in abeyance without the payment of any interest
thereon until such time as the Council shall determine that any such assessments shall be paid
in accordance with the terms set out in the confirming resolution. A part of the assessments
levied for the improvements herein set out on a street or streets, or portion thereof, may be held
in abeyance as herein provided without holding all of said assessments in abeyance.

(b) All statutes of limitations are hereby suspended during the time that any assessment
is held in abeyance without the payment of interest, as provided in subsection (a) of this
section. Such time shall not be a part of the time limited for the commencement of action for
the enforcement of the payment of any such assessment, and such action may be brought at any
time within 10 years from the date of the adoption of a resolution by the Council, determining
that such assessment shall be paid in accordance with the original resolution confirming it.

(c) Nothing herein shall be construed to revive any right of action that has heretofore
been barred by the statute of limitations.

"Section 6.93. Abutting Property Outside City Limits. If any lots or parcels of land
abutting any local improvements are located outside the city limits, the Council may continue
and delay the levy of assessments against such property until the city limits are extended to

260
include such property, or the Council may provide that no water or sewer service connections shall be made to such property, pending the annexation thereof, until all assessments thereon are paid. Upon annexation, if not paid prior thereto, the Council may levy assessments for such local improvements against such property, and the procedure therefor shall be the same as provided in this Charter. Nothing contained in this section shall be construed to prohibit or restrict the City Council and a property owner from entering into an agreement for payment in lieu of assessment.

The General Assembly of North Carolina enacts:

SECTION 1. Pursuant to G.S. 150B-21.3(b1), 04 NCAC 10A .0605 (Discovery), 04 NCAC 10A .0701 (Review by the Full Commission), 04 NCAC 10C .0109 (Vocational Rehabilitation Services and Return to Work), 04 NCAC 10E .0203 (Fees Set by the Commission), 04 NCAC 10L .0101 (Form 21 – Agreement for Compensation for Disability), 04 NCAC 10L .0102 (Form 26 – Supplemental Agreement as to Payment of Compensation), and 04 NCAC 10L .0103 (Form 26A – Employer's Admission of Employee's Rights to Permanent Partial Disability), as adopted by the Industrial Commission on March 11, 2014, and approved by the Rules Review Commission on March 20, 2014, are disapproved.

SECTION 4. G.S. 97-25 reads as rewritten:

"§ 97-25. Medical treatment and supplies.

(a) Medical compensation shall be provided by the employer.

(b) Upon the written request of the employee to the employer, the employer may agree to authorize and pay for a second opinion examination with a duly qualified physician licensed to practice in North Carolina, or licensed in another state if agreed to by the parties or ordered by the Commission. If, within 14 calendar days of the receipt of the written request, the request is denied or the parties, in good faith, are unable to agree upon a health care provider to
perform a second opinion examination, the employee may request that the Industrial Commission order a second opinion examination. The expense thereof shall be borne by the employer upon the same terms and conditions as provided in this section for medical compensation.

(c) Provided, however, if the employee so desires, an injured employee may select a health care provider of the employee's own choosing to attend, prescribe, and assume the care and charge of the employee's case subject to the approval of the Industrial Commission. In addition, in case of a controversy arising between the employer and the employee, the Industrial Commission may order necessary treatment. In order for the Commission to grant an employee's request to change treatment or health care provider, the employee must show by a preponderance of the evidence that the change is reasonably necessary to effect a cure, provide relief, or lessen the period of disability. When deciding whether to grant an employee's request to change treatment or health care provider, the Commission may disregard or give less weight to the opinion of a health care provider from whom the employee sought evaluation, diagnosis, or treatment before the employee first requested authorization in writing from the employer, insurer, or Commission.

(d) The refusal of the employee to accept any medical compensation when ordered by the Industrial Commission shall bar the employee from further compensation until such refusal ceases, and no compensation shall at any time be paid for the period of suspension unless in the opinion of the Industrial Commission the circumstances justified the refusal. Any order issued by the Commission suspending compensation pursuant to G.S. 97-18.1 shall specify what action the employee should take to end the suspension and reinstate the compensation.

(e) If in an emergency on account of the employer's failure to provide medical compensation, a physician other than provided by the employer is called to treat the injured employee, the reasonable cost of such service shall be paid by the employer if so ordered by the Industrial Commission.

(f) In claims subject to G.S. 97-18(b) and (d), a party may file an expedited, emergency, or other medical motion with the Office of the Chief Deputy Commissioner. The nonmoving party shall have the right to contest the motion. Motions and responses shall be submitted via electronic mail to the Commission, the opposing party and the opposing party's attorney, simultaneously. The Commission shall conduct an informal telephonic pretrial conference to determine if the motion warrants an expedited or emergency hearing. If the Commission determines that the motion does not warrant an expedited or emergency hearing, the motion shall be decided administratively within 60 days of the date the motion was filed pursuant to rules governing motions practices in contested cases. If the Commission determines that any party has acted unreasonably by initiating or objecting to a medical motion, the Commission may assess costs associated with any proceeding, including reasonable attorneys' fees and deposition costs, against the offending party.

(g) If the Commission determines that a medical motion should be expedited, each party shall be afforded an opportunity to state its position and to submit documentary evidence at an informal telephonic hearing. The medical motion shall contain documentation and support of the request, including the most relevant medical records and a representation that informal means of resolving the issue have been attempted in good faith, and the opposing parties' position, if known. The Commission shall determine whether deposition testimony of medical and other experts is necessary and if so shall order that the testimony be taken within 35 days of the date the motion is filed. For good cause shown, the Commission may reduce or enlarge the time to complete depositions of medical and other experts. Transcripts of depositions shall be expedited and paid for by the administrator, carrier, or employer. Transcripts shall be submitted electronically to the Commission within 40 days of the date the motion is filed unless the Commission has reduced or enlarged the time to complete the depositions. The Commission shall render a decision on the motion within five days of the date transcripts are due to the Commission.
If the Commission determines that a medical motion is an emergency, the Commission shall make a determination on the motion within five days of receipt by the Commission of the medical motion. Motions requesting emergency medical relief shall contain the following: a motion as set forth in this subsection regarding a request for medical compensation or a dispute involving medical issues. The nonmoving party shall have the right to contest the motion. Motions and responses shall be submitted contemporaneously via electronic mail to the Commission and to the opposing party or the opposing party’s attorney.

(1) A party may file a motion with the Executive Secretary for an administrative ruling regarding a request for medical compensation or a dispute involving medical issues. The motion shall be decided administratively pursuant to rules governing motions practices in contested cases. The Commission shall decide the motion within 30 days of the filing of the motion unless an extension of time to respond to the motion has been granted for good cause shown. Either party may file a motion for reconsideration of the administrative order with the Executive Secretary. Either party may request an expedited formal hearing pursuant to G.S. 97-84 and subdivision (2) of this subsection to appeal the decision of the Executive Secretary approving or denying the original motion or the motion for reconsideration. Within five days of the filing of a request for an expedited formal hearing pursuant to G.S. 97-84 and subdivision (2) of this subsection to appeal the decision of the Executive Secretary, the Commission shall assign a Deputy Commissioner to conduct the formal hearing. The decision shall not be stayed during the pendency of an appeal pursuant to G.S. 97-84 and subdivision (2) of this subsection except under those circumstances set out in subdivision (4) of this subsection. A motion to stay shall be filed with the Deputy Commissioner scheduled to conduct the formal hearing pursuant to G.S. 97-84. Either party may appeal the decision of the Deputy Commissioner pursuant to G.S. 97-84 to the Full Commission pursuant to G.S. 97-85. The decision of the Deputy Commissioner shall not be stayed during the pendency of an appeal except under those circumstances set out in subdivision (4) of this subsection. A motion to stay the decision of the Deputy Commissioner pursuant to G.S. 97-84 shall be directed to the Chair of the Commission. The Full Commission shall render a decision on the appeal of the Deputy Commissioner’s decision on the motion within 60 days of the filing of the notice of appeal.

(2) In lieu of filing a motion with the Executive Secretary for an administrative ruling pursuant to subdivision (1) of this subsection, when appealing a ruling made pursuant to subdivision (1) of this subsection or when appealing an administrative ruling of the Chief Deputy or the Chief Deputy’s designee on an emergency motion, a party may request a full evidentiary hearing pursuant to G.S. 97-84 on an expedited basis, limited to a request for medical compensation or a dispute involving medical issues, by filing a motion with the Office of the Chief Deputy Commissioner. The case will not be ordered into mediation based upon a party’s request for hearing on the motion or appeal under this subdivision, except upon the consent of the parties. The Commission shall set the date of the expedited hearing, which shall be held within 30 days of the filing of the motion or appeal and shall notify the parties of the time and place of the hearing on the motion or appeal. Upon request, the Commission may order expedited discovery. The record shall be closed within 60 days of the filing of the motion, or in the case of an appeal pursuant to subdivisions (1) and (3) of this subsection, within 60 days of the filing of the appeal, unless the parties agree otherwise or the Commission so orders. Transcripts of depositions shall be expedited if
necessary and paid pursuant to rules promulgated by the Commission related to depositions and shall be submitted electronically to the Commission. The Commission shall decide the issue in dispute and make findings of fact based upon the preponderance of the evidence in view of the entire record. The award, together with a statement of the findings of fact, rulings of law, and other matters pertinent to the questions at issue shall be filed with the record of the proceedings within 15 days of the close of the hearing record, and a copy of the award shall immediately be sent to the parties. Either party may appeal the decision of the Deputy Commissioner pursuant to G.S. 97-84 to the Full Commission pursuant to G.S. 97-85. The decision of the Deputy Commissioner pursuant to G.S. 97-84 shall not be stayed during the pendency of an appeal except under those circumstances set out in subdivision (4) of this subsection. A motion to stay the decision of the Deputy Commissioner pursuant to G.S. 97-84 shall be directed to the Chair of the Commission. The Full Commission shall render a decision on the appeal of the Deputy Commissioner's decision on the motion within 60 days of the filing of the notice of appeal.

(3) An emergency medical motion filed by either party shall be filed with the Office of the Chief Deputy Commissioner. The Chief Deputy or Chief Deputy's designee shall rule on the motion within five days of receipt unless the Chief Deputy or Chief Deputy's designee determines that the motion is not an emergency, in which case the motion shall be referred to the Executive Secretary for an administrative ruling pursuant to subdivision (1) of this subsection. Motions requesting emergency medical relief shall contain all of the following:

(1)a. An explanation of the medical diagnosis and treatment recommendation of the health care provider that requires emergency attention.

(1)b. A specific statement detailing the time-sensitive nature of the request to include relevant dates and the potential for adverse consequences to the employee movant if the recommended treatment relief is not provided emergently.

(1)c. An explanation of opinions known and in the possession of the employee movant of additional medical or other relevant experts, independent medical examiners, and second opinion examiners.

(1)d. Documentation known and in the possession of the employee movant in support of the request, including relevant medical records.

(1)e. A representation that informal means of resolving the issue have been attempted.

Either party may appeal the decision of the Chief Deputy or the Chief Deputy's designee on the emergency motion by requesting an expedited formal hearing pursuant to G.S. 97-84 and subdivision (2) of this subsection to appeal the administrative decision of the Chief Deputy or the Chief Deputy's designee on the emergency motion. Within five days of the filing of a request for an expedited formal hearing pursuant to G.S. 97-84 and subdivision (2) of this subsection, the Commission shall assign a Deputy Commissioner to conduct the formal hearing. The decision of the Chief Deputy or the Chief Deputy's designee shall not be stayed during the pendency of an appeal of the administrative decision except under those circumstances set out in subdivision (4) of this subsection. Any motion to stay shall be filed with the Deputy Commissioner scheduled to conduct the expedited formal hearing pursuant to G.S. 97-84 and subdivision (2) of this subsection. Either party may appeal the decision of the Deputy
Commissioner pursuant to G.S. 97-84 to the Full Commission pursuant to G.S. 97-85. If so, the decision of the Deputy Commissioner shall not be stayed during the pendency of an appeal except under those circumstances set out in subdivision (4) of this subsection. Any motion to stay the decision of the Deputy Commissioner pursuant to G.S. 97-84 shall be directed to the Chair of the Commission. The Full Commission shall render a decision on the appeal of the Deputy Commissioner's decision on the motion within 60 days of the filing of the notice of appeal.

(4) The Commission shall consider, among other factors, all of the following when determining whether to grant a motion to stay filed pursuant to this subsection:
   a. Whether there would be immediate and irreparable injury, harm, loss, or damage to either party.
   b. The nature and cost of the medical relief sought.
   c. The risk for further injury or disability to the employee inherent in the treatment or its delay.
   d. Whether it has been recommended by an authorized physician.
   e. Whether alternative therapeutic modalities are available and reasonable.

(5) If the Commission determines that any party has acted unreasonably by initiating or objecting to a motion filed pursuant to this section, the Commission may assess costs associated with any proceeding, including any reasonable attorneys' fees and deposition costs, against the offending party.

Prior to May 1, 1990 these guidelines and criteria shall be reported to the General Assembly by the Administrative Office of the Courts by delivering copies to the President Pro Tempore of the Senate and the Speaker of the House of Representatives. The purpose of the guidelines and criteria shall be to ensure that payments ordered for the support of a minor child are in such amount as to meet the reasonable needs of the child for health, education, and maintenance, having due regard to the estates, earnings, conditions, accustomed standard of living of the
child and the parties, the child care and homemaker contributions of each party, and other facts of the particular case. The guidelines shall include a procedure for setting child support, if any, in a joint or shared custody arrangement which shall reflect the other statutory requirements herein.

Periodically, but at least once every four years, the Conference of Chief District Judges shall review the guidelines to determine whether their application results in appropriate child support award amounts. The Conference may modify the guidelines accordingly. The Conference shall give the Department of Health and Human Services, the Administrative Office of the Courts, and the general public an opportunity to provide the Conference with information relevant to the development and review of the guidelines. Any modifications of the guidelines or criteria shall be reported to the General Assembly by the Administrative Office of the Courts before they become effective by delivering copies to the President Pro Tempore of the Senate and the Speaker of the House of Representatives. The guidelines, when adopted or modified, shall be provided to the Department of Health and Human Services and the Administrative Office of the Courts, which shall disseminate them to the public through local IV-D offices, clerks of court, and the media.

Until July 1, 1990, the advisory guidelines adopted by the Conference of Chief District Judges pursuant to this subsection as formerly written shall operate as presumptive guidelines and the factors adopted by the Conference of Chief District Judges pursuant to this subsection as formerly written shall constitute criteria for varying from the amount of support determined by the guidelines.”

Session Law 2014-78 S.B. 812

AN ACT TO EXERCISE NORTH CAROLINA'S CONSTITUTIONAL AUTHORITY OVER ALL ACADEMIC STANDARDS; TO REPLACE COMMON CORE; AND TO ENSURE THAT STANDARDS ARE ROBUST AND APPROPRIATE AND ENABLE STUDENTS TO SUCCEED ACADEMICALLY AND PROFESSIONALLY.

Whereas, the North Carolina Constitution, Article IX, Section 5, directs the State Board of Education to supervise and administer a free public school system and make all needed rules and regulations in relation thereto, subject to laws enacted by the General Assembly; and

Whereas, the North Carolina General Statutes direct the State Board of Education to adopt and modify academic standards for the public schools; and

Whereas, the North Carolina General Statutes also grant local boards of education broad discretion and authority with respect to specific curricular decisions and academic programs, as long as they align with the standards adopted by the State Board of Education; and

Whereas, North Carolina desires its academic standards to be among the highest in the nation; and

Whereas, the adoption and implementation of demanding, robust academic standards is essential for providing high-quality education to our students and for fostering a competitive economy for the future of our State; and

Whereas, North Carolina's standards must be age-level and developmentally appropriate; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1.(a) The State Board of Education shall:
(1) Continue to exercise its authority under the North Carolina Constitution and G.S. 115C-12(9c) to adopt academic standards for the public schools.
(2) Conduct a comprehensive review of all English Language Arts and Mathematics standards adopted under G.S. 115C-12(9c) and propose modifications to ensure that those standards meet all of the following criteria:
   a. Increase students' level of academic achievement.
   b. Meet and reflect North Carolina's priorities.
   c. Are age-level and developmentally appropriate.
   d. Are understandable to parents and teachers.
   e. Are among the highest standards in the nation.
(3) Not enter into any agreement, understanding, or contract that would cede control of the Standard Course of Study and related assessments. This requirement does not prohibit the use of national or international curricula, such as the Advanced Placement or International Baccalaureate programs.
(4) Involve and survey a representative sample of parents, teachers, and the public to help determine academic content standards that meet and reflect North Carolina's priorities and the usefulness of the content standards.
(5) Prior to making changes to the standards, consult with the Academic Standards Review Commission, which is established in Section 2 of this act.

SECTION 1.(b) Academic standards adopted by the State Board of Education under G.S. 115C-12(9c) shall continue to be named and referred to as the "North Carolina Standard Course of Study," reflecting emphasis on North Carolina's needs and priorities. The State Board of Education shall maintain and reinforce the independence of the North Carolina Standard Course of Study and related student assessments, rejecting usurpation and intrusion from federally mandated national or standardized controls.

AN ACT TO MAKE CHANGES TO THE LAW GOVERNING RED LIGHT CAMERAS IN FAYETTEVILLE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-300.1(c), as amended by S.L. 2007-341, reads as rewritten:

"(c) Municipalities may adopt ordinances for the civil enforcement of G.S. 20-158 by means of a traffic control photographic system, as described in subsection (a) of this section. Notwithstanding the provisions of G.S. 20-176, in the event that a municipality adopts an ordinance pursuant to this section, a violation of G.S. 20-158 at a location at which a traffic
control photographic system is in operation shall not be an infraction. An ordinance authorized by this subsection shall provide that:

(1) The owner of a vehicle shall be responsible for a violation unless the owner can furnish evidence that the vehicle was, at the time of the violation, in the care, custody, or control of another person. The owner of the vehicle shall not be responsible for the violation if the owner of the vehicle, within 30 days after the date of personal service or mailing of notification of the violation, furnishes the officials or agents of the municipality which issued the citation either of the following:
   a. An affidavit stating the name and address of the person or company who had the care, custody, and control of the vehicle.
   b. An affidavit stating that the vehicle involved was, at the time, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information.

(1a) Subdivision (1) of this subsection shall not apply, and the registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than 90 days after the date of the violation.

(2) A violation detected by a traffic control photographic system shall be deemed a noncriminal violation for which a civil penalty of seventy-five dollars ($75.00) shall be assessed, and for which no points authorized by G.S. 20-16(c) shall be assigned to the owner or driver of the vehicle nor insurance points as authorized by G.S. 58-36-65.

(3) The owner of the vehicle shall be issued a citation which shall clearly state when the penalty is due and the manner in which the violation may be challenged. The owner shall comply with the directions on the citation. The citation shall be processed by officials or agents of the municipality and shall be forwarded by personal service or first-class mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within 30 days after the date the citation is served or mailed, the owner shall have waived the right to contest responsibility for the violation, and shall be subject to a civil penalty not to exceed one hundred dollars ($100.00). The municipality may establish procedures for the collection of these penalties and may enforce the penalties by civil action in the nature of debt.

(4) The municipality shall institute a nonjudicial administrative hearing to review objections to citations or penalties issued or assessed under this section.

(4a) A municipality enacting an ordinance implementing a traffic control photographic system may enter into a contract with a contractor for the lease, lease-purchase, or purchase of the system. The municipality may enter into only one contract for the lease, lease-purchase, or purchase of the system, and the duration of the contract may be for no more than 60 months. After the period specified in the contract has expired, the system shall either be the property of the municipality, or the system shall be removed and returned to the contractor.

(5) The clear proceeds from the citations issued pursuant to an ordinance authorized by this section shall be paid to the local school board. For the purposes of determining the clear proceeds derived from the citations, the following expenses, not to exceed ten percent (10%) of the civil penalty assessed pursuant to subdivision (2) of this subsection, are authorized to be deducted from each civil penalty assessed pursuant to the provisions of subdivision (2) of this subsection:
a. The cost of materials and postage directly related to the printing and mailing of the first and second notices sent to the owner and, if necessary, the driver of the vehicle.

b. The cost of computer services directly related to the production and mailing of the notices described in sub-subdivision a. of this subdivision.

(6) The municipality may assess a collection assistance fee against the owner and, if necessary, driver of the vehicle under the conditions in this subdivision. Amounts collected must be credited first to the payment of the civil penalty and then to collection assistance fee. The conditions are as follows:

a. The civil penalty has not been paid within 30 days after the personal service or first-class mailing of a second notice that the penalty is due. The second notice must be served or mailed no sooner than 30 days after the day the first notice was served or mailed and must contain a notice stating that a collection assistance fee will be assessed if the penalty is not paid within 30 days after the service or mailing of the second notice, the date when the collection assistance fee will be assessed, and the amount of the collection assistance fee. The collection assistance fee shall not exceed twenty percent (20%) of the civil penalty assessed pursuant to subdivision (2) of this subsection.

b. Collection assistance fees shall be placed in a separate fund that may be used only for the purpose of paying for the costs of collection expended to collect civil penalties that remain unpaid 30 days after the service or mailing of the second notice required pursuant to sub-subdivision a. of this subdivision.

(3) Multiply the annuity amount determined under subdivision (2) of this subsection by the contribution-based benefit cap factor.

(4) Determine the amount of the retirement allowance that results from the member's membership service.

Each employer shall transmit to the Retirement System on account of each member who retires on or after January 1, 2015, having earned his last month of membership service as an employee of that employer the lump sum payment, as calculated under G.S. 128-26(y), that would have been necessary in order for the retirement system to restore the member's retirement allowance to the pre-cap amount. Employers are not required to make contributions on account of any retiree who became a member on or after January 1, 2015, and who earned at least five years of membership service in the Retirement System after January 1, 2015.

Under such rules as the Board of Trustees shall adopt, the Retirement System shall report monthly to each employer a list of those members for whom the employer made a contribution to the Retirement System in the preceding month that are most likely to require an additional employer contribution should they elect to retire in the following 12 months, if applicable."

A member who is a participant or beneficiary of the Disability Income Plan of North Carolina as is provided in Article 6 of this Chapter shall not be paid a return of accumulated contributions, notwithstanding the member's status as an employee or teacher. Notwithstanding any other provision of law to the contrary, a member who is a beneficiary of the Disability Income Plan of North Carolina as provided in Article 6 of this Chapter and who is receiving disability benefits under the transition provisions as provided in G.S. 135-112, shall not be prohibited from receiving a return of accumulated contributions as provided in this subsection.

Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member there shall be paid to such person or persons as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of (m) below. If he becomes a member afterwards, no credit shall be allowed for any service previously rendered except as provided in G.S. 120-4.14 and the payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable under this Article. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member, there shall be paid to the person or persons he nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if the person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of G.S. 120-4.28."

retirement allowance provided by Option 2 of subsection (g) above computed by assuming that the member had retired on the first day of the month following the date of his death, provided that all four of the following conditions apply:

"§ 135-57. Service retirement.

(a) Any member on or after January 1, 1974, who became a member prior to August 1, 2011, and who has attained his fiftieth birthday and five years of membership service may retire upon electronic submission or written application to the board of trustees setting forth at what time, as of the first day of a calendar month, not less than one day nor more than 120 days subsequent to the execution and filing thereof, he desires to be retired.

(a1) Any member who became a member on or after August 1, 2011, and who has attained the member's fiftieth birthday and 10 years of membership service may retire upon electronic submission or written application to the Board of Trustees setting forth at what time, as of the first day of a calendar month, not less than one day nor more than 120 days subsequent to the execution and filing thereof, the member desires to be retired.

(c) Any member who terminates service on or after January 1, 1974, having accumulated five or more years of creditable service and having become a member prior to August 1, 2011, may retire under the provisions of subsection (a) above, provided that he shall not have withdrawn his accumulated contributions prior to the effective date of his retirement, and the requirement of subsection (a) that the member be in service shall not apply.

(d) Any member who was in service October 8, 1981, who had attained 50 years of age, may retire upon electronic submission or written application to the board of trustees setting forth at what time, as of the first day of a calendar month, not less than one day nor more than 120 days subsequent to the execution and filing thereof, he desires to be retired."
G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month. However, a disabled participant may elect to receive any salary continuation as provided in G.S. 135-104 in lieu of long-term disability benefits; provided such election shall not extend the first 36 consecutive calendar months of the long-term disability period. An election to receive any salary continuation for any part of any given day shall be in lieu of any long-term benefit payable for that day, provided further, any lump-sum payout for vacation leave shall be treated as if the beneficiary or participant had exhausted the leave and shall be in lieu of any long-term benefit otherwise payable. Provided that, in any event, a beneficiary's benefit shall be reduced during the first 36 months of the long-term disability period by an amount, as determined by the Board of Trustees, equal to a primary Social Security retirement benefit to which the beneficiary might be entitled.

After 36 months of long-term disability, no further benefits are payable under the terms of this section unless the member has been approved and is in receipt of primary Social Security disability benefits. In that case the benefits payable shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by the primary Social Security disability benefits to which the beneficiary may be entitled, effective as of the first of the month following the month of initial entitlement, and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. When primary Social Security disability benefits are increased by cost-of-living adjustments, the increased reduction shall be applied in the first month following the month in which the member becomes entitled to the increased Social Security benefit. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month.

Notwithstanding the foregoing, but subject to an additional integration with the five-year and 10-year retirement vesting provisions as set forth in this paragraph, the long-term disability benefit is payable so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the earliest date at which the beneficiary who became a member prior to August 1, 2011, is eligible for an unreduced service retirement allowance from the Retirement System, at which time the beneficiary would receive a retirement allowance calculated on the basis of the beneficiary's average final compensation at the time of disability as adjusted to reflect compensation increases subsequent to the time of disability and the creditable service accumulated by the beneficiary, including creditable service while in receipt of benefits under the Plan. In the case of any long-term disability beneficiary who became a member on and after August 1, 2011, and ordinarily would not be eligible for a retirement benefit without 10 years of membership service, for purposes of this conversion from long-term disability to service retirement, and for that purpose only, noncontributory creditable service granted while in receipt of disability benefits under this Article shall be deemed to be membership service, through the completion of 10 years of combined membership and noncontributory service on short-term and long-term disability benefits in total. In the event the beneficiary has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. When such a long-term disability recipient begins receiving this unreduced service retirement allowance from the System, that recipient shall not be subject to the six-month waiting period set forth in G.S. 135-1(20). However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security
Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation.

SEC. 3. (j) G.S. 143-166.41 reads as rewritten:

Any break in the continuous service required by this subsection because of disability retirement or disability salary continuation benefits shall not adversely affect an officer's qualification to receive the allowance, provided the officer returns to service within 45 days after the disability benefits cease and is otherwise qualified to receive the allowance.

(a1) Notwithstanding any other provision of law, every sworn law-enforcement officer as defined by G.S. 135-1(11c) or G.S. 143-166.30(a)(4) employed by a State department, agency, or institution on or after August 1, 2011, and who qualifies under this section shall receive, beginning in the month in which the member retires on a basic service retirement under the provisions of G.S. 135-5(a), an annual separation allowance equal to eighty-five hundredths percent (0.85%) of the annual equivalent of the base rate of compensation most recently applicable to him for each year of creditable service. The allowance shall be paid in equal installments on the payroll frequency used by the employer. To qualify for the allowance, the officer shall:

1. Have (i) completed 30 or more years of creditable service or (ii) attained 55 years of age and completed 10 or more years of creditable service; and
2. Not have attained 62 years of age; and
3. Have completed at least 10 years of continuous service as a law enforcement officer as herein defined immediately preceding a service retirement. Any break in the continuous service required by this subsection because of disability retirement or disability salary continuation benefits shall not adversely affect an officer's qualification to receive the allowance, provided the officer returns to service within 45 days after the disability benefits cease and is otherwise qualified to receive the allowance.

   (b1) The Commission shall develop model practices for incorporation of stormwater capture and reuse into stormwater management programs and shall make information on those model practices available to State agencies and local governments.
   (b2) For purposes of implementing stormwater programs, "built-upon area" means impervious surface and partially impervious surface to the extent that the partially impervious surface does not allow water to infiltrate through the surface and into the subsoil. "Built-upon area" does not include a wooden slatted deck, the water area of a swimming pool, or gravel.

AN ACT TO REAUTHORIZE EXPIRED SPECIAL REGISTRATION PLATES, TO AUTHORIZE ADDITIONAL SPECIAL REGISTRATION PLATES TO BE ON A BACKGROUND OTHER THAN THE "FIRST IN FLIGHT" BACKGROUND, AND TO ESTABLISH A PROCESS BY WHICH PERSONS OR ORGANIZATIONS MUST OBTAIN A MINIMUM NUMBER OF PAID APPLICATIONS PRIOR TO OBTAINING
LEGISLATIVE APPROVAL FOR THE DEVELOPMENT OF A SPECIAL REGISTRATION PLATE.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Any special registration plate authorized under G.S. 20-79.4 that expired as a matter of law on July 1, 2013, pursuant to G.S. 20-79.8, is reenacted. The corresponding provisions for fees under G.S. 20-79.7(a1) and (b) and any other corresponding requirements for the plates under G.S. 20-81.12 are also reenacted. A special registration plate reenacted under this section is subject to the requirements of G.S. 20-63(b1) if the plate is authorized to be on a background other than a "First in Flight" background.

SECTION 1.(b) This section is effective when it becomes law. A special registration plate reenacted by this section shall expire, as a matter of law, on October 1, 2014, if the required number of applications for the special registration plate has not been received by the Division of Motor Vehicles by that date. The notification procedure and the responsibilities of the Revisor of Statutes for a special registration plate that expires pursuant to this subsection shall be in accordance with G.S. 20-79.8 except that the notification date shall be no later than October 15, 2015. The Division shall not accept applications for nor advertise any special registration plate that has expired pursuant to this subsection.

SECTION 2. G.S. 20-63(b1) reads as rewritten:

"(b1) The following special registration plates do not have to be a "First in Flight" plate as provided in subsection (b) of this section. The design of the plates that are not "First in Flight" plates must be developed in accordance with G.S. 20-79.4(a3). For special plates authorized in G.S. 20-79.7 on or after July 1, 2013, the Division may not issue the plate on a background under this subsection unless it receives at least 200 applications for the plate in addition to the applications required under G.S. 20-79.4 or G.S. 20-81.12.

SECTION 3.(a) Article 3 of Chapter 20 of the General Statutes is amended by adding a new section to read:

"§ 20-79.3A. Requirements to establish a special registration plate.
(a) Minimum Number of Paid Applications. – An applicant under this section is a person, organization, or other legal entity seeking authorization to establish a special registration plate for a motor vehicle or a motorcycle. An applicant must obtain the minimum number of paid applications from potential purchasers before submitting a Special Registration Plate Development Application to the Division. A "paid application" means an application completed by a potential purchaser and submitted to the applicant requesting purchase of the special registration plate being proposed by the applicant plus payment of the proposed additional fee amount. The minimum number of paid applications is as follows:

(1) 300 for a special registration plate on a standard background described in G.S. 20-63(b).
(2) 500 for a special registration plate on a background authorized under G.S. 20-63(b1).

(b) Application. – An applicant must submit all of the items listed in this subsection to the Division by February 15 in order for a bill authorizing the special registration plate to be considered for approval during the legislative session being held that year. The Division shall consider an application received after February 15 for approval in the legislative session that begins in the year following the submission date. The application items must include:

(1) A completed Special Registration Plate Development Application.
(2) A fee equal to number of paid applications received by the applicant, which shall be no less than the minimum number of paid applications required under subsection (a) of this section, multiplied by the proposed additional fee amount stated on the Special Registration Plate Development Application submitted by the applicant.

(c) Report to General Assembly. – On or before March 15 of each year, the Division shall submit to the Chairs of the House and Senate Transportation Committees, the Chairs of the House and Senate Finance Committees, and the Research Division of the General Assembly a report that identifies each applicant that has applied for a special registration plate to be authorized in the legislative session being held that year and indicates whether the applicant met the requirements of this section. If an applicant meets the requirements of this section, then a bill may be considered during the legislative session being held that year to authorize a special registration plate for the applicant that submitted the application."
(d) Legislative Approval. – If a special registration plate requested under this section is approved by law, the applicant must submit all of the following items to the Division no later 60 days after the act approving the plate becomes law. If the applicant fails to timely submit the items required under this subsection, the authorization for the special registration plate shall expire in accordance with G.S. 20-79.8(a1). The items to be submitted are:

1. The final artwork for the plate. The Division must review the artwork to ensure it complies with the standardized format established by G.S. 20-79.4(a3).
2. A list of purchasers who submitted to the applicant a paid application for the special registration plate and any additional fees submitted by potential purchasers to the applicant after submission of the Special Registration Plate Development Application.

(e) Legislative Disapproval. – If the special registration plate is not authorized in the legislative session in which the authorization was sought, the Division shall refund to the applicant the fee submitted under subdivision (2) of subsection (b) of this section.

(f) Issuance. – Within 180 days after receipt of the requester’s design and the minimum number of paid applications, the Division shall issue the special registration plate.

SECTION 3.(b) This section becomes effective October 1, 2014, and applies to requests for the establishment of new special registration plates on or after that date or to requests for the reenactment of special registration plates for which the authorization expired on or after that date.

SECTION 3.(c) Notwithstanding the deadlines established in G.S. 20-79.3A(b) and (c), as enacted by this act, the Division shall accept through April 1, 2015, Special Registration Plate Development Applications and shall report the list of qualified applicants to the General Assembly in accordance with G.S. 20-79.3A(c) by May 1, 2015, for a bill to be considered during the 2015 Regular Session of the 2015 General Assembly authorizing a special registration plate requested by an applicant.

SECTION 4.(a) The Division of Motor Vehicles shall develop an application form for use by an applicant to be completed by potential purchasers of a proposed special registration plate. The form must include an explanation of the application process, the fees that must be submitted to the applicant with the application, and the refund process. Specifically, the form must state that the applicant, and not the Division of Motor Vehicles, is responsible for collecting the fees and for refunding the fees to potential purchasers if the request for a special registration plate is not approved by the General Assembly. The form must also include space for the applicant to provide identifying information of the person or organization seeking the special registration plate and point of contact information.

SECTION 4.(b) This section is effective when it becomes law. The Division of Motor Vehicles must, by October 1, 2014, develop the form required by this section and make it available on the Division’s Web site along with an explanation of the special registration plate application process established under this act.

SECTION 5.(a) The Division of Motor Vehicles shall develop a Special Registration Plate Development Application Form for use by an applicant seeking to establish or to reauthorize a special registration plate. The form shall require the following information:

1. The applicant’s identifying information, including point of contact information.
2. A description of the proposed plate, including a draft copy of the proposed plate design in substantially final form that conforms to the specifications set by the Division.
3. The proposed fee for the plate, which must be a minimum of ten dollars ($10.00) that is remitted to the Special Registration Plate Account. If an applicant is proposing a fee in excess of the amount remitted to the Special Registration Plate Account, the applicant must state the additional fee amount and describe the proposed use of the additional fee proceeds.
The name of at least one current member of the General Assembly who would sponsor legislation to authorize the special registration plate.

A statement that must be signed by the applicant indicating that the applicant has obtained the minimum number of paid applications and will submit the list of purchasers and the final artwork to the Division within 60 days of legislation authorizing the requested special registration plate becoming law.

SECTION 5.(b) This section is effective when it becomes law. The Division of Motor Vehicles must, by February 1, 2015, develop the form required by this section and make it available on the Division's Web site. The Division must, by February 1, 2015, make the necessary programming changes to be able to accept Special Registration Plate Development Applications in accordance with this act.

SECTION 6. G.S. 20-79.8 reads as rewritten:

"§ 20-79.8. Expiration of special registration plate authorization.
(a) Expiration—Expiration of Plates Authorized Prior to October 1, 2014. – A special registration plate authorized after July 1, 2011, and before October 1, 2014, pursuant to G.S. 20-79.4 shall expire, as a matter of law, on July 1 of the second calendar year following the year in which the special plate was authorized if the number of required applications for the authorized special plate has not been received by the Division. The Division shall not accept applications for nor advertise any special registration plate that has expired pursuant to this section.

(a1) Expiration of Plates Authorized On or After October 1, 2014. – A special registration plate authorized on or after October 1, 2014, pursuant to G.S. 20-79.4, shall expire as a matter of law upon the applicant's failure to submit to the Division all of the items required under G.S. 20-79.3A(d) within 60 days of the act approving the special registration plate becoming law. The Division shall not accept applications for nor advertise any special registration plate that has expired pursuant to this section.

(b) Notification. – The Division shall notify the Revisor of Statutes in writing, not later than July 15 August 1 of each year, which special registration plate authorizations have expired as a matter of law pursuant to subsection (a) of this section. The Division shall publish a copy of the written notification sent to the Revisor of Statutes pursuant to this subsection on a Web site maintained by the Division or the Department of Transportation.

(c) Revisor of Statutes Responsibilities. – Upon notification of expiration of the authorization for any special registration plate by the Division pursuant to this section, the Revisor of Statutes shall verify that the authorization for each special registration plate listed has expired and shall note such expiration in the applicable statutes. If an authorization for a special registration plate listed in G.S. 20-79.4 expires, the Revisor of Statutes shall revise the subdivision referring to the special registration plate to leave the name of the special registration plate authorized and the date the special registration plate's authorization expired. If an authorization for a special registration plate listed in G.S. 20-79.4 expires, the Revisor of Statutes shall also make corresponding changes to reflect the expiration of the special registration plate's authorization, if applicable, in G.S. 20-63(b), 20-79.7, and 20-81.12."

SECTION 7. The Revenue Laws Study Committee is directed as follows as it relates to registration plates:

(1) To identify whether the process for requests to establish or reauthorize special registration plates under this act requires any modifications and to examine the costs incurred by the Division of Motor Vehicles to administer special registration plates.

(2) To study whether certain governmental entities should have different eligibility or renewal requirements for permanent registration plates; to study whether nongovernmental entities should be eligible for permanent plates and, if so, what the criteria should be; and to examine the costs incurred by the Division of Motor Vehicles to administer permanent registration plates.
The Committee shall report its findings, together with any recommended legislation, to the 2015 Regular Session of the 2015 General Assembly upon its convening.

SECTION 8. Except as otherwise provided, this act is effective when it becomes law.

In the General Assembly read three times and ratified this the 25th day of July, 2014. Became law upon approval of the Governor at 11:56 a.m. on the 1st day of August, 2014.

Session Law 2014-97
H.B. 1193

AN ACT TO MAKE TECHNICAL CHANGES TO THE STATUTES AFFECTING THE STATE RETIREMENT SYSTEMS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 58-86-2(9) reads as rewritten:
"(9) "Inactive member" means a member of the fund who is not on a leave of absence under G.S. 58-86-95 and who is not making timely monthly payments under G.S. 58-86-40 for two consecutive years."

SECTION 2. G.S. 135-5(r) reads as rewritten:
"(r) Notwithstanding anything herein to the contrary, for persons who commenced receiving benefits from the System prior to January 1, 1970, effective July 1, 1973, any member who retired after attaining the age of 60 with 15 or more years of creditable service shall receive a monthly benefit of no less than seventy-five dollars ($75.00) prior to the application of any optional benefit."

SECTION 3.(a) G.S. 135-5(m2) reads as rewritten:
"(m2) Special Retirement Allowance. – At any time coincident with or following retirement, a member may make a one-time election to transfer any portion of the member's eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System and receive, in addition to the member's basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon the member's transferred balance.

A member who became a member of the Supplemental Retirement Income Plan prior to retirement and who remains a member of the Supplemental Retirement Income Plan may make a one-time election to transfer eligible balances, not including any Roth after-tax contributions and the earnings thereon, from any of the following plans to the Supplemental Retirement Income Plan, subject to the applicable requirements of the Supplemental Retirement Income Plan, and then through the Supplemental Retirement Income Plan to this Retirement System:

(1) A plan participating in the North Carolina Public School Teachers' and Professional Educators' Investment Plan.
(2) A plan described in section 403(b) of the Internal Revenue Code.
(3) A plan described in section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.
(4) An individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income.
(5) A tax-qualified plan described in section 401(a) or 403(a) of the Internal Revenue Code.

(i) a plan participating in the North Carolina Public School Teachers' and Professional Educators' Investment Plan; (ii) a plan described in section 403(b) of the Internal Revenue Code; (iii) a plan described in section 457(b) of the Internal Revenue Code that is maintained...
by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state; (iv) an individual retirement account or annuity described in section 408(a) or section 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income; or (v) a tax-qualified plan described in section 401(a) or section 403(a) of the Internal Revenue Code.

Notwithstanding anything to the contrary, a member may not transfer such amounts as will cause the member's retirement allowance under the System to exceed the amount allowable under G.S. 135-18.7(b). The Board of Trustees may establish a minimum amount that must be transferred if a transfer is elected. The member may elect a special retirement allowance with no postretirement increases or a special retirement allowance with annual postretirement increases equal to the annual increase in the U.S. Consumer Price Index. Postretirement increases on any other allowance will not apply to the special retirement allowance. The Board of Trustees shall provide educational materials to the members who apply for the transfer authorized by this section. Those materials shall describe the special retirement allowance and shall explain (i) the relationship between the transferred balance and the monthly benefit and (ii) how the member's heirs may be impacted by the election to make this transfer and any costs and fees involved.

For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and such other tables as may be necessary based upon actual experience. A single set of mortality and such other tables will be used for all members, with factors differing only based on the age of the member and the election of postretirement increases. The Board of Trustees shall modify the mortality and such other tables every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 135-6(n). Provided, however, a member who transfers the member's eligible accumulated contributions from an eligible retirement plan pursuant to this subsection to this Retirement System shall be taxed for North Carolina State Income Tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the eligible plan or the plan through which the transfer was made, whichever is most favorable to the member. The Teachers' and State Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.

The Supplemental Retirement Board of Trustees established under G.S. 135-96 may assess a one-time flat administrative fee not to exceed the actual cost of the administrative expenses relating to these transfers. An eligible plan shall not assess a fee specifically relating to a transfer of accumulated contributions authorized under this subsection. This provision shall not prohibit other fees that may be assessable under the plan. Each plan, contract, account, or annuity shall fully disclose to any member participating in a transfer under this subsection any surrender charges or other fees, and such disclosure shall be made contemporaneous with the initiation of the transfer by the member.

The special retirement allowance shall continue for the life of the member and the beneficiary designated to receive a monthly survivorship benefit under Option 2, 3 or 6 as provided in G.S. 135-5(g), if any. The Board of Trustees, however, shall establish two payment options that guarantee payments as follows:

(1) A member may elect to receive the special retirement allowance for life but with payments guaranteed for a number of months to be specified by the Board of Trustees. Under this plan, if the member dies before the expiration of the specified number of months, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary will receive the benefit only for the remainder of the specified number of months. If the member's designated beneficiary dies before receiving payments for the specified number of months, any remaining payments will be paid to the member's estate.
(2) A member may elect to receive the special retirement allowance for life but is guaranteed that the sum of the special allowance payments will equal the total of the transferred amount. Under this payment option, if the member dies before receiving the total transferred amount, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary or the member's estate shall be paid any remaining balance of the transferred amount.

The Board of Trustees shall report annually to the Joint Legislative Commission on Governmental Operations on the number of persons who made an election in the previous calendar year, with any recommendations it might make on amendment or repeal based on any identified problems.

The General Assembly reserves the right to repeal or amend this subsection, but such repeal or amendment shall not affect any person who has already made the one-time election provided in this subsection."

SECTION 3.(b) G.S. 128-27(m2) reads as rewritten:
"(m2) Special Retirement Allowance. – At any time coincident with or following retirement, a member may make a one-time election to transfer any portion of the member's eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System and receive, in addition to the member's basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon the member's transferred balance.

A member who became a member of the Supplemental Retirement Income Plan prior to retirement and who remains a member of the Supplemental Retirement Income Plan may make a one-time election to transfer eligible balances, not including any Roth after-tax contributions and the earnings thereon, from any of the following plans to the Supplemental Retirement Income Plan, subject to the applicable requirements of the Supplemental Retirement Income Plan, and then through the Supplemental Retirement Income Plan to this Retirement System (i) a plan participating in the North Carolina Public School Teachers' and Professional Educators' Investment Plan; (ii) a plan described in section 403(b) of the Internal Revenue Code; (iii) a plan described in section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state; (iv) an individual retirement account or annuity described in section 408(a) or section 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income; or (v) a tax-qualified plan described in section 401(a) or section 403(a) of the Internal Revenue Code.

Notwithstanding anything to the contrary, a member may not transfer such amounts as will cause the member's retirement allowance under the System to exceed the amount allowable under G.S. 128-38.2(b). The Board of Trustees may establish a minimum amount that must be transferred if a transfer is elected. The member may elect a special retirement allowance with no postretirement increases or a special retirement allowance with annual postretirement increases equal to the annual increase in the U.S. Consumer Price Index. Postretirement increases on any other allowance will not apply to the special retirement allowance. The Board of Trustees shall provide educational materials to the members who apply for the transfer authorized by this section. Those materials shall describe the special retirement allowance and shall explain (i) the relationship between the transferred balance and the monthly benefit; benefit and (ii) how the member's heirs may be impacted by the election to make this transfer and any costs and fees involved.

For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and such other tables as may be necessary based upon actual experience. A single set of mortality and such other tables will be used for all members, with factors differing only based
on the age of the member and the election of postretirement increases. The Board of Trustees shall modify the mortality and such other tables every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 128-28(o). Provided, however, a member who transfers the member's eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan—eligible plan or the plan through which the transfer was made, whichever is most favorable to the member. The Local Governmental Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.

The special retirement allowance shall continue for the life of the member and the beneficiary designated to receive a monthly survivorship benefit under Option 2, 3 or 6 as provided in G.S. 128-27(g), if any. The Board of Trustees, however, shall establish two payment options that guarantee payments as follows:

1. A member may elect to receive the special retirement allowance for life but with payments guaranteed for a number of months to be specified by the Board of Trustees. Under this plan, if the member dies before the expiration of the specified number of months, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary will receive the benefit only for the remainder of the specified number of months. If the member's designated beneficiary dies before receiving payments for the specified number of months, any remaining payments will be paid to the member's estate.

2. A member may elect to receive the special retirement allowance for life but is guaranteed that the sum of the special allowance payments will equal the total of the transferred amount. Under this payment option, if the member dies before receiving the total transferred amount, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary or the member's estate shall be paid any remaining balance of the transferred amount.

The Supplemental Retirement Board of Trustees established under G.S. 135-96 may assess a one-time flat administrative fee not to exceed the actual cost of the administrative expenses relating to these transfers. An eligible plan shall not assess a fee specifically relating to a transfer of accumulated contributions authorized under this subsection. This provision shall not prohibit other fees that may be assessable under the plan. Each plan, contract, account, or annuity shall fully disclose to any member participating in a transfer under this subsection any surrender charges or other fees, and that disclosure shall be made contemporaneous with the initiation of the transfer by the member.

The Board of Trustees shall report annually to the Joint Legislative Commission on Governmental Operations on the number of persons who made an election in the previous calendar year, with any recommendations it might make on amendment or repeal based on any identified problems.

The General Assembly reserves the right to repeal or amend this subsection, but such repeal or amendment shall not affect any person who has already made the one-time election provided in this subsection.

SECTION 4.(a) G.S. 135-1 is amended by adding a new subdivision to read:

"(a) "Consumer Price Index" shall mean the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average, all items, not seasonally adjusted,

SECTION 4.(b) G.S. 128-21 is amended by adding a new subdivision to read:

"(8a) "Consumer Price Index" shall mean the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average, all items, not seasonally adjusted, standard reference base, as published by the Bureau of Labor Statistics of the U.S. Department of Labor."

SECTION 4.(c) G.S. 135-53 is amended by adding a new subdivision to read:

"(5a) "Consumer Price Index" shall mean the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average, all items, not seasonally adjusted, standard reference base, as published by the Bureau of Labor Statistics of the U.S. Department of Labor."

SECTION 4.(d) G.S. 135-3(8)c. reads as rewritten:

"c. Should a beneficiary who retired on an early or service retirement allowance under this Chapter be reemployed by, or otherwise engaged to perform services for, an employer participating in the Retirement System on a part-time, temporary, interim, or on a fee for service basis, whether contractual or otherwise, and if such beneficiary earns an amount during the 12 month period immediately following the effective date of retirement or in any calendar year which exceeds fifty percent (50%) of the reported compensation, excluding terminal payments, during the 12 months of service preceding the effective date of retirement, or twenty thousand dollars ($20,000), whichever is greater, as hereinafter indexed, then the retirement allowance shall be suspended as of the first day of the month following the month in which the reemployment earnings exceed the amount above, for the balance of the calendar year, except when the reemployment earnings exceed the amount above in the month of December, in which case the retirement allowance shall not be suspended. The retirement allowance of the beneficiary shall be reinstated as of January 1 of each year following suspension. The amount that may be earned before suspension shall be increased on January 1 of each year by the ratio of the Consumer Price Index to the Index one year earlier, percentage change between the December Consumer Price Index in the year prior to retirement and the December Consumer Price Index in the year most recently ended, calculated to the nearest tenth of a percent (1/10 of 1%), provided that this percentage change is positive."

SECTION 4.(e) G.S. 128-24(5)c. reads as rewritten:

"c. Should a beneficiary who retired on an early or service retirement allowance be reemployed by, or otherwise engaged to perform services for, an employer participating in the Retirement System on a part-time, temporary, interim, or on fee-for-service basis, whether contractual or otherwise, and if such beneficiary earns an amount during the 12-month period immediately following the effective date of retirement or in any calendar year which exceeds fifty percent (50%) of the reported compensation, excluding terminal payments, during the 12 months of service preceding the effective date of retirement, or twenty thousand dollars ($20,000), whichever is greater, as hereinafter indexed, then the retirement allowance shall be suspended as of the first day of the month following the month in which the reemployment earnings exceed the amount above, for the balance of the calendar year, except when the reemployment earnings exceed the amount above in the month of December, in which case the retirement allowance shall not be suspended. The retirement allowance of the beneficiary shall be reinstated as of January 1 of each year following suspension. The amount that may be earned before suspension shall be increased on January 1 of each year by the ratio of the Consumer Price Index to the Index one year earlier, percentage change between the December Consumer Price Index in the year prior to retirement and the December Consumer Price Index in the year most recently ended, calculated to the nearest tenth of a percent (1/10 of 1%), provided that this percentage change is positive."

SECTION 4(f) G.S. 135-5(e)(1) reads as rewritten:

"(1) The Board of Trustees shall determine whether a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference, as hereinafter indexed, between his disability retirement allowance and the gross compensation earned as an employee during the 12 consecutive months of service in the final 48 months prior to retirement producing the highest gross compensation excluding any compensation received on account of termination. If the disability beneficiary is earning or is able to earn more than the difference, the portion of his disability retirement allowance not provided by his contributions shall be reduced to an amount which, together with the portion of the disability retirement allowance provided by his contributions and the amount earnable by him shall equal the amount of his gross compensation prior to retirement. This difference shall be increased on January 1 each year by the ratio of the Consumer Price Index to the Index one year earlier, percentage change between the December Consumer Price Index in the year prior to retirement and the December Consumer Price Index in the year most recently ended, calculated to the nearest tenth of one percent (1/10th of 1%), provided that this percentage change is positive. Should the earning capacity of the disability beneficiary later change, the portion of his disability retirement allowance not provided by his contributions may be further modified. In lieu of the reductions on account of a disability beneficiary earning more than the aforesaid difference, he may elect to convert his disability retirement allowance to a service retirement allowance calculated on the basis of his average final compensation and creditable service at the time of disability and his age at the time of conversion to service retirement. This election is irrevocable. Provided, the provisions of this subdivision shall not apply to beneficiaries of the Law-Enforcement Officers' Retirement System transferred to this Retirement System who commenced retirement on and before July 1, 1981."

SECTION 4(g) G.S. 128-27(e)(1) reads as rewritten:

"(1) The Board of Trustees shall determine whether a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference, as hereinafter indexed, between his disability retirement allowance and the gross compensation earned as an employee during the 12 consecutive months in the final 48 months of service prior to retirement producing the highest gross compensation excluding any compensation received on account of termination. If the disability beneficiary is earning or is able to earn more than the difference, the portion of his disability retirement allowance not provided by his contributions shall be reduced to an amount which, together with the portion of the disability retirement allowance provided by his contributions and the amount earnable by him

This difference shall be increased on January 1 each year by the ratio of the Consumer Price Index to the Index one year earlier, percentage change between the December Consumer Price Index in the year prior to retirement and the December Consumer Price Index in the year most recently ended, calculated to the nearest tenth of a percent \((1/10 \text{ of } 1\%)\). Should the percentage change be positive. Should the earning capacity of the disability beneficiary later change, the portion of his disability retirement allowance not provided by his contributions may be further modified. In lieu of the reductions on account of a disability beneficiary earning more than the aforesaid difference, he may elect to convert his disability retirement allowance to a service retirement allowance calculated on the basis of his average final compensation and creditable service at the time of disability retirement and his age at the time of conversion to service retirement. This election is irrevocable.

The provisions of this subdivision shall not apply to beneficiaries of the Law Enforcement Officers’ Retirement System transferred to this Retirement System who commenced retirement on and before July 1, 1981."

SECTION 4.(h) G.S. 135-60(d) reads as rewritten:
"(d) The Board of Trustees shall determine whether a disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference, as hereinafter indexed, between his disability retirement allowance and the gross compensation earned as an employee during the 12 consecutive months in the final 48 months of service prior to retirement producing the highest gross compensation excluding any compensation received on account of termination. If the disability beneficiary is earning or is able to earn more than the difference, the portion of his disability retirement allowance not provided by his contributions shall be reduced to an amount which, together with the portion of the disability retirement allowance provided by his contributions and the amount earnable by him shall equal the amount of his gross compensation prior to retirement. "(12) Firefighter. – A member of the group "eligible firemen" as defined in G.S. 58-86-2."

SECTION 5.(b) G.S. 128-27(c) reads as rewritten:
"(c) Disability Retirement Benefits. – Upon the application of a member or of his employer, any member who has had five or more years of creditable service may be retired by the Board of Trustees, on the first day of any calendar month, not less than one day nor more than 120 days next following the date of filing such application, on a disability retirement allowance: Provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, that such incapacity is likely to be permanent, and that such member should be retired; Provided further the medical board shall determine if the member is able to
engage in gainful employment and, if so, the member may still be retired and the disability retirement allowance as a result thereof shall be reduced as in subsection (e) below. Provided further, that the Medical Board shall not certify any member as disabled who:

(1) Applies for disability retirement based upon a mental or physical incapacity which existed when the member first established membership in the system; or

(2) Is in receipt of any payments on account of the same disability which existed when the member first established membership in the system.

The Board of Trustees shall require each employee upon enrolling in the retirement system to provide information on the membership application concerning any mental or physical incapacities existing at the time the member enrolls.

Notwithstanding the requirement of five or more years of creditable service to the contrary, a member who is a law enforcement officer, an eligible firefighter as defined in G.S. 58-86-2, or an eligible rescue squad worker as defined in G.S. 58-86-20, and becomes incapacitated for duty as the natural and proximate result of injuries incurred while in the actual performance of his or her duties, and meets all other requirements for disability retirement benefits, may be retired by the Board of Trustees on a disability retirement allowance.

Notwithstanding the foregoing to the contrary, any beneficiary who commenced retirement with an early or service retirement benefit has the right, within three years of his retirement, to convert to an allowance with disability retirement benefits without modification of any election of optional allowance previously made; provided, the beneficiary would have met all applicable requirements for disability retirement benefits while still in service as a member. The allowance on account of disability retirement benefits to the beneficiary shall be retroactive to the effective date of early or service retirement.

Notwithstanding the foregoing, effective April 1, 1991, the surviving designated beneficiary of a deceased member who met all other requirements for disability retirement benefits, except whose death occurred before the first day of the calendar month in which the member's disability retirement allowance was to be due and payable, may elect to receive the reduced retirement allowance provided by a one hundred percent (100%) joint and survivor payment option in lieu of a return of accumulated contributions, provided the following conditions apply:

(1) At the time of the member's death, one and only one beneficiary is eligible to receive a return of accumulated contributions, and

(2) The member had not instructed the Board of Trustees in writing that he did not wish the provision of this subsection to apply."

SECTION 6. G.S. 135-53(16) reads as rewritten:

"(16) "Retirement" under this Chapter shall mean the commencement of monthly retirement benefits, along with the termination of employment and the complete separation from active service with no intent or agreement, expressed or implied, to return to service. A retirement allowance under the provisions of this Chapter may only be granted upon retirement of a member. In order for a member's retirement to become effective in any month, the member must perform no work, including part-time, temporary, substitute, or contractor work, in any position covered by this Article at any time during the same month immediately following the effective first day of retirement."

SECTION 7. G.S. 120-4.2(c) reads as rewritten:

"(c) Solely for purposes of administering the benefits authorized by G.S. 120-3 to 120-4.2, the authority and duties created by G.S. 120-4.1 as it existed prior to this repealing act shall continue in effect, except that the General Assembly may opt to make annual transfers instead of quarterly transfers of funds to the Department of State Treasurer."

SECTION 8. G.S. 135-103(b)(2) reads as rewritten:

326
"(b) The participation of any person in the Disability Income Plan shall cease upon:

(2) The participant's retirement under the provisions of the Teachers' and State Employees' Retirement System or the Optional Retirement Program, or...

SECTION 9. G.S. 143-166.60(e) reads as rewritten:

"(e) The insurance benefit of the Plan on account of the death of a participant shall be payable to the surviving spouse of the participant or otherwise to the participant's estate; provided, should a participant instruct the Board of Trustees in writing that he the participant does not wish these benefits to be paid to his or her spouse or estate, then the benefits shall be paid to the person or persons as the participant may name for this purpose. The life insurance benefits shall be payable only on account of participants in the Plan for six or more months or, if an actively employed officer, at any time after employment if death results from an accident. The accident and sickness disability insurance benefits shall be payable to a participant at any time after becoming a participant in the Plan."

Session Law 2014-98

AN ACT TO AUTHORIZE THE TOWN OF SPINDALE AND THE CAPE FEAR PUBLIC UTILITY AUTHORITY TO ATTACH PERSONAL PROPERTY, GARNISH WAGES, AND PLACE LIENS ON CERTAIN REAL PROPERTY TO COLLECT UNPAID FEES FOR SEWER AVAILABILITY.

The General Assembly of North Carolina enacts:

SECTION 1. If a town enters into an interlocal contract or agreement pursuant to G.S. 160A-461 for the county to place on the tax bill and to collect a sewer availability fee charged by the town, the county may collect the fee in any manner by which delinquent real property taxes can be collected. Fees become delinquent and accrue interest in the same manner as delinquent real property taxes. The delinquent fee is a lien on the real property owned by the person and benefitted by the sewer availability and shall have the same priority as local property tax liens. Fees and associated liens shall be released or refunded by the town only pursuant to the release and refund provisions that apply to property taxes under G.S. 105-381.

SECTION 2. Section 1 applies only to the Town of Spindale.

SECTION 3. A water and sewer authority created under Article 1 of Chapter 162A of the General Statutes may adopt an ordinance providing that a fee charged by the authority for sewer availability services and remaining unpaid for a period of 90 days may be collected in any manner by which delinquent real property taxes can be collected. If the ordinance states that delinquent fees may be collected in the same manner as delinquent real property taxes, the delinquent fees are a lien on the real property owned by the person and benefitted by the sewer availability. The ordinance adopted by the authority shall provide for an appeals process.

SECTION 4. Section 3 of this act is not intended to in any way alter or modify the priority of a lien established for city and county taxes under Chapter 105 of the General Statutes, and any debt due the Cape Fear Public Utility Authority shall be expressly subordinate to any county or city tax.

SECTION 5. Sections 3 and 4 apply only to the Cape Fear Public Utility Authority.

SECTION 6. This act is effective when it becomes law.
The General Assembly of North Carolina enacts:

SECTION 1. Article 4 of Chapter 93A of the General Statutes is amended by adding a new section to read:

(a) All provisions contained in time share declarations adopted and recorded at the appropriate register of deeds office prior to July 1, 1984, are severable.
(b) The rule against perpetuities may not be applied to defeat any provision of time share declarations or bylaws adopted and recorded at the appropriate register of deeds office prior to July 1, 1984.
(c) Except as otherwise provided in the time share declaration, the board of directors of a time share project may, by an affirmative vote of two-thirds of the board, amend a provision within the time share declaration, provided that the provision to be changed meets all of the following criteria:
   (1) The provision was adopted as part of the original time share declaration recorded prior to July 1, 1984.
   (2) The provision either converts or provides a mechanism to convert ownership of time share units to tenancy in common.
   (d) Title or interest in a time share project or unit is not rendered unmarketable or otherwise affected by reason of an insubstantial failure of the time share declaration to comply with this section. Whether a substantial failure to comply with this section impairs marketability shall be determined by the laws of this State relating to marketability.
   (e) This section shall not otherwise impair the ability of the individual time share owner's right under the time share declaration, bylaws, or the laws of this State to vote to terminate the time share project or to amend the declaration to provide for the termination of the time share project and interests."

SECTION 2. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 25th day of July, 2014.

Became law upon approval of the Governor at 4:30 p.m. on the 5th day of August, 2014.

(e) Overrealized Receipts. – Any provision of law authorizing the expenditure of overrealized receipts shall not apply to the funds referred to in subdivision (1) of subsection (b) of this section unless the language of the law specifically references this section or specifically references funds received by the State or a State agency from a settlement or other final order or judgment of the court.

(f) Required Disposition. – If the terms of a federal grant, another provision of State or federal law, or the State Constitution require a specific disposition of funds received from a settlement or other final order or judgment of the court, nothing in this section shall be construed to supersede, or authorize a deviation from, that specific disposition. Furthermore, nothing in this subsection shall be construed to abrogate the requirement that funds drawn from the State treasury be in consequence of appropriations made by law.

(g) Required Submission. – In addition to any other report or filing that may be required by law, and unless the settlement is sealed pursuant to a written order of the court in accordance with G.S. 132-1.3 or federal law, the Attorney General's Office shall submit a copy to the Legislative Library of any settlement or other final order or judgment of the court in which the State or a State agency receives funds in excess of seventy-five thousand dollars ($75,000). The submission required by this subsection shall be made within 60 days of the date (i) the settlement is entered into or (ii) the final order or judgment of the court is entered. PILOT PROGRAM TO IMPROVE BUDGETING OF THE GENERAL FUND

SECTION 6.7.(a) Finding. – The General Assembly finds that State budgeting is more transparent when the enacted budget for any given fiscal year appropriates all State funds intended for expenditure during that fiscal year, including funds encumbered in prior fiscal years, funds carried forward from prior fiscal years pursuant to statutory authority, and unearned revenue earned in a prior fiscal year.

SECTION 6.7.(b) Review of Current Practices. – The Office of State Budget and the Office of the State Controller, in consultation with the Fiscal Research Division, shall examine all of the following:

(1) How funds in the General Fund are currently accounted for, including practices relating to (i) the reversion of appropriated funds to the General Fund, (ii) the appropriation of funds to pay obligations incurred in prior fiscal years, (iii) the movement of funds into and out of special funds, and (iv) related matters.

(2) How the practices examined pursuant to subdivision (1) of this section compare with those of other states.

(3) Whether any statutory or administrative changes would improve the transparency and accounting accuracy of the General Fund.

(4) Whether the practices examined pursuant to subdivision (1) of this section comply with applicable standards of the Governmental Accounting Standards Board.
SECTION 6.7.(c) Pilot Program. – The Office of State Budget and Management and the Office of the State Controller, in consultation with the Fiscal Research Division, may establish and operate a pilot program to test measures for improving the extent to which funds that are to be spent in a given fiscal year are properly budgeted in that fiscal year. The pilot program may be subject to the following:

(1) The pilot program may include the following programs and funds:
   a. Some or all of the grant programs and special funds within the Department of Environment and Natural Resources.
   b. Some or all of the unexpended appropriations carried forward by The University of North Carolina pursuant to G.S. 116-30.3.
   c. Any other programs and funds that are deemed to be suitable for inclusion in the pilot program.

(2) Funds and programs that are included in the pilot program may be subject to the following requirements:
   a. An alternative liquidation period for encumbered funds that do not revert at the end of the 2014-2015 fiscal year under G.S. 143C-1-2(b).
   b. A requirement (i) that The University of North Carolina prepare an estimate of the amount of funds it anticipates will be carried forward into the 2015-2016 fiscal year pursuant to G.S. 116-30.3 and (ii) that this estimate be submitted to the Office of State Budget and Management and to the Fiscal Research Division no later than March 1, 2015.

SECTION 6.7.(d) Report. – No later than October 1, 2015, the Office of State Budget and Management and the Office of the State Controller, in consultation with the Fiscal Research Division, shall report the results of the review and pilot program required by this section to the chairs of the Senate Appropriations/Base Budget Committee, to the chairs of the House Appropriations Committee, and to the Director of the Budget. The report may include a recommendation to extend the pilot program for an additional fiscal year, if this is deemed desirable.

SECTION 6.7.(e) Recommendations for an Alternative Pilot Program. – If the Office of State Budget and Management and the Office of the State Controller, in consultation with the General Assembly's Fiscal Research Division, determine that the pilot program required by this section cannot be implemented, they shall report the reasons for reaching this conclusion, along with any other findings and recommendations for future action, to the chairs of the Senate Appropriations/Base Budget Committee, to the chairs of the House Appropriations Committee, and to the Director of the Budget. If a report is submitted pursuant to this subsection, then the pilot program required by subsection (c) of this section shall not be implemented, but the review required by subsection (b) of this section shall nonetheless be performed.

SECTION 6.7.(f) Expiration of Pilot Program. – The pilot program required by this section shall expire upon the submission of the report required by subsection (d) of this section or the submission pursuant to subsection (e) of this section stating that the pilot program cannot be implemented.

SECTION 6.7.(g) Effective Date. – This section is effective when it becomes law and applies to funds appropriated for the 2014-2015 fiscal year and subsequent fiscal years.

2. An appropriations bill making adjustments to the current year budget.
3. An appropriations bill authorizing continued operations at current funding levels.
4. In even-numbered years, an appropriations bill that contains a statement that the General Assembly does not intend to enact a Current Operations Appropriations Act that year."

(b) The provisions of subsection (a) of this section shall apply to each fiscal year of the biennium.

SECTION 6.10. Article 6 of Chapter 143C of the General Statutes is amended by adding a new section to read:

1. A list of all reorganizations within State agencies or between State agencies.
2. A list of all positions moved within a State agency or between State agencies.

CONTINGENCY AND EMERGENCY FUND

SECTION 6.12. Section 6.1 of S.L. 2013-360, as amended by Section 1.4 of S.L. 2013-363, reads as rewritten:

"SECTION 6.1. For the 2013-2015 fiscal biennium and notwithstanding the provisions of G.S. 143C-4-4(b), funds appropriated to the Contingency and Emergency Fund may be used only for expenditures required (i) by a court or Industrial Commission order, (ii) to respond to events as authorized under G.S. 166A-19.40(a) of the North Carolina Emergency Management Act, (iii) by the State Treasurer to pay death benefits as authorized under Article 12A of Chapter 143 of the General Statutes, (iv) by the Office of the Governor for crime rewards in accordance with G.S. 15-53 and G.S. 15-53.1, (v) by the Industrial Commission for supplemental awards of compensation, or (vi) by the Department of Justice for legal fees or for litigation expenses incurred by State agencies in defense of the State during the 2014-2015 fiscal year, in an amount not to exceed seven hundred fifty thousand dollars ($750,000), as approved by the Office of State Budget and Management.

These funds shall not be used for other statutorily authorized purposes or for any other contingencies and emergencies."

DEPARTMENT OF ADMINISTRATION/EUGENICS PROGRAM AMENDMENTS

SECTION 6.13. (a) G.S. 143B-426.51 reads as rewritten:

"§ 143B-426.51. Compensation payments.
(a) A claimant determined to be a qualified recipient under this Part shall receive lump sum compensation in the amount determined by this subsection from funds appropriated
to the Department of State Treasurer for these purposes. Except as provided by the succeeding sentence, the amount of compensation for each qualified recipient is the sum of ten million dollars ($10,000,000) divided by the total number of qualified recipients, and all such payments shall be made on June 30, 2015. The State Treasurer shall reduce the ten million dollars ($10,000,000) by holding out a pro-rata amount per claimant for any cases in which there has not been a final determination of the claim on June 30, 2015. Payments made to persons determined to be qualified claimants after that date shall be made upon such determination, and if after final adjudication of all claims there remains a balance from the funds held out, they shall be paid pro-rata to all qualified claimants. A qualified recipient shall receive compensation in the form of two payments. By October 31, 2014, claimants determined by the Commission to be qualified recipients shall receive an initial payment as provided by this section. Claimants determined to be qualified recipients after that date shall receive an initial payment within 60 days of the Commission's determination. A second and final payment shall be made after the exhaustion of all appeals arising from the denial of eligibility for compensation under this Part.

The initial payment to each qualified recipient will be calculated by adding together the number of qualified recipients as of October 1, 2014, and the number of claims outstanding that are pending, then dividing that total number into the sum of ten million dollars ($10,000,000). The initial payment checks shall be remitted by October 31, 2014.

The final payment calculation will be made by taking the balance of compensation funds remaining after the exhaustion of appeals and dividing that sum equally between the number of qualified recipients determined finally to be eligible to receive compensation. The final payment checks shall be remitted within 90 days of the exhaustion of the last appeal. Any qualified claimant who was successful on appeal and who did not receive an initial payment shall be paid an amount equal to the initial payment amount, plus the amount from the final payment calculation.

The Office and the State Controller shall collaborate to facilitate the administration of this section so as to effectuate the compensation of qualified recipients as soon as practicable.

(b) If any claimant shall die during the pendency of a claim, or after being determined to be a qualified recipient, any payment shall be made to the estate of the decedent.

(c) A qualified recipient may assign compensation received pursuant to subsection (a) of this section to a trust established for the benefit of the qualified recipient.

(d) It is the public policy of this State that funds awarded for the compensation of sterilization victims under this Part may be used only for the purpose of benefiting victims and shall not be used to pay attorneys' fees arising from representation at the Office, before the Commission, or on appeal. The General Assembly finds that qualified recipients have suffered a unique harm that calls for a unique remedy and that there are sufficient sources of assistance and pro bono legal representation available to protect their interests. Therefore, any agreement for the acceptance of attorneys' fees is null and void unless counsel has sought and received an opinion from the North Carolina State Bar that the fee arrangement is reasonable under the Rules of Professional Conduct.

(e) All missing claim information must be postmarked to, or received by, the Office by September 23, 2014, in order to be considered.

(f) By September 30, 2014, the Office shall submit all remaining claim forms to the Commission for appropriate disposition in accordance with this Part.

SECTION 6.13.(b) G.S. 143B-426.52(a) reads as rewritten:

"(a) An individual shall be entitled to compensation as provided for in this Part if a claim is submitted on behalf of that individual in accordance with this Part, or is mailed and postmarked on or before June 30, 2014, and that individual is subsequently determined by a preponderance of the evidence to be a qualified recipient, except that any competent adult who gave consent is not a qualified recipient unless that individual can show by a preponderance of the evidence that the consent was not informed."

SECTION 6.13.(c) G.S. 143B-426.53(g) reads as rewritten:
"(g) If at any stage of the proceedings the claimant is determined to be a qualified recipient, the Commission shall give notice to the claimant and to the Office of the State Treasurer, and the State Treasurer Justice for Sterilization Victims and to the Office of State Controller. The Office of State Controller shall make payment of compensation to the qualified recipient or

SECTION 6.13.(d) Of the funds appropriated from the General Fund to the Office of Justice for Sterilization Victims, Department of Administration, the sum of one hundred thirty thousand dollars ($130,000) shall be used for the 2014-2015 fiscal year to pay the costs of administering the compensation program for sterilization victims.

SECTION 6.13.(e) Section 6.18(g) of S.L. 2013-360 reads as rewritten:

"SECTION 6.18.(g) Subsection (b) of this section becomes effective for taxable years beginning on or after January 1, 2015. Subsections (e) and (g) of this section are effective when this act becomes law. The remainder of this section becomes effective July 1, 2013. Except for the provisions of subsections (b) and (c) of this section, and the final adjudication of any claims under subsection (a) of this section that are pending on June 30, 2015, this section expires June 30, 2015, and the Office of Justice for Sterilization Victims is abolished."

SECTION 6.13.(f) G.S. 108A-70.5 is amended by adding a new subsection to read:

"(f) With regard to any recipient who has received compensation pursuant to Part 30 of Article 9 of Chapter 143B of the General Statutes, the Department shall reduce the amount of any recovery it seeks from the deceased recipient’s estate under this section by the amount of the resource disregard provided for in G.S. 143B-426.56(b)(1)."

USE OF CASH BALANCES TO MEET TEMPORARY CASH NEEDS

SECTION 6.14. G.S. 147-86.11(e) is amended by adding a new subdivision to read:

"(7) The State Controller may use cash reserved to the Savings Reserve Account and cash from other funds, including special funds, that is not needed temporarily to meet the cash flow needs of the General Fund, but only to the extent that this authority can be used without jeopardizing the ability of reserves or funds, including special funds, to meet their ongoing obligations. Any cash transferred from reserves or funds, including special funds, shall be fully restored by the end of the fiscal year in which the funds were transferred, and interest shall be paid on all cash transferred to the General Fund pursuant to this subdivision from interest-bearing accounts."

**SECTION 7.5.(a)** The public-private partnerships previously initiated to develop and implement the Tax Information Management Systems (TIMS) are no longer authorized. Effective July 1, 2014, all funding for the TIMS project must be appropriated by the General Assembly to the Department of Revenue for each initiative comprising the project, including all funding generated by the benefits stream.

**SECTION 7.5.(b)** Section 7.17 of S.L. 2013-360, as amended by Section 2.1 of S.L. 2013-363, reads as rewritten:

All such arrangements will terminate June 30, 2018. The public-private arrangement may include terms necessary to implement additional revenue-increasing or cost-savings components if all of the following conditions are met:

1. The funding of the project under the arrangement comes from revenue generated by or cost savings resulting from the project.
2. The funding of the project is dependent on increased revenue or cost savings streams that are different from the existing benefits stream for the implementation of TIMS.
3. The project involves additional identified initiatives that will be integrated into the TIMS solution.

At a minimum, the measurement process shall include all of the following:

3. Monthly calculation of increased revenue and cost-savings attributable to contracts executed under this section.

The pilot program shall continue for a period of four school years and shall end with the 2018-2019 school year.

SECTION 8.35.(b) The virtual charter schools participating in the pilot program authorized by this section shall be subject to the statutes and rules applicable to charter schools pursuant to Part 6A of Article 16 of Chapter 115C of the General Statutes, except as follows:

(2) The maximum overall ratio of teachers to students for kindergarten through eighth grade shall be 1:50, and for ninth through twelfth grade shall be 1:150.

(3) A student who regularly fails to participate in courses may be withdrawn from enrollment pursuant to procedures adopted by the virtual charter school. The procedures adopted by the virtual charter school shall ensure that (i) fair notice is provided to the parent and student and (ii) an opportunity is provided, prior to withdrawal of the student by the school, for the student and parent to demonstrate that failure to participate in courses is due to a lawful absence recognized under Part I of Article 26 of Chapter 115C of the General Statutes and any applicable rules adopted by the State Board of Education.

SECTION 8.35.(c) In addition to the operating requirements applicable to a virtual charter school participating in the pilot program pursuant to Part 6A of Article 16 of Chapter 115C of the General Statutes, the following requirements shall apply to a participating virtual charter school:

(3) All teaching staff shall carry the appropriate State certification to instruct any course and shall receive professional development in virtual instruction pursuant to the school's application to the State Board of Education to participate in the pilot program within 30 days of the employee's date of hire. At least ninety percent (90%) of the teaching staff shall reside within North Carolina.

(4) The school shall have a withdrawal rate below twenty-five percent (25%). A student enrolled in a school with the intent expressed prior to enrollment of only being enrolled for a finite period of time within the school year shall not be counted in the measured withdrawal rate. The school shall keep a written record of a student's stated intent for finite enrollment. A count of school attendance shall be taken at least once during each semester for funding purposes.

(5) The school shall ensure that each student is assigned a learning coach. The learning coach shall provide (i) daily support and supervision of students, (ii) ensure student participation in online lessons, and (iii) coordinate teacher-led instructional sessions and State assessments.

SECTION 8.35.(e) The State Board of Education shall provide State funding to a virtual charter school participating in the pilot program as provided in G.S. 115C-238.29H(a) and G.S. 115C-238.29H(a1). The amount allocated pursuant to G.S. 115C-238.29H(a)(1) shall not, however, include the allocation for low-wealth counties supplemental funding and the allocation for small county supplemental funding. Virtual charter schools participating in the pilot program shall also be subject to the requirements in G.S. 115C-238.29H(b) through G.S. 115C-238.29H(d). The amount of local funds provided to participating schools pursuant to G.S. 115C-238.29H(b) shall be the lesser of seven hundred ninety dollars ($790.00) per pupil or the amount computed in accordance with G.S. 115C-238.29H(b).

SECTION 8.35.(f) A participating virtual charter school that does not comply with the provisions of this section may result in deferment or termination of enrollment expansion, or termination of a pilot. Schools are subject to presentation of data to the State Board of Education at the call of the Chair of the State Board with a minimum of 21 days' notice.

SECTION 8.35.(g) The State Board shall report on the initial implementation of the pilot program to the Joint Legislative Education Oversight Committee by November 15, 2016, and on findings from three years of operation of the pilot program by November 15, 2018. (b) The Department shall furnish a copy of the recipient check register monthly to each county auditor showing a complete list of all recipients of Work First Family Assistance in Standard Program Counties and State-County Special Assistance, their addresses, and the

SECTION 8.39.(c) G.S. 122C-23.1 reads as rewritten:

"§ 122C-23.1. Licensure of residential treatment facilities.

(a) The General Assembly finds:

(1) That much of the care for residential treatment facility residents is paid by the State and the counties;

(2) That the cost to the State for care of residents of residential treatment facilities is substantial, and high vacancy rates in residential treatment facilities further increase the cost of care;

(3) That the proliferation of residential treatment facilities results in costly duplication and underuse of facilities and may result in lower quality service;

(4) There is currently no ongoing relationship between some applicants for licensure and local management entities (LMEs) that are responsible for the placement of children and adults in residential treatment facilities; and

(5) That it is necessary to protect the general welfare and lives, health, and property of the people of the State for the local management entity (LME) to verify that additional beds are needed in the LME's catchment area before new residential treatment facilities are licensed. This process is established to ensure that unnecessary costs to the State do not result, residential
treatment facility beds are available where needed, and that individuals who need care in residential treatment facilities may have access to quality care.

Based on these findings, the Department of Health and Human Services may license new residential treatment facilities if the applicant for licensure submits with the application a letter of support obtained from the local management entity in whose catchment area the facility will be located. The letter of support shall be submitted to the Department of Health and Human Services, Division of Health Service Regulation and Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, and shall specify the number of existing beds in the same type of facility in the catchment area and the projected need for additional beds of the same type of facility.

(b) All private psychiatric residential treatment facilities (PRTFs), as defined in G.S. 122C-450(a)(3), that serve children eligible to attend the public schools in accordance with G.S. 115C-366, including a student who has been suspended or expelled but otherwise meets the requirements of that statute, shall have a facility-based school as a condition of licensure. Subject to the time limits of subsection (c) of this section, the school shall meet all the requirements of a qualified nonpublic school under Article 39 of Chapter 115C of the General Statutes and of a Nonpublic Exceptional Children's Program as defined in G.S. 122C-450(a)(2). The requirements of this subsection and subsection (c) of this section do not apply to PRTFs that are approved charter schools pursuant to Part 6A of Article 16 of Chapter 115C of the General Statutes.

(c) The Department of Health and Human Services may issue an initial license to a PRTF that meets all licensure requirements except for the approval of the facility-based school as a Nonpublic Exceptional Children's Program by the Department of Public Instruction. This initial license is valid for a period of six months, during which time the PRTF shall obtain approval of its facility-based school as a Nonpublic Exceptional Children's Program by the Department of Public Instruction. If such approval is not obtained before the expiration of the initial license, the Department of Health and Human Services shall review the PRTF's license for appropriate action. If the PRTF obtains approval as a Nonpublic Exceptional Children's Program, the Department of Health and Human Services may issue a license for the remainder of the calendar year, and the facility is eligible for annual renewal thereafter.

(d) At any time upon receipt of a written notice from the Department of Public Instruction that a PRTF has not provided or is not providing educational services, or is not reasonably cooperating with the Department of Public Instruction to ensure those services are provided and that compliance with State and federal law is assured, the Department of Health and Human Services shall review the PRTF's license for appropriate action. The Department of Health and Human Services may issue sanctions including (i) requiring a refund of all State funds disbursed for the provision of educational services for the current fiscal year, (ii) barring future funding for the provision of educational services for the current or following year, or (iii) suspending or revoking the PRTF's license.

(e) As used in this subsection, "residential treatment facility" means a "residential facility" as defined in and licensed under this Chapter, but not subject to Certificate of Need requirements under Article 9 of Chapter 131E of the General Statutes."

SECTION 8.39.(d) G.S. 122C-55 is amended by adding a new subsection to read:

"(g2) Whenever there is reason to believe that the client is eligible for educational services through a governmental agency, a facility shall disclose client identifying information to the Department of Public Instruction. Disclosure is limited to that information necessary to establish, coordinate, or maintain educational services. The Department of Public Instruction may further disclose client identifying information to a local school administrative unit as necessary."

SECTION 8.39.(e) Article 6 of Chapter 122C of the General Statutes is amended by adding a new Part to read:

§ 122C-450. Definitions.

(a) The following definitions apply in this Part:

1. "Educational services" means appropriate education-related assessment and instruction provided to any child residing in a private psychiatric residential treatment facility, including special education and related services to a child with a disability as defined in G.S. 115C-106.3(1). An education-related assessment includes the determination of need for special education and related services.

2. "Nonpublic Exceptional Children's Program" means a facility-based school that meets all of the following criteria:
   a. Provides at least one teacher for every 14 students. The PRTF shall report exceptions to this requirement to (i) the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (MH/DD/SAS) to request additional funding for educational services as provided under G.S. 122C-450.1(d) to the extent that funds are available and, if funds are not available, (ii) the Department of Public Instruction to request a waiver from this requirement.
   b. Provides at least one teacher with a North Carolina Professional Educator license in special education, if there is a child with a disability as defined in G.S. 115C-106.3(1) residing in the PRTF.
   c. Registers with the Department of Administration, Division of Nonpublic Schools, under Article 39 of Chapter 115C of the General Statutes.
   d. Has been approved by the Department of Public Instruction to provide educational services as promulgated by the rules adopted by the State Board of Education pursuant to the Administrative Procedures Act.

3. "Private psychiatric residential treatment facility" (PRTF) means a facility, other than a hospital, that provides psychiatric and other behavioral health services as described in Subpart D of C.F.R. Part 441 of Chapter 42 to individuals under age 21 in an inpatient setting licensed by the Department of Health and Human Services as provided under Chapter 122C of the General Statutes. A PRTF does not include a State-operated facility.

§ 122C-450.1. Eligibility and allocations.

(a) A child who is receiving psychiatric and other behavioral health services in a PRTF shall also receive educational services in accordance with federal and State law, if the child is eligible to enroll in public schools as provided in G.S. 115C-366, including a student who has been suspended or expelled but otherwise meets the requirements of that statute. For a child with a disability, as defined in G.S. 115C-106.3(1), who has been placed in a PRTF, all educational services shall meet applicable standards as required under Article 9 of Chapter 115C of the General Statutes.

(b) A PRTF shall be qualified to receive a funding allocation, to the extent that funds are available from the Department of Health and Human Services, to provide educational services if the following conditions are met:

1. The PRTF is licensed by the Department of Health and Human Services pursuant to Chapter 122C of the General Statutes and has a facility-based school approved by the Department of Public Instruction as a Nonpublic Exceptional Children's Program.

2. The PRTF documents deviations from educational and other programmatic requirements when it is medically necessary for a resident in accordance with G.S. 122C-62(e).

(c) A PRTF that meets the qualification standards required in subsection (b) of this section may enter into an educational services contract, to the extent that funds are available,
with a local school administrative unit to assist in the delivery of educational services to the children in the PRTF. The contract shall clearly define the education-related assessment, instruction, and legal responsibilities of both parties engaging in the educational services contract. A PRTF entering into an educational services contract with a local school administrative unit shall submit the educational services contract to both the Department of Public Instruction and the Department of Health and Human Services for inclusion in any required reports to the General Assembly regarding the provision of educational services to children in PRTFs.

(d) To the extent that funds are available in the Department of Public Instruction for the delivery of educational services in PRTFs as provided in this Part, those funds shall be transferred to the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (DMH/DD/SAS). The funds transferred for the purchase of educational services within the PRTF shall not be allocated to LME/MCOs but shall be held in reserve at the DMH/DD/SAS. The DMH/DD/SAS shall use the reserve funds to pay for educational services authorized by the Department of Public Instruction and billed by the PRTFs in a process established by the DMH/DD/SAS. The funds transferred to the DMH/DD/SAS pursuant to this section shall be allocated to the PRTFs for educational services in a manner determined by the Department of Health and Human Services and the Department of Public Instruction in a Memorandum of Understanding or a Memorandum of Agreement. The Department of Health and Human Services shall disburse for these purposes only those funds transferred from the Department of Public Instruction.

(e) The Department of Health and Human Services shall cease disbursement of educational funding to a PRTF upon receipt of a written notice from the Department of Public Instruction that educational services have not been provided. Educational funding disbursement shall be reinstated by the Department of Health and Human Services upon written notice from the Department of Public Instruction that the PRTF is providing educational services.

(f) A PRTF that receives educational funding shall comply with all audit and accounting policies applicable to other public and private entities receiving public funding.

§ 122C-450.2. Information sharing.

(a) Within three business days of admitting a child into a PRTF, the admitting PRTF shall notify (i) the Department of Public Instruction and (ii) the local school administrative unit in which the child was last enrolled, if known. The PRTF shall request a copy of the child's most current Individualized Education Program and any other available documents related to the provision of appropriate educational services from the local school administrative unit. To the extent practicable, the local school administrative unit shall provide this information within three business days of receiving a request made pursuant to this subsection. Upon withdrawal or discharge of a child, the PRTF shall notify the Department of Public Instruction within three business days of such withdrawal or discharge.

(b) The PRTF and the receiving local school administrative unit shall work together to develop a transition plan, including a revised Individualized Education Program, if necessary, to be implemented upon discharge of the child residing in a PRTF.

§ 122C-450.3. Technical assistance and monitoring.

The State Board of Education and the Department of Public Instruction shall (i) offer training to PRTFs on compliance with special education laws and regulations, (ii) maintain a current list of names of children residing in PRTFs along with the name and contact information of the PRTF in which each child resides, and (iii) develop and implement rules to monitor the delivery of educational services in PRTFs, including a process to inform the Department of Health and Human Services when services are not being provided. The Department of Health and Human Services shall appropriately enforce applicable licensing requirements as provided under G.S. 122C-23.1.

§ 122C-450.4. Reporting requirement.

The Department of Health and Human Services and the Department of Public Instruction, in collaboration with other interested agencies, shall submit, by January 15 of each year, a joint

To the extent practicable, these funds shall be used to enhance the affordability, availability, and quality of child care services as described in this section. The North Carolina Partnership may increase this percentage requirement up to a maximum of fifty percent (50%) when, based upon a significant local waiting list for subsidized child care, the North Carolina Partnership determines a higher percentage is justified. Local partnerships shall spend an amount for child care subsidies that provides at least fifty-two million dollars ($52,000,000) for the Temporary Assistance to Needy Families (TANF) maintenance of effort requirement and the Child Care Development Fund and Block Grant match requirement."

SECTION 12B.3.(b) The Division shall report its findings and recommendations to the Joint Legislative Committee on Health and Human Services and the Fiscal Research Division no later than November 30, 2014. The report shall include separate findings and recommendations for 11- and 12-year olds.

REVISE CHILD CARE ALLOCATION FORMULA

SECTION 12B.4. Section 12B.4 of S.L. 2013-360 reads as rewritten:

"CHILD CARE ALLOCATION FORMULA"

"SECTION 12B.4.(a) The Department of Health and Human Services shall allocate child care subsidy voucher funds to pay the costs of necessary child care for minor children of needy families. The mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation under G.S. 143B-168.15(g) shall constitute the base amount for each county's child care subsidy allocation. The Department of Health and Human Services shall use the following method when allocating federal and State child care funds, not including the aggregate mandatory thirty percent (30%) North Carolina Partnership for Children, Inc., subsidy allocation:

(1) Funds shall be allocated to a county based upon the projected cost of serving children under age 11 in families with all parents working who earn less than seventy-five percent (75%) of the State median income, the applicable federal poverty level percentage set forth in Section 12B.3(a) of this act, as amended.

(2) No county's allocation shall be less than ninety percent (90%) of its State fiscal year 2001-2002 initial child care subsidy allocation.

(3) For fiscal years 2013-2014 and 2014-2015, the Division of Child Development and Early Education shall base the formula identified in subdivision (1) of this subsection on the same data source used for the 2012-2013 fiscal year.

(4) The Department of Health and Human Services shall allocate to counties all State funds appropriated for child care subsidy and shall not withhold funds during the 2013-2014 and 2014-2015 fiscal years.

"SECTION 12B.4.(b) The Department of Health and Human Services may reallocate unused child care subsidy voucher funds in order to meet the child care needs of low-income families. Any reallocation of funds shall be based upon the expenditures of all child care subsidy voucher funding, including North Carolina Partnership for Children, Inc., funds within a county."
"SECTION 12B.4.(c) When implementing the formula under subsection (a) of this section, the Department of Health and Human Services, Division of Child Development and Early Education, shall include the market rate increase in the formula process, rather than calculating the increases outside of the formula process. Additionally, the Department shall do the following:

(1) Beginning fiscal year 2014-2015, implement (i) one-third of the change in a county's allocation based on the new Census data; (ii) an additional one-third of the change in a county's allocation beginning fiscal year 2016-2017; and (iii) the final one-third change in a county's allocation beginning fiscal year 2018-2019. However, the following applies regarding increases to a county's allocation:

a. For the 2014-2015 fiscal year allocations, a county that did not have a child care subsidy waiting list during the 2013-2014 fiscal year shall not receive an increase in its allocation due to the new allocation formula directed in this subdivision.

b. Beginning fiscal year 2015-2016, a county whose spending coefficient is below ninety-five percent (95%) in the previous fiscal year shall not receive an increase in its allocation in the following fiscal year. The Division may waive this requirement and allow an increase if the spending coefficient is below ninety-five percent (95%) due to extraordinary circumstances, such as a State or federal disaster declaration in the affected county. By October 1st of each year, the Division shall report to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division the counties that received a waiver pursuant to this sub-subdivision and the reasons for the waiver.

(2) Effective immediately following the next new Census data release, implement (i) one-third of the change in a county's allocation in the year following the data release; (ii) an additional one-third of the change in a county's allocation beginning two years after the initial change under this subdivision; and (iii) the final one-third change in a county's allocation beginning the following two years thereafter.

CHILD CARE MARKET RATE ADJUSTMENTS

SECTION 12B.5. Effective January 1, 2015, the Department shall implement an adjustment to child care market rates based upon the 2013 Child Care Market Rate Study. Three- to five-star rated child care centers and three- to five-star rated child care homes shall receive twenty-five percent (25%) of the recommended rate adjustments as defined in the 2013 Child Care Market Rate Study.

NC PRE-K AUDITS

SECTION 12B.6. Section 12B.1 of S.L. 2013-360, as amended by Sections 4.2 and 4.3 of S.L. 2013-363, is amended by adding the following new subsection to read:

"SECTION 12B.1.(k) The administration of the NC Pre-K program by local partnerships shall be subject to the biennial financial and compliance audits authorized under G.S. 143B-168.14(b)."

SUBPART XII-C. DIVISION OF SOCIAL SERVICES

CHILD PROTECTIVE SERVICES IMPROVEMENT INITIATIVE

SECTION 12C.1.(a) Findings and Intent. – The General Assembly makes the following findings:
(1) Child Protective Services' policy from the Department of Health and Human Services, Division of Social Services, recommends that the average child protective services caseload be no greater than 10 families at any time for workers performing child protective services assessments and 10 families at any time for staff providing in-home services. However, data suggests that in 43 of the counties in this State, 21 have a caseload size of more than 15 cases per worker; and further, in nine of those 21 counties, there is an average caseload size of more than 20 cases per worker.

(2) During the 2013-2014 fiscal year, county departments of social services lost federal funding for child protective services under the Temporary Assistance for Needy Families (TANF) Block Grant and Title IV-E funding. However, the number of Child Protective Services investigations has grown by twenty percent (20%) from fiscal year 2002 to fiscal year 2012.

(3) There is no current, statewide data available on the performance of county departments of social services regarding child protective services.

(4) There exists the potential for a conflict of interest to arise when a county department of social services has been appointed as guardian for both (i) a child who is the subject of a report of abuse, neglect, or dependency that would be investigated by Child Protective Services and (ii) for the parent or legal guardian of the child.

It is the intent of the General Assembly to (i) reduce caseload size for Child Protective Services' workers to the recommended standard, (ii) provide adequate resources for county departments of social services to provide child protective services for abused, neglected, and dependent children, (iii) provide for a comprehensive evaluation of various functions and funding regarding child protective services, and (iv) study ways to reduce conflicts of interest regarding guardianship and child protective services. To that end, the General Assembly supports the initiatives and the allocation of funds for child welfare services as described in this section.

SECTION 12C.1.(b) Funds for Child Protective Services. – Of the funds appropriated in this act to the Department of Health and Human Services, Division of Social Services, the sum of seven million three hundred sixty-nine thousand nine hundred seventy dollars ($7,369,970) shall be allocated to county departments of social services. Four million five hundred thousand dollars ($4,500,000) of those funds shall be used to replace federal funds counties lost during the 2013-2014 fiscal year previously used to pay for child protective services' workers. Beginning October 1, 2014, the remaining two million eight hundred sixty-nine thousand nine hundred seventy dollars ($2,869,970) shall be used to provide additional funding for child protective services' workers to reduce caseloads to an average of 10 families per worker.

SECTION 12C.1.(c) Funds for In-Home Services. – Of the funds appropriated in this act to the Department of Health and Human Services, Division of Social Services, the sum of four million five hundred thousand dollars ($4,500,000) shall be allocated for child welfare in-home services to provide and coordinate interventions and services that focus on child safety and protection, family preservation, and the prevention of further abuse or neglect.

SECTION 12C.1.(d) Funds for Oversight of Child Welfare Services. – Of the funds appropriated in this act to the Department of Health and Human Services, Division of Social Services, the sum of seven hundred fifty thousand dollars ($750,000) shall be allocated to fund nine positions to the Division to enhance oversight of child welfare services in county departments of social services. These positions shall be used to monitor, train, and provide technical assistance to the county departments of social services to ensure children and families are provided services that address the safety, permanency, and well-being of children served by child welfare services.

SECTION 12C.1.(e) Pilot Program. – Of the funds appropriated in this act to the Department of Health and Human Services, Division of Social Services, the sum of three
hundred thousand dollars ($300,000) shall be used to establish and implement a child protective services pilot program. The funds shall be used to enhance coordination of services and information among county departments of social services, local law enforcement agencies, the court system, guardian ad litem programs, and other agencies as deemed appropriate by the Department. The Department shall determine the number of sites that may participate in the pilot program and include regions that are geographically diverse.

The Division shall coordinate with the Government Data Analytics Center (GDAC) in developing the pilot program and commence the pilot program by December 1, 2014. The Division shall provide a progress report on the pilot program to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division no later than March 1, 2015. The Division shall make a final report of its findings and recommendations on the pilot program to the Joint Legislative Oversight Committee on Health and Human Services no later than March 1, 2016.

SECTION 12C.1.(f) Statewide Evaluation. – Of the funds appropriated in this act to the Department of Health and Human Services, Division of Social Services, the sum of seven hundred thousand dollars ($700,000) shall be used to provide for a comprehensive, statewide evaluation of the State's child protective services system. The Division of Social Services shall contract for an independent evaluation of the system, which evaluation shall include developing recommendations on the following:

1. The performance of county departments of social services as related to child protective services.
2. Caseload sizes.
3. The administrative structure of the child protective services system in the State.
4. Adequacy of funding.
5. Child protective services' worker turnover.
6. Monitoring and oversight of county departments of social services.

The Division shall report the findings and recommendations from the evaluation to the Joint Legislative Oversight Committee on Health and Human Services no later than January 1, 2016.

SECTION 12C.1.(g) Study Conflicts of Interest/Public Guardianship and Child Protective Services. – The Department of Health and Human Services, Division of Social Services, shall study the issue of conflicts of interest in child welfare cases as related to public guardianship. In conducting the study, the Department shall consider the following regarding addressing potential conflicts of interest:

1. Creating internal firewalls to prevent information sharing and influence among staff members involved with the conflicting cases.
2. Creating a formal or an informal "buddy system" allowing a county with a conflict to refer a case to a neighboring county.
3. Referring the guardianship to a corporate guardian until the child welfare case is resolved.
4. Having the Department assume responsibility for either the guardianship or the child welfare case.
5. Recommending legislation to permit the clerk the option to appoint a public agency or official, other than the Director of Social Services, to serve as a disinterested public agent in exceptional circumstances only.
6. Any other issues specific to this matter the Department deems appropriate.

The Division shall submit a final report of its findings and recommendations to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division no later than February 1, 2015.

SECTION 12C.3.(e) No later than October 1, 2014, the Department of Health and Human Services, Division of Medical Assistance, shall submit to the Centers for Medicare and Medicaid Services (CMS) Medicaid and NC Health Choice state plan amendments and Medicaid waivers necessary to achieve the following:

The Department shall report the draft waiver, other findings, and any additional options to provide Medicaid services to those suffering from TBI to the House Appropriations Subcommittee on Health and Human Services and the Senate Appropriations Committee on Health and Human Services by February 1, 2015. "SECTION 12H.13.(b) Effective July 1, 2013, any rate methodologies that contain an automatic inflationary or increase factor shall not increase above the rate in effect on June 30, 2013, unless the rate is otherwise increased by the General Assembly. DRUG REIMBURSEMENT USING AVERAGE ACQUISITION COST

SECTION 12H.8.(a) The Department of Health and Human Services, Division of Medical Assistance, shall adopt an average acquisition cost methodology for brand and generic drug ingredient pricing to be effective beginning on January 1, 2015. The drug ingredient pricing methodology shall be consistent with new federal requirements or, if the new federal requirements have not yet been finalized by October 1, 2014, consistent with the draft federal requirements. In adopting a new drug ingredient pricing methodology, the Department shall also do all of the following:

(1) Raise dispensing fees so that the average acquisition cost ingredient pricing plus the dispensing fees, net of any drug rebates, generates nine hundred
seventy-five thousand dollars ($975,000) in savings in General Fund appropriations.

(2) Maintain a distinction between the dispensing fees for preferred and brand drugs.

(3) Ensure that ingredient prices are updated at least monthly.

SECTION 12H.8.(b) The Department of Health and Human Services, Division of Medical Assistance, shall issue a request for proposals (RFP) for a contractor to perform a statewide drug dispensing fee study to begin on March 1, 2015. SUBSTITUTION OF GENERIC DRUGS FOR UNAVAILABLE PREFERRED DRUGS

SECTION 12H.8A. If the Department of Health and Human Services, Division of Medical Assistance, finds that there are net General Fund savings to the Medicaid program from doing so, then the Division may allow a pharmacist to substitute and dispense a generic drug in place of a preferred drug without prior authorization, subject to all of the following being true:

(1) The Division normally requires the dispensing of the preferred drug over the equivalent generic drug.

(2) The pharmacist has not been able to acquire the preferred drug from at least two separate wholesalers within the two weeks prior to dispensing the generic substitute.

(3) The pharmacist maintains records of the failed attempts to acquire the preferred drug. Such records shall be open to inspection and audit by the Division.

(4) The prescriber has not indicated that the preferred drug is "medically necessary."

(5) The pharmacist notifies the prescriber of the substitution and receives approval from the prescriber for the substitution.

(6) The pharmacist notifies the patient of the substitution and gives the patient the opportunity to accept or refuse the substitution.

For purposes of this section, "savings to the Medicaid program" shall not be limited to savings within the prescription drug service area but shall also include savings in other areas of the program, such as savings associated with eliminating the prior authorization process or savings from instances where missed doses may lead to negative and costly patient outcomes.

MENTAL HEALTH DRUG MANAGEMENT

SECTION 12H.9.(a) Effective January 1, 2015, Section 12H.13(g) of S.L. 2013-360, as amended by Section 4.4 of S.L. 2013-363, is repealed.

SECTION 12H.9.(b) Effective January 1, 2015, the Department of Health and Human Services, Division of Medical Assistance, shall manage mental health drugs to produce twelve million dollars ($12,000,000), net of rebates, in recurring annual savings to General Fund appropriations to the Medicaid program. In order to achieve these savings, the Department shall first make adjustments to the preferred drug list to maximize supplemental rebates. Next, in order to achieve these savings, the Department is authorized to impose controls including prior authorization, utilization review criteria, and other restrictions. Notwithstanding the foregoing, because of the effective date of this section, savings in fiscal year 2014-2015 shall be six million dollars ($6,000,000).

SECTION 12H.9.(c) No later than October 1, 2015, the Department of Health and Human Services, Division of Medical Assistance, shall report to the Joint Legislative Oversight

SECTION 12H.10.(a) The Department of Health and Human Services, Division of Medical Assistance, shall implement the rate reduction specified in Section 2 of S.L. 2013-306 retroactively to October 1, 2013, by recouping all payments in excess of the rate approved in the State plan amendment required in Section 3 of S.L. 2013-306. The Department shall then additionally recoup the three percent (3%) reduction required by Section 12H.18(b) of S.L. 2013-360.

SECTION 12H.10.(c) The Joint Legislative Oversight Committee on Health and Human Services shall engage a contractor to study issues related to reforming and redesigning personal care services (PCS) while meeting the State's obligations under the Americans with Disabilities Act and the United States Supreme Court's decision in Olmstead v. L.C. ex rel. Zimring, 527 U.S. 581 (1999). The study shall examine the following issues:

1. What categories of Medicaid recipients are currently receiving PCS, and in what settings are they being served?
2. What is the total number of Medicaid recipients receiving PCS in each category, and what is the anticipated growth in each category?
3. What is the current cost of serving Medicaid recipients in each setting, and specifically, the sources of public funding utilized to serve those individuals?
4. What alternative, more cost-effective assistance models could be implemented for each category of Medicaid recipient?
5. Specifically, whether more cost-effective assistance could be offered through the new 1915(i) State plan home- and community-based services and 1915 waiver options for each category of Medicaid recipient.
6. Recommendations regarding what outcomes the redesigned program should be designed to achieve.
7. The impact of reforming and redesigning personal care services on appeals and litigation.
8. Other areas as deemed appropriate by the chairs of the Joint Legislative Oversight Committee on Health and Human Services.

The study shall specifically examine the effect of the moratorium on home care agency licenses for in-home aide services required by Section 12G.4 of this act and the moratorium on special care unit licenses required by Section 12G.5 of this act and make recommendations on whether each of these moratoria should be continued.

The study shall also address the quality of resident care within adult care homes and the adequacy of State oversight of adult care homes, including inspections, procedures, and processes.

No later than December 1, 2015, the contractor shall report the results and recommendations of the study to the Joint Legislative Oversight Committee on Health and Human Services. The Department of Health and Human Services shall give the contractor full access to all data necessary to complete the study and the report. The Department of Health and Human Services shall make payments to the contractor hired by the Joint Legislative Oversight Committee on Health and Human Services from funds appropriated elsewhere in this budget for this contract as well as from federal Medicaid matching funds available for this contract.

SECTION 12H.37.(b) Any State Plan Amendment required to implement this section shall not be subject to the 90-day prior submission requirement of G.S. 108A-54.1A(e).

MEDICAID CONTINGENCY RESERVE

These funds shall be available for expenditure only upon an appropriation by act of the General Assembly.

SECTION 12H.38.(b) It is the intent of the General Assembly to appropriate funds from the Medicaid Contingency Reserve only if:

The report shall also include data in an electronic format that is adequate for the Fiscal Research Division to confirm the amount of the shortfall and its causes.

SECTION 12H.38.(c) Effective 90 days after the State plan amendment is submitted to the Centers for Medicare and Medicaid Services (CMS) or when CMS approves the State plan amendment, whichever occurs later, eligibility for Medicaid coverage is delinked from eligibility for State-County Special Assistance and recipients of State-County Special Assistance no longer automatically qualify for Medicaid coverage solely because of their receipt of State-County Special Assistance.

SECTION 12H.38.(d) Nothing in this section shall be construed to limit the authority of the Governor to carry out his duties under the Constitution.

5. A projection of current year expenditures by program or activity.
6. A projection of federal Block Grant funds available, including unspent federal funds from the current and prior fiscal years."
"SECTION 12J.1.(c) Changes in Federal Fund Availability. – If the Congress of the United States increases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall allocate the increase proportionally across the program and activity appropriations identified for that Block Grant in this section. In allocating an increase in federal fund availability, the Office of State Budget and Management shall not approve funding for new programs or activities not appropriated in this section.

If the Congress of the United States decreases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall develop a plan to adjust the block grants based on reduced federal funding.

Notwithstanding the provisions of this subsection, for fiscal years 2013-2014 and 2014-2015, increases in the federal fund availability for the Temporary Assistance to Needy Families (TANF) Block Grant shall be used only for the North Carolina Child Care Subsidy program to pay for child care in four- or five-star rated facilities for four-year-old children and shall not be used to supplant State funds.

Prior to allocating the change in federal fund availability, the proposed allocation must be approved by the Office of State Budget and Management. If the Department adjusts the allocation of any Block Grant due to changes in federal fund availability, then a report shall be made to the Joint Legislative Oversight Committee on Health and Human Services, the Joint Legislative Commission on Governmental Operations, and the Fiscal Research Division.

"SECTION 12J.1.(d) Except as otherwise provided, appropriations from federal Block Grant funds are made for each year of the fiscal biennium ending June 30, 2015, according to the schedule enacted for State fiscal years 2013-2014 and 2014-2015 or until a new schedule is enacted by the General Assembly.

The report shall include an itemized listing of affected programs, including associated changes in budgeted allocations. All changes to the budgeted allocations to the Block Grants shall be reported immediately to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division. This subsection does not apply to Block Grant changes caused by legislative salary increases and benefit adjustments.

"SECTION 12J.1.(e1) Except as otherwise provided, the Department of Health and Human Services shall have flexibility to transfer funding between the Temporary Assistance to Needy Families (TANF) Block Grant and the TANF Emergency Contingency Funds Block Grant so long as the total allocation for the line items within those block grants remains the same.

If the sentencing judge makes a finding of fact that the person would be suitable for placement in a county satellite jail/work release unit and the person meets the requirements listed in G.S. 153A-230.3(a)(1), then the custodian of the local confinement facility may transfer the misdemeanant to a county satellite jail/work release unit.

(d) Notwithstanding any other provision of law, when the sentencing court, with the consent of the person sentenced, orders that a person convicted of a misdemeanor be granted work release, the court may commit the person to a specific prison facility or local confinement facility or satellite jail/work release unit within the county of the sentencing court in order to facilitate the work release arrangement. When appropriate to facilitate the work release arrangement, the sentencing court may, with the consent of the sheriff or board of commissioners, commit the person to a specific local confinement facility or satellite jail/work release unit in another county, or, with the consent of the Division of Adult Correction of the Department of Public Safety, commit the person to a specific prison facility in another county. The Division of Adult Correction of the Department of Public Safety may transfer a prisoner committed to a specific prison facility to a different facility when necessary to alleviate overcrowding or for other administrative purposes.

§ 148-32.1. Local confinement, costs, alternate facilities, parole, work release.

(a) Repealed by Session Laws 2009-451, s. 19.22A, effective July 1, 2009.

(b) In the event that the custodian of the local confinement facility certifies in writing to the clerk of the superior court in the county in which the local confinement facility is located that the local confinement facility is filled to capacity, or that the facility cannot reasonably accommodate any more prisoners due to segregation requirements for particular prisoners, or that the custodian anticipates, in light of local experiences, an influx of temporary prisoners at that time, or if the local confinement facility does not meet the minimum standards published pursuant to G.S. 153A-221, any judge of the district court in the district court district as defined in G.S. 7A-133 where the facility is located, or any superior court judge who has jurisdiction pursuant to G.S. 7A-47.1 or G.S. 7A-48 in a district or set of districts as defined in G.S. 7A-41.1 where the facility is located may order that a prisoner not housed pursuant to the Statewide Misdemeanant Confinement Program established in subsection (b2) of this section be transferred to any other qualified local confinement facility within that district or within another such district where space is available, including a satellite jail unit operated pursuant to G.S. 153A-230.3 if the prisoner is a non-violent misdemeanor, which local facility shall accept the transferred prisoner.

If no other local confinement facility is available and the reason for the requested transfer is that the local confinement facility that would be required to house the prisoner cannot reasonably accommodate any more prisoners due to segregation requirements for particular prisoners or the local facility does not meet the minimum standards published pursuant to G.S. 153A-221, then the judge may order that a prisoner not housed pursuant to the Statewide
Misdemeanant Confinement Program established in subsection (b2) of this section be transferred to a facility operated by the Division of Adult Correction of the Department of Public Safety as designated by the Division of Adult Correction. In no event, however, shall a prisoner whose term of imprisonment is less than 30 days be assigned or ordered transferred to a facility operated by the Division of Adult Correction.

(b1) It is the intent of the General Assembly to authorize the Division of Adult Correction to enter into voluntary agreements with counties to provide housing for misdemeanants serving periods of confinement of more than 90 days and up to 180 days and for all sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. It is further the intent of the General Assembly that the Division of Adult Correction, in conjunction with the North Carolina Sheriffs' Association, Inc., establish a program for housing misdemeanants serving periods of confinement of more than 90 days and up to 180 days, except for those serving sentences for an impaired driving offense and for all sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. It is also the intent of the General Assembly that the Division of Adult Correction contract with the North Carolina Sheriffs' Association, Inc., to provide a service that identifies space in local confinement facilities that is available for housing these misdemeanants.

The General Assembly intends that the cost of housing and caring for these misdemeanants, including, but not limited to, care, supervision, transportation, medical, and any other related costs, be covered by State funds and not be imposed as a local cost. Therefore, the General Assembly intends that the funds in the Statewide Misdemeanant Confinement Fund established in G.S. 148-10.4 be used to provide funding to cover the costs of managing a system for providing that housing of misdemeanants in local confinement facilities as well as reimbursing the counties for housing and related expenses for those misdemeanants.

(b2) The Statewide Misdemeanant Confinement Program is established. The Program shall provide for the housing of misdemeanants from all counties serving sentences imposed for a period of more than 90 days and up to 180 days, except for those serving sentences for an impaired driving offense under G.S. 20-138.1 and for all sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. Those misdemeanants shall be confined in local confinement facilities except as provided in subsections (b3) and (b4) of this section. The Program shall address methods for the placement and transportation of inmates and reimbursement to counties for the housing of those inmates. Any county that voluntarily agrees to house misdemeanants from that county or from other counties pursuant to the Program may enter into a written agreement with the Division of Adult Correction to do so.

This Program shall only operate as long as sufficient State funds are available through the Statewide Misdemeanant Confinement Fund established in G.S. 148-10.4(c).

SECTION 16C.1.(g) This section becomes effective October 1, 2014, and applies to (i) persons placed on probation or sentenced to imprisonment for impaired driving under G.S. 20-138.1 on or after January 1, 2015, and (ii) persons placed on probation or sentenced to imprisonment for all other misdemeanors other than impaired driving under G.S. 20-138.1 on or after October 1, 2014.

The Department of Public Safety shall study the potential benefits and costs of contracting for maintenance services at prison facilities and report its findings to the 2013 Session of the General Assembly. The Department may expand private maintenance contracts to additional prison facilities if it determines that savings can be realized by doing so and that safety can be maintained at those facilities. The Department shall report to the Joint Legislative Commission on Governmental Operations on the anticipated savings and on safety considerations prior to entering any prison maintenance contract under this section."

The Department shall have the right to audit any given provider to determine the actual prevailing charge to ensure compliance with this provision. This section does apply to vendors providing services that are not billed on a fee-for-service basis, such as temporary staffing. Nothing in this section shall preclude the Department from contracting with a provider for services at rates that provide greater documentable cost avoidance for the State than do the rates contained in this section or at rates that are less favorable to the State but that will ensure the continued access to care."

SECTION 16C.6.(b) Section 19.6(c) of S.L. 2010-31 reads as rewritten:

"SECTION 19.6.(c) The Department of Correction shall consult with the Division of Medical Assistance in the Department of Health and Human Services to develop protocols for prisoners and juveniles committed to the Department who would be eligible for Medicaid if they were not incarcerated to access Medicaid while in custody or under extended limits of confinement, or committed to the Department. A defendant may receive only two periods of confinement under this subsection. If the 90-day term of confinement ordered under this subsection for a felony shall not be reduced by credit for time already served in the case. Any such credit shall instead be applied to the suspended sentence. However, if the time remaining on the maximum imposed sentence on a defendant under supervision for a felony conviction is 90 days or less, then the term of confinement is for the remaining period of the sentence. Confinement under this section shall be credited pursuant to G.S. 15-196.1.

When a defendant under supervision for a misdemeanor conviction has violated a condition of probation other than G.S. 15A-1343(b)(1) or G.S. 15A-1343(b)(3a), the court may impose a

The period of confinement imposed under this subsection on a defendant who is on probation for multiple offenses shall run concurrently on all cases related to the violation. Confinement shall be immediate unless otherwise specified by the court.

A defendant shall serve any confinement imposed under this subsection in the correctional facility where the defendant would have served an active sentence."

The Department may also consult with any private for-profit or nonprofit firm about the possibility of converting the facility to other use. In addition, the Department of Public Safety may use available funds to reopen and convert closed facilities for use as treatment and behavior modification facilities for offenders serving a period of confinement in response to violation pursuant to G.S. 15A-1344(d2)."
